BRd 3 (1)
NAVAL PERSONNEL MANAGEMENT
FEBRUARY 2020 EDITION VERSION 1
This publication is sponsored by the Head of Naval People Strategy (Hd NPS); editorial control is delegated to the Sponsor Desk Officer whose details are below.

Individual Parts and Chapters of the publication have designated Points of Contact (POC), to whom all proposals for amendment of that Part should be sent. The Bookmark link takes the reader to the list of Points of Contact and their contact details provided later in these Preliminary Pages. In case of doubt, the Editor (details below) should be contacted.

All general correspondence - not including proposals for change - concerning this publication is to be forwarded to:

OIC Navy Publications and Graphics Organisation
Pepys Building
HMS COLLINGWOOD
FAREHAM
Hants
PO14 1AS

The officer exercising editorial control over this publication (The Editor, acting on behalf of the Sponsor) is:

Cdr M A K Cropper RN
NAVY NPS-BR 3 Editor

EQUALITY ANALYSIS

The policy in BRd 3(1) has been subject to Equality Analysis (EA) in accordance with Departmental policy. Chapter POCs are responsible for conducting EA on any new policy which affects the employment of personnel in order to ensure that it does not have a disproportionate impact on those in the Protected Characteristic groups.

PROPOSALS FOR CHANGE

The following may be accessed from the ‘FORMS’ link on the home page.

Proposals For Change Form

Each Chapter has a Point of Contact (POC) Subject Matter Expert who is accountable to their OF5 (or equivalent, or above) for the accuracy of their Chapter.

Proposals for Change, using the form accessed by the button above, are to be forwarded to the appropriate POC in the list of Points of Contact for the particular Part or Chapter affected. If using the Email button on the form, insert the email address of the relevant Chapter POC. If in doubt, forward a copy of the form to the Editor addressee listed on Page ii.

POCs forward collated proposals for change to the BR 3 Editor for approval by the Sponsor and subsequent publication. For all policy changes implemented prior to inclusion in the next edition of BRd 3(1), the POC for the Chapter concerned is to ensure that the change has been promulgated to all who could be affected. A Summary of Changes is published with each new Edition of BRd 3(1).
PREFACE

1. This Naval Book of Reference (BR) exists in electronic form only (hence the letter 'd', denoting 'digital', after 'BR'). The publication is very large. Printed extracts may become invalid after they are printed.

2. How to Use this BR

References to external material within the BRd are listed throughout; these can be accessed via the user’s internet/intranet access platform, where the relevant permissions are held. The BRd can be searched in two ways: by using the Search (binoculars) button in the File Toolbar to search within the publication as a whole; or by looking in the Index which lists Paragraph titles throughout the BR in alphabetical order – clicking on the selected item will take the reader to the paragraph in question.

3. Aim

The aim of this publication is threefold: to define PPO policy and regulations, to lay down doctrine on processes, and to provide guidance to all involved in this subject.

4. Scope

BRd 3 covers the whole of the Naval Service (which is referred to as the Royal Navy in its logo and in external public relations material), including Officers, Ratings and RM Other Ranks (RMOR). BRd 3 Volume 1 (BRd 3(1)) covers the Royal Navy (RN), Royal Marines (RM), Queen Alexandra’s Royal Naval Nursing Service (QARNNS, which is part of the RN), Royal Navy Welfare (RNW, which is a Branch in the RN) and, for elements of recruiting and training only, Royal Fleet Auxiliary (RFA). BRd 3 Volume 2 (BRd 3(2)) covers the Royal Naval Reserve (RNR), Royal Fleet Reserve (RFR), Royal Marines Reserve (RMR), Naval Careers Service (CS) and University Royal Naval Units (URNUs) (although some chapters of BRd 3(1) contain references to RM/RNR matters).

5. Concept and Development

The concept and development of BRd 3(1) was implemented progressively under a DNPS project conceived and delivered by Commander P J Hughes, LVO, Royal Navy, which completed in April 2011. BRd 3(1) has superseded the following publications: BRs 14, 60, 60A, 61, 63, 63A, 64, 81, 689, 1066, 1992, 4017, 8373, 8588 and 8748; and PLAGOs.

6. Structure of BRd 3

BRd 3 is structured in two Volumes, Volume 1 covering the Regular Service and Volume 2 - which is a separate stand-alone publication – covering the Reserves (see para 4 above for scope of these terms). Following the Preliminary Pages, which incorporate a List of Abbreviations and Glossary of Terms, BRd 3(1) is comprised of the following parts:

a. Part 1 (People Management Organisation and Strategy). Part 1 summarises the organisation of Naval People Management, outlines how the overall process works, and shows the linkages between the individual components of the process. Details of each component are provided in the subsequent Parts.

b. Part 2 (Establishment Administration). Part 2 explains how the total demand for trained Naval personnel today and in future is defined in Establishment Lists. It lays down policy and practice and gives rules, guidance and limitations on the formulation and change of Establishment Lists.
c. **Part 3 (Personnel Planning and Costing).** Part 3 outlines how Naval personnel planning is conducted, drawing on the personnel Planning Liability that is derived from summations of Naval positions in Establishment Lists and subsequent adjustments. It also gives a brief insight to personnel costing.

d. **Part 4 (Recruiting).** Part 4 explains recruiting policy and processes.

e. **Part 5 (Life Management).** Part 5 covers policies on discipline and the administration, welfare and well-being of individual Service personnel, including the Divisional and Regimental System.

f. **Part 6 (Uniform Regulations).** Part 6 provides the necessary direction for the wearing of uniform dress by RN, RM, Maritime Reserves, Royal Fleet Auxiliary, Naval Retail Staff and Royal Corps of Naval Constructors. It also covers policy and regulations on appearance, the wearing of uniform in public, and laundry provision.

g. **Part 7 (Career Structures).** Part 7 shows how an individual’s career may be shaped and managed over the full time-span of commitment to the Service, including Commissions, Careers, Engagements, associated Terms and Conditions of Service, the assignment process (including for augmentation and in response to crisis), Career and Branch Management and Security Vetting policy.

h. **Part 8 (Promotion).** Part 8 covers Officer and Ratings’/RMORs’ Promotions policy, processes and regulations.

i. **Part 9 (Individual Training, Learning Development and Resettlement).** Part 9 outlines the policies under which Naval Individual Training, Education, Learning and Development and Resettlement are conducted. It does not cover the detail of the training delivery process.

j. **Part 10 (Spare).**

k. **Part 11 (Recall Reserve and Naval Cadet Forces).** Part 11 contains policy regulations governing the administration of the Recall Reserve and Naval Cadet Forces.

### 7. Terminology

Considerable effort has been put into standardising terminology used in the Naval Service. Terms used are in accordance with those included in the tri-Service Manpower Lexicon in JSP 755. Some terms, primarily where not covered in JSP 755, are given in the Glossary. Terminology is always evolving. Examples of changes already widely (but not exhaustively) incorporated include: Liability in place of Requirement; Unit Establishment List in place of Scheme of Complement, Position in place of Billet or Post; and Assignment in place of Appointing and Drafting. Some personnel management terminology is quite specialised so, to improve readability, the use of ‘Plain English’ has been maximised. Common abbreviations are used widely (as defined in the List of Abbreviations) and personnel groups have usually been identified explicitly; less common terms have often been given in full. Unless stated otherwise, the following assumptions should be recognised when specific terms are used:
a. ‘Naval’ refers to the Naval Service as a whole;

b. ‘Ratings’ also includes RMOR, except where stated;

c. ‘Ships’ also include Submarines, Mine Countermeasures, Fishery Protection and Patrol Boat Vessels.

d. ‘Units’ generally refers to deployable organisations that have their own Establishment List.

e. RN Ranks (which includes Rates) encompass RM and QARNNS equivalents (an equivalent rank table is placed later in these Preliminary Pages.)

f. In the rare cases where a gender-neutral expression is not readily available, male terminology includes female.

8. Associated Information

In order to minimise duplication, links or references are provided to associated subjects and areas of activity. Furthermore, in view of the relatively frequent changes to policy and processes, it is essential that recent DINs and RNTMs are also scrutinised. The following, not connected by links, are key sources of related information:

a. Other Regulations. The following publications continue to provide the authoritative source of information, but some or all may in due course be superseded by incorporation into BRd 3(1):

(1) BR 8374 (Officers’ Training Regulations). BR 8374 provides policy and guidance on officers’ training, from new entry, through branch specific career training courses, to broadening staff courses etc.

(2) Maritime Reserves. The policy, Instructions and Guidance on Maritime Reserves (RNR and RMR) in BRd 3(2) are governed by the provisions of the Reserve Forces Act 1996 (RFA 96). Policy dictated by RFA 96 may not be altered without approval of the Admiralty Board of the Defence Council. Any queries concerning current policy should be referred to CMR.

b. Mobilisation and Naval Augmentation.

(1) JSP 753. JSP 753 gives the tri-Service Regulations on Mobilisation.

(2) BR 3162. BR 3162 - Instructions for the Redeployment, Mobilisation and Demobilisation of Personnel in Crisis and War - is obsolescent but remains a source of Naval information in the event of mass mobilisation.

d. JSP 462 Chapters 5 and 7. Chapters 5 and 7 of JSP 462 (Financial Management and Charging Policy Manual) describe, respectively, the system of delegation of control of costs in Defence and the roles and responsibilities of budget holders and other MOD authorities.

e. JSP 419. Adventurous Training in the UK Armed Forces.

g. JSP 464. Tri-Service Accommodation Regulations.

h. JSP 750. Centrally Determined Terms of Service.

i. JSP 751. Joint Casualty and Compassionate Policy and Procedures.

j. JSP 752. Tri-Service Regulations for Expenses and Allowances.

k. JSP 754. Tri-Service Regulations for Pay.

l. JSP 755. Centre-Determined Policy for Career Management and the Admin of Tri-Service Positions and Assignments (which includes a lexicon of Personnel terms).

m. JSP 757. Tri-Service Appraisal Reporting Instructions.

n. JSP 759. Developing and Naming Competencies.

o. JSP 760. Tri-Service Regulations for Leave and Other Types of Absence.

p. JSP 761. Honours and Awards in the Armed Forces.

q. JSP 830. Manual of Service Law.

r. JSP 831. Redress of Individual Grievances: Service Complaints.

s. JSP 835. Alcohol and Substance Misuse and Testing.

t. JSP 887. Diversity, Inclusion and Social Conduct.

u. JSP 950. Medical Policy.

w. **RAF Equivalent Publications.** RAF equivalent publications are found on the Defence Intranet under Ministry of Defence | Royal Air Force | Reference | Publications, notably AP3376 (Trade Structure of the RAF), AP3379 (RAF Manual of Training), AP 3390 (RAF Manpower Establishments and Manpower Scales), AP3391 (RAF Manual of Recruiting and Selection), AP3392 (RAF Manual of Personnel Administration), and AP3393 (RAF Officer Commissioning and Terms of Service).

# GLOSSARY OF TERMS

(See also the tri-Service Manpower Lexicon in JSP 755)

<table>
<thead>
<tr>
<th>TERM</th>
<th>DEFINITION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acting Higher Rank/Rate</td>
<td>A rank that is higher than a Service Person’s substantive Rank and is awarded for a temporary period. Paid at the Acting Rank/Rate. In RM referred to as Acting Rank.</td>
</tr>
<tr>
<td>Arm</td>
<td>A top-level breakdown of a Service on functional grounds.</td>
</tr>
<tr>
<td>Assignment</td>
<td>A former, current or future allocation of a Service Person to a given Position.</td>
</tr>
<tr>
<td>Augmentation</td>
<td>Augmentation is the temporary re-distribution of individuals (regular, reserve or civilian) to wherever they are needed to meet directed operational Military Tasks and Events that cannot be achieved within peacetime establishments.</td>
</tr>
<tr>
<td>Branch</td>
<td>A professional functional sub-division which can be further divided into specialisations.</td>
</tr>
<tr>
<td>Competition Position</td>
<td>A Position which is filled by competition across and/or outside the Services.</td>
</tr>
<tr>
<td>Donor Position</td>
<td>A pre-determined and flagged Position which does not itself have a Crisis or Exercise function and that is filled by a Service Person who may be required for (later) Augmentation duties.</td>
</tr>
<tr>
<td>Dual Assignment</td>
<td>A Position which does not have a Crisis or Exercise function which is annotated to provide its incumbent to fill a specific Position, in another Unit, which has a Crisis or Exercise role only.</td>
</tr>
<tr>
<td>End Dated Position</td>
<td>A Position which counts towards Liability and which has a defined end date.</td>
</tr>
<tr>
<td>Enduring Position</td>
<td>A Position which counts towards Liability and which has no end date.</td>
</tr>
<tr>
<td>Establishment</td>
<td>An authorised account of the numbers and details of Positions in an Organisation.</td>
</tr>
<tr>
<td>Establishment Administration</td>
<td>The term used to describe the maintenance of Establishment documentation.</td>
</tr>
<tr>
<td>Hierarchy</td>
<td>An arrangement of Units, Organisations and/or Positions for command and administrative purposes.</td>
</tr>
<tr>
<td>JOB</td>
<td>A JPA term comprising three elements: Service/Domain/Detail, which is applied to every Position as a generic descriptor to assist Manning Authorities in Assigning personnel appropriately.</td>
</tr>
<tr>
<td>Junior Rank/Rate/Rating</td>
<td>A Service Person having a Rank up to NATO Rank OR4.</td>
</tr>
<tr>
<td>Liability</td>
<td>Liability refers to the requirement for specified types of trained military personnel. A baseline ‘Service Liability’ is agreed for each of the Services against which Manning Balance and the Public Sector Agreement is measured. These Service Liability totals are adjusted through the Departmental Planning process and endorsed by the Defence Board.</td>
</tr>
<tr>
<td>Local Foreign Service</td>
<td>Positions in an overseas Organisation that is not classified as SEA.</td>
</tr>
<tr>
<td>Local Rank/Rate</td>
<td>An unpaid rank that is different to a Service Person’s substantive Rank and is awarded for a temporary period. Paid at the substantive Rank/Rate, unless also holding Acting Higher Rank/Rate.</td>
</tr>
</tbody>
</table>

(Continued)
GLOSSARY OF TERMS (Continued)

<table>
<thead>
<tr>
<th>TERM</th>
<th>DEFINITION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Manning and Training Margin (MTM)</td>
<td>The mechanism by which replacements for temporarily non-effective, trained personnel are generated from within endorsed single-Service resources, through personnel provision which is included within the Liability for each Service.</td>
</tr>
<tr>
<td>Maritime Reserves</td>
<td>See Volunteer Reserve Forces</td>
</tr>
<tr>
<td>Naval Service</td>
<td>Royal Navy (which includes QARNNS, Chaplains and Family Service), Royal Marines, Royal Fleet Reserve, Royal Naval Reserve, Royal Marines Reserve, and Naval Careers Service.</td>
</tr>
<tr>
<td>Officer</td>
<td>A Service Person holding a Royal Commission.</td>
</tr>
<tr>
<td>Organisation</td>
<td>A discrete Service group of any size and at any level.</td>
</tr>
<tr>
<td>Other Rank</td>
<td>A Service Person having a Rank up to NATO Rank OR9.</td>
</tr>
<tr>
<td>Phase 1 Training</td>
<td>All new entry training to provide basic military skills.</td>
</tr>
<tr>
<td>Phase 2 Training</td>
<td>Initial individual specialisation, sub-specialisation and technical training following Phase 1 Training prior to joining the Trained Strength.</td>
</tr>
<tr>
<td>Phase 3 Training</td>
<td>A period of individual training undertaken at any stage in a Serviceperson’s career after GTS.</td>
</tr>
<tr>
<td>Planned Augmentation</td>
<td>Planned Augmentation reflects a known requirement for augmentees during times of crisis. It is reflected in Joint HQ augmentation manning lists and as “M Role” Positions in an Establishment for a Naval Unit.</td>
</tr>
<tr>
<td>Position</td>
<td>Position is an authorised personnel element of an Organisation to which one or more individuals may be Assigned.</td>
</tr>
<tr>
<td>Regular Reserve Forces</td>
<td>The Royal Fleet Reserve, Army Reserve and Royal Air Force Reserve. It is primarily (but not exclusively) comprised of ex-regular personnel who carry a reserve Liability.</td>
</tr>
<tr>
<td>Rotational Position</td>
<td>A Position filled in turn by more than one Service in a pre-determined cycle. Such Positions can include foreign servicemen.</td>
</tr>
<tr>
<td>Senior Rank/Rate/Rating</td>
<td>A Service Person having a NATO Rank of OR5 or above, up to OR7.</td>
</tr>
<tr>
<td>Service Person</td>
<td>A member of the UK armed forces. Includes the Naval Service, Army and RAF.</td>
</tr>
<tr>
<td>SEA Organisation</td>
<td>Positions in these Organisations meet specific criteria associated with an expectation of a high degree of separated service (BR 3(1) Chapter 2 refers).</td>
</tr>
<tr>
<td>SHORE Organisation</td>
<td>Positions in these Organisations do not meet the SEA or Local Foreign Service criteria.</td>
</tr>
<tr>
<td>Specialisation</td>
<td>A professional sub-division of Branch likely to reflect a particular field of expertise. Specialisations can be further divided into Sub-Specialisations.</td>
</tr>
<tr>
<td>Status</td>
<td>Status is the operational stance in which an Organisation or Unit is operating.</td>
</tr>
<tr>
<td>Strength</td>
<td>The number of personnel in an organisation. It may be further sub-divided by a number of groupings e.g. Service, Arm, Branch, Specialisation, sub-Specialisation, or rank.</td>
</tr>
<tr>
<td>Sub-Specialisation</td>
<td>A division of Specialisation on professional grounds. This is the lowest recognised level within the tri-Service structure.</td>
</tr>
<tr>
<td>Temporary Position</td>
<td>A Position that is created for a specific purpose and for a specific, finite period of time and does not count towards Liability.</td>
</tr>
</tbody>
</table>

(Continued)
<table>
<thead>
<tr>
<th>TERM</th>
<th>DEFINITION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trained Strength</td>
<td>The number Service Personnel who have completed Phase 2 Training having reached Training Performance Standard (TPS).</td>
</tr>
<tr>
<td>Unit</td>
<td>A collection of Positions and/or Organisations grouped together for a particular purpose. It may contain several sub-units.</td>
</tr>
<tr>
<td>Untrained Strength</td>
<td>Number of serving military personnel who have yet to complete Phase 2 training.</td>
</tr>
<tr>
<td>Volunteer Reserve Forces</td>
<td>The Royal Naval Reserve, Royal Marines Reserve, Territorial Army and Royal Auxiliary Air Force. They are volunteers who are required to train and are legally liable to be mobilised. Members may be ex-regulars. Naval volunteer Reserve Forces are also known as Maritime Reserves.</td>
</tr>
<tr>
<td>Warrant Officer</td>
<td>A Service Person holding a Royal Warrant and equivalent to NATO Rank OR8 or OR9.</td>
</tr>
<tr>
<td>Warrant Officer 1</td>
<td>A Service Person having NATO Rank OR9. Also referred to as Warrant Officer Class 1 or Warrant Officer 1st Class.</td>
</tr>
<tr>
<td>Warrant Officer 2</td>
<td>A Service Person having NATO Rank OR8. Also referred to as Warrant Officer Class 2 or Warrant Officer 2nd Class.</td>
</tr>

CHAPTER 1
PERSONNEL MANAGEMENT ORGANISATION AND STRATEGY

SECTION 1 – HIGH LEVEL ORGANISATION

0101. Introduction

a. **Naval Personnel Policy.** The detailed Regulations, policies and doctrine that govern the management of Naval Service Personnel are issued in official publications, including Joint Service Publications (JSPs) and Naval Books of Reference (BRs). These are subject to regular formal amendment and, in the shorter term, to update through a variety of Notices and Temporary Memoranda, including Defence Information Notices (DINs) and Royal Naval Temporary Memoranda (RNTMs).

*Note. Throughout this publication, “Naval” refers to the Naval Service, comprising the Royal Navy (including QARNNS and Chaplains), Royal Marines, Maritime Reserves and the Naval Careers Service.*

b. **Naval Personnel BRs.** This publication – Naval Personnel Management (BRd 3) – is the key single Service source of reference for current Naval personnel strategy, policy and doctrine. It replaced a number of previous BRs and associated publications. It refers to other extant prime sources of information as appropriate.

c. **Data and JPA.** Information on Freedom of Information is at Para 0108, on Data Protection is at Para 0109 and on JPA is at Para 0110.

d. **Armed Forces Covenant.** Information on the Armed Forces Covenant is at Para 0111.

e. **Change.** Regulations, policies and processes are subject to continuous improvement. As the Naval Service changes to meet new operational challenges (through the changing world environment and through acquisition of new classes of ships, submarines and aircraft and supporting capability), and re-organises shore support (through organisational and estate rationalisation and new training requirements), there is a need to ensure that personnel policies remain coherent with these changes.

f. **Organisation and Processes.** This Chapter explains firstly the organisation by which policy for the management of Naval personnel is delivered and developed. It then outlines the processes by which this organisation achieves its purposes.

0102. Personnel Management Organisation

a. **Ministry of Defence (MoD).** The Chief of Defence People (CDP) organisation, encompassing management of Service personnel, Civil Servants and contractors, is replacing previous stovepiped structures that included Deputy Chief of the Defence Staff (Personnel and Training) (DCDS(Pers and Trg)). CDP, as the Service personnel process owner, is the MoD authority dedicated to leading the Service Personnel organisation.
b. **Organisational Structure.** The principal areas conducting personnel management business in the Naval Service are shown in the organisational chart at Figure 1-1. Other areas of the overall structure have been omitted. More detail is available in the Navy Command Operating Model (NCOM) v.3 and is briefly summarised in the subsequent paragraphs.

![Figure 1-1. Naval Personnel Management Organisation](image)

**First Sea Lord (1SL).** 1SL, who is also Chief of the Naval Staff (CNS), is head of the Naval Service and the Naval Top Level Budget (TLB) holder.

de. **Fleet Commander.** Responsible for the Generate and Operate functions under the new DOM. The Fleet Commander exercises Full Command (delegated by 1SL) of all Fleet Units, Battlestaffs, the Royal Fleet Auxiliary, Fleet Air Arm (including aviation Force Elements (Fes)) and Royal Marines with the aim of ensuring the generation of RN units for task in accordance with the Command Plan, and for the operational effectiveness and efficiency of the RN. As Deputy Chief of Naval Staff (DCNS), Fleet Commander also supports 1SL in the delivery of his intent, the Navy Board Headmark and Future Navy Vision.

e. **Second Sea Lord (2SL).** Responsible for the Develop and Deliver functions under the new DOM and the totality of Capability Management, 2SL is in charge of all aspects of RN capability covering all Programmes, ICSM and DLODS. 2SL leads the Strategic Headquarters of the Royal Navy. 2SL is also the Royal Navy’s Principal Personnel Officer (PPO), responsible for maintaining the Moral Component of the Service now and in the future.
g. **Heads of Branch, Specialisation and Fighting Arm.** Details of these specialist positions are at Para 6025 and Para 6026.

h. **Assistant Chief of Naval Staff (Personnel)/Naval Secretary (ACNS(Pers)/NavSec).** ACNS(Pers)/NavSec is Deputy PPO and responsible for shaping and directing policy for generating Naval personnel, the Navy Command People Sub-Portfolio, and for personnel provision. NavSec oversees the career management of all Naval personnel and is responsible to 1SL for all matters relating to Flag Officers’ assignments. ACNS(Pers) is responsible for helping meet the Fleet’s priorities for the personnel component of operational capability and directs the management of the Maritime Reserves. Under ACNS(Pers), the following positions are key:

1. **Head of Naval People Strategy (Hd NPS).** Hd NPS is responsible for defining personnel strategy, setting the supporting policy and directing the associated research and concept development. Hd NPS oversees the Naval Strategy for People (NSP), manages the Navy Command People Sub-Portfolio on behalf of NavSec and is responsible for people policy and strategy and its delivery, including People Programmes, Pay, Allowances, Pensions, Job Evaluation, People Support (including specialist welfare and PDev), Employment Policy, Management of personnel Information, Diversity and Inclusion, and people-related Research.

2. **ACOS People Capability (ACOS(PCap)).** ACOS(PCap) is responsible for the full gamut of people planning and delivery. People planning incorporates Establishments’ Administration (see Chapter 2), Strategic Workforce Planning (see Chapter 3) and Branch Management (see Chapter 62). People delivery includes Career Management, assignment, promotion, selection for further service and specialist welfare of all Naval Service Officers below Captain RN/Colonel RM, and all Royal Naval Ratings and Royal Marines Other Ranks. These duties are discharged by the Naval Personnel Teams which are organised by branch (Warfare, Engineering, Logistics/Medical, Royal Marines, RFA and Reserves), headed by DACOS Career Management at OF5 rank. Delivery also involves personnel deployment issues concerning the Naval Reserves, Force Generation, Augmentation and Crisis Management (see Para 0113).

3. **Captain Naval Legal Services (CNLS).** CNLS is responsible for the development, co-ordination and organisation of legal services within the Naval Service to ensure the provision of timely, accurate and appropriate legal advice. CNLS’s core tasks are: the strategic direction of the Legal sub-specialisation; legal advice and input to the development of Naval and tri-Service policy; support to current operations and to exercises through the provision of deployable legal advisers on request from Fleet Legal Ops; legal advice to individual service personnel; and the oversight and quality assurance validation of training of RN personnel in the law. See Para 0115.
(4) **Assistant Chief of Staff Medical (ACOS Med)/Head Royal Navy Medical Service (Hd RNMS).** ACOS Med/Hd RNMS is responsible to NavSec for the provision of the medical component of Royal Naval Operational Capability and for the promotion, protection and restoration of the health of the Royal Naval Service.

(5) **Commander Maritime Reserves (CMR).** CMR commands the Maritime Reserve Training Units - and the Volunteer Reserve and Regular Service personnel attached to them - and is responsible for providing a reservist personnel capability to meet Navy Command contingency requirements. See Para 0117.

(6) **Naval Assistant (NA).** NA is responsible to NavSec for the Career Management of all Naval Service Officers at OF5 (Captain RN/Colonel RM) and OF6 ( Commodore RN/Brigadier RM) levels. NA is also an adviser to the OF5 Sea Appointments Selection Board (SASB), for sea, air and major OC related shore commands and the Military Command Board (MCB) for Colonels RM.

i. **Assistant Chief of Naval Staff (Policy) (ACNS(Pol)).** ACNS(Pol) exercises a number of key delegated functions, including management of Commander Regional Forces and some tri-Service personnel-related business.

j. **Finance Director (Navy) (FD(N)).** FD(N) delivers Navy Command resource management, business development, corporate governance, strategic civilian HR, corporate communications, heritage and Department of State business. This includes setting planning requirements, for assessing personnel costs and affordability and for administering information control. See Para 0114.

k. **Flag Officer Sea Training (FOST).** FOST is responsible to Fleet Commander for recruiting and the governance and delivery of all individual training for Naval Personnel and platform collective training across the Naval Service responding to command pull from ACNS(Cap), COMOPS and ACNS(Pers)/NAVSEC. See Para 0115.

**0103. Processes**

a. Key elements of the Naval PPO’s outputs are:

(1) Deployment of Naval Service personnel in support of current and contingent operations;

(2) Maintenance of manning balance and full manning;

(3) Delivery of the Navy People Strategy, policies and conditions;

(4) Delivery of individual training output.
b. This publication covers all the aims and aspirations in the preceding paragraphs related to Naval personnel, except that it does not cover detail of training delivery. In order to deploy personnel in support of operations, 2SL aims to provide the Naval personnel needed by Fleet Commander and other TLBs to deliver their outputs. To do so, while trying to maintain manning balance, 2SL must provide Naval personnel policies and conditions which sustain the availability of Naval personnel. Each of these activities stimulates tension with the other.

c. There are 6 broad, interacting processes that, together, comprise Naval Personnel Management:

   (1) Personnel Strategic Policy management;

   (2) Personnel Planning (including Establishments’ Administration);

   (3) Recruiting;

   (4) Life Management;

   (5) Career Management and Branch Management;

   (6) Individual Training, Education and Resettlement (delivery of training is not covered by BRd 3);

d. These Personnel Management processes can be considered within 3 broad areas:

   (1) Strategic Policy Management;

   (2) Management of Positions (the posts that Naval personnel may fill); and,

   (3) Management of People.

e. An outline explanation of the processes follows, while detail on the management of people and positions is in the specified Parts of this BR.
SECTION 2 – STRATEGIC POLICY MANAGEMENT

0104. Vision, Intent, Guidance and Change

a. Vision, Intent and Guidance. Regular issues of Defence and Naval vision, intent and guidance documents provide strategic views of the current and anticipated future position, while also giving top-level indicators of how efforts should be focussed and directed. The Vision for Defence People 2016 states that “Defence Outputs are delivered by the right mix of sufficient, capable and motivated people that appropriately represent the breadth of society we exist to defend, now and in the future.” 1SL, Fleet Commander and 2SL issue their own vision, intent, or guidance documents. The Maritime Strategy 2035 ‘A Return to warfighting at scale’ states “Our people are a pivotal component of Maritime Strategy 2035; the ability to attract and retain the right balance in our workforce is self-evident and remains a near-term challenge. In the longer-term, the Royal Navy must restructure its workforce to meet its operational demand, particularly around warfighting …”

b. Defence People Strategy (DPS). The DPS sets out how the single Services and TLBs will deliver the right mix of capable and motivated people across the Whole Force of Regular and Reserve Service personnel, civil servants, MOD civilians and contractors. It is owned by CDP, who is the Process Owner for Service Personnel and Chairman of the Defence People & Training Board (DPTB). An associated Defence People Plan (DPP), published annually, provides the detailed execution of the strategy, setting out the DPTB’s priorities for action in the succeeding year.

c. Naval Strategy. The Maritime Strategy 2035 provides a policy framework and coherent direction to the Royal Navy for development of plans and programmes out to 2035 in order to develop a Navy as part of the Joint Force 2025 that is capable of winning when warfighting at scale and articulates a headmark for 2030 and beyond. The Royal Navy Strategy sits within the Command Plan (CP Pt2) and directs the delivery of the long term aspirations of Defence Policy and Future Navy Vision (FNV) through workforce and financial strategies to be delivered through the NC portfolio.

d. Navy People Strategy. Set against the landscape of SDSR15, and the direction given in the National Security Strategy, the purpose of the Navy People Strategy is to develop and deliver a people component of the Joint Force 2025 that is capable of winning when warfighting at scale, set against a headmark for SDSR 2030. Fully compliant with Maritime Strategy 2035, this strategy will ensure the Naval Service is fully equipped with a Whole Force ready to deliver and maintain the fighting edge.

0105. Management of Risk

All identified risks are held within the Navy Command Risk Register which allows comparisons to be made between risks in different areas. The way that risks are identified, analysed, planned and managed is in accordance with JSP 525 (Corporate Governance and Risk Management). All risks are reviewed monthly at DACOS level and every 3 months by more senior officers. The risks are taken account of in regular reports to the Navy Board as well as the ABC Round that allocates PPO resources.
0106. External Relationships - Key External Customers and Partners

a. The Naval PPO contributes to the provision of advice and support to Ministers as required in relation to achievement of Public Service Agreement objectives.

b. Close links are maintained in meeting the Naval personnel requirements of non-Naval authorities, including other TLBs, Other Government Departments (OGDs), NATO and other nations.

c. Much effort is put into maintaining and enhancing the reputation of the Naval Service and improving its visibility across the UK; this work embraces links with many sectors of UK society and much of it is focussed through the Naval Regional Commanders under FOSNNI.

d. In partnership with Defence Equipment and Support (DE&S) and the Equipment Capability Customer (ECC), and exercised through Chief of Materiel (Fleet), a Navy Command objective is to optimise the provision and coherence of support to in-Service and future units and equipment, including their manning requirements; this also involves a close relationship with key suppliers and industry.

0107. Contact with the Media and Communicating in Public

The rules governing contacts between all MoD personnel - military and civilian - and the media, and for writing or speaking in public, are currently contained in DIN 2014DIN03-024.

0108. Freedom of Information (FOI)

Naval PPO staff officers manage information with careful attention to the balance that needs to be struck between the duty of disclosure, imposed by the Freedom of Information Act (FOIA) 2000, and the overriding need to maintain operational effectiveness through appropriate security measures, the control of personal information and an individual's personal privacy. The policy and guidance for the disclosure of information is contained in JSP 400 which is to be regarded as authoritative in these matters. FOI and Data Protection are administered by the RN Disclosure Cell - see Para 0114 sub para a. Advice on FOI is at Chapter 1 Annex 1D.

0109. Data Protection

It is Naval policy that all business is conducted in accordance with the Data Protection Act 1998. Advice and guidance in ensuring that personal information is managed in accordance with the Act is provided by the RN Disclosure Cell - see Para 0114 sub para a. Guidance on Data Protection is at Chapter 1 Annex 1C.

0110. JPA

a. Much of the key data supporting delivery of the Naval PPO’s outputs is held and managed in the Joint Personnel Administration (JPA) system, introduced into the Naval Service in 2006.
b. JPA is not simply an IT system but a human resource management system which embraces people, processes, structures, training, supporting documentation as well as the enabling IT systems. JPA is accessible to all service personnel via the Defence Intranet and individuals can view their own information and information applicable to their current assignment.

c. There are a number of JPA processes that provide direct interaction between Career Managers and assignees, detailed at Part 7 of this BR. For details on relevant JPA processes, personnel should refer to the Self Service User Guides that can be found from the JPA Portal.

d. It is mandatory for all personnel to maintain their own personal information (see Para 2121 for details).

0111. Armed Forces Covenant (including the Community Covenant and the Corporate Covenant)

a. The Armed Forces Covenant is an enduring covenant between the people of the United Kingdom, Her Majesty’s Government and those who serve or who have served in the Armed Forces of the Crown, and their families.

b. The NCHQ lead for all Covenant matters is DACOS People Support. Advice and information on all Covenant matters is available from NAVY NPS-PFCS AFC SO2.
SECTION 3 – PERSONNEL POLICY MANAGEMENT

0112  Hd NPS Organisation

a. **Immediate Staff.** Hd NPS has a PS and a Lt Coord. They act as the focal point for the management and co-ordination of information flow in and out of Hd NPS.

b. **Strategy and Policy (Strat Pol).** The Strat Pol area sets, influences, develops and assures policy conditions for the sustainable delivery of personnel to the Naval Service, ensuring coherence with other force development areas. It provides the focal point for people policy programmes, including tri-service programmes led centrally by CDP, and employment policy including PFS (see Chapter 22), maternity, paternity and adoption (see Chapter 35). DACOS Strat Pol also oversees the following sub-teams:

(1) **Navy Command Executive Team (NCXT).** The primary roles of the NCXT, together with the Command Warrant Officers (CWO), are: the provision of command and executive advice and support; the conduct of unit and establishment visits; and to be the SMEs for the Divisional System, the Code of Social Conduct and Substance Misuse. It advises CNLS on discipline policy matters and sponsors the Personnel Support Briefs, Ship’s General Orders, FLAGOs and PMIS. The NCXT also provides line management of the Compulsory Drug Testing (CDT) team.

(2) **Diversity and Inclusion Team.** See Chapter 30.

(3) **Terms of Service Team.** See Part 7 of this BR.

c. **Pay, Pensions and Allowances (PPA).** The PPA area delivers the RN case in the formulation and adjustment of policy for Pay, Pensions and Allowances (including Compensation), whilst ensuring that policy direction is consistent with the RN Personnel Strategy, the New Employment Model and The Navy Plan. The PPA area is in MOD Main Building, co-located with Army, RAF and Centre PPA staffs in order to ensure that the requirements of the Naval Service are considered fully in joint PPA policy development. See Chapter 27.

d. **Job Evaluation Judge (JEJ).** The RN JEJ sits with Army and RAF counterparts on the Joint Service JE Team to conduct JE in the various employment categories of other ranks across all three services to determine Whole Trade Score supplement pay recommendations, in support of the New Employment Model pay structure. JE of officers is undertaken on an opportunity basis. The results of both officer and OR JE also provide the Office of Manpower Economics (OME) with information to allow them to undertake pay comparability studies between Service jobs and those in civilian life, on behalf of the Armed Forces’ Pay Review Body (AFPRB).

e. **Research.** The HR Research Cell is made up of research specialists who undertake 3 main research activities: review of theory and literature (military and non-military); primary data collection (eg. surveys and focus groups); and secondary data analysis.
f. **People Support.** People support encompasses two broad areas of PFCS and PDev:

(1) The PFCS Organisation incorporates Welfare (Policy & Delivery – see Chapter 24), Community Development; Casualty Notification, Management and Tracking (CNMT); Trauma Risk Management (TRiM) and Operational Stress Management (OSM – see Chapter 34); Wounded, Injured and Sick (WIS) recovery - see Chapter 33; the Armed Forces Covenant (AFC); and accommodation policy and casework (see Chapter 25).

(2) The PDev staff, based at HMS TEMERAIRE, are responsible for the direction of Sport, Physical Education, embedding the PDev culture and promoting Adventurous Training in the Naval Service, including management of Naval Outdoor Centre (Germany), Joint Services Adventurous Sail Training Centre and the Joint Services Sub Aqua Diving Centre. See Chapter 29.

0113. **ACOS(PCap) Organisation**

a. **Immediate Staff.** ACOS(PCap)’s immediate staff consists of a PA and a Co-ord. They act as the focal point for the management and co-ordination of information flow in and out of ACOS(PCap).

b. In addition to the outer office staff, ACOS(PCap) has a Business Manager’s Section who is responsible for all aspects of financial and resource management within the PCap budget and, on behalf of DACOS Commitments, for the Deployed Welfare Package (DWP).

c. The rest of the PCap Division is divided into 5 areas, each headed up by an OF5 DACOS:

(1) Career Management.

(2) Ops & Plans.

(3) People Capability Plans.

(4) Branch Management.

(5) Promotions.

d. **Career Management.** Career management covers the assignment of individuals in accordance with endorsed current and future Service requirements, exploiting skills, career development needs and, whenever possible, personal preferences, whilst providing advice on future career paths.

(1) Career structures are governed by methods of entry into and transfers within the Service, Commissions and Careers, the method for advancement up the rank structure and how the career of each individual Service Person is managed throughout their careers. See Part 7 of this BR for details.
(2) Career Managers (CM) are accountable to DACOS CM and are structured to reflect the equivalent Branch Management organisation who act as the primary link with the Strategic Manpower Planners. Common assignments, ie. those designated as being suitable for officers of more than one branch, are managed and administered by NAVY PCAP-CM WF CAPPS SO2.

(3) Career Management Cells (CMCs) in Naval Bases and Air Stations deliver RN Junior Ratings’ (JR) career management on behalf of the DACOS CM - details in CMC CONOPS (Annex 1B). A collocated cell within the RM Career Management area career manages all RM ORs.

(4) An overview of the CM and BM organisations is at Fig 1-2 below.

e. **Ops and Plans.** Under DACOS Ops and Plans the team is divided into two areas:

   (1) **Ops Area.** The Ops Area is responsible for resolving short term gapping issues across all ranks and rates, for tackling the root causes of manpower gapping and acting as the current manpower issues focal point/liaison between NCHQ, West Battery, Northwood, the waterfront and the frontline.

   (2) **Plans Area.** Responsible for arranging the temporary redistribution of individuals (Regular or Reserve) to meet a liability for directed operational Military Tasks, exercises and extraneous events that cannot be otherwise met within peacetime liability. They also become the Navy HQ operations room for Military Aid to Civilian Authorities (MACA) activities.

f. **People Capability Plans (PCAP PLAN).** The PCAP PLAN area delivers the Naval Service Personnel Line of Development for current and future capability management, including NS workforce planning and provision of workforce data and analysis (see Chapter 3) and Unit Establishment Lists administration (see Chapter 2). It also provides the Naval Service Focal Point for Business Information Systems (specifically JPA, see Para 0110).

g. **Branch Management.** Branch Management (see Chapter 62) is the function of ensuring that the Naval Service has both sufficient and capable personnel in each of its branches. The Branch Managers (BMs) are responsible for ensuring that each Specialisation is carefully managed such that sufficient personnel are available to meet current and future commitments.

h. **Promotions.** See Part 8 of this BR for detailed rules on promotions. The Promotions Section is responsible for proposing and implementing Naval Service transfer and promotions policy, operating the transfer and promotion systems for all RN/RM officers, RN ratings and RM other ranks up to 1* rank and the staffing of completed appraisal reports.
0114. Legal Services – CNLS

a. Many of the functions of CNLS are covered at Chapter 20 (Discipline), Chapter 23 (Representations and Complaints) and widely throughout this BR.

b. Casework Cell. Casework is defined as any administrative action which affects a named individual. In the usual context it refers to actions such as Discharges, Reversions, removals from assignment and other administrative actions – but not disciplinary action. The majority of casework for officers and ratings is staffed through the Navy Command Casework Cell (see Annex 1E, which supplements guidance in JSP 831, JSP 763 and other specialist publications). Specific guidance on the RN’s arrangements for dealing with statutory Service Complaints, made under the Armed Forces Act 2006 (AFA 06), is given at Chapter 23.
0115. Recruiting and Training – FOST
From the GTS Targets set by ACOS(PCap), FOST calculates, publishes and reviews recruiting targets. From these, when combined with an understanding of career and other training requirements, FOST can judge the total future individual training load, from which training plans can be developed. Some of these plans are very long term, and have expensive solutions, so FOST must be involved in personnel planning as early in the process as possible.

a. The principles and processes for bringing people into the Naval Service are determined by Captain Naval Recruiting (CNR). Recruiting activity is centred on the work of the Naval Careers Service and the Recruiting Field Force under the Naval Regional Commanders. The task is to meet the recruiting targets set, for Regulars and Maritime Reserves, by FOST in qualitative and quantitative terms, not only for the current year but also as anticipated in future years. Details are at Part 4 Chapter 4 et seq.

b. DFOST is responsible for delivering individual training strategy and policy. Details of Individual Training policy are at Chapter 95, and Education, Lifelong Learning and Resettlement Policy is covered at Chapter 96. The Course Booking Cell provides a booking service for CMs and Flotillas for Phase 3 non-career course places and also provides a focal point for prioritisation of course places, waiting lists for a number of discrete courses and monitoring of course place wastage and cancellations.

0116. Reserves Management
Aspects on Maritime (volunteer) Reserves are covered separately in BRd 3 Vol 2. Under ACNS(Pers)/NavSec, CMR manages Maritime Reserves (RNR and RMR). Under ACOS(PCap), NPT(Res) manages Regular Reservists and full and part time Reserve Service commitments.

0117. Defence Business Services (DBS)
DBS (previously Service Personnel and Veterans Agency (SPVA)) provides a comprehensive range of through-life personnel support functions direct to Service personnel and the veterans’ community, including: pay, allowances, pensions, compensation, records administration, medals and veterans’ services. It is responsible to ACOS(PCap) for a number of discrete functions, including:

a. The provision of Terminations/Leavers’ packs.

b. London Gazette Entries.

c. Commissioning Parchments.

0118. Setting and Meeting Requirements
Employers within Navy Command and in the other TLBs are responsible for identifying their requirements for Naval personnel, in terms of numbers, ranks, branches and specialisations. Assistant Chief of Naval Staff (Capability) (ACNS(Cap)) is responsible for setting the overall and specific capabilities that Naval personnel are required to deliver. The Naval PPO is responsible for meeting those requirements as far as possible. The linkages between the various management functions are illustrated in Figure 1-3.
Figure 1-3. The Personnel Management Process

1. Establishment Lists for each organisation are maintained in JPA.

2. Liability-driving Positions in Establishment Lists are summed, to which margins are added.

3. From this is derived the Planning Liability in each manning category, used in planning the future Strength.

4. Policy on career structures, recruiting, training, education and Conditions of Service draws on projections of future numbers of personnel.

5. Each Specialisation is managed in order to grow the right numbers at each Rank level and to ensure that Crisis commitments can be met while providing sound career profiles. The capabilities required of Naval Personnel are set by ACNS(Cap).

6. Each individual Service Person’s capability and motivation is delivered through training and consideration of their behavioural, emotional, physical and family circumstances.

7. Personnel are Assigned to fill valid Positions and to Margin Areas as reqd.
ANNEX 1A

NAVAL PERSONNEL HIERARCHY

1. Introduction
   The Naval personnel hierarchy describes the categorisation of personnel by type. This categorisation is reflected in the way that both people and Positions are identified in JPA.

2. Structure
   At the highest level in the structure, the Naval Service comprises the Royal Navy, Royal Marines, Queen Alexandra's Royal Naval Nursing Service (QARNNS), Reserve Forces and Naval Careers Service.

3. Sub-Divisions
   Some of the main groupings can be further subdivided into:
   
   a. **Branch.** This is a professional functional sub-division, with Arms (some or all of General Service, Fleet Air Arm and Submarine), which can be further divided into Specialisations. Examples in the Naval Service are Warfare, Engineering, Logistics and Royal Marines. All personnel, except for those in the Careers Service, belong to a Branch.

   b. **Specialisation.** This is a professional sub-division of Branch likely to reflect a particular field of expertise. Some personnel will have more than one Specialisation and others may have none.

   c. **Sub-Specialisation.** This is a division of Specialisation on professional grounds and is the lowest recognised level within the tri-Service structure.

4. A table showing these sub-divisions and their owning Branch Manager is at Appendix 1 to this Annex.

5. Reserve Forces
   The Reserve Forces are made up of the Regular Reserves and the Maritime Reserves (Royal Naval Reserve (RNR) and the Royal Marines Reserve (RMR)). The Maritime Reserves have a range of Branches and Specialisations that closely mirror those of the Regulars. When activated, RNR personnel are managed by NPT(Res), with RMR personnel being managed by NPT(RM).

6. Chaplaincy
   The Chaplaincy does not contain sub-divisions and is managed within the Logistics NPT. The Chaplaincy is comprised of both Regulars and Reserves.

7. The Naval Careers Service
   The Naval Careers Service (NCS) is a special Service within the Naval Service and comprises former Regular Royal Navy and Royal Marines personnel. NCS personnel wear military rank and have the Specialisation 'Careers Advisor' (CA) embedded in their title. Currently all new-entrants to the Careers Service are employed on FTRS(NCS) commitments and are recruited at the Senior Rate level.
8. **Tri-Service Strength Categorisation**

A tri-Service categorisation of personnel Strength is contained within JSP 755 (JSP 755; Tri-Service Positions & Assignments – Instructions, Chapter 6 – Appendix). This categorisation shows a high level structure of the different personnel categories employed across Defence.
## APPENDIX 1 TO ANNEX 1A

### Note.

- Points specific to the Reserves
  - Although not listed, most RM Specialisations are replicated in the Reserves eg. LC(R)
  - All Reserve Specialisations have the suffix (RES):
  - All Royal Marines Reserves are recorded as RMR(OF) on JPA

ANNEX 1B

HUB AND SPOKES – THE ROLE AND FUNCTIONS OF ACOS(PCAP) (HUB) AND CAREER MANAGEMENT CELLS (SPOKES) – CONCEPT OF OPERATIONS (CONOPS)

References:

A. DNPS Manpower and Training Value Stream Concept of Operations dated Nov 06.
B. DNCM Hub & Spokes Annex to M&T VS CONOPS dated 22 Mar 07.
D. DNPers 20090922 Career Management CIE – Output.

1. Introduction

a. These revised CONOPS support Reference A, which states that the Value Stream will deliver a more agile response to ‘Command Pull’ in generating sufficient, capable and motivated personnel to meet the requirements of all employers of Naval Service manpower. Hub and Spoke is designed to meet this requirement and also deliver a better career management service to our Junior Ratings. This is a living document that has been and will continue to be fed by well considered and agreed continuous improvement. These CONOPS will be reviewed annually and will be reissued each April. The CONOPS are sponsored by ACOS(PCap) and all comments, recommendations for changes and additions should be passed to the ACOS(PCap) CM DACOS COS.

b. The Hub and Spoke concept is based on the principle of career management of main branch Junior Ratings being devolved from ACOS(PCap) centralised staff based in NCHQ (the Hub) to waterfront and Typed Air Stations ACOS(PCap) outstations - Career Management Cells - (the Spokes) for more effective and localised delivery of outputs. The Hub retains responsibility for delivery of all officer, Warrant Officer, Senior Rating (except HM) and smaller and specialist Junior Rating branches/sub branches career management.

2. Background

a. In Nov 06, the 'Hub and Spokes' concept received 3* endorsement as the best available model for Junior Rating and Other Rank (JR/OR) Career Management. The concept was taken forward by DNPers as a Fleet Transformation project. Detailed clarification of how the Hub and Spokes model would meet the requirement for JR/OR careers and employment was confirmed during subsequent Fleet Transformation events in Jun 07, Sep 07 and Dec 08. Waterfront Management Office (WMO)\(^1\) 2* ownership was resolved, and WMO Career Manager training and JPA technical issues completed in Oct 07, leading to the declaration of Initial Operating Capability (IOC) on 22 Oct 07. The WMOs were rebranded Career Management Cells (CMCs) in Oct 10 to reflect better their primary output.

\(^1\) The transfer of the existing Flotillas/TAS WMOs to DNPers Line Management was confirmed at IOC (declared 22 Oct 07).
b. There are currently five separate CMCs, each of which has a distinct identity related to the units associated with their geographical location and the nature of the legacy tasking from local Flotillas, Naval Base Commanders (NBC) and Typed Air Stations (TAS). The CMCs are a fully integrated part of the Navy Command manpower management structure; they are accountable for the Career Management of JRs and as such are fully ‘owned’, managed and responsible to ACOS(PCap) for their output.

c. The primary function of the CMCs is the Career Management of JRs either through routine assignment procedures on behalf on the NPTs or using the principle of maintaining manpower OC of units in conjunction with ACOS(PCap) PERS OPS. Nevertheless, the legacy arrangements with Flotillas, NBCs and TASs must continue to be maintained. The CMCs often have functional responsibilities to Flotillas/FGAs or Force Cdrs and respond to Command Pull accordingly. Whilst these arrangements work well they must be formalised such that each group is conscious of the boundaries of the other and of the functional relationship between them. The nature and detail of the legacy relationships with these organisations will be agreed and formalised in Service Level Agreements established between the then DNPerS and Flotillas, NBCs and TASs during 2010.

3. **Hub & Spokes Fundamentals**

   The founding principles of the Hub and Spokes model are:

   a. Junior Ratings’ DEPCOs, EWOs and Divisional Officers have local access to Career Managers.

   b. Individual JR have local access to Career Managers to discuss current and future assignments.

   c. **Regional employers of JR pull on the local CMC for provision of JR Manpower.**

   d. **The Career Managers in CMCs know which JR positions they are responsible for.**

   e. **Waterfront CMCs directly assign JR to/from all squadded and non-squadded GSP positions (except Hub owned JR, eg. PTIs).**

   f. **JR have local access to limited professional Career Advice as part of the CMC Career Management function.**

---

2 In this context CMCs are ultimately responsible to ACOS(PCap) for their output, however, in practice, accountability is exercised through CM SO1s, and PCAP OPS SO1.

3 A CIE in 2010 served to clarify the responsibilities of those organisations comprising the generic “Waterfront Manning Organisation”

4 For Career Management purposes, the Hub should be considered to be the offices of the Career Management Teams in West Battery, Portsmouth. Line management and the reporting structure for the CMCs is detailed at Appendix 1B-1

5 JR assigned to positions/locations which are remote from a CMC will have ‘phone/email access to Career Managers at their CMC.

6 JR assigned to positions/locations which are remote from a CMC will have ‘phone/email access to Career Managers at their CMC.

7 The resources necessary to support this function were reviewed in Sep 07 and determined to be 1 x CPO in each WMO, responsible directly to the WMO Warrant Officer. However, this role has been largely discontinued due to the need for increased staff resources in CMCs to manage higher priority augmentation requirements.
g. With assistance from Flotillas, TAS and Hub CMs, CMCs will co-ordinate the tactical/short term management requirements (e-OPDEFs, e-PERREQS, endorsed augmentation etc.) for Officers, WOs, SRs and JRs of units within their geographical/allocated sphere of responsibility.

4. Hub Responsibilities

a. The Hub will provide co-ordination, direction and guidance, including career management policy, arbitration, and personnel casework related to career management. Although the Hub must retain these responsibilities, the initial Single Point of Contact for all routine JR career management activities should be the Career Manager in the CMC. The following processes will remain the sole responsibility of the Hub but should be discussed and where appropriate co-ordinated with the CMC:

(1) Position creation and deletion.
(2) MEB recommendations.
(3) AB to LH substantive promotions.
(4) Extensions of Service (> 6 months).
(5) Withdrawal of Notice approval.
(6) FTRS approval.
(7) Branch Transfers.

b. The Hub provides career management co-ordination, sets operational policy and gives direction and guidance to career managers.

c. The careers and assignments of Senior Ratings, Warrant Officers and Officers are managed by West Battery CMs (except HM Senior Ratings, delegated to CMC(D).

d. West Battery Career Management retains responsibility for RM ORs and RN JR specialisations as specified at Appendix 1B-1 (with the exception of RM Chefs on amalgamation into the RN Logistics Branch in 2014).

e. The Hub based CM Coord and CM COS act as points of contact for pan-CMC issues and will engage pan-CM as required. For single branch issues, the CMC will continue to engage directly with West Battery which in turn will task CMCs with branch specific issues (in both cases the CM Coord/CM COS may not be involved).

5. Role of CMCs as the ‘Spokes’

The CMCs are the local Point of Contact for all aspects of JR career management, both for the employers and for individuals. They are the local focus for regional ‘Command Pull’ for JR manpower. They initiate, execute and co-ordinate career management activity at the tactical and operational levels, as follows:

a. Selection and assignment of JRs to the positions they control.
b. Assignment of JRIs to Career and Professional Courses including LH to POQCs (through consultation with Hub for POQC to consider operational constraints).

c. Arranging PJTs/TEMs for JRIs assigned to non-TMSS units via the ACOS(PCap) Course Booking Cell (CBC) based in MWS COLLINGWOOD, except CMCs(Air)\(^8\) and CMC(F)\(^9\) for FAST and SWS.

d. Non-substantive promotions to LH and substantive promotion AB2 to AB1.

e. e-PERREQ/e-OPDEF management in conjunction with PERS OPS, Hub Career managers, Flotillas and units and as directed by latest RNTMs.

f. Initiation by PSyA Disclosure Cell of DV\(^10\) and Disclosing and Barring Service (DBS) Clearance applications as required for ratings joining positions requiring relevant clearances.

g. JR Career Terminations for personnel allocated to them.

h. Nomination of Augmentees as directed by ACOS(PCAP) PLANS for endorsed requirements, including obtaining PSR statements from all employers (Flotilla, Battle Staff, other TLBs etc.), where appropriate.

i. JR/OR inter-Spoke Assignments (CMC to CMC).

j. Liaison with the local Recovery Cell to support the appropriate employment of JRIs whilst assigned to MA7 MTM, and are returned to the trained strength at the earliest opportunity\(^11\).

k. Collation of PFS and other Performance Indicators and submission of statistical reports as required by West Battery CMs, DACOS CM, ACOS(PCap) or higher authorities\(^12\).

l. Support to the Divisional System in their region as required by employers\(^13\).

m. Support to the Naval Personnel Families Service in their region as required by individual casework.

n. Optional limited Career Advisory interviews by CMC Senior Rates for JRIs to enable them to explore options for developing their career and prior to submitting Notice. The CMCs will also provide advice to Service-couples With Dependent Children (SWDC) including liaison with the counterpart RN career managers, or the Army/RAF equivalents responsible for the Service Spouse for whom they are responsible.

---

8 The two Air CMCs will arrange the TEM Packages for the FAA JRIs that they manage, prior to assignment to Front Line Positions.
9 CMC(F) only book TEMs for ratings being assigned from Shore to Sea and for MCM1 squad ratings.
10 DVA(Y) will alert NCHQ Disclosure Cell to the requirement for the lower-level Security Clearance (SC) reviews.
11 Detail subject to future Continuous Improvement development and events and different geographical arrangements.
12 As directed by the BM/CMs or, as is more likely, by the CM DACOS COORD SO2C.
13 By ACOS(PCap)’s agreement and subject to the SLA.
6. **Allocation of JR positions to CMCs**

JR positions are normally tied to a specific branch and specialisation\(^{14}\). Whilst West Battery CMs retain responsibility for RM ORs positions (except RM Chefs) and specified RN JR positions (see Appendix 1), all other JR positions are allocated to a nominated CMC according to the following principles:

a. Positions tied to General Service (GS) or Submarine Service (SM) Specialisations

   (1) GS/SM positions on the Establishment Lists of sea-going units (both squadded and non-squadded) are allocated to the CMC where the unit is base-ported\(^{15}\).

   (2) GS/SM shore positions in base port areas are generally allocated to the CMC in the vicinity of base port. However, some positions are allocated to other CMCs able to supply the required branch/specialisation. Therefore, JRs can be assigned to a different base port area for short periods up to and including normal assignment length without changing their Career Manager and may retain the same ‘CM Person Tag’. This may be necessary to meet the needs of the Service, the individual’s career development or their personal preferences. If it is anticipated that a JR will remain in the new base port area for more than a single assignment, then they will normally be assigned into a position belonging to the receiving CMC; in such cases, there would be a change of Career Manager, CM Position Tag and CM Person Tag.

   (3) GS positions in Naval Air Squadrons (NAS) and Air Stations are allocated *pro-rata* to CMCs D and P in order to supply ratings of the required specialisation.

   (4) GS/SM shore positions remote from Base Ports or Air Stations (including Local Foreign Service (LFS)) are allocated *pro-rata* to CMCs. All JRs have the opportunity to be assigned away from the port/station environment for short periods up to and including normal assignment length to meet the needs of the Service, career development requirements or personal preferences. JRs assigned to such positions may remain CM Person Tagged to the same Career Manager for the duration of the out-of-area assignment. Alternatively, upon agreement, they may fully transfer CM Position Tag and Person Tagged to the new positions Career Manager.

---

\(^{14}\) An increasing number of officer/WO positions are designated Common Assignment Positions (CAPPS), and are open to officers from more than 1 branch.

\(^{15}\) For Engineering, Logistics and Warfare (with the exception of Warfare HM positions, all of whom are allocated to CMC(D).
b. **Positions Tied to Fleet Air Arm (FAA) Specialisations**

   (1) The CMCs at RNAS Culdrose and RNAS Yeovilton are nominated as the lead-CMC for particular FAA specialisations (see Appendix 1). All of the positions for a particular FAA specialisation are allocated to the nominated lead CMC, including all FAA positions remote from Naval Air Stations. For example, Portsmouth CMC would not assign to a position requiring a FAA rating in Portsmouth Naval Base. This would be the responsibility of whichever air station CMC controls assignments for the particular specialisation.

   (2) Some LFS positions are tied to FAA. Depending upon specialisation, FAA ratings have the opportunity to be assigned to these overseas shore positions to meet the needs of the Service, career development or personal preferences.

7. **Shortages of JR Manpower**

   Inter-spoke communication and co-operation will be a key enabling mechanism in minimising the effects of short-term JR manpower shortages. PERS OPS will co-ordinate the resolution of shortages in the CMCs, in consultation with the Hub SO2 CMs. The transfer of ratings between CMCs will be primarily driven by Service requirements or rating’s preferences. Whilst there could be a tendency to retain ratings currently held within a spoke to protect local manning levels, it is vital that CMC Career Managers take into professional consideration to transfer ratings to another spoke with the view to achieving operational priorities, ratings’ preferences or balance complements across Flotillas or Establishments. Inter-spoke assignment between the CMCs is essential to ensure the following:

   a. Sufficient manning levels to priority units across Flotillas and in support of regeneration.

   b. Balanced geographical gapping and complement strength across Flotillas and Establishments.

   c. Ratings’ Base Port preferences are fulfilled where possible.

   d. Category 0 (zero) positions are maintained to required strength.

   e. Balanced professional and personal development opportunities for all ratings.

   f. Continuous back-to-back or extended assignments to non-preference area within the constraints of service and branch limitations/structure are avoided.

   g. SO2 CM Co-ord will be responsible for monitoring pan-branch trends and manning levels between CMCs and are the POC for establishments regarding this matter.
8. **The Recovery Cell Function**
   To ensure that maximum effect is achieved from available JR Manpower, close co-ordination by CMCs with CM and Recovery Cells in the Base Ports and Air Stations is required\(^\text{16}\), together with regular monitoring by CMCs of specific individuals assigned to Recovery Cells with regards to progressing availability for assignment into sea or shore positions.

9. **JR Retinue Assignments**
   CMCs will continue as CMs for Retinue positions, however, West Battery Logistics CMs will monitor, supervise and co-ordinate the selection process.

10. **Branch Requirements and Career Management Co-ordination**
    As the Single Point of Accountability for their branch, SO1 Branch Managers, under DACOS Branch Management, control the overall number of JRs on the trained strength and in the training pipeline. Branch Managers manage the sustainability of ratings' branches/specialisations and assist in the management of ‘Critical Manpower Groups’. Branch-specific CMs and BMs work closely together to provide whole-branch co-ordination of the JR ‘career management plots’ and provide direction and guidance to CMC career manager desks for their respective branches.

11. **Personnel Operations (PERS OPS)**
    Within the Naval Service Single TLB, Navy Command is by far the largest customer for JRs. Whilst CMs and BMs fulfil the Service-wide PPO function, PERS OPS provides a clear focus on the Navy Command and front line units as the priority customer for manpower. PERS OPS co-ordinates and manages the effect of ‘Operational Pinch Points’ and provides D&G to CMCs for short term manning requirements, both within and with less than normal assignment notice.

12. **CMC Organisation/Reporting Chain**
    a. The reporting line management of CMCs is a mixture of PERS OPS and TAS staff. Some routine business in the Waterfront CMC is related to resolving short-notice manning issues (short-term career management) which is exactly the remit of PERS OPS, the line management and certain staff reporting responsibilities lie with PERS OPS (see Appendix 2). In this respect the heads of the respective CMCs should consider themselves to be the local PERS OPS representative. However, PERS OPS does not have any responsibility for routine career management and the importance of the career management function for the CMC must be recognised in the line management chain. A summary of Line Management and 1 and 2RO responsibilities is at Appendix 2).

\(^{16}\) The Recovery Cell and Geographical Manpower Co-ordination function are subject to a future Continuous Improvement Event.
b. Notwithstanding the agreed definition of career management for JRs (and all other ranks/rates): “The Assignment of individuals in accordance with endorsed current and future Service requirements, exploiting skills, career development needs and, whenever possible, personal preferences, whilst providing advice on future career paths” 17, there are tasks associated with the co-ordination, supervision of JR plots and the associated assignment process that must be overseen by the Hub. The Hub must be proactive in promoting an inclusive relationship with the CMCs to ensure that the JR Career Managers are perceived as an integral part of the manpower management system and, most importantly, as part of the overall assurance of career management through the Officer, Warrant Officer, Senior Rating and Junior Rating continuum. A list of Hub responsibilities is at Appendix 4.

c. In order to optimise manpower deployment for the delivery of unit OC it is recognised that employers of JRs must provide clear and regular local guidance and prioritisation to CMCs, in order to facilitate local decision making and resolution of manning issues. Inter-CMC dialogue is pivotal; CMCs should only need to refer decisions to the Hub when confronted with issues that call for Navy Command or inter-TLB prioritisation.

13. PCAP OPS FWD SO2s

a. As lead manpower officers in Portsmouth and Devonport CMCs, PCAP OPS FWD SO2s are line-managed by ACOS(PCap) OPS. They work closely with their respective CMCs. In Faslane, the lead manpower officer is undertaken by PCAP-OPS SM SO2 who works in Navy Command HQ.

b. It is acknowledged that any future change of ‘ownership’ of the CMCs might result in a conflict of interest between legacy-local and potential-new wider tasking. Clearly the CMCs have an element of responsibility for understanding the overall manpower requirements of all employers of naval manpower in the respective geographical areas. This manpower customer community is considerably larger than the front-line commands in Portsmouth, Devonport and Faslane, although operational Fleet units will invariably be the highest priority manpower customers. In this respect, the PCAP OPS FWD SO2s and the WO1s (where they are heads of the CMC) must consider themselves as primarily responsible to ACOS(PCap), whilst acknowledging their responsibilities to Flotillas/FGAs, NBCs and the TAS. These secondary tasks have been agreed between ACOS(PCap), Flotillas, NBCs and the TAS and are recorded in respective Service Level Agreements.

