

# **PLYMOUTH WATER EVENTS DIARY 2021**

## **PORT OF PLYMOUTH WATER EVENTS DIARY 2021**

This year's Water Events Diary has been produced as a pure information document containing only information directly associated with Water Events occurring within the Dockyard Port of Plymouth. The Diary is published on the Queen's Harbour Master, Plymouth Website - <http://www.royalnavy.mod.uk/qhm/plymouth> Copies of the Water Events Diary can be obtained by writing to QHM Facilities Manager, Longroom PCS, Stonehouse, Plymouth, PL1 3RT.

### **QHM WEB SITE**

QHM's web site- contains much information relevant to mariners, including the Dockyard Port of Plymouth Order 1999, current Water Events Diary, PLNTMs, Plymnavwarns, the Daily Movements Programme and a plethora of recreational information. Any suggestions or ideas concerning the web site should be forwarded to QHM, QHM Port Safety Officer, Longroom House, Stonehouse, Plymouth, PL1 3RT or e-mail to [plymouth@qhm.mod.uk](mailto:plymouth@qhm.mod.uk)

### **INFORMATION CHANGES and UPDATES**

It is necessary from time to time to inform mariners of changes to navigational information affecting the port, be they of a temporary nature or for the longer term. Additionally, events or circumstances may change so there is not only a need for flexibility, but there also needs to be a means of communicating updated information. The Queen's Harbour Master Plymouth uses the following means to promulgate and update information.

#### **Plymouth Local Notices to Mariners (PLNTM)**

These are formal notices of maritime safety information that affect all local mariners. Information promulgated in PLNTM tends to be that of longer-term duration, although not necessarily so. Examples are maintenance dredging operations or information additional to the Dockyard Port of Plymouth Order. There is an annual publication of notices each year dated 1st January, which reissues all those notices from the preceding year which are still in date and the notices are sequentially numbered \*\*/20. Thereafter, throughout the year, further notices will be issued as required and will pick up the numerical sequence from the annual publication for the year. All notices are published on QHM's website. Individuals can register for email alerts for new PLNTMs via the website.

#### **Plymouth Navigation Warnings (PLYMNAVWARNS)**

PLYMNAVWARNS are messages signalled to Naval authorities or emailed to the commercial merchant authorities and recreational mariners that report short term navigational information of immediate interest to local mariners. For example they report lights temporarily extinguished or buoys temporarily off station. QHM Website will publish Plymnavwarns and an email alert system is available to those that register.

Both PLNTM and PLYMNAVWARNS are passed to the Hydrographic Office at Taunton where the Maritime Safety cell may then re-promulgate the information as either WZ messages, Navarea 1 messages or even an Admiralty Notice to Mariners. Vessels equipped with Navtex receivers can thus receive the information when urgent.

## **The Daily Movements Programme**

The Movements Programme is issued at 1100 GMT daily that gives details of known shipping movements in and out of the port for the following day. Movement's Programme for Saturday, Sunday and Monday are issued on Fridays. The programme primarily covers Naval and Ferry shipping movements and consequently should not be relied upon for traffic in and out of the Cattewater.

The Programme also gives tidal information, sunrise and sunset times, and the status of PLNTM and PLYMNAVWARNS. The Daily Movements Programme can be found by visiting QHM's Web site which is updated daily.

Organisers of sail racing events in the Sound or Hamoaze are encouraged to use this facility. Notwithstanding the promulgated movements, mariners are reminded that it is but a plan i.e. a basis for change, and may thus not represent what is truly happening! For up to date movements Longroom or Flag Port Control Stations should be contacted.

## **Water Events Diary Amendments**

The Water Events Diary will be amended to reflect any changes. These reflect the changes that organisers of events on the waters of the Dockyard Port are sometimes obliged to make, similarly, new events can also be incorporated into the diary section. Organisations should apply to the Deputy Queen's Harbour Master at the Longroom Port Control Station to change existing events or to incorporate new events into the diary.

## **WATER EVENT INFORMATION DOCUMENT AND CONDUCT OF EVENTS**

### ***Guidance on completing the Water Event Information Document and conduct of an event***

#### **Introduction**

The Water Event Information Document (WEID) is designed as a working tool for both organisers of events afloat in the Dockyard Port of Plymouth and personnel manning the Port Control Stations at Longroom and Flagstaff. It is a means of reconciling recreational, commercial and military activities within the Dockyard Port.

#### **Aim**

To remove any ambiguity by formalising communication, thus promoting safety.

#### **Application**

The WEID is to be completed by organisers (or race officers) of events to seaward of the Saltash and Laira Bridges, and inshore of these locations when the event is expected to pass to seaward of those positions for:

- a) All events likely to impact on, or interact with other water users.
- b) Series events
- c) Events specified by QHM.

#### **Completing the WEID**

The WEID comprises of two parts with several sections. Most are self-explanatory and many prudent event organisers will already address the constituent elements. This form is now an electronic version that can be emailed to [NAVYNBCD-QHMLongroom@mod.uk](mailto:NAVYNBCD-QHMLongroom@mod.uk) and can be found on the same page as the Water Events Diary.

Part 1 can be completed well in advance if required. The Serial Number is provided by Longroom Port Control and provides a unique identifier for a particular event.

Part 2 can either be completed in advance for a one off event; omitted for a Series, or completed for a Series of races.

#### **Passing the Information**

Having completed Part 1 (and where possible Part 2) either photocopy it if you have the facility, or make a true copy and send a copy to Longroom Port Control by email. Longroom will pass the information to Flag when required for events in the Hamoaze.

Longroom will reply via email - using the originators email address and allocate a Form serial number that is unique to your event. This should then be quoted in any subsequent communication or exchange of information. Individual competitions within Series Events will use their unique identifier plus a letter suffix to identify the individual event.

## **Conducting an Event**

**On the day of the event check the movements programme for any conflicts and amend timings/plans as necessary.**

**Contact the relevant Port Control Station (PCS) for any updates and details of commercial traffic.**

**Confirm contact details on the WEID are correct (i.e. mobile number to back-up VHF Comms).**

**Pass details of intended area of operations, expected duration and proposed courses.**

**The PCS will provide information of movements and other activities (e.g. diving) and advise where deconfliction is required.**

**Once afloat a continuous radio watch is to be maintained on VHF Channel 14.**

**Please let us know when the event is completed and the water is clear.**

**If you have any problems first call Longroom Port Control on 01752 836528/836953/836490 or second, Flagstaff Port Control on 01752 552413/552416.**

1. Appearance of a diary event in this publication means that it has the Queen's Harbour Master's approval to take place, it has no priority over any other activity on the water; nor does it have exemption from the Port regulations unless special dispensation is obtained. All water users are reminded that, unless specifically amended by a Notice to Mariners or the Dockyard Port of Plymouth Order, then the International Regulations for Preventing Collision at Sea (1972) are overriding. Approval for any further events should be sought from the Deputy Queen's Harbour Master, Longroom Port Control Station, Stonehouse, Plymouth, PL1 3RT. (Tel: Plymouth 836485).

### PARTICIPATING CLUBS AND ORGANISATIONS DECODE

<u>ABBREVIATION</u>	<u>CLUB</u>
BSAC	BRITISH SUB AQUA CLUB
