d. **Imprisonment Leading to Discharge.** In cases where a non-British officer, rating or other rank has committed a criminal offence and is discharged from the Naval Service and sent to a UK prison, the officer, rating or other rank’s passport is to be endorsed as above and notification provided to the Home Office along with details of the sentence. There is no specific authority entitling members of HM Forces to hold the passport of a non-British citizen and therefore it may be helpful (for instance at courts-martial) if the Judge Advocate directs that the individual is to surrender their passport for the appropriate action to be taken. The Home Office is responsible for any subsequent administrative action. Units should seek advice from the Home Office Armed Forces Team if required. Service support to families in such cases is provided in the same way as for British Citizens in respect of continued entitlement to Service Families Accommodation or Families Maintenance Grants and advice should be sought from the appropriate JSP.
e. **Advice for Units Administering Medical Dischargees with Serious Conditions.** Current Naval Service medical discharge procedures apply (BR1991, Chapter 18, Royal Naval Medical Service, Medical Boards). Individuals with serious medical conditions who have served for 4 years and are eligible for ILR may apply up to 10 weeks prior to their actual discharge date along with any immediate family (spouse/civil partner and dependent children under the age of 18) citing any permanent need for medical care as the reason for this. Unit letters and medical evidence should support such applications. The Home Office will consider such cases under the normal rules. If the officer, rating or other rank is eligible for ILR, the Home Office will provide the unit with an ‘indicative’ letter in advance of the discharge date confirming that ILR will be granted and that the individual and their dependants will be eligible to apply for public funds. This will enable the unit, in conjunction with the individual concerned, to arrange private accommodation or to facilitate an application to an appropriate UK Local Authority (LA) for accommodation and or specialist care. Individuals seeking support from a LA normally have to demonstrate recent residency or family ties. Support and aftercare is normally provided in the UK in accordance with current Service regulations and can include assistance through the Divisional System, NS FPS, JSHAO, Veterans UK and various Naval Service charities (eg. RNBT) and the individual’s own disability/legal representatives in conjunction with any local authority support.

f. It should be noted that the current legal position is that the Home Office is unable to grant settlement/ILR until the day an individual is actually discharged from HM Forces.

g. **Medical Discharge as a Direct Result of Injuries Sustained on Operations where Less than Four Years has been Served.** Where a non-British member of the Naval Service is medically discharged as a direct result of injury sustained in an operational theatre, the requirement for them to have completed at least 4 years’ service before they can qualify for a grant of ILR will generally be waived. This means that individuals discharged in these circumstances will normally qualify for ILR even if they have not completed four years’ RN/RM service. Where settlement is granted, the accompanying spouse/civil partner and dependent children will normally also qualify for ILR at the same time. Commanding Officers are to ensure that individuals are briefed that they will need to submit supporting medical evidence with their application.
h. Other Forms of Discharge with Less than 4 Years’ HM Forces Service. Prior to deciding whether to submit an application for Limited or Indefinite Leave to Remain, individuals are advised to consult the rules and guidance published on the Home Office website in order to decide what type of application may be appropriate. All applications will be considered by the Home Office in accordance with the immigration rules and the relevant guidance. The Home Office has confirmed that each case will be decided on its merits, taking account of all factors, including misconduct or criminal behaviour, and any supporting evidence submitted by the applicant eg. concerning the source and details of any injury or medical condition. Where discharge results from injury sustained during initial training or is due to a medical condition not attributable to Naval Service, it would not normally be appropriate to waive the requirement to have completed 4 years’ service prior to discharge for the purpose of considering an application for settlement. However, where a substantial part of the minimum four years’ service requirement has been served prior to discharge, discretion may be exercised by the Home Office to allow settlement. These conditions would also apply if an application was raised for settlement from an individual medically discharged as a result of a pre-existing medical condition being exposed after enlistment.

i. Further Information. Further information on visa/citizenship eligibility, leave to remain, fees etc, refer to the following websites:

5466. Valedictory Letters and Certificates
For details of required Valedictory Letters and Certificates, see Annex 54G.
SECTION 9 – RESERVE LIABILITY

Personnel leaving the Service normally have a Reserve Liability. This Liability will depend on a number of factors and will be shown on the Certificate of Termination. The completion of the Certificate at the end of engagement/career/commission is the responsibility of JPAC. For all other situations it is the responsibility of the appropriate Career Manager.

a. **Officers.** The Retired List is restricted to officers serving on pensionable commissions on the trained strength who are released from the Active List and whose commissions have not been resigned or terminated by the Service. Thus, officers leaving the service on Early Termination will retain their reserve liability.

b. **Ratings and Other Ranks.** All ratings and other ranks released under usual circumstances (including Early Termination) will normally have a reserve liability when leaving the Service. The type of reserve service and period of liability will depend on the Reserve Forces Act (RFA) to which individuals are subject when they are released.

c. For details on Reserve Liability, see Annex 54I.

Notes:

1. Discharge may be authorised by the individual’s CO (as defined for the purposes of Discipline in accordance with AFA 06) provided the CO is OF4 rank or above. Where the individual’s CO is OF3 or below, they must apply for discharge to the first superior officer in their discipline Chain of Command of OF4 rank or above. Where any CO considers that an individual is not culpable for their positive CDT result, application for retention must be made to the CO’s 1* higher authority (for the purposes of AFA 06) or NAVSEC where the 1* HA is not a member of the Naval Service. All Deciding Officers MUST take legal advice from the Regional Legal Office prior to disclosure AND prior to issuing a decision letter.

2. Discharges and administrative actions annotated with “see also Note 2” may be approved by the first OF5 in the individual’s discipline Chain of Command (ie. for the purposes of AFA 06) excluding where the individual’s CO is an OF5, in which case the action must pass to the ‘immediate superior’. The deciding OF5 MUST take legal advice from the appropriate legal office (Regional Legal Office and/or Casework Cell) prior to disclosure AND prior to issuing a decision letter.

3. Discharges and Administrative actions annotated with “see also Note 3” may be approved by the individual’s CO (as defined for disciplinary purposes in accordance with AFA 06) unless the CO is OF3 rank or below in which case they must refer the matter to a first superior officer in the individual’s discipline Chain of Command of OF4 rank or above. All Deciding Officers MUST take legal advice from the appropriate legal office (Regional Legal Office and/or Casework Cell) prior to disclosure AND prior to issuing a decision letter.
Notes:

4. **Discharge SHORE (DUDT).** NAVSEC’s RLO(E)/10.07/1 dated 7 Aug 18 applies. Delegated post holders are:

   - **HMS RALEIGH**
     - Phase 1 Trainees: Cdr T and The Commander
   - **DCLPA Worthy Down**
     - Phase 2 Trainees: CO FSTW (Head of RN Training, DCLPA)
   - **HMS RALEIGH**
     - Phase 2 Trainees: Commandant DMLS, OC RNSMS and The Commander
   - **CTCRM**
     - Phase 1 & 2 Trainees: CO CTW and Commandant CTCRM
   - **Royal Marines Band Service**
     - Phase 1 & 2 Trainees: Commandant CTCRM and CO Specialist Wing
   - **HMS COLLINGWOOD**
     - Phase 2 Trainees: Cdr Training Support
   - **FOST HM**
     - Phase 2 Trainees: Commander Mobile Sea Training
   - **HMS SULTAN**
     - Phase 2 Trainees: XO HMS SULTAN, Cdr T, Cdr ME and OC RNAESS
   - **RNAS Culdrose**
     - Phase 2 Trainees: Cdr A&T
   - **RNAS Yeovilton**
     - Phase 2 Trainees: Cdr AE and Cdr Air
   - **RAF SHAWBURY**
     - Phase 2 Trainees: CFI (when filled by RN SO1)
   - **HMS NEPTUNE**
     - Phase 2 Trainees: ST7
   - **DMS TG**
     - Phase 2 Trainees: Cdr Defence College Healthcare Education and Training
   - **RNR & RMR**
     - Phase 1 & 2 Trainees: COs of Reserves Establishments

5. **Discharge SHORE (TU(I)).** Where a Consultant Psychiatrist or Senior Psychiatrist classifies the rating as having an irremediable degree of Temperamental Unsuitability, discharge may be approved by the first RN OF5 in the individual’s discipline Chain of Command.

6. NAVSEC is authorised to approve discharge from the Service of officers on the trained strength up to and including OF5. In other circumstances, applications will be considered by the Admiralty Board. NAVSEC is authorised to remove an officer’s commission for officers up to and including OF5.

---

1 When Chief Flying Instructor at RAF SHAWBURY is not a RN SO1, applications from RAF SHAWBURY for RN Discharge SHORE (DUDT) are to be made to Cdr Air, RNAS YEOVILTON.

54A-6 of 7
February 2020 Version 1
Notes:

7. **Officer Withdrawal from Training.** CO BRNC and Cmdt CTCRM respectively are authorised to approve Compulsory Withdrawal from Training (CWFT) cases involving RN and RM officers undertaking Phase 1 training. NPS DACOS Strat Pol and NAVY NPS TERMS SO1C are authorised to approve CWFT for all Phase 2 cases. NAVY NPS TERMS SO1C and TERMS SO2C are authorised to approve Exceptional Voluntary Withdrawal from Training cases.

8. **Conscientious Objection.** NAVSEC is authorised to approve early termination and resignation of commission for officers who have completed Phase 1 training on the grounds of conscientious objection. NAVSEC is authorised to approve voluntary withdrawal from training on the grounds of conscientious objection for officers who have not completed Phase 1 Training, ratings and other ranks.

9. **Removal from Assignment.** NAVSEC is authorised to decide on all cases involving COs and OF4s or equivalent and above (up to and including OF6). ACOS(PCap) has delegated authority to approve Removal from Assignment of OF3s and below providing they are not in Command. DACOS CM and DACOS BM have delegated authority to approve the removal of other ranks or ratings from assignments.

10. The following have delegated authority to discharge a rating or other rank SHORE, SNLR or Compassionate in accordance with Chapter 54: NA, ACOS(PCap), ACOS(T), NPS DACOS Strat Pol, DACOS CM, DACOS BM, DACOS OPS and PLANS, Principal Director of Music, RMBS.

11. The following also have delegated authority to approve reversion and re-promotion following reversion: NA, ACOS(PCap), NPS DACOS Strat Pol, DACOS OPS and PLANS, DACOS CM, DACOS BM.

ANNEX 54D

DISCHARGE ON THE GROUNDS OF TEMPERAMENTAL UNSUITABILITY

Points of Contact: CA Psych to MDG(N)and NAVY LEGAL-EMPLOYMENT LAW SO1

SECTION 1 – INTRODUCTION

1. Discharge Temperamentally Unsuitable – Policy

Service persons (both officers and ratings) may be discharged on the grounds of temperamental unsuitability (TU). The grounds for the compulsory withdrawal from training (untrained strength) or administrative discharge (trained strength) for officers is set out in Para 5436 and Para 5437 respectively; the discharge SHORE of ratings and other ranks is shown in Para 5442. Discharge on the grounds of TU is an executive action and not a form of medical discharge. Each application must be supported by a psychiatric report. This Annex describes the referral and assessment process, which is the same for all personnel. Discharge action is also described, which varies according to the rank of the individual and the rank of the Commanding Officer (CO).

2. Discharge TU Authorities

The CO should be involved in the instigation of a referral for assessment of TU. The Psychiatrist is responsible for distinguishing those who have mental health problems that are remediable or require medical discharge from those who need to be solely managed by the Executive. The Psychiatrist, in cases considered to display TU (whether potentially remediable or irremediable – see below), will classify the degree of TU and will also indicate, in cases of Irremediable TU, the degree of urgency with regard to application for discharge. The CO is responsible for consideration of an application for discharge or any further administrative action recommended.

3. Explanation of TU Terms

The following paragraphs outline the meaning of terms with regard to TU.

4. Temperamental Unsuitability (TU)

Temperamental Unsuitability means a persistent\(^1\) and obvious\(^2\) failure by the individual to adapt to the basic, but unique demands of Service life. These demands include toleration of:

a. Separation from family.

b. Naval discipline and military hierarchy.

c. The need for self-discipline.

d. Close quarter living.

\(^1\) Persistent - similar maladaptive behaviour or symptoms manifest in different service situations over a reasonable period of time, i.e. some months.

\(^2\) Obvious - maladaptive behaviour or symptoms that are not trivial and that come to the attention of medical, welfare or executive authorities and that do not respond to appropriate management.
There are no reliable methods to screen individuals at entry or during training as to predict whether they will so adapt.

5. **Temperamental Unsuitability - Potentially Remediable (TU(R))**
   This person presents with difficulties adapting to Service life, but there are reasonable grounds to believe that he or she might adapt with help.

6. **Temperamental Unsuitability - Irremediable (TU(I))**
   This person's temperament is such that, in all probability, he or she will be incapable of making the necessary adaptation to Service life.
SECTION 2 – PROCESS FOR REFERRAL, ASSESSMENT AND APPLICATION FOR DISCHARGE

7. Procedure

a. Responsibilities for referral and assessment of personnel considered potentially TU are laid out below, starting at Para 10. In those personnel considered to display:

(1) TU(R) - the Psychiatrist will use the following wording in their report:

“In accordance with Annex 54D, it is considered that [rank and name] displays Potentially Remediable Temperamental Unsuitability.”

It is recommended that such individuals should be placed on a three month CO’s warning during which time they should receive appropriate medical, divisional or welfare support and administrative action to assist them in settling within the Service environment. If at the end of that period there is no indication of any improvement, consideration should be given to discharge action or a further period of warning. Further assessment by a Consultant Psychiatrist would not normally be required for a discharge application to proceed.

(2) TU(I) - the Psychiatrist will use the following wording in their report:

‘In accordance with Annex 54D, it is considered that [rank and name] displays Irremediable Temperamental Unsuitability and it is recommended that [he/she] be (urgently) considered for [compulsory withdrawal from training/administrative discharge/discharge SHORE].”

It is normal in this case that action should be taken to apply for discharge unless there are other overriding Service considerations. Refusal to act on the recommendation would therefore be exceptional and may raise risk management issues. In such cases further discussion should occur between the CO and the recommending Psychiatrist. In cases where an urgent consideration is recommended, discharge action should be considered immediately.

b. Cases referred for assessment, but considered not to display TU may be more appropriately managed in accordance with Para 10 sub para f. This also applies to those displaying some features of TU, but clearly motivated to remain in the Service.

8. Recommendations and Approval

a. In cases of TU(I), for ratings and other ranks only, discharge may be approved by COs of Captain or Colonel rank. In all other cases, the following rules apply:

(1) Recommendations for officers (trained strength), ratings or other ranks administrative discharge or discharge SHORE on the grounds of TU, under the terms of this instruction, are to be forwarded to the Navy Command Casework Cell (see Annex 1E) for consideration by Deciding Officers with delegated responsibilities from the Commander-in-Chief Fleet.
(2) Recommendations for the compulsory withdrawal from training of officers on the untrained strength on TU grounds are to be forwarded to the Navy Command Headquarters Terms of Service team.

9. Re-entry of those Discharged Temperamentally Unsuitable

If individuals who have previously been discharged as TU apply to re-enter the Service, the following mandatory guidelines will be applied:

a. If they have previously been assessed as displaying a Severe or Irremediable degree of TU, they will not be allowed to re-enter unless a specific caveat has been made at the time of their recommendation for discharge.

b. If they have previously been assessed as displaying a Mild, Moderate or Potentially Remediable degree of TU, but now appear to have matured significantly or undergone a change of circumstances, they may be considered for re-entry but must be referred to the office of the DACOS Support, Navy Command, Medical Division. Where re-entry appears possible, they will be referred to the Consultant Adviser in Psychiatry for formal psychiatric assessment by a Consultant Psychiatrist.

10. Responsibilities of the Executive

a. When it comes to either executive, medical or welfare attention that a person is failing to adapt to Service life, the first action is for the Divisional Officer to address the matter. Whilst TU is not a mental illness, behaviour can manifest as:

   (1) Subjective symptoms of anxiety or depression specifically related to being in the Service, or some specific aspect of Service life.

   (2) Poor motivation to remain in the Service.

   (3) Maladaptive coping mechanisms such as deliberate self-harm\(^3\), use of alcohol\(^4\) or other substances to manage distress or disciplinary problems.

   (4) Immaturity.

b. Sensitive enquiry into aspects of their performance should be conducted and simple adjustments to their environment considered. This may include:

   (1) Divisional counselling and support.

   (2) Compassionate action or other welfare support.

   (3) A job change or new assignment.

   (4) A branch change (which may include a Service arm change).

---

\(^3\) See Para 2417 for advice on management of Deliberate Self Harm.

\(^4\) Para 2138 and QRRN Chapter 36 give advice on the management of Alcohol problems.
(5) Psychological support from Primary Care or Mental Health services.

(6) Simply the passage of time.

c. Should this support be ineffective, the CO should consider, with Medical staff, a referral for assessment of TU.

d. COs have a responsibility to ensure that the Service Psychiatrist is provided with as much information on the person referred as possible. For a valid assessment to be given, the person must be accompanied at assessment by full Medical and Service documentation, including an up-to-date and comprehensive F Med 1041 report from the ship, establishment or unit in which the individual has been serving. Any other relevant information should also be provided. The more information available to the Psychiatrist, the more accurate and helpful will be the recommendations made. It is essential that the F Med 1041 on any individual for whom a discharge recommendation has been signed by the Commanding or Executive Officer of the ship, establishment or unit in which the individual is serving, in order to ensure that all other appropriate avenues of support or discharge have been properly considered. Individuals landed for assessment should be accompanied by F Med 1041 from the ship in addition to any report raised in their subsequent shore establishment. No recommendation for discharge will be made on an individual accompanied by F Med 1041 signed only by a Divisional Officer. Failure to provide necessary documentation may result in delay in any recommendation being made.

e. If a branch or arm change is recommended and the CO agrees, administrative action should be considered to test the individual’s aptitude for different employment. Such a recommendation under the terms of this Annex should not lead to circumvention of usual procedures and requirements of a branch or arm change request. Should such a change prove not possible then administrative discharge should be considered. It should be noted that, as every branch now attracts sea-going liability, an individual’s ability to live and work at sea should be the pre-eminent consideration.

f. If it is clear after psychiatric assessment that the individual has the ability to adapt, but does not wish or try to do so, other executive forms of administrative discharge may be more appropriate. A warning for discharge under another category (e.g. Inadequacy or Character and Leadership) might be more appropriate.

g. Where an individual is considered to display a severe degree of TU and a recommendation is made for discharge, irrespective of their medical category, the person will be deemed unfit for their primary role in their current assignment.

h. Where a Service Person remains in service after a TU assessment and then adapts to the Service, as evidenced by an annual report, the paperwork within their personal files relating to their assessment should be destroyed.
11. Responsibilities of the referring Primary Care Medical Officer

a. On occasion the Service Person will present to a Medical Officer before the Executive are aware of any problem. The Medical Officer, if satisfied that there is no formal psychiatric illness, should in the first instance refer the person back to their Divisional Officer for management as outlined in Para 1. In all cases, should a referral to a Psychiatrist be considered necessary for assessment of TU, the Medical Officer should arrange for full medical documentation to be available to the Psychiatrist and assist the Executive with their responsibilities where required. An appointment will not normally be allocated until this documentation is available.

b. Careful consideration should be given to medical downgrading of personnel awaiting assessment of TU or during a period of executive management of TU(R). Downgrading a person medically confers a powerful message that they have a medical problem and assistance to a person in adaptation is hindered if the person cannot work in a sea-going unit. Branch or arm changes can only proceed if the person is in a medical category of P2 (MFD) or another permanent medical category that allows deployment. If the Primary Care medical officer is in doubt as to most appropriate medical category to apply, then he/she should liaise with their nearest Department of Community Mental Health.

12. Responsibilities of the Psychiatrist

a. In assessing an individual’s temperamental suitability for continued service, consideration will be given to the person’s pre-Service, Medical and Divisional records, personality traits and cultural factors with regard to the individual’s ability to provide reliable service in their primary military task. The presence of potentially maladaptive personality traits does not in itself indicate that an individual is unable to adapt and may not necessarily lead to a discharge recommendation. Evidence of TU would normally become clear within the first 2-3 years of service, but occasionally individuals may not present until specific circumstances reveal their maladaptive traits.

b. The psychiatric report is not a clinical assessment for medical treatment but an employment recommendation. Reports should be detailed enough to allow the executive authority responsible for considering discharge to appreciate the facts leading to the psychiatric opinion. Nevertheless, although reports should carry the caveat OFFICIAL-SENSITIVE PERSONAL, attention should be paid to medical confidentiality. Good practice is to achieve written consent from the subject of the report for information to be passed to the CO. The report should usually include: brief circumstances of the referral; an outline of the performance problems emerging as evidence of poor service adaptation; and predisposing factors to poor service adaptation.

---

5 Guidance for the Executive in compiling the F Med 1041 is available in Para 2813 Referral of a Service Person to Mental Health Services.
The psychiatric opinion should cover: a view on whether treatment or other environmental adjustment is likely to lead to improvement; a recommended medical category, which may be a reduced category even though formal psychiatric illness is absent; a recommendation for discharge using the proscribed format in Para 7 sub para a; a recommended medical category should discharge be recommended by the executive; and a clarification, where possible, of the risk of any future maladaptive behaviour. Finally, the report should state that executive held copies should be destroyed once the service person has proved they have adapted to Service life.

c. In complex cases it may be appropriate to seek a second opinion from another Service Psychiatrist.

ANNEX 54F

COMMANDING OFFICER’S STEP BY STEP GUIDE TO THE DISCHARGE PROCESS

The following is intended as a guide to aid the Commanding Officer (CO) and must be used with reference to the relevant parts of Chapter 54.

1. Determine Rating/OR’s failings

2. Place on appropriate warning*

3. End of warning process

4. Draft CO’s Letter and SPEC SJAR

5. Disclosure

6. Stand over – 24 hours

7. Does the subject wish to make a Representation?
   - Yes
     Subject has at least 48 hrs in which to draft their Representation
   - No
     Sign Waiver of right to make Representation.

8. Consider Representation – does it alter the CO’s view?
   - Yes
     9. No application/decision to discharge made, refer back to warning process as required.
   - No
     10. Finalise the letter and submit to Higher Authority/make decision to discharge

* RLA = Regional Legal Adviser
* In cases of discharge for Drug misuse/CDT, compassionate, Temperamental Unsuitability, Best Interests of the Service or medical reasons, it is accepted that there is no necessity for previous warnings (Para 5442 sub para c).

**Explanatory Notes.**

1. The subject’s failings should be identified by their Line Manager or any alternative method which can be formally documented and called upon as evidence as required.

2. The subject should be placed on an appropriate warning (see Para 5443 and Para 5444).

3. The warning process must be followed in accordance with Chapter 57. At the end of the warning process, the CO must determine which course of action is most appropriate. If the CO decides that an application for the subject’s discharge is the correct course of action, then the flow diagram is to be followed to completion.

4. A CO’s letter is to be drafted in addition to a SPEC SJAR. The letter should be addressed to higher authority as required, or to the individual where the CO has power to authorise discharge. It should explain and contain all supporting evidence that justifies the CO’s decision to consider discharge. Further guidance on the contents of this letter is at BRd 3(1) Annex 1E. Advice must be sought from the Navy Command Headquarters Casework Cell or appropriate Regional Legal Adviser prior to disclosure to the subject.

5. The CO’s letter and supporting evidence must be disclosed to the subject. This ensures that the discharge, if approved, adheres to the Rules of Natural Justice and cannot provide recourse against the RN if the discharge is later challenged by the subject.

6. The subject must be given a period of at least 24 hours (or such longer period as considered/deemed reasonable in the circumstances) in which to read through the draft application.

7. If the subject decides to make a Representation, they are allowed a further 48 hours (or such longer period as considered reasonable in the circumstances) in which to complete their written comments (they should be provided with support by an assisting officer as required) and sign and date the Representation. If the subject decides against making a Representation, then they are to sign and date a waiver of their right to make a Representation against their discharge.

8. The CO must consider any Representation and determine whether any of the subject’s comments alter the decision to consider their discharge.

9. If the CO’s view is changed by the subject’s comments, then no application is to be made and the subject is to be reviewed in accordance with the warnings process as required.
10. If the CO’s view is unchanged by the subject’s comments, then the application is to be finalised. The CO must make reference to the subject’s Representation (or absence of a Representation) and state the reason why he/she does not consider them sufficient to deter the CO from continuing with the discharge.

11. If the CO is the officer authorised to approve discharge, they should seek legal advice before making his decision. The CO should then notify the individual of their decision in writing, giving full reasons for it and reminding the individual of their right to state a Service Complaint against discharge where appropriate. A full copy of all documents must then be sent to the Casework Cell for archive.

12. If the CO is applying to higher authority, the following must be submitted to the Deciding Officer:

   a. Finalised application for the subject’s discharge. It must be signed and dated by the CO (unsigned e-copies may be provided in the first instance but originals should be provided before the case will be presented to the Deciding Officer).

   b. Signed and dated Subject’s Representation or signed waiver (unsigned e-copies are unacceptable).

   c. The documents listed in the table at Annex 54E.

   d. Any other documents/evidence the CO considers relevant in support of the application and which have been disclosed to the individual.

13. The officer authorised to approve discharge should make their decision. The approving officer should then notify the CO of their decision in writing, giving full reasons for it and direct that the Subject be reminded of their right to state a Service Complaint against discharge where appropriate. A full copy of all documents must then be sent to the Casework Cell for archive.

14. Copy Addressees

   a. The following copy addressees should be included on decision letters:

      b. Drugs related matters - NAVY PERS-EXEC FXO
                                       NAVY PERS-EXEC SO1

      c. Decisions authorising discharge - DBS-DBS-NSV-Exceptions-CA1
                                          NAVY PSYA-AFTERCARE SO3C
                                          Relevant Branch Manager
                                          Relevant Career Manager

15. The relevant Head of Fighting Arm is to be informed by the CO in all cases that have not led to the individual’s discharge but where concerns are raised over an individual’s suitability to perform their professional duties to a satisfactory standard that cannot be adequately addressed through the normal warnings process. For example, concern arises that a medical branch rating/officer may be misusing drugs/alcohol which does not lead to their discharge. This should be raised to ACOS Med.
ANNEX 54G

VALEDICTORY PROCESS THE NAVAL SERVICE

1. Eligibility
All personnel within the Naval Service who complete a minimum of 5 years by their final day in service receive the following valediction upon retirement:

a. For Officers of Flag Rank and Equivalent.
   (1) A Valedictory Letter on behalf of HM The Queen, signed by the Secretary of State.
   (2) A Valedictory Letter on behalf of the Navy Board, signed by 1SL. This process is initiated and controlled by NAVSEC SNR APPTS SO1.

b. For Commodores, Captains and Equivalent.
   (1) A Valedictory Letter on behalf of HM The Queen, signed by Min DPWV.
   (2) A Certificate of Valediction, signed by 1SL. This process is initiated and controlled by NAVSEC NA SO2.

c. For All Other Personnel. The tiered system in the table below shows the relevant signatory level in relation to the years of service:

<table>
<thead>
<tr>
<th>Valedictory Certificate</th>
<th>Years of Service</th>
<th>Signatory Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>Standard</td>
<td>5 to under 15 years</td>
<td>Commanding Officer or equivalent</td>
</tr>
<tr>
<td>Bronze</td>
<td>15 to under 25 years</td>
<td>NAVSEC for RN &amp; RFA personnel. CGRM for RM. Flag Officer Reserves for Reservists.</td>
</tr>
<tr>
<td>Silver</td>
<td>25 to under 35 years</td>
<td>2SL</td>
</tr>
<tr>
<td>Gold</td>
<td>35 years and above</td>
<td>1SL</td>
</tr>
</tbody>
</table>

d. Reservists. Valedictory Certificates for Reserve personnel fall in line with the Regulars for years of service. Reservists, however, must have completed a Certificate of Efficiency (CofE) for a year of service to be recognised. The CofEs do not have to be consecutive, meaning that serving for 16 years and achieving 14 CofEs would result in a Standard Valedictory Certificate marking 14 years of Service.

2. Non-Eligible Personnel

a. For personnel with less than 5 years’ service, information regarding the Naval Associations, including a period of free membership, will be provided upon attendance at the Career Transition Workshop.
b. A Valedictory Certificate will not normally be produced for personnel required to leave the Service for disciplinary reasons. In the case of those required to leave for administrative reasons a decision or recommendation will be made on a case by case basis at the discretion of their Commanding Officer.

3. **Administration of the Valedictory Certificate Process**

   a. **Standard Valedictory Certificates.** All Ship’s Offices, UPOs and Unit HR Administrators are to maintain a JPA Termination Forecast report via OBIEE as a part of monthly CMT checks. Those within their unit who are eligible for a Standard Valedictory Certificate will have their certificate produced within unit and then signed by the Commanding Officer or equivalent. For Reserves this process is initiated and administered by the Whole Force Reserves Career Manager CPO (NAVY PCAP-CM WF RES CPO). As RFA personnel are not administered using JPA, the lists for all Valedictory Certificates will be created by Chief of Staff COMRFA (NAVY AFSUP-STRATDEV SO1). The Standard Valedictory Certificates can be found on the Naval Service Whole Force Honours, Awards, Reward and Recognition Portal on DefNet. All Valedictory Certificates are to be printed in colour on quality card.

   b. **Bronze, Silver and Gold Valedictory Certificates.** The Naval Secretary’s Leading Writer (Nav Sec LWtr) will maintain a JPA Termination Forecast report via OBIEE which will identify individuals who are entitled to a Bronze, Silver or Gold Valedictory Certificate. For Gold Valedictory Certificates, Nav Sec LWtr will e-mail the proforma at Annex A to the Service Person’s Line Manager/Divisional Officer for completion.

4. **Timing**

   To permit the timely staffing, Valedictory Certificates should be prepared no less than 12-15 weeks before the individual is due to leave the Service. Therefore, it is essential that Release dates and the reason for leaving are correctly administered onto JPA by Career Managers so that no certificate is sent erroneously.

5. **Full Time Reserve Service (FTRS)**

   The principle behind the Valedictory Certificate is to acknowledge Service. Personnel on FTRS contracts will continue to accrue service towards their Valedictory Certificate. Those who seamlessly transfer to FTRS will not receive a Valedictory Certificate when leaving the Regular Service. Those who do not seamlessly transfer but have a gap in service will continue to accumulate service but may end up with two Valedictory Certificates. These cases will be considered by the Naval Secretary.

---

1 The RM have an additional Valedictory Process which is run by the Royal Marine Corps Records SNCO. Further information can be obtained from NAVY PCAP-CM CORPS REC.

2 Can be sourced through Fleet Naval Graphic’s quoting UIN.

3 Except for RFA personnel, who will be identified by NAVY AFSUP-STRATDEV SO1 in the same way as for the Standard Valedictory Certificates.
6. Presentation.

Once signed, the Bronze, Silver and Gold Certificates will be despatched to the Commanding Officer of the individual. All Valedictory Certificates should be presented at an appropriate ceremony by the Chain of Command. Consideration should be given to:

a. The production of a Home Town Story (HTS).

b. The relative rank/grade of the presenting officer.

c. The use of other formal occasions in which presentations can be made (passing out parades, formal dinners, conferences, clear lower decks, etc).

d. The involvement of family members.

7. Presentations for OF5/Cdre

a. Certificates will usually be presented by the appropriate Chief of Branch or, in certain cases, Head of Fighting Arm. Where the Presenting Officer would be the same rank as the recipient, the Certificate will be presented by 2SL.

b. If there are any doubts about eligibility for valediction early advice should be sought from the Flag Area Information Manager (NAVY-2SL INFOMGR) or EA2/2SL (navy-2slea2@mod.uk).

8. Gold Valedictory Certificate Citation Proforma

ANNEX 54I

RESERVE LIABILITY/ELIGIBILITY GUIDE

(Ratings and Other Ranks are hereinafter referred to as RANKS)

1. Introduction

The Reserve Liability of every individual who leaves the service must be addressed and the basic details included on their Certificate of Termination. Completion of this Certificate, in all situations other than for normal release (i.e. end of engagement), is the responsibility of the Career Manager (CM) so this guide has been produced to ensure that the CM can complete that field properly.

2. What Types Of Reserve Are There?

There are two types of ex-regular reserve for both Officers and Ranks; which type the Service Person (SP) is enrolled into will simply depend on whether they are in receipt of a service pension or not when leaving the service.

<table>
<thead>
<tr>
<th>Pensioned?</th>
<th>Type of Reserve</th>
<th>Abbreviation</th>
</tr>
</thead>
<tbody>
<tr>
<td>OFFICER</td>
<td>YES</td>
<td>Retired List</td>
</tr>
<tr>
<td></td>
<td>NO</td>
<td>Royal Fleet Reserve (Commissioned)</td>
</tr>
<tr>
<td>RANK</td>
<td>YES</td>
<td>Recall Reserve</td>
</tr>
<tr>
<td></td>
<td>NO</td>
<td>Royal Fleet Reserve (Non Commissioned)</td>
</tr>
</tbody>
</table>

3. Does Every SP Have A Reserve Liability On Release?

Some individuals will not have a liability for reserve service and it is obviously necessary that such cases are readily identifiable - the basic liability rules are below:

<table>
<thead>
<tr>
<th>Type of Commission/Engagement/time served</th>
<th>Reserve Liability?</th>
<th>Which Reserve?</th>
</tr>
</thead>
<tbody>
<tr>
<td>OFFICER</td>
<td></td>
<td></td>

** This can only now apply to other ranks as OE1 was introduced for the RN over 22 years ago (it was several years later for the RM)
4. **To Which Reserve Forces Act (RFA) Is The SP Subject?**

There is no field on JPA that indicates whether a SP is subject to Reserve Forces Act 1980 or 1996. To arrive at that decision, the CM must look at the SP’s record and determine which RFA it is. So, in each individual case, the CM is required to look back at the SP’s record and decide to which Act they are subject. The RFA the SP is subject to is defined simply as follows:

a. If the SP joined the service on or after 1 Apr 97, or has re-engaged during their career, that SP will automatically have a RFA 96 liability.

b. If, on the other hand, the SP joined up before 1 Apr 97 and has not subsequently re-engaged, that SP will be subject to RFA 80.

c. An RFA 80 SP can elect to transfer from RFA 80 to RFA 96 liability during their release routine (many Pensioner Ranks will do this). If they have done so, it will clearly over-ride any previous automatic RFA 80 liability. See comments at the final para below.

5. **On What Does Length Of Reserve Liability Depend?**

If liable for reserve service, the length of reserve liability depends on:

a. whether in receipt of a Service pension or not;

b. whether, in the case of ranks, subject to RFA 80 or RFA 96.

6. **How Long Is The Reserve Liability?**

The following tables show the length of reserve liability:

<table>
<thead>
<tr>
<th>Pensioners</th>
<th>Reserve Forces Act</th>
<th>RFA 80</th>
<th>RFA 96</th>
</tr>
</thead>
<tbody>
<tr>
<td>OFFICERS</td>
<td>Period of Reserve liability</td>
<td>To 60 years of age (in Supplementary Role Regular Reservist 1980)</td>
<td>To 60 years of age (in Supplementary Role Regular Reservist 1996)</td>
</tr>
<tr>
<td>RANKS</td>
<td>Period of Reserve liability</td>
<td>Until 55 years of age - in the RR (in Supplementary Role Recall Reservist)</td>
<td>6 years in the RR (in Supplementary Role Recall Reservist)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Non-Pensioners</th>
<th>Reserve Forces Act</th>
<th>RFA 80</th>
<th>RFA 96</th>
</tr>
</thead>
<tbody>
<tr>
<td>OFFICERS</td>
<td>Period of Reserve liability</td>
<td>4 years (in Supplementary Role Regular Reservist 1980)</td>
<td>4 years (in Supplementary Role Regular Reservist 1996)</td>
</tr>
<tr>
<td>RANKS</td>
<td>Period of Reserve liability</td>
<td>3 years (in Supplementary Role Regular Reservist 1980)</td>
<td>6 years total (the first 3 years in Supplementary Role Regular Reservist 1996, then 3 years more in Supplementary Role Recall Reservist).</td>
</tr>
</tbody>
</table>
7. **Eligibility**

The other parameters that must be considered are those of eligibility; “eligibility” is basically “suitability”. If an SP is not eligible for reserve service, then, irrespective of whether they're RFA 80 or RFA 96, they are not to be enrolled in the reserves. Any of the following criteria renders an SP INELIGIBLE to be enrolled in the ex-regular reserve.

a. **Officers**
   
   (1) Compulsorily withdrawn from training (CWFT).
   
   (2) Commission terminated by Order-in-Council.
   
   (3) Is a female who joined the service before 1 Apr 97 (and has not volunteered for reserve liability).
   
   (4) Has been released Discharge SNLR or “Not recommended for further Naval Service”.

b. **Ranks**
   
   (1) Has not completed a minimum of 2 years in the Naval Service.
   
   (2) Has been released < P2 MedCat.
   
   (3) Has been released Discharge SNLR or “Not recommended for further Naval Service”.
   
   (4) Is a female who joined the service before 1 Apr 97 (and has not volunteered for reserve liability).

8. **Populating The Reserve Liability Box**

a. Using the guide above, JPAC should be easily able to identify where an SP has NO reserve liability or eligibility and will leave the relevant box on the certificate blank. Note – action is in hand to allow insertion of a suitable word such as “NIL” but, for now, the box is to be left blank until otherwise advised.

b. Where there is a reserve liability, it is possible that the SP might wish to elect to transfer from RFA 80 to RFA 96 (many ranks do, especially if they are being released with a service pension). In that respect, the SP is likely to sign their election during their Release Routine and their Release Unit will be informing NPT(Res) staff as soon as they have done so. So, where the CM needs help in completing the Reserve Liability box in the Certificate of Termination, the CM should e-mail NAVY PERS-RES RFR E1 who will e-mail back to the CM once the information has been obtained.

9. **Queries**

Any queries can be made to NPT(Res) staff in Room 108, West Battery, Whale Island (Tel 93832 8770).

WAIVER OF RIGHT TO SUBMIT A REPRESENTATION

On [Date], I was seen by Cdr A A Smith RN, Commanding Officer HMS CERES. I was informed by him/her that application was being made to the Higher Authority for my Discharge SHORE (Inadequacy – RNFT) in accordance with BRd 3(1) Para 5443 a (3) sub para (c).

2. I was reminded of my right to submit a Representation against this application in accordance with BR3 Para 5442 sub para h. In order to aid my decision, I was given a copy of Cdr Smith’s application letter and a copy of all associated paperwork that he/she intends to submit to the Higher Authority to support the application.

3. I was given a minimum of 24 hours to decide whether I wished to submit a Representation, however, I have waived this right and have chosen not to submit one.

4. I am aware that, if this application is approved, I will have the right to submit a Service Complaint in accordance with JSP831 against the decision.

ANNEX 54K

OPTIONAL EXIT POINTS FOR SUBMARINE SERVICE PERSONNEL

1. Introduction

JSP 754 provides single Services with the ability to implement Optional Exit Points\(^1\) (OEP) as one of the manning mechanisms aimed at promoting retention.

2. Optional Exits Points Structure

The OEP structure for all submariners came into force on 1 Feb 15 and is as follows (for clarity, examples are provided at Para 7):

a. Two fixed points in each calendar year: 31 May and 30 Nov.

b. Minimum notice for a particular OEP is 18 calendar months. This means that the latest date for application for a 31 May OEP is 30 Nov, 2 calendar years prior and for a 30 Nov OEP is 31 May in the preceding calendar year. Applications may be made at greater than 18 months' notice once an individual meets the eligibility criteria at Para 3 below.

c. There is no option to accelerate exit via OEP – see Para 6.b below.

d. Once an OEP application has been approved, this sets the earliest exit date by the OEP route. Therefore, there is no recourse to withdraw an OEP application and then submit another for an earlier date.

3. Eligibility

a. OEPs are available to personnel in the following categories, providing that they have sufficient time left to serve to fulfil the notice requirements at Para 2:

   (1) Ratings serving on an EC who do not have preserved rights under the previous OEP structure detailed in Para 4 below. In effect, this encompasses personnel who accepted an EC/ES3 offer after 1 Mar 14.

   (2) Ratings serving on an EC(15) who have preserved rights as detailed in Para 4 below, but who have passed the 32 years' reckonable service point\(^2\).

   (3) Officers serving beyond their Immediate Pension Point (IPP) or Early Departure Payment point (EDP)\(^3\).

---

\(^{1}\) Each Service operates manning mechanisms with the aim of ‘pulling’ personnel through to a certain period of service thus aiding retention.

\(^{2}\) The distinction is provided because personnel on EC15 beyond 32 years' reckonable service have no opportunity to access the new OEP structure, whereas other individuals can access the structure detailed here by accepting a new EC offer.

\(^{3}\) AFPS 75 IPP - 16 years' service beyond the age of 21. AFPS 05 EDP - 18 years from date of entry or age 40, whichever is later. AFPS 15 EDP - 20 years from date of entry or age 40, whichever is later. For individuals with preserved rights under AFPS 75 or AFPS 05, the IPP/EDP definition pertaining to the relevant legacy scheme will remain extant under AFPS 15.
(4) Ratings in the Submarine Service serving on an EC that was accepted during the period when OEPs were previously available (before 28 Feb 14) may apply with greater than 12 months’ notice to leave at a pre-determined exit point as detailed below:

(a) 22 years reckonable service\(^4\) (ie. completion of the Open Engagement (OE)).

(b) 26 years reckonable service (ie. completion of the OE and 4 years of an EC).

(c) 29 years reckonable service (ie. completion of the OE and 7 years of an EC).

(d) 32 years reckonable service (ie. completion of the OE and 10 years of an EC) (for those personnel serving on EC(15)).

b. To facilitate compatibility with New Employment Model (NEM) terminology, the terms ‘Extended Career’ and ‘beyond the IPP/EDP’ align with Employment Stage (ES) 3 under NEM. OEPs are only available to ratings on 2OE/EC/ES3 engagements, but not serving on a subsequent EoS, and to officers on FTC/FCS engagements, but not serving on a subsequent EoS. For individuals undertaking Tailored Careers, eligibility for OEPs is a matter for individual negotiation.

c. Only ratings holding the ranks of OR2 – OF4 who draw RRP(SM) on a Continuous Career Basis will be entitled to the Reserve Band. Officers of OF5 draw RRP(SM) on a Non-Continuous Basis and have no entitlement to the Reserve Band therefore RRP(SM) will cease when the individual is assigned out of a RRP(SM) tagged PID whether an OEP has been submitted or not. OF6 and above have no entitlement to RRP(SM)\(^5\).

4. Promotion Eligibility having Opted for an Optional Exit Point

a. The following promotion eligibility rules are in place for those personnel who opt for an OEP:

(1) Ratings who have had an OEP approved will remain eligible for selection for promotion, provided that their revised Termination Date is later than the CPD for that particular board. Subsequent promotion will be conditional on the individual applying to withdraw their OEP and that application being approved.

(2) Officers and ratings who submit an OEP after being selected for promotion will be considered to have submitted their notice as detailed in BRd 3(1) Para 6712(e) and will automatically be presumed to have refused promotion and their selection will be cancelled.

\(^4\) Reckonable service being that which counts for engagement purposes, ie. from age 18 for those on the OE.

\(^5\) The authority for the payment, and payment basis, of RRP(SM) is JSP 754 Chap 5 Sect 3.
b. Any rating who has submitted an OEP prior to 5 Mar 18 will retain legacy rights to the rules in RNTM 251/15 Para 10.

5. Application Process

a. Applications to leave at a pre-determined exit point must be made by completing the form at Appendix 1 to Annex 54K and forwarding it to the appropriate Career Manager. Applicants must not apply for Early Termination via JPA, as this will result in the removal of RRP(SM) and, where appropriate, RRP(NP). Career Managers are to retain a hard copy of all applications made.

b. OEP applications must be signed and dated by the Commanding Officer no later than the latest application date described in Para 2.a(2) above. Applications for a particular OEP must be received by the Career Manager within 14 days of latest application date, otherwise they will be automatically adjusted to reflect the next available OEP and the applicant informed.

c. The first date for an individual to make a valid application is as follows:

1. For ratings on an EC accepted after 1 Mar 14, the day after their termination date before accepting the current EC offer. In effect, this means that a minimum of 18 months' service on EC will be required to access an OEP.

2. For ratings on EC15 accepted before 1 Mar 14, the day after the 32 year reckonable service point.

3. For officers, the day after the IPP/EDP is reached.

6. Implementation

a. Following a successful application from an eligible individual, the Career Manager will enact the OEP by adjusting the individual's Termination Date on the JPA system to the appropriate OEP date\(^6\). A record of all OEPs enacted in this manner is to be retained and included in Management Information as adjusted Voluntary Outflow (VO) figures.

b. There is no option for earlier release than the OEP date made on the application. The nature of OEPs is that they are fixed, inflexible points in time once implemented and it is this characteristic that allows the benefits associated with SM Service to be retained. In particular, personnel who leave by Early Termination have their Recruiting and Retention Pay (RRP) removed in accordance with JSP 754 Art 05.0203.I. By leaving at a pre-determined exit point, as detailed above, an individual may continue to draw their full entitlement of RRP(Submarine) and, where appropriate, RRP (Nuclear Propulsion) during the remainder of their service (including the last 12 months).

---

\(^6\) For clarity, an OEP remains a form of early release and this should be reflected in individual pension applications by ticking the 'Early Release' box in Part A of AFPS Pen Form 1 (M), or the equivalent option on any future editions of this form.
c. Any individual who wishes to leave outside of the OEP structure and before completion of their engagement/service should apply for Early Termination via the JPA system. This includes individuals who have submitted an OEP application who then wish to leave the Service more quickly. In such cases, release time scales will be in accordance with extant policy, noting that there is no entitlement to notice of less than 12 months.

d. Where an individual wishes to withdraw an OEP application, they should apply in writing to their Career Manager (as detailed on the original application form). The request will be considered by the Career and Branch Manager and, if approved, the Termination Date will be reset by the Career Manager to the original date. A note should be made on the individual's JPA record of their original OEP application and its withdrawal. Any subsequent OEP application may be made only for a point on or after any former application ie. an individual may not withdraw an OEP and then apply for an earlier date than the previous application(s) in an attempt to shorten their notice period.

e. Should the needs of the Service preclude completion of resettlement activities before the OEP terminal date, then the provisions of BRd 3(1) Para 5916 apply.

7. Examples
The following examples are provided for guidance:

a. An individual who accepted EC10 in 2014 wishes to leave by OEP on 30 Nov 18. They must apply (application signed by CO) by 31 May 17 and the application must be received by the CM by 14 Jun 17. In this case, they make their application in Dec 15, at greater than the minimum 18 months’ notice.

b. In Jun 16, the individual above applies to remove their OEP application and the request is approved. Any subsequent reapplication for OEP may not have a Termination Date earlier than the original application ie. 30 Nov 18.

c. An individual on EC15 awarded before 1 Mar 14, but is beyond the 32 year reckonable service point and with more than 18 months to serve, wishes to leave by OEP on 31 May 17. Their application must be dated no later than 30 Nov 15 and received by the CM by 14 Dec 15.

d. Having applied for a 31 May 17 OEP, the individual above wishes to leave sooner. Their only option is to submit a request for Early Termination on JPA, accepting the extant terms associated with notice giving in terms of RRP. They can then negotiate for earlier release with their employer and CM, in accordance with BRd 3(1), noting that there is no entitlement to a notice period of less than 12 months.

e. An officer will reach the IPP/EDP on 1 Jun 18. The earliest application date is therefore 2 Jun 18, meaning that the first available OEP is 31 May 20.

f. An individual serving on EC15, accepted before 1 Mar 14, has completed 30 years’ reckonable service. The earliest date for an OEP application is the day after completion of 32 years’ reckonable service ie. when preserved OEP rights no longer give access to any further OEPs.
APPENDIX 1 TO ANNEX 54K

APPLICATION TO LEAVE THE SERVICE AT AN OPTIONAL EXIT POINT

Name: ........................................ Initials: ......................... Service Number: ............................

Rank/Rate: .......................................................... Main Trade: ...................................................

Current Unit: ..........................................................

I confirm I am: (delete as appropriate):

a. Serving in the Submarine Service.

b. A rating serving on an Extended Career accepted after 1 Mar 14. My Tx date before accepting EC was: ............................................

c. A rating serving on EC(15) accepted before 1 Mar 14. I achieved 32 years reckonable service on: ............................................

d. An officer serving beyond the Immediate Pension Point/Early Departure Payment point, which fell on: ............................................

e. Serving on Employment Stage 3 under the New Employment Model.

I wish to apply to leave the Service using an Optional Exit Point on: ............................. (dd/mm/yyyy)

I will be required to serve the entirety of this notice period.

CHAPTER 55

PERSONAL INJURY LITIGATION CASEWORK

POINT OF CONTACT – PART 7

CONTENTS

Para
5501. Background
5502. Role and Responsibilities
5503. Contact Details
CHAPTER 55
PERSONAL INJURY LITIGATION CASEWORK

5501. Background

a. The Navy Command Headquarters has a Personal Injury Litigation (PIL) Team\(^1\) which acts as the primary interface between the Navy Command Headquarters – nominally, Branch Managers (as providers of career forecast witness statements) - and external customers (e.g. MOD Claims and Gallagher Bassett (MOD insurers), 3rd party solicitors and employment consultants). The PIL Team provides:

1. Non-medical information requested by insurers, solicitors and external customers needed to determine liability in Personal Injury (PI) cases subject to civil proceedings, drawing on advice, assistance and support from relevant Subject Matter Experts (SMEs) in the rest of the Navy Command Headquarters.

2. Non-medical career related information required to determine potential loss of earnings for current and former regular and reserve Service personnel in PI litigation compensation claims where the MOD had admitted some form of liability or 3rd party claims have been made. Over time, the PIL Team’s role has developed to include both the calculation of potential pay and pension losses, for illustration purposes, based on the career forecast witness statements and the provision of advice to Navy Command Headquarters personnel on aspects of the litigation process.

5502. Role and Responsibilities

a. Civil Personal Injury Litigation Compensation. The PIL Team has NPT wide responsibility for the coordination and release of career and financial information required as part of the Naval Service’s response to PI compensation claims brought by current and former Service personnel against the MOD or 3rd parties. These responsibilities include: to act as an intermediary between the Navy Command Headquarters (notably Branch Managers) and insurers, solicitors etc; to analyse information requests to determine what can be provided by the PIL team and what needs to be sought by other SMEs; to seek clarification of requests that are not clear and ascertain in what format the information is required; to support Branch Managers in the production of information (including career forecasts and witness statements), checking outputs and advising on inaccuracies or suggesting improvements; to gather financial and non-financial information from DINs/JSPs/BRs or SMEs, especially regarding pay, pensions and allowances; to utilise general terms of service knowledge and regulations spanning the length of an individual’s career to provide accurate data and detailed individual pay projections based on the career forecasts, showing the impact of the PI on an individual’s pay/salary; to provide clear, concise written responses for use in court as evidence, giving detailed explanations of career/pay/pension information and

---

\(^1\) Most of the career information provided in PI compensation cases relates to an officer, rating or other rank’s anticipated career progression, based primarily on TOS rules shown in BR3 Parts 7 and 8.

55-2 of 5
February 2020 Version 1
b. **Liability Determination.** The PIL Team acts (as far as possible) as the NCHQ’s single point of contact (SPOC) for the coordination and release of non-medical information required by insurers, solicitors and other authorities acting on behalf of the MOD to determine liability in PI cases and 3rd party claims. These groups approach the PIL Team in the first instance if requiring PI liability information governed by civil procedure rules. The PIL Team coordinates and releases requested PI information that is deemed relevant to the case. This material is redacted, where required, in accordance with Public Immunity Interest (PII) rules. With regard to information arising from accidents or health & safety incidents, the Naval Service Incident Notification Cell (NSINC) (part of the Navy Command Headquarters CAP(CESO) Team) acts as the interface with ships, units and establishments and will coordinate such information, where necessary, on the PIL Team’s behalf. The process is as illustrated below (for actions to be taken by individuals and UPOs/ships/establishments etc, see Para 5502 sub para d):

**Figure 55-1. Liability Determination**

![Diagram illustrating the Liability Determination process]

- **MOD insurers (MOD Claims, Gallagher Bassett), solicitors and other internal customers**
  - Request for PI information
  - **Litigation Team (HQ SPOC)**
    - PI information called for
    - **Ships/Units/NCHQ SMEs** (inc NSINC for accident info)
      - Requested information provided
  - **Litigation Team**
    - Information further redacted law DPA, PII etc. Released via MOD insurers for cases against MOD or direct to claimant’s solicitor for 3rd party.
    - **MOD insurers, solicitors etc**
      - **Claimant’s solicitor**

- **HQ SMEs**
  - Information redacted operationally
  - **Litigation Team**
c. The process provides solicitors and external users with a single Navy Command Headquarters focus for most of the non-medical PI information needed in the pre and post liability determination phases; eliminating previous difficulties in establishing contacts and reducing vital time lost. It also provides a consistent approach to the redaction of material, ensuring that all information required by solicitors is subject to close scrutiny by the PIL Team and appropriate SMEs and that it passes the PII test.

d. **Actions to be Taken by Individuals and Ships/Establishments etc**

(1) Individuals wishing to pursue a personal injury litigation case against the MOD should follow the rules given within BR2 (Queen’s Regulations for the Royal Navy) Article J.5926.5.

(2) Individuals pursuing a claim against a 3rd party (typically a road traffic accident) should advise their solicitor to request any information required from the PIL Team – see contact details at Para 5503 sub para a. In accordance with DPA 98, the team will need a signed form of authority from you via your solicitor before any of your personal information can be released.

(3) Ships, establishments etc. should provide all the non-medical information requested by the PIL Team (note: health and safety information will be requested separately by NSINC (Para 5502 sub para b refers) and should be returned to the address at Para 5503 sub para b). If letters are received directly from solicitors, insurers, employment consultants etc. for non-medical information regarding a personal injury case, no contact must be made with the solicitor etc either verbally or in writing because the ‘clock will start ticking’ with regard to the MOD’s allowed response time. If solicitors make contact by telephone, no information should be given; they should be directed to the PIL Team. **Under no circumstances should any information be provided directly to the solicitor.**

(4) For guidance on dealing with requests for medical information, see Para 5503 sub para c.
5503. Contact Details

a. As stated previously, MOD insurers, solicitors and other authorities have now been told to refrain from contacting ships, units or establishments directly if seeking non-medical information in relation to PI cases affecting current and former officers, ratings and other ranks and have been advised to approach the PIL Team (contact details below) in the first instance. Should non-medical information continue to be sought, please redirect the enquirers to the PIL Team. Likewise, if advice or clarification is required on any issue related to the release of information in PI liability cases, please contact:

Personal Injury Litigation Team  
Navy Command Headquarters  
Room 48  
MP G-2, West Battery  
Whale Island  
PORTSMOUTH  
Hampshire  
PO2 8DX

Tel: 023 9262 8657/8780 (Civ) or 93832 8657/8780 (Mil)

Fax: 023 9262 8660 (Civ) or 93832 8660 (Mil)

b. Health and Safety Papers. These should be forwarded to:

NSINC  
Navy Command Headquarters  
MP 4-3, Leach Building  
Whale Island  
PORTSMOUTH  
Hampshire  
PO2 8BY

c. Medical Papers. Solicitors will continue to approach ships, units or establishments if medical papers are required in relation to PI cases affecting current Naval Service personnel, in order to ascertain where the medical papers are held. Further information can be found in BRd 1991 Chapter 9. For former officers, ratings and other ranks, medical information can be obtained from:

Medico-legal Department  
Institute of Naval Medicine  
Crescent Road  
Alverstoke  
GOSPORT  
Hampshire  
PO12 2DL

Fax: 023 9276 8137 (Civ) or 9380 68137 (Mil)

Annex 57F Officers - Imposition and Removal of Admiralty Board Warning
Annex 57G Officers - Imposition and Removal of RM Warning for Unsatisfactory Progress
CHAPTER 57

APPRAISAL AND WARNINGS

SECTION 1 - APPRAISAL – PRINCIPLES AND NAVAL POLICY

5701. Compliance
Naval Appraisal Policy complies with JSP 757 (Appraisal Reporting). This chapter contains supplementary administrative guidance for Appraisal Reports on officers, ratings and other ranks.

5702. Purpose
Appraisal is one of the most important leadership functions; the proper selection of the most suitable officers, ratings and other ranks on merit to fill the range of assignments in the Service depends largely on the quality and accuracy of appraisal reports. An active interchange of views on a frequent basis between the Subject of the report and their Reporting Officers (ROs) and Line Managers is essential for individual development, efficient use of valuable manpower resources and good management practice.

5703. Appraisal Report Functions
The Appraisal Report (AR) has two distinct functions:

a. It informs the Subject, formally and honestly, how well they have done and identifies their potential. From this, the RO can advise the Subject how to improve performance and enhance potential.

b. When considered with all their previous reports, it is used for career management by the staff of ACOS(PCap), including selection processes for promotion, command, change of commission/extended career, future assignments and training.

5704. Reporting Officers
In the majority of cases, the Subject will require only 2 ROs, in accordance with the minimum signature level criteria, but in certain circumstances they may require a 3RO (see JSP 757 Chapter 2 and Annex 2C). As a general rule, the most suitable ROs are deemed to be those who have the most regular contact with the Subject's work and therefore are best able to give an accurate and realistic view of performance and potential, substantiated by evidence of achievement against agreed responsibilities, tasks and objectives.

5705. Performance and Potential
The AR provides for separate assessments of performance and potential, founded on a culture of regular consultation and the gathering of empirical evidence. The assessment of performance principally provides feedback to the Subject to promote development, enhance professional skills, highlight personal qualities and also forms the basis for the assessment of potential. The assessment of potential is critical for the selection of future leaders, as well as ensuring the Service gains the best from its officers, ratings and other ranks and that all personnel, regardless of rank, are given every opportunity to have a satisfying and rewarding career.
It is important for the Subject to be involved throughout the appraisal process to ensure that their aspirations are considered and that they are made aware of their strengths and weaknesses. This will give the Subject the opportunity to develop strengths, reduce weaknesses and should ensure that nothing in the final report comes as a surprise.

5706. Promotion
JSP 757 states that the guiding principle on recommendations of potential for promotion is that each year, every officer, rating and other rank should receive an indication of potential for promotion by 1 rank, and by 2 ranks where applicable, to assist them in making career decisions. In compiling reports, ROs should note that this is regardless of whether the Subject is qualified for promotion and report narratives must be based on displayed potential to hold a higher rate/rank regardless of eligibility; recommendations must, however, be realistic and ROs should be careful not to raise false expectations.

5707. Finalisation of Appraisal Reports
Completed ARs must be approved/finalised by personnel so authorised to enable the report to be released on JPA to the Subject and the appropriate ‘tagged’ Career Manager. The reporting chain for all types of report is therefore to include the appropriate JPA Mailbox within the Officers’ Promotion Section or an appraisal administrator with a ‘finalise’ capability within their parent unit for ratings. Holders of these roles must be appointed by Commanding Officers/Heads of Establishment who are to ensure the appropriate Code of Governance has been completed (see JSP 757 Chapter 2 Annex F-I).

5708. Employee Preferences and Objectives
The completion of Employee Preferences and Personal Objectives on JPA is not mandated (with the exception of ‘Change of Commission’ for officers). However, it should be recognised that, along with position Role and Responsibilities, the presence of this data is highly relevant to completion of the AR and furthermore, provides selection boards with a rounded picture of the Subject and his responsibilities and career aspirations.

5709. Mid Period Appraisal Review
The conduct of a Mid-Period Appraisal Review (MPAR) is mandatory and a fundamental part of the overall appraisal process. It is the method by which the Naval Service tells its people how they are performing to date and what they must do to enhance their potential. As part of the MPAR, an individual’s RNFT status should be checked to identify those who are qualified and eligible for promotion as well as to ensure compliance with the Duty placed on all Service personnel to be in date. A written record of the MPAR is strongly recommended using the proforma at JSP 757 Chapter 4 Annex A which should be signed and copies retained by both Subject and 1RO. In normal course, a MPAR should be conducted at the mid-point or at least between 4 and 8 months of the annual reporting cycle. Ideally, the MPAR date is scheduled during the joining interview and thereafter, at the start of the next reporting period.

5710. Promotion Criteria
A high quality report will be inconsequential if the relevant competencies required to meet promotion eligibility are not recorded on JPA. It is imperative therefore that, in parallel with AR production, the RO ensures that all pre-promotion criteria, such as RNFT or Annual OPS requirements, are recorded on JPA.
5711. Complaints about Appraisal Reports
See Chapter 23 and JSP 831 Chapter 22.

5712. Alignment of Reports
Alignment is a valuable component within the appraisal of an individual. Commanding Officers (COs) are required, by means of consultation, to level out any inconsistencies in reporting standards and identify their best candidates with the most potential for promotion in comparison with their peers. The size of the peer group should be given and an indication of the individual’s position within it, eg. ‘within the top third of 20’. The process is of considerable assistance to selection boards; further details can be found in JSP 757 Articles 4C.06.

5713. Amending Reports
ROs may have reason to alter their opinion of an officer, rating or other rank after a report has been raised. Such changes of opinion should be communicated to the Subject at the earliest opportunity and consideration should be given to conducting a formal MPAR. If the reason for the change of opinion cannot be resolved and the next Annual Report is not yet due, consideration should be given to raising a Special Circumstances report in accordance with Para 5719 or JSP 757 Article 2C2.01.
SECTION 2 - APPRAISAL REPORTING OCCASIONS AND ADMINISTRATION

5714. Flag Officers

Reports are initiated by the Assistant Chief of Naval Staff (Personnel)/Naval Secretary, who will forward the appropriate Senior Officer Appraisal Report (SOAR) and instructions to nominated reporting officers.

5715. Officers and Ratings on the Trained Strength

In accordance with JSP 757, reports are to be rendered at least annually on JPA for all officers and ratings/other ranks on the trained strength (except 2 Star officers and above – see above) including Maritime Reserve personnel when mobilised for active service, serving on Full Time Reserve Service commitments or borne for training in peacetime. This includes Officers (X) and (E) previously qualified as GTS in their source Branch whilst undertaking Courses in the Flying Training pipeline for sub-specialisation as Aircrew, for whom (as a minimum) MOD 2020E Course Report (for OCU courses) and 2020G Aircrew Insert Slip are to be rendered in addition to the Form E190 III (Aircrew). Where sufficient knowledge of an individual is held by a unit in accordance with JSP 757, a 2020 Full OJAR is to be rendered at least annually. Exceptionally, United Nations and NATO formats and certain training Course reports or Short Stand Alone Tour (SST) reports are accepted in lieu of full ARs. JSP 757 Annex 2C provides full details about when officers, ratings and other ranks on the trained strength are to be reported on and the occasions for report.

5716. Officers under Training

a. Formal reports on RN YOs are to be raised on the Standard Report Form (SRF) for inclusion in the Training Record (Form E190). The latter provides a complete record of an RN officer’s training until they join the trained strength. It is started for every officer entrant to BRNC Dartmouth and passed from ship to ship. It is made up in the form of a booklet with four parts covering Naval General Training (NGT), Pre-Professional Training, Fleet Training and University Training.

b. For RM YOs, a MOD Form 2020E (Course Report – In Lieu of Appraisal) is to be raised on completion of initial training at CTCRM. A full AR is then to be raised after 12 months in their Troop Command assignment unless, by exception, they are deemed to be under-performing, in which case an OJAR (Occasion: ‘Special Circumstance’) is to be raised and forwarded to the Naval Secretary’s Department (see Para 5744).

c. Ab-initio (not on the trained strength) Aircrew Officers undertaking Flying Training are to be reported on at each Flying course prior to Operational Conversion Unit (OCU) using the SRF (detailed at sub para a) and Form E190 III (Aircrew) for flying training progress in accordance with BRd 9469 Chapter 17. On completion of the OCU, in addition to the Form E190 III (Aircrew), MOD Forms 2020E and 2020G are to be raised just as for GTS Officers, as detailed in JSP 757 Appendix 1 to Annex A to Chapter 5. The MOD Form 2020E raised on completion of the OCU will be included in the candidate files presented to Transfer and Promotion Boards. Student aircrew undergoing training on joint or RAF training squadrons will be reported upon using the RAF 5000 series forms.
d. SRFs are to be raised on YOs in accordance with, and on the occasions described in, BRNC and other training establishments’ local instructions. SRFs are to be raised: at the end of each stage of training and on the final completion of submarine training; where application is made for the imposition or removal of an Admiralty Board, Commodore/Captain’s Warning, compulsory/voluntary withdrawal from training; and when branch/specialisation transfer is sought. The SRF should give an all-round picture of the officer with a clear analysis of his/her qualities of mind, character and personality. It should be complete in itself and, when necessary to refer to previous reports, should indicate the context. Five key areas should be covered; character, professional progress, leadership, personal qualities and a conclusion which includes a brief summary of potential and, if appropriate, recommendation (eg. to be placed on Admiralty Board Warning (ABW) or for compulsory withdrawal from training). An example of the SRF to be used is at Annex 57E.

5717. Candidates for Commissioned Rank

a. The Upper Yardman (UY), Senior Upper Yardman (SUY), RM Corps Commission (CC) and RM Senior Corps Commission (SCC) schemes provide opportunities for the promotion of ratings and other ranks to commissioned rank, subject to competitive selection and criteria specific to branch and age. Appropriate personnel need to be identified early and encouraged to complete the relevant qualifications and competencies.

b. Ratings and other ranks who aspire to be commissioned officers should, in the first instance, post their intent by completing the ‘Volunteer for Commission (Other Ranks)’ field on JPA Self Service Employee under Information Types/Employee Preferences. This action alone does not infer that the individual is a formally recognised UY/SUY/CC/SCC candidate and the prospective candidate should also discuss their aspirations with their Divisional Officer.

c. Where a volunteer for officer candidature on JPA has not otherwise taken forward the request, the initiation of the annual AR will serve to alert the 1RO that an employee has indicated on JPA that they are a volunteer for commission, and that this will require a recommendation on the AR. The 1RO/DO should interview the individual as soon as practicable and provide advice and guidance on:

1. Whether or not the type of commission selected on JPA is applicable and pertinent to the Naval Service.

2. Whether or not the Subject is eligible for a commission in accordance with current regulations and, if not, what they need to do to become eligible.

3. The Subject’s realistic chances of attaining a commission.

4. What the Subject needs to do to have their candidature formally approved.
d. Where the 1RO/DO is a WO, senior rating or SNCO, they must consult the Commissioned Officer (OF2 or above) who will be formally appointed by the CO to act as mentor for the purposes of the rating's officer candidature, especially regarding application and preparation for the Admiralty Interview Board (AIB).

e. **Confirming Eligibility for Candidature.** The 1RO/DO should assess the individual’s eligibility status for UY/SUY/CC/SCC candidature and attendance at the AIB, consulting as necessary with the Line Manager (LM) and officer mentor, who should check the relevant Competence Profile history held on JPA. The regulations at Chapter 50 pertaining to the type of commission and any Branch requirements for which the individual has volunteered must also be considered in detail.

f. **Formal Acceptance**

   (1) The CO (or Designated Officer) Requestmen forum should be used to consider the suitability of an individual for candidature, or the resurrection of candidature following suspension. Where a period of probation is deemed necessary, the individual, along with the 1RO/DO, must be advised of the areas where further development is needed and when the request will be reviewed.

   (2) Once formally approved, the relevant RA is to be informed by letter, copied to the candidate’s Career Manager, providing:

      (a) The full Service details of the candidate.

      (b) The date candidature was approved.

      (c) The branch/specialisation and type of commission.

      (d) Details of any eligibility criteria the candidate is yet to achieve (eg. Bridge Experience Certificate), according to JPA, before application for attendance at AIB.

      (e) Details of any eligibility criteria the candidate must achieve (eg. Educational qualifications), according to JPA, before they can be considered for extraction.

      (f) A certificate confirming the candidate’s current medical and visual eligibility for the preferred branch/specialisation.

g. **Personal Objectives.** The 1RO, on appointment, should consult with the candidate and their normal DO/LM to ensure that ‘SMART’ objectives are set on JPA that will assist the candidate’s development and provide empirical evidence of the candidate’s readiness to attend the AIB and hold a commission thereafter. While these specific objectives will appear on both the CR and the Annual SJAR, they should be distinct and be compatible with those already set by the LM for the annual SJAR purposes.
h. **Mid Period Appraisal Review (MPAR).** The 1RO nominated for the purposes of the CR is to conduct a MPAR insofar as it affects the Subject’s officer candidature.

i. **Primary Evidence.** As the CR seeks to provide the RAs with objective opinion of potential for commission (rather than promotion within the rating and other rank structures), the primary source of evidence will come from the specific ‘officer-related’ personal objectives set at the beginning of the reporting year. If well constructed, these objectives should assist ROs to evaluate suitability and preparedness for AIB and the strength of potential for extraction and officer training. The CO must ensure that the CR is founded on empirical evidence of leadership; effective intelligence; powers of communication; and courage and values, applied in terms of that expected of a commissioned officer.

j. **Misconduct and Poor Performance.** Where a candidate conducts themselves in a manner resulting in a Career Check or an Overall Performance Grade (OPG) of D is awarded in a routine SJAR, the CO is to review candidature with immediate effect. If, in all likelihood, their candidature is suspended, the individual may be considered for re-acceptance after completion of a further three years’ service. The suspension is to be reported to the appropriate RA by letter.

k. **Suspension or Cancellation of Candidature.** Dependent upon the circumstances, officer candidature may be suspended for a period or cancelled by the CO. The criteria for suspending or cancelling candidature are as follows:

(1) **Suspension.** The candidate becomes ineligible (even if temporarily) due to disciplinary, medical, personal or welfare reasons.

(2) **Cancellation.** The candidate:

   (a) Is considered by either the AIB or CO to be unlikely to develop the necessary competence and is therefore no longer recommended for consideration.

   (b) Withdraws voluntarily from the scheme.

   (c) Is or becomes over age for consideration.

   (d) No longer meets the medical criteria and is deemed to be unlikely to regain the required standard.

   (e) Has exercised their right to apply for early termination of service.
5718. Initial Career Reporting

a. The length of time between joining the Naval Service and attaining Gained Trained Strength (GTS) status for some trainees can be in excess of 40 months. This period is a key formative element for an individual and there remains a requirement to record, assess and report on performance while under Phase 1 and Phase 2 training (the Initial Career Reporting (ICR) period) at least annually and on completion of specific phases. Where possible, Training Establishments are to use JPA Appraisal applications for ICR reporting. For those that are unable to do so, an open reporting mechanism is to be in place that is fit for purpose and allows Subjects to sight and sign their reports. The JPA ICR appraisal:

1. Provides formal feedback on progress to the trainee.
2. Records training achievements and highlights any future potential for Career Managers, and thereby first employing units.
3. Enables the identification of possible CW and Fast Track candidates.
4. Builds a history for promotion to Leading Hand/Corporal, given that longer courses constitute a significant part of an individual’s career prior to full eligibility being achieved.

b. Branch Transfer and Re-Classing. Where applicable, the Course Report (Non Appraisal) may be moved via the reporting chain to a new/additional RO to cover those trainees that branch transfer or are re-classed. Alternatively, where this is not appropriate, the report may be deleted by the AA (the 1RO can use the “previous owner” function to return the report to the AA; this process will clear all information held in the report). Any divisional/training information of relevance to the new 1RO should be transferred using ‘hot-handover’ procedures, remembering that any written notes must be disclosed to the Subject under DPA legislation.

1. When used, JPA requires appraisal reports to be initiated on-line and, once completed by the RO(s) and Subject, ‘finalised’ by a nominated AA with the Finaliser flag. Annex 57A describes the process for ICR.

2. All professional/personal conduct warnings accrued during training are normally to be tracked and resolved within individual schools prior to transfer to GTS. However, where a trainee under CO’s level of warning for Discharge SNLR successfully attains GTS, this is to be recorded in ICR and the CO of the first employing unit informed in writing.

5719. Special Reports

a. Special reports may be called for by the Navy Board or other authority; in the latter case the Naval Secretary is to be informed. Although they are normally raised only once, further special reports may be called for. They are to be made on MPAR (Occasion: ‘Special Circumstance’) and, if in response to a MOD letter, the appropriate reference should be quoted at the initial text in the First RO's performance narrative.
b. A request for a special report does not imply that the officer, rating or other rank has been adversely reported on and they are commonly required to support invited applications for a variety of purposes. In such cases, the AR is to contain a specific statement on whether or not the individual is recommended for that purpose.

5720. Officers on Exchange or Loan Service Overseas

Reports on officers and ratings on exchange or loan service overseas are to be initiated by British Defence Staff, British Defence Liaison Staff, Naval or Defence Attachés, or the Directorate of Overseas Military Activity, as appropriate using the Non-Standard Appraisal Report (NSAR) format where necessary (see JSP 757 Chapter 7).

5721. Reports on Army and RAF Personnel

Responsibility for raising ARs on Army and RAF officers and ranks lies entirely with the owning CO, regardless of Service. Administrative guidance for ARs on Army and RAF personnel (including standard reporting dates) is contained in JSP 757.

5722. Reservist Personnel

a. Volunteer Reserve (RNR/RMR) Personnel. RNR/RMR personnel are to be reported on as follows:

   (1) Royal Naval Reserve/QARNNS Reserve. Reports on OJAR/SJAR are to be completed on JPA on the same dates and occasions as for regular RN personnel (see JSP 757 Chapter 2, Annex C), restricted to:

      (a) Officers

         i. In zone Officers, holding substantive rank of Lieutenant and above.

         ii. Over zone Officers, when specifically requested by the individual.

         iii. Lieutenants with less than five years’ seniority and Sub Lieutenants should have Short Appraisal Reports raised annually.

      (b) Ratings. Ratings when eligible for promotion.

   (2) Royal Marines Reserve - List 1. Reports on OJAR/SJAR are to be compiled on JPA on the same dates and occasions as for regular RM personnel. Where RMR officers and other ranks are attached to RM units for periods of continuous training in excess of two weeks, the parent RMR Unit is responsible for ensuring that a request for a Detachment Insert Slip is made on JPA to inform the full OJAR/SJAR (see JSP 757 Chapter 5).
b. **Volunteer Reserve (RNR/RMR/QARNNS(R)) Personnel on Full Time Reserve Service (FTRS) or Mobilised Service.** Reports for RNR and RMR officers and ratings/other ranks serving on FTRS or mobilised service are to be completed on JPA on the same occasions as for RN/RM personnel. Where only part of the reporting year has been spent on an FTRS commitment or mobilised service, the parent RNR/RMR Unit should initiate the report with an Insert Slip provided by the FTRS or mobilised employer. Where a full year’s FTRS or mobilised service has been completed, the FTRS or mobilised employer should initiate the report and an Insert Slip should be provided by any RNR/RMR unit attended and/or by the Head of the individual reservist’s branch. In either case, liaison between FTRS/mobilised employer and Reserve unit is essential. Where a period of mobilisation is for 6 months or less, a Short Appraisal Report is to be raised (see JSP 757 Articles 5.08).

c. **Royal Fleet Reserve (RFR) (‘Regular Reserve’) Personnel on FTRS and Additional Duties Commitment (ADC).** Reports on RFR personnel on FTRS or ADC are to be completed on JPA by the employing Unit on the same occasions as for RN/RM personnel. Where a period of FTRS is for six months or less, a Short Appraisal Report is to be raised (see JSP 757 Chapter 5). In all cases, the final reporting officer is to include a statement regarding the suitability of the individual for further FTRS/ADC and, where appropriate, service in the acting higher rank/rate.
SECTION 3 – REPORTING REQUIREMENTS ON IMMINENT DISCHARGE FROM THE SERVICE

5723. Reporting Requirements

Unless a report containing the appropriate recommendations has been raised in the last 6 months, all officers, ratings and other ranks about to retire or be discharged from the Service are to receive an appraisal report (Occasion: Prior to Retirement) from the final employing unit prior to joining the nominated Release Centre.

5724. Recommendation for Further Naval Service

a. Ratings and other ranks who leave the Service before normal retirement age, except for those for whom the reason for discharge precludes consideration for further service (‘Deserted’, ‘Dismissed’, ‘SNLR’, or ‘SHORE’), are to be assessed and a recommendation made as to their suitability for further Naval Service, including FTRS or transfer to the RNR/RMR. The statement ‘Recommended for further Naval Service’ or ‘Not recommended for further Naval Service’ is to be included in the 2RO potential narrative.

b. Where a recommendation for further Naval Service is made, this indicates that the individual is considered suitable in all respects for such service (including RFR and RNR/RMR enrolment). In the case of a rating or other rank, service during the last three years should be free of any career checks and their performance grade during this period commensurate with rate, qualifications and seniority.

c. Individuals not recommended for further service are to be informed and made aware of their rights in accordance with JSP 831 at the earliest opportunity to enable any subsequent representation to be concluded before release from the Service.

d. Assignment Orders to release ratings subsequently assigned to another ship or establishment prior to release before joining the Release Centre, or to the Release Centre three or more months before they are due to begin terminal leave, may be reassessed and a further recommendation made if, in the opinion of the new CO, their conduct justifies such action.

e. For officers, final OJARs should include recommendations as to suitability for further active service, FTRS or transfer to the RNR/RMR.

f. Effects of Recommendation

(1) Where the cause of discharge is either ‘Engagement Completed’, ‘At 12 Months’ Notice’ or ‘Redundant’, a recommendation for further Naval service will indicate that Ratings are considered suitable for re-entry and, if they have a liability for the RFR, eligible for enrolment. See also Para 5447 and Part 4 (Recruiting).
(2) For all causes of discharge other than ‘Desertion’, ‘Dismissal’, ‘Service No Longer Required’, ‘Pensioned’ or ‘SHORE’ (except Unhappy Under 18 year olds), the addition of an asterisk (*) to a recommendation for further Naval service indicates that, at the time of discharge, the rating’s personal circumstances were such as to preclude immediate consideration for such service or for immediate enrolment in the RFR, see Para 5724 g sub para (4).

(3) For all causes of discharge other than ‘Desertion’, ‘Dismissed’, ‘Service No Longer Required’, ‘Pensioned’ or ‘SHORE’ (except Unhappy Under 18 year olds), the notation ‘Not Recommended for Further Naval Service’ will indicate that a rating is not considered suitable either to re-enter the Service or for service in the RFR.

g. For a recommendation for further Naval service, a rating must be considered suitable in all respects for such service. When making a recommendation, the CO should take into account the following:

(1) **Cause of Discharge.** Where the cause of discharge does not preclude consideration for further Naval service (Desertion, Dismissed, SNLR or SHORE (except unhappy under 18 year olds), but is other than ‘Engagement Completed’, ‘At 12 Months’ Notice’, ‘Pensioned’ or ‘Redundant’), the circumstances which have led to the decision to discharge the rating should be disregarded as far as possible when assessing suitability for further Naval service. In this situation, the sole criterion should be whether, in normal circumstances, the rating would be considered suitable in all respects for Naval service and could be recommended as such.

(2) **Conduct and Effectiveness.** To be recommended as suitable for further Naval service, a rating’s service during their last three years should be free of any career checks. Their effectiveness assessments during the same period should also be commensurate with rate, experience, qualifications and seniority.

(3) **Medical and Security Considerations.** Ratings with a history of medical problems, or whose discretion on financial or other matters is questionable, which have not, of themselves, promoted an application for discharge from the Service, are to be recommended for further Naval service only if there are clear indications of improvement in these respects.

(4) **Domestic Problems.** Ratings with a history of domestic problems which, in the opinion of the CO would have warranted referral to the RNRMW had the rating applied to re-engage, are to be assessed as though the domestic problems did not exist, on the assumption that they may, in the future, be resolved. Ratings in these circumstances who would otherwise be recommended as suitable for further Naval service are to have an asterisk (*) added to their recorded recommendation (see Para 5724 f sub para (2)).
SECTION 4 - APPRAISAL REPORTING – NON-UK PERSONNEL

5725. Foreign Officers Under Training
Foreign officers under training should be reported on in accordance with Chapter 8 of JSP 510 – International Defence Training.

5726. Personnel of the United States Navy (USN)

   a. Fitness Reports will be made on USN personnel on the following occasions:

      (1) Annually, according to rank (see Table 57-1).

      (2) When the individual’s US reporting senior changes.

      (3) On completion of posting/exchange.

   b. Fitness Reports are made on NAVPERS Form 1610/02 (03-02) and drafted by the officer on whom the report is being submitted and rendered to the US Personnel Exchange Program (PEP) Administration Office, Naples, Italy. In parallel, the host nation chain-of-command 2RO (minimum rank OF4) shall provide to the US reporting senior a letter for incorporation into the finalised fitness report. A formal request for the host nation letter will be generated by the PEP Admin office approximately 30 days before the report due date.

   * Mid-term counselling affords the host nation chain of command an opportunity to provide the officer with an informal assessment of their strengths and weaknesses. This assessment is due within the month listed above and does not require any formal paperwork to be generated.
5727. Personnel Serving with the Royal Marines

a. United States Marine Corps (USMC) - Foreign Personnel Exchange Programme (MCFPEP). Performance evaluation reporting procedures for MCFPEP personnel shall be in accordance with the Marine Corps Performance Evaluation System (PES). As such, the Subject will provide a USMC fitness report to the nominated UK Reporting Officers, annotated in Section 1 that a foreign evaluation report is attached. Consequently, the appraisal is to be compiled using a normal Form MOD 2020 AR, Type ‘Regular RM Officer’ or ‘RM Other Rank’, as appropriate, but in the NSAR format. The normal OJAR/SJAR values of grades and recommendations are to be used. Once completed, it is to be signed and attached to the USMC fitness report and returned to the Subject, who will forward the documents via his administrative support unit to the USMC Reviewing Officer for action. On no account is the NSAR to be forwarded to the JPAC. USMC fitness reports are to be submitted within 30 days of the due date, as advised by the Subject.

b. Royal Netherlands Marine Corps (RNLMC) Officers. MOD 2020 (NSAR format) ‘RM Officer’s Appraisal’ is to be used for reporting on officers in the RNLMC. This is to be submitted in hard copy only to NPT RM via the chain of command by 30 November each year and on termination of assignment.

5728. Officers of Commonwealth Naval Forces

a. Canadian Forces (Naval). Letters of ‘Performance and Potential’ are required to be rendered annually (on all ranks) for the reporting period 1 Apr – 31 Mar. The Canadian Defence Liaison Staff (London) (CDLS(L)) will initiate the reporting process in February each year and provide instructions and guidance on the evaluation requirements and the use of the master template for owning COs. CDLS(L) will also arrange a follow-up visit by the Naval Adviser and/or the Assistant Naval Adviser in early March.

b. Royal Australian Navy. Reports are to be rendered on all officers on exchange/loan postings by one of two methods:

(1) End of course report (for those on RN sponsored courses), or;

(2) As required by the RAN reporting system, on the following occasions:

(a) Those officers in zone for promotion, who have been observed for a minimum of 120 days by the officer’s immediate line manager, annually, on 30 June.

(b) Those officers not in zone for promotion, on the anniversary of taking up the exchange/loan position, when an officer’s immediate line manager changes and has observed the officer for a minimum of 120 days.
(3) Reports on in-zone officers will be called for by the Naval Adviser, Australian Defence Staff and managed by the Assistant Naval Adviser (London) (ANA(L)). All in-country Australian Exchange/Loan officers are provided a CD, incorporating the electronic formats for the reporting forms and instructions for their completion. The ANA(L) will forward to the reporting authority a blank formatted disk, together with instructions and a covering letter in February and July each year. The completed report is to be forwarded directly to the Naval Adviser (London), Australian Defence Staff, Australia House, Strand, London, WC2B 4LA.

c. Royal New Zealand Navy (RNZN). Reports are to be rendered as follows:

(1) **Officers of Captain Rank**. Reports on Captains will be initiated by and on the direction of the RNZN Directorate of Naval Officers Career Management. Where an End of Course report is rendered for a significant period of instruction (e.g. RCDS), no other report is required.

(2) **Officers of the Commander Rank and Below**. Reports for this category of officers are to be rendered on the following occasions. For Sub Lieutenants and below, this will only apply for those officers that hold all professional qualifications for promotion to Lieutenant:

   (a) Annually on birthdays.

   (b) When an officer’s reporting officer changes.

   (c) On completion of posting/exchange or training.

   (d) For Lieutenants and above - for period ending 30 Nov, but only if no other report has been raised for any of the three previous listed occasions within the preceding four months.

   (e) As called for by the Naval Adviser, NZDS London.

(3) Reports are rendered on Form MD 68, which are to be completed in accordance with the accompanying Form MD 69 (available on a CD issued to all RNZN officers on arrival in UK). Parts 2-5 are to be completed by the Head of Department and Part 6 by the CO. If, when acknowledging the report at Part 5, the individual indicates that they will be making comment on the report, the report remains incomplete and is not to be forwarded until such time as the comments are attached by the Subject, noting a deadline of 14 days. Parts 7-8 are reserved for the appropriate Headquarters Staff Officer’s comments in New Zealand. All reports for RNZN officers on exchange/posting or under training in the UK should be forwarded through the Naval Adviser, NZDS, New Zealand High Commission, 80 The Haymarket, London SW1Y 4TQ, for onward transmission to the Director of Naval Officers Career Management, HQNZDF(NAVY). The MD68 is a completely open reporting system and the officer being reported on is sent a copy of the completed Form MD 68 once all Parts have been completed.
(4) **Junior Officers Under Training (JOUT).** This category is defined by those officers who have yet to gain their professional/specialist qualifications for promotion to Lieutenant (e.g. OOW(A) equivalent, WEQ or MEQ). Occasions for report are as follows:

(a) On completion of any Core Professional Course undertaken with the RN (e.g. SEMC) but not if a detailed End of Course report is rendered.

(b) On completion of a posting in excess of 28 days.

(c) On change of Reporting Officer, where there has been no prior report by the departing Reporting Officer.

(d) Should the above occasions not result in a RNZN 41 being raised for a period exceeding six months, a 6-monthly progress report is to be raised.

(e) On the officer attaining their final professional qualification to the rank of Lieutenant; all subsequent personal reports are to be rendered on Form MD 68 Personal Report – Officer (see Para 5728 c sub para (3)).

(f) As called for by the RNZN Junior Officer Career Management Cell, via the Naval Adviser, NZDS London.

(5) Reports for RNZN JOUTs are to be rendered on Form RNZN 41, which are to be completed in accordance with the accompanying instructions. Section 4 is to be completed by the Reporting Officer and Section 5 by the CO (or delegate). If, when acknowledging the report at Part 5, the individual indicates they will be making comment on the report, the report remains incomplete and is not to be forwarded until such time as the comments are attached by the Subject, noting a deadline of seven days. All reports for RNZN JOUTs are to be forwarded through the Naval Adviser, NZDS London for forward transmission to the Captain Fleet Personnel and Training (faø Young Officer Career Management Cell).
SECTION 5 – OFFICERS ON THE UNTRAINED STRENGTH - WARNING PROCESS

5729. Training Warnings – General Instructions

a. Officers undergoing initial training, defined as the training undertaken prior to joining the trained strength, are considered to be on probation for the whole period of their training and the MOD reserves the right to terminate a commission at any time if:

1. They fail to reach a satisfactory standard during their studies or in training; or
2. Their conduct is unsatisfactory; or
3. They do not display the qualities required of a RN/RM officer, e.g. in terms of character and leadership or temperament.

b. Additionally, University Cadet Entry officers may be withdrawn from their cadetship/sponsorship schemes if they fail to reach the required standard during initial training, or they:

1. Fail to pass out of BRNC; or
2. Fail academically during their degree course; or
3. Fail to obtain his/her degree for reasons attributable to his/her own fault.

c. Only in exceptional circumstances will a UCE officer be considered for transfer to a NCE commission (see transfer procedures at Para 5104).

d. A decision to terminate an appointment is not taken lightly. It is important that officers should be given, and be seen to be given, a fair and reasonable chance to demonstrate whether they have, or have the potential to develop, the personal qualities necessary to be an officer of the Naval Service. It is equally important that they are given a fair and reasonable chance to achieve the standards of professional competence required. Warning procedures exist to allow YOs to be told where their weaknesses lie, to appreciate the need to improve, to recognise that their future in the Service may be in jeopardy if they are unable to reach and maintain the necessary standards and to be given a reasonable period of time in which to reach an acceptable standard.

5730. RN Phase 1 Training Warnings – BRNC

a. Warnings follow a 3 tier graduated warning system, maintaining a distinction between Professional and C&L. YOs failing to achieve the requisite standards will be placed on the appropriate level of warning to indicate inadequate progress in the areas specified. Warning states in increasing order of seriousness are Divisional Officer (DO), Senior Squadron Officer (SSO) and Commander Training. Of these, DO and SSO are internal to BRNC and are not recorded externally.
In order to assure the correct feedback to the YO, a robust reporting system has been established; all YOs being placed on Commander Training's warning will have a SRF raised with the signed original placed in the P/File held by BRNC and a signed copy held in the E190.

b. A YO who is under Commander Training's Professional Warning on completion of BRNC training may not proceed to the next stage of training.

c. Where a YO is under Commander Training’s Warning C&L at the time he/she completes his/her BRNC training, Commander Training is to inform the YO's new CO that a C&L Warning has been imposed. The new CO will then be responsible for reviewing the case after a suitable period of assessment has elapsed (usually within one month of arrival) and for either removing the warning or recommending that an Admiralty Board Warning (ABW) be imposed. The Officer Terms of Service Manager and the Career Manager are to be informed of such action as necessary.

d. **Removal from Warning at BRNC.** Commander Training may remove a warning if it is assessed that a YO has reached and maintained the required standard for an appropriate period.

5731. **RN Phase 2 Training Warnings - Below Admiralty Board Level**

a. COs of ships responsible for YOs undertaking training and COs of shore training establishments may impose a Commodore/Captain’s Professional or C&L Warning on any YO under training whose performance gives cause for concern, but does not justify the imposition of an ABW. After an officer has spent the normal assessment period of between one and three months continuously in one ship or establishment, his/her CO should either remove the Commodore/Captain’s Warning which does not require reference to the Officer Terms of Service Manager or, if the officer has failed to improve or is unable to show a sustained improvement, forward an application to the Officer Terms of Service Manager for the imposition of an ABW in accordance with Para 5737.

b. COs of shore training establishments responsible for YOs undertaking training may impose a Commodore/Captain's Professional or C&L Warning on any YO under training whose performance gives cause for concern. After an officer has spent the normal assessment period of between one and three months continuously in the establishment, the CO should either remove the Commodore/Captain's Warning, which does not require reference to the Officer Terms of Service Manager, or, if the officer has failed to improve or is unable to show a sustained improvement, forward an application to the Officer Terms of Service Manager for the imposition of an ABW in accordance with Para 5737 (note: COs of some shore training establishments have delegated authority to impose an ABW (Professional) - Para 5737 sub para a refers)
c. **Review of Commodore's/Captain's Warning during Phase 2 Training.**
COs of ships or training establishments should review the case of any YO on Commodore/Captain's Warning before he/she leaves the respective ship or shore establishment for his/her next assignment with a view to either removing the Warning or making an application to the Officer Terms of Service Manager for the imposition of an ABW. Where, exceptionally, a YO remains under Commodore/Captain's Warning and is appointed elsewhere, it is the responsibility of the former CO to notify the new CO of the status of the warning.

5732. **RN Phase 2 Training Warnings - During TM Training**
TM officers under training whose progress on any component of the Training Management Officer Course (TMOC) gives cause for concern but does not justify the imposition of an ABW may be placed in the first instance on TMOC Course Officer's Professional Warning. This written warning must detail the nature of the shortfall and remedial action to be taken by the officer, as well as the consequences of failing to reach the required standard. If the officer continues to fail to achieve against course objectives or sufficient progress is not being made to rectify previous poor performance then, following consultation with the Career Manager, an application may be made to the Officer Terms of Service Manager by the CO HRTSG for the warning to be elevated to ABW.

5733. **RN Phase 2 Training Warnings - During Flying Training**

a. **Professional**

(1) With RN/RM aircrew now trained in squadrons of all three Services and joint units, it is increasingly difficult to impose a single Service solution. To that end, the professional warnings used in flying training, while conforming to the spirit of these general regulations, may differ slightly in their terminology. They are detailed in individual squadron/school flying training regulations.

(2) **Probationary Period.** The whole period of training is one of probation and the MOD reserves the right to terminate a commission at any time if the YO fails to achieve the required standard (see Para 5729 sub para a).

(3) **Warnings for Air and Ground Work.** Warnings will be given for failure or lack of progress in either air or ground work. YOs should be interviewed and advised of their failings, what they are required to do to reach the required standard and what the consequences will be if they fail to do so, all of which should be reflected in the Warning Reports. The following warnings may be imposed:

(a) **Warning Report 1.** To be raised by Course Officer, Senior Pilot or Senior Observer. This report is to be entered in the student’s Course Record Folder (CRF) by the Senior Member of the training staff and the student is to sign and date as having read and understood the report. The report is reviewed weekly by the Squadron CO, Chief Instructor (CI) (RNAS Culdrose) Senior or Chief Flying Instructor (CFI) (DEFTS/DHFS) or their nominated representative.
(b) **Warning Report 2.** To be raised by the Squadron CO or CI. This report is entered as above, and forwarded to Cdr(Air) RNAS Culdrose/Yeovilton or DEFTS/DHFS/BFJT/AFJT or Station/School CFI who may also interview the student if considered necessary. The student is to sign and date as before. The report is to be reviewed weekly by Cdr(Air) or Station/School CFI or their nominated representative.

(c) **Warning Report 3.** The student is to be interviewed by Cdr(Air), BFJT/AFJT or Station/School CFI or Senior Naval Officer (SNO) (DEFTS) or their nominated representative and formally warned. Failure to improve will normally lead to suspension from flying training. The student signs and dates the report as above. The student may fly additional sorties which could include check rides or a trainability sortie, or sit further ground school papers. Each case is always to be considered separately.

(4) With the increasing reliance on simulator training, Air Warnings may be awarded for failures in simulator sorties.

(5) **Recording of Warnings.** A YO placed on Ground or Air Warning is to sign and date as having read the Warning Report before it is entered in his/her Continuous Reporting Form (CRF).

(6) **Period of Warning.** It is emphasised that Air and Ground Warnings are not to be carried forward from one Training Squadron to the next. There are two exceptions to this. Firstly, the DHFS course is split into two phases – SEBRW and SEARW – conducted on two squadrons, 660 Sqn and 705 NAS. Given the natural progression of the course, consideration may be given to carry warnings forward from SEBRW to SEARW where appropriate.

(7) Furthermore, given that ACP and OCP are deemed to be a seamless course, warnings are applicable across the whole OCU and may be carried forward between ACP and OCP where that training takes place on the same squadron. Warnings are to be reviewed weekly and students who show the sustained and requisite improvement in the area for which he/she received the warning may have that warning reduced or removed irrespective of the administrative burden. Should there be a subsequent deterioration; another warning is to be imposed.

(8) **Failure to Improve under Warning.** A YO placed on an Air Warning is to be given additional instruction which may include simulator or airborne sorties. The remedial training that is proposed to overcome the student’s shortcomings is to be clearly annotated in the Warning Report. Extra tuition may not be appropriate following the award of a Ground Warning and a straight re-sit of a failed examination may suffice. Each case should be considered on its merits within these guidelines and those at Para 5733 a sub para (3).
(9) Warning reports must also highlight the consequences of failure to improve performance.

(10) **Suspension from Flying Training.** In most cases, further failure after Warning 3 will result in suspension from flying training (see Para 5733 sub para c).

b. **Character and Leadership (C&L) Warnings**

(1) Officers on the untrained strength are considered to be on probation for the whole period of their training in accordance with Para 5729. As such, student aircrew ex-BRNC are subject to continuous C&L assessment throughout their flying training. If any Squadron has doubts as to whether they display the qualities required of an officer of the Naval Service in terms of conduct, character and leadership, they are to be formally warned in accordance with the principles of Para 5733 and Para 5737.

(a) **CO's Warning for C&L.** The student is to be counselled/interviewed by the Squadron CO or Senior Pilot/Senior Observer and warned of their failings. They are to be informed that if the shortcomings are not remedied within an agreed period of time (normally one month and not more than three months) then recommendation will be made that they will be placed on Commodore/Captain’s Warning for C&L. Before this is contemplated, the case must be discussed with the appropriate Cdr(Air) or CFI. In some circumstances, it may be appropriate for this initial warning to be issued by Cdr(Air) or CFI.

(b) **Commodore/Captain’s Warning for C&L.** The student is to be interviewed by the Air Station CO or the Commandant DHFS, and informed that failure to improve will result in a recommendation for an ABW or potentially immediate withdrawal from training.

(c) **ABW for C&L.** The student is to be interviewed by the Air Station CO or the Commandant DHFS, and informed that they have failed to make suitable progress since being placed on Commodore/Captain’s Warning and that application is therefore being made to Navy Command Headquarters to place them on ABW.

(2) **Period of C&L Warnings.** When a student aircrew officer is under CO's or Commodore's/Captain’s C&L Warning at the time that he/she passes a phase of flying training, they may be permitted to proceed onto the next stage of training but their new squadron/air station CO as appropriate must be informed and is responsible for reviewing the C&L Warning within 1 month.

(3) The normal periods for Commodore's/Captain's or Admiralty Board Warning for C&L are covered in Para 5731 and Para 5737.
(4) **Recording of C&L Warnings.** The CO’s C&L Warning is informal and is merely part of the normal counselling process. It does not necessarily need a written report, but the date of interview must be recorded in the student’s CRF; however, at the Squadron CO’s discretion, a NAC 98 may be raised. Commodore/Captain’s Warning for C&L, by contrast, must be fully reported using the NAC 98 format and should be included with the officer’s E190 folder.

Application for ABW should be made to the Officer Terms of Service Manager by a simple routine letter outlining the circumstances of the case. A copy of the approval letter should be included with the student’s signed and dated SRF within their E190 folder.

(5) End of course reports forwarded to ACOS(CSAV) are to include one copy of each of the C&L Warning Reports.

(6) **ABW for C&L.** In view of the high degree of trust and reliability that is required from aircrew, student aircrew who are placed on ABW (C&L) will be automatically suspended from flying training and referred to the NAAB for consideration. It is likely that they will be appointed to a holdover where they can be given the opportunity to improve their shortcomings and, if subsequently removed from Warning, normally returned to flying training. In this event, the case will be referred to the Officer Terms of Service Manager for consideration of an appropriate seniority adjustment.

c. **Failure during Flying Training**

(1) **Suspension from Flying Training.** Whilst suspension as a training risk is applicable up to completion of ACP only, student Aircrew may be suspended from flying training at any point up to completion of OCP in the following circumstances:

   (a) Failure of a trainability or assessed sortie following award of Air Warning 3.

   (b) Failure of ground examination following award of Ground Warning 3.

   (c) At any point if in exceptional circumstances, including assessment as a training risk.

(2) Failure to achieve C of C will be dealt with under the suspension from flying duties procedures in accordance with BR 767 Para N115.135, although it should be noted that aircrew in this position will be deemed to be under training until award of C of C.
In normal circumstances, students who receive Air or Ground Warning 3 who suffer any further failure will be recommended for suspension from flying training. Officers suspended from flying training for any reason are to be interviewed by the CO of the appropriate station or his/her nominated representative where formally delegated. However, in the case of officers referred to the PNAAB as training risks, the authority to conduct this interview on ACOS(CSAV)’s behalf is delegated as follows:

- RNAS Culdrose/RNAS Yeovilton – Cdr(Air)
- DHFS – CFI
- DEFTS – SNO
- BFJT/AFJT – SNO Cranwell (or delegated SNI at Linton/Valley)

The CO of the appropriate Air Station (or his/her delegated representative) may suspend a YO from flying training without warning or with less than the normal period of warning. Such action is only to be used in exceptional circumstances and the CO must detail the special circumstances of the case.

In event of suspension from training, the procedures in BRd 9469 Chapter 17 are to be followed. In particular, NAAB and ACOS(CSAV) are to be informed and a NAC 99 suspension report is to be raised giving detailed reasons for failure. The NAC 99 should contain only the facts of the case and no recommendations for future employment with the exception that suitability for back-coursing may be detailed. Under normal circumstances, except where back-coursing is being recommended, there should be no discussion of any case between the Training Squadron and the NAAB before interview. It is important that the report arrives at NAAB at least 24 hours prior to the person under report; non arrival will result in the interview being postponed.

5734. RN Phase 2 Training Warnings - During Air Traffic Control

a. **Probationary Period.** The whole period of training is one of probation and the MOD reserves the right to terminate a commission at any time if the officer fails to achieve the standard required (see Para 5729).

b. **Professional Warnings and Suspension.** Officers under training who fail to make adequate progress during any phase of their training will be formally warned as follows:

(1) **Warning Report 1.** Following consultation with the Senior Air Traffic Controller (SATCO), a report to be raised by the Unit Training Officer (UTO) on NAC Form 88B. The report is to be reviewed weekly and the Subject officer interviewed by the Training Officer. He/she is to sign as having read and understood the warning. This warning and any subsequent warnings are to be annotated on NAC Form 88C.
(2) **Warning Report 2.** To be raised by the SATCO on NAC Form 88B and forwarded with NAC Form 88C, the Subject officer is to be interviewed by SATCO and the report is to be forwarded through Commander (Air) who may also interview the Subject officer if considered necessary. The Subject officer is to sign as before.

(3) **Warning Report 3.** The Subject officer is to be formally warned by Commander (Air) that they are required to improve in the notified areas and that failure to do so will result in suspension. A report is to be raised on NAC Form 88B. The Subject officer is to sign the report which is to be forwarded through the CO to Navy Command/ACOS (CSAV) ATC SO2.

c. Reports must detail the Subject officer’s specific shortcomings, together with the targets which must be achieved by a specified date. The following timescales for improvement will generally apply.

(1) Warning 1 to Warning 2 or removal of warning: 20 hours controlling.

(2) Warning 2 to Warning 3 or removal of warning: 15 hours controlling.

(3) Warning 3 to Validation or Suspension: 10 hours controlling.

d. Whilst Warning Report 1 and Character and Leadership reports may be raised on more than one occasion at different phases of training, it is expected that Warning Reports 2 and 3 will be rendered only once during any one phase of training.

e. If, at any stage of training, there is doubt concerning a Subject officer’s ability to complete training successfully, ACOS(CSAV) ATC SO2 may be requested to conduct an independent assessment of their performance.

f. Officers suspended from training will be interviewed by their CO and a NAC Form 99A is to be raised. The Subject officer will then be referred to the NAAB (see Para 5742).

g. **Character and Leadership (C&L) Warnings.** The following warnings for C&L may be given:

(1) **SATCO/Senior Naval Instructor’s (SNI) Warning (Warning 1).** The Subject officer is to be interviewed by the SATCO/SNI and warned of their failings. He/she is also to be warned that lack of improvement will lead to a CO’s Warning.

(2) **CO’s Warning (Warning 2).** A formal warning by the CO for which the procedures at Para 5731 should be followed, keeping ACOS(CSAV) informed.

(3) **ABW (Warning 3).** The procedures at Para 5737 should be followed, keeping ACOS(CSAV) ATC SO2 informed.
h. **Period of C&L Warnings.** Warning 1 given during Parts A, B and C may be carried forward to the next stage of training. SATCO/SNI should ensure that the Subject officer’s new SATCO is informed of the status of the warning. It should, however, be every SATCO/SNI’s aim to remove a Subject officer from Warning 1 before they leave the establishment and they should be given every opportunity to show improvement.

i. For the normal periods for Warnings 2 and 3, see Para 5731 and Para 5737.

j. Recording of C&L Warnings. See Para 5733 b sub para (4) and sub para (5).

5735. **RM Phase 1 and 2 Training Warnings - CTCRM**

a. During Phase 1 and Phase 2 Training at CTCRM, a RMYO will be issued with a formal written warning as a consequence of:

   (1) A failure in professional training. This includes compound failure in the same area (ie. failure of the Term 2 examination whilst already on warning for failing the Term 1 examination).

   (2) A failure to respond to informal warnings from instructors or superior officers for poor character, command or leadership.

b. Formal written statements will state that, unless the RMYO improves (in accordance with the RMYO Operational Performance Statement), it may be necessary to withdraw the YO from training and terminate the commission. A RMYO may not be passed on to an operational unit whilst under warning.

c. A specimen Report Form for the imposition/removal of warning for unsatisfactory progress is at Annex 57G.

d. In addition to that listed at Para 5735 sub para a, formal written warnings will be issued for failure in the following criteria tests:

   (1) Term 1 examination.

   (2) Term 2 examination.

   (3) Bottom-field pass out.

   (4) Commando Course (encompassing the Commando exercise CRASH ACTION).

   (5) Final examination/TEWT.

   (6) Final exercise (FINAL NAIL).
e. In exceptional circumstances, consideration may be given to a RMYO’s withdrawal from training without warning (or with less than the normal period of warning). Where such a recommendation is made, the Commandant CTCRM (Comdt) is to explain the special circumstances of the case.

f. The three levels of warning for a RMYO are:

1. **OC RMIOT’s Warning.** The OC RMIOT is to impose a formal warning as soon as doubts arise about the YO’s ability to complete training satisfactorily. The warning is to be reviewed after either:
   
   (a) One month.

   (b) The next opportunity to re-evaluate the particular area of concern (following appropriate remedial instruction).

   Continued failure to rectify specified faults, or the occurrence of additional shortcomings while on OC RMIOT’s Warning, may result in the imposition of a CO CW’s Warning. The YO will receive an interview to explain the reason for the warning and is to sign a written copy. The YO will also be informed what rectification action is required within a stipulated timescale.

2. **CO CW Warning.** The OC CW is to impose a formal warning as soon as doubts arise about the RMYO’s ability to complete training satisfactorily. The warning is to be reviewed after 1 month. Subsequent failure or a failure to improve while on OC CW’s warning will render the RMYO liable to Comdt’s Warning.

3. **Comdt’s Warning.** Beyond the continued or compound failure articulated above, a Comdt’s Warning may be imposed for:

   (a) Failure considered sufficiently severe to bypass CO CW’s Warning.

   (b) Severe professional regression in the final term of training.

   Protocols are similar to those of CO CW’s Warning but with a duration of 3 months wherever possible.

g. **Imposition of a Comdt’s Warning less than 3 months before Pass Out.** In this instance, the RMYO is to be informed that until the conditions of the warning are satisfied, the Comdt will (following successful application to the Naval Secretary):

   1. Hold the RMYO at CTCRM for additional assessment until such time as they are considered capable of passing for duty.

   2. Withdraw the RMYO from training and terminate the commission.
h. **Compulsory Withdrawal from Phase 1 Training.** Failure to satisfy the conditions of a Comdt’s Warning during Phase 1 Training may result in the RMYO being compulsorily withdrawn from training and the termination of their commission. Other occasions where an RMYO may be withdrawn from training directly are:

(1) A serious failure in judgement or character unbecoming of an officer or liable to bring the Armed Forces into disrepute.

(2) Failure to pass the professional/academic tests at Para 5735 sub para d, whilst already on Comdt’s Warning for a previous associated failure (ie. if a RMYO fails the Term 2 examination whilst on warning for failure of the Term 1 examination).

i. **Compulsory Withdrawal from Phase 2 Training.** Applications for compulsory withdrawal from Phase 2 training are to be made to the Officer Terms of Service Manager for higher approval – see Para 5436 sub para l. The same criteria for failure apply as for Phase 1 Training.

j. **RMYOs Under 18 years of Age.** On behalf of the Comdt, the CO CW will inform the parents or guardian of a RMYO placed on formal warning or compulsorily withdrawn from training before the RMYO’s 18th birthday.

k. **Wider Reporting.** The RM Officer Career Manager is to be notified of any RMYO who is placed on, or removed from, Comdt’s Warning or compulsorily withdrawn from training.

5736. **Admiralty Board Warnings - General**

a. If, following a period on Commodore/Captain’s Warning (Professional or C&L), a YO who has made insufficient improvement may be placed under Admiralty Board Warning (ABW) (Professional or C&L). A Commodore/Captain’s Warning will normally be appropriate as the first stage in the warning procedure. However, it is not essential to precede an ABW with a Commodore/Captain’s Warning and, exceptionally, application may be made for a YO to be placed straight on ABW where timing or other circumstances require it.

b. An ABW will normally be for a period of 3 months, however there are occasions when a period of less than 3 months under ABW is appropriate eg. following an examination failure where re-examination takes place less than 3 months after the initial failure. A period of ABW must not exceed 3 months, since a protracted period under warning is unfair to the individual and the Service, especially if it is unlikely that a YO will be able to reach the required standard.

c. During the Initial Warfare Officers (Foundation) (IWO(F)) course, where the period in the event of a YO being backclassed may exceed 3 months, the period of ABW shall not exceed a period of 20 weeks. This exception is made only for the purposes of incorporating the opportunity of reassessment with the IWO(F) course preceding that which the YO had failed.
d. A YO being placed under ABW is to be informed as such. With the exception of professional training cases (see Para 5737 sub para a), applications for ABW should be made to the Officer Terms of Service Manager along with the YO’s full E190, including a recently completed SRF. The SRF, which must be signed by the YO, 1RO and 2RO (who must state that they support the proposed action) should reflect what has been discussed at a warning interview and specifically refer to: the failings for which the YO is being warned; details of what the YO must do to improve; the timescale in which the YO is expected to achieve the required professional standard or to show the required qualities of character and leadership; and the likely consequences if the YO fails to improve. The YO should be left in no doubt that failure to improve sufficiently within a reasonable period of time under ABW will, in all probability, lead to their withdrawal from training and termination of commission. Only in exceptional circumstances will consideration be given to a YO’s withdrawal from training without warning or with less than the normal period of warning. Where such a recommendation is made, the CO is to explain the special circumstances of the case.

e. For units deployed away from UK waters, specimen Report Forms for the Imposition/Removal of Warnings can be found at Annex 57G. COs and YO Training Officers are to ensure that, if an e-mail response is forwarded by the Officer Terms of Service Manager, the Warning Report Forms are reproduced locally and completed in accordance with instructions. The Officer Terms of Service Manager will advise the ship of the second paragraph to be inserted.

5737. Admiralty Board Warnings – Applications

a. ABW (Professional)

(1) COs of the training establishments listed below have delegated authority to impose (and remove) ABW (Professional) for failure in professional training and courses as follows:

(a) The Captain Maritime Warfare School – for Warfare Officers who fail in any section of the Initial Warfare Officers Course (IWOC) and where backclassing and/or re-examination is approved.

(b) The Captain HMS RALEIGH – for Logistics Officers who fail on the Initial Logistics Officer Course (ILOC)(M) and where backclassing and/or re-examination is approved.

(c) The Captain HMS COLLINGWOOD – for Weapon Engineer Officers who fail on the Systems Engineering and Management Course (SEMC)(WE and WESM) and where backclassing and/or re-examination is approved.

(d) The Commodore HMS SULTAN – for Air Engineer Officers and Marine Engineer Officers who fail on the SEMC(AE, ME and MESM) and where backclassing and/or re-examination is approved.
(e) The Commanding Officer HRTSG – for failure on the Training Management (TM) Foundation Course when backclassing and/or re-examination is approved.

(2) COs are always to notify the Officer Terms of Service Manager of the imposition or removal of ABWs and advise of any subsequent recommendation for withdrawal from training. YOs should be left in no doubt that failure to pass the required professional or academic examinations at the second attempt will, in all probability, lead to their withdrawal from training and the termination of their commission (see Para 5436).

(3) During the Initial Warfare Officers (Foundation) (IWO(F)) course, BRNC warning states apply as per Para 5730 sub para a: SSO warnings are equivalent to OIC IWOTE warnings at MWS and Cdr Training’s warnings are equivalent to CO’s warnings at sea or OCWS warnings at MWS. ABWs at BRNC are then authorised through Navy Command Headquarters.

(4) COs of ships responsible for Warfare YOs under training may apply to the Officer Terms of Service Manager to impose (and remove) ABW (Professional) for failure in professional training, where back-classing and/or repetition of Basic Fleet Time (BFT) or Specialist Fleet Time (SFT) is required. YOs should be kept informed of the decision to impose ABW and the reasoning behind such a decision. Before making an application, consideration should be made regarding any exceptional circumstances which may have affected the YO’s ability to reach the required professional standard.

b. **ABW Character and Leadership (C&L).** Any YO under training who shows serious character defects, or a lack of officer-like qualities may be placed under ABW (C&L). Except in cases of rapid deterioration of standards or behaviour, a Commodore/Captain’s C&L Warning will normally be appropriate as a first stage in the procedure. Action is normally initiated by the CO who is to inform the YO of their shortcomings, as described in the report recommending an ABW.

c. **ABW Submissions.** When making a submission for an ABW (Professional) (ie. ships/units who do not have the delegated authority stated at Para 5737 sub para a) or ABW (C&L), the following is to be sent to the Officer Terms of Service Manager:

1. A letter from the CO giving the reasons for the proposed ABW.

2. A copy of the SRF raised when the individual was placed on Commodore/Captain’s Warning.

3. A special SRF raised as a result of the decision to apply for an ABW. This must include comments of the 1RO and 2RO (the latter should annotate the report to say that they support the 1RO’s decision as a minimum). The SRF should be signed and dated by the YO, 1RO and 2RO, and the YO must be given the opportunity to comment.
5738. **Admiralty Board Warnings – Headquarters Staffing**

a. The period between informing an officer of a recommendation for ABW and approval of such a warning by the Officer Terms of Service Manager will be kept as short as possible so as to minimise the period of uncertainty for the YO. Sensible use of e-mail and facsimile can improve the timing considerably. COs and administrative authorities are to ensure that warning recommendations are handled expeditiously. Where deployment overseas means that forwarding the full E190 will delay the case, the Officer Terms of Service Manager should be contacted to investigate whether alternative arrangements can be agreed.

b. Each case will be considered on its individual merits. If an ABW is approved, the CO is to inform the YO accordingly and advise him/her to make every effort to reach and maintain the standards expected of a Naval Officer. The CO should also warn the YO that failure to do so may lead to their withdrawal from training and the termination of their commission (see Para 5436).

c. A YO placed under ABW is required to countersign the Warning Report Form to confirm their understanding of the position. A partially completed Warning Report Form is therefore enclosed with the Officer Terms of Service Manager’s letter confirming the imposition of a Warning. When it has been countersigned, a copy of the Report Form is to be returned to the Officer Terms of Service Manager and another copy inserted in the YO’s E190.

5739. **Admiralty Board Warnings – End of Warning Review**

a. After 3 months (or an agreed shorter warning period), with the exception of those listed at Para 5737 sub para a, COs are to make a recommendation to the Officer Terms of Service Manager for either:

1. **Removal of ABW.** The removal of ABW (ie. a YO’s performance or character and leadership qualities have improved sufficiently). As part of their submission, COs should provide a special SRF with the recommendation that the YO should be removed from warning. Where removal from Warning is agreed, the CO will be notified by the Officer Terms of Service Manager and a Removal from Warning Report Form will be provided for the YO to countersign. A copy of the Form is to be forwarded to the Officer Terms of Service Manager and a further copy inserted in the YO’s E190.

---

1 NAVSEC Letter of Delegation dated 17 Jan 18
(2) **Extension of ABW.** Where, at the end of the warning period, there are still doubts about the trainee’s ability to become a satisfactory Naval Officer in all respects, COs must carefully consider whether to recommend an extension of the warning eg. where an individual has not made sufficient progress to have the warning removed but compulsory withdrawal from training is not deemed appropriate. As above, COs should provide a special SRF setting out the reasons for such a recommendation. The report must be signed and dated by the individual concerned.

(3) **Compulsory Withdrawal from Training.** The application should be supported by a SRF and, where possible, the YO’s full E190 (see Para 5729).

b. A YO may not join the trained strength while under ABW (C&L). However, if at the end of initial training, a YO has failed to respond sufficiently to justify the removal of a ABW (Professional) but is not of sufficiently poor standard to warrant compulsory withdrawal from training, the officer may exceptionally be allowed to proceed under quarterly report (see Para 5744 to Para 5746).

5740. **Promotion of Officers under Warning**

Officers under Tier 3 (Phase 1) or Admiralty Board level (Phase 2) C&L Warning at the time of their due date for promotion to Sub Lieutenant and Lieutenant (and equivalents) will have their promotion and, consequently, their seniority in the next rank deferred until the warning is removed. The promotion will take effect from, and with seniority of, the date of the Commanding Officer’s recommendation for removal from the appropriate C&L Warning if this is later than the non-selective due date.

5741. **Seniority Losses - RN and RM YOs Under Training**

a. Time lost by individuals during initial training through no direct fault of their own, eg. as a result of medical, welfare or compassionate reasons, will not normally result in an adjustment to their seniority. Wherever doubt exists about the applicability of an adjustment, COs should consult the Officer Terms of Service Manager in the first instance.

b. In the event of time losses incurred during Phase 2 Training as a result of back-classing or back-batching, examination failure or repeated elements of professional training, that period of time will not count for seniority purposes.

5742. **Naval Aircrew Advisory Board**

a. The primary purpose of the Naval Aircrew Advisory Board (NAAB) is to advise ACOS(CSAV) on the future employment of RN/RM officer (and rating) aircrew, ATC Officers and Aircraft Controllers where doubt exists concerning their ability to continue their training or duties in accordance with FLAGO(NA), BR 767, and these regulations, in order that they may be either retained or retrained in a different branch or specialisation or their commission be terminated. The post of the President NAAB (PNAAB) is a full time role filled by a senior Lt Cdr (P)/(O) with an extensive aviation background and Command or Executive experience. The President may call upon additional Board members as the need arises.
b. ACOS(CSAV) will arrange for suitable specialist or executive officers to augment the NAAB if required. An officer additional to the permanent NAAB will not act as President of the Board unless either the President is specifically required to be an officer of a rank higher than Lieutenant Commander or the President himself is not available.

c. **Functions of the NAAB**

   (1) To interview and advise on the future employment of RN/RM aircrew and RN ATC officers and Aircraft Controllers referred to the Board where doubt exists concerning their ability to continue training or duties in order that they may be either retained or retrained in a different branch/specialisation or their commission terminated.

   (2) To effect executive disposal from the Consultant Advisor in Aviation Medicine (Royal Navy) following alteration of medical flying category or recommendation for a special appointment.

   (3) To act as an independent Aircrew Training Quality Control Organisation for ACOS(CSAV).

d. The NAAB maintains a close co-operation with the Consultant Advisor in Aviation Medicine (Royal Navy) who attends the Board, if required, in an advisory capacity and may form a second member of the NAAB when required.

e. The President NAAB is responsible to ACOS(CSAV) for the execution of the tasks of the Board. He may also communicate direct with MOD departments and with ships and establishments in matters of detail concerning individual cases. He is to forward reports on matters connected with his tasks to ACOS(CSAV).

f. The NAAB will consider and conduct detailed investigation into all cases of compulsory or voluntary withdrawal from flying training or flying duties.

g. **Documentation.** Written reports giving detailed reasons for failure are to be sent to PNAAB, info ACOS(CSAV) (and JHC for JHC aircrew). Only NAC 99 and Warning Reports are required by ACOS(CSAV) and JHC. The NAC 99 should contain only the facts of the case and no recommendations for future employment with the exception that suitability for back-coursing may be detailed. Under normal circumstances, except where back-coursing is being recommended, there should be no discussion of any case between the Training Squadron and the NAAB before interview. Royal Mail Special Delivery is to be used, if necessary, to ensure that the report arrives at the Board at least 24 hours prior to the officer under report; non arrival will result in the interview being postponed. The following, and any other relevant, documents should be enclosed with the report (for PNAAB only):

   (1) Specific NAC/other forms (see table below) and S2020D if necessary.

   (2) Warning reports.
(3) Sortie/serial reports (including all sortie reports from previous training squadrons).

(4) In the event of a voluntary request for withdrawal from training, the letter requesting withdrawal must also be forwarded.

**Note.** Aircrew are to present their Flying Log Books when attending NAAB and take all flying clothing with them to INM.

h. **Specific Report Forms.** In addition to the paperwork required above, the following specific NAC/other reports are to be forwarded as appropriate to the circumstances of the individual.

**Table 57-2. Appropriate NAC Forms**

5743. **Naval Advisory Board**

a. Naval Advisory Boards (NAB) may be convened as required to assist both directly and indirectly in the retention of YOs in the X, E and L branches.

b. **Composition.** The NAB consists of representatives from the Naval Secretary’s staff under the chairmanship of the Navy Command/FOST SO1 Training Pipeline Manager. Other advisers may be invited to attend as necessary. The Board will not examine failures and withdrawals from BRNC, as the college is able to advise and counsel new entry YOs and to respond to any unusual degree of wastage during initial training.

c. **NAB Procedure.** The Board will consider any case of voluntary or compulsory withdrawal from training that in their opinion requires detailed investigation. The Board will normally act on reports and recommendations submitted by COs, and may call for additional information when required. Costs will normally be restricted to the travelling expenses of the YO attending the Board.

d. The benefits of a detailed examination of the causes of withdrawal from training are as follows:

(1) The NAB will ensure a common approach to each case.

(2) Those invited will have the opportunity of an interview.
(3) The NAB will ensure that a YO’s future employment is in the best interests of both the officer and the Service.

(4) A YO will have the reassurance that his/her case is being considered in detail at a higher level.

(5) Overall retention may be improved.

(6) Information will be gained on the reasons for both failure and voluntary withdrawal which will be of use in the preparation of future recruiting and training strategies.
SECTION 6 – OFFICERS ON THE TRAINED STRENGTH - QUARTERLY REPORTS

5744. Introduction

a. Quarterly Reports provide the mechanism for close and regular monitoring of an officer’s performance. The OJAR recommending Quarterly Report (Occasion: Special Circumstance’) and the quarterly reports themselves are to be handled most expeditiously at all relevant levels in the administrative chain of command, to enable a decision on the Subject officer’s future to be promulgated as soon as possible after a report has been originated.

b. The Quarterly Report is a formal warning of shortcomings and the consequences of failure to eradicate the faults identified. It is in the best interests of the Service and the individual concerned that appropriate remedial action be taken at the first signs of any significant inadequacy or shortfall in performance.

5745. Process

When an application for quarterly reporting is approved by the Naval Secretary, the clock is started from the "To" date of the Special Circumstance OJAR recommending this course of action, and the first quarterly will normally be required to be written exactly three months from that date. Given that there is likely to be some delay in the process, and in order to give the Subject officer the maximum time to address the shortcomings identified, the assumption should be made that the officer will be placed on Quarterly Report. The following procedure is to be implemented:

a. The 1RO should discuss the way ahead with the Subject and start the necessary remedial programme as soon as possible - ideally at the time that the Special Circumstance report is raised. Clear Objectives to rectify shortcomings are to be identified, agreed and recorded on the OJAR page 1 and reported against in the Performance section by ROs in future OJARs. Whatever the Naval Secretary’s decision, this will enable the unit to start addressing the officer’s shortcomings early, and whilst it may appear to pre-judge the outcome of the recommendation for quarterly reporting, it is entirely appropriate as it will ensure that:

(1) The Subject always has the full 3 months to improve their performance;

(2) A formal MPAR will be held at the appropriate time before the next report, in addition to any informal interim appraisals.

b. If the Naval Secretary rejects the recommendation for quarterly reporting, the officer’s shortcomings will still need to be addressed, and this procedure will ensure that a structured plan is put in place at the earliest possible opportunity.

c. In the case of Lieutenants and below, the decision to be placed on, remaining on or being removed from quarterly reporting is to be directed by the appropriate SO1 Career Manager. In the case of Lieutenant Commanders and above, where the Directorate’s recommendation is for the officer to remain on Quarterly Report, approval may be given by DACOS CM, but for officers being placed on, or being removed from quarterly report, DACOS CM is to pass the quarterly report file, with his personal recommendation and a completed draft Directed Letter proforma, to:
(1) ACOS(PCap) - for Lieutenant Commanders and below (routine cases).

(2) The Naval Secretary - for Commanders and above plus non-routine cases. If an individual case is considered to be contentious or particularly complex (non-routine), the file is normally forwarded to CNLS before being referred to the Naval Secretary for a decision. The Naval Secretary may consult the Second Sea Lord direct, as necessary. Once the Naval Secretary/ACOS(PCap) has made a decision, the reporting authority will be informed by letter. This letter is to be read by the CO to the officer concerned.

d. Whilst Quarterly Reports are to continue until the Naval Secretary's department directs that they are to cease; each report is to include the RO’s clear recommendation on their continued need. On each occasion of report, the RO is to conduct an appraisal discussion (see JSP 757 Article 4.09) explaining the implications of being placed or being retained on Quarterly Report. Where a Subject on Quarterly Report is reassigned, the Career Manager is to ensure the requirements for quarterly reporting action are brought to the attention of the receiving unit. Where appropriate, the dates of the Quarterly Reports will be adjusted, in consultation with the Career Manager, to align with Supersession or End of Tour reporting requirements with the aim of ensuring any gaps in the reporting cycle are minimised; the requirement for Annual Reports being subsumed by quarterly reporting. The first Quarterly Report in the receiving unit should normally be raised 3 months from date of joining, and quarterly thereafter. Although, as a general rule, there should be no collusion between discharging and receiving units on the content of Quarterly Reports, it may be necessary for the discharging unit to forward a letter or e-mail detailing any relevant progress or otherwise that has occurred during any gap in the reporting process.

5746. Promotion Implications

Officers due for non-selective promotion will not be promoted on their due date if they are subject to Quarterly Report. Officers who are removed from Quarterly Report due to an improvement in their performance will be promoted with effect from, and with seniority of, the date of the CO's recommendation for removal from Quarterly Report if this is later than the automatic date. Officers who fail to achieve a satisfactory standard will be liable to discharge under normal procedures.
SECTION 7 - RATINGS ON THE UNTRAINED STRENGTH – FORMAL WARNINGS

5747. Initial Training Warnings (ITW)

The ITW procedure is designed to maintain a record of the individual’s shortcomings in Naval General Training (NGT)\(^2\) and professional performance. A record of the warnings issued as a result of failures is to be maintained by the Training Unit/Establishment. The warnings process is summarised at Annex 57B. ITW will be incurred for both NGT and professional failings. An initial brief on the warning procedure should be given at the start of Phase 1 and Phase 2 training, explaining the warning procedure and its purpose. Trainees should sign to acknowledge receipt of this briefing.

a. **NGT Warnings.** Situations in which NGT Warnings may be appropriate include:

1. Receipt of minor punishments.
2. Disruptive behaviour in the classroom.
3. Disobedient, abusive or uncooperative behaviour.
5. Shortcomings in personal administration, kit upkeep or mess deck husbandry.
6. Poor professional performance due to inappropriate social activity (e.g., falling asleep in class).
7. Deliberately failing a course.
8. Multiple failing of Minor Administrative Action (MAA).

b. **Professional Warnings.** Situations in which Professional Warnings may be appropriate include:

1. Failure of exam or module.
2. Failure to comply with safety or instructional rules.
3. Unwillingness to learn specialisation skill.

Trainees who receive a warning must sign it to acknowledge the consequences of further failures and be given an opportunity to appeal against the decision of the Awarding Officer. All documentation is to be retained until the trainee passes to the trained strength.

---

\(^2\) Due to the length and nature of initial RM training, CTCRM has its own detailed procedure for Initial Training Warnings. This is captured in Unit Standing Orders and the CTCRM Supervisory Care Directive.
5748. Phase 1 Warnings

a. Warnings in Phase 1 differ from those in Phase 2 since the level of knowledge is lower and the rating is still adapting to military life. Taking the aforementioned into account, only Level 3 NGT Warnings (discipline, character, attitude etc.) should remain extant and carry forward at the end of Phase 1 Training.

b. Warnings, if extant, are to be reviewed by the Phase 2 Establishment after a period of 4 weeks and reduced by one level if no further failure has been committed and the rating displays the correct attitude. A further reduction after 4 weeks is available to the Chain of Command if the trainee has performed to the required standard. This second reduction of warning is at the Chain of Command’s discretion and would also assess the trainee’s commitment to the high standards of ethos and values of the Service.

c. There is deemed no requirement to have Phase 2B reduction in warning as the trainee has had sufficient time to conform to the rules and regulations of both the Service and the Initial Training Pipeline.

5749. Phase 2 Warnings

a. Warnings are to be issued at the following levels for ratings in Phase 2 training:

   (1) First warnings by the Divisional Officer/Establishment Warrant Officer or equivalent.

   (2) Second warning by the Head of Department or equivalent.

   (3) Third warning by OC or OIC level or equivalent.

   (4) Infringement beyond third warning will result in Discharge Unsuitable During Training (DUDT) action being taken by CO or Head of Establishment (Capt RN or above, except Phase 1).

b. On transfer to the trained strength (on completion of Phase 2 training), the DO/OC is to assess if the individual has corrected the shortcomings that led to the warning being issued. If it is judged that sufficient progress has been made, then the individual is to be removed from warning before proceeding to a new assignment. If the trainee is still deemed to be unsatisfactory, consideration is to be given for them to be placed on HOD/CO’s Warning for Discharge SHORE (DUDT) NGT, or to Sea Under Licence. If a rating is sent to sea under warning it is to be recorded on Appraisal in a Spec ‘D’ report. It should be considered exceptional for a trainee to complete initial training under warning.

c. All warnings issued during Phase 2 training will remain extant for a period of up to 90 days (excluding leave periods). The Warnings Review Period should be between a minimum of 1 month and a maximum of 3 months, taking into account the diversity and periodicity in training that is bespoke to individual branch criteria. Extensions or reductions to the warnings will be approved at the review point.
5750. **Minor Administrative Action**

a. Minor Administrative Action is appropriate for all Phase 2 trainees who have completed induction in their respective establishments or who could reasonably be expected to have known the Rules and Regulations of the Training School or Establishment’s Standing Orders. As a general rule, MAA will be inappropriate for trainees who have completed less than 2 weeks of Phase 2 Training.

b. Any trainee who incurs 3 MAA actions will be liable for disciplinary action in accordance with JSP 833, as a consequence of this action the rating would be deemed to have shown a poor attitude towards training and will have an NGT warning issued at the appropriate level. Any trainee who commits multiple infractions of MAA should be considered for immediate elevation to a higher warning status, which will be at the discretion of the Command.

c. On imposition of a warning, the trainee’s file is to be updated and all further failures will be annotated in the same trainee file. The trainee is to be informed that any subsequent failures could ultimately lead to a recommendation for Discharge SHORE (DUDT).

d. See Chapter 20, Section 5 for more information on MAA.

5751. **Handover of Information on Trainees Deemed of Concern**

a. When Phase 2 trainees deemed of concern\(^3\) transfer between Training Establishments, or from Training Establishments to operational units, it is essential that a suitable method of informing the receiving unit of any concerns relating to an individual be established, so that the receiving unit can ensure that the level of supervisory care which that individual needs is maintained.

b. The Hot Handover routine should be followed by Divisional Officers (see Para 2147). However, this process is largely informal and there have been several instances where it has not proved reliable or where insufficient information has been transferred. It is therefore necessary to supplement the Hot Handover routine with a more formal process which provides a clear audit trail for the handover of information on Phase 2 trainees deemed of concern.

c. The current Divisional Officer is to pass trainee information to the receiving unit 5 working days before the physical transfer of the individual. As a minimum, the information below is to be passed, using the Proforma at Annex 57C:

1. Academic record (including any applicable Warning level).
2. NGT record (including any applicable Warning level).
3. Compassionate issues of a relevant or immediate nature.

---

\(^3\) Eg. for professional, NGT, compassionate reasons or considered to be vulnerable or at risk.
(4) Limitations on training resulting from Medical issues.

(5) Any other information which the Divisional Officer thinks might be of use to the next Establishment/Training School/Operational unit.

d. When passing individuals on to the Fleet, only Para 5751 c sub para (3) to sub para (5) are likely to be relevant as any failings to achieve the requisite standards in sub-paragraphs a and b should have resulted in the trainee not yet Passing Out.

e. All staff are to remain vigilant to the importance and urgency required when dealing with this category of trainee. It is incumbent on receiving unit Divisional Officers to inform their chain of command of trainees deemed to be of concern in order that these individuals receive additional levels of care and management. Case Conference procedures are to be followed by Divisional Staff when raising vulnerability/'at risk' trainee concerns to the Command.
SECTION 8 - RATINGS AND OTHER RANKS ON THE TRAINED STRENGTH – FORMAL WARNINGS

5752. Purpose of Formal Warning

The purpose of a Formal Warning is to meet the responsibilities of the employer and explain, in writing, the process and consequences that might arise should an individual continue to fail to meet the professional and personal standards expected of the Naval Service. The warning procedure embraces JPA Appraisal where necessary and ensures that the shortcomings and required improvements are clearly identified, understood and acknowledged by the individual, while allowing a reasonable period of time at each stage of the process for the requisite improvements to be achieved.

5753. Responsibilities of the Commanding Officer

COs are to ensure that the mechanism for the issue of a Formal Warning is sufficiently robust to be clearly and definitively understood by all ratings and other ranks under their command, including the need for appropriate consultation between reporting/warning officers and how it is to be managed. However, there may be cases where the CO properly considers that, in the interests of the Service, the warning procedure may be dispensed with. Thus, it is not intended that Formal Warnings should be regarded as an essential preliminary in all cases; in those cases where immediate discharge is considered necessary, advice should be sought from the Navy Command Headquarters Casework Cell. The CO must bear in mind that, where necessary, an incontrovertible case for discharge/reversion will need to be prepared for submission to the administrative authority. Consequently, all warnings and reviews are to be formally recorded and countersigned by both the person issuing the warning/review and the Subject rating/other rank concerned. The Honesty Test (see Chapter 21 Section 4 – Ethos, Values, Standards and Conduct in the Naval Service) is always to be applied when Formal Warning action is considered for conduct relating to the individual’s private life. Where a Subject leaves the unit on assignment either under Formal Warning or within 12 months of a warning being removed, the sending CO is to write to the receiving CO briefly outlining the facts and, where applicable, specifying when the warning is due to be reviewed.

5754. Initial Interview

a. Where an individual demonstrates shortcomings of professional competence or in personal qualities, action rests with the Divisional Officer and/or immediate Line Manager/First Reporting Officer (1RO) to hold a Formal Appraisal Review. The aim is to give the Subject rating/other rank an early opportunity to rectify these shortcomings - it is essential therefore, from the perspective of both the Service and the Subject, that an interview takes place as soon as it is warranted, with the purpose of avoiding the need for further administrative action.

b. The review is to be conducted using the MPAR structure (see JSP 757 Chap 4 Annex 4C) and the discussions are to be recorded and then acknowledged by the Subject on the MPAR proforma (JSP 757 Annex 4A). The interview must focus on the individual’s shortcoming(s) and provide a proposed solution, along with a reasonable timescale within which the requisite improvement is to be made.
5755. **Warning Process**

a. Formal Warnings normally follow a 3-tier structure comprising Levels 1-3. A Warning at one level can be subsequently removed, or escalated to the next level. Serious cases may warrant immediate escalation to a higher level of Formal Warning. A Level 1 warning requires the raising, completion and delivery of a Formal Warning (see Naval proforma at Annex 57D⁴). Subsequent escalation to Levels 2 and 3 require the raising and completion of a further Warning and an accompanying ‘Review of Warning’ SJAR. See JSP 757 Articles 4C.14-18, which draw attention to the specific instructions in this Chapter. Formal Warnings may be issued for a variety of reasons including inadequacy, financial irresponsibility, alcohol and unruly behaviour. In exceptional circumstances, an individual may be retained on the current level of warning for a further period of review. Caution should be exercised when using this option as it is unfair to both the individual and the Service to retain individuals on warnings for extended periods; the default position should be either to remove the individual from warning or to escalate them to the next level. In all but the most straightforward of cases, advice should be sought from the Casework Cell as to the advisability of retaining an individual at the current level of warning.

b. In relation to RN Police (RNP) personnel who are placed on Formal Warning, it is a requirement for RNP personnel to inform HQ PM(N) Professional Standards of their warning (see Chapter 80 Section 12 - Incidents to be reported to Provost Marshal (Navy)). Taking into consideration the unique position that RNP hold within a unit, and in order to obtain a balanced view of the circumstances surrounding the warning, COs should consider providing information to HQ PM(N) Professional Standards by briefly outlining the facts and, where applicable, specifying when the warning is due to be reviewed.

5756. **Issue of Formal Warning – Level 1**

The officer who conducted the Formal Appraisal Review will normally decide at the end of the initial review period whether or not previous counselling has achieved the desired effect. In the absence of sufficient improvement, a Formal Warning Level 1 is to be initiated using the proforma at Annex 57D, signed (subject to the minimum rank of OR7) and issued to the individual. The warning must describe in sufficient detail the problem (including civil and service convictions); the proposed solution; the timescale for review (usually three months hence); the future process; and the likely consequences, where improvement is not forthcoming. The Subject should acknowledge in writing that they understand the Formal Warning and the advice given. The warning is to be retained by the unit (or forwarded to a new unit, as required) and a copy provided to the individual. Where necessary, warnings may be given under a number of headings simultaneously, however, in all cases each warning must clearly articulate what the individual is being warned for and at what level (eg. LH Smith has today been placed on HOD’s Warning for Reversion (Inadequacy) and CO’s Warning for Discharge SHORE (Alcohol)).

---

⁴ An electronicised version of the Annex 57D Formal Warning proforma may be found by clicking on the ‘Forms’ Section of the BRd 3(1) Home/Splash Page.
5757. Formal Warning Level 1 Review
The officer who issued the Level 1 Formal Warning (usually the DO) will normally make a decision at the end of the stipulated review period whether or not the warning and advice has led to the requisite level of improvement. Following consultation with the Second Reporting Officer (2RO) (usually the HOD), this assessment will result in one of the following options:

a. **Formal Warning Removed.** The Level 1 Warning Officer informs the subject in writing (proforma at Annex 57D) of their removal from Formal Warning.

b. **Formal Warning to be Escalated to Level 2.** The Level 1 Warning Officer, as the 1RO, raises a SJAR, with the officer who will issue the Level 2 Formal Warning acting as 2RO (subject to the minimum rank of OF2).

5758. Escalation to Formal Warning Level 2
In addition to raising a SJAR, the Level 2 Warning Officer (usually the HOD) is to initiate, sign and issue to the individual the escalation of the Formal Warning to Level 2. The warning (proforma at Annex 57D) must reiterate the process and describe in sufficient detail: the ongoing problem; the proposed solution; the timescale for review (usually 3 months hence); and the likely consequences, where improvement is not forthcoming. The Subject is to certify in writing that they understand why the Formal Warning has been escalated and the advice given. The warning is to be retained by the unit (or forwarded to a new unit, as required) and a copy provided to the Subject. The narrative should reflect the Level 1 review period and substantiate the escalation of the Formal Warning by elaborating on the Subject’s prevailing weaknesses and/or unsatisfactory professional effectiveness.

5759. Formal Warning Level 2 Review
The officer who issued the Level 2 Formal Warning will normally make a decision at the end of the stipulated review period whether or not the warning and advice has led to the requisite level of improvement. Following consultation with the CO, this assessment will result in one of the following options:

a. **Formal Warning Removed.** The Level 2 Warning Officer, acting as the 1RO only, raises a SJAR informing the Subject of their removal from Formal Warning. There is no requirement to complete another Annex 57D.

b. **Formal Warning Escalated to Level 3.** The Level 2 Warning Officer (as the 1RO) raises a SJAR; the CO, who will issue the Level 3 Formal Warning, is to act as Second Reporting Officer (2RO) (subject to a minimum rank of OF3). Where the CO is an OF2 (such as in Command of a MM/PP), an appropriate officer in the unit’s chain of command/administrative authority should act as 2RO. The narrative should reflect the Level 2 review period and substantiate the escalation of the Formal Warning by elaborating on the Subject’s prevailing weaknesses and/or unsatisfactory professional effectiveness.
5760. Escalation to Formal Warning Level 3

Where the CO decides that a further period of review is appropriate, the rating or other rank is to be informed in writing of the escalation of the Formal Warning to Level 3 in addition to raising a SJAR. The warning (proforma at Annex 57D) must describe in sufficient detail the ongoing problem; the proposed solution; the timescale for review (usually 3 months hence); and reiterate the process and likely consequences of failure to make the requisite improvements. The Subject is to certify in writing that they understand why the Formal Warning has been escalated and the advice given. The certificate is to be retained by the unit (or forwarded to a new unit, as required) and a copy provided to the individual.

5761. Formal Warning Level 3 - CO's Review

At the end of the stipulated review period, the CO is to assess whether or not their warning and advice has led to a sustainable level of improvement. This decision is likely to result in one of the following options:

a. **Formal Warning Removed.** The CO, acting as the 1RO only, raises a SJAR informing the Subject of their removal from Formal Warning.

b. **Formal Warning Retained.** The CO re-issues the warning informing the individual of an extension to the Level 3 Warning, giving reason for the decision and the date on which the review of the Formal Warning will be made.

c. **Application for Discharge/Reversion.** The CO is to apply to the Navy Command Headquarters Casework Cell outlining the case for administrative action. Where application is made for discharge, the Subject is to be informed of the case against them (ie. disclosure of the application and enclosures) and of the right to make a representation (see Para 5447), in the knowledge that the curtailment of their Service career is under consideration. If the rating or other rank chooses not to make a representation, a statement waiving the right to do so is to be signed and forwarded with the application. Should the individual exercise the right to make a representation, the CO is to comment on the issues contained therein and forward the representation with the application.

5762. Apprising Subject of Warning Implications

Consultation between reporting officers and thorough counselling of the Subject play a key role in the warning process. Every effort must be made to ensure that the shortcomings are identified, and the proposed solution explained to and understood by the Subject, who must also acknowledge in writing the advice given, the future process and consequences in writing. While the Formal Warning issued to the individual is to contain sufficient detail to meet this requirement, the ‘Review of Warning’ SJAR should be seen as a culmination of the Level 2 and Level 3 review periods in which an honest, accurate, unambiguous and coherent assessment of performance is given to the Subject, taking into account all relevant factors and illustrated by reference to specific failures. There must be no mention of any impending or anticipated disciplinary action, SIB investigations, or acquittal after trial. The Subject has the opportunity to comment in the ‘Subject Comments Slip’ on receipt of the SJAR from the 1RO (see JSP757 Chapter 3 regarding the options available).
5763. **Application for Discharge/Reversion**

Specific advice about the process of making application, tailored to the type of discharge, is detailed in Chapter 54 and, if further assistance is required, available from the Navy Command Headquarters Casework Cell.

5764. **Retention of Formal Warning Documentation**

All records relating to a Formal Warning are to be retained in the raising unit. Where the rating or other rank leaves the unit on assignment, copies of all warning documentation (Level 1, 2 and/or 3) must be forwarded under covering letter to the CO of the new unit and receipt confirmed; the CO retains responsibility for ensuring that personnel proceeding on assignment remain under warning and that the receiving unit is adequately informed of such circumstances. Where the individual is removed from warning, these documents are to be destroyed 12 months from the date of removal.

5765. **Routine SJAR Falling within a Period of Formal Warning**

Annual, Annual/Supersession or Annual/End of Tour SJARs are to be raised when they become due in accordance with JSP 757 Chapter 2 Annex 2C after the Formal Appraisal Review or during the period prior to the Formal Warning Level 1 Review. However, it is probable that there will have been insufficient opportunity for the Subject’s shortcomings to have been addressed. In these circumstances, while the performance attributes should indicate that the rating or other rank is graded below ‘Performing to the standard expected in all respects’, the Overall Performance Grade must not be lower than ‘C’. Routine reports are not required when the Formal Warning has been escalated to Level 2 or Level 3.

5766. **Foreign and Commonwealth Personnel**

The system of sequential Warnings for Foreign and Commonwealth Students differ from the provisions of this Para in two important respects:

a. The Foreign and Commonwealth Training equivalent of a Captain’s Warning is a National Warning. Commodores or Captains of basic professional training establishments and specialist professional training engineering schools are authorised to give National Warnings.

b. The award of any warnings is to be reported in writing to International Defence Training (Royal Navy) (IDT(RN)) immediately. This is particularly important where withdrawal from training or back classing is under consideration, in which case, consultation with IDT(RN) will be necessary prior to a final decision being taken.
5767. **Warnings for Discharge SHORE**

In cases other than those for Temperamental Unsuitability, Compassionate, Fraudulent Entry, Drugs or Medical Reasons, it is expected that ratings or other ranks will have been formally warned by the CO/Executive Officer of their shortcomings and given a period in which to redeem themselves before an application is made for discharge. This period will depend on the circumstances, but is normally to be at least 3 months and not more than 12 months. This warning should be recorded on a Formal Warning Proforma (Annex 57D), countersigned by the Subject and retained with their Service Documents and, if required, on a SPEC SJAR on JPA. If, after the period stipulated, there has been a satisfactory improvement, individuals are to be informed that they are no longer under warning for discharge and their documents annotated accordingly. A further proforma should record that the individual is no longer under warning and be signed by the CO and the individual. If there has been no improvement, and the CO decides to proceed with the application for discharge, details of the warning given are to be stated. If, for some special reason, a warning was considered inappropriate, this point is to be covered in the application. If an individual is transferred to another ship or establishment while the application is being considered, this should be recorded on a separate proforma and a copy of the application is to be included with the Service Documents. A similar procedure should be carried out if an individual is assigned between being warned and application for discharge being made.

5768. **Warnings for Inadequacy**

Ratings and other ranks that hold the rate of Leading Hand (or equivalent) and above who are unable to perform their duties due to inadequacy must be warned for reversion following the Warning Process procedure. Specific guidance for Warnings for Reversion is given in Chapter 70. Ratings and other ranks who are unable to perform their duties at the lowest rate/rank to which they can be reverted (see Relative Rates Table at Annex 65A) because of physical or mental incapacity (not of a nature to warrant invaliding) or incompetence may be warned for Discharge SHORE (Inadequacy) (see Para 5443 a sub para (3) and sub para (4)).

5769. **Alcohol**

Alcohol and abuse of alcohol may lead to disciplinary problems which should be dealt with as disciplinary matters. Under circumstances where an individual’s efficiency, physical condition or value to the Service becomes materially impaired through addiction, Discharge SHORE may ultimately be recommended. Personnel should be placed on formal warnings for ‘Discharge SHORE (Alcohol)’ and follow the standard 3-tier process in accordance with Paras 5755-5765. Specific guidance for Divisional Officers on managing the problem drinker is at Para 9 to Appendix 1 to Annex 21J, which must be consulted in all cases.
5770. **Royal Navy Fitness Test (RNFT) Failure**

The guidance and process for the administration of the RNFT (see Chapter 21 and Chapter 29) includes separate and distinct instructions for warning and discharge from the Service following failure of RNFT.

5771. **Naval Annual Personal Weapons Test (NAPWT) Failure**

The NAPWT failure policy is detailed in BR 8988 Chapter 12 and contains separate warning instructions.

5772. **Warnings for Discharge SNLR (Unruly)**

Individuals who are considered to warrant Discharge SNLR (Unruly) will normally have been formally warned by the CO/Executive Officer of their shortcomings and given a period in which to reform as in Para 5767 before an application is made for discharge. Para 5444 is to apply to warnings if the individual is approaching pension. This warning may be dispensed with in cases in which it would not be appropriate, for example after a serious civil conviction.

5773. **Warnings for Ratings and Other Ranks Serving on an Extended Career**

Guidance on Warnings relating to Ratings and Other Ranks who are serving on an Extended Career are detailed in Para 4945 sub para k.
ANNEX 57A

INITIAL CAREER REPORTING (ICR) - GUIDANCE AND PROCESSES

1. JPA Appraisal System - Procedure and Responsibilities

ICR is to be delivered utilising the JPA (on-line) Course Report (Non Appraisal) – MOD 2020E. The report is to be initiated at course commencement, either by a nominated Appraisal Administrator (AA) (preferably with the Finalise Flag) assigned to a member of the Training Establishment/School staff or by the trainee via ‘Self Service Employee – Initiate own Appraisal’. In all circumstances, the reporting chain is to reflect the assigned Divisional Officer or Course instructor as the 1RO. An outline of the process is as follows:

b. Insert ‘Year’ (e.g. 2013/14), and period of report (start/end dates of course/stage of course or agreed report dates where the course is protracted) - Action: AA.

c. Insert the Service No. of the first person in the reporting chain (AA or 1RO) and complete the reporting chain with a 2RO and the AA with Finalise Flag as required - Action: AA.

d. 1RO completes narratives (1850 characters, including spaces), recommendation free text – 925 characters), contact time with Subject, course competencies (pass marks?), course grade achieved (see Table 1 below) – yellow fields are mandatory - Action: RO.

e. Subject accesses JPA, reads report and clicks complete on Student Certificate (default states “I have read this report and received a copy” - Action: Subject.

f. 1RO clicks ‘next owner’ (either 2RO at sea for instance or AA with Finalise Flag) - Action: RO.

g. Report finalised on-line and appears in Subject’s JPA Self Service and CM’s workflow - Action: AA.

2. Report Compilation

The report narrative should focus on course performance against the professional course criteria and fulfilment of the All Ratings First Sea Draft (ARFSD) TPS. Consideration should also be given to the inclusion of comments on:

a. Ability to complete task book training;

b. Leadership potential and suitability for early promotion;

c. Team ethic and core values and standards.
3. Recommendation for CW or FTS
   Where this is given, it should be supported by empirical evidence of heightened leadership/professional potential should be included within the Potential section of the report. Should the subject display exceptionally high or low qualities or be affected by extraordinary circumstances, the 2RO (who should be Lt RN or above in this instance) is to be consulted and included in the reporting chain.

4. Course Grading Assessment
   While this section is mandatory, it is nonetheless a free text box. Consequently, course grades are to be restricted to the following:

<table>
<thead>
<tr>
<th>Grades</th>
<th>Comment</th>
<th>Comment</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Exceptional</td>
<td>A 2RO must be consulted before awarding this grade and should only be used for Fastrack /CW candidates</td>
</tr>
<tr>
<td>A-</td>
<td>Above Average</td>
<td></td>
</tr>
<tr>
<td>B+</td>
<td>High Average</td>
<td></td>
</tr>
<tr>
<td>B</td>
<td>Average</td>
<td>Average Pass</td>
</tr>
<tr>
<td>B-</td>
<td>Low Average</td>
<td></td>
</tr>
<tr>
<td>C</td>
<td>Below Average</td>
<td></td>
</tr>
<tr>
<td>D</td>
<td>Well below Average</td>
<td>Must Consult 2RO. In the exceptional circumstance that a rating is transferred to sea with this grading a 2RO of Lt RN or above will must be assigned and report on the individual.</td>
</tr>
</tbody>
</table>

In the context of course achievement, a “B” grading equates to an average pass. There is specific fail grade, given that any rating not passing Professional Course would not reach GTS in any case. However, any student who fails and is held for further training or branch transfer or is Discharged SHORE “Deemed Unsuitable During Training (DUDT)” is to receive a report either at the end of the course or immediately prior to being withdrawn or removed from a course, whichever is appropriate.

5. UTS Personnel placed under Training Warning
   Individual Establishments/ Schools operate their own process for placing UTS ratings on warning and this will continue. The warnings are to be removed on completion of UTS training.

CHAPTER 58
MANAGEMENT OF CAREER

5801. Definition
Career management may be defined as “the assignment of individuals in accordance with endorsed current and future Service requirements, exploiting skills, career development needs and, whenever possible, personal preferences, whilst providing advice on future career paths”. Further detail on the aims of Career Management can be found in Chapter 59 – Assignment Principles.

5802. Provision of Career Management Advice

a. Officers and Warrant Officers 1st Class. Career Managers (CM) are to maintain and encourage regular personal contact between themselves and their assignees, both ‘in office’ and during their visits to ships and establishments. For their part, individual officers are encouraged to maintain contact with their CM by e-mail, telephone, or by visits to discuss their assignments, careers, preferences and circumstances.

b. Ratings/RMOR. Career Management advice is available to all ratings on request. Specific advice is provided as follows:

   (1) Senior Ratings. Career management advice and guidance is available from the relevant CM in West Battery, Portsmouth.

   (2) Junior Ratings

   (a) EWO or CMC CMs in Devonport, Faslane or Portsmouth or CMCs in Naval Air Stations and at RAF Marham, for advice on current/next assignments, career courses and immediate concerns. For some smaller branches Career Management has been retained by the appropriate Career Management team in West Battery, Portsmouth.

   (b) Waterfront Careers Advisors in base ports provide broader career management advice, e.g. issues on career development, out of specialisation opportunities and Service Couples with Dependent Children (SWDC) (see Para 5807 sub para e).

(3) RMOR

   (a) RM Career Advisors (RMCAs) based in CTCRM Lympstone (Northern Area and Southern Area) and RM Career Management team (West Battery, Portsmouth) provide general careers advice.

   (b) Specialisation Advisors (SA) are based in the lead training schools for their Specialisation and NCHQ. They provide specific guidance and detail on particular specialisations and provide advice to the Corps Drafting Officer (CDO) on the suitability of personnel for particular assignments.
5803. Assignment Preferences

a. The primary means of indicating individual assignment preferences to CMs is via JPA. The importance of keeping these preferences up-to-date cannot be sufficiently stressed. Updates can be enacted at any time, but the following occasions are considered mandatory:

(1) New Entries: on completion of Phase 2 training.

(2) On sea service and LFS: when an assignment order is received detailing a relief or when indication is received that the individual will be assigned without relief (e.g. a ship paying off).

(3) Annually for RMs – Updates MUST include the date the amendments or update was entered even if no changes have been made.

(4) When preferences change OR personal circumstances change

b. JPA preference data can include Sea and shore preferences and also allow individual to volunteer for operational tours. Ratings who have identified a particular position in which they wish to serve can submit an Electronic C240 as appropriate, or can register their interest through the MySCIO App.

c. RM Only. Whenever an individual submits any change to their preferences it is the duty of those line managers in the hierarchy/workflow chain to ensure that recommendations are made about the individual's suitability or availability before it is forwarded to the next person in the chain and ultimately the relevant RM Career Manager (DRM for Band Service).

d. Divisional Officers are to assist with advice about career preferences and encourage divisional members to utilise the career management services available when appropriate.

e. Further information on Assignment Preferences, including guidance on how to update personal preferences in JPA can be found at Annex 58A.

5804. Career Interviews

a. Officers. For full details, see Annex 58B. Engineer Officers are encouraged to use the Engineer Career and Registration Logbook (ECaRL) in preparation for CMI, MPAR and OJARs.

b. Senior Ratings. Senior Ratings may request a career interview with their CM when they need career advice beyond what is provided by their Divisional Officer. RN WO2/CPOs of at least five years seniority who are eligible for promotion, are entitled to a Promotion Prospects Assessment (PPA). Career Managers will endeavour to provide this service, however if they are unavailable, PROMR will carry out the PPA.
c. **Junior Ratings**

1. **Able Ratings.** The DO remains the lead for individual’s career development with support from the EWO, who will be able to provide more specialist advice to DO/individual in liaison with CMC CM. (For more information see Chapter 21 (Divisional System) and Squad System Desk Instructions (SSDI).)

2. **Leading Hands.** As for Able Ratings but the ability to consult directly with CMs is available on a recommended/advised basis.

d. **Royal Marines**

1. All RMORs will receive a Career Counselling Interview (CCI) approximately 9-12 months after King’s Squad Pass Out to provide them with the information required for them to make a choice as to which specialisation they wish to apply for. The interview will normally be conducted by an RMCA who is able to give impartial advice. On completion of the interview the individual should complete a preference form on JPA indicating their preference of Main Trade for Pay or Specialist Qualification (SQ) once they have completed their initial assignment. The preference will then be forwarded to the CM for consideration and loading onto the appropriate SQ/TQ course.

2. RM RCM staff are to provide PPAs for all RMORs up to the rank of CSgt where positions exist at WO2 within specialisation.

**5805. Enhanced Security Clearances – DV Clearance**

A number of positions require a higher than normal level of security clearance (Developed Vetting (DV) clearance), due to the nature of the duties required to be carried out. These clearances are both expensive and time consuming to process and necessarily involve considerable intrusion into personal privacy. In line with MOD guidance, the number of DV clearances is to be kept to the minimum required for operational effectiveness. Top level information on DV clearances can be found in JSP 440 Pt 6; further detail can be found in Chapter 63; desk level instructions for CMs on DV applications and renewal can be found at Annex 58D.

**5806. Disclosure and Barring Service (DBS) Checks**

As a result of the Criminal Justice and Court Services Act 2000 - Working with Children and Vulnerable Adults, certain assignments require the nominee to have undergone a Disclosure and Barring Service (formerly Criminal Record Bureau (CRB)) check. These are currently tagged in JPA with a legacy CRB competence. When assigning to such a position, CMs are required to nominate personnel for Certificates of Disclosure and to ensure they hold them prior to assignment into the position, or, if a Certificate is already held, to confirm it is at the correct level and remains in date for the period of the assignment. Full details on the type of positions requiring the initiation of a check, levels of disclosure and the process for requesting clearance can be found in Chapter 60 Section 7.
5807. Marital or Civil Partnership Status and Long Term and Established Relationships

a. The rules in Para 5807 sub para b to sub para d below relate to career management and assigning only. They do not relate to situations properly characterised as misconduct, nor do they relate to pay/pensions (see Para 2706 and Para 2162) and other matters where marital status is, or may be, taken into account (some of which are covered in the appropriate Chapter of this BR).

b. CMs take no account of marital or civil partnership status in developing career plans and determining assignments. Personnel will not therefore be placed in, or excluded from, any specific assignment, at home or abroad, simply on the ground of their marital or civil partnership status. This general principle applies to those who are formally married and also to those in stable relationships regardless of the sexual orientation of those involved (the only exception to this principle is in those few circumstances where the law permits marital or civil partnership status to be taken into account; such situations will arise rarely).

c. Service Couples

(1) The principles above apply to those whose spouse/civil partner is also serving. However, the following additional points should be noted:

(a) CMs will deal with each party to a relationship as an individual in their own right. Accordingly, each party will be assigned according to the four aims of assigning (see Chapter 59), i.e. it is not possible to plan joint careers.

(b) Within the overarching principle at (a) above, service couples are of course allowed to express personal preferences and these will be reflected whenever possible. CMs are aware of the demands of Naval service in terms of separation and will try to mitigate these whenever possible if individuals so request (special consideration will also be given where parental responsibilities are involved - see Para 5807 sub para e.- SWDC).

(c) Service in the same ship/establishment/command is neither guaranteed nor prohibited. Accordingly, couples may serve together provided that no adverse impact occurs, or is likely to occur, on the efficiency or operational effectiveness of the Service. Whether there is, or is likely to be, an adverse impact is to be judged in the light of the circumstances at the time. The mere existence of a relationship does not adversely impact on the Service, but if there is a risk that either party may be inhibited in the performance of their duties by the relationship, then the Service interest is engaged. It will also be engaged if the relationship leads to suspicions of favouritism or bias by either party, especially if one is more senior. More specifically, an adverse impact is generally likely in the following circumstances:
i. Where one of the parties is in a position to influence appraisal reports written on the other. This will usually arise where one is in the formal reporting chain of another, but may also arise if one is expected to provide a significant input into the assessment of the other. In both situations, the objectivity of reports will be called into question.

ii. Where one has functional authority over the other. There is a danger that the existence of the relationship may lead to a risk of favouritism, for example in compiling duty rosters, granting leave etc. A relationship between an instructor and student is particularly vulnerable in this regard.

iii. Where the parties have frequent dealings with each other in the performance of their duties. This is more likely in a small ship or unit than a large one.

iv. Where there is a wide rank disparity between the parties. This is a matter of degree and depends on the precise circumstances of the case. There is no objection in principle to officer-rating relationships, but, if the circumstances are such that there is a risk of over-familiarity between one party and the acquaintances of the other, then the Service interest may be engaged.

(2) Where they are aware that a relationship is already in existence, career managers will consult the prospective employer before assigning individuals to the same ship/establishment/command. Where a relationship begins while parties are serving together, then the Commanding Officer should consider whether the relationship impacts, or is likely to impact, adversely on the efficiency or operational effectiveness of the unit. COs should refer to the guidance at Para 2144 (Armed Forces Code of Social Conduct) and apply the Service Test. If the situation justifies intervention, a CO should apply an appropriate sanction. The CO may make an application to land one of the parties, using the procedure in Para 6006 (Removal from Assignment). If an application is made, the CO will be expected to demonstrate that the Service interest is clearly compromised and that the adverse impact cannot be reduced to acceptable levels by reasonable adjustments to working practices onboard. If Service couples do serve in the same ship/establishment/command, the "no touching" rule applies in the same way as it does to everyone else.

d. Relatives. The rules above also apply where Service personnel serve with relatives (siblings, parents, children) by blood, marriage or adoption.
e. **Sea Service Liability for Service Couples With Dependent Children (SWDC) - De-confliction of Sea Service.** In situations where couples are both on active service in the Naval Service and have joint responsibility for a dependent child or children less than 11 years of age, it is generally in the interests of the Service, the parent and the child(ren) to avoid a situation where both parents are deployed at the same time. The deployment or sea going ¹ service liability of Service parents with responsibilities for a dependent child, irrespective of their marital or civil partnership status, will be met through joint career management. The SWDC Manager is to chair a meeting with the couple and their Career Managers before the SWDC status is required to start, and to comply with current assignment policy timelines. The aim of this, and all subsequent SWDC career management meetings, is to agree employment solutions which meet both the needs of the Service and the needs of the couple. The policy for sea service/deployed liability for SWDC applies across all three Services. Therefore, SWDC preferences will be dealt with in consultation with the respective Army or RAF Career Managers where appropriate. Each prospective assignment that could result in both Service parents with responsibilities for a dependent child embarking on deployed or sea going service will be assessed on its merits to ensure that an appropriate balance is struck between the circumstances of personnel and the requirements of the Service. Assigning authorities are ACOS People Capability (ACOS PCap) and Career Management Cells (CMC) supported, as appropriate, by CMC Careers Advisers (CA) and Executive Warrant Officers (EWO).

(1) Liability for deployed or sea service at a particular time is driven by the Service's requirement to fill sea billets. Assigning must continue to be undertaken in a fair and equitable manner and take into account the career development needs of all Naval Service personnel. While it is the immutable responsibility of parents to make suitable arrangements for the care of their children, it is recognised that deployed or sea going service impacts particularly heavily on a mother returning to work immediately following maternity leave. Accordingly, unless she volunteers otherwise, a Servicewoman will not be assigned to seagoing service within 12 months of the birth of her child. Additionally, a mother or father adopting a child will not be assigned to sea going service within 12 months of the date of an adoption. CMs, in conjunction with the Terms of Service team will also, exceptionally, consider applications for a further deferment/break of service of up to six months (to run consecutively) where appropriate shore employment is available. These measures are applicable to either parent.

¹ Defined as 'service at sea' as distinct from sea service, which is a manpower term that is applicable also to employment in units not actually at sea.
Furthermore, parents in the Naval Service who have joint responsibility for a dependent child will be offered some flexibility of choice in timing of seagoing service. They may express a preference to serve at sea at the same time, thereby enabling them to benefit from more frequent periods of quality family harmony. Alternatively, on application, CMs will endeavour to ensure that both parents are not deployed/serving at sea at the same time. CMs will also consider applications to deliver a shore service overlap of up to three months to avoid a situation where one parent is sent to sea as the other returns, and allow the family to spend time together. Exceptionally, it may be necessary for overriding operational reasons for both parents to be assigned to seagoing service at the same time. However, this action will only be taken with the agreement of the Naval Secretary.

In order that the Service may assist effectively, it is vital that parents bring their situation and aspirations to the attention of the Service at the earliest possible date. The CM is to be informed immediately if there is a change in the personal circumstances of either or both parents, for example, if one parent leaves the Service or if they separate and no longer have joint responsibility for a dependent child. Both the Service and the parents have an obligation to comply with the plan agreed at the SWDC meeting. If parents fail to do so, the contract will become invalid and routine assigning procedures will be actioned. Parents must aim to provide CMs with at least four months warning in order that appropriate assigning notice can be given to those who will be deployed in their place. The form at Annex 58E should be completed by both parents and submitted to their respective CMs. For ratings/RM Other Ranks the forms should be completed in consultation with their CMC(CA) who will subsequently forward them to the appropriate CM following the interview. The SWDC Form comprises 2 parts:

(a) **SWDC Part 1.** Part 1 of the form will be used when there is no requirement for service parents to submit SWDC preference details at the current time. Soft copies will be forwarded to the relevant CMs.

(b) **SWDC Part 2.** At Part 2 of the form applicants are to select their options and a soft copy is forwarded to CMs for approval. At this point, CMC(CA) staff will liaise closely with CMC/CMs, where necessary, to reach a solution. The CM's decision will be recorded on SWDC Part 2 form and returned to CMC(CA) by e-mail. Both the request of the parents and the needs of the service are taken into account. Applicants will be informed once a decision has been made.

In both instances an SWDC marker will be placed on respective JPA records under 'Assignment Restriction'.

58-8 of 15
February 2020 Version 1
(5) Personnel whose liability for sea service is deferred must appreciate that they are not permanently excused sea service, that it is a Service requirement, and in their own interests that they fulfil their liability to serve at sea. It should also be recognised that a lack of sea experience, particularly at key points in a career, might adversely affect an individual's chances of promotion or transfer. The individual's CM will be able to provide more detailed advice on this aspect on a case-by-case basis.

(6) In the event of an SWDC Service Person not being able to attend promotion Course ahead of the Common Promotion Date (CPD) due, for example, to course dates and their partner’s availability not aligning for Service reasons and alternative childcare arrangements not meeting the requirement, the individual will be promoted on the CPD and will be granted a waiver for a maximum of 12 months to attend the necessary courses. After this time they will be reverted.

(7) SWDC personnel who have been categorised as the non-deployable partner should not be assigned to posts which have a ‘war role’ attached to their primary role. If SWDC personnel are incorrectly assigned to a post with a war role then, where practical, the CO should transfer this responsibility to another post. If a non-deployable SWDC partner chooses a post which has a war role their CO may transfer this responsibility to another post either immediately with the agreement of the incumbent, or at the next change of incumbent (so long as the TORs for that post can be updated before the new incumbent is assigned).

5808. **Continuity of Education Allowance (CEA)**

Full details on the eligibility and application of CEA can be found in JSP 752 Ch 9. Guidance to CMs on the completion of the Eligibility Certificate can be found at Annex 58F.

5809. **Medical**

a. **Reporting and Recording of Medical Categories.** A list of the Joint Medical Employment Standards (JMES) (see 2009DIN01-183 and JSP 346 Chapter 5) is at Annex 58G. It is important that all information concerning changes to JMES is retained so that CMs can determine quickly whether there are any limitations to an individual's employability. The following guidelines apply:

   (1) JPA records are to be updated to reflect any current medical restriction of more than one month's duration. All permanent changes of medical category are to be recorded as an assigning restriction.

   (2) COs/Line Managers are to be made aware of personnel joining who have a reduced JMES; however, the circumstances which necessitated re-categorisation are not to be disclosed.

   (3) If a CM is in any doubt as to the medical suitability of an individual for a particular position, CM OF MED SO1 should be consulted.
(4) Whenever a CM is informed by a CO, Head of Establishment or Head of Department that an individual’s mental or psychiatric condition is such that a security problem might arise in post, they are to call the employer’s attention to their obligation to render an aftercare report in accordance with JSP 4400, Vol 2, Chapter 18 Annex C.

(5) When an individual is medically re-categorised (either up or down), the COs of units are to report all changes promptly by e-mail in signal format to the appropriate CM/CMC mailbox, depending on the branch and rank/rate of the individual. When a JMES below MFD is given, the review date must also be reported.

(6) In the case of inpatients of Defence Medical Groups (DMGs – formerly Military Defence Hospital Units (MDHUs)), the reporting action will be taken by the CO.

(7) An area restriction can only be given for clinical reasons. Welfare or domestic concerns should be addressed by Royal Navy Royal Marines Welfare (RNRMW) and not by allocating a medical limitation code.

b. Invaliding. See Chapter 54 Section 2.

c. Naval Service Medical Board of Survey (NSMBOS) and Naval Service Medical Employability Board (NSMEB). See Para 2804. CMs should be aware that the NSMBOS, NSMEB and invaliding process all happen without formal assigning actions. Care must be taken to ‘track’ these individuals through this process especially if there are additional issues such as welfare or discipline overlaying the medical ones. Any issues regarding NSMBOS and/or NSMEB should in the first instance be referred to the Secretary of the NSMBOS (INM-MES MAO).

(1) Personnel Placed Permanently in Categories P3 or 7. Personnel can be recommended a Permanent Medical Category (PMC) by the NSMBOS which is then approved by the NSMEB. A JMES with appropriate medical limitations will also be issued and will dictate assignment restriction.

(2) Personnel rated Permanently Unfit for Naval Service/Royal Marine Service (PUNS/PURMS - MEDCAT P8). Following NSMBOS, personnel made PUNS/PURMS are to be assigned to the most appropriate MA5 Terminal Leave margin position in accordance with the NSMBOS signal and placed in MEDCAT P8 prior to discharge. (See Margin Activity Guide at Annex 3B.)

(3) There are no medical grounds for delaying an individual's release from the Service except for iaw JSP 760 19.004. In all other cases personnel are to be assigned to Release when due, notwithstanding that they are medically downgraded [1].

[1] BR1750a (Handbook of Naval Medical Standards) Art 0316.
d. **Vaccinations and Immunisations**

(1) COs are to ensure that all necessary vaccinations and immunisations are completed in time to ensure that individuals are not prevented from joining their new unit on the effective date.

(2) Vaccinations are to take place iaw SGPL03/08.

(3) The names of those refusing vaccinations and immunisations are to be reported with details of the circumstances, to NCHQ Med Div (QRRN Chapter 77 Article 7711).

e. **Assigning Personnel Prone to Sea-Sickness**

(1) Personnel serving in small ships who suffer from chronic sea sickness will be medically re-categorised MLD (Frigates and above only) and the appropriate assignment action taken.

(2) After 12 months Sea Service in a larger ship, such personnel will either be re-categorised MFD if the response to service in frigates and above has been satisfactory, or referred to Executive Authorities to assess continuance in service if seasickness persists (see BR 1750A Article 0410 for further guidance).

(3) Because of their commitment to small ships, personnel in the Diver and Mine Warfare specialisations are to be downgraded as soon as the problem becomes manifest and considered for Discharge Shore in accordance with Para 5451. sub para j.

f. **Dental Fitness.** COs are to ensure that personnel detailed for assignment to ships, overseas establishments and to the Submarine Service are dentally examined at the first opportunity after receipt of the AO. Personnel selected for Submarine Service, whether volunteers or not, are to be dentally examined and rendered dentally fit prior to joining Basic Submarine Training, with the exception of those from ships and establishments where no Dental Officer is available.

g. **Fitness for Service in Submarines.** See BR 1750A Handbook of Naval Medical Standards Ch 9.

(1) All individuals assigned to SM service are to have a preliminary medical examination carried out by their Unit MO to assess their medical fitness for initial Submarine training before joining Basic Submarine Training.

(2) Where a preliminary medical examination reveals a temporary unfitness, which may reasonably be expected to be resolved within 6 months, the relevant CM should be notified by signal so that appropriate assignment action can be taken.
(3) Should the MO carrying out the medical examination assess an individual is permanently unfit for service in submarines, the examination report and full medical documents are to be forwarded to INM for attention of the SMO(SM) for final assessment. The individual’s CM is to be informed by signal.

5810. Maternity Arrangements

a. The following are the key references:

(1) JSP 760 - Tri-service Regulations for Leave and other types of absences (Chapter 20 – Maternity Leave).

(2) BRd 3(1) Chapter 35.

b. All details pertaining to the administration and assignment of Pregnant Servicewomen are contained in the above References.

c. Once a Servicewoman has visited Sickbay to confirm her pregnancy, and at a time concurrent with her wishes, she will be given the Med Cat P4. Unless serving at sea (see below), she remains in her assignment until she commences her maternity leave. The latest a Servicewoman must inform her CO that she is pregnant is in the 15th week before the expected week of confinement (i.e. the estimated week of childbirth).

d. On confirmation that a female serving at sea is pregnant, the ship is to transfer her ashore at the earliest convenient opportunity\(^2\). For Squadded ratings, the ship is to signal the relevant CMC, info NCHQ (FAO the relevant CM) stating the temporary disposal of the rating. The CMC will Manage Move the rating ashore. For non-Squadded ratings and officers, the ship is to signal NCHQ (FAO the relevant ACOS(PCap) CM) requesting assignment instructions. This is to ensure that the Service can fulfil its legal obligations and responsibilities for her health, and that of her unborn child, and to preserve operational effectiveness. Guidance for EWOs and CMC CMs can be found in Annex 3B and SSDIs (Chapter 3 – Margin Activities).

e. Service Personnel who are assigned to the MA4 maternity margin and who belong to any of the 3 major Waterfronts will be managed through their appropriate geographic Recovery Cell. Those assigned to RNAS Culdrose or Yeovilton, however, are to be managed under their MA4 margin and should, wherever possible, remain under the care and management of the Divisional team within their parent Squadrons or Unit throughout the time that they are assigned to MA4.

\(^2\) If the ship is alongside, the Servicewoman may remain onboard until 28th week of pregnancy (subject to a risk assessment being conducted which permits this outcome).
f. The pregnant Servicewoman should attend a meeting with the Career Manager no later than 15 weeks before the expected week of confinement (but certainly before she departs on maternity leave) in order to ensure that she has appropriate and sufficient information relating to her future assignment in order for her to begin making provision for childcare, housing etc.

g. To ensure that the Maternity Desk in the UPO (and any receiving DO where applicable) has early visibility of the Servicewoman, the assignment to the MA4 margin must be completed by no later than week 27 of the pregnancy. This will allow the maternity desks to make early contact with the Servicewoman for all the mandatory administrative actions to be completed.

h. All CMs are to ensure that, when assigning individuals (both Officers and Ratings) to the appropriate MA4 sub category (A – D), Assignment Orders include an action in the Additional Assignment Details for the individual to undertake a maternity absence interview at their appropriate Recovery Cell (or through their Divisional Officer if being maintained by their parent Unit, Establishment or Squadron), prior to their MA4 start date. Individuals who are geographically remote from a Recovery Cell should contact their nearest Recovery Cell by telephone or email. Guidance on the use of the Margin for assigning pregnant Servicewomen can be found in the Margin Activity Guide (see Annex 3B).

i. Career Managers are to keep in contact with the Servicewoman throughout her maternity leave period and should inform her of the follow-on assignment in accordance with CAT A PFS standards for assignment notice (i.e. 3 months before return to work for an assignment within baseport area, and 5 months before return to work for an assignment outside of baseport area).

5811. Extensions of Service (EOS)
The policy regarding Extensions of Service is at Chapter 49 Section 3. Annex 58I provides further guidance specific to Career Management.

5812. Unlawful Discrimination
Discrimination on the grounds of race, gender, religion or belief, sexual orientation, gender reassignment, pregnancy and maternity/paternity, and marriage and civil partnership is unlawful. CMs are to make themselves familiar with the MOD’s code of practice on Equality and Diversity and Naval policy on Diversity and Inclusion. CMs should appreciate the forms which discrimination can take and guard against them. More detail can be found at Annex 58J and Chapter 30.

5813. Records and Reports

a. Appraisal Reports. See Chapter 57.

---

3 The MTM MA4 pooled positions are located as follows:
1 AGRM, CC MAR AGRIPPA, CHFHQ, CTCRM, DCEME SULTAN, DRAKE, GIBRALTAR, HMS RALEIGH, JFC – DCTS(H), MWS COLLINGWOOD, NELSON, NEPTUNE, NORTHWOOD HQ, RAF WYTON, RM POOLE, STONEHOUSE, WMOs CULDROSE/FASTLANE/PORTSMOUTH/YEOVILTON.
b. **Personnel Records.** The following personnel records are kept by CMs and/or the Promotions Section, in addition to records held in JPA:

1. **Officers.** The purpose, content and the disposal of each of these files is described in detail at Annex 58K.
   
   (a) **Official Record (OR).** (See Annex 58K Para 1 and Para 2)
   
   (b) **Personal File (PF).** (See Annex 58K Para 3)
   
   (c) **Appraisal Report File (ARF).** (See Annex 58K Para 4 and Para 5)
   
   (d) When appropriate, a Quarterly Report File (QRF) (see Chapter 57 Section 5) will also be raised.

2. **Ratings and Other Ranks**

   (a) No personnel files (outside JPA) are held by CMs on any ratings and other ranks other than for WO1s.

   (b) Ratings and Other Ranks Promotion Sections maintain promotion dossiers for all personnel on the trained strength of the Naval Service. These dossiers form the basis for consideration by Selection Boards. Dossiers will be raised on receipt of an individual's first Appraisal Report after joining the trained strength and will contain Appraisal Reports, along with copies of professional and leadership course reports, as applicable. The same dossiers will also be used by Extended Career (EC) Boards where ratings are eligible for such consideration.

3. **Changing of a Name.** Changing a name is an action that may be taken on JPA but cannot be undertaken by a self-service user. Application is to be made to the Unit HR Administrator, who will verify the documents (marriage certificate, deed poll etc.) and then enter the information on Maintain Personal Details on JPA.

4. **Service Number.** Since the introduction of JPA, personnel are allocated a tri-service number, which, unlike previous single Service numbers, does not differentiate either gender or officers, ratings and other ranks. The individual will retain this Service Number throughout their subsequent Service career. A Service Number, once allocated, is never reallocated or used again even though the individual concerned may not, in the event, finally enter the Service.

5. **Conduct Records (S3300d and JPA Formal Discipline Record (FDR) (see Annex 58K Para 10).**

   c. **Maritime Reserve Personnel.** See Chapter 102 Section 11.
d. **The Navy List.** The Navy List is published annually and can be found on the Defence Intranet. Officers’ personal details which appear in the Navy List are taken directly from JPA records. If any errors to Navy List entries are noted the amendment form is to be completed and forwarded to the Editor as directed.

5814. **Disclosure of Information**

Guidance on disclosure of information is at Para 0109. Certain exemptions are allowed for CMs, detailed at Annex 58L.
ANNEX 58A

ASSIGNMENT PREFERENCES

1. **Introduction**

   Employee Preferences and Employee Sea Preferences in JPA ‘Self-service Employee’ contain the only information normally available to CMs on preferences and personal circumstances. It is important, therefore, that, should personal details change, Preferences should be updated. Preferences assist the CM to place the individual, whenever possible, in a position to the advantage of both the Service and the individual. An individual with no appropriate preferences will be recorded as ‘1st Preference’ in any assignment.

2. **Preference Assignments**

   Job or assignment areas listed under 2nd and 3rd Preference will be regarded as a Preference assignment and recorded as ‘1st Preference’. All individuals’ First Complement Assignment will be recorded as 1PRE.

3. **Comments and Aspirations**

   To provide as much information as possible individuals should not only state their preferences but also make use of the Comments and Career Aspirations fields. The more information on JPA, the more chance an individual has of obtaining their preferences.

4. **Advice**

   Divisional Officers must ensure ratings complete their preferences in JPA accurately and timely, assisting where necessary to advise on courses and qualifications. For further advice, Ratings’ Career Management Advisers (CAs) are located in HM Naval Bases Portsmouth, Devonport and Faslane, and Royal Naval Air Stations at Culdrose and Yeovilton. RM Regional Career Development Advisers (RCDAs) are located in Portsmouth Naval Base and CTCRM Lympstone. They provide advice on assigning and career progression to all ratings and ORs.

5. **JPA Process**

   Guidance on how to update personal preferences in JPA can be found at Appendix 58A-1.

6. **Occasions for Inputting Preferences**

   Employee Preferences and Employees Sea Preferences are to be inputted on the following occasions:

   a. New Entries: When first given access to JPA Self-Service.

   b. Re-Entries: on re-entry.

   c. On sea service and LFS: when an assignment order is received detailing a relief or when indication is received that the individual will be assigned without relief (eg. a ship paying off).

   d. Annually for RMs - Updates MUST include the date the amendments or update was entered even if no changes have been made.
e. Before Annual SJAR/OJAR is raised.

f. At any time: when a service person wishes to update the information.

g. Before last assignment preceding release, if different to current preferences.

7. Application for a Particular Course or Position (R)

a. JPA Self-Service does not provide a facility for applying for a particular course or position. An electronic form, together with guidance notes, however, is available on the ACOS(PCap) website through the “Course/Assignment Application” button. The form should not be used just to ask for a particular unit; this should be done through JPA Self-Service Preferences.

b. It should be noted that there is no facility to record this information in JPA in a way that can be searched by CMs.

c. RM. Chain of command within the unit MUST forward to relevant desk to ensure that name is added to appropriate list.

8. Last Assignment before Release

a. Service personnel whose final assignment in the Service is at a place of duty which is not their first UK preference recorded on JPA may be entitled to Disturbance Allowance and Removal of Personal Effects benefits to assist them in settling their family in the area to which they intend to retire. The rules for entitlement can be found in JSP 752 Chapter 7 Section 4.

b. If changing geographical preference for this last assignment, the change must be made in sufficient time for the CM to be aware of it before the assignment is considered.

9. Base Port Changes

a. Personnel are assigned taking into account their preferences, as stated in JPA. The ‘assignment type’ as recorded on the Assigning Record (AR) shows them either to be assigned in accordance with their preference - 1PRE, or not - NPRE.

b. A change in a ship's base port may affect the relationship between an individual's assignment type and their preferences and the assignment type may not reflect the new base port. Accordingly, whenever a ship's base port is changed, CMs are to review all assignment orders for the Ship’s Company and any personnel detailed to join. If the ‘assignment type’ does not accord with the individual's current preference, an Assignment Order is to be issued to change it, effective from the date of the change to base port.
10. Shore Service Preference - Geographical Designations

In order to ensure equal treatment and the correct annotation of assignment type on assignment orders, the UK locations listed below are to be considered in the same geographic area in relation to assignment type and a preference for either is to be recorded as 1PRE.

a. LONDON and NORTHWOOD - 1PRE
b. BATH and BRISTOL   - 1PRE
c. TAUNTON and YEOVILTON - 1PRE
d. PORTSMOUTH and GOSPORT - 1PRE
e. PLYMOUTH and DARTMOUTH  - 1PRE
APPENDIX 1 TO ANNEX 58A

ASSIGNMENT PREFERENCES IN JPA

1. Updating Personal Preferences – Timing
   Ensure your preferences reflect what you want by updating them as and when your
   wishes change. Updates can be enacted at any time and at the very least should be
   completed or updated prior to your AR being initiated (at the start of your reporting year).

2. Process
   Your Personal Career Preferences should be entered into JPA as follows:
   a. Log on to JPA Self Service – Employee. Under Extra Information Types,
      select Employee Preferences and Update.
   b. Under Preference Category always select Routine and in Preference Priority
      choose either Location or Appointment depending on which is more important to
      you.
   c. Under Location, 1st, 2nd and 3rd Choice click on the torch, then click Go.
      This lists all locations in alphabetical order, including overseas options. Locations are
      listed by Area e.g. A_SCOTLAND, or County e.g. C_HAM for Hampshire. A full list of
      locations can be found on the JPA Appraisal Website.
   d. Location Negative Choice is where you don’t want to go.
   e. Waive Notice should say Yes if you are content to be assigned anywhere with
      less than normal Assigning Notice (see Chapter 59 Section 11).
   f. Under Job 1st, 2nd and 3rd Choice, click on the torch. In the blank text box
      type %RN then click Go. You can refine your search by typing, for example, %RN|Eng
      (use the vertical line Field Separator – located to the left of the z key), which brings up
      all Engineering jobs. Scroll through the list by clicking Next 10 to find the job field of
      you choice. The job choices are quite generic so consider your preferences carefully.
      Your choice can be expanded upon in the Career Aspirations (free text) box.
   g. Job Negative Choice should be used to show jobs you really wish to avoid.

Note. To select Portsmouth, type %Ports in the blank text box to the left of
the Go button, this will then display Portsmouth. %Ply will bring up
Plymouth, %Fas will bring up Faslane. For an OpTour in, say, Afghanistan,
type in %Afgh.

Note. Officers only: typing ‘Joint%’ in the ‘Job’ box will display a list of
Joint options to select from.
h. **Comments and Career Aspirations** are free text boxes and should be used to expand upon your preferences or to tell your Career Manager about your aspirations and plans for your future development and employment. You should also use these boxes to detail any courses you wish to attend as they do not appear in the Location/Job Choices lists in JPA.

i. Volunteer for Commission (Other Ranks), Volunteer for Further Service (Other Ranks) and Volunteer for Change of Commission (Officers) are self explanatory, however, make sure your selections are RN/RM specific.

j. When you have finished filling out your preferences, click **Apply**, next then **Submit** otherwise your preferences will not be saved.
ANNEX 58B

OFFICER’S CAREER INTERVIEW

1. **Aims**
   The aims of the officer’s career interview will normally be to establish career aspirations, identify personal drivers, provide career guidance and thereby help the officer to look ahead and generate an individual career management plan. The Career Interview Proforma (CIP) (Annex 58B Appendix 1) is a tool that helps both the individual officer and CM to develop a realistic career path for the officer, whilst managing expectations not least through the officer's honest completion of the 'SWOT' analysis.

2. **Periodicity**
   Officers should be interviewed in person or by telephone by their Career Manager once in each assignment but at least every three years.

3. **Preparation**
   It is important that all aspects of career management are considered when preparing for a career interview. CMs should ensure that an individual has completed and returned a copy of the CIP in advance of the interview.

4. **Conduct**
   All interviews will vary according to the circumstances and the needs of the individual concerned. However, officers can expect the following points to be covered:

   a. An analysis of the individual's appointing preferences, personal driving factors and pressures, 'self analysis' (using the SWOT grid of the CIP) and long term aspirations.

   b. An explanation of the mechanics of the promotion system and the terms/gradings used, alongside an indication of the distribution of promotions against seniority and promotion numbers. If relevant, a review of the individual's Promotion Board gradings whilst in zone and the Career Manager's assessment of the grading trend will also be discussed in order to give an indication of promotion prospects.

   c. Discussion of Career Timeline (including factors such as seniority, OJAR dates, Promotion and/or Commission transfer signals, Promotion/Commission transfer zones, Commission Termination date and time remaining).

   d. A proposed Assigning Plan and agreement of any further action required.

   It is vital that Career Managers put their client at ease. Junior Officers in particular can find their career interview a daunting prospect but it is vital that a full and frank discussion is achieved if the aims of the interview are to be fully met.
5. **Data Review and Checks**
   Time should be taken during the interview to ensure that current data held in JPA and on file is correct, including home and living address, telephone/email contact data, professional qualifications and competencies with any expiry eg. RNFT, SC/DV and Sea Safety and CBRNDC. Interviewees should be reminded that it is incumbent on them to ensure that this data is kept up to date. This check is essential to ensure that records are accurate and up to date in compliance with the Data Protection Act (DPA – see Para 0110).

6. **Record of Interview/Data Protection Act**
   Career interviews form an integral part in career management decisions and an appropriate record should be retained in support of the audit trail. These records will be disclosable under the terms of the DPA and must be a true reflection of the discussion. CMs are therefore strongly recommended to make notes contemporaneously making use of the CIP and/or the JPA scribble pad.

7. **Officers nearing End of Commission/Considering Early Termination**
   CMs should remind officers approaching the end of their commission or those considering applying for Early Termination to confirm their entitlements to Graduated Resettlement Training (GRT) with reference to the authorities detailed in JSP 534. CMs should also remind individuals that they will be expected to take their GRT during their last assignment and not between their last assignment and Terminal Leave/Release, save in exceptional circumstances with the approval of the branch OCM SO1. If exceptional approval is given, they will remain as an overbearing in the organisation in which they were serving immediately prior to discharge and the costs of the individual will fall to that organisation during the GRT period.

8. **Next Assignment for In-Zone Officers and Disclosure of Promotion Grades**
   As a default, CMs should continue to discuss and plan future assignments on the basis that the individual remains in his/her current rank (this is to avoid an individual construing a discussion about assigning in the higher rank as an indication that they will be promoted). Although CMs will disclose previous promotion grades, care is to be taken not to give an officer any grounds for believing that he/she may be selected for promotion in the next assignment. In the case of officers at the top of the promotion zone, plans for the future should be discussed only on the basis of the officer not being selected. If exceptional circumstances make it appropriate to mention a possible next assignment in the higher rank, CMs should seek specific guidance from their line manager.

9. **Promotion**
   It is appropriate that an individual officer should be able to make important career decisions in light of the probability of their promotion. During a Career Interview, individuals will be able to discuss their chances of promotion with their Career Manager (see Para 4 sub para b). It is worth noting that it is impossible to predict an individual's promotion prospects with certainty and the Career Manager's assessment should, therefore, be regarded as an informed prediction based on the knowledge to hand at the time. (Officers should remember that Career Managers can still offer them interesting and satisfying careers, even if they do not secure promotion.)
10. Records

If appropriate to the stage in career, OF2 and OF3 officers may request a formal record of their promotion prospects assessment in the form of a letter from the Branch OCM SO1. The assessment will be made in one of the following terms:

Good/Above Average/Average/Below Average or Slight.

Average means that there is an equal probability of selection or non-selection. The other terms reflect an increasing probability of selection or non-selection. Officers should note that the assessment is the personal view of the relevant Career Manager endorsed by the branch OCM SO1 and does not indicate that an officer’s promotion (or non-promotion) is in any way assured. This letter is not divulged to any other person, including the Commanding Officer/command chain or Promotion Board. (There is no obligation on individuals to inform their Commanding Officer, but officers may do so if they wish.)
APPENDIX 1 TO ANNEX 58B

OFFICER’S CAREER INTERVIEW PROFORMA

CAREER INTERVIEW PROFORMA - GUIDANCE TO THE INTERVIEWEE FOR THE COMPLETION OF PART ONE

1. Assigning Preferences
The first line should mirror the employment fields on the OJAR and should be used to describe general areas of possible future employment rather than specific assignments. Line 2 should mirror the OJAR location preferences. Line 3 relates to additional training and volunteer questions and should be completed with simple YES/NO/C完整 state statements.

2. Personal Drivers
This is an important area that requires an honest approach when being completed. Individuals should try and capture all issues that could impact on next and future assignment plans, however trivial they may appear. The "personal priorities" area is to be used to record where an individual's career is placed in relation to wider life goals. Whilst specific jobs can be used to illustrate as examples, main focus should be on the 'desired effects'.

3. ‘SWOT’ Analysis
SWOT is a useful tool to inform the career management decision-making process. Areas should be completed as follows:

a. Strengths. Those positive aspects or distinctive attributes or competencies that place an individual above the majority of their peer group.

b. Weaknesses. Those negative aspects or competence shortcomings that limit professional effectiveness or which need to be corrected or additional action to minimise their impact. This might highlight a Career Development need.

c. Career Opportunities. Those favourable employment areas, conditions or environments that would enable the individual to excel.

d. Career Threats. Those unfavourable employment areas, conditions or environments that could inhibit an individual's performance and/or achievement of potential.
4. **Career Template**

The individual should aim to produce a 6-8 year plan focused on future assignment aspirations. Ideally, this should be an adapted version of page one of the OJAR. Options can include:

<table>
<thead>
<tr>
<th>FIELD</th>
<th>DEFINITION</th>
<th>EXAMPLES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Management of Defence</td>
<td>Posts that develop defence policy and strategy, manage at the military strategic level and deliver Departmental and TLB non-operational outputs.</td>
<td>MOD Centre, NCHQ, DCDC, JFC Joint Warfare etc.</td>
</tr>
<tr>
<td>Operations</td>
<td>Posts which deliver outputs within formation HQs (or other service establishments as necessary) in connection with the conduct of operations (including Force Generation and Force Preparation).</td>
<td>HM Ships/Subs, RM Cdo Units, FAA NAS, PJHQ, MARBATSTAFFs (MBS / CAF / 3 Cdo / COMUKTG), Frontline Flotillas / Sqns</td>
</tr>
<tr>
<td>Operational Support</td>
<td>Posts which deliver outputs within formation HQs (or other Service establishments as necessary) in connection with support to the conduct of operations.</td>
<td>NCHQ, PJHQ, DI, NBCs, FOST Sea, DGISS etc.</td>
</tr>
<tr>
<td>Defence Engagement</td>
<td>Posts which either enable and/or deliver engagement between UK Defence and other organisations at home and abroad.</td>
<td>Defence Diplomacy; liaison, exchange &amp; Loan Service with other Nations, international organisations and UK Government Depts; posts in NATO HQs; International Policy &amp; Planning, NATO &amp; European Policy; Media Operations &amp; Corporate Communications; Culture &amp; Language appointments.</td>
</tr>
<tr>
<td>Capability and Acquisition Management</td>
<td>Posts that develop and execute capability and acquisition policy, strategy, planning &amp; finance; identify and manage capability requirements; conduct research including operational analysis; manage capability programmes and projects.</td>
<td>DE&amp;S, DSTL, NCHQ, DGISS</td>
</tr>

PERSONAL ASSESSMENT OF CAREER POTENTIAL (tick appropriate box) (See Note 5)
1. **Interview Aim.**
   Self explanatory.

2. **Career Management Administration Checks.**
   Standard aide-memoir for the JPA checks to be completed. Boxes should be ticked when check complete or appropriate dates inserted. If Service relationship or SWDC, consider utilising Service Relationship Career timeline at Appendix 2 to track both partners career management. This can be included in both P- files.

3. **Promotion Profile.**
   Previous Board Gradings are to be included and discussed with interviewee.
   
   a. **Promotability and Career Factors.** Career managers should use diagrams to explain promotion distributions and to explain where an individual sits in relation to the promotion average. The Board Grading v Seniority (on promotion) Graph is particularly good for expectation management. Branch specific information is available from HOPS for the less experienced career managers.

   b. **Discussion.** To cover the points highlighted and any additional branch specific issues deemed appropriate by the career manager. Ensure that the candidate is aware of his promotion zones, including impact of any future commission transfer. If required, consider using the 3TC Career template at Appendix 3.

4. **Career Timeline.** Used to map key Career Management Information. To include ERD, Age, OJAR due date (and linkage to promotion boards), promotion/transfer zones and TX Dates. Can be specific jobs, career fields, or geographical area.
<table>

ANNEX 58C

SPARE
ANNEX 58D

DEVELOPED VETTING (DV) CLEARANCES – CM INSTRUCTIONS

1. Policy

A Developed Vetting (DV) clearance is expensive and time consuming to process and necessarily involves considerable intrusion into personal privacy. In line with MOD guidelines, the number of DV clearances is to be kept to the minimum needed for operational effectiveness. Details about DV clearances can be found in Chapter 63 and JSP 440 Pt 6.

2. Responsibilities of Career Managers

Career Managers are responsible for:

a. Applying for DV security clearances where the requirement is specified by the Establishment or authorised by other proper authority.

b. On request, provide copies of DV clearance certificates to the organisations to which personnel are to be assigned.

c. Assisting SYVETT when requested in expediting the DV process.

3. Application for DV Clearance

a. DV Clearance applications are processed through the SYVETT cell. Requests are to be forwarded using the form at Appendix 58D-1.

b. Once DV security clearance has been applied for and the DV clearance pack has been forwarded to the assignee, it is the responsibility of Security Vetting Management Officer (SYVETT) to monitor the return of questionnaires and check for accurate completion prior to onward transmission to Defence Business Services - National Security Vetting (DBS-NSV). SYVETT will update NPT CMs/clerks of any delays in the DV process.

4. Review of Clearances

CMs are to review, on a monthly basis, the future requirement for clearances in issue ideally 7 months before they expire, and make an application for their renewal if necessary.

5. Applying for/Renewal of DV Security Clearances

The following points are to be borne in mind when applying for, or requesting renewal of, a clearance:

a. An person whose future in the Service is in doubt, by reason of conduct, suitability, medical condition or other relevant reasons, is not to be considered for a post that requires a DV clearance. An initial DV (ie. where it has not been held at any time previously) is not to be requested for personnel who have less than two years to serve.
b. Normally a minimum of four to five months’ notice is required to complete clearance procedures. When less notice is unavoidable, CMs are to inform the future employing unit by letter of the possibility of delay in granting a clearance. The fact that this has been done should be confirmed to DBS-NSV via SYVETT when applying for the clearance. Priority will not normally be accorded to short notice requests for clearance unless a reasonable explanation is given. Where, as an exception, a clearance is required as a priority case a letter signed by the relevant branch CM SO1 is to accompany the paperwork to DBS-NSV requesting Priority action and giving the justification for this (see also Para 9 for Emergency Unsupervised Access).

c. Where a requirement for DV clearance is not specifically authorised by the Establishment eg. if an approved Establishment change is imminent or the requirement is for attendance on a career course etc. a brief explanation should be given when applying for the clearance.

d. When a person assigned to a NATO or LFS post already holds the required clearance but its validity will expire whilst still overseas, it is essential that CMs task early review of the clearance so that renewal procedures are completed before the assignee departs from UK. All renewals of clearances involve interview of the prospective clearance holder that cannot be carried out abroad.

e. If an assignment is subsequently changed, consideration must be given to any application which may have been made for a DV clearance. DBS-NSV should be notified at the earliest opportunity should cancellation of the application be required.

f. Specific requirements for Attaché/Defence Adviser posts and Exchange assignments can be found in Para 5911 and Annex 59C.

6. **Period of Clearance**

An initial DV is normally granted for a period of seven years. At approximately the six years and five months point the CM should review the continued requirement, i.e. whether the individual is still in a DV billet or likely to require DV for a future assignment, and request a review if necessary. Following a routine review, and assuming no problems, DV clearance will be granted for up to seven years. Extensions to DV clearance should not normally be necessary, however, they may be requested from DBS-NSV in certain circumstances, eg. if an individual is due to leave the RN shortly after expiry of DV and full review would not be justified or if a routine review has started but is not finished by the time the old clearance expires.

7. **DV Clearance Certificates**

Once DBS-NSV and/or SYVETT have informed CMs that DV clearance is complete a copy of the clearance certificate should be added to the personal file. Their competency profile will be updated in JPA by the DBS-NSV.

8. **Queries**

In general, any queries should be taken up in the first instance with the DBS-NSV Help Desk on York 01904 662644 (Mil 94777 2644). If the Help Desk is unable to assist they will refer the query to the relevant Case Officer.
9. Emergency Clearance

a. For short term operational reasons, it may be necessary to allow DV access to designated personnel who do not hold a current DV clearance. In these circumstances, written application is to be made by the CO, Line Manager, or CM as appropriate, to Navy PSyA-Aftercare SO3C\(^1\). The following information is to be supplied:

   (1) The name, service number and rank of the individual involved.

   (2) Justification, and the period for which clearance is likely to be required.

   (3) Confirmation that all local records and reports have been checked and reveal no matters of security concern in respect of such a clearance.

   (4) In the case of a requirement for a Crypto Custodian, confirmation that no other officer with a current DV clearance is available.

b. On receipt of the application, Navy PSyA will carry out internal checks and, if they prove satisfactory, will grant Emergency Unsupervised Access (EUA) for the period requested, providing it does not exceed six months.

c. On receipt of authorisation, the CO/Line Manager, is to ensure that the person granted access is kept under strict supervision regarding conduct, and has access limited to just that information and equipment that is necessary for the performance of relevant tasks.

   **Note.** EUA will only be granted once the DV security questionnaire form has been completed and sent to DBS-NSV.

10. Denial, Withdrawal or Limitation of Security Clearance

Navy PSyA will normally alert the CM when a DBS-NSV recommendation for denial or withdrawal is being considered. Alternative arrangements may be planned but no assignment should be made until the formal decision has been taken. In practice the decision to withdraw or deny security clearance is made by Navy PSyA under delegated powers.

\(^{1}\) Requests may be made by e-mail to NAVY PSYA-AFTERCARE SO3C, copy to NAVY PSYA-RN STRAPSO ASST or by signal to RNPSYA PORTSMOUTH using SIC YAY, copy to SCU Leydene for Corp Strapso RN.
11. The Security ‘Risk Register’

There is a requirement placed on the DBS-NSV and Navy PSyA to hold a register of cases of individuals who are considered to be in a position of vulnerability to adverse pressure and thus may present a potential security risk. Vetting confidentiality necessarily restricts the amount of information that DBS-NSV or Navy PSyA will release to a CM but in the majority of cases the restriction will not prevent an assignment going ahead. It is essential to note that an individual whose name appears on the Risk Register is not de facto a security risk; it is simply a means whereby potential problems can be monitored by the security authorities. In most cases the circumstances leading to inclusion on the Risk Register will have come to light during the vetting process and the individual will thus be well aware that there are security concerns. The Register is reviewed by DBS-NSV and Navy PSyA on a monthly basis and names are not added or removed without Navy PSyA’s approval.

12. NATO COSMIC Top Secret Clearance Certificates

a. Where a DV is being initiated for a full assignment requiring one or more of these certificates, a request can be made to the DBS-NSV at the same time as the DV paperwork is submitted to York and it will be issued when the clearance process has been completed. Where a certificate is required and the DV is already in place, or where it is for SC level only, a request should be made to the DBS-NSV Help Desk (94777 2644). It should be noted that under the current NATO rules, it may be necessary to renew the clearance before a certificate can be issued. It is therefore very important that they are requested in good time for any review to be completed. Certificates will not be issued more than six months in advance of the assignment.

b. CMs may issue certificates in those cases where it is required for a course or other assignment that lasts for a few weeks only. In all cases certificates should only be issued for the individual’s current level of clearance, ie. to TOP SECRET if needed and they have DV or SECRET if SC only.

13. ATOMAL Clearance

An officer required to have access to ATOMAL information will be indoctrinated locally within his unit. He must, as a prerequisite, have the appropriate level of security clearance. In addition, the officer must be a British Citizen as defined by the Nationality Act 1981. Special rules cover access which may be given to non-British citizens who are members of, or associated with, HM Forces. Citizenship can be verified from:

a. A passport.

b. A Certificate of Registration as a British citizen.

c. A birth certificate.

d. An officer requiring access to ATOMAL information must be indoctrinated in accordance with NATO regulations before access can be permitted. Uniformed personnel awarded a NATO ATOMAL clearance may be indoctrinated locally on the authority of the NATO Commanding Officer or Head of Establishment provided that their security certificates do not expressly debar them from access to the information involved.
14. **Security Clearances for Dual Assignments**

The Dual Assignments List is held by Augmentation and Crisis Manpower Planning and an individual’s requirement is detailed on their assignment order. Both indicate any requirement for DV clearance. CMs are responsible for initiating clearances as required.

15. **Assistance to Navy PSyA - Access to Officers’ Records**

   a. A list of Navy PSyA staff who are authorised to have full or limited access to assigning and promotion records in the course of enquiries will be updated periodically by Navy PSyA and will be promulgated periodically by NavSec/COS(P) Temporary Memorandum.

   b. CMs are required to inform Navy PSyA of any matters of potential security significance which are brought to their notice, whether in OJAR/SJAR reports or during the assigning dialogue.

16. **Special Access Operations (SAO) Assignments**

Throughout MOD there are facilities known as Special Areas of Operation (SAO), also known as Special Access Operations, within which a particularly sensitive source of intelligence is protected. Such intelligence can only be handled by staff who have been specially approved for this work and who meet strict vetting and nationality criteria. These criteria are laid down in JSP 440 Pt6, Sect 2, Chapter 7 and require that those assigned into such a billet must hold DV clearance and they and their direct relatives must be British. In exceptional cases it is possible to grant a waiver to the nationality criterion but only when there is a clearly identifiable compelling need for a person to fill a particular post. Such a need could be the individual holding unique skills or for those with limited career opportunities outside the SAO compartment. Each application for a waiver is considered on a case-by-case basis and cannot be guaranteed. SAO posts can be identified through JPA using the Review Job/Position Requirements function. Further information on SAO clearance can be found at the Reference or by contacting PSyA.

*THIS FORM MUST BE COMPLETED IN FULL OR IT WILL BE RETURNED TO CM*

THIS FORM MUST NOW BE SENT ELECTRONICALLY TO: NAVY PSYA-SYVETT
PART 1 – To annotate the SWDC marker on JPA only.

- Ratings/RMOR: To be raised by the CMC(CA) and forwarded to the relevant/CMS for JPA annotation.
- Officers: To be completed by parents and discussed with relevant OCM.
- SWDC Part 1 is only to be utilised when there is no requirement to submit formal SWDC restriction documentation (SWDC Part 2) at an early date ie. where the applicants’ current circumstances/assignments do not affect the care of their dependent child/children.
- Once SWDC Part 1 is completed - Parents & CMC(CA) to retain a signed hard copy, soft copies to be forwarded to relevant CMS for JPA annotation (Ratings and RMOR). OCMs to retain signed hard copy.

SWDC restriction documentation is raised upon application for Naval Service Parents who have a child or children less than 11 years of age and where they have a simultaneous Sea Service liability.

Partner 2 Signature ____________________ Date ____________________

In accordance with the Data Protection Act 1998, the Ministry of Defence will collect and process the information supplied on this form in connection with matters concerning personnel administration and policies. In order to comply with our statutory obligations, the data will be retained and reviewed as necessary, and may be transferred to electronic media. The MOD is committed to ensuring that your personal data is kept securely and that it will not be disclosed unlawfully.

Notes for SWDC Applicants and CMs

1. Applying for the SWDC restriction does not mandate that one parent must remain at sea because the other parent has been assigned ashore. Both parents may be assigned to shore billets (no guarantee of the same geographical location) and this should be considered by CMs particularly where the sea going parent is nearing their FAD, in which case CMs may wish to honour their MTA.

2. Extending one parent at Sea may have Separated Service implications particularly for Officers and Senior Ratings.

3. SWDC LRs and AB1s who have not achieved OPS in their current rate are most likely to remain at sea, or be assigned to sea service.

4. Squadded Spec AB2s applying for the SWDC restriction will normally remain assigned to sea service as there are no Shore billets for AB2s.

5. The Career Manager’s SWDC decision is final - every endeavour is made to match the parents preferences to the requirements of the Service, but may not always be possible.

6. Note: BRd 3(1) Para 5807.e sub para (2) states that "Exceptionally, it may be necessary for overriding operational reasons for both parents to be assigned to seagoing service at the same time. However this action will only be taken with the agreement of the Naval Secretary."

7. It is the responsibility of SWDC applicants to ensure they have adequate child care provision arrangements in place throughout the SWDC restriction period to cover any assignment, duty or augmentation requirements they may be tasked to undertake. Childcare advice and support, including information on the Naval Nanny Service, is available through the RNRM Children’s Fund or the Naval Service Parents’ Network.

CONTINUITY OF EDUCATION ALLOWANCES – GUIDANCE FOR CAREER MANAGERS

1. Continuity of Education (CEA) – Background

The Strategic Remuneration Review (SRR) led to some changes in the regulations and process for Service personnel applying for Continuity of Education Allowance (CEA)\(^1\). The most notable of these changes was the replacement of the `mobility’ certificate with a new `eligibility’ certificate. The form is self explanatory but, given the role of Assignment Authorities in the completion of these forms this guidance serves to highlight the changes in what CMs are now required to do. Despite the introduction of the latest certificate, the policy governing entitlement to CEA remains unchanged; its fundamental purpose is to assist Service personnel achieve continuity of education for their children that would otherwise be denied in the state day school sector if their children accompanied them on frequent assignments both at home and overseas. In claiming CEA an individual must fully accept that mobility and accompanied service are overriding principles for maintaining entitlement except when in assignments that are designated INVOLVESEP. All the rules for CEA are laid down in JSP 752 Chapter 9.

2. CEA Costs

Current figures indicate that CEA costs the MOD (and taxpayer) in excess of £200m annually for between 4,500 - 5,000 claimants across all 3 Services\(^2\). Currently the Senior (Board) allowance is £5412 per term which for an average claim of 7 years equates to a total cost in excess of £200K (gross) - of which the claimant would receive a net sum of approximately £114K. Clearly CEA represents a very significant proportion (approximately 25%) of the overall annual MOD allowances budget, for a relatively small proportion of the population (2%). It is not surprising therefore that CEA is under close scrutiny. Indeed, to safeguard CEA for those who genuinely need it, it is crucially important that it is carefully managed and that adherence to the regulations is enforced at all levels.

3. CEA Eligibility

One of the safeguards in the CEA process is the CEA Eligibility Certificate\(^3\), which requires action by CMs; an example is at Appendix 58F-1. Like the Mobility Certificate, this has to be completed on the following occasions:

a. On submission of an initial claim
b. On change of school
c. At the beginning of each new assignment
d. When an existing certificate is more than 3 years old and a new claim is to be submitted.

---

\(^1\) Promulgated in 2008DIN01-191 (1 Sep 08) – CEA – Changes to Regulations JSP 752 Ch 9 and SP Pol’s SP 05.03.08.01 dated 5 Dec 08 - CEA DL: Changes in JSP 752 Regulations: Continuity of Education Allowance (CEA).

\(^2\) There are about 1000 RN/RM claimants today of whom about 59% are officers and 41% ratings.

\(^3\) The latest CEA Eligibility Certificate was introduced in Sep 08 and replaced the previous CEA Mobility Certificate; 2008DIN-01-191 refers.
4. **CEA Certificate**

The certificate has 5 sections, 2 of which are of particular interest:

a. **Part 1.** Completed by the claimant, this includes an acceptance of the rationale for CEA (i.e. to enable continuity of education), a commitment to family mobility and an undertaking that the individual’s family has accompanied them to their current/new assignment or an explanation of why not, for example because the assignment is designated INVOLVESEP. This section requires the claimant to list their family residence and residence at work addresses during their last 3 appointments. This is an important part of the enhanced governance of CEA by the Children’s Education Advisory Service (CEAS) and is designed to document a history of family mobility which is likely to be subject to investigation in due course if it suggests that an individual has not been fulfilling their mobility commitment whilst in receipt of CEA. It is of course possible that there could be acceptable reasons for any such occurrence.

b. **Part 2.** This is the most significant change for CMs. The crucial difference lies in the wording of the judgement required by the CM. The old ‘mobility’ certificate asked whether the claimant had a ‘current liability [or not] to be assigned to an accompanied post at least 50 miles from their current duty station within the next 4 years’; the latest ‘eligibility’ certificate asks whether the claimant ‘is likely [or not] to be assigned to an accompanied post at least 50 miles from their current duty station within the next 4 years.’ The rationale behind this change is not to seek to reduce or to abolish CEA, but rather seek to improve assurance measures that it is being paid for the purpose for which it is intended.

5. **Assessment**

It is essential that CMs consider Part 2 of the certificate carefully and that their assessments are honest, objective and consistent. There is nothing complicated in the meaning and interpretation of the word ‘likely’; it simply means that there is a 50% or greater chance of a move (in the next 4 years). The CM must consider each specific case on all its individual merits. The CM’s decision must be an informed one that is specific to the individual claimant, taking into account the age, rank, time served, trade/specialisation intricacies, promotability, Operational Pinch Points and operational tempo, to name but a few variables. When all these factors are taken into account, it could possibly emerge that most CEA claimants will be adjudged to be **likely** to be assigned to an accompanied post at least 50 miles from their current duty station within the next 4 years. That said, the change from ‘liability’ to ‘likelihood’ might identify a few claimants who, whilst they retain a liability to be assigned away elsewhere, which all individuals have, in reality are very unlikely to be so assigned. This might be because of, for instance, their specialisation, career stage, personal choice or assignment preference.

6. **Final Assignment**

The revised Eligibility Certificate also has an additional option to identify those who are already in receipt of CEA but are coming to the end of their career. Where a CM feels that the claimant **is unlikely** to be assigned to an accompanied post at least 50 miles from their current duty station within the next 4 years) but only because the individual is entering their final assignment, and there is no intent of a further assignment, they should annotate this as the most applicable statement: ‘3. An existing claimant is entering their end of career assignment.’
7. **Investigation**

The CM’s judgement is not binding. It is just an honest judgement, or best reasonable assessment, made at the time of application based on balance of probability (not certainty) at the time, taking all relevant factors into account - and there will undoubtedly be occasions where situations change or the needs of the Service require that people deemed ‘likely’ will not be reassigned out of area and vice versa. The subsequent database generated, encapsulating claimants’ previous addresses, will identify where this happens repeatedly and these instances will then be open to further investigation and review of CEA eligibility by CEAS. That said, there may be good reason for such occurrences in which case CEA eligibility will withstand such review. As stated above, the important thing is that CMs must be honest, objective and consistent and take all of the many factors affecting the individual into account when completing Part 2 of the Eligibility Certificate.

8. **Review**

It is stressed that CEA will not automatically stop if a Career Manager adjudges a claimant to be unlikely to be assigned to a new duty station in the next 4 years. Instead, it will initiate a review of CEA eligibility to be undertaken by the claimant’s Commanding Officer. It is this review which will confirm eligibility, and it will take into account all of the criteria listed in the regulations in JSP Chapter 9. Therefore, CMs can act with certainty, confident that their part in the CEA process is merely to judge the likelihood of an individual’s continued mobility and not to establish their eligibility for CEA.

9. **Governance**

The changes are not intended to initiate a purge of or clampdown on CEA claims; it is about governance of the scheme and adapting the application process to provide assurance that CEA is being used for the purpose intended. It is crucial that there is consistency across the board in the implementation of CEA policy and the associated procedures hence this guidance and an audit of the approval process.

10. **Questions**

A list of Frequently Asked Questions on CEA Eligibility is at Appendix 58F-2.

---

4 Derived from Part 1 of the CEA Eligibility Certificates
5 The criteria includes, but is not limited to: claimant is a Regular SP, (for continuation claims) a valid CEA Eligibility Certificate and CEAS Boarding School Certificate, child of eligible age, CEAS approved school, maintain a family at a home in which they would normally reside with their children when the exigencies of the Service permit, serving accompanied or in an INVOLSEP assignment, in last assignment, stage of education.
APPENDIX 1 to ANNEX 58F

SPECIMEN CEA ELIGIBILITY CERTIFICATE

JSP 752 Version 9.2 – 1 Mar 09 Edition

This certificate is to be read and signed immediately prior to the following occasions:

a. Submission of Initial Claims, or  
b. On change of school, or  
c. The beginning of each new assignment, or  
d. If the current certificate is more than 3 years old at the time a CEA claim is submitted.

It is to be completed by Service claimants and submitted to CEAS. Once verified by CEAS, the original will be returned to the claimant and is to be retained for audit and to support future claims.

PART 1 - TO BE COMPLETED BY THE SERVICE CLAIMANT  SERIAL NUMBER:

Number:…………………… Rank:…………… Name:……………………………..

Svc/Regt/Corps:…………………… Current Unit:……………………………..

Unit Address including postcode ………………………………………………………
………………………………………………………………………………………………

Unit telephone number………………………. Unit Fax number ……………………

Email ……………………………

1. I have read and understand the regulations relating to payment of CEA and I accept:

a. The CEA I am claiming is paid to enable continuity of education for the child(ren) for which I claim.

b. A commitment to family mobility and that when I am assigned I will continue to serve accompanied. If I fail to relocate my family on assignment my entitlement to CEA will be reviewed and will cease unless I am INVOLSEP or gain exceptional authority from PACC i.a.w JSP 752 to serve unaccompanied and retain the CEA.

c. I will immediately inform my unit HR of any changes to my personal circumstances that may impact upon my entitlement to claim CEA.

2.* My spouse/civil partner, or child(ren) (for PStat Cat 2), have accompanied me to my (new) assignment station and addresses are as follows:

At my (new) Assignment Station/Unit Resident at Work Address (RWA)
My family currently reside at: (if different from family address)

………………………………………………………………………………………………
………………………………………………………………………………………………
………………………………………………………………………………………………
………………………………………………………………………………………………
3.* My spouse/civil partner, or child(ren) (for PStat Cat 2), have not accompanied me to my new assignment station because:

APPENDIX 2 TO ANNEX 58F

CONTINUITY OF EDUCATION ALLOWANCE (CEA) ELIGIBILITY – FREQUENTLY ASKED QUESTIONS

1. Why has the policy changed?

It hasn’t. Most importantly, there are no plans to abolish CEA, in fact quite the opposite: support for the underlying principle of financial assistance for Service personnel who send their children to boarding school in order to serve accompanied, remains as strong as ever. CEA is the new name for Boarding School Allowance and was re-named in April 2006 to coincide with the launch of Joint Personnel Administration and the bringing together of the 3 Services various pay and allowances rules in a series of Joint Service Publications or JSP. The policy laid down in JSP 752 – Tri-Service Regulations for Allowances - clearly sets out the entitlement parameters for eligibility for this allowances and that has not changed here.

The underlying principle of CEA remains that family mobility/accompanied service is inherent in claiming the allowance.

The aim of the certificate and updated policy is not to reduce or abolish CEA, but rather the revised certificate aims to improve audit procedures and ensure that the allowance is being appropriately managed and ineligible claims prevented. This will be accomplished by both internal unit audits and external audits by the Children’s Education Advisory Service (CEAS); they hold MOD’s Accredited School Database, which currently includes over 400 educational establishments. The underlying principle of CEA remains that family mobility is inherent in claiming the allowance.

2. Why does the Eligibility Certificate now focus on likelihood of moving, rather than liability to move, to an assignment more than 50 miles from their current assignment in the next 4 years?

To better reflect the underlying principle of CEA which is family mobility/accompanied service.

Furthermore, the likelihood of moving is just one of several factors on which the form focuses in order to assess a claimant’s eligibility for CEA. Others are:

a. An acceptance, by the claimant of the rationale for CEA (ie to enable continuity of education in accordance with the policy laid down in JSP752).

b. A commitment, by the claimant, to family mobility and an undertaking that the individual’s family has accompanied him/her to their current/new assignment or an explanation of why not, e.g. because it is designated INVOLSEP.

c. A statement by the claimant listing their family residence and residence at work addresses during their last 3 appointments.

d. An entitlement and eligibility statement by the Commanding Officer.
All of these are looked at together for any eligibility assessment by the claimant’s Commanding Officer. These are all in place, as assurance measures, to protect this important allowance for the future.

3. **What does ‘likely’ mean?**

There is nothing complicated in the meaning and interpretation of the word ‘likely’; it simply means that there is a 50% or greater chance of a move (in the next 4 years). But the Career Manager must consider each specific case on all its individual merits. Their decision must be an informed one that is specific to the individual claimant, taking into account the age, rank, time served, trade/specialisation intricacies, promotability, Operational Pinch Points and operational tempo, to name but a few variables.

4. **Will all claimants’ eligibility to CEA be affected immediately by the changes?**

Not before they are next required to submit an Eligibility Certificate. A new CEA Eligibility Certificate is required to be completed in the following circumstances:

a. for all initial claims,

b. on a change of school thereafter,

c. at the beginning of each new assignment,

d. where the certificate is over 3 years old.

e. on any change of personal or family circumstance.

5. **Will a ‘not likely to move’ assessment by a Career Manager automatically mean that a claimant is no longer entitled to CEA?**

No. The Career Manager’s role is merely to provide an assessment of the likelihood that a claimant might move in the next 4 years. It is not an assessment of eligibility. If a Career Manager’s assessment is a ‘not likely’ this will initiate a review of eligibility for CEA by the Unit Commanding Officer. He or she will then assess eligibility based upon all aspects of the Certificate’s content and all other variables, including provision for special circumstances.

6. **What if the claimant does not agree with their Career Manager’s assessment of the likelihood of him moving?**

Any review of eligibility for CEA is conducted by the Unit Commanding Officer. He or she will then assess all variables, including provision for special circumstances, before signing the CEA Eligibility Certificate.
7. What if the claimant does not agree with their CO's or the CEAS's assessment of their eligibility?

They may appeal the decision to the SPVA JPAC PACC.

8. Can a claimant considered unlikely to move to an assignment more than 50 miles from their current assignment in the next 4 years be eligible for CEA?

Yes, they may if they are in their final assignment, or in order to complete the current stage of education, or for welfare, compassionate and other exceptional circumstances, if approved by SPVA JPAC PACC.

9. Are there preserved rights or transition arrangements for those currently claiming CEA?

No, but their eligibility cannot be affected before they are next required to submit an Eligibility Certificate, and even if declared ‘unlikely’ they may still remain eligible for the reasons in the answer to Q8.

10. When will the database of claimants’ previous addresses as recorded in Part 1 of their Eligibility Certificates be first used?

Audits can be called for at any time by an individual unit, the single Services, the Centre or the NAO. Claimants should retain all paperwork and CEA Eligibility Certificates.

</tr>
</tbody>
</table>

2. Medical Employment Standard (MES)
The MES code relates to an individual’s employment in their branch/trade duties and is expressed as numerical degrees in four functional areas (detailed elements), indicated by the letters A, L, M and E. These reflect medical fitness for duties in the Air, Land and Maritime environments and any additional specific Environment and Medical Support considerations. All detailed elements of the MES are to be allocated for each individual. Table 58G-2 details the MES codes and their meaning.
## Table 58G-2. Medical Employment Standard Codes

<table>
<thead>
<tr>
<th>MES Code</th>
<th>Description</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>A1</td>
<td>Fit for flying duties without restriction.</td>
<td>Only for aircrew.</td>
</tr>
<tr>
<td>A2</td>
<td>Fit for flying duties but has reduced hearing or eyesight.</td>
<td>Only for aircrew.</td>
</tr>
<tr>
<td>A3</td>
<td>Fit for duties in the air within the stated employment or MedLims.</td>
<td>Only for aircrew.</td>
</tr>
<tr>
<td>A4</td>
<td>Fit to be flown in a passenger aircraft.</td>
<td></td>
</tr>
<tr>
<td>A5</td>
<td>Unfit to be taken into the air.</td>
<td>Duties in the aviation environment include, but not limited to, air traffic control, baggage handling, aircraft towing, aircraft maintenance, airfield driving and duties on a flying station/base.</td>
</tr>
<tr>
<td>A6</td>
<td>Unfit for any duties in the aviation environment.</td>
<td></td>
</tr>
<tr>
<td>L1</td>
<td>Fit for unrestricted duty.</td>
<td></td>
</tr>
<tr>
<td>L2</td>
<td>Fit for high readiness roles with minor limitations.</td>
<td>Must be able to undertake Pre-Employment Training (PET) and Individual Pre-Deployment Training (IPDT) to deliver the minimum personal military skills to allow an individual to carry out the requirements of their job specification while maintaining their own FP and positively contributing to the FP of those around them. RN/RM may be unfit for defined aspects of mandatory fitness testing or modifications to command courses may be required but fully employable and deployable in branch/trade.</td>
</tr>
<tr>
<td>L3</td>
<td>Fit for limited duties but with some restrictions subject to MRA.</td>
<td>Should not impose a significant and/or constant demand on the medical services if deployed, on exercise or deployments. The individual may deploy on operations or overseas exercises following completion of a MRA. Have no limitations in their ability to function wearing personal equipment demanded of the environment, branch/trade and rank.</td>
</tr>
<tr>
<td>L4</td>
<td>Fit for certain deployed roles into well-established MOB locations subject to Consultant Occupational Physician MRA.</td>
<td>Individuals whose medical conditions have the potential to pose a significant risk on deployment in the land environment. May be reliant on an uninterrupted supply of medication and/or a reliable cold chain. Must be able to function wearing a helmet and the minimum theatre standard body armour. Likely to be restricted to MOB only.</td>
</tr>
<tr>
<td>L5</td>
<td>Unfit deployment. Fit for branch/trade and limited UK operations.</td>
<td>May be fit limited UK operations. May be employed within their branch/trade and are fit for UK internal operations within the bounds of their MedLims.</td>
</tr>
<tr>
<td>L6</td>
<td>Unfit for service in the land environment.</td>
<td>Unfit for any duties.</td>
</tr>
<tr>
<td>M1</td>
<td>Fit for unrestricted duties.</td>
<td>May be employed and deployed worldwide in the maritime environment.</td>
</tr>
<tr>
<td>M2</td>
<td>Fit for restricted duties afloat within the limitations stated.</td>
<td>Fit for duties at sea but may be restricted to specific size or type of vessel, have medical support needs or environmental limitations as indicated by the MES and MedLims. To be employed or deployed within the MedLims specified.</td>
</tr>
</tbody>
</table>
## MARITIME

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>M3</td>
<td>Fit for restricted duties in a vessel in harbour or alongside with the limitations as stated.</td>
<td>Able to safely move around a ship alongside or within the confines of a harbour including the ability to evacuate from the vessel and take emergency action (e.g., fire-fighting and damage control) without assistance. Unfit to serve at sea but may serve within the confines of a port or harbour.</td>
</tr>
<tr>
<td>M4</td>
<td>Fit to be carried as embarked forces in transit.</td>
<td>RN personnel should not be graded M4. RM personnel should not normally be graded M4.</td>
</tr>
<tr>
<td>M5</td>
<td>Fit for restricted duties ashore within the limitations as stated.</td>
<td>Not to work on ships/submarines alongside and may not be able to complete all duties required of their branch/trade ashore.</td>
</tr>
<tr>
<td>M6</td>
<td>Unfit for any duties in the maritime environment.</td>
<td>Long-term sick or in a MTF for &gt;28 days or given a medical board recommendation for discharge.</td>
</tr>
</tbody>
</table>

## ENVIRONMENTAL AND MEDICAL SUPPORT

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>E1</td>
<td>Fit for worldwide service in all environments.</td>
<td>Fit to deploy on contingent and enduring operations with no requirement for medical care within the deployed location beyond Primary Healthcare (or equivalent).</td>
</tr>
<tr>
<td>E2</td>
<td>Fit for unrestricted duties but with a medical risk marker.</td>
<td>Has a specific medical condition, which does not currently affect employability or deploy ability but may do so in the future. Has no climatic restriction and no requirement for medical support bar adequate supply of medication. The medical condition is stable with treatment. Should loss of medication occur for &lt;1 week this should not lead to clinical deterioration in the condition or functional degradation during that time. Examples of medical risk markers are early noise induced hearing loss, stable chronic condition requiring medical monitoring.</td>
</tr>
<tr>
<td>E3</td>
<td>Restricted employment outside UK due to medical support or environmental requirements.</td>
<td>Fit subject to limitations as will require access to enhanced medical support or has specific medications requirements unlikely to be compatible with contingent operations. Fit to be in areas within limitations eg climatic injuries, hearing loss, susceptibility to environmental exposure. Personnel may require guaranteed access to an MO outside UK waters or only be deployable where access to Secondary Healthcare is possible.</td>
</tr>
<tr>
<td>E4</td>
<td>Only to be employed out of the UK where there is access to established ‘NHS equivalent or better’ Primary and Secondary Healthcare.</td>
<td>Has a medical condition requiring access either routinely or as an emergency to medical care at a level equivalent to that provided in the UK. Limited to Overseas Bases only (excludes Falklands and Diego Garcia).</td>
</tr>
<tr>
<td>E5</td>
<td>May be employed within the UK only.</td>
<td>To be employed appropriately to their MedLims within the UK. See M grade for ability to be employed on a ship.</td>
</tr>
<tr>
<td>E6</td>
<td>Pregnancy/Maternity.</td>
<td>Only to be used when the woman has formally informed her employer of her pregnancy and she has given her written consent for MES to be displayed as E6 or a contemporaneous record has been made in the clinical notes confirming permission granted. E6 is to be maintained until the Service woman has successfully completed a return to work medical post pregnancy and/or maternity leave.</td>
</tr>
</tbody>
</table>
3. **Medical Limitations**

   a. The JMES provides sufficient information to the Executive and line management to enable them to understand employability and deployability but does not give sufficient information to allow a precise understanding of how an individual may be employed. This is achieved by the use of Medical Limitations (MedLims) and their accompanying codes.

   b. In DMICP MedLims are listed in the order they are applied. More than 12 MedLims can be applied in DMICP but only 12 will be visible to personnel staff on JPA. If >12 MedLims are applied, MedLim ‘000’ will automatically appear on JPA. This MedLim directs the CoC to seek further medical advice on employability.

   c. Table 58G-3 details the MedLim codes available with their meaning.

ANNEX 58I

CM GUIDANCE FOR PROCESSING EXTENSION OF SERVICE REQUESTS

1. Principles
Extensions of Service (EOS) may be used for the following reasons:

a. To act as a short-term manpower regulator to increase the total bearing of all specialisations to match the global requirement.

b. To assist in alleviating shortages in any particular specialisation or sub-spec that cannot be solved by using officers of other specialisations.

c. To retain officers with deep specialist skills or knowledge of which there is a shortage.

2. Types of EOS
There are two types of EOS (defined at Para 5811):

a. Career Manager’s EOS. A ‘Career Manager’s’ (CM) EOS can be for up to a total of six months. CMs are not to give EOS which individually or cumulatively exceed six months in total, nor are they to add a CM’s EOS to the end of a ‘full’ EOS; this limitation is necessary in view of the significant hidden pension implications of EOS. Any EOS which results in a cumulative total of over six months is to be processed as a ‘full’ EOS.

b. Full EOS. As a guideline, 2½ years is normal but periods up to five years may be considered. In general, the RM gives up to two years for an EOS; anything greater is classed as an Extended Career for which a Selection Board is convened.

3. Administrative Action
The following procedure is to be followed:

a. Application. After discussion with the CM, an individual should apply for all types of EOS by raising a Form S61(Rev 11/13) which can be found via a link on the RN Web A-Z under Forms (Royal Navy). Once completed, with the medical declaration signed as required, the form should be forwarded electronically through the chain of command to the relevant CM.

b. Process. On receipt of the S61, the CM is to staff the request by completing Part 6 of the S61 and ensure that, for a ‘full’ extension, a copy of an SJAR/OJAR (no more than six months old) with a relevant recommendation for the EOS and medical certificate have been received. The application form should be distributed (soft copy via email) through each team’s SO1 CM (officers)/SO2 CM (ratings) to the relevant Branch Manager (who is required to scrutinise against branch and specialisation requirements) and thereafter, for a ‘full’ extension only, to NPS PPLAN for scrutiny against overall bearing/requirement and financial control aspects. After Branch Manager and PPLAN scrutiny, the application should be returned to the CM.
c. **Final Approval.** SO1 CMs (Officers) and SO2 CMs (Ratings) are delegated authority to approve a CM's EOS and 'Full' EOS subject to there being a branch shortage; if the branch is in balance or overborne, DACOS CM/BM approval is required. Additionally, if the extension takes the individual beyond age 60, DACOS CM's approval must be sought.

d. **Administrative Action.** Once an application has been approved, the CM (or delegated Admin Support Staff) is to amend the individual’s JPA contract in accordance with current JPA ‘kill-card’ SOPs. For officers, the completed application form is to be retained within the officer’s PF. For Ratings the completed form is returned to the unit for retention.

e. **IC(12).** A maximum EOS of two years (i.e. to 14 years) may be granted to officers serving on normal IC commissions.

4. Where retirement dates are to be extended from before 31 Mar to 1 Apr or later (i.e. one that gives the individual the advantage of having terminal benefits assessed under a later and more favourable pension code), CMs must ensure that the extension is for genuine Service reasons.

5. Ratings are not to be granted an EOS purely to retain eligibility to an EC. The fact that approval of a requested extension for a service requirement makes an individual eligible for consideration for EC is entirely coincidental. CMs are to ensure that this is clearly understood by Divisional Officers and applicants/potential applicants in any discussions.
ANNEX 58J

UNLAWFUL DISCRIMINATION – GUIDANCE FOR CAREER MANAGERS

1. The Equality Act 2010 brought together a raft of anti-discrimination legislation, extended some protections to characteristics that were not previously covered and strengthened particular aspects of equality law. The 9 Protected Characteristics under the Act are:

- sex (gender);
- sexual orientation;
- gender re-assignment;
- race and ethnicity;
- religion or belief;
- marriage or civil partnership;
- pregnancy and maternity;
- age; and
- disability.

2. Discrimination occurs when someone is treated less favourably or is disadvantaged because of a protected characteristic above, whether direct or indirect, intentional or unintentional. Discrimination is generally unlawful, however it can be justified if you can show that it is ‘a proportionate means of achieving a legitimate aim’. Types of discrimination are:

a. **Direct Discrimination.** Occurs when someone is treated less favourably than others because of a Protected Characteristic they have or are thought to have (see perceptive discrimination below), or because they associate with someone who has a protected characteristic (see associative discrimination below). For example, turning down an assignment for an individual who is lesbian, because you believe that the team she will lead is homophobic and think her sexual orientation would prevent her from gaining the team’s respect and managing them effectively would be direct sexual orientation discrimination.

b. **Perceptive Discrimination.** Direct discrimination against someone because others think they possess a particular Protected Characteristic (not applicable to Marriage or Civil Partnership And Pregnancy and Maternity). For example, not considering a 30 year old man for a youth recruiting assignment because visibly he appears much older and wouldn’t establish rapport with young people, would be discrimination on the perception of age.
c. **Associative Discrimination.** Direct discrimination against someone because they associate with another person who possesses a Protected Characteristic (not applicable to Marriage or Civil Partnership and Pregnancy and Maternity). For example, not assigning an individual who associates with Muslims, because you believe this would prevent them from carrying out their duties or gaining the respect and trust of their team, would be discrimination because of association with religion or belief.

d. **Indirect Discrimination.** Occurs when you have a rule or policy that applies to everyone but particularly disadvantages people who share a Protected Characteristic. For example, it is likely that a policy that only allows men to serve in Afghanistan would be indirect discrimination because of sex. However, if the cultural nature of a particular assignment dictated that the mission could only be carried out effectively by a man, then discrimination could be justified as a “proportionate means of achieving a legitimate aim”.

3. **Exemptions**
   The Armed Forces have been granted very limited exemptions in respect of Age, Disability, Gender Reassignment and Sex, for the purpose of ensuring the combat effectiveness of the Armed Forces. For example it may be a genuine occupational requirement to be a man, or not to be a transsexual person.

4. Further advice and guidance can be sought from Diversity and Inclusion Policy staff and Service Legal Advisers.
ANNEX 58K

PERSONAL RECORDS

1. Official Records

   a. Official Records (ORs) are placed before promotion or transfer Boards. The Officers’ or Ratings’ and Other Ranks’ Promotions Sections of ACOS(PCap) are responsible for their accurate and timely completion. The OR contains a CV derived from JPA and copies of all recent appraisal reports, going back as far as directed in the Transfer/Promotion Board Instructions written for specific Selection Boards. The OR may also contain copies of reports and letters as follows:

      (1) Reports in special format from UN Service and Joint Service, NATO and other non-RN Defence Colleges.

      (2) NATO letters of appreciation and efficiency reports, Ambassadors’, High Commissioners’ and Head of Defence Sales’ reports on attaché’s and advisers.

      (3) Honours or Awards (see JSP 761).

      (4) Formal intimations of appreciation, commendation or praise by Commonwealth or foreign governments or foreign Naval authorities, including NATO and the United Nations, and by the Admiralty Board, Commanders-in-Chief and independent Flag Officers.

      (5) Court martial convictions, and censures by Admiralty Board and formal warnings when so directed, expressions of severe displeasure by a Commander-in-Chief or independent Flag Officer, censure by Commonwealth or foreign governments or foreign Naval authorities including NATO when so directed by the Admiralty Board.

   b. Under the Rehabilitation of Offenders Act 1974, all censures awarded as a result of conviction by a civil court, for some neglect in professional duty, or for conduct where formal disciplinary proceedings are not appropriate, are expunged from the OR when the stipulated period of rehabilitation has expired. All censures are regarded as spent after five years and all court martial convictions after five years if the offence or punishment is not specifically covered by the Act.