17 Career Management definition as agreed at Sep 09 CIE and promulgated in DNPERS 20090922 Career Management CIE – output.
14. Governance

a. CMC governance is required to enable best practice by CMCs and will ensure regular, relevant and decisive dialogue on all manning issues affecting OC and to allow COMOPS and his subordinate commanders, COS(CAP), Hd NPS, ACOS(PCap) and DACOS CM to be presented with a comprehensive and common picture of manning issues. The arrangements for the governance of the CMCs are based upon the requirement for the CMCs to deliver short notice career management in conjunction with (and on behalf of) PERS OPS and longer term career management on behalf of the Hub.

b. Existing governance arrangements include daily dialogue and weekly VTC discussions between PERS OPS and the CMCs on the most pressing OC-related manning issues and procedural matters (short notice career management). These are backed up with regular visits by PERSOPS and CM staff to the CMCs.

c. The governance of longer term career management is achieved through regular and routine liaison between the CMC and West Battery on specific branch and specialisation matters. Regular visits by staff of all levels to each CMC are encouraged. CM policy and co-ordination (non-branch specific guidance) will be delivered by the CM DACOS COORD SO2C. Based in the Hub, with a pan-CM responsibility for CM co-ordination issues, CM DACOS COORD SO2C is functionally responsible to DACOS CM. As such, governance and oversight for CM issues will be provided by DACOS CM by virtue of being responsible for the CMC routine career management output and through regular visits and liaison.

d. The arrangements for collection of manning data in order to inform discussion between ACOS(PCap), Hd NPS and FGAs and front line commanders at the strategic level; and between PERS OPS/CMCs and the TAS/MOB, Flotilla and Battle Staffs at the operational and tactical levels, are detailed at Appendix 3.

Notes:

1. Except RM Chefs who are assigned by CMC Devonport since integration into RN Logs Branch in Apr 14.

2. The process for dealing with FTRS varies across CMCs. Further work is required to formalise the delegated tasks.

1. West Battery (WB) retains career management responsibility for Officers, WOs, SRs/NCOs (except HM CPOs and POs which is delegated to CMC(D)) and for certain cadres of JRs/ORs, mainly those sub-branches of a smaller size or with unusual deployment patterns, and including Royal Marine Other Ranks. Currently these JR/OR cadres are:

   a. WB Warfare CM: Aircrewman, Communications Technician, Diver, Naval Airman (Photographer), Physical Trainer, RN Police, and, since Mar 13, Naval Airman (Aircraft Controller) and Naval Airman (Aircraft Handler)

   b. WB Royal Marines CM: All Royal Marines Other Ranks (except RM Chefs since Apr 14 on amalgamation into RN Log Branch), RN Ratings attached to Special Forces (in liaison with source-branch)

   c. WB Engineering CM: Naval Airman (Survivalist Equipment), Lightning II Air Engineer Technicians

   d. WB Medical CM: Medical Assistant, Medical Technician, Naval Nurse, management and coordination of Retine Billets

   e. WB Reserve CM: All Full Time Reserve Service Ratings

2. Though the Fleet Medical Division retains the career management responsibility for Dental Hygienists and Dental Surgery Assistants, this is carried out by West Battery Medical CM.

APPENDIX 3 TO ANNEX 1B

STRATEGIC, OPERATIONAL AND TACTICAL GOVERNANCE OF THE JR AND OR MANPOWER PILLAR OF OC

1. Strategic Governance
   This will be ensured through routine dialogue between COMOPS, COS(CAP), ACNS(P), FOST and between ACOS(PCap), Hd NPS, Flotilla Cdrs/FGAs, Battle Staffs and TAS Cdrs. This dialogue will be supported by formal review of common data sets provided termly by CMCs (see Appendix 4 to Annex 1B). Ideally, this termly review will be linked to DCINC’s Termly Flotilla Cdrs’ Mtg and will cover:
   
   a. Strategic manning issues – Fleet and environment wide.
   b. Fleet Manpower Prioritisation and Future Programmes.
   c. Longer-term issues.

2. Operational Governance
   CMCs are under the line authority of SO1 MANOPS for the delivery of OC/tactical (e-OPDEF and e-PERREQ) outputs, and for day-to-day administrative aspects (including OJAR/SJAR reporting). For branch specific Career Management outputs, CMCs are functionally accountable to separate NPT CM SO1s, and for augmentation tasking/delivery to ACMP SO1. Governance will be further assured through formal processes, including:
   
   a. Termly
      
      (1) **CMC Steering Group.** CMC SO2/WO1s/SO2 CM/NPT Meetings (minuted). These should be arranged by each CMC WO1 and take place at West Battery or the CMC as convenient to the NPT SO1s’ programme.

      (a) D&G from SO2/NPT CM and BM SO1s.

      (b) Feedback from CMC WO1s.

      (2) **CMC Working Group.** ACOS(PCap)/ManOps-convened co-chaired by CNPers ManOps and a CM representative (from West Battery)

      (a) OC priorities, issues, trends and new operational requirements.

      (b) OC and pan-branch policy and process.

      (c) FGA and Scheduling perspectives.

      (d) Augmentation policy, processes and scheduling

      (e) MANOPS SO1 to visit all CMCs to collate best practice that will be issued by the CNPers CM Coord Team.
(f) CMC SO2s and/or WO1s invited to termly NPT 1* reviews.

(g) Visits to CMCs by all NPT CM SO1s and RCM SO2s, and DACOS CM COS

b. Monthly. Local CMC formal discussion with Flot/FGAs and TAS Cdrs, for Stats, trends, OPP, CMC and OPDEF data.

3. Tactical Level Governance

This will be ensured through formal and informal processes, accountable through MANOPS (OC delivery/tactical management of e-OPDEFs and e_PERREQs), NPTs (for Career Management outputs) and ACMP (for augmentation including Op Tours) as follows:

a. Responsibilities

(1) On a day-to-day basis, CMC Managers (SO2/WO1) are responsible for managing issues and optimising manning delivery based on (see Appendix 4 to Annex 1B):

   (a) Service need – OC delivery and tactical management of manning deficiencies (e-OPDEFs and e-PERREQs).

   (b) Meeting COMOPS Task priorities, FGA Force Generation plans and Fleet Manning Priorities.

   (c) Optimised Pipeline flow and pull through to Petty Officer

(2) MANOPS will lead a weekly VTC meeting covering:

   (a) OC and emergent related CM issues.

   (b) Weekly ManOps Rolling Issues brief to ACOS(PCap).

(3) Additionally, the following data, which is not exhaustive, should be compiled and monitored by CMCs and be available by request to NPTs as required:

   (a) Gapping and predicted gapping

   (b) VO rates

   (c) Medically downgraded (SOS, MND, MLD, including personnel assigned MA7 MTM)

   (d) Overbearings

   (e) Augmentation and Op Tour commitments
(f) Strength by specialisation and rate

(g) Churn/personal turbulence

(h) Personnel that are assigned to MA1, MA2, MA4, MA5, MA6, MA7 and MA10 MTMs
### APPENDIX 4 TO ANNEX 1B

**CMC FUNCTIONS, DEPENDENCIES AND RESPONSIBILITIES**

ANNEX 1C

DATA PROTECTION ACT 1998

1. Summary

a. The Data Protection Act 1998 (DPA98) is designed to protect an individual’s privacy and to safeguard them from any harm or embarrassment that could be caused by the loss or unauthorised disclosure of their personal data, and sets out both the responsibilities of organisations (Data Controllers) and the rights of individuals (Data Subjects) for the handling of personal data.

b. Individuals may suffer harm if personal data stored and processed about them is:
   - inaccurate, insufficient or out of date;
   - excessive or irrelevant;
   - kept for too long;
   - disclosed to those who ought not to have it;
   - used for inappropriate purposes; and
   - not stored securely.

c. Such harm can present itself in different ways. Sometimes it will be tangible and quantifiable, for example the loss of a job. At other times it will be less well defined. For example, damage to professional and/or personal relationships and social standing arising from illicit disclosure of personal data. There is also harm which goes beyond the immediate impact on individuals. The harm arising from improper use of personal data may, at least initially, be imperceptible or inconsequential to individuals, but cumulative and substantial in its impact on the Royal Navy and the MOD as a whole.

d. The Naval Service and the MOD are legally bound by the provisions of DPA98, and it is the personal responsibility of all Service and Civilian staff to store and process the personal data within their care in accordance with the eight DPA98 principles described below.

2. What is Personal Data?

a. DPA98 uses the term personal data to describe any information relating to a living individual (the Data Subject) who can be identified from that information in the possession of the Data Controller – in this case the Naval Service.
b. Some common examples of where personal data is to be found are:
   - Service and Civilian Personnel Files, Staff Performance Appraisals and Training Records;
   - Contact details;
   - Pay slips and pay and pension records;
   - Job applications;
   - Medical, Welfare and Equality & Diversity records;
   - Legal records and criminal investigations;
   - Disciplinary records; and
   - Security vetting records.

3. **DPA98 – A brief Guide**

a. In order to comply with the provisions of DPA98 the Naval Service must adhere to the eight Principles set out in the Act. In summary, these Principles are as follows:

b. Personal data shall be;
   
   (1) obtained and processed fairly and lawfully;
   
   (2) obtained and processed for a specific and lawful purpose;
   
   (3) adequate, relevant and not excessive for the purpose it is intended for;
   
   (4) accurate and kept up to date;
   
   (5) kept for no longer than is necessary;
   
   (6) processed in accordance with the individual’s rights;
   
   (7) kept safe from unauthorised access, accidental loss or destruction;
   
   (8) not transferred to a country outside the European Economic Area (EEA), unless that country has equivalent levels of protection for personal data.

c. DPA98 creates two categories of personal data known as ‘Sensitive Personal Data’ and ‘Protected Personal Data’.
(1) **Sensitive Personal Data.** This is personal data that might incite harassment, discrimination or persecution if released. It includes:

- Racial or Ethnic origin;
- Political opinions;
- Religious beliefs;
- Membership of Trades Unions;
- Physical or mental health or condition;
- Sexual life; and
- Allegations of or convictions for criminal offences.

The sensitive nature of this personal data is such that its unauthorised disclosure may cause particular harm or distress to individuals, and consequently, DPA98 stipulates additional processing criteria.

(2) **Protected Personal Data.** This is personal data that does not meet the narrow DPA98 definition of Sensitive personal data, but would cause particular damage and distress to individuals if it were lost, misused or inappropriately disclosed. For example, it may be used for fraudulent purposes such as identity theft. It includes:

- National Insurance numbers;
- Bank Account details;
- Credit Card details;
- Personal telephone numbers; and
- Dates of birth.

4. **Storing and Processing Personal Data**

a. All personnel must comply with the following rules and guidelines for storing personal data:

- Where computer shared areas (Team Sites) are used, personal data must be only be stored within areas that have appropriate access restrictions to limit access to authorised personnel only. Personal data must not be stored in unprotected shared areas that can potentially be accessed by unauthorised personnel;
- All computer files containing personal data must be password protected;
• Care should be taken when naming computer files containing personal data so that the nature and content of those files are not revealed by the file name. For example, a file named ‘Notes from John Smith Disciplinary Hearing’ may be appropriately filed so that unauthorised personnel cannot read its contents, but it could still cause harm to that individual if unauthorised personnel are able to view the title of the document;

• Within MOD it is a mandatory requirement that removable memory devices and laptop hard disks holding personal data must be encrypted;

• Users of laptops or other portable electronic devices which have full hard disk encryption installed must ensure that when the laptop is not in use, the laptop and any security token (such as BeCrypt) and password are kept separate so that in the event that either is lost or stolen, data on the laptop is not compromised;

• A laptop that does not have its hard disk encrypted must not be taken off MOD sites regardless of whether it contains personal data;

• The amount of personal data held on laptops and portable storage devices should be the minimum necessary to carry out the task;

• All personal data must be deleted from laptops and portable storage devices once it is no longer required;

• Personal data must not be sent over the internet unencrypted. In individual cases some personal data, provided it is at a level no higher than UNCLASSIFIED, may be sent over the internet to the data subject if the data subject has provided their explicit written consent;

• Personal data should not be viewed, whether on a laptop or in paper form, in a public place (for example on a train);

• Personal data should not be discussed where a third party may overhear the discussion. This applies to both public places and MOD sites; and

• The identity of people seeking access to personal data (whether about themselves or others) must be verified and their legal entitlement to receive such information established.

b. All personnel must observe the following rules and guidelines for processing personal data:

• **Processed fairly and lawfully.** Personnel should question why the personal data exists and what it is used for, and ask whether the data subject knows what the data is used for. Navy Command must have legal grounds for processing the personal data. Where there is neither implicit nor explicit consent from the Data Subject to do so, personnel should seek advice on whether they can lawfully process the data;
- **Obtained for a specific and lawful purpose.** Personnel should take care that they do not process personal data for a purpose for which it was not originally intended and should ensure that the data subjects have given their prior consent where the basis for processing that data has changed. For example, a list of addresses held for emergency recall purposes cannot also be used as a target list for advertising or mailing information;

- **Adequate, relevant and not excessive for the purpose it is intended for.** There must be just enough personal data upon which to base decisions to meet the purpose, and no more. Personnel should not collect additional personal data on the basis that it might be useful, and should ensure there is an appropriate business need for any processing of personal data;

- **Accurate and kept up to date.** Personnel should make sure that the personal data is accurate to begin with, and that there is a procedure in place, and utilised, for keeping personal data up to date. Periodic data cleansing should be carried out to ensure any errors are detected and rectified;

- **Kept for no longer than necessary.** Personnel should ensure that procedures are in place, and followed, for disposing of personal data promptly and routinely when there is no longer a business need to keep it;

- **Processed in accordance with the individual’s rights.** Personnel must not disclose personal data outside MOD unless there is a lawful reason to do so. Personnel should be aware that individuals have the right to see any personal data that is held on them and to have it corrected if necessary; and

- **Kept safe from unauthorised access, accidental loss or destruction.** Personnel should ensure that only the persons authorised to process the personal data have access to it, and that the personal data is sufficiently protected both physically and digitally with encryption and password protection.

5. **The consequences of breaching DPA98**

   a. The Information Commissioner’s Office (ICO) may serve an enforcement notice where it is satisfied that an organisation has failed (or is failing) to comply with any of the eight DPA98 Principles. An enforcement notice may require an organisation to take specified steps to comply with the Principle(s), or not to process any personal data, either at all, or for a specified purpose, or in a specified manner. Failure to comply with an enforcement notice is a criminal offence.

   b. The ICO has statutory powers to impose a financial penalty on an organisation if it is satisfied that there has been a serious breach of one or more of the DPA98 Principles, and the breach is/was likely to cause substantial damage or distress.
6. Subject Access Requests

a. A Subject Access Request (SAR) is a request by an individual for access to, or information about the personal data an organisation is storing and processing about them. Under DPA98 organisations are obliged to disclose personal data to the individual within 40 calendar days from receipt of a valid written request. Within the MOD, individuals submitting a SAR are encouraged to do so using MOD Form 1694 (see Fig 1C.1). Whilst the applicant can expect to receive the majority of information held about them, some exemptions to disclosure may apply. Exemptions that may be claimed are:

- Confidential references;
- Management forecasts;
- During negotiations with the data subject;
- To protect combat effectiveness of the Armed Forces;
- For Judicial, Crown and Ministerial appointments, honours or awards;
- Self incriminations in respect of a criminal offence; and
- Prior to the release of data such as exam results.

b. SARs should always be complied with at the lowest possible level, and a formal submission should not in most cases be either necessary or appropriate. For example, someone wishing to check the accuracy of their contact details should not need to complete a MOD Form 1694 to do so. However, in such cases the person granting access to the personal data must always ensure that the individual making the request is the data subject. This is particularly important when requests are made by telephone or email.

c. A degree of common sense is required when considering whether a SAR can be answered in full by the unit, or whether it needs to be referred to the FLEET Disclosure Cell (for Naval personnel), or RFA Pers Ops (for RFA personnel) or the PPPA (for Civilian personnel) for further investigation. Contact details for each of these are as follows:

<table>

7. **Where to seek further advice**

   a. In the first instance, all DPA98 queries and requests for advice should be referred to the unit Data Protection Officer (unit DPO) who acts as the focal point within the unit, either providing advice as required, or referring specialist and complex queries to the Command Data Protection Officer (NAVY SEC-2 CDPO).

   b. The websites below provide more detailed guidance and advice:

Data Protection Act 1998 - MOD Subject Access Request - MOD Form 1694

### Part 3 – Information Requested

State clearly the information you require, with dates where known e.g. my medical records while serving at HMS Centurion 1990-1993

Please provide as much information as possible to assist us in locating your data.

Continue using Part 6, if necessary.

---

Please enter the number of Continuation Sheets used:

---

The MoD will use the information provided to locate the data sought. Your request will be processed in accordance with Departmental personnel policies under the Data Protection Act 1998.

### Part 4 – Declaration by Requestor

**Verification of identity is required before your request can be processed:**

I enclose as verification of identity a photocopy of my [ ] Passport [ ] Driving Licence [ ] Utility Bill [ ] Other [ ]

I declare that, to the best of my knowledge, the information I have provided on this form is correct.

Signature:

Name in Capitals:

Date:

### Part 5 – MoD Use Only

**Actioned By:**

(Name in Capital)

Date Received: 

SAR Reference No.

Signature:

Date Responded:

ANNEX 1D

FREEDOM OF INFORMATION ACT 2000
AND ENVIRONMENTAL INFORMATION REGULATIONS 2004

SECTION 1 - INTRODUCTION

1. Summary

a. The Freedom of Information Act 2000 (FOIA) and Environmental Information Regulations 2004 (EIRs) came into force on 1 January 2005. They provide members of the public with a statutory right of access to information held by public authorities ranging from Government Departments, through Parliament, to Local Government.

b. The FOI Act confers a general (and world-wide) right of access by members of the public to information held by public authorities and requires a response in writing within 20 working days from the date when the request is received in the MOD. In any case where it is necessary to contact the applicant to clarify what information is being sought, the 20 working day deadline will commence from the date on which sufficient clarification is received. In handling requests, units must be mindful that the timeframe will be eroded where elements of the requested information are held in different areas of MOD, or if the Request for Information (RFI) is first received in a part of the MOD which does not lead on the subject and therefore needs to be transferred.

c. Whilst on duty, or acting in an official capacity and whether in the UK or deployed, any member of the Naval Service or civilian official, may in principle receive a RFI directly from the public.

d. RFIs may be in electronic or paper form, and may be posted, faxed or e-mailed, or indeed handed in at the gangway of a ship or the main gate of an establishment. If the RFI contains the applicant’s name, address (e-mail addresses are acceptable) and details of the information requested then, for the purposes of the Act, the MOD is in receipt of a valid request and the 20 day clock for a response has started. Consequently, speed of handling will be essential. Individuals receiving a RFI are legally responsible for ensuring this process is set in train. Accordingly, on no account is a RFI to be ignored or destroyed.

e. RFIs which request personal data about the applicant are subject to the Data Protection Act 1998 (DPA 98) and, as different processes apply, should continue to be handled in accordance with current guidelines as explained in the DPA part of this Annex.

f. Questions with an environmental aspect may come under the auspices of EIR and can (if necessary) be accepted verbally. However, applicants should be encouraged to contact directly the Navy Command HQ FOI Coordination Cell (referred to in this Annex and on the website as the Naval Service FOI Coordination Cell (NSFOICC), but the question should in any case be transcribed by the original recipient and forwarded to the Cell for immediate action as if it were an RFI.
2. Right to Information

a. Any person making a request for information to a public authority is entitled:

- To be informed in writing by the public authority whether it holds information of the description specified in the request; and
- To have that information communicated to them.

b. All recorded information falls within the scope of the Act not just that recorded within official files but also e-mails, notebooks, photographs, wallcharts, etc.

c. The Act provides a right to “information”, rather than documents or records. However, the most practical means of providing any information is likely to be in the form of copies of particular records or documents. Of course there are good reasons why some information cannot be made freely available to members of the public. The Act and Regulations recognise this but nonetheless require us to be as open as we can and to justify any refusal to share the information we hold.

d. The above does not apply if the information is covered by:

- An absolute exemption; or
- Public Interest Tested (PIT) exemption (qualified), and the public interest in maintaining the exemption outweighs the public interest in disclosing the information.

e. There are 23 exemptions in total. Some are absolute and include personal information, data relating to Special Forces and information which is already available through other means. The majority are, however, qualified exemptions which require a PIT and can apply to (for example) Defence, National Security and information intended to be published in the future.

f. Being the single authority for logging, tracking, collating and responding to RFIs in the Navy Command HQ, the NSFOICC is responsible for communicating directly with the applicant, tracking the progress of the RFI and agreeing the content of releasable information with information holders and Subject Matter Experts (SMEs). On receipt of an RFI, either directly from the applicant, via MOD Chief Information Office (CIO) or a receiving unit, the NSFOICC will identify the relevant FOI Focal Point or SME likely to “own” the requested information and will forward the RFI asking them to provide the data and also their views on its potential release. If the information is to be withheld, robust specific arguments must be provided.

g. Information cannot be withheld simply because disclosure will be embarrassing to MOD. The disclosure of information must cause real harm, not merely embarrassment.
h. There is no automatic exemption for classified information. If the information requested carries protective markings, it will be for the document owner to explain the sensitivities, to the satisfaction of the 1*. A protective marking on a document will not automatically exempt the information within it. All cases are dealt with on their merits.

i. If data is to be withheld, MOD policy requires that this decision be authorised at 1* level – Deputy Command Secretary (DCS) – and its justification under the Act be fully documented in case of an appeal by an applicant to the Information Commissioner.

j. If requests for information are refused under the permitted exemptions within the Act or Regulations, the requestor has recourse to a specified appeals process. This can eventually be heard by the Information Commissioner (who can be thought of as the independent ombudsman for FOI) whose decision is final and legally binding. Details of how to appeal are sent out with every response from the Cell.

3. **Key Principles in Responding to RFIs**

   Ensuring that the Department answers requests for information promptly is a shared responsibility.

   - Make sure that individuals within your unit know who is responsible for FOI/EIR.
   - Pass on without delay any request which is not your responsibility. The 20 day clock starts as soon as the request is received within the organisation;
   - Practise good records management as laid down in JSP 441 “Defence Records Management Manual”. This should ensure information can be quickly identified and retrieved. If you have to spend the 20 days just locating and retrieving the information requested, it won’t leave any time at all for consulting and deciding on the recommendations for its potential release/non-disclosure; and
   - Remember that the 20 working days limit begins as soon as a request is received by a public authority. Within this timescale a public authority must either provide the information or explain, as fully as possible, why it is not going to do so.

4. **Key Principles to Remember**

   a. Do not wilfully destroy or alter any original documents that are the subject of a RFI. Under the legislation this is a criminal offence for the individual official responsible (not the authority), carrying a potential fine of up to £5,000. Any document for destruction must be handled in accordance with your unit’s record management arrangements.

   b. Embarrassment is not a legitimate reason for refusing to disclose information.
5.  Contacts/Useful Links

a.  All FOI requests, queries and requests for advice should be referred to the NSFOICC which is located in Navy Command HQ. The Cell handles questions which fall within the Naval Service’s area of responsibility and acts as the point of entry and exit for such correspondence with the public. Their contact details are as follows:

   Postal Address:  Navy Command HQ, NSFOICC, Leach Building, Whale Island, Portsmouth, PO2 8BY
   Tel: 023 92 625190  Mil: 93832 5190
   Fax: 023 92 625279  Mil: 93832 5279
   Email: NAVYSEC-FOIMAILBOX@MOD.UK

6.  Data Protection

   Information on Data Protection, and a copy of the Subject Access Request (SAR) form is at Annex 1C.
1. **Purpose and Organisation**
   The Regional Legal Offices sit within the Commodore Naval Legal Service’s organisation and exist to deliver a consistent approach to the handling of personnel casework at higher authority level. RLOs provide advice to units on both disciplinary and non-disciplinary administrative sanctions. Contact details are at Para 5. Advice should be sought from the appropriate RLO or obtained from unit SLAs.

2. **Authority**
   The delegated authority for deciding administrative applications is set out at Annex 54A. When personnel casework is forwarded by a Commanding Officer to NCHQ as the higher authority it will be considered by an officer of a rank no lower than Capt RN (or equivalent) exercising the delegated powers of NavSec.

3. **Responsibilities**
   The Regional Legal Offices are responsible to NavSec for oversight and legal staffing of the following casework (all actions refer to Officers and Ratings/Other Ranks where they apply to both):
   
   a. Administrative Discharges (Shore and SNLR for Ratings and Other Ranks) (see Chapter 54).
   
   b. Application to remove or suspend an individual from their assignment, including Command Assignments (see Chapter 60).
   
   c. Applications for withholding of promotion or re-promotion following withholding of promotion (see Chapter 67).
   
   d. Applications for disrating or reversion or re-promotion following disrating or reversion (see Chapter 70).
   
   e. Applications for Censure (see Chapter 20 and BR 2).

4. **Administrative Applications (See Chapter 54, Chapter 57 and Chapter 60)**
   Where a CO wishes to take an administrative action in relation to an individual under their command, the guidance at Annex 54F should be followed. Where action cannot be approved locally, a written application should be made, by name, to NAVSEC/ACNS(Pers) c/o Regional Legal Office and, as a minimum, should contain the following:
   
   a. **Title.** The title is to indicate exactly what the Application is for and who it relates to eg. ‘APPLICATION FOR DISCHARGE SHORE TU(I)– ET(ME)1 J F SMITH, 30234567’
   
   b. **Introduction.** The introduction should detail the relevant policy references and articulate exactly what the CO is applying for, and on what basis.
c. **Background.** An outline history of the case should be provided including a brief summary of the individual’s service, any relevant matters such as periods of warnings, MPARs, significant failures in professional performance, and any administrative or unspent disciplinary action taken against the individual.

d. **Considerations.** The CO should outline their thought process and explain to the Deciding Officer why the application is considered appropriate, and (where relevant) why they have discounted other possible courses of action. This should include a discussion of why the CO thinks the case fits within the relevant policy, or why that policy should be departed from. It is not possible to cover every eventuality, but the published policy provides helpful guidance which should be used to articulate the reasons why the CO believes he is applying for the most suitable measure.

e. **Representation.** Individuals who are the subject of applications must be given full disclosure. This means that subjects should be given a hard copy of the draft application letter and ALL supporting evidence or enclosures, including the policy references, but not including legal advice. The CO must ensure that the individual is afforded the services of an Assisting Officer and given at least 24 hours to decide whether to make a representation against the application. Should the individual decide to make representation, they should be given at least a further 48 hours to prepare that representation or such longer time as is reasonable in the circumstances. Where a representation is submitted, the CO must take this into account before finalising the application to the RLO, acknowledging this formally in the application letter. Those who choose to not make a representation must sign a waiver to this effect (an example is at Annex 54J) and this must accompany the application. There may be exceptional circumstances where this is not possible; these circumstances should be discussed with the RLO and must be explained in the application letter.

f. **Recommendation.** The CO should conclude the application by summarising why and on what basis the application is being made.

g. **Enclosures.** An application for most forms of administrative action must be accompanied by a copy of a Special (SPEC) SJAR/OJAR, a signed Representation or Waiver of the Right to make Representation (an example is at Annex 54J), and any relevant evidence such as warning proformas, unspent disciplinary records or police investigations (a guide is at Annex 54E). Signed copies are required, although a scanned signed copy can be used in order to expedite the process. All enclosures must be disclosed to the individual prior to application being made.
5. **Contact Details**

0201. Introduction
The purpose of this Part of BRd 3(1) - Establishment Administration - is to give guidance and direction for maintaining and making changes to JPA Establishments (Ship, Unit or other Organisation) containing Naval Service manpower.

Note. For simplicity a ship, unit or other organisation will hereafter be referred to as a (JPA) Unit.

0202. Governance

a. Authority

(1) Establishments within the Ministry of Defence are authorised by the Permanent Under Secretary (PUS) who has delegated some complementing powers and responsibilities to the Principal Personnel Officers (PPOs) of the single Services. The RN Establishment Team, under 2SL as the PPO, has the responsibility for maintaining and implementing endorsed changes to all Naval Service positions within the JPA Establishment. Delegation by the PPO allows the Establishment Team to create positions up to and including OF5 (Capt RN).

(2) Proposals to create new Positions at 1* Level or above that are in addition to the current TLB’s Senior Officer liability ceiling must be submitted to HRD Head of HR Strategy who will seek PUS approval for the PPO to create the Position.

(3) The policy and procedures here are only intended to apply to Naval Service Positions within Navy Command and TLBs that employ RN personnel. Army and RAF Positions in Naval Service Organisations are administered by the owning Service and not by Naval Service Establishments staff.

b. Organisation

(1) Senior Posts. The PPO Organisation is at Chapter 1 Para 0102.
(2) **Strategic Manpower Planning.** The lead for strategic manpower planning for the Naval Service lies in the ACOS(PCap) PPLAN area. In conjunction with Fin Mil Cap (FMC), sustainable plans are made to ensure that the right quantities and types of Naval manpower are available to meet the authorised demand (Liability) - referred to by FMC as Workforce Requirement. This long term planning is covered in detail in Chapter 3.

(3) **Augmentation Crisis Manpower Planning.** PCap Plans is the ACOS(PCap) empowered authority for dealing with all Naval Service augmentation requirements. Some of the augmentation demands for Naval personnel will be authorised through the Defence Augmentation Cell (DAC) and are known as Above the Line (ATL) augmentation; others will be internal to the Naval Service as part of the single Service force generation process and are known as Below the Line (BTL) augmentation. Crisis Augmentation and Donor Positions are explained further below and in Chapter 59.

(4) **Branch Managers (BM).** Information on Branch Management is in Chapter 62. BMs take a long term view in order to manage each Branch. They aim to enable the Branch to remain sustainable, both to ensure that manpower can be grown to meet demand and to ensure that individuals within the Branch have a coherent career structure. The BM (in liaison with Career Managers) has input to the acceptability (or not) of proposed changes to Establishments.

(5) **Career Managers (CM).** Information on Career Management is in Chapters 58 to 61. The roles of the CM include assigning personnel to meet current customer demand (as reflected in a unit’s Establishment) and also managing individual careers.

(6) **Naval Service Establishments Team.** The Establishments Team makes all authorised changes to Naval Service Positions (with the exception that PJHQ is authorised to make changes to ATL non-Liability-driving Augmentation Positions) and processes all customer change requests that seek changes to the Establishment. The Establishments Team Webpage on the Defence Intranet provides information on the Establishment Team, points of contact and details on ‘How to make an Establishment Change’.

(7) **Unit Establishment Administrator (UEA).** The UEA has a key role in managing the Position Hierarchies for a Unit. This role is explained further in Para 0203 sub para d covering JPA Organisations – Hierarchies and Workflows.

(8) **Liability Change Committee.** Each 2* area has an established Liability Change Committee (LCC). The purpose of the LCC is to take 2* ownership and make Capability led manpower changes. They are to determine short-term needs and develop longer term requirements. They will operate within allocated resources and choose Compensating Reductions when directed. If a sponsor wishes to make a Major Change (Para 0204 sub para c), the LCC should be made aware and kept informed.
0203. JPA Establishments

a. Composition of a JPA Establishment. An Establishment is comprised of a number of (JPA) Organisations and (JPA) Positions as illustrated below:

Figure 2-1. An Establishment Comprising of Organisations and Positions

Notes:
1. It is common for the command Organisation to have the same title as the overall Unit.
2. Each Organisation can have only one UIN, but more than one Organisation can share a common UIN.
3. The figure shows only a few of the Organisations and Positions that make up a Unit.

b. JPA Positions

(1) Entitlement. JPA is the single authorised data source showing an entitlement to Naval Service manpower and it is the Position data within JPA that shows each Unit’s entitlement for manpower. For those Positions that count towards Liability, the entitlement is continuous while the Position remains valid (if a position counts towards Liability then it is taken into account for recruiting, training and promotion targets. A baseline liability is agreed for each of the Services against which Manning Balance and the Public Sector Agreement (manpower ceiling) are measured). For those that do not count towards Liability, the entitlement is active only for a specified purpose and period of time. It should be noted that, although there is an entitlement to specify manpower requirements, if there are any constraints on the supply of manpower then some posts will be Gapped (common constraints are: personnel being unavailable due to illness; being temporarily employed on an operational Augmentation task; or general manpower shortage).
(2) **Enduring Position.** Enduring Position is the standard Position type. It represents a funded and enduring (permanent) demand for manpower of the type specified.

(3) **End Dated Position.** End Dated Position represents an authorised demand for manpower up until the date it is ended. Any requests to extend this type of post will be treated as a request for a new Position and will follow the change request rules. This rule applies as funding assumptions will not extend past the end date and Personnel Planners and Branch Managers have planned on the basis of not having to provide that manpower past the end date. To continue to provide the manpower could be at the expense of gapping an authorised Position elsewhere.

(4) **Temporary Position.** A Temporary Position is created to meet a specific short term high priority demand for manpower. It is created for a finite period of time between 3 months and one full assignment. Temporary positions do not count towards liability and, as a consequence, do not drive recruiting and promotion targets. They can usually only be filled by gapping a liability driving post elsewhere, which is clearly undesirable.

(5) **Rotational Position.** A Rotational Position is filled in turn by either 2 or all 3 Services with the Positions counting ½ towards Liability in the bi-rotational case and \( \frac{1}{3} \) where each Service is involved. Rotational Positions exist in Joint organisations and they represent an authorised demand for Naval manpower for the rotation that the Naval Service has agreed to fill the post. They can also exist in multinational organisations such as NATO and the rotation may be shared with more than one nation.

(6) **Competition Position.** A Competition Position does not belong to any particular Service and candidates ‘compete’ for selection. As with Rotational Positions, they predominantly exist in Joint organisations and follow the rotational rules for Liability attribution. They represent an authorised demand for Naval manpower for the period that the Naval Service agrees to fill the post as part of the “competition”.

(7) **Exchange Position.** There may be exchanges with other nations or other Services. Exchange Positions are normally paired with one in each nation or Service, and only the ‘exchange in’ post from each pair counts towards Liability.

(8) **Crisis Augmentation and Donor Positions.** Crisis Augmentation Positions are only activated for a specific period and for a specific reason ie. a ‘crisis’. Donor Positions are Enduring Positions that have been identified in advance as being suitable for providing personnel to fill the activated Crisis Positions. Some of these Donor Positions are designated as Dual Positions and in this case the incumbent is linked to a specific Crisis Position. As with all augmentation issues, the ACMP staff has the lead. Mobilisation policy is covered in JSP753; Naval Force Generation, Augmentation and Crisis Management are expanded upon in Chapter 59.
(9) **Manning & Training Margin (MTM) and Untrained Strength (UTS) Pool Positions.** Within JPA there are a large number of MTM and UTS pool Positions that are used for assigning personnel who are temporarily unavailable for normal duties (common reasons for assignment to the MTM are that the individual is Medically Downgraded, on a training course or on Post Operational Leave). The PPO policy on MTM and UTS Positions is to strike a balance between having sufficient to support customer business needs without Establishment administration becoming unwieldy; thus the Establishment team will authorise the minimum necessary. Illustrative structures for margin activity organisations and positions are at Annex 2A. A more detailed explanation of MTM Positions and how they are managed is at Part 3 Annex 3B.

(10) **Compensating Reduction.** A Compensating Reduction (CR) is an enduring Position that is offered for deletion in order to create a new enduring Position within a TLB. The CR offered by the employing TLB, or agreed to be transferred from another TLB, will be deleted when the new Position is created such that liability within the TLB remains in balance. CRs are to be offered at the same rank/rate and specialisation as that required for the new Position; the use of CRs of differing rank/rate and specialisation may be considered if TLB funding and Branch structural sustainability allows.

(11) **Liability Substitution.** A Liability Substitution (LS) is an enduring Position that is formally gapped within the employing TLB’s Establishment in order to create a Temporary Position of between 3 months and one full assignment. An LS underpins the structural sustainability of the supplying Branch and ensures liability within the TLB remains in balance.

(12) **JPA Supplementary Positions.** With increases in Gains to Trained strength (GTS), there is an enlarged requirement for additional Non Liability Driving (NLD) positions within seagoing units and air stations for the sole purpose of pulling through SQEP. The introduction of SUPP positions is a direct replacement for the legacy Overborne Strength (OBS) and the policy detailed within Annex 2E will assist Branch Managers in delivering sustainable Branch structures. In addition, the policy clearly articulates the purpose of the SUPP position and provides CMs and Unit staff with clear instructions to deliver the pull through of personnel.

c. **JPA Positions and Organisations.** JPA Positions are tagged with the Position Category (sometimes referred to as Role) in which they are to be filled. A Position may have multiple categories and for a Position to be active it must have a category that matches the current status of its parent Organisation and have a valid EIT status. The Organisation will only ever have one status active at any time (eg. a ship under construction (Manned) will be in the ‘Z’ Role) and this will determine which of the positions within that Organisation require filling. Position Categories used by the Naval Service are shown at Annex 2B.
d. **JPA Organisations – Hierarchies and Workflows.** When creating a JPA organisation for the first time, or moving a JPA organisation, the following JPA functions need to be set up:

1. **Command and Administration Hierarchies.** The Command Hierarchy shows where a JPA organisation features in the chain of command, whereas the Administration Hierarchy facilitates a number of administration support functions for a unit’s personnel. The Command and Administration Hierarchies are set up by the Establishment Administrator. These Hierarchies are explained in more detail at Annex 2C.

2. **Organisation Workflow Responsibilities.** These are essential to the administrative functioning of an organisation and should be set up by the UEA. Organisation workflows include those for the Unit Personnel Office (UPO), the medical facility, the UEA and the Commanding Officer. The latter workflow facilitates the organisation’s appraisal process.

3. **Position Hierarchy.** This enables the movement of workflows between staff and their line managers for functions eg. leave requests (Junior Rates only), job preferences and personal objectives (the latter two being critical parts of the appraisal process). The Position Hierarchy is set up solely by the UEA (although the Establishment Administrator can also do this), using data drawn from the Position Occupancy Report and Unit Position List for the organisation. Both these reports can be run by the UEA.

### 0204. Policy

a. **The existence of a Position in an Establishment is the Naval authority for the provision of that manpower.** Although employers have a major input in determining the demand for different types of manpower, these demands need to be reconciled with a number of factors which impinge on the overall structural sustainability of the Naval Service. These factors include funding, structural impact, Liability control, timing, and the need to meet the planned augmentation and force generation requirement. The PPO will apply the following tests before authorising an Establishment change.

b. **PPO Tests.** When considering changes to the Establishment, the PPO examines four key criteria prior to creating or making amendments to the JPA Establishment. All TLBs should be aware that the four tests outlined below must be passed prior to the creation of temporary positions or changes to permanent liability within JPA. If the requirement is urgent then the process will be applied quickly but a failure either to obtain the necessary approval or apply the tests will result in rejection by the PPO and incur a delay:

1. **Funding.** Demands for NS manpower must be financially supported and, when requests are made to increase the requirement for Naval manpower, evidence of budgetary provision, approved by RP, must be given.
(2) **Structural Impact.** The PPO must ensure that proposed Establishment changes do not place unmanageable stress on branch structures and that the affected specialisations remain controlled and sustainable. This is effected through the carding process where Branch Managers, in consultation with Career Managers, should consider the following factors with regards to Structural Impact:

(a) **Sustainability.** A sustainable Branch will normally have a broad base at the junior level and this will narrow at each higher rank. An unsustainable Branch does not allow the PPO to grow sufficient quantities of the required manpower at each level and it will not offer an acceptable career for those personnel within the Branch.

(b) **Harmony.** One of the PPO Personnel Functional Standards (PFS) relates to maintaining individual harmony. Some Organisations require a large amount of separation from home while others do not:

i. **SEA Organisations.** Service in an Organisation such as a ship or other front line unit is recognised as requiring a great deal of duty away from home. These Organisations are classified in JPA as SEA.

ii. **SHORE Organisation.** Service in an Organisation such as the Navy Command HQ or a training establishment is recognised as having a relatively stable work/life balance. These Organisations are classified in JPA as SHORE.

iii. **Local Foreign Service (LFS).** Service in an Organisation permanently based overseas is classified in JPA as either SEA or LFS. If it meets the SEA criteria it is marked as SEA and if it does not it is marked as LFS.

iv. **Assessment.** When assessing PFS, Branch Managers take account of the balance between SEA Positions and the combination of SHORE and LFS Positions.

(c) **Planned Augmentation.** Planned Augmentation reflects a known requirement for augmentees during times of crisis. This requirement is reflected in augmentation manning lists and as 'M Role’ Positions in Establishments with Naval manpower. The PPO has a remit to maintain sufficient Donor Positions to meet this crisis demand for manpower and any requests for change need to be considered against the Planned Augmentation situation. Augmentation issues affecting Establishment Administration are discussed in more detail at Annex 2D.
(3) **Liability Control.** The PPO has a manning ceiling, authorised annually by the Defence Board, covering the total liability for Naval Service manpower. To remain within the agreed liability, the PPO must be provided with a CR to offset the creation of new posts or a LS to stand up temporary posts. Further detail on the use of a CR or LS is given at Annex 2E.

(4) **Timing.** CMs have the right to apply a rule whereby an employer may have to wait up to 12 months to have a JPA position filled or vacated. This ensures that short notice assignments do not cause excessive churn, disrupt unit plans or personal conditions of service. The Service may also need time to grow/reduce personnel within a specified category. To ensure that expectations for the change are realistic, it is strongly advised that agreement is reached with the relevant CM before a request for JPA action is submitted.

c. **Changes to Establishments**

(1) This section outlines the general principles associated with requesting an Establishment change. Deleting a post is also an Establishment change that must be subject to the change request process and cannot be actioned without PPO approval. Supplementary information on the detailed Establishment amendment process is given at Annex 2E.

(2) **Minor Change.** For simple amendments that do not alter Liability or funding do not require full staffing; an EAF outlining the requested change will suffice. Examples in this category are changing a Position name, organisation/location, competencies or supporting remarks.

(3) **Major Change.** All requests for Major in year change should follow the procedures and process currently laid down in RNTM 01-033/18 Achieving Manpower Change – The Manpower Change Gateway and RNTM 01-034/18 Re-Invigoration Of Liability Change Committees.

(4) **Changes Agreed at Higher Defence Level.** Some manpower changes are agreed at a higher level in Defence (eg. Defence Board) and are often associated with setting up or enhancing an existing Joint capability. These changes often involve a change in the authorised Naval Service Liability and to the centrally agreed funding for manpower. A modified version of the PPO tests applies, and this procedure is not detailed any further in this publication.

d. **Ships and Submarines.** There are very specific procedures associated with the Establishment for a ship or submarine. These procedures are explained in detail at Annex 2F.

1. Introduction
Within JPA, each Organisation will be allocated a Status according to its programme. Each position may have one or more Categories. The Organisation Status must match one of the Position Categories for the Position Status EIT to be valid.

a. Positions that are usually dormant but may be required in Crisis are designated as Planned Augmentation positions (M Category when inactive).

b. Ships' and Submarines' Status will change according to their programme.

c. Front Line Air Squadron and Flight Establishments will operate totally within the B Status, irrespective of changes in numbers of airframes or of multiple manning which would be enacted by Establishment changes.

d. RM units will use the same Status options as defined for Front Line Air and Shore Service units.

2. **Updating Ship/Submarine Roles in JPA**

   a. **In Build.** The Establishment Team will set the Organisation Status to change from N (Unmanned) to Z (Under construction (Manned)), and subsequently to B (Basic) as advised by the DE&S Project Team.

   b. **In Upkeep.**

      (1) For Ships/SMs approaching an Upkeep Period, the Establishment Team will normally set the N Status to commence at the Upkeep Period Start Date (UPSD), and the B Status Date to re-commence at Fleet Date (as advised by Navy Command Upkeep Support - NAVY SSM-SS E SUPPORT SO2).

      (2) Once the Ship/SM's Upkeep Schedule is known, any required changes to On Stream Lead Times (OSLTs), in order to safely meet the prescribed SARC process and equipment STW prior to SSMOB date should be forwarded by the Unit to Navy RP for approval before being actioned on JPA by the Establishment Team.

   c. A typical manning profile for a Ship in refit is illustrated in the figure below:

   ![Figure 2B-1. Typical Ship Upkeep Manning Profile](image)

   d. For Ships approaching a Docking Period or Contractor Support Period (CSP), the Establishment Team will normally keep the B Status set throughout Non-Fleet Time or the CSP.

3. **Final Non-Operational Date**

   The Establishment Team will set the Organisational Status to change to N (Unmanned) on the Final Non-Operational Date as detailed in the Navy Plan.
ANNEX 2C

JPA ORGANISATIONAL HIERARCHIES

1. Introduction
   Each JPA organisation has a Command Hierarchy and an Administration Hierarchy which need to be set up by the Establishment team when a JPA organisation is created. These Hierarchies, which are explained below, need to be agreed with the unit.

2. Command Hierarchy
   The Command Hierarchy indicates where an organisation sits within the chain of command for a unit and the wider navy. The Unit Establishment Administrator (UEA) can use the Command Hierarchy (as well as the administrative Hierarchy) to run Unit Position List (UPL) reports for Units and their subordinate Organisations (see also Para 4). Business Process Guides are available on JPA to carry out this UPL function. For all other JPA users, the Command Hierarchy does not link to any other JPA activities, which includes SJAR/OJAR functions and Workflow. An example of a Command Hierarchy is shown below:

   Figure 2C.-1. Command Hierarchy Linking JPA Organisations in MWS Collingwood

   ![Command Hierarchy Diagram]

   Notes:
   1. The Command Hierarchy is not limited by location or Service, but is a representation of the chain of command for a unit. For example, the MWS Command Hierarchy includes subordinate organisations such as DEFENCE DIVING SCHOOL (AE) ARMY DIVER TRAINING UNIT and DIVING STANDARDS ORG that are located at Whale Island, not the COLLINGWOOD site.
   2. The JPA organisation DEFENCE DIVING SCHOOL (AE) ARMY DIVER TRAINING UNIT is part of a joint RN/Army unit that is part of MWS.
3. Administration Hierarchy

The Administration Hierarchy determines which unit administers a JPA Organisation in terms of UPO and medical services. This Hierarchy enables a UPO or Sickbay to see the records of those personnel within their charge. In JPA terms, the UPO or Sickbay needs to be in a JPA Organisation that is at the top of the Administration Hierarchy of the group of Organisations within their charge. The UPO or Sickbay can then see the JPA Positions and incumbents in their subordinate Organisations. The other necessary JPA component that works with the Administration Hierarchy to enable administrative support is the Organisation workflow. An example of an Administration Hierarchy is below (note that the details contained may not be up to date):

![Figure 2C-2. Administration Hierarchy Example](image)

**Note.** HMS EXCELLENT – FTL contains the UPO. This Hierarchy enables the pay staff to 'see' the JPA accounts of the personnel assigned to the subordinate organisations. As there are many organisations supported by Whale Island, this amounts to 150 subordinate organisations.

4. Unit Position Lists (UPL)

The Administration Hierarchy can be used by the UEA, as well as EAs, to run UPL reports of Organisations and their subordinates. This Administration Hierarchy enables, for example, the UEA of COMUKAMPHIBFOR to run a UPL for the whole COMUKAMPHIBFOR unit, including its 4 Subordinate Organisations (Business Process Guides are available on JPA for this function). The filter 'Command Hierarchy' can also be used in this way and can also be used to view subordinate organisations from a Command rather than Administration perspective.
ANNEX 2D

PLANNED AUGMENTATION AND ESTABLISHMENT ADMINISTRATION

1. Introduction

a. Planned Augmentation is part of the force generation process and is a procedure whereby units identify in advance the augmentation they will require to bring them to endorsed operational levels of manning. The Planned Augmentation requirement is not based on a specific scenario but it assumes that there is an overriding need to activate quickly all available front line units.

b. The additional augmentation posts are labelled on a JPA Establishment as M Category Positions and when activated they are additional to the Positions held on a unit’s peacetime Establishment. The summation of the M Category Positions in all units represents the overall Naval manpower Planned Augmentation requirement and it is specified by rank/rate and Specialisation. Donor Positions are earmarked to fill this known M Category requirement. These Donor Positions are mostly in shore units and they are identified and endorsed in advance as being posts that can be gapped during a crisis. They are identified in a JPA Establishment as P Positions.

c. Managing the force generation requirement for crisis M Category receiver Positions and developing the associated Donor Positions is the responsibility of PCap PLANS, with the administrative JPA action carried out by the the Establishments Team. To meet this task each request for an Establishment change has to be viewed against the impact it will have on the ability to meet the Planned Augmentation manpower requirement.

2. Position Categories and Planned Augmentation

The most common Position Categories having a bearing on Planned Augmentation are shown in the table below:

<table>
<thead>
<tr>
<th>Position Category</th>
<th>Meaning</th>
<th>Comment</th>
</tr>
</thead>
<tbody>
<tr>
<td>P</td>
<td>SHORE Position required in peace but not crisis.</td>
<td>These are Donor Positions for Planned Augmentation.</td>
</tr>
<tr>
<td>PO</td>
<td>SHORE Position required in Peace and in Crisis.</td>
<td>Incumbents are not earmarked as Planned Augmentation donors.</td>
</tr>
<tr>
<td>BO</td>
<td>SEA Position required in Peace and in Crisis.</td>
<td>Used for ships and front line RM and aviation units. Also used for temporary crisis Augmentation eg. Operations TELIC &amp; HERRICK.</td>
</tr>
<tr>
<td>M</td>
<td>Crisis Position inactive during Peace but activated during Crisis.</td>
<td>Used for enduring crisis Augmentation that requires widespread activation of FLEET operational units.</td>
</tr>
</tbody>
</table>
3. **Donor Positions**

Incumbents of P Positions are at 30 days Notice to Move (NTM) for Planned Augmentation purposes. Some of the P Positions are further annotated as being either an ‘A Donor’ or ‘Dual Donor’.

a. **A Donors**. Incumbents of a P Position that is also tagged as an A Donor are at 20 days NTM. These Positions have been matched against the known M Category requirement by rank and Specialisation. The aim is to maintain A Donors at 120% of the M Category requirement but this is not possible in all cases and some ranks and Specialisations may have a shortfall. When M Category Positions are activated, the A Donors are sent to any M Category Position for which they have the necessary rank and Specialisation.

b. **Dual Donors**. Positions marked as Dual Donor are matched to a specific M Category Position. When a specific M Category Position is activated, the intention is to fill it with the Dual Donor incumbent. Personnel in Dual Donor Positions have a training liability in preparation for their M Category commitment and are at 10 days NTM.

4. **Establishment Changes and Planned Augmentation**

Requests for Establishment changes that impact on the M Category requirement or the pool of Donor Positions are subject to extra checks before the change can be approved. These checks are conducted in consultation with PCap PLANS staff and seek to keep the pool of Donor Positions in balance with the M Category Augmentation requirement.

a. **Deleting a P Donor Position**. If a P Donor Position has not also been designated as an A Donor then it means the donor pool for that rank and Specialisation should be in surplus. Once that situation has been confirmed then there is no Planned Augmentation barrier to the Position being deleted.

b. **Deleting an A Donor Position**. To offset the proposed deletion of an A Donor Position, a replacement P Position will be sought that can be converted to an A Donor. The P Position must be of the same rank and Specialisation and once it has been changed to an A Donor the proposed deletion may take place. If no P Position is available, then the same effect may be achieved by negotiating the deletion of an M Category Position of the same rank and Specialisation. Should both these events not be possible then the relevant NPT leader will be asked to adjudicate. The deletion proposal will either be rejected or will be allowed to proceed with the acceptance that the donor pool for that rank and Specialisation is below the required level.

c. **Creating a new M Donor Position**. If PCap Plans staff confirm there is a genuine new Planned Augmentation requirement then a search will be made for a suitable donor. If a Donor Position is found, or if a less deserving M Category Position of the same rank and Specialisation can be negotiated for deletion, then the new M Category Position can be created. If these events are not possible then the relevant NPT leader will be asked to adjudicate. The deletion proposal will either be rejected or be allowed to proceed with the acceptance that the donor pool is in deficit.
d. **Deleting a Dual Donor Position.** A Dual Donor Position must be replaced before it can be deleted. The creation of a new Donor Position requires careful negotiation and in the first instance the TLB wishing to delete the Dual Donor will be asked to find its replacement. Should it not be possible to find a replacement from any TLB, then the deletion proposal will be rejected.

e. **Creating a New M Donor Position with Dual Donor Linkage.** Once PCAP Plans staff confirm the requirement for a new M Category Position linked to a specific Dual Donor Position then negotiations will take place to find a suitable Dual Donor. If a Dual Donor is found, then the new M Category Position will be created; if one cannot be found then the new M Category Position will be rejected or will be created without Dual Donor Linkage.
ANNEX 2E

DETAILED ESTABLISHMENT AMENDMENT PROCESS

1. Introduction

The use of JPA across all 3 Services provides a standardised manage establishment process for creating and making changes to service Positions and organisations. Under current agreement, each Service will amend its own Positions within JPA. All proposed RN manpower related changes to JPA Establishment Organisations and Positions are to be raised by or through the relevant TLB Manpower Coordinator. They are to be submitted using the Establishment Amendment Form (EAF) and forwarded by e-mail to the relevant Establishments staff (see Annex 2B for points of contact). The latest version of the EAF can be found in the JPA home page – JPA Forms.

2. Establishment Amendment Background

Outside of the Annual Budgetary Cycle (ABC), it is the responsibility of employing TLBs to manage their manpower requirements and for the PPO to implement the changes when the 4 fundamental tests have been met. As the Naval Service possesses a finite resource, all Establishment changes requested by TLBs must be realistic in terms of anticipating the availability of personnel in terms of rank, rate and specialisation. When processing EAFs, the PPO needs to consider, via the carding process, the collective effect on the Naval Service which may lead to increased churn, higher VO rates and excessive gapping all of which undermine our ability to deliver a sustained supply of manpower. Therefore, all requests to create new permanent liability or temporary positions must be carefully managed.

3. TLBs are to be aware that the following Establishment policy exists for the creation of Permanent or Temporary Positions:

   a. Permanent Positions. The creation of permanent liability within the Establishment will only be authorised when:

      (1) An ABC enhancement Choice or Option is issued to authorise uplift in liability.

      (2) The TLB provides a suitable Compensating Reduction (CR) of the same rank/rate and specialisation in order to create the new position.

      Note. It is the responsibility of the employing TLB to identify the CR which will be used to create the new requirement. Proposals to create permanent liability positions without a valid CR or endorsed ABC uplift will not be authorised and sponsors should engage with 2* Liability Change Committee points of contact in accordance with RNTM 01-034/18.
b. **Temporary Positions.** Temporary Positions are posts created for a specific purpose of between 3 months and one full assignment. Requests for temporary position of longer than one full assignment will be rejected. Temporary positions do not count towards liability and, as a consequence, do not drive recruiting and promotion targets. In the current manning situation they can usually only be filled by gapping a liability driving position elsewhere, which is clearly undesirable. Temporary positions cannot be used as a means of masking a genuine enduring requirement and the PPO will pay close scrutiny to all requests.

(1) In order to stand up a Temporary Position, it is the responsibility of the employing TLB to identify a Liability Substitution (LS), which is the Gap that will be tied to the Temporary Position for the duration of the requirement. The LS will continue to underpin sustainability of the supplying Branch. Prior to the assignment being completed, the employing TLB should conduct a formal review of the requirement for the Temporary Position and the LS. When the position has end dated it will become invalid, will be removed from JPA and the LS position returned to the respective Career Manager. If as part of the review the position is viewed as enduring rather than temporary (greater than one full assignment), the TLB will need to provide a CR so that an enduring liability driving post can be created.

(2) The LS provided to stand up a Temporary Position should be one that:

   (a) Has been gapped to stand up the NLD position, or

   (b) Through forecast, is unable to be filled by the CM during the forthcoming length of assignment requested.

Regardless of the method selected, the employing TLB will be responsible for prioritising as to which position is used as a LS. This process ensures overall liability within the TLB remains in balance and physically ties a liability position to a Temporary NLD position for the duration of the requirement. Non-compliant applications will be returned with a description detailing as to why they failed.

**Note.** The creation of Temporary positions or Permanent liability to meet future ABC liability enhancements will only be approved if the TLB provides a LS or CR. This must occur as a gap will need to be created elsewhere within the TLB to provide the resource (strength) for the new requirement.

4. **Establishment Supplementary Positions Policy**

With increases in Gains to Trained Strength (GTS), there is a requirement for additional NLD positions within seagoing units and air stations for the sole purpose of pulling through SQEP. The introduction of SUPP positions is a direct replacement for the legacy Overborne Strength (OBS) position and the policy detailed below will assist Branch Managers to deliver sustainable branch structures and allows CMs to manage personnel to support the pull through of SQEP.
a. **RN SUPP.** RN SUPP positions are used for the sole purpose of providing sustainable branch structures and are not to be used as a means of addressing Unit Position List (UPL) or Whole Ship Watch and Station Bill shortfalls. Similarly, CMs should only fill SUPP positions on the basis that the individual is conducting branch/career specific training. Use for any other purpose requires the approval of Navy Establishments SO1; if required liaise with Navy Establishments SO2C (93832 8905). In addition, Units are not to retain an individual in a SUPP position once the intended branch/career specific training requirement has been achieved. Once the intended training requirement has been met, Unit staff should advise CMs accordingly. The CM should then re-assign the individual to fill a gapped enduring liability position within the same Unit, or elsewhere, or to a career/leadership course.

b. **RM SUPP.** RM SUPP positions are aligned to each RM sub-Unit for the sole purpose of transitioning personnel within Unit JPA architectures to onward assignments and are not to be used as a means of addressing manning/Unit Position List (UPL) shortfalls. Use for any other purpose requires the approval of Navy Establishments SO1; if required liaise with Navy Establishments SO2C (93832 8905). CMs should only fill a SUPP position when an individual is required to vacate a position in lieu of new arrival, but is required to remain within the existing Chain of Command.

5. **Type of Position**

The type of SUPP position within JPA is dependent upon rank/rate and branch as outlined below.

a. AB2 positions are to be pooled, multi-occupancy.

b. All other ranked positions are to be single occupancy. However, in situations where handover periods are required, shared positions may be authorised by the PPO if suitable justification can be provided by Branch Managers (BMs).

c. RM positions, regardless of rank, are to be pooled and rank ranged.

d. Positions attracting Recruitment & Retention Pay (RRP) are to be single occupancy unless BMs can demonstrate to PPA that all pooled personnel within the SUPP position qualify for RRP. If a requirement for RRP exists, BMs should submit full justification to PPA using policy detailed in JSP 754 Part 1 Section 6.

6. **Position Details**

SUPP positions will be created using the following criteria:

a. All positions are to be prefixed with SUPP, eg. **SUPP PWO1|1234567**.

b. The JOB Value for all SUPP positions is to be **RN|Common|Supplementary**.

c. All SUPP positions are to be correctly CM tagged.

d. All SUPP positions are to be created as NLD and enduring (no end-date applied).

e. SUPP positions shall only exist within Navy Command TLB (NC TLB) and not within other TLB Organisations.
7. Establishment Amendment Detail

All proposed changes for JPA Positions and Organisations must be submitted using JPA Form JPA A001 (EAF), the latest version of which can be found in the JPA home page – JPA Forms.

a. Establishment Amendment Form (EAF). The EAF has been designed to ensure that the following conditions are met:

(1) An audit trail is in place and covers all associated authorisations (see below).

(2) Requested proposals contain the mandatory details required by JPA to make the changes.

(3) Only a minimum number of requests are returned to their originator for lack of the necessary detail or clarity.

b. Completion of the EAF. The EAF is to be fully completed (where appropriate) by the originator before submission to Establishments staff. As appropriate, EAF submissions should include supporting e-mails showing:

(1) Budgetary authority from the appropriate TLB Budget Holder (all major changes and inter TLB transfers). (For NC TLB securing budgetary authority will require a Formal Change Request (FCR) to be raised and it must be approved by NAVY RP.)

(2) Confirmation from the appropriate Branch Managers, in consultation with Career Managers, that the proposed amendments are acceptable from a Branch/Specialisation sustainability perspective (all major changes and inter TLB transfers).

(3) Approval obtained from the respective Service specialist security authority where there are DV security requirements associated with the amendments.

(4) Agreement of the respective RRP authority/WG if the amendments involve the addition or removal of RRP markers.

(5) Agreement from all Units involved in the EAF process. For example if creating a Temporary Position in one Unit, by using a LS Gap in another, then both Units should provide evidence that they are content with the submission.

c. Common Errors in Submitting Establishment Changes. Some common errors which should be avoided when submitting Establishment change proposals are as follows:

(1) The amendment has not used the latest Establishment/UPL in JPA as the baseline and has not identified Positions by their unique JPA number.
Effective February 2020

(2) Changes that increase Liability but that have no supporting budgetary approval, CR or LS.

(3) Requesting new 1* Positions and above without PUS approval (only required if TLB Senior Officer Liability ceiling exceeded).

(4) Requesting Rotational or Competition posts without approval from DS Sec and the single Services’ agreement.

(5) Requesting Exchange/Loan Schemes where the ACOS(PCap) lead/International Policy and Planning (IPP) has not been consulted.

(6) Asking for changes to an Establishment when the appropriate authority has not been sought.

8. JPA Data Requirements

Only data that appears in the list of authorised JPA Data Reference values can be used to request changes. The remainder of this section outlines some of the more common fields and terms used for making an Establishment change in JPA.

a. Rank/Rate. NATO Rank Codes (equivalent ranks tables across all Services are laid down in JSP 752 (Allowance Regulations), JSP 754 (Pay Regulations) and in this BR’s Preliminary Pages) are used in JPA, NATO and tri-Service documentation as follows:

Table 2E-1. NATO Rank Codes

<table>

<td>Not used in RM</td>
</tr>
</tbody>
</table>

**Note.** Although OR1 is not a rank in the RN, some Positions in ships are created as OR1 to identify sea training positions for personnel not yet at Operational Performance Standard (OPS).

b. **JPA Job Value.** The JOB value comprises 3 segments: Service, domain and skill.

**Note.** The JOB value for all single Service RN/RM Positions starts with RN.

(1) Examples are:

- RN\|Warfare\|Warfare (Above Water)
- RN\|Logistic Services\|Logistics
- RN\|Aviation\|Pilot
- RN\|RM\|Adjutant

(2) It is an essential field when describing or searching for specific Positions or groups of Positions. Once a JPA Job Value has been attributed to a Position it cannot be amended. Any changes to this field will necessitate the Position being eliminated and a new Position being raised to show the revised value. It is therefore essential that the correct value is shown on the EAF. JPA Data Reference Values should be used to identify the most appropriate value for any new Positions.

c. **JPA Competence.** These are the skills, competences or accomplishments allocated against a given Position to enable the incumbent to carry out their role. Requests to add competences may be referred to Capability Delivery Team (CDT) and Branch Manager's approval as the change may have Safety or Operational implications or may result in increased tasking on training schools and can restrict the number of personnel available to fill a post.
d. **General Billets (GBs).** The annotation of a GB competence to a Position enables that Position to be filled by personnel from more than one Specialisation. It allows more flexibility to CMs in filling the Position than if it were specified by the employer to one particular Specialisation. The task of filling the Position will be allocated to the specified CM, who may then pass it to other CMs if required. Not only will this reduce gapping levels within employment areas, but it will assist in balancing any gap or surplus that may exist. GBs are visible in JPA as competences and the following table shows those most commonly used.

