

**Duration**

5 – 15 days  
(dependant on  
experience, craft  
and training  
areas)

**Max Capacity**

3 students per  
craft (minimum  
2 craft required)

# IDT MTT - LANDING CRAFT

**AIM OF SUBJECT**

Landing Craft are a versatile craft that come in a multitude of sizes with varying capabilities and are designed to operate in the most hostile of locations and environments. The safe and effective operation of Landing Craft both tactically and non-tactically requires Coxswains and crew to have a good knowledge of their craft and competent experience of being on the water.

**OUTLINE SYLLABUS**

The subject will ensure the students (coxsn and crew) have a thorough knowledge of their craft and ability to respond effectively to onboard emergencies. Craft handling will be conducted by day and night and cover basic handling, emergency handling, towing, anchoring, landing on a beach in surf and tactical operations.