2. Access by Third Parties to Official Records

   Once finalised, the AR is released to the subject reported on so that they can read the comments made by higher reporting officers. No information is released inside or outside the Service except on the strictest need-to-know basis. Any exceptions require the personal approval of the Career Management authority acting on behalf of the Admiralty Board. Any requests for information from solicitors, employment consultancies or other such organisations are not to be acknowledged, but immediately passed to the appropriate Secretariat. The release of other types of personal information is governed by JSP 400.
3. **Personal File (PF)**
   The PF is held by the appropriate Career Manager. It is split into two separate parts. One part - PF(AR) - contains copies of the individual's ARs for the use of the Career Manager. The other part – PF(MC) - contains miscellaneous correspondence that is:
   
   a. A record of all assignments.
   
   b. Any other occurrences such as:
      
      (1) Requests.
      
      (2) Medical categories.
      
      (3) Special qualifications.
      
      (4) Correspondence to and from the individual officer.
   
   c. Honours and Awards.
   
   d. Letters of appreciation etc.
   
   e. Expressions of displeasure of Commanders-in-Chief, Independent Flag Officers and Area Flag Officers, but only if such action is recommended by the Initiating Officer.
   
   f. Admiralty Board formal warnings when not included in the ARF.
   
   g. Censures, Courts Martial, and Summary Trial convictions (see para 6 et seq below).

4. **Appraisal Report File (ARF)**
   An officer's ARF contains:
   
   a. All original ARs written on the officer.
   
   b. All original Awards, Honours and Censures.
   
   c. All original 'official' letters of appreciation, etc.

5. **Custody of ARFs**
   ARFs are stored as follows:
   
   a. For all RN and RM officers up to and including Commander and Lt Col – in archives in a separate building adjacent to Victory Building.
   
   b. For all Captains, Commodores, Colonels and Brigadiers - in the Naval Assistant's office.
   
   c. For all 2* officers and above - in the Naval Secretary's office.
6. Censures

a. The following censures are recorded in the PF(MC) and ARF:

(1) Admiralty Board Severe Displeasure or Displeasure.

(2) CinC's or independent Flag Officer's Severe Displeasure.

b. Other censures are recorded as follows:

(1) **Admiralty Board Formal Warning.** OR if so directed. Retained permanently in PF(MC).

(2) **CinC's or Independent Flag Officer's Displeasure.** PF(MC) if so directed. Retained permanently in PF(MC).

(3) **CinC's or Independent Flag Officer's Formal Warnings and loggings by Commanding Officers.** These are not recorded.

(4) **Any Form of Censure by Commonwealth or Foreign Governments or Military Authorities, including the UN, EU or NATO.** These are only to be noted in the OR if the Admiralty Board so directs or if formal censure by the Admiralty Board is incurred.

7. Recording of Courts Martial and Summary Trial Convictions and Acquittals

a. **Convictions.** All Courts Martial convictions are noted in both the PF(MC) and ARF. The Promotions Section will action any necessary amendments to the JPA record (e.g. changes of seniority).

b. **Loss of Seniority.** If underzone or in zone, loss of seniority has an effect on when an officer comes into zone or on how long they remain in zone (even if the effect is to lengthen their time in the zone). If overzone, loss of seniority does not have the effect of rendering the officer eligible for selective promotion again.

c. **Acquittals and Quashing of Convictions.** Acquittals at Courts Martial are recorded in the PF(MC) only. If a Court Martial conviction is subsequently overturned by the Court Martial Appeal Court the PF(MC) notation of the conviction is to be marked "Quashed" while the Promotion Section is to remove the Court Martial summary sheet from the OR. If, however, the sentence is quashed after the summary sheet has been presented to a promotion board, the summary sheet will be annotated "Quashed" and will only be removed from the OR once the selection process is complete for that year. On the rare occasions that an AR makes reference to a Courts Martial, and other correcting action is not practical, the AR is similarly to be annotated "Quashed".

d. **Disclosure of Courts Martial Proceedings.** Requests for disclosure of Courts Martial proceedings should be addressed to NAVY SEC-2 DISCIPLINE 1A.
e. Summary Hearings of Officers

(1) The Armed Forces Act 2006 provides for officers of or below the rank of Commander to be dealt with by way of summary hearing for minor offences. The Navy Board has directed that there will be a rebuttable presumption that reprimands will be recorded in the PF(MC) for 2 years and severe reprimands will be recorded in the PF(MC) and OR for 3 years. Navy Legal-SHRC will inform ACOS PCap/DACOS Prom of charges which have been proved.

(2) In the normal course of events, Career Managers will be unaware of a summary hearing of a member of their plot and the fact of a summary hearing should have no implications for assigning. However, it may, on occasion, be necessary for a Career Manager to note that an officer is involved in a summary hearing, for example if the holding of a summary hearing has an effect on the timing of an assignment. If such an exceptional case arises, a note may be made in the PF(MC) or the scribble pad, but care should be taken to destroy such records under DPA Principle 5 if the charge has not been proven or if the proved charge is not recorded. In the unlikely event that an offence heard summarily forms the basis of an application to land an officer then a record of summary hearing may be kept in the PF(MC) insofar as it is an integral part of the landing application.

8. Rehabilitation of Offenders Act

a. Under the Rehabilitation of Offenders Act 1974, a censure awarded as a result of actions listed in the following sub paragraphs should be expunged from the OR when the stipulated period of rehabilitation has expired. All censures should be regarded as spent after 5 years; all Court Martial convictions after the stipulated period or after 5 years if the offence or punishment is not specifically covered by the Act. This 5 year period commences on the date of Conviction or, in the case of a custodial sentence, on its completion.

(1) Conviction by a Civil Court;
(2) Formal Police Caution;
(3) Some neglect in professional duties;
(4) Conduct where formal disciplinary proceedings are not appropriate;
b. Though the Act demands that all such convictions or censures are spent, after the appropriate period, for the purposes of consideration of promotion, career planning and assigning, the Act recognises and allows that they should, subsequent to becoming spent, be taken into account, if appropriate in considering matters affecting National Security or in considering levels of punishment or censure after a subsequent conviction or incident meriting further censure. Records of Courts Martial convictions and censures are not, therefore, expunged when they are spent, but retained as the permanent record in the MOD from which information may be obtained for DV and more sensitive security vetting purposes when required by DVA and for Courts Martial when required by the Court.

c. Promotions Section will ensure that all records of censure, etc. are expunged from the OR, five years after conviction. If the five year period expires during the selection process, then the reference point for calculating the end point is to be the date the transfer/promotion boxes are dispatched to board members.

9. Disposal of Records

The PFs of all officers on retirement or discharge are archived at a specialist facility in Swadlincote, Derbyshire, by TNT Archive Services under a Pan-Govt contract. The files are retained for 100 years from a person’s date of birth. The file contents are to be weeded so that only the following items are enclosed:

a. The PF.

b. Assignment record sheet.

c. Reports as RN rating (for SUY Officers).

d. Assignment/Officer letters on entry or transfer.

e. Certificates, e.g.:

(1) BWC.

(2) ONC.

(3) Charge Certificates.

(4) Security clearance records.

(5) Courts Martial reports.

(6) Medical reports.

(7) Special commendations.

(8) Naval Aircrew Advisory Board (NAAB) reports, especially for RAF candidates.
(9) Record of flying experience and ability S3168.

(10) Retirement letters (PVR, redundancy etc).

(11) NOK forms.

(12) Official Secrets Act Declaration.

(13) Any correspondence or signals which may indicate health, financial, personal problems and intentions regarding future work/home e.g. joining RAN, moving to USA etc.(no other correspondence between officers and CMs is required.)

14) Commodore BRNC reports on withdrawal from training (YOs only)

10. Conduct Record (RN Form S3300d and Wallet S3300e) and JPA Formal Discipline Record (FDR)

a. **Purpose.** The Conduct Record (CR), RN Form S3300d (with the associated spent conviction wallet, RN Form S3300e), was introduced on 1 Jan 00 in order to provide a comprehensive, through-career record of Service and civil convictions for the minority of individuals who offend. The whole series of S3300 forms is superseded by records on JPA (S3300a, S3300b and S3300c have been subsumed into the SJAR). From July 2009, all discipline occurrences that were previously reported on Forms S3300d and S3300e are to be reported to JPA Discipline, from where it is possible to produce the Formal Discipline Record (FDR) as an auto fill form. Any remaining forms S3300d and S3300e must be retained for those personnel that already have them, since the part of an individual’s discipline history that occurred before JPA will continue to be sourced from these forms as prior discipline history has not been uploaded to JPA.

b. **Retention and Access.** The CR (where applicable) is an integral part of a rating’s/other rank’s service documents and is normally to be retained by the UPO/Ship’s Office. The CR and FDR are available to the following but only in the circumstances detailed:

(1) **Divisional/Commanding Officer** - when the individual joins – only if under a continuing sentence (i.e. ongoing suspended sentences/Second Class for Conduct/Service Supervision and Punishment Order (from 31 Oct 09)).

(2) **Divisional/Commanding Officer** - unspent convictions only - when considering administrative decisions (eg. Service Penalties).

(3) **RN Police/Coxswains** - may have full access to the CR and FDR when investigating an alleged offence.

(4) **Divisional Officer** - full CR and FDR when preparing for disciplinary proceedings.
5. **Commanding Officer/other Subordinate Commander** - full CR and FDR - when considering the results of an investigation, to inform the decision on charging or referral to the Director of Service Prosecutions. After finding a charge proved, or a charge is admitted, to inform the decisions on sentence.

6. **Court Martial** - full CR and FDR will only be referred to after a finding of guilt or a guilty plea (if such occurs).

7. **Ratings and Other Ranks** - may see or have a copy of their own CR and FDR on request and will be given a copy when charged with a Service offence.

c. **Previous Raising of a CR.** A CR was raised on all personnel serving on 1 Jan 00; after this date until 31 Oct 09, a CR was raised for all new entrants and those re-entrants who did not have a CR raised during their previous service on entry or re-entry. From 31 Oct 09, form S3300d and accompanying wallet S3300e are no longer issued and the FDR via JPA is the sole source of disciplinary history for new entry personnel.

d. **Content.** The CR (where one exists) comprises a covering folder (RN Form S3300d) within which is stored:

   1. Copies of any charge sheets or equivalents from the Army or RAF.
   2. Copies of punishment warrants.
   3. Signals of court martial conviction(s) and sentence.
   4. Reports of civil convictions and FPCs; plus (if required).
   5. RN Form S3300e, a wallet, to which relevant documents are moved when convictions become ‘spent’.

e. Only findings or admissions of guilt resulted in entries in the CR. No information concerning unproven offences or acquittals at trial is to be included.

f. Documents included in the CR wallet (S3300e) were annotated with the appropriate rehabilitation period (see PLAGO Para 0708).

g. The CR records the following:

   1. Log number.
   2. Date of conviction.
   3. Reference/details of relevant documents.
   4. Rehabilitation date.
h. **Log Number/documents.** Details of all convictions prior to 31 Oct 09 were recorded and a copy of the relevant documents (ie. S241, S271, AFB252, Court Martial Signal) inserted within the Conduct Record. Each document was numbered sequentially and the number inserted in the Log No. column.

i. **Conviction Date.** The entry in this column is the date of conviction e.g. date warrant signed at page 2/Court Martial finding/Civil Court finding/date FPC signed by the individual.

j. **Reference/Details.** The document reference inserted in this column is the ship/unit, form number and serial number (ie. NONSUCH/S241/16, NONSUCH/C57/3 etc) or the Court Martial signal (originator and DTG).

k. **Career Check (CC).** Where a conviction gave rise to a CC prior to 31 Oct 09, this was recorded within the CR as well as being recorded in JPA under Warnings and Sanctions. A CC may affect eligibility for GCB, LS&GCM and MSM (see JSP761 Chapter 5), promotion (see Part 8 of this BR) and other administrative changes (see individual regulations). A CC has no effect when recorded on the CR of an individual aged under 17½. The CC date entered on the CR was one of the following:

1. Date of conviction, eg. date warrant signed on page 2/Court Martial finding/Civil Court finding/date FPC signed by the individual; or
2. Date of release from prison/Young Offenders Institution/detention or removal from Second Class for Conduct; or
3. N/A, denoting ‘Not Applicable’ as sentence/conviction/FPC did not give rise to a CC.

l. **Rehabilitation Date.** Guidance on the Rehabilitation of Offenders Act can be found in PLAGO Para 0708. The Rehabilitation Date will be the prescribed period of time since the date of conviction. Rehabilitation periods are detailed in Annexes A and B of PLAGO Para 0708. A further conviction during the rehabilitation period of a previous offence may extend the rehabilitation period of the earlier offence. In this instance, where the rehabilitation period is changed by another offence (Annex C of PLAGO Para 0708), the original date is to be ruled through and the new date inserted. If there is any doubt, advice should be sought from DCS-LAW-DIS.

m. **Reported to PNC.** The column for reporting to the Police National Computer has an entry ‘Yes’ or ‘No’.
n. **Time Forfeited.** Time forfeited arises from imprisonment/Young Offenders Institution (YOI) detention, detention and, in some circumstances, Service penalties. The number of days forfeited plus D, P, CP, A, Pay F or N/A was recorded on the CR (Time forfeited column) as appropriate:

1. **D**  Detention
2. **P**  Imprisonment/YOI
3. **CP**  Civil Power (BR 2 Para 3906)
4. **A**  Stoppages of pay for absence over leave under Army or RAF Regulations
5. **Pay F**  Forfeiture of pay
6. **N/A**  Not applicable.

o. **Second Class for Conduct.** The CC date entered on page 2 of the CR was the date of removal from Second Class for Conduct.

p. **Detention/Imprisonment.** The CC date to be entered on the CR log was either the date of conviction (if sentence was suspended) or date of release from Detention/imprisonment.

q. **Committal of Suspended Sentences.** Where a suspended sentence is committed, the original CC date and the N/A entry under the time forfeited column were ruled through. A new CC date and number of days forfeited was inserted above on completion of sentence.

r. **Remittal or Enforcement of Suspended Sentences.** When a suspended sentence was remitted or enforced, details were to be recorded upon the relevant supporting documents:

1. **Suspension of Sentence after Committal:** The effective date and number of days served, and ‘Residue Suspended’;

2. **Remission of Suspended Sentence:** Effective date; notation ‘Suspended’ or ‘Residue Suspended’ ruled through; and enter ‘Remitted’ or ‘Residue Remitted’ as appropriate;

3. **Committal or Re-committal Following Suspension of Sentence:** Effective date; ruled through notation suspension of sentence or of ‘Suspended’ or ‘Residue Suspended’ and residue of sentence; and enter notation ‘Committed’ or ‘Recommitted’ as required.

s. **Good Conduct Badges, LS&GC Medal and MSM.** Awards, deprivations, forfeitures and restorations of Good Conduct Badges, the LS/GC Medal and the MSM were recorded within the CR (see JSP761 Chapter 5). Note: Prior to 1 Jan 00 such entries were recorded on the Certificate of Service.
t. **Bring Up Review Date Box.** The Bring-up/Review date Box should have been completed only in pencil. It was provided for UPO staff to note ‘bring up’ dates for review of suspended sentence, Second Class for Conduct and re-promotion as appropriate. When no longer extant, any entry was to be erased.

u. **Annual Sighting.** The requirement for Annual Sighting ceased with the obsolescence of the CR from 31 Oct 09.

v. **Losses and Replacement.** In the event of loss of a CR, application is can be made to DCS-LAW-DIS for reconstruction from the historical information (prior to 31 Oct 09) held in the Discipline Database.

w. **Disposal of CR.** The CR becomes the property of the individual at the time of their leaving the Service.

x. **Spent Convictions Wallet (RN Form S3300e).** As stated in Para 10 sub para a, the S3300e, as a repository of information on spent convictions, became obsolete from 31 Oct 09 with convictions recorded after this date being entered in JPA only and accessed via the FDR which should in future identify those convictions that are spent. Reference can be made to PLAGO Para 0708 to decide which of those convictions entered on the CR can be classified as ‘spent’ and the details filed in the S3300e.

y. Under the Rehabilitation of Offenders Act 1974 (ROA) all sentences passed by Service and civilian courts are subject to various rehabilitation periods (see PLAGO Para 0708 for periods and further details). Once an offence has been rehabilitated or ‘spent’ it is not to be considered when administrative decisions regarding employment or career are made, unless those decisions are exempt from the provisions of the ROA eg. eligibility for the award of medals.

z. To avoid inadvertent consideration of CR documents relating to spent convictions, such documents are to be placed within the spent convictions wallet (RN Form S3300e). This is then to be secured, by the same India tag, within the CR (RN Form S3300d) and underneath other documents, if any, relating to unspent convictions.

</tbody>
</table>
Notes:

1. The above guidelines draw heavily on Ministry of Defence Data Protection Act 1998 Guidance Notes: No.5 Document Retention Periods, revised by Info Access Pol - 10 Oct 05 MOD guidance is marked ".

2. The scrutiny of files for weeding/retention should never be a purely mechanistic task. The above guidelines help the exercise of judgment and discretion.

3. Aim to:
   a. Weed packs when they cross the desk.
   b. Have a registry weeding plan (eg. 2-yearly cycle)
   c. Record weeding action for audit trail.
ANNEX 58L

DISCLOSURE OF INFORMATION - EXCEPTIONS

1. Bona Fide Enquiries
   Confirmation is given, in bona fide enquiries, of length of service and other similar facts about careers which reflect to the credit of the individuals or is in their interest (eg. facts which enable assessment of claims being pursued by the individual).

2. Disclosure to DVA Staff, Security Services and Intelligence Departments
   a. Naval Secretary has granted named DBS(NSV) staff permission to remove ARs and career management files for scrutiny during the course of DV enquiries subject to the following provisos:
      
      (1) All files must be signed in and out at the appropriate career management desk.
      (2) Files drawn must be recoverable at short notice and are to be returned as soon as they are finished with and certainly on the same working day as they are drawn.
      (3) Files may be drawn only by those on the list of named investigators.
      (4) No copies are to be taken of any of the files' contents.
   b. Access is granted to Security Service representatives introduced to SO1 Branch CMs personally by certain nominated officers of Navy Command PSyA.
   c. The names of 3 Intelligence Officers who may have direct access to officers' records are known to the Naval Secretary. They have been instructed to contact EA/NavSec when necessary, who will arrange an examination within the Directorate concerned, or to contact the CM Whole Force Cell in the case of Retired Officers.

   a. Candidates for Employment as a Civil Servant (Military Support Function). The necessary information is to be supplied for the Selection Board by CMs. Security Officers (Investigating) from the Personnel Security Investigating Unit (PSIU) of MOD Sy and authorised investigators from other Government Departments are allowed access, on showing their identity cards, to the personal records of RN Officers or Retired Officers who have applied for MSF posts requiring DV clearance in the MOD or other Government Departments, in order to process the clearances. The officers' records are not to be removed except where an officer is seeking employment in a post in PSyA; their personal record file may be passed to PSyA for personal scrutiny. Medical information may only be divulged by Fleet Medical Division and then only when written confirmation is provided that the person concerned is being considered for a post requiring a DV security clearance.
b. **Candidates for Employment in Other Government Departments (OGDs).** Disclosure of necessary facts to OGDs who have a ‘need-to-know’ eg. in connection with applications for employment is normally to be made by a personal letter, approved and signed at SO1 Branch CM level. Contents of the officer’s official reports are not to be disclosed but a general paraphrase of the officer’s overall performance may be given. Alternatively, authorised investigators may be allowed access as in Para 3 sub para c.

c. **Candidates for Civil Service Band B Appointments.** There is a specific requirement of the Civil Service Commission for reports on officers who are applicants for Principal grade appointments in the Administration Group of the Home Civil Service. In such cases report forms to be used for this purpose will be received from the Civil Service Department. These reports, and any other references which may be asked for in respect of RN officers, are to be provided by the appropriate OCM. In the case of Retired List officers of Commanders rank and below, their reports and references will be provided by the CM Whole Force Cell.

4. **Disclosure of Information to Support Commonwealth and Inter-Service Transfer Applications**

   a. Requests for copies of ARs for an officer seeking permanent transfer to the Navy, Army or Air Force of Australia, Canada or New Zealand should be dealt with as follows:

   (1) Enquirers should be told that officers will have in their possession all ARs written since April 1997.

   (2) Reports written before April 1997 were compiled by Reporting Officers on the assumption that they would not be disclosed to outside authorities. MOD owes a duty of confidentiality to such Reporting Officers and is therefore unable to disclose copies of the reports in question.

   (3) Providing the individual consents, in writing, an officer’s CM will provide a summary of their career to date (ie. a list of appointments/assignments with a 2-3 sentence précis of performance for each).

   b. Copies of ARs on an officer seeking transfer to the Army or RAF may be forwarded to the appropriate authorities by NavSec Admin Support.

5. **Admiralty Board Submissions for the Administrative Discharge of Officers**

   Copies of ARs covering the relevant period (generally that under Quarterly Report) leading up to the submission for discharge may be made available to CNLS for the specific purpose of providing supporting evidence for the Board Submission itself.

6. **Disclosure of Information for Statistical Research**

   NPS HR Research Cell staff are allowed access to personal records held by Career Managers and in JPA for statistical research only. Any other access must be cleared with the Naval Secretary on a case-by-case basis. Records must not be removed from the Department.
7. Disclosure of Medical Information
Requests for medical information should be referred to SO1 OCM Med.

8. Disclosure of Addresses

a. Addresses of Active Service or Retired Officers are not normally disclosed, but whenever disclosure is refused, an offer is to be made to forward pre-paid correspondence to the current unit address of an Active Service Officer or the last known private address of a Retired Officer. Where appropriate it should be explained that this policy arises from the need to preserve the confidential nature of personal service records, which are held for official purposes only.

b. Under certain circumstances, exceptions may be made in the case of Police, Solicitors, the Clerk of a Court or Probation Officer and other Departments of the Crown. Addresses may be supplied in writing or by telephone but in the latter case the individual making the enquiry is to be asked to give a name and telephone number so that their identity can be checked. Additionally, the Chaplain of the Fleet has been authorised by the Second Sea Lord to disclose the Service addresses of Jewish personnel to the Senior Jewish Chaplain to HM Forces and may therefore approach CMs for this information.

c. Private addresses of Active Service Officers may only be disclosed to the Police.

d. Servicemen and women have been consistently advised to maintain anonymity as far as possible in the light of the current general threat from terrorism. Although official mail for Service personnel will normally be addressed to their service address, occasions will arise when this is not possible and a private address must be used. In addition, official mail for retired personnel must, of necessity, be addressed to their private address. Plain envelopes are, therefore, to be used for all official mail necessarily addressed to private addresses and rank and decorations are to be omitted. Mail for individuals serving abroad should invariably be addressed to the BFPO address. Current MOD and RN regulations for despatch of mail to Northern Ireland and to Eire are to be complied with.

9. Memorandum on Service of Legal Process on Members of HM Forces
A memorandum, issued by the Lord Chancellor's Office on 26 July 1979, was prepared for the information of solicitors who might wish, on behalf of their clients, to serve legal process in civil proceedings in the courts of England and Wales on people who are (or who, at the material time, were) regular members of HM Forces. This memorandum sets out the procedure to be followed in respect of enquiries from the plaintiff's solicitor needing to find out where a service person is serving and the assistance they may be given in serving proceedings on the serviceperson. Should a subpoena be received, the relevant Staff Legal Adviser should be consulted immediately.

CHAPTER 59
ASSIGNMENT PRINCIPLES

SECTION 1 - AIMS OF ASSIGNING/CAREER MANAGEMENT

5901. Assigning Role
Career Managers have details of every position available to Naval Personnel either from an Establishment List, CAPPS or General Position, requirement for higher training or a letter of authority for some special or temporary positions. As each position requires filling because of completion of the current incumbent’s assignment, sickness or other cause, or as new positions are created, it is the responsibility of the CMs, within their respective branch teams, to identify and nominate a suitable individual for that purpose. The CMs are aware of the range of personnel available with the correct skill sets and experience and take into account any individual preferences. CMs then match individuals to positions reflecting the principles of assigning set out below.

5902. Career Managers’ Aims
The aims for Career Managers of Naval personnel are to meet, as far as possible, the following requirements:

a. **Endorsed Current and Future Service Requirement.** The needs of the Service override all other factors with the aim of filling positions with suitable incumbents at the right time with the right skills. This needs to be achieved - against a backdrop of change, the emergence of high priority, short notice requirements and reducing manpower - in such a way that gapping and turbulence are minimised.

b. **Exploiting Skills.** To maximise the return on training investment; consolidating any skills acquired after training and to use such skills for the benefit of the Service.

c. **Career Development Needs.** To plan career progression so that best use is made of personal abilities, whilst broadening experience and providing further training, thereby ensuring that their suitability for promotion is developed and can be properly assessed.

d. **Personal Preferences.** To pay due regard to the wishes of individuals for the type, locality and to some extent the timing of their Assignments, noting where possible their personal and family circumstances (guidance regarding accompanied and unaccompanied service can be found in Chapter 25, specifically Para 2504). The primary means of indicating individual assignment preferences to CMs is via JPA (OJAR, SJAR or Electronic C240) (see Chapter 57 and Chapter 58).

e. **Personnel Functional Standards.** To deliver PFS that lie within their area of responsibility (see Chapter 22).
5902. Factors Affecting the Aims

How far CMs can meet the aims depends on a variety of factors but, principally, how much flexibility they have in terms of the number of people available with the right qualifications at the right time, and how pressing the Service requirement is for individuals with particular skill sets. Consideration should also be given to ensuring that increasing levels of Operational tempo and platform deployment lengths are properly balanced with the needs of our people to plan their lives and be provided with satisfying and rewarding careers. Additionally, no move can be considered in isolation - each has a bearing on the others made at around the same time. The CM must achieve the best possible balance across the three aims - an excellent solution in one case will not be acceptable if it results in a poor solution in another.

5904. Personal Wishes

Individuals are not permitted to select or decline assignments, but, where possible, due consideration is given to personal wishes before deciding on a particular assignment.
SECTION 2 - TYPES OF ASSIGNMENT

5905. Introduction

All Career Managers hold a list of positions for the rank or rate within their particular branch that they are required to fill eg. CM OF WAR SM SO2 has a list of dedicated jobs available for Warfare SM Lieutenants and Lieutenant Commanders. Using position information provided and maintained by Branch Managers (see Chapter 62) and Establishments Administrators (see Chapter 2), they have a 'core plot' which includes all sea and shore based positions that can only be filled by personnel of that particular rank/rate and specialisation. As well as these 'core' positions there are a number of other types of assignment available to Naval Personnel. These are described in detail through this Chapter and in the accompanying Annexes; other detail on Positions is provided at Chapter 2.

5906. Specific Types of Assignment

Certain specific types of assignment not covered below are covered separately at Chapter 60.

5907. Command Assignments (Officers)

a. Commands are defined as either Sea or Military, and the latter are classified as either Operational or Training and Support and further sub-divided, where appropriate, into subordinate and sub-unit commands, defined as follows:

(1) Subordinate Command. Command whose authority is derived primarily through delegation from a higher level of command and which may require the officer to assume the powers and duties of the officer assigned in unit command, eg. Executive Officer of a ship or shore establishment and Second-in-Command of a Commando unit.

(2) Sub-unit Command. To be known as “Officer Commanding”. This is further subdivided into:

(a) Operational. Command of an element of a unit capable of conducting independent operations including combat, combat support or combat service support, eg. RM Commando Sub-Unit, Fleet Diving Unit.

(b) Training/Support. Command of an element of a unit which has significant autonomy in the achievement of its outputs, eg. Defence Maritime Logistics School, RN Submarine School, Specialist Wings at CTCRM and the Training Groups at MWS.

b. A definitive list of command assignments, eligibility and selection criteria is at Annex 59A. With the exception of sea command at OF5 and OF6 and certain military commands at OF6, there is no intention to change the policy whereby command in one rank is not a pre-requisite for command or promotion to the next rank.
Sea Assignments

a. For a position to count as Sea Service, account will be taken of the applicability of one or more of the following planning guidelines:

1. A position in a programmable, deployable unit;
2. A position in a unit that routinely attracts LSA payment;
3. A position which has a routine expectation of having a Separated Service level of 122 days (33% of a year) or more per year when averaged over a three year rolling window (although this is not counted as a PFS);
4. A position that is mandated as unaccompanied;
5. An activated crisis position.

b. The guidelines listed above encapsulate RN personnel serving in Ships, Submarines, Units of 3 Commando Brigade RM, Front Line Naval Air Squadrons and Ship’s Flights, together with positions that have significant deployable or heavily separated aspects, such as Special Forces and nominated Sea Riders. Those personnel serving in shore positions overseas on Op Tours (including British Indian Ocean Territory (formerly Diego Garcia), Iraq, Afghanistan and Falklands) will be on Sea Service. Assignment Orders detailing personnel to these designated positions are to show the type of service as "Sea".

c. An assignment to a ship or submarine is not always ‘sea service’; the following details amplify the circumstances when ‘sea service’ will apply to ships, submarines and squadrons.

1. Ships
   a. Sea Service will apply from acceptance date on building, which coincides with its change to ‘B’ Role manning (see Chapter 2), until significant (see below) planned maintenance or paying-off.
   b. For all ships, where the planned length of a Ship’s maintenance or upkeep period exceeds 3 months from Ship’s Staff Move Ashore (SSMA) or Upkeep/Support Start Date (whichever is earlier), to Ship’s Staff Move On Board (SSMOB), the service in between these dates will be considered as Shore service.
   c. Where maintenance or upkeep periods are planned to be less than 3 months (as defined above), if the SSMOB is delayed such that there is equal to or greater than 3 months between notification of delay and revised SSMOB date, the period from 1 month after notification of a delay, to SSMOB will be considered as Shore Service.
   d. When paying-off or going for disposal, Sea Service ceases on SSMA, or on the date of transfer of the hull to a Foreign Navy.
(2) **Submarines**

(a) Sea Service will apply from the start of Power Range Testing (PRT) (or Initial Criticality (IC) for upkeep periods of less than 12 months) until three months after arrival at port for upkeep or preparation for disposal.

(b) In the event of upkeep periods of less than 12 months, if the PRT date or IC is delayed such that the time from 3 months after arrival to the revised PRT or IC date exceeds 12 months, then Sea Service will cease one month after the date of notification.

(3) **FAA Positions.** Sea Service will apply to:

(a) Ship’s Flights.

(b) Front Line Squadrons.

(c) Certain support units to Front Line Squadrons as designated by Fleet N1.

5909. **Changes to Sea/Shore Indicators**

It is a NAVY PCAP-PPLAN ESTAB WO1 function to change the Sea and Shore indicators in JPA. CMs will then use these indicators to determine the dates of Sea and Shore Service.

5910. **Shore Assignments**

Positions designated Shore Service are defined as those that are assessed not to qualify as Sea Service under the above guidelines, nor as LFS under the definition below. This definition captures ships and submarines in long upkeep and air squadrons that are changing airframe over a protracted period, together with conventional shore Positions. This includes service in Emergency Relief Pools (until activated).

5911. **Local Foreign Service (LFS)**

a. LFS is defined as any assigned Service overseas, including Loan and Exchange Service, in a unit which is not classified as being on Sea Service. This includes all Diplomatic (ie. Embassies and High Commissions) and NATO posts, and national units such as RN Gibraltar; it excludes service in the Falklands, the Balkans, British Indian Ocean Territory (previously known as Diego Garcia) and other Op Tours.

b. Guidance for LFS volunteers, their Line Managers and COs can be found at Annex 59B.

c. Guidance for Career Managers on all types of LFS, including Attaché and Embassy Support Staff positions, can be found at Annex 59C.
5912. Augmentation/Dual and Donor Billets

a. Augmentation is an element of Force Generation and is the temporary re-deployment of individuals (regular, reserve or civilian) to wherever they are needed to meet directed operational Military Tasks, Exercises and Events that cannot be achieved within peacetime establishments.

b. Full details of the Augmentation Policy for the Naval Service, including direction on funding and phases of the augmentation process can be found at Annex 59D.

c. There are 2 types of augmentation which are currently used to achieve the filling of positions for Force Generation and Operations; they are Planned Augmentation and Unplanned Augmentation, which are explained in the following sub-paragraphs.

d. Planned Augmentation. Planned augmentation is the filling of operational positions in a pre-planned response to Force Generation. It is achieved by redeploying personnel filling specially annotated, lower priority, peacetime positions to pre-identified crisis positions. Details on how these positions are defined and managed are in Annex 2D. The positions are split into 2 categories, both associated with Crisis (M role) positions:

   (1) **Donor Positions.** Donor Positions indicate that the incumbents of these positions are available for assigning to any Crisis (M role) position once activated. There is no annual training commitment although an individual in this category may be called upon periodically to augment a unit during an exercise. Personnel assigned to these positions are made aware of this additional responsibility by instruction in their Assignment Order to their routine assignment. A donor augmentee is at 20 days’ notice.

   (2) **Dual Assignment Positions.** Dual Assignment Positions are billets that are pre-matched to a specific M role crisis position. The incumbent is assigned to the dual assignment position at the same time as being assigned to their routine assignment position. Remarks on their Assignment Order will provide details of the Dual Assignment. Dual Assignees may be required to undergo induction training and/or attend exercises for their dual assignment. If a nominated Dual Assignee is not available for any reason, the providing unit is initially responsible for nominating a suitable replacement. A Dual Augmentee is at 10 days’ notice.

e. Donor and Dual Assignment Positions are indicated in JPA with a ‘Y’ in the ‘A Type Donor’ box. Dual position information can be found under ‘Additional Detail’ on the JPA position front page. A CM guide to actions required for Dual and Donor positions is at Annex 59D Appendix 6.
f. **Unplanned Augmentation.** Unplanned augmentation is the filling of operational positions, usually at short notice, for which there is no established position eg. ongoing operations. These positions are apportioned to the Naval Service by the Defence Augmentation Cell (DAC) and it is the responsibility of ACOS(PCap) Pers Plans to co-ordinate actions to provide a fill for the position. Initially ACMP will approach CMs (of both regular and reserve personnel) in order to provide a Service Person however, in the few circumstances when there is difficulty finding a suitable candidate, or a candidate cannot be found within the timescales required the Higher Readiness Cadre is activated.

1. **Higher Readiness Cadre (HRC).** The HRC provides a manpower resource to ensure that unplanned operational requirements can be met, by retaining selected personnel at high readiness to deploy. Full details of the establishment, employment and activation of the HRC can be found at Appendix 5 to Annex 59D.

2. **Manpower for Non-Crisis Requirements.** Officers, Ratings and Other Ranks may be loaned to other ships and establishments for short periods for participation in events such as major exercises, ceremonial duties, military tattoos and other extraneous events. These are events that the Navy Board has agreed should be met from existing manpower; that is, the manpower Liability does not include any allowance to grow manpower for these purposes. TLBs are responsible for identifying manpower for these events in response to requests by NavSec. More detail on how this manpower is identified and administered can be found at Annex 59D.

5913. **Common and Joint Assignments (CAPPs) and General Positions**

a. **Common and Joint Assignments (Officers)**

1. An integral part of career management is broadening; the means by which an officer grows out of their Specialisation (and, eventually, Branch) and becomes fitted for wider assignments in the higher ranks. Common Assignments (those designated as being suitable for officers of more than one Branch), and Joint Assignments (suitable for officers from more than one service) are an important source of broadening opportunities. They are filled through a competitive process, conducted by NAVY PCAP-CM WF SO1, where CMs bid for positions and the most suitably qualified and experienced person is selected. Opportunity (OPP), Engineering Joint Shared (EJS) and Functional Engineering Shared (FES) positions work in much the same way, except that the competition, conducted by DS Sec or DE&S, is wider - against members of other UK Armed Services or MOD Civilians, for instance.

2. Common and Joint assignments are managed and administered by NAVY PCAP-CM WF SO1, who reviews CAPPs Officer posts at Commander Level and below on a regular basis and who also monitors officer personnel requirements for additional, un-complemented tasks in conjunction with ACMP.
(3) JSP 755 (Tri Service Positions and Assignments – Instructions) gives all the details for junior (Junior Rotational List (JRL)) and senior (Senior Tri-Service Assignment List (STAL)) tri service assignments. All posts in the JRL are held and managed within the wider CAPPS list by NAVY PCAP-CM WF SO1 and co-ordinated through CMs. Jobs in the STAL, as with all senior officer assignments, are managed by NA.

(4) Full details of how personnel are selected for Common or Joint assignments and advice to CMs on the nomination and assigning process can be found at Annex 59E.

b. **General Positions (Billets) (GBs) (Ratings)**

(1) The equivalent ‘joint assignments’ for ratings are known as General Positions or General Billets (GBs). They are managed differently in that they are allocated to a specific branch and rate, ie. rating CM, but can be filled by a rating of any branch, providing that they are the same rate level. GBs are annotated as such in the competency’s column on Unit Establishment Lists.

(2) The filling of GBs to the detriment of designated professional branch positions can be difficult to reconcile when considering which positions must remain unfilled (gapped) when manpower shortages occur. In many cases the efficient running of units, particularly shore establishments, depends heavily on GBs being continuously filled in preference to some branch positions. When CMs are unable to fill all their complemented positions, the available manpower is to be shared between branch and GB positions on a direct proportional basis, eg. a CM with 400 branch positions and 50 GB will fill one GB for every eight branch positions. It is stressed that this formula gives only a rough "rule of thumb" and, in the final analysis, CMs will have to use their own judgement, in consultation with Branch Managers as appropriate, and appreciation of the local requirements of the units to which they assign.

(3) The filling of GBs is the responsibility of the CM to which the position has been allocated. If the CM cannot fill, or continue to fill a GB position, it is to be offered up, initially to other CMs within the wider branch team. If this fails to produce the manpower to fill the position the requirement is to be forwarded to other CMs across all suitable branches. If the billet cannot be filled it remains the responsibility of the allocated CM.

(4) If a GB is filled by another CM they assume responsibility for the position for the duration of the assignment. 3 months notice is to be given prior to the GB being handed back to the ‘owner’ CM. If it is not possible to give this length of notice the maximum possible notice should be given.
5914. Staff Courses and Post Graduate Training

a. Officers and Warrant Officers who wish to be considered as applicants for specific post graduate courses must, in the first instance, consult their CM to discuss the individual circumstances and career planning. Guidance on the courses available and the selection criteria can be found at Annex 59F.

b. Selection for staff courses will be considered by CMs at requisite points in an officer's career. Guidance for selection can be found at Annex 59F.
SECTION 3 - LIABILITY OF PERSONNEL FOR ASSIGNMENTS

5915. Sea Service Liability

a. Personnel who are due for sea service, but whose remaining service is insufficiently long, remain liable for short term assignments - this does not apply to the Submarine Service.

b. Individuals will not normally be assigned to sea service for less than 12 months. This period may be reduced to three months for shortage categories and personnel who have submitted 12 months notice to leave the service.

c. Individuals in the categories below are not to be assigned except on redeployment for war or other emergency:
   
   (1) Until completion of Phase 2 Training.
   
   (2) Whilst on career course for a higher rate.
   
   (3) Whilst on terminal leave.

d. Re-entries. They are to be assigned to Sea Service as if their time outside the Service counted as Shore Service.

e. Personnel Under 17 Years of Age. Officers/Rating/ORs under 17 years of age will not be assigned to operational ships or RM units.

f. Personnel Under 18 Years of Age. The UK has undertaken to take all feasible measures to ensure that members of its Armed Forces under the age of 18 do not take part in hostilities. The UK, however, understands that Article 1 of the Optional Protocol of the UN Convention of the Rights of the Child would not exclude the deployment of members of the Armed Forces under the age of 18 to take direct part in hostilities where:

   (1) There is a genuine military need to deploy their unit or ship to an area in which hostilities are taking place, and

   (2) By reason of the nature and urgency of the situation it is not practical to withdraw such persons before deployment, or to do so would undermine the operational effectiveness of their ship or unit, and thereby put at risk the successful completion of the military mission and/or the safety of other personnel.

   (3) Further guidance can be found in extant DINs.
Shore Service Immediately Before Terminal Leave

a. Personnel being discharged to pension are to spend their last four months on shore service before starting Terminal Leave. For those completing service without qualifying for an immediate pension eg. as a result of submitting an application for Early Termination, the amount of time that individuals will spend on shore service prior to starting Terminal Leave, if granted (see JSP760 Chapter 19 for more details), will be dependent on their length of service from date of entry:

   (1) Under 9 years
       1 month (3 months post-LFS)

   (2) 9 years to under 14 years
       2 months (3 months post-LFS)

   (3) More than 14 years
       3 months

b. Personnel leaving the Service prematurely (eg. as a result of submitting an application for Early Termination), particularly those serving in high priority shore positions or on sea service in shortage categories, may be required to complete their assignments, or part thereof, due to the exigencies of the Service. In such cases, Career Managers will consider applications to defer the individual’s discharge date, in order to allow completion of resettlement activities, in accordance with JSP534 Para 0356.

c. Whenever possible, the final period of shore service will be in the First Main Preference area. For those completing a Second Open Engagement or Extended Career, every effort will be made to assign ratings to shore service, in the First Main Preference area, for the final 6 months of 2OE/EC (if up to 5 years in length) or for the final year of 2OE/EC (if over 5 years in length).

d. With regard to personnel who are approaching the end of their Career/Engagement, Career Managers are to be aware of the potential financial implications of assigning them way from their preference area so as to qualify for Removal Expenses or Disturbance Allowance. Personnel must have an expectation of serving at least 6 months in the establishment or unit to which they are assigned.
SECTION 4 - SERVICE IN SUBMARINES

5917. Priority for SM Service
Whilst many SM branches recruit directly, the Submarine Service has a high priority for manning and individuals are found on a quota basis from New Entrants and General Service. Volunteers are preferred; however, when insufficient numbers are forthcoming, as is often the case, others are compulsorily assigned (ratings) or streamed (officers).

5918. Ratings
On completion of a tour of up to five years’ service, any individual assigned to submarines is entitled to revert to General Service and cannot then be assigned to submarines again for a further tour unless he volunteers or in an Emergency or under War Conditions. Before individuals volunteer for, or are assigned to, the Submarine Service, Divisional Staff and/or Line Managers are to check that the individual is fully qualified in accordance with Chapter 51. Any individual recruited directly to the Submarine Service will not be entitled to revert to General Service but may apply for a branch transfer (see Chapter 51).

5919. Officers
Officers, who do not join the submarine service directly, join with a liability for Submarine Service. They are streamed as required during IWOC on a quota basis (or by the Career Manager for Logs/Med). The entitlement to request a Branch Transfer still applies (see Chapter 51).

5920. Standards

a. The standards of fitness and efficiency required for service in submarines are high. Individuals, whether or not volunteers, who fall short of these standards, are liable to be discharged from the RN (or in some cases transferred to General Service) at any time.

b. It is essential that the Submarine medical (iaw BR1750A Chapter 9) is carried out before the individual is assigned and that the medical documents arrive at the establishment the individual is assigned to for training, in advance of the individual. CMs must be notified of any failure of eligibility on medical or other grounds immediately.
SECTION 5 - SERVICE IN SMALL SHIPS

5921. Small Ships Definition
The term 'small ships' includes the following types of ship/unit:

b. Offshore Patrol Vessels – CLYDE Class.

c. Survey Vessels.

d. Patrol Vessels (including P2000).

e. Naval Parties, 539 Assault Sqn RM, Units and Miscellaneous Vessels whose Complement is less than 50.

f. MASF.

5922. Suitability
Personnel in all branches of the Royal Navy are deemed to be eligible for consideration for service in small ships unless recommended otherwise by Commanding Officers, Line Managers and/or the Chain-of-Command. Except where there is a legitimate medical reason why an officer or rating should be viewed to be unsuitable for service in a small ship, such a recommendation is to be considered as an adverse comment in career management terms. Where an officer/rating is considered to be unsuitable for service in a small ship, in their current or forecast rank/rate, supporting information should be included in that individual’s OJAR/ SJAR. Commanding Officers are to review the status of officers/ratings deemed to be unsuitable for service in small ships not less than annually.

Examples of reasons why an individual may be deemed to be unsuitable for service in small ships are shown below, although the list is not intended to be exclusive:

a. Physically incapable of performing their duties in anything other than benign weather conditions and sea states; in particular is a chronic seasickness sufferer (medical).

b. Judged to be of immature temperament for their age in relation to time in service, peer group and is largely incapable of working unsupervised on anything other than basic routine tasks.

c. Poor disciplinary record.

d. An administrative burden to the extent that they have been placed on warning for their professional and personal shortcomings/circumstances.

e. A significant administrative burden due to previous or extant complex welfare issues requiring specialist casework support.
f. Has spent significant time at sea in a Capital Ship. This is particularly pertinent for JRs where historically many struggle to fit into the small ship environment and ways of working where additional whole ship responsibilities are commonplace.

5923. Assignment Screening
As an underlying principle, CMs are to assume that all personnel are suitable for service in small ships when taking assigning action. However, before taking specific action to assign personnel, CMs are to discuss the proposed assignment with the individual’s current Divisional Officer or Line Manager. The aim of this procedure is not to ascertain the individual’s preference but to determine whether they are suitable for service on a small ship by clarifying whether any of the factors listed above apply. This process applies to all personnel being assigned from Shore to Sea and from large to small ships and includes those who have previously served in small ships. Decisions and suitability recommendations will be recorded in the CRM notes section of JPA by CMs.

5924. Technical Senior Ratings
The Marine and Weapon Engineer Officers of small ships are generally of the WO2/CPO(ET) and CPO/PO(ET) rates respectively. They are required to perform the duties of a Head of Department and it is therefore essential that they have displayed the qualities of leadership and management that will suit them for this role. In addition to not having any of the characteristics at Para 5922 above, technical Senior Ratings being considered for duties as MEO or WEO of a small ship should:

   a. Be confirmed as a WO2/CPO(ET) (for MEO) and CPO/PO(ET) (for WEO).
   b. Have completed the Senior Rates’ Leadership Course.
   c. Be adaptable, flexible and display a general interest in whole ship affairs.
   d. Be capable of running the ME/WE Department with only infrequent supervision by shore-based staff, liaising with outside authorities as necessary.

5925. Removal of Unsuitable Ratings Serving in Small Ships (Landing)
The criteria at Para 5922 or the rating’s personal preference against service in small ships are not considered conditions for landing in themselves. The guidance at Para 6006 (Removal from Assignment) should be followed in making an application to land a rating deemed unsuitable for service in small ships.
SECTION 6 - LENGTH OF ASSIGNMENT

5926. Variations in Length of Assignment
The normal length of assignment for Career Management planning purposes are detailed at Annex 59G. Assignments for Senior Officers tend to be longer and will be discussed on a case by case basis. For sea assignments there is considerable variation depending on rate, rank and branch. In general, sea assignments will be made as long as possible, to make effective use of manpower by reducing the number of turnovers required and to give all personnel the maximum opportunity for serving at sea.

5927. Royal Marines
For RMORs, NCOs and RM WOs assignment lengths are ideally iaw Annex 59G, however assigning at an individual's Future Availability Date, (FAD, see Para 5937) is not automatic and will require an assigning trigger. These include:

a. Service requirement for the individual to serve elsewhere.
b. Service requirement for an individual to undergo specialist training.
c. The individual requesting to serve elsewhere.
d. The need for WOs and NCOs to gain the necessary experience.
e. The need to make way for others in a popular assignment.
f. A request by the CO to assign the individual in order to broaden experience.
g. Promotion within the individual's specialisation.

Should none of these triggers be applicable, the individual may request to remain in a unit beyond his FAD.

5928. Service Family Accommodation
For Service Family Accommodation entitlement, CMs should ensure that an assignment would be for at least 6 months and the FAD on the individual’s next assignment should reflect that. See Chapter 25 and JSP464 Tri Service Accommodation Regulations, Chapter 3.
SECTION 7 - SENIOR RATE EMPLOYMENT PATTERNS

5929. Factors
Senior Rate employment patterns will be determined by the needs of the Service coupled with those of the individual. It is of fundamental importance that the individual management of Separated Service is recognised as the primary vehicle for the delivery of Harmony on both Sea and Shore Service. The actual time spent in any assignment will vary according to rate, specialisation and current shortages. Any decision to breach Cat A PFS harmony guidelines (see Chapter 22) must be made by the relevant CM and authorised by DACOS Career Management.

5930. Sea Service
a. Sea Service may be extended as follows:

   (1) 36-39 months Sea Service:
        SO2 Ratings’ Career Managers.

   (2) Over 39 months Sea Service:
        DACOS Career Management.

b. Extensions to 39 months will be applied only in order to preserve Operational Capability (OC) or where an individual requests to do so. Capability gapping will be deployed where necessary to ensure that back-to-back sea assignments (60 to 72 months) are only implemented exceptionally and where an overriding requirement dictates. Authorisation of back-to-back sea assignments rests personally with DACOS CM; such assignments will attract 24 months on Shore Service in the individual's First Preference area, provided that preference does not change within 12 months of FAD (PFS Category A iaw Chapter 22).

c. Requests by the individual for extensions to sea going assignments over normal maximum length and requests to return to the same ship must be supported explicitly by the unit’s line-management.

d. The management of extended and back-to-back sea assignments will include consideration of those individuals who, exceptionally, undertake a length of Sea Service between 36 and 60 months, and thereby do not fit exactly into the template that dictates 18 or 24 months on Shore Service. Each case will be dealt with on its merits and no discrimination will be made between volunteers and non-volunteers.

e. Assignments of less than 36 months’ Sea Service will be the norm for specialisations with a relatively small number of Sea positions, in order to ensure that sea experience is gained by all personnel in that rate. It follows that such categories are likely to receive more than the minimum of 18 months subsequent Shore Service, although 18 months will be their SAVDATE (see Para 5940).

f. Assignments of less than 36 months’ Sea Service are also dictated by the role of the unit or the rigours of a particular type of employment. Following a period of non-standard Sea Service, individuals will be assigned to Shore Service for a period approximately proportional to the standard 36 months Sea / 18 month Shore Service ratio (as a minimum).
SECTION 8 - JUNIOR RATE/RANK EMPLOYMENT PATTERNS

5931. Factors
A rating’s service generally alternates between sea service and shore service with the assignment roster placing them in order of Sea Availability Date (see Para 5940).

5932. Squadded Categories
Junior Rates serving in Squads will normally have their FAD set at 48 months. This is to be considered as a review point which will be extended by a further nominal 48 months. Ratings may leave the Squad on promotion, on attendance at a Qualifying Course for a higher rate and on assignment to a non-Squad position. Those serving in a Squad in a non-preference area will be reviewed regularly by CMs in consultation with WMOs; Junior Rates should not normally serve more than 24 months in a non-preference Squad. Any rating assigned to a different Squad will retain their original FAD.

5933. Squadded Categories Outside Squads
There will always be a requirement for squadded categories to serve in non-squadded ships, OpTours and in other shore Positions. Volunteers are always preferred, but where there are insufficient numbers, ratings will be selected by CMs, depending on the length of the non-squad assignment. Where possible, ratings will be returned to the squad from whence they came.

5934. Non-Squadded Categories
For Junior Rates who are liable for Sea Service, the employment pattern will vary according to rate, specialisation and current shortages. Harmony will be managed iaw PFS harmony guidelines (see Chapter 22); any decision to breach the Category A PFS harmony rules will be made by the relevant CMs and authorised by DACOS Career Management.

5935. RM Selection for Sea Service
The requirement to provide RMORs for sea service is currently limited to the Antarctic patrol vessel and RM Assault Squadrons. Manning liability for all sea service remains the responsibility of the PCAP(RM) team who will select the appropriate manpower in accordance with current manning priorities. Volunteers are to be used where possible and applications for sea service are to be submitted using JPA. If no volunteers are available, the individual chosen must be carefully vetted and selected in accordance with Section 5 of this Chapter.
SECTION 9 - TYPE/STREAM ASSIGNING (RATINGS)

5936. Policy and Practice

a. It is 2SL’s policy to maximise the use of a rating’s experience by TYPE and
   STREAM assigning whenever possible, thereby improving operational effectiveness:

   (1) **Type Assigning.** Type Assigning is defined as the allocation of a rating
       to a specific type of ship, submarine or aircraft squadron for a protracted
       period.

   (2) **Stream Assigning.** Stream Assigning is the allocation of a rating to a
       particular equipment system within a sub-branch.

b. Most ratings in the Warfare Branch are placed in equipment streams in the
   final stages of their basic training to meet the expected long term requirements of a
   sub-branch, and whenever possible, personal preference. Ratings may be required
   to cross-stream to meet the changing needs of the Service (introduction of new
   systems, for example) and a rating may volunteer to change streams, but such
   requests are not normally approved unless the cross-training meets the
   requirements of the service.

c. It has to be accepted that Type/Stream assigning cannot be rigidly imposed.
   Requirements and preferences change and there is a need to protect the careers of
   ratings streamed into ageing equipment. Nevertheless, the advantages of
   maintaining ratings in types/streams are considerable in terms of reduced training
   bills, increased stability and, most importantly, in improving overall Professional
   standards, particularly ship/submarine and equipment knowledge. All ratings have
   an important part to play in fighting the ship/submarine, and in recognition of this,
   type assigning is applied wherever possible to all categories in the Royal Navy.
SECTION 10 - AVAILABILITY DATES

5937. Future Availability Date (FAD) Usage
All Assignment Orders (AOs) should include a FAD. CMs should attempt to honour it to allow individuals to plan ahead, however, personnel should note that a FAD is an estimate and there is always a risk that an urgent Service requirement will force the adjustment of a FAD. It should also be noted that the FAD given to an individual on commencing their assignment assumes a satisfactory performance on the part of the individual concerned. For officers, non-Squadded ratings on Sea Service and all personnel on LFS, the FAD will generate the requirement for a relief.

5938. FAD and Assignment Orders

a. Arrangements for an individual’s next assignment can only be made once an AO for that next assignment has been received; on no account should the individual or the admin staff of their current unit make arrangements for travel, allowances, leave or SFA entitlement at a planned new position based on the FAD of their current assignment. It is the AO that provides the authority for such items and not the FAD.

b. FADs for all personnel assigned to sea service will be calculated by taking the date a person commences that type of service and adding the length of sea service in accordance with Annex 59G. The FAD will not necessarily indicate the date when the commitment for sea service is completed, i.e. it is less than 36 months for ratings, and an AO may be issued to move the person to another unit to complete sea service. Ratings may volunteer to continue on sea service beyond 36 calendar months.

c. For Squadded rates, the FAD should be considered as a “Review” rather than a “Relief” date.

5939. Availability Date (AVDATE) for Assignment (Ratings)

a. AVDATES are only to be rendered by non-Squadded personnel on the following occasions:

(1) On receipt of an Assignment Order nominating a relief for a rating serving on sea service or LFS.

(2) When a 'Name To be Reported' Assignment Order or other information is received, that a rating serving on Sea Service or LFS is to be drafted without a relief.

(3) When a complement position lapses and the position is filled.
b. The AVDATE is to be calculated as the date when the rating is next available for assigning to a new position having had all leave due. This is the date used by the CM for the ‘To Join Date’ (TJD) for the next assignment including any approved re-engaging leave (for those still with entitlement), but it will not normally include any ‘traditional’ annual leave eg. Summer leave. It is the date that will be used by ACOS(PCap) for the ‘To Join Date’ (TJD) of the rating’s next assignment where they will take any ‘traditional’ annual leave.

c. The AVDATE to be reported by signal (RNCP 9 Ch 5) or by email such that they are received by the Career Manager at least four months before the rating is due to leave their present assignment. Failure to render the AVDATE by four months at the latest will engender unnecessary signals/email traffic as the CM seeks to establish a rating’s AVDATE and in any event will prejudice any chance of the rating being given their full three months’ notice for next assignment.

d. The total amount of Leave (both Annual Leave and Sea Leave) between assignments should be kept to an absolute minimum and should not exceed a total of 21 days. If the reported AVDATE is likely to exceed 21 days Commanding Officers are to request approval for an AVDATE in excess of 21 days by signal to the appropriate SO1 CM stating the reasons for the accrual of excessive leave. If approved, the CM will take assignment action based on the amended AVDATE.

5940. Sea Availability Date (SAVDATE) (Ratings)

a. All non-Squadded categories will be deemed available for Sea Service on completion of PFS Category A or B Shore Service (see Chapter 22). This point is defined as the Sea Availability Date (SAVDATE).

b. An individual’s FAD on Shore Service may be later than the SAVDATE, nevertheless, they may be assigned to Sea Service earlier than the FAD if the needs of the Service dictate.

c. The SAVDATE determines a rating’s position on the appropriate sea roster (see Para 5941), which is presented by JPA in SAVDATE order, showing at the top of the roster the individual who has the earliest SAVDATE.

d. Non-Squadded rates will, in general, complete 36 months’ Sea Service and be entitled to 18 months’ Shore Service (14 months for Junior Rates) on completion. Any variation is to be assessed pro-rata ie. 24/12, 18/9 etc. and the individual’s SAVDATE adjusted manually on JPA.

5941. Sea Roster (Ratings)

a. New entries are available for their first sea assignment (FSA) from the date of completion of Phase 2 training. For Submarine ratings, this will be when they have successfully completed the Submarine Qualification (SMQ) Dry. Ratings in Squadded categories will be assigned direct to Sea Service; others may be assigned to a period of Shore Service for consolidation before FSA.
b. Ratings on Shore Service/Local Foreign Service are placed on sea rosters in order of SAVDATE. Sea positions must be filled by appropriately qualified ratings who will normally be chosen from those highest in the roster. However, because some ratings are trained in only one system or equipment type, (Type 'Streaming', see Section 9 to this Chapter) it therefore follows that the first rating due to sea may not be qualified for the position requiring to be filled. Personal qualities and professional standards are considered only when special selection procedures are authorised (eg. Retinues).

c. Moving down the roster to match the right individual to the right job in this way is known as “dipping down” the roster and can be invoked for a number of reasons. It is important that ACOS(PCap) maintains its reputation for fairness and therefore CMs are to be able to justify any dipping down decision if called upon to do so. The following guidelines are issued to assist CMs.

d. **Dipping Down to SAVDATE.** Dip down to the first suitable rating in order to:

   1. Match an individual’s training/skills to the sea position, particularly when this will negate the need for extensive PJT courses or retraining the rating for a different ship or equipment type. This is known as “Type/Stream Assigning”.
   2. Meet the requirement to fill a female bunk with a woman, and vice versa.
   3. Meet an individual’s preference.
   4. Exercise an element of selection for the position, ie. to assist the career progression of a rating.

e. **Dipping Down Below SAVDATE.** Assigning an individual to sea service before they have achieved their entitlement to shore service is not permitted except when:

   1. The rating is an EOOT volunteer for sea service.
   2. The relevant SO1 CM has given express permission to meet a manning priority or Operational requirement.
SECTION 11 - NOTICE FOR ASSIGNMENT

5942. Officers

a. CMs normally aim to issue an AO six months before the position is to be taken up. However, this is not always possible, and some assignments may be announced before or after this. The normal minimum notice is at least three months' notice for a home base assignment and a minimum of five months' notice for non-home base or LFS assignments in accordance with PFS (see Annex 22A).

b. If it is necessary to change an assignment after an officer has been nominated for a particular job, the change will, where possible, comply with these requirements for notice. Exceptions to these normal guidelines may be necessary following initial training, qualifying courses, annual promotion selections, or when shorter notice is in the interest of the officer. In all cases it should be remembered that one short notice assignment almost always generates another.

c. When for sickness or some other reason personnel are unable to carry out the duties of their position, a relief is provided only if the expected duration of the absence exceeds three months, unless the position is considered a key position, when the rules for short notice may apply (see Para 5945).

5943. Ratings

a. The policy is to provide as much notice of assignments as practical and at least 3 months' notice for a home base assignment and a minimum of 5 months' notice for non-home base or LFS assignments as required to meet the PFS standards (see Annex 22A). There will be occasions when normal assignment notice cannot be achieved for exceptional operational or resource reasons. In such circumstances, assignment will take place at shorter than normal notice. This will usually only occur for assignments into operational crisis positions, which are generally for a maximum of 6 months’ duration. Any resulting breach of Cat A PFS is to be authorised by DACOS Career Management, reported up the chain of command and reflected in the Performance Reports to the Navy Board.

b. This notice is waived for assignments to PJTs or other short courses when the course schedule precludes three months’ notice and when medically downgraded ratings are assigned ashore they may be required to act as temporary reliefs at short notice to relieve ratings assigned from the ERP (see Para 5947).

c. Volunteers. Ratings may volunteer to move at less than normal notice to obtain a preference assignment.
d. **Notice on Completion of Career Training.** Ratings completing basic career training ashore are liable to be detailed for shore assignments and first sea assignments at less than normal assigning notice. Submarine ratings who volunteer to complete Nuclear Propulsion Operators Course (NPOC) and the Nuclear Propulsion Supervisors Course (NPSupC) will be assigned back to sea on successful completion of the course at less than normal assignment notice. Ratings transferring between Branches or Sideways entrants who fail to pass appropriate courses and are returned to Source Branches will also be assigned at less than normal notice.

e. **Notice on Completion of Career Course Training.** Ratings completing career courses are liable to be assigned to sea or shore units at less than normal assigning notice.

5944. **General**

a. Individuals who have left their previous assignments for medical, welfare or discipline reasons will be re-assigned as soon as their condition permits. The assignment will normally be at less than the assignment notice. Those that left a unit in ‘Sea Service’ may have to wait for another suitable ‘Sea Service’ unit to become available and as a result may be assigned at immediate notice and not be subject to the normal notice for assignment instructions above.

b. Assignment notice for personnel with the assignment restriction for Children with Special Educational Needs should be as great as possible.

5945. **Short Notice Assignments**

a. The aim is to give an individual notice of an assignment iaw the above paras. However, personnel should be aware of the regular demand for short-notice assignments generated, for example, by operational augmentation, illness, promotion, welfare or discipline matters which may significantly reduce the normal assigning notice.

b. CMs are constrained by assignment and harmony rules. In general, it will not be possible to assign a permanent relief at less than 5 months’ notice; CMs therefore treat all requests for short notice assignments as a temporary requirement in the first instance.

c. Personnel who are medically downgraded for less than 3 months will not routinely be found a relief.
d. When an event occurs which creates an operationally unacceptable gap the following actions are to be considered in turn:

1. **Managing Without a Relief.** The importance of managing without a relief is emphasised and places an onus on units to make the most effective use of on-board assets to provide alternative cover, particularly in key Positions. For example, using local acting advancement where applicable, greater emphasis on the employment of personnel onboard who hold relevant Competencies and arranging ‘ad hoc’ training, such that these personnel can undertake all/some of the tasks. CMs can advise and assist in the identification of personnel who may be suitably qualified by competency

2. **PERREQ.** PERREQ signals should be used during both Fleet Time and Non-Fleet Time when a unit has advanced warning of a forthcoming gap or manning deficiency, or for highlighting gaps in Squad billets. For example, if the RPO needs to be released in 2 months’ time to attend the FDO course, a PERREQ should be raised so that a temporary relief can be investigated to cover this period. Similarly, the gapping of 1 or 2 ABs in a Squad does not impact directly on Unit OC and therefore does not warrant OPDEF status but can be highlighted by use of the PERREQ signal.

3. **Personnel OPDEF.** When a manning deficiency is imminent (or has already occurred) and will have an impact on the unit’s OC during Fleet Time or impact on Upkeep key dates (SSMOB, RFSD and FD) during Non-Fleet Time, an OPDEF is to be raised. The cause could be gapping (hard and/or soft) or a lack of an ADQUAL / TEM that is affecting a unit’s ability to deliver OC. OPDEFS are to be categorised ME, WE, AR, and OP and numbered iaw normal OPDEF protocol.

*Note.* Whilst a PERREQ may in time become an OPDEF (when the gap actually occurs), the simultaneous raising of a PERREQ with an associated OPDEF is nugatory and no longer required.

e. The relevant CMC/CM is responsible for taking the initial actions in attempting to resolve all personnel PERREQs/OPDEFS. NAVY PCAP-OPS, in conjunction with Commitments and the appropriate FCIG, will set the overall priorities and where required provide direction on the solution

### 5946. Guidance for CMs on Provision of Short Notice Reliefs

a. If a position is identified as requiring a short notice relief CMs are to take the following into account:

b. The length of ‘gap’ that is acceptable, eg. is there someone already in the ship/unit capable of filling the position for a limited period?

c. The requirement for maximum advance warning for the person selected as relief.
d. The requirements for the relief to be given as much of the appropriate leave entitlement as circumstances allow.

e. The desirability to select personnel for short-notice sea-going or overseas unaccompanied assignments from those who will shortly be due for such an assignment in the normal course.

f. Any short notice assignment having significant operational implications should be referred to DACOS Career Management so that the matter can be referred to ACOS(PCap) if necessary.

5947. Emergency Relief Pool (ERP)

a. For ratings, to provide short notice reliefs when required, there is an Emergency Relief Pool (ERP) for surface ships and submarines. Squadded rates are not included in the ERP as the Squad System provides emergency reliefs from a unit’s own non-deployed Squad.

b. The equivalent for the Fleet Air Arm is an Emergency Flight Pool (EFP) but this is an assignment in its own right and is not covered by ERP regulations.

c. **ERP Selection Procedure.** Ratings who complete a sea assignment of less than 36 months will be allocated to the ERP on completion of Leave After Sea Service (LASS) (ERP applies to ships and SMs, the term SMERP is no longer used). There is currently no method of assigning a rating to the ERP on JPA, therefore, they will continue to be notified by letter detailing the start and end dates of the ERP liability and the maximum length of ERP sea service. These details of their allocation to the ERP will be recorded in JPA. Exceptionally, Royal Naval Police and PT Branch personnel may continue to be allocated to the ERP immediately before an assignment to a ship, thus ensuring that any pre-joining training is not wasted. Ratings whose branch structure routinely dictates a sea assignment of less than 36 months may be warned on their assignment order that they will be allocated to the ERP on completion of the assignment.

d. No individual will be allocated to the ERP for more than three months and, if activated, their activation will not last for more than 6 months. For those serving less than a 36 month sea assignment, the following table applies:

<table>
<thead>
<tr>
<th>Length of Sea Assignment</th>
<th>Maximum Sea Time if Activated (39 months max sea assignment)</th>
</tr>
</thead>
<tbody>
<tr>
<td>&lt;33 months</td>
<td>6 months</td>
</tr>
<tr>
<td>33 months</td>
<td>6 months</td>
</tr>
<tr>
<td>34 Months</td>
<td>5 months</td>
</tr>
<tr>
<td>35 Months</td>
<td>4 months</td>
</tr>
</tbody>
</table>
e. When calculating the length of sea service for the purposes of determining the maximum time to be placed in the ERP, the sea service will be deemed to have ended when an individual leaves their unit to go on LASS.

f. The ERP period will normally start on the AVDATE provided by the discharging unit, ie. on completion of LASS.

g. Eligible ratings are liable for only one emergency relief assignment on completion of their normal sea service assignment. They will not, therefore, return to the ERP even if an emergency relief assignment was for a period of less than three months.

h. General Service ratings will be at 7 days Ready To Move (RTM), Submarine Service ratings at 48 hours RTM notice. To this end ratings are to meet the following requirements:

   (1) Be ready in all respects to join a ship or submarine within the notice period. This is to include Medical and Welfare aspects as well as the availability of kit etc.

   (2) Possess a current passport with at least one year before expiry.

   (3) Provide full and accurate contact details of all leave whereabouts on JPA.

   (4) Ensure that adequate transport arrangements have been made to achieve a return to their current parent unit within 5 days (GS) or 12 hours (SM) of notification of recall.

i. Employers are to ensure that adequate arrangements are in place to deal with recalls over the weekends and leave periods.

j. ERP activation will be controlled by NAVY PCAP-OPS.

k. To minimise the gapping of positions ashore, and as a general aim, ratings who require an Emergency Relief will be temporarily assigned to the shore position from which their relief came. Clearly the achievement of this aim will depend on the particular circumstances pertaining, which could well be dictated by, for example, medical or compassionate area restrictions. Therefore, ratings who are temporarily assigned ashore due to medical or welfare downgrading may be assigned as a temporary relief at short notice to relieve the rating assigned from the ERP.
5948. PE-OPDEF and PERREQ Procedures

a. PE-OPDEFs and PERREQs are to be used by all units to report current and future personnel shortfalls that affect Operational Capability (OC) in order that the operational implications can be properly assessed, and recovery intentions formulated. The People Capability Operations (PCap Ops) team in ACOS PCap’s Division has the lead for recovery action and uses the information detailed in the PE-OPDEF or PERREQ to engage with the Operational Commander and relevant Force Generation Authority (FGA), to monitor, manage and, where necessary, move personnel to meet emergent demands. In addition, the detail, in conjunction with the wider Manpower, Equipment, Training and Sustainability (METS) reporting, is used by the Operational Commander to inform broader decision-making.

b. It should be noted that PCap Ops is only authorised to direct personnel moves in response to an extant PE-OPDEF or PERREQ. Usually a PCap Ops directed move is temporary, i.e. the nominated individual(s) will return to their original assignment at the end of the agreed period. Where a permanent move is more appropriate, this will be agreed and actioned by the Career Manager (CM).

c. PE-OPDEFs and PERREQs are sent by e-mail and can be raised at any stage of a unit’s lifecycle (build, Fleet Time and Upkeep), but only against positions that drive liability in accordance with the extant Unit Personnel List (UPL). Gapped ‘Non-Liability’ positions are not to be reported by PE-OPDEF or PERREQ.

d. PE-OPDEFs.

(1) PE-OPDEFs should be used to report when the manning state falls below the UPL requirement. In general, if a position is currently not filled by a Suitably Qualified and Experienced Person (SQEP), which has a measurable impact on OC, or is expected to be gapped within 72hrs, then a PE-OPDEF should be raised. The PE-OPDEF should contain details of factors affecting the unit’s tasking, the expected duration of the manpower shortfall and other PE-OPDEFs/PERREQs which now present a cumulative impact, and the impact should also be assessed with a view to any contingent tasking. Care must be taken to ensure that any reference to programme Ship attributable Directed Task (DT) activity does not compromise the OPSEC of the unit concerned.

---

1 In the same manner that Equipment Capability is managed iaw BRd 3001, Art 0301.
2 When a unit transitions into and out of Upkeep, it will usually change Naval Establishment Status (iaw Annex 2B) which will entail positions on the UPL being switched on and off (reflected in JPA). Only ‘live’ positions can be subject to PE-OPDEF and PERREQ action.
3 I.e. the unit can write a meaningful statement in the PE-OPDEF Line 5 – Effect on OC.
4 FTSP results in notice for sea reduced to 48hrs PE-OPDEF would be Cat B increasing to A when notice for sea in reduced.
(2) Any gapped liability position that has a measurable impact on OC can be reported by PE-OPDEF. If a unit considers itself capable of sustaining such a gap, irrespective of Category, due to its current tasking or alternative SQEP onboard, the unit should make this clear in the PE-OPDEF remarks section, noting that if circumstances change it may be appropriate to raise a PE-OPDEF SITREP stating that the unit can no longer sustain and immediate remedial action is now required.\(^5\)

(3) Where a position on board is filled but the incumbent has a Training Employment Modules (TEM) (the Q in SQEP) shortfall which has been accepted at risk by Command and/or relevant FGA, this should be reported via Fleet Operational Capability and Sustainability (FOCAS), not by PE-OPDEF. Any SQEP shortfalls arising from using the Local Acting Higher Rate (LAHR) as a temporary PE-OPDEF solution are accepted by Command, given that it is they that raise the promotion acceptance request to PCAP CM. These shortfalls are reported by FOCAS. Where SQEP shortfalls are not accepted by DDH for permanent reliefs and have a measurable impact on OC, OP-OPDEFs\(^7\) may be raised. The responsibility to drive a solution for a training shortfall rests with the Unit in consultation with CMs and Flotilla/Squadron. Any OP OPDEFs raised as a result of manpower shortfalls should be copied, by email, to the PCAP OPS mailbox and the relevant CM mailbox.

(4) Units that do not use FOCAS (eg. SMs) should ensure that their FGA is fully aware of any SQEP shortfalls that exist.

(5) All PE-OPDEFs for units/formations/establishments are to be sequentially numbered and raised on one central register and given the designator PE\(^8\), eg. PE 01-19. EWOs/Cox’ns are the responsible persons for all manpower coordination and it is therefore mandatory that they provide the quality assurance on all PE-OPDEFs and PERREQs as the custodian of the central register for their unit(s).

(6) Detailed instructions and the format for PE-OPDEF reporting are at Annex 59J.

(7) In instances where a gap is resolved by the use of the LAHR from within the same unit\(^9\) then the original PE-OPDEF should be SITREP-ed, and downgraded with the remarks highlighting what solution has been provided to resolve the gap. A PERREQ may be raised for the gapped position vacated by the officer/rating given the LAHR. The original PE-OPDEF should remain extant until the position is filled by a substantive rate. No PE-OPDEF is to be raised for the gap created by the use of LAHR. This avoids false reporting of gaps.

---

\(^5\) To mitigate this risk, personnel may be held at appropriate readiness in the UK to meet such contingent tasking rather than being “churned” to join the platform unnecessarily.

\(^6\) Concessed law BRd 9147.

\(^7\) Signal format iaw BRd 3001, Ch 3.

\(^8\) The master record of all OPDEFs is the OPDEF Database where each entry requires a unique OPDEF number.

\(^9\) IAW Para 6916.
e. PERREQs.

(1) A PERREQ is used to request cover for key personnel who are scheduled to be away from a unit for a short period; it is expected that these gaps can be forecast as they relate to planned events (eg. TEMs, Short Course learning, Paternity Leave). It can also be used to draw attention to future assignment issues (eg. gaps in succession planning, personnel selected for promotion Upper Yardman (UY)/Senior Upper Yardman (SUY) etc.). If the unit is able to sustain the gap, then this should be made clear in the text and investigations will be limited to volunteer solutions. If the PERREQ will become a PE OPDEF then that fact, and the date on which that is expected to happen, should be in the remarks section of the PERREQ.

(2) If a PERREQ cannot be resolved and starts to impact OC (a predicted gap becomes a current gap), it may be escalated to a PE-OPDEF. In such a situation, the PERREQ should be cancelled and comments reflecting that the PERREQ is superseded by a PE-OPDEF should be included in both the cancellation e-mail and the new PE-OPDEF remarks sections.

(3) **PERREQs for Leading Aircraft Controller (LAC) or Low Level Height Keeper Target Control (LLHKTC).** The instructions for ships to request assistance from an appropriately qualified Aircraft Controller\(^{10}\) are no longer supported and therefore all units that require the assistance of an LAC or LLHKTC are to use the standard PERREQ instructions noting the specialist e-mail addresses\(^{11}\) that must be included.

(4) The detailed instructions and format for PERREQ reporting are at Annex 59K.

f. Advice and Guidance.

(1) **Permitted Absence.** Individuals released by Command to Annual Leave Allowance (ALA), Graduated Resettlement Training (GRT), Adventure Training (AT) or Personal Development (PDev) should not normally be reported via PE-OPDEF as the unit has decided that the absence of the individual is acceptable within the operational scenario. If relief cover is required, this should be reported by PERREQ, complete with explanatory comments as to why the current incumbent has been released, but would normally be filled by a volunteer only.

\(^{10}\) BRd 1043(General) Chapter 8, Article 0815.c. Height Keeper Target Controller Assistance.

\(^{11}\) Detailed at Annex 59K.
(2) **Compassionate Leave.** Whilst Commanding Officers are authorised to grant compassionate leave\(^{12}\), in complex cases where specialist welfare input is required the advice and guidance of Royal Navy Royal Marine Welfare (RNRMW) should be sought, initially from RNRMW Portal, who if required can investigate and provide a recommendation\(^{15}\). In cases where the CO grants compassionate leave a PERREQ can be submitted, but units should note that in such instances the position will normally only be filled where there is a volunteer. If following liaison with the Joint Casualty and Compassionate Centre (JCCC) the compassionate travel is categorised as Cat A or Cat B\(^{14}\), then a PE-OPDEF may be suitable, depending on the anticipated length of absence and whether the unit can sustain the gap. In either case, close liaison with the appropriate PCap Ops Forward team is essential to enable contingency planning.

(3) **Occupational Paternity Leave (OPL)**\(^{15}\). Whilst the CO has a degree of discretion when awarding OPL, it is a Cat B PFS statutory entitlement and as such personnel should be released whenever possible. A PERREQ is to be raised as soon as OPL is requested, however, if a volunteer cannot be found the request is unlikely to be filled as it would break a non-volunteer’s Cat A PFS statutory entitlement. If a suitable relief is not available and the unit is instructed to sustain, it may be appropriate to raise a PE-OPDEF to reflect the impact on OC of the individual’s absence, noting that if the absence creates an unsustainable high Category PE-OPDEF then it is probably not appropriate to allow the OPL at that time; of note, in this situation the individual on OPL is likely to be the solution to the PE-OPDEF.

(4) **Cumulative Impact of Gapping.** The cumulative impact of gaps may exceed their individual impact as described in the PE-OPDEFs\(^{16}\). This should be raised as a capability OP-OPDEF signal\(^{17}\) and not as a PE-OPDEF.

(5) **Addressees.** Each PE-OPDEF and PERREQ must be forwarded to the correct relevant email address iaw Annexes 59J and 59K. They should not be sent to PCAP individual role accounts. Particular care is to be taken to send them to the correct ‘Multiuser’ accounts, as responses will be delayed if emails are sent to incorrect accounts. Units are to ensure that the notification contains all the relevant information in the correct format. This Para (5948) should be the primary authority and adhered to except in extreme circumstances when variations are agreed with PCap Ops prior to submission.

---

\(^{12}\) JSP 760 Chapter 22 details the criteria for compassionate leave.
\(^{13}\) Chapter 24.
\(^{14}\) JSP 751 Vol 1 Pt 1 Vol 1 Ch 2 Annex B details the Categories for Compassionate Leave.
\(^{15}\) JSP 760 Chapter 26.
\(^{16}\) For example, multiple Leading Hand gaps across the unit may have a small impact within their own departments but may have a large impact on whole ship duties (eg. an unsustainable SCC LH duty roster).
\(^{17}\) IAW BRd 3001 Chapter 3.
(6) RN Personnel on board Royal Fleet Auxiliary (RFA) Vessels. Where RFAs identify manning deficiencies with embarked RN personnel from 1700 Naval Air Squadron, they are to raise a PE-OPDE or PERREQ as required. 1700 NAS is to review its own manpower and provide support if possible; if 1700 NAS is unable to support then it will respond accordingly. Thereafter, PCap Ops Forward Devonport will lead and co-ordinate action on resolution in conjunction with the appropriate CM where necessary.

(7) Rotational Crews. In rotational crews (eg. MCMV and SSBN), PE-OPDEs and PERREQs are de-latched from the ‘hull’ and recorded by ‘crew’ (eg. MCM1 Crew 1 vice BNGR or VANG(PORT) vice VANG). This removes the requirement for cancellation and resubmission of PE-OPDEs and PERREQs on crew Replacement in Place (RIPs) and rotations.

(8) Regular Actions as Fwd Deployed FF/DD Crews Rip. The following actions are to be undertaken by the EWO on Riping in and out of theatre.

(9) Immediately prior to return to the UK, EWO is to sitrep all PERREQs, PE-OPDEs are also to be the subject of sitreps downgrading at least one repair category (B2 to C2, C2 to C3 etc) in order to reflect the period of regeneration outside the theatre of operations.

(10) Six weeks prior to return to theatre PERREQs and PE-OPDEs to be SITREPPed and repair categories increased as require by HoDs and CO.

(11) SITREP and Rectification. To ensure PCap Ops, the Operational Commander and the FGA maintain an accurate picture of the impact of personnel gapping and shortfalls, PE-OPDEs and PERREQs should only be updated by SITREP when significant changes occur, in the case of PE-OPDEs and RECTIFIED as soon as the impact on OC has been resolved or expired. Any changes should be in bold, highlighted or underlined to make it clear to the recipients what significant changes have occurred.

(12) Out of Hours/Leave Periods. Out of Hours cover for PE-OPDEs or PERREQs is achieved through the Duty Fleet Controller (a mandatory ‘Cc’ addressee) who will call the appropriate duty PCap Ops personnel. However, it should be noted that unlike stores on a shelf, trawling for a relief out of working hours is unrealistic and also difficult during main leave periods, when the donor units and individuals are similarly not on call.

g. Authorisation for Mobilisation of Personnel as a Temporary Relief (TR).

(1) A TR may be required as a short-term solution to a PE-OPDEF or, by exception, a PERREQ. This requirement is evidence based on the OPDEF/PERREQ content.
(2) Inter-unit loans of personnel up to 7 days should be regarded as routine business and are not affected by PFS. Inter-unit loans should only utilise SQEP from the relevant Flotilla/FGA area of responsibility, therefore minimising personal turbulence as much as possible. The relevant Flotilla/FGA should take the lead on these local loans ensuring the relevant Career Manager (CM) is notified to allow personal turbulence to be recorded on JPA\textsuperscript{18}. TR requested for 8 - 30 days are identified and authorised by PCAP Ops personnel only. They are nominated via a tried and tested trawl process and scrutiny of a Personnel Support Request (PSR).

(3) Any OR6-OR9 on MTA are only approached by PCAP Ops after consultation with the relevant CM/CM SO2. As part of the trawl process any TR requested for more than 30 Days will result in PCAP Ops applying for a PFS waiver via DACOS(CM). The CM will then take relevant assigning action. Any pre-booked, career fouling TEMs/Qualifying Course will take priority unless specifically authorised to the contrary, after discussion and agreement with SO1 PCAP Ops.

(4) Personnel can be directed to submit PSR whilst on leave where there is a Service requirement. Personnel that are on leave or have pre-approved leave will only be nominated in extremis for the most compelling of reasons\textsuperscript{19} in order to meet the Service need. In this event the individual may apply for all un-used leave to be credited back to their account. Personnel are advised to purchase suitable travel insurance\textsuperscript{20}.

(5) As far as possible, arrival/departure dates stipulated on the PSR will be adhered to. In extenuating circumstances (ie. change of receiving units tasking) there may be a requirement to extend a TR. To ensure a full auditable trail a further PSR will be completed. Receiving units are not to negotiate extensions without PCAP Ops knowledge/authority. Alternatively PCAP Ops may consider a new trawl to be a less severe option.

(6) As part of their role PCAP Ops aim to minimise individual turbulence (churn) which has been identified as a major contributing factor towards retention in the Naval Service. PSRs will still be required for individuals who volunteer to be a TR to ensure correct recording of all individuals trawled.

(7) If there is anyone else within the trawled unit’s Chain of Command who needs to be informed of a request for PSRs to be submitted, then it is incumbent on the unit to inform the relevant individuals. Failure to meet the deadline for PSR submission is not an excuse for trawled individuals to be exempt from nomination. The individual’s unit is to ensure deadlines are met however, where there are reasonable reasons for delay, an extension may be requested from PCAP Ops Fwd.

\textsuperscript{18} Annex 59I.  
\textsuperscript{19} JSP 760 1.7.  
\textsuperscript{20} JSP752 17.0611.
h. **PCap Ops Action.**

(1) The PCap Ops Forward Cells\(^{21}\) are responsible for initial communication with the Unit\(^{22}\) and will co-ordinate discussions between CMs, Career Management Cells (CMCs) and FGAs to resolve all PE-OPDEFs and PERREQs. PCap Ops, at West Battery, in conjunction with Commander Operations (COMOPS) and Navy Commitments, will provide direction on the overall priorities for resolution.

(2) On 1 Jun each year the PE-OPDEF database will be reviewed and all OPDEFs older than 18 months will be deleted as part of a housekeeping process and in discussion with the relevant unit. Any that remain extant should be discussed with PCAP OPS at West Battery and re-raised as appropriate.

---

\(^{21}\) At Devonport, Faslane and Portsmouth. The CMCs at Culdrose and Yeovilton perform the function for the Air Stations.

\(^{22}\) PCap Ops Fwd will acknowledge receipt of PERREQs/OPDEFs; if a receipt is not received then contact is to be established with the relevant team.
SECTION 12 – OTHER INFORMATION

5949. Loan of Ratings Between Units
Where Commanding Officers approve the loan of ratings from one ship/submarine or establishment to another for a period of 30 days or less, no assigning action is necessary, however the individual’s Personal Turbulence should be recorded in JPA in accordance with the policy in Annex 22A Chapter 2 and instructions in Annex 59I. Where the loan is expected to be in excess of 30 days (including expeditions etc), the CM is to be informed and assignment action taken to ensure that the loan does not conflict with any assignment plans.

5950. Manning Priorities
See also Para 6202.sub para b. Priority for manning established positions is set out at 3 levels:

a. Strategic – DIN: Manning Priorities for the Naval Service. Provides strategic level guidance for the prioritisation of Naval Service manpower across Defence. It is subject to annual review by the Naval Manpower Working Group (Strength), chaired by DACOS(PPlan).

c. Tactical - Fleet Operational Manning Priorities. Commitments, Schedulers, FCIGs and OPS & PLANS, on behalf of CMs, agree a tactical manning priorities grid based on a. and b. above. These grids are distributed to CMs/CMCs to support tactical manpower management. The grids are reviewed monthly.

5951. Core Team Concept
The Core Team Concept applies to operational units as they regenerate and through their operational deployment. It aims to ensure sufficient continuity in key posts to preserve the capabilities for which the ship has been generated. In formulating the Core Team the primary focus is on the maintenance of OC whilst recognising the need to identify levels of assignment flexibility available to Career Managers (CMs) to ensure acceptable flows for seagoing professional development and into and out of key career courses.

5952. Continuity Positions
Certain designated Positions may have a continuity requirement specified. This will be identified by the use of the 'Standard Tour Length' field in the Unit Establishment List. The continuity indicated is advisory only to CMs as other higher priority movements may necessitate individuals being moved earlier than planned. Ratings assigned to Continuity Positions are not normally to be assigned to a new position or an Emergency Relief Pool (ERP) until the period of continuity has been served, even if the rating concerned has passed their SAVDATE. Submarine ratings assigned to Donor, continuity or Submarine Essential Positions will remain liable for service in the Emergency Relief Pool. For background information on Continuity Positions see Chapter 2.
5953. Gapping

a. **Gapping Policy.** When a suitable individual is not immediately available to relieve another before departure, a position may be gapped. CMs must use their plot knowledge and manning priorities guidance to decide where these gaps should lie. The position will be left vacant until a suitable relief is available. The decision to leave important or highly contentious positions gapped should be discussed with and approved by DACOS Career Management, keeping ACOS(PCap) informed. It is vital that positions which are proposed to be left unfilled are identified early and that CMs notify the organisation’s Commanding Officer of the gap as soon as possible.

b. **Gapping of Established Positions to Fulfil Un-established Tasks.** Generally speaking, the gapping of an established position should not occur in order to release an individual to fill an un-established (and therefore un-costed) position. Although it should be resisted if at all possible, there will be occasions when an individual is required for an un-established task. In such cases the relevant SO1 CM should engage with the requesting authority and, in discussion with DACOS Career Management, make a judgement about the relative importance of the requirement and, if applicable, which established position will be gapped.

c. **Absences of Less Than 3 Months.** Unless the gapped position is a high manning priority (see Para 5949), no Career Management action will be taken. If the position is listed as a high manning priority and the employer is unable to bear the gap the actions at Para 5945.d sub para (2) and sub para (3) above should be taken. CMs should liaise closely with ACOS(PCap) OPS & PLANS as appropriate to ensure that the most appropriate action is taken as swiftly as possible. Personnel who are medically downgraded for less than 3 months will not routinely be found a relief.

5954. Use of Reservists – Full Time Reserve Service (FTRS) and Additional Duties Commitment (ADC)

a. Naval reservists (Regular and Volunteer) may undertake an FTRS commitment as a means of filling Naval positions on a full time basis where no suitable Regular Service person is available; ADC is a means of filling either an established position or an un-established commitment on a defined part time basis. ADC can also be used for job sharing an established position. Positions may be specifically established for Reserves personnel. If a Position is only required to be filled on a part time basis, it should normally be designated for a Reservist, so that it does not generate a liability for Regular personnel. See Annex 59H for 2SL policy on the use of FTRS.

b. RFR, RNR and RMR Officers and Ratings/ORs may register with the CM Reserves team as volunteers for full time or part time Reserve Service. If a match is found with the requirements of a Position that cannot be filled by a Regular Service Person, a formal procedure establishes the terms of any Commitment. Further Commitments may be granted, with the employer's support and CM Reserves approval up to a certain, defined limit; thereafter, the decision rests with Hd NPS. Employers may also initiate the process by requesting that a specific Position is filled by a Reservist, but agreement is at ACOS(PCap) discretion.
5955. **Return of Service**

a. When RN and RM personnel undertake specific courses of training, studies or receive financial bonuses, the Naval Service requires a return on its investment. The normal requirement is that individuals complete an effective period of service called a Return of Service (ROS). Training ROS falls into two areas: initial training, that taken by officers, ratings and other ranks prior to joining the trained strength and further training - that taken by officers, ratings and other ranks after joining the trained strength.

b. Details on ROS can be found at the following references: Chapter 53, extant DINs; and JSP 754 (Tri Service Regulations for Pay and Charges).

5956. **Warrant Officer First Class Assigning**

a. **Career Management.** WO1s are assigned on a personal basis in order that their individual employment can be planned to the best advantage of the Service and themselves. WO1s are encouraged to contact their CM to arrange an interview approximately mid assignment to discuss their next assignment or as required.

b. **Training.** CMs are to ensure that all WO1s undergo the Warrant Officers Staff Course (WOSC), either between selection and promotion, or as soon after as circumstances permit.

c. **Personnel Files.** Personnel dossiers on those selected to WO1 by the Promotion Board will be transferred to the CMs on completion of the selection procedure and will form the background for the assigning process. These dossiers will be updated by the annual SJAR reports and also include a record of all correspondence between the individual and WO1 CM and any relevant CM information. The records are held by the respective WO1 CMs.

5957. **Assigning of Personnel Holding Local Acting Rates**

a. CMs are not normally to assign in such a way as to create or perpetuate Local Acting Rates and are to strive to fill positions with personnel holding the substantive rate required by the Unit Establishment List.

b. In the event that a rating is assigned to a position for a rate one above their current rate, they may be granted the Local Acting Rate provided that the appropriate Command Course has been successfully completed and a waiver granted iaw Part 8. If a Receiving Unit considers it to be in the best interest, application may be made to the Discharging Unit to grant the Local Acting Rate, effective on the date of joining, so that the rating joins their new unit dressed in the uniform of the higher rate (see Part 8 – Promotions - Chapter 65).

c. The Local Acting Rate is to be relinquished iaw the guidance in Part 8.

5958. **Personal Turbulence**

Information on Personal Turbulence policy can be found in Annex 22A (Chapter 2). Instructions on how Career Managers should record this in JPA can be found in Annex 59I.
5959. **Assignment Restrictions for Offenders**

a. The Royal Navy must ensure that it provides a safe working environment for Service personnel and that, in the course of their employment, individuals do not suffer fear, alarm or distress. Following an offender’s conviction for a particular type of offence, to assign that individual to a unit where the victim of the offence is also serving may cause anxiousness or distress to the victim thereby impacting adversely on operational capability. In these circumstances, the Service must balance the rights of the offender against the need to maintain unit trust and cohesion. As a matter of policy therefore, in accordance with Table 59-1 below, assignment restrictions are to apply to individuals who are convicted of certain offences where the victim of the offence is also a member of the UK Armed Forces. The duration of any assignment restriction must be proportionate to the seriousness of the offence and the likely feelings of the victim should the offender be assigned to the same unit.

**Table 59-1 – Duration of Assignment Restrictions for Offenders**

<table>
<thead>
<tr>

</tbody>
</table>

b. For convictions arising from Summary Hearings or Courts-Martial, the Summary Hearing Review Cell (SHRC) will identify those offenders and victims who should be subject to assignment restrictions in accordance with Table 59-1 and will send an e-mail notification to NAVY PCAP-CM MAILBOX (a multiuser account with access restricted to the CM COS and COORD team); receipt of this notification will be acknowledged by e-mail. The affected parties (‘X’ and ‘Y’) will be identified by Service Numbers only (without an indication of who is the victim and who is the offender), and the nature of an offence will not be disclosed by the SHRC. The SHRC will state the date/occasion on which the assignment restriction is to expire.

c. For convictions arising from proceedings in a civilian court, the offender’s unit will raise a C57 in accordance with extant Service Penalty procedures. Completed C57s will be forwarded to the SHRC\(^{(24)}\), who will inform the NCHQ Career Management organisation of any assignment restrictions which may follow, noting that the victims of such offences are rarely Service personnel.

---

\(^{(24)}\) In accordance with the RN Summary Hearing Review Cell Training Guide to JPA Discipline.
d. Career Managers are to record assignment restrictions on the JPA HR record of both parties (X and Y). The restriction is to be recorded as follows:

(1) On X's JPA Record: "Not to be assigned to a unit where [enter Y's Service Number] is serving or is assigned to join at a future date. Assignment restriction to expire [enter date/occasion specified by SHRC]."

(2) On Y's JPA Record: "Not to be assigned to a unit where [enter X's Service Number] is serving or is assigned to join at a future date. Assignment restriction to expire [enter date/occasion specified by SHRC]."

Note. These assignment restrictions are to be applied in addition to any restrictions imposed by Chapter 20 Section 22 in relation to the management of suspected registered sex offenders.

e. Once assignment restrictions are in place, Career Managers will have to exercise judgement in determining whether any particular assignment will in reality have the effect of undermining the purpose of the restriction. This may occur, for example, if the individuals are likely to be collocated within the same establishment (eg. two lodger units within HMS NELSON), or one party will have regular professional contact with the other (eg. a CPO Log (SC) assigned to the Waterfront Logistics Support Group Portsmouth and a PO Log (SC) assigned to a Type 45 destroyer). It is not possible or desirable to provide a comprehensive list of situations which may breach the general principle: common sense must be applied. **Legal advice is to be sought where adherence to an assignment restriction would cause prejudice to the individual, including to his/her career progression.**

f. For violence, domestic abuse or harassment related offences, five years after the date of conviction the SHRC will request that the Service Police contacts the victim (if they are still serving) to seek their views about the removal of the assignment restriction. The Service Police will seek to obtain the victim's views and inform the SHRC of these accordingly. If the victim consents to the removal of the assignment restriction, or if the victim has left the Service, the SHRC will notify the Career Manager that the restrictions should be removed for the party(ies) as applicable. If the victim objects to the removal of the assignment restriction, the SHRC will inform the Career Manager accordingly. If the Career Manager nevertheless determines that it is in the Service interest to remove the assignment restriction, he/she must seek legal advice.
Where a unit or manning authority intends to temporarily assign an individual to a training course, the unit administrator or manning authority must consult the individual's JPA record to check that there are no assignment restrictions in place. If there are, the unit administrator or manning authority must ascertain where the other party is serving. If no breach of the assignment restriction will occur, the individual may be assigned to the course. If a breach will arise, the unit administrator or manning authority is to inform the individual's Divisional Officer (or G1 Adviser for Royal Marines). If assignment restrictions are in place but the Divisional Officer/G1 Adviser considers that to prevent the individual's attendance on the course would cause prejudice to them, then the unit or manning authority must seek legal advice through the unit Command Adviser from the relevant Regional Legal Office.

There may be situations following a Court Martial or civilian court hearing in which a Service person is found not guilty of an offence listed in Table 59-1 above, however they or the alleged victim still have a strong aversion to serving with the other party. In that situation there is no automatic entitlement to an assignment restriction, however an individual's line manager and Career Manager(s) should be consulted to determine whether a voluntary assignment restriction can be put in place. Legal advice should be sought where there is any concern about the restrictions being considered (ie. where there may be prejudice to either the Service requirement or to one or both parties' career progression).
ANNEX 59A
COMMAND ASSIGNMENTS AND SELECTION CRITERIA

Note. The following material is under regular review and should be read in conjunction with extant DINs and the JSP 550 series (Military Aviation Regulations).

SECTION 1 - GENERAL

1. Command Assignments

A definitive list of command assignments is at Appendices 59A-1 to 59A-3. This is a living document that is subject to regular review. Applications for additions to the list are to be made to the Naval Secretary. Prospective commands will be judged against a series of criteria, including the following: autonomy, risk, responsibility for people and material, financial accountability and disciplinary powers.

2. Types of Command

   b. Military Command. Military Command includes the following:

      (1) Air Command. In Command of a Naval Air Squadron.

      (2) RM Command Assignments. Including military sub-units.

      (3) Shore Command. In Command of one of Her Majesty’s shore establishments or designated shore based units.

   c. Subordinate Command. Subordinate Command includes the following:

      (1) Professional Command. In Professional Command of a designated department or unit merited by the responsibilities of the position.

      (2) Support Command. In Command of a designated unit operating in a support role.

      (3) Training Command. In Command of a designated unit operating in a training role.

      (4) Sub-Unit Command. Not in direct Command, however in Command of a designated group or body which would normally be capable of an autonomous function or capability.
3. **Common (Command) Assignments**

   For major shore establishment commands at OF4 and above, the principle is that Command is open to all Branches except where there is an overriding and specific professional requirement. For example at Culdrose and Yeovilton, the CO, as the officer responsible for Aviation, delegates the authorisation for flying and must have the personal professional competences to do so.

4. **Professional Command**

   The Command element of sea and shore ‘charge’ assignments will in future be recognised by designating them generically as ‘professional commands’ and by specialisation as 'engineering/logistics/medical command' as appropriate. This will make them easier to recognise and compare when officers compete for tri-service assignments.

5. **Selection for Command**

   a. Command (see Appendix 59A-1) of HM Ships, RM Units and Air Squadrons is open to officers whose attributes are of the highest quality, are suitably qualified and who have demonstrated significant Merit (for definition, see Para 6508) for promotion. In addition to the given qualities of leadership and reach common to all assignments, close consideration will be given to the currency and experience of an individual with respect to their prospective Sea Command and in relation to the role or aircraft type associated with their prospective Air Command.

   b. The selection process at each rank and for the various types of Command is broadly similar and any variation is identified in the following paragraphs that explain the different selection boards. The different Commands and Selection Boards are detailed in the Table below:

<table>

6. Candidature

a. Command of a ship, air squadron, submarine, MM/PP squadron or RM Operational Unit will demand a level of currency with operations at sea and in the air. Candidates will be expected to have held a front-line sea/air assignment1 within the 5 years2 prior to the respective Board, to satisfy Board Members that they have the necessary experience, in the case of Sea Command to have achieved the requirements of STCW and, for Air Command, the requirements of Military Aviation Regulations. Furthermore the candidates must be recommended for Command.

b. If an individual has distinct prospects of selection for both Aviation and Sea Command, or for surface and submarine Sea Command in the same year, the Board Adviser will guide the Board Chair. The Board Adviser will also provide a judgement if a candidate, having held OF4 Command in either a Sea or Air assignment, can compete for further command in the other environment.

---

1 Front-line sea assignments are selected from the units at Appendix 51A-2 and their Loan Foreign Service equivalents.
2 6 years for Air Comd taken from the date of the relevant AASB.
7. **Factors**

Each selection Board will be guided by the following selection factors and any variation as detailed in the relevant Board section:

a. **Command and Leadership Skills.** The ability to lead, meld and motivate a team in war and peace and possession of the necessary mental and physical resilience to withstand the strains of Command. Officers should have demonstrated a strong potential to succeed in Command. These criteria are common to all types of Command assignments.

b. **Warfare Skills.** Officers to have demonstrated the professional knowledge and experience required to successfully fight their unit/squadron.

c. **Seagoing Currency.** The Royal Navy is bound by STCW, and has interpreted eligibility through the development of command examinations and ‘Command Qualification’ (CQ1 and CQ2).

d. **Airmanship Currency.** The criteria for Air Command eligibility are dependent on the nature of the air assignment and are detailed in the eligibility table.

e. **Professional Command Currency.** It follows that, as well as the appropriate CLM abilities, Professional Command candidates should have demonstrated professional credibility within their specialisation appropriate to the Command Assignment(s) they are being considered for. They should also hold any professional qualification appropriate to that level of Command.

f. **Merit.** Merit is an inherent factor in the selection process; a definition is at Para 6508.

g. **Potential for Further Promotion.** Candidates will be expected to have demonstrated the potential and ‘reach’ for the higher ranks of the Service. In order to gauge an officer’s reach, selection Boards will take due regard of the candidate’s potential for Command and Staff assignments, or for further Command and Staff training, as reflected in OJAR and JSCSC Course reports.

8. **Guidance for Reporting Officers**

Reporting Officers should consider the factors at Para 5705 and the guidance in JSP 757 when drafting Appraisal Reports and command recommendations.

9. **Eligibility**

The required eligibility levels considered as pre-requisites are listed in the following tables. These have been developed from many years of operations and are guided by safety, specialist, legal and resource parameters. Consideration may be given to individuals who fall short of these minima, provided that an exceptional case can be made, most likely based on a proven track record within previous staff assignments. Final arbitration on eligibility rests with ACOS(PCap) in the cases of OF2 to OF4, and with the NA in the case of OF5, in consultation with the respective Head of Fighting Arm.
### Table 59A-2. Eligibility for Sea Command

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Board</th>
<th>Criteria</th>
</tr>
</thead>
</table>
| OF2        | SVC   | - **Experience**: Have completed at least one complement assignment at sea and successful completion of PNO course prior to assuming Command.  
- **Currency**: 18 months Qualifying Sea Service since the award of their NWC  
- **Recommendation**: Recommended by Command and Flotilla through the Command Competency Framework. |
| SASB1      |       | - **Experience**: Have completed a minimum of 2 complement assignments at sea in the surface or submarine flotillas (minimum 36 months).  
- **Currency**: Candidates will have served at sea to fulfil the STCW Qualifying Sea Service of 24 months since the award of their NWC.  
- **CQ1**  
- **Recommendation**: Recommended for a Command assignment. ICSC(M) or a strong recommendation for staff training. |
| OF3        | SASB1 | - **Experience**:  
1. Qualified PWO/PWO(SM)/PWO(AV)/HCH and completed a warfare tour in an associated assignment (minimum 18 months).  
2. For XO SM: SMCC.  
- **Currency**: Candidates will have served at sea to fulfil the STCW criteria of 36 months Qualifying Sea Service since the award of their NWC, including a minimum of 12 months QSS in the last 5 years (taken from the date of the relevant SASB).  
- **CQ2**  
- **Recommendation**: Recommended for a Command or Executive assignment. ICSC(M) or a strong recommendation for staff training. |
| OF4        | SASB2 | - **Experience**:  
1. Qualified PWO/PWO(SM)/PWO(AV)/HCH and completed 2 Warfare tours in associated assignments. Unit command, including XO DD/FF as a result of previous SASB, is highly desirable.  
2. For CO SM: SMCC.  
- **Currency**: As SASB1.  
- **CQ2**  
- **Recommendation**: Recommended for a Command assignment. Command knowledge gained from the attainment of CQ2 has been translated into practical familiarity. psc(j) or a strong recommendation for ACSC. |
<table>
<thead>
<tr>
<th>Assignment</th>
<th>Board</th>
<th>Criteria</th>
</tr>
</thead>
</table>
| OF5        | SASB3 | 1. Qualified PWO/SMCC/HCH or relevant aviation qualification, and completed a minimum of 2 front-line warfare tours and/or held a front-line Sea assignment within the previous 5 years. Unit command, as a result of previous SASB/AASB, is highly desirable.  
2. CQ2.  
3. psc(j) is highly desirable. |

**Notes:**

1. Candidates will need 18 months’ Qualifying Sea Service or 5 years’ seniority at OF2 (whichever is earlier) before taking CQ1.

2. The revised (2012) Command Competency Framework (CCF) will be utilised to inform the CQ1, CQ2 and SASB 1, 2 and 3 selection process.
### Table 59A-3. Eligibility for RM Command

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Board</th>
<th>Criteria</th>
</tr>
</thead>
</table>
| OF3 RM sub-Unit and Subordinate Command | MCB1    | 1. **Experience**: Have completed ICSC(L). Subsequent to selection, those selected must attend the CATC (Army).  
2. **Recommendation**: Recommended for sub-unit command |
| OF4 RM Unit Command, RMR Command and Subordinate Command | MCB2    | 1. **Experience**: Have completed ACSC (and be qualified psc(j)) or ACSC (Res) for reservist candidates to be considered for CO of an RMR Unit. Subsequent to selection, those selected to command an RM Commando Unit and SBS must attend BGCC and RM CODC. For other Regular and Reserve Commands at OF4 there is no requirement to attend BGCC; those selected however should attend the RM CODC, and for RMR and CTCRM Commands the Commanding Officers of Training Establishments (COTE) Course at DCTS.  
| OF5 RM Unit Command | FSOAB   | 1. **Experience**: Have completed ACSC (and be qualified psc(j)).  
2. **Recommendation**: Recommended for Command at OF5. |

**Note.** Guidance on when officers come into zone for consideration is given at Para 22 sub para d below.
### Table 59A-4. Eligibility for Air Command

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Board</th>
<th>Criteria</th>
</tr>
</thead>
</table>
| OF3 Air Command and Executive Assignments | AASB1  | **Experience:** Have completed a minimum of 2 front line tours within cockpit aviation (minimum 36 months). Ideally should hold qualifications relevant to either frontline (e.g. AVWO/QWI/PWO(AV) or PWO) and/or training (e.g. QHI/QOI/QFI) squadrons.  
**Currency:** Most likely candidates will hold full currency according to specialisation, type or role within a complement assignment within the last 6 years (taken from the date of the relevant AASB).  
**Recommendation:** CQA1 and hold a recommendation for an executive assignment. ICSC(M) or a strong recommendation for staff training. |
| OF4 Squadron Command                | AASB2  | **Experience:** Have completed a minimum of 2 front line tours within cockpit aviation (minimum 48 months). In most cases, a candidate will present previous Command or executive experience and hold qualifications relevant to either frontline (e.g. AVWO/QWI/PWO(AV) or PWO) and/or training (e.g. QHI/QOI/QFI) squadrons.  
**Currency:** as AASB1.  
**Recommendation:** CQ(A)2 and hold a recommendation for Air Command subsequent to an executive assignment (preferably within aviation, possibly within surface warfare) in which the command knowledge gained from the attainment of CQA(2) or CQ2 has been translated into practical familiarity. psc(j) or a strong recommendation for ACSC. |
| OF4 Force Command                   | AASB2  | **Experience:** Have completed a minimum of 2 front line tours within cockpit aviation (minimum 48 months). Unit command is highly desirable. Normally selected after an OF4 staff tour.  
**Currency:** Have held an aviation related frontline or staff assignment within the last 5 years (SP(F) tagged). CQ(A)2 essential, psc(j) or equivalent (eg. Aero Systems postgraduate) highly desirable.  
**Recommendation:** CQ(A)2 and hold a recommendation for Force Command, psc(j) or a strong recommendation for ACSC. |

**Note.** Where Air Executive or Command assignments are held at OF3 level, the AASB1 will select the Commanding Officer and Senior Pilot/Observer (including all positions of equivalence irrespective of terminology in use eg. Executive Officer, Ops Officer or OC A/B Flight (in respect of fast jet squadrons)), as appropriate.
### Table 59A-5. Eligibility for Professional Command (Engineer)

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Board</th>
<th>Criteria</th>
</tr>
</thead>
</table>
| OF3        | PCB(M)  | **Experience**: Have completed a minimum of one assignment (desirable minimum 18 months).  
**Recommendation**: Recommendation for Prof Comd. ICSC(M) completed.  
**Commission**:  
• Serving on CC or FTC.  
• Volunteer for FTC.  
• Recommendation for FTC. |
| OF4        | PCB(M)  | **Experience**: Have successful command or relevant Staff experience and broad DMS experience at OF3. Displaying potential for promotion to OF5.  
**Recommendations**:  
• ‘High’ for OF4 Professional Command.  
• psc(j) or a strong recommendation for ACSC. |

#### 10. Board Evidence
Details of the Appraisal and course reports and letters of commendation and censure that can be presented to a Board in support of a candidate are set out in the various Board sections.

#### 11. Board Adviser
The appropriate Branch Career Manager will act as the Board Adviser. Their role is to provide an initial briefing to cover the following: the selection target and any branch and specialisation considerations; relevant assigning factors such as continuity of reporting; and the career management perspective.

#### 12. Board Grading
Boards will apply a grading to each candidate as follows:

- **List A** – Recommended for Sea/Air/Professional/Shore/Training and Support Command.
- **List B** - Not selected this time but subject to further review.
- **List C** - Not selected for Command assignments or further review in current rank[^3].

[^3]: List C candidates are only list C for that particular category of Command and may remain eligible for Command assignments in a different category.
13. Nominations

a. Once a Board has made its selections, the appropriate Career Manager will take guidance on assignments from the appointed representative of the Head of Fighting Arm (Rear Admiral Surface Ships (RASS), Rear Admiral Fleet Air Arm (RAFAA), Rear Admiral Submarines (RASM) or Commandant General Royal Marines (CGRM)) or, in the case of Professional Command, the appropriate DACOS Head of Specialisation within NCHQ informing Head of Fighting Arm out of courtesy. For SASB/AASB, the appropriate CM will draft a ‘troops to task’ note which will be circulated electronically to appropriate senior officers before the HOFA presents those nominations to the Fleet Commander.

b. For OF5s, the Naval Assistant will take advice on assignments from the appointed representative of the Heads of Fighting Arm or Branch. It should be noted that, whilst the Board selects officers suitable for Command assignments and offers posting recommendations, it is First Sea Lord who makes the assignment.

14. Board Records

The outturn from each Board will be a formal record of the candidates presented to the Board and the grading awarded to each candidate. The record will be signed by the relevant Board chair and may also be used to state formally any caveat concerning a candidate that the Board believes should be taken into account when determining the candidate’s future assignment. The formal records for SASB, AASB and MCB2 OF4 and OF5 boards will be held by DACOS PROM and for OF2 and OF3 Boards by CM OF WAR SO2, CM OF WAR SM SO2, CM OF WAR AIR SO2, CM OF RM SO2, as appropriate. PCSBs and CCSBs records are to be retained by the appropriate NPT.

15. Promulgation

All OF5s will be briefed personally by the Naval Assistant of the outcome, and OF4s who are graded List C for SASB/AASB/MCB2 will be contacted personally by CDR X / CDR AIR / SO1 RM. The lists of OF4s/OF3s selected for Command will be promulgated on the Royal Navy Intranet web site. OF2s will be informed by their Career Manager of their result.
16. SVC

a. **Zone Criteria.** The Service Requirement can be met from officers across the OF 1/2 seniority range. Candidates will be presented to the Board when they are forecast to have accrued 18 months QSS or more by the time they are due to assume Command.

b. **Evidence.** The following reports will be presented in a candidate’s file:

   (1) CV Sheet.
   
   (2) All appraisal reports since joining the trained strength.
   
   (3) Letters of Commendation or Censure.
   
   (4) The revised (2012) Command Competency Framework (CCF) with appropriate Flotilla or 3RO recommendation.

c. **Board Composition**

<table>
<thead>
<tr>
<th>Chair</th>
<th>Capt MFP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Board Member</td>
<td>PORFLOT OF4</td>
</tr>
<tr>
<td>Board Member</td>
<td>DEVFLOT OF4</td>
</tr>
<tr>
<td>Board Member</td>
<td>FASFLOT OF4</td>
</tr>
<tr>
<td>Board Adviser</td>
<td>CM OF WAR JOSO2</td>
</tr>
</tbody>
</table>

d. **Board Procedure.** The SVC Board considers all candidates at the same formal meeting and will agree allocation to available units based on an order of merit.

   (1) Eligible candidates are selected by Career Managers and Flotillas taking into account relevant talent management grids and other Junior Warfare Officer alignment tools. Career Managers will provide advice to members of their plot on the optimum time within their career for a Subject Officer’s file to be presented.

   (2) The complete files (Para 16 sub para b) for all candidates at each board are seen by all Board members. Each member reads and grades individually prior to the Secretary collating the individual members’ provisional results for presentation when the Board meets in formal session.

   (3) At the formal session a single final and agreed grade will be decided and each candidate allocated to List A, B or C. An order of merit will be agreed for those placed on List A. Candidates on List C will receive formal feedback from their Career Manager that they will not be considered for future SVC Boards.
e. **Promulgation of Results.** The results of the SVC Board will be promulgated by signal at 1000 on the day following the board. Only the names of those officers placed on List A will be signalled. A copy of the signal may also be published on the Defence Intranet. Individual Career Managers will inform their plot members of the unit they have been allocated.

17. **SASB1**

a. **Guidance to Reporting Officers.** All reporting officers of candidates for SASB1 are advised to ensure their reports draw out the particular attributes of Subject Officers listed at Para 7 above, and also articulated in the Definition of Merit (Para 6508). As with all reports, honesty and accuracy are of the utmost importance.

b. **Zone Criteria.** The Service Requirement can be met from officers across the OF2/3 seniority range. Candidates will be presented to the Board when eligible, but no time constraint will be applied either to their subsequent review (if listed ‘B’) or to the final opportunity for review; candidature will continue provided an officer’s currency and experience profile meets the eligibility criteria. Candidates should be aware that assignments will be governed by well-established Career Management criteria, to include the Service Requirement, rather than the individual’s desire to remain in competition for a Command assignment.

c. **Evidence.** The following reports will be presented in a candidate’s file:

   (1) CV Sheet.

   (2) All appraisal reports for the last 4 years (from date of the board).

   (3) Termination appraisal reports from all previous periods in Command or as an XO.

   (4) Letters of Commendation or Censure.

   (5) The revised (2012) Command Competency Framework (CCF) will be utilised to inform the CQ1, CQ2 and SASB 1 process.

d. **Grading Variations.** Any officer placed on List A by the board, but who is not subsequently allocated to a unit (due to the number of units available) will be placed on a Reserve List. Unless allocated in the interim, all reserves will be reconsidered by the Board annually with a view to revalidation of previous board gradings and to ensure continued suitability.
e. **Board Composition**

<table>
<thead>
<tr>
<th>Role</th>
<th>Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chair</td>
<td>ACOS Warfare</td>
</tr>
<tr>
<td>Board Member</td>
<td>Navy Command OF5</td>
</tr>
<tr>
<td>Board Member</td>
<td>Non-Navy Command OF5</td>
</tr>
<tr>
<td>Board Member</td>
<td>ACNS(Pers) Warfare OF5</td>
</tr>
<tr>
<td>Board Adviser</td>
<td>CM OF WAR SO2</td>
</tr>
</tbody>
</table>

f. **Board Procedure.** The SASB1 considers and grades candidates against current rank, although in procedural terms this is seamless and all candidates are discussed at the same formal meeting. The Junior Board assesses OF2 (CQ1), and the Senior Board assesses OF3 (CQ2).

1. All eligible personnel (Para 9) are entitled to be seen by the Board at least once. Career Managers will provide advice to members of their plot on the optimum time within their career for a Subject Officer’s file to be presented.

2. The complete files (Para 16 sub para c) for all candidates at each board are seen by all Board members. Each member reads and grades individually prior to the Secretary collating the individual members' provisional results for presentation when the Board meets in formal session.

3. At the formal session a single, final, agreed grade will be decided and each candidate allocated to List A, B or C. Candidates on List A may be annotated as CO Only, CO preferred, Both (CO or XO), XO Preferred or XO Only. An Order of Merit will be agreed for those placed on List A. Candidates on List B may have caveats placed against their name stating when they can be resubmitted to the Board.

g. **Promulgation Of Results.** The results of the SASB1 Board will be promulgated by signal at 1000 on the day following the board. Only the names of those officers placed on List A will be signalled.

h. **Allocation of Assignments.** Following the Board, Career Managers will draft provisional allocations of List A officers to available units. If there are more List A candidates than available assignments, those officers at the bottom of the order of merit will be placed on the Reserve List and re-presented at the next board. Provisional allocations are to be circulated electronically to RASSEB members for comment before being presented to RASS for approval. Once approved, command chains and individuals will be informed by their Career Managers of the respective allocations.

18. **AASB1**

a. **Zone Criteria.** As per Para 16 sub para b but adjusted by Career Managers dependent on number of candidates and available command assignments.

b. **Evidence.** As per Para 16 sub para c.
c. **Board Composition**

</tbody>
</table>

d. **Board Procedure.** The process is similar to SASB1, but candidates should consult their Career Manager.

e. **Promulgation of Results.** The results of the AASB1 Board first require ACNS(A&C) approval; this may not be achieved on the day of the Board. Once approval has been given, the results will be promulgated by signal at 1000 on the subsequent day, assuming sufficient time has elapsed to inform the relevant chains of command and the successful individuals concerned. SO1 Air retains the right to delay the promulgation of the signal if this has not been achieved.

19. **SMCC Selection**

a. The SMCC Selection Board is not strictly a Command selection board, however, the successful achievement of the SMCC is a pre-requisite for assignment to an XO post of an SSN or SSBN and for eligibility for consideration for selection to command of an SSN or SSBN as an OF4.

b. **Board Composition**

<table>

</tbody>
</table>

20. **SASB2**

a. **Zone Criteria.** Officers will be considered on selection for promotion to OF4. In view of currency requirements, candidates graded List B will be reviewed annually from the ‘Review Pool’ in the following years, but officers will revert to list ‘C’ after 4 years from selection for promotion to OF4, unless selected or otherwise becoming ineligible. Those who fail to meet the currency or experience requirements outlined above may be placed in List C at their first or subsequent Boards. There is no quota of sea commands for newly selected officers and all candidates are in competition with each other for the available commands.
b. **Requirement.** The requirement for the number of sea command selections is driven by the availability of surface and SM commands during the period of approximately 2 years after SASB2. The figure is kept under review by ACOS(PCap) and the Board advised accordingly.

c. **Evidence.** The following reports will be presented:

(1) All appraisal reports in the current rank.

(2) For Review Officers, all Appraisal Reports from the last 2 assignments as an OF3. If the last 2 assignments do not include the last sea/air assignment, then all Appraisal Reports from that assignment through to promotion to OF4 are to be included. At least one PWO/Ops OJAR if not included otherwise.

(3) Termination reports from all previous command assignments appointments.

(4) Termination report from assignment as XO of DD/FF/SSN/SSBN.

(5) Advanced Command and Staff Course report (including equivalent foreign service course).

(6) Letters of Commendation and Censure.

(7) CV Sheet.

(8) The revised (2012) Command Competency Framework (CCF) will be utilised to inform the CQ1, CQ2 and SASB 2 selection process.

d. **Board Composition**

<table>

<td>CM OF WAR SO1</td>
</tr>
</tbody>
</table>

**Note 1.** With Sea Command experience as an OF4.
**Note 2.** RASS will chair surface and hydrographic elements of the board. RASM will chair submarine elements of the board.
e. **Board Procedure - SASB2.** The SASB2 consists of a Preliminary and a Final Selection Board and both will normally precede the equivalent parts of the AASB2. Prior to the PSB the Warfare Branch Secretary will carry out a pre-board sift in order to reduce the PSB’s workload. The sift is audited. The PSB will carry out the following actions:

1. Read prior to the board the Officers’ Records of newly selected officers and those officers due for review and, guided by the selection factors and the eligibility criteria, grade them as A, B or C (an A Candidate is an officer who shows distinct potential to succeed in Command now).

2. Review in-session the aggregate order of merit (OOM) generated by individual members’ votes.

3. Finalise the list of A candidates to be placed in seniority order before the FSB and to record formally the candidates graded as List B and C. The number of As will be approximately twice the number of available Commands.

f. **Board Procedure - FSB.** The FSB will read the files of the A candidates selected by the PSB and, guided by the selection factors and the eligibility criteria, will select a number of the candidates, equivalent to the number of Commands available, to be placed on List A. The remaining candidates will be graded either List B or C. The FSB may consider selecting a reserve, or reserves, as advised by the Board Adviser but the reserve will remain a List B candidate.

g. Post the SASB2 FSB, the CM will draft provisional allocations of List A officers to available units. Provisional allocations are to be circulated electronically to RASS/RASM Board members for comment before being presented to RASS/RASM. RASM and RASS will call upon the Fleet Commander to seek approval of the proposed assignments. Once approved, command chains and individuals will be informed by their Career Managers of the respective allocations. The process should take a maximum of 10 working days from FSB to JPA action.

h. Post Fleet Commander approval, Cdr X will collate a final list of all approved SASB2 Command nominations and forward to SASB FSB members for information. This will also precipitate assignment action where necessary.

i. **Second Sea Command Assignments.** All Warfare Commanders who have completed one sea command assignment and who have achieved the appropriate recommendations from that assignment are eligible for consideration for a second sea command assignment. This is a Career Management process and these officers are not reconsidered by the SASB2. They are identified and assigned by Cdr X/Cdr Air. The posts are detailed at Appendix 1 to Annex 59A.

j. **Exceptional Reviews.** An officer can be reviewed after having been graded List C, however this will only be in exceptional circumstances and a formal Appraisal Report has to be raised with a Navy Board member's specific endorsement. The candidate would normally have to adhere to the currency criteria.
21. AASB2

a. **Zone Criteria.** See Para 20 sub para a. If an individual is eligible in all respects for both OF4 unit and force command, then generally, it is unit command that will take precedence if a choice is available. However, subject to operational requirements, a successful OF3 unit command may be considered entirely sufficient for the career development of an individual and there is no advantage in repeating the cycle with an OF4 unit command on the same aircraft type. No distinction is made between an individual’s Service (Royal Navy or Royal Marines), specialisation (Pilot, Observer or occasionally Air Engineer (Pilot or Observer)) or aircraft type beyond those specified or desirable within the Terms of Reference for the assignment in question.

b. **Evidence.** See Para 20 sub para c and to include Termination report from assignment as Senior Pilot/Senior Observer of an air squadron and/or CVS/Air Station Operations Officer.

c. **Board Composition**

<table>
<thead>
<tr>
<th></th>
<th>PSB</th>

<td>FAA OF5 (Note 1 and Note 2)</td>
<td></td>
</tr>
<tr>
<td>Board Adviser</td>
<td>CM OF AIR SO1</td>
<td>CM OF AIR SO1</td>
</tr>
</tbody>
</table>

**Notes:**

1. **With Command Experience at OF4.**

2. **A mix is desirable, to include FW, RW and CHF.**

d. **Board Procedure.** Similar to Para 20 sub para e and sub para f, however, the PSB may consider the candidates by command type dependent on the numbers of both candidates and available assignments. Post FSB, RAFAA will consult with AOC 1 Group thereafter seeking endorsement from the Fleet Commander of proposed Command assignments. Post Fleet Commander approval assignments will be promulgated thereafter.

e. **Second Air Command Assignments.** Commander Air assignments, seagoing and ashore, are designated second Air Command assignments and selection will be made by CM OF AIR SO1 from suitably qualified candidates who have received the appropriate recommendation from their first Air Command assignment. The posts are detailed at Appendix 2 to Annex 59A.
22. SASB3

a. **Zone Criteria.** SASB3 selects officers to the OF5 Warfare Commands detailed at Appendix 1 to Annex 59A regardless of specialisation or whether the Command is seagoing or not. Officers will be considered for selection for a Sea or Air Command for their first tour on promotion and, to afford the maximum flexibility and to appoint the very best candidates available at any given time, it is not intended to mandate a limit to the number of reviews an individual should receive but a maximum of 2 or 3 is likely before currency requirements intervene. Officers selected into the OF5 Promotion Pool will be eligible for consideration for OF5 Command. The following diagram represents the relationship between SASB3 and the Pool Promotion process:

![Diagram of OF5 Promotion Pool](image)

b. **Evidence.** Officers’ Record files will be provided in seniority order and will contain:

1. All appraisal reports in the current rank Review officers (List B) to have OF4 reports in addition to any OF5 reports.
2. All reports from all previous command assignments appointments.
3. Termination report from assignment appointment as XO of DD/FF/SSN/SSBN.
4. Termination report from assignment appointment as Senior Pilot/Senior Observer of an air squadron, CVS/Air Station Operations Officer.
5. Advanced Command and Staff Course report (inc equivalent foreign service course).
(6) Letters of Commendation and Censure.

(7) CV sheet.

(8) The revised (2012) Command Competency Framework (CCF) will be utilised to inform the CQ1, CQ2 and SASB 3 selection process.

c. **Board Composition**

<table>
<thead>
<tr>
<th></th>
<th>PSB (if required)</th>
<th>FSB</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chair</td>
<td>Naval Assistant</td>
<td>Fleet Commander</td>
</tr>
<tr>
<td>Board Member</td>
<td>DNS/Non-Navy Command 1*</td>
<td>RASS</td>
</tr>
<tr>
<td>Board Member</td>
<td>ACOS Warfare</td>
<td>COMOPS (Note 1)</td>
</tr>
<tr>
<td>Board Member</td>
<td>Navy Command 1* (Note 2)</td>
<td>NAVSEC</td>
</tr>
<tr>
<td>Board Adviser</td>
<td>ACNS(Pers) Warfare OF5</td>
<td>Naval Assistant</td>
</tr>
</tbody>
</table>

**Notes:**

1. **COMOPS is a standing Board Member.**

2. **With Sea or Air Command experience as an OF5.**

d. **Board Procedure.** Similar to Para 20 sub para e and sub para f, but the prime determinant for OF5 selection for Sea command is ‘Warfighting’, supported by the standard factors at Para 7. The activation of the PSB is dependent on the number of officers selected to the OF5 Promotion Pool; generally, only the FSB sits. The SASB3 FSB will sit concurrently with the SASB2 FSB to provide an opportunity to veer and haul Command assignments between OF4 and OF5 Command if required.

23. **RM Command Selection**

a. The selection of RM officers for OF3 operational command assignments and OF4 operational and shore command assignments will be achieved through a series of Boards: Military Command Board 1 (MCB1) at OF3-level and Military Command Board 2 (MCB2) at OF4-level. RM OF5 Command appointments are selected by FSOAB as advised by the Naval Assistant.

b. The following should be noted:

1. RM Pilots and SF officers remain eligible for consideration at all of these Selection Boards (providing they are eligible) but will also be subject to consideration for command and staff assignments within their specialist areas through processes detailed elsewhere.
(2) Selection of the Commanding Officer of the Special Boat Service (SBS) is the responsibility of the SF Command Board chaired by Director Special Forces (DSF), who will consult with CGRM to ensure the Naval Service interest and officer career management issues are taken into account. Once CO SBSRM has been selected HQ DSF will inform NCHQ (Fleet Commander). The SF Command Board considers all SF commands that will become available in the period approximately 12 months after the Board. Suitably qualified RM officers remain eligible for all SF commands, including CO SBS, CO SRR, CO SAS(V), CO 18 Sigs Regt. Officers will come into zone for selection between 1-4 years seniority when the Command is due to become available. Officers selected to command the SBS will not be considered for other OF4 RM command.

(3) Selection for Special Forces sub-unit command (SBS, Special Reconnaissance Regiment (SRR) and Special Air Service (SAS)) is the responsibility of the SF OF3 Sub-unit Command Board chaired by DSF. The SF OF3 Sub-unit Command Board normally sits in October and considers all SF commands that will become available in the period approximately 12 months after the Board. Suitably qualified RM officers remain eligible for all SF commands. Officers will come into zone for selection between 2-4 years seniority in the year in which the Board is convened. Officers selected for SF sub-unit command will not be considered for other OF3 RM command.

c. Each MCB will be guided in their selections by consideration of the following criteria:

(1) **Command and Leadership Skills.** The ability to lead Marines in war and peace, and possession of the mental and physical robustness to withstand the strains of command.

(2) **Professional Skill.** The professional knowledge, ability and experience commensurate with the demands of command at the appropriate level.

(3) **Merit.** Merit is an inherent factor in the selection process in order that the opportunities presented by command are used to ensure that officers with the appropriate reach and potential for promotion gain the requisite experience.

d. **Eligibility.** Candidates will be considered eligible for consideration at MCB as follows:

(1) **OF3s.** OF3s will come into zone for MCB1 on completion of their post ICSC(L) initial staff assignment or, if they wish to defer command, on completion of their subsequent staff assignment. MCB1 will only consider RM Direct Entry (DE) candidates who fall within the assignment cycle of sub-unit posts for the following 12 months. In exceptional cases Sub-Unit Command posts beyond 12 months will also be considered. OF3s will be considered out of zone after three failed sittings at the Board or if, having been selected, turn down the command assignment.
(2) **OF4s.** OF4s will come into zone for MCB2 between 2-4 years seniority in the year in which the Board is convened. In exceptional circumstances, the Naval Secretary may direct that either over-zone or under-zone officers may be considered to support the exigencies of the Service.

(3) **OF5s.** Officers will come into zone for consideration for OF5 Command when they are selected for the OF5 Promotion Pool. MCB3 has been superseded by FSOAB which selects for OF5 Commands. This process is managed by the Naval Assistant.

e. **Timings.** Each year, MCB1 will sit in November and MCB2 will sit in March.

f. **MCB Membership.** Membership of respective MCBs is detailed below:

<table>
<thead>
<tr>
<th></th>
<th>MCB1</th>
<th>MCB2 – FSB</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chair</td>
<td>RM OF6</td>
<td>CGRM</td>
</tr>
<tr>
<td>Board Member</td>
<td>RM OF5</td>
<td>NAVSEC</td>
</tr>
<tr>
<td>Board Member</td>
<td>RN OF5</td>
<td>DCGRM</td>
</tr>
<tr>
<td>Board Member</td>
<td>Post-Command RM OF5/4</td>
<td>BDE COMD</td>
</tr>
<tr>
<td>Board Adviser</td>
<td>CM OF RM2</td>
<td>CM OF RM SO1</td>
</tr>
</tbody>
</table>

g. **Grading.** Individual officers considered at MCBs will be placed in the following categories:

(1) **List A.** ‘A’ grade officers will be placed in the Command Pool for consideration for forthcoming command opportunities.

(2) **List B.** Officers who have not been selected for List A will remain as “review candidates” until they are selected for command, pass out of zone for command selection, are deemed no longer worthy of serious contention for command, or do not wish to command.

(3) **List C.** Officers who are deemed unsuitable, or are going out of zone for command selection, or do not wish to command.

h. **MCB Process**

(1) **MCB1.** Board Members will read the Officer’s Records (OR) (see Note 1) of all eligible officers out-of-session and grade them on a scale of 9 to 1 in relation to the criteria given at Para 23 sub para c above (see Note 2). In-session, scores of all the Board members will be aggregated and candidates placed in an order of merit (OOM) (see Note 3). The OOM is then considered and agreed. The top candidates in the OOM equivalent to the number of command assignments available plus reserves are placed in List A and the remainder of the candidates placed in List B or List C.
Notes:

1. A candidate’s OR consists of all OJAR reports dating back 6 years including their ICSC(L) and any other career course reports, letters of Commendation and Censure, and an extract CV sheet.

2. An officer who shows distinct potential to succeed in command at this time and for whom command experience will be necessary for his likely career profile.

3. To avoid serious discrepancy in grading between Board members, the Adviser will bring to the attention of the Board any case where there is a disparity of more than 2 scored points. The Members concerned will be asked to resolve their grades to a maximum disparity of 2 points.

2. MCB2. The FSB reads the candidates’ ORs (see Note) out-of-session and vote individually on each of the candidates using the voting categories of 9 to 1. In-session, votes are totalled and candidates placed in an OOM. The OOM is considered and agreed. The top candidates in the OOM equivalent to the number of command assignments available are placed in the OF4 Command Pool (List A). There is no fixed number for the size of the Command Pool, however as a guideline 1.5 times the requirement is generally appropriate. The remainder of the candidates are placed in List B or List C.

Note. A candidate’s OR consists of all OJAR reports dating since substantive promotion to Major and to include ICSC and ACSC (including equivalent foreign service course) reports, letters of Commendation and Censure, and an extract CV sheet.

i. Assignment Allocation and Approval. Following selection into the MCB2 Command Pool, CGRM (Head of Arm) will allocate Officers to the Operational and Shore Commands, advised by SO1 RM; these nominations will then be approved by Fleet Commander. For candidates selected at MCB1, the Board Adviser will take guidance on the allocation of assignments from ACOS(PCap) OCM SO1 RM and nominations will be endorsed by CGRM.

j. Promulgation of Results. Names of those officers selected for OF3 and OF4 command will be promulgated by signal on completion of the MCB process. OF4s will be informed by ACOS(PCap) OCM SO1 RM and OF3s will be informed by OCM RM2. Officers on List C will be notified by their Career Manager.

24. CAPPs Command Selection Board (CCSB)

a. Applicability. Any assignment that is designated as a Command Assignment and which appears on the CAPPs list will require selection through the CCSB. This is likely to include most SO1 Shore Command assignments and some subordinate Command assignments.
b. **Zone Criteria.** There are no zones for CCSB assignments.

c. **Nomination.** CMs are responsible for nominating suitable individuals who meet the requirements of the relevant job spec and the desired qualities outlined in Para 7 above. Unless previously agreed, each CM should nominate no more than one candidate.

d. **Evidence.** The CM of the nominated candidate should present the following evidence for perusal at the CCSB:

1. CV Sheet.
2. All Termination appraisal reports in current rank.
3. Termination appraisal reports from all previous periods in Command or as an XO.
4. Advanced Command and Staff Course report (inc. equivalent foreign service course)
5. Letters of Commendation or Censure.

e. **Board Composition**

<table>
<thead>
<tr>
<th>CCSB Composition</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chairman</td>

</tbody>
</table>

f. **Board Procedure.** Nominees will be proposed by their CMs and Board Members will vote and decide on the most suitable candidate for the Assignment. On completion of the CCSB it is the responsibility of the CMs to inform their candidates of the outcome of the Board.

g. **Promulgation of Results.** The names of successful candidates will be signalled.
25. **FSOAB**
   Full details of the FSOAB process can be found in Chapter 60 Section 4.

26. **Subordinate Command**
   (Inc. Professional Command, Support Command, Training Command, Sub-Unit Command)
   
a. **Zone Criteria.** The Service Requirement can be met from officers across the seniority range of the rank pertaining to that assignment. Suitable candidates will be short listed by Career Managers and presented to the Board. Candidates should be aware that assignments will be governed by well-established Career Management criteria, to include the Service Requirement and FAD, rather than the individual’s desire to remain in competition for a Command assignment.

b. **Evidence.** The following reports will be presented in a candidate’s file:
   
   (1) CV Sheet.

   (2) All appraisal reports for the last 4 years (from date of the board) and all reports from seagoing and Op Tour assignments.

   (3) ICSC/ACSC reports.

   (4) Letters of Commendation or Censure.

**d. Timings**

(1) For OF3s – early March in accordance with the following selection to employment cycle.

- Mid Feb - Yr X
- Early Mar - Yr X
- Mid Mar - Yr X
- Sep - Yr X
- Sep - Yr Y
- CC-FTC Tfr Bd
- PCSB
- 1st planned Yr X
- PCSB Assignments
- 1st planned Yr X
- PCSB Assignments

(2) For OF4s – as required.

e. **Board Procedure.** The PCSB considers and grades candidates against current rank, although in procedural terms this is seamless and all candidates are discussed at the same formal meeting.

(1) All eligible personnel are entitled to be seen by the Board at least once. Career Managers will provide advice to members of their plot on the optimum time within their career for a Subject Officer’s file to be presented.

(2) The complete files for all candidates at each board are seen by all Board members. Each member reads and grades individually prior to the Secretary collating the individual members’ provisional results for presentation when the Board meets in formal session.
(3) At the formal session a single, final, agreed, grade will be decided. Where appropriate, successful candidates will be promulgated by signal.

(4) Following the Board, Career Managers will allocate those officers selected to available units.

27. Exclusions
All OF2 assignments holding Command status will not require Boarding. Assignment action remains the responsibility of the appropriate OCM.

28. Notification
Successful selection will be promulgated by:

b. Sub-unit Command, Training and Support Command selections – by OAL.

c. CCSB selections – by OAL.

Notes:

‘A’ – Normal Assigning/Boarding process as required (appropriate CM OF SO1/DACOS(CM)).

‘A1’ – Small Vessel Command Selection Board with Flotilla representatives chaired by Capt MFP.

1. STCW, CQ1.
2. CQ(A)1.
3. STCW, CQ2.
4. Or STCW, CQ2(MPH).
5. CQ(A)2.
6. SMCC.
7. See AASB Eligibility Table.
8. Second Sea/Air Command Assignment.
11. The requirement for T23 Command at OF5 will be adjusted to meet operational demands, as identified by COMOPS.
12. Endorsement only – often, because of the specialist nature of the billet there may be only singleton officers available for the post and the relevant Board will be asked to endorse the candidate put forward.
13. 18 months Qualifying Sea Service and qualified PNO prior to assuming Command.

7. ICSC(L).
8. ICSM(M).
9. ACSC/psc(j). In order to be eligible for RMR command, an RMR OF4 must, as a minimum, have attended ACSC (Reserves).
10. Candidates need not be LCO Qualified.
11. Bi-Service Rotation Army/RM.
1. Introduction
Local Foreign Service (LFS) assignments include all assignments overseas, eg. exchange, loan, NATO, attaché positions etc. Officers, ratings and other ranks may be selected for LFS assignments. It is important that personnel selected for these assignments are free from financial, domestic or other such problems and CMs may need to question potential nominees in detail on these matters and explain the necessity for medical screening of spouses and families. Nominations for this type of assignment should be considered as early as possible in order to allow sufficient lead time to enable personnel to make timely arrangements for education, medical examinations etc.

2. Detailed Instructions for Career Managers
The pre-requisites and assigning instructions for the types of overseas assignments are at Annex 59C.

3. Individual Considerations
Personnel who have been assigned to or are considering volunteering for overseas assignments should take account of the following:

a. Medical Requirements. There is international variation in the provision of healthcare which is delivered in varying environmental conditions. In order to ensure the safety of individuals and their dependants, a rigorous medical screening process is in place. This is undertaken by the Global Medical Supportability Cell (GMSC) and further details on the end-to-end process can be found in the following DINs:

   (1) **2019DIN01-099.** The provision of healthcare overseas to the Defence Global Network.

   (2) **2019DIN01-100.** The Global Medical Support Cell declaration of Initial Operating Concept (IOC) on 1 Jul 19.

b. Individual Responsibility. Upon receipt of an LFS Assignment Order, individuals must commence the screening process. If a recommendation of medical supportability is not obtained the individual will be required to serve unaccompanied or the assignment order be cancelled. Annex 59C contains further detail for CMs. Individuals must contact Families Section upon assignment to commence the screening process, which is conducted by the GMSC, as follows:

   (1) **Families Section.** DESDSCOM-FamSec-Gp@mod.gov.uk 030 679 81013 / 9679 81013.

   (2) **GMSC.** SGDPHC-O-GMSC-GroupMailbox@mod.gov.uk 01543 434706 / 94422 4706.
c. **Dental Treatment.** Before proceeding overseas, it is essential that all personnel and their dependants receive a dental examination and that any necessary treatment is conducted. Detailed guidance on dental treatment overseas may be found as follows:

(1) **2017DIN01-081.** Instruction for Service and Entitled Personnel Serving Overseas who Receive Dental Treatment from Non-Service Sources.

d. **Education.** The range and standard of education available overseas varies widely. Personnel with children of school age are strongly advised to seek advice, in order to ensure that their children will receive the best possible education. Detailed information on overseas schooling and on boarding education in the UK is contained in JSP 342 'The Education of Service Children'. Information is also available from the Children's Education Advisory Service:

Senior Education Officer  
Children's Education Advisory Service  
Trenchard Lines  
Upavon  
PEWSEY  
Wiltshire  
SN9 6BE  
Telephone: (Mil) 94344 8244 (Civ) 01980 618244

e. **Single Parents.** Being a single parent is not itself a bar to an individual being assigned overseas, however, in some foreign countries there are specific laws concerning arrangements for child care (ie. the employment of au pairs, nannies etc.) and thus there may be special difficulties which single parents might face.

f. **Equality and Diversity.** The UK MOD remains an equal opportunity employer and does not discriminate on the grounds of any of the protected characteristics as defined in the EA 2010. However, Service personnel should be aware that the laws and local traditions of countries other than the UK may differ. The relevant Memorandum of Understanding (MOU) or Status of Forces Agreement (SOFA), as well as the Foreign and Commonwealth Office website, will detail the local laws to which UK SP are subject whilst serving in that location. Individuals are not required to disclose some of the protected characteristics personal details to their Career Managers. However, before accepting any foreign assignment, SP should ensure they understand and have considered the implications of any local laws to which they may be subject whilst in post. Once assigned, SP are to ensure that, where necessary, they can comply with the laws of the host country.
4. **Recommendation for Overseas Service (LFS) – Officers, Ratings/Other Ranks**

a. CMs rely initially on the recommendations contained within ARs (OJARs/SJARs) concerning the suitability of volunteers for service overseas. An individual stating a preference for LFS should have a supporting recommendation in both the text and the Future Employment check box.

b. Before issuing the assignment order for any Officer, Rating or Other Rank to an overseas billet, ACOS(PCap) is to signal the individual’s current unit, info NAVY PSYA PORTSMOUTH, for a recommendation of suitability to serve on LFS using the signal template at Appendix 1 to Annex 59B. PSYA is to raise any objection to such an assignment within seven days, after which the unit CO’s response should be sent. Personnel assigned as emergency reliefs at short notice may have to be assigned without clearance. Recommendations for personnel being considered for Loan or Exchange Service will be sent by letter. In coming to a decision to recommend an individual for service overseas, it is essential that they are interviewed by their CO or delegated officer.

c. In replying to any request for a recommendation of suitability, the CO is to state whether or not the subject is fully recommended. In considering such a recommendation the guidance in Appendix 1 to Annex 59B is to be followed. If the individual is not recommended, the reply should give the relevant sub-paragraphs from the Appendix, e.g. ‘not recommended, Paragraph 2’. This will provide the basic information needed, whilst obviating the need to signal detailed personal information.

d. Both the request and the reply are to be treated as OFFICIAL. Information provided will be used solely for the purpose of assessing suitability for the overseas assignment under consideration. Individuals who are not recommended will not be debarred from future consideration for such assignments.

e. It is acknowledged that circumstances can change between initial recommendation and actual assignment. If it is assessed that an individual has become unsuitable for overseas assignment, ACOS(PCap) is to be informed as soon as possible regardless of proximity to the date of travel.
APPENDIX 1 TO ANNEX 59B

REASONS FOR NON-RECOMMENDATION FOR LOCAL FOREIGN SERVICE

1. By Officers, Ratings and/or Other Ranks current Commanding Officer
   Subject does not meet the highest standards required of this LFS assignment for the following reason(s) (use indicator letter only).

   a. Discipline. A series of recent minor offences might indicate a lack of stability which might make the rating unsuitable for service overseas. If there is a possibility of the individual being connected in any way to an ongoing RNSIB investigation, the RNSIB is to be consulted.

   b. Drug Abuse. A history of drug related problems will normally prevent personnel being assigned to LFS.

   c. Alcohol Abuse. A history of alcohol-related problems merits particularly careful consideration and will normally prevent personnel being assigned to LFS.

   d. Welfare. Overseas assignments can be quite stressful for the most stable of marriages/families. The relevant area RNRMW office should be contacted in cases where there is a current welfare problem, or one which might re-open if the Officer/Rating/Other Rank or their family were abroad, which might indicate unsuitability for service overseas. In the case of unaccompanied service, the Officer/Rating/Other Rank’s ability to cope with separation is relevant. Many and varied stresses are placed on otherwise stable marriages during an LFS assignment.

   e. Financial. The financial affairs of personnel assigned to LFS must be beyond reproach. COs should remember that banking facilities abroad are not the same as those in UK.

   f. Other. Amplify as appropriate.

2. By Medical Officers
   Does not meet the medical requirements set out in BR 1750A, Paragraph 1601.

App 1/59B-2 of 2
February 2020 Version 1
ANNEX 59C

GUIDANCE FOR CAREER MANAGERS ON LOCAL FOREIGN SERVICE (LFS) ASSIGNMENTS

1. General

a. Selection

(1) It is particularly important that personnel selected for LFS assignments are free from medical, financial, domestic or other such problems. They must have an in-date passport and visas as appropriate. It is recommended that all nominations to overseas assignments are made with the maximum possible lead time to enable families to make timely arrangements for education, medical examinations etc.

(2) In considering relief dates, CMs must take into account school holidays in addition to closed periods for assigning.

(3) The UK MOD remains an equal opportunity employer and does not discriminate on the grounds of any of the protected characteristics as defined in the EA 2010. However, service personnel should be made aware that the laws and local traditions of countries other than the UK may differ. The relevant Memorandum of Understanding (MOU) or Status of Forces Agreement (SOFA), as well as the Foreign and Commonwealth Office website, will detail the local laws to which UK SP are subject whilst serving in that location. Individuals are not required to disclose the details of all protected characteristics to their Career Managers. However, in considering any foreign assignment, CMs should ensure that SP understand and have considered the implications of any local laws to which they may be subject whilst in post.

b. Pre-Joining Information

(1) The current unit will provide direction and guidance to individuals who are assigned to overseas posts, ensuring early engagement with DSCOM Families Section, DCYP and the receiving unit as required. It is imperative that Annex A to JSP 770 Chapter 2A is completed at the earliest opportunity to ensure that any presenting issues are identified and addressed accordingly.

(2) Personnel who serve overseas in their last effective assignment in the Service before retirement will normally be returned to UK in sufficient time to permit them to take Terminal Leave and any Graduated Resettlement Time (GRT) for which they may be eligible. However, before finalising such assignments, CMs should inform them that they will be unable to return to UK at public expense for resettlement activities prior to the end of their assignments. Personnel should be advised to seek further details on their eligibility for resettlement provision from Naval Resettlement Information Officers (NRIOs).

(3) Once personnel are overseas, they are administered by the JFC Global Support Unit in Glasgow.
c. **Closed Periods for Assigning**

(1) When relief dates are being considered for LFS assignments, CMs should take account of designated closed periods (see below), school holiday periods and the financial implications of school visits for both incoming and outgoing personnel. The periods indicated below should be avoided when reliefs are being planned for the following assignments:

(a) **USA.** Christmas to early January.

(b) **Norway and Denmark.** December to March.

(c) **Canada.** November to February.

(d) **Australia.** December and January.

d. **Medical Screening for LFS Assignments.** The quality of healthcare, provision of medicines and environmental factors vary widely internationally; therefore to ensure that the health needs of service personnel and their dependants are assessed correctly, a rigorous screening procedure is in place. Primarily, this is to ensure the safety of personnel and their dependants, but it also limits the complications that can arise when all family health factors have not been assessed fully.

e. **Guidance for Career Managers.** Within Defence Primary Healthcare (DPHC), the Global Medical Supportability Cell (GMSC) has been established to ensure that Service Personnel and their dependants can receive safe and appropriate care during the LFS assignment. To enable this, the GMSC undertakes centralised screening of dependants and tracking of Service Personnel within the Global Virtual Practice (GVP). The administrative process for this is as follows:

(1) **Serving Accompanied.** The individual must contact the Families Section at Defence Support Chain & Operations Management (DSCOM), which will provide and collate necessary screening for dependants (medical and educational). This must occur 6 months prior to assignment date, or as soon as the Assignment Order is issued (if later). The CM must also contact the GMSC to inform it of the requirement and enable tracking of the medical screening, and GMSC will communicate the final screening recommendation.

(a) **Families Section.** DESDSCOM-FamSec-Gp@mod.gov.uk 030 679 81013/9679 81013.

(b) **GMSC.** SGDPHC-O-GMSC-GroupMailbox@mod.gov.uk 01543 434706/94422 4706.

(2) **Serving Unaccompanied.** The CM must also inform the GMSC of unaccompanied LFS assignments. This is to enable the GVP to maintain tracking of the individual's medical care.
(3) **Consecutive LFS assignments.** In the circumstance that the CM plans to assign an individual from one accompanied or unaccompanied LFS assignment to another, then the above screening process must still be followed.

(4) **Non-supportability.** There will be cases where the GMSC is unable to issue a recommendation of medical supportability for a planned LFS assignment. Depending on the specific circumstances this may result in the CM either cancelling an Assignment Order or requiring an assignment be unaccompanied. In the event that either the individual or their CM intends to proceed with an accompanied LFS assignment, despite a GMSC recommendation of medical non-supportability, the case should be reviewed by DACOS CM, DACOS Medical Personnel and Policy, and SO1 Employment Law.

(5) **Assignment Order.** When issuing the accompanied LFS Assignment Order, CMs are to ensure that the following are added as Notes:

(a) This LFS assignment is subject to satisfactory pre-screening checks.

(b) Contact Families Section DESDSCOM-FamSec-Gp@mod.gov.uk 030 679 81013/9679 81013.

(c) Failure to complete satisfactory pre-screening will result in either an unaccompanied or cancelled assignment.

(6) **GMSC Further Details.** Further details of the GMSC may be found in the following DINs which detail the end to end medical screening process

(a) **2019DIN01-099.** The provision of healthcare overseas to the Defence Global Network.

(b) **2019DIN01-100.** The Global Medical Support Cell declaration of Initial Operating Concept (IOC) on 1 Jul 19.

f. **HIV Testing of Personnel Attending US Military Training Courses.** The Principal Personnel Officers (PPOs) of all three Services have agreed that the UK will comply with the requirement for personnel to be tested for HIV prior to attending training courses in the USA. The testing requirement relates solely to those undertaking military training courses and does not include families who may be accompanying those personnel. RN Medical Officers have received suitable instruction in the obligatory counselling required as part of the testing process. Testing should be arranged by the individual concerned through their unit medical centre.

g. **Language Training - Eligibility.** Only officers and ratings on the trained strength, taking up specific assignments with a foreign language requirement ie. attachés and loan service personnel, are entitled to language training at public expense. Officers assigned to Overseas Staff Courses are also eligible for appropriate language training. Course details are published annually by Joint Service DIN.
h. **Administration of Appraisal Reports**

(1) For assignments to LFS and seconded posts, CMs need to identify a clear reporting chain for the individual before they take up the position. CMs are to take particular care to ensure that appraisal reports are rendered at the appropriate time on RN personnel in non-RN posts eg. loan/exchange positions, attachés etc. Where necessary, CMs are to communicate personally with the reporting officer providing details of the JPA offline reporting process\(^1\).

(2) All exchange and attaché posts now have a nominated Fleet 1 Star sponsor. They will be responsible for providing a staff officer of appropriate rank to act as mentor and administer the reporting chain. Details of the sponsors will be published by DIN.

i. **Personal Security Defensive Briefing and Debriefing.** Details of countries where a significant security threat exists can be found in JSP 660\(^2\). Information on briefing and debriefing requirements for personnel assigned to these countries can also be found in the JSP. If in any doubt as to whether there is a requirement for a security briefing, then advice can be sought from NAVY PSyA-CI CPO (VB 9380 27141). This does not apply to officers being considered for Attaché or Adviser posts for whom separate instructions apply (see Para 3 below).

j. **Security Clearance.** Where an overseas assignment requires a DV clearance, CMs should ensure that the Security Clearance (SC) will remain valid for the entire period. If the expiry date falls during the assignment the clearance is to be renewed prior to departure. SC can be obtained through the SYVETT cell using the application form at Appendix 1 to Annex 59C.

k. **NATO Security Clearance.** Personnel assigned to any NATO position require a NATO Security Clearance Certificate; these can be obtained though the SYVETT cell using the application form at Appendix 2 to Annex 59C. If the position also requires DV clearance the SC certificate can be requested concurrently with the DV application. (See Para 5805)

2. **NATO and EU Assignments**

a. **Selection Policy**

(1) NATO experience should be regarded as an important element of career building for officers destined for senior assignments. The Chiefs of Staff policy on NATO representation requires that UK influence and effectiveness be maximised within the constraints imposed by available manpower. Current Operations together with commitments to the NATO Response Force all require British staff in many NATO assignments to be available for operational deployment world-wide. The following guidelines are intended to assist CMs in their selection process and to advise on the liability for deployment from NATO HQs.

---

\(^1\) JSP 757 - Tri-Service Guidance for Appraisal Reporting.
\(^2\) JSP 440 Part 6 Section 4 Personnel Security – Travel and Contacts.
(a) The ACO second level headquarters at Brunssum, Naples and Lisbon will all be required to find from their PE the staff for Deployable Joint Task Force (DJTF) headquarters. All positions, therefore, should be filled by personnel capable of world-wide deployment.

(b) The ACO third level air component command headquarters at Izmir and Ramstein will be fully deployable. The maritime components at Northwood and Naples will also have a deployment capability for operations at the higher end of the spectrum but the land components at Heidelberg and Madrid should be static (their deployment tasks being undertaken by High Readiness Forces (HRF)).

(c) All personnel on the strength of the various HRF headquarters, STRIKEFORCE SOUTH and similar formations should be considered as filling potential war-fighting assignments.

(d) All other NATO entities and agencies are less likely to be heavily involved in deployed operations but could still be requested as augmentees or specialists. Therefore, direct discussions with line managers and the relevant Senior British Officer (SBO) should take place before assigning personnel with significant employability caveats to such positions.

b. Nominations

(1) CMs are to forward nominations to the SBO at the appropriate NATO HQ using the appropriate nomination format available as detailed on the CAPPs web page. Details vary slightly between Commands and are as follows:

(a) **NATO HQ Brussels, IMS Brussels, MAS and EU Military Staff.**
Nominations for all assignments are to be addressed to:

Chief of Staff of UKMILREP, NATO HQ, BFPO 49

(b) **SHAPE.** Nominations, accompanied by biographical details in the format detailed on the CAPPs web page should be forwarded as indicated below. It may be appropriate to forward extra details for the most senior assignments.

i. **SHAPE HQ - Nominations for Captains:**

UKNMR SHAPE BFPO 26

ii. **SHAPE HQ - Nominations for SO1s and below:**

Deputy UKNMR (Navy) SHAPE BFPO26

iii. Major Subordinate Commands and Principal Subordinate Commands. Appropriate HQ Senior British/ Naval Officer.
All nomination letters, if not addressed to Deputy UKNMR (Navy) at SHAPE should be copied to them for information, because they are the Commanding Officer of the RN elements at SHAPE and NATO HQ and the MOD Representative in ACE for Naval establishment and manning matters.

(c) **SACT.** Nominations should be forwarded as indicated below. Nomination letters should indicate the officer's "prospective rotation date" ie. FAD. A copy of the nomination is also to be forwarded to the appropriate local UK representative:

SACT HQ, ACT ASW Research Centre La Spezia, SACTREPEUR.

DEPUTY SACT, SACT HQ, Norfolk Va. 23511 USA.

Copy to: Security Officer, Naval Party 1964, BFPO 493.

(d) **COMNAVNORTH.** As for nominations to CINCFLEET.

c. **Pre-Joining Courses and Briefings**

(1) A number of NATO assignments have a potential commitment for operational deployment to theatre HQs. Personnel assigned to a NATO billet who are aware of a commitment to deploy during the first year of their tenure should attend RNMC for IPDT prior to commencing their assignment. Those who start a NATO assignment and are subsequently told that they are deploying, should return to UK for IPDT at RNMC. Equipment and clothing will be provided in theatre.

(2) Personnel should attend the following briefings before taking up their assignment:

(a) **NATO Command Structure Assignments.** (HQ NATO, SHAPE, SACT, JFC Brunssum, JFC Naples, ACCs, MCCs, JSRCs, 280 Sigs, ACCAP) and EU assignments:

Those posted to NATO Command Structure & EU assignments should make contact with the appropriate desk officer within the NATO and European Policy Group (Directorate for Policy on International Organisations (DPIO)) and, in addition, should attend one of the two NATO and EU Briefing Days that DPIO organise each year.

(b) **NATO Force Structure Assignments.** (HQ ARRC, UKMARFOR and other High Readiness Force Headquarters):

Those posted to NATO Force Structure assignments should attend one of the two NATO and EU Briefing Days that DPIO organise each year.
(c) **Naval Staff Briefing.** All personnel assigned to NATO/EU or UN posts, including those destined for the NATO Defence College (NDC), are, if possible, to attend a Briefing Day before taking up their assignment. The Briefing Days are held twice per year in MOD Main Building; details of dates and availability of places are available from DPIO-SO2 COORD.

(d) **Deployment in Support of Peacekeeping Operations.** All officers posted to NATO Joint or Regional Headquarters are liable for onward deployment to any area on peacekeeping operations. CMs should therefore comply with instructions on pre deployment training for all such assignments.

(e) **NATO School Oberammergau.** The list of courses at the NATO School Oberammergau is published annually in June for the following year. NAVY PCAP-BUSMAN ASSIST coordinates all bids for attendance on courses.

d. The priority for briefings for SO1 and below is the appropriate DPIO brief and NATO Orientation Course at Oberammergau. CMs should make every effort to ensure that personnel destined for NATO posts, especially for the first time, attend these courses.

3. **Defence Attaché and Embassy Support Staff Posts**

   a. Defence Attaché (DA) and Embassy Support Staff (ESS) posts come under the auspices of the FCO and the Defence Engagement Strategy – Overseas Support (DE STRAT OS) Staff. Advice is available from (DE STRAT OS), Preparation and Post Support on (020 721) 9621 82053/87154. An Aide Memoire for CMs when considering a nomination for an attaché post can be found at Appendix 3 to Annex 59C.

   b. Officers being considered for attaché posts are to be warned that they must exercise discretion concerning the assignment and should discuss it only with persons who have a ‘need to know’. This applies even after the assignment has been confirmed. CMs are to bear in mind the onerous social obligations which will be demanded of the officer’s spouse and the possible domestic difficulties which might be encountered. In the likely case that the spouse is unknown to the CM, careful enquiry of the officer concerned will be necessary to obtain their assurance that these obligations are acceptable to their spouse.

   c. **General Requirements.** Nominees for DA and ESS posts will require the following:

      1. DV clearance, valid for the whole period of the posting.
      2. Diplomatic security clearance (only for DA nominations).
      3. British passport (and their spouse’s (see Para 3 sub para e)).
      4. Medical and dental fitness (and dependants).
d. **Diplomatic Security Clearance.** This is obtained by Navy PSyA from the FCO security authorities. When first considering an individual for a post of this kind and before entering into any undertaking with the individual concerned, the CM is to contact Navy PSyA Aftercare SO3C in writing to ascertain if there is any likelihood that the individual might not be granted diplomatic security clearance. There is to be no exception to this procedure. If the individual already holds a DV clearance, and a favourable response is received from Navy PSyA, the CM may proceed with the nomination process. In cases where the individual does not hold a DV clearance, Navy PSyA will not usually be able to express an opinion (except perhaps, exceptionally, an unfavourable one). In such cases, at the time of writing to Navy PSyA, the CM should initiate an application for DV clearance making it clear that it is for diplomatic purposes. A minimum of 6 months must be allowed for completion of the DV clearance procedure. When the clearance has been awarded Navy PSyA will provide an opinion on the individual’s suitability for diplomatic security clearance. In cases where the individual holds a DV which will expire during the course of the proposed posting, a full DV review is to be initiated at the same time as the initial contact with Navy PSyA; it is an FCO requirement that personnel hold DV which is valid for the whole of their tour. Again, it should be made clear the review is for diplomatic posting purposes. The request for formal security clearance will be made by Navy PSyA to FCO when full DV clearance is completed. Diplomatic clearance from the Ambassador at Post will not be forthcoming until security approval has been given; it is therefore imperative that the security process is completed at the earliest opportunity.

e. **Nationality Requirement.** The FCO requires that the individual must hold a British passport endorsed: "British Subject: Citizen of the United Kingdom and Colonies". Non-British spouses do not normally need to obtain a British passport, but this is strongly recommended for certain countries. In deciding upon the acceptability of an individual and their spouse for service at an Embassy/High Commission, the FCO must also take account of:

1. The nationality, if not British, of the individual’s parents and those of their spouse.
2. Details of any family connections in the country to which an individual is being posted.
3. Details of the individual’s schooling if this was not in UK.
4. Whether the nominee is divorced and, if so, whether they have remarried. (The circumstances of the divorce should also be described if the information is available.)
f. **Medical and Dental Fitness.** Careful consideration should be given during the selection stage (ie. prior to making a nomination to DE STRAT OS to nominees and/or their dependants who have a doubtful medical history or who have recently had major operations and who may, in consequence, need to return to UK for check ups outside home leave periods. CMs should carefully consider this aspect to ensure as far as possible that candidates and dependants thought likely to incur high medical or dental costs overseas should not be nominated for Embassy/High Commission duties. Reference is to be made to dependants' health, as revealed by screening, in the biographical details of the officer at the time of nomination to IPP-OS DE STRAT - OS staff.

g. **Nomination and Assignment**

(1) **Defence Attachés**

(a) Once the nominee has both DV clearance and Navy PSyA's preliminary acceptance of suitability for diplomatic clearance, the CM is, simultaneously, to:

i. Request Navy PSyA arrange for diplomatic security clearance.

ii. Nominate the officer for the attaché position, using the format available on the CAPPs web page, by e-mail to meet the nomination deadlines promulgated in the Attaché Lists and in the CAPPs List. These are to be followed by hard copies of the nomination as a back-up. IPP-OS DE STRAT-OS Staff will arrange for diplomatic clearance of the nomination with the FCO, after acceptance by MOD and by ACDS(ISP). Nominations for attaché posts should include a reasonably full 'pen picture' of the officer with a description, culled from their reports, of the attributes which bear on their suitability for the assignment. Any statement of service should specify the class of ship or type of establishment in which the officer has served. The nomination should also include details of the nationality and background of the officer and their spouse.

iii. Once the nomination has been approved, IPP-OS DE STRAT-OS staff will write to the officer giving them all the details of their training, preparation and move to post. Whilst the training package is being undertaken the officer needs to be allocated a naval parent admin unit as the IPP-OS DE STRAT-OS does not provide this type of support.

iv. The Assignment Order for briefing and training can be issued as soon as the nomination is approved, however, the assignment to the post itself should not be issued until all the clearances have been received and no sooner than 3 months before its effective date.

(b) A brief on this nomination process can be found within Appendix 3 to Annex 59C
(2) **Embassy Support Staff**

(a) When a post is due relief (with necessary lead time for training), suitable candidates are found via a signal trawl. Once selected and when DV clearance has been arranged their CV is to be sent by e-mail to meet the deadlines as promulgated by IPP-OS DE STRAT-OS staff. If the nomination is approved by the relevant DA, IPP-OS DE STRAT-OS staff will write to the candidate giving them all the details of their training, preparation and move to post. Whilst the training package is being undertaken the rating needs to be allocated a naval parent admin unit as the IPP-OS DE STRAT-OS does not provide this type of support.

(b) Once the nomination has been approved and provided DV clearance has been issued the rating can be assigned to the post.

4. **LFS Exchange Assignments**

a. Assignment of RN Personnel to LFS Exchange Posts

(1) **Selection.** One of the purposes of exchange assignments is to learn about other navies/services and facilitate 'cross-fertilisation'. CMs should, therefore, select personnel who have a worthwhile period of service remaining on completion of their exchange assignment (ie. a minimum of 2 years to serve). CMs may wish to consult NAVY PCAP-CM DACOS COORD SO2C before any action is taken to select personnel for exchange assignments.

(2) **Nominations.** The CM will write directly to the appropriate national, or service, authorities when nominating personnel for exchange assignments. For SO1 and below CMs should use the formats available from the ACOS(PCap) team-site when submitting detail for application. CMs should note the following specific national requirements, and NAVY PCAP-CM DACOS COORD SO2C may have details of other specific post requirements:

(a) **Australia.** In order to allow particulars to be arranged between CMs and Sponsoring Officer, three weeks should be allowed between ‘ready to move’ date and effective date of assignment.

(b) **USA.** CMs are required to include a clear statement of the officer’s security clearance in nomination letters for officers destined for exchange service in the USA.

(c) **Canada.** The standard handover between officers is five working days. In order to balance professional demands with family and housing concerns, officers should be assigned to arrive in country on a Friday with the outgoing officer returning to UK the following Friday.
(3) **Sponsoring Officers.** All exchange posts both at home and abroad have a sponsoring officer. This will be confirmed by NAVY PCAP-CM DACOS COORD SO2C during the nomination process. A copy of the nomination letter should be sent to the appropriate sponsoring officer who will in turn supply the incoming officer with relevant pre-joining information.

(4) **Overseas Deployments to Third Countries During Exchange Tours.**

CMs who administer exchange positions are to ensure that they are made aware in advance of any plans for UK exchange officers to deploy to third countries. When such deployments are envisaged, the following procedures should be followed:

(a) **Deployments within PJHQ’s Joint Operational Area.** Details of the individuals concerned, dates and planned activities should be forwarded to J9 branch in PJHQ. J9 will scrutinise the proposed deployment in relation to jurisdictional and force protection considerations as well as our defence relationships with the nations concerned. They will then take the necessary action to inform or consult Ministers. Where possible, at least 10 days’ notice should be provided to ensure this process can be completed before the deployment takes place.

(b) **All Other Deployments.** Similar details should be sent to the desk in International Policy and Planning with responsibilities for the country into which the deployment is planned. They will then take similar actions to those undertaken by PJHQ J9, as set out above.

b. **Assignment of Overseas Personnel to RN/RM Exchange Posts**

(1) CMs will receive nominations through NAVY PCAP-CM DACOS COORD SO2C from national authorities. Once the nomination has been approved by the relevant Ship or Establishment, CMs are to inform NAVY PCAP-CM DACOS COORD SO2C who will reply directly to the respective national authority and raise a JPA account for the nominated individual.

(2) Navy PSyA should be consulted reference the level of security clearance for the individual when the Ship or Unit position has been identified.

(3) Restrictions on operational deployments may apply. CMs are advised to check any limitations on deployments for overseas personnel prior to acceptance of nomination.

5. **Loan Service Assignments**

a. Detailed arrangements for Loan Service Assignments can be found in JSP468 (Joint Service Manual for the Loan and Secondment of Personnel to Commonwealth and Foreign Forces).
b. In order to comply with JSP 468, CMs must ensure that all personnel to be nominated for Loan Service complete and return the Loan Service application at Annex 1B and Appendix 1 to JSP 468. This must be returned to the CM countersigned by the appropriate SO1 CM then forwarded to DE STRAT-LSP1.

c. Oman. Due to the rising cost of schooling and rented accommodation the Loan Service Oman administration organisation has placed a restriction on the number of children that personnel take to Oman – a maximum of two children in country.

a. Periodically, Exercise ‘Long Look’ is initiated when personnel are exchanged between the Royal Navy and the Royal Australian or Royal New Zealand Navies. This is not Loan Service and is a loan as opposed to an assignment. CMs do not have to initiate clearances or become involved other than to give assigning clearance - not manning clearance - for the period of the loan, ie. there is no plan to assign the individual for whom clearance is being sought away from their present unit and therefore the unit can arrange the exchange of personnel. CMs should be aware that the exchange agreement entails employing a Commonwealth Service Person in place of the UK Service Person and individuals are offered up for loan on the basis of compatibility of employment. It therefore follows that a request for a relief due to the Commonwealth Service Person being incompatible with the UK assignment is inappropriate.

b. As personnel are loaned, Assignment Orders are not issued for Exercise Long Look. Scribble pads are to be used to record individuals' participation.

7. Peace Support Operations

a. The RN now provides manpower to a variety of international peace support operations (PSO) around the world, eg. Bosnia, Kosovo, Sierra Leone, Georgia, Congo, Liberia, Iraq and Afghanistan but other similar operations can and will occur. They may be under National, NATO, EU or UN Command.

b. Most of these posts operate on a six monthly roulement. Those posts not dedicated to a single Branch will be managed through the CAPPS process. They will be allocated to Branches in advance in proportion to the Branch populations. These posts are defined as ‘operationally essential’ and are to be filled as a matter of priority. CMs must work well in advance to ensure that suitable personnel are identified and trained in time to meet deployment targets.

c. Most deployments will require individuals to undertake IPDT/OPTAG Training (SA80 or 9mm as advised) and First Aid training.
8. **Assignment to the USA**

In addition to the general guidance above the following procedure is to be adopted for assigning officers (SO1 and below) to posts in the USA:

a. Career Managers identify potential reliefs for posts in the US. For Commanders, they should discuss by telephone with ANA and for others, with the sponsor officer.

b. Once suitability and timing have been agreed verbally, send BDS(US) (addressed PS/ANA to ensure central administration) a letter enclosing the necessary nomination, CV and Security clearance.

c. In order to enable the necessary administrative actions when an officer is assigned to the USA, a copy of the Assignment Order is to be work-flowed to JPA Position 1298763 in the Embassy. There are mandatory Arrival Briefs held every 2 weeks for all personnel assigned to the USA. Assignment Orders should provide details of this brief (evidence suggests that the attendance at the Arrival Brief ensures a smooth administrative arrival process through challenging US bureaucracy).

APPENDIX 3 TO ANNEX 59C

ATTACHE AND DEFENCE ADVISER POSTS - AIDE MEMOIRE FOR ASSIGNING AND NOMINATION BRIEF

1. Assigning Check List

a. **Career Manager**

   (1) Checks nationality qualifications of officer and their spouse.

   (2) Checks medical and dental fitness of officer and requests medical screening of dependants.

   (3) Seeks PSyA opinion on officer's suitability for diplomatic security clearance and initiates application for DV clearance (if not already held by officer or if clearance expires during the period of assignment (Para 5805)).

b. **NAVY PSyA.** Navy PSyA gives an opinion of the officer's suitability for diplomatic security clearance, either immediately or on completion of the DV clearance process, whichever is appropriate (Para 5805).

c. **Career Manager**

   (1) Nominates officer to Defence Engagement Strategy – Overseas Support (DE-STRAT-OS) using format on CAPPS web page.

   (2) Requests DE STRAT-OS staff arrange clearance of nomination within MOD and ACDS(ISP) as appropriate and diplomatic security clearance with FCO.

d. **DE STRAT-OS.** DE STRAT-OS notifies CM of acceptance of nomination by MOD/ACDS(ISP) staff and details training and briefing requirements.

e. **Career Manager.** The CM issues assignment for briefing and training.

f. **DE STRAT-OS.** DE STRAT-OS notifies CM of FCO Approval (Head of Mission approval and FCO Security clearance).

g. **Career Manager.** The CM then assigns to post itself no more than three months before effective date (Para 6106).
2. Nomination Information

a. Nomination and Training Dates. Training packages for Attachés are carefully tailored and contain little flexibility. Of late programmes have become more complex and greater use has had to be made of fixed date courses. Additionally, Heads of Mission have indicated a need for earlier nomination for approval. It is therefore crucial that the nomination and training dates are strictly adhered to. Before Attaché training can start DE STRAT-OS staff must have details of the nominated officer so that the necessary clearances can be obtained from within MOD and then, through the Foreign and Commonwealth Office, from the receiving Ambassador or High Commissioner.

b. Nomination Date. Clearance of Service nominations for attaché assignments through MOD and FCO usually requires a minimum of three months. It is therefore vital that nominations are made by or during the month indicated in the CAPPS Book.

c. Intro-Training Date. Whilst many threads to attaché training programmes may be common, the preparation path for each assignment is unique. Many of the training opportunities, which are out of DE STRAT-OS Staff’s control, are held on fixed dates. Moreover, some language training provided by DSL is also limited to fixed course dates. It is therefore vital that officers are released for attaché training in accordance with the information provided in the CAPPS book and in the DE STRAT-OS nomination letter. Any delay will inevitably result in significant delay to the date of arrival in post.

d. Career Briefs. Details of nominees for attaché posts should be comprehensive and tailored to the specific skills sought by the assignment job specification. Career briefs should not dwell unduly on early career; instead, a candidate's performance and qualities demonstrated over their more recent assignments are of greater value to the approving authorities - particularly the Head of Mission. In addition to high personal qualities, the general experience sought of a nominee includes a wide service background, joint service experience or training (such as JSDC or psc(j)) and a wide knowledge of broader single service operations and tactics. For attachés going to singleton Defence Attaché posts, nominees are often sought who have experience of the other Services' activities. Experience of a major command HQ or of Whitehall is an advantage and, increasingly, budget experience is also valuable. It is essential that the nomination includes, if appropriate, the nationality of spouse and the dates of birth of dependent children, particularly those intending to reside in country.

e. Security Clearance. Attachés are required to hold a DV security clearance prior to DE STRAT-OS Staff briefings and the attaché training at the Defence Intelligence Security Centre (DISC) at Chicksands. For nominees who already hold a clearance, the DV must be valid for the entire length of their tour. To allow for any extensions in post, an attaché should have a DV with at least four years to run on assignment. For residential posts, normal single-service clearance procedures are followed immediately by an FCO security department clearance. The FCO element must be completed at least 3 months before the attaché travels to post. The FCO continues to require the files for attachés who have a DV clearance that will run beyond their expected date of return. Letters of nomination to DE STRAT-OS Staff should include confirmation that, where necessary, priority DV and FCO security clearance has been set in train.
f. **Confidentiality of Assignments.** Crucial to the success of nominations is the approval of the nominee's future Ambassador or High Commissioner (Head of Mission). Until that Head of Mission approval is given, a nominee remains very much a proposal for an assignment. Heads of Mission have been known to reject a proposed attaché; in such cases MOD has been required to choose another officer. Career Managers must stress to officers who have been identified for an attaché post that until the Head of Mission has given their approval the officer’s selection remains merely a proposal. Attachés’ designate must not reveal their nomination and must not contact the officer they expect to replace until the Head of Mission approval is given. DE STRAT-OS Staff will formally notify a nominee of their successful nomination and advise the officer when they may write to the Ambassador or High Commissioner as well as to the incumbent. Even after Head of Mission approval is given, the timing of notification to the host nation of the new attaché remains firmly the responsibility of the Head of Mission. For this reason, nominees are reminded to keep news of their successful selection on a need to know basis until the incumbent advises that the host nation has been informed. Nominees should also be reminded that telephone lines into posts overseas are not secure; calls to incumbents should be made with this very much in mind.

g. **Tour Lengths.** A nomination for an attaché post should include a clear statement on the length of tour the officer will serve. The normal tour is for a minimum of three years and most Heads of Mission expect their attachés to serve at least this period. For attachés who are expected to serve less than three years, DE STRAT-OS Staff should be consulted before an individual is nominated - particularly if their retirement date from the Service will prevent a full three-year tour being completed. Precise notification of expected tour length will also help the maintenance of an accurate Forecast Relief List.

h. **Language Training.** The major training element which drives the date due for training with DE STRAT-OS Staff is language training (LT). Where posts require LT aptitude tests a note (LT Req’d) is made in the remarks column of the list. In particular, Moscow due date for training is substantially influenced by the 18 months LT necessary for non-Russian speakers to achieve the post requirement. Russian LT is undertaken at Beaconsfield and starts each year in September. Details of the nominated officer are required by DE STRAT-OS Staff at least 12 months before the start of the course.

i. **Queries.** Queries regarding the procedures for nomination, approval and preparation of Service attachés and advisers should be addressed to DE STRAT-OS desk officer for preparation and training on (020 721) 9621 82053/8715.
ANNEX 59D
ROYAL NAVY AUGMENTATION POLICY

1. Introduction

a. Augmentation is the process by which Suitably Qualified and Experienced Personnel (SQEP) are selected, trained and deployed to meet additional workforce requirements in support of operations, exercises and events outside of the declared Defence and Navy Plans. The requirement to provide Naval personnel for emerging or continuing operational commitments, exercises, extraneous events, UK resilience tasks and essential short term positions, causes increased pressures on the finite people resource and must be carefully controlled ensuring that the impact of gapping peacetime posts and over-stretch is minimised. In order to reduce the impact to the individual and Naval Service outputs, a pro-active approach to the management of augmentation is required. It is managed though Navy PCap-Plans.

b. The generation of Individual Augmentees (IAs) to service a non-workforce driving requirement is not a ‘free resource’. Collectively, it will impact planned business output, generate uncertainty and create instability within the personnel arena. Whilst the cost to the demanding organisation is often minimal the effect, particularly in the context of today’s lean, austere organisational structures, is considerable. Therefore, internal reapportionment and the use of formed units, particularly those held at readiness, should be considered before IA.

c. Operations are the MoD and Navy’s highest priority. Given the changing nature of operations, it is impractical to base routine manning on their specific requirements. The three Armed Services, therefore, recognise that operations can only be sustained with the assistance of augmentees. Ensuring the timely availability of SQEP and managing them effectively is, therefore, critical to success on operations and affects all areas of the Service. There are two main types of Augmentation: Above the Line (ATL) and Below the Line (BTL). ATL augmentation is the process of filling MoD authorised positions above funded personnel levels and is non-discretionary. BTL augmentation is all other Naval Service required augmentation and can be non-discretionary if authorised by an appropriate authority.

d. The Defence Augmentation Policy (DAP) is the overarching policy document and takes precedence over Naval policy. The Royal Navy Augmentation Policy (RNAP) provides single Service amplification to support the DAP.

2. Aim. The aim of the RNAP is to set out the principles for the re-distribution of Naval personnel to meet additional personnel demands in support of operational tasks, UK resilience tasks, exercises, trials and events, including ceremonial events. Additionally, it clarifies the definitive direction concerning funding and the individual phases of the augmentation process. This chapter does not cover Royal Navy Policy for Personnel OPDEFs and PERREQ procedures, which are managed by Navy PCap-Ops and detailed in RNTM 01-028/19.
3. Definitions and Principles

a. **Force Generation.** Force Generation is the process of providing suitably trained and equipped forces and their means of deployment, recovery and sustainment to meet current and emergent tasks, within required readiness and preparation times.

b. **Augmentation.** Augmentation is an element of Force Generation and is the temporary re-deployment of individuals (regular, reserve or civilian) to wherever they are needed to meet directed operational Military Tasks, Exercises and Events that cannot be achieved within peacetime establishments. It may include the re-distribution of individuals brought together to form an ad-hoc unit/sub-unit or the forming or reinforcing of regular units with reserves. Augmentation specifically excludes the planned or unplanned deployment or re-deployment of a formed unit/sub-unit or the planned formation of a composite unit/sub-unit of individuals for their crisis role.

c. These common principles can be broadly applied to the following Naval augmentation requirements:

1. Force Generation for Operations.
2. Short Notice Operational Commitments.
3. Exercises, Trials and Events.

4. Responsibilities

a. **Central Co-ordination of the Augmentee Requirement.** Each Service employs a unique process to manage augmentee provision. However, any Joint augmentation requirement will be endorsed by ACDS(Ops), through the DAC, before it is passed to single-Service authorities. This requirement will be ATL.

b. The Headquarters Surgeon General’s Department advises on medical personnel augmentation requirements. Defence Security Policy & Operations (SPO) will normally coordinate Joint augmentation requirements for Resilience Planning (RP), Operations and Exercises. Naval commitments requiring augmentation which have no Joint involvement should be authorised by SPO FGen-Maritime and/or Navy-Cts N5/N3, keeping the DAC informed.

c. The DAP mandates that augmentation is managed through the Services’ Principal Personnel Officers (PPO), who are responsible for providing personnel from their Service irrespective of which TLB those people are working in.

1. 2SL, as the Naval (PPO), has pan-Naval Service responsibility for augmentation issues, which is delegated through ACNS(Pers) to ACOS(PCap).

---

1 Reserves may be either volunteer or regular reserve.
2 Exercises, as a means of preparing for operations, are included in this definition.
3 Events are included in the definition of augmentation but are addressed Below the Line (BTL) unless endorsed by DCDS(MSO) or where they are a specific MT/Op Task.
4 A separate element of Force Generation, which particularly pertains to reservists, mainly of a specialist nature (e.g. Volunteer Field Hospitals).
5 The functions and liaison authority of the DAC are detailed in the DAP.
6 Formerly Operations Directorate.
(2) Navy Command TLB specific augmentation is managed by ACOS(PCap) on behalf of the Fleet Commander. Contentious augmentation issues and arbitration will be referred up the Chain-of-Command for ACOS (PCap) or ACNS(Pers) to table at an appropriate 2*/1* Forum.

d. **Task Sponsor.** The Task Sponsor (TS) is a named point of contact within an organisation or unit requiring the temporary uplift in personnel. They are responsible for articulating the requirement. The Statement of Requirement (SOR) must state why resource cannot be re-apportioned from within the sponsor’s area.

e. **Authorised Demander.** An Authorised Demander (AD) is a defined node with the authority to endorse an augmentation requirement, providing formal guidance to PCap-Plans to resource manpower solutions for further consideration. Recognised ADs are as follows:

   (1) **Defence Augmentation Cell (DAC).** Responsible for apportioning all ATL demands in the AD role to each of the Service Commands (SCs). This tasking is ‘non-discretionary’ in nature.

   (2) **Navy Commitments.** The primary AD for BTL activity from within the Naval Service. These tasks are predominantly Navy ‘discretionary’ in nature.

   (3) **Naval Staff.** The creation and endorsement of augmentation demands (BTL) which are considered strategically significant to warrant IA support.

   (4) **Navy Media Comms & Engagement (MC&E).** The AD for all UK based Royal Navy in the Public Eye (RNIPE) ceremonial events.

   (5) **DG DSA.** TS and AD for Service Inquiries.

   (6) **RN Safety Centre.** TS and AD for Fleet Commander Service Investigations or Unit Investigations that require augmentation.

f. **Establishing the Manpower Requirement.** The manpower requirement must be clearly established before any commitment can be authorised:

   (1) **Operations and Exercises.** For Joint operations, the SPO will coordinate the consolidated manpower augmentation bill. For Tier 2+ and above exercises this will normally be carried out by JFC JW (or JTEPS for Ex JOINT WARRIOR) and passed through the DAC to the single-Services. Navy Cts is responsible for assessing the Naval manpower required for augmentation of single-Service operations and exercises.

   (2) **Non-Operational and Resilience Augmentation.** Navy Cts will coordinate requirements for UK resilience operations and Navy MC&E for all non-operational events and commitments. Contentious issues will be referred up the appropriate Chain-of-Command in accordance with Para 4.c.2 above.
5. Procedures

a. **Provision of Augmentees.** When the additional commitment, including any manpower requirement is authorised, PCap-Plans will coordinate the provision of Naval augmentees for all operations, exercises, trials and events. The responsibility to raise Establishment Amendment Forms (EAF) in order to facilitate funded JPA lines resides with the TS in addition to creating and updating associated job specifications. Once this has been completed, PCap-Plans will instruct Career Managers (CM) to take the necessary assignment action (see Para 8).

b. **Augmentation Parameter.** Before activating augmentees for any of the above requirements, Naval personnel managers must have appropriate authorisation (normally MoD) and categorisation (see Para 6 below). Where public visibility or operational requirements dictate a tri-Service commitment, the DAC will determine appropriate and balanced single-Service manpower allocation.

c. **Timing, Duration and Specialist Requirements.** The selection of the right type and number of augmentees depends on varying factors, which will influence the feasibility of meeting a requirement. This must be considered before authority for provision of manpower is given:

   1. All requirements must be clear and unambiguous. Rank and specialisation or specific position designation will be critical to some augmentee posts, whereas physical fitness and gender may be stipulated for others.

   2. Start date and duration of the requirement must be confirmed and must include reference to any associated activity (eg. training/planning conferences) that augmentees will be required to attend prior to the task start date. For ceremonial events specifically, the RN State Ceremonial Training Officer must be consulted to confirm the exact personnel requirements and dates/timings/location of training. The DAP articulates minimum timelines for generation of personnel for operations and exercises. For events, 6 months’ notice is required.

   3. The minimum essential number of augmentees appropriate to the requirement must be established. Without proper consideration, augmentation demands will frequently exceed the essential minimum when scrutinised.

d. **Establishment Considerations.** When units are considering changes to their establishment they must ensure that they can meet the following criteria:

   1. Their requirement to support planned augmentation (ie. their requirement to provide dual and donor personnel).

   2. Their commitment to Events, Exercises and Ceremonial occasions.
6. **Planned Augmentation (Primary and Secondary Augmentees).** Planned augmentees are usually articulated via Augmentation Manning Lists (AMLs) held by the DAC, and are split into two categories, either ‘Primary’ or ‘Secondary’, depending on the readiness to deploy and need for pre-selection. For both groups, personal ‘fitness for operations’ is to be considered a duty and pre-requisite. The definitions of a Primary and Secondary augmentee are as follows:

   a. **Primary Augmentee.** A Primary Augmentee is at R3 readiness\(^7\) (10 days’ notice) or higher and is formally assigned to a dual crisis role in addition to a regular assignment. This dual assignment will require a training/induction commitment of up to 5 days and an exercise commitment, of normally no more than three weeks per year (exceptionally in the case of major Tier 3/4 exercises, primary augmentees may be required for up to 4 weeks).

   b. **Secondary Post.** A Secondary Post is at R4 readiness (20 days’ notice) or longer. Named personnel are not nominated for Secondary posts rather a trawl will be made to identify individuals with correct qualifications and skills at the time of activation.

7. **Un-Planned Operational Augmentation**

   a. **Introduction.** For those augmentation requirements that have not been foreseen and cannot utilise the facility of primary/secondary billet personnel, on receipt of tasking from the DAC PCap-Plans will oversee the generation of personnel to their eventual deployment of personnel to Theatre.

   b. **PCap-Plans will meet augmentation requirements by liaising with CMs, Career Management Centres, the Whole Force CM (WFCM) and all other workforce coordinators.** Usually, for operations, the requirement is for individual augmentees to fill specific lines on the Operational Establishment Tables (OET) in accordance with the Job Specification (JS). At times, Defence or the Naval Service will require augmentation to support activity outside of that covered in an OET; these may be both operational or to support planning or policy studies where specific additional SQEP has been endorsed.

   c. **Training.** Pre-deployment training (particularly any Joint Service requirements such as CBRN, military skills/field-craft, and/or weapon handling) must be specified in the requirement\(^8\), since this may have a significant effect on the lead-time and duration of the commitment. Consideration of these factors may also be a pre-requisite to either accepting or rejecting a bid.

   d. **Establishment Action for Operational Augmentees.** Once an operational augmentation requirement has been accepted, an appropriate position will be generated in JPA if one does not already exist. This will enable individuals to be assigned appropriately.

---

\(^7\)**Unless activated or on reduced notice, the R3 readiness is not intended to disrupt an individual’s routine work or prevent individuals from taking routine annual leave. Dual appointees may, in some circumstances, and if available, be required at a shorter notice.**

\(^8\)**Usually specified in the Statement of Requirement and/or Job Specification.**
e. **CM Action.** Once a post has been designated as enduring IA, CMs are directed to continue to fill the job on a roulement basis until DAC terminates the post. This process allows the CMs to give adequate notice to prospective incumbents and meet RN PFS. Further guidance for CMs is at Appendix 8.

8. **Phases of Augmentation**

a. **Phase I – Authorisation of the Requirement.** Formal endorsement of a requirement for an augmentee is an essential pre-requisite. The parameters described at Para 5 above must be confirmed in order that provision can commence on the correct basis. Authorising responsibilities are described at Para 4.c to Para 4.f and in the specific procedures for each augmentation category. To define the requirement accurately, the TS will be required first to discuss the demand with PCap-Plans, following which they are to complete the proforma at Appendix 5 (Job Specification (JS) for each position is required to be submitted with the proforma) and forward it through an AD to PCap-Plans for staffing.

b. For tasks generated from within an operational theatre, a full SOR is to be authorised from the in-theatre HQ and endorsed by PJHQ, approved by SPO and apportioned by the DAC before being submitted for single-Service action. Without a fully endorsed uplift, PCap-Plans is unable to begin the process to assign an augmentee.

c. **Phase II – Personnel Provision.** Co-ordinated by PCap-Plans, the procedures for personnel provision will be dictated by the parameters established in Phase I. Where there is consideration to use Naval Service personnel assigned to non-Navy TLB establishments, PCap-Plans is to be informed before engaging outside of the Navy TLB. The key factors are as follows:

(1) **Operational Commitments.** If the requirement is endorsed, the DAC apportions posts to the Front Line Commands on a set percentage basis (Apportionment Ratio) of total demand coupled with ability of a single-Service to find appropriately trained personnel. This, however, does not necessarily mean that all tasks coming from the DAC are taken on. PCap-Plans will critically appraise each task to assess whether Navy Command is capable of re-assigning the required personnel, including availability, training and timeline constraints and renegotiate with the DAC as appropriate. Once agreed, PCap-Plans will initiate the procedures to fill the post in accordance with the process laid out in this Annex.

(2) **Defence Tier 2+ Exercises.** As for operational commitments, for Tier 2+ exercises listed on the Defence Exercise Programme (DXP), the requirement will be passed through the DAC for adjudication and apportionment across the single-Services. The requirement will consist of ATL Essential and Desirable positions. PCap-Plans will fill positions through trawls in accordance with the procedures in this Annex.

---

9 The DAC will ensure periodic evaluation of IA posts either through the Theatre Capability Review (TCR) process or on a time basis.
10 Detailed in Defence Augmentation Policy DIN.
(3) **Other Exercises, Trials, Events and Desirable Commitments.** For commitments, which have been approved in principle, subject to the consequences of releasing personnel being judged acceptable, PCap-Plans will apportion the requirement to workforce providers as appropriate. Once personnel have been identified, PCap-Plans will decide if the commitment will be met, cancelled or reduced. RNIPE Events will be categorised by MC&E and endorsed by the NAVB, with all Priority 1 events being filled eg. November Ceremonies and National Armed Forces Day.

(4) **Duration of the Augmentee Requirement.** With the exception of augmentation of exercises, trials, events and resilience commitments, Establishment initiating action (when no JPA Number (JPAN) exists) with associated assignment action will normally be undertaken for all augmentation with a duration exceeding three months. Here, selection and deployment of augmentees will be coordinated, without establishment (JPA) or assigning action, by using JPA ‘move and track’.

d. **Assignment Action.** Regardless of the type or duration of the augmentee requirement, formal assignment or ‘move and track’ action must be taken in JPA for all personnel movements to ensure correct administrative actions are taken, in particular recording Separated Service Requirement (SSR).

e. **Phase III – Follow-Up Action.** Follow-up action is important to ensure that augmentation is meeting the requirement in the most effective fashion. Feedback from individuals and their units to PCap-Plans is an important part of this process and for operations, monthly dismount courses are run. For other augmentation such as Exercises and Events, on completion of the task/event an online feedback survey will be distributed. If other tasking penalties are implicit in releasing augmentees, these must be raised formally through the Command chain for reconsideration of tasking priorities or a change in the requirement.

f. **Naval Reserves.** Reservists can volunteer or be liable to mobilisation or recall for a wide range of crises including humanitarian assistance and disaster relief\(^{11}\). When seeking to meet an augmentee requirement, PCap-Plans will consult with the Whole Force CM to exploit the availability of Volunteer Reserves as far as the Reserve Forces Act allows. Reserves can be used in both augmentation or to backfill posts in support of operations.

9. **Augmentation Trawls**

a. For unplanned augmentation, to identify the most appropriate SQEP that comes with least impact to Defence outputs, it will routinely be necessary to undertake ‘trawls’ of potential candidates. Candidates will normally be identified through engagement with CMs, but in some circumstances organisations may be approached directly and requested to provide a candidate whom they judge to have least impact on that organisation. In all circumstances a number of (usually three) candidates will be considered for each augmentation position.

\(^{11}\) However, their use may be limited for some Resilience (eg. MAGD) tasking, for example when providing an essential service, which is the subject of industrial action.
b. Potential candidates will be asked to submit a Personnel Support Request (PSR). This will be requested through the candidate’s Line Management chain. Failure to submit a PSR will be judged as that candidate having nil professional or personal impact to being assigned to the augmentation demand.

c. Trawls will be undertaken by PCap-Plans, PCap Ops Forward, and CMs dependent on the circumstances.

d. CM trawls are used for established and enduring IAs that PCap-Plans has assigned to a particular Branch on an enduring basis, where the candidates are employed within Navy TLB (see Para 3(4)).

e. PCap-Plans – See Appendix 1.

(1) For new Op Tour IA positions or other Defence directed task where duration results (or would normally result) in the need for a formal Assignment Order.

(2) Where the requirement is for niche SQEP that results in the need to trawl for candidates across multiple branches.

(3) Where a significant change to the Rank/SQEP requirements has been endorsed to an existing JS.

(4) On occasion of a Force Generation failure for a position normally assigned to a CM, where the Force Generation failure is a result of circumstance outside the control of the CM.

(5) Where a candidate is employed outside of the Naval Service TLB, given there are specific processes in accordance with Defence Policy that are to be followed. PCap-Plans will also trawl Royal Marines candidates employed in 3 Cdo Bde, 1 AGRM and CTCRM though PCap AUG RMART SO2.

(6) Where time does not permit use of PCap Ops Forward teams.

f. PCap Ops Forward. When delegated by PCap-Plans, and for all Exercise, Events and UK Resilience trawls being undertaken within the Naval Service TLB. This is specifically to better apportion across organisations of large-scale augmentation in cognisance of impact of Personnel OPDEF demands. PCap Ops Forward will be notified of trawls undertaken centrally to maintain situation awareness of impacted business areas.

g. Due to the sensitive information contained within a PSR statement, no organisation has an automatic right to sight a PSR statement from another organisation without the express approval of ACOS(PCap), with the exception of SPO-Cts DAC for the purposes of Defence impact arbitrations as detailed in DAP.

---

12 See Appendix 7.
13 eg. Land, Air, DIO, DES, HOCs, JFC.
h. All Navy TLB units and establishments are in-scope for PCap trawls unless declared exempt in agreement with ACNS(Pers).

i. PCap will request trawls through the individual's Line Management\textsuperscript{14}, given the many different ways in which units across TLBs manage engagement from outside their organisation. On receiving a trawl request, Line Managers are to ensure that all appropriate persons within their organisation's Chain-of-Command are informed of the trawl request.

10. Funding

a. All augmentation commitments identified as 'Essential' will be costed and resourced at the appropriate level. No provision will be made for the funding of 'Desirable' augmentee requirements. The principle of operational augmentation funding is that costs are identified to the point of consumption. This objective is subject to further work on practicalities. Until such time, costs will continue to lie where they fall. However, in accordance with the DAP, backfill costs of Full Time Reserve Service/civilian substitutes for personnel deployed as Operational Augmentees can be reclaimed from the appropriate Operational Fund if essential\textsuperscript{15}.

(1) **Operational Commitments.** The funding procedures for operational commitments are laid down in JSP 462 Version 5.0\textsuperscript{16}. All operational augmentees will be assigned to a Position in a JPA Organisation and the cost will normally fall to the supplying unit for the first 6 months. Transfer of manpower costs will be triggered by assignment and arrival action.

(2) **Short Term Non-Operational Augmentees.** Short term, non-operational billets in excess of 6 months' duration must be funded by the demander. In exceptional circumstances, very high priority, unforeseen tasks which are expected to last less than 6 months may be met by augmentation action on the basis of 'costs lie where they fall'.

(3) **Essential Exercises, Trials and Events.** The augmentation of Essential exercises, trials and events does not normally result in assignment action and the personnel costs will lie where they fall with the donor unit. Low Level Budget Holders are to estimate their future augmentee commitment in IA-days per year, using the DXP, the Naval Events Diary (NED) promulgated by Director General Media Communications (DGMC), and Fleet Exercise Programme (FXP). Personnel costs may be expressed in Management Plans as follows:

(a) An impact on the achievement of the unit's tasks.

(b) Justification for retention of existing Service manpower.

(c) A forecast cost of temporary contract manpower arrangements.

\textsuperscript{14} Post engagement with DAC LO when engaging outside Navy TLB.

\textsuperscript{15} As detailed in the DAP Annex D.

\textsuperscript{16} Financial Management Policy Manual V5.0, Chap 6, Overseas Operational Deployments.
b. **Reporting of Extra Costs.** Since they are funded as part of the main Defence programme, direct pay costs will not be reimbursed. Additional costs necessarily incurred as a consequence of augmentation, which would not have otherwise occurred, however, may be reclaimed from the Operational Fund. Such costs could include travel and subsistence, operational welfare package items and training etc. (this is not an exhaustive list). In addition, the full costs (including pay) of reservists called up for duties as augmentees may be recovered, as may costs of backfilling posts gapped during augmentation. Additional costs should be reported as part of the normal In-Year Management process.

c. **Principles for Funding Exercise Augmentees.**

(1) Exercises requiring the deployment of augmentees are planned up to 5 years in advance and published in the DXP. Financial provision for the additional costs of augmentees, (eg. overseas travel and accommodation) are made within the Short Term Programme and included as part of the cost of the exercise; exercises will be allocated their own unique UIN.

(2) Exercises are generally of short duration and therefore augmentees will not be assigned to an exercise. The cost of the augmentees’ pay will continue to be borne by the supplying unit. Any additional expenses related to augmentees that are specific to a particular exercise will be paid from the exercise budget through the unique exercise UIN.

(3) **Reservists.** Augmentation in support of an exercise helps to meet the Annual Training Commitment (ATC) for volunteer reservists and as such Commander Maritime Reserves (COMMARRES) will meet pay costs as appropriate for those reservists who participate in the exercise. All other costs (eg. travel and subsistence) will require formal agreement between the demander and COMMARRES. For regular reservists, the PPO is considered to be the parent unit in this context.

d. **TLB Responsibilities.** Budget Managers need to maintain a full record of costs for augmentees used against specific operations and report these costs as part of their forecasts. The cost of augmentees for exercises and events will lie with the supplying unit and must be assessed annually for inclusion in Management Plans.

e. **Associated Costs.** By definition, augmentation is designed to meet unforeseen manpower requirements. There is, therefore, no planned financial provision for associated costs (eg. travel and subsistence), hence donor units will continue to be required to accept the associated additional expenses (ie. costs lie where they fall). The following exceptions apply to the general principle:
(1) **Contingency Operations.** Costs lie where they fall for contingency operations (eg. Op FOLLIS/ESCALIN) unless the operation attracts central government funding. Units will be required to record costs in order for them to be reported or recovered if a central UIN is subsequently identified for the operation.

(2) **RNIPE Events.** Costs associated with high priority MoD/RNIPE events will generally be met by the event sponsor. If the sponsor is unable to pay and the event is deemed high priority (ie. failure to be represented will cause the Service embarrassment) the requirement will be apportioned out between units and costs will lie where they fall.

**Note.** In all cases where the manpower demand is deemed to be necessary, but no funding arrangements have been made, the providing unit will be directed to meet all costs, citing the operation/exercise/event as the reason for any resultant overspend in their budget.

B. BRd 3(2) Naval Personnel Management – Reserves.

1. Procedures. The detailed procedures below apply to the provision of personnel for operational commitments in peacetime to respond to contingencies or operations at higher than normal Scales of Effort, including the mobilisation of Reserves. Information contained within this Appendix also pertains, in part, to that contained within both References.

2. Authorisation. All operations in this category will be Essential and will have a minimum of MoD (ACDS (Cts)) and, normally, Ministerial endorsement. PJHQ, Standing Joint Commander (UK) and SPO will liaise to specify the personnel requirement and identify potential penalties to other MoD commitments.

3. Provision. Provision of personnel for Force Generation will be through the normal assignment process:

   a. Activating Establishments. Assignment action cannot take place without an authorised Establishment line. Once the personnel requirement is specified and accepted by PCap-Plans on behalf of the RN, it is passed to Establishments who will authorise activation of the appropriate establishment positions. These will normally have been pre-designated as ‘M’ Role lines in an active or dormant Establishment.

   b. Assignment Action. Operational exigencies will override many normal assignment rules. Personnel will be allocated to best effect by ACOS(PCap). PCap-Plans will coordinate the actions of the CMs to redeploy personnel to higher priority positions. This may include the redeployment of dual assigned and/or donor personnel.

   c. Options. When SQEP cannot be found from donor positions, personnel will be taken from other non-donor positions. Positions that are in Roles normally required to be filled at all Scales of Effort (currently most of these are given PO or BO Roles) will only be taken as a last resort. The activation of Reserves will be considered as the need arises. In all aspects of this process manning priorities as issued routinely by the Fleet Commander will be used as guidelines.

   d. Backfill. If, in exceptional circumstances, PO or BO positions are used to fill Receiver Role positions, attempts to backfill will be made when the operational situation permits. Where essential personnel are deployed, it may be possible to provide backfill utilising Reserves/civilian labour funded by the appropriate Operational Fund (CPF) in accordance with the DAP.
e. **Volunteer Reserve.** Restrictions in RFA 96 dependent on the section of the Act under which they are mobilised may preclude the use of Volunteer Reservists beyond set periods unless they and their civilian employers agree to an extension.

f. **Prioritisation.** Where tasking priorities need to be decided, depending on the significance of the tasks in question, the decision may need to be taken at NAVB or Ministerial level. Where an operational task becomes apparent as a long-term commitment (over 6 months), possibly involving a roulement of personnel, it may be appropriate to include the position in the live requirement and for normal assignment action to be initiated.

g. **Process.** The outline process for Force Generation and augmentation is shown at Fig 1 below. This process primarily applies only to initial ‘fills’ and on a Force Generation failure, outside of CM control.
Figure 1 - App 2/59D. Procedure for Identification of 'First-Fill' Operational Augmentees

PJHQ/IPP/WEP etc.
Submit Requirement and Job Specification.

DAC
Staff and scrutinise Requirement then following Force Sense apportion to RN/Army/RAF on agreed pro-rata iaw DAP.

PCap-Plans
React to any Force Sense, scrutinise and prioritise Requirements with DAC/PJHQ.

PCap-CMs
Identify and nominate suitable, available personnel.

COMMARRES
Identify and nominate suitable, available personnel.

Nominee found?
Yes

PCap-Plans
Scrutinise AML / CAML for potential nominees.

Nominee found?
No

PCap-Plans
Engage with CM to identify potential candidates/Business areas and then instigate PSR Trawl i.a.w. Para 9.

TLBs
Forward to PCap PSR detailing impact statement if potential nominee is selected.

PCap-Plans
Most suitable candidate selected from PSRs. DAC may be requested to arbitrate if PCap deem impact to Naval Service to be too severe.

Nomination, Line Manager and DAC informed.

PCap-CM
Appropriate CM activates and assigns individual for mounting etc and identifies relief for enduring posts.
APPENDIX 3 TO ANNEX 59D

PROCEDURES FOR DEMANDING INDIVIDUAL AUGMENTEES FOR EXERCISES, TRIALS AND EVENTS

1. **Parameters for Demand.** The Diagram at Appendix 1 should be used as a guide to determine whether the augmentation request meets the parameters for PCap-Plans attention. As a rule, ACOS(PCap) will coordinate the provision of personnel to the following exercises, trials and events (exercises/events that do not meet these parameters, usually those of a local/intra-command nature, are to be dealt with by local workforce coordinators):

   a. Exercises which appear in the Defence Exercise Programme (DXP) at Tier 2+ and above if the exercise authority has secured the appropriate funding.

   b. Exercises which receive Authorised Demander (AD; normally Navy Cts) approval to augment, if the exercise authority has secured the appropriate funding.

   c. Trials approved by an appropriate MoD authority which have received AD approval to augment.

   d. Royal Navy in the Public Eye (RNIPE) events that are at Priority 0/1 as decided by the NAVB.

2. **Demand Process.** If a demand for exercise, trial or event augmentation meets the parameters at Para 1, then an Augmentation Requirement Document (ARD) (at Appendix 5) should be completed. This should include the assurance that funding for augmentation is available and approved and accompanied by an impact statement of why the resource demand cannot be self-generated. (eg. for low number demands a PSR for the lowest impact position(s) within the Task Sponsor’s organisation would be appropriate). In the case of a ceremonial event the RN State Ceremonial Training Officer will need to be consulted prior to the submission of the ARD. Table 1 outlines the nominal timeline from notification of a likely augmentation demand to completion of an exercise/event. The timeline is intended to give the greatest chance of trawl success and to reduce churn on individuals. However, it is understood that some late or unforeseen requirements may be essential. Bids received with less than 6 months’ notice will only be resourced on approval from an AD and if time will allow allocation of personnel with limited churn.
Table 1 to App 3/Annex 59D. Exercises/Trials/Events Augmentation Timeline

</tbody>
</table>

3. **Trawling.** Unless the timeframe or type of exercise does not allow, all trawling will begin by offering requested positions to the Maritime Reserves (MR) and Career Managers (CM) for volunteers. This is to reduce the churn on Regular personnel and to reduce impact on units that will bear a gap. Following returns from the MR/CM, trawls will be directed, where necessary, to Regular personnel. Once a deadline has been met or the requested demand is full PCap-Plans will forward the list of IAs to the Task Sponsor (TS). This represents the extent of responsibility for PCap-Plans with regards to exercise planning.

4. **Joining/Administrative Instructions.** All administration for the exercise, including the distribution of Joining/Administrative Instructions, is the responsibility of the Task Sponsor. To ensure that information is being received correctly, it is essential that demanders ensure that nominated IAs are in full receipt of, and have acknowledged, all instructions. Responsibility for travel to and from the event is as follows:

   a. The IA's parent unit is responsible for arranging travel to the UK event location or Air Point of Departure (APOD).

   b. The exercise/event sponsor is required to fund costs of travel and subsistence to foreign exercise/events.
5. **Feedback.** After the exercise, trial or event has concluded, PCap-Plans will send online questionnaires to all IAs. This information is used to ensure that demanders are fully utilising all IAs requested on the understanding that augmentation generally results in a gap elsewhere across the Naval Service. It will also highlight whether IAs were administered correctly. Where PCap-Plans considers it necessary, often in the case of recurring exercise demands, a demander will be informed of the results of the questionnaire.

6. **Volunteers.** It is understood that participation in certain exercises and ceremonial events may be desired by some individuals. The process for volunteering for exercises and ceremonial events is contained within Appendix 4 to Annex 59D of BRd 3(1) ‘Procedure for Volunteering for Exercises and Ceremonial Events’. Once a volunteer has been confirmed as ‘loaded’ to an exercise or ceremonial event this constitutes a duty and the individual cannot withdraw without significant reason. In most cases, where a volunteer must be removed, their parent unit will be required to find a replacement.
APPENDIX 4 TO ANNEX 59D

PROCEDURE FOR VOLUNTEERING FOR EXERCISES AND CEREMONIAL EVENTS

1. Advertising Opportunities for Volunteers. When suitable, opportunities for individuals to volunteer for exercises and events will be advertised on the RN Intranet.

2. Considerations for Volunteers. Potential volunteers are to discuss their aspirations with their respective Divisional Officers (DOs)/Line Managers (LMs) and are to be given approval before applying. By volunteering for an exercise or event, the individual agrees to:
   a. Fully commit to all aspects of an exercise/event and its associated training and to be completely free from all other commitments throughout.
   b. Ensure they are medically fit to carry out all duties described. It should not be forgotten that, in the case of ceremonial events, individuals should be able to conduct lengthy armed parade training periods.
   c. Ensure all items of uniform are immaculate and tailored to ensure they fit correctly prior to the commencement of training (ceremonial events only).

3. Considerations for DOs/LMs. Where a DO/LM gives permission for an individual to volunteer for an exercise or ceremonial event they should consider the following:
   a. Once a volunteer’s position has been confirmed by PCap-Plans this will then be classed as a ‘Duty to Attend’ for that individual. Should a situation arise that makes it impossible for the individual to attend (such as medical or welfare reasons) then the parent unit may be directed to source a replacement in the first instance.
   b. The IA’s parent unit is responsible for arranging travel to the UK training/event location or APOD.
   c. It is the responsibility of the DO/LM to ensure that the IA is of the right calibre to conduct the chosen exercise/event and that their standard of dress, ability and behaviour will meet that expected at high profile public events.

4. Application Process. Having satisfied all the requirements at para 2, applications are to be made using the official form linked within the extant RNTM. DOs/LMs are required to be copied into the email when submitting this form. Failure to do so will result in an application being rejected.

5. Confirmation of Nomination. When an application is received by PCap-Plans, prior to a final selection, the volunteer’s name will be placed onto a register. At a specified time prior to the exercise/event, all volunteers will be contacted to confirm their selection. Once a volunteer’s position has been confirmed by PCap-Plans this will then be classed as a ‘Duty to Attend’ for that individual. The nominee’s details will then be passed to the exercise demander for exercises or the RN State Ceremonial Training Officer (SCTO) for ceremonial events who will issue joining instructions and arrange accommodation as required. If an individual is subsequently removed by his/her supplying Unit, that Unit may be required to backfill the position.
6. **Administration.** A volunteer will fall under the same administration as any trawled IA for exercises or ceremonial events and as such the travel and accommodation rules, as stated in Appendix 3 Para 4 remain extant.
APPENDIX 7 TO ANNEX 59D

ACOS PCAP PERSONNEL SUPPORT REQUEST STATEMENT
APPENDIX 8 TO ANNEX 59D

DEMARCATION OF PCAP OPS FORWARD TRAWL RESPONSIBILITIES

PROCESSING OF TRAWLS

1. PCap-Plans will apportion the requirement across all areas in which Naval Service Personnel are employed. The apportionment to be trawled from within the Royal Navy TLB will be further broken down with an apportionment distributed to each of the PCap Ops Forward (Ops Fwd) teams. The apportionment will be based on strength of personnel held, SQEP requirements, and cognisant of overall demands as a result of previous trawls.

2. Once the demand has been apportioned to each of the Ops Forwards, they have the delegated authority to select units/establishments from with their AOR from which to request nominations and/or impact statements (PSR). Where a number of individuals has been trawled and the impact of all is assessed as too high, then PCap-Plans is to be consulted. PCap-Plans will then decide on one of the following options:

   a. Declare a Force Generation fail against that particular demand line number.

   or

   b. Task the same Ops Fwd to re-trawl.

   or

   c. Task a different Ops Fwd to re-trawl.

3. The PCap Ops Forward shall undertake augmentation trawls across units within a geographic AOR broken down as follows:

   a. PCAP OPS FWD (Devonport).

      (1) DEVFLOT Flotilla (as detailed within RN Key Data).

      (2) Unspecified Flotilla (as detailed within RN Key Data).

      (3) HMNB Devonport.

      (4) HMS DRAKE.

      (5) HMS RALEIGH.

      (6) Britannia Royal Naval College, Dartmouth.

      (7) RNAS Culdrose (via establishment CMC).

      (8) RNAS Yeovilton (via establishment CMC).
b. PCAP OPS FWD (Faslane).
   (1) FASFLOT Flotilla (as detailed within RN Key Data).
   (2) Unspecified Flotilla (as detailed within RN Key Data).
   (3) HMNB Clyde.
   (4) HMS NEPTUNE.

c. PCAP OPS FWD (Portsmouth).
   (1) PORFLOT Flotilla (as detailed within RN Key Data).
   (2) Unspecified Flotilla (as detailed within RN Key Data).
   (3) HMNB Portsmouth.
   (4) HMS NELSON.
   (5) HMS EXCELLENT.
   (6) Navy Command Headquarters.
   (7) HMS SULTAN.
   (8) HMS COLLINGWOOD.
   (9) Northwood and London area (Navy TLB elements only).

4. For Naval Personnel serving in the non-Royal Navy TLB organisations listed below, apportionment and trawls, under FULL COMMAND, will be undertaken by PCap-Plans.
   a. DE&S.
   b. Land.
   c. Air.
   d. HOCS.
   e. Joint Forces Command.
   f. RN/RM Reserves.
   g. Royal Marines (ie. 3 Cdo Brigade RM, CTCRM, 1AGRM).
APPENDIX 9 TO ANNEX 59D

GUIDANCE TO CAREER MANAGERS

AIM

1. This guidance is to provide additional detail on the processes and procedures to be employed within Navy PCap in the generation of individual augmentation for Operational Tours, Exercises and major Ceremonial Events.

OPERATIONAL TOURS

2. The Master Operational Tour plot is owned by PCap-Plans and is updated on a weekly basis in consultation with the Security Policy & Operations Defence Augmentation Cell (DAC). As such, PCap-Plans is responsible for ensuring that Op IA posts are filled with appropriate SQEP who have completed the required Pre-Deployment Training (PDT).

3. The majority of Operational IAs are longstanding positions which the RN is mandated to fill on an enduring basis. Enduring Op IAs are delegated to an appropriate CM and are to be managed in the same manner as regular RN workforce requirements, including PSF, noting that Defence Op IAs have priority over workforce requirements not assigned to Operations.

4. Career Managers (CM) are to ensure they have consulted both JPA and the latest Job Specification to ensure that the SQEP requirements are fully understood, given that not all SQEP is contained in JPA.

5. Dependent upon the theatre of operation, IAs will need to complete a visa application process. In some cases, this can take in excess of 5 months. CMs are to ensure that once an AO has been raised, an IA commences the visa application process as soon as practicable. Guidance notes and application forms are provided by the RN Mounting Centre.

6. PCap-Plans will trawl (and subsequently nominate) individuals in the following circumstances:
   a. A newly endorsed Operational Tour, Exercise or Event requirement.
   b. A change to requirement for an existing Op IA (eg. Rank/SQEP; not duration) inside published DAP Force Generation timescales.
   c. When the CM, declares an FGen fail for reasons outside CM control (reason to be endorsed by DACOS CM).
   d. Where a conflict of interest with demand and CM exists.
   e. Where CM wishes to trawl an individual employed outside of the Naval Service TLB (ie. JFC, DES, HOCS, LAND, AIR, DIO).
7. The generic process for generating new IA support is detailed below. Due to the dynamic, constantly evolving nature of the demand signal set against a complex and constrained state of the NS workforce, the approach may be tailored on a case by case basis to meet the imperative.

a. The DAC/Navy-Cts apportions a correctly endorsed personnel request (see Appendix 5) to PCap-Plans in draft.

b. PCap-Plans scrutinises the demand liaising with key stakeholders as appropriate to generate manning options and define the broad scope of a potential trawl. This will then be sent to Navy Cts and RP for final confirmation along with a statement of impact across the NS.

c. PCap-Plans will engage with CMs to identify a nomination for the endorsed post(s).

d. Generation of individuals for specific tasks (ie. Op Tours, Defence Studies) will in the first instance be through the normal career management process. Where a trawl is required CMs are to provide one of the options below:

   (1) A minimum of two locations to trawl (a maximum number is set at three locations to avoid creating unnecessary churn).

   (2) A minimum of three suitable individuals to trawl.

e. For Exercises where a large number of augmentations is required the trawl process will be utilised with CMs advising on trawl areas or, in the case of specific SQEP, individuals as per Para 5d(1) and (2).

f. Identified units are to nominate an individual or produce a Personnel Support Request (PSR) statement and staff it in the following manner:

   (1) If exceptionally, due to SQEP or other reasons, only one organisation is being trawled, PCap-Plans will not assess personal and professional considerations; this will all be completed within the IA donor unit. In this instance, all that is required by PCap-Plans is the name of the individual identified for the role. Where, exceptionally, the impact is deemed ‘considerable’, the impact is to be articulated alongside the nomination.

   (2) Where more than one organisation is involved, PCap-Plans will act as an independent adjudicator and compare completed impact statements before providing direction.

g. PCap-Plans will provide the name of the nominated individual to the DAC/requirement TS as appropriate.

h. CMs are to be cognisant of the ALA and POL burden following an operational tour. POL is accrued at the rate of one day per 9 calendar days deployed.
Effective
February 2020

i. On completion of the task, IAs will attend dismount course and/or be requested to complete an online feedback survey. This will be emailed to each IA. IAs are also encouraged to discuss their employment with the Task Sponsor (TS) prior to completion of the task.

8. For this process to work it relies on prompt and honest reporting of impact statements. PCap-Plans will ensure that all demands are scrutinised and wherever possible reduced, as well as making impartial decisions based on the evidence submitted when required.

EXERCISES AND EVENTS

9. PCap-Plans holds the responsibility to generate personnel to support both ATL and BTL Exercises and Events. CMs will be engaged to assist PCap-Plans identify appropriate establishments, or if appropriate individuals from which to trawl the required SQEP.

DUAL AND DONOR PRE-ASSIGNMENT ACTIONS

10. Check Position Status. Prior to taking any assignment action, the CM is to check the status of the position with regard to identifying dual/donor responsibilities. The following sources should be checked:

   a. The full list of positions carrying crisis responsibilities (updated list held by PCap-Plans).

   b. The weekly establishment amendment list promulgated by NAVY PCAP-PPLAN ESTAB to detail interim changes.

   c. The full details of the JPA position to which the individual is being assigned (in accordance with the usual assignment process) with particular attention to the Dual/Donor Assignment status.

ADDITIONAL ASSIGNMENT ACTIONS

11. New Assignments. Where an individual’s P Role assignment carries with it a dual/donor responsibility, individuals will be informed of their dual/donor status via automated assignment order remarks that are tied specifically to the P Role position. As such, the requirement for CMs to add additional free text remarks is minimised and can thus be limited to particular circumstances relating to the individual and that assignment.

12. Mid-Assignment Changes to Dual / Donor Workforce Requirement. Occasionally, where a CM is alerted to a change in a P Role position’s workforce requirement by PCap-Plans (ie. the addition/amendment/deletion of a Dual or Donor workforce requirement to a P Role position that is already filled), the CM is to issue a new Assignment Order, as follows:

   a. Dual Role Added. Where a dual responsibility has been added, the associated position remarks will have been appended to the Establishment list data by NAVY PCAP–PPLAN ESTAB. A new Assignment Order is to be issued for the extant P Role position that the individual is occupying. This will publish the new M Role position remarks authoritatively to the individual.
b. Dual Role Amended/Deleted or Donor Role Added/Amended/ Deleted. The CM is required to issue a new Assignment Order for the P Role position, with appropriate comments added in free text remarks.

  eg. Re-issued Assignment Order to confirm relinquishment of Dual Assignment workforce requirement previously associated with this position.

13. In all cases where CMs issue assignment orders with a Dual workforce requirement, CMs are to check that copies of Assignment Orders are sent to the M Role receiving unit.

14. Career Managers should make all personnel with dual/donor responsibilities aware that they are responsible for keeping CMs and receiving units informed if their status changes (e.g. medical/welfare) and their ability to deploy is affected.
Fig 1 - App 9/59D. Dual/Donor Amendment Flowchart

PCap-Plans icw EA and CM either:
- Allocate additional P Role billets to be a Dual/A Donor (proceed as if position available)
- Make compensating M role

ANNEX 59E

ASSIGNING PROCESS FOR COMMON APPOINTMENTS (CAPPS) POSITIONS

1. **The CAPPS List**
   SO1 CAPPS maintains a record of all CAPPS positions, which is cross-referred to each position’s JPA details. The following specific elements of the workbook should be noted:
   
   a. **Rotational Positions.** The workbook contains all tri or bi-Service rotational positions, whether CAPPS or not. If a position is Branch specific its existence serves to trigger the desk assigning process.
   
   b. **Attaché Positions.** The book contains all attaché positions which are CAPPS and/or rotational. It should be noted that attaché training, especially where language training is needed, can be very lengthy and these positions will often appear on the agenda well in advance of the normal 12 month target.
   
   c. **Two-Branch CAPPS.** CAPPS positions which are open to only two branches, eg. WRM or EL, should be resolved out of committee and the meeting informed of that resolution.

2. **Filling CAPPS Positions**
   The officer requirement incorporates a CAPPS apportionment for each Branch and for every desk within the Branches. Career Managers should monitor their contribution to filling CAPPS positions and assess their performance against their CAPPS apportionment to ensure their commitment is met. In pursuit of this aim Career Managers should ensure their clients are aware of the broadening opportunities available on the CAPPS plot and should ensure these opportunities receive proper consideration as part of individual career management.

3. **The CAPPS Bidding Process**
   Career Managers may register their interest in filling a CAPPS position at any time by e-mail to SO1 CAPPS, with a copy to their Branch Committee Member. There are two levels of interest: Interest and Bid. An Interest is non-binding and need not specify a name, whereas a Bid requires a name; successful bids are binding. Should an Interest remain static for a significant period, the relevant Career Manager will be invited to convert it to a Bid or withdraw. Committee members should ensure that they have discussed Career Managers’ requirements before the meetings and are able to represent their requirements in Committee where bids will be assessed and allocations made. Further details of this process are given below.

4. **CAPPS Meetings**
   
   a. **General.** All matters relating to Common Assignments are managed through the CAPPS Committees. The committees meet five times per year. The Commanders CAPPS Committee addresses all CAPPS open to officers of SO1 rank. The Lieutenants CAPPS Committee addresses all CAPPS open to officers of SO2 rank and below. Committee members should establish Branch requirements with Career Managers 1-2 weeks before each meeting.
Committee membership is as follows:

(1) **Commanders CAPPS**
- NAVY PCAP-CM WF SO1 – Chairman
- NAVY PCAP-CM ENG GS SO1
- NAVY PCAP-CM OF LOGS SO1
- NAVY PCAP-CM OF RM SO1
- NAVY PCAP-CM OF AIR SO1
- NAVY PCAP-CM OF WAR SO1

(2) **Lieutenants/Lieutenant Commanders CAPPS**
- NAVY PCAP-CM WF SO1 – Chairman.
- NAVY PCAP-CM OF ENG SMSO2
- NAVY PCAP-CM OF LOGS SO2
- NAVY PCAP-CM OF RM1
- NAVY PCAP-CM OF RM2
- NAVY PCAP-CM OF WAR SMSO2

b. **The CAPPS List.** The CAPPS List is a dynamic document located on the shared Manage Common Appointments team site. SO1 CAPPS will produce a Priority List two weeks before the CAPPS meetings showing all UK CAPPS posts requiring a fill in the forthcoming months, LFS posts requiring a fill in the next 12 months and attaché posts with long training lead requirements. This will be posted to the CAPPS team site.

c. **The Meetings.** At the meetings SO1 CAPPS will update members on new information relating to any position in the workbook. Those positions on the agenda will be opened for bidding. If a single bid of a suitable officer is received the position will be allocated. If multiple unresolved bids are received, SO1 CAPPS will set a date for examination of personal records, job specification, employer preference and any other relevant factors and will determine the best person for the job. All positions not bid for will be carried forward with any expression of interest noted. All unallocated positions with FADs within six months of the meeting will be considered for filling through use of the Pain and Grief List (see Para 5).

d. **Position Meeting Actions.** On completion of the meeting, SO1 CAPPS will update the CAPPS information and save an archive copy. Once a position has been allocated, Career Managers should proceed with nominations in the normal way.

5. **The Pain and Grief Process**

The CAPPS process is dependent upon Career Managers bidding officers to fill positions. Since SO1 CAPPS does not control or ‘own’ any manpower, the only way in which CAPPS positions can be filled without bids is through a Pain and Grief process. This process is designed to ensure that all possible manning solutions are explored and manpower is provided to fill positions of the higher priorities first. The Pain and Grief process will be initiated as follows:
a. On completion of the CAPPS meeting, positions that do not have a designated fill will be discussed with DACOS CM and will then be flagged as being ‘Pain and Grief’ if deemed as being a strategic manning priority. Career Managers will then be called to provide Pain and Grief for filling the post. Career Managers will normally be given a deadline of two weeks to consider possible manning solutions.

b. If after this period there are still unresolved positions, then SO1 CAPPS will examine the audit figures to determine which assigning areas are not meeting their CAPPS allocation by Requirement. This analysis will take due account of any plot under-bearings against dedicated requirements.

c. The outcome of this analysis, together with the nature and priority of the positions concerned, will then be considered to determine which positions should be allocated to Branches ‘by default’ and which should ultimately be considered for gapping. DACOS CM will be consulted on gapping action.

d. It may be necessary, on occasion, to require Career Managers to provide non-volunteer nominations, together with a brief impact statement, for consideration.

e. The aim of this process is to ensure CAPPS Requirements are properly considered against the demand of the core plots, taking due account of manning states, manning priorities and an equitable share of gapping across the plots.

6. Advertising Positions and Confidentiality

Whilst the need to discuss CAPPS assignments with nominees is recognised, it is important that they do not make contact with the incumbent of the position without Career Manager’s authority, and that no indication is given of who may fill the position prior to completion of the CAPPS process and the nomination being made.

7. Length of Assignments and Changes of Relief Date

Para 5926, Para 5927 and Para 5928 give guidance on the normal length of assignments in different employment areas. The FAD, once entered in the CAPPS book, should not be changed without consultation with SO1 CAPPS. In order to protect Career Managers from unexpected turbulence and short notice requirements, no changes to an FAD within six months of the planned date should be made without CAPPS Committee agreement through SO1 CAPPS. This agreement will be subject to the ability of a Career Manager to find a relief in the new timescale. If this cannot be achieved then, as agreed by the CAPPS Committee, either the original FAD will stand or the incumbent’s Career Manager will be required to backfill.

8. Early Moves

It is sometimes necessary to bring an individual’s FAD significantly forward. In such circumstances the tri-Service ‘halfway rule’ will apply. If the individual leaves position before completing half of their original assignment, their Career Manager is responsible for identifying a replacement. If the move comes after the half-way point, the position returns to the CAPPS plot. In either case, the replacement would normally be expected to conduct a full tour of duty.
9. **Use of Social Media**

The widespread use of social media raises a risk of inadvertent reputational damage to the Royal Navy should inappropriate comments or images be posted. Despite a personal site having restricted access so that only those with approval may view the information it contains, security settings do not stop an approved user copying information to open sites. Any officer being considered for high profile Equerry, Outer Office or Flag Officer's personal staff positions will be subject to a background check to ensure that any social media sites used by the individual comply with RN regulations. This will take the form of the following:

a. Individual to be informed that there is a need to complete some background checks that include social media sites. Individual is to confirm whether he/she is happy with this.

b. If they use social media sites, are they open or closed?

c. Is the individual aware of the published RN regulations (as previously promulgated in RNTM 062/14 and now published in BRd 3(1) Chap 21 Para 2152)? Individual to be advised to purge their site of any pictures or comments that could be damaging to the RN's reputation.

![Note.](image)

Note. Pictures or comments from closed sites can be copied by ‘friends’ to open sites.

d. Individual to be asked to provide user name/non de plume.

e. Career Manager to check user name/non de plume sites to confirm open or closed and if open, nothing of damage to the RN's reputation is on the site.

f. A record of the check being conducted (but not any material viewed during the check) is to be retained for the duration of the subject’s assignment.

10. **Special Considerations for Some Assignments**

a. **Royal Household.** DS Sec will issue special instructions to the Service concerned when nominations are called for by the Royal Household. Potential candidates will normally be filtered by ACOS(PCap), ACNS(Pers) and then 1SL before a final list of officers is forwarded to DS Sec for the Palace to consider. Nominations should use the format promulgated on the CAPPS team site.

b. **Cabinet Office.** The Cabinet Office insists that officers must be UK Nationals born of UK Nationals, and furthermore that their wives are also born of UK Nationals. PSyA holds records of this information and should be consulted when an officer is being selected for service in the Cabinet Office. All nomination matters should be progressed at the earliest possible opportunity and candidates will normally be filtered by ACOS(PCap) and ACNS(Pers) before forwarding to DS Sec. All candidates require special clearance and are interviewed in the Cabinet Office. JPA OAL entries should not specify to which section of the Cabinet Office the officer has been assigned.
c. **Outer Office.** DS Sec will issue instructions to the Service concerned when nominations are required for an outer office demand. A minimum of two candidates are normally required but where there is a competition between two or more Services then a single candidate from each Service is sufficient. Nominations for 3* and 4* Outer Offices will be filtered by ACOS(PCap) and ACNS(Pers) before forwarding to DS Sec.

d. **Attaché.** Many Attaché postings have specific requirements (particularly language training) and/or constraints (such as poor air quality, no confinement, no children at post, etc) which Career Managers and individuals need to fully consider before nominating to DE STRAT. Attaché nominations can take time to be approved by DE STRAT and the Foreign and Commonwealth Office (FCO), therefore an additional 3 months should be built into the nomination process to ensure the individual has sufficient notice of acceptance and to be prepared for training. Nominations are made by use of the DE STRAT Attaché CV proforma, via SO1 CAPPS. Assignment orders are not to be issued until formal approval is given by the FCO, and DE STRAT has issued the letter of notification.

e. **International Competitions.** If the opportunity to compete for a non-quota NATO, EU, EDA or UN post arises, a calling notice and Job Specification will be passed to DS Sec by DG Sec Pol. When called for, nominations for non-quota positions are to be submitted on the relevant NATO/EU/UN formation as directed by DG Sec Pol. These nominations will be filtered by ACOS(PCap) and ACNS(Pers) before forwarding to UK MILREP, or DS Sec if otherwise directed.

f. **Timing.** Whilst short notice selections take place, nine months should normally be expected. DS Sec normally work to the following timetable:

2. Interview and Selection – one month.
3. Notice for assignment - six months.

g. **Rotational Assignments.** Most rotational assignments are not subject to competition and nominations should be made via the monthly CAPPS boarding process. However, those relating to personal staffs, Royal Household, Ministers and Cabinet Offices are to be made through SO1 CAPPS using the relevant Career Brief format¹ available through the CAPPS team site. Detailed instructions for rotational assignments are laid down in JSP 755 Pt 1 Chapter 2.

---

¹ Three formats exist: Rotational Career Brief, Attaché Curriculum Vitae and the NATO/EU/UN Application Form.
ANNEX 59F

STAFF TRAINING

1. Staff Courses

Up to date information on all types of staff training can be found in the latest DIN or from the Defence Academy website. Brief details of the courses available and selection criteria are below.

a. Higher Command and Staff Course (HCSC)

(1) Purpose. The syllabus for HCSC focuses on the military-strategic and operational levels of conflict and the study of Operational Art, set in the wider strategic context. It concentrates on enduring principles rather than the requirements of a particular time or place. The main themes are:

(a) The evolving contemporary strategic context.

(b) Combined, joint and multi-agency operations, and cultural factors, both national and organisational.

(c) The classical elements and enduring tenets of Operational Art, and evolving thinking in operational design and management.

(d) The nature of High Command, and, more specifically, of the commander’s role in campaigning - throughout the spectrum of conflict - together with a working knowledge of current and emerging support mechanisms.

(e) Component and functional operations and the achievement of synergy in their application.

(f) Campaign planning skills and decision-making at the operational and military-strategic levels, both in warfighting and in operations other than war.

(g) The contribution of other Government departments in operations at the operational and military-strategic levels.

(h) Recent and evolving technological developments.

Throughout the course particular emphasis is placed on doctrine, future trends and threats, concepts and technology. Recent operational experience is analysed.
(2) **Administration.** The course takes place at the JSCSC, with one course per year running from January to April. Thirty students of the rank of Captain/ Commodore or equivalent, senior staff from Civil Servant Departments, usually MOD, GCHQ and FCO, and certain foreign countries are chosen to attend. The Naval Service has 6 places per course. Graduates of the College are awarded the post nominal letters "hcsc" in the Navy List.

b. **Royal College of Defence Studies (RCDS)**

(1) **Purpose.** The mission of the RCDS is to prepare senior officers and officials of the United Kingdom and other countries and future leaders from the private and public sectors for high responsibilities in their respective organisations, by developing their analytical powers, knowledge of defence and international defence, and strategic vision.

(2) **Administration.** The course takes place at the JSCSC, with one course per year running from January to December. Each course is attended by approximately 85 members, around 1/3 from the UK and 2/3rds from overseas; 75% are military officers of Captain/Commodore level or equivalent rank. The remaining 25% are civil servants, diplomats, police officers and representatives from the private sector. Graduates of the College are awarded the post nominal letters "rcds" in the Navy List.

c. **Advanced Command and Staff Course (ACSC)**

(1) **Purpose.** The aim of the ACSC is to prepare selected officers for high-grade joint and single Service appointments by developing their command, analytical and communications skills and by providing a broad understanding and knowledge of joint, single-Service and combined operations, of the management of defence in the United Kingdom and of the wider aspects of defence as a whole. As a secondary benefit it allows the students to develop a strong tri-Service and international peer network.

(2) **Administration.** There is one course each year, currently of 46 weeks, commencing in August/September and completing the following July. Graduates are awarded the psc(j) competence in JPA and the post nominal letters 'psc(j)' in the Navy List.

(3) **Selection Criteria.** The following criteria are to be used to select candidates for the ACSC:

(a) Rank – SO2 (with a promotion profile) or junior SO1.

(b) Reach to OF5, based on seniority, time to serve and promotion recommendation.

(c) Report portfolio that consistently demonstrates intellectual capacity.
(d) Reference to ACSC suitability either on an ICSC(M)/(L) report or on recent OJARs/Insert Slips.

(e) Serving on or selected for FTC.

(4) **Selection of Students.** The annual timetable for student selection for ACSC needs to balance the many commitments which follow the annual promotion round with the need to identify and promulgate staff course selections as early as possible. Staff Course selections will, of course, be inextricably linked to the conduct and outcome of the annual promotion round and Career Managers will need to be sifting plots for likely candidates before and during this period. The promotions themselves, once in the Career Managers’ domain, will permit further and more specific targeting of ACSC candidates but any timetable must take account of the heavy loading on Career Managers after the promotion round and the impact of the summer leave period. Taking all these factors into account, the following annual timetable is to be followed:

<table>
<thead>
<tr>
<th>Date</th>
<th>Activity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sep</td>
<td>Initiate Branch selection processes.</td>
</tr>
<tr>
<td>Dec</td>
<td>ACSC selection questionnaires(^1) issued.</td>
</tr>
<tr>
<td>Feb</td>
<td>ACSC Selection Board sits(^2), recommendations passed to CMs for confirmation of ACSC nominations.</td>
</tr>
<tr>
<td>Apr</td>
<td>CMs finalise ACSC nominations.</td>
</tr>
<tr>
<td>May</td>
<td>ACSC Signal released, assignment action initiated.</td>
</tr>
<tr>
<td>May through Aug</td>
<td>Critical Thinking Skills Courses.</td>
</tr>
<tr>
<td>Aug/Sep</td>
<td>ACSC starts.</td>
</tr>
<tr>
<td>Jul</td>
<td>ACSC completes.</td>
</tr>
</tbody>
</table>

(5) **RM Candidates.** RM attendance at ACSC is determined by promotion selection to OF4. Individuals will attend the course in the period between their selection for promotion and the Common Promotion Date (CPD), however, by exception, dependent upon the number of places available at JSCSC, some individuals may be required to defer attendance until the following year.

---

\(^1\) The ACSC questionnaire is to help ascertain the candidates’ motivation for undertaking the course.

\(^2\) The Board considers all the completed questionnaires and identifies candidates who present a potential training risk.
Intermediate Command and Staff Course (Maritime) (ICSC(M))

1. **Purpose.** The aim of the ICSC(M) is to contribute to Stage 1 career training by preparing Lts and Lt Cdrs for SO2 command, charge and staff appointments by developing their command, analytical and communication skills, knowledge of defence and UK military capabilities and to evaluate their potential for further staff training.

2. **Administration.** The course lasts 8 weeks and there are generally 5 courses a year. Course dates and capacities can be found in JPA.

3. **Selection of Students.** Attendance on the ICSC(M) is intended primarily for CC officers at SO3 or junior SO2 levels. Every effort must be made by CMs to get CC officers on this course as a precursor to Charge/PWO career training and subsequent selection for ACSC. Nominations are co-ordinated by SO2(X)HM. Names should be entered in JPA course bookings, SO2(X)HM will announce the closing date for names prior to each course and will resolve numbers if over subscribed.

4. **RM Candidates.** RM Officers are selected to undertake ICSC(M) as a staff course for selected appointments i.e. ADC/Flag Lt or Adjutant. RM SCC Officers who are not eligible for ICSC(L) are also selected for ICSC(M). All RM nominations are coordinated by CM OF RM1.

e. **Intermediate Command and Staff Course (Land) (ICSC(L))**

1. **Purpose.** The ICSC(L) provides intermediate staff training for all RM Officers selected for promotion to Major. It provides the key RM Career Stage 1 initial staff training. The aim of the course is to prepare all RM Majors for sub-unit command and on the staff up to and including Lieutenant Colonel by developing their command, analytical and communication skills, and by providing a broad tactical and technical understanding of military capabilities, in the context of land component operations and management within Defence.