Table 2E-2. Commonly Used General Billet Competences

</tr>
</tbody>
</table>

e. **Recruitment and Retention Pay (RRP) Markers.** RRP Markers can be applied to specific Positions and approving their use depends on a number of factors, including that the post should only be filled by a person with the appropriate specialist qualification. Approval for the addition/removal of the RRP Markers to a Position must be given by the appropriate RRP authority before the Establishment Team will make the change in JPA.

f. **Normal Tour Length.** The tour length is shown in months and, where continuity is required beyond normal assignment length, justification and CM approval is required.

g. **Temporary Positions.** A Temporary Position is created to meet a specific short term high priority demand for manpower. It is created for a finite period of time between 3 months and one full assignment. Temporary positions do not count towards liability and, as a consequence, do not drive recruiting and promotion targets; they still require budgetary approval by the TLB. In the current manning situation they can usually only be filled by gapping a liability driving post elsewhere, which is clearly undesirable. No Temporary Position will be created until the appropriate Career Manager has agreed to provide an incumbent at the Position’s start date.
h. **Rotational/Competition Positions.** Requests for new posts have to be staffed for approval by the appropriate authority:

Table 2E-3. Staff List Authorities

<table>
<thead>
<tr>
<th>List</th>
<th>Authority</th>
</tr>
</thead>
<tbody>
<tr>
<td>Senior tri-Service Appointment List (STAL)</td>
<td>DS Sec</td>
</tr>
<tr>
<td>Junior Rotational List (JRL)</td>
<td>DS Sec</td>
</tr>
<tr>
<td>Rotational Appointment Committee (Medical) RACM</td>
<td>DS Sec</td>
</tr>
<tr>
<td>Other Ranks Rotational List (ORRL)</td>
<td>DS Sec</td>
</tr>
</tbody>
</table>

Staffing rules vary and JSP 755 is the authority Reference book for both Rotational and Competition Positions. Tours for rotational posts are projected several years into the future and the Establishments Team ensure that they are kept up to date and in accordance with the appropriate authorised list.

i. **Exchange Positions.** All requests to change Inter-Service and International Exchange Positions must be staffed via the ACOS(PCap) lead:

NAVY PERS-CM DACOS COORD SO2C on 93832 8836

j. **Loan/Secondment Positions.** All requests to create or amend a loan or a secondment position must have International Policy and Planning (IPP) approval as detailed in JSP 755 Chapter 4 and JSP 486.

k. **On-stream Lead-time.** A sea-going unit may be assigned a Status that requires a joining profile leading up to full B Status manning. Thus, in the Z, S and Q roles, a figure such as 0032 will mean that the Position concerned should be filled 32 weeks before the unit assumes the B Status. Changes to On-Stream Lead Times can impact on Liability and so full justification using a Change Proposal Form (CPF) and EAF is required when the request is made to Navy RP.

l. **Dual Appointments.** The Position Manpower Planning Extra Information Table (EIT) in JPA allows requirements for Dual Assignments to be specified. All requests involving Donor Positions and Dual Appointments are cleared with PCap Plans staff prior to their endorsement.

m. **UIN.** An Organisation must have a UIN annotated to it and all Positions in an Organisation are costed to the same UIN. Where a unit is comprised of personnel funded by more than one UIN then its Establishment must be comprised of multiple Organisations. UINs must be supplied by the TLB budget manager who is responsible for funding that Organisation. If the UIN does not exist in JPA then it is the responsibility of the submitting TLB Budget Manager to have it added. This is actioned by means of completing a MoD Form 942.
n. **Overlap.** Overlap indicates the handover period, in days. Where the field is blank in JPA then either the standard handover period of 4 days applies or there is no handover period. Career Manager authorisation is required for any increase to the standard handover period as this inevitably leaves a longer gap elsewhere.

o. **Margin Pooled Positions.** Units needing extra pooled Positions to be created should email their requirements to the Establishment Team. The Establishment Team will assess whether these requests can be met by the existing margin structure, ensuring that the number of pooled Positions are the minimum to meet the requirement. The criterion is that pool Positions should exist wherever manpower managers need to exercise administrative oversight of the individuals assigned to the margin areas. In the case of MA5, it is appropriate that there is a pooled Position wherever a unit has a Service pay facility.
ANNEX 2F

ESTABLISHMENT POLICY SPECIFIC TO SHIPS AND SUBMARINES

1. Introduction
This section describes the manning process for new build Ships and Submarines. The key elements in this process are the Quarter Bill (QB), the Establishment, the accommodation requirement, the Ship Specification and Concept of Use.

2. The Manning Process

a. The manning process for new build platforms starts on initiation of the Concept Phase. During that phase an initial Quarter Bill (QB) is produced by the Integrated Project Team (IPT) using tasks derived from the platform’s User Requirements Document (URD), Ship Specification and Concept of Use documentation. From this QB an initial Establishment will be generated by the IPT in consultation with PCAP Future Capability, RN Establishments Team, key stakeholders and other SMEs. Once agreed, the RN Establishments Team is issued with the QB Spreadsheet and creates the organisation and positions on JPA, as directed, with the future start dates.

b. As the project moves forward the IPT will progressively develop a more targeted QB and Establishment. In liaison with the RN Establishments team the overall numbers and Specialisations of the Positions in the Establishment will be refined and the accommodation requirement will be calculated. The accommodation requirement is determined by the number and Rank/Rate of the Positions in the Establishment plus an Accommodation Margin.

3. The Quarter Bill (QB)

a. The basic working tool during the assembly of an Establishment for a new class of ship is the QB (not used for Minor War Vessels (MWV) and Submarines). This is a statement of the Positions that need to be filled by personnel to work and fight a warship. It identifies where there is a job to be done and the lowest skill level needed to fulfil the task.

b. At an appropriate stage, responsibility for the QB will be transferred from the IPT to the platform. It will be a guide to the stationing of the platform’s company and will show how the numbers allowed in the Establishment have been assessed. Each individual platform will also produce a Watch and Station Bill (WSB) which further breaks down the QB and allocates individual names to specific tasks, including whole ship responsibilities.
4. **Organisational Build Status**

   The Establishment is the detailed means by which the Manpower requirement of the QB is fulfilled and caters for the heaviest demand for total manpower on board that can routinely be expected. An Establishment will be in force from build to disposal and during the lifecycle of the platform it will go through different phases from initial build (Z Status), to Operational (B Status), to refit (S Status) and finally disposal. The Positions required within an Establishment vary depending on the Organisational Status (for example in upkeep (S Status) a ship’s company may be significantly reduced from the full (B Status) complement). The Organisational Status is reflected in JPA (A full listing of the various status codes is at Annex 2B) and used to make Positions ‘Invalid’ when they are not required. Another example of this is if a new item of equipment is fitted. The Platform will need to assess whether personnel will have to have new competencies allocated to their position, or if a change of structure within the affected department is required; in both these instances an Establishment Amendment Form (EAF) should be submitted via the relevant Capability Delivery Team (CDT) to the Establishments Team.

5. **Through Life Management of the QB and Establishment**

   Once created, the QB and Establishment continue to be reviewed and managed as required by changes to policy, concept of operations, the introduction of new equipment and, most importantly, to reflect class ‘best practice’. All such activity involves close liaison between the platform EWO/UEA/Senior Management, Unit Establishment Administrator and the RN Establishment team.

6. **Pre-joining Training Requirements**

   Once the Business Case (BC) for a new class of vessel has been approved, a Training Needs Analysis (TNA) is conducted to identify the best means of providing the training required for the platform. The resulting competences requirement should be input onto JPA by way of an EAF via the RN Establishments Team.

7. **Mixed Gender Manning**

   As a general rule, RN surface ships are mixed–manned. The proportion of each gender on board a ship will generally reflect the gender balance of manpower strength within the RN. Accommodation arrangements are managed by the platforms’ EWO or Cox’n, who will allocate mess decks according to the Rank/Rate and gender mix within the ship.

8. **Accommodation Margin**

   a. The Establishment of a platform will dictate the minimum number of bunks required on board. In addition to this minimum, further bunks will be required to account for extra boarded personnel as well as flex within the Unit itself. The calculation of the Accommodation Margin is very platform specific, depending on size, role and design use. Once established the Accommodation Margin will be controlled by the EWO/Cox’n.
b. For each new project build IPT will use the Establishment, calculating in other factors as detailed in the Accommodation Margin Elements (see para 6), to find the accommodation requirement for the platform. The additional requirement for bunks is given by the Accommodation Margin and the total accommodation requirement is therefore driven by the Establishment plus the Accommodation Margin.

9. **Accommodation Margin Elements**

The following is a list of different Accommodation Margins that can be utilised:

a. **Board Margin.** A defined number of bunks allow for changes in Establishment policy during the life of the platform.

b. **Advancement Margin.** A defined number of bunks for LHs (where applicable), CPOs and POs to allow for personnel promoted during assignment.

c. **Training Margin.** A defined number of bunks for Officers and Ratings to allow for training needs identified to be fulfilled for the specific platform.

d. **Staff Margin.** A defined number of bunks for Officers and Ratings to allow for visiting staff; this could include FOST Staff, Inspection Teams, METOCs, Medical/Chaplaincy Staff, Embarked Forces, Embarked Flight crew/Air Groups, Battle Staff etc.

e. **Flexibility Margin.** A margin of 2 JR bunks for each gender, or cabin if applicable to provide a variation of the onboard mix of gender personnel (where applicable).

CHAPTER 3
PERSONNEL PLANNING & COSTING
SECTION 1 – REGULAR PERSONNEL

0301. General Manning Policies

a. This Part describes the process of personnel planning and explains how the personnel Liability is derived and how Strength is matched to that Liability. Career progression and Branch structures have to be taken account of in this process, which require a detailed knowledge of the personnel characteristics in each specialisation, rather than relying on a 'one size fits all' approach. Current and future manning policies have a big impact on this work. The aim is to ensure that suitably qualified Officers, Ratings and Other Ranks are available to meet the sea and shore requirements of the Naval Service in peace and crisis within allocated resources and, at the same time, offer rewarding careers that will encourage retention.

b. The methodology for this is through operation of computer Planning Models that compare the current and future Liability with projections of the Trained Strength that should develop, based on set assumptions and variable “control levers” also known as ‘manpower regulators’; these include numbers joining and promotion targets.

0302. Liability and Strength

a. The number of trained people the Naval Service needs in uniform at any one time is set by the Liability. In general, this refers only to active Service (‘Regular’) posts. Volunteer Reserves (RNR and RMR) have separate Liability managed by CMR and the Reserves Branch Manager.

b. The number of trained Regular Service men and women who can be deployed to satisfy the Liability is known as the Trained Strength (TS); the Trained Strength is sustained by those who are undertaking initial training in the Untrained Strength (UTS). The Liability was previously widely known as the Requirement (Capital ‘R’) and the Strength was known as the Bearing.

c. The Liability comprises the 2 key elements shown in Figure 3-1. In simple terms these are the sum of all ‘Liability Driving’ Positions in Establishments that are marked as counting towards Liability plus allowances (Margins) because there are occasions when, for a variety of reasons, the Trained Strength will always include some people who are not available for filling normal Establishment Positions.
Figure 3-1. The Liability

<table>
<thead>
<tr>
<th>Establishment Positions counting towards Liability.</th>
<th>Allowances.</th>
</tr>
</thead>
<tbody>
<tr>
<td>(Liability Drivers)</td>
<td>e.g. Manning and Training Margin (MTM) allowance</td>
</tr>
</tbody>
</table>

d. Each of the Armed Forces has a Service Liability set by the DB at the conclusion of every Departmental Planning Round. It does not have sufficient detail for PPO planning purposes, and is used as a numerical ceiling against which Manning Balance and Public Sector Agreement is measured. Effectively acting as a Trained Strength (i.e. Regular and Full Time Reserve Service personnel filling Regular Liability) cap for each Service, it is very firmly policed by ACDS(Pers) and an important aspect of ACOS(PCap) Personnel Planning staff’s work is to ensure that no surplus is generated.

e. A number of tasks and activities need to be undertaken by Service personnel in addition to filling those Positions that count towards the Liability; these do not drive Liability and include Temporary Positions, activated Crisis Positions and Augmentation tasks such as loans to other units for short periods for extraneous events e.g. major exercises, ceremonial duties or military tattoos.

f. **Margin Liability.** This is the allowance provided in the total Liability for predictable and planned use of Margin that needs additional personnel to be grown. Margin Liability is defined as a single Manning and Training Margin (MTM) entity; Margin usage is sub-divided into 2 categories: Training Margin (previously known as Higher Training Quota (HTQ)); and Manning Margin. A full explanation of these is at Annex 3B. Note that there are also some other similar but small Allowances from past Options such as for Resilience.

g. **Establishments.** Full information on Positions and MTM is provided at Part 2.

0303. **Live Liability**

The sum of all Positions counting towards Liability (‘Liability Drivers’) plus the MTM overhead is called the Live Liability. Once produced, it shows the requirement for trained personnel at each rank level within every Specialisation at monthly hitpoints for the next 10 years. The Live Liability is the responsibility of ACOS(PCap) and is updated continuously in JPA by the ACOS (PCap) Establishment Administration team.

0304. **The Planning Liability (formerly known as the ‘Headmark’)**

a. Whilst the Live Liability is used for career management, it cannot be used, in isolation, for workforce planning. Therefore the Live Liability is subjected to adjustment by ACOS(PCap) Personnel Planning staff. The result, known as the Planning Liability (PL) (see Note) (formerly the ‘Headmark Requirement’), takes account both of known and anticipated changes in the Liability, and provides a corporate aiming point which inevitably includes a level of risk which ACOS(PCap) is prepared to accept. The PL will therefore contain adjustments at Risk made in anticipation of future agreed Options. Examples of measures include assessments
of the impact of changes to Top-Level Budget (TLB) organisations, the Equipment Programme, Partnering, Private Finance Initiatives (PFI), contractorisation and Planning Round Options and Choices. The result is used as the basis for planning the future requirement for officers and ratings by Rank/Rate, Branch and Specialisation. This is illustrated in Figure 3-2 (not to scale) and the sequence is as follows:

Note. ‘Planning Liability’ is defined within the Tri-Service Manpower Lexicon as ‘A derivation of Liability that takes account of anticipated (but not authorised) changes’.

(1) The first adjustment is the addition of all known and agreed programme measures (specified in detail) which are planned to occur during the 10 year planning period but which have yet to be reflected in the relevant Establishments.

(2) Then anticipated changes over the 10 year planning period are incorporated, such as may result from reorganisation, contractorisation, Planning Round Options and Choices.

(3) An element of risk may be added by the PPO to reflect realism, taking account of historical trends and experience. The result is the ‘unsmoothed’ PL which includes details such as the various measures, Organisation/ Position Name and TLB.

(4) Finally, the ‘unsmoothed’ PL is smoothed by Rank/Rate, Branch and Specialisation only to remove sudden peaks and troughs.

b. The resultant ‘smoothed’ Planning Liability is used by ACOS(PCap) Strategic Workforce Planners to prime Defence Statistics (Navy) (DS(N)) computer modelling tools (see Para 0306 sub para c) so they can decide what targets need to be set for the growth of the right numbers of trained personnel (the Trained Strength (TS)), broken down by Rank/Rate, Branch and Specialisation in the same way as the Liability. It is important that the ‘smoothed’ Planning Liability is at or below the Service Liability ceiling set by DMB.

c. A derivation of the Planning Liability is also used by the Centre and TLB resource and plans staff to establish the likely costs of personnel for future years.
d. While the upkeep of the Live Liability is a continuous process, the Planning Liability is normally derived twice a year in Mar/Apr and Sep/Oct, the exact timings being determined by the demands of the Planning Round and manpower modelling processes. Following each issue of a new Planning Liability and subsequent DS(N) modelling, it is possible to update personnel regulator levers, such as recruiting targets and promotion numbers.

0305. Matching Liability and Strength

a. The aim of ACOS(PCap) is to match continuously the current Live Liability with an equivalent Trained Strength having the correct mix of rank/rate and skills. The high-level aim is to achieve a Trained Strength within +1% and −2% of the Liability at the global level (the Public Sector Agreement (PSA) target).

b. The challenge is to improve the match between Liability and Strength when the former is vulnerable to rapid and frequently ill-defined change (as employers amend their Establishments) and the latter is only able to react much more slowly as people enter, move through and exit the system.

c. Management of the Liability is covered under Part 2, for Establishments, and Annex 3A for Margin. Management of the Trained Strength is the output of Personnel Planning that is covered in the following paragraphs.
0306. Management of the Trained Strength

a. Managing the size of the Trained Strength to match the Liability aims not simply to achieve an overall balance of total numbers, as this could also accommodate surpluses in one category that are balanced by deficits in another. The ideal match is pursued by understanding and measuring the impact of factors that affect the size of the Trained Strength, some of which have an effect in the short and medium term, and others have longer-term effects. Discussed in more detail later in this Part, these factors are as follows:

(1) Gains to the Trained Strength (GTS) (Para 0307 sub para b);
(2) Promotion numbers (Para 0307 sub para d);
(3) Commission Transfers (Officers) and Engagement Transfers (Ratings/Other Ranks (ORs)); (Para 0307 sub para f)
(4) Flows from Rating/OR to Officer (Para 0307 sub para g);
(5) Branch and Specialisation Transfers (Para 0307 sub para h);
(6) Acting Higher Rank use (Para 0307 sub para i);
(7) Extensions of Service (Para 0307 sub para j);
(8) Re-entrants (Para 0307 sub para k);
(9) Voluntary Retirement/Release constraints and influences (Para 0307 sub para l);
(10) Financial Retention Incentives (Para 0307 sub para m);
(11) Commitment Bonuses;
(12) As a last resort, Directed Early Retirement and Redundancy (Para 0307 sub para n).

b. Other factors that affect the numbers of Trained personnel available include:

(1) Wastage other than Voluntary Outflow (VO), primarily including Discharges (Medical, Welfare, Services No Longer Required, Death). There is little scope for control of these factors.

(2) Reservist Service, primarily Full Time Reserve Service (FTRS), Additional Duties Commitment (ADC), Mobilisation and Recall. These are controlled at the tactical level by ACOS(PCap). JSP753 (Mobilisation), and Chapter 59 give more details.
c. **Planning Models.** Because the Liability changes with time, clearly a forecast of how the Strength will change is also required. The future Strength is forecast by modelling techniques that look at past, current and predicted inflow and outflow rates and promotion/transfer numbers in order to predict the numbers that are likely to be delivered to each branch and specialisation at each rank. These are then compared to the future Liability to derive recruiting targets and other personnel regulators. The DS(N) Officer and Rating Planning Models are the prime tools for managing the size of the Trained Strength. As with any forecasting process, the result is only as accurate as the information from which it is derived. The models are particularly susceptible to changes in the Liability, wastage and inflow from New Entry Training. In recognition of this, the models are re-run each time a new Planning Liability is issued, although targets may not be adjusted on each occasion. The assumptions that underpin the models are agreed for each modelling round between ACOS(PCap) Strategic Workforce Planners, Branch Managers (BMs) and DS(N), following extensive detailed scrutiny.

d. **Branch/Specialisation structures are hierarchical and generally bottom-fed.** This means that careful consideration has to be given to ensure that the requirement at the upper levels can be achieved and sustained in the long term by sufficient input at the bottom, given the projected attrition of personnel in the years after they join the Trained Strength. This is demonstrated by using a Sustainable Experience Profile (SEP) which illustrates whether the future demand can be met and whether a Branch is ultimately sustainable. Generally, it is accepted that there must be a progressively smaller requirement for the higher ranks than the lower ranks, however, the actual sustainable ratio is unique to individual Specialisations and will depend on flow rates and ‘man-years’ at each rank.

### 0307. Personnel Strength Control Mechanisms (‘Personnel Regulators/Levers’)

a. **The Supply and Growth of Personnel.** Historically, the skill and experience required of most Naval personnel has demanded that they be grown from the lowest level. However, there have always been some areas where this is not the case and work is in hand to explore the potential for increasing the number of these categories. Current examples of categories that do not fall within the ‘bottom-fed’ mould include Senior Upper Yardmen (SUY), Upper Yardmen (UY), Senior Corps Commission (SCC RM), Corps Commission (CC RM) and Sideways Entry Specialisations. Introduction of the Flexible Career Structure and the Warfare and Technician structures should also expand the scope for more flexible entry routes. Despite these current and potential future exceptions, the majority of officers and ratings join at the bottom of their structures, within flexible but set age limits, and remain for as long as their commission or engagement allows while progressing up the rank scale. Education and training to satisfy the requirements of rank, specialisation and specific sea going positions is provided, and individual careers are managed by Career Managers (CMs) so as to provide a broadening of experience within the rank and capability of each Service Person.
b. **Gains to the Trained Strength (GTS).** The numbers of trained officers, ratings and other ranks each Branch and Specialisation requires to be introduced on to the Trained Strength is determined by ACOS(PCap), taking account of the training pipeline capacity. The number of personnel that should be recruited to meet the required GTS is determined subsequently by the FOST Pipeline Manager (see Para 1102).

c. **Promotion to Liability.** Promotion is the key regulator used by ACOS(PCap) to keep the Trained Strength of the Naval Service at the correct levels to meet its commitments within its personnel budget. Therefore, given the modelled future Strength at each rank, officers and ratings are promoted to meet the Liability. As the Liability changes, so too will the numbers and specialisations of those required to be promoted. For officers and most ratings, the basis of promotion is selection on merit through a Selection Board process.

d. **Promotion Targets.** These are determined by the ACOS(PCap) Strategic Workforce Planners, guided by DS(N) Planning Model outputs together with consultation with each BM and CM. The Maximum Authorised Numbers (MAuNs) are based on the current and future Strength and Liability, with agreed assumptions on future inflows and outflows, and (for officers) smoothed over the next few years to reduce large year-to-year fluctuations. The MAuNs are then used by Promotion Boards to control promotion numbers.

e. **Commissions, Careers and Engagements**

   (1) **Commissions.** Officers’ career progression will be linked to changes in commission. Figure 3A.1 shows how that progression will occur; most Lt RN/Capt RM will follow a path to Lt Cdr/Maj on a Career Commission Stage (CCS) and then transfer to a FCS from there (for further details see Paras 4901-4903). As with promotions, the number of Commission transfers is set by the ACOS(PCap) Strategic Workforce Planner (Officers), guided by DS(N) Planning Model outputs together with consultation with each BM and CM. The MAuNs are established at levels to maintain Strength within Liability ceilings at each rank and are implemented by Commission Transfer boards.

   (2) **Careers and Engagements.** Ratings and Other Ranks are selected for Engagement Transfers against a quota for each Branch / Specialisation. The aim of the quota system is to ensure, as far as possible, that the requirement for Senior Ratings/SNCOs can be met without undue delay to the average length of service on promotion to CPO/Colour Sergeant. The detailed calculation of quotas is carried out by ACOS(PCap) using the Ratings’ Planning Models as part of the annual planning round. The calculated quotas are passed to ACOS(PCap) for use by the Engagement Transfer Selection Board (for further details see Paras 4922-4925).

f. **Promotion from Rating/OR to Officer.** The number of places available for SUY and SCC RMs at BRNC and CTCRM respectively is determined annually for all Branches/Specialisations by ACOS(PCap) in consultation with BMs and forms part of the overall GTS. Details of the promotion process are in BRd 3(1) Chapter 50.
g. **Branch/Specialisation Transfers.** Movement between Branches or Specialisations, which includes Sideways Entry, affects the Trained Strength in the supplying and receiving category. ACOS(PCap) Strategic Workforce Planners set the planning assumptions for Branch Transfers annually and co-ordinate the transfer process. Officer transfers are considered on a case-by-case basis.

h. **Acting Higher Rank (AHR).** AHR is not normally used as a personnel regulator, although it does naturally affect the numbers of personnel available to fill posts in each rank and it may need to be limited to specific cases if necessary to avoid breaching Defence Planning Ceilings (for further details, see Paras 6503,6915-6917). For Officers, Career Managers are to pass AHR requests to the Branch Manager and Strategic Workforce Planner (Officers) for comment before a decision is made at an appropriate level (for further details see paras 6647-6651).

i. **Extensions of Service.** Career Managers are to raise any request for EOS over 6 months and pass it to Branch Managers and Strategic Workforce Planners for their comments on the impact on the manning situation in the Specialisation concerned. Decisions are made by the BM concerned and passed to Workforce Planning staff; these inform debate over expected levels of awards which are then incorporated as assumptions affecting wastage within the Planning Models. Requests for EOS of less than 6 months (commonly referred to as CM EOS) may be granted directly by the CM concerned. More details are at Para 5811.

j. **Re-entrants.** CNR will process all Officer and Rating/OR re-entrant candidates to both the Trained and Untrained Strengths. Staffing will include relevant ACOS(PCap) input. The individuals’ experience and rank will be considered together with the state of the Specialisation which they wish to re-enter.

k. **Voluntary Outflow.** Voluntary Outflow (VO) through early termination to leave the Service is a regulator over which BMs have little control, but which is nevertheless closely monitored and projected forward, so as to inform the planning models. It is most influenced by Conditions of Service, career expectations, domestic pressures and civilian employment conditions. Personnel policy can therefore exert an influence on the rates of uptake, generally in an un-targeted manner, but CMs may decide not to approve requests for VO withdrawal, drawing on advice from Strategic Workforce Planners. When necessary to avoid exceeding funded personnel levels, approval of requests for VO withdrawal may be restricted to those requests that would help relieve Operational Pinch Points (OPPs), Critical Manning Groups (CMGs) or for Specialisations that are predicted to be significantly underborne. See the following paragraphs for measures to affect outflow rates.

l. **Financial Retention Incentives (FRI) and Re-Joining Bounties (RJB).** FRI and RJB measures are available for selective use, with necessary higher approval - normally Ministerial or PPO - and last for a clearly defined, short period. They aim to encourage personnel to continue serving or to re-enter the Service, respectively, where a severe and damaging shortage exists. Strict controls are placed on eligibility for such an award, and individuals are targeted in very discrete groupings by age, seniority and/or length of service to offset the precise area of shortage. The introduction of each measure will be announced by signal and DIN.
m.  **Redundancy and Directed Early Retirement (DER).** In the event of the Trained Strength exceeding the requirement and when all other means of regulation have been unable to contain the surplus, redundancy and/or DER may be considered. Because of the cost, the loss of expertise and the detrimental impact upon Service cohesion, redundancy is only ever considered as a last resort; DER is more likely. High level approval will always be necessary before initiating a programme and, for redundancy, this will need to be at Ministerial level.

0308. **Factors affecting Target-Setting in Personnel Planning**

a. It is recognised that personnel ‘flow’ up through the Service rank structure. Furthermore, growth and development of suitably qualified and experienced personnel is a medium-to-long-term activity. Therefore changes in target numbers must be carefully judged to ensure that their effect meets the required timescale.

b. **Smoothing.** To maintain a spread of personnel Length of Service within the Trained Strength, it is necessary to maintain a certain level of recruiting, even when the outflow is being increased by suppression of EC or by Directed Early Retirement/redundancy.

c. **Time in Rank.** The rate of flow up the system, determined by length of time in a particular Post or Rank can be adjusted. The shorter the time in rank, the fewer posts in that rank are required to be filled in a sustainable system.

d. **Reserve Service.** Full Time Reserve Service (FTRS) and Additional Duties Commitment (ADC) (the part time equivalent of FTRS) are filled by ex-Regulars (RFR) and Royal Naval/Royal Marines Reserves (RNR/RMR). FTRS and ADC can be used to relieve Operational Pinch Points (OPPs) or Critical Manning Groups (CMGs) or where a Specialisation is significantly underborne (subject to constraints from FTRS Authorised Numbers (AUN). The decision on whether to approve an FTRS request will draw on advice from other BMs and the Strategic Workforce Planners. An AUN may be applied by ACOS(PCap), planning for a set amount of FTRS/ADC usage to ensure that the combined total of personnel on FTRS and in the (Regular) Trained Strength is affordable and does not exceed the Liability. Personnel Planning targets will take any FTRS AUN and decisions on the award of FTRS Commitments into account, but will ultimately aim to meet the full Liability with Regular personnel. More details on FTRS & ADC are at Para 5953 and the full Naval Regulations are in BRd 3(2) Chapters 18 and 19.

e. **Wastage Other Than Through Notice.** Rates of Discharges for reasons outside the control of the Service are carefully monitored and placed as an assumption in the Planning Models. These rates are fairly consistent and low. Medical Discharge may be directed by Medical Employment Boards (MEB), following Medical Boards of Survey (MBOS). Run monthly, except in August, December and April, these Boards assess the suitability of permanently downgraded personnel for further employment in the Naval Service. A detailed description of regulations and procedures may be found in BR 1991.
Effective  
February 2020  

f. **Return of Service.** A return of service applies for many courses in recognition of the investment made in the individual. Promotion does not carry any return of service. Chapter 53 contains detailed regulations. In view of the relatively frequent changes, it is recommended that recent DINs and RNTMs are also scrutinised.

**0309. Gapping**

Despite the provision of personnel to meet the Liability, gaps will usually still occur. Firstly, there may be a shortage of Trained Strength compared with the Liability. Secondly, allowance is not made for all Margin usage, so total Margin usage will nearly always be larger than Margin Liability. Thirdly, there will always be a mix of surpluses and deficits, reflecting a mismatch at Rank and Specialisation level between the actual deployment of trained personnel and Liability. Finally, personnel filling Temporary Positions (TP) (see Para 0203.b(4)) or engaged on Augmentation tasks are not allowed for in the Liability. Figure 3-3 illustrates - but not to scale - how these elements might contribute to overall gapping levels.

0310. Costing Personnel and the Planning Round process

a. Under the Annual Budget Cycle (ABC) process, each TLB reassesses its personnel costings for the forthcoming ABC period. Bids are made on the basis of the actual personnel that the TLB expects to have deployed to him (i.e. the Forecast Strength) and not the Liability. In order to do this, the TLB needs information on the personnel costs associated with each of the TLB’s employers. The information required to assemble realistic costings for financing its uniformed personnel includes:

(1) The level of personnel detailed in the Establishment (Permanent positions on the TLB’s Trained Strength), noting how this changes throughout the PR period as new positions start and existing ones are end-dated - i.e. the Live Liability.

(2) The anticipated Strength, by judging how much the unit expects to be gapped or overborne over the period. (TLB costs include all those in Temporary Positions, donated as temporary augmentees and overbearings.)

(3) The Margin Usage associated with its personnel for which the TLB expects to be charged. This covers the Margin Liability which is planned for and costed.

(4) The capitation rates associated with the above personnel. These are dependent upon rank, Arm, Branch and Spec. They will also vary with TLB not least because of relative seniority of personnel and the likelihood of Specialist Pay.

b. The personnel numbers forecasting process, and its accuracy, is essential in determining the personnel costs for the FOO, monthly AP and the ABC bid/baseline. The Planning Liability plays a key function in this, which in turns feeds into setting both GTS targets and hence UTS numbers. By applying UTS capitation rates to the numbers, the UTS costs can also be calculated.

c. The PPO plays a key part in the costing process in three ways:

(1) Ensuring that the individual bids from all employers of Naval personnel, including the Manning and Training Margin, when added together, match the forecast of total Trained Strength. This is achieved through the ABC process. (If personnel balance is achieved through TLB Strategic Workforce Planners through the use of like-for-like personnel compensators to ensure no growth in personnel numbers or costs.)

(2) Estimating the size and distribution of gaps, surpluses and Margin usage between TLBs, by using historical records and forecast trends. This information is passed to the TLBs in order to assist in the compilation of their personnel costings.

(3) Ensuring Branch structures are sustainable, both structurally and numerically.
d. The PPO recognises the need to provide information to TLBs on the probability of their personnel requirements being met, the degree to which they may be gapped and their probable Margin costs.

e. Individual TLBs play a key role in costing personnel during the ABC process, using locally-derived methods, and taking account of a number of factors that will determine the cost/savings profile over the ABC. The factors are similar to those used by PPO staff for Personnel Planning.

f. Remaining within headcount thresholds is a key factor for the PPO and for individual TLBs. Numerical growth through an increase in the number of Positions driving the Naval Service Liability should be avoided; compensating reductions should be provided with any bid for additional personnel.
0311. Personnel Considerations in the Maritime Reserve

The following factors determine the personnel requirements for the RNR and RMR:

1. **Personnel Ceiling.** The Reserves Personnel Ceiling for the RNR/RMR is agreed and authorised by Parliament. The ceiling represents the total number of Naval Volunteer Reservists that may be borne on the Active List (officers) or serve on RNR/RMR Engagements and Extensions of Service (ratings/ORs) at any one time, both Trained and Untrained.

2. **Personnel Requirement.** The total requirement (Liability) for trained personnel is based on the following:
   
   (a) **Operational Task Requirement (OTR).** The OTR is determined by Functional Employers based on personnel requirements.

   (b) **Margin.** A margin which is added to the OTR to reflect the fact that, in the event of call-out, a proportion of personnel will inevitably seek exemption or deferral.

   (c) **Volunteer Contingency Quotient (VCQ).** VCQ is added to the OTR and Margin to enable Capability Managers to meet the additional personnel requirements for exercises and other contingencies where compulsory call-out cannot be expected and where the numbers defined as OTR plus Margin are insufficient.

3. **Trained Strength.** The total number of trained officers and ratings considered able to meet the Operational Performance Statements set by Functional Employers. Ideally, the Trained Strength should match the Personnel Requirement in each category, by rank/rate and branch/specialisation.

   (a) In the RNR this is normally Lieutenants and above, and Able Ratings who have completed Initial Branch Training.

   (b) In the RMR this is normally all ranks who have successfully completed Royal Marine Phase 1 and 2 training.
(4) **Untrained Strength.** The total number of personnel in the training ‘pipeline’ necessary to maintain the Trained Strength at a satisfactory level. The combined Trained and Untrained Strength must not exceed the authorised Reserves Personnel Ceiling.

0312. **RNR Air Branch Personnel Requirement**

a. The RNR Air Branch requirement is identified as M-role Positions in FAA Squadron and Air Station Establishments and in other areas where an aviation Reserve capability is required by COS AVN.

b. Air Branch personnel are allocated to a dormant M-role Position on joining, based on the individual’s most recent experience and an evaluation of their best use. Generally the Reservist will remain in one Position throughout their RNR service, however re-assignments may be made to make greater use of an individual’s expertise and to meet developing requirements of the FAA.

0313. **RNR Air Branch Annual Personnel Review**

a. A review of RNR Air Branch personnel is conducted annually in the autumn. Conducted by HAB with Aircraft Force Commanders, Squadron COs and Air Station HODs, the Board specifically reviews:

   (1) Officers approaching 5-year milestones;

   (2) Aircrew approaching age 45;

   (3) Ratings approaching the end of an engagement;

   (4) Officers approaching age 50;

   (5) Officers and ratings who have failed to train or are otherwise regarded as non-achievers.

b. The review also considers Requirement and Manning in each area.
ANNEX 3A

COMMISSION STRUCTURES

The following diagram illustrates an Officer Commissions structure and transfer paths (RM equivalent ranks are assumed). There are variants of this structure that use different lengths of Initial Commission.

ANNEX 3B
PERSONNEL MARGINS AND COSTING

1. Margin Definitions

a. Care is needed in work concerning the Margin, to identify whether the issue concerns Margin Liability, Margin usage or both. Liability is considered as a single entity - the Manning and Training Margin (MTM), while usage is sub-divided into 2 categories: Training Margin (or, previously, Higher Training Quota (HTQ)); and Manning Margin. All usage is defined in Tri-Service agreed Margin Area (MA) numbers to which personnel are assigned. The MAs currently used are listed at the end of this Part, in Table 3B-1 and Table 3B-2.

b. Margin Liability. Previously calculated as separate Manning and Training components, MTM is now representative and based on analysis of all Margin usage. For Squadded categories, there is effectively no MTM allowance, as this is subsumed within Squad Positions in the unit’s (or pool) Establishment; there are some small allowances for some Training especially Engineer Junior Rates. For others, the Liability is defined in a number of separate Establishment Lists that are currently managed by ACOS(PCap) staff externally to JPA, and the MTM allowance totals are added to the Planning Liability; these aim to provide some of the extra numbers needed in the Liability to compensate for those who are removed from Unit Positions for a number of discrete reasons. The MTM allowance is shown for each Branch and Specialisation at each Rank/Rate level. It is calculated on the broad basis that a relief for an individual should be provided if there would otherwise be an absence to an agreed minimum of at least three months or where absences of less than three months consistently and predictably place an ongoing demand on personnel within a category. MTM numbers take account of the aggregate demand. The size and breakdown of the allowance is recalculated periodically. Reasons for MTM include: Pre-joining training for sea service (PJTs); Post Operational Leave; Career training; Educational Training such as for MBAs; Long term sickness; and Terminal leave.

c. Margin Usage. When personnel are placed in the Margin for any reason, they may be Assigned or Move & Tracked to an MA. Margin usage is broken down in three ways: by type of absence (Manning or Training Margin); by type of Position; and by funding authority (PPO or employer). MAs differentiate between each of those components and in further detail, as listed at Table 3B-1 and Table 3B-2. ACOS(PCap) monitors margin usage and applies the agreed MTM to the Planning Liability. The following example may help to illustrate the thought process involved. If a non-Squadded individual is too ill to remain in their unit, the CM decides whether to arrange a relief or to leave the Position gapped. This determines into which MA the individual should be placed. If the individual is likely to be absent for less than three months, unless in a critically important operational Position, benefit to the gapped unit would normally be insufficient to justify finding a suitable replacement. A replacement might need to be assigned at short notice (possibly leaving a Position gapped), provided with any necessary training, moved to the Position, and moved away again within three months. However, if the individual is likely to be absent from their Position for more than three months, it is reasonable to expect that a relief should be provided.
2. Margin Size and Shape

a. The number, rank and specialisation of those ‘in the Margin’ at any given time varies considerably and is very difficult to forecast with certainty, although total usage is remarkably stable; a toolset providing the previous 24 months of usage and the allowance is updated monthly. To attempt to provide a reserve of people of exactly the right match for every such occasion would neither be sensible nor practical. Agreeing the appropriate size of the MTM Liability is important, as it creates a funding overhead and, also, it may cause the system to grow people that do not match Margin usage, resulting in both deficits and surpluses at different Rank/Rate/Branch/Specialisation levels even though the total MTM allowance is less than the total used. The rationale differentiates between those events which are measurable and predictable and over which the Personnel Planner has no control and those events which are theoretically subject to management control and do not create an authorised and funded overhead.

b. From the MAs that are counted for Margin Liability, it is possible to calculate or estimate from experience, with reasonable accuracy, the numbers in each rank and rate that should be added to the Liability.

c. Seagoers Leave (SGL). SGL is an example over which ACOS(PCap) has no control (it is a condition of service), but it is reasonably predictable and consistent over time so it legitimately contributes to the Margin Liability. To calculate, for example, the SGL Margin for POET(ME)s, the total number of POET(ME)s serving at sea can be determined from JPA; then, knowing the average length of a sea assignment and the entitlement to SGL, it is comparatively simple to calculate how many additional POET(ME)s are required in the Navy to compensate for those on SGL at any one time; this number contributes to the Margin Liability. While this appears straightforward, even with something as predictable as SGL, there are complications, as the requirement for additional people is not evenly distributed throughout the year - traditionally the requirement peaks around the school holiday periods when the bulk of turnovers occur and individuals take their outstanding leave.

3. Margin in the Squad System

In specialisations that are subject to Squad System manning, the principle is that there is generally no separate Liability allowance for Manning and Training Margin. Almost all Margin provision, and demand for augmentation, is subsumed into the Squad (except for some Career Course Margin cover). The size of the Squad thus reflects the requirement to man the ship and to accommodate Margin usage. Squad sizes are calculated to take account of anticipated requirements for Margin usage and therefore may be adjusted, by CNPS in agreement with the employer, in the light of experience.
4. **Funding and Paying for the Margin**

Unlike occupied Positions in Establishments, which are paid for entirely by the owner of the UIN specified against the organisation concerned, some elements of the Margin are paid for by the employer and some by Navy Command on behalf of the PPO (2SL). The breakdown of ‘who pays for what’ is also shown in Table 3B-1. Because Margin usage is the most volatile component of the manpower equation it is therefore the most difficult to estimate and cost by TLB and by category. Excessive use of the Margin can incur costs to one TLB while leading directly to gapping in another; this may necessitate a re-distribution of (rather than additional) resources. Whilst TLBs cost the manpower resources required by their programmes on the basis of forecast average strength during the scrutiny process, towards the end of each PR round it is necessary for ACOS(PCap) and ACOS(RP) to reconcile the TLBs’ costings in order that the total of all the individual bids matches ACOS(PCap)’s global estimate. Cash allocations and risk assessments are then made on the basis of this reconciled count.

5. **Margin Efficiency**

Improvement of the efficiency and effectiveness of Margin Liability and usage helps to maximise the number of filled Positions. This can be achieved by concentrating on two aspects: by improving the ‘match’ between the planned Margin and those in the Margin most likely to require reliefs; and by reducing usage of the Manning or Training Margin. This twin track approach is illustrated in Figure 3B-1.

</table>
Notes:

1. Revised MTM Categories were introduced in June 2010, following a tri-Service requirement to accurately capture MTM usage in greater detail, (Reference 2010DIN01-100 Tri-Service Manning and Training Margins).

2. There are 2 types of MTM Category, those in which individuals will be assigned into (Table 3B-1), and those in which the individual will be recorded as absence (on leave), by their Unit HR Team, whilst in their current assignment (Table 3B-2).

3. Individuals are only to be assigned into the MTM if they are expected to remain there for a period equal to or greater than the Assignment Trigger Point. For shorter periods the individual should be move and tracked only.

4. An assignment, but not a Move & Track (M&T), drives costs. Therefore personnel costs remain with the UIN of the assigned Position, even after an M&T into a MA that is shown above as being funded by the PPO.

5. Personnel on Resettlement will remain assigned to their existing Positions, irrespective of whether reliefs have been provided to undertake the Positions’ tasks.

6. Need to capture medical downgrades etc. <3mth from other JPA data e.g. MEDCAT. Service men or women remains in unit or Move & Tracked (M&T) to hospital, for example, so costs remain with parent TLB. The 3 month threshold will be reviewed by ACOS(PCap) after further experience with JPA.

7. Untrained strength does not count towards the Manning and Training Margin.

CHAPTER 4
INTRODUCTION AND OVERVIEW

0401. Application of Recruiting Rules
All rules outlined in this Part of BR 3(1), unless otherwise stated, apply to all candidates regardless of application to Regular Service or Reserve Forces. A plan of the structure of Part 4 is here:

Structure Diagram (Forms)

0402. Recruiting Requirements
In order to achieve Navy Command objectives through delivery of the Second Sea Lord’s Personnel Effects, the Naval Service requires the ability to identify, attract and recruit from our society in order to generate sufficient, motivated and capable service personnel to join the Trained Strength.

0403. Naval Service Recruiting Policy
The policy for Naval Service Recruiting is to:

a. Deliver recruits that reflect the eligible population of UK society, through the operation of a recruiting process that is inclusive, fair to all and free of bias.

b. Deliver recruits that meet the quality requirements of the Naval Service through the operation of validated assessment and selection processes.

c. Ensure potential recruits, from initial contact to entering the Naval Service, are informed and aware of the loyalty and personal commitment necessary to join and in particular the requirement for ‘grit’ in a fighting service to enable informed career choice.

d. Ensure potential recruits are informed of the employment options available, whilst having their expectations managed appropriately and their eligibility assessed. Achieving realistic, appropriate and accepted employment in the branch of their preference is paramount in motivating a potential recruit to persevere with the recruiting process, to succeed in their training and subsequently wish to be retained on the trained strength.

e. Provide effective personal mentoring to candidates who are committed to joining the Naval Service to prepare them for entry and initial training and provide realistic expectations of life and employment in the Naval Service.
f. Provide potential recruits with opportunities to interact with Naval Service personnel. These contacts are a powerful tool that is able to dispel misconceptions, to convert awareness into a desire to find out more and may be the final motivator that leads an applicant to join. These constitute an integral part of RN Outreach marketing activities and will be supported by the Fighting Arms of the Naval Service.

g. Provide the ‘gatekeepers’ of potential recruits - the Families, Friends and Community Leaders - with sufficient information to enable them to support their young peoples’ choices and understand the commitment necessary to undertake a Naval Service career.

h. Conduct research to determine that the recruiting message reaches the target audiences in an appropriate and acceptable manner whilst complying with Government, MOD and Navy Command standards for media and public engagement.

i. Develop and utilise appropriate media to distribute the Naval Service recruiting message to target populations and ensure regular revision to recognise technological development, research findings and marketing initiatives especially as research has confirmed the media habits in society change at a faster rate than has previously been appreciated.

j. Comply with all relevant legislation, MOD and Navy Command directives and in particular the DHALI recommendations.

k. Ensure the media messages and activity to raise the Naval Service awareness in pools of potential recruits are, where appropriate:

   (1) Included in Navy Command strategic communications and engagement plans.

   (2) Provided to Def(PR) to influence and enable coherence of their activity.

   (3) Reflecting Navy Command manning priorities.

   (4) Co-ordinated with Navy Command Youth and Cadets strategy to ensure a coherent approach is taken to encourage this important pool of potential recruits.

   (5) Distributed through appropriate communications channels for targeted marketing campaigns.

   (6) Compliant with Cabinet Office, MOD and Navy Command direction.

0404. Organisation of Recruiting Field Force

The 6 Area Recruiting Officers (AROs) have responsibility for the Recruiting Field Force (RFF) under the command of the Commanding Officer Recruiting Field Force (CO RFF).
0405. Captain Naval Recruiting - Functions and Responsibilities

Captain Naval Recruiting (CNR) is responsible for interpreting Navy Command recruiting policy to design and implement a national recruiting strategy to deliver recruiting targets. This is achieved through provision of a validated recruiting process and its key enablers (training, information systems, marketing tools, visits), advising on resource issues, coordinating national and cross-regional boundary matters, market research, and provision of enabling contracts for Royal Navy in the Public Eye (RNIFE) and Outreach activity. CNR also provides a specialist recruiting role for the Royal Fleet Auxiliary (RFA) and Medical personnel.

0406. Candidate Definitions

a. **Candidate:** A generic term for any individual in the process irrespective of where they are in the recruiting journey.

b. **Contact:** An individual who has shown interest in the Naval Service, but not yet attended for Recruit Test (RT), by making an inquiry through the contact centre, completing a “Find Out More Form” or visiting the AFCO.

c. **Applicant:** A candidate who has sat the RT whether passed or failed.

d. **Potential Entrant:** A candidate who has been given an offer of service and a provisional entry date.

e. **Entrant:** A candidate who has entered service.

f. **Re-entry:** A candidate who has former service in the British Armed Forces.

0407. Legislative Exclusions

a. The government has excluded the Armed Forces from the Equality Act for Operational and Safety requirements.

b. Service in the Armed Forces is excluded from the Equality Act employment provisions on Disability (Equality Act Schedule 9 para 4(3)). Employment as a Ministry of Defence civilian, without a rank, should still fall within the Equality Act. The Government has said the exclusion is: ‘because the Armed Forces personnel need to be combat effective in order to meet a world-wide liability to deploy, and to ensure that military health and fitness remain matters for Ministry of Defence (MoD) Ministers based on military advice, not for the courts’.

c. An amendment challenging the exclusion was resisted by the Government in the House of Commons Committee on the Equality Bill, (Col 346-349, Hansard, Public Bill Cttee, 18th June 2009) and also in the House of Lords Committee (Col 1278 HL Hansard, 25th Jan 2010).

d. In 2009 the UK Government maintained its position by entering a reservation on service in the Armed Forces in its ratification of the UN Disability Convention (Annex A to the document at the following: www.officefordisability.gov.uk/docs/wor/uncon/un-memo.pdf).
e. These exclusions include people with severe stammers and other speech impediments.

f. RFA recruiting is not exempt from the employment law that allows the Naval Service to legally discriminate and exclude candidates for certain protected characteristics. RFA candidates that do declare disability or learning difficulties will receive no adjustment to the assessment process or recruiting standards\(^1\) and will be required to meet the basic criteria. No additional allowance is to be made during the recruiting process for any declared disability or learning difficulties and each candidate’s suitability for employment in the RFA is to be measured against the current standards.

0408. Proposals for Change to Recruiting Process
Information regarding the process to follow when proposing changes to the recruiting process, including changes that will result in the generation of Recruiting General Memorandums, Recruiting Instructions, Recruiting Operations Manual or changes to BR 3(1) Part 4, is detailed in Chapter 4 of CNR’s Standing Orders.

0409. Recruiting Operations’ Manual - Function and Referencing

a. Supplementary information regarding the desk level processes to be followed in various recruiting serials is issued as the Recruiting Operations Manual. While Part 4 of BR 3(1) details the policy for Naval recruiting, the Recruiting Operations Manual provides systematic instructions to enable field force personnel to achieve the policy’s goal.

b. The Recruiting Operations Manual is maintained by the Royal Naval Centre of Recruiting and is used as one of the standards against which audits are assessed.

---

\(1\) Recruiting standards refers to both medical and academic standards.

CHAPTER 5

CAREERS COUNSELLING

0501. Initial Commission Periods (Officers)
Details of officer commissions are at Chapter 48 Section 1.

0502. Initial Engagement Periods (Ratings and Other Ranks)

a. Ratings and Other Ranks join the Naval Service on a 12 year Engagement Stage 1 (ES1), with the possibility thereafter of transferring to an Engagement Stage 2 (ES2) – to 20 years’ service or age 40, whichever is later – and then to Engagement Stage 3 (ES3).- Chapter 48 Section 2.

b. All RNR ratings join for an Initial Engagement of 5 calendar years with subsequent re-engagements every 5 years. Ratings over 40 will normally only be re-engaged until their 45th birthday. Separate application for an extension of service is required to serve beyond the normal retirement age of 45. More detail is at BR 3(2) Chapter 2.

0503. Branch of Preference (BOP) - General Guidance

a. Some candidates will be totally unaware of which BOP they would like or are suitable for. Many will have only a limited knowledge of what they would like to do, and these candidates will need special and considerate counselling towards an appropriate BOP.

b. It is essential that, at the time of application, candidates are made aware of the full range of possibilities open to them.

c. Candidates who are considered suitable for a BOP which subsequently becomes over subscribed and is then closed to recruiting should be re-interviewed and an alternative BOP offered to the them. However, the final choice of branch/category must be left to the candidate. The possibility of a subsequent branch transfer back to their original choice of BOP is never to be given to the candidate and is never to be offered as an inducement to choose a particular BOP. Candidates who do not wish to consider an alternative BOP are to be withdrawn and invited to re-visit the AFCO at a future date.

d. Candidates who are considered by Careers Staff to be more suitable for a branch/category other than the BOP chosen are to be carefully counselled and alternative opportunities explained.

e. The final choice of branch/category must be left to the candidate.

f. RNR candidates are recruited to the Naval Service and only allocated on completion of Phase 1 training – approximately 9-12 months after attestation. They may express a preference for a particular specialisation, but they are allocated as directed by the Maritime Reserves Branch Manager.
0504. Careers Advisers – Candidate Relationship Management (CRM)

a. Making Contact. In order to improve conversion rates of interest, enquirers will be initially categorised as either ‘Active’ or ‘Passive’. This categorisation will enable enquirers who have already decided on a BOP to have early interaction with an AFCO to start their recruiting journey without delay.

b. It is vital to ensure that all eligible ‘Active’ enquirers are passed to the AFCO in an efficient and timely manner for immediate processing. Enquirers who are confident they want to join the Naval Service, but are uncertain of their BOP, will also be offered earlier interaction with an AFCO.

c. It is vital to ensure all ‘Passive’ and ‘Ill-Informed’ enquirers are nurtured throughout the process and sufficiently engaged by the Contact Centre and AFCOs to make an informed career choice prior to commencing the application process:

   (1) An ‘Active’ enquirer is an individual who is actively seeking a career in the NS; this could be on-line, a walk-in at an AFCO or at an event;

   (2) A ‘Passive’ enquirer is an individual who has a latent interest in joining the NS, they too could be online, a walk-in at an AFCO or at an event;

   (3) An ‘Informed’ enquirer is an individual who has researched their job choice, considers themselves eligible and should be encouraged to submit an application;

   (4) An ‘Ill-Informed’ enquirer is an individual who needs further careers guidance and should not yet submit an application.

d. One of the key areas of loss to the number of potential recruits is failure to make contact. Feedback and trials indicate that adopting a multi-communication approach over a number of days yields the most success, with an effective approach being a combination of e-mail, text and telephone.

e. If no contact is made, or the candidate fails to respond to any message left, the Defence Recruiting System (DRS) record is to be withdrawn 3 days after the final contact attempt. For those not on DRS, the relevant feedback in the Candidate Referral Form should be used to inform the Contact Centre.

f. Should the potential candidate want more detailed information, or during discussion disclose further medical information relating to their specific conditions, the CA or ACLO must then politely halt the conversation. The CA or ACLO must clearly state that they are not medically trained and cannot offer advice on medical conditions.

---

1. If it is found the options presented in Contact Centre feedback require expansion, feed these change proposals to CNR-GPS SO2.

2. Or other nominated individual deemed competent by the Office Manager.
g. With the potential candidate’s consent the CA or ACLO2 can forward their contact details to the medical specialists at the Service Entry Medical Cell (SEMC) who will contact the person to discuss the specifics of their medical condition. The SEMC will advise the potential candidate and AFCO whether entry into the service may be possible or not.

**0505. Ratings and Other Ranks - Statutory Right of Discharge**

a. Ratings/Other Ranks enlisting in the Naval Service for the first time have a statutory right to claim discharge within their first 6 months’ service, subject to completing 4 weeks effective service (excluding leave periods and any forfeited service) from date of entry. Recruits who exercise this right will be entitled to release no later than 14 days after giving notice in writing to their Commanding Officer. See Para 5404 sub para a for further details. Ratings/Other Ranks who re-enter the same service, e.g. ex RN re-entering the RN, do not have this statutory right however, former ratings entering the RM and vice versa will have this right of discharge.

b. Ratings/Other Ranks whose six month option point has passed, but who are still under the age of 18 years, now have a statutory right to end their service up until their 18th birthday by giving notice in writing to their Commanding Officer. In such cases, individuals may leave as of right, after a 3 month cooling off period, or earlier if agreed between the recruit and Service authorities – details are at Para 5404 sub para b.

**0506. Ratings and Other Ranks – Early Termination (following end of Phase 1 and Phase 2 Training)**

Having completed 6 months service, or reached the age of 18 (if this comes after the end of the 6 month period), Ratings and Other Ranks must complete a minimum of 2½ years from the end of their Phase 1 and Phase 2 Training before they become eligible to exercise their right to give 12 months notice to leave their Service. Naval Nurses (Student) must complete 3 years service before they are eligible to apply for Early Termination. The training period varies from branch to branch and is shown in the Summary of Entry Standards. See Chapter 53 for further details.

**0507. Dietary Requirements (Health/Religion)**

The Naval Service aims to cater for all special religious dietary requirements where possible and in general vegetarian options or halal or kosher meat may be provided. However, preparation of kosher food in strict observance of the Jewish faith cannot be guaranteed. Vegetarian, halal and kosher Operational Ration Packs are readily available when deployed on operations and exercises.
0508. Religion and Religious Observances

a. The Naval Service places great importance on the spiritual development of Service personnel and is committed to giving individuals the opportunity to practise their religious observances wherever possible. A number of religious leaders act as advisers to the Armed Forces on matters of Christian and non-Christian religious requirements. Every reasonable effort is made for personnel to have contact with their religious leaders and visit places of worship (church, synagogue, mosque, temple). Wherever practicable, areas for worship will be made available in all Service establishments, including ships and submarines at sea.

b. Every effort will be made to allow the celebration of religious festivals/holidays (e.g. Yom Kippur, Easter, Christmas, Vai Sakhi, Eid Al-Fitr, Diwali, etc). In most circumstances, arrangements can be made for daily prayer although this may not always be practicable. Muslims will normally be allowed to fast during Ramadan. In operational conditions or when the physical demands on an individual are high and to fast may prove hazardous, fasting may not be permissible.

c. For more details see Chapter 31.

0509. Specific Religious Dress

a. General. The Naval Service recognises the need to observe specific codes of dress in accordance with a number of religious beliefs. Specific rules are detailed below. In general, no exceptions are made to standard Naval Uniform regulations (see Part 6, specifically Chapter 38 Section 2). CNR should be contacted in the event of any doubt regarding what can and cannot be observed.

b. Sikhs. In the Naval Service, Sikhs are permitted to wear the five K’s: Kara (steel bangle), Kesh (uncut hair), Kanga (small comb), Kaccha (special design knee length underwear) and Kirpan (small sword); male Sikhs may also wear a turban. However, some constraints regarding the wearing of a turban and keeping facial hair uncut do exist, as follows

(1) Turbans. Some trades require specialist headgear to be worn, especially under operational circumstances. Examples of this are Commanders’ helmets in armoured fighting vehicles, combat helmets, breathing apparatus (full hood) for fire-fighters, and flying helmets for aircrew in some types of aircraft. Turbans are incompatible with specialist headgear which must be worn on health and safety grounds. Male Sikh personnel can normally wear a patka under specialist headgear, however, this is not possible under a flying helmet which must be closely fitted to the contours of the head. Aircrew with long hair, male and female, may be required to have their hair cut short in order to achieve a satisfactory fit of a flying helmet.

(2) Facial Hair. For occupational or operational reasons, where a hazard clearly exists, personnel authorised to wear beards on religious grounds will have to be prepared to modify or remove their beards to such an extent as to enable the correct wearing of a respirator or breathing apparatus.
(a) **Aircrew.** It is unlikely that a male Sikh will be able to obtain an effective seal on his oxygen mask without trimming his beard.

(b) **Respirator.** An effective seal on a respirator can only be achieved when the skin is clean shaven. In an operational environment where there is an NBC threat, Sikhs or other personnel with beards will need to shave. However, when practising NBC drills, male Sikh personnel would not be required to shave their beards.

(3) Candidates attending some CNR courses will be required to wear protective headgear, but if a candidate refuses on religious grounds, they must be allowed to sit out that particular element of the exercise. It should be explained to any attendee who refuses to wear protective headgear that, were they to join the Naval Service, there may well be circumstances where they would be required to wear protective headgear. These pre-courses include but are not limited to:

- (a) PRNC(R) and RNLALCs.
- (b) CTCRM LALC.
- (c) CNR-sponsored outreach courses.

(4) POC and PRMC require helmets to be worn for parts of the course to comply with Health and safety standards and all must comply. Some of these tests are criteria pass or fail and must be done by all candidates on PRMC and POC. Additionally, non-attendance on areas of the courses would give an unfair advantage to a candidate who would be able to rest between activities. Other areas of PRMC and POC require full immersion in water in confined space. Long or loose hair could pose a safety risk if not fully tied up or covered.

c. **Muslim Men - Facial Hair.** For occupational or operational reasons, where a hazard clearly exists, personnel authorised to wear beards on religious grounds will have to be prepared to modify or remove their beards to such an extent as to enable the correct wearing of a respirator or breathing apparatus.

(1) **Aircrew.** It is unlikely that a male Muslim will be able to obtain an effective seal on his oxygen mask without trimming his beard.

(2) **Respirator.** An effective seal on a respirator can only be achieved when the skin is clean shaven. In an operational environment where there is an NBC threat, personnel with beards will need to shave. However, when practising NBC drills, male Muslim personnel would not be required to shave their beards.
d. **Muslim Women.** Muslim women are allowed to wear uniform trousers, rather than a skirt and may wear a hijab except when operational or health and safety considerations dictate otherwise. Long sleeve shirts can be worn with all forms of Service dress. Tracksuit bottoms may be worn for sport. All Naval Service personnel are required to achieve a basic swimming standard as part of their training. Although every effort will be made to ensure that these tests take place in an all female environment, it should be stressed to female Muslim personnel that this may not always be possible.

e. **Jewish Men.** A male member of the Jewish faith may wear a dark plain patterned yarmulke whenever he removes other head-dress.

0510. **Childcare Provision During and After Initial Training**

a. Providing care for a child or children as a married, single or lone parent is not incompatible with Service life nor is it a bar to entry into the Naval Service. However, life in the Naval Service makes unique demands upon all Service personnel and their families. All serving personnel are required to serve away from home for extended periods of time, often at short notice and no guarantees can ever be given about the pattern of working hours or the amount of time that will be spent away from home.

b. Provision for full time care of children must be made which does not depend on the presence of the primary parent. If both parents are serving personnel, this will usually mean that a third person will have to be ready to take responsibility for child care since either or both parents might be required to serve away from home at the same time and at short notice.

c. During the initial training period accommodation for families is not provided.

d. **ACTION: CANDIDATES.** Candidates who are parents will have to demonstrate their ability to provide full-time child care, if required, at the Interview stage. There are many ways in which this might be provided. The following list is not exhaustive, but provides guidance over typical arrangements:

(1) Child cared for by spouse/civil partner/partner/other relative.

(2) Child living with grandparents.

(3) Either of above supported by part-time child care.

(4) Full time nanny employed.

(5) Full time boarding school (but arrangements during holidays must be made).
e. Single or lone parents must also think seriously about the provision of child care after the training period. Although family accommodation is available after initial training, no special arrangements can be made for working hours or assignments for single/lone parents and there will be many occasions when 24 hour child care is essential on a long term basis.

0511. Disabilities and Specific Learning Difficulties (SpLD)

a. SpLDs are not a bar to entry, nor do they have to be declared. However, if applicants declare their SpLD, they are not allowed more time/assistance to complete aptitude tests.

b. **ACTION - CAREERS STAFF.** Careers Staff must not attempt to diagnose SpLDs themselves or make reference to claimed SpLDs in recruiting documentation/MIS.

c. As a general rule, if an applicant’s level of literacy is not adequate enough to cope with completion of application forms and complete the Recruiting Tests (in accordance with the normal conditions and standards) then it is unlikely that their performance will improve sufficiently for them to complete training and deal successfully with the demands of a Service career.

d. RFA recruiting is not exempt from the employment law that allows the Naval Service to legally discriminate and exclude candidates for certain protected characteristics. RFA candidates who declare disability or learning difficulties will receive no adjustment to the assessment process or recruiting standards and will be required to meet the basic criteria. No additional allowance is to be made during the recruiting process for any declared disability or learning difficulties and each candidate’s suitability for employment in the RFA measured against the current standards.

0512. Sexual Orientation

Candidates are not to be asked about their sexual orientation by the recruiter\(^3\). Sexual orientation is regarded as a private matter for the individual. If at any stage during the recruiting process a candidate discloses the fact that they are heterosexual, lesbian, gay, bisexual or transsexual, this fact is not to be recorded by the recruiter.

0513. Transsexuals

a. Candidates claiming to be transsexuals are to be processed and treated like any other candidate. They must meet the same entry criteria for their chosen Branch of Preference as other applicants.

b. Individuals who are receiving medical counselling or treatment towards gender re-assignment should have their entry deferred until all treatments are complete. Those who have undergone gender re-assignment will continue to require hormone replacement therapy, but this is not a bar to entry (see 2009DIN01-07 Para 22).

---

\(^3\) The Recruit Trainee Survey and Potential Recruit Survey asks a question regarding sexual orientation, however these surveys are anonymous. Any information collated will be used for research purposes only and will not identify a candidate.
c. In cases where there are additional concerns, from either the candidate or the AFCO, candidates can be referred to the SMO SE. However, this is only to be done if the candidate consents to that line of referral.

d. All Personnel are reminded of the right to privacy – prohibition of disclosure of “Protected Information”. Section 22 of the Gender Recognition Act 2004 establishes a right to privacy for the transsexual person in that it is a criminal offence for a person to disclose information that he or she has acquired in an official capacity about an individual’s application for a Gender Reassignment Certificate or about the gender history of an applicant.

0514. Financially Supported Education Schemes and Awards

a. A range of financially supported education schemes and awards are available to candidates looking to join the Service in certain branches, including:

   (1) Scholarship and Reserved Place Scheme: Eligibility, Selection and Progression.

   (2) Defence Sixth Form College (DSFC)/Welbeck College: Entrance Requirements and Applications.

   (3) Bursaries for University Study: Applications, Awards and Service Commitments.

   (4) Defence Technical Undergraduate Scheme (DTUS) for Engineering Students: Applications, Awards and Approved Degrees.

   (5) Cadetships for Medical and Dental Students (Final 3 Years).

b. Reference. Explanatory detail regarding these schemes and awards is found at Chapter 15.

CHAPTER 6

SERVICE CONSTRAINTS

0601. Un-discharged Bankruptcy, IVA or Significant Debts

a. Once entered into the Naval Service financial problems may, through worry and other pressures, seriously reduce an individual's efficiency. Moreover, if an individual is financially irresponsible, particularly if it leads to dishonesty, it will affect future advancement, the handling of classified material, and may therefore become an administrative burden leading to discharge from the Service. The examination of personal finances is therefore an important part of the recruiting process. Careers Staff/CNR OES must assess the candidate's suitability in terms of financial responsibility. In particular, information must be obtained about the candidate's debts, assets, monthly outgoings and income and any unpaid County Court Judgements (which can be a bar to entry).

b. Candidates who are declared "Undischarged Bankrupt" are not eligible for entry into the Naval Service until they can produce proof of "Discharge from Bankruptcy".

c. Candidates who declare significant debts are offered the opportunity to demonstrate their ability to cope with the repayment of the debts.

d. Independent Voluntary Agreements (IVA) (or Trusted Deeds in Scotland) are themselves not a bar to entry. A candidate who has entered into an IVA will automatically get a financial check as part of the Security Clearance, which may or may not result in the candidate being given an SC. Being given an SC means they are not a security risk from a financial viewpoint, but it does not mean they are eligible from an employment point of view. When processing candidates with an IVA, consideration should be given to the time to run before expiry, time before entry, past performance in maintaining IVA payments and the candidate's attitude to debt.

e. On the basis of the information obtained during the interview, an assessment must be made of the candidate's likely trustworthiness and ability to survive financially on future service pay, without becoming an administrative burden. In making this assessment the primary concern must be whether or not the candidate is financially responsible and his/her attitude towards incurring debts.

f. It is impossible to state a sum which could be considered as unacceptable; e.g. a mortgage (or other secured loan) or student loan are entirely different debts from those owing to a debt agency or credit card. Careers Staff must use their judgement and experience but in all cases when total outgoings exceed 50% of the candidate's expected rate of pay on entry, the candidate must demonstrate that their outgoings will not present any undue pressure during training. Where Careers Staff consider the candidate's outgoings are in excess of 50% of the expected rate of pay on entry, the candidate can be offered the opportunity to clarify their financial situation by completing a financial summary.
0602. Credit Reference Checks

a. As part of the Security Check, NSV carries out a credit reference check for all candidates over the age of 19 years. The check may reveal serious financial difficulties and the existence of any unpaid County Court Judgements against a candidate.

b. **ACTION: AFCO.** Candidates should be made aware that this check will be carried out.

c. County Court Judgements, when declared by the candidate, must be cleared before a SC can be applied for. This can be done by the candidate obtaining a “Certificate of Satisfaction” from the Court which made the Judgement. Records of County Court judgements are maintained on a central register and once a judgement is registered there are only two ways it can be removed:

   (1) By application to the issuing court with evidence that the debt has been paid in full or,

   (2) By providing sufficient evidence to the issuing court that the original judgement was entered against the debtor in error.

