# AMPHIBIOUS WARFARE COURSE

**AIM OF COURSE**

To provide a broad introduction to Littoral Manoeuvre (LitM) and Amphibious Warfare (AW)

**COURSE OBJECTIVES**

For students to:

- ◆ Gain an understanding of Littoral Manoeuvre and Amphibious Warfare
- ◆ Understand the C2 and staff processes associated with Amphibious Operations
- ◆ Develop an understanding of the Amphibious Planning process and the conduct of Amphibious Operations

**OUTLINE SYLLABUS**

The syllabus covers all aspects of planning an Amphibious Operation from receipt of the initiating directive to the completion of the action.

It includes the following:

- ◆ Littoral context, Amphibious doctrine, typical Amphibious Force Organisation
- ◆ Command and Control (including staff functions, roles and planning techniques)
- ◆ Planning and Sequencing of Amphibious Operations:
  - (including Amphibious Embarkation process, Ship to Objective Manoeuvre and an Operational to Tactical Planning exercise in syndicates)
- ◆ Enabling capabilities/activities:
  - Including ISTAR, Fires, Aviation, Amphib Logistics and Battlespace Management

**ENTRY STANDARDS**

- ◆ The courses are suitable for all Officers (Generally Senior OF2/OF3) and Senior NCOs (OR 6-9), of any branch who are/will be closely involved with the planning and conduct of amphibious operations; for both the Maritime and Land aspects
- ◆ Places may be allocated to NATO, Australian and New Zealand officers
- ◆ Applications for places from other Nations will be considered following engagement with embassies and MoD partnership desks