2. **Administration.** The course lasts 32 weeks for approx 200 RM & Army students. The course starts in the Sep and Jan of the training year. Course dates and capacities can be found in JPA.

3. **Selection of Students.** Attendance on the ICSC(L) is for all RM officers selected for promotion to Major. CM OF RM1 loads the RM Officers selected for promotion to either of the two courses. The officers selected can be both DE & SCC RM officers.

4. **Pre-Course Preparation.** All RM officers must have completed the mandatory Officer Career Development courses (Military Analysis and Military Knowledge) before they can be assigned to the course.

5. **Continued Professional Development.** ICSC(L) awards accreditation towards a Modular Masters Programme.
f. Amphibious Employment Training

(1) **Amphibious Training – Basic.** Amphibious Training (Basic) is undertaken in RMYO (Phase 1) training at CTCRM.

(2) **Amphibious Training – Intermediate.** Amphibious Training (Intermediate) is a fundamental part of the RM officer continuous professional development. The Amphibious Operations Planning Course (AOPC) at MWC, Collingwood (1 week) is appropriate for all SO3/SO2 staff appointments in 3 Cdo Bde RM or other operational battle staffs.

(3) **Amphibious Training – Advanced.** The Advanced Amphibious Warfare Course (AAWC) (4 weeks at JSCSC) should ideally be completed prior to attendance at ICSC(L), sub-unit command or ACSC.

g. **Overseas Staff Colleges Attendance and Accreditation.** Arrangements exist for RN attendance as students or in some cases, as DS in a variety of overseas Staff Colleges. For SO1 and below these opportunities are included in the Common Appointments (CAPPS) Book and nominations are coordinated by CM CAPPS SO1. Officers who successfully complete an Overseas Staff Course or complete a full tour of duty as DS should be accredited with the appropriate competence on JPA which carries the post nominal accreditation ‘psc(j)(o)’. Those who complete the NATO Defence College (Rome) Course should be accredited with the appropriate competence on JPA and post nominals ‘ndc’. Officers attending Senior Overseas Staff Colleges (ranks OF5 and above) should be accredited with the appropriate competence in JPA and post nominals ‘sondc’. These accreditations must be initiated by Career Managers since they are not automatic at source. CM CAPPS SO1 should be consulted if there is any doubt as to which courses qualify for accreditation.

2. Post Graduate Defence Studies

a. **Admiralty Board Policy.** The Admiralty Board recognises the increasing need for officers to develop skills in business management and international studies in order to compete for posts within the joint community. Availability to undertake such training will depend on individual circumstances, career management and the needs of the Service. These factors are reflected in the selection criteria governing each course and are discussed further below.

b. **General Selection Criteria.** The following points should be borne in mind when advising officers who enquire about these schemes or indeed when Career Managers deem it correct to advise officers to consider applying for them. All applicants should be of well above average intellectual ability and have proven staff skills (this does not imply completion of ACSC). They need to be sufficiently personable and knowledgeable about defence matters in general to be an influence for good amongst all with whom they will come into contact in the University. At the end of the officer’s time the University must believe that the Naval Service has a high calibre person and the staff and undergraduates should have a better understanding of defence matters through their influence. All Career Managers are to be proactive in seeking candidates for postgraduate studies and to give such mid-career training proper consideration as a viable alternative to staff training in overall career management.
c. **Postgraduate Studies – Selection Procedures**

(1) A variety of opportunities exist for officers to undertake Postgraduate Studies related to International Relations, Business Management/Administration and Human Resources. Details of all these courses and any pre-requisite educational requirements are published annually by DIN. Applications for such training are to be managed in accordance with the procedures described below.

(2) CM OF ENG TMSO1 will administer the application and Boarding processes, promulgating details of courses and procedures for applicants by e-mail.

(3) In assessing each applicant for any course, the aim is to determine the relative suitability of the candidates, taking into account the following:

   (a) Individual career management.

   (b) The Service return on the training investment.

   (c) The ROS requirement attached to post graduate studies.

(4) Applications for full or part-time DCMT/Cranfield University courses will be considered by the ACOS(PCap) Postgraduate Selection Board (PSB). Applications for the Hudson Fellowship the MPhil and other research fellowships will be considered by the Academic Scrutiny Board (ASB).

3. **Funding of External Training**

a. Within the ACOS(PCap) delegated budget, tuition costs are funded from the External Training Budget (ETB). This budget area covers the following elements of external training for officers:

   (1) Foreign Military Sales (FMS) courses in the USA e.g. Persian Farsi language training, Ocean Surveillance training, USA Staff College attendance.

   (2) Attendance at the NATO School (SHAPE), Oberammergau.

   (3) Postgraduate full time and part time degree courses e.g. MPhil, MBA, MSc at UK universities.

   (4) NATO Fellowships, Defence Fellowships, Service Fellowships, the MPhil in International Relations at Cambridge University and the Windsor Leadership Trust

   (5) Diploma of Accounting course and Management Accounting courses.
(6) Courses required by NavSec personnel in order to undertake their responsibilities.

(7) Textbook expenses, thesis typing, binding and translation, internet connection and limited travel costs for the courses at sub para 2 and sub paras 3.a (1), (2), (3), (4), (5) & (6) above and also for postgraduate courses where there is no charge e.g. DCMT Shrivenham and Cranfield University.

(8) DGNCS external training.

b. **Postgraduate Studies.** Bids for major career courses such as Postgraduate Studies which fall within the ETB will be collated by CM OF ENG TMSO1 in July/August each year for the following year’s STP. This includes the Higher Defence Studies listed earlier and other career Master’s courses required by each Branch. All CMs will be required to forecast their plot training requirements across the 4 years of the PR Round. These bids will then be costed by the ACOS(PCap) Budget Office prior to assessment by the ACOS(PCap) Management Board. If the total costs of bids exceed the available funding an exercise in prioritisation will be conducted under the auspices of ACOS(PCap). This process may include researching the cost of alternative equivalent courses at a variety of UK universities to identify the most cost-effective solution within overall allocations.

c. **Other Training Needs.** Out with the funding of career courses described above there will be a variety of external training needs which must be sanctioned on an individual basis through CM OF ENG TMSO1 and the ACOS(PCap) Business Manager. The procedure for this is as follows:

(1) Applicant for RN/RM sponsorship submits their letter of request to their CM.

(2) The CM forwards the request to CM OF ENG TMSO1 using the proforma at Appendix 1 to Annex 59F which includes supporting statement from the CM.

(3) CM OF ENG TMSO1 designates a priority category using the following criteria

   (a) **Priority 1 - Essential.** Training with SOC HTQ support i.e. full time courses whose capitation costs are included in the HTQ.

   (b) **Priority 2 - Desirable.** Training which will benefit the Service, but which is not essential.

   (c) **Priority 3 - No Requirement.** Training which may have a potential long-term benefit but for which there is no immediate requirement.

(4) CM OF ENG TMSO1 liaises with the Business Manager to determine availability of funding for individual requests. For any course longer than 1 year’s duration, funding must be sought on a year by year basis with no guarantee of approval for further funding.
(5) CM OF ENG TMSO1, advising as required, decides the outcome of the request and notifies the CM using the proforma at Appendix 1 to Annex 59F.

(6) The CM, in turn, notifies the applicant. This notification should be copied to the ACOS(PCap) Business Manager, to which all invoices should be forwarded by Universities etc. In the case of postgraduate courses, applicants should also be advised of the following:

"ACOS(PCap) will consider claims for financial assistance for the cost of text books essential for the course, which are unavailable from libraries or other no-cost sources, up to a maximum of £600 p.a. - the year commencing from the date of the commencement of the course. Costs of Internet research will be covered within the £600 p.a. allocation, as will any typing, binding and translation of a thesis or project where no such facilities are available from service resources. Completed claim forms, together with receipts, should be forwarded to the Business Manager who will arrange reimbursement."

(7) The form to be used for claims is at Appendix 2 to Annex 59F which should be reproduced locally.
APPENDIX 1 TO ANNEX 59F

Notes:

1. Receipts and bills for all purchases must accompany this form.

2. Books remain the property of the Ministry of Defence and when no longer required are to be surrendered to the MOD Library, 3-5 Great Scotland Yard, London SW1A 2HW.

3. Second hand books may be purchased but receipts will be required.
ANNEX 59G

LENGTHS OF ASSIGNMENT

1. For planning purposes, normal lengths of assignment for non-squadded personnel are to be taken as follows:

   a. **Ships and Submarines:**
      
      Officers: 21 ± 3 months for Surface Ships; 24 months for Submarines; 30 – 36 months for FSA for WESM/MESM Lts.

      Ratings: 36 ± 3 months for ships and submarines.

   b. **Survey Ships:** 24 months.

   c. **Squadrons:**
      
      Officers: 24 months.

      Ratings: Lengths of assignment vary between rates and specs. Refer to relevant CM.

   d. **UK Shore Positions:**
      
      Officers: 30 ± 6 months.

      Ratings: Dependent on SAVDATE.

      RM units: 24 ± 6 months.

   e. **FOST Sea Riders:** 24 months.

   f. **OPTOURS:** 6 months.

   g. **Falkland Islands:** 6 months.

   h. **DE&S:** 30 ± 6 months.

   i. **MOD Central Staff & Rotational Positions** 30 months.

   j. **Technical Officers Standing by Ships In Build:**
      
      Up to 4 years and can be considered as 2 assignments.

   k. **Security Positions:** 36 months.
l. **NATO Assignments:**
   30 months (Any variation to be agreed with appropriate NATO authority in advance).

m. **LFS Accompanied:** 24–30 months.

   The minimum period is of particular importance because of financial constraints. Individuals may request up to three months variation in the length of their foreign assignment by application to their CM. Applications to reduce tour length cannot be made after 18 months and extensions of assignments cannot be requested after 24 months. Each case will be considered on its merits. Extensions of LFS in excess of six months will not normally be allowed.

n. **LFS Involuntarily Separated(e.g. BIOT)** 12 months.

o. **PJHQ:** 24 months.

2. **LFS Exchange and Loan Positions**
   Certain exchange posts and loan posts are subject to a specific length of assignment as laid down in the relevant agreements.

3. **Over-zone Officers Ashore in UK**
   The need to re-assign individuals approaching the end of their careers to broaden their range of experience is much less than that for more junior personnel. Accordingly assignments for these individuals may be for as long as convenient to both the Service and the officer or rating, subject to regular review.

4. **Royal Marines Officers**
   For planning purposes, the normal length of an assignment for a trained officer is 2 years. Officers may request to remain in their assignment for a further year. Longer extensions (i.e. over 3 years) are exceptional.
ANNEX 59H

THE USE OF FULL TIME RESERVE SERVICE AND ADDITIONAL DUTIES COMMITMENT PERSONNEL IN THE NAVAL SERVICE

1. Introduction

a. The full regulations for the use of Reservists on the Full Time Reserve Service (FTRS) scheme are laid down in BRd 3(2) Chapter 18. This Policy Statement does not replace any of these regulations, which remain extant. However, it provides explanatory guidance to all staff involved in the application and administration of the scheme regarding issues not covered by the regulations. It does not affect the financial or non-financial remuneration packages associated with the scheme: FTRS is a tri-Service scheme and Director Reserve Forces & Cadets is overall custodian of the regulations.

b. FTRS enables established positions in the Naval Service that cannot be filled by Regular Service personnel to be filled by members of the Royal Fleet Reserve, Royal Naval Reserve and Royal Marines Reserve. However, to ensure usage is consistent with the manning situation at the time, the scheme is normally subject to some controls.

c. Additional Duties Commitment (ADC) is a part-time derivative of FTRS; its regulations are laid down in BRd 3(2) Chapter 19.

2. Control of Overall FTRS Numbers

Manpower deficits are identified and broken down by rank and specialisation as part of the annual manpower planning cycle. In addition, details of those on FTRS filling gapped positions are identified. ACOS(PCap) PPlan will assess these inputs against other known or predicted criteria (GTS, etc) and then promulgate maximum numbers for each rank and specialisation that can be engaged on FTRS for the following year. Exceptional approval from ACOS(PCap) is required to exceed these annual quotas.

3. Length of Commitments

All new commitments normally default to a maximum initial length of 12 months. 21-month commitments can be granted at CM Whole Force (WF) discretion. Exceptionally, commitments in excess of 21 months duration, determined by the wider demands of the Service (i.e. how important is the position, how many applicants are there for the post, is there a continuity issue, etc?), would need to gain approval from ACOS PCap. However, all sea service/frontline positions should normally attract initial commitments of no more than 24 months in length.

4. Banding of Commitment

Any position being considered for the FTRS scheme (including an extension to an existing FTRS commitment) undergoes a rigorous audit, led by the deployer (CM WF) in consultation with the employer, branch structures manager and manpower planner. It confirms the following:
a. The continuing need for the position to be complemented by Regular Service personnel rather than MSF, civilian or contract. ACOS(PCap)/employer decision.

b. That a comprehensive trawl has taken place to ensure no Regular personnel are available to fill the position for the duration of the commitment being considered. ACOS(PCap) decision.

c. There is no scope to fill the position with a Reservist(s) on an Additional Duties Commitment (i.e. 'Part Time' Reserve Service). ACOS(PCap)/employer decision.

d. The Types of Commitment are summarised as follows:

(1) Home Commitment (HC), where the duties involved do not necessitate deployment or detachment outside the local area, is to be the default commitment offered. Exceptionally, use of FC/LC (see below) may be approved by ACOS(PCap), in consultation with COMMARRES/Functional Employer for RNRs.

(2) Limited Commitment (LC) may be offered if the individual is required to detach/deploy for up to 35 days a year, but no single detachment exceeding 21 days per year, to carry out the defined duties. This could potentially include Crisis Donor Positions.

(3) Full Commitment (FC) will apply to all sea-going/front line positions, as well as to other commitments that necessitate a liability or requirement for detachment/deployment exceeding 35 days a year. A Crisis Donor position will normally require any FTRS incumbent to be on FC, although consideration should normally be given to re-allocating these within the employer’s Establishment. In addition, in a situation where there is little or no defined Crisis requirement for a reservist about to fill the Crisis Donor position on FTRS, HC would normally be offered.

5. Deployability of FTRS Personnel

a. Unless overriding market forces dictate otherwise, personnel offered FC are normally to have the following clauses included in their written terms of commitment:

"You may be required to undertake any detached duties in support of operations or exercises as required by the CO of your employing unit or your career manager [or COMMARRES for RNR/RMR personnel]. These duties may involve skills or competences out-with the specific terms of your normal daily employment, but will be within your military experience as a Reservist (subject to additional training as required). Additionally, in certain circumstances, the Service may exercise the option of deploying FC FTRS personnel to other positions ashore or at sea, with normal assignment notice (3 months shore/5 months sea)."
b. Personnel offered LC are to have the following clause included in their written terms of commitment:

“You may be required to undertake any detached duties in support of operations or exercises as required by the CO of your employing unit or your Career Manager [and COMMARRES for RNR/RMR personnel], for up to 35 days in the UK or overseas in any one year with no single detachment lasting in excess of 21 days. These duties may involve skills or competences out-with the specific terms of your normal daily employment, but will be within your military experience as a Reservist (subject to additional training as required)."

6. RNR/RMR Personnel Serving on FTRS

RNR/RMR personnel extending, or applying to join, on FTRS will have an additional clause in their terms of commitment stipulating the mandatory requirement for the employer to release the individual for their Annual Training Commitment (outside of the individual's leave entitlement). This is to be signed by both employer and individual. Additionally, all RNR/RMR personnel applying for new, or extensions to, FTRS commitments are to have their applications approved by both their RNR/RMR Unit CO, in line with the guidance provided to the units by COMMARRES. As part of this approval process, the Reserve Units are to assess all RNR/RMR personnel volunteering for FTRS and recommend to CM WF any amendments to the commitment, to include any specific conditions pertaining to the requirements of their RNR/RMR specialisation.

7. RMR Ranks Transferring to RM Open Engagement

RMR ranks aiming to transfer to an RM Open Engagement are required firstly to undertake an FTRS (FC) commitment with an RM Unit and need to be recommended for transfer by the CO. In exceptional circumstances, when RMR Mnes are specifically selected for technical SQ courses (RMCT or TT), this probationary year can be waived by the RM Branch Manager, if supported by suitable Commanding Officer’s recommendations. The RMR FTRS(FC) probationary year is intended to ensure RMR personnel are of the required standard to transfer to OE. This requirement may, if in manning balance, lead to a small overbearing of GD Mnes. However, given GD ranks are continually being selected for SQ training, this will not cause long-term structural problems, but NPS authorisation may be required.
ANNEX 59I

NARRATION OF PERSONAL TURBULENCE ON JPA

1. Career Managers are required to record Personal Turbulence data on JPA to enable a quick cross reference for identifying individuals that have not breached the personal turbulence guidelines (see Chapter 22 Section 2). The recording of the number of serials and days will give rise to a fair process by which those with the least or indeed no recorded serials are considered first.

2. In order for this process to create as little administrative burden as possible upon the assigning authorities, the wording requires to be succinct and easy to reference. This wording also needs to highlight as to whether an individual was moved for an exercise, event or operational requirement. Content for the narration is to be placed within the “Rank Review Text” field on JPA and must follow the following format:

   a. **MOVE.** This first word states that an individual had been subjected to personal turbulence and also acts as the key word for filtering using the “custom” option when consulting Key Data.

   b. **MOVE(1).** The number contained within the bracket clarifies how many times an individual has been subject to personal turbulence during any rolling 12 month period. This also helps to rule out those who have already been subject to a third cycle of personal turbulence.

   c. **MOVE(1) NTM (5).** The Notice To Move (NTM) with corresponding days in brackets is also to be noted. To alleviate confusion the NTM is only to reflect the move related to the current / last serial and not a total number of days given for all moves.

   d. **MOVE(1) NTM(5) HMS KENT.** To avoid any confusion as to which platform / unit required an individual to be moved, the platform / unit is to be stated should any cross reference for whereabouts be required. Examples are:

      (1) **MOVE(1) NTM(5) HMS KENT.** In this format the move would reflect an operational requirement resulting in an assignment order to a specific Personal Identification Device (PID).

      (2) **MOVE(1) NTM(5) HMS KENT MA10A.** The inclusion of MA10A would signify that the move was for a requirement during an exercise, e.g. JOINT WARRIOR, with an individual being assigned to this margin for the respective platform / unit.

      (3) **MOVE(1) NTM(5) HMS EXCELLENT MA10B.** The inclusion of MA10B would signify that the move was required for an event, e.g. November Ceremonies, with an individual being assigned to this margin for the respective platform / unit.

   e. **MOVE(1) NTM(5) HMS KENT 10 DAYS.** The number of days for a single serial will also help to ensure that an individual does not exceed the number of days they could expect to be subjected to personal turbulence during 3 moves.
f. MOVE(2) NTM(4) HMS KENT 10 DAYS SD 01/10/13. The Start Date (SD) would state at which point an individual commenced their 12 month cycle.

g. MOVE(2) NTM(4) HMS KENT 10 DAYS SD 01/10/13 (20). Career Managers (CM) would be required to accurately record any movement associated with personal turbulence during the assigning process. This would require the addition of OPDEF moves and days. The number of days for a single serial would remain next to the corresponding platform / unit, with the total number of days stated in brackets at the end of the SD.
ANNEX 59J

PE-OPDEF NOTIFICATION/RECTIFICATION INSTRUCTIONS

1. The PE-OPDEF is to be the main body of the e-mail and not sent as an attachment.

2. Separate PE-OPDEFs are to be raised for each affected JPA position within the UPL – the use of a PE-OPDEF to report gapping or another deficiency in more than one individual position is not permitted. A unique JPA position number must be included in Line 4.

3. PE-OPDEFs are to be categorised PE and numbered in accordance with standard OPDEF protocol, individually numbered using a sequential number and the year e.g. PE 01-yy. A whole ship/unit PE-OPDEF Log is to be used to track PE-OPDEFs and ensure correct numbering.

4. When compiling a PE-OPDEF, you are reminded that the information is transmitted on MODNET/Dii, cleared to security classification OFFICIAL SENSITIVE PERSONAL. It would be appropriate to ‘refer to the FOS’ rather than give specifics of unit.

Format

</tbody>
</table>

5. Notes on Content:

a. **Subject Line.** The subject line of the e-mail must contain the originating unit (standard 4 letter abbreviation) and the PE-OPDEF number. All PE-OPDEFS should be submitted with the standard document naming convention used in the subject box.

   Format: yyyyymmdd–UNIT_OPDEF_PE_nn-yy_(Cat)–OSP
   Example: 20190105–ALBN_OPDEF_PE_01-19_(B2)–OSP

b. **DTG.** The DTG of the PE-OPDEF is the “Sent:” time of the e-mail (automatically generated by MS Outlook). Each PE-OPDEF is to be sent as a separate e-mail. It is important that the DTG is correctly referenced in SITREP and RECTIFIED e-mails.

c. **Line 1.** The PE-OPDEF Category (Line 1) should tally with Line 5 and must reflect the impact of the gap on OC, and where a relief is requested, how urgently, using the Effect Category and Repair Indicator as follows:

   **Effect Category** is a statement of impact on OC and should be interpreted as:

<table>
<thead>
<tr>
<th>Effect Category</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Major capability inoperative.</td>
</tr>
<tr>
<td>B</td>
<td>Major capability significantly degraded.</td>
</tr>
<tr>
<td>C</td>
<td>All other OPDEFS.</td>
</tr>
</tbody>
</table>
Repair Indicator is a statement of support needed:

<table>
<thead>
<tr>
<th></th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Immediate rectification required to meet Ship’s commitments or programme. Rectification will be the Ship’s primary aim and embarking the relief will override existing programme intentions.</td>
</tr>
<tr>
<td>2</td>
<td>Rectification required as soon as possible to meet future commitments or programming. Embarking the relief will be pursued within existing programme.</td>
</tr>
<tr>
<td>3</td>
<td>Rectification not required until next programmed Base Port period. Not normally applicable for PE-OPDEFs.</td>
</tr>
<tr>
<td>4</td>
<td>Rectification may await next programmed Upkeep period. Not normally applicable for PE-OPDEFs.</td>
</tr>
</tbody>
</table>

d. **Line 2.** If the position is not filled write ‘GAPPED’. Where the position is filled but the Current Incumbent is missing write why CI is missing (i.e. Compassionate/Medical etc). Where the position is filled but the incumbent has competency shortfalls which are not accepted by Command/FGA and these have a measurable impact on OC, then an OP OPDEF should be raised. This should also be copied, by email, to the PCAP OPS mailbox and the relevant CM mailbox.

e. **Line 5.** This must accurately reflect the impact on OC, bearing in mind current, future and contingent tasking. This should be accurately mirrored in the PE-OPDEF category in Line 1. Comment should be included here, or in the free-text remarks, explaining the extent of the loss across the whole Ship’s Company (e.g. 3 of 6 POET(WE)s gapped). Vague statements like “Unable to achieve State 1 Manning” are inadequate as they fail to identify the impact in sufficient detail to enable decisions to be made. For those units not in Fleet Time, it should reflect the impact on Upkeep key dates (SSMOB, RFSD and FD).

e. **Line 6.** This must state the reason for absence e.g. Assigned Without Relief, Medical Downgrade, Discipline, etc. and an estimate of the duration of the gap.

f. **Line 7.** What action is requested? Is a permanent or temporary relief requested or can the unit sustain the gap? If so how long could the unit sustain before a relief (either permanent or temporary) is requested? Is the current incumbent expected to recover / re-join? As guidance, if the estimated duration is greater than 3 months, a permanent relief is requested, if less a temporary relief may be more appropriate. If the unit can sustain the gap within the programme, this should be declared: the PE-OPDEF will still be recorded. If a relief is requested, the joining date should be realistic (if a trawl is required a minimum of at least 3 working days will be required to identify an individual). Any temporary relief period up to 7 days will be followed with a sustain and local loan process followed. For an OPDEF with less than 3 days’ notice Flotilla will be required to fill initially whilst PCAP Ops consider a longer term fill.

---

2 Chapter 22.
g. **Line 8.** What is the period for which the relief is considered essential? Requesting the ‘gold-plated’ solution may delay a relief being nominated when the true requirement could be resolved much earlier. The free-text remarks section can be used to detail when a temporary fill is essential.

h. **RMKS.** The remarks section of the PE-OPDEF is free-text and can be used to provide any amplifying comments. It should always contain details of essential JPA competences required; 3 or 4 (maximum) widens the options vice the 10 or 11 competencies required for the position as a whole. For example, raising a PE-OPDEF for the RPO is not enough – is it the Regulating SR function or the FDO qualification that the ship actually requires to maintain OC? What do you really need and when do you really need it? Other topics to be included are additional desirable competencies, gender specific relief requirements, relevant ship’s programme information (up to OFFICIAL SENSITIVE and referring to the FOS if necessary), and a ship/departmental PoC and contact numbers (for discussing competencies etc). Any additional SQEP held onboard which might allow the Unit to sustain for a time should also be noted.

The more information included in a PE-OPDEF the better the solution is likely to be.

**PE-OPDEF SITREP**

6. When any significant detail of the PE-OPDEF changes a SITREP should be sent promptly. The same format is to be followed but any changes to original PE-OPDEF/previous SITREP should be readily apparent to the reader, using bold, underline or highlight. The SITREP number should be added to the subject line of the e-mail.

**PE-OPDEF Rectification**

7. Once the OPDEF has been solved it should be rectified at the earliest opportunity.

**Format**

**Addressees:** As per original signal

4. POET(WE) – W3O – 1234567
5. Inability to support, maintain and operate medium calibre gun. Loss of 1 of 3 POET(WE) Weapons.
7. Temporary relief requested from 2 May 19.
8. Temporary relief from 2 May to conduct pre deployment OST – MASC 9 May 19.
RMKS/1. MCG Maintainer medically downgraded until review on 20 May 19 but expected to be fit for sea at this time.
2. Essential competencies – WE1234; CMS4. Gender free.
3. Unit can no longer sustain as W3 Group Head now medically downgraded – NONS OPDEF PE 15-19 refers.
4. POC DWEO NONS Tel 9380 23456/relevant email.

PE-OPDEF RECT

Subject: 211948Z May 19–NONS_OPDEF_PE_13-19_(A2)_RECT–OSP

OPDEF PE 13-19 RECT
REF NONS PE 13-19 201603Z Jan 19
1. A2
2. WE Weapons
3. POET(WE) – W3O – 1234567
4. 20 May 19
RMKS/1. POET(WE) returned to unit fully medically fit.
1. **General Guidance**

   a. The PERREQ is to be the main body of the e-mail and **not sent as an attachment**.

   b. Separate PERREQs are to be raised for each affected JPA position within the UPL – **the use of a PERREQ to report potential gapping or another deficiency in more than one individual position is not permitted**. A JPA unique position number must be included in line 3.

   c. PERREQs are to be categorised PQ and numbered iaw standard OPDEF protocol - individually numbered using a sequential number and the year, e.g. PQ 01 yy. The format for PERREQs is below. A whole ship/unit PERREQ Log is to be used to track PERREQs and ensure correct numbering.

   d. If required, a PERREQ can be upgraded to a PE-OPDEF. The PERREQ should be CANCELLED and a new PE-OPDEF raised but for coherence and audit, should refer to the previous PERREQ in both reference and text articulating what has led to the requirement for the ‘upgrade’.

   e. When compiling a PERREQ, you are reminded that the information is transmitted on MODNET/Dii, cleared to security classification OFFICIAL SENSITIVE PERSONAL. It may be appropriate to ‘refer to the FOS’ rather than give specifics of unit programmes. LAC liability now sits within FF/DD therefore any PERREQs for either LACs (>500ft) or LLHKTC (<500ft) are to follow the same format detailed below with the relevant Ops Fwd team taking the lead on any issues.

**PERREQ Format**

**Addressees:** See table below.

**Subject:** yyyyymmd – UNIT_PERREQ_nn-yy–(SITREP?^{1}) OSP  
Note i and ii

UNIT PERREQ nn-yy

2. Notes on Completion

a. **Subject Line.** The subject line of the e-mail must contain the originating unit (standard 4 letter abbreviation) and the PERREQ number. All PERREQs should be submitted with the standard document naming convention used in the subject box.

   Format: yyyymmdd–UNIT_PERREQ_nn-yy–OSP
   Example: 20190106–ALBN_PERREQ_01-19–OSP

b. **DTG.** The DTG of the PERREQ is the “Sent:” time of the e-mail (automatically generated by MS Outlook). Each PERREQ is to be sent as a separate e-mail. It is important that the DTG is correctly referenced in RECTIFIED e-mails.

c. **Line 3.** Must state the reason for anticipated absence e.g. Absent on Course, Paternity Leave, Assigned Without Relief, Compassionate, etc and an estimate of the duration of the gap. The PERREQ can be updated with a SITREP or upgraded to a PE-OPDEF if this changes at a later date.

d. **Line 4.** Full details of essential JPA competences required (3 or 4 maximum is best practise). For example, raising a PERREQ for the RPO is not enough – is it the Regulating SR function or the FDO qualification that the ship actually requires to maintain OC? Do not list all the competencies required for the position only those deemed essential for that period.

e. **Line 7.** Must include the period for which the relief is considered essential. Requesting the ‘gold-plated’ solution may delay a relief being nominated when the true requirement could be resolved much earlier. The PERREQ should be CANCELLED once the essential period has expired.

f. **RMKS.** Free-text remarks and additional information. Should include impact on OC (Fleet time) or upkeep key dates (Non-Fleet time) if position not filled once CI absent, other joining opportunities (up to OFFICIAL SENSITIVE), a ship/departmental PoC and contact numbers (for discussing competencies), etc. If the gap can be sustained, this should be declared: the PERREQ will still be recorded.
PERREQ SITREP

6. When any significant detail of the PERREQ changes a SITREP should be sent. The same format is to be followed but any changes to original PERREQ/previous SITREP should be readily apparent to the reader, using bold, underline or highlight. The SITREP number should be added to the subject line of the e-mail.

PERREQ Rectification/Cancellation

7. A RECT/CANCEL e-mail should be sent as soon as the PERREQ has been solved by either a relief arriving on board (RECT) or the period for which the cover is required has passed (CANCEL). If the PERREQ becomes a PE-OPDEF, the PERREQ should be cancelled, with the PE-OPDEF number referenced in the remarks section.

CHAPTER 60

SPECIFIC TYPES OF ASSIGNMENT

SECTION 1 - ASSIGNMENTS FOR PERSONNEL ON JOINING OR LEAVING THE TRAINED STRENGTH

6001. Assigning Officers and Ratings to Phase 1 and Phase 2 Training

a. Personnel recruited into the Service are assigned to their respective New Entry Phase 1 Establishment and are considered to be part of the Untrained Strength (UTS).

(1) RN officers and ratings remain on the UTS until they have completed Phase 1 (Initial) and Phase 2 (Professional) training.

(2) RM officers and Other Ranks are borne on the UTS of CTCRM until they complete Phase 1 and 2 training. On completion they will be assigned in accordance with the RM manning priority.

(3) RMBS Other Ranks are borne on the UTS of RMSoM under the C2 of CTCRM until they complete Phase 1 and 2 training. On completion they will be assigned iaw RMBS manning requirement.

b. Trained officers who re-enter the Phase 2 training pipeline will have their assignment orders issued by the respective Career Managers.

c. Trained ratings who re-enter the Phase 2 training pipeline will have their assignment orders issued by the FOST training pipeline manager (FOST PM). On commencement of training, the Training tag in JPA will be changed to ‘Untrained’ by the FOST PM.

6002. End of Training (EOT) Date

a. RN. For RN officers and ratings, the training establishment reports forecast completion of the final element of Phase 2 (Professional) training to the respective Assigning Desk and personnel become available for Assignment to complement positions. When personnel complete Phase 2 training, the FOST PM will remove the UTS tag in JPA and they become ‘Gains to the Trained Strength (GTS)’.

b. RM. For RM officers and other ranks this is the same as above but CTCRM will remove the UTS tag on JPA.

6003. Pre-Release Vocational Training (PRVT) Courses and Graduated Resettlement Time (GRT)

a. Full details of eligibility for Pre-release Vocational Training and Graduated Resettlement Time can be found in JSP 534, the Tri Service Resettlement Manual.
b. The responsibility, at unit level, for giving access to resettlement provision lies with the individual’s CO. COs may authorise, within parameters set in JSP 534, absence from normal place of duty and Travel and Subsistence (T&S), to assist eligible Service Leavers (SL) to meet their individual resettlement goals. Thus, all GRT is to be funded by units, who are to release personnel as required during their final two years of service. Individuals should not normally be reassigned to the margin for completion of resettlement activities.

c. Reliefs are not normally to be provided to enable personnel to be released for a resettlement activity.

d. For personnel submitting 12 months’ notice, action will depend on where the individual is serving at the time of notice submission:

   (1) Sea Service. If the individual is assigned to Shore Service with more than 9 months before Terminal Leave (TL) starts they should be placed in a complement position; GRT should be undertaken during the course of that final assignment before being assigned to MA5 (see margin activity guide, Part 3 Annex 3B) and proceeding on TL. If they are assigned from sea with less than 9 months before TL, it is reasonable to assign in a relief to the same complement position in time to allow GRT to be taken as a block. If the bare minimum of shore time is available, the individual may have to be assigned to MA6 to allow the individual to undertake GRT.

   (2) Shore Service. GRT is to be taken during the course of the 12-month notice period, with a relief assigned in time to complete normal handover before the individual proceeds on TL.

e. In exceptional circumstances, when individuals have been unable to utilise all of their GRT entitlement, for Service, Medical or Compassionate/Welfare reasons, it may be possible to defer discharge. The amount of GRT for which an individual is entitled will be taken into account in calculating the deferred discharge date. Applications must be fully supported and endorsed in writing by the CO and approved by the respective CM at SO1 level. Further details can be found in Chapter 49 Section 3.

6004. Assignments to Release

a. Personnel will be assigned to a nominated Unit Release Centre for discharge on completion of engagement/Commission/Career or notice. The Unit Release Centre will normally be the establishment/unit in which they are serving prior to release. Where an establishment/unit has not been designated to provide a local release facility, discharge routine will be undertaken by the nearest Unit Release Centre.
b. The following releases are special cases and exceptions to above routine:

(1) **Maternity Release.** Maternity Release is actioned only through NELSON, DRAKE or NEPTUNE Release Centres.

(2) **Abnormal/Short Notice Release for Ratings Serving Abroad Returning to UK.** Abnormal/Short Notice Release for Ratings Serving Abroad Returning to UK, eg. Discharge Shore/SNLR is actioned only through NELSON Release Centre.

(3) **Release from Ships or LFS for personnel without a Preceding Period of UK Shore Service.** Personnel without a preceding period of UK Shore Service are released through the nearest Unit Release Centre to the individual's UK home address.

c. Guidance on use of the margin for release assignments can be found at Part 3 Annex 3B.
SECTION 2 - ASSIGNING FOR DISCIPLINARY REASONS

6005. Removal from Command

An officer who has been assigned in command of one of HM Ships is not to exchange their command with an officer of another ship unless such exchange is approved in advance by the Naval Secretary. An officer who has been assigned in command of one of HM Ships is not to be relieved of their command except in circumstances where this action is essential. Such an action is to be regarded as a temporary expedient to meet a situation of extreme urgency. Any such action is to be reported to the Administrative Authority and Commander in Chief Fleet, who is to inform 2SL/CNH and Naval Secretary. It should be noted that to relieve an officer of their command is a serious matter and the officer taking such a step should be prepared to justify it subsequently. Until an application to remove a Commanding Officer from their assignment has been approved by Naval Secretary (see Para 6006 below), the officer concerned will remain assigned to their ship and will be expected to resume their command.

6006. Removal from Assignment

a. Considerable effort is made by Career Managers to ensure that individuals are assigned to roles that are appropriate to their professional skills, training and experience. However, there will be circumstances where, in order to preserve operational capability, the reputation and standing of the Service or in the best interests of the individual concerned, it may be necessary to remove a person from a particular assignment. Removal from Assignment is a serious step which may have grave consequences for the individual’s future career. Accordingly, before action is taken to commence the process of removing an individual from assignment, consideration should be given to whether there are alternative, lesser options which would be more appropriate, e.g. warnings or application for Quarterly Reporting.

b. Types of Removal. Personnel may only be removed from assignment, subject to satisfying the removal criteria at sub para c, on one of 3 bases:

(1) Removal from Assignment on a ‘Fault’ Basis. This will be appropriate where the individual has met the criteria for removal from assignment, detailed in sub para c, and this can reasonably be held to be the fault of the individual, or, in other words, the individual is blameworthy for the presence of those factors.

(2) ‘No Fault’ Reassignment. This will be appropriate where the individual has to be removed owing to factors that are attributable to the Service rather than being the fault of the individual. For example, the Service may not have provided the individual with the relevant training to make them suitable for that assignment. Thus, where an individual is identified to be failing in their post (e.g. during a period of sea training with FOST), owing to a training shortfall for which the Service is blameworthy, and the individual’s failure is having an unacceptable impact on the unit’s OC, a ‘no-fault’ reassignment should be considered.
(3) **Without Prejudice' Reassignment.** This will be appropriate where the individual is required to be reassigned before a disciplinary finding or major administrative action decision is made. For example, this may be because there is intrusive press interest, or the relevant investigation may require the individual to be absent from the unit for protracted periods and the post is a key one which cannot be gapped.

c. **Removal Criteria.** The following criteria should be used to determine whether there are grounds to apply for a removal from assignment. In complex cases, where the presence of some of the factors below is not completely clear, guidance should be sought from the NCHQ Casework Cell.

(1) **Type of Failure.** When considering a Removal from Assignment, the CO should first decide whether an individual’s failure meets one of the criteria listed below:

(a) Misconduct, which includes but is not limited to a disciplinary finding, a breach of the Code of Social Conduct or an upheld complaint of bullying, harassment or discrimination.

(b) Removal of, or failure to gain, a relevant and essential security clearance.

(c) Lack of professional or personal qualities or both.

(2) **Untenable Position.** If an individual meets one of the criteria in sub-para (1) then consideration should be given as to whether an individual's position is untenable. This means that there is no realistic prospect of them being able to recover their position within a reasonable period. Whilst an individual’s position may well be untenable in the short term, there may be situations where an individual can recover their position either through a period of absence from the unit, or by means of administrative sanctions. A successful application is dependent on proving, on the balance of probabilities, that an individual’s position is untenable. It is vital that the CO fully details in the application why this is or is not the case.

(3) **Fault of the Individual.** Fault on the part of the individual in question is not a prerequisite for a successful application, but is a highly relevant factor which should be considered and commented on. Where it has been decided that an individual's position is untenable with no realistic prospect of recovery, the CO should consider whether the factors at sub para (1) are the fault of the individual.

(4) **Measures other than Removal are Inappropriate.** The CO must explain why administrative action other than Removal from Assignment is not appropriate.
d. **Procedure for Removal from Assignment.** If a Commanding Officer, satisfied that the criteria in sub-para c have been met, deems that a Removal from Assignment is an appropriate course of action, they should make application to the NCHQ Casework Cell in accordance with the general procedure and format for administrative applications detailed at Annex 1E. Applications will be referred to the Naval Secretary for approval by NavSec or the appropriate delegated authority. The relevant administrative authority (eg. Flotilla/Brigade) should be copied on the application. In addition to the points covered in the general guidance on applications, an application for removal should demonstrate that:

1. An individual’s failure and position within the unit satisfy the necessity for a Removal from Assignment on a Fault, No Fault or Without Prejudice basis. It is essential to show that the individual’s position in the unit is untenable.

2. If a CO considers that the conditions for the relevant removal are present, they must ensure these conclusions are supported by evidence. A CO’s own observations of an individual may be sufficient to support an application, but COs must take care that their own observations are not prejudiced by the unsubstantiated comments of others or reflect a ‘clash of personalities’. Wherever practicable, an application should only be made after a proper and impartial investigation has been conducted by a competent person or authority. The CO may commission an investigation, in a similar manner to a Ship’s Investigation, in order to establish the facts. The rigour and extent required of the investigation will depend on the facts of the case. It will not normally be necessary to have a RNSIB/MDP investigation, but the Naval Secretary or the appropriate delegated authority will only approve an application if they are satisfied that there is sufficient, auditable evidence to justify it objectively. Applications based on unsubstantiated hearsay or over hasty judgement cannot be approved. In short, objective evidence needs to be available to support the assertions which are made and it will need to be clearly laid out point by point. In particular, where a lack of professional or personal qualities is alleged the relevant failings should be particularised. In so doing this allows the individual to know the case against them and to properly address it in any representation they choose to make.

3. No other course of action is appropriate:
   
   a. In misconduct cases, there must be clear evidence that the person’s position has become untenable as a result of the relevant misconduct.

   b. Where the application is based on security clearances, there should be an indication that the position cannot be regularised within a reasonable time.
(c) Where a lack of professional or personal qualities is alleged, where appropriate the application should explain why a period of quarterly reporting or use of the warnings process for reversion/discharge shore in the current unit has been discounted, observing that these are the normal mechanisms for dealing with a person whose performance has fallen short of the required standard.

e. An application for removal from assignment must be accompanied by a copy of a Special (SPEC) OJAR and Representation or Waiver of Representation. Other enclosures relevant to the circumstances detailed in the application should also be included and must be disclosed to the individual.

f. If a CO is in any doubt when considering an application for removal from assignment, or a ‘no fault’ or ‘without prejudice’ reassignment of an officer or rating/other rank, they should seek advice from the NCHQ Casework Cell. Advice on related disciplinary issues should be sought from the relevant regional legal office.

g. Measures Other Than Removal. Where it becomes evident that Removal from Assignment is not appropriate, the CO may wish to consider the following options as a corrective measure for the individual:

(1) Managing within the Unit. This should be the normal course of action. The CO has a variety of management tools available by which to identify the individual’s failings and provide a structured process by which the individual may rectify their performance and the CO may monitor it. This includes judicious use of the reporting system through MPARs and periodic appraisals to Quarterly Reporting, censure action and other warnings.

(2) Directed Leave. The CO can, at his discretion, send an individual on directed leave for a short period of time. This can be used appropriately to manage a situation, such as when a complaint of bullying and harassment has been made. Directed leave should not be given for longer than 4 weeks. If it becomes apparent that an individual will need to be on directed leave for longer than 4 weeks, an application for Suspension from Assignment must be made. Directed leave does not count against Individual Leave Allowance.

(3) Suspension from Assignment. See Para 6007.

h. **Exceptional Force Majeure Removal**

(1) Only when exceptional circumstances make it impracticable to obtain prior approval before a ship or submarine sails may action be taken to effect a removal from assignment or a ‘no fault’ or ‘without prejudice’ reassignment. The fact that action has been taken to effect the removal or reassignment of the individual in this manner is to be reported to NavSec immediately. Details of why it was not practicable to seek prior approval should be included in the application for removal or reassignment on a ‘no fault’ or ‘without prejudice’ basis, which should be submitted at the earliest opportunity. Such a course inevitably tends to pre-empt or limit the decision of a deciding authority in any future disciplinary or administrative action. In all such cases the CO must justify both the urgency and correctness of their action.

(2) There may be exceptional circumstances where a CO decides that the person’s position has become untenable before the adverse consequences (harm, damage etc.) have occurred. Generally speaking, the key issue will be one of evidence to support the assertion that the person’s position has become untenable. The earlier the action is taken, the less likely it is that there will be sufficient auditable evidence. It will be necessary, therefore, to show that the circumstances are exceptional, that the adverse consequences bring high probability/high impact and that the decision to remove the person is proportionate, fair and reasonable.

i. **Conclusion.** The judgement of whether an individual’s position has become untenable is an executive one. No two sets of facts are the same, and the judgement of untenability may be reached at different stages for different circumstances and different individuals. What is required is a careful balancing exercise of relevant factors such as: the rank/rate, status and responsibility of the individual; the operational circumstances; the Service interest; the interests of the individual; damage to Service reputation; the seriousness of the failing, harm, damage or mischief, and whether these have already adversely impacted on the efficiency or operational effectiveness of the unit or are likely to do so impact.

j. Further guidance for COs and for NCHQ staff is at Annex 60A.
6007. Suspension from Assignment

a. **Purpose of Suspension.** Suspension is a measure less than a permanent removal from assignment but greater than directed leave (not being deductible from annual leave allowance) or any similar expedient measure which removes an individual temporarily from a unit. Guidance on these latter measures is to be sought from administrative authorities and the measures are to be fair, reasonable and proportionate at all times. The purpose of suspension, however, is to formalise the arrangements for a temporary removal from assignment either for the needs of the Service or those of the individual, or both. It is not a disciplinary or administrative sanction, but a temporary administrative measure in a sensitive case. It is particularly suited to situations which are likely to worsen for the individual or for the Service, where early intervention is likely to mitigate the adverse effects anticipated and where the interests of the individual and the Service are best temporarily frozen, permitting reinstatement of the individual if the anticipated adverse outcome does not materialise. A period of suspension may, therefore, end with the individual being restored to their original job or being permanently re-assigned.

b. **Grounds and Evidence.** An application for suspension should be founded on the types of circumstances that are grounds for permanent removal, i.e. misconduct, security clearance, professional or personal qualities. The reason for this is that suspension needs to have a rational basis and needs to sit coherently with other measures. Crucially for suspension, however, the circumstances are that it is not clear that an individual’s position has become untenable (if this is the case, it would trigger a removal from assignment application). Furthermore, it is stressed that suspension does not mean or suggest guilt, and it is not an adverse finding against the individual. Where there is just cause, consideration should be given to whether suspension can be avoided by using alternative arrangements such as a temporary change to the individual’s duties or posting within a unit. Although the decision-maker may decide on the need for suspension on a balance of probabilities, it is to be remembered that suspension is a serious measure to be used only exceptionally.

c. **Duration and Termination.** Suspension is a temporary measure taking suitable account of the relevant rank, grade, assignment or appointment of the individual involved. It should be kept under regular review by the Administrative Authority and the Naval Secretary, the latter having the right to take assigning action in the best interests of the Service and the individual at all times. As a guideline, the first review should take place one month after suspension began, with subsequent reviews taking place monthly thereafter. However, review periods may be adjusted to suit the circumstances of each case, providing they are fair and reasonable. Since suspension is a temporary measure and is predicated on an individual potentially being able to return to assignment if the reason for the suspension no longer pertains, no permanent relief action will be taken and, therefore, the unit must be able to accept a gap or seek a short-term manning palliative.
d. **Procedure**

(1) **JRs.** Junior Ratings may be Managed Moved as required either within the squad or to the Recovery Cell pending the investigation.

(2) **Officers and Senior Ratings.** Application is to be made through the Administrative Authority to the Casework Cell in accordance with the general procedure and format for administrative applications detailed at Annex 1E). The application should set out:

(a) The ground(s) on which it is made (eg. misconduct).

(b) The evidential basis.

(c) The reason(s) why the Commanding Officer considers that suspension is a reasonable and proportionate response in the circumstances.

(d) Confirmation that, at the time of making the application, the individual’s position in the unit has not yet become untenable.

(e) The initial period of suspension for which application is made.

(f) The period for which the unit can support a gap if necessary.

(g) Either a representation from the individual or a certificate to the effect that the right to submit a representation has been offered by the Service but declined by the individual. The individual should be apprised of the case to suspend them before the application is finalised and in order to allow them to address the fundamental issues in their representation.

e. **Assigning Action.** Whether assigning action is temporarily required to remove the individual from the books of the unit from which they are suspended will be decided on the facts of each case. In all cases of suspension the option must remain at all times for the individual to be restored to their original position with no adverse impact on their career.

### 6008. Assigning Officers following Courts Martial Sentences

Career Managers should seek the advice of NLS Law3 when signals are received requiring Naval Secretary to implement Courts Martial sentences eg. an officer is to be dismissed from their ship.

### 6009. Assigning Ratings Sentenced to Imprisonment or Detention

Details of ratings sentenced to imprisonment or detention are to be signalled to the relevant CM so that appropriate assigning actions can be taken (see also Margin Usage Guide Part 3 Annex B). The committal date and sentence awarded are also to be quoted. AOs will be issued, retrospectively, where necessary, to remove such ratings from their current assignment and assign them to the Military Corrective Training Centre (MCTC) Colchester.
6010. Assigning Ratings on Completion of Sentence

a. When ratings are due for release from MCTC Colchester, a signal is sent to parent units, info CMs, giving expected release dates and requesting re-joining instructions. Ratings on sea service will normally return to their ships/submarines unless a recommendation to the contrary is made by the Commandant MCTC or an application from the ship/submarine for the rating not to return is approved by Navy Command. The assigning of those ratings not returning to their ships/submarines will be decided after consultation between CM and the Releasing Authority. In all cases AOs will be issued.

b. MCTC, as a Service Establishment, has established lines of communication with ACOS(PCap) and established practices for dealing with release on completion of sentence. In the case of personnel who are continuing in the Service after serving a sentence in one of Her Majesty’s Prisons (HMP), information, such as future release dates, may not be readily available. Assignment orders may, therefore, have to be issued retrospectively.

6011. Assigning Ratings/Other Ranks Disrated, Reverted, Reduced in Rank or Deprived of Specialisation

a. WOs and NCO/Senior Ratings (including Acting and Local Acting Rates) who are disrated, reverted or reduced in rank either for discipline or unsuitability / incompetence will normally be assigned elsewhere unless the CO specifically requests otherwise. COs of ships/submarines and units/establisments (including LFS units) are to signal CMs as soon as disrating or reversion is approved, with any recommendations. CMs will then reassign. Reliefs cannot be provided at less than normal assigning notice although ships may consider taking PERREQ action. CMs are to be notified as early as possible when reversion or disrating is likely to occur.

b. Junior Ratings disrated or reverted or Mnes deprived of specialisation will not normally be assigned elsewhere. If, however, the circumstances are considered exceptional, then a request may be made to the relevant Administrative Authority for approval, with a copy to CMs. If the approval is given, then assigning action will be taken but a relief cannot be provided at less than normal assigning notice.

c. For RM only, the consequences of being reduced in rank or deprived of SQ are explained in BR 1283 (RMIs) Chapter 6.

6012. Action to be taken for Personnel Absent Without Leave

a. An absentee rating is marked 'RUN' by the parent UPO on the 8th day of absence. Personnel marked 'RUN' are to be assigned to MA12 (HMS NELSON) (for margin details, see Annex 3B).

b. Assigning Sections can only carry out this action if informed of the occurrence by the absentee's ship or unit. Often ships and units forget to inform the relevant CM, or inform long after the event, it therefore follows that assigning action will often be taken retrospectively.
c. After 3 months, a Commanding Officer can apply for a rating marked 'RUN' to be ‘discharged’ ie. effectively removed from the ship's records allowing for a relief to be assigned.

d. The deserter's details will be removed from all assigning records at, or shortly after this 3-month point.
SECTION 3 - ASSIGNING FOR WELFARE REASONS

6013. Compassionate and Welfare Assignments (also see Chapter 24)

a. The Royal Navy Royal Marines Welfare (RNRMW) can make a recommendation for assignment action but the decision to approve or not approve a compassionate assignment lies with the CO. When the CM has been informed of the RNRMW recommendation, the position with regard to a relief will be signalled to enable the CO to decide whether or not to approve the recommended assignment. AOs will be issued to implement recommendations for compassionate assignments approved by COs. The individual reassigned for compassionate or welfare reasons will be liable for short notice sea assignment on removal of the restriction.

b. Extensions of compassionate assignment beyond 6 months will be recommended by RNRMW only in exceptional cases in accordance with Chapter 24. There are, however, rare circumstances when a permanent or prolonged assignment of over 6 months to a shore area may be appropriate or advantageous to the Service (e.g. personnel near to the end of a pensionable engagement, or individuals with unique skills). RNRMW will, therefore, consider recommending assignments of over 6 months but have been requested to limit such recommendations to quite exceptional cases and where the individual’s retention can be justified on the grounds of being of special value to the Service.

c. Assignments for welfare reasons for RM personnel may only be authorised by CDO after confirmation by RNRMW. If a position is available in the unit of choice, the individual’s circumstances will not prevent him/her from normal employment and the assignment is for geographical convenience then the individual is to be assigned into that vacant position. However, if there are no positions available or normal employment is not possible for welfare reasons then the individual should be placed in a suitable Margin Position (see Annex 3B) at the unit of choice.

6014. Assigning Parents of Children with Special Educational Needs

a. Personnel with children with special educational needs should be strongly encouraged to register the child with:

Children’s Education Advisory Service
Trenchard Lines
Upavon
PEWSEY
Wiltshire
SN9 6BE

b. Once a child is registered with CEAS, they inform the CM and the fact is recorded on assigning records by the restriction WSEN (Welfare – Special Educational Needs).

c. This information will be taken into account by assigning officers when planning an assignment and CMs will inform CEAS of any new assignment by letter. An example is at Annex 60B.
Assigning Personnel undergoing courses of Assisted Conception Treatment

a. Wherever possible CMs are to provide stability for personnel seeking to access assisted conception services provided by the NHS in the UK for themselves or their spouse, civil partner or partner. It is intended to apply both to Servicewomen seeking assistance for themselves or their partners and to Servicemen whose wives or partners are seeking assistance.

b. An individual wanting to maintain stability to complete assisted conception treatment will need to inform their chain of command and their assigning authority, in confidence, of their situation in order for the CM to take account of the new circumstances and personal priority. It is essential that the individual asking for stability is made aware of any potential career implications that may result from their request (e.g. no concession will be made if a professional development course is missed in order to achieve the required family stability).

c. The length of the period of stability needed will vary with each case and according to the treatment being given. Ideally the period of stability should cover the entire pregnancy and where possible CMs should try to achieve this. However, MOD policy is that the minimum period of stability should cover the time needed for all consultations required before the conception attempt and for one attempt at assisted conception to be completed. This minimum will normally be 6 months.

d. For full details see 2009DIN /01-104.

Career Management Record (CMREC) Assignment Restriction

a. Assignment Monitoring should be applied in cases where equality and diversity related harassment and bullying complaints have been upheld. It involves annotating Service personnel records with a Career Management Record (CMREC) Assignment Restriction to highlight where an individual’s actions or behaviour indicate that they might be unsuitable for some posts, or assignment to the same unit as certain other individuals. Assignment Monitoring will be used in order to:

(1) Protect potentially vulnerable personnel and identify those whose long-term behaviour is of concern.

(2) Prevent complainants and respondents being inadvertently employed in close proximity in future where this is avoidable/desirable; and

(3) Provide the management tools to identify trends and identify those whose long-term behaviour is of concern

(4) Provide a means by which individuals whose career history indicates that they may pose a risk to vulnerable people are not assigned to a post where they will come into contact with such individuals (for example, in training roles) without due consideration and assessment of risk.
b. The CMREC Assignment Restriction will act simply as a flag to CMs to seek further advice on a particular individual; they will not have access to details of individual cases held on JPA.

c. In the event of an assignment order being raised for an individual who has a CMREC Assignment Restriction, the CM should request further information and a recommendation on suitability. The final decision on whether or not to proceed with the assignment will continue to rest with the CM, taking into consideration the balance of risk presented by the particular circumstances.

d. Full details of the Career Monitoring policy can be found in extant DINs.
SECTION 4 - ASSIGNMENT OF SENIOR OFFICERS (1 STAR AND 2 STAR)

6017. Flag and Senior Officers’ Appointment Board (FSOAB)

a. **General.** The FSOAB meets quarterly (Jan, Apr, Jul and Oct) after a corresponding Navy Board to ensure that individuals can be assigned in a timely fashion to meet the notice guidance set out in Chapter 59 Section 11. Each meeting will consider 1* and 2* appointments due to turnover at least 6-7 months in advance, although selection of candidates for Joint competitions, or appointments requiring extensive training or special clearances (e.g. attaché posts) are normally considered 12-18 months in advance.

b. **Membership.** The FSOAB is made up of the Chair and 3 core members:

<table>
<thead>
<tr>
<th>Role</th>
<th>Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chair (Voting)</td>
<td>1SL</td>
</tr>
<tr>
<td>Core Members (Voting)</td>
<td>Fleet Commander CFS</td>
</tr>
<tr>
<td>2SL</td>
<td></td>
</tr>
<tr>
<td>Independent Private Sector Rep</td>
<td>NAVSEC</td>
</tr>
<tr>
<td>Representative (Non-voting)</td>
<td></td>
</tr>
<tr>
<td>Board Adviser (Non-voting)</td>
<td></td>
</tr>
</tbody>
</table>

6018. **Before the FSOAB**

a. NAVSEC’s staff carries out the preparatory work for the Board. This includes assessing which appointments need to be filled, ensuring the Job Specifications are updated and recommending **fields** for the appointments to be filled. Tribal Chiefs (see Para 6029), employing officers and other stakeholders will normally be consulted as appropriate.
b. Fields are the down-selected list of candidates nominated for discussion by the Board for each appointment. NAVSEC/NA base down-selection on a number of factors including availability dates, competences and appraisal recommendations. No more than 3-4 candidates (both substantive and any selected Pool officers) would be expected to be nominated for each post, although this may vary according to the number of officers who meet the basic criteria required. Occasionally only one officer may be eligible for an appointment, especially at more senior ranks. On certain occasions the FSOAB may consider a nomination for a 2* post or to compete for a post despite the candidate not being in the 2* Pool. FSOAB members are a quorum of the Flag FSB and as such the selection of a candidate represents substantive promotion selection for that specific appointment only. FSOAB members may ask for full documentation to be provided on any officers not down selected for further consideration at the meeting.

c. The appointments to be reviewed at the meeting includes all posts that meet the criteria as set out at Para 6017 sub para a above. Only those appointments which require a decision at that meeting require advance supporting paperwork. The paperwork for the meeting includes:

1. **Covering Letter.** Brief to FSOAB members.
2. **Job Specifications.** For all appointments being considered.
3. **The Field.** Detailing nominated officers and any additional relevant information (including Tribal Chief, employing officer or other stakeholder comments where pertinent) that the members may require to make a decision.
4. **Statements of Service.** For all nominated officers.
5. **Recent ARs.** The last 5 OJARS/reports for each nominated officer (including RCDS/HCSC reports).
6. **Scoring Sheet.**

d. The agenda (a standing agenda is at Para 6022) and supporting paperwork are sent out in soft copy 10-14 days prior to the scheduled meeting to all Board members (including non-voting members). NAVSEC briefs the Chair before each Board. Board members complete the scoring sheet for each appointment and return it to NAVSEC as directed or at least 48 hours prior to the meeting.

6019. **At the FSOAB**

a. The FSOAB normally takes place after the Jan/Apr/Jul/Oct Navy Board meetings. At least 90 minutes are to be allocated for the meeting. Meetings may be arranged to coincide with other NAVB meetings if timings are more convenient or if additional meetings are required.
b. NAVSEC introduces the fields as set out in the supporting paperwork for all 1* and 2* appointments. NAVSEC provides a consolidated scoring sheet recording the votes of each member and highlighting the overall order of preference. The appointments are discussed in the following order:

1. 2* appointments requiring decisions at this Board are considered by fill/training start date (earliest first).

2. Predicted or known 2* appointments, with provisional fields, out to 18 months are discussed, but no decisions made.

3. 1* appointments requiring decisions at this board are considered by fill/training start date (earliest first).

4. Predicted or known 1* appointments, with provisional fields, out to 18 months are discussed, but no decisions made.

c. Once all appointments have been discussed, NAVSEC summarises the decisions made and notes any follow-up actions set by the Board.

6020. Post FSOAB Action

a. A Record of Decisions is promulgated to all Board members within 48 hours of the meeting. The Record includes:

1. A list of appointments considered for decisions.

2. Names of officers selected for those appointments.

3. Names of officers considered but not selected against appointments.

4. The final consolidated scores, but not of individual members’ votes.

5. A list of endorsed decisions.

6. Any additional points as directed by the Board.

b. NAVSEC/NA contacts prospective employers of the selected officer in appointments considered sensitive, and where explanation may avert challenge.

c. NAVSEC/NA informs officers selected as soon as possible after the Board (1SL may inform officers personally for selected 2* appointments).

d. Individuals provisionally selected as naval candidates for competition in the Senior Appointments Committee (SAC), Service Secretaries Meeting (SSM) or MOD Wide Competitions (Open) are also to be informed by NAVSEC/NA of their selection and the procedures and timings for the next stage of the selection process.
e. Where an officer is not selected for any of the appointments that he/she was nominated for at a given board, he/she is informed by NAVSEC/NA before promulgation of the results.

e. For appointments subject to higher level clearances (eg. by PM, SofS, CDS, PUS, NATO etc.) and for officers selected for appointments on promotion to 2 Star (approved by HM the Queen), individuals are informed by NAVSEC/NA that their provisional selection is subject to approval.

g. Once the individual officer has been informed and, where required, employers contacted, and all higher level approvals completed, the announcement of the appointment is made by Flag OAL and/or Signal, and released for public promulgation. For 2* appointments and above NAVB members are informed of the appointments at least 2 days ahead of publication. Confirmed promotions will be announced in the monthly Promotions signal\(^1\).

h. All JPA assignment action is taken by NAVSEC/NA’s office which will then generate publication in the next OAL.

6021. Out of Committee Decisions

a. When a selection for an appointment has to be decided at short notice, NAVSEC initiates an Out of Committee (OOC) selection, either on paper or via VTC.

b. The documentation required is as follows:

(1) **Covering Letter**. Brief to FSOAB members.

(2) **Job Specifications**. For all appointments being considered.

(3) **The Field**. Detailing nominated officers and any additional relevant information (including Tribal Chief, employing officer or other stakeholder comments where pertinent) that the members may require to make a decision.

(4) **Statements of Service**. For all nominated officers.

(5) **Recent ARs**. The last 5 reports (including RCDS/HCSC reports) for each officer.

(6) **Scoring Sheet**.

\(^1\) Signalled on the last Thursday in every month and exceptionally adjusted during leave periods.
c. **Process.** As a minimum, 1SL and 2 core FSOAB members are required for an OOC item although ideally all core members should be consulted. Documentation for the OOC submission is normally sent by e-mail/hard copy as convenient and members asked to vote as normal. For contentious selections VTC may be used, in which case the documentation should be sent by e-mail/hard copy to members prior to the conference. A response deadline is provided in each case.

d. **Results.** Decisions taken OOC are actioned and promulgated in the same way as normal FSOAB decisions as set out at Para 6020 above. OOC decisions are then formally briefed and recorded at the next scheduled FSOAB meeting.

6022. **FSOAB Standing Agenda**

The following is the standing agenda for the FSOAB:

- **Item 1** – Review of Record of Decisions from last meeting.
- **Item 2** – Review of Out of Committee Decisions since last meeting.
- **Item 3** – SAC Issues: 1SL debrief on last SAC meeting & look ahead to next SAC (*if required*).
- **Item 4** – 2* Appointment/Selection Board.
- **Item 5** – 2* Appointment/Nomination 18 month Forecast.
- **Item 6** – SSM Issues: NAVSEC debrief on last SSM & look ahead to next SSM (*if required*).
- **Item 7** – 1* Appointment/Selection Board.
- **Item 8** – 1* Appointment/Nomination 18 month Forecast.
- **Item 9** – Secretary Confirm Decisions.
- **Item 10** – AOB.
- **Item 11** – Date of Next Meeting.
SECTION 5 - ASSIGNING TO PARTICULAR POSITIONS

6023. Lord High Admiral

With the establishment of the Ministry of Defence on 1 Apr 64, the office of First Lord of the Admiralty was abolished, and the functions of the Commissioners were transferred to the Admiralty Board of a tri-Service Defence Council, and the title and honour of Lord High Admiral was re-vested in the Sovereign. On 10 Jun 11 Her Majesty the Queen constituted and appointed His Royal Highness The Prince Philip, Duke of Edinburgh, upon the occasion of His Royal Highness' 90th birthday, the title and honour of Lord High Admiral.

6024. Vice Admiral of the United Kingdom

The Vice Admiral of the United Kingdom (VAdm of the UK) is an honorary office which has generally been held by a senior Admiral. Despite the title, the VAdm of the UK has usually been a full admiral. He is the official deputy to the Lord High Admiral, an honorary (although once operational) office vested in the Sovereign from 1964-2011 and currently held by HRH the Duke of Edinburgh. The VAdm of the UK is appointed by the Sovereign on the nomination of the First Sea Lord, and his name is published in the London Gazette. The VAdm of the UK used to retire at 70 years of age, however, from 2005-2012 the appointment was held concurrently by the serving Commander-in-Chief Fleet. With the disestablishment of the post of Commander-in-Chief Fleet on 2 April 2012 Her Majesty conferred the appointment on Honorary Rear Admiral Sir Donald Gosling KCVO RNR.

6025. Heads of Branch

a. The Heads of Branch (the ‘Tribal Chiefs’) provide a focus for matters affecting the officers and ratings of their branches. Their specific duties include:

(1) Advising the Admiralty Board (at Board or sub-Board level) on major matters of personnel policy affecting officers and ratings of their branches.

(2) Advising the Admiralty Board (at Board or sub-Board level) on matters of policy affecting the professional responsibilities of their branches.

(3) Advising the Naval Secretary on the career management and assignment of branch officers.

(4) Membership of officers’ selection boards for promotion to Rear Admiral, Commodore, Captain and Commander, and RM equivalents.

(5) Liaison with professional institutions and bodies, and providing Naval Service representation to such bodies.
b. The roles of Chief Naval Warfare Officer (CNXO), Chief Naval Engineer Officer (CNEO), Chief Naval Logistics Officer (CNLO), Commandant General Royal Marines (CGRM), Chief Naval Medical Officer (CNMO), Director Naval Dental Services (DNDS) and Director Naval Nursing Services (DNNS) are filled at the discretion of the First Sea Lord and are held in addition to other responsibilities. Director General Naval Chaplaincy Services (DGNCS) is also a de facto Head of Branch. They are normally, but not necessarily, filled by the most senior officer of the relevant branch. Heads of Branch can occasionally be members of the Admiralty Board where the officer concerned is the most appropriate senior member of the branch.

c. To enable the Heads of Branch to discharge their duties, they are to be consulted and advised as appropriate. In order that they may be fully informed on professional matters, Heads of Branch are authorised to establish, at their discretion and in conjunction with the Naval Secretary, advisory groups comprising officers filling specialist assignments. This in no way reduces the right and responsibility of the Heads of Branch to consult departments and authorities through normal administrative channels when appropriate.

d. Heads of Specialisation. There are also a number of Heads of Specialisation, subordinate to the Heads of Branch, who provide a focus for matters affecting the officers and ratings of their specialisations. These posts are filled at the discretion of the First Sea Lord and are held in addition to other responsibilities. They are normally, but not necessarily, filled by the most senior officer of the relevant specialisations. Terms of Reference with respect to responsibilities to the Head of Branch and the Naval Secretary are to be maintained.

6026. Heads of Fighting Arm

Heads of Fighting Arm are responsible to the First Sea Lord for the morale and effectiveness of their Fighting Arm. Rear Admiral Submarines (RASM) is tied to the appointment of COM(OPS); Rear Admiral Fleet Air Arm (RAFAA) is tied to the appointment of COS(AV) and CGRM is Head of Fighting Arm for the Marine Corps (in addition to being Head of Branch). The Fleet Commander recommends a suitable Warfare 2* to First Sea Lord to be Rear Admiral Surface Ships (RASS).

6027. Temporary Sea Assignment in Command

a. A formal assignment in command will not normally be issued unless:

(1) The ship proceeds to sea and the period of temporary command is not less than seven days; or

(2) If the ship does not proceed to sea, the period of temporary command is not less than 30 days.

b. When an Executive Officer is given temporary assignment in Command, it is usually desirable that another officer should, at the same time, be given a temporary assignment as Executive Officer.
Assignment to the Staff of Flag Officer Sea Training

Suitably qualified and experienced officers and Senior Ratings are continually sought for assignments to Flag Officer Sea Training (FOST), in order to train surface units and submarines. Commanding Officers are encouraged to identify such individuals and forward appropriate recommendations via an Annual OJAR/ SJAR. Similarly, officers may indicate a desire to serve in FOST. Candidates should demonstrate a high degree of professional credibility, sound core branch skills, dedication, above average personal qualities, dress and bearing and, above all, a willingness to impart their knowledge and experience.

Assignment to Royal Fleet Auxiliary Ships

When RN officers and Other Ranks are assigned to Royal Fleet Auxiliary (RFA) ships ‘on loan’, the differing organisations require that:

a. They are aware of BR2 (QRRN) Article 3705 on the authority of the Master of an RFA.

b. For other than short periods of training, eg. helicopter crews undergoing training in RFA Argus, they are aware of the need to sign the ship’s articles of agreement.

c. Warfare officers require a Department of Trade Certificate of Competence. If they do not hold one, they are considered to be ‘uncertificated’ and, although they may hold an RN Navigational Watch Certificate and Bridge Warfare Qualification, the Master of an RFA is not permitted to place them in charge of a bridge watch.

Assignment of Royal Naval Reserve Officers

Officers of the RNR are assigned to HM ships for training in accordance with BR60 (Regulations for Royal Naval Reserve).

Attaché and Adviser Assignments

a. Attaché and adviser posts are under the auspices of the Foreign and Commonwealth Office (FCO) and are administered with the MOD by the International Policy and Planning (IPP) directorate. The nomination and clearance procedures are more complicated than for other assignments and may therefore take longer. Procedures are, however, still controlled by the appropriate Career Manager. Further guidance can be found in JSP 468 (Regulations and Procedures for Loan Service).

b. Officers and their dependants should hold full UK passports and officers and be both medically and dentally fit. The actual assignment to the post after completion of courses and briefings is not issued until just before it takes effect.
6032. Instructor Positions - General

a. Between periods of sea service, the only assignments available for the bulk of people are within the various training groups. It is therefore vital that such assignments are recognised and viewed positively by individuals, Commanding Officers and peers alike for the challenge and opportunity that they present, as well as being potentially career enhancing if performed well.

b. Personnel assigned as Instructors do not have to be volunteers for such duties. As a general rule, and a minimum standard, every officer, Rating/Other Rank should be capable of instructing junior rates/ranks of their own Branch. Additionally, for those being considered for Initial Training the text in an individual’s AR must highlight clearly their above average qualities.

c. All personnel assigned to instructor positions are legally mandated to complete the ‘Defence Train the Trainer’ (DTtT) qualification. Ideally this should be completed before taking up the instructor assignment, but when this is not possible, it should be undertaken at the earliest opportunity when in post, i.e. during the first term.

d. Instructional posts require high calibre individuals with the right aptitude. Before assigning individuals to instructor positions Career Managers should be aware of the criteria detailed in JSP 757 Chapter 8 Annex B (Guidance to Reporting Officers on Making Recommendations for Employment on Instructor Duties).

6033. Selection of Instructors for Phase 1 and Phase 2 Training

a. In order to maximise success within the training environment, considerable importance is placed on the selection of the highest quality officers and Ratings/Other Ranks for duties in Phase 1 and Phase 2 training schools. Such an assignment as an instructor is an indication of an individual’s above average qualities.

b. Ratings/Other Ranks should not be assigned to Phase 1 or Phase 2 Instructor positions unless they are competent, qualified, enthusiastic and have a specific recommendation that they have the necessary aptitude and temperament for such an instructional assignment reflected within the text of the individual’s AR. Commanding Officers must pay close attention to the specific recommendations boxes in an individual’s AR and follow the guidance set out in JSP 757. CMs will refer to the AR before taking assignment action and may also contact the Line Manager to gain further assurance that an assignment for Phase 1 or 2 instructional duties is appropriate and recommended.

c. Individuals assigned to Phase 1 or Phase 2 Instructor positions with regular responsibility for and interaction with trainees under the age of 18 years old will be required to complete a Disclosure & Barring Service (DBS) clearance as described in Section 7. CMs should ensure that DBS applications are initiated in good time to allow for the disclosure process and subsequent employer assessment to be completed in advance of the joining date. Refusal by an individual to complete a DBS check may result in administrative action being taken against the individual.
6034. **Driver Positions**

a. Certain positions require the individual filling the position to have a driving skill. This can range from a ‘standard’ driver to Forklift (MHE) or Mobile Crane driver. CMs are, wherever possible, to assign personnel already qualified and holding the appropriate competency to these positions.

b. High level instructions are contained in JSP 800 Vol 5. When a Driver Training Course is required, CMs are to refer to current RNTMs or JPA for details of courses. Personnel can be booked on courses via the CBC.

c. Details for RM driver selection and training can be found at Para 6028. sub para c.

6035. **Recruiting - Service with Captain Naval Recruiting (CNR)**

a. **Assigning.** Officers or Ratings on normal commissions or careers/engagements can be assigned for duties with the Naval Recruiting Service in Armed Forces Careers Offices (AFCOs), Royal Navy Careers Information Offices (RNCIOs), CNR Students’ Presentation and Display Teams and Officer Careers Liaison Centres (OCLCs). A full list of AFCO and RNCIO locations is at Annex 60C.

b. **Loans.** Personnel can volunteer to be lent for duty in an AFCO for periods of between one and six months, subject to the AFCO being able to accommodate them. Reliefs will not be provided. Assigning clearance is not required for loans under one month but clearance must be sought from the respective Area Recruiting Manager (see list at Annex 60C). Applications from Squadd ratings are to be processed initially through their EWO and then forwarded to the appropriate WMO to ensure that the movement of personnel is correctly recorded.

c. Volunteers should be able to project a good image of the Service, be able to converse with young people and their parents about their careers and service experience. Ideally, they should be junior ratings or other ranks of any branch or category. Exceptionally, specially recommended Senior Rates and RM SNCOs under the age of 30 may be considered. Personnel who have submitted notice may volunteer and will be considered by CNR, provided they are specifically recommended.

d. Candidates for loan service with CNR will normally be expected to live at home/with parents as Service accommodation outside of the main Naval areas cannot be guaranteed and SSSA accommodation cannot be provided at CNR’s expense. Home to duty travel will normally be payable up to a maximum of 50 miles per journey.
e. Service details of suitable volunteers who can be spared without relief are to be forwarded by Commanding Officers to the appropriate CM for assigning clearance, with details of:

(1) Three AFCOs in order of preference.

(2) Home town.

(3) Dates of proposed loan.

f. If assigning clearance is given, ACOS(PCap) will forward names to the respective Area Recruiting Manager.

6036. Sports Coaches

a. In order that the Navy can make best use of its few highly qualified sports coaches, the establishment of CNPD allows four Service sports coaches to be attached to the CNPD staff at any one time. These will usually be for rugby, football, sailing and boxing, but the mix can be varied according to the needs at the time and the availability of ratings with suitable coaching qualifications.

b. These coaches, who will normally but not necessarily be from the Physical Training Branch, will be assigned by ACOS(PCap) on the basis of recommendations from CNPD, providing they are available. Names of volunteers with full details of their experience and qualifications may be forwarded to CNPD at any time.

6037. Elite Athlete Scheme

Personnel identified as 'Elite Sportsmen or Women' may be eligible for leave of absence in order to represent the Naval Service at a national or international level. Guidance on the applicability of this scheme and its administration can be found in BR 4006 and JSP 760.

6038. Retinue – Catering Services (Chefs and Stewards)

a. Care must be taken throughout the Service to identify and recommend suitable ratings for retinue service.

b. Ratings due for sea are assigned in their rightful turn whether or not they are in retinue service.

c. Ratings may not be selected for retinue service when serving at sea unless:

(1) They are approaching their normal FAD.

(2) Their relief can be given normal assigning notice (see Chapter 59 Section 11).

(3) They have completed sufficient sea time to support a reasonable period ashore.
d. Suitable ratings may volunteer for retinue service at any time through their Divisional Officer. Divisional Officers should, however, be cautious in their assessment and recommendation for such duties.

e. Flag Officers may select certain members of their retinue in accordance with procedures laid down by MOD(N). ACOS(PCap) will arrange for Service Documents of nominated ratings to be forwarded to Flag Officers for vetting and selection.

f. The personal staffs of Commodores, Captains and Commanding Officers of Shore Establishments are not retinue posts as such, and the allocation of such staffs is the responsibility of individual COs using ratings assigned in normal course to their units.

6039. Volunteers for Special Reconnaissance Regiment, Special Forces, Defence Human Intelligence (DHI), OP SAMSON, 148 (Meiktila) Commando Forward Observation Battery Royal Artillery or the Commando Mobile Air Operations Team

a. The instructions for the recruitment of Naval personnel for Special Employment (SE) are held in current DINs. The allocation of personnel for SE has high priority and volunteers are not to be prevented from putting themselves forward in accordance with the instructions. Accordingly, all nominations for SE should be allowed to complete the interview and be cleared to attend one of the designated courses. CMs are to consult with Branch Managers; when a volunteer is in a shortage category, the following guidelines may be used:

(1) Where a volunteer is at sea but not in a shortage category, they should be spared at the earliest opportunity commensurate with normal assigning notice for a relief. The SE interview should be arranged so that the course start date is within 12 months of the interview. For shore service personnel, the volunteer should be cleared to attend a course no later than 12 months from the date of the next available interview.

(2) Where the volunteer is in a shortage category and at sea, release may be delayed until the first available course after the planned FAD. Personnel on shore service should be cleared to attend a course no later than 12 months from the next available interview.

(3) Where assigning clearance cannot be given for an individual, the REQM is to raise a signal, giving the full justification for non-clearance.

b. Volunteers are strongly recommended to seek CM advice prior to volunteering for Special Employment as there may be wider career implications that should be considered.
6040. Sea Safety Courses - Ships/Submarines

The definitive regulations appertaining to Sea Safety Training Courses can be found in BR 2170 and current DINs. Guidance can also be sought from the Course Booking Cell Team Leader (93 825 4085). However, the practical assigning implication and mandatory requirements for ships and submarines are as follows:

a. **Ships.** The Basic Sea Safety Course (BSSC) and Intermediate Sea Safety Course (ISSC) are mandatory for sea service. The One Day Sea Safety Course (ODSSC) is for personnel who are due to embark for periods of 7 – 30 days (total) in any 4-year period but will not be liable to form part of a sea or harbour DC&FF party. The requirement and perishability of the BSSC, ISSC and ODSSC Courses are:

1. **BSSC**
   
   (a) BSSC is to be completed successfully before taking up First Sea Assignment (FSA). The course is programmed and booked by the respective training pipeline managers.
   
   (b) BSSC is valid for 4 yrs. This period applies to any courses commencing from 8 Jan 07; earlier courses were valid for 2 years.
   
   (c) Ratings removed from the course or deemed to be ‘unsafe’ on completion are not to be assigned to a seagoing unit, notwithstanding that this may result in a gapped position. In the first instance, arrangements for the rating to retake the course are to be made.

2. **ISSC**

   (a) ISSC is valid for 4 years. Some career courses will have ISSC programmed as part of the training pipeline or the course is arranged by CMs via the Course Booking Cell.
   
   (b) Where, for whatever reason, personnel are unable to attend the planned ISSC, or the timeframe does not allow a course to be re-booked and completed prior to joining, the unit is to be informed, by signal, and appropriate action taken on receipt of the reply.
   
   (c) Waivers will only be granted in exceptional circumstances by the Fleet MEO. For details see BR2170.

3. **ODSSC.** Embarked Military Forces, residual RNR and any other personnel due to embark for periods of 7–30 days (total) in any 4-year period are to attend the ODSSC prior to their first embarkation and re-qualify every 4 years as required.
b. **Submariners.** Firefighting Courses and Submarine Escape Tank Training (SETT) are mandatory for all personnel joining submarines and failure on either course may preclude service in submarines. The requirements for, and perishability of the courses are:

(1) **NBCD 12R(SM) Basic Firefighting Course**

(a) NBCD 12R(SM) is to be successfully completed by all personnel within six months of joining a submarine or conducting SMQ Dry (when applicable). If less than 12 months has been spent ashore since leaving a seagoing submarine where the qualification was held, the requirement may be waived.

(b) The above 12 months waiver is valid for only one through assignment after which the individual must re-qualify, regardless of time spent ashore.

(2) **SETT**

(a) SETT is to be successfully completed by all personnel before a first sea assignment to a submarine.

(b) For subsequent assignments to sea, SETT is a mandatory course which will be booked by the CM as part of the individual’s overall PJT package.

(c) Should a SETT re-qualification be required during a submarine sea assignment (including FOST SM Sea, SCU Sea etc.), it is the responsibility of the individual to:

   i. Identify the requirement, and

   ii. Book a course through the appropriate CM.

(3) **NBCD 9(SM) Attack Party Leader’s Course.** NBCD 9(SM) is to be completed by all Cat A2 Watch-keepers before their first sea assignment in that position (the course is usually completed as part of NPSupC before a first sea assignment as a Cat A2 watch-keeper and therefore negates the requirement for a separate course). If less than 12 months has been spent ashore since leaving a seagoing submarine where the qualification was held, the requirement may be waived.

(4) **NBCD 25(SM) Advanced Firefighting Course**

(a) NBCD 25(SM) is to be completed by Cox’ns, CMEMs and CPO Ops within 3 months of joining a submarine iaw the Unit Establishment List.

(b) The qualification is valid for 5 years, irrespective of subsequent assigning.
(5) **NBCD 26(SM) Firefighting Continuation Team Training Course**

(a) NBCD 26(SM) is to be completed annually by all ratings in a sea assignment and is to be arranged by the Submarine through direct liaison with the firefighting schools.

(b) The qualification is valid for 12 months only.

6041. **Senior/Leading Rates' Leadership Courses**

a. Senior and Leading Rates' Leadership Courses (SRLC and LRLC) are conducted by the Royal Naval Leadership Academy at HMS COLLINGWOOD. The demand for courses often exceeds available places.

b. Personnel are automatically assigned to LCs as part of their career progression. However, occasionally individuals may apply by e-mail to the relevant CM through the Divisional System.

c. Full details on course booking, eligibility and prioritisation for places can be found in the current RNTM. See Chapter 21 Section 6.
SECTION 6 - ROYAL MARINE ASSIGNMENTS

6042. Key Staff Assignments (RM Officers)

Certain key RM staff assignments at OF3 and OF4 levels require High Calibre Officers (HCOs) due to their demanding nature and pivotal role in maintaining the Operational Capability (OC) of the RM. These assignments also provide HCOs with the opportunity to show their competence and potential, and provide the experience necessary as a foundation for further promotion. A list of these key assignments is at Annex 60D. Officers will be selected for these key staff assignments through the RM Assignments Board (RMAB) process. They will be guided in their selections by consideration of the following criteria:

a. **Command and Leadership Skills.** For those assignments that have a command element, consideration will be given to an individual’s ability to lead Royal Marines in war and peace, and the possession of the mental and physical robustness to withstand the strains of command. In the case of RM Band Service officers, this consideration should take into account the ability of an officer to lead members of the RM Band Service in all environments that they are likely to encounter.

b. **Professional Skill.** The professional knowledge, ability and experience commensurate with the demands of each assignment.

c. **Merit.** Merit is the principal criteria in the RMAB process to ensure that the opportunities to gain the requisite experience presented by key assignments are provided to officers with the appropriate reach and potential for promotion.

d. Full details of the eligibility, selection criteria and process are detailed at Annex 60D.

6043. Special Assigning for RMOR

a. **Specialisation Advisers.** Specialisation Advisers (SA) are, in the main, based in the lead training schools for their Specialisation, however, some may be based at NCHQ, CAF and RMB Stonehouse. CDO maintains a close liaison with SA who provide advice on the suitability of men for particular assignments and on the upgrading of training requirements within their Specialisation. SA do not assign or promote - they advise; assignment and promotion remain the responsibility of ACOS (PCap).

b. **Selection for Special Assignments.** Volunteers for specially selected jobs will be trawled for by CDO as required. On receipt of names, and in consultation with the prospective employer, a suitable candidate will be chosen to fill the post. For the duration of the tenure the position will belong to the candidate’s specialisation, since that specialisation will still require a promotion behind, the candidate will still be considered for promotion within specialisation and return to it on completion of the tour.
c. **Personal Staff to Senior Officers.** With some exceptions, retinue staff to Senior Officers are almost exclusively Staff Car Drivers and these are now very few in number. Volunteers are sought by the usual process when positions are due to become vacant. An initial sift by CDO will result in a short list being forwarded to the respective Senior Officer for final selection. Assignment duration will normally be linked to the Senior Officer’s assignment.

d. **Drum Major Selection and Employment.** CDO is responsible for the selection and employment of Drum Majors in consultation with the Principal Director of Music (PDM). Candidates will be trained at the RM School of Music.

e. **Licence Acquisition (TF 18).** It is now Corps policy to ensure that where possible all recruits on completion of their King’s Squad passout will gain Cat B and Cat C + E licences at the Defence School of Transport (South) (DST(S)), based at CTCRM, before they join their first unit. Failure to do so will disadvantage the individual and may have an effect on the OC of the unit or wider RN/RM.

6044. **Selection and Assigning for Command and Specialist (SQ) Training**

a. CDO is responsible for selecting SNCOs, NCOs and Mnes to attend command, specialist and technical training courses. Numbers for command, specialist courses are derived from the Authorised Numbers generated by SO1 Requirements (RM)/Structure Policy Advisory Group (SPAG).

b. On the day of completion of Command and SQ training courses, SNCOs, JNCOs and Mnes will be assigned in line with RM manning priorities. On completion of Command training it may be necessary to return the individual to their previous unit until the respective SQ training course has been completed or relevant position is available at their new rank.

c. **General Provisions**

(1) On completion of recruit training, Mnes will normally be assigned to one of the Bde Units as GD riflemen, except for Buglers and Musicians.

(2) During their first tour, GD Mnes are strongly encouraged to volunteer for SQ training although they may opt to remain in the GD specialisation. At the 18-month point, unless already selected for specialist training, GD Mnes will become eligible for the Direct Specialisation Scheme (DSS).
(3) DSS Mnes on completion of their Return of Service (RoS) (2 years from qualification) may either remain in their DSS specialisation or volunteer for another SQ. DSS ranks considering volunteering or transferring to an alternative SQ must submit their ‘Employee Preferences’ at the 12 month point from completion of the SQ course leaving 12 months for the transfer to be planned. Guaranteed transfers are at Mne/LCpl level only to the first available SQ course subject to meeting all the pre-requisites. Any rank who has accepted attendance on either JCC or SQ2 course will forfeit their DSS transfer rights. Once the DSS competence has expired, DSS rights cannot be applied to any subsequent SQ preference change. DSS Mnes who remain in their DSS specialisation after the completion of the RoS will be considered to be volunteers. Guidance can be found in RMOR Career Handbook.

(4) Second tour GD Mnes will be assigned to second tour GD(D) PiDs in 3 Cdo Bde and Non-3 Cdo Bde units in accordance with the RM manning priority.

d. Applications and Recommendations for Training

(1) **Recruits.** During recruit training, personnel are to be informed of the specialisations open to them and encouraged to volunteer. They are to complete a specialist and training preference form, which will be used by the RMCA at the individual interviews conducted during training.

(2) **JNCOs and Mnes.** Those who do not hold a SQ are strongly encouraged to volunteer for such training. Volunteers for SQ training should talk to their respective RMCA or SA and then apply for courses on JPA through their Employee Preferences / Sea Preferences. All are to note that career aspirations for an individual will not be drawn through onto the Appraisal Report (AR) from Sea Preferences; individuals are to ensure that this detail is recorded in the relevant section within their Preferences.

(3) A recommendation for an individual's suitability for Command or SQ training is to be forwarded to PCAP(RM) as follows:

   (a) **Appraisal Report.** Whenever an AR is raised.

   (b) **Employee Preferences/Sea Preferences.** Whenever amended or updated preferences are submitted by an individual, they should be noted within the unit and then processed in JPA to the relevant PCAP(RM) CM desk. Failure to do this will mean the individual's name is not added to the list for their preference specialisation and they may not be assigned correctly.

   (c) **RMCA Interviews.** During their personal interview, the RMCA will assess the suitability of personnel for SQ training. The RMCA will discuss the choice of specialisation, the availability of training with each recruit and aim to manage expectations accordingly.
e. Selection Process

(1) Command Course Training. The RMORs’ Promotions Office holds annual Promotion Selection Boards (PSBs). Each PSB consists of a chairman plus two other members; either two officers of at least OF2 rank or one officer and one WO1. The PSBs are chaired by CDO for all selections to promotion to WO2 and CSgt and SO2 RCMRM1 for selection for promotion to Sgt and Cpl. The PSBs select personnel for Junior, Senior and Advanced Command courses from specialisation command course selection lists, derived from ARs with a positive recommendation for promotion, in addition to taking into consideration qualifications and seniority, but with the principal criterion being merit.

(2) SQ Courses. PCAP(RM) selects personnel for SQ courses from requests submitted via the JPA Preferences. Consideration is given to suitability, seniority, education, availability and the date at which they became a volunteer.

   (a) Vehicle Mechanic Training (VM3). Personnel who volunteer for VM3 training must attend an in-unit workshop assessment to gauge suitability for the VM specialisation. The individual must be able to fulfil the ROS requirement (see Chapter 54) before being considered for this training.

   (b) RN Establishments and Ship Detachments - Selection for VM Training. Volunteers for VM3 training who are serving in RN Establishments and ships’ detachments are to arrange for attendance at a RM workshop assessment at the earliest opportunity, who will assess their suitability and take the necessary action.

   (c) Armourer (ARM), Metalsmith (MESM), RM Communication Technician (RMCT) and Telecommunications Technician (TT). Personnel who volunteer for ARM/MESM training should have attended and passed a workshop assessment, whilst those volunteering for RMCT and TT are required to undertake an acquaint. There are also Nationality constraints for those volunteering for RMCT.

   (d) Assault Engineer (AE). Personnel who volunteer for AE training must attend, pass and receive a recommendation from an AE aptitude course. PCAP(RM) will conduct the final selection process and load to course to meet the SOTR. AE aptitude courses are held at CTCRM and run by IS Coy.

   (e) Mountain Leader (ML). Personnel who volunteer for ML3 training must attend, pass and receive a recommend from a ML aptitude course. PCAP(RM) will conduct the final selection process and load to course to meet the SOTR. ML aptitude courses are held at CTCRM and run by ML & ISTAR Coy.
(f) **Physical Training Instructor (PTI).** Personnel who volunteer to become a PT2 must have a positive recommendation, which is subsequently endorsed by the PSB, in order to attend an aptitude course. PCAP(RM) will conduct the final selection process and load to course to meet the SOTR.

(g) **Special Forces Communicator (SFC).** Personnel who volunteer for SFC training must request attendance by submitting an Application (Ap4) to the latest SF DiN.

f. **Return of Service (ROS) for Training.** Individuals must be able to fulfil the ROS requirement before volunteering or being considered for any Further Training. ROS policy can be found in Chapter 54 and in the RMOR Career Handbook.

6045. **Provisions for the RM Band Service**

a. **Musicians and Buglers.** Assigning within the RM Band Service will be dictated by the need for suitability and continuity to produce a cohesive ensemble. In conjunction with this is the opportunity to give a wide variety of employment to all ranks as dictated by rank structures in the Band's unit establishment list.

b. **Tenure of Assignments.** Musical Instructors, persons in key assignments throughout the Band Service and superior instrumentalists, will normally be given a 3-year tenure of assignment. The key assignments are:

   (1) Corps Bandmaster.

   (2) Corps Bugle Major.

   (3) Corps Drum Major.

   (4) Higher Training Instructor.

   (5) Assistant SO(M).

   (6) Bandmasters of Bands.

   (7) Recording/Sound Engineer RMBS.

   (8) Stage Manager Band Service.
SECTION 7 – CRIMINAL RECORD CHECKS REQUIRED BY LAW AND MOD POLICY

POINT OF CONTACT - NAVY SEC-2 DISCIPLINE 1

6046. Introduction and Important Caveat

a. The material in this Section and that in the References at Para 6047 sub para a below are under review following the recent full introduction of the Protection of Freedoms Act (POFA) 2012. Tri-Service policy guidance and Naval process guidance will be revised when MOD Central Policy Branch guidance is forthcoming on a number of remaining issues. In the interim further guidance on current best practice can be obtained from NAVY SEC-2 DISCIPLINE 1.

b. POFA introduced a range of new measures aimed at scaling back the criminal records and barring systems in England and Wales to more proportionate levels whilst ensuring that necessary levels of protection continue for those that need it. The disclosure of an individual’s criminal record is just one measure to ensure the protection of the vulnerable and the Government expects of the employers and volunteer organisations to take reasonable steps to mitigate risk and not rely solely on the disclosure process. The legislation protects individual’s civil liberties against unnecessary disclosure of sensitive personal data and reaffirms that it is an offence to seek access to an individual’s criminal record without justification. Commanding Officers are therefore encouraged to conduct regular reviews of establishment posts to ensure that only those posts that meet the current criteria set out in References at Para 6047.a sub para (1) and sub para (2) are marked with the appropriate criminal record check competence requirement.

c. Many background processes have changed as a result of the introduction of the POFA that will not be visible to MOD as the employer, however, there are two changes that are immediately evident and need to be understood by everyone involved. Firstly, the Disclosure and Barring Service (DBS) has replaced the Criminal Record Bureau (CRB); hence any reference in related documentation to DBS in connection with the clearance of those working with vulnerable individuals in England and Wales. Secondly, the employer no longer receives a separate copy of the individual’s Certificate of Disclosure and we are now entirely dependent on the applicant providing us with a certified copy of their certificate in order for the final decision on suitability to be made as required by safeguarding legislation. Reference at Para 6047.a sub para (4) explains the process to be followed.

d. It is also worth clarifying a common misunderstanding about the certificate received by the applicant from the DBS. This is a Certificate of Disclosure and does not constitute approval to work with vulnerable individuals until its contents have been processed by NCHQ. This is the case for all disclosure certificates whether or not they contain adverse information. Personnel at unit level do not have authority to confirm clearance, even if the disclosure is apparently clear of recorded offences or cautions.
6047. References and Further Information

a. The following are References for this subject:

1. JSP 893 - Policy on Safeguarding Vulnerable Groups
2. DIN 2012DIN01-197
3. DIN 2012DIN01-261
4. RNTM 218/13
5. BRd 2 (QRRN) Chapter 65
6. DBS Code of Practice
7. Recruiting Instruction 24/13 A
8. BRd 3(1) Chapter 6 Section 11

b. Further information can be obtained as follows:

1. On the MOD DBS policy and RN process from the RN Criminal Record Check Policy Focal Point, NAVY SEC-2 DISCIPLINE 1 on 93832 5738 (023 9262 5738).

2. On specific applications from the Naval Service Nominating Authority, NAVY SEC-4 SYVETT MAIL on 93832 8667 (023 9262 8667) Rm 48, West Battery, Whale Island.

3. Details of the roles and responsibilities of individuals associated with the disclosure application process are at Annex 60H.

6048. Protecting Vulnerable Groups in Scotland

a. The Protection of Vulnerable Groups (Scotland) Act 2007 (PVGA) operates in broadly the same way as the legislation applicable in England and Wales. It does however use subtly different criteria to define those at risk and also requires the data subject (applicant) to become member of the Protection of Vulnerable Groups Scheme.

b. Reference at Para 6047.a sub para (1) contains further detail on the Scottish clearance process. Applications are available for those who meet the criteria in the normal way through the Naval Service Nominating Authority, see Para 6047.
6049. Personnel Requiring a Criminal Record Check

a. References at Para 6047.a sub para (1) and sub para (2) contain the criteria for assessing whether a post requires a criminal record check in order to comply with Safeguarding legislation and/or MOD policy. There are branches and trades where all personnel are required to hold continuous in-date clearance and other posts that require the post holder to hold clearance merely for their tenure in that post. The following list covers the most common positions that will require and justify the disclosure of their criminal record:

(1) All Royal Naval Medical Service (RNMS) personnel, support staff, social workers and all Service personnel seconded to the NHS for training or other purposes.

(2) All RNR Medical Officers, QARNNS(R) Officers and RNR Nurses.

(3) All positions involved with the Careers Service including presentation teams and AIB members.

(4) All Welfare/Legal (when acting as family lawyers) positions.

(5) All positions involved with Cadet/Combined Cadet Forces.

(6) Some RN/RM Police.

(7) Some RN/RM PTs.

(8) All Chaplains/Officiating Chaplains/Honorary Officiating Chaplains and CSW staff.

(9) Some Instructional Staff (Service/MoD Civilian and Contractor supplied) responsible for training under 18 trainees at Phase 1 and Phase 2 Training Establishments in England and Wales.

b. Contracted Staff. Where contracted staff are employed in positions which have been identified as requiring a criminal record check, it is the responsibility of the supplying contractor to ensure the necessary checks have been carried out. Commanding Officers of units should satisfy themselves that this has been done before contracted personnel take up employment within the unit. Where necessary, contract amendment action should be taken to reflect this requirement.
c. **Instructional Staff at Phase 1 & 2 Training Establishments.** An amendment to the Rehabilitation of Offenders Act (Exceptions) Order 1975 allows, but does not legally oblige, the MoD to conduct DBS checks on those personnel in, or being assigned to, positions whose normal duties involve caring for, training, supervising or being solely in charge of Service personnel under 18, and the supervisors/managers of those positions. Currently, MoD policy in this respect is that such checks will only be made on qualifying staff in Phase 1 and Phase 2 Training Establishments in England and Wales. Limiting application of checks in this way keeps the need for additional checks to a minimum without unduly compromising the level of risk to which Service personnel under the age 18 are exposed.

6050. **Level and Type of Criminal Record Check**

a. All RN/RM disclosure applications are to be at ‘Enhanced Disclosure’ level.

b. The type of clearance requested is to be specified on the application request form (see Annex 60E). There are two types of clearance: those who have qualifying contact with ‘Children’; and, those who have qualifying contact with both ‘Children and Vulnerable Adults’. It is also important to provide an accurate job description detailing the likely interaction with vulnerable individuals as this will be used by police forces to decide what information is relevant to disclosure.

c. The country in which the work is undertaken is to be specified on the application request form (see Annex 60E). This will inform the Naval Service Nominating Authority which application pack(s) to forward to the applicant. Where qualifying employment is likely to be undertaken in both Scotland and England/Wales then both countries will need to be selected on the request as clearance is not currently portable between the respective safeguarding systems.

6051. **Assessment of Certificates of Disclosure**

a. The assessment of all criminal record disclosures is performed by authorised headquarters staff. This ensures that good control is exercised over this important and sensitive process, that suitability decisions are consistent, and that competence data is recorded correctly.

b. On receipt by the applicant the Certificate of Disclosure is to be forwarded to the Naval Service Nominating Authority irrespective of the contents (see Reference at Para 6047.a sub para (4) for further guidance). Disclosures containing adverse information are then forwarded to Navy Sec-2 Discipline section for assessment, and where necessary, staffed through the RN Criminal Record Check Panel.

6052. **Application Procedure**

The procedures to be followed by Career Managers and Recruiters to ensure that criminal record checks are completed in a timely and correct manner in compliance with Safeguarding legislation and MoD policy are summarised in the following Annexes:
a. The ‘Recruitment’ clearance process is illustrated by the flow chart at Annex 60G (also see Reference at Para 6047.a sub para (7) for further detail). Should the gap between obtaining clearance and the candidates start date exceed 6 months then guidance is to be sought from the Criminal Record Check Policy Focal Point on the validity of the clearance and any requirement to obtain a fresh disclosure.

b. The ‘In-Service’ clearance process is illustrated by the flow chart at Annex 60F. Career Managers are to note that they are responsible for the prompt submission of application requests in order to ensure that clearance is obtained prior to the applicant assuming duties with vulnerable individuals. Career Managers are also responsible for ensuring that renewals are initiated in good time for continuous clearance to be ensured where necessary.

6053. Suitability Decisions and Competence Recording

a. Responsibility and authority for making suitability decisions rests with certain authorised staff within the Navy Headquarters. The Naval Service Nominating Authority is authorised to award clearance for disclosures received confirming the absence of any relevant police/conviction information. The Navy Sec-2 Discipline section is authorised to award clearance for disclosures received containing minor, dated and unrepeated offences. All other disclosures are referred to the RN Criminal Record Check Panel.

b. The Focal Points will ensure that applicants and appropriate staff are informed of the outcome of suitability decisions. Where permission to work with a vulnerable group has been refused then the applicant may if they wish appeal the decision via the Service Complaints procedure.

c. The Naval Service Nominating Authority is responsible for the recording of clearance competences on JPA.

6054. Portability of Criminal Record Checks

a. An in-date criminal record clearance can be considered valid for a new posting if the employment involves the same vulnerable group and the level of interaction with the vulnerable group is very similar. A fresh disclosure will otherwise need to be submitted to cover the new posting. Focal points can advise on this matter if required.

b. Clearances are not portable between assignments in Scotland and assignments in England/Wales or vice versa.

6055. Renewal of Criminal Record Clearances

a. Reference at Para 6047.a sub para (1) stipulates that Criminal Record clearances within the MoD are valid for a maximum period of five years. If continued clearance is required, it is both the individual’s and the respective Career Manager’s responsibility to ensure that a renewal is initiated 6 months prior to the expiry date of the current clearance.
b. Where there are grounds for concern about the suitability of an individual to continue to hold clearance for work with vulnerable groups then a fresh disclosure should be initiated by the Career Manager. For example, this might be prompted by a new relevant conviction. Such an instance will also prompt consideration of action to restrict the individual’s interaction with vulnerable individuals while their suitability is being confirmed.

6056. Unit/Ship Criminal Record Disclosure Officer
All units/ships which employ personnel in regulated or non-regulated positions are to appoint a Unit Criminal Record Disclosure Officer (UCRDO), of rank not less than Chief Petty Officer/RM Colour Sgt. They are to be responsible to their Commanding Officer, or equivalent, for maintaining a register of all positions (Service, MoD Civilian and contractor-provided personnel), regulated or non-regulated for which the personnel employed are required to hold a Criminal Record Clearance and pursuing any non-conformances (See Reference at Para 6047.a sub para (4).

6057. Amending JPA Post Competences
Commanding Officers are responsible for conducting regular reviews of post competences to ensure that all of the applicable posts are flagged with the requirement for Criminal Record Checks. Where such a competence is to be removed an email should be sent to the Criminal Record Check Policy Focal Point so that endorsement can be forwarded to the ACOS(PCap) Establishments Team.
ANNEX 60A

REMOVAL FROM ASSIGNMENT – CAREER MANAGER ACTIONS

1. Personnel are not to be removed from an assignment by ‘painless’ extraction, but only formally and in strict compliance with the regulations set out in Para 6006. Rapid action may be needed on occasion, but the requirement for speed should never be permitted to cause unfairness. Insofar as the individual to be landed is concerned, their career will inevitably be interrupted. It may be, particularly in disciplinary cases, that proper investigation reveals no case to answer, or that only minor charges are capable of proof. In such circumstances an individual could have reasonable grounds for complaint about an over-hasty decision to approve their removal from a key career assignment. Furthermore, to land an individual almost invariably causes assigning turbulence in the plot concerned and therefore adversely affects other individuals.

2. In all cases where removal from assignment is considered, there should be a clear, written audit trail of the decision making process, supported by an AR where possible. The aim should be to provide a clear factual record for the decision to land an individual, to rebut any subsequent challenge. If it is not possible to provide such an audit trail, the correctness of any decision to land will inevitably be cast into doubt.

3. Applications to land individuals usually require rapid staffing, however it is very important that an issue of such importance is handled correctly. To reflect the points above, the following procedures are to be followed:

   a. On learning that an application to land is under consideration, ensure that the local command is aware of the guidance in Para 6006 and has considered all other options (e.g. warnings or application for Quarterly Reporting).

   b. Make it clear that a written application will be required (e-mail or signal is acceptable) direct to the NCHQ Casework Cell. The subject officer/rating should be made fully aware of the Command intent throughout the process and be offered their right to submit a representation against the application to remove. If they decline the right, a statement of waiver is to be signed and is to accompany the application.

   c. The application should normally be accompanied by an AR, although there will be occasions when the AR will have to follow the decision to land, and then tie up the assignment as a termination report. The AR should be as full as possible to assist the CM in placing the individual in their next assignment. If the application is based on professional or personal shortcomings, it will be expected to demonstrate an audit trail of appraisals, warnings etc. It should be noted that an adverse inspection report (by FOST for example) does not of itself justify landing an individual, although it may add weight to an application. In all cases where it is proposed that a pregnant Servicewoman is moved from her post because of her pregnancy a review is to be carried out by the appropriate manning policy desks. Finally, ensure that the local commander is aware that the application for landing is subject to approval. NavSec has delegated authority to ACOS(PCap) to approve the landing of Lt Cdrs and below provided that those officers are not in command.
Where Command input is required (for CO, XO of DD/FF or unusual case), this is to be sought by the NCHQ Casework Cell. The local commander should inform the individual that an application is being made, but should avoid precipitate action on the assumption that the application will be approved. Consideration should be given to seeking CNLS Law 3 advice at this stage.

d. Consider the re-assignment of the individual in the event of their landing being approved, consider arrangements for a relief. At this stage it is helpful to ask the local commander whether the billet can be gapped.

e. If, on receipt of an application, there is insufficient evidence to justify landing, do not hesitate to say so. Frequently, cases gain a momentum which is difficult to stop. If as a CM you believe that there is sufficient material, then make your recommendations as appropriate. In either event ensure your views are recorded in the audit trail.

f. Submit the application to ACOS(PCap) for approval. For landings requiring NavSec approval, the application should still be submitted through ACOS(PCap). The application should include a draft letter for signature to promulgate the recommended decision. If landed, the draft letter must include instructions regarding the individual’s next assignment. It may be desirable to send the individual on leave for 3-4 days, having been given an order by a superior officer in the discharging unit to report to their CM at a specific time. Ensure that the individual’s whereabouts on leave is made known to the CM.

g. Inform the local commander of ACOS(PCap)/NavSec decision. The signed letter may be emailed or may form the text of a signal, according to circumstances.

4. The NCHQ Casework Cell when staffing the application is to ensure that Fleet Pol Sec is kept aware of the salient aspects of the case where a removal from assignment involves one or more of the following factors:

   a. Removal relating to a CO or OIC.
   b. Operational sensitivities (most likely to arise where a unit is deployed in theatre).
   c. Potential embarrassment to the RN.
   d. The circumstances surrounding the case are already in the public domain.

   This link will provide for accurate and pertinent detail to be made available to inform Ministerial submissions as required.

5. If a decision is taken to land an individual, then the RN has a duty of care towards the individual. CMs need to play their part in discharging the duty of care by coordinating other stakeholder engagement. The following serves as a useful checklist for ensuring that the officer’s potential needs are met:

   a. Contacting the individual as soon as practicable after their landing to discuss their future assigning.
b. Arranging a suitable ‘holding’ assignment to reflect the precise circumstances of the case.

c. Re-assuring the individual concerned and indicating suitable sources of advice as appropriate.

d. Briefing the new ‘employing officer’ of the circumstances in sufficient detail to enable them to discharge their responsibilities to the individual, but avoiding prejudice against the individual concerned.

e. Prompt identification and allocation of a new Divisional Officer.

f. Engagement with the Welfare Services.

g. Engagement with the Naval Chaplaincy.

h. Engagement with the Command Secretariat for Policy Secretariat (including allocation of a Media Shield, if appropriate).

i. If returning from an operational theatre:
   
   1) Access to decompression.
   
   2) Access to Trauma Risk Management.

j. An interview with the CM, or SO1 Branch CM (if appropriate, or sought by the individual). This should include the following:

   1) Confirmation that the individual has sighted and signed his/her Special OJAR.

   2) Confirmation in writing by the subject officer that he/she has been made aware of his/her right to submit a representation.

   3) Confirmation of his/her next assignment.

   4) Confirmation by the subject officer that he/she is aware of his/her new Divisional/Regimental chain of command.

k. If sought by the subject officer, a Key Stage Career Interview.

l. Continued contact with the subject officer until he/she joins his/her new unit.

m. Emphasising to all concerned that NavSec/ ACOS(PCap) staff are neutral in the management of the incident(s) which gave rise to the decision to land and their subsequent investigation.
ANNEX 60B

PRO-FORMA FOR LETTER TO CEAS INFORMING OF PLANNED ASSIGNMENT OF A PARENT OF A CHILD WITH SPECIAL EDUCATIONAL NEEDS

Children’s Education Advisory Service
Trenchard Lines
Upavon
Pewsey
Wiltshire
SN9 6BE

ASSIGNMENT OF A PARENT OF A CHILD WITH SPECIAL EDUCATIONAL NEEDS

Reference:

A. CEAS/ .............. (Reference of assignment restriction)

1. (Rank/rate, Initials, surname, service number) .................. currently serving in (name of unit) .................. who is a parent of a child whose name is included in the register of children with special educational needs has been detailed to join (name of ship, submarine, establishment or unit) .................. on date) .................. Their address from that date will be:

...................................
...................................
...................................

2. The assignment is to Local Foreign/Loan/Exchange* Service and they can elect to be accompanied by their spouse. (Delete entire sentence if not applicable).

ANNEX 60D

RM KEY STAFF ASSIGNMENTS – ELIGIBILITY AND SELECTION PROCESS

1. Certain key RM staff assignments at OF3 and OF4 levels require High Calibre Officers (HCOs) due to their demanding nature and pivotal role in maintaining the Operational Capability of the RM. These key staff assignments are listed at Table 60D-1. This listing will be reviewed on an annual basis. Officers will be selected for these key staff assignments through the RM Assignments Board (RMAB) process.

2. Eligibility
   Because of the diverse nature of the assignments that the RMAB will consider there are no specific eligibility criteria for officers considered at the RMAB. However, as part of the RMAB process, SO1RM OCM or OCM RM2 will conduct an initial sift of potential candidates for each assignment, see Para 5 sub para a for detail.

3. Timings
   The RMAB will sit as required by SO1 RM and will consider those assignments which will become available in the period approximately 3 to 12 months from the date of the RMAB. In exceptional circumstances (outcome of MCB2/other boards; short notice requirement; there is a single outstanding candidate), SO1 RM has the authority to either convene an extraordinary RMAB or personally to conduct a sift and propose a recommendation to CGRM for approval. In such situations, the background to the necessity to circumvent the extant RMAB procedures and the decisions taken will be recorded formally.

4. Membership
   Membership of the RMAB is as follows:

<table>
<thead>
<tr>
<th>Role</th>
<th>Name</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Chairman</strong></td>
<td>ACNS Pers RM OF5 (or alternative if no appropriate OF5)</td>
</tr>
<tr>
<td><strong>Board Member</strong></td>
<td>RM OF4/5 (can be OF4 only if OF3 assignments are being considered)</td>
</tr>
<tr>
<td><strong>Board Member</strong></td>
<td>RN OF4/5</td>
</tr>
<tr>
<td><strong>Board Advisor</strong></td>
<td>OCM RM2/OCM SO1RM</td>
</tr>
</tbody>
</table>
5. **RMAB Process**

The RMAB process consists of 3 stages:

a. **Initial Sift.** An initial sift of all RM OF4s and OF3s will be conducted by SO1RM OCM and OCM RM2 who will use as a guide the criteria outlined above. The aim of this sift will be to remove from the process those officers who are patently unsuitable for key assignments and those officers whose removal from their current assignment would be detrimental to their careers. Certain HCOs could be excluded from consideration by SO1 RM if their career profile requires broader employment outwith the RM. Officers on LFS or in CAPPS assignments will only be considered where their Future Availability Date (FAD) aligns with the availability of the assignments under consideration. The guiding principle for the initial sift will be to ensure that consideration is given to the greatest possible number of candidates at the Board stage of the process, whilst ensuring that the number of potential candidates for each assignment remains manageable.

b. **The Board.** Following a briefing by the Board Adviser on the assignments under consideration, the RMAB will read the candidates’ ARs in-session. On completion of reading, the RMAB members vote individually on each of the candidates using the MCB Grading Definitions. Votes are totalled and candidates placed in an OOM. The OOM is considered and agreed. The RMAB Chairman may at this stage seek the advice from the Board Adviser to ensure that there are no personal or domestic factors that will prevent candidates undertaking certain assignments and may adjust the OOM following this advice. The top 3 candidates in the OOM for each assignment will then form the basis of the recommendation for the Approval stage of the process.

c. **Approval.** The chairman will present the RMAB’s OF4 recommendations to CGRM for his consideration and approval. OF3 recommendations will be approved by SO1 RM. Up to a total of 2 reserves will be nominated, to cater for any unforeseen circumstances resulting in nominated individuals being unable to assume their assignments.

6. **Promulgation of Results**

Officers selected for RMAB posts will be informed by their Career Managers.

form and produces appropriate ID
documentation

3. Recruiting Officer acts as
Verifying Officer (VO) and checks ID documentation
and form completed properly

4. VO forwards application to MOD Registered Body
and informs Nominating Authority

5. Applicant provides Recruiting Officer with Disclosure Certificate
   - Certified copy is made and forwarded to NCHQ
   - Nominating Authority informed

6. Suitability decision is made and Recruiting Officer is informed
ANNEX 60H

CRIMINAL RECORD CHECK PROCESS ROLES/RESPONSIBILITIES

1. Career Manager – responsible for:
   - ensuring that requests for clearance (SYVETT-003A) are properly completed and dispatched to NAVY PSYA-SYVETT DBS MAILBOX (MULTIUSER) in time so that the assignee is cleared to undertake the assignment on joining; and
   - submitting renewal requests in time to ensure continuity of clearance where required.

2. AFCO Recruiter – responsible for:
   - following the application process and engaging with the appropriate focal point as described in Recruiting Instruction 24/13 A; and
   - act as Verifying Officer;

3. Verifying Officer (VO) – responsible for:
   - ensuring the Disclosure Application form is completed properly; and
   - conducting verification of identity checks.

4. Divisional Officer(DO)/Commanding Officer(CO)/Appropriate Person(AP) – responsible for:
   - ensuring the Disclosure Application Pack is passed to applicant with haste;
   - ensuring application process is completed within one calendar month;
   - acting as Verifying Officer; and
   - ensuring the Naval Service Nominating Authority is informed of any potential delay in the process.

5. Naval Service Nominating Authority – responsible for:
   - raising Disclosure Application Pack once SYVETT-003A is received and sending to applicant through DO/CO or Appropriate Person for serving personnel;
   - ensuring returned Application Form is completed properly;
   - returning any incomplete forms to correct individual;
   - ensuring application details are recorded on the local spreadsheet/database;
ensuring complete Application Pack is sent to the MOD Registered Body;

• ensuring local spreadsheet/database is updated with Clearance details once received from MOD Registered Body/Navy Sec-2 Discipline; and

• ensuring correct individuals are notified of ‘green light’ decisions.

6. Navy Sec-2 Discipline – responsible for:

• ensure documentary evidence is requested from applicants in cases of ‘amber light’ decisions;

• updating Navy Sec-2 Discipline spreadsheet/database;

• confirming clearance within delegated authority;

• engaging with RN Criminal Record Check Panel for decisions on suitability for cases that fall outside of delegated authority;

• ensuring appropriate individuals are notified of panel decision;

• on receipt of any appeal against refusal to grant clearance, put together brief and case commentary/history for Deciding Officer; and

• notifying appropriate individuals of appeal decision.

7. Applicant – responsible for:

• completing the application form accurately and without unnecessary delay;

• engaging with their Verifying Officer; and

• providing a certified copy of the Disclosure Certificate immediately on receipt to their local Unit Criminal Record Check Officer.

8. Unit Criminal Record Check Officer – responsible for:

• maintaining the Unit Criminal Record Check Register;

• hastening applicant for their Disclosure Certificate;

• making a certified copy of the Disclosure Certificate and forwarding it in a secure manner to the Nominating Authority; and

• engaging with Career Managers to address any non-compliances identified on the Unit Criminal Record Check Register.

CHAPTER 61
ASSIGNMENT PROCESS

SECTION 1 - ASSIGNMENT NOMINATION PROCESS (OFFICERS)

6101. Senior Officers
The assignment process for officers at 1 Star or 2 Star rank is at Chapter 60 Section 4.

6102. Nominee Identification

a. Career Managers (CM) have details of each position from a Unit Establishment List, requirement for higher training or a letter of authority for some special or temporary posts. The detail against each position will include the required rank, branch and specialisation plus any other competences including the following competence types: Additional, Educational and Professional. As each post requires filling through completion of the incumbent's assignment, sickness or other cause, or as new posts are created, it is the responsibility of the CM to identify and nominate a suitable individual to fill that position. The CM is aware of the range of officers available and takes into account the personal factors affecting each officer which are known through interviews, letters and JPA Assigning Preferences. To this the CMs must add an assessment of the appropriate seniority, ability and experience, often having discussed these matters with the receiving unit and the relevant higher administrative authority. The CM then matches individuals to positions reflecting the principles of assigning set out in Para 5902.

b. If a CM is unable to fill a position with a suitably qualified and experienced person of the right rank, consideration should be given to use of the Acting Higher Rank or Rate (see Para 6503, Para 6603 for Officers, Para 6914 for Ratings) and Para 9128 for Other Ranks) or use of Reserve Personnel under Full Time Reserve Service (FTRS) or Additional Duties Commitment (ADC) (see Chapter 59 Annex 59H) as a short-term manning measure.

6103. The Nomination Process

a. CMs invest considerable effort to match individuals to jobs and seek to assign individuals into posts in which they are expected to do well. Once a suitable officer has been identified, the CM will contact the officer’s future 1RO and provide/resolve the following:

   (1) Joining and vice dates (see Para 6114).

   (2) Relevant prior experience which supports the nomination.

   (3) Training which will be required before the officer joins the new unit and that which will be undertaken in-post.

   (4) Security clearances, including Criminal Record checks, required for the position (see Chapter 7).
(5) If AHR will be required to meet the Unit Establishment List requirement.

(6) If the nominated officer will be serving on an EOS (see Para 5811).

(7) Whether the nominated officer is subject to Special Reporting (e.g. Quarterly Reports) – see Para 5729.

(8) Any known welfare, medical or disciplinary issues which the employing officer will need to be aware of in order that they can fulfil their duty of care, whilst taking account of the nominated officer’s right to confidentiality.

b. The CM has a range of options for conducting the dialogue with the future 1RO and will select the most appropriate depending upon the circumstances. The options include the telephone, an e-mail or exceptionally a letter. It is the responsibility of the 1RO to discuss the nomination with the 2RO/Line Manager and resolve any subsequent issues with the CM.

c. Some assignments make particular demands on certain personal qualities. Special nomination arrangements are therefore made for assignments to the Royal Household, the Cabinet Office, Ministers' offices and some Flag Lieutenant/Military Assistant posts. Personnel who are to be nominated for any posts which are regarded as sensitive are required to undergo social media checks in accordance with Chapter 21 Annex N. For further details of both the special nomination arrangements and required social media checks see Chapter 59 Annex 59E.

d. Once the nomination has been agreed between the CM and 1RO, an Assignment Order will be issued by the CM via JPA workflow, without recourse to formal written nomination. The practice of issuing a Nomination Letters to senior and Commanding Officers is no longer mandated. Issue of the JPA Assignment Order will allow the receiving unit HR cell to access the nominated officer’s JPA record to view competencies and leave address/contact details. The officer will be directed to contact the 1RO to request joining instructions in the Assignment Order. There are occasions when telephone calls or signals are used in addition to the JPA electronic workflow such as when changes at short notice are required for operational, compassionate, sickness or other reasons.

6104. Refusal of a Nomination/Assignment

a. Officers are not permitted to select or decline assignments but CMs invariably give due consideration to personal wishes before deciding on a particular assignment.
b. CMs will nominate a suitable officer to fill a billet. In the vast majority of cases
the nomination is accepted. If the employing officer has misgivings, CMs will re-
consider the matter, but employing officers have limited discretion to reject the
nomination. In particular it should be noted that an employing officer may
legitimately refuse a nomination only if:

(1) Nominees are not qualified for the position because they are not of the
rank or branch or specialisation or lack a qualification or competence
specified in the Establishment List; or

(2) The employing officer, or an intermediate line manager, has served with
the nominee previously and in consequence the employing officer believes
that they will be unable to manage the nominee fairly.

c. Other reasons, such as the nominee being over-zone, or not of the preferred
seniority, or previous assigning history, or not being the best officer available in the
view of the employing officer, will not normally justify rejection. For common
assignments, employing officers should expect the nomination of an officer of any
branch to which the assignment is open iaw the CAPPs list (see Para 5913).
Rejection of an otherwise eligible officer to secure an officer of a particular branch,
or to secure a 'mix' of officers of different branches, will not normally be considered.

d. In no circumstances will a rejection be entertained on grounds of gender,
sexual orientation, maternity, race or ethnic origin. In order that the MOD can
demonstrate its undoubted commitment to Equality and Diversity in personnel
management, employing officers will be required to state in writing their reasons for
rejecting a nomination.

e. Employing officers should be aware that under-bearings limit the flexibility of
CMs and that the rejection of a fully qualified nomination is likely to result in the
gapping of the post in question.
SECTION 2 – ASSIGNMENT PROCESS

6105. Notification of Assignment Intention
If an individual is on a course or in a short assignment, and wishes to claim relocation expenses in advance of the issue of an Assignment Order for a permanent assignment, they must provide written evidence from their CM that it is the intention that they will be assigned to that particular position. The format and details on the discretionary use of this notification is at Annex 61A.

6106. Execution of Assignments
The organisation and responsibilities for ensuring that personnel join their ship/submarine, unit or establishment at the right time and place and are correctly prepared for service in that position are explained in the following paragraphs.

6107. Assignment Orders (AOs)

a. Career Managers issue Assignment Orders (AO) on behalf of ACOS(PCap). An AO is an Executive Order to both the person named in the AO and their current superior officer; it is also the authority to move that individual using Service resources. Where necessary, an AO will contain amplifying instructions appropriate to the assignment and compliance with these is implicit in the execution of the AO.

b. An AO is a directive and not a document issued for discussion and should be read carefully. Divisional Officers are to explain where necessary all the implications of a particular assignment.

6108. Amendments to AOs
There is normally a lapse of time between the issue of an AO and its execution. It may therefore require amendment for a variety of reasons and can be amended by the issue of a further AO. In the event of a short notice amendment being required, it will be signalled followed by the issue of a confirmatory AO amendment.

6109. Joining Dates
If an individual is joining a Unit in the UK, minor adjustments of up to 28 days either side of joining dates given in the AO may be agreed directly between discharging and receiving units without seeking the permission of the CM providing that it does not break relevant Assigning Notice. CMs should, however, be kept informed of agreed new joining dates in order to issue an amending AO.

6110. Movements

a. When an individual is detailed to join a unit outside the UK, the discharging unit, on receipt of the AO, will book all the passage requirements with the Defence Passenger Reservation Centre (DPRC) who will forward the necessary tickets and information to the discharging unit. Personnel detailed for LFS, all Falkland Island (FI) units, short notice assignments, including Emergency Relief Pool (ERP) activation, and small units without normal UPO facilities, will have AOs copied to the movement section within the JFC Global Admin Unit. The travel cell will book the passage requirements and forward/signal the appropriate movements information to the current unit. When an individual receives an AO to return to the UK from overseas, the responsibility for booking the passage rests with the discharging unit.
6111. Pre-joining Training (PJT) and Competences

a. PJT and Competence requirements are shown against the Position in JPA. CMs are responsible for ensuring that officers and non-Squadded ratings and RMOR joining units on Sea, Local Foreign, Exchange or Loan Service are assigned to courses to achieve the specified competencies before joining. Responsibility for Squadded ratings lies with CMC CMs. Assignments will not normally be cancelled as a result of a failed PJT, however, under the PJT Pass/Fail criteria and associated administrative procedure, where Health and Safety at Work (HASAW) regulations are involved, the assigning implications will be assessed following the Training Establishment’s recommendation.

b. For personnel assigned to shore service who require PJTs or Competences, it is the responsibility of the receiving unit to book the training, which should not be undertaken until they have joined. Similarly, all receiving units (sea and shore) are responsible for any changes they require to PJT/Competence requirements as a result of changes to the Establishment List made after AOs have been issued.

6112. Action on Receipt of an Assignment Order

a. **By the Individual.** Individuals will receive all AOs (new, amended, or cancelled) via JPA workflow. Once they have read and understood the order they are to acknowledge the workflow immediately. They should contact their UPO to arrange any travel requirements and ensure they are in all respects prepared for the assignment and to meet the availability date (Ready-to-Move-Date) as appropriate. Passport formalities and medical requirements are to be completed at an early stage where required (for LFS, see Para 5911)

b. **By the Receiving Unit**

(1) The AO detailing the individual to join the Receiving Unit is to be checked to ensure that no special instructions have been omitted and that all details including PJTs and Competence requirements are correct. Joining instructions are to be despatched to the person normally one month before joining.

(2) On receipt of an AO nominating a relief for a rating serving on sea service or LFS, an Availability for next assignment Date (AVDATE) signal is to be sent to the CM. The AVDATE should be received by CMs at least 4 months before the rating is due to leave the unit, to enable the CM to give at least 3 months’ notice of the next assignment. See Chapter 59 Section 10 for detail of AVDATES.
c. **Failure to Meet an Assignment.** If for any reason an individual is not able to join, meet an availability date for passage or attend PJTs as detailed by an AO, then the facts are to be reported by signal, quoting the date of the AO, to FLEET HQ (fao relevant CM) and the Receiving Unit. If an individual fails to report within 48 hours of their assignment date, the receiving unit is to inform CM by signal, copy to the discharging unit. Similarly, CM and the Receiving Unit are to be signalled by the Training Establishment if a Service Person fails to arrive as detailed for a PJT course.

### 6113. Course Booking

a. The RN Course Booking Cell (CBC) is tasked to provide a single point of contact for all CMs and Manpower Coordinators in sea-going units for the booking all RN Phase III core competence uplift training (Pre-Joining Training (PJTs) and Targeted Employment Modules (TEMs) identified as Competence requirements against positions detailed in Unit Establishment Lists), ensuring this training is delivered in line with strategic manning priorities as directed by NAVY PCAP-OPS.

b. CMs remain the first point of contact for all Professional Qualifying courses and career management issues including the booking of Leadership Courses (LRLC/SRLC). Requests for these courses should be relayed direct to the relevant CM via e-mail/telephone (not the CBC).

c. CMs’ access to the CBC is via a dedicated course booking form utilising standard e-mail or via telephone if required. The Separated Service Planning Tool (SSPT) is the primary tool for manpower coordinators in sea going units to book their personnel onto non-career courses. SSPT now provides a direct link between EWOs/DEPCOs and the CBC, thereby negating the need for separate Course Booking Forms to be sent to the WMO/CMs.

d. DEPCOs are to liaise closely with DOs and Line Managers to ensure all course bookings and cancellations are reflected in individuals’ Personal Employment Plan providing the earliest notice to the Course Booking Cell to allow reallocation of spaces.

### 6114. Assignments to and from Ships Deployed

a. Normally, CMs will plan to assign individuals to avoid unnecessary air passage. There are, however, occasions when personnel have to join and leave despite the unit being deployed.

b. There may be occasions where COs wish to request a Closed Notice Period. Applications, which should be on a ‘whole unit’ basis and at least 6 months in advance, are to be made to ACOS(PCap) in writing or by signal.

c. If an individual is assigned to join overseas and it becomes apparent that the joining date is not practicable and requires amendment, then the Receiving Unit is to inform ACOS(PCap) by signal FAO relevant CM, with DPRC LONDON as information addressee, quoting full details of the individual concerned including their Ready-to-Move (RTM) date.
d. Assignments of key personnel during an operational deployment may be subject to the constraints of the Core Team Concept (see Para 5950). CMs should liaise as required in order to satisfy the requirements of the Core Team. If an assignment does not comply with these requirements, it should be referred to the appropriate SO1 CM for OF3s and below, or DACOS Career Management for OF4s, for approval.
SECTION 3 - JOINING AND LEAVING

6115. Timings

a. **Officers’ Joining.** Unless otherwise instructed, officers assigned to ships or shore establishments in the UK are to join by 0900 on the day promulgated on the AO; officers assigned to shore courses should refer to the relevant joining instructions for that establishment. Although convention has hitherto dictated that officers should normally join a new assignment on a Tuesday, the optimum day and date should be agreed with employing officers. For officers assigned, or joining ships deployed, frequency of flights and use of trooping flights should be taken into consideration when establishing the ‘ready to move’ date.

b. **Ratings Joining.** Unless otherwise instructed, ratings assigned to ships or shore establishments in the UK are to join by 0800 on the day promulgated on the AO; ratings assigned to shore courses should refer to the relevant joining instructions for that establishment.

c. **Overseas Joining.** Personnel selected for overseas assignment are expected to make their travel arrangements via the RN Overseas UPO to meet the agreed joining date. More information on Overseas Assignments can be found at Para 5911.

d. **Personnel Leaving.** Personnel are to be sent on leave, to next assignment or both after a satisfactory turnover of duties. Training courses normally finish when an individual leaves the training establishment on cessation of instruction or examination.

e. **Medical Requirements.** Commanding Officers are to ensure a robust joining/leaving routine\(^1\) is in place that specifically includes the requirement for all Officers/SRs/JRs to attend the Unit Medical Centre/Sickbay within 48 hrs of joining and no less than 14 days prior to leaving the Unit. Notwithstanding the above, it is an individual responsibility to ensure that the joining/leaving routine is followed and that personnel are in date for all medical and dental requirements prior to leaving a unit.

6116. Leave on Assignment

All Leave matters are covered in JSP 760 which is the Authority. Before proceeding on leave following an assignment, personnel are to ensure that their CM has an up to date record of contact addresses and telephone numbers.

---

\(^1\) BR9600 Ch5 0504
6117. Timing of Reliefs for Key Officers in Ships

a. The timing of the assignment of a relief for an officer in a ship depends on a variety of factors e.g. Core Team Concept, officer availability, timing of other reliefs and the wishes of the Commanding Officer.

b. Subject to consideration of these factors, CMs should work to the following guidelines:

(1) **Commanding Officer.** A Commanding Officer’s relief should join during a suitable break in the operational tempo of the unit and ideally prior to any period of FOST training.

(2) **Executive Officer.** For ships in a refit period, the new XO should join no later than 3 months before Ship’s Staff Move Onboard (SSMOB) date. Ships in build will normally require the XO 46 weeks before the acceptance date/contractor sea trials. In the case of operational units, the timing of the Executive Officer’s handover should follow the same guidance as that for Commanding Officers. There will obviously have to be close dialogue between respective Career Managers to ensure that there is limited impact on a unit’s OC.

(3) **Heads of Department.** Reliefs should preferably join well clear of key dates of refit, trials and OST. MEO and WEO should not be relieved at the same time. Again, in the interests of the ship’s OC, it is preferable that HoDs join prior to OST.

6118. Turnovers

Unless otherwise specified by the Unit Establishment List in JPA, the planned time for turnovers should not exceed 4 working days for officers and senior rates and 2 working days for junior rates. In all cases, the costs of turnover should be borne by the employer. Extended turnover periods can only be authorised by ACOS(PCap). Authorised extended turnover periods are shown in calendar days in the Miscellaneous/UIN column of JPA. Turnovers recommended in the Notes or Job Remarks do not generate a personnel liability uplift and therefore should not be actioned.
SECTION 4 – SPECIAL CASES

6119. Through Assignments

a. Individuals may be 'Through Assigned' from one ship/submarine or unit to another to complete their sea service when, for example, a ship/submarine pays off or changes to shore service or going into refit. Personnel can also be through assigned to complete their training or gain professional qualifications. See Para 5943.a(3)(b) for Assigning Notice for Through Assignments.

b. 'Through Assignees’ may be unable to take any leave between assignments. Outstanding leave is to be carried forward to the second (or subsequent) ship/submarine and granted on completion of sea service but within current leave entitlement.

6120. Exchange/Swap Assignments (Ratings/RMOR)

a. Ratings may be allowed to exchange or swap assignments if there is no appreciable loss of operational capability and the exchange or swap does not lead to wasteful or unfair assigning. A rating who reaches the top of the sea roster cannot, by finding another to take the assignment, defer liability for sea service. Even if an exchange or swap were approved, the rating would remain liable for the next sea assignment. A rating on sea service will not be permitted to exchange assignments with a rating on shore service. RMOR exchanges should be with another individual of the same substantive rank and SQ if applicable.

b. Ratings/RMOR seeking to exchange or swap their assignments should normally:

   (1) Be on or due the same type of service.

   (2) Have similar time to serve in current assignment.

   (3) Be the same rate.

   (4) Be of similar experience.

c. Procedure - Non-Squadded Rates/RMOR. Where ratings/RMOR are in positions which they wish to exchange, both are to notify their respective Line Managers. The ratings'/RMORs' line managers are to e-mail the CM giving details of the ship/submarine/unit, the names of ratings/RMOR who wish to exchange and indicate an agreed date for the exchange to take place. Approval by both COs and CM is required. If the criteria at Para 6119. sub para b above are met and all parties agree with the exchange, then AOs will be issued.

d. Squadded Rates. The procedure for swap drafts for ratings within a squad is at SSDIs Article 4.18.
6121. Final Tour of Duty (FTOD)

The Final Tour of Duty (FTOD) provision is to assist eligible Service personnel in their final tour of duty who are not in the geographical area in which they have formally expressed a preference to serve, with meeting the costs of settling themselves and/or their immediate family at a Selected Place of Residence (SPR) in the UK. JSP 752 Chapter 7, Section 4 provides comprehensive guidance on this subject and highlights the requirement that all naval personnel wishing to express a preference for a FTOD location must do so formally using JPA Form F024.
NOTIFICATION OF ASSIGNMENT INTENT

1. The notification format below is to be used by a Career Manager when assigning action for a permanent assignment on completion of a course (or other short assignment) cannot be taken officially at the stage that the individual wishes to move, even though their subsequent assignment is known. It is to be used with great discretion as, on the basis of this letter, individuals may be able to claim several thousands of pounds or enter into legal obligations which would be hard to break if, subsequently, they were assigned elsewhere. The letter must not be used for personnel undergoing basic training courses until such time that their continuation in Service can be guaranteed. It is recommended that this letter be used only following a specific request from the individual concerned. The letter must be based on definite assigning plans; hence the wording in Para 1 of the letter is 'will be assigned' rather than 'the intention is to assign'.

FORMAT OF LETTER GIVING NOTIFICATION OF ASSIGNMENT INTENTION

Area Manager/DHE

NOTIFICATION OF ASSIGNMENT – [ASSIGNEE NAME AND SERVICE NUMBER]

Reference:

A. JSP 752

1. The above named individual, currently serving in .......... (unit or type of training), will be assigned to ..........(unit) for .......... (type of duties) for a period of ........ commencing ..........(date). This assignment will be announced in OAL XX/ZZ dated XX/YY/ZZ.

2. Formal assigning action will be taken in due course. Meanwhile, this letter may be used as the necessary authority for the payment of any relocation benefits in accordance with Reference A.

CHAPTER 62

BRANCH STRUCTURES AND BRANCH MANAGEMENT

POINT OF CONTACT – PART 7

6201. Organisation

The management and structural control of Branch Structures is the business of ACOS(PCap) in consultation with FOST. Branch Managers (BM) are responsible for ensuring that each Specialisation is carefully managed such that sufficient personnel are available to meet the current Live Liability (see Para 0303), and the predicted future Liability, known as the Planning Liability (previously called the Headmark) (see Para 0304), of the Naval Service, within allocated resources. Their primary purpose is to develop, maintain and monitor the implementation of plans and policies for the management of personnel within the Branch/Specialisations for which they are responsible. In order to do this effectively they require a thorough and detailed knowledge of their portion of the Liability, their branch strategy and strength.

a. BMs for each branch provide advice to Career Managers (CM) on branch structure matters. They also play a key role in the management of the strategic function of Naval manpower management and, thus, retain line responsibility to ACOS(PCap).

b. Chapter 3 describes the process of personnel planning and explains how the personnel Liability is derived and how strength is matched to that Liability. Career Management (in this Part, starting at Chapter 58), looks at the short term ‘personal’ personnel planning. BMs straddle these areas as depicted pictorially below:

Figure 62-1. Manpower Planning Process Timeline
c. The overall responsibility for RNR Branch Management is undertaken by BM(Reserves), while all RNR personal administration functions are undertaken by NPT(Reserves). This also includes mobilisation, employment and career management. Promotion is undertaken by the Promotions Cell. Due to the nature of employment of Reservists and the current branch structure, RNR Branch Management differs from that of the Regular Service. Each RNR Branch is allocated a Specialist Advisor, whose role is to manage his or her branch in accordance with current Commodore Maritime Reserves (CMR) requirement figures and to ensure that training applicable to his/her specific branch is undertaken. NPT(Reserves) assists in this process by acting as the liaison between RNR Units, BM and CMR, thus enabling the correct Strength v Liability to be maintained. The exception to this is the RMR where, in the main, BM RM is responsible for maintaining the RMR branch structure.

6202. Naval Manning Principles

Requirement Management is underpinned by the following Naval Manning Principles:

a. The Justification for Uniformed Personnel. The justification for uniformed personnel is limited by financial constraint. In broad terms posts should be complemented with civilians unless there is a demonstrable need for a Service incumbent for operational reasons stated in Defence Planning Assumptions or there are unacceptable implications for Service careers or branch structures. All uniformed Naval personnel are therefore justified on one of the following grounds:

(1) Sea Bill. Those required for the maritime force to be deployed on peacetime military operations or exercise or during crisis, e.g. in ships, submarines, front line air squadrons, RM Commando units, Naval Parties, seagoing staffs and Joint operational units.

(2) Shore Bill. The essential HQ and shore back up to the maritime force (in theatre or remote) that is required to support operational capability, sustainability and other Service functions (including Margins and provision for Harmony). This also includes the uniformed Naval elements of training, acquisition, logistical and technical support and HQ staffs. Examples are:

(a) Central and Naval staffs.
(b) PJHQ and other Joint and Tri-Service staffs.
(c) Navy Command HQ staff.
(d) DE&S units.
(e) Naval Bases, air stations and other shore support establishments.
(f) Recruiting and training establishments.
(g) Overseas HQ commitments, including NATO and EU staffs.
b. **Manning Priorities.** In matching Strength to Liability and to limit the impact of gapping to preserve military capability, priority for manning is given to certain operational units and essential shore support functions. The Strategic Manpower Priorities List for the Naval Service is reviewed annually by the Manning Priorities Steering Group (chaired by ACOS(PCap)) and promulgated by DIN. The DIN details those RN seagoing, RM operational units, and support requirements that have priority over other employers, together with the minimum acceptable level of manning appropriate to each. BMs may be called upon to assist the manning priority process by providing detailed information to guide CNPers CMs on the strategic and tactical placing of gaps.

c. **The Supply and Growth of Manpower.** With a few notable exceptions, the skill and experience required of Naval personnel demands that they be grown from the lowest level. Apart from some exceptions, all Officers and Ratings/ORs join ‘at the bottom’, within set age limits, and remain for as long as their commission or engagement allows, while progressing up the rank scale. Education and training is provided to satisfy the requirements of rank, specialisation and specific sea going Positions, and individual careers are managed so as to provide a broadening of experience within the rank and capability of each individual. This demands that each Specialisation is structured in a way that enough Positions are provided at lower ranks to provide personnel with the time, training and experience to move to the next higher rank, taking account of the inevitable loss of some people from the Service.

d. **Promotion to Requirement.** Officers and Ratings/ORs are promoted or advanced to meet the Liability. Should the Liability change, so too will the numbers and specialisations of those required to be promoted or advanced. For both Officers and Ratings/ORs, the basis of promotion is selection on merit through a selection board process. Detail on promotions is at Part 8 of this BR.

6203. **Employment of Women**

There is no gender discrimination in the Naval Service. Servicewomen can serve in a wide range of roles, including Mine Clearance Divers and in Submarines. Women are able to serve in the Royal Marines General Service and Special Forces Arms, in common with the employment of women in Army Infantry Regiments and Special Forces. Certain constraints are placed on deployment of women to match the accommodation available at sea, although this will be reviewed as the numbers of female entrants increases.

6204. **Terms and Conditions of Service**

a. Terms of Service are essentially the agreement between the Naval Service and an individual. They relate to career rights (e.g. length of service, commissions, engagements, career management, promotion and advancement, discharge rights and retirement) and are described in detail in the respective Chapters of BRd 3(1).
b. Conditions of Service equate to those working and living standards and guidelines set for the benefit of Naval personnel. In particular, they address financial conditions such as pay, pensions and allowances and non-financial conditions such as leave, accommodation, lifelong learning, recreation, uniform, health and catering standards which can be changed by design or force of circumstances bearing in mind the possible effects on those serving and their subsequent behaviour. 2SL’s Personnel Functional Standards (PFS) (see Chapter 22) refer to these and others. The responsibility for defining appropriate Conditions of Service rests with Hd NPS.

6205 Harmony

Harmony for Naval personnel is provided through measurement of individual Separated Service. This is a component of PFS, full details of which are at Chapter 22. Key points are as follows.

a. In order to provide equitable conditions of service throughout the Naval Service, the time that individuals spend separated is measured and recorded. Separated Service is defined as “absence from normal place of duty or lack of freedom to enjoy leisure at the normal place of duty/residence at place of duty”. The Separated Service threshold is set at a cumulative total of 660 days in a rolling 3-year period and is the point at which mandated shore time must be applied, as managed by CNPers or, for personnel on Sea Service, the relevant Waterfront Manning Organisation. Guidelines have been established for a position to be defined as Sea Service, which are principally that the post has a routine expectation for the incumbent to be separated for more than 122 days per annum. Further detail can be found in Chapter 59 and Para 5908.

b. Separated Service policy has replaced the previous practice of successive Sea and Shore assignments (which did not apply to Officer appointing or to the Royal Marines) according to Sea: Shore ratios and the more sea-heavy trigger points for Minimum Time Ashore (MTA). Nevertheless, for Senior Ratings, the PPO ensures a reasonable balance of Sea and Shore service. The ratios and MTA factors that used to apply for all Ratings, but which now only provide a guide to what is considered reasonable, are as follows:

<table>
<thead>
<tr>
<th>Sea : Shore Ratio</th>
<th>MTA Factor (Sea time/Shore time)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Able Rates</td>
<td>80 : 20</td>
</tr>
<tr>
<td>Leading Rates</td>
<td>70 : 30</td>
</tr>
<tr>
<td>Petty Officers</td>
<td>60 : 40</td>
</tr>
<tr>
<td>Chief Petty Officers</td>
<td>55 : 45</td>
</tr>
<tr>
<td>Warrant Officers</td>
<td>50 : 50</td>
</tr>
</tbody>
</table>

Note. Officers and RM personnel did not have Sea:Shore ratios but are now governed by the Separated Service threshold outlined above.
6206. Squad System Manning

The Squad System was introduced for most ABs from Oct 03 and for most LHs from Apr 04. Individuals are assigned to form "Squads", based at the Waterfront (or Typed Air Station). Each rating is assigned to a particular ship or unit, but that unit will be assigned more Positions (and therefore personnel) than are required to man the unit at sea. For most specialisations and vessel types, the Squad Manning factor is 1.33, rounded up or down (i.e. for every 3 Positions required at sea, a fourth is added to the establishment). The extra manpower provided is calculated to enable Units to operate with a full complement and, at the same time, provide individuals with the time needed to undertake other activities. These include taking leave, undergoing training or augmentation duties. Movement of people between the onboard tasks and other activities is managed by the Waterfront Management Organisations (WMOs), in conjunction with the unit’s staff (notably the Executive Warrant Officer (EWO)). Individuals in the Squad may remain assigned to a Front-Line unit for long periods, typically 4 years. This aims to maximise team coherence, minimise the training burden, and allow individuals some geographic and professional stability and some scope to plan their own lives. Full details on the Squad System and how it is managed and administered can be found in Squad System Desk Instructions.

6207. Mobility and Stability

While it is Navy Board policy that personnel should be able to exercise freedom of choice about where to live, manning principles take account of the geographic distribution of sea and shore positions, aiming to ensure opportunities for a degree of family stability.

6208. Branch Structural Shape

'Bottom-fed' manpower structures tend to be broadly pyramidal in shape. People are needed to populate the lowest level, from whom enough can be retained and trained to be willing and capable for promotion to the next level. Empirical data and evidence derived from manpower planning models, including the Sustainable Experience Profiles (SEP), are used to produce bespoke structural ratios for each Specialisation. Indications of structural weakness include insufficient suitable personnel being presented to Promotion Boards, shortages at individual Rank levels and excessive wastage. The requirement that can be sustained depends on a number of factors, including: average length of time in a Rank; scope for ‘Sideways’ or ‘Direct’ Entry into the Specialisation; qualifications needed for the next higher Rank; and wastage levels. The PPO recognises the need to modify personnel policy to reflect changes in the demand from employers, but also places constraints on the rate of structural change in order that policies and personnel Terms and Conditions of Service can be developed efficiently. If, through requirement change, tolerable adjustment of the manning levers is insufficient to deliver sustainability, then structural change may be necessary.

a. Based on the ratios described above, BMs are required to manage the shape and size of their Specialisations. As a part of this work, they need to maintain:

(1) Sustainable structures, such that manpower for higher ranks can be "grown" from more junior levels. A sustainable structure is defined as:

"An enduring structure which, given recognised constraints and limitations, can maintain a coherent flow to match strength to requirement, with appropriate application of the available manning levers..."
And

Retains a degree of flexibility and resilience to cope with both internal and external change events as well as retaining the ability to grow and decay as required."

(2) **Acceptable Sea/Shore balances** (non-squad system personnel). Previous Sea:Shore ratios (MTA) no longer apply as a formal measure for any Rating/OR/Officer categories, however, personnel are still entitled to a balance of employment between sea and ashore. Therefore, Positions ashore for them must exist to provide them with the necessary Shore service. This is provided through the requirement for personnel to provide essential HQ and shore back up to the maritime force, to support operational capability, sustainability and other Service functions.

(3) **Sufficient Donor Positions** to meet planned Crisis manpower requirements. There is an enduring need for personnel to occupy Positions that, in a Crisis, can be gapped to provide manpower to meet the Crisis requirements. Such “Donor” Positions are maintained in sufficient numbers to meet foreseen requirements, broken down by Rank and Specialisation. Employers must provide their share of Donor Positions, as required by the PPO. ACOS(PCap) monitors requirements for, and controls availability of, Donor Positions. Further detail on how Donor Positions are identified and managed can be found in Part 2 Annex 2D.

b. BMs provide advice, through PPlan, to assist ACOS (PCap) in setting target numbers for the manning regulators (promotions, changes of commission/Engagement/Career, etc) for each Specialisation. As members of the following promotion/selection boards they further ensure that personnel of the required standard are selected, within the target numbers that have been specified:

(1) Senior Upper Yardmen (SUY).
(2) Warrant Officers 1st Class (WO1).
(3) Warrant Officers 2nd Class (WO2). (See footnote 1)
(4) Chief Petty Officers.
(5) Petty Officers.
(6) Leading Hands.
(7) Extended Career (EC).
(8) Officer IC to CC and CC to FTC transfers.

---

1 The WO2 rank was formally discontinued for the RN (not RM) in Apr 14. From this date, further promotions to WO2 ceased for all branches except for RMs and, for a short transitional period, Engineer Submariners.
6209. Impact of Establishment Changes

a. As explained at Chapter 2, BMs scrutinise employers' proposals for changes to their Establishments that would affect the Liability. This process is known as “Carding”. Early dialogue with the respective BM responsible for individual manpower categories will provide an indication of whether ACOS(PCap)'s approval is likely to be straightforward, require more complex management, or will be challenged. Employers should always discuss their plans for organisational change with their TLB Manpower Manager. It is clearly in everyone’s interest that proposals for change are aimed to attract approval by ACOS(PCap), to help their speedy endorsement and implementation, while assisting the maintenance of robust manpower structures.

b. Full details on the Establishment Amendment process can be found in Para 0204 sub para c and Annex 2E.

6210. Solving Structural Problems

a. Where difficulties in Specialisation structures are identified, an holistic approach - involving BMs and PPlan - is adopted to examine the problem through analysis of statistical data and use of personnel modelling techniques. From the results, it is possible to determine the action necessary to restore the Specialisation to long term stability. Whilst short term manning problems should not be allowed to affect the search for a long-term solution, sometimes short-term measures, such as Financial Retention Incentives, are required in order to stabilise the Specialisation whilst longer term measures are implemented and take effect. An initial procedure is to identify/confirm whether:

(1) The sea requirement is correctly specified.

(2) The shore requirement is correctly specified.

(3) The margins have been correctly calculated.

(4) There are sufficient Positions to fill Crisis Donor Billets.

(5) The requirement can be modified to re-satisfy the following criteria in priority order:

(a) There is a sound Specialisation structure.

(b) There is an acceptable sea/shore balance.

(c) Career progression for the individual is facilitated.
b. If all the above criteria are met, and modelling suggests that a sustainable structure would not be achieved, then further action may be required. BMs should then identify and advise on, or initiate, any necessary corrective action, which may require further studies to be conducted. Substantial change may require staffing up to approval by the Navy Board. This work is conducted through the Navy Board Personnel Change Programme (NBPCP).

c. There are marked structural imbalances in both the officer and rating/OR cadres. In the recent past, the trend of establishment change requests has been to reduce junior ranks/rates whilst growing the senior levels - that is unsustainable. For officers the structural imbalance starts at Lt Cdr/Maj and for ratings at PO/Sgt. The PPO will look favourably at changes that seek to address such imbalances.

d. The Royal Marines ‘Sea’ requirement is defined as that for 3 Commando Brigade RM, Special Forces (SF), RM Assault Squadrons and other operational Positions. The ‘Shore’ requirement is all those elements of the Royal Marines Corps that comprise the RM support area. The RM does not use sea/shore ratios as a formal planning and deployment tool.

6211. Operational Performance Standards

a. **Operational Performance Statements.** The standards to be achieved by personnel at each rank are laid down in the Operational Performance Statements (OPS) for each Specialisation. The ownership of these OPS (JSP 822 Part 3, Chapter 2) lies jointly with the relevant Capability Team and BMs, as does the responsibility for ensuring that the OPS remain current. BMs, as the custodians of sustainable, populated and trained manpower structures, may seek reviews of the OPS by the end users if requirements change eg. if the resultant demand is likely to be unsustainable.

b. **Structure Policy Advisory Groups.** Through chairing of the appropriate Structure Policy Advisory Group (SPAG), BMs monitor training performance and achievement of standards and facilitate the exchange of information between key stakeholders. Further detail on SPAGs is at Annex 62A.

6212. Competences

Within the JPA environment a Competence is defined as:

*Any measurable behaviour required by an organisation, job or position that a person may demonstrate in the work context. A competence can be a piece of knowledge, a skill or an attribute*

a. The key references for the naming and use of Competences within JPA are:

(1) JSP 754 (Tri-Service Regulations for Pay and Charges).

(2) JSP 758 (Tri-Service Regulations for the Naming of Training Courses) (through its linkage with the Competences that may be awarded on completion of a course).
(3) JSP 759 (Developing and Naming Competencies within the JPA context).

b. **Competence Sponsors.** The Competence pre-requisites for each Position are listed in JPA. Ownership of these Competences, like OPS, is held by the FCIGs but their sponsorship and maintenance is the responsibility of the key Subject Matter Expert. In most cases and notably for Branch-specific Competences, the respective BM is the Sponsor. The identity of the Sponsor is recorded in JPA against each competence.

c. **Competences and Pay.** Accurate and timely provision and recording of certain Competences is vital, because of their effect on personnel pay. BMs can set Pay Bar Qualification Points (QPs) which can affect Yearly Incremental Progression (YIP) if authorised by the Naval 'Pay Colonel': Hd NPS PPA. These are tools to fine tune Branch structures. In addition, some Competences directly affect pay, notably in awarding Specialist Pay. The details of the Competences concerned are detailed in the following Chapters of JSP 754 (Tri-Service Regulations for Pay and Charges): QPs are at Chapter 3; and Specialist Pay is covered at Chapter 6.

d. **Competence Control.** JSP 759 and the JPA on-line Business Process Guides describe the process for control of Competences, including their creation, maintenance, amendment and end-dating. (Competences are never deleted from JPA, but end-dating makes them unusable for awarding to personnel or as a requirement placed against a Position.) Personnel seeking the creation or change to a Competence should follow the JSP and on-line instructions. The authority for making such changes in JPA rests with designated Competence Controllers; for the Naval Service they are within the staff of ACOS (PCap) and can be contacted through their Group mailbox at the following email address: NAVY PERS-Competences Mailbox (Multiuser).

e. **Awarding and End Dating Competences in an Individual’s Service Record.** This function is conducted in JPA by designated personnel with the JPA responsibility of Course Administrator. The process for seeking and making such awards is laid down in JSP 759.
ANNEX 62A

STRUCTURE POLICY ADVISORY GROUPS (SPAG)

1. SPAGs (which may alter in name and structure from Branch to Branch) play a vital role in the manning function of the Naval Service in assuming the corporate responsibility for the Branches, Arms and Specialisations. The SPAGs obtain a consensus view and agreement to proceed on a wide range of issues from the members who represent the major stakeholders of Naval manpower.

2. SPAGs consider the structural and manning components of each Branch, Arm and Specialisation against the present and future requirements of employers of uniformed personnel, and inform the decision process necessary to deliver and maintain the required trained strength at each level of the structure. This involves reviewing planning assumptions, such as VO and other wastage rates, and target figures for recruiting, extraction, promotion and transfer. Training Margin, training capacities, pipeline times and constraints on the flow of trainees are also used in forecasting future strengths. The SPAG acts as auditor for manpower planning, manning policies and implementation against liability.

3. SPAG business is central to the work of a Branch Manager (BM) and the output from the meetings feeds into a number of key committees:
   - Capability teams;
   - Risk and performance management;
   - the Planning Round; and,
   - MDTs.

4. The frequency of SPAGs is a function of the workload generated by a particular Branch but they should be held at least once per year. Each SPAG has its own TORs that reflect the differing needs of the groups. Membership of each SPAG will vary slightly depending on Branch and Arm, however, the core membership will normally consist of:

Chairman: CNPS DACOS BM

Members: Representatives, as appropriate, at SO1/SO2 desk level from:

- Fleet Commander/DE&S (or other employer);
- training school;
- capability team (as appropriate);
- CNPS PPlan SWPO or PPlan SWPR (as appropriate);
- CNPers career management;
- HRTSG; and
- invited attenders (as appropriate depending on agenda).
5. A typical agenda is likely to include the following:

- branch/specialisation(s) overview;
- global manpower update;
- training school update;
- career management Issues; and
- capability team/future equipment issues.

CHAPTER 63
SECURITY VETTING POLICY

SECTION 1 – PERSONNEL SECURITY VETTING

6301. Introduction

a. Protective security policy\(^1\),\(^2\) emphasises the need for a systematic vetting regime to manage the issue and withdrawal of national security clearances and to facilitate effective security risk management. The following Sections outline the principles and procedures that govern security vetting within the Naval Service to enable those personnel employed in security, recruitment and manning roles to manage vetting risks and issues efficiently and effectively.

b. Security vetting does not, on its own, provide a guarantee of an individual's integrity and trustworthiness. Since both individuals and their circumstances change, a security clearance is only as good as the background records and investigations on which it is based at the time the review process is carried out. It is therefore essential that personnel security continues after initial clearance is approved and that any new information or concerns that may affect the reliability of a person are brought promptly to the attention of the Command Chain and Navy Command (NC) Security authorities. This is achieved through a combination of aftercare and security review procedures.

c. Our vetting regime is to be guided by 4 key principles of transparency, proportionality, confidentiality and timeliness. Personnel subject to vetting action that could affect their employability will be fully engaged with the vetting process and have the right to appeal against any decisions. The vetting process is never to be used as an alternative means of dismissing personal from the Service where other administrative or disciplinary action is more appropriate.

6302. Content

Navy Command security vetting policy outlined in the following Sections provide practical direction to personnel. Section 2 articulates the requirement for security vetting within the Naval Service and explains the key vetting principles. Section 3 details responsibility for the granting of security clearances and residency waivers. Section 4 explains adverse vetting assessment procedures and provides information regarding the membership and workings of the Personnel Security Panel (PSP) and Vetting Aftercare systems. Section 5 details responsibilities and procedures relating to appeals against vetting decisions. Finally, Section 6 specifies the roles and responsibilities of individuals and the Chain of Command in ensuring that vetting procedures are carried out expeditiously and in a way that allows them to enable rather than constrain the delivery of maritime power.

\(^1\) HMGS Security Policy Framework v8.0.
\(^2\) JSP 440 - The Defence Manual of Security.
6303. **Scope**

The security vetting principles and procedures detailed in this policy instruction apply to regular and reserve personnel serving in the Naval Service, including Reserve Forces and Royal Fleet Auxiliary or as adult staff members of the Sea or Royal Marine Cadet Organisations.
SECTION 2 – SECURITY VETTING PROCEDURES WITHIN THE NAVAL SERVICE: REQUIREMENTS, RESPONSIBILITIES AND PRINCIPLES

6304. Security Vetting – The Naval Service Requirement

a. In recognition of the operational needs of the Naval Service, the technical sophistication of Naval Service platforms and equipment and the unpredictability of future maritime tasks, all Naval Service personnel are security vetted to a minimum of Security Check (SC) level. However, personnel filling certain appointments where there is a need for frequent unsupervised access to Top Secret (TS) information may require a higher level of clearance, specifically Developed Vetting (DV). A further enhanced level of security clearance, informally referred to as “DV Plus” will be introduced in 2014 for some specific and highly sensitive posts, for example related to Defence Intelligence and Nuclear business. SC, DV and DV+ comprise a system of security clearances that contribute to the maintenance of effective personnel security in the Naval Service. The administration and implementation of this system must be governed and enacted in a manner which is robust, transparent, equitable and confidential, and coherent with the processes employed by United Kingdom Security Vetting (UKSV).

b. Security clearances for Naval Service personnel are processed and issued by UKSV in accordance with the procedures detailed in this Chapter. Procedures for the granting of security clearances and waivers relating to nationality and residency are detailed at Section 3.

6305. Developed Vetting

a. While the entry-level vetting requirement of SC for the Naval Service can be justified on the basis of operating environment, what is less certain is the justification of the requirement for DV which is considerably more costly and involves a greater degree of discretion in its application. Line Management is responsible for determining and thereafter reviewing the justification for post holders to hold DV, which once approved by Navy PSyA-Pers Sy SO1C, etc, will be added to the competency requirements of the JPA Position ID (PID). JPA therefore constitutes the NC Developed Vetting Master List (DVML) and will inform NAVSEC/ACOS(PCap) staff when a DV is required for an appointment.

b. However, in the face of ever increasing financial pressure on the DBS-NSV budget there remains an ongoing requirement to rigorously revalidate the justification for posts to require DV at least annually. To this end an interactive NC DVML (extracted periodically from and compared with JPA) is being developed which Line Managers will be required to access and certify correct or amend on JPA to accurately reflect the requirement. Failure to do so may result in the DV Competency requirement being arbitrarily removed from the JPA PID.

---

3 Criteria for determining if post requires DV are contained in JSP 440, Part 2, Leaflet 7, Paragraphs 46-52.
4 Establishment Amendment Form (JPA A001) iaw. JSP 755 Chapter 2, Section 2.
5 The majority of RNR personnel are held under generic PIDs which only segregate between Officer and Rating at Organisation level.
6306. Aftercare

a. Security vetting on its own does not provide a guarantee of an individual’s enduring trustworthiness, integrity and reliability as individual circumstances and behaviours may change over time. It is fundamentally important that personnel security measures continue after a security clearance is granted to allow new information to be collated, analysed and acted upon by the security vetting authorities. The responsibility for raising and sharing this information lies with both the Subject and their line management and is achieved primarily through the Change in Personal Circumstances Questionnaire (CPC), Security Appraisal Form (SAF) and Aftercare Incident Report (AIR) processes. Where a CPC, SAF or AIR bring into doubt the suitability of an individual to hold (or to continue to hold) a security clearance, management procedures may be initiated.

b. Where concerns have been raised, the Subject will be advised accordingly by PSyA Personnel Security (Pers Sy) staff and afforded appropriate opportunity to address the issues. Depending upon the seriousness of the concern, PSyA Pers Sy advice could take the form of an advisory telephone call or letter through to a face-to-face interview coupled with directed written advice. In the event that the advice proffered is ignored consideration will be given to issuing a Formal Security Warning (FSW) dependent upon the nature of the issue. It may also be necessary to initiate appropriate vetting aftercare arrangements. If this level of intervention and monitoring fails to resolve security concerns, it may become necessary for PSyA Pers Sy staff to consider (in consultation with UKSV) the denial, withdrawal or suspension of an individual’s security clearance. In such circumstances, ‘Presumptions of Unfitness’ (POU) to hold security clearance will be identified and the case will be considered by the Personnel Security Panel (PSP). Further information regarding adverse assessment procedures, the PSP and aftercare are provided in Section 4.

6307. Security Vetting - Personal Responsibility

Individuals have a responsibility for maintaining the appropriate level of security clearance and failure to fulfil this obligation may have an adverse effect on a subject’s role, responsibilities and military operations. The vetting system is not configured to handle frequent and numerous requests for timeline extensions or waivers. Consequently, all Naval Service personnel must ensure that they supply information requested by vetting authorities as honestly and expeditiously as possible, whether their role in the system is as a subject, a line manager/commander or as a referee. It should be noted that failure to comply with a request for further information constitutes a POU to hold security clearance and therefore could result in immediate suspension or withdrawal of an individual’s clearances. Additionally, line management and Security Risk Managers must be mindful of the security risk posed by vetting apathy and be prepared to support vetting endeavours, initiatives and where necessary formal security action. More detailed responsibilities can be found at Section 6.

---

6 JSP 440, Part 2, Leaflet 7, Paragraph 147 provides examples of concerns, but these are not exhaustive.
6308. **Principle 1 – Transparency**

a. The effectiveness of security vetting procedures and security clearances depends upon open and honest communication between all individuals and/or organisations involved in the vetting process (subject to the need to maintain vetting confidentiality).

b. All of the processes associated with security vetting in the Naval Service are open, auditable and transparent and will be enacted in accordance with principles and procedures laid down in this Directive and JSP 440. PSyA Pers Sy/SYVETT staff and Establishment/Unit Security Officers (E/USOs) can provide further information regarding security clearance and vetting procedures on request.

c. As explained further in Section 4, those who are subject to Aftercare and/or adverse assessment procedures which could ultimately lead to PSP referral, will be informed in writing and/or at interview how the security vetting system works and the potential ramifications of such action. The only exception will be cases in which it is deemed appropriate to withhold notification to the Subject for national security reasons; this decision rests with Navy PSyA and will be auditable.

d. Subjects may appeal against a decision to deny or withdraw security clearance. The security vetting system within the Naval Service allows for internal appeal through the Admiralty Board and thereafter, if the PSP decision has been upheld, access to an external appeals process via the Cabinet Office Security Vetting Appeals Panel (SVAP).

6309. **Principle 2 – Proportionality**

Security vetting procedures provide assurances regarding the trustworthiness, integrity and reliability of serving (or potential) Naval Service personnel and also assist security risk management reporting. However, any adverse assessment procedures, PSP referrals/recommendations or aftercare programmes will be applied proportionately to ensure they are legitimate and strictly to a level required to protect sensitive information and critical assets.

6310. **Principle 3 – Confidentiality**

a. The principle of vetting confidentiality will be applied in respect of all vetting casework. This principle dictates that vetting information is to be handled in a way that does not normally involve its disclosure outside the security community and that it is treated on a strict need-to-know basis. Occasions will, however, arise where effective security risk management necessitates the release of vetting information outside the appropriate security staffs. Such circumstances will be dealt with by PSyA Pers Sy staff on a case-by-case basis and the need-to-know principle will be strictly enforced in respect of any information that is released, thus maintaining an appropriate balance between confidentiality and security risk management/operational imperatives. Information to which vetting confidentiality applies will only be reported by PSyA Pers Sy staff to the Chain of Command where there is a clear concern that a serious criminal offence (such as espionage) has

---

7 This does not include information specific to individuals which remains vetting-in-confidence at all times.
8 HMG’s Security Policy Framework (Security Policy No. 3 - Personnel Security).
been committed or there has been compromise to Defence capabilities or operations. In all such cases, the final decision to divulge information lies with Navy PSyA, who must balance the conflicting interests of confidentiality against disclosure on a case-by-case basis. Again, such a decision must be wholly justifiable and auditable, demonstrating that the correct balance has been achieved and that the credibility of the vetting system has not been undermined.

b. Appropriate measures are always to be taken to protect the confidentiality of security vetting information in transit. Vetting files and correspondence are to receive appropriate protective markings and descriptors (minimum of 'OFFICIAL SENSITIVE PERSONAL', with handling Instruction 'Vetting-In-Confidence') and are to be transported or transmitted commensurately. Wherever possible, files and correspondence containing information subject to vetting confidentiality are to be passed by hand. If this is not possible, such material is to be despatched ‘Personal For’ named addressees only. Copies are not to be retained of material e.g. security questionnaires that have been submitted to the UKSV by anyone other than the individual; these can be accessed by those with a need to know via the National Security Vetting Solution (NSVS) case management system. Similarly casework papers relating to contentious SC cases, all DV cases, and/or Aftercare will be stored in NSVS or retained by the UKSV on NSVS registered security files (or combination of both). Access to these files will be controlled by the Head of UKSV and will be restricted to authorised UKSV personnel, PSyA Pers Sy staff and to members of the PSP where applicable.

6311. **Principle 4 – Timeliness**

Timely interaction and engagement is particularly critical where there is a risk that delays will impinge upon operational capability. Responsibility lies with Subjects, Line Management, ACOS(PCap) Career Managers and Sponsors of applications for national security vetting (predominantly the Navy PSyA-SYVETT team) to ensure that unnecessary delays do not occur. Timeliness is also paramount during the appeals process to ensure that vetting decisions are prompt and cases do not become protracted causing undue pressure on both the Subject and the Service.
SECTION 3 – SECURITY CLEARANCES AND WAIVERS

6312. Authority
Personnel holding appointments detailed in this Section are authorised to grant security clearances and waivers in accordance with the direction provided below.

6313. Clearances
SC and DV clearances for all Naval Service personnel, regardless of rank, are processed and issued by UKSV on the Service’s behalf. For contentious cases (e.g. where there might be Nationality or Residency related concerns, or checks reveal that the Subject has a criminal record), UKSV will refer the case to PSyA Pers Sy staff (predominantly Navy PSyA-Pers Sy SO1) for a decision on whether or not a clearance should be granted and if so what caveats are to be put in place.

6314. Waivers
JSP 440 provides specific criteria defining the eligibility of certain groups of individuals to hold a security clearance. Where operational circumstances require, waivers from the eligibility criteria may be granted as follows:

a. **Nationality Waivers.** For entry into the Naval Service a candidate must satisfy one of the nationality criteria\(^9\) laid out in Para 0730.

b. In exceptional circumstances, a waiver of the recruitment eligibility criteria may be granted by the Head Naval People Strategy (Head NPS) (on behalf of the Secretary of State for Defence) to candidates who are Commonwealth citizens or citizens of the Republic of Ireland at the time of their application but were born outside the country of which they are now a citizen or have formerly held a different nationality. The authority for issuing such nationality waivers on recruitment rests with NAVY PERS-CNPS DANDI SO1, however the residency requirements referred to below must also be met.

c. Some Branches/Specialisations are open to British citizens only as all personnel in these Branches/Specialisations are required to be cleared to DV and/or there is a significant likelihood that personnel will require access to STRAP material. Nevertheless, circumstances may arise where non-British nationals serving with the Naval Service will require a security clearance from which they would normally be precluded (e.g. a non-British national recruited on the basis that they met the residency criteria, but subsequently requiring a DV clearance). Waiving the nationality requirements in such circumstances will be considered on a case-by-case basis by Navy PSyA-Pers Sy SO1C to whom UKSV will refer all such cases.

d. **Residency Waivers.** The residency criteria and supporting documentation required for recruits to the Naval Service are detailed at Annex 63A. A residency waiver will also be sought by UKSV where the criteria is not met by serving personnel, e.g. where DV subsequently required. Authority to waive these residency requirements at SC and DV\(^10\) levels rests with Navy PSyA-Pers Sy SO1C.

---

\(^9\) Asylum Seekers are not eligible for entry into the Naval Service.

\(^10\) JSP 440 stipulates a minimum 10 years UK residency required for DV. Waiver will therefore only be considered in exceptional circumstances and is very unlikely to be considered/granted for less than 6 years UK residency.
e. Personnel under the age of 21 or with less than 12 months service. With the exception of recruits aged 18 to 20 years who are applying for entry to a Branch or Specialisation that is block-cleared to DV-level, personnel under the age of 21 or who have less than 12 months service will not normally be eligible to occupy a DV post. All requests for DV clearance for such personnel will be returned to the Sponsor by UKSV. However, if the application for DV clearance does not relate to block cleared specialisations, the request will be returned by UKSV for the Sponsor/Career Manager to justify the need to have the subject DV cleared. Once this justification has been received, UKSV will refer the case to PSyA Pers Sy staff to confirm the validity of the requirement. DV clearances awarded to personnel aged 18 to 20 years employed within a DV block-cleared Branch or Specialisation will be subject to a 3-year review.

6315. Initial Clearance on Entry into Service

There are occasions when an individual will be given an offer of service with an entry in to service date that does not provide sufficient time for the security clearance process to be completed. Where an individual is entering a Branch or Specialisation which requires SC clearance, providing that the individual has submitted a completed security questionnaire and signed Application Form for Service in Her Majesty’s Naval Service (AFCO Form 4), NC PSyA has delegated responsibility to NAVY CNR-AIB TSO (for Officer Entrants), NAVY CNR-OPS RA CA2 (for RN/RM Regular recruits), NAVY MR-HQ AO (for RNR recruits) and NAVY MR-HQ RMR SO2 (for RMR recruits) to temporarily waive the SC requirement to enable recruits to enter Phase One training. As most SC cases are processed within 30 days, this will normally allow sufficient time for individuals to obtain SC clearance before commencement of Phase Two training. Where issues have arisen during the SC process and a subject has not been issued security clearance prior to Phase Two training, the receiving Phase Two training establishment can either refuse to accept the Subject or take them at risk. This protocol is equally applicable to personnel entering a Branch or Trade requiring DV clearance.

6316. Reactivating, Transferring and Sharing Clearances

a. Some individuals joining the Naval Service, either as regular staff or as reservists, may have previously held a valid security clearance. All requests to reactivate a security clearance or to transfer it from another employer are to be submitted to UKSV by the ‘new’ employer within 12 months from the Service person’s last day in the Service. Note: Ex Regulars transferring to or re-entering the Reserves will NOT have any extant security clearance automatically transferred to their new employment.

b. It is also possible for a security clearance to be shared, e.g. a security cleared MOD civilian or defence contractor may also be a member of the reserve forces, in which case his/her existing security clearance can be shared and utilised for both requirements.

c. All requests to reactivate a security clearance, transfer it from or share it with another employer are to be submitted to UKSV on a Transfer Request Form available from the UKSV website.

11 In signing AFCO Form 4 the applicant is also certifying that they understand and accept the supporting guidance/conditions contained in the accompanying AFCO Form 5, i.e. that they have been permitted entry into service on the condition that if they fail to obtain SC clearance they will be discharged. This is also made clear in the “Potential Entrant – Offer of Entry” letter.
6317. Temporary Clearance Action

a. SC Extensions/Waivers. Where SC has recently expired, providing a re-application for security clearance has been initiated with NAVY PSYA – SYVETT DBS (MULTIUSER) it may be possible for a temporary extension of the old clearance to be arranged while the new application is being processed by UKSV. Each case will be assessed on merit. Failing this, providing a re-application for security clearance is underway and no security concerns have been identified, Navy PSyA-Pers Sy SO1C is authorised to issue a provisional/temporary SC waiver (Emergency Unsupervised Access (EUA) letter) to enable the applicant to remain in post.

b. DV Extensions/Waivers. UKSV will only consider a temporary extension of DV clearance if all of the following criteria are satisfied:

1. Previous DV has only recently expired.
2. An on-line application for a DV review has been completed by the individual and submitted to NSVS by Sponsor.

c. NAVY PSyA-Pers Sy SO1 C is the sole authority for the granting of Emergency Unsupervised Access (EUA) (access to TOP SECRET) to Navy Command personnel, and may grant to meet extreme operational requirements, predominantly in overseas theatres of operations, where:

1. An on-line application for DV has been completed and accepted by UKSV (NSVS).
2. Initial NSVS automated checks highlight no security concerns.
3. The receiving unit whose post requires the incumbent to hold DV clearance has completed a Security Risk Estimate (SRE)/Risk Balanced Case (RBC)\textsuperscript{12} and implemented appropriate mitigation to reduce security risk to an acceptable level.
4. The unit RBC has been reviewed and assured by PSyA staff.

It should be noted that where STRAP access is required EUA is an emergency process only. Only in the most exceptional circumstances to meet critical operational needs in theatre, may an individual holding EUA be considered for induction to STRAP. Permission must first be sought from the Corporate STRAPSO\textsuperscript{13} in all cases before induction to STRAP can take place.

\textsuperscript{12} See NC Security Risk Management Framework Document (v5.0).
\textsuperscript{13} Authoritative guidance for this procedure is contained in MOD STRAP LEAFLET NO 6, Para 7.
6318. Loan/Local Foreign Service (LFS) Appointments

a. **Summary.** All Service personnel must be volunteers for Loan/Local Foreign Service (LFS) and the footnote addresses current policy\^14, in addition to which reference should be made to Para 5911, Annex 59B, Annex 59B Appendix 1 and Annex 59C.

b. **Loan Foreign Service**

   (1) Notwithstanding the fact that each single Service manages the selection of prospective LFS personnel differently, policy dictates that where there are local or cultural sensibilities some LFS posts require married accompanied service whilst others may be designated for unaccompanied service only. In addition some volunteers may not be deemed suitable due to the necessary consideration of factors such as the nationality of the volunteer or a close family member.

   (2) Navy PSYA will determine if the LFS Assignment is not tenable at an early stage, however, this may not necessarily occur until award of security clearance review, e.g. information might not come to light until the end of a Security Vetting process. A Security Clearance may be awarded for the Volunteer but this does not necessarily mean that the Volunteer is suitable for the LFS Assignment.

c. **Assigning Principles**

   (1) The Assigning Principles for Loan Foreign Service for the RN/RM are contained in Chapter 59. It is essential that before a nomination is made and an Assignment Order approved Navy PSYA (SO3C Aftercare) NAVYPSYA-AFTERCARESO3C@mod.uk is consulted at the earliest opportunity to enable suitability from a security perspective to be ascertained. Details required are as follows:

   - Volunteer Name
   - Service Number
   - Proposed Assignment Location and JPAN
   - Proposed Dates

   (2) Early engagement with Navy PSYA will assist in highlighting significant factors which would greatly decrease a volunteer’s expectations for an Approved Assignment. Appendix 1 to Annex 59B outlines the reasons for non-recommendation for LFS. This list is not exhaustive. If a Volunteer is deemed unsuitable, the relevant Career Management organisation will be informed by Navy PSYA but not of the reasons why, however, if the Volunteer wishes to know the reason for non-recommendation they are to request this through NAVY PSYA-SO3 AFTERCARE. There is no appeals procedure for non-recommendation of LFS.

---

\(^{14}\) JSP 468 Pt 1 – Loan and Secondment of Service Personnel to Commonwealth and Foreign Forces.
(3) If Navy PSYA is content for the LFS assignment to proceed, the security clearances required for the appointment will also be assessed and advised (for the whole of the assignment). It should be noted, however, that United Kingdom Security Vetting (UKSV) staff do not travel and it can be costly for personnel to return to UK for Vetting Interviews, potentially causing an unnecessary burden to the new unit.

6319. **International Loan/Exchange Personnel – Security Clearance**

a. JSP 440 (Part 2, Leaflet 7, Paragraph 173) highlights the key considerations to be taken into account before the establishment of an Exchange, Loan or Embedded post at Defence Establishments, including HM Ships. In particular, appropriate consultation must be undertaken to determine the suitability of permitting foreign nationals in such positions, not only from the aspect of access to UK classified information but also the requirement to prevent access to particularly sensitive areas and to classified information provided to the UK MoD by international partners (i.e. Five Eyes) which must not be accessed by Exchange, Loan or Embedded personnel unless prior written approval of the partner/country owning the information is held.

b. The appointment of an Exchange, Loan or Embedded person should normally be formalised following the negotiation of a Memorandum of Understanding or similar Arrangement which, amongst other aspects, should detail the security clearance requirements for the appointment. Prior to assignment of the Exchange, Loan or Embedded personnel, the relevant Career Manager is to ensure that a Security Clearance certificate for the individual concerned is provided by the individual’s parent government department to the MoD host, which for Naval assignments should be forwarded to NAVY PSYA-CI SO2.
SECTION 4 – ADVERSE ASSESSMENT PROCEDURES, THE PERSONNEL SECURITY PANEL AND VETTING AFTERCARE

6320. Managing/Monitoring Potential Security Risk

Security vetting on its own does not provide a guarantee of an individual’s enduring trustworthiness, integrity and reliability as individual circumstances and behaviours may change over time. It is therefore fundamentally important that personnel security measures continue after a security clearance has been granted to allow new information to be collated, analysed and acted upon by the security vetting authorities. The main vehicles for maintaining such oversight between security vetting or, where appropriate, Aftercare reviews are:

a. Change of Personal Circumstances (CPC) forms.
b. Security Appraisal Forms (SAF).
c. Aftercare Incident Reports (AIR).
d. Financial Questionnaires.

6321. Security Advice and Formal Security Warnings

a. Where there are concerns that an individual’s behaviour or lifestyle may impact on their suitability to retain a security clearance, UKSV will notify Navy PSyA through PSyA Pers Sy staff. Following further investigation, if UKSV’s concerns are justified then PSyA Pers Sy staff will initiate appropriate action which in the majority of cases will result in individuals being notified of the concerns raised. Normally the Subject will already be aware, for example having previously been advised in writing by UKSV of the need for further reviews. However if the concerns were new, the Subject would be informed either by telephone call, letter or face-to-face interview depending upon the seriousness of the matters at issue; this ensures the Subject understands why their behaviour is causing concern and the potential ramifications. Where appropriate, the Subject may be informed that they will be subject to a further aftercare review after a set period of time in order to ensure that appropriate progress is being made. If the reviews indicate that the Subject is not heeding advice then review frequency may be increased or the matter escalated further by PSyA Pers Sy staff. Throughout this advisory process the principles of transparency, proportionality and vetting confidentiality will be rigorously applied.

b. In cases where advisory action fails to lead to an appropriate outcome, or in cases of significant concern, an individual may be issued with a Formal Security Warning (FSW). The issue of a FSW affords an individual a final chance to resolve the concerns of the security authorities in an effort to avoid the need for their case to be referred to the Personnel Security Panel (PSP).

---

15 To whom this Directive applies.
16 Time period to be set by NC PSyA Pers Sy staff and usually ranges between 12 and 24 months.
c. The administration and delivery of advisory calls, interviews and correspondence, including FSW, will vary according with the rank of the Subject as follows:

(1) For all ranks up to and including Lt Cdr – Navy PSyA-Pers Sy SO1C.

(2) For Cdrs – Navy PSyA.

(3) For Capts and above – ACOS(PCap) via the PSP (where appropriate).

d. Following the delivery of advisory interviews or FSWs, in providing a Subject with any written correspondence detailing why their behaviour is causing concern and the potential ramifications, PSyA Per Sy staff are to ensure that:

(1) The letter is to be signed and dated by the individual administering the advisory/FSW interview.

(2) The Subject is to also sign and date the letter to acknowledge receipt and that they understand its contents. The signature is normally to be obtained during the interview. If, for whatever reason, that is not possible, the Subject is to return to Navy PSyA-Pers Sy SO1C a signed and dated copy of the letter as soon as practicable after the interview.

e. In circumstances where the Subject is overseas and can only be notified of security advice or issued with a FSW in writing, the Subject is to return a signed and dated copy of the letter to Navy PSyA-Pers Sy SO1C as soon as possible to acknowledge both receipt and that its contents have been understood.

6322. Personnel Security Panel System

a. If a Subject fails to resolve security concerns identified to them by means of advisory letter/interview or FSW, or if circumstances arise where the severity is such that there is no requirement or insufficient time to follow the advisory interview/letter, or FSW routes, PSyA Pers Sy staff may refer the case to higher authority for a decision to be made on denial, withdrawal or suspension of security clearance or the instigation of further vetting aftercare action.

b. When denial, withdrawal or suspension of a security clearance is being considered, Navy PSyA-Pers Sy SO1C will refer the case to the Personnel Security Panel (PSP) and/or the appropriate authority, as detailed at Annex 63B and Annex 63C. The PSP comprises of 2 co-members: one will be a security specialist (normally Navy PSyA) and the second will be a personnel management expert from the NC Personnel/Career Management staff (normally DACOS CM). This combination of experience and specialisation will allow a balanced assessment to be made of the case, ensuring that the needs of the individual are considered appropriately alongside those of the Naval Service and national security.

17 JSP 440, Part 2, Leaflet 7, Paragraphs 96-110 outlines factors affecting suitability to hold a security clearance.
c. If a PSP member is unable to conduct their duties due to long-term absence, a suitable replacement is to be identified and co-opted to the Panel. A similar procedure should be adopted in circumstances where a Panel member is ineligible to consider a case because of prior knowledge of it or a personal knowledge of the Subject. In such instances, the replacement Panel member must be of at least OF5 level. All PSP members must declare at the earliest possible opportunity any grounds that will definitely or are likely to render them ineligible to assess a particular case to the PSP Secretariat (Navy PSyA-Pers Sy SO1C) or to their co-member.

d. In normal circumstances, UKSV will provide all of the information relevant to a case to the PSP Secretariat who will compile and submit a synopsis for the PSP’s consideration. UKSV may also have made their own recommendations on the action required, with which the PSP Secretariat may or may not agree. In the event that a recommendation is to be made to withdraw or deny a security clearance the PSP secretariat will, in consultation with UKSV staff, identify the reasons affecting suitability to hold security clearance and make a written recommendation to the PSP as to the length of time for which the Subject’s clearance should be withdrawn or denied. This recommendation is to be based on the circumstances of each vetting case under review and the Service need. If PSyA Pers Sy staff decide that further information is required in order for a balanced decision to be made on the case, they will task UKSV to carry out additional enquiries in accordance with their established procedures.

6323. Denial or Withdrawal

a. When considering a referred case, PSP members must judge whether or not the subject has demonstrated a Presumption of Unfitness (POU)\(^\text{18}\) to receive or continue to hold a security clearance. Where PSP members have serious doubts about one or more of the facts upon which a case for the denial or withdrawal of a security clearance is based, they should reject that case. PSP members are to conduct their initial review of the case independently of each other and are then to append their written adjudication to the case file and return it to the PSP Secretariat within 10 working days of receipt.

b. Where the PSP members agree on either accepting or rejecting the PSP Secretariat recommendation, then the PSP Secretariat will immediately initiate the necessary action (i.e. informing the subject of the withdrawal, suspension or retention of their security clearance) through the appropriate\(^\text{19}\) authority.

c. Where members of the PSP disagree in their adjudication of a case, the PSP Secretariat will arrange for the panel to convene at the earliest opportunity to discuss the matters at issue. In the event that the PSP subsequently reach agreement, the PSP Secretariat will take the necessary action as outlined above. In the event that the PSP continues to disagree, then the case for denial or withdrawal of a security clearance is to be rejected and (where appropriate) the subject informed accordingly.

---
\(^{18}\) A non-exhaustive list is at JSP 440, Part 2, Leaflet 7, paragraphs 96-110.
\(^{19}\) See Annex 63C Para 4.
6324. Operational Impact of Denial and Withdrawal

In considering all cases which come before them and in making a decision, PSP members must consider the need to balance the operational impact of denying or withdrawing a security clearance against the risk caused by permitting the individual initial or continued access to protectively marked material and assets. In cases where an individual who comes to the attention of a PSP has access to information provided by other Government Departments (e.g. GCHQ), PSP members must take this into account in their deliberations and apply an additional risk weighting when making their decision.

6325. Suspension

a. The PSP Secretariat is to consider and recommend to Navy PSyA suspension of an individual’s security clearance, without prejudice, when:

   (1) A recommendation to withdraw that Subject’s security clearance is being drafted for consideration by a PSP.

   (2) The Subject is being investigated for a serious criminal or disciplinary offence.

   (3) The Subject is the subject of administrative action which may lead to discharge.

   (4) The Subject is due to be court-martialled.

   (5) Subject is believed to be involved in drug abuse.

   (6) The Subject denies UKSV the opportunity to assess their suitability to hold a security clearance e.g. by repeatedly failing to provide adequate information about their circumstances.

   (7) Other serious circumstances exist which may be considered a POU but which require further enquiries or investigation.

b. The PSP Secretariat is to initiate a review of each suspension of security clearance at intervals not exceeding 3 months. The Subject will normally be advised by the PSP Secretariat through the appropriate authority formally in writing about a suspension of clearance, its justification and the decision authority. In rare cases, however, it might be deemed appropriate to withhold notification to the Subject for national security reasons. Such cases must be referred by the PSP Secretariat to Navy PSyA for a decision and will be subject to audit.
6326. **Subject Notification of PSP Decisions**

When the PSP decides to deny or withdraw an individual’s security clearance, a member of the Panel which made the decision is to notify the Subject in an interview and in writing of the PSP decision; the reasons on which it was based; the implications of that decision and the Appeals procedure open to the Subject. PSyA Pers Sy staff are to be present to support the PSP member conducting the interview. Written notification will normally be handed to the Subject at the withdrawal interview which the Subject is to sign, date and return to the PSP Secretariat within 10 working days to indicate that they understand and accept the content.

6327. **Case File Diaries**

If a case is referred to the PSP, the PSP Secretariat is to immediately initiate a Case File Diary and attach this to the Subject’s Vetting File as the top enclosure. The Diary should be used to record case progress and provide an auditable record that can be produced independently of the Case File. A template of a Case File Diary is at Annex 63D.

6328. **Vetting Aftercare**

a. In some cases where an individual’s professional or personal conduct causes concern in relation to their suitability to obtain or retain a security clearance, PSyA Pers Sy staff may not deem it proportionate to initiate procedures to withdraw, deny or suspend their clearance immediately. Rather, they may choose to place the individuals on the UKSV SC or DV Risk Register, as appropriate, and then manage the security risk posed by the individual. This risk management process is known as “Aftercare”. It may be applied in respect of concerns which arise during the initial vetting process, during vetting reviews, or as a result of the submission of an Aftercare Incident Report (AIR).

b. Individuals for whom aftercare procedures are deemed appropriate will normally undergo additional reviews of their suitability to hold their current level of security clearance. For example, an individual who has been granted SC clearance valid for 10 years, but who has financial problems, may have their financial situation reviewed 18 months after their clearance has been granted. After each review, UKSV will make an assessment of the risk that the individual poses to the Naval Service. UKSV will pass that assessment to PSyA Pers Sy staff for consideration. Such reviews will continue until concerns about the individual have dissipated or they have left the Service. Subjects will normally be advised formally in writing of aftercare measures which apply to them and the rationale. On occasion, however, PSyA Pers Sy staff may deem it appropriate to withhold notification to the Subject for national security or other reasons. The decision to withhold notification rests in all cases with NC PSyA and is subject to audit.

---

20 JSP 440, Part 6, Section 3, Chapter 1 refers.
c. Where aftercare does not meet the desired objectives, consideration will be given to initiating the PSP process as described above. However, the majority of individuals subject to aftercare action are removed from the risk management process in due course, having successfully addressed their issues. For some personnel, the Assignment Restriction process outlined below may also be an appropriate risk management mechanism, used to ensure that an individual is not assigned to a post that is incompatible with the risk that they may pose.

6329. Assignment Restrictions (AR)

An AR is a referral mechanism to ensure that PSyA Pers Sy staff are consulted before DACOS (CM)’s Career Managers assign individuals with security concerns or where security conflicts of interest could arise. An AR may be recommended by UKSV and/or implemented by PSyA Pers Sy staff by inserting a ‘flag’ in the individual’s ‘Assignment Restriction’ field on JPA. This flag is only visible to DACOS(CM) and PSyA Pers Sy staff and does not disclose the nature of the restriction. Navy PSyA-Pers Sy SO1C is responsible for setting AR review periods and authorising AR removal where applicable:

a. AR based on Nationality. For some assignments, it is imperative that the Subject and close members of their family are solely British nationals. UKSV and PSyA Pers Sy staff are authorised to place an AR on those individuals who do not meet these criteria. Similarly, UKSV will inform Navy PSyA-Pers Sy SO1C about any new recruit holding dual or non-UK nationality where an AR is deemed necessary. UKSV may therefore refer cases to Navy PSyA-Pers Sy SO1C for AR purposes where:

(1) Spouse or partner is not solely a UK national.

(2) Siblings and/or surviving parents are not solely UK nationals.

(3) Subject has distant surviving relatives who are not solely UK nationals.

(4) Spouse/partners’ surviving parents are not solely UK nationals.

b. AR based on Security Concerns. Where UKSV staff consider that a potential security issue exists and may warrant AR action, PSyA Pers Sy staff will be contacted and retain authority for imposing an AR. Examples where an AR would be raised include:

(1) Where police/unit investigative action is ongoing.

(2) Where the NSVS Vetting Medical Advisor is reviewing medical or psychological problems.

(3) Where significant financial issues are being reviewed by UKSV.

---

21 Previously known as a ‘STOP Notice’ or ‘Top Enclosure Card’.
22 The Job Eligibility Matrix at para 0759 of Ch 7 provides an indication of Branch Nationality restrictions, Chapter 7.
23 Where an AR is imposed for nationality reasons, a review date of 5 years is generally applied (e.g. to allow for naturalisation).
(4) Where there are suspected paramilitary, terrorist or subversive connections.

(5) Where family members reside permanently overseas.

(6) Where UKSV inquiries are pending to establish whether issues of security concern exist.

(7) Where Navy PSyA has cause for concern in a security context.

c. **AR Review.** Navy PSyA is to ensure that reviews of AR are carried out at appropriate intervals to ensure validity. When reviews of individual cases are due, Navy PSyA-Pers Sy SO1C is to liaise with UKSV and ascertain whether the reasons for AR imposition remain valid. Where the AR can be removed, PSyA Pers Sy staff are to ensure that an individual’s JPA record and NSVS vetting records are amended accordingly.
SECTION 5 – PROCEDURES FOR APPEALS AGAINST VETTING DECISIONS

6330. Internal Appeal

a. There is no right of appeal against a decision to deny initial SC (or DV) on recruitment, i.e. where the applicant not yet in-Service, recommended by UKSV and denied by PSyA-Pers Sy SO1C (Annex 63B refers). In–Service personnel denied security clearance (SC or DV), however, do have the right to appeal against the decision. In these circumstances the avenue of appeal is through the PSP in the first instance, and if still aggrieved the Admiralty Board.

b. For in-Service security clearances denied or withdrawn by the PSP the Subject will usually be advised of the reasons in person by Navy PSyA, with the decision being confirmed in writing by Navy PSyA Pers Sy Staff (PSP Secretariat) on behalf of the PSP. The decision letter will re-iterate the reasons upon which the decision is based and its implications, and provide an indication of the circumstances and whether or when a re-application for DV clearance would be entertained. (Denial of SC is likely to result in Administrative Discharge since, as a minimum, SC security clearance is mandatory for Naval Service). Should the Subject wish to appeal against denials/withdrawals decided by the PSP, the only internal avenue of appeal is through the Admiralty Board (AB) where two AB members24 will make a decision on the appeal.

c. For appeals to either PSP and/or the Admiralty Board, Subjects must register their intent to appeal with the PSP Secretariat in writing within 5 working days of receipt of formal notification of withdrawal/denial, and submit their appeal in writing no later than 28 days after the date of the decision letter. If the Subject considers that circumstances justify an extension to that deadline, they are to discuss the situation with the PSP Secretariat as soon as possible, but no later than 5 working days before the expiry of the 28 day deadline.

d. On receipt of an appeal, the PSP Secretariat will undertake any necessary preparatory work before forwarding it with relevant supporting documentary evidence to either the PSP for initial clearances) or CNLS Casework Section who will staff it for the AB. Thereafter, the PSP Secretariat/CNLS should ensure that the PSP/AB adjudicates and responds to the Subject as soon as is reasonably possible, eg. once the CNLS Casework Section has assembled all of the necessary paperwork to prove an auditable trail and as time and availability of AB members permits. During the appeals process the Subject will be provided with appropriate documentation, eg. copies (redacted as required) of all PSyA Pers Sy staff briefing material submitted to the AB, as a matter of course, ie. in accordance with best practice appeals procedure, but the disclosure will not include any legal advice or third party data. The Appellant then has 10 working days to respond to such disclosure unless an extension has been requested and agreed. When considering an appeal, the PSP/AB will follow the same rationale and procedures outlined in Para 6322 and Para 6323 for considering the denial or withdrawal of a security clearance.

24 Note: 2SL cannot sit on security vetting related AB panels as, in the event of subsequent appeal to the SVAP, the SVAP recommendation will be forwarded to 2SL for consideration.
Under current policy, the AB has the discretion to consider oral representations prior to making their decision, but the opportunity should not be assumed. If the original PSyA-Pers Sy SO1C/PSP decision is upheld on appeal, the PSP Secretariat/AB will inform the Subject in writing of that decision and the reasons for it.

6331. External Appeals – Procedures for Review by the Security Vetting Appeals Panel

a. When the internal appeal process has been exhausted, the Subject may appeal to the Cabinet Office Security Vetting Appeals Panel (SVAP). The SVAP is an independent body sponsored by the Intelligence and Security Secretariat (Security Policy Division) of the Cabinet Office. The SVAP exists to provide an independent avenue of appeal for MOD staff and contractors whose security clearance has been denied or withdrawn and to make recommendations to the appropriate TLB Principal Personnel Officer, in the case of the Naval Service 2SL/CNPT. An individual must register their intent to appeal to the SVAP, in writing, within 15 working days of the date of the letter notifying them that the AB has rejected their appeal. Full details regarding procedures for applying to the SVAP will be provided to the Subject by Navy PSyA-Pers Sy SO1C. In short, however, when appealing to the SVAP the Subject must submit an initial letter of appeal which contains relevant background information (including date of birth, Department (i.e. RN), unit, length of service etc) and specify the grounds for the appeal. The SVAP Secretariat may obtain further details of the case, should they be required, through Navy PSyA-Pers Sy SO1C as the designated RN POC.

b. Following receipt of an initial letter of appeal, the SVAP Secretariat will provide additional guidance to the Subject on how they should proceed with their appeal. In brief, the SVAP Secretariat will decide whether the case falls within the remit of the Panel and will then advise the Subject accordingly. Where appropriate, a provisional hearing date will be set and the Subject will be asked to provide a written statement of their case within a deadline set by the SVAP Secretariat. The Naval Service will be invited to respond to the Subject’s submission and the latter will be allowed to see the Naval Service’s response and to offer further comment should they so wish. Once the SVAP has gathered all required evidence, the Subject and any nominated third party will be invited to attend an informal confidential hearing during which the SVAP will consider the case. Two Naval Service representatives will also attend, normally Navy PSyA and Navy PSyA-Pers Sy SO1C.

c. When the Appeal has been heard, the SVAP will inform the Subject and 2SL/CNPT of its recommendations by letter. The decision as to whether or not to accept a SVAP recommendation to grant or restore a security clearance rests solely with 2SL/CNPT. 2SL/CNPT will inform the Subject and the SVAP of this decision in writing within 15 working days of receiving the SVAP recommendations. This decision cannot be appealed further.
6332. Welfare of the Vetting Subject

a. Assistance to the Subject. As part of the Appeal process, the Subject will be given the opportunity to nominate a third party to assist them throughout the course of the appeal process. The third party is to be of equivalent rank or above (normally Line Management) and may attend any interviews with the Subject, but in the capacity of observer only. Those assisting the Subject must be Ministry of Defence employees, i.e. either Civil Servants or members of the Armed Forces and must not have any direct interest in the outcome of the appeal or any associated appeal. They may be Trade Union representatives, provided that they are also MoD employees. The appeals process is an internal administrative one and not a court. Consequently those assisting the Subject are not acting in the capacity of a legal representative or as the Subject's advocate; they may not directly address appeal panels or question witnesses and will not be recognised as representatives of the Subject by either AB or SVAP appeal panels or the Secretariats that support them. This does not preclude the Subject from seeking independent legal advice in the preparation of their appeal should they wish to do so, but it will be at their own expense and they should appreciate that such legal representatives will not be permitted to be present at any oral hearing.

b. SCART. On initiation of the appeal process Navy PSyA is to inform the RN Sensitive Case Advice Reaction Team (SCART) that there is an ongoing personnel security issue involving the subject which may result in associated welfare issues.
SECTION 6 – SECURITY VETTING PROCEDURES – INDIVIDUAL AND CHAIN OF COMMAND RESPONSIBILITIES

6333. Individual and Chain of Command Responsibilities

Naval Service personnel must be aware of the following responsibilities to ensure that security vetting procedures are an effective enabler to maritime operations:

a. All personnel are to:

   (1) Monitor the status of their own security clearances on JPA\textsuperscript{25} to ensure they remain extant, advising NAVYPSYA-SYVETT DBS MAILBOX MULTIUSER in good time when due for renewal/review.

   (2) Respond positively and promptly to any request from UKSV or PSyA Pers Sy staff for supplementary information in support of security vetting e.g. completion of Financial Questionnaires.

   (3) Advise UKSV of any significant changes in personal circumstances (such as marriage, divorce, cohabitation with a partner, diagnosis of a long term medical condition, bankruptcy or windfalls) on a Change of Personnel Circumstances Questionnaire (available on UKSV website).

b. It is an annual mandatory requirement for all DV holders to complete Pt A of a Security Appraisal Form (SAF) and submit this to their Line Managers/Reporting Officer for endorsement within 15 working days of the DV holder’s Common Reporting Date. For further information, contact Unit Security Staff or PSyA Pers Sy staff.

c. Line managers/reporting officers are to complete and submit Pt B of SAFs received in respect of individuals who are (or have been) subordinate to them within 15 working days of receipt.

d. All personnel (either as subjects or referees) are to make themselves available as quickly as possible for interview by UKSV vetting officers if requested.

e. Commanders at all levels are to release personnel from duty, as required, to attend interviews with UKSV Vetting Officers and/or PSyA Pers Sy staff.

f. Where security concerns arise, Commanders at all levels are to liaise with their Unit Security Staff to instigate Aftercare Incident Report (AIR) action where applicable. Where Unit Security Staff are not available, line management are to instigate AIR action in accordance with the directions in JSP 440\textsuperscript{26}.

g. PSyA Pers Sy staff are to ensure that Personnel Security Casework e-referred to them by UKSV is dealt with in a timely fashion.

\textsuperscript{25} At least annually, as part of the mandatory checks of personal data.
\textsuperscript{26} JSP 440, Part 2, Leaflet 7, Paragraph 159-163.
ANNEX 63A

RESIDENCY REQUIREMENTS FOR NAVAL SERVICE RECRUITS

1. For security clearance to be issued, all candidates should have resided continuously in the UK (including Northern Ireland) or Eire immediately before their application. The specific length of this residency requirement is determined by the security clearance required for the Branch or specialisation for which the candidate is applying, as follows:
   a. SC clearance - 5 years.
   b. DV clearance - 10 years.

2. Failure to meet the minimum residency requirements undermines the ability of United Kingdom Security Vetting (UKSV) to conduct comprehensive security checks and would present an increased security risk to the Naval Service. It is, however, recognised that in order to meet specific recruiting targets, it may in exceptional circumstances, be viable to accept an increased level of risk provided the risk is outweighed by a specific need and can be appropriately managed.

3. In line with direction in JSP 440 (Part 2 -Leaflet 7), Service Lead Commands are authorised to risk manage their residency requirements for initial entry recruits. As such, Navy PSyA has given UKSV dispensation to automatically process applications from Sole or Dual UK/ROI Nationality candidates as follows:
   a. For SC - where Sole/Dual UK/ROI applicants have either:
      (1) Lived in the UK or Eire continuously for at least the last three years immediately prior to application or;
      (2) Lived in the UK or Eire for a total of four years out of the last five (which might, for example, allow candidates that have travelled/worked/studied abroad for no more than twelve months in the last five years to qualify for minimum residency).
   b. For DV - where applicants have 9 years UK/Eire residence within the last 10 years (Periods up to 56 days may be disregarded):

   Note. Candidates from Commonwealth countries MUST have resided in the UK for a minimum of 5 years prior to application. No exceptions are allowed to this rule.

4. Individuals who fail to meet the above abated residency requirements but are nevertheless viewed by recruiting staff as good candidates, are to be referred to Navy PSyA-Pers Sy SO1C for residency waiver consideration; however candidates must still meet the stipulated nationality requirements.

---

1 JSP 440, Part 6, Section 2, Chap 7.
2 In all cases periods of up to 28 days spent out of the UK/Eire, e.g. to allow for foreign holidays, may be disregarded.
3 With supporting documentation as specified in Appendices 2 & 3 to Annex 63A.
5. It is the responsibility of Naval Regional Commander’s staff to verify that candidates meet these minimum residency requirements set by the Naval Service. This includes checking individual passports to verify movements and confirm residency dates.

6. A residency waiver effectively underwrites security clearance until the minimum UK residency requirement will be met and UKSV can undertake a full security check. The supporting documentation/evidence specified in the Appendices to this Annex is therefore required to enable Navy PSyA-Pers Sy SO1C to assess the security risk that would be borne by Navy PSyA if a residency waiver is granted.

7. A Candidate Vetting flow chart is detailed at Appendix 1 to this Annex, which recruiting staff may use as a guide. Specific guidance relating to eligible candidates who have undertaken full-time education or worked overseas is contained at Appendix 2 to this Annex; and guidance in relation to those who have taken a gap in UK/Eire full time study to travel or study abroad is contained at Appendix 3 to this Annex.

8. The advice contained within this Annex is not exhaustive and it is recognised that candidates will present circumstances that have not been covered here. In such cases, recruiting staff should consult Navy PSyA-Pers Sy SO1C for further guidance.
APPENDIX 1 TO ANNEX 63A

CANDIDATE VETTING FLOWCHART

START - Does candidate meet Branch/Specialisation nationality requirements?

Yes

Does candidate meet Naval Service residency requirements?

Yes

Proceed with application

No

Is the candidate currently in full-time education/employment overseas, or have they been in the last year?

Yes

Advise the candidate to apply after 3 yrs (SC) or 9 yrs (DV)

No

No

Is the candidate applying for a Shortage Category Branch/Specialisation?

Yes

Refer the case to Navy PSyA Per Sy SO1C

No

Has the candidate been travelling or backpacking abroad during or post FT education?

No

No

Refer the case to Navy PSyA Per Sy SO1C

Yes

No

Yes

Refer the case to Navy PSyA Per Sy SO1C

Note - Commonwealth candidates must meet the 5 yr minimum residency criteria

Consider offering other Branch/Specialisation (if appropriate)

No
APPENDIX 2 TO ANNEX 63A

CRITERIA FOR CONSIDERING APPLICATIONS FOR RESIDENCY WAIVERS FOR UK/EIRE CITIZENS/EXPATRIATES WHO HAVE RESIDED AND/OR UNDERTAKEN FULL-TIME EDUCATION OR EMPLOYMENT OVERSEAS

1. Sole/Dual UK/ROI nationality applicants/candidates who do not meet the minimum Naval Service security clearance residency requirements of 3 years for SC or 9 years (DV) because they have been living, educated or working overseas can be considered for a security clearance residency waiver providing he/she can supply the following documentary evidence to support their application:

   a. A written reference from the head teacher of their school or employer, stating:

      (1) The candidate’s period of enrolment at the school or period of employment.

      (2) Evidence of educational qualifications attained (where appropriate).

      (3) An assessment of the subject’s trustworthiness, integrity, reliability and conduct.

      Note. The candidate would usually be expected to have attended a school in the European Economic Area or a Commonwealth country, unless they are/were residing overseas as a consequence of one or more of their parents being employed directly by HMG or a UK Government Contractor.

   b. A police certificate from the host nation police service outlining what, if any, convictions the candidate has obtained.

   c. A copy of the photograph page of their passport.

   d. A Copy of their Birth Certificate.

   e. AFCO Form 101.

   f. Details of all residential addresses whilst overseas and all foreign travel in the last 3 years, accompanied by photocopies of any visa or entry/exit stamps in their passport.

   g. Suitable character references e.g. from recognised professionals: Teachers, Police, Civil Servants etc.

2. If any of the above documents are not originally produced in English, the candidate is responsible for ensuring that an accurate translation is submitted along with a copy of the original document.

3. Security clearance residency waivers are considered on a case-by-case basis. Meeting the criteria detailed above does not guarantee that PSyA Pers Sy staff will issue a residency waiver.
APPENDIX 3 TO ANNEX 63A

CRITERIA FOR CONSIDERING APPLICATIONS FOR RESIDENCY WAIVERS FOR UK/EIRE CANDIDATES WHO HAVE TRAVELLED ABROAD EITHER DURING OR AFTER FULL TIME EDUCATION

1. The criteria listed below is to be used for Sole/Dual UK/ROI nationality candidates who do not meet the minimum Naval Service residency requirements of 3 years continuous (or 4 out of last 5 years) UK residency prior to application for SC, or 9 years for DV, due to travelling abroad either during or after full time education e.g. taken a ‘Gap Year’.

   **Note.** Periods of less than 28 days per year can be discounted.

In order to be considered for a security clearance Residency Waiver, the candidate must supply the following documentation:

a. A detailed itinerary of where they travelled/studied outside the UK/Eire during this period.

b. Details of where they resided, including names and addresses of any private residences used.

c. Name, address and telephone numbers of any travelling/studying companions.

d. For those candidates who also worked overseas during their ‘gap year’, full details of the employer, the period of employment and the nature of job.

e. A copy of their Birth Certificate.

f. Where a candidate has lived overseas in a country for 6 months or longer, a police certificate from the host nation police service outlining what, if any convictions the candidate has obtained. If not produced in English, the candidate is to submit the original certificate accompanied by a translation, certified by a professional translator.

g. A copy of the candidate’s passport page showing any visa or entry/exit stamps.

h. A completed AFCO 101 form.

2. Security clearance residency waivers are considered on a case-by-case basis. Meeting the criteria detailed above does not guarantee that PSyA Pers Sy staff will issue a Residency Waiver.

Appendix 1 Royal Naval Reserve Relative Rates Table
CHAPTER 65

PROMOTION POLICY – GENERAL

6501. Purpose

The aim of both promotion and advancement is to keep the Royal Navy and Royal Marines manned at the right levels to meet its commitments within the overall numbers authorised by Parliament. Promotion is not a right. Promotion on merit is a system employed throughout the Naval Service to sustain a robust and effective regime for the command, leadership, discipline, inspiration, motivation, management and administration of a diverse structure of officers, warrant officers, ratings and other ranks, augmented by MOD civil servants and contractors. It also supports the requirement to maintain a hierarchy of appropriate status and authority to exercise responsibility for war-fighting and decision-making, or procurement, development, custody or operation of a wide range of complex equipment, materiel and procedures. The definition of ‘Merit’ is given at Para 6508.

6502. Substantive Promotion

All promotion is based on requirement and opportunities will therefore vary between branches, specialisations and sub-specialisations. Promotion beyond Lieutenant RN or Captain RM in the officer corps and beyond Able Rate/Marine for ratings and other ranks respectively is predominantly by selection. Any promotion prior to this, whilst still based on merit, is non-competitive, being subject to seniority and/or time in service, satisfactory performance and completion of mandatory training and other requirements. Once selected, some personnel may be assigned to relevant professional and/or command/leadership courses, with promotion taking place on a Common Promotion Date (CPD), usually 12 months following selection subject to being qualified in all other respects.

6503. Non-substantive Promotion

Both selective and non-selective promotion is normally to the next higher substantive rank but, to provide an element of flexibility, non-substantive promotion to the Acting Higher Rate/Rank (RN) or Local/Local Acting Rank (RM) may be authorised exceptionally to enable suitably qualified individuals to fill positions on a temporary basis that are designated for a higher rank. See Para 6603 (Officers) and Para 6915 (Ratings and Other Ranks) for more details.

6504. Promotion from Non-Commissioned to Commissioned Rank

Promotion from warrant officer or rating/other rank to commissioned rank is via the RN Upper and Senior Upper Yardman (SUY) schemes or RM Corps and Senior Corps Commission (SCC) schemes. Suitable candidates must be recommended by their Commanding Officers via the appraisals process (Commissioning Report), selected by the Admiralty Interview Board (AIB) and, for SUY/SCC candidates, extracted by the relevant branch/specialisation based upon the requirements of the Service (see Chapter 50).

6505. Appraisal

Promotion, together with commission transfer, career extension and command selection, and including promotion to commissioned rank, is underpinned by appraisal using the appropriate JPA Appraisal proforma. The importance of timely, accurate and honest appraisal reports for maintaining a fair and effective promotion system cannot be over-emphasised. Further details are contained in JSP 757 and at Chapter 57.
6506. Authority for Promotions

Authority for promotion in the Naval Service is vested in the Admiralty Board, on behalf of HM The Queen (for Officers) and the Defence Council (for Warrant Officers, Ratings and Other Ranks). As its Principal Personnel Officer, the Second Sea Lord delegates Admiralty Board authority for promotion to one star rank and below to the Assistant Chief of Naval Staff (Personnel)/Naval Secretary (ACNS(Pers)/NavSec); further delegated through ACOS(PCap) for policy development to the Deputy Assistant Chief of Staff (Branch Management) (DACOS(BM)) and implementation to the Deputy Assistant Chief of Staff (Promotions) (DACOS(Prom)). Promotion Boards are managed by DACOS(Prom) via the Officers Promotion Section or the Ratings and Other Ranks Promotion Section as appropriate.

6507. Diversity and Inclusion

The requirements of Diversity and Inclusion at Chapter 30 apply fully to the conduct of Promotion Boards and all others involved in the promotion process (including Reporting Officers). All candidates must be given the equality of opportunity to be selected and promoted against criteria set or considered by the Promotion Boards as prescribed by the regulations contained in relevant chapters of this publication. Deliberations by boards must be on the basis of merit alone and criteria to score against merit are to be used. Although the Armed Forces are exempt from age and disability discrimination legislation, the Naval Service has an aspiration to comply with the spirit of the law in this respect.

6508. Definition of Merit

Merit is defined as suitability, capacity and having sufficient experience to be employed in at least the next higher rank alongside a proven track record of caring for and developing subordinates. Factors such as consistency of success, especially in the face of particular challenge; leadership and management acumen; judgement and the ability to make things happen, especially through innovation, effective management of risk and exploitation of opportunity; ability to think on a level above peer group; potential flair for command, future employability, in specialist and/or broader appointments, all constitute merit.

6509. Detailed Regulations

All Naval Service personnel are expected to have knowledge of the promotion and advancement rules. Decisions in individual cases submitted to ACOS PCap will be based on this expectation. Although the general principles for promotion are common, career structures for officers, ratings and other ranks have evolved separately. As such, specific regulations for the promotion and advancement of Officers, Ratings and Other Ranks are contained in the following Chapters:

a. Chapter 66 RN and RM Officers.
b. Chapter 67-90 Ratings.
c. Chapter 91 RM Other Ranks.
This table refers to relative rates for discipline and privilege purposes and in no way reflects upon rates of pay.

<table>

CHAPTER 66
OFFICER PROMOTIONS

Reference:
Promotions DIN released annually in March/April.

SECTION 1 – INTRODUCTION

6601. The Promotion System
The officer promotion system is controlled centrally, relies on objective reporting over an individual’s career to allow consideration for progressive promotion, and has many safeguards. A promotion system is necessary to ensure that:

a. Personnel of the appropriate quality are assigned to positions of responsibility.

b. High-quality recruits to the Naval Service are attracted and retained.

c. A fair chance of promotion in the Service is given, and is seen as being given, to those concerned.

6602. Promotion Types
In the initial stages of an officer’s career, automatic, non-selective, substantive promotion is used to ensure proper remuneration tied to rank and length of service or seniority in the rank. Selective substantive promotion is used thereafter as responsibilities increase, based on open zones which enable outstanding officers to achieve very rapid progress but which also allow for experienced officers to be promoted later at each rank. The selection process is formal, objective and thorough. Timed substantive promotion to Lieutenant Commander is granted to Surgeon Lieutenants and Surgeon Lieutenants (D) following the introduction of Common Terms of Service (CTOS) in Apr 03.

6603. Non-substantive Promotion
This is available to Career Managers as a short-term palliative to meet a Service requirement that cannot be satisfied by substantive means. There are two types of non-substantive promotion, as briefly outlined below.

a. Acting Higher Rank (AHR). This may be used to fulfil short-term Service requirements which cannot be met by those who already hold the substantive rank or for those who have been selected for it competitively and are required to serve in the AHR until the effective date of substantive promotion (see Para 6620). Officers awarded the AHR receive the pay of the higher rank but do not accrue seniority in the higher rank. Personnel must be in date for the Royal Navy Fitness Test (RNFT) to be awarded the AHR.

b. Local Rank. Granted occasionally for representational or traditional purposes. Local rank may be higher or lower than substantive rank, and pay remains at the substantive rank level.
6604. **Substantive Promotion**

There are three types of substantive promotion:

a. **Selective.** Selective promotions are competitive within each branch at each rank, across defined zones of seniority (see Annex 66B).

b. **Non-selective.** Non-selective promotions are automatic, based on seniority in the rank and/or time in service, and satisfactory performance. (See Section 3, starting at Para 6628)

c. **Exceptional.** A mechanism exists for out-of-zone promotions to Lieutenant Commander, Commander, Captain and Commodore and equivalents (see Para 6607).
SECTION 2 - SELECTIVE PROMOTION

6605. Introduction

The common principles covering the selection process for all promotions are detailed below. Specific instructions for selective promotion to Flag, General, 1 Star and Captain/Colonel rank, the selection of Chaplain of the Fleet and Principal Chaplains, Full Term Commission (Aviator) officers, and Medical, Dental, Medical Services and QARNNS officers and Reserves officers can be found at Annex 66A.

6606. Zones for Promotion

a. Details on zones for selective promotion up to and including substantive 2 Star rank can be found at Annex 66B.

b. In-zone officers not recommended for promotion, temporarily physically or medically unfit, or awaiting Court Martial or other disciplinary proceedings will be considered by Selection Boards but, if selected, their promotion may be deferred or cancelled depending upon the outcome of the prevailing circumstances. JPA recorded RNFT status will not affect a RN Officer’s ability to be selected for promotion; see Para 6627.

c. RM Officers are an exception to this rule. To be considered by Selection Boards, RM Officers are required to hold a valid RM Basic Fitness Test (BFT) pass (recorded on JPA) or hold an approved permanent waiver or a temporary operational/medical extension or waiver at the Common Reporting Date.

6607. Selective Promotion Out of Zone

Promotion Selection Boards will consider, very exceptionally, any Captain/Colonel, Commander/Lieutenant Colonel, Lieutenant Commander/Major or Lieutenant/Captain who, although above or below the zone, is recommended by the Commanding Officer as being especially worthy of out of zone promotion. A ‘Special’ OJAR is to be raised for officers so recommended and supported by the appropriate intermediate authorities. The completed OJAR is to be forwarded to the Assistant Chief of Naval Staff (Personnel)/Naval Secretary (ACNS(Pers)/NavSec) who will instruct the Deputy Assistant Chief of Staff Promotions (DACOS (Prom)) accordingly. If the application is successful, the officer will be placed before the next relevant annual Promotion Board and will compete against the other candidates presented to the Board. Should the officer be selected, then the promotion will be confirmed at the Common Promotion Date (CPD) provided the officer meets the required criteria at Para 6622. Navy Board Members who identify individuals with exceptional talent who are in zone for promotion may advise the ACNS(Pers)/NavSec who will instruct the DACOS (Prom) to pass these individuals directly to the Final Selection Board.

6608. Notification at Zone Exit

a. Following their final in-zone Selection Board, all officers will receive a personal letter stating whether or not they have been selected for promotion. This letter will be despatched from Naval Secretary's Department in advance of the announcement date.
b. Letters will normally be sent to officers’ present assignments via their CO. Officers who wish letters to be sent to another address (e.g., home address) are to inform their Career Manager at least 3 weeks prior to the formal announcement.

c. Officers on commissions other than a Full Commission Stage/Full Term Commission/Full Career Commission/Full Commission or RNR/RMR officers who are not selected for promotion at their last opportunity will, if subsequently transferred to a longer commission, become eligible again for consideration providing they fall within the appropriate new promotion zone. This does not apply to those on extensions of service on their current commissions.

6609. Promotion Requirement

a. Promotion Boards are required to select suitable officers for promotion primarily on the basis of merit (see Para 6508) subject to the defined numerical, branch and specialisation, and, for promotion to OF5 and above, Career Fields (CFs) set annually for each rank and branch. Competition within each branch is across the whole of the zone and not confined to peer-groups of similar seniority and background. Profiles of seniority on promotion will vary according to rank and zone length, but in general there will be small numbers at the extremes, and a gradual rise and fall around the mid-zone.

b. Smoothed Promotion to Requirement (SPR) was introduced on 1 Apr 99 to cater for the officers’ 3TC structure and to provide a means of reacting swiftly to the predominantly short-notice changes to the manpower requirement for each rank. Promotion targets, in the form of Maximum Authorised Numbers (MAUN), are based on the Planning Liability (see Para 0304), and fluctuations are smoothed over a rolling 3-5 year period. The aim is to give some predictability and to maintain as steady a flow as possible into the higher ranks.

c. Board members are informed of the MAUN by branch, specialisation and, where required, Career Field. However, Promotion Boards are not obliged to select the number authorised if there are insufficient candidates of the required quality. Where there are additional mandated specialisation, structural and/or reserved rights requirements, selections are required to be made on merit from the list of A-graded candidates (see Para 6610) only. If the quality is such that the board is unable to satisfy the definitive requirement, the Senior Board Adviser (see Para 6616 sub para c) will be consulted before a decision is taken.

6610. Promotion Categories

The following definitions are used during the promotions process:

a. A. Officers who, in comparison with others of their branch and rank:

   Either: are ready in all respects for substantive promotion and employment in their Branch, Career Field or broader employment this time;

   Or: are considered worthy of promotion and employment in their stated deep specialist field only, should the opportunity arise.
b. **B.** Officers who, in comparison with others of their branch and rank, do not merit promotion this time but who stand every possibility, on current reporting, of being assessed A at the next board.

c. **B.** Officers who, in comparison with others of their branch and rank, do not merit promotion this time but who are judged to have the potential to become serious contenders for promotion in the next two years.

d. **C.** Officers who are not currently showing the potential for promotion in the next two years.

e. **C.** Officers who are nearing retirement for whom, for the period of their remaining service, no opportunities for employment in the higher rank currently exist, but who would otherwise have been graded A–B+. This category will normally only be used by the FSB.

f. Grading for the Flag, 1 Star and OF5 boards is defined in Annex 66A.

**6611. Promotion Guidelines**

a. Officers are considered for promotion on the basis of their whole record and Selection Boards are not bound to accept the recommendation of a current reporting officer. If any candidate receives less than a YES recommendation for promotion, the board is free to select that officer if they feel that other considerations outweigh the recommendation. If the recommendation is IK the board will base its judgement on earlier reports; in this way no officer is unfairly treated because of discontinuity of reporting. It also avoids unlawful discrimination against females who have taken maternity leave. However, under no circumstances will the board upgrade an officer to A who clearly does not merit promotion.

b. **Reports on Officers in NATO/EU Staff and Exchange Appointments, and on Secondment.** Officers assigned to NATO/EU staffs, exchange assignments and those on secondment may well only be reported on by Foreign and Commonwealth officers or private sector civilians, many of whom are not familiar with the Naval reporting system. Experience of non-UK service and non-MOD civilian reporting officers is that they do not always focus on the attributes of specific interest to selection boards, nor do they always follow the guidance on reporting provided. Furthermore, the fact that some of these assignments are high profile, politically sensitive and demanding may not be represented adequately by reporting officers. As the UK’s foreign and security posture shifts from Campaign to Contingent operations, UK international Defence Engagement has never been more important. This globally strategic influence is increasingly achieved by UK Defence personnel serving abroad, especially in NATO, European Union and Loan Foreign Service appointments in general. Naval Service personnel who undertake these assignments should be given particular credit for service abroad and this should count towards merit for promotion.
6612. Convictions for Offences and Censures

a. **Discrimination.** The fact that officers have been convicted of offences or awarded censures is recorded in promotion files until they are ‘spent’ in accordance with the Rehabilitation of Offenders Act 1974 (ROA74) (as amended by the Legal Aid, Sentencing and Punishment of Offenders Act 2012) and MOD policy. Board members are required not to discriminate unlawfully against candidates, in accordance with MOD Diversity and Inclusion policy (see Chapter 30).

b. **Offences.** Sentences passed by Service and civilian courts are subject to statutory and MOD-directed rehabilitation periods. The general purpose of the ROA74 (as amended) and MOD policy is to enable all but the most serious criminal offender to live down their criminal record after a specified time. Convictions by civilian courts, courts martial and, in some cases summary trials, are recorded in promotion files, as are the dates on which they will be spent. Once spent, references to offences are expunged from promotion files by the Officer Promotions Section.

c. **Censures.** Censures may be awarded either as a Naval Penalty following conviction by a civilian court or by Higher Authorities in circumstances which do not warrant criminal or disciplinary proceedings or sanctions. They are recorded in promotion files together with the dates on which they will be spent. Censures awarded as a Naval Penalty will be spent after the statutory or MOD-directed rehabilitation period has elapsed. All other censures will be spent after five years or earlier if so directed by the Higher Authority awarding the censure. Once spent, references to censures are expunged from promotion and archived files by the Promotions Section.

d. **Diversity and Inclusion.** Board members are also required to give due consideration and weight to comments within appraisal reports that indicate any failings in an officer’s attitude towards the principles and practices of diversity and inclusion. Any indication that performance has fallen short in this area will not be regarded lightly (see Chapter 30).

6613. Promotion Documentation

All Selection Boards will be provided with the following documentation on all candidates who will be within the promotion zone on the appropriate effective dates of promotion, along with any officers who have been recommended for over- or under-zone promotion:

a. **Official Record.** The Official Record, often referred to as the promotion file, is a folder containing all ARs and other reports and admissible documentation on an officer written during a specified period for consideration by promotion boards.

b. **Curriculum Vitae (CV).** The CV, a standard print taken from JPA and legacy NMMIS data immediately prior to the Selection Board, is included in the Official Record. In addition to key personal data, it contains the officer’s rank and assigning history, academic and professional qualifications including staff training completed.
c. **Profile Sheet.** A Profile Sheet accompanies every Official Record and provides a historical record of the Annual Reports raised on the officer through their career, and catalogues the assessments awarded and recommendations for promotion given on each, and the vote awarded by the last Selection Board.

6614. Promotion Selection Process

a. For promotions to Commander/Lieutenant Colonel and above, there are normally two formal Promotion Selection Boards for each rank and branch:

(1) **Preliminary Selection Board (PSB).** PSB members read, independently, the promotion files (see Para 6617) of all candidates and vote independently on each candidate’s potential for promotion (see Para 6618). In session and following discussion, each officer is awarded an assessment based upon the corporate view of the PSB. The list of officers graded A is forwarded to the FSB in seniority order for promotion to Commander/Lieutenant Colonel and merit order for promotion to Captain/Colonel and above; the remainder, voted B+, B and C, are listed for the record in seniority order. For promotion to OF5 and above, the PSB will select promotable (A graded) candidates by branch.

(2) **Final Selection Board (FSB).** Conducting its business solely in session for promotion to OF4 and pre-reading for OF5 and above, the FSB reads the promotion files of all candidates graded A by the PSB and votes on each candidate’s potential for promotion. Having generated an initial Order of Merit (OOM) and considered the detailed promotion requirement (see Para 6609), the FSB selects the required number of officers of the desired quality for promotion.

b. **APB.** For promotions to OF3, a single Annual Promotion Board (APB) only is convened for each branch whose tasks are an amalgam of those of the PSB and FSB.

c. **Pre-Board Review (PBR).** For Warfare Branch and Engineering Branch promotions to Lieutenant Commander, Commander and Captain, and Royal Marine promotions to Lieutenant Colonel, a PBR of all eligible candidates is carried out. The purpose of the PBR is to reduce the pre-reading load on the APBs and the PSBs, and the baseline for the PBR is the final outcome of the previous year’s APB and FSB as appropriate, at which time all candidates were awarded an A, B+, B or C grading.

d. The PBRs are carried out by the Branch Secretaries (in the ACOS(PCap) Promotions Section), whose task is to take the previous year’s APB or FSB final statement, review the files of all in-zone officers and recommend (List 1) the required number of candidates, approximately five times the promotion target, for consideration by the APB or PSB. Those candidates appearing before the board for the last time, who do not make List 1, will be separately identified and read by the PSB.
e. Those candidates not recommended for consideration by the PSB will appear as List 2 and are likely to be those for whom there are insufficient reports available to assess the true potential of the candidate, those not yet recommended for promotion and those not yet sufficiently professionally qualified or broadened. The PSB members will then each audit 25% of List 2 and call forward, and collectively read and discuss in-session the files of those they consider may be worthy of a higher grade than a B or C.

f. Because of their much smaller branch/corps size, the PBR is not part of the promotions process for Logistics, Medical, Dental, Medical Services, QARNNS Officers and the Maritime Reserves.

g. In order to keep the APB members’ reading load within manageable bounds and to avoid reverting to a PSB/FSB combination, a 3 List process is conducted during the PBR.

(1) List 1 to be read by all Board members is defined as candidates considered to be graded A or B+ i.e. promotable now or within a year and will include all candidates graded A and B+ at the previous year’s Board. There will be no cap on the numbers but likely to be about 3 times the MAuN. Those candidates appearing before the Board for the last time who do not make List 1 will be separately identified and read by the PSB.

(2) List 2 is defined as candidates who are filtered in but likely to be graded B or C at the Board. PSB members will each audit 25% of List 2 and call forward and collectively read and discuss at the Board the file of those they consider may be worthy to be on List 1.

(3) List 3 is defined as candidates who have been filtered out and is to be audited by the Branch secretary and a Career Manager. These candidates will not be viewed by a board member and will be graded C. The Career Manager may pull forward to List 1 or 2 any candidate who is considered to be qualified or an outstanding prospect.

(4) Filtered in is currently defined as follows:

(a) An OPG of B or higher.

(b) Promotion recommendation by the 2RO to be at least YES for One Up.

(c) If in first assignment to have had at least 2 reports.

To be filtered in, an officer must satisfy all of the above criteria.

(5) Conversely filtered out is defined as any one or more of the following:

(a) An OPG of B- or less.
(b) Promotion recommendation by the 2RO for One Up is DEV or less.

(c) If in first assignment to be in receipt of only 1 report.

These criteria will be adjusted as the full effect of the Revised Officer Entry Scheme (ROES) is felt.

6615. Promotion Board Members

a. Branch Promotion Boards are convened to select officers for promotion to Lieutenant Commander/Major, Commander/Lieutenant Colonel and Captain/Colonel. They consist of four or more members, one of whom is a non-branch member. For promotion to 1 Star and 2 Star rank, cross-branch boards are convened and for promotion to OF5 the FSB is made up from representatives of each Career Field (CF). For board membership, the rule of thumb for PSBs is two ranks up on the rank being considered for the Chairman and one rank up for the branch and non-branch members. For APBs and FSBs, it is three ranks and two ranks up respectively.

b. DACOS (Prom) is responsible for assigning board members and this is done in accordance with instructions approved by the Navy Board. The requirements for each rank and branch are specific and it is also DACOS (Prom)’s duty to make sure the spread of expertise is such that each arm and specialisation is adequately represented and, where possible, members are assigned from diverse backgrounds.

#### 6616. Promotion Board Advisers

a. The appropriate Branch/Career Manager at a minimum SO1 level will act as the Board Adviser. Their role is to provide an initial briefing to cover: the promotion target and any branch and specialisation considerations defined in the detailed promotion requirement (see Para 6609); relevant assigning factors such as continuity of reporting; further advice on reserved rights issues and the career management perspective.

b. There is a fine balance to be achieved between expecting Board Advisers to be present throughout FSBs, and APBs if not already there by right, to discharge these duties and gain the necessary background to fulfil their downstream responsibilities for career management and interviews, whilst maintaining the desired separation between promotion and assigning functions. However, rather than legislate on this issue, Naval Secretary has directed that Board Advisers’ appearances, while at the discretion of the Board Chairman, should be sufficient for them to discharge their career management function.

c. Hitherto the Boards have not required a great deal of branch structural advice due to the relative simplicity of the MAUN target. The future will be different insofar as there are more likely to be conflicts between selecting candidates purely on merit and satisfying mandated structural guidelines (and therefore a greater call on the Board Advisers). To meet this increased challenge and mindful of the likely difficulties that some boards will have balancing the requirements specified, ACOS(PCap) is the Senior Board Adviser at all Boards on an ‘as required’ basis.
6617. Promotion Board Records

a. On completion of the PSB, the Branch Secretary will prepare a closing statement for signature by the Chairman. This document will contain the name, initials, branch and specialisation of the candidates graded A, B+, B and C who will be listed in seniority order; also included will be the names of the candidates appearing before and read by the Board for the last time. The closing statement will include confirmation that the Board was conducted in accordance with the Board Instructions and the 2010 Equalities Act. Once completed and signed, the Branch Secretary will forward it to DACOS (Prom) for action and retention as the formal historical record of the board.

b. On completion of the APB and FSB, the Branch Secretary will prepare a closing statement for signature by the Chairman. This document will contain the name, initials, branch and specialisation of the officers selected and A, B+, B, C+ and C graded officers not selected in seniority order. Once completed and signed, the Branch Secretary will forward it to DACOS (Prom) for action and retention as the formal historical record of the Board.

6618. Data Protection Act (DPA) and Selective Promotion Boards

The data contained in the historical record of the Board and any other information generated during the Board process as it affects an individual is disclosable under the DPA, but only after the announcement of the promotion selections has been made. Given that the Board's decision is a corporate one and that minutes of the proceedings are not taken, it follows that individual board members' votes and personal notes may not be truly representative of the final outcome. It is for this reason that the Branch Secretary destroys all records and data other than the closing statements signed by the PSB, APB and FSB Chairmen. (Also see DPA at Bookmark.)

6619. Promulgation

Provisional selective promotions are announced on the RN Intranet website on dates promulgated in the annual promotions, transfers and command selections DIN. Following the announcement, they are released to the media for publication in newspapers and on the world-wide web. Non-selective promotions are not normally announced but a warning notice will be promulgated on the RN Intranet two months before the promotion date. Selections for substantive promotion to Surgeon Commander, Surgeon Commander (D), Commander MS and QA, Commander RNR, Lieutenant Colonel RMR, Captain, Colonel, Surgeon Captain, Surgeon Captain (D), Captain MS and QA, and Commodore and Brigadier are announced on the RN Intranet on the last Thursday of each month and released to the media at the same time once the individual and selected senior officers have been told. Promotions to Flag and General rank are released to the media once the individual and selected senior officers have been told. All selective and non-selective promotions are confirmed in the London Gazette.
Effective Dates of Promotion

a. Annual selective promotions will be effective as follows:

(1) To Lieutenant Commander and Major - on 1 October.

(2) To Commander and Lieutenant Colonel - on 30 June of the year following the announcement notification.

(3) To Captain, Colonel, Commodore and Brigadier – on taking up assignment in the higher rank.

(4) To Commander, Captain and Commodore in the Medical, Dental, Medical Services, QARNNS branches and the Maritime Reserves - on taking up assignment in the higher rank.

(5) To 2 Star rank and above - as determined by the Naval Secretary in consultation with the First Sea Lord.

b. The December promotion date for all officers of the ranks of Lieutenant Commander, Major, Commander, Lieutenant Colonel, Captain and Colonel was removed in 2000. Since 2001, no officer selected for promotion from these ranks has had a last promotion opportunity in December. To ensure that no officer is disadvantaged, those with a seniority prior to 1 Jul 01 (excluding Medical, Dental and QARNNS officers) and who would have had a last opportunity of promotion in December, will continue to be considered with those being considered for substantive promotion for the last time in the following June.

Provisional Selection

The procedure for provisional selection and promotion to Commander and Lieutenant Commander (and RM equivalents) is designed to increase efficiency by allowing properly planned assignments. This aim will normally be met by timing the assignments of provisionally selected officers to posts complemented for the higher rank to take effect as closely as possible to the due day for confirmation of their promotion. Should circumstances arise that make it necessary to assign an officer to a post complemented for the higher rank before confirmation of the promotion, the grant of AHR will be decided by Naval Secretary at the time the assignment is made, and will not depend on representations being made by the officer or any administrative authority.

Confirmation of Selective Promotion

Confirmation of selective promotion is subject to continued eligibility, for which officers selected must:

a. Continue to be recommended for promotion. This will be assumed unless an adverse ‘Special’ Report is raised and received in Naval Secretary’s Department before the effective date of promotion.

b. Not have requested Early Termination.
c. Not be awaiting medical review (see Para 6626). Eligibility in each case will be decided on its merit.

d. Be in date for the RNFT or hold a valid BFT pass on the effective date of promotion or be in possession of an approved waiver (see Para 6627).

e. Not be awaiting Court Martial or other disciplinary proceedings. Eligibility in each case will be decided on its merit.

6623. Candidates Refusing Promotion

a. Officers who, following selection for promotion, refuse such promotion will be deselected. Officers will not be considered at the next annual promotion selection board following promotion refusal. Officers will be presented to promotion selection boards thereafter providing that they continue to meet the eligibility criteria.

b. Exceptionally, applications can be made by officers who wish to be considered at the next board as a candidate for promotion. Such applications should be made through the officer’s Chain of Command to DACOS Promotions (copy to the appropriate Career Manager) who may authorise presentation at the next promotion board without penalty. Recommendations should be forwarded by the Chain of Command and demonstrate that there has been a change in circumstances; in the case of notice givers, approval would be subject to withdrawal of that notice.

c. Officers wishing to withdraw from the promotion pool/shortlist to OF5, 6 or 7 are to request to do so in writing to the Naval Assistant, copy to DACOS (Promotions) and their Career Manager. They will be removed from the pool/shortlist and the First Sea Lord and Naval Secretary informed. As a consequence, they will not be considered by the next promotion board. Should they subsequently wish to be considered for promotion and they remain eligible, they are to submit a formal letter to that effect through their Chain of Command to the Naval Assistant (copy to DACOS (Promotions) and the appropriate Career Manager).

6624. Career Intermissions and Unpaid Leave

Career Intermissions and unpaid leave will cause seniority to be adjusted by the period of that leave and can, therefore, affect zone entry. Once in zone, officers on unpaid leave will continue to be considered for promotion. RNR officers on List 6 are not eligible for promotion.