0603. Political Activities Within the Naval Service

Regulations regarding Political Activities within the Naval Service are at BRd2 (QRRN) Chapter 66.

0604. Membership of Political Parties

a. Service personnel are not permitted to take an active part in the affairs of any political organisation, party or movement. They are not allowed to take part in political marches or demonstrations and are not permitted to participate in industrial action or in any form of political activity organised by civilian trade unions or professional associations.

b. There is, however, no restriction on the membership of a political party or trade union and there is no restriction on the attendance at political or trade union meetings where attendance at such a meeting is intended to enhance trade skills or knowledge. Uniform is not to be worn at such meetings.

0605. Membership of Extremist Groups

a. Service life precludes membership or support for extremist groups or organisations whose purpose includes incitement to racial hatred and violence.

b. There are numerous such groups and organisations with frequently changing names and objectives. Candidates who, during the recruiting process, declare themselves members of such groups, or who have unspent convictions for racially motivated offences or express extreme racial views, are to be interviewed and rejected for lack of personal qualities.
c. CNR SO1 OPS is to be contacted for clarification if Careers Staff have any doubt about such a group or organisation.

0606. Formal Police Cautions and Fixed Penalties

a. The civil police in England, Wales and Northern Ireland have the discretion in certain circumstances not to put a case to the Crown Prosecution Service but to award a Formal Police Caution (FPC) or, for those under the age of 18 years, a Reprimand or Final Warning. In Scotland, the sanction which corresponds to the FPC is the Fixed Penalty.

b. FPCs, Reprimands and Final Warnings are held on police records for up to five years but are not subject to the Rehabilitation of Offenders Act. There is no requirement for the Careers Adviser to ask questions relating to FPCs, Reprimands, Final Warnings or Fixed Penalties. However, candidates must declare, in confidence, all convictions to NSV when application is made for Security Clearance. The rehabilitation period is taken as expired when the FPC is given.

0607. Anti-Social Behaviour Orders

a. Technically, an Anti Social Behaviour Order (ASBO) is not a punishment, but it may be ordered in conjunction with a punishment, e.g. a fine. An ASBO on its own should be considered ‘Spent’ once the Order ceases to have effect, but where an ASBO has been joined with a sentence of punishment, the rehabilitation period is the period associated with the punishment.

b. ACTION - CAREERS STAFF. Candidates with an ‘Unspent’ ASBO are not to be processed.

0608. Care and Restraining Orders

a. Candidates who are the subject of Care or Supervision orders which have been made for reasons other than for the committing of a crime, e.g. because of parental neglect or in need of care and protection, may be considered for entry before the Court order has run its full course, provided they appear suitable in all other respects. Application is to be made to the relevant Local Authority using the appropriate letter. The Local Authority letter of recommendation must be included with Part Entry Papers (PEPs) when forwarded to the New Entry Training establishment (NETE).

b. ACTION - CAREERS STAFF. Candidates who are subject to Restraining orders are not to be processed until the Order has passed its expiry date.

0609. Custodial Sentences

All enquiries received from those serving custodial sentences are to be referred to CNR OPS CA1 PC.
0610. Police Involvement – Future and Prior to Entry

a. **ACTION – CAREERS STAFF.** All candidates, whether they have declared criminal convictions or not are, on completion of interview, to be given the verbal caution relating to future Police involvement, as stated on the post-interview caution paperwork available on the MIS.

b. Those who declare Police involvement prior to entry are not to be entered into the Naval Service until the outcome of the Police investigation or court appearance is known. Those who are subsequently sentenced are to be processed in accordance with these instructions.

0611. Declared Criminal Convictions – Spent and Unspent

a. The lives of those in the Naval Service depend on the reliability and integrity of each and every member of a team. Those recruited into the Naval Service may operate complex machinery and work in independent teams. They will also handle weapons and explosives. It is the duty of the Naval Service to preserve the safety of all personnel and ensure that young, impressionable ratings and other ranks are not corrupted by those lacking in integrity.

b. The assessment of the reliability and suitability for employment in the Naval Service is the responsibility of CNR OPS SO1. Certain criminal convictions, while they may be acceptable and tolerated in civil society, are not acceptable in the Naval Service. As a general rule candidates with criminal convictions that are unspent will not be eligible for entry. However, where the unspent conviction meets certain conditions laid down in ROM Chapter 14, a waiver, or dispensation, may be sought. Each application is considered on its merits. The gravity and nature of the offence(s) are the main factors when considering a dispensation.

c. Careers Advisers may openly discuss ‘unspent’ convictions with the candidate to establish suitability for entry on completion selection interview; ‘spent’ convictions must not be discussed, but see sub para d below.

d. Candidates applying for Medical branches are excluded from the Rehabilitation of Offenders Act and are not afforded protection from it (Note 6 MOD Form 493). Accordingly, candidates for Medical branches may be questioned about ‘spent’ and ‘unspent’ convictions declared on online application and MOD Form 493. These candidates must comply with the requirements of the Disclosure & Barring Service (DBS). Details for the Naval Service are at Chapter 60 Section 7.

e. Only unspent criminal convictions need be disclosed to Careers Advisers unless the candidate is applying for entry into a Medical/Dental branch (or Nursing Service), in which case all convictions must be disclosed. However, all criminal convictions (including Formal Police Cautions) must be declared, in confidence, to the NSV when an application is made for Security Clearance. Candidates must also inform Careers Advisers of any police involvement, including the requirement to attend court as a witness, prior to their entry.
f. Candidates who have declared criminal convictions on their online application and MOD Form 493 which are ‘unspent’ (and ‘spent’ for Medical/Dental branch candidates) must meet the requirements shown above. If there is a mandatory rehabilitation period required for a specific offence or sentence then the candidate must not be processed until that period is complete, unless a waiver can be applied.

g. **ACTION – CAREERS ADVISER.** Career Advisers are to question the candidate and establish details of convictions after the Selection Interview. On completion, if the candidate is considered suitable, an application for a waiver should be made in accordance with ROM Chapter 14.

h. **Reference: Recruiting Operations Manual (ROM) Chapter 14 – Clearances and Waivers.** Explanatory detail regarding waivers is found at ROM Chapter 14 – Clearances and Waivers.

### 0612. Criminal Convictions – Failure to Declare

a. On receipt of the NSV 001, the NSV will compare the criminal conviction declarations made with those revealed during the Security Check.

b. Except in the most serious cases, those candidates who fail to declare ‘spent’ convictions will be sent a ‘second chance letter’ by NSV requesting them to reconsider their Criminal Convictions declaration. If the candidate further refuses to admit convictions, NSV would normally refuse a security clearance on the grounds of ‘dishonesty during the vetting process’ and inform sponsor. A reject letter is to be sent by the sponsor direct to the candidate giving the reason for rejection as “dishonesty during the recruiting process”. If appropriate, the letter will state a waiting period, which must elapse before the candidate may reapply.

### 0613. Drugs

a. Drug misuse may be tolerated in some walks of life, but the lives of those in the Naval Service depend on the reliability of each and every member of a team. Drug misuse is not only illegal, it is also incompatible with the duty of the Naval Service to preserve the safety of all personnel. More detail is at Chapter 21.

b. **Drugs Classifications.** Class A, B or C drugs are classified by the Misuse of Drugs Act 1971. The following unspent convictions for drugs related offences are a Bar to entry:

1. Any conviction relating to Trafficking or Supply of drugs.

2. Any conviction relating to Class A drugs.

3. More than one conviction for the use of Class B or Class C drugs. A single conviction for “possession for personal use” of a Class B or C drug may be considered for a Waiver.
c. The link below to the Home Office website lists the classifications of illegal drugs. In the case of any doubt clarification is to be sought from CNR-OPS RR.

http://www.homeoffice.gov.uk/drugs/drug-law/

d. **Compulsory Drug Testing (CDT).** All Naval Service personnel are subject to Compulsory Drug Testing (CDT) and a positive test result may lead to Administrative Discharge:

   1. **Ratings/Other Ranks.** Discharge SNLR.
   2. **Officers.** Discharge Misconduct.

   Both Discharge categories are a bar to re-entry into the Naval Service. Personnel discharged from the Army and RAF after a positive CDT test result are also ineligible for entry into the Naval Service.

0614. **DBS/Disclosure Certificate**

a. Government legislation requires people working with children and vulnerable persons to be subject to checks by the Disclosure and Barring Service (DBS) and issued with a Disclosure Certificate (DC). NSV administer the application process for the MoD and all MoD clearances are conducted at the ‘Enhanced’ level. If appropriate, NSV will issue a letter informing the DC sponsor that a DC has been issued.

b. The requirement to comply with this legislation includes all careers staff and members of presentation teams. The DC procedures for members of CNR staff are contained within CNR Standing Orders and will be updated by RGM as required.

c. A DC that is acceptable to the MOD can only be obtained from the DBS when application is made on a Disclosure Application Form (DAF) through NSV who are the MOD focal point for processing requests for Disclosure Certificates.

d. **DC Requirements for Specific Branches.** This procedure only applies to candidates for the following branches:

   1. Medical, Dental and Nursing Officers.
   2. Nurses, Medical Assistants, Medical Technicians and Dental Nurses.
   3. Chaplains.
   4. Re-entry Leading Physical Training Instructors.
e. **ACTION - CAREERS STAFF.** Careers Staff must inform candidates for the branches listed above (including RNR), during initial discussions, that the post for which they wish to apply requires disclosure checking. It should be explained that this is a legal requirement and an acceptable Disclosure Certificate will be required for which they will have to be checked by the DBS. A statement to this effect will be included on all appropriate Careers Information.

f. **Disclosure Certificate (DC) Procedure**

   (1) Candidates complete DAF with the Section B term “Trainee” before their prospective Job Title.

   (2) **ACTION - AFCO/SPECIALIST RECRUITER.** Act as Verifying Officer and use UIN N6130A only.

   (3) Completed forms sent to NSV for processing, and SYVETT-003A form completed and sent to NAVY PSYA-SYVETT DBS MAILBOX (MULTIUSER).

   (4) **ACTION - CANDIDATES.** The candidate must bring the DC to the AFCO/Specialist Recruiter for sighting and then keep the original copy.

   (5) **ACTION - AFCO/SPECIALIST RECRUITER.** AFCO/Specialist Recruiter to verify and photocopy every page of DC, stamping and signing the copy with “Certified True Copy”. This copy is then forwarded to:

   SYVETT CRB E1
   CRB/DBS Officer
   Room 48
   Mail Point G-2
   West Battery
   Whale Island
   PORTSMOUTH
   Hampshire
   PO2 8DX

   DRS is to be updated that DC has been sighted and passed to SYVETT.

   (6) After confirmation from SYVETT the AFCO/Specialist Recruiter is to update DRS with DBS clearance.

g. **DBS Assessment: ‘Green’, ‘Amber’ and ‘Red’ Lights.** DBS will conduct necessary checks and inform the Sponsor and the candidate by providing a Disclosure Certificate assessing the candidate as either ‘green light’ or ‘red light’.

   (1) Where there is no difficulty, this is a ‘green’ light situation and NSV will issue the DC to the candidate, informing the Sponsor.
(2) Where the assessment of the disclosure certificate shows some area of concern an ‘Amber’ light situation will exist. NSV will write to the nominating authority explaining their reasons for not issuing a DC and give advice. It will, however, be the Nominating Authority’s final decision as to whether they take the advice on whether to continue with the recruitment. All such decisions will be made within CNR HQ. Individual AFCOs and Spec recruiters are responsible for advising the individual on any outcomes.

h. DBS Appeals

(1) **ACTION: CAREERS STAFF.** The following rights must be explained.

(2) In the event that a candidate believes that the information listed in the Disclosure Certificate is in error, the candidate has a right to contact DBS on the DBS Disclosure Dispute line, 0870 90 90 778, to challenge disclosure information, or if they believe any information contained in their disclosure is incorrect.

i. DAF - Disposal of Unused Forms

(1) Each DAF is uniquely numbered by the DBS.

(2) **ACTION - AFCO/Spec Medical Recruiter.** Any forms sent to candidates that are returned uncompleted to the AFCO/Spec Recruiter should be forwarded to NSV, stating that the candidate has withdrawn.

0762. Specialist Entry RNR Officers
CHAPTER 7

BASIC ELIGIBILITY AND ENTRY STANDARDS

0701. Divorce Proceedings, Recently Bereaved or Appearing as a Witness

a. With the exception of those applying for entry into the Maritime Reserves, candidates who declare that they are awaiting divorce proceedings, or have suffered a recent bereavement, are not to be fully processed until their personal circumstances have been resolved. This will ensure that, once entered, they will not be distracted during initial training.

b. Candidates who will be required to appear as a witness in a criminal or civil court may be processed, however they should be counselled that given the tempo of Phase 1 training they may wish to defer entry until after their appearance in court.

0702. Medical Standards for Candidates – General

a. Careers Advisers are not, in any circumstances, to comment on, advise or guide candidates on their medical suitability for entry.

b. All candidates must be medically fit to serve world-wide. In general, physical defects of the body, impediment of speech, defect of sight or hearing, and predisposition to constitutional or hereditary disease or weakness will cause rejection if these conditions are considered to be of such a nature as to render the candidate incapable of performing general duties in the Naval Service ashore and afloat.

c. Automatic rejection will apply to those suffering from active asthma, epilepsy, diabetes, the majority of childhood cancers (even if successfully treated), colitis, Crohns Disease or any other long standing bowel disorder or removal of spleen, rheumatoid arthritis, or other major bone or joint disorders. An application may be rejected due to other medical conditions which are not listed but which are subject to the discretion of the examining doctor or Service Medical Authorities. All medical appeals will be examined by a board chaired by SMO(SE) and should be forwarded to CNR SEMC.

0703. Option for Medical Discharge During Phase 1 Training

a. Ratings and other ranks who, during Phase 1 Training, are found to be unfit for service due to a medical condition which existed prior to entry and has so materially worsened as to render the recruit unfit to continue training will be discharged from the service on medical grounds. This period is interpreted as the first 10 weeks of training for RN recruits, and the first 15 weeks for RM recruits. For any individual this method of discharge period may therefore cover periods of back-classing, rehabilitation and leave, but with an absolute upper limit of 12 months. The following administrative action will be taken by the NETE:

   (1) A letter will be sent to the recruit (or parents/guardians if under 18) explaining the reasons underlying the decision and indicating whether they can re-apply in the future and, if so, what conditions will have to be met prior to this re-application.
(2) A discharge letter will be forwarded to the recruit's GP as part of transferring primary care. The FMed 133 will normally suffice but PMOs may provide any additional information they may wish to the GP.

(3) A letter will be forwarded to the appropriate AFCO indicating that the recruit has been discharged under the scheme and whether they may re-apply in the future.

(4) A letter will be forwarded to SMO(SE) providing full medical details of the condition leading to the discharge and indicating whether this was pre-existing and could reasonably have been expected to have been picked up at the initial medical. Information on any prior treatment or specialist assessment should also be provided.

(5) For recruits from Commonwealth and Non-UK countries, who will have immigration exemption from Week1-2, reference should be made to Para 5465.

b. Candidates who, prior to entry, deliberately withhold information of a pre-existing medical condition will be discharged Fraudulent Entry.

0704. Physical Standards for Candidates – Height

a. Minimum height standards for candidates:

   (1) MR, RM and RN General Service is 151.5 cm.

   (2) Submariner is 157 cm.

   (3) RFA personnel are not required to meet a minimum height standard.

b. With the exception of Submariners, potential candidates who measure less than the above heights can be offered the opportunity to take the RN Reach Test. The test requires candidates to reach the top clip of a standard RN bulkhead door. Test rigs are based at the Institute of Naval Medicine (Gosport), and in Rosyth, London and Manchester. Potential candidates will be required to travel to undertake the test, and will be provided with a return rail ticket by Careers Staff. Candidates should be advised that their likelihood of success in the reach test is extremely low. AFCOs are to refer candidates who wish to carry out the reach test to NAVY-CNR OPS PC CA1 (PNB 27747).

0705. Physical Standards for Candidates – Weight

a. General. The standards for entry regarding weight are contained in JSP 346. Candidates must have a minimum body mass index of 18 (see JSP 950, Chapter 2 (JSP 346, Leaflet 2, Annex C) for further clarification).
b. **BMI Standards.** Using the information provided by candidates in their online application, BMI should be checked using DRS or the calculator provided. Acceptable range is:

1. For candidates under 18 years of age, BMI between 17 and 27 inclusive.
2. For all other candidates, BMI between 18 and 28 inclusive.
3. Exceptionally, candidates who fall outside of these criteria, yet in the judgement of the CA will meet the new entry fitness standards, must be referred to NAVY CNR-OPS MM SO3 to authorise a waiver. This will allow the candidate to proceed to medical assessment, where further checks will be conducted in accordance with more detailed medical entry standards.
4. The results of BMI check is to be captured in DRS on the pre-medical section, medical summary page. This will form the auditable detail for deferring candidates who do not meet the required BMI standard.
5. Candidates who fail to meet the required BMI standard should not be advanced in the recruiting process but informed to contact the AFCO when their BMI meets the required standard. The candidate’s involvement is to be changed to deferred, under the subject heading BMI. An alert is to be set for the required contact period/s, with CAs maintaining contact with these candidates at intervals not exceeding 3 months. A journal entry is to be recorded to register contact.
6. Candidates who are deferred for BMI should be advised to contact their GP for advice in meeting the BMI standard and referred to the pre-joining fitness programme, available on the RN website. The NHS Choices website has a BMI healthy weight calculator at ‘NHS BMI Calculator’ and is available for candidates to measure their progress. Candidates should also be advised that height and weight will be measured and BMI recalculated during the medical assessment process.

c. **Royal Marines (excluding RMBS).** All RM Officer, OR and RMR candidates must weigh at least 65kg OR have a minimum BMI or 23 before undertaking the PRMC, POC or commencing New Entry Training. Weight is to be established during medical. **ACTION: CAREERS STAFF.** Candidates must be guided to maintain this minimum eligibility weight/BMI between the AFCO ME Medical and joining; a candidate who is underweight during the final entry medical check at CTCRM may not be finally accepted for RM entry. No waivers are to be issued to those who fall short of these metrics.
0706. Candidates Affected by Asthma or Hayfever

a. **Asthma.** Candidates who currently suffer from asthma, have required treatment for asthma, or have been prescribed medication, during the last four years, should not be accepted into the Service. Individuals who have suffered from asthma as a child may be considered but only if they have been treatment and symptom free for at least 4 years. Individuals prescribed a single inhaler for a chest infection may be eligible after consultation with the GP by AFCO ME.

b. **Hay Fever.** Mild attacks which would not affect the efficient performance of duty may be ignored. Severe hay fever is likely to be a bar to entry, the severity being judged by the need for prolonged medication (including inhalers). Hay fever in Aircrew has the potential to cause incapacitation in flight. Aircrew candidates with a declared history of hay fever may be considered for selection if they have had no treatment and no symptoms in the 4 years preceding their appearance at the selection Medical Board.

c. In cases where there is doubt as to the individual's fitness, they must be referred by the AFCO ME to SMO(SE) with the RN Respiratory Questionnaire completed by the candidate’s general practitioner.

0707. Eyesight Standards for Candidates – General and Corrected Vision

a. Eyesight standards are promulgated in JSP 950. Individual branch standards are shown in the Eligibility Matrix (Para 0759).

b. There are a large number of abnormalities of the eye or visual system (congenital, traumatic or pathological) which may be a cause of rejection regardless of visual acuity. These are detailed in JSP 346 Chapter 3 Article 0302 but include those candidates who have monocular or uniocular vision or who have suffered a detached retina or undergone lens implantation or corneal grafting.

c. Candidates who have undergone certain types of surgery for correction of refractive errors may be acceptable for Service subject to certain criteria and following specialist assessment. Acceptable forms of surgery include Photorefractive Keratectomy (PRK), Photorefractive Astigmatic Keratectomy (PARK), Laser In-Situ Keratomileusis (LASIK) and Intrastromal Corneal Rings (ICRs), otherwise known as Intrastromal Corneal Ring Segments (ICRSs). Candidates who have undergone Incisional Keratectomy, i.e. Radial Keratectomy (RK), Astigmatic Keratectomy (AK) or a combination of both will be rejected. It should be noted however that any form of surgical correction of myopia or hypermetropia is an absolute bar to entry as aircrew, Pilot or Observer. Candidates seeking advice on corrective laser surgery should be given a copy of the letter available on the MIS which deals with eye surgery.

d. There is no general restriction to the wearing of spectacles or contact lenses to improve visual efficiency provided the eyesight standards, aided and unaided, are met. However, candidates must not wear contact lenses for a minimum of 48 hours prior to the eyesight test.
e. If a candidate who does not possess spectacles or other visual aids fails the eyesight test, but the AFCO ME considers that their visual acuity could be correctable within the prescribed limits for entry to the Service, then the candidate should normally be referred to an optician to confirm this. Candidates are to be advised that reimbursement for such an examination may be made on their return to the AFCO for further medical examination.

f. It is a PJHQ mandate that all personnel deploying to an operational theatre must have passed the Annual Personal Weapon Test (APWT). To fire an SA80 rifle effectively the user must be able to independently close the LEFT eye. As part of the Entry Medical, AFCO ME are to test for the ability to close the LEFT eye independently. Those unable to do so are unfit for entry.

0708. Eyesight Standards for Candidates – Colour Perception (CP)

a. CP testing will be conducted by the AFCO ME using the Ishihara 38 Plate Booklet. The test is to be conducted in a well-lit area. Fluorescent lighting is acceptable.

b. Candidates requiring testing to CP1 and CP3 standard are to book a Holmes-Wright lantern test via the AFCO ME booking system.

c. Candidates who are below CP3 will be required to undertake a further CP test using the Colour Perception Trade Test Board. All wires are to be correctly matched by colour and connected to the wire on the opposite side of the board. The candidate is to complete the test in a well-lit area within 3 minutes. Results are to be recorded as follows:

   (1) All wires correct - CP4.
   (2) Any wire incorrect - CP5.

d. The candidate may wear glasses if necessary.

0709. Dental Standards for Candidates – General and Orthodontics

a. Candidates may be rejected for excessive dental decay or other oral conditions that are identified during the recruiting medical examination (see JSP 346 Chapter 4).

b. Due to the proven difficulties of continuing orthodontic treatment during the initial training period, recruits who are undergoing active orthodontic treatment with fixed or removable appliances are to be strongly encouraged to complete the course of treatment prior to entry. If orthodontic treatment cannot be completed prior to entry, the entry date is to be deferred (with the exception of DTUS, Welbeck and URNU).
0710. **Food Allergies and Related Conditions**

As a general rule a history of gluten enteropathy or gluten sensitivity, serious food allergy (e.g. peanuts), lactose intolerance and inborn errors of metabolism are incompatible with military service. Exceptions to this general guidance may be permitted under certain circumstances and will be determined by the AFCO ME, referring to SMO(SE) if required.

0711. **Pregnant Women – Acceptance for Training, Deferrals and Cancellations**

a. To refuse or defer an offer of employment to a woman solely on the grounds that she is pregnant constitutes unlawful sexual discrimination. Careers Staff are not to ask candidates if they are, or intend to become, pregnant.

b. If during the recruiting process, but before being given a provisional entry date, a candidate reveals that she is pregnant, her application may be deferred on the grounds of protecting the health and safety of the candidate and her unborn child since there are genuine health and safety risks in allowing her to undertake initial training. Following the birth however, the candidate is free to continue her application and should be referred to the AFCO ME as part of the normal recruiting process. The requirement for the provision of child care should be explained at the earliest opportunity. Refer to Para 0510 (Childcare provision during and after initial training).

c. If a candidate declares herself to be pregnant after she has received a provisional entry date, her entry into the Service must be allowed to proceed. If the candidate gives birth whilst awaiting entry, the candidate is free to continue her application after childbirth and should be referred to the AFCO ME as part of the recruiting process. The requirement for the provision of child care should be explained at the update interview stage.

d. Should a pregnant candidate wish to defer or cancel her entry to the Service, the candidate must formally request deferral or cancellation in writing. This letter must be retained in the candidate’s S1605. The candidate should not, however, be forced to do so.

e. A candidate who requests advice on possible health and safety risks should be referred to her own GP. Careers Staff must not offer medical advice. AFCO MEs may seek advice from PMOs of NETEs or SMO(SE).

f. Advice on maternity, paternity and adoption in the Naval Service is at Chapter 35.

0712. **Body Piercing and Wearing of Jewellery**

a. Current fashion has encouraged the practice of body piercing and the wearing of body jewellery. The risk of injury, infection and the requirement for an individual’s bearing to be neat, discreet and have a restrained personal appearance when in uniform, combine to make body piercing inappropriate within a Service environment.
b. No jewellery is to be visible with uniform other than the following items:

   (1) Signet and wedding rings for men.

   (2) Signet, engagement, wedding rings and small plain gold sleeper or stud earrings for females.

   (3) All medical personnel (MOs, NOs, NNs, Dental Officers and MAs) must follow current clinical guidelines when in a clinical environment or clinical uniform.

c. This paragraph includes ‘flesh tunnels’. Should a candidate elect to remove the tunnel, the hole resultant of the piercing must be resolved to enable eligibility on health and safety grounds.

d. No other form of jewellery will be allowed to be worn on the body even where a part of the body has been pierced or prepared, whether for any ring, stud or sleeper. Body piercing does not include a piercing of the ear lobe for the wearing of a stud or sleeper.

0713. Tattoos

a. Individuals applying for entry into the Naval Service are to be rejected if they have any tattoo, whether visible or not, which is obscene or offensive (eg. racist, anti-religious, crude, overtly sexist, drugs related or of an extreme political nature). Naval Service tattoo policy is only repeated here and is stated in Para 3817. The AFCO ME is to bring to the attention of Careers Staff any applicant with a tattoo which is considered unacceptable.

b. **ACTION: AROs, ACLOs, ARMs and CAs.** All are reminded that the interpretation of whether a tattoo is offensive, or not, is an executive function. It is not the responsibility of the AFCO ME to make such a decision but they are to highlight the existence and description of any tattoos to the CA who is empowered to make a judgement as to whether it is offensive. If there is doubt, advice should be sought using the normal command chain (ARM/ARO).

c. Tattoos which are visible on a front view passport photograph taken whilst the candidate is wearing an open necked polo style shirt with one button undone eg. on the face, throat, front of ears or forward of a line from the bottom of the ear to the collar bone, are not permitted and are a bar to entry. Advice is to be sought from NAVY CNR-OPS WO in cases of doubt.

d. When rejecting candidates it must be explained that the Naval Service, as a disciplined Service, requires an individual's bearing to be neat, discreet and have a restrained personal appearance when in uniform.

e. NAVY CNR-OPS WO may be consulted if there remains doubt. On no account are Careers Staff to advise candidates to have tattoos removed and should state that the candidate cannot join the Naval Service whilst wearing the non-compliant tattoo.
0714. Minimum Age Requirements for Application

a. An application for entry to the Naval Service may be accepted from an individual provided that:

(1) **Ratings/Other Ranks Entry.** The candidate is aged at least 15 yrs and 9 months. Exception: candidates are not to be forwarded for selection boards and auditions under the age of 16 years.

(2) **Officer Entry.** The candidate is aged at least 15 years 9 months. Exception: Potential Welbexians may become enquirers at age 14 years.

(3) Applications to Welbeck Technical College may be processed from enquiries at age 14 years, with parental permission.

(4) The candidate will be eligible to leave school under the Local Education Authority rules.

b. Conditions of Service and Reserve liability are to be fully explained to all candidates at the Enquiry stage. It is essential that candidates under the age of 18 yrs understand the full implications of the undertaking they are entering into.

0715. Statutory School Leaving Ages (Age of Participation)

a. Students must stay in some form of education or training until their 18th birthday if they were born after 1 Sep 97. Their options are as follows:

(1) Full time education.

(2) An apprenticeship or traineeship which may include the Armed Services.

(3) Part time education or training – as well as being employed, self employed or volunteering for 20 hours or more a week.

b. It is illegal to employ a child full time until the laid down statutory school leaving age is reached. This requirement is binding on all children, their parents and guardians, whether or not the child is enrolled in a school. Children educated otherwise than at school, whether under arrangements made by the parent or by a local authority, are also debarred from taking full-time employment until the relevant date.

c. The specific limitations are as follows:

(1) **Schools in England.** Pupils may leave school on the last Friday in June in the school year in which they reach the age of 16 years. The school year normally ends on 31 Aug.
(2) **Schools in Northern Ireland**

(a) Pupils whose 16th birthday falls between 1 Sep and 1 Jul can leave school after 30 Jun.

(b) Pupils whose 16th birthday falls between 2 Jul and 31 Aug may leave school after 30 Jun the following year.

(3) **Schools in Scotland**

(a) Pupils whose 16th birthday falls between 1 Oct and the last day of Feb 1 inclusive, may leave school at the Christmas holiday.

(b) Pupils whose 16th birthday falls between 1 Mar and 30 Sep may leave school after 31 May.

0716. **Parental Consent for Candidates and Enquirers Under 18**

a. **ACTION: AFCO.** Parental consent must be obtained for those under the age of 18 years before any processing can take place. This is sought when the RT invitation email is sent.

b. Parental consent must be checked prior to the RT and is then valid for the remainder of the recruiting process. This consent is provided by parental signature on the form that is sent with the invitation to attend RT.

0717. **Under-18s and Active Service – UN Convention on the Rights of the Child**

a. The purpose of this complex legislation is to strengthen the rights of children by prohibiting their participation in armed conflict.

b. The legislation has no direct impact on CNR but, should a query be raised by a candidate, parent or member of the general public concerning this subject, the following points may be made:

(1) Those under 17 years old will not be assigned to HM Ships or an RM Operational Unit until they have attained 17 years of age.

(2) Those few personnel under the age of 18 years serving in HM Ships or with an RM Operational Unit will, wherever feasible, be removed from situations in which their Commander in Chief and Chief of Joint Operations deem there to be a "greater than low risk of direct involvement in hostilities".

0718. **Parental Consent Form for Under-18s**

a. A MoD Form 486 is required for all candidates under the age of 18 on entry. This form must be signed by parents post selection interview.
b. The form is to be given to the candidate for Parental Consent signature and returned to the AFCO on completion. Although the details of the form are computer generated they must be checked by the Careers Adviser for accuracy. The ‘Notes’ relating to parental consent are to be explained to the candidate and it must be stressed that the ‘witness to signature’ is to be signed by a person with some standing in the community (examples at Para 0723 sub para (d)). MoD Form 486 is to be included with Part Entry Papers (PEPs).

c. Recruiting personnel are to issue the parental consent form for photography of under 18s at the same time as the MoD Form 486. The consent form should be forwarded to HMS RALEIGH/CTCRM with the Part Entry Papers.

0719. Age Restrictions on Entry – Ratings/Other Ranks

a. Minimum Age. All candidates must enter Initial Naval Training (INT) either on their birthday or the day after in line with the minimum age birth year for the branch/specialisation as directed in the CNR BRd 3(1) Eligibility Matrix. For example, RN Officer: 17 years, this means they may enter BRNC on or after their 17th birthday.

b. Maximum Age Limit. All candidates must be entered into INT in the year shown as the ‘Max to join’ as published in the CNR BRd 3(1) Eligibility Matrix and on or before reaching their next birth year. For example, RN rating: 36 years (up to the day prior to their 37th birthday).

c. Careers Staff must use discretion when considering processing candidates who are approaching the upper age limit. Consideration must be given to the requirement to complete the BPSS, obtain security clearance and enter the candidate before the upper age limit is reached.

0720. Minimum Age Restrictions on Entry – Officers (Direct Entry)

Officer Entrants must be over 17 years old on the first day of the month of entry to BRNC or CTCRM.

0721. Age Restrictions on Entry – Officers (Bursary/Sponsorship/Welbeck)

Notwithstanding the general regulations above, special age restrictions apply to certain Officer entry types:

a. Sixth Form Scholars. As there must be no formal break in education between academic Years 11, 12 and 13 where candidates will normally be 16, 17 or 18 years of age, advice is to be sought from CNR OES for any candidate outside this range.

b. Welbeck. Candidates must be aged between 15 years 9 months and 17 years 6 months on 1 September immediately preceding the day they intend to enter the College. Entry takes place once per annum, in September.
c. **Defence Technical Undergraduate Scheme (and non DTUS Bursars).**
Candidates must be under 23 at the commencement of their degree course and under the age of 26 on entry to the Naval Service. Candidates are usually accepted for a 3 year course but can be selected for a 4 year course. Non DTUS Bursars must be under the age of 26 on the first day of entry to BRNC or CTCRM. Their age on commencement of the degree course will therefore be dependent upon the length of the course.

0722. **RNR/RMR Recruiting Process – Age Limits and Waivers**

a. Normal age limits are detailed in the Eligibility Matrix (Para 0759). However, NPT(RES) may approve age waivers for candidates who do not meet the age criteria.

b. **Age Waivers.** If the candidate falls outside the age limits for RNR/RMR candidates, Careers Staff are to take the following actions:

1. Careers Staff are to make a formal application for an age waiver to CNR RP using the standard approval to process method. Once received the application will be forwarded to the Maritime Reserves Branch Manager for RNR candidates and RMR Career Manager for RMR.

2. If approved, eligible and recommended the candidate is to be processed in the normal way.

0723. **Identity Documents – Acceptable**

a. An essential aspect of establishing the trustworthiness and integrity of an individual is confirming their identity. If the subject's identity has not been properly established as part of the BPSS procedure, any further vetting is likely to be flawed.

b. To be eligible for processing, all candidates must produce the following original documents.

1. **Nationality Identifying Documents**
   
   a. British Nationals: Full 10 year passport or 2 of the following:
   
   i. British Driving Licence.
   
   ii. Birth Certificate issued within 6 weeks of birth.
   
   iii. Cheque book and bank card – with 3 statements and proof of signature.
   
   iv. Credit Card – with 3 statements and proof of signature Credit Card – with photograph of the individual.
   
   v. Proof of residence – such as a current tax, gas, electricity or telephone bill.
(b) Other Nationals:

i. National Identity Card.

ii. Full Passport and a Home Office document confirming the individual’s United Kingdom (UK) immigration status.

c. For processing and entry documentation, Ratings/Other Ranks are also required to produce the following:

(1) National Insurance Card (for those registered for employment). (Students/overseas Candidates will be allocated a National Insurance number on entry).

(2) National Health Service Card.

(3) If applicable, Marriage Certificate and Change of Name Deed.

d. In some cases, particularly where young individuals are concerned, such documents may not be available to prove identity. Where this appears to be a genuine problem, the individual should be asked to give a passport-sized photograph endorsed on the back with the signature of a person of some standing in the individual’s community, for example, a JP, medical practitioner, officer of the armed forces, clergyman, teacher, lecturer, lawyer, bank manager, or civil servant. The signatory should have known the individual for a minimum of 3 years. This should be accompanied by a signed statement from the signatory giving their full name, address and telephone number, and confirming the period that they have known the individual.

e. References which may be obtained during the Reference check stage can also be used to provide the basis for proof of identity, particularly when given by a reputable organisation or person known to the MoD. Where an individual has particular difficulty in proving identity and obtaining adequate referee coverage, it may be appropriate to get both from the same referee.

f. The recruiting authority should check that the signatures on the photograph and the statement match. In all cases of doubt, the signatory should be contacted to confirm that they did complete the statement and have known the individual for the stated period.

g. Nothing within this list reduces the requirement for a Passport check to confirm a candidate’s nationality before entry.

0724. ID Documents – Unacceptable
The following documents are not acceptable as proof of identity:

a. An International Driving Licence.

b. A copy of a Birth Certificate (dated more than 6 weeks after birth).
0725. **ID Documents – Verification**

a. **ACTION: CAREERS STAFF.** When checking documents it should be borne in mind that a small proportion of individuals may not be who they claim to be. There can be a number of motives for such deception, including:

   (1) Illegal immigration.
   (2) Concealment of a criminal record.
   (3) Concealment of previous Service discharge category.
   (4) Concealment of identity for the purposes of terrorism or espionage.
   (5) DSS fraud.

b. **ACTION: CAREERS STAFF.** The following checks are to be made to verify the documents produced by the candidate:

   (1) Original documents are to be produced. Transcripts or photocopies are unacceptable. Modern photocopies are often difficult to identify and should be checked very carefully, comparing with known genuine versions.
   (2) Check that paper and typeface are similar to any others you have to hand and that watermarks, where appropriate, are present (passports and driving licences invariably have watermarks).
   (3) Examine documents for alterations or signs that photographs or signatures have been changed. Check that signatures correspond with other examples in your possession.
   (4) Check that details on documents correspond with those already recorded.
   (5) Check the date of issue of documents. Care should be taken where documents are recently issued, particularly if they are new and there is little referee coverage.
   (6) Check that any signature on the documents compares with other examples and, if practicable, ask the candidate to sign something in the presence of CA/ACLO.

c. **ACTION: CANDIDATE.** It is the responsibility of the candidate to provide the documents referred to above. Careers staff are to give advice on what is required but are not to get involved with the procurement of documents for candidates.
0726. Passport Requirements, Validity and Sighting

a. All candidates entering the Naval Service (including Reserves) must hold a valid passport.

b. The type of passport required will depend on the candidate’s nationality:

   (1) **British Citizens.** Must hold a valid UK Passport.

   (2) **British/Dual Nationals.** Must hold a valid UK Passport. They may also hold a valid passport relevant to their dual nationality.

   (3) **Commonwealth/Irish Citizens.** CAs are to ensure all Commonwealth Citizens have a valid passport, and all visas/residency biometric passes/stamps are valid for for the duration of their recruiting pipeline and up until the first date of entry into Naval Service. If any of the above expire during the applicant's process, their DRS account must be 'Deferred' until they produce an in-date document. No letters to support an applicant's Home Office request are to be given by AFCOs.

c. **ACTION: ACLOs/CAs.** They should sight the candidate’s passport(s) entering the passport number into the MIS. Full details are set out below.

d. **Rating/Other Rank Candidates.** All candidates entering the Naval Service must hold a valid passport, which must be sighted by a CA as early as possible in the recruiting process (e.g. RT). Candidates without a passport should be advised to wait until passing the required selection interviews and medical before applying for a passport to avoid nugatory expense on their part. Candidates are not to be entered into the Service until their passport has been sighted.

e. **Waivers.** Waivers to the above rules will be granted only in exceptional circumstances, and at the discretion of CNR OPS SO1.

0727. Passport Fees - Payments by Candidates and Reimbursements

a. It will be the responsibility of the candidates to obtain and pay for their own passport. Candidates requiring new or renewed British passports should be encouraged to visit the nearest Main Post Office for a Passport Application Form.

b. In the event of the candidate expressing a genuine difficulty, then the claim form in MIS Letters should be given to the candidate for reimbursement of the fees. The measure of genuine hardship of the candidate should be at the discretion of the CA. Hardship must be fully proven to the full satisfaction of the CA and always be considered the exception. Policy states that the passport requirement for candidates without a valid passport should be after passing the selection interview and medical. This is to ensure financial propriety and an audit trail. The candidate must request a receipt when they send their application to the Passport Office/Post Office; this receipt will need to be attached to the claim form, passed to the AFCO for a counter signature endorsing the payment and then sent to NAVY FIN-TRG INT DESK OFFR, Leach Building, HMS EXCELLENT. These requests will be processed promptly on receipt and a cheque from DBS, Liverpool will be sent in 10 working days, directly to the home address of the applicant.
c. A similar process is to be adopted on the reimbursement to candidates of travel expenses to and from the PJFT. Candidates must be encouraged to use public transport at all times and the actual fare incurred may be claimed on submission of receipts. Candidates wishing to use a private vehicle are to state the mileage for the journey on the form and claims will be paid at appropriate mileage rate. The use of taxis should be in exceptional circumstances and reason for use should be stated on the form. Again, it is up to the discretion of the CA to authorise payment due to true hardship.

d. Under no circumstances should money be withdrawn from Contingency accounts and given to candidates.

0728. Recording Candidate Passport Details
The passport number is to be entered in the MIS in order for the passport number to be pre-populated onto the PEP summary sheet sent to the NETE.

0729. UK Immigration Exemptions for Commonwealth Candidates

a. Under Section 8(4) of the Immigration Act 1971 members of the Armed Forces are exempt immigration control for the duration of their service in the Armed Forces. On discharge, however, immigration exemption is no longer valid and in these circumstances reference should be made to Chapter 19. Commonwealth candidates with valid UK visas in their passports, who pass all elements of the recruit process, including security clearance, may be entered into the Naval Service. The appropriate MIS Letter is to be raised by CNR OES/AFCO and must be included with Entry Papers when forwarded to the New Entry Training Establishment. All candidates must hold a valid passport and visa/residency permit before entering the Naval Service.

b. Once engaged/attested, the New Entry Training Establishment's UPO/HR Admin Office is to forward the candidate's passport and the covering MIS letter to the Home Office, a template for which can be found at Annex A to Chapter 19. The letter must state that the candidate has now entered the Armed Forces and request an exempt stamp to be placed in the passport.
0730. Nationality Eligibility Criteria for Recruitment into the Naval Service

a. For entry into the Naval Service, a candidate must satisfy one of the following nationality criteria:

(1) **Sole British Citizen**. An individual who was:

(a) Born in the UK (including the British Crown Dependencies of the Channel Islands and Isle of Man) and has been a British citizen at all times since birth.

(b) Born outside the UK but qualifies for British citizenship from birth by descent, eg. parents who, at the time of birth, were serving on Crown service in a country other than a Commonwealth country or the Republic of Ireland and the birth was registered at a British Military unit or British Embassy or Consulate.

(2) **Sole Irish Citizen**. Someone who was born in the Republic of Ireland and has been a citizen at all times since birth.

(3) **Sole Commonwealth Citizen**. Someone who was born in the independent Commonwealth country of which they are now a citizen and has been a citizen of the country at all times since birth. A full list of Commonwealth countries is shown at Para 0730 sub para g.

(4) **Dual Nationals**. The following individuals are also eligible:

(a) British citizens who hold nationality of any other country.

(b) Irish citizens, as described at Para 0730 a sub para (2), who hold nationality of another country.

(c) Commonwealth citizens, as described at Para 0730 a sub para (3), who hold nationality of another country.

(d) Born outside the UK but now holds Dual British citizenship following naturalisation. Their former Nationality is also retained.

(5) **Gurkhas**. The Armed Forces (Aliens) Regulations 2009 exempts citizens or nationals of Nepal who serve or have served for not less than 5 years in the Brigade of Gurkhas, from the prohibition on aliens serving in the Armed Forces. This means that they are eligible to apply to join the Naval Service.

---

1 The following are not British citizens unless they qualify under historical nationality criteria: British Overseas Territories citizen, British Overseas citizen, British subject, British National (Overseas) or a British Protected person. All are classed as Commonwealth citizens. Please refer to the website www.gov.uk/types-of-british-nationality or contact the Home Office/UK Visas and Immigration for further information if required.

2 Unless voluntarily rescinded to be considered a Sole British Citizen. Evidence of the rescindment is required.
b. Asylum Seekers or Refugees are not eligible for entry into the Naval Service.

c. **Nationality Waiver.** In exceptional circumstances, a waiver of the recruitment eligibility criteria may be granted by Hd NPS (on behalf of the Secretary of State for Defence) to candidates who are Commonwealth citizens or citizens of the Republic of Ireland at the time of their application (whether sole or dual nationals) but were born outside the country of which they are now a citizen or have formerly held a different nationality. **REFERENCE: CH 63, 6314**

   (1) Candidates who seek such a dispensation will have their case considered on its individual merits and are not to be processed; applications for a waiver should be made in the first instance to CNR OES (for Officers) or CNRRP (for Ratings and Other Ranks).

   (2) A copy of the individual's AFCO Form 101 is to be forwarded as part of the submission along with a brief report stating whether the candidate is recommended for a waiver or not.

   (3) AIB or CNRRP should then forward the paperwork to the Head of Terms of Service for consideration within the Navy Command Headquarters. Once a decision has been made, all documents will be returned to the ACLO/AFCO for a reply to be made to the candidate.

d. Candidates who do not meet the conditions above, and are not eligible to be considered for a waiver, are to be counselled that they do not meet the nationality eligibility criteria for entry into the Naval Service.

e. **National Service Liability.** Candidates who are citizens of a country other than the UK or the Republic of Ireland must (where indicated below) present written confirmation from the Government of the nation(s) concerned that they are not required for national service (or military service), either now or at some future date. Such documents must be produced by the candidate before an application can be accepted at the AFCO or AIB.

   (1) Commonwealth Countries - only where national/military service is currently required: Bermuda, Botswana, Cyprus, Malaysia, Mozambique and Singapore.

   (2) Non-Commonwealth Countries – on every occasion.

f. **Promotion to Officer from the Ranks.** RN and RM candidates holding sole Commonwealth citizenship should be advised that, in most branches, they will not be able to be promoted to Officer from the ranks (via the Upper Yardman/Corps Commission or Senior Upper Yardman/Senior Corps Commission schemes) due to nationality employment rules which stipulate the need to hold British citizenship.

---

3 This list of countries is reviewed annually.
g. **List of Commonwealth Countries** (as at 21 Sep 18).

**Notes:**

1. **Including the Australian External Territories:** Australian Antarctic Territory (including MacDonald, Heard and Macquarie Islands), Christmas Island, Cocos (Keeling) Islands and Norfolk Island.

2. **Including the New Zealand Colonies and Dependencies:** Niue, Ross Dependency, Tokelau Islands Group; and the associated state: Cook Islands.

3. **Including the British Overseas Territories:** Anguilla, Bermuda, British Antarctic Territory, British Indian Ocean Territory, British Virgin Islands, Cayman Islands, Falkland Islands, Gibraltar, Montserrat, Pitcairn Islands, St Helena, Ascension, Tristan da Cunha, South Georgia and the South Sandwich Islands, Turks and Caicos Islands, the Sovereign Base Areas of Akrotiri and Dhekelia on Cyprus.

**0731. Employment of Royal Navy and Royal Marines Personnel**

a. The CNR Eligibility Matrix for RN, RM and RFA covers the eligibility requirements for Ratings/Other Ranks and Officer entry into the RN, RM and RFA. See Para 0759.

b. The CNR Eligibility Matrix for Maritime Reserves covers the eligibility requirements for Ratings/Other Ranks and Officer Entry into the Maritime Reserves. See Para 0760.
0732. Residency Criteria

a. Introduction

(1) In order to obtain security clearance all candidates should have resided in the UK (including Northern Ireland) or the Republic of Ireland continuously prior to application iaw JSP 440. This ensures that UK Security Vetting’s IT security vetting system (UKSV, or ‘NSVS’), has access to sufficient historical data on the applicant to fully assure the security vetting process (see Annex 63A).

(2) Applicants with less than 5 years UK/Republic of Ireland residency, i.e. have lived or travelled/visited, studied or worked overseas for prolonged periods, will provide an incomplete picture to NSVS, which interfaces with Security Service and Police National Computer systems, and limits the credibility of Credit Worthiness Checks, etc.

b. Residency Criteria for Foreign and Commonwealth Candidates

(1) In order to obtain security clearance all Regular Commonwealth candidates must have resided in the UK (including Northern Ireland) for a period of 5 years continuously with no single period of absence in excess of 180 days at the point of application.

(2) An individual who has been out of the country for greater than 180 days within the period of 5 years immediately prior to application, is ineligible. Past residency does not count.

(3) Maritime Reserve applicants are required to demonstrate that they have indefinite Leave to Remain (ILR), also referred to as Settlement. There are no transitional arrangements for Maritime Reserves.

(4) The 5 year UK residency requirement does not apply to Citizens of the Republic of Ireland, Malta and the Republic of Cyprus, who have freedom of movement to live and work in the UK as European Union/European Economic Area Citizens. Individuals who are subject to Para 0732 sub para b(2) may still require a residency waiver.

(5) All Re-entrants are subject to the above eligibility criteria.

---

4 In accordance with Para 0730.g.
5 Application is defined as the date of receipt of the ICARAS application at the AFCO.
6 Consideration is to be made in accordance with Para 0732 sub para b (4).
7 Indefinite leave to remain (often known as ILR and ‘settlement’) is permission to remain in the UK without any time restrictions on the length of stay. It is not the same as naturalisation as a British Citizen.
8 Maritime Reserves transferring to the Regulars must comply with Para 0732.a and have 5 years Residency.
c. **Residency Criteria for Non-Commonwealth Candidates**

(1) UKSV will automatically process any Naval Service candidates:

(a) With at least 5 years continuous UK (including Northern Ireland) or Republic of Ireland residency prior to application.

(b) Or who have either:

i. Lived in the UK or Republic of Ireland **continuously** for at least the last **3 years immediately prior** to application or;

ii. Lived in the UK or Republic of Ireland for a total of **4 years out of the last 5** (which might, for example, allow candidates that have travelled/worked/studied abroad for no more than 12 months in the last 5 years to qualify for minimum residency).

In all cases periods of up to 28 days spent out of the UK/Republic of Ireland, eg. to allow for foreign holidays, may be disregarded.

(2) The residency status of the candidate’s parents or partner is not considered for standard Security Check (SC) clearances, except for Communication Technicians – see Para 0732 sub para f.

(3) A residency waiver may be requested iaw Para 0733 in the following circumstances:

(a) For candidates that do not meet the criteria at Para 0732.c sub para (1).

(b) If concerns are raised over a candidates residency or security suitability during the SC process. At the point it becomes apparent that a residency waiver is required, UKSV will inform the relevant Sponsor of the need for a residency waiver and inform Navy PSYA and the procedures at Para 0733 shall be followed.

(c) **Communication Technicians.** Candidates for entry as a Communication Technician (CT) require Developed Vetting (DV) and must have resided in the UK for a minimum of 10 years continuously immediately prior to making an application. A residency waiver will only be considered exceptionally for prospective CTs. In addition to holding sole British citizenship, CT candidates must satisfy the following requirements:

i. Their parents must be sole British.

---

9 Includes British Citizens living abroad, Dual British Nationals and those listed at Para 0732 b sub para (4).
10 Navy PSYA has granted UKSV with a blanket concession to accept shorter periods of UK/Republic of Ireland residency. In these circumstances a short term SC will be granted until sufficient data is available to UKSV to complete the normal vetting process.
ii. Their spouse/cohabitant and their surviving parents must hold sole British nationality.

iii. Their immediate family, and any other person to whom the candidate is bound by affection or obligation, should not be subject to physical, mental or other forms of duress by a foreign power.

0733. Residency Rules – Waiver Application

a. Candidates who do not meet the Residency criteria/rules iaw Para 0732 sub para c. and require a waiver are required to provide additional supporting documents, as detailed in subsequent paragraphs, for Navy PSYA-Pers SY to determine the potential security risk. If deemed acceptable, Navy PSYA will provide UKSV with a Residency Waiver authorising the issue of "Short Term SC", which will be reviewed when the applicant has resided in the UK for the minimum period necessary for a credible Police National Computer (PNC) and Credit Worthiness Check (CWC) to be carried out.

b. Waiver requests against the 5 year Residency requirement (Para 0732 sub para b) for British or British Dual Nationals are dealt with strictly on a case-by-case basis by either OES, OPS E1C or Overseas Recruiter.

c. Waiver requests against the 5 year Residency requirement (Para 0732 sub para b) for Foreign and Commonwealth Citizens are dealt with strictly on a case-by-case basis by either PSyA, OPS E1C or the Overseas Recruiter.

d. Following the normal application to UKSV for security check (SC) using the online NSVS facility a concurrent residency waiver application is to be made to Navy PSyA by CNR RP, CNR OES or the Overseas Recruiter. The e-Form ‘NSV001’ will not be visible to Navy PSYA (or UKSV) to consider alongside the supporting documentation until NSVS status shows ‘In Progress’, i.e. both candidate and sponsor have completed the on-line application. Therefore, recruiting staff should compile the necessary supporting information and only submit this once NSVS indicates ‘in progress’.

e. In order to mitigate the potential security risk, the following evidence to confirm identity and the applicant’s loyalty, reliability and trustworthiness is required. Applicants are mandated to provide ALL of the following documentation:

- Birth certificate
- Passport
- AFCO Form 101
- Full written references (as per below)
Plus (as appropriate):

1. Mandatory for UK Citizens/Expatriates who have Resided or Undertaken Full-Time Education or Employment Overseas:
   - Evidence of educational qualifications (where appropriate)
   - Written reference from head teacher (where appropriate)
   - Overseas police certificates (or statement to detail non-availability)
   - Full details of employment and employee references (where appropriate)
   - Suitable proof of residence for time spent abroad
   - Character references (e.g., from fellow employees/students)

2. Mandatory for UK Citizens who went Travelling/Backpacking Overseas either During Gap Year or Post Full-Time Education:
   - Character references (e.g., from fellow UK travellers/students)
   - Detailed Itinerary of where travelled/stayed
   - Overseas police certificates (or statement to detail non-availability)

3. Mandatory for ALL Applicants who are NOT Sole UK Citizens:
   - Overseas employee or academic references
   - Character references
   - Certificate of non-eligibility for conscription iaw Para 0730 sub-para e.
   - Educational qualifications (where appropriate)
   - Suitable proof of residence for time spent abroad
   - Overseas police certificates (or statement to detail non-availability)

4. Discretionary (As Appropriate):
   - References from UK organisations based overseas (e.g., FCO missions, British Council, NGOs).

f. Originals to be sighted, checked and certified copies provided with submission for residency waiver consideration to:

1. CNR OES for UK based Officer candidates.

2. CNR RP for UK based Ratings/Other Ranks candidates.

3. Overseas Recruiter, AFCO London, for all overseas candidates, eg. from the Republic of Ireland or Commonwealth countries listed at Para 0730 sub para g.

G. Residency waivers are considered on a case-by-case basis. Meeting the criteria detailed above does not guarantee that Navy PSYA Personnel Security staff will issue a residency waiver.
h. In the event of an individual failing to obtain SC clearance their employment with the Naval Service will be terminated.

0734. Security Clearance for Overseas Candidates
Overseas candidates may attend the PRMC, PRNC, auditions or selection boards but are not to be allocated a provisional entry date until SC has been received from UKSV.

0735. Eligible Candidates – Entry into Recruiting Procedure

a. **ACTION: CANDIDATE.** Once eligibility has been confirmed at the online application and conduct of CRM (Para 0507) the candidate will be asked to complete a Tattoo Proforma and MOD Form 493 (and Parental Consent Form where applicable), and will be invited to attend the AFCO for a Recruiting Test (RT). On successful completion of RT they will attend a selection interview and continue with the rest of the selection process.

b. **ACTION: CAREERS STAFF.** Careers Staff are to raise Form S1605 (Applicant’s Document Cover). This is to be used to contain the documents and correspondence generated during the recruiting process. The front cover of the S1605 is to be completed with enough detail to continue with the selection process in the event of MIS not being accessible. The S1605 and contents are to be retained in the AFCO for 12 months after end-stating.

0736. Ineligible Candidates

a. During the CRM process it is essential that the proper rejection procedure is followed. Candidates who are not eligible to continue with their application are only to be rejected after careful consideration. It is most important that any reason for rejection is explained and conveyed as sympathetically as possible. Rejections are to be made by a qualified Careers Adviser only.

b. Certain Occupations are ineligible to join the RNR/RMR. These are as follows:

(1) Serving members of Her Majesty’s Armed Forces or Volunteer Reserve Forces (including Sponsored Reserves), Commonwealth or foreign equivalents – including members of the Careers Service without reckonable regular-service prior to entry.

(2) All members of the Sponsored Reserves including RFA personnel who have accepted Sponsored Reserve status.

(3) Serving members of a University Royal Naval Unit (URNU) including Honorary Midshipmen and Training Staff.

(4) Candidates in receipt of any form of sponsorship detailed in Chapter 15.
c. **ACTION: CAREERS ADVISERS.** Whilst there are no longer any Reserved Occupations, employees are to be strongly encouraged to verify their employer’s local policy for employment of Reservists. It is common for employers to establish quotas on the overall number of Reservists permitted.

d. Officers with an existing liability for call-out as Officers on the Retired or Emergency Lists must inform the Naval Secretary of their intention to join the RNR. Once they have joined, call-out will normally be in their capacity as an RNR, as opposed to RFR, Officer.

e. Former Regular Service ratings with an RFR liability are required to sign a declaration acknowledging that they will be re-enrolled into the RFR to complete remaining RFR time should they be discharged from the RNR before their RFR liability is fulfilled. This declaration is administered by the parent RNR unit during attestation.

f. Candidates are not eligible for entry into the Naval Service and are not to be processed with any of the following unspent convictions:

   (1) Hospital Order.

   (2) Sexual offences (including those listed on the Sex Offenders Register).

   (3) Offences involving loss of life.

   (4) Arson.

   (5) Terrorist Activities.

   (6) Explosives.

   (7) Misuse of Drugs:

      (a) Any offence relating to Trafficking or Supply of drugs.

      (b) Any offence relating to the use of Class A drugs.

      (c) More than one conviction for "possession for personal use" of a Class B or C drug. (See drugs classifications).

   (8) Three or more offences against persons, property, dishonesty or serious motoring offences.

g. Candidates with spent or unspent convictions for sexual offences, drugs related offences, violence or dishonesty, or those who have been subject to a custodial sentence or Hospital Order are not eligible for entry into Medical, Dental or Nursing branch/specialisations.
h. Candidates are also not eligible to be processed if they:

(1) Are on Bail or awaiting criminal prosecution.

(2) Have unpaid Fines or Compensation orders.

(3) Have unexpired Conditional Discharge, Bound Over or Curfew Orders.

(4) Have Probation, Community Service or Combination Orders which have not been completed.

(5) Are subject to a Supervision requirement or order or community supervision order or care order or fit person order for committing a criminal offence.

0737. Rejecting Candidates

a. **ACTION - CAREERS STAFF.** It is CNR policy that candidates who are rejected may, at the discretion of the CA, be either verbally rejected or rejected by letter. Candidates rejected verbally must also be sent the appropriate MIS letter. A rejection reason is to be entered on MIS and the AFCO 101.

b. Candidates may be re-interviewed provided they meet the RT requirement for the BOP. The timescale for the re-interview is at the discretion of the CA, and the appropriate MIS letter sent.

c. Candidates who ‘fail to attend’ (FTA) at any stage of the recruiting process prior to being given an allocation date (eg. RT, Interview, Medical, Selection Board, Audition or PRMC) are to be considered for rejection.

d. It is essential that details of any candidates who refuse to attest or engage at the NETE are recorded on MIS by CNR RA.

0738. Baseline Personal Security Standard (BPSS)

BPSS is a collective term for pre-employment enquiries made to ensure that suitability has been properly established and checked, of those who may have uncontrolled access to, or knowledge or custody of, Government assets. The BPSS is an essential part of the MoD’s system of protection against risks from terrorism, espionage and crime by providing assurance about the identity and integrity of individuals.
0739. **BPSS – Use within Recruiting Process**

a. The BPSS forms part of the recruiting process. It is important that all those conducting any part of the BPSS understand that the suitability of a candidate for Naval Service must be assessed from both security and employability aspects. While the checks for each aspect are complementary, some of the checks for security require different processes. There will be cases where, although a candidate may be able to meet the requirements for obtaining a Security Check, they may not be employable. The converse may also be true. In particular the security checks conducted by UKSV using NSV 001 will only be as good as the information provided by the initial checker. The role of Careers Staff in conducting the BPSS is therefore of critical importance. Unless Careers Staff take great care, and use an inquisitive mind and imagination, in establishing and checking the identity of the candidate, later processes may be fatally flawed.

b. The following components form part of the BPSS:

<table>
<thead>
<tr>
<th>Nationality, Immigration and Residency requirements.</th>
<th>Security and employability</th>
</tr>
</thead>
<tbody>
<tr>
<td>Identity.</td>
<td>Security and employability</td>
</tr>
<tr>
<td>Record of Criminal Convictions.</td>
<td>Trustworthiness, security and employability</td>
</tr>
<tr>
<td>By Interview, background, motivation, character and financial difficulties.</td>
<td>Security and employability</td>
</tr>
<tr>
<td>By Medical examination, confirmation that there are no indications of instability or addiction.</td>
<td>Security and employability</td>
</tr>
<tr>
<td>Suitability established by receipt of satisfactory education, employment, and character references from reliable persons.</td>
<td>Security and employability</td>
</tr>
</tbody>
</table>

c. For information regarding the BPSS process at RT refer to Para 0816 - Initiating BPSS at RT.

d. For information regarding acceptable forms of documentation refer to Para 0 to Para 0725.

0740. Security Clearance – Applying to UKSV

a. Once the candidate has passed the selection interview, references are to be obtained and the BPSS check completed. An application is then to be made to UKSV for Security Clearance (SC) using the online NSVS facility.

b. A record of the date of initiation of the NSV 001 to UKSV is to be made on the Form S1605 and MIS.

c. Candidates may attend the PRMC, musical auditions and selection boards in parallel with the SC application.

d. Careers staff must inform UKSV, by cancelling on NSVS, of those candidates who are rejected or withdraw their application after submission has been made to UKSV for SC.

e. Should the candidate already hold an SC, e.g. as a serving member of the Armed Forces, UKSV may transfer the SC without a new NSV 001.

0741. UKSV Processing of SC Applications

a. On receipt of the NSV 001, UKV will carry out checks against the National Collection of Criminal Records and carry out a Credit Worthiness Check. The Security Services check is carried out by an external agency.

b. UKSV expects to process SC within the timescale laid down in JSP 440. However, where overseas enquiries are needed, or candidates need to be contacted with reference to undeclared criminal convictions or debts, then the process is likely to take longer. The UKSV Help Desk can be contacted to check on the progress of SC applications, although progress can be monitored on NSVS.

c. A candidate cannot normally enter the Naval Service until SC has been received, although CNR OPS RA, CMR and CNR OES may grant waivers provided the SC is in progress and after discussions with UKV. In certain circumstances and in the interests of national security SC may be refused. A reason for refusal of SC will not be given. It is therefore vital that, on completion of successful interview, the candidate is cautioned using MIS generated Post Interview Caution.
0742. UKSV Notification of SC

a. UKSV will forward notification of SC to the sponsor electronically and by post for those candidates awarded SC.

b. **ACTION – AFCO.** On receipt of the SC notification at the AFCO, the SC number and date is to be input into MIS. The SC certificate is to be retained in the candidate’s S1605 after documentation has been forwarded to the NETE.

0743. SC Validity Periods

a. An SC is normally valid for 10 years provided that the candidate enters the Service within 6 months from the date of issue. However, Pers SyA has agreed to extend this period to 12 months from date of issue or 36 months for overseas candidates. The candidate’s SC will lapse 12 months from the date of issue if the candidate has not entered the Service and an application for renewal should be made.

b. Applications for renewal of SC should not be made until 11 months from the date of initial applications. For applicants who are due to join the RN around the renewal point, extensions may be granted by CNR OPS RA up to a maximum of 13 months from original date of application.

0744. UKSV SC Refusal Procedure

a. UKV informs the sponsor of those candidates who have been refused SC.

b. **ACTION: AFCO.** AFCO will write direct to the candidate using the rejection letter on MIS. The reason for rejection will not be given. A further application is not to be accepted without permission from CNR HQ. Queries or complaints from the candidate must be forwarded to CNR HQ and a holding letter sent to the candidate to this effect.

0745. SC Applications – Guidance to Candidates

a. **ACTION: CAREERS STAFF.** Careers Staff must fully explain to the candidate the significance of the NSV 001 and MoD Form 493 when they are issued. The candidate must be warned that failure to disclose relevant information when completing these forms is likely to be regarded as evidence of unreliability and may result in rejection for entry into the Naval Service.

b. **ACTION: CAREERS STAFF.** Candidates are to be instructed to complete the NSV 001 using identical data to that inserted by the CA/CNR OES when initiating the form. Completion of the form is thereafter ‘intuitive’, although CAs/CNR OES may need to be in close contact with the candidate as they fill out the form. Guidance notes for the Applicant and Sponsor are on the UKSV website.
0746. Maritime Reserves Entries – SC Waivers

a. **ACTION: AFCO.** If a candidate has not received their SC 4 weeks after submission of SC application then the AFCO is to request a waiver from CMR SO2 Training (NAVYMR-HQRRNTRAININGSO2@mod.uk). Any such waiver is granted at-risk; candidates must be reminded that security clearance is mandatory for acceptance into service.

b. Candidates in receipt of an SC waiver are not to progress beyond Phase 1 until full SC is granted. They may attend HMS RALEIGH but must not be subsequently branched. If SC is subsequently refused the candidate is to be discharged.

0747. Disclosure and Barring Service (D&BS)

Refer to Chapter 60, Section 7 for candidates applying for BoPs that require D&BS clearance prior to entry.

0748. Communication Technicians

a. DV clearance applications are to be initiated by the AFCO once candidates have passed selection interview.

b. DV clearance is valid for 7 years once granted. It will remain valid until the Candidate enters service, regardless of how long the Candidate is in the recruitment pipeline and will automatically get refreshed once the Candidate joins SCU.

c. A candidate with full SC clearance may enter new entry training as long as the DV process has been initiated. If the DV is not in place prior to the new entrant joining Phase 2 training, this will be dealt with in service.

0749. References

References are no longer routinely processed by the AFCO, with the following exceptions:

a. Welbeck candidates.

b. Candidates with residency issues.

c. Candidates where an SC waiver is required.

d. If the CA has any doubts.

0750. Sighting of Certificates and Qualifications

a. Candidates applying for any form of entry requiring educational qualifications are to produce certificates, unless awaiting results, when attending RT.
b. **ACTION: CAREERS STAFF.** CAs are to verify academic qualifications by sighting original certificates, taking a copy and certifying a true copy of the original. Detailed educational qualifications are found in the entry matrices at Para 0759 and Para 0760.

c. Candidates may be processed whilst awaiting results of examinations but are not to be entered until fully qualified. If any doubt exists about the acceptability of educational qualifications, guidance is to be sought from CNR OPS RR SO2C or AIB.

**0751. Educational Requirements – Ratings/Other Ranks**

a. Entry into most Rating/Other Rank branches in the Naval Service does not require any formal educational qualifications.

b. All candidates must however complete the Recruiting Test (RT). There are minimum Test scores required by individual branches and these are shown in the Eligibility Matrix.

c. In addition to the RT, the following branches also require GCSE or equivalent grades as shown in the Eligibility Matrix:

   (1) Communications Technician.
   (2) Medical Technician (Student) (Radiographer).
   (3) Medical Technician (Student) (Biomedical Scientist).
   (4) Medical Technician (Student) (Operating Department Practitioner).
   (5) Dental Nurse (Student) – 2 GCSEs.
   (6) Naval Nurse (Adult or Mental Health) (Student).
   (7) Aircraft Controller.
   (8) Undergraduate Apprenticeship Scheme (UGAS).
   (9) Accelerated Apprentice Scheme.

d. **Medical Technician Student (Radiographer).** The educational eligibility standards for Medical Technician Radiographer (Student) are set by Birmingham City University (BCU). They are as follows:

   (1) A minimum of 120 UCAS Tariff points or equivalent are considered on an individual basis; guidance from SR-MED PO available as not all are accepted.

   (2) Education criteria and other equivalent qualifications can be found at the following link: http://www.bcu.ac.uk/courses/diagnostic-radiography.
e. **Medical Technician Student (Biomedical Scientist).** The educational eligibility standards for Medical Technician Biomedical Scientist (Student) are set by Aston University, Birmingham. They are as follows:

1. Students: 3 A-Levels at minimum BBB; must include Biology/Human Biology.

2. Mature Students (21+): BTEC, Access & other:
   a. Access to Science for mature students considered on an individual basis.
   b. BTEC Level 3 Diploma in Applied Science: DD plus A-Level Biology at grade B.
   c. BTEC Level 3 Extended Diploma in Applied Science: D*DD.
   d. BTEC Level 3 Subsidiary Diploma: D plus two A-Levels, including Biology at grades AB.
   e. Students who have taken BTEC qualifications as a first option and who achieved five or more GCSEs (including Maths and English) at grade 4/C or above. Additional A-Level requirements listed above must also be met.

f. **Medical Technician Student (Operating Department Practitioner).** The educational eligibility standards for Medical Technician Operating Department Practitioner (Student) are set by Birmingham City University (BCU). They are as follows:

1. A minimum of 88 UCAS Tariff points or equivalent are considered on an individual basis; guidance from SR-MED PO available as not all are accepted.

2. Education criteria and other equivalent qualifications can be found at the following link: [http://www.bcu.ac.uk/health/courses/diploma-in-operating-department-practice](http://www.bcu.ac.uk/health/courses/diploma-in-operating-department-practice).

g. **Naval Nurse Student (Adult or Mental Health).** The educational eligibility standards for Naval Nurse (Student) are set by Birmingham City University (BCU). They are as follows:

1. A minimum of 120 UCAS Tariff points or equivalent are considered on an individual basis; guidance from SR-MED PO available as not all are accepted.

2. Education criteria and other equivalent qualifications can be found at the following link: [http://www.bcu.ac.uk/courses/nursing-adult](http://www.bcu.ac.uk/courses/nursing-adult).
(3) Evidence of study within the last 5 years.

(4) Evidence of clinical experience / exposure in adult health care.

h. **Medical Technician Qualified (Radiographer).** Eligibility Standards are as follows:

(1) Minimum age on entry is 20 years.

(2) Educational qualifications: BSc in Diagnostic Radiography.

(3) **Registration.** The candidate may be in the process of gaining registration at the time of application. Clarification of acceptable registration standards may be obtained from CNR OPS NRAPO. Candidates must be registered prior to entry with Health Care and Professions Council (HCPC) as Radiographer.

i. **Medical Technician Qualified (Biomedical Scientist).** Eligibility Standards are as follows:

(1) Minimum age on entry is 20 years.

(2) Educational qualifications: IBMS accredited Degree in Biomedical Sciences. Non-accredited degrees will be considered; guidance from SR-MED PO available as not all are accepted.

(3) **Registration.** The candidate may be in the process of gaining registration at the time of application. Clarification of acceptable registration standards may be obtained from CNR OPS NRAPO. Candidates must be registered prior to entry with Health Care and Professions Council (HCPC) as Biomedical Scientist.

j. **Medical Technician Qualified (Operating Department Practitioner).** Eligibility Standards are as follows:

(1) Minimum age on entry is 20 years.

(2) Educational qualifications: DipHe or BSc Degree in Operating Department Practice.

(3) **Registration.** The candidate may be in the process of gaining registration at the time of application. Clarification of acceptable registration standards may be obtained from CNR OPS NRAPO. Candidates must be registered prior to entry with Health Care and Professions Council (HCPC) as Operating Department Practitioner.
k. **Naval Nurse Qualified (Adult).** Eligibility Standards are as follows:

1. **Minimum age on entry is 20 years.**

2. **Educational qualifications:** BSc/MSc or BA or Diploma in Adult Nursing (the applicant may be eligible if within 9 months of gaining this qualification – contact CNR OPS NMD SO3 for guidance) and be registered with the Nursing and Midwifery Council (NMC).

3. **Registration.** Candidates must be registered prior to entry. The candidate may be in the process of gaining registration at the time of application. Clarification of acceptable registration standards may be obtained from CNR OPS NRAPO. Candidates must be registered prior to entry as Registered General Nurse (RGN) or Registered Nurse (RN) (Adult) on sub part 1 (RN1, RNA) or alternatively sub part 2 (RN2, RN7) of the Nursing and Midwifery Council.

l. **Naval Nurse Qualified (Mental Health).** Eligibility Standards are as follows:

1. **Minimum age on entry is 20 years.**

2. **Educational Qualifications.** BSc/MSc or BA in Mental Health Nursing (the applicant may be eligible if within 9 months of gaining this qualification – contact CNR OPS NMD SO3 for guidance.

3. **Registration.** Candidates must be registered prior to entry. The candidate may be in the process of gaining registration at the time of application. Clarification of acceptable registration standards may be obtained from CNR OPS NRAPO. Candidates must be registered prior to entry as Registered General Nurse (RGN) or Registered Nurse Mental Health on sub part 1 (RN3, RNMH) or alternatively sub part 2 (RN4) of the Nursing and Midwifery Council.

m. **RNR Nurse (Officer and Rating) Candidates.** Candidates must meet the following criteria:

1. Registered General Nurse (RGN) or Registered Nurse (RN) (Adult) on sub part 1 (RN1, RNA) or alternatively sub part 2 (RN2, RN7) of the Nursing and Midwifery Council.

2. Officer candidates must hold a Degree or Diploma in Adult Nursing.

3. Ratings are to hold a Nursing Degree or must be currently working towards a Nursing Degree.

4. Currently working in an acute clinical setting.
(5) The candidate should be directed to forward a CV to CNR Nurse Recruit Adviser (NRA) at NAVYCRN-OPSNRAPO@mod.uk. This will be appended to the candidate’s journal by NRA. On NPT(Res) Branch Manager authority, the NRA will hand the candidate off to the processing AFCO with the authority to proceed with Application.

(6) RNR Nurses are not required to attend an acquaint visit but do need to be interviewed and assessed by the CNR Specialist Recruiter.

n. Undergraduate Apprenticeship Scheme (UGAS). Candidates must meet the following criteria:

(1) A minimum of 5 GCSEs or equivalent at Grade 4/C or better including Maths, English and at least one science based subject.

(2) New UCAS Tariff Tables were introduced for use from 1 Sep 17 onwards. Depending on the expected date of entry the following UCAS point achievement is required:

   (a) For applicants expected to enter the Royal Navy prior to 1 Sep 17: using the 2016 UCAS Tariff Tables, a minimum of 160 UCAS Tariff points or equivalent with a minimum of 120 points derived from Science, Technology, Engineering and Maths subjects.

   (b) For applicants expected to enter the Royal Navy on 1 Sep 17 or later: using the 2017 UCAS Tariff Tables, a minimum of 48 UCAS Tariff points or equivalent derived from Science, Technology, Engineering and Maths subjects.

o. Accelerated Apprentice Scheme. Candidates must meet the following criteria:

(1) A minimum of three GCSEs (or Scottish equivalent) at Grade C (4 on the new grading system) or higher including Maths, English and at least one science based subject.

(2) The AA scheme requires applicants to hold specified Level 3 qualifications. There are two options open to applicants:

   (a) Option 1 – (All) Vocational. A vocational qualification in an engineering discipline at Level 3, generally carrying the title ‘Level 3 Diploma in Engineering’. There are many sub-disciplines or ‘pathways’, including Mechanical, Electrical/Electronic, Manufacturing or Aeronautical Engineering as required by the individual branch.

   Or

   (b) Option 2 – (ME, WE, MESM & WESM only) Academic. GCEs (A-Levels) in Mathematics and Physics at Grade D or higher (or Scottish equivalent).
(c) **Option 2 – AE only – Vocational and Academic.** GCEs (A-Levels) in Mathematics and Physics at Grade D or higher (or Scottish equivalent) and specific Level 2 Aeronautical engineering course.

0752. **Educational Requirements – Officers (Non Graduate)**

a. The Eligibility Matrix shows the educational standard for non-graduate Officer entry.

b. If unsure of overlapping subject areas, CNR OES or FOST EL should be contacted.

c. All Officer candidates must have passed the RT test as per the requirements shown on the Eligibility Matrix.

0753. **Educational Requirements – Officers (Graduate)**

a. All graduate candidates will be required to hold a suitable UK degree, or equivalent, and they must satisfy the non-graduate standard above (except Chaplains who only require a Chaplaincy degree). In exceptional cases this condition may be waived, but only at the discretion of CDR(E) AIB via CNR OES TSO (if a waiver is granted ACLOs are to annotate the MIS journal to this effect). There is no specified criterion on the Quality of Degree which states that the degree must be of honours standard; an ordinary pass degree is acceptable.

b. **Non Engineer.** The Direct Graduate Entry (DGE) standard is for a UK degree, or equivalent. For candidates interested in Graduate Entry for Warfare, Aircrew, Logistics or Royal Marine Officer, the course content or class of their degree is of no real relevance to their eligibility.

c. **Engineer.** All degrees which are accredited by the UK Engineering Council\(^\text{11}\) to IEng or CEng level are acceptable qualifications for entry into the Royal Navy as an Engineer Officer. Broader STEM\(^\text{12}\) based degrees, not necessarily accredited by the UK Engineering Council will be considered for all specialisations\(^\text{13}\) as long as an engineering interest/experience and potential is demonstrated with the accompanying application\(^\text{14}\). Notwithstanding this, the following preferences exist for each specialisation, as follows:

(1) **WE/WESM.** UK-recognised degree accredited to IEng or CEng in Engineering, Computer Science, Information Systems, Communications and Telecommunications. If the number of applicants exceeds the places available, primacy will normally be afforded to those holding Electronic, Electrical or Computer Science related qualifications.

---

\(^\text{11}\) An accredited course search facility is available on the Engineering Council website: http://www.engc.org.uk/education-skills/course-search/acad/

\(^\text{12}\) Science, Technology, Engineering and Maths

\(^\text{13}\) WE/WESM, ME/MESM, AE

\(^\text{14}\) Education waiver will be required.
(2) **ME/MESM.** UK-recognised degree in Mechanical or Marine Engineering accredited to CEng or IEng level.

(3) **AE.** UK-recognised degree accredited to CEng or IEng level in Electrical, Electronic or Mechanical Engineering or an Aeronautically related degree similarly accredited. However, if the number of applicants exceeds the places available, primacy will normally be afforded to those holding aeronautically related qualifications.

(4) **E(TM).** UK-recognised honours degree in any subject.

(5) For WE/WESM, ME/MESM and AE the route to Incorporated or Charted status is clearly defined. Provided that the degree studied is recognised by the UK Engineering Council, the Royal Navy’s training package for Engineer Officers meets their requirements for corporate membership. For those Engineer Officers joining with non-UK Engineering Council recognised qualifications, a route to IEng and CEng status remains, but it is not as clearly defined and may need additional experience based evidence to fulfil the requirements for membership.

(6) For WE/WESM, ME/MESM and AE the route to Incorporated or Charted status is clearly defined. Provided that the degree studied is recognised by the Engineering Council, the Royal Navy’s training package for Engineer Officers meets their requirements for corporate membership.

d. **Medical and Dental**

(1) **Medical Officers.** DGE Medical Officers require a medical degree and full General Medical Council registration (no conditions) plus 4 months foundation training in Emergency Medical and General Practice.

(2) **Dental Officers.** DGE Dental Officers require a dental degree, full General Dental Council registration (no conditions) and to have completed foundation training.

(3) **Nursing Officer (Adult).** Nursing Officers need to have a BSc/MSc or BA Adult Nursing as a minimum and be registered with the Nursing and Midwifery Council (NMC).

(4) **Nursing Officer (Mental Health).** Nursing Officers need to have a BSc/MSc or BA Mental Health as a minimum and be registered with the Nursing and Midwifery Council (NMC).

(5) **Environmental Health Officer.** EHOs are required to hold a BSc or MSc in Environmental Health from an accredited institute and be registered (or working towards registration) with the Environmental Health Registration Board (EHRB).

(6) **Medical Services Officer.** MSOs must hold a UK recognised BSc/MSc or BA degree in any subject or specialisation.
0754. **UCAS Points Requirement**

a. The Job Eligibility Matrix (para 0759 refers) lists the minimum UCAS point requirement against each applicable role.

b. UCAS Points Requirement: each subject must be allocated a minimum of 20 UCAS points if they are provided as part of an accumulation towards the total UCAS point requirement for a role. Any subjects allocated less than 20 points are not to be accepted.

0755. **Thirteen Month Rule for Qualifying Subjects**

Qualifying subjects must normally have been obtained within a maximum spread of time of 13 months. Discretion may be given to candidates with exceptional qualities or those with exceptional circumstances (eg. family break-up) which may have affected examination results. In cases of doubt advice must be sought from CNR OES.

0756. **Educational Equivalency – General Guidance**

a. Educational equivalency is a complex area, and the GCSE and UCAS tables below provide only limited guidance. Any qualification which is not covered by these tables should be referred to the CNR OES.

OES
AIB
HMS SULTAN
GOSPORT
Hampshire
PO12 3BY
Fax 023 9254 2122 (Mil 93843 2122)

b. Queries must be accompanied by a copy of the certificates of qualifications in question, when issued, and details of all qualifications held including those in question.
0757. Convertibility of New Scottish Qualifications

a. The new Scottish qualifications can be mapped to the current qualifications using the equivalence table below:

<table>
<thead>
<tr>
<th>SCQF Level</th>
<th>New Scottish Qualifications</th>
<th>Previous Scottish Qualifications</th>
<th>QCF/NQF Level</th>
<th>BRd 3(1) Eligibility Matrix Qualifications</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 and 2</td>
<td>National 1 and National 2</td>
<td>Access 1 and Access 2</td>
<td>Entry Level</td>
<td>Entry Level Certificates</td>
</tr>
<tr>
<td>3</td>
<td>National 3</td>
<td>Access 3 Standards Grade (Foundation Level)</td>
<td>Entry Level</td>
<td>Entry Level Certificates</td>
</tr>
<tr>
<td>4</td>
<td>National 4</td>
<td>Standard Grade (General Level) Intermediate 1</td>
<td>1</td>
<td>GCSE Grades D-G Level 1 Qualifications, Foundation Certs/Diplomas etc</td>
</tr>
<tr>
<td>5</td>
<td>National 5</td>
<td>Standard Grade (Credit Level) Intermediate 2</td>
<td>2</td>
<td>GCSE Grades A*-C Level 2 Qualifications Certs/Diplomas etc</td>
</tr>
<tr>
<td>6</td>
<td>Higher (New)</td>
<td>Higher</td>
<td>3</td>
<td>GCE AS/A Level</td>
</tr>
<tr>
<td>7</td>
<td>Advanced* Higher (new)</td>
<td>Advanced Higher</td>
<td>3/4</td>
<td>A Level</td>
</tr>
</tbody>
</table>

b. Within a National 5, a student will receive a grade A to D. There is no A* however grades A to C map across to the equivalent GCSE grade (A to C). Therefore, where the matrix currently stipulates that a candidate must hold a GCSE A* to C, this will equate to a National 5 grade C or above.

0758. Acceptable Alternatives to GCSE Mathematics and English Grade 4/C

<table>
<thead>
<tr>
<th></th>
<th>ACCEPT</th>
<th>DO NOT ACCEPT</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>MATHEMATICS</strong></td>

</tr>
<tr>
<td>A pass in a full unit of General and Communications studies at BTEC NC, ND, HNC or HND.</td>
<td>CSE Grade 1 in English and Business Communication</td>
<td></td>
</tr>
<tr>
<td>Irish Leaving Certificate Ordinary Level; 01 – 04 or A - C/A1 – C3</td>
<td>A compensatory award in SCE H grade English</td>
<td></td>
</tr>
<tr>
<td>SCE Ordinary Grade: A, B, C *</td>
<td>'Communications' Key Skills</td>
<td></td>
</tr>
<tr>
<td>SCE Standard Grade: 1, 2, 3 *</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
0759. UCAS Requirements – Qualifications other than A/AS/H level

<table>
<thead>
<tr>
<th>QUALIFICATION</th>
<th>REQUIRED STANDARD</th>
</tr>
</thead>
<tbody>
<tr>
<td>Irish Leaving Certificate</td>
<td>Higher Level: A pass in 5 subjects, 2 of which must be at Grade C or above equates to at least 140 UCAS points</td>
</tr>
<tr>
<td>European Baccalaureate (EB)</td>
<td>Completion of a full EB to the required standard for entry</td>
</tr>
<tr>
<td>International Baccalaureate (IB)</td>
<td>Completion of the full IB to the required standard for entry</td>
</tr>
<tr>
<td>BTEC Certificate</td>
<td>Distinction, Merit (at level 3)</td>
</tr>
<tr>
<td>BTEC Diploma</td>
<td>Merit, Merit, Merit (at level 3)</td>
</tr>
</tbody>
</table>

Equivalencies for all other qualifications must be referred to CNR OES.

0760. Eligibility Matrix – RN, RM and RFA

The JEM_RM_RN_RFA Eligibility Matrix may be found by navigating back to the Home/Splash Page and clicking on the seventh button down entitled ‘Forms’.

0761. Eligibility Matrix – Maritime Reserves

The JEM_MR Eligibility Matrix may be found by navigating back to the Home/Splash Page and clicking on the seventh button down entitled ‘Forms’.

0762. Specialist Entry RNR Officers

a. Medical. Candidates must be fully registered with the General Medical Council of the UK and be a fully accredited Consultant or a Specialist Trainee working in Emergency Medicine, Anaesthetics, Gastro-intestinal and Vascular Surgery, Trauma Orthopaedics, Burns and Plastics, Maxillofacial Surgery, Ophthalmology, Ear, Nose and Throat, Urology, Microbiology, Haematology, Radiology, Critical Care, General Medicine, General Practice, Psychiatry or Rheumatoid and Rehabilitation Medicine. Any other Medical/Surgical speciality or sub-speciality will be considered on an individual basis. Candidates are to provide a professional CV to be forwarded to CNR’s Specialist Recruiter (NAVYCNR-OPSNMDSO3@mod.uk). Medical students or junior doctors may join the RNR as a General Entry Officer.

b. Chaplain. Entry requirements are the same for regular Chaplains as shown in the RNR/RMR Eligibility Matrix (see Para 1011.b sub para (4)).

c. Amphibious Warfare(AW). Suitably experienced serving or former Merchant Navy (MN) Deck and Engineer officers are recruited into the RNR(AW) specialisation to provide Senior Naval Officer (SNO) onboard commercial shipping chartered for military purposes and Ship-to-Objective Manoeuvre (STOM) watch-keepers onboard RN amphibious assault platforms (see Para 1012.b sub para (3)).

CHAPTER 8

TESTING PROCESSES

0801. Initial Careers Presentation
This is no longer conducted. Potential candidates who wish to register their interest now do so via the RN website or call the Contact Centre.

0802. RN Website
Candidates who have completed the Role Finder and the online Expression of Interest (EOI) form are presented with two options:

a. "I am ready to apply". EOI sent to the Contact Centre for basic eligibility checking.

b. "I am not ready to apply". EOI sent to the Contact Centre and an outbound call placed to the Candidate.

0803. Contact Centre
The RN Contact Centre operates on a 3 tier support system:

a. Level 1. Basic eligibility check. If Candidate is ready to proceed an ICARAS application URL is sent out via email. If not ready to proceed, the Candidate is passed on to Level 2 support.

b. Level 2. The Candidate is called from the Contact Centre to discuss their needs and direct the Candidate to specific information, preferably online, to see to those needs. If Candidate is ready to proceed, an ICARAS application URL is sent out via email. If not ready to proceed, the Candidate is passed on to Level 3 support.

c. Level 3. The Candidate is handed over to the AFCO. The Contact Centre emails the Candidate’s ‘Lead Sheet’ to the AFCO and emails the Candidate informing them that the AFCO will be in touch. The AFCO will make contact with the Candidate as requested, with ACLO assistance for Officer Candidates as required. If ready to proceed, the AFCO is to complete the ‘Lead Sheet’ with the following conclusions:

   (1) Eligible - Ready to Proceed.

   (2) Failed to Attend.

   (3) Not Committed to Proceed.

   (4) Ineligible – Age.

   (5) Ineligible – Residency.

   (6) Ineligible – Nationality.

   (7) Ineligible – Other.
This ‘Lead Sheet’ is then returned to the Contact Centre. Candidates who are assessed as being ‘Eligible - Ready to Proceed’, will be sent an ICARAS application URL via email. If, however, the Candidate is not ready to proceed, face to face contact with a CA may be offered, if expedient to the Candidate’s needs. If the Candidate does not wish to proceed, CAs are to remind them of the RN Website should they reconsider in the future. The Contact Centre will follow up with an outbound call 3 months after the decision not to proceed.

0804. **Face to Face Contact with a Recruiter**

a. Meeting a Candidate face to face at the AFCO is an important stage in effective recruiting, Outreach or any other recruiting activity.

b. The process is as follows:

(1) If at an AFCO, complete the EOI form.

(2) If at Outreach, complete the Find Out More (FOM) form.

(3) If ‘Eligible – Ready to Proceed’, attempt to provide the Candidate with internet access to apply online, or provide access to a telephone to call the Contact Centre on 0345 607 5555.

(4) If secondary contact is made via the website or Contact Centre, the EOI/FOM form is to be destroyed locally.

c. If the Candidate is not ready to apply, the EOI/FOM forms are to be forwarded to the following address for processing:

Naval Service Recruitment Team  
Teleperformance  
St James House  
Moon Street  
BRISTOL  
BS2 8QY

d. An application should not normally be initiated on DRS by the AFCO.

0805. **ICARAS Form**

a. Once registered on ICARAS the candidate will receive the following treatment:

(1) An email with an ICARAS password.

(2) A reminder email after 21 days of inactivity on ICARAS and a warning that their account will be deleted in 7 days.

(3) No further warning before their account is deleted 7 days after the reminder email was sent.
b. If a Candidate does not respond to the ICARAS URL email:

(1) Within 15 days, a follow up email will be sent by the Contact Centre.

(2) After 25 days, a second reminder email will be sent.

(3) After 35 days, the Contact Centre will make a maximum of 3 outbound call attempts to the Candidate.

(4) After 90 days, the Candidate will be sent an email closing the record.

c. Upon receipt of a completed application form the Contact Centre will, within 15 days:

(1) Check all the fields are complete.

(2) Check the Candidate satisfies the basic eligibility criteria.

(3) Email the Candidate acknowledging receipt of the Form and nominating an AFCO.

(4) Transfer ‘Ready’ ICARAS Forms into DRS and allocate them to the nominated AFCO. The application will either create a new record or marry up with an existing DRS record.

d. For ‘Unready’ forms the Contact Centre will either request further information from the Candidate or reply with an email explaining why the Candidate is ineligible.

e. Once transferred to DRS, the AFCO has 72 hours to contact the Candidate and initiate CRM Procedure which requires:

(1) Discussing BOP.

(2) Confirming eligibility for Naval Service and BOP.

(3) Discussing application including process, fitness concerns and any questions etc.

(4) Arranging RT.

(5) Confirming awareness of Practice Test Booklet and recommending completion.

(6) Emailing the appropriate Call In Letter.

f. All overseas Candidates, apart from the Republic of Ireland, are to be processed by AFCO London.

g. All Republic of Ireland Candidates are to be processed by AFCO Belfast.
h. **Re-Entrants.** Candidates are to complete the standard route until they come into contact with the AFCO. When in contact, the AFCO is to:

1. Request a meeting with the potential re-entrant to view their documents.
2. For Ratings: forward those documents onto CNR OPS RP CA1 to initiate the Approval to Process.
3. For Officers: forward those documents to AIB.

0806. **Recruit Test**

The Recruit Test (RT) is an objective psychometric test used to assess the academic suitability of a candidate to join the Naval Service or RFA. This written test is to be conducted in accordance with **ROM Ch 4 - RT.** It is made up of 4 sections: reasoning, literacy, numeracy and mechanical comprehension. Each section contains 30 questions with varied time constraints.

0807. **RT - Careers Advisers' Discretion**

Careers Advisers are to continue to process all Ratings (RN and RNR) and Other Ranks (RM and RMR) candidates whose RT score falls within the discretionary range. Candidates are to be taken as far as the Selection Interview stage where the CA is to establish if the candidate has compensating qualities which will mitigate the RT score shortfall. The discretionary range is defined as a candidate who:

a. Scores up to 5 marks below the recommended minimum RT Total score and who possesses other compensating qualities or,

b. Scores up to 2 marks below a recommended minimum RT Part score and who possesses other compensating qualities. However, the requirement for minimum RT Part 2 (Literacy) and Part 3 (Numeracy) of 10 points is mandatory. A combination of total and part scores can not be used.

c. When discretion has been used in the interpretation of RT scores, the CA is to ensure that the justification is clearly stated in the MIS. The statement “Despite a shortfall in RT1/RT2/RT3/RT4/Total RT, the following compensating factors apply........” is to be used in the journal.

d. The discretion is not to be ‘hidden’ in the recorded RT score, but the true score recorded on the MIS. CAs who, after the Interview, decide that there are no/not enough compensating qualities and decide not to use their discretion are to reject the candidate NSI.

---

1 Candidates who fail to achieve the required score for any branch but score a minimum of 7 in Literacy and/or Numeracy, and are judged by the CA to be a potential strong candidate in all other respects, are to be allowed to continue with their application to join the Service. This judgement is to be made after post RT counselling and the CA is fully empowered to make this determination. Discretion cannot be applied to this minimum score.
0808. RT - ACLOs’ Discretion

a. ACLOs are to continue to process Officer Candidates whose RT score falls into the discretionary range, providing evidence is gained from the Officer’s Application Questionnaire (OAQ) and the Initial Officer Career Interview (IOCI) to convince the ACLO the Candidate has sufficient compensating qualities.

b. The discretionary range is a candidate who:

   1. Either scores 1 mark below the required standard in 3 areas.

   2. Or scores 2 marks below the required standard in one area and 1 mark below in another area.

   3. Overall does not score more than 3 marks below the recommended minimum RT score.

c. If discretion has been used, the ACLO is to make sure the justification is recorded via a journal entry on DRS. The original RT score is to be entered.

0809. RT - Practice Test Material

Every eligible candidate is to be emailed the link to the online Procedures and Practice Test Booklet (PTB). The aim of the PTB is to provide candidates with a structured and fairly detailed introduction to the Selection Test before they sit it and define more clearly its role in the selection process. Additional information on the role, structure, general content and function of the selection interview is also provided in the PTB. Candidates must have the opportunity and time to be able to read, study and complete the PTB before test taking commences. The minimum time between candidates receiving the PTB and taking RT is 48 hours.

0810. RT - Versions, Administration and Marking

a. Three versions of the RT are in use: RT11, RT12 and RT14. Each version of the RT is to be rotated every 3 months as directed by CNR.

b. The RT is only to be administered by qualified careers staff who have undergone the requisite training and been licensed to conduct the test by RNCR.

c. RT may be marked by qualified CA, ACA or member of staff who has undergone the requisite training and been licensed at RNCR.

d. The RT is in 4 Parts:

   2. Part 2 - Literacy.

   3. Part 3 - Numeracy.

   4. Part 4 - Mechanical Comprehension.
e. All 4 parts of the RT are timed separately. If used according to detailed instructions, the RT will indicate likelihood of success in training. All 4 parts must be taken consecutively at the same sitting.

f. It is vital that the RT is administered exactly in accordance with the Test instructions as detailed in ROM Chapter 4 - RT. Even minor unauthorised differences in the conduct of the Test could lead to a legal challenge by an unsuccessful candidate. The written instructions must be followed and read out to all candidates. Familiarity with the conduct of the Test may tempt invigilators to take shortcuts or rely on memory. This is a dangerous and unprofessional practice. Invigilation demands full attention; Careers Staff are not to read or mark other answer sheets etc. whilst invigilating the RT test.

g. The minimum RT scores and, where applicable, academic qualifications for every BOP, including Officers, are shown in Eligibility Matrix in Chapter 7. All Rating branches require a minimum RT Part 2 (Literacy) and Part 3 (Numeracy) of 10 points in addition to branch specific part score requirements.

h. Candidates for a BOP which requires minimum academic qualifications e.g. CT etc. can only be tested if they are:

1. In possession of the required qualifications or;

2. Within the final 6 months of a course of study leading to these qualifications.

0811. RT - Disclosure of RT Test
Test scores are never to be disclosed to the candidate, or the candidate’s representative e.g. family, school teacher etc.

0812. RT - Failed Candidates

a. ACTION: CAREERS STAFF. Candidates who do not reach the minimum score for entry into any BOP and those who fail to reach the minimum mandatory Part 2 or Part 3 scores are to be rejected.

b. Candidates who achieve a RT score above the minimum required for entry into any Branch but do not reach the minimum RT requirement for their stated BOP are to be advised on other branches available to them which require a lesser score. Candidates who do not wish to consider an alternative BOP are to be rejected.

c. Candidates who are rejected for either of the reasons above are to be advised that they may, if applicable, make a further attempt. They can also be advised how to prepare themselves for a future attempt.

d. The RT results are to be recorded on the MIS.
0813. **RT - Retaking**

a. RT scores will remain valid for a period of 3 years from the last attempt. However, candidates must meet the current BOP RT requirement at the time of re-application. The Candidate must therefore enter service within a 3-year period from passing RT for their Branch. In a small minority of cases this will require re-taking of RT after an entry date has been allocated. Where relevant, applicants should be made aware of this requirement as soon as this possibility is recognised.

b. A second attempt of the RT may be authorised by the CA/ACLO after a minimum 1 month period from the date the first RT attempt was taken.

c. A third attempt can only be made in exceptional circumstances at the discretion of the ARO. A minimum of at least 12 months must have elapsed between the first and third attempts.

d. All re-tests must be conducted using a different version of the RT Test from that previously used.

0814. **RT - Pre-Enquiry Recruiting Testing (PRT)**

a. Prospective candidates for the Naval Service may sit the Recruiting Test (RT), prior to becoming an 'Applicant', provided the criteria listed below are strictly adhered to. Such action is aimed at students on BTEC Uniformed Public Service Courses (PSCs) held in Colleges of Further Education. In addition the testing regime may be made available to other groups such as the Personal Development Courses.

b. Candidates must be briefed on the full implications of success or failure in the test, including re-test Rules. The RT is to be timed, marked and administered in exactly the same conditions as for other candidates and must only be administered by licensed testers.

c. On completion of the PRT, test results are to be recorded by the conducting AFCO. Certificates will be issued by the conducting AFCO and awarded to successful candidates. Certificates will show which branches of the Service they can enter without having to re-sit the RT. The exemption(s) will remain extant for 3 years from the date of test, provided RT Entry Standards remain unchanged. PRT candidates are not to be entered onto the MIS.

d. Successful PRT candidates who subsequently produce their PRT certificate at the AFCO are to be processed and their RT scores, version and date obtained from the conducting AFCO. The RT requirement may be waived provided the candidate meets the eligibility requirements and the extant PRT score meets the current BOP requirement. Candidates who do not meet the current BOP RT requirement, or if the PRT certificate is over 3 years old, are to retake the RT. Careers Staff are to contact the conducting AFCO to obtain details of any previous test, and RT version, for candidates who claim to have completed the PRT but cannot produce a certificate.
0815. RT - Preparing the Test Room

a. The designated test room that is to be used for the completion of the forms and the testing of candidates is to be prepared prior to candidates arriving at the AFCO.

b. Reference. ROM Chapter 4 – RT provides further guidance on preparing the test room for the RT.

0816. RT - Basic Administration Instructions

a. Question Books must be inspected before re-use to ensure previous applicants have not marked them. Any mark must be removed by rubber. Should a permanent stain remain, the book must not be re-used but should be scheduled for destruction.

b. The 4 test parts 1, 2, 3 and 4 are separately timed. Accurate timing is essential, and a stopwatch must be used. Candidates are not permitted to use calculators or any other performance aid.

c. To achieve uniformity throughout the Naval Careers Service, personnel administering the Recruit Tests are to follow the instructions contained within ROM Ch 4 - RT.

0817. RT Scoring Instructions
See Reference. ROM Ch 4 – RT.

0818. RT Materials

a. Secure Storage. AROs are responsible for the safe custody of the test materials in their AFCOs and satellites. They are to issue written orders to their staff for the care, custody and general usage of CNR Test materials. On initial issue and on change of custodian, AFCO test material is to be recorded using the Review Form and a return made to CNR.

b. Reference. ROM Ch 4 – RT contains the following documents:

(1) CNR Return Proforma. This return is to be completed on change of custodian of the test material or as required by CNR.

(2) Movement Log: Bulk Stowage to Ready-Use-Log. This movement is to be conducted every 3 months for test material rotation in accordance with an annual Recruiting General Message.

(3) Bulk Stowage Log. This is used to muster all RT materials.
0819. Initiating BPSS at RT

a. ACTION: CA. CA is to conduct initial searches to provide verification and documentary evidence for the BPSS for all candidates.

b. ACTION: CA. CA carries out BPSS at the AFCO and, when completed, signs the Baseline Standard Verification Record (BSVR). The BSVR must be retained in the Form S1605 for possible future reference. Security Clearance applications for Ratings should be initiated online after the Selection Interview.

c. ACTION: CA. CA will confirm the identity of the potential officer candidates. This must be annotated on the BSVR. The BSVR must be retained in the Form S1605 for possible future reference. CNR OES will initiate the Security Clearance application for all officer candidates.

d. For more information on BPSS refer to Chapter 7 Para 0723 and ROM 1404.

0820. RT - Processing Successful Candidates

ACTION: AFCO. RT scores are to be recorded on the MIS. Candidates may be held at this stage if their BOP is subject to 'waiting times'. Candidates whose BOP is not subject to waiting times are to be processed as normal. Overseas candidates and UK Nationals resident abroad irrespective of Branch of Preference are to be treated as normal business and processed accordingly. Once all elements of the selection process are complete they will be held at allocation to await entry based on application date and requirement. Successful candidates are to be cautioned and entry documentation completed. Educational qualifications are to be entered into the MIS, if appropriate for their BOP, and once seen noted as 'Verified'. AFCOs are to consider a standard recruiting process to conduct the RT during the forenoon, marking and de-briefing these before 1200, allowing candidates a break for lunch and calling for selection interviews during the afternoon. This routine may be adapted subject to local variations as appropriate to the AFCO resources and preference of the candidate. Completing other elements of the recruiting process during the same AFCO visit may also be considered, where the candidate has practical difficulty attending the AFCO or to speed up the overall process. On successful completion of the selection interview candidates are to be issued with the following forms:

a. Medical Health Questionnaire.

b. Optician's Form.

0821. Eyesight Test – Booking

The CA is to issue the candidate with an unused code (depending on entitlement) authorising the candidate to have an optician's test (ASE in association with Boots). The candidate will be responsible for completing the online booking process and informing the AFCO when this has been completed. The optician will send a report electronically to the Pre-Entry Medical Service Provider (currently Capita). For certain locations or BoP, this process may be adapted to allow flexibility as to when the test is completed and outcome of results which may be given in hard copy and prior to full medical. Once received, the eyesight report will be uploaded with the candidate's RNMQ onto the medical portal. See ROM Chapter 5 - Medical and Eyesight Testing Procedure.
0822. Initial Aviation Eye Examinations (IAEES) For Aircrew Candidates

a. Aircrew Candidate eye tests are to be conducted by Boots Opticians prior to the IAME.

b. See Reference: ROM Chapter 1.

0823. Medical Examinations

a. All candidates must be medically fit on joining to undergo Phase 1 training, and to be able to perform their assigned duties in the Naval Service, world-wide, ashore or afloat. Candidates incapable of fulfilling those duties due to a pre-existing condition will be rejected in accordance with JSP 950 Ch 7 (JSP 346).

b. Medical appeals against the current standards iaw JSP 950 Ch 7 (JSP346) are to be forwarded to CNR Service Entry Medical Cell (SEMC). The appeal will be reviewed by CNR medical staff in respect of the standards, with a final decision on fitness to enter being determined by CNR Senior Medical Officer (Service Entry) (SMO(SE)).

0824. AFCO Medical Examiners (AFCO ME)

a. AFCO MEs will carry out initial pre-entry medical examinations for all Naval Service entries including RN, RM and Maritime Reserve; Officers and Ratings/Other Ranks, QARNNS and URNU candidates with the exception of Diver Branch candidates.

b. Diver Branch candidate initial pre-entry medical examinations are conducted under a separate contract for Diving Medical Examiners.

0825. Medical Eligibility

a. **ACTION: AFCO.** Careers Advisers may offer advice to candidates of medical ‘conditions’ that may bar them from entry and explain the entry standards using the CNR SEMC as a point of reference and, if necessary, to provide advice to candidates. Candidates declaring a barring condition should strongly be advised that they may be ineligible to apply. It is important that the medical requirement is explained and conveyed as sympathetically as possible. A qualified CA or the ACLO must give this advice. CNR SEMC is the point of contact for additional information regarding the current standards for Service entry.

b. **ACTION: CAREERS STAFF.** Careers Staff must not offer medical advice or be drawn into conversations relating to specific medical conditions. Candidates who request advice on medical conditions should be advised to reference the entry standards, their details passed to the SEMC for call back or contact their GP.
0826. Medical Requirements - Reserves/Re-Entrants

a. All candidates with former service and who fulfil the criteria below must be medically scrutinised by SMO(SE) before approval for re-entry processing is issued from CNR:

(1) Candidates who left the service due to medical reasons or in a reduced medical category regardless of length of service.

(2) For Regular Service, candidates who have left the service within 24 months of applying to re-join, regardless of the reason for discharge.

(3) For Reserve Service, candidates who have left the service within 24 months of applying to re-join, regardless of the reason for discharge.

b. In all occurrences the candidates’ details are entered on MIS and a covering letter with the original medical documents forwarded to CNR SEMC.

c. Serving RNR candidates may be accepted without a further medical examination provided that they have had a medical within the last 12 months and they have had no medical problems; see BR 1750A Chapter 2.

d. Previous Service medical records must be obtained from the relevant discharging authority before the candidates are processed. Service medical records will not be released by the discharging authority without the written consent of the candidate. The MIS produced proforma must be used for medical document requests.

e. On receipt of the Medical records the inner sealed envelope is not to be opened by Careers Staff. Medical documents for eligible candidates must be processed as at sub para b, or forwarded to the AFCO ME with the FMed 1 for the medical examination.

0827. Medical - Documentation of Eligible Candidates

a. Careers Staff are under no circumstances to take part in, or assist with, any part of the medical examination of candidates.

b. The FMed 1 is Protect - Medical and when completed the information thereon is restricted to Medical Officers and their staff.

c. Medical documents are, without exception, to be treated as 'Protect - Medical' and are always to be dispatched in accordance with ROM Chapter 5 - Medical and Eyesight.

d. ACTION: CANDIDATES. All candidates must complete a Medical Health Questionnaire - available in MIS - prior to commencing recruiting medical assessment.
0828. Medical - AFCO ME Appointments

  a. **ACTION: AFCO.** Medical appointments are to be booked iaw the current AFCO ME Contract.

  b. **ACTION: AROs.** AROs are to ensure that unacceptable medical delays are avoided. OPS MM SO3 must be informed at the earliest opportunity of any problems relating to the availability of appointment and will make additional appointments available.

0829. Medical Examination

  a. AFCO MEs will carry out the physical medical examination for entry and re-entry to determine fitness to enter. The AFCO ME will award a category of Fit to Enter, Permanently Medically Unfit (PMU) or Temporarily Medically Unfit (TMU) on completion of the medical iaw JSP 950, Part 6, Chapter 7 (JSP 346, Chapter 3).

  b. If the medical contractor or AFCO ME has any doubt regarding their findings and is unable to resolve the uncertainty, or they consider a Service Specialist opinion is warranted, the case can be referred to SMO(SE) for definitive opinion.

0830. Medical - Candidates Who Meet Medical Standards

  a. **ACTION: CAREERS STAFF.** Careers Staff must check the FMed 691 front cover on completion of the medical examination to ensure that it has been correctly completed and signed by the AFCO ME and that the candidate meets the BOP entry standards. On no account is this envelope, when sealed, to be opened other than by Medical Officers or their staff. Careers staff are to record the medical results iaw ROM Chapter 5 - Medical and Eyesight.

  b. **Branch of Preference.** Candidates who are medically unfit for their chosen Branch of Preference, but do meet the medical entry criteria for an alternative branch or Service, may be counselled towards another branch or Service without further referral to the AFCO ME.

  c. **Medical Examination - Period of Validity.** Whilst in the recruitment process, the medical examination will only remain valid for 1 year from the date of being declared Fit to Enter, after which point candidates are to be re-examined by an AFCO(ME). Specialist Medicals for Aircrew and Diving are only valid for 12 months. All diver candidates must have an in date “fitness to dive” certificate when attending Pre-Entry Diving Assessment (PDA). All candidates must be ‘in date’ for medical on the day of entry. Welbeck/DTUS candidates will require re-examination at least six months prior to entry to BRNC/CTCRM. CNR OES will advise candidates of this requirement as part of the allocation process.
0831. Medical – Entry

a. **ACTION: CANDIDATE.** On allocation of an entry date, candidates must complete the Acknowledgement/Medical Certificate (and, for those under the age of 18 years, their parent/guardian must sign the MOD Form 486). Candidates who declare illness or injury since their medical examination are to be referred to CNR SEMC for further consideration. The completed MOD Form 486 and FMed 691 and enclosures must be forwarded to the NETE with Part Entry Papers.

b. All candidates entering the Naval Service will be medically examined by a Medical Officer and their medical documents examined to determine whether any medical condition has arisen since the AFCO ME’s examination.

0832. Medical - Candidates Temporarily Medically Unfit (TMU)

**ACTION: MEDICAL CONTRACTOR.** Candidates will receive an explanation why they cannot be passed medically fit at that time. They will be advised what needs to occur before their medical fitness can be re-considered using referral for third party information or Service Specialist/SMO SE opinion. The AFCO will not be advised of the TMU reason, only the fact the candidate is TMU and, in general terms, the management of candidates to reach a medical decision on fitness to serve will be conducted by the medical contractor.

0833. Medical - Candidates Below Medical Standards

a. **ACTION: MEDICAL CONTRACTOR.** The Medical Contractor will reject candidates as Unfit for Service and annotate the FMed 1 and the rear of the FMed 691 accordingly. The relevant reject code is to be entered onto MIS. FMed 691 and enclosures are to be retained inside the candidate’s Form S1605 for 12 months and then destroyed. The medical records of those former Regular Service candidates who are medically unfit are to be returned to the relevant discharging authority.

b. Warfare and Aircrew Officer Candidates Colour Perception Testing. All potential Warfare and Aircrew Officers must be assessed as CP1 before OES will allocate an entry date. Aircrew officers will be required to attend a further Aircrew medical as part of the normal assessment process. Those candidates who do not meet CP1 standards are PMU (P8) for their BoP and alternative branches may be offered.

c. The medical reject letter must be sent to all candidates who are declared medically unfit. The medical contractor will comment to the candidate on any prognosis of the defining condition leading to a PMU decision. Candidates who are dissatisfied with the AFCO ME/Specialist decision are to be advised to consult their own general practitioner and/or submit a written medical appeal to the AFCO for the attention of CNR SEMC.
d. Candidates who are dissatisfied with the AFCO ME’s final decision on fitness to enter do not have the automatic right to appeal. An appeal from a candidate must be submitted in writing and presented to the AFCO for the attention of CNR SEMC. Candidates should be informed that they cannot appeal against the medical standard. An appeal can only be against the assessment of the candidate’s condition or the conduct of that assessment.

0834. PJFT

a. All Naval Service applicants, with the exception of RMR OR candidates, are required to pass the Pre-Joining Fitness Test (PJFT) relevant to their BOP. Candidates considered fit to continue with their application at Medical Triage may be considered fit to attend PJFT. Where there is uncertainty regarding fitness level or medical history, candidates are not to attend PJFT until being declared medically fit for service at the Medical examination and prior to an entry date being allocated.

b. The following exceptions when re-entering the Service apply:

(1) If it can be ascertained that a Re-Entrant will still be in date for RNFT/BFT on re-entry then the PJFT requirement can be waived, with an explanatory journal entry, otherwise the procedure is as below.

(2) Trained RN. The PJFT is to be completed as soon as practicable post medical as per the instruction above. Candidates re-entering the Naval Service who are aged 40 or over are allowed to undertake the PJFT but have the option and are warned that the RNFT rules will apply from their date of re-entry (i.e. mandatory Rockport Walk) and will be rejected if they fail this.

(3) Untrained RN. The normal PJFT process applies to all re-entrants who are required to undertake any part of initial training (i.e. Phase 1 or 2) on re-entry.

(4) Trained RM. The PJFT does not apply to trained RM re-entrants but they are to be warned that the normal RM BFT rules will apply to them from the date of re-entry.

(5) Untrained RM. The normal PJFT (RM)/PRMC process applies to all untrained re-entrants.
0835. PJFT - Pass Criteria

b. Candidates applying to join the Royal Navy are to receive the appropriate fitness guides as early as possible in the recruiting process. CAs are to ensure that copies of the relevant fitness booklet (CP L4) are handed to all candidates during their first AFCO visit.

0836. PJFT – Booking

a. **ACTION: AFCO.** Candidates are to be given/sent the appropriate PJFT Instruction letter, results proforma and list of Fitness Centres giving them the authority to book a PJFT directly with the Fitness Centre. Candidates have 7 days to book the test and 14 days to complete it. The procedure thereafter is determined by the result of the test.

b. Failure to complete the PJFT in the allocated time will result in the candidate’s application being terminated. The candidate will be notified using the appropriate letter. The candidate is to be rejected on the MIS.

c. On receipt of the Results email, the CA is to enter the results into MIS.
d. Duration of Pass.

(1) **Ratings and Other Ranks Candidates.** All PJFT passes will remain valid for a period of 6 months from the date of successful completion. Candidates who are still in the recruiting process after this 6 month period from taking and passing their initial PJFT are to re-take the test as '1st attempt candidates'. Candidates must be within the 6 month period prior to attending PRNC/PRMC and when commencing New Entry Training.

(2) **Officer Candidates.** All PJFT passes will remain valid for a period of 12 months from the date of successful completion. Candidates who are still in the recruiting process after this 12 month period from taking and passing their initial PJFT are to re-take the test as '1st attempt candidates'. Candidates must be within the twelve month period prior to attending PRNC/PRMC and when commencing New Entry Training.

e. The nominated representative of the Fitness Centre will conduct the PJFT and sign the Results Form. The Fitness Centre will email the Results Certificate to the AFCO within 24 hours of the appointment.

f. If a candidate cancels a test within 24 hours or Fails to Attend, the AFCO will be informed by the Fitness Centre and the RN will be charged for that appointment. Cancellation and re-booking by a candidate outside of 24 hours notice will not be notified to the AFCO.

g. AFCO is to contact the candidate as soon as possible and establish the reason for non-attendance. If deemed appropriate, the CA may authorise the candidate to book another date. If a candidate fails to attend a second appointment the CA is to update the MIS. The candidate is to be sent a MIS letter, which informs them that their application is being withdrawn.

0837. **PJFT - Conduct**

**Reference.** ROM Chapter 6 – PJFT. The PJFT is conducted by an external contractor in accordance with the instruction found at ROM Ch 6 - PJFT.

0838. **PJFT - Testing Procedures**

a. **ACTION: AFCO.** AFCO is to brief RN and RNR candidates on the PJFT during their CRM or first AFCO visit, covering the following points:

(1) The implication of failing:

(a) They will not be allocated a specialist board or audition, if required for their BOP, but will be given more time to get fit and re-take the PJFT.

(b) The candidate will not be allocated a date to join but will be given more time to get fit and re-take the PJFT.

---

2 Successful completion can be achieved at PRNC/PRMC or Fitness Centre.
3 Successful completion can be achieved at PRNC/PRMC or Fitness Centre.
(2) They should also be advised that to cope better with the physical demands of Phase 1 training, they should aim to achieve the RNFT fitness level before joining. Furthermore, failing Week 1 fitness test of new entry training may result in discharge.

(3) RN/RNR candidates aged 40 or over must complete the Rockport walk. For RNR, this must be within 3 months of joining the RNR; failure to pass within this time will result in discharge.

b. **ACTION: AFCO.** AFCO is to brief RM candidates on the PJFT(RM) during their CRM or first AFCO visit, covering the following points:

(1) The implication of failing (i.e. RM candidates will not be allocated a PRMC or an RMBS audition date and may be given more time to get fit and retake the PJFT).

(2) RM candidates should also be advised that the PRMC is much more physically demanding than the PJFT(RM) and that they are not to assume that passing the PJFT(RM) indicates a likelihood of passing PRMC.

c. **Travel Costs.** In exceptional circumstances, travelling expenses for candidates to attend PJFT can be paid from the Contingency Account iaw the instructions in CNR Standing Orders. This is to be determined by individual CAs on a case by case basis.

d. **Contract/Booking Difficulties.** Any problems with Fitness Centres are to be reported to CNR SO1 Ops as soon as they become evident. CAs are not to enter into dialogue with Fitness Centres directly, other than on purely administrative issues.

0839. **PJFT - Overseas Candidates**

a. **ACTION: Overseas Desk.** Overseas Recruiting Desk is to advise all overseas candidates, before travelling to UK, about the requirement to undertake the PJFT when visiting the UK for the selection process.

b. The timing of the PJFT is to be carefully programmed to allow for candidates who have travelled for extended periods and any other considerations. The procedure is as per the PJFT with the exception that, if they fail, they may undertake attempts 2 and 3, at the CA’s discretion, provided the candidate’s previous attempt(s) indicate a reasonable expectation of passing.
0840. PJFT Failure – Procedures

a. **Failure Routine after 1st Attempt.** Candidates should be warned that they have only a total of 3 attempts at the PJFT. Failures will fall into one of the following 2 categories:

(1) **Fail - Time Within 30 Seconds of Required Standard.** Candidates in this category may attempt the PJFT again after one week. Second Attempt Instructions Letter (RN/RM as appropriate) can be sent/given at a time agreed with the candidate. CAs are to set a reminder MIS alerts to ensure that they are aware when to send letters and when they should expect results.

(2) **Fail - Time Not Within 30 Seconds of Required Standard.** Candidates must allow 14 days to complete the fitness programme before attempting the PJFT again. Second Attempt Instructions Letter (RN/RM as appropriate) can only be sent/given 14 days after first attempt. CAs are to set a reminder MIS alerts to ensure that they are aware when to send letters and when they should expect results.

b. **Failure Routine after 2nd Attempt.** Candidates must allow 4 weeks to undertake the fitness programme, irrespective of time taken, before attempting the PJFT again. Third Attempt Instructions Letter (RN/RM as appropriate) can only be sent/given 4 weeks after second attempt. CAs are to set a reminder MIS alerts to ensure that they are aware when to send letters and when they should expect results.

c. **Failure Routine after 3rd Attempt.** Candidates will only be permitted to retake the PJFT a fourth time by the ARO. Candidates must allow 3 months to undertake the fitness programme, irrespective of time taken, before attempting the PJFT again. Fourth and Final Attempt Instruction Letter (RN/RM as appropriate) can only be sent/given 3 months after third attempt. CAs are to set a reminder MIS alerts to ensure that they are aware when to send letters and when they should expect results.

d. **Failure Routine after Fourth Attempt.** Should a candidate fail PJFT on the fourth attempt their application is to be withdrawn, appropriately end-stated. Candidates may not re-apply for one year from the date of their final PJFT failure. Before accepting a new application, CAs are to discuss what steps have been taken by the candidate to rectify their physical fitness issues and be convinced that they are now viable to proceed.

e. **PRNC(R)/PRMC PJFT Failures.** Any candidate who fails to pass the PJFT whilst on the PRNC(R) or PRMC is to re-take the test as a 1st attempt candidate prior to re-attending either of the aforementioned courses.

\[4 \text{ A 4th attempt may be permitted, ARO discretion only}\]

RATINGS AND OTHER RANKS SELECTION PROCESSES

SECTION 1 - RATINGS AND OTHER RANKS SELECTION INTERVIEW

0901. Ratings and Other Ranks Selection Interview

a. All ratings and other ranks candidates for regular service and Maritime Reserves are to be interviewed by a qualified CA. The purpose of this Selection Interview is to assess the candidates’ suitability for service, their Branch of Preference (BOP) and that they are ready to start training. The interview is BOP specific and any change of BOP before entry must be followed by a new selection interview for that branch. Re-entries (trained, part trained and untrained) and transfers from other services are also to be interviewed. The selection interview is normally conducted in an AFCO and the CA’s decision is final.

b. The interview lasts for approximately 45 mins to 1 hour and is semi-structured, covering the candidates’ home background, education, work record, spare time activities and motivation for joining the service and their BOP.

c. On completion of the interview, the CA will calculate the Selection Score for the Candidate based upon the following areas: Personal Situation, Teamwork, Physical Resilience, Mental Resilience, Discipline and Trustworthiness and Development/Motivation.

d. The Candidate is told face-to-face the outcome of the interview and subsequent actions required. This is completed by the CA who conducted the interview.

e. There are 3 possible outcomes from the interview which are as follows:

   (1) **Successful**. Candidates who are successful are moved forward to the next stage. An update interview is required for all successful candidates at 6 monthly intervals, or when required, through to entry. See sub para h.

   (2) **Not Suitable at Interview (Reject)**. Candidates who are deemed unsuitable for Naval Service and who are very unlikely to become suitable in the future.

   (3) **Not Suitable at Interview (User Defined Time Period)**. Candidates who are unsuitable at the moment, but are likely to become suitable within 12 months. The amount of time before the candidate is re-interviewed is decided by the CA. An update interview is then conducted, Selection Score assessed, and suitability decision made.
f. Post interview, the CA produces the Interview Report (AFCO Form 101). This form contains all the information required by the NETE PSOs to assess eligibility to change branch during Phase 1 of training. It contains all the evidence gained during the selection interview and is used to produce the Selection Score. It also contains an “Interviewers General Impression” which details the CAs selection decision. The content and layout of the AFCO Form 101 is determined by RNCR in conjunction with NETE PSOs. Candidates who change branch before entry must be fully re-interviewed and a new AFCO Form 101 produced.

g. Selection Interviews for re-entries, branch transfers and the Maritime Reserves are based on the standard selection interview but are amended to deal with the different requirements and circumstances.

h. Conduct. Selection Interviews for Ratings and Other Ranks are only to be conducted by qualified Careers Advisers at authorised locations. Reference: ROM Ch 7 - Ratings and other Ranks Selection Interview contains instructions on the conduct and marking of these interviews.

i. Update Interviews

(1) **NSI.** If following an unsuccessful outcome at the initial selection interview the CA identifies potential to meet the required standard the candidate is to be re-interviewed at a later date decided by the CA. During this re-interview the CA is to concentrate on all areas of concern raised previously. Once the interview is complete the same method of scoring is to be used across all competencies.

(2) **Routine Update Interviews.** Routine 6 monthly updates are to concentrate only on the mandatory information required in the AFCO Form 101. The required narrative is to record only changes or new information.

(3) **Final Update Interviews.** The aim of the Final update is to ensure that the mandatory information required by the NETE is up to date and current prior to the candidate commencing their training.

(4) **Other Occasions for Update Interviews.** Any changes in the candidate’s situation, or failure at any further selection serial including PRMC, Pre-entry Divers Assessment (PDA), Audition, Boards or PRNC. This does not include failure at medical, PJFT or SC where a comment in the journal will suffice.

0902. Competences Assessed in Ratings and Other Ranks Selection Interview and Selection Scores Awarded

The full matrix for assessing the Selection Score is available from the Royal Navy School of Recruiting website:
https://modgovuk.sharepoint.com/sites/defnet/Navy/Pages/CNR_RNSR.aspx
0903. Selection Scoring Rules

a. With a maximum of 6 per competence, total = 36.

b. Pass score for all branches = 21.

c. A Selection Score of 1 or 2 in any competence is considered a failure, apart from a 2 in either ‘Personal Situation’ or ‘Mental Resilience’, but not both.
SECTION 2 – RATINGS AND OTHER RANKS SPECIALIST SELECTION PROCESSES

0904. Naval Airman Aircrewman (NA(ACMN))

a. Eligibility criteria for NA(ACMN) are at Para 0759.

b. A return of service of 3 years will apply on completion of Operational Conversion Unit Training.

c. On completion of PJFT, NA (ACMN) are to complete additional specialist testing (CBAT) as per ROM Ch 12.

d. Candidates who fail CBAT or are PMU Aircrew are to be contacted by the AFCO and career counselled with a view to either BOP change, CBAT re-sit or withdrawal. For those candidates assessed as PMU Aircrew and who elect to change BOP, the AFCO is to contact CNR SO3 MM to confirm that the candidate remains fit for the alternative BOP and that medical issues have not been exposed during the Aircrew medical that would make them unfit for that branch.

e. A candidate who fails CBAT may re-sit providing they remain eligible in all other respects. There must be an interval of at least 12 months, which applies to those seeking to improve their grade as well as failures and candidates will only be permitted to take the tests twice.

f. Rejection or Withdrawal of any Aircrew candidate post PJFT, but prior to Specialist Medical, must be notified to OES and CNR RP immediately.

g. AFCO staffs are reminded that there can be significant delays in undertaking the Aircrewman specialist testing and should take this into account when processing candidates to meet known entry dates. Additionally, they should manage candidates’ expectations with regard to the timescales for entry and possibility of failure at CBAT, selection and medical.

0905. RM Band Service – Auditions

a. Auditions are held annually and RMSM will inform CNR of the dates. The RMSM audition lasts from PM on the Monday and completes PM Thursday or AM Friday. The audition consists of a comprehensive musical audition, a dental examination, fitness profiles, tests and a personal interview.

b. The dates of the auditions and administration procedure will be issued by CNR as an RGM.

c. The recruiting process for RMBS is contained in the Specialist Selection ROM.

0906. Naval Nurse Selection Boards - Naval Nurse (Student)

a. Student NN Boards are held in Portsmouth. Dates of Boards and administration procedure will be published by CNR as an RGM.
b. **Eligibility Standards.** Educational eligibility standards are at Para 0751.

c. The recruiting process for Naval Nurse (Student) is contained in **ROM Ch 12 - Specialist Selection**.

**0907. Naval Nurse Selection Boards - Naval Nurse (Qualified)**

a. NN (Q) Boards are held in Portsmouth. Dates of Boards and administration procedure will be published by CNR as a RGM.

b. **Eligibility Standards.** Educational eligibility standards are at Para 0751

c. The recruiting process for Naval Nurse (Qualified) is contained in **ROM Ch 12 - Specialist Selection**.

**0908. Diving Assessments**

a. **Aim.** The aim of the 2½ day (3 night) course is to show potential Divers where and how Naval diving training is conducted and, by undertaking exercises, including diving, give some exposure to the physical demands of Diver training.

b. The Assessment will take place at the Defence Diving School, Horsea Island, Portsmouth. Course dates and other practical arrangements will be promulgated by RGM. The maximum number of candidates for each course is 12.

c. The administration process for Diving Assessments is contained in **ROM Ch 12 - Specialist Selection**.

d. Grading is conducted by a Specialist Board, comprising the Diving Officer and SMDI. The board issues candidates one of the following results:

<table>
<thead>
<tr>
<th>Result</th>
<th>Description</th>
<th>CNR action</th>
</tr>
</thead>
<tbody>
<tr>
<td>Good</td>
<td>Candidate passed all aspects of PDA and performed at a good level throughout. Pass valid for 1 year.</td>
<td>Load candidate onto next available intake.</td>
</tr>
<tr>
<td>Recommended</td>
<td>Candidate passed all aspects of PDA. Pass valid for 1 year.</td>
<td>Process candidate in normal course.</td>
</tr>
<tr>
<td>Not Ready</td>
<td>Candidate failed one or more of the assessed criteria, but passed the try dive(s).</td>
<td>Candidate to return to PDA in 6 months, following further preparation.</td>
</tr>
<tr>
<td>Not Recommended</td>
<td>Candidate failed the try dive(s) serial.</td>
<td>Candidate assessed as unsuitable for further RN diver training.</td>
</tr>
</tbody>
</table>

**0909. Potential Royal Marines Course**

a. All candidates for the RM are required to undertake the Potential Royal Marines Course (PRMC) at CTCRM. A successful pass at PRMC will remain extant for a period of 12 months. Trained re-entrants into the RM will not be required to pass a further PRMC.
b. Candidates who fail to reach the standard required but are considered worthy of a further attempt are to be rejected. It is essential that candidates who fail the PRMC, but are in this category, are to be encouraged to continue with their application. A candidate may only attend PRMC three times. However, further attempts may be considered but at the discretion of the CA/PRMC WO as this will be dependent on the reasons for failure.

c. For PRMC waiver rules for ex-RMO candidates, see Chapter 10 Para 1023.d.

0910. PRMC Injuries

**ACTION: AFCO STAFF.** AFCO Staff should brief candidates that the MOD will only meet claims arising from accidents or injuries to candidates attending PRMC, if MOD is held to be negligent. MOD will not accept liability for claims which are not attributable to MOD negligence. Candidates should be strongly advised to purchase personal insurance to protect themselves against any accident or injury not attributable to MOD negligence or Act of God during the PRMC.

0911. Pre Royal Navy Course (Ratings)

a. All entrants into HMS RALEIGH must have attended the Pre Royal Navy Course (Ratings) (PRNC(R)) which is conducted at either RNAC(N) (MoD Caledonia) or RNAC(S) (HMS Collingwood). Achieving the required standards at PRNC(R) will remain extant for a period of 12 months. Trained re-entrants into the RN are not required to complete PRNC(R).

b. As ‘bid for’ candidates are allocated to an entry by CNR Ops RA, the RNAC will liaise with the candidate’s AFCO to agree a date for attendance which shall be no more than 6 months prior to their planned entry date. The RNAC will complete DRS booking procedure and the AFCO will issue the joining letter.

c. In exceptional circumstances for training pipeline management purposes only attendance at PRNC(R) can be waived with the authority of both FOST TE PM SO1 and CNR OPS SO1. Candidates who will be under 18 years of age on entry cannot be waived attendance at PRNC(R).

d. The details of the PRNC(R) course content are provided in the candidates joining letter and a video of the course is available via the RN web site.

e. On completion of the course each candidate will be invited to:

   (1) **Continue.** Having achieved the required standard at the RNFT run time and passed a swimming test.