6625. Early Termination

In-zone RN officers whose applications for Early Termination have been approved by their Career Manager will remain eligible for consideration for selective promotion providing that they are still serving on the day after that on which the Final Selection Board sits. RM Officers who apply for Early Termination will not be considered by promotion and transfer boards whilst that application remains active. If officers re-enter the Naval Service, and they are still within the appropriate promotion zone, they will be considered at the next opportunity.
6626. Medical Fitness

a. Officers who are medically downgraded, and those who are likely to be categorized as permanently unfit for sea service or be restricted otherwise medically in the future, will normally remain eligible for selective and non-selective promotion. The following principles apply:

b. **Personnel with a Permanently Reduced JMES.** All individuals who have been awarded a permanently reduced JMES code by NSMBOS or by ROHC will be assessed by the NSMEB for their suitability for promotion as part of their determination in retaining an individual in service. This determination will take into account age, past experience, seniority, the nature and extent of the medical limitations, and types of assignment for which the individual might be required to undertake in the current rank and higher ranks if selected for promotion or due for advancement. By default the assessment will assume that retention in service will also include the potential for service at the next higher rank/rate. If the NSMEB are unable to offer continued employment in a higher rank or rate then the individual will be deemed medically unfit for promotion.

c. **Personnel with a Temporary JMES.** Individuals in a temporary JMES should undergo medical assessment by an accredited GMP or Consultant Occupational Physician.

(1) Where there is an expectation that the individual will regain MFD status within the next 12 months, the Medical Officer should deem the individual medically fit for promotion.

(2) Where an expectation that a temporary JMES would be removed and the individual regains a previous permanent JMES within 12 months, then individuals should be assessed as per their previous NSMEB determination (see para 6626 sub para b above).

(3) Where a Servicewoman is pregnant and has the JMES code of E6, her fitness for promotion should be assessed in light of her previous JMES, providing that there is an expectation that this will be regained following the pregnancy and period of maternity leave. If previously MFD then she should be considered fit for promotion. If she was previously in a permanently reduced JMES, she should be assessed as per her previous NSMEB determination (see para 6626 sub para b above).

If temporarily downgraded prior to the pregnancy then an assessment must be made as to the likelihood of being upgraded within 12 months of a return from maternity leave and if it is likely, then the individual should be deemed fit for promotion. If it is not deemed likely, then the individual will need to be referred to NSMBOS for a permanent medical category to be awarded and their eligibility is to be determined by NSMEB.
(4) Where it is likely that the individual will need a permanently reduced JMES, the Medical Officer should deem the individual unfit for promotion subject to the subsequent NSMBOS/ROHC and NSMEB recommendations. If the individual is subsequently given a permanently reduced JMES by the NSMBOS or ROHC and the NSMEB determines fitness for promotion, then seniority and pay should be back-dated to the original date of intended promotion.

(5) Any doubtful case is to be referred to the NSMEB.

6627. Physical Fitness
For all types of RN promotions, in date for RNFT means that the test should be undertaken at least annually. The results are to be recorded on JPA but a ‘fail’ will no longer restrict an individual from substantive promotion, provided they remain engaged with remedial training. The individual’s CO is to determine whether there has been sufficient engagement with remedial training with the usual baseline being an average of 3 periods of training per week or as advised by PT staff. All personnel are to satisfy this RNFT requirement on the Common Promotion Date/Due Date for which selected or the Due Date for non-selective promotion.

a. Selective Substantive Promotion. Having been selected, officers need to be in date for the RNFT or have a valid BFT pass recorded on JPA or hold a waiver (permanent or pregnancy/maternity) or a temporary extension, recorded on JPA, on the effective date of promotion.

b. Non-Selective Substantive Promotion. Officers entitled to non-selective promotion on a date determined by their seniority and/or qualifications will not be promoted unless they are in date for the RNFT or have a valid BFT pass recorded on JPA, or hold a waiver (permanent or pregnancy/maternity) or a temporary extension recorded on JPA, on the due date for promotion.

c. Acting and Local Higher Rank. Officers identified for assignments in the acting or local higher rank (AHR/LHR) will not be awarded the higher rank unless they are in date for RNFT or have a valid BFT pass recorded on JPA or hold a waiver (permanent, pregnancy/maternity) or a temporary extension recorded on JPA, on the date of assignment in the higher rank.

d. Effective Date of Promotion If Not In Date for RNFT/BFT. If an officer is not in date for RNFT/BFT on the due date for promotion, the CO is to give the officer one month from the due date in which to undertake the RNFT or pass the BFT, but with the warning that deselection is a possibility if that deadline is not achieved. Thereafter, the following rules apply:

(1) If the officer undertakes the RNFT or passes the BFT in the time permitted, the individual is to be promoted, post Due Date, to the date after becoming qualified if still eligible in all other respects.
(2) If the officer fails to undertake the RNFT or pass the BFT in the time permitted, the CO is to determine whether there are any mitigating circumstances (eg. operational, medical or welfare reasons). If so, the CO may approve a time extension of up to two months. If an extension is agreed and the officer undertakes the RNFT or passes the BFT in time, the individual is to be promoted, post Due Date, to the date after becoming qualified if still eligible in all other respects. If there are considered to be no mitigating circumstances for an officer’s failure to become qualified, the CO should recommend his/her deselection to the Naval Secretary and initiate Quarterly Reports in accordance with Chapter 57 Section 6.

e. **Application for Permanent Waivers.** Permanent waivers arising from the NSMBOS and NSMEB (see Para 2910) will be issued automatically by the NSMEB.

f. **Application for Temporary Extensions (Medical) or (Operational).** Applications for a temporary extension are to be made by letter to the individual’s Commanding Officer. They should provide clear evidence why the officer will be unable to take the RNFT in time for their due promotion date. Temporary extensions are normally valid for 3 months from the date of issue. Officers in possession of a temporary extension are expected to take and pass the RNFT by the date stated; those prevented from doing so due to circumstances beyond their control may be granted a further extension by the Commanding Officer. Each extension must be justified in the form of written evidence provided by the applicant to the applicant's Commanding Officer.
SECTION 3 - NON-SELECTIVE PROMOTION

6628. Introduction
The timing of non-selective promotion is decided by seniority, service or completion of training. In the early stages, non-selective promotion is complicated by different rules for branches and age on entry. Full details of pay are contained in JSP 754 and training in BR 8374.

6629. Unsatisfactory Performance
Commanding Officers are to consider very carefully the performance of all Midshipmen and Sub Lieutenants (and equivalents) with a view to their suitability for non-selective promotion to Sub Lieutenant and Lieutenant respectively and, for those with reserved rights, Lieutenant to Lieutenant Commander (and equivalent). For officers on the Trained Strength whose performance is not satisfactory, thus making them unsuitable for promotion, Commanding Officers should not hesitate to recommend Quarterly Report action in accordance with the normal adverse report procedure (see Para 5745) or Command Report for Maritime Reservists (these are raised at appropriate intervals to take account of a reservist’s training commitment but otherwise are the same as a Quarterly Report). This performance review must be carried out in sufficient time to enable Quarterly Report action, if merited, to be taken before non-selective promotion is due. Details of Quarterly Report action and delayed promotion are in Chapter 57. Officers under training are governed by the process of Training Warnings described in Chapter 57 Section 7.

6630. Conditions
Non-selective substantive promotion is subject to eligibility criteria and the following additional conditions:

a. Recommended for promotion. This will be assumed unless an adverse Special Report (see Para 5744) is raised and received in Naval Secretary’s Department before the effective date of promotion.

b. Not under Character and Leadership Warning (see Para 6643) or on Quarterly Report (see Para 6644).

c. Not awaiting medical review (see Para 6626 and Para 6645). Eligibility in each case will be decided on its merit.

d. In date RNFT or hold a valid BFT pass on the effective date of promotion or in possession of an approved waiver (see Para 6627 and Para 6645).

e. Not awaiting Court Martial or other disciplinary proceedings. Eligibility in each case will be decided on its merit.

f. For the Maritime Reserves, successful completion of mandated training (Training Matrices).
6631. **Notice of Promotions Due**

   A rolling three month warning notice is produced by the Officer Promotions Section monthly of anticipated non-selective promotions due following an eligibility check coordinated by NAVY PERS-CM OF WAR UTSO3. This is placed on the RN Intranet website (under Officers Promotions section) and the ‘What’s New’ page. Commanding Officers of affected officers are to contact the Officer Promotions Section and appropriate Career Manager if an officer does not meet the prescribed conditions above, in particular RNFT currency and Commanding Officer’s recommendation, but loss of seniority for back-classing may also be relevant.

6632. **Notice of Promotions Made**

   The Officer Promotions Section will input the promotion into JPA 10 days before the due date if there has been no such contact. The notice of promotion will then be sent to the London Gazette for insertion.

6633. **Promotion up to Lieutenant RN pre and post 1 Sep 13 - Direct Entry Warfare, Engineer, Logistics and Medical Services Officers**

   a. **From 1 Sep 13.** Regardless of an individual’s age or educational qualifications held on entry, all Direct Entry Warfare, Engineer and Logistics officers will join BRNC Dartmouth as a Midshipman. On completion of 12 months’ service from their date of entry, officers who have successfully completed Initial Naval Training (Officers) (INT(O)) will be promoted to Sub Lieutenant. Individuals who fail to complete INT(O) within a year of joining the RN will not be promoted at this point and, instead, will become eligible for confirmation as a Sub Lieutenant once the training has been completed successfully (see Para 6641 for the rules relating to backdated awards of pay and seniority). Thereafter, officers will be eligible for promotion to the rank of Lieutenant on attaining 30 months’ seniority as a Sub Lieutenant. Promotion beyond the rank of Lieutenant is by selection.

   b. **Pre 1 Sep 13.** For Direct Entry RN officers who entered prior to 1 Sep 13, the standard path to the rank of Lieutenant was to attain 2 years’ seniority as a Midshipman and then 3 years’ seniority as a Sub Lieutenant (a total of 5 years in all). However, officers could be awarded up to 3½ years’ seniority on entry, depending on educational qualifications held (see also Para 4803), thereby reducing the amount of time spent as a Midshipman or Sub Lieutenant – this is shown at Table 66-2 below.
<table>

</tr>
</tbody>
</table>

**Notes:**

1. Any seniority adjustment which has a negative effect on an officer’s seniority incurs a commensurate increase in the ‘Years of Service’ required to achieve the next rank. The basic date of seniority as a Lieutenant is the promotion date. The effect of any seniority gain was to advance subsequent pay and promotion dates; it had no retrospective effect for pay purposes. To conform with the standard progression, pre-3TC officers who had more than three years’ seniority in the rank of Sub Lieutenant on 31 Mar 99 had their seniority adjusted and were promoted to Lieutenant on 1 Apr 99.

2. To ensure that RN officers entering BRNC prior to 1 Sep 13 as Midshipmen (with basic educational qualifications (up to and including ‘A’ level standard)) cannot be overtaken by their peers entering after 1 Sep 13, transitional promotion arrangements will apply to officers who entered between Jan 11 and May 13. These are shown below.
### Promotion up to Captain RM pre and post 1 Sep 13 - Royal Marines Officers

a. **Post 1 Sep 13.** Regardless of an individual’s age or educational qualifications held on entry, all Direct Entry RM officers will join CTCRM Lympstone as a Second Lieutenant and will remain in the rank until successful completion of the RM officer initial training course, at which point they will be promoted to Lieutenant RM with seniority backdated to 12 months from their date of entry (see Para 6641 for the rules relating to backdated awards of pay and seniority for RM officers who fail to complete their initial training on time). Thereafter, RM officers will be eligible for promotion to the rank of Captain RM on attaining 30 months’ seniority as a Lieutenant RM. Promotion beyond the rank of Captain RM is by selection.

b. **Pre 1 Sep 13.** Prior to 1 Sep 13, Direct Entry RM officers joined CTCRM with the rank of Second Lieutenant irrespective of educational qualifications on entry. Antedated seniority was applied for pay purposes but was not reflected in an individual’s rank until they completed their initial training satisfactorily. The standard path to the rank of Captain RM was to attain 2 years’ seniority as a Second Lieutenant and then 3 years’ seniority as a Lieutenant RM (a total of 5 years in all). However, RM officers could be awarded up to 3½ years’ seniority on entry, depending on educational qualifications held (see also Para 4803), thereby reducing the amount of time spent as a Second Lieutenant or Lieutenant – this is shown at Table 66-3 below.

### 6635. Promotion to Lieutenant RN/Captain RM pre and post 1 Sep 13 - Upper Yardman/Corps Commission Candidates

Since the introduction of ROES, the seniority levels and promotion timescales for UY/CC and SUY/SCC individuals based on their previous experience have been revised. An individual is not considered eligible to be a UY until they are on the trained strength. While it is possible for an individual to be selected as an Officer while under Phase 1 or Phase 2 Training, they would be considered to be a Direct Entry officer.

### UY/SUY and CC/SCC Seniority Levels on Commissioning after 1 Sep 2013

The revised seniority levels on commissioning through the UY/SUY or CC/SCC schemes, applicable to all individuals commissioned after 1 Sep 13, are as follows:
### Royal Navy

<table>
<thead>
<tr>
<th>Reckonable Service for Engagement Purposes</th>
<th>RN Rank/Seniority on Entry (X, E, L and MS)</th>
<th>Time to Promotion to Lieutenant</th>
</tr>
</thead>
<tbody>

<td>12 months from commissioning.</td>
</tr>
<tr>
<td>Corps RSMs and SUY(WO)</td>
<td>Captain with 1 year of seniority</td>
<td>N/A</td>
<td>N/A</td>
</tr>
</tbody>
</table>
Notes:

1. Any seniority adjustment which has a negative effect on an officer’s seniority will incur a commensurate increase in the ‘Years of Service’ required to achieve the next rank.

2. RN UY officers joined with a rank that reflected their antedated seniority eg. 3 years’ antedated seniority equated to a Sub Lieutenant with one year’s seniority, whereas RM CC officers all joined in the rank of 2nd Lieutenant and would only wear the rank that reflected their seniority after two years’ service and on satisfactory completion of Phase 2 training.

6636. Medical and Dental Officers

a. **Rank on Entry.** Rank on entry for a Medical or Dental officer is laid down in Chapter 48.

b. **Non-Selective Promotion.** Non-selective promotion to Surgeon Lieutenant Commander/Surgeon Lieutenant Commander (D) is as follows:

<table>
<thead>
<tr>
<th>Rank</th>
<th>Post 1 Apr 03</th>
</tr>
</thead>
<tbody>
<tr>
<td>Surg Lt/ Surg Lt(D)</td>
<td>Medical Officers - automatic on date of full registration with the GMC. Dental Officers - automatic on date of successful completion of 1 year VDP training.</td>
</tr>
<tr>
<td>Surg Lt Cdr/ Surg Lt Cdr(D)</td>
<td>Automatic on attaining: 5 years’ seniority in the substantive rank of Surg Lt 5 years’ seniority in the rank of Surg Lt (D) (Acting &amp; Substantive time to count).</td>
</tr>
</tbody>
</table>

c. Promotion beyond the rank of Surgeon Lieutenant Commander/Surgeon Lieutenant Commander (D) is by selection.

d. **Additional Seniority.** This may be awarded for previous medical experience. Eligibility for this award is laid down in JSP 527 Chapter 1 Section 4 (new reference tbc).

6637. Queen Alexandra’s Royal Naval Nursing Service Officers

a. **Rank on Entry.** Rank on entry for QARNNS officers is laid down in Chapter 48.

b. **Non-Selective Promotion.** Promotion to Lieutenant is automatic on attaining four years’ seniority in the rank of Sub Lieutenant. Thereafter, promotion is by selection.

c. **Additional Seniority.** Additional seniority may be awarded for previous medical experience. Eligibility for this award is laid down in JSP 950 Part 1, Leaflet 10-1-9.
6638. **Bursars**

A small number of officers awarded bursaries in 1996 and later, and who entered the Naval Service after 1 Apr 99, retain the reserved rights pertaining to the commission awarded, i.e. seniority credits from training and, dependent upon commission, automatic promotion to Lieutenant Commander/Major RM and rank related retirement age.

6639. **Senior Upper Yardmen and Senior Corps Commission Officers**

The promotion of SUY and SCC officers is covered in Chapter 50 and at Para 6635 above.

6640. **RNR Officer Candidates and Upper Yardmen**

a. On passing the AIB, and subject to final selection by the Commander Maritime Reserves (CMR), RNR officer candidates and Upper Yardmen will be promoted to the rank of Midshipman but will not wear rank insignia and will be addressed as Officer Cadets until completion of initial training at BRNC (Phase 1A training). Promotion thereafter will be as follows:

   1. Midshipmen will be promoted to Sub Lieutenant following successful completion of Fleet Board at the end of Phase 1B training.

   2. Promotion from Sub Lieutenant to Lieutenant is subject to successful completion of branch-specific training and on attaining a minimum of 3 years’ seniority as a Sub Lieutenant.

b. Entry in a higher substantive rank may be authorised exceptionally for professionally qualified officers such as Medical and Merchant Navy officers.

6641. **Delays in Initial Training – Impact on Promotion Progression**

a. **Entry post 1 Sep 13 – RN Officers**

   1. **Phase 1 Training.** RN officers who fail to complete their Phase 1 training (INT(O)) within 12 months of joining the Service will not be promoted to Sub Lieutenant at this point. Instead, they will be promoted once the training is successfully completed, at which point they will be entitled to apply for backdated pay and seniority to a date 12 months from entry if their failure to complete the training on time is deemed to be attributable to the Service or is for non-Service reasons outside their control eg. medical, welfare or compassionate. Requests for redress should be forwarded through the CO to the Officer Terms of Service Manager who, in turn, will consult the Officer Promotions Section. All cases will be considered on their individual merits.
(2) Phase 2 Training. As above, time lost by RN officers during Phase 2 training as a result of Service reasons or non-Service reasons outside their control eg. medical, welfare or compassionate reasons, will not normally result in an adjustment to an individual's seniority. However, seniority adjustments will be applied to RN officers for back-classing, examination failure, repeated elements of professional training or warning during Phase 2 training and these will affect an officer's promotion (ie. the additional period of time will not count for seniority purposes) and also impact on pay if applied to the IBD. Any seniority adjustment will result in the implementation of a Specially Determined Rate of Pay (SDRP); once the SDRP is lifted, the officer will revert to normal incremental progression and the seniority will be adjusted accordingly.

b. Entry Post 1 Sep 13 – RM Officers. RM officers who fail to complete their initial training at CTCRM on time will be eligible to apply through their CO to the Officer Terms of Service Manager for backdated pay and seniority (to the 12 month point from entry) if the delay in completing the training is deemed to be attributable to the Service or is for non-Service reasons outside the individual's control. All cases will be considered on their individual merits.

c. Entry Pre 1 Sep 13 – RN and RM Officers

(1) Time lost by RN and RM officers during initial training as a result of Service reasons or non-Service reasons outside their control eg. medical, welfare or compassionate reasons, will not normally result in an adjustment to an individual's seniority. Where doubt exists about the applicability of a penalty, Commanding Officers should consult the Officer Terms of Service Manager in the first instance.

(2) Seniority penalties will be applied to RN and RM officers in cases of back-classing, back-batching, examination failure, repeated elements of training or warning during initial training and these will have an effect on promotion (the additional period of training time will not count for seniority purposes) and pay if applied to the IBD. Any seniority adjustment will result in the implementation of a SDRP; once the SDRP is lifted, the officer will revert to normal incremental progression and their seniority will be adjusted accordingly.
6642. Seniority Adjustments Following Branch/Specialisation Transfer

a. Rates of pay are linked to rank and IBD. As such, any adjustments made to an officer's seniority on transfer, as described below, will also have an effect on pay if applied to the IBD. Adjustments to seniority will affect promotion.

(1) Untrained Strength. If an officer under training transfers from one branch/specialisation to another, whether because of failure in the original branch/specialisation or by choice, promotion to Lieutenant RN may be deferred. Officers who have already attained the rank of Lieutenant RN may have their seniority adjusted. The need for any deferment or adjustment is determined by the officer's position in relation to that of their new peers in the branch/specialisation into which they are transferring, and is to ensure, in so far as is possible, that training that does not form part of the training pattern in the new branch does not count towards promotion. See Para 5107 b sub para (2) for further information. A sizeable seniority adjustment for an officer on the Initial Commission Stage (ICS) may result in the loss of the opportunity for selective promotion to Lieutenant Commander/Major as long as the officer remains on the commission.

(2) Trained Strength. For an officer on the trained strength transferring from one branch or specialisation to another, promotion may be deferred and/or seniority adjusted. This may result in the implementation of an SDRP, as described in Para 6641 sub para c. The need for any deferment, adjustment or SDRP is determined by the officer's position in relation to that of officers who joined the Service at the same time in the branch or specialisation into which they are transferring, and is to ensure, in so far as is possible, that any training which does not contribute directly to the officer's new branch or specialisation does not count towards an accrual of seniority.

b. The seniority of an officer transferring from or to a branch where seniority is granted for a degree or relevant civilian experience or both may be adjusted by more than 1 year.

6643. Training Warnings

Officers under training will not be promoted on their due date if they are under Phase 1 (Tier 3) or Phase 2 (Admiralty Board level) Character and Leadership (C&L) Warning (see Para 5740). Officers who are removed from C&L Warning due to an improvement in their performance will be promoted with effect from, and with seniority of, the date of the Commanding Officer’s recommendation for removal from C&L Warning if this is later than the non-selective date. Officers who fail to achieve a satisfactory standard will be compulsorily withdrawn from training under the normal procedures detailed in Chapter 57.
6644. **Quarterly Report**

Officers due for non-selective promotion will not be promoted on their due date if they are under Quarterly Report (or Command Report for the Maritime Reserve). Officers who are removed from Quarterly Report due to an improvement in their performance will be promoted with effect from, and with seniority of, the date of the Commanding Officer’s recommendation for removal from Quarterly Report if this is later than the non-selective date. Officers who fail to achieve a satisfactory standard will be liable to discharge under normal procedures. See also Chapter 57.

6645. **Medical and Physical Fitness**

   a. Officers placed in a reduced medical category remain eligible for non-selective promotion so long as they are retained in the Service (see Para 6627).

   b. Officers are required to be in date RNFT or hold a valid BFT pass on the effective date of substantive promotion or in possession of an approved waiver (see Para 6627).
SECTION 4 - ACTING RANK ASSIGNMENTS

6646. Introduction
The following regulations cover the award of acting higher rank (AHR) to officers, as distinct from the award of substitution pay. They do not apply to Acting Lieutenants who have not been confirmed in rank because they have not acquired the necessary qualifications, or to Acting Sub Lieutenants. In general, the AHR is appropriate when an officer is assigned to perform the full duties of a post at a higher rank because no officer of the required substantive rank and branch is available to do so. This may occur in a period of manpower shortage or when a holder of an assignment dies or is placed in a reduced medical category which will prevent the performance of the full duties of the post for a minimum of three months. Award of the AHR attracts the pay of the higher rank but does not accrue seniority in the higher rank. Substitution pay may be appropriate if an officer is required to perform the duties of a higher rank, normally without being assigned to the post, for a minimum of 21 consecutive days and for periods up to 6 months (see JSP 754 for full details and for extensions beyond six months). Relative rank and order of command regulations for AHR officers are shown in BR 2 (QRRN).

6647. Assigning Notice
Assignments at normal notice in the AHR will be decided by the Career Management Authority before publication.

6648. Local Assignments and Transfer
The senior officer present in an area has authority to fill vacant posts immediately for Service reasons, keeping the Assistant Chief of Naval Staff (Personnel)/Naval Secretary (ACNS(Pers)/NavSec) informed. If the granting of AHR is involved in filling an urgent vacant post, ACNS(Pers)/NavSec’s approval is required beforehand unless the officer is due substantive promotion within three months.

6649. Selection Criteria for Granting Acting Higher Rank

a. In making selections for AHR, Career Managers should maintain similar principles to those which apply in the case of officers selected for promotion ie. they should be prepared to accept a degree of assigning inconvenience to ensure that a worthy candidate can take up the assignment. The selection of officers for appointment in the rank of Acting Captain, Acting Commander and Acting Lieutenant Commander (other than those already provisionally selected for promotion) should normally be made from officers who have a high probability of achieving substantive promotion to the next higher rank during the AHR appointment. Overzone officers who narrowly missed promotion to Lieutenant Commander and Commander should only be considered where there is a particular service requirement to which that officer brings the necessary skills. Normally the Career Manager should nominate a minimum of two potential candidates to the appropriate SO1 Career Manager. A note is to be made in the PF of an unsuccessful candidate to generate an audit trail and record the AHR selection process. Occasions will arise when only one suitable candidate can be found to fill a particular specialist post.
b. It is most important that ACOS(PCap)’s approval for AHR is obtained when the best candidate to fill an important post at AHR satisfies the approval criteria at Para 6649 sub para c but does not completely satisfy the AHR selection criteria in Para 6649 sub para a above.

c. AHR may only be granted if all of the following conditions are met:

(1) The post is complemented for the higher rank without alternative. Where the complement allows for alternative ranks, the acting assignment will be in the lowest rank allowed.

(2) No suitable officer of the correct substantive rank is available. ‘Suitable’ is defined as complying with the Rank/List/Spec/Sub-Spec criteria in the relevant JPA Position and meeting the terms of Para 6649 sub para d below.

(3) The period of tenure is expected to exceed three months (this rule need not apply when an officer is due substantive promotion within this time).

(4) The officer concerned must be capable of undertaking satisfactorily the full range of tasks of the post to be filled.

(5) The relevant SO1 Branch Manager and NAVY PERS-PPLAN SWPO SO1 advice and approval has been obtained in writing except:

(a) Where an officer has been provisionally selected for promotion to the next higher rank.

(b) When the period of AHR is less than one year prior to automatic promotion due to preserved rights from previous commissions.

It should be noted that advice may depend upon a comparison of the liability and the strength for the category concerned in the period for which AHR is proposed. As a general rule, those graded A, but not selected at the last Board, are highly likely to be promoted next Board and therefore are unlikely to impact the MAuN. Those who are graded B and below are not likely to be promoted next time and therefore this will have a negative effect on the MAuN the following year. The Naval Personnel Team may still choose to accept a reduction in the MAuN to grant AHR, particularly if the individual has a unique competence. Where agreement cannot be reached between the Career Manager and the Branch Manager, DACOS Career Management, DACOS Branch Management and DACOS PPLAN will adjudicate.

(6) Suitability for promotion on the most recent Appraisal Report must have been assessed as ‘Yes’ or higher. AHR will only be granted one step above the substantive rank held.

(7) The officer is in date for RNFT on JPA.
6650. Acting Higher Rank - Level of Approval

Final approval of AHR is given as follows:

a. **Acting Commodore.** Approval is given solely by the 1SL. When it is deemed necessary to employ a Captain as an Acting Commodore, NA will engage with DACOS Career Management, DACOS Branch Management and Naval Secretary prior to seeking formal approval from 1SL.

b. **Acting Captain.** Approval is given solely by the 1SL. When it is deemed necessary to employ a Commander as an Acting Captain, NA will engage with DACOS Career Management, DACOS Branch Management and Naval Secretary prior to seeking formal approval from 1SL.

c. **Acting Lieutenant, Acting Lieutenant Commander and Acting Commander.** AHR approval is normally given by the relevant SO1 Career Manager providing that the various criteria in Para 6649 sub para c above are met. Should a case fail to satisfy the AHR selection criteria, approval is to be given by DACOS Career Management.

6651. Acting Higher Rank - Procedures to be followed by the Career Manager

a. **When appropriate:**

(1) When it is intended to assign an officer to a post which is complemented for higher rank without alternative, consideration should always be given to the need to grant AHR. The case should be tested against the principles and criteria identified in the preceding paragraphs. If, having carried out this test, it is considered that AHR is justified, the structural agreement of a Branch Manager and the approval of the relevant authority (see Para 6649 sub para b) are to be sought before the appointment is made. Force majeure should be avoided. For officers already in post (see Para 6657), the agreement is to be sought before the award of AHR is confirmed.

(2) Proposals for award of AHR are to be submitted on the proforma at Annex 66C. The proforma is to be passed via the relevant desk officers for agreement and advice; if agreed at that level, the form is then to be attached to the officer's personal file and passed to the approving authority (see Para 6650). Completed proformae are to be retained with the relevant personal files. A note is to be made in the P/File of an unsuccessful candidate to generate an audit trail and record the AHR selection process.

b. **When not appropriate:**

(1) Experience has shown that much correspondence is generated in cases where AHR is considered to be inappropriate. It is important, therefore, that these cases are well documented in the relevant officers' personal files; the position should be made clear (in writing) to both the officer concerned and their Commanding Officer.
In certain cases it may be justifiable to appoint an officer to a post complemented for higher rank (without alternative) and not grant AHR; for example:

(a) When it is for less than three months.

(b) When there is clear evidence that the complement is to be downgraded or rank ranged to a lower rank in the near future (Career Managers should ask Commanding Officers to initiate EAF action to change the Unit Establishment List whenever their knowledge of the post indicates that a lower rank alternative would be suitable).

There will be cases where AHR cannot be granted because the criteria in Para 6649 sub para c have not been met in full. For example, there is a suitable officer of the correct rank available but the Commanding Officer is not prepared to accept the individual or the only officer available does not have the necessary knowledge or experience to carry out all of the duties involved (ie. they are not qualified) and it would be inappropriate to give the individual AHR. In these cases, Career Managers are to proceed carefully, having consulted DACOS Career Management, with one of the following options:

(a) Inform the Commanding Officer that the post will have to be gapped (in which case the Commanding Officer may be able to consider the use of substitution pay for an officer within the unit filling another of the complemented posts (see Para 6651 b sub para (4) below)).

(b) Offer to appoint an officer of lower rank as a Temporary Augmentee to undertake part of the duties of the higher rank but leaving the higher rank post empty. In any such case, the Commanding Officer is to be reminded of the need produce a revised set of TORs to give the officer only those tasks which are appropriate to the individual’s knowledge or experience. The officer is to be informed in writing of the reason why AHR has not been granted and the Appointment Order is to indicate specifically that AHR will not be granted. A copy of the Appointment Order is to be retained in the officer’s personal file. When assigned as a temporary augmentee, neither AHR nor substitution pay are appropriate.

(c) If the Commanding Officer indicates that they will amend the Unit Establishment List to downgrade the post to a lower rank or to allow for the lower rank as an alternative, written evidence of this should be provided before an assignment is issued. The downgrading must be fair and realistic; an officer should not be disadvantaged thereby and they must not be asked to undertake duties which are beyond their rank or experience. The Commanding Officer would be expected to review the position’s Terms of Reference and Job Description. The officer is to be informed in writing of the reason why AHR has not been granted and the Appointment Order is to indicate specifically that AHR will not be granted.
(4) It will be clear that officers are not to be put in the position of having to fill a post without holding the appropriate rank. Career Managers are to ensure that the Nomination correspondence to the Commanding Officer explains the situation and states clearly that AHR will not be granted. A copy of this is to be filed in the officer’s personal file.

6652. Acting Higher Rank in Common Appointments

Although the same criteria apply to AHR for Common Appointments (CAPPS) as for other positions, DACOS PPLAN will not be willing to agree to the award of AHR unless the availability of qualified officers from all relevant specialisations has been carefully checked. Career Managers planning to nominate an officer who would require AHR to meet the rank criterion of a common appointment must discuss the subject thoroughly with NAVY PERS-CM CAPPS SO1 and NAVY PERS-PPLAN SWPO SO1 in advance of the CAPPS committee’s consideration of the position.

6653. Upgrading of Post to a Higher Rank

a. If a position is upgraded to a higher rank without alternative and it is intended that the same officer should continue to hold this position until a substantive relief can be assigned, consideration should be given to granting the AHR to the present holder, providing the period exceeds three months due to the needs of assigning notice. If, however, it is considered that the present holder is not suitable to carry out the higher rank duties and it is intended to relieve the individual on this count, AHR is not to be granted. In the latter example, the officer should be re-appointed no later than three months after the post is upgraded even if it means the post being gapped.

b. If, however, the present holder is due substantive promotion to the higher rank, and is judged competent to carry out the higher rank duties without further training, and it is intended that the individual remains in post on this account, AHR will be granted at the discretion of the ACNS(Pers)/Naval Secretary.

6654. Downgrading of Post to a Lower Rank

If a post which is held by an officer granted AHR is downgraded to a lower rank, the officer will be reassigned in the substantive lower rank from the effective date of the revision to the Unit Establishment List.

6655. Sickness while Holding the Acting Higher Rank

An officer who is medically unfit for duty for reasons beyond his/her own control while holding AHR may continue to hold the rank for a maximum of four months from the date of being downgraded. An officer who is still sick after four months will be reverted automatically to substantive rank. When fit for duty and if not given an immediate effective assignment, the officer will be eligible to resume the former AHR and pay for any periods of courses, passage, leave, etc. to which they would have been entitled. Where sickness is for reasons within the officer’s own control, the AHR is relinquished from the date of ceasing duty in the assignment.
6656. **Relinquishment**
Officers retain AHR until reassigned in the lower rank, or until review by ACNS(Pers)/NavSec if an officer receives an adverse report or is placed on Quarterly Report. JSP 754 contains full details of the circumstances and dates covering the relinquishment of an AHR.

6657. **Pay**
Substitution pay (SUPA) is neither a CM retention tool nor a substitute for AHR. SUPA is not an entitlement, but may be paid to an officer or other rank (OR) who is required temporarily to undertake the full range of duties and responsibilities of a post established for an officer, OR, or civil servant of a rank/grade higher than his/her own which is vacant. It follows that an individual shall not be assigned on a full time basis into a position and claim SUPA for fulfilling the duties of that position. SUPA can be utilised by the employer when an individual from elsewhere in the organisation conducts all the duties to cover a gapped position in the higher rank. The regulations for pay for AHR, for successive assignments in the AHR, and SUPA are in JSP 754.

6658. **Provisional Selection**
The procedure for provisional selection and promotion to Commander and Lieutenant Commander (and equivalents) is designed to increase efficiency by allowing properly planned assignments. This aim will normally be met by timing the assignments of provisionally selected officers to posts complemented for the higher rank to take effect as closely as possible to the due day for confirmation of their promotion. Should circumstances arise that make it necessary to assign an officer to a post complemented for the higher rank before confirmation of the promotion, the grant of AHR will be decided by ACNS(Pers)/NavSec at the time the assignment is made, and will not depend on representations being made by the officer or any administrative authority.

6659. **Local Higher Rank**

a. On occasion, particularly when working with foreign nations or external organisations, which do not recognise or do not understand the capabilities of RN officers of junior rank, it may be appropriate to grant Local Higher Rank (LHR). This would be particularly apposite if the officer concerned was required to deal extensively with the Armed Forces of countries where officers of broadly the same equivalent rank to British officers were markedly different in terms of prestige, capability or authority. LHR would be similarly apposite when a RN officer was required to work extensively with predominantly civilian organisations with little previous familiarity with the Armed Forces. Accordingly, in circumstances where an officer of the appropriate rank is filling a position (and AHR or substitution pay is not payable), it is possible to grant LHR, provided the following conditions are satisfied:

1. LHR is considered by the local commander to be essential to enable those external authorities with which the officer is required to deal in the course of his/her duties to understand and appreciate the status and capability of the officer concerned. It is envisaged that the external authorities will normally be civilian organisations or non-British military organisations with limited previous contact with the RN. LHR may be granted for the whole or part of an assignment.
(2) LHR is no more than one step above the substantive or Acting Higher rank of the officer concerned.

(3) In exceptional cases, ACNS(Pers)/NavSec may authorise LHR two steps above the substantive rank of the officer concerned, or one step above any held.

(4) The application is approved at the appropriate level:

(a) For OF5 and OF6, application should be made in writing to the Naval Assistant, who will pass it via ACNS(Pers)/NavSec to 1SL, who has authority to approve.

(b) For OF4 and below, application should be made in writing to the respective SO1 Career Manager, who has authority to approve.

b. All applications should deal with the points above, including the duration for which it is required. Officers who are granted LHR will be entitled to wear the uniform of the local rank granted. They will be entitled to the pay, allowances and general service conditions only of their substantive rank (or AHR). LHR will not attract any pension enhancement or confer any other benefit, save that an officer will be entitled to the same uniform grants as those given AHR for the purposes of striping up (and down). LHR will not incur any return of service liability.

c. LHR ceases on the day after the requirement for it lapses, or the day after a post holder ceases to hold the assignment for which it was granted.

d. Employing officers should be careful to note the difference between AHR and LHR. AHR applies where the post is complemented for an officer of a higher rank because the duties are such that an officer of higher rank should carry them out, but no officer of the correct substantive rank is available. In these circumstances, because the officer is carrying out the duties of a higher-ranking officer, it is right that he/she should receive the financial rewards which accompany AHR. In contrast, LHR may apply in the following circumstances:

(1) An officer is required to fill a position established for a higher rank but is ineligible for AHR (Paid), as outlined in Para 6649. In this instance, the individual may be awarded LHR until such a time that LHR is no longer required, the position is vacated, or the individual becomes eligible for AHR (Paid).

(2) Where the duties of the post can be carried out by an officer of the rank for which the post is complemented, but it is necessary to give the post holder a higher rank so that his/her status and abilities will be more clearly understood by those with whom he/she has dealings in the course of his/her duties.

e. For the purposes of appraisal, officers holding LHR should be assessed in their substantive rank.
6660. Local Lower Rank

Occasionally, for reasons of tradition, certain command posts will be filled by an officer of a higher substantive rank, who will wear the uniform of and be addressed as an officer of lower rank. Local Lower Rank (LLR) will be authorised by ACNS(Pers)/NavSec. Officers holding LLR will take precedence according to their seniority in their substantive rank. Otherwise LLR will be held under the same conditions as LHR. In particular, such officers will be paid and assessed in their substantive rank.

6661. Resettlement and Terminal Leave

a. An officer leaving the Service involuntarily for reasons other than misconduct, eg. being retired on age grounds or being made compulsorily redundant, continues to hold AHR during the period of Graduated Resettlement Time and Terminal Leave (see JSP 754).

b. An officer vacating an assignment on submitting his/her notice relinquishes AHR on the date of ceasing duty in that assignment. Officers will not be eligible for AHR whilst on Terminal Leave.

6662. Honorary Rank on Retirement

a. An officer who has held Acting Higher Rank (AHR) may, on retirement, be awarded that rank in an honorary capacity at the Naval Secretary's discretion provided they have held the AHR for a minimum period of two years immediately prior to retirement.

b. This honorary rank will entitle the officer to use the title of the higher rank in civilian life and to wear the uniform of that rank on occasions of ceremony. It does not give entitlement to the higher rank if they are required to return to full service for any reason.

c. An officer wishing to apply for the award of honorary rank must do so in writing to the Naval Secretary, requesting use of the title of the higher rank. The Naval Secretary may, at his or her discretion, approve or decline the request.
ANNEX 66A

SELECTIVE PROMOTION

1. **Admiral of the Fleet**
   
   Admirals of the Fleet are selected by Her Majesty. Such promotions are not normally made in peacetime and, if they are, they will be in an honorary capacity.

2. **Flag and General Officers and One Star Officers**
   
   a. Selections for promotion to 3 Star and 4 Star rank are made by the Chief of the Naval Staff/First Sea Lord (CNS/1SL) after consultation with Her Majesty, and senior MOD and Service colleagues.

   b. Selections for promotion to 1 and 2 Star rank are made by CNS/1SL and the Flag and Senior Officers Appointments Board (FSOAB) (see Para 6017) following the Flag and 1 Star Preliminary Selection Boards (PSB), which sit annually in May. The PSB, which is chaired by ACNS (Pers)/NavSec, consists of CNXO, CNEO, CNLO, CGRM and CNMO. Zones for promotion are at Table 66B-4 and Table 66B-5.

   c. While the majority of Flag promotions invariably will be targeted at the most senior officers, provision exists for earlier selection if considered appropriate by CNS/1SL. The aim is to make promotions to Flag and General Officer rank at a steady rate in order to maintain an even flow through the Flag and General Officer List. Promotion to Flag rank is made on merit (see Para 6508) regardless of branch. However, in considering application of this principle, CNS/1SL and Navy Board do take into account the requirement to achieve a balance of promotions to Flag rank across skill sets that will increasingly be reflected by Career Fields.

   d. Flag and 1 Star PSBs follow the general principles and procedures of selective promotion defined in Chapter 66. Candidates will be assessed as 'Promotable' (P) or 'Not Yet Promotable' (NYP). The P cadre represents candidates previously graded A and suitable B+ individuals with NYP the lower graded B+, B and C candidates. Being graded NYP early on in rank is an inevitable part of the journey towards the P Cadre. NA will debrief individuals on their assessment as part of the normal Career Interview process.

   e. Officers assessed as 'Promotable' who are not selected for a suitable position and consequent substantive promotion within the promotion year will be considered afresh by the next board. Should the FSB subsequently choose not to include them in the list of P graded candidates, a formal statement will be made in the FSB Chairman's report recording the reasons for any grading re-assessments and the candidate informed accordingly.

   f. On promotion, officers will be employed on Senior Officer Compulsory Retirement (SOCR) terms i.e. unless selected for a further assignment or promotion, compulsory uncompensated early retirement will follow on completion of the appointment or 3 years in rank (whichever is greater) (see Para 5428).
g. Following the alignment of RM ranks on 1 Jul 99 there is only one route to 2 Star rank via the substantive rank of Brigadier.

h. Officers appearing before the PSB for the last time who have not been assessed as ‘Promotable’ are informed by the Naval Assistant.

3. Captain/Colonel Rank (OF5)

a. Zones for promotion from OF4 to OF5 are at Table 66B-3. Conduct of the OF4 to OF5 Preliminary and Final Selection Boards was revised in 2017 to support selection by Career Field (CF) whilst still maintaining sustainable branch structures and branch influence in the promotion system. In short, the PSBs will be held by branch to select promotable candidates on merit for consideration by an overarching single FSB who will look holistically to ensure the right numbers are selected on merit not only by branch but also by CF, similar to the One and 2 Star FSB process. FSB members will normally be the 1 Star Career Field Champions and Chaired by ACNS (Pers)/NavSec.

b. The PSB will concentrate on selecting the most suitable promotable candidates by Branch on Merit to put forward to the FSB. The PSB will grade iaw Para 6610. Merit in a Career Field unrelated to their Branch should not be overlooked; considerations should be noted and discussed in session so that the most suitable candidates are forwarded to the FSB. The FSB will be cognisant of branch but aim to select primarily on Merit by Career Field.

c. At the FSB, rather than creating a ‘pool’, candidates will be assessed as ‘Promotable’ (P) or “Not Yet Promotable” (NYP). The P cadre represents A and suitable B+ graded candidates with NYP the lower graded B+, B and C candidates (see Para 6610) with the difference that, at this level, candidates nearing retirement who are worthy of appointment and promotion in their niche specialisation/Career Field, and for which there is a stated requirement, may be awarded an A(Spec) grade. Their substantive promotion will nonetheless be conditional on their continued employment in that specialist area until retirement).

d. Officers assessed as ‘Promotable’ who are already in the AHR will be substantively promoted on 1 Jul of the promotion year providing they are properly established in a complement position and there are no short term plans to relieve them. However, P graded officers who are deployed in the AHR in short term positions will not normally be entitled to substantive promotion.

e. Officers assessed as ‘Promotable’ who are not selected for a suitable position and consequent substantive promotion within the promotion year will be considered afresh by the next board. Should the FSB subsequently choose not to include them in the list of P graded candidates, a formal statement will be made in the FSB Chairman’s report recording the reasons for any grading re-assessments and the candidate informed accordingly.
f. Those officers identified as being ‘Promotable’ will be informed by the DACOS Career Management (Capt/Col) or Naval Assistant (Cdre/Brig). Officers appearing before the Board for the last time who have not been short-listed will be informed by the DACOS CM or NA as appropriate.

g. As promotion will be dictated by the requirement, matching the needs of vacant posts with the skills and experience of the individual will be a major factor in determining who is actually promoted. In every case, CNS/1SL will consider individual nominations and the outcome will not be predictable or immediate. However, the final decision to promote and appoint will be a strategic one insofar as wider Service requirements and normal career management considerations will be the key criteria. Accordingly, officers assessed as ‘Promotable’ by the FSB are not guaranteed promotion. Depending on the requirement and type of appointment, promotion is only guaranteed following final confirmation of appointment in the higher rank. Furthermore, for those competing against other Service or civilian candidates, promotion to substantive rank will be conditional upon winning the post.

h. The following specific rules apply to officers assessed promotable for substantive promotion to OF5:

(1) The number of selections will be sized to allow a suitable range of Career Fields, competences and backgrounds to be made available to CNS/1SL to appoint, however, with such flexibility and the considerable number of tri-Service competition posts at this level, the requirement will fluctuate during the year and therefore candidates assessed as ‘Promotable’ must not assume they will be elevated to the next higher rank.

(2) Promotion to OF5 becomes effective only on taking up appointment in the higher rank. Should the post be disestablished under re-organisation or re-structuring at any stage before the arrival of the incumbent, then that officer will remain on the list of promotable candidates, even if an assignment order has been issued.

(3) Individuals assessed as ‘Promotable’, who are assigned to Op Tours, will be substantively promoted if the Op Tour preparation, deployment and POTL total 12 months or longer. To avoid any career disadvantage, the substantive rank will be applicable from the first day of the preparation period. Such promotions will count against the MAuN for that year.

(4) Officers with less than three years seniority and who are subsequently selected for assignment in the higher rank will be assigned in the Acting Higher Rank until qualified by the seniority of three years for substantive promotion. Confirmation of promotion will be in accordance with Para 6622.

(5) Last Shot officers who are assessed ‘Promotable’ will remain as candidates after the end of the promotion year providing that they still meet the promotion criteria at Para 6622 and can take up an assignment in the higher rank by the time they reach Termination Date -2½ years. This exception is to provide NA with a level of assigning flexibility and will be controlled by the Naval Assistant’s office.
4. Medical, Dental, Medical Services, QARNNS and RNR/RMR Officers

a. To satisfy the unpredictable nature of the OF4 and OF5 requirements in the Medical, Dental, Medical Services (MS) and QARNNS branches, and in the RNR/RMR, and to ensure that the potential for promotion of all eligible candidates is properly recognised, a process similar to that used for promotion to OF5 is used. For promotions to OF4, Promotion Boards consider the eligible OF3 populations and produce a list of ‘Promotable’ candidates. PCAP DACOS CM, as advised by Hdn RNMS, HNDS, the senior MS officer, HNSS and CMR as appropriate, will utilise this list to run suitable candidates for appointments that need to be filled in the forthcoming year. The lists generated by the Promotion Boards, which will not be published, will be valid from 1 Jul of the year of the Board to 30 Jun of the year following the Board. Promotions to OF5 will be considered alongside the other Branches as described in Para 3 above.

b. Those officers identified as being ready in all respects now and assessed ‘Promotable’ may be individually informed by PCAP DACOS (Career Management) for OF3s and OF4s on request.

c. Officers assessed ‘Promotable’ by the Promotion Board are not guaranteed promotion. Depending on the requirement and type of appointment, promotion is only guaranteed following final confirmation of appointment in the higher rank. Furthermore, for those competing against other Service or civilian candidates, promotion to substantive rank will be conditional on winning the post. Officers short-listed, who are not selected for promotion by 30 Jun of the year following the Board, will be reconsidered by the next Board providing they remain eligible.

d. As promotion will be dictated by the requirement, matching the needs of vacant posts with the skills and experience of the individual will be a major factor in determining who is actually promoted. All selections for OF5 assignment and promotion to Surg Captain, Surg Captain (D), Captain MS, Captain QARNNS and Captain RNR/Colonel RMR will be submitted to CNS/1SL for approval. Promotion to OF4 and OF5 will be effective from the date of assignment in the higher rank.

e. Zones for promotion for Medical, Dental and QARNNS Branches are at Table 66B-8. Zones for promotion to OF5 and OF6 for Medical Services officers are at Table 66B-3 and Table 66B-4.

f. Zones for promotion to OF5 and OF6 for RNR and RMR officers are at Table 66B-6 and Table 66B-7.

5. Chaplain of the Fleet and Deputy Chaplain of the Fleet

Chaplain of the Fleet is a promoted rank and is accorded 2* status. The Deputy Chaplain of the Fleet is the promoted rank of ‘Principal Chaplain Royal Navy’ on JPA and operates at 1*/OF5 level. Selection is by the appropriate Preliminary Selection Board, followed by the FSOAB, with Sending Church consultation as appropriate. Principal Denominational Chaplains (PDCs) are not promoted posts and are selected by the Sending Church in consultation with the Chaplain of the Fleet.
6. Full Commission Stage (Aviator) Officers

a. Lieutenants RN and Captains RM on FCS(A) remain eligible for promotion to Lieutenant Commander and Major respectively and will compete alongside other Lieutenants RN and Captains RM on a Career Commission Stage (CCS), Career Commission (CC), Full Commission Stage (FCS) or Full Term Commission (FTC). If selected, they may elect either to remain on FCS(A) or, subject to manning requirements, transfer back to the relevant CCS/CC or FCS/FTC. Officers selected for promotion are required to notify their Career Manager in writing of their intentions within 20 days of the promotion signal.

b. Lieutenant Commanders and Majors RM on FCS(A) are eligible for promotion to Commander and Lieutenant Colonel respectively, and will compete alongside other Lieutenant Commanders and Majors RM on a CCS/CC and FCS/FTC. If selected, they can accept promotion and will be transferred back to the relevant CCS/CC or FCS/FTC. Officers who elect to remain on FCS(A) and decline promotion will not be considered at the annual promotion selection board following refusal. Officers will subsequently be presented to promotion selection boards providing they continue to meet the eligibility criteria. Officers selected for promotion are required to notify their Career Manager and Officer Promotions Section in writing of their intentions within 20 days of the promotion signal.
ANNEX 66B
OFFICER PROMOTION ZONES

1. Zones for promotion are defined as follows:
   a. **Zone Entry.** Entry is typically based on an officer’s seniority in their current rank.
   b. **Zone Exit.** Exit is predominantly based on the time that an officer has left to serve on their current commission, excluding any extensions of service (EOS) but including any Commission Extension (CE) which revises the individual’s Engagement Expiry Date (EED). The Terminal Expiry (Tx) date is the end of the current active commission; dependent on the officer’s age and commission, the Terminal Expiry date may also be the rank related retirement age (RRRA) or normal retirement age (NRA) (including those selected under the RA55 scheme).
   c. **Exceptions.** The exceptions, which may be based on age or seniority, are specified in the Tables below. The published zones also take into account the reserved rights of those who were already serving on or before 31 Mar 99, where the new zones may have resulted in the loss of promotion opportunities.

2. The zones for substantive promotion to the higher rank are listed in Table 66B-1 to Table 66B-8 below. Unless otherwise specified, there is no requirement to be on a particular commission for promotion to a particular rank.

3. Officers who were serving in the Armed Forces on or before 31 Mar 99 and are now on a Full Term Commission (FTC) will, if promoted beyond Lt Cdr/Maj, assume commission titles according to their new rank-related retirement ages.

4. For RM officers, the Tables reflect seniority criteria applicable after rank alignment on 1 Jul 99 (see Glossary). The promotion zone transitional arrangements associated with the RM Retirement Age alignment with the RN are as shown.
Table 66B-1. To Lt Cdr RN (X, E, L, MS) and Major RM

Reference point for zone calculation: 1 Oct of the year of the Board.

Promotion zone entry point for all – 4 years’ seniority as a Lt RN or Capt RM.

</tbody>
</table>

Notes:

1. All SCC Captains RM who are qualified SBS go out of zone at Tx-1 (rather than Tx-3).

2. In the case of former ratings and other ranks with military service pre 1 Apr 99 who are unable to complete an Initial Commission (IC) in full on promotion from the ranks and, as such, are permitted to serve to their former Terminal Expiry date if later than 50 (in accordance with Para 5428), the additional period beyond 50 is treated as an EOS and does not extend the promotion zone. However, if such individuals are selected for the RA55 scheme, and therefore serve to the end of their IC or age 55, whichever is earlier, this will become their Terminal Expiry date for the purposes of calculating the end of their promotion zone (Tx-3).

3. Commission Extension (CE). This is a change in EED that extends the current commission stage and, as a consequence extends the promotion and/or transfer eligibility window. Zones will be based on the revised Termination Date (ie officers selected for CE60 zone exit will be Tx-3).

</tbody>
</table>

**Notes:**

1. Majors RM who are qualified SBS may volunteer to serve on an EOS from age 50 to a maximum age of 53. Any such EOS will not extend an individual's eligibility zone for consideration for promotion to Lt Col RM.

2. In accordance with Para 6620 sub para b, any Lt Cdr or Major with a seniority date prior to 1 Jul 01 who would have had a last opportunity of promotion in December (under previous rules) will continue to be considered with those being considered for substantive promotion for the last time in the following June.

3. **Commission Extension (CE).** This is a change in EED that extends the current commission stage and, as a consequence extends the promotion and/or transfer eligibility window. Zones will be based on the revised Termination Date (ie. officers selected for CE60 zone exit will be Tx-3).

Notes:

1. In accordance with Para 6620 sub para b, any Cdr or Lt Col with a seniority date prior to 1 Jul 01 who would have had a last opportunity of promotion in December (under previous rules) will continue to be considered with those being considered for substantive promotion for the last time in the following June.

2. With the exception of Chaplains, officers will be considered by the Selection Board for the first time provided they have 2 years’ seniority on 30 June of the year of the Board.

3. In the case of Chaplains, officer service includes time spent as a Chaplain in the Army and/or RAF; the zone end is flexible providing a Chaplain has sufficient service remaining to complete the appointment as Principal Chaplain.

4. Officers on CE60 who are subsequently promoted to OF5 will revert to RA55 or promotion date plus 3 years, whichever is longer.

</tbody>
</table>
Notes:

1. These promotion zones apply to all Medical, Dental and QARNNS officers from 1 Apr 03, regardless of whether or not they transfer to the new commission structure.

2. Officers will be considered by the Selection Board for the first time providing they have 6 years (Surg Lt Cdr and Lt Cdr QA), 5 years (Surg Cdr), 4 years (Cdr QA) and 3 years (Surg Capt) seniority by 30 Jun of the year following the Board.

3. While eligible for selection, Medical and Dental officers who are still on the unaccredited pay spine will not be entered into the Pool for substantive promotion to Surg Cdr/Surg Cdr (D) until they are accredited (MRCGP for GMPs and ASCAB for all Consultants (including Occupational Medicine)) and have also been assessed as an ‘A’ grade candidate by the Board for the current promotion year.

4. Promotions to Flag rank are conditional on officers having sufficient service remaining to complete two assignments in the higher rank.

**UNCONTROLLED WHEN PRINTED**
Notes: (to be deleted once read):

1. a. After a check of the position details in JPA, the CM should liaise with the Employer and Branch Manager to determine whether the position could be rank ranged or de-enriched to the lower rank. In general, the Officer Cadre is top heavy and any action to de-enrich a position would be supported in full.

   b. Confirmation that the organisation is operating outside the gapping levels prescribed in the latest Manning priorities DIN. If it within the prescribed limits then there is no obligation to fill.

2. Normally the Career Manager should nominate a minimum of two potential candidates to the appropriate Approving Officer.

   There needs to be analysis of the availability of all the alternative personnel that could fill this post and the reasons why they cannot be moved/used.

3. Care should be taken when considering B+ and below for AHR because by definition they are ‘Officers who, in comparison with others of their branch and rank, do not justify promotion this time but who stand every possibility, on current reporting, of being assessed A at the next board’ (Para 6610 sub para b). It follows that if they perform unsatisfactorily in the AHR or act in a way that causes injury, harm or death to others (eg. Haddon-Cave) then the CM/Approving Officer’s decision and rationale may be held to account. This may be an issue when considering AHR for OP Tours where the risk may be higher.

PART 4: SO1 CAREER MANAGER CHECK

1. Comments:  
   
   To check that all points are answered

2. Higher approval required?  
   YES/NO

3. Recommended?  
   YES/NO

Signature:  
Date:
PART 5: NPT BRANCH MANAGER - SCRUTINY AND ADVICE

1. Comments

Delete text in red when read

Branch Manager should be able to demonstrate that granting the AHR will not result in the strength exceeding the Planning Liability in the current/future years.

Predicted Strength at CPD will be equal to

Start strength (inc. AHR, FTRS filling regular billets)

Negatives
- outflow (VO)
- outflow (TX)
- outflow (R)
- outflow (Med)
- outflow (prom to next rank)

Positives
+ inflow (prom in from next rank ie. agreed MAuN – if applicable)

All outflow between now and CPD
All inflow between now and CPD
Repeat until date of AHR relinquish.

This can be compared with the latest Planning Liability at the CPD to determine whether there is headroom for AHR.

CHAPTER 67

RATINGS POLICY - SELECTIVE PROMOTION

SECTION 1 - BACKGROUND

6701. Background to Selective Promotion

a. In the non-technician, Engineering Technician and (from 1 Nov 06), Communications Technician specialisations, ratings join the Service in their basic branch designators (BD), whatever their age, and progress through the rate/rank structure from Able Rating to Warrant Officer 1 (WO1) in accordance with the qualifications dictated by individual specialisation requirements shown in Chapter 74 to Chapter 91.

b. Due to the training and attainment of qualifications required early in a rating’s career, there is a need to differentiate between those qualified in their specialist area to conduct the full range of specialist and technical duties of the Able Rate and those still under training. Accordingly, the expertise of Able Ratings is recognised by use of the basic and trained BD, such as AB(WS)2 and AB(WS)1. Throughout this Chapter, 'BD2' and 'BD1' are used respectively. Able Ratings should be addressed as ET, Diver etc. as appropriate. In the remaining technician specialisations, only promotion to the rank of WO1 is by selection. Advancement to AB1, and to rates up to and including CPO in the case of Medical Technicians and legacy Communications Technicians, is time and qualification based. Further information can be found in Chapter 68.

c. Promotion is based on the concept of ‘select-train-promote’, achieved by Selection Boards selecting qualified ratings to be assigned to professional and/or leadership courses in the intervening period prior to a Common Promotion Date (CPD):

(1) For promotion up to and including Petty Officer level, there can be up to 3 Boards per year (31 Mar, 31 Jul and 30 Nov), depending on individual branch/specialisation requirements, with the CPD falling 12 months after the Board Date. Successful completion of the Leading Rates Leadership Course (LRLC) and Senior Rates Leadership Course (SRLC) (including the reduced syllabus courses run for ratings who are not Medically Fully Deployable (P2)) is mandatory for promotion to LH and PO respectively.

(2) For promotion to CPO and WO1, ratings are selected for promotion on a CPD of the next 31 March but one, eg. the 2016 PO-CPO Board will select individuals for promotion on CPD 31 Mar 18.

d. Notwithstanding the receipt of an Assignment Order, actual attendance on training courses prior to the CPD will be subject to Service requirements. All fully qualified individuals will be confirmed in the higher rate on their nominated CPD, however, on successful completion of the training, ratings will become eligible to fill an established post in the higher rate on an acting basis. Individuals who are not able to complete the training by their CPD will be treated in accordance with the rules set out in Para 6714.
SECTION 2 - PRE-SELECTION BOARD ISSUES

6702. Preparation for Selection Boards – Promotion Authority

Assistant Chief of Staff (People Capability) (ACOS(PCap)) provides the Secretary for all Selection Boards and maintains Promotion Dossiers. The latter will be maintained for all personnel on the trained strength of the RN and will form the basis for consideration by Selection Boards. Dossiers will be raised on receipt of an individual’s first Appraisal Report and will contain Appraisal Reports along with copies of professional and leadership course reports, as applicable. The same dossiers will also be used by Engagement Stage 3 (ES3) Boards where ratings are eligible for such consideration.

6703. Eligibility for Selective Promotion

a. The eligibility criteria shown below are common throughout the Ratings Corps, however, individual branch/specialisation Chapters (74-91) may include additional requirements or contain further clarification. Should conflict exist between this Chapter and regulations in other Chapters of Part 8, the information in this Chapter is to take precedence.

b. It is an individual rating’s responsibility to ensure that JPA correctly reflects all competencies achieved by their Common Reporting Date (CRD) or Streamlined Eligibility Date (SED). Individuals are advised to check the relevant branch flowcharts at Chapters 74-91 or contact the Ratings’ Promotion Section for advice. Divisional Officers are to conduct routine checks accordingly. Ratings must satisfy the following criteria and will not be presented to Promotion Selection Boards if JPA records do not reflect attainment of the qualifications/competencies where applicable:

(1) **Professional Knowledge.** Must have passed a Provisional Examination (PE) (or equivalent) for the higher rate, where applicable.

(2) **Seniority.** Seniority requirements for promotion up the rate of PO can differ by specialisation – see the individual branch chapters for more detail. For promotion to CPO and above, individuals must normally have a minimum of 36 months’ seniority in the rate from which to be selected 12 months prior to the CPD. For example, for a PO to be eligible for consideration (by a Board sitting in October 2016) for promotion to CPO on a CPD of 31 Mar 18, a rating must have 36 months’ seniority on or by 31 Mar 17. Exceptionally, in the case of promotion to WO1, substantive WO2s, and those selected for WO2 but have yet to reach their CPD, will be eligible for consideration regardless of the seniority held in their rate.

(3) **Promotion Recommendation.** To be considered for promotion, ratings must have received a ‘Yes’ or higher recommendation for promotion 1 Rank Up on their SJAR. The Ratings’ Promotion Section will conduct a search on First, Second and Third Reporting Officers’ recommendations for ‘Promotion – 1 Rank Up’ to identify which candidates are eligible. Reporting Officers must appreciate that the Recommendations matrix provides for assessments on ‘suitability’ for promotion regardless of eligibility, ensuring promotion potential assessments are based purely on ‘merit’.
Qualified ratings who do not wish to be considered for promotion are to sign a statement to that effect on their Appraisal Report. Where an otherwise fully eligible candidate receives an SJAR assessment of ‘Insufficient Knowledge’ in their latest report, presentation before the next Board will be determined by the Ratings’ Promotion Section using the previous report recommendation. In those branches where streamlined promotion is adopted, the SEDs of 31 Mar, 31 Jul and 30 Nov in any year will apply – see also Para 6703 sub para c. If a streamlined promotion candidate has been awarded a positive recommendation for promotion (as above) in the last SJAR and, since that report, has become eligible in all other respects for selection, he/she will be placed before the Selection Board.

(4) **Leadership Training.** To be considered for promotion, candidates must have successfully completed the relevant Leadership Course for their current rate. For example, a rating must have completed a LRLC to be considered for PO and an SRLC to be considered for CPO. Details should be recorded on JPA as competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’ and ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’ or similar.

(5) **Notice.** To be considered for promotion, candidates who have submitted their Notice to leave must still be serving on the day after the relevant Promotion Board sits. (see Para 6705).

(6) **Engagement.** To be considered for promotion, candidates must be serving on an Engagement Stage 1 or 2, Full Career or Open Engagement (OE1), or an Engagement Stage 3, Extended Career or Second Open Engagement (2OE) that expires after the CPD in question. For example, to be considered by the November 2016 Board (selecting for 30 Nov 17), individuals must be serving on an ES1/ES2/FC/OE1 or ES3/EC/2OE that is due to expire on or after 1 Dec 17.

(7) **Specialist/Long Training.** To be considered for promotion, candidates must not have started training for Communications Technician, Medical Technician, Naval Nurse, Dental Hygienist or a sideways entry specialisation. POs who have commenced technician training courses, or the course to become a Naval Nurse, are not considered for promotion to CPO in their source specialisation. POs selected for promotion who are candidates for such training, will be given the option of refusing promotion in order to await their respective training. If a PO, who has refused promotion, is subsequently removed from a technician training course, the facts are to be reported to the SO1 Ratings’ Promotions for a decision about the rating’s future promotion.

(8) **Operational Performance Statement (OPS) Check.** Under streamlined promotion, the OPS Check is a part practical, part oral procedural test to check that minimum baseline standards are being maintained by ABs and LHSs. Ratings are required to undertake an OPS Check at some point each year and to keep in-date on an annual basis.
With the introduction of SJAR, two new ‘Annual OPS Check’ competencies have been created on JPA, namely ‘CMS Annual OPS Check AB1(Navy)’ and ‘CMS Annual OPS Check LH(Navy)’, each with a Pass, Waiver or Fail category and End Date. For ABs and LHs in the Engineering and Medical branches, the appropriate JPA ‘Annual OPS Check’ field must be entered on JPA by unit HR personnel by subsequent CRDs and SEDs as required in the branch instructions. For branches that require a ‘one-off OPS Check’, the appropriate JPA competency that gives them that ‘one-off OPS check’ will continue to be applied.

(9) Other Criteria. To be considered for promotion, candidates must comply with any other pre-selection criteria contained in the individual specialisation flow diagrams for that rate by the CRD or SED.

c. JPA Records. As the Ratings’ Promotion Section will only present to Selection Boards those individuals who are eligible according to JPA, Reporting/Divisional Officers and individuals must input promotion eligibility data on JPA by the individual’s CRD and, where streamlined promotion is in force, at the latest by the appropriate SED of 31 Mar, 31 Jul or 30 Nov. For LET/POET GS/SM Selection Boards, the 31 Jul SED is 30 Sep (see also RNTM 144/13).

d. When establishing and verifying eligibility for consideration by promotion Selection Boards, the Ratings’ Promotion Section will react only to data input on JPA by CRDs and SEDs. The relevant branch Chapters detail the specific JPA data entries to be made, primarily in the JPA competencies area, when an individual achieves a particular promotion eligibility requirement. If the relevant JPA fields are not correctly completed, eligible ratings risk not being presented to Boards. In some instances the JPA competencies area offers more than one competency for essentially the same course and/or qualification. This is often simply a consequence of titles changing over the years. In this event, the Ratings’ Promotion Section will conduct an eligibility search for all JPA competencies that relate to a particular course or qualification. There is, therefore, no need for ratings to make arrangements to replace their existing JPA competency with the current one.

e. The policy changes detailed above enable rapid and accurate assessment on JPA of a rating’s eligibility for promotion at any time. However, the timely and accurate input of data is crucial to the success of the process and unit Commanders are to take action to ensure that promotion eligibility data is correctly entered on JPA. Where data presented on JPA is inaccurate, and as a consequence a rating who would otherwise be eligible for consideration for promotion by a Selection Board is not considered, that data must be corrected, and administrative action taken to redress the issue.

6704. Eligibility for Promotion in Source Specialisation Whilst on a Specialist/Long Training Course

a. Selection Boards will not consider ratings undergoing specialist training to be a Communications Technician, Medical Technician, Naval Nurse, Dental Hygienist or any other that necessitates a change in arm or specialisation (including those that are sideways entry). Ratings who have commenced the UY(E) University of Portsmouth Degree training course will not be considered.

b. Volunteers for specialist training will continue to be considered for promotion in their source specialisation. If they are selected and pass the requisite professional and leadership courses before starting their specialist training, they will be promoted to the higher rate (on an acting basis) if employed in a position that requires the higher rate and/or will be confirmed on the CPD (if reached before commencing their specialist training). However, if on the day that an individual starts a specialist training course they have not yet obtained the qualifications needed for promotion (or they are qualified but have not reached the CPD), they will:

   (1) If selected for promotion in their source specialisation, forfeit their selection and will not be considered further for the duration of the course.

   (2) If not selected for promotion in their source specialisation, not be considered for promotion in their source specialisation for the duration of the course.

c. If, having elected to start a specialist training course instead of awaiting promotion, an individual subsequently opts to leave the course or fails it, the facts are to be reported to SO1 Ratings’ Promotion for a decision about the rating’s future promotion. Each case will be considered on its merits, however, the defining principles will be as follows:
(1) If an individual opts out of or fails the course prior to the CPD for which selected, the promotion should stand. Promotion to the higher rate (and therefore seniority) will count from the CPD if all the required qualifications have been attained.

(2) If opting out or failing outside the timeframe, the promotion should be forfeited, and the rating reconsidered at the next Board if qualified in all respects for the higher rate.

d. **Artificer Candidates.** Rules for former Artificer Candidates undertaking the Artificer Qualifying Course are archived in BR1066 Change 19 (available via application to NPGO).

### 6705. Selection for Promotion with Less than Two Years to Serve

a. To be eligible for consideration by a Selection Board, ratings must be serving on an ES1/ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD. For example, to be considered by the November 2017 Board (selecting for CPD 30 Nov 18), individuals must be serving on an ES1/ES2/FC/OE1 or ES3/EC/2OE OE1, FC, 2OE or EC that is due to expire on or after 1 Dec 18. Exceptionally, ratings with a Terminal Expiry (TX) date that falls before the CPD may be considered if the Manning situation requires such action, but this will not be the norm and promotion in such cases will be dependent on the selected individual agreeing to extend to complete 2 years in the higher rate.

b. If an individual who has submitted their Notice to leave the Service is selected for promotion, it will be conditional on the individual choosing to withdraw their Notice and that withdrawal being approved by the Career Manager.

c. Individuals who on promotion have less than 2 years to serve may, on or after selection, apply to ACOS(PCap) for an extension of service on Form S61 (clearly annotated ‘Application for Extension of Service for Promotion’). This will allow the completion of a full assignment in the higher rate and safeguard a final pension in the rate to which promoted. An extension of service will usually run from the date that a rating assumes the higher rate, whether acting or confirmed (in JPA terminology – known as acting (paid) rank) as a result of selection (i.e. on direct assignment to a higher position). Extensions of service will not normally exceed 2 years beyond an individual’s current Termination Date, however, the Career Manager in consultation with the Branch Manager may agree a longer extension in order for an individual to complete one full tour at the higher rank (including any training requirement for the post and resettlement training entitlement (sea assignment only)). The Branch Manager is to be informed of all extensions of more than 2 years, prior to Career Manager approval, and is to be approached in all instances where uncertainty exists. All such extensions are voluntary and subject to service requirement. In no circumstances will individuals be permitted to serve beyond the maximum retirement age of 55 years. For reference, promoted individuals who wish to leave on their Termination Date, even if shortly after a CPD, are entitled to do so.
d. Individuals serving on an extension of active service or active service engagement are not eligible for consideration for promotion.

6706. Selection by Board

a. This is the normal process for identifying individuals who are suitable for further training/promotion. Selection Boards will be convened by ACOS(PCap), on behalf of the Second Sea Lord (2SL), in accordance with the table below - a standard Board having a Chairperson and three members as a minimum. WOs and CPOs play a full part in the selection process where allowed. Composition of Boards is as shown in the table below which shows the minimum rank for each Board position.

<table>

</tbody>
</table>

* Usually a Branch or Career Manager (BM/CM)

The Chairperson will usually be the senior member on the Board. Members 1 and 2 will be drawn from the relevant branch/specialisation and will usually be a trainer and employer. Member 3 will be drawn from a different specialisation.

b. In order to meet unexpected shortfalls arising after the Board has convened, a limited number of reserve selections may also be made at the same time as the main selections.

c. Observers (at CPO level and above) are welcomed at these Boards in order to gain a wider appreciation of the process. A maximum of two individuals is permitted and places may be requested through the WO1 Ratings’ Promotion Section.
SECTION 3 - POST-SELECTION BOARD ISSUES

6707. Promulgation of Names of Successful Candidates

a. The names of successful candidates will be promulgated, alphabetically, by signal shortly after each Selection Board. Wherever possible, ACOS(PCap) aims to assign successful candidates to appropriate leadership and professional courses in the period up to the CPD and then, as soon as possible afterwards, into a post in the higher rate. ACOS(PCap) will endeavour to assign all ratings to relevant courses on an opportunity basis but the needs of the Service remain paramount. Every effort will be made by ACOS(PCap) to link a professional and leadership course (if necessary) as a training package. Whilst allocation to a Professional Qualifying Course (PQC) will normally be undertaken automatically by ACOS(PCap), attendance on a leadership course is, by its nature, more volatile and successful candidates should be encouraged to state their availability or preference via JPA. This further identifies that arrangement of suitable training is the common responsibility of ACOS(PCap), the selectee and their CO.

b. The selections are intended to meet the expected vacancies arising during the period leading up to the CPD. To meet unexpected shortfalls, a limited number of Reserve selections will be made but will not be announced unless subsequently called forward. Reserves who are not called forward will be considered for re-selection at the subsequent Boards if still eligible for promotion; any previous reserve selection will be lost. If a sudden vacancy occurs prior to the CPD and after the Board for the next CPD has already convened, such a vacancy will necessarily be filled, temporarily, by use of the acting higher rate.

6708. Promotion Authorisation Request Procedure

a. The Promotion Authorisation Request (PAR) process for ratings selected for promotion to LH and above is summarised below:

<table>
<thead>
<tr>
<th>RPS Issues Promotion Signal</th>
<th>RPS signals selectees’ current Units requesting</th>
<th>Units conduct ‘Requestment style check’ of</th>
<th>RPS substantively promote all</th>
<th>Where selectees subsequently become eligible for substantive promotion. Units are to send a PAR signal to the RPS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Promotion following Board</td>
<td>'Requestment style check' of substantive promotion of selectees wef CPD</td>
<td>Units to check eligibility for substantive promotion of selectees wef CPD</td>
<td>RPS substantively promote all eligible selectees</td>
<td>RPS establish on JPA if selectees are fully qualified (eg PQC complete). If not, the Career Mgr, Requirement Mgr and TOS Team will advise and, if necessary, the RPS will deselect and instruct Units to revert individuals accordingly.</td>
</tr>
</tbody>
</table>

Processes:
- **Selected for promotion**
- **CPD - 2 months**
- **CPD**
- **CPD + 2 weeks**
- **Between CPD and CPD + 12 months**
- **CPD + 12 months (and at 3 monthly intervals thereafter)**
b. Two months prior to the CPD, the Ratings' Promotion Section will signal units to verify the eligibility of ratings selected for substantive promotion on that CPD. It is important that units conduct normal ‘Requestmen style checks’ (see sub para (1) to sub para (12)), including obtaining the CO’s approval, on all selected ratings. Units are then required to inform the Ratings' Promotion Section, by signal, within 2 weeks of the CPD, of any rating that does not meet the requirements listed at sub para (1) to sub para (12). Furthermore, action in accordance with Para 6711 should be commenced if the reason for the withholding of promotion is considered applicable. Where the rating subsequently becomes eligible for substantive promotion between that date and the nominated CPD+12 months and meets the requirements listed at sub para (1) to sub para (12), the rating's unit at the time is to signal the Ratings' Promotion Section accordingly using the PAR format. Individuals will be eligible for promotion to the higher rate if they:

(1) Are professionally qualified.

(2) Are educationally qualified.

(3) Have passed the Naval Swimming Test (save for females with no sea service liability).

(4) Have completed the required Service Qualification.

(5) Have been declared medically fit (pregnancy does not debar female ratings from promotion or advancement).

(6) Have more than 6 months service following a Career Check.

(7) Have the experience and personal attributes required and pass leadership training.

(8) Have the power to command subordinates.

(9) Are recommended as suitable to carry out the duties of the higher rate.

(10) Meet particular branch/specialisation requirements, eg. sea service.

(11) Are in date for RNFT.

c. At CPD+2 weeks, if no negative communication has been received, the Ratings’ Promotion Section will substantively promote those qualified and eligible with effect from their CPD and will update JPA records accordingly.
6709. Duties and Responsibilities of the Higher Rate

a. The explanation of duties and responsibilities of the higher rate occurs either at the Royal Naval Leadership Academy HMS COLLINGWOOD, as part of the Leadership Course, or at the School conducting the PQC (whichever comes last).

b. The CO (or Head of Department) may wish to remind newly promoted ratings of the duties and responsibilities of their new rate. The opportunity to do this could be when they pay their joining call on the CO/Head of Department.

c. Prior to assuming the next rate, all personnel have a responsibility to ensure they meet the normal promotion criteria (e.g. medical/physical fitness, Career Checks – see Para 6708).

d. Certificate of Promotion. Leading Hand, Petty Officer and Chief Petty Officer Certificates of Promotion are managed by the Command Warrant Officers and are available for duplication from the Navy Command Executive Team (NCXT) Web Site. For units unable to access the RN Web, hard copies are available from: The Command Warrant Officers, MP 3-1, Leach Building, Whale Island, Portsmouth, PO2 8BY.

e. COs may use their discretion when arranging the occasion for presentation, but are to ensure that these certificates are presented in a timely fashion and manner which appropriately reflects the individual’s achievements through their selection for promotion, and provides inspiration to others.

6710. Promotion to Warrant Officer 1

a. Candidates selected for promotion to WO1 will be offered the opportunity to serve for an additional 10 years beyond their OE1/FC/ES2, on an Engagement Stage 3 (ES3) (for Medical Branch and QARNNS candidates the entitlement is to serve on ES3 for an additional 5 years past their OE1/FC/ES2). Where a candidate, including Medical Branch and QARNNS, is already serving on OE2/EC/ES3 or an EOS, they will be invited to re-engage on ES3 to complete the balance of 10 years additional service calculated from the expiry date of their original OE1/FC/ES2. Where a candidate has already served for 10 additional years or more past the expiry date of their OE1/FC/ES2 on any combination of OE2/EC/ES3 or EOS, there is no automatic entitlement to further ES3 on selection for promotion to WO1. Any offer of extended service is conditional on a rating accepting the promotion to WO1. There is no requirement for ratings to re-engage on an ES3 as a condition of promotion to WO1. This includes RM other ranks with a RN specialisation (e.g. Catering Services, Aircrew (CDO) and Medical Assistant (CDO)).

b. After all WO1 Selection Boards have finished sitting, the procedure will be as follows:

(1) A provisional list of selected candidates, originated by the Ratings’ Promotion Section, will be issued in signal form. The signal will also specify those candidates who will be offered the option of re-engaging on a 10 year ES3.
(2) COs are required to inform Ratings Career Managers and the Ratings’ Promotion Section by signal, as early as possible but not later than the date shown in the provisional list of selected candidates, that:

(a) The candidate has accepted, and is currently fit for, promotion; or

(b) The candidate has accepted promotion but is currently temporarily medically unfit for promotion; or

(c) The candidate does not wish to accept promotion;

and, if offered re-engagement on a 10 year ES3 (where not already serving on an ES3/EC/2OE) and has accepted promotion, that:

(d) The candidate has accepted, and is currently fit for, ES3; or

(e) The candidate has accepted ES3 but is currently temporarily medically unfit to re-engage on ES3; or

(f) The candidate does not wish to accept ES3 (this does not debar promotion).

(3) Where re-engagement has been accepted, a Form S61, approved by the CO and quoting this Article as authority for re-engagement and certifying medical fitness after a full examination, is to be forwarded to the Ratings’ Promotion Section.

c. In order to reduce the volume of signal traffic, the abbreviation ‘AOPS’ may be used to indicate acceptance of promotion and ES3, ‘AOP’ for acceptance of promotion only or ‘NI’ if the rating has refused promotion. If it is a positive response, confirmation of an individual’s current medical fitness is to be stated.

d. Following acceptance, promotion will be authorised by the Ratings’ Promotion Section no later than their CPD. Ratings appointed to a WO1 position before their CPD will be granted the acting higher rate and paid as a WO1 from the date that the Assignment Order takes effect.
6711. Withholding of Promotion after Selection

a. If, after a rating’s name has appeared on a promotion list, a CO considers that, because of a Career Check (Para 6718 sub para a) or some other serious reason, he/she is no longer recommended and that promotion should be withheld, the following procedures are to be followed:

(1) An Appraisal Report (Special Circumstances) is to be raised on JPA giving reasons for recommending that a rating’s promotion should be withheld. Simultaneously, a letter outlining the circumstances and confirming the raising of the appraisal is to be sent to the Navy Command Headquarters Casework Cell, copy to the Ratings’ Promotion Section.

(2) The Casework Cell will approve the recommendation (or not, as appropriate), informing the Ratings’ Promotion Section of the decision.

(3) If the recommendation to withhold promotion is approved, the rating’s selection will remain in abeyance and direction may be given by the Navy Command Headquarters for the vacancy created to be filled from the reserve list.

(4) A rating, whose promotion has been withheld, may be recommended for promotion by the CO at any time within 6 months of the date on which the withholding of promotion was approved, or of the effective date of the Promotion Order, whichever is the earlier. This requires approval by Navy Command Headquarters.

(5) If the recommendation in Para 6711 a sub para (4) is approved, the effective date of promotion will be the date of the CO’s recommendation or the CPD, whichever is later.

(6) If, 6 months after the date of the approval to withhold promotion or the CPD, the CO is still not prepared to recommend the rating’s promotion, the selection for promotion will be cancelled.

(7) When a rating, whose promotion has been withheld, is subsequently recommended for promotion or when promotion is finally refused, a further Appraisal Report is to be rendered. This will be extracted by the Ratings’ Promotion Section for inclusion in the rating’s promotion dossier.

b. An individual will not be eligible for substantive promotion until the CO subsequently recommends the individual for such promotion. If eventually recommended and if qualified in all other respects, the individual will be substantively promoted and entitled to seniority and pay from the date of the CO’s recommendation for promotion. If however, 6 months after the date of the approval to withhold promotion or the CPD, the CO is still not prepared to recommend the rating’s promotion, the selection for promotion will be cancelled. Accordingly, the Ratings’ Promotion Section will deselect the rating.
6712. Candidates Refusing Promotion

a. Ratings/Other Ranks who, following selection for promotion, refuse such promotion (including a refusal to attend the necessary training courses) will be deselected. Ratings/Other Ranks will not be considered at the next annual promotion selection board following promotion refusal. Ratings/Other Ranks that belong to branches who convene more than one promotion selection board per year will not be presented to the next two promotion boards that follow their deselection. Ratings/Other Ranks will be presented to promotion selection boards thereafter providing that they continue to meet the eligibility criteria.

b. Exceptionally, applications can be made by personnel who wish to be considered at the next board as a candidate for promotion. Such applications should be made through COs to SO1 RN/RM Promotions who may, in exceptional cases, authorise presentation at future promotion boards without penalty. Recommendations should be forwarded by Unit COs and demonstrate that there has been a change in circumstances; in the case of notice givers, approval would be subject to withdrawal of that notice.

c. Ratings, selected for promotion, who are candidates for long training courses (see Para 6704), are to be given the option of refusing promotion in order to await technician training. In the event of a rating, who has refused promotion, subsequently being removed from these courses, the facts are to be reported to SO1 Ratings’ Promotions for a decision as to the rating’s future promotion.

d. If an individual declines promotion to WO1 after accepting the promotion under the procedure in Para 6710, the CO is to inform the Ratings’ Promotion Section.

e. If an individual submits their Notice for premature release (including applications to leave at an optional exit point) during the period between their selection for promotion and being confirmed in rate, they will automatically be presumed to have refused promotion and their selection will be cancelled. If an individual is fully qualified and is carrying out the duties of the higher rate on an acting basis, invariably, they will be allowed to retain the acting higher rate until leaving the Service providing that a higher rate position continues to be filled.

f. The Divisional Officer of ratings who have either refused promotion or have submitted their Notice for premature release during the period between their selection for promotion and being confirmed in rate is to signal the Rating’s Career Manager, Branch Manager and Ratings’ Promotion Section stating the individual’s service details and the reason for their deselection.
6713. Promotion Whilst on Unpaid Leave or a Career Intermission

a. Qualified ratings who, whilst fully eligible for consideration, commence unpaid leave or a career break before or during the time a Selection Board convenes, will remain eligible for selection. If unpaid leave is anticipated for more than 3 months (a Career Intermission), a Special Report is to be raised unless a routine report has been submitted within the last 3 months (to ensure completeness of reporting).

b. Time spent on unpaid leave or a Career Intermission does not count for promotion purposes. A rating’s seniority in the rate will be post-dated by an amount equal to the time spent away. The adjusted seniority date is to be confirmed on JPA after the rating’s return from unpaid leave or a Career Intermission.

c. If a CPO is selected for WO1 during a period of unpaid leave or career Intermission, the Ratings’ Promotion Section will write to the candidate to obtain a Statement of Acceptance/Intent on return from unpaid leave. This statement will be held until confirmed on JPA within 2 weeks of the rating’s return to duty. If the unpaid leave or Career Intermission starts during the year after selection and extends beyond the CPD, the effective date for promotion and seniority will be the date of return subject to normal regulations.
SECTION 4 - FACTORS IMPACTING UPON THE TIMING OF PROMOTION

6714. Ratings Selected for Promotion Since CPD 31 Mar 09

a. **Fully Qualified for the Higher Rate.** Ratings who, according to JPA, have completed the mandated career (also referred to as professional) and leadership training (if required), are in-date RNFT or hold an approved waiver – see Para 6716 - and are eligible for promotion in all other respects will be substantively promoted on their nominated CPD by the Ratings’ Promotion Section. Individuals who qualify fully for the higher rate in advance of their nominated CPD will continue to have the opportunity of filling a position in the higher rate on an acting basis prior to their formal promotion, subject to being in date for RNFT. Such time will not count for promotion seniority purposes. For guidance in relation to those ratings who are not fully qualified for the higher rate on their CPD, refer to the rest of this Article.

b. **Not Fully Qualified for Promotion on CPD but Completed a Leadership Course – Entitlement to Confirmation in Higher Rate from CPD.** Ratings who, according to JPA, have completed leadership training but not completed career training by their nominated CPD due to Service reasons, defined as:

   (1) Operational Reasons – exigencies of the Service including the short-notice deployment of a ship to an operational theatre and military aid to the civil authorities.

   (2) Manning Constraints – for example, where a ship/unit cannot release an individual to attend a training course due to manpower shortages.

   (3) The Service’s inability to provide the training required in time, e.g. due to a lack of available places or delays in attending or completing a training course arising from the restructuring of the professional training pipeline.

or as a result of pregnancy and Maternity Leave (as defined in JSP 760) will if qualified and considered fit for promotion in all other respects (eg. RNFT, Medical), be promoted by the Ratings’ Promotion Section on the CPD (see Para 6708 for details of the Promotion Authorisation Request (PAR) procedure to be adopted).

c. **Not Fully Qualified for Promotion on CPD but Completed a Leadership Course – Non-entitlement to Confirmation in Higher Rate from CPD.** Ratings who, according to JPA, have completed leadership training but not completed career training by their nominated CPD due to:

   (1) Non-Service Reasons Outwith an Individual’s Control, defined as:

      (a) Being withdrawn prior to or during a training course on compassionate or welfare grounds.

      (b) Being placed in a reduced medical category as a result of injuries sustained:

         i. In preparation for or during a Leadership Course.
ii. In preparation for or during a Royal Navy Fitness Test.

iii. Whilst participating in representative sport.

iv. Whilst on duty.

(c) Being placed in a reduced medical category as a result of illness.

will not qualify for substantive promotion on the CPD. Such ratings will, however, if completing the outstanding training within 12 months of their CPD, be substantively promoted on the day after completing their training, if eligible for promotion in all other respects, and be entitled to backdated promotion (pay and seniority) to their CPD. On qualifying fully, a PAR signal (see Para 6708) should be sent to the Ratings’ Promotion Section by the rating’s unit (via the CO) seeking JPA action to reflect the higher rate and to apply the award of backdated promotion.

(2) Non-Service Reasons Within an Individual’s Control, defined as:

(a) A period of approved unpaid leave.

(b) An approved career break.

(c) If being back-classed for academic reasons or having failed a professional course, they are given another chance.

(d) If, having been denied promotion on their CPD for service reasons listed at Para 6714 b sub para (1), they fail to complete the first course(s) to which assigned after the CPD (assuming that they are given every opportunity to complete the course and their failure does not lead to deselection) but complete the course(s) at the second attempt within the 12 months allowed.

(e) Being subject to a Career Check.

(f) Removal from a Professional or Leadership Course on grounds of misconduct or for other disciplinary reasons; the outright failure of, or refusal to attend, such courses; failure of a Leadership Course twice for commitment/attitude/preparation (CAP) reasons.

will not qualify for substantive promotion on the CPD. Such ratings will however, if completing the outstanding training within 12 months of their nominated CPD, be substantively promoted, if eligible for promotion in all other respects on the day after becoming fully qualified for promotion. However, such individuals will not be entitled to promotion backdated to the CPD. On qualifying fully, a PAR signal (see Para 6708) should be sent to the Ratings’ Promotion Section by the rating’s unit (via the CO) seeking JPA action to reflect the higher rate.
d. **Not Fully Qualified for Promotion on CPD and Not Completed Leadership Course**

(1) **Pregnancy or Maternity Leave.** Ratings who, according to JPA, complete the mandated career training but not leadership training, or indeed neither, by their CPD as a consequence of pregnancy or maternity leave will be entitled to receive the acting higher rate from their CPD. A PAR signal should be sent by the rating’s unit, via the CO, to the Career Manager or Career Management Cell (as appropriate) for action, copy to the Ratings’ Promotion Section. If, after their CPD, leadership training is completed prior to career training, the rating will, if eligible for promotion in all other respects, be substantively promoted and be entitled to pay and seniority backdated to their CPD.

(2) **Service Reasons.** Ratings who, according to JPA, complete the mandated career training but not leadership training, or indeed neither, by their CPD as a consequence of Service reasons (as defined at Para 6714 sub para b) will not qualify for substantive promotion or the acting higher rate on the CPD. Such ratings will however, on completion of the outstanding training within 12 months of their CPD, be eligible for substantive promotion if eligible for promotion in all other respects and be entitled to apply to the Ratings’ Promotion Section for backdated promotion to their CPD. Where, after the CPD, leadership training is completed prior to career training, the individual will, if eligible for promotion in all other respects, be eligible for substantive promotion and be entitled to backdated promotion to their CPD.

(3) **Non-Service Reasons Outwith an Individual’s Control.** Ratings who, according to JPA, complete the mandated career training but not leadership training, or indeed neither, by their CPD as a consequence of non-Service reasons outwith their control (as defined at Para 6714 c sub para (1)) will not qualify for substantive promotion or the acting higher rate on the CPD. Such ratings will however, if completing the outstanding training within 12 months of their CPD, be substantively promoted if eligible for promotion in all other respects and be entitled to backdated promotion to their CPD. Where, after the CPD, leadership training is completed prior to career training, the individual will, if eligible for promotion in all other respects, be substantively promoted and be entitled to backdated promotion to their CPD.

(4) **Non-Service Reasons Within an Individual’s Control.** Ratings who, according to JPA, complete the mandated career training but not leadership training, or indeed neither, by their CPD as a consequence of non-Service reasons within their control (as defined at Para 6714 c sub para (2)) will not qualify for substantive promotion or the acting higher rate on the CPD. Such ratings will, however, if completing all the outstanding training within 12 months of their CPD, be substantively promoted if eligible for promotion in all other respects and be entitled to pay and seniority in the higher rate from the day after becoming fully qualified for promotion. Where, after the CPD, leadership training is completed prior to career training, the individual will, if eligible for promotion in all other respects, be substantively promoted and entitled to seniority from the day after becoming qualified for promotion.
(5) If, having failed to complete the mandated career or leadership training, or both, by their CPD, a rating qualifies fully within 12 months of the CPD, PAR signal action (see Para 6708) should be taken by units to reflect the higher rate and to award backdated promotion where appropriate.

e. **Failure to Complete the Required Training within 12 months of CPD**

(1) Ratings who:

(a) Were substantively promoted on their CPD but had not completed the required professional training due to Service reasons or pregnancy/maternity leave (see Para 6714 sub para b).

(b) Had completed their leadership training by their CPD but were unable to complete the required professional training for non-Service reasons, as shown at Para 6714 c sub para (1) and sub para (2).

(c) Had not completed a leadership or professional course, or both, by their CPD (Para 6714 sub para d).

must complete any outstanding training within 12 months of their CPD or be reverted (where applicable) and deselected (see Para 6719) on the instruction of the Ratings’ Promotion Section. However, the Ratings’ Promotion Section may, where requested by an individual’s chain of command, delay the taking of such action for a further six months if it is clear that the mandated training has not been completed for Service reasons (Para 6714 sub para b) or non-Service reasons outwith an individual’s control (Para 6714 c sub para (1)) and it is anticipated that the outstanding training will be completed within the discretionary period. In addition to this, a further six months may, exceptionally, be granted where pregnancy and maternity leave have prevented the completion of training; when calculating training time, periods when an individual is pregnant or on maternity leave are discounted. SO1 Ratings’ Promotion may authorise a six-month extension for ratings selected for POET(ME/MESM), POET(WE/WESM), LET(ME/WE), LET(MESM/WESM) and LAET(M/AV) if their attendance on the Professional Qualifying Course has been delayed for Service reasons. In every case, ratings who complete the outstanding training within the extra time awarded will be entitled to have their promotion backdated to the CPD for which selected. Appropriate PAR signal action (see Para 6708) should be taken to inform the Ratings’ Promotion Section.

UNDER NO CIRCUMSTANCES WILL RATINGS BE PROMOTED TO THE HIGHER RATE IF THEY HAVE NOT COMPLETED A LEADERSHIP COURSE.

(Rules relating to the promotion of ratings selected for CPDs before 31 Mar 09 are archived in BR1066 Change 19)
6715. **Medical Fitness**

a. Ratings/ORs who are medically downgraded, and those who are likely to be categorized as permanently unfit for sea service or be restricted otherwise medically in the future, will normally remain eligible for selective and non-selective promotion. The following principles apply:

b. **Personnel with a Permanent JMES.** All individuals who have been awarded a permanently reduced JMES code by NSMBOS or by ROHC will be assessed by the NSMEB for their suitability for promotion as part of their determination in retaining an individual in service. This determination will take into account age, past experience, seniority, the nature and extent of the medical limitations, and types of assignment for which the individual might be required to undertake in the current rank and higher ranks if selected for promotion or due for advancement. By default the assessment will assume that retention in service will also include the potential for service at the next higher rank/rate. If the NSMEB are unable to offer continued employment in a higher rank or rate, then the individual will be deemed medically unfit for promotion.

c. **Personnel with a Temporary JMES.** Individuals in a temporary JMES should undergo medical assessment by an accredited GMP or Consultant Occupational Physician.

(1) Where there is an expectation that the individual will regain MFD status within the next 12 months, the Medical Officer should deem the individual medically fit for promotion.

(2) Where an expectation that a temporary JMES would be removed and the individual regains a previous permanent JMES within 12 months, then individuals should be assessed as per their previous NSMEB determination (see Para 6715 sub para b above).

(3) Where a Service woman is pregnant and has the JMES code of E6, her fitness for promotion should be assessed in light of her previous JMES, providing that there is an expectation that this will be regained following the pregnancy and period of maternity leave. If previously MFD then she should be considered fit for promotion. If she was previously in a permanently reduced JMES, she should be assessed as per her previous NSMEB determination (see Para 6715 sub para b above). If temporarily downgraded prior to the pregnancy then an assessment must be made as to the likelihood of being upgraded within 12 months of a return from maternity leave and if it is likely, then the individual should be deemed fit for promotion. If it is not deemed likely, then the individual will need to be referred to NSMBOS for a permanent medical category to be awarded and their eligibility is to be determined by NSMEB.
(4) Where it is likely that the individual will need a permanently reduced JMES, the Medical Officer should deem the individual unfit for promotion subject to the subsequent NSMBOS/ROHC and NSMEB recommendations. If the individual is subsequently given a permanently reduced JMES by the NSMBOS or ROHC and the NSMEB determines fitness for promotion, then seniority and pay should be back-dated to the original date of intended promotion.

(5) Any doubtful case is to be referred to the NSMEB.

6716. Physical Fitness - Completion of the Royal Naval Fitness Test

a. All serving Naval personnel under the age of 55 are required to be in date for the annual RNFT, or hold an approved waiver, in order to be promoted. The rule covers every type of promotion (selective or non-selective; acting higher rate; that following disrating or reversion). An RNFT attempt is valid for 12 months from the date of the Test; in order to be in date for promotion, an individual must have attempted the RNFT in the preceding 12 months. A ‘fail’ does not restrict an individual from promotion provided they remain engaged with remedial training. The individual’s CO is to determine whether there has been sufficient engagement with remedial training with the usual baseline being an average of 3 periods of training per week or as advised by PT staff. Failure to satisfy this requirement will, invariably, lead to a delay in a rating’s career progression and could, ultimately, result in discharge SHORE action being pursued (see Chapter 54). Exceptionally, RNFT waivers may be granted to ratings who are in a permanently reduced medical category (following review by a NSMEB) and have been declared ‘unfit RNFT’. Ratings who are pregnant or on maternity leave when due promotion will also be exempt from the need to be in date at that time whilst temporary RNFT waivers may also be awarded occasionally in the circumstances shown at Para 2911. Wherever any doubt exists about RNFT policy or these regulations, refer to Chapter 29.

b. Individuals who do not satisfy the stated fitness criteria are to be treated in accordance with Para 6716 sub para f.

c. Awards of the Acting Higher Rate. In order to assume the acting higher rate, ratings must be in date for the RNFT or hold an approved waiver. Qualified individuals who are pregnant or on maternity leave on the day that they are due advancement or promotion to the acting higher rate will be exempt from the requirement to be in date for the RNFT.

d. Individuals who are in date for the RNFT on assuming the acting higher rate will also need to be in date RNFT or have an approved waiver or be pregnant/on maternity leave on the day that they are eligible for confirmation in the higher rate, in accordance with Para 6716 sub para a and sub para b.

e. Re-promotion Following Disrating or Reversion – Requirement to be in Date for RNFT. Ratings are to be in date RNFT or have an approved waiver in order to be restored to the next higher rate following disrating or reversion.
f. **Promotion and RNFT – Eligibility Grid.** JPA recorded RNFT status will not affect an individual’s ability to be selected for transfer or promotion. For promotion, individuals are required to remain in date for RNFT which now means that the test should be undertaken at least annually. The results are to be recorded on JPA but a ‘fail’ will no longer restrict an individual from substantive promotion provided they remain engaged with remedial training. The individual’s CO is to determine whether there has been sufficient engagement with remedial training with the usual baseline being an average of 3 periods of training per week or as advised by PT staff. All personnel are to satisfy this RNFT requirement on the Common Promotion Date/Due Date for which selected or the Due Date for non-selective promotion. The following sub-paragraphs are to be used to determine the impact that the RNFT has on the timing of a rating’s promotion.

(1) **A rating is fully qualified (passed appropriate leadership and career courses) for the higher rate and is considered ready for promotion on the CPD for which selected.**

If an individual is in date for RNFT, holds an approved permanent waiver, is pregnant/on maternity leave or otherwise exempt, he/she will be promoted by the Ratings’ Promotion Section with effect from CPD. However, if this does not apply, the CO is to give the rating one month from the CPD in which to undertake the RNFT, but with the warning that deselection is a possibility if this deadline is not achieved:

(a) If the rating undertakes the RNFT in the time permitted, the individual is to be promoted, post CPD, on the day after becoming qualified if still eligible in all other respects.

(b) If the rating fails to undertake the RNFT in the time permitted, the CO is to determine whether there are any mitigating circumstances (eg. operational, medical or welfare reasons). If so, the CO may approve a time extension of up to two months. If an extension is agreed and the rating undertakes the RNFT in time, the individual is to be promoted, post CPD, on the day after becoming qualified if still eligible in all other respects. If there are considered to be no mitigating circumstances for a rating’s failure to become qualified, the CO should recommend his/her deselection to the Ratings’ Promotion Section and initiate a Formal Warning in accordance with BRd 3(1) Chapter 57 Section 8.

(2) **A rating is eligible (passed appropriate leadership but not career courses due to Service reasons) for the higher rate and is considered ready for promotion on the CPD for which selected.**

If an individual is in date for RNFT, holds an approved permanent waiver, is pregnant/on maternity leave or otherwise exempt he/she will be promoted by the Ratings’ Promotion Section with effect from CPD. However, if this does not apply, the CO is to give the rating one month from the CPD in which to undertake the RNFT, but with the warning that deselection is a possibility if this deadline is not achieved:
(a) If the rating undertakes the RNFT in the time permitted, the individual is to be promoted, post CPD, on the day after becoming qualified if still eligible in all other respects.

(b) If the rating fails to undertake the RNFT in the time permitted, the CO is to determine whether there are any mitigating circumstances (eg. operational, medical or welfare reasons). If so, the CO may approve a time extension of up to two months. If an extension is agreed and the rating undertakes the RNFT in time, the individual is to be promoted, post CPD, on the day after becoming qualified if still eligible in all other respects. If there are considered to be no mitigating circumstances for a rating’s failure to become qualified, the CO should recommend his/her deselection to the Ratings’ Promotion Section and initiate a Formal Warning in accordance with BRd 3(1) Chapter 57 Section 8.

(3) A Rating is not qualified for the higher rate on the CPD for which selected (eg. not passed leadership and/or professional training).

If an individual is in date for RNFT, holds an approved permanent waiver, is pregnant/on maternity leave or otherwise exempt his/her selection for promotion will remain valid for the notified CPD. However, if this does not apply, the CO is to give the rating one month from the CPD in which to undertake the RNFT, but with the warning that deselection is a possibility if this deadline is not achieved:

(a) If the rating undertakes the RNFT in the time permitted, the promotions office is to be notified and the CPD adjusted to the day after becoming qualified if still eligible in all other respects.

(b) If the rating fails to undertake the RNFT in the time permitted, the CO is to determine whether there are any mitigating circumstances (eg. operational, medical or welfare reasons). If so, the CO may approve a time extension of up to two months. If an extension is agreed and the rating undertakes the RNFT in time, the promotions office is to be notified and the CPD adjusted to the day after becoming qualified if still eligible in all other respects. If there are considered to be no mitigating circumstances for a rating’s failure to become qualified, the CO should recommend his/her deselection to the Ratings’ Promotion Section and initiate a Formal Warning in accordance with BRd 3(1) Chapter 57 Section 8.

On subsequently qualifying fully for the higher rate, the rules at Para 6716f sub para (1) will apply.
6717. **Educational Qualifications**

a. It is the Rating’s responsibility to ensure that they are educationally qualified in accordance with Para 9613 and that JPA correctly reflects the achieved competency prior to the award of substantive promotion. Ratings are to satisfy the Education For Promotion (EFP) requirements on the Common Promotion Date for which selected.

1. A rating is fully qualified (passed appropriate leadership and career course) for the higher rate and is considered ready for promotion on the CPD for which selected.

If an individual is EFP qualified, he/she will be promoted by the Ratings’ Promotion Section with effect from CPD. However, if this does not apply, the CO is to give the rating three months from the CPD in which to become EFP qualified, but with the warning that de-selection is a possibility if this deadline is not achieved:

(a) If the rating becomes EFP qualified in the time permitted, the CO is to decide whether to backdate his/her promotion to the CPD. This judgement is to be based on the individual’s previous efforts to gain the requisite educational qualifications and, if agreed, the promotion is to be backdated accordingly. If not, the individual is to be promoted, post CPD, on the day after becoming EFP qualified if still eligible in all other respects.

(b) If the rating fails to gain the necessary educational qualifications in the time permitted, the CO is to determine whether there are any mitigating circumstances (eg. operational, medical or welfare reasons). If so, the CO may approve a time extension of up to three months. Beyond this, cases should be referred to SO1 Ratings’ Promotions for consideration. If an extension is agreed and the rating gains the qualifications in time, the CO is to decide whether to backdate the promotion to the CPD. If agreed, the rating’s promotion is to be backdated accordingly; if not, the individual is to be promoted on the day following qualification. If there are considered to be no mitigating circumstances for a rating’s failure to become EFP qualified in the 3 months (or longer) allowed, the CO should recommend his/her deselection to the Ratings’ Promotion Section.

2. A rating is eligible (passed appropriate leadership course but not career courses) for the higher rate and is considered ready for promotion on the CPD for which selected. The CO is to give the rating three months from the CPD in which to become EFP, but with the warning that deselection is a possibility if this deadline is not achieved:
(a) If the rating becomes EFP qualified in the time permitted, the CO is to decide whether to backdate his/her promotion to the CPD. This judgement is to be based on the individual’s previous efforts to gain the requisite educational qualifications and, if agreed, the promotion is to be backdated accordingly. If not, the individual is to be promoted, post CPD, on the day after becoming EFP qualified if still eligible in all other respects.

(b) If the rating fails to gain the necessary educational qualifications in the time permitted, the CO is to determine whether there are any mitigating circumstances (eg. operational, medical or welfare reasons). If so, the CO may approve a time extension of up to three months. Beyond this, cases should be referred to SO1 Ratings’ Promotions for consideration. If an extension is agreed and the rating gains the qualifications in time, the CO is to decide whether to backdate the promotion to the CPD. If agreed, the rating’s promotion is to be backdated accordingly; if not, the individual is to be promoted on the day following qualification. If there are considered to be no mitigating circumstances for a rating’s failure to become EFP qualified in the 3 months (or longer) allowed, the CO should recommend his/her deselection to the Ratings’ Promotion Section.

(3) Not qualified for the higher rate on the CPD for which selected (eg not passed leadership and/or professional training), a rating attains the required qualifications within 12 months of the CPD and is considered eligible for backdated promotion.

If, on qualifying fully for the next higher rate, a rating is EFP qualified he/she is to be promoted by the CO with an effective date of promotion backdated to the CPD for which selected. However, if this does not apply, the CO is to give the rating three months from the date of qualifying for the higher rate in which to become EFP, but with the warning that deselection is a possibility if this deadline is not achieved:

(a) If the rating becomes EFP qualified in the time permitted, the CO is to decide whether to backdate his/her promotion to the CPD. This judgement is to be based on the individual’s previous efforts to gain the requisite educational qualifications and, if agreed, the promotion is to be backdated accordingly. If not, the individual is to be promoted, post CPD, on the day after becoming EFP qualified if still eligible in all other respects.
(b) If the rating fails to gain the necessary educational qualifications in the time permitted, the CO is to determine whether there are any mitigating circumstances (eg. operational, medical or welfare reasons). If so, the CO may approve a time extension of up to three months. Beyond this, cases should be referred to SO1 Ratings’ Promotions for consideration. If an extension is agreed and the rating gains the qualifications in time, the CO is to decide whether to backdate the promotion to the CPD. If agreed, the rating’s promotion is to be backdated accordingly; if not, the individual is to be promoted on the day following qualification. If there are considered to be no mitigating circumstances for a rating’s failure to become EFP qualified in the 3 months (or longer) allowed, the CO should recommend his/her deselection to the Ratings’ Promotion Section.

6718. Disciplinary Matters

a. Career Check. Where a Career Check is a qualification for promotion, a minimum of six months must have elapsed since a rating’s last Career Check on the due date.

b. Following reversion, the Career Check requirement for eligibility to be considered at the next Selection Board is a minimum of six months (Para 7007 refers).

c. Following disrating from a substantive or acting rate, the Career Check requirement is extended to a minimum of 12 months before a rating may be re-advanced (Para 7002 refers).

d. Suspended Sentence. Ratings under suspended sentence who require the requisite Career Check for promotion may, if recommended, be promoted on the date they would normally be eligible.

e. Disrating or Revision. If, after having been selected for promotion, ratings are disrated or reverted before their actual promotion to the confirmed rate has taken place, their selection for promotion will be forfeited. After re-promotion or re-advancement, they may subsequently become eligible for selection again.

f. Recording of Convictions for Offences and Censures on Promotion Files. Records of convictions by Service and civilian courts, together with details of sentences or Naval Penalties awarded, are to be retained on promotion files until they are ‘spent’ in accordance with the Rehabilitation of Offenders Act 1974 and MOD Policy. Once ‘spent’, all reference to these offences are to be expunged from promotion files by the Ratings’ Promotion Section.
6719. **Loss of Entitlement to Promotion – Reversion and Deselection**

a. Promotion will not be an issue in the following cases where, instead, ratings will be reverted (if applicable) and deselected:

1. If outright failing a professional or leadership course, in accordance with Para 6912 sub para a.

2. If removed from, or withdrawn prior to, a professional or leadership course due to misconduct or other disciplinary reasons.

3. If a second attempt of a professional or leadership course authorised in accordance with Para 6912(c) is subsequently failed.

4. If refusing to attend a professional or leadership course.

5. If submitting Notice to leave the Service after being selected for promotion.

6. If failing to complete a course(s) within 12 months of the CPD or cancelling/being withdrawn from a professional or leadership course within 2 months of the start date (unless due to medical or operational reasons).

7. If failing to undertake the RNFT.

b. **Authority Requirements for Reversion.** The principles regarding the authority required to approve reversion at Para 7003 sub para f are unchanged and apply if a rating is to be reverted following signalled instruction from the Ratings’ Promotion Section or because the CO considers the rating unable to perform his/her duties adequately.

   However, Para 7003 sub para f has been amended to permit COs of Lieutenant Commander rank and above to revert, without recourse to higher authority, ratings who hold substantive rank but who have not yet completed 12 months in the rank since the completion of professional training.

c. **Deselection – Appeals.** If, after a rating has been deselected, it is found that there are mitigating reasons, Service or otherwise, that may have precluded deselection a case may be made, in writing, through COs to SO1 Ratings’ Promotions who may, in exceptional cases and following consultation with the Branch Manager, authorise the re-instatement of the selection, with or without penalties.

d. **Complaints Procedure.** Ratings who are reverted and/or deselected may exercise their right to make a formal Service Complaint in accordance with JSP 831.

CHAPTER 68

RATINGS POLICY - NON-SELECTIVE PROMOTION (ADVANCEMENT)

6801. Background to Non-selective Promotion

a. Currently, the following groups of ratings are subject to non-selective promotion:

(1) Ratings advanced to Able Rating BD1.

(2) Ratings up to Leading Hand in the Aircraft Control Specialisation and Chief Petty Officer (CPO) in the Engineering Technician (ex-Artificers), Medical Technician and Communications Technician (direct entrants pre 1 Nov 06 and sideways entrants pre 1 Sep 07) specialisations.

(3) Ratings up to Chief Petty Officer in the Engineering Technician specialisations who are Fast Track Ratings.

(4) Ratings advanced to Leading Hand who are part of the Accelerated Apprentice (AA) scheme.

(5) Ratings advanced to Leading Hand and/or Petty Officer who are part of the Undergraduate Apprenticeship Scheme (UGAS).

b. The above ratings will be advanced in rate, having served the requisite time period and fulfilled any other requirements as laid down in Chapter 74 to Chapter 90. For ratings with legacy rights to time based advancement, completion of the Senior Rates Leadership Course (SRLC) remains a requirement for advancement to CPO. Medical and Communications Technicians are required to undertake the Leading Rates Leadership Course (LRLC) as soon as possible after advancement to Leading Technician.

6802. Inability to Satisfy Criteria for Advancement to Leading Hand and Above by Due Date

a. On attaining the qualifications needed for advancement to AB1, units are to signal a Promotion Authorisation Request (PAR) on behalf of ratings to the parent ACOS(PCap) Career Management Cell (CMC)/Ratings Career Manager such that the substantive rate can be input on JPA.

b. Medical Technicians, Communications Technicians or Engineering Fast Track Ratings who are unable to obtain the mandated qualifications (including professional and/or leadership) in branch Chapters for advancement to Leading Hand and above by their due date by time (i.e. having satisfied the service qualification) may, subject to the rules below, be entitled to receive the acting higher rate (and/or subsequent backdated advancement) on completion of the service qualification period (adjusted to take account of any accelerated advancement). Additionally, Engineering Fast Track Ratings who have completed Leadership Course (LC) by due date may be advanced substantively in line with their Select, Train and Promote peers.
(1) If Service reasons, defined as:

(a) Operational reasons – exigencies of the Service including the short notice deployment of a ship to an operational theatre and military aid to the civil authorities.

(b) Manning constraints – for example, where a ship/unit cannot release an individual to attend a training course due to manpower shortages.

(c) The Service’s inability to provide the training required in time, eg. due to a lack of available places or delays in attending or completing a training course arising from the restructuring of the professional training pipeline are deemed to be the cause, or if the failure to qualify is attributable to pregnancy or maternity/paternity/adoption leave (as defined in JSP 760), individuals will be entitled to receive the acting higher rate with effect from their due date by time, subject to agreement by the appropriate authority (see Para 6802 sub para c).

(2) If Non-Service reasons outwith an individual’s control, defined as:

(a) Being withdrawn prior to or during a training course on compassionate or welfare grounds.

(b) Being placed in a reduced medical category as a result of injuries sustained:

i. In preparation for or during a Leadership Course.

ii. In preparation for or during a Royal Navy Fitness Test.

iii. Whilst participating in representative sport.

iv. Whilst on duty.

(c) Being placed in a reduced medical category as a result of illness are deemed to be the cause, individuals will not qualify for advancement on their due date by time. Such ratings will, however, if completing the outstanding training within 12 months of their due date, be advanced on completing the training (if eligible in all other respects) and be entitled to receive backdated advancement (pay and seniority) from their due date, subject to agreement by the appropriate authority (see Para 6802 sub para c).

(3) If Non-service reasons within an individual’s control, such as:

(a) An approved period of unpaid leave.

(b) An approved career break.
(c) Being back-classed for academic reasons or having failed a Professional Course, they are given another chance.

(d) Being subject to a Career Check.

(e) Removal from a Professional or Leadership Course on grounds of misconduct or for other disciplinary reasons; the outright failure of, or refusal to attend, such courses; failure of a Leadership Course twice for commitment/attitude/preparation (CAP) reasons are deemed to be the cause, individuals will not qualify for backdated advancement to their due date by time. Such ratings will instead be advanced when fully qualified for promotion, subject to satisfying all other advancement criteria set out in the appropriate Chapters (see also Para 6802 sub para c).

c. Authority to Advance

(1) **Advancement to Leading Hand and Petty Officer.** For advancement to LH and PO, Commanding Officers (COs) are empowered to decide whether a rating qualifies for the award of the acting higher rate in accordance with the criteria set out at Para 6802 sub para b. If a rating is considered to warrant the acting higher rate and is eligible in all other respects, a PAR signal is to be sent to the rating’s Career Manager or CMC (as appropriate), copy to the Ratings’ Promotion Section, asking for appropriate JPA action to be taken to reflect the award of the acting higher rate. The acting higher rate will be for a maximum of 12 months, after which time ratings will, exceptional reasons apart (see Para 6803 sub para a) for action to be taken, relinquish the rate if they have failed to attain the outstanding qualification(s). Individuals who qualify fully for the higher rate during the 12 month period, whether awarded the acting higher rate or not, are to be confirmed immediately if meeting all other advancement criteria; in such cases, COs are to send a PAR signal to the Ratings’ Promotion Section, copy to the Rating’s Career Manager/CMC, seeking JPA action to reflect the higher rate and to apply the award of backdated advancement if appropriate. In addition, the acting higher rate may be relinquished if professional, disciplinary or CAP reasons apply.

(2) **Advancement to Chief Petty Officer.** Authority for awarding the acting higher rate lies with the Ratings’ Terms of Service Team (NAVY NPS-STRATPOL TERMS OR SO3C). Cases involving the time based advancement of ratings to CPO must be referred in writing to the Ratings Terms of Service Manager in the first instance. On receipt of approval, if appropriate, COs are to submit a PAR signal to the rating’s Career Manager, copy to the Ratings’ Promotion Section, asking for appropriate JPA action to be taken to reflect the award of the acting higher rate. The acting higher rate will be for a maximum of 12 months, after which time ratings will, exceptional reasons apart (see Para 6803 sub para a), relinquish the rate if they have failed to attain the outstanding qualifications (eg. PE, completion of Task Book; Leadership Course). The acting higher rate may also be relinquished if professional, disciplinary or CAP reasons apply.
Every effort is to be made to enable ratings to qualify fully at the earliest date. Individuals who qualify for the higher rate during the 12 month period will be confirmed immediately - COs are to send a PAR signal to the Ratings’ Promotion Section, copy to the rating’s Career Manager/CMC, seeking JPA action to reflect the higher rate.

(3) On completing outstanding training within 12 months of the due date, applications for backdated advancement, if appropriate, should be submitted through COs to the Ratings Terms of Service Manager and should contain evidence of a rating’s efforts to qualify by their due date by time. All cases will be considered on their individual merits and, where warranted, backdated advancement will be approved. In such cases, COs are to send a PAR signal to the Ratings’ Promotion Section, copy to the rating’s Career Manager/CMC, seeking JPA action to reflect the higher rate. However, retrospective action will not be permitted if, through their actions (see Para 6802. sub para b (3)), ratings are clearly responsible for their failure to satisfy the advancement criteria, either by the due date or in the 12 months that follow. Such individuals will be advanced, instead, on the day that they eventually qualify for the higher rate.

d. For AA trainees refer to the AA Warnings and Failure Policy detailed at Annex 68N.

6803. Inability to Satisfy Criteria for Advancement to Leading Hand and Above by Due Date + 12 months

a. Ratings who fail to qualify fully within 12 months of their due date by time for advancement will typically lose any entitlement to backdated advancement when they finally become eligible for confirmation in the higher rate. However, if 12 months after their due date, a rating believes that their continued failure to meet the criteria is attributable to Service reasons (Para 6802.b sub para (1)) or non-Service reasons outside their control (Para 6802.b sub para (2)), they will be able to apply through their CO to the Navy Command Headquarters Terms of Service Team (marked for the attention of the Ratings Terms of Service Manager) for an extension of the retrospective advancement qualification period and retention of the acting higher rate if applicable. The Terms of Service Team may award extensions of up to 6 months at a time. Applications should be accompanied by a copy of the individual’s Full Service Documents. Individuals who qualify fully within the extra time, if granted, will be entitled to pay and seniority backdated to their due date by time. However, this redress will not be available to those ratings who: fail to complete the training within the extended period, have an application for an extension rejected or are not entitled to an extension at all (eg. if they are directly responsible for the time taken to satisfy the criteria). In these cases, ratings will be advanced on, and have seniority of, the day on which they finally qualify for the higher rate.

b. When a rating finally completes the outstanding training, COs are to send a PAR signal to the Ratings’ Promotions Section, copied to the appropriate Career Manager, on their behalf seeking JPA action to reflect the higher rate and the award of backdated advancement only if prior approval has been granted by the Terms of Service Team.
6804. Medical Fitness

a. Ratings/ORs who are medically downgraded, and those who are likely to be categorized as permanently unfit for sea service or be restricted otherwise medically in the future, will normally remain eligible for selective and non-selective promotion. The following principles apply:

b. **Personnel with a Permanent JMES.** All individuals who have been awarded a permanently reduced JMES code by NSMBOS or by ROHC will be assessed by the NSMEB for their suitability for promotion as part of their determination in retaining an individual in service. This determination will take into account age, past experience, seniority, the nature and extent of the medical limitations, and types of assignment for which the individual might be required to undertake in the current rank and higher ranks if selected for promotion or due for advancement. By default the assessment will assume that retention in service will also include the potential for service at the next higher rank/rate. If the NSMEB are unable to offer continued employment in a higher rank or rate, then the individual will be deemed medically unfit for promotion.

c. **Personnel with a Temporary JMES.** Individuals in a temporary JMES should undergo medical assessment by an accredited GMP or Consultant Occupational Physician.

   1. Where there is an expectation that the individual will regain MFD status within the next 12 months, the Medical Officer should deem the individual medically fit for promotion.

   2. Where an expectation that a temporary JMES would be removed and the individual regains a previous permanent JMES within 12 months, then individuals should be assessed as per their previous NSMEB determination (see Para 6804 sub para b above).

   3. Where an individual is pregnant and has the JMES code of E6, their fitness for promotion should be assessed in light of their previous JMES, providing that there is an expectation that this will be regained following the pregnancy and period of maternity leave. If previously MFD then they should be considered fit for promotion. If the individual was previously in a permanently reduced JMES, they should be assessed as per their previous NSMEB determination (see Para 6804 sub para b above). If temporarily downgraded prior to the pregnancy then an assessment must be made as to the likelihood of being upgraded within 12 months of a return from maternity leave and if it is likely, then the individual should be deemed fit for promotion. If it is not deemed likely, then the individual will need to be referred to NSMBOS for a permanent medical category to be awarded and their eligibility is to be determined by NSMEB.
(4) Where it is likely that the individual will need a permanently reduced JMES, the Medical Officer should deem the individual unfit for promotion subject to the subsequent NSMBOS/ROHC and NSMEB recommendations. If the individual is subsequently given a permanently reduced JMES by the NSMBOS or ROHC and the NSMEB determines fitness for promotion, then seniority and pay should be back-dated to the original date of intended promotion.

(5) Any doubtful case is to be referred to the NSMEB.

6805. Physical Fitness – Completion of the Royal Naval Fitness Test

a. All serving Naval personnel under the age of 55 need to be either in date for the annual RNFT, or hold an approved waiver, in order to be promoted. The rule covers every type of promotion (selective or non-selective (advancement); acting; that following disrating or reversion). In date for RNFT means that the tests should be undertaken at least annually. The results are to be recorded on JPA but a ‘fail’ will no longer restrict an individual from advancement provided they remain engaged with remedial training. The individual’s CO is to determine whether there has been sufficient engagement with remedial training with the usual baseline being an average of 3 periods of training per week or as advised by PT staff. An RNFT attempt is valid for 12 months from the date of the Test and, to be in date for advancement, an individual must have attempted the RNFT in the preceding 12 months. A failure to satisfy this requirement will invariably lead to a delay in a rating’s career progression. Exceptionally, RNFT waivers may be granted to ratings who are in a permanently reduced medical category (following review by a NSMEB) and have been declared ‘unfit RNFT’, whilst ratings who are pregnant or on maternity leave when due advancement will also be exempt at that time. The Service may also award temporary RNFT waivers occasionally in the circumstances shown at sub para c. Where doubt exists concerning RNFT policy and these regulations, refer to Chapter 29.

b. Ratings are only to be awarded the substantive higher rate on their due date for advancement (by time) if they satisfy all the criteria for the higher rate and are in date for the RNFT, hold an approved waiver or are pregnant/on maternity leave. Where this does not apply, ratings are, as a rule, to be given 3 months by COs to remedy the situation:

(1) If the rating undertakes the RNFT in the time permitted, the individual is to be advanced to the date after becoming qualified if still eligible in all other respects.

(2) If the rating fails to undertake the RNFT in the time permitted, the CO is to determine whether there are any mitigating circumstances (eg. operational, medical or welfare reasons). If so, the CO may approve a time extension of up to two months. If an extension is agreed and the rating undertakes the RNFT in time, the individual is to be advanced to the date after becoming qualified if still eligible in all other respects. If there are considered to be no mitigating circumstances for a rating’s failure to become qualified, the CO should initiate a Formal Warning in accordance with BRd 3(1) Chapter 57 Section 8.
c. **Awards of the Acting Higher Rate.** In order to assume the acting higher rate, ratings must be in date for the RNFT or hold an approved waiver. Qualified individuals who are pregnant or on maternity leave on the day that they are due advancement to the acting higher rate will be exempt from the requirement to be in date for the RNFT.

d. Individuals who are in date for the RNFT on assuming the acting higher rate will also need to be in date RNFT or have an approved waiver or be pregnant/on maternity leave on the date that they are eligible for confirmation in the higher rate.

e. Re-advancement following disrating or reversion – requirement to be in date for RNFT. Ratings are to be in date RNFT or have an approved waiver in order to be restored to the next higher rate/rank.

**6806. Disciplinary Matters**

a. **Career Check.** Where time from a Career Check is a qualification for advancement, 6 months must have elapsed since a rating’s last Career Check immediately prior to the due date.

b. Following reversion, the Career Check requirement for eligibility to be considered at the next Selection Board is a minimum of 6 months (Para 7007 refers). Similarly there is a minimum of 6 months Career Check requirement for re-advancement.

c. Following disrating from a substantive or acting rate, the Career Check requirement is extended to a minimum of 12 months before a rating may be re-advanced (Para 7002 refers) except where Para 6915 sub para l applies for the granting of the acting higher rate.

d. **Suspended Sentence.** Ratings under suspended sentence who require the requisite Career Check for advancement may, if recommended, be advanced on the date they would normally be eligible.
6807. Engineer General Service Branch Fast Track Scheme

a. The intent to introduce a Fast Track (FT) scheme under Faraday was announced in 2013. In order to cover the intervening period prior to introduction of the FT, an Interim Fast Track (IFT) scheme was introduced. IFT is covered in more detail at Annex 68E and IFT will continue to operate for those EGS ratings currently on the scheme and will remain subject to the extant IFT terms and conditions. The introduction of a FT scheme is an important element of the EGS Branch career pipeline, managing the talent of suitable individuals by selecting those ratings who are sufficiently motivated and demonstrate the necessary standards of leadership, engineering and academic ability. The FT scheme gives EGS ratings the opportunity to accelerate their progression and be advanced based on time and qualification, affording individuals an accelerated advancement route. Selection will be via a three stage process with three entry points: initially at ET to LET, then at LET to POET and finally at POET to CPOET. This takes account of individuals who develop at differing rates and gives a flexible career path to ensure that career progression through training and employment is better matched to the abilities of our technicians.

b. Selection

1. Individuals on the FT scheme will be subject to non-selective promotion through time and qualification, based on an advancement ‘Due Date’ calculated from when an individual joined the FT scheme. A selection process will be conducted prior to an individual being accepted for entry onto the FT scheme.

   a. ET to LET. The first selection opportunity will be on completion of Phase 2 Training (ET CC). This will provide the opportunity for the individual to demonstrate that they have the necessary academic ability and leadership potential to succeed on the FT scheme, and are capable of operating as a competent Leading Hand in a short timeframe. If selected, an individual will remain on the FT scheme until completion of their LET QC and LRLC. An ET selected in Phase 2 Training (ET CC) will be awarded a Due Date for advancement to LET of 24 months from the Fast Track Start Date (FTSD). The FTSD given below for an ET in Phase 2 are determined by the stage of the training year they have reached when they are selected for the FT scheme, and will be used in the subsequent calculation for future Due Date:

   i. Individuals who are selected from Phase 2 Training between 1 Apr and 31 Jul will be awarded a FTSD of the 31 Jul.

   ii. Individuals who are selected from Phase 2 Training between 1 Aug and 30 Nov will be awarded a FTSD of the 30 Nov.

---

1 Selection Board during ET Career Course (CC) (Phase 2 Training) for FT ET – LET, a termly Selection Board for FT LET – POET and for FT POET - CPOET.
iii. Individuals who are selected from Phase 2 Training between 1 Dec and 31 Mar will be awarded a FTSD of the 31 Mar.

(When selected to be recorded on JPA as ‘Professional Fast Track LET Navy’.)

(b) **LET to POET.** An individual who possesses the necessary academic ability and leadership skills to succeed on the FT scheme, and be capable of operating as a competent Petty Officer in a short timeframe. The second selection opportunity will be on completion of Phase 3 Training (LET QC); this selection point will consider individuals who are currently on the FT scheme to LET and any individual who has demonstrated the necessary academic ability and leadership skills during their ET sea-time and/or while on LET QC. An ET/LET selected in Phase 3 Training (LET QC) will retain the seniority date as a LET, with a Due Date for advancement to POET of 24 months from their Fast Track Start Date. (When selected to be recorded on JPA as ‘Professional Fast Track POET Navy’.)

(c) **POET to CPOET.** An individual who possesses the necessary academic ability and leadership skills to succeed on the FT scheme, and be capable of operating as a competent Chief Petty Officer in a short timeframe.

The selection opportunity will be on completion of POET QC; this selection point will consider individuals who are currently on the FT scheme to POET and any individual who has demonstrated the necessary academic ability and leadership skills during their LET sea-time and/or while on POET QC. A LET/POET selected to the FT scheme will be awarded a Due Date for advancement to CPOET of 36 months from their FTSD. The FTSD will be determined by the point at which they are selected and will be used in the subsequent calculation for future Due Date. (When selected to be recorded on JPA as ‘Professional Fast Track CPOET Navy’.)

(2) The pre-selection process will be co-ordinated by the Accelerated Technician Authority, ATA, and will seek to establish a candidate’s qualifications, technical ability, potential and suitability for FT. The process for Phase 2 selection for FT to LET will include a FT Selection Interview, FTSI, on an individual’s training and experience to date and an academic examination, in order to determine their suitability based on aspirations, maturity, communication skills and potential to cope with the training and employment necessary in the FT Scheme’s compressed timescale. Candidates who are successful will then be presented to the termly FT Selection Board (FTSB), which will select individuals onto the FT scheme.
(3) The service eligibility criteria required to be considered either as a FT to LET, FT to POET or FT to CPOET is detailed within the Advancement Flowcharts at Para 6808 sub para h. The key academic and CLM requirements to be taken into consideration during the pre-selection process are as follows:

**Table 68-1. Key Selection Criteria (except CIS Specialist)**

<table>
<thead>
<tr>
<th>Selection Point</th>
<th>Key Selection Criteria</th>
<th>Applicability</th>
</tr>
</thead>
</table>
| **FT Phase 1**  | 1. Educational Qualifications - Maths and English GCSE Grade C and above or equivalent.  
2. Completed FT academic assessment.  
3. Above average score or training school equivalent during Phase 2 Module Assessments.  
4. Potential for Command, Leadership and Management in the next higher rate.  
5. Passed Pre-Selection Interview.  
6. Recommended from Phase 2 Training to be a FT to LET. | 1. All ET2s who volunteer for FT during Phase 2 Training. |
| **During ET CC** |  |  |
| **FT Phase 2**  | 1. Educational Qualifications - Maths and English GCSE Grade C and above or equivalent  
2. Above average score or training school equivalent during Phase 3 Module Assessments.  
3. Potential for Command, Leadership and Management in the next higher rate, including RNLA assessment.  
4. Recommended from Phase 3 Training to be a FT to POET and/or recommended from sea.  
5. Passed Pre-Selection Interview. | 1. All LETs who volunteer for FT during LET QC Training or have a FT positive recommend from sea for FT to POET. |
| **During LET QC** |  |  |
| **FT Phase 3**  | 1. Educational Qualifications - Maths and English GCSE Grade C and above or equivalent  
2. Above average score or training school equivalent during POET QC Module Assessments.  
3. Potential for Command, Leadership and Management in the next higher rate, including RNLA assessment.  
4. Recommended from POET QC Training to be a FT to CPOET and/or recommended from sea.  
5. Passed Pre-Selection Interview. | 1. All POETs who volunteer for FT during POET QC Training or have a FT positive recommend from sea for FT to CPOET. |
| **During POET QC** |  |  |

</table>

c. Fast Track Recommendation From Sea. On successful completion of the Provisional Examination (PE) for LET, POET or CPOET, the Head of Department is to take into consideration whether the individual has demonstrated suitable levels of competence during their routine employment and their performance during the PE merits a recommendation as a potential FT POET or CPOET candidate. The recommendation is to be recorded on JPA as ‘ProfessionalIFast Track POET RecommendINavyI’ or ‘ProfessionalIFast Track CPOET RecommendINavyI’, with supporting comments included by the 1 and 2 RO in their next SJAR. The FT sea recommendation from the SJAR will form a part of the selection process for POET or CPOET FT and should include comments against the following attributes:

(1) Engineering Aptitude (not applicable to CIS Specialist).
(2) Technical Competence.
(3) Professional effectiveness and initiative.
(4) Work ethic and capacity to complete sea competency elements within compressed time scales.
(5) Any demonstrated academic ability to cope with an accelerated career progression.
(6) Potential to be a senior rating; reliability; power of communication; potential for CLM in the Next Higher Rank, NHR, and at POET and CPOET rates; confidence to take on additional challenges and the ability to think on a level above the peer group.
d. **Transfer to Fast Track – Minimum Assignment Notice.** The FT scheme accelerates individuals through the advancement system and may require shorter than the minimum assignment notice. All individuals on the FT scheme will be required to volunteer to waive their minimum assigning notice period for courses and employment associated with their advancement. This will be acknowledged by successful candidates when they sign the Part A of the Certificate of Understanding; accepting the terms of service of FT scheme, including waiving their rights to promotion under the selective promotion route and to the full assignment notice period. Should an individual be removed from the FT scheme then Part B of the Certificate of Understanding will be used in transferring individuals back onto the standard selective promotion route and the normal assignment notice period. The Certificate of Understanding can be found at Annex 68B and signed copies will be retained by both the ATA and the individual.

e. **Attending a QC**

(1) The planning and enrolling of individuals onto a QC will be completed by the ATA in liaison with the relevant Career Management Cell (CMC) or Career Management (CM). In general, FT personnel will be provisionally allocated a QC start date at, or shortly after, completing their current QC. Attendance on a QC will be dependent upon the completion of all of the relevant advancement criteria detailed in Flowcharts at Para 6808 sub para h. Frequent liaison between the employing ship and the ATA will ensure that Training Schools, CMs, CMCs and employing ships are able to plan effective movement of FT personnel.

(2) Given the nominal LET and POET QC start dates, mandatory pre-course learning is to be commenced no later than on achieving 8 months’ sea service for an FT ET and 14 months sea service for an FT LET. This will allow sufficient time to complete pre-course learning prior to attending the respective QC. The mandatory pre-course learning is detailed in BR 2000(3)(1) Chapter 4 ME and BR 2000(4)(1) Chapter 4 WE (pre-course learning is not applicable to CIS Specialists).

f. **Streaming.**

(1) FT ETs will be streamed earlier than individuals that are not on the FT scheme, by submitting a preference on JPA.
MEGS FT ETs should, where possible, achieve sea employment in all Groups (ML/EL) should be achieved prior to submitting Streaming Preference on JPA. After 6 months’ sea service, an individual will be allocated a stream by the ATA in consultation with Ships’ Staff. Once streamed, employment on board, where possible, is to be within the allocated stream. This will enable the FT individual to gain as much experience as possible whilst in the compressed sea employment prior to being assigned to LET QC.

WEGS FT ETs will be streamed on selection for Fast Track to LET.

g. **Provisional Examinations, PE.** Provisional Examinations are detailed in BR 2000(3)(3) Chapter 7 ME and BR 2000(4)(3) Chapter 6 WE.

h. **Advancement Flowcharts.** The following rules apply to personnel selected for the EGS Fast Track scheme from Sep 15.

### Engineering Technician 1 (Fast Track) (not including CIS Specialist) – Pre-Advancement Requirements

- a. Completed RALEIGH – Phase 1 Training.
- b. Completed ET(ME), ET(WE) or ET(WE)(CIS) Career Course (ET CC), recorded on JPA as ME|Engineering Technician (ME) Initial Career (ME150|Navy) or ‘WE|ET(WE)Career (WE 107)|Navy’ or ‘WE|ET(WE)CIS Career (WE 108)|Navy’.
- c. Display required proficiency in accordance with competencies as laid down in the Individual Competency Framework (ICF) as ET, authorised by HOD and recorded on JPA as ‘Professional|Engineering Technician (GS)|Navy’, with a Proficiency Level of ‘ET1 Sea 1’. To be completed within 4 months’ sea service.
- d. At least 6 months since last Career Check (if any) on date due advancement.
- e. Recommended for advancement to ET1 by HOD. Promotion Authorisation Request (PAR) forwarded to Flotilla parent Career Management Cell (CMC).

### Advanced to ENGINEERING TECHNICIAN 1st Class

### Engineering Technician 1 (Fast Track) – CIS Specialist Pre-Advancement Requirements

- a. Completed RALEIGH - Phase 1 Training.
- b. Completed ET(WE)(CIS), recorded on JPA as ‘WE|ET(WE)CIS Career (WE 108)|Navy’.
c. Display required proficiency in accordance with competencies as laid down in the Individual Competency Framework (ICF) as ET, authorised by HOD and recorded on JPA as ‘Professional| Engineering Technician (GS)|Navy’, with a Proficiency Level of ‘ET1 Sea 1’. To be completed within 4 months’ sea service.

d. At least 6 months since last Career Check (if any) on date due advancement.

e. Recommended for advancement to ET1 by HOD. Promotion Authorisation Request (PAR) forwarded to Flotilla parent Career Management Cell (CMC).

Leading Engineering Technician (Fast Track) (not including CIS Specialist) – Pre-Advancement Requirements

a. Completed CBRNDC TB within 12 months of joining unit and recorded on JPA as ‘Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy’ (2).

b. Serving on a ES1/FC/OE1 that expires after the nominated Due Date for Advancement.

c. Educationally qualified for promotion (EFP) in accordance with Para 9613 and recorded on JPA as ‘Educational|RN/RM QELH/Cpl|Navy’.

d. Display required proficiency in accordance with competencies as laid down in the Individual Competency Framework (ICF) as ET 1, authorised by HOD and recorded on JPA as ‘Professional| Engineering Technician (GS)|Navy’, with a Proficiency Level of ‘ET1 Sea 2’. To be completed within 9 months’ sea service as an ET (7), (15).

e. Streaming Preference submitted and showing on JPA (5).

f. Passed Provisional Exam for LET(ME/WE) within 12 months of joining unit and recorded on JPA as ‘Professional| Provisional Examination for LET ET(ME/WE)|Navy with a Proficiency Level of ‘Pass’ (6), (7).

g. 24 months’ seniority from Fast Track Start Date, including a minimum of 9 months’ sea service as an ET.

h. Recommended for advancement on Appraisal Report at Due Date (15).

i. Completed Leading Rates’ Leadership Course (LRLC); recorded on JPA as ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’ (Para 6909) (11).

j. Passed LET(ME/WE) Qualifying Course (QC) by nominated Due Date; recorded on JPA as ‘ME|LET(MEGS) Common QC:ME151|Navy’ or ‘WE|LET(WE) Weapons Career (WE 211)|Navy’ or ‘WE|LET(WE) Sensors Career (WE 212)|Navy’ or ‘WE|LET(WE) CIS Career (WE 213)|Navy’ (8), (9), (10), (14), (15).
k. In date RNFT or waiver obtained at Due Date; recorded on JPA as ‘CMS|Fitness Test|Navy’ (Para 6806) (4).

l. At least 6 months since last Career Check (if any) on date due for Advancement (if later).

**Advanced to**

LEADING ENGINEERING TECHNICIAN - not selected for Fast Track to POET
If not selected for Fast Track to POET, Transfer back to Selective Promotion Flowchart for ICF ET and selective promotion rules in Chapter 67

**Advanced to**

LEADING ENGINEERING TECHNICIAN – selected for Fast Track to POET
If selected at Fast Track Selection Board for POET, awarded an Advancement Due Date to POET of 24 months from the LET Seniority Date (Note 1)

**Leading Engineering Technician (Fast Track) – CIS Specialist Pre-Advancement Requirements**

a. Completed CBRNDC TB within 16 months of joining unit and recorded on JPA as 'Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy'.

b. Serving on a ES1/FC/OE1 that expires after the nominated Due Date for Advancement.

c. To be educationally qualified for promotion (EFP) in accordance with Para 9636 and recorded on JPA as 'Educational|RN/RM QELH/Cpl|Navy'.

d. Display required proficiency in accordance with competencies as laid down in the Individual Competency Framework (ICF) as ET 1, authorised by HOD and recorded on JPA as 'Professional|Engineering Technician (GS)|Navy', with a Proficiency Level of 'ET1 Sea 2'. To be completed within 12 months’ sea service as an ET.

e. Passed Provisional Exam for LET(WE) CIS Specialist within 12 months of joining unit and recorded on JPA as 'Professional|Provisional Examination for LET ET(ME/WE)|Navy with a Proficiency Level of 'Pass'.

f. 24 months seniority from Fast Track Start Date, including a minimum of 9 months' sea service as an ET.

g. Recommended for advancement on Appraisal Report at Due Date.

h. Completed Leading Rates Leadership Course (LRLC); recorded on JPA as 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy'.

i. Passed LET(WE) CIS Spec Qualifying Course (QC) by nominated Due Date; recorded on JPA as 'WE|LET(WE) CIS Career (WE 206)|Navy'.

UNCONTROLLED WHEN PRINTED
j. In date RNFT or waiver obtained at Due Date; recorded on JPA as 'CMS|Fitness Test|Navy'.

k. At least 6 months since last Career Check (if any) on date due for Advancement (if later).

---

Advanced to

LEADING ENGINEERING TECHNICIAN (CIS Specialist)

Petty Officer Engineering Technician (Fast Track) (not applicable to CIS Specialist) – Pre-Advancement Requirements

a. Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated Due Date for Advancement.

b. Educationally Qualified for Promotion (EFP) in accordance with Para 9613 and recorded on JPA as 'Educational|RN/RM QEPO/Sgt|Navy'.

c. Completed Professional Qualifications SOC and MEOOW2C within 12 months’ sea service; recorded as JPA competency 'Professional|Switchboard Operating certificate (DB33)|Navy' and 'Professional|Marine Engineer Officer of the Watch 2 Certificate (MEOOW2C)|Navy' (ME Only) (12).

d. Display required proficiency in accordance with competencies as laid down in the Individual Competency Framework (ICF) as a LET, authorised by HOD and recorded on JPA as 'Professional|Engineering Technician (GS)|Navy' with a Proficiency Level of 'LET Sea'. To be completed within 15 months’ sea service as a LET (7), (12), (13).

e. Provisional Exam for POET recorded on JPA as ‘Professional| Provisional Examination for POET|Navy’, with a Proficiency Level of ‘Pass’. This is to be completed within 18 months of joining unit (6), (7), (15).

f. 24 months' seniority including a minimum of 18 months’ sea service as a LET.

g. Recommended for advancement on Appraisal Report at Due Date (15).

h. Completed Senior Rates’ Leadership Course (SRLC); recorded as JPA competency ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’ (Para 6909) (11).

i. Passed POET(ME/WE) QC by nominated Due Date; recorded on JPA (8), (9), (10), (13), (15).

j. At least 6 months since last Career Check (if any) on due date for Advancement (if later).

k. In date for Royal Naval Fitness Test (RNFT) or waiver obtained on date due advancement; recorded on JPA as ‘CMS|Fitness Test|Navy’. (Para 6806) (4).
**Advanced to**

**PETTY OFFICER ENGINEERING TECHNICIAN - not selected for Fast Track to CPOET**
If not selected for Fast Track to CPOET, Transfer back to Selective Promotion Flowchart for ICF ET and selective promotion rules in BRd 3 Chapter 67

---

**Advanced to**

**PETTY OFFICER ENGINEERING TECHNICIAN – selected for Fast Track to CPOET**
If selected at Fast Track Selection Board for POET, awarded an Advancement Due Date to POET of 36 months from their FTSD (1)

---

**Petty Officer Engineering Technician (Fast Track) CIS Specialist – No criteria currently available (to be reviewed)**

**Chief Petty Officer Engineering Technician (Fast Track) (not including CIS Specialist) – Pre-Advancement Requirements**

a. Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated Due Date for Advancement.

b. Educationally Qualified for Promotion (EFP) in accordance with Para 9613 and recorded on JPA as ‘Educational|RN/RM QEPO/Sgt|Navy’.

c. Professional Qualifications MEOOW1 Certificate to be completed within 12 months’ sea service; recorded as JPA competency ‘Professional|Marine Engineer Officer Of The Watch Certificate (MEOOWC)|Navy’ (ME Only) (16).

d. Display required proficiency in accordance with competencies as laid down in the Individual Competency Framework (ICF) as a POET, authorised by HOD and recorded on JPA as ‘Professional|Engineering Technician(GS)|Navy’ with a Proficiency Level of ‘POET’. To be completed within 18 months of joining unit (16), (17).

e. Provisional Exam for CPOET recorded on JPA as ‘Professional| Provisional Examination for CPOET|Navy’, with a Proficiency Level of ‘Pass’. To be completed within 24 months of joining unit (6), (7), (15).

f. A minimum of 24 months’ sea service as a POET.

g. Recommended for advancement on Appraisal Report at Due Date (15).

h. Passed CPOET(ME/WE) QC by nominated Due Date; recorded on JPA as ME|CPOET(ME) Career (ME155)|Navy’ or ‘WE|CPO(WE) Career (WE 320)|Navy’ (9), (10), (15), (16), (17).

i. At least 6 months since last Career Check (if any) on due date for Advancement (if later).
Notes:

1. FT Selection Panels and Boards will be co-ordinated by the ATA within each training school and will be convened throughout each term. ETs selected during Phase 2 Training will be awarded an appropriate Fast Track Start Date of 31 Mar, 31 Jul or 30 Nov. The date due advancement by time to LET, subject to meeting the eligibility criteria will be 24 months from this date. Selection for FT from LET to POET will be selection by a termly Selection Board, with a date due advancement to POET, subject to meeting the eligibility criteria of 24 months from the seniority date as a LET. Selection for FT from POET to CPOET will be selection by a termly Selection Board, with a date due advancement to CPOET, subject to meeting the eligibility criteria, of 36 months from their FTSD that is determined by the point at which they are selected and will be used in the subsequent calculation for future Due Date.

2. On completion of the ET2 Career Development Journal (CDJ) mandated tasks and being recommended, ratings will be advanced to ET1 and issued their CBRN DC Task Book (to be completed prior to undertaking the Provisional Examination for LET).

3. Competence as an ET1 is achieved on successful completion of the ICF mandated competencies within the sea employment space, evidenced within the individual’s CDJ. This is to be completed within 9 months’ sea service as an ET.

4. RNFT. Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate due date for advancement. See Para 6806 for the required JPA competence.

5. Stream Preference of either ET(ME) EL or ML, or ET(WE) CIS Tech, CIS Spec or S or W, as appropriate is to be submitted into JPA, within the section Personal Preference Comments 1.
Notes:

6. Prior to undertaking the Provisional Examination the following pre-requisites are to have been achieved:
   
   a. Competent in current rate – Completed all mandated ICF competences, evidenced within the individual’s CDJ.
   
   b. Recommended by Commanding Officer.

7. Where an individual has completed an OPS designed Qualifying Course, the OJT Task Book and the OPS Assessment is the technical eligibility criteria for the next higher rate. There is no requirement to complete the CDJ and the Provisional Examination for the next higher rate. The OPS Assessment is to be completed within 9 months’ Sea Service for an ET and 15 months’ sea service as a LET. The relevant JPA competencies are as follows:
   
   a. ET(WE)(CIS) - Professional|OPS for AB(CIS)(LQ50)|Navy|
   
   b. ET(WE) - Professional|OPS for ET(WE) DQ40|Navy|
   
   c. LET(WE)(CIS) - Professional|OPS for LS(CIS) QQ40|Navy|
   
   d. LET(WE) - Professional|OPS for LET(WE)|Navy|
   
   e. LET(ME) - Professional|OPS for LET(ME) DQ40|Navy

8. Pre-course Learning is to be completed no later than on completion of 8 months’ sea service.

9. Suitability of individuals to retake failed elements of the QC, or the requirement to be back classed, or remain as a Fast Track, will be determined by the Commanding Officer of the relevant Training School in consultation with EGS Branch Managers. A repeat failure of part/all of the course will result in the individual being deselected from FT, however, will remain on the QC, but not on the Fast Track scheme (normal QC failure rules apply). Suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.

10. Unsuitable Candidates. Where, during the period of the Qualifying Course, candidates are found to be unsuitable for advancement to the next higher rate, they may be withdrawn from training by the Commanding Officer of the relevant Training School. In such cases, individuals will be deselected from Fast Track and the Qualifying Course and will continue to serve in their current rate. They will transfer from Fast Track back to Selective Promotion as the eligibility route for future selection.
Notes:

11. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6803 for rules on the impact on a rating’s advancement if he/she fails to complete QC and/or LRLC/SRLC before the due date by time or within 12 months of the due date as a result of service reasons (outwith own control) or non-service reasons (within own control).

12. Competence as an LET(ME) is achieved on successful completion of the SOC, MEOOW2 within 12 months and the ICF mandated competencies within the sea employment space, evidenced in the individual’s CDJ within 15 months’ sea service as a LET.

13. Competence as an LET(WE)/LET(WE)(CIS) is achieved on successful completion of the ICF mandated competencies within the sea employment space, evidenced within the individual’s CDJ. This is to be completed within 15 months’ sea service as a LET.

14. **Refusal to Undertake QC.** Individuals, who refuse to undertake the QC will be deselected from Fast Track, continue to serve in their current rate and transfer back to Selective Promotion.

15. If for any reason an ET, LET or POET does not achieve the eligibility criteria and subsequent recommendation for advancement, a review will be undertaken by the Fast Track Manager on a case by case basis for suitability to remain as a Fast Track. Individuals who are removed from FT will transfer back to the Selective Promotion rules.

16. Competence as a POET(ME) is achieved on successful completion of the MEOOW1 within 12 months and the ICF mandated competencies within the sea employment space, evidenced within the individual’s CDJ within 18 months’ sea service as a POET.

17. Competence as a POET(WE)/POET(WE)(CIS) is achieved on successful completion of the ICF mandated competences within the sea employment space, evidenced within the individual’s CDJ. This is to be completed within 18 months’ sea service as a POET.

i. **Leadership Training**

(1) All FT personnel are to complete LRLC or SRLC, as appropriate, as part of their NHR. Preparation for and completion of these courses is essential and although the responsibility rests firmly with the individual to be fully prepared, it is to be supplemented with appropriate coaching and mentoring by their Head of Department.
(2) There may be occasions where a FT individual is at their Due Date for advancement by time, but has not completed their QC so will not meet the advancement criteria. In consultation with the ATA, an application for the Acting Higher Rate (AHR) will be considered against the 'Inability to Satisfy Criteria for Advancement' - see Para 6802 and Para 6803.

j. **Fast Track Failure Policy and De-Selection from Scheme.** Once selected, an individual will remain on the FT scheme unless their progress, performance or standards are deemed insufficient or they voluntarily choose to remove themselves. Where an individual has not been able to maintain FT accelerated training delivery they will be de-selected from the FT scheme, revert back to the standard selective promotion route, and continue training and employment as necessary to meet the service requirement. The FT scheme failure and de-selection policy is detailed at Annex 68D.

k. **SJAR Reporting Requirements**

(1) Annual SJARs remain a mandatory requirement for all FT individuals and should comment on their current performance, CLM, employment and training achievements. Within the SJAR, Reporting Officers should report whether or not an individual continues to maintain a recommendation for the FT scheme and, if appropriate, the individual's potential for the next FT stage. The SJAR must contain evidence to support these recommendations.

(2) Recommendations from sea for FT candidature for ETs should be considered for all personnel who have completed the Provisional Examination with a strong pass and demonstrated the technical ability and CLM attributes at the NHR.

l. **Management of the EGS Fast Track System.** Management of the EGS FT will be conducted by the Branch Management that will act as the Fast Track Authority (FTA), and the Training Schools the ATA for their respective sub branch. The CM EGS JR WO1 will oversee all FT activities and manage the whole scheme on behalf of the FTA. The CM EGS JR WO1 and relevant ATA will be the focal point for any advice and issues relating to all FT personnel, including suitability to remain on the FT scheme. The ATA will be responsible for the co-ordination of the selection process, FT activities within the training schools and monitoring the progress of FT personnel.

m. **Fast Track Authority.** The FTA will be responsible for the FT scheme within EGS and will manage all policy changes to the scheme and where appropriate will be involved in individual casework with the ATA. For ME this will be BM MEGS SO2 and for WE this will be BM WEGS SO2.
n. **CM EGS JR WO1**

1. The CM EGS JR WO1 will conduct management activities to provide cohesive oversight of the entire FT scheme across both ME and WE sub branches. They will work to ensure the operation and delivery of the Fast Track scheme meets the requirement of the FTA and will monitor both the flow of the scheme at all levels and monitor the output of the FT scheme.

2. The CM EGS JR WO1 will be responsible for implementation of any policy changes, and will work with the CMCs and CMs to oversee correct career management of FT personnel, with ATA to ensure correct selection and tracking activities, and with sea units to oversee employment of FT individuals. The CM EGS JR WO1 will also be involved in all instances of failure, recommendation for and removal from the scheme, of any FT individuals.

o. **Accelerated Technician Authority.** The ATA will manage the FT scheme on behalf of the FTA, be based within HMS SULTAN and HMS COLLINGWOOD and will be responsible for all FT activities, to include the following: organisation and management of the Fast Track Selection Interview (FTSI) and the Fast Track Selection Board (FTSB) for the Phase 2, LET QC and POET QC Selections; career planning and tracking FT activities; all FT associated JPA activities; management of failure within and removal from FT scheme. They will also receive and manage training returns from sea units. TORs for the ATA can be found at Annex 68A.

p. **Programming of FTSIs.** FTSIs will be convened at a periodicity determined by the ATA. Timings, schedules and attendees for all boards will be published giving sufficient notice for candidates to prepare for the interview.

q. **Phase 2 Training Selections - ET**

1. The FT Scheme has been introduced for ET trainees during Phase 2 Training where an individual who wishes to be considered or is recommended by their Divisional Officer will be put forward as a candidate for the FTSI.

2. The ATA will manage all selection interviews; Table 2 provides an overview of the processes required to ensure only suitable candidates are presented. This will apply to ME and WE Phase 2 courses and will be refined within each training establishment to ensure that interviews are available regularly in order that all ETs have the opportunity to be considered for selection.

3. The selection process relies on those candidates who are identified, or volunteer themselves, being suitably informed and mentored by the ATA and their Divisional Staff in preparation for all aspects of the selection process and individuals needs to be successful on the FT scheme.
### Table 68-2. ET FT Selection Overview

<table>

<tr>
<th>Event</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Introduction</strong></td>
<td>- An introductory brief will be presented</td>
</tr>
<tr>
<td><strong>Candidate Identification</strong></td>
<td>- Potential FT ratings identified by DO and/or individual volunteers&lt;br&gt;- Academic workbook issued - detail of maths exam to be taken before Selection Board (not applicable to CIS Specialist FT)&lt;br&gt;- Interview with DO&lt;br&gt;- List of potential FT candidates forwarded to ATA</td>
</tr>
<tr>
<td><strong>Candidate Examinations</strong></td>
<td>- Candidates undertake academic assessment (not applicable to CIS Specialist FT)&lt;br&gt;- Candidates receive Fast Track Selection FTSI brief from DO/ATA</td>
</tr>
<tr>
<td><strong>Fast Track Selection Interview</strong></td>
<td>- Candidates sit FTSI – up to 1 hour&lt;br&gt;- Candidates informed of result of FTSI</td>
</tr>
<tr>
<td><strong>Fast Track Selection Board</strong></td>
<td>- Successful candidates will be transferred to the FT scheme and career managed separately under Advancement promotion regulations&lt;br&gt;- Successful candidates complete transfer paperwork</td>
</tr>
</tbody>
</table>

### Phase 3 Training Selections - LETQC

1. The FT Scheme will be re-introduced to ET trainees during LETQC where an individual who wishes to be considered, and is recommended by their Divisional Officer, will be put forward as a candidate for FTSI.

2. Those ET1s who were identified as potential FT candidates during sea employment and received a JPA recommendation from their previous unit will automatically be considered providing they have maintained this recommendation during the early part of LETQC. The ATA and Training Officer will advise any candidate who has previously been recommended, but does not now meet the criteria to be presented to the panel.

### Table 68-3. LETQC FT Selection Overview

</thead>
<tbody>
<tr>
<td><strong>Introduction</strong></td>
<td>- An introductory FT brief will be presented</td>
</tr>
<tr>
<td><strong>Candidate Identification</strong></td>
<td>- FT recommendation from sea&lt;br&gt;- Potential FT ratings volunteer or identified by DO&lt;br&gt;- Interview with DO&lt;br&gt;- List of potential FT candidates forwarded to ATA</td>
</tr>
<tr>
<td><strong>Fast Track Selection Interview</strong></td>
<td>- Successful candidates will be transferred to the FT and career managed separately under Advancement promotion regulations</td>
</tr>
</tbody>
</table>
s. **FTSI/B Selection Announcements.** Announcements of successful candidates will be made when all candidates have completed their respective interviews and boards. Successful candidates will be transferred to the FT scheme. The ATA at HMS SULTAN/HMS COLLINGWOOD will also add a Fast Track competence ‘Professional | Fast Track LET | Navy’, ‘Professional | Fast Track POET | Navy’ or ‘Professional | Fast Track CPOET | Navy’ as appropriate to successful candidates JPA records.

t. **FT ET Employment Guidance**

1. Due to the short time at sea there will be a necessity for FT ETs to join and be released from units at a greater frequency than normal assignment cycles. To minimise disruption, this will be managed by both the relevant CM or CMC and the Unit management.

2. All FT ETs will be employed in specific billets alongside their selective counterparts, but due to FT ETs undertaking shorter sea assignments they must gain a wide experience of different Sections and Streams in a shorter period. FT ETs should be placed into specific billets which have less impact on OC by the frequent movements incurred. Consideration will be given to how many FT ETs are employed within a Group, Department or Unit; especially when the unit may have a programme that requires a certain amount of stability or personnel and level of OC.

3. Unit HODs and training Co-ordinators are to ensure that adequate employment and training opportunities are afforded the FT individual to meet their necessary training achievements. FT ETs will be expected to carry out the same role as non FT ETs however the scheme will expose individuals to higher level of responsibility at an earlier career point, which will require a degree of mentoring from unit staff. With the LET fulfilling positions as either a Deputy or Section Head and POET fulfilling positions of a Section Head, consideration will be taken by the ATA to manage any potential impact on a Ships' operational capability when assigning a FT LET and POET to, and from, a platform.

4. Where a ship's programme changes or a FT individual cannot be suitably employed (such as ships in Upkeep) and the individual will be unable to achieve their advancement criteria, Ships Staff are to liaise with the ATA to discuss alternative employment options.

5. The ATA will actively track, manage and, where necessary, advise units on FT training. Any unit unable to facilitate the necessary training is to contact the ATA at the earliest point.

u. **Fast Track Progress Review Process**

1. The ATA Manager will maintain a spreadsheet that details at exactly which point of the scheme an individual is, their next training target and progress towards it.
(2) Within the first week of arrival at a unit, FT personnel are to meet with the department Training Coordinator to discuss and agree timescales for achievement of advancement pre-requisites. These agreed dates are to then be recorded as Personal Objectives in JPA and copied to the relevant ATA representative.

(3) Thereafter, Training Coordinators are to conduct monthly progress reviews with each FT technician during which training progress, forthcoming deadlines and possible programme risks are to be discussed. Due to the exigencies of operational programmes the assessment of an individual's progress will, to a certain extent, remain subjective at unit level however the formal review process will allow the opportunity to refine and record training deadlines accordingly and feedback to the ATA. The proforma at Annex 68K captures the full progress review process. It is recommended that completed proformas are copied to the ATA frequently as part of continual liaison but as a minimum must be submitted as follows:

(a) No less than every two months.

(b) On the issue, escalation or removal of any FT progress warning.

v. Fast Track Progress Warnings

(1) The process for warning an individual of potential removal from the FT Scheme is discrete from the RN's standard formal warning routine for ratings on the trained strength since it relates solely to either:

(a) Failure to meet required training timelines for FT advancement.

(b) Failure to retain Command recommendation for advancement on the scheme.

(2) Due to the compressed timescales necessitated by this advancement scheme, the duration between warning review and possible escalation is equally compressed to typically no more than one month and comprises two tiers: Level 1 DO's Warning and Level 2 HOD's Warning. A flowchart of the FT warnings process is detailed at Annex 68L. In all cases, units are recommended to liaise with the ATA to ensure fleet-wide consistency for management of training risk within the scheme.

(3) Should an individual move assignments whilst on FT warning the despatching unit is to write to the new unit to hand over the Warning.

(4) In recognition of the need for timely action within this advancement pipeline, the FT Progress Warnings process does not require the raising of supporting appraisal reports, instead the proforma at Annex 68M is to be utilised.
(5) Removal from the Fast Track Scheme should not be interpreted as professional inadequacy since there may be many reasons why an individual is not able to sustain the required progress against the perceived potential assessed in the Training Schools. Removal from FT will lead to individuals being subject to the standard Select, Train and Promote process.

w. Career Management

(1) Career management of FT individuals will be conducted by the relevant CMs or CMCs following guidance in BRd 3(1) and BR 2000 series to ensure correct and appropriate employment is sought to facilitate the necessary FT training. Oversight of this will be conducted by the EGS CM SO2 and where needed the CM EGS JR WO1CM EGS JR WO1. The ATA, in liaison with the relevant CMs or CMCs, will direct when a FT ET or LET is to be assigned to sea and issue a planned return date to the qualifying course for the next higher rate. The ATA will be responsible for overseeing all aspects of the training and advancement for their respective cadre, with assigning of FT ratings being carried out by the relevant CMs or CMCs.

(2) ATAs, the CMs and the CMCs will work closely to ensure there is minimal delay between assigning from course to sea, and sea to course.

(3) When considering assignments in response to any Manning OPDEF or Squad Trawl, CMs must highlight any FT ratings in order that the training implementations can be considered. FT ratings should still be considered for employment under these circumstances, provided that the impacts to training are minimised or mitigated by changes to career achievement points and dates agreed with CM EGS JR WO1.

(4) Where an individual, whether for Service or Non Service reasons, does not meet the timeline or criteria to return to the next higher rate qualifying course, then the place will be allocated to another FT rating or selectively promoted rating as directed by ATA. Where this occurs for Service Reasons, such as a unit being unable to release the individual due to operational requirements, then the FT rating will not be disadvantaged and will be booked on the next available course and any impact on achieving advancement will be recognised using AHR or remuneration through back pay.

6808. Engineering Submarine Branch Fast Track Scheme

a. Manpower sustainability within the Engineering Technician (ET) branch structure requires the ability for talented individuals to progress through their early careers at a rate appropriate to their capabilities. The Fast Track (FT) scheme fulfils this function, delivering the joint benefits of quicker delivery to Leading Hand of suitable individuals and recognition that these individuals have the ability to progress to more demanding employment more quickly.

b. The FT scheme is open to both ET(MESM) and all specialisations of ET(WESM).
c. **Selection.** Selection for the FT scheme will normally take place during specialist training. (Note 1). Exceptionally, candidates may be selected from sea following a recommendation from their Commanding Officer (2), (3).

d. **Fast Track Selection Board**

(1) The Fast Track Selection Board (FTSB) will consist of three members and must have a Lt Cdr as the chairman. The other members will be a Lt and WO1/WO2 (4).

(2) The FTSB interview will seek to establish a candidate’s ability, commitment and suitability for the Fast Track Scheme. Candidates will be questioned on aspects of their training to date and previous experience to determine suitability based on maturity, communication skills and potential for further training (3).

(3) Individuals on the FT scheme will be subject to non-selective promotion and given an advancement due date. This date is nominally 24 months from selection on to the FT scheme (5), (6).

e. **Successful Candidates.** Successful candidates will be informed by the relevant FTSB and be awarded the JPA competency SM|Fast Track ET|Navy by Unit HR staff. Individuals are responsible for ensuring the competency is on JPA (7).

f. **Career Management**

(1) Once selected for Fast Track candidates will be booked on the first LETQC at a pre-determined period after the FTSB (8)(9). Candidates will be expected to have completed the pre-course requirements detailed in Annexe G, Annex H, Annex I and Annex J by the course start date.

(2) The FT scheme decreases waiting time in the promotion system, and as such an applicant requires to waive their minimum assigning notice period for courses associated with the LET advancement.

(3) All ESM FT candidates will be managed by NAVY PERS-ESM ATA.

g. **Streaming.** ET(WESM)TWS will be streamed by the WESM Senior Rates Career Manager prior to attending LETQC. Individuals are to ensure their preference is annotated on JPA.

h. **Professional Development**

(1) The professional development of MESM’s and WESM’s will differ, due to the nature of the training required prior to attending LETQC. All FT candidates will be required to complete SMQ(Dry) and (Wet).
(2) WESM’s will be assigned to a sea going platform for 12 months from completion of SMQ(Dry). During this period they must complete SMQ(Wet), Part 1\(^3\) of the WESM Taskbook, the FT Taskbook and gain a recommend from the WEO for LETQC.

(3) MESM’s will be assigned to the Submarine Disposal Group (SDG), whilst waiting for the earliest opportunity to complete SMQ(Wet)\(^4\). During the assignment FT candidates will complete a Professional Development Phase (PDP) under the Command of SOSM(R).

(a) A Category B Nuclear Watchkeeper or above from SDG will be nominated to act as the FT Training Master (TM). The TM will ensure that all FT candidates gain valuable engineering, basic submarine practice and Safe Systems of Work experience.

(b) During this phase FT candidates will be able to conduct maintenance cycles and lay-up routines under the guidance of the TM. In addition there will be opportunities to gain valuable experience through employment on platforms in RAMP. Example of tasks that can be conducted in a decommissioned submarine:

   i. Removal and replacement of various pumps.
   ii. Breaker cleaning and testing.
   iii. Steam valve repacking.
   iv. DC machine cleans.

(c) Although FT candidates will not receive the same exposure to a sea going submarine and not qualified to keep watches on an operational plant, they will be required to demonstrate the practical skills delivered on ET ICC and understand Safe Systems of Work.

(d) FT candidates will have to complete a Taskbook and undergo an assessment based on the period spent in PDP. The assessment is to ensure the candidate have gained sufficient experience of engineering practices and a working knowledge of the philosophy that underpin Safe Systems of Work, thus ensuring their suitability to commence LETQC. The chair will be a Category A Nuclear Watchkeeper, the other board member being qualified at Category B Nuclear Watchkeeper.

---
\(^3\) Advanced to ET1. SWS having qualified in one watchkeeping position, TWS successful ET2 Safety Ops Check.
\(^4\) On successful completion of SMQ(Wet), FT ET(MESM) to be advanced to ET1.
i. Failures and Removal from Fast Track Scheme

(1) FT candidates may be removed from the scheme at any time. If removed from the scheme individuals will lose the right to advancement and career progression will be in accordance with BRd3 Para 7409 and Para 7508. Promotion will be by selection only. Ratings may be removed from the Fast Track scheme under the following circumstances:

(a) FT recommendation is removed by the Commanding Officer.
(b) FT candidate fails to progress as expected (10).
(c) FT candidate fails to meet the standard expected of a potential LET.
(d) FT candidate requests to return to the general population.
(e) FT candidate fails to successfully complete LETQC (11).
(f) FT candidate submits application for Early Termination.

(2) FT candidates that fail to meet the criteria (10) and qualifying courses (11) will lose their FT status and return to a submarine as an ET1. Future promotion will be by the normal selection process.

(3) If a candidate is removed from the scheme, the Unit HR are to end date the FT competency.

FAST TRACK ET(MESM) FLOWCHART

ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE) 2

ET(MESM)1 Advancement Criteria

a. Selected for the Fast Track Scheme.
b. Completed ET ICC.
c. Qualified SMQ(Wet).
d. Recommended for advancement.
e. In date RNFT, remain engaged in remedial training or waiver obtained on date due advancement (12).
f. At least 6 months since last Career Check (if any) on date due advancement.
Advanced to
ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE) 1

LET(MESM) Advancement Criteria

a. Completed FT Taskbook.
b. Passed PDP assessment board.
c. Educationally qualified for promotion (EFP) in accordance with Para 9613 and recorded on JPA as ‘Educational|RN/RM QELH/Cpl|Navy’.
d. Recommended for advancement to LET.
e. Completed Leading Rates Leadership Course (LRLC); recorded on JPA as ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’ (Para 6909) (13).
f. Passed all aspects of LETQC (11).
g. At least 6 months since last Career Check (if any) on date due advancement.
h. In date RNFT, remain engaged in remedial training or waiver obtained on date due advancement (12).

Advanced to
LEADING ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE)

FAST TRACK ET(WESM) FLOWCHART

ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINE) 2

ET(WESM) Advancement Criteria

a. Selected for FT scheme.
b. Completed ET ICC.
c. Completed type specific submarine training.
d. Qualified SMQ(Wet).
e. Completed the ET2 Safety Ops Check.
f. In date RNFT, remain engaged in remedial training or waiver obtained on date due advancement (12).

g. At least 6 months since last Career Check (if any) on date due advancement.
Recommened for advancement.

Advanced to
ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINE) 1

LET(WESM) Advancement Criteria

a. Completed FT Taskbook.

b. Awarded OPS for ET1 recorded as ‘Professional|OPS for ET(WESM)|Navy’.

c. Educationally qualified for promotion (EFP) in accordance with para 9636 and recorded on JPA as ‘Educational|RN/RM QELH/Cpl|Navy’.

d. Recommended for advancement to LET.

e. Completed Leading Rates’ Leadership Course (LRLC); recorded on JPA as ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’ (Para 6909) (13).

f. Passed all aspects of LETQC (11).

g. At least 6 months since last Career Check (if any) on date due advancement.

h. In date RNFT, remain engaged in remedial training or waiver obtained on date due advancement (12).

Advanced to
LEADING ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINE)
Notes:

1. Selection for MESM will be during ET ICC at the Defence School of Maritime Training (DSMarE) and WESM’s will be selected from RNSMS or TTF. Suitable candidates will be identified either by course managers or as volunteers.

2. The Divisional Officer of personnel who gain a FT recommend from sea is to inform the Branch Manager MESM SO2/ WESM SO2 at the earliest opportunity.

3. Individuals from sea will not attend a selection board and will require a SPEC SJAR Report stating suitability for the FT scheme and LET training. This report will be presented to the FTSB.

4. The boards are to be chaired by DSMarE-MESM SE NNPPI for MESM candidates and NAVY OP TRG-RNSMS OIC WST for all WESM candidates.

5. WESM’s will be advanced on completion of LETQC, TWS/CIS training package at RNSMS and SWS on completion of either Nav Sup/MC Sup at TTF.

6. MESM’s will be advanced on successful completion of LETQC and NPSC.

7. Due date for advancement will be 24 months from date that JPA competency was awarded.

8. CMC to assign MESM’s to attend LETQC 8 months after their FTSB.

9. CMC to assign WESM’s to attend LETQC 12 months after joining their FSD.

10. WESM rating fails to complete Taskbook and achieve WEOs recommend within 15 months of completing SMQ(Dry). MESM rating failure to complete Taskbook and displaying insufficient knowledge at the PDP assessment.

11. LETQC includes NPSC for MESM and TWS, CIS, SWS career courses for WESM. On successful completion of all qualifying courses the FT candidate will have their Increment Basic Date and Seniority Date adjusted to the advancement due date.
Notes:

12. **RNFT.** Ratings are to be in date RNFT, proactively engaged in remedial fitness training or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate due date for advancement. See Para 6806 for the required JPA competence.

13. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6803 for rules on the impact on a rating’s advancement if he/she fails to complete QC and/or LRLC/SRLC before the due date by time or within 12 months of the due date as a result of service reasons (outwith own control) or non-service reasons (within own control).

6809. **Probationary Leading Hands**

a. The rank of Probationary Leading Hand (P/LHs) is applicable to those recruited under the AA Scheme and Royal Navy Under-Graduate Apprenticeship Scheme (UGAS). (1)

b. All members of these schemes will join the RN as LHs but, to reflect their status as Untrained Strength (UTS), will initially be known as ‘Probationary Leading Hands’. To differentiate them visually from trained LHs they will wear a white flash on their rank slides and a curved white upper sleeve flash on their No. 1 uniform and overalls.

c. The following criteria are applicable to P/LHs:

1. P/LHs cannot exercise military command or issue lawful orders as a LH until they are confirmed in that rate. Nonetheless, any opportunities to experience leadership roles during training should be exploited.

2. **Phase 1 & 2 Training.** During Phase 1 & 2 training, establishments are to manage AA and UGAS personnel as they would any other Phase 1 or 2 trainees.

3. **GS Sea Training.** After Enabling Course, EGS Accelerated Apprentice trainees will start a period of training at sea. During this stage they will not receive the privileges of a LH. Whether embedded as a small group, or as individuals, they remain UTS and require the supervision and care suitable to that status.
Phase 3 Training Courses. P/LHs will remain UTS while on Phase 3 courses. They can therefore only keep establishment and unit duties in a ‘shadow’ role, however this should not preclude them from double-banking LH duties to obtain experience and exposure. They are also subject to the AA warnings and failure policy see Annex 68N. Notwithstanding these distinctions, P/LHs on Phase 3 courses will be administered in the same way as their GTS ET and LH colleagues.

Standards of Conduct and Behaviour. Exemplary conduct, behaviour, performance and dress is expected of P/LHs at all times. This should be reinforced at each stage of training by briefings from local staff and the AA/UGAS management teams. P/LHs may also need to undertake complementary or repeat instruction outside of core working hours. Such requirements will be at the discretion of the local management chain.

Note. The UGAS scheme for MESM is detailed in Chapter 74, and for WESM in Chapter 75.

Accelerated Apprentice (AA) Scheme

a. The AA scheme has been developed to appeal to the growing population of school leavers with Level 3 STEM qualifications (A-levels and vocational). It provides a route to exploit the potential of these individuals by expediting through-flow to LAET/LET by means of a 2-year training programme. It will also add a route of entry which will be attractive to school leavers holding Engineering and Science Level 3 qualifications and is expected to contribute to the recruitment of improved talent to the RN engineering cadre. The scheme provides a bespoke training pipeline for AA personnel which accounts for their already achieved Level 3 qualifications. Once training is complete and the individual becomes a Gain to the Trained Strength (GTS), they leave the AA scheme and are treated as a standard LAET/LET.

b. The scheme is under ACOS (PCap) governed via the NSEPB, chaired by ACOS (PCap). At DACOS level, the scheme is owned by DACOS (BM), who delegates policy authority to the respective Branch Managers (EGS, ESM and AE). For the EGS and ESM cadres, the scheme is managed by personnel formed as an Accelerated Technician Authority (ATA), while for AE it will is the Accelerated Apprentice Air Engineering Recording Authority (AA AE RA). (See Note 1)

c. On joining HMS RALEIGH for New Entry Training, AA recruits will be Probationary Leading Hands (P/LH). They will remain P/LHs until completion of the AA pipeline. Guidance on management of P/LHs can be found at Para 6809. (See Note 2)

d. Selection. Due to both the accelerated nature and limited places available on the AA scheme, the recruitment process is bespoke and selective. AA candidates are recruited into their specific branch as AE, MEGS, WEGS or ESM. There is one AA intake per year for MEGS and WEGS and 2 intakes per year for AE and ESM. (See Note 3)
(1) Recruitment of AA candidates is the responsibility of CNR. During this process the performance of candidates will be collated and recorded by the CNR Accelerated Engineer Coordinator (AEC).

(2) CNR AEC will present candidates’ performance at the Final Selection Board (FSB). This will be attended by the CNR AEC, AA AE RA/ATA of the Branch and a member of the Branch Management team (OR8 or above) and presented with detailed feedback and thus make the final selection. The FSB is to be convened at the end of the recruiting cycle, approximately two months prior to the AA entry, to allow candidates to prepare to join the RN. The FSB also provides an opportunity between CNR and the Branch Management to review and improve the selection criteria and process.

e. **Advancement Flowcharts.** The following rules apply to personnel recruited to the AA scheme. (See Note 4)

**LEADING ENGINEER TECHNICIAN AA (GENERAL SERVICE) FLOWCHART**

Entry to HMS RALEIGH (See Note 5)

| PROBATIONARY LEADING ENGINEER TECHNICIAN  
| (MARINE/WEAPON ENGINEERING GENERAL SERVICE) |

**Leading Engineer Technician AA (General Service) Advancement Criteria**

- a. Compete Phase 1 New Entry Training.
- b. Complete ME160/WE290 Enabling Course.
- c. Pass Basic Sea Survival Course and Able Rates Leadership Course.
- d. Complete AA Sea Phase including Sea Phase Task Book, CBRN DC Task Book and pass AA PE.
- e. Streaming preference submitted. (6)
- f. Passed all aspects of LETQC.
- g. Completed Leading Rates’ Leadership Course (LRLC), recorded on JPA as ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’.
- h. Recommended for advancement.
- i. In date RNFT or waiver (or when eligible for promotion (if later)) (Para 6805). Recorded on JPA as ‘CMS|Fitness Test|Navy’.
- j. At least 6 months since last Career Check (if any) on date due advancement.
Advanced to

PROBATIONARY LEADING ENGINEER TECHNICIAN
(MARINE/WEAPON ENGINEERING SUBMARINE)

Leading Engineer Technician AA (Submarine) Advancement Criteria

a. Compete Phase 1 New Entry Training.
b. Complete SMQ Dry.
c. Pass Able Rates Leadership Course
d. Complete ME 180 Enabling Course.
e. Streaming preferences submitted.
f. Passed PDP assessment board.
g. Passed all aspects of LETQC.
h. Passed required LET specialist training courses.
i. Completed Leading Rates’ Leadership Course (LRLC), recorded on JPA as ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’.
j. Recommended for advancement.
k. In date RNFT or waiver (or when eligible for promotion (if later)) (Para 6805); Recorded on JPA as ‘CMS|Fitness Test|Navy’.

Advanced to
LEADING ENGINEER TECHNICIAN (See Note 7)
(MARINE/WEAPON ENGINEERING SUBMARINE)
Notes:

1. TORs for the EGS ATA are detailed at Annex 68A and for the AA AE RA can be found at Annex 74B.

2. Details of branch specific pipelines can be found as Annexes to the Engineering Promotion Chapters 74-75.

3. ESM candidates are streamed MESM or WESM following SMQ(Dry).

4. Advancement Flowcharts for AA AE are detailed in Chapter 76.

5. The eligibility criteria to be recruited as an AA include that they join educationally qualified for promotion (EFP) to LET in accordance with Para 9636. Appropriate competences should be recorded on JPA.

6. MEGS only. Stream Preference of either ET(ME) EL or ML, as appropriate, is to be recorded on JPA, within the section Personal Preference Comments 1.

7. On successful completion of the AA pipeline the individual will become a Gain to the Trained Strength and advanced to Leading Engineer Technician. They will then transfer to either the Selective Promotion Flowchart or, if selected, to the Fast Track POET Flowchart.

6811. Undergraduate Apprenticeship Scheme (UGAS)

a. UGAS is an ESM specific scheme designed to accelerate recruits along the MESM or WESM career pipelines to POET. Details of the scheme can be found in Chapters 74 and 75.

b. On joining HMS RALEIGH for New Entry Training, UGAS recruits will be Probationary Leading Hands (P/LH). They advance to substantive LET and to POET at defined points in their training pipeline (See Chapters 74 and 75).
ANNEX 68A

TERMS OF REFERENCE FOR ENGINEERING GENERAL SERVICE ACCELERATED TECHNICIAN AUTHORITY (MEGS AND WEGS)

PREAMBLE

1. Career Management is about assigning the right people, with the right skill-sets, to the right job, at the right time, balancing carefully the needs of the Service and the development of the individual in support of operations, whilst maintaining MC of OC.

2. With the introduction of a number of Accelerated Technician (AT) schemes, and in order to deliver success in the schemes, an increased degree of Career Management and oversight of personnel is required.

3. The Accelerated Technician Authority (ATA) positions are OR7 posts within ACOS(PCap) based in HMS SULTAN and HMS COLLINGWOOD and are responsible for supporting CM ENG SO2 and the WO1 EGS JR CM in the management and oversight of the EGS ratings on an Advancement Scheme (including, but not limited to, Fast Track (FT), Advanced Apprenticeship (AA), and Direct Entry Technician (DET)).

PURPOSES

4. Primary Purpose: To act as a focal point for the stakeholder community as detailed in Figure 1 on all aspects relating to the various EGS Advancement Schemes.

5. Secondary Purposes:

   a. The monitoring and recording of the progress of all EGS individuals on an AT scheme.

   b. Directing and supporting accelerated career scheme activities and requirements within training schools as required.

   c. To monitor AA recruitment through liaison with the CNR Accelerated Engineer Coordinator and select the candidates for the scheme as a member of the Final Selection Board (FSB).

   d. Liaising with CMCs and UPOs to ensure assignment action and UPO administration (pay, advancement, engagement status etc.) are enabled to meet the requirements of various AT schemes.

   e. Acting as a focal point for mentoring and championing the EGS members and potential members of the various AT schemes from application, recruitment and new entry through to specialist training and first complement assignment.

   f. Provide a source of advice and information for potential recruits to the scheme.
ACCOUNTABILITY

6. ATAs are accountable to CM OR ENG SO2 for the following:
   a. The selection of Fast Track ratings within the EGS Branch.
   b. The management of EGS ratings on Advancement Schemes.
   c. Contributing to Engineering Branch development as part of wider Naval personnel development and strategy\(^1\).

AUTHORITY

7. ATAs are authorised to carry out the following:
   a. Represent another member of the ATA Team as delegated.
   b. Liaise with authorities across the MOD and Commands and elsewhere in pursuance of their purposes.

Sign correspondence on matters within their purpose, keeping superiors informed.
   d. Represent CM ENG SO2 as required on matters relating to the Advancement Schemes.

TASKS

8. The principal tasks undertaken by ATAs are as follows:
   a. Coordinate and Attend the FSB. The FSB will be convened roughly 2 months prior to the intake entry date to INT to select the top applicants for the scheme. The board will be convened by the ATA who is to contact BM WO1/2 to provide a board chair. CNR AEC will present the AA applicants to the board.

b. Monitoring and Recording the Progress of all Accelerated Technicians. The ATA will maintain a record of all individuals’ progress towards achieving all training requirements for advancement prior to their AT Advancement Date/Due Date. The ATA will monitor an individual’s progress towards their pre-advancement requirements\(^2\), providing the ATA with confidence that all AT advancement requirements will be achieved on time. Analysis of candidate performance should be undertaken to develop future entry requirements for the scheme, in order that this information can be used to review entry criteria and weightings.

c. Unit Training Co-ordinator Support. The ATA will provide support to unit Training Co-ordinators in order to effectively support AT personnel whilst employed at sea.

---
\(^1\) CNEO strategy which includes the personnel pillar, sits within the ES Division.
\(^2\) As detailed in BRd 3(1) Chapter 68.

68A-2 of 4
February 2020 Version 1
d. **AT Focal Point.** The ATA team will be the focal point for all AT enquires, **supporting** Divisional Staff, Training School Staff and Career Managers in the effective management of all AT personnel.

e. **Fast Track (FT) Selection Process.** The ATA will be responsible for the coordination of the FT Phase 1 (ET – LET), Phase 2 (LET – POET) and Phase 3 (POET-CPOET) selection process. This will include organising all FT activities, such as briefing Qualifying Course, as well as supporting the interview and selection board process under the Maximise Authorised Numbers (MAuN) as set by the Branch Management team for the particular cadre.

**COMPETENCES**

9. In general, the post holder is to be a CPO Engineering Technician of the appropriate Branch.

ANNEX 68B

CERTIFICATE OF UNDERSTANDING - PART A

TRANSFER TO THE ENGINEERING GENERAL SERVICE FAST TRACK SCHEME

BEING SUBJECT TO: ADVANCEMENT BY TIME (IN ACCORDANCE WITH BR 3(1) CHAPTER 68) AND POSSIBLE CHANGES IN MINIMUM NOTICE FOR ASSIGNMENT TO SEA AND SHORE

Part 1 – Individual’s Details

<table>
<thead>
<tr>
<th>FULL NAME (in Capitals)</th>
<th>SERVICE No</th>
<th>RATE</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Selection Point</th>
<th>Date of Selection</th>
<th>Fast Track Start Date/LET Seniority Date</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>ET CC/LET QC/POET QC*</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Part 2 – Individual’s Declaration

I understand that during my time on the EGS Fast Track scheme:

a. I will be subject to advancement by time (as detailed in BR 3(1) Para 6808 and Chapter 74/75*) rather than selective promotion and, therefore, I will not be considered at any Selection Boards for Promotion.

b. I may be liable to be assigned to sea or shore units at less than normal assigning notice, as detailed in BR 3(1) Chapter 59 Section 11.

Signed: ___________________________ Date: ______________________

Part 3- Accelerated Technician Authority

The above named rating has been transferred to the EGS Fast Track scheme and will be subject to advancement by time, with the following awarded due date for the next higher rate:

<table>
<thead>
<tr>
<th>Advancement To</th>
<th>Date Due Advancement</th>
</tr>
</thead>
<tbody>
<tr>
<td>LET/POET/CPOET*</td>
<td></td>
</tr>
</tbody>
</table>

* delete as appropriate

Signed: ___________________________ Rate/Rank: ______________________

Name (in capitals): ___________________________ Date: ______________________

---

1 A copy of the Certificate of Understanding Part A is to be retained by the individual.
2 The Certificate of Understanding Part A is to be retained by the ATA for a period of 3 years after the individual leaves the FT scheme.
CERTIFICATE OF UNDERSTANDING - PART B

REMOVAL FROM THE ENGINEERING GENERAL SERVICE FAST TRACK SCHEME

Part 1 – Individual’s Details

<table>
<thead>
<tr>
<th>FULL NAME (in Capitals)</th>
<th>SERVICE No.</th>
<th>RATE</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The Above Named Rating has been removed from the EGS Fast Track scheme and will no longer be subject to time based advancement.

The following seniority date has been determined by the Fast Track Authority and will be recorded in JPA:

<table>
<thead>
<tr>
<th>RATE</th>
<th>SENIORITY DATE</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Part 2 – Individual’s Declaration³

I understand that on removal from the Fast Track scheme I will:

a. Return to being subject to selective promotion as detailed in BR 3(1) Chapter 67 and Chapter 74/75*.

b. Be liable to be assigned to sea or shore units as detailed in BR 3(1) Chapter 59 Section 11.

Signed: ___________________________ Date: ______________________

* delete as appropriate

Part 3- Accelerated Technician Authority⁴

The Above Named Rating has been transferred to the Selective promotion scheme and will be subject to promotion by Selection from the following date:

Date:

³ A copy of the Certificate of Understanding Part B is to be given to the individual.
⁴ The Certificate of Understanding Part B is to be retained by the ATA for a period of 3 years after the individual leaves the FT scheme.
The following actions have been completed;

- the individual has been fully briefed on implications of removal from Fast Track and has been advised of any ROS associated to the Qualifying Courses that have been completed;

- all Fast Track competences have been removed from JPA; and,

- the Individual’s Seniority Date has been agreed with the FTA and recorded in JPA.

Signed: _______________________________ Rate/Rate: _______________________________

Name: _______________________________ Date: _______________________________
ANNEX 68C

FAST TRACK SELECTION INTERVIEW GUIDE

1. The FTSI will take the following format:
   
a. **Board Introduction**: The FTSI president will introduce the board members and outline the requirements of the board.
   
b. **Self Introduction**: Candidates will be asked to give a short brief on their personal history and career to date.
   
c. **Training and Career Development**: Candidates should be able to demonstrate outline knowledge of the LET / POET Qualifying Courses and an understanding of ET career stream development and promotional prospects. Candidates will also be expected to demonstrate awareness of the role of LET and POET.
   
d. **System and General Technical Knowledge**: Candidates will be expected to demonstrate a good knowledge of basic systems that are taught during Phase 2, using diagrams if appropriate. They must be able to demonstrate an aptitude and understanding of basic engineering principles in both mechanical and electrical disciplines.
   
f. **General Awareness**: Candidates will be expected to have an understanding of the organisational structure of ME or WE departments from ET through to command level. Additionally, they must have an appreciation of the Royal Navy in terms of current and future equipment, platforms and operations.

2. **Examiners’ Guidance**
   
Hints and guidance given to FTSB examiners as to what standards they are looking for.

   a. Guidance for all candidates:
   
   b. Able to communicate orally and in writing.
   
   c. Able to discuss various issues in a clear and logical manner.
   
   d. Good standard of mathematics, broadly equating to GCSE Grade C or above.

3. Questions should be based, where appropriate, around scenarios the individuals would be likely to encounter on board. Use of diagrammatic explanations is acceptable. Allowances should be made for Phase 2s who may not use the correct terminology or lack on board experience.

</table>

1. Training & Career Development - *FT Candidates should be able to demonstrate/show:*

Understanding of FT and non-FT timelines and qualifications up to and including WOET(WE)? What are the Leadership and Management differences between LH and PO? Do they know role of LH as LHOM and with regard to Divisional organisation?

**CIS Specific** – Understand the role of the RIC of communications at sea.

/10

2. Weapon Engineering Department - *FT Candidates should be able to demonstrate/show:*

WE Department Family Tree from CO down and the roles, main tasks Do they have a basic Understanding of board planning, eg. weekly planning cycle, maintenance planning etc. Understanding the terms Operational Notice, Notice for sea and the Operational effect. Understanding of Explosive handling and Explosives Organisation.

What is the Duty watch organisation and responsibilities?

**CIS Specific** - Explain the communication services to be maintained by Ships at sea, understand the requirements for a communications intentions signal (including timeframes) and define OPCALL as well as understand the reporting chain for CIS problems at State 1, 2, & 3.

*What level of detail is the candidate able to articulate? Has effort been made to expand on QC knowledge?*

/10
3. General Technical Knowledge - *FT Candidates should be able to demonstrate/show:*

- Knowledge of weapon systems and their Operational Capabilities
- Knowledge of internal and external communications, their capabilities and primary uses.
- Action Information Organisation (i.e. How weapon and sensor systems interact on board including the Combat System Highway)
- Understanding of the SHIPHAZ Procedures
- Tag out procedures and Preps for Sea routines

**CIS Specific** – Demonstrate knowledge of computer networks and System networking.

- Knowledge of Communication Plans, Strategic, Tactical and Distress communication circuits.
- Explain IS systems in use onboard RN Vessels (e.g. DII/RNCSS) and what the systems are utilised for.
- Understand Basic fault finding of Communications Circuits.
- Knowledge of reversionary modes available to CIS systems.

What level of detail is the candidate able to articulate? Has effort been made to expand on QC knowledge? /10

4. General Naval Knowledge - *FT Candidates should be able to demonstrate/show:*

- Types of vessel used in the RN and primary roles. Areas of tasking undertaken by the RN. Future platforms.

Is the candidate’s information current? Is it evident effort been made to do research? /10

5. Motivation - *FT Candidates should be able to communicate:*

Why do you want to go fast track? Why do you feel you should be given the opportunity to proceed through your career at an accelerated rate ahead of your peers? /10

**Overall Performance on the Board:**

*Use of correct engineering terminology, effective communication skills, military bearing, how they conduct themselves etc.*

**Result:**

*V STRONG/STRONG/SATISFACTORY/FAIL/Demonstrates Potential for LET/POET* /50

Signed:

Board President

<th>Board Member</th>
</tr>
</thead>
</table>

**Training & Career Development:**
Detailed understanding of FT and non-FT timelines and qualifications up to and including WOET(ME) – eg. timescales to PE, Operator Tickets, CDJ completion etc. Candidates should know the CLM and OC delivery difference between LH and PO. Do they know the length of each career course, pre-requisites for promotion, authorisation levels at each rank, BR references, Engineering Training Squadrons etc.

<table>
<thead>
<tr>
<th>V STRONG/STRONG/SAT/POOR/V POOR</th>
</tr>
</thead>
</table>

**Engineering Department/Support:**
Ability to draw ME Department Family Tree from CO down and talk about roles of all individuals in the tree, detailing main tasks and interaction with other departments. Do they have an understanding how onboard planning is conducted, eg. weekly planning cycle, maintenance planning, FTSP planning/support etc.

<table>
<thead>
<tr>
<th>V STRONG/STRONG/SAT/POOR/V POOR</th>
</tr>
</thead>
</table>

**Mathematics/Problem Solving:**
Engineering Mathematics, test ability to problem solve and apply sound engineering logic/judgement to arrive at sensible answers, eg. a compartment of length A, width B and depth C is filling with sea water at a rate of $\partial m^3$ per/hour. Given sea water density of 1029kg/m$^3$ how deep will the water be after X seconds and how much will this volume of water weigh? If water was added for a further 25% of the total time ($X + 0.25X$ seconds) how much deeper will the water be and how much extras will it weigh?

<table>
<thead>
<tr>
<th>V STRONG/STRONG/SAT/POOR/V POOR</th>
</tr>
</thead>
</table>

**General Technical Knowledge:**
Reflection on material delivered during ETICC, e.g. basic fridge cycle and symptoms of various failures, gas flow though a GT, ICE construction, safety, roundsmanship principles. Do they have a good understanding of system operation in and out of trade, correct use of engineering terms and symbols.

<table>
<thead>
<tr>
<th>V STRONG/STRONG/SAT/POOR/V POOR</th>
</tr>
</thead>
</table>

**MEGS & General Naval Knowledge:**
Types of vessel used in the RN and primary roles. Propulsion and weapon systems fitted, areas of tasking undertaken by the RN. Future platforms. Do they know role of LH as LHOM and with regard to Divisional organisation.

</table>
ANNEX 68D

FAST TRACK SCHEME - TERMS OF SERVICE AND FAILURE POLICY

1. Fast Track Terms of Service

a. The FT affords significant opportunity in terms of career progression at an earlier stage and that FT personnel will perform at a higher than average level of competence in all aspects of training and employment prior to achieving their next higher rate. The scheme is dependent on both the individual and the unit’s organisation to maintain progress towards the next higher rate and to ensure this occurs the scheme will be externally assured, managed under revised terms of service and clearly defined failure policy.

b. Lack of progress within the scheme has the potential to prevent the achievement of the nominated Due Date and, therefore, it will be expected that FT personnel will be appropriately supported. The individual will be placed on warning in a timely manner to support recovery and indicate not only the failure, but the potential impact to the due date achievement. At all times a FT individual must maintain a positive recommend to remain on the scheme and for the next advancement. Any repeated training failure, CLM or NGT warnings or attitudinal problems will, in all probability, result in removal from the FT scheme.

c. Personnel selected FT during Phase 2 Training who remain on the scheme (subject to completing all eligibility criteria) will be advanced to LET. Further selection for FT to POET will be dependent upon both performances on the LET QC and recommendation to remain FT. The FT selection board during Phase 3 Training will consider all those who retain the FT recommendation from Phase 2 Training and, also, those who have a recommendation from sea post completion of the Provisional Examination (recorded on JPA as ‘Professional I Fast Track POET Recommend I Navy’). Selection for FT to CPOET will be dependent on performance on the POET QC, recommendation for FT, Service History and requirement. The FT selection board during POET QC will consider all those who have a recommendation from sea post completion of the Provisional Examination (recorded on JPA as ‘Professional I Fast Track CPOET Recommend I Navy’).

d. To ensure all FT personnel are fully aware of the changes to their Terms of Service on selection to the FT scheme (including, being advanced in lieu of selective promotion), individuals will sign a Certificate of Understanding (Part A). When signing, they confirm that they understand that, whilst on the FT scheme, they will not be considered at Selective Promotion Boards and also there may be occasions where the minimum time for assignment to sea and shore may not be achieved. On leaving the FT scheme, a Certificate of Understanding (Part B) will be completed and signed by the individual reversing the process, with an individual returning to Selective Promotion and minimal notice for future assignments.
e. FT will incur the same Training Return of Service (TRoS) associated with CC and QC, see Para 5304 and Table 53-C. The TRoS obligation is incurred from the start date of the course and will be applied, subject to Service needs irrespective of the final course outcome. Although TRoS is incurred from the start of the course, the actual return of service will start on completion of LETQC, POETQC or CPOETQC respectively. This will be the case for all FT personnel; individuals who are withdrawn from training, for whatever reason, or who effectively withdraw themselves from training, will have a period of TRoS applied. As a rule this period will be determined by the FTA; taking into consideration the amount of course completed and any other mitigating factors.

2. FT Scheme Failure Policy

a. The failure policy is to be followed for all FT personnel and is aimed at ensuring individuals remain focussed on meeting the required of the FT scheme. Where it is evident that agreed targets will not be achieved, FT personnel are to be placed on warning in a timely manner to re-focus the individual and also highlight to the ATA the potential delay in the individual’s progression.

b. There may be extenuating circumstances, both Service and Non Service reasons, see Para 6802 which may prolong an individual’s time within the training pipeline. Delays may have an effect on the ability to meet progression to LET, POET or CPOET within the expected time and in all circumstances the ATA should be informed at the earliest point.

c. The names of ratings that, for reasons of misconduct, incompetence or lack of diligence, cannot be advanced within the set timescales are to be reported to ATA at the earliest opportunity with a recommendation on whether to be retained or removed from the FT scheme. Ship’s or Training School staff are to seek the advice of the ATA and CM EGS JR WO1 during any escalation of warnings preceding the individual’s due date for advancement.

3. Automatic Removal from the FT Scheme

The following occasions will be considered as reason for automatic removal from FT:

a. Submission of Early Termination request.

b. Failure to pass the necessary PE for a second time.

c. Not being recommended for advancement.

d. Failure of Leadership Course (LRLC or SRLC).

e. Discipline resulting in Disrating or Career Check.

f. Career Break.
4. **De-Selection from the FT Scheme**

   a. Once selected, an individual will remain on the FT scheme unless they;

      (1) Submit formal request to be removed from the scheme to ATA.

      (2) Fail to complete professional qualifications/requirements at sea within the prescribed timescales.

      (3) Demonstrates professional and/or performance-related reasons for unsuitability.

      (4) Are removed from the scheme following escalation of warnings for other professional, CLM or NGT reasons.

   b. On submission of a request for Early Termination an individual will be de-selected from the FT scheme. Unit Staff and Career Managers are to ensure they liaise with the ATA prior to accepting any notice to ensure that the individual is fully briefed on all aspects associated with removal from FT and serving notice, such as TRoS and being employed at sea during the notice period.

   c. When being de-selected from the FT scheme the ATA will ensure the following actions are completed and appropriate details are recorded on the Certificate of Understanding (Part B):

      (1) Individual is to be fully briefed on all aspects of removal and future promotion will be by Selection.

      (2) An SJAR or Insert Slip raised detailing reasons for the de-selection.

      (3) FT Certificate of Understanding (Part B), to be completed by the ATA.

      (4) ATA to remove the JPA FT competence.

      (5) Individual’s seniority date to be agreed with CM EGS JR WO1 and recorded on JPA.

5. **Volunteer for Removal from the FT Scheme**

   a. At any stage of the scheme an individual can volunteer to be removed from FT and revert to selective promotion. The process is detailed below and all individuals should be fully advised of the changes to their career progression when transferred back to the selective promotion route. It is recommended this is carried out by the unit HOD or CM EGS JR WO1.
b. The request by an individual for removal from the FT scheme is to be forwarded to the CM EGS JR WO1 for review and consideration. The CM EGS JR WO1 will provide career advice to the individual including any TRoS requirement in relation to any training courses that have been completed. The process to be followed is indicated below;

1. The FT ET is to submit a formal request detailing the explanation why they wish to be removed from the FT Scheme.

2. If the request for removal is associated with submission of Early Termination the ATA will liaise with CMC Career Manager before advising the HOD on future employment plans.

3. If at sea in a complement billet, the ET or LET is expected to remain in that position.

4. If the request for removal is not associated with an Early Termination but occurs on LETQC or POETQC the individual will continue on the course as subject to selective promotion. All cases will be treated individually and be approved by the CM EGS JR WO1.

c. Individuals removed from the FT will be career managed by their appropriate CMC and be employed according to the Needs of the Service.

6. Failure within Professional Qualifying Courses

a. FT personnel who fail on ET CC, LETQC or POETQC will be managed by the Training Schools QC Failure Policy. All FT individuals are to be considered by the Training School for removal from the FT Scheme on achieving Tier 2 (WE)\(^1\) and Level 2 (ME)\(^2\) Warnings.

b. Back Class for FT personnel is only to be considered for exceptional reasons outside of any professional training failure. Where back class is necessary then the individual case will be reviewed by the Training School, ATA and CM EGS JR WO1 to assess the impacts to the individuals training. Where a FT individual is being back classed then following liaison with the FTA the Training School will review the circumstances of the back classing and consider on a case by case basis if the individual is to remain on the FT scheme.

c. Where FT personnel fail or miss course module(s) then the Training School policy is to be followed in reprogramming modules. Where a module(s) has been missed for Service or Non Service reasons then the ATA is to be notified in all cases. Whether an individual remains on the FT scheme will be reviewed on a case by case basis, with the final decision being made between the Training School, CM EGS JR WO1 and the FTA.

\(^1\) HMS COLLINGWOOD FOAP(T) PCD-1304

\(^2\) HMS SULTAN TSOP:3:3
7. Failure of Leadership Courses

a. As Fast Track ratings it is expected that all FT personnel will allocate sufficient time and preparation to pass the necessary leadership courses that are the standard for the rank which they have been recommended following a successful pass at PE.

b. Those FT personnel who fail to pass LRLC or SRLC may be de-selected from the FT scheme for not meeting the standard of leadership expected at their rank. In exceptional cases and where there is sufficient mitigation and a recommend to return to leadership course by Royal Navy Leadership Academy (RNLA) Staff a de-selection from the FT scheme waiver may be considered. This must be approved by the FTA.

c. On removal from the FT scheme following failure at LRLC or SRLC the individual will be transferred to the selective promotion route at their current rank (ie. on failing LRLC the rating will remain as an ET1). The individual must then seek promotion by selection and will be planned to attend leadership only after further selection for the next higher rate.

8. Fast Track Scheme Rules Regarding Failure

The details given in Table 68D-1 provide reasons for failure and the associated actions to be taken. All instances will be reviewed on a case by case basis by the training School in consultation with the CM EGS JR WO1. Where an individual is removed from the FT scheme, the ATA will complete all relevant actions for the removal of the individual from the FT scheme.

Rules Regarding Failure Notes:

1. FT personnel are expected to demonstrate the higher levels of competence at all times. Failure to sustain this level or failure of any re-sit examination will be reviewed by the Training School and CM EGS JR WO1 on a case by case basis and may result in removal from the FT scheme but not necessarily from the qualifying course.

2. Where it is deemed necessary, but only in exceptional circumstances, a FT may be back classed. When back classed the individuals seniority and due dates may be adjusted accordingly as directed by CM EGS JR WO1 and FTA.

3. An individual shall continue in Phase 2 Training following failure at the discretion of the Training Officer.

4. Where warning levels have been issued due to an individual failing to achieve their planned progress on the FT scheme these warnings are to be reviewed upon removal from the FT scheme and transfer to Selective promotion and removed as appropriate. Where a warning is deemed necessary within the selective promotion also then it is to remain. Full clarification from the CM EGS JR WO1 should be sought by units.

5. On removal from the FT scheme and transfer to Selective promotion whilst serving at sea the relevant CM or CMC is to ensure the individual remains in post unless the warning level dictates otherwise. The individual’s seniority will remain that of any previous Due Date and it will be necessary to adjust all future availability dates.

6. Where an individual has failed to prepare for a leadership course which is assessed as being due to Non-Service Reasons within an individual’s control, the individual is to be removed from the FT scheme.

7. On failure at LRLC or SRLC and following removal from FT Scheme it is to be recognised that the individual will have completed less time at sea than those on selective promotion. It is therefore expected that these individuals will be assigned back to sea at the earliest opportunity by the relevant CM or CMC.

8. It is assumed that the failure occurs before any due date for advancement to NHR and by not completing QC the individual is therefore not eligible for advancement. All cases will be dealt with on an individual basis by the FTA and the CM EGS JR WO1.
9. Where an individual is selected for FT, but subsequently does not perform to the required standards on the higher qualifying course their Divisional Officer (ET CC or QC), HOD (Employment) or Training Officer (LETQC, POETQC and CPOETQC) may make a recommendation for the individual to be removed from the FT scheme to the CM EGS JR WO1.

10. On failure and removal from FT the ATA will complete all necessary actions and will also liaise with relevant CM or CMC regarding future employment and assignments. Where necessary the CM EGS JR WO1 will advise on individual cases.
ANNEX 68E
INTERIM FAST TRACK SCHEME

1. The EGS IFT scheme was introduced in advance of the Steady State FT scheme and provided an opportunity for the current strength ETs and LETs to have an accelerated route to POET. Capacity within legacy POET Enabling Training, followed by the POET Qualifying Course (QC) has been utilised to provide the appropriate higher level training before a period at sea to consolidate and acquire experience.

2. With the development and introduction of the Individual Competency Framework (ICF) designed QCs, the legacy training courses are being replaced and the Enabling Training for the IFT scheme removed from the Training Programme. As a result of this, the training pipeline is being amended for those who have been selected for IFT, but have been unable to be assigned or successfully complete the POET Enabling Training. These IFT personnel are being locally managed by the ATA and assigned to a revised training package that utilises LET and POET QC.

3. To remove any confusion between the Interim and Steady State FT schemes where possible the Terms of Service and Failure Policy have been aligned. During the development of the Steady State FT scheme the current IFT policy was reviewed and updated.

4. The policy laid down is applicable to personnel who were selected onto the Interim Fast Track prior to 1 Oct 15. Unlike Steady State FT, where there is a two stage selection process, personnel who are currently on the IFT scheme retain the rights of their due date for advancement up to POET, provided that they are eligible in all respects for advancement.

5. Management of IFT Personnel
A higher degree of external management and oversight of IFT is required to ensure personnel maintain the required standards and maximise the opportunities for sea experience between training courses. The Steady State FT scheme has introduced a CM EGS JR WO1, and an ATA, which will be based in HMS SULTAN and HMS COLLINGWOOD. The CM EGS JR WO1 and relevant ATA are also the focal point for all issues relating to IFT personnel. As the Fast Track Authority (FTA), the ATA will also provide the requisite assurance to Branch Managers of progress of all personnel within the IFT scheme.

6. Transfer to Interim Fast Track – Minimum Assignment Notice
The IFT scheme accelerates individuals to POET and may require shorter than the minimum assignment notice. All individuals on the IFT scheme may be liable to be assigned to sea or shore units at less than normal assigning notice, as detailed in Chapter 59 Section 11. This will be acknowledged by individuals when they sign the Certificate of Understanding (Part A); accepting the Terms of Service detailed for IFT, including waiving their rights to promotion under the selective promotion route and accepting that they may be assigned at less than the normal assignment notice period. Should an individual be removed from the IFT scheme then the Certificate of Understanding (Part B) will be used in transferring individuals back onto the standard selective promotion route and the normal assignment notice period. The Certificate of Understanding for IFT personnel can be found at Annex 68F and signed copies will be retained by both the ATA and the individual.
7. **Interim Fast Track Training Returns**
   The ATA will maintain a record of progress towards achieving the training requirements detailed in the flowcharts. Ship’s Staff will assist with this process by submitting a Training Return to the ATA either 3 monthly or when key milestones are reached/missed. All IFT personnel will be expected to proactively manage and own their training, and present a training plan to the unit Training Co-ordinator detailing when they believe they will achieve the required next higher rate eligibility criteria. An individual’s Training Plan should be reviewed and used to set SJAR Personal Objectives, aligned with the information contained on a unit’s Training Return.

8. **IFT Flow Charts**
   **ENGINEERING TECHNICIAN (MARINE AND WEAPON ENGINEERING) – INTERIM FAST TRACK ADVANCEMENT FLOWCHART FOR INDIVIDUALS WHO HAVE COMPLETED POET ENABLING TRAINING AND POET QC.**

The following rules apply to personnel who have been selected for the Interim Fast Track scheme and have completed POET Enabling Training and POET Qualifying Course.

<table>
<thead>
<tr>
<th>LEADING ENGINEERING TECHNICIAN</th>
</tr>
</thead>
<tbody>
<tr>
<td>Awarded an Advancement Due Date to POET of 24 months from the LET Seniority Date</td>
</tr>
</tbody>
</table>

**Criteria for Advancement to POET (Interim Fast Track)**

- a. Successful completion of POET Qualifying Course recorded on JPA as ME|POET ME Qualifying Course (ME284)|Navy| or WE|POET(WE) Career (WE315)|Navy|. (Note 2)(3)(4)(6).

- b. Hold Professional Qualifications SOC and MEOOW2C to be completed within 18 months’ sea service; recorded on JPA as ‘Professional Switchboard Operating certificate DB33)|Navy’ and ‘Professional Marine Engineer Officer Of The Watch 2 Certificate (MEOOW2C)|Navy’ (Applicable to ET(ME) personnel only).

- c. Completed OJT and Passed OPS Assessment for LET. Recorded on JPA as ‘Professional|OPS for LET(ME) DQ40|Navy’ or ‘Professional|OPS for LET(WE) DQ40|Navy’’. (8).

- d. Completed SRLC. Recorded on JPA as ‘Miscellaneous|Senior Rates Leadership Course|Navy’ (Para 6909). (5)

- e. In date for RNFT or hold approved waiver on date due advancement (Para 6806), recorded on JPA as ‘CMS|Fitness Test|Navy’. (1).

- f. 18 months’ sea service as a LET.

- g. At least 6 months since last Career Check (if any) on date due advancement.

- h. Recommended for advancement to POET on Appraisal Report. (7).

**PETTY OFFICER ENGINEERING TECHNICIAN** (Note 5, Note 7)
Transfer to Selective Promotion Flowchart for ICF ET and back to
selective promotion rules in Chapter 67

<table>
<thead>
<tr>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. <strong>RNFT.</strong> Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate due date for advancement. See Para 6806 for the required JPA competence.</td>
</tr>
<tr>
<td>2. Suitability of individuals to retake failed elements of the QC, or the requirement to be back classed, or remain on the IFT scheme, will be determined by the Commanding Officer of the relevant Training School. A repeat failure of part/all of the course will result in the individual being deselected from IFT, however, they will remain on the QC, but not on the IFT scheme (normal QC failure rules apply). Suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.</td>
</tr>
<tr>
<td>3. <strong>Unsuitable Candidates.</strong> Where, during the period of the QC, candidates are found to be unsuitable for advancement to the next higher rate, they may be withdrawn from training by the Commanding Officer of the relevant Training School. In such cases, individuals will be deselected from IFT and the QC and will continue to serve in their current rate. They will transfer from IFT back to Selective Promotion as the eligibility route for future selection.</td>
</tr>
<tr>
<td>4. <strong>Failure to complete Professional and/or Leadership Course.</strong> Refer to Para 6803 for rules on the impact on a rating’s advancement if he/she fails to complete LET/POET QC and/or LRLC/SRLC before the due date by time or within 12 months of the due date as a result of service reasons (outwith own control) or non-service reasons (within own control).</td>
</tr>
<tr>
<td>5. All IFT personnel shall complete SRLC, as appropriate, as part of their next higher rate. Preparation for and completion of these courses is essential and, although the responsibility rests firmly with the individual to be fully prepared, is to be supplemented with appropriate coaching and mentoring by their Head of Department. There may be occasions where an IFT individual is at their Due Date for advancement by time, but has not completed their QC so will not meet the advancement criteria. In consultation with the ATA, an application for the Acting Higher Rate will be considered against the ‘Inability to Satisfy Criteria for Advancement’ as detailed in Para 6803.</td>
</tr>
</tbody>
</table>
6. **Refusal to Complete POET QC.** Individuals who refuse to undertake the QC will be deselected from the IFT scheme, continue to serve in their current rate, and transfer back to Selective Promotion.

7. **If for any reason an LET does not achieve the eligibility criteria and subsequent recommendation for advancement, a review will be undertaken by the CM EGS JR WO1 on a case by case basis for suitability to remain on the IFT scheme.** Individuals who are removed from IFT will transfer back to the Selective Promotion rules.

8. **If the OPS Assessment is passed by a rating who is already qualified for advancement by service, then the seniority date for advancement will be the examination date.**

---

9. **ENGINEERING TECHNICIAN (MARINE AND WEAPON ENGINEERING) – INTERIM FAST TRACK ADVANCEMENT FLOWCHART**

The following rules apply to personnel who have not completed POET Enabling Training and POET Qualifying Course.

### ENGINEERING TECHNICIAN 2

**Engineering Technician 1 – Pre-Advancement Requirements**

- **a.** Completed RALEIGH – Phase 1 Training.
- **b.** Completed Phase 2 Training. (1)(2)(8).
- **c.** To be EFP in accordance with Para 9638 and recorded on JPA as 'Educational|RN/RM QEPO/Sgt|Navy'.
- **d.** Display required proficiency in accordance with competencies as laid down in the ICF as ET2, authorised by HOD. To be recorded on JPA as ‘Professional|Engineering Technician (Engineering) (GS)|Navy|ET1 Sea 1’. To be completed within 4 months sea service (applicable to ICF trained ET(ME) personnel only). (3)(4).
- **e.** Completed Task Book for ET(ME) 2 OC (MEMOC Harbour), recorded on JPA as ‘Professional|Achieved MEMOC (Harbour) (DQ50)|Navy’ (Applicable to legacy trained ET(ME) personnel only). (2)(8).
- **f.** Completed OJT TB and OPS Assessment as an ET(WE)(CIS), authorised by the HOD. Recorded on JPA as ‘Professional|OPS for AB(CIS)(QQ50)|Navy’ . To be completed within 12 months’ sea service (ET(WE)(CIS) only). (2)(8).
- **g.** Completed ET(WE) Task Book Section 2A. To be completed within 4 months sea service (ET(WE) only). (2)(8).
h. In date RNFT or waiver obtained at Due Date; recorded on JPA as 'CMS|Fitness Test|Navy' (Para 6806). (5).

i. At least 6 months since last Career Check (if any) on date due advancement.

j. Recommended for advancement to ET1 by HOD. Promotion Authorisation Request (PAR) forwarded to Flotilla parent Career Management Cell (CMC).

Advanced to
ENGINEERING TECHNICIAN 1

Leading Engineering Technician – Pre-Advancement Requirements

a. CBRNDC TB to be completed and recorded on JPA as ‘Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy’. (3).

b. Serving on an ES1/FC/OE1 that expires after the nominated Due Date for Advancement.

c. Display required proficiency in accordance with competencies as laid down in the ICF as ET 1, authorised by HOD and recorded on JPA as ‘Professional|Engineering Technician (GS)|Navy’, with a Proficiency Level of ‘ET1 Sea 2’. To be completed within 12 months’ sea service as an ET (Applicable to ICF trained ET(ME) personnel only). (4).

d. Completed Task Book for ET(ME)1 OC (MEMOC Sea-going) recorded on JPA as ‘Professional|Achieved MEMOC (Full) (DD44)|Navy’ within 12 months’ sea service as an ET (Applicable to legacy trained ET(ME) personnel only) (2)(8).

e. Streaming Preferences submitted and showing on JPA. (6).

f. Provisional Exam for LET(ME) and recorded on JPA as Professional| Provisional Examination for LET ET(ME)|Navy with a Proficiency Level of ‘Pass’. To be completed within 12 months’ sea service (Applicable to ICF trained personnel only). (7)(9).

g. Completed ET(ME or WE or CIS) OJT Task Book and OPS Assessment, recorded on JPA as ‘Professional|OPS for ET(ME) DQ40|Navy’ or ‘Professional|OPS for ET(WE) DQ40|Navy’ or ‘Professional|OPS for AB(CIS)(QQ50)|Navy’. To be completed within 12 months’ sea service (Applicable to legacy trained ET personnel only). (8).

h. Completed COMMS202 Career Course, recorded on JPA as Comms|AB(CIS)1/AB(CISSM)1 Career (Comms 202)|Navy| (Applicable to Ex-CIS personnel only). (10).

i. A minimum of 12 months sea service as an ET.

j. LRLC completed and recorded as JPA competency ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’ (Para 6909). (13).
k. Passed LET QC by nominated Due Date; recorded on JPA as ‘ME|LET(ME) Career (ME 151)|Navy’ or ‘WE|LET(WE) Weapons Career (WE 211)|Navy’ or ‘WE|LET(WE) Sensors Career (WE 212)|Navy’ or ‘WE|LET(WE) CIS Career (WE 213)|Navy’. (8)(9)(11)(12)(17).

l. In date RNFT or waiver obtained at Due Date; recorded on JPA as ‘CMS|Fitness Test|Navy’ (Para 6806). (5).

m. Recommended for advancement on Appraisal Report at Due Date. (14)(17)(18).

n. At least 6 months since last Career Check (if any) on date due for Advancement (if later).

---

**Advanced to LEADING ENGINEERING TECHNICIAN**

---

**Petty Officer Engineering Technician – Pre Advancement Requirements**

a. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated Due Date for Advancement.

b. To be EFP in accordance with Para 9638 and recorded on JPA as ‘Educational|RN/RM QEPO/Sgt|Navy’.

c. Hold Professional Qualifications SOC and MEOOW2C to be completed within 12 months’ sea service; recorded on JPA as ‘Professional|Switchboard Operating certificate (DB33)|Navy’ and ‘Professional|Marine Engineer Officer Of The Watch 2 Certificate (MEOOW2C)|Navy’. To be completed within 12 months’ sea service (Applicable to all LET(ME) personnel only).

d. Display required proficiency in accordance with competencies as laid down in the Individual Competency Framework (ICF) as LET, authorised by HOD. This is to be recorded under ‘Professional|Engineering Technician(Engineering)(GS)|Navy|LET Sea’. To be completed within 18 months’ sea service (Applicable to ICF trained personnel only). (15)(16).

e. Passed Provisional Exam for POET recorded on JPA as ‘Professional|Provisional Examination for POET |Navy|Passed’ (Applicable to all ICF trained personnel only). (7).

f. Completed LET(ME or WE or CIS) OJT Task Book and OPS Assessment, recorded on JPA as ‘Professional|OPS for LET(ME) DQ40|Navy’ or ‘Professional|OPS for LET(WE)|Navy’ or ‘Professional|OPS for LS(CIS) QQ40|Navy’ (Applicable to all legacy trained LET personnel only). (8).
g. 18 months’ sea service as an LET.

h. SRLC completed and recorded as JPA competency ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’ (Para 6909). (13).

i. Passed POET QC by nominated Due Date; recorded on JPA as ME|POET(ME) Career (ME153)|Navy’ or ‘WE|POET(WE) Weapons/Sensors POET(WESM) Career (WE 317)|Navy’ or ‘WE|POET(WE) CIS Career (WE 318)|Navy’. (8)(9)(11)(12)(17).

j. In date RNFT or waiver obtained at Due Date; recorded on JPA as ‘CMS|Fitness Test|Navy’ (Para 6806). (5).

k. Recommended for advancement on Appraisal Report at Due Date. (14)(17)(18).

l. At least 6 months since last Career Check (if any) on due date for Advancement (if later).

Advanced to
PETTY OFFICER ENGINEERING TECHNICIAN
Transfer to Selective Promotion Flowchart for ICF ET and back to selective promotion rules in BRd 3 Chapter 67

Notes:

1. On completion of ET(CC) where an ICF course has been undertaken a Career Development Journal (CDJ) will be issued. An individual who completes an OPS course will be issued the OJT Task Book.

2. ET(ME) personnel who commenced their ET(ME) career course prior to Jan 15 are to have completed and been awarded the following legacy OPS competencies for the eligibility criteria for advancement to ET 1 and LET:

   a. Advancement to ET(ME)1 - Completed Task Book for ET(ME) 2 OC (MEMOC Harbour), recorded on JPA as ‘Professional|Achieved MEMOC (Harbour) (DQ50)|Navy’.

   b. Advancement to LET(ME) - Completed Task Book for ET(ME)1 OC (MEMOC Sea-going) recorded on JPA as ‘Professional|Achieved MEMOC (Full) (DD44)|Navy’ and awarded OPS at ET1 recorded on JPA as ‘Professional|OPS for ET(ME) DQ40|Navy’.

3. On completion of the ET2 Career Development Journal (CDJ) mandated tasks and being recommended, ratings will be advanced to ET1 and issued their CBRNDC Task Book (to be completed prior to undertaking the Provisional Examination for LET or OPS Assessment as an ET).
Notes:

4. Competence as an ICF trained ET1 is achieved on successful completion of the ICF mandated competencies within the sea employment space, evidenced within the individual’s CDJ. This is to be completed within 12 months’ sea service as an ET.

5. **RNFT**. Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate due date for advancement. See Para 6806 for the required JPA competence.

6. **IFT ETs** will be streamed during their sea training phase, earlier than individuals that are not on the IFT scheme. An individual will be allocated a stream by the ATA in consultation with ships staff after 6 months sea service. Once streamed, employment on board, where possible, is to be within the allocated Stream. This will enable the IFT individual to gain as much experience as possible whilst in the compressed sea employment prior to being assigned to LET QC. This process is not applicable to IFT ET(WE)(CIS) personnel who are streamed on entry into the Service.

7. **ICF Trained Individuals** - Prior to undertaking the Provisional Examination the following pre-requisites are to have been achieved:

   a. **Competent in current rate** – Completed all mandated ICF competences, evidenced in the individual’s CDJ.

   b. **Completed a minimum of 12 months’ sea service as an ET or 18 months’ sea service as a LET.**

   c. **Completed CBRN DC Task Book** (PE for LET only).

   d. **Recommended by Commanding Officer.**
Notes:

8. **OPS Trained Individuals** – Where, due to non-availability of ICF designed courses, legacy ET, LET, LCIS, POET or POCIS courses will continue to be used to train IFT personnel. Post completion of the QC, the technical eligibility criteria for the next higher rate will be the associated OPS Assessment in lieu of the Provisional Examination. Where an individual has completed an OPS designed Qualifying Course, the OJT Task Book and the OPS Assessment, there is no requirement to complete the CDJ and the Provisional Examination for the next higher rate. The OPS Assessment is to be completed within 12 months’ Sea Service for an ET and 18 months’ sea service for a LET. The relevant JPA competences are as follows:

   a. ET(WE)(CIS) - Professional|OPS for AB(CIS)(QQ50)|Navy|
   b. ET(WE) - Professional|OPS for ET(WE) DQ40|Navy|
   c. LET(WE)(CIS) - Professional|OPS for LS(CIS) QQ40|Navy|
   d. LET(WE) - Professional|OPS for LET(WE)|Navy|
   e. LET(ME) - Professional|OPS for LET(ME) DQ40|Navy

9. **Pre-course Learning** is to be completed in accordance with the policy of the Training School. Where this is not achieved, the suitability of the individual to undertake the course and also remain on the IFT scheme will be determined by the Commanding Officer of the relevant Training School on a case by case basis.

10. Meeting all the promotion criteria as detailed in Para 7508. Engineering Technician (Weapon Engineering) CIS - Entered as Warfare CIS and transferred to WE Branch in April 2015.

11. Suitability of individuals to retake failed elements of the QC, or the requirement to be back classed, or remain on the IFT scheme, will be determined by the Commanding Officer of the relevant Training School. A repeat failure of part/all of the course may result in the individual being deselected from IFT and the QC and continuing to serve in the lower rate. Suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.
Notes:

12. **Unsuitable Candidates.** Where, during the period of the Qualifying Course, candidates are found to be unsuitable for advancement to the next higher rate, they may be withdrawn from training by the Commanding Officer of the relevant Training School. In such cases, individuals will be deselected from Interim Fast Track and an assessment made on their suitability to remain on Qualifying Course. They will transfer from Interim Fast Track back to Selective Promotion as the eligibility route for future selection.

13. **Failure to complete Professional and/or Leadership Course.** Refer to Para 6803 for rules on the impact on a rating’s advancement if he/she fails to complete PQC and/or LRLC/SRLC before the due date by time or within 12 months of the due date as a result of service reasons (outwith own control) or non-service reasons (within own control).

14. **Advancement Due Dates.** The following Due Dates for Advancement have been applied to individuals selected at the Jan 15 IFT Selection Board and a record of these are held by the Promotions Office and the ATA:

   a. ET 2 under Phase 2 Training at the time of Selection. A Due Date for advancement to LET of 24 months from the date of selection (to include a minimum of 12 months’ sea service). A future due date for advancement to POET of 36 months’ seniority, including a minimum of 18 months’ sea service as an LET.

   b. ET 2 at sea / ET 1 Pre-OPS at time of Selection. A Due Date for advancement to LET of 18 months from the date of selection (to include a minimum of 12 months’ sea service). A future due date for advancement to POET of 36 months’ seniority, including a minimum of 18 months’ sea service as an LET.

   c. ET 1 at OPS at the time of Selection. A Due Date to LET of 31 Mar 16. A future due date for advancement to POET of 36 months seniority, including a minimum of 18 months’ sea service as an LET.

   d. ET 1 / LET on LETQC at the time of Selection. These individuals were selected on merit for LET and, if not already promoted; their original CPD is to be used as their Due Date for advancement. A future due date for advancement to POET of 36 months’ seniority, including a minimum of 18 months’ sea service as an LET.
Notes:

e. LET Pre-OPS at the time of Selection. A Due Date for advancement to POET of 31 Mar 16.

f. LET at OPS at the time of Selection. A Due Date for advancement to POET of 6 months from the date of selection.

15. Competence as an ICF trained LET(ME) is achieved on successful completion of the SOC, MEOOW2 and the ICF mandated competences within the sea employment space, evidenced within the individual’s CDJ. This is to be completed within 18 months’ sea service as a LET(ME).

16. Competence as an ICF trained LET(WE)/LET(WE)(CIS) is achieved on successful completion of the ICF mandated competences within the sea employment space, evidenced within the individual’s CDJ. This is to be completed within 18 months’ sea service as a LET.

17. Refusal to Undertake the QC. If a rating decides to refuse the course, they will be deselected from IFT, continue to serve in their current rate and will transfer to Selective Promotion.

18. If for any reason an ET or LET does not achieve the eligibility criteria and subsequent recommendation for advancement, a review will be undertaken by the CM EGS JR WO1 on a case by case basis for suitability to remain on the IFT scheme. Individuals who are removed from IFT will transfer back to the Selective Promotion rules. Prior to the transfer to selective promotion, a decision will be made by the FTA and CM EGS JR WO1 on the individual’s seniority in current rate and suitability for next higher rate training.
10. Career Management

Individuals on the IFT scheme will continue to be assigned by the relevant CMC, but this will be overseen and directed by the CM EGS JR WO1, supported by the relevant ATA.

11. Attending a QC

a. The planning and enrolment of individuals onto a QC will be undertaken by the ATA, in liaison with the CMC. IFT personnel will be provisionally allocated a LET QC start date shortly after completing Phase 2 Training. An IFT LET will be provisionally booked on POET QC 12 months prior to course start. Attendance on both the LET and POET QC will be dependent upon the achievement of all the relevant advancement criteria detailed at Annex 68B. Frequent liaison between the employing ship and the relevant ATA will ensure that Training Schools, CMCs and employing ships can effectively plan the movement of IFT personnel.

b. With a known approximate LET and POET QC start date, the mandatory pre-course learning detailed at BR 2000 (3)(1) Chapter 4 and (4)(1) Chapter 4 is to be commenced no later than the point of achieving 8 months’ sea service for an ET and 14 months’ sea service for an LET. This will allow sufficient time for completion prior to attending the next higher rate Qualifying Course.

c. Pre-course learning completion requirement is not applicable to IFT personnel who have already completed the POET enabling and POET QC as detailed in the Flowcharts.

12. Leadership Training

a. All IFT personnel shall complete LRLC or SRLC, as appropriate, for advancement to the next higher rate. Preparation for and completion of these courses is essential and, although the responsibility rests firmly with the individual to be fully prepared, is to be supplemented with appropriate coaching and mentoring by their Head of Department.

b. There may be occasions where a IFT individual is at their Due Date for advancement by time, but has not completed the pre-requisite LC or QC so will not meet the advancement criteria. In consultation with the ATA a Commanding Officer may award the individual the Acting Higher Rate, see Para 6802 and Para 6803.

13. Employment

a. IFT personnel will be employed in complement billets as designated by CMC. The compression of the training timeline in comparison to their non IFT counterparts is achieved through a shorter time spent at sea. The timeline does not allow for periods of employment ashore and CMCs will be directed to ensure that IFT personnel are suitably assigned to sea positions on completion of their QC.
b. IFT personnel are to be employed within ship in the same manner as their non IFT counterparts and are to perform all duties and tasks expected of their role. In order to achieve their training requirements an IFT individual is required to maintain high personal motivation and dedication, supported by the ship with suitable opportunities. With a number of LET positions being either a Deputy or Section Head, consideration will be taken by the ATA to minimise, where possible, the effects due to assigning an IFT LET to, and from, a ship.

c. Where a ship’s programme changes, or an IFT individual cannot be suitably employed (such as ships in Upkeep), and the individual will be unable to achieve their advancement criteria, ship’s staff are to liaise with the ATA to discuss alternative employment options.

14. Fast Track Failure Policy and De-Selection from Scheme
Once selected, an individual remains on the IFT scheme (ET to POET), unless their progress, performance or standards are deemed insufficient or they voluntarily remove themselves. Additionally, individuals will be removed from the IFT scheme if selected for the UY(E) scheme. Where an individual has not been able to meet the demands and maintain IFT accelerated training delivery they will be de-selected from the IFT scheme and will revert to the selective promotion regulations. The IFT scheme failure and de-selection policy is detailed at para 25 et seq.

15. SJAR Reporting Requirements
Annual SJARs remain a mandatory requirement for all IFT individuals and should comment on their current performance, CLM, employment and training achievements. Within the SJAR, Reporting Officers should report whether or not an individual remains recommended for IFT and, if appropriate, the individual’s potential for the next IFT stage. The SJAR must contain evidence to support these recommendations.

16. IFT Terms of Service

a. The IFT affords significant opportunity in terms of career progression at an earlier stage and therefore it is expected that IFT personnel will perform at a higher than average level of competence in all aspects of training and employment prior to achieving their next higher rate. The scheme is dependent on both the individual and the unit’s organisation to maintain progress towards the next higher rate and to ensure this occurs the scheme will be externally assured, managed under revised terms of service and clearly defined failure policy.

b. Lack of progress within the scheme has the potential to prevent the achievement of the nominated Due Date and it will be expected that IFT personnel will be appropriately supported, by being placed on warning in a timely manner to support recovery and indicate not only the failure, but the potential impact on the due date achievement. At all times an IFT individual must maintain a positive recommendation to remain on the scheme and for the next advancement. Any repeated training failure, CLM or NGT warnings or attitudinal problems will, in all probability, result in removal from the IFT scheme.
To ensure all IFT personnel are fully aware of the changes to their Terms of Service on selection to the IFT scheme (including, being advanced in lieu of selective promotion), individuals will sign a Certificate of Understanding (Part A). In signing, they confirm their understanding that, whilst on the IFT scheme, they will not be considered at Selective Promotion Boards and that there may be occasions where the minimum notice for assignment to sea and shore may not be achieved. On leaving the IFT scheme, a Certificate of Understanding (Part B) will be completed and signed by the individual which reverses the process (ie. the individual returns to Selective Promotion and minimum notice for future assignments). The IFT Certificate of Understanding is at Annex 68F.

d. IFT will incur the same Training Return of Service (TRoS) associated with CC and QC, see Para 5304 and Table 53-C. The TRoS obligation is incurred from the start date of the course and will be applied, subject to Service needs irrespective of the final course outcome. Although TRoS is incurred from the start of the course, the actual return of service period will start on completion of LETQC or POETQC. This will be the case for all IFT personnel; individuals who are withdrawn from training, for whatever reason, or who effectively withdraw themselves from training, will have a period of TRoS applied. As a rule this period will be determined by the FTA; taking into consideration the amount of course completed and any other mitigating factors.

17. **IFT Scheme Failure Policy**

a. The failure policy is to be followed for all IFT personnel and is aimed at ensuring individuals remain focussed on meeting the requirements of the IFT scheme. Where it is evident that agreed targets will not be achieved, IFT personnel are to be placed on warning in a timely manner to re-focus the individual and highlight to the ATA the potential delay in the individual’s progress.

b. There may be extenuating circumstances, both Service and Non Service reasons, see Para 6802, which may prolong an individual’s time within the training pipeline. Delays may have an effect on the ability to meet progression to LET or POET within the expected time and in all circumstances the ATA should be informed at the earliest point.

c. The names of ratings who, for reasons of misconduct, incompetence or lack of diligence, cannot be advanced within the set timescales are to be reported to ATA at the earliest opportunity with a recommendation on whether to retain or remove them from the IFT scheme. Ship’s or Training School staff are to seek the advice of the ATA and CM EGS JR WO1 during any escalation of warnings preceding the individual’s due date for advancement.

18. **Automatic Removal from the IFT Scheme**

The following occasions will be considered as reason for automatic removal from IFT:

a. Submission of Early Termination request.
b. Failure to pass the necessary PE for a second time.

c. Not being recommended for advancement.

d. Failure of Leadership Course (LRLC or SRLC).

e. Discipline resulting in Disrating or Career Check.

f. Career Intermission.

g. Does not continue to attract a positive recommend for IFT.

19. **De-Selection from the IFT Scheme**

a. Once selected, an individual will remain on the IFT scheme unless they;

   (1) Submit formal request to be removed from the scheme to ATA.

   (2) Fail to complete professional qualifications/requirements at sea within the prescribed timescales.

   (3) Demonstrates professional and/or performance-related reasons for unsuitability.

   (4) Are removed from the scheme following escalation of warnings for other professional, CLM or NGT reasons.

   (5) Selected for UY(E) Scheme (if failing on this scheme acceptance back onto the IFT scheme will be on a case by case basis as determined by the ATA and FTA).

b. On submission of a request for Early Termination an individual will be de-selected from the IFT scheme. Unit Staff and Career Managers are to ensure they liaise with the ATA prior to accepting any notice to ensure that the individual has been fully briefed on all aspects associated with removal from IFT and serving notice, such as TRoS and being employed at sea during the notice period.

c. On being de-selected from the IFT scheme the ATA will ensure the following actions are completed and appropriate details are recorded on the Certificate of Understanding (Part B):

   (1) Individual fully briefed on all aspects of removal and that future promotion will be by Selection.

   (2) Special SJAR or Insert Slip raised detailing reasons for de-selection.

   (3) IFT Certificate of Understanding (Part B) completed by the ATA.
(4) ATA to remove the JPA IFT competence.

(5) Individual’s seniority date to be agreed with CM EGS JR WO1 and recorded on JPA.

20. Volunteer for Removal from the IFT scheme

a. At any stage of the scheme an individual can volunteer to be removed from IFT and revert to selective promotion. The process is detailed below and all individuals should be fully advised of the changes to their career progression when transferring back to the selective promotion route. It is recommended this brief be carried out by the unit HOD or CM EGS JR WO1.

b. The request by an individual for removal from the IFT scheme is to be forwarded to the CM EGS JR WO1 for review and consideration. The CM EGS JR WO1 will provide career advice to the individual, including any TRoS requirement in relation to any training courses that have been completed. The process to be followed is indicated below:

(1) The IFT ET is to submit a formal request detailing why they wish to be removed from the IFT Scheme.

(2) If the request for removal is associated with submission of Early Termination, the ATA will liaise with CMC Career Manager before advising the HOD on future employment plans.

(3) If at sea in a complement billet the ET or LET is expected to remain in that position.

(4) If the request for removal is not associated with an Early Termination, but occurs on LETQC or POETQC, the individual will continue on course but subject to selective promotion. All cases will be treated individually and be approved by the CM EGS JR WO1.

c. Individuals removed from IFT will be career managed by their appropriate CMC and employed according to the Needs of the Service.

21. Failure within Professional Qualifying Courses

a. IFT personnel who fail on ET CC, LETQC or POETQC will be managed by the Training Schools QC Failure Policy. All IFT individuals are to be considered by the Training School for removal from the IFT Scheme on achieving Tier 2 (WE)¹ and Level 2 (ME)² Warnings.

¹ HMS COLLINGWOOD FOAP(T) PCD-1304.
² HMS SULTAN TSOP3:3:3.
b. Back Class for IFT personnel is only to be considered for exceptional reasons outside of any professional training failure. Where back class is necessary then the individual’s case will be reviewed by the Training School, ATA and CM EGS JR WO1 to assess the impacts on the individual’s training. Where a IFT individual is being back classed then, following liaison with the FTA, the Training School will review the circumstances of the back classing and, on a case by case basis, consider if the individual is to remain on the IFT scheme.

c. Where IFT personnel fail or miss course module(s), then the Training School policy is to be followed in reprogramming them. Where a module(s) has been missed for Service or Non Service reasons then the ATA is to be notified in all cases. Whether an individual remains on the IFT scheme will be reviewed on a case by case basis, with the final decision being made between the Training School, CM EGS JR WO1 and the FTA.

22. Failure of Leadership Courses

a. As Fast Track ratings it is expected that all IFT personnel will allocate sufficient time and preparation to pass the necessary leadership courses that are the standard for the rank which they have been recommended following a successful pass at PE.

b. Those IFT personnel who fail to pass LRLC or SRLC may be de-selected from the IFT scheme for not meeting the standard of leadership expected at their rank. In exceptional cases, and where there is sufficient mitigation and a recommendation to return to leadership course by Royal Navy Leadership Academy (RNLA) Staff, a de-selection from the IFT scheme waiver may be considered. This must be approved by the FTA.

c. On removal from the IFT scheme following failure at LRLC or SRLC, the individual will be transferred to the selective promotion route at their current rank (ie. on failing LRLC the rating will remain as an ET1). The individual must then seek promotion by selection and will be planned to attend leadership course only after further selection for the next higher rate.