   (2) **Defer.** The candidate will be referred back to the AFCO to determine the deferral period although this will be a minimum of 3 months.

   (3) **Withdraw.** The candidate will be directed to return to the AFCO for counselling and processing of their withdrawal of application.
f. A candidate who demonstrates the potential to meet the New Entry standard may be allowed to attempt PRNC(R) on 3 separate occasions. A third attempt is authorised for pipeline management and in exceptional circumstances, at which point the candidate will become ineligible for entry if they fail to meet the required standard. After a period of 3 years the candidate may re-apply to join the RN.

g. On successful completion of PRNC, the AFCO is to post the Candidate’s medical documents to:

Medical Centre Co-ordinator
Medical Centre
HMS RALEIGH
TORPOINT
Cornwall
PL11 2PD

0912. Direct Entry Petty Officer Technicians (DEPOT/DET)

a. Eligibility criteria for DET are at Para 0759.

b. A return of service of 6 months from end of Phase 1 and Phase 2 Training.

c. Standard eligibility criteria for ET(ME) will apply, with the following exceptions:

(1) Applicants must commence training before their 40th birthday.

(2) RT is to be recorded in DRS but there is no set pass mark.

(3) Basic eligibility and Baseline Personal Security Standard (BPSS) are to be checked when the applicant attends the AFCO for RT.

d. DET will attend a 1-day Assessment Centre which will include the following:

(1) Briefing on and exercises in Practical leadership.

(2) Engineering Case Study.

(3) Competence and suitability interview.

e. The Selection Process may be found in the ROM Chapter 1.

0913. RNR Cyber Reserves

a. The RNR Cyber Reserves Branch will recruit only suitably qualified and experienced personnel (SQEP) who have demonstrated they have the requisite cyber skills and experience developed in academia and/or employment. The skill sets sought by the JCU(R) are in extremely short supply.
b. Candidates who do not meet the RNR standard criteria for age, fitness, medical or appearance criteria will still be considered for entry to the RNR Cyber Branch with the requisite waivers being assessed on a case-by-case basis by NAVY MR-CNR RCT SO1.

c. There is no requirement to apply for approval to process for over-age applicants.

d. RT and interview are to be conducted as normal, including verification of BPSS.

0914. **Under Graduate Apprentice Scheme UGAS**

a. UGAS eligibility criteria are detailed in the Eligibility Matrix at Para 0759.

b. Standard eligibility criteria for ET(ME) and (WE) apply, with the following exceptions:

(1) Age 18 – 34 years on entry.

(2) Minimum RT score of 90.

(3) 5 GCSEs or equivalent at Grade C or better including Maths, English and at least one science based subject.

(4) New UCAS Tariff Tables are being introduced for use from 1 Sep 17 onwards. Depending on the expected date of entry the following UCAS point achievement is required:

   (a) For applicants expected to enter the Royal Navy prior to 1 Sep 17: using the 2016 UCAS Tariff Tables, a minimum of 160 UCAS Tariff points or equivalent with a minimum of 120 points derived from Science, Technology, Engineering and Maths subjects.

   (b) For applicants expected to enter the Royal Navy on 1 Sep 17 or later: using the 2017 UCAS Tariff Tables, a minimum of 64 UCAS Tariff points or equivalent with a minimum of 48 points derived from Science, Technology, Engineering and Maths subjects.

c. UGAS applicants undertake an additional interview during Pre Royal Navy Course (Ratings).

CHAPTER 10
OFFICER SELECTION PROCESSES

SECTION 1 – INITIAL OFFICER SELECTION PROCESSES

1001. Officer Recruiting - Basic Principles

a. All applicants to the Naval Service must complete CRM, RT, Medical, PJFT and Security Clearance. Candidates who have the academic qualifications may then be offered Officer application. The AFCO staff will complete the initial stages of CRM, RT, Medical and PJFT, after which potential officer applicants should normally be handed over to the OCLC staff to arrange Sift interviews.

b. The candidate will be assigned an Area Careers Liaison Officer, who will help them to prepare for the Officer selection process. All Officer candidates must attend the Admiralty Interview Board (AIB) at HMS SULTAN; RM Officer candidates must additionally undertake the Potential Officers’ Course (POC) at CTCRM. Those who pass will be forwarded for selection at the Final Selection Board (FSB), which sits periodically through the year and is presided over by Commander AIB (CAIB). The FSB determines those candidates who will be offered a place at BRNC or CTCRM to begin Initial Officer Training.

1002. Officer Recruiting - Allocation of ACLO

Once a candidate is confirmed as eligible by AFCO staff, having proven their academic achievement and passing the RT, an ACLO is to be nominated for the candidate by postcode area. The ownership of the candidate, post PJFT, will be transferred from the AFCO to OCLC, thus creating an MIS alert is to be generated to inform the ACLO of the allocation.

1003. Initial Officer Career Interview

a. The Initial Officer Career Interview (IOCI) is used to mentor candidates and to facilitate earlier engagement between ACLOs and Officer Candidates.

b. Post RT the ACLO is to conduct IOCI with all Officer candidates irrespective of their RT result.

c. The following areas are to be covered, to allow the ACLO to determine the candidates’ desire and suitability to be an Officer:

(1) The candidate’s RT result and implications.

(2) The branch of preference that the candidate wishes to join and the candidate’s eligibility, including documentation check.

(3) The competence evidence given by the candidate in the OAQ, particularly the strength of Leadership and Teamwork.

(4) The next recruiting stage and action required.
d. The ACLO has the ability to utilise their discretion with the RT score, providing sufficient compensating qualities are displayed during the IOCI. Para 0807 refers.

e. Depending on whether the candidate’s RT score is a Pass, Fail or Narrow Fail, the IOCI will result in one of the following outcomes:

   (1) Reject.
   (2) Defer (Sift).
   (3) Defer (RT).
   (4) Fast Track.
   (5) Process.

1004. Sift Interview for Officer Candidates

a. **ACTION: OCLC.** OCLC is to book a Sift interview within 14 days of receipt of the candidate pack (S1605) from the AFCO. An invitation letter should be sent to the candidate as per **ROM Ch 2 - MIS.** Whilst there may be a need to introduce regional variations in contact details or venues the core elements of the letter should remain. Additionally, the candidate should be notified of the location, time and date for the Sift interview.

b. The Sift interview is used to determine the candidate’s suitability to be forwarded to AIB.

   (1) Competencies assessed during a Sift interview include: Motivation, Leadership, Values and Powers of Communication.

   (2) The Sift result is valid for 12 months (with the exception of URNU students). For URNU students, providing that they remain in the URNU, the validity of an URNU student’s AIB success is valid up to the year of their graduation and for one calendar year from the September of the year of their graduation.

   (3) There is a minimum deferral period of 6 months, however in exceptional circumstances, this may be reduced to 3 months with RRO approval. Candidates may be deferred for a maximum period of 12 months.

   (4) Candidate’s deemed unsuitable at Sift can re-apply after a minimum period of 12 months.

c. **REFERENCE: ROM Ch 8 - Sift Interview** contains explanatory details for the conduct and scoring of a Sift Interview.
1005. AIB Application Forms

**ACTION: ACLO/OCLC/CNR OES.** On completion of a successful Sift interview the Candidate is to be issued AFCO Form 104. When completed, this form is to be returned to the OCLC. The completed and checked Application Forms are forwarded to the AIB by the Admin Staff. **REFERENCE: ROM Ch 9 - CNR(OES) contains details on application forms required by the CNR OES.**

1006. Potential Officer Candidate (POC) Visits

a. POC visits provide an opportunity for candidates to see the Service at first hand and meet serving personnel in their workplace. The aim is to broaden candidates' understanding of Service life, inform them about the Service and the career opportunities within it and give them an insight into the Service ethos.

b. **Types of Visit.** Visits can be made to ships and/or shore establishments and can include an element of training and development (such as the BRNC summer camp). CNR is also involved in other presentational events and there are opportunities for candidates to be involved in these.

c. **Visit Programming and Allocation.** The visits programme is run by CNR OPS VISITS who allocates a number of places on CNR sponsored visits to each OCLC. ACLOs put forward suitable candidates for the visit iaw local OCLC procedures. The finalised list of recommended candidates for the OCLC is forwarded to CNR OPS VISITS who will dispatch joining instructions and rail tickets directly to the candidates. Visit places are limited and ACLOs should carefully consider the candidates they recommend for visits. Candidates with reasonable potential for passing AIB but who have only had limited exposure to the Service (i.e. no family connections or cadet time) are ideal.

d. ACLOs are to record the POC Visit details on the MIS.

1007. No Longer Interested (NLI), Withdrawals and Rejections (Officer Candidates)

If a candidate decides at any stage during the recruitment process that a career as an Officer in the Naval Service no longer appeals to them, then the ACLO should ascertain the reasons and ensure that the candidate has not come to this decision lightly. The candidate may well still be eligible for other branches in the Naval Service (including Ratings/Other Ranks) and should be advised accordingly but if these are of no interest then the candidate’s application is to be withdrawn as NLI. CNR OES are to be informed should a candidate withdraw from the recruiting process at any point post AIB application.

1008. Officer Candidates - Follow-up Interviews (ACLO)

a. **ACTION: OCLC.** OCLC is to book follow up interviews after the Sift interview using the relevant MIS letter. If the response form is not returned within a maximum of 6 weeks, the application will be withdrawn by the OCLC. This process is to take place at each interview booking stage.
b. **Follow-up Interview Periodicity.** The degree of ACLO-to-Candidate contact can vary widely, dependent on the candidate's age, stage in the process and selected entry pattern. However, the following should act as a guide to minimum periodicity:

1. Potential Welbexian - Once per term.
2. Potential Sixth Form Scholar - Once per term.
3. Undergraduate - 6 monthly.
4. Employed - 6 monthly.

C. Further interviews with the Candidate are to be arranged by the ACLO in accordance with the timescales above to nurture the Candidate’s interest in the Naval Service, monitor the development of the Candidate’s commitment and Service Knowledge and to advise the Candidate on how to prepare for selection and entry into the RN or RM. The nurturing process should be augmented through POC visits, both to increase Service Knowledge and understanding of the different career profiles available and also to maintain enthusiasm. It is vital that after each interview the Candidate and ACLO are absolutely clear on the next steps to be taken and the timescales involved.

1009. **Actions Following a Further Interview**

**ACTION: ACLO.** ACLO is to make a full record of the interview as a Journal entry in MIS. Relevant MIS data fields are to be completed/amended as appropriate with further information gleaned during the interview. Copies of any additional hardcopy documentation (e.g. recently awarded educational certificates) are to be put in the candidate’s file, and this fact is to be recorded in the MIS Journal. Finally, the ACLO is to set a User Defined Alert (UDA) to prompt the action (e.g. arrange interview, check exam results and bring up date).

1010. **Transfer of Candidates between ACLOs**

The receiving ACLO must transfer the candidate’s details from the previous ACLO using the MIS system. This will create an automatic Journal entry.

1011. **Officer Recruiting - Pre-AIB/POCRM Briefings**

a. **ACTION: ACLO** is to carry out a face-to-face brief with the Candidate on the conduct of the AIB. (Candidates from the Channel Islands, IOM or Scottish Isles may be briefed on AIB by telephone if a face to face meeting is impossible). The POCRM brief is to give candidates enough time to be at the peak of fitness, and must be held not less than 6 weeks before the POCRM. It is to include the following key areas:

1. AIB/POC DVD.
2. Briefing Sheet.
(3) Discussion of strengths/weaknesses.

(4) Clear instructions on how to get to CTCRM/AIB.

b. **Potential Royal Marines Officer Development Course (PRMODC).** RM Officer candidates who attend POCRM and narrowly pass or narrowly fail the course may be given the opportunity to attend a PRMODC run by Bicton College. Selection for, and invitation to take part in, the PRMODC is the responsibility of OC POC in the Office of the Corps Colonel.

c. **REFERENCE: ROM Ch 10 - POC and AIB Briefs** contains explanatory detail for conduct of such briefings.

1012. **Maritime Reserves Officers Recruiting Process**

a. In overview the recruiting process for Maritime Reserves Officers is the same as that for Regular Service officers.

b. **RNR Officers.** There are 5 routes for Officers to enter the RNR:

   (1) **General Officer Entry.** General Entry Officer candidates will not be allocated a branch until successful completion of Fleet Board. Although they may express a preference at the time of joining, their allocation will ultimately be in accordance with prevailing service requirement.

   (2) **Medical and Nursing Officers.** For Medical and QARNNS(R) Officers who have transferred to new Common Terms and Conditions of Service or who joined after 1 Apr 05, the Regulations in JSP 527 (Career Management Regulations for Defence Medical Services Medical Services, Dental Officers and Nursing Personnel) take primacy. For medical and QARNNS(R) officers who have not transferred to new CTOS, legacy regulations continue to apply in full.

   (3) **Merchant Navy Officers.** For Amphibious Warfare Reserve Officers NAVYMR-CNRRCTSO1@mod.uk is to be forwarded the candidate’s unique MCA CoC registration number; name as it appears on the certificate; date of birth; and date of issue in order that the details be validated against the MCA certificate database and the candidate’s journal to be allocated to reflect that the CoC is valid and current.

   (4) **Chaplains.** Candidates are to provide a CV for forwarding to Chaplain of the Fleet (COTF) (NavyChaplaincy-COTFEA@mod.uk Tel: 02392 625553) with info copy to NPT(Res) Requirements Manager (NAVY PERS-BMRESSO2@mod.uk).
(5) **Temporary Commissions in Times of Emergency.** The Defence Council may grant a temporary commission in the RNR/RMR, in such rank as may be deemed appropriate, to suitable persons who volunteer their services in times of emergency. Temporary officers of the RNR/RMR will be entitled, while so employed, to the rank, pay and allowances of the corresponding permanent rank in the RNR/RMR and generally will be treated in all other respects, and be subject to the same regulations, as permanent RNR/RMR officers. Such officers will be liable to service either ashore or afloat as may be directed by the Defence Council until their commission is terminated.

(6) All RNR officer candidates are to be actively encouraged to maintain ongoing contact with their local RNR Unit prior to AIB but care must be taken to manage expectations and to ensure that such contact is kept at an acquaint level.

(7) ACLOs are to ensure that candidates are invited to meet the local RNR unit Commanding Officer (CO) but there is no requirement for the CO to provide a reference or recommendation for the candidate. Specifically, the RNR unit CO is not interviewing or approving candidates for entry.

(8) The RNR does not currently require competitive selection or a Final Selection Board post-AIB. All successful RNR candidates will be sent an Offer Letter by NAVY CNR-AIB TSO which the candidate is required to acknowledge receipt to CMR HQ. In turn CMR HQ will confirm the candidate’s specific terms and conditions of service (TACOS) including date of entry, uniform grant, pay scale and rank on entry.

c. **RMR Officers.** Candidates with a previous Commission who have also successfully attained their Green Beret are eligible to apply for direct entry as an RMR officer. However, entry for all such candidates is subject to Manning Clearance from the RMR Career Manager (NAVY PCAP-CM OR RMWO) via CNR OES.

d. Attendance at the AIB is not required for an officer who has already held a Commission, eg.

(1) Former Naval Service Officers.

(2) Former officers of the other UK Regular and Reserve forces and former officers of Commonwealth Armed Services.
1013. **AIB - General Information**

a. **Aim of AIB.** The aim of the AIB is to assess the suitability of applicants to be trained as Officers, to fill a first complement appointment, and to make recommendations for the granting of Scholarships, Reserved Places and Bursaries.

b. **The Process.** The AIB is a competence-based selection process designed to assess the suitability of candidates for direct entry to the various Naval Services and in-Service commissions and specialisations for which they are eligible. In particular, to assess whether, on successful completion of training, they are likely to have the potential to become mid-seniority Lieutenants RN or Captains RM. The competences measured during the AIB’s assessment process are derived from the Operational and Training Performance Statements for Junior Officers. They underpin the generic qualities required of all junior officers regardless of specialisation and, as such, the AIB process provides an essential measure of an individual’s suitability for officer training.

c. **Composition and Duration.** Officer candidates attend the AIB in HMS SULTAN. Each Board is under the presidency of a Commander/Captain RN or a Lieutenant Colonel RM, assisted by a Lieutenant Commander RN and a Lieutenant RN. The Board takes account of the results of psychometric and written tests, performance in practical exercises and at interview. Candidates attend the Board for 2 nights and 2 days. Aircrew candidates will be required to stay an additional night to complete the aircrew medical.

d. **Final Board Mark (FBM).** The Board’s final assessment of candidates is expressed in terms of a Final Board Mark, which can range from 60 to 300. The FBM of 180 generally indicates that the applicant has demonstrated a satisfactory level of evidence to undergo initial training. Candidates will be told either that they have been forwarded for selection or have not been forwarded for selection at this time.

1014 **AIB - Applications and Forms**

Every eligible candidate has the right to apply to AIB. No one however has the right to interview at AIB. The decision to attend AIB should be a mutual one between the candidate and the ACLO, i.e. made when the candidate is: ready to commit to a career in the Naval Service; is confident of passing the Board; and when the ACLO is assured that this commitment is genuine, and that the candidate is indeed prepared by passing the Sift interview. On successful Sift, the candidate is to be issued with the relevant Application Forms. **REFERENCE: ROM Ch 9 - CNR(OES)** contains further details on administration of AIB applications.
1015. **AIB - Candidate Wishes to Withdraw During Application or Selection**
A candidate may decide against pursuing a Commission after submitting an application to AIB. **REFERENCE: ROM Ch 9 - CNR(OES)** contains administrative actions to be taken in such circumstances.

1016. **AIB - Candidate Becomes Ineligible During Application or Selection**
A candidate may become ineligible after submitting an application to AIB. It is most likely that this ineligibility will be determined in the first instance by the ACLO. **REFERENCE: ROM Ch 9 - CNR(OES)** contains administrative actions to be taken in such circumstances.

1017. **Pre-AIB Eligibility Checks and Admin Procedures**

a. **REFERENCE: ROM Ch 9 - CNR(OES)** contains supporting instructions.

b. **Ineligible Candidates.** If eligibility is in doubt the file is to be referred to XOES who will seek advice from TSO, Cdr E, Cdr A and Col RM as necessary. Candidates that have been transferred to the CNR OES who are identified as not meeting the eligibility criteria will be forwarded a written explanation by XOES copied to the candidate’s record. Candidates who meet the eligibility criteria but who are not invited to proceed will be forwarded a written explanation from TSO or CAIB.

c. **Allocation to Computer Based Aptitude Tests (CBATs); Potential Officers’ Course (POC) and the Admiralty Interview Board (AIB).** Sufficient places are to be arranged by XOES, in liaison with OASC, OC POC, TSO and Captain AIB (CAIB), for candidates to attend CBAT, POC and AIB.

d. **Fleet Air Arm Assessment.** OES will check with OASC for previous test results. Candidates who have taken the tests before will be reviewed by Cdr A who will decide if further tests are permissible. When a re-test is approved, there must be a minimum of 12 months between tests.

e. **POC.** Successful candidates will be allocated to the next available AIB in the usual way. Candidates will normally be given 6 weeks’ notice, but this may not always be possible, and they should be prepared to attend at short notice if required. This is particularly relevant in the 2 months prior to allocation. Unsuccessful candidates should wait for 12 months before returning to the POC unless a 3, 6 or 9-month comeback recommendation is given by the POC. A maximum of 3 attempts at the POC for RM is allowed unless approved by the Corps Colonel.

f. **Pre-AIB Checks are carried out by OES to ensure that all the documentation required by the Board and the post board section is present in the packs.** This used to be full eligibility checks, but these should now have been completed before AIB application. The documentation required by the Board is the Sift report, POC/FAT results sheet and Q101. Also checked is that any documentation obtained between application and Board is present and correct such as additional references, place of birth waivers, SC.
g. **Notification of AIB Date.** Once OES have assigned the candidate to a Board, the ACLO will be notified with the date for AIB by CNR OES.

h. **AIB Brief.** ACTION: ACLOs are to ensure that the candidates are fully aware of the requirements of the selection process. It is important that candidates are made aware of the intensive nature of the AIB, and ACLOs may advise candidates on profitable directions for preparation. ACLOs are not, however, to ‘coach’ candidates for the AIB, but should restrict their briefings to the general information covered in the AIB DVD and the AIB Guide for Candidates. ACLOs should not discuss Board marks with candidates. Basic competencies assessed at AIB are as follows:

1. Effective Intelligence.
2. Leadership.
4. Values.
5. Motivation.

i. **REFERENCE:** ROM Ch 10 - POC and AIB Briefs contains explanatory detail for conduct of an AIB brief.

1018. **AIB - Results Notification**

a. The candidate will be informed of the result of their AIB in a verbal de-brief by the Board President before leaving HMS SULTAN. A letter confirming this result and giving a forecast of Selection opportunities is then sent to the candidate arriving within a week of their attendance. The ACLO will also be informed of the result and the candidate’s score by way of the AIB Feedback Form which is attached to the candidate’s record on completion of the AIB Board.

b. **ACTION:** ACLOs. ACLOs are to contact all candidates (by phone if appropriate) within 14 days of their candidate’s return from AIB, irrespective of the candidate performance, and debrief them. This is an essential part of the ACLOs role in maintaining the good profile of the Service within the wider community.

c. Before debriefing any candidate, should the ACLO be in doubt, ACLOs may contact NAVY CNR-AIB TSO to gather selection/options details to ensure that the information provided is coherent with the AIB position at the time of interview.
d. ACLOs should advise candidates who failed the Board on the best route for a further application (referring to AFCOs where appropriate).

(1) **Candidate has Demonstrated Potential.** **ACTION:** ACLO is to remind the candidate (without belittling this significant achievement) that a pass at AIB does not guarantee selection and therefore entry into Officer training. There is no requirement for the ACLO to arrange a further interview, but the candidate should be assured that the ACLO is available to be contacted should there be any further questions regarding the prospective training and service in the RN/ RM. The candidate then awaits selection.

(2) **Candidate has not Demonstrated Potential.** **ACTION:** ACLO is to advise the candidate on the options available and the recommendations made by the Board in the AIB Feedback Form. The candidate will be aware of the recommendations from the verbal de-brief given by the Board President. However, these should be reiterated to the candidate to ensure there is no confusion. The following 3 recommendations will be in the report form:

(a) ‘RECOMMENDED TO RETURN’ is allocated to candidates who presented some evidence at the board but not enough to pass on the first attempt. However, the board gathered sufficient evidence to believe that the candidate could be successful on a second attempt in no less than 12 months. **ACTION:** ACLOs should contact these candidates after the board and encourage them to apply again.

(b) ‘DO NOT ENCOURAGE’ is allocated to candidates who presented little evidence at the board but could be borderline at a second attempt. **ACTION:** ACLOs should not actively encourage or chase up these candidates but rather let the candidates take the initiative by showing that they are worth another board.

(c) ‘SHOULD NOT RETURN’ is allocated to candidates who are deemed entirely unsuitable to become officers. ‘Should not return’ rather than ‘Not to return’ recognises the fact that occasionally candidates do not take full account of the feedback received and are re-boarded when, despite robust advice, there are extenuating circumstances and a second attempt is allowed. If the candidate, following a failure at Board, is no longer interested in pursuing a Commission then they are to be dealt with as a candidate NLI.

e. The AIB file will be weeded in accordance with current DPA legislation.

f. CNR OES will endorse all travelling expenses claims received, confirming attendance and checking the information provided by the candidate.
1019. **AIB - Selection Categories and Follow-up Procedures**

a. By passing AIB, including satisfying the medical standards, a candidate has demonstrated sufficient potential to be expected to successfully complete INT(O) at either BRNC or phase 1 training at CTCRM. This does not mean that a candidate has been selected for entry as an Officer in the Naval Service which should be made very clear to candidates throughout the recruiting and selection process. A pass at AIB is valid for 12 months so long as the candidate remains eligible for Officer Entry.

b. **Candidate Selected for Officer Training.** Upon selection, the candidate will receive a letter stating the specialisation, Commission, seniority and joining date for BRNC/CTCRM being offered. The ACLO will be informed by MIS upon Selection as the candidate’s Status is progressed to Potential Entrant.

c. **Candidate Selected for a Sponsorship Award.** Upon being awarded sponsorship, the candidate will receive a letter stating the specialisation, Commission, financial value and start date of the award being offered. The ACLO will be informed of this selection.

d. **Candidate Not Selected.** If a candidate has not been selected for entry or sponsorship a year on from the day of attending Board then they will need to re-attend AIB so long as they remain eligible in all respects for Officer training.

e. **Pre-Joining Medicals for Bursary and Scholarship Award Holders.** Prior to NETE entry begin granted, Bursary and Scholarship award holders will be required to pass a second medical examination only if they were under 18 years of age when they undertook their AFCO ME medical examination. The candidate will be informed by the AIB at least 6 months before being appointed to BRNC or CTCRM. Candidates will be invited by OES. **ACTION: OES** to instruct current ACLO to invite candidates to AFCO ME for this repeat examination.

1020. **AIB - Re-Attending**

a. Candidates may wish to re-attend AIB for three reasons:

   (1) Failing to achieve a pass at Board.

   (2) Passing the Board but not being selected for training.

   (3) Returning for a different scheme of entry (e.g. 2nd year Sixth Form Scholars wishing to gain university sponsorship).
b. Regardless of the reasons for returning to AIB, there must be at least 12 months between each attendance (in exceptional cases, e.g. reaching the age limit or at TSO’s discretion for those that are ‘Pass Not Selected’, candidates could be allowed to return in less than 12 months). However, candidates are allowed to apply before this 12-month stand over has passed, in order that they may be in a position to re-attend as soon as possible after that point. Candidates are normally only allowed to attend AIB 3 times (regardless of the result) and this should be borne in mind with regards to the enthusiasm some candidates may have to go back as soon as possible. ACLOs should be assured that candidates who failed a previous attempt have made sufficient progress to overcome the shortcomings identified by the AIB before re-attending. If, in the ACLO’s judgement sufficient improvement has not been demonstrated, then those candidates should be most strongly advised to delay re-applying until they are ready, in order to prevent them from squandering one of their limited opportunities to reappear before the Board.

c. Attending AIB under the Sixth Form Sponsorship/ Reserved Place scheme or Welbeck does not count as one of the 3 AIB attempts allowed.

d. **AIB Re-Attendance for Engineer Officer Candidates Awarded a Two Year Scholarship or Reserved Place.** Candidates who have been awarded a Two Year Scholarship or Reserved Place, and are already guaranteed a place on the Defence Technical Undergraduate Scheme (DTUS) or a Bursary to attend a non-DTUS University, do not re-attend AIB.

e. If a candidate has passed the Board and wishes to re-apply then the candidate’s ‘Status’ is to remain as ‘Rejected’ ‘Not suitable at Interview’ or in the case of candidates who have passed the Board but not selected, changed to ‘Rejected’ ‘Not suitable after Interview’. A new application should then be started using the same URN. Candidates should only need to complete AFs once.

Providing that the candidate’s circumstances have not changed drastically, e.g. a scholar who re-applies after university, candidates should be issued with the AFCO Form 4 only.

f. **Reimbursement of Earnings.** Candidates in employment will not be reimbursed for loss of earnings. This also applies in respect of candidates attending CBATs and the RM Potential Officers Course.

g. AIB(OES) will remain the point of contact for changes to university courses, length of degree etc to ensure that the correct OCLC and ACLO remain assigned to the Reserved Place candidate. ACLOs are to ensure that candidates keep AIB informed when personal details change.

1021. **Pre-Joining Briefs**

**ACTION: ACLOs.** All successful candidates are to receive a pre-joining brief from the ACLO, not more than 4 weeks prior to joining BRNC or CTCRM.
SECTION 3 – OFFICER SPECIALIST SELECTION PROCESSES

1022. Specialist Recruitment for Medical, Dental, Nursing and Environmental Health Officers and Chaplains

a. Due to the intricacies of the required civilian qualifications and assessment of relevant experience, recruitment of candidates interested in gaining Commissions as Medical, Dental, Nursing and Environmental Health Officers or in becoming Naval Chaplains is handled in concert with the relevant Specialist Recruiter in CNR HQ.

b. All Medical Branch candidates (RN and RNR) can start process up to a year before fulfilling the educational and registration criteria to be given a conditional offer.

c. All Medical Branch candidates need to email their CV listing their qualifications and experience to the NMD SO3, email: NAVYCNR-OPSNMDSO3@mod.uk.

d. **ACTION: CAREERS ADVISERS.** Careers Advisers are to give such candidates advice on the general nature of a career in the Naval Service. They should then be transferred to the relevant Specialist Recruiter for further advice and processing once they are undergoing the required training for that profession (e.g. started at medical school). The procedures are as follows:

   (1) Medical, Dental and Environmental Health Officers

      (a) CAs/Contact Centre are to issue candidates the latest recruiting literature. They may also show relevant recruiting videos and provide general advice to Medical/Dental candidates. If at that time the candidate's choice remains for a Medical/EHO/Dental career, they should be referred to the Medical/Dental recruiter.

      (b) Medical/EHO/Dental enquirers who are at university and beyond may be issued with the latest recruiting literature and shown relevant recruiting videos and are then to be referred to the appropriate recruiters for specialist counselling.

   (2) Queen Alexandra’s Royal Naval Nursing Service – Officers

      (a) Qualified nurses become eligible to join as officers or as a Naval Nurse (Qualified) following registration with the Nursing and Midwifery Council. All QARNNS candidates must hold a first level degree in Adult nursing or alternatively a Diploma in Adult nursing with the addition of a relevant post graduate specialist nursing degree. QARNNS specialist recruiters will advise as to relevancy. It is the individual’s responsibility to maintain their NMC registration throughout their naval career.
(b) After completion of BRNC, QARNNS Officers will be assigned to an MDHU or RCDM dependent on the amount of post graduate clinical experience they hold. If they have less than two years postgraduate clinical experience they will commence on the postgraduate mentorship programme at MDHU Derriford.

(c) Military and civilian undergraduate nurses may commence Officer entry application at the beginning of their third academic year.

(d) CAs/Contact Centre may issue candidates with the latest recruiting literature and may also show relevant recruiting videos and provide general counsel advice to QARNNS candidates, but they then must refer eligible candidates to the Specialist Recruiter for further guidance.

(e) **ACTION: CAREERS ADVISERS** must inform all candidates that rating entry is also available on completion of training. Candidates who are interested, and would like more information on rating entry, are to be referred to the Nurse Recruit Assistant.

(f) Candidates who are not qualified nurses but interested in nurse training within QARNNS are to be referred to the Nurse Recruit Assistant and their nearest AFCO to be advised on the selection process for NN(S).

(3) **DGE Medical/Dental Officers.** Applications are accepted from the start of foundation year one, for entry post foundation year two.

(4) **Chaplains**

(a) Once registered as a candidate AFCOs are to issue the standard pre-RT documents and literature (minus the Procedures and Practice Test Booklet) along with the Chaplain Supplement.

(b) Upon receipt of the documents back, the AFCO is to:

Book an IOCI, using ‘Call In For IOCI (Chaplains)’ Letter.

Waive the RT on DRS.

Forward a copy of the Chaplain Supplement to the Chaplain of the Fleet Co-ordinator (COTF COORD) at the following address:

Mrs Lee King  
Naval Chaplaincy Service Coordinator/Asst CM  
NCHQ MP1-2  
Leach Building  
Whale Island  
Portsmouth  
HANTS  
PO2 8BY
(c) ACLO is to assess Candidate post-IOCI in accordance with the ROM.

(d) **PJFT.** Where Candidates are aged 40 or over, they are to complete the Rockport Walk (RPW) at the AIB instead of a 2.4km PJFT run.

(e) For Candidates successful at SIFT, the OCLC is to book an AIB and forward the Candidate’s pack to OES.

(f) OES are to organise the COTF’s Interview Board pre-AIB via phone call to COTF COORD.

(g) Successful Candidates at COTF’s Interview Board will receive an AIB invitation from OES.

(h) Candidates are required to achieve a grade of 180 at the AIB.

(i) On successful completion of AIB, OES are to forward the application pack to COTF’s office.

1023. **Computer Based Aptitude Tests (CBATs)**

a. **CBATs Booking**

   (1) On successful completion of RT and IOCI, the AFCO is to request a specialist interview on DRS. OES will then book the Candidate onto CBAT and issue joining instructions directly to the Candidate.

   (2) On completion of CBATs, OES are to make a journal entry on DRS and set an alert to inform the AFCO.

   (3) The ACLO is to continue processing the Candidate as concurrent activity throughout the CBAT process.

b. **CBATs Results**

   (1) The candidate will be informed of the test results by the RN Liaison Officer at OASC before leaving RAF Cranwell. These results will be published on the MIS and an alert generated for OCLC to action.

   (2) **ACTION: ACLO.** ACLO is to get in contact to discuss the implications on the career options now open to the candidate. For successful candidates, the CBATs results are combined with the FBM at AIB to generate the Pilot and Observer Recruiting Assessment (PANDORA or T score) by which Fleet Air Arm (FAA) candidates can be listed in order of merit.
(3) **Candidate Passes CBATs for Chosen Aircrew Sub-Specialisation.**

If the candidate has passed for Pilot, Observer and Air Traffic Controller, or has passed all those Tests that are pre-requisites for the candidate’s aircrew sub-specialisation of choice, then all that is necessary is to arrange an AIB Brief for the candidate.

(4) **Candidate Fails CBATs for Chosen Aircrew Sub-Specialisation.**

**ACTION:** ACLO should advise the candidate on the alternative career options available within the Fleet Air Arm. Every effort should be made to maintain the candidate’s enthusiasm in a Fleet Air Arm career despite this setback. The candidate may also want to consider a Naval career outside of the Fleet Air Arm, which may require a further interview. If the candidate is content to continue in an alternative aircrew sub-specialisation offered by the Board, or to pursue a second-choice branch choice, then the candidate is to confirm this decision in writing to CNR OES and an AIB Brief is to be arranged.

(5) **Candidate Fails All CBATs.** **ACTION:** ACLO will need to advise the candidate on the alternative career options available within the Naval Service. Every effort should be made to maintain the candidate’s enthusiasm in a Naval career despite this setback and this may well necessitate a further interview to brief in more detail on, for example, Warfare Officer. AIB/OES will not allocate the candidate to a Board unless the AFs indicate a second preference career outside of the Fleet Air Arm. If the candidate has expressed a second branch choice and is content to proceed then an AIB Brief is to be arranged, otherwise the candidate should inform AIB in writing of their intentions. The candidate may wish to take time to consider the options available before progressing further and may therefore decide to withdraw the application in the meantime.

c. **CBATS - Re-attending.** A candidate may re-sit CBATS provided they remain eligible in all other respects. There must be an interval of at least 12 months before re-sitting the tests. Candidates will be allowed to retake the tests up to the age of 26. Any candidate who scores below 90 must be referred to Cdr Air AIB, for approval. Cdr Air AIB is the authority for deciding who is eligible for resits, without recourse to CNR or Flying Training. Sitting the aptitude tests for the Special Flying Award (which are different from the CBATs) will not preclude a candidate from sitting the full CBATS.

1024. **Potential Officers’ Course Royal Marines (POCRM)**

a. **Bookings**

(1) Booking Royal Marine Officer candidates on the POCRM at CTCRM is the responsibility of CNR OES. CNR OES will send a ‘System Generated Alert’ to inform the ACLO as ‘Confirmation of Booking’ once a candidate is allocated a place on POCRM at CTCRM.
(2) **ACTION: ACLO** should, by this stage, have made the candidate aware of the high level of physical preparation required for POCRM, but he will be required to attend a POCRM brief by the ACLO about the Course. POCRM joining instructions and travel warrants will be issued by CTCRM.

(3) **POCRM Brief.** The POCRM Brief should cover the format of the course, the aim of the course and the qualities that the course is designed to test in the candidates. There is no necessity for the brief to be carried out by a RM ACLO, but to be fully conversant with the format and ethos of the Course RN ACLOs should visit CTCRM and observe a POCRM at least once early in their appointments. **REFERENCE: ROM Ch 10 - POC and AIB Briefs** contains explanatory detail for conduct of a POCRM brief.

c. **POCRM Results.** Once the candidate has attended the course a ‘System Generated Alert’ will inform the ACLO of the result. The candidate will already have been informed of his result in his de-brief by OC POCRM before leaving CTCRM.

   (1) **Candidate Passes POCRM.** If the candidate passed the course, then CNR OES will automatically book the candidate on to an AIB. Therefore, an AIB Brief should be arranged as soon as possible. **REFERENCE: ROM Ch 10 - POC and AIB Briefs** contains explanatory detail for conduct of an AIB brief.

   (2) **Candidate Fails POCRM.** Candidates who fail POCRM will normally be required to wait 12 months before they can re-attend. The ACLO needs to ascertain whether the candidate wishes to continue with Royal Marines Officer selection at a later date and/or consider alternative careers in the Naval Service, either as an officer, such as RN Warfare Officer, or as an other rank. CNR OES will not allocate the candidate to a Board unless they have indicated a second preference career in the RN on AFCO Form 4. **ACTION: ACLO** should arrange an AIB brief if the candidate has expressed a second branch choice and is content to proceed; otherwise the candidate should inform CNR OES. If the candidate is intent on pursuing a Commission in the RM, then they will need to re-apply in 12 months. **REFERENCE: ROM Ch 10 - POC and AIB Briefs** contains explanatory detail for conduct of an AIB brief.

d. Candidates who have passed POC but subsequently fail AIB or pass AIB but are not selected can be given the option of making a RMOR application with the requirement to pass the PRMC waived so long as entry is within one year of passing the POC. All other elements of the RMOR process are to be completed in accordance with **REFERENCE: ROM Ch 1.** Of note, this is not the case of a PRMC pass being used instead of a POC, as POC also assesses key Officer qualities as well as physical attributes.
e. **Bursars**

(1) RM University Bursary candidates seeking bursaries of more than one year in duration will only be required to attend Day 1 of the RM POC where their fitness will initially be assessed through completion of the RM Fitness Assessment (RMFA) and the Basic Fitness Test (BFT). Following a successful RMFA/BFT, candidates will then attend AIB. If successful in gaining a University Bursary at AIB, these candidates will then be required to pass a full POCR in the September or October of their final year at university to allow sufficient time for remedial training, plus a second attempt at POCR should that be required. Once the candidate has passed POCR, they will join RM Officer training the following September.

(2) Bursars who do not pass the full POCR prior to commencement of training, or drop out of the selection process, will be required to repay the cost of their Bursary or apply to join the Naval Service in an alternative specialisation.
CHAPTER 11

ENTERING THE NAVAL SERVICE

POINT OF CONTACT – PART 4

CONTENTS

1113. RNR Officer Entries - Entry Letter
CHAPTER 11
ENTERING THE NAVAL SERVICE

1101. Entry Date Allocation - Regular Service Ratings and Other Ranks

a. Once the whole selection process has been successfully completed (less PRNC for RN ratings) and the online security vetting procedure started, a bid for an entry date is to be made to CNR. A bid for an entry date is not to be made until SC has been received for the following categories:

   (1) Those who do not meet the Residency requirement and have not been awarded a waiver.

   (2) Trained re-entries.

   (3) Candidates with declared criminal convictions.

b. Bids for entry places are to be forwarded to CNR. The candidate's availability dates must be accurately assessed and entered into the MIS. If this information is not shown it will be assumed that the candidate requires no notice and is willing to accept the first available entry date.

c. **ACTION: AFCO.** Candidates who withdraw their application or become ineligible after being bid for but before being allocated are to be withdrawn or rejected on the MIS which will automatically remove them from the waiting list. A new application is to be made should a candidate wish to re-apply to join the Service.

1102. Provisional Entry Date – Application

a. The FOST Pipeline Manager provides CNR with the annual RN and RM recruiting target. The target shows the entry pattern to BRNC, Raleigh, CTCRM and the RM School of Music broken down into branches and numbers required over three terms.

b. Allocation of entry dates is carried out centrally by CNR Allocations (CNR OPS RA). From the annual recruiting target, CNR RA will:

   (1) Produce a Recruiting Sitrep, outlining the CNR requirements for each term.

   (2) Action Bids from AFCOs on the MIS system.

   (3) Inform the entry establishments, a minimum of four weeks prior to the entry date, of the number of ratings/other ranks joining by name and branch.
c. The monthly ‘Recruiting Sitrep’ will also update the Field Force on those branch rosters that are oversubscribed. Where the recruiting targets are small and the branch is oversubscribed, Careers Staff must take care to explain to candidates the likely waiting time to enter these branches after they have chosen the branch before the RT.

d. CNR OPS RA will allocate a provisional entry date to meet the planned training requirement on the MIS to the AFCO.

e. **ACTION: AFCO.** AFCO must inform CNR OPS RA of those who withdraw their application after being allocated an entry date. CNR OPS RA must also be informed immediately if a candidate has any police involvement after the SC process has started or SC given. A decision will then be taken on the eligibility of the candidate for entry in conjunction with the CA.

**1103. Provisional Entry Date - Informing Candidates**

a. Great care must be taken by Careers Staff when informing candidates of the provisional entry date to ensure that they are not given the impression that entry is now guaranteed.

b. **ACTION: AFCO.** AFCO is to inform the candidate of the provisional entry date, ideally by telephone, but in all cases also by MIS letter. Before talking to the candidate, and sending the letter, all time sensitive elements of the selection process including Medical, Selection Interview, SC, PJFT and RT are to be checked; any that are going to become out of date before the entry date are to be re-booked. Consideration and planning for the dates of the PRNC and FEB (see **ROM Ch 11 - Final Entry Brief**) is also to be made. Any elements that require re-taking or completing are to be explained to the candidate and are to be completed as early as possible.

c. Since the introduction of the New Employment Model (NEM) on 01 April 15, care is to be taken when issuing the Provisional Offer of Entry. Although the MOD Form S3049 (Version Feb 15) remains extant, all those Candidates who have been allocated an entry date post-01 April 15 are to be sent the ‘RN or RM Advice on NEM’ letter on TAFMIS. The accompanying MOD Form S3049 (Version Feb 15) is to be sent and collected prior to their entry date.

d. **ACTION: AFCO STAFF.** AFCO must inform CNR RA immediately if NSV ask for additional information after a provisional entry date has been given. CNR RA will then discuss with the Careers Adviser the feasibility of the provisional entry date. Candidates who are contacted during the SC process with regard to undeclared criminal convictions or debt should be made aware of a possible delay in entry or rejection of their application.

e. **ACTION: AFCO STAFF.** AFCO is to forward PEPs to the NETE in accordance with the approved timescale. Documentation for those who cannot be given a SC to meet their entry date will, depending on the circumstances of the delay, either be retained at the NETE or returned to the AFCO.
f. **ACTION: AFCO STAFF.** AFCO is to ensure the candidate is given a minimum of two weeks notice of cancellation of their entry date by informing CNR RA of those candidates who have not been given SC 2 weeks before the planned entry date. CNR RA will liaise with NSV to hasten clearances for these candidates and inform Careers Staff of those subsequently given SC or an SC waiver. Once SC is received at the AFCO, the candidate is to be contacted with confirmation of the entry date. SC details must be entered on MIS when received. The candidate is to be instructed to attend the AFCO for final entry brief which is to be conducted in accordance with ROM Ch 11 - Final Entry Brief.

1104. **Entry Date - Candidate not Cleared or Waived within 2 Weeks of Entry**

a. It is inevitable that some candidates will have their provisional entry date withdrawn because SC has not been received. It will take great care and professionalism by the Careers Adviser to ensure this extremely disappointing news is given to the candidate in a sympathetic and clear manner immediately the decision is known. The candidate should, if possible, be informed by telephone, and must be told by a qualified CA. This is to be followed up by the appropriate MIS letter.

b. The security authorities are not obliged to give a reason for refusal or delay in giving SC. Therefore, the candidate must be left in no doubt that the delay is because CNR has not yet given final approval. The candidate is to be reassured that all efforts are being made to obtain approval and as soon as it is received the candidate will be informed. The candidate is never to be allocated a further provisional entry date until SC has been received.

c. Understandably, the candidate, and their family, may feel some anger or bitterness when given this news. Careers staff must frequently keep in touch with the candidate and their family to assure them that every effort is being made to obtain approval and that they have not been forgotten.

d. Once SC is received CNR will endeavour to allocate the candidate to the first available entry and inform the AFCO immediately.

1105. **RNR Entries – Attestation**

a. On completion of the RT, RNR Candidates can attest. Once attested, for statistical reasons, the Candidate is now classed as recruited into the RNR.

b. Once attested, Candidates are entitled to sign in and receive pay and allowances for training, with attendances counting towards Reckonable Service.

c. After attestation the normal recruiting process continues, with a requirement to pass the medical, PJFT and Selection Interviews as normal.
1106. **RNR Entries - RNR Documentation for Entry**

a. In addition to the required PEPs listed in Para 1110 sub para b. the following documents are required:

   1. Photocopy of passport.
   2. PJFT Certificate.

b. The following forms are to be completed by all candidates during the in Unit Induction day, retained at the RNR unit and married up with PEPs in due course:

   1. MOD Form 134: Official Secrets Act.
   2. JPA Standard Journey Claim (HDT details).
   3. SPVA Form F Ident 1024 (Rev 05/09) ID Card Application Form.
   4. JPA N006: Privately held Wills Form.
   5. NOK details.

1107. **RNR Entry Process**

a. Once an application for Security Clearance has been made, NSV will inform the AFCO once SC has been given. SC details are then to be entered on to TAFMIS.

b. A standard allocation pattern will be followed by AIB TSO and CNR OPS RA for all new entries, with the following dates: 01 Jul, 01 Oct, 01 Feb and 31 Mar.

c. Once allocated, an Offer of Service letter advises the Candidate they have successfully completed the recruitment process:

   1. **For RNR Ratings.** AFCO to generate ‘RNR Offer of Service’ letter and ‘Entry Papers Summary Sheet’ from TAFMIS. Letters are then sent to the Candidate and copied to the CO of the parent RNR Unit.

   2. **For RNR Officers.** AIB TSO to generate ‘RNR Officer Offer of Service’ letter and ‘Entry Papers Summary Sheet’ from TAFMIS. Letters are then sent to the Candidate, copied to the CO of the parent RNR Unit and CMRHQ SO2 Training.

d. With the dissolution of the Regional Pipeline Manager post, and creation of the Unit Warrant Officer role, the progression of the Candidate’s documentation is to be conducted as each RNR unit sees fit.
1108. RNR Recruiting - Voluntary Training In Unit

a. Candidates may attend voluntary training at their RNR unit on successful completion of the medical. This may be impracticable unless the unit is resourced to run a Holding Class alongside a New Entry class and care should be taken to avoid delivering Phase 1 by default in combining the Holding and New Entry classes. Candidates must be in no doubt that they are not yet accepted into service; specifically, they must not be given a Kit Book or be issued with uniform items.

b. Voluntary attendance does not carry an entitlement to pay or allowances nor does it count as reckonable service towards Bounty or medals.

c. **ACTION: CANDIDATES.** The RNR Temporary Identification Card/Letter of Authorisation must be completed by all candidates prior to commencement of any voluntary training.

1109. Final Entry Briefing

a. Once a candidate has been accepted for Service it will be necessary for the AFCO to complete the processing before entry at the New Entry Training Establishment (NETE). These are currently HMS RALEIGH, CTCRM and RMSoM. The processes detailed below have been worked out to ensure that a Rating’s or Other Rank’s joining procedure is eased during the first few days.

b. **ACTION: CAREERS STAFF** are to carry out the final entry brief in accordance with the ROM Ch 11 - Final Entry Brief and issue travel instructions 6 weeks before the entry date provided that the candidate has received security clearance. Candidates are to be advised that the first few hours at the NETE are hectic, and that the evening meal may be quite late.

c. PEPs for those who are not security cleared are to be forwarded to the NETE but candidates are not to be given travel documentation until security clearance has been received.

d. Tickets are to be issued to cover the journey to the NETE by the shortest practical route. Where it is necessary to issue ticket for journeys by a more expensive route (e.g. via London) the variation is to be entered in the unit date stamp space and signed by the CA. This variation is to be used sparingly and mainly for those entrants who would suffer unacceptable delay or be subject to an excessive number of train changes by the cheaper route. Tickets are to be issued for the entry date. When candidates are travelling from the far North of UK CAs are advised where practical to utilise air travel into either Bristol or Exeter airports, with onward journeys by rail. In exceptional circumstances it is possible for candidates to join on the Monday. In order to assist the Recruit School, Offices are to send candidates’ planned arrival times to the RALEIGH TUPO.

e. Signing of the Engagement/Attestation Forms will be carried out at the NETE concerned. **ACTION: CAREERS STAFF** must warn candidates that if they refuse to attest or engage they will not be given travel expenses to return back home.
f. Entry establishments and nearest railway stations are as follows:

<table>
<thead>
<tr>
<th>Entry Establishment Address</th>
<th>Railway Station</th>

</tbody>
</table>

1110. Part Entry Papers (PEPS)

a. **ACTION: CAREERS STAFF.** Careers Staff are to check PEPs carefully. It is mandatory that the ARM checks and signs PEPs before despatch. PEPs are to be sent direct to NETEs with proof of posting at least 21 days prior to entry (New Entry Trainee Records HMS Raleigh or Foundation Block CTCRM). PEPs for candidates who have not been given an SC are also to be forwarded to NETE within the laid down timescale; once SC is received Careers Staff are to inform the NETE of the clearance details.

b. The CNR Recruiting Target Sitrep will state the dates that PEPs must be forwarded to the NETEs for the first two entries that join immediately after a leave period. AFCOs must telephone the New Entry Trainee Records HMS Raleigh or Foundation Block CTCRM when the timescale for submission if PEPs cannot be met. PEPs are to be assembled in the following order in accordance with the Summary Sheet before being forwarded to NETEs:

c. **Part Entry Papers – CTCRM**

(1) Entry Papers Summary Sheet.

(2) Signed (by CA) Form S3049

(3) Signed Form 486 and Photographic Consent Form (U18 only).

(4) Copy of the photo page of the passport along with a valid visa stamp/residency permit. (Foreign & Commonwealth only).

(5) FMED 691 with FMED 1 enclosures plus former service Med Docs if applicable.

(6) Copy of Birth (adoption) Certificate.
(7) Copy of Marriage Certificate.

(8) Statutory Declaration of Name Change (if applicable - U18 should be endorsed by parent or guardian).

(9) Acknowledgement/Medical Certificate

(10) *Self Measurement Form sent to NETE.

d. **Part Entry Papers – HMS RALEIGH**

(1) Entry Papers Summary Sheet.

(2) Signed (by CA) Form S3049.

(3) Signed Form 486 and Photographic Consent Form (U18 only).

(4) Copy of the photo page of the passport along with a valid visa stamp/residency permit. (Foreign & Commonwealth only).

(5) FMED 691 with FMED 1 enclosures plus former service Med Docs if applicable.

(6) Copy of Birth (adoption) Certificate.

(7) Copy of Marriage Certificate.

(8) Statutory Declaration of Name Change (if applicable - U18 should be endorsed by parent or guardian).

(9) *Self Measurement Form sent to NETE.

e. **Maritime Reserves.** MR Part Entry Papers are not required as candidates are advised on the attestation letter to take the following documents at attestation:

(1) Identification documents that includes photograph (Passport, Driving Licence etc).

(2) Birth Certificate.

(3) The completed Maritime Reserves Attestation Papers to be Produced at attestation.
f. **Medical Documents**

(1) For RN Ratings to HMS Raleigh: medical documents should already have been sent on successful completion of PRNC. See Para 0911 sub para g for details.

(2) For all other candidates, medical documents are to be included in the PEPs.

g. Self-Measurement Kit Form should be posted direct to The Kitting Up Store, HMS RALEIGH and The Kitting Up Clerk, Clothing & Equipment Store, CTCRM prior to arrival.

h. Medical documents for Maritime Reserve candidates are to be sent directly to the Maritime Reserves Medical Office at HMS KING ALFRED, as follows:

MR Medical Office  
HMS KING ALFRED  
Fraser Building  
Whale Island  
Portsmouth  
PO2 8ER

Tel: 023 9254 7457  
Mil: 93832 7457  
Email: NAVY MR-HQ Medical MAILBOX

i. The nature of Naval recruiting requires the transmission of a considerable amount of personal data through mail systems; this includes Part Entry Papers (PEPs), AIB Applications Forms, candidate S1605 between AFCO, occasional NSV 001, SMO SE referrals, educational certificates etc.

j. The transmission of personal data in the form of PEPs is deemed data processing and therefore the provisions of Data Protection Principle 7 must be adhered to when despatching these documents from AFCOs to Recruit Schools. JSP 440 details the minimum standards of physical security that are to be applied to the carriage of protectively marked assets.

k. PEPs should carry the protective marking Protect – Private. This also applies to all other forms of personal data sent through mail systems. JSP 440 directs that documents so marked should be afforded the same minimum level of protection that is applied to that marked Official-Sensitive.

l. This notwithstanding, PSyA and Navy Disclosure Cell have advised that, when processing all DPA sensitive material, staff should utilise the following procedures up to a maximum of five sets of PEPs/other personal documents:

(1) Documents should be double enveloped with the inner envelope only being marked OFFICIAL-SENSITIVE.
(2) Documents may be carried by trusted hand in a closed cover or container or, by post or other courier or messenger service. The outer cover should not be marked with protective marking, caveat or descriptor, other than PERSONAL, or ADDRESSEE ONLY. It should be addressed to an individual by name or appointment (including full address and postcode) (see below).

(3) Although not required by the References, for added security Recorded Delivery should continue to be used. The free Post Office "Certificate of Posting" does not afford the same level of security as Recorded Delivery and should not be used.

(4) An administrative record should be maintained for the dispatch and return of these PEPs through use of either MOD Form 24 or RAF Form 591 receipt notes. In both cases, the return address should be completed in full.

m. Thus for up to five sets of PEPs/personal documents, Royal Mail Recorded Delivery may be used. For "bulk handling" of data, which where PEPs/personal documents are concerned is defined as in excess of five sets, they should be processed using a secure courier such as Parcel Force 24. However, there is nothing to prevent a larger package from being broken into two or more smaller packages in order to minimise the risk and then using the normal Royal Mail system.

n. PEPs sent to HMS RALEIGH should be addressed to:

The Training Records Officer
HMS RALEIGH
TORPOINT
Cornwall
PL11 2PD

o. PEPs sent to CTCRM should be addressed to:

UPO – New Entry
CTCRM
LYMPSTONE
Devon
EX8 5AR

p. PEPs sent to RMSoM should be addressed to:

OPS NCO
Royal Marines School of Music
HMS NELSON
Queen Street
PORTSMOUTH
Hampshire
PO1 3HH
Effective
February 2020

q. All items of official mail are to include a clear return address on the outer cover. For items circulating to military addresses in GB or via BFPOs a branch/unit date-stamp is acceptable. These items are to be endorsed with the generic MOD return address as follows: PO Box 701, HA4 4DW.

1111. Entry Establishments – Arrival

a. **RN Ratings.** On arrival at HMS RALEIGH candidates will receive a welcome brief outlining the routine for the 36 hours including the signing on process. They will then receive a hot meal before being shown to their accommodation in the division. Staff from the Recruit School including a senior recruit will be available throughout the night. Due to civilian contractual reasons the hot meal will cease at 2100, therefore candidates who will arrive after this time should be advised to purchase a meal or meals during their journey. Candidates need to retain their receipts in order to claim back expenses in-line with current subsistence rates and rules. CAs are to ensure that they are fully conversant with current regulations when briefing candidates of their subsistence entitlement.

b. **ACTION: RM GENERAL SERVICE CANDIDATES.** Candidates are to arrive at CTCRM on the Monday, between 1400 and 1600, which may be extended to 1800 if meeting this time proves difficult. The names and ETA of any candidate who cannot arrive within the designated time or is delayed should be relayed to the Foundation Block SNCO. Lympstone Commando railway station is immediately adjacent to CTCRM.

c. **ACTION: RM BAND SERVICE CANDIDATES.** Candidates are to arrive at the School of Music HMS Nelson between 1300 and 1700. Transport is provided at Portsmouth Harbour rail station.

1112 RNR/RMR Officers - Rank on Entry

The regulations concerning the rank of Officers on entry are at Chapter 49.

1113. RNR Officer Entries - Entry Letter

a. On successful completion of the AIB the results letter and the AIB Feedback form are sent to the Maritime Reserve Unit.

b. **ACTION: RNR UNIT** is to forward this to CMRHQ SO2 Training who will issue an ‘Offer Letter’ which the candidate must formally accept in writing. NPT.RES will issue an ‘Entry Letter’ on receipt of the candidate’s acceptance letter. Officers are deemed to be ‘in service’ on completion of this process.

c. The RNR Unit is to inform the OCLC on receipt of the Entry Letter to ensure OCLC updates MIS with an allocation date after which Officers’ PEPs are to be forwarded to the Unit.

UNCONTROLLED WHEN PRINTED
CHAPTER 12
RE-ENTERING THE NAVAL SERVICE

1201. Re-Entry Policy
No rating/other rank is to be re-entered after a break in Regular Service without the approval of CNR (CNR RP). This requirement for CNR approval is irrespective of the length of the break in Service or the time that the candidate had served. SPVA and the New Entry Training Establishments (NETE) will not action re-entrants pay indocs without written authority from CNR, using the appropriate MIS letter. The CNR approval letter must be included with PEPs when they are forwarded to the NETE.

1202. Re-Entry References
Terms of Service for entry and re-entry into the Naval Service are contained in Chapter 48.

a. Instructions for the award of Former Service are contained in BR3 Part 8.
b. Pay scales for those awarded Former Service are contained in JSP 754.
c. For entry to RNR with former Regular Service see Chapter 11.

1203. Re-Entry Process
A condensed processing sequence to illustrate the recruiting process for candidates with former Regular or Reserve Service who are applying to enter or re-enter on Full or Tailored Careers is shown below:

a. Sight candidate’s discharge Service documents (including SMIT return where applicable) and establish eligibility for entry/re-entry. Note: service leavers are no longer issued with a Service Certificate (SC).
b. Apply to CNR for approval to process and to gain initial rate of pay.
c. CNR will assess eligibility for re-entry/entry and issue an approval or rejection letter.
d. Re-Entry/Entry – Rank/Rate. The approval letter will state the candidate’s approved rank/rating on entry, this letter must be included with PEPs. Candidates can then be processed for re-entry and informed of the approved rank/rating on entry.
e. Confirm Re-entry Service/Branch of Choice eligibility.
g. Apply to CNR for approval to enter.
h. **Re-Entry/Entry - Allocation.** The CNR approval letter will allocate a provisional entry date for Trained re-entries. Untrained re-entries are to be 'bid' for in the normal way.

i. Allocation and entry brief.

j. The CNR letter of approval is provisional and subject to final approval at CTCRM/HMS RALEIGH.

1204. **Re-Entrant – Definitions**

For CNR processing and for the processing of candidates on entry to the New Entry Training Establishment (NETE), Trained and Untrained definitions are as follows:

a. **Trained Re-Entrant.** Definition: A fully trained and qualified Junior or Senior Rating who applies to return to the Royal Navy in the same branch/specialisation from which they exited. Manning approval will be sought in all cases from relevant Branch Managers, and for those whose date of re-entry is more than 3 years of leaving the Service, training requirements will also need to be determined. Thereafter, movements are controlled by Assignment Order, in liaison with the appropriate Lead School. Trained re-entrants join HMS RALEIGH for administrative purposes only. Trained Re-entries have no right to Premature Voluntary Release.

b. **Partially Trained Re-Entrant.** Definition: A trainee who completes Phase 1 Training before electing to leave the service, who re-enters service within 18 months. The majority of Partially Trained re-entry candidates will have left the service immediately prior to, or during Phase 2 Training, and may re-enter into their original branch/specialisation, or into a different branch of choice (BOC). This category of re-entrant will join HMS RALEIGH for administrative purposes only, and thereafter will be assigned to their appropriate Lead School for Phase 2 Training. The date of joining will generally coincide with the commencement of their Phase 2 course. Partially trained re-entrants have no right of Early Termination (previously known as PVR).

c. **Untrained Re-Entrant.** Definition: A recruit who did not complete Phase 1 Training prior to discharge. Untrained Re-entrants will re-join in their original or a new BOC at HMS RALEIGH in order to undertake complete Phase 1 and Phase 2 Training. Unless previously discharged under the 56-day rule, untrained re-entrants will generally have no right of Early Termination.

1205. **RN Ratings - Trained Re-Entries**

a. Trained RN re-entries will be allocated to enter HMS RALEIGH by 0730, normally, on the nominated dates. CNR will forward nominal lists to HMS RALEIGH at least 2 weeks before the planned entry dates.
b. HMS RALEIGH aims to process candidates as quickly as possible. On completion of documentation and kit issue, candidates will be given a PSO interview and training assessment. On completion, they will be assigned to Phase 2 training or, in the case of fully trained personnel, immediately onto the trained strength. In the normal course of events, re-entries will be processed and onward moved within the first week of joining. However, those who left the Service prior to 1991 will require a Military Training package and onward assignment will therefore be delayed until the end of the second week.

c. If candidates are in-date for the RN Fitness Test (ie. carried out the test within the past 12 months), they will not have to re-take the New Entry physical tests or the Naval swimming test, however Careers Staff must stress to candidates that they need to follow an appropriate form of fitness programme prior to entry. Otherwise, candidates out of date for the RN fitness test will have to undertake the PJFT.

d. Once an entry date has been allocated, candidates should be advised to contact their relevant Careers Manager for assignment advice. Candidates can also be advised that they may make an application for a Married Quarter. Careers Staff should advise individuals to write to the relevant area Married Quarter’s Officer.

e. Trained re-entries may use their own transport. Those opting to use own transport are to be issued with a C30 and the Regional HQ UIN is to be used. Overnight accommodation is available for those arriving after midday on the previous day. There will be no service transport available from Plymouth rail station to HMS RALEIGH.

f. HMS RALEIGH main gate staff will direct junior rates to the Ship’s Company accommodation, and Senior Rates to the Warrant Officers and Senior Rates Mess and instruct them to report to the New Entry Division.

g. Normal night and weekend leave may be granted whilst at HMS RALEIGH.

1206. RN Ratings - Untrained Re-Entries

a. Former RM/RAF/Army candidates will enter HMS RALEIGH as new entrants and complete full new entry training.

b. Untrained re-entries will enter HMS RALEIGH as new entrants. HMS RALEIGH will decide the training requirement for all Untrained re-entries. Re-entrants will be assessed individually and will undergo training at HMS RALEIGH and Phase 2 training at the school appropriate to their branch. The stage of training reached on discharge and the time spent out of the Service will be taken into account when making the training assessment.
1207. **RM Other Ranks - Untrained Re-Entries**

Untrained RM re-entries will enter with new entries on allocated Troop entry dates and their training requirement will be assessed by CTCRM.

a. Service transferees and candidates joining the RM with previous Army/RAF service will be similarly assessed by CTCRM. Candidates will be allocated to a Troop at the point in the training syllabus most appropriate to their previous training and experience. ‘Non-infantry’ candidates will normally complete the full 32-week syllabus.

b. Untrained former RM Band re-entrants will enter with new entrants at HMS NELSON on completion of audition.

c. Former Untrained RM other ranks will be administered using the following process:

   1. Candidate attends AFCO with RM Discharge Certificate and Certificate of Service. AFCO Staff copy documents and return originals to Candidate. Candidate Signs former Service "Medical Documents release" form, to allow FEMI access to their documents (Release of medical documents can take up to 4 weeks).

   2. Nominated CA confirms Candidate’s eligibility for re-entry based on discharge category and recommendation from CTCRM Wastage Return. If eligible, CA is to forward the following details to PSO CTCRM for consideration of PRMC Waiver, by phone or E-mail: Surname, Initials, DOB, Date left training.

   3. Decision by CTCRM regarding requirement for PRMC sent to AFCO and CNR RP, CA forwards ‘approval to process’ request to CNR RP using relevant DRS letter. CNR RP to check and re-confirm eligibility.

   4. Candidate processed as a New Entry, with the following additions:

      a. Re-Sit RT if original test more than 3 years old.

      b. Full AFCO interview after recovering original AFCO 101 from archive if necessary.

      c. Candidates who were discharged P2 (fully Fit) within 12 months of application must have their medical documents sent to CNR OPS RP CA1 to be forwarded to CNR SO3 MM who will decide whether a full AFCO ME medical and eye test are required. Any candidate who was discharged longer than 12 months must complete the full AFCO ME.

**Note.** If candidate medically discharged, SMO SE approval required prior to processing. Mandatory requirement to sight former Service Medical Documents in all cases.
(5) If necessary an Over age Waiver requested via CNR RP from Branch Manager BM.

(6) Pass PJFT.

(7) Attend PRMC if required.

(8) Final Approval For Entry Given by SO2 Ops/CNR RP.

(9) Bid for Entry.

(10) Assessment of training requirement made by CTW once recruit has re-joined service.

d. Candidates who re-enter have no 6 month statutory discharge option. Eligibility to give notice iaw Chapter 53 (ie. must complete Standard Initial Training Period plus a minimum time to serve period of 2 years 6 months before being eligible to give 12 months’ notice).

e. Individual queries regarding eligibility, recommendations from wastage returns etc are dealt with on a case by case basis by CNR RP seeking advice from PSO CTCRM with final decision as applicable by OC Ply Coy.

f. **RM Musician Re-Entries – Audition.** Former untrained RM Musicians must undertake a further Audition prior to re-entry.

### 1208. Discharge Categories – Unaccepted

a. CNR must be contacted if Careers Staff are in any doubt about the validity of former Service documents or discharge categories.

b. No former rating/other rank is permitted to re-enter who was discharged:

(1) Deserted.

(2) Dismissed.

(3) Services No Longer Required (SNLR). Including those discharged following a Compulsory Drug Test (CDT).

(4) Not Recommended for further Naval Service.
1209. Recommendation for Further Naval Service

a. With the exception of those to be discharged Deserted, Dismissed, or SNLR, all ratings/other ranks who have served less than 22 years are assessed as to their suitability for further Naval Service prior to discharge. This recommendation is recorded on the candidate’s personal copy of the Form S3300c – RORRS 3 Appraisal Report/SJAR.

b. Candidates ‘Not Recommended for Further Naval Service’ are not permitted to re-enter and have no RFR liability.

c. In the absence of a recommendation notation on the Form S3300c/SJAR, Careers Staff are to use the following guidance when assessing eligibility for re-entry:

   (1) To be recommended as suitable for further Naval Service, during their last three years of Service, the ‘Conduct’ of a rating/other rank was no less than ‘GOOD’ on one occasion, and the remainder ‘VG’. The ‘Efficiency’ of a rating/other rank was no lower than ‘MOD’ on one occasion with the remainder ‘SAT’ or higher.

   (2) ‘Career Records’ were introduced on 1 January 2000. To be recommended as suitable for further Naval Service a rating/other rank should be free from any ‘Career Checks’ during their last three years of service. Their ‘Effectiveness’ assessments during the same period should be commensurate with rate, experience, qualifications and seniority.

1210. Discharge Categories

a. **Shore - Unsuitable During Training.** Candidates who were discharged ‘Unsuitable During Training’ may be processed and the discharge recommendation shown on the Wastage Return/SMIT Return used for guidance. Wastage Return/SMIT recommendations are valid for a maximum of three years from date of discharge after which time candidates may be interviewed and processed on their merits.

b. **Shore - Unhappy Under-18s.** This discharge category applies to ratings/other ranks whose six month discharge option point has passed but are still under the age of 18, and it is considered that they are so unhappy with Service life that it is unlikely that they would ever settle down. Candidates are not to be processed for re-entry until a minimum of 12 months has elapsed since their discharge. Candidates may then be processed and each candidate considered on their individual merits.

c. **Shore - All Other Categories.** CNR must be contacted for all other categories of discharge ‘SHORE’ before candidates are processed. CNR will consider each case on its individual merits, consulting the CNLS Casework Cell as necessary.
d. **Discharge as of Right – Wastage/SMIT Return Recommendations.**
Candidates who exercised their ‘Discharge as of Right’ during their first 6 months’ Service may be processed using the discharge recommendation shown on the Wastage Return/SMIT Return as guidance. Wastage Return/SMIT recommendations are valid for a maximum of three years from date of discharge after which time candidates may be interviewed and processed on their merits.

e. **Fraudulent Entry.** Former ratings/other ranks discharged ‘Fraudulent Entry’ will normally be refused re-entry. However, each application will be considered by CNR on its merits.

1211. **Discharge Categories - Former Army**

a. No former Army rank is permitted to enter the Naval Service who was discharged in any of the following categories:

   (1) QR (Army) 9.396 or 9.397: Discharge by Court-Martial.

   (2) QR (Army) 9.403 or 9.404: Misconduct, Indiscipline.

   (3) QR (Army) 9.405: Retention Undesirable.

   (4) QR (Army) 9.382: False Statement.

b. CNR must be contacted, before candidates are processed, for the following discharge categories:

   (1) QR (Army) 9.375 or 9.402: Compassionate Grounds.

   (2) QR (Army) 9.383: Unsuitable for Army Service During Training.

   (3) QR (Army) 9.411 to 9.414: Not Required/ SNLR. Personnel discharged from the Army after a positive CDT test result are ineligible for entry into the Naval Service.

   (5) QR (Army) 9.381 and 9.385 to 9.387 inclusive: Medical.

1212. **Discharge Categories - Former RAF**

a. No former RAF airman/airwoman is permitted to enter the Naval Service who was discharged in any of the following categories:

   (1) QR (RAF) 607(6) and 607(7): Dismissed.
(2) QR (RAF) 607(20): False Statement.

b. CNR must be contacted, before candidates are processed, for the following discharge categories:

(1) QR (RAF) 607(11): Compassionate.

(2) QR (RAF) 607(22): SNLR. Personnel discharged from the RAF after a positive CDT test result are ineligible for entry into the Naval Service.

(3) QR (RAF) 607(15) to (18) inclusive: Medical.

1213. Discharge Categories - All Former Regular Service – Medical

a. Candidates who are currently in receipt of a Disability or Invalid Pension are not to be considered for entry.

b. Candidates previously Medically discharged are not to be processed without the prior approval of CNR. This category includes: ‘56 Day Rule’, ‘Invalided’, ‘Not Finally Attested’, ‘Defect in Enlistment Procedure’, ‘Unsuitable for Further Army Service’, ‘Ceasing to Fulfil Medical/Physical Standards’ and ‘Temperamentally Unsuitable’.

c. Candidates are to complete the online application form where their details are transferred on to MIS. A covering letter and original Medical documents are then to be forwarded to CNR for consideration for entry by the SMO SE. Each case will be considered individually on its merits and, in most cases, forwarded to a Service Medical Consultant for opinion.

1214. Discharge Categories - All Former Regular Service – Compassionate

Candidates who were discharged ‘Compassionate’ are to be interviewed informally, preferably with the spouse or parents, and the reason for discharge established. If it appears that the reasons for discharge have been resolved, Careers Staff are to contact CNR for approval before candidates are processed. CNR will consult Naval Personnel and Family Services (NPFS) where necessary. If required, NPFS will arrange with the candidate for a home visit to investigate the current family circumstances.

1215. Discharge Categories - All Former Regular Service – Redundant

a. If entered/re-entered into the Naval Service within 60 months of being made Redundant, candidates will be required to repay a proportion of the Special Capital Payment (Redundancy payment) they received on discharge. As a guide to the candidate the following formula should be used to estimate the sum to be repaid:

\[ \text{Refund} = (1-(A/60)) \times B. \]

Where \( A \) = number of complete months since last day of paid service.

\( B \) = amount of Special Capital Payment.
b. If approved for entry, CNR will liaise with Veterans UK to obtain the exact sum to be repaid by the candidate. The CNR approval letter will allocate a provisional entry date and will include a Repayment Acknowledgement Form. The candidate is to complete the Acknowledgement Form, attach a cheque for 50% of the amount to be repaid (the remainder will be recovered from pay over 2 years), and forward them to Veterans UK.

c. The provisional entry date is not to be given to the candidate until a receipt is received from Veterans UK. This receipt is to be included with the PEPs when forwarded to the NETE.

d. In the event of a candidate making a repayment and then subsequently not entering the Naval Service, candidates are to be advised to write to Veterans UK for a refund.

1216. Discharge - Repayment of Gratuity/Grants/Pension etc

a. Candidates who were discharged: ‘Redundant’, ‘Notice’, ‘Pension’, ‘Request’, ‘Engagement/Time Complete’, who were given a pension and terminal grant on discharge, will not be required to repay the terminal grant. The pension will cease on entry and any commutation of pension will be recovered from pay throughout their remaining Service.

b. Those given a Resettlement Grant on discharge will not have to repay this if the break in service is in excess of 121 days.

1217 Ratings Re-Entry - Sight of Candidate’s Discharge Documents and Grounds for Refusal

a. ACTION: CAREERS STAFF. Careers Staff must sight the candidate’s discharge documents before processing can begin. It is the responsibility of the candidate to present their former Service discharge documents.

(1) Former RN And RM – Discharge Documents. ACTION: CANDIDATE. Former RN and RM must produce either their Service Certificate, Certificate of Discharge or Form S3300c – RORRS 3 Appraisal Report. Candidates who cannot produce their discharge documents must be instructed to provide a subject access request (SAR) to the address shown.

(2) Former RAF And Army – Discharge Documents. ACTION: CANDIDATE. Former RAF and Army must produce either their Certificate of Service or Full (not Temporary) Certificate of Discharge. Candidates who cannot produce either of these documents must be instructed to contact the relevant discharging authority and request a ‘certified record of Service’. 
b. In order that the incremental pay level of entrants with previous service in the Army or RAF can be assessed correctly, candidates should supply a pay statement from the final year of their previous service. This pay statement should be included in the PEP. The Field Force should note that failure to provide a pay statement from previous service is not a bar to re-entry. However, candidates should be advised that failure to do so will prevent the correct assessment of the incremental pay level. They will therefore be paid at the lowest incremental level in the rank/rate at which they re-enter.

c. **ACTION: CAREERS STAFF.** Once the candidate’s discharge documents have been checked and eligibility has been established, Careers Staff must then obtain the candidate’s full Service record and Medical documents from the relevant discharging authority before processing.

1218. **Re-Entrant’s Documents to be Forwarded to CNR**

a. **ACTION: CAREERS STAFF.** Careers Staff must obtain all former service documents and forward them to CNR if a candidate has had any period of former Regular Service. A brief covering letter indicating the candidate’s BOC and photocopies of documents are to be forwarded to CNR.

b. **ACTION: AFCO.** AFCO is to retain original documents and forward them to the NETE with PEPs. The following documents are required as enclosures to the standard MIS letter:

1. **Former Royal Navy, Royal Marines and QARNNS**
   
   (a) Service Certificate or, if unavailable, a certified Service Record from Post Services Records.
   
   (b) Certificate of Discharge if available.
   
   (c) Form C25 – Cessation of Pay.
   
   (d) Most recent AFCO 101.
   
   (e) Wastage/SMIT Return (if applicable).

2. **Former Army**

   (a) Certificate of Service (not Temporary Certificate of Discharge) or; Soldier’s Record of Service (B200) or; if neither are available, a certified Service Record from Army Personnel Centre.

   (b) Most recent AFCO 101.
(3) **Former RAF**

(a) Certificate of Discharge/Transfer to Reserve or; Statement of Service or; if neither are available, a certified Service Record from RAF Personnel Centre.

(b) Most recent AFCO 101.

(4) **Trained RNR/RMR**

(a) Service Certificate.

(b) Most recent AFCO 101.

(5) **Former Commonwealth Regulars**

(a) Service Certificate.

(b) Most recent AFCO 101.

1219. **Commonwealth Regular Service**

The RN may award former service towards qualification for promotion and advancement to those with former Commonwealth Regular service provided that the candidate achieved at least the Able Rate or equivalent and held that rate for a minimum of twelve months. The decision for an award will be made during Part 2 training iaw BRd 3(1) Part 7.

1220. **Re-Entry - Eligibility and Branch Vacancies**

a. **Trained Re-Entries - Former RN 1st Class Designation and MNE 1st Class on Discharge.** Candidates may be processed provided that their BOC is open to recruiting and they were not qualified for L/Hand on discharge.

b. **Trained Re-Entries - Former Senior Rates/SNCOs/Leading Hands/RM Corporals (re-entering their former Branch).** A covering letter and photocopy of the candidate’s SC must be forwarded to CNR before candidates are processed. A covering letter and photocopy of the candidate’s SC are also to be forwarded to CNR (before candidates are processed) for former Leading Hands and Corporals applying to re-enter as ratings/other ranks and for former ratings/other ranks who were qualified for LH on discharge. Each application will be assessed individually by the relevant Branch Manager. CNR will inform the AFCO verbally whether or not a candidate can be processed.

c. **BOP - Untrained Re-entries.** Untrained re-entries can be processed provided their BOP is open to recruiting and they meet the requirements laid down in Summary of Entry Standards.
d. **Re-Entry Eligibility - Former Officers.** Former Officers who apply to enter as rating/other ranks may be processed provided that they did not complete officer training. Former trained officers will not normally be considered for entry as ratings/other ranks.

e. **Eligibility - Serving Personnel in UK Armed Forces.** Serving RN/RM, RAF and Army enquirers wishing to transfer to a new service are to be given the relevant CPs and instructed to make an application to transfer through their Unit Commanding Officer. Personnel who are on terminal leave may be considered for entry.

f. **Eligibility - Serving Personnel in Commonwealth Regular Armed Forces.** Serving Commonwealth Services are not eligible to ‘Transfer’ to the Naval Service. Candidates must be discharged from their relevant service before entry into the Naval Service. However, candidates may be eligible for the award of former Commonwealth service.

g. **Eligibility - Full Time Reserve Service (FTRS).** Applications to enter or re-enter the Naval Service from candidates who are serving on FTRS commitments are to be referred to CNR.

**1221. Re-Entries - Medicals**

a. All candidates with former Regular or Reserve service must be fully medically re-examined before re-entry. However, serving RNR candidates may be accepted without a further medical examination provided that they have had a recruiting medical within the last twelve months and they have had no medical problems. See BR 1750A Chapter 2.

b. Previous Service Medical documents must be obtained from the relevant discharging authority before candidates with former Regular or Reserve Service or are processed. Service Medical Records will not be released by the discharging authority without the written consent of the candidate. The MIS produced Proforma must be used for medical document requests.

c. On receipt of the Medical documents the inner sealed envelope is never to be opened by Careers Staff. Medical documents for eligible candidates must be forwarded to the AFCO ME with the FMed 1 for the Medical examination.

d. Candidates with former Regular Service, previously discharged for medical reasons, are not to be processed without approval from CNR. They are to complete the online application form for their details to be transferred across onto MIS, and a covering letter with the original Medical documents forwarded to CNR for consideration by SMO SE.
1222. **Re-Entries (Trained) - MIS/PJFT**

   a. **MIS.** All branches should be allocated a trained category for MIS input. Any queries should be addressed to CNR RA.

   b. **RNFT.** If the candidate has not undertaken the RNFT within the previous 12 months they are required to carry out the PJFT.

1223. **Re-Entries - Security Clearance**

   a. Re-application for Security Clearance (SC) is usually unnecessary if there is a gap of not more than one year between leaving the Naval Service and rejoining. The candidate should not have resided overseas for more than 6 months during this time.

   b. The following procedure is to be followed by AFCO staff:

      (1) Contact the NSV Help Desk to confirm particulars of the applicant (full names, date of birth, Service number, etc) and that the criteria are met.

      (2) Request the transfer of SC by letter, fax or MOD e-mail the appropriate DRS Letter.

         Contact Details:
         Tel: 01904 66 2644 or 2541
         Fax: 01904 66 2213
         MOD e-mail: DBS-NSV-CustomerEnquiries (MULTIUSER)
         Internet: DBS-NSV-CustomerEnquiries@mod.uk

   c. Candidates re-entering the Service must be submitted to

   d. NSV for a new SC. Documentation for trained re-entries is not to be forwarded to CNR for approval to enter until candidates have been allocated SC.

   e. Serving RNR and RMR candidates must complete a new MOD Form 493. Unspent declared criminal convictions must meet the relevant eligibility criteria. Candidates who are eligible in all other respects and their current SC details are available will not need further SC clearance.

   f. When applying for security clearance, former service details are to be shown on the BPSSVR and the relevant section of the NSV 001. If known, the previous security clearance number is also to be shown on the BPSSVR.

   g. If a Nationality waiver has been given for the original entry then this remains extant and a further application for a waiver is not required.

   h. Applicants who have resided overseas since previous discharge are to be processed within the Residency rules.
1224. **Re-Entries - Engineering Ratings**

a. **Eligibility.** Regular and Reserve basic eligibility remains unchanged.

b. **Age Limit.** There is no upper age limit for re-entry.

c. **Qualifications.** Must have achieved OPS.

d. **Initial Meeting.** Held in the AFCO to ascertain identity and gain permission to access personal data. If successful, approval to process is to be sought from CNR OPS RP CA1 and medical records sought by AFCO. The relevant Branch Manager is then to decide whether a provisional offer for re-entry should be made.

e. **Selection Interview.** If provisional offer of re-entry is made, a standard Selection Interview is to be held by the AFCO.

f. **Medical**

   (1) Candidate must be fully deployable.

   (2) Candidate is required to obtain a Defined Medical Summary (DMS) covering the period since leaving the Service.

   (3) For Candidates with less than 12 months since their discharge medical, their Service medical documents and DMS are to be forwarded to CNR OPS MM SO3 for assessment.

   (4) For Candidates with more than 12 months since their discharge medical, they must be booked onto a standard AFCO CAPITA medical. Their Service medical documents and DMS are to be provided to the AFCO ME at the appointment. CNR OPS MM SO3 is to be informed of any Candidate made Temporarily Medically Unsuitable (TMU).

g. **SC.** SC remains valid if less than 12 months since discharge. If greater than 12 months has elapsed, a new SC is to be requested. A waiver, if required, is to be requested from CNR OPS RP CA1 in the standard method.

h. **RNFT.** A RNFT is to be completed by all those under 40. All Candidates over 40 may elect to take an RNFT or complete a RPW during their re-entry induction process.

i. **Allocation to Entry.** With no alignment to a Phase 2 course, allocation will be in liaison with CNR OPS RP CA1, in order to complete the 3-day re-entry process.

1225. **Re-Entries - Naval Nurses**

CNR (SO3NMD) is to be contacted for trained Naval Nurses to be assessed prior to re-entry.
1226. Re-Entries (Trained) – LPTI
LPTIs who wish to re-enter must have an Enhanced Disclosure and Barring Service (DBS) Check before re-entering.

1227. Re-Entries (Trained) - RT Requirements
a. Former Able Rates/Mnms and above re-entering in their former Branch are not required to re-take the RT.

b. Former Able Rates/Mnms and above re-entering in a different branch or Service from that on discharge must meet the current RT Part and Total scores for the new BOP. Candidates whose original RT scores are more than 3 years old or do not meet the current RT requirement for the new BOP are to be re-tested and the RT score obtained for initial entry is to be disregarded. Candidates will be allowed the same number of RT attempts as a first time applicant.

1228. Re-Entries (Untrained) - RT Requirements
a. Irrespective of the candidate's former rank/rating or branch, Untrained re-entries must meet the current BOP entry standards. RNR ratings RT score may be used without a further RT provided that the test result is less than three years old and meets the requirements of their selected BOP.

b. Candidates who had previously achieved the necessary RT Total and Part scores for their BOP do not need to re-take the RT for a period of three years from the date of their first attempt. Candidates must meet the re-take criteria as for first time candidates. However, candidates who had previously taken the RT twice will normally be allowed a third attempt at the discretion of the RRO.

1229. Re-Entry - Selection Interview
a. The original AFCO 101 is to be obtained from CNR provided that it is less than three years old from the date the candidate was discharged. The relevant MIS letter is to be used.

b. ACTION: CAREERS STAFF. Irrespective of the length of break in Service, a new AFCO 101 is to be raised for each candidate. Careers Staff will have a great deal more information available to them about a candidate re-entering the Service than those entering for the first time. Prior to the interview, Careers Staff should make full use of the following documents:

(1) The original AFCO 101 (if less than 3 years old).
(2) Training record (if available).
(3) Training wastage return (if available).
(4) Notations recorded on the Service Certificate.
c. Since more information is available about the candidate, the re-entry interview will differ significantly from an initial interview. It is essential that the reason the candidate was discharged from the Service, and motivation for re-entry, are fully investigated and recorded on the AFCO 101.

d. **ACTION: CAREERS STAFF.** All candidates who are interviewed are to be given a full AFCO CA interview, which is to be recorded on the AFCO 101. The AFCO interview should reflect the interviewer’s assessment of the candidate’s personal suitability for training and Service life irrespective of test scores. The AFCO interview should be calculated immediately after the interview and prior to a final selection decision being made.

e. Careers Advisers have no discretion with the minimum acceptable AFCO interview for a BOP.

f. **Trained Re-Entrants.** Candidates in this category will be former RN/RM who achieved at least the Able Rate or equivalent before discharge and are re-entering the Naval Service in their former Branch. It also applies to serving RFR/RMR candidates entering on a Special Short Service Engagement. Since the Trained re-entrant will very quickly enter on to the Trained Strength, it is essential that the Careers Advisers Selection Report is as comprehensive as possible. The Interview should concentrate on the following areas:

   1. Family circumstances and, if applicable, how they differ from previous Service. What provision is being made for the care of any children and future housing requirements should also be noted.

   2. Educational qualifications are to be compared with those noted on the applicant’s Service Certificate. Only further education and qualifications obtained since leaving the Service need to be covered in this section.

   3. Details of employment or unemployment since leaving the service and steps taken to find employment. Financial outgoings and Debts must be fully covered and the individual’s ability to manage on future Service pay.

   4. Spare time activities and physical or sporting involvement or interests since leaving the Service.

   5. Reasons for leaving the service and changes in circumstances to prompt application to re-enter and, if entering a new BOC, motivation and BOC knowledge.

   6. Previous notice submissions, decorations received, advancement qualifications, poor character and efficiency assessments.

    A comprehensive Selection Report and recommendation is to be made by the Careers Adviser in the AFCO 101. It is important to note that the Form 101 are frequently referred to in the event of in Service representations and complaints.
h. **Untrained Re-Entrants.** The interview should follow the formal interview format but additional emphasis must be placed on changes to the candidate’s circumstances, work record and achievements since leaving the Service. If applicable, the steps taken by the candidate to rectify adverse comments shown on Training Records or Training Wastage returns are to be recorded on the AFCO 101.

1230. **Re-Entries (Trained) - Royal Marines**

a. **PRMC.** There is no requirement for trained RM or trained RMR other ranks to undertake a PRMC prior to re-entry.

b. **Trained Musician – Audition.** CNR is to be contacted to establish whether or not a trained RM Musician is required to undertake an Audition prior to re-entry.

1231 **Re-Entries - RMOR Fast-Track Re-Entry Procedure**

a. This procedure must result in the recruit completing the re-joining process, including medical at CTCRM, within 28 calendar days of leaving training with a ‘Training Wastage Return’ re-entry time of Immediate.

b. Only those recruits recommended for immediate re-entry will be eligible for the ‘fast track’ scheme. All ‘immediate’ category RMOR who leave by voluntary Early Termination from CTCRM will be issued an "Immediate Re-join" letter stating their "Re-entry Time". This letter will be the introduction back to the AFCO.

c. Those who have taken voluntary Early Termination who in the opinion of CTCRM could be accepted back "immediately" will fall into 3 categories.

(1) Those who re-apply through an AFCO within 21 days of release from CTCRM, and are therefore capable of being processed and re-entered such that a medical can be conducted at CTCRM within 28 calendar days of discharge.

(2) Those who re-apply through an AFCO outside 21 days.

(3) Those not seen again.

d. A MIS Journal entry is to be created for the candidate, titled ‘Fast track Re-entry’ and the following information inserted:

- Date candidate attended AFCO
- Lack of voluntary Early Termination option briefed
- S3049 issued
- SC (insert no.) re-instated
- Re-entry date to CTCRM

**Note.** CAs are not to alter the candidate’s ‘involvement level’ ie. this is to remain at ‘Entered Service’.
1232. **Re-Entries - RMOR 'Immediate' Re-Entry Procedure**

Recruits recommended for ‘immediate’ re-entry who wish to rejoin will be directed to visit the nearest AFCO (preferably the originating AFCO) at the earliest opportunity, taking with them the letter issued at discharge. Careers Staff are to confirm that the recruit exactly fits category 5.a. i.e. that the date they make contact with the AFCO is within 21 days of discharge from CTCRM.

a. CAs are to confirm that it is the candidate’s intention to re-enter and ensure they are aware that their 6 month voluntary Early Termination option no longer exists.

b. The CA is to contact NSV to inform them of the candidate’s re-entry, in order to revalidate their SC.

c. CAs are to confirm the earliest possible re-entry date with CNR RP. This will normally be between Monday-Thursday. A joining date of a Friday will be used only in exceptional circumstances in order to meet the 28 day deadline. Final clearance to re-enter will be provided by CNR RP.

d. **Joining Documentation.** This will solely consist of a duplicate S3049 and any travel documentation, such as rail warrants. Candidates are to be provided with a new S3049. CAs are to call up the candidate’s original DRS record, which should be at the status ‘Entered Service’. They should then locate the form S3049 and reproduce it, giving a copy to the candidate. No joining letter is required and PEPs will not be forwarded to CTCRM.

e. The only other administrative action required is to produce travel documentation if required.

1233. **Officer Re-Entry - Basic Principles**

Officers may re-enter the Naval Service from a wide variety of source areas including those presently serving on Full Time Reserve Service (FTRS) or from the RNR.

1234. **Officer Re-Entry - Application and Selection Process**

a. The single point of contact for all re-entry candidates, including ex-regulars or ex-reservists wishing to enter or re-enter the Reserves, will be the Admiralty Interview Board (AIB). Re-entry candidate applications sent to any other authorities, for example the Career Manager, should be forwarded to the AIB and the candidate informed.

b. For **Trained** re-entrants a request should then be made to NPT(Res) for the retrieval of the Candidate’s Personal File. For Untrained re-entrants, a request should be made to the Navy Command Terms of Service for the Candidate’s Personal/AIB File; these are then to be forwarded to NPT (Res).
c. NPT (Res) will then determine, in liaison with the appropriate Branch Manager (BM) and Career Manager (CM), whether the individual meets the Service requirement, having regard in particular to the manpower strength within the Re-entrant candidate’s Specialisation cohort and the relevant skills, experience and qualifications they are able to offer. This is a GO/NO GO decision point. If ‘NO GO’, the file is to be returned to AIB who will issue a rejection letter to the candidate and inform the relevant AFCO/OCLC. It is important that an accurate reason for the rejection is included; this should have been fully minuted when the application was staffed by NPT (Res) in conjunction with the appropriate BM and CM. The CM should recommend an initial seniority date, commission and pay increment level to enable the Terms of Service Team to create the actual terms and conditions for re-entry.

d. If a ‘GO’ decision is made, the personal file is to be passed to the relevant CM, concurrent with a note to the AIB to commence the recruiting procedures as soon as possible. AIB will advise the relevant AFCO/OCLC to obtain the candidate’s previous Service medical documents and book an AFCO ME appointment. On successful completion of the medical, all medical documents are to be sent to AIB. AIB will then commence the Security Clearance for the candidate. If unsuccessful, the previous Service medical documents are to be returned to the relevant source.

e. CMs are to make direct contact with the candidate in order to determine the exact timing of any potential re-entry and the candidate’s individual preferences on appointment. Additional discussions should cover any bespoke training package, probable career path and promotion opportunities.

f. The Terms of Service Team, in liaison with the Officer Promotion Section, will assign the type of commission for re-entry, rank and seniority on re-joining, reserved rights owing from service prior to 1 Apr 99, return of service liability for bespoke training (if deemed appropriate) and the appropriate pay increment level which should have been proposed by Hd NPS and ACOS(PCap). Once complete the personal file should be passed to BMs to determine any entitlement to Special Service Pay, FRI payments, uniform issue/allowances, pension information, and, in a small number of cases, gratuity repayment details.

g. The file is then to be returned to the relevant CM who, once an entry date and appointment have been agreed, will complete the offer conditions and pass to the relevant DACOS Career Manager for clearance. The full offer details will then be forwarded to CNR who will sign the final letter approving re-entry for return to the candidate once security clearance process has been satisfactorily completed.

h. If the candidate wishes to proceed, they should accept the job offer in writing, whereupon they can be administered by the AIB for re-entry to the Service.
1235. Officer Re-Entry - Untrained Re-Entrants

a. In considering untrained candidates who have left the training pipeline at an early stage, CAIB will utilise Final Board Mark and BRNC/CTCRM recommendations to decide whether to reject or re-board a candidate. If a re-board is necessary, the candidate will proceed as if a new entrant. Close liaison between CAIB, ACOS(PCap) and the FOST SO1 Training Pipeline Manager will be required to define the re-boarding criteria.

b. The details of candidates who have left the training pipeline at a later stage, but who have not joined the Trained Strength, and have sufficient previous service records to reflect a satisfactory performance in training, will be forwarded directly to the FOST SO1 Training Pipeline Manager for consideration. Whenever candidates would be able to quickly alleviate shortfalls in Gains to the Trained Strength (GTS) targets or specific manning shortfalls, there should be close liaison between all parties. All successful applications will be administered by the AIB for re-entry to the Service.

1236. Officer Re-Entry - Entry Dates and Joining Instructions

a. Trained RN re-entries will enter at a unit of ACOS(PCap)'s direction.

b. If candidates are in-date for the RNFT (ie. carried out the test within the past 12 months), they will not have to re-take the New Entry physical tests or the Naval swimming test. However, the AIB must stress to candidates that they need to follow an appropriate form of fitness programme prior to entry. Otherwise, candidates out of date for the RNFT must undertake a fitness test within the first month of re-joining.

c. Once an entry date has been allocated, candidates should be advised to contact their relevant CM for advice. If eligible, candidates should also be advised that they may apply for Service Family Accommodation. The CM should advise individuals to submit an application to the relevant Defence Estates Housing Information Centre (HIC) in accordance with JSP 464.

d. Trained re-entrants may use their own transport for joining their assignment. Those opting to use own transport can claim for the journey using JPA using the receiving unit UIN. Alternatively they may request a train ticket from ACOS(PCap).

1237. Officer Re-Entry - Royal Marines

See Para 4814.

CHAPTER 13

TRANSFERRING INTO THE NAVAL SERVICE

1301. Definition
Although the term ‘transfer’ is used throughout this Chapter, the individual is being ‘prematurely discharged from one Service to enter another’ - see Chapter 48 Section 3.

1302. Reserve Forces
Transfers between the Reserve Forces should be dealt with in a similar manner to their Regular equivalents, as described in the following paragraphs.

1303. Transfer to the RM from the RN
Processing is as follows:

a. Rating requests to Commanding Officer to transfer iaw Chapter 48.

b. Commanding Officer forwards rating’s application to CNR (CNR RP) requesting manning clearance.

c. **ACTION: CNR.** CNR applies for manning clearance to ACOS(PCap) REQM (for those on the Trained Strength) and to FOST NE (for ratings under training).

d. CNR will forward the application to CTCRM PSO for ratings who are given manning clearance.

e. **ACTION: CTCRM PSO.** PSO will liaise with rating’s Commanding Officer to arrange PRMC and PSO interview.

f. CTCRM PSO will inform CNR if the rating is recommended for entry to the RM.

g. **ACTION: CNR.** For recommended ratings, CNR will:

   (1) Liaise with ACOS(PCap) CM for a suitable date for the rating to be discharged from the RN.

   (2) Allocate rating to a suitable Troop entry.

   (3) CNR will then issue the transfer letter to rating’s Commanding Officer giving date of entry to RM and instructions for the rating to be processed at a suitable AFCO. CNR forwards a copy of the CTCRM PSO report to the AFCO with the transfer letter.

h. **ACTION: AFCO.** Rating attends AFCO for documentation and AFCO ME for medical examination.

i. Obtain rating’s current SC number from NSV for use on entry to the RM.

j. Rating is processed by the AFCO to enter CTCRM as a new entry.
1304. Transfer to the RM from the Army or RAF
Processing is as follows:

a. Airman/rank requests to Unit Commanding Officer to transfer iaw individual Service instructions.

b. Army/RAF Personnel HQ forwards application to CNR.

c. **ACTION: CNR.** CNR forwards the application to CTCRM PSO.

d. **ACTION: CTCRM PSO.** PSO will liaise with airman/rank’s Unit Commanding Officer to arrange PRMC and PSO interview.

e. CTCRM PSO will inform CNR if airman/rank is recommended for entry to the RM.

f. **ACTION: CNR.** For a recommended airman/rank, CNR will:

   (1) Liaise with Army/RAF Personnel HQ for a suitable date for the airman/rank to be discharged.

   (2) Liaise with the airman/rank’s nearest AFCO for a suitable date for documentation and medical examination.

   (3) Allocate airman/rank to a suitable Troop entry.

g. **ACTION: CNR.** CNR will then issue the transfer letter to airman/rank’s Unit Commanding Officer and Personnel HQ giving date of entry to RM and instructions for the airman/rank to be processed at a suitable AFCO. CNR forwards a copy of the CTCRM PSO report to the AFCO with the transfer letter.

h. Airman/rank attends AFCO for documentation and AFCO ME for medical examination.

i. **ACTION: AFCO.** AFCO processes Airman/rank to enter CTCRM on the allocated Troop entry date.

j. Obtain rating’s current SC number from NSV for use on entry to the RM.

k. Army/RAF transferees will join with their allocated Troop and will be assessed by CTCRM. They will normally complete the full 32-week syllabus, though this may be shortened for those with suitable previous training and experience.

1305. Transfer to the RN from the RM
Processing is as follows:

a. Other Rank requests to Commanding Officer to transfer iaw Chapter 48.

b. Commanding Officer forwards Other Rank’s application to CNR requesting manning clearance.
c. **ACTION: CNR.** CNR applies for manning clearance to ACOS(PCap) BMs.

d. For Other Ranks who are given manning clearance, CNR will then arrange for them to be processed at their nearest AFCO.

e. Candidate attends AFCO for processing into requested BOP and must:

   1. Meet the BOP entry criteria laid down in the Summary of Entry Standards.

   2. Undertake a further RT if the original RT is over three years old or does not meet the entry requirements for selected BOP.

   3. Be recommended for entry by a Careers Adviser at Selection Interview.

   4. Be passed medically fit by the AFCO ME.

   5. Be in date for fitness test or re-take PJFT.

f. Obtain Other Rank's current SC number from NSV for use on entry to the RN.

g. **ACTION: CNR.** For recommended Other Ranks, CNR will:

   1. Liaise with HQRM for a suitable date for the Other Rank to be discharged from the RM.

   2. Arrange an entry date.

h. CNR will then issue the transfer letter to Other Rank's Commanding Officer and HQRM giving date of entry to RN.

i. Other Rank is processed by the AFCO to enter RN as a new entry.

1306. **Transfer to the RN from the Army or RAF**

Processing is as follows:

a. Airman/rank requests to Unit Commanding Officer to transfer iaw. individual Service instructions.

b. Army/RAF Personnel HQ forwards application to CNR.

c. **ACTION: CNR.** CNR assesses availability of requested BOP.

d. CNR will then arrange for candidate to be processed at their nearest AFCO.

e. Candidate attends AFCO for processing into requested BOP and must:

   1. Meet the BOP entry criteria laid down in the Summary of Entry Standards.
(2) Undertake the RT.
(3) Be passed medically fit by the AFCO ME.
(4) Conduct PJFT.
(5) Be recommended for entry by a Careers Adviser at Selection Interview.

f. Obtain airman/rank’s current SC number from NSV for use on entry to the RN.

g. **ACTION: CNR.** For a recommended airman/rank, CNR will:
   (1) Liaise with Army/RAF Personnel HQ for a suitable date for the discharge.
   (2) Arrange an entry date.

h. **ACTION: CNR.** CNR will then issue the transfer letter to airman/rank’s Unit Commanding Officer and Personnel HQ given date of entry to RN.

i. **ACTION: AFCO.** AFCO processes candidate to enter RN as a new entry.

### 1307. Transfer To Full Career - Trained RMR Other Ranks

a. Trained RMR ranks transferring to Full Career are required to undertake a 12 month probationary period on FTRS/SSSE in a regular RM unit (ideally a CDO) and be approved for transfer by the regular unit CO.

b. It is preferable for the RMR rank to be on General Duties Mne FTRS contract, but during periods of Mne manning balance there may not be any Mne GD gaps and only FTRS SQ contracts will be available for the probationary period.

### 1308. Transfer To Full Career - Serving RNR/RMR

a. Trained RMR ranks on transfer to Full Career will be allocated to enter CTCRM by 0800, normally, the first Tuesday of each month. CNR will forward nominal lists to CTCRM and RDCA WO1 at least two weeks prior to the planned entry date.

b. Candidates cannot make an application for Service Family Accommodation until they have successfully completed the re-training programme.

c. Trained re-entries may use their own transport. Those opting to use own transport are make a claim on JPA using the regional HQ UIN is to be used. Overnight accommodation is available for those arriving PM on the Monday.

d. Normal night and weekend leave may be granted whilst at CTCRM.
e. CTCRM will process Trained re-entries and draft them to the Trained Strength, normally, within the first month of joining CTCRM. However, it must be stressed to Trained RM re-entries that they will be required to pass all elements of the Training Assessment listed below within four weeks of arrival at CTCRM.

f. **CTCRM Joining Routine and Initial Training Assessment.** Joiners report to SO3 Human Resources at 0800. On completion they will undertake an Initial Training Assessment and complete Enlistment/Joining Brief/Documentation. Dependent upon the initial training assessment, individuals will join Infantry Support Wing (ISW) for up to 4 weeks. Within the Wing they will be administered by the Central Training Team (CTT) Staff and complete the following criteria checks:

1. PSO Interview and Initial Training Assessment.
2. Medical and Dental Checks.
5. Pass Basic Fitness Test and basic Swimming Tests.
6. Complete fieldcraft and other revision as a member of FTS.
7. Complete NBC theory and practical and annual NBC tests.
8. Written military skills and knowledge tests.
9. Formal interview with CO CTCRM.

g. On successful completion of applicable tests, SO3 Human Resources will inform ACOS(PCap) of those who have successfully completed re-entry training. Trained re-entries will then be assigned. Trained re-entries who do not successfully complete re-entry training will be Discharged SHORE.

CHAPTER 14

RFA RECRUITING PROCESSES

1401. RFA General Information and Background

a. The Royal Fleet Auxiliary (RFA) is a civilian manned flotilla owned by the MoD and operated by the Royal Navy; its task is to support the UK armed forces around the world.

b. It was formed in 1905 to ensure that the Navy could operate anywhere in the world without fixed operating bases. The RFA has served in every major campaign of the 20th Century; including: WW1, WW2, Falklands, Gulf War, Op Telic, Kosovo, Bosnia and Afghanistan. RFA personnel have served with distinction, many being decorated for their bravery and gallantry.

c. The policy of the RFA Service is to achieve and maintain a largely all Company Service Contract workforce. All direct external recruitment will be conducted in accordance with the Civil Service Commissioner’s Recruitment Code, embracing the principles of equality of opportunity and open and fair competition.

d. Recruitment will be undertaken through whichever facet of the open labour market can provide the numbers and quality of personnel required. All personnel recruited into the RFA Service must, in general, meet the normal conditions for the employment of civilian staff into the Ministry of Defence.

1402. RFA Recruitment - Purpose and CNR Responsibilities

a. Recruitment into the RFA Service is based on the need to achieve projected manpower requirements in order to maintain efficiency and meet operational commitments.

b. CNR is responsible for RFA recruiting and provides marketing support and processes RFA candidates as follows:

(1) Provide marketing advice and support in designing suitable advertisements for use by RFA units.

(2) In consultation with Cdre RFA, design and produce recruiting publications, posters and publicity material on similar lines to those produced for the regular Service.

(3) Include RFA in national and regional ‘spotlight’ advertising campaigns where appropriate.

(4) Include information on the RFA on the CNR Website.

(5) Refer any enquiries concerning the RFA – via the Contact Centre, AFCOs or other means – to CNR RFA Recruitment/RFA Direct (Lateral) Entry Cell.
1403. RFA - Applications for Reinstatement by former Employees

a. The basic eligibility criteria are:

(1) Must be British citizen and resident in UK or Ireland.

(2) Must pass an ENG1 seafarers medical.

(3) Must have a MoD Security Clearance.

(4) Ratings - RT (Comms 58; Stewards 49; and Others 53).

(5) Deck Officer Cadets – minimum 5 GCSEs (or equivalent) at grade 9-4/A-C; Including English Language at Grade 6/B, Mathematics at Grade 6/B and either Physics, Chemistry or Dual Science at Grade 6/B (or equivalent).

(6) Engineer Officer Cadets – minimum 5 GCSEs (or equivalent) at Grade 9-4/A-C; including English Language at Grade 4/C, Mathematics at Grade 6/B and either Physics, Chemistry or Dual Science at Grade 6/B (or equivalent).

(7) Other qualifications including Advanced Diplomas will be considered on a case-by-case basis for both Deck and Engineer Office Cadets if the minimum GCSE (or equivalent) has not been met.

b. All officer cadets will normally be entered on an HND Course, candidates with a minimum of 64 UCAS points in relevant subjects will be assessed and may be allowed to follow a Foundation Degree study programme. An RT test is mandatory. The minimum pass for RT part score for RFA Officers is:

(1) Literacy (RT2) 20.

(2) Numeracy (RT3) 18.

1404. RFA Company Service Contract (including Sponsored Reservist status)

a. Recruitments will be conducted in accordance with the published policy and regulations. It is a pre-requisite of employment that all direct entrants agree to the conditions of and sign an RFA Company Service Contract (CSC) effective from their first day of service.

b. Officer Cadets will normally be awarded their CSC upon satisfactory completion of training. Cadets are covered by the terms of their Cadet Agreement during their cadetship. The CSC and probationary period will commence from the date of advancement to Officer status.
c. As part of the terms and conditions, from 1 Jul 07 all new entrants are required to sign an agreement to become a special member of the Royal Naval Reserve (RNR), termed Sponsored Reservist, this status to be activated when serving on board RFA units required to provide military afloat support during a conflict. Failure to sign the Sponsored Reservist agreement will negate all clauses of the contract and any offer of employment will be withdrawn.

1405. RFA Recruiting Process - New Entries (Ratings)

a. **ACTION: AFCO.** AFCOs are to direct enquirers who make first contact to the Contact Centre (TPUK).

b. **RFA Candidates.** After receipt of an ICARAS handoff, CNR RFA will transfer eligible RFA candidates to the appropriate AFCO via MIS for them to arrange an RT at a mutually convenient time. Once the test is complete the results are entered into the MIS and the candidate is transferred back to CNR RFA. The test results are not to be conveyed to the candidate by AFCO Staff. CNR RFA will debrief candidates.

1406. RFA Officer Recruiting - Direct Entry (Lateral Entry)/Cadets

a. There are two routes for Deck and Engineer Officers to enter the RFA:

1. **Direct Entry (Lateral Entry).** Direct Entry (Lateral Entry) is the normal method of officer extraction from the Merchant Service, for qualified officers with relevant MCA certification. Candidates will undergo the following:

   (a) Sift of application and qualification check for suitability by departmental subject matter expert.

   (b) RT testing at their local AFCO at a mutually convenient time.

   (c) Interview at Portsmouth.

   (d) Review to assess suitability for employment based on experience, academic qualifications, RT and interview results or, if required, forward to AIB.

   (e) If successful, offer of employment followed by induction training prior to seagoing appointment and attendance at AIB.

2. **Officer Cadets.** Officer Cadet is a means of direct entry as trainee officers. This will entail a 3-year training course split between a civilian nautical college and service onboard RFA ships, qualifying as a Third Officer upon successful completion.

b. Direct Entry Systems Engineer or Logistics Supply (Trainee) Officers will be externally recruited to meet demand. Appropriate academic qualifications are essential – normally to HND standard in a relevant subject.
c. All direct entry officers and officer cadets will be required to pass a 1½ day assessment and interview board (RFAIB) and will attend a 6-week course at BRNC Dartmouth before commencement of any vocational training. Exceptionally, a waiver may be granted in accordance with Para 1406(1)(v).

1407. RFA - Post-interview Medical and Security Clearance

a. ACTION: CNR RFA. CNR RFA is to arrange ENG 1 Seafarers Medical for candidates successful at interview.

b. ACTION: CNR RFA. On completion of a successful medical examination, References are to be obtained, the BPSS completed and the NSV 001 forwarded to NSV for Security Clearance.

1408. RFA Entry

a. NSV will inform CNR RFA once SC has been given. SC details are to be noted.

b. ACTION: CNR RFA. CNR RFA will arrange an entry date for New Entry Training.

1409. Disability and Learning Difficulties Policy

a. RFA candidates who declare disability or learning difficulties will receive no adjustment to the assessment process or recruiting standards and will be required to meet the basic criteria. No additional allowance is to be made during the recruiting process for any declared disability or learning difficulties and each candidate’s suitability for employment in the RFA measured against the current standards.

b. Details of declared disability or learning difficulty are to be recorded in the candidate’s application.

c. For successful candidates, who are offered employment with the RFA, reasonable adjustment will be made during training and in employment following assessment of the type and degree of disability or learning difficulty at the training establishment.

d. Candidates who declare a disability or learning difficulty are to be informed verbally of this policy.

---

1 Recruiting standards refers to both medical and academic standards.

CHAPTER 15

SPONSORSHIP

1501. Scholarship and Reserved Place Scheme

a. The Scholarship and Reserved Place Scheme is for young people who wish to join the RN/RM as Officers. It is open to those who are about to take GCSE or SCE Ordinary/Standard Grade examinations, and are intending to study for A levels, Higher Grade, Certificate of Sixth Year Studies or other equivalents. Those who reach the qualifying educational standard, satisfy the medical criteria and successfully undergo the selection procedure will have places reserved for them to join the RN/RM (or to attend university if ‘E’ branch) conditional upon passing their A levels (or equivalent).

b. The parents/guardians of those awarded a Scholarship will receive an award towards the cost of keeping their child at school or college in order to qualify for entry to the RN/RM (or university if ‘E’ branch). The current value of an award can be found in CP22 (Rates of Pay). Parents/guardians of those awarded a Reserved Place only, will receive no financial assistance.

c. Candidates may apply for either a 2 Year Scholarship and Reserved Place, or a 1 Year Scholarship and Reserved Place. Candidates applying for a 1-Year Scholarship and Reserved Place may also be considered for University Sponsorship, the DTUS, Engineer Bursary or Non-Graduate Entry without having to reappear at the AIB. With the exception of Engineers, candidates who are awarded a 2-Year Scholarship and Reserved Place and subsequently wish to apply for University Sponsorship will be required to re-attend the AIB and be considered for selection along with the other sponsorship applicants. When Engineers are awarded the Scholarship they are guaranteed a place on the DTUS or Engineer Bursary.

d. Some scholars subsequently apply for a Bursary and are not selected, but still wish to go to university and join the RN/RM on completion of a degree. Strict adherence to the regulations requires recovery of the scholarship, but in practice the recovery of a scholarship debt from unsuccessful Bursary candidates will not be pursued provided that the candidate still wishes and applies to join the RN/RM on completion of their degree course.

e. Requirements. The minimum acceptable academic requirements are: 5 acceptable GCSEs including English Language and Mathematics. No break in education between GCSE and further qualifications. Formal application by 1 June of the year of selection. Final Entry to BRNC is taken according to one of the schemes below (with the exception of Welbeck College – see succeeding paragraph).
a. **Introduction**

(1) Welbeck - The Defence Sixth Form College (DSFC) was established to provide the opportunity for students in the 16-18 age group to undertake academic training to A-level standard. Successful completion can lead to the Defence Technical Undergraduate Scheme (DTUS) for potential Engineer Officers, with subsequent entry into the Armed Forces or MoD Civil Service. Welbeck is situated at a new purpose-built site at Woodhouse near Loughborough, Leicestershire. Details can be found in the new quad-Service Welbeck Prospectus (available from Wroughton or on the Welbeck Website). The target entry figures are 30 for both the RN and RAF, 100 for the Army and 10 for the MoD Civil Service.

(2) The Welbeck/DTUS sponsorship arrangements offer a unique opportunity for potential Engineer Officers. ACLOs are to promote the scheme actively to ensure the RN places at Welbeck are filled. Welbeck is now open to non-engineering branches, although priority will be given to Engineering applicants.
(3) Non-engineering applicants must intend to study science related AS and A levels and, if awarded a place at Welbeck, will be guaranteed a Naval College/Direct Entry place for entry to BRNC/CTCRM, provided they meet normal entry criteria (medically fit, in date for PJFT, and achieve the required UCAS points). They will also need to be given Security Clearance prior to entry. Non-engineering applicants who accept a Welbeck place and then decide to attend university will be required to make another AIB appearance to be considered for a Bursary award. The scheme should be seen as an alternative to the 2 year scholarship scheme which has similar rules regarding a further AIB for those wishing to attend university.

(4) Candidates applying for Non-engineer entry will undergo the same procedure as standard Welbeck applicants and will be selected post AIB for a provisional place at the College. Places will be confirmed once GCSE results are known.

(5) Parents of non-engineer candidates awarded a place will pay the same level of means-tested maintenance grant as all other parents and will be asked to sign a financial undertaking by the College. This undertaking commits parents to repay DSFC education fees should the candidate fail to enter IOT and complete 1 term of training. Non-engineer candidates who go onto university under the bursary scheme will be required to sign a Financial Undertaking that commits them to three years service from completion of specialist officer training. This training varies by branch of entry and is as detailed in BR3.

b. The College. The primary aim for RN students at Welbeck is to study technical A-levels in preparation to undertake an engineering degree, normally at one of the DTUS Universities (Southampton, Newcastle, Loughborough, Aston and Northumbria), before joining BRNC as Engineer Officers. Whilst primarily focused on education to provide future military engineering graduates, Welbeck provides a wide range of activities for the students, coupled with the financial support of the MoD.

c. Entrance Requirements

(1) Stringent academic requirements exist for entry, to ensure that students are capable of passing both their A-level and degree courses and thus minimising wastage. These requirements (mainly with regard to GCSE attainment levels) are clearly laid out in the new Welbeck prospectus. The requirements are also available through the Contact Centre team via their database system, for early candidate sifting.

(2) Whilst CRP will check the eligibility of candidates, their suitability for this ‘high fliers’ scheme must be assessed by ACLOs. Welbeck College does not have the capacity for all potential candidates to attend the College visit and interview. Therefore it is essential that ACLOs only recommend this route to candidates who show a high chance of successful entry.
(3) In addition to the normal requirements for entry as an Engineer Officer, additional requirements for Welbeck students are as follows:

(a) Age between 15 years and 17 years 6 months on the 1 September in the year of entry to the College.

(b) Minimum academic requirements are A grade or higher at GCSE (or equivalent) in Mathematics, B grade or higher in dual award Science/single Science equivalent, as well as C grade or higher in English Language. Further, candidates must score at least 40 points (38 in Scotland) for their best seven subjects on the basis of:

Table 15-1. Academic Grade Points

</tr>
<tr>
<td>C</td>
<td>5</td>
<td>3</td>
</tr>
</tbody>
</table>

(4) The Ministry of Defence Civil Service also has an allocation of spaces at both Welbeck and DTUS. If a candidate’s application to join the Armed Forces fails due to unsuitability for military service, a potential career in the MoD, with access to Welbeck and DTUS should be advertised.

d. Application Procedure

(1) The procedure is illustrated at the Annex in a flow chart. Essentially, the process is as close as possible to the existing Officer application process. The key steps are:

(a) Information Seeker contacts CNR through AFCO, ACLO, CRP (through Website, telephone or Welbeck Website/Hotline).

(b) After being seen by the ACLO, and having been assessed as suitable in accordance with the criteria in Para 1503.c sub-para (1) above, candidates attend Welbeck for an informal interview (arranged by the ACLO iaw Para 1503.c sub-para (2) and College visit. Visits usually take place on Saturdays and parents/guardians are encouraged to attend. The College visit T&S costs will be met by CNR, although air travel and overnight accommodation must be approved in advance by CNR VO. ACLOs are to issue expenses claims forms to the candidate’s parents/guardians prior to the visit. Completed forms should then be forwarded to CNR VO for payment.
(c) To streamline the application process, ACLOs should no longer wait until after the Welbeck interview before booking candidates onto an AIB. Instead, candidates should be **booked on an AIB at the earliest opportunity.** A special Welbeck AIB will take place in March and July and the aim will be to process as many candidates on the March AIB as is practicable.

(d) In order to give candidates the best chance of success at the AIB, 2 Welbeck only Engineering POC Courses will take place. ACLOs are to encourage Welbeck candidates to attend one of these courses. If oversubscribed, candidates are eligible to attend the non-Welbeck Engineering POC Courses.

(e) Candidates will no longer be told if they have passed/failed the AIB. Instead, a Welbeck Selection Board will sit in July to select 30 candidates based on their AIB scores.

(f) Those who pass AIB must wait until GCSE results become available before final selection for entry to Welbeck. Candidates will be informed by Welbeck of the final result of the selection process.

(g) If candidates continue towards DTUS (or exceptionally Bursar) entry to BRNC after Welbeck no further AIB is necessary. Candidates wishing to take advantage of the UCE scheme will be re-boarded by AIB.

(h) Candidates who do not gain a University place during their Welbeck time, or who elect to change their entry preference to a non-engineering branch, will be required to repay a proportion of the fees for their studies at Welbeck. Full details of the fees payable are contained within the Welbeck Prospectus.

(2) The contact at the College to send copies of OIFs, and for ACLOs to book visits is:

Linda Tilley  
Welbeck – The Defence Sixth Form College  
Forest Road  
Woodhouse  
LOUGHBOROUGH  
Leicestershire  
LE12 8WD

Tel:    01509 891704  
Email:  linda.tilley@dsfc.ac.uk
Figure 15-2. 2 Year Scholars/Welbeck Flow Chart

Notes:

1. **Welbeck Hotline 01509 891700.**

2. **All applications for AIB must be received by the AIB prior to 31 May annually for entry in September.**

3. **Welbeck must have all copies of the Officers Information Form by 20 April for entry the following September.**

4. **Candidates confirm visit direct to Welbeck.**

5. **ACLO updates TAFMIS journal with feedback (via email) from Welbeck.**

6. **With the joining instructions, students receive a form to be faxed back to the College immediately on receipt of GCSE results. This form is signed by the school and sent by the school or student. As the results are needed as soon as they are published, a phone call to the College to confirm results is acceptable, as GCSE Certificates will be checked by the College at a later date.**

Continued
Notes (Continued):

7. Royal Navy Sponsored Undergraduate Acquaint Course (RNSUAC) at BRNC.

8. Bursars undertake the acquaint course (BMAC) at BRNC at the end of their first year of University.

9. CAIB will decide whether a re-board is required.

10. Repayments for those who fail at Welbeck, or who subsequently decide not to enter the RN, is repaid as a penalty per term attended at the College (plus one term in lieu if they leave before completion). The amount re-paid depends on the amount of fees being paid to the College (means tested). The minimum to be repaid would be £100 per term for those paying no fees, up to £1,300 per term for those paying the maximum fees of £2,210 per term. For those who join the Service, but not as an Engineer Officer, their repayment will be considered on a case by case basis, as currently occurs for Bursars.

11. For those who view the Welbeck website (http://www.welbeck.mod.uk) there is the option to click on a hyperlink which re-directs to the RN Careers page of the Royal Navy website.

1503. Bursaries

a. Candidates who do not wish to join the Service before starting a first degree course at a UK university may apply for Bursary sponsorship at any time before the start of their final year. Bursars are not part of the Naval Service and remain civilians whilst reading for their degrees, but are required to join the Service after graduation on an Initial Commission. Acquaint courses are held during vacations and bursars are required to participate.

b. A bursary is normally awarded for 3 years, but may be awarded for up to 5 years if there are bona fide reasons for attending a course of this length (eg. MEng at a Scottish university). Advice from AIB should be sought as to whether or not an award for more than 3 years is appropriate.

c. Awards cannot be deferred or suspended once awarded, so candidates wishing to take a 'year out' must do so prior to application. There is however a mechanism to consider exceptional circumstances within the scheme. These are addressed case by case and do not constitute a right to defer or extend the time taken to complete a bursary. ACLOs must seek early advice from AIB.
d. The current value of a bursary may be found on the RN Website. It is not exempt from income tax and should be declared as part of annual income to HMRC. It may, however, affect eligibility for D of EE funding of tuition fees and student loan limits. It is the potential bursar's responsibility to establish the financial impact of an award on their own circumstances and they should be encouraged both to read D of EE's Financial Support for Students booklet (which is issued in January each year) and to seek appropriate independent advice prior to applying for a Bursary.

e. Retrospective Bursaries are also available to DGE Engineers, except E(TM) and E(IS), who entered BRNC after 1 September 2006, and have not received an Armed Forces Bursary. Candidates need not to have just graduated, as long as they meet the usual criteria for entry to BRNC. Details of retrospective bursaries are promulgated in RIs.

f. See also Para 1504 sub-para k and Para 4809.a. sub-para (1).

g. **Conditions of Bursary.** Whilst Bursars remain civilians during their time prior to entering BRNC for INT(O), there are certain conditions attached to their bursary which they are required to meet throughout the duration of their sponsorship. These are as follows:

(1) **RNFT.** Bursars are required to pass the RNFT on an annual basis. The opportunity to undertake the RNFT will be provided via various training events at BRNC as well as through local URNUs. Failure to pass the RNFT will result in Bursars being subject to the same remedial package and associated warning system as serving personnel iaw BR 51. Given the geographical spread of Bursar locations and the unavailability of RN PTIs to oversee it, this remedial training will be self-led. However, advice may be sought from BRNC physical training staff as required. The Sponsored Undergraduate Staff Officer (SUSO), as Divisional Officer, is to maintain an audit trail of any warnings issued. If a bursar fails to pass the RNFT after a 9 month remedial training package he/she may have their bursary terminated and will be obliged to re-pay in full all funds previously paid to them.

(2) **URNU Attendance.** As detailed in BRd 3(2) Chapter 25, Bursars are required to join and regularly attend an URNU as an Associate Member, provided they live within 1 hour’s travelling distance from the unit. Those who do not live within 1 hour’s travelling distance are to join an alternative Reserve unit such as the OTC, UAS, RNR etc. Exceptionally (and at the discretion of the SUSO) bursars may be permitted to join or remain a member of a non-URNU Reserve unit regardless of travelling distance to their nearest URNU. Regular attendance is defined as a minimum of 2 drill nights per month. URNU COs will monitor attendance and provide feedback to the SUSO at BRNC.

(3) **Mandated Training.** As with all sponsored undergraduates, Bursars are mandated to attend the Blake Squadron Annual weekend. Additionally, all bursars are to attend a Bursars and Medics Acquaint Course prior to joining BRNC for INT(O).
(4) **Character and Leadership.** As future Naval Officers, a high standard of behaviour is expected of Bursars at all times throughout the term of their sponsorship. If a Bursar is deemed not to meet the professional standards expected of a future Naval Officer, then they will be subject to the same professional warning process as INT(O) cadets as detailed in BRNC SGOs (Chapter 14). Tier 1 warnings will be issued by SUSO; Tier 2 will be issued by Cdr U as CO Blake Squadron and Tier 3 by Captain BRNC. A Tier 3 warning will result in termination of bursary and the Bursar will be obliged to re-pay in full all funds previously received by them.

**Figure 15-3. Bursary Flow Chart**

1504. **Defence Technical Undergraduate Scheme (DTUS)**

a. The Defence Technical Undergraduate Scheme (DTUS) is a tri-Service scheme that offers the opportunity of university sponsorship to those candidates who have decided upon an Engineering career in the Armed Forces. To be considered for sponsorship candidates must pass the selection procedure, meet the medical standards contained in the Careers Guidance Medical publication, and hold, or be in the process of obtaining, the necessary educational qualifications. Candidates must also have applied to one of the universities involved in the scheme (the Universities of Southampton, Newcastle Northumbria, Aston and Loughborough) via the UCAS system. The University of Southampton is the preferred (but not mandatory) choice for the RN.
b. The current value of the DTUS scheme can be found in CP 22. It is exempt from income tax and is not affected by an individual’s or their parents’/guardians’ financial position.

c. Unlike the Bursary scheme, study can only be undertaken at one of the universities listed above. Successful candidates will read for those universities’ existing BEng degrees which are suited to Engineering in the Royal Navy.

d. Candidates who are already studying at one of the nominated universities reading for the Mechanical, Electro-Mechanical, Electronic or Aerospace Systems Engineering courses can be considered for sideways entry onto the DTUS. The sideways entry method only applies to students reading one of the specified degree courses which are already part of the DTUS. Sideways entry onto the DTUS is NOT currently permitted to students reading other engineering degrees (i.e. Electrical as opposed to Electronic).

e. In addition to reading for a degree there will be a commitment to join the University’s Military Support Unit which will entail attendance of at least 45 training days per annum, for which students will receive attendance pay in addition to their Bursary award.

f. Requirements. The minimum acceptable academic requirements are as follows: 5 acceptable GCSEs including English Language and Mathematics. 240 UCAS points including at least grade C in A - Level Mathematics and Physics (or equivalent). Candidates must be under 23 years of age at the commencement of their degree course. See also Educational Requirements and Summary of Entry Standards.

g. Those selected for the DTUS scheme receive the standard Engineering Bursary and, in addition, up to £1,500 pa for the military activities with the host unit including leave deployments and work experience.

h. Additionally DTUS is available for those wishing to study Engineering at Oxford or Cambridge Universities. Although there is not a DTUS Unit available for them at those universities, they will be able to attend the URNU drill nights and will receive the extra pay associated with the scheme. Aston University DTUS unit will look after students at Oxford University, and Loughborough University DTUS unit will oversee students at Cambridge. Sponsored students will be encouraged to take part in DTUS activities.

i. Approved Degrees. A list of the degree titles that are generally acceptable is below. The general principle is that only mainstream engineering will be acceptable for sponsorship, such as mechanical, electrical and aeronautical engineering. The list excludes degree subjects such as civil and chemical engineering. Those with degrees that are unacceptable for sponsorship may apply as DGEs noting that the preference is for ‘mainstream’ degrees. The list is not absolute; if there is any uncertainty, advice and final rulings must be sought from AIB.
j. **Engineering at other Universities.** It is also acceptable for candidates to apply for Bursaries to read engineering at a non-DTUS university of their choice. Depending on AIB score and demand for engineering candidates, they could be awarded standard bursaries but will not qualify for the extra £1,500 associated with DTUS.

k. **Streaming.** All DTUS students and Technical Bursars will commence their undergraduate studies as General ‘E’ Engineers. At the end of their second academic year, they will be streamed by MoD to AE, ME or WE. Additionally, those on a BEng who have been offered a MEng place by the University may, exceptionally, be considered for a transfer to the 4 year degree course. Streaming of ME and WE students to GS or SM will take place at BRNC.

### 1505. Medical Awards

Medical and Dental students are eligible for cadetships which generate a current annual salary of £13,000 with tuition fees paid and additional academic support. Cadetships can be processed from the second year at a UK Medical/Dental school (or from the first year if on a post graduate degree course). Advice on medical sponsorship is available from CNR MDRA.

### 7. Educational Qualifications
Please list all GCSE/AS/A Level (or equivalent) passes.

### 8. Education
Please provide the name and address of your School, College or University (if not already given at 6 above).

### 9. Cadets/Scouts/Guides
Please indicate if a member of the following:

- a. CCF Section.
- b. Sea Cadet Corps.
- c. Air Training Corps.
- d. Sea Scout Troop.
- e. 1st Class Scout/Guide Badge held.
- f. Other youth organisation (list):

### 10. Previous Gliding/Flying Experience
11. Previous Attendance
Give dates of any previous attendance at the Officer Aircrew Selection Centre at RAF Cranwell.

12. Family Details

CHAPTER 19
SUPPORTING COMMONWEALTH AND NON-UK NAVAL PERSONNEL

SECTION 1 - GENERAL

1901. Introduction
This chapter provides Naval Service Policy for supporting Commonwealth and Non-UK Naval Service personnel. This policy acknowledges the immigration challenges faced by Commonwealth and Non-UK Naval Service personnel and their entitled family members in establishing a service family life, termination of service and transition back to civilian life.

1902. Policy Background.
This policy applies to all members of the Regular Naval Service whose status is ‘exempt immigration control’ by virtue of their service, and also to entitled family members who are subject to immigration control (including where the Naval Service person is a UK national). It also applies to the Royal Naval Reserve and veterans where practicable and manageable. This chapter does not replace MOD or Tri-Service policy or instructions covered in Joint Service Publications (JSPs) which apply to all Service personnel and their families, regardless of nationality.

1903. Aim.
The aim of this policy is to give direction to the Chain of Command (CoC) and individuals in supporting and advising Commonwealth and Non-UK Naval Service personnel throughout their naval service, up to and including termination of service. It is primarily concerned with matters related to immigration status.