23. Fast Track Scheme Rules Regarding Failure

The details given in Table 68E-1 provide reasons for failure and the associated actions to be taken. All instances will be reviewed on a case by case basis by the training School in consultation with the CM EGS JR WO1. Where an individual is removed from the IFT scheme, the ATA will complete all relevant actions for the removal of the individual from the IFT scheme.

**Rules Regarding Failure Notes:**

1. IFT personnel are expected to demonstrate the higher levels of competence at all times. Failure to sustain this level or failure of any re-sit examination will be reviewed by the Training School and CM EGS JR WO1 on a case by case basis and may result in removal from the IFT scheme but not necessarily from the qualifying course.

2. Where it is deemed necessary, but only in exceptional circumstances, an IFT rating may be back classed. When back classed, the individual’s seniority and due dates may be adjusted accordingly as directed by CM EGS JR WO1 and FTA.

3. An individual shall continue in Phase 2 Training following failure is at the discretion of the Training Officer.
Rules Regarding Failure Notes (continued):

4. Where warning levels have been issued due to an individual failing to achieve their planned progress on the IFT scheme these warnings are to be reviewed upon their removal from the IFT scheme and transfer to Selective promotion or be removed as appropriate. Where a warning is deemed necessary within the Selective promotion route then it is to remain in place. Full clarification from the CM EGS JR WO1 should be sought by units.

5. On removal from the IFT scheme and transfer to Selective promotion whilst serving at sea, the CMC is to ensure that the individual remains in post unless the warning level dictates otherwise. The individual’s seniority will remain that of any previous Due Date and it will be necessary to adjust all future availability dates.

6. Where an individual has failed to prepare for a leadership course which is assessed as being due to Non-Service Reasons within an individual’s control, the individual is to be removed from the IFT scheme.

7. On failure at LRLC or SRLC and following removal from IFT Scheme it is to be recognised that the individual will have completed less time at sea than those on Selective promotion. It is therefore expected that these individuals will be assigned back to sea at the earliest opportunity by CMC.

8. It is assumed that the failure occurs before due date for advancement to the next higher rate and therefore, by not completing QC, that the individual is not eligible for advancement. All cases will be dealt with on a case by case basis by the FTA and the CM EGS JR WO1.

9. Where an ET is selected for IFT but subsequently does not perform to the required standards on the higher qualifying course their Divisional Officer (ET CC), HOD (Employment) or Training Officer (LETQC and POETQC) may make a recommendation to the CM EGS JR WO1 for the individual to be removed from the IFT scheme.

10. On failure and removal from IFT the ATA will complete all necessary actions and will also liaise with CMC regarding future employment and assignments. Where necessary, the CM EGS JR WO1 will advise on individual cases.
ANNEX 68F

CERTIFICATE OF UNDERSTANDING - PART A

TRANSFER TO THE ENGINEERING GENERAL SERVICE INTERIM FAST TRACK SCHEME

BEING SUBJECT TO: ADVANCEMENT BY TIME (IN ACCORDANCE WITH BR 3(1) CHAPTER 68) AND POSSIBLE CHANGES IN MINIMUM NOTICE FOR ASSIGNMENT TO SEA AND SHORE

Part 1 – Individual’s Details

<table>
<thead>
<tr>
<th>FULL NAME (in Capitals)</th>

</table>

Part 2 – Individual’s Declaration

I understand that during my time on the EGS Interim Fast Track scheme:

a. I will be subject to advancement by time (as detailed in BR 3(1) Para 6808 and Chapter 74/75*) rather than selective promotion and, therefore, I will not be considered at any Selection Boards for Promotion.

b. I may be liable to be assigned to sea or shore units at less than normal assigning notice, as detailed in BRd 3(1) Chapter 59 Section 11.

Signed: _____________________________ Date: __________________

* delete as appropriate

1 A copy of the Certificate of Understanding Part A is to be retained by the individual.
Part 3- Accelerated Technician Authority

The above named rating has been transferred to the EGS Interim Fast Track scheme and will be subject to advancement by time, with the following awarded due date for the next higher rate:

<table>
<thead>
<tr>
<th>Advancement To</th>
<th>Date Due Advancement</th>
</tr>
</thead>
<tbody>
<tr>
<td>POET</td>
<td></td>
</tr>
</tbody>
</table>

Signed:____________________________ Rate/Rank:________________

Name (in capitals):________________________ Date:________________

---

2 The Certificate of Understanding Part A is to be retained by the ATA for a period of 3 years after the individual leaves the Interim FT scheme.
CERTIFICATE OF UNDERSTANDING - PART B

REMOVAL FROM THE ENGINEERING GENERAL SERVICE INTERIM FAST TRACK SCHEME

Part 1 – Individual’s Details

<table>
<thead>
<tr>
<th>FULL NAME (in capitals)</th>
<th>SERVICE No.</th>
<th>RATE</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The Above Named Rating has been removed from the EGS Interim Fast Track scheme and will no longer be subject to time based advancement.

The following seniority date has been determined by the Fast Track Authority and will be recorded in JPA:

<table>
<thead>
<tr>
<th>RATE</th>
<th>SENIORITY DATE</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Part 2 – Individual’s Declaration\(^3\)

I understand that on removal from the Interim Fast Track scheme I:

a. Will return to being subject to selective promotion as detailed in BR 3(1) Chapter 67 and Chapter 74/75*.

b. Will be liable to be assigned to sea or shore units as detailed in BR 3(1) Chapter 59 Section 11.

Signed: ___________________________ Date: ________________

* delete as appropriate

Part 3- Accelerated Technician Authority\(^4\)

The Above Named Rating has been transferred to the Selective promotion scheme and will be subject to promotion by Selection from the following date:

Date: ___________________________

The following actions have been completed;

---

\(^3\) A copy of the Certificate of Understanding Part B is to be given to the individual.

\(^4\) The Certificate of Understanding Part B is to be retained by the ATA for a period of 3 years after the individual leaves the Interim FT scheme.
(1) The individual has been fully briefed on implications of removal from Interim Fast Track and has been advised of any ROS associated to the Qualifying Courses that have been completed.

(2) All Interim Fast Track competences have been removed from JPA. The Individual’s seniority date has been agreed with the FTA and recorded in JPA.

### Part 2 – Declaration

The tasks listed above have been successfully completed. The FT candidate has demonstrated the following:

a. Gained sufficient experience to progress on to the LETQC.

b. Continues to demonstrate the potential to perform satisfactorily as an LET(MESM) following further training.

c. Is recommended to attend LETQC.

Signed (MEO): ________________________ Rank: ________________

Name (in capitals): _____________________ Date: _________________

---

1 It is accepted that due to programme and time constraints not every element of the MEMOC C tasks may be achieved. The MEO must ensure that best endeavours have been made and every opportunity to achieve training is taken.

2 JPA competences for MEMOC(Full) and OPS ET(MESM) to be awarded.

Part 2 – Declaration¹

1. In order to be selected on to the ET(WESM) FT scheme, I can confirm:
   a. I am serving on a regular pensionable engagement with a minimum of 8 years to serve.
   b. Have not submitted a request for Early Termination.
   c. I am not at OPS for ET(WESM)1.
   d. Understand the Return of Service associated with the training under this scheme.
   e. Understand the reasons that can lead to removal from this scheme.

2. I understand that whilst on the WESM FT scheme:
   a. I will be subject to advancement by time as detailed in BRd 3(1)(Para 6809).
   b. I may have to waiver my minimum assigning notice to attend courses (Para 5943).

EGS FAST TRACK PROGRESS WARNING FLOWCHART

Shortfall identified prior to Monthly Progress Review

Training Coord Action at next Monthly Review
1. Initial Warning issued identifying areas for improvement by next monthly review (record in Progress Review Proforma).
2. Issue highlighted to ATA when sending monthly progress review feedback.

Remedial Actions satisfactorily complete at next monthly review/agreed review date?*

Yes → NFA/Inform ATA

No

Divisional Officer Action: Formal Level 1 FT Progress Warning Issued (Annex C) & forwarded to ATA.

Remedial Actions satisfactorily complete at next monthly review/agreed review date?*

Yes → Removed from FT Progress Warning – Inform ATA

No

HOD Action: Formal Level 2 FT Progress Warning Issued (Annex C) & forwarded to ATA.

Remedial Actions satisfactorily complete at next monthly review/agreed review date?*

Yes → Removed from FT Progress Warning – Inform ATA

No

Unit to recommend removal from FT Advancement Scheme (by HOD email to ATA).

Following BM consultation, ATA to action reversion of SP to Select, Train, Promote Route as required.

* Units are recommended to utilise the monthly progress review cycle as far as practicable for the Warnings process.

I acknowledge that I have been placed on DO/HOD warning/recommended *(delete as appropriate)* for removal from the EGS Fast Track advancement scheme due to the shortcomings detailed above. I understand the remedial actions required by the above stated review date and that failure to achieve the required improvement may result in my removal from the EGS Fast Track scheme.

Signed................................................................. Date............................
ANNEX 68N

ACCELERATED APPRENTICE WARNINGS AND FAILURE POLICY

INTRODUCTION

1. The AA procedures will follow Initial Training Warnings (ITW) (see paras 5747-5751) and mirror standard warning policies in place for the Phase/Lead School. Where variations to the general population of trainees exist, they will do so due to the following:

   a. The bespoke courses on the AA pipeline.

   b. The infrequency of AA intakes and thus the limited opportunity to back class AA trainees. This means that failure often holds a more serious implication than it would for an AET/ET and this should be taken into consideration. To monitor this, the ATA/AA AE RA are to be informed at the earliest opportunity of escalation to a Level 2 Warning in either professional performance or NGT.

   c. Conducting Phase 3 courses whilst still on the Untrained Strength (UTS).

2. Throughout this document AA trainees will be classified in the following way:

   a. Phase 1 until completion of Initial Naval Training (INT) at HMS RALEIGH.

   b. AA MEGS and WEGS Phase 2 trainees until completion of Sea Phase, and Phase 3 trainees thereafter.

   c. AA MESM and WESM Phase 2 trainees until completion of SMQ (Dry) and ME 180, and Phase 3 trainees thereafter.

   d. AA AE trainees as Phase 2 trainees until completion of QMQS, and Phase 3 trainees thereafter.

3. A brief on the warning process will be given to all AA trainees at the start of Phase 1 Training. Trainees will sign to acknowledge receipt of this briefing.

PHASE 1 WARNINGS POLICY

4. AA trainees will fall under the same warnings policy as all trainees during INT. It should be noted that the back classing of AA recruits will be by exception and at the BM’s discretion.
PHASE 2 WARNINGS POLICY

5. For the duration of this phase the AA trainees are to be managed as per the Lead Schools' warnings policy with the inclusion of the following considerations:

   a. **Transfer of Warnings.** Additional considerations are to be made on the following courses:

      (1) **Enabling Course.** The Chain of Command will review NGT warnings and reduce them to zero if the trainee has displayed the correct attitude and picked up no further warnings related to NGT – this reduction is at the discretion of the Chain of Command in conjunction with the issuing officer. If not enacted, the trainee will carry the NGT warning to the Sea/Field Phase/SM Shore Phase for review after a minimum of one month and a maximum of 3 months.

      (2) **Sea/Field Phase/SM Shore Phase.** In case of an AA trainee completing Sea/Field Phase/SM Shore Phase with a Level 1 or Level 2 Warning, the warning will be removed. If a trainee completes Sea/FIELD PHASE/SM Shore Phase with a Level 3 Warning in place, then the ATA/AA AE RA will consider implementing the Phase 2 failure policy. If it is deemed that sufficient progress has been made, the Level 3 Warning will be removed, however if it is deemed that the shortcomings have not been met then the trainee will retain the Level 3 Warning to LETQC/LAETQC, where it will be reviewed after 3 months. Throughout this review period further shortcomings will not increase the warning but will be recorded. All evidence gathered will be used at the review date to either remove the warning, if appropriate, or implement the failure policy.

   b. **Task Books.** Formal progress checks are to be conducted to ensure the AA trainees are progressing as expected. Failure to meet these expectations should attract professional training warnings.

   c. **Accelerated Apprentice Provisional Exam (AA PE).** For AA EGS/SM the PE is to be conducted during the Sea Phase/PDP phase. PE failure will attract a professional warning and will be addressed with a re-sit within the remaining Sea Phase timeline. AA trainees will be allowed 2 attempts to pass the PE. If failure occurs on the second attempt, the ATA will liaise with the BM to determine a suitable course of action, which will include a professional warning being issued and may result in implementation of the Phase 2 failure policy.

PHASE 3 WARNINGS POLICY

6. MEGS, WEGS and AE AA trainees are on the UTS until the completion of their Qualifying Course and LRLC. MESM and WESM AA trainees are on the UTS until completion of their specialist maintainer courses, following LETQC and LRLC (whereas their S-T-P counterparts are GTS). While UTS, all AA trainees remain subject to the standard Initial Training Warnings (ITW). In all other respects, they are to be managed in the same way as their S-T-P counterparts.
PHASE 1 FAILURE POLICY

7. AA trainees will be subject to the same failure policy during Phase 1 as all other trainees with the following options are available following the recommendation from the Phase 1 staff:

   a. DUDT.
   
   b. Re-categorise to ET/AET at the BMs discretion.
   
   c. Branch transfer at the BMs discretion. Individuals have no automatic right to be offered a branch transfer when on the UTS and, although they can request a particular branch, availability will depend on the needs of the Service.

8. Medical or Welfare Failure to Complete Training. If, due to medical or welfare reasons, an AA trainee does not complete INT in time for the start of their Phase 2 Training, they are to be managed by the BM/ATA on a case-by-case basis. Options available include the following:

   a. DUDT with the option of re-applying if eligible.
   
   b. Continue INT when fit and do the full Phase 2 courses but remain AA.
   
   c. Holdover until the next AA entry.

PHASE 2 FAILURE POLICY

9. The options as a result of failure on the bespoke elements of the AA pipeline are as follows:

   a. **DUDT.** As all AA trainees will be on the UTS, administration of DUDT can only be undertaken by the CO or Head of a Training Establishment due to MOD policy for Care of Trainees. As such, any AA trainee on Sea Phase recommended for DUDT must be reassigned back to the relevant Phase 2 Training Authority for DUDT action to be enacted.

   b. **Offer of Branch Transfer.** In the case of any AA facing DUDT, the relevant BM will consider whether the individual is suitable for another branch or specialisation. The trainee’s DO must make a firm recommendation before a branch transfer is considered by the BM.

   c. **Offer of Re-Categorisation to AET/ET.** AA trainees do not have the option of being back-classed, owing to the infrequency of AA Enabling Courses (one per annum for GS, 2 per annum for AE & SM). The Phase 2 Training has been designed to be more condensed than the full Phase 2 Career Course, and as such is more challenging. The BM may therefore deem that an AA trainee who has failed the AA Enabling Course, may be successful on the normal Phase 2 Career Course, and therefore may offer the option to re-categorise as an ET in the relevant branch complete the relevant AET/ET career courses.
d. **Retained AA.** Retained by the BM, and continue the AA pipeline on risk or offered an extension of their current phase - both options are by exception.

10. **EGS Sea Phase.** By exception, AA trainees may have an extension of the EGS Sea Phase. The maximum an AA PE can be undertaken is three times.

11. **Failure due to Medical or Welfare Reasons.** If the AA is deemed capable of recovering the following options will be considered on a case-by-case basis:

   a. Holdover until the next AA entry.

   b. Continuance of training with bespoke management by the ATA/AA AE RA to compensate for lost training.

   c. Offer of Re-Categorise to AET/ET within the same Branch.

12. If, for medical reasons, an AA trainee cannot complete Phase 2 Training and is judged to be incapable of recovering to full medical fitness, the MBOS process will be enacted to remove that trainee from training under DUDT procedures.

13. **Able Rates Leadership Course (ARLC).** All AA trainees will need to complete ARLC during Phase 2 and in doing so will be subject to Royal Arthur Squadron’s warning process. This is a standalone process and, as such, any warnings that may be received while on ARLC will not accumulate with existing training warnings from the AA training pipeline. However, if an AA trainee is unable to complete ARLC due to either a compassionate or medical issue, this will be handled on a case by case basis, considering the point at which that individual was removed from course and their success up until that point. The AA Trainee’s DO will be notified of any shortcomings via the end of course report. In the event of a complete ARLC failure, remedial action will be decided by the BM in conjunction with ARLC staff.

**PHASE 3 FAILURE POLICY**

14. If an AA trainee fails a Phase 3 Training course, following normal re-sit opportunities, the ATA/AA AE RA will liaise with the BM and the training establishment to determine a suitable course of action, on a case by case basis. As AA trainees are on the UTS they cannot be ‘Returned to Unit’ (RTU). The options in Para 11 remain extant but considerations should be made for back classing as these are standard S-T-P courses at the end of the pipeline and thus there is increased flexibility. This will be reviewed by the BM on a case by case basis.

15. If an AA trainee cannot proceed on their current LAET/LETQC due to reasons beyond their control eg. medical downgrading, they are to be locally managed to facilitate the completion of the required modules in as timely a manner as possible. This may result in the trainee being back-classed into the next available Qualifying Course.
16. LRLC. If an AA trainee fails the written assessments and presentation elements of LRLC, then that individual will be RTU (Engineering School) and further progress on the AA scheme will be at the discretion of the BM. If an AA fails LRLC at the end of the final week they will continue with professional training on LAETQC/LETQC but must also retake and re-sit the Week 3 assessment. The period at which that individual will be able to return and complete LRLC will be managed by the ATA/AA AE RA in consultation with RNLA and Phase 3 Qualifying Course lead school.

a. Failure of AA MEGS, WEGS and AE trainees to successfully complete LRLC will result in the award of a Level 3 NGT warning. Any LRLC assessment failure as a ‘second’ attempt (eg. whilst continuing with LETQC/LAETQC) will lead to the AA trainee being subject to DUDT procedures.

b. For AA MESM and WESM trainees only, failure of LRLC at the first attempt may result in DUDT at the discretion of the BM. At the BM’s discretion, the AA trainee may continue at risk.

6921. Advancement of Prisoners of War and Internees
6922. Special Forces - Shadow Rank Assessment Board
CHAPTER 69
RATINGS POLICY - GENERAL PROMOTION ISSUES
SECTION 1 - MANAGEMENT RESPONSIBILITIES

6901. Recommendations for Promotion, Advancement, Examination or Course
The rules for promotion and advancement indicate minimum requirements. The recommendation is an important part of the system and, before making recommendations, Line Managers are to satisfy themselves that:

a. **For selective promotion**, ratings have completed all the pre-requisite educational and provisional examinations for their current rate and are ready in all respects to be assigned to qualifying professional and leadership courses in the period prior to the appropriate Common Promotion Date (CPD).

b. **For non-selective promotion** (advancement), ratings have the educational and professional qualifications, experience, time served and personal attributes required, including the power to command subordinates appropriate to their rate.

c. **For examination for higher rate**, ratings have made adequate preparation for the examination and that they have, or show promise of, attaining the qualities of command and personality required in the higher rate.

d. **For a course for the higher rate**, ratings' professional knowledge is such as to justify further training and that they have, or show promise of, attaining the qualities of command and personality required in the higher rate.

6902. Commanding Officer’s Responsibilities

a. **Responsibility for Submission of Appraisal Report Forms.** The Commanding Officer is responsible for ensuring that Appraisal Reports are completed in accordance with the guidance contained in JSP 757 and finalised on JPA within the prescribed timescale. Wherever possible, alignment should be conducted and the Subject’s relative position in the order of merit given in the 2RO’s section of the report. An indication of the size of the peer group concerned should also be given.

b. **Standard of Reporting on Ratings.** To ensure that only the right ratings are promoted or advanced to higher rates, it is essential that, from the earliest stage in their career, the utmost care is taken when making a report or assessment. Each Commanding Officer is responsible for ensuring that a satisfactory standard of reporting is maintained. Heads of Department should assist in this task and personally check all reports and advise and instruct Divisional and other Reporting Officers as required. Inspecting Officers should always satisfy themselves that a proper standard of reporting is maintained in the units they inspect. The Ratings Promotion Section may advise when a special (or late) report may be more advantageous to a rating, particularly when reporting procedures may suffer through a period of short-term assignments.
c. **Backward Ratings.** Ratings in the categories shown below may be discharged SHORE on grounds of inadequacy if they cannot be promoted or advanced within a reasonable period because of incompetence or for reasons within their own control. They are to be reported, with recommendations, to the appropriate authority with power to approve discharge SHORE for consideration of their future. In this context, the length of a reasonable period should be determined by the Commanding Officer having regard to the system of promotion or advancement governing each specialisation, but reports should not normally be delayed beyond the following periods:

1. **Legacy Artificers.** If not recommended for advancement, six months after becoming eligible to be advanced to PO or 12 months after becoming eligible to be advanced to CPO.

2. **Medical Technicians.** After two years as a Leading Medical Technician (unless declined or failed the examination for POMA) or after three years as a PO Medical Technician rate (unless declined or failed the examination for CPOMA).

3. **Engineering Technician and Non-technical Specialisations.** After three years served as an AB2. The manning situation in some branches and specialisations may require similar criteria for ratings above AB2. These are defined in the appropriate Chapters.

d. **Ratings Detached or Loaned.** Where ratings are detached and an Appraisal Report is due, the Commanding Officer of the parent unit remains responsible for ensuring that all necessary action is taken. This also applies to periods of loan temporary duty and passage. Similarly, action is also to be undertaken where a rating undergoes a short-term assignment within or at the end of a standard reporting period and is expected to return to the original parent unit. In all cases where the detachment is for a period of 2-6 months, a Detachment Insert Slip is to be provided. For periods in excess of six months, a full SJAR is required.

e. **Ratings Belonging to Commonwealth Navies.** Recommendations for Commonwealth ratings are to be rendered in the manner shown at Chapter 73.

**6903. Erroneous Promotion or Advancement**

a. If it is discovered that a rating has been wrongly promoted or advanced, eg. because of insufficient qualifications, the following action is to be taken:

If the rating has not become fully qualified and due for promotion or advancement to the rate held by the time the error is discovered, the promotion/advancement is to be cancelled from the date of discovery and a signal sent to the Ratings Promotion Section for corrective action on JPA.

b. Errors that are discovered subsequent to ratings becoming fully qualified and due for promotion or advancement to the current rate are to be reported to the Ratings Promotion Section for corrective action.
c. Increases of pay paid for periods of erroneous promotion or advancement are recoverable in accordance with JSP 754. The Logistics Officer of the ship or establishment is to be consulted in all cases.

d. Time spent in a higher rate in consequence of erroneous promotion or advancement is allowed to count for pension purposes provided that the higher duties and responsibilities were assumed. It does not count towards seniority even when subsequently correctly promoted or advanced. In order, therefore, that the pension entitlement is clearly recorded, both the Ratings Promotion Section and Veterans UK are to be informed in writing.
SECTION 2 - MANDATORY REQUIREMENTS FOR PROMOTION OR ADVANCEMENT

6904. Chemical, Biological, Radiological and Nuclear & Damage Control (including fire-fighting)

a. Chemical, Biological, Radiological and Nuclear (CBRN) and Damage Control (DC) (including firefighting) (otherwise collectively known as CBRNDC) is the responsibility of everyone, regardless of branch, rank or gender. All personnel at sea must have a full understanding of CBRNDC appropriate to their rank or rate, and more importantly, must be in a position to use that knowledge correctly given little or no warning. It should never be forgotten that a state of war or period of tension does not need to exist for a large number of CBRNDC skills to be unexpectedly called into use. Ratings join the Fleet having attended a Basic Sea Safety course on completion of their basic training. Qualifications in CBRNDC are in accordance with BR 2170(1) (Ship CBRNDC Manual - Volume 1 – Damage Control) Chapter 36.

b. In order to achieve a standard level of competency in CBRNDC required of all ratings joining the Fleet, except those detailed at Para 6904 sub para c, the following criteria must be met:

(1) All ratings must be qualified in CBRNDC to the relevant standards laid down in BR 2170(1) Chapter 36. On-job training and continuation training, both in ships and shore establishments, will assist ratings to achieve those standards.

(2) Prior to the first or subsequent sea assignments, all ratings must undertake appropriate Sea Safety training as detailed in BR 2170(1) Chapter 36. This requirement is mandatory.

c. Promotion to Leading Hand. All ratings who proceed to sea immediately after initial training must complete the CBRNDC AB-LH Task Book for promotion to LH, with the exception of Submariners (the requirements are formally examined during Ships’ Boards), Fleet Air Arm ratings, Medical Assistants, Naval Nurses and Dental Hygienists.

d. Ratings (except for those listed above) who do not proceed to sea immediately after initial training and have not been afforded the opportunity to serve at sea due to the exigencies of the Service will, if recommended and fully qualified in all other respects, be required to undertake an CBRNDC examination. The examination is to take the form of a Fleet Board, conducted by the Divisional Officer and a CBRNDCQ. Questions used are to be based on the contents of the AB-LH CBRNDC Task Book. It is recommended that candidates are issued an AB-LH Task Book and use the references detailed for each task as a basis for their Fleet Board preparation. Failure at the first attempt will require the candidate to re-sit the examination when ready. Failure of a second and subsequent attempt will require a re-sit of the examination with a minimum of three months interval between re-sits.
e. Ratings (except those exempt under Para 6904 sub para c) must therefore complete either the CBRNDC AB-LH Task Book or CBRNDC Examination to qualify for promotion to LH. Ratings who are not assigned to sea should be given every encouragement to attend CBRNDC circuit training or duty watch after-hours exercises in ships alongside in order to familiarise themselves with the relevant CBRNDC equipment.

f. On successful completion of the CBRNDC Task Book or the CBRNDC examination, JPA should be updated with the following to reflect the competence - ‘Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy’.

6905. Sea Service

a. Where shown as a qualification for promotion or advancement in the various specialisation flow diagrams, sea service will usually be a position in a programmable, deployable unit that routinely attracts LSA payment. Full guidelines on whether a position counts as Sea Service can be found at Para 5908.

b. Such service must be carried out in the actual rate, ie. the rating must have been carrying out the duties of that rate and wearing the appropriate uniform unless otherwise stated in the specialisation Chapter concerned. For information, this does not apply to sea service undertaken in the acting higher rate (on a local acting basis) which counts as sea service only in the lower rate, eg. sea service as an Acting Leading Seaman counts as sea service as an AB Seaman 1.

c. Sea service in any given rate is the sea service undertaken from the date of promotion or advancement to that rate within the current specialisation.

d. Sea service undertaken in the same rate/different specialisation will not normally count towards time in the new specialisation.

6906. Educational Qualifications
Refer to Chapter 96 Section 6.

6907. Royal Naval Fitness Test
Refer to Chapter 29 Section 3, Para 6716 and Para 6806.

6908. Medical Fitness for Promotion – JMES Criteria

a. Ratings/ORs who are medically downgraded, and those who are likely to be categorized as permanently unfit for sea service or be restricted otherwise medically in the future, will normally remain eligible for selective and non-selective promotion. The following principles apply:

b. **Personnel with a Permanent JMES.** All individuals who have been awarded a permanently reduced JMES code by NSMBOS or by ROHC will be assessed by the NSMEB for their suitability for promotion as part of their determination in retaining an individual in service. This determination will take into account age, past experience, seniority, the nature and extent of the medical limitations, and types of assignment for which the individual might be required to undertake in the current rank and higher ranks if selected for promotion or due for advancement.
By default the assessment will assume that retention in service will also include the potential for service at the next higher rank/rate. If the NSMEB are unable to offer continued employment in a higher rank or rate then the individual will be deemed medically unfit for promotion.

c. **Personnel with a Temporary JMES.** Individuals in a temporary JMES should undergo medical assessment by an accredited GMP or Consultant Occupational Physician.

(1) Where there is an expectation that the individual will regain MFD status within the next 12 months, the Medical Officer should deem the individual medically fit for promotion.

(2) Where an expectation that a temporary JMES would be removed and the individual regains a previous permanent JMES within 12 months, then individuals should be assessed as per their previous NSMEB determination (see Para 6908 sub para b above).

(3) Where a Service woman is pregnant and has the JMES code of E6, her fitness for promotion should be assessed in light of her previous JMES, providing that there is an expectation that this will be regained following the pregnancy and period of maternity leave. If previously MFD then she should be considered fit for promotion. If she was previously in a permanently reduced JMES, she should be assessed as per her previous NSMEB determination (see Para 6908 sub para b above). If temporarily downgraded prior to the pregnancy then an assessment must be made as to the likelihood of being upgraded within 12 months of a return from maternity leave and if it is likely, then the individual should be deemed fit for promotion. If it is not deemed likely, then the individual will need to be referred to NSMBOS for a permanent medical category to be awarded and their eligibility is to be determined by NSMEB.

(4) Where it is likely that the individual will need a permanently reduced JMES, the Medical Officer should deem the individual unfit for promotion subject to the subsequent NSMBOS/ROHC and NSMEB recommendations. If the individual is subsequently given a permanently reduced JMES by the NSMBOS or ROHC and the NSMEB determines fitness for promotion, then seniority and pay should be back-dated to the original date of intended promotion.

(5) Any doubtful case is to be referred to the NSMEB.
SECTION 3 - LEADERSHIP TRAINING

6909. Introduction

a. There are currently two career leadership courses for RN ratings (see also Chapter 21 Section 6):

(1) Leading Rates’ Leadership Course (LRLC). LRLC is a four week course, providing the basic building blocks of leadership training to assist personnel, selected for promotion to LH, in their development and to prepare them for their future roles as superior officers.

(2) Senior Rates’ Leadership Course (SRLC). SRLC is a four week course, built and tailored for Naval use, which develops an individual’s Command, Leadership and Management (CLM) experience, giving a thorough grounding in leadership techniques based on current theory models. These theories are exercised under stressful conditions throughout the course. The SRLC also includes an examinable ‘divisional’ module, recognising that all senior ratings are expected to play a full part in the divisional system of their unit.

b. Both courses are administered and conducted at the Royal Navy Leadership Academy (RNLA) in HMS COLLINGWOOD. They form part of the Navy’s policy on through-career development, ensuring that those entrusted with leadership of our men and women are properly trained to exercise this responsibility. These skills are vital in contributing to the Moral Component of Operational Capability in the Royal Navy and supplement an individual’s skills. As such, the LRLC and SRLC are mandatory requirements under selective promotion and form all or part of the training package for promotion to LH and PO respectively.

c. Under selective promotion, personnel are assigned to the appropriate leadership training by ACOS(PCap) prior to the CPD (but with the timing of attendance on courses dictated by assignment priorities). Any rating who is unable to attend the first leadership course to which assigned is responsible for ensuring that they are re-booked on course and that they complete the training by the CPD. Failure to take this action will result in application of the rules set out at Para 6714 and Para 6802. Cancellation of a course within two months of its commencement for reasons other than operational or medical will be classed as a failure and the appropriate penalties imposed in accordance with Para 6719. If a rating, having been selected for promotion, is considered ready to attend a leadership course at short notice, ACOS(PCap) should be informed of this fact. As ACOS(PCap) is only able to assign ratings to courses from among those who become available between assignments, those remaining have to be spared from current assignments. Commanding Officers should note this and endeavour to spare ratings accordingly so that promotion is not affected. All personnel should be aware that it is considered a joint responsibility of the individual and the Service to ensure timely attendance for leadership course training. The RNLA issues an annual RNTM providing detailed instructions covering personal pre-joining preparations, documentation required, joining instructions and an outline of the course content. All personnel attending a leadership course are to familiarise themselves with the content of the extant RNTM on the LRLC and SRLC issued by the RNLA.
d. **Re-entrants or Service Transfers.** Re-entrants, or personnel transferring from the Royal Marines, Army or RAF will have the Leadership training that they completed during their Service considered at the time of entry into the RN, and will be awarded credits as appropriate. Where a qualification is deemed to be a suitable alternative, and there would be little benefit to either the Service or the individual by their completing either LRLC or SRLC, then a Waiver will be approved by DACOS BM. Any waiver awarded is to be recorded on JPA by BM Coherence WO1.

e. **Attendance on LRLC – Special Rules.** As stated, the successful completion of LRLC is a mandatory pre-promotion requirement for promotion to LH in all specialisations, with the following exceptions:

1. **Direct Entry Medical Technician/Naval Nurse/Dental Hygienists.** These ratings may be advanced to the Acting Leading Hand on completion of specialist training and be subsequently confirmed on completion of LRLC.

2. **Sideways Entry Medical Technicians.** Ratings who have completed the LRLC may be advanced to the confirmed rate on completion of their specialist training. Ratings who have not completed LRLC may be advanced to Acting Leading Hand and subsequently be confirmed on completion of LRLC.

3. **Leading Regulator Candidates.** The LRLC must either be completed prior to the RNPIC or completed within three months of completion of the RNPIC. A further extension of three months may be approved by the Branch Manager for service/medical/compassionate reasons, keeping PM(Navy) informed. Failure to complete the LRLC within this time frame will result in reversion to source branch or specialisation.

4. **Leading Physical Trainer Candidates.** The LRLC must either be completed prior to the LPTQC or completed within three months of completion of the LPTQC. A further extension of three months may be approved by the Branch Manager for service/medical/compassionate reasons, keeping RNPTS informed. Failure to complete the LRLC within this time frame will result in reversion to source branch or specialisation.

5. **Leading Aircrewman/Leading Airman (Photographer) Candidates.** The LRLC must either be completed prior to the LACMN/LA(PHOT) QC or completed within three months of completion of the LACMN/LA(PHOT) QC. A further extension of three months may be approved by the Branch Manager for service/medical/compassionate reasons. Failure to complete the LRLC within this time frame will result in reversion to source branch or specialisation.
6910. **Legacy Rules – Promotion Without a Leadership Course**

Prior to the introduction of selective promotion, ratings could achieve promotion or advancement to the acting higher rate (including Acting CPO) without having to complete leadership training beforehand. Completion of the appropriate course was only required for confirmation in the rate and subsequent consideration for promotion to higher rates. There are some senior ratings at PO level who have yet to complete the SRLC. With many individuals still to undertake the appropriate leadership training, ACOS(PCap) embarked on a programme to assign POs and Acting CPOs to SRLC and Acting LHs to LRLC as places become available. Individuals may assist and facilitate this process by advising ACOS(PCap) of their availability dates for leadership course training. While ratings in the acting higher rate may not be compelled to attend, **refusal to do so (if assigned) will result in their reversion**, although this will not be deemed to be a professional failure. Having been so reverted, however, ratings will then come under selective promotion rules and will have to be selected for promotion before becoming eligible for leadership training and promotion.
SECTION 4 - EXAMINATIONS

6911. Types of Examination

a. Professional Qualifying Examinations (PQEs). PQEs are examinations taken by ratings to qualify professionally for promotion or advancement and may take the form of a written, practical or oral examination, or any combination of the three. They may be conducted by:

(1) Officers of the Professional School - by correspondence or as otherwise arranged.

(2) Officers or Warrant Officers (WOs) of the Fleet, Squadron or Ship.

(3) A Central Examining Authority.

b. Provisional Examinations (PEs). PEs are taken to assess ratings' suitability for promotion to the higher rate and also to determine that they have the potential to qualify on the Professional Qualifying Course (PQC), which is a pre-requisite for promotion. PEs may be written, practical or oral, or any combination of the three, and may be conducted by:

(1) Officers of the Professional School by correspondence, or as arranged.

(2) Officers of the Fleet, Squadron or Ship.

(3) A Central Examining Authority.

Individual specialisations' Chapters show the point at which individuals are entitled to sit PEs.

c. Invigilation of Written PQEs and PEs. Invigilation of a written PQE or PE for the higher rate may be conducted by any officer or rating of CPO status or above as designated by the Examining Board. Under normal circumstances, the invigilator should be at least two rates above the highest level of rating taking the examination.

d. Local Examinations. When, due to the exigencies of the service, it is known that it will not be possible to convene an Examining Board as detailed in the appropriate Chapters, within 4 months of the rating's application for examination, a local examination is to be convened. The Board should be constituted from available officers and/or senior ratings, advice being sought from the Professional School if necessary. The period of 4 months is extended to 6 in those cases where examinations are held at 6-monthly intervals.
e. Should the candidates fail the local examination, they may not re-apply for examination earlier than 4 months from the date of failure, with the exception of EGS PE (see Para 6912 sub para f). Should the candidates pass the local examination, they are considered for promotion purposes to have provisionally passed the examination for which they applied and referred to as the "Date of Passing". Passing a local examination qualifies ratings for promotion to the next higher rate when otherwise eligible.

f. Loss of Paperwork. When candidates have applied for an examination before the last date specified for applications and the application has failed to reach the authorities, or the examination papers have failed to reach the candidates, or the worked papers fail to reach the examining authority in time, or if the candidates are prevented from taking the examination for reasons beyond their control, Lead Schools should apply to the Ratings Promotion Section to ante-date the "Date of Passing" (providing candidates are successful in the immediately following examination) to the date of the examination which was missed. Where it subsequently proves that a rating has achieved a PE pass before attaining one year's seniority in their current rate, where applicable, the basic date of passing is to be adjusted to the later date. In these cases, the Ratings Promotion Section is to be advised when such action is taken.

g. Ratings in Small Vessels and Outstations. Ratings serving in small vessels and outstations should, subject to the exigencies of the Service, be transferred temporarily to their parent base or other large ship/unit in order to have facilities to work towards the necessary examinations to gain the professional qualifications required for the higher rate.

h. Annual OPS Checks. Details of branch specific OPS Check requirements are contained in Chapter 74 to Chapter 90. All personnel are expected to remain at OPS while building up experience towards promotion. Maintenance of OPS is to be monitored through an OPS Check process, success in which is a pre-requisite for promotion to LH and PO. Some ratings may not achieve or maintain OPS or, in some cases, not attempt to progress themselves thereafter for any number of reasons. Individual Branch Chapters are to be consulted to determine the action to be taken in these cases.

i. Engineering Branch Operational Performance Statement Assessments. Engineering Branch OPS Assessments are conducted in accordance with the timescale detailed in the individual Chapter 74, Chapter 75 and Chapter 76 and the relevant competence recorded on JPA.
6912. Failure of Examinations or OPS Assessments

a. **Outright Failure of PQEs Set by Schools or Examining Authority on a PQC.** Ratings will not be promoted to the higher rate or retain the higher rate (if promoted following completion of leadership training) if not successfully completing the mandated professional and/or leadership courses. Ratings who fail outright or who are removed from the relevant Course at the appropriate School are to suffer the following penalties:

1. Deselection from the promotion signal.
2. Reversion from the substantive rate or relinquishment of the acting higher rate (if held) - individuals are to be reverted or lose the acting higher rate from their date of failure.
3. Removal of a PE pass, entailing a possible loss of pay - the pay Qualification Point will be reinserted (see Para 6919).
4. A requirement to spend a minimum of 12 months in the lower rate and the need to re-qualify, by way of a Commanding Officer’s recommendation, for subsequent consideration for promotion to the higher rate.

b. The Commodore of the Training Establishment may defer an individual’s removal from course if considered appropriate, pending extra instruction and immediate re-examination within that establishment and subject to negotiation with the rating’s parent establishment/ship.

c. Exceptionally, if the Commodore of the Training Establishment considers that the degree of failure does not justify the course failure penalties in paragraph 1, but the rating cannot be retained for further training and immediate re-examination in accordance with Para 6912 sub para b, the following procedures are to be followed:

1. The automatic penalties of course failure are not to be applied.
2. The Ratings Promotion Section and the rating’s Commanding Officer are to be informed of the additional training required.
3. The rating is to be assigned back to the training establishment for re-examination at the earliest possible opportunity.
4. The rating is to be formally warned that a second failure of a course will invoke full penalties.

d. Ratings who fail at this second attempt will be subject to the automatic penalties of course failure from the date of the second failure.
e. If, during the waiting period, the rating's Commanding Officer feels that the rating should no longer be recommended for further training, the penalties of course failure are to be applied from the date the Commanding Officer informs the rating of the decision. Ratings who no longer wish to return for a second attempt are to be treated as a course refusal in accordance with Para 6913.

f. **Failure of PEs and PQEs set by Fleet, Squadron, Ship or Central Examining Authority.** Ratings who fail a PE or PQE set by the Officers of the Fleet, Squadron, Ship or Central Examining Authority may be examined at an interval of not less than 4 months or, for Engineering Branches or Logistics Branch Fleet Examinations, as specified by the President of the Board or the Commander Royal Naval Logistics School, at the time of failure. The earliest date for re-examination is to be noted on the rating's history sheet and on the Application for Examination forms. For EGS candidates, Line Managers and HoDs are encouraged to arrange another PE as soon as mutually appropriate, with a minimum period of one month between attempts. Applications should be made to the unit's CO and Flotilla SMEO/SWEO to resit PE after a minimum of one month has elapsed. The decision on whether or not to approve the request will be formulated depending on the nature of the previous failure and the proposed re-assessment time scales.

g. The reasons for judging ratings to have failed are to be noted on the Application for Examination form and also discussed with the candidates.

h. Ratings failing an examination are eligible for re-examination, as specified above, for the first three attempts. They must then wait one year before being allowed a fourth attempt; further cycles of three attempts are then permitted.

i. **Failure of an OPS Assessment Set by Fleet, Squadron, Ship or Central Examining Authority.** For Engineering Branches, ratings who fail an OPS Assessment set by the Officers of the Fleet, Squadron, Ship or Central Examining Authority may be re-examined at an interval no less than that either specified by the President of the Board at the time of failure or that specified by a Warning Officer, noting the recommended review timescales given in Chapter 57. An unsuccessful OPS check is considered a failure and the warning process for reversion to the appropriate rate should commence. Candidates then have two further attempts. On failure of the third attempt the candidate should be reverted to the previous rate.

6913. **Refusal to Take a Professional Qualifying Course or Professional Qualifying Examination for Confirmation**

a. Ratings who refuse to take a PQC or PQE required for promotion will be:

(1) Deselected from the promotion signal.

(2) Reverted from the confirmed rate or relinquish the acting higher rate (if held).
b. An individual’s refusal, together with the date on which they become eligible again, is to be noted on the ratings’ history sheets and reported to the Ratings Promotion Section.

c. When there appear to be valid reasons for a refusal, the case is to be reported to the Ratings Promotion Section for a decision as to whether or not they are sufficiently strong to justify exemption from the above automatic penalties.

d. **Withdrawal from Course.** If, on receipt of instructions detailing ratings to attend a course (professional or leadership), a Commanding Officer considers that a rating can no longer be recommended in accordance with Para 6901, they are to be removed from the course and suffer the penalties listed in Para 6912.

e. If, whilst undergoing a course (professional or leadership), the Commodore of the Training Establishment considers that ratings do not merit retention on course they are to be removed and suffer the penalties listed in Para 6912.

f. Ratings removed from a course for misconduct may not be put on course for at least two years and, immediately preceding the second course, must satisfy the career check requirements for promotion and advancement. Withdrawals in accordance with this clause are to be reported by letter to the Ratings Promotion Section.

6914. **Application for and Reporting of Examinations for Higher Rate**

a. Applications for examination are to be made in duplicate on Forms S442 as required by the various specialisation regulations. Both copies of the relevant Form are to be forwarded to the Administrative Authority or Examining Authority who will then arrange for the examination to be conducted in accordance with the appropriate specialisation regulations.

b. On successful completion of all parts of the examination, the Examining Authority will enter the results on Forms S442 and forward one copy to the candidate’s unit where the required notations are to be made on the rating’s Service Documents and the competences added to JPA by unit HR personnel. After notation, the Form S442 is to be handed to the rating with a copy being forwarded to the Ratings Promotion Section following all examinations.

c. In the case of failures, the original of the form is to be completed and forwarded to the candidate’s ship or establishment for retention with the rating’s divisional documentation for future reference.

d. **Local Examination.** When it is known that a formal examination will not be available within four months of the candidate’s application being made, application is to be made for a local examination using Forms S442 (in triplicate), as required by the various specialisation regulations. All of the application forms are to be clearly marked ‘LOCAL EXAMINATION’. The Commanding Officer is to convene a Local Examination Board if the application is approved.
e. On successful completion of the local examination, the results are to be entered on the forms and the original forwarded to the Advancement Authority. One copy is to be used for notation purposes in accordance with Para 6914 sub para b and then retained with the rating’s Divisional Documents for use by the Board at the formal examination. The third copy is to be handed to the candidate.

f. In the case of failure of the local examination, one copy of the form is to be retained with the rating’s divisional documents for future reference, clearly stating the reason for failure. The remaining copies are to be destroyed following the raising of Form C170.

g. **Special Rules.** Where any specialisation has special rules for applications for examination, these are shown in the various specialisation Chapters concerned.
SECTION 5 - ACTING HIGHER RATE

6915. Use of the Acting Higher Rate

a. The acting higher rate may be used in the following situations:

(1) By anyone who, having been selected for promotion under Common Promotion Date (CPD) rules, is assigned to a position in the higher rate before the CPD in question and is fully qualified for promotion (including satisfying medical and RNFT requirements), having completed all mandated training. Under the selective promotion system, ratings that have been selected for promotion will normally be promoted on a CPD. However, those who subsequently qualify in all respects for the higher rate following selection may be awarded the acting higher rate if assigned to and then carrying out the duties of a position, complemented for the higher rate, prior to the CPD. The individual may retain the acting higher rate until their CPD providing that they remain assigned to the position and continue to carry out the duties of the higher rate. However, if the individual ceases to remain assigned to the position or no longer carries out the duties of the higher rate, for whatever reason, they must lose the award of the acting higher rate immediately. Such awards are made subject to individuals satisfying all other relevant promotion criteria. With the exception of pregnancy, individuals who have assignments to pre-promotion training cancelled or delayed (e.g. due to operational requirements) will not be entitled to any retrospective promotion awards prior to the CPD for which selected.

(2) By non-artificer/technicians who were promoted to the higher rate before the introduction of selective promotion (however, such individuals are being assigned to leadership training where still outstanding – see Para 6910). There will remain a number of personnel who have been advanced under the previous B13 advancement system who have not yet completed the necessary professional or leadership course for confirmation in their current rate. These personnel will remain in the acting higher rate until such time as the necessary courses are completed. Individuals who, following assignment, fail or refuse to attend leadership course will lose the acting higher rate.

(3) By new entry and sideways entry Naval Nurses on completion of their specialist training. Direct entry Naval Nurses (who have not completed LRLC) may be granted the Leading Rate on an acting basis on completion of Phase 1 training due to the compressed nature of the training pipeline and the lack of employment as an Able Rating. Direct Entry Dental Hygienists may be advanced to the Acting Leading Rate in accordance with Para 8801. Confirmation in the higher rate will occur on completion of the LRLC.

(4) In exceptional cases, by branch transferees and those joining sideways entry specialisations.

(5) By artificer/technicians who are qualified by time for advancement to the higher rate but have been unable to complete the required professional or leadership training due to the exigencies of the Service.
(6) On a local acting basis (for those not selected for promotion) – see Para 6916.

(7) On an unpaid basis – see Para 6917.

b. Prior to the introduction of CPD, time in the acting higher rate counted towards any time qualification for the next higher rate. However, the use of the acting higher rate is dependent on a number of factors that are outside an individual’s control. Consequently, to ensure that all individuals selected at the same time for the same CPD are treated in the same manner and are therefore not disadvantaged, only time spent in the confirmed rate will count for advancement/promotion purposes under the CPD scheme.

c. The following procedures for the award of the acting higher rate will apply for those individuals selected and qualified for promotion or those who are due promotion by time and/or qualification:

(1) The Career Manager (CM) or Career Management Cell (CMC) (for squadded ratings) identifies the rating who has been selected for promotion and has completed mandatory training. The CM/CMC will then assign the rating to a higher rate position and change his/her rank to the acting (paid) rank (as referred to in JPA).

(2) Once assigned and rank changed, the CM/CMC will note the status of the acting (paid) rank in the rank review field. This change in rank will trigger the JPAC who will then alter the pay, allowances and IBD to reflect the higher rank.

6916. Acting Higher Rate (on a Local Acting Basis)

a. The award of the acting higher rate on a local acting basis to ratings capable of performing the duties of a higher rate is a system designed to enable an individual to undertake the duties of a higher rate for a temporary period. Such advancement may be authorised (except to the rank of WO – see Para 6916 sub para o) to make good deficiencies in establishments when the higher rate allowed is:

(1) Not borne and the vacancy is not expected to be filled within 21 days.

(2) When a rating is absent from duty for Service reasons or for sickness and it is not expected that the vacancy will be filled within 21 days.

(3) When a rating is absent from a ship or establishment on compassionate leave which is expected to exceed 21 days – subject to ACOS(PCap)’s 1* approval.

(4) Not already covered by excess bearing in any higher rate in the same specialisation.
Time spent in the acting higher rate on a local acting basis counts towards the service qualification period in the substantive rate, e.g. time served by a rating as an Acting PO on a local acting basis counts as leading rate time. Likewise, such time does not count towards seniority in the higher rate, once subsequently gained.

b. A temporary manning standard does not affect the establishment for this purpose except for ships in which equipment has been placed in the state of care and maintenance. In these circumstances, a decision should be sought from ACOS(PCap) (who in turn may seek higher authority) regarding any award of the acting higher rate on a local acting basis which is in excess of the temporary manning standard.

c. Careful discrimination is to be exercised in the selection of ratings for the acting higher rate on a local acting basis, particularly in the technical and medical branches. Commanding Officers are free to select any rating for an award of the acting higher rate on a local acting basis in the individual’s own specialisation; however the following guidelines are to be adhered to:

1. The individual must be capable of performing the higher duties.

2. The individual should have been recommended for promotion 1 Rank Up (Yes, High or Excep) on their last SJAR. Where this is not the case, a SPEC SJAR should be raised recommending the individual for receipt of the Acting Higher Rate and future promotion.

3. The individual is to be in date for the RNFT.

4. Although not mandatory, prior consideration should be given to ratings who have:
   
   (a) Been selected for promotion.

   (b) Passed (or are making good progress towards passing) a PE or alternative.

   (c) Completed the relevant Leadership Course for the higher rate (see Para 6916.d sub para (3)) for mitigation where this is not the case). The individual should not have failed a Leadership Course within the last 12 months.

   (5) The individual must either be JMES Medically Fully Deployable (MFD), or Medically Limited Deployable with an expectation of a likely upgrade to MFD within 6 months. See Para 6908 and Table 69-1 for further explanation.
(6) Commanding Officers have complete discretion as to the standard of conduct which should be required for the award of the acting higher rate on a local acting basis, except after being disrated (see Para 6916 sub para k).

d. **Award Process.** In order to fill a temporary vacancy:

1. The unit is to identify the position that needs to be filled internally.

2. The unit identifies a suitable individual who meets the promotion eligibility criteria.

3. If no suitable Leadership Course qualified rating is available, Commanding Officers can (if required) select someone who has not completed a Leadership Course. However, in so doing, they must include planned action to mitigate the duty of care impact of employing a person at a higher rate who has not completed all the required training; both on behalf of the individual and those whom they will lead. If the period of the award is to exceed six months, the award of the acting higher rate on a local acting basis should be reviewed at the six month point to ensure that the individual is performing well in the temporary vacancy. If the latter does not apply, or the individual is failing to lead successfully, consideration should be given to awarding the acting higher rate on a local acting basis to another individual, preferably one who has completed the relevant Leadership Course. Reporting the award of the acting higher rate on a local acting basis (and any change of individual at the six month review) should be made in accordance with details at Para 6916 d sub para (4)).

4. The unit raises an ‘Acting Promotion Authorisation Request’ by signal or electronically (to the CMC for squadded ABs and Leading Hands; the CM for all other ratings). In cases where ratings are awarded the acting higher rate on a local acting basis exceptionally without having completed a Leadership Course, this must be made clear on the signal/e-mail.

5. Having identified the gapped position on JPA, the CM/CMC assigns the individual to that position, changes the rank to acting rank and inserts a rank review date. This will ensure the individual has the requisite roles and responsibilities commensurate with the new rank on JPA and, additionally, will trigger the process for the JPAC to change the individual’s pay, allowances and IBD to that of the new rank.

e. Awards of the acting higher on a local acting basis rate may be authorised only one step above the substantive rate held in all specialisations.

f. Ratings holding the acting higher rate on a local acting basis are not to be employed on duties of a rate higher than that appropriate to their new position.

g. Ratings holding the acting higher rate on a local acting basis will rank in command with, and have the status and privileges of equivalent ratings (for further information, see BRd 2 QRRN (Command).
h. **Relinquishment of the Acting Rate.** Once the review date is reached (see Para 6916.d sub para (5)), the CM/CMC will assess the need to continue to fill the position on a temporary basis and, thereby, the retention of the ‘acting paid rank’ by the rating. It is a unit’s responsibility to inform the CM/CMC if circumstances alter and justify a change in the individual’s ‘acting (paid) rank’ status before this rank review date. Once informed by the unit, the CM/CMC will make the necessary adjustments to the rating’s rank on JPA. It should be noted that, under JPA, ratings are not reverted when they complete the period of acting higher rate on a local acting basis but relinquish their acting rank (for reversion for unsuitability see Para 6916 sub para i)). A rating is to relinquish the acting higher rate on a local acting basis after any of the following events:

1. If the vacancy ceases to exist.
2. If promoted or advanced to the substantive rate.
3. If reassigned from a ship, unit or establishment, including leave prior to next assignment.
4. If placed on a course (whether within the establishment or elsewhere), from which he/she is expected to return, involving an absence of more than 35 days from the duties for which the acting higher rate on a local acting basis was granted.
5. If absent through sickness or injury for 28 days from the date of cessation of duty.
6. If fails, refuses to attend or is withdrawn (unless due to medical or other Service reasons) from a Leadership Course to which they have been assigned.

i. Commanding Officers in the rank of OF3 or above may order reversion from the acting higher rate on a local acting basis for unsuitability at any time (as opposed to relinquishing the acting higher rate on a local acting basis as at Para 6916 sub para h)) Commanding Officers below that rank are to obtain the approval of the Navy Command Headquarters Casework Cell.

j. For disciplinary purposes, ratings holding the acting higher rate on a local acting basis will be treated in the same manner as those holding substantive rates. In particular, ratings may be disrated to their substantive rate or to an appropriate lower rate either by court-martial or summarily, subject to the regulations applicable to the substantive equivalent to the acting rate held. The same consequential effects will apply (see JSP 830 - Manual of Service Law).
k. A rating holding the acting higher rate on a local acting basis, who is disrated in accordance with Para 6916 sub para j), must attain a minimum of one year’s Career Check free service before being again granted the acting higher rate on a local acting basis or before being promoted to a higher rate under the rules at Para 6720 and Para 7002. An individual disrated from a confirmed rate must also attain a minimum of one year’s Career Check free service being granted the acting higher rate on a local acting basis. If, exceptionally, there are special reasons for granting the acting rate to an individual in any of these three categories with less than one year’s Career Check free service, application is to be made to the Navy Command Headquarters Casework Cell (copy to the Ratings Promotion Section).

l. Regulating Petty Officer and Master-at-Arms (MAA). Where a Regulating Petty Officer (RPO) has been assigned by ACOS(PCap) to fill a MAA position, the draftee may apply in his or her former ship/establishment for the granting of the award of Acting MAA rate on a local acting basis without a signalled prompt from the new unit. In recognition of their special policing powers, the individual may be awarded the rate with an effective date of joining the unit or date of taking passage (eg. in an aircraft) if travelling with other Service personnel. The rating is entitled to wear the uniform of the higher rate from that date. The effective date of relinquishing the higher rate is the day after leaving the establishment position or the date of promotion to substantive MAA, whichever is the earlier. These provisions also apply to ratings that are awarded the rate of Acting RPO on a local acting basis when filling a unit Senior Regulator position.

m. CPO Coxswain (SM). POs who are potential branch transferees from another specialisation and are selected and qualified for transfer to CPO Coxswain (SM) but not yet promoted, who are subsequently assigned to a CPO Coxswain (SM) position, may apply in their former unit for the granting of the award of Acting CPO Coxswain (SM) rate on a local acting basis without a signalled prompt from the new unit. In recognition of their special policing powers, the individual may be awarded the rate on a local acting basis with an effective date of joining the submarine or the date of taking passage (eg. in an aircraft) if travelling with other Service personnel. Ratings are entitled to wear the uniform of the higher rate from that date. The effective date of relinquishing the higher rate is the day after leaving the establishment position or the date of substantive promotion to CPO, whichever is earlier.

n. Joint Service Establishments. Acting rates or ranks under the same conditions as above may also be granted to RN, RAF and Army personnel serving in Joint Service Establishments.

o. Warrant Officer Rank. Under no circumstances will the acting RN ranks of Warrant Officer 2 or Warrant Officer 1 be granted on a local acting basis. CPOs may not be awarded the rank of WO2 or WO1 on a local acting basis and WO2s may not be awarded the rank of WO1 on a local acting basis. CPOs undertaking a WO’s day-to-day duties may attract substitution pay (see JSP 754), where undertaking duties in addition to their own, but they are not authorised or entitled to exceed the disciplinary or structural authority equal to their seniority as a CPO.
6917. Acting Higher Rate (Unpaid) - Addressable Rank

a. Promotion to the acting higher rate (unpaid), commonly known as addressable rank (and referred to on JPA as acting unpaid rank), carries no entitlement to pay, allowances or pension rights of the higher rate and may be given in the following circumstances:

(1) Where it is desired to exceed, temporarily, the authorised establishment for such purposes as special operations and training.

(2) Where it is necessary for attendance on courses or duties with other Services.

(3) Where it is necessary for prestige purposes, or to enable a rating to carry out his/her duties more effectively.

b. Applications should be submitted to the Career Manager for authorisation, who will make the necessary changes on JPA.

c. Duties. Ratings holding the acting higher rate (unpaid) will rank in command with, and have the status and privileges of equivalent ratings (for further information, see BRd 2 QRRN (Command) and BRd 3(1) Part 6 (Uniform Regulations)).

d. Relinquishment. The acting higher rate (unpaid) is to be relinquished when:

(1) The assignment for which the acting higher rate (unpaid) was granted is completed, including discharge to leave prior to next assignment.

(2) The course or duties for which the acting higher rate (unpaid) was granted are concluded. This includes removal from course for either professional or disciplinary reasons.

(3) The rating is promoted or advanced to either the substantive or paid acting higher rate.

(4) The rating is medically downgraded and assigned to the medical margin.

(5) The rating is remanded for trial by Court Martial or tried summarily with an offence under AFA 06 unless their Commanding Officer directs otherwise (under AFA 06, an individual is normally to be charged in their substantive rank).

(6) Warrant Officer Rank. In no circumstances will the acting higher ranks of WO1 and WO2 be granted on an unpaid basis. The WO rank is reserved for those who have been promoted by the Selection Board procedure and individuals receive a Royal Warrant. A CPO undertaking a WO’s day to day duties may attract substitution pay (see JSP 754), where undertaking duties in addition to his/her own, but he/she is not authorised or entitled to exceed the disciplinary or structural authority equal to their seniority as a CPO.
SECTION 6 - MISCELLANEOUS

6918. Transfer Between Specialisations – Counting of Time
See Chapter 51 for more information.

6919. Promotion of Senior Upper Yardmen
Details of the scheme for promotion of Senior Upper Yardmen (SUY) are found in Chapter 50. Accelerated advancement to PO or above is sometimes given to selected candidates to enable them to obtain the necessary experience for SUY.

6920. Promotion or Advancement of Recovered Deserters

a. The following qualifications for promotion or advancement, if gained prior to desertion, are not affected by desertion:
   
   (1) Educational qualifications.
   
   (2) Professional and specialist qualifications, unless they have been made more stringent while in desertion.

b. **Counting of Former Service.** Time spent as a deserter, prior to re-entry on a ship’s books, does not count for advancement, either for the service qualification or for sea service.

c. The period of desertion may not count for promotion or advancement purposes, but time awaiting trial and time in detention or cells imposed on conviction of desertion is allowed.

d. **Removal of ‘R’ Notation.** On removal of the ‘R’ notation, the usual conditions of promotion or advancement and re-promotion or re-advancement in the branch/specialisation and rate, to which the ratings concerned are to be reverted, apply. Time spent before desertion is allowed to count for further promotion or advancement or re-promotion or re-advancement but, as stated, the time spent actually in desertion will not be allowed to count. The date of seniority in the rate and the date of passing, if qualified for the higher rate before desertion, should be adjusted accordingly.

e. **Ratings Disrated on Recovery.** Ratings disrated on recovery will be eligible for re-promotion or re-advancement in accordance with Para 7002. After re-promotion or re-advancement, they will be eligible for further promotion or advancement under the normal rules except that their seniority and, if qualified professionally for the higher rate, their basic date of passing will be the date of recovery from desertion (ie. the date of re-entry on a ship’s books) adjusted for time spent in a lower rate, or rates, after recovery.

f. **Ratings not Disrated.** Ratings who are not disrated on recovery may be advanced or promoted under the normal rules for their specialisation. The seniority and, if qualified professionally for the higher rate, the Basic Date of passing will be the date of re-entry on ships’ books.
g. **Able Rate**

(1) Special reports on the fitness for advancement of all recovered deserters of the BD2 (or equivalent) are to be forwarded to the authorities named at Para 6922.g sub para (2) on the date the rating becomes eligible for advancement under the normal rules after deducting the period actually spent in desertion.

(2) Advancement of recovered deserters to BD1 may be authorised by Commander-in-Chief, Senior Officers of Squadrons, the Captain HMS NELSON and Commandant DCEME HMS SULTAN, without reference to the MOD(N).

(3) To be eligible for advancement on completion of the necessary period of qualifying service, a rating must also be considered fit for advancement and recommended for advancement in accordance with Para 6901. If the rating is not recommended, advancement is to be delayed until the Commanding Officer is able to make the required recommendations.

(4) The advancement of ratings who are recommended by their Commanding Officers later than the date on which they are qualified by service is to be made from the date of the recommendation.

(5) Ante-dating to the date on which ratings qualified for advancement by service, or to any other date, is not permitted unless it is clear that the advancement has been overlooked, or that necessary correspondence has been lost, and that it is known that the ratings would have been recommended on the date to which it is proposed to ante-date them. If the ratings were qualified for advancement before desertion but they were not advanced, through no fault of their own, they may be advanced from their original date of qualifying provided that their record at that time was such that they would have been recommended. However, their date of advancement is then to be immediately adjusted to the date of their re-entry on a ship’s books after recovery from desertion. This date is to be re-adjusted in respect of any subsequent desertion.

(6) Any claim, which a recovered deserter may have had to any accelerated advancement, is to be regarded as forfeited by the desertion.

(7) Time in the same branch, prior to desertion, may count towards the service qualification, and where applicable towards the sea service qualification, but a rating who is transferred from one branch to another may, for this purpose, only count 5 weeks’ service in the previous branch.
6921. Advancement of Prisoners of War and Internees

a. Advancement to AB1

(1) AB2s may be advanced to AB1 while prisoners of war or interned on the date due by service. Professional and specialist qualifications are to be waived if ratings have been unable to obtain them due to their capture or internment.

(2) This advancement will not be allowed where it is established that the rating would not have been advanced on due date because of some known inefficiency. In such cases, the rating’s advancement is to remain in abeyance.

(3) The advancement of ratings taken prisoner or interned will not be permitted at a date earlier than would have been due previously.

(4) Ratings who were fully qualified for advancement on a date earlier than that on which they were taken prisoner or interned but who were actually advanced may be advanced while prisoners of war or interned with effect from their original date.

b. Internees may be advanced from BD2 to BD1 and have their professional and specialist qualifications waived if ratings have been unable to obtain them during the time of internment. They cannot be waived if it is established that there was some known inefficiency prior to internment.

c. Advancement to PO (Artificers). Artificers may be advanced to PO, while prisoners of war or interned, on the date due by service.

d. Promotion above Able Rate (Non-artificer/Technician) and above PO (Artificer/Technician)

(1) Promotion beyond the able rate (non-artificer/technician) and advancement beyond PO (artificer/technician) will not be permitted while a rating is a prisoner of war or interned, except as provided for in Para 6923.d sub para (8).

(2) Promotion or advancement may be authorised after liberation, in accordance with the following rules, provided that the rating is not discharged from the Service on termination of hospital treatment, or foreign service or prisoners of war leave and returned to normal duty with an unbroken record of service:

(a) All the required qualifications for promotion or advancement, (e.g. conduct, service, sea service, professional, specialist and educational) must be fulfilled before the selective promotion or advancement is authorised.
(b) The period of time, since the date of return to duty, taken to complete the necessary qualifications is then to be added to the date of qualification.

(c) Sea going service performed before being taken prisoner or interned will count towards any sea service qualification required.

(3) Eligibility to take examinations for further promotion or advancement, following promotion or advancement achieved in accordance with paragraph 4b, is to be determined as follows:

(a) The date of eligibility to take examinations for further promotion or advancement is to be calculated from the adjusted seniority in rate.

(b) The effective date of passing the examination is to be antedated as in Para 6923.d.(2) sub para (b).

(4) Where a rating was selected before internment, ACOS(PCap) may authorise promotion to the higher rate. Time-based advancement (e.g. to PO or CPO) may be approved by COs provided that the rating concerned:

(a) Applied to take the examination(s) within a reasonable period of return to duty (excluding prisoner of war leave or foreign service leave).

(b) Passed the examination(s) at the first attempt.

(5) Where a rating is eligible for selective promotion, he/she will be considered by the first Selection Board, subject to normal selective promotion procedures. This Board may exceptionally recommend to ACOS(PCap), for confirmation by Second Sea Lord (2SL), any retrospective promotion that it may feel to be justified.

(6) In cases where no professional qualification is required, further promotion or advancement may be authorised with similar retrospective effect as in Para 6923 sub para b.

(7) **Acting Higher Rate.** The acting higher rate held at the time of capture or internment may be retained during captivity and for a period of 61 days after repatriation or of rejoining Ratings ships whichever is earlier. Ratings will then revert to their confirmed rate.

(8) **Ratings Reported Missing or who Die in Captivity**

(a) Ratings who are reported missing, and of whom no more is heard, may be advanced from the due date on official presumption of death, provided that the advancement was due prior to the date on which the rating was reported missing.
(b) Ratings who are first reported missing and who are subsequently reported to be prisoners of war or interned will be dealt with in accordance with paragraphs 1-4g.

(c) Ratings who are reported missing, of whom it is discovered that they died at a later date, and prisoners of war and internees who die in captivity, will be dealt with as in Para 6923.d.(8) sub para (a), except that the period of service performed subsequent to the date on which they were reported missing, taken prisoner of war, or interned, will be taken into account. They will be promoted or advanced to any rate for which they would be qualified by service alone prior to the known or calculated date of their death, it being assumed that they would have obtained the necessary professional qualifications within that period.

(d) Any rating who dies in captivity or is presumed to have died in captivity, whose record of service is such that they would have been selected for promotion, is to be considered by a Selection Board for promotion. This Board may recommend to ACOS(PCap), for confirmation by 2SL, any retrospective promotion that they may feel to be justified.

6922. Special Forces - Shadow Rank Assessment Board
Badged RN/RMSF ranks (either SBS/SAS) are only entitled to SF pension and Terminal Benefits on becoming Permanent Cadre (PC) at six years SF service. If a rank dies or leaves the service for medical reasons prior to achieving PC, his terminal benefits will be based on his assessed Shadow rank, which is that rank he could have been expected to achieve had he remained in his previous SQ. The RM Branch Manager can advise on the SRAB procedures.

CHAPTER 70
RATINGS POLICY - RE-PROMOTION AFTER DISRATING AND REVERSION

7001. Disrating – General Rules on Re-promotion after Disrating

a. The following rules regarding the re-promotion of individuals following disrating apply to all ratings (and include the re-instatement of promotion to the WO1 rank that was withheld following Promotion Board selection – for WO1 options, see Para 7002 sub para n). For more specific rules on the disrating of ratings, see JSP 830 (Manual of Service Law).

b. Throughout this Chapter, the term re-promotion has been used generically, however, it is accepted that ratings can be ‘advanced’ (by time) up to the rate of Chief Petty Officer (CPO) in some technical specialisations.

c. Authority for Re-promotion. The re-promotion of ratings who have been disrated, either summarily or by court-martial, is at the discretion of either Commanding Officers (COs) or Commanders-in-Chief as determined at the time of the disrating and recorded on the Warrant. See JSP 830.

d. Applications for Re-promotion. All applications for the re-promotion of ratings who were disrated at Court Martial or Summary Hearing (not those reverted by the Higher Authority as a result of an Administrative Action) are to be submitted for consideration by the Assistant Chief of Naval Staff (Personnel) and Naval Secretary (or those to whom he/she has delegated authority). In the case of re-admission to a sideways entry specialisation, applications, giving details of an individual’s suitability for re-entry into the sideways entry specialisation, are to be copied to the appropriate authority at Annex 70A who will make a recommendation about the rating’s re-entry to that specialisation direct to the Navy Command Headquarters Casework Cell for consideration by the authorised Deciding Officer (see Annex 54A).

e. Timing of Applications. These may be made up to three months before ratings are due re-promotion if there is a wish to re-promote them from the date that they first become eligible (in accordance with Para 7001 sub para d). All applications should be accompanied by a Special SJAR and a firm recommendation for promotion. In cases where a disrating was by more than one step, each stage of re-promotion requires approval.

7002. Disrating - Eligibility for Consideration for Re-promotion

a. Career Check Requirement. For re-promotion to all rates following disrating, a minimum period of 12 months, free of a career check, must be served immediately prior to the date of re-promotion, e.g. ratings disrated on 1 June cannot be re-promoted before 2 June of the following year. All calculations are made in calendar months.
b. **Timing of the Re-promotion.** The period of 12 months' service without a career check, required by Para 7002 sub para a, is a minimum requirement to qualify for re-promotion. A CO is not to re-promote ratings disrated for misconduct unless satisfied that a rating is worthy of the higher rate in all respects and is recommended in accordance with Para 6901.

c. **Re-promotion to the Higher Rate.** Requests for the re-promotion of ratings are to be directly to the confirmed rate in which he/she was serving before being disrated unless disrated by more than one step (see Para 7002 sub para l). Following re-promotion to the confirmed rate, the first 12 months is to be counted as a probationary period.

d. **Effective Date of Re-promotion.** All cases of re-promotion will be effective from either the minimum 12 months or the date of the CO's recommendation (if approved), whichever is the later.

e. **Ratings not Recommended for Re-promotion Within Two Years of Disrating.** Former Leading Hand (LH), Petty Officer (PO), CPO (non-technicians), WO2 (technicians) and WO1s who are not recommended for re-promotion within two years of the date of disrating (or one year after first becoming eligible for re-promotion to these rates if disrated by more than one step), will be required to go through the full selection process, as appropriate, and will be required to obtain the necessary recommendations on an SJAR.

f. **Professional Qualifications.** Ratings will not be required to re-qualify or qualify in any new professional qualifications which may have been introduced before re-promotion to the previous rate (but see Para 7002 sub para o for ratings in sideways entry specialisations who are disrated to their source specialisation). In cases where the qualifications are Qualification Points for pay, approval for a waiver will be required from the appropriate Branch Manager.

g. **Educational Qualifications.** Ratings will not be required to qualify educationally, even if not so qualified previously, for re-promotion to a rate previously held on a permanent basis.

h. **Physical and Medical Fitness.** Ratings are to be in date for the Royal Naval Fitness Test (RNFT) in order to be re-promoted. Ratings who have a medical category below the requirements laid down in BR 1750A (Handbook of Naval Medical Standards) and Para 6908 are normally ineligible for re-promotion but the concessions of Para 6717 and Para 6805 are applicable to re-promotion as well as to promotion. The provisions of the aforementioned Paras concerning medical examination of ratings below the necessary medical standard are to be applied to ratings that become due and are recommended for re-promotion whilst in that category. The rating's CO is to be informed as required. Re-promotion made in consequence of reaching the required standard may not be dated earlier than the date of reaching that standard.

i. **Antedating of Re-promotion.** Re-promotion after disrating is not to be antedated unless the rating concerned was fit in all respects and recommended for such re-promotion on an earlier date, and approval has been unavoidably delayed.
j. Notification to Promotion/Advancement Authority. The Ratings Promotion Section is to be notified of all cases of re-promotion (following disrating) as they occur. If the re-promotion has been antedated, a statement of the circumstances is to accompany the notification.

k. Disrating by More than One Step. Ratings disrated by more than one step are eligible under these rules for re-promotion by successive steps through the rates previously held but they must serve for a minimum period of 12 months with no career check in each rate before being promoted.

l. Selection for Promotion to a Higher Rate held prior to Disrating. In the case of promotion, any selection gained for a higher rate prior to disrating (i.e. where such selection had not resulted in actual substantive promotion) will be deemed forfeit and the individual will be expected to go through the selection process again.

m. Adjustment of Seniority and Basic Date. On re-promotion, a rating's seniority is to be adjusted by post-dating the original seniority in the rate by the time served outside that rate. The adjusted seniority date will be recalculated by the Ratings Promotions Section on receipt of a Promotion Authority Request (PAR) signal.

n. Warrant Officers who have been disrated (either summarily or by court-martial) have the option of being discharged ‘Service No Longer Required (SNLR)’ rather than being considered for re-promotion in accordance with the rules above.

o. Ratings disrated to their source specialisation (see Para 7002 sub para p for the rules following disrating from the Aircrewman specialisation). The re-entry of ratings to sideways entry specialisations, having been disrated to their source specialisation, will be subject to the rules above and additionally:

1. Where re-instatement into the sideways entry specialisation is not recommended, thereby resulting in individuals having to remain in their source specialisation, any professional qualifications required for promotion within the source specialisation must be obtained before re-promotion can be considered.

2. Re-instatement into the Coxswain (Submarine) specialisation cannot be considered until the rating has spent one year as a PO in his source specialisation (i.e. one year after re-promotion to PO). Recommendations should be forwarded to the Commander-in-Chief.

p. Aircrewman Specialisation. Aircrew ratings having been disrated to their source specialisation will be subject to the rules above and additionally:

1. Following a sentence of disrating to the Able Rate, the papers relating to the Summary Trial or Court Martial are to be forwarded to the Navy Command Headquarters to decide whether the offence should carry with it the consequential removal of the rating's flying badge.
(2) If the flying badge is removed, the rating will return to his or her source specialisation permanently and be subject to the rules for re-promotion within that specialisation.

(3) If it is decided that the rating should retain the flying badge, and that the rating should therefore be suitable for reinstatement into the Aircrewman specialisation at the end of the one year period (subject to normal good conduct etc), during this years' probation, the rating will:

(a) Hold the able rate in his or her source specialisation.

(b) Be employed in a similar position to a Leading Aircrewman.

(4) At the discretion of the Navy Command Headquarters, such a rating may be eligible for payment of the LH rate of Special Service Pay (Flying) (SSF) provided the rating continues to be employed on duties similar to those undertaken by a Leading Aircrewman. The payment of the higher and lower rate of SSF is to be in accordance with the rules in JSP 754.

(5) Towards the end of a rating's probationary year, the CO will make the usual recommendation, addressed to Navy Command Headquarters, for re-promotion and re-instatement into the Aircrewman specialisation as an Acting Leading Aircrewman. The Navy Command Headquarters will then confirm the rating's suitability for re-instatement and, subject to the normal re-promotion criteria, will approve both re-promotion and re-instatement at the end of the one year period.

q. Complaints. In accordance with JSP 831, individuals retain the right to state a complaint following a decision to withhold their re-promotion following their earlier disrating (or reversion).

7003. Reversion for Unsuitability

a. The regulations below regarding reversion, and re-promotion thereafter, apply to all rates (and include the re-instatement of promotion to the WO rank that was withheld following Promotion Board selection).

b. Circumstances in which Reversion for Reasons of Unsuitability Should be Used. Reversion or discharge SHORE for unsuitability (see Para 7003 sub para c and sub para d respectively) is appropriate only when ratings show a lack of knowledge or ability, deteriorating efficiency or appear unsuitable (other than for reasons coverable by disciplinary action).
c. **Ratings who have Fewer than 20 years’ Reckonable Service (if Serving on an Engagement Stage 2), 18 years’ Reckonable Service (if Serving on a Full Career (FC)) or 22 years’ Reckonable Service (if Serving on an Open Engagement (OE)).** LHs and above who are unable to perform their duties adequately through lack of knowledge or ability, or who show themselves to be unsuitable other than for reasons coverable by disciplinary action, are liable to be reverted to a lower rate. When reversion for unsuitability is being considered on professional grounds, the Operational Performance Statement, where it exists, and pre-joining training, where it is applicable, must be considered together or separately, as appropriate, in order to enable an individual’s professional performance to be assessed against the objectives that were set for the training previously undertaken. WO1s are to be given the option of being discharged SHORE in their existing rate or reversion.

d. **Ratings who have More than 20 years’ Reckonable Service (ES2), 18 years’ Reckonable Service (FC) or 22 years’ Reckonable Service (OE) and are now Serving on an Engagement Stage 3 (ES3), Extended Career (EC) or Extensions of Original Engagements where applicable.** Where LHs and above (including WO1s), who have completed more than 20/18/22 (ES2/FC/OE1) years’ reckonable service, become so inefficient in the discharge of their duties that, if they were still serving on a ES2/FC/OE, the question of their reversion would have to be considered, they are to be warned for discharge SHORE in their existing rate under the procedure in Para 7003 sub para k to sub para o instead of reversion.

e. Reversion for unsuitability is not a punishment and is therefore not to be carried out by Warrant nor included in a punishment return. Reversion must never be used as a means of dealing with an offence. However, the character of an offence or offences for which ratings have been punished may be such as to show that they are professionally unsuitable for the rate which they hold.

f. **Authority Required for Reversion.** Personnel authorised to approve applications for reversion are detailed in Annex 54A. Approval by these personnel is required for all applications for the reversion of ratings who have been confirmed in their rate, other than where the rating has achieved less than 12 months’ seniority in the confirmed rate. Applications are to be submitted to the Navy Command Headquarters Casework Cell, in accordance with the general procedure and format for administrative applications detailed at Annex 1E. Where no reduction in confirmed rate is involved, or where a confirmed rating has less than 12 months’ seniority, reversion may be authorised by the CO, if of the rank of Lieutenant Commander or above, or by the Administrative Authority where the CO is below the rank of Lieutenant Commander. The Commodore of the relevant training establishment may authorise immediate reversion, when outright failure of a professional qualifying course, with penalties, occurs. See Para 6720 and Para 6912.
Sideways Entry Specialisations. Ratings in sideway entry specialisations who are reverted below the lowest rate in their structure must be returned to their source specialisation. However, ratings who are unable to perform the duties of the lowest rate to which they can be reverted may be discharged SHORE. Ratings who do not have a source specialisation to which they can be returned, if they are reverted below the lowest rate in their structure, must either be transferred to another category (if a volunteer for sea service) or discharged SHORE. Re-promotion, for those ratings not discharged, will be in accordance with Para 7007.

Reporting on Individuals During Reversion. Ratings who have been reverted for unsuitability are not to have an annual SJAR raised, however, special SJAR reports should be raised at each six-monthly interval until recommended for re-promotion (maximum four reports).

Suspension of Professional Certificate. Ratings who clearly show that they are no longer fit to hold a Professional Certificate required for promotion to the rate from which they are being reverted, (e.g. a Unit Watchkeeping Certificate), may have this Certificate placed in abeyance while serving in the lower rate.

When the character of a proved offence or any serious failure in performance shows that a rating is clearly unsuitable for his or her rate on professional grounds, or other grounds where disciplinary action would be inappropriate, the case is to be investigated immediately by the CO without recourse to the warning procedure outlined below.

Warnings for Reversion. When reversion/discharge SHORE (hereafter referred to collectively as reversion) is contemplated, the individual is to be interviewed by their Divisional Officer (DO)/Head of Department (HOD). They are to be informed of their shortcomings and the warnings and reversion procedure is to be explained in detail.

The DO/HOD should warn the rating that if no improvement in performance occurs within a specified timescale (i.e. between three and 12 months at the DO/HOD's discretion), the rating will be reported to the CO with a view to reversion. See Para 5756 to Para 5766 for the need for Formal Warning Proforma and Special SJAR actions. Note - if the Overall Performance Grade is recorded as D, incremental pay suspension will be applied to the pay record automatically when the SJAR is finalised.

If, after the specified time, the rank's performance has not improved to the satisfaction of the HOD, he/she should appear before the CO. At this time, the individual is to be allowed to state their case and be offered the assistance of an Officer, who need not necessarily be their Divisional Officer.
n. **Action Required by Commanding Officer.** After investigation of the case, the CO then has three options:

1. Decide that the circumstances do not warrant reversion.
2. Give the rating a further period of warning.
3. Make immediate application for the rating's reversion.

o. **Applications for Reversion.** Applications, where appropriate, are to be submitted to the Navy Command Headquarters Casework Cell for consideration. All applications should be made in accordance with the format and guidance for administrative applications at Annex 1E and must include a Spec SJAR. The Deciding Officer may direct that the rating is to serve a further trial period in the same or another unit, if it is considered that an additional probationary period is justified.

p. **Effective Date of Reversion.** When reversion has been approved, either by the CO or higher authority, the decision is to be communicated to the rating by the CO. The date of such communication is the effective date of reversion.

q. **Limits of Reversion.** Ratings are to be reduced in their own specialisation below the limits laid down in the Relatives Rates Table (see Annex 65A), nor may they be reduced either actually, or relatively, below the rate in which they first entered the Service.

### 7004. Reversion at Own Request

a. A rating may request reversion to the immediate lower rate at any time.

b. **Authority for Reversion at Own Request.** The CO, if of the rank of Lieutenant Commander or above, or by the Administrative Authority where the CO is below the rank of Lieutenant Commander may authorise reversion at own request.

c. **Effective Date of Reversion.** When reversion has been approved by the CO or higher authority, the decision is to be communicated to the rating by the CO. The date of such communication is the effective date of reversion.

d. **Selected for Promotion.** If having been selected for promotion, a rating requests reversion at their own request, the selection for promotion will be forfeited.

e. **Re-promotion to the Higher Rate.** The re-promotion of WO1s, WO2s (technicians), CPO, PO and LH (non-technicians) who are reverted at their own request will be subject to the procedure in Para 7007.
7005. Reversion Due to Failure of Professional Training
The Commodore of the relevant training establishment may authorise immediate reversion when an outright failure of a professional qualifying course, with penalties, occurs. See Para 6716, Para 6802 and Para 6912.

7006. Ratings Refusing Promotion
The procedure to be followed following refusal of promotion (after selection) are detailed in Para 6714.

7007. Reversion – Rules on the Re-promotion of Ratings

a. Ratings who have been reverted for unsuitability, or at their own request, are eligible for re-promotion under the general regulations for promotion and the following supplementary orders.

b. Eligibility for consideration for re-promotion is as follows:

(1) Minimum Period in the Lower Rate. The minimum period in the lower rate before a recommendation for re-promotion to LH, PO and CPO (non-artificer/technician), WO2 or WO1 may be made is six months.

(2) Career Check Requirement. The same rules will apply as for normal cases of promotion under Para 6719 and Para 6806.

(3) Physical and Medical Fitness. Ratings are to be in date for RNFT in order to be re-promoted. Ratings who have a medical category below the requirements laid down in BR 1750A and Para 6908 are normally ineligible for re-promotion but the concessions of Para 6717 and Para 6805 are applicable to re-promotion as well as to promotion. The provisions of the aforementioned Paras concerning medical examination of ratings below the necessary medical standard are to be applied to ratings that become due and are recommended for re-promotion whilst in that category. The rating’s CO is to be informed as required. Re-promotion made in consequence of reaching the required standard may not be dated earlier than the date of reaching that standard.

(4) Professional Qualifications. Professional qualifications already obtained will not have to be passed again for re-promotion unless it is known that before reversion ratings were examined professionally as to their fitness to retain their rate and found wanting. However, before being re-promoted, ratings must obtain all the professional qualifications required for the higher rate at the time of re-promotion, i.e. they must qualify in any examinations they have not already passed, including any higher grade qualification which has superseded a lower grade one. In addition, where a Professional Certificate has been placed in abeyance under the provisions of Para 7003 sub para i, COs are to ensure that ratings are suitable to hold such a Certificate again when recommending them for re-promotion. Recommendations for the re-promotion of such ratings are to include a statement that they are suitable to hold the Certificate again.
(5) **Educational Qualifications.** Ratings will not be required to qualify educationally, even if not so qualified previously, for re-promotion to a rate previously held on a permanent basis.

c. **Re-promotion to the Higher Rate.** All cases of re-promotion are to be directly to the confirmed rate in which the rating was serving before being reverted unless an individual was reverted by more than one step (see Para 7007 sub para d). The first 12 months following re-promotion to the confirmed rate is to be counted as a probationary period.

d. **Reverted by More than One Step.** Ratings reverted by more than one step are eligible under these rules for re-promotion by successive steps through the rates previously held, but they must serve for a minimum period of six months with no career check in each rate before being re-promoted. In this case the period of six months following re-promotion to the confirmed rate is to be counted as a probationary period.

e. **Recommendations for Re-promotion.** Applications are to be submitted, after a minimum of six months in the immediate lower rate or on first recommendation, whichever is later, to the Navy Command Headquarters Casework Cell, in accordance with the general procedure and format for administrative applications detailed at Annex 1E.

f. **Ratings not Recommended for Re-promotion Within Two Years of the Date of Reversion.** They will be required to go through the full selection process and will be required to obtain the necessary recommendations on SJAR. Normal reporting should then commence in accordance with JSP757.

g. **Effective Date of Re-promotion.** The effective date of re-promotion to LH, PO, CPO (non-technician), WO2 and WO1 will be the date of the CO's recommendation stated on the relevant SJAR.

h. **Further Promotion.** After ratings have regained the rate from which they were reverted, they will be promoted in accordance with the ordinary rules for promotion laid down in this BR, however, at least one day must be served in the rate to which they are restored.

i. **Notification to Advancement Authority.** The Ratings Promotion Section is to be notified of all cases of re-promotion (following reversion) as they occur. If the re-promotion has been antedated, a statement of the circumstances is to accompany the notification.

j. **Counting of Time in Higher Rate.** Time served in the substantive rate before reversion will count for further promotion after that rate has been restored. The rating's seniority is to be adjusted by post-dating the original seniority by the time served in a lower rate.
k. **Ratings Reverted to Source Specialisation.** Ratings reverted to their source specialisation are to enjoy the same prospects of promotion afforded to those reverted in their own specialisation, but they will be required to obtain all professional qualifications necessary for promotion within their source specialisation.

l. Re-instatement to a sideways entry specialisation will not normally be appropriate. However, application may be made by the CO to Navy Command Headquarters Casework Cell in accordance with the general procedure and format for administrative applications detailed at Annex 1E, if re-instatement is considered to be suitable after taking into account the rating’s own wishes. In the case of re-admission to a sideways entry specialisation, applications, giving details regarding suitability for re-entry into the sideways entry specialisation, are to be copied to the appropriate authority shown at Annex 70A, who will make a recommendation direct to the Navy Command Headquarters Casework Cell about the rating’s re-entry to that specialisation.

RATINGS POLICY - LOANS TO AND FROM COMMONWEALTH NAVIES

CONTENTS

Para
7301. Royal Australian Navy Ratings Serving with the Royal Navy
7302. Royal New Zealand Navy Ratings serving with the Royal Navy
7303. Royal Navy Ratings on Loan to Commonwealth Navies
CHAPTER 73

RATINGS POLICY - LOANS TO AND FROM COMMONWEALTH NAVIES

7301. Royal Australian Navy Ratings Serving with the Royal Navy

a. Advancements and reporting procedures are initiated via the Australian Naval Adviser, Australia House, Strand, London WC2.

b. Advancement notification for Royal Australian Navy (RAN) ratings serving with the RN will be forwarded to the Commanding Officer (CO) concerned, who may then advance the rating subject to a local recommendation. The action taken on receipt of the advancement notification is to be reported to Australia House.

c. When routine reports on RAN ratings serving with the RN are required, the necessary forms will be distributed to all COs with RAN ratings under their command.

d. COs should make any recommendations for advancement on the basis of comparison with RN personnel of similar rate.

e. Completed reports should be forwarded direct to Australia House.

7302. Royal New Zealand Navy Ratings Serving with the Royal Navy

a. The applicable (branch dependent) Performance and Career Review Form, RNZN 184, in respect of Royal New Zealand Navy (RNZN) ratings serving with the RN is to be completed in accordance with the guidance contained in RNZN Form 185. RNZN ratings serving with the RN will provide copies of these forms to their Divisional Officer on joining their ship/unit. Completed RNZN Form 184s are to be forwarded direct to the Naval Adviser, New Zealand Defence Staff, New Zealand House, Haymarket, London SW1Y 4TQ.

b. Advancement Rosters are maintained by the Office of the Captain Fleet Personnel and Training, Naval Support Command, Auckland, New Zealand. When a rating becomes due for advancement, the Advancement Authority will issue a RNZN Form 106 authorising the action.

c. Forms RNZN 106 are sent to the Naval Adviser High Commissioner for New Zealand in London who arranges for the necessary transmission of the forms to the ships and establishments concerned. COs may then advance the ratings subject to a local recommendation. The action taken is to be reported, and the forms returned, to the authorities from which they are received.

d. Should a RNZN rating, serving with the RN, apply to take a professional or leadership examination or CBRNDC (Branch Knowledge) examination for either rostered or non-rostered advancement to Leading Hand or above, advice is to be sought from The Head, New Zealand Defence Liaison Staff, New Zealand House. The rating’s Service Documents should be forwarded in every case. This procedure does not apply to an examination, which is the culmination of any course that the rating is undergoing.
7303. Royal Navy Ratings on Loan to Commonwealth Navies

a. The conditions of promotion/advancement of ratings while on loan to Commonwealth Navies are generally similar to those in the RN.

b. Ratings, whose advancement is not subject to selection procedures, are to be advanced as provided for in accordance with Chapter 68. No reversion will take place on return to the RN.

c. A rating on loan to a Commonwealth Navy, who is eligible for consideration for promotion within the RN, will continue to have a selection dossier maintained and Appraisal Reports will need to be raised by the employing Service. The Commodore Naval Personnel (CNPers) will liaise accordingly. If a rating is subsequently selected for training/promotion during the period of loan service, then reference will be made to the Naval Secretary for communication to the Commonwealth authority concerned so that he/she may receive the higher pay etc of his/her new rate. Should the Commonwealth Navy not require the services of the rating in the higher rate, he/she will be returned to the RN. The higher pay is not payable by the Commonwealth Navy where any promotion involves immediate return to the RN.

d. Local Acting Rate. Any local rate conferred on a rating whilst on loan to a Commonwealth Navy is to be noted on their SJAR. A rating so advanced will revert to the former rate on return to the RN.

e. Report of Promotion/Advancement by Commonwealth Authority. On every occasion of an RN rating being promoted or advanced while serving with a Commonwealth Navy, the CO should forward a certificate to CNPers stating under which of the Paras (Para 7303 sub para b or Para 7303 sub para c) the promotion or advancement was made.

f. Return to the RN. The rate held on return to the RN, after service with a Commonwealth Navy, should be verified by the ship or establishment that the rating joins on return. Where advancement has taken place, enquiry should be made of CNPers as to the retention of the higher rate. In doubtful cases, CNPers is to refer the question to the Navy Command Headquarters Terms of Service Team for a decision.

g. Appraisal Reports. CNPers is to ensure that Appraisal Reports are received for ratings serving with Commonwealth Navies.

CHAPTER 74
ENGINEERING BRANCH – MARINE ENGINEERING

7401. Recommendations
Officers making recommendations for ratings’ advancement, promotion, examination or courses, are to pay due regard to the conditions set out in Para 6901 and Para 6902 sub para d.

7402. Marine Engineering Examinations in the Fleet
   a. All ME Professional Qualifying Certificate, Advancement Examinations and Operational Performance Statement Assessments are to be conducted in accordance with BR 2000(3)(1) and Chapter 69 Section 4.
   b. Fleet Boards may be convened by Commanding Officers of ships, submarines and establishments who must ensure the correct composition of the Fleet Board.
   c. In the event of failure, see Para 6912 and the relevant failure diagram.
   d. For refusal to take a Professional Qualifying Course or mandatory examinations, see Para 6913.

7403. Return from Submarine Service to General Service
   a. Ratings returning to General Service will retain their existing rate, seniority and, where appropriate, base Service Qualification (SQ). They will be required to gain/endorse the watch-keeping qualifications commensurate with their rate, in accordance with BR 2000 (3)(1) Article 0214.
   b. Where ratings have been disrated/reverted prior to transfer, re-advancement will be in accordance with the rules in Chapter 70. Ratings will also be required to pass the relevant General Service career courses on re-advancement.

7404. Titles and Origins of Marine Engineering Ratings
   a. The ME sub-branch comprises Artificers, Mechanics and Engineering Technicians.
b. **Marine Engineering Artificers.** Individuals comprise the following:

| MEA(ML)/(EL) | Artificers on course numbers 753 (CALEDONIA), 751 (COLLINGWOOD) and MQC 01 (SULTAN) onwards, who received electro-mechanical training followed by specialist mechanical (ML) or electrical (EL) training. They are fully operator trained. |
| MEA | Artificer Apprentices who joined HMS SULTAN after 1 Apr 94 and Artificer Candidates who commenced Artificer training after 1 Sep 95 and who are selected for General Service. These Artificers receive common electro-mechanical training and have no SQ. They are fully operator trained. |
| MEA(MSM)/(LSM) | Artificer Apprentices who joined HMS SULTAN after 1 Apr 94 and Artificer Candidates who commenced Artificer training after 1 Sep 95 and who are selected for Submarine Service. These Artificers receive common electro-mechanical training, followed by specialist mechanical (MSM) or electrical (LSM) training. They are all Nuclear operator qualified. |

c. **Marine Engineering Mechanics.** Individuals comprise the following:

| MEM | (1) Mechanics who entered after 1 Apr 94 but commenced Part II training before 6 Sep 98 were designated MEM and received common electrical and mechanical training during MEM2CC/ MEM1CC/ MEMCC. They were designated (M) or (L) prior to LMEMQC on which they received specialist mechanical and electrical training. They have a full Marine Engineering operator capability. Submarine Service Mechanics were also designated (M) or (L) prior to LMEMQC on which they received specialist mechanical or electrical training. They have a full Marine Engineering operator capability. |
| (2) All Mechanics who commenced Part II training after 6 Sep 98 are designated MEM and receive common electrical and mechanical training during MEICC. Submarine Service Mechanics are designated (M) or (L) prior to LMEMQC, on which they receive specialist mechanical or electrical training. They have a full Marine Engineering operator capability. |
| (3) General Service Mechanics who were designated MEM or MEM(L) and completed the common LMEMQC after 1 Sep 99 are designated LMEM. They have no SQ and have common electro-mechanical training and full operator capability. When promoted, they are designated POMEM, CPOMEM or WO1MEM. They will continue to have no SQ but will be streamed into one of three specialist areas by ADQUAL. |

d. **Engineering Technician (ET).** From April 2006, the ME sub-branch new entry consists of two ET sub-specialisations: Marine Engineering and Marine Engineering Submarine (MESM). All ETs receive common electrical and mechanical training during their ETICC. ET(MESM)s are designated either (M) or (L) whilst on LET(MESM) QC and receive specialist mechanical or electrical training. They have a full ME operator capability.
7405. Non-advancement and Re-advancement

a. Ratings who, for reasons of misconduct, incompetence or want of diligence, cannot be advanced or promoted within a reasonable period are to be reported to the Administrative Authority (Annex 54A) so that further retention in the Service can be considered. In cases which are subject to parliamentary correspondence or enquiry, or if the case involves security matters, recommendations are to be forwarded to the Navy Command Headquarters Casework Cell, through the appropriate Administrative Authority (Annex 54A), accompanied by all relevant Service Documents (including Appraisal Reports). The length of a reasonable period in this context must be determined by a rating’s Commanding Officer, having regard to the system of advancement or promotion governing each branch/specialisation. Recommendation should not normally be delayed beyond completion of the following:

1. If a PQE for CPOMEA (now CPOETME/MESM) is not passed within 12 months of the due date in a sea-going position as a POMEA.

2. If PQE for CPOMEA is failed for the third time.

3. If not recommended for advancement:
   12 months after becoming eligible to be advanced to CPOMEA.

4. ET(ME)2 – MEMOC Harbour Taskbook (previously MEMOC A and B Taskbook) not completed in first 6 months of sea service.

5. ET(MESM)2 - MEMOC – MEMOC Parts A and B not completed in first 15 months of sea service.

6. ET(ME)1 – MEMOC Sea-going Taskbook (previously MEMOC C Taskbook) and OPS Assessment not passed on completing 18 months' sea service as an ET(ME)1.

7. ET(MESM)1 – Full MEMOC Taskbook and OPS Assessment not passed on completing 15 months sea service as an ET(MESM)1.

b. Attention is drawn to Chapter 57 with respect to the formal warning of ratings.

c. Re-advancement/promotion. All ratings’ re-advancement or re-promotion following disrating or reversion will be in accordance with Chapter 70. In general, re-advancement or promotion is time based and does not require re-qualification. Those seeking promotion, or requiring two years or more to regain their previous rate, will need to re-qualify in accordance with the regulations given below.
7406. Engineering Technician (Marine Engineering) – Promotion Regulations for Individual Competency Framework (ICF) Trained Ratings

The following rules apply to personnel who entered the RN as an Engineering Technician (Marine Engineer) and completed an Engineering Technician Initial Career Course (ETICC) on or after 23 Jan 15 and ET(ME) personnel who have completed an Individual Competence Framework (ICF) designed next higher rate Qualifying Course (QC).

Promoted to – Warrant Officer First Class Marine Engineering Mechanic (Qualifying Course)
Notes:

1. **Failure to Achieve the Eligibility Criteria for Advancement from ET(ME)2 to ET(ME)1.** For an ET(ME) 2 who is not achieving the eligibility criteria and, therefore, the subsequent recommendation for advancement, see rules at Chapter 749.

2. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD. See ‘BRd 3(1) June 2016 Version 9 Para 6716’.

3. **Display Required Proficiency in Current Rate.** In accordance with competencies laid down in the ICF Competency Matrix and the ICF Competency Levels; achieved within the sea employment space, evidenced within the individual’s CDJ, authorised by HOD.

4. **Competent ET(ME)1s who are assigned to an operational ship with a different equipment fit to that in which the competence was gained.** Competent ET(ME)1s who are assigned to an operational ship with a different equipment fit to that in which the competence was gained must be endorsed by the MEO within 6 months’ sea service (BR 2000(3)(1) Article 0214).

5. **Provisional Examinations.** (BR 2000 (3)(1)):

   a. Prior to undertaking the Provisional Examination, the following pre-requisites are to have been achieved:

      (1) Competent in current rate – Completed all mandated ICF competencies, evidenced within the individual’s CDJ.

      (2) Completed 12 months sea service in current rank, JPA competence recorded iaw Para 5908 and Para 6905.

      (3) Recommendation by Commanding Officer.

   b. On completion of any sitting of a PE, in addition to the competence, the result is to be recorded as either ‘Pass’ or ‘Fail’ in JPA. Failure to record the result will result in automatic sift out action by SCIO for promotion boards.
Notes:

c. Recommendation from sea for FT candidate from LET to POET should be considered for all personnel who have completed the PE for LET with a good pass and demonstrate the technical ability and CLM attributes of a potential senior rating. The recommendation is to be recorded on JPA as ‘ProfessionalFast Track ET CandidateNavy’, with supporting comments included by the 1RO and 2 RO in their next SJAR.

d. If an individual is unable to achieve 12 months sea service prior to attempting their PE due to Service Reasons beyond their control, eg. assigned to a ship in build; they may apply to sit the PE provided that their CO/MEO considers that the individual demonstrates sufficient equivalent experience and meets the technical requirements of the next higher rate. This will be considered by exception via the respective Branch Manager SO2 and, if approved, will allow the individual, if successful at the PE, and qualified in all other respects by CRD, to be presented to the next promotion board and considered for selection to the next higher rank. This does not, however, remove the requirement to complete 12 months’ sea service prior to promotion (CPD), noting that the rules within Chapter 67 remain extant.

6. ET(ME) Stream Preference. The Streaming Preference is to be recorded on JPA as follows:

a. Log on to JPA Self Service.

b. Select - Extra Information Types.

c. Select - Employee Preferences and in the First ‘Comments’ box enter either:

(1) Stream ML (M1) or ML (M3)

or

(2) Stream EL (M2).

d. Click Apply.

(a) The 1RO is to provide supporting evidence in the individual’s SJAR of suitability for the stream.

(b) Do Not enter the streaming preference in any other field. IE Job 1st Preference box as SCIO will not pull the preference through to the promotions board.
Notes:

7. **Recommendation for Promotion.** Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. For promotion up to the rate of PO, Streamlined Eligibility Dates (SED) of 31 Mar, 31 Jul and 30 Nov in any year will apply. If a streamlined promotion candidate has been awarded a positive recommendation for promotion (as above) in the last SJAR and, since that report, has become eligible in all other respects for selection, he/she will be placed before the Promotion Board.

8. **Failure to Complete Professional and/or Leadership Course.** Reference should be made to Para 6714 and 6703 b sub para 4 for rules on the impact on a rating's promotion if he/she fails to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).

9. **Pre-course Learning.** Pre-course learning is to be completed in accordance with the policy of the relevant Training School. Where this is not achieved, the suitability of the individual to undertake the course will be determined on a case by case basis by the Commanding Officer HMS SULTAN.

10. **The suitability of individuals to retake failed elements of the QC or the requirement to be back-classed.** The suitability of individuals to retake failed elements of the QC or be back-classed will be determined by the Commanding Officer HMS SULTAN. A repeat failure of part/all of the course may result in the individual being deselected, continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.

11. **Unsuitable Candidates.** Where, during the period of the Qualifying Course, candidates are found to be unsuitable for promotion to the next higher rate, they may be withdrawn from training by the Commanding Officer HMS SULTAN. In such cases, individuals will be deselected and will continue to serve in the lower rate. They will be eligible for future selection in normal course.
Notes:

12. **Personnel who do not have sufficient length of service remaining to meet the requirement of any Return of Service (RoS) attached to a Qualifying Course (QC).** Personnel must agree on Form S61(Para 5304 sub para f) to serve any extension of service (EoS) that may be required to cover the length of the course and associated ROS. Acceptance of the EOS will be required prior to commencement of the relevant QC.

13. **Refusal to Undertake the QC.** If successful ratings decide to refuse the course, they will be deselected and continue to serve in their current rate.

14. **Qualifying Courses and PE Failures.** For rules regarding failure, see Para 6912.

15. **Award of General Service Marine Engineering Charge Certificate.** The General Service Marine Engineering Charge Certificate will be awarded on successful completion of the WO1QC.

16. **Route to Warrant Officer Marine Engineering Mechanic (Qualifying Course).** Any EGS Mechanic who wishes to access WOETQC in order to achieve the WOCQ of their specialisation will be first required to pass the same Provisional Examination (PE) for Warrant Officer as their ET peers in accordance with the BR 2000 syllabi. To ensure currency and parity in technical and managerial performance, the PE for any Mechanic candidate is to be convened with either a ship-borne or Flotilla engineering SO1 as the Chair. Line Managers of prospective Mechanic candidates are to liaise with Flotillas accordingly. It is anticipated that this scheme will principally attract Chief Petty Officer Mechanics who will clearly be able to broaden their evidence of potential for promotion and future employability if they hold a WOCQ. The route is, however, available to any existing WO1 Mechanic who wishes to pursue the opportunity of holding technical charge in a sea or shore appointment. Under this scheme a Mechanic who has passed the PE for WO1ET, and subsequently been selected for promotion to OR9, will be required to complete both CPOETQC and WOETQC\(^{10}\). This is to ensure all ICF training objectives are satisfied prior to award of the WOCQ.

\(^{10}\) Dependent upon career course content there may be scope to tailor the training package to ensure no repetition of ICF learning objectives between CPO and WO courses. This will be considered on an individual basis by the lead training schools and BM team.
7407. **ET(ME) Fast Track Scheme**

The Fast Track (FT) scheme will afford individuals an accelerated advancement route. Selection will be via a two-stage process with two available entry points; initially at ET and subsequently at LET. This takes account of individuals who develop at differing rates and gives a flexible career path to ensure that career progression through training and employment is better matched to the abilities of our technicians. For full details on the FT scheme, see Para 6808.

7408. **The ME Accelerated Apprenticeship Scheme**

From Nov 16 MEGS Accelerated Apprentices (AA) will join HMS RALEIGH as a Probationary Leading Hand (see Para 6809) until they become a Gain to the Trained Strength (GTS) as an LET on completion of a bespoke training pipeline (see Annex 74F). Once GTS, the AA will be subject to the normal selection process of a LET. The first intake for ESM AA will join HMS RALEIGH in Nov 18; they will be streamed MESM or WESM post SMQ(Dry). The MESM AA pipeline follows that of the UGAS but will finish on completion of the First Shore Training Phase (see Annex 74B). Further detail on the AA scheme can be found at Para 6810. The AA Warnings and Failure policy is laid down at Annex 68A.

7409. **Engineering Technician (Marine Engineering) - Promotion Regulations for Non-ICF Trained Ratings April 2006 to 22 January 2015**

The following rules apply to personnel who have not been trained via an ICF course and legacy Mechanics. On completion of an ICF, qualifying course personnel will transfer to the ICF trained promotion flowchart as detailed at Para 7406.

Promoted to – Warrant Officer First Class Engineering Technician (Marine Engineering)

16 Para 6703 b sub para 6.
17 Para 6703 b sub para 3.
Notes:

1. **For rules regarding failure.** See Chapter 74 Fig 74-1.

2. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD. See Para 6716.

3. **OPS as an ET(ME)1.** OPS as an ET(ME)1 is achieved on successful completion of both the ET(ME)1 OC (MEMOC Sea-going) Task Book and the formal OPS Assessment. Full MEMOC to be completed within 24 months' sea service. The Assessment is to be constituted in accordance with BR 2000(3) (oral aspects only). OPS is to be achieved within 48 months from completion of Phase 2 training.

4. **Competent ET(ME)1s who are assigned to an operational ship with a different equipment fit to that in which the competence was gained.** Competent ET(ME)1s who are assigned to an operational ship with a different equipment fit to that in which the competence was gained must be endorsed by the MEO within 6 months’ sea service (BR 2000(3)(1) Article 0214). Ratings who fail to gain this endorsement will lose the OC qualification and suffer any corresponding pay effects in accordance with JSP 754 until endorsement has been achieved.

5. **ET(ME) Stream Preference.** The Streaming Preference is to be recorded on JPA as follows:

   a. Log on to JPA Self Service.

   b. Select - **Extra Information Types.**

   c. Select - **Employee Preferences** in the First ‘Comments’ box enter either:

      (1) Stream ML (M1) or ML (M3) or Stream EL (M2).

   d. Click Apply.

      (1) The 1RO is to provide supporting evidence of suitability for the stream in the individual’s SJAR.

      (2) **Do Not** enter the streaming preference in any other field. IE Job 1st Preference box as SCIO will not pull the preference through to the promotions board.
Notes:

6. **Failure to complete Professional and/or Leadership Course.** Reference should be made to Para 6714 and 6703 b sub para 4 for rules on the impact on a rating’s promotion if he/she fails to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).

7. **The suitability of individuals to retake failed elements of the QC or to be back-classed.** The suitability of individuals to retake failed elements of the QC or be back-classed will be determined by the Commanding Officer HMS SULTAN. A repeat failure of part/all of the course will result in the individual being deselected; continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.

8. **Refusal.** As is customary in a selection process, successful ratings will have the opportunity of refusing the course. Those doing so will be deselected and continue to serve in their current rate.

9. **Task Books/Study Guides.** Task Books/ Study Guides associated with the higher rate QC are to be completed within 36 months from CPD of the current rate.

10. **Personnel who do not have sufficient length of service remaining to meet the requirement of the return of service attached to a QC.** Personnel may be offered an extension of service (EoS) or Extended Career (EC). Acceptance of the EoS or EC will be required prior to commencement of QC.

11. **OPS Assessment for LET(ME).** OPS assessments for LET(ME) will be constituted in accordance with BR 2000 (3)(3) Chapter 3 (oral aspects only). The date of the OPS Assessment for LET(ME) will be the date of completion of the OPS Assessment having already been awarded the Switchboard Operator’s Certificate and Marine Engineer Officer of the Watch 2 qualification. **OPS is to be achieved within 36 months from CPD.**

12. **Training Return of Service (ROS) for POET(ME)QC.** 24 months training ROS for POET(ME)QC applies (See Chapter 53).

13. **OPS Assessment for POET(ME).** Constituted in accordance with BR 2000 (3)(3) Chapter 4 (oral aspects only). The date of the OPS Assessment for POET(ME) will be the date of completion of the OPS Assessment having already been awarded the professional operator qualification (MEOOWC). **OPS is to be achieved within 36 months from CPD.**
Notes:

14. **Provisional Examinations.** (BR 2000 (3)(1)):

   a. Prior to undertaking the Provisional Examination, the following pre-requisites are to have been achieved:

      (1) Competent in current rate – Completed all mandated competencies iaw ICF Competency Matrix and the ICF Competency Levels, evidenced within the individual’s CDJ.

      (2) Completed 12 months sea service in current rank, JPA competence recorded iaw Para 5908 and Para 6905.

      (3) Recommendation by Commanding Officer.

   b. If an individual is unable to achieve 12 months sea service prior to attempting their PE due to Service Reasons beyond their control, eg. personnel assigned to a ship in build, they may apply to sit the PE provided they have the experience and meet the technical requirements of the next higher rate. This will be authorised by exception via the respective Branch Manager SO1 and will allow the individual, if successful at the PE, and qualified in all other respects by CRD, to be presented to the next promotion board and considered for selection to the next higher rank. This does not, however, remove the requirement to complete 12 months sea service prior to promotion (CPD), noting that the rules within Chapter 67 remain extant.

15. **PE.** For rules regarding failure, see Para 6912 sub para f.

16. **Seniority.** The effective date of promotion will be the CPD having successfully completed the WO1QC. CPOETs who are unable to complete the WO1QC by the CPD for which selected may be entitled to promotion at CPD or backdated promotion on completing the course in accordance with Para 6716.

17. **Failure.** If a candidate fails the WO1QC, then his/her suitability to retake the course or elements therein will be considered by the Commanding Officer HMS SULTAN. A repeat failure of all/part of the course will result in the rating’s de-selection and continuance in the rate of CPOET. Suitability for future WO1QC will be through the selection process and will be dependent on the rating's performance, as shown in an Appraisal Report.
Notes:

18. **Unsuitable Candidates.** Where, during the course of the WO1QC, candidates are found to be unsuitable for promotion to WO1ET, they may be withdrawn from training by the Commanding Officer HMS SULTAN. In such cases, individuals will be deselected and will continue to serve as CPOETs. They will be eligible for future selection in normal course.

19. **Award of General Service Marine Engineering Charge Certificate.** The General Service Marine Engineering Charge Certificate will be awarded on successful completion of the WO1QC.
Figure 74-1 – Rules Regarding Failure

ET(ME)

- ET(ME)2 Operating Certificate (MEMOC in harbour) in first 6 months sea service.
- Not recommended for advancement to ET(ME)1 after 3 years served at ET2.

ET(ME)1 Operating Certificate (MEMOC Full) and OPS Assessment within 48 months from rating ET(ME)2.

LET Qualifying Course

Action in accordance with Chapter 51 Section 2 or Chapter 57 Section 7.

Action in accordance with Chapter 54 Section 7 and Chapter 57 Section 8. Para 6902 sub para c and Para 6912 sub para i.

Action in accordance with Para 6912 sub para i.

LET(ME)

- LET(ME) Task Book.
- Qualification (MEOOW2) within a reasonable period set by MEO with regard to ships' programme.
- OPS Assessment within 36 months from CDP to LET

POET Qualifying Course

Action in accordance with Para 6912 sub para i.

Action in accordance with Para 6912 sub para a to sub para e.

POET(ME)

- POET Professional Operating Qualification (MEOOWC) within a reasonable period set by MEO with regard to ships' programme.
- OPS Assessment within 36 months from CPD to POET.

Action in accordance with Para 6912 sub para i.

a. This article applies to all Marine Engineering Mechanics (MEMs) entered after 1 Apr 79 and MEM(M)s entered before 1 Apr 79. It reflects the changes to training and advancement introduced by Marine Engineering Branch Development. These changes apply to all operator trained MEMs, except where specified otherwise. All MEMs’ re-advancement following disrating/reversion will be in accordance with Chapter 70. Those ratings seeking promotion, or requiring two or more years to regain their previous rate, will do so in accordance with the regulations given below.

b. The rules for advancement/promotion are contained in the following Sections, along with Explanatory Notes and Rules for Failure where appropriate.

PROMOTION FROM POMEM TO WO1MEM (GENERAL SERVICE)

PETTY OFFICER MARINE ENGINEERING MECHANIC

Chief Petty Officer MEM – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a POMEM 12 months prior to the CPD.

b. Hold Marine Engineering Officer of the Watch Certificate (MEOOWC).

c. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (6)).

d. Completed Senior Rates’ Leadership Course (SRLC) (Para 6703 b sub para (4)).

e. Recommended for promotion on Appraisal Report at SED.

Chief Petty Officer MEM – Pre-Promotion Requirements

f. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

g. In date for RNFT, or waiver granted on date due promotion and recorded on JPA as ‘CMS|Fitness Test|Navy’.

Promoted to

CHIEF PETTY OFFICER MARINE ENGINEERING MECHANIC

Warrant Officer 1 MEM – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPOMEM 12 months prior to the CPD.

b. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at SED.
Warrant Officer 1 MEM – Pre-Promotion Requirements

d. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

e. Educationally qualified for promotion in accordance with Para 9613. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competence recorded on JPA.

f. In date for RNFT, or waiver granted on date due promotion and recorded on JPA as ‘CMS|Fitness Test|Navy’.

Promoted to
WARRANT OFFICER 1 MARINE ENGINEERING MECHANIC

7411. Promotion from POMEM(L) to WO1MEM(L) – General Service

PETTY OFFICER MARINE ENGINEERING MECHANIC (L)

Chief Petty Officer MEM(L) – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a POMEM 12 months prior to the CPD (Para 6703b sub para (2)).

b. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (6)).

c. Hold appropriate Professional Qualifying Certificates:

(1) Certificate of Competence (Para 7413).

(2) GS only: Switchboard Operator’s Certificate in accordance with BR 2000 (3)(3).

d. Completed POMEMQC (ratings with a Basic Date after 1 Sep 95).

e. Certificate of Competence (Para 7413).

f. Completed Senior Rates’ Leadership Course (SRLC) (Para 6703 b sub para (4)).

g. Recommended for promotion on Appraisal Report at Common Reporting Date (CRD).
Chief Petty Officer MEM(L) – Pre-Promotion Requirements

h. In date RNFT or waiver obtained on date due promotion.

i. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF MARINE ENGINEERING MECHANIC (L)

Warrant Officer 1 MEM(L) – Pre-Selection Requirements

a. Minimum of 3 years' seniority as a CPOMEM 12 months prior to the CPD.

b. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (6)).

c. Recommended for promotion on Appraisal Report at CRD.

d. In date RNFT or waiver obtained at CRD.

Warrant Officer 1 MEM(L) – Pre-Promotion Requirements

e. In date for Royal Navy Fitness Test (RNFT) or waiver obtained on date due promotion and recorded on JPA as ‘CMS|Fitness Test|Navy’.

f. Educationally qualified for promotion in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competence recorded on JPA.

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 1 MARINE ENGINEERING MECHANIC (L)

7412. Engineering Technician (Marine Engineering Submarine) – Entry from April 2006 – Promotion Flowchart

[The following rules apply to New Entry personnel who entered the Service from April 2006 and legacy Mechanics post higher rate or enabling QCs, who transferred to ET as part of the Branch Development process].

ET(MESM) PROMOTION FLOWCHART
ET(MESM)1 – Advancement Criteria

a. Completed Part 1 New Entry training & Part 2 Career Course (ET(MESM)ICC) (see Notes 1, 19).

b. Completed SMQ.

c. Completed Task Book for ET(MESM)2 (MEMOC A and B) (2). Recorded as JPA competence ‘Professional|Achieved MEMOC(SM) (Parts A and B) (DQ50)|Navy’.

d. Recommended for ET1 by HOD (3).

e. At least 6 months since last career check (if any) on date due advancement.

f. In date for Royal Naval Fitness Test (RNFT) or waiver obtained on date due advancement: recorded on JPA as ‘CMS|Fitness Test|Navy’ (see Note 17).

Advanced to
ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE) 1

LET(MESM) – Pre-Selection Requirements

a. Awarded OPS at ET(MESM)1. Recorded as JPA competency ‘Professional|OPS for ET(MESM)|Navy’ (see Notes 4, 5).

b. Recommended for promotion on Appraisal Report at SED (Para 6703 b sub para (4))

c. Serving on a ES1/FC/OE1 that expires after the nominated Common Promotion Date (CPD) (Para 6703 b sub para (7)).

d. 24 month training ROS for LETQC.

LET(MESM) – Pre-Promotion Requirements

e. Completed LET(MESM) Qualifying Course by nominated CPD+12 months (see Notes 6, 7, 8, 18).

f. Completed NPSC.

g. Completed Leading Rates Leadership Course (LRLC) by nominated CPD and recorded in JPA as ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’ (Para 6703 b sub para (5)) (see Note 18).

h. In date for RNFT, or waiver granted on date due promotion: recorded on JPA as ‘CMS|Fitness Test|Navy’ (Para 6703 b sub para (9)) (see Note 17).

i. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).
j. To be educationally qualified for promotion (EFP) in accordance with Para 9636 and recorded in JPA as ‘Educational|RN/RM QELH/Cpl|Navy’.

**POET(MESM) – Pre-Selection Requirements**

a. Completed LET(MESM) Task Book (see Note 9).

b. Hold Professional Qualifying Certificates (Submarine Control Console Operator (SCCOP), Cat C Watch Keeper and Shut Down Supervisor).

c. Awarded OPS at LET(MESM). Recorded as JPA competency ‘Professional|OPS for LET(MESM) DQ40|Navy’ (see Note 10).

d. Recommended for promotion on Appraisal Report at SED. (Para 6703 b sub para (4))

e. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

f. 36 months training ROS for POETQC applies (see Chapter 53) (see Note 11).

**POET(MESM) – Pre-Promotion Requirements**

g. Completed POET(MESM) Qualifying Course by nominated CPD+12 months (see Notes 6, 7, 18).

h. Completed NPOC.

i. Completed Senior Rates Leadership Course (SRLC) by nominated CPD and recorded in JPA as ‘Miscellaneous|Senior Rate Leadership Course (RNLA 103)|Navy’ (Para 6703 b sub para (5)) (see Note 18).

j. In date for RNFT, or waiver granted on date due promotion: recorded on JPA as ‘CMS|Fitness Test|Navy’ (17) (Para 6703 b sub para (9) (see Note 17)

k. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

l. To be EFP in accordance with Para 9636 and competence recorded on JPA “Educational|RN/RM QEPO/Sgt|Navy”.

</table>
CPOET(MESM) – Pre-Selection Requirements

a. Completed Post Course Study Guide (see Note 9).

b. Hold Professional Qualifying Certificates Cat B Watch Keeper with 6 months operating expertise as a NRPO/NMCDO and/or NMETOW but qualified as both.

c. Passed OPS Assessment and recorded on JPA as Professional|OPS for POET(MESM) DQ31|Navy (see Note 12).

d. 12 months sea service as a POET(MESM), recorded as ‘CMS|12 Months Sea Time PO|Navy’.

e. Minimum of 3 years’ seniority as a POET 12 months prior to the CPD (Para 6703 b sub para (3)).

f. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

g. Recommended for promotion on Appraisal Report at SED (Para 6703 b sub para (4)).

CPOET(MESM) – Pre-Promotion Requirements

h. Completed NPSupC.

i. Qualified professionally (qualified Cat A2 Watch Keeper).

j. In date for RNFT, or waiver granted on date due promotion: recorded on JPA as ‘CMS|Fitness Test|Navy’ (17) (Para 6703 b sub para (9) (see Note 17).

k. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to

CHIEF PETTY OFFICER ENGINEERING TECHNICIAN
(MARINE ENGINEERING SUBMARINE)

WO1ET(MESM) – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as CPOET(MESM) 12 months prior to CPD – this includes all substantive WO2ET(MESM)s.

b. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD (Para 6703 b sub para (4)).
WO1ET(MESM) – Pre-Promotion Requirements

d. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

e. In date for RNFT, or waiver granted on date due promotion: recorded on JPA as ‘CMS|Fitness Test|Navy’ (Para 6703 b sub para (9) (see Note 17).

f. EFP in accordance with Para 9636.

Promoted to
WARRANT OFFICER 1 ENGINEERING TECHNICIAN
(MARINE ENGINEERING SUBMARINE)
Notes:

1. All new entrants are rated Engineering Technician (Marine Engineering Submarines) 2 (ET(MESM)2) on entry.

2. The ET(MESM) Task Book (MEMOC) will be issued on completion of Part 2 training (ET(MESM) career course).

3. On completion of ET(MESM) Task Book (Parts A and B), and on being recommended, ratings will be advanced to ET(MESM)1. Failure to complete ET(MESM) Task Book parts A and B within 15 months sea service should result in individuals being placed on warnings for discharge shore in accordance with Chapter 54 Section 7, unless extenuating circumstances exist.

4. Full MEMOC C is no longer required prior to undertaking OPS Assessment for ET(MESM). Prior to undertaking OPS Assessment for ET(MESM) the candidate must have completed: MEMOC(SM) Parts A and B Taskbook (tasks 2.1 to 2.3 and 4 to 8) and either any Cat D at sea watchkeeping position and Shutdown Watchkeeper or Submarine Control Console Junior Rate and Submarine Control Console Watchkeeper. The Assessment is to be constituted in accordance with BR 2000(3) series (oral aspects only). Failure to achieve OPS (competence in the current rate) at ET1 within 18 months sea service as an ET(MESM)1 should result in individuals being placed on warnings for discharge shore in accordance with Chapter 54 Section 7, unless extenuating circumstances exist. Full MEMOC C should be completed prior to assignment to LET(MESM) QC.

5. ET(MESM)1s who have been awarded a OPS and who are assigned to an operational submarine with different equipment fit to that in which the OC was gained need to re-qualify in the part of the ship to which they are assigned. Ratings who fail to gain this endorsement will lose the ET(MESM)1 OPS qualification and suffer any corresponding pay effects in accordance with JSP 754.

6. Selection Boards will be convened up to 3 times a year and the results of successful candidates announced on completion. ACOS(PCap) will assign selected personnel to Qualifying Courses (QC) starting in the next training term but one.

7. The suitability of individuals to retake failed elements of the QC, or to be back classed, will be determined by the Commodore DCTT. A repeat failure of part/all of the course will result in the individual being deselected; continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.
Notes:

8. Personnel selected for LET(MESM) QC will be streamed for either mechanical or electrical training, by a Selection Board whilst on the QC, with the following factors taken into consideration:

   a. **Aptitude.** The Selection Board will have access to the ratings’ technical and academic performance on their Part II training phase and performance whilst on the Common elements of the LET(ME) QC will be considered.

   b. **Commanding Officer’s Recommendation.** Commanding Officers will be required to make a recommendation for sub-specialisation based on current performance and previous reports. Implicit in this requirement will be the need for Divisional Officers to comment, where appropriate, on a rating’s aptitude for sub-specialisation training and employment in their SJAR.

   c. **Personal Preference.** Ratings will be required to state their preference for sub-specialisation. However, the needs of the Service are paramount and selection of first preference sub-specialisation cannot be guaranteed.

   d. **Service Requirement.** The ESM Branch Manager will advise the Selection Board of streaming requirements.

After selection, ratings will complete the appropriate training as part of their training pipeline. Ratings who do not wish to accept their nominated stream will be considered to have refused the higher rate QC and will remain at the lower rate.

9. The Task Books/Study Guides associated with the higher rate training pipeline are to be completed within 12 months’ sea service after the QC.

10. The OPS Assessment for LET(MESM) will be constituted in accordance with BR 2000(3) series (oral aspects only). The date of the OPS award for the LET(MESM) will be the date of completion of the OPS Assessment having already passed the professional operator qualifications (SCCOP, Cat C and shut down supervisor qualification). OPS is to be achieved within 18 months’ sea service.

11. Personnel who do not have sufficient length of service remaining to meet the requirement of the return of service attached to the POETQC may be offered an extension of service (EoS) or Extended Career (EC). Acceptance of the EoS or EC will be required prior to commencement of POETQC.
**Notes:**

12. The OPS Assessment for POET(MESM) will be constituted in accordance with BR 2000 (3) series (oral aspects only). The date of the OPS award for the POET(MESM) will be the date of completion of the OPS Assessment having already passed the professional operator qualification (Cat B qualification to be achieved within 12 months’ sea service).

The following is applicable only to ex-mechanics (all rates) transferring to ET(MESM):

   a. The minimum level of professional watch keeping requirement for the next higher rate is as stated at Table 74-3.

   b. Ex POMEM prior to branch transfer. Cat D POMEMs will be required to undertake NPSC as part of the POET training pipeline. Cat C POMEMs will not be required to achieve OPS at POET before being eligible for promotion to CPOET – see Para 7407, Note 12.

   c. Ex CPOMEM prior to branch transfer. Cat D CPOMEMs will be required to undertake NPSC as part of the POET training pipeline. Before their second full sea assignment after being rated CPOET(MESM), ex-CPOMEMs will undertake NPOC.

13. **Refusal.** As is customary in a selection process, successful ratings will have the opportunity of refusing the course. Those doing so will be deselected and continue to serve as a CPOET.

14. **Unsuitable Candidates.** Where, during the course of the WO2QC, candidates are found to be unsuitable for promotion to WO2ET, they may be withdrawn from training by the Commodore DCTT. In such cases, individuals will be deselected and will continue to serve as CPOETs. They will be eligible for future selection in normal course.

15. **Award of Submarine Service Marine Engineering Charge Certificate.** The Submarine Service Marine Engineering Charge Certificate will be awarded the NCOW Certificate on successful completion of the NCOW training.

16. Deliberately left blank.
Notes:

17. **RNFT.** Ratings are to be in date RNFT, proactively engaged in remedial fitness training or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD (see Para 6718 and Para 6703 b sub para (9) for the required JPA competence).

18. **Failure to complete Professional and/or Leadership Course.** Refer to Para 6716 for rules on the impact on a rating’s promotion if he/she fails to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).

19. **ET(MESM) – Rules Regarding Failure.** See Fig 74-3.
Fig 74-2. ET(MESM) – Rules Regarding Failure

**MESM**

SMQ/ET(MESM) Career Course.

Action in accordance with Chapter 54 Section 6 and Chapter 57 Section 8. Para 6902 sub para c and Para 6912 sub para i.

Action in accordance with Para 6912 sub para i.

Action in accordance with Para 6912 sub para a to sub para e.

Action in accordance with Para 6912 sub para a to sub para e.

Action in accordance with Para 6912 sub para i.
7413. **Marine Engineering Mechanics Submarine Service - Operator Trained**

a. This article applies to all MEMs entered after 1 Apr 79 and MEM(M) and Nuclear Stream MEM(L)s entered before 1 Apr 79. It reflects the changes to training and advancement introduced by Marine Engineering Branch Development. These changes apply to all operator trained MEMs, except where otherwise specified. All MEMs’ re-advancement following disrating will be in accordance with Chapter 70. Those ratings seeking promotion, or requiring two or more years to regain their previous rate, will do so in accordance with the regulations given below.

b. The rules for advancement are contained in the following Sections, along with Explanatory Notes and Rules for Failure as appropriate.

c. Ex-MESM mechanics should not be penalised financially for electing not to transfer to the ET structure. To that end the LET(MESM)(OPS) and POET(MESM)(OPS) may, exceptionally, be awarded to ex-LMEMs and ex-POMEMs ‘for pay purposes only’ providing that the criteria laid out below are met:

(1) Personnel who on Vesting Day held the LMEM(SM) or POMEM(SM) OPS competence are to be awarded the LET(MESM) or POET(MESM) Competence with effect from 31 Mar 07.

(2) Ex-LMEMs who did not hold the relevant LMEM(SM) competence but have operated at sea as a Cat D\(^{18}\) and Shutdown Watchkeeper\(^{19}\) may be awarded the LET(OPS) from the date of achieving their last professional watchkeeping qualification or on passing their PQE for POMEM, whichever is the earlier.

(3) Ex-LMEM(SM)s who were promoted to POMEM(SM) after Vesting Day may be awarded the POET(OPS) from the point of qualification as Cat C/Ship Control Console Operator or Shutdown Supervisor/Duty Forward Technical Senior Rate\(^{20}\), whichever is the later.

(4) Ex-POMEMs who did not hold the relevant POMEM(SM) competence but have operated at sea may be awarded the POET(OPS) from the point of qualification as Cat C/Ship Control Console Operator or Shutdown Supervisor/Duty Forward Technical Senior Rate\(^{21}\), whichever is the later.

(5) In order to prevent individuals being incorrectly presented to promotion boards, the following caveat is to be put as a note against the award of either the LET(SM) OPS or POET(SM) OPS by Unit HR/CMC:

> ‘This has been awarded to an Ex-MEM for pay purposes only; this note is only to be removed, and ANR made eligible for promotion, on the authority of RM SO2 MESM 93832 8788’.

---

\(^{18}\) MMS LL, TCPO, DGRM Wkr, AMS2 Wkr.

\(^{19}\) Or forward watchkeeper and Duty Forward Technical Junior Rate.

\(^{20}\) ie. Cat C and Shutdown Supervisor for an aft watchkeeper or Ship Control Console Operator and Duty Forward Technical Senior Rate for a forward watchkeeper.

\(^{21}\) ie. Cat C and Shutdown Supervisor for an aft watchkeeper or Ship Control Console Operator and Duty Forward Technical Senior Rate for a forward watchkeeper.
d. Once an Ex-MEM has trained and achieved OPS as an ET at either the LET or POET level the note against the award of competence may be removed and the individual made eligible for promotion to the next rank. This is only to be executed on the authority of RM SO2 MESM.

**SECTION I – PROMOTION FROM LEGACY LMEM TO POET(MESM)**

[The interim rules for personnel who completed legacy Career/Qualifying Courses prior to Branch Development and the introduction of the ET have been archived with the Navy Command Headquarters Terms of Service Team]

**SECTION II – PROMOTION FROM POMEM(SM) TO WO1MEM (SM)**

**PETTY OFFICER MARINE ENGINEERING MECHANIC SM**

**Chief Petty Officer MEM – Pre-Selection Requirements**

a. Minimum of 3 years' seniority as a POMEM 12 months prior to the CPD. (Para 6703 b sub para (3))

b. Qualify Cat C and MRSDS/SCCOP. (1) For options for further nuclear training (see Note 2)

c. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7))

d. Completed Senior Rates Leadership Course (SRLC). (Para 6703 b sub para (5))

e. Recommended for promotion on Appraisal Report at SED.

**Chief Petty Officer MEM – Pre-Promotion Requirements**

f. In date for RNFT, or waiver granted on date due promotion: recorded on JPA as ‘CMS|Fitness Test|Navy’ (17). (Para 6703 b sub para (9))
At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER MARINE ENGINEERING MECHANIC SM

Warrant Officer 1 MEM – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPOMEM 12 months prior to the CPD.

b. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at SED.

Warrant Officer 1 MEM – Pre-Promotion Requirements

d. Educationally qualified for promotion in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competence recorded on JPA.

e. In date for RNFT, or waiver granted on date due promotion: recorded on JPA as ‘CMS|Fitness Test|Navy’ (see Note 17) (Para 6703 b sub para (9).

f. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 1 MARINE ENGINEERING MECHANIC SM
Notes:

1. The majority of ratings, on completion of POMEM Qualifying Course, will be assigned to a Cat C position and complete Nuclear Propulsion Systems Course (NPSC) as a PJT. Where a requirement exists, ratings assigned to a Submarine Control Console Operating Panel (SCCOP) position will complete the appropriate PJT (ME412). Failure to qualify as Cat C or SCCOP by the end of a 6 month period in a sea-going unit will result in disrating action being taken in accordance with Para 7005.

2. Following qualification as Cat C Watchkeeper and Shut Down Supervisor (MRSDS) and dependent on achieving the appropriate recommendations, ratings have the opportunity to undertake further nuclear training and qualify as a Cat B and Cat A2 Watchkeeper. Noting that Senior Rate Marine Engineering Mechanics (SRMEM) will now complete the same operator training as artificers, the selection process for mechanics to undertake further nuclear training has been rationalised as detailed below:

a. On satisfactory completion of the NPSC, the Course Manager, HMS SULTAN, is to record in the rating’s appraisal report their suitability for further nuclear training and also annotate the rating’s record of Nuclear training (S1245A) accordingly.

b. SRMEM who have been employed as a qualified Cat C Watchkeeper for a minimum of 6 months in a sea-going position and qualified as a Manoeuvring Room Shutdown Supervisor for at least three months are eligible for selection for Nuclear Propulsion Operators Course (NPOC) and the CPOET(MESM) Career Course.

c. The recommendation to undertake NPOC and the CPOET(MESM) Career Course is made by the Commanding Officer, (provided the rating has gained the recommendation for further nuclear training from NPSC Course Manager - recommendation recorded on the ratings record of nuclear training (S1245A)).

d. The NPOC selection procedure for personnel who have completed NPIC (or NPSC without receiving a recommendation for further nuclear training on course) is as follows:

(1) A Commanding Officer’s letter of recommendation is to be sent to HMS SULTAN (for attention of the Senior Engineer Nuclear (SEN)), copy to the appropriate Flotilla Waterfront Organisation (FWO), requesting the convening of an NPOC Selection Board.
Notes:

(2) The NPOC Selection Board will be presided over by a suitably qualified Nuclear Marine Engineer Officer (from the staff of HMS SULTAN) nominated by SEN HMS SULTAN. The Board syllabus will be provided prior to the Board and is also available on request from the SEN.

(3) The following Service Documents are to be forwarded to HMS SULTAN (for attention of the SEN) for scrutiny by the Board:

(a) Copies of Appraisal Reports from the last 3 years.

(b) S1245A - Record of Nuclear Training.

(c) Other documents relevant to academic qualifications and standards.

(4) The result of the Selection Board will be communicated by letter to the rating’s Commanding Officer, with a copy sent to FWO and ACOS(PCap). Successful candidates are then to raise an electronic Form “Application for a Particular Course or Assignment” which can be found at the following link: Defence Intranet | Library | Course Assignment Application Form.

e. Selection of the SRMEM to attend NPOC and the CPOET(MESM) Career Course will be made by ACOS(PCap) on receipt of an application in accordance with the requirement. The application must also state whether the rating wishes to complete their MTA before going back to sea service as a trainee Cat B or whether they wish to forfeit MTA and complete NPOC and the CPOET(MESM) Career Course as soon as possible. The application should be submitted prior to leaving sea service so that long term planning can be achieved.

f. On satisfactory completion of the NPOC and the CPOET(MESM) Career Course, the Course Manager, HMS SULTAN, is to record suitability for further nuclear training in the rating’s appraisal report and sign Form S1245A. Promotion is not conditional on achieving a Cat B nuclear watchkeeping qualification.

g. Confirmed CPOMEMs who have been employed as a qualified Cat B Watchkeeper for a minimum of six months in a sea going position and have qualified in both Cat B watchkeeping positions are eligible for selection for the NPSupC.
Notes:

h. The recommendation to undertake NPSupC is made by the Commanding Officer on the ratings Appraisal Report (provided the rating has gained the recommendation for further nuclear training from NPOC Course Manager) and recorded on the ratings record of nuclear training (S1245A).

i. Selection to attend NPSupC will be conducted by a Selection Board (at ACOS(PCap)) and will comprise three officers, at least two of whom will be ME Submarine Service Officers. It will sit annually in the autumn and follow the Promotion Board for the selection of WO2ET(MESM)s. Following selection for NPSupC, ratings are to submit an application stating their preferred Submarine Class in priority order. The application must also state whether the rating wishes to complete their MTA before going back to sea service as a trainee Cat A2 or whether they wish to forfeit MTA and complete NPSupC as soon as possible. The application should be submitted prior to leaving sea service so that long term planning can be achieved.

SECTION III – PROMOTION FROM LEGACY CPOMEM(SM) TO WO21ET (MESM)

CHIEF PETTY OFFICER MARINE ENGINEERING MECHANIC (SUBMARINE)

[The following are interim rules for personnel who completed legacy Career/Qualifying Courses prior to branch development and the introduction of the ET. Since Oct 09, NPSupC/WO2 Boards have considered all CPO Mechanics who meet the pre-selection criteria for WO2ET(MESM) at Para 7408 and who wish to transfer to the ET(MESM) specialisation, for selection to NPSupC (see Note 1). Promotion thereafter to WO1ET will be in accordance with Para 7407. Those who do not wish to transfer to become a Technician are considered for the NPSupC course only and will remain subject to the promotion system to WO1 Mechanic, as described at Para 7411 Section II (see Note 2 and Note 3) below]

<table>
<thead>
<tr>
<th>Selected for</th>
<th>NPSupC</th>
</tr>
</thead>
</table>

CPOET(MESM) – Pre-Transfer Requirements

Completed NPSupC. (5)

<table>
<thead>
<tr>
<th>Transferred to</th>
<th>CHIEF PETTY OFFICER ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE)</th>
</tr>
</thead>
</table>

[The seniority date for a transferee is the date on which the above criteria are fulfilled. Promotion thereafter as per Para 7407]
Notes:

1. Following the selection signal for NPSupC, all selected CPO Mechanics are required to advise the Career Manager in writing, prior to commencement of the course, whether they wish to take up the offer of transfer or wish to remain in the Mechanic stream.

2. Ratings who do not wish to take up the offer of transfer will undertake the duties of a Category A2 Watchkeeper as a CPO(MEM). It must be noted that individuals who elect to decline the offer of a transfer to the ET specialisation before the course are not able to rescind the decision once they commence the course and will have no further opportunity to transfer.

3. Ratings have the opportunity of refusing to attend the course and/or the offer to transfer to the ET specialisation. This will be possible up until the day before the course commences.

4. Personnel who fulfil all other pre-selection criteria may be selected for NPSupC with less than 3 years seniority as a CPO. They may still elect to transfer to the ET specialisation prior to starting course, see Note 1, and will then be substantively promoted on fulfilling the pre-promotion criteria laid out above.

5. Individuals who accept the offer of a transfer to the ET specialisation will be rated CPOET(MESM) on the day following successful completion of the NPSupC. From commencement of the course, they will forfeit their rights to selection to WO1(MEM) as laid out in Para 7411.

6. Any rating who qualifies as a Category A2 Watchkeeper but fails to meet any of the other remaining criteria will remain as a CPOET until these are met. They may, however, be eligible to receive substitution pay for the higher rate in accordance with JSP 754 (Tri Service Regulations for Pay and Charges) Chap 3 Section 8.

7. If, having completed NPSupC and transferred to the ET specialisation, a rating fails to qualify as a Category A2 Watchkeeper and is therefore deemed unsuitable for promotion to WO2 under this scheme by their Commanding Officer, they will remain as a CPOET, will forfeit this offer of promotion to WO2 and will be subject to normal selection rules for promotion to WO2 in the future.
7414. Petty Officer Marine Engineering Mechanics (MESM) converted to POET (MESM)

POMEMs who have chosen to convert to POET will be promoted to CPOET as follows:

**PETTY OFFICER ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE)**

### CPOET(MESM) – Pre-Selection Requirements

- **a.** Completed Post Course Study Guide.
- **b.** Qualified Cat C and SDS.
- **c.** 12 months’ sea service as a POET(MESM)/POMEM.
- **d.** Minimum of 3 years’ seniority as a POET (Including time spent as a POMEM) 12 months prior to the CPD (Para 6703 b sub para (3))
- **e.** Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7))
- **f.** Recommended for promotion on Appraisal Report at SED.

### CPOET(MESM) – Pre-Promotion Requirements

- **g.** In date for Royal Naval Fitness Test (RNFT) or waiver obtained on date due promotion: recorded on JPA as ‘CMS|Fitness Test|Navy’.
- **h.** At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

**Promoted to:**

**CHIEF PETTY OFFICER ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE)**

**Notes:**

1. In order to ensure that POETs who have converted from the mechanic stream in the rate of PO are not disadvantaged against their POMEM counterparts; Cat B qualified POETs converted from MEM may be rated local acting CPOET if qualified in all respects, when employed in an OR7 position in accordance with Para 6915 sub para d.

2. **Rules Regarding Failure.** The following rules regarding failure are only applicable for the legacy mechanic rate. On selection for promotion for a higher ET Qualifying Course, the failure policy will be in accordance with the ET rules regarding failure.
7415. **Certificates of Competence for Non-operator Trained Ratings**

a. Certificates of Competence are required as a pre-requisite for certain stages of promotion by non-operator trained ratings.

b. These Certificates are annotations on ratings’ History Sheets by Marine Engineer Officers stating that such ratings are professionally competent to undertake and perform the duties of the rate to which they are being promoted.

c. They are normally to be signed just prior to a rating being promoted but also be completed for ratings on assignment who are otherwise fully qualified for promotion and could expect to be promoted within three months of being assigned. If the Certificate is not signed for a rating so qualified on assignment, an explanation must be given on the Appraisal Report.

7416. **Undergraduate Apprentice Scheme (UGAS) (MESM) – New-to-Service Promotion Flowchart**

a. The following rules apply to New-to-Service candidates who enter the Service under UGAS(MESM). The rules for In Service UGAS(MESM) applicants accepted onto UGAS(MESM) can be found at Para 7417.

b. Details of UGAS(MESM) are laid down in the scheme CONOPS held by the UGAS(MESM) Manager. An overview of the scheme is included at Annex 74A and the scheme CONOPS at Annex 74B.

c. New to Service UGAS(MESM) ratings join the service as probationary Leading Engineering Technicians and are advanced as follows:
LET Substantiation Criteria

a. Educationally qualified for promotion in accordance with Para 9636. Achieved minimum NAMET 5:5 or Level 1 Functional Skills (or equivalent) in English and Mathematics and competence "Educational|RN/RM QELH/Cpl|Navy|" recorded on JPA.

b. Completed Leading Rates Leadership Course (LRLC) (Para 6703 b sub para (5)) (see Note 1).

c. Completed LET (MESM) Qualifying Course (see Note 1).

d. RNFT status is in accordance with RN policy for promotions (see Note 2).

e. At least 6 months since last Career Check (if any) on date due advancement.

f. Passed LET Propulsion Electrical Maintainers Course or LET Propulsion Mechanical Maintainers Course.

g. Recommended for advancement to LET.

h. Started ME301 Nuclear Propulsion Systems Course.

Substantiated as LET(MESM)

POET Advancement Criteria

a. EFP in accordance with Para 9636. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at SED and competence "Educational|RN/RM QEP/O/Sgt|Navy|" recorded on JPA.

b. Completed POET(MESM) Qualifying Course (see Note 1).

c. Completed NPOC (see Note 1).

d. Completed Senior Rates Leadership Course (SRLC) (Para 6703 b sub para (5)) (see Note 1).

e. RNFT status is in accordance with RN policy for promotions (see Note 2).

f. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

g. Qualified Category D Watchkeeper.

h. Qualified and served at least 6 months as a Category C Watchkeeper.

i. Qualified and served at least 3 months as a Shutdown Supervisor.
j. Recommended for advancement to POET.

k. Qualified Category B Watchkeeper.

Advanced to
POET(MESM)

Thereafter promotion will be in accordance with ET(MESM) regulations at Para 7406.

*Note:*

1. **Failures and Removal.** Failure of any one of the UGAS(MESM) pipeline courses or training targets will be dealt with in accordance with the UGAS(MESM) Failure Criteria laid down in the scheme CONOPS which can include removal from the scheme. On removal from the scheme, ratings are transferred to an appropriate point in the standard ET(MESM) pipeline. Probationary LETs will be re-rated at ET1s. Ex UGAS(MESM) candidates will then only be eligible for promotion to LET or POET on selection in accordance with Para 7406 and will have no further opportunity to be considered for UGAS(MESM).

2. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate SED/CRD/CPD (see Para 6718 and Para 6703.b(9) for the required JPA competence).

### 7417. Undergraduate Apprentice Scheme (UGAS) (MESM) – In-service Promotion Flowchart

a. The following rules apply to In-Service UGAS(MESM) applicants accepted onto UGAS(MESM). In-service candidates join the scheme at a point commensurate with their training/experience. Their rate is the higher of the following factors:

   1. The rate held immediately prior to joining UGAS(MESM).

   2. The rate commensurate with their starting point in the UGAS(MESM) pipeline (see Note 1).

b. Details of UGAS(MESM) are laid down in the scheme CONOPS held by the UGAS(MESM) Manager. An overview of the scheme is included at Annex 74A and the scheme CONOPS at Annex 74B.

c. In Service UGAS(MESM) ratings are advanced as follows:

**ET2(MESM)**
ET1 Advancement Criteria

a. Completed SMQ (see Note 2).

b. Recommended for advancement to ET1.

c. RNFT status is in accordance with RN policy for promotions (see Note 3).

d. At least 6 months since last Career Check (if any) on date due advancement.

Advanced to
ET1(MESM)

LET Advancement Criteria

a. Educationally qualified for promotion in accordance with Para 9636. Achieved minimum NAMET 5:5 or Level 1 Functional Skills (or equivalent) in English and Mathematics and competence "Educational|RN/RM QELH/Cpl|Navy|" recorded on JPA.

b. Completed Leading Rates Leadership Course (LRLC) (Para 6703 b sub para (5)) (see Note 2).

c. Completed LET (MESM) Qualifying Course (see Note 2).

d. RNFT status is in accordance with RN policy for promotions (see Note 3).

e. At least 6 months since last Career Check (if any) on date due advancement.

f. Passed LET Propulsion Electrical Maintainers Course or LET Propulsion Mechanical Maintainers Course.

g. Recommended for advancement to LET.

h. Started ME301 Nuclear Propulsion Systems Course.

Advanced to
LET(MESM)

POET Advancement Criteria

a. EFP in accordance with Para 9636. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at SED and competence "Educational|RN/RM QEPO/Sgt|Navy|" recorded on JPA.

b. Completed POET(MESM) Qualifying Course (see Note2).

c. Completed NPOC (see Note 2).
d. Completed Senior Rates Leadership Course (SRLC) (Para 6703 b sub para (5)) (see Note 2).

e. RNFT status is in accordance with RN policy for promotions (see Note 3).

f. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

g. Qualified Category D Watchkeeper.

h. Qualified and served at least 6 months as a Category C Watchkeeper.

i. Qualified and served at least 3 months as a Shutdown Supervisor.

j. Recommended for advancement to POET.

k. Qualified Category B Watchkeeper.

<table>
<thead>
<tr>
<th>Advanced to POET(MESM)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Thereafter promotion will be in accordance with ET(MESM) regulations at Para 7406.</td>
</tr>
</tbody>
</table>

Notes:

1. Promotion. In Service applicants remain eligible for selective promotion to LET until they become a UGAS(MESM) Candidate. Once selected as a UGAS(MESM) candidate they will not be presented to an LET Promotion Board although any extant selection for promotion will remain valid if it occurs earlier than advancement under UGAS(MESM).

2. Failures and Removal. Failure of any one of the UGAS(MESM) pipeline courses or training targets will be dealt with in accordance with the UGAS(MESM) Failure Criteria laid down in the scheme CONOPS which can include removal from the scheme. On removal from the scheme, ratings are transferred to an appropriate point in the standard ET(MESM) pipeline. Probationary LETs will be re-rated at ET1. Ex UGAS(MESM) candidates will then only be eligible for promotion to LET or POET on selection in accordance with Para 7406 and will have no further opportunity to be considered for UGAS(MESM).

3. RNFT. Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate SED/CRD/CPD (see Para 6718 and Para 6703.b(9) for the required JPA competence).
7418. **Submarine Service - Career on a Page**

a. The purpose of the Career on a Page is to provide a quick look at possible career progression to enable informed decisions to be made. Timelines are indicative averages and are always subject to change. Master documents should always be consulted to ensure that the latest information is available.

b. Ratings are advised to liaise with their Reporting Officer regarding any decisions concerning their careers prior to contacting the Branch or Career Manager. Career Managers for Senior Ratings are located at HMS EXCELLENT, West Battery; Junior Ratings Career Managers are located in the Naval Base Career Management Cells (CMC).

c. Information pertaining to Ratings training pipeline is contained within the Marine Engineering branch (SM) Career on a Page. Information relating to allowances and benefits available during a career is shown in the Table below.

d. Ratings seeking promotion to the Officer Corps can do so via the Upper Yardman (UY) or Senior Upper Yardman (SUY) schemes, details of which may be found in Chapter 50.

e. **Optional Exit Points,** Ratings in receipt of RRP(SM) may be eligible to submit an Optional Exit Point application which will enable them to leave the service at an earlier point than their current Termination Date, without any loss of RRP; full details may be found in Annex 54K.

Gained Trained Strength
Forces Help To Buy Available (JSP 484)
Minimum time served (2 yrs from GTS) by Early Termination (ET) (option to submit 12 months notice from this point onwards), if notice is submitted via ET, RRP will cease

CMI L5 Certificate in Management & Leadership Engineering Foundation Degree
3 Years RoS from completion of course

BEng (Hons)

Note: At the end of the scheme, candidates have the following options:
1. If an AIB pass has been achieved and candidates are selected, join BRNC as a prospective MESM Engineering Officer.
2. Request to transfer to the standard ET career pipeline and continue progression with the ET (MESM) career
3. Leave the Service
ANNEX 74A

UNDER-GRADUATE APPRENTICESHIP SCHEME MARINE ENGINEER (SUBMARINES),
UGAS(MESM) OVERVIEW

1. The Undergraduate Apprenticeship Scheme (UGAS) aims to significantly accelerate the advancement of appropriately able and specifically recruited ET candidates to qualify and serve as POET Operator and Maintainers on submarines. During SMQ training, the scheme will stream candidates as either Marine Engineer (Submarines) technicians under UGAS(MESM) or Weapon Engineer (Submarines) technicians under UGAS(WESM).

2. UGAS has two different categories of membership, ‘new-to-service’ and ‘in-service’. The scheme is primarily designed to attract new-to-service members, although it has invited applications from in-service candidates. Opportunities for in-service personnel to apply are promulgated by RNTM when in-service places become available.

3. UGAS(MESM) involves a commitment of approximately 8½ years from new-to-service candidates which can be summarised as follows:
   a. Four years (approx) of Initial Training, SMQ, LET(MESM) and POET(MESM) career/specialist courses. It also includes some sea experience as a qualified LET(MESM), i.e. qualified Category C Watchkeeper.
   b. Approximately 3½ years sea-service, which must include a minimum of 3 years qualified service as a POET (MESM), i.e. qualified Category B Watchkeeper.
   c. One year in-service BEng(Hons) Engineering Degree at the University of Portsmouth.

4. At the end of the scheme, candidates have the following options:
   a. Request to transfer to the standard ET career pipeline and continue progression with the ET(MESM) cadre.
   b. If an AIB pass has been achieved during the engagement and they are selected, join BRNC as a prospective MESM Engineer Officer.
   c. Leave the Service in accordance with the Tailored Career Contract. Note the BEng degree does not incur a Return of Service for UGAS(MESM) candidates.

5. Candidates are required to inform their Career Manager of their end of scheme option prior to the start of their University degree.

6. Recruitment of UGAS(MESM) Candidates
   a. The recruitment process for UGAS candidates is detailed at Para 0914. Candidates join as ESM and are streamed MESM or WESM during SMQ training.
   b. New-to-service members join the Service on a Tailored Career Agreement (Example at Annex 74C).
7. **Assignment of UGAS(MESM) Candidates**

a. UGAS(MESM) candidates are assigned by the same career management authorities that assign ET(MESM)s, although UGAS(MESM) managers will liaise with CMs to advise on scheme requirements. Examples of UGAS(MESM) career pipelines, which can be used to inform assignment decisions, are at Annex 74D.

b. All UGAS(MESM) candidates complete the following initial career pipeline before specialising as Mechanical or Electrical specialisms.

9. Monitoring and Management of UGAS(MESM) Candidates

a. The Accelerated Technician Authority (ATA(SM)) will monitor the progress of UGAS(MESM) candidates through liaison with Divisional Officers, CMCs and line managers. UGAS(MESM) candidates remain subject to the normal warning procedures regarding lack of progress. However, DOs/LMs should contact the ATA(SM) if a scheme candidate becomes subject to such procedures, as additional UGAS actions may be required.

b. UGAS(MESM) candidates are accelerated to POET upon qualification as a Category B Watchkeeper. It is incumbent upon Divisional Officers/Line Managers to provide scheme candidates with appropriate mentoring and to ensure candidates undertake a wide range development opportunities which support their ultimate aim of becoming Senior Ratings.

c. In the event that a DO/LM has concerns regarding a candidate’s continued suitability for UGAS(MESM), they should contact the ATA(SM) as soon as is practicable to agree an appropriate course of action.
d. The ATA(SM) manage the scheme to the requirements of the MESM Branch Managers. The team is responsible for the scheme’s Concept of Operations, including its terms and conditions and Units/DOs/LMs should contact the ATA(SM) for specific advice about the scheme as the need arises.

10. UGAS Warning System

a. In addition to the conventional warning procedure contained within Chapter 57, UGAS Engineering Technicians (ETs) also become subject to the UGAS Warning System once they complete Phase 1 training. This warning system is designed to explain the process and consequences that might arise should an individual continue to fail to meet the high professional and personal standards expected of a UGAS candidate. It ensures that the candidate’s shortfalls and recovery requirements are clearly identified, understood and acknowledged by the individual, while allowing an appropriate period of time to effect the required improvement.

b. DOs, training providers and line managers of UGAS ETs are to inform ATA(SM) of any concerns with individual’s performance and any instance where a conventional warning has been issued. The ATA(SM) will determine if additional UGAS associated action is required.

c. In order to de-risk the scheme and allow re-allocation of spaces on downstream courses, the UGAS Warning System allows removal of candidates who are deemed unsuitable if they are unlikely to achieve POET in a timely manner, for either technical/academic or CLM failings.

d. UGAS warnings follow a 3 tier structure (Verbal, Written and Final). All warnings are issued on the UGAS warning proforma and recorded by the ATA(SM). UGAS Final Warnings can, in accordance with the tailored career agreement, result in a candidate’s removal from the scheme. If warranted, the ATA(SM) may issue higher level warnings without first issuing any lower tier warnings. Appeals against warnings are considered by the Branch Manager.

e. **Issue of Verbal Warning.** If a UGAS candidate’s performance\(^1\) fails to meet UGAS standard, the ATA(SM) may initiate a formal review of the candidate’s performance. This may result in a Verbal Warning to the candidate which will detail the problem(s); the proposed solution; the timescale for review; the future process; and the likely consequences where improvement is not forthcoming.

f. **Verbal Warning Review.** The usual period of review for a Verbal Warning is 3 months. At the end of the review period, the ATA(SM) will formally review the candidate’s performance to determine if the requisite improvement has been made. The ATA(SM) will either remove the Verbal Warning from the candidate’s UGAS record or escalate the warning to a Written Warning. In exceptional circumstances, the ATA(SM) may extend the review period for the Verbal Warning. Further failings in a candidate’s performance may also warrant escalation to an immediate Written Warning.

---

\(^1\) Exam failures, continued record of just passes, poor study application etc
g. **Issue of Written Warning.** If escalation is required, the ATA(SM) will issue a Written Warning to the candidate which will reiterate the on-going problem; the proposed solution; the timescale for review; the future process and the likely consequences, if improvement is not forthcoming. The narrative will substantiate the escalation of the UGAS warning by elaborating on the Subject's prevailing weaknesses and/or unsatisfactory professional effectiveness. The candidate is to certify in writing that they understand why the UGAS Warning has been escalated and the advice given. The Written Warning will be retained by the ATA(SM) and a copy provided to the candidate.

h. **Written Warning Review.** The usual period of review is the longer of the end of the UGAS phase that the candidate is currently pursuing or 3 months. At the end of the review period, the ATA(SM) will again formally review the candidate's performance to determine if the requisite improvement has been made. The ATA(SM) will either remove the Written Warning from the candidate's UGAS record or escalate the warning to a Final Warning. In exceptional circumstances, the ATA(SM) may extend the review period for the Written Warning. Further failings in a candidate’s performance may also warrant escalation to a Final Warning.

i. **Issue of Final Warning.** If further escalation is required, the ATA(SM) will issue a Final Warning to the candidate which will reiterate the on-going problem; the proposed solution; the timescale for review; the future process and the likely consequences if improvement is not forthcoming. The narrative will substantiate the escalation of the UGAS warning by elaborating on the Subject's prevailing weaknesses and/or unsatisfactory professional effectiveness. The candidate is to certify in writing that they understand why the UGAS Warning has been escalated and the advice given. The Final Warning will be retained by the ATA(SM) and a copy provided to the candidate.

j. **Final Warning Review.** The usual period of review is the longer of the end of the UGAS phase that the candidate is currently pursuing or 3 months. At the end of the review period, the ATA(SM) will again formally review the candidate’s performance to determine if the requisite improvement has been made. The ATA(SM) will either:

1. Remove the Final Warning from the candidate’s UGAS record,
2. Retain the Final Warning and re-issue it to the candidate informing them of the extension to the Final Warning, giving reason for the decision and the date on which the review of the Final Warning will be made,
3. Remove the candidate from the UGAS scheme in accordance with the candidate’s Tailored Agreement.

1. **Introduction**

a. The intent of the UGAS(MESM) is to mitigate shortfalls of RPOs/MCDOs/METOWs\(^1\) and submarine electrical and mechanical maintainers at Petty Officer level. It will achieve this by taking very able new-to-service candidates, with high academic achievement, and accelerate them along the MESM ET career path in 6 phases, as follows:

(1) **Initial Training Phase.** Scheme members will conduct Phase 1 new entry training at HMS RALEIGH as probationary LET(MESM)s and will then be assigned to the Submarine Qualification (SMQ) organisation to complete general submarine training, some of which may be in an operational submarine. This could\(^2\) lead to the award of the Submarine Badge (Dolphins). During SMQ, candidates will be streamed MESM or WESM. On successful completion of SMQ(Dry) (including Firefighting and submarine escape training), candidates will be awarded the ‘HM Submarines’ cap tally. At this point they will be designated as Phase 3 trainees although they will remain on the Untrained Strength. This phase will take approximately 6 months in total, including an engineering safety course at HMS SULTAN and a developing leadership course at HMS COLLINGWOOD.

(2) **First Shore Training Phase.** Candidates will then then be assigned to HMS SULTAN to attend:

- (a) ME176 Leading Engineering Technician’s (LET) Qualification Course for submariners (LETQC(SM)) (preceded by a craft and electrical safety modules).

- (b) ME256 LET Propulsion Electrical Maintainer Course or ME257 LET Propulsion Mechanical Maintainer Course.

- (c) Leading Rates Leadership Course (LRLC).

- (d) ME301 Nuclear Propulsion Systems Course (NPSC).

- (e) Appropriate Craft/Adqual courses\(^3\)/FAST courses.

\(^1\) Reactor Panel Operator/Main Control Desk Operator/Marine Engineering Technician of the Watch.

\(^2\) As a minimum new to service UGAS candidates are required to complete SMQ (Dry) prior to LETQC.

\(^3\) e.g. ME258 or ME259 Mechanical Craft courses.
This phase of training will take approximately 15 months. Subject to satisfying service and eligibility criteria, candidates will be substantiated as Leading Engineering Technician at the end of NPSC\(^4\). On successful completion of the LETQC, they will be awarded an Advanced Apprenticeship in Engineering and on successful completion of the whole LET training pipeline they will join the trained strength (GTS).

(3) **Sea Training Phase.** UGAS(MESM) will then be assigned to an operational submarine to qualify/re-affirm their submarine qualification (BSQ) and train and qualify as:

(a) Category D Watchkeeper.

(b) Category C EPO/SCPO/MMSS\(^5\).

(c) Manoeuvring Room Shut Down Supervisor.

They must be carefully managed in order to conduct maintenance and repair tasks under supervision; gaining experience in operations, maintenance, section management and repair. This ‘journeyman’ phase of their career should take no more than 12 months and should aim to include a minimum 6 months qualified as a Category C Watchkeeper and 3 months qualified as a Shut Down Supervisor\(^6\). Unforeseen changes to submarine programmes or personal circumstances could extend this period.

(4) **Second Shore Training Phase.** After their sea training phase candidates will return to HMS SULTAN to attend the following courses:

(a) ME264 Petty Officer Engineering Technician Qualifying Course (POETQC(SM))\(^7\).

(b) ME265 POET Advanced Propulsion Electrical Maintainer Course or ME266 POET Advanced Propulsion Mechanical Maintainer Course.

(c) ME304 Nuclear Propulsion Operators Course (NPOC).

(d) Senior Rates Leadership Course (SRLC).

(e) ME267 Foundation Degree module.

(f) ME303/436 engineering administration courses.

(g) Appropriate Adqual courses\(^8\).

---

\(^4\) UGAS(MESM) candidates who joined prior to 1 Sep 18 are advanced to substantive LET at the start of NPSC.

\(^6\) Any shortfall in these experience levels must be completed post POET training before the individual qualifies as a Category B watchkeeper.

\(^7\) This course is due to be replaced by the Project Faraday POETQC(SM) – course ME178.

\(^8\) eg. ME303 courses – Diesel Maintainer, Primary Instrumentation Maintainer, Refrigeration and ACP Maintainer.
This phase will last approximately 13 months, during which candidates will complete the Engineering Foundation Degree. This phase also includes the Due Date for advancement to POET for UGAS(MESM) personnel, which is the first day of the NPOC (ME304) subject to candidates having completed both POETQC (ME264) and SRLC. The standard advancement regulations for Engineering Fast Track Ratings (Chapter 68) will apply to UGAS candidates with the following exceptions and clarifications:

(a) The inability of UGAS candidates to attend all POET career training and qualify as a POET watchkeeper before their Due Date, because of their training pipeline design, is considered to be due to service reasons outside their control. Hence UGAS candidates should be considered for advancement to Acting POET on their Due Date.

(i) The advancement qualification period for UGAS candidates is 12 months from their Due Date. For this period UGAS candidates will retain an entitlement for backdated advancement when they finally become eligible for confirmation as a POET. Failure to meet the advancement criteria beyond this period is to be dealt with in accordance with the normal regulations.

(j) UGAS candidates are only eligible for advancement to Acting POET (ie. are not entitled to substantive promotion) prior to qualifying as a POET watchkeeper (ie. the entitlement of Engineering Fast Track Ratings who have completed Leadership Course (LC) by their due date to be advanced substantively in line with their Select, Train and Promote peers does not apply to UGAS candidates). Substantiation as POET is subject to the extant UGAS advancement criteria.

(k) On 2 Sep 19, the timing of the Due Date for advancement to POET was changed. UGAS candidates who, on that date, were already beyond their Due Date for advancement to POET will have no entitlement to any retrospective or backdated advancement prior to 2 Sep 19. The standard advancement qualification period for such candidates will end 12 months after the first day of NPOC (ME304).

(5) **Sea Delivery Phase.** Candidates will be assigned to an operational submarine to conduct onboard training to qualify as a Category B Watchkeeper (RPO/MCDO/METOW) and electrical or mechanical systems maintainer, shutdown supervisor and deputy section head. Upon qualification as a Category B Watchkeeper, and subject to standard promotion eligibility criteria, they will be substantiated as Petty Officer Engineering Technician. Service as a Section Head will be at the discretion of the Marine Engineering Officer but UGAS(MESM) candidates are expected to achieve Section Head within one year of qualifying as a Category B Watchkeeper. This phase of their career will last approximately 38-44 months but must include a minimum of 36 months’ qualified Category B service during which they will complete or be deemed to have completed any RoS outstanding for LET and POET QCs.
(6) **University Degree Phase.** The exact timing of the end of the sea delivery phase will be based around a number of factors: the need to serve a minimum of 36 months as a qualified Category B operator; any leave outstanding and the pre-requisites\(^9\) required before candidates start\(^10\) the 3rd year of the University of Portsmouth/Upper Yardman (Engineer) degree course to top up the Foundation Degree to BEng(Hons). Whilst reading for their degree, candidates will remain serving in the RN under Thunderer Squadron. There is no RoS for attaining the BEng. Prior to the start of studies at the University of Portsmouth, candidates will be required to indicate to the career management authorities which of the paths at Sub Para b below they will choose upon the posting of their degree results.

b. **Options Upon Completion of the Scheme.** On completion of their one year of university study, New-to-Service UGAS(MESM) members will have the following 3 choices:

1. Transfer to the standard ET career pipeline where further progression will be subject to the normal rules for promotion.

2. If an AIB pass has been achieved and they have been selected, join BRNC as a prospective MESM Engineer Officer (see Annex 74A Para 4 sub para a).

3. Leave the Service in accordance with the Tailored Career Contract.

c. **UGAS(MESM) is therefore a minimum**\(^11\) 8.5 year engagement which is planned to generate a MESM POET Cat B Watchkeeper/maintainer approximately 3.5 years from entry to complete a minimum of 36 months qualified service as a RPO or METOW. The duration of their sea assignment is variable to allow scheme members to serve a minimum of 36 months qualified before departure from their submarine to match the September start to the academic year and July pre-degree mathematics module.

d. This scheme will not replace the ET MESM Fast Track/restructured ET pipeline, but should be seen as running in parallel and could be continued or stopped as required. It is therefore NOT an immediate solution to the Cat B operator shortage but allows greater future MESM flexibility and adaption to successor submarine requirements.

e. It is envisaged that the cohort of UGAS(MESM) will be small (e.g. 12 M and 12 L to qualify as a Cat B per year) and therefore it does not set a precedent for the way all submariners are recruited, managed or employed. Nevertheless, there are areas where these individuals will need to be treated differently from standard Service entrants and they will need to be carefully, and on occasion preferentially, managed as they progress along the scheme’s pipeline.

---

\(^9\) June Maths module is a pre-requisite for the UY degree scheme.

\(^10\) Academic year starts in September.

\(^11\) This is a minimum because it is not possible to align exact qualification and training times, sea draft duration and Portsmouth University Degree start dates at this range.
2. Recruitment

a. The scheme targets recruitment from a demographic of high achievers with proven academic ability. Potential candidates will be drawn from civilian personnel who already hold a minimum of level 3+ STEM qualifications (eg. A Levels, BTech, HNC/D NVQ level 3). Although candidates are badged as ETs, and mixed with conventional ETs during training, the scheme is separate from the current ET system and candidates are managed by the ATA(SM) in conjunction with the CMCs and senior rating CMs.

b. The following premise underpins the scheme. A high quality candidate is recruited to an approximate 8½ year engagement with the offer of paid nuclear training and education that delivers an in-service engineering degree at the end of the scheme. The candidate’s remuneration and reward rises rapidly to a significant figure at the 6-year point and continues during their final year on the scheme where they complete the UY degree at Portsmouth University. During the scheme this quality individual could attend an AIB to widen the available options open to them upon graduation.

c. The important factor is that the choice belongs to the individual; this is a recruiting lure. In return, the Service expects significant application from the individual during shore and sea training followed by approximately 4 years sea service, of which 3 years will be as a qualified RPO/MCDO or METOW.

d. **Entry Requirements.** Full UGAS(MESM) entry requirements may be found on the Royal Navy Website in the ‘Careers’ section. In summary, UGAS(MESM) entry requirements are as follows:

1. Age on entry of 18 – 34 years.
2. Be a British Citizen and not hold dual nationality.
3. Score 90 or more on the Recruit Test (not on CNR website).
4. Hold the following qualifications (equivalent qualifications are acceptable and UGAS(MESM) applications can be made before exam results are known):
   a) 5x GCSE at grade 9 - 4, including Maths, English and at least one science-based subject.
   b) Level 3 qualifications achieving a minimum of 48 UCAS points derived from Science, Technology, Engineering and Maths subjects.
   c) Equivalent Level 3 or higher STEM qualifications (BTEC, HNC etc) are also acceptable. Full details are included in the UGAS CONOPS held by the ATA(SM).

---

12 Aged 18-29, 3 A levels (Math, science, other), RT score >= 80 other equivalent L3 STEM qualification
13 Such short-term engagements suit the expectation of Gen Z (future recruiting demographic) A Vision for a Future Model of Manning Submarines Adm Mathias. Dated Mar 15
3. Terms and Conditions of Service

a. **New To Service Candidates.** The approximate 8½ year engagement is non-NEM compliant, but candidates will be engaged using a tailored career agreement (example at Appendix to this Annex). However, SM programmes, training delays and the exigencies of Service life may delay progress along the UGAS(MESM) career pipeline. Therefore, it may be necessary to extend the Tailored Career Agreement to allow sufficient time for candidates to obtain the minimum 36 months qualified sea service and align the end of this to the start of the degree phase. This is a function of the UGAS(MESM) Manager.

b. **In-Service Candidates.** In Service candidates who have been selected onto the scheme, will be required to progress their training. Internal candidates should complete their initial career course and then attend SMQ. Any opportunities to consolidate ET initial career training should be taken prior to their assignment to LETQC (ie. similar to Fast Track). Internal candidates will remain on their extant engagement (EC, ES1) but will also be issued with a signed agreement (Appendix 1 to Annex 74B) outlining their agreed progress through the scheme.

c. All candidates will be given a competence marker (UGAS) on their JPA record to denote their membership of the scheme.

d. UGAS(MESM) candidates are badged as probationary LETs and are trained alongside normal ETs and FTs.

e. **Failures.** Failures or voluntary withdrawals during training are required to complete any RoS incurred during training and will be offered progression along the normal ET route. The only exception is for new-to-service candidates who withdraw from the scheme before qualification as a Category C Watchkeeper. These individuals will be considered on an individual basis as they can only serve their RoS as a Cat D but will not have attended ETICC. Dependent upon where they are in the UGAS(MESM) training pipeline, candidates may not be able to serve as a Category D Watchkeeper unless they complete ETICC. It may be in the interests of the Service to waiver the RoS requirement and allow them to leave the Royal Navy.

f. UGAS(MESM) will train only V and A class POETs. Training and sea experience at LET can be delivered for any existing SM platform.

---

14 In certain circumstances, candidates may be offered an opportunity to extend their engagement by 1 year to complete their training/sea assignments and attend Portsmouth University 1 year later than originally planned.
4. Training

a. The UGAS scheme attempts to utilise existing courses within DSMarE and avoid the need to develop new courses or re-sequence the existing training plan. There is a requirement, however, to conduct some engineering safety training, to ensure all new-to-service candidates can safely attend the practical modules of LETQC and subsequent specialist training. The training route is at Annex 74D.

b. SMQ(Dry) is a valuable qualification that will set an SM context before commencing specialist shore training and education. It is a de-risking activity that gives candidates a first exposure to submarines before the Service invests significant elements of shore training in them\(^\text{15}\).

5. Employment Onboard

a. Despite having received maintainer education and training, UGAS(MESM) experience levels will be low when they qualify as a Category B Watchkeeper. Therefore, given their limited experience profile as a maintainer, each operational crew will be expected to sustain only one UGAS(MESM) individual per watchkeeper union approximately 16 per year. Candidates will need to be carefully managed on and across platforms in order to maximise their experience profile and opportunity to learn. With the MEO’s approval, they can operate as a section head\(^\text{17}\). At this point, the submarine may be able to tolerate another UGAS(MESM) member.

While constrained in its numbers, the scheme will alleviate forecast gapping at sea and bring relief to Shut Down Supervisor and Category B RPO alongside watchbills. UGAS(MESM) individuals will be able to perform operations and maintenance, but are not able to immediately act as a Section Head or mature diagnostician.

b. Experience will need to be built in the first year onboard as a POET, however the quality of the individual supports the case for rapid learning abilities, whilst allowing for later selection as Upper Yardman or Nuclear Supervisory Rating (Category A2).

6. Management of the Scheme

a. The UGAS Scheme Manager function is undertaken by the ATA(SM). Administration includes:

   (1) Liaison and communication inform the actions of CNR staff, Career Managers, SubFlot and training deliverers et al to ensure flow along this novel career pipeline is as effective and efficient as possible.

   (2) The ATA(SM) is required to carry out the following functions:

      (a) Communicate, encourage and mentor candidates and, where necessary, interview them during recruiting and training.

\(^{15}\) Note qualifying SMQ(Wet)/BSQ is not compulsory prior to starting LETQC
\(^{16}\) i.e. 1 x RPO/MCDO AND 1x METOW per year.
\(^{17}\) Full POET maintainer status will be gained on MEO recommendation for and appointment as a Section Head.
(b) Liaise with CMC, training providers and CM to expedite rapid progress of candidates through training and education and ensure advancement.

(c) Liaise with CM to ensure appropriate first drafts as LETs to maximize their 12-month sea training phase.

(d) If necessary, manage any extension of their Tailored Career Agreement to allow sufficient time to obtain the minimum 36 months qualified sea service and align the end of this to the start of the degree phase.

(e) Maintain overview of resource implications eg. UY scheme cost, SUL MWS capacity, margin during training and UY degree.

(3) The RoS for the in-service degree is to be waivered and this agreement is written into the Tailored Career Agreement for new-to-service candidates and the UGAS(MESM) agreement for in-service candidates.

(4) The Foundation Degree (FD) awarded during POETQC needs to be protected from reviews and any aspirations to steer training towards a higher apprenticeship that would see the FD negated.

b. Interviews. UGAS applicants will undergo an interview to determine suitability for the scheme, which will be conducted by the ATA(SM) or CNR staff.

In exceptional circumstances, candidates may be offered an opportunity to extend their engagement by 1 year to complete their training/sea assignments and attend Portsmouth University 1 year later than originally planned.
APPENDIX 1 TO ANNEX 74B

ACCEPTANCE OF GENERAL TERMS AND CONDITIONS OF SERVICE ON TRANSFER TO THE UNDERGRADUATE APPRENTICESHIP SCHEME MARINE ENGINEER (SUBMARINES), UGAS(MESM)

Reference:
Navy Pers letter xxxxxxxxx dated xxxxxx.

1. I have read and understood the reference which details the Terms and Conditions of Service applicable to my entry/re-entry in to the Royal Navy on a Tailored Career.

2. I accept/do not accept (delete as appropriate) the Terms and Conditions of Service in accordance with the reference.

Signed: .................................................................

Name: .................................................................

Rank: .................................................................

Date: .........................................................................

Once completed, return to:
UGAS(MESM) Manager/Career Manager SSMP 7,
Rm 216 Building 1/150
Murray’s Lane,
HMNB Portsmouth
PO1 3NH

DIIF: NAVY PERS-SSMP7 | NavyPersSSMP7@mod.uk.

A copy will be lodged with Terms of Service Team, Navy Command Headquarters, MP G2, West Battery, Whale Island, Portsmouth, PO2 8DX.
ANNEX 74C

EXAMPLE UGAS TAILORED CAREER AGREEMENT (NEW TO SERVICE CANDIDATES)

Note. This form is to be read in conjunction with its associated S3049 UGAS (DATE) - Notice/Attestation Form for entry/re-entry into or continuation in the Naval Service to serve on a TAILORED CAREER For The RN Under Graduate Apprenticeship Scheme – RN UGAS.

OFFER OF A TAILORED CAREER TO:

NAME: ...............................................................

GENERAL TERMS AND CONDITIONS FOR NEW ENTRANTS OR RE-ENTRANTS JOINING THE ROYAL NAVY’S UNDERGRADUATE APPRENTICESHIP SCHEME - (RN UGAS)

It should be noted that:

Any offer made is dependent upon you meeting the required medical/fitness standards and security clearance/nationality status requirements for entry.

This letter outlines the main terms and conditions which will apply. You will also be subject to the terms and conditions in other publications and should note that terms and conditions are liable to change. Significant changes will usually be published through internal briefs and temporary memoranda, but Joint and Single Service references are changed regularly and you may not specifically be made aware of changes which affect you. You will be treated in accordance with the terms and conditions extant at the relevant time and should ensure you remain up to date on policy which affects you. If in doubt please make enquiry through your Divisional line management.

1. Date of Entry
   You will join HMS RALEIGH on (DATE) in order to undertake Phase 1 training as a member of the Royal Navy’s Undergraduate Apprenticeship Scheme (herein after known as UGAS).
2. Career

a. You will initially enter on a Tailored Career (TC) of 8½ years. At this range it is expected that you will start your degree in (DATE), with your service expected to end on (DATE) (after the posting of your graduation results from the University of Portsmouth/Upper Yardman (Engineer) degree course). However, the length of this TC may need to be altered due to the uncertainties of submarine operations (which can delay sea training), the exact timing of training courses starting more than 3 years in the future, your own abilities, unforeseen changes in your personal circumstances and the need to align the end of your sea service with the start of the university academic year. This could require that your TC is marginally shortened or extended. Any such extension will be agreed with you as a normal aspect of managing a TC.

b. UGAS is designed to accelerate individuals through the RN’s general engineering and submarine training and education programme in approximately 4 years, in order to serve as a qualified Petty Officer Engineering Technician for a minimum of 36 months in either the ET(MESM) or ET(WESM) sub specialisation. Qualified POET service is defined as either:

(1) **ET(MESM):** Category B Nuclear Watchkeeper (Reactor Panel Operator\(^2\)/Main Control Desk Operator\(^3\), or Marine Engineering Technician of the Watch\(^4\)), or

(2) **ET(WESM):** Qualified Tactical Weapon System (TWS) or Strategic Weapon System (SWS) Maintainer and watchkeeper.

During the first part of your service you will be streamed by the RN as either UGAS(MESM) or UGAS(WESM) to serve in the ET(MESM) or ET(WESM) sub specialisations respectively. Once streamed, you will have no right to transfer to the other sub specialisation. If you choose to stay in the RN at the end of UGAS, you still will not have a right to transfer to another specialisation.

c. At the end of the Scheme, you will have a choice of:

(1) Requesting to continue in the RN as an ET(MESM) or ET(WESM) on an Engagement Stage 2 which will extend your career to 20 years’ service or age 40, whichever is later.

(2) Entering the Officer Corps as a MESM or WESM sub-specialist on the Upper Yardman or Senior Upper Yardman schemes (dependent upon age), subject to passing the Admiralty Interview Board\(^6\) (AIB) and being selected.

---

\(^1\) This could occur in the preceding academic year.

\(^2\) ASTUTE Class.

\(^3\) VANGUARD Class’

\(^4\) VANGUARD Class’

\(^5\) ASTUTE Class’

\(^6\) The AIB is normally sat prior to the start of the Upper Yardman Degree Course.
3. Rate, Seniority and Pay
You will enter the Royal Navy in the rank of probationary Leading Hand with a seniority of (DATE) and will be referred to as Leading Engineering Technician MESM. Your Incremental Basic Date will be (DATE) and your pay will be OR4-1 Supp 3.

4. Discipline
You will be subject to normal disciplinary regulations in accordance with the Armed Forces Act 2006 and any disciplinary action which would normally result in reversion or disrating may cause the termination of your TC. You will also be subject to compulsory drug testing in accordance with current guidelines.

5. Deploy ability
Although you will have the same worldwide deployment liability as a regular Service Person, as a member of the UGAS, you have been recruited specifically for service in submarines.

6. Statutory Discharge and Notice Period
  a. On entry to the RN, if you are a new recruit with no former RN service, you will have a statutory right to give 14 days’ notice of your wish to leave within your first 6 months of service, providing that you have completed a minimum of 4 weeks’ service (excluding any leave periods or time forfeited). Thereafter, your on-going training and education will attract a return of service (RoS) to reflect the RN’s significant investment in ensuring that you are able to serve as a qualified POET(MESM) or POET(WESM) for a minimum of 3 years before you start your BEng degree. The current RoS for training courses that form part of the UGAS training pipeline are detailed at Para 19. Your ability to usefully serve a RoS is dependent upon how far you have progressed along the UGAS pipeline such that you are able to qualify to serve as a technician in a submarine. Therefore and at the discretion of the Branch Manager your RoS may be waived.

  b. When not subject to a RoS, you will be eligible to submit 12 months’ notice of your wish to leave the Royal Navy; however, if you take this option, you will be removed from the UGAS and placed at an appropriate point in the standard Engineering Technician (MESM or WESM as appropriate) career pipeline to serve out the outstanding period. However, this is also dependent upon how far you have progressed along the UGAS pipeline such that you are able to qualify to serve as a technician on a submarine; therefore and at the discretion of the Branch Manager, your 12 months’ notice may be waived.
7. **Transfer to another Branch or Specialisation**

There will be no opportunity to transfer to another branch or specialisation whilst you are on the Scheme, unless it is in the interests of the service.

8. **Entry to the Officer Corps**

If you pass an Admiralty Interview Board (AIB) whilst on the scheme and are subsequently selected for the Officer Corps, you will not be allowed to enter BRNC until you have completed your sea delivery phase as a qualified POET(MESM) or POET(WESM). It should be noted that Upper Yardman (Engineer) officers similarly cannot join BRNC until they have successfully completed the BEng degree course at the University of Portsmouth.

9. **Advancement**

Subject to meeting your training targets and the mandated advancement criteria set out in this letter, including passing an annual Royal Naval Fitness Test, you will become eligible for consideration for accelerated advancement to the rates of substantive Leading Engineering Technician and Petty Officer Technician during your time on the UGAS. Thereafter, your advancement will be in accordance with the standard promotion criteria detailed in BRd 3(1) Part 8, with selection based on merit, qualification, recommendation and requirement. In addition, you may be eligible for promotion to the acting higher rate on a local acting basis if there is a Service need, eg. a vacancy at the higher rate within your role/organisation.

10. **Transfer to a Longer Career or Extension to your Tailored Career**

   a. If your training is delayed such that you are unable to complete your sea delivery phase and university phase within this TC, the following rules will apply:

      (1) If your training is delayed for Service reasons (eg. due to submarine programmes), an appropriate extension to your TC will be offered. If you elect to refuse an extension, you will lose your entitlement to attend university if you fail to complete the sea delivery phase.

      (2) If your training is delayed due to personal reasons, an extension of service may be offered. If an extension is not offered or if an extension offer is refused, you will lose your entitlement to attend university if you fail to complete the sea delivery phase.

   b. You will not be eligible to transfer to another Engagement Stage or be considered for an Extended Career until you have completed the sea delivery phase. At this point, subject to satisfactory service, you can request to transfer to an ES2 in order to extend your service to be able to complete a total of 20 years or serve until age 40 (whichever is the later). Thereafter, further extensions of service or transfers to longer engagements may be offered if there is a Service requirement. Service on a TC is permitted up to the day before an individual’s 55th birthday or up to 11 years’ service in total and is totally dependent on the needs of the Service.

---

7 For example, CO’s recommendation, in-date RN Fitness Test, passed appropriate training courses.
11. UGAS – Outline Career Description

a. Your training and career pipeline will be as follows:

(1) **Initial Training Phase (Common).** You will complete Phase 1 new entry training at HMS RALEIGH (indicative salary £31,000) and will then be assigned to the Submarine Qualification (SMQ) organisation to complete general submarine training, some of which maybe be in an operational submarine. Subject to service opportunities (eg. submarine availability), you may qualify as a submariner and gain your Submarine Dolphins during this phase. This phase of your training will take approximately 6 months in total, (indicative salary will be £31,000). Part-way through this phase you will be streamed UGAS(MESM) or UGAS(WESM) and will attend an engineering safety course at HMS SULTAN and a developing leadership course at HMS COLLINGWOOD.

(2) If you are streamed UGAS(MESM), on completion of the Initial Training Phase:

   (a) **First Shore Training Phase.** You will be assigned to HMS SULTAN to complete any enabling training required before attending the Leading Engineering Technician’s (LET) Qualification Course for submariners (ME 176 LETQC(SM)), ME257 Mechanical or ME256 LET Propulsion Electrical Maintainer, the Leading Rates Leadership Course (LRLC), and ME301 Nuclear Propulsion Systems Course (NPSC) and appropriate Craft and Adqual courses\(^8\). This phase of training will take approximately 15 months. You will be advanced to the rate of substantive Leading Engineering Technician at the end of NPSC, subject to satisfying service and eligibility criteria. On successful completion of the LETQC, you will be awarded an Advanced Apprenticeship in Engineering.

   (b) **Sea Training Phase.** You will then be assigned to an operational submarine to qualify or re-affirm your submarine qualification and train and qualify as a Category D Watchkeeper, Category C Electrical Panel and Main Machinery Space Operator and Manoeuvring Room Shut Down Supervisor. At this point, you will be eligible for submarine pay\(^9\) and Category C nuclear pay\(^10\) (indicative total salary £36,000). On qualifying as a submariner you are also eligible for a £5,000 Golden Hello. You will conduct electrical maintenance and repair tasks under supervision; gaining experience in operations, maintenance, section management and repair. This ‘journeyman’ phase of your career path should take no more than 12 months and must include a minimum 6 months qualified as a Category C Watchkeeper and 3 months qualified as a Shut Down Supervisor. Unforeseen changes to submarine programmes or your own personal circumstances could extend this period.

---

\(^8\) For example ME258 or ME259 Mechanical Craft courses.
\(^9\) RRP(SM).
\(^10\) RRP(NP).
(c) **Second Shore Training Phase.** After your sea training phase you will return to HMS SULTAN to attend the ME264 Petty Officer Engineering Technician Qualifying Course (POETQC), the ME265 POET Advanced Propulsion Electrical Maintainer Course or ME266 POET Advanced Propulsion Mechanical Maintainer Course, the ME304 Nuclear Propulsion Operators Course (NPOC), the Senior Rates Leadership Course (SRLC), the ME267 Foundation Degree module and appropriate specialist training modules. Completion of these courses will conclude your shore based training on the UGAS(MESM); this phase can last approximately 13 months. During this phase, you will complete your Engineering Foundation Degree.

(d) **Sea Delivery Phase.** You will be assigned to an operational submarine to conduct onboard training to qualify as a Category B Watchkeeper (Reactor Panel Operator/Main Control Desk Operator or ME Technician of the Watch) and electrical or mechanical systems maintainer, shutdown supervisor and deputy section head. Upon qualification as a Category B Watchkeeper, subject to eligibility criteria, you will be considered for advancement to Petty Officer Engineering Technician. Service as a Section Head will be at the discretion of the Marine Engineering Officer but UGAS(MESM) candidates are expected to achieve Section Head status within a year of qualifying as a Category B Watchkeeper. This phase of your career will last approximately 38-44 months but must include a minimum of 36 months’ qualified Category B service (indicative salary £42,500 - £48,500 per annum) and will see you complete any RoS outstanding for LET and POET training.

(e) **University Degree Phase.** The exact timing of the end of your sea delivery phase will be based around a number of factors: the need to serve a minimum of 36 months as a qualified Category B operator; any leave you have outstanding and the pre-requisites you need to complete before you start the 3rd year of the University of Portsmouth/Upper Yardman (Engineer) degree course to top up your Foundation Degree to BEng(Hons). Whilst reading for your degree, you will still be serving in the RN and will, therefore, continue to be subject to the Armed forces Act 2006. There is no RoS for attaining your BEng. Before you start your first term at the University of Portsmouth, you must inform the RN career management authorities which of the paths at Para 3 you will follow upon completion of your final examinations and the posting of your degree results.

---

11 For example ME303 courses – Diesel Maintainer, Primary Instrumentation Maintainer, Refrigeration and ACP Maintainer.
12 Dependent upon class of submarine.
13 Maths module currently delivered in June is a pre-requisite for the UY degree scheme.
14 Academic year starts in September.
(3) If you are streamed UGAS(WESM), on completion of the Initial Training Phase:

(a) **First Shore Training Phase.** Lasting approximately 2 years, you will be assigned to HMS COLLINGWOOD to attend the Leading Engineering Technician Qualifying Course (LETQC). Subject to satisfying service and eligibility criteria, you will be advanced to LET(WESM) at the end of specialist maintainer training (either TWS or SWS dependent upon streaming). On successful completion of LETQC, you will be awarded an Advanced Apprenticeship in Engineering.

(b) **Sea Training Phase.** You will then be assigned to an operational submarine to re-affirm your submarine qualification and train/qualify in an appropriate WESM watchkeeping position. You will also conduct electrical or mechanical maintenance and repair tasks under supervision, gaining experience in operations, maintenance, section management and repair. This 'journeyman' phase of your career path should take no more than 12 months and must include a minimum 6 months qualified.

(c) **Second Shore Training Phase.** After your sea training phase, you will return to HMS COLLINGWOOD to attend the Petty Officer Engineering Technician Qualifying Course (POETQC). You may also attend additional specialist training dependent on WESM Streaming at either the RNSMS or the Trident Training Facility. Completion of these courses will conclude your shore based training for UGAS (WESM). This phase will last approximately 40 weeks, during which time you will complete your Foundation Engineering Degree.

(d) **Sea Delivery Phase.** This phase of your career will last a minimum of 36 months qualified as a POET (WESM) maintainer in either the TWS or SWS sub departments, during which time you will be assigned to an operational submarine to conduct onboard training to qualify within your specialisation and working towards Deputy Section Head. Upon qualification as TWS Senior Rate or Ship board for SWS personnel, subject to eligibility criteria, you will be considered for advancement to POET. Service as a Section Head will be at the discretion of the Weapon Engineering Officer but UGAS (WESM) candidates are expected to achieve Section Head within one year of qualifying.
(e) **University Degree Phase.** The exact timing of the end of your sea delivery phase will be based around a number of factors: the need to serve a minimum of 36 months as a qualified POET (WESM) maintainer; any leave you have outstanding and the pre-requisites you need to complete before you start the 3rd year of the University of Portsmouth/Upper Yardman (Engineer) degree course to top up your Foundation Degree to BEng(Hons). Whilst reading for your degree, you will still be serving in the RN and will, therefore, continue to be subject to the Armed forces Act 2006. There is no RoS for attaining your BEng. Before you start your first term at the University of Portsmouth, you must inform the RN career management authorities which of the paths at Para 3 you will follow upon completion of your final examinations and the posting of your degree results.

b. **The UGAS Manager:** ATA ESM WO1, Rm 46, Argyll Building, HMS NEPTUNE, HMNB CLYDE, G84 8HL | Mil: 93255 5310 | BT: 01436 674321 x 5310 | DIIF: NAVY PCAP-CM ATA ESM | NAVYPCAP-ATAESM@mod.gov.uk who should be contacted if you have any queries.

c. **Removal from the Scheme.** Your Career/UGAS Manager may remove you from the UGAS if you fail to meet your training targets in a timely manner or you are deemed unsuitable for further training. In such circumstances, you will be transferred to an appropriate point in the standard ET(MESM) career pipeline and your case will be dealt with in accordance with the normal rules which can include discharge. If you are retained, you will still be subject to the normal notice period or any RoS you have accrued in return for the qualifications achieved and training received. If you become unsuitable for service in submarines, you will be transferred to an appropriate point in the standard ET(ME) career pipeline and your case will be dealt with in accordance with the normal rules which can include branch transfer or discharge. Probationary LETs will be re-rated ET1.

### 12. Return of Service for Training

a. **The aim of the UGAS is to secure 36 months’ qualified sea service from individuals as a qualified POET(MESM) or POET(WESM).** This requires the RN to make a substantial training and educational investment in you. Certain elements of this training will attract a RoS, as laid out below and, consequentially, you will not be eligible to submit your notice to leave the RN during the course or the associated ROS, with the exception of the last 12 months of any RoS, i.e. the last year of a RoS and the 12-month notice period can run concurrently. Your ability to usefully serve a RoS is dependent upon whether you have progressed along the UGAS pipeline far enough to able to qualify to serve as a technician on a submarine; therefore, and at the discretion of the Branch Manager, your RoS/notice period may be waived if you have not progressed sufficiently.

---

15 Maths module currently delivered in June is a pre-requisite for the UY degree scheme.
16 Academic year starts in September.
17 Eg Exam failures and low academic performance.
Table 74C-1. Return of Service for Training

<td>36  months</td>
<td>Liability is incurred at the start of POET QC but the RoS starts at the end of the POET pipeline i.e. end of POET(WESM) Specialist Maintainer Training Course</td>
</tr>
</tbody>
</table>

b. Towards the end of a successful completion of the sea delivery phase, you will be enrolled on the University of Portsmouth degree course, however, the RoS which is typically associated with Upper Yardman (Engineer) (UY(E)) officers undertaking the BEng course is not applicable to UGAS(MESM/WESM) candidates on the basis that it forms an integral part of the UGAS(MESM/WESM) offer. Your entitlement to attend the University of Portsmouth/ UY (E) degree course is conditional upon you completing the sea delivery phase (ie. providing a minimum 36 months’ sea service as a qualified POET(MESM) or POET(WESM) Watchkeeper).

c. During the University phase, you will continue to be paid your RN salary and enjoy standard Service entitlements common to UY(E) officer candidates at the University of Portsmouth. As a result, you will not be subject to tuition fees or any RoS for the degree that you obtain. Your UGAS commitment will conclude 30 days after your degree results are posted and will be reflected in your TC final end date.

13. Leave Entitlement/Career Intermissions

Entitlement to Annual Leave will be in accordance with JSP 760 Chapter 1, whereas your entitlement to Maternity/Paternity/Parental Leave will be in accordance with JSP 760 Chapters 20-23. You will have no entitlement to a Career Intermission on this TC. However, should you take Maternity/Paternity/Parental Leave and delay your progression you will require an extension to your TC; noting that attendance upon the university phase is still conditional on completion of the sea delivery phase (ie. a minimum of 36 months’ qualified sea service as a qualified POET(MESM) or POET(WESM)).

ANY LEAVE NOT TAKEN BEFORE COMPLETION OF THIS AGREEMENT WILL BE FORFEITED.

14. Appraisal Reporting

Appraisal Reports are to be completed at normal reporting cycles in accordance with JSP 757.

15. Honours and Awards

You will be entitled to receive honours and awards, including campaign medals, as long as you meet the same eligibility criteria as a regular Service Person.
16. Medical/Dental Care
   You will be entitled to full medical/dental care.

17. Accommodation
   You will be entitled to Service Family Accommodation or Single Living Accommodation, as appropriate.

18. Continuity of Education Allowances (CEA)
   You will only be entitled to CEA where you have the same worldwide deployment liability as a regular Service Person and also meet the criteria in JSP 752 Chapter 9. You will need to obtain a CEA Eligibility Certificate (see Para 6).

19. Relocation Allowances (DA/RE)
   You will only be entitled to relocation allowances where you have the same worldwide deployment liability as a regular Service Person and also meet the criteria in JSP 752 (see Para 6).

20. Pension Scheme
   If you are a re-entrant then you are advised to contact the JPAC Enquiry Centre at Mail Point 465, Kentigern House, 65 Brown Street, GLASGOW G2 8EX (telephone: 0141 224 3600) prior to accepting these terms for detailed advice on your entitlement to a pension or the impact on your pension if already awarded. In accordance with Treasury rules, those in receipt of an Armed Forces pension are liable to have that pension abated on re-employment in the Forces. Where an individual has taken resettlement commutation and their pension in payment is subject to abatement in whole or in part, a reduction equal to the annual amount of pension commuted will be made from their pension where there is sufficient remaining or partly from pension, partly from pay, where there is insufficient pension remaining. Where the pension is fully abated, the commutation reduction will be taken wholly from pay.

21. Reserve/Recall Liability
   For new entrants with no former service, you will have a reserve liability if you complete a minimum of 2 years’ service. For those with former service, your reserve liability may be affected, and further details can be found in BR 61 Chapter 2 (Officers) or Chapter 3 (Other Ranks). If you complete 20 years’ total qualifying service (previous military service may count towards this) for pension (via a TC extension and/or transfer to another engagement) then that liability will be in the Recall Reserve. See also BRd 3(1) Part 7 Chapter 54 Section 9 Para 5464 and Annex 54I.

22. Resettlement/GRT/Terminal Leave
   Your entitlement to resettlement/GRT/Terminal Leave is governed by the length of the TC. The normal minimum length of service to qualify for GRT is 6 years unless someone is medically discharged. Your Resettlement entitlement is detailed in JSP 534. Terminal Leave entitlement is as set out in JSP 760 and normally comprises one day per month of service up to a maximum of 14 days.

*Effective February 2020*
ANNEX 74E

UGAS UNIVERSITY PHASE

1. The last phase (University Phase) of UGAS involves eligible candidates topping up the Fd Eng gained during POET training to a BEng(Hons) degree. Dependent upon a candidate’s Tailored Career (TC), the required degree top up course may be provided in-service or by attendance at the University of Portsmouth (UoP).

2. Separate arrangements are made for UGAS candidates who pass AIB and are selected to become commissioned officers. These candidates are to be transferred to UY RA and AIB to be managed through UoP and onto BRNC as part of normal business. Membership of UGAS ceases upon transfer.

3. If the degree provision is made in-service, the following process applies:

<table>
<thead>
<tr>
<th>Timing</th>
<th>Action</th>
</tr>
</thead>
</table>
| 6 months before sea delivery phase is completed | (1) ATA(SM) liaises with CM to assign UGAS POET to the relevant in-service course.  
(2) ATA(SM), icw UGAS POET, liaises with BM/CM to determine and set the TC end date. UGAS membership ceases 30 days after the candidate’s degree result is published. The TC end date should be set at a later date that will accommodate candidates opting to leave the RN at the end of UGAS. It must allow sufficient service to cover outstanding GRT entitlement (iaw JSP534) and terminal leave. At the end date candidates opting to remain in the RN will be transferred to the appropriate ES engagement. |
| As required before start of in-service degree course | (3) Assignment Orders issued. |
| Before start of in-service degree course | (4) New-to-Service candidates only:  
Inform CM of intentions at end of the degree phase:  
a. Request to remain as a technician – ATA(SM) and CM arrange for transfer to ES2 on cessation of UGAS membership (30 days after degree results are posted).  
b. Enter BRNC as an Engineering Officer (if AIB passed and selected) – ATA(SM) arranges transfer to UY scheme,  
c. Leave the RN – ATA(SM)/CM will have set Tailored Career termination date at Action (2). |
| As promulgated | (5) Attend in-service degree course. |
| 30 days after degree results posted | (6) UGAS membership ceases 30 days after UoP post degree results.  
(7) For candidates remaining in the RN, assignment as directed by CM. |
| As set at Action (2) | (8) Tx date for UGAS candidates opting to leave the RN. |
If the provision is made at UoP, the following process applies for a degree course that starts in September of year ‘XX’:

<table>
<thead>
<tr>
<th>Timing</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>January of year ‘XX’</td>
<td>(1) ATA(SM) directs CMC/West Battery Career Manager to assign UGAS POET to Thunderer Squadron from mid Jun XX (exact date varies) in time to conduct Thunderer Sqn joining routine and Jul pre-degree maths bridging module (exact dates of joining and modules set by Thunderer Sqn).</td>
</tr>
<tr>
<td></td>
<td>(2) ATA(SM), icw UGAS POET, is to liaise with BM/CM to determine and set the TC end date. UGAS membership ceases 30 days after the candidate’s degree result is published. The TC end date should be set at a later date that will accommodate candidates opting to leave the RN at the end of UGAS. It must allow sufficient service to cover outstanding GRT entitlement (iaw JSP534) and terminal leave. At the end date candidates opting to remain in the RN will be transferred to the appropriate ES engagement.</td>
</tr>
<tr>
<td></td>
<td>(3) ATA(SM) passes names/details of UGAS POETs attend UoP to Thunderer Sqn, SUL &amp; MWS UY RAs (for info) and UoP Technology Admissions Office.</td>
</tr>
<tr>
<td></td>
<td>(4) UGAS POETs directed by ATA(SM) to complete UoP on-line application. See para 6.</td>
</tr>
<tr>
<td>February - March ‘XX’</td>
<td>(5) Assignment Orders issued. UGAS POETS arrange their accommodation in HMS NELSON WO &amp; SR Mess, SFA or other.</td>
</tr>
<tr>
<td>June ‘XX’</td>
<td>(6) Join Thunder Sqn as directed in Assignment Order and attend maths bridging module.</td>
</tr>
<tr>
<td></td>
<td>(7) New-to-Service candidates only:</td>
</tr>
<tr>
<td></td>
<td>Inform CM of intentions at end of UoP degree:</td>
</tr>
<tr>
<td></td>
<td>a. Request to remain as a technician – ATA(SM) and CM arrange for transfer to ES2 on cessation of UGAS membership (30 days after degree results are posted – approximately July XX+1).</td>
</tr>
<tr>
<td></td>
<td>b. Enter BRNC as an Engineer Officer (if AIB passed and selected) – ATA(SM) arrange transfer to UY scheme.</td>
</tr>
<tr>
<td></td>
<td>c. Leave the RN – ATA(SM)/CM will have set Tailored Career termination date at Action (2).</td>
</tr>
<tr>
<td>Sept ‘XX’</td>
<td>(8) Proceed on leave as directed by Thunderer Sqn.</td>
</tr>
<tr>
<td>Jun ‘XX+1’</td>
<td>(9) Start degree top-up course.</td>
</tr>
<tr>
<td></td>
<td>(10) Complete degree course.</td>
</tr>
<tr>
<td></td>
<td>(11) UoP post degree course results.</td>
</tr>
<tr>
<td>Jul ‘XX+1’</td>
<td>(12) UGAS membership ceases 30 days after UoP post degree results.</td>
</tr>
<tr>
<td></td>
<td>(13) For candidates remaining in the RN, assignment as directed by CM.</td>
</tr>
<tr>
<td>Approx Sep ‘XX+1’</td>
<td>(15) Tx date (as determined at Action (2)) for UGAS candidates opting to leave the RN.</td>
</tr>
</tbody>
</table>

**Note.** Funding for UGAS candidates to attend UoP is provided under NCHQ Funding Line G47 NGA003.

6. **UGAS candidates attending the UoP are required to complete the university’s online application. The following should be noted:**

   a. Applicants are to use SUL UY RA or MWS UY RA contact names as their Reference.

   b. ATA(SM) and UY RA will have already sent UoP a generic reference for all candidates.

   c. Do not enter Unique learner number or funding details.

   d. To satisfy the requirement to submit evidence of recognised prior learning, UGAS candidates should upload their foundation degree certificates under section Upload documents/educational certificates.

7. **Any UGAS candidate failing the degree scheme will not attract any right or opportunity to repeat at Service expense. This includes candidates remaining in the RN at the end of the scheme who will not have any right to repeat whilst serving.**

**Notes:**

1. Candidates are required to achieve the minimum qualified service before starting the University Phase.

2. On cessation of UGAS membership, in-service candidates return to their extant ES engagement.

3. On cessation of UGAS membership, in-service candidates return to their extant ES engagement. Those wishing to leave the RN are subject to the normal rules regards submitting notice.

4. There is no return of service associated with the degree course.

5. UoP run one degree top-up course per year, starting in September.
ANNEX 74F

ACCELERATED APPRENTICE (AA) MEGS SCHEME PIPELINE

1. Introduction

The aim of the AA MEGS scheme is to expeditiously qualify a LET from point of entry. Following Initial Naval Training (INT) the AA MEGS pipeline consists of a bespoke Enabling Course and a Sea Phase developing both a maritime system knowledge and Naval ethos. This is followed by LETQC and LRLC alongside their Select-Train-Promote (S-T-P) counterparts.

Figure 74F-1. Pipeline Schematic

2. Pipeline Description

a. **INT.** The AA recruits undergo the same training as their ET counterparts and should be treated in the same manner. They join as Probationary LET (P/LET).

b. **ME160 Enabling Course.** Preparation for LETQC and to ensure AA MEGS trainees are safe to train in a technical environment.

c. **Sea Phase.** Trainees will then be assigned to a ship to:

   (1) Consolidate the knowledge and skills learnt on ME160 and become familiar with naval culture and experience living at sea.

   (2) Preparation for LETQC by completing an AA MEGS Task Book and building competence towards the successful completion of the AA MEGS PE. There are also various CLM tasks as part of the Task Book to prepare them for LETQC.

   (3) Complete the CBRNDC Task Book.

d. **Streaming.** AA trainees will indicate their preference during sea training phase and be streamed by ATA MEGS in consultation with ME BM WO1.

e. **LETQC.** LETQC is the standard course undertaken alongside their S-T-P counterparts. They may be selected for the FT Scheme during this phase.

f. **LRLC.** LRLC is the standard 4-week course which marks the end of the AA pipeline. Following successful completion, the AA will become GTS and a Substantive LET and will thus follow either the S-T-P or FT Scheme pipelines.

CHAPTER 75
ENGINEERING BRANCH – WEAPON ENGINEERING

7501. Recommendations
Officers making recommendations for ratings' advancement, promotion, examination or courses are to pay due regard to the conditions given in Para 6901 and Para 6902 sub para d.

7502. Weapon Engineering Examinations and Assessments in the Fleet – General

a. This Article should be read in conjunction with Chapter 69 Section 4 and BR 2000(4)(1) and 2000(4)(3) (Weapon Engineering Training and Examinations). Every effort is to be made to arrange examinations as frequently as possible and without delay to ensure that the advancement or promotion prospects of ratings are not prejudiced.

b. Applications for Provisional Examinations (PE) are to be made on Forms S442 in accordance with Para 6914.

c. If officers of the appropriate rank and specialisation required for an Examining Board are not available (see Para 7503 and Para 7504), application should be made to the Administrative Authority for suitable arrangements to be made. Alternatively, when it is known that it will not be possible to convene a Board within four months of a rating's application for examination, the examination may be conducted by the officers of the rating's own ship under the rules for Local Examinations laid down in Para 6914 sub para d.

d. Examining Boards and Local Examinations are to be oral only examination and are to cover appropriate syllabus as laid down in BR 2000(4). Additional oral questions are to be used to probe the candidate's knowledge of his/her own ship.

e. Throughout the examinations, due regard is to be paid to the training, background, experience and present employment of individual candidates. Discretion is to be exercised in areas of the syllabus in which no formal training was given and in which little or no experience may have been gained.

f. The Basic Date for advancement purposes is the date due by seniority or if later, the date of passing the oral examination, less any accelerated advancement awarded. Candidates are to be either passed or failed; no marks are to be awarded.

g. The successful result of the PE is to be entered on Form S442 and on JPA; the former being signed by all members of the Board, the latter by the President of the Board. The type of examination, 'Professional Qualifying', 'Provisional' or 'Local' is always to be clearly indicated on Form S442 and the completed form dealt with in accordance with Para 6914 sub para b. Competences are to be added by Unit HR personnel.
h. Engineering Technician Operational Performance Statement (OPS) Assessments must be completed in accordance with BR 2000 (4)(1). On successful completion of the OPS Assessment form, competencies are to be added by Unit HR personnel. If not achieved within the time scales stated above, then professional warnings should be applied, unless mitigating circumstances exist.

i. In the event of failure of examinations/assessments, see Para 6912.

j. For refusal to take a Professional Qualifying Course or Examination, see Para 6913 for automatic penalties.

7503. Convening and Composition of Examining/Assessment Boards

a. Examining Boards may be convened by Flotillas and by Commanding Officers of ships complemented with an officer of the WE sub-specialisation of Commander’s rank. Examining Boards, where the President of the Board may be a Lieutenant Commander or Lieutenant, may also be convened by Commanding Officers of ships where the WE Officer is of Lieutenant Commander or Lieutenant’s rank.

b. Composition of Examining/Assessment Boards. Boards are to comprise officers and/or senior ratings of the WE sub-specialisation or officers of other Engineering sub-specialisations serving in WE assignments. Details of the minimum requirement for the composition of the Examining Boards for each rate are contained within BR 2000(4)(1).

7504. Local Examinations

a. Local examinations are to be convened in accordance with Para 6914 sub para d and conducted in accordance with Para 7502.

b. Composition of the Board. Local Examination Boards are to comprise:

   President - an officer of the WE sub-specialisation.

   Member - an officer of the WE sub-specialisation (not under training) or a WO ET of the same specialist qualification or specialisation as the candidate.

   Member - highest rate borne of the same specialist qualification and stream as the candidate.

c. All members of the Board may be from the candidate’s own ship.
7505. Engineering Technician (Weapon Engineering) – Individual Competency Framework Promotion

The following rules apply to personnel who entered the RN as an Engineering Technician (Weapon Engineering) and completed an ET(WE)/ET(WE)(CIS) Career Course and ET(WE) personnel who have completed a next higher rate Qualifying Course (QC), which has been designed using the Individual Competency Framework (ICF). The streamed ET(WE) Promotion Flowcharts are applicable only to personnel who have completed an ICF designed Career Course or Qualifying Course required for the next higher rate. For Educational Requirements: (Ref Para 0751).

Promoted to – Warrant Officer First Class Engineering Technician (Weapon Engineering)

Notes:

1. Display required proficiency in current rate. In accordance with competences laid down in the ICF Competency Matrix and the ICF Competency Levels; achieved within the sea employment space, evidenced within the individuals CDJ, authorised by HOD.

2. New Entrants. All new entrants are rated Engineering Technician (Weapon Engineering) (ET(WE)2) or Engineering Technician (Weapon Engineering) (Communications and Information Systems) (ET(WE)(CIS)2) on joining HMS RALEIGH.

3. RNFT. Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate SED/CRD/CPD. See Para 6718 and Para 6703 b sub para (9) for the required JPA competence.

15 Para 9613 a sub para 3.
Notes:

4. **Provisional Examinations.** (BR 2000 (3)(1)).

a. Prior to undertaking the Provisional Examination, the following pre-requisites are to have been achieved:

   (1) Competent in current rate – Completed all mandated ICF competencies iaw the ICF Competency Matrix and the ICF Competency Levels, evidenced within the individual’s CDJ.

   (2) Completed 12 months sea service in current rank, JPA competence recorded iaw (Para 5908).

   (3) Recommended by Commanding Officer.

b. On completion of any sitting of a PE, in addition to the competence, the result is to be recorded as either ‘Pass’ or ‘Fail’ in JPA. Failure to record the result will result in automatic sift out action by SCIO for promotion boards.

c. Recommendation from sea for FT candidate from LET to POET should be considered for all personnel who have completed the PE for LET with a good pass and demonstrate the technical ability and CLM attributes of a potential senior rating. The recommendation is to be recorded on JPA as 'Professional Fast Track ET Candidate Navy', with supporting comments included by the 1 and 2 RO in their next SJAR.

d. If an individual is unable to achieve 12 months sea service prior to attempting their PE due to Service Reasons beyond their control, e.g. personnel assigned to a ship in build, they may apply to sit the PE provided that their CO/WEO considers that the individual demonstrates sufficient equivalent experience and meets the technical requirements of the next higher rate. This will be considered by exception via the respective Branch Manager SO1 and, if approved, will allow the individual, if successful at the PE, and qualified in all other respects by CRD, to be presented to the next promotion board and considered for selection to the next higher rank. This does not, however, remove the requirement to complete 12 months’ sea service prior to promotion (CPD), noting that the rules within Chapter 67 remain extant.

e. Currently CPO(ET) CIS are not required to complete a PQE due to the scarcity of sea assignments.
Notes:

5. **Individual Stream Preference.** The Individual’s Streaming Preference of Weapons, Sensors, CIS Spec or CIS Tech is to be recorded on JPA within the section Personal Preference Comments. The 1RO is to provide supporting evidence of suitability for the stream in the individual's SJAR.

6. **Recommendation for Promotion.** Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. For promotion up to the rate of PO, Streamlined Eligibility Dates (SED) of 31 Mar, 31 Jul and 30 Nov in any year will apply. If a streamlined promotion candidate has been awarded a positive recommendation for promotion (as above) in the last SJAR and, since that report, has become eligible in all other respects for selection, he/she will be placed before the Promotion Board.

7. **Selection Boards.** Selection Boards will be convened up to 3 times a year and the results of successful candidates announced on completion. ACOS(PCap) will endeavour to assign selected personnel to Qualifying Courses (QC) starting in the next training term but one.

8. **Failure to Complete Professional and/or Leadership Course.** Reference should be made to Para 6714 and 6703 b sub para 4 for rules on the impact on a rating’s promotion if he/she fails to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).

9. **Personnel who do not have sufficient length of service remaining to meet the requirement of any Return of Service (RoS) attached to a Qualifying Course (QC).** Personnel must agree on Form S61 (Para 5304 sub para f) to any extension of service (EoS) that may be required to cover the length of the course and associated ROS. Acceptance of the EoS will be required prior to commencement of the relevant QC.

10. **Pre-course Learning.** Pre-course learning is to be completed in accordance with the policy of the relevant Training School. Where this is not achieved, the suitability of the individual to undertake the course will be determined on a case by case basis by the Commanding Officer HMS COLLINGWOOD (not applicable to CIS Specialists).
Notes:

11. **The suitability of individuals to retake failed elements of the QC or the requirement to be back-classed.** The suitability of individuals to retake failed elements of the QC or be back-classed will be determined by the Commanding Officer HMS COLLINGWOOD. A repeat failure of part/all of the course may result in the individual being deselected; continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.

12. **Unsuitable Candidates.** Where, during the period of the Qualifying Course, candidates are found to be unsuitable for promotion to the next higher rate, they may be withdrawn from training by the Commanding Officer HMS COLLINGWOOD. In such cases, individuals will be deselected and will continue to serve in the lower rate. They will be eligible for future selection in normal course.

13. **Qualifying Courses and PE Failures.** For rules regarding failure, see Para 6912.

14. **Refusal to Undertake the QC.** If successful ratings decide to refuse the course, they will be deselected and continue to serve in their current rate.

15. **Award of General Service Weapon Engineering Charge Certificate.** The General Service Weapon Engineering Charge Certificate will be awarded on successful completion of the WO1QC.

---

**7506. ET(WE) Fast Track Scheme**

The Fast Track (FT) scheme will afford individuals an accelerated advancement route. Selection will be via a two stage process with multiple entry points available; initially at ET and subsequently at LET and POET. This takes account of individuals who develop at differing rates and gives a flexible career path to ensure that career progression through training and employment is better matched to the abilities of our technicians. For full details on the FT scheme, see Para 6808.

**7507. The WE Accelerated Apprentice Scheme**

From Nov 17 WEGS Accelerated Apprentices (AA) have been joining HMS RALEIGH as Probationary Leading Hands (see Para 6809) until they become Gains to the Trained Strength (GTS) as LETs, on completion of a 2 year bespoke training pipeline (see Annex 75F). Once GTS the AA will be subject to the normal selection process of a LET. The first intake for ESM AA will join HMS RALEIGH in Nov 18; they will be streamed MESM or WESM post SMQ(Dry). The WESM AA pipeline follows that of the UGAS but will finish at the completion of the First Shore Training Phase (see Annex 75B). Further detail on the AA scheme can be found at Para 6810. The AA Warnings and Failure policy is laid down at Annex 68A.
7508. Engineering Technician (Weapon Engineering) – Non ICF Promotion

The following rules apply to personnel who have not been trained via an ICF course and legacy Mechanics. On completion of an ICF qualifying course personnel will transfer to the ICF Trained promotion flowchart at Para 7505.

25 Para 6703 b sub para 6.
26 Para 6703 b sub para 2.
27 Para 6703 b sub para 3.
28 Para 9613 a sub Para 5.

75-18 of 53
February 2020 Version 1
**Notes:**

1. **New Entrants.** All new entrants are rated Engineering Technician (Weapon Engineering) (ET(WE)2) on joining HMS RALEIGH.

2. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate SED/CRD/CPD. See Para 6718. For JPA competence, see Para 6703.b sub para (9)).

3. **Provisional Examinations.** (BR 2000 (3)(1)):
   a. Prior to undertaking the Provisional Examination, the following pre-requisites are to have been achieved:
      
      (1) Competent in current rate – Completed all mandated ICF competencies iaw the ICF Competency Matrix and the ICF Competency Levels, evidenced within the individual’s CDJ.

      (2) Completed 12 months sea service in current rank, JPA competence recorded iaw Para 5908.

      (3) Recommended by Commanding Officer.

   b. Recommendation from sea for FT candidate from LET to POET should be considered for all personnel who have completed the PE for LET with a good pass and demonstrate the technical ability and CLM attributes of a potential senior rate. The recommend is to be recorded on JPA as 'ProfessionalFast Track ET CandidateNavy', with supporting comments included by the 1 and 2 RO in their next SJAR.

   c. If an individual is unable to achieve 12 months sea service prior to attempting their PE due to Service Reasons beyond their control, eg. personnel assigned to a ship in build, they may apply to sit the PE provided that their CO/WEO considers that the individual demonstrates sufficient equivalent experience and meet the technical requirements of the next higher rate. This will be considered by exception via the respective Branch Manager SO1 and, if approved, will allow the individual, if successful at the PE, and qualified in all other respects by CRD, to be presented to the next promotion board and considered for selection to the next higher rank. This does not, however, remove the requirement to complete 12 months’ sea service prior to promotion (CPD), noting that the rules within Chapter 67 remain extant.
Notes:

4. **Operational Performance Statement (OPS) as an ET(WE)1.** Awarded on successful completion of both the Task Book Section 2B and the formal OPS Assessment (within 36 months from completion of Phase 2 training). The Assessment is to be constituted in accordance with BR 2000(4) (oral aspects only).

5. **Stream Preference.** Preference CIS, Weapons or Sensors, is to be submitted into JPA, within the section Personal Preference Comments 1. The 1RO is to provide supporting evidence of suitability for the stream in the individual's SJAR.

6. **Failure to Complete Professional and/or Leadership Course.** Reference should be made to Para 6714 and 6703 b sub para 4 for rules on the impact on a rating’s promotion if he/she fails to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control). For rules regarding failure, see Para 6912 sub para f.

7. **Personnel who do not have sufficient length of service remaining to meet the requirement of any Return of Service (RoS) attached to a Qualifying Course (QC).** Personnel must agree on Form S61 (Para 5304 sub para f) to any extension of service (EoS) that may be required to cover the length of the course and associated ROS. Acceptance of the EoS will be required prior to commencement of the relevant QC.

8. **Pre-course Learning.** Pre-course learning is to be completed in accordance with the policy of the relevant Training School. Where this is not achieved, the suitability of the individual to undertake the course will be determined on a case by case basis by the Commanding Officer HMS COLLINGWOOD.

9. **Selection Boards.** Selection Boards are convened up to 3 times a year and the results of successful candidates announced on 31 Mar, 31 Jul and 30 Nov. ACOS(PCap) will endeavour to assign selected personnel to Qualifying Courses (QC) starting in the next training term but one.

10. **The suitability of individuals to retake failed elements of the QC or to be re-classed.** The suitability of individuals to retake failed elements of the QC or be re-classed will be determined by the OC WETG HMS COLLINGWOOD. A repeat failure of part/all of the course will result in the individual being deselected, continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.
**Notes:**

11. **Selection Boards.** Selection Boards will select CPOET(WE)s to be assigned to the WO1QC in the following training year. Shortly after each Selection Board has completed sitting, a signal originated by the Ratings' Promotions Section will promulgate the names of successful candidates in alphabetical order. ACOS(PCap) will endeavour to assign all ratings to WO1QC on an opportunity basis, but the needs of the Service remain paramount.

12. **Refusal.** As is customary in a selection process, successful ratings will have the opportunity of refusing the course. Those doing so will be deselected and continue to serve in their current rate.

13. **Failure.** If a candidate fails the WO1QC, his/her suitability to retake the course or elements therein will be considered by the Commanding Officer HMS COLLINGWOOD. A repeat failure of all/part of the course will result in deselection and the rating continuing to serve as a CPOET(WE). Suitability for future WO1QC will be through the selection process and will be dependent on the rating’s performance as reported by SJAR.

14. **Unsuitable Candidates.** Whilst on the WO1QC, if candidates are found to be unsuitable for promotion to WO1ET(WE), they may be withdrawn from training by the Commanding Officer HMS COLLINGWOOD; they will be deselected, continue to serve as CPOET(WE)s and will be eligible for future selection in normal course.

15. **EFP Requirement for WO1.** The EFP requirement for consideration for selection for WO1 will not apply to any WO2ET(WE) GS who has been promoted to Warrant Officer under previous EFP regulations.

7509. **Engineering Technician (Weapon Engineering Submarine) – Non ICF Trained Personnel – Promotion Flowchart**

[The following rules apply to personnel who entered the RN from April 2006 and legacy Mechanics and Operator Mechanics, post higher rate or enabling QCs, who transferred to the ET specialisation as part of the branch development process]

**ET(WESM) PROMOTION FLOWCHART**

**ET(WESM)1 – Advancement Criteria**

a. Completed Part 1 New Entry Training and Part 2 ET (WESM) Career Course (see Notes 1, 2).

b. Completed Phase 2 training - SMQ(North) or (South) – SMQ(Dry) (see Note 2).

c. Completed Phase 3 training - Submarine – SMQ(Wet).

e. Recommended for advancement to ET1 by HOD (see Note 4).

f. In date RNFT, remain engaged in remedial training or waiver obtained on date due advancement (see Note 5).

g. At least 6 months since last Career Check (if any) on date due advancement.

**ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINE) 1**

**Leading Engineering Technician (WESM) – Pre-Selection Requirements**

b. Awarded OPS on successful completion of Assessment: recorded as JPA competence ‘Professional|OPS for ET(WESM)|Navy’ (see Notes 6, 7).

c. Educationally qualified for promotion (EFP) in accordance with Para 9636. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics at Streamlined Eligibility Date (SED) and competence ‘Educational|RN/RM QELH/Cpl|Navy’ recorded on JPA.

d. Recommended for promotion on Appraisal Report at SED (Para 6703.b sub para (3)).

e. Serving on a ES1FC/OE1 that expires after the nominated Common Promotion Date (CPD) (Para 6703.b sub para (7)).

f. In date RNFT, remain engaged in remedial training or waiver obtained at SED. (Para 6703.b sub para (9)) (see Note 5).
Leading Engineering Technician (WESM) – Pre-Promotion Requirements

g. Minimum 24 months length of service remaining post career course at RNSMS (see Note 8).

h. Completed LET(WESM) Qualifying Course by nominated CPD+12 months (see Notes 7, 9, 10, 11).

i. Completed Leading Rates Leadership Course (LRLC) (Para 6703.b sub para (5)) (see Note 11).

j. In date RNFT, remain engaged in remedial training or waiver obtained at nominated CPD (or when eligible for promotion if later) (Para 6703.b sub para (9)) (see Note 5).

k. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
LEADING ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINE)

Petty Officer Engineering Technician (WESM) – Pre-Selection Requirements

b. Awarded OPS on successful completion of Assessment as detailed in BR 2000(4): recorded as JPA competence ‘Professional|OPS for LET(WESM)|Navy|’ (see Note 7).

c. EFP in accordance with Para 9636. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at SED and competence ‘Educational|RN/RM QEPO/Sgt|Navy|’ recorded on JPA.

d. In date RNFT, remain engaged in remedial training or waiver obtained at SED (see Note 5).

e. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

f. Recommended for promotion on Appraisal Report at SED (Para 6703.b sub para (4)).

Petty Officer Engineering Technician (WESM) – Pre-Promotion Requirements

g. Minimum 36 months length of service remaining post career course at MWS (see Note 8).

h. Completed POET(WESM) Qualifying Course by nominated CPD+12 months (see Notes 7, 9, 10, 11).
i. Completed Senior Rates Leadership Course (SRLC) (Para 6703.b sub para (5)) (see Note 11).

j. In date RNFT, remain engaged in remedial training or waiver obtained at nominated CPD (or when eligible for promotion if later) (see Note 5).

k. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to

PETTY OFFICER ENGINEERING TECHNICIAN
(WEAPON ENGINEERING SUBMARINE)

Chief Petty Officer Engineering Technician (WESM) – Pre-Selection Requirements

b. Minimum 12 months’ sea service as a POET, recorded as ‘CMS|12 Months Sea Time PO|Navy’ (Para 6905).

c. Minimum of 3 years’ seniority as a POET 12 months prior to the CPD (Para 6703.b sub para (3)).

d. In date RNFT, remain engaged in remedial training or waiver obtained at Common Reporting Date (CRD) (see Note 5).

e. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

f. Recommended for promotion on Appraisal Report at CRD (Para 6703.b sub para (4)).

Chief Petty Officer Engineering Technician (WESM) – Pre-Promotion Requirements

g. In date RNFT, remain engaged in remedial training or waiver obtained at nominated CPD (or when eligible for promotion if later) (see Note 5).

h. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Note. Refer to Para 7510 and Para 7511 for information on the reserved advancement rights that apply to ex-Artificers.
Warrant Officer 1 Engineering Technician (WESM) – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as CPOET(WESM) 12 months prior to the CPD – this includes all substantive WO2ET(WESM)s (see Note 13).

b. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. In date RNFT, remain engaged in remedial training or waiver obtained at CRD (see Note 5).

d. EFP in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competence recorded on JPA (see Note 14).

e. Recommended for promotion on Appraisal Report at CRD (Para 6703.b sub para (4)).

Warrant Officer 1 Engineering Technician (WESM) – Pre-Promotion Requirements

f. In date RNFT, remain engaged in remedial training or waiver obtained at nominated CPD (or when eligible for promotion if later) (see Note 5).

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).
## Notes:

1. All new entrants are rated Engineering Technician (Weapon Engineering Submarine) 2 (ET(WESM)2) on entry. CIS Streamed individuals are streamed on entry, TWS and SWS are streamed on completion of their professional training course.

2. Part 2 training is completed at HMS COLLINGWOOD and then either the Submarine School at HMS RALEIGH or Trident Training Facility, HM Naval Base Clyde. All ET(WESM)s will undertake the Submarine Escape Training Tank (SETT) and Submarine Qualification (SMQ) after Part 1 training.

3. Purposely blank.

4. On completion of ET(WESM) Task Book Part 1 and on being recommended, ratings will be advanced to ET(WESM)1.

5. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate SED/CRD/CPD (see Para 6718). For JPA competence, see Para 6703.b sub para (9)

6. Operational Performance Statement (OPS) as an ET(WESM)1 is awarded on successful completion of both the Task Book Part 2 (within 12 months’ sea service for TWS stream and 18 months’ sea service SWS stream) and the formal OPS Assessment. The Assessment is to be constituted in accordance with BR 2000(4) (oral aspects only). On award of OPS, ET WESM TWS individuals are to submit their WESM preferences on JPA in the Employees Preference, Comments 1 by stating “WESM Preference: CIS, FC, Sonar or W”. ET WESM CIS and SWS are already streamed.

7. Rules regarding failure and lack of progress (see Fig 75-3).

8. Personnel who do not have sufficient length of service remaining to meet the requirement of the Return of Service attached to the LET QC or POETQC may be offered an extension of service (EoS) or Extended Career (EC). Acceptance of the EoS or EC will be required prior to being loaded onto QC. Failure to accept an EoS or EC will lead to the candidate being automatically de-selected.

9. Selection Boards will be convened up to 3 times a year and the results of successful candidates announced on 31 Mar, 31 Jul and 30 Nov. ACOS(PCap) will endeavour to assign selected personnel to Qualifying Courses (QC) starting in the next training term but one.
10. The suitability of individuals to retake failed elements of the QC, or to be back classed, will be determined by the OC WETG HMS COLLINGWOOD. A repeat failure of part/all of the course will result in the individual being deselected, continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.

11. Failure to Complete Professional and/or Leadership Course. Refer to Para 6716 for rules on the impact on a rating’s promotion if he/she fails to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith control) or non-service reasons (within control).

12. Spare.

13. This includes all substantive WO2ET(WESM).

14. **EFP Requirement for WO1.** The EFP requirement for consideration for selection for WO1 will not apply to any WO2ET(WESM) who has been promoted to Warrant Officer under previous EFP regulations.
Figure 75-2. ET (WESM) - Rules Regarding Failure

- SMQ/ET(WESM) Career Course: Action in accordance with Chapter 51 Section 2 or Chapter 57 Section 7
- ET(WESM) Task Book Part 1
  - complete within 6 months sea service for TWS stream or 9 months sea service for SWS stream.
  - Recommendation for advancement to ET(WESM).
  - Action in accordance with Para 6912 sub para i, Chapter 51 Section 2 or Para 6902 sub para c.
- ET(WESM) Task Book Part 2 and OPS Assessment within 12 months sea service for TWS stream and 18 months sea service for SWS stream.

Promoted to – WARRANT OFFICER FIRST CLASS ENGINEERING TECHNICIAN

Notes:

1. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate SED/CRD/CPD. See Para 6718. For JPA competence, see Para 6703.b sub para (9)).

2. **ET(WE)(CIS)1 Career Course.** The final Comms|AB(CIS)1/AB(CISSM)1 Career (Comms 202)|Navy|Career Course was run in Q1 18 and all remaining ET1 CIS Specialist now hold the competence.

3. **Failure to Complete Professional and/or Leadership Course.** Reference should be made to Para 6716 for rules on the impact on a rating’s promotion if he/she fails to complete PQC and/or LRLC/ SRLC before CPD or within 12 months of CPD due to service reasons, non-service reasons (outwith own control) or non-service reasons (within own control). For rules regarding failure, see Para 6912 sub para f.

---

44 Para 6703 b sub para 6.
45 Para 6703 b sub para 3.
46 Para 9613 a sub Para 5.
Notes:

4. **Personnel who do not have sufficient length of service remaining to meet the requirement of any Return of Service (RoS) attached to a Qualifying Course (QC).** Personnel must agree on Form S61 (Para 5304 sub para f) to any extension of service (EoS) that may be required to cover the length of the course and associated ROS. Acceptance of the EoS will be required prior to commencement of the relevant QC.

5. **Pre-course Learning.** Pre-course learning is to be completed in accordance with the policy of the relevant Training School. Where this is not achieved, the suitability of the individual to undertake the course will be determined on a case by case basis by the Commanding Officer HMS COLLINGWOOD.

6. **Rules Regarding Failure and Lack of Progress.** See BR 3 Chap 75 Fig 75-1.

7. **Selection Boards.** Selection Boards are convened up to 3 times a year and the results of successful candidates announced on 31 Mar, 31 Jul and 30 Nov. ACOS(PCap) will endeavour to assign selected personnel to Qualifying Courses (QC) starting in the next training term but one.

8. **The suitability of individuals to retake failed elements of the QC or to be re-classed.** The suitability of individuals to retake failed elements of the QC or be re-classed with be determined by the OC WETG HMS COLLINGWOOD. A repeat failure of part/all of the course will result in the individual being deselected, continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.

9. **Annual OPS Check.** Annual OPS must be completed and recorded on JPA prior to attending LET(CIS) / POET(CIS) Spec QC. ‘CMS|Annual OPS Check|Navy’.

10. **Professional Certification Record.** On completion of PO PQC, individuals will be issued a Professional Certification Record. This record is to be completed within 12 months of joining first sea going Unit as a PO. Once completed, the following competence is to be awarded by the Unit HR Admin: 'Professional|OPS for PO LQ30|Navy'.

11. **Selection Boards.** CPOET(CIS) will be assigned to the WO1QC in the following training year. Shortly after each Selection Board has completed sitting, a signal originated by the Ratings' Promotions Section will promulgate the names of successful candidates in alphabetical order. ACOS(PCap) will endeavour to assign all ratings to WO1QC on an opportunity basis, but the needs of the Service remain paramount.
Notes:

12. **Refusal.** As is customary in a selection process, successful ratings will have the opportunity of refusing the course. Those doing so will be deselected and continue to serve in their current rate.

13. **Failure.** If a candidate fails the WO1QC, his/her suitability to retake the course or elements therein will be considered by the Commanding Officer HMS COLLINGWOOD. A repeat failure of all/part of the course will result in deselection and the rating continuing to serve as a CPOET(WE). Suitability for future WO1QC will be through the selection process and will be dependent on the rating’s performance as reported by SJAR.

14. **Unsuitable Candidates.** Whilst on the WO1QC, if candidates are found to be unsuitable for promotion to WO1ET(WE), they may be withdrawn from training by the Captain HMS COLLINGWOOD; they will be deselected, continue to serve as CPOET(WE)s and will be eligible for future selection in normal course.

15. **CPO and WO QCs.** Legacy CIS SR are to complete both CPO (WE 320) and WO QCs (WE 535). Once the candidate has successfully completed the relevant course, they will not be issued a CDJ or required to complete a PE at this stage. They will continue to conform with the promotion tables detailed in BRd 3(1) and the extant RNTM.
7511. Engineering Technician (Weapon Engineering Submarines) CIS - Entered as Warfare CISSM and transferred to WE Branch in April 2015

ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINES) (COMMUNICATION INFORMATION SYSTEMS SUBMARINES) – PROMOTION FLOWCHART

The following rules apply to personnel who entered the RN as a Warfare CIS Specialist and transferred to the Weapon Engineering Branch on 1 Apr 15.

ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINES) (COMMUNICATIONS INFORMATION SYSTEMS) 2

b. Completed Phase 2 training - SMQ(North) or (South) – SMQ(Dry).

c. Completed Phase 3 training - Submarine – SMQ(Wet).

d. Completed OJT TB - at OPS as ET(WESM)(CIS), authorised by HOD. OPS is to be recorded under ‘Professional|OPS for AB (CISSM)(QQ50)|Navy’ (see Note 1).

e. In date for Royal Naval Fitness Test (RNFT), remain engaged in remedial training or waiver obtained on date due advancement.

f. At least 6 months since last Career Check (if any) on date due advancement.

Advanced to

ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINES) (COMMUNICATIONS INFORMATION SYSTEMS) 1

Leading Hand - Pre-Selection Requirements

a. Complete ET(WE)(CIS)1 Career Course (pre-requisite for LH PQC) (see Note 2). Recorded in JPA as ‘Comms|AB(CIS)1/AB(CISSM)1 Career Course|Navy’ or Warfare|AB(CIS) TEM|Navy

b. Achieve full OPS as an ET(WESM)(CIS)1 recorded as JPA competence ‘Professional|OPS for AB(CISSM)|Navy’ (see Note 1).

d. Serving on ES1/Full Career (FC)/OE1 that expires after the nominated Common Promotion Date (CPD) (Para 6703 b sub para (7)).

e. Recommended for promotion on Appraisal Report on SED. (Para 6703 b sub para (4))
Leading Hand – Pre-Promotion Requirements

f. Minimum 24 months length of service remaining post career course at RNSMS.

g. Educationally qualified for promotion (EFP) in accordance with Para 9636. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics and competence “Educational|RN/RM QELH/Cpl|Navy|” recorded on JPA.

h. Completed Leading Rates Leadership Course (LRLC) and recorded as JPA competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|’.

i. Passed LH PQC by nominated CPD+12 months.

j. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

k. In date RNFT, remain engaged in remedial training or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

l. In date Annual OPS Check recorded as JPA competence 'CMS|Annual OPS Check AB1|Navy|' (see Note 3).

Promoted to
LEADING ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINES)
(COMMUNICATIONS INFORMATION SYSTEMS)

Petty Officer – Pre-Selection Requirements

a. Completed generic OJT TB and TEM OJT TB. Achieved OPS as LH. OPS is to be recorded under ‘Professional|OPS for LS(CISSM) QQ40|Navy|’ (see Note 1).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7)).

c. Recommended for promotion on Appraisal Report on SED (Para 6703 b sub para (4))

Petty Officer – Pre-Promotion Requirements

d. Minimum 36 months length of service remaining post career course at RNSMS.

e. 12 months’ sea service (excluding Squad time ashore where applicable) since passing LH PQC at CPD. Recorded as JPA competence ‘CMS|12 Months Sea Time LH|Navy|’ (Para 6905).
f. Senior Rates Leadership Course (SRLC) completed by nominated CPD and recorded as JPA competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy' (Para 6716).

g. Passed PO PQC by nominated CPD+12 months (Para 6912 and 6913)'
h. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

i. EFP in accordance with Para 9636. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and competence "Educational|RN/RM QEPO/Sgt|Navy" recorded on JPA.

j. In date RNFT, remain engaged in remedial training or waiver obtained at nominated CPD (or when eligible for promotion (if later)).

k. In date Annual OPS Check recorded as JPA competence 'CMS|Annual OPS Check LH|Navy' (see Note 3).

**Promoted to**

**PETTY OFFICER ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINES) (COMMUNICATIONS INFORMATION SYSTEMS)**

**Chief Petty Officer – Pre-Selection Requirements**

a. Complete PO’s Professional Certification Record (see Note 4).

b. Achieved OPS as a PO recorded as JPA competence ‘Professional|OPS for PO(CISSM) AQ30|Navy’ as appropriate (QP - Para 7904 sub para f) (see Note 4).

c. Minimum of 3 years’ seniority as a PO 12 months prior to the CPD (Para 6703 b sub para (3)).

d. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD (Para 6703 b sub para (7)).

e. Completed Senior Rates Leadership Course (SRLC) and recorded as JPA competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy'.

f. Recommended for promotion on Appraisal Report at Common Reporting Date (CRD) (Para 6703 b sub para (4)).

**Chief Petty Officer – Pre-Promotion Requirements**

g. 12 months’ sea service as a PO. Recorded as JPA competence 'CMS|12 Months Sea Time PO|Navy' (Para 6905).

h. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)).
i. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINES) (COMMUNICATIONS INFORMATION SYSTEMS)

Warrant Officer 1 – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPO 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

c. Recommended for promotion on Appraisal Report at CRD (Para 6703 b sub para (4)).

Warrant Officer 1 – Pre-Promotion Requirements

d. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)).

e. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

f. EFP in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competence recorded on JPA.

Promoted to
WARRANT OFFICER 1 ENGINEERING TECHNICIAN (WEAPON ENGINEERING SUBMARINES) (COMMUNICATIONS INFORMATION SYSTEMS)
Notes:

1. **CISSM Branch Training - Career Progression**
   
a. **Training Performance Statements, On Job Training Task Books and Operational Performance Standard.** On successful completion of Professional Qualifying Courses for AB2, LS and PO, an ET(WESM)(CIS) rating will have attained the Training Performance Statement (TPS) for the current rate. Individuals will be issued with the appropriate OJT Task Book (TB) or a Professional Certification Record (PCR). In the subsequent sea assignment, a rating will be deemed to have achieved Operational Performance Standard (OPS) on successful completion of the core career OJT section of the relevant TB (TPS+OJT= OPS) for AB/LS and PCR for PO. On achievement of OPS as an AB1, LS and PO, the Training Co-ordinator must inform the unit Human Resource (HR) administrator so that the relevant competences are input to JPA. When an individual is advanced to AB1, the HR administrator is to ensure a Promotion Authorisation Request (PAR) is signalled to their parent Career Management Cell (CMC) who will authorise the promotion and change the rank on JPA. It is important that achievement of OPS is input to JPA before the PAR date; thus stating that the rating has achieved OPS before attempting to be advanced to AB1. A rating’s OPS is defined and owned by the Branch Manager.

   b. **Mechanism for Unacceptably Slow Progression.** It is entirely possible that some ratings may not achieve OPS. Within the Engineering Branch there is no scope to employ individuals who cannot or will not progress themselves beyond AB2. It must be realised that AB2s are employed primarily to gain experience and to advance to a higher rate. It therefore follows that the ultimate sanction for those who cannot or will not progress beyond AB2 is the application for an administrative discharge on the grounds of un-employability. Within CISSM specialisations an initial warning is set at 12 months from the end of Phase 2 Training (unless it has been given earlier support with unequivocal statements of non-recommendation for promotion in an Appraisal Report). Warnings will then continue 3-monthly within the Appraisal process for an aggregate total of 18 months under warning, whereupon application for administrative discharge on the grounds of un-employability will be sought.
Notes:

2. **ET(WE)(CIS)1 Career Course**

   a. On advancement to ET(WESM)(CIS)1, individuals will be required to attend the ET(WE)(CIS)1 Career course at MWS Collingwood. The course syllabus contains Information Systems (IS) only and provides the knowledge for the rating to act as a Junior/Assistant Systems Administrator onboard. This course builds on the IS knowledge gained during their ET(WE)(CIS)2 course (IS Module for ET(WE)(CIS)2 has been embedded as a core skill since 2009). Attendance and successful completion of this course is a mandatory requirement for pre-selection for LH and attendance on the LH PQC. On successful completion of this course, the rating will be awarded the following competence:

   Comms|AB(CIS)1/AB(CISSM)1 Career (Comms 202)|Navy|

   b. Ratings who joined the RN as an OM(C) were encouraged to attend transition courses post NBPCP and migration to AB(CIS). These ratings were offered two variants of training: attendance at a two week transition course (during the initial phase of the transition), and latterly attendance at a five week TEM course. The competences awarded for these courses differ from the competence above. Therefore, ratings who attended and successfully completed these courses have been awarded the following competence:

   Warfare|AB(CIS) TEM|Navy|

   c. Both competences are acceptable pre-selection requirements to be presented to the LH Promotion Board.

   d. On completion of the ET(WE)(CIS) Career Course (Comms 202), ratings will receive an OJT TB to bring them to full OPS as an ET1 (in both C and IS elements). Ratings who attended the TEM courses were also provided with a supplementary OJT package to be completed alongside their legacy task books. Completion of both ET(WE)(CIS)1 Task Book and also the supplementary OJT Packages supplied with the TEM course will enable the rating to be awarded with the following competence:

   Professional|OPS for AB(CIS)1 LQ50|Navy|

   e. This competence is also a mandated requirement for pre-selection for the LH Promotion Board.
Notes:

3. Annual Operational Performance Training (OPT) Examination

   a. Annual OPS Check. All personnel are expected to remain at OPS while building up experience towards promotion. Lead Schools will define and regulate the standards required to pass an Annual OPS Check and will promulgate them to Fleet Units. Guidance on the process of conducting OPS checks is given in BR 1984.

      (1) Maintenance of OPS is to be monitored through an annual OPS Check process co-ordinated by the Warfare Training Co-ordinator who is to ensure that sufficient opportunities are provided for this purpose within the constraints of the manpower planning cycle.

      (2) Ratings assigned to positions outside of core warfare disciplines are expected, where possible, to maintain OPS. However, it is recognised that this may not be possible due to location and employment patterns. Therefore, all individuals re-joining Front Line Units from shore assignments are to be given an OPS check as soon as practical after arrival, recorded on JPA as: ‘CMS|Annual OPS Check AB1|Navy’.

      (3) An Annual OPS Check is not a pre-selection requirement.

      (4) An Annual OPS Check is a pre-requisite for all Promotion Career Courses for AB-LS and LS-PO and for promotion to the next higher rank at Common Promotion Date.

      (5) Divisional Officers or Line Managers of ABs and LHs who are serving ashore when selected for the next higher rate are to arrange for an Annual OPS check via the OPT facilities within three months of the individual attending Promotion Career training.

      (6) OPS qualifications will be checked on attendance of LH and PO Career Course training. Ratings who are not in date for an Annual OPS Check will be returned to Unit.
Notes:

b. The OPT examination forms part of the annual OPS Check and is valid for 12 months from the date of the examination. The examination is to be conducted at the OPT Facility in either Faslane or Devonport. Ratings assigned or loaned to units outside of these geographical locations are to contact the OPT Facility Faslane (93255 6110) to request authorisation to conduct an ‘outstation OPT examination’.

4. Professional Certification Record. On completion of PO PQC, individuals will be issued a Professional Certification Record. This record is to be completed within 12 months of joining first sea going Unit as a PO. Once completed the competence ‘Professional|OPS for PO(CISSM)|Navy’ is to be awarded by the Unit HR Admin.

7512. Legacy Rules - Senior Rate Weapon Engineering Mechanics (GS or SM) - Adult Entry (Final Entry November 1992) – Promotion Flowchart

| PETTY OFFICER WEAPON ENGINEERING MECHANIC (O) or (R) |

Chief Petty Officer WEM – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a POWEM 12 months prior to the CPD (Para 6703 b sub para (3)).

b. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7)).

c. Recommended for promotion on Appraisal Report at CRD.

Chief Petty Officer WEM – Pre-Promotion Requirements

d. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion if later) (Para 6703 b sub para (9)).

e. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to

| CHIEF PETTY OFFICER WEAPON ENGINEERING MECHANIC (O) or (R) |

Warrant Officer 1 WEM – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPOWEM 12 months prior to the CPD.

b. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.
c. Recommended for promotion on Appraisal Report at CRD.

Warrant Officer 1 WEM – Pre-Promotion Requirements

d. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion if later).

e. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

f. Educationally qualified for promotion (EFP) in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competence recorded on JPA.

Engineering General Service Mechanic Route to Warrant Officer 1 Charge Qualification

h. All GS CPOWEM(O),(R) are also entitled to conduct their PE as per CPOET(WE) personnel. Successful completion of the PE for WEM GS personnel will result in eligibility to compete for promotion to WO1 ET as per the table below.
7513. Undergraduate Apprentice Scheme (UGAS) (WESM) – In-service Promotion Flowchart

a. The following rules apply to In-Service UGAS(WESM) applicants accepted onto UGAS(WESM). In-service candidates join the scheme at a point commensurate with their training/experience. Their rate is the higher of:

(1) The rate held immediately prior to joining UGAS(WESM).
(2) The rate commensurate with their starting point in the UGAS(WESM) pipeline (see Note 1)

b. Details of UGAS(WESM) are laid down in the scheme CONOPS held by the UGAS(WESM) Manager. An overview of the scheme is included at Annex 75A and the scheme CONOPS at Annex 75B.

c. In Service UGAS(WESM) ratings are advanced as follows:

<table>
<thead>
<tr>
<th>ET2(WESM)</th>
</tr>
</thead>
</table>

**ET1 Advancement Criteria**

a. Completed SMQ (Dry).
b. Recommended for advancement to ET1 (see Notes 1, 2).
c. RNFT status is in accordance with RN policy for promotions (see Note 3),
d. At least 6 months since last Career Check (if any) on date due advancement.

<table>
<thead>
<tr>
<th>Advanced</th>
</tr>
</thead>
</table>

**LET Advancement Criteria**

a. Educationally qualified for promotion in accordance with Para 9638. Achieved minimum NAMET 5:5 or Level 1 Functional Skills (or equivalent) in English and Mathematics and competence "Educational|RN/RM QELH/Cpl|Navy|" recorded on JPA.
b. Recommended for advancement to LET (see Notes 1, 4).
c. Passed LET Qualifying Course (WESM) (LET WE 214).
d. Completed Leading Rates Leadership Course (LRLC) successfully (Para 6703 b sub para (5)).
e. RNFT status is in accordance with RN policy for promotions (see Note 3).
f. At least 6 months since last Career Check (if any) on date due advancement.

g. Started Specialist Maintainer Training.

Advanced LET(WESM)

Acting POET Advancement Criteria

a. The Due Date for advancement to Acting POET for UGAS(WESM) personnel is the successful completion of both POETQC (WE316) and SRLC.

Advanced to Acting POET(WESM)

POET Advancement Criteria

a. EFP in accordance with Para 9638. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at SED and competence ‘Educational|RN/RM QEPO/Sgt|Navy’ recorded on JPA.

b. Recommended for advancement to POET (see Note 1)

c. RNFT status is in accordance with RN policy for promotions (see Note 3).

d. Completed POET(WESM) Qualifying Course.

e. Completed post QC Specialist training.

f. Completed Senior Rates Leadership Course (SRLC) (Para 6703 b sub para (5)).

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

h. Qualified as Duty Fwd Technical SR (A Class) or Duty TWS SR (V Class) or passed Ship Board (SWS).

Advanced to POET(WESM)

Thereafter promotion will be in accordance with ET(WESM) regulations at Para 7511.
Notes:

1. **Failures and Removal.** Failure of any one of the UGAS (WESM) pipeline courses or training targets will be dealt with in accordance with the UGAS (WESM) Failure Criteria laid down in the scheme CONOPS which can include removal from the scheme. On removal from the scheme, ratings are transferred to an appropriate point in the standard ET(WESM) pipeline. They will then only be eligible for promotion to LET or POET on selection in accordance with Para 7511 and will have no further opportunity to be considered for UGAS (WESM).

2. **Unsuitable for Service in Submarines.** Candidates will be removed from the scheme should they prove to be unsuitable during Phase 1 training. COs are to raise any issues with the UGAS Manager.

3. **RNFT.** Ratings’ RNFT status (including engagement with remedial training if applicable) must be at or above the minimum requirement to allow substantive promotion under the extant RN promotions policy.

4. **Promotion.** In Service UGAS (WESM) applicants remain eligible for selective promotion to LET until they become a UGAS (WESM) Candidate. Once selected as a UGAS (WESM) candidate they will not be presented to an LET Promotion Board although any extant selection for promotion will remain valid if it occurs earlier than advancement under UGAS (WESM).

### 7514. Submarine Service – Career on a Page

a. The purpose of the Weapon Engineer (SM) Career on a Page is to provide a quick look at possible career progression to enable informed decisions to be made. Timelines are indicative averages and are always subject to change. Master documents should always be consulted to ensure that the latest information is available.

b. Ratings are advised to liaise with their Reporting Officer regarding any decisions concerning their careers prior to contacting the Branch or Career Manager. Career Managers for Senior Ratings are located at HMS EXCELLENT, West Battery; Junior Ratings Career Managers are located in the Naval Base Career Management Cells (CMC).

c. Information pertaining to Ratings training pipeline is contained within the Weapon Engineer Branch (SM) Career on a Page. Information relating to allowances and benefits available during the duration of a career is shown in the Table below.
d. Ratings seeking promotion to the Officer Corps can do so via the Upper Yardman (UY)\textsuperscript{47} or Senior Upper Yardman (SUY)\textsuperscript{48} schemes, details of which may be found in Chapter 50.

e. Optional Exit Points. Ratings in receipt of RRP(SM) may be eligible to submit an Optional Exit Point application which will enable them to leave the service at an earlier point than their current Termination Date without any loss of RRP; full details can be found in Annex 54K.

\textsuperscript{47} Ratings must be over the age of 17 and below the age of 30 for Warfare, 35 for Engineers and 32 for LOGS. Candidates are required to have 5 GCSE’s grade A-C of non-overlapping subjects including English and Maths.

\textsuperscript{48} Ratings must be over the age of 26 (30 for Engineers) and have a minimum of 4 years to serve as an officer from the day that officer training commences. Candidates are required to have English and Maths GCSEs to allow papers to be raised and 2 other non-overlapping GCSEs or equivalents prior to final selection board.

Academic year starts in September

Timings are guidelines only

Note: At the end of the scheme, candidates have the following options:
1. If an AB has been achieved and candidates are selected, join BRNC as a prospective WESM Engineering Officer.
2. Request to transfer to the standard ET career path at a normal progression through the ET (WESM) cadre.
3. Leave the Service
ANNEX 75A

UNDER-GRADUATE APPRENTICESHIP SCHEME WEAPON ENGINEER
(SUBMARINES) UGAS(WESM) - OVERVIEW

1. The Undergraduate Apprenticeship Scheme (UGAS) aims to significantly accelerate the advancement of appropriately able and specifically recruited ET candidates to qualify and serve as POET Operator and Maintainers in submarines. During SMQ training, the scheme streams candidates as either as Marine Engineer (Submarines) technicians under UGAS(MESM) or Weapon Engineer (Submarines) technicians under UGAS(WESM).

2. UGAS has two different categories of membership, ‘new-to-service’ and ‘in-service’. The scheme is primarily designed to attract new-to-service although it has invited applications from in-service candidates. Opportunities for in-service personnel to apply are promulgated by RNTM when in-service places become available.

3. UGAS(WESM) involves a commitment of approximately 8½ years from new-to-service candidates which can be summarised as follows:
   a. 4 years (approx) of Initial Training, SMQ, LET(WESM) and POET(WESM) career/specialist courses. It also includes some sea experience as a qualified LET(WESM).
   b. Approximately 3½ years sea-service which must include a minimum of 3 years qualified service as a POET (WESM).
   c. One year in-service BEng(Hons) Engineering Degree at the University of Portsmouth.

4. At the end of the scheme candidates have the following options:
   a. Leave the Service. Note that the BEng degree does not attract a Return of Service for UGAS(MESM) candidates.
   b. If an AIB pass has been achieved during the engagement and they are selected; join BRNC as a prospective WESM Engineer Officer.
   c. Request to transfer to the standard ET career pipeline and continue progression with the ET(WESM) cadre.

5. Candidates are required to inform their Career Manager of their end of scheme option prior to the start of their University degree.

6. Recruitment of UGAS(WESM) Candidates
   a. The recruitment process for UGAS candidates is detailed at Para 0914. Candidates join as ESM and are streamed MESM or WESM during SMQ training.
b. New-to-service members join the Service on a Tailored Career Agreement (Example at Annex 75C).

7. Assignment of UGAS(WESM) Candidates

a. UGAS(WESM) candidates are assigned by the same career management authorities that assign ET(WESM)s, although UGAS(WESM) managers will liaise with CMs to advise on scheme requirements. UGAS(WESM) career pipelines are provided below which can be used to inform assignment decisions.

b. UGAS(WESM) candidates complete the following career pipeline:

8. Monitoring and Management of UGAS(WESM) Candidates

a. The ATA(SM) will monitor the progress of UGAS(WESM) candidates through liaison with Divisional Officers, CMCs and line managers. UGAS(WESM) candidates remain subject to the normal warning procedures regarding lack of progress. However, DOs/LMs should contact the ATA(SM) if a scheme candidate becomes subject to such procedures as additional UGAS actions may be required.

b. UGAS(WESM) candidates are accelerated to POET upon qualification as a POET(WESM) watchkeeper. It is incumbent upon Divisional Officers/Line Managers to provide scheme candidates with appropriate mentoring and to ensure candidates undertake a wide range of development opportunities which support their ultimate aim of becoming Senior Ratings.

c. In the event that a DO/LM has concerns regarding a candidate’s continued suitability for UGAS(WESM), they should contact the ATA(SM) as soon as is practicable to agree an appropriate course of action.

d. The ATA(SM) manages the scheme to the requirements of the WESM Branch Managers. The team is responsible for the scheme’s Concept of Operations including its terms and conditions and Units/DOs/LMs should contact the UGAS(WESM) Managers for specific advice about the scheme as the need arises.

9. UGAS Warning System

a. In addition to the conventional warning procedure contained within Chapter 57, UGAS Engineering Technicians (ETs) also become subject to the UGAS Warning System once they have completed Phase 1 training, until the end of their involvement in the scheme. This warning system is designed to explain the process and consequences that might arise should an individual continue to fail to meet the high professional and personal standards expected of a UGAS candidate. It ensures that the candidate’s shortfalls and recovery requirements are clearly identified, understood and acknowledged by the individual, while allowing a reasonable period of time to effect the required improvement.

b. DOs, training providers and line managers of UGAS candidates should inform the ATA(SM) of any concerns with individual’s performance and any instance where a standard training/professional warning has been issued. The ATA(SM) will determine if additional UGAS associated action is required.

c. In order to de-risk the scheme and allow re-allocation of spaces on downstream courses, the UGAS Warning System allows removal of candidates if they are unlikely to achieve POET in a timely manner, for either technical/academic or CLM failings.

d. UGAS warnings follow a 3 tier structure (Verbal, Written and Final) and are issued and recorded by the ATA(SM). The ATA(SM) will liaise with Reporting Officers if raising a SJAR is necessary. UGAS Final Warnings can result in a candidate’s removal from the scheme. If warranted, the ATA(SM) may issue higher level warnings without first issuing any lower tier warnings. Appeals against warnings are considered by the Branch Manager.
e. **Issue of Verbal Warning.** If a UGAS candidate’s performance\(^1\) fails to meet UGAS standard, the ATA(SM) may initiate a formal review of the candidate’s performance. This may result in a Verbal Warning to the candidate which will detail the problem(s); the proposed solution; the timescale for review; the future process; and the likely consequences, where improvement is not forthcoming.

f. **Verbal Warning Review.** The usual period of review is the longer of the end of the UGAS phase that the candidate is currently pursuing or 3 months. At the end of the review period, the ATA(SM) will again formally review the candidate’s performance to determine if the requisite improvement has been made. The ATA(SM) will either remove the Verbal Warning from the candidate’s UGAS record or escalate the warning to a Written Warning. In exceptional circumstances, the ATA(SM) may extend the review period for the Verbal Warning. Further failings in a candidate’s performance may also warrant escalation to an immediate Written Warning.

g. **Issue of Written Warning.** If escalation is required, the ATA(SM) will issue a Written Warning to the candidate which will reiterate the on-going problem; the proposed solution; the timescale for review; the future process and the likely consequences if improvement is not forthcoming. The narrative will substantiate the escalation of the UGAS warning by elaborating on the Subject’s prevailing weaknesses and/or unsatisfactory professional effectiveness. The candidate is to certify in writing that they understand why the UGAS Warning has been escalated and the advice given. The Written Warning will be retained by the ATA(SM) and a copy provided to the candidate.

h. **Written Warning Review.** The usual period of review is the longer of: the end of the UGAS phase that the candidate is currently pursuing or 3 months. At the end of the review period, the ATA(SM) will again formally review the candidate’s performance to determine if the requisite improvement has been made. The ATA(SM) will either remove the Written Warning from the candidate’s UGAS record or escalate the warning to a Final Warning. In exceptional circumstances, the ATA(SM) may extend the review period for the Written Warning. Further failings in a candidate’s performance may also warrant escalation to a Final Warning.

i. **Issue of Final Warning.** If further escalation is required, the ATA(SM) will issue a Final Warning to the candidate which will reiterate the on-going problem; the proposed solution; the timescale for review; the future process and the likely consequences, if improvement is not forthcoming. The narrative will substantiate the escalation of the UGAS warning by elaborating on the Subject’s prevailing weaknesses and/or unsatisfactory professional effectiveness. The candidate is to certify in writing that they understand why the UGAS Warning has been escalated and the advice given. The Final Warning will be retained by the ATA(SM) and a copy provided to the candidate.

---

\(^1\) Exam failures, continued record of just passes, poor study application etc.
j. **Final Warning Review.** The usual period of review is the longer of: the end of
the UGAS phase that the candidate is currently pursuing or 3 months. At the end
of the review period, the ATA(SM) will again formally review the candidate’s performance
to determine if the requisite improvement has been made. The ATA(SM) will either:

1. Remove the Final Warning from the candidate’s UGAS record,

2. Retain the Final Warning and re-issue it to the candidate informing them of
the extension to the Final Warning, giving reason for the decision and the date
on which the review of the Final Warning will be made,

3. Remove the candidate from the UGAS scheme in accordance with the
candidate’s Tailored Agreement.

10. Contact details for the ATA(SM) are:

NAVY PCAP-CM ATA ESM
1. Intent

a. The intent of UGAS (WESM) is to mitigate shortfalls of WESM Maintainers at Petty Officer level. It will achieve this by taking very able new-to-service candidates, with high academic achievement, and accelerate them along the WESM ET career path by undertaking the following 6 phases as follows:

(1) **Initial Training Phase.** Scheme will conduct Phase 1 new entry training at HMS RALEIGH as probationary LETs and will then be assigned to the Submarine Qualification (SMQ) organisation to complete general submarine training, some of which may be in an operational submarine. This could lead to the award of Submarine Badge (Dolphins). During SMQ, candidates will be streamed MESM or WESM. On successful completion of SMQ(Dry) (including Firefighting and submarine escape training) candidates will be awarded the appropriate engineering branch badge and ‘HM Submarines’ cap tally. At this point they will be designated as Phase 3 trainees, although they will remain on the Untrained Strength. This phase will take approximately 6 months in total, including an engineering safety course at HMS SULTAN and a developing leadership course at HMS COLLINGWOOD.

(2) **First Shore Training Phase.** Candidates will then be assigned to HMS Collingwood to attend:

   (a) WE213 or WE 214 LETQC (HMS Collingwood).

   (b) Leading Rates’ Leadership Course (LRLC).

   (c) Specialist training at RNSMS or the Trident Training Facility or FAST.

This phase of training will take approximately 2 years. Subject to satisfying service and eligibility criteria, candidates will substantiated as LET at the end of the LET training pipeline (ie. LETQC, LRLC and WESM specialist training). On successful completion of the LETQC, they will be awarded an Advanced Apprenticeship in Engineering and on successful completion of the whole LET training pipeline they will join the trained strength (GTS).

---

1 As a minimum, new to service UGAS candidates are required to complete SMQ (Dry) prior to LETQC.
Sea Training Phase. UGAS (WESM) candidates will then be assigned to an operational submarine to re-affirm their submarine qualification (BSQ) and to qualify in either a TWS or SWS LET WESM watchkeeping position (dependent on specialisation). They must be carefully managed in order to conduct maintenance and repair tasks under supervision; gaining experience in operations, maintenance, section management and repair. This ‘journeyman’ phase of their career should take no more than 12 months. Unforeseen changes to submarine programmes or personal circumstances could extend this period.

Second Shore Training Phase. After their sea training phase, candidates will return to HMS COLLINGWOOD to attend the WE 317 Petty Officer Engineering Technician Qualifying Course (POETQC), the Senior Rates’ Leadership Course (SRLC) and further specialist training as required. This phase will last approximately 28 weeks, during which candidates will complete the Engineering Foundation Degree. This phase also includes the Due Date for advancement to POET for UGAS(WESM) personnel, which is successful completion of both POETQC (WE316) and SRLC. The standard advancement regulations for Engineering Fast Track Ratings (Chapter 68) will apply to UGAS candidates with the following exceptions and clarifications:

(a) The inability of UGAS candidates to attend all POET career training and qualify as a POET watchkeeper before their Due Date, because of their training pipeline design, is considered to be due to service reasons outside their control. Hence UGAS candidates should be considered for advancement to Acting POET on their Due Date.

(b) The advancement qualification period for UGAS candidates is 12 months from their Due Date. For this period UGAS candidates will retain an entitlement for backdated advancement when they finally become eligible for confirmation as a POET. Failure to meet the advancement criteria beyond this period is to be dealt with in accordance with the normal regulations.

(c) UGAS candidates are only eligible for advancement to Acting POET (ie. are not entitled to substantive promotion) prior to qualifying as a POET watchkeeper (ie. the entitlement of Engineering Fast Track Ratings who have completed Leadership Course (LC) by their due date to be advanced substantively in line with their Select, Train and Promote peers does not apply to UGAS candidates). Substantiation as POET is subject to the extant UGAS advancement criteria.

(d) The timing of the Due Date for advancement to POET was changed on 2 Sep 19. UGAS candidates who, on this date, were already beyond their Due Date for advancement to POET have no entitlement to any retrospective or backdated advancement prior to 2 Sep 19. The standard advancement qualification period for such candidates will end 12 months after successful completion of POETQC (WE316).
(5) **Sea Delivery Phase.** Candidates will be assigned to an operational submarine to conduct onboard training to qualify as Tactical Weapons Senior Rate or Strategic Weapons System Senior Rate. Once qualified and subject to eligibility criteria, they will substantiated as Petty Officer Engineering Technicians. Service as a Section Head will be at the discretion of the Weapon Engineer Officer but UGAS (WESM) candidates are expected to achieve Section Head within one year of qualifying. This phase of their career will last approximately 38-44 months but must include a minimum of 36 months’ qualified POET WESM service, during which they will complete or be deemed to have completed any RoS outstanding for LET and POET QCs.

(6) **University Degree Phase.** The exact timing of the end of the sea delivery phase will be based around a number of factors: the need to serve a minimum of 36 months as a qualified POET WESM; any leave they have outstanding and the pre-requisites required before candidates start the 3rd year of the University of Portsmouth/Upper Yardman (Engineer) degree course to top up their Foundation Degree to BEng(Hons). Whilst reading for their degree, candidates will remain serving in the RN under Thunderer Squadron. There is no RoS for attaining the BEng. Prior to starting at the University of Portsmouth, candidates will be required to indicate to the career management authorities which of the paths at Para 4 below they will choose upon the posting of their degree results.

b. **Options Upon Completion of the Scheme.** On completion of their one year of university study, New-to-Service UGAS (WESM) members will have the following 3 choices:

(1) Transfer to the standard ET career pipeline where further progression will be subject to the normal rules for promotion.

(2) If an AIB pass has been achieved and they have been selected, join BRNC as a prospective WESM Engineer Officer (see Annex 75A para 4.a above).

(3) Leave the Service in accordance with the Tailored Career Agreement.

c. The UGAS (WESM) is therefore a minimum 8.5 year engagement which is planned to generate a POET WESM watchkeeper/maintainer approximately 3.5 years from entry to complete a minimum of 36 months qualified service. The duration of their sea assignment is variable to allow scheme members to serve a minimum of 36 months qualified before departure from their submarine to match the September start to the academic year and June pre-degree mathematics module.

d. This scheme will not replace the ET WESM Fast Track/restructured ET pipeline, but should be seen as running in parallel and could be continued or stopped as required. It is therefore NOT an immediate solution to the POET WESM shortage but allows greater future WESM flexibility and adaption to successor submarine requirements.

---

2 June Maths module is a pre-requisite for the UY degree scheme.
3 Academic year starts in September.
4 This is a minimum because it is not possible to align exact qualification and training times, sea draft duration and Portsmouth University Degree start dates at this range.
e. It is envisaged that the cohort of UGAS(WESM) will be small (18 to qualify as either TWS or SWS POETs per year as required by WE Branch Management) and therefore it does not set a precedent for the way all submariners are recruited, managed or employed. Nevertheless, there are areas where these individuals will need to be treated differently from the standard Service entrants and they will need to be carefully, and on occasion preferentially managed, as they progress along the scheme’s pipeline.

2. Recruitment

a. The scheme targets recruitment from a demographic of high achievers with proven academic ability. Potential candidates will be drawn from civilian personnel who already hold a minimum of level 3+ STEM qualifications (eg. A Levels, BTech, HNC/D NVQ level 3). Although candidates will be badged as ETs, and mixed with conventional ETs during training, the scheme will be separate from the current ET system and candidates will need to be managed by the ATA(SM) in conjunction with the CMCs and senior rate CMs.

b. The following premise underpins the scheme. A high quality\(^5\) candidate is recruited to an approximate 8½ year engagement\(^6\) with the offer of paid training and education that delivers an in-service engineering degree at the end of the scheme. The candidate’s remuneration and reward rises rapidly to a significant figure at the 6 year point and continues during their final year on the scheme where they complete the UY degree at Portsmouth University. During the scheme this quality individual could attend an AIB to widen the available options open to them upon graduation.

c. The important factor is that the choice belongs to the individual; this is a recruiting lure. In return, the Service expects significant application from the individual during shore and sea training followed by approximately 4 years sea service, of which 3 years will be as a qualified PO(ET) WESM.

f. **Entry Requirements.** Full UGAS entry requirements may be found on the Royal Navy Website in the ‘Careers’ section. In summary, UGAS entry requirements are as follows:

1. Age on entry of 18 – 34 years.
2. Be a British Citizen and not hold dual nationality.
3. Score 90 or more on the Recruit Test (not on CNR website).
4. Hold the following qualifications (equivalent qualifications are acceptable and NUGAS applications can be made before exam results are known):
   a. 5 x GCSE at grade A*- C including Maths, English and at least one science based subject.

---

\(^5\) Aged 18-34, 3 A levels (Math, science, other), RT score \(\geq 80\) other equivalent L3 STEM qualification.
(b) Level 3 qualifications achieving a minimum of 48 UCAS points derived from Science, Technology, Engineering and Maths subjects.

(c) Equivalent Level 3 or higher STEM qualifications (BTEC, HNC etc) are also acceptable. Full details are included in the UGAS CONOPS held by the ATA(SM).

3. Terms and Conditions of Service

a. **New to Service Candidates.** The approximate 8½ year engagement is non-NEM compliant, but candidates will be engaged using a Tailored Career Agreement (example at Appendix to this Annex). However, SM programmes, training delays and the exigencies of Service life may delay progress along the UGAS(WESM) career pipeline. Therefore, it may be necessary to extend their Tailored Career Agreement to allow sufficient time for candidates to obtain the minimum 36 months qualified sea service and align the end of this to the start of the degree phase\(^7\). This is a function of the UGAS Scheme Manager.

b. **In-Service Candidates.** In Service candidates who have been selected onto the scheme they will be required to progress their training. Internal candidates should complete their initial career course and then attend SMQ. Any opportunities to consolidate ET initial career training should be taken prior to their assignment to LETQC (ie. similar to Fast Track). Internal candidates will remain on their extant engagement (EC, ES1) but will also be issued with a signed agreement (Annex 75C) outlining their agreed progress through the scheme.

c. All candidates will be given a competence marker (UGAS) on their JPA record to denote their membership of the scheme.

d. UGAS(WESM) candidates are badged as ETs and are trained alongside normal ETs and FTs.

e. **Failures.** Failures or voluntary withdrawals during training are required to complete any RoS incurred during training and will be offered progression along the normal ET route. The only exception is for new-to-service candidates who withdraw from the scheme before qualification as a LET(WESM). These individuals must be considered on an individual basis. It may be in the interests of the Service to waive the RoS requirement and allow them to leave the Service.

f. UGAS (WESM) will train only V and A class POETs. Training and sea experience at LET can be delivered for any existing SM platform.

\(^7\) In exceptional circumstances, candidates may be offered an opportunity to extend their engagement by 1 year to complete their training/sea assignments and attend Portsmouth University 1 year later than originally planned.
4. **Training**

a. The UGAS scheme attempts to utilise existing courses within HMS COLLINGWOOD/RNSMS/TTF and avoid the need to develop new courses or re-sequence the existing training plan. There is a requirement, however, to conduct some electrical safety testing training to ensure all new-to-service candidates can safely attend the practical modules of LETQC and subsequent specialist training.

b. SMQ is a valuable qualification that will set an SM context before commencing specialist shore training and education. This is a de-risking activity that gives candidates a first exposure to submarines before the Service invests significant elements of shore training in them\(^8\).

5. **Employment Onboard**

a. Despite having received maintainer education and training, UGAS (WESM) experience levels will be low when they qualify as POET WESMs. Therefore, given their limited experience profile as a maintainer, each operational SSN crew will be expected to sustain two UGAS (WESM) individuals (of different sub-specialisms) or three for SSBNs (2 TWS and 1 SWS) per year. Candidates will need to be carefully managed on and across platforms in order to maximise their experience profile and opportunity to learn. With the WEO’s approval, they can operate as a section head\(^9\). At this point the submarine may then be able to tolerate another UGAS (WESM) member. While constrained in its numbers, the scheme will alleviate forecast gapping at sea and bring relief to POET WESM alongside watchbills. These individuals will be able to perform operations and maintenance, but are not able to immediately act as a Section Head or mature diagnostician.

b. Experience will need to be built up in the first year onboard as a POET, however the quality of the individual supports the case for rapid learning abilities, whilst allowing for later selection as Upper Yardman or accelerated promotion to Warrant Officer.

6. **Management of the Scheme**

a. The UGAS Scheme Manager function is undertaken by the ATA(SM). Administration includes:

1. Liaison and communication inform the actions of CNR staff, Career Managers, SubFlot and training deliverers et al to ensure flow along this novel career pipeline is as effective and efficient as possible.

2. The ATA(SM) is required to carry out the following functions:

   a. Communicate, encourage and mentor candidates and, where necessary, interview them during recruiting and training.

---

8 Note qualifying SMQ(Wet)/BSQ is not compulsory prior to starting LETQC.
9 Full POET maintainer status will be gained on WEO recommendation for and appointment as a Section Head.
(b) Liaise with CMC, training providers and CM to expedite rapid progress of candidates through training and education and ensure advancement.

(c) Liaise with CM to ensure appropriate first drafts as LETs to maximize their 12 month sea training phase.

(d) If necessary, manage any extension of their Tailored Career Agreement to allow sufficient time to obtain the minimum 36 months qualified sea service and align the end of this to the start of the degree phase\textsuperscript{10}.

(e) Maintain overview of resource implications eg. UY scheme cost, SUL MWS capacity, margin during training and UY degree.

(3) The RoS for the in-service degree is to be waived and this agreement is written into the Tailored Career Agreement for new-to-service candidates and the UGAS(MESM) agreement for in-service candidates.

(4) The Foundation Degree (FD) awarded during POET QC is a fundamental aspect of the UGAS entry path and is not to be diluted to an apprenticeship.

b. **Interviews.** UGAS applicants will undergo an interview to determine suitability for the scheme which will be conducted by the ATA(SM) or CNR staff.

\textsuperscript{10} In exceptional circumstances, candidates may be offered an opportunity to extend their engagement by 1 year to complete their training/sea assignments and attend Portsmouth University 1 year later than originally planned.
ANNEX 75C

EXAMPLE UGAS TAILORED CAREER AGREEMENT (NEW TO SERVICE CANDIDATES)

Note. this form is to be read in conjunction with its associated S3049 UGAS (DATE) - Notice/Attestation Form for entry/re-entry into or continuation in the Naval Service to serve on a TAILORED CAREER For The RN Under Graduate Apprenticeship Scheme – RN UGAS.

OFFER OF A TAILORED CAREER TO:

NAME: ..........................................................

GENERAL TERMS AND CONDITIONS FOR NEW ENTRANTS OR RE-ENTRANTS JOINING THE ROYAL NAVY’S UNDERGRADUATE APPRENTICESHIP SCHEME - (RN UGAS)

It should be noted that:

Any offer made is dependent upon you meeting the required medical/fitness standards and security clearance/nationality status requirements for entry.

This letter outlines the main terms and conditions which will apply. You will also be subject to the terms and conditions in other publications and should note that terms and conditions are liable to change. Significant changes will usually be published through internal briefs and temporary memoranda, but Joint and single service references are amended regularly and you may not specifically be made aware of those which affect you. You will be treated in accordance with the terms and conditions extant at the relevant time and should ensure you remain up to date on policy which affects you. If in doubt, please make enquiry through your Divisional line management.

1. Date of Entry

You will join HMS RALEIGH on (DATE) in order to undertake Phase 1 training as a member of the Royal Navy’s Undergraduate Apprenticeship Scheme (here after known as UGAS).
2. **Career**

a. You will initially enter on a Tailored Career (TC) of 8½ years. At this range it is expected that you will start your degree in *(DATE)*, with your service expected to end on *(DATE)* (after the posting of your graduation results from the University of Portsmouth/Upper Yardman (Engineer) degree course). However, the length of this TC may need to be altered due to the uncertainties of submarine operations (which can delay sea training), the exact timing of training courses starting more than 3 years in the future, your own abilities, unforeseen changes in your personal circumstances and the need to align the end of your sea service with the start of the university academic year. This could require that your TC is marginally shortened or extended. Any such extension will be agreed with you as a normal aspect of managing a TC.

b. UGAS is designed to accelerate individuals through the RN’s general engineering and submarine training and education programme in approximately 4 years, in order to serve as a qualified Petty Officer Engineering Technician for a minimum of 36 months in either the ET(MESM) or ET(WESM) sub specialisation. Qualified POET service is defined as either:

(1) ET(MESM): Category B Nuclear Watchkeeper (Reactor Panel Operator²/Main Control Desk Operator³, or Marine Engineering Technician of the Watch⁴⁵), or

(2) ET(WESM): Qualified Tactical Weapon System or Strategic Weapon System Maintainer & watchkeeper.

During the first part of your service you will be streamed by the RN as either UGAS(MESM) or UGAS(WESM) to serve in the ET(MESM) or ET(WESM) sub specialisations respectively. Once streamed you will have no right to transfer to the other sub specialisation. If you choose to stay in the RN at the end of UGAS, you still will not have a right to transfer to another specialisation.

c. At the end of the Scheme, you will have a choice of:

(1) Requesting to continue in the RN as an ET(MESM) or ET(WESM) on an Engagement Stage 2 which will extend your career to 20 years’ service or age 40, whichever is later.

(2) Entering the Officer Corps as a MESM or WESM sub-specialist on the Upper Yardman or Senior Upper Yardman schemes (dependent upon age), subject to passing the Admiralty Interview Board⁶ (AIB) and being selected.

---

¹ This could occur in the preceding academic year.
² ASTUTE Class.
³ VANGUARD Class.
⁴ VANGUARD Class.
⁵ ASTUTE Class.
⁶ The AIB is normally sat prior to the start of the Upper Yardman Degree Course.
Leaving the RN with a BEng (Hons) degree and substantial Nuclear Engineering experience which will provide you with an exceptional basis to move into a civilian career, particularly if you pursue opportunities in the wider MOD and UK Nuclear and Submarine Enterprise.

You will be required to inform your Career Manager which of these options you intend to follow at least 12 months before the end of your TC. This will allow RN career management decisions and arrangements to be made.

3. **Rate, Seniority and Pay**
   You will enter the Royal Navy in the rank of probationary Leading Hand with a seniority of *(DATE)* and will be referred to as Leading Engineering Technician MESM. Your Incremental Basic Date will be *(DATE)* and your pay will be OR4-1 Supp 3.

4. **Discipline**
   You will be subject to normal disciplinary regulations in accordance with the Armed Forces Act 2006 and any disciplinary action which would normally result in reversion or disrating may cause the termination of your TC. You will also be subject to compulsory drug testing in accordance with current guidelines.

5. **Deploy ability**
   Although you will have the same worldwide deployment liability as a regular Service Person, as a member of the UGAS, you have been recruited specifically for service in submarines.

6. **Statutory Discharge and Notice Period**
   a. On entry to the RN, if you are a new recruit with no former RN service, you will have a statutory right to give 14 days’ notice of your wish to leave within your first 6 months of service, providing that you have completed a minimum of four weeks’ service (excluding any leave periods or time forfeited). Thereafter, your on-going training and education will attract a return of service (RoS) to reflect the RN’s significant investment in ensuring that you are able to serve as a qualified POET(MESM) or POET(WESM) for a minimum of 3 years before you start your BEng degree. The current RoS for training courses that form part of the UGAS training pipeline are detailed at Para 17. Your ability to usefully serve a RoS is dependent upon how far you have progressed along the UGAS pipeline such that you are able to qualify to serve as a technician in a submarine. Therefore and at the discretion of the Branch Manager your RoS may be waived.

   b. When not subject to a RoS, you will be eligible to submit 12 months’ notice of your wish to leave the Royal Navy; however, if you take this option, you will be removed from the UGAS and placed at an appropriate point in the standard Engineering Technician (MESM or WESM as appropriate) career pipeline to serve out the outstanding period. However, this is also dependent upon how far you have progressed along the UGAS pipeline such that you are able to qualify to serve as a technician on a submarine; therefore and at the discretion of the Branch Manager, your 12 months’ notice may be waived.
7. **Transfer to another Branch or Specialisation**

There will be no opportunity to transfer to another branch or specialisation whilst you are on the Scheme unless it is in the interests of the service.

8. **Entry to the Officer Corps**

If you pass an Admiralty Interview Board (AIB) whilst on the scheme and are subsequently selected for the Officer Corps, you will not be allowed to enter BRNC until you have completed the sea delivery phase as a qualified POET(MESM) or POET(WESM). It should be noted that Upper Yardman (Engineer) officers similarly cannot join BRNC until successfully completing the BEng degree course at the University of Portsmouth.

9. **Advancement**

Subject to meeting your training targets and the mandated advancement criteria set out in this letter, including passing an annual Royal Naval Fitness Test, you will become eligible for consideration for accelerated advancement to the rates of substantive Leading Engineering Technician and Petty Officer Technician during your time on the UGAS. Thereafter, your advancement will be in accordance with the standard promotion criteria detailed in BRd 3(1) Part 8, with selection based on merit, qualification, recommendation and requirement. In addition, you may be eligible for promotion to the acting higher rate on a local acting basis if there is a Service need eg. a vacancy at the higher rate within your role/organisation.

10. **Transfer to a Longer Career or Extension to your Tailored Career**

   a. If your training is delayed such that you are unable to complete your sea delivery phase and university phase within this TC the following rules apply:

   (1) If your training is delayed for Service reasons (eg. due to submarine programmes), an appropriate extension to your TC will be offered. If you elect to refuse an extension, you will lose your entitlement to attend university if you fail to complete the sea delivery phase.

   (2) If your training is delayed due to personal reasons, an extension of service may be offered. If an extension is not offered or if an extension offer is refused, you will lose your entitlement to attend university if you fail to complete the sea delivery phase.

   b. You will not be eligible to transfer to another Engagement Stage or be considered for an Extended Career until you have completed your sea delivery phase. At this point, subject to satisfactory service, you can request to transfer to an ES2 in order to extend your service to be able to complete a total of 20 years or serve until age 40 (whichever is the later). Thereafter, further extensions of service or transfers to longer engagements may be offered if there is a Service requirement. Service on a TC is permitted up to the day before an individual’s 55th birthday or up to 11 years’ service in total and is totally dependent on the needs of the Service.

---

7 For example, CO’s recommendation, in-date RN Fitness Test, passed appropriate training courses.
11. UGAS – Outline Career Description

a. Your training and career pipeline will be as follows:

(1) **Initial Training Phase (Common).** You will complete Phase 1 new entry training at HMS RALEIGH (indicative salary £31,100) and will then be assigned to the Submarine Qualification (SMQ) organisation to complete general submarine training, some of which will be on an operational submarine. Subject to service opportunities (eg. submarine availability), you may qualify as a submariner and gain your Submarine Dolphins during this phase. This phase of your training will take approximately 6 months in total, (indicative salary will be £31,100). Part way through this phase you will be streamed UGAS(MESM) or UGAS(WESM), and you will also attend an engineering safety course at HMS SULTAN and a developing leadership course at HMS COLLINGWOOD.

(2) If you are streamed UGAS(MESM), on completion of the Initial Training Phase:

   (a) **First Shore Training Phase.** You will then be assigned to HMS SULTAN to complete any enabling training required before attending the Leading Engineering Technician’s (LET) Qualification Course for submariners (ME 176 LETQC(SM)), ME257 Mechanical or ME256 LET Propulsion Electrical Maintainer, the Leading Rates Leadership Course (LRLC), and ME301 Nuclear Propulsion Systems Course (NPSC) and appropriate Craft and Adqual courses. This phase of training will take approximately 15 months. You will be advanced to the rate of substantive Leading Engineering Technician at the end of NPSC, subject to satisfying service and eligibility criteria. On successful completion of the LETQC, you will be awarded an Advanced Apprenticeship in Engineering.

   (b) **Sea Training Phase.** You will then be assigned to an operational submarine to qualify or re-affirm your submarine qualification and train and qualify as a Category D Watchkeeper, Category C Electrical Panel and Main Machinery Space Operator and Nuclear Propulsion Plant Shut Down Supervisor. At this point, you will be eligible for submarine pay and Category C nuclear pay (indicative total salary £36,700). On qualifying as a submariner you are also eligible for a £5,000 Golden Hello. You will conduct electrical maintenance and repair tasks under supervision; gaining experience in operations, maintenance, section management and repair. This ‘journeyman’ phase of your career path should take no more than 12 months and must include a minimum 6 months qualified as a Category C Watchkeeper and 3 months qualified as a Shut Down Supervisor. Unforeseen changes to submarine programmes or your own personal circumstances could extend this period.

---

8 For example ME258 or ME259 Mechanical Craft courses
9 RRP(SM).
10 RRP(NP).
(c) **Second Shore Training Phase.** After your sea training phase you will return to HMS SULTAN to attend the ME264 Petty Officer Engineering Technician Qualifying Course (POETQC), the ME265 POET Advanced Propulsion Electrical Maintainer Course or ME266 POET Advanced Propulsion Mechanical Maintainer Course, the ME304 Nuclear Propulsion Operators Course (NPOC), the Senior Rates Leadership Course (SRLC), the ME267 Foundation Degree module and appropriate specialist training modules. Completion of these courses will conclude your shore based training on the UGAS(MESM); this phase can last approximately 13 months. During this phase, you will complete your Engineering Foundation Degree.

(d) **Sea Delivery Phase.** You will be assigned to an operational submarine to conduct onboard training to qualify as a Category B Watchkeeper (Reactor Panel Operator/Main Control Desk Operator or ME Technician of the Watch) and electrical or mechanical systems maintainer, shutdown supervisor and deputy section head. Upon qualification as a Category B Watchkeeper, subject to eligibility criteria, you will be considered for advancement to Petty Officer Engineering Technician. Service as a Section Head will be at the discretion of the Marine Engineering Officer but UGAS(MESM) candidates are expected to achieve Section Head status within a year of qualifying as a Category B Watchkeeper. This phase of your career will last approximately 38-44 months but must include a minimum of 36 months’ qualified Category B service (indicative salary £42,500 - £48,500 per annum) and will see you complete any RoS outstanding for LET and POET training.

(e) **University Degree Phase.** The exact timing of the end of your sea delivery phase will be based around a number of factors: the need to serve a minimum of 36 months as a qualified Category B operator; any leave you have outstanding and the pre-requisites you need to complete before you start the 3rd year of the University of Portsmouth/Upper Yardman (Engineer) degree course to top up your Foundation Degree to BEng(Hons). Whilst reading for your degree, you will still be serving in the RN and will, therefore, continue to be subject to the Armed forces Act 2006. There is no RoS for attaining your BEng. Before you start your first term at the University of Portsmouth, you must inform the RN career management authorities which of the paths at Para 3 you will follow upon completion of your final examinations and the posting of your degree results.

---

11 For example ME303 courses – Diesel Maintainer, Primary Instrumentation Maintainer, Refrigeration and ACP Maintainer.
12 Dependent upon class of submarine.
13 Maths module currently delivered in June is a pre-requisite for the UY degree scheme.
14 Academic year starts in September.
(3) If you are streamed UGAS(WESM), on completion of the Initial Training Phase:

(a) **First Shore Training Phase.** Lasting approximately 2 years, you will be assigned to HMS COLLINGWOOD to attend the Leading Engineering Technician Qualifying Course (LETQC). Subject to satisfying service and eligibility criteria, you will be advanced to LET(WESM) at the end of specialist maintainer training (either TWS or Strategic Weapon System (SWS)). On successful completion of LETQC, you will be awarded an Advanced Apprenticeship in Engineering.

(b) **Sea Training Phase.** You will then be assigned to an operational submarine to re-affirm your submarine qualification and train/qualify in an appropriate WESM watchkeeping position. You will also conduct electrical or mechanical maintenance and repair tasks under supervision, gaining experience in operations, maintenance, section management and repair. This ‘journeyman’ phase of your career path should take no more than 12 months and must include a minimum 6 months qualified.

(c) **Second Shore Training Phase.** After your sea training phase, you will return to HMS COLLINGWOOD to attend the Petty Officer Engineering Technician Qualifying Course (POETQC). You may also attend additional specialist training dependant on WESM Streaming at either the RNSMS or the Trident Training Facility. Completion of these courses will conclude your shore based training for UGAS (WESM). This phase will last approximately 40 weeks, during which time you will complete your Foundation Engineering Degree.

(d) **Sea Delivery Phase.** This phase of your career will last a minimum of 36 months qualified as a POET (WESM) maintainer in either the TWS or SWS sub departments, during which time you will be assigned to an operational submarine to conduct onboard training to qualify within your specialisation and working towards Deputy Section Head. Upon qualification as TWS Senior Rate or Ship board for SWS personnel, subject to eligibility criteria, you will be considered for advancement to POET. Service as a Section Head will be at the discretion of the Weapon Engineering Officer but UGAS (WESM) candidates are expected to achieve Section Head within one year of qualifying.
(e) **University Degree Phase.** The exact timing of the end of your sea delivery phase will be based around a number of factors: the need to serve a minimum of 36 months as a qualified POET (WESM) maintainer; any leave you have outstanding and the pre-requisites\(^{15}\) you need to complete before you start\(^{16}\) the 3\(^{rd}\) year of the University of Portsmouth/Upper Yardman (Engineer) degree course to top up your Foundation Degree to BEng(Hons). Whilst reading for your degree, you will still be serving in the RN and will, therefore, continue to be subject to the Armed forces Act 2006. There is no RoS for attaining your BEng. Before you start your first term at the University of Portsmouth, you must inform the RN career management authorities which of the paths at Para 3 you will follow upon completion of your final examinations and the posting of your degree results.

b. The UGAS Manager: ATA ESM WO1, Rm 46, Argyll Building, HMS NEPTUNE, HMNB CLYDE, G84 8HL | Mil: 93255 5310 | BT: 01436 674321 x 5310 | DIIF: NAVY PCAP-CM ATA ESM | NAVYPCAP-ATAESM@mod.gov.uk who should be contacted if you have any queries.

c. **Removal from the Scheme.** Your Career/UGAS Manager may remove you from the UGAS if you fail to meet your training targets in a timely manner or you are deemed unsuitable for further training\(^{17}\). In such circumstances, you will be transferred to an appropriate point in the standard ET(MESM) career pipeline and your case will be dealt with in accordance with the normal rules which can include discharge. If you are retained, you will still be subject to the normal notice period or any RoS you have accrued in return for the qualifications achieved and training received. If you become unsuitable for service in submarines, you will be transferred to an appropriate point in the standard ET(ME) career pipeline and your case will be dealt with in accordance with the normal rules which can include branch transfer or discharge. Probationary LETs will be re-rated ET1.

12. **Return of Service for Training**

a. The aim of the UGAS is to secure 36 months’ **qualified** sea service from individuals as a qualified POET(MESM) or POET(WESM). This requires the RN to make a substantial training and educational investment in you. Certain elements of this training will attract a RoS, as laid out below and, consequentially, you will not be eligible to submit your notice to leave the RN during the course or the associated ROS, with the exception of the last 12 months of any RoS, i.e. the last year of a RoS and the 12-month notice period can run concurrently. Your ability to usefully serve a RoS is dependent upon whether you have progressed along the UGAS pipeline far enough to able to qualify to serve as a technician on a submarine; therefore, and at the discretion of the Branch Manager, your RoS/notice period may be waived if you have not progressed sufficiently.

\(^{15}\) Maths module currently delivered in June is a pre-requisite for the UY degree scheme.

\(^{16}\) Academic year starts in September.

\(^{17}\) Eg. Exam failures and low academic performance.
b. Towards the end of a successful completion of the sea delivery phase, you will be enrolled on the University of Portsmouth degree course, however, the RoS which is typically associated with Upper Yardman (Engineer) (UY(E)) officers undertaking the BEng course is not applicable to UGAS(MESM/WESM) candidates on the basis that it forms an integral part of the UGAS(MESM/WESM) offer. Your entitlement to attend the University of Portsmouth/UY(E) degree course is conditional upon you completing the sea delivery phase (ie. providing a minimum 36 months’ sea service as a qualified POET(MESM) or POET(WESM) Watchkeeper).

c. During the University phase, you will continue to be paid your RN salary and enjoy standard Service entitlements common to UY(E) officer candidates at the University of Portsmouth. As a result, you will not be subject to tuition fees or any RoS for the degree that you obtain. Your UGAS commitment will conclude 30 days after your degree results are posted and will be reflected in your TC final end date.

13. **Leave Entitlement/Career Intermissions**

Entitlement to Annual Leave will be in accordance with JSP 760 Chapter 1, whereas your entitlement to Maternity/Paternity/Parental Leave will be in accordance with JSP 760 Chapters 20-23. You will have no entitlement to a Career Intermission on this TC. However, should you take Maternity/Paternity/Parental Leave and delay your progression you will require an extension to your TC; noting that attendance upon the university phase is still conditional on completion of the sea delivery phase (ie. a minimum of 36 months’ qualified sea service as a qualified POET(MESM) or POET(WESM)).

ANY LEAVE NOT TAKEN BEFORE COMPLETION OF THIS AGREEMENT WILL BE FORFEITED.

14. **Appraisal Reporting**

Appraisal Reports are to be completed at normal reporting cycles in accordance with JSP 757.

15. **Honours and Awards**

You will be entitled to receive honours and awards, including campaign medals, as long as you meet the same eligibility criteria as a regular Service Person.
16. **Medical/Dental Care**
   You will be entitled to full medical/dental care.

17. **Accommodation**
   You will be entitled to Service Family Accommodation or Single Living Accommodation, as appropriate.

18. **Continuity of Education Allowances (CEA)**
   You will only be entitled to CEA where you have the same worldwide deployment liability as a regular Service Person and also meet the criteria in JSP 752 Chapter 9. You will need to obtain a CEA Eligibility Certificate (see Para 6).

19. **Relocation Allowances (DA/RE)**
   You will only be entitled to relocation allowances where you have the same worldwide deployment liability as a regular Service Person and also meet the criteria in JSP 752 (see Para 6).

20. **Pension Scheme**
   If you are a re-entrant then you are advised to contact the JPAC Enquiry Centre at Mail Point 465, Kentigern House, 65 Brown Street, GLASGOW G2 8EX (telephone: 0141 224 3600) prior to accepting these terms for detailed advice on your entitlement to a pension or the impact on your pension if already awarded. In accordance with Treasury rules, those in receipt of an Armed Forces pension are liable to have that pension abated on re-employment in the Forces. Where an individual has taken resettlement commutation and their pension in payment is subject to abatement in whole or in part, a reduction equal to the annual amount of pension commuted will be made from their pension where there is sufficient remaining or partly from pension, partly from pay, where there is insufficient pension remaining. Where the pension is fully abated, the commutation reduction will be taken wholly from pay.

21. **Reserve/Recall Liability**
   For new entrants with no former service, you will have a reserve liability if you complete a minimum of 2 years’ service. For those with former service, your reserve liability may be affected, and further details can be found in BR 61 Chapter 2 (Officers) or Chapter 3 (Other Ranks). If you complete 20 years’ total qualifying service (previous military service may count towards this) for pension (via a TC extension and/or transfer to another engagement) then that liability will be in the Recall Reserve. See also Details are in BRd 3(1) Part 7 Chapter 54 Section 9 Para 5464 and Annex 54I.

22. **Resettlement/GRT/Terminal Leave**
   Your entitlement to resettlement/GRT/terminal leave is governed by the length of the TC. The normal minimum length of service to qualify for GRT is 6 years unless someone is medically discharged. Your Resettlement entitlement is detailed in JSP 534. Terminal leave entitlement is as set out in JSP 760 and normally comprises one day per month of service up to a maximum of 14 days.

# ANNEX 75E

## UGAS UNIVERSITY PHASE

1. The last phase (University Phase) of UGAS involves eligible candidates topping up the Fd Eng gained during POET training to a BEng(Hons) degree. Dependent on a candidate’s Tailored Career (TC), the required degree top up course may be provided in-service or by attendance at the University of Portsmouth (UoP).

2. Separate arrangements are made for UGAS candidates who pass AIB and are selected to become commissioned officers. These candidates are to be transferred to UY RA and AIB to be managed through UoP and on to BRNC as part of normal business. Membership of UGAS ceases upon transfer.

3. If the degree provision is made in-service, the following process applies:

<table>
<thead>
<tr>
<th>Timing</th>
<th>Action</th>
</tr>
</thead>
</table>
| 6 months before sea delivery phase is completed | (1). ATA(SM) liaises with CM to assign UGAS POET to the relevant in-service course.  
(2). ATA(SM), icw UGAS POET, liaises with BM/CM to determine and set the TC end date. UGAS membership ceases 30 days after the candidate’s degree result is published. The TC end date should be set at a date after this that will accommodate candidates opting to leave the RN at the end of UGAS. It must allow sufficient service to cover outstanding GRT entitlement (law JSP534) and terminal leave. At the end date candidates opting to remain in the RN will be transferred to the appropriate ES engagement. |
| As required before start of in-service degree course | (3). Assignment Orders issued. |
| Before start of in-service degree course | (4). New-to-Service candidates only:  
Inform CM of intentions at end of the degree phase:  
   a. Request to remain as a technician – ATA(SM) and CM arrange for transfer to ES2 on cessation of UGAS membership (30 days after degree results are posted).  
   b. Enter BRNC as an Engineering Officer (if AIB passed and selected) – ATA(SM) arranges transfer to UY scheme.  
   c. Leave the RN – ATA(SM)/CM will have set Tailored Career termination date at Action (2). |
| As promulgated | (5). Attend in-service degree course. |
| 30 days after degree results posted | (6). UGAS membership ceases 30 days after UoP post degree results.  
(7). For candidates remaining in the RN, assignment as directed by CM. |
| As set at Action (2) | (8). Tx date for UGAS candidates opting to leave the RN. |
4. If the provision is made at UoP, the following process applies for a degree course that starts in September of year ‘XX’:

<table>
<thead>
<tr>
<th>Timing</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>January of year ‘XX’</td>
<td>(1) ATA(SM) directs CMC/West Battery Career Manager to assign UGAS POET to Thunderer Squadron from mid Jun XX (exact date varies) in time to conduct Thunderer Sqn joining routine and Jul pre-degree maths bridging module (exact dates of joining and modules set by Thunderer Sqn).</td>
</tr>
<tr>
<td></td>
<td>(2) ATA(SM), icw UGAS POET, is to liaise with BM/CM to determine and set the TC end date. UGAS membership ceases 30 days after the candidate’s degree result is published. The TC end date should be set at a later date that will accommodate candidates opting to leave the RN at the end of UGAS. It must allow sufficient service to cover outstanding GRT entitlement (iaw JSP534) and terminal leave. At the end date candidates opting to remain in the RN will be transferred to the appropriate ES engagement.</td>
</tr>
<tr>
<td></td>
<td>(3) ATA(SM) passes names/details of UGAS POETs attend UoP to Thunderer Sqn, SUL &amp; MWS UY RAs (for info) and UoP Technology Admissions Office.</td>
</tr>
<tr>
<td></td>
<td>(4) UGAS POETs directed by ATA(SM) to complete UoP on-line application. See para 6.</td>
</tr>
<tr>
<td>February - March ‘XX’</td>
<td>(5) Assignment orders issued. UGAS POETs arrange their accommodation in HMS NELSON WO &amp; SR Mess, SFA or other.</td>
</tr>
<tr>
<td>June ‘XX’</td>
<td>(6) Join Thunderer Sqn as directed in Assignment Order and attend maths bridging module.</td>
</tr>
<tr>
<td></td>
<td>(7) New-to-Service candidates only: Inform CM of intentions at end of UoP degree:</td>
</tr>
<tr>
<td></td>
<td>a. Request to remain as a technician – ATA(SM) and CM arrange for transfer to ES2 on cessation of UGAS membership (30 days after degree results are posted – approximately July XX+1).</td>
</tr>
<tr>
<td></td>
<td>b. Enter BRNC as an Engineering Officer (if AIB passed and selected) – ATA(SM) arranges transfer to UY scheme.</td>
</tr>
<tr>
<td></td>
<td>c. Leave the RN – ATA(SM)/CM will have set Tailored Career termination date at Action (2).</td>
</tr>
<tr>
<td>Sept ‘XX’</td>
<td>(8) Proceed on leave as directed by Thunderer Sqn.</td>
</tr>
<tr>
<td>Jun ‘XX+1’</td>
<td>(9) Start degree top-up course</td>
</tr>
<tr>
<td></td>
<td>(10) Complete degree course.</td>
</tr>
<tr>
<td></td>
<td>(11) UoP post degree course results.</td>
</tr>
<tr>
<td>Jul ‘XX+1’</td>
<td>(12) UGAS membership ceases 30 days after UoP post degree results.</td>
</tr>
<tr>
<td></td>
<td>(13) For candidates remaining in the RN, assignment as directed by CM</td>
</tr>
<tr>
<td>Approx Sep ‘XX+1’</td>
<td>(14) Tx date (as determined at Action (2)) for UGAS candidates opting to leave the RN.</td>
</tr>
</tbody>
</table>

**Note.** Funding for UGAS candidates to attend UoP is provided under NCHQ Funding Line G47 NGA003.
5. Points of Contact:

<table>
<thead>
<tr>
<th>Points of Contact</th>

<td>02392 845566</td>
</tr>
</tbody>
</table>

6. UGAS candidates attending the UoP are required to complete the university’s online application. The following should be noted:

a. Applicants are to use SUL UY RA or MWS UY RA contact names as their Reference.

b. ATA(SM) and UY RA will have already sent UoP a generic reference for all candidates.

c. Do not enter Unique learner number or funding details.

d. To satisfy the requirement to submit evidence of recognised prior learning, UGAS candidates should upload their foundation degree certificates under section Upload documents/educational certificates.

7. Any UGAS candidate failing the degree scheme will not attract any right or opportunity to repeat at Service expense. This includes candidates remaining in the RN at the end of the scheme who will not have any right to repeat whilst serving.

Notes:

1. Candidates are required to achieve the minimum qualified service before starting the University Phase.

2. On cessation of UGAS membership, in-service candidates return to their extant ES engagement.

3. On cessation of UGAS membership, in-service candidates return to their extant ES engagement. Those wishing to leave the RN are subject to the normal rules regards submitting notice.

4. There is no return of service associated with the degree course.

5. UoP run one degree top-up course per year, starting in September.
ANNEX 75F

ACCELERATED APPRENTICE (AA) WEGS SCHEME PIPELINE

1. Introduction

The aim of the AA WEGS scheme is to qualify a LET within two years of entry. Following Initial Naval Training (INT), the AA pipeline consists of a bespoke Enabling Course and a Sea Phase developing both a maritime system knowledge and Naval ethos. This is followed by LET Qualifying Course (LETQC) and Leading Rates’ Leadership Course (LRLC) alongside their Select-Train-Promote (S-T-P) counterparts.

Figure 75F-1. Pipeline Schematic

2. Pipeline Description

a. **NT.** The AA recruits undergo the same training as their ET counterparts and should be treated in the same manner. They will join as Probationary LET (P/LET).

b. **WE 290 Enabling Course.** WE 290 develops system knowledge in preparation for LETQC and ensures AA WEGS trainees are safe to train in a technical environment.

c. **Streaming.** AA trainees will indicate their preference before sea training phase and be streamed by ATA WEGS in consultation with WE BM WO1.

d. **Sea Phase.** Trainees will then then be assigned to a ship to:

   (1) Consolidate the knowledge and skills learnt on WE 290 and become familiar with naval culture and experience living at sea.

   (2) Preparation for LETQC by completing the AA WEGS Task Book and building competence towards the successful completion of the AA WEGS PE. There are also CLM tasks as part of the Task Book to prepare them for LET QC.

   (3) Complete the CBRNDC Task Book.

   e. **LETQC.** LETQC is the standard course dependant on specialisation. AA trainees may be selected for the FT Scheme during this phase.

   f. **LRLC.** LRLC is the standard 4-week course which marks the end of the AA pipeline. Following successful completion, the AA will become GTS and a Substantive LET and will thus follow either the S-T-P or FT Scheme pipelines.

7612. Air Engineering Mechanics - Promotion Flowchart
7613. Accelerated Apprentice Scheme - Air Engineering - Advancement Flowchart
7614. Survival Equipment Technicians – Promotion Flowchart

ANNEXES

Annex 76A Accelerated Apprentice Scheme Pipeline
Annex 76B Terms of Reference for Accelerated Apprentice Air Engineering Recording Authority.
CHAPTER 76
ENGINEERING BRANCH – AIR ENGINEERING AND SURVIVAL EQUIPMENT TECHNICIANS

7601. FAA Engineering Specialisation – General Terminology

a. The Air Engineering (AE) specialisation rating structure comprises technician, artificer and mechanic streams. Ratings are titled ‘Air Engineering Technician’, ‘Air Engineering Artificer’ or ‘Air Engineering Mechanic’ as appropriate and, from promotion to Leading Hand (LH) up to and including Chief Petty Officer (CPO), will specialise in one of the following trades:

- Mechanical (M)
- Avionics (Av)

b. Personnel will no longer specialise in the following legacy trades:

- Electrical (L)
- Radio (R)

c. In recognition of the wider managerial role of the Warrant Officer, AE trade categories are not retained above the rate of Chief Petty Officer.

d. From 1 Nov 18 the Naval Airman (Survival Equipment) (NA(SE)) Warfare specialisation became the Survival Equipment Technician (SET) specialisation under the FAA Engineering Branch.

7602. Fast Track Scheme for Accelerated Advancement to the Rate of Petty Officer Air Engineering Technician

a. The Fast Track (FT) scheme consists of a sequence of training, experience and rigorous continuous assessment culminating in advancement to POAET on a combined time and merit basis. The FT route provides early attendance on the LAET and/or POAET Qualifying Courses (QC) with a reduced time spent at AET and LAET for ratings to gain experience on a squadron.

b. Selection for the FT Scheme is carried out by the FT Selection Panel (FTSP), chaired by NAVY PERS-BM ENG AE SO1, selecting FT ratings three times each calendar year, dependent on the Service requirement. Such selections will be made from a pool of candidates who have already successfully passed a Provisional FT Selection Board (PFTSB) whilst on either AET QC or LAET QC. Detailed regulations for the FT scheme are contained in the Manual of Naval Air Engineering Training (MNAET).
7603. **Air Engineering Accelerated Apprentice Scheme for direct entry as a Probationary Leading Hand**

a. Air Engineering Accelerated Apprentices (AE AA) join HMS RALEIGH as Probationary Leading Hands (see Para 6809) until they become a Gain to the Trained Strength (GTS) as an LAET on completion of a 2 year bespoke training pipeline (see Annex 76A). Once GTS the AE AA will be subject to the normal selection process of a LAET.

b. In order to maintain oversight of the scheme, the role of the Accelerated Apprentice Air Engineer Recording Authority (AA AE RA) was created and is to be the first point of contact regarding AA AE issues. AA AE RA TORs can be found at Annex 76B.

c. Further detail on the AA scheme can be found at Para 6810. The AA Warnings and Failure policy is laid down at Annex 68N.

7604. **Time Based Advancement for Artificers to the Rate of Chief Petty Officer**

a. Under the transitional arrangements introduced for Air Engineering Branch Development (AEBD), the opportunity to pass the CPOAEA Professional Qualifying Examination (PQE) required for advancement to CPOAEA was limited by time, and this time has now elapsed. Former artificers, holding the rate of POAET, who have not passed the CPOAEA PQE, cannot be advanced to CPOAEA and instead are now governed by the promotion regulations for the technician stream for promotion to CPOAET in accordance with Para 7608.

b. Completion of the Senior Rates’ Leadership Course (SRLC) is a requirement for advancement to CPOAEA.

7605. **Recommendations for Promotion and Advancement - General**

All recommendations for promotion and advancement are to be made with due regard to the conditions in Para 6901.

7606. **Certificate of Competence to Supervise Aircraft Maintenance**

Achievement of the Certificate of Competence to Supervise Aircraft Maintenance (CCSAM) represents the final stage in the training and assessment process to reach the Operational Performance Statement (OPS) for the LAET in terms of duties and tasks. Full details of the award of CCSAM are set out in the MNAET.

7607. **Aircraft Certificate of Competence**

The Aircraft Certificate of Competence (ACC) is awarded on successful completion of CPOAET QC and CPOAET Workplace Training (WT) and represents the final stage in the training and assessment process to reach the Operational Performance Statement (OPS) for the CPOAET in terms of duties and tasks. CPOAEAs assigned to a position requiring the ACC will be required to attend and pass the CPOAET QC. POAEAs who were advanced to CPOAEA under previous regulations without the requirement to pass the then Petty Officer Leadership Course (POLC) will be required to pass the SRLC (in addition to the CPOAET QC) prior to transfer to CPOAET. There will be no selective re-categorisation to CPOAET from CPOAEA. Full details, including the Enabling Objectives for the award of ACC, are laid down in the MNAET, Chapters 2.4 and 3.5.
Entry to HMS RALEIGH

AE TECHNICIAN 2

AE Technician 1 – Advancement criteria

a. Complete Phase 1 New Entry Training. (see Note 1).

b. or branch transfers, a minimum of Level 1 Functional Skills in English and Mathematics, and attainment of the relevant RT scores as for AET entry.

c. Complete AET QC (Phase 2A Training). (2)

d. Complete AET WT (Phase 2B Training), and award of QM & QS. (3)(4)(5)

e. Twelve months’ seniority as an AET2.

f. Recommended for advancement.

g. In date for Royal Naval Fitness Test (RNFT) or waiver obtained on date due advancement; recorded as JPA competence ‘CMS|Fitness Test|Navy’.(15)

h. At least 6 months since last Career Check (if any) on date due advancement.

Advanced to

AE TECHNICIAN 1 (6)

Leading AE Technician – Pre-Selection Requirements

a. Minimum of 18 months’ seniority as AET1 12 months prior to the Common Promotion Date (CPD) (Para 6703 b sub para (2)).

b. b. Serving on a ES1/FC/OE1 that expires after the nominated CPD (Para 6703 b sub para (6)).

c. 2RO recommendation for promotion on Appraisal Report at CRD. (14)

Leading AE Technician – Pre-Promotion Requirements

a. Completed Pre-LAET QC Training Performance Record Task Book. (5)

b. Passed LAET QC by nominated CPD+12 months. (4c)(8)(9)(16)

c. Leading Rates’ Leadership Course (LRLC) completed and recorded as JPA competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’.(16)
Promoted to
LEADING AE TECHNICIAN

Petty Officer AE Technician – Pre-Selection Requirements

a. Hold Certificate of Competence to Supervise Aircraft Maintenance (CCSAM) and recorded as JPA competence 'FAA|Certificate Of Competency-Supervise A/C Maint|Navy' or 'Professional|Certificate Of Competence For LAEM/LAET (TQ40)|Navy' (Para 7606). (10)

b. Minimum of 2 years' seniority as a LAET 12 months prior to the CPD.

c. 2RO recommendation for promotion on Appraisal Report at CRD.

d. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

e. Not serving on a Navy Tailored Career (TC).

f. Not serving on an Extension of Service (EoS).

Petty Officer AE Technician – Pre-Promotion Requirements

a. Completed LAET WT Task Book. (9)

b. Completed POAET QC by nominated CPD+12 months (11 and 16)

c. Completed Senior Rates Leadership Course (SRLC) and recorded as JPA competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy'. (16)

d. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence 'CMS|Fitness Test|Navy'. (15)

e. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

f. EFP in accordance with Para 9636. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at CRD and appropriate competences recorded on JPA.
**Chief Petty Officer AE Technician – Pre-Selection Requirements (13)**

a. Minimum of 3 years' seniority as a POAET 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Not serving on a Navy Tailored Career (TC).

d. Not serving on an Extension of Service (EoS).

e. Completed Senior Rates’ Leadership Course (SRLC) by nominated CRD and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’.

f. 2RO recommendation for promotion on Appraisal Report at CRD.

**Chief Petty Officer AE Technician – Pre-Promotion Requirements**

a. Completed CPOAET QC by nominated CPD+12 months. (16)

b. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’. (15)

c. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

**Promoted to CHIEF PETTY OFFICER AE TECHNICIAN**

**Note.** From 1 Apr 14, there were no Selection Boards for promotion to Warrant Officer 2 Air Engineering Technician, following removal of the Warrant Officer 2 rank across the Royal Navy. Individuals selected for promotion to WO2AET prior to 1 Apr 14 will be required to satisfy the pre-promotion requirements shown in Note 17 in order to be confirmed in the higher rank – see also Para 6717.)

**Warrant Officer 1 AE Technician – Pre-Selection Requirements**

a. If a CPOAET, minimum of 3 years’ seniority in the rate 12 months prior to CPD. If a WO2AET, there is no minimum seniority requirement.

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.
d. 2RO recommendation for promotion at CRD.
e. Not serving on a Navy Tailored Career (TC).
f. Not serving on an Extension of Service (EoS).

**Warrant Officer 1 AE Technician – Pre-Promotion Requirements**

a. For CPOAETs, completed WOAETQC by nominated CPD+12 months (16).

b. Satisfy terms of Assignment Order issued by Promotion Authority.

c. In date RNFT or waiver obtained at nominated CPD; recorded as JPA competence ‘CMS|Fitness Test|Navy’'. (15)

d. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

e. EFP in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competence recorded on JPA. (17)

---

**Promoted to Warrant Officer 1 AE Technician**

**Notes:**

1. *New entrants join the Air Engineering (AE) specialisation as an Able Rating (AET2) with a seniority of date of entry. They join HMS RALEIGH and undergo Phase 1 Training before being assigned to the Royal Navy Air Engineering and Survival School (RNAESS) for the Air Engineering Technician Qualifying Course (AET QC) (also known as Phase 2A training).*

2. *Selection for the Fast Track may occur during AET QC (Phase 2A) or LAET QC training. Regulations governing those selected to the Fast Track are detailed separately at Para 7602 and Para 7609.*

**Continued**
Notes: (Continued)

3. Following training at RNAESS, ratings are assigned to an Air Station for AET Workplace Training (AET WT) (also known as Phase 2B Training). During this period, ratings are required to become ‘Qualified to Maintain’ (QM) and ‘Qualified to Sign’ (QS). Regulations regarding the award of QM and QS are contained in the Manual of Naval Air Engineering Training (MNAET).

4. Trade Categorisation.

a. A completed Trade Preference Card (TPC) is to be submitted within 6 months of successful completion of AET WT (award of QM/QS), but not prior to advancement to AET1. The TPC template can be found in the MNAET; it must be signed by an Air Engineer Officer (AEO)/Senior Maintenance Rating (or other Services equivalent) and submitted to the Administration Office of the Engineering Training School that provided the individual's AET WT. ETSs are to co-ordinate returns, forwarding completed TPCs to the AE Trade Categorisation Authority at RNAESS. ETSs are to manage the administration of TPC submission and hasten overdue categorisations. AE trade categorisation will be carried out on a monthly basis and the AE Ratings Career Manager (RCMAE) will be informed of the trading decision for each rating. The submission of a TPC ensures that ratings may nominate the trade of their choice, however, the requirements of the Service will remain the overriding factor. Ratings will not be allowed to change their trade preference unless authorised by the AE Branch Manager; where an individual seeks re-categorisation they are to request to do so in writing to the Trade Categorisation Authority.

b. Trade categorisation of AETs does not prevent their employment outside that trade category. Employers will continue to reap the benefits of the 'll traded' AET but should be mindful of the need to develop ratings for their future role as trade supervisors. Ratings will adopt their new trade category title on promotion to LAET.

c. Ratings who have successfully completed LAET QC are eligible to wear the appropriate (M) or (AV) one star trade badge.
Notes: (Continued)

5. **Pre-LAET QC Training Performance Record Task Book.**

   a. A traded Training Performance Record Task Book (TPR) will be issued as soon as the AET is notified of his/her trade categorisation. Completion of a traded TPR is not a requirement for selection to LAET but it is a prerequisite for attendance at LAET QC. TPRs will be prepared by RNAESS and issued by the local Engineering Training Section or equivalent.

   b. Completion of the TPR is the responsibility of the individual. Sufficient opportunity should exist for a rating to complete the task book within the constraints of normal assignment. It would reasonably be expected that ratings could complete the TPR on most Units within a 9 month period following its issue. For those ratings assigned to a non-Squadron position following their AET WT consolidation period, employing Units should, where practicable, maximise opportunities for TPR completion. Where this proves not to be feasible, the Unit/rating is to engage with the RCMAE to identify a suitable follow on assignment to enable TPR completion on the next Unit. Only in exceptional circumstances will RCMAE consider assigning ratings outside of normal processes in order that a TPR may be completed.

   c. Once issued, TPRs are to be retained by the individual rating. Divisional Officers are to carry out routine checks on the progress of ratings in completing their TPR and are to complete the TPR Task Book Monitoring Form (TMF).

   d. Completed TPRs are to be presented to the local Engineering Training Section or equivalent for a JPA TPR completion competence to be added. The TPR Completion Certificate should then be dispatched to RNAESS. Loss of a TPR before it is fully completed will prejudice a rating’s prospects for promotion to LAET since completion is a prerequisite for attendance at LAET QC.

   e. Completion of a TPR is a mandatory requirement for attendance at the LAET QC. In exceptional circumstances RNAESS will consider individual cases where TB completion has not been possible. Reporting instructions are included in the TB.

6. On advancement to AET1, ratings are eligible to wear one star on their (AE) specialisation badge.

   Continued
Note: (Continued)

7. **Preparation for Promotion.** Preparation for promotion to LAET is the responsibility of the individual. Ratings must maximise the opportunities to achieve the necessary experience and educational qualifications and, in particular, must achieve a good knowledge of the work in their designated trade category.

8. A return of service for training applies to LAETs on completion of LAET QC (Chapter 53 refers).

9. **LAET WT Task Book.**
   
a. A LAET WT TB will be issued to all ratings on completion of LAET QC and represents those tasks to be completed to meet the Operational Performance Statement for a LAET. Completion of the TB is the responsibility of the individual and is a mandatory requirement prior to attempting the Certificate of Competence to Supervise Aircraft Maintenance (CCSAM) Board.
   
b. AEOs (or other Service equivalent) are to ensure that the completion of the LAET WT tasks are positively encouraged and actively managed within their units. To this end, LAETs undertaking CCSAM Training are not to be employed in ancillary or non-technical roles to the extent that the completion of the LAET WT tasks is prejudiced.
   
c. Once issued, TBs are to be retained by the individual rating until successful completion of CCSAM and then returned to RNAESS. The date that the TB is issued and completed should also be recorded on JPA as a competence.
   
d. Individuals who have been selected for promotion are to ensure that the Task Book completion competence (’Professional|Task Book completed (M)-LAET(SJ52)|Navy’) or ‘Professional|Task Book completed (Av)-LAET(SJ51)|Navy’) is recorded on JPA prior to attendance at POAET QC.

10. Ratings who have successfully completed LAETQC, Leading Rates Leadership Course (LRLC) and hold CCSAM are eligible to wear 2 stars on their trade badge.

Continued
11. **Pre-POAET QC Academic Preparation Material**
   
a. Preparation material for POAET QC is available on the Defence Learning Portal for personnel selected for promotion to POAET. The material is a summary of the subjects that have been taught on LAETQC and acts as a refresher to ensure personnel are at the appropriate standard to start the POAETQC.

b. Whilst completion of this material is not mandatory, due to the short nature of the POAET QC there will be little opportunity for those who fall behind to catch up. Individuals are strongly recommended, therefore, to complete this refresher training to avoid the risk of being backclassed or deselected.

A Return of Service for training applies to POAETs on completion of POAET QC (Chapter 53 refers).

12. Trade badges shall not to be worn above the rate of LAET.

13. For those POAETs who formerly completed the AQC, qualifications for advancement to CPOAEA under legacy arrangements are detailed at Para 7611, noting that there is no longer an opportunity to pass the CPOAEA PQE as given in Para 7604.

14. **Recommendation.** Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

15. **RNFT (at CPD).** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a NSMBOS or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD (or later) or on advancement (see Para 6716).

16. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6719 for rules on the impact on a rating’s promotion if they fail to complete Professional Qualifying Course and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).

17. **EFP Requirement for WO1.** It is considered that WO2AETs have been promoted to Warrant Officer under previous EFP regulations and, as such, there is no further EFP requirement for consideration for selection for WO1.
### 7609. Air Engineering Technician Fast Track Scheme – Qualifications for Selection and Subsequent Advancement

On selection to the FT Scheme from AET QC (Phase 2A training) by the Fast Track Selection Panel (FTSP) (before or after advancement to AET1) (see Note 1)

<table>
<thead>
<tr>
<th>AE TECHNICIAN 1</th>
</tr>
</thead>
</table>

**Leading AET – Advancement criteria (Fast Track)**

- **a.** Minimum of 9 months’ experience in a squadron or flight if selected to the AE FT scheme after 1 Jan 19. A minimum of 12 months’ experience if selected FT prior to 1 Jan 19.

- **b.** Educationally qualified for promotion (EFP) in accordance with Para 9636. Achieved minimum NAMET 5:5 or Level 1 Functional Skills (or equivalent) in English and Mathematics before selection to Fast Track Scheme and appropriate competences recorded on JPA.

- **c.** Completed Pre-LAET QC Training Performance Record Task Book.

- **d.** Recommended for advancement.

- **e.** Minimum of 18 months’ seniority as AET1.

- **f.** Passed LAET QC without attracting any academic or disciplinary warnings and maintaining above average course results.

- **g.** Completed Leading Rates’ Leadership Course (LRLC) and recorded as JPA competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’.

- **h.** Assignment Order issued by RCMAE.

- **i.** In date for Royal Naval Fitness Test (RNFT) or waiver obtained on date due advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy’.

- **j.** At least 6 months since last Career Check (if any) on date due advancement.

- **k.** Recommended to retain FT status from AET QC FT selection, or on selection to the FT Scheme from LAET QC by the FTSP (before or after advancement to LAET).

**Advanced to**

<table>
<thead>
<tr>
<th>LEADING AE TECHNICIAN</th>
</tr>
</thead>
</table>

1 CMs have the authority to reduce 12 month consolidation periods for legacy FT personnel to a minimum of 9 months where it meets the Service need.
POAET – Advancement criteria (Fast Track)

a. Complete LAET WT Task Book.

c. Minimum of 24 months’ experience in a squadron or flight complement position, post award of CCSAM, if selected to the AE FT scheme after 1 Jan 19. A minimum of 12 months’ experience in a complement position, post award of CCSAM, if selected FT prior to 1 Jan 19.

d. EFP in accordance with Para 9636. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics before attendance at POAET QC and appropriate competences recorded on JPA.

e. Minimum of 18 months’ seniority as LAET.

f. Recommended for advancement.

g. Passed POAET QC. (4)

h. Completed Senior Rates’ Leadership Course (SRLC) and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’.

i. In date for RNFT or waiver obtained on date due advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy|’. (6)

j. At least 6 months since last Career Check (if any) on date due advancement.

---

Advanced to

PETTY OFFICER AE TECHNICIAN

---

Subsequent promotion is as per normal intake in the AET stream (Para 7608)
Notes:

1. The rules for selection to the Fast Track (FT) scheme and associated administrative arrangements are detailed in the MNAET.

2. Ratings will not normally be allowed to join the FT scheme unless they meet the educational requirements for promotion to LH. FT ratings will need to meet the educational requirements for promotion to PO before the end of LAETQC to continue on the scheme as LAETs, as will those wishing to join the Scheme at this point. No ratings will be assigned to POAETQC who do not meet the educational requirements for promotion to PO.

3. Failure to achieve the criteria stipulated for FT or to continue to demonstrate the potential for higher managerial and leadership responsibilities and for further technician training will result in removal from the FT scheme (Para 7602). SJARs are to include a positive reference with regard to continued retention of FT status. Where the unit Level J no longer supports the rating’s retention on the FT scheme, the individual is to be given a formal warning and, if no improvement is seen, should be removed from the FT scheme (informing the AE BM and AE FT Recording Authority as appropriate).

4. RCMAE will normally assign FT ratings to the first available LAET QC or POAET QC dependent on meeting the criteria above, continuing FT status, course availability and the needs of the Service.

5. FT ratings will be advanced on completion of all relevant training with a seniority date following the last day of the relevant Qualifying Course or Leadership Course whichever is the latter. Trade badges are not to be worn above the rate of LAET.

6. RNFT. Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the date due advancement at Note 5, applying the policy given in Para 6805.
### 7610. Air Engineering Technicians – Rules Regarding Failure

The action to be taken when an AET fails training or an examination is shown below:

#### Table 76-1. AET Failure Policy

<table>
<thead>
<tr>
<th>Failure Point</th>
<th>Failure Action</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>AET2</strong></td>
<td></td>

</table>

**Note.** For LAETs who were previously AA trainees there is not the option for reversion as they have not held the rate of AET. As such, the options following failure are either Discharge SHORE or by exception branch transfer to AET at the BM’s discretion.
7611. Engineering Artificer – Qualifications for Transfer toChief Petty Officer Air Engineering Technician

**Note.** This article applies to both Artificer Apprentice entries and Artificer Candidate entries.

In order to be eligible for further promotion, all CPO AE Artificers must transfer to the Technician stream by meeting the criteria below.

**CHIEF PETTY OFFICER AE ARTIFICER**

Chief Petty Officer AE Technician - Transfer Criteria

a. Passed ACC through Fleet Selection route or passed CPOAET QC. (1) (Para 7607)

b. Completed Senior Rates’ Leadership Course (SRLC) and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’. (2)

**CHIEF PETTY OFFICER AE TECHNICIAN (3)**

**Notes:**

1. CPOAEAs assigned to a position requiring the ACC will be required to attend and pass the CPOAET QC. There will be no selective re-categorisation to CPOAET from CPOAEA.

2. This applies only to former POAEAs who were advanced to CPOAEA under previous regulations without the requirement to pass the then POLC (now SRLC).

3. Further promotion will be in the Technician stream in accordance with Para 7608.

7612. Air Engineering Mechanics – Promotion Flowchart

**PETTY OFFICER AE MECHANIC**
Chief Petty Officer AE Mechanic – Pre-Selection Requirements

a. Minimum of 3 years' seniority as POAEM 12 months prior to the Common Promotion Date (CPD) (Para 6703 b sub para (3)).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (6)).

c. Recommended for promotion on Appraisal Report at Common Reporting Date (CRD).

d. Completed Senior Rates’ Leadership Course (SRLC) and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’.

Chief Petty Officer AE Mechanic – Pre-Promotion Requirements

a. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’. (1)

b. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER AE MECHANIC

Warrant Officer 1 AE Mechanic – Pre-Selection Requirements

a. Minimum of 3 years' seniority as CPOAEM 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD.

Warrant Officer 1 AE Mechanic – Pre-Promotion Requirements

a. Satisfy terms of Assignment Order issued by Promotion Authority.

b. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’. (1)

(c. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

d. Educationally qualified for promotion (EFP) in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competence recorded on JPA.
7613. **Accelerated Apprentice Scheme - Air Engineering- Advancement Flow Chart**

Entry to HMS RALEIGH (1)

<table>
<thead>
<tr>
<th>PROBATIONARY LEADING AE TECHNICIAN</th>
</tr>
</thead>
</table>

**Leading AE Technician – Advancement criteria (2)**

a. Completed Phase 1 New Entry Training.

b. Completed AA AE Enabling Course.

c. Completed Basic Sea Survival Course and Able Rates Leadership Course.

d. Completed Field Phase including award of QM & QS and completion of AA Field Phase Task Book.

e. Steaming preference submitted.

f. Passed all aspects of LAETQC.

g. Completed Leading Rates’ Leadership Course (LRLC) and recorded as JPA competence 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy'.

h. Recommended for advancement.

i. In date RNFT or waiver (or when eligible for promotion (if later)); recorded as JPA competence 'CMS|Fitness Test|Navy'. (3)

j. At least 6 months since last Career Check (if any) on date due advancement.

---

**Note.**

1. **RNFT (at CPD).** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a NSMBOS or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD (or later) (see Para 6716).
Notes:

1. The eligibility criteria to be recruited as an AA AE include that candidates join educationally qualified for promotion (EFP) to LAET in accordance with Para 9636. Appropriate competences should be recorded on JPA.

2. Failure of career or leadership courses by an AA trainee is to be managed in accordance with the AA Warnings and Failure Policy at Annex 68N.

3. Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a NSMBOS or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD (or later) or on advancement (see Para 6716).

4. On successful completion of the AA pipeline, the individual will become a Gain to the Trained Strength and be advanced to Leading Engineer Technician. They will then transfer to either the Selective Promotion Flowchart or, if selected, to the Fast Track POAET Flowchart.

7614. Survival Equipment Technician - Promotion Flowchart

Entry to HMS RALEIGH (see Note 1)

SURVIVAL EQUIPMENT TECHNICIAN 2

SET 1 – Advancement Criteria

a. Complete Phase 1 New Entry Training and SET QC (Phase 2A Training).
b. Complete SET WT (Phase 2B Training) and award of QM (see Note 2).
c. Recommended for advancement (see Note 3).
d. In date for Royal Naval Fitness Test (RNFT) or waiver obtained on date due advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy’.

Advanced to

SURVIVAL EQUIPMENT TECHNICIAN 1

Leading Hand SET – Pre-Selection Requirements

a. Minimum of 18 months’ seniority as SET1 12 months prior to Common Promotion Date (CPD) (Para 6703 b sub para (2)).
b. Serving on ES1/FC/OE1 that expires after the nominated CPD (Para 6703 b sub para (6)).
Leading Hand SET – Pre-Promotion Requirements

c. 2RO Recommendation for promotion on Appraisal Report at CRD (see Note 4).

d. Successful completion of Leading Rates Qualifying Course (see Notes 5 and 10).

e. Completed Leading Rates’ Leadership Course (LRLC); recorded as JPA competence ‘Miscellaneous|Leading Rates’ Leadership Course (RNLA 102)|Navy’ (see Notes 5 and 9).

f. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’ (see Note 8).

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

h. Educationally qualified for promotion (EFP) in accordance with Para 6717. Achieved Level 1 Functional Skills (or equivalent) in English and Mathematics at Common Promotion Date (CPD) and appropriate competences recorded on JPA.

Promoted to LEADING SURVIVAL EQUIPMENT TECHNICIAN

PO SET – Pre-Selection Requirements

a. Hold Certificate of Competence to Supervise Survival Equipment Maintenance (CCSEM) and recorded as JPA competence ‘FAA|Certificate Of Competency-Supervise SE Maint|Navy’ (see Note 6).

b. Completed Leading Rates’ Leadership Course (LRLC); recorded as JPA competence ‘Miscellaneous|Leading Rates’ Leadership Course (RNLA 102)|Navy’ (see Notes 5 and 9).

c. Minimum of 2 years’ seniority as LSET 12 months prior to the CPD.

d. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

e. Not serving on a Navy-Tailored Career (TC).

f. Not serving on an Extension of Service (EoS).

g. 2RO recommendation for promotion on Appraisal Report at CRD (See note 4).
PO SET – Pre-Promotion Requirements

h. Successful completion of Petty Officer Qualifying Course (see Notes 5 and 10).

i. Completed Senior Rates’ Leadership Course (SRLC), recorded as JPA competence ‘Miscellaneous|Senior Rates’ Leadership Course (RNLA 103)|Navy|’ (see Notes 5 and 9).

j. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’ (see Note 8).

k. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

I. Educationally qualified for promotion (EFP) in accordance with Para 6717. Achieved Level 2 Functional Skills (or equivalent) in English and Mathematics at Common Promotion Date (CPD) and appropriate competences recorded on JPA.

CPO SET – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a PO SET 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Not serving on a Navy Tailored Career (TC).

d. Not serving on an Extension of Service (EoS).

e. Completed Senior Rates’ Leadership Course (SRLC), by nominated CRD and recorded as JPA competence ‘Miscellaneous|Senior Rates’ Leadership Course (RNLA 103)|Navy|’.

f. 2RO Recommendation for promotion on Appraisal Report at CRD.

CPO SET – Pre-Promotion Requirements

g. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

h. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
PETTY OFFICER SURVIVAL EQUIPMENT TECHNICIAN

CPO SET – Pre-Promotion Requirements

g. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

h. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER SURVIVAL EQUIPMENT TECHNICIAN
Warrant Officer 1 SET – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as CPO SET 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Not serving on a Navy-Tailored Career (TC).

d. Not serving on an Extension of Service (EoS).

e. 2RO recommended for promotion on Appraisal Report at CRD.

Warrant Officer 1 SET – Pre-Promotion Requirements

f. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’ (see Note 8).

g. EFP in accordance with Para 6717. Achieved Level 2 Functional Skills (or equivalent) in English and Mathematics at Common Promotion Date (CPD) and appropriate competences recorded on JPA.

h. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

i. Satisfy terms of Appointment Order issued by Promotion Authority.

Promoted to
WARRANT OFFICER 1 SURVIVAL EQUIPMENT TECHNICIAN

Notes:

1. All new entrants are rated SET2 with seniority from date of entry. They join HMS RALEIGH and undergo Phase 1 Training before being assigned to the Defence School of Air Engineering (Gosport) for the Survival Equipment Technician Qualifying Course (SET QC) (also known as Phase 2A Training).

2. Survival Equipment Technician Workplace Training (SET WT) (also known as Phase 2B training) is primarily carried out at a Royal Naval Air Station SE section. Successful completion of SET QC and WT culminates in the award of ‘Qualified to Maintain’ (QM). Regulations regarding the award of QM are contained in the Manual of Naval Air Engineering Training (MNAET).

3. All SET2 must have successfully completed SET QC, SET WT, QM Award and a minimum of 12 months’ reckonable service before being recommended for advancement to SET1.
4. **Recommendation.** Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

5. Ratings selected for promotion to Leading Survival Equipment Technician (LSET) or Petty Officer Survival Equipment Technician (POSET) will be promoted on the CPD if they have successfully completed the LRQC/POQC and LRLC/SRLC respectively prior to this date. Ratings who are unable to complete the relevant professional and/or leadership training by the CPD are to be treated in accordance with Para 6719.

6. Certificate of Competence to Supervise Survival Equipment Maintenance (CCSSEM). Survival Equipment personnel who have passed the LSET Professional Qualifying Course subsequently undergo Workplace Training at a Royal Naval Air Station SE Section. Successful completion of WT culminates in the award of CCSSEM, and regulations regarding this award are contained within the MNAET.

7. There are no professional or leadership training requirements for promotion to CPO SET or WO1 SET.

8. **RNFT (at CPD).** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a NSMBOS or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD (or later) (see Para 6716).

9. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6719 for rules on the impact on a rating’s promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (out with control) or non-service reasons (within control).

10. **Rules Regarding Failure.** The actions to be taken when SET specialisation ratings fail training or an examination are shown below:
### Table 76-1

<table>
<thead>
<tr>
<th>Success</th>
<th>Failure</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phase 1 Training</td>
<td>Back class. Re-examine. Consider branch transfer or Discharge SHORE.</td>
</tr>
<tr>
<td></td>
<td>In accordance with Para 5748.</td>
</tr>
<tr>
<td>SET QC</td>
<td>Back class. Re-examine (see Note 1). Consider branch transfer or Discharge SHORE. In accordance with the MNAET.</td>
</tr>
<tr>
<td>SET WT (QM - MNAET)</td>
<td>Repeated failures. Consider branch transfer or Discharge SHORE (Note 2).</td>
</tr>
</tbody>
</table>

**Notes:**

1. With due regard to SERE course availability and planning constraints, ratings who fail SERE051 or SERE059 may be allowed to continue on to SET WT. Failure of each of these courses is subject to the warnings procedure. The training deficiency must be recorded on the rating’s SJAR and include the remedial action required.

2. Ratings subject to the provisions of Note 1 must have passed SERE051 and SERE059 before they can successfully complete SET WT.

### PETTY OFFICER SET

### CHIEF PETTY OFFICER SET

### WARRANT OFFICER 1 SET
ANNEX 76A

ACCELERATED APPRENTICE (AA) AE SCHEME PIPELINE

1. Introduction
The aim of the AA AE scheme is to qualify a LAET within two years of entry. Following Initial Naval Training (INT), the AA pipeline consists of 2 bespoke technical training courses. These are principally a compression of Phase 2 for the AET pipeline, covering the same milestones but with a bespoke Task Book during AA AE Field Training at a Typed Air Station. This is followed by LAET Qualifying Course (LAETQC) and Leading Rates' Leadership Course (LRLC) alongside their AET counterparts. Further detail can be found in the Manual of Naval Air Engineering Training.

Figure 76A-1. Pipeline Schematic

2. Pipeline Description

a. **INT.** The AA recruits undergo the same training as their AET counterparts and should be treated in the same manner. They join as Probationary LAET (P/LAET).

b. **AE AA Enabling Course.** AE AA is a compressed version of the AETQC where the AA trainees develop their system knowledge and learn how to operate in the air environment safely. This will also include Able Rates' Leadership Course (ARLC) and Basic Sea Survival Course (BSSC). At the end of this time their trade preference card will be submitted to the AA AE RA who will stream them as Mechanical (M) or Avionic (Av) in consultation with AE BM WO1. AAs cannot be selected for the Fast Track (FT) scheme during this phase.

c. **4. AE AA Field Training.** AE AA Field Training provides exposure to a squadron environment and an aircraft type. They will be expected to complete their AA Field Phase Task Book, which is based upon the standard Ph2B AET task book, with some additional CLM elements.

   (1) The first 18 weeks is a compressed version of Phase 2b of the AET pipeline which culminates in achieving the Qualified to Sign (QS) and Qualified to Maintain (QM) competences.

   (2) The following 5 weeks are spent undertaking the LAET development section of the Task Book where the focus is understanding the role of a supervisor in addition to other CLM tasks.
d. **LAETQC.** LAETC is the standard traded course alongside their Select-Train-Promote (S-T-P) counterparts. AAs may be selected for the FT Scheme during this phase.

e. **LRLC.** LRLC is the standard 3-week course which marks the end of the AA pipeline. Following successful completion, the AA will become GTS and a Substantive LAET and will thus follow either the Select-Train-Promote or FT Scheme pipelines initially working towards their Certificate of Competence to Supervise Aircraft Maintenance.
ANNEX 76B

TERMS OF REFERENCE FOR ACCELERATED APPRENTICE AIR ENGINEERING RECORDING AUTHORITY (AA AE RA)

1. Preamble
To ensure oversight of, and provide continuity to, the AE AA scheme the role of the AA AE RA has been created. This is an additional responsibility to be tagged to a post which is OR7 or higher.

2. Purposes

a. Primary Purpose: To act as a focal point for the stakeholders in the AE AA scheme.

b. Secondary Purpose:
   (1) To monitor recruitment through liaison with the CNR Accelerated Engineer Coordinator (AEC).
   (2) To be a member of the Final Selection Board (FSB) which selects candidates for the AA AE scheme.
   (3) Coordinate additional AE resource and advice for CNR to assist and develop recruitment.
   (4) The monitoring and recording of the progress of all AE AAs.
   (5) Ensuring pipeline scheduling is managed correctly in liaison with the training establishments and the UTS pipeline manager.
   (6) Directing and supporting AA activities and requirements to the training schools as required.
   (7) Develop AA AE scheme in liaison with AE BM SO1.

3. Accountability
The AA AE RA is accountable to AE BM SO1.

4. Authority
The AA AE RA is authorised to represent AE BM SO1 as required on matters relating to the AE AA.
5. **Tasks**

   The principal tasks undertaken by the AA AE RA are as follows:

   a. **Coordinate and Attend the FSB.** The FSB will be convened roughly two months prior to the intake entry date to INT to select the top applicants for the scheme. The board will be convened by the AA AE RA who is to contact AE BM WO1 to provide a board chair. CNR AEC will present the AA applicants to the board.

   b. **Pipeline Coordination.** Before the INT entry date, liaise with the UTS pipeline manager, RNAESS and the TAS ETSs to ensure each stage of the AA AE pipeline is correctly scheduled and allocated.

   c. **Co-ordination and Delivery of INT AA Brief.** The delivery of an initial brief to AA candidates within the first three weeks of Phase 1 Training, detailing expectations and requirements over their training pipeline.

   d. **Monitoring and Recording the Progress of all AAs.** The AA AE RA will maintain a record of all individuals’ progress towards achieving all training requirements for advancement prior to their Advancement Date. Analysis of candidates’ performance should be undertaken to develop future entry requirements for the scheme so this information will can be used to review entry criteria and weightings.

   e. **Trainee Streaming.** Controlling AA streaming during Phase 2a in consultation with AE BM WO1. Following this, ensure the correct number of places is allocated to each LAETQC for the AA AEs.

WARFARE BRANCH

7701. General

This Chapter covers the career regulations for all General Service Warfare Branch specialisations with the exception of Divers (Chapter 78), Royal Navy Police (Chapter 80), Physical Trainers (Chapter 82), Communications Technicians (Chapter 84) and Photographers (Chapter 92). Divisional Officers are to ensure that a copy of this Chapter and the appropriate Annex is placed in the PDR of every member of the specialisations listed at Para 7702.

7702. Specialisations of the Warfare Branch (General Service)

a. The following specialisations (and sub-specialisations) exist:

**Branch Designator (BD)**

<table>

b. Specialisation Selection. General Service ratings will be selected for the WS, SEA, HM or MW specialisations at Careers Offices. WS ratings will be streamed within their chosen sub-specialisation, based on educational requirement and needs of the Service. The Warfare Ratings Branch Managers will manage requests from individuals to transfer specialisation, both within the Warfare Branch and the RN as a whole, on a case-by-case basis.
7703. Warfare Branch Training - Career Progress, Targeted Employment Modules and Pre Joining Training

Career Progression for Warfare Branch Ratings is detailed within Annex 77A to Annex 77F. In addition to Career training, individuals outside of the WS spectrum may be required to undertake some bespoke Targeted Employment Modules (TEMs)/Pre-Joining Training in accordance with the Unit Establishment List (UEL).

a. Training Performance Statements, Workplace Training Task Books and Role Performance Standard. On successful completion of PQCs for AB2, LH and PO, a WB rating will have attained the Training Performance Statement (TPS) for the current rate. Individuals will be issued with the appropriate Workplace Training Task Book (WTTB) or a Professional Certification Record (PCR). In the subsequent sea assignment, a rating will be deemed to have achieved Role Performance Standard (RPS) on successful completion of the core career workplace training section of the relevant TB (TPS + OJT = RPS) for AB/LH and PCR for PO. On achievement of RPS as an AB1, LH and PO, the Warfare Training Co-ordinator must inform the unit Human Resource (HR) administrator in order for the relevant competences (see Annexes for details) to be inputted to JPA. When an individual is advanced to AB1, the HR administrator is to ensure a Promotion Authorisation Request (PAR) is signalled to their parent Career Management Cell (CMC), which will authorise the promotion and change the rate on JPA. It is important that achievement of RPS is inputted to JPA before the PAR date; thus stating that the rating has achieved RPS before attempting to be advanced to AB1. A rating’s RPS is defined and owned by the relevant Branch Manager.

b. Mechanism for Unacceptably Slow Progression. It is entirely possible that some ratings may not achieve RPS. Within the Warfare Branch there is no scope to employ individuals who cannot or will not progress themselves beyond AB2. It must be realised that AB2s are employed primarily to gain experience and to advance to a higher rate. It follows, therefore, that the ultimate sanction for those who cannot or will not progress beyond AB2 is an application for administrative discharge on the grounds of un-employability. Within the WS specialisations an initial warning is set at 12 months from commencement of their WTTB, whilst SEA, MW and HM are set at 18 months (unless it has been given earlier, supported with unequivocal statements of non-recommendation for promotion in an Appraisal Report). Warnings will then continue 3-monthly within the Appraisal process for an aggregate total of 18 months under warning, whereupon application for administrative discharge on the grounds of un-employability will be sought.

c. Pre Joining Training (AWW, AWT, UW). PJTs are the method of training WS ratings in a specific role, prior to joining a sea going unit, as required by the UEL. Whilst undertaking a PQC, a rating who has been assigned to a unit in a position which requires the PJT will be booked on the course, which will commence on completion of all other modules of the PQC.

(1) Pass. MWS is responsible for conducting PJTs and is to report successful completion and ensure that MWS HR administrators input the relevant competences to JPA.
(2) **Failure.** In the event of failure, a written report is to be forwarded by MWS to the individual's parent unit and the receiving ship. The individual may be considered for Discharge SHORE, in accordance with Chapter 54 or, in the case of LH, immediately warned formally by the parent unit for reversion in accordance with Para 7705. As PJTs are taught at the end of a PQC pipeline, the rating will have to wait until the end of the next training pipeline before recommencing the PJT.

(3) **Second Failure.** After a second failure, LH or above will be subject to reversion for unsuitability. Able Ratings who fail a PJT a second time are not to be employed in any UEL position number that requires that competence and are not to attempt that PJT for another 12 months. The rating’s parent unit is to assess the individual's employability. If deemed unemployable, the matter is to be referred to the relevant Warfare Ratings Branch Manager.

(4) **Taskbook.** On completion of the PJT, the rating may be required to complete a separate PJT TB, which will be issued in loose leaf format and is to be included in their WTTB.

d. **Targeted Employment Modules.** (Sea, MW, EW and HM) TEMs are the method by which additional individual skills, as required by UEL position numbers, are delivered. As TEMs are linked to UEL position numbers, the Warfare Department Co-ordinator must liaise closely with the Executive Warrant Officer (EWO) in order to manage Squad members effectively. MWS course capacity and scheduling can restrict the timely delivery of TEMs to meet short notice requirements; individuals may, therefore, need to be 'assigned' between UEL position numbers up to eight months in advance of assuming a particular role, in order to achieve the appropriate TEM in good time. Some TEMs are graded whilst others are Pass/Fail, as follows:

(1) **Pass.** Training establishments and units that are responsible for conducting TEM courses are to report successful completion and ensure that HR administrators input the relevant competences to JPA.

(2) **Failure.** In the event of failure, students are to be back-classed either by course module, where appropriate, or for the entire course. If a student fails an entire TEM course, a written report is to be forwarded by MWS units and establishments (as appropriate) to the individual's parent unit and the receiving ship. The individual could be considered for Discharge SHORE in accordance with Chapter 54 or, in the case of LH, immediately warned formally by the parent unit for reversion in accordance with Para 7705. The need to assign a rating to the next available TEM course may mean that the formal warning period may be less than three months. The Course Booking Cell (CBC), as advised by the ship’s EWO, may allocate an individual who has failed a TEM or another member of the ship’s Squad to a place on a later TEM. The EWO will need to assess the manning implications.
(3) **Second Failure.** After a second failure, LH or above will be subject to reversion for unsuitability in accordance with Para 7003. Able Ratings who fail a TEM a second time are not to be employed in any UEL position number that requires that competence and are not to attempt that TEM for another 12 months. The rating's parent unit is to assess the individual's employability within the Squad. If deemed unemployable, the matter is to be referred to the relevant Warfare Ratings Branch Manager.

e. **TEMs.** In addition to WTTB, AB2s, AB1s and LHS attending TEMs will also be issued with the relevant On Job Training TB in loose leaf format for inclusion in their current WTTBs.

f. **Completion of AB1 CBRNDC Task Book.** The CBRNDC TB may be issued prior to a rating being promoted AB1 and can be completed at any time after advancement to that rate. Although not a requirement for selection, all ratings are to complete this TB before promotion to LH, including ALH.

g. **Attendance on Next Higher Professional Qualifying Course.** A rating will not be eligible to attend the PQC for a higher rate unless the individual is in date for the Annual RPS Check in the lower rate. The PQC and LRLC/SRLC should normally be undertaken as a package. The Selection Signal will be the trigger for the CMC to load candidates on a PQC and relevant leadership course. It will not be possible to achieve this for every individual immediately, but priorities must be amended to achieve commencement of PQC at least within 12 months of selection. On implementation, it is possible that a surge in applications will exceed available places. The Career Manager’s judgement will be necessary to manage pinch-points.

h. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6716 for rules on the impact on a rating’s promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control). If the LH or PO PQC is refused, Para 6913 will apply. In the event of failure during a LH or PO PQC, Para 6912 will apply.

i. **RPS Lead Authority.** The following table details the Lead School where there is an RPS Check.

<table>
<thead>
<tr>
<th></th>
<th>WS</th>
<th>SEA</th>
<th>MW</th>
<th>HM</th>
</tr>
</thead>
<tbody>
<tr>
<td>RPS Check</td>
<td>MWS</td>
<td>MWS(STU) &amp; MWS</td>
<td>MWS(STU) &amp; MWS</td>
<td>MWS(STU) &amp; HMTG</td>
</tr>
</tbody>
</table>

Sea/MW/HM RPS Checks all have both Seamanship and Specialist components, ie.

- **SEA** = Seamanship (MWS Seamanship Training Unit (STU)) + Tactical Communications (MWS)
- **MW** = Seamanship (MWS(STU)) + MW (MWS)
- **HM** = Seamanship (MWS(STU)) + HM (FOST HM)
7704. JPA Recording - Competences, Annual RPS Check, RNFT and Sea Time

a. **Recording of Competences.** Once a WB rating has successfully completed a PQC, WTTB, PJT/TEM and achieved RPS that competence is to be input to JPA by the appropriate unit HR administrator.

b. **Annual RPS Check.** All personnel are expected to remain at RPS while building experience towards promotion. Sub-Specialisation Training Groups or lead Schools will define and regulate the standards required to pass an Annual RPS Check and will promulgate them to Fleet Units. Guidance on the process of conducting RPS checks is given in BRd 1984 - Warfare Training Regulations.

1. Maintenance of RPS is to be monitored through an annual RPS Check process co-ordinated by the Warfare Training Co-ordinator, who is to ensure that sufficient opportunities are provided for this purpose within the constraints of the manpower planning cycle.

2. Ratings assigned to positions outside of core warfare disciplines are expected, where possible, to maintain RPS. However, it is recognised that this may not be possible due to location and employment patterns. Therefore all individuals rejoining Front Line Units from shore assignments are to be given an RPS check as soon as practical after arrival, recorded on JPA as:

   ‘CMS|Annual RPS Check AB1|Navy’.

3. An Annual RPS Check is not a pre-selection requirement.

4. An Annual RPS Check is a pre-requisite for all promotion career courses for AB-LH and LH-PO.

5. Divisional Officers and Line Managers of ABs and LHs who are serving ashore when selected for the next higher rate are to arrange for an Annual RPS check via the lead training school (see table below) prior to the individual attending promotion career training.

6. RPS qualifications will be checked on attendance of LH and PO career course training. Ratings who are not in date for an Annual RPS Check will be returned to Unit.

c. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the CPD. See Para 6718 for full details.

d. **Sea Service.** A minimum period of sea service (not including JR Squad time) is required as a pre-selection requisite for promotion to PO and CPO and is to be recorded on JPA (See Annexes for individual specialisation minimum sea time requirements). Para 6905 defines criteria for award of sea service.
7705. Appraisal Reports

a. **Appraisal Reports.** Appraisal reports are required in order to provide selection boards with the detail of an individual’s performance and suitability for promotion. Appraisal reports are to be raised annually (30 Nov for all ABs; 31 Jan for all LH). Individuals who cannot maintain RPS, or who receive an unequivocal statement of ‘non-recommendation’ in a SJAR appraisal, must be given a clear plan of action to remedy the situation. This plan must be summarised in the report. If no clear improvement is forthcoming within 3-6 months, individuals should be issued with a formal Divisional Officer, HOD or Commanding Officer’s warning for inadequacy. In cases where a warning has been issued and an individual has not achieved or maintained RPS within the 3-6 month period, the relevant Branch Manager is to be consulted for advice.

b. **SJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion (‘Exceptional’, ‘High’ or ‘Yes’ recommendation for ‘Promotion - 1 Rank Up’ on SJAR by final RO) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Promotion Board. Where an otherwise fully eligible candidate has received an SJAR assessment of ‘Insufficient Knowledge’ at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. Ratings may be deemed as ‘developing’ at the annual reporting stage, but this should not be based solely on not having achieved RPS.

7706. Warfare Branch Badges

a. Specialisation badges are to be shipped on completion of Phase II training.

b. Stars and Crowns are to be shipped as follows:

   1 Star  On advancement to AB1 (RPS achieved).

   2 Stars  On completion of the LH PQC.

   Crown  On completion of the PO PQC.

7707. Education For Promotion

A Leading Hand must be educationally qualified to Level 1 Functional Skills and a Petty Officer to Level 2 Functional Skills in English and Mathematics or a suitable equivalent for either or both of these qualifications. See Chapter 96 for further information.

7708. Warfare Branch - General Service - Promotion Flowcharts

Detailed promotion flows for each of the Warfare Branch sub-specialisations are listed in the Annexes to this Chapter (see bookmarks), along with specific notes relevant to that specialisation.

| Advanced to |
| ABLE SEAMAN 1 WS (AWT), (AWW), (EW), (UW) |

Leading Hand - Pre-Selection Requirements

a. AB-LH CBRNDC TB issued (TB may be issued earlier at HOD’s discretion). |

b. Serving on ES1/FC/OE1 that expires after the nominated CPD (Para 6703 b sub para (7)). |

c. Recommended for promotion on Appraisal Report at CRD. (Para 7705).
Leading Hand - Pre-Promotion Requirements

d. CBRNDC TB achieved by CPD and recorded as JPA competence
   ‘Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy|’. (Para 7703 sub para f).

e. Cationally qualified for promotion (EFP) in accordance with Para 9636. Achieved
   minimum NAMET 5:5 or Level 1 FS (or equivalent) in English and Mathematics and
   appropriate competences recorded on JPA.

f. C completed and recorded as JPA competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|’. (Para 7703 sub para g and sub para h).

g. Sed LH PQC by nominated CPD+12 months. (awarded 2-star specialisation
   badge AWT, AWW, EW or UW). (Para 7703 sub para g and sub para h). At least 6
   months since last Career Check (if any) on CPD or date due promotion (if later).

h. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if
   later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

Promoted to
LEADING HAND WS (AWT), (AWW), (EW), (UW))

Petty Officer – Pre-Selection Requirements

a. Completed LH WTTB in relevant Sub-Specialisation. Achieved OPS; to be
   recorded under:

   ‘Professional|OPS for LH WS(AWT)|Navy|’

   ‘Professional|OPS for LH WS(AWW)|Navy|’

   ‘Professional|OPS for LH WS(EW)|Navy|’

   ‘Professional|OPS for LH WS(UW)|Navy|’

   (Para 7703 sub para a and sub para b).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD
   (Para 6703 b sub para (7)).

c. Recommended for promotion on Appraisal Report at CRD. (Para 7705).
Petty Officer – Pre-Promotion Requirements

d. 12 months’ sea service (excluding Squad time ashore where applicable) as a LH at the CPD. Recorded as JPA competence ‘CMS|12 Months Sea Time LH|Navy|’. (Para 7704 sub para d).

e. SRLC completed and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’. (Para 7703 sub para g and sub para h).

f. Passed PO PQC by nominated CPD+12 months (awarded PO specialisation badge (Crown)). (Para 7703 sub para g and sub para h).

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

h. EFP in accordance with Para 9636. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

i. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

Promoted to PETTY OFFICER WS (AWT), (AWW), (EW), (UW)

Chief Petty Officer – Pre-Selection Requirements

a. Achieved OPS as a PO recorded as JPA Competence:
   ‘Professional|OPS for PO WS(AWT)|Navy|’
   ‘Professional|OPS for PO WS(AWW)|Navy|’
   ‘Professional|OPS for PO WS(EW)|Navy|’
   ‘Professional|OPS for PO WS(UW)|Navy|’ (Note 1).

b. Minimum of 3 years’ seniority as a PO 12 months prior to the CPD (Para 6703 b sub para (3)).

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

d. SRLC completed and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’.

e. Recommended for promotion on Appraisal Report at CRD. (Para 7705).
Chief Petty Officer – Pre-Promotion Requirements

f. 12 months’ sea service as a PO. Recorded as JPA competence ‘CMS|12 Months Sea Time PO|Navy’ (Para 7704 sub para d).

g. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER WS (AWT), (AWW), (EW), (UW)

Warrant Officer 1 – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPO 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. EFP in accordance with Para 9636. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

d. Recommended for promotion on Appraisal Report at CRD. (Para 7705).

Warrant Officer 1 – Pre-Promotion Requirements

e. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

f. At least 6 months since last career check (if any) on CPD or date due promotion (if later).

g. Satisfy terms of Assignment Order issued by Promotion Authority.

Promoted to
WARRANT OFFICER 1 WS (AWT), (AWW), (EW), (UW)

Note. Professional Certification Record. On completion of PO PQC, individuals will be issued a Professional Certification Record. This record is to be completed within 12 months of joining their first sea going Unit as a PO. Once completed, an individual has achieved OPS and can be awarded the competence.
ANNEX 77B

SEAMAN SPECIALIST – PROMOTION FLOWCHART

Entry Qualifications: (Ref Para 0759)

ABLE SEAMAN 2 (SEAMAN)

a. Completed RALEIGH Phase 1 Training.

b. Completed RNSoS/MWS AB(SEA) PQC.

c. Continue instruction to achieve FS Level 1 Certificates in Adult Literacy and Numeracy. (Para 7707).

d. Assigned to sea billet. Achieve Local Boats Crew endorsement (Bowman).

e. Completed WTTB (Sections 1-2, Seamanship and Tactical Communication) - achieved RPS as AB (SEA), authorised by Warfare HOD. RPS is to be recorded as JPA competence ‘Professional|OPS for AB1 (SEA)|Navy|’ (Para 7703 sub para a and sub para b).

f. In date for RNFT or waiver obtained on date due advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy|’. (Para 7704 sub para b).

g. At least 6 months since last Career Check (if any) on date due advancement.

h. Awarded AB1 Badge (single star). PAR sent to parent CMC. (Para 7703 sub para a).

Advanced to

ABLE SEAMAN 1 (SEAMAN)

Leading Hand – Pre-Selection Requirements

a. AB-LH CBRNDC TB issued (TB may be issued earlier at HOD’s discretion).

b. Achieved Sea 127 Waterjet Drive Coxswain course by CRD. To be recorded as JPA competence ‘Miscellaneous|Waterjet Drive Coxswain (SEA 127)|Navy|’. (Can be achieved by an AB2) (Note 1).

c. Achieved Sea 113 Water Safety Equipment Maintainer and Supervisor course by CRD. To be recorded as JPA competence ‘Ratings (General)|Water Safety Equipment Maintainer/Supervisor (SEA 113)|Navy|’. (Can be achieved by an AB2) (Note 1).

d. Serving on ES1/FC/OE1 that expires after the nominated CPD. (Para 6703 b sub para (7)).

e. Recommended for promotion on Appraisal Report on CRD. (Para 7705)
Leading Hand – Pre-Promotion Requirements

f. CBRNDC TB achieved by CPD and recorded as JPA competence 'Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy|'. (Para 7703 sub para f).

g. Educationally qualified for promotion (EFP) in accordance with Para 9636. Achieved minimum NAMET 5:5 or Level 1 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

h. LRLC completed and recorded as JPA competence 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|'. (Para 7703 sub para g and sub para h).

i. Passed LH (SEA) PQC by nominated CPD+12 months (awarded 2-star specialisation badge). (Para 7703 sub para g and sub para h).

j. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

k. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence 'CMS|Fitness Test|Navy|

| Promoted to  |
| LEADING HAND (SEAMAN) |

Petty Officer – Pre-Selection Requirements

a. Complete LH (SEA) WTTB. Achieved RPS, recorded as JPS competence under 'Professional|OPS for LH (SEA)|Navy|' (Para 7703 sub para a and sub para b).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7)).

c. Recommended for promotion on Appraisal Report on CRD. (Para 7705).

Petty Officer – Pre-Promotion Requirements

d. 12 months’ sea service (excluding Squad time ashore where applicable) as a LH at the CPD. Recorded as JPA competence 'CMS|12 Months Sea Time LH|Navy|'. (Para 7704 sub para d).

e. SRLC completed and recorded as JPA competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|' (Para 7703 sub para g and sub para h).

f. Passed PO(SEA) PQC by nominated CPD+12 months (awarded PO specialisation badge (Crown)). (Para 7703 sub para g and sub para h).
g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

h. EFP in accordance with Para 9636. Achieved minimum Level 2 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

i. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

Promoted to
PETTY OFFICER (SEAMAN)

Chief Petty Officer – Pre-Selection Requirements

a. Achieved RPS as a PO(SEA) recorded as JPA Competence ‘Professional|RPS for PO (SEA)|Navy’. (Note 2).

b. Minimum of 3 years’ seniority as a PO 12 months prior to the CPD (Para 6703 b sub para (3)).

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

d. SRLC completed and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’.

e. Recommended for promotion on Appraisal Report at CRD. (Para 7705).

Chief Petty Officer – Pre-Promotion Requirements

f. 12 months’ sea service as a PO. Recorded as JPA competence ‘CMS|12 Months Sea Time PO|Navy’ (Para 7704 sub para d).

g. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

h. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER (SEAMAN)
Warrant Officer 1 – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPO 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. EFP in accordance with Para 9636. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

d. Recommended for promotion on Appraisal Report at CRD. (Para 7705).

Warrant Officer 1 – Pre-Promotion Requirements

e. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

f. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

g. Satisfy terms of Assignment Order issued by Promotion Authority.

Notes:

1. Failure to achieve SEA 127 and SEA 133 by CRD will result in ratings not being presented to the LH selection board.

2. Petty Officer (SEA) OPS. PO(SEA) complete PQC at RPS therefore once completed MWS STU will award the OPS competence.
ANNEX 77C

MINE WARFARE SPECIALIST – PROMOTION FLOWCHART

Entry Qualifications: (Ref Para 0759)

**ABLE SEAMAN 2 (MINE WARFARE)**

- a. Completed RALEIGH - Phase 1 Training.
- b. Completed RNSoS/MWS AB(MW) PQC.
- c. Continue instruction to achieve FS Level 1 Certificates in Adult Literacy and Numeracy. (Para 7707).
- d. Assigned to sea billet. Achieve Local Boats Crew Endorsement (Bowman).
- e. Completed WTTB - achieved RPS as AB(MW), authorised by Warfare HOD. OPS is to be recorded under 'Professional|RPS for AB1 (MW)|Navy' (Para 7703 sub para a and sub para b).
- f. In date for RNFT or waiver obtained on date due advancement; recorded under JPA competence 'CMS|Fitness Test|Navy'.
- g. At least 6 months since last Career Check (if any) on date due advancement.
- h. Awarded AB1 Badge (single star). PAR sent to parent CMC. (Para 7703 sub para a).

**Advanced to ABLE SEAMAN 1 (MW)**

**Leading Hand – Pre-Selection Requirements**

- a. AB-LH CBRNDC TB issued (may be issued earlier at HOD’s discretion).
- b. Serving on ES1/FC/OE1 that expires after the CPD (Para 6703 b sub para (7)).

**Leading Hand – Pre-Promotion Requirements**

- d. CBRNDC TB achieved by CPD and recorded as JPA competence 'Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy' . (Para 7703 sub para f).
e. Educationally qualified for promotion (EFP) in accordance with Para 9636. Achieved minimum NAMET 5:5 or Level 1 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

d. LRLC completed and recorded as JPA competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’ (Para 7703, sub para f and sub para g).

g. Passed LH (MW) PQC by nominated CPD+12 months (awarded 2-star specialisation badge) (Para 7703 sub para g and sub para h). At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

h. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

---

**Promoted to
LEADING HAND (MW)**

---

**Petty Officer – Pre-Selection Requirements**

a. Completed LH (MW) and Seamanship WTTB. Achieved RPS. RPS is to be recorded under ‘Professional|RPS for LH (MW)|Navy’ (Para 7703 sub para a and sub para b)(Note 1).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

c. Recommended for promotion on Appraisal Report on CRD. (Para 7705)

**Petty Officer – Pre-Promotion Requirements**

d. 12 months’ sea service (excluding Squad time ashore where applicable) as a LH at the CPD. Recorded as JPA competence ‘CMS|12 Months Sea Time LH|Navy’ (Para 7704 sub para d).

e. SRLC completed and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’. (Para 7703 sub para g and sub para h).

f. Passed PO(MW) PQC by CPD+12 months (awarded PO specialisation badge (Crown)). (Para 7703 sub para g and sub para h)(Note 1).

g. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

h. EFP in accordance with Para 9636. Achieved minimum Level 2 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

i. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.
Chief Petty Officer – Pre-Selection Requirements

a. Achieved RPS as PO (MW) recorded as JPA Competence ‘Professional|RPS for PO (MW)|Navy’. (Note 2).

b. Minimum of 3 years’ seniority as a PO 12 months prior to the CPD (Para 6703 b sub para (3)).

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

d. SRLC completed and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’.

e. Recommended for promotion on Appraisal Report at CRD. (Para 7705).

Chief Petty Officer – Pre-Promotion Requirements

f. 12 months’ sea service as a PO. Recorded as JPA competence ‘CMS|12 Months Sea Time PO|Navy’ (Para 7704 sub para d).

g. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

h. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

Warrant Officer 1 – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPO 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

c. EFP in accordance with Para 9636. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

d. Recommended for promotion on Appraisal Report at CRD. (Para 7705)
**Warrant Officer 1 – Pre-Promotion Requirements**

e. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

f. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

g. Satisfy terms of Assignment Order issued by Promotion Authority.

Promoted to

**WARRANT OFFICER (MW)**

**Notes:**

1. **LS(MW).** The PQC will consist of a MW course delivered at MWS and a Seamanship course delivered at MWS (STU). Full RPS as LS will be achieved once WTTB’s have been completed in both MW and Seamanship disciplines.

2. **PO(MW).** The PQC will consist of a MW course delivered at MWS and a Seamanship course delivered at MWS (STU). On completion of PO PQC, individuals will be issued a Professional Certification Record. This record is to be completed within 12 months of joining their first sea going Unit as a PO. Once completed, an individual has achieved RPS and can be awarded the competence.

‘Professional|RPS for PO (HM)(H)|Navy’.

‘Professional|RPS for PO (HM)(M)|Navy’ (Note 4).

b. Minimum of 3 years’ seniority as a PO 12 months prior to the CPD (Para 6703 b sub para (3)).

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

d. Completed Senior Rates Leadership Course (SRLC), recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’.

e. Recommended for promotion on Appraisal Report at CRD. (Para 7705).

Chief Petty Officer – Pre-Promotion Requirements

f. 12 months’ sea service as a PO for PO (HM)(H) ratings only. Recorded as JPA competence 'CMS|12 Months Sea Time PO|Navy’). (Para 7704 sub para d).

g. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

h. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).
i. Passed CPO (HM)(M) PQC by CPD+12 months for CPO (HM)(M) ratings only. Note 5).

Promoted to
CHIEF PETTY OFFICER (HM)(H) or (HM)(M)

Warrant Officer 1 – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPO 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. EFP in accordance with Para 9636. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

d. Recommended for promotion on Appraisal Report at CRD. (Para 7705).

Promoted to
CHIEF PETTY OFFICER (HM)(H) or (HM)(M)

Warrant Officer 1 – Pre-Promotion Requirements

e. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

f. At least 6 months since last career check (if any) on CPD or date due promotion (if later).

g. Satisfy terms of Assignment Order issued by Promotion Authority.

Promoted to
WARRANT OFFICER 1 (HM)(H) or (HM)(M)

Notes:

1. Selection of Career Path. AB (HM)s will be given an opportunity to express a preference for the discipline within the HM specialisation that they wish to follow during Phase 1 Training. This cannot be guaranteed and may have to change due to the requirements of the Service.

2. Phase 2 Training. AB (HM)s will complete either the (HM)(H) or (HM)(M) course at FOST HMTG. Only individuals streamed (HM)(H) will conduct seamanship specialisation training delivered at MWS (STU) located at HMS RALEIGH.

3. RPS. AB1 (HM)(H) and LS (HM)(H) are not deemed to be at full RPS until completion of their (HM)(H) and Seamanship WTTBs.

Continued
Notes: (Continued)

4. **RPS Achievement.** A PO(HM) rating will achieve RPS when the following has been completed:

a. **PO(HM)(H).** On completion of the PQC an individual will be issued a Professional Certification Record (PCR). The PCR is to be completed within 12 months of joining the first sea going Unit as a PO. Once completed an individual has achieved RPS and can be awarded the competence.

b. **PO(HM)(M).** When an individual has completed the PO(HM)(M) PQC they are deemed to be at RPS and can be awarded the competence.

5. **Meteorological Qualification.**

a. A PO HM(M) selected for CPO (HM)(M) and who has passed the PQC will be assigned to an air station to complete a WTTB. An individual has 3 months to complete the WTTB. The completion of the WTTB signifies an individual has achieved OPS and is to be awarded the following competence:

   ‘Professional|RPS Meteorological Forecasting|Navy’

b. New Aeronautical Meteorological Forecaster (AMF) guidelines came into force on 1 Dec 16. From that date there is a need to conduct an annual RPS check for all forecasters. The following competence is to be used:

   ‘CMS|Annual RPS Meteorological Forecasting|Navy’

c. In order to track where individuals were certified as a Bench Forecaster the following competences are to be used:

   ‘Professional|Meteorological Bench Forecaster Culdrose|Navy’
   ‘Professional|Meteorological Bench Forecaster Yeovilton|Navy’
   ‘Professional|Meteorological Bench Forecaster Marham|Navy’
   ‘Professional|Meteorological Bench Forecaster JOMOC|Navy’
   ‘Professional|Meteorological Bench Forecaster Waddington|Navy’
ANNEX 77E

WEAPON ANALYST – PROMOTION FLOWCHART

PETTY OFFICER (WEAPON ANALYST)

Chief Petty Officer – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a PO 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

c. SRLC completed and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’.

d. Recommended for promotion on Appraisal Report at CRD. (Para 7705).

Chief Petty Officer – Pre-Promotion Requirements

e. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

Leading Hand - Pre-Selection Requirements

a. AB-LH WTTB TB issued.

b. Serving on ES1/FC/OE1 that expires after the nominated CPD. (Para 6703 b sub para (6)).

Leading Hand - Pre-Promotion Requirements

d. AB-LH WTTB TB achieved by CPD.

e. Educationally qualified for promotion (EFP) in accordance with Para 9636. Achieved minimum NAMET 5:5 or Level 1 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

f. Completed LRLC; recorded as JPA competence: ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’. (Para 7703 sub para g and sub para h).
g. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

h. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

Promoted to
LEADING HAND WS (INT)

Petty Officer – Pre-Selection Requirements

a. Achieved OPS; to be recorded under: ‘Professional|OPS for LH WS(INT)|Navy’ (Para 7703 sub para a and sub para b). (Note 2)

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (6)).

c. Recommended for promotion on Appraisal Report at CRD. (Para 7705).

Petty Officer – Pre-Promotion Requirements

d. 12 months’ service as a LH at the CPD.

e. SRLC completed and recorded as JPA competence: ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’. (Para 7703 sub para g and sub para h).

f. Passed PO PQC by nominated CPD+12 months (awarded PO specialisation badge (Crown)). (Para 7703 sub para g and sub para h).

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

h. EFP in accordance with Para 9636. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

i. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence: ‘CMS|Fitness Test|Navy’.

Promoted to
PETTY OFFICER WS (INT)

Chief Petty Officer – Pre-Selection Requirements

a. Achieved OPS as a PO; recorded as JPA Competence: ‘Professional|OPS for PO WS(INT)|Navy’ (Note 2).

b. Minimum of 3 years’ seniority as a PO 12 months prior to the CPD (Para 6703 b sub para (2)).
c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

d. Completed Senior Rates Leadership Course; recorded as JPA competence: 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|'.

e. Recommended for promotion on Appraisal Report at CRD. (Para 7705).

**Chief Petty Officer – Pre-Promotion Requirements**

f. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence: ‘CMS|Fitness Test|Navy|’.

g. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

| Promoted to |
| CHIEF PETTY OFFICER WS (INT) |

**Warrant Officer 1 – Pre-Selection Requirements**

a. Minimum of 3 years’ seniority as a CPO 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. EFP in accordance with Para 9636. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

d. Recommended for promotion on Appraisal Report at CRD. (Para 7705).

**Warrant Officer 1 – Pre-Promotion Requirements**

e. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

f. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

g. Satisfy terms of Assignment Order issued by Promotion Authority.

| Promoted to |
| WARRANT OFFICER WS (INT) |
Notes:

1. Sea Service. Due to the limited number of Sea Service billets available to AB(WS)(INT) and LS(WS)(INT) ratings, the requirement to complete CBRNDC TB has been waived. However, sea-going WS(INT) ratings will still require sea safety training prior to serving in sea-going vessels; all will be encouraged to complete CBRNDC TB as part of a wider CPD initiative.

2. OPS. The assessment of OPS for all WS(INT) ratings is to be conducted by an appropriately SQEP GSX(INT) Officer.

3. Professional Certification Record. On completion of PO PQC, individuals will be issued a Professional Certification Record. This record is to be completed within 12 months of joining their first unit as a PO. Once completed, an individual has achieved OPS and may be awarded the competence.

Annex 78C  Employment on Clearance Diver Pay Spine – Royal Navy Senior Rating Divers
CHAPTER 78

WARFARE BRANCH – DIVER

7801. General

This Chapter covers the specific career regulations for General Service Warfare Branch Divers. Divisional Officers are to ensure that a copy of Chapter 78, along with Annex 78A, Annex 78B and Annex 78C to this Chapter, is placed in the PDR of every Diver Specialist in their Division.

7802. Direct Entry into the Diver Specialisation

a. In order to commence training, the following eligibility criteria apply:

(1) Be aged 18-37.

(2) Be recommended by Careers staff.

(3) Must attend and pass the Potential Diver's Assessment (PDA) at the Defence Diving School (DDS).

(4) Must pass the Diver’s Physical Fitness Test (DPFT).

b. All candidates must complete a diving medical in accordance with the Diver specialisation requirements contained in BR 1750A (Handbook of Naval Medical Standards).

c. After successful completion of Phase 1 Training at HMS RALEIGH, candidates will undertake the Phase 2 Able Seaman 2 (Diver) (AB2 (D)) Professional Qualifying Course (PQC). Promotion and the award of diving competences will be in accordance with Annex 78A and Annex 78B.

7803. Branch Transfer Entry into the Diver Specialisation

a. Branch transfer entry will complement direct entry to the Diver specialisation.

b. Volunteers for transfer to the Diver specialisation will be considered from ratings of any branch or specialisation and must satisfy the following eligibility criteria:

(1) Be an Able Rating (AB) who has achieved Role Performance Standard (RPS) as an AB1 on the date of application, or a Leading Hand.

(2) Passed the Diver’s Physical Fitness Test in accordance with BR 2806 (The Military Diving Manual).

(3) Attended a PDA at the DDS - the PDA has a validity of two years after which it must be retaken if the individual has not completed the AB2 (D) course.
(4) Have at least three years to serve on completion of the AB2 (D) PQC prior to their 37th birthday.

(5) Be in MEDCAT MFD A4/L1/M1/E1 and meet the required medical standards for the Diver specialisation in accordance with BR 1750A (renewed annually).

(6) Be recommended by their Commanding Officer for the Diver specialisation.

c. When a candidate has been recommended for the Diver specialisation, an application is to be made to Navy Command ACOS(PCap), for the attention of NAVY PCAP-PPLAN SWPR WO1, for permission to proceed to the PDA course. When the PDA has been successfully completed, manning clearance to change branch/specialisation is to be requested via NAVY PCAP-PPLAN SWPR WO1 in accordance with current regulations. Manning clearance, if granted, will be valid for two years. The applicant will then be allocated a place on an AB Diver PQC.

d. If, for any reason, a rating is no longer considered suitable for branch/specialisation transfer their application is to be withdrawn. The rating is to be informed of the reason for withdrawal and, if appropriate, whether a new application may be made. Withdrawal must be notified to the Navy Command / ACOS(PCap). If still recommended by their Commanding Officer, a rating may re-apply for branch/specialisation transfer no sooner than six months from the date of withdrawal. The rating will not be required to repeat the Aptitude Test if within the two-year validity period.

e. Ratings will remain in their source specialisation until successful completion of the Diver course. Ratings who fail the course will return to their source specialisation. If, having been accepted for transfer to the Diver specialisation, a rating is selected for promotion within their source specialisation, they may take the requisite professional and leadership courses and therefore obtain promotion up until the day that Diver training is completed, provided that neither of those courses interferes with their Diver PQC. If, on the day of the latter, however, they have failed to obtain the qualifications necessary for promotion, they will forfeit their selection. If a rating opts to leave the AB(D) course or fails it, the facts are to be reported to the Source Branch Manager for a decision over the rating’s future promotion opportunities in their source specialisation.

f. Ratings of the SEA/MW/HM(H) specialisations who attain the rate of acting or confirmed LH (SEA/MW/HM(H)) before transfer (and ABs who have completed Seamanship Workplace Training Task Book (WTTB) but have yet to be selected for LH), will not be required to repeat Seamanship when re-advancing to or upon being selected for promotion for LH in the Diver specialisation. Transferees who fall into this category will be required to complete the AB(D)-LH(D) Diving WTTB. Seamanship qualifications will be reflected as having been previously passed.
7804. Warfare Branch Training - Career Progress and Targeted Employment Modules

Career Progression for ratings in the Diver specialisation is detailed in Annex 78A. In addition to Career training, individuals may be required to undertake Targeted Employment Modules (TEMs) in accordance with the Unit Establishment List (UEL).

a. **Training Performance Statements, Workplace Training Task Books and Role Performance Standard.** On successful completion of PQCs for AB2, LH and PO, a Diver rating will have attained the Training Performance Statement (TPS) for the current rate. Individuals will be issued with the appropriate WTTB. In the subsequent sea assignment, a rating will be deemed to have achieved RPS on successful completion of the WTTB section of the relevant TB (TPS + Workplace Training = RPS) for AB/LH. On achievement of OPS as an AB1, LH and PO, the Warfare Training Co-ordinator is to inform the unit Human Resource (HR) administrator in order for the relevant competences (see Annex 78B for details) to be inputted to JPA. When an individual is advanced to AB1, the HR administrator is to ensure a Promotion Authorisation Request (PAR) is signalled to their parent Career Management Cell (CMC), which will authorise the promotion and change the rate on JPA. It is important that achievement of OPS is inputted to JPA before the PAR date; thus stating that the rating has achieved OPS before attempting to be advanced to AB1. A rating’s OPS is defined and owned by the Branch Manager.

b. **Mechanism for Unacceptably Slow Progression.** It is entirely possible that some ratings may not achieve RPS. Within the Warfare Branch there is no scope to employ individuals who cannot or will not progress themselves beyond AB2. It must be realised that AB2s are employed primarily to gain experience and to advance to a higher rate. It follows, therefore, that the ultimate sanction for those who cannot or will not progress beyond AB2 is application for administrative discharge on the grounds of un-employability. Within the Diving specialisation an initial warning is set at 12 months from commencement of their WTTB, (unless it has been given earlier, supported by unequivocal statements of non-recommendation for promotion in an Appraisal Report). Warnings will then continue 3-monthly within the Appraisal process for an aggregate total of 18 months under warning, whereupon application for administrative discharge on the grounds of un-employability is to be sought.

c. **Targeted Employment Modules.** TEMs are the method by which additional individual skills, as required by UEL position numbers, are delivered. As TEMs are linked to UEL position numbers, the Training Department Co-ordinator must liaise closely with the Ship’s Coxswain in order to manage Squad members effectively. MWS course capacity and scheduling can restrict the timely delivery of TEMs to meet short notice requirements, therefore individuals may need to be ‘assigned’ between UEL position numbers up to eight months in advance of assuming a particular role in order to achieve the appropriate TEM in good time. Some TEMs are graded whilst others are Pass/Fail as follows:
(1) **Pass.** Training establishments and units which are responsible for conducting TEM courses are to report successful completion and ensure that HR administrators input the relevant competences on JPA.

(2) **Failure.** In the event of failure, students are to be back-classed either by course module, where appropriate, or for the entire course. If a student fails an entire TEM course, a written report is to be forwarded by MWS units and establishments (as appropriate) to the individual's parent unit and the receiving ship. The individual may be considered for Discharge SHORE in accordance with Chapter 54 or, in the case of LH, immediately warned formally by the parent unit for reversion in accordance with Para 7806. The need to assign a rating to the next available TEM course may mean that the formal warning period may be less than three months. The Course Booking Cell (CBC), as advised by the Ship’s Coxswain, may allocate an individual who has failed a TEM or another member of the ship’s Squad to a place on a later TEM. The Ship’s Coxswain will need to assess the manning implications.

(3) **Second Failure.** After a second failure, LH or above will be subject to reversion for unsuitability in accordance with Para 7003. Able Ratings who fail a TEM a second time are not to be employed in any UEL position number that requires that competence and are not to attempt that TEM for another 12 months. The ship is to assess the individual’s employability within the Squad. If deemed unemployable, the matter is to be referred to the Diver Ratings Branch Manager.

d. **Taskbook.** In addition to WTTB, AB2s, AB1s and LHs attending TEMs will also be issued with the relevant On Job Training TB in loose leaf for inclusion in their current WTTBs.

e. **Completion of CBRNDC Task Book.** The CBRNDC TB may be issued prior to a rating being promoted to Diver 1 and can be completed at any time after advancement to that rate. Although not a requirement for selection, all ratings are to complete this TB before promotion to LH, including ALH.

f. **Attendance on Next Higher PQC.** A rating will not be eligible to attend the PQC for a higher rate unless that individual is in date for the Annual RPS Check in the lower rate. The PQC and LRLC/SRLC should normally be undertaken as a package. The Promotion Selection Signal will be the trigger for the CMC to load candidates on a PQC and relevant leadership course. Although it will not be possible to achieve this for every individual immediately, priorities will be amended to achieve commencement of PQC within 12 months of selection. On implementation, it is possible that a surge in applications will exceed available places. The Career Manager’s judgement will be necessary to manage pinch-points.
g. **Failure to Complete Career and/or Leadership Course.** Refer to Para 6716 for rules on the impact on a rating’s promotion if the individual fails to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith control) or non-service reasons (within control). If the LH or PO PQC is refused, Para 6913 will apply. In the event of failure during a LH or PO PQC, Para 6912 will apply.

h. **RPS Lead Authority.** There are 2 Lead authorities responsible for an RPS Check for the Diver Specialisation, as follows:

1. The Diving Standards Team Navy (DST(N)), on behalf of Superintendent of Diving, ensures that diver currency and competence is maintained.

2. MWS Seamanship Training Unit (STU) will define and regulate the standards required to pass the Seamanship RPS Check and will promulgate them to Fleet Units. Seamanship RPS Check is administered by ship’s staff and takes the form of a local board based upon a question/task banks maintained by MWS (STU).

7805. **JPA Recording - Competences, Annual RPS Check, RNFT and Sea Time**

a. **Recording of Competences.** Once a WB rating has successfully completed a PQC, WTTB, TEM and achieved RPS that competence is to be input to JPA by the appropriate unit HR administrator. Annex 78B gives guidance on what, when and who has responsibility for the award of diving competences.

b. **Annual RPS Check.** All personnel are expected to remain at RPS while building experience towards promotion. Lead authorities will define and regulate the standards required to pass an Annual RPS Check and will promulgate them to Fleet Units. Guidance on the process of conducting RPS checks is given in BRd 1984 - Warfare Training Regulations.

1. Maintenance of RPS is to be monitored through an annual RPS Check process co-ordinated by the Warfare Training Co-ordinator, who is to ensure that sufficient opportunities are provided for this purpose within the constraints of the manpower planning cycle.

2. Ratings assigned to positions outside of core diving disciplines are expected, where possible, to maintain RPS. It is recognised, however, that this may not be possible due to location and employment patterns. Therefore all individuals re-joining Diving Units from non-diving assignments are to be given a RPS check as soon as practicable after arrival; recorded on JPA as ‘CMS|Annual RPS Check AB1|Navy’.

3. An Annual RPS Check is a pre-requisite for all Promotion Career Courses for AB-LH and LH-PO.
(4) Divisional Officers and Line Managers of ABs and LHS who are serving ashore when selected for the next higher rate are to arrange for an Annual RPS check via MWS DDS prior to the individual attending Promotion Career training.

(5) RPS qualifications will be checked on attendance of LH and PO Career Course training. Ratings who are not in date for RPS will be returned to Unit.

c. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate SED/CRD and CPD. See Para 6718 for full details.

d. **Sea Service.** A minimum period of sea service is required as a pre-selection requisite for promotion to LH and PO and is to be recorded on JPA (see Annexe 78A). Para 6905 defines the criteria for award of sea service.

7806. **Appraisal Reports**

a. **Appraisal Reports.** Appraisal reports are required in order to provide selection boards with the detail of an individual's performance and suitability for promotion. Appraisal reports are to be raised annually (30 Nov for all ABs; 31 Jan for all LH). Individuals who cannot maintain RPS, or who receive an unequivocal statement of 'non-recommendation' in a SJAR appraisal, must be given a clear plan of action to remedy the situation. This plan must be summarised in the report. If no clear improvement is forthcoming within 3-6 months, individuals should be issued with a formal Divisional Officer, HOD or Commanding Officer's warning for inadequacy. In cases where a warning has been issued and an individual has not achieved or maintained RPS within the 3-6 month period, the Branch Manager is to be consulted for advice.

b. **SJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion ('Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Promotion Board. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. Ratings may be deemed as 'developing' at the annual reporting stage, but this should not be based solely on not having achieved RPS.

7807. **Education For Promotion**

A Leading Hand must be educationally qualified to Level 1 Functional Skills and a Petty Officer to Level 2 Functional Skills in English and Mathematics (or a suitable equivalent) for either or both of these qualifications. See Para 9636 for further information.
7808. **Diver Specialisation – Promotion Flowchart**
A detailed promotion flow for the Diving specialisation is at Annex 78A.

7809. **Diver Specialisation – Award of Diving Competences**
A detailed explanation of when Diving competences should be awarded and end dated is at Annex 78B.

7810. **Employment on Clearance Diver Pay Spine**
Regulations for employment on the Clearance Diver Pay Spine are at Annex 78C.
ANNEX 78A

AB (Diver) 1 – Advancement Criteria

a. Completed RALEIGH - Phase 1 Training.

b. Completed RALEIGH/DDS AB(D) PQC.

c. Continue instruction to achieve FS Level 1 Certificates in Adult Literacy and Numeracy. (Para 7807).

d. Assigned to sea billet.

e. Completed WTTBs (Seamanship and Diver) Achieved RPS as AB2 (D), authorised by Warfare HOD. RPS is to be recorded under ‘Professional|RPS for AB1 (D)|Navy’ (Para 7804 sub para a, sub para b and sub para h).

f. In date RNFT on advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy’ (Para 7805 sub para c).

g. At least 6 months since last Career Check (if any) on date due advancement.

h. Awarded AB1 (D) Badge (single star). PAR sent to parent CMC. (Para 7804 sub para a).

i. Request for change of category to Special Service Pay (Diving) forwarded to parent UPO (Annex 7B).

Advance to

| Able Seaman 1 (Diver) |

Leading Hand Diver – Pre-Selection Requirements

a. AB-LH CBRNDC TB issued (TB may be issued earlier at HOD’s discretion).

b. 12 months’ sea service as AB1 at CRD. Recorded as JPA competence ‘CMS|12 Months Sea Time AB|Navy’ (Para 7805 sub para d).

c. Serving on ES1/FC/OE1 that expires after the nominated CPD (Para 6703 b sub para (7)).

d. Recommended for promotion on Appraisal Report at CRD (Para 7806 sub para b).
Leading Hand (Diver) - Pre-Promotion Requirements

e. CBRNDC TB achieved by CPD and recorded as JPA competence ‘Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy|’. (Para 7804 sub para e).

f. Educationally qualified for promotion (EFP) in accordance with Para 9636. Achieved minimum NAMET 5:5 or Level 1 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

g. LRLC completed and recorded as JPA competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|’. (Para 7804 sub para f and sub para g).

h. Passed LH (D) PQC by nominated CPD+12 months (awarded 2-star specialisation badge). (Para 7804 sub para f and sub para g).

i. At least 6 months since last career check (if any) on CPD or date due promotion (if later).

j. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’. (Para 7805 sub para c).

---

Advance to LEADING HAND (DIVER)

---

Petty Officer (Diver) – Pre-Selection Requirements

a. Completed LH (D) WTTBs. Achieved RPS recorded as ‘Professional|RPS for LH (D)|Navy|’.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD (Para 7806).

---

Petty Officer (Diver) – Pre-Promotion Requirements

d. 12 months’ sea service as LH at CRD. Recorded as JPA competence ‘CMS|12 Months Sea Time LH|Navy|’ (Para 7805 sub para d).

e. Pass PQC for PO(D) by CPD+12 months (awarded PO(D) specialisation badge (Crown)). (Para 7804 sub para f and sub para g)

f. SRLC completed and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’. (Para 7804 sub para f and sub para g).

g. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).
h. EFP in accordance with Para 9636. Achieved minimum Level 2 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

i. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’. (Para 7805 sub para c).

---

Promoted to
PETTY OFFICER (DIVER)

Chief Petty Officer (Diver) – Pre-Selection Requirements

a. Achieved RPS as a PO(D). Recorded as JPA Competence ‘Professional|RPS for PO(D)|Navy|’.

b. Minimum of 3 years’ seniority as PO 12 months prior to the CPD (Para 6703 b sub para (3)).

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

d. SRLC completed and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’.

e. Recommended for promotion on Appraisal Report at CRD.

Chief Petty Officer (Diver) – Pre-Promotion Requirements

f. 6 months’ sea service as a PO(D). Recorded as JPA competence ‘CMS|12 Months Sea Time PO|Navy|’. (Para 7805 sub para d) (Note 1).

g. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’. (Para 7805 sub para c).

h. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

---

Promoted to
CHIEF PETTY OFFICER (DIVER)

Warrant Officer 1 (Diver) – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPO 12 months prior to the CPD.
b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. EFP in accordance with Para 9636. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

d. Recommended for promotion on Appraisal Report at CRD.

Warrant Officer 1 (Diver) – Pre-Promotion Requirements

f. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’. (Para 7805 sub para c)

g. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

h. Satisfy terms of Assignment Order issued by Promotion Authority.

Promoted to

WARRANT OFFICER 1 DIVER

Note. **Sea Service.** PO(D)s are required to complete only 6 months’ sea service. Once qualified they are to be awarded the generic competence ‘CMS|12 Months Sea Time PO|Navy|’.
ANNEX 78B

DIVER SPECIALISATION – AWARD OF DIVING COMPETENCES

1. AB (Diver)

a. When an individual has completed the AB Professional Qualifying Course (PQC), they are deemed to be at RPS for AB2 Diver and will be eligible to receive Cat 2 Recruitment & Retention Payment (Diver) (RRP(D)). Payment of RRP(D), however, will not commence until an individual is assigned to a position that has been tagged for RRP(D) (ie. non-Manning & Training Margin (MTM) position).

b. On completion of Career training, the Defence Diving School (DDS) will provide Babcock with a list of individuals for whom competence action is to be completed as follows:

   Award “Diving|AB Diver Career (DDS 100)|Navy|”.

c. When an individual has completed Explosive Ordnance Disposal (EOD) at DEMMS, including the RN Elementary Underwater EOD (0807 or any subsequent update) course, DEMMS will inform DDS who will provide Babcock with a list of individuals for whom competence action is to be completed as follows:

   Award “Diving|RN Elementary UW EOD|Navy|”.

d. An AB2 Diver will be eligible to receive Cat 2 RRP(D) when assigned to a position that has been tagged for RRP(D) (ie. non-MTM position).

e. In order to ensure that RRP(D) commences at the correct time, the ship or organisation is to raise the appropriate authorisation request and competence action is to be completed by the Unit Personnel Office (UPO), as follows:

   Award “Specialist Pay|Diving Pay –Cat 2 (All ranks)|Navy|”.

f. A Diver is not deemed to be at full OPS until completion of the Seamanship Workplace Training Task Book (WTTB). An individual will need ship-borne experience in order to complete the TB. Once at full RPS and ready in all respects for promotion to AB1 (D) the new qualification attracts Cat 3 RRP(D). If the individual has also completed the 0807 course (Elementary UW EOD) an AB1 (D) will be entitled to Cat 3A RRP(D).

g. In order to ensure that RRP(D) is correctly awarded, the ship/parent unit is to raise the appropriate authorisation request and competence action is to be completed by the UPO as follows:

   Award “Professional|RPS for AB1 (D)|Navy|”.

   End date “Specialist Pay|Diving Pay –Cat 2 (All ranks)|Navy|”.
Award either:

“Specialist Pay|Diving Pay –Cat 3 (All ranks)|Navy” or

“Specialist Pay|Diving Pay –Cat 3a EOD (All ranks)|Navy|no” if the individual has completed the Elementary UW EOD course.

h. If an individual has been awarded only Cat 3 RRP(D) and subsequently completes 0807 course (Elementary UW EOD), then an AB1 (D) will be entitled to Cat 3A RRP(D). In order to ensure that RRP(D) is correctly awarded the ship/parent unit is to raise the appropriate authorisation request and competence action is to be completed by the UPO as follows:

End date “Specialist Pay|Diving Pay –Cat 3 (All ranks)|Navy|”.

Award “Specialist Pay|Diving Pay –Cat 3a EOD (All ranks)|Navy|no”.

2. LH (Diver)

a. When an individual has completed the DDS phase of the LH Diver PQC (DDS 101) it signifies that Category 4 diving standards have been achieved. A LH (Diver) will remain in receipt of Cat 3A RRP(D) until they are assigned to a LH (Diver) position that has been tagged for RRP(D) (ie. non-MTM position).

b. In order to ensure individual competences are correctly updated, DDS will provide Babcock with a list of individuals for whom competence action is to be completed as follows:

Award “Diving|LS Diver Career (DDS 101)|Navy|”.

c. When an individual has completed the current 0804 (Defence EOD No 2 CMD) and the 0813 (Intermediate UW EOD) or the previous 0053 Defence EOD No 2 IEDD Operator Course DEMMS will inform DDS who will provide Babcock with a list of individuals for whom competence action is to be completed as follows:

Award “Explosives|Defence EOD CMD No2|Joint|”.

Award “Diving|RN Intermediate UW EOD|Navy|”.

d. A LH (Diver) will be eligible to receive Cat 4 RRP(D) or Cat 4A RRP(D) if they have completed the current 0804 (Defence EOD No 2 CMD) and the 0813 (Intermediate UW EOD) or the previous 0053 Defence EOD No 2 IEDD operator course but this will not commence until assigned to a LH (Diver) position that has been tagged for RRP(D) (ie. non-MTM position).
e. In order to ensure that RRP(D) commences at the correct time, the ship or organisation needs to raise the appropriate authorisation request and competence action is to be completed by the UPO as follows:

   End date “Specialist Pay|Diving Pay -Cat 3a EOD (All ranks)|Navy|no”.

   Award either:

   “Specialist Pay|Diving Pay -Cat 4 (Leading Rate and above)|Navy|”.

   “Specialist Pay|Diving Pay -Cat 4a EOD (Leading Rate and above)|Navy|” if the individual has completed the Intermediate UW EOD course.

f. If an individual has only been awarded the Cat 4 RRP(D) and subsequently completes 0813 course (Intermediate UW EOD) a LS(D) they will be entitled to Cat 4A RRP(D). In order to ensure that RRP(D) is correctly awarded the ship/parent unit is to raise the appropriate authorisation request and competence action is to be completed by the UPO as follows:

   End date “Specialist Pay|Diving Pay -Cat 4 (Leading Rate and above)|Navy|”.

   Award “Specialist Pay|Diving Pay -Cat 4a EOD (Leading Rate and above)|Navy|”.

g. A LH (Diver) is not deemed to be at full RPS until completion of the Diver WTTB. When completed, the Commanding Officer (CO) or Head of Department (HOD) is to certify that the individual has achieved full OPS as a LH (D). The ship or unit is to raise the appropriate authorisation request and competence action is to be completed by the UPO as follows:

   Award “Professional|RPS for LH (D)|Navy|”.

3. **PO (Diver)**

a. When an individual has completed the PO Diver PQC (DDS 102) phase at DDS it signifies that Category 5 diving standards have been achieved. Individuals will remain in receipt of Cat 4A RRP(D), however, until they are assigned to a PO (Diver) position that has been tagged for RRP(D) (ie. non-MTM position).

b. In order to ensure individual competences are correctly updated DDS will provide Babcock with a list of individuals for whom competence action is to be completed as follows:

   Award “Diving| PO Diver Career (DDS 102)|Navy|”.

b. In order to ensure individual competences are correctly updated DDS will provide Babcock with a list of individuals for whom competence action is to be completed as follows:

   Award “Diving| PO Diver Career (DDS 102)|Navy|”.
c. When an individual has completed the DEMMS DEOC CMD 0064 (Defence EOD Operator (CMD) and the 0808 Course (RN UW Advanced EOD) or the previous EOD training consisting of the JS EOD 0801 Course; or DEOC 0052 (CMD only) operator course, they will be eligible for RRP(D) Cat 5. RRP(D) Cat 5 will not commence, however, until the individual is assigned to a PO (Diver) position that has been tagged for RRP(D) (ie. non-MTM position).

d. DEMMS will inform DDS who will provide Babcock with a list of individuals for whom competence action is to be completed as follows:

   Award “Explosives|Defence EOD Op CMD|Joint”.

   Award “Diving|RN Advanced UW EOD|Navy”.

   Award “Professional|RPS for PO(D)|Navy”.

e. A PO (Diver) will be eligible to receive Cat 5B RRP(D) if they have completed the current DEOC CMD 0064 and the 0808 Course (RN UW Advanced EOD) or previous EOD training consisting of the JS EOD 0801 Course; or DEOC 0052 (CMD only) operator course, but this will not commence until assigned to a PO (Diver) position that has been tagged for RRP(D) (ie. non-MTM position).

f. In order to ensure that RRP(D) commences at the correct time, the ship or organisation is to raise the appropriate authorisation request and competence action is to be completed by the UPO as follows:

   End date “Specialist Pay|Diving Pay -Cat 4a EOD (Leading Rate and above)|Navy”.

   Award either:

   “Specialist Pay|Diving Pay -Cat 5 (Petty Officer and above)|Navy” or

   “Specialist Pay|Diving Pay –Cat 5b EOD (Petty Officer and above)|Navy” if completed EOD training.

g. If an individual has only been awarded the Cat 5 RRP(D) and subsequently completes the 0808 course, a PO(D) will be entitled to Cat 5B RRP(D). In order to ensure that their RRP(D) is correctly awarded, the ship/parent unit is to raise the appropriate authorisation request and competence action is to be completed by the UPO, as follows:

   End date “Specialist Pay|Diving Pay -Cat 5 (Petty Officer and above)|Navy”.

   Award “Specialist Pay|Diving Pay –Cat 5b EOD (Petty Officer and above)|Navy”.
h. When an individual is qualified to Cat 5B standard and they have completed the JS IEDD No1 Operator Course 0039 or DEOC 0052 (CMD and IEDD) or DEOC Phase 3 IEDD 0063 or DEOC IEDD 0065, they will be entitled to Cat 5A RRP(D).

i. DEMMS will inform DDS who will provide Babcock with a list of individuals for whom competence action is to be completed as follows:

Award “Explosives|Defence EOD Op|IEDD|Joint|”.

End date “Specialist Pay|Diving Pay –Cat 5b EOD (Petty Officer and above)|Navy|”.

Award “Specialist Pay|Diving Pay –Cat 5a IEDD (Petty Officer and above)|Navy|”.
ANNEX 78C

EMPLOYMENT ON CLEARANCE DIVER PAY SPINE – ROYAL NAVY SENIOR RATING DIVERS

1. Origin
   The Clearance Diver Pay Spine (CDPS) was introduced in 2009 as part of the recommendations of the Specialist Pay (Diving) (now RRP(D)) Quinquennial Review. Full details of the CDPS regulations are set out in JSP 754 Chapter 4 Section 11, which remains the definitive authority for CDPS eligibility.

2. Requirement
   The intention of the CDPS is to create, for selected PO(D) and above at or beyond 15 years’ length of service, a structure that makes non pensionable RRP(D) pay into pensionable basic pay and offers an extended career in diving/EOD employment. Personnel on CDPS are no longer eligible for RRP(D) but will receive the equivalent rate of pay as part of their new ‘basic’ rate of pay. This new basic rate will also have factored in the amount that is equivalent to the EOD Supplement. These enhancements are to recognize their diving and EOD skills as well as the Service’s need to retain them employed in diving and diving related assignments beyond the Initial Pension Point (IPP).

3. Terms of Employment
   Royal Navy Senior Rating Divers employed under the CDPS are normally to be employed on Diving, Diving Related, EOD or EOD Related assignments. A Diving/EOD assignment is one requiring an individual to undertake diving or EOD operations using their professional qualification as required by the post specification. A Diving/EOD Related assignment is one that requires the individual to utilise specialist diving or EOD knowledge and expertise but which does not necessarily require the incumbent personally to undertake diving or EOD operations.

4. Eligibility
   Substantive Petty Officers, Chief Petty Officers and Warrant Officers of the RN Diver Branch will be eligible to transfer to the CDPS if they meet the following criteria:
   a. Have completed Diver training at DDS and EOD training at DEMS which includes:
      (1) PO(D) Professional Qualifying Course.
      (2) Defence EOD Operator Training.
      (3) RN Underwater Advanced EOD Training.
   b. Have completed 15 years’ or more paid reckonable service.
   c. Are serving on a permanent pensionable engagement.
d. The following additional criteria will apply:

(1) Personnel must be in receipt of RRP(D) (either at Full or Reserve Band rates).

(2) Personnel must not have applied for Early Termination (also known as premature voluntary retirement (PVR) or Voluntary Outflow (VO)).

(3) Personnel must not have been permanently medically downgraded as unfit for diving duties. Personnel who are temporarily downgraded will have their suitability for entry onto CDPS assessed on a case-by-case basis by the Service Manning Authorities.

(4) Personnel must be able to provide a minimum of 5 years’ service from date of entry to CDPS to their Normal Retirement Date.

5. Application Procedure
   Application for entry to the CDPS will be through an individual’s SJAR. The ‘Volunteer for Further Service’ box should be selected and Reporting Officers should make comment in the text on an individual’s suitability for EC and CDPS.

6. Return of Service
   Although there is no ROS associated with CDPS, it is recommended that personnel fully understand the implications on their pension should they choose to apply for ET (or VO) within 5 years of selection (see JSP 754 Ch 4 sect 11 Art 04.1120).

7. Selection Criteria
   Transfer to CDPS is not automatic; it will be by selection. The number, skill-set and rate of personnel selected each year will be established by the Ratings’ Warfare Branch Manager and will be commensurate with the Service’s requirement to achieve the desired Sustainable Experience Profiles.

8. Selection Board
   There will be one Selection Board held annually concurrently with the Senior Rate Extended Career (EC) Boards. The board will be open to all PO-WO’s with 15 years’ or more service, as described in Para 2 above.

9. Confirmation Process
   Individuals selected for CDPS will be required to confirm their acceptance of transfer and the associated Terms of Service by email, supported by a fully completed S61 being sent to Promotions Section.

10. Entry onto JPA
    Transfer to CDPS will be executed on JPA with the ‘pay run’ following the offer of acceptance and S61 having been received and processed. Personnel will enter at their current increment and will retain their current Incremental Basic Date (IBD).
11. Extended Service
As well as introducing more favourable pension terms for divers, the CDPS also offers an extended career for those selected. The length of extension will be subject to annual review by the Ratings’ Warfare Branch Manager, who will ensure that the desired Sustainable Experience Profiles are maintained.

12. Medical Downgrading
The current single-Service regulations for medical downgrading will remain unchanged for CDPS personnel. CDPS personnel who are temporarily medically downgraded will remain on the CDPS. However, CDPS personnel who are permanently medically downgraded and cannot fill either a diving or diving related post (see para 3 above) will not remain on the CDPS. In these circumstances personnel should be offered a transfer to a non-diving specialisation (manning requirements permitting), reversion to the Main Pay scales and employed on EOD duties only (when RRP(EOD) may be paid) or discharge from the Service (see JSP 754 Pt 2 Ch 4 Sect 11 for further details).

13. Promotion
All personnel on CDPS will remain eligible for promotion to the next higher rank in accordance with current policy and as merited by the Service Manning Authority.

14. Re-entry/Transfer into the Diver Branch
Eligible PO(D)s and above who have previously served on a full time engagement and who have re-joined the Service are eligible for immediate transfer to the CDPS, provided that there is a manning requirement. On re-joining, the individual will enter the CDPS in accordance with JSP 754 04.1105 and 04.1108-04.1109. Their IBD will be the date that they enter the CDPS. Transfers from other branches/Services will be in accordance with single-Service regulations at the Able Seaman level.

15. Transfer out of the Diver Branch
Personnel who transfer out of the Diver Branch will move back to a commensurate Main Pay Scale or, if this is not possible, to a Specially Determined Rate of Pay (SDRP). Unless the transfer is due to medical downgrading, personnel will forego their entitlement to an enhanced pension.

16. Pay and Pensions
Details of pay and pension for CDPS personnel can be found in JSP 754 Chapter 4 Section 11.

WARFARE BRANCH – SUBMARINE SERVICE

7901. General
This Chapter covers the career regulations for all Warfare Branch submarine specialisations with the exception of Coxswain (Submarine) (Chapter 83). Divisional Officers are to ensure that a copy of this Chapter and Annex is placed in the PDR of every member of the Warfare Specialist specialisations listed at Para 7902.

7902. Specialisations of the Warfare Branch (Submarine)

a. The following specialisations (and sub-specialisations) exist:

- Coxswain (Submarine) – Cox'n (SM) – see Chapter 83
- Warfare Specialist (Tactical Submarine) - WS(TSM)
- Warfare Specialist (Sensors Submarine) - WS(SSM)

b. Specialisation Selection. Warfare Branch (Submarine) ratings will be selected for the Warfare Specialisation (WS) at the Careers Offices. WS ratings will be streamed either WS(SSM) or WS(TSM) based on the needs of the service. Individuals requesting to transfer specialisation, both within the Warfare Branch and the RN as a whole, will be managed on a case-by-case basis by the Warfare Ratings Branch Manager.

7903. Submarine Warfare Branch Training - Career Progression and Targeted Employment Modules
Career Progression for Warfare Branch Ratings is detailed within Annex 79A. In addition to Career training, individuals may be required to undertake Targeted Employment Modules (TEMs) in accordance with the Unit Establishment List (UEL).

a. Training Performance Statements, Workplace Training Task Books and Role Performance Standard. On successful completion of PQC's for AB2, LS and PO, a WB rating will have attained the Training Performance Statement (TPS) for the current rate. Individuals will be issued with the appropriate Workplace Training Task Book (WTTB) or a Professional Certification Record (PCR). In the subsequent sea assignment, a rating will be deemed to have achieved Role Performance Standard (RPS) on successful completion of the core career workplace training section of the relevant WTTB (TPS + workplace training = RPS) for AB/LH and PCR for PO. On achievement of RPS as an AB1, LS and PO, the Warfare Training Co-ordinator is to inform the unit Human Resource (HR) administrator in order for the relevant competences (see Annex for details) to be inputted to JPA. When an individual is advanced to AB1, the HR administrator is to ensure a Promotion Authorisation Request (PAR) is signalled to their parent Career Management Cell (CMC), which will authorise the promotion and change the rank on JPA. It is important that achievement of RPS is input to JPA before the PAR date; thus stating that the rating has achieved RPS before attempting to be advanced to AB1. A rating's RPS is defined and owned by the Branch Manager.
b. **Mechanism for Unacceptably Slow Progression.** It is entirely possible that some ratings may not achieve RPS. Within the Warfare Branch there is no scope to employ individuals who cannot or will not progress themselves beyond AB2. It must be realised that AB2s are employed primarily to gain experience and to advance to a higher rate. It follows, therefore, that the ultimate sanction for those who cannot or will not progress beyond AB2 is an application for administrative discharge on the grounds of un-employability. Within the Submarine warfare specialisations an initial warning is set at 12 months from commencement of their WTTB (unless it has been given earlier, supported by unequivocal statements of non-recommendation for promotion in an Appraisal Report). Warnings will then continue 3-monthly within the Appraisal process for an aggregate total of 18 months under warning, whereupon application for administrative discharge on the grounds of un-employability will be sought.

c. **Targeted Employment Modules.** TEMs are the method by which additional individual skills, as required by UEL position numbers, are delivered. As TEMs are linked to UEL position numbers, the Warfare Department Co-ordinator needs to liaise closely with the Coxswain in order to manage Squad members effectively. Course capacity and scheduling can restrict the timely delivery of TEMs to meet short notice requirements, individuals may, therefore, need to be 'manage-moved' between UEL position numbers up to eight months in advance of assuming a particular role in order to achieve the appropriate TEM in good time. Some TEMs are graded whilst others are Pass/Fail, as follows:

1. **Pass.** Training establishments and units that are responsible for conducting TEM courses are to report successful completion and ensure their HR administrators input the relevant competences to JPA.

2. **Failure.** In the event of failure, students are to be back-classed either by course module, where appropriate, or for the entire course. If a student fails an entire TEM course, a written report is to be forwarded by the training unit or establishments (as appropriate) to the individual's parent unit and the receiving submarine. The individual could be considered for discharge SHORE in accordance with Chapter 54 or, in the case of LS, immediately warned formally by the parent unit for reversion in accordance with Para 7905. The need to assign a rating to the next available TEM course may mean that the formal warning period may be less than three months. The Course Booking Cell (CBC), as advised by the submarine’s Coxswain, may allocate an individual who has failed a TEM or another member of the submarine's Squad to a place on a later TEM. The Coxswain must assess the manning implications.

3. **Second Failure.** After a second failure, LH or above will be subject to reversion for unsuitability in accordance with Para 7003. Able Ratings who fail a TEM a second time are not to be employed in any UEL position number that requires that competence and are not to attempt that TEM for another 12 months. The submarine is to assess the individual’s employability within the Squad. If deemed unemployable, the matter is to be referred to the Submarine Warfare Ratings Branch Manager.
d. **TEMs.** In addition to WTTB, AB2s, AB1s and LHs attending TEMs will also be issued with the relevant On Job Training TB in loose leaf for inclusion in their current WTTB.

e. **Attendance on Next Higher Professional Qualifying Course.** A rating will not be eligible to attend the PQC for a higher rate unless they are in date for the Annual RPS Check in the lower rate, in accordance with Para 7904, and have been selected for promotion by a Board. Taskbook certificates of readiness (BRd 1984) and training plans that capture ratings’ preparation are to be handed to the relevant Course Manager on arrival. The PQC and LRLC/SRLC should normally be undertaken as a package. The Selection Signal will be the trigger for the CMCs to load candidates on a PQC and relevant leadership course. It will not be possible to achieve this for every individual immediately, but priorities must be amended to achieve commencement of PQC within 12 months of selection. On implementation, it is possible that a surge in applications will exceed available places. The Career Manager’s judgement will be necessary to manage pinch-points. Where available, spare PQC training capacity may on occasion be offered to non-selected, suitably recommended volunteers.

f. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6716 for rules on the impact on a rating’s promotion if an individual fails to complete PQC and/or LRLC/SRLC before the CPD or within 12 months of the CPD as a result of service reasons, non-service reasons (outwith control) or non-service reasons (within control). If the LH or PO PQC is refused, Para 6913 will apply. In the event of failure during a LS or PO PQC, Para 6912 will apply.

7904. **JPA Recording - Competences, Annual RPS Check, RNFT Sea Time and Pay Qualification Points**

a. **Recording of Competences.** Once a Submarine WB rating has successfully completed a PQC, TEM, WTTB and achieved OPS that competence is to be input to JPA by the appropriate unit HR administrator.

b. **Annual RPS Check.** All personnel are expected to remain at RPS while building experience towards promotion. Lead Schools will define and regulate the standards required to pass an Annual RPS Check and will promulgate them to Fleet Units. Guidance on the process of conducting RPS checks is given in BRd 1984 - Warfare Training Regulations.

   (1) Maintenance of RPS is to be monitored through an annual RPS Check process co-ordinated by the Warfare Training Co-ordinator who is to ensure that sufficient opportunities are provided for this purpose within the constraints of the manpower planning cycle.

   (2) Ratings assigned to positions outside of core warfare disciplines are expected, where possible, to maintain RPS. However, it is recognised that this may not be possible due to location and employment patterns. Therefore all individuals rejoining Front Line Units from shore assignments are to be given an RPS check as soon as practical after arrival; recorded on JPA as:

   ‘CMS|Annual RPS Check AB1|Navy’.
(3) An Annual RPS Check is not a pre-selection requirement.

(4) An Annual RPS Check is a pre-requisite for all Promotion Career Courses and, even though an individual may be in date, an Annual RPS Check must be conducted within 3 months of the Career Course start date for AB-LH and LH-PO.

(5) Divisional Officers or Line Managers of ABs and LHSs who are serving ashore when selected for the next higher rate are to arrange for an Annual RPS check via the OPT facilities within three months of the individual attending Promotion Career training.

(6) RPS qualifications will be checked on attendance of LH and PO Career Course training. Ratings who are not in date for an Annual RPS Check will be returned to Unit.

c. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the CPD. See Para 6718 for full details.

d. **Sea Service.** A minimum of 12 months sea service (not including JR Squad time) is required as a pre-selection requisite for promotion to PO and CPO and is to be recorded on JPA. See Para 6905 for full details.

7905. **Appraisal Reports**

a. **Appraisal Reports.** Appraisal reports are required in order to provide selection boards with the detail of an individual’s performance and suitability for promotion. Appraisal reports are to be raised annually (30 Nov for all ABs; 31 Jan for all LH). Individuals who cannot maintain RPS, or who receive an unequivocal statement of ‘non-recommendation’ in a SJAR appraisal, must be given a clear plan of action to remedy the situation. This plan must be summarised in the report. If no clear improvement is forthcoming within 3-6 months, individuals should be issued with a formal Divisional Officer, HOD or Commanding Officer’s warning for inadequacy. In cases where a warning has been issued and an individual has not achieved or maintained RPS within the 3-6 month period, the Branch Manager is to be consulted for advice.

b. **SJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion (‘Exceptional’, ‘High’ or ‘Yes’ recommendation for ‘Promotion - 1 Rank Up’ on SJAR by final RO) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Promotion Board. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. For promotion up to the rate of PO, Streamlined Eligibility Dates (SED) of 31 Mar, 31 Jul and 30 Nov in any year will apply. Ratings may be deemed as ‘developing’ at the annual reporting stage, but this should not be based solely on not having achieved OPS.
7906. Warfare Branch Badges

a. Specialisation badges are to be shipped on completion of Phase II training.

b. Stars and Crowns are to be shipped as follows:

<table>
<thead>
<tr>
<th>Star</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Star</td>
<td>On advancement to AB1 (RPS achieved).</td>
</tr>
<tr>
<td>2 Stars</td>
<td>On completion of the LS PQC.</td>
</tr>
<tr>
<td>Crown</td>
<td>On completion of the PO PQC.</td>
</tr>
</tbody>
</table>

7907. Education for Promotion

A Leading Hand must be educationally qualified to Level 1 Functional Skills and a Petty Officer to Level 2 Functional Skills in English and Mathematics or a suitable equivalent for either or both of these qualifications. See Para 9636 for further information.

7908. Senior Ratings' Refresher Course at RNSMS

A refresher course is mandatory for all CPO WS(SSM) and CPO WS(TSM) ratings to prepare individuals for their first sea going assignment in that rate. The refresher course is also open to all CPO WS(TSM)/WS(SSM) and PO WS(TSM)/WS(SSM) ratings prior to future sea assignments. It will be at the discretion of the Career Manager in consultation with the individual if refresher training is required.

7909. Submarine Warfare Specialisation - Promotion Flowcharts

Detailed promotion flows for the Submarine Warfare specialisations are at Annex 79A.
ANNEX 79A

SUBMARINE SERVICE WARFARE SPECIALIST – PROMOTION FLOWCHART

Entry Qualifications: (Ref Para 0759)

<table>
<thead>
<tr>
<th>ABLE SEAMAN 2 WS (TSM) or (SSM)</th>
</tr>
</thead>
</table>

### Able Seaman 1 – Advancement Criteria

- a. Completed RALEIGH - Phase 1 Training.
- b. Completed RNSMS AB2 WS PQC in relevant Sub-specialisation.
- c. Completed Phase 2 Training - SMQ(North) or (South) – SMQ(Dry). (Note 1).
- d. Completed Phase 2 Training - Submarine – SMQ(Wet). (Note 2).
- e. Continue instruction to achieve FS Level 1 Certificates in Adult Literacy and Numeracy. (Para 7907).
- f. Assigned to sea position.
- g. Completed WTTB - achieved OPS as AB WS (TSM) or (SSM), authorised by Warfare HOD. OPS is to be recorded under:
  - ‘Professional|OPS for AB1 WS(TSM)|Navy’
  - ‘Professional|OPS for AB1 WS(SSM)|Navy’
  (Para 7903 sub para a and sub para b).
- h. In date for RNFT or waiver obtained on date due advancement, recorded under JPA competence ‘CMS|Fitness Test|Navy’.
- i. At least 6 months since last Career Check (if any) on date due advancement.
- j. SSM ratings to complete narrowband TEM. (Note 3).
- k. Awarded AB1 Badge (single star). Promotion Authorisation Request (PAR) signalled to WMO parent Career Management Cell (CMC). Para 7903 sub para a)

Advanced to

| ABLE SEAMAN 1 WS (TSM) or (SSM) |
Leading Hand – Pre-Selection Requirements

a. Serving on ES1/FC/OE1 that expires after the nominated CPD (Para 6703 b sub para (7)).

b. Recommended for promotion on Appraisal Report on CRD. (Para 7905).

Leading Hand – Pre-Promotion Requirements

c. Educationally qualified for promotion (EFP) in accordance with Para 9636. Achieved minimum NAMET 5:5 or Level 1 FS (or equivalent) in English and Mathematics and recorded on JPA with the appropriate competences.

d. LRLC completed and recorded as JPA competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’.

e. Passed LH PQC by nominated CPD+12 months (awarded 2-star specialisation badge TSM or SSM) (Para 7903 sub para e and sub para f).

f. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

g. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

Petty Officer – Pre–Selection Requirements

a. Completed LH WTTB in relevant Sub-Specialisation. Achieved OPS; to be recorded under:

‘Professional|OPS for LH WS(TSM)|Navy’
‘Professional|OPS for LH WS(SSM)|Navy’

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

c. Recommended for promotion on Appraisal Report on CRD. (Para 7905).

Petty Officer – Pre-Promotion Requirements

d. 12 months’ sea service (excluding Squad time ashore where applicable) as a LH at the CPD. Recorded as JPA competence ‘CMS|12 Months Sea Time LH|Navy’.
(Para 7904 sub para d).
e. SRLC completed by CPD and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’ (Para 7903 sub para e and sub para f).

f. Passed sub-specialisation PO PQC by nominated CPD+12 months (awarded PO specialisation badge (Crown)) (Para 7903 sub para e and sub para f).

g. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

h. EFP in accordance with Para 9636. Achieved minimum Level 2 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

i. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

Promoted to

PETTY OFFICER WS (TSM) or (SSM)

Chief Petty Officer – Pre-Selection Requirements

a. Achieved OPS as a PO recorded as JPA competence:

‘Professional|OPS for PO WS(TSM)|Navy|’

‘Professional|OPS for PO WS(SSM)|Navy|’ (Note 4).

b. Minimum of 3 years’ seniority as a PO 12 months prior to the CPD (Para 6703 b sub para (3)).

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

d. SRLC completed and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’.

e. Recommended for promotion on Appraisal Report at CRD.

Chief Petty Officer – Pre-Promotion Requirements

f. 12 months’ sea service as a PO. Recorded as JPA competence 'CMS|12 Months Sea Time PO|Navy|' (Para 7904 sub para d).

g. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

h. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).
Promoted to
CHIEF PETTY OFFICER WS (TSM) or (SSM)

Warrant Officer 1 – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPO 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

c. EFP in accordance with Para 9636. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

d. Recommended for promotion on Appraisal Report at CRD. (Para 7905).

Warrant Officer 1 – Pre-Promotion Requirements

e. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

f. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

g. Satisfy terms of Assignment Order issued by Promotion Authority.

Promoted to
WARRANT OFFICER 1

Notes:

1. GTS point - Untrained Strength flag changed to NO on completion.

2. Qual SM point - Marks completion of training point.

3. A SSM ratings cannot be awarded the 1 star AB badge or a PAR raised until the Narrowband TEM has been completed.

4. Professional Certification Record. On completion of PO PQC, individuals will be issued a Professional Certification Record. This record is to be completed within 12 months of joining first sea going Unit as a PO. Once completed, an individual has achieved OPS and can be awarded the competence.

CHAPTER 80
WARFARE BRANCH – ROYAL NAVY POLICE

8001. Introduction

a. This Chapter covers the career regulations for General Service Warfare Branch RN Police (RNP). Divisional Officers are to ensure that a copy of this Chapter and Annexes are placed in the PDR of every member of the RNP specialisation.

b. The role of the RNP is to support operational effectiveness and delivery of military capability by deterring, investigating and detecting crime and disciplinary offences, thus maintaining Service discipline.

c. The Provost Marshal Navy (PM(N)) is the competent authority for the investigation of all criminal and disciplinary offences investigated by RNP (QRRN Article 3603). PM(N) has a duty to the Defence Council for the conduct and direction of all such investigations and is to ensure that all investigations are conducted independently from the Chain of Command and are conducted free from improper interference (QRRN Article J.3604), therefore PM(N) has functional authority over all RNP for these purposes.

8002. Entry into the RN Police

The following criteria must be met for entry into the RN Police:

a. An AB1 or Mne with at least 12 months’ service since attaining Role Performance Statement (RPS) at the date of application. A Leading Hand (LH) or Corporal (Cpl). A Petty Officer (PO) or Sergeant (Sgt) and above may be considered on a case by case basis.

b. In date for source branch Annual RPS Check.

c. An individual must have received a positive recommendation of ‘Yes’ or above for LH/Cpl (if AB1, MNE or Lance Cpl) on their last SJAR.

d. Recommended by their Commanding Officer for the RNP specialisation.

e. Have a permanent medical category of Medically Fully Deployable (MFD) (A4/L1 or L2\(^1\)/M1/E1) with a minimum colour perception standard of CP3.

f. Must hold GCSE Grade A* - C, (9 – 4 for Summer examinations 2017 onwards) in English and Mathematics or equivalent for either or both qualifications in accordance with Chapter 96.

g. Six months or more service since last Career Check (if any).

h. Have at least 7 years to serve on completion of the RN Police Initial Course (RNPIC).

\(^1\) L2 Medical Employment Standard Code will be dependent on medical restriction. Each application will be considered by PM(N) on a case by case basis.
i. Have manning clearance for transfer.

j. Must be a British citizen or dual British/other nationality status (see Annex 51A).

k. Hold a full UK driving licence. (An individual may attend the RNP Assessment and Selection Board (See Para 8004 below) however manning clearance to attend RNPIC will NOT be granted until an individual has a full UK licence and it is recorded on JPA.)

8003. Working with Children and/or Vulnerable Adults – Criminal Record Checks

a. Certain positions within the RNP require personnel to hold a valid Enhanced Disclosure level clearance certificate issued by the Disclosure and Barring Service (DBS) or through Disclosure Scotland. In the main, these RNP positions that may require a criminal record check are located at RNP SIB, Phase 1 and 2 training establishments and Diego Garcia.

b. Application for Criminal Record Check clearance will be made by the RNP Career Manager on assignment to one of the RNP positions requiring a criminal record check. See Para 6046 and Annex 60F for further information.

8004. Application for Entry into the RN Police

a. An application form to join the RNP will need to be filled in and individuals must be aware of the following information:

(1) **Financial.** The RNP is in a privileged position with regard to access to information. Applicants to the RNP should not therefore be under pressure from undischarged debts or liabilities. Most applicants have debts, such as mortgages, undischarged loans and credit/store cards and debts which, provided they are within a candidate’s means and manageable are not a bar to assignment to the RNP. The RNP Application Form contains further information regarding the awards of County Court Judgements and Bankruptcy and is the medium used by the candidate to record his/her financial position.

(2) **Convictions.** The RNP Application Form contains further information regarding an individual’s Service and criminal convictions and is the medium used by the candidate to record any such convictions.

(3) **Police National Computer Check (PNC).** A request will be made through the PNC data base concerning information held relating to RNP applicants. In view of the nature of RNP work, applicants are exempt from the provisions of section 4(2) of the Rehabilitation of Offenders Act 1974, by virtue of the Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975 S.3(a)(ii) and Schedule 1 Pt II S.6. RNP applicants are therefore not entitled to withhold information about convictions, which for other purposes are ‘spent’ under the provisions of the Act and in the event of employment any failure to disclose such convictions could result in disciplinary or administrative action.
b. An individual must have passed a RNP aptitude clearance before manning clearance is authorised. No individual can attend an aptitude clearance without PPLAN approval; the following procedure is to be used:

8005. RNP Aptitude Clearance

a. When an individual has been recommended for the RNP specialisation in accordance with Para 8002 sub para (d), an application is to be submitted to PCAP, for the attention of NAVY PCAP-PPLAN SWPR WO1 for permission to proceed to aptitude.

b. When permission is granted, the individual's unit is to liaise with the RNP Spec Adviser to arrange a mutually agreed date for the applicant to attend a RNP Aptitude which includes a NPM Assessment and a Selection Board.

c. While attending a NPM Assessment the following is to be submitted to the RNP Spec Adviser at HQ PM(N).

1. A full hard copy record of the applicant's Appraisal Reports from joining the RN to date.

2. Education certificates.

3. LRLC/SRLC reports, if applicable.

8006. RN Police - Selection Board Procedure

If the applicant successfully completes the NPM Assessment and is considered suitable for transfer to the RNP specialisation, the Spec Advisor will arrange for the applicant to attend a RNP Selection Board.

a. Applicants who are called to appear before the RNP Selection Board will be required to undertake the following:

1. Powers of Observation (Written Exercise).

2. Spot Talk.

3. Interactive Problem-Solving Exercise.

4. PSO Interview.

5. Selection Board Interview.

b. Manning clearance will be valid for two years after a successful pass at a Selection Board.
8007. **Post NPM Assessment/RNP Selection Board**

a. The Divisional Officer of the candidate, the individual and NAVY PCAP-PPLAN SWPR WO1 will be informed of the results of the RNP Selection Board by the RNP Spec Adviser.

b. **Branch Transfer Manning Clearance.** Once an individual has passed the NPM Assessment and RNP Selection Board, manning clearance to change branch/specialisation is to be requested via NAVY PCAP-PPLAN SWPR WO1 in accordance with current regulations.

(1) Manning clearance, if granted, will be valid for up to two years.

(2) The individual will then be allocated a provisional place on the RNPIC by NAVY PCAP-PPLAN SWPR WO1 in consultation with the RNP Spec Adviser.

c. Personnel who have successfully passed the RNP Selection Board and are waiting to be assigned to the RNPIC must continue to meet the criteria at Para 8002, including positive SJAR reports. Failure to achieve this requirement may result in the candidate being debarred from transfer/selection to the RNP.

d. On receipt of an Assignment Order detailing a candidate for RNPIC, Divisional Officers are to check that the rating meets all the requirements for the Course listed at Para 8002. Queries regarding eligibility which cannot be answered in this Chapter should be referred to the Branch Manager or the Spec Adviser immediately, particularly if they concern a Career Check, seniority or current recommendation for LH.

8008. **Attending RNPIC**

Individuals attending RNPIC must be aware of the following.

a. The RNPIC attracts a training return of service of 36 months from the end of course (see Chapter 53). Students must complete RN Form S2658 prior to or on Day 1 of the RNPIC, following which the form is to be returned to the RN Police Career Manager for recording on JPA and follow up action. RNP candidates who do not accept this condition of service will be debarred from attending RNPIC.

b. It is a mandatory requirement for all RNP students commencing RNPIC to complete the Royal Military Police Advanced Apprenticeship Scheme. The induction of the apprenticeship scheme will take place during Week 1 of the RNPIC. See also PM(N) Technical Instructions. The 3 remaining units of the Royal Military Police Advanced Apprenticeship Scheme in Policing (C&G Diploma in Policing) must be completed within 18 months of completing the RNPIC.

c. Personal Safety Training (PST) is fundamental to all further development and promotion within RNP and will be conducted during training therefore individuals must ensure they are physically fit and in date for RNFT.
8009. **Passing RNPIC**

On successful completion of RNPIC the following rules apply:

a. On being rated Leading Hand (Police), ratings leave their original specialisation and join the RNP.

b. An individual will be advanced to LH(Police) once all the criteria at Annex 80A have been satisfied. The following gives further guidance:

   (1) LHs or equivalent rates who pass RNPIC will be rated LH(Police) with a seniority date adjusted to the last day of RNPIC.

   (2) ABs or equivalent rates who have passed the LRLC will be rated LH(RNP) with a seniority of the last day of RNPIC.

   (3) ABs or equivalent rates who pass RNPIC but have not passed the LRLC will be rated LH(Police) on successful completion of LRLC with seniority back dated to the last day of RNPIC.

c. All LH(Police) ratings are subject to a 12-month probationary period as described at Para 8009.

d. See Para 6909 and Para 6915 a sub para (4) regarding non-completion of LRLC and advancement to AHR in exceptional circumstances.

8010. **Reversion and Disrating**

a. If, at the end of one year’s service as a LH(RNP), an individual is considered to be unsuitable or unable to attain the required standard required of a LH(Police), they will be returned to their source branch or specialisation with original seniority as an AB or LH.

b. If an individual fails LRLC they will be returned to their former specialisation.

c. Failure to achieve RPS 24 months after completion of the RNPIC constitutes grounds for reversion and, unless exceptional circumstances exist (the RNP Branch Manager and PM(N) is to be consulted where any doubt exists), the Commanding Officer is to initiate the reversion process to former specialisation and rate, with original seniority.

d. In common with other sideways entry specialisations, ratings who are reverted or disrated to the Able Rate will be returned to their former specialisation and categories. Re-advancement and future employment within the RNP will not normally be permitted. However, each individual will be considered on a case by case basis by the RNP Branch Manager in consultation with PM(N).
8011. **Initial Employment of Leading Hands (Police)**

On successful completion of RNPIC, all newly qualified LH(RNP)s will generally spend a minimum of 18 months consolidating at a RNP Regional Headquarters. This will normally be followed by an Operational tour and their first sea assignment.

8012. **JPA Recording - Competences, RPS/Annual RPS Check, RNFT and Sea Time**

a. **Recording of Competences.** Once a RNP rating has successfully completed a PQC, WTTB, TEM and achieved RPS that competence is to be input to JPA by the appropriate unit HR administrator. It is the responsibility of the individual to check JPA has been updated with the relevant competence.

b. **Achieving RPS.** The apprenticeship, LH(Police) TB and the VCIC are the gateway to achieving RPS. This allows time for probation to be completed and to generate a SQEP person to fulfil the sea role at LH(Police) as they will have to be competent to investigate offences without the supervision of a PO(Police). The following criteria are mandatory for achieving RPS as LH(Police):

   1. Complete the LH(Police) TB. An individual has 12 months to complete the TB. On successful completion, the TB it is to be forwarded to DSPG CPO(RNP) at the training wing, in order for it can be kept on file.

   2. Successfully pass VCIC, which will normally be completed 15–24 months following completion of RNPIC.

c. **Annual RPS Check.** The continued maintenance of RPS (including RNFT) is fundamental to all further development and promotion. In order to monitor individual maintenance of RPS, an annual RPS Check is to be conducted. In exceptional circumstances, some individuals may be unable to achieve the mandatory annual RPS Checks. Where this is the case, the Branch Manager should be consulted for advice.

d. **RNFT.** Ratings are to be in date for RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the CPD. See Para 6718 for full details.

e. **AB-LH CBRNDC TB.** It is recognised that not all specialisations, branches or trades mandate the need to complete a CBRNDC TB. If an individual falls into this category the TB must be completed on joining their first sea going unit.

f. **Sea Service.** A minimum period of sea service is required as a pre-selection requisite for promotion to PO and CPO and is to be recorded on JPA. Para 6905 defines criteria for award of sea service.

8013. **Education For Promotion (EFP)**

The joining criteria for RNP is to hold GCSE Grade A* - C, (9 – 4 for Summer examinations 2017 onwards) in English and Mathematics or equivalent for either or both qualifications, therefore an individual is Educational qualified for subsequent promotions in accordance with Chapter 96.
8014. Incidents to be Reported to Provost Marshal (Navy)

In accordance with Para 5755.b and PM(N) Technical Instructions, responsibility lies with RNP line management to report the following personnel incidents to PM(N) via HQ PM(N) Professional Standards Unit (PSU)/RNP Spec Adviser:

a. Death, or life threatening injury or illness of RNP personnel.

b. Allegations of disciplinary or criminal conduct against RNP personnel, whether on or off duty.

c. Incidents involving RNP personnel which are likely to attract media interest.

d. All complaints made against RNP personnel, whether by civilian or military personnel.

e. All instances of RNP being placed on Formal Warning Levels 1, 2 or 3 (see Chapter 57).

8015. Suspension of RN Police Personnel from Police Duties

Suspension of RNP personnel from police duties is a serious matter. The decision to suspend RNP Personnel from policing duties is made on a case by case basis and is a matter for PM(N). Refer to PM(N) Technical Instructions for further guidance.

8016. RN Police SUY Requirements

Divisional Officers should consult with the RNP SUY Recording Authority (DPM(N)) and RNP Spec Adviser on potential RN Police and RM Police Troop Officer candidates’ career development. Refer to Para 5029 b sub para 6 and sub para 7 for full details on RNP SUY requirements.

8017. RNP OJARs and SJARs

Reporting Officers who are not members of the Service Police are not to comment in OJARs/SJARs on an individual RNP member’s exercise of their investigatory functions (see Para 2042 sub para c).

8018. RNP Surge Capability for Major Police Investigation/Incident

In the event of a major police investigation/incident, RNP surge personnel will be assigned (MA10B RNP HQ Incident RNP Surge|1820553) by the RNP Career Manager to HQ PM(N) to augment RNP SIB as required. For independence, PM(N) will formally email the relevant COs to temporarily assume command of RNP surge personnel. RNP surge personnel will be selected by HQ PM(N) SO3 OPS, RNP Spec Adviser and the RNP Career Manager on the basis of type of investigation/incident and the competences held by individuals. Naturally, in these circumstances, normal notice for assignment is not feasible and individuals can be expected to be moved from the outset of the major investigation/incident until completion. See PM(N) Technical Instructions for further details.
ANNEX 80A

RN POLICE – PROMOTION FLOWCHART

a. Passed RN Police Initial Course (RNPIC) at DSPG; recorded as JPA competence 'Provost & Security|Service Police-RN Police Initial Course (RNPIC)|Navy'.

b. Passed First Aid Course; recorded as JPA competence ‘Medical|Level 2 First Aid (CBRNDC 23)|Navy’.

c. Passed All Arms Unit Custody Staff Course; recorded as JPA competence ‘Course Qualified|All Arms Unit Custody Staff Course|Joint’ at Military Corrective Training Centre Colchester.

d. Passed Leading Rates’ Leadership Course; recorded as JPA Competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’.

e. In date RNFT or waiver obtained on date due advancement to Leading Hand (Police); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

f. At least 6 months since last Career Check on date due advancement.

Petty Officer (Police) – Pre-Selection Requirements

b. Achieved RPS; recorded as JPA competence ‘Professional|RPS for LH RNP Navy’. (Annex 80B)

c. Minimum 2 years’ service as an LH(P) 12 months prior to the Common Promotion Date (CPD) (Para 6703 b sub para (3)).

d. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7)).

e. Rating recommended for promotion on Appraisal Report at CRD.

f. Completed AB-LH CBRNDC Task Book; recorded as JPA competence ‘Professional|Completion of NBCD Task Book (All Ratings)|Navy’.

1 Or the former competencies: Q|Q-P-VCIC (Police–Volume Crime Investigators Course)|Joint|, or Q|Q-P-L2IC|RAF| or Regulating|Professional Investigators Course|Navy|.
Petty Officer (Police) – Pre-Promotion Requirements

g. In date Annual RPS; recorded as JPA competence ‘CMS|Annual RPS Check LH|Navy’.

h. Completed 12 months sea service on a seagoing ship as a LReg at CPD; recorded as JPA competence ‘CMS|12 Months Sea Time LH|Navy’.

i. Passed Serious Crime Investigations Course (SCIC) at CPD; recorded as JPA competence ‘Provost & Security|Service Police-Serious Crime Investigations Course (SCIC)|Navy’.

j. Passed Senior Rates’ Leadership Course (SRLC) at CPD; recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’.

k. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

l. At least 6 months since last Career Check (if any) at CPD or date due promotion (if later).

m. Educationally qualified for promotion (EFP) in accordance with Para 9613. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and recorded on JPA with the appropriate competences.

Promoted to
PETTY OFFICER (POLICE)

Chief Petty Officer (Master At Arms) – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a PO(P) 12 months prior to the CPD (Para 6703 b sub para (3)).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7)).

c. Recommended for promotion on Appraisal Report at CRD.

2 Or the former competencies: AGC|SIB L3I CSEQUAL|Army| or Q|Q-P-L3IC|RAF|.
Chief Petty Officer (Master At Arms) – Pre-Promotion Requirements

d. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

e. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

f. Completed 12 months’ sea service on a seagoing ship as a PO(P) at CPD; recorded as JPA competence ‘CMS|12 Months Sea Time PO|Navy’.

| Promoted to |
| CHIEF PETTY OFFICER (MASTER AT ARMS) |

Warrant Officer 1 (Police) – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a MAA 12 months prior to the CPD.

b. EFP in accordance with Para 9613. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7)).

d. Recommended for promotion on Appraisal Report at CRD.

Warrant Officer 1 (Police) – Pre-Promotion Requirements

e. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

Annex 81B Fast Track Certificate of Understanding
CHAPTER 81
WARFARE BRANCH – FLEET AIR ARM

8101. General Terminology

a. Naval Airman entrants will be required to qualify in Aircraft Handling (AH) or Aircraft Controller (AC) specialisations. Aircrewman (ACMN) can be recruited as a Direct Entry or from within. Whilst the NA(METOC) specialisation has been superseded by the OM(HM) specialisation, branch management of legacy NA(METOC)s is undertaken by the GS Warfare Branch Manager – see Chapter 77.

b. For the purposes of this Chapter, Airman and Aircrewman refer to both male and female ratings.

8102. Examination for Advancement or Promotion - General

a. Recommendations. All recommendations for advancement/promotion, examination or course are to be made with due regard to the conditions in Para 6901.

b. Application for Examination. Applications for examination are to be made in accordance with Para 6914.

c. Examinations. The types of examination used in the Air categories are as follows:

   (1) Professional Qualifying Examinations (PQE) - set and marked by the Specialist Schools.

   (2) Provisional Examinations (PE) - set and marked by the Specialist Schools.

   (3) Local - conducted by officers of the rating's own ship or squadron.

   The general rules for examinations, including failures and refusal to take a Qualifying Course or Examination, are given in Para 6911 to Para 6914 and Lead School publications and apply to all examinations in the Fleet Air Arm (non-Air Engineering).

d. PE and PQE dates are published by DIN or RNTM.

8103. Naval Airman (Aircraft Handler) Specialisation – Promotion Flowchart

New Entry: Up to 37 years of age (see Note 1).
Naval Airman 1 – Advancement Criteria

a. Pass Naval Airman (Aircraft Handler) Qualifying Course (Phase 2 Training) and (see Notes 1, 2 and 3).

b. Achieved OPS as NA(AH) by completion of Task Book/OFT (4) and awarded JPA competence ‘Professional|OPS for NA(AH) UQ50|Navy’.

c. In date for Royal Naval Fitness Test (RNFT) or waiver obtained on date due advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy’.

d. At least 6 months since last Career Check (if any) on date due advancement.

e. Awarded NA(AH)1 Badge (One Star Badge). Continue instruction to achieve Functional Skills Level 2 – required for award of Trailblazer apprenticeship in English and Mathematics.

Leading Airman (Aircraft Handler) – Pre-Selection Requirements

a. Minimum of 18 months’ seniority as NA(AH)1 12 months prior to Common Promotion Date (CPD) (Para 6703 b sub para (2)).

b. Serving on ES1/FC/OE1 that expires after the nominated CPD (Para 6703 b sub para (7)).

c. Recommended for promotion on Appraisal Report at CRD (see Note 11).

Leading Airman (Aircraft Handler) – Pre-Promotion Requirements

d. Passed Leading Airman (Aircraft Handler) Qualifying Course (see Notes 7,10, and 13).

e. Completed Leading Rates’ Leadership Course (LRLC), recorded as JPA competence ‘Miscellaneous|Leading Rates’ Leadership Course (RNLA 102)|Navy’.

f. In date RNFT or waiver obtained at nominated CPD; recorded as JPA competence ‘CMS|Fitness Test|Navy’.

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).
Petty Officer Airman (Aircraft Handler) – Pre-Selection Requirements

a. Passed PE for POA(AH) (see Note 5).

b. Minimum of one year’s seniority as a LA(AH) 12 months prior to the CPD.

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

d. Recommended for selection on Appraisal Report at CRD (see Note 11).

e. In date RNFT or waiver obtained at CRD; recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

f. EFP in accordance with Para 9613. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at CPD and appropriate competences recorded on JPA.

Petty Officer Airman (Aircraft Handler) – Pre-Promotion Requirements

g. Passed Petty Officer (Aircraft Handler) Qualifying Course (see Notes 8 and 12).

h. Completed Senior Rates’ Leadership Course (SRLC), recorded as JPA competence ‘Miscellaneous|Senior Rates’ Leadership Course (RNLA 103)|Navy|’.

i. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

j. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

| Promoted to |
| PETTY OFFICER AIRMAN (AIRCRAFT HANDLER) |

Chief Petty Officer Airman (Aircraft Handler) – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as PO Airman (AH) 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Completed Senior Rates’ Leadership Course (SRLC), recorded as JPA competence ‘Miscellaneous|Senior Rates’ Leadership Course (RNLA 103)|Navy|’.

d. Recommended for promotion on Appraisal Report at CRD.
Chief Petty Officer Airman (Aircraft Handler) – Pre-Promotion Requirements

e. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

f. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER AIRMAN (AIRCRAFT HANDLER)

Warrant Officer 1 (Aircraft Handler) – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPO 12 months prior to the CPD.

b. EFP in accordance with Para 9613. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

d. Recommended for promotion on Appraisal Report at CRD.

e. In date RNFT or waiver obtained at CRD; recorded as JPA competence ‘CMS|Fitness Test|Navy’.

Warrant Officer 1 (Aircraft Handler) – Pre-Promotion Requirements

f. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

h. Satisfy terms of Assignment Order issued by Promotion Authority.

Promoted to
WARRANT OFFICER 1 (AIRCRAFT HANDLER)
Notes:

1. Ratings entering the Fleet Air Arm in the Naval Airman (AH) specialisation enter as a Naval Airman 2. They undergo Phase 1 New Entry Training at HMS RALEIGH and are then assigned to Naval Airman (Aircraft Handler) Qualifying Course (NA(AH)QC) at the RN School of Flight Deck Operations (RNSFDO), RNAS Culdrose.

2. Although included within the NA(AH) Phase 2 syllabus, the completion of Able Rate Leadership Course (ARLC) and NBCD 23 First Aid Level 2 are not mandatory pass elements.

3. Ratings who fail NA(AH)QC may be ‘back-classed’ or, unless willing to transfer to another specialisation under existing regulations, will normally be recommended for Discharge Unsuitable During Training (DUDT) by the Commanding Officer RNAS Culdrose.

4. Instructions for Completion of NA(AH) Task Book/OJT

   a. On completion of NA(AH)QC, NA(AH)s are required to undertake Task Book Training or On-Job Training, as applicable, to develop the individual from Training Performance Standard (TPS) to Operational Performance Training (OPS), depending on their first assignment. OPS is achieved by individuals completing one of the following:

      (1) The NA(AH) Duty 1 (Ship’s Flight Deck Team) and Duty 2 (Ship’s Hangar Team) Task Book.

      (2) Commando Helicopter Force NA(AH) Task Book (TEM FGN137GE).

      (3) Air Course 159 NA(AH) Crew firefighter (Ashore) Task Book.

   b. On completion of one of the requirements listed at Note 4.a above, the individual is to be awarded JPA competence ‘Professional\OPS for NA(AH) UQ50\Navy’.

Continued
5. **Aircraft Handler Provisional Examinations (PE).** The PE for POA(AH) may be taken at any time by confirmed Leading Hands (or, post the CPD for which selected by those who have completed pre-promotion training but have yet to be promoted for reasons shown at Para 6716 sub para c), provided that the rating’s Commanding Officer considers that the candidate is adequately prepared for the Petty Officer (AH) Qualifying Course (PO(AH)QC) and has the potential for future promotion to Petty Officer. Applications for the examination should be forwarded to the Commanding Officer, RNSFDO, RNAS Culdrose, HELSTON, Cornwall, TR12 7RH, on Form S442 in duplicate. Examination papers will be forwarded to the candidate’s ship or establishment and completed papers should be returned without delay. CO RNSFDO will inform Commanding Officers and Navy Command/ACOS(PCap) of results.

### Aircraft Handler Qualifying Courses

6. **LA(AH) Qualifying Course (LA(AH)QC).** Ratings selected by the LA (AH) Promotion Board will be assigned to LA(AH)QC by the Aircraft Handler Career Manager. Candidates assigned to LA(AH)QC will be informed by joining letter of the required reading and study material that is considered will be advantageous to their performance.

7. Ratings nominated to attend Leading Rates’ Leadership Course (LRLC) within 3 months of completion of LA(AH)QC are to ensure that all LRLC pre-requisites have been accomplished. The LA(AH)QC syllabus does not allow time to be released from training to undertake these requirements.

8. **POA(AH) Qualifying Course (PO(AH)QC).** Ratings selected by the POA(AH) Promotion Board will be assigned to PO(AH)QC by the Aircraft Handler Career Manager.

9. Ratings nominated to attend Senior Rates’ Leadership Course (SRLC) within three months of completion of POQC are to ensure that all SRLC pre-requisites have been accomplished. The PO(AH)QC syllabus does not allow time to be released from training to undertake these requirements.

Continued
Notes: (Continued)

10. **Failure of LA(AH)QC/PO(AH)QC.** LA(AH)QC and PO(AH)QC assessment takes the form of theoretical examination and practical assessment. Ratings must achieve a pass in all phase examinations and assessments to successfully complete the courses. Failure of LA(AH)QC or PO(AH)QC will attract the penalties detailed in Para 6912.

11. **Recommendation.** Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

12. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6714 for rules on the impact on a rating's promotion if he/she fails to complete Professional Qualifying Course and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).

13. **Prior to attendance at LA(AH)QC, the candidate must be qualified as a Crew Firefighter(Ashore).** This can be achieved by one of three paths:

   a. NA(AH) QC (pre-2012).
   b. Air 159 NA(AH) Crew Firefighter Course.
   c. NA(AH) QC (post 2016).

8104. Spare
8105. Spare
8106. Spare.
8107. **Naval Airman (Aircrewman) Specialisation – Qualifications for Entry**

   a. **Direct Entry Aircrewman.** Direct Entry Naval Airmen (Aircrewman) (ACMN) will arrive at HMS RALEIGH for Part 1 training having satisfied the following entry criteria:

      (1) Minimum of 2 GCSE or equivalent at Grade A-C.
      (2) Nationality UK or Dual (British plus one other).
(3) Aged up to 34 years.

(4) Min RT Score 72.

(5) Aircrew medical standard achieved.

(6) Passed Flying Aptitude Tests (FATS).

(7) Successful PRNC leadership assessment.

b. **Branch Transfer Candidates.** Qualifications for transfer into the ACMN specialisation are as follows:

(1) Able Rate or Substantive RM Cpl of any specialisation.

(2) Nationality UK or Dual (British plus one other).

(3) In date RNFT/RMBFT.

(4) RN/RM candidates upper age 34.

(5) Medically Fully Deployable MES when applying for manning clearance.

(6) Six months since last Career Check (if any).

(7) Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA when applying for manning clearance.

(8) Aircrew medical standard achieved.

(9) Passed Flying Aptitude Tests (FATS).

(10) Clear potential for early promotion – positive recommendation by CO is required.

c. **Branch Transfer Procedure for Application**

(1) Ratings and other ranks who meet the entry criteria should request manning clearance for sideways entry into the ACMN specialisation – see Para 5125.

(2) On gaining manning clearance, Flying Training Pipeline MGR SO2 will advise candidate of the procedure needed to achieve an initial Aircrew Medical and book Flying Aptitude Test at RAF Cranwell.
d. **Aircrewman Suitability**

(1) The Aircrewman suitability is conducted at RAF Cranwell and utilises the Flying Aptitude Test procedure. Successful candidates will return to their units to await assignment to flying training. Due to the differences in their pathway prior to extraction, FATS for RM candidates remain extant for 36 months. It is stressed that a pass of FATS does not guarantee further flying training will be given as candidates with a higher FATS pass will be given priority over those with lower passes. RN candidates will be streamed either Anti-Submarine Warfare (ASW) or Commando (CDO) to meet the Service requirement. RM candidates will be streamed CDO only. Candidates who are not assigned to flying training within the 2-year period of manning clearance will need to obtain an extension of the clearance if they wish to continue with their application.

(2) Individuals who do not pass FATS should contact the Aviation Branch Manager WO1 for consideration and approval for a second and final attempt at FATS. This attempt will be 12 months from the initial FATS.

e. **Flying Training**

(1) **Return of Service.** ACMN are required to give a minimum of 3 years’ Return of Service from completion of flying training (Award of Flying Badge or ‘Wings’) - refer to Chapter 53. Consequently, volunteers will be required to sign a RN Form S2658 prior to being assigned to course.

(2) **Length of Training.** Candidates can expect to undertake the following courses subject to streaming:

(a) **IFTC.** All ACMN attend a series of short courses on Human Factors Training, First Aid, Survival and Survival Equipment at HMS SULTAN, RAF Henlow, RNAS Yeovilton and MWS HMS Excellent (4 weeks).

(b) **Level C SERE.** All ACMN, RAF St Mawgan (2 weeks).

(c) **RN Aircrewman Grading.** ACMN will be streamed ASW or CDO during an assessment phase at 705 NAS, DHFS Shawbury (3 weeks).

(d) **Rotary Wing Ground School.** All ACMN attend this course at 705 NAS, DHFS Shawbury for general aviation awareness training (6 weeks).

(e) **Joint Aircrewman Course.** ASW Aircrewnmen undertake Modules 1-3 at DHFS Shawbury and RAF Valley (24 weeks). CDO ACMN undertake Modules 1-4 at DHFS Shawbury and RAF Valley (31 weeks).
(f) **Initial Acoustic Course.** 824 NAS, RNAS Culdrose for ASW ACMN (12 weeks).

(g) **Air 338 Military Skills Course.** RNAS Yeovilton for CDO ACMN (6 weeks).

(h) **Merlin HU Mk3/3a/4 Aircraft Conversion and Operational Conversion Phases (CTT/CTR).** 846 NAS, RNAS Yeovilton, for CDO ACMN (28 weeks).

(i) **Merlin HM Mk2 Aircraft Conversion and Operational Conversion Phases (CTT/CTR).** 824 NAS, RNAS Culdrose for ASW ACMN (50 weeks).

(3) **Failures During Flying Training.** Students suspended from flying training will be referred to the Naval Aircrew Advisory Board (NAAB). Confirmation of a failure will result in withdrawal from flying training and return to source branch. Direct Entry ACMN failures will be considered for transfer to other branches on a case by case basis.

(4) **Award of ‘Wings’.** On successful completion of Flying Training, ratings will be awarded the Flying Badge ('Wings'), transferred to the Aircrew category and rated Acting Petty Officer Aircrewman or Acting Sergeant RMAC as appropriate.

(5) **Promotion in Source Branch after Selection for Training.** All individuals transferring to the ACMN specialisation will no longer be considered for promotion in their source branch once Aircrew training has started (see Para 6704).

(6) **First Assignment.** On completion of the Flying Training/Conversion to Role, ACMN will be assigned to a Front Line Squadron for a probationary period where they will be required to successfully complete On Job Task Book Training, followed by the award of a Certificate of Competence (CofC). Failure to achieve a CofC will be treated in the same manner as a failure during Flying Training and, if confirmed by NAAB, an individual will revert to source branch at their original rate/rank and seniority. Direct Entry ACMN failures will be considered for transfer to other branches on a case by case basis.

(7) **Subsequent Suspension from Flying Duties.** Post CofC, POACMN/Sgt RMAC and above who are permanently grounded for any reason may be retained in the ACMN category and employed on non-flying duties until the end of their current engagements, provided that they remain medically fit for General Service. They will be ineligible for RRP(F) or further advancement/promotion from the date of grounding. They will be given the option of Discharge SHORE with normal terminal benefits. Any medical conditions will be assessed in accordance with current Naval Service Medical Board of Survey (NSMBOS) process and reviewed via a Medical Employability Board (MEB).

8108. **Anti-Submarine Warfare and Commando Aircrewman Specialisations - Promotion Flowchart**

**NEW ENTRANT**

a. Completed Part 1 New Entry training.

**NA(ACMN) 2**

a. Completed RN ACMN Grading.
b. Completed ARLC.
c. Completed IFTC.

**ALACMN/CPL**

a. Completed RN Rotary Wing Ground School.
b. Completed 'Basic and Advanced Rotary Wing Training' at the Defence Helicopter Flying School RAF Shawbury and RAF Valley.
c. Completed Leading Rates' Leadership Course (RN ACMN)
d. Completed Initial Acoustic Course for ASW ACMN.
e. Completed Air 338 Course for CDO ACMN.
f. Completed relevant CTT and CTR for either ASW or CDO Merlin Aircraft.
g. In date RNFT, recorded as JPA competence 'CMS|Fitness Test|Navy'.
Effective February 2020

BRd 3(1)

Promoted to

ACTING PETTY OFFICER AIRCREWMAN/ACTING SERGEANT RM AIRCREWMAN

a. Rated Acting Petty Officer Aircrewman/Acting Sergeant RM Aircrewman.

Within 2 years of achieving GTS the following must be completed:

b. Completed Senior Rates’ Leadership Course (SRLC)/RM Senior Command Course

d. Awarded Certificate of Competence. – recorded as JPA competence Professional Certificate Of Competence PO/SGT ACMN|NAVY

e. In date RNFT, recorded as JPA competence ‘CMS|Fitness Test|Navy’

f. Confirmed Substantive in rate.

Promoted to Substantive

PETTY OFFICER/SERGEANT AIRCREWMAN

Chief Petty Officer/Colour Sergeant Aircrewman – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a Petty Officer/Sergeant 12 months prior to the CPD (Para 6703 b sub para (3)).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Completed Senior Rates’ Leadership Course (SRLC)/Senior Command Course(SCC)(RM), recorded on JPA.

d. Recommended for promotion on Appraisal Report at CRD (see Note 1).

Chief Petty Officer/Colour Sergeant Aircrewman – Pre-Promotion Requirements

e. In date RNFT/RMBFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’ / ‘CMS|RM Basic Fitness Test|Navy’ (see Note 2).

f. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to

CHIEF PETTY OFFICER/COLOUR SERGEANT AIRCREWMAN
**Warrant Officer 1 Aircrewman – Pre-Selection Requirements**

a. Minimum of 3 years’ seniority as a CPO/Colour Sergeant 12 months prior to the CPD.

b. EFP in accordance with Para 9613. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

d. Recommended for promotion on Appraisal Report at CRD (see Note 1).

**Warrant Officer 1 Aircrewman – Pre-Promotion Requirements**

e. In date RNFT/RMBFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.
   ‘CMS|RM Basic Fitness Test|Navy|’ (2)

f. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

g. Satisfy terms of Assignment Order issued by Promotion Authority.
Notes:

1. **Recommendation.** Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

2. **RNFT/RMBFT (at CPD).** Ratings are to be in date RNFT/RMBFT or in possession of either a permanent medical exemption as issued by a NSMBOS or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD (or later). See Para 6718.

3. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6716 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith control) or non-service reasons (within control).

4. **RMOR on promotion from CSGT to WO1 will also be required to complete the RM Advanced Command Course (ACC) in addition to the WO1 course in common with all RMOR (see Annex 91C).**

---

8109. **Aircraft Control Specialisation – Qualifications for Entry**

a. **Direct Entry Aircraft Controllers.** Direct Entry Aircraft Controllers will arrive at HMS RALEIGH for Part 1 Training having met the following entry criteria:

   (1) Nationality UK or Dual (British plus one other).

   (2) Aged 18-34.

   (3) Min RT Score 72.

   (4) Air Traffic Control (ATC) medical standard achieved.

b. **Branch Transfer Candidates.** Qualifications for transfer into the Aircraft Control (AC) specialisation are as follows:

   (1) Able Rating or Leading Hand of any specialisation.

   (2) Educationally qualified for promotion (EFP) in accordance with Para 9613. At time of applying for manning clearance, achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.
(3) Nationality – sole British or dual national (British plus one other).

(4) Air Traffic Control (ATC) medical standard achieved.

(6) Recommendation by Commanding Officer of potential for promotion to LH (Able Rating only) and suitability for transfer to the AC specialisation.

(7) At least 6 months since last Career Check.

(8) In date RNFT.

c. **Branch Transfer Application Procedure.** The procedure for transfer to the AC specialisation is as follows:

(1) **Application for Transfer.** Applications for manning clearance, for ratings who meet the entry criteria, should be made to ACOS(PCap). Commanding Officers should satisfy themselves that applicants have achieved high standards in their source specialisation and endorse their candidate’s suitability, in all respects, for promotion to LH if applicable. Applicants will be notified by signal of ACOS(PCap) decision and successful applicants will receive manning clearance pending medical. This clearance will be valid for 2 years.

(2) **ATC Medical.** On gaining manning clearance, ratings are to contact the AC Mentor Team to arrange an initial ATC Medical. The AC Mentor will act as a point of contact with candidate once manning clearance has been approved.

(3) **Failure During AC Training.** Branch transfer candidates who fail to achieve the required standard on AIR 201 will be reverted to their source specialisation.

d. **The Training Pipeline from New Entry to Role PS LAC.** Upon completion of Phase 1 Training at HMS RALEIGH, or upon successful sideways entry the AC candidate will undertake the following professional courses:

(1) **Air 201 – Leading Aircraft Controller Professional Qualifying Course (LACPQC).** The course consists of 40 weeks training split between Phase 2a the RN School of Aircraft Control (RNSAC), in RNAS Yeovilton and Phase 2b at MWS Collingwood. The training will involve teaching and developing core control skills as well as teaching Tactical Aviation Warfare, basic and enhanced Command System training. ABLC, LRLC and BSSC are completed as part of the course. Also included is a period embarked at sea in order to achieve the required live control hours for award of NATO control status. NATO qualified Aircraft Controllers are then authorised to provide tactical and non-tactical control to all NATO Fixed Wing and Rotary Wing aircraft in the Maritime environment, subject to their control grade. Successful candidates will be advanced to LAC upon completion.
(2) **First Sea Assignment TPS.** Upon successful completion of Air 201, LACs will be TPS and are assigned to a front line unit to carry out a minimum of four weeks handover with the unit’s RPS LAC. Whilst TPS, LACs remain under training and will be under the mentorship of the AC Branch Mentor Team (Para 8109, sub para e refers), in order to maximise aviation exposure and ensure taskbooks are completed within 6 months of graduation from Air 201.

e. **AC Branch Mentor Team.** The AC Branch Mentor Team will monitor the progress of each individual and, in consultation with AC Career Manager and COs, will load candidates onto LACPQC to ensure the LAC Training requirement is met. Any attributes that would demonstrate unsuitability to hold the rate of Leading Hand should be brought to the attention of the OiC RNSAC.

f. **Further Professional Training.** The following are courses that are available to Petty Officer Aircraft Controllers:(1) **Joint Air Traffic Controller’s Course.** The JATCC is conducted at RAF Shawbury for those volunteers accepted for full Air Traffic Control training and who wish to widen their career prospects outside of the tactical environment. This course is only available for Senior Ratings and generates a 3 year Return of Service commitment.

g. **Stars and Crowns.** Stars and Crowns are awarded as follows:

   (1) 11 star awarded upon successful completion of Phase 2a RNSAC phase of Air 201 and ABLC.

   (2) 2 stars awarded upon successful completion of the Phase 2b full Air 201 course, including achievement of the requisite live control hours and completion of LRLC.

   (3) Crown worn on promotion to POAC.

Advanced to
LEADING AIRMAN (AIRCRAFT CONTROLLER)

Petty Officer (Aircraft Controller) – Pre-Selection Requirements

a. Achieve RPS as LAC.

b. Passed written Provisional Qualifying Examination (PQE) for POAC (or from Sep 18 have been awarded NATO Grade B).

c. Minimum of 2 years’ seniority as a Leading Aircraft Controller 12 months prior to the Common Promotion Date (CPD) (Para 6703 b sub para (3)).

d. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7)).

e. Recommended for promotion on Appraisal Report at Common Reporting Date (CRD).

Petty Officer (Aircraft Controller) – Pre-Promotion Requirements

f. Selected by Promotion Board.

g. Completed Senior Rates’ Leadership Course (SRLC), recorded as JPA competence ‘Miscellaneous|Senior Rates’ Leadership Course (RNLA 103)|Navy’.

h. In date RNFT or waiver obtained at CPD; recorded as JPA competence ‘CMS|Fitness Test|Navy’.

i. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
PETTY OFFICER (AIRCRAFT CONTROLLER)
**Chief Petty Officer (Aircraft Controller) – Pre-Selection Requirements**

a. Minimum of 3 years’ seniority as POAC 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD (see Note 3).

**Chief Petty Officer (Aircraft Controller) – Pre-Promotion Requirements**

d. Selected by Promotion Board.

e. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

f. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’ (see Note 4).

---

**Promoted to CHIEF PETTY OFFICER (AIRCRAFT CONTROLLER)**

**Warrant Officer 1 (Aircraft Controller) – Pre-Selection Requirements**

a. Minimum of 3 years’ seniority as CPOAC 12 months prior to the CPD.

b. EFP in accordance with Para 9613. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

d. Recommended for promotion on Appraisal Report at CRD (see Note 3).

**Warrant Officer 1 (Aircraft Controller) – Pre-Promotion Requirements**

e. Selected by Promotion Board.

f. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’ (see Note 4).

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

h. Satisfy terms of Assignment Order issued by Promotion Authority.
Notes:

1. Branch Transfer candidates will retain their previous rate until successful completion of AIR 201 Phase 2b. They will then be rated Leading Airman (Aircraft Controller).

2. Recommendation. Awarded ‘Exceptional’, ‘High’ or ‘Yes’ recommendation for ‘Promotion – 1 Rank Up’ on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of ‘Insufficient Knowledge’ at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

3. RNFT/RMBFT (at CPD). Ratings are to be in date RNFT/RMBFT or in possession of either a permanent medical exemption as issued by a NSMBOS or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD (or later). See Para 6718.

4. Failure to Complete Professional and/or Leadership Course. Refer to Para 6716 for rules on the impact on a rating’s promotion if he/she fails to complete LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).

8111. Removal of Aircraft Controller Qualification
The rules and procedures regarding the withdrawal of AC qualifications are detailed in BRd 768 Article 0505.

8112. Aircraft Controller JATCC Fast Track Scheme

a. General

(1) This section covers the Aircraft Controller (AC) Joint Air Traffic Controller course (JATCC) Fast Track (FT) Scheme, and outlines the selection and management protocols for all potential AC JATCC FT personnel.

(2) The FT scheme is an important element of the AC JATCC career pipeline management of talent, by selecting those ratings who are suitably motivated and demonstrate the necessary standards of leadership, aptitude and ability. The scheme allows AC ratings the opportunity to accelerate their progression and be advanced based on time, qualification and 2RO recommendation rather than by selective promotion.
b. **Background**

(1) **Fast Track.** The aim of the FT scheme is to afford individuals an accelerated advancement route and selection to JATCC. The FT scheme will allow non-selective advancement to Petty Officer and further advancement to Chief Petty Officer if all pre-requisite criteria are met.

There are two entry points:

(a) LH-PO – JATCC qualification (for accelerated advancement to PO); and

(b) PO-CPO – 3.5 years as substantive PO (for accelerated advancement to CPO).

(2) This takes account of individuals who develop at different rates and, when combined with the standard route to promotion, gives a flexible career path to ensure that career progression through training and employment is better matched to the abilities and expectations of ACs.

c. **Fast Track Scheme Overview**

(1) The JATCC FT scheme seeks to offer the necessary training, experience and continuous assessment to permit advancement to PO and CPO for those who commit to JATCC earlier than is currently the case for most personnel. The intention is that the scheme will remove the perception of disadvantage, in terms of delay to promotion for those who commit to JATCC training, when compared with those ACs who do not undertake JATCC training.

(2) **Management of FT Personnel.** To deliver success, an additional level of management and oversight of FT personnel is required. This will seek to ensure standards and assist the management of available opportunities to acquire sea experience for FT personnel. This will be provided by the Fast Track Authority (FTA)\(^1\), the Fast Track Manager (FTM)\(^2\) and the Fast Track Recording Authority (FTRA) RNSAC, RNAS Yeovilton\(^3\). The FTRA will be responsible for the co-ordination of the selection process of AC FT personnel using the Fast Track Selection and Review Panel (FTSRP), supported by the Fast Track Through Life Manager (FTTLM)\(^4\) who will be the focal point for any advice and administrative issues relating to all FT personnel. The FTTLM will ensure all FT timelines are strictly adhered to.

---

\(^1\) PCAP BM-AV SO1.

\(^2\) PCAP BM-AV WO1 if incumbent is an AC or WAR AIR CM WO1, if incumbent is an AC.

\(^3\) RNSAC AC OiC

\(^4\) PCAP AC and ACMN CM or RNSAC AC 2iC if CM position is not filled by an AC.
d. **Non-Selective Promotion (Advancement).** Individuals on the FT scheme will, subject to the necessary qualifications being achieved, be subject to non-selective advancement, based on their Due Date for Advancement (Due Date\(^5\)) as detailed within the flow chart.

1. **FT PO.** A LH selected for FT will be awarded a Fast Track Start Date (FTSD) of 31 Jan or 31 Jul (whichever follows first after the FTSRP). They will be advanced to Acting Petty Officer on commencement of JATCC and to substantive PO when they have completed the validation process, with seniority back-dated to the date that they completed JATCC. If SRLC has not been completed for Service or Medical reasons by the start date of JATCC, they have 1 year from the completion of JATCC to pass SRLC; even if they complete the validation process before SRLC, their Seniority will be adjusted to coincide with completion of SRLC.

2. **FT PO – CPO.** FT POACs will be advanced to CPO AC 42 months from completion of JATCC, having completed their first full sea assignment as a PO AC. PO ACs who transfer to the FT scheme, as in Para 8112 e.(2), will have a Due Date nominated by the FTSRP that reflects the requirement for 42 months of experience post-JATCC before advancement to CPO.

e. **Selection, Recommendation and Transfer to the FT Scheme.** The selection process will be conducted by the FTSRP, comprising of PCAP BM AV SO1, RNSAC OiC, RNSAC AC 2iC and WAR AIR CM WO1\(^6\) and an independent member\(^7\). There will be two selection points:

1. **FT LH (LH to PO).** Potential FT candidates will normally be identified during DELAC or during the first sea assignment and will be boarded at the next FTSRP. The panel will select suitable individuals who meet the eligibility criteria, with selection numbers dependent on the requirement.

2. **FT PO (PO to CPO).** PO ACs who wish to transfer to the FT scheme will be boarded by the FTSRP alongside LH ACs who also wish to join the FT scheme. The time frame for legacy\(^8\) PO AC to transfer to the FT scheme will be limited to Apr 2018-Apr 2020; thereafter, only legacy LH AC will be eligible to transfer to the scheme.

f. **Selection/Recommendation Process.** The selection/recommendation process will be co-ordinated by the FTRA and conducted by the FTSRP who will select FT individuals based on Computer Based Aptitude (CBAT) results, SJAR reports and Line Manager recommendations, and the key selection criteria outlined below in order to determine their suitability.

---

\(^5\) Due Date for Advancement is the equivalent of Common Promotion Date (CPD) for selective promotion in determining seniority in the higher rate.

\(^6\) If WAR AIR CM WO1 is not an AC, PCAP BM AV WO1 will sit on the panel.

\(^7\) Independent member who is either a Branch or Career Manager. At least one Panel member must be female.

\(^8\) LH/PO ACs who qualified on legacy Air 201. They will be required to attend and pass Computer Based Aptitude Tests (CBAT) before transferring to the FT scheme.

</table>

**g. Transfer to Fast Track Scheme.** Candidates who are selected at the FTSRP will be forwarded to the FTTLM for inclusion on the FT scheme. Upon approval, the FTTLM will liaise with the AC Career Manager to identify and assign FT ratings to JATCC. Individuals on the FT scheme will continue to be assigned by the AC Career Manager.

**h. Service on the Fast Track Scheme.** The FT scheme is designed to accelerate individuals through the advancement system in a timescale that is faster than the normal selective promotion process. To facilitate this, individuals will be carefully managed, and therefore the following exceptions to normal career management need to be applied. This will be acknowledged by successful candidates when they sign the Certificate of Understanding (Part A); accepting the terms of service of FT scheme:

1. **Waiver of Minimum Assignment Notice.** In order to maximise sea training opportunities, individuals selected for FT may require to be assigned at less than the usual minimum assignment notice. All individuals on the FT scheme will be required to volunteer to waive their minimum assigning notice period for sea and between platforms, as well as courses and employment associated with their advancement, although all effort will be made to provide the maximum amount of notice.

---

9 Only applies to individuals applying for the scheme after Jan 19.
10 Only applies to individuals applying for the scheme after Jan 19.
11 If FTTLM is RNSAC AC 2ic
12 Once signed, the FTTLM is to award the competence ‘FAA|Aircraft Controller|JATCC|Fast Track|’ on JPA.
(2) **Waiver of Rights to Selective Promotion whilst on FT.** The requirement to carefully manage individuals on the FT scheme, together with the bespoke nature of the selection and advancement criteria, precludes individuals from following the dual paths of FT advancement and selective promotion simultaneously.

(3) **Waiver of Rights to 660/3 Separated Service.** The requirement to carefully manage individuals on the FT scheme through training courses and employment in specific roles associated with their advancement, means that the individual may need to be separated from their home address for regular and/or prolonged periods. All individuals on the FT scheme will be required to volunteer to waive their rights to 660/3 Separated Service for as long as they remain on the scheme, although all effort will be made to avoid excessive separated service periods.

(4) FT POs will transfer to the normal selective promotion scheme on successfully achieving advancement to CPO. Individuals removed from the FT scheme will also transfer to the normal selective promotion scheme from the date of removal. On transfer from FT to selective promotion, either on successful advancement or de-selection from FT, the Certificate of Understanding (Part B) will be used in transferring individuals back onto the standard Selective promotion route and the normal assignment notice period. The certificates will be produced by the FTTLM and signed copies will be retained by both the FTTLM and the individual. The FTTLM is to ensure that each individual is seamlessly transferred to selective promotion and all competences achieved are correctly recorded. An SJAR is to be raised at the next CRD as part of the transfer process.

i. **Maintenance of Performance.** All ACs on the FT scheme are to remain in date for their Annual Standards Check (ASC) and Annual ATC Medical. They should achieve a minimum score of 75% at ASC; should they fail to achieve 75% or more, their suitability for remaining on the FT scheme will be determined by the FTA on a case by case basis. Appraisal Reports for FT ratings should contain a recommendation from both 1 RO and 2 RO to remain on the FT scheme and a minimum ‘B’ OPG.

j. **SJAR Reporting Requirements.**

(1) SJARs and MPARs remain a mandatory requirement for all FT individuals and should comment on their current performance, CLM, employment and training achievements. Within the SJAR, Reporting Officers should report whether or not an individual continues to maintain a recommendation for the FT scheme and, if appropriate, the individual’s potential for the next FT stage. The SJAR must contain evidence to support these recommendations.
(2) On completion of the FT scheme through successful advancement to CPO, an annual SJAR must be raised at the next CRD for CPO, regardless of the length of reporting period. In addition to the normal requirements for SJAR reporting, this SJAR will re-synchronise the individual with the reporting period of their peer group.

(3) On voluntary removal from the FT scheme or through de-selection, a SPEC AR must be raised to record the circumstances of the removal from the FT scheme. An annual SJAR must be raised at the next CRD for the individual’s substantive rank, regardless of the length of reporting period. In addition to the normal requirements for SJAR reporting, this SJAR will re-synchronise the individual with the reporting period of their peer group.

k. Substantive Advancement.

(1) Leadership Training. All FT personnel must complete SRLC prior to substantive promotion. Preparation for and completion of these courses is essential and although the responsibility rests firmly with the individual to be fully prepared, it is to be supplemented with appropriate coaching and mentoring by ship’s staff. The unit lead for the FT scheme is their Head of Department who must take an active interest in the performance of FT personnel. The planning and enrolling of individuals onto a SRLC will be completed by the FTTLM. In general, FT personnel will be provisionally allocated a SRLC start date at, or shortly after Transfer to Fast Track. The FTTLM is to ensure that all JPA administrative action is taken for the FT Rating’s substantive advancement.

(2) Advancement. LACs who remain on the FT scheme will become Acting PO (subject to completing all eligibility criteria) on commencement of JATCC on their Due Date and advanced to substantive PO on completion of validation, or SRLC, whichever is later. PO ACs who remain on the FT scheme will be advanced to CPO (subject to completing all eligibility criteria) at 42 months from completion of JATCC. In all cases, individuals who complete all eligibility criteria prior to Due Date can be advanced to the acting higher rate.

(3) There may be occasions where a FT LH or PO is at their Due Date by time, but has failed to satisfy the advancement criteria by their Due Date. An award of the acting higher rate will be considered by their CO, keeping the FTTLM informed.

---

13 JSP 757 Pt 2 Vol 1 Para 1c(1).
14 BRd 3(1) Para 6714.
15 BRd 3(1) Para 6802c.
I. **Fast Track Failure Policy and De-selection from FT Scheme.** Once selected, an individual will remain on the FT scheme unless their progress, performance or standards are deemed insufficient or they voluntarily choose to remove themselves. Where an individual, through their own actions or ability, has not been able to maintain FT accelerated training they may be de-selected from the FT scheme. If de-selected, personnel revert to the standard selective promotion route, and continue training and employment as necessary to meet the service requirement. The FT scheme failure and de-selection policy is detailed at Para 8112 sub para p.

m. **Fast Track Notes**

(1) **Educationally Qualified for Advancement.** It is mandatory that the appropriate educational qualification is held prior to starting Fast Track – Functional Skills Level 2 for LH/PO who attended Air 201, ACs who attended DELAC are already educationally qualified.

(2) **Career Check.** Due to the tight timescales, imposition of a Career Check will result in automatic deselection from the FT scheme.

(3) **Unsuitable Candidates.** Where candidates are found to be unsuitable for advancement to the next higher rate, they may be withdrawn from training by OiC RNSAC. In such cases, individuals will be deselected from the FT scheme. They will transfer from Fast Track back to Selective Promotion as the eligibility route for future selection.

(4) **Refusal to undertake the QC.** Individuals who refuse to undertake JATCC will be deselected from Fast Track, continue to serve in their current rate and transfer back to Selective Promotion.

(5) **RNFT.** All personnel are required to remain in date for RNFT. This is particularly critical for individuals on the FT scheme due to its key advancement stages.

(6) **Achieved Annual Standards Check (ASC).** It is a requirement that individuals achieve Role PS in the new rank within the timescales outlined and remain in date for their ASC throughout to ensure that each key stage is achieved without delay. Individuals must be in date for their ASC at start of JATCC.

n. **Aircraft Controller – Fast Track Advancement Flowchart.** The following rules apply to personnel selected for the AC Fast Track Scheme.

---

16 The required attributes of the next higher rate.
LEADING AIRCRAFT CONTROLLER
Selected for Fast Track, awarded a Fast Track Start Date with a Due Date Advancement to PO on commencement of JATCC

Petty Officer (Aircraft Controller) – Pre-advancement Requirements -

a. Achieved Role PS as LAC.

b. Passed written Provisional Qualification Examination (PQE) for POAC (or from Sep 18 have been awarded NATO Grade B).

c. Completed Senior Rates’ Leadership Course (SRLC) and recorded in JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 102)|Navy’.

d. In date RNFT or waiver obtained at Due Date Advancement (or when eligible for advancement (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

e. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated Due Date.

f. Recommended for advancement by CO. Promotion Authorisation Request (PAR) sent to parent Career Management Cell, copied to FTTLM and Promotions Office.

Advanced to
PETTY OFFICER (AIRCRAFT CONTROLLER)
With a Due Date for Advancement to CPO 42 months from completion of JATCC

Chief Petty Officer (Aircraft Controller) – Pre-advancement Requirements

a. Achieved Role PS as POAC.

b. Completed JATCC and recorded as JPA competence ‘FAA|Joint Air Traffic Control Course (Poacqc) Shawbury|Navy’

c. In date RNFT or waiver obtained at Due Date Advancement (or when eligible for advancement (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

d. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated Due Date.

e. Recommended for advancement by CO. Promotion Authorisation Request (PAR) sent to parent Career Management Cell, copied to FTTLM and Promotions Office.

Advanced to
CHIEF PETTY OFFICER (AIRCRAFT CONTROLLER)
Transfer to Selective Promotion Flowchart for Selective Promotion
Fast Track Scheme Terms of Service and Failure Policy

**FT Terms of Service**

(1) The FT scheme affords significant opportunity in terms of career progression at an earlier stage and therefore it is expected that FT personnel will perform at a higher than average level of competence in all aspects of training and employment. The scheme’s success is dependent on both the individual and the unit’s organisation to ensure sufficient progress is made towards the next higher rate. To ensure this occurs the scheme will be externally assured by the FTM and their team.

(2) Lack of progress within the scheme has the potential to prevent the achievement of the nominated Due Date. Where any potential weaknesses are identified, appropriate mentoring and professional development is to be provided and recorded in writing by their Line Manager and/or Divisional Officer. At all times a FT individual must maintain a positive recommendation to remain on the scheme and for the next advancement. Any training failure, CLM or NGT warnings or attitudinal problems will, in all probability, result in removal from the FT scheme.

(3) To ensure all FT personnel are fully aware of the changes to their Terms of Service on selection to the FT scheme (including, being advanced in lieu of selective promotion), individuals will sign a Certificate of Understanding (Part A). When signing, they confirm that they understand, whilst on the FT scheme they will:

   a. Not be considered at Selective Promotion Boards until removed from FT scheme;
   b. Be required to waive their minimum time for assignment to sea and shore and;
   c. Be required to waive their 660/3 Separated Service.

On leaving the FT scheme, a Certificate of Understanding (Part B) will be completed and signed by the individual. This reverses the process, with the individual returning to Selective Promotion and minimum notice for future assignments.

**FT Scheme Failure Policy**

(4) Where it is suspected that agreed targets may not be achieved for reasons within the control of the individual, FT personnel are to be placed on warning in a timely manner to highlight the concern to the individual and ensure a recovery plan is created and followed. This will also highlight to the FFTLM the potential delay in the individual’s progression or potential for removal from the scheme.
(5) There may be extenuating circumstances\(^\text{17}\), both Service (e.g. ship’s programme) and Non-Service (e.g. compassionate or medical) reasons which may prolong an individual’s time within the training pipeline. Delays may affect progression to PO or CPO within the expected time and in all circumstances the FTTLM should be informed at the earliest point.

(6) The FTM has the authority to remove personnel from the FT scheme and will do so where it is deemed appropriate, as below. The FTM will seek advice from the relevant FTA and the FTTLM before making a decision.

**Removal from the FT Scheme**

(7) ACs may be removed from the scheme in any of the following circumstances:

   (a) Submission of an Early Termination request or request to leave the FT scheme;
   
   (b) Failure to achieve 75% at Annual Standards Check;
   
   (c) Not being recommended for advancement by CO;
   
   (d) Failure of Leadership Course;
   
   (e) Conviction for civilian or service offence that results in a career check;
   
   (f) Removal from JATCC course;
   
   (g) Career Intermission\(^\text{18}\);
   
   (h) Poor performance relating to professional performance, including but not limited to failure to achieve a ‘B’ OPG, or CLM failings;
   
   (i) Imposition of a Career Check;
   
   (j) Other significant reason which the FTM deems sufficient to justify removal.

(8) On submission of a request for Early Termination, an individual will be deselected from the FT scheme. Unit Staff and the AC Career Manager are to ensure they liaise with the FTTLM prior to accepting any notice to ensure that the individual is fully briefed on all aspects associated with removal from FT and serving notice, such as TRoS and being employed at sea during the notice period.

\(^{17}\) These occasions should be rare, as the CO and FTTLM should be working to meet the tight FT timescales.

\(^{18}\) Previously called Career Break
(9) When being de-selected from the FT scheme, the FTTLM will ensure the following actions are completed and appropriate details are recorded on the Certificate of Understanding (Part B):

(a) Individual is to be fully briefed on all aspects of removal and that future promotion will be by Selection.

(b) A SPEC AR raised detailing reasons for the de-selection.

(c) FT Certificate of Understanding (Part B), to be completed by the FTTLM.

(d) FTM to remove the JPA FT competence.

(e) Individual’s seniority date to be agreed with FTM and recorded on JPA.

Volunteer for removal from the FT Scheme

(10) An individual can volunteer to be removed from FT and revert to selective promotion at any stage in the scheme. The process is detailed below, and all individuals should be fully advised of the changes to their career progression when transferred back to the selective promotion route. It is recommended this is carried out by the unit HOD or the FTA.

(11) The individual’s request for removal from the FT scheme is to be forwarded to the FTTLM for review and consideration. The FTM will retain the authority to remove any rating from the FT scheme. The process to be followed is indicated below;

(a) The FT rating is to submit a formal request to the CO detailing the explanation why they wish to be removed from the FT scheme.

(b) If the request for removal is associated with submission of Early Termination the FTTLM will liaise with AC Career Manager before advising the HOD on future employment plans.

(c) If at sea the rating is expected to remain in that position.

(d) If the request for removal is not associated with an Early Termination but occurs at RNSAC, the individual will be reassigned at their substantive rank. All cases will be treated individually and be approved by the FTM.

---

19 If FTTLM is RNSAC AC 2ic.
(12) Individuals removed from the FT scheme will be career managed by PCAP AC and ACMN CM and be employed according to the needs of the Service. It is to be recognised that the individual will have completed less time at sea than those on selective promotion. It is therefore to be expected that these individuals will be assigned back to sea at the earliest opportunity.

**Failure within Professional Qualifying Courses**

(13) FT personnel who fail on course at RNSAC will be managed by the RNSAC Training Failure Policy.

(14) Back Classing of FT personnel is only to be considered for exceptional reasons outside of any professional training failure. Where back classing is necessary then the individual case will be reviewed by the FTRA and FTM to assess the impacts to the individual’s training. Where a FT individual is being back classed then, following liaison with the FTRA, the FTM will review the circumstances of the back classing and consider on a case by case basis if the individual is to remain on the FT scheme.

(15) Where FT personnel fail or miss course module(s) then the RNSAC policy is to be followed in reprogramming modules. Where a module(s) has been missed for Service or Non-Service reasons then the FTRA is to be notified in all cases. Whether an individual remains on the FT scheme will be reviewed on a case by case basis, with the final decision being made between the FTRA and the FTM.

**Failure of Leadership Courses**

(16) As Fast Track ratings, it is to be expected that FT personnel will allocate sufficient time and preparation to pass the necessary leadership courses.

(17) Those FT personnel who fail LRLC or SRLC may be de-selected from the FT scheme for not meeting the standard of leadership expected at their rank. In exceptional cases, and where there is sufficient mitigation and a recommendation from the Royal Navy Leadership Academy (RNLA) staff to return to leadership course, a waiver from de-selection from the FT scheme may be considered. This must be approved by the FTM.

(18) On removal from the FT scheme following failure at LRLC or SRLC the individual will be transferred to the selective promotion route at their current rank. The individual must then seek promotion by selection and will be planned to attend leadership course only after further selection for the next higher rate.

**Ratings Removal from the FT Scheme**

(19) In all other cases units should make application to the FTM for the individual’s removal. The FTTLM will conduct all administrative actions for recommendation for removal from the FT scheme.
ANNEX 81A

APPLICATION FOR THE AIRCRAFT CONTROLLER FAST TRACK SCHEME

When completed, this form must be protectively marked and forwarded to the Fast Track Authority. No JPA action is required. Applicants must ensure that their volunteer status is recorded on the front page of their SJAR.

Part 1 – Individual’s Details

<table>
<thead>
<tr>
<th>FULL NAME (in capitals)</th>
<th>SERVICE No.</th>
<th>RATE</th>
<th>UNIT</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Date Joined RN</th>
<th>Date Joined Current Unit</th>
<th>Current Job Title</th>
</tr>
</thead>
</table>

Part 2 – Individual’s Declaration

I wish to apply for the Aircraft Controller Fast Track Scheme:

Signed: ................................................................. Date: ........................................

Part 3 - Divisional Officer/HoD/Unit CO

The application for the Aircraft Fast Track Scheme by the above-named rating is supported.

Signed: ................................................................. Rate / Rank: ..........................

Name (in capitals): .......................................................... Date: ..............................

Unit: ................................................................................. Role: ..............................

1 A copy of this Application Form is to be retained by the individual.
2 Part 3 must be completed by an officer of OF2 or above.
ANNEX 81B
CERTIFICATE OF UNDERSTANDING PART A
TRANSFER TO THE AIRCRAFT CONTROLLER FAST TRACK SCHEME

BEING SUBJECT TO: ADVANCEMENT BY TIME (IN ACCORDANCE WITH BRd 3(1) CHAPTER 68) AND POSSIBLE CHANGES IN MINIMUM NOTICE FOR ASSIGNMENT TO SEA AND SHORE

Part 1 – Individual’s Details

<table>

</tr>
</tbody>
</table>

Part 2 – Individual’s Declaration

I understand that during my time on the Aircraft Controller Fast Track Scheme:

   a. I will be subject to advancement by time, as detailed in BR 3 Chapters 68 and 81, rather than selective promotion and, therefore, I will not be considered at any Selection Boards for Promotion.

   b. I may be liable to be assigned to sea or shore units at less than normal assigning notice, as detailed in BR 3 Chapter 59 Section 11.

Signed: ................................................................. Date: .................................

Part 3- Fast Track Through Life Manager

The above-named rating has been transferred to the Aircraft Controller Fast Track Scheme and will be subject to advancement by time, with the following awarded due date for the next higher rate:

<table>
<thead>
<tr>
<th>Advancement To</th>
<th>Due Date Advancement</th>
</tr>
</thead>
<tbody>
<tr>
<td>PO / CPO*</td>
<td></td>
</tr>
</tbody>
</table>

* delete as applicable

Signed: ................................................................. Rate / Rank: ............................

Name (in capitals): .......................................................... Date: .................................

---

1 A copy of the Certificate of Understanding Part A is to be retained by the individual.
2 The Certificate of Understanding Part A is to be retained by the FTTLM for a period of 3 years after the individual leaves the Aircraft Controller Fast Track Scheme.
CERTIFICATE OF UNDERSTANDING PART B
REMOVAL FROM THE AIRCRAFT CONTROLLER FAST TRACK SCHEME

Part 1 – Individual’s Details

<table>
<thead>
<tr>
<th>FULL NAME (in capitals)</th>
<th>SERVICE No.</th>
<th>RATE</th>
</tr>
</thead>
</table>

The Above-Named Rating has been removed from the Aircraft Controller Fast Track Scheme and will no longer be subject to time based advancement.

The following seniority date has been determined by the Fast Track Authority and will be recorded in JPA:

<table>
<thead>
<tr>
<th>RATE</th>
<th>SENIORITY DATE</th>
</tr>
</thead>
</table>

Part 2 – Individual’s Declaration³

I understand that on removal from the Aircraft Controller Fast Track Scheme:

a. I will return to being subject to selective promotion as detailed in BRd 3(1) Chapters 67 and 81.

b. I will be liable to be assigned to sea or shore units as detailed in BRd 3(1) Chapter 59 Section 11.

Signed: ................................................................. Date: .................................

Part 3- Fast Track Through Life Manager⁴

The Above-Named Rating has been transferred to the Selective promotion scheme and will be subject to promotion by Selection from the following date:

Date: .........................................................

The following actions have been completed:

a. The individual has been fully briefed on implications of removal from the Aircraft Controller Fast Track Scheme.

b. The Individual’s seniority date has been agreed with the Fast Track Authority and recorded in JPA.

Signed: ................................................................. Rate / Rate: .................................

Name: .................................................................. Date: .................................

³ A copy of the Certificate of Understanding Part B is to be given to the individual.
⁴ The Certificate of Understanding Part B is to be retained by the FTTLM for a period of 3 years after the individual leaves the Aircraft Controller Fast Track Scheme.

CHAPTER 82

WARFARE BRANCH – PHYSICAL TRAINING

8201. General
This Chapter covers the career regulations for General Service Warfare Branch Physical Training (PT) Instructors. Divisional Officers are to ensure that a copy of this Chapter and Annex is placed in the PDR of every member of the PT specialisation.

8202. Entry into the Physical Training Specialisation
The following criteria must be met for entry into the PTI specialisation:

a. An AB1 or MNE with at least 12 months' service since attaining Role Performance Standard (RPS) at the date of application, a Leading Hand (LH) or Corporal (Cpl).

b. In date for source branch Annual RPS Check.

c. An individual may attend the PT aptitude with a developing SJAR, however manning clearance to attend LPTQC will NOT BE granted until an individual has received a positive recommendation of ‘Yes’ or above for LH/Cpl (if AB1, MNE or Lance Cpl) on a subsequent SJAR.

d. Recommended by their Commanding Officer for the PT specialisation.

e. Have a permanent medical category of MEDCAT MFD A4/L1/M1/E1.

f. Achieved minimum NAMET 5:5 or Level 1 Functional Skills (or equivalent) in English and Mathematics and recorded on JPA with the appropriate competence. To be educationally qualified for promotion (EFP) in accordance with Para 9640 and the competence ‘Educational|RN/RM QELH/Cpl|Navy’ recorded on JPA.

g. Six months or more since last Career Check (if any).

h. Have at least 3 years to serve on completion of the Leading Physical Trainer Qualifying Course (LPTQC).

i. Have manning clearance for transfer.

j. Hold a full UK driving licence. (An individual may attend the PT Aptitude Test (see Para 8204 below) however manning clearance to attend LPTQC will NOT be granted until an individual has a full UK licence and it is recorded on JPA).

8203. Working with Vulnerable Groups - Criminal Record Clearance
Vulnerable Groups Clearance is required only for individuals performing their roles at Phase 1 or 2 Training Establishments. Application for D&BS clearance will be made by the PT Career Manager via the Chief Staff Instructor.
8204. Application Process
An individual must have passed a PT Aptitude Test before manning clearance is authorised. No individual can attend an aptitude without PPLAN approval; the following procedure is to be used:

a. **Aptitude Test Clearance.** When an individual has been recommended for the PT specialisation in accordance with Para 8202 a sub para (4) an application is to be submitted to PCAP, for the attention of NAVY PCAP-PPLAN SWPR WO1 for permission to attend an Aptitude Test.

b. When permission is granted, the individual's Divisional Officer (DO) is to liaise with RNSPT (Chief Staff Instructor) to request a place on a PT Aptitude Test. The application is to be e-mailed to NAVY OP TRG-MWS TEM RNSPT CSI and is to state the following information:

1. The individual meets all criteria at Para 8202. sub para a.
2. Approval from PCAP PPLAN SWPR WO1 has been granted IAW approval Email.
3. Has the Support of the Unit to Attend PT Aptitude and has been provided the necessary training time / exposure to RN PT prior to attendance.
4. Has been briefed on any career implications.

8205. Aptitude Test
Aptitude Tests are held in HMS TEMERAIRE. They are usually conducted in May, Sep and Dec, however an RNTM is released annually in Dec detailing PTA dates for the next training year. Joining Instructions will be sent to the individual and their DO approximately 14 days prior to the PTA commencing. Divisional Officers are to ensure that they complete and sign the medical certificate attached to the Joining Instructions after confirming the medical suitability of the individual by sighting JPA Medcat and JMES codes.

a. **Conduct of the Aptitude Test.** All elements of the PT Aptitude are compulsory. The candidate will be required to demonstrate, to the satisfaction of the Instructor, that he/she:

1. Is physically fit and has the potential to complete the LPTQC.
2. Possesses the required mental attitude in addition to their physical abilities. Individuals should demonstrate Naval Core Values (C2DRIL) as a matter of course and display the mental resilience to succeed in this arduous evolution.
3. Is able to demonstrate adequate motor skills and co-ordination during physical activity.
4. Demonstrates a sound understanding of a pre-determined topic and is able to deliver a presentation on this topic with confidence, clear communication and clarity.
(5) Has the potential to carry out the administrative tasks associated with sport and recreation management (eg. organising sports events, writing letters, memos, programmes etc), including a basic understanding of Defence Writing IAW JSP 101.

(6) Has a basic knowledge of Anatomy and Physiology.

(7) Has a basic knowledge of sports rules associated with the major sports played within the RN.

(8) Has the potential to deliver a general circuit to a high level including all elements associated within (warm up, phase 2 games, main body, overload, developmental stretches).

(9) Displays the potential to identify and rectify incorrect movement during fundamental movement patterns.

b. On completion of the Aptitude Test candidates, and their DO, will be informed if they have passed or failed by RNSPT. The RNSPT will inform NAVY PCAP-PPLAN SWPR WO1 of the results.

8206. Post PT Aptitude Test Actions

a. Branch Transfer Manning Clearance. Once an individual has passed the PT Aptitude Test, manning clearance to change branch/specialisation is to be requested by the individuals DO via NAVY PCAP-PPLAN SWPR WO1 IAW current regulations.

(1) Manning clearance, if granted, will be valid for up to two years.

(2) Manning clearance to attend LPTQC will not be granted until a positive recommendation for promotion to OR4 of ‘Yes’ or above is made on a SJAR in accordance with Para 8202.a sub para (4).

(3) The individual will then be allocated a provisional place on a LPTQC.

b. On receipt of an Assignment Order detailing a candidate for LPTQC, Divisional Officers are to check that the rating meets all the requirements for the Course listed at Para 8202. sub para a. Queries regarding eligibility which cannot be answered in this Chapter should be referred to the Branch Manager immediately, particularly if they concern a Career Check, seniority or current recommendation for LH.
8207. Attending LPTQC

When manning clearance has been granted and prior to attending LPTQC joining instructions will be issued. An individual MUST ensure:

a. The attached medical certificate is signed by a Medical Officer, stating that the candidate has been medically examined within the preceding 14 days and found to be medically and physically fit to undergo the LPTQC.

b. This certificate MUST be returned to the Instructor by the date stipulated in the Joining Instructions.

c. Any individual who does not have a signed medical certificate will not be permitted to commence LPTQC.

d. Where possible, individuals are to be loaded to LRLC prior to attending LPTQC.

8208. Passing LPTQC

On successful completion of LPTQC the following rules apply:

a. On being rated LPT, ratings leave their original specialisation and join the PT specialisation.

b. An individual will be advanced to LPT once all the criteria at Annex 82A have been satisfied. The following gives further guidance:

   (1) LHs or equivalent rates who pass LPTQC will be rated LPT with a seniority date adjusted to the last day of LPTQC.

   (2) ABs or equivalent rates who have passed the LRLC will be rated LPT with a seniority of the last day of LPTQC.

   (3) ABs or equivalent rates who pass LPTQC but have not passed the LRLC will be rated LPT on successful completion of LRLC with seniority back dated to the last day of LPTQC.

c. All LPTs are subject to a 12-month probationary period as described at Para 8209.

d. See Para 6909 and Para 6915 a sub para (4) regarding non-completion of LRLC and advancement to AHR in exceptional circumstances.

8209. Reversion and Disrating

a. Leading Physical Trainer. If, at the end of one year’s service as a LPT, a rating should be considered to be unsuitable or unable to attain the standard required of a LPT, he/she is to be returned to his/her source specialisation with original seniority as an AB or LH.
b. In common with other sideways entry specialisations, ratings who are reverted or disrated to AB will be returned to their former specialisation and categories. Re-promotion and future employment within the PT specialisation will be considered by the Branch Manager on a ‘case by case’ basis.

8210. Employment for PT Individuals

a. On successful completion of LPTQC, all newly qualified LPTs will normally spend a minimum of 12 months consolidating their skills at a Shore Establishment under the mentorship and guidance from a CPO(PTI). During the first 12 months the newly qualified LH(PTI) is expected to complete their Task Book and achieve RPS.

b. In order to grow PTIs with the requisite skill sets for Joint Service Exercise Rehabilitation Instructor (JSERI) and Adventurous Training Instructor (ATI, LPTs will be given exposure to both these disciplines. An individual may be considered as an ATI or ERI but must achieve RPS before starting ATI or ERI training. Preferences will be noted by the Career Manager with a view to providing specialist training for the individual.

c. Sea service is not required for promotion at any stage, however, all PTI SQEP personnel are liable for assignment to a sea-going platform as required to meet the needs of the Service.

8211. JPA Recording - Competences, Annual RPS Check, RNFT, and CBRNDC Task Book

a. **Recording of Competences.** Once a PT rating has successfully completed LPTQC and the WTTB the rating will be deemed to have achieved RPS. The competence (Professional) RPS for LH PT|Navy| is to be input to JPA by the CSI RNSPT.

b. **Annual RPS Check.** PT TB completion defines the achievement of LPT RPS and ratings have 12 months to complete the TB. Thereafter, the continued maintenance of RPS (including RNFT) is fundamental to all further development and promotion. In order to monitor individual maintenance of RPS, an annual RPS Check is to be conducted and, dependent upon their current assignment, LPTs must complete either a General, ERI or ATI RPS as directed by the RNSPT. The following personnel are authorised to conduct RPS Checks and act as signatories:

1. A RN PT specialisation Warrant Officer or Senior Rate or assigned RM PT SNCO.

2. In Units with no PT Senior Rates, the Executive Officer or Executive Warrant Officer.

In exceptional circumstances, some individuals may be unable to achieve the mandatory annual RPS Checks. Where this is the case, the PT Spec Advisor should be consulted for advice.
c. On completion of the Annual RPS Check, the PT Rating’s Divisional Officer (usually CPOPT or EWO) is to input the following competency on JPA (CMS|Annual RPS Check LH|Navy). This competency should overwrite the previous years’ competency and is valid for 12 months.

d. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the CPD. See Para 6718 for full details.

e. **AB-LH CBRNDC TB.** It is recognised that not all specialisations, branches or trades mandate the need to complete a CBRNDC TB. If an individual falls into this category the TB must be completed on joining their first sea going unit.

8212. **Education For Promotion**

A Leading Hand must be educationally qualified to Level 1 Functional Skills and a Petty Officer to Level 2 Functional Skills in English and Mathematics or a suitable equivalent for either or both of these qualifications. See Chapter 96 for further information.

8213. **Adventurous Training Instructors**

a. Adventurous Training Instructors (ATI) are a sub cadre of the PT Specialisation. Personnel who wish to pursue a career as an ATL must first complete LPTQC and attain RPS as a LPT iaw Para 8210.b.

b. To specialise as an ATL, an individual is required to be recommended by their DO.

c. Further information and contact details about ATL training may be found in BR 51(1) Chapter 2.

8214. **Exercise Rehabilitation Instructors**

a. Exercise Rehabilitation Instructors (ERI) are a sub cadre of the PT Specialisation. Personnel who wish to pursue a career as an ERI must first complete LPTQC and attain RPS as an LPT iaw Para 8210.b.

b. To specialise as an Exercise Rehabilitation Instructor (ERI), an individual is required to be recommended by their DO, Regional Trade Specialist Adviser and trade Specialist Adviser.

c. Further information and contact details about ERI training can be found in BR 51(1) Chapter 2.
ANNEX 82A

PHYSICAL TRAINING SPECIALISATION – PROMOTION FLOWCHART

a. Completed LRLC and recorded on JPA under competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’.

c. In date RNFT or waiver obtained on advancement.

d. At least 6 months since last Career Check (if any) on advancement.

e. Once rating is eligible for substantive promotion, units are to send a PAR Signal to the Ratings Promotion Section, info Career Manager.

f. Educationally qualified for promotion (EFP) in accordance with Para 9613. Achieved minimum NAMET 5:5 or Level 1 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

----------------------------------------

Rated

LEADING PHYSICAL TRAINER

Petty Officer (Physical Trainer) – Pre-Selection Requirements

a. Completed LH WTTB. Achieved RPS; to be recorded under ‘Professional|OPS for LH PT|Navy’ (Para 8211 sub para b).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD. (Para 6703 b sub para (7)).

c. Recommended for promotion on Appraisal Report at CRD.

Petty Officer (Physical Trainer) – Pre-Promotion Requirements

d. Passed POPTQC for POPT by nominated CPD+12 months. Recorded as JPA competence ‘Physical Education|PO(PT) Career (RNSPT 102)|Navy’.

e. Completed SRLC and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’.

f. In date RNFT or waiver obtained; recorded as JPA competence ‘CMS|Fitness Test|Navy’. (Para 8210 sub para c).

g. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).
h. In date Annual RPS Check recorded as JPA competence ‘CMS|Annual OPS Check LH|Navy’]. (Para 8210 sub para b).

i. EFP in accordance with Para 9613. Achieved minimum Level 2 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

**Promoted to**

**PETTY OFFICER PHYSICAL TRAINER**

**Chief Petty Officer (Physical Trainer) – Pre-Selection Requirements**

a. Minimum of 3 years’ seniority as a POPT 12 months prior to the CPD. (Para 6703 b sub para (3)).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD.

**Chief Petty Officer (Physical Trainer) – Pre-Promotion Requirements**

e. In date RNFT or waiver obtained; recorded as JPA competence ‘CMS|Fitness Test|Navy]’. (Para 8210 sub para c).

f. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

**Promoted to**

**CHIEF PETTY OFFICER PHYSICAL TRAINER**

**Warrant Officer 1 (Physical Trainer) - Pre-Selection Requirements**

a. Minimum of 3 years’ seniority as a CPOPT 12 months prior to the CPD.

b. EFP in accordance with Para 9636. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

d. Recommended for promotion on Appraisal Report at CRD.
Warrant Officer 1 (Physical Trainer) – Pre-Promotion Requirements

e. In date RNFT or waiver obtained; recorded as JPA competence ‘CMS|Fitness Test|Navy’. (Para 8210 sub para c).

f. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

g. Satisfy terms of Assignment Order issued by Promotion Authority.

Promoted to
WARRANT OFFICER 1 PHYSICAL TRAINER

8301. Entry into the Coxswain (Submarine) Specialisation
8302. Coxswain (Submarine) Specialisation – Promotion Flowchart
8303. Selection for Chief of the Boat
CHAPTER 83

WARFARE BRANCH – COXSWAIN (SUBMARINE)

8301. Entry into the Coxswain (Submarine) Specialisation

a. The Coxswain Submarine (SM) specialisation consists of Warrant Officers 1st Class (WO1s) and Chief Petty Officers (CPOs). It is sustained by Sideways Entry, with volunteers being sought from all specialisations of the SM Service \(^1\). All transfers to Coxswain (SM) are subject to manning clearance. Those ratings seeking transfer must be eligible for promotion to CPO in order to attend the selection board.

b. Responsibilities. The responsibilities of a Coxswain (SM) are as follows:

1. Act as whole-ship manpower co-ordinator.
2. Regulate personnel in accordance with QRRN and Armed Forces legislation.
3. Administer the Ship’s Company for leave and travel including recording of Separated Service, JPA arrivals and assignments, JPA SOB and Customs.
4. Advise the Command on all aspects of morale, welfare and the conditions of service of all personnel.
5. Act as Chairman of the Departmental Co-ordinators (DEPCOs).
6. Be a qualified Ship Control Officer of the Watch (SCOOW).
7. Act as whole ship training co-ordinator, with specific responsibility for the requirements of (SM) Qualification, Planesman, SCOOW and Forward Duty Watch training and professional standards.
8. Provide continuation training to the Ship’s Company on all aspects of SMERAS. Liaise closely with the ME Department and SM Escape Workshop to ensure that the material state of the Escape System is fit for purpose.
9. Act as the Assistant Budget Control Officer.

c. Identification. Potential entrants into the Coxswain (SM) specialisation will be identified by Submarine Commanding Officers at CPO or PO level. Recommendations will be based on the Commanding Officer’s judgement as to the rating’s potential to undertake the duties and responsibilities of a Coxswain (SM) as a CPO, with due regard for the necessary qualities of leadership and power of command.

\(^1\) Volunteers from General Service will be considered on a case by case basis but must qualify SM in addition to meeting all other pre-requisites.
d. **Selection for Coxswain (SM) and Promotion to CPO Coxswain (SM).** The Selection Board for the Coxswain (SM) specialisation and the CPO Coxswain (SM) Promotion Selection Board are combined into a single Coxswain (SM) Selection Board. This Selection Board will be held annually. Interim Boards may be arranged as required.

e. **Selection Process.** The following pre-requisites must be completed prior to attendance at the Selection Board. The Recording Authority (RNSMS) is the single point of contact in the process, and is to be kept informed of all progress:

1. Register initial interest with Coxswain(SM) Recording Authority (RNSMS Cox'n)^2.
2. Apply for Branch Transfer to Cox'n(SM) iaw BRd 3(1) Para 5125.
3. Hold the (SM) Basic Sea Qualification.
4. Successfully complete ‘dry’ SCOOW qualifying course and have a reasonable expectation of qualifying ‘wet’ SCOOW prior to commencing SMQC.
5. Have successfully completed Senior Rates’ Leadership Course.
6. Be either a CPO, or selected for promotion to CPO, or a PO with a minimum of 24 months’ seniority in the rate from which to be selected 12 months prior to the CPD for the Selection Board and have a positive recommendation for promotion in their most recent SJAR.
7. Have at least one recommendation for transfer to the Coxswain(SM) specialisation from a Submarine Command Qualified Officer of Commander rank or above (to be provided to Recording Authority). The recommendation should also be recorded in an SJAR (either as 2RO/3RO or via Insert Slip).
8. Be in date for NMT 101 and in date for Weapon Handling Test.
9. Manning Clearance for transfer, including clearance to attend the Coxswain (SM) Selection Board, applied for and granted (valid for 2 years).
10. Have sufficient service remaining to complete a minimum of 3 years’ sea service on completion of training. Early dialogue with the Warfare Branch Manager is advised^3.
11. Must have a minimum of ‘Yes’ for promotion in their latest SJAR.

---

^2 Will be called for informal interview to explain the role and issued with Study Guide and Training Plan to include SCOOW training.

^3 The Warfare BM can award an Extension of Service, conditional on successful completion of training. Individuals will become eligible for ES3 following their probationary period.
f. **Selection/Promotion Board.** A calling notice for the Coxswain(SM) Selection/Promotion Board will be issued to registered and qualified candidates. Where possible, the date of the Board will be deconflicted to achieve maximum attendance, however, additional Boards may be held dependent on individuals’ availability.

(1) The Selection Board interview panel will consist of a Commander X(SM) as Board President and a second Commander/Lieutenant Commander (both Command Qualified), Branch Manager/Career Manager, a WO1 Cox’n(SM) and FOST ST111/112. Others, as appropriate, may be invited to observe the Board. Candidates will be hosted by RNSMS Cox’n on the day.

(2) The Selection Board will assess candidates’ suitability based on their promotion dossier, Service Paper, Presentation and a Question and Answer based interview. Candidates will be informed on completion of the Selection Board whether or not they have been successful at the Board. In cases where time constraints have been placed on manning clearance (ie. not to be released until the latter half of the 2 year window), successful candidates will be informed as to which training year PQC they will attend, and therefore, in the case of POs, their CPD. Unsuccessful candidates will be informed as to whether or not they should reapply for a future Board. The Board President will promulgate the notification of the Board results in alphabetical order, annotated with Selected (and CPD/training year if appropriate) or Not Selected, to Promotions Office, donor and receiving Branch and Career Managers and the Commanding Officers of the providing units.

g. **Interim Period prior to PQC.** In the period following successful selection and prior to attending PQC, candidates will continue to serve in their source branch. Individuals will continue to be mentored, and, where necessary, are encouraged to be released to complete a BSQ in the class of submarine they are likely to be assigned to, if not already qualified. This will require close liaison with their current and future Career Managers. Individuals must also maintain their SCOOW skills prior to attending PQC.

h. **SCOOW Qualification.** In exceptional cases, the Selection Board may authorise use of a waiver for Wet SCOOW qualification as a Selection Board prerequisite. Candidates will be required to achieve Wet Qualification to prior to achieving RPS 12 months post Cox’n(SM) PQC.
**Effective February 2020**

**BRd 3(1)**

**83-5 of 6**

February 2020 Version 1

---

i. **Coxswain (SM) Professional Qualifying Course.** The Cox’n(SM) PQC is a modular course of approximately 3 months duration, and is conducted across a number of training establishments. The course is administered by RNSMS. Successful Coxswain candidates will be transferred from source branch to RN Warfare SM Cox’n(SM) on successful completion of course. Substantive CPOs will retain their existing seniority on transfer. POs already selected for CPO in their source branch will be promoted CPO on their original CPD or to A/CPO Cox’n(SM) on completion of PQC, whichever is sooner. POs not selected for CPO in their source branch will be promoted to A/CPO Cox’n(SM) on completion of PQC. All A/CPO Cox’n(SM)s will be confirmed CPO on their Common Promotion Date. In order for newly selected Cox’n(SM)s to achieve RPS, the candidate will be required to complete a FOST Harbour Liaison Visit (HLV) check 12 months post completion of Cox’n(SM) PQC and be endorsed by the Commanding Officer.

j. **Return to Source Specialisation**

1. **Prior to Transfer.** If, at any stage before final transfer to the Coxswain (SM) specialisation, a rating is disrated, reverted or found to be unsuitable, they will be returned to their source specialisation.

2. **Voluntary Return to Specialisation.** Approval may be given for ratings who voluntarily request to return to their original source specialisation within 12 months of beginning Coxswain (SM) training (PQC) in accordance with BRd 3(1) Para 5128. In such cases, the rating will not normally be allowed to re-apply to enter the Cox’n (SM) specialisation at a later date.

3. **Probationary Period.** If, after transfer to the Cox’n (SM), a rating is subsequently found to be unsatisfactory in their new specialisation prior to achieving RPS, they will be compulsorily transferred back to their original specialisation and if required reverted back to PO in accordance with the provisions of Para 5128 and Para 7007.

4. **All Other Periods.** If, after transfer to the Cox’n (SM) specialisation, a rating is disrated or, under the provisions of Para 7006, reverted to a rate below CPO, they will be returned to their source specialisation and the provisions of Para 7007 sub-para k will apply.

---

**8302. Coxswain (Submarine) Specialisation – Promotion Flowchart**

The following qualifications are required for promotion from CPO Cox’n (SM) to WO1 Cox’n (SM):

| CHIEF PETTY OFFICER COXSWAIN (SM) |

---
Warrant Officer 1 - Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPO 12 months prior to the Common Promotion Date (CPD).

b. Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD. (Para 6703 b sub para (7))

c. Recommended for promotion on Appraisal Report at Common Reporting Date (CRD).

Warrant Officer 1 – Pre-Promotion Requirements

d. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later); recorded as JPA competence ‘CMS|Fitness Test|Navy’). (1)

e. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

f. Satisfy terms of Assignment Order issued by Promotion Authority.

g. Educationally qualified for promotion in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

Promoted to
WARRANT OFFICER 1 COXSWAIN (SM)

Note. RNFT (at CPD). Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a NSMBOS or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD (or later). See Para 6718.

8303. Selection for Chief of the Boat

Should the requirement arise for a Chief of the Boat due to shortages in the Coxswain (SM) specialisation, Fleet Commander/DCNS will issue separate instructions.

CHAPTER 84

WARFARE BRANCH – COMMUNICATIONS TECHNICIAN

8401. General

This Chapter covers the career regulations for the Communications Technician (CT) Specialisation. Divisional Officers are to ensure that a copy of this Chapter, with its relevant Annex, is placed in the Personal Development Record (PDR) of every member of the CT specialisation.

a. There are reserved rights for advancement to CPO for POCTs who joined prior to 1 Nov 06 (DE) or 1 Sep 07 (SE). Exceptionally, they will be allowed to attempt the PQE for time-based advancement to the CPO rate until the cut-off dates detailed in Table 84-1. Individuals who do not successfully complete the PQE by the eligibility closure date will adopt the career path notated in Annex 84B and will be considered for merit-based selection to CPO thereupon. If the failure to complete the PQE is due to service reasons, the Branch Manager will consider exemptions on an individual basis.

8402. Entry into the CT Specialisation

The following criteria must be met for entry into the CT specialisation:

a. Nationality. It is important to recognise that the nature and sensitivity of the work on which CTs are engaged necessitates certain specific nationality criteria being imposed. These are as follows:

(1) CTs must be British for entry to the specialisation and are to have held British citizenship for ten years.

(2) CTs are not to have held any other nationality in the last five years.

(3) CTs’ surviving parents (including their partners) are to be solely British.

(4) Any spouse/partner is to be solely British.

(5) Surviving parents of the spouse/partner are to be solely British.

(6) Current or previous Foreign National connections (either by direct family, marriage or extension) will be judged on a case by case basis, some of which may preclude entry to the CT Specialisation.
b. **Educational Standards.** GCSE Grade C or higher in English Language and Mathematics.

d. **Hearing.** A Standard hearing of 2:2.

e. **Colour Perception.** A Colour Perception standard of 4.

f. **Age.** Must be between the ages of 16-37 years for direct entry.

g. **Developed Vetting (DV).** DV is the minimum security requirement.

h. **Service.** Candidates must be volunteers for service in ships and submarines.

i. **Language Training.** Candidates must be volunteers for language training, where required, to satisfy the Service need (see Para 8414).

j. **Signal Training.** Candidates must be volunteers for signal development training, where required, to satisfy the Service need Para 8415.

---

### 8403. Branch Transfer Requirements

In addition to the criteria at Para 8402 branch transfer entrants require the following:

a. Have a minimum of ten years to serve.

b. Be an AB1 who has completed the CBRNDC Task Book or be a LH.

c. Recommended by their Commanding Officer for the CT specialisation.

d. A successful acquaint interview with a Warrant Officer 1 CT or Officer who is an ex–CT (copies of the last three Appraisal Reports should be forwarded to the interviewing officer prior to this event). A subsequent letter of recommendation, by the interviewer, should be enclosed within the rating’s Service Documents and a copy forwarded to RN CT SPEC AD at HQ MIXG.

e. Passed the CT Specialisation Selection Interview. This is convened at HQ MIXG by RNCT SPEC AD.

f. Have manning clearance for transfer.

g. Be in date RNFT.

---

1 For administrative purposes, HQ MIXG should also be advised of unsuccessful interview results.
8404. **Application Process**

An individual must have passed a selection interview before manning clearance is authorised. No individual may attend a selection interview without PPLAN approval; the following procedure is to be used:

a. **Selection Interview Clearance.** When an individual has been recommended for the CT specialisation in accordance with Para 8403 sub para c, an application is to be submitted to Navy Command/Commodore Naval Personnel Strategy (CNPS), for the attention of NAVY PERS-PPLAN SWPR WO1, requesting permission to proceed to a selection interview.

b. Once permission has been granted, the individual's unit is to liaise with RN CT SPEC AD at HQ MIXG to request a selection interview. The Divisional Officer is to forward the following:

   1. Copies of the candidate’s Appraisal Reports and Insert Slips covering the last three years.
   2. A copy of Leadership Course results (if completed).

8405. **CT Specialisation Selection Interviews for Branch Transfer Entry**

Candidates interviews are held at HQ MIXG, dates of which will be made available to candidates by the HQ MIXG.

a. The selection process is of one day’s duration and consists of a number of elements to assess a candidate’s suitability for transferring to the CT specialisation, culminating in a formal interview. Among the qualities sought are the following:

   1. Aptitude for employment in all relevant CT Unit Establishment positions.
   2. Commitment to the Service.
   3. Capability to meet the standards required of CT training.
   4. Good personal qualities, particularly integrity, stability of performance and no obvious security risks.
   5. Leadership potential.

b. On completion of the selection interview candidates, and their Commanding Officer, will be informed if they have passed or failed. HQ MIXG is also to inform NAVY PERS-PPLAN SWPR WO1 of the results.

8406. **Post Selection Interview Actions**

a. **Branch Transfer Manning Clearance.** Once an individual has passed the Selection Interview, manning clearance to change branch/specialisation is to be requested via NAVY PERS-PPLAN SWPR WO1 in accordance with current regulations.
(1) Manning clearance, if granted, will be valid for two years.

(2) The individual will then be allocated a provisional place on a CTPQC.

b. On receipt of an Assignment Order detailing a candidate for CTPQC, Divisional Officers are to check that the rating meets all the requirements listed at Para 8403.

8407. Passing CT Training

On successful completion of the SIGINT Collection Course (SCC), the following rules will apply:

a. Direct entry individuals leave their original specialisation and join the trained strength of the CT specialisation.

   (1) Branch Transfer Entry LHs are to be rated LH CT and adopt one star CT specialisation badges.

   (2) Branch Transfer Entry AB1s are to be rated AB1 CT and adopt one star CT specialisation badges.

   (3) Direct Entry individuals will be rated AB1 CT once all the criteria at Annex 84B have been satisfied.

b. When OPS as a LH CT has been achieved an individual will be awarded a two star CT specialisation badge.

c. An individual will be advanced to LH CT 9 months after the completion of the SCC once all the criteria at Annex 84B have been satisfied. The following gives further guidance:

When an individual has achieved OPS, their seniority date is to be adjusted to 9 months after the final day of the SCC course.

8408. Source Branch Matters

If an individual, having been accepted for Branch Transfer to join the CT specialisation, has not started training but is selected for promotion in their source branch, the following rules will apply:

a. The individual may take the requisite professional and leadership courses and, therefore, obtain promotion. However if, on the day that an individual starts CT training, the individual has not obtained the qualifications necessary for promotion; their selection will be held in abeyance.

b. Those personnel who are promoted in their source branch between passing the CT specialisation selection interview and commencing CT training can exercise either of the following options:

   (1) Refuse promotion and commence CT training as planned.
(2) Accept promotion and remain in their source branch.

c. Once CT training has commenced, Sideways Entry individuals (SEs) will remain in their source branch but will be ineligible for promotion until completion of their basic CT training when subsequent promotion to LH CT will be dependent upon fulfilment of all criteria within the relevant CT specialist career profile.

d. Source Branch Submariners will automatically lose Special Service Pay (SM) effective from the first day of basic CT training.

8409. Withdrawal from Phase 1 or 2 Training

a. Initial failure to complete any phase of training may result in back classing at the discretion of the relevant Head of Training. If it is judged that a trainee will be unable to complete any phase or module, however, they may, in consultation with the Commanding Officer HQ MIXG, be withdrawn from training with the following options:

   (1) SEs may return to their source branch at their substantive rate.

   (2) DEs will be given career counselling and a suitable branch transfer proposed after consultation with the Warfare Branch Manager.

   (3) Discharge SHORE in accordance with Chapter 54.

b. Individuals who wish to withdraw from basic CT training voluntarily may be permitted to do so only after full consultation with HQ MIXG.

8410. Security Clearances

The minimum security requirement for employment in the CT specialisation is for the individual to hold a DV clearance.

a. This requires the individual to have been resident for ten years in the UK. However, in certain circumstances, particularly where the individual is of UK origin, a shorter period may be acceptable. In such cases, an application is to be made to RN PSyA for a waiver of the residency requirement.

b. Depending upon their area of employment, CTs will also need to hold various other clearances throughout their career. For many of these clearances, nationality restrictions will be applied (see Para 8402 sub para a).

c. A DV questionnaire will be issued to prospective CTs approximately 12 weeks prior to joining the Service. The preferred method for an application is through the eforms portal; however a hard copy may be submitted under exceptional circumstances. The completed DV questionnaire must be returned to the Defence Business Services National Security Vetting (DBS NSV) before commencing the third week of Phase 1 Training. DBS NSV will not be able to process forms submitted with less than 12 weeks’ notice ie. in time for the HQ MIXG module at the end of Phase 2a, and those students affected may be unable to continue training.
d. Individuals who have not been granted a DV status cannot complete the HQ MIXG module of Phase 2a training, or begin Phase 2b (Initial Sea Training). Where this is as a result of refusal, rather than administrative delays, SEs will be returned to their source specialisation while DEs can either take the following routes:

1. Transfer to another specialisation in accordance with Chapter 51.
2. Discharge SHORE in accordance with Chapter 54.

8411. Loss of DV and/or Special Clearances
The withdrawal of a DV and/or the suspension/removal of Special Clearances will severely restrict an individual’s employment/assignment potential as a CT by rendering the individual unemployable in designated specialisation positions. This could adversely impact the individual’s Naval career. The decision to remove or suspend DVs or Special Clearances rests with RN PSyA and the relevant controlling authorities respectively. Such decisions are made on a case by case basis and the impact on the individual will generally depend on the reason for suspension/withdrawal. A range of options for future employment will be considered, involving a degree of personal preference where possible. For serving CT individuals who have lost their DV and or special clearance the following will be considered:

a. Transfer to another branch or specialisation in their substantive rate, within the constraints of branch transfer regulations (Chapter 51).

b. For those within their final two years’ service, or who elect to submit 12 months’ notice following the removal of the DV, employment in existing rate in an ‘out of specialisation’ position, if a suitable one is available, until completion of career or engagement or period of notice.

c. For SEs, reversion to source specialisation at the rate held before transfer to the CT specialisation.

d. Discharge SHORE, in accordance with Chapter 54.

8412. CT Branch Training - Career Progress, Targeted Employment Modules and Pre Joining Training
Career Progression for CT Branch Ratings is detailed within Annex 84A or Annex 84B (as appropriate). In addition to Career training, individuals may be required to undertake some bespoke Targeted Employment Modules (TEMs)/Pre-Joining Training in accordance with the Unit Establishment List (UEL), as follows:
a. **Training Performance Statements, Workplace Training Task Books and Operational Performance Standard.** On successful completion of the PQC for AB, LH or PO, a CT rating will have attained the Training Performance Statement (TPS) for that rate. Individuals will then be issued with the appropriate Workplace Training Task Book (WTTB). In the subsequent assignment, a rating will be deemed to have achieved Operational Performance Standard (OPS) on successful completion of the core career workplace training section of the relevant WTTB (TPS + OJT = OPS) for AB/LH. On achievement of OPS as an AB1, LH or PO, the Warfare Training Coordinator must inform the unit Human Resource (HR) administrator in order for the relevant competences (see Annexes for details) to be inputted to JPA. When an individual is advanced to AB1 or LH, the HR administrator is to ensure that a Promotion Authorisation Request (PAR) is sent to the Career Manager, who will authorise the promotion and change the rate on JPA. It is important that achievement of OPS is inputted to JPA before the PAR date, thus stating that the rating has achieved OPS before attempting to be advanced to AB1 or LH. A rating’s OPS is defined and owned by the relevant Branch Manager.

b. **Mechanism for Unacceptably Slow Progression.** It is entirely possible that some ratings may not achieve OPS. Within the CT Branch there is no scope to employ individuals who cannot or will not progress themselves beyond AB1. It must be realised that AB1s are employed primarily to gain experience and to advance to a higher rate. It follows, therefore, that the ultimate sanction for those who cannot or will not progress beyond AB1 is an application for administrative discharge on the grounds of un-employability. Within the CT specialisation, an initial warning is set at 12 months from commencement of the WTTB (unless it has been given earlier, supported with unequivocal statements of non-recommendation for advancement in an Appraisal Report). Warnings will then continue 3-monthly, within the Appraisal process, up to an aggregate total of 18 months under warning, whereupon application for administrative discharge on the grounds of un-employability will be sought.

c. **Pre Joining Training.** PJTs are the method of training CT ratings for a specific role, prior to joining a sea going unit, as required by the UEL. Whilst undertaking a PQC, a rating who has been assigned to a unit in a position which requires the PJT will be booked on the course, which will commence on completion of all other modules of the PQC. The following outcomes are possible:

1. **Pass.** Schools are responsible for conducting PJTs and are to report successful completion and ensure that HR administrators input the relevant competences to JPA.

2. **Failure.** In the event of failure, a written report is to be forwarded by the School to the individual's parent unit. The individual may be considered for Discharge SHORE, in accordance with Chapter 54 or, in the case of LH, immediately warned formally for reversion by the parent unit. As PJTs are taught at the end of a PQC pipeline, the rating will have to wait until the end of the next training pipeline before re-commencing the PJT.
(3) **Second Failure.** After a second failure, LH or above will be subject to reversion for unsuitability. Ratings who fail a PJT a second time are not to be employed in any UEL position number that requires that competence and are not to attempt that PJT for further 12 months. The rating’s parent unit is to assess the individual’s employability. If deemed unemployable, the matter is to be referred to the relevant Warfare Ratings Branch Manager.

(4) **Taskbook.** On completion of the PJT, the rating may be required to complete a separate PJT TB, which will be issued in loose leaf format and is to be included in their WTTB.

d. **TEMs.** In addition to WTTB, LHS attending TEMs will also be issued with the relevant On Job Training TB in loose leaf format for inclusion in their current WTTBs.

e. **Completion of AB1 CBRNDC Task Book.** The CBRNDC TB may be issued prior to a rating being promoted AB1 and can be completed at any time after advancement to that rate. Although not a requirement for selection, all ratings are to complete this TB before promotion to LH, including ALH.

f. **Attendance on Next Higher Professional Qualifying Course.** A rating will not be eligible to attend the PQC for a higher rate unless the individual is in date for the Annual OPS Check in the lower rate. The PQC and LRLC/SRLC should normally be undertaken as a package. The Selection Signal will be the trigger for the CM to load candidates on a PQC and relevant leadership course. It will not be possible to achieve this for every individual immediately, but priorities must be amended to achieve commencement of, at least, PQC within 12 months of selection. On implementation, it is possible that a surge in applications may exceed available places. The Career Manager’s judgement will be required to manage points of excessive demand.

g. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6716 for rules on the impact on a rating’s promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control). If the LH or PO PQC is refused, Para 6913 will apply. In the event of failure during a LH or PO PQC, Para 6912 will apply.

h. **OPS Lead Authority.** A database of LH CT level tasks will be maintained by HQ MIXG (TD) and made available to each unit employing CTs as required. When units need to conduct an OPS check HQ MIXG (TD) should be contacted to issue a selection of general task questions. Additional oral questions are then to be added by the employing unit to probe the CT’s knowledge of his/her own ship/unit and operational experience.
8413.  JPA Recording - Competences, Annual OPS Check and RNFT

a. **Recording of Competences.** Once a CT rating has successfully completed a PQC, WTTB, PJT/TEM and achieved OPS, that competence is to be input to JPA by the appropriate unit HR administrator.

b. **Annual OPS Check.** All personnel are expected to remain at OPS while building experience towards promotion. HQ MIXG will define and regulate the standards required to pass an Annual OPS Check and will promulgate them to Fleet Units. Guidance on the process of conducting OPS checks is given in BRd 1984 - Warfare Training Regulations.

   (1) Maintenance of OPS is to be monitored through an Annual OPS Check process co-ordinated by the Warfare Training Co-ordinator, who is to ensure that sufficient opportunities are provided for this purpose within the constraints of the manpower planning cycle.

   (2) In exceptional circumstances some individuals may be unable to achieve the mandatory OPS checks. Where this is the case, HQ MIXG (RN CT SPEC AD) should be consulted for advice.

   (3) An Annual OPS Check is not a pre-selection requirement.

   (4) An Annual OPS Check is a pre-requisite for all promotion career courses for AB-LH and LH-PO.

   (5) OPS qualifications will be checked on attendance of PO PQC. Ratings who are not in date for an Annual OPS Check will be returned to Unit.

c. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the CPD. See Para 6718 for full details.

8414.  Appraisal Reports

a. **Appraisal Reports.** Appraisal Reports are required in order to provide Selection Boards with details of an individual’s performance and suitability for promotion. Appraisal Reports are to be raised annually (31 Jan for all LH; 31 Mar for PO and 30 Sep for CPO). Individuals who cannot maintain OPS, or who receive an unequivocal statement of ‘non-recommendation’ in an SJAR appraisal, must be given a clear plan of action to remedy the situation. This plan must be summarised in the report. If no clear improvement is forthcoming within 3-6 months, individuals should be issued with a formal Divisional Officer, HOD or Commanding Officer’s warning for inadequacy. In cases where a warning has been issued and an individual has not achieved or maintained OPS within the 3-6 month period, the relevant Branch Manager is to be consulted for advice.
b. **SJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion (‘Exceptional’, ‘High’ or ‘Yes’ recommendation for ‘Promotion - 1 Rank Up’ on SJAR by final RO) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Selection Board. Where an otherwise fully eligible candidate has received an SJAR assessment of ‘Insufficient Knowledge’ at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. Ratings may be deemed as ‘developing’ at the annual reporting stage, but this should not be based solely on not having achieved OPS.

8415. **Language Training – Aptitude Test**

Ratings selected for CT training will undergo the Modern Languages Aptitude Test (MLAT) during basic training - results will be recorded and held within Training Delivery Division (TDD) at JITG Chicksands and HQ MIXG. Language training will be provided only in order to satisfy a Service need. When such a need is identified, CTs with an appropriate MLAT score will undergo further assessment of their commitment, attitude and suitability - success at which is a prerequisite for a language training assignment.

8416. **Signal Development Training**

Signal Development (SD) is an advanced, intensive, non-language, communications signals analysis skill. SD training will be provided only in order to satisfy a Service need and requires the individual to pass an aptitude assessment process as a pre-requisite.
### ANNEX 84A

**CT SPECIALISATION PROMOTION FLOWCHART – ENTRY PRIOR TO 1 NOV 06 (DIRECT ENTRANTS)/1 SEP 07 (SIDEWAYS ENTRANTS)**

Note. PQE for CPOCT. Ratings may apply to take the PQE for CPOCT at any time after one year in the rate of POCT. The purpose of the PQE is to identify the candidate’s suitability as a potential Team Leader/CESM Manager onboard an operational CESM platform. The examination is conducted over a 4 day period and candidates will be required to provide the following:

a. Evidence of Reporting and Management scenario skills.

b. Answers to Flag level questions.

c. General Naval Knowledge.

d. Current Affairs.

Application for the CPO PQE is to be made to the SCU signed by the Commanding Officer of the ship or unit. The SCU will notify Commanding Officers of PQE results. The rating’s History Sheet should then be annotated accordingly. Successful candidates will be promoted on date due by service, less any accelerated advancement due. All re-sit examinations are held at SCU.

#### Advanced to LEADING HAND (CT)
Petty Officer – Pre-Selection Requirements

a. Minimum of 9 months’ seniority as LH CT.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7)).

c. Recommended for promotion on Appraisal Report at CRD.

Petty Officer – Pre-Promotion Requirements

d. SRLC completed and recorded as JPA competence Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’.

e. Passed PO PQC by nominated CPD+12 months (awarded PO specialisation badge (Crown)).

f. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to PETTY OFFICER (CT)

Chief Petty Officer – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as POCT 12 months prior to the CPD (Para 6703 b sub para (3))(4).

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. SRLC completed and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’.

d. Recommended for promotion on Appraisal Report at CRD.

Chief Petty Officer – Pre-Promotion Requirements

e. Completed CPO CTQC by nominated CPD+12 months.

f. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).
Warrant Officer 1 – Pre-Selection Requirements

a. If a CPOCT, minimum of 3 years’ seniority in the rate 12 months prior to the CPD. If a legacy WO2CT, there is no minimum seniority requirement.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Educationally qualified for promotion in accordance with Para 9636. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

d. Recommended for promotion on Appraisal Report at CRD.

Warrant Officer 1 – Pre-Promotion Requirements

e. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

f. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

g. Satisfy terms of Assignment Order issued by Promotion Authority.

Note. Phase 2c Training – Branch Transfer Entrants merge with Direct Entry CTs to start their professional CT training and consists of the following:

a. **Electronic Warfare Module 1 RN RM (EWRN).** Conducted at the Defence School of Communication and Information Systems (DSCIS) Blandford, and is a pre-requisite to conduct the SIGINT Collection Course (SCC).

The pre-requisite skills for the EWRN course are touch-typing to 15 words per minute and Morse to 14 words per minute. Branch Transfer Entrants who do not meet these criteria are to contact HQ MIXG (RN CT SPEC AD) for guidance.

b. **SCC.** Conducted at the Joint Intelligence Training Group (JITG) Chicksands.

On successful completion of all modules (ie. on the final day of SCC training), students will join the trained strength.

ANNEX

Annex 85A Professional Qualifying Course - Three Month Preparation Waiver
CHAPTER 85
LOGISTICS BRANCH

8501. Promotion Boards and Eligibility

a. Logistics Branch Promotion Boards consider all candidates from each respective specialisation on the basis of merit.

b. Promotion to Leading Hand, Petty Officer, Chief Petty Officer and Warrant Officer 1 will be authorised by vacancies and dependent upon selection by a Promotion Board. Details of the selection system are given in Chapter 67.

c. Reporting Officers making recommendations for promotion, confirmation or course, are to pay due regard to the regulations shown in Para 6901. As is already the case, adequate selections will also have to be made to ensure there are sufficient seagoing personnel to meet the SM requirement. To ensure that the separate GS and SM manning requirements are met, all those selected, who are fit for SM service, will be considered for either Arm, depending on the needs of the Service. The liability to serve in submarines is laid down within Chapter 51.

d. An individual is recommended for promotion when awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by the final Reporting Officer. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

e. Failure to Complete Professional and/or Leadership Course. Refer to Para 6714 for rules on the impact on a rating's promotion if he/she fails to complete a Professional Qualifying Course (PQC) and/or LRLC/SRLC before the CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).

8502. Professional Qualifying Courses

a. All Logistics PQCs are held at the Defence College of Logistics, Policing and Administration (DCLPA). Candidates for these courses are nominated by ACOS(PCap) from those ratings who have been selected for promotion.

b. Failure of the PQCs will entail the penalties in Para 6912.

c. All Logistics Ratings are required to complete the OPSCC within 3 months of attendance at PQC and have the relevant JPA competence recorded ahead of course attendance$. Personnel not completing OPSCC within the permitted timescales will not be permitted to attend their PQC and risk de-selection if a further place does not become available within 12 months of their CPD$.

---

$ Eg. CMS|OPSCC for LH Logistician|Navy| or CMS|OPSCC for AB Logistician|Navy|.

$ BRd 3(1) Chapter 67 Para 6716.
Note. There is no longer a requirement to undertake the VLE administered pre-course examination. However, to aid preparation, those selected for promotion will be given unrestricted access 3 months prior to attendance at PQC as a training/revision aid. Note that the VLE is now hosted on the Defence Learning Environment (DLE) which is accessed via the Defence Gateway.

d. Personnel failing to complete the OPSCC in the permitted timescales will not be allowed to attend their PQC and risk de-selection if a further place does not become available within 12 months of their CPD.

e. Personnel are to be given 3 months’ notice of attendance at PQC in order to prepare sufficiently. Individuals may waive their right to the 3 month preparation period by completing the proforma at Annex 85A and sending it to the LTO of the relevant DMLS Squadron.

f. Day 1 Assessment at DCLPA. Noting that all course attendees will have adequately prepared for their PQC and arrived at OPS, an assessment on Day 1 will be undertaken based on topics covered within the OPSCC to measure the students’ base knowledge at their current rate. A failure to meet the course requirements (i.e. a signed and completed OPSCC book and a failure of the Day 1 assessment) may lead to a range of formal administrative measures, including a Tier 1 Warning or RTU and/or de-selection in accordance with current DCLPA policy. The Day 1 assessment also allows DCLPA and NCHQ to monitor the current knowledge level of those attending the course, to identify common weak areas, target mentoring appropriately and also reinforces the importance of appropriate preparation for PQC. In order to drive continual improvement, Comdt DCLPA will provide feedback to units of personnel who fail their Day 1 assessment.

g. Responsibility. It is a personal responsibility to fully prepare ahead of attendance on any PQC. The nominated unit logistics sub-specialisation Section Head is required to confirm the individual’s suitability to attend PQC using the OPSCC. Additionally, the unit Logistics Officer or nominated Officer in Charge of Logistics Duties must ensure that individuals are given sufficient time and opportunity to undertake this task. Both will be obliged to certify an individual’s OPSCC certificate within the completed OPSCC booklet and the booklet must be presented to DCPLA by the individual on the first day of their PQC. The OPSCC booklets are hosted on the training page of the FLO Intranet site.

---

3 It remains the responsibility of the individual to ensure they have activated their Defence Gateway account and that their contact details are correct. Access to the Defence Gateway via Dii requires an IGS account.
4 http://authdefenceintranet.dif.r.rai.mil.uk/Organisations/Orgs/Navy/Organisations/Orgs/ACNS(Spt)/ACOS(Logs)/Pages/FLOTraining.aspx
8503. Professional Qualifying Courses – Attendance Pre-Selection

a. The overriding principle and policy of assigning personnel to Professional Qualifying Courses is Select, Train, Promote. However, course frequency, relatively short course duration and the vagaries of the Fleet’s operational tempo has traditionally resulted in a degree of unused capacity on these courses. In order to capitalise on this modest capacity, Career Managers are authorised to assign appropriate personnel to LH and PO Qualifying Courses prior to selection for promotion. This will be done on an ad-hoc basis where course capacity exists and relies on Divisional Officers and Career Managers nominating only those personnel who have both the ability to successfully pass the course and sufficient opportunity to undertake the requisite pre-course preparation.

b. In order to ensure that no personnel are disadvantaged, no credit or positive weighting will be given at promotion boards to those personnel who have had the opportunity to undertake a career course pre-selection. In all circumstances, individuals selected for promotion will take priority and excess course places will be opened up by Career Managers 12 weeks from course start.

8504. Workplace Training Booklet

a. On completion of a Logistics PQC, individuals reach RPS in their rank when they have completed their Workplace Training Booklet (WTB). This should be achieved within 12 months of completing Phase 2 Training or the LH PQC and is to be recorded as a competence on JPA. WTBs are issued by individual DCLPA Squadrons.

b. Completion of Phase 2 and Phase 3 results in Junior Ratings (JRs) leaving the DCLPA at Training Performance Statement (TPS). In order to integrate that classroom training with the realities of the workplace and bring the newly qualified JRs up to the required Role Performance Statement (RPS), individuals are required to complete a WTB in their subsequent assignments.

c. Previously, completion of the WTB alone was deemed sufficient. However, following feedback from frontline units and after discussions with other training establishments, a level of assurance is required to ensure parity across the Fleet. Therefore, once the WTB has been completed, the individual will be required to sit a short oral board examination following which, if they are successful, they will be confirmed at RPS\(^5\).

d. **Procedure.** All personnel completing Phase 2 and Phase 3 training will be issued with a WTB by DCPLA which has to be completed within 12 months\(^6\) of the date of issue (following completion of Phase 2 training or LHPQC).

---

\(^5\) AB2 must complete the WTB and be at RPS to be advanced to AB1. Achievement of RPS for logistics Leading Hands is a pre-selection requirement for Petty Officer.

\(^6\) Line managers of personnel who are struggling to complete their WTB within the 12 months are to liaise with the LTO of the relevant Squadron at DMLS.
e. On completion (or when nearing completion) of a WTB, the departmental SR is to contact the Deputy Logistics Training Officer (DLTO) of the relevant lead squadron at DCLPA. To reduce the risk of plagiarism, each squadron will be responsible for managing the provision of oral board questions on request and for all other guidance.

f. **LHPQC - Level 3 NVQ Certificate in Business and Administration.** Leading Hands attending Phase 3 LHQC at DCLPA undertake the Level 3 NVQ Certificate in Business and Administration. The introduction of the oral board does not change the process for completing this NVQ. Completion of the NVQ is not a mandated requirement for achieving RPS.

g. **Recording.** Once the WTB and subsequent oral board is complete, units are to forward the completed Statement of Competency to the DLTO of the relevant lead school who will annotate the competence on JPA and provide a certificate of achievement. Units are not to take independent JPA action. A suitable comment is to be included in the individual's next SJAR and the Departmental Training Log updated. A PAR, for non-selective promotion, should also be raised at this time and be forwarded to the relevant CM, who will take JPA action to promote to AB1.

h. **WTB Content Assurance.** The content of the WTB is derived directly from the RPS which is owned by NCHQ Logs & Infra Division. These are regularly scrutinised by the Fleet Logistic WOs to ensure currency. Whenever there is a requirement to change the RPS then the WTB documentation will also be amended. Feedback from units is encouraged via the Fleet Logistic WOs and the submission of an S3018 Training Feedback Report.

f. In date RNFT or waiver obtained at CPD (or when eligible for promotion (if later)), recorded as JPA competence 'CMS|Fitness Test|Navy'.

Promoted to

WARRANT OFFICER 1 LOGISTICIAN (CATERING SERVICES)
Notes:

1. RM Logician (Catering Services) will follow the promotion flowchart described above in Para 8506. However, this cadre of personnel can undertake either JCC/SCC, or LRLC/SRLC, and this will count towards their Command training for promotion. Additionally, promotion from CSGT to WO1 does not require completion of RM Advanced Command Course (ACC), although the WO1 course should be completed in common with all Logs WO1s.

2. CSgts RM will have no pay bar at IL5.

3. LCplRM are not to be awarded the Paid Rate of LCpl. However, those personnel who currently hold the rank of LCpl will, by exception, be allowed to retain it, with the relevant pay scale.

4. With effect from 1 Oct 16, there are no new promotions to the paid rank of LCpl in the Catering Services specialisation.

5. LLog (Stewards) who have cross-trained to LLog (Catering Services) will be eligible if they have previously achieved RPS for LLog (Steward).

8508. Submarine Service – Career on a Page

a. The purpose of the Logistics (SM) Career on a Page is to provide a quick look at possible career progression to enable informed decisions to be made. Timelines are indicative averages and are always subject to change. Master documents should always be consulted to ensure that the latest information is available.

b. Ratings are advised to liaise with their Reporting Officer regarding any decisions concerning their careers prior to contacting the Branch or Career Manager. Career Managers for Senior Ratings are located at HMS EXCELLENT, West Battery; Junior Ratings Career Managers are located in the Naval Base Career Management Cells (CMC).

c. Information pertaining to Ratings training pipeline is contained within the Logistics Branch (Personnel) Writer Career on a Page. Information relating to allowances and some of the benefits available during a career is shown in the Table below.

d. Ratings seeking promotion to the Officer Corps can do so via the Upper Yardman (UY)⁸ or Senior Upper Yardman (SUY)⁹ schemes, details of which may be found in Chapter 50

---

⁸ Ratings must be over the age of 17 and below the age of 30 for Warfare, 35 for Engineers and 32 for LOGS. Candidates are required to have 5 GCSE’s grade A-C of non-overlapping subjects including English and Maths.
⁹ Ratings must be over the age of 26 (30 for Engineers) and have a minimum of 4 years to serve as an officer from the day that officer training commences. Candidates are required to have English and Maths GCSEs to allow papers to be raised and 2 other non-overlapping GCSEs or equivalents prior to final selection board.
e. **Optional Exit Points.** Ratings in receipt of RRP(SM) may be eligible to submit an Optional Exit Point application which will enable them to leave the service at an earlier point than their current Termination Date without any loss of RRP; full details can be found in Annex 54K.

I hereby waive the three month preparation time to attend Professional Qualifying Course. I understand it is my responsibility to be fully prepared for professional training and that failure could result in de-selection for promotion.

Signed: .................................................................

Name: .................................................................

Date: .................................................................

Section 2 (to be completed by Line Manager/ Divisional Officer)

I approve the above named rating’s request to waive his right to the stipulated preparation time. I have advised on the requirement to ensure he/she is fully prepared for PQC, including the completion of the OPSCC assessment.

Signed: .................................................................

Rank: .................................................................

Name: .................................................................

Date: .................................................................

This form is to be forwarded to the LTO of the relevant squadron in DMLS and retained for a period of 2 years post course start date.

8606. Promotion to Warrant Officer 1 (RNW)
CHAPTER 86
ROYAL NAVY WELFARE

8601. Introduction
The Royal Navy Welfare Specialisation (RNW) works within Royal Navy Royal
Marines Welfare (RNRMW), which provides high quality personal and community based
support services to all Naval Service personnel, reservists and their families across the wide
range of social circumstances. RNRMW works in partnership with the Executive, Divisional,
Medical Services and Regimental System providing advice, guidance and professional
recommendations to Commanding Officers including outcomes of investigations relating to
compassionate action. RNRMW seeks to develop and deploy resources to anticipate and
prevent personal or family circumstances from reaching crisis point and which promote
resilience, improved morale and wellbeing.

The RNRMW Mission Statement is:

‘To provide accessible support services that strengthen and enhance the resilience
and resourcefulness of Naval Service personnel, their families and communities in
order to contribute to the Moral Component and optimise Operational Capability.’

8602. Applying for Entry into the Royal Navy Welfare (RNW) Specialisation

a. Sideways entry into RNW is only available to personnel who, at the start of the
Defence Specialist Welfare Worker Course (DSWWC), have completed 2 years post
CPD as Petty Officer/Sergeant RM/Sergeant RMBS (ie. OR6) or above. Personnel
can apply as an OR6 with less than 2 years’ seniority, seeking deferred entry if
selected.

b. Prior to making an application, personnel must submit a formal request to their
CO and, if eligible and so recommended, have their request forwarded to NAVY
PCAP-PPLAN SWPR WO1 for manning clearance to proceed.1

c. RNRMW pre-application requirements PO/Sgt RM/Sgt RMBS (ie. OR6) and
above are as follows:

   (1) Have received manning clearance (iaw Art 8602b above).

   (2) Have successfully completed SRLC/SCC and the competence recorded
on JPA.

   (3) Have achieved a minimum OPG B in most recent SJAR.

   (4) Be in date for RNFT/RMBFT; recorded under JPA competences, or have
an appropriate exemption.

   (5) Have a minimum of 36 months left to serve on completion of the
DSWWC.

---

1 IAW BRd 3 Para 5125(b1)
(6) Have at least 12 months since last Career Check (if any) at nominated CPD or date due promotion (if later).

(7) Hold a Full Civilian Driving Licence (recorded on JPA).

d. Applications will be called for annually via a RNTM.

### 8603. Selection Process

a. Obtain CO’s approval for Sideways Entry, forwarded to NAVY PCAP PPLAN SWPR WO1 for manning clearance.

b. Submit a written application to RNRMW in accordance with the current RNTM for RNW recruitment instruction.

c. Applicants who pass the paper sift process will be invited to attend a RNW selection day. It is an essential requirement of selection that applicants possess the required attributes, attitude and maturity to effectively perform as Specialist Welfare Workers and to develop their potential in the RNW Specialisation.

d. The Selection Board will consider the following factors:

   (1) **Suitability** for intensive academic (Level 7 Diploma in Specialist Welfare Work) and specialist welfare vocational training, and continued personal and professional development throughout the time spent in the Specialisation.

   (2) **Potential** to perform effectively in the RNW Specialisation, demonstrate agility and resilience to manage the challenging life-changing/traumatic events that will be encountered.

   (3) **Motivation.** Demonstration of a genuine interest in working with people, empathy and overwhelming motivation by this desire rather than looking for an escape from current branch/trade.

   (4) **Effective Communication.** Ability to communicate to all regardless of status. Communication skills (both verbal and written) are integral to the Specialist Welfare Workers role.

   (5) **Preparation.** Demonstrate a sound understanding of how the RNRMW Organisation and Specialisation operates and works in direct support of CoC/Ops/Divisional and Regimental system, plus knowledge of the range of work they could get involved in and how staff are trained, supported and developed.

e. Enhanced Disclosure and Barring Service and Protecting Vulnerable Groups (Scotland) clearances achieved prior to commencement of DSWWC. Applications will be initiated by the People Support Organisation.

---

2 BRd 3(1) Chapter 51 Para 5125.
f. Selected applicants will attend the 7-month DSWWC to train alongside contemporaries from the Army Welfare Service.

g. Whilst on the DSWWC, candidates remain in their source branch; on passing the DSWWC, candidates will be eligible to transfer into RNW Specialisation.

8604. Transfer Requirements

a. Successfully pass DSWWC and be recommended for transfer to the RNW Specialisation.

b. On completion of DSWWC, all transferees will be rated PO/Sgt (RNW). CPO/CSgt RM will relinquish their rate/rank to OR6\(^3\) (ie. PO/Sgt) with one year’s seniority\(^4\).

c. On completion of DSWWC, a 36-month Return of Service requirement will commence.

d. All individuals transferring to the RNW Specialisation will no longer be considered for promotion in their source branch/trade once training has started (see Para 6704).

e. Hold a full UK Driving Licence.

8605. Promotion to Chief Petty Officer/Colour Sergeant RM (RNW)

a. Pre-Selection Requirements

(1) Minimum of 3 years’ seniority as a PO/Sgt (RNW)\(^1\)12 months prior to Common Promotion Date (CPD) (Para 6703 b sub para (2)).

(2) Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (6)).

(3) Recommended for promotion to CPO/CSgt (RNW) on SJAR at Common Reporting Date (CRD).

b. Pre-Promotion Requirements

(1) At least 12 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

(2) In date RNFT, medically exempt or waiver obtained at CRD; recorded as JPA competence ‘CMS|Fitness Test|Navy’.

(3) Selected for promotion.

---

\(^1\) RNW personnel are in Pay Supplement 1. JSP 754 Vol 2 Chap 10 details the regulations regarding pay on sideways entry and transfer to a lower pay supplement, including details on Marked Time Rate of Pay for 2 years.

\(^2\) Seniority in rank is different to pay increment level. Pay increment level will be determined on sideways transfer iaw with footnote 3.
8606. **Promotion to Warrant Officer 1 (RNW)**

a. **Pre-Selection Requirements**

(1) Minimum of 3 years’ seniority as a CPO/CSgt (RNW) 12 months prior to CPD (Para 6703 b sub para (2))\(^5\).

(2) Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (6)).

(3) Recommended for promotion to WO1 on SJAR at CRD.

b. **Pre-Promotion Requirements**

(1) At least 12 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

(2) In date RNFT or waiver obtained at CRD; recorded as JPA competence ‘CMSIFitness Test\(\text{Navy}\)’.

(3) Selected for promotion.

---

\(^5\) All CSgt/WO2 RMs within the RNRMW Organisation prior to 1 Jan 19 are required to have a minimum of 3 years seniority on completion of ITC/DSWWC, 12 months prior to Common Promotion Date (CPD).

8701. Medical Assistant Specialisation – Promotion Flowchart

Entry: 17-36 years of age (see Note 1).

---

MEDICAL ASSISTANT 2

Medical Assistant 1 – Advancement Criteria

a. Complete Phase I Training (age 17 years 2 months minimum).

b. Passed Phase II Theory Training (age 17 years 6 months minimum) (See Note 4).

c. Commence Phase II Practical Training (4).

d. Complete MA On-Job Task Book (5).

e. Passed Professional Qualifying Examination (PQE) for Medical Assistant (5).

f. Recommended for advancement.

g. In date for Royal Naval Fitness Test (RNFT) or waiver obtained on advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy’ (13).

h. Achieved Initial OPS.

i. At least 6 months since last Career Check (if any) on advancement.

---

Advanced to
MEDICAL ASSISTANT 1

Leading Medical Assistant – Pre-Selection Requirements

a. Complete 3 months’ Phase II Consolidation Period (4).

b. Complete Phase II Practical Consolidation Task Book. The completed Task Book is to be retained by the MA in the Personal Development Record together with the DCHET On-Job Training Task Book (4).

c. Educationally qualified for promotion (EFP) in accordance with Para 9613. Achieved minimum NAMET 5:5 or Level 1 Functional Skills (or equivalent) in English and Mathematics at Common Reporting Date (CRD) and appropriate competences recorded on JPA.
d. Minimum of 18 months’ seniority as a MA1 12 months prior to Common Promotion Date (CPD) (Para 6703 b sub para (3)).

e. Serving on ES1/FC/OE1 that expires after the nominated CPD (Para 6703 b sub para (7)).

f. Recommended for promotion on Appraisal Report at CRD (11).

g. Achieved Rolling OPS at CRD and recorded as JPA competence ‘CMS|Annual OPS Check AB1|Navy|’ (15).

h. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

**Leading Medical Assistant – Pre-Promotion Requirements**

a. Passed Professional Qualifying Course (PQC), Examination (PQE) and First Aid Instructors Course (FAIC) for Leading Medical Assistant and completed Advanced Casualty Care Module (7), (14).

b. Completed Leading Rates’ Leadership Course (LRLC) and recorded as JPA competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|’ (14).

c. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later); recorded as JPA competence ‘CMS|Fitness Test|Navy|’ (13).

d. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

**Promoted to LEADING MEDICAL ASSISTANT**

**Petty Officer Medical Assistant – Pre-Selection Requirements**

a. Minimum of 2 years’ seniority as a LMA 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD (11).

d. Achieved Rolling OPS at CRD and recorded as JPA competence ‘CMS|Annual OPS Check LH|Navy|’ (15).

e. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).
Petty Officer Medical Assistant – Pre-Promotion Requirements

a. Passed PQC Examination for Medical Branch Senior Rating (8)(14).

b. Completed Senior Rates’ Leadership Course (SRLC) and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’ (14).

c. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’ (13).

d. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

e. EFP in accordance with Para 9613. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at CRD and appropriate competences recorded on JPA.

Promoted to
PETTY OFFICER MEDICAL ASSISTANT

Chief Petty Officer Medical Assistant – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a POMA 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Completed Senior Rates’ Leadership Course (SRLC) and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’.

d. Recommended for promotion on Appraisal Report at CRD (11).

e. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

Chief Petty Officer Medical Assistant – Pre-Promotion Requirements

a. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’ (13).

b. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER MEDICAL ASSISTANT
Effective  
February 2020

Warrant Officer 1 Medical Assistant – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPOMA 12 months prior to the CPD.

b. EFP in accordance with Para 9613. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

d. Recommended for promotion on Appraisal Report at CRD (11).

Warrant Officer 1 – Pre-Promotion Requirements

a. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’ (13).

b. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

c. Satisfy terms of Assignment Order issued by Promotion Authority.

<table>
<thead>
<tr>
<th>Promoted to</th>
</tr>
</thead>
<tbody>
<tr>
<td>WARRANT OFFICER 1 MEDICAL ASSISTANT</td>
</tr>
</tbody>
</table>

Notes:

1. **Entry.**
   a. **Educational Standard.** Minimum RT Score of 70.
   b. **Age on Entry.** 17-36 years.

2. **Rate on Entry.** Medical Assistant 2 (MA2).

3. **Phase I Training.**

4. **Phase II Theory Training (MA2)**
   a. **Course.** 40 weeks at Defence College of Healthcare, Education and Training (DCHET), Lichfield and subsequent external placements.

   b. **Examination.** Written and practical examinations on completion of each module. A minimum of 65% in each subject is required for a PASS, except for CBRN 23 which requires a minimum of 70%.

Continued
Notes (Continued):

c. **Failures.**

   (1) Ratings who fail to achieve a pass at the first attempt may be permitted to resit, subsequent failure will result in back-classing action.

   (2) Ratings who are considered unsuitable for further training as MAs should be considered for branch transfer or Discharge SHORE in accordance with Chapter 54.

d. **MASM.** A separate training pathway exists for Medical Assistant (Submarines) – see Note 9.

5. **Phase II Practical Training (MA2)**

   a. In addition to Phase II theory training, ratings will commence 17 weeks’ Phase II Practical Training, including Primary and Secondary Healthcare placements. (NB: ratings must be 17½ before they can undertake practical ward placements in hospital).

   b. **Professional Qualifying Examination (PQE).** All examinations will take place in DCHET as follows:

      (1) **Criterion Tests:** Anatomy and Physiology, Clinical, Medical Administration, Pharmacy, CBRNDC and MOFA papers in Blocks 1 and 2.

      (2) A Pass mark of 65% is required at each examination except for CBRN 23 which requires a minimum of 70%.

c. **Failures.** Ratings who fail this part of their training at any stage will be assessed by Commanding Officer DCHET and WO Training RNMSS to determine whether a further period of training should be undertaken or whether the rating should be offered branch/specialisation transfer or Discharge SHORE.
Notes (Continued):

6. Phase II Consolidation Period

   a. On successful completion of Phase II theory and practical training, ratings will be rated MA1 and assigned either to a Ship or Establishment Sick Quarters for 3 months Phase II Consolidation Period. Phase II consolidation is constructed in a modular format with MAs completing defined periods within a number of clinical and administrative areas. The duration and content of each of these modules has been programmed to place emphasis on areas where newly qualified MAs require the greatest support. The full Phase II consolidation programme may be found within the Medical Assistant Phase II Consolidation Task Book, which is issued at DCHET by WO Training INM, on completion of Phase II theory/practical training. The programme in brief is as follows:

   (1) Induction – 2 days.

   (2) Treatment Room – 3 weeks.

   (3) Medical Administration (MHS/Release/Hospital Assignments/P7R/PHCIS/DIMCP) – 3 weeks.

   (4) Dispensary/Storekeeping – 2 weeks.

   (5) Physiotherapy (if available – Treatment Room if not) – 1 week.

   (6) Shadow Medical Officer (attend all consultations and medicals) – 1 week.

   (7) Small Department acquaint eg. Occupational Health/MBOS etc. as required/available – 1 week.

   b. At the end of Phase II consolidation training, ratings are to have completed all aspects of their Phase II Consolidation Task Book. The Task Book is to be retained within the Rating’s Personal Development Record.

7. Professional Qualifying Examinations for Leading Medical Assistant (LMA)

   a. PQEs. PQEs are taken during a PQC held at the Royal Navy Medical Service School (RNMSS) INM. By passing the PQE, Medical Assistants will be professionally qualified for LMA. The general rules for examinations at Para 6911 will apply. Failures are to be dealt with in accordance with Para 6912.
Notes (Continued):

b. **Details of PQC and Examination**

(1) Candidates for the course will be nominated by ACOS(PCap)/RCMNAHP from those ratings who are selected for promotion at the annual Promotion Board.

(2) The PQC and examination will be held at RNMSS INM 4 times per year and the dates of the course will be published annually by the Statement of Training Requirement (SOTR). The course will be of four weeks duration. The examination will consist of the following:

(a) Practical Advanced Emergency Care and Assessments.

(b) Written papers on Advanced Emergency Care, Pharmacy and Service Administration. The examinations and assessments will be set and marked by RNMSS Training Design and Delivery (TDD). The basic date of passing will be the date of completing the examination. The pass mark is 75% in all papers.

(3) Failure in Examination - ratings who fail the examination are to be dealt with in accordance with Para 6912.

8. **Professional Qualifying Examinations for Petty Officer Medical Assistant (POMA)**

a. A PQE is taken following a PQC held in RNMSS INM. By passing the PQE, LMAs will be professionally qualified for POMA. The general rules for examinations, given in Para 6911, will apply to these examinations. Failures are to be dealt with under Para 6912.

b. **Details of PQC and Examination**

(1) Candidates for the course will be nominated and assigned by RCMNAHP from those selected at an annual Promotion Board.

Continued
Notes (Continued):

(2) The PQC and Examination will be held at RNMSS and the dates of the course will be published annually by DIN. The course will be of three weeks' duration.

(a) Practical Advanced Emergency Care and Assessments.

(b) Written papers on Advanced Emergency Care, Pharmacy and Service Administration. The examinations and assessments will be set and marked by the RNMSS Training Design and Delivery (TDD). The basic date of passing will be the date of completing the examinations. The pass mark is 75% in all papers.

(3) Ratings who fail the examination are to be dealt with in accordance with Para 6912.

10. Royal Marine Medical Assistant (RMMA)

a. Promotion for RMMA will follow the Promotional Flowchart described in Para 8701, with the exception that the requirement to be in date RNFT should be replaced by being in date for BFT (Basic Fitness Test) and completion of JCC/SCC is required in lieu of LRLC/SRLC. Additionally, promotion from CSGT RMMA to WO1 RMMA will also require completion of RM Advance Command Course (ACC) and the WO1 course in common with all RMOR (see Annex 91C).

b. RMs transferring SQ to RMMA will retain their RM seniority date on qualifying as an MA but must achieve a minimum of 18 months seniority as a MA1, 12 months prior to CPD as a Pre-Selection requirement for LMA.

c. RMMAs may be awarded the local, unpaid rank of L/Cpl for attendance on JCC. This local, unpaid rank can be held on return to Unit on successful completion of JCC until subsequent promotion to Cpl.
11. **Recommendation.** Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

12. **RNFT (at CRD).** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate CRD. See Para 6718. See Note 12 sub para a for RMMA.

13. **RNFT (at CPD).** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a NSMBOS or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD (or later) or on advancement. See Note 12 sub para a for RMMA.

14. **Failure to Complete Professional and/or Leadership Course and/or MASM2 (SM Only).** Refer to Para 6716 for rules on the impact on a rating’s promotion if he/she fails to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control). See Para 6718.

15. **Rolling OPS**

   a. It is recognised that occasionally there may be factors beyond the control of the individual, such as prolonged Op tour, Maternity Leave, etc. which preclude them from completing the OPS check in which case an extension to the period in which to satisfy the check, or in exceptional circumstances a full waiver, may be requested. Applications for extensions or waivers will be dealt with on a case by case basis and should be made in writing by the individual's Divisional Officer or Divisional Senior Rate to the Head of Training Division, INM Alverstoke (FAO Warrant Officer (Training) (WO(T))).

   b. An extension or waiver may only be issued by WO(T), who will also record the fact on a local database, held at INM, of all waivers and extensions which will be forwarded to the Promotions Office before each board. **Individuals can still be presented at Promotion Boards, but the waiver needs to be current and mention made of it in the appraisal report in the performance section.** The Medical Branch Manager SO1 will be the final authority for any issues regarding eligibility for promotion.

Continued
Notes: (Continued)

c. Failure to achieve the Rolling OPS Check within a 12 month period will be treated as a serious matter. Should a unit be unable to complete then HTD INM should be engaged for advice at the earliest opportunity. Should an individual consistently fail to meet the required standards of knowledge and skill throughout the year then the Divisional system should be employed appropriately and consideration should be given to warning the rating for Discharge SHORE (Professional Inadequacy).

8702. Medical Assistant (Submarine) Specialisation – Advancement Flowchart

Entry: 17-36 years (see Para 8701, Note 1).

MEDICAL ASSISTANT 2 (SUBMARINES)

Advancement to MA1 in accordance with Para 8701

Advanced to

MEDICAL ASSISTANT 1 (SUBMARINES)

Acting Leading Medical Assistant – Advancement Requirements

a. Complete 3 months’ Phase II Consolidation period (iaw para 8701).

b. Complete Phase II Practical Consolidation Task Book. The completed Task Book is to be retained by the MA in the Personal Development Record together with the DCHET On-Job Training Task Book (iaw para 8701).

c. Educationally qualified for promotion (EFP) in accordance with Para 9613. Achieved minimum NAMET 5.5 or Level 1 Functional Skills (or equivalent) in English and Mathematics at date of advancement and appropriate competences recorded on JPA.

d. Serving on ES1/FC/OE1 that expires after advancement to ALMA (2).

e. Recommended for advancement on completion of MASM1 Training Phase (1) iaw para 6802 (Authority to Advance) (1).

f. Achieved Rolling OPS at date of advancement and recorded as JPA competence ‘CMS|Annual OPS Check AB1|Navy’.

g. Completed MASM 1 course and recorded with JPA competence: Medical|Medical Assistant Submariner 1 Course (MASM1) (ME841N)|Navy|No.
h. Completed Basic Submarine Qualification and recorded with JPA competence: SM|Submarine Service|Navy|.

i. Completed MASM 1 task book and recorded with JPA competence: Medical|Medical Branch Submarine Training MASM1 Task Book|Navy| (2a).

j. Minimum 6 months post MASM 1 training course with completion of SMQ and MASM1 Task Book.

k. At least 6 months since last Career Check (if any) at date of advancement.

l. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

Advanced to

**ACTING LEADING MEDICAL ASSISTANT (SUBMARINES)**

**Leading Medical Assistant – Advancement Requirements**

a. Passed Professional Qualifying Course (PQC), Professional Qualifying Examination (PQE) and First Aid Instructors Course (FAIC) for Leading Medical Assistant.

b. Completed Leading Rates’ Leadership Course (LRLC) and recorded as JPA competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|’.

c. In date RNFT or waiver obtained at date of advancement; recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

d. At least 6 months since last Career Check (if any) at date of advancement.

e. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

Advanced to

**LEADING MEDICAL ASSISTANT (SUBMARINES)**

**Petty Officer Medical Assistant – Pre Selection Requirements**

a. Minimum of 2 years’ seniority as a substantive LMA prior to CPD.

b. Recommended for promotion on Appraisal Report at CRD.

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after advancement to POMA.

d. Achieved Rolling OPS at time of recommendation and recorded as JPA competence ‘CMS|Annual OPS Check LH|Navy|’ (4).
e. EFP in accordance with Para 9613. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at date of advancement and appropriate competences recorded on JPA.

f. At least 6 months since last Career Check (if any) at date of advancement.

g. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

**Acting Petty Officer Medical Assistant – Advancement Requirements**

a. Complete MASM 2 training course and recorded as JPA competence Medical\|SM Medical Branch Ratings Advanced Course MASM2 (ND835)\|Navy\| (2c).

**Petty Officer Medical Assistant – Advancement Requirements**

a. Passed Professional Qualifying Course (PQC) and Professional Qualifying Examination (PQE) for Medical Branch Senior Rating (2b).

b. Completed Senior Rates’ Leadership Course (SRLC) and recorded as JPA competence ‘Miscellaneous\|Senior Rates Leadership Course (RNLA 103)\|Navy\|’ (2b).

c. In date RNFT or waiver obtained at date of advancement; recorded as JPA competence ‘CMS\|Fitness Test\|Navy\|’.

d. At least 6 months since last Career Check (if any) at date of advancement.

e. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

Further promotion in accordance with Para 8701
Notes:

1. **Advancement to Acting LMA(SM) on Completion of MASM1 Training.** Those selected to be MASMs, either by direct entry or transfer from within the MA branch, will be advanced to ALMA(SM), upon recommendation, on completion of the MASM1 training phase (i.e. MA, MASM1, SMQ, completion of Task Book and a 6 month consolidation period) assuming completion of all service requirements for advancement. The effective date of advancement will be the qualification date as a MASM1. The recommendation is an important part of the system and, before making recommendations, Line managers are to satisfy themselves that MASMs meet the requirements of Para 6901.

2. **Failures.**

   a. Ratings who fail to complete the MASM 1 task book within 12 months post MASM 1 course will have their cases reviewed by the Medical Branch Manager to ensure that all opportunities have been taken to complete the task book. This part of their training at any stage will be assessed by their Commanding Officer and Medical Branch Manager to determine whether a further period of training should be undertaken or whether the rating should be discharged SHORE.

   b. The acting higher rate will be for a maximum of 12 months, after which time ratings will, exceptional reasons apart, relinquish the rate if they fail to attain the outstanding qualifications iaw 6802 & 6803.

   c. Ratings who fail MASM 2 course outright or are removed from MASM 2 training are to suffer the following penalties:

      (1) Deselection from the POMA(SM) selection signal.

      (2) A requirement to spend a minimum of 12 months in the lower rate and the need to re-qualify, by way of a Commanding Officer’s recommendation, for subsequent consideration for selection for POMA(SM).
Notes (Continued):

3. Rolling OPS

a. It is recognised that occasionally there may be factors beyond the control of the individual, such as prolonged Op tour, Maternity Leave, etc. which preclude them from completing the OPS check in which case an extension to the period in which to satisfy the check, or in exceptional circumstances a full waiver, may be requested. Applications for extensions or waivers will be dealt with on a case by case basis and should be made in writing by the individual's Divisional Officer or Divisional Senior Rate to the Head of Training Division, INM Alverstoke (FAO Warrant Officer (Training) (WO(T)).

b. An extension or waiver may only be issued by WO(T), who will also record the fact on a local database, held at INM, of all waivers and extensions which will be forwarded to the Promotions Office before each board. Individuals can still be presented at Promotion Boards, but the waiver needs to be current and mention made of it in the appraisal report in the performance section. The Medical Branch Manager SO1 will be the final authority for any issues regarding eligibility for promotion.

c. Failure to achieve the Rolling OPS Check within a 12 month period will be treated as a serious matter. Should a unit be unable to complete then HTD INM should be engaged for advice at the earliest opportunity. Should an individual consistently fail to meet the required standards of knowledge and skill throughout the year then the Divisional system should be employed appropriately and consideration should be given to warning the rating for Discharge SHORE (Professional Inadequacy).

h. Rate to be determined by Medical Branch Manager iaw Para 5122.

(Then as per Para 8704)

Note.

1. Internal recruitment of Medical Technicians

a. RN and QARNNS ratings may apply when volunteers are called for by the Medical Branch Manager to be considered for any one of the following Medical Technician courses:

(1) Medical Technician (Radiographer).

(2) Medical Technician (Biomedical Scientist).

(3) Medical Technician (Operating Department Practitioner).

(4) Medical Technician (Pharmacy Dispenser).
Notes (Continued):

b. Applications for manning clearance should be made by letter to Navy Command HQ (for NAVY PERS-PPLAN SWPR WO1) in accordance with current regulations. Manning clearance, if approved, will be valid for two years. If manning clearance is approved, applications and a copy of the manning clearance letter are to be forwarded to CNR NMD SO3/Nurse Recruiting Assistant (NRA), together with full Service Documents and documentary evidence of academic attainments held by the applicant. Inter-Service transfers, however, are to be processed through CNR, Room 202, Building 1/080, MP 73A, Jago Road, HM Naval Base, Portsmouth. PO1 3LU and applicants’ units are advised to make preliminary enquiries of CNR regarding the possibility of release from the parent Service before applications are forwarded.

c. Applicants will be notified by CNR whether they are eligible to appear before a Selection Board. If ineligible, they will be made aware of any further educational qualifications required. In addition, they will be advised whether vacancies exist in their preferred specialisation and, if not, whether vacancies exist in any of the other specialisations. It should be noted that vacancies are very limited and vary according to the requirements of the Service. In addition, the entry standards are high and competition intense, so applicants should be prepared to reconsider their initial preference.

d. Applicants will be eligible to appear before a Medical Technician Selection Board provided they fulfil the mandated academic requirements and also provide evidence of satisfying the following conditions:

1. Evidence of Medical Category (Medcat) MFD/P2 or another Medcat that allows Sea Service and Land Operational Deployment.

2. Proof of in-date RNFT status.

3. Recommended for transfer on the candidate’s latest SJAR.

4. Evidence of in date manning clearance to transfer from current branch/trade.
Notes (Continued):

(5) Passed the Royal Navy Psychometric Test (RT), at the score stated in Para 0757 - Eligibility Matrix-RN, RM and RFA - for a Medical Technician (radiography/biomedical/science/ODP/PD) student.

(6) Provide Nurse Recruitment Assistant with a curriculum vitae, emailed to NAVY CNR-COHERENCE SR MED PO.

(7) Completed evidence of two week clinical experience obtained in a relevant Health Care setting with a recommendation to train in radiography/biomedical science/ODP.

(8) Provide copies of last three years’ SJARs.

e. CNR, in consultation with the Branch Manager, will convene Selection Boards as necessary and will inform Commanding Officers, copy to ACOS(PCap) and CNR if appropriate.

f. Subject to confirmation of availability by the Medical Branch/Career Manager, selected candidates will be assigned to the MA2 Margin for training.

g. The individual will remain in their current branch/trade and rate until completion of specialist training.

h. In a transfer where the rating is a Petty Officer, the new rate will be determined by the Medical Branch Manager on a case by case basis, dependent upon the Service requirement.

i. Seniority as Medical Technician will be the date of completing professional registration.

j. All candidates must comply with the current ROS regulations and sign a Notice of Waiver of Right of Discharge in Consideration of Course of Training (Form S2658) in accordance with Para 5313.
Notes (Continued):

2. **Examinations**
   a. All students will be required to pass all examinations, including final examinations, and continuous assessments to complete professional training.

   b. Ratings who do not maintain the highest level of conduct or academic, professional and disciplinary standards whilst on course may be removed from training and returned to their original specialisation or Service.

   c. Ratings who fail the specialist professional course will be returned to their original branch/specialisation or Service in accordance with Para 6920.

   d. Ratings who qualify will be advanced as shown in the flow diagrams.

3. **Advancement of Students During Training.** Individuals will not be eligible for selection for promotion in their source specialisation whilst on course.

4. **Transfer to Medical Technician**
   a. Ratings will be transferred to the Medical Technician structure when they have successfully completed specialist professional training.

   b. The effective date of transfer will be the date of completion of professional registration. The date of seniority will also be amended to this date.

   c. Transfer will be to the rates shown below:

<table>
<thead>
<tr>
<th>Present Rate</th>

e. Entered at HMS RALEIGH for Phase 1 Training or waiver (1).

f. Complete Phase 1 Training at HMS RALEIGH or waiver. Seniority as Acting Leading Medical Technician to be the date of completing Phase 1 Training.

g. Recommended for advancement.

h. In date RNFT or waiver obtained on advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy’.

i. At least 6 months since last Career Check (if any) on advancement.

j. Completed Leading Rates’ Leadership Course (LRLC) and recorded as JPA competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’ (1).

k. Completed Level 2 First Aid Training; recorded under JPA competence ‘Medical|Level 2 First Aid (CBRNDC 23)|Navy’.

l. EFP in accordance with Para 9613. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics and recorded on JPA.

Advanced to

**LEADING MEDICAL TECHNICIAN**

(Then as at Para 8704)
Entry - Petty Officer Level

a. Entry upper age limit - 36 years of age.

b. Provide documentary proof of passing the appropriate civilian professional course.

c. Provide documentary evidence of registration with civilian professional body.

d. Pass Interview Board.

e. Entered at HMS RALEIGH for Phase 1 Training or waiver (1).

f. Complete Phase 1 Training at HMS RALEIGH or waiver.

g. Seniority as Acting Petty Officer Medical Technician to be the date of completing Phase 1 Training.

h. Recommended for advancement.

i. In date RNFT or waiver obtained on advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy|’.

j. At least 6 months since last Career Check (if any) on advancement.

k. Completed Senior Rates’ Leadership Course (SRLC) and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’ (1).

l. Complete RN Divisional Officer’s course.

m. EFP in accordance with Para 9613. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

(Then as at Para 8704)

Entry – Chief Petty Officer Level

a. Entry upper age limit - 36 years of age.

b. Provide documentary evidence of passing the appropriate civilian professional course.

c. Provide documentary evidence of registration with civilian professional body.

d. Pass Interview Board.
e. Entered at HMS RALEIGH for Phase 1 Training or waiver (1).

f. Complete Phase 1 Training at HMS RALEIGH or waiver.

g. Seniority as Chief Petty Officer Medical Technician to be the date of completing Phase 1 Training.

h. Recommended for advancement.

i. In date RNFT or waiver obtained on advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy’.

j. At least 6 months since last Career Check (if any) on advancement.

k. Complete RN Divisional Officer’s course.

l. EFP in accordance with Para 9613. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

(Then as per Para 8704)

**Notes:**

1. **Recruitment of Lateral Entry Service Transfer Medical Technicians**

   a. Army and RAF other ranks may apply for Service Transfer to any one of the following Medical Technician cadres:

   (1) Medical Technician (Radiographer).

   (2) Medical Technician (Biomedical Scientist).

   (3) Medical Technician (Operating Department Practitioner).

   (4) Medical Technician (Pharmacy Dispenser).

   b. Applications for Lateral Entry Service transfers should be made by letter to CNR. Applicants’ units are advised to make preliminary enquiries of CNR regarding the possibility of release from the parent Service before applications are forwarded.
c. Applicants will be notified by CNR whether they are eligible to appear before a Selection Board. In addition, they will be advised whether vacancies exist in their specialisation and it should be noted that vacancies are very limited and vary according to the requirement of the Service. Also, it should be noted that entry standards are high and competition intense and therefore applicants should be prepared to reconsider their initial preference.

d. The Medical Branch Manager will seek approval through HMS RALEIGH Cdr Training to waive Phase 1 Basic Training and instead the Transferee will undertake the 5 day bespoke HMS RALEIGH Transferee Induction package.

e. All candidates must comply with the current ROS regulations and sign a Notice of Waiver of Right of Discharge in Consideration of Course of Training (Form S2658) in accordance with Para 5303 sub para c.

f. Leading Rates and/or Senior Rates Leadership Course is not required if Lateral Entry transferees have already undertaken equivalent Leadership courses in their previous Service.

2. Transfer to Medical Technician

a. The effective date of transfer will be the date of completion of Phase 1 Training.

b. Transfer will be to the rates shown below.

**3. RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on advancement. See Para 6718.

8707. Submarine Service – Career on a Page

- The purpose of the Career on a Page is to provide a quick look at possible career progression to enable informed decisions to be made. Timelines are indicative averages and are always subject to change. Master documents should always be consulted to ensure that the latest information is available.

- Ratings are advised to liaise with their Reporting Officer regarding any decisions concerning their careers prior to contacting the Branch or Career Manager. The Career Manager for medical ratings is located at HMS EXCELLENT, West Battery.

- Information pertaining to the ratings training pipeline is contained within the Medical branch (SM) Career on a Page. Information relating to allowances and benefits available during a career is shown in the Table below.

- Ratings seeking promotion to the Officer Corps can do so via the Upper Yardman (UY)\(^1\) or Senior Upper Yardman (SUY)\(^2\) schemes, details of which may be found in Chapter 50.

---

\(^1\) Ratings must be over the age of 17 and below the age of 30 for Warfare, 35 for Engineers and 32 for LOGS. Candidates are required to have 5 GCSE’s grade A-C of non-overlapping subjects including English and Maths.

\(^2\) Ratings must be over the age of 26 (30 for Engineers) and have a minimum of 4 years to serve as an officer from the day that officer training commences. Candidates are required to have English and Maths GCSEs to allow papers to be raised and 2 other non-overlapping GCSEs or equivalents prior to final selection board.

i. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Chief Petty Officer Dental Nurse - Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a Substantive PO Dental Nurse 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.
c. Completed Senior Rates’ Leadership Course (SRLC) and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’.

d. Recommended for promotion on Appraisal Report at CRD.

e. In date RNFT or waiver obtained at CRD; recorded as JPA competence ‘CMS|Fitness Test|Navy’ (4).

Chief Petty Officer Dental Nurse – Pre-Promotion Requirements

f. EFP in accordance with Para 9636. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

g. Provide documentary evidence of continuing registration with the GDC; recorded as JPA competence ‘Educational|General Dental Council – Registration Certificate|Joint’. Competence ID 154003.

h. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’ (5).

i. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER DENTAL NURSE

Warrant Officer 1 Dental Nurse - Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a Substantive CPO Dental Nurse 12 months prior to CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD.

d. In date RNFT or waiver obtained at CRD; recorded as JPA competence ‘CMS|Fitness Test|Navy’ (4).

Warrant Officer 1 Dental Nurse - Pre-Promotion Requirements

e. EFP in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

f. Provide documentary evidence of continuing registration with the GDC; recorded as JPA competence ‘Educational|General Dental Council – Registration Certificate|Joint’. Competence ID 154003.
g. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence 'CMS|Fitness Test|Navy'. (5)

h. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

i. Satisfy terms of Assignment Order issued by Promotion Authority.

Promoted to

WARRANT OFFICER 1 DENTAL NURSE

Notes:

1. Minimum educational qualifications required are 2 GCSEs Grade C or above, or equivalent, to include English Language.

2. New entries undergo Phase 1 Training at HMS RALEIGH followed by Phase 2 tri-Service training at the Defence Medical Academy.

3. Recommendation. Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion-1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

4. RNFT (at CRD). Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate CRD. See Para 6718.

5. RNFT (at CPD). Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a NSMBOS or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD (or later) or on advancement. See Para 6718.

6. Failure to Complete Professional and/or Leadership Course. Refer to Para 6716) for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).

7. If a branch transfer, this is 12 months from the date of transfer to DN.
8803. Working with Minors and Vulnerable Adults – Disclosure and Barring Service (DBS) Clearance

a. Dental duties at all rates may require interaction with minors or vulnerable adults on a one-to-one basis. It has therefore been ruled that all personnel wishing to join the Dental Branch must have a valid DBS Enhanced Disclosure certificate before they can be confirmed as a dental rating (see Para 6050). Commanding Officers are to ensure that applicants for transfer to a Dental specialisation are made fully aware of this requirement before approving the application.

b. Application for DBS clearance will be made by ACOS(PCap) for all applicants who have been given manning clearance to transfer to a Dental specialisation.

i. Satisfy terms of Assignment Order issued by Promotion Authority.

<table>
<thead>
<tr>
<th>Promoted to</th>
</tr>
</thead>
<tbody>
<tr>
<td>WARRANT OFFICER 1 NAVAL NURSE</td>
</tr>
</tbody>
</table>
Notes:

1. Candidates must fulfil the following conditions to become eligible for entry:
   
a. Be between 17 years 10 months and 37 years of age. Candidates must have achieved 18 years of age by the end of the calendar month in which the Common Foundation Programme course begins.

b. The following educational qualifications provide eligibility to be considered for QARNNS student nurse selection (BSc (Hons) Nursing). The degree only entry programme commenced in 2008.

c. 280 UCAS tariff points at A2 Level (or equivalent):
   
   (1) Service requirement of GCSE Grade C or above in English, Maths and a Science-based subject are also required.

   (2) No alternative to a formal English qualification is permitted.

   (3) No alternative to a formal Maths qualification is permitted.

   (4) Direct equivalents to GCSEs are acceptable, eg. GCEs, ‘O’ Levels.

   (5) CSE (Certificate of Secondary Education) Grade 1 only is considered as equivalent to a GCSE grade C.

   (6) GCSE or GCSE equivalents gained overseas must be checked and verified with Nurse Education Advisor, Royal Navy (NEA(RN)).

   d. Pass an Interview Board at the Defence School of Health Care Studies (DSHCS) Royal.

   e. Candidates accepted for entry will join as Student Naval Nurses.

2. Candidates who fail the Common Foundation Programme may be offered branch/specialisation transfer, if possible and recommended, or Discharged Shore Unsuitable During Training.

Continued
Notes (Continued):

3. **Advancement to Naval Nurse.** Student Naval Nurses will be advanced to Naval Nurse on successful completion of Registered Nurse Training and eligibility for registration with the Nursing and Midwifery Council (NMC). The date of advancement to Naval Nurse will be that of successful completion of Naval Nurse Training.

4. **Advancement to Acting Leading Naval Nurse and Leading Naval Nurse**

   a. The seniority date for Acting LNN will be 28 days from the completion of Registered Nurse Training. Should attendance on the PBPOC be delayed for Service reasons, the basic date on completion of the TiMP and PBPOC should be antedated to 28 days from being rated Naval Nurse.

   b. Should a rating, on completion of the TiMP and PBPOC, not be recommended for Acting LNN, the Commanding Officer DMSTG has the authority to withhold the advancement and recommend that the rating be reviewed by the parent establishment not less than 3 months and not more than 6 months after completion of the TiMP and PBPOC. The rate held during this assessment period will be that of Naval Nurse. If subsequently recommended for advancement to Acting LNN, the seniority date will be the actual date of recommendation. If not recommended, consideration should be given to Discharge SHORE.

   c. To enable advancement action by DMSTG, the end of pre-registration training reports (appraisal report) provided by the DSHCS for Naval Nurses must include a recommendation for advancement to Acting LNN. A copy of this appraisal report should accompany the individual to the PBPOC.

   d. Upon receipt of notification from the RN Leadership Academy confirming successful completion of LRLC, Unit Admin staffs are to ensure that individuals meet the requirements for substantive advancement laid down at Para 8901 and arrange for the individual to submit a request for substantive advancement by the Commanding Officer. Upon granting of substantive promotion, Unit Admin staffs are to raise a Promotion Authority Request signal to CNPers, copy to the Ratings Promotions Section, requesting JPA action to reflect the award of substantive advancement and adjustment of seniority date. The seniority date for LNN will be from the date advanced to LNN, time spent as Acting LNN does not count for further advancement or promotion.
Notes (Continued):

e. Time spent as an ALNN does not count towards the 2 years’ seniority requirement for PONN selection at Para 8901.

5. **Student Entry**

   a. Naval Nurses (Student) follow a 3 year course of practical and theoretical instruction based on the current syllabus of General Training stipulated by the Nursing and Midwifery Council (NMC). Naval Nurses (Student) undertake training at Birmingham City University (BCU), administered by the Defence School of Healthcare Education (DSHE), which is embedded within BCU.

   b. QARNNS Student Naval Nurses may be seconded to certain civilian hospitals or Defence Hospital Groups (DHGs) in order to obtain specialist experience.

   c. Payment of index fees for training is made as a charge to Public Funds.

   d. Failure will result in Discharge Unsuitable During Training or specialisation/branch/Service transfer if available and approved.

6. **Recommendation.** Awarded ‘Exceptional’, ‘High’ or ‘Yes’ recommendation for ‘Promotion - 1 Rank Up’ on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of ‘Insufficient Knowledge’ at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

7. **RNFT (at CRD).** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate CRD (see Para 6718).

8. **RNFT (at CPD).** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a NSMBOS or temporary exemption (as issued by the Commanding Officer) on the appropriate CPD (or later) or on advancement (see Para 6718).

9. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6716 for rules on the impact on a rating’s promotion if he/she fails to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).
8902. Naval Nurse Specialisation (Direct Entry) – Promotion Flowchart

New Entry: 20½ - 37 years (see Note 1).

<table>

</thead>
</table>

Acting Leading Naval Nurse – Advancement Criteria

- Provide documentary proof of Registration on Part 1, 12, or 13 of the NMC Register (Registered nurses trained in General Nursing, Adult Nursing or Mental Health Nursing).

- Complete Phase 1 Training at HMS RALEIGH. (2)(3)(4)

- Recommended for advancement. (3)

- In date Royal Naval Fitness Test (RNFT) or waiver obtained on date due advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy’. (5)

- Educationally qualified for promotion (EFP) in accordance with Para 9636. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics and competence “Educational|RN/RM QELH/Cpl|Navy” recorded on JPA.

LEADING NAVAL NURSE

[Further promotion will be as per Para 8901]
Notes:

1. Candidates for Direct Entry as fully qualified and Registered Nurses must fulfil the following conditions:
   a. Be aged between 20½ and 37 years.
   b. Provide documentary proof of Registration on Part 1, 12 or 13 of the NMC Register (Registered nurses trained in General Nursing, Adult Nursing or Mental Health Nursing).
   c. Pass a Professional Interview Board.

2. Candidates accepted for entry will join HMS RALEIGH in the rate of Naval Nurse:
   a. All entrants will undergo 10 weeks Phase 1 training at HMS RALEIGH.
   b. All entrants will attend a Transition to Military Practice Course (TtMPC) at DMSTG (provided by DSHCS).
   c. All entrants will complete the Post Basic Professional Qualifying Course (PBPQC) at DMSTG.

3. On successful completion of Phase 1 training and if recommended for advancement, direct entrants will be advanced to Acting Leading Naval Nurse. On successful completion of TtMPC, PBPQC and LRLC and if recommended for advancement, entrants will be confirmed Leading Naval Nurse. Further advancement will be in accordance with the regulations for Naval Nurses as laid down at Para 8901. The seniority date for LNN will be from the date advanced to LNN; time spent as Acting LNN does not count for further advancement or promotion. Time spent as an ALNN does not count towards the 2 years’ seniority requirement for PONN selection at Para 8901.

4. If not recommended for advancement or for failure of either PBPQC or LRLC, action should be taken in accordance with Para 5451.

5. RNFT. Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on advancement. See Para 6718.
8903. **Shortened Naval Nurse Training**

a. Civilian candidates who hold any of the qualifications listed below and are on the relevant parts of the register of the NMC are allowed, if selected for Naval Nurse training, to undertake a shortened course:

   (1) Registered Sick Children's Nurse (RSCN) or Registered Nurse (Child).

   (2) Registered Mental Nurse (RMN) or Registered Nurse (Mental Health).

   (3) Registered Nurse for the Mentally Handicapped (RNMH) or Registered Nurse (Learning Disabilities).

b. Any reduction in training for the General Register is subject to certain conditions, and in all cases the NMC will be consulted.

c. Prospective candidates for reduced training must meet the educational requirements at Para 8901 sub para b.

d. An individual’s rate on entry will be Naval Nurse - Student (NN(S)).

e. NN(S)s are exempt from the Common Foundation Programme and will be advanced to Naval Nurse (Able Rating) on completion of Phase 1 and 2 training, subject to recommendation. Thereafter, Para 8901 applies.

8904. **Naval Nurse Specialisation - Sideways Entry/Transfer from other Service**

a. Ratings of confirmed Petty Officer (PO) rate and below may apply at any time to be considered for Naval Nurse training.

b. Applications for manning clearance should be made by signal to the Navy Command HQ (first line of text - NCHQ fao CNPS-PPLAN SWPR WO1) in accordance with current regulations. Manning clearance, if approved, will be valid for 2 years. If manning clearance is approved, applications are to be forwarded to CNR NMD SO3/Nurse Recruiting Assistant (NRA). Inter-Service transfers are processed through CNR, Room 202, Building 1/080, MP 73A, Jago Road, HM Naval Base, Portsmouth, PO1 3LU and applicants’ units are advised to make tentative enquiries of CNR regarding the possibility of release from the parent Service before applications are forwarded to NRA.

c. Applicants will be eligible to appear before a Naval Nurse Selection Board provided they fulfil the following conditions:

   (1) Be at least an Able Rating but not more than a confirmed PO.
The following educational qualifications provide eligibility to be considered for QARNNS student nurse selection (BSc (Hons) Nursing). The degree only entry programme commenced in 2008. 280 UCAS tariff points at A2 Level (or equivalent):

(a) Service requirement of GCSE Grade C or above in English, Maths and a Science-based subject are also required.

(b) No alternative to a formal English qualification is permitted.

(c) No alternative to a formal Maths qualification is permitted.

(d) Direct equivalents to GCSEs are acceptable, eg. GCEs, ‘O’ Levels.

(e) CSE (Certificate of Secondary Education) Grade 1 only is considered as equivalent to a GCSE grade C.

(f) GCSE or GCSE equivalents gained overseas must be checked and verified with CNR NMD SO3.

Evidence of Medical Category (Medcat) MFD/P2 or another Medcat that allows Sea Service and Land Operational Deployment.

Proof of in-date RNFT pass.

Recommended for transfer on the candidate’s latest SJAR.

Evidence of in date manning clearance to transfer from current branch/trade.

Passed the Royal Navy Psychometric Test (RT), at the score stated in Para 0757 - Eligibility Matrix-RN, RM and RFA - for a Medical Technician (radiography/biomedical science/ODP ODP) student.

Provided NRA with a curriculum vitae, emailed to NAVYCNR-OPSNRAPO@mod.uk

Completed evidence of 2 weeks clinical experience obtained in a relevant adult Health Care setting with a recommendation to train in health care.

Provide copies of SJARs for the last 3 years.

d. The NMD team will convene all Selection Boards, when necessary, and will inform Commanding Officers, copy to RCMNAHP and CNR where applicable.
e. Selected candidates will, subject to confirmation of availability by RCMMED (CNR for Inter-Service transfers), be assigned to the Defence School of Health Care Studies (DSHCS) for course. The rate at which Inter-Service personnel transfer, and the limitations on advancement during training, where applicable, will be confirmed by CNR after consultation with the Medical Branch Manager.

f. All candidates must comply with the current return of service regulations and sign a Waiver of Notice of Discharge as of Right in Consideration of a Course of Training (Form S2658) in accordance with Para 5308.

g. Failure to meet the standards required will result in discontinuation of training and either Discharge Unsuitable During Training or return to their original Service/branch/specialisation.

h. Ratings returned to their original Service/branch/specialisation who subsequently qualify at their own expense in the civilian examination and obtain registration with the NMC, may apply through their Commanding Officer for transfer to the Naval Nurse structure. If recommended the rating may, subject to approval by the Medical Branch Manager (CNR for inter-Service transfers), transfer from the date of the ratings registration with the NMC.

i. **Promotion in Source Specialisation whilst undergoing Naval Nurse Training.** See Para 6704. LHs will not be eligible for selection for promotion to Petty Officer whilst undergoing Naval Nurse training.

j. Ratings will be transferred to the QARNNS Naval Nurse structure subject to the following conditions:

1. They have successfully completed Naval Nurse training and registered with the NMC (effective date of transfer will be date of successful completion of the course).

2. Are recommended.

3. Have minimum of 6 months since last career check (if any).

k. Ratings will transfer to the Naval Nurse structure as shown below:

CHAPTER 91
ROYAL MARINES OTHER RANKS PROMOTION

SECTION 1 - PROMOTION GENERAL

9101. Introduction
The following regulations are specific to promotion of Royal Marines Other Ranks (ORs). RM ORs employed in the following Royal Navy Specialisations must refer to their specific BRd 3(1) promotion regulations: RN Aircrewman (RM ACMN) - Chapter 81, RN Logistician (Catering Services) (LOG(CS)) - Chapter 85, RN Medical Assistant (RMMA) - Chapter 87, RNRM Welfare – Chapter 86, Naval Personnel Team (NPT(RM)) and RM Career Managers (RM CMs) will be referred as PCAP(RM).

9102. Education
a. Qualifications. The educational qualifications required for each rank up to and including the rank of WO1 are given at Annex 91C and Annex 91D.

b. Exemptions. An individual who has a minimum GCSE ‘C’ grade in English Language and Mathematics, or an equivalent examination grade, may be exempt from Literacy and Numeracy Testing and Education in the Royal Navy.

9103. Professional Qualifications
a. The professional employment of each rank within specialisation is governed by the requirement to achieve Command and Primary Specialist Qualification (PSQ) within the selection year specified by the Promotion Notification (PN) prior to a Common Promotion Date (CPD).

b. JNCOs/SNCOs:
   (1) Cpls. Qualification to PSQ2 level or RM Skill At Arms Course (RMSAA) is mandatory. Waiver of Command courses for RM Special Forces (RMSF) with Army qualifications and RMR Corporals is detailed at Annex 91C.
   (2) Sgts. Promotion is governed by the requirement to upgrade to PSQ1 where applicable.

c. CSgt. Nil requirement.

d. WO2 RM. With the exception of Bandmaster, successful attendance on the Advanced Command Course (ACC) is mandatory for promotion to WO2 RM.

e. WO2 Bandmaster. Selection for promotion is governed by the requirement to have passed the Bandmasters’ Course prior to the Promotion Selection Board (PSB).

f. WO1 RM. Successful attendance on the WO1 course is mandatory for promotion to WO1.
9104. Candidature for Promotion

a. Normally a Mne will only be accepted as a candidate once they have served 12 months from King’s Squad Pass Out (KSPO) or, in the case of the RMBS, when a rank attains the M2/B2 qualification (the M2/B2 qualification may only be attempted after serving 12 months from attaining the M3/B3 qualification, unless they have been awarded advancement). In addition, candidates must be Qualified Educationally for Cpl having achieved Functional Skills (FS) Level 1 in Literacy and Numeracy and have not requested Early Termination.

(1) Automatic Candidature: Twelve months following KSPO, an individual will automatically be enrolled onto the Corps Roll of Candidates unless they are not Educationally Qualified for Promotion (EFP) or they have indicated on JPA they do not wish to become a candidate for promotion. RMBS have automatic candidature on completion of M2/B2.

(2) Subsequent Candidature:

(a) Ranks who do not take automatic candidacy may subsequently apply on JPA through their respective Unit and the RM Promotions Section (RM PROMS). The Individual will be enrolled onto the Corps Roll of Candidates with effect of the date of the application.

(b) Ranks not enrolled onto the Corps Roll due to insufficient EFP will be enrolled automatically once notification of a minimum of FS Level 1 is received by RM PROMS.

b. Accelerated Candidature. Ranks may be awarded accelerated candidature based on their performance during recruit training in conjunction with the King’s Badge Board. The Board may award immediate candidature with effect from KSPO or automatic candidature with effect from six months after KSPO to any deserving ranks.

(1) Royal Marines

(a) Holders of the King’s Badge immediately on recommendation of King’s Badge board (assuming EFP).

(b) Diamonds/Section Comds after a minimum of six months’ service (time dependent on KBB recommendation).

(2) Royal Marines Band Service (RMBS). On successful completion of the M3/B3 examinations, holders of Prince’s Badge, Wing and House Captains and Section Commanders will be awarded the following advancement for eligibility to attend M2/B2 course:

- Prince’s Badge 6 months (eligible 6 months after M3/B3 SQ)
- Wing Captain 6 months (eligible 6 months after M3/B3 SQ)
- House Captain 3 months (eligible 9 months after M3/B3 SQ)
- Section Commander 1 month (eligible 11 months after M3/B3 SQ)
c. As a Candidate, an individual is a potential NCO and is to be given every encouragement and opportunity to improve their Command ability and to obtain the qualifications required for promotion.

d. **Seniority.** The seniority of a candidate is determined by the RM PROMS and will normally be 12 months from KSPO or the date of SQ. Subsequently, this date becomes the enrolment date on the Corps Roll of Candidates.

e. **Removal.** Commanding Officers (COs) may recommend that candidates be removed from the Corps Roll of Candidates for the following reasons:

   1. At the Candidate's own request.
   2. On the grounds of unsuitability arising from disciplinary or other reasons.

   Recommendations for removal are to be forwarded to RM PROMS by special SJAR in the case of an enforced removal or, in the case of voluntary removals, via JPA.

f. **Reinstatement.** An individual who has been removed from the Corps Roll of Candidates may apply to their CO for reinstatement. This request, if supported by the CO's recommendation, must be forwarded to RM PROMS for approval. The following caveats apply:

   1. The individual is not to be reinstated until a minimum period of 12 months and one day has elapsed since removal.
   2. Individuals reinstated on the Corps Roll of Candidates will have their former seniority as a candidate taken into account if they have been removed at their own request. However, if they have been removed for any other reason, their seniority will normally be the date of recommendation for reinstatement, with all former seniority being forfeit.

9105. **Eligibility for Promotion**

a. Ranks on EC/ES3 are considered for promotion selection in order to support structural sustainability.

b. Ranks on Extension of Service (EoS) will not be considered for promotion selection.

c. Individuals serving in N/A specific Continuity positions will not be considered for promotion, as there is no substantive promotion requirement for those in Continuity positions.
d. Ranks who have a Termination Date prior to their Common Promotion Date (CPD) will not be considered by the Promotion Selection Board.

e. Ranks who have requested Early Termination will be considered at the PSB but will not be selected for promotion. They may, on withdrawal of notice, be subsequently selected at the RM Branch Manager’s (BM) authority. A rank will still be considered for selection in their source branch whilst on a long training course.

9106. Promotion to Acting (Paid) Lance Corporal

a. COs of Units (RM, Army and RAF), HM ships and RN establishments are authorised to promote Mnes to the rank of Acting (Paid) LCpl where NCO rank is considered appropriate for leadership, prestige, status or training reasons. Details of Units allocated quotas are held by RM BM. Approval to promote above these ceilings must be secured from the BM WO before any action can take place. Individuals who have attended and passed JCC/JCC(B) are to remain Acting (Paid) LCpl whilst awaiting their CPD.

(1) On completion of trade training, individuals in the following specialisations will automatically be promoted to LCpl: Combat Intelligence (CI), – Military Police (MP), Royal Marines Communications Technician (RMCT) and Special Forces Signaller (SFC) and Telecommunications Technician (TT).

(2) All ranks attending JCC/JCC(B) are to be promoted to the rank of Acting (Paid) LCpl whilst on their respective Command Course.

(3) All ranks attending SQ2/1 training who have been selected for promotion are to be promoted to the rank of Acting (Paid) LCpl whilst on their respective SQ2/1 training course.

(4) On successful completion of JCC and or SQ2/1 training, ranks will retain their Acting (Paid) LCpl status.

(5) Those ranks who have not been selected for promotion at PSB, but hold the rank of Acting (Paid) LCpl, will retain their rank and pay whilst on course.

(6) Those ranks who have not been selected for promotion and do not hold the rank of Acting (Paid) LCpl, will not be promoted for SQ2/1 training courses.

(7) Musicians and Buglers (Musns and Bugs) must be qualified either M2 or B2 to be eligible to be promoted to the rank of Acting (Paid) LCpl.
(8) Those ranks who have not previously been selected for promotion, but are selected after they have commenced their relevant PSQ2 course, will be promoted to Acting (Paid) LCpl with effect from the date of the Promotion Notification.

(9) If an individual in the ARM, MESM or VM PSQ has completed formal Level 1 training and does not already hold the rank of Acting (Paid) LCpl, they will be promoted to Acting (Paid) LCpl on receipt of that qualification.

b. **Administrative Reversion.** COs are to revert a LCpl to Mne when:

1. An individual ceases to hold an assignment for which the rank is considered necessary, or is assigned out of the unit.

2. When a rank is selected under the Direct Specialisation Scheme (DSS) to attend an SQ/TQ course.

c. In the following circumstances, COs must not revert:

1. LCpl (MP2).

2. LCpls who have passed JCC/JCC(B).

3. LCpls who have been selected for promotion and have passed SQ2/1 training.

9107. **Selection and Promotion up to the Rank of WO2 RM General Service**

a. **Promotion Eligibility** (further guidance is at Annex 91C)

1. **Marine to Corporal.** All Mne’s (including LCpls) will be considered for promotion to CPL if they are EFP and have a positive recommendation for promotion.

2. **PSQ2 Level Entry Specialisation.** Candidates can volunteer for one of the PSQ2 Level Entry Specialisations on receipt of a positive recommendation for promotion on their SJAR. They must attend and pass the relevant aptitude having first been authorised to transfer through the RM Branch Manager. RMBS ranks must have attained M2/B2 SQ in order to become a candidate. Ranks entering PSQ2 (AIRCrew, DL, ML PT, PW or RMIS etc.) must have passed JCC.

3. **Corporal to Sergeant.** All substantive Cpls will be considered for promotion to Sgt if they are EFP and have a positive recommendation for promotion.

4. **Sergeant to Colour Sergeant.** Sgts must have a positive recommendation for promotion.
(5) Sergeant to Colour Sergeant Technical

(a) **Promotion to Colour Sergeant - VM/ATV.** Promotion to Colour Sergeant will be determined by the requirement to pull-through from Sergeant to WO2. Whilst PSBs will consider this as a single cohort, the requirement will be split into VM and ATV.

(b) **Promotion to Colour Sergeant - TT/AT.** Promotion to Colour Sergeant will be determined by the requirement to pull-through from Sergeant to WO2. Whilst PSBs will consider this as a single cohort, the requirement will be split into TT and AT.

(c) **Promotion to Colour Sergeant – RMIS/FoS(IS).** Promotion to Colour Sergeant will be determined by the requirement to pull-through from Sergeant to WO2. Whilst PSBs will consider this as a single cohort, the requirement will be split into RMIS and FoS(IS).

(6) **Colour Sergeant to WO2 RM.** All substantive CSgts will be considered for promotion to WO2 RM if they are EFP and have a positive recommendation for promotion.

b. **Promotion Selection Boards.** PSBs will take place on an annual basis and additionally exceptional PSBs will take place when required. The PSBs will be conducted as follows:

(1) PSB Board Member Composition:

(a) OR7 to OR8: OF4, OF3, OR9.

(b) OR6 to OR7: OF4, OF3, OR9.

(c) OR4 to OR6: OF3, OF2, OR8.

(d) OR2 to OR4: OF3, OF2, OR8.

(2) **Conduct.** PSBs will consider all candidates by rank within PSQ. The PSBs will produce an Order of Merit (OoM) from which, based on the promotion requirement, ranks will be nominated for promotion or identified as Reserves. The OoM and subsequent nominations form the basis of the Promotions Notification (PN). The OoM formulated by a PSB remains valid until the subsequent annual PSB. Reserves may be called forward throughout the Training Year (TY) dependent on the requirement.

c. **Training Requirement.** In order to be substantively promoted ranks selected for promotion are required to complete mandatory Command/PSQ//RMSAA training prior to a CPD. To ensure that selected ranks are trained on the most appropriate Comd/PSQ courses, specialisation advisers (Spec Advs) will co-ordinate with RM PROMS identifying Command Course loading priorities. With the exception of RMBS, RM PROMS will promulgate all Command Course Loading Notifications (CLN). PCap(RM) will promulgate all PSQ//RMSAA CLNs, including RMBS.
d. **Common Promotion Date (CPD).** Fully qualified ranks will be promoted to their substantive rank on the relevant CPD:

- WO1 RM - 31 Mar
- WO2 RM - 31 May
- CSgt - 31 Jul
- Sgt - 31 Oct
- Cpl - 31 Jan

e. **SBS Selection and Promotion up to WO2 RM.** SBS ranks will be selected for promotion using the same principles of Merit Based Promotion (MBP) as the RM General Service (GS). Taking into consideration the special nature of their employment, the PSBs will incorporate representation from SBS. Fully qualified ranks will be promoted to the substantive rank on 30 Nov.

f. **RMBS Policy** (further guidance is at Annex 91D)

1. **Merit Based Promotion (MBP).** RM Band Service substantive promotions are selected through MBP.

2. **Promotion to Sergeant.** All substantive Cpls will be considered for promotion to Sgt if they are EFP and have a positive recommendation for promotion.

3. **Promotion to Colour Sergeant.** Sgts must have a positive recommendation for promotion.

4. **Bandmaster Course Selection.** Band NCOs will not be selected to attend the WO Bandmaster Course unless they have passed the SCC(B), are M1 SQ and are EFP to WO2 Bandmaster.

5. **Promotion to Colour Sergeant (Bandmaster).** Sgts must have the Bandmaster qualification and a positive recommendation for promotion.

6. **Promotion to WO2 Bugler/Bandmaster.** Successful attendance on the Advanced Command Course (ACC) is mandatory for promotion to WO2.

7. **Colour Sergeant Buglers** CSgt Bugs who are EFP to WO2 Bugler will be selected to attend the ACC at CTCRM, the successful completion of which is a pre-requisite for promotion.

g. **RM and RMBS Promotion Progression.** RM and RMBS Promotion Progression flow diagrams can be found at Annex 91C and Annex 91D.
9108. Selection and Promotion to the Rank of WO1 (further guidance is at Annex 91A)

a. **Introduction.** WO2s can volunteer for either WO1(Specialisation/Any/RMBS). The selection is based on a generic WO1 RM PSB which will ensure a common standard.

b. **Terminology.** For the purposes of this section, a distinction must be made between WO1s (ie. WO1(Spec Advs), WO1 (Any) and WO1 (RMBS). To this end, WO1 RM position will be termed WO1 RM.

c. **Eligibility.** Individuals selected for promotion must meet the specific promotion criteria set out in Annex 91C and Annex 91D.

d. **Reporting Requirements.** WO2 SJARs should reflect an individual's suitability for promotion to WO1 RM. Reporting Officers should also specify suitability for a WO1 appointment (eg. JCTATT, RNMC, RDCA, RSM, EWO/BWO, AADJT, CM/BM, HRTSG etc.).

e. **Training for WO1 RM.** WO2s who are selected for either appointment must attend the WO1 RM course prior to substantive promotion.

f. **Subsequent Appointing of WO1s.** Additional appointing of WO1 RMs is at the discretion of the Corps Drafting Officer (CDO) in consultation with the RM BM.

g. **Engagements.** All WO1s selected will be offered sufficient periods of service to allow them to complete future appointments if required. WO1(RSM)(SBS) and WO1(SBS) will be offered periods of further service based on the requirements of DSF.

9109. Substantive Promotion

a. **Selection of Royal Marines for Promotion.** Substantive promotion of WOs and NCOs is announced through the PN issued by RM PROMS on behalf of DACOS(Prom) and promulgated on completion of PSBs or periodically according to the promotion requirement. The PN will be published according to rank. It will identify those ranks selected for promotion to the next higher rank and give a CPD on which substantive promotion is to take effect. Copies of the PN are issued to all Units (RM, Army and RAF) RN ships and establishments in which RM WOs, NCOs and Other Ranks selected for promotion are serving. Following a CO’s release, sufficient copies of the PN should be made available for scrutiny by all personnel.

b. **Eligibility Criteria.** Individuals selected for promotion must meet the promotion eligibility criteria set out in Annex 91C and Annex 91D.

c. **Confirmation.** The substantive promotion date promulgated by a PN is not effective until confirmed by the Promotion Confirmation Notification (PCN). The CO must effect the promotion from the date reflected in the PCN.
d. **Deferment.** A CO is authorised to withhold or defer promotion in the following circumstances:

(1) **Poor Performance or Conduct.** Where an individual has shown by their recent conduct or inefficiency that they are unsuitable for promotion. Further guidance can be found at Para 6711.

(2) **RM Fitness Test (RMFT) Failure.** Where an individual fails the RMFT or RMFT(P) due to a lack of personal fitness, the deferment will remain in force until they have passed the RMFT or RMFT(P). Ranks unable to attempt the RMFT or RMFT(P), owing to their medical category, may be promoted provided a Medical Officer can confirm the individual is expected to reach the necessary standard within 6 months (Para 6908 (JMES Criteria) and BR 1750A (Handbook of Naval Medical Standards) refers). Units are to ensure the RMFT or RMFT(P) competence (Medical Exempt/Fail) is correctly recorded by a Physical Training Instructor (PTI). The PTI must ensure that the previous RMFT or RMFT(P) competence is correctly end-dated and a new RMFT or RMFT(P) competence is entered on JPA.

e. **Permanent Medical Downgrade (PMD).** PMD is regarded as being when an individual has been graded below the medical standards required for service in their particular Specialisation. Individuals in a PMD category will have had their capabilities specifically defined by the Naval Service Medical Board of Survey (NSMBOs)/Naval Service Medical Employability Board (NSMEB) and may be exempt from the RMFT, RMFT(P) CFT and have other restrictions placed upon them. However, the individual may be promoted in line with the regulations set out in Para 6908 and BR1750. In the case of those individuals who have been assessed by the NMBOS/NSMEB for suitability to attend Command Course Training, Unit MO's/CO's must refer to Annex 91E to form a considered decision on a rank’s suitability to attend an RM Modified ACC, SCC or JCC Command Course Training.

9110. **Failure to Achieve Qualifications in Selection Period (further guidance can be found at Table 91-1)**

a. Ideally, a rank would complete command and then subsequently PSQ training but, due to course programming, this will not always be possible. It follows therefore that individuals could be loaded onto a PSQ/PTQ course before a command course. It is important to remember that successful completion of both command and PSQ/PTQ training together is required to qualify for substantive promotion. Those ranks who are unable to achieve the promotion qualifications in the Training Year (TY) will fall into the following categories:

(1) **A Rank’s PSQ/PTQ Training Overruns the TY.** A rank who, having successfully completed command training, is unable to complete SQ/TQ training within the TY due to course clashes or a non-programmed Operational Deployment will be loaded to the next available SQ/TQ course. If this course overruns the individual’s CPD, once they have successfully completed the course, they will receive seniority of the originally intended CPD.
(2) **A Rank Fails either Command or PSQ Training.** Individuals who Fail a command or PSQ training course will, if possible, be loaded to another course within the same TY. If the rank fails the second course, they will be de-selected and a reserve nominated to take up the vacant position. The de-selected rank will not be considered at the next annual PSB. This rule also applies to PSQs that have only one course per year. In the event that a rank fails the one PSQ course, they will be de-selected for that TY.

(3) **A Rank Passes a Course on a Second Attempt.** In the event that a rank passes on a second attempt, and the end of the second course falls within the same TY, they will receive the same CPD as other ranks selected in the same year. If, however, the second course ends after the selection year the rank will receive a CPD at the end of the TY in which they qualify.

b. There will be occasions when ranks who have been selected for promotion will be unable to pass Command Training within two attempts during the TY as described above. In order that promotion vacancies are filled within the selection year some ranks may have to be de-selected and reserves nominated in order to fill vacant selection places. In these cases, the following rules will be applied, and in each of these, DACOS(Prom) will be the final arbiter for de-selection (see following table).

c. In accordance with the needs of the Service, a candidate who has not been selected for promotion may be selected by the RM BM to attend Command Training. This will normally be where critical gaps exist and where training places on Command Courses are available. Should this rank pass the Command Course they will be eligible for Acting Higher Rank (AHR) only where gaps exist but must be selected for promotion and pass a PSQ/PTQ 2/1 Level Course before being promoted substantively. Passing Command Training does not guarantee selection for promotion.
### Table 91-1. Rules Concerning De-selection

<table>
<thead>
<tr>
<th>Serial</th>
<th>Occasion</th>
<th>Resulting Action</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Failure to achieve pre-requisite Command Cse Joining Instructions (JIs) criteria (See Note 6).</td>
<td>Re-loaded to next command course. Deselect if 2 strikes.</td>
<td>Deselect if rank fails second JIs criteria.</td>
</tr>
</tbody>
</table>
| 2      | Failure on Command Cse in TY 1. (See Note 6). | Reloaded to next Command course. | 1. If rank passes second Command Cse, they are awarded CPD at end of TY in which they qualify for promotion.  
  
  ii. Deselect if rank fails second Command Cse.  
  
  iii. A rank may attend SQ/TQ Trg whilst prohibited from Command Training. |
| 3      | An individual elects not to attend or VWs from Command or PSQ Cse. (See Note 1). | Deselect. | (See Note 7). |
| 4      | Failure to remain on Command Course due to Medical RFC. (See Note 2). | Await reload pending Medical authorities' consent, the rank is fit to attend a Comd course. Deselect. | (See Note 7). |
| 5      | Failure to remain on Command Course due to a Welfare RFC. (See Note 3). | Await reload pending authority from the Welfare Agencies, rank is fit to attend Comd course. Deselect. | (See Note 7) |
| 6      | Failure to attend any Command Cses due to being Operationally Deployed. (See Note 4). | Rank is loaded to first available Command and PSQ Trg Cse on completion of the deployment. | i. Rank passes Cse: Awarded preserved CPD, if authorised by RM PROMS. 
  
  ii. Rank awarded deferred pass: Rule in Para 9123 applies.  
  
  iii. Rank fails Cse: Serial 2 applies. |
| 7      | Failure to address Command Cse deferred pass. (See Note 5). | Automatic Command Cse Fail (See serial 2). | See Serial 2. |
| 8      | Failure on PSQ/PTQ Cse. (See Note 6). | Rank is loaded to next available PSQ/PTQ Cse. | De-select if rank fails second PSQ/PTQ Cse. (See Note 7). |
| 9      | Ranks not trained within 2 TYs. (See Note 1). | Deselect. | (See Note 7). |
Notes:

1. Unless valid Operational, Welfare, Medical, Maternity or other reasons, Units/CofC are to state their case to RM PROMS in writing. Each eventuality will be judged on a case-by-case basis.

2. If a rank is RFC Medically from a Command Course, they will have a Medical Strike. If RFC Medical a second time (ie. 2 x Medical Strikes) the rank will be de-selected.

3. If a rank is RFC Welfare from a Command Course, they will have a Welfare Strike. If RFC Welfare a second time (ie. 2 x Welfare Strikes) the rank will be de-selected.

4. This does not include programmed deployments where Command and SQ training continue regardless. Exceptions to this ruling will only be granted with the agreement, in writing, of RM PROMS (eg. preserved CPD).

5. If ranks are unable to address their shortfalls due to Operational, Welfare, Medical, Maternity or other reasons, Units are to state their case to RM PROMS in writing. Each submission will be judged on a case-by-case basis.

6. RM PROMS will assess all representations by Units concerning individual selection, de-selection or CPD on a case by case basis.

7. Ranks will not be considered at the next annual promotion Selection Board following deselection. Ranks will only be considered in the future providing they continue to meet the eligibility criteria.

9111. Erroneous Promotion
If a promotion is subsequently found to be erroneous the promotion will be rescinded from the date that it was authorised.

9112. Does Not Want Promotion (DNWP)/DEV SJAR
When an individual DNWP or has been awarded a DEV SJAR 1 Rank Up waiting CPD, they will have their promotion selection rescinded and will automatically be deselected. The deselected rank will not be considered at the next annual promotion Selection Board following promotion refusal. Ranks will be presented to promotion selection boards thereafter providing they continue to meet the eligibility criteria. Individuals with an approved Termination Date or Transferred to another Service/Spec on JPA will have their promotion selection rescinded and will be deselected.
9113. Unit Administrative Action for Promotion and Relinquishment

a. **RM PROMS will Issue PCN (PORMs).** Units are to email NAVY PCAP-PROM RM WO, having checked promotion qualifications criteria at Annex 91C and Annex 91D and completed Orderly Room procedure. Once an individual has been either promoted or reverted at CO’s Orderly Room, units must ensure that the following actions are undertaken:

   (1) Details of the promotion/reversion are published in Unit Daily Routine Orders (DROs).

   (2) With the exception of promotions to, and reversions from, substantive rank, where action will be taken by the RM PROMS.

b. For promotions that are withheld or deferred by COs and then confirmed at a later date, Units are to email NAVY PCAP-PROM RM WO when Orderly Room procedures are completed, and RM PROMS will complete JPA action.
SECTION 2 - SELECTION FOR COMMAND AND SPECIALIST TRAINING

9114. General Provisions

a. The RM Branch Manager is responsible for forecasting the requirements for command, PSQ/PTW, RM Band and other specialist training. The numbers required are ratified by means of the Customer Executive Boards (CEB) process and the annual RMC training plan is published as the RM Customer Statement of Training Requirement (SOTR).

b. All Mnes on completion of recruit training will be assigned to the Command Duties GD specialisation, except those that volunteer for PSQ or SSQ training direct from recruit training and RMBS personnel who are assigned direct to the Band Service. The selection of those to undergo specialisation training is made from approximately 12 months after completion of recruit training and following a Career Counselling Interview (CCI). PCAP(RM) is authorised to assign accordingly.

9115. Command and Specialist Training

a. Command Training. The RM BM is responsible for forecasting the annual requirement for Command Training. RM PROMS is responsible for selecting individual WOs, NCOs and Mnes for promotion and thus those attending such courses. PCAP(RM) is responsible for assigning individuals to attend Command Training.

b. PSQ/PTQ/Spec Training. PCAP(RM) is responsible for assigning WOs, NCOs and Mnes to attend PSQ/PTQ training. The number of ranks required for promotion or for Mne PSQ training is set by the RM BM.

9116. Eligibility for Courses and Return of Service (ROS) for Training

Details of the ROS for higher training courses undertaken by RM personnel can be found in Chapter 53.

9117. Re-entries

Details of the rules concerning basic, Command, SQ/TQ for re-entries are contained in Chapter 48. However, in all cases, the RM BM will consider each re-entry application on its merits in view of the RM manning levels at the time of application and re-training requirement in conjunction with Specialisation Advisors.
SECTION 3 – COMMAND COURSE REPORT (CCR)

9118. Introduction
The assessment and reporting procedures for the Junior (JCC), Senior (SCC) and Advanced Command Courses (ACC) will be recorded on the CCR Form.

9119. Guidance for Assessment
Information on assessment criteria can be found at Table 91-2 below.

9120. Deferred Pass Procedure
An individual may be awarded a C2 Deferred pass on the JCC and SCC. In these instances, the student will have met most of the training objectives, but with clearly identified weaknesses in one module. The individual must return to CTCRM, Command Wing (CW), for the specific phase or phases on subsequent Command Course to be re-taught and re-assessed within six months to the satisfaction of CO CW. The individual can only return to CW once during the six months period. The point at which the individual should re-join Command Training will be discussed between CW staff, respective Spec Advs and the Individual’s Chain of Command.

9121. Command Course Fail (CCF) Procedure
Failures are those students that have not achieved Role Performance Statement (RPS). In all but exceptional circumstances, they must not return to re-attempt for at least six months or a subsequent course.

9122. Removal from Course (RFC)
RFC individuals can be removed from Command Training on the authority of CW at any stage during the Course. CW must email the details of RFC to the parent Unit, PCap(RM) and RM PROMS. This must be followed by a letter from CO CW giving the reasons for RFC. RFC action will fall into three main categories; CCF, RFC and Medical/Welfare.¹

Table 91-2. Guidance for Completion of Command Course Report

<table>
<thead>
<tr>
<th>Individual Module Percentage Boundary</th>
<th>Overall Grade (SJAR-aligned)</th>
</tr>
</thead>
<tbody>
<tr>
<td>85-100</td>
<td>A Perform to the highest standard in all respects.</td>

<tr>
<td>75-79</td>
<td>B+ Performing above the standard expected in most respects.</td>
</tr>
<tr>
<td>70-74</td>
<td>B Performing to the standard expected in all respects.</td>
</tr>
<tr>
<td>65-69</td>
<td>B- Performing to the standard expected in most respects.</td>
</tr>
<tr>
<td>60-64</td>
<td>C Performing to the standard expected in some respects.</td>
</tr>
<tr>
<td>55-59</td>
<td>C2 Has failed to achieve the standard pass in one respect.</td>
</tr>
<tr>
<td>Less than 55</td>
<td>D Performing below the standard expected in some or all respects.</td>
</tr>
</tbody>
</table>

¹ Further guidance can be found at Table 91-1.
² Grade boundaries are rounded up from the .5 mark, for instance a student a score of 74.5 would be awarded a B+ a student who scores 74.4 would be awarded a B.
SECTION 4 – OTHER ISSUES

9123. Relative Seniority of NCOs

a. NCOs holding substantive rank take precedence over other NCOs holding the same acting rank, irrespective of seniority. Reserve NCOs who are mobilised or undergoing training with Regular NCOs take precedence according to the date of seniority of their substantive rank.

b. NCOs holding acting rank take precedence over NCOs holding a substantive rank junior to the acting rank. This applies irrespective of type of service or seniority in substantive rank. NCOs holding the same acting rank take precedence according to seniority in their substantive rank.

c. Regular and Reserve NCOs of identical seniority under the foregoing rules take precedence as follows:

- Regular.
- Recall Reserve Liability.
- Royal Fleet Reserve.
- Royal Marines Reserve.

9124. Promotion of Prisoners of War, Internees and those Kidnapped

a. Promotion is not to be authorised during an individual's captivity or internment except under the following provisions:

(1) Individuals due for Promotion before Capture. Fully qualified NCOs, Mnes/Bug/Musns whose promotion was authorised, or to be effected on a date earlier than that of capture or internment, but who were not actually promoted, may be granted the higher rank whilst in captivity or internment with effect from the original promotion date.

(2) Individuals Reported Missing or who Die in Captivity

(a) Individuals reported missing and who remain unaccounted for until death is presumed may be promoted for the purposes of pay, dependants' pensions etc, from the date on which promotion would have been authorised provided that the date of authorisation is earlier than the official date of presumption of death.
(b) Individuals reported missing who are subsequently reported officially as having died, and POWs and internees who die in captivity, are to be treated as at Para 9127 a (2) sub para (a). The period subsequent to the date on which the rank was reported missing or taken prisoner is to be taken into account. Such individuals are to be allowed promotion to any rank for which they would have qualified by service alone, prior to the known or calculated date of death. It is to be assumed that such individuals would have obtained the necessary qualifications for promotion within the period.

b. **Acting Rank.** Acting rank (granted under the provisions of Para 9132) held at the time of capture may be retained during captivity and for a period of 61 days after date of repatriation or until the date of re-joining a unit for effective service, whichever is earlier. The NCO is then to be reverted to their substantive rank.

c. **Promotion after Repatriation or Liberation.** Provided an individual is not to be discharged from the Service on completion of hospital treatment or following leave granted having been a POW or an internee, and they return to full duty with an unbroken record of service, their promotion may be authorised under the following rules:

   (1) The individual must first successfully complete all the mandatory training required for promotion to the higher rank.

   (2) The effective date from which their promotion may be authorised is then to be calculated by adding the length of time taken to undertake mandatory training since return to duty from the date of capture.

d. **Further Promotion.** Eligibility to qualify for further promotion following the implementation of the rules in Para 9127 sub para c is to be determined as follows:

   (1) The date of eligibility to undertake mandatory training is to be calculated from the adjusted seniority in rank.

   (2) The effective date of completing the mandatory training is to be antedated as in Para 9127 c sub para (2). Selections for further promotion will be made on this basis, provided that the individual has applied to undertake mandatory training within a reasonable period after return to full duty and that they pass at the first attempt.

   (3) When no professional or other qualifications are required for a higher rank, further promotion may be authorised in retrospect.
9125. **Formal Reversion**

a. **At Own Request.** Commanding Officers may approve the reversion of WOs or NCOs at their own request, either to a lower NCO rank or to the rank of Mne, and are to report such reversions to the RM Branch Manager and the RM PROM by letter. The latter will undertake the necessary JPA action. The individual is to assume their original seniority in the lower rank, and is not to be considered for promotion until they so request. Any such request must be submitted in writing (letter or via JPA). An NCO who is reverted to the rank of Mne at their own request may not retain a 1st Class PSQ/PTQ specialisation except in certain specialisations where the holding of such 1st Class PSQ/PTQ is permitted (eg. Armourers, Vehicle Mechanics).

b. **Swimmer Canoeist (SC) Specialisation Transfer.** An NCO who is accepted for transfer to the SC specialisation, is likely to be required to revert to a lower non-commissioned rank.

9126. **Reduction**
The procedure for reduction in rank is set out in Chapter 70.

9127. **Promotion of Former NCO Re-entries**
Former NCOs who re-enter the Corps are subject to approval by the RM BM.

9128. **NCOs Under Warning**
The Warning procedure is set out in Chapter 57.

9129. **Promotion to Acting or Local Acting (Paid) Rank (Cpl and above)**

a. **Introduction.** Acting and Local Acting Rank is authorised by RM PROMS. Acting or Local Acting rank may be refused, or withdrawn, if Corps manpower ceilings are likely to be exceeded. In all cases, substantive promotion takes precedence over Acting or Local Acting rank. Relinquishment or reversion from Acting or Local Acting rank has no consequential effect on the individual’s consideration by PSB for substantive promotion other than those instances where reversion is for poor performance.

b. **Acting and Local Acting**

(1) Acting rank may only be awarded to those ranks who have been selected for promotion. The administrative Acting promotion must be reviewed by PCap(RM) at the twelve-month point.

(2) Local Acting rank may be awarded to Mnes, Cpl Sgts and CSgts who have not been selected for promotion but are candidates for such and are identified in Unit as capable of filling a gap at the next higher rank. The administrative Local Acting promotion must be reviewed by PCap(RM) at the six-month point.
There is no difference in pay or status, but this is simply a means of identifying those who have been selected for promotion and are awaiting a CPD and those that have not been selected.

c. Circumstances. The administrative promotion to Acting or Local Acting rank of NCOs and Mnes to one rank above their substantive rank may be appropriate in the following circumstances:

(1) Where a shortage of individuals of a particular rank and/or SQ/TQ leads to a vacancy in that rank and/or SQ/TQ against the complement of a unit which is not expected to be filled for at least 21 days.

(2) Where an NCO is absent for reasons of sickness, compassionate leave or service requirements (excluding Command or SQ/TQ course, or margin action), and where the vacancy is not expected to be filled within 21 days.

d. Criteria. COs must be satisfied that the individual to be administratively promoted is capable of performing the full duties of AHR and is the most suitable person within the Unit ie. the individual should normally satisfy the following criteria:

(1) The individual must be EFP for promotion to the higher rank.

(2) The individual should have been recommended for promotion 1 Rank Up with EXCP, HIGH or YES on their latest SJAR.

(3) An individual should not have failed a Command or SQ/TQ upgrading course within the last 12 months.

(4) An individual who has received a Deferred Pass on Command Course may be promoted to AHR subject to manpower restraints.

(5) In the case of promotion to Acting (Paid) WO1 RM, an individual must have already passed the WO1 RM Selection Board.

(6) In the case of promotion to Acting (Paid) WO2, individuals must have been selected for promotion to WO2 RM.

e. If no suitable command trained other rank is available to fill a position, COs may consider someone who has a place booked on a Command Course scheduled to start within the following 12 months. Any such decision must mitigate the duty of care implications of employing an Other Rank in the next higher rank who has not completed all prerequisite training, both on behalf of the individual and those whom they will lead. The award of the acting rank should be reviewed at the 12 month point to ensure that the individual is performing well in the temporary vacancy. If the latter does not apply or the individual has failed to successfully complete the respective command course, unless under exceptional circumstances, they should be reverted to their substantive rank and consideration should be given to awarding the acting rank to another individual, preferably one who has completed the relevant Command Course.
Reporting the award of the acting rank (and any change of individual at the twelve-month review) should be made in accordance with details at Para 9129 sub para f. Exceptionally a suitable Other Rank who has not been selected for promotion may be promoted to local acting rank, in which case it is to be reviewed at the six-month point.

f. **Authority for Administrative Promotion.** Where there is a gapped liability driven position, COs are to seek authority for AHR from RM PROMS.

g. **Circumstances for Reversion.** Reversions from acting or local acting rank are to be effected as follows. An Acting or Local Acting NCO is to be reverted to their substantive rank when:

1. The vacancy which resulted in their administrative promotion ceases to exist.
2. They are reassigned from the ship or unit.
3. They go on a course within the unit, or elsewhere, involving an absence of more than 35 days from the duties for which the acting or local acting rank was granted.
4. They are absent from duty through sickness or leave for longer than 28 days.

h. Consideration should be given to reversion when an individual:

1. Fails to achieve a recommendation for promotion 1 Rank Up (EXCP, HIGH or YES grade) on their SJAR.
2. Rejects selection for a command or PSQ/PTQ/Spec upgrading course, unless for compelling reasons (ie. legitimate welfare or medical etc).

i. **Disciplinary.** The discipline procedure is set out in Chapter 70.

j. **Award and Removal Action.** The JPA Award and Removal of Acting and Local Acting rank is to be taken by PCAP(RM) following confirmation from the Unit.

**9130. Promotion to Local (Unpaid) Rank (Cpl and CSgt only)**

a. **Local Rank is Authorised by the RM PROMS.** Promotion to Local rank, which carries no entitlement to pay, allowances or pension rights, may be given in the following circumstances, and must be reviewed by PCAP(RM) at the six-month point:

1. Where it is desired to exceed, temporarily, the authorised complement for such purposes as special operations and training, subject to manpower constraints.
Where it is necessary for attendance on courses or duties with other Services.

Where it is necessary for prestige purposes, or to enable an NCO to carry out their duties more effectively, subject to manpower constraints.

The individual must not have failed a Command or PSQ/PTQ upgrading course within the last 12 months.

b. An NCO/OR who has been awarded the Local rank may be entitled to SUPA in accordance with JSP754.

c. **Local WO1.** Promotion to local WO1 will not be granted unless the applicant has passed the WO1 RM Selection Board. Those ranks not employed in an OR9 liability driven position on completion of the WO1 RM Course will be reverted to their substantive rank.

d. **Local WO2.** Promotion to local WO2 will not be granted unless the applicant has been selected at PSB.

e. **Award and Removal Action.** The JPA Award and Removal of Local rank is to be taken by PCAP(RM) following confirmation from the Unit.

f. **Relinquishment.** The relinquishment procedure is set out in Chapter 70.

### 9131. Swimmer Canoeist Senior Command Course Attendance Swimmer

Swimmer Canoeists (SCs) are required to attend only Weeks 1-5 of the Senior Command Course (SCC). SCs will be assessed in the following areas.

a. **Instructional Technique**

   1. 30 Minute Lecture.
   2. Point Brief.
   3. Instructional Assessment.

b. **Individual Skills**

   1. Military Knowledge Test 1.
   2. Physical Ability.
   3. Training Programme (Design).
   4. Administration Assessment.
c. **Command and Leadership**

(1) Troop Commander’s Appointment.

(2) Troop Sergeant’s Appointment.

SCs will conduct their Troop Sergeant’s Appointment during the Hasty Attack Package and their Troop Commander’s Appointment during Ex FIRST SHOT. If a SC fails either of their Command and Leadership assessments, they will be required to remain with the course until Week 9 in order to be re-assessed during Ex FINAL COMMAND. In the unlikely event of continued failure, the policy at para 9123 will apply.

d. **End Of Course Report.** SCs will receive an amended course report which will include details of only the assessments they have completed. The report will grade an individual against their peer group over the last 12 months.

e. **End Of Course Prizes.** SCs will not compete for any of the following prizes: Chosin Trophy, Helmand Prize, Commandant’s Prize.

f. **Exceptions.** This policy applies only to SCs. Special Forces Communicators and members of the Maritime Manoeuvre Group will continue to complete the full SCC.

9132. **UK Joint Special Forces Selection – Assignment Process for RN/RM Candidates**

a. From 29 Jun 19, RN/RM candidates are only to be assigned to Special Forces Training Command (SFTC) from the post-aptitude phase of Selection. From the start of the course until completion of the aptitude phase, candidates are to be ‘Move and Tracked’ only (ie. not permanently assigned) by their parent unit.

b. Should a RN/RM candidate withdraw or RFC from Selection during the aptitude phase then their Assignment Order to SFTC is to be cancelled. In most cases, ranks will be returned to their parent Unit unless directed otherwise by ACOS (PCap).

c. UPOs are to conduct the necessary ‘Move and Track’ action to grant candidates the correct allowances on selection for SF training. Joining Instructions for UK Joint Special Forces Selection will include the dates and allowances for the Move and Track period and subsequent assignment RDD. Candidates must submit this information to their respective UPO before attending the course.

d. ACOS(PCap) should consider the impact on candidates returning from course in line with Personnel Functional Standards before making their next assignment.
ANNEX 91A

WO1 SELECTION PROCEDURES

1. Introduction
   The selection for promotion to WO1 RM will consist of a common Promotion Selection
   Board (PSB) procedure to be administered by RM PROMS.

2. Selection Board Format
   The common WO1 PSB is based on four steps, as follows:

   a. **Step 1 - Career Reports Assessment.** A pre-selection process involving the
      scrutiny of all candidates’ reports; this will narrow the field of candidates to no more
      than 3 candidates for each appointment in all bar the most exceptional of
      circumstances. Those selected during Step 1 will be called forward by email for Steps
      2 and 3.

   b. **Step 2 - Academic Assessment.** This is an in-unit assessment conducted
      under exam conditions. RM PROMS will co-ordinate between Unit Adjutants, Unit
      Education Officers and the Corps Tutor who will set and mark the assessment. The
      content is as follows:
      
      (1) A current affairs essay on a topic not previously notified.
      
      (2) Additionally, and to be completed in candidates’ own time:
          
          (a) A 1,500 word Specialisation set essay.
          
          (b) A Personal Questionnaire (Q101) for all candidates.

   c. **Step 3 - One Day Personal Assessment.** The One Day Personal Assessment
      involves a Planning Exercise Assessment and an Interview Assessment. On
      completion of the Personal Assessment, candidates are divided into various pools and
      informed of whether their names will be forwarded to Step 4. The pools are graded as
      follows:
      
      (1) Unsuitable WO1 RM – Names not forwarded to Step 4.
      
      (2) Suitable WO1(Specialisation Adviser/Any/RMBS).

   d. **Step 4 - Final Selection Board (FSB).** The FSB completes the selection
      process and comprises the same Officers as for Step 3. It is conducted after all the
      One Day Personal Assessments. Candidates are given the opportunity to return to
      hear directly from the FSB whether or not they have been successful. A consolidated
      Selection Notification (SN) of those selected will be published to inform the wider
      audience. The SN will place those not selected for WO1 RM as reserves in order of
      merit and some will be liable to conduct training alongside the selected candidates.
      Reserves, if not selected, must re-attend the PSB if they aspire to be substantive WO1
      RM.
3. **SBS(WO1) Selection**

Successful candidates will not be appointed through the FSB, they will be pooled and promoted and appointed to the requirements of DSF based on the future appointment recommendations of the FSB. The CO SBS or their representative will be one of the voting members of the WO1 SBS Selection Board.
APPENDIX 1 TO ANNEX 91A

WO1 PRELIMINARY SELECTION BOARD INSTRUCTIONS

1. These instructions relate to RM Preliminary Selection Boards (Pre-PSB) for promotion to WO1 RM.

2. The WO1 RM Pre-PSB is to select ranks for further consideration by the WO1 RM Promotion Selection Board (PSB) in an objective, impartial and diligent manner in order to meet the Requirement.

3. Eligibility for promotion to WO1 RM is detailed at Para 9108.

4. Promotion Requirement (PR)
   The Pre-PSB should not feel obliged to select candidates for call-forward to the PSB if there are insufficient candidates of the required quality. When assessing candidates, and to facilitate the smooth running of the process and not generate unrealistic expectations, Board Members should aim to forward 2-3 times the PR of candidates for consideration by the PSB.

5. Merit Based Selection
   Candidates will be selected on merit, therefore, Pre-PSB Members’ assessment of merit should be based upon their reading of all the papers in the individual’s Promotion Dossier. The Definition of Merit is at Para 6508.

6. Candidate Grading
   a. Board Members are required to grade candidates on merit against their peers (ie. the other candidates). Where a candidate is the most suitable on paper, they are given a score of 1, the second a score of 2 etc. The average score between Board Members will provide an Order of Merit (OOM), from which candidates will be selected to go forward to the PSB.
   
   b. In considering how to grade Warrant Officers, the following observations may be helpful:
      
      (1) Junior Warrant Officers will have had limited opportunity to build up a track record which demonstrates, unequivocally, their full potential and suitability for promotion to the higher ranks. If that Warrant Officer has demonstrated outstanding promise in the relatively short time they have been a WO2, however, they should be graded accordingly.
      
      (2) More senior Warrant Officers should have a wealth of broad experience by virtue of their age. As the best of their contemporaries will have been promoted already, however, it is unlikely that they will be truly outstanding. Nonetheless, such Warrant Officers can still merit promotion, as their attributes may better equip them than a less experienced candidate for a variety of jobs, or they meet the requirement in a narrower field where deep specialist skills are important.
7. Candidates are to be considered for promotion on the basis of their whole record. Therefore, the Preliminary Selection Board is not bound to accept the recommendation of a current Reporting Officer. If a candidate receives a recommendation identifying unsuitability for promotion, the reason should be stated in the report. Nevertheless, the Board may choose to select a Warrant Officer if they feel that other considerations outweigh the recommendation to defer promotion, or if they disagree with the reason given for deferment. If the recommendation is Insufficient Knowledge (IK), the Board should base its judgement on earlier reports; in this way, no Warrant Officer will be unfairly treated due to discontinuity of reporting.

8. **Supporting Documentation**
   The Promotion Dossier is a pack of Periodic, Special and other relevant authorised reports/letters written on the Warrant Officer that is collated and prepared by the RM PROMs staff. The Warrant Officer's CV, a standard print taken from JPA, is contained within the Promotion Dossier to provide Board Members with an overall picture of the candidate.

9. **The Preliminary Selection Board will consist of:**

<table>
<thead>
<tr>
<th>President</th>
<th>RM OF 5</th>
<th>To be invited by RM PROMs WO</th>
</tr>
</thead>
<tbody>
<tr>
<td>Member 1</td>
<td>RM OF 4</td>
<td>CDO</td>
</tr>
<tr>
<td>Member 2</td>
<td>RM OF 4</td>
<td>To be invited by RM PROMs WO</td>
</tr>
<tr>
<td>Secretary</td>
<td>RM WO1</td>
<td>WO1 RM PROMs</td>
</tr>
<tr>
<td>Advisers</td>
<td>RM OF/OR9</td>
<td>Corps RSM/Specialist Officers as necessary</td>
</tr>
</tbody>
</table>

10. The Preliminary Selection Board involves the following activity:

   a. The Board will consider any specific matter raised, such as the Terms of Reference for a particular Specialisation Adviser’s position, the Promotion Requirement and the number of candidates etc.

   b. Board Members are to declare personal knowledge of candidates.

   c. RM PROMS will conduct a time estimate and brief the Board Members on the amount of time available for the consideration of each candidate.

   d. Board Members read the Promotion Dossiers of all Warrant Officers nominated as candidates by their COs, in isolation and without discussion.

   e. Board Members assess the merit of all eligible candidates and grade them in accordance with where they consider the candidate to be on the OOM (1 – the best candidate, 2 – the second best etc). Board Members should be prepared to justify their grades and should appreciate that it is essential to identify, and then maintain, a consistent scoring standard.

   f. Once in session, the Board reviews the overall OOM generated by individual Members’ votes. Where large discrepancies appear between Members’ scores, Promotion Dossiers will be re-circulated until consensus is achieved.
The Board agrees the list of Candidates to be called forward to the PSB. Unless the most exceptional of circumstances prevail, this is to be no more than three times the Promotion Requirement.

On completion of the Pre-PSB, RM PROMs will prepare a closing statement to be signed by the Board President. This document will contain details of all the Warrant Officers considered by the Pre-PSB, their position within the OOM and the decision of the Board regarding which candidates have been nominated to be called forward to the PSB. All other records including the votes cast by individual Pre-PSB members will be destroyed by RM PROMS, in accordance with the General Data Protection Regulations (GDPR).
1. The Promotion Selection Board (PSB) will assess candidates in accordance with the procedures at Annex 91A. The PSB members are to be as follows:

<table>
<thead>
<tr>
<th>Role</th>
<th>Rank</th>
<th>To be invited by</th>
</tr>
</thead>
<tbody>
<tr>
<td>President</td>
<td>RM OF5</td>
<td>To be invited by RM PROMs WO</td>
</tr>
<tr>
<td>Member 1</td>
<td>RM OF4</td>
<td>CDO</td>
</tr>
<tr>
<td>Member 2</td>
<td>RM OF4</td>
<td>To be invited by RM PROMs WO</td>
</tr>
<tr>
<td>Secretary</td>
<td>RM OR9</td>
<td>RM PROMS WO1</td>
</tr>
<tr>
<td>Advisers</td>
<td>RM OR9</td>
<td>Corps RSM</td>
</tr>
</tbody>
</table>

2. The PSB will assess candidates against the following criteria:
   b. Future potential.
   c. Experience.
   d. Adaptability and Initiative.
   e. Awareness and Understanding.
   f. Breadth of Perspective.
   g. Communication and Influence.
   h. Delivering Results.
   i. Leadership.
   j. Physical and Mental Resilience.
   k. Problem Solving and Decision Making.
   l. Teamwork and Collaboration.
   m. Values and Standards.

3. Candidates assessed as suitable for WO1 RM by the PSB will be forwarded to the FSB in accordance with the procedure detailed at Annex 91A.
ANNEX 91B

MERIT BASED PROMOTION

1. MBP Promotion Selection Board Documentation
   PSBs will be provided with the following documentation:

   a. A complete set of Promotion Dossiers for all ranks under consideration.

   b. Consideration lists.

   c. The Requirement by rank and PSQ.

   d. A copy of the instructions to PSB members.
APPENDIX 1 TO ANNEX 91B

POST PSB ACTION

1. The Selection Notification (SN) will be released electronically soon after the completion of the last PSB.

2. This Notification will initiate liaison between RM PROMS and the Spec Advs. Following the issuing of the SN, the Spec Advs/Units are to liaise directly with RM PROMS, in order to co-ordinate Command Course loading and PCAP(RM) for SQ/TQ course loading and reassignment of the individual. This co-ordination is to de-conflict (where possible, and secondary to the exigencies of the Service) the following factors:
   a. Command course availability.
   b. PSQ course availability.
   c. The preferences of, or any constraints (eg. welfare) upon, the individual.
   d. Onward assignment following course completion.

3. The Course Loading Notification (CLN) will be issued by RM PROMS, and will indicate which Command Course each nominated rank is to attend.

4. Once all ranks nominated for promotion have been allocated places on Command and PSQ courses (subject to the Requirement), each individual will receive an Assignment Order, issued by PCAP(RM), which will contain the following information:
   a. The rank’s CPD.
   b. Command Course.
   c. PSQ Course.
   d. Onward assignment/New Appointment (where confirmed).
   e. Authority for Acting Rank (where applicable, authorised by RM PROMS).
APPENDIX 2 TO ANNEX 91B

SPECIALISATION ADVISERS - TASKS AND RESPONSIBILITIES

1. The Spec Advs tasks and responsibilities are detailed below. The provision of accurate information, advice and assistance from the Spec Advs is critical to the success of Merit Based Promotion (MBP). Spec Advs provide intra-specialisation man-management.

2. Under the remit of MBP, Spec Advs are to:

   a. Provide accurate termly ‘State of the Specialisation’ reports to the RM BM and PCAP(RM), which are central to the formulation of an accurate Requirement and assist the effective management of the Specialisation.

   b. Be prepared to offer the specialist advice to the Promotions Office and the Promotion Selection Boards (PSBs).

   c. Liaise, following the publication of the Selection Notification Signal (SNS), and taking account of RM Programming, between the following parties:

      (1) CTCRM and other course agencies.

      (2) The individual.

      (3) RM PROMS and PCAP(RM).

   d. Provide RM PROMS with a list of course preferences, by rank, of the entire PSQ.

3. Specialisation Advisers are to ensure:

   a. An individual’s preferences (secondary to the exigencies of the Service).

   b. Any constraints (eg. anticipated welfare situations, such as childbirth) are taken into consideration when allocating course and onward drafts. Furthermore, Specialisation Advisers are to counsel each individual nominated in the SNS on the implications of refusing a Command Course.

4. It is intended that this liaison and de-confliction will have the following benefits:

   a. Maximise an individual’s warning and preparation time between notification by the SNS and Day 1 of the Command Course (approximately three months before Command Course 1/0X) and potentially up to 13 months (Command Course 4/0X).

   b. Optimise an individual’s opportunity to prepare for a Command Course and therefore maximise the number of ranks passing Command training, thus reducing the NCO under-bearing at the optimum rate possible.

   c. Reduce domestic turbulence and ‘churn’.

   d. Permit increased drafting flexibility.
5. This mission and these tasks are to be included in Specialisation Advisers’ TORs.

6. For the duration of the Boarding process DACOS(Proms) will have priority regarding the employment of the Specialisation Advisers.
# ANNEX 91C

## RM OTHER RANKS (GENERAL SERVICE) AND SPECIAL FORCES – CAREER PROGRESSION PATH

### New Entry

1. Complete recruit training.

2. One to two years from end of recruit training, or on completion of SSQ Training, whichever is the earlier: attain CLM Module A qualification (see Note 1, and Note 4 (MAB6 PSQ)).

3. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics and recorded on JPA with the appropriate competence. To be educationally qualified for promotion (EFP) in accordance with Para 9636 and the appropriate competences recorded on JPA.

<table>
<thead>
<tr>
<th>Candidate for Promotion to Corporal</th>
</tr>

</table>
Corporal to Sergeant

1. Recommended ‘Yes’ or higher for promotion 1 Rank Up on SJAR.

2. Must have a valid RM Fitness Test (RMFT) or RMFT(P) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(P) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. To be EFP in accordance with Para 9636. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

4. Selected for promotion at PSB.

5. Nominated to attend SCC or CLM Module C.

6. Pass SCC or CLM MOD C (see Note 3).

7. Qualified PSQ1 (see Note 4).

8. Medically fit for promotion at CPD.

9. Promotion Confirmation Notification issued by RM PROMS.

10. Unit HR confirms ranks eligibility and submits a Promotion Authority Request (PAR).

11. Substantive promotion endorsed and actioned on JPA by RM PROMS.

Sergeant to Colour Sergeant

1. Recommended ‘Yes’ or higher for promotion 1 Rank Up on SJAR.

2. Must have a valid RM Fitness Test (RMFT) or RMFT(P) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(P) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. Qualified PSQ1.

4. Selected for promotion by PSB.

5. Medically fit for promotion at CPD.

6. Promotion Confirmation Notification issued by RM PROMS.

7. Unit HR confirms ranks eligibility and submits a Promotion Authority Request (PAR).

8. Substantive promotion endorsed and actioned on JPA by RM PROMS.
Colour Sergeant to Warrant Officer 2nd Class

1. Recommended ‘Yes’ or higher for promotion 1 Rank Up on SJAR.

2. Must have a valid RM Fitness Test (RMFT) or RMFT(P) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(P) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. To be EFP in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

4. Selected for promotion by PSB.

5. Nominated to attend Advanced Command Course (ACC).

6. Pass ACC.

7. Medically fit for promotion at CPD.

8. Promotion Confirmation Notification issued by RM PROMS.

9. Unit HR confirms ranks eligibility and submits a Promotion Authority Request (PAR).

10. Substantive promotion endorsed and actioned on JPA by RM PROMS.

Warrant Officer 2nd Class to Warrant Officer 1st Class

1. Promotion to Warrant Officer 1st Class is by personal interview and Selection Board.

2. Recommended ‘Yes’ or higher for promotion 1 Rank Up on SJAR.

3. Must have a valid RM Fitness Test (RMFT) or RMFT(P) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(P) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

4. To be EFP in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

5. Selection for promotion at WO1 RM PSB.

6. Nominated to attend WO1 RM Course.

7. Medically fit for promotion at CPD.

8. Promotion Confirmation Notification issued by RM PROMS.

9. Unit HR confirms ranks eligibility and submits a Promotion Authority Request (PAR).
10. Substantive promotion endorsed and actioned on JPA by RM PROMS.

**Warrant Officer 1st Class**

**Notes:**

1. Reduced period for recruits awarded King’s Badge, Prince’s Badge and Section Diamond in Training.

2. Spare.

3. GD Ranks must complete RMSAA before promotion to Cpl.

4. Candidates attending Junior Command Course (JCC) or Command Leadership Module B (CLM B) must hold the minimum rank of Lance Corporal (LCpl). On successful completion of the course ranks are to retain LCpl rank.

5. The Career Progression Path for MAB6 ranks is contained in their Handbook. The three key points are as follows:

   a. All ranks on joining MAB6 revert to Mne rank.

   b. MAB6 ranks are required to pass JCC, SCC and ACC for promotion to Cpl, Sgt and WO2 respectively in accordance with the RM GS rules. Given the routine transfer of Army and RM Mne ranks between MAB6 and MAB2, involving a change of Service, the Army Command Courses (Junior and Senior Brecon) will be considered as equivalent to JCC/SCC.

   c. Shadow Rank Assessment Board (SRAB). Badged MAB ranks (either 6 or 2) are only entitled to MAB Pension and Terminal Benefits on becoming Permanent Cadre (PC) at 6 years’ MAB service. If a rank dies or leaves the service for medical reasons prior to achieving PC, their terminal benefits will be based on assessed Shadow rank, which is that rank could have been expected had they remained in their previous PSQ. The RM Branch Manager can advise on the SRAB procedures.
ANNEX 91D

RM OTHER RANKS (BAND SERVICE) – CAREER PROGRESSION PATH

New Entry Musician/Bugler (Musn/Bug)

1. Complete 15-week basic training package.

2. Musns complete 2 yrs 8 months musical training, Bugs complete 1 yr 8 months musical training.

3. Complete all training, achieve M2 SQ (Musn), B2 SQ (Bugs) normally after 12 months after completion of training following a recommendation from Director of Music (DoM).

4. Commence receiving annual Appraisal Reports (SJARs).

5. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics and recorded on JPA with the appropriate competence. To be educationally qualified for promotion (EFP) in accordance with Para 9636 and the appropriate competences recorded on JPA.

6. Nominated to attend CLM Module A.

7. Attain CLM Module A.

Candidate for Promotion to Corporal

1. Recommended 'Yes' or higher for promotion 1 Rank Up in annual SJAR.

2. Must have a valid RM Fitness Test (RMFT) or RMFT(P) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(P) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).

3. To be EFP in accordance with Para 9636. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

4. Selected for promotion at PSB.

5. Nominated to attend JCC(B) or CLM Module B (see Note 1).

6. Promoted to Lance Corporal to attend JCC(B) or CLM Module B qualification.

7. Pass JCC(B) or CLM MOD B.
8. Qualified M1/B1 (see Note 2).

9. Medically fit for promotion at CPD.

10. Promotion Confirmation Notification issued by RM PROMS.

11. Unit HR confirms ranks eligibility and submits a Promotion Authority Request (PAR).

12. Substantive promotion endorsed and actioned on JPA by RM PROMS.

**Colour Sergeant to Warrant Officer 2nd Class**

1. Recommended ‘Yes’ or higher for promotion 1 Rank Up on SJAR.
2. Must have a valid RM Fitness Test (RMFT) or RMFT(P) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(P) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).
3. To be EFP in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.
4. Selected for promotion by PSB.
5. CSgt Bug nominated to attend Advanced Command Course (ACC).
6. Pass ACC.
7. BdCSgt nominated to attend WO Bandmasters’ Course (BMC).
8. Pass BMC.
9. Medically fit for promotion at CPD.
10. Promotion Confirmation Notification issued by RM PROMS.
11. Unit HR confirms ranks eligibility and submits a Promotion Authority Request (PAR).
12. Substantive promotion endorsed and actioned on JPA by RM PROMS.

**Warrant Officer 2nd Class to Warrant Officer 1st Class**

1. Promotion to Warrant Officer 1st Class is by personal interview and Selection Board.
2. Recommended ‘Yes’ or higher for promotion 1 Rank Up on SJAR.
3. Must have a valid RM Fitness Test (RMFT) or RMFT(P) pass (recorded on JPA) or hold an approved permanent medical RMFT or RMFT(P) exemption (recorded on JPA) at the Common Reporting Date (CRD) and Common Promotion Date (CPD).
4. To be EFP in accordance with Para 9636. Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

5. Selection for promotion at WO1 RM PSB.

6. Nominated to attend WO1 RM Course.

7. Medically fit for promotion at CPD.

8. Promotion Confirmation Notification issued by RM PROMS.

9. Unit HR confirms ranks eligibility and submits a Promotion Authority Request (PAR).

10. Substantive promotion endorsed and actioned on JPA by RM PROMS.

Warrant Officer 1st Class

Notes:

1. In exceptional circumstances, candidates not yet selected for promotion can be loaded onto command courses or M1/B1 courses at the discretion of Headquarters Band Service.

2. Ranks failing command training will be loaded onto the next available course if all MBP criteria are met. Ranks failing M1/B1 SQ course return to Royal Marines School of Music (RMSoM) to retake course elements as directed by RMSoM.

3. No command/SQ training is required for promotion to BdCSgt/CSgt Bug.

4. ACOS(PCap) authorises accelerated promotion on PSB in order to avoid possible shortages of SNCOs qualified to WO2. BdSgts will be divided into Bandmaster and Non-Bandmaster qualified promotion pools to ensure pull-through to WO2 Bandmaster.
ANNEX 91E

ROYAL MARINES MODIFIED COMMAND COURSE TRAINING

1. Introduction

a. The Naval Service Medical Board of Survey (NSMBOS) and Unit Medical Officers seek to place both fully fit and unfit personnel into appropriate medical categories. The Board considers both new and review cases with the aim of declaring ranks fully fit (MFD – Medically Fully Deployable) or placing them in a medical category which seeks to safeguard them from the full rigors of Royal Marines’ service life either temporarily or permanently.

b. An important part of the NSMBOS process, which relates solely to RM ranks, is an individual’s general suitability to attend RM command course (CC) training, which is physically and mentally demanding. However there remains the opportunity for medically downgraded ranks to attend modified command courses in order to allow career progression and assist RM manning. Consideration should therefore be given to a rank’s sustainability if attending the course medically downgraded.

2. Aim

The aim of this Annex is to detail precisely what individuals are required to physically achieve on the regular and modified Junior Command Course (JCC), Senior Command Course (SCC), and Advanced Command Course (ACC), in order that NSMBOS members and Unit MOs can make a considered decision on a rank’s suitability to attend the appropriate CC training.

3. Physical Requirements to Attend RM CC Training

a. CC training is not specifically designed to be a test of physical ability. However, the training and assessments place practical leadership tasks in a simulated operational environment. Consequently, both JCC and SCC, and to a lesser extent the ACC, contain serials that are both mentally challenging and physically demanding. Furthermore, busy course programmes afford very little time for recovery. Ranks nominated for CC training must be physically and mentally robust; they must not be allowed to commence training with an injury or illness that is likely to preclude them from successfully completing set criteria of the course.

b. During various phases of CC training, individuals will be expected to load carry different equipment orders. The following is a guide for those not familiar with the various configurations:

   (1) **CEFO (Combat Equipment Fighting Order).** 20-30lb of equipment with 11lb rifle.

   (2) **Patrol Order.** As above, but including day sack, 50-60lb of equipment and 11lb rifle.
(3) **Marching Order.** As above, but including Full Bergen, 75lb of equipment and 11lb rifle.

In all cases the rifle may be substituted or supplemented with another weapon system (GPMG, LSW, LAW etc).

4. **Fully Fit (MFD)**

MFD ranks must be able to carry out the following:

a. **RM Fitness Test (RMFT):**

   (1) **Loaded March Part 1.** A 4km formed body march carrying webbing, Bergen (26kgs) or Bergen/Daysack (15kgs + 11kgs) and rifle in a maximum of 45 mins (total weight 40.5kgs (89lbs)).

   (2) **Loaded March Part 2.** A 4km best effort carrying webbing, day sack and rifle in 35 mins (25.5 kgs (56lbs)).

   (3) **Casualty Drag.** A drag of a 110kg casualty across 20m wearing helmet, CBA/Virtus, webbing and rifle in 35 seconds (total weight 20.6kgs (45.5lbs)).

   (4) **Casevac Carry.** A carry of 2 x 22kg water jerrycans across 240m wearing helmet, CBA/Virtus, webbing and rifle in a maximum of 4 minutes (total weight 20.6kgs (45.5lbs)).

   (5) **Repeated Lift and Carry.** A lift and carry of 20 x 20 kg power bags (reps) over 600m of a 1,200m course wearing helmet, CBA/Virtus, webbing and rifle in a maximum of 14 minutes (total weight 20.6kgs (45.5lbs)).

b. **RM Fitness Test (Predicted) (RMFT(P)).** Wearing PT kit and training shoes.

   (1) Level 9 (shuttle 7) Multi-Stage Fitness Test (MSFT) (bleep test).

   (2) 5 x over grasp pull-ups (Conducted to bleep).

   (3) 50 x sit-ups (Conducted to bleep).

   (4) 40 x press-ups (Conducted to bleep).

c. **Troop Attacks.** JCC candidates must be capable of conducting a minimum of 3 days section/troop attacks over rough terrain carrying CEFO and weapon. SCC candidates must be capable of conducting up to 10 days of troop attacks over rough terrain carrying CEFO and weapon. JCC and SCC only.

d. **Field Exercises.** Two Field Exercises of between 5 and 10 days duration by day and night, in arduous conditions, occasionally carrying Marching Order for up to 13km, often in inclement weather and under conditions of fatigue and stress. JCC and SCC only.
e. **NAVEX.** Night navigation exercises, up to 11km across rough ground, at night, with CEFO and rifle at 3km per hour. JCC and SCC only.

f. **OBUA.** A week long Operations in Built Up Area (OBUA) Training Exercise, including entering and exiting buildings via window frames and necessitating jumping onto concrete. JCC only.

5. **Permanently Medically Downgraded MLD and MND (Medically Limited/Not Deployable)**

a. Downgraded individuals who can meet the minimum requirements will be considered on an individual basis depending upon the nature of their injury. Their treatment in principle will be no different from those who are injured during the course. There is the opportunity for permanently medically downgraded ranks to undertake a modified JCC (Mod JCC) or modified SCC (Mod SCC) in order to allow them to progress. If any rank appearing before the NSMBOS is unable to complete any of the above physical tests as a result of a medical condition then, for their own protection, they must be medically downgraded, either for a review period or permanently. Additionally, should an individual present themselves at NSMBOS and the Board considers that, whilst able to complete the criteria tests, completing a course of this nature may exacerbate the individual’s known medical conditions, consideration must be given on suitability to attend a modified course. Downgrading does not necessarily preclude the rank; they may be able to undertake CC training within the guidelines below. Based on a RM Commando’s primary role, a rank attending Mod JCC or Mod SCC must be able to carry out the following:

(1) **Section/Troop Attacks.** Section/troop attacks over rough terrain carrying CEFO and rifle. Typically the training area for JCC and SCC is Woodbury Common, Dartmoor, Caerwent or Sennybridge. The terrain, whilst not extreme, can vary considerably from easy going, clearly defined tracks to deeply rutted, steep ground covered in gorse and/or rocks. Therefore a rank carrying out a section or troop attack (day or night) is usually working hard physically and doing so across ground which they may or may not be able to see where they are placing their feet. During the attacks the rank will be required to carry out a wide range of physical activities, which may include walking, crawling, throwing grenades and sprinting. A medically downgraded rank will only be required to lead up to 3 Section/Troop Attacks per exercise. They will not necessarily be required to act in a support role for all the remaining section/troop attacks where other JCC/SCC ranks are in command, but should expect to participate in some prior to their own assessment in command to maximise their chance of success.
(2) **Field Exercises.** A 5-10 day field exercise by day and night, in arduous conditions, occasionally carrying for short distances up to 60lbs of additional stores and, routinely during the exercise, carrying Patrol Order and weapon for up to 13km, often in inclement weather and under conditions of fatigue and stress. The terrain will be almost identical to Para 5a sub para (1) above. The speed of movement will generally be a great deal slower due to the weight of equipment being carried and the tactical nature of the task. A medically downgraded rank will not be required to carry his Bergen during any yomping phases (it will be moved around the training area for them). However, they must be capable of carrying Patrol Order as described above and must be capable of moving their Bergen short distances.

(3) **NAVEX.** Night Navigation Exercises – up to 11km across rough ground, at night, carrying CEFO and rifle at 3km per hour. Medically downgraded ranks must participate fully.

b. If any rank appearing before NSMBOS is unable to complete any of the above physical tests as a result of a medical condition then for their own protection they must be declared UNFIT Mod JCC and Mod SCC.

c. There are a number of additional points to consider:

(1) If a rank is to attend CC training he must be capable of lifting and carrying weight as described in Para 3.b sub para (1) – sub para (3). If a rank cannot carry or lift weight then they must be declared UNFIT Mod JCC or SCC. Medically downgraded ranks are expected to carry CEFO and weapons, negative Bergen as a concession where appropriate. In applying medical criteria to the requirements of CC training a robust stance must be adopted, as inappropriate attendance is both a disadvantage to the course and the individual.

(2) It is appreciated that some medical conditions permit lower intensity physical activity than others and for this reason some ranks are deemed physically able to attend Mod JCC and Mod SCC. The requirement for Mod JCC and Mod SCC ranks to be able to complete physical tests in accordance with Para 5 is to be the minimum standard and will serve to protect all parties.

6. **Relevant Medical Categories**
An individual may be medically downgraded and awarded one of 2 medical categories, which would allow him to remain in service:

a. **MND.** Any rank given the MEDCAT MND (non-deployable) should automatically be declared UNFIT Mod JCC/SCC. In this instance a rank will only be able to attend CC training once he has been re-boarded by NSMBOS and been placed into a higher medical category (MLD or MFD).

b. **MLD.** Ranks given a MLD MEDCAT (deployable with certain restrictions) remain eligible to attend Mod JCC/SCC. The F/Med 23 will be annotated accordingly to reflect this stating what physical limitations are to apply.
c. A rank may be made MLD and made UNFIT Mod JCC/SCC. In this instance and where ranks wish to be reconsidered, they can either be reviewed at NSMBOS after a period of time or remain at the rank they hold at the time they are medically downgraded. Service needs and requirements will subsequently determine whether or not it wishes to employ that downgraded rank. The significance of not being declared fit for CC training must be briefed prior to the rank expressing their opinion of whether they wish to be retained or invalided, ie. prior to completion of NSMBOS forms.

7. Course Reports
   Ranks attending Mod JCC or Mod SCC are to have mention of this fact in their end of course reports, eg ‘LCpl X has successfully passed the modified JCC’.

8. Guidance Notes
   Unit Medical Staff, Medical Officers and Coy Comds (DOs) are to complete their respective sections of the Certificate at Appendix 1 to Annex 91E. This will devolve responsibility for assessing medical suitability to the unit MO, whilst the Coy Comd will be responsible for the non-medical aspects such as motivation, attitude and commitment.
GUIDANCE NOTES FOR MEDICAL STAFF, MEDICAL OFFICERS, COMPANY COMMANDERS AND DIVISIONAL OFFICERS WHEN CONSIDERING FITNESS FOR COMMAND TRAINING

1. Introduction
These notes provide guidance for Medical Staff, Medical Officers (MO), Company Commanders (Coy Comd) and/or Divisional Officers (DO) when considering the medical fitness and general suitability of an individual nominated to attend a command training course. The Weapon Handling Tests and Essential ITD Tests sheet signed off by a Unit before release to Command Courses is issued by CTCRM as part of the Joining Instructions as is not part of this Annex.

2. Certificate of Fitness
The Certificate of Fitness for Command Training is at Appendix 2. This is to be completed by the Unit Medical staff (or the Unit MO for Permanently downgraded individuals) and the rank’s Coy Comd (or DO) for all nominees and reserves selected to attend Command Course training once the selection notification signal has been announced by RM Promotions Section (RM PROMS). The signed and dated Certificate is then to be returned direct to the NAVY PCAP-PROM RM E1, Room 179, Victory Building, HM Naval Base, Portsmouth PO1 3LS, in accordance with the timings detailed in the signal. The individual is to hand a copy to the relevant Chief Instructor on arrival at CTCRM.

3. Aim of the Certificate
The aim of the Certificate is to confirm an individual’s medical and physical fitness and general preparedness at the time they are selected for the course, in order to prevent under use of training capacity.

   a. Part 1: Medical. If the individual is MFD, and in date for PULHHEEMS medical, or temporarily downgraded, the form can be completed by the Unit medical admin staff; there is no longer a requirement for the MO to sign for individuals who fall into these categories. The Unit MO will only see permanently downgraded individuals in order to assess whether there has been any deterioration in their condition.

      (1) MFD or Temporarily Downgraded. Unit Medical admin staff are to complete the relevant section of Part 1, confirming the individual’s PULHHEEMS status from their FMed4 and DMICP. The form should be signed and date stamped. Individuals who are temporarily downgraded MLD/MND are automatically UNFIT for any CC training. Additionally, MFD candidates should sign the self-declaration box indicating that they have no recent injuries that may cause problems on a CC.

      (2) Permanently Downgraded. The Unit MO is to see the rank and confirm that the individual remains fit to attend CC training within the limitations imposed by the NSMBOS. If there has been any deterioration, the individual should be further downgraded, and the form should be annotated; the rank becomes automatically UNFIT in accordance with para 3 a. Sub Para (1).
b. **Part 2: Chain of Command.** The Coy Comd/DO is to certify that the candidate selected by the RM PROMS is considered by the Unit to be ready to attempt the command course with respect to motivation and welfare situations.

4. **Command Course Training**

Command Course training is not specifically designed to be a test of physical prowess. However, for obvious reasons the training and assessment vehicle in most cases is a practical leadership task in a simulated operational environment. Consequently, both the Junior Command Course (JCC) and Senior Command Course (SCC) and to a lesser extent the Advanced Command Course (ACC) contain many training serials that are both mentally challenging and physically demanding. Furthermore, busy course programmes afford very little time for recovery. Ranks nominated for command training must be physically robust and they must not be allowed to commence training with an injury or illness that is likely to preclude them from successfully completing the course. Temporarily medically downgraded individuals are NOT eligible for command training. Furthermore, nominees must be withdrawn if, at the time of selection, they are not medically fit to undertake the following activities:

a. **RM Fitness Test (RMFT):**

(1) **Loaded March Part 1.** A 4km formed body march carrying webbing, Bergen (26kgs) or Bergen/Daysack (15kgs + 11kgs) and rifle in a maximum of 45 mins (total weight 40.5kgs (89lbs)).

(2) **Loaded March Part 2.** A 4km best effort carrying webbing, day sack and rifle in 35 mins (25.5 kgs (56lbs)).

(3) **Casualty Drag.** Drag a 110kg casualty across 20m wearing helmet, CBA/Virtus, webbing and rifle in 35 seconds (total weight 20.6kgs (45.5lbs)).

(4) **Casevac Carry.** To carry 2 x 22kg water jerrycans across 240m wearing helmet, CBA/Virtus, webbing and rifle in a maximum of 4 minutes (total weight 20.6kgs (45.5lbs)).

(5) **Repeated Lift and Carry.** To lift and carry 20 x 20 kg power bags (reps) over 600m of a 1,200m course wearing helmet, CBA/Virtus, webbing and rifle in a maximum of 14 minutes (total weight 20.6kgs (45.5lbs)).

b. **RM Fitness Test (Predicted) (RMFT (P)).** Wearing PT kit and training shoes.

(1) **Level 9 (shuttle 7) Multi-Stage Fitness Test (MSFT) (bleep test).**

(2) **5 x over grasp pull-ups (Conducted to bleep).**

(3) **50 x sit-ups (Conducted to bleep).**

(4) **40x press-ups (Conducted to bleep).**
b. JCC candidates must be capable of conducting a minimum of 3 days section/troop attacks over rough terrain carrying CEFO and weapon. SCC candidates must be capable of conducting up to 10 days of troop attacks over rough terrain carrying CEFO and weapon. A medically downgraded rank will only be required to lead up to 3 section/troop attacks per exercise. They will not necessarily be required to act in a support role for all the remaining section/troop attacks where other JCC/SCC ranks are in command, but should expect to participate in some prior to their own assessment in command to maximise their chance of success.

c. Field Exercises. FE's of between 5-10 days duration by day and night, in arduous conditions, occasionally carrying Marching Order for up to 13km, often in inclement weather and under conditions of fatigue and stress. A medically downgraded rank will not be required to carry their Bergen during any yomping phases (this will be moved around the training area for them). However, the individual must be capable of carrying Patrol Order as described above and must be capable of moving their Bergen short distances.

d. Night Navigation Exercises. Night navigation exercises, up to 11km across rough ground, at night, with CEFO and rifle at 3km per hour. JCC and SCC only.

e. OPIBUA. A week-long Operations in Built Up Area (OBUA) Training Exercise, including entering and exiting buildings via window frames and necessitating jumping onto concrete. JCC only.

5. Further Guidance
Further guidance may be obtained from the following sources:

a. General information on the JCC and SCC: OC Command Wing, CTCRM Ext 4016.

b. Medical advice on fitness for JCC and SCC: PMO, CTCRM Ext 4021.
APPENDIX 2 TO ANNEX 91E

CERTIFICATE OF FITNESS FOR COMMAND TRAINING

Unit:.................................................................

Name:..........................................

Rank:.................................

Number:.........................

SQ:........

Nominated for Cse No ................. JCC/SCC/ACC

This Certificate provides confirmation of an individual’s medical fitness, commitment and general preparedness for command training at the time of his provisional selection and must be completed in ink, firstly by the Unit medical staff (MO for permanent downgraded individuals) then by the rank’s Coy Comd, DO or equivalent. On completion, it is to be returned direct to RM PROMS E1, Room 179, Victory Building, HM Naval Base, Portsmouth PO1 3LS, in accordance with the timings detailed in the Command Course loading signal. A copy must also be taken by the individual to CTCRM and handed to the respective Chief Instructor.

CHAPTER 92
WARFARE BRANCH – PHOTOGRAPHY

9201. General
This Chapter covers the career regulations for General Service Warfare Branch Photographer. Divisional Officers are to ensure that a copy of this Chapter and Annex is placed in the PDR of every member of the Photographer specialisation.

9202. Entry into the Photographer Specialisation
The following criteria must be met for entry into the Photographer specialisation:

a. An AB1 or MNE with at least 12 months’ service since attaining Operational Performance Standard (OPS) at the date of application, a Leading Hand (LH) or Corporal (Cpl).

b. In date for source branch Annual OPS Check.

c. An individual attending the Defence Photographic Selection and interview must have received a positive recommendation of ‘Yes’ or above for LH/Cpl (if AB1, MNE or Lance Cpl) on their current SJAR.

d. Recommended by their Commanding Officer for the Photographer Specialisation.

e. The Photographic Specialist Advisor will make a provisional assessment of the individual’s suitability for photographic training NAVY MEDIACOMMS - PHOT WO1.

f. Have a permanent medical category of MEDCAT MFD A4/L1/M1/E1.

g. Have a colour perception of Grade 2.

h. Educationally qualified for promotion (EFP) to LH in accordance with Para 9636. When applying for manning clearance, must have achieved minimum Level 1 Functional Skills (FS) (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

i. Six months or more since last Career Check (if any).

j. Have at least 3 years to serve on completion of the Defence Photographer Qualifying Course (DPQC).

k. Have manning clearance for transfer.

l. Must hold a full UK driving licence.

m. Photographers may be required to undertake flying duties in the course of their employment.
9203. Application Process
An individual must have passed a Photographer aptitude and interview before manning clearance is authorised. No individual can attend an aptitude without PPLAN approval; the following procedure is to be used:

a. Defence Photographer Selection Clearance. When an individual has been recommended for the Photography specialisation in accordance with Para 9202 a(4) and found suitable for training in accordance with Para 9202 a(5) an application is to be submitted to Navy Command/Commodore Naval Personnel Strategy (CNPS), for the attention of NAVY PERS-PPLAN SWPR WO1 for permission to proceed to Defence Photographic Selection and interview.

b. When permission is granted, the individual's unit is to liaise with NAVY MEDIACOMMS-PHOT WO1 to request a place on a Photography Selection and interview board.

9204. Defence Photographer Selection and Interview
The selection and interview process is held at the Defence School of Photography over a period of 5 days.

a. Conduct of the Selection and Interview. The candidate will be required to demonstrate, to the satisfaction of the Instructor, that they have the qualities and potential required of a Leading Photographer.

b. On completion of the selection and interview, candidates and their Commanding Officer will be informed if they have passed or failed. The Photographic Specialist Advisor will also inform NAVY PERS-PPLAN SWPR WO1 of the results.

c. If successful, a copy of the letter is to be placed in the candidate's Service Documents and is to be retained until the rating is assigned to the Defence School of Photography, or their name is withdrawn.

9205. Post Photographic Selection and Interview Actions

a. Branch Transfer Manning Clearance. Once an individual has passed the Photography aptitude and interview process, manning clearance to change branch/specialisation is to be requested via NAVY PERS-PPLAN SWPR WO1 in accordance with current regulations.

   (1) Manning clearance, if granted, will be valid for 2 years.

   (2) The individual will then be allocated a provisional place on a LH (Phot) PQC.

b. On receipt of an Assignment Order detailing a candidate for Defence Photographer Course, Divisional Officers are to check that the rating meets all the requirements for the Course listed at Para 9202 sub para a. Queries regarding eligibility, which cannot be answered in this Chapter, should be referred to the Branch Manager immediately, particularly if they concern a Career Check, seniority or current recommendation for LH.
9206. **Passing Defence Photographer Qualifying Course (DPQC)**
On successful completion of DPQC the following rules apply:

- a. On being rated LH Photographer, ratings leave their original specialisation and join the Photographer specialisation.

- b. An individual will be advanced to LH Photographer once all the criteria at Annex 92A have been satisfied. The following gives further guidance:
  
  1. LHs or equivalent rates who pass DPQC will be rated LH Photographer with a seniority date adjusted to the last day of LH DPQC.
  
  2. ABs or equivalent rates who have passed the LRLC will be rated LH Photographer with a seniority of the last day of DPQC.
  
  3. ABs or equivalent rates who pass DPQC but have not passed the LRLC will be rated LH Photographer on successful completion of LRLC with seniority back-dated to the last day of DPQC.

- c. All LH Photographers are subject to a 12-month probationary period as described at Para 9207.

- d. LH Photographers are required to give a minimum of 3 years Return of Service from completion of DPQC (see Chapter 53) (the 3 years period may include the 12 month notice period).

- e. See Para 6909 and Para 6915 a sub para (4) regarding non completion of LRLC and advancement to AHR in exceptional circumstances.

- g. The Defence School of Photography will notify Captain Naval Recruiting of any RM personnel successfully completing course. Marines will then be instructed to join HMS RALEIGH for the issue of clothing and documentation.

9207. **Reversion and Disrating**

- a. **Leading Photographer.** The first 12 months’ service as a LH Photographer will be a probationary period during which personnel will be required to complete a Task Book (TB). Any rating who fails to complete the TB and/or does not perform satisfactorily is to be considered for reversion to source specialisation with original seniority as an AB1 or LH.

- b. In common with other sideways entry specialisations, ratings who are reverted or disrated to AB will be returned to their former specialisation and categories. Re-promotion and future employment within the Photographer Specialisation will be considered by the Branch Manager on a ‘case by case’ basis in consultation with the Navy Command Terms of Service team.
9208. **JPA Recording - Competences, Annual OPS Check and RNFT**

   a. **Recording of Competences.** Once a Photographer rating has successfully completed DPQC, TB and achieved OPS, that competence is to be input to JPA by the appropriate unit HR administrator.

   b. In exceptional circumstances, some individuals may be unable to achieve the mandatory OPS. Where this is the case, the Branch Manager should be consulted for advice.

   c. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the CPD. See Para 6718 for full details.

9209. **Education For Promotion**

   A Leading Hand must be educationally qualified to Level 1 Functional Skills and a Petty Officer to Level 2 Functional Skills in English and Mathematics or a suitable equivalent for either or both of these qualifications. See Chapter 96 for further information.

9210. **Failure to Complete Leadership Course.**

   Refer to Para 6716 for rules on the impact on a rating’s promotion if they fail to complete DPQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (out with own control) or non-service reasons (within own control).
ANNEX 92A

PHOTOGRAPHER SPECIALISATION – PROMOTION FLOWCHART

a. Passed PQC for Leading Photographer. Recorded as JPA competency ‘Q|Q-PH-DMOP|RAF’

b. LRLC completed and recorded as JPA competence 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy'. (Para 9210).

c. In date for RNFT or waiver obtained on date due advancement; recorded under JPA competence ‘CMS|Fitness Test|Navy’. (9208 d).

d. At least 6 months since last Career Check (if any) on advancement.

e. Once rating is eligible for substantive promotion, unit to send a PAR Signal to the Ratings Promotion Section, info Career Manager.

f. Educationally qualified for promotion (EFP) in accordance with Para 9636. Achieved minimum NAMET 5:5 or Level 1 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

Advanced to LEADING HAND (PHOTOGRAPHER)

Petty Officer (Photographer) – Pre-Selection Requirements

a. Complete LH WTTB. Achieved OPS, to be recorded under ‘Professional|OPS for LH (Phot)|Navy’.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD (Para 6703 b sub para (7)).

c. Recommended for selection on Appraisal Report at CRD.

Petty Officer (Photographer) – Pre-Promotion Requirements

a. SRLC completed and recorded as JPA competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy'.

b. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later). (Para 9210).

c. EFP in accordance with Para 9636. Achieved minimum Level 2 FS (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

d. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’. (9208 d).
Chief Petty Officer (Photographer) – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as PO 12 months prior to CPD. (Para 6703 b sub para (3))

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. SRLC completed and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy’.

d. Recommended for promotion on Appraisal Report at CRD. (Para 9210).

Chief Petty Officer (Photographer) – Pre-Promotion Requirements

a. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’. (9208 d).

b. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Warrant Officer 1 – Pre-Selection Requirements

a. Minimum of 3 years’ seniority as a CPO 12 months prior to the CPD. EFP in accordance with Para 9636. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD.

Warrant Officer 1 – Pre-Promotion Requirements

a. In date RNFT or waiver obtained at nominated CPD (or when eligible for promotion (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

b. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

c. Satisfy terms of Assignment Order issued by Promotion Authority.

CHAPTER 93

WARFARE BRANCH FAST TRACK SCHEME

9301. General

a. This Chapter covers the General and Submarine Service Warfare Branch (WB) specialisations included on the Fast Track (FT) scheme and outlines the selection and management protocols for all potential WB FT personnel. Divisional Officers are to ensure that a copy of this Chapter and the appropriate Annex is placed in the PDR of every member of the specialisations listed at Para 9302 who is recommended for the FT scheme.

b. The FT scheme is an important element of WB career pipeline managing the talent of suitable individuals, by selecting those ratings who are suitably motivated and demonstrate the necessary standards of leadership, Warfare aptitude and ability. This scheme will allow WB ratings the opportunity to accelerate their progression and be advanced based on time, qualification and CO’s recommendation rather than selective promotion.

9302. FT Specialisations of the Warfare Branch (General and Submarine Service)

The following specialisations (and sub-specialisations) are currently being selected for the FT¹ scheme:

a. Warfare Specialist (WS)

(AWT) Abovewater Warfare Tactical
(AWW) Abovewater Warfare Weapons
(EW) Electronic Warfare
(SSM) Sonar Submariner
(TSM) Tactical Submariner
(UW) Underwater Warfare

b. Warfare Specialisations

(SEA) Seamanship
(MW) Mine Warfare
(HM) Hydrographic and Meteorological
(D) Diver

9303. Warfare Branch FT Background

The aim of the FT scheme is to afford individuals an accelerated advancement route. This takes account of individuals who develop at differing rates and, when combined with the standard route to promotion, gives a flexible career path to ensure that career progression through training and employment is better matched to the abilities and expectations of Warfare Personnel. Selection will be via a two-stage process with two available entry points:

¹ PT, RNP, CT, INT and Phot Specialisations are not included in the initial WB FT scheme. This will be reviewed idc.
a. **AB-LH.** Phase 2 Professional Qualifying Course (PQC) for FT AB (for accelerated advancement to LH); and

b. **LH-PO.** LH PQC/LRLC for FT LH (for accelerated advancement to PO).

9304. Fast Track Scheme Overview

a. The FT scheme seeks to offer the necessary training, experience and continuous assessment to permit advancement to LH and PO earlier than is currently the case for most personnel.

b. To deliver success, an additional level of management and oversight of FT personnel is required. This will seek to ensure standards and assist to manage the available opportunities to acquire sea experience for FT personnel. This will be provided by the Fast Track Authority (FTA)\(^2\) by the Fast Track Managers (FTM)\(^3\) and Fast Track Recording Authorities (FTRA) within MWS Collingwood\(^4\), RNSMS Raleigh\(^5\), RN SoS Raleigh\(^6\), FOST HM\(^7\) and MWS DDS\(^8\).

c. The FTRAs will be responsible for the co-ordination of the recommendation process during Phase 2 and 3 Training, supported by the Fast Track Through Life Manager (FTTLM) who will be the focal point for any advice and administrative issues relating to FT personnel. The FTTLM will report to the FTM, ensuring that all FT timelines are strictly adhered to.

9305. Non-Selective Promotion (Advancement)

Individuals on the FT scheme will, subject to the necessary qualifications being obtained, be subject to non-selective advancement, based on their Due Date for Advancement. Individuals will be advanced provided that they are eligible in all respects as detailed within the flow charts at the Annexes.

a. **FT AB.** An AB selected for FT AB (AB2-LH) will be awarded a Due Date\(^9\) to LH of 24 months from the Fast Track Start Date (FTSD)\(^10\). For FT AB (Diver) only, the Due Date will be 36 months from FTSD\(^11\). The FTSDs given below for a FT AB will be determined for GS by the date they join their sea going unit, or for SM the date of passing SMQ(Wet), as follows:

1. Individuals who are selected from Phase 2 Training and join their sea going unit/pass SMQ(Wet) between 1 Apr and 31 Jul will be awarded a FTSD of 31 Jul.

---

\(^2\) Warfare Branch Manager SO1.
\(^3\) War GSX WO1 for WS(AWT), WS(AWW), WS(EW), WS(UW), INT and SEA: War XSM WO1 for WS(SSM), WS(TSM), (MW), HM(H), HM(M and Divers located in West Battery.
\(^4\) MWS WTG OiC Warskills for support to War FT personnel.
\(^5\) RN SMS OiC War Trg for support to SM personnel.
\(^6\) RN SoS OC.
\(^7\) FOST HM OiC H/OIC METOC.
\(^8\) MWS DDS CO.
\(^9\) Due Date for Advancement is the equivalent of Common Promotion Date (CPD) for selective promotion in determining seniority in the higher rate.
\(^10\) The 24 months comprise 12 months sea time and 12 months for completion of PQC and LRLC.
\(^11\) FT AB (Diver)s require 36 months to gain sufficient experience to comply with Diving At Work Regulations 1997.
(2) Individuals who are selected from Phase 2 Training and join their sea going unit/pass SMQ(Wet) between 1 Aug and 30 Nov will be awarded a FTSD of 30 Nov.

(3) Individuals who are selected from Phase 2 Training and join their sea going unit/pass SMQ(Wet) between 1 Dec and 31 Mar will be awarded a FTSD of 31 Mar.

b. **FT LH.** An AB1/LH selected for FT LH in Phase 3 Training will retain their seniority date as a LH, with a Due Date to PO of 36 months from their FTSD\(^\text{12}\). FT LH FTSDs will be standardised to 31 Jul, 30 Nov or 31 Mar, as above.

c. **FT LH (Optional Accelerated Advancement).** In the case of Optional Accelerated Advancement, the Due Date will be advanced from the standard FTSD plus 36 months to FTSD plus 24 months.

9306. **Selection, Recommendation and Transfer to the FT Scheme**

A selection process will be conducted by the FTRA prior to an individual being recommended for entry onto the FT scheme. There will be two selection points:

a. **FT AB to LH.** The selection point will be on completion of Phase 2 Training (AB PQC).\(^\text{13}\) This will provide the opportunity for the individual to demonstrate that they have the necessary ability and leadership potential to succeed on the FT scheme, and have potential to operate as a competent Leading Hand in a short timeframe.

b. **FT LH to PO.** The selection point will be on completion of Phase 3 LH PQC\(^\text{14}\) and LRLC. This will provide the opportunity for an individual to demonstrate that they have the necessary ability and leadership skills to succeed on the FT scheme, and have the potential to operate as a competent Petty Officer in a short timeframe. This selection point will consider individuals who are currently on the FT scheme to LH, those who have an AB1 FT CO Recommendation from sea as well as all other LH selectees who complete LH PQC and LRLC.

c. Personnel selected for FT AB during Phase 2 Training who remain on the scheme (subject to completing all eligibility criteria and CO’s recommendation) will be advanced to LH. On completion they will be removed from the FT scheme and revert to selective promotion for PO, unless they are subsequently selected for FT LH. Personnel selected for FT LH during Phase 3 training who remain on the scheme (subject to completing all eligibility criteria and CO’s recommendation) will be advanced to PO. On completion, they will be removed from the FT scheme and revert to selective promotion for CPO.

---

\(^{12}\) LH to PO FTSD will commence when rating joins their sea assignment. The 24 or 36 months includes 12 months for completion of PQC and SRLC.

\(^{13}\) To include SMQ(Dry) for War SM, and EOD training for (Diver).

\(^{14}\) To include EOD training for (Diver).
9307. Selection/Recommendation Process

The selection/recommendation process will be co-ordinated by the FTRA and include an interview and an assessment of an individual’s training and experience to date, in order to determine their suitability based on the key selection criteria outlined below.

<table>
<thead>
<tr>
<th>Selection Point</th>
<th>Key Selection Criteria</th>
<th>Candidate Pool</th>
</tr>
</thead>
</table>
| Phase 2 AB PQC  | 1. Functional Skills Level 1 or above achieved.  
                 2. Serving on a Full Career ES1/FC/OE1 that expires after the nominated Due Date.  
                 3. Above average score during Phase 2 Module Assessments (Formative & Summative).  
                 4. Level of potential for Command, Leadership and Management in the next higher rate.  
                 5. Recommended from Phase 2 Training to be a FT AB (to LH).  
                 6. At least 6 months since last Career Check (if any).  
                 7. Passed Selection Interview.  
                 8. For sideways entry Divers, previous service will replace Talybont and Phase 1 reports. | 1. All AB2s recommended for FT during Phase 2 Training. |
| Phase 3 LH PQC  | 1. Functional Skills Level 2 achieved.  
                 2. Serving on a Full Career ES1/FC/OE1 that expires after the nominated Due Date.  
                 3. CO’s Recommendation from sea (not mandatory).  
                 4. Above average score or training school equivalent during Phase 3 Module Assessments (Formative & Summative).  
                 5. Potential for Command, Leadership and Management in the next higher rate.  
                 6. Recommended from Phase 3 Training to be a FT LH to PO.  
                 7. In date RNFT.  
                 8. Passed LRLC.  
                 9. At least 6 months since last Career Check (if any).  
                 10. Passed Selection Interview. | 1. All LHs recommended for FT during Phase 3 Training. |

9308. AB1 CO’s Recommendation for FT LH from sea

Non-FT selected substantive AB1s who are eligible for promotion to LH and who demonstrate suitable levels of competence during their routine sea employment can be recommended as a potential FT LH - PO candidate. The ‘recommend’ is to be recorded on JPA as ‘ProfessionalFast Track LH Candidate|Navy’, with supporting comments on recommendation included by the 3RO in their next SJAR. This is to be reflected with the appropriate grading in the Promotion – 1 Rank Up and 2 Ranks Up tab. The FT sea recommendation from the SJAR will be taken into consideration during the standard selective promotion process for AB to LH and will form part of the LH FT Selection process.

---

15 CO’s Recommendation can also be from shore assignment for AB1 (Diver).
16 3RO will normally be CO.
9309. **Transfer to Fast Track**

Candidates who are successful at the selection interview will then be recommended to the FTM for inclusion on the FT Scheme. Upon approval, the FTTLM will liaise with the relevant CM to identify and assign FT ratings to suitable platforms. Individuals on the FT scheme will continue to be assigned by the relevant Career Management Cell (CMC).

9310. **Service on the Fast Track Scheme**

a. The FT scheme is designed to accelerate individuals through the advancement system in a timescale that is at least as quick as, and in most cases faster than, the normal selective promotion process. In order to facilitate this, individuals will be carefully managed and therefore the following exceptions to normal career management need to be applied. These exceptions will be acknowledged by successful candidates when they sign the Certificate of Understanding (Part A); accepting the terms of service of FT scheme:

   1. **Waiver of Minimum Assignment Notice.** In order to maximise the at sea training opportunities, individuals selected for FT may require shorter than the usual minimum assignment notice. All individuals on the FT scheme will be required to volunteer to waive their minimum assigning notice period for sea and between platforms, as well as courses and employment associated with their advancement.

   2. **Waiver of rights to selective promotion whilst on FT.** The requirement to carefully manage individuals on the FT scheme, together with the bespoke nature of the selection and advancement criteria, precludes individuals from following the dual paths of FT advancement and selective promotion simultaneously.

b. FT ABs will transfer to the normal selective promotion scheme on successfully achieving advancement to LH, and FT LHS on successfully achieving advancement to PO. Individuals removed from the FT scheme will also transfer to normal selective promotion. On transfer from FT to selective promotion, either on successful advancement or de-selection from FT, the Certificate of Understanding (Part B) will be used in transferring individuals back onto the standard selective promotion route and the normal assignment notice period. Certificates will be produced by the FTTLM and signed copies will be retained by both the FTTLM and individual. The FTTLM is to ensure that each individual is seamlessly transferred to selective promotion and all competences achieved are correctly recorded. An SJAR is to be raised at the next CRD as part of the transfer process.
9311. Accelerated TPS to OPS

a. FT personnel should, where possible, be employed in optimum billets as assigned by their CMC for the rate they hold. This will require close management by Career Managers (CMs) and the FTTLM. The FT scheme timeline does not allow for employment ashore (except courses) and CMs should, wherever possible, assign FT personnel to sea positions on completion of their PQC, as FTSD is set to the date of joining first sea unit, and hence determines the Due Date.

b. FT personnel are to be employed within ship departments in the same manner as their non-FT counterparts, and are to perform all aspects expected of their role. In order to achieve their training requirements, a FT individual will be required to maintain a high degree of personal motivation, and will need to be fully supported by their platform and afforded suitable opportunities to develop. Ship’s staff will need to carefully balance the training burdens of FT and non-FT personnel to ensure all are provided with fair opportunities to undertake training whilst noting the aspiration for FT personnel to complete the required training within a shorter time frame than normal.

c. FT AB (Diver)s will spend an additional 12 months prior to the Recommendation for Advancement to LH point. The 24-month period will be split between an initial 12 months at sea in an MCMV crew, followed by 12 months at FDS. This additional phase is necessary to ensure that the FT AB gains sufficient diving experience to safely complete LH PQC.

d. Where a ship’s programme changes, or a FT individual cannot be suitably employed (such as in ships undergoing Upkeep), and the individual will be unable to achieve their advancement criteria, the Ships’ Staff are to liaise, well in advance, with the FTTLM to discuss alternative employment options.

e. All FT personnel will be expected to proactively manage and ‘own’ their training, and should therefore present a training plan to the unit Training Coordinator detailing when they believe they will achieve the required training milestones. This could be achieved as part of the joining interview, in consultation with the Divisional SR. The training plan should be reviewed and recorded as objectives for the individual as part of the SJAR process.

f. The FTTLM will maintain a record of all individuals’ progress towards achieving the training requirements to meet their advancement Due Date. Ship’s Staff are to liaise directly and regularly with the FTTLM to enable this process.

g. All FT personnel must achieve OPS in their current rate and remain in date for annual OPS checks. FT AB will achieve OPS as an AB1, and should therefore be in date for Annual OPS, providing that all other criteria are met. They are encouraged to undertake an Annual OPS Check prior to attending PQC to ensure that they are still in date, and as a refresher for the course itself. FT LH must achieve OPS as a LH, but will be required to be in date for their Annual OPS Check prior to the 24-month SJAR 2 and for attendance at PQC.

---

17 With the exception of AB1(Diver) – see para 9311 C.
9312. SJAR Reporting Requirements

a. SJARs and MPARs remain a mandatory requirement for all FT individuals and comment should be made on their current performance (including OPS/OPS Check status), CLM, employment and training achievements. Within the SJAR, Reporting Officers should report whether or not an individual continues to maintain a recommendation for the FT scheme and, if appropriate, the individual’s potential for the next FT stage. The SJAR must contain evidence to support these recommendations.

b. Due to the limited time FT ratings spend in sea assignments there is a requirement to increase the level of reporting. During the LH to PO FT reporting time frame an opportunity exists to accelerate advancement from 24 to 12 months, based on a CO’s recommendation for early advancement based on merit and previous experience.

(1) AB to LH reporting time frame from FTSD:

(a) 3 Months MPAR.

(b) 6 Months SJAR 1 (progress report-NSAR).

(c) 9 Months MPAR.

(d) 12 Months SJAR 2 (CO recommend for advancement to LH).

(2) AB to LH (Diver) reporting time frame from FTSD:

(a) 6 Months MPAR.

(b) 12 Months SJAR 1 (on completion of 12 months sea time - to include recommendation to remain on FT).

(c) 18 Month MPAR.

(d) 24 Months SJAR 2 (CO’s recommendation for advancement to LH)\(^\text{18}\).

(3) LH to PO reporting time frame from FTSD:

(a) 6 Months MPAR.

(b) 12 Months SJAR 1. To include:

i. Recommendation to remain on FT.

\(^{18}\) SJAR 2 should record that subject is in date Annual OPS Check.
ii. (If applicable) Recommendation for Optional Accelerated Advancement\textsuperscript{19}.

(c) 18 Months MPAR.

(d) 24 Months SJAR 2 (CO’s recommendation for advancement)\textsuperscript{20}.

c. The 12 Months SJAR 2 for FT AB and the 12 Months SJAR 1 for FT LH (for Optional Accelerated Advancement Point only) should not be raised until 12 months sea service has been accrued. The reporting unit should inform the FTTLM of any expected delays in order that career management adjustments can be made. Applications to delay the ‘recommend’ SJAR should be made to the FTTLM, who will seek approval from the FTM. If the delay is approved, the default position will be to defer the recommendation for advancement and the Due Date by 4 months, to the next standard date. The 12/24-month SJAR should still be raised, stating reasons for deferral. A subsequent SJAR will then be required to support the delayed recommendation.

d. On removal from the FT scheme through successful advancement to the higher rank, an annual SJAR must be raised at the next CRD for the individual’s substantive rank, regardless of the length of reporting period. In addition to the normal requirements for SJAR reporting, this SJAR will re-synchronise the individual with the reporting period of their peer group.

e. On removal from the FT scheme through de-selection, a SPEC AR\textsuperscript{21} must be raised to record the circumstances of the removal from the FT scheme. An annual SJAR must be raised at the next CRD for the individual’s substantive rank, regardless of the length of reporting period. In addition to the normal requirements for SJAR reporting, this SJAR will re-synchronise the individual with the reporting period of their peer group.

9313. Substantive Advancement

a. Attending a PQC. The planning and enrolling of individuals onto a PQC will be completed by the CMC in liaison with the FTTLM. In general, FT personnel will be provisionally allocated a PQC and LRLC/SRLC start date at, or shortly after, transfer to Fast Track. The FT LH will be provisionally booked on PO PQC 12 months prior to course start\textsuperscript{22}. Attendance on both the LH and PO PQC will be dependent upon the completion of all of the relevant advancement criteria. Frequent liaison between the employing ship and the FTTLM will ensure that Training Schools, CMCs and employing ships will be able to effectively plan the movement of FT personnel.

\textsuperscript{19} FT LH recommended for Optional Accelerated Advancement must be in date Annual OPS Check on arrival at PQC.

\textsuperscript{20} SJAR 2 should record that subject is in date Annual OPS Check.

\textsuperscript{21} JSP 757 Pt 2 Vol 1 para 1c(1).

\textsuperscript{22} Or place reserved if course not yet loaded on to JPA.
b. **Leadership Training.** All FT personnel must complete LRLC or SRLC, as appropriate, as part of their next higher rate. Preparation for and completion of these courses is essential and although the responsibility to be fully prepared rests firmly with the individual, it is to be supplemented with appropriate coaching and mentoring by ship’s staff. The unit lead for the FT scheme is considered to be the Head of Department who must take an active interest in the performance of FT personnel.

c. **Advancement.** Personnel who remain on the FT AB scheme will be advanced to LH (subject to completing all eligibility criteria and receiving their CO’s recommendation) at 24 months from FTSD on their Due Date. Personnel who remain on the FT LH scheme will be advanced to PO (subject to completing all eligibility criteria and receiving CO’s recommendation) at 36 months from FTSD (Due Date), or at 24 months if selected for the Optional Accelerated Advancement point (Due Date). In all cases, individuals who complete the eligibility criteria prior to Due Date can be advanced to the acting higher rate\(^{23}\). The FTTLM is to ensure that all JPA administrative action is taken for the FT Rating’s substantive advancement.

d. There may be occasions where a FT AB or LH is at their Due Date by time but has failed to satisfy the advancement criteria by their Due Date. An award of the acting higher rate may be considered by their CO\(^{24}\), keeping the FTTLM informed.

9314. **Fast Track Failure Policy and De-Selection from Scheme**

Once selected, an individual will remain on the FT scheme unless their progress, performance or standards are deemed insufficient or they choose voluntarily to remove themselves. Where an individual, through their own actions or ability, has not been able to maintain FT accelerated training they may be de-selected from the FT scheme. If de-selected, personnel revert back to the standard selective promotion route, and continue training and employment as necessary to meet the service requirement. The FT scheme failure and de-selection policy is detailed at Annex G.

9315. **Fast Track Notes**

a. **Educationally Qualified for Advancement.** It is mandatory that the appropriate educational qualification is held prior to starting Fast Track – Functional Skills Level 1 or higher for AB and Level 2 for LH.

b. **Career Check.** Due to the tight timescales, receipt of a Career Check will result in automatic deselection from the Fast Track scheme.

c. **24 Month Due Date.** During the LH to PO FT reporting time frame an opportunity exists to accelerate advancement where a CO can recommend a FT rating for early advancement based on merit and previous experience.

\(^{23}\) BRd 3(1) para 6716.
\(^{24}\) BRd 3(1) para 6802.
d. **Unsuitable Candidates.** Where, during the period of the PQC, candidates are found to be unsuitable\(^{25}\) for advancement to the next higher rate, they may be withdrawn from training by the CO of the relevant Training School. In such cases, individuals will be deselected from Fast Track scheme. They will transfer from Fast Track back to Selective Promotion as the eligibility route for future selection.

e. **Refusal to undertake the QC.** Individuals who refuse to undertake the PQC will be deselected from Fast Track, continue to serve in their current rate and transfer back to Selective Promotion.

f. **RNFT.** All personnel are required to remain in date for RNFT at all times. This is particularly critical for individuals on the Fast Track scheme due to the key advancement stages.

g. **Achieved OPS/Annual OPS Check.** It is a requirement that individuals achieve OPS in the new rank within the timescales outlined, and remain in date for Annual OPS Check throughout to ensure that each key stage is achieved without delay. Individuals must be in date for Annual OPS Check at start of PQC.

---

\(^{25}\) The required attributes of the next higher rate.
ANNEX 93A

WARFARE SPECIALIST – FAST TRACK ADVANCEMENT FLOWCHART

ABLE SEAMAN WARFARE SPECIALIST 2 (AWT), (AWW), (EW), (UW)
Selected for Fast Track, awarded a Fast Track Start Date with LH of 24 months from this date.

1. Pre-advancement requirements AB1
   a. Assigned to sea billet (join date determines FTSD).
   b. Completed OJT TB - achieved OPS as AB1 (WS), authorised by Warfare HOD. OPS is to be recorded under ‘Professional|OPS for AB1 WS(AWT/AWW/EW/UW\(^1\))|Navy’.
   c. In date for Royal Naval Fitness Test (RNFT) or waiver obtained on date due advancement AB1; recorded under JPA competence ‘CMS|Fitness Test|Navy’.
   d. Awarded AB1 Badge (single star). Promotion Authorisation Request (PAR) sent to parent Career Management Cell, copied to FTTLM.

Advanced to
ABLE SEAMAN WARFARE SPECIALIST 1 (AWT), (AWW), (EW), (UW)

2. Pre-advancement requirements Leading Hand (12 months from FTSD)
   a. CBRNDC TB achieved and recorded as JPA competence ‘Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy’.
   b. In date RNFT or waiver obtained on SJAR 2 reporting date; recorded as JPA competence ‘CMS|Fitness Test|Navy’.
   c. 12 months’ sea service, recorded as JPA competence ’CMS|12 Months Sea Time AB|Navy’.
   d. Recommended for advancement by CO to LH in 12 Months Appraisal Report SJAR 2.

3. Pre-advancement requirements Leading Hand (Due Date Advancement 24 months from FTSD)
   a. To be in date for Initial OPS (valid for 12 months) or in date Annual OPS Check at start of PQC.
   b. Completed Leading Hand PQC and recorded in JPA.

\(^1\) As appropriate.
c. Completed Leading Rates Leadership Course (LRLC) and recorded in JPA as competence 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy'.

d. In date RNFT or waiver obtained at Due Date Advancement (or when eligible for advancement (if later)); recorded as JPA competence 'CMS|Fitness Test|Navy'.

e. Recommended for advancement by CO. Promotion Authorisation Request (PAR) sent to parent Career Management Cell, copied to FTTLM and Promotions Office.

Advanced to
LEADING HAND WARFARE SPECIALIST (AWT), (AWW), (EW), (UW)

If not selected for FT LH to PO, transfer back to Selective Promotion

Selected FT LH for PO, awarded a Fast Track Start Date with a Due Date Advancement to PO of 36 months from this date

4. Pre-advancement requirements Petty Officer (12 months from FTSD)

a. Assigned to sea billet (join date determines FTSD).

b. Completed OJT TB. Achieved OPS; to be recorded under 'Professional|OPS for LH WS(AWT/AWW/EW/UW)|Navy'.

c. In date RNFT or waiver obtained on SJAR 1 reporting date; recorded as JPA competence 'CMS|Fitness Test|Navy'.

d. 12 months' sea service, recorded as JPA competence 'CMS|12 Months Sea Time LH|Navy'.

5. Pre-advancement requirements Petty Officer (24 months from FTSD)

a. In date RNFT or waiver obtained on SJAR 2 reporting date; recorded as JPA competence 'CMS|Fitness Test|Navy'.

b. In date Annual OPS Check recorded as JPA competence 'CMS|Annual OPS Check LH|Navy'.

---

2 As appropriate.
6. Pre-advancement requirements Petty Officer (Due Date Advancement 24-36 months from FTSD)

   a. Passed PO PQC and competency recorded in JPA.
   
   b. Completed Senior Rates Leadership Course (SRLC) and recorded as JPA competence ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|’.
   
   c. In date RNFT or waiver obtained at Advancement Due Date (or when eligible for advancement (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.
   
   d. Recommended for advancement by CO. Promotion Authorisation Request (PAR) sent to Career Manager, copied to FTTLM and Promotions Office.

**Advanced to**

WARFARE SPECIALIST SUBMARINER – FAST TRACK ADVANCEMENT FLOWCHART

ABLE SEAMAN WARFARE SPECIALIST 2 (SSM)/(TSM)
Selected for Fast Track, awarded a Fast Track Start Date with a Due Date Advancement to LH of 24 months from this date.

1. Pre-advancement requirements AB1

   a. Completed SMQ(Dry) – SMQ(North) or SMQ(South) (GTS point).

   b. Assigned to sea billet.

   c. Completed SMQ(Wet) – Qualified SM point (date of passing determines FTSD).

   d. Completed OJT TB 1 – achieved OPS as AB1, authorised by Warfare HOD. OPS is to be recorded under: ‘Professional|OPS for AB1 WS(SSM or TSM)|Navy’.

   e. In date for Royal Naval Fitness Test (RNFT) or waiver obtained on date due advancement AB1; recorded under JPA competence ‘CMS|Fitness Test|Navy’.

   f. Awarded AB1 Badge (single star). Promotion Authorisation Request (PAR) sent to parent Career Management Cell, copied to FTTLM.

   g. WS(SSM) ratings completed narrowband TEM, recorded as ‘SM|Narrowband Operator (UP616QNT)|Navy’.

Advanced to

ABLE SEAMAN WARFARE SPECIALIST 1 (SSM)/(TSM)

2. Pre-advancement requirements Leading Hand (12 months from FTSD)

   a. In date RNFT or waiver obtained on SJAR 2 reporting date; recorded as JPA competence ‘CMS|Fitness Test|Navy’.

   b. 12 months' sea service, recorded as JPA competence 'CMS|12 Months Sea Time AB|Navy’.

   c. Recommended for advancement by CO to LH in Appraisal Report SJAR 2.
3. Pre-advancement requirements Leading Hand (Due Date Advancement 24 months from FTSD)

   a. To be in date for Initial OPS (valid for 12 months) or in date Annual OPS Check at start of PQC.

   b. Completed Leading Hand PQC and recorded in JPA.

   c. Completed Leading Rates Leadership Course (LRLC) and recorded in JPA as competence 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy'.

   d. In date RNFT or waiver obtained at Advancement Due Date (or when eligible for advancement (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

   e. Recommended for advancement by CO. Promotion Authorisation Request (PAR) sent to parent Career Management Cell, copied to FTTLM and Promotions Office.

   Advanced to LEADING HAND WARFARE SPECIALIST (SSM)/TSM
   If not selected for FT LH to PO, transfer back to Selective Promotion

   Selected FT for PO, awarded a Fast Track Start Date with an Advancement Due Date to PO of 36 months from this date

4. Pre-advancement requirements Petty Officer (12 months from FTSD)

   a. Assigned to sea billet (join date determines FTSD).

   b. Completed LH TB and any TEM OJT TBs. Achieved OPS; to be recorded under ‘Professional|OPS for LH WS(SSM/TSM)|Navy’.

   c. In date RNFT or waiver obtained on SJAR 1 reporting date; recorded as JPA competence ‘CMS|Fitness Test|Navy’.

   d. 12 months' sea service, recorded as JPA competence 'CMS|12 Months Sea Time LH|Navy'.

5. Pre-advancement requirements Petty Officer (24 months from FTSD)

   a. In date RNFT or waiver obtained on SJAR 2 reporting date; recorded as JPA competence ‘CMS|Fitness Test|Navy’.

   b. In date Annual OPS Check recorded as JPA competence 'CMS|Annual OPS Check LH|Navy’.

   c. Recommended for advancement in 24 Months Appraisal report SJAR 2.
6. Pre-advancement requirements Petty Officer (Due Date/CPD 24-36 months from FTSD)

a. Passed PO WS(SSM)/(TSM) PQC and competency recorded in JPA.

b. Completed Senior Rates Leadership Course (SRLC) and recorded as competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|'.

c. In date RNFT or waiver obtained at Advancement Due Date (or when eligible for advancement (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy|’.

d. Recommended for advancement by CO. Promotion Authorisation Request (PAR) sent to Career Manager, copied to FTTLM and Promotions Office.

ANNEX 93F

DIVER – FAST TRACK ADVANCEMENT FLOWCHART

**ABLE SEAMAN (DIVER) 2**
Selected for Fast Track, awarded a Fast Track Start Date with a Due Date Advancement to LH of 36 months from this date.

1. Pre-advancement requirements AB1
   
   a. Assigned to sea billet (join date determines FTSD).

   b. Completed OJT Workplace Task Books (WTTB) Seamanship and Diver achieved full OPS as AB(D), authorised by Warfare HOD. OPS is to be recorded under ‘Professional|OPS for AB1 (D)|Navy’.

   c. In date for Royal Naval Fitness Test (RNFT) or waiver obtained on date due advancement AB1; recorded under JPA competence ‘CMS|Fitness Test|Navy’.

   d. Awarded AB1 Badge (single star). Promotion Authorisation Request (PAR) sent to parent Career Management Cell, copied to FTTLM.

   e. Request for change of category to Special Service Pay (Diving) forwarded to parent UPO (see 8).

   **Advanced to**

   **ABLE SEAMAN (DIVER) 1**

2. Pre-advancement requirements Leading Hand (24 months from FTSD)

   a. CBRNDC TB achieved and recorded as JPA competence ‘Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy’.

   b. In date RNFT on SJAR 1 reporting date; recorded as JPA competence ‘CMS|Fitness Test|Navy’.

   c. 12 months' sea service, recorded as JPA competence 'CMS|12 Months Sea Time AB|Navy'.

   d. Assigned to FDS on completion of 12 months' sea service.

   e. In date Annual OPS Check and recorded as JPA competence 'CMS|Annual OPS Check AB|Navy'.

   f. Recommended for advancement by CO to LH in 24 Months Appraisal Report SJAR 2.
3. Pre-advancement requirements Leading Hand (Due Date Advancement 36 months from FTSD)

   a. To be in date Annual OPS Check and recorded as JPA competence ‘CMS|Annual OPS Check AB1|Navy’ at start of PQC.

   b. Completed Leading Hand PQC (Diving and EOD phases) and recorded in JPA.

   c. Completed Leading Rates Leadership Course (LRLC) and recorded in JPA as competence ‘Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy’.

   d. In date RNFT or waiver obtained at Due Date Advancement (or when eligible for advancement (if later)); recorded as JPA competence ‘CMS|Fitness Test|Navy’.

   e. Recommended for advancement by CO. Promotion Authorisation Request (PAR) sent to parent Career Management Cell, copied to FTTLM and Promotions Office.

ANNEX 93G

FAST TRACK SCHEME TERMS OF SERVICE AND FAILURE POLICY

1. FT Terms of Service

a. The FT scheme affords significant opportunity in terms of career progression at an earlier stage and therefore it is expected that FT personnel will perform at a higher than average level of competence in all aspects of training and employment. The scheme's success is dependent on both the individual and the unit’s organisation to ensure sufficient progress is made towards the next higher rate. To ensure this occurs the scheme will be externally assured by the FTMs and their teams.

b. Lack of progress within the scheme has the potential to prevent the achievement of the nominated Due Date. It is expected that FT personnel will be appropriately supported in their unit and placed on warning in a timely manner to highlight where progress is not sufficient in order to support recovery and indicate not only the failure but the potential impact to the Due Date achievement and how to recover the situation. At all times an FT individual must maintain a positive recommendation to remain in the scheme and for the next advancement. Any training failure, CLM or NGT warnings or attitudinal problems will, in all probability, result in removal from the scheme.

c. To ensure all FT personnel are fully aware of the changes to their Terms of Service on selection to the FT scheme (including being advanced, in lieu of selective promotion), individuals will sign a Certificate of Understanding (Part A). When signing, they confirm that they understand, whilst on the FT scheme, that they will:

(1) Not be considered at Selective Promotion Boards until removed from FT scheme,

(2) Be required to waive their minimum time for assignment to sea and shore, and

(3) Be required to waive their 660/3 Separated Service Allowance.

d. On leaving the FT scheme, a Certificate of Understanding (Part B) will be completed and signed by the individual reversing the process, with an individual returning to Selective Promotion and minimal notice for future assignments.

2. FT Scheme Failure Policy

a. Where it is suspected that agreed targets may not be achieved, for reasons within the control of the individual, FT personnel are to be placed on warning in a timely manner to highlight the concern to the individual and ensure a recovery plan is created and followed. This will also highlight to the FTTLM the potential delay in the individual’s progression and potential for removal from the scheme.
b. There may be extenuating circumstances\(^1\), both Service (eg. ship's programme) and non-Service (eg. compassionate or medical reasons) which may prolong an individual’s time within the training pipeline. Delays may have an effect on the ability to meet progression to LH or PO within the expected time and in all circumstances the FTTLM should be informed at the earliest point.

c. The FTM has the authority to remove personnel from the FT scheme and will do so where it is deemed appropriate in all the circumstances. Prior to making a decision, the FTM should seek advice from the relevant FTA and the FTTLM.

3. **Removal from the FT Scheme**

a. A Rating may be removed from the scheme in any of the following circumstances:

   (1) Submission of an Early Termination request or request to leave the scheme.

   (2) Failure to achieve OPS.

   (3) Not being recommended for advancement by CO.

   (4) Failure of Leadership Course (LRLC or SRLC).

   (5) Conviction for a civilian or service offence.

   (6) Removal from course.

   (7) Career Intermission\(^2\).

   (8) Poor performance relating to professional performance or CLM failings.

   (9) Imposition of a Career Check.

   (10) Other significant reason which the FTM deems sufficient to justify removal.

b. On submission of a request for Early Termination an individual will be de-selected from the FT scheme. Unit Staff and Career Managers are to ensure they liaise with the FTTLM prior to accepting any notice to ensure that the individual is fully briefed on all aspects associated with removal from FT and serving notice, such as TRoS and being employed at sea during the notice period.

---

\(^1\) These occasions should be rare, as the CO and FTTLM should be working to meet the tight FT timescales.

\(^2\) Previously called Career Break.
c. When being de-selected from the FT scheme, the FTTLM will ensure the following actions are completed and appropriate details are recorded on the Certificate of Understanding (Part B):

(1) Individual is to be fully briefed on all aspects of removal and that future promotion will be by selection.

(2) A SPEC AR raised detailing reasons for the de-selection.

(3) FT Certificate of Understanding (Part B) to be completed by the FTTLM.

(4) FTM to remove the JPA FT competence.

(5) Individual’s seniority date to be agreed with FTM and recorded on JPA.

4. Volunteer for Removal from the FT scheme

a. At any stage of the scheme an individual can volunteer to be removed from FT and revert to selective promotion. The process is detailed below, and all individuals should be fully advised of the changes to their career progression when transferred back to the selective promotion route. It is recommended this action be carried out by the unit HOD.

b. A request by an individual for removal from the FT scheme is to be forwarded to the FTTLM for review and consideration. The FTM will retain the authority to remove any rating from the FT scheme. The process to be followed is indicated below:

(1) The FT rating is to submit a formal request to the CO detailing the explanation why they wish to be removed from the FT Scheme.

(2) If the request for removal is associated with submission of Early Termination, the FTTLM will liaise with CMC Career Manager before advising the HOD on future employment plans.

(3) If at sea the rating is expected to remain in that position.

(4) If the request for removal is not associated with an Early Termination request but occurs on LH PQC or PO PQC, the individual will be removed from the course and reassigned at their substantive rank. All cases will be treated individually and be approved by the FTM.

c. Individuals removed from the FT scheme will be career managed by their appropriate CMC and employed according to the Needs of the Service. It is to be recognised that the individual will have completed less time at sea than those on selective promotion. It is therefore to be expected that these individuals will be assigned back to sea at the earliest opportunity by CMC.
5. **Failure within Professional Qualifying Courses**

   a. FT personnel who fail on AB, LH or PO PQC will be managed by the Training Schools PQC Training Failure Policy.

   b. Back-classing of FT personnel is to be considered only for exceptional reasons outside of any professional training failure. Where back-classing is necessary, then the individual case will be reviewed by the Training School, FTRA and FTM to assess the impacts to the individuals training. Where a FT individual is being back-classed then, following liaison with the FTRA, the Training School will review the circumstances of the back-classing and consider on a case by case basis if the individual is to remain on the FT scheme.

   c. Where FT personnel fail or miss course module(s), then the Training School policy is to be followed in reprogramming modules. Where a module(s) has been missed for Service or non-Service reasons, the FTRA is to be notified in all cases. Whether an individual remains on the FT scheme will be reviewed on a case by case basis, with the final decision being made between the Training School, FTRA and the FTM.

6. **Failure of Leadership Courses**

   a. As Fast Track ratings, it is expected that all FT personnel will allocate sufficient time and preparation to pass the required leadership courses.

   b. FT personnel who fail LRLC or SRLC may be de-selected from the scheme for not meeting the standard of leadership expected at their rank. In exceptional cases, and where there is sufficient mitigation and a recommendation is made by Royal Navy Leadership Academy (RNLA) Staff for return to leadership course, a de-selection from the FT scheme waiver may be considered. This must be approved by the FTM.

   c. On removal from the FT scheme following failure at LRLC or SRLC, the individual will be transferred to the selective promotion route at their current rank. The individual must then seek promotion by selection and will be planned to attend leadership course only after further selection for the next higher rate.

7. **Ratings Removal from the Fast Track Scheme**

   In all other cases, units should make application to the FTM for the rating’s removal. The FTTLM will conduct all administrative actions for a rating’s removal from the FT scheme.
ANNEX 93H

FAST TRACK CERTIFICATE OF UNDERSTANDING PART A

TRANSFER TO THE WARFARE FAST TRACK SCHEME

Being subject to: Advancement by time in accordance with BRd 3(1) Chapter 68 and possible changes in minimum notice for assignment to sea and shore.

Part 1 – Individual's Details

<table>
<thead>
<tr>
<th>FULL NAME (in Capitals)</th>
<th>SERVICE No.</th>
<th>RATE</th>

<td></td>
</tr>
</tbody>
</table>

Signed: Rate/Rank*:

Name*: Date: *Block Capitals

1 A copy of the Certificate of Understanding Part A is to be retained by the individual.
2 The Certificate of Understanding Part A is to be retained by the FTTLM for a period of 3 years after the individual leaves the Warfare Fast Track scheme.
FAST TRACK CERTIFICATE OF UNDERSTANDING PART B

REMOVAL FROM THE WARFARE FAST TRACK SCHEME

Part 1 – Individual's Details

<table>
<thead>
<tr>
<th>FULL NAME (in Capitals)</th>
<th>SERVICE No.</th>
<th>RATE</th>
</tr>
</thead>
</table>

The above-named rating has been removed from the Warfare LH/PO (delete as appropriate) Fast Track scheme and will no longer be subject to time-based advancement.

The following seniority date has been determined by the Fast Track Authority and will be recorded in JPA:

<table>
<thead>
<tr>
<th>RATE</th>
<th>SENIORITY DATE</th>
</tr>
</thead>
</table>

Part 2 – Individual's Declaration

I understand that on removal from the Warfare Fast Track scheme:

- I will return to being subject to selective promotion as detailed in BRd 3(1) Chapter 67.
- I will be liable to be assigned to sea or shore units as detailed in BRd 3(1) Chapter 59.

Signed: Date:

Part 3- Fast Track Through-Life Manager

The above-named rating has been transferred to the Selective promotion scheme and will be subject to promotion by Selection from the following date:

Date:

The following actions have been completed:

- The individual has been fully briefed on implications of removal from the Warfare Fast Track scheme.
- All Warfare Fast Track competences have been removed from JPA.
- The Individual's seniority date has been agreed with the Fast Track Authority and recorded in JPA.

Signed: Rate/Rate*:

Name*: Date: *Block Capitals

---

A copy of the Certificate of Understanding Part B is to be given to the individual.

The Certificate of Understanding Part B is to be retained by the FTTLM for a period of 3 years after the individual leaves the Warfare Fast Track scheme.

CHAPTER 95

INDIVIDUAL TRAINING POLICY

9501. Introduction

The Maritime Training Strategy sets out how the maritime training system will contribute towards the Navy Board’s strategic intent\(^1\). It governs all maritime training across the domains for both internal and external providers. This chapter of BRd 3(1) directly supports the Maritime Training Strategy’s intent and provides the RN policy for individual training only. JSP 822 provides the Defence direction and guidance for individual training, collective training and education. Nothing in this chapter should be taken to contradict that within the JSP. The policies and guidelines contained in this chapter are to be applied to all individual training conducted in the NS (including training delivered by contractors). Training delivered to Naval Service (NS) personnel within DTEs under RAF, Army or JFC Command will be conducted in accordance with Defence and Service Command (SC) policy. However, those responsible for DTE policy must seek to meet the requirements contained within this chapter; any deviation must be agreed with the chapter sponsor.

9502. Governance of Training

a. Training Policy and Strategy. In order to provide coherence to the management of individual training policy across the NS, a Training Policy Steering Group (TPSG) will be convened biannually. The TPSG will be chaired by ACNS(T) SO1 PolStrat. In addition to holding the responsibility for individual training policy, the ACNS(T) training policy desks are responsible for translating relevant Defence policy change into NS action, the planning and co-ordination of second party audit and training media policy.

b. Training Capabilities. The ACNS(T) Training Capability (TC) Team are responsible for the oversight, management and review of in-Service training delivery. Training Capability Managers (TCMs) support all arms of the NS (including General Service and the Submarine Service), with the exception of Aviation and RM, through the ACNS(T) HQ structure. Training Capability Managers (TCMs) are responsible for liaising between their respective Training Delivery Authorities (TDAs), Training Requirements Authorities (TRAs) and Capability Delivery Teams to ensure that in-service individual training meets the identified need. The TCMs are organised to cover Warfare and Engineering in-service training and act as the single TLoD point of contact for dealing with emergent training requirements and issues. They deliver the TLoD input to all the In-Service Capability Management Boards and also represent and assure the TLoD output at appropriate equipment and platform Project Boards and supporting Working and Steering Groups. The TCMs are experienced warfare and engineering officers and therefore provide SME input and assistance to FOST HQ Staff, in particular the New Capabilities team, who are exclusively TM officers and require SME input to support their TLoD assurance activity. The TCMs deliver a number of FOAP Course and Training Design executive functions and are central to taking forward issues raised through the Training Feedback (S3018) and Training Lessons Identified (DLIMs) processes.

\(^1\) Maritime Training Strategy dated 2018. The Maritime Training Strategy is written in two parts; both of which can be found by searching for “Maritime Training Strategy” on DefNet.
They also provide the TLoD input to wider NCHQ Force Generation meetings either as BaU or for specific emergent operations.

c. **New Capabilities.** The New Capabilities (NC) Team is responsible for assuring the Training Line of Development (TLOD) for new and updated capabilities being introduced over the medium to long term (circa 5-10 years). Reporting to ACOS(T), they are subject to ‘Command Pull’ from NCHQ's MarCap and ISCM teams. The NC team works closely with MTAO, DE&S, ISS and the Submarine Delivery Agency (SDA) to ensure that Project Teams introducing new maritime and joint capabilities take full account of training implications including funding, programme management, training policy and training strategy. ACNS(T) New Capabilities also conduct the quality assurance of Training Needs Analysis (TNA); the majority of which is outsourced.

d. **Maritime Training Acquisition Organisation (MTAO).** Amongst a broad spectrum of assurance activities across the maritime training domain, ACNS(T) is Held to Account (H2A) for assuring the development of training solutions for new and refreshed military capabilities. MTAO comprises of Training specialists, embedded at MOD Abbey Wood (as a team and as singleton posts within specific project teams) and is charged with delivering specialist training support, advice and direction to Project Teams and Capability Sponsors to ensure that the training and personnel implications of DE&S and SDA decisions are considered as an integrated component of Project Team work and at the earliest opportunity. MTAO also oversee the Future Training Unit (FTU) including Service Personnel and, predominantly, contractors at present working on Queen Elizabeth Class projects.

e. **MTAO seeks to ensure that 'human capability' requirements are adequately funded, both at initial acquisition and through-life, and are translated into training solutions that are effective in supporting the delivery of military capabilities.** Elements of MTAO embrace both the capability sponsor and project delivery functions under a single organisational umbrella, to ensure the timely and comprehensive delivery of TLoD direction which is coherent with central strategic direction. Close engagement with the TLoD leads in the Land, Air and Joint domains ensures coherence with other Tri-Service and Joint initiatives, such as the Defence Training and Education Capability (DTEC) programme. In terms of its contribution to the delivery of military capability, MTAO's mission is to ensure that maritime capabilities will be acquired with effective and affordable through-life solutions in accordance with the Maritime Training and Personnel Strategies.

f. **Human Resources Training Services Group (HRTSG).** The following aspects of the training system are the responsibility of the HRTSG (ACOS(PCap) conducted on behalf of the TRA:

1. Maintaining Role Performance Statements (Role PS) for the NS.
2. Planning and execution of external validation (ExVal) for individual training.
(3) Production of non-equipment TNAs and advice and consultancy to outsourced non-equipment TNA projects.

(4) Production and maintenance of the Statement of Trained Requirement (SOTR).

g. **Customer Executive Board (CEB).** The purpose of the CEB is to provide a mechanism for stakeholders to develop the scale and content of training to match the Naval Service (NS) requirement within the available resource. In so doing, the process should hold all parties, including the TDA and the TRA, to account for the execution of their responsibilities in relation to the quantity, quality, timeliness and effectiveness of the training. The individual training CEB structure runs alongside that of the Collective training CEBs as shown in Fig 95-1.
Figure 95-1. CEB Structure

Footnote:
1. Amalgamation of Command Leadership & Management, Ph1, Ph2&3 pre-CEBs.
2. The Littoral Strike CEB has yet to be set up.
h. Direction for CEBs for Individual Training and suggested Terms of Reference are detailed in JSP 822. Attendance at individual CEBs will vary but, as a minimum, the following should be represented:

1. TDA – Chair.
2. Representatives of relevant training schools.
3. TRA, including those empowered to represent both the demander (generally the relevant BM) and the technical requirement.
4. Relevant CMs.
5. Additional customers/stakeholders (as appropriate).
6. HRTSG SOTR Cell, as the custodians of the demand signal.
7. Any commercial partner engaged in the provision of training (as appropriate).

The typical battle rhythm for CEBs is shown in Table 95-1.

i. **Strategic CEB (Strat CEB).** The Strat CEB provides direction and guidance to all NS CEBs. Assuming that Individual CEBs have been successful in endorsing the respective SOTR/SOTT (or in identifying the risk to be carried), the Strat CEB should be able to maintain a ‘high-level’ discussion to endorse the SOTR/SOTT. As such, the following should be in attendance (noting that other personnel may attend in support):

1. ACOS T – Chair.
2. CEB Chairs (COMCORE, COMOT and Comdt DCTT).
3. ACOS(PCap) (representing TRA).
4. DACOS(T).
5. SO1 Pipeline Coherence – Secretary.

**j. Procedure for CEB Process.** Each Individual CEB will be chaired by the relevant TDA³, the rationale being that the TDA will be best placed to provide the necessary training data and, additionally, understand the resources required to deliver that training. Where the TDA is a contractor, the 1* area in which that TDA is hosted or governed will serve as TDA for that CEB with the appropriate Authority contract management and contractor support to understand the contracted position. Defence CEBs are to be attended by the TRA and their representatives as the SOTR/SOTT and requirements setting are integral to Naval training.

**k.** The chair will be responsible for determining the shortfall or surplus between the training demand (SOTR) and the training supply (SOTT) that cannot be resolved by HRTSG before the CEB and ensure clear articulation of actions. The product should be a clear holding to account of people/organisations that are responsible for managing resources, setting the requirement and delivering the training. Unresolved issues and risks should be raised to the Strat CEB.

---

² To be held after GTS targets have been issued – normally chaired by ACOS(T).
³ For the purposes of RN CEBs, this is predominantly COMOT, COMCORE and Comdt DCTT. If the 1* is not available, then a suitably empowered representative – nominally the CO of the Establishment in which the majority of the training occurs – should chair the CEB.
l. The Lead TRA (with both BM and CM involvement) plays a vital role in developing the SOTR and it is critical that the Yr 1 figures agreed at the end of the SOTR process are valid and accurate. It is recognised that the figures for Years 2, 3 and 4 will require increasing refinement as the SOTR progresses year on year. In compiling the SOTR, the following issues are among those that should be taken into account:

(1) New equipment/equipment upgrades.

(2) Changes to policy and legislation.

(3) Impact of ABC measures.

(4) Defence priorities.

(5) Results of external validation.

(6) Changes to infrastructure.

(7) Changes to manpower structure.

(8) Known difficulties of recruiting in specific trades/branches.

(9) Historic data on take up and pass rates on courses.

m. In order to build up meaningful data on the accuracy and validity of SOTR figures, at the end of each training year a comparison of the relevant forecast requirement (SOTR) versus actual achievement is to be undertaken by the training organisation/school. The results of this comparison are to be reported at the CEB, with records maintained to establish trends.⁴

n. Two weeks before the annual Strategic CEB meeting, the Chair of each CEB should forward a short briefing note (using the format at Annex 95A as guidance) to the Strat CEB Secretary (SO1 Pipeline Coherence) to inform the ensuing Strat CEB. This will permit the Strat CEB to record formally the areas where risk has been agreed. This is only of use at the Strat CEB as, for the interim CEB, the SOTT will not yet have been generated, but the format may be useful in considering information pertinent to the Interim CEB.

⁴ Currently subject of on-going work on Outturn Data following ACNS(T)’s/700/1 dated 5 Nov 15 (NOTAL)
Management of Risk. HRTSG-led screening meetings and review of outturn data by BMs and CMs should refine the SOTR figures on an annual basis and thereby ensure that the requirement identified is as close to likely ‘take up’ as possible. In areas where outturn data indicates that course\(^5\) take up is consistently below the requirement then CEB chairs are permitted to take qualified ‘risk’ against the SOTR (by up to 10%) without further approval, taking into account the ‘risk’ already incorporated into these figures by improved screening meetings. The level of risk should be articulated and justified in the Strat CEB brief. It is accepted that this ‘risk’ will be taken by the TDA, rather than collaboratively, unless circumstances otherwise deem it appropriate.

9503. Management of Training

a. Mandated DSAT Activities. JSP 822 Pt 1 Section 1.1 (Figure 4) identifies the mandated activities (processes, outputs and deliverables) required of a Management of Training System (MTS). The DSAT process should be applied intelligently with appropriate flexibility to achieve an effective and efficient Training System capable of supplying the right mix of sufficient, capable, motivated, deployable and diverse people, now and in the future. Mandated activities requiring exemption from a unit’s MTS must be clearly identified, justified and documented within the unit’s MTS (normally the Training Quality Manual) which is to be endorsed by the respective TDA.

b. Construction and Subject Matter of Quality Procedures. The range and depth of quality procedures depend upon the complexity of the training activities and the skills and training required by personnel involved in carrying out these activities. Documented procedures should describe as applicable:

1. The reference documentation to be used.
2. The interrelationship with other procedures.
3. The responsibilities, authority and interrelationships of personnel involved in the procedure.
4. How the procedure is to be performed.
5. The controls to be applied.
6. The quality records to be retained.
7. Local administrative and/or operational or working practices.

\(^5\) Such as professional qualifying courses, leadership courses (associated with promotion), NMT courses (if deemed feasible), and CBRNDC courses (such as ISSC, BSSC, EFSSC).
c. **Mandated Procedures.** Quality manuals must include quality procedures to control the following training activities:

(1) Training Management Review of the Management of Training System (MTS).

(3) Review of published course information.

(4) Procurement and Support of Training Equipment.

(5) Control and review of customer supplied services via Customer Supplier Agreements (CSA), Service Level Agreements (SLA), and contracts.

(6) Training failure policy including reporting procedures following a trainee failure and remedial training guidelines. TDAs are to ensure that, within this procedure, they include an action to inform the relevant Career Manager of any trainee failure at the earliest opportunity so that the individual is not employed in an inappropriate manner.

(7) Verification of trainee course prerequisites.

(8) Definitions for the working (training) week, day and period.

(9) Management of trainees.

(10) Management and reporting of training deficiencies.

(11) Internal Validation (InVal) of Training.

(12) Assessment and testing, including analysis of results, records and review.

(13) Control of quality records.

(14) Conduct of internal (first party) training audits, including corrective and preventative actions.

(15) Identification and recording of staff training.

d. **NS-Specific Quality Records List.** In addition to any other quality records identified in DSAT or locally, the following are to be retained by NS TDAs for the period specified.
### Table 95-2. Retention of Quality Records

<td></td>
</tr>
</tbody>
</table>

**Note.** Archived documents are to be retained in perpetuity.

e. **Maintenance and Review of Training Agreements.** Where training is supplied by, or for, other MoD agencies, the provision of the training must be detailed in a formal CSA. Where training activities are supplied to a customer within the same TLB, the customer–supplier relationship for the provision of the training should be detailed in a formal SLA. Where external providers train NS personnel, the provider’s training system and training documentation must conform to the requirements of the DSAT as amplified by this Section. Where this is not the case, the TDA must seek a written dispensation from ACNS(T) or from the appropriate CEB (for Defence training). This policy need not be applied retrospectively, but should be implemented at the next review point.

---

6 Non-conformity concessions are only to be approved by SO1 POL STRAT (NAVY TRG HE-POLSTRAT SO1; 93938 5699). Any non-conformity concessions approved prior to 1 Jan 19 are to be re-submitted to SO1 POL STRAT for approval.
f. **Review of the TrAD.** All training activities require a TrAD as they provide the contract for the provision and commencement of training as agreed by the stakeholders. This includes both internally and externally run courses, including K-Courses. In order to provide continuity in the management and upkeep of the TrADs the TDA (rather than the TRA as specified in JSP 822), on behalf of the CEB, will act as the custodian. TrADs are to be reviewed and re-authorised by ACNS(T)/CEB at intervals not exceeding three years following either an external or internal course review. During this review, the appropriateness of the Role PS training categories is to be considered to ensure the capability of the TDAs to provide the specified level of training and to ensure that the most efficient and effective strategy for training is being employed. Review of TrADs is also to consider feedback from ExVal to ensure that any differences between stated TPS level of performance and actual ex-trainee level of performance are resolved. Amended states of training documentation resulting from the review are to be referenced on the TrADs.

g. **Review of Published Course Information.** Course information (such as prospectuses, marketing literature, entry requirements, nomination procedures etc.) is to be periodically reviewed, at periods not exceeding 3 years, to ensure that it is current, comprehensive and unambiguous.

h. **Training Documentation Review.** Unless initiated earlier by the Customer’s Agent (generally HRTSG), the TDA is to conduct an internal review of course training documentation at intervals not exceeding three years as determined by the Document Review and Management Plan (DRMP). Prior to conducting internal reviews, the TDA should seek confirmation from the Customer’s Agent that the Role PS is still valid. Where a course is of one year in length or more, the requirements for review intervals are extended to five years. JSP 822 does not mandate any activities for training change as activities will be dependent on the type and extent of any change. However, training review should take into account new technologies and/or training options that may have emerged since the last review.

9504. **Management of Information**

a. **General.** All personnel working in the training/learning domain must ensure that learning data and information is assured, managed and exploited effectively. The Management of Information (IM) has three key areas:

(1) **Information Assurance (IA).** IA is the practice of assuring information and managing risks related to the use, processing, storage, and transmission of information or data and the systems and processes used for those purposes. IA includes protection of the integrity, availability, authenticity, non-repudiation and confidentiality of users’ data.

---

7 K-Courses (usually delivered by the Original Equipment Manufacturer) are permissible as an interim and enduring training solution for any New Capability provided that they are reviewed and validated by the TRA prior to delivery and their existence is captured within the annual SOTR/SOTT cycle. Additionally, K-Courses will need to meet the Naval Service requirement and be conducted in accordance with an endorsed TrAD with appropriate assessments to validate knowledge transfer and ensure that the required level of competence is achieved.
(2) **Information Management (IM).** IM concerns a cycle of organisational activity: the acquisition of data or information from one or more sources, the custodianship and the distribution of that information to those who need it, and its ultimate disposal through archiving or deletion.

(3) **Information Exploitation (IX).** IX facilitates real business outcomes from data and information within the business. Without IX, data is not utilised effectively, thus reducing the benefit of decision making within the organisation.

b. **Benefits of IM.** The benefit cycle in Fig 95-2 is an example of a typical cycle to conducting good IM and IX to save money. Improved IM and IX can also improve other areas of the business such as improved duty of care, coherent and timely answering of Parliamentary Questions and Freedom of Information requests and effective management of training risks.

Fig 95-2. Example of MI Benefits Cycle

(1) **Data Inputter.** The data inputter is a user who inputs data or information into the capability. This can be via the upload of files or media products but mainly through data entry through a Graphical User Interface (GUI).
(2) **Data Analyst.** The data analyst is a user who takes raw data and converts it via business intelligence GUI tools using a set of queries to produce usable information products that ultimately will be consumed to deliver a business benefit (i.e., the principal reason to support decision-making).

(3) **Information Consumer.** The information consumer is a user who will interface with the ‘front end’ GUI and access the relevant information product that is being provided to meet their business needs.

d. An example of an interlinked user role is a course scheduler. When scheduling resource, the user will be a data inputter, then may become a data analyst to analyse the ‘what if’ schedule and analytical reports and then consume information from automatically produced training timetables. Annex 95B illustrates how the three key roles are interlinked with the data and information exchange process.

e. **Data/Information Intellectual Property Rights (IPR).** To get the best value from IX, it is important to understand who owns IPR and where the data/information is to be stored when working through outsourced training contracts. The following is to be adhered to:

f. **Business and Training/Learning Data and Information.** This policy only caters for data and information that is related to the training/learning domain[^8]. It does not provide guidance for any Business-related information.

g. Within the business space, the main tools are MODNet Office365, OneDrive and SharePoint. The MODNet provided SharePoint is used to hold information related to the operation and management of a unit’s business.

h. **Embed Vs Extract.** To enable valuable IX, data/information must remain embedded within the IM system where physically possible. Any data/information that is extracted will hold the value of the information product at the time of extraction. Any updates to the live data/information will not be replicated into the extracted versions.

i. Extracting data/information from the IM system can result in multiple copies to manage and a lack of version control. For example, a document link is embedded, it keeps the live document on the cloud storage area and any changes or collaborations from sending the link will be available, while taking a copy of the document and emailing it is extracting it, and any future changes to the live document after this point will not be visible in the extracted product.

[^8]: Training/Learning data or information is that which is created as part of the five areas of Defence Systems Approach to Training (DSAT): Analysis, Design, Deliver, Assurance and the Management of the Training System (MTS).
TAFMIS and Defence Learning Environment (DLE) Overlap of Functionality. TAFMIS and the DLE are two major Defence provided training/learning IM systems, developed to cater for different business management areas of Defence Training and Education. However, over the through-life development of capabilities, there is now an overlap of functionality and both systems can be used to carry out some IM and IX tasks. The major business function areas where the overlaps lay are as follows:

1. **Trainee/Student Assessments.** The DLE has online electronic assessments while TAFMIS focuses on paper-based assessments.

2. **Trainee/Student and Trainer/Instructor Validation.** The DLE has online electronic surveys and validations, while TAFMIS uses paper-based trainer/instructor or trainee/student feedback questionnaires.

3. **Business Intelligence (BI).** TAFMIS has a full suite of BI tools providing information reporting and Dashboarding. The DLE utilises the Learning Management System (LMS) to deliver graphical BI in addition to the Learning Record System (LRS) to deliver report-based BI.

4. **Trainee/Student Management.** TAFMIS manages all aspects of student management from loading to competence recording and trainee tracking for all MOD residential training courses. Trainees are also managed and tracked with their learning activity on DLE, this could be linked to residential training but also blended learning activities.

When considering which IM and IX system is to be used for the business area, security classifications must be understood. The DLE can only be used for OFFICIAL data and information (see Annex 95C for Data/Information Primary Locations). Where the DLE and TAFMIS have overlapping functionality, organisations have the option to decide which is the most relevant and appropriate system to meet the training environment needs.

Appropriate data will need to be exported periodically via a business process, from the DLE into TAFMIS database as the systems are not physically linked. Organisations are to use TAFMIS as the master ‘data silo’. This is the only database that links with personnel data via JPA and will enable truly valuable IX via fully automated business intelligence.

### Lower Assurance Domain Issues
Any applications or systems that sit on the Defence Gateway occupy the lower assurance domain. The lower assurance is due to the Defence Gateway not having the same level of network monitoring and IA as the gateway to the Assured LAN Interconnect (ALI).

---

9. TAFMIS uses Business Objects IX and Xcelciouc, while DLE uses Moodle and Learning Locker.
10. The current internet gateway for the ALI is the Enterprise Gateway Service (EGS) and will be replaced by a new service called the Boundary Protection Services (BPS) by Dec 18.
(1) When operating with information within the Lower Assurance Domain, it is critical to continue to question the classification of the information being placed on it\(^\text{11}\). This is particularly important when considering how the accumulation of information may result in an increased security classification. If there is any ever doubt, the unit Information Manager (IMan) and unit IT Security Officer (ITSO) should be consulted before information is published on the Lower Assurance Domain.

(2) As an example, future movement of personnel is always classed as sensitive and information pertaining to future movement of personnel should never be held in the Lower Assurance Domain.

n. **Local Holding of Information/Media on Training LANs (TLAN).** Defence Information Strategy\(^\text{12}\) directs MOD to aim for a ‘cloud first’ approach, so local hosting of information and media on physical servers in Windows file systems does not follow Defence strategy and reduces the value from IM and IX. However, there are some situations where the only solution is to host information on a TLAN. These are as follows:

(1) **OFFICIAL-SENSITIVE Media.** OS media cannot be uploaded on the DLE and while MODNet SharePoint may seem like the next best option, this SharePoint is for Business information. OS media can be locally hosted on the TLAN in this situation. Once the DLMC delivers OS capability for the Learning Content Management System (LCMS), OS material will be stored in this location\(^\text{13}\).

(2) **Standalone LANs.** A standalone LAN is a network of computers that doesn’t connect to a Wide Area Network (WAN) which may be ether the Internet, the ALI or the Secret LAN Interconnect (SLI). In the case where the training provider only has a standalone LAN, they are permitted to host the information locally on the server of the LAN as they will not be able to access the cloud services.

(3) **SECRET (and above) Media/Information.** DLMC will not be providing a SECRET (or above) MI system. Therefore, to ensure MI is carried out for this information, it must be locally hosted on the SECRET/TOP-SECRET TLAN servers.

o. **Relationship Databases vs Flat File.** It is important to understand the value of a relationship database when managing data in the training space. A relationship database enables data to be entered only once and then replicated throughout the system. This allows for automated connection across many areas of business\(^\text{14}\). Consequently, the data will only require updates once, and all associated information products will update automatically.

---

\(^{11}\) Full details on guidance can be found in JSP 604, Part 1 Volume 3, MoD Technical Information Assurance Architecture.

\(^{12}\) Defence Information Assurance Strategy.

\(^{13}\) The date has not been set for implementation of an OS LCMS. More information on the DLMC programme can be found at the DLMC Defence Intranet Link.

\(^{14}\) An example is that data relating to Training Analysis can link to data in Training Design, which links to Training Deliver and links to Training Assurance.
(1) **Flat File Database.** A flat file database (e.g. a standalone Excel spreadsheet) does not have relationships as it sits as a silo separately to other databases. As a result, when data is extracted from a flat file database, any edits will need to be replicated in every other associated file. For this reason, flat files are only to be used as a temporary data capture, which must be followed up by entering the data into a relationship database as a permanent solution.

(2) **Relationship Databases.** These aid in ensuring constancy in taxonomy throughout the data set. Flat file databases do not have the same level of assurance.

p. **Draft, Collaborate, Publish Cycle.** Ideally, the data inputter is to use either TAFMIS or the DLE systems as the primary tool for inputting data so that all data can be converted into an information product automatically. However, a need will still exist for some users to continue to manage information products created using a Microsoft Office application. In these instances, the user is to employ MODNet and Office360 OneDrive to draft the information, then move it to the FOST SharePoint site to collaborate and publish. Users should not collaborate and publish training/learning information onto the MODNet business SharePoint sites.

9505. **Personnel Engaged in Delivering, Managing and Supporting Training**

a. **General.** All personnel involved in the management, evaluation, quality assurance, analysis, design and development, delivery and assessment of training and the supervision of trainees shall be Suitably Qualified and Experienced Personnel (SQEP). DCTS courses provide the minimum level of training required by training practitioners, however all training practitioners, regardless of role, would benefit from being mentored and engaging with Continuing Professional Development (CPD).

b. The TDA shall determine the necessary number, specialisation, grade, competences and qualifications of all personnel required for the management, evaluation, quality assurance, design and development, delivery and assessment of training and the supervision of trainees. This information is to be detailed in Staff Training and Development Records, Terms of Reference and the Unit Establishment List (UEL) as it is utilized by CMs to identify and select personnel suitable for employment in the training roles. It is to be subject to regular review. The UEL must be annotated with the extended hand-over period/pre-employment training requirement.

c. The requirements of this policy apply to Service and civilian personnel and contractors undertaking training and supervisory duties. Where a contract does not require contractor staff to undertake the prescribed course or hold an equivalent qualification, it should be revised at the earliest available opportunity. In the meantime, arrangements should be put in place to mitigate the risk.

---

15 Flat files are separated from other databases unless built through macros and other enabling configuration.
d. Training Requirements for Training and Supervisory Staff. All trainers delivering formal Phase 1, 2 or 3 training within the RN TLB are to be trained with the Defence Train the Trainer Phase 1 and 2 (DTTT (Phase 1 and 2)) course; for Phase 3 trainers this is a higher requirement than the minimum specified within JSP 822 Part 1 Section 4. Defence Trainer (Flying) (DTTT(Fg)) is an alternative Defence Training Capability competence that qualifies trainers to deliver aircrew training in the Ph 2 and 3 Flying Training environment only. Therefore, aircrew instructors require either DTTT (Phase 1 and 2) or DTTT(Fg) to deliver aircrew training, noting that DTTT(Fg) only enables trainers to deliver aircrew one-to-one instruction and mass briefs. Aircrew instructors required to deliver formal group learning must hold a DTTT (Phase 1 and 2) competence. Personnel required to supervise, but not to train, Phase 1 and/or 2 trainees must attend the Care of Trainees (COT) course delivered by DCTS or a DCTS approved franchise. Supervisory staff must also follow the supervisory care policy at Para 9510. Requirements for contractors are detailed in JSP 822. For completeness, the roles and responsibilities of Defence Trainer Managers, Defence Trainer Supervisors and Defence Trainers are included at Annexes 95D, 95E and 95F.

e. Legacy Trainer Qualifications.

(1) There has been some confusion in the past about what is required for upskilling, especially for those already in positions where DTC requirements have changed. Fig 95-3 illustrates the upskilling process for DT who hold legacy qualifications.

(2) The decision about whether a recognised external equivalent or higher qualification is suitable will be made by NAVY TRG HQ-EL3 E1A.

(3) Personnel who are required to conduct a Care of Trainees (COT) course must do so through the Defence Centre of Training Support (DCTS) or an approved DCTS franchise. Although there is an eCOT course on the Defence Learning Environment, this is an Army course and does not meet the Training Objectives required for COT. Therefore, the eCOT course can only be used for continuous professional development and/or to mitigate risk prior to personnel being loaded on an approved COT course.
(4) For DTS personnel, those who have older military qualifications, such as DIME or DIAD, are required to be observed carrying out a DTS observation on arrival in post. Personnel must hold the DTTT (Practitioner) competence prior to becoming a DTS. It is strongly recommended that on arrival in post, DIME or DIAD-qualified personnel complete the DTS Workplace portfolio in order to be brought up to the DTS (Practitioner) competence on JPA.

g. **Workplace Training (WT).** Formal WT is training that is conducted within the employing unit[^16] to achieve the Workplace Training Statement[^17]. As with all formal training, it is governed by the appropriate CEB with a designated TRA and TDA. Individuals are deemed to be competent once they have achieved all elements of the Formal Training Statement: Training Performance Statement through the Training Establishment (or distributed) and WTS in the Workplace.

h. **Defence Workplace Trainer (DWT).** In Units where WT is conducted, at least one person must be DWT qualified. This person is responsible for the management, governance, and oversight of WT.

i. **Summary.** The success of DTC requires all personnel involved to be trained to carry out their role and understand their responsibilities. Those holding legacy qualifications are to follow the upskilling process to ensure that they meet the standards required as per this policy.

j. **Course Booking.** With the exception of courses delivered by an approved DCTS franchise, all DCTS courses are to be booked direct with DCTS in accordance with the annual DIN.

[^16]: This includes task-book training, and Apprenticeships, (but excluding Functional Skills).
[^17]: Other training delivered in the workplace (eg. Informal structured and work integrated training/learning) that is not part of the WTS is not subject to JSP 822.
k. **Other Requirements**

(1) **Risk Management.** Where it has not been possible to provide training for training and supervisory staff before taking up a post and where training may therefore be deemed to be a risk, the training organisation’s management board is to decide whether to manage the risk locally or to raise the issue with the appropriate TCM at ACNS(T) or with COS (Avn). The details of the decision and any actions taken to mitigate the situation are to be included in the Commander’s Risk Assessment (CRA). In addition, the following issues are also to be taken into account when compiling the CRA.

   (a) **Adventurous Training.** Where training involves an element of Adventurous Training (such as the Brecon Beacons element of Command Courses), trainers, in addition to undertaking either the DTTT (Phase 1 and 2) course, are to be trained in the appropriate skills in accordance with JSP 419, Adventurous Training in the UK Armed Forces. Advice on where and how this training may be obtained should be sought from Staff Officer Adventurous Training, HMS TEMERAIRE.

   (b) **Visiting Lecturers.** Consideration is to be given to the requirements for training of visiting lecturers. The following factors should be among those taken into account: frequency of delivery, existing qualifications, employing organisation, degree of contact with trainees and subject matter. If visiting lecturers (for example music tutors) have unsupervised access to Phase 1 or 2 trainees, they are to attend the COT course.

(2) **Trainer Observation.** In order to assure training standards and to assist in staff development, trainers are to be observed in their training technique and subject matter knowledge in accordance with the following directions.

   (a) Trainer observations are to be carried out by designated members of staff (trainer supervisors) within an organisation who are qualified with the Defence Trainer Supervisor (DTS) qualification. Supervisors holding legacy assessor qualifications should attend CPD to become familiar with delivery techniques trained on the DTTT (Phase 1 and 2) course (such as Present Apply Review, PAR).
(b) On completion of the DTTT (Phase 1 and 2) course all training staff are to be observed in accordance with the trainer Workplace Training (WpT) Portfolio. WpT observations shall not be conducted less than one month apart from each other to allow sufficient time for reflective practice. The portfolio must be completed within nine months of completing DTTT (Phase 1 and 2) and the trainer awarded the JPA Defence Trainer L2 Practitioner competence. Trainers should not deliver training until qualified, however any trainer required to deliver training prior to completing the appropriate Train the Trainer course must be fully supervised. In addition, a formal risk assessment is to be carried out based on this observation and retained as a quality record until such a time as the trainer completes their train the trainer course (maximum of three months). The risk assessment is to be updated when the trainer is re-assessed and is not to be used in lieu of attendance on the DTTT (Phase 1 and 2) course.

(c) The performance of all staff employed on training duties is to be formally assessed at intervals of no more than six months. It is considered good practice to align observations with the appraisal cycle so that one observation is conducted pre-MPAR and one prior to an individual’s annual reporting date.

(d) Records of training staff observations and assessment are to be established and maintained as quality records.

(e) If, as a result of an assessment, concern is raised about the competence of a trainer, action should be taken as determined by the degree of under-performance, any pertinent terms of employment and/or warning systems. It may include, as appropriate:

i. Replacement/re-employment.

ii. Suspension from training duties while undertaking a programme of ‘in-house’ remedial training by experienced and qualified staff, followed by independent re-assessment.

iii. Continue training under close supervision by experienced trainer supervisors, whilst undergoing a programme of ‘in-house’ remedial training, followed by independent re-assessment.
9506. Analysis of Training

a. **Training Needs Analysis (TNA)**. TNA is a structured scoping and analysis of training need arising as a result of new equipment acquisition, doctrinal change, organisational change, or changes to policy/legislation. It generally includes a comparison of different training methods and technologies, with a view to recommending the optimum training solution for maximum cost-effectiveness. It is a highly flexible procedure with the choice of supporting tools and techniques to suit different training systems. In all cases, however, a TNA is an output based, iterative process that provides an audit trail for all decisions and is closely mapped to the requirements of the DSAT Quality Management System as detailed in JSP 822. Additional policy for the delivery and conduct of TNAs relating to the introduction of ‘New Capabilities’ can be found within the Acquisition Systems Guidance (ASG) Governing Policy (GP) 2.8 – Training and Training Equipment. Two documents within the ASG provide guidance and standards to contractors and personnel involved in the acquisition and subsequent delivery of New Capabilities within the maritime domain:

1. **Maritime Acquisition Training Line of Development Guidance Part 1: Project Team Guidance.** Part 1 provides an overview of the building blocks of the Training Lines of Development (TLoD), underpinning principles, outlines responsibilities and highlights the key organisations involved in the delivery of human capability through-life within the maritime domain.

2. **Maritime Acquisition Training Line of Development Guidance Part 2: Training Analysis Standards.** Part 2 provides standards to normalise TNA practice for analysts working in the maritime domain, applicable to both internal and external analysts.

b. Within the NS, TNA is separated between Equipment based TNA and Human Capability (non-equipment) TNA. Further advice can be obtained from the following contacts:

1. **Equipment Capability.** Advice on Equipment Capability based TNA’s should be sourced from ACNS(T) SO2 New Capabilities (NAVY TRG HQ-NC SO2).

2. **Human Capability.** Human Capability Training Needs Analysis (HCTNA) is for non-equipment based training needs. Conduct of a HCTNA broadly follows the standard TNA process and is managed by HRTSG. Further guidance on HCTNA can be provided by NAVY PCAP-HRTSG TRGREQSO2.
c. **Role Performance Statement (Role PS) and Competence Frameworks (CF).** The Role PS, as outlined in JSP 822, remains the preferred document format for the articulation of TRA requirements within the NS, from which detailed training design can be conducted. If, following HRTSG advice, the TRAs wish to develop CFs it does not negate the need for the production of a detailed Role PS, which is required to support the training design process. Within the NS the TRA’s agent, HRTSG, is the custodian of all Role PS and CFs. If, after correct tasking, it is ascertained that a CF would better articulate the requirement than a Role PS, then the CF is to be developed by HRTSG (or under its direction) to ensure coherency across the Service. The TRA will be responsible for endorsing all CFs.

---

9507. **Policy on the Use of Learning Technologies (LT) in Training**

a. LT are defined as ‘the broad scope of technologies (including hardware, software and communication networks) that can be used to support, manage and deliver learning’. The use of these technologies has grown significantly in recent years due to cost savings measures and technology advances. There remains plenty of scope to expand their use in the NS to enhance training effectiveness and promote greater efficiencies.

b. **Governance.** Policy for LT is developed and owned by the ACNS(T) SO1 PolStrat desk. All personnel considering new LT projects are first to contact the SO2 Individual Training Policy desk in ACNS(T) to seek advice on the policy and other stakeholders to consult. This will ensure exploitation of existing LT materiel and for new projects to be developed to allow maximum reusability of content for the NS.

---

18 If the TRA or TDA require further clarification on the development of a Role PS to support a CF then they are to contact SO1 POL STRAT (NAVY TRG HE_POLSTRAT SO1; 93938 5699).
9508. Governance of the Defence Learning Environment (DLE)

a. **DLE.** The DLE is the primary source of e-learning for MOD personnel and MOD-sponsored users. The DLE is accessible from the Defence Gateway. It can be accessed from both DII/MODNET and internet-enabled devices.

b. **Structure and Governance.** The DLE’s structure is ordered by Top Level Budgets (ie. Royal Navy, British Army, Royal Air Force and Joint Forces Command). The Royal Navy’s area is called a ‘Category’, which is further split into sub-categories as per Figure 95-4.

Figure 95-4. Sub-Categories that Constitute the RN Category

- Sub Categories
  - ACOS (CSAV)
  - COMMARRES
  - ACOS (Support)
  - RFA
  - COMCT
  - ACCS (T)
  - COMCORE
  - ACCS (MED)

- Warfare
- Engineering
- Submariners
- Royal Marines
- Aviation
- Logistics
- Medical
- Initial Training
- NCT
- CLM
- Collective Training
- Maritime Reserves
- Learning and Development
- Royal Naval
- InVal & ExVal
- Assessment

Current the RFA and Collective Training sub-categories are hidden as there is no associated content. Royal Marines has stakeholder interest in both COMOT and COMCORE. **Whilst RN Logistics report to the Defence College of Logistics, Policing and Administration (DCLPA) they will be allocated a Logistics Sub-Category for coherence for the RN user.**

c. **Categories.** All categories and Sub-Categories require a Category and Sub-Category manager, who is responsible for the management and governance of their respective area.

d. **Sub-categories.** The Naval Service Category governance structure is shown in Fig 95-5..

---

19 Currently the RFA and Collective Training sub-categories are hidden as there is no associated content.
* Royal Marines has stakeholder interest in both COMOT and COMCORE.
** Whilst RN Logistics report to the Defence College of Logistics, Policing and Administration (DCLPA) they will be allocated a Logistics Sub-Category for coherence of the Naval Service user.
e. **Terms of Reference.** Full details of the roles and responsibilities of the Category and Sub-Category managers are detailed in JSP 822\(^2\)\(^0\).

f. **Training Requirements from 1 Apr 19.** From 1 Apr 19 personnel involved in delivery and management of DLE training are required to complete the relevant training courses. All legacy DLE qualifications held by personnel in the RN Category will no longer be extant beyond 1 Oct 19 and personnel who have not completed the new training will have their DLE access removed.\(^2\)\(^1\)

g. Most of the new DLE courses will be hosted on the DLE, which allows personnel to complete their training at a time and place that suits them and the organisation. 2019DIN07-027 provides the detailed list of courses, how to complete the training and how to apply for the courses that are residential.

h. A summary of the courses to support DLE roles that commenced on 1 Apr 19 is as follows:

1. **Limited Access Student.** Students who are not MOD or Civil Servants are classed as Limited Access Student (LAS). There will be no need to undertake specific training to meet their role on the DLE.

2. **DLE User.** MOD or Civil Servant staff who are in receipt of DLE training. These users have no need to undertake specific training to meet their role on the DLE.

3. **DLE Administration Course (DLEADM).** Course Administrators usually form part of a school's booking and administration cell. The course is available by self-enrolment and will take approximately 2 hours to complete.

\(^2\)\(^0\) JSP 822, Part 1, Chapter 5, Section 5.2, Annex A (June 2019 Version)

\(^2\)\(^1\) This supersedes the guidelines in DIINDIN07-102 of 12 months to complete the training.
(4) **DLE Foundation Course (DLEFDN).** Trainers are usually assigned to a course to deliver and support training on the DLE with the ability to add, edit course content and carry out course assessments. The DLEFDN course is available by self-enrolment and will take approximately 3 hours and 30 minutes to complete.

(5) **DLE Intermediate Course (DLEINT).** Course Designers are usually assigned to a Sub Category, and design and develop courses on the DLE. The DLEINT course is available by self-enrolment and will take approximately 1 hour to complete.

(6) **DLE Advanced Course (DLEADV).** Category Managers, Deputy Category Managers and Sub-Category Managers are assigned at Category or Sub Category level. The DLEADV course is available by self-enrolment and will take approximately 2 hours and 30 mins to complete.

(7) **Designing Online Learning Course (DOLC).** Designing online learning training comprises a one-day face-to-face course at the Defence Academy, Shrivenham. The aim of the course is to develop the skills required to design and create engaging, effective and compelling Moodle-based learning on the DLE. DOLC training is mandated for all DLE Course Designers and those developing online learning within the DLE.

(8) **Introduction to Learning Technologies (ILT) Workshop.** The ILT workshop is aimed at trainers and training designers. It provides an overview of Technology Enhanced Learning and an opportunity for the learner to experience emerging technologies in order to consider using them to enhance trainees’ learning experiences. This is not a mandated course, but it is recommended that personnel involved in design, delivery or management of technology enhanced learning complete this workshop.

**9509. Delivery of Training**

a. **Review and Reporting of Training Failures.** Training designers are to document the consequences of test failure on Assessment Specifications (ASpecs). The consequences of failure detailed on the ASpec are to be applied to all trainees failing assessments or tests. Training Managers are to ensure that appropriate remedial action has been instigated in accordance with local procedures. Procedures are to be established, documented and maintained to prevent any trainee who has failed a module or a complete course from being employed in a capacity which requires the successful completion of the course.

   (1) **Review.** Each module or course failure is to be reviewed as an individual event and a decision made regarding the future of the trainee. A record of the decision is to be kept with the trainee’s records until the trainee leaves the Service. Any training which deviates from the approved specification is to be subject to review prior to issue of completion certificates. Records are to be maintained of such reviews and any actions or decisions taken. Where training provided does not meet the design intent, corrective/preventive action is to be initiated.
(2) **Reporting.** NS TDAs are to establish and maintain documented trainee failure reporting procedures. Where a trainee fails a course, the facts are to be reported to the appropriate authorities. Where trainees, through no fault of their own, fail to achieve the level of training specified by the TPS, TDAs are to annotate the trainee’s records to indicate the shortfall in training. This training shortfall is to be brought to the attention of the trainee’s next employing unit and also clearly shown on the trainee’s workplace training documentation.

b. **Recording of Remedial Training (RT) Policy.** JSP 822 provides a standardised framework to manage, deliver and record measures of Remedial Training (RT) taken to address poor performance during initial training in Phases 1 and 2. With the exception of verbal rebukes all RT is to be recorded. A template for use by establishments is at Annex 95G and is to be used for all Phase 1 and 2 training. JSP 822 further details the requirement for an auditable chain linking the Policy to the actions taken by trainers. Records are to be regularly examined at establishment level to ensure that local policy/guidelines are effective.

**9510. Assurance – Second Party Audit**

a. Audits and inspections are conducted at 3 levels: 1st party, 2nd party and 3rd party as detailed in JSP 822. The following are most likely to fulfil assurance roles:

(1) **TRA:**

   (a) Evaluation Strategy.

   (b) ExVal of the training activity

   (c) Contribution to the Management of Training System (MTS).

(2) **TDA:**

   (a) 2nd party audit and inspection of the Training System (external to the training activity).

   (b) Contribution to the MTS.

(3) **Training Provider:**

   (a) InVal (based upon the Evaluation Strategy written by the TRA).

   (b) ExVal (implementing findings provided by the TRA).

   (c) 1st party audit and inspection of the training design process and documentation.

   (d) Contribution to the MTS.
b. Second Party Audits are programmed, managed and delivered, on behalf of ACNS(T), by SO2 Assurance. ACOS(T) staff will ensure that all areas of individual training are subject to an independent (second party) audit. Audits will check a unit’s compliance against JSP 822 including, for Phase 1 and 2 units, their implementation of measures providing Welfare and Duty of Care (WDoC) to trainees and staff. Audits are scaled according to the size of the training unit being audited, any risks with training identified through CEB processes and a unit’s self-declaration of compliance intended to articulate both the level of compliance against JSP 822 and the risks associated with training. Categories of risk include, but are not limited to:

(1) Risk to Life (RtL).
(2) Risk to reputation (eg. Phase 1 and 2).
(3) Risk to Operations.

c. If a Phase 1 or 2 training unit has recently received a third-party inspection (Ofsted) the audit will focus predominantly on JSP 822 compliance. Actions resulting from the Ofsted visit and progress will also be reviewed.

d. **Audit Planning Cycle.** The TCWs/CEBs are to monitor all training units and their levels of compliance with JSP 822 and BRd 3(1); SO2 Assurance will in turn amend the 2PA programme for the subsequent training year. Endorsement of the annual programme will be given by the Strat CEB preceding the forthcoming Training Year. The planning cycle is shown below:

<table>
<thead>
<tr>
<th>What</th>
<th>Who</th>
<th>When</th>
</tr>
</thead>
<tbody>
<tr>
<td>Identify training risks through use of a Self-Declaration Report</td>
<td>Training units/Providers</td>
<td>Submitted to the TCWG/CEBWG via TDAs prior to the Spring CEB</td>
</tr>
<tr>
<td>Propose areas for targeted 2PA</td>
<td>TCWG/CEB</td>
<td>Prior to Spring CEB</td>
</tr>
<tr>
<td>Develop audit programme for next TY for endorsement by Strat CEB</td>
<td>SO2 Assurance</td>
<td>Prior to Spring Strat CEB</td>
</tr>
<tr>
<td>Annual trends analysis report to ACNS(T), TDAs and TESRR</td>
<td>SO2 Assurance</td>
<td>Prior to Summer CEBs</td>
</tr>
</tbody>
</table>

e. **Resourcing 2PA.** The majority of audits will be led by ACNS(T) SO2 Assurance in the capacity of NS lead for 2PA. Due to the scale of the task however, TDAs are to provide SQEP auditors (and occasionally SQEP Lead Auditors) to assist SO2 Assurance in the delivery of 2PA. Resources required for each audit will normally be identified not later than three months prior to an audit; requests for each audit will be sent via respective TDA Chiefs of Staff. Auditors must not be involved in auditing training within their own TDA organisation.

f. **Auditor SQEP.** Through liaison with the TDAs, SO2 Assurance will maintain a list of SQEP auditors. The following SQEP is identified as the minimum requirement for auditors.
Table 95-4. Auditor SQEP

<table>
<thead>
<tr>
<th>Qualification</th>
<th>Experience</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lead Auditor</td>
<td>Attended the Defence Training Auditor course at DCTS (minimum) or an external ISO 9001 Lead Auditor course (preferred). Rank: Lt Cdr with relevant Individual Training Management experience (in exceptional circumstances senior Lts may be used to lead smaller audits but will not include WDoC). Audits: Conducted a minimum of one audit as a full team member (minimum) and shadowed a lead auditor.</td>
</tr>
<tr>
<td>Audit Team Member</td>
<td>Attended the Defence Training Auditor course at DCTS. Rank: SLt–Lt Cdr with relevant Individual Training Management experience. Audits: Shadowed an audit team member at least once.</td>
</tr>
</tbody>
</table>

g. Audit Battle Rhythm. The following table outlines the typical process for an audit:

Table 95-5. Audit Battle Rhythm

<table>
<thead>
<tr>
<th>What</th>
<th>Who</th>
<th>When</th>
</tr>
</thead>
<tbody>
<tr>
<td>Conduct a scoping visit to the unit</td>
<td>SO2 Assurance</td>
<td>3 months prior to audit</td>

<tr>
<td>Release draft report to unit</td>
<td>Lead Auditor</td>
<td>nlt 3 weeks post audit</td>
</tr>
<tr>
<td>Factual accuracy check</td>
<td>Audited Unit</td>
<td>3–4 weeks post audit</td>
</tr>
<tr>
<td>Submit audit report to TDA and DTEAWG</td>
<td>Lead Auditor</td>
<td>5 weeks post audit</td>
</tr>
<tr>
<td>(TDA to forward to CEB, CEBWG and other relevant stakeholders for action)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Develop action plan and submit to TDA</td>
<td>Audited Unit</td>
<td>1–2 months post audit</td>
</tr>
<tr>
<td>Conduct follow up visit</td>
<td>Lead Auditor</td>
<td>3–6 months post audit</td>
</tr>
<tr>
<td>Submit follow up report to TDA and DTEAWG</td>
<td>Lead Auditor</td>
<td>6 months post audit</td>
</tr>
</tbody>
</table>

h. Self-Declaration Reports. Training units are to produce a Self-Declaration Report (SDR) in advance of their 2PA. The SDR is similar in function to a unit’s Ofsted Self-Assessment Report (SAR) but is an evaluation of a unit’s compliance with the requirements laid down in both JSP 822 and BRd 3(1). The SDR should draw upon data from the unit’s Quality and Improvement Action Plan (QIAP) and internal (first party) audit processes. Typical headings in the SDR are as follows:

(1) Overall compliance grade: (Good/Satisfactory/Requires Improvement).

(2) Areas of full-compliance.
(3) Areas of partial compliance.

(4) Areas of nil compliance.

(5) Training risks:

   (a) Risks to Reputation.

   (b) Risks to Operations.

(7) Units can cross-reference evidence within the report but are not expected to include the evidence when submitting reports to their TDAs. SDRs will be used to inform the sampling of training documentation during the audit to ensure that the limited resources available add the most value.

i. **Reporting of Non-Conformities.** All non-conformities identified during 2PA (or independently from a 2PA) will be recorded centrally by SO2 Assurance and reported to the FOST Management Group (FMG) on a quarterly basis. An annual report of 2PA activity, findings, trends and outstanding non-conformities will also be produced for circulation to ACNS(T), TDAs and the Defence Training and Education Assurance Working Group (DTEAWG).

j. **Assurance of Contractor Produced Material.** There is an existing requirement for ACNS(T) to validate the courseware and assess the quality of training prior to Navy Command’s acceptance of contractual training into the NS. Contractual auditing is split into 2 discrete areas: Courseware Quality Assurance (QA) and Assessment of Training Demonstrations. Once these assurances have been fully endorsed by the Assurance Team, 1st Party Audit responsibility will pass to the training provider.

1. **Courseware Quality Assurance (QA).** The contractor provides the total courseware for each individual course. The Assurance Team assesses a percentage random selection of this courseware and assures it against JSP 822 or other contracted Standards. Feedback is then provided to the relevant Training Implementation Working Group (TIWG) via the respective ACNS(T) TCM.

2. **Assessment of Training Demonstrations.** The contractor demonstrates nominated training packages. It is the responsibility of the assigned Assurance Team to assess the suitability of the training package by assessing the trainer, use and suitability of contractor lesson documentation (Lesson Plan/LSpec etc.), and the training media and environment against the requirement laid down in the contractual agreement (for example the TNA). Once completed, the contractor should be provided with a written report of the demonstration including an assessment of any areas with scope for improvement. That report is to be passed to the TIWG via the appropriate TCM, and an assessment made of the balance of any risk to Navy Command of using the training.
9511. Assurance – External Validation

a. HRTSG conducts ExVal for the NS, as tasked by Branch Managers (BMs) as lead Training Requirement Authorities (TRAs) under DACOS(BM). The ExVal team consists of an SO2 TM, an SO3 TM and Branch-specific analysts. The analysts (OR7-OR9) should be SMEs in their source Branch, capable of day-to-day management of individual projects from start to finish, liaising with stakeholders as required.

b. ExVal. HRTSG will work with TRAs and stakeholders to prioritise workload by Branch and across the ExVal team. Provisional work plans should be made, 6-12 months ahead, of those Courses identified for investigation primarily from the SOTR. Capacity should be allocated for urgent requirements, although in some cases re-prioritisation may be necessary.

   (1) Directed Projects. Key project stages are supported by pre-authorised templates. The questionnaire template will provide a snapshot as to the effectiveness of a Course in delivering TOs and the relevance of each TO to the associated job. Should responses provide no cause for concern, then it will be concluded that the Course is fit for purpose. If, however, the evidence points to the potential for a major shortfall in training, further investigations will be triggered.

   (2) Further Investigation. A TRA may decide, for whatever reason, that a Course requires more detailed investigation. The activities may then include, but not be limited to: expanded or targeted questionnaires; trainee and trainer interviews; enhanced stakeholder engagement; course observation; detailed recommendations.

   (3) Pipeline. In some cases, for example Project Faraday, it may be necessary to determine a bespoke ExVal strategy that spans inter-related courses. This is intended to provide the right information to the right people at the right time, taking into account the specific strategic and tactical characteristics of each project.

c. S3018 Training Feedback Form. The S3018 Training Feedback form process allows any individual to indicate if they believe there is a training shortfall. Identifying and then rectifying these shortfalls will improve the training system and ensure that training continues to prepare individuals to carry out their role. This system works in parallel with the directed standalone ExVal projects carried out on behalf of the TRA. A flow diagram detailing the correct submission methods is included at Annex 95H. A training shortfall is normally defined in one of three ways:

   (1) Undertraining. Part of a role is missed or not covered in sufficient detail during training.

   (2) Overtraining. During a training course, there might be a section or sections that are not required when an individual carries out their role.
(3) **A lack of existing training.** A lack of training is most common shortfall on new platforms or for new pieces of equipment. This should also be reported via the unit’s quarterly Personal Functional Standard (PFS) returns\(^2\).

d. **Target Audience.** The training feedback form should be completed by any individual who perceives there to be an issue with the training they received in relation to the conduct of a role. However, as the employers, Commanding Officers, Heads of Department and line managers, are also encouraged to utilise and promote the S3018 Training Feedback mechanism if they perceive there to be a shortfall in training.

e. **Stakeholders.** Due to the wide range of possible submission topics there is an extensive list of potential stakeholders for each S3018. The main stakeholders will be the owner of the training or TRA, a representative from the delivery units, the training capability manager and the analyst investigating the S3018.

f. **Submission.** The Training Feedback Form can be accessed via the Defence intranet\(^23\). The individual will be asked pertinent questions regarding the perceived training shortfall and should provide as much detail as possible to assist the subsequent investigation. It is important to follow the exact instructions to open the form correctly.

g. **Process.** A flow diagram detailing the process for training feedback forms can be found at Annex 95I. On submission, the training form will be sent automatically via an email to HRTSG, imported into the S3018 database and, on the basis of its content, be assigned to an appropriate analyst. At this point the individual will receive an electronic letter from the HRTSG confirming the receipt of the S3018.

h. The analyst will then investigate the issue raised by the S3018 with all the relevant stakeholders. This may well include contacting the originator for further information to aid the investigation. The time taken to investigate an issue will depend on the issue raised, particularly if it has been raised in isolation. Frequently asked questions about the process can be found at Annex 95J. Once a resolution has been decided, the individual will then receive a letter from the analyst informing them of the outcome.

i. **Anonymity.** Whilst the contact details of the originator are required for the analyst to contact them for further clarification and progress reports, the feedback included in the S3018 itself remains anonymous to those outside of the ExVal team.

---

\(^2\) BRd 3(1), Ch22, Annex 22A, Para 12.

\(^23\) Three access points: [http://defenceintranet.dif.r.mil.uk/Organisations/Orgs/Navy/Tools/Forms/Pages/Home.aspx](http://defenceintranet.dif.r.mil.uk/Organisations/Orgs/Navy/Tools/Forms/Pages/Home.aspx) [https://modgovuk.sharepoint.com/sites/defnet/Navy/Pages/A-Z-RN-Forms-Index.aspx](https://modgovuk.sharepoint.com/sites/defnet/Navy/Pages/A-Z-RN-Forms-Index.aspx) [http://web.apps.royalnavy.r.mil.uk/Fleet_applications/ASPs/library.asp](http://web.apps.royalnavy.r.mil.uk/Fleet_applications/ASPs/library.asp)
j. **Other Common Issues.** Where possible, if an S3018 is submitted with an issue that is not dealt with by the S3018 process, an analyst will signpost the individual to the correct point of contact. A flow diagram detailing the correct submission methods is at Annex 95H. Other common issues received include:

1. **Internal Validation.** Comments relating to the effectiveness of the course, administration, assessments and its teaching methods should be collected by the training deliverer, usually in a post course discussion or questionnaire. If equipment used to teach the course was unserviceable then that should also be reported at this point.

2. **Career Management.** If a training course exists but an individual has not been assigned to undertake it prior to taking up their role, that issue needs to be reported to the relevant Career Manager via the unit’s quarterly PFS returns.

3. **Unit Position List Amendments.** Any required amendments to competences required for a position need to be made to the Unit Establishment Administrator. These competences drive the training attended by an individual prior to taking up a role. In RM units this is normally the Assistant Adjutant and in RN units it is likely to be the EWO, a LWtr in the UPO or DepCo CPO. Amendments will then be passed to the RN Establishments team and the relevant Branch Manager for approval.

4. **Outdated Technical Documentation.** If the technical documentation for a piece of equipment is out-of-date or inadequate, then a From S2022 should be raised. More information and advice can be found through the unit’s UMMS manager and BR 1313.

k. **S3018 Utility.** Although S3018s are administered and investigated through the HRTSG ExVal team, the nature of the form means that training-related issues are sometimes raised which are beyond the scope of the ExVal function. These will not be discarded but passed on to the relevant TRA to inform the broader Continuous Improvement process within Naval training.

9512. **Management and Provision of Supervisory Care**

The following meetings and processes refer to the provision of supervisory care:

a. **Care and Welfare Continuous Improvement Group (CWCIG).** The CWCIG is an annual working group chaired by ACNS(T) SO2 Assurance and held early in the summer term. The CWCIG provides a forum for all establishments to discuss on-going issues relating to Welfare and Duty of Care (WDoC) and aims to facilitate the sharing of best practice through the identification of coherent continuous improvement activities and actions. The CWCIG is normally attended by establishments’ ‘Ofsted nominees’, and representation from 1* TDAs: COMCORE and COMOT. The CWCIG aims to assist units in their development of annual Self-Assessment Reports (SAR).

b. **Self-assessment.** All TEs are to maintain a regime of Continuous Improvement through the maintenance of a SAR and a “live” Quality Improvement and Action Plans (QIAP) which should monitor progress against, or active management of, identified risks and issues. All NS Training Groups are encouraged to adopt a peer review process through links with other, similar, Training Groups, to help inform the development of their SARs. SARs should be reviewed, updated and re-published prior to summer leave each year so that they are ready for subsequent Ofsted inspection between September and February. Once published SARs are to be copied to SO2 Assurance.

c. **Recruit Training Survey/Officer Cadet Survey.** The Recruit Training Survey (RTS) and Officer Cadet Survey (OCS) are surveys that are independently managed by Ipsos MORI. The surveys are administered by Phase 1 and Phase 2 TEs, with the data collated and visible via an online system (RTS/OCS portal). Training Commanders are responsible for putting in place processes that enable exploitation of the survey data, allowing identification of problems and amendment of delivery areas quickly, if required, to achieve maximum benefit and support for Phase 1 and 2 trainees and also address any D&I issues as they are reported. Access to the RTS/OCS Portal Training is available from Ipsos MORI via SO2 Assurance; ACNS(T) Ind Trg Cap (Assurance) can advise on dates and details of the training. All trainees should be encouraged to complete the survey during their time in Phase 1 and 2 or on exit from the Service as it is their opportunity to raise any issues of concern anonymously and provide feedback to improve the training they have received for future recruits.

d. **Policy on Preventing Radicalisation.** The Counter Terrorism and Security Act 2015 articulates a duty on specified authorities to have due regard to the need to prevent people being drawn into terrorism; this is achieved through PREVENT training (see also JSP 440 Supplement 2). The principle purpose of training in PREVENT is to equip staff with the ability to recognise signs that a learner might be on the path to becoming radicalised. Commanding Officers are to:
(1) Review their CRA in order to include any risks there may be of staff or trainees becoming radicalised and identify the levels of risk proportionate to their establishment (taking into account the context of the local area). In developing their risk assessments, they seek to manage the risk of radicalisation of their trainees by further developing structures that already exist through:

(a) Chaplaincy and/or core carers’ forums – to help identify those individuals deemed vulnerable to the influence of radicalisation.

(b) Providing a PREVENT briefing for staff to form part of wider security brief.

(c) External speakers’ presentations need to be approved to ensure that they have British values built in, where appropriate. Examples are those values currently instilled in events such as parades and Armistice Day.

(d) External speakers’ presentations need to be approved to ensure that they have British values built in, where appropriate. Examples are those values currently instilled in events such as parades and Armistice Day.

(2) Ensure all relevant policies and procedures are in place, as set out in JSP 822 and JSP 740, to mitigate the risk of harassment and bullying and improper use of the internet, regularly reviewing these risks and checking to ensure the relevant procedures are being carried out.

e. Disclosure and Barring Service (DBS) (formerly Criminal Records Bureau (CRB)) Checks. Checks of training and supervisory staff are to be carried out in accordance with the RN policy on criminal records checking of personnel employed at Phase 1 and 2 training establishments currently published at JSP 893 Annex B and BRd 3(1) Chapter 60 Section 7 (See Note).

**Note. This policy is the responsibility of Navy Sec-2. Further advice can be obtained from NAVY SEC-2 DISCIPLINE 1.**

9513. Naval Core Training (Formerly Core Maritime Skills)

a. Core Maritime Skills (CMS) were introduced to ensure that all Royal Navy personnel were in date for required competences irrespective of their rank or rate. Following a review of CMS it is apparent that some of the CMS modules are not necessary for all personnel to be in date at all times. The following definitions apply:

(1) **Core Training or Education.** Core training or education is applied to all personnel otherwise it is branch specific.
(2) **General Training or Education.** General Training or Education is not branch specific or common to all Naval Service personnel.

b. As such, Naval Core Training (NCT) has replaced CMS. All RN personnel are to remain in date for NCT\(^{28}\). Individuals are responsible for ensuring that they are in date, whilst Ships, Establishments and Units are responsible for ensuring that their Establishment/Ship is 100% compliant.

c. As a guide, NCT should not exceed 1% of an individual’s annual working time (2.5 days), whilst the totality must be achievable and accessible for individuals and operational units.

d. To reinforce ethos and maritime skills, CMR will continue to use the core maritime training package delivered in Phase 1 as the basis for continuous training on drill nights\(^{29}\).

e. Unchanged Naval Core Training. The following requirements remain unchanged:

   (1) NCT 1 (formerly CMS 2) – Royal Navy Fitness Test (RNFT).

   (2) NCT 2 (formerly CMS 3) – First Aid.

   (3) NCT 6 (formerly CMS 8) – SERE A.

   (4) NCT 7 (formerly CMS 7) – Operational Law\(^{30}\).

   (5) NCT 8 (formerly CMS 10) – Information Skills.

   (6) NCT 11 (formerly CMS 11) – Safe to Fight (formerly Safety).

   (7) CMS 6 – Values and Standards – is separated into individual modules to improve tracking and assurance, as follows:

      (a) NCT 3 – Security.

      (b) NCT 4 – D&I.

      (c) NCT 5 – Substance Misuse.

---

28 Personnel in Joint, Army or RAF Units can complete the equivalent MATT and be awarded the NCT competence.

29 NCT apply to the Royal Navy Reserves, but not to CMS delivered in Phase 1 Training or the Royal Marines (including Royal Marine Reserves). Equally, the introduction of NCT does not affect the Initial Training Requirement for RN Ratings and Officers.

30 Current work is being undertaken by CNLS to review Operational Law presentation and incorporate Women in Peace and Security (WPS).
f. The following CMS CT modules are to be removed and delivered as pre-deployment training (PDT) or pre-joining training (PJT), including:

   (1) CMS 1 – Skill at Arms.
   (2) CMS 4 – CBRNDC.
   (3) CMS 6 – Ethos Lecture.

g. The three parts of CMS 7 (Law of Armed Conflict, Use of Force and Operational Detention) will be incorporated into one Operational Law module (NCT 7).

h. The following modules are to be removed as a requirement:

   (1) CMS 5 – Navigation and Sea Sense (note: there is no change to the requirements in initial training).
   (2) CMS 9 – Counter Explosive Ordnance (note: content on suspicious packages to be subsumed into Security module).

i. All NCT competences are to be recorded on JPA in accordance with Annex 95K. JPA competences will be updated or end-dated as follows:

   (1) Where CMS competences are replaced by NCT ones, the CMS competence will be end dated in JPA from 1 Apr 19.
   (2) Where CMS modules have been removed, their associated competence will be end dated in JPA from 1 Apr 19.
   (3) Where CMS modules have moved to delivery in PDT, the current competence will remain extant.

j. Annex 95I provides the table of the changes from CMS to NCT.

k. Points of Contact. For overarching NCT enquiries, NAVY NPS-EXEC SO1, the Fleet XO or the appropriate CWO are the points of contact. Each capability lead is detailed in Annex 95M. Should units have any enquiries or feedback regarding a specific NCT, they are to contact the relevant Capability Lead in the first instance.

---

31 This will be considered as General Maritime Training and Education.
l. Summary. NCT ensures that all personnel are in date for core training, irrespective of rank/rate, role or type of Service. Individuals are to ensure that they are in date for NCT. All units are to ensure that their personnel are in date and that individuals are allocated the time to complete NCT.

Note. This policy is the responsibility of Navy NPS. Further advice can be obtained from NAVY NPS-EXEC SO1.

9514. Common Fleet Time

a. Common Fleet Time (CFT) has been re-introduced for Training Manager, Logistic, Warfare, Marine and Weapon Engineering Young Officers (YOs). CFT will be completed to the syllabus which is common for all cadres. The objective is to introduce a YO to life at sea in a Wardroom under the leadership of the XO, direction of the YOTO and branch mentorship of the respective HOD. The 12 weeks will be devoted to departmental and ship function knowledge to a common standard, the syllabus of which is covered in the CFT Task Book. The Task Book is geared towards Whole Ship knowledge and covers the sea training elements of the All Officers First Complement Appointment Role Performance Statement not achieved during Phase 1 training.

(1) Officers’ Training Officer (YOTO). To gain the most from the limited time on board, and to ensure the ‘whole ship’ nature of the task books is met, it is essential that YOs have a programme tailored to the ship’s programme, which has the oversight of an experienced officer, invariably a Head of Department (HOD). As such, the coordination of CFT is to be supervised by the YOTO and closely monitored by the Commanding Officer. Experience has shown that YO progression is proportional to the interest and coaching invested in them by the CO, senior members of the Wardroom and SR Messes.

(2) The CFT Task Book (TB). The CFT TB will be issued to YOs on completion of Phase 1 training. This important record has been designed to guide officers through to all subsequent Fleet training, and is to be presented to staff at the HRTSG once a YO gets to TMOC. It contains a record of warnings, inspections by YOTOs and COs and final certificates as well as recording practical tasks and exercises completed, watch-keeping hours accrued and questions by department. The TB is divided into two sections, as follows:

---

32 Submarine Engineers, Air Engineers, Aviators, Medical and Dental Officers, Medical Services, QARNNS, Royal Marines and Chaplains will continue with their current Phase 1, Initial Sea Training (IST) and Phase 2 training pipelines.
33 BR 2 Ch 32.
34 The Task Book should be inspected fortnightly by the YOTO and monthly by the CO.
(a) **Instructions and Records.**

- Guidance to COs and YOTOs
- Record of Inspections (CO, YOTO)
- Record of Warnings
- Record of TSS/ROR test results
- Completion of Common Fleet Training Certificate

(b) **Task Book Duties.**

- Ship’s joining routine
- Sections by department (Whole Ship, Exec, Seamanship, War, ME, WE, AV, Logs)
- Command Leadership and Management Section

b.  **CFT Assessment (Fleet Board).** A Fleet Board, where YOs are formally assessed by the CO and HODs, is to be convened approximately two weeks before the end of CFT. The timing is to allow for report writing and a re-examination if required. YOs are to conduct the Fleet Board in No1 Dress and a Command panel at a table, as standard. Ships in port may combine their Fleet Boards, at COs’ discretion, and when deployed the expertise of visiting Flotilla or Flag staff should be drawn upon as the opportunity arises. Deployed Task Groups may choose to combine resources and convene a joint Fleet Board. The president of the board should normally be a CO or Executive Officer of a minimum of Commander rank. CFT should be completed in a FF/DD or above. If a YO completes CFT in a ship commanded by a Lt Cdr or below, the advice of the YO Career Manager is to be sought.

c.  The assessment is to consist of a succession of short (~20 min) oral boards to the HODs to cover each department, using questions supplied in an exam bank (these mirror the subjects covered in the CFT task book). Following departmental oral boards, a final formal board with the CO, XO/EWO and the YOTO should be conducted to allow the CO to examine any area of the TB in depth (~20 min).

d.  Performance at the Fleet Board will be a key indicator of progress in training. A poor performance should be tested by a re-examination before the YO departs. However, as CFT is predominately experiential and as there is insufficient capacity in the Fleet for a ‘round the buoy’ repeat of CFT, any shortfalls should be noted and passed on to be addressed in the next stage of Phase 2 training.

---

35 Warfare only – TM to complete if nominated to follow a Bridge Warfare Certificate training pipeline.
36 A joint Fleet Board is where 2 or more of the assessing panel convene. YOs will sit the board as individuals.
37 Contact NAVY PCAP-CM OF WAR UTSO3 or 93832 8843.
38 This Exam Bank will be promulgated to YOTOs by COMCORE.
e. **Divisional Care and Management.** Formal divisional care during CFT rests with the YOTO or LO of the unit to which the YO is assigned as determined by the CO. Management of Officers through the pipeline rests with the Career Manager (CM) (NAVY PERS-CM OF WAR UTSO3) who will liaise with the CO/OiCs of the relevant Phase 2 Training Provider\(^{39}\) to discuss progress of individuals and warnings.

f. **Status.** CFT YOs passed out of BRNC, hold commissioned rank and have Wardroom status. Where possible, they should be berthed in Wardroom accommodation, however, noting the anticipated number of YOs and likely availability of accommodation, austere berthing is acceptable\(^{40}\). They are, however, to be considered as full Wardroom members and participate fully in mess life. It is an important distinction that YOs are not ‘Officer Cadets’ undergoing IST. This is their first period living in a Wardroom at sea alongside fellow officers and their development in this area is a key part of CFT, especially for TM Officers where complement sea-going assignments are rare.

g. **Employment.** YOs are to be employed as directed by the YOTO and in accordance with the departmental training plan developed on board. They should participate fully in whole-ship events and, for example, are not to be used as casualties or ‘spare hands’ during OST. YOs are expected to undertake departmental watchkeeping when appropriate and duties as 2\(^{nd}\) OOD.

h. **Reporting.** YOs are to receive a ‘Standard Report Form’ (SRF) from the unit at the end of their time on board.\(^{41}\)

i. **Warnings.** All Young Officers under training are subject to warnings as detailed in BRd 3(1) Chapter 57. Phase 2 training warnings are common to BRNC, ships and Phase 2 courses to enable a smooth handover between units. There are two types of warning: Professional (P) and Character and Leadership (C&L), and each have several tiers dependent upon the severity of the training shortfall (see tables below). It is important to note that a warning is not a punishment but an administrative action to highlight a training shortfall, therefore it is normally in the best interest of the individual if the system is utilised early. Due to the TM pipeline, Tier 1 and 2 Warnings are the only levels that apply to TMs during their Training.

**Table 95-3. Young Officer Under Training Warning Table**

</tr>
</tbody>
</table>

---

\(^{39}\) For Training Managers - CO HRTSG, for Logistic Officers – OC CMD at DMLS; Warfare and Weapon Engineers – OiC of Training Elements in MWS; Marine Engineers – DSMarE OTG.

\(^{40}\) For example, in a 6-berth SR’s cabin, rather than in a JRs’ Mess Deck.

\(^{41}\) SRF example can be found in BRd 3(1) Annex 57E.
j. **Imposition and Recording of Warnings.** All warnings, except ABW, should be issued using a Phase 2 Record Card which the YO must sign to record that they have understood the nature of the warning. If a CO wishes to place a YO on ABW, then a SRF must be written detailing their general progress to date, the specific training shortfall and the actions required to be removed from the warning. This should be accompanied by an application letter to the Officer Terms of Service (TOS) section detailing the reasons for the imposition and when the warning is to be reviewed. TOS will then respond with a letter that the individual must sign and a copy be kept in the E-190. All correspondence to Officer TOS should be directed to the following address/email:

   Officer Terms Of Service (TOS)
   MPG-2
   Room 48
   West Battery
   Whale Island
   Portsmouth
   PO2 8DX

   Email: NAVY NPS-STRATPOL TERMS OF SO3C

k. In addition, the CM and Phase 2 Trg OIC should be informed of any warnings of CO level and above and contacted for advice and guidance as necessary for any level of warning. This allows the CM and Phase 2 Trg CO/OiC to maintain an overall view of the status of all YOs under warning. All IWOs leaving BRNC to join CFT units under Warning will have the Phase 2 Officer Warning Record Card and/or TOS letter and SRF inserted into their E-190. A copy of the Phase 2 Officer Warning Record Card (Annex 95N) will also be sent to the YOTO.

l. **Fleet Board Failure.** The individual pass mark for each module is 60% and an overall average of over 60% is required to pass the Fleet Board. If a YO fails their Fleet Board they will automatically be placed on CO (P) warning, which is to be reviewed once the failed module of the Fleet Board has been taken again onboard the CFT unit (within one week). Success will result in the removal of the warning. A further failure will result in the YO leaving the unit under CO (P) warning. The remedial process after the second failure varies for each Specialisation, as follows:

   1. **Training Managers.** The number of modules failed on the second Fleet Board determines the next course of action as detailed in Annex 95O.

---

42 See Annex 95M for an example.
43 See BRd 3(1) Annex 57E for an example.
44 For Training Managers - CO HRTSG, for Logistic Officers – OC CMD at DMLS; Warfare and Weapon Engineers – OiC of Training Elements in MWS; Marine Engineers – DMarE OTG.
(2) **Logistics, Warfare, Marine and Weapon Engineering.** As a result of the second failure, the YO will have a further 3 months until a third Fleet Board is convened – for an X Officer, this will be conducted during SFT; for WE, ME and Logs this will be conducted at MWS, DSMarE and DMLS respectively. A further failure will raise the warning to ABW (P) and potentially for an application to be made for the individual to be compulsorily withdrawn from training (CWFT).

(3) OF WAR UTSO3 will inform the appropriate SFT unit of those individuals returning to sea on warning; the unit will be apprised of the individual’s areas for improvement in order to warrant removal from warning.

m. **Assurance of CFT and Fleet Board.** L&D Ops staff are embarked in units as part of their routine visits and will conduct an assurance check of the process. This will include discussions with the YOTO, a percentage check of task-books and will gather feedback for dissemination to DACOS (T, L & D) and the Phase 2 Training Schools. A DART (FOST Debriefing and Reporting Tool) – People Assurance – has been updated to address this. L&D Ops staff should also utilise their expertise in growing the next generation from YO to HOD and are invited to feedback to CO or to FOST HQ on the best practice for the delivery of CFT.

n. At any time, COs and YOTOs are welcome to present feedback to NAVY TRG HQ-IND TRG CAP POLSO2 or through the standard S3018 Training Feedback Report process detailed in Annex 95H.

o. **CFT Area on DLE.** A CFT area has been created on the Defence Learning Environment. This area hosts a downloadable e-version of the CFT TB and a YOTO Tool Box which will have links to the latest/relevant RNTMs and DINs, as well as Fleet Board marking guidance, which YOs are encouraged to use.

---

45 The schools are given discretion to only re-examine those areas that the YO failed at the last board – scores should be provided by the CFT unit to assist.
46 Managed by the respective Course Managers, the school Fleet Board is to have the same gravitas as the CFT board; all board members should be current (been to sea within the last 5 years) and there should be selection of officers on the board, not just WE/ME, to ensure fairness in assessment. The president should be of at least SO1 rank.
47 This is HRTSG for Training Managers, DMLS for Logistic Officers, HMS COLLINGWOOD for Warfare and Weapon Engineering Officers and HMS SULTAN for Marine Engineering Officers.
ANNEX 95A

INDIVIDUAL CEB BRIEFING NOTE TEMPLATE

ACOS(T)

XXXX INDIVIDUAL CEB PRE-BRIEF TO THE STRATEGIC CEB

BLUF

1. The [SOTT title] SOTT was endorsed with the following unresolved risks:
   a. [risk description]
   b. [risk description]

Factors of Resource for Training Provision

2. Observations were noted against the following criteria:
   a. **Trainees.** Any issues resulting from expected numbers – too many, too few? All courses with a throughput of less than 60% are to be recorded here.
   b. **Trainers.** Any issues in respect to your training team? Shortfalls, gaps, lack of SQEP?
      (1) Military.
      (2) Civilian.
      (3) Contractor.
   c. **Plans and Programmes.** Any issues pertaining or periodicity of scheduling? eg. Promotion Board proximity etc.
   d. **Facilities.** Any issues relating to facilities needed in order to deliver the course?
      (1) **Hard FM.** Infrastructure, building, accommodation, building management both planned and reactive.
      (2) **Soft FM.** Running and managing the training establishment.
      (3) **Assets.** Issues with assets required to deliver training eg. Sea-going platforms or MCTS.
e. **Equipment.** Any risks or issues relating to the equipment needed to deliver training, such as simulators and weapon systems etc.

f. **Documentation.** Any shortfalls in documentation required to deliver the course as per the Learning Specifications LSpecs.

### Legal and Policy Compliance

3. The following challenges to adherence to policy and/or legal compliance have been identified:

   a. 
   
   b. 

### Risks to Training/SOTT

4. The following risks to training have been identified and assessed as acceptable or unresolved:

   
   

### Summary

5. Taking into account the above risks, the 17/18 [SOTT title] SOTT is endorsed.

[Name of CEB chair]

[Title of CEB] CEB Chair
ANNEX 95B

INFORMATION EXCHANGE RELATIONSHIP DIAGRAM

The aim of this diagram is to graphically show the data and information exchange within the mandated IM systems and Data Bases (DB). The starting point is the data inputter, from which the process carries through to the end point of the information consumer.
ANNEX 95C

DATA/INFORMATION PRIMARY LOCATIONS

1. MOD has four Defence wide capabilities that cater for the data and information requirements in the training domain.

2. To ensure that information can be managed and exploited effectively, and used to generate valuable business intelligence, it must be stored in a coherent manner across all Naval Training. Table 95C-1 provides NCHQ direction on where training data and information is to be stored.

Table 95C-1. Where to Store Data and Information across the Naval Service

</table>

1 Training Information Management System (TMIS) is TAFMIS (supported by Advisor); Virtual Learning Environment (VLE) is the DLE; and the Training Document Management Store (DMS) is the FOST portal SharePoint.

2 TAFMIS database is the mandated database due to its connection with both personnel and recruiting systems. Electronic Management Information System (EMIS) is the historical DB for training and recruiting data.
ANNEX 95D

ROLES AND RESPONSIBILITIES OF A DEFENCE TRAINER MANAGER (DTM)

1. DTMs are the principal advisors on the direction of DTC within Training Providers (TP). They provide functional management of DTSs and are responsible for continuous improvement relating to the DTC\(^1\). Each TP should have a DTM.

2. Guidance and terms of reference for DTMs can be found within JSP 822\(^2\); their responsibilities are as follows:
   a. Complete the necessary training for the role by completing the DSAT (Manager) Course\(^3\).
   b. Identify personnel who are in a non-training delivery role who require the Care of Trainees (COT) course and arranging for them to be loaded to a course.
   c. Ensure all staff within the TP understand their own DTC roles and responsibilities and take appropriate action when the correct standards are not achieved.

3. Ensuring that their TP has sufficient Defence Trainer Supervisors (DTS) to manage the support needs of DTs. It is recommended to have a ratio of 1 DTS for 8 Defence Trainers. To do this the DTM must identify appropriate DTs and nominate them for attendance on a DTS course. When nominating a suitable DT for DTS course the following should be considered:
   a. Current training qualifications\(^4\) and that DT nominated for DTS course must have the Defence Trainer (Practitioner) JPA Competence.
   b. Leadership, coaching, training delivery ability and management qualities of the prospective DTS.
   c. The spare capacity for the nominated DT to be able to conduct the DTS responsibilities in addition to their current job role.
   d. The time left in post to allow for the completion of the DTS WT portfolio and development of competence to carry out the role.
   e. Whether the DT wants to be a DTS.

4. DTMs are responsible for oversight of DT progress in relation to their WT portfolios. In liaison with the DTSs (and where appropriate) consider appropriate action if WT portfolios are not completed within the policy timeline of 6 – 9 months.

5. Once WT are complete, ensure that Lesson Observations/ ITAs and CPD for all personnel are carried out a minimum of every 6 months.

---

\(^1\) JSP 822 Part 1 Chap 4 Sect 4.1 para 3 (l).
\(^2\) JSP 822 Part 2 Chap 1 Sect 1.4 Annex G.
\(^3\) Course delivered at the Defence Centre of Training Support (DCTS) at RAF Halton.
\(^4\) JSP 822 Part 1 Sect 1.4 para 9.
6. Sign off WT portfolios to confirm the content has reached the required standard prior to the WT portfolio being submitted to the Establishment’s Training Authority for Quality Assurance.

7. Decide which DT can be nominated as mentors to newly qualified personnel to support the DTSs in their role.

8. Identify the Training CPD needs of the TP from Post Course Discussions (PCD), Student Feedback Questionnaires (SFQ), ITA recommendations, MPARs and general observations. From this identification of a requirement for CPD, the DTM can then request bespoke CPD from the relevant DTC franchise.

9. Individual DTs should be maintaining their own CPD records however TPs, through DTMs, can request to see those at any time. TPs may also maintain their own records of CPD of their DTs.

10. Request and attend CPD training for own DTM role.
ANNEX 95E

ROLES AND RESPONSIBILITIES OF A DEFENCE TRAINER SUPERVISOR (DTS)

1. DTS are responsible for the assessment and development of DT and the supervision of the completion of their WT portfolios. Guidance and terms of reference for DTS can be found in JSP 822\(^1\). Their responsibilities are as follows:

   a. Complete the necessary training for the role by completing the DTS course and the DTS WT portfolio. DTSs can carry out observations once the residential course has been completed. The WT portfolio must be completed within 6 months. The DTS competence can be revoked if the portfolio is not completed within 6 months, as non-completion within this timeframe does not demonstrate the characteristics expected of a DTS.

   b. Support newly qualified DT to complete their WT portfolio within 6-9 months of completing the DTTT Course. To do this they will need to:

      (1) Assist newly qualified DT in completing WT portfolio Part 1 induction questions, signposting them to the correct policy documents, local procedures and resources.

      (2) Monitor and provide advice and guidance to improve delivery skills through informal and formal developmental discussions.

      (3) Participate in a 4-month review with the DT to confirm progress and make sure that the WT portfolio is on track.

      (4) Monitor DT progress in achieving completion of the WT portfolio within the agreed timescales and provide a periodic report to the DTM.

      (5) Conduct observations where required for the WT Portfolio.

      (6) Sign off Part 1 Induction, Part 2 Skills Development and section 1 of the Unit Signatures to confirm all elements have been completed to the required standard.

      (7) In liaison with the unit DTM, where appropriate consider disciplinary action if WT portfolios are not completed within the policy timeline of 6–9 months.

      (8) Nominate suitable experienced trainers to the DTM to act as mentors to newly qualified trainers to carry out the responsibilities listed within Annex C.

      (9) Conduct Lesson Observations/ITAs for DT at Practitioner or above.

      (10) Identify TP training related CPD needs and in consultation with the DTM, request CPD sessions from relevant DTC Training Group.

\(^1\) JSP 822 Part 2 Sect 4.1 Annex F.
1. DTS are responsible for the assessment and development of Defence Trainers (DT) and the supervision of the completion of their Workplace Training (WT) portfolios. Guidance and terms of reference for DTS can be found in JSP 822\(^1\); their responsibilities are as follows:

   a. Complete the necessary training for the role by completing the DTS course and the DTS WT portfolio. DTSs can carry out observations once the residential course has been completed. The WT portfolio must be completed within 6 months. The DTS competency can be revoked if the portfolio is not completed within 6 months as non-completion within this timeframe does not demonstrate the characteristics expected of a DTS.

   b. Support newly qualified DT to complete their WT portfolio within 6-9 months of completing the DTTT Course. To do this they will need to:

      (1) Assist newly qualified DT in completing WT portfolio Part 1 induction questions, signposting them to the correct policy documents, local procedures and resources.

      (2) Monitor and provide advice and guidance to improve delivery skills through informal and formal developmental discussions.

      (3) Participate in a 4-month review with the DT to confirm progress and make sure that the WT portfolio is on track.

      (4) Monitor DT progress in achieving completion of the WT portfolio within the agreed timescales and provide a periodic report to the DTM.

      (5) Conduct observations where required for the WT Portfolio.

      (6) Sign off Part 1 Induction, Part 2 Skills Development and section 1 of the Unit Signatures to confirm all elements have been completed to the required standard.

      (7) In liaison with the unit DTM, where appropriate consider disciplinary action if WT portfolios are not completed within the policy timeline of 6 – 9 months.

      (8) Nominate to the DTM, suitable experienced trainers as mentors to newly qualified trainers to carry out the responsibilities listed within Annex C.

      (9) Conduct Lesson Observations/ITAs for DT at Practitioner or above.

      (10) Identify Training Provider (TP) training related CPD needs and in consultation with the DTM, request CPD sessions from relevant DTC Training Group.

ANNEX 95J

S3018 FREQUENTLY ASKED QUESTIONS

1. What happens when I raise an S3018 on an issue that has already been raised?
   If the issues in your Training Feedback form have already been received at HRTSG then they will be used as added evidence for the rectification of the training shortfall.

2. When will I hear about the progress of my S3018 and how long will it take to resolve?
   The time taken to resolve an S3018 often depends on the capacity of the analyst and also the size and scope of the problem detailed within it; this can take several months.

3. Could the shortfall have been filled by on-job training?
   Speak to your Line Manager if you think your perceived shortfall in training could have been done on the job. If that would not have been possible, complete your S3018 stating this, and what level of knowledge you consider you should have.

4. How much information should I provide?
   Include as much detail as possible to assist the analyst in resolving the training shortfall. This will increase the speed of the process as the analyst will not have to request additional information before commencing the investigation.

5. What if I don’t know the course name or number of the training?
   If you do not know either the course name or number or it is not applicable (where no course exists for example) then roughly define the subject area of the training shortfall in that part of the form. This will enable the S3018 to be investigated more easily.

6. What if my S3018 has safety critical information?
   Include this in the relevant section of the form. Be aware that there are also mandatory NLIMs and DLIMs methods for reporting safety critical information.

7. What should I do if my position needs an extra training course that exists?
   If your position needs to attend an additional training course before taking up a position, then contact your UEA as described in para 10.c.

8. What should I do if my position needs an extra training course that doesn’t exist?
   As in para 3.c you should submit an S3018 and include the shortfall in your unit’s quarterly PFS return.
9. **What should I do if my training didn't cover an element of my role?**

   You should submit an S3018 giving as much detail as possible. This may then change the future training solution to ensure people are prepared for their roles.

10. **What should I do if training exists for my position, but I haven't attended it?**

    As described in para 10.b, this needs to be included in your unit’s quarterly PFS return.

11. **What happens if more information is required by the analyst?**

    If an analyst requires more information to investigate the training shortfall detailed in your S3018, then they will contact you directly via email or telephone. Please ensure your S3018 includes the best method of doing this.

13. **What should I do if I have questions about my S3018 or the S3018 process?**

    If you are unsure about the best way to solve your training shortfall, contact the SO3 on 9380 22385 who will be able to provide more information and suggest the best way to proceed.

1. Where possible, NCT should be delivered through multiple means to aid successful completion across the Naval Service. Not all NCT have been updated to allow for multiple delivery methods, but they are in the process of being reviewed to allow this.
2. NMT100 is delivered at RALEIGH and BRNC.
3. BSSC is delivered in P2 for RN ORs.
4. ISSC competence is to be managed by DACOS/CM function as part of the sea-going process - periodicity is every 5 years.
5. Will be maintained by Sea Service, Adventurous Training (PFS) or other suitable personal development activities.
6. CM6 will include suspicious packages content from C-EO course.

¹ Where possible, NCT should be delivered through multiple means to aid successful completion across the Naval Service. Not all NCT have been updated to allow for multiple delivery methods, but they are in the process of being reviewed to allow this.

² Note: the only DLE security package that will award the NCT competence is ‘Security Awareness’. The SecFUNLv1 course does not provide the information required to award the NCT competence.
Where possible, NCT should be delivered through multiple means to aid successful completion across the Naval Service. Not all NCT have been updated to allow for multiple delivery methods, but they are in the process of being reviewed to allow this.

4 The Operational Law package is being developed and will be available as a facilitated DVD as well as DLE package by 1 Sep 19. Prior to this date, personnel are to complete the individual LOAC, Use of Force and Operational Detention and record it in JPA law Annex A.

**DO/YOTO/Course Officers Comment:**

Signature: Name: Rank: Date:

**HOD/YOTO/OIC Training Group Comment:** *(As required)*

*(This Tier does not exist for Character and Leadership Warnings)*

Signature: Name: Rank: Date:

**CO/OC Training Comment:** *(As required)*

Signature: Name: Rank: Date:

I have read and understood the contents of this report. I have been verbally interviewed and placed on the warning specified in the text. I fully understand the consequences of this warning within the Training Unit’s Warning System. I am aware that information on me is being held in a database and that I may access it on request in accordance with the General Data Protection Regulations 2018.

Signature: Name: Rank: Date:

**Actions on completion:**

1. Insert Record Card into E-190 Training Record.
2. Email CM and OIC Training Group for Tier 3 (P) and Tier 2 (C&L) and above.
3. Complete front section of TB (Record of Fleet Time Professional and C&L Warnings).
ANNEX 95O

TRAINING MANAGER FLEET BOARD FAILURE FLOW CHART*

- Fleet Board- to be conducted onboard
  - Pass: Go to TMOC
  - Fail: Re-sit Fleet Board (onboard)
    - Pass: Go to TMOC
    - Fail: Failed 2 modules
      - Go to TMOC on Warnings
        - Pass TMOC: Attend 1 month ashore Flotilla remedial training for failed Fleet Board module
          - Re-Board Failed Fleet Board Module
            - Pass: Go to 1st TM Assignment
            - Fail: Candidate Withdrawn From Training
          - Fail TMOC: Candidate Withdrawn From Training
    - Failed more than 2 modules: Case conference held by YOTO, UTS CM, TM CM, TMOC Course Manager to determine course of action for failed Candidate

* Remedial Training and re-boarding will be considered on a case by case basis.

CHAPTER 96
LEARNING, DEVELOPMENT AND RESETTLEMENT

SECTION 1 – NAVAL SERVICE LEARNING AND DEVELOPMENT

9601. Introduction

a. The Naval Service (NS) recognises Learning & Development (L&D) as the golden thread to the through-life development of personnel. Through L&D we can develop agile and adaptive thinkers, capable of operating in complex environments and delivering operational effect. Through the apprenticeship programme we can meet the NS critical skills requirement and through accreditation we can ensure that personnel gain nationally recognised qualifications ranging from functional skills to Master’s Degrees. This recognition and reward motivates individuals and eases transition to the civilian workforce, ensuring that in service training has civilian equivalency. The provision of through-life development and lifeskills training helps to prepare our personnel to transition from the military into the national workforce. The Learning & Development Organisation (LDO) was formed to bring greater cohesion to the various strands – education, lifelong learning, accreditation, apprenticeships and resettlement.

b. It remains a command responsibility to ensure that personnel have the chance to access L&D opportunities and that ‘time for learning’ is prioritised wherever possible. Any individual who is engaged in L&D activity should be recognised within the reporting system for their educational endeavour, thus helping to encourage a L&D culture. There is a significant L&D offer within the NS and all personnel, regardless of rank, rate, or time in Service should aim to maximise the opportunities throughout their career and inspire those around them to develop.

c. This Chapter outlines the responsibilities and opportunities for L&D within the NS. Strategic direction for the delivery of education services is provided by the Education Steering Group (Ed SG), which is accountable to the People and Training Transformation Board (PTTB).

9602. Purpose

a. The purpose of the NS LDO is: “to support 2SL, and Commanding Officers to develop the intellectual potential of their people to maximise Operational Capability (OC) and ultimately prepare them for return to the national workforce”. This is to be met by delivery against six endorsed L&D commitments below:

(1) Academic Progression.

(2) Apprenticeships.

(3) Accreditation.

(4) Qualified Practitioner.

(5) Professional Development.
b. The LDO is to support the six NS L&D Commitments by delivery of L&D outputs mandated by Government and MOD, as follows:

(1) English and Mathematics tuition, support and recording in accordance with JSP 822 Pt 1, 6.2;

(2) Provide a system for recording personal development in accordance with JSP 822 Pt 2, 6.1;

(3) Administer Standard Learning Credits (SLC), Enhanced Learning Credits (ELC) and the Further Education/Higher Education (FE/HE) schemes in accordance with JSP 822 Pt 1, 6.4 – 6.6;

(4) Provide opportunities for the civilian accreditation of Naval training, education and experience in accordance with JSP 822 Pt 1, 6.3;

(5) Provide support and guidance, and assessment where appropriate, for personnel with Specific Learning Difficulties (SpLD) in accordance with JSP 822 Pt 1, 6.1;

(6) Resettlement training, support and guidance in accordance with JSP 534;

(7) Provide feedback to MOD in accordance with JSP 822 and as required.

c. In order to further support L&D within the NS, the LDO will:

(1) Provide relevant L&D feedback to Commanding Officers, ACNS(T) and 2SL\(^1\).

(2) Contribute to MOD L&D policy and develop NS policy.

(4) Provide support, guidance and learning opportunities for personnel to gain qualifications required by the Service for them to be qualified educationally for promotion\(^2\).

(5) Provide support, guidance and learning opportunities for personnel, throughout their career, to enable them to develop agile and adaptive thinking to better contribute to OC, including protected time for learning for the completion of formal L&D which is required by the Service\(^3\).

---

\(^1\) This is achieved using a number of mechanisms including PFS returns, QPRR and L&D (Ops) verbal debriefs.

\(^2\) Currently English and Mathematics requirements iaw Education For Promotion (EFP); GCSEs for UY and SUY.

\(^3\) Section 6 contains further guidance.
SECTION 2 - LEARNING AND DEVELOPMENT ORGANISATION

9603. Organisation

a. Navy Command Headquarters:

(1) **Service Director of Education (SDE).** Assistant Chief of Staff (Training) (ACOS(T)) is the SDE for the NS and responsible for:

   (a) Devising and issuing Naval education policy, including Command and Staff Training (CST).

   (b) Provision of advice to 2SL and personnel departments on educational standards from New Entry into the NS\(^4\).

   (c) Representing the NS in Defence and Joint Service forums dealing with education, learning and development.

(2) **Deputy Assistant Chief of Staff (Training) (DACOS(T)/Learning & Development (L&D)).** ACOS(T) delegates to DACOS(T)/L&D the responsibility for:

   (a) Operational (routine) prioritisation and direction of LDO activity.

   (b) Representation at Defence and Joint Service education steering and working groups, where these require OF5 lead.

(3) **Commander Learning & Development Organisation (Cdr LDO).** Cdr LDO is responsible for LDO output, and has:

   Line authority for the main baseport L&D Hubs (HMS NELSON, HMS DRAKE, HMS NEPTUNE and CTCRM) and deployed uniformed Learning and Development Advisers (LDAs) and the Naval Tutor. Cdr LDO has functional authority over unit education officers and centres\(^5\).

b. Learning & Development Organisation (LDO). The LDO headquarters is based at Ramsay Building, HMS COLLINGWOOD. The LDO (Delivery) headquarters is based at the L&D Hub (Waterfront), HM Naval Base Portsmouth. The LDO is responsible for the development and coherent delivery of L&D policy, accreditation, apprenticeships, personal development and resettlement. The LDO organisation comprises 4 sections, outlined below and described in following sections:

---

\(^4\) Note however that ACOS (PCap) retains responsibility for setting and reviewing the educational standards for entry. BRd 3(1) Part 4 Chapter 7 outlines full details of entry standards.

\(^5\) All operational units (RM/Fleet/RFA) are part of the Learning & Development Organisation and are subject to L&D assurance. They have access to the L&D support network (Hub & Spoke) provided through the LDO HQ.
**Figure 96-1. Learning & Development Organisation**

9604. **Assurance**

The LDO’s assurance process aims to drive continuous improvement by providing an objective, evidence-based judgement on the extent to which L&D providers are complying with mandated policies and achieving principal outputs and effects. The assurance process uses the fundamentals of Ofsted’s Common Inspection Framework (CIF), aligned with BRd 3(1) and JSPs 534 and 822.
9605. **Learning and Development Hubs (L&D Hubs):**

a. There are 18 L&D Hubs across the UK; contact details can be found at Annex A. Each L&D Hub supports or signposts Service personnel to the following:

1. Access to a trained Learning & Development Adviser (LDA) for a Learning & Development Interview (LDI). Individuals may choose whether to move to a different LDA or to retain the relationship with their current LDA when being reassigned.

2. Support and information on learning opportunities for personnel to gain qualifications required by the Service for them to be qualified educationally for promotion.

3. Learning, training and study skills support.

4. Assessment facilities for those with Specific Learning Difficulties (SpLD).

5. Advice on the Standard Learning Credits (SLC), Enhanced Learning Credits (ELC) and Further Education/Higher Education (FE/HE) schemes and process applications for SLCs and ELCs.

7. Advice and access to MoD sponsored courses including the Tri-Service University Short Course Programme (USCP).

8. Advice and access to external learning suppliers.

9. Advice on and access to e-Learning packages.

11. Advice on membership of professional bodies.

12. Advice on available education and accreditation schemes.

13. Access to a trained Resettlement Officer, resettlement provision and resources.

b. L&D Hubs are able to provide Units with:

1. L&D briefs.

2. Mentoring and support for Part-time Service Instructors (PTSI).

3. Advice and support to develop a learning and/or coaching culture.

4. L&D Hubs are to comply with the L&D Charter.
c. The NRIOs also form part of the LDO shore-side support team within L&D Hubs.

9606. Deployed Learning and Development

The RN has established an LDO Operations (Ops) Team to provide L&D support for deployed units. LDO (Ops) Advisers will conduct the following:

a. Liaise with Flotillas (FORCEGEN) to determine and prioritise a programme that aims to visit each ship and submarine at least once in an 18-month period. Visits will last for an appropriate period\(^6\) to enable required LDO(ops) outputs to be delivered; including, Functional Skills exams, LDIs and group briefs.

b. Ensure the visit programme is tailored around individual Units’ requirements and their operational posture.

c. Ensure an alongside education and resettlement service is provided for Units without access to an L&D Hub or L&D advice, including delivery of Functional Skills (FS) education and assessment.

d. Undertake quality assurance of PTSI delivery of instruction.

e. Mentor, support, standardise and enhance performance of Unit EROs and act as the designated lead for the delivery of the ERO Brief.

f. Ensure the LDO(Ops) Team support the RN Leadership Academy (RNLA) to deliver the 2SL endorsed Coaching Workshops to deployed Units.

9607. Ships Library Service

a. The Ship’s Library Officer (SLO) provides advice to EROs and supplies educational and recreational books. The SLO can be contacted during working hours via:

Mil: 9380 25986  
BT: 02392 725986  
MODNet: NAVY TRG HQ-LDO SLO  
Email: Fiona.Thomas722@mod.gov.uk

b. Ship's Libraries should comprise separate Recreational and Reference Sections. The ERO or Library Officer in a ship/unit/establishment is responsible for the care of the books, for their proper issue and return by borrowers.

c. It is the responsibility of the ship or establishment to demand books. Demands should be forwarded as early as possible to the SLO, stating the reason for the demand and the number of entitled personnel.
d. Recreational books will be replenished periodically throughout each year, automatically, via the SLO. This should be sufficient to replace all losses and books discarded due to fair wear and tear. New title replenishments for Reference books are also made from time to time. SLO should be informed in good time when, for any reason, replenishments are either no longer required or need to be resumed.

e. Accounting for ship’s library books remains a Command responsibility:

   (1) Recreational books are regarded as consumable items but should be properly cared for, securely stored and issued on loan against a signature.

   (2) When paying off or entering major refit, Reference Sections are to be returned to the SLO.

   (3) Ship’s library books are not to be offered for sale or auction under any circumstances.

f. The Ship’s Core Professional Academic Library is specifically issued to all major ships and units within the RN in support of the NS Education Strategy, covering a broad spectrum of security and leadership issues. As texts are relatively expensive there will be a requirement to manage and account for the collection. It is suggested that responsibility for this will fall to the Ship’s ERO/Library Officer. Whilst the temptation may be for them to be placed on a shelf in the Wardroom, it must be stressed that the intent is to provide access for all.

g. GCSE/A Level Textbooks. On demand by the ERO, ships will be supplied with study/revision guide books, in support of GCSE and A level classes being taught on board. Sufficient numbers of books will be allocated to allow each student adequate access. These books are accountable and, as such, strict records should be kept of issue. At the end of the course or period of study, they must be returned to the ERO. For accounting purposes, the books should be classified as Reference Books. The cost of these items is significant and therefore the appropriate action for lost or damaged books must be considered.

h. Access to Other Libraries. Use may be made of the considerable non-fiction stock at the Joint Services Central Library and the wider MOD library network.

9608. British Defence Film Library (BDFL)

a. The British Defence Film Library (BDFL) catalogue lists all Defence training material available in video format. It has now converted to a digital video and download site, allowing anybody with a Defence Gateway login to view training content at the point of need, or to create a link for students to view content.

b. The BDFL catalogue is available online at http://www.bdfl.mod.uk
SECTION 3 - PRINCIPAL LEARNING AND DEVELOPMENT STAFF

9609. Unit Education and Resettlement Officer (ERO)

a. Introduction. BRd 2 (Queen’s Regulations for the Royal Navy) stipulates (at Article 3101) that each unit is to appoint an ERO. The ERO is the lynch-pin linking Service personnel in the unit with shore based and deployed Learning and Development Advisors (LDAs). It is important that the Commanding Officer selects an individual with the appropriate skills and personal attributes to undertake this role. The responsibilities of the ERO are at Annex 96B.

b. Purpose. The ERO’s primary role is to provide information and support to facilitate personal and professional development to the Ship’s Company to the standards laid down in this BR by ACOS(T). In so doing, the ERO will contribute directly to the following:

(1) OC by meeting the Service’s requirement for educated manpower.

(2) The retention of trained manpower.

(3) The Government’s Skills agenda.

c. Sources of Support and Advice. It is recognised that most EROs undertake this role as a secondary duty and will be inexperienced in delivering education and resettlement advice, and hence they will need support from the LDO (see Annex 96A for points of contact including L&D Hubs).

d. Initial Actions. On assuming ERO duties, the following initial actions are to be completed:

(1) ERO Handover. Contact the LDO (Ops) OC) (see Annex 96A) to update the ERO contact details and to arrange for an ERO Brief

(2) ERO Brief and Resource Pack. Arrange to receive the ERO Brief at the earliest opportunity. In addition, obtain an up-to-date ERO resource pack from the LDO (Ops) team and join the RN EROs Group on Defence Connect. These actions are to be completed within their first two months of assuming the role.

(3) Resettlement Brief. Although a Resettlement Brief is provided as part of the ERO Brief, it is recommended that EROs make contact with the regional NRIO (details at Annex 96A) within first two months of accepting the role of ERO.
9610. **Unit Education and Resettlement Officer’s Assistant (EROA)**

EROA duties include the following:

a. Custody and issue of all accountable equipment, materials, books, stores and stationery.

b. Detailed arrangements for classes, maintenance of records and the display of relevant information.

c. Administration, including correspondence, liaison with L&D staff over the recording of qualifications, examination schedules, maintenance of a Unit Education and Resettlement (E&R) database and provision of data returns as and when required by LDO Chief of Staff.

9611. **Learning and Development Advisor (LDA)**

a. **Introduction and Purpose.** The LDA provides a vital resource for personnel seeking to access L&D opportunities and should be engaged with by the learner as early as possible in the process. Unlike EROs, who hold the post as a secondary duty, the LDA primary purpose is to support the learner on their development path.

b. **Primary Responsibilities**

   (1) To provide advice and guidance to personnel in operational units, shore establishments and outlying stations on individual development and resettlement opportunities.

   (2) To support, advise and guide personnel in devising their individual learning and development plan.

   (3) To advise Command on the opportunities, processes and administrative arrangements supporting development of their personnel.

   (4) To conduct L&D briefings, coaching workshops and support the unit ERO.

   (5) To conduct one-on-one LDIs and any follow-up interviews required by the individual to generate their learning and development plan.

   (6) To advise and support learners with Specific Learning Difficulties (SpLDs).

c. **Qualification.** At a minimum, all LDAs, whether service, CS or contractor, must be qualified to the following level:

   (1) Coaching Level 3 on assignment and Level 5 after 12 months in-post.

   (2) Uniformed LDAs: TM Phase 2, DTTTv2 and TM PGE programme.
9612. Part Time Service Instructors

a. Introduction and Purpose. The NS makes use of Part Time Service Instructors (PTSI) to deliver unit organised programmes of instruction.

b. Initial Actions. The chain of command should seek advice from their unit ERO in the first instance regarding the selection and administration of a PTSI. Where units have no access to a dedicated ERO, command should contact the LDO Ops Team for advice and guidance.

c. Administration. Applications are to be submitted to LDO Policy staff for approval by using the application form at Annex 96C, whether or not the PTSI intends to claim PTSI Allowance. LDO staff will conduct a biannual audit of PTSIA from NAVY FIN data to ensure these rules are adhered to.

d. Programme Design. Any delivery attracting PTSI funding must be delivered as part of a programme leading to examination. The unit ERO and where unavailable the LDO (Ops) Team must assess all prospective PTSI candidates and be confident in their ability (academic level, instructional ability).

e. Qualification:

(1) PTSIs should hold a qualification in the subject to be instructed of at least one level higher than the level being taught. For example, to instruct GCSE Mathematics an instructor should hold at least an AS Level/Scottish Higher in that subject.

(2) PTSIs must also hold a Service or civilian teaching qualification. The lowest level of teaching qualification is either the Defence Instructional Techniques (DIT) course or the civilian Level 3 Award in Education and Training (AET). Individuals without such a recognised teaching qualification should contact LDO (Ops) Team for further advice on routes and funding.

f. PTSI Allowance

(1) Policy for awarding Part Time Service Instructor’s Allowance (PTSIA) is laid down in JSP 752 (Part 2). This gives full details of the levels of allowance that can be claimed and the process for its authorisation. It must be highlighted, however, that while PTSIA provides a mechanism for the delivery of structured education programmes leading to examination in deployed units, it is not intended to fund courses of education in shore establishments.

(2) The PTSIA will be funded from the Unit’s budget (ie. the unit where the pay account of the instructor is held), will be recommended by the ERO and authorised by the Commanding Officer.
g. **Assurance.** The ERO must ensure that the quality and frequency of instruction delivered under PTSI is in accord with the plans and expectations which led to the initial recommendation. In deployed units, delivery using PTSIs will be subject assessed by the LDO Ops organisation.

h. Further advice and guidance on PTSI is available from OiC LDO (Ops) Team.

9613. **The Naval Tutor**

a. **Responsibilities.** The Naval Tutor is responsible for delivering specific elements of the Officer Learning and Development Pathway (OL&DP) (or Through Life Education Pathway (TLEP), as was). See Section 7 for details. Additionally, the Naval Tutor:

(1) Provides advice to LDO Policy regarding Officer Professional Military Education (PME).

(2) Drafts the annual DIN covering Naval Analysis Course (NAC), Pre-ACSC Critical Thinking Skills Course (CSTC) and the Association of RN Officers Essay Competition (ARNOEC).

(3) Directs the Defence Learning Environment (DLE) OL&DP digital space.

(4) Delivers Maritime Tactical Estimate (MTE) module to Phase 1 Officers.

(5) Acts as the primary liaison between the NS and the 1805 Club.

e. **Qualification.** The post-holder is educated to Level 7, Master’s Degree in International Security/Relations – see section on Post-graduate education opportunities.
SECTION 4 – EDUCATION FOR PROMOTION

9614. Defence Literacy and Numeracy Direction

For all Full and Part-Time members of the Armed Forces, the English and Mathematics requirement is encapsulated in the Literacy and Numeracy Direction, details of which are contained in JSP 822 Part 1, 6.2. This policy aims to ensure that the Functional Skills (FS) needs of Armed Forces personnel are addressed at the earliest opportunity in order to enhance their operational effectiveness, and potential for personal and career development.

9615. Education For Promotion

a. The Education for Promotion (EFP) framework builds on the Defence Literacy and Numeracy Direction and is the collective term used to describe how the Naval Service (NS) will deliver FS in English and Mathematics. The framework is not a qualification in itself, but is the collective term used to describe how the NS sets out the educational standards that ratings/other ranks are required to achieve within specified timescales (or prior) to substantive promotion. The EFP requirement is:

(1) Personnel who do not hold GCSE Grade A* - C, (9 – 4 for Summer examinations 2017 onwards), Level 2 or equivalent qualifications in English Language and Mathematics, are required to undertake a FS Initial Assessment to establish their current operating level in English and Mathematics. See Annex 96D for a list of MOD approved proxy qualifications that give equivalence to Functional Skills.

(2) All personnel must attain a Level 1 FS qualification in English and Mathematics in order to be educationally qualified for promotion to LH/Cpl. At the very least, they should attain Level 1 within three years of joining the RN or RM. All Ratings/OR will undertake and be tested at Level 2 for FS English and Mathematics during their Intermediate Apprenticeship programme. Level 2 should be achieved by the end of the apprenticeship. Those who cannot achieve this standard can receive support from the LDO either through Hubs or by the LDO (Ops) teams. There is a command responsibility to ensure that time is provided for undertaking FS to Level 2.

(3) All personnel without Level 2 qualifications are to achieve Level 2 FS in English and Mathematics within eight years of joining the RN/RM or prior to promotion to substantive Petty Officer (PO)/Sergeant (Sgt), whichever is earlier; Level 2 is the minimum FS qualification required for promotion to PO/Sgt.

(4) There is no educational requirement for promotion to Chief Petty Officer/Colour Sergeant.

---

6 Under EFP, GCSE Grade D - G (3-1 for Summer examinations 2017 onwards) in English Language/Literature and Mathematics will be accepted as Level 1.
7 Promotion Regulations (see BRd 3(1) Part 8) are to be consulted for specific branch selection criteria.
(5) A review of the through career education requirement identified that the Qualified Educationally Warrant Officer (QEWO) competence is no longer valid/required. This is due to there being no qualification for promotion to WO in addition to that required for PO/Sgt. There will be no legacy rights and individuals will require English and Mathematics competences at Level 2 to be annotated on their JPA competence profile, which may be obtained from the various competences listed below:

| Educational | RN/RM Basic Skills Numeracy Level 2 | Navy |
| Educational | RN/RM Basic Skills Literacy Level 2 | Navy |
| Educational | RN/RM Key Skills AON Level 2 | Navy |
| Educational | RN/RM Key Skills Communication Level 2 | Navy |
| Educational | RN/RM Functional Skills Mathematics Level 2 | Navy |
| Educational | RN/RM Mathematics Level 2 | Navy |
| Educational | RN/RM Functional Skills English Level 2 | Navy |
| Educational | RN/RM English Level 2 | Navy |
| Educational | RN/RM English Proxy A*- C | Navy |
| Educational | RN/RM Mathematics Proxy A*- C | Navy |
| Educational | RN/RM Basic Skills Proxy Numeracy Level 2 | Navy |
| Educational | RN/RM Basic Skills Proxy Literacy Level 2 | Navy |

Where a competence is not annotated but an appropriate qualification is held, it is the individual’s responsibility to provide evidence that they are educationally qualified. Requests for changes to educational status are to be submitted either to NAVY TRG HQ-LDO POL EFP E1 or NAVY TRG HQ-LDO POL ACCRED EFP together with certified true copies of the relevant certificates, or taken to the nearest Learning & Development Hub (L&D Hub), Education and Resettlement Officer (ERO)/Unit Education Officer (UEO) or Learning & Development (Operations) (LDO (Ops)). Once qualifications are confirmed as suitable, the new educational status will be entered directly onto JPA.

(6) International qualification evaluation is only to be conducted by NAVY TRG HQ-LDO POL EFP E1 or NAVY TRG HQ-LDO POL ACCRED EFP. Full qualification certificates are required; preliminary/provisional result slips are not acceptable. Note: International qualification evaluation is for NS purposes only, any further evaluation ie. on leaving the Service, is the individual’s responsibility.

b. **Legacy Personnel who joined the Naval Service before 1 Apr 06**

(1) NAMET scores of 5:5 and above will remain extant for the purposes of promotion to LH/Cpl and for Branch Transfer (BT) and Specialist Qualification (SQ) selection. NAMET scores will not be taken into consideration when assessing whether an individual is at the correct educational standard for promotion to PO/Sgt.

---

8 Individuals who rejoin the Service as ABs have legacy rights if their initial date of entry was prior to 1 Apr 06.

9 Results can be split eg. NAMET for one element and Functional Skills for the other, in order to be most beneficial for the individual.

10 NAMET 0:0 denotes GCSEs in English and Mathematics at Grade C or above, further clarification on NAMET scores can be obtained from NAVY TRG HQ-LDO POL EFP E1.
Personnel who do not hold a FS at Level 2 or a proxy qualification will need to attain the requisite FS qualifications in English and Mathematics prior to promotion to PO/Sgt.

9616. **Access to English and Mathematics Support and Testing Provision**

a. Opportunities to achieve the pre-requisite level of FS certification for promotion is available through accredited training, such as the Apprenticeship Programmes integrated as part of Phase 2 Training and the Advanced Apprenticeship Schemes associated with career courses. These schemes enable achievement of FS Level 1 and 2 qualifications through the completion of nationally recognised assessments in English and mathematics. Personnel registered on the Apprenticeship and Advanced Apprenticeship Schemes who successfully complete the FS tests at the appropriate level will qualify educationally for promotion.

b. Where personnel need to achieve FS outside of the formal training system, opportunities exist through the network of L&D Hubs. The programmes offered in the Hubs are tailored to suit the individual’s current knowledge, circumstances and abilities. Usually, most of the programme is delivered via an e-learning medium with assistance from an E-Learning Adviser (ELA) or equivalent. Such programmes are supplemented with 1:1 tuition from the English or Mathematics Tutor and, where tutors are not available, EROs, LDO (Ops) and UEOs or equivalent should be able to assist. If needed, the help of Specific Learning Difficulties Advisers (SpLDA) can also be accessed. When e-learning is deemed to be unsuitable for an individual, face to face tuition will be offered. A choice of electronic or paper-based examination is also available.

c. Onboard a ship, individuals can achieve FS qualifications if help is available from an LDO (Ops) officer or an ERO. Offline learning materials and 1:1 or small group tuition is usually used, leading to a paper-based test. The test must be invigilated by an LDO (Ops) officer or trained ERO.

9617. **English and Mathematics Programme**

The sequence of FS provision may be summarised as follows:

a. **Initial Assessment.** Initial assessment (IA) establishes an individual’s English or Mathematics skill level in terms of the Regulated Qualifications Framework (RQF) levels (from Entry Level 1 to Level 2). Note: IA is not a qualification and cannot be used to qualify an individual for promotion.

b. **Diagnostic Assessment.** Diagnostic Assessment identifies an individual’s specific ability and highlights areas of weakness. This provides a description of learning needs and assists the FS specialists in the compilation of a learner’s programme planner, also known as an Individual Learning Plan (ILP). The ILP outlines short- and longer-term learning targets, a detailed programme to address the FS needs and a record of progress and achievement.

c. **Learning Support.** Learning Support is the programme of support developed by the FS specialist for the learner. It may comprise 1:1 or classroom tuition, group work, intensive courses, e-learning based programmes and distance learning.
d. **Mock Assessment(s).** Mock assessments would usually resemble the ‘life’ examination and are offered to the learner as an exam preparation tool.

e. **Testing For Qualification.** All FS programmes offered to Service personnel lead to a nationally recognised qualification that is awarded on successful completion of the final assessment(s).

f. **Tracking.** Accurate recording of FS information is critical in support of the personal development of the individual. It is therefore important that data on FS achievement by the individual follows them through their training and throughout their service career.

9618. **Educational Qualification for Promotion, Branch Transfer or Specialist Qualification Selection**

a. EFP does not affect the education requirements of those branches with a requirement for specific GCSE qualifications for entry.

b. NAMET scores achieved by legacy personnel for the purposes of selection for BT and SQ will remain extant for the service lifetime of the individual. All other personnel who wish to be considered for BT and SQ will be required to achieve the relevant FS in English and Mathematics.

9619. **Educational Criteria for Upper Yardman and Senior Upper Yardman**

a. Commissions and Warrant (CW) papers should be raised only for Upper Yardman/Corps Commission (UY/CC) candidates who meet, or expect to meet, the educational criteria of five GCSE grades A*-C\(^\text{11}\) (or equivalent) in non-overlapping subjects, including Mathematics and English Language.

b. The educational requirement for Senior Upper Yardman/Senior Corps Commission (SUY/SCC) candidates to have CW papers raised is two GCSEs Grade A*-C (or equivalent), one of which must be Mathematics or English Language. To be eligible for the Final Selection Board, SUY and SCC candidates are required to have GCSE Grade A*-C in Mathematics, English Language and two other non-overlapping subjects (or equivalent), a total of four GCSEs. Warfare SUY(WO) candidates require two GCSE Grade A*-C or equivalent in Mathematics and English Language.

c. Common equivalent qualifications that are accepted in lieu of the GCSE are as follows:

   (1) Scottish Intermediate 2.

   (2) GCE Ordinary Level (Grade A, B or C).

   (3) Certificate of Secondary Education (CSE) (Grade 1).

---

\(^{11}\) From Summer 2017 the GCSE grading system is being progressively reformed, English and Mathematics GCSEs being the first: Grades 9 – 4 equate to A* - C, Grades 3 – 1 equate to D – G.
d. The qualifications above are by no means exhaustive and, in cases of doubt regarding the acceptability of qualifications or subjects, upon submission of certified true copies of certificates, NAVY TRG HQ-LDO POL EFP E1 or NAVY TRG HQ-LDO POL ACCRED EFP will evaluate academic/vocational qualifications.

e. A pass at the Admiralty Interview Board (AIB) will not negate the requirement to meet the educational criteria; consequently, candidates who fail to obtain the required educational standards will not be considered by the Final Selection Board (FSB) and will need to re-submit their application for the UY or RM CC scheme once they are educationally qualified. In circumstances where a candidate’s education results are due after their attendance at the AIB but before their appearance at the FSB they may, depending on the results, be considered by the FSB.

f. Requests for changes to educational status are to be submitted to NAVY TRG HQ-LDO POL EFP E1 or NAVY TRG HQ-LDO POL ACCRED EFP with certified true copies of the qualification certificates. Once qualifications are confirmed as suitable, NAVY TRG HQ-LDO POL EFP E1 or NAVY TRG HQ-LDO POL ACCRED EFP will enter the new competence directly onto JPA. The authority for recording on JPA the competence Qualified Educationally for UY/SUY rests solely with the Learning & Development Policy (L&D Pol) team.

9620. Additional Educational Criteria for Upper Yardman and Senior Upper Yardman

a. **Upper Yardman.** Candidates for Engineering specialisations are required to have additional qualifications over and above the basic requirement listed at Para 9619 above. These additional requirements are as follows:

**Candidates for Upper Yardman Engineer Officer (UY(E)).** Engineer Officers commissioned under the UY(E) scheme are required to have successfully completed degree level study leading to the award of an appropriate engineering degree which is accredited to Incorporated Engineer level by the Engineering Council. SUY Engineer Officer candidates are subject to different requirements, as detailed in Chapter 50. The Service has three routes available to enable candidates to achieve the UY(E) requirement: UY(E) University of Portsmouth Degree Scheme (UY(E) UoPDS), a Degree Apprenticeship or the Defence Technical Undergraduate Scheme (DTUS). Selection to the DTUS will be limited to those candidates who display outstanding officer and academic potential early in their Service career and who achieve an AIB Final Board Score of at least 250 marks, commensurate with that of a potential University Cadet Entry (UCE) candidate. Detailed pre-educational requirements for UY(E) candidates can be found in Chapter 50.

**Note.** Reporting Officers are advised to discuss a potential UY(E) candidate’s current academic achievement and any study being undertaken with the appropriate Upper Yardman Recording Authority (UYRA) before commencement of CW papers. Such action will avoid nugatory reporting for ratings who are unlikely to meet the educational standard required to study for an Engineering degree.
b. **Upper Yardman/Senior Upper Yardman.** Those qualifications required for entry into specialisations, over and above the basic requirement, are as follows:

1. **Candidates for Training Manager (TM).** Candidates for TM must have gained, or be in the process of gaining, a degree that is recognised within the UK. Candidates will not normally be able to attend the AiB until they have received their degree results in writing. Only in exceptional circumstances, and with the approval of AiB Cdr(E), will candidates be permitted to attend the AiB without written evidence of their degree results. It should be noted that entry into the Officer Corps will be on production of either the degree certificate or a document containing the candidate’s final results.

2. **Candidates for QARNNS.** In-Service candidates for QARNNS must be registered with the Nursing and Midwifery Council (NMC). At the discretion of the QARNNS Recording Authority (RA), candidates may be deferred when there are already too many nominations or when, in the Recording Authority’s judgement, and with the agreement of the Commanding Officer, a candidate is not yet ready to attend the AiB.

c. **Recording of Results.** Results should be recorded by following the guidelines below:

1. **Data Capture.** Accurate recording of FS information is critical in support of the personal development of the individual, as such details of FS assessments and qualifications need to be captured at the earliest opportunity on JPA as a competence. Initial training establishments are to ensure that the appropriate results are recorded on entry to the Service. Phase 2 training establishments are to update records to reflect any improvement in an individual’s qualifications generated by successful completion of FS elements of the relevant Apprenticeship Programmes.

2. Authority for updating English and mathematics competences to JPA has been delegated to a limited number of authorised personnel within L&D Hubs. The L&D Pol Team is the central point of contact and competence recording authority for FS qualifications, English and mathematics GCSEs and educational equivalencies. Verification of education equivalences remains the sole responsibility of the L&D Pol Team.

3. It is not a requirement for individual qualifications to be recorded within the qualifications area of JPA. The main priority is that the individual’s JPA competence profile accurately reflects the Educational/Professional Qualified competence and that the individual is educationally qualification for promotion. It is the responsibility of individuals, Divisional Officers/Troop Commanders to ensure that JPA is updated with any other qualifications (JSP 794 refers).

4. Due to GDPR and limited storage space, paper records of individuals qualifications will no longer be retained by the L&D Policy Team.
SECTION 5 – ACCREDITATION

9621. Accreditation of Naval Training and Experience

a. The Naval Service (NS) is fully committed to the overarching Defence Direction for accreditation, which is contained within JSP 822, Part 1, 6.3.

b. Accreditation is the gaining of a whole or partial civilian qualification through the recognition of training and experience. Where accreditation does not meet the requirements for the full national qualification, schemes should provide opportunities for individuals to ‘top-up’ their learning to enable them to achieve that full qualification.

c. The purpose of this section is to:

   (1) Provide an overview of the principles of accreditation.

   (2) Identify NS specific issues.

9622. Overarching Principles

a. Accreditation is to be sought for all mandatory training, subject to it being able to meet the policy criteria and the necessary resources being available\(^\text{12}\).

b. The NS will facilitate and fund accreditation in accordance with the following principles:

   (1) Negotiate, with Awarding Bodies, the highest level of recognition of all NS, Training and Experience which contributes towards a Role Performance Statement (RPS) or educational outcomes. The choice of accreditation to be pursued will depend upon the following:

      (a) An assessment of the value of the qualification in the current and future civilian employment market and its associated value to recruitment and retention. Particular attention should be given to the likely completion rates of the chosen route.

      (b) The nature and scale of the gap between RPS and the standard required by the civilian qualification.

      (c) The availability of resources to bridge the gap to a higher civilian standard.

\(^{12}\) JSP 822, Part 1, 6.3 para 3.
(d) The value (skills, professional contacts) that may benefit the NS as a result of holding that award whilst the individual remains in Service.

(e) Government policies and the related ability to access Education and Skills Funding Agency (ESFA) funding to support any additional training or administrative effort, (over and above the RPS), that is required to facilitate accreditation.

(2) Provide opportunities for Service personnel to gain civilian accreditation in a structured and cost-effective manner, on a through career basis.

(3) Provide qualifications and accreditation mandated by national legislation.

(4) A maximum of 10% of training time/resources may be added in order to achieve accreditation. This 10% will not include any element of elective activity carried out by the student. In accordance with JSP 822 Pt1 6.3, any accreditation which requires a course extension of any size must be approved by the Service Director of Education (SDE), Assistant Chief of Staff (Training (ACOS(T)).

(5) Not permit core military requirements to be compromised by accreditation schemes.

(6) Accreditation costs money through the extension of the training pipeline, registration/administration fees and the maintenance of Accreditation Cells, and is therefore to be pursued as efficiently as possible.

9623. Accreditation Sponsors
The responsibility for accreditation within the NS falls to either ACOS(T) for pan-Naval training or Branch Managers for branch specific training.

a. Pan-Naval Training. Pan-Naval training comprises principally generic training, eg. Command, Leadership and Management (CLM) training, Leading Rates’ Leadership Course (LRLC), Initial Command and Staff Course (Maritime) (ICSC(M)), Junior Command Course (JCC) etc. Overall responsibility for the accreditation of these courses lies with ACOS(T), delegated to Cdr LDO, working in conjunction with the appropriate lead schools.

b. Branch Specific Training. Branch Specific Training is the responsibility of lead schools/heads of profession who will liaise directly with the appropriate accreditation bodies within the rules laid down in JSP 822 Pt1 6.3. ACOS(T) provides an advice/consultancy service in these cases.
Accreditation Categories

Accreditation falls into one of two broad categories:

a. **Professional.** Professional accreditation is accreditation which is derived from a service funded course and which an individual is required to attend for reasons of career progression in a specific job.

b. **Elective.** Elective accreditation (eg. non-career courses) is additional top-up training designed to complement a career course, or extension of a Foundation Degree to an honours degree.

Accrediting Bodies

Accreditation is to be sought for all mandatory training, as follows:

a. In the first instance, the selection of the most appropriate awarding organisation is a key consideration and will aid the overall development of any accreditation scheme. In accordance with Defence Direction, the Defence Awarding Organisation (DAO) must be considered.

b. Whether a suitable Apprenticeship standard is available must be explored, if in doubt L&D Accredit Pol C2 can advise.

c. At the highest possible level as measured on the Regulated Qualification Framework (RQF).

Governance

a. As the SDE, ACOS(T) is the lead for accreditation within the NS and is represented on the Defence Education and Skills Policy Working Group (DESPWG) by Cdr LDO.

b. Naval accreditation policy will adhere to the principles as set out in the Defence Direction (JSP 822, Part 1, 6.3.). Cdr LDO has the executive authority for enforcing, amending or amplifying NS accreditation policy.

c. To ensure economies of scale and that policy guidelines are being adhered to, all potential accreditation routes must be endorsed by Cdr LDO/L&D Accred Pol C2.

d. In order to take advantage of best practice, a biannual Accreditation Working Group will meet with accreditation sponsors, Branch Managers Lead School accreditation experts; it will be chaired by L&D Accred Pol C2.

Funding

a. Accreditation can be funded either by the Service or by individuals, depending on the type of course. The availability of financial resources must be carefully considered prior to commitment to a given accreditation scheme.
b. Potential funding routes include the following:

1. **NCHQ Funding.** For accreditation derived wholly from generic NS career courses, for example CLM courses, Service funding will be provided by ACOS(T) from a central budget.

2. **Other Service Funding.** For accreditation derived wholly from Branch specific career courses, Service funding will be provided by the requirements desk/lead school in question. L&D Accrd Pol C2 must be informed of all intended accreditation including costs. Desk officers must seek advice from L&D Accrd Pol C2 before embarking on an accreditation route.

3. **Individual Funding.** For accreditation derived from courses which are not part of an individual’s career requirement, or from personal elective education and training (eg. the extension to a full honours degree for PO/CPOETs) the individual will be expected to fund the accreditation.

4. **Learning Credits.** Service personnel may be able to utilise Standard Learning Credits and Enhanced Learning Credits to fund accreditation provided that the qualification falls within the scope of the regulations at Section 8.

### 9628. Responsibilities

a. Cdr LDO/L&D Accrd Pol C2 is to:

1. Set single Service policy

2. Provide advice on funding priorities and development.

3. Be responsible for the accreditation of pan-NS or generic initiatives.

4. Manage the NS overview on accreditation, ensuring an accurate reflection of the level of accreditation activity is maintained and providing Management Information.

5. Maintain close working relationships with Branch/Career Managers and Accreditation Cells regarding NS Accreditation.

6. Ensure Career Templates are accurately maintained.

7. Manage contracts associated with generic NS courses eg. CLM courses.

b. Accreditation Sponsors are to:

1. Identify training that may attract civilian recognition and liaise with Awarding Bodies for the accreditation of branch specific training.
(2) Ensure that, when considering new accreditation initiatives, thought is given to accrediting the course to an Apprenticeship Scheme, thus taking full advantage of Levy funding from the Education, Skills Funding Agency (ESFA).

(3) Co-ordinate activity with other Accreditation Sponsors where required.

(4) Within Lead Schools, maintain Accreditation Cells with sufficient staff and expertise to implement this policy.

(5) Provide adequately trained assessors to support/undertake workplace assessments. Where practicable, assessments are to be based upon existing task book regimes.

(6) Ensure that, on request from L&D Accred Pol C2, annual accreditation returns are completed in a timely manner.
SECTION 6 – APPRENTICESHIPS

9629. **Background**

The Naval Service (NS) has been delivering Apprenticeships since 2002 and is committed to, where a suitable programme exists, offering an Apprenticeship to each new recruit. Progression routes will be implemented where practicable.

9630. **Apprenticeship Governance**

a. **Government.** The Department for Education (DfE), the sub elements of the Education, Skills Funding Agency (ESFA) and the Institute for Apprenticeships & Technical Education (IfATE) provide the guidelines, rules and processes for Apprenticeship delivery.

b. **MOD - Training, Education, Skills, Recruitment and Resettlement (TESRR).** TESRR, based in MOD Main Building, oversees the Apprenticeship Programme across the Ministry of Defence.

c. **Navy Command Headquarters (NCHQ).** Assistant Chief of Naval Staff (Training) (ACNS(T)) is the 2* single Service lead and ACOS(T) is designated the Service Director of Education (SDE).

d. **Commander Learning and Development Organisation (Cdr LDO).** Cdr LDO is the RN Apprenticeship Contract Manager and directs the NS Apprenticeship Programme (NSAP).

e. **SO2 Apprenticeships (SO2 Apps).** SO2 Apps is responsible for the effective management of the NSAP on behalf of Cdr LDO and ensures that all government contractual and financial regulations are met. All new Apprenticeship opportunities must be communicated to SO2 Apps in the first instance.

f. **Naval Apprenticeships Warrant Officer (AppWO).** The AppWO supports the development and implementation of Apprenticeship Policy across the NS, including liaising with other services, TESRR and skills/education organisations as required. The AppWO is the NS PoC for all Trailblazer (TB) activity.

g. **Branch Managers (BMs).** BMs are an integral element in the development of appropriate Apprenticeships and attend termly working groups chaired by Cdr LDO.

h. **Royal Marines Civilian Accreditation Adviser (RMCAA).** The RMCAA is responsible to SO2 Apps to support the implementation of the HM Forces (Service Person) Apprenticeship Standard and for the development of RM apprenticeship routes.
i. **Establishment Naval Service Sub-Nominees.** Sub-Nominees are the NS representatives within each Training Establishment and are responsible to Cdr LDO for ensuring that the Establishment is ready for any Apprenticeship Assurance visit, namely Ofsted. The sub-nominee will be required to attend the SNAWG on a bi-annual basis. The sub-Nominee is to chair an 'Apprenticeship Working Improvement Group' (AWIG), or equivalent, with the relevant Apprenticeship Manager and key personnel on a termly basis in order to review and update the establishment Apprenticeship Self-Assessment Review (SAR) and Quality Improvement Plan (QIP). Care and Welfare Apprenticeship SAR and QIPs should be combined where appropriate, and at a minimum cross referenced.

j. **Babcock Marine Training Limited (BMTL).** BMTL is contracted by the RN under the Fleet Outsourced Activities Project (Training) (FOAP(T)) to deliver large elements of the training overseen by ACNS(T), and all training support (training design, planning, assurance etc). On behalf of the NS, it also manages the Apprenticeship programmes within establishments.

k. **Establishment Apprenticeship Cells/Teams.** Establishments conducting Apprenticeships and NVQ (QCF) qualifications manage their own schemes on a day to day basis.

---

**Figure. 96-2. The Naval Service Apprenticeship Organisation**
9631. **Apprenticeship Delivery**

In 2015 DfE introduced a major reform of Apprenticeships; the NS will finalise the changes in Jul 20. There is currently a mixture of the Apprenticeship programmes (frameworks and standards) whilst the reforms are implemented.

a. Table 96-1 details current courses.

b. Apprenticeship completion times vary between programmes and range from 12 to 36 months. Progressional routes are being developed for all branches.

c. Apprenticeship Standards have a new format delivery with a greater emphasis on consolidation training and include an End Point Assessment (EPA). There are 3 distinct phases to the completion to an Apprenticeship Standard:

   (1) **Foundation:** Training delivery within a Phase 2 Establishment.

   (2) **Development:** Consolidation of training within a Unit.

   (3) **EPA:** Independent assessment conducted within Unit.

d. All NS apprenticeship programmes are subject to the DSAT processes laid down in JSP 822. The training is therefore subject to internal establishment Quality Assurance (QA) as well as second party assurance by the ACNS(T) QA team based in NCHQ.

9632. **Functional Skills**

For personnel who require it, attainment of Functional Skills (FS), is a key component of Apprenticeship programmes with dedicated time for teaching and assessment.\(^{13}\)

a. English and mathematics Level 2. With the introduction of Standards, it is now Apprenticeship policy to test everyone at L2. If this cannot be achieved a support package will be created with progress being monitored throughout the duration of the programme.

b. **ICT.** It is NS policy for all RN ratings (not RM) to undertake ICT L1 as part of a Level 2 Apprenticeship programme.

AP Manager: George Duncan

AP Manager: Alex Smith

AP Manager: Jarod Harvey

AP Manager: Jack Fleming

AP Manager: Jarod Harvey
### Apprenticeship Learning Cycle

Each trainee will undergo the following process as part of the Apprenticeship Learning Cycle:

- **Initial Assessment.** Trainees will be assessed to ensure their suitability for the selected Learning Programme and occupational sector, including a numeracy and literacy Initial Assessment. Trainees assessed as suitable for an Apprenticeship, but exhibiting Specific Learning Difficulties (SpLD), will receive support in accordance with JSP 822 Pt 1 6.1 and Section 10.

- **Induction and Training.** All NS trainees will be given an Apprenticeship brief at HMS RALEIGH and CTCRM explaining the Apprenticeship Scheme.

- **Reviewing Progress.** Regular learner reviews will be carried out at a minimum of every 12 weeks to evidence a learner’s active involvement in learning progression. This process involves the learner and employer setting realistic targets, mentoring and updating the Individual Learning Plan (ILP), and providing support and assistance as appropriate. The ILP has been mapped to the content of the training pipeline which clearly defines what the learner will achieve during their Apprenticeship programme.

- **NVQ/(QCF) Assessment (where applicable).** All personnel conducting Apprenticeships are tracked, with the NVQ(QCF) being assessed by formally qualified NVQ assessors or SMEs. The outcome of the assessment and verification process ensures that qualification learning outcomes are met. Tracking and assessment in the wider Fleet will include visiting Quality Assurers. Units must recognise the importance of these visits and acknowledge that a completed NVQ/QCF task book must be forwarded to the learner’s registering establishment.

- **End Point Assessment (EPA).** An Apprentice will only be awarded their Apprenticeship on successful completion of the EPA. This assessment is particular to each Standard and as such the delivery will vary between programmes. Normally, they will take place within a Unit and where practicable will be aligned with current career processes. The NSAP HQ will ensure support measures are put in place to prepare the learner for their EPA; these could include:

---

14 Other options include Realistic Working Environments.
(2) Visits from Apprenticeship staff.

(3) Computer based training with offline capability.

Units will be provided with information and support to help with the continuation of training. Information on EPAs will be promulgated via RNTM once a delivery route is developed.

f. **Apprenticeship Encouragement.** Trainees who have yet to achieve the appropriate grade in Functional Skills (FS) are to be encouraged and, where possible, given maximum access to Naval education facilities Learning & Development Hubs (L&D Hubs) and Learning & Development Organisation (Operations) (LDO(Ops)) in order to complete the grade. Certified copies of FS certificates should be sent to the lead school in order to claim the Apprenticeship.

9634. **Higher Level Apprenticeships**

a. Higher Level Apprenticeships (Level 4-7) are increasing in availability and delivery with a number of Higher Education Establishments, including universities, offering them. If an opportunity is identified as feasible for any number of NS personnel, then SO2 Apps should be contacted in the first instance.

b. The Civil Service (CS) has its own Apprenticeship offering and there may be opportunities for NS personnel to utilise this offering. SO2 Apps is the point of contact for enquiries.

9635. **Audits and Inspections – Ofsted**

All RN/RM Phase 2 and a high proportion of Phase 3 training has Apprenticeship qualifications mapped to the training delivered. Any MoD training that receives such civilian recognised qualifications, and attracts government support funding, is liable to be inspected by Ofsted.

a. As the Ofsted nominee, Cdr LDO will receive the notification of an inspection with 48 hours warning. This will be communicated to all appropriate stakeholders and Training Establishments. The inspection will be managed centrally by Apprenticeship HQ with assistance from establishment Sub-nominees and BMTL Apprenticeship Managers. Cdr LDO is the owner of the NS Apprenticeship SAR and QIP.

b. **Internal Apprenticeship Reviews within Training Schools (Common Inspection Framework).** In addition to the QA processes delivered as part of JSP 822, the BMTL Apprenticeship Team is contracted to deliver an annual programme of internal Apprenticeship assessment reviews. These assessment reviews are based on the Ofsted Common Inspection Framework (CIF).
c. **Provider Financial Assurance Audits (PFA).** PFA audits are conducted by the ESFA to ensure eligibility and authenticity of funding claims and correct contractual adherence to funding rules and regulations. They will inspect a sample of learner files against their records and the Training Provider’s records. They expect to find, or be provided with, evidence that the records meet contractual regulations of continuous learning for the periods of funding (learner reviews etc). Where records do not concur, or if evidence cannot be provided to demonstrate an individual was in continuous learning, the funds provided for those Learners/periods will be reclaimed by the ESFA.

9636. **Management and Governance of Apprenticeship Funding**

a. All companies with an annual PAYE bill in excess of £3 million are subject to a 0.5% levy to pay for Apprenticeships. As part of MOD, the NS pays into the Levy. When learners are registered onto the digital Apprenticeship Service (AS), money is drawn back into a bank account held by ACNS(T) and managed by Cdr LDO on behalf of ACOS(T). Money received via the AS and ESFA is managed in accordance with funding rules and costing models.

b. If an Establishment/Unit identifies an area where the facilities or opportunities for Apprenticeship delivery could be improved, then an application can be made to utilise funds.

c. All applications from unit sponsors for Apprenticeship Grants should be sent to/via the relevant Apprenticeship Manager, or SO2 Apps, using the Grant Application Form at Annex 96E. Completed forms should be sent to the Contract Support Team (based at HMS COLLINGWOOD) where they will be processed, and the approval route will commence. A business case appropriate to the value of the project will be required to justify the request.

d. In the case of equipment with maintenance requirements and/or limited life, a clear statement of how the sponsor intends to meet those requirements/replacements is required. This funding does support through-life aspects of a project.

e. Grants will remain valid for 12 months from approval and progress will be monitored against the business case and MoD policy/procedures by the Contract Support Team. Grants remain the responsibility of the Grant Application Sponsor. If the project is not brought to fruition or item is not procured after 12 months, then approval will no longer be extant.

f. **Approvals Process**

(1) **SO2 Apps.** Following assurance checks by BMTL, grant applications up to £25,000 will be approved by SO2 Apps.

(2) **Cdr LDO.** Following assurance checks by BMTL and SO2 Apps, applications between £25,000 to £100,000 will be authorised by Cdr LDO and Navy Finance.
(3) The Naval Service Apprenticeship Approvals Board. The Board shall meet as required to consider proposals in excess of £100k, or manpower requests. Composition is as follows:

- Chairman: DACOS(T)
- Secretary: SO2 Apps
- Member: Cdr LDO (Hd Apprenticeship Programme)
- Member: COMCORE COS or Business Manager (as required)
- Member: COMOT COS or Business Manager (as required)
- Associate Member: BMTL Representative
- Adviser: Fleet Financial Rep Adviser (as required)
- Adviser: Fleet Commercial Rep Adviser (as required)
- Adviser: FOST HQ Business Manager

g. Financial Propriety. All financial approvers are accountable to their Chain of Command for the proper management and expenditure of Apprenticeship funding drawn down through national contracts. In addition, the following must be adhered to:

1. Expenditure and accounting procedures must be in accordance with departmental policy and procedures for MOD funds. Accounts may be subjected to scrutiny by Defence Internal Audit and the National Audit Office.

2. Funding shall not directly underpin core NS training.

3. Double funding (the use of Apprenticeship funding for activities, supporting personnel or resources already paid for within the MOD budget) is to be avoided.

4. Equipment is to be considered MoD property and be entered into a Fixed Asset Register, created by the receiving establishment for each permanent item of expenditure. In the case of new/additional IT equipment directly relating to FOAP(T) and requiring BMTL maintenance support, the sponsor will need to engage with the Authority contract management to establish approval to add equipment to the Schedule 10 Equipment Log within the FOAP(T) contract.

5. Disposal and write off will be in accordance with normal business guidelines, ensuring that efficiency and effectiveness of delivery is maintained.

h. Sponsor’s Responsibility. Sponsors of a grant are to ensure that:

1. Navy Finance and NSAP HQ are informed of any invoices/payments due quoting your grant reference, designated UIN and RAC code.

2. Termly progress review is provided to NSAP HQ, significant delays/issues should be reported as soon as practicable.
(3) Details of the project are handed over to an appropriate person when leaving a role.

(4) NSAP HQ is consulted regarding appropriate branding, signage and PR prior to the completion of the project.
SECTION 7— NAVAL SERVICE OFFICER AND RATINGS LEARNING AND DEVELOPMENT OPPORTUNITIES

9637.  Aim
The LDO aims to support all Naval Service (NS) personnel to achieve their full potential, enabling access to education and development support whenever and wherever needed and providing skills that are transferable to the national workforce.

9638.  Officers’ Learning and Development Pathway (OL&DP)

a.  The regulations for the current programme for OL&DP (previously TLEP (O)) (illustrated at Annex F) pertain to all RN Officers.  Additional guidance for RNR Officers is currently under development but all stages are available where capacity exists.

b.  The regulations pertaining to the RM Officer Career Development (RMOCD) are published in BRd 8374 (RN and RM Officer Training Regulations) and 2019DIN07-054.

c.  The programme consists of the following elements:

Table 96-2.  Officers Learning and Development Pathway Elements

Stage 1 Essay Competition

a. Introduction. The Stage 1 Essay Competition (sponsored by the Association of Royal Naval Officers (ARNO)) is an annual, 2,500 word research-based essay competition aimed at developing the underpinning analytical, cognitive and communication skills required of a junior officer.

b. Whilst the mandatory nature of the competition, to help incentivise the process the Association of Royal Naval Officers has sponsored a number of prizes.

c. In accordance with the RN Education Strategy, the objective of the Stage 1 Essay is to practice and develop the thinking skills required by officers in the RN whilst also reinforcing their understanding of broader maritime concepts and issues. It will build upon the academic and knowledge base developed during Initial Naval Training (Officer) (INT(O)).
9641. **OL&DP JPA Recording**
Course managers/administrators are to ensure that the appropriate competences are recorded on JPA in a timely manner. Individuals are responsible for ensuring that their records are up to date.

9642. **Educational Prizes**
Each year, educational prizes are awarded to Junior Ratings, Senior Ratings and Officers. The competitions involve either writing an essay or completion of exams. The details of eligibility, subjects and entry requirements are announced annually by DIN.

9643. **Lieutenant Commander Hooper Prize**

a. The Lt Cdr Hooper Prize is an annual essay competition commemorating the late Lt Cdr Geoffrey William Winsmore Hooper OBE RN. The prizes originate from a trust fund set up in 1952 at the bequest of Lt Cdr Hooper’s mother (the late The Mrs C B Hooper).

b. Following research changes have been made which returns the competition as close to its original format as practicable and to the original intent of Mrs Hooper.

c. The prize will be run and managed annually by LDO Ops, who will determine who orchestrates the competition, setting the question/managing the entrants/the judging/marketing panel etc.

d. **Eligibility.** The competition is open to Junior Ratings/Other Ranks in the NS including those holding acting higher rank (ie. substantive Leading Hand/Corporal and below).

e. **Prizes.** Prizes will be awarded as follows:

   (1) First Prize - £300.

   (2) Second Prize - £150.

   (3) Third Prize - £100.

f. This competition is sponsored by ACOS(T), who reserves the right to increase the value and number of prizes, to withhold the award of some or all of the prizes if essays are of insufficient merit, and to combine prizes and divide them equally where prize-winning essays are of equal merit. No competitor may submit more than one essay for each competition.

g. **Essay Title.** The essay title will be promulgated annually via an RNTM. Essays must be on the stipulated subject, be in English, and be of no more than 2,000 words (10% allowance over/under). The RNTM will outline details of the submission procedure.
9644. **Personal Development Record**

The Personal Development Record (PDR) supports individuals by providing an excellent means of helping them progress their service career and make the transition into civilian life. The PDR Concept is used today throughout organisations in the public, private and voluntary sectors and is regarded as ‘good practice’. It supports both OL&DP and the Through Life Education Pathway Ratings (TLEP(R)) and its use should be actively encouraged. It should be distributed at the following opportunities:

a. New entrants to the NS are issued their PDR during initial training, through the appropriate new entry training establishment.

b. The PDR is available to reservists, via their parent units. Reserve units’ requirements are co-ordinated by the appropriate reserves’ authority.

c. For those who have lost their PDR and wish to replace it, the local Learning & Development Hub (L&D Hub) should be the first point of contact. A limited number are held in stock and further supplies may be ordered as required.

9645. **PDR Ownership and Upkeep**

The PDR is owned and maintained by the individual. Only the owner has ‘right of access’. It is an organisational responsibility, however, to inform individuals that to gain full benefit from their PDR, they will need to discuss it with those in a position to help and advise. This will certainly include Divisional Officers/Line Managers, EROs, LDAs and LDO(Ops). In reviewing the PDR;

a. Individuals should be encouraged to review their PDRs on the following occasions:

   (1) Shortly after starting a new assignment, or on arrival at a new unit.

   (2) Shortly before and after appraisal interviews, when training and development needs are identified. PDRs can be used as evidence to demonstrate a development aim where NS funding is required; such as using Standard Learning Credits or Enhanced Learning Credits.

   (3) Shortly before and after any educational career or professional training course.

b. Personnel leaving the Service for civilian employment will often need to compose a CV, write letters of application and attend interviews. This means gathering details of work history, training and development, qualifications and achievements. The PDR provides an excellent means of doing this.

c. Personnel should be encouraged by DOs and Line Management to complete their PDRs, primarily by example. Line Management’s familiarity with the concept, and support for it, is essential for success.

d. The PDR is voluntary. Individuals should be encouraged to use their PDR by stressing its benefits and showing a real interest in its development.
9646. **Structure and Content.**

The PDR comprises a binder with inserts grouped into six sections, outlined below, including space to hold reports, certificates, appraisals, digital media etc. It enables individuals to record, review, and plan their personal development and can be used to keep evidence for civilian accreditation, promote through-career development and provide source material to support CVs, job applications and interviews.

a. **Section 1 - Introduction.** The introduction welcomes the user to the PDR and gives them an overview of its features, benefits and contents.

b. **Section 2 - Personal Profile.** The Personal Profile assists individuals to collate their personal details, qualifications, employment details, training and development records and curriculum vitae.

c. **Section 3 - Branch/Trade Development.** The Branch/Trade Development section of the PDR is sponsored by the relevant branch. It should be used to record branch/trade-specific training and development activities. It should contain the following:

   1. A generic career template for the branch or trade, showing opportunities for civilian accreditation.
   2. Amplifying details for each training/development module, showing knowledge, skills and competences gained.

d. **Section 4 - Current Employment.** The Current Employment section is used to collate data relevant to the individual’s current job. In most cases this will simply mean the individual placing a copy of their Terms of Reference or SJAR Roles and Responsibilities in this section. It should contain the following:

   1. Job Description.
   2. Terms of Reference.
   3. Job Objectives.
   5. Unit Training and Development.

e. **Section 5 - Personal Development Plan.** The Personal Development Plan (PDP) section shows an individual how to prepare a PDP. It contains simple analytical tools to help individuals to identify their personal goals and plan how to achieve them.

f. **Section 6 - Certificates and Personal Records.** The Certificates and Personal Records section should be used as an archive for documents. It will need to be updated from time to time to ensure that only the most relevant material is included, otherwise the PDR will become just a storage folder.
9647. **Support**

Support for PDR is provided at 3 levels:

a. **Department.** At Unit Departmental level, first line advice and guidance is provided by the individual’s Divisional Officer/Line Manager. The Divisional Officer/Line Manager will help the individual to identify the following:
   1. The vision, aim and objectives of the organisation.
   2. The individual’s role and responsibilities.
   3. Key work objectives and how they will be measured/monitored.
   4. Training and development needed to help achieve them.

b. **Unit.** At unit level, staff advice and expertise are provided by the unit Education and Resettlement Officer (ERO). Advice can be provided in the following areas:
   1. Educational, vocational and extra-mural courses.
   2. Membership of Professional Bodies.
   3. Accreditation requirements.
   4. Resettlement provision.

c. **Headquarters.** At the policy level, the L&D Policy team manages implementation of NS PDR policy. Additional HQ support is provided through the L&D Hubs and LDO (Ops) Officers conducting ship’s visits.

d. Divisional Officers/Line Managers requiring advice on any aspect of the PDR should initially contact their local L&D Hub.
SECTION 8 – PERSONAL AND PROFESSIONAL ELECTIVE LEARNING AND DEVELOPMENT

9648. **Aim**

The Naval Service (NS) is committed to supporting through life development of its people (Regular and Reserve), both in terms of providing time for learning, and providing financial assistance where possible. The intent is to ensure everyone has clear opportunities to progress, upskill and navigate between various career and learning pathways, to enable learning throughout their service career, through transition and into the civilian sector.

9649. **Time for Learning**

a. The NS places great importance on improving the general standard of education, learning and development of its people. The ability of our people to think in an agile and adaptive manner is an important force multiplier and contributor to operational capability. Education, in its broadest sense, is how mental agility can be developed and therefore personnel should be given the opportunity and encouragement to take full advantage of the diverse educational provision available.

b. Time for learning may be requested by any member of the NS once they are considered part of the trained strength and are not under formal individual or collective training. It can be requested for the attainment of knowledge or skills, or the experience of developmental activities. Where the individual resides in a training manning margin, for time to be considered as a duty it must be supported by the Chain of Command (CoC) and/or Career Manager (CM).

c. For those who are in their final two years of service, careful consideration should be given to time for learning over and above that which is supported through Graduated Resettlement Time (GRT). Return of service for funded L&D is applicable in accordance with JSP 750.

d. The amount of time agreed as duty is dependent on the extent to which the L&D activity is considered to be, or can be demonstrated to contribute to, the output of the NS. Whilst this may at times be difficult to establish, the following criteria are provided as guidance and should be fully supported where possible:

1. Academic qualifications required for promotion – GCSE mathematics and English, or undergraduate courses leading to a recognised degree required for service reasons, including promotion.

2. Courses or L&D which directly supports the role currently filled by the individual but not a requirement of pre-employment training – examples include qualifications or experiences deemed desirable within a job specification or role.

3. Academic progression qualifications which are deemed likely to support future promotion or the development of an individual and which are identified and supported by a Learning Development Plan, supported by the CM.
(4) Elective Learning & Development that is fully funded by the NS and the time for learning does not impact on the operational output of a team or unit.

e. Elective education is defined as that which is undertaken at the behest of an individual, and not required for career or professional reasons. Notwithstanding this, elective education is supported by the NS and can be considered as personal, professional or in some cases both. Given the broad developmental benefits of elective education and where the needs of the Service allow, time for learning should be considered as a duty. The benefits to the service and individual include the following:

(1) Improvement of the overall skill-base of Naval personnel, which will provide a more flexible workforce better able to absorb professional training as required.

(2) Preparation for transition to civilian life which is not only to the benefit of the individual but to the greater UK skills base.

f. Where L&D activity/opportunity spans more than one assignment or where it is agreed before taking up an assignment, agreement must be sought from the CM and is to be recorded as a note on the Assignment Order for future employment. Should the opportunity or activity be no longer suitable/achievable/complementary to a particular role or assignment, the line manager or CM can revoke previous agreements sighting Needs of the Service. This should be confirmed in writing by the individual's CM.

g. Where an individual considers that a line manager has not fairly assessed a reasonable request for Time for Learning to be classed as duty, the individual should speak in the first instance to an LDA within a L&D Hub (the issue will be escalated through the L&D Pol Team as required).

h. The Needs of the Service can restrict or curtail a L&D opportunity at any time, but due process should be followed.

9650. Funding

a. In general, elective education is self-funded, but schemes exist to help support elective learning where certain criteria are met. The self-funded elective education routes include:

(1) Entirely self-funded, using the individual’s own monies, where no financial support is provided by the NS.

(2) Utilising Standard Learning Credits (SLC). JSP 822, Part 1, 6.4 provides full details of this scheme.

(3) Utilising Enhanced Learning Credits (ELC). JSP 822, Part 1, 6.5 provides full details of this scheme.
b. **Standard Learning Credits**

(1) SLCs provide support throughout a service person’s career for multiple, small scale learning activities. The SLC funding is a yearly facility that allows an individual to claim 80% of course fees, up to a maximum of £175 a year. It cannot be rolled over to the following year; as such any funds not used will be lost, but application may still be made for the following year.

(2) The range of learning activities that can be undertaken using SLCs is broad and seeks to enable the learner to develop existing skill sets, or gain new skills, eg. learning to drive for the first time, a course in locksmithing or learning to be a coach in a sport of choice (so long as that qualification is not provided by the Joint Services Adventurous Training Schemes). The JSP states there must be a Forces’ benefit, and this should be reflected in the individual’s Personal Development Plan and Personal Development Record. EROs or local L&D Hubs are able to help build a case for learning, and wherever possible, the aim will be to support individuals in their studies.

(3) If an individual is in the resettlement stage of their career, the SLC can be used in conjunction with the Individual Resettlement Training Cost grant and the training does not need to provide any forces benefit. Additionally, the course does not need to lead to a formal qualification, so there is much greater flexibility during this time. L&D Hub and Resettlement Advisers are able to ensure individuals fully understand the facilities available to them.

(4) The SLC scheme is open to all Regular and Reserve personnel and case work is to be submitted iaw JSP 822. Part 1, Section 6.4, through the L&D Hub or ERO. It is important individuals engage early with their L&D team on shore or at sea, to ensure that their PDR supports their application to use SLCs effectively.

c. **Enhanced Learning Credits**

(1) The ELC scheme is designed to complement the SLC scheme by providing personnel who qualify with larger scale help. This equates to a single payment in each of a maximum of three separate financial years, to assist in the cost of higher-level learning.

(2) ELCs may be claimed for learning which is an integral part of, and results in, the cost-effective achievement of a nationally recognised qualification\(^\text{18}\). The ELC scheme complements the SLC scheme to further motivate full-time members of the Armed Forces to pursue their personal development, both during their Service and for a period of time afterwards, subject to the qualifying criteria being met.

\(^{18}\) Qualifications must be at Level 3 and above (A Level or equivalent as defined by the Regulated Qualifications Framework) in England and Wales, Level 6 and above on the Scottish Credit and Qualifications Framework, or if pursued overseas, an approved international equivalent higher-level qualification.
d. **The Further Education/Higher Education Scheme.**

(1) The principal aim of the Further Education/Higher Education (FE/HE) Scheme is to provide state subsidised tuition fees for eligible personnel entering the two years of their resettlement phase and who do not possess a full Level 3 or first higher education qualification. Individuals must be eligible for and enrolled with the ELC scheme.

(2) The rules and regulations governing the FE/HE scheme are contained in JSP 822 Part 1, 6.6 and should be read in conjunction with the ELC rules and regulations, JSP 822 Part 1, 6.5.

9651. **Centrally Funded Elective GCSE/GCE Courses**

a. Administered through Defence Examination Centre, the MoD has an arrangement with the University of Cambridge International Examination Board for the delivery of examinations within MoD Units; this includes NS L&D Hubs and Deployed units.

(1) The core requirement for the NS is the delivery of English and Mathematics GCSEs. Details of courses delivered through L&D Hubs are published annually via DINs and local notices. Personnel wishing to undertake either English Language or Mathematics GCSEs at public expense must first demonstrate they are working at the relevant Level in English and/or Mathematics by undertaking, or proving they have already achieved, a Level 2 Functional Skills in the appropriate subject.

(2) Other subjects may only be examined under this scheme where there is no alternative local provider. Prior permission must be sought from the L&D Pol team before this facility is offered.

(3) Personnel wishing to sit a GCSE/GCE at public expense are to complete the application form at Annex 96G. Individuals are to ensure that their line manager completes the relevant section of the form.

b. **Part Time Service Instructors.** The use of Part Time Service Instructors (PTSI) provides a mechanism for the delivery of education in deployed units, following the regulations in Para 9612. Formal teaching of elective education should not be undertaken by Service personnel outside the PTSI scheme.

---

In cases where alternative providers exist in the area, personnel are to utilise their Standard Learning Credits (SLCs). The ability to use central funds only exist where it is not possible to use SLCs due to geographical limitations.
9652. In-Service Degree Schemes - Officers

Where an In-Service degree scheme is in place it is mandated that all non-graduate officers will be registered for the In-Service degree.

a. Warfare Branch. In 2003, the ‘Foundation for the Future’ (F3) scheme was introduced to provide a civilian qualification that recognises officer training from the start of Initial Naval Training (Officer) (INT(O)) to the end of professional training prior to first assignment.

(1) On joining BRNC, all Warfare Branch Naval College Entrants (NCE) who have not previously attained a first degree will be registered on a Foundation Degree programme. Achievement of the degree will require no additional work other than that required to complete the appropriate Branch professional course; registration is mandatory, there will be no costs to the individual.

(2) Those not meeting the criteria but undertaking the full Warfare training pipeline (eg. Direct Graduate Entrants (DGEs)), and hence achieving all the learning outcomes for the Foundation Degree, will be entitled to register for the scheme at their own expense. To register they should contact the Degree Registration Manager at BRNC; contact details are at (3) below.

(3) The F3 scheme is managed by a Board of Study and is under the overall supervision of the BRNC Director of Training. Registration/queries for the FdSc elements of the scheme will be administered by the BRNC Degree Registration Manager, address as follows:

   Degree Registration Manager
   Britannia Royal Naval College
   Dartmouth
   TOTNES
   Devon
   TQ6 0HJ

   Telephone: 93749 7110 (01803 677110)
   E-mail: NAVY TRG BRNC-ITSO

(4) Certificate of Higher Education (CertHE). Officers who, for whatever reason, fail to complete their training pipeline will be awarded Credit Accumulation and Transfer Scheme (CATS) points for all modules completed successfully. Where the total number of CATS points is equal to, or greater than 120, the individual will be awarded a Certificate of Higher Education (CertHE). Where the total is less than 120, the individual will be provided with a transcript of the modules completed successfully and the points awarded. This transcript may then be presented to any higher education institution that recognises the CATS scheme and may be transferred to a new programme of study.
b. **Logistics Branch.** Until 2013, non-graduate Logistics Officers were awarded the same Foundation Degree as their Warfare counterparts. Changes in elements of the Logs INT(O) programme made this no longer viable, however accreditation to a BSc Logistics Management from Initial Logistics Officer Course (ILOC) is in place. Details are available from the Defence Maritime Logistics School (DMLS) or NAVY TRG HQ-EL3 SO3C.

c. **Non-Graduate Senior Upper Yardman.** Non-graduate SUYs should contact the scheme manager (NAVY TRG HQ-LDO POL ACCRED EFP) to explore degree options that may be available to them.

d. **Fleet Air Arm.** In 2007, the FAA was accredited as a Military Aviation Academy (FAAMAA), in partnership with the Open University and under the regulatory umbrella of the Quality Assurance Agency for Higher Education (QAA(HE)). This authorised the FAAMAA to accredit flying training and deliver it as a Foundation Degree (FD) in Aviation Systems Management, awarded on completion of operational flying training.

(1) **Study Programme.** The Military Aviation Systems Management FD has three modules; all must be successfully passed for the individual to qualify for the award:

   (a) Basic Flying Training (BFT).

   (b) Conversion to Type (CTT).

   (c) Operational Conversion Phase (OCP).

   **Note.** No further study is required for achievement of the FD.

(2) Registration is mandatory for all NCE personnel, who will be automatically registered for the fully funded FD. For those individuals who already have a first degree on entry to the NS, but wish to take the opportunity of being awarded the FD, there will be a registration fee.

(3) In late 2015 the programme was revalidated and upgraded to include the award of a BSc in Aviation Systems Management on successful completion of Certificate of Competence, in addition to the FD. This element is not mandatory, and NCE Pilots or Observers who hold the FD may instead wish to take an alternative Route to Honours (see Para 9653).

(4) With effect from 1 Jan 18, on successful completion of relevant training, a FD in Airspace Management is in place for Air Traffic Control Officers.

(5) Further information can be obtained by contacting the FAAMAA Programme Manager by email: NAVY CU-FAA-MAA-PM or Tel: 01326 552352 Mil: 93781 2352.
e. **Royal Marines.** The In-service Degree scheme was introduced for the Royal Marines to accredit officer training.

(1) On joining CTCRM, the aspiration is that all Royal Marine Young Officers (RMYOs) who have not previously attained a first degree will be registered for an In-Service Degree. The degree will be based on successful completion of the training pipeline from entry to completion of the Walcheren Essay. The individual will incur no costs. As with other In-Service degree schemes, registration for non-graduate RMYOs is mandatory.

(2) The costs of registration for the In-Service Degree will be funded for eligible officers.

(3) Those not meeting the criteria but undertaking the training pipeline (eg. Graduate Entrants), and hence achieving all the learning outcomes for In-Service Degree, will be entitled to register for the scheme at their own expense.

(4) Further information is available from the Corps Tutors at CTCRM: Email: NAVY TRG CTCRM-CW CORPSTUTOR01 Tel: 01392 414595 Mil: 93785 4595.

9653. **Progression to Honours Degree - Officers**

a. FDs are stand-alone qualifications with considerable value in their own right. Although it is not compulsory for FD graduates to proceed to an Honours Degree, one of the criteria stipulated by the Government is that FD students must have access to a viable route to completion of a full Honours Degree. There are various Route to Honours (R2H) options available:

(1) **Warfare Officers, Plymouth University – BSc(Hons) in Defence Studies.** Plymouth University (BRNC) offers a BSc (Hons) in Defence Studies comprising of three distance learning modules: Britain and International Security, Environment and Naval Warfare, Defence Studies Dissertation. Candidates attend a five-day residential course to initiate the honours programme and a further two-day residential course to consolidate. The programme is to be completed within three years from the date of commencement. Enrolments are once a year in September.

(2) **Other Degree Routes.** There are a number of options and individuals should contact their nearest L&D Hub or the scheme manager NAVY TRG HQ-LDO POL ACCRED EFP to identify which route best suits them. Individuals are likely to gain full credit for the FD, but will need to clarify this with the particular Institution.
b. Completion of an Honours Degree will predominantly be by distance learning, a demanding prospect for those in challenging appointments. Whilst no longer a PFS, given the personal and professional benefits achieved through completion of the Honours Degree, Commanding Officers are encouraged to maintain the opportunity for personnel to take up to a maximum of six weeks (30 working days) study time in any one academic year.

c. Those officers wishing to embark on the R2H will need to register with NAVY TRG HQ-LDO POL ACCRED EFP. Funding is available to support this scheme, but there is an upper cap of £6,000; T&S and the purchase of books is the individual’s responsibility. The use of Enhanced Learning Credits or Standard Learning Credits cannot be made in conjunction with the R2H scheme. Currently funding to a R2H is only available for non-graduate officers who entered BRNC post 1 Jan 03.

Note. All personnel are to liaise with NAVY TRG HQ-LDO POL ACCRED EFP prior to making any commitment with a University/Institution.

9654. Post-graduate Studies – Fellowships, Masters and Part-time Doctorates

a. In addition to staff training and career-mandatory post graduate courses, the NS offers a range of opportunities for fully funded elective postgraduate study which benefits both the Service and individual needs. Individuals should discuss the timing and nature of such education, which will need to be tailored to personal circumstances and aspirations, and their overall career management, with their Career Managers (CM). Traditionally, the following full, part-time and distance learning study courses have been available through a number of schemes:

(1) Contracted places on a range of courses run at DA-CMT by Cranfield University, funded by the Defence Academy.

(2) Fellowships at the University of Oxford, funded by the Hudson Trust.

(3) MPhils in International Relations at the University of Cambridge, funded by ACOS(PCap).

(4) Various full-time Masters' courses at other UK universities, funded by ACOS (PCap).

(5) Part-time Doctorates, funded by ACOS(PCap).

(6) Master's level e-learning distance courses, funded by ACOS(PCap).

b. The exact details of the courses and application process is promulgated annually by DIN.
c. Selection of individuals will be made annually (Feb/Mar) at the NCHQ Academic Scrutiny Board, where candidates will be required to present an academic reference, an academic CV and a 1,500 words (maximum) proposal that includes the research aim and thesis structure, the benefit to Defence and the individual, and the intended research techniques. The onus will be on the individual to demonstrate sufficient intellectual stamina and lifestyle capacity (including career plans) to complete the research programme. As the volume of research is likely to impact on work-life balance, candidates must include written endorsement from their 2RO when applying to the Board.

d. ACOS(PCap) reserves the right to withdraw funding at any stage should the sponsoring University consider that commitment and progress is not being maintained without good reason.

9655. University Short Course Programme

a. The University Short Course Programme (USCP) is a tri-Service scheme of courses arranged to meet the broader educational and personal development needs of Service personnel. Based upon the philosophy of Lifelong Learning, the USCP intends to help Service personnel make a more effective contribution to Service life by developing their knowledge and personal skills; it is not intended to supplement formal training. The courses are residential, held at various universities throughout the UK, and cater for subjects not normally available from Service sources. Whilst the USCP is not intended for resettlement purposes, courses may be accessed by those within the last 2 years of service. Individuals within this period will be added to the reserve list for courses and will be accepted when capacity exists.

b. The USCP offers courses in the following categories: Command, Leadership and Management, Regional and Strategic Studies, Science Technology Engineering and Mathematics (STEM) and Languages. The majority of courses within these categories are relevant to current issues of importance and have a potential application in the military environment.

c. Courses are designed and delivered by university departments that have a recognised standing in the subject field. Although qualifications are not awarded for courses, the content may contribute towards a portfolio of evidence and the Personal Development Record. Certificates of attendance are issued for some courses. Other courses gain an award of CATS points if students are prepared to undertake an additional assignment. This may attract an additional fee payable by the student, part of which may be reclaimed using SLCs.

d. Further details about courses and the application process are promulgated annually via DIN. The point of contact for further enquiries about administration arrangements for the USCP is:
9656. Further Education Concessions to Entitled Personnel Overseas

a. Entitled Personnel. Service dependants and UK-based Service Department civilians and their dependants are entitled to join part-time 'Further Education' classes provided for Service personnel and will count towards the minimum number of six needed to set up a class (i.e. a mixed Service/Civilian class).

b. Classes. Classes may be established for entitled civilians in the absence of any initial demand from Service personnel, subject to the following requirements:

(1) A prior application must be made in each case to L&D Pol SO2 where new classes are set up as a direct result of this concession.

(2) Part-time classes set up as a result of this regulation should take place in existing educational premises (including Service children's schools), or in other suitable Service accommodation which may be available without incurring additional expense to public funds.

(3) Expenditure from public funds is permissible for incidental expenses, such as lighting, heating, and cleaning, arising from this concession, and for also for additional equipment, provided expenditure on this item is of a minor nature.

(4) Local instructors must be used.

(5) All classes must be equally available to Service personnel of all Services and their dependants and to UK-based Service Department civilians and their dependants.

(6) Applications to establish a class should not be made unless minimum numbers are at least six and are likely to remain at or above that level for at least one term. The class is to be discontinued if numbers fall permanently below three.
(7) Course fees should not be charged to students who attend courses run through the Part Time Service Instructor scheme. However, a small charge may be levied if there is a need to provide specialist materials for the course.

(8) Textbooks, stationery and material for civilian students will not be supplied at public expense, except where textbooks are available from Service libraries.

(9) When classes close after having run for more than three consecutive meetings, the current term’s fee will be charged, but any fees paid to cover consequent terms will be refunded. Where classes close after not more than three consecutive meetings, tuition fees should be refunded in full, but not the cost of textbooks, stationery or materials.

(10) The following qualifications must be met in order to employ an individual as a part time teacher:

(a) **A Level Qualifications and Equivalent.** Applicants should be a qualified teacher, and have an honours degree in the subject, or one closely related to the one they wish to teach.

(b) **GCSE Qualification and Equivalent.** Applicants should have a minimum of an A level in the subject and preferably experience of teaching at a similar level.

(c) **Vocational/Recreational.** Applicants should provide an outline of the intended course prior to commencement, unless a syllabus exists eg. from bodies such as City and Guilds.

c. Hourly rates of pay for part-time teachers are detailed in the tri-Service Regulations for Allowances JSP 752.

**9657. Professional Membership**
Professional Bodies are typically non-profit making organisations which seek to further a particular profession, the interests of the individuals engaged in that profession and the public interest in general. Membership of a professional body indicates a level of competence within a particular field and is normally accompanied by post-nominal letters (eg. MIEE, CEng, etc). From a Naval perspective, professional bodies can be seen as falling into one of two categories:

a. **Branch Specific.** Certain branches or trades will have an obvious linkage to a particular professional body, for example, the various engineering branches.

b. **Generic.** In addition to branch specific skills all Naval personnel will, throughout their career, build up expertise in leadership and management. These skill sets can also be mapped across to professional bodies.
9658. Level of Professional Membership
Each professional body will have its own rules of admission and criteria for membership, but as a guideline the following are the levels that commonly exist:

a. Associate/Affiliate. The lowest grade of membership, normally offered to those who have either recently qualified at the graduate level and have little or no practical experience, or those with experience but a level of achievement deemed to be lower than graduate level (typically junior officers and LH/PO).

b. Full Membership. Typically offered to those with qualifications at a graduate level and/or significant experience at working in a responsible position within their field of expertise (typically senior Lt/Lt Cdr and CPO/WO2/WO1).

c. Fellow. Normally only offered to those in more senior positions with a wealth of experience and/or knowledge at a Master’s degree level (normally Cdr+, sometimes senior Lt Cdr/WO1).

d. Chartered Status. An additional level of professional competence can be indicated by achieving Chartered Status. This indicates a range of relevant professional skills as well as technical and commercial leadership, interpersonal skills and commitment to professional development.

9659. Naval Policy Regarding Professional Memberships

a. Mandated Membership. In general, the Naval Service (NS) does not require personnel to be a member of any professional body, and thus does not mandate or centrally fund any schemes. In exceptional cases, if a particular assignment requires membership then it may be funded by the organisation which sets the requirement for the membership, but only for the duration of that assignment.

b. Elective Membership. Naval personnel may elect to join any professional body for which they are qualified.

c. The rules governing membership are those of the professional body in question and not of the NS.

d. Standard and Enhanced Learning Credits cannot be used to pay for membership fees. The only exception may be where both substantial additional work and an examination, assessment or assignment is undertaken which is not an integral part of the service course syllabus. Each case will be considered on its merits.

---

20 Special rules may apply to Engineering and Medical Branches.
21 By definition, these schemes are intended to fund Learning. Full details of both schemes in JSP 822 Part 1 6.4 and 6.5.
9660. Corporate Membership Schemes

a. number of professional bodies offer corporate membership schemes to NS personnel. In each case certain elements of Naval training and experience will have been mapped onto the membership criteria of the body in question, and this mapping exercise is normally in lieu of the portfolio of evidence that a professional body would typically require for membership.

b. It must be emphasised that the rules and regulations of each corporate scheme are dictated by the relevant professional body, not by the NS. It is entirely possible therefore that the levels of membership offered to naval personnel will vary, depending on the rules of the body in question. All fees associated with these membership schemes are paid directly to the professional bodies, although in some cases the NS may collect the fees to simplify administration.
SECTION 9 – INSTRUCTIONS FOR THE MANAGEMENT AND INVIGILATION OF EXAMINATIONS

9661. Introduction

The following generic instructions detail the processes to be followed by Commanding Officers (COs) and those officers nominated as Supervising or Invigilating Officers for academic examinations, which include GCSEs and Functional Skills. Those nominated to invigilate examinations must also fully adhere to the instructions supplied by the Awarding Body for the specific examination; those instructions take precedence over the instructions detailed below. For examinations centrally funded through the Defence Examinations Centre, the Handbook available on the website must be followed by Exams Officers. For the Functional Skills (FS) and British Computer Society (BCS) qualifications delivered in the L&D Hubs and onboard ship, SOP Q3 published on the MOSS LDO website must be followed.

9662. Instructions for Commanding Officers

a. It is the responsibility of the CO to see that examinations are held on the occasions required. The CO is responsible for the safe custody of examination papers, which are to be locked away on receipt and not handed to the Supervising Officer until the day of the examination.

b. Examinations are to be held on the date and at the time specified, although it is recognised that operational requirements are paramount. Should COs of operational units wish to change either the date or time of an examination, then prior permission must be sought from the Examining Authority in question. The risk of compromising the examination is to be minimised.

c. The CO is to ensure that the individual selected to act as the Supervising Officer/Invigilating Officer meets the criteria below and fully understands the responsibility of the role.

9663. Instructions for Supervising Officers

a. Examination held in a Unit or establishment is to be supervised by an officer not below the rank of Warrant Officer or, exceptionally, by a Chief Petty Officer when specifically authorised by the CO to do so. The Supervising Officer is responsible for the proper conduct of the examination. The Supervising Officer is to be present throughout the examination. Where the Supervising Officer is not the Invigilating Officer then he/she is to be present at the beginning and at the finish of each paper.

b. The Supervising Officer is to arrange the space allocated for any examination such that candidates can be seated at a satisfactory distance apart (minimum 1.25 metres) and can be properly invigilated.
9664. Instructions for Invigilating Officers

a. Supervising Officers may call upon Invigilating Officers to assist them. Invigilating Officers are not to be below the rank of Warrant Officer, although COs may, exceptionally, specifically authorise a Chief Petty Officer to perform these duties. Invigilating Officers are to be fully briefed before an examination about their duties, which are summarised as follows:

b. Under no circumstances during an examination are Invigilating Officers to take any action which:

   (1) Could distract or divert their attention as invigilators.
   (2) Could cause a distraction for the candidates.
   (3) Causes them to leave the examination room/compartment.
   (4) Could create an opportunity for candidates to cheat.

c. seating plan showing the names of candidates is to be produced by the Supervising Officer. This plan is to be retained by the Unit Education Officer (UEO) for a period of six months after the date of the examination.

d. At least one Invigilating Officer is always to be present in the examination room. If the number of candidates for an examination exceeds 30, a second Invigilating Officer is to be appointed and situated at the back of the examination room. Where any room has only one Invigilating Officer, another Invigilating Officer should be on standby.

e. The sealed envelopes containing the question papers are to be opened only by the Supervising Officer, at the time of the examination and in the presence of the candidates.

f. Candidates are not allowed to bring into the examination room any books, notes or personal belongings which may prejudice the conduct of the examination, unless specifically authorised to do so in the particular instructions for the examination in question. All wall posters etc. or other matter in the room which could be of any help to candidates must be removed before the examination commences.

g. Candidates are to provide pencils, rubbers and mathematical instruments as appropriate. They are required to write their answers in black or blue ink.

h. Where possible, candidates from the same ship, and candidates who have been working together in courses leading up to the examination, should be separated by random seating arrangements.
i. Before sitting each paper, candidates are to be reminded that in answering questions they cannot be absolved from the Armed Services security regulations.

j. No candidate may enter the examination room once 30 minutes have elapsed from the beginning of an examination.

k. No candidate may leave the examination room within the first 30 minutes of an examination.

l. A candidate who leaves the examination room intending to return is to be accompanied by an Invigilating Officer throughout his/her absence from the room.

m. Candidates found giving or receiving assistance are to be dismissed from the examination room and reported to the CO of the ship or establishment in which the examination is taking place.

n. All examination material, including answer books, rough working sheets etc. and question papers are to be collected before candidates leave their desks. Specific examination instructions as stipulated by the examining authority are also to be followed.

o. Scripts must be sent onwards using a traceable postal service, such as Royal Mail 'Signed For' delivery. Examinations Officers are to ensure that receipt of postage is retained until arrival of candidates’ certificates.
SECTION 10 - SPECIFIC LEARNING DIFFICULTIES

9665. Background

The Naval Service (NS) provides support for personnel deemed to have Specific Learning Difficulties (SpLDs), in accordance with Defence direction\(^{22}\), in order to maximise their learning, training and productive service. The term SpLD encompasses a range of learning difficulties which may affect an individual in their daily life. For the purposes of this policy the term SpLD encompasses the following learning difficulties: Dyslexia; Scotopic Sensitivity; Dyscalculia; and Dyspraxia. This policy encompasses JSP 822 and builds on it based on the following principles:

a. Learning support is not a binary issue; great differentiation between individuals’ needs should be exercised, especially regarding SpLDs.

b. Managers and trainers play an important role in detecting SpLDs, acting on suspicions where performance consistently falls below requirement. An individual will not always recognise poor performance as being caused by a SpLD, and therefore may not seek help. The responsibility for engaging with the learning support process, however, lies with the individual concerned.

c. The spirit of partnership between the line manager and the individual is imperative if use of available support is to be optimised.

d. NS personnel should be equipped with ‘learning skills’ through the delivery of formal training sessions within the first four weeks of Initial Naval Training (Ratings)/(Officer) (INT(R)/(O)) or Foundation Phase of initial training\(^{23}\).

e. Funding for learning support should be available throughout an individual’s career; not only during Phase 1 and 2 Training\(^{24}\).

9666. Application

The Armed Forces are exempt from disability discrimination legislation under the Equality Act 2010; however, this policy document serves as a framework for meeting the spirit of the legislation and goes further by actively promoting equality of opportunity, thus enabling every member of the NS to maximise their talent and contribution. It applies to all full-time personnel (regular and full-time Reserve Service) identified as having learning support needs. Ex-regular personnel with a Reserve liability and volunteer Reservists attending for obligatory training or voluntary duties will be eligible only for support when mobilised into service as the result of a call-out notice. For non-mobilised Reservists responsibility for learning support rests with the individual and is not covered by this policy.

\(^{22}\) JSP 822 Part 1, 6.1.

\(^{23}\) Formal learning skills sessions take place during Phase 1 Training at CTCRM and RALEIGH.

\(^{24}\) This recognises the effect professional context has on learning differences and the fact that for many, issues may only arise later in a career where the individual is employed in administrative and management roles.
9667. Naval Service Responsibilities

a. The NS approach is designed to be comprehensive and coherent throughout the span of an individual’s career. Those individuals identified with SpLD needs must receive appropriate support and reasonable remediation at the relevant time in their training and careers. This should be delivered irrespective of rank, location and job responsibilities subject to the individual being able to achieve Role Performance Statement (RPS). The NS primary mechanism for support is the line manager/Divisional Officer who may call upon Coaching Advisory Teams (CATs)\(^{25}\), Learning & Development Organisation Advisers (LDAs), Specific Learning Difficulty Advisers (SpLDAs) or English and Mathematics Tutors (EMTs)\(^{26}\) to provide specialist support for those personnel identified with a specific learning need.

b. There is the need to consider SpLDs within the workplace and, where practicable and when OPS permits, a review of working practices should be undertaken to identify reasonable remediation to improve effectiveness. Such methods may include: changes to the working environment, balance between written and non-written communication, time available to assimilate information processing, and appropriate use of information technology.

9668. Training Delivery Standards

Training for Naval Service personnel is to be delivered without discriminating against those with learning support needs and, therefore, those individuals delivering training must have an awareness of, and be sensitive to, such issues. Course format and style of delivery should be structured accordingly, to accommodate specific learning needs. Training delivery standards are to be reviewed on a regular basis and modified where necessary to achieve maximum effectiveness.

9669. The Individual’s Responsibilities

Although this policy provides details of specific support provided to NS personnel with learning support needs, individuals are primarily responsible for addressing their own needs. Individuals with a learning support need should identify themselves to their line managers/Divisional Officers/Instructors/EMT on arrival at a new establishment/Unit prior to commencing duties/training in order to facilitate the provision of any necessary remediation and the updating of their Individual Learning Plan (ILP). Individuals are to employ all reasonable remediation recommended by their formal assessment report and/or CAT/EMT.

9670. Responsibilities of Phase 1 and Phase 2 Training Schools

Comdts and COs of initial training (Phases 1 and 2) establishments have specific responsibilities, as follows:

a. Within resources and without compromising the agreed Training Performance Statement (TPS), to provide appropriate support for students identified with learning support needs.

b. All Phase 1 and 2 recruits should be briefed on the NS through career learning support within the first 3 weeks of arrival.
c. Equip Phase 1 recruits with ‘learning skills’ through the delivery of formal training sessions\(^{27}\) within the first 4 weeks of INT(R)/(O) or Foundation Phase of initial training. Due to skill fade, these may need to be repeated near the start of Phase 2 or academic training.

d. Ensure that instructors and staff involved in student management are aware of the learning needs of students\(^{28}\).

e. Apply any appropriate exam concessions\(^{29}\). These allowances apply only to assessments which are explicitly dependent on information processing, knowledge-based or written examinations. For externally moderated exams, authorisation to grant extra time needs approval by the appropriate examining authority. Removal of training professional warnings (see Chapter 57) could be considered if an individual has been assessed as requiring learning support after failing modular written exams. This must not, however, compromise the attainment of Training Performance Statement (TPS) or pass training risk to another part of the training pipeline.

f. Ensure that the learning support needs of students and details of support provided to individuals are documented within an ILP and, with the agreement of the individual, when students leave the training establishments are forwarded promptly to the receiving/parent unit EMT (under appropriate protective markings).

g. Alternative methodologies and approaches to training delivery should be actively sought and promoted, subject to the individual still meeting the conditions and standards set within the Formal Training Statement.

h. Where students with a learning support need are, after suitable remediation, unable to achieve the RPS for their Trade or Branch, the chain of command may, in the interest of the individual or the Service, seek advice from the Trade/Branch Sponsor on the possible re-allocation of the individual to another Trade Branch (see Chapter 51). Where there is evidence that the individual's learning support needs are so severe that they are unlikely to achieve OPS in any other Specialisation or Branch, then a case may be made for discharge from the Service (see Chapter 54).

9671. Management Responsibilities

The following principles apply to the management of a learning support case:

a. Create a culture of declaration that allows a partnership between the line manager and the individual to be developed in order to optimise available support.

b. Recognise Workplace difficulties associated with SpLDs:

   (1) Poor time management.

   (2) Continually disorganised.

   (3) An inability to prioritise tasks effectively.

---

\(^{27}\) Memory techniques, mind mapping, sequencing, state and time management.  
\(^{28}\) Poor performance in training should not automatically be attributed to a learning difficulty but may be due to another problem such as poor basic skills, poor memory, or lack of training in revision techniques.  
\(^{29}\) JSP 822 Part 1, 6.1 Para 10f.
(4) Difficulty following verbal instructions.

(5) Poor short-term memory.

(6) Inability to take notes or write reports.

c. Reports, ILPs and learning support programmes that are produced on individuals with learning support needs are to be treated as ‘OFFICIAL-SENSITIVE’ and are to be held by the EMT.

d. Reports should identify learning and coping strategies (reasonable remediation) that will assist the individual but not compromise the standards required to meet TPS. These strategies, but not the full report, should be provided to the individual’s line manager or Divisional staff and to the individual’s instructors and are to be treated as ‘OFFICIAL-SENSITIVE’.

e. If appropriate, line managers may re-assign such individuals to other tasks, subject to the demands of operational need and effectiveness, if this is indicated as desirable within the strategies developed by the education specialist. Individuals must demonstrate, however, that they have achieved full competence across the entire RPS.

f. After the individual has been provided with learning or workplace support recorded in an ILP, their case is to be reviewed regularly with the line manager and EMT to assess the effectiveness of this support.

g. The SpLD needs of an individual are not to be mentioned, whether positive or negative\(^{30}\), in annual appraisal reports.

9672. Learning & Development Adviser (LDA), English and Mathematics Tutors (EMT) and Specific Learning Difficulties Adviser (SpLDA) Responsibilities

All LDAs and EMTs are to have undertaken relevant specialist training\(^{31}\). SpLDAs are to be qualified and experienced in order to support LDAs and EMTs, who should be involved in the following:

a. Promoting an understanding of SpLD issues within the establishment, including conduct of an induction brief on local SpLD processes for all trainers and DOs upon arrival, and at least annual CPD thereafter.

b. Undertaking interviews of the individual and line manager to scope the workplace need.

c. Carrying out an initial assessment and recommending further action based on the results.

d. Interpreting Educational/Occupational Psychologists reports on behalf of the individual.

---

\(^{30}\) JSP 757 Part 1 Para 15 Guidance for reporting Officers, Inappropriate Comments.

\(^{31}\) Level 4 FE teaching qualification or equivalent Specialist Level 5 or equivalent qualification in supporting learners with SpLD.
9673. **Procedures**  
The NS will provide support to those individuals who have voluntarily come forward or have been identified by their line manager or instructors as possibly having learning support needs in accordance with JSP 822 Part 1, 6.1. To ensure consistency, reliability and validity in the process, the following procedures apply:

a. Line managers and Divisional Staff become responsible for initially counselling individuals with training or duty issues in line with current Naval Service Coaching policy (see Chapter 21). In the majority of situations, a simple discussion will resolve the issue. Where the issue is complex, the line manager should refer the individual to the establishment’s CAT, LDA or EMT.

b. The CAT, LDA or EMT should interview the individual to identify barriers to learning and scope their learning support needs. Only if required should individuals be referred for further assessment.

c. The EMT, LDA or SpLDA carry out assessments using the appropriate diagnostic tool\(^{32}\). If an individual is identified with learning support needs, the EMT, LDA or SpLDA draws up an Individual Learning Plan (ILP) and, working with the line manager and relevant instructors, provides the support that has been agreed between EMT, LDA or SpLDA and the individual.

d. The ILP will list coping strategies and remediation recognised as reasonable. Only coping strategies and reasonable remediation deliverable within the scope of TPS will be permissible.

e. Where supported by diagnostic results, a full assessment by an Educational\(^{33}\) or Occupational Psychologist leading to a formal statement of needs can be obtained. Approval to spend requires authorisation by NAVY TRG HQ-LDO POL ACCRED EFP.

9674. **Tracking**  
On identifying an individual with a potential learning support need, clear and concise individual records, marked appropriately (OFFICIAL-SENSITIVE) are to be kept. If appropriate, there must be prompt transfer of individual records when an individual is posted or detached. Records will be sent to the relevant line manager or training establishment. There must also be close liaison between losing and receiving units to ensure that adequate provisions are in place for any learning support requirements.

\(^{32}\) EMTs have access to a number of tools, DAST, BKSB, Dyscalculium

\(^{33}\) If appropriate, a specialist teacher registered with PATOSS may be utilised.
9675. **Funding**

a. Public funding for the provision of learning support will be provided by L&D Pol, applications should be made by e-mail to NAVY TRG HQ-LDO POL ACCRED EFP. This includes:

   1. Specialist assessment for NS personnel.
   2. Where appropriate, specialist training for NS Advisers.
   3. The supply of initial screening and assessment kits to appropriately qualified staff.

b. Spending will be approved against a list of approved educational products and professionals held by the LDO staff.

c. **Standard Learning Credit (SLC).** NS personnel who have been diagnosed and found to be ‘at risk of having a severe form of SpLD’ are eligible (post Phase 2 Training) to claim SLC support for Specialist tuition, recognised SpLD products (such as a Colorimeter diagnostian/optometrist’s assessment) and computer software support, provided that the following provisions are met:

   1. The product or software has been recommended in the ILP or in the Educational/Occupational Psychologist’s report.
   2. The product or software is bought in direct support of the individual’s SpLD. The individual’s line manager is also required to provide a report, via the unit SpLDA.
   3. All other requirements for claiming SLC are observed.

d. **Enhanced Learning Credit (ELC).** Financial support for personnel with SpLD may be eligible for funding support under the ELC scheme, where SpLD needs have been diagnosed by an Educational/Occupational Psychologist. Such support can be class delivered or in ‘one-to-one’ tuition. In accordance with JSP 822, Part 1, 6.5. para 33, the course provider must be an ‘Approved ELC Provider’.

9676. **Governance and Assurance**

The RN SpLD Working Group will meet on at least an annual basis chaired by LDO COS. Any amendments to Tri Service Policy will be reflected in guidance provided therewith and briefed upwards to the Education Steering Group co-chaired by ACOS(T) and ACOS(PCap). Adherence to this policy is to be assured as part of routine RN Assurance of Training Establishment Programme under Navy Training HQ SO2 Training Assurance, or through targeted assurance activity directed by Cdr LDO through LDO SO3 Assurance.
SECTION 11 – RESETTLEMENT POLICY

9677. Naval Resettlement Policy

a. **General.** The Naval Service (NS) adheres to the tri-Service resettlement policy, which is underpinned by the following principles:

1. To provide all Armed Forces personnel with access to timely and accurate resettlement information and advice.

2. To provide Service Leavers (SL) with access to resettlement provision based on best practice, which meets individual needs.

3. To provide resettlement assistance on a graduated basis, both in terms of provision and time available, according to length of service.

4. To provide contracted resettlement services, which include advice, workshops, training and job finding, which are flexible, responsive and effective in order to meet the individual needs of Service personnel, both in terms of accessibility and content. Where these meet the appropriate training outcomes, these should be considered as courses of first choice.

5. To provide resettlement assistance to all SL.

6. To make available appropriate resettlement allowances to assist SL.

7. To ensure that resettlement training, in meeting the appropriate training outcomes and contractual policy in JSP 534, is undertaken locally to SL home base or available Service accommodation in order to reduce expenditure on T&S budgets. Non-local or overseas training should only be agreed as an exception and to meet training outcomes not available locally in the UK.

b. Tri-Service Resettlement policy is set out in JSP 534.

c. **Points of Contact.** Each unit should have either a Naval Resettlement Information Officer/Royal Marine Resettlement & Information Officer or an Education and Resettlement Officer (ERO) who should act as the initial point of contact for all resettlement queries. Any outstanding queries should be directed, via the ERO, to the NS Resettlement policy desk officer, NAVY TRG HQ-LDO POL RESET ELC, 93832 5954.

9678. Early Service Leaver Policy

a. **Scope.** JSP 534 outlines the issues and to provide guidance to units and individuals on what provision should be in place in order to assist Early Service Leavers (ESL) in their transition to civilian life. The aim of this section is to communicate how this policy is implemented in the NS.
b. **Definition.** An ESL is defined as a SL who is discharged:\(^{35}\):

1. Compulsorily from the trained strength or untrained strength.

2. At their own request from the trained or untrained strength, having completed less than 4 years' service.

c. **Provision.** ESLs are entitled to a reduced provision of resettlement support as detailed in JSP 534. As a minimum, they are to receive a mandatory resettlement brief and a one-to-one resettlement interview given at unit level.\(^{36}\) The support provision has been enhanced to include a more focussed intervention and this will be delivered through the Future Horizons programme (FHP)\(^{37}\). The programme will have the following deliverables:

   1. ESL Support Service.
   2. Tracking.
   4. Referral to specialist partner organisations.

d. **Structure of Provision.** The NS will operate a hub and spoke structure to deliver this service. The NS ‘hub’ will be collocated with the Career Transition Partnership (CTP) in HM Naval Base Devonport. Contact details are as follows:

   Telephone Number: 01752 557635 or 07794 656862

   Fax Number: 01752 557611

   E-mail: Tmurphy@futurehorizons.uk.com

   This structure will give Units in the Southwest (Raleigh, BRNC, and CTCRM) direct access to the enhanced support, with all other Units having ‘remote’ access.

e. **Process.** The process will be as follows:

   1. Units are required to conduct an ESL brief in the normal way including information on the support available from the Future Horizon scheme.

   2. The ERO/NRIO/Personnel Selection Officer (PSO) will interview the ESL and raise a manual Form 1173A.

   3. As part of this interview, the ESL is to be briefed on the FHP programme and the ESL given the opportunity to ‘opt-in’ to the scheme. The Unit is to retain a copy of the F1173A.

---

\(^{35}\) JSP 534, Section 3, Para 0302 provides the full definition.

\(^{36}\) Guidance on who should deliver these activities and the content of the briefing and interview is contained in JSP 534.

\(^{37}\) The Future Horizons Programme is delivered through the RFEA.
(4) A copy of the F1173A is to be passed with the FHP ‘opt-in’ form (Annex 96H) to the FHP Employment Consultant. For ‘spoke’ Units, a copy of the F1173A is to be faxed, accompanied by the FHP ‘opt-in’ form, to the NS FHP Hub at Devonport.

(5) If appropriate, ensure the ESL is seen by the Employment Consultant who will register the ESL on the CTP database (ADAPT). Alternatively, the ESL will be registered on the CTP database remotely following receipt of the ‘opt-in’ form.

(6) It is incumbent upon the NRIO/EROs to ensure that all ESL (from both trained and untrained strength) are made aware of the enhanced provision and are processed in a timely manner so that the CTP/FHP staff can interview the ESL and determine level of transition support.

(7) It is incumbent upon the NRIO/EROs to ensure that JPA is updated with details for ESL within 14 working days.

9679. Naval Service Medical Discharge Resettlement Policy

The Defence resettlement policy that applies to all personnel who are subject to Medical Discharge (MD) is outlined in JSP 534, Section 6. This policy acknowledges that there are different levels of support required dependent on the need of the individual and personnel should be given the opportunity to access resettlement activities in a timely manner. The process for NS personnel to access resettlement is outlined in the JSP.

38 The Devonport hub will also deal with Army and RAF ESLs. ERO/NRIOs registering Army/RAF ESLs remotely should forward 1173/Opt-in forms to the appropriate FHP hub – contact details in JSP 534.

RN Film and Language Library 9380 27872
ANNEX 96B

DUTIES OF THE EDUCATION AND RESETTLEMENT OFFICER

1. The purpose of the Naval Service Learning and Development Organisation (LDO) is: “to support 2SL, ACNS(T) and Commanding Officers to develop the intellectual potential of their people to maximise Operational Capability (OC) and ultimately prepare them for return to the national workforce”. The Education and Resettlement Officer’s primary role is to provide information and support to facilitate personal and professional development to the Unit.

2. The specific education duties include:
   
a. Liaising with the LDO (Ops) Officer assigned to the Unit for all L&D queries and for relevant information.
   
b. Participating in the RN Education and Resettlement Officers group on Defence Connect to obtain the latest EL3R information and share good practice among EROs.
   
c. Maintaining the Cat A PFS requirement of access to an educational professional by arranging NETS (Ops) visits at least once in every 18 month period: alongside before deployment, during deployments and when in long refit.
   
d. Receiving the Education and Resettlement Officer Brief within two months of assuming the role.
   
e. Arranging deployed visits by LDO (Ops) and acting as host during that visit.
   
f. Maintaining an Education for Promotion (EFP) record based upon JPA-extracted data (provided by LDO (Ops)), and liaising with Divisional Staff to ensure personnel are aware of their EFP requirements.
   
g. Liaising with LDO (Ops) and L&D Policy E1A to ensure accurate recording of EFP qualifications and Upper Yardman/Senior Upper Yardman competences.
   
h. Supervising and maintaining the Ship’s Library and SCPAL.
   
i. Providing information on Service Academic Qualifications:
      
      (1) EFP Maths and English.
         
         (a) Act as or nominate a unit Functional Skills mentor.
         
         (b) Refer learner to English and Mathematics Tutor or LDO (Ops).
         
         (c) Advise on EFP Examinations and reporting procedures.

      (2) University Short Course Programme.

      (3) Route to Honours for Officers.
(4) Sponsored Post-Graduate Study opportunities.

j. Providing Access to Non-Service Academic Qualifications:

(1) GCSEs and A Levels:
   
   (a) Advise on provision by distance learning providers.
   
   (b) Act as Exams Officer for Unit through Defence Examinations Centre.
   
   (c) Ensure that candidates have sufficient chance of passing the examination to justify the spending of Service funds.
   
   (d) Arrange tuition onboard or at Learning and Development Hubs (LDH).
   
   (e) Act as Invigilating Officer, or delegate appropriately.

(2) Degree or other academic examinations: Liaise with LDO and appropriate bodies to provide access to non-DEC examinations should they be requested by learners.

k. Providing advice on Educational Allowances:

(1) Standard Learning Credits (SLCs):
   
   Act as signatory for SLC Claims and maintain records.

(2) Enhanced Learning Credits (ELCs):
   
   Refer ELC claims to NETS (Ops) or LDC.

l. Supervising Part Time Service Instructors (PTSI), ensuring provision is in accordance with BRd 3(1) Chapter 96 and JSP 752.

m. Directing personnel to regional LDCs for advice on Specific Learning Difficulties (SpLD).

n. Maintaining relevant Temporary Memoranda, noticeboards and personal development areas on the shared computer drives pertaining to EL3R, including (but not limited to) information on:

   (1) Elective Education.
   
   (2) Language learning and testing.
   
   (3) Royal Navy Through Life Education Pathway.
   
   (4) Royal Marine Officer Career Development Programme.
3. Specific resettlement duties include:

a. Directing Service Leavers to NRIO for mandatory resettlement interview.

b. Advising personnel on core resettlement entitlement:

(1) Advise on GRT.

(2) Advise on IRTC.

(3) Advise on support available from NRIO.

(4) Advise on support available from CTP.
ANNEX 96C

PART TIME SERVICE INSTRUCTION (PTSI) REQUEST

1. This request form is mandatory for all planned PTSI and must be submitted for signature by the Unit ERO. It must then be forwarded to L&D Policy Section for final approval before instruction commences.

Part 1 - For completion by the PTSI

<table>
<thead>
<tr>
<th>Name and rank of PTSI</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Course to be taught</td>
<td></td>
</tr>
<tr>
<td>Academic qualification of PTSI</td>

Project Title:

ProjectDetail: (Attach a business case appropriate to overall cost of the project. As guidance, this must include the requirements, options, through life support costs, timeline for completion, interim payments and meet all current MOD (N) and Commercial Policy and Procedures. All establishments conform to MoD procurement protocols so ensure that you have investigated how goods for the project will be purchased. The local Supply Chain/Finance office will advise how items can be procured via Low Value Purchase Orders, using MoD preferred suppliers who have already passed a due diligence process. Local establishment Projects Teams will advise on larger projects and may be able to state if there is a MOD enabling contract already in existence. Utilising CP&F or using an existing Enabling Contract could enable seamless procurement of goods. Attach any evidence that may support this application. Grant applications should not be used to cover the costs normally associated with core training requirements. You should supply evidence that other MoD funding routes have been exhausted – this could be an email confirming that no other budget is available to draw upon. Attach 3 quotes by VAT registered companies if not using a MoD supplier).

Estimated Project Start/Completion dates:

Cost Requirement including VAT: 

Procurement Route. (to be fully investigated in line with establishment process CP&F etc. including any enabling contract that may be in place)

Civilian e-mail address: _________________________________  Mobile Tel No: __________

Exam Subject/s:
1. ___IGCSE FIRST LANGUAGE ENGLISH (Extended) ______________________
   (Delete as necessary)
2. ___IGCSE MATHEMATICS (Core) ______________________
3. ___Other ________________________________________________

Relevant Work Undertaken for Examination: ____________________________________________

Is this a re-sit? If so, enter your previous Candidate Number ________  Centre Number ________

When was the exam?  May/June or Oct/Nov 20 ___

--------------------------------------------------------------------------------------

Students must have undertaken an Initial Assessment demonstrating they are working at Functional Skills Level 2 under the EFP Scheme prior to undertaking a course.

Students requiring special arrangements (eg. dyslexia, impaired vision) need to provide supporting evidence by the following deadlines: 21 Jan for the Summer and 1 May for the Winter examinations.

Examination results take approximately 3 months: the Summer session certificates will be issued mid-Oct and the Winter session certificates will be issued mid-Mar of the following year. If you are due a draft after taking the examination please include a forwarding address where you wish the results/certificates to be forwarded.

Examination Fees: IGCSE £40.95. Civilian candidates should make cheques payable to "The Accounting Officer, Ministry of Defence" and submit with their application form.
Instructions to Candidates

Students are reminded that they are on duty whilst sitting the examination: late arrivals and other irregularities will not be tolerated and could result in disqualification. The exams are publicly funded and failure to attend, without a valid service reason, will result in action being taken to recover examination costs.

I confirm & attach evidence (copy of certificate/JPA screenshot) that I have undertaken an Initial Assessment/hold a Functional Skills Level 2 in Literacy/Numeracy (*delete as necessary*).

Applicant’s Signature: _____________________________ Date: __________________

Divisional Officer’s/Line Manager’s Approval

The above named individual will be released for the examination.

Name (Print): _____________________________ Rank: __________________

Signature: _____________________________ Date: __________________
ANNEX 96H

EARLY SERVICE LEAVER – FUTURE HORIZONS PROGRAMME OPT-IN AGREEMENT

1. The Future Horizons Programme has been developed in response to the recognition and commitment from The Ministry of Defence, to improve resettlement provision to Early Service Leavers (ESLs). Future Horizons believes that everyone who has served in the services, even for a short period of time, is entitled to this support and recognise for many, moving back into civilian life is a critical point in their lives. The main aim of the programme is to assist and support ESLs with that transition and help them find and remain in appropriate employment once they leave. Practical support is also available if the ESL has more immediate needs, for example finding accommodation, support with debt issues or health concerns.

If you wish to join the Future Horizons Programme, please complete the following information in full.

Along with a copy of the front page of the MOD Form 1173A, please fax this form to 01752 557611

Title: _____ Surname: _____________ First Name: ____________ Ethnicity: ___________

DOB: _______________ Service Number: _______________ Rank/Rating: ___________

NI Number: _______ Do you have a Driving Licence? (Please circle): Yes / No /
Provisional

Service Type (Please circle): RN / RM / Army / RAF / Reserves / FTRS

Enlistment Date: _______________ Discharge Date & Category: _______________

Discharged From (Please circle): Trained Strength / Untrained Strength

Current Unit Name: _______________ Location: _______________________________

Home Address: ____________________________________________________________

Post Code: _______________________

Telephone No: __________________ Mobile: ________________________________

Email Address: _____________________________________________________________
2. I understand that the Future Horizons Programme (FHP), or its partners, may use the information I have provided to register me on their database in order to access their services in the future.

3. Department for Work & Pensions (DWP) are a partner in this project. If you agree, FHP will pass your NINO, name, address, sex and DOB to the DWP who may use this information for research and statistical purposes. They will match these details to your benefit and employment records. This will allow them to understand the impact this project has on your employment and benefit outcomes. DWP may then use the details we pass to contact you for future research related to employment experiences. Your personal details will, of course, be kept completely confidential and secure. Your dealings with DWP will not be affected in any way. Your details will be destroyed 12 months after the FHP has ended. No personal information will be passed to anyone who is not a partner in the FHP.

4. The MOD is not responsible or liable for any aspect of the programme or actions resulting from it.

5. I also understand I have the right at any time to ask to see the information held about me from any partner organisation involved in the programme, or the right to withdraw my consent for any partner to use this information. This can be obtained by contacting the FHP on 0121 2360058.

CHAPTER 151

RECALL RESERVE

15101. Definition
The Recall Reserve (RR) does not form part of the RFR and is not a Reserve Force. It is rather a convenient collective term for those liable to recall under RFA80 s30 or RFA 96 Part VII. Because Naval and Marine Officers whose commissions have not been terminated remain members of the RFR(C) for life, Officers will not form part of the RR.

15102. Recall Reserve - Liability for Recall Under RFA 80

a. Individuals who:

(1) were enrolled in the RN or RM on or before 31 March 1997;

(2) have not become Officers;

(3) have not on or after 1 April 1997 re-enrolled, re-enlisted, re-engaged or extended their service;

(4) have not elected (with the permission of an Authorised Officer in the NPT, which will not normally be granted to those who left the RN or RM before 1 April 1997, and may not be granted to others) to be liable to recall under RFA 96; and

(5) are in receipt of a Service pension in respect of their service in the RN or RM;

will be liable to recall under RFA 80 s30 as amended whenever a recall order under RFA 96 s68 (see Para 15103 sub para b) ordering the recall of persons who have served in the RN or RM is in force. They may be required to serve for the duration of the emergency. While so serving they shall continue to receive their pensions. The liability lasts for life, although in practice it is unlikely that those over the age of 55 would be recalled.

b. Ratings or Other Ranks currently serving in the RN, RM or RFR(NC) who joined the RN or RM before 1 April 1997 may also elect irrevocably to be subject to RFA 96 in respect of their future recall liability (see Chapter 13 Para 1303).

c. Recall Reserves at any time can elect, irrevocably, to cease being a member of the Original Transitional Class (RFA 80) and become fully subject to the provisions of the RFA 96 including the changes made to the call-out powers in RFA 96 by Section 45 of the Defence Reform Act 2014.
15103. Recall Reserve - Liability For Recall Under RFA 96

a. All those who enrolled in the RN or RM on or after 1 April 1997 and who do not subsequently become Officers, and those enrolled earlier who are not liable to recall under RFA 80 because Para 10102.a sub para (3) or sub para (5), or Para 15102 sub para b applies will be liable to recall under RFA 96 at the end of their regular service. The liability will last for 6 years or until the age of 55, whichever is the sooner.

b. Her Majesty may make an order authorising the recall of members of the RR (RFA 96 s68) if:

(1) it appears to Her that national danger is imminent or that a great emergency has arisen; or

(2) in the event of an actual or apprehended attack on the United Kingdom.

c. Recall Reserves at any time can elect, irrevocably, to cease being a member of the Second Transitional Class (RFA 96) and become fully subject to the provisions of the RFA 96 including the changes made to the call-out powers in RFA 96 by Section 45 of the Defence Reform Act 2014.

15104. Administration of the RR

a. The Registrar of Reserves will be responsible for administering the RR.

b. Individuals in the RR may be required to provide information to the Registrar of Reserves in accordance with the requirements laid down in the Annual Reporting Certificate issued annually by JPA.

15105. Eligibility for Service in the RR

To be eligible for entry into the RR a Rating or Other Rank must satisfy the following conditions:

a. Is medically and dentally fit for recall. (Personnel are required to be MFD; however, those in a reduced category may exceptionally be considered by NSMBOS SE SO1 in consultation with NPT(Res)).

b. Female Ratings or Other Ranks leaving the Regular service on or after 1 April 1997 who have not served under the post-1 April 1997 terms may elect irrevocably to be subject to call-out under RFA 96, including the changes made to the call-out powers by Section 45 of the Defence Reform Act 2014; they will also have to apply to enrol in the RFR(NC).

15106. Country of Residence or Temporary Residence Abroad

Temporary or permanent residence overseas does not in itself exempt Ratings and Other Ranks of the RR from their liability for recall, however, such personnel will not normally be amongst the first to be recalled for service.
15107. Leaving the RR

a. **Age for Leaving.** Members of the RR who are liable to recall under RFA 96 will leave the RR not later than the age of 55 years. Those liable to recall under RFA80 s30 will, in theory, remain on the list for life. However, in practice it is unlikely that they will be recalled for service after the age of 55.

b. **Leaving at the End of Liability.** At the end of his/her period of liability (that is, 6 years after leaving Regular service or at age 55 if sooner) a Rating/Other Rank liable to recall under RFA96 will be entitled to leave provided he/she is not at that time recalled for permanent service.

c. **Leaving to Join Alternative Service.** If an individual joins, or re-joins, one of the regular armed services, including the armed services of another country, or the volunteer reserves, his/her recall liability under RFA 96 (and that under RFA 80 s30) will be exempted for the duration of that service. This does not apply to those joining the Cadet Forces (the Sea Cadet Corps, the Army Cadet Force, the Air Training Corps or the Combined Cadet Force) who will retain their liability for recall as members of the Recall Reserve. The 6-year period specified in RFA 96 will continue to run in each case.

d. **Removal for Misconduct**

   (1) Any Rating or Other Rank who may so misconduct him/herself as to bring discredit on the RR will be liable to be removed from the RR.

   (2) Ratings/Other Ranks committed to prison by the Civil Power are, as a general rule, to be removed from the RR as from the date of conviction.

15108. **Rating or Rank to be Held**

A member of the RR recalled to the RN or RM will join in the Rank or Rate he/she held on discharge from Regular Service.

15109. **Length of Recalled Service**

a. A Reservist recalled for service under RFA 80 s.30 can be required under that section to serve until the recall order under which he/she was recalled is revoked. However, that liability is relaxed by this regulation (made under RFA 96 s.73) so that no-one will normally be required to serve beyond the age of 55.

b. When a Reservist is recalled under RFA 96 s.68, the maximum obligatory duration of continuous service permitted is 3 years, which can be extended by Order of Her Majesty to 5 years. The same limit applies to the maximum length of obligatory aggregated service, counting the current period of permanent service and any permanent service after call-out or recall in the previous 6 years.

c. Successive voluntary extensions of 12 months recalled service are permitted, providing the conditions of RFA 96 s.69 are met.
15110. Appointments Whilst on Recalled Service

A Rating or Other Rank who has been called out and is on permanent service will be placed under the command of such Officers as the Defence Council or an Authorised Officer may direct and may be attached to any body or unit of Her Majesty's Armed Forces. They may also, without their consent, be assigned to any Naval or Marine body or unit by order of the Defence Council or an Authorised Officer (RFA 96 s.20).

15111. Length of Recall Liability

a. The liability under RFA 80 s.30 is to age 55.

b. Liability to recall under RFA 96 ends at the age of 55, or 6 years after leaving the RN or RM, whichever is the sooner. However, an individual's obligatory or extended permanent service after recall may continue beyond then. Recall liability is superseded by the call-out liability resulting from membership of a Reserve Force, but the 6 years continues to run during that time. Those leaving the RN or RM will thus typically serve 3 years in the RFR, and then have 3 years subject to recall.

15112. Training

There is no training requirement under RFA 80 or RFA 96 for those liable to recall.

15113. Recall Regulations

a. When members of the RR are recalled to service, whether on a voluntary or on a compulsory basis, the NPT will serve on each Reservist a Recall Notice. The issue of a formal Recall Notice is a requirement of both RFA 80 s.35 A and RFA 96 s.68; it will be issued to all Reservists whether they are subject to RFA 80 or to RFA 96. The Notice will state:

  1. The legal provision under which the Reservist is recalled;
  2. The time at which the Reservist is to report for service; and
  3. The place at which the Reservist is to report for service. This may be direct to his/her war or crisis billet (a dormant draft) or to the Mobilisation Centre, or anywhere else as required. The Notice will also require the Reservist to remain there until informed that he/she is or is not accepted into service.

b. An individual's liability to report for service on recall is triggered by the serving of a Recall Notice. It will thus be the normal practice for the appropriate authority in the NPT to issue notices. In special circumstances, however, individuals who could be served with a Recall Notice may instead be invited by other means (e.g. broadcast announcement) to report and, if they do so, they may be accepted into permanent service (see Para 15114). They will not, however, be under any liability to punishment if they fail to respond to such an invitation.
c. A Recall Notice may be served by delivering it to the person concerned, or by leaving it at or sending it by post to his/her last known address. If the notice is delivered to that address by 'Royal Mail Signed For’ in the UK it is deemed to have been served. Recall Notices will usually be dispatched by NPT Reserves by signed for post.
d. A Recall Notice may be varied or revoked by a further notice in the specified form.

15114. Acceptance into Service

a. Section 71(2) of RFA 96 and Section 36 of RFA 80 require an individual who has been recalled and accepted into permanent service to be informed of this fact. It is convenient to inform the individual at the same time that they are subject to Service Law.

b. Those individuals reporting to a Centre without a Recall Notice (section 71(5)) will also fall under this regulation (see also Para 15115.sub para a).

c. A form in the format of JPA Form C018 should be used by the Authorised Officer to inform individuals or groups of their acceptance. The individual is to countersign the form, which should be retained in the individual’s NPT(Res) Personnel File. The Authorised Officer is to ensure this occurs.

d. A written record of the notice is to be retained in the individual’s NPT(Res) Personnel File. The Authorised Officer is to ensure this occurs.

15115. Non-acceptance into Service

a. There is no requirement to accept into permanent service everyone who reports in response to a Recall Notice. RFA 96 s. 71(3) and RFA 80 s.30 provide that if an Authorised Officer decides not to accept an individual, he/she shall inform him/her of that fact.

b. The purpose of this is to signal unambiguously that the individual is free to leave the Centre. For the avoidance of doubt, the individual should always be given written notice using a form in the format of JPA Form C019, which should be retained in the individual’s NPT(Res) Personnel File. The Authorised Officer is to ensure this occurs.

c. The Authorised Officer is normally to inform the individual why he/she has not been accepted into service. Possible reasons would be in response to a justified request by the individual, because of failure to meet the required standards or because all suitable vacancies have been filled.

15116. Exemption from Service

A Reservist who reports for service as a result of a Recall Notice may apply, or may have applied, for exemption from, or deferral or revocation of, recall. A Reservist's employer may also apply, or may have already applied, for the individual to be exempted or for the recall to be deferred or revoked. Procedures in connection with these applications for exemption from Service are set out in JSP 753, Part 2, Chapter 2.
15117. Reporting for Service without a Recall Notice

Should a Reservist present him/herself for service to an Authorised Officer even though he/she has not been served with a Recall Notice, he/she may be accepted into service (RFA 96 s.71(5) and RFA 80 s.36). The appropriate procedures at Para 15114 are to be followed. The Reservist may, however, change his/her mind at any time before formal acceptance into service.

15118. Earlier Effective Date of Entry into Service

a. By virtue of RFA 96 s.72(3), provision may be made to allow a person to be treated as if they had been accepted into service on a date earlier than that on which they were actually accepted.

b. The application of this regulation is to be taken into account in calculations made to determine when the person is to be released under RFA 96 s.69.

c. Any person who has been delayed in presenting him/herself for acceptance into service must demonstrate clearly that the delay was through no fault of their own.

d. When considering reasons for delay due regard must be given to the effects of RFA 96 s.70(7) and 71(5).

15119. Extension of Recalled Service

a. Section 69(3) of the Reserve Forces Act 1996 requires that a written agreement from a Reservist is needed if he/she consents to an extension of his/her current period of service.

b. The agreement will provide for an extension of his/her service for a period not exceeding 12 months.

c. The extension will commence either:

(1) on the day following that on which he/she would have been entitled to be released under 69(2) by virtue of his/her service under the order made under s68; or

(2) when his/her service under the order and any other relevant service, in aggregate, exceeds 3 years; or

(3) on the day following that on which any existing agreement under this section ceases.
15120. Release from Recalled Service

a. By virtue of RFA 96 s. 72(2), a person who is in permanent service following the issue of a recall order is to be discharged from permanent service with all convenient speed, when either he/she is no longer required for recalled service or, if not already discharged, when:

1. their current and any relevant service (as defined in RFA 96 s.69(8)), exceed three years (RFA 96 s.69(2) (or five years if an order under s.69(6) is in force) unless he/she has consented to an extension under s. 69(3); or
2. an order is made under RFA 96 s. 68(8) revoking the recall order which authorised the individual's recall; or
3. it has been determined that the individual is entitled to be discharged from service following an application for exemption under RFA 96 s.79.

b. The entitlement to be discharged "with all convenient speed" means that the necessary administrative procedures are to be carried out with the means, and in a manner, that avoids any unreasonable delay in the discharge procedure which would allow an individual to make a complaint through the normal service procedures.

c. Attention is drawn to RFA 96 s. 72(5) which provides that a person will not be released or discharged while he/she is liable to be proceeded against for an offence under Service Law.

d. On discharge from service a formal demobilisation routine is to be followed. A mobilised Reservist will receive notice of his/her discharge date through an Assignment Order.

e. When the demobilisation routine has been completed, the Reservist is to be given a Certificate of Discharge which should be retained in the individuals’ NPT(Res) Personnel File. The Authorised Officer is to ensure this occurs.

15121. Exemption from, or Relaxation of, Liability for Recall

a. RFA 96 s.73, allows for the exemption or relaxation of liability to recall. The exemption or relaxation could be of either a temporary or permanent nature and applied to either individuals or groups.

b. It is a power which is exercised by the Services when specified circumstances arise and is distinct for RFA 96 s.79 which allows the individual to apply for exemption from recall.

c. This regulation allows for relaxation or exemption of liability over a range of circumstances. Examples of such circumstances are compassionate grounds (or other personal or personnel grounds so specified) and employment in occupations which, by their content, characteristics and or position in the community, affects the occupant’s liability to recall. See JSP 753 for further details.

CHAPTER 152

NAVAL CADET FORCES

15201. Naval Cadet Forces

The MOD-sponsored Naval Cadet Forces aim to provide a challenging and stimulating contemporary ‘cadet experience’ that develops and inspires young people within a safe environment.

15202. Regulations

Detailed regulations for the administration of MOD sponsored Naval Cadet Forces are contained in the following publications:

a. JSP 814 - Policy and Regulations for MOD Sponsored Cadet Forces.

c. JSP 313 - RN Supplement.

d. Sea Cadet Regulations.

e. Volunteer Cadet Corps Regulations (VCCRs).

15203. Sea Cadet Corps (SCC)

a. The SCC is a voluntary nautical youth organisation that is administered by the Marine Society and Sea Cadets (MSSC) and is governed by charity law and its own regulations plus a Memorandum of Understanding (MOU) with the MoD. The MSSC is the governing body of the SCC. Each Sea Cadet Unit is a registered charity and is a member of the Corps by virtue of its affiliation to the MSSC. Detailed regulations for the running of the SCC are contained in the MOU, JSP 814 and SCRs.

b. The SCC is defined as those properly constituted maritime cadet units, which conform to the policies of the Sea Cadet Regulations, established by the MSSC and which are formally affiliated to it.

c. The MSSC is a Registered Charity; it is managed by an independent group of trustees. The objects of the MSSC, as set out in the governing instruments of the charity, are inter alia to promote the development of young people in achieving their physical, intellectual and social potential as individuals and as responsible citizens by the provision of education and leisure time activities using a nautical theme, to advance the education of seafarers, including members of the Sea Cadet Corps and to promote the customs and traditions of the Royal Navy (RN).

d. The MSSC meets its charitable objects by providing administration support, marketing, training resources, field management, financial management, supervision and health and safety guidance to the SCC. It promotes the development of young people in achieving their physical, intellectual and social potential as individuals and responsible citizens and takes individuals from all backgrounds and circumstances
15204. Volunteer Cadet Corps (VCC)

a. The VCC is a voluntary nautical youth organisation that is sponsored by the MOD and is under the command of Assistant Chief of Naval Staff (Training)/Flag Officer Sea Training (ACNS(T)/FOST) and is administered by Commander Core Naval Training and Recruitment (COMCORE).

b. The VCC operates in accordance with JSP 814 and VCRs. Sponsorship, funding, access to training facilities and estates, and other support from the MOD is provided in accordance with the Memorandum of Agreement for the Support of the Volunteer Cadet Corps.

c. The VCC aim is to provide opportunities for young people to develop into responsible, dependable and useful members of society, employing the traditions and practices of the Naval Service as the basis for their activities.

d. Detailed regulations for the administration of the VCC are contained within JSP 814 and VCC Volunteer Cadet Corps Regulations (VCRs).

15205. The Combined Cadet Force (CCF RN-RM)

a. The CCF RN-RM is a youth organisation which is part of an educational partnership between the DfE, schools and the MOD. Governance of the CCF RN-RM is delivered through a bilateral agreement between COMCORE and Army Regional Command (RC).

b. CCF RN-RM is under Operational Command (OPCOM) of COMCORE and Operational Control (OPCON) is delivered by Army RC. As such Army RC may task RN CCF to deliver priorities and provide the best experience for CCF cadets and Adult Volunteers, increasing efficiency and effectiveness. This will include the need to meet direction from MOD, RN and Army chains of command. RC will have authority over how the RN syllabus is delivered.

c. The aim of CCF RN-RM is to offer young people a broad range of challenging exciting, adventurous and educational activities to enable development of personal responsibility, leadership and self-discipline. Afloat training is the defining activity of the Naval Cadet Forces. The Royal Navy proficiency syllabus bases its training emphasis on leadership, afloat activities and adventurous training.

d. Detailed regulations for the administration of the CCF RN-RM are contained with JSP 814 and JSP 313, including the RN Supplement.

15206. Status of SCC and CCF RN-RM Officers

SCC and CCF RN-RM officers, formerly of List 8 of the RNR and RMR, are members of the SCC and CCF List. Members of this list have honorary RNR and RMR status only, they are not considered to be members of a Reserve Force as defined by RFA 96. They do not hold commissions in the RNR and RMR and have no RNR or RMR training commitment or recall/call out liability. Officers are authorised to wear Naval uniform in accordance with BRd 3(1) Part 6, notably Chapters 38 and 39 or as amended by SCRs. SCC and CCF RN-RM officers are included in the Navy List.
15207. Status of VCC Officers

VCC officers do not have honorary RNR or RMR status. VCC officers are not members of a Reserve Force as defined by RFA 96. They do not hold commissions in the RNR or RMR and have no RNR or RMR training commitment or recall/call out liability. Officers are authorised to wear Naval uniform in accordance with BRd 3(1) Part 6, notably Chapters 38 and 39 or as amended by VCRs. VCC officers are not included in the Navy List.

15208. Cadet Forces Commission (CFC)

a. Officers of the SCC, VCC and CCF RN-RM, following successful completion of individual SCC, VCC, and CCF RN-RM training/development programmes, are appointed to a Cadet Forces Commission as approved by the Sovereign.

b. SCC, VCC and CCF RN-RM Commissioned officers are not members of the regular or Reserve Armed Forces of the Crown or subject to the Armed Forces Act when on duty.

c. SCC, VCC and CCF RN-RM Cadet Forces Commissioned officers are entitled to wear military uniform and rank appropriate to the RN and RM in accordance with SCC, VCC and CCF RN-RM dress regulations, and are to be accorded by members of the Armed Forces and others, the appropriate respect and privileges appertaining to that rank when undertaking training and volunteer related activities in uniform.

d. SCC, VCC and CCF RN-RM Cadet Forces Commissioned officers will have authority over more junior ranking Cadet Force Adult Volunteers (CFAVs) and Cadets when undertaking cadet activities.

e. The Cadet Forces Commission does not qualify for any post nominals by virtue of the commission.

f. SCC, VCC and CCF RN-RM officers who transfer from RN to RM or RM to RN will retain their existing Cadet Forces Commission and will not be entitled to a second Cadet Forces Commission.

g. Applications or Cadet Forces Commission will be administered through COMCORE by SCC, VCC and CCF RN-RM Cadet Headquarters through submission to Defence Business Services (DBS) People Services of officers of each respective Naval Cadet Force who have qualified for the appointment of a Cadet Forces Commission.

15209. Naval and Marine Reserve Forces

Regulations, processes and guidance on Naval Reserves are at BRd 3(2).