1904. Definitions.
The following definitions are used in the context of this policy:

a. **Foreign.** The only foreign nationals eligible for recruitment to the Naval Service are citizens of the Republic of Ireland (ROI): citizens of the ROI are not subject to immigration control. EU/EEA nationals are not eligible to join, with the exceptions of Malta and Cyprus, which are members of the Commonwealth.

b. **Alien.** A citizen or national of Nepal who serves, or has served for not less than 5 years in the Naval Service is considered as an ‘Alien’ under the Armed Forces Act.

c. **Commonwealth.** A Commonwealth citizen is a person who is a national of any country within the Commonwealth member countries.

d. **Naturalisation.** Naturalisation is the legal act or process by which a non-citizen in a country acquires citizenship or nationality of that country.

---

1. The terms ‘termination of service’ and ‘termination’ are used throughout to encompass the various ways in which service personnel leave the Naval Service. Other terms relating to discharge or dismissal are included only when referring to a specific route for leaving.

2. Army General Administration Instructions Chapter 50 (April 2019).

3. Member states of the European Union (EU)/European Economic Area (EEA). https://www.gov.uk/eu-eea

4. Defined under the British Nationality Act 1981 as “a person who is neither a Commonwealth citizen nor a British protected person nor a citizen of the Republic of Ireland”.

5. Commonwealth citizens are defined within the British Nationality Act 1981 as being those within schedule 3 of the Act. A list of Commonwealth countries may be found at http://thecommonwealth.org/member-countries
e. **Settlement.** Settlement is an immigration status granted to a person who does not hold the right of abode, through citizenship, in the United Kingdom. Indefinite Leave to Remain (ILR) is a status granted to those who have been admitted to the UK without a time limit on their stay and are free to take up employment or study. When indefinite leave is granted to persons outside the UK it is known as Indefinite Leave to Enter (ILE).
SECTION 2
TERMS AND CONDITIONS OF SERVICE

1905. Terms and Conditions of Service.
Non-UK nationals enlisting in the Naval Service do so under the same Terms and Conditions of Service (TACOS) as their UK counterparts. Commonwealth, Non-UK and ROI citizens enlisted in the UK and have the same employment, career opportunities and entitlement to Naval Service Family and People Support (Welfare) service as their British counterparts.

1906. Immigration Exemption.
When a Commonwealth or Non-UK national enlists in the Naval Service, they will enter the service with a valid residency visa and remain subject to UK immigration control rules during the period of service. They may be granted an exemption from immigration control under section 8(4)(a) of the Immigration Act 1971 (except for the provisions relating to deportation). The rules for UK exemption of immigration may be found at the following link. Royal Naval Reservists are not granted exempt immigration control under section 8(4)(a) of the Immigration Act 1971, unless they are called-out for permanent service under the Reserve Forces Act 1996 (RFA 96) Sections 52, 54 or 56 (commonly known as ‘mobilisation’).

1907. Home Office Immigration Rules Appendix - Armed Forces.
The rules contained in the Home Office Immigration Rules Appendix – Armed Forces apply to regular Non-UK members of HM Armed Forces only (on termination of service) and their entitled family members who are seeking to enter or remain in the UK.

1908. Consular Protection Arrangements.
When any Non-UK Service Person (SP) is placed in custody or detained, it is the responsibility of their Commanding Officer (CO) and/or Service Police to ensure that the individual is informed of their right for the appropriate consulate to be advised of their detention. If the individual exercises this right, the CO must notify the consulate without delay and where possible arrange or facilitate unfettered consular communication and consular access to the detainee.

1909. Arrest Overseas.
If a Non-UK Service Person is arrested by authorities overseas, the following actions are to be undertaken (See also BRd 2 (QRRN) Chapter 39 (Civil Power and Report of Arrests), JSP 830, Manual of Service Law Volume 1 Chapter 3 and FLAGO Chapter 16):

a. On Authorised Leave. Any Service Person who is arrested by a civil power, or summoned on a criminal charge, whether in the UK or overseas, is to report such arrest or summons to their Commanding Officer without delay. When overseas, individuals are to contact either the nearest consular department of the passport they are travelling under or the British Embassy/Consulate; they are also to inform their unit (see also BRd 2 (QRRN) Articles 3902 and 3909).

---

8 Including held in Service custody or is ordered into arrest or custody without the involvement of Service Police.
9 There is no obligation for the CO to inform the consulate of the individual as a matter of course.
b. **On Exercise, Official Visit or Short Term Training Team.** When on Exercise, Official Visit or as a member of a Short Term Training Team, units must contact their Commanding Officer for advice over jurisdictional responsibilities in accordance with the Vienna Convention on Consular Relations. The CO should advise the individual requiring assistance that they have the option of contacting either the nearest consular department of the passport they are travelling under or the British Embassy/Consulate.

c. **On Operational Deployment.** When on operational deployment, unit COs must contact the Duty Fleet Controller (+44 1923 956367), who will contact the Duty Fleet Legal Adviser.
SECTION 3

GUIDE TO SUPPORTING COMMONWEALTH AND NON-UK SERVICE PERSONNEL AND NON-UK FAMILIES OF SERVING PERSONNEL

The Army Guide to Supporting Commonwealth and Non-UK SP and Non-UK Families of Serving Personnel is a comprehensive reference document that directly supports this chapter and will be incorporated fully at the next edition of BRd 3(1). It provides guidance to the CO, unit, individual and dependent family members on the immigration and cultural challenges that may be expected by Non-UK nationals during their career in the Armed Forces and their families.

1911. Awareness Briefings.

It is essential that regular awareness briefings are conducted on immigration matters relating to Commonwealth and Non-UK Naval Service personnel and their families. Briefings can be arranged on request via Seafarers’ Advice and Information Immigration Service POC advice@sailine.org.uk Freephone 0800 160 1842 or + 44 (0) 20 3597 1580. Briefings should be conducted for personnel and, where possible, their families, and also those in the Chain of Command (CoC) responsible for their management.

a. Immigration Awareness Briefings for non-UK Naval Service personnel.

Units are to deliver an awareness brief for Non-UK Naval Service personnel and their entitled family members on the following occasions:

(1) Recruitment.

(2) Phase 2 Training.

(3) On joining a new Unit or Change of Assignment.

(4) Immediately prior to termination of service.

b. The brief is to cover the following mandatory subjects:

(1) The immigration status of personnel when serving and the actions to be taken for renewal of Non-UK passports.

(2) The immigration challenge, costs of establishing a service family life and the substantial costs and challenges of settlement on termination of service\(^\text{10}\).

(3) The awareness brief should also be delivered to UK Naval Service personnel with Non-UK dependants, and to Naval Reserve Non-UK personnel on joining the unit, especially if a Reservist is to be mobilised, or about to undertake an FTRS commitment.

---

\(^{10}\) Including, but not limited to, ensuring that families have the correct immigration status, the Minimum Income Threshold, and the costs associated with naturalisation or travel back to country of origin on discharge.
c. **Awareness Briefing on Non-UK Naval Service Personnel to the Unit CoC.**

The unit CoC should receive an annual, bespoke, unit awareness brief on immigration matters relating to Non-UK Naval Service personnel. The CoC needs to be aware of the immigration and financial challenges faced by Regular personnel as they seek to establish a forces family life and the immigration and financial challenges faced on termination of service, whether they intend to settle in the UK or return home after termination. For Reserve units, the CoC needs to be aware of the immigration status of the Reservist whilst on normal training (including FTRS), when mobilised and demobilised.
SECTION 4

REGULAR NAVAL SERVICE

1912. Regular Recruiting.

The recruiting criteria for all Regular Naval Service personnel are contained in Part 4 Recruiting (Chapters 7-16). With regard to Non-UK nationals, additional recruitment eligibility criteria are outlined at Chapter 7 (Basic Eligibility and Entry Standards) and Chapter 63 (Security Vetting Policy) which includes rules regarding nationality and residency. In addition, 2019DIN01-045 – Recruitment and Management of Commonwealth Nationals in the Armed Forces provides further information. The most important factor is for all Commonwealth and Non-UK candidates to be made aware of the visa and immigration rules, associated costs and implications for any family members and dependants.

1913. Application for Immigration Exemption.

When a Commonwealth or Non-UK citizen enlists in the Regular Naval Service, the new Entry Training Establishment (HMS RALEIGH, Britannia Royal Naval College (BRNC) or CTCRM Lympstone) is to apply for an exemption of immigration control under Section 8(4)(a) of the Immigration Act 1971. Both applications for new enlistments or renewal of passports are to be made using the guidance at Annex 19A. Individuals should be briefed on the content of Annex 19A Appendix 1 and given a personal copy, including a copy of their submitted Non-UK passport personal information page. UK Visas and Immigration (UKVI) (which is part of the Home Office (HO)), will write to individuals outlining the conditions of their exempt immigration control status. Immigration Exemption does not apply to dependants of serving personnel.

1914. British Naturalisation.

Naturalisation is not required for service reasons. Becoming a British citizen is a significant, life changing event and is the personal choice of the individual. Once they have completed 5 years qualifying service, Commonwealth and Non-UK Naval Service personnel (excluding Non-UK dependants) may apply for naturalisation whilst serving. The decision to naturalise is a personal one and all costs/expenses associated with naturalisation are a personal responsibility (for more information refer to ‘Apply to Become a British Citizen by Naturalisation (Form AN).

1915. Updating JPA.

Naturalisation is classed as a change in personal circumstance and the individual must report this to their UPO/HR administration office for updating of their JPA account. They will either be solely a British national or hold dual nationality and will cease to be serving as a Commonwealth and Non-UK person; this will affect entitlement to certain allowances. Failure to notify the CoC of naturalisation could result in fraudulent claiming of Get You Home (Overseas) or DOMCOL, and could also affect pre-deployment checks and readiness for overseas assignments or deployments. It forms part of an individual’s self-service responsibility.

---

12 Awareness of the visa and immigration rules and understanding of the implications on their families as well as associated costs with specific reference to the Minimum Income Threshold.

13 All Commonwealth and Non-UK serving personnel who enter the Armed Forces are exempt immigration control under section 8(4)(a) of the Immigration Act 1971 whilst subject to service law.

1916. **Termination of Service.**
When a Regular Commonwealth or Non-UK individual’s service is due to be terminated (including medical discharge or discharge under training), the releasing unit must carry out additional procedures in accordance with Para 5465. Annex 54H is to be completed by the UPO/HR Admin prior to termination/discharge final date, its contents briefed to the individual and then sent to UKVI, with a personal copy being given to the individual.

1917. **UK Settlement**

a. Commonwealth and Non-UK Naval Service personnel may apply for settlement in the UK on termination of service through the Naturalisation application process. This is subject to them being able to meet the Home Office suitability and eligibility requirements of a veteran of HM Forces. The decision to apply for settlement is a personal choice and is made at personal expense. Applications may be made up to 10 weeks prior to termination of service by using the form at the link below\textsuperscript{15}.

b. Settlement may not be applied for from overseas. Career Managers of Non-UK Naval Service personnel serving overseas who intend to seek settlement after termination of service are therefore to move them back to UK (with their entitled family members) by at least a minimum of 10 weeks prior to their termination of service date. This is in order to allow UKVI to process their application(s).

1918. **Entitled Service Family Members.**
Entitled service family members who are subject to immigration control, including where the SP is a UK national, may seek to establish a family life in the UK by following the immigration rules at Footnote 14 and using the form VAF AF which may be found at the link below\textsuperscript{16}. An example of the letter of support required from the sponsoring unit is at Annex 19B. Family members who enter the UK by this method are no longer required to pay the Immigration Health Surcharge and may reclaim the cost if applications cannot be made via the new UKVI online system. Entitled service family members must not enter the UK on a standard visitor visa if they intend to remain in the UK permanently ie. not as visitors. Any spouse/partner/child travelling on a standard visitor visa will not be entitled to accompanied status or Service Family Accommodation (SFA).

1919. **Maintaining Passports and Visas.**
Units in the UK and overseas are to ensure that all Non-UK Naval Service personnel and entitled family members maintain valid passports and visas. They must inform individuals that, if a valid entry visa should lapse, UKVI will register the dependant as an overstayer in the UK, which will adversely affect their ability to work, access NHS facilities and prevent them from being able to travel abroad in an emergency or return to the UK. They will not be en-route to settlement, which may adversely affect future immigration applications. Non-UK Naval Service personnel may make application to UKVI to extend a visa up to 28 days prior to the expiry date, at their personal expense\textsuperscript{17}.

\textsuperscript{15} https://www.gov.uk/guidance/immigration-rules/immigration-rules-appendix-armed-forces
\textsuperscript{16} https://www.gov.uk/government/publications/application-for-uk-visa-as-member-of-hm-armed-forces-vaf-af
\textsuperscript{17} See also Para 0726.
1920. **Assignment from Overseas to UK.**
Unit staff are to ensure that, prior to their travelling back to the UK on assignment, Non-UK entitled family members have a valid settlement entry visa for the UK. Those without a valid entry visa will need to meet UKVI entry requirements, including basic English language and minimum level of income. The policy for the public upkeep of visas for entitled families outside the UK may be found in JSP 752 Chapter 9 Section 13\(^{18}\).

1921. **Assignment from Overseas to Overseas.**
Unit staff are to manage the movement of entitled family members on assignment between overseas locations through Global Removals and Family Services\(^ {19}\).

1922. **Home Office Notification.**
The Home Office is to be informed of changes in personal circumstance of Non-UK Naval Service personnel. It is the unit’s responsibility to inform UKVI of the following occurrences, using Annex 54H:

a. **Bereavement.** On the death of a Non-UK Naval Service person, when the individual or entitled family members are subject to immigration control.

b. **Estrangement.** When an estrangement has taken place and the Non-UK Naval Service person has changed their PStat, there is no chance of reconciliation, and the individual or entitled family members are subject to immigration control.

c. **Termination of Service.** When a Non-UK Naval Service Person’s service is to be terminated or when the individual’s service is terminated in accordance with Para 1916 above. The notification is also to include entitled family members who are subject to immigration control.

---

\(^{19}\) [http://authdefenceintranet.dif.r.mil.uk/Tools/Admin/UseDefenceTravel/Pages/GlobalRemovalsandFamilyServices.aspx](http://authdefenceintranet.dif.r.mil.uk/Tools/Admin/UseDefenceTravel/Pages/GlobalRemovalsandFamilyServices.aspx)
SECTION 5
ROYAL NAVAL RESERVE

1923. Reserve Recruiting.
All Non-UK Royal Naval Reservists are recruited under the residency requirements described in Chapter 4 (Recruitment Introduction and Overview), Chapter 7 (Basic Eligibility and Entry Standards) and 2019DIN01-045 – Recruitment and Management of Commonwealth Nationals in the Armed Forces.

1924. Immigration Status.
Non-UK Royal Navy Reservists are not granted ‘exempt immigration control’ status under section 8(4)(a) of the Immigration Act 1971, unless they are called-out for permanent service under the Reserve Forces Act 1996 (RFA 96) Sections 52, 54 or 56 (more commonly known as ‘mobilisation’). At all other times they must have valid leave to remain in the UK.

1925. Full Time Reserve Service (FTRS).
FTRS is a reserve commitment and the Non-UK Reservist remains under the immigration rules that govern them as a civilian. The Reservist must hold a valid right to work visa for the duration of the FTRS and units must not apply for immigration exemption on behalf of Reservists on FTRS. If the Reservist has settlement they can undertake FTRS in the UK, but it is not recommended that they undertake FTRS overseas as this could affect their ILR/E status, since UKVI will consider them to have left the country. Reservists on FTRS are subject to annual right to work checks, in accordance with Para 1928.

1926. Mobilised Reserve.
When Non-UK Reservists are mobilised, the unit or Mission Training and Mobilisation Centre (MTMC) must carry out the immigration control actions at Annex 19D, explain the contents of Annex 19D Appendix 1, and give the Reservist a copy. Units are to ensure that the Reservist’s passport will remain valid throughout the period of mobilisation. If successfully mobilised, the Reservist’s passport will be endorsed ‘exempt immigration control’ under Section 8(4)(a) of the Immigration Act 1971. UKVI will confirm in writing the conditions of the Reservist’s exemption.

1927. Demobilised Reserve.
When Non-UK Reservists are demobilised, MTMC or the demobilising unit must inform UKVI by carrying out the additional procedures in accordance with Para 5465. Annex 54H must be completed prior to their demobilisation final date and sent to UKVI. The unit must brief the Reservist that UKVI will be informed of their demobilisation and that the ‘exempt immigration period’ has ceased. The Reservist must be warned that “even though their passport stamp is not physically cancelled when they are demobilised, the Reservist will not have permission to work or remain in the UK unless they have a valid civilian UK visa”. The Reserve parent unit should also conduct the annual right to work check prior to the Reservist resuming their Reserve training, in accordance with Para 1928.
1928. **Unit Responsibility – Reservists Annual Right to Work Checks.**

Units have a statutory requirement to conduct and record annual right to work document checks of their Non-UK Reserve personnel who are subject to immigration control. To ensure that a right to work remains extant, these checks should be carried out prior to the start of each training year. For further government advice see the Right to Work Checklist\(^{21}\) and for Unit actions see 2014DIN01-181 Employment of Foreign and Commonwealth Reserve Service Personnel\(^{22}\) and the Guide to Supporting Commonwealth and Non-UK Service Personnel and Non-UK Families of Serving Personnel (Para 1910).

1929. **Incorrect Immigration Exemption.**

If a Non-UK Reservist is found to have an ‘exempt immigration endorsement’ as a result of previous regular or mobilised service, the unit must inform UKVI in accordance with Para 5465, stating that the Reservist has previously had their regular service terminated or that they have been demobilised from Reserve service. The Reservist must be informed that they are not exempt from immigration control and must regularise their immigration status in accordance with the regulations at Footnote 21 and the Guide to Supporting Commonwealth and Non-UK Service Personnel and Non-UK Families of Serving Personnel (Para 1910).

1930. **Reserve Training Overseas.**

When there is a requirement for Non-UK Reservists to train overseas, the unit must check whether a NATO Travel Order\(^{23}\) or additional visa is required by contacting Defence Travel\(^{24}\) for advice. The requirements to obtain visas for official duty are constantly changing and this list is frequently updated. If there is any doubt, then contact should be made with DSCOM Visa Section (Tel Mil 9621 84366). For guidance on payment for official visas refer to JSP 752 Chapter 9 Section 13\(^{25}\). Units are not to apply for ‘exempt immigration control’ for training reasons.

1931. **Individual Responsibility.**

Units are to remind the Non-UK Reservist that it is their responsibility to report any changes to their immigration status that affects a right to work to the UPO/HR Admin staff. It is an individual’s personal responsibility to regularise their immigration status after demobilisation and before commencing any further Reserve training.

1932. **Reserve Family Entitlement.**

There are no provisions within the immigration rules for the dependant of a Non-UK Reservist to enter or remain in the UK based solely on their sponsor’s Reserve service\(^{26}\). This includes family members of those who have been mobilised or are on FTRS. The unit should ensure that the Reservist is aware of the implications for family members and dependants.

\(^{24}\) http://defenceintranet.dif.r.mil.uk/organisations/Orgs/HOCS/Organisations/Orgs/DGTC/ModCommercial/Pages/BookingTravel.aspx

1933. Changes to Reserve Immigration Status.
When a Non-UK Reservist is issued an exempt vignette for mobilised service, the status of their dependants does not change. Their dependants will remain on the immigration conditions for which they were given leave to enter or remain in the UK. If a Reservist is granted 28 days’ leave outside the rules as they no longer hold valid leave on return from mobilisation, their dependants are not entitled to be considered simultaneously.

Reserve units or individuals should not write official letters on headed paper to UKVI in support of a Reservist’s application to change their immigration status due to a change in their civilian circumstances. Regular or Reserve personnel should not attend any subsequent inquiries in an official capacity; this includes appearing in uniform at a hearing to give expert advice on Reserve service or at any tribunal or court case dealing with a Reservist’s civilian immigration issue.

The Home Office is to be informed of changes in the personal circumstances of Commonwealth or Non-UK Naval Reserve personnel. It is the unit’s responsibility to inform UKVI of the following occurrences, using Annex 54H:

a. Demobilisation. When a Non-UK Naval Reservist has demobilised.

b. Termination of Service. When a Non-UK Naval Reservist’s service has been terminated.

ANNEX 19A

ROYAL NAVY REQUEST FOR AN ‘EXEMPT UK IMMIGRATION’ CONTROL ENDORSEMENT FOR REGULAR COMMONWEALTH OR NON-UK NAVAL SERVICE PERSON

1. **Maintaining Immigration Status – Regular.** When a Non-UK passport holder has been accepted into Regular service or has a Country of Origin passport renewed during Regular service, the UPO/HR Admin Office is responsible for carrying out the following actions:

   a. Send the Non-UK passport with a covering letter by registered mail and enclose 2 x passport style photographs no more than 3 months old with the name of the individual written on the back of each (expenses may be recovered in accordance with JSP 752).

   b. Prior to dispatch the unit must issue the individual with a copy of their passport personal page and any valid visa pages, explain and give the individual a personal copy of Appendix 1: Immigration Conditions During Regular Service and Termination of Service.

   c. The Armed Forces Team at UKVI will insert the ‘exempt’ immigration endorsement into the passport and confirm the conditions of issue in writing to the individual.

   d. A covering letter should be sent to UKVI on Unit headed paper addressed as below and contain the following information:
Dear Sir/Madam,

ROYAL NAVY REQUEST FOR AN ‘EXEMPT UK IMMIGRATION’ CONTROL ENDORSEMENT FOR REGULAR COMMONWEALTH OR NON-UK NAVAL SERVICE SERVING PERSONNEL

Paragraphs do not need numbering.

I am the Unit HR Administrative Officer of (insert unit) responsible for Non-UK Exemption from Immigration Control applications.

I can confirm that (insert service number, rank/rate, full name, DoB and nationality) enlisted as a Regular Naval Service person in the Royal Navy/Royal Marines on (insert start date). Having enlisted in the Royal Navy/Royal Marines as a Regular, the above-named individual is exempt UK Immigration Control under Section 8(4)(a) of the Immigration Act 1971.

I have enclosed the individual’s Country of Origin Passport (Passport Number) and 2 x Passport photographs with the individual’s name on the back of each and request that UKVI insert an ‘exempt’ from immigration control endorsement (vignette) and inform the individual of the conditions of issue.

Please do not hesitate to contact me if you require any additional information.

Signed

Name
Rank/Rate/Position
Job Title, if not included in Unit Letter Template.
For Commanding Officer

Enclosures:

1. (Insert) Naval Service Person’s Full Name (Insert Nationality) Passport (Insert Serial Number).
2. 2 x Passport Photographs with individual’s name on the back.
APPENDIX 1 TO ANNEX 19A

IMMIGRATION CONDITIONS DURING REGULAR SERVICE AND TERMINATION OF SERVICE

Copy to be provided to Non-UK Naval Service Person for their Records

1. **Regular Service.** Your passport has been forwarded to UK Visas and Immigration (UKVI) in order for it to be endorsed with an Exempt UK Immigration Control vignette. UKVI will write to you to confirm the conditions of your exempt status. As a Non-UK citizen currently serving in HM Forces you will be exempt from immigration control under section 8(4)(a) of the Immigration Act 1971 until your service is terminated or you naturalise as a British citizen. **Your exemption does not extend to your family dependants.**

2. **Exempt Immigration Control Travel.**

   a. Your immigration exemption only allows you to travel to the UK; it is not valid for travel to other countries, if you undertake personal travel you must ensure you meet the visa requirements of the countries to which you are travelling and those you pass through in transit. The authorities in the country or territory to which you are travelling are responsible for setting and enforcing the rules for entry. If you are unclear about any aspect of the entry requirements, or need further reassurance, you will need to contact the embassy, high commission or consulate of the country or territory to which you are travelling. You should also consider checking with your transport provider or travel company to make sure that your passport and other travel documents meet their requirements. Generally, your passport should be valid for a minimum period of 6 months from date of entering the country you are visiting.

   b. If you are required to travel for MOD official purposes your UPO/unit administration office will contact Defence Travel to determine which type of visa you require and will assist you with obtaining that visa prior to travel. The office will also assist you in reclaiming any expenses incurred in obtaining the visa.

3. **Passport Renewal.** When you are required to renew your passport, you must report to the UPO/unit administration office with your new passport in order that the 'exempt immigration control' status may be transferred to your new passport.
4. Establishing a Family Life.

a. If your spouse/legal partner and children are Non-UK citizens and you wish them to join you, they may be subject to immigration control. This means that they must apply for a settlement entry visa through UKVI using a HM Forces Application Form VAF AF¹. **The Royal Navy has no liability to pay for visa or travel expenses for your family.** The settlement entry visa cost changes every April and is in excess of £1,500. Current visa fees may be found at the link below². If your spouse/partner is not a national of a predominately English-speaking country, then they may be required to be A1 (fluent in) English. **You may have to serve in the Royal Navy for several years before you reach the required salary to meet the income requirement to establish a family life.** The Home Office has a Minimum Income Requirement that you must meet for spouses/partners and children to legally enter the UK, the amount of money you must prove you are earning to apply for entry depends on whether you have dependent children and, if so, how many. You will also be required to complete the Financial Requirement Form (Appendix 2 to VAF AF) which may be found at the link below³. The required annual income before tax (also known as the gross income) is set out at the link below⁴. This may be topped up with savings.

For example: if you are applying for a partner to come to the UK you must have a combined income of at least £18,600. You will need to earn an additional £3,800 for your first child and £2,400 for each subsequent child.

b. If you are successful you will receive a Biometric Residence Permit (BRP) and be placed on a 5-year route to settlement based on your Royal Navy Service under the Immigration Rules Appendix Armed Forces⁵.

5. Termination of Service.

a. When you reach your termination of service it is your personal responsibility to inform the UK Home Office as soon as possible. Your discharging/releasing Unit will also inform the Home Office of your impending termination of service. **It is then your responsibility to regularise your own UK immigration status, and that of your family.** You can begin this process up to 10 weeks prior to your termination of service (final date of paid service), at your expense; if you choose to do this you should take action as soon as possible. **Your 'exempt immigration control' status will cease on the date of termination of service.** If, after termination, you remain in this country without a valid settlement status you will not be entitled to work, or have access to local authority housing, benefits or any other form of public funding. Even if your passport has an exemption stamp, the UKVI will have recorded you as having left the Armed Forces. This will also appear when any prospective employer conducts a statutory right to work check. It may also affect any future application to remain in the UK.

---

⁴ [https://www.gov.uk/uk-family-visa/proof-income](https://www.gov.uk/uk-family-visa/proof-income)
b. You are strongly advised to start saving money from the date of your enlistment in the Naval Service to meet family entry visa costs and future settlement visa costs both for you and your family. This can be achieved in a number of ways, including through an Armed Forces Credit Union. See 2019DIN08-010 Credit Union Services – Access for Armed Forces Personnel and former Personnel in receipt of an Armed Forces Pension.
ANNEX 19B

ROYAL NAVY LETTER OF CONFIRMATION OF A SPONSORING NAVAL SERVICE PERSON’S DETAILS FOR HM FORCES VAF AF APPLICATION

(Letter of confirmation of sponsor’s details to be submitted with spouse/partner’s application for an entry visa to the UK – NOT TO BE USED TO SPONSOR A VISITOR VISA)

1. A covering letter should be sent to UKVI on Unit headed paper addressed as below and contain the following information:
For the Attention of:
The Entry Clearance Officer
British High Commission (BHC)
(Insert Country of application address) Date

Dear Sir/Madam,

ROYAL NAVY LETTER OF CONFIRMATION OF SPONSORING NAVAL SERVICE PERSON

Paragraphs do not need numbering.

Sponsoring Service Person Details:
Surname  Forenames  Service Number  Nationality

Entitled Armed Forces Family Members Leave to Enter Visa applications for:

(Insert all named applicants)
Surname  Forenames  Date of Birth  Nationality and Relationship to Marine/Sailor

I am the Unit Administration Officer of (insert unit name). Under Appendix Armed Forces, the sponsoring Service Person above has requested a Royal Navy letter to confirm the above-named sponsoring service person’s details in respect of sponsorship of a UK Leave to Enter Visa application\(^1\) for those entitled family members listed above.

The above named service person is currently serving in the United Kingdom\(^2\) and I can confirm that as a condition of the service the named serving person has been provided with/will be provided\(^*\) with suitable Service Family Accommodation to accommodate the family prior to their arrival in the United Kingdom (provide allocated SFA address if available or if a contact house is being used as an interim or use the full unit address).

Please do not hesitate to contact me if you require additional information.

Signed

Name
Rank/Rate/Position
Job Title, if not included in Unit Letter Template.
For Commanding Officer

---

\(^1\) This letter is not to be used to sponsor a visitor visa.
\(^2\) Overseas HQs should use an amended letter template.
ANNEX 19C

COMMONWEALTH AND NON-UK SERVICE PERSONNEL – ADDITIONAL TERMINATION OF SERVICE PROCEDURES TO BE PROVIDED TO UPO/UNIT HR ADMIN, CAREER MANAGERS AND THOSE WITH DISCHARGING RESPONSIBILITIES

1. The service of all Non-UK Naval Service personnel is terminated in accordance with the regulations at Para 5465. As soon as the individual is warned that their service is to be terminated the Career Manager, Unit Administration Officer and Releasing Unit must check the immigration status of the transitioning individual and entitled family members to determine if they can apply for settlement and calculate the costs involved. Those who have not regularised their immigration status should be briefed by their Career Manager and Divisional Officer at least 6 months prior to termination of service or as soon as notification of termination is received, with the following information:

   a. It is the Non-UK Naval Service person’s responsibility to apply for settlement, both for themself and their entitled family members, or to leave the country after termination of service. Applications are to be made on Home Office Form SET (AF)¹, in accordance with the Immigration Rules Appendix Armed Forces².

   b. All applicants must complete the Biometric Residence Permit (BRP) registration process³ in order for settlement to be granted.

   c. The effects of criminality or Service discipline offences on applications for Settlement or Citizenship have been incorporated into DIN 2013-01-130 (see also the Home Office publication ‘HM Forces: Criminality’⁴). Applicants for settlement or naturalisation must declare all criminal convictions (spent or unspent) on their application forms. If in doubt, individuals with criminal convictions should seek qualified immigration advice before applying for settlement.

   d. On the day that a Non-UK Naval Service person’s service is terminated their ‘Exemption from UK Immigration Control’ is cancelled and they become subject to UK immigration control. UKVI will issue the individual with 28 days’ notice to regularise their immigration status only if it has been notified by the Unit or the individual being discharged.

   e. If an application is submitted after termination of service date but during the 28 days’ notice period, the individual may remain in the UK legally during the consideration process (with civilian status). Individuals will not have permission to work legally, or remain in the UK, even if their passport endorsement has not been physically cancelled by the unit on termination of service, since UKVI will have been notified to cancel the exempt status.

---

³ https://www.gov.uk/biometric-residence-permits
f. Termination of service normally takes place in the UK. Units terminating Non-UK Naval Service persons outside the UK must have authority from the overseas Command to do so. Once that authority has been granted, the Commanding Officer will notify the relevant Career Manager that the individual’s service will be terminated overseas. Units must advise Non-UK Naval Service personnel on housing and immigration implications and status (including for entitled family members) including any UK entry restrictions and issues if they decide to attempt to regularise immigration status overseas.

g. Where an early departure termination (Medical, Discipline, Administrative or Discharge Under Training) has been recommended for Non-UK Naval Service personnel, the unit managing the termination must take account of the UK immigration policies and time-lines for settlement application, and raise any concerns about the individual’s settlement, and implications for their entitled family members, to the Chain of Command as soon as possible. For overseas units this includes the timely return of the individual and entitled family members to the UK in order to prepare for termination, noting the policy for entitlement to occupy SFA in JSP 464.

h. Commonwealth and Non-UK Naval Service personnel whose service has been terminated and are settled in the UK are liable for the same Regular Reserve liability as their UK counterparts.

i. Commonwealth, Non-UK or Nepalese Service personnel who opt to leave the UK after termination of service have 24 months to apply for settlement (Indefinite Leave to Enter (ILE)) through their local UK Visa Application Centre.

2. Additional Unit Information in Support of Non-UK serving personnel

a. Termination after 4 years' Service. Inform individuals that, if they wish to regularise their immigration status, their applications should be submitted 10 weeks before their termination date or up to 6 months before a redundancy termination date. This will enable UKVI to grant settlement the day after termination (providing that the Immigration Rules are met).

b. Medical Discharge. Units who administer Commonwealth and Non-UK Naval Service personnel being considered for discharge on medical grounds must also take account of any additional vulnerability issues, especially if the individual has severe physical/mental disability, or if they are single and need additional family support that require support from the immigration authorities. Welfare casework should be raised well in advance of discharge, including any referral under the Veterans’ Welfare Service protocols. In all cases where the discharge is complex and requires immigration consideration, the casework team should engage with Naval Service Family and People Support (NS FPS), Naval Families Federation (NFF) and the Seafarers’ Advice and Information Line (SAIL) who will raise a referral to the appropriate authorities and Naval Charities both for immigration and eligibility for welfare support.

5 https://www.gov.uk/government/collections/veterans-welfare-service-protocols
c. **Medical Discharge - Less than 4 Years’ Service.** Where a Non-UK Naval Service person is medically discharged with less than 4 years’ service, UKVI will consider settlement applications where the medical discharge is due to injuries sustained during operations or whilst on training. When medical discharge occurs for other reasons, with less than 4 years’ service, the Non-UK Service person may still be able to apply for settlement. In both cases individuals will need to submit supporting medical evidence to UKVI and, if required, may need to seek immigration advice from an authority accredited by the Office of the Immigrations Services Commissioner (OISC). Extensions to discharge dates are not given for immigration reasons.

d. **Other Forms of Termination of Service with Less than 4 Years’ Service.** There is no discretion within the rules for settlement to be granted to those terminating with less than 4 years’ service. Units should advise Non-UK Naval Service persons to seek OISC qualified immigration advice before they submit an application to UKVI for leave to remain (‘outside the rules’). On the day of termination, the unit should receive a 28-day notice letter by fax from UKVI. Those individuals who have not regularised their immigration status may apply for further Leave to Remain; otherwise they will be expected to leave the country.

e. **Warning UKVI of Termination of Service.** Units are to give UKVI warning of the date of termination from the Armed Forces by completing the additional policy in accordance with Para 5465. Annex 54H is be completed prior to termination day and sent to UKVI. On receipt of Part A, UKVI will issue a receipt to the unit and a notice to those personnel who have not regularised their immigration status (separate letters are provided for dependants). On the final day of service, the unit must complete Part B of Annex 54H, ensuring that both the individual and unit sign the declaration to UKVI.

f. **Indicative Letter.** Once UKVI receives, checks and assesses a settlement application, it may issue an indicative letter\(^6\). This letter is to assist the individual in planning for future employment, housing, healthcare and benefits as part of the transition to civilian life\(^7\). Where an indicative letter has been issued and is not accepted by providers during transition, the individual should raise the issue with their unit, which should contact NS FPS, NFF and SAIL with details of those providers who have not accepted the letter.

2. **Day of Termination**

a. On receipt of the completed Part A, notice is normally 28 days and will be issued effective from the planned date of termination. However, in practice if the date of termination is imminent then UKVI will normally withhold notice until Annex 54H is also received.

b. If the Non-UK Naval Service person has not applied to regularise their immigration status by their date of termination, then UKVI will send the unit a fax/email/letter giving the individual a 28-day notice letter to regularise their immigration status or leave the country. When the email/letter is received, the unit should give one copy direct to the individual and confirm receipt by signature of both the individual and the Discharging Unit. The signed copy is then to be sent back to UKVI.

---

\(^6\) The Home Office can only issue an ‘Indicative Letter’ if it receives the application in good time (10 weeks prior to discharge).

\(^7\) The ‘Indicative Letter’ is not a guarantee of settlement.
3. **Custodial Sentence Family Support.** When a Non-UK Naval Service person has received a custodial sentence that will lead to dismissal and termination, the supporting unit must immediately engage with the individual’s family. There may be issues of entitlement to SFA and/or Family Maintenance Grant and, if overseas, immigration issues on repatriation to the UK. Further immigration advice should be sought from CNLS, NS FPS, NFF and SAIL.

4. **Termination Prior to or After Custodial Sentence.** Before an individual’s service is terminated prior to or after a custodial sentence, the terminating unit must consider any welfare, financial or immigration issues that will impact on the family. When service is terminated under these conditions UKVI must be informed using Annex 54H.
ANNEX 19D

ROYAL NAVY REQUEST FOR AN ‘EXEMPT UK IMMIGRATION’ CONTROL ENDORSEMENT OF ROYAL NAVAL RESERVE SERVICE PERSON FOR MOBILISATION

1. When a Non-UK passport holder (with a right to work visa) in the Royal Naval Reserve has been selected for mobilisation the employing unit must take the following actions:

   a. Send by the Non-UK passport with a covering letter by registered mail below and enclose 2 x passport style photographs no more than 3 months old with the name of the individual written on the back of each (expenses may be recovered in accordance with JSP 752).

   b. Prior to despatch the unit must issue the Reservist with a copy of their passport personal page and any visa pages, explain and give the individual a personal copy of Appendix 1: Immigration Conditions for Reserve Mobilisation Service and Demobilisation.

   c. The Armed Forces team at UKVI will insert the ‘exempt’ immigration endorsement into the passport and confirm the conditions of issue in writing to the individual.

   d. A covering letter should be sent to UKVI on Unit headed paper addressed as below, containing the following information:
Dear Sir/Madam,

ROYAL NAVY REQUEST FOR AN ‘EXEMPT UK IMMIGRATION’ CONTROL ENDORSEMENT FOR ROYAL NAVAL RESERVE SERVING PERSONNEL MOBILISED

I am the Unit HR Administrative Officer of (insert unit) responsible for Non-UK Exemption from Immigration Control applications.

I can confirm that (Insert service number, rank/rate, full name, DoB and nationality) enlisted as a Reservist in the Royal Naval Reserve on (Insert mobilisation start date). Having enlisted in the Royal Naval Reserve the above-named service person is exempt UK Immigration Control under Section 8(4)(a) of the Immigration Act 1971 for the duration of the period of mobilised service.

I have enclosed the individual’s Country of Origin Passport (Passport Number) and 2 x Passport photographs with the individual’s name on the back of each and request that UKVI insert an ‘exempt’ from immigration control endorsement (vignette) and inform the individual of the conditions of issue.

The individual’s unit will inform you when the above-named reservist demobilises from the Royal Naval Reserve. Please do not hesitate to contact me if you require any additional information.

Signed

Name
Rank/Rate/Position
Job Title, if not included in Unit Letter Template.
For Commanding Officer

Enclosures:

1. (Insert) Reservist’s Full Name (Insert Nationality) Passport (Insert Serial Number).
2. 2 x Passport Photographs with Reservist’s name on the back.
APPENDIX 1 TO ANNEX 19D

IMMIGRATION CONDITIONS FOR RESERVE MOBILISATION SERVICE AND
DEMOBILISATION INFORMATION FOR THE RESERVIST

1. Immigration Control Mobilised Service
   As a member of the Royal Naval Reserve you must have a valid visa which allows you
to work and reside in the UK for the duration of your mobilised service. If you have a valid
visa, your passport will be stamped with an exemption from immigration control under section
8(4)(a) of the Immigration Act 1971. The exemption lasts only for the duration of mobilised
service with the Royal Navy.

2. Immigration Status Demobilisation
   When you are demobilised, you must contact UK Visas and Immigration (UKVI) to
inform them of your demobilisation. MTMC or your demobilising unit will also inform UKVI of
your demobilisation in accordance with Para 5465. Prior to your mobilisation you had an
immigration status and you will resume that immigration status automatically; you do not need
to make another application providing that your immigration status remains in-date and valid.
If you do not contact UKVI when you are demobilised, and you attempt to remain in the
UK without permission, you may become liable to removal.

3. Immigration Status – Civilian
   Once your exemption has been cancelled, if your visa has lapsed you will require
permission to remain in the UK and will normally be given 28 days to regularise your
immigration status or leave the country. Even if your mobilisation passport stamp remains in
your passport, it will have been cancelled by UKVI and you will not have permission to work
or remain in the UK. If you are in doubt your unit HR staff can explain this Appendix and
direct you to qualified sources of immigration advice (eg. Naval Service Family and People
Support (NS FPS), Naval Families Federation (NFF) and Seafarers’ Advice and Information
Line (SAIL).

4. Right to Work Checks
   If you remain subject to immigration control, your unit has a statutory requirement to
conduct and record right to work document checks on you. Your unit will check this before
you resume your reserve training. This check will be carried out prior to the start of each
training year to ensure that you continue to have a valid right to work. If during a right to
work check it is found that you have an ‘exempt immigration endorsement’ remaining in force
from a previous mobilisation, your unit will seek advice from UKVI regarding your immigration
status.

5. Termination of Service
   If, due to a lack of right to live and work in the UK status, your service is terminated,
you must inform UKVI of your termination. The terminating unit will also inform UKVI. As
Reserve service is classed as secondary employment, it does not entitle you to settle in the
UK under Immigration Rules Appendix Armed Forces. Even if your passport has a mobilised
service exemption stamp, the UKVI will have recorded you as having left the Armed Forces.
This will also appear when any prospective future employer conducts a statutory right to work
check.

SECTION 1 – GENERAL

2001. Why Discipline Matters

a. The values and standards of the Royal Navy are established, upheld and sustained by an amalgam of leadership by example, education and training, and by regulation through the Royal Navy’s discipline system. Discipline is founded in the doctrine of command which places the responsibility for maintaining discipline on commanders. In order to fulfil their disciplinary responsibilities, commanders are granted appropriate authority. Most professions and organisations have regulatory or disciplinary codes. For the Royal Navy, Commanding Officers (COs) are granted statutory powers under the Armed Forces Act 2006, including the authority to issue lawful commands, in order to support their disciplinary role. One of the objects of military law is to provide for the maintenance of good order and discipline among members of the Services and, in certain circumstances, among others who live or work in a military environment. This it does by supplementing the ordinary criminal law of England and Wales with a special code of discipline and a special system for enforcing it. Such special provision is necessary in order to maintain, in time of peace as well as war, and overseas as well as at home, the operational efficiency of an armed force. It is for this reason that acts or omissions which in civil life may amount to no more than breaches of contract (like failing to attend work) or indeed mere rudeness (like being offensive to a superior), become in the context of Service life punishable offences.

b. Discipline is one of the Royal Navy’s Six Core Values:

The Naval Service must be a disciplined service if it is to be effective. We must therefore obey all lawful orders from our superiors. Self-discipline is fundamental; being able to discipline ourselves will earn us the respect and trust of others, and equip us to cope with difficult, individual decisions we will have to make during our service.
c. Discipline in the Naval Service is underpinned through:

(1) **Formal Disciplinary Action.** Action taken to uphold good order and Service discipline using statutory powers.

and

(2) **Administrative Action.** Action taken to rehabilitate, censure or initiate sanctions to correct professional or personal failings.

d. The fundamental purpose of the disciplinary and administrative processes is to foster and promote the discipline and behaviour required for the maintenance of operational effectiveness.
SECTION 2 – DISCIPLINE POLICY, GOVERNANCE AND CHAIN OF COMMAND

2002. Governance
Governance of discipline and related legal matters in the Armed Forces is the province of the Service Justice Board (SJB). This sits at the head of the Service Justice System and comprises uniformed, MOD civilian, and other governmental, legal and judicial authorities with a shared and vested interest in the maintenance of discipline in the Armed Forces in direct support of the Moral Component of Operational Capability. The Service Justice Executive Group (SJEG) transacts routine Service discipline and other legal business in support of the SJB.

2003. Discipline Policy
a. The generation, articulation, correlation and implementation of Discipline Policy for the Naval Service is the responsibility of Commodore Naval Legal Services, drawing on executive input from other NCHQ directorates and Naval Service commands as required. Broad legal policy for the Naval Service is contained within References A to G in addition to this Chapter of BR 3.

b. Of note, the Armed Forces Act 2006 (AFA 06) replaced the single Service Discipline Acts in Oct 09 and is now the single, primary, statutory base (complemented by approximately 80 pieces of secondary legislation) for the disciplinary regime in force for members of the Armed Forces, including reservists and former members, as well as civilians or other individuals whose professional, geographic or familial links to the Armed Forces confer certain status and jurisdiction.

2004. Jurisdiction
The Armed Forces Act 2006 applies to all regular Service personnel, wherever they are in the world at all times and to Reservists at certain times. Certain civilians may also be subject to the Act at certain times and in certain locations. Detailed guidance is contained in Chapter 3 to JSP 830 Manual of Service Law (the MSL).

2005. Processes
Disciplinary processes are set out primarily within the MSL and this Chapter. See also FLAGO Chapter 16.
2006. Authority
The authority for the investigation, bringing of charges, summary hearing or Court Martial is set out in AFA 06, QRRN and this Chapter.

2007. Service Law Harmonisation
AFA 06 harmonised Service law and provides a tri-Service system that is designed to ensure consistency and parity when dealing with personnel, regardless of their Service. The increasing trend towards joint operations and joint defence organisations means that operational effectiveness is more efficiently supported by this single system of Service law.

a. Summary Discipline. Summary Hearings and the role of the CO are at the heart of Service discipline and remain the mechanism by which most offences are addressed. Summary offences and powers are harmonised across the Services. Personnel of one Service of the UK Armed Forces who serve in or with one of the other Services of the UK Armed Forces may come under the jurisdiction of the CO of the unit in which they serve or are attached. Similarly, Naval Service personnel serving in Joint organisations come under the jurisdiction of the CO of that unit or formation. All personnel dealt with at Summary Hearing have the right to appeal to the Summary Appeal Court.

b. Service Prosecuting Authority. There is a single independent Service Prosecuting Authority (SPA), staffed in part by lawyers from all three Services, and headed by a civilian Director. The SPA determines whether or not to prosecute those who are alleged to have committed offences contrary to Service law where cases are referred to it by the Service Police, the CO or on election by the accused, and the SPA conducts the prosecution in the Court Martial.

c. The Court Martial. The Court Martial is available to deal with the most serious offences or where the accused elects for trial by Court Martial. The Court comprises a Judge Advocate and a minimum of 3 or 5 Service members, depending on the seriousness of the offence. The unqualified right for all personnel to elect for trial by Court Martial regardless of the seriousness of the offence remains a fundamental tenet of the Service Justice System.
SECTION 3 - NAVAL SERVICE HIGHER AUTHORITIES, DISCIPLINE CHAINS OF COMMAND AND SOURCES OF LEGAL ADVICE

2008. Organisation

a. The CO is central to the Service discipline system – and is responsible for the effective administration of discipline at unit level. AFA 06 requires the CO to seek Higher Authority permission before exercising certain functions (in essence, for permission to hear certain specified charges, or to be granted ‘extended powers’ to award certain punishments).

b. In general terms, powers of summary discipline is vested in officers who are COs of units (meaning ships or establishments) or appointed as the ‘Commanding Officer’ of a body of service personnel. AFA06 also empowers ‘Subordinate Commanders’ who may exercise powers of summary discipline under the authority of the CO.

c. Naval Service policy requires that those who exercise powers of summary discipline are authorised in advance (either as COs of ships or establishments, or as otherwise authorised) – and that the relationship between subordinate commander, Commanding Officer and Higher Authority is approved.

d. AFA 06 defines a Higher Authority (HA) as any officer in the CO’s disciplinary chain of command who is superior in that chain of command to the CO. Within the Naval Service, those appointments in which officers may act as HAs for discipline purposes are as follows:

- Fleet Commander and Deputy Chief of Naval Staff
- Second Sea Lord
- Assistant Chief of Naval Staff (Support)
- Assistant Chief of Naval Staff Capability
- Assistant Chief of Naval Staff (Aviation, Amphibious Capability and Carriers)
- Assistant Chief of Naval Staff (Personnel) and Naval Secretary and Flag Officer Reserves
- Commander Operations
- Assistant Chief of Naval Staff (Submarines) and FOSNI
- Assistant Chief of Naval Staff (Ships)
- Assistant Chief of Naval Staff (Policy)
- Flag Officer Sea Training and Assistant Chief of Naval Staff (Training)
- Commandant General Royal Marines
- Commander Regional Forces
- Commander British Forces Gibraltar
- United Kingdom Maritime Component Commander Bahrain
- Commodore Portsmouth Flotilla
- Commodore Devonport Flotilla
- Commodore Faslane Flotilla
- Naval Base Commanders: Portsmouth, Devonport and Clyde
- Assistant Chief of Staff Training
- Assistant Chief of Staff Medical
- Commander Core Training
- Commodore Operational Training
e. The Naval Service disciplinary chain of command is set out in the table at Table 20-1. This reflects wherever possible the administrative and operational chains.

f. Where HA authority is required, COs are to apply to the HA specified in the table, unless the HA is unavailable or directed to do otherwise by that HA.

g. Reference B Chapter 9 and this chapter give detailed instructions for making applications to HA for disciplinary matters.

h. Legal advice to COs and HA is available from the appropriate Legal Adviser listed in Table 20-2 below.

2009. **Meaning of ‘Commanding Officer’**

a. The CO is central to the functioning of AFA 06. Under the Act he or she is responsible for making key decisions throughout the whole of the disciplinary process, including (as applicable) authorising custody, bringing a charge, hearing a charge summarily or referring a case to the SPA for trial by Court Martial. Under the Armed Forces Code of Practice for Victims of Crime 2015 as outlined at Annex 20K, the CO also has responsibilities in relation to certain complainants.

b. In most circumstances the identity of the CO will be readily apparent and will be the officer appointed in command of the ship, unit or establishment in which an individual is serving. The Armed Forces (Meaning of ‘Commanding Officer’) Regulations (‘the meaning of CO Regulations’) specifies that a person must be appointed ‘in command’ of a unit, ship, establishment, and if any doubt arises over the authority of an individual to act as a CO for discipline purposes, the appropriate Career Manager and JPA record should be consulted (see also Chapter 59 and the Annexes thereto). Where doubt remains, the matter should be referred to CNLS SO1 Discipline Law.

c. Regulation 3 of the Meaning of CO Regulations also allows the appointment of other officers to be the CO for purposes under the Act, such as exercising disciplinary functions. Such ‘regulation 3’ or ‘bespoke CO’ appointments may be made in circumstances where the normal CO is unavailable, such as when elements of a unit are on detached duty, or when it would be inappropriate for the normal CO to exercise disciplinary functions. An example of the latter would be when a number of individuals from different units are accused of joint offending which may be appropriately dealt with by Summary Hearing. Rather than holding several separate summary hearings, one CO can be nominated under regulation 3 to hold a single hearing.
d. The Defence Council has authorised Naval Service officers of 1* rank or above and Captain Faslane Flotilla to appoint officers for regulation 3 purposes with respect to personnel within their chain of command. In determining the chain of command, Table 20-1 should be consulted. Where it is necessary to make such an appointment for a large number of individuals across a range of commands, ACNS Personnel/Naval Secretary will normally be the most appropriate officer to make such appointments. Legal advice should be sought.

e. It should be noted that regulation 3 “bespoke CO” appointments carry no authority broader than that which is contained in the appointment itself. Thus, where the appointment is made for ‘disciplinary purposes’, the officer so appointed has the full powers that the original parent CO would have had to authorise custody or bring charges etc. but they do not have powers in relation to other non-disciplinary matters (for example, the handling of Service Complaints) which remain the responsibility of the parent CO). Similarly, the appointment relates only to matters regulated under AFA 06. It does not convey any authority in relation to matters not regulated by the Act, such as the disposition of forces or the conduct of operations.

f. Wherever practical before exercising a function likely to have a significant impact on an individual (eg. awarding a sentence of detention or reduction in rank) a regulation 3 CO should normally consult the parent unit CO. The decision remains, however, that of the regulation 3 CO.

2010. Personnel Embarked in RFA Vessels

a. Royal Fleet Auxiliaries. Naval Service personnel embarked in RFA vessels remain subject to AFA 06 at all times and are not subject to the RFA’s own disciplinary or administrative procedures. Key to the successful integration of Naval personnel into a RFA vessel is the maintenance of the highest professional standards and a culture of mutual respect and trust. There have been occasional cases where this respect and trust has been undermined by a perception that the Service Justice System is slow and unresponsive; this has been particularly so where cases have to be referred to parent units for decisions and authorisations. To avoid delay, units should consider the appointment, whenever practicable, of a temporary CO in accordance with the provisions of regulation 3 of the Armed Forces (Meaning of “Commanding Officer”) Regulations (see Para 2009 above). The appropriateness of such an appointment will vary according to the type and number of personnel embarked and the length of the deployment. For example, there may be little utility in appointing a regulation 3 CO where only a few individuals are embarked for a two-week exercise, but more benefit to be gained when a large number are drawn from disparate units for a prolonged deployment. Any regulation 3 CO appointed may only exercise his or her powers in relation to those under his or her command and has no authority over the vessel or its RFA crew.
b. Whether a regulation 3 CO is appointed or not, the senior officer of embarked Naval Service personnel is responsible for ensuring that all those subordinate to them comply with the orders and directions of the ship’s Commanding Officer. The CO of a RFA vessel remains ultimately responsible for the safety of the ship and personnel onboard and retains the right to have any individual removed from the vessel in order to ensure the safety of the ship. BRd 875 0122 gives guidance to RFA COs on the circumstances in which they can exercise their right to remove embarked Naval Service personnel and the procedure to be followed, including the requirement to consult DACOS RFA Personnel Ops SO1 and the Regional Legal Office.

c. The RFA alcohol testing policy does not apply to embarked Naval Service personnel. Whilst it is not unlawful to require embarked personnel to comply with RFA breath testing, this should only be used as a last resort, where existing AFA 06 disciplinary provisions - s.20 (drunkenness) and s.20A (exceeding prescribed limits) – are not practicable.

2011. Embarked Army, RAF and Royal Marines Units

a. The MSL Chapter 2, paragraph 22 provides that, as a general rule, when Army and RAF personnel are embarked in HM Ships they are subject to the exclusive jurisdiction of the CO of the ship. It also provides that, when a ‘formed unit’ of the Army or RAF is embarked, the default position is that the CO of that ship (or ships if the embarked unit is dispersed across a number of vessels) will exercise disciplinary powers over the unit unless prior notification has been given by HQ Land Forces or Air Command, in which case the COs of the Army and RAF formed units may retain their full disciplinary powers when embarked. This special arrangement for formed units is subject to the caveat that the CO of the ship may take jurisdiction in any case where an alleged offence committed by one of the embarked personnel affects the operational efficiency of the ship or the incident occurs overseas where the sovereign immunity of the ship is an operative factor.

b. Although not specifically mentioned in the MSL, the above policy applies in relation to embarked RM personnel. Where RM personnel are embarked as singletons or sub-units in warships (including those units which form part of the Ship’s Company, eg. the Assault Squadrons embarked in amphibious shipping or a FSRT in FF/DDs) the CO of the ship will be their CO for disciplinary purposes, although they may delegate subordinate commander powers to, for example, OCRM. Where RM units embark as formed units (ie. units which have their own COs) the unit CO retains their disciplinary powers, subject to the CO of the ship (or ships) having the discretionary right to take jurisdiction over those matters outlined in sub-para a above. This aligns RM units with embarked Army and RAF units. While formal notice in writing will not be required for RM units (unlike the other Services) COMOPS is to be informed of any RM CO’s declared intent to exercise retained disciplinary powers eg. at pre-embarkation conferences.

**Notes:**

1. The disciplinary powers of sub-commanders are not inherent in their appointments. These powers must be specifically delegated – in writing - by the CO and the exercise of those powers by sub-commanders will remain subject to certain limitations (see the MSL Chapter 6).

2. A SNO does not automatically acquire powers as CO but may be appointed as CO for disciplinary purposes under ‘regulation 3’ (see Para 2009).

3. Where the nominated 1* or 2* Higher Authority is unavailable, another Higher Authority from the list at Para 2008 may act in lieu.

4. In accordance with 2018DIN01-073 (see the MSL Chapter 44), disciplinary responsibility for joint units is divided between the three Services. Lodger dental and medical units will fall under the disciplinary chain of their host units.

5. Special arrangements apply to Army Air Corps units located within Naval Air Stations – COs should seek legal advice.

6. Special arrangements apply to lodger sub-units (see the MSL Chapter 2 for definition) within Naval Establishments eg. Submarine School and Board and Search School at HMS RALEIGH. Refer to relevant local memoranda and seek legal advice as required.

SECTION 4 – DISCIPLINARY AND ADMINISTRATIVE ACTION

2012. Discipline and Administrative Action – the Distinction

a. Separate to, but running in parallel with, the formal disciplinary system, there exists a range of administrative measures and sanctions that can be used to deal with personal or professional failings or minor indiscipline. Guidance on the administrative sanctions which may be imposed following a minor, serious or gross security breach committed by Royal Naval or Royal Marines personnel is outlined at Annex 20P.

b. The distinction between disciplinary action and administrative action is an important one. As a general rule, disciplinary action should be used where an offence is suspected which is wholly deserving of the consequences of the application of Service law and where an individual should, if convicted, expect to be punished. Administrative action – which is intended to address professional and personal shortcomings – should be used where it is clear that criminal and/or disciplinary measures are not necessary, appropriate or desirable. Any administrative sanction must be proportionate to the professional failing and must seek to correct the shortcoming, rather than punish the individual. However, while distinct, the two forms of action are not mutually exclusive; ‘upholding good order and Service discipline’ and ‘correcting personal or professional failings’ may cover the same, central ground and, typically, disciplinary action may be appropriate where (eg. minor) administrative action has patently failed for personal shortcomings such as lateness or slackness.

c. The availability of an administrative action regime does not preclude the Command from proceeding directly to disciplinary action where that is considered to be the more appropriate course. Placing an individual under warnings for discharge or reversion (as applicable) should always be considered where that person displays repeated indiscipline, even when administrative action alone has been used to seek to address the behaviour. Warnings may be particularly effective in dealing with persistent minor absence or minor but repeated negligence by an individual in the conduct of their duties. Where consideration is being given to administrative action other than warnings in the context of matters that are the subject of disciplinary proceedings, COs should normally wait for the conclusion of the Summary Hearing or Court Martial before deciding on administrative measures.

d. Minor Administrative Action (MAA) may not be taken in conjunction with disciplinary action for the same misdemeanour, but it may be appropriate where there is insufficient evidence to support a formal charge but there remains clear evidence of some other failing on the balance of probabilities. Similarly, some professional failings can be dealt with appropriately without recourse to disciplinary action, MAA or major administrative action. For example, minor transgressions can and should be corrected informally and immediately – often verbally.
2013. Deciding on Method of Investigation

a. **Generally.** The decision whether to have a matter investigated by RN Police (RNP)\(^1\), or through some other, formal, disciplinary investigation must be taken with care. In the event that an allegation or apparent shortcoming is amenable to MAA or other administrative disposal, an RNP investigation may not be required. COs should ensure that the authority to consider and use MAA is clearly understood within their unit. Superior officers (at every level) should be supported in their decision to use MAA, but they should be guided on when it will be appropriate to use it (and crucially, when it will not be) by the CO and the unit management. The process for deciding whether and how to use MAA is set out in JSP 833 Chapter 3 which should form the basis of unit orders and training. It should be noted that, under AFA 06, ‘prescribed circumstances’ or ‘Schedule 2’ offences **must** be reported to the RNP as a matter of law and regardless of whether the CO believes that administrative disposal would be more appropriate. Further guidance is contained within the MSL Chapter 6.

b. **Alleged Sexual Offences.** As a matter of law, COs must report all alleged sexual offences which are listed in Schedule 2 of the Armed Forces Act 2006 ("the Act"), or are committed in prescribed circumstances, to the RNP for investigation. Following an amendment to Schedule 2 in 2018, all bar one sexual offences (sexual activity in a public lavatory) are now listed in Schedule 2. For this one offence not listed, it is, nevertheless **RN policy that CO’s must also report this in the first instance to the RNP for investigation.** Thereafter, post any investigation and before taking any disciplinary or administrative action in respect of an alleged sexual offence (or deciding to take no action), the CO must seek legal advice.

---

\(^1\) The term RNP embodies the Royal Marines Police Troop (RMPT) and, for the purposes of this Chapter, RNP can also be read as ‘Service Police’.
SECTION 5 - MINOR ADMINISTRATIVE ACTION

2014. Introduction

a. Minor Administrative Action (MAA) gives the power to all Service personnel from Leading Hand upwards to award ‘minor sanctions’ to rectify minor professional and personal failings (eg. minor leave breaking, poor turnout, failure to comply with Standing Orders, failure to attend, etc). A similar but distinct system of Remedial Training is used in training establishments for the management of personnel during Phase 1 and 2 training, but this is distinguished from the MAA regime which applies in all units.

b. The tri-Service policy is contained in JSP 833 – Minor Administrative Action (Ref A). All ships, units and establishments are to follow JSP 833 for the guiding principles and administrative arrangements for MAA. This section provides single Service guidance to supplement the JSP.

2015. Aim

This Section aims to guide RN/RM COs in the application and administration of MAA within RN/RM units.

2016. Overview

a. MAA is part of the overall system for the maintenance of Service ethos and standards that encompasses everything from the immediate rebuke to minor and major administrative action, summary trial and Court Martial. The CO is central to the maintenance of discipline within his or her unit; he or she sets the standard that is essential for operational efficiency and timely justice.

b. This Section is designed to give COs a framework on which to write their own unit orders based on the context in which their unit operates.

2017. Whether to take Minor Administrative Action or Disciplinary Action

a. It will be up to COs to decide and define whether MAA or disciplinary action is the appropriate route to take depending on the circumstances; seagoing units will be operating different routines to shore establishments, which may in turn differ from air stations; while submarines operate differently to surface units, while units undergoing extended maintenance periods will adopt tailored working practices. Some guidance on the types of individual shortcoming, which might amount to a disciplinary offence but which could also be suitable for MAA, is at Para 2028 below. COs should also consider including a requirement that, where it is unclear whether MAA is an appropriate response, such cases should be referred to the Chain of Command.
b. Superior Officers (Leading Hands and above in the RN, LCpl and above in the RM) are able to use MAA instead of instigating formal disciplinary action to deal with minor professional and personal failings. MAA is never to be taken in conjunction with disciplinary action for the same misdemeanour or shortcoming. The freedom to choose to deal with a shortcoming through MAA as an alternative to disciplinary action persists only up to the point at which a person committing the personal or professional failing is charged in relation to that failing. The moment that a charge has been brought (ie. the accused has been served with a charge sheet and relevant supporting papers), then MAA is no longer an option for the Command.

c. However, MAA must not be confused with major administrative action. This description of administrative action (which includes, for example, discharge Shore or SNLR, reversion and warnings for these procedures etc), may - and often should - be taken in conjunction with disciplinary action. In addition, personal failings may be noted in appraisal reports in accordance with current guidance if necessary. If in doubt as to the potential combination of desired measures, legal advice should be sought.

d. Administrative action is intended to set straight professional or personal shortcomings and should not be used in response to matters which are clearly criminal in nature. The action taken should fit the failing, and be clearly designed to correct it. MAA policy has been developed to correct inefficiency, unacceptable behaviour and minor misconduct. This supports all levels of leadership, particularly at lower levels, by ensuring that personnel are empowered to take the most appropriate action and to prevent any temptation to take unofficial 'punitive' action.

2018. Minor Administrative Action and the Chain of Command

Authority to award MAA lies throughout the chain of command, subject to the direction of the CO. By granting more junior personnel the authority to deal swiftly with failings in their subordinates, MAA strengthens the chain of command and emphasises the importance of leadership by superior Officers (Leading Hands and above). COs are therefore encouraged to delegate authority to award MAA to the lowest level commensurate with the efficient management of their ships, establishments and units.
2019. **Award of Minor Administrative Action**

a. The guidance in JSP 833 is to be followed in all cases. All matters should be dealt with at the lowest level commensurate with maintenance of discipline and standards and the efficient management of the unit. It is therefore important to decide as quickly as possible the most appropriate course of action. Delay in awarding MAA may undermine the system, and all MAA should usually be initiated within 48 hours of discovery of the failing. This time limit may be extended where necessary, such as where a disciplinary investigation was initially considered appropriate but subsequently terminated without bringing a charge. It may be possible to deal with a professional or personal failing immediately, without resorting to MAA or formal disciplinary action. For example, someone who turns to in an unacceptable state of dress may be ordered to clean their boots or iron their shirt; but where someone turns to 15 minutes adrift MAA may be appropriate depending on the ship’s programme and impact on the unit (disciplinary action may be necessary where the ship is under sailing orders). Guidance as to the types of AFA 06 offence which might be suitable to be dealt with by MAA as an alternative to disciplinary action is given below.

b. In order to make this judgement, all personnel involved in the process of awarding and administering MAA should be given appropriate training and guidance within the unit concerned, including instruction on the content and application of the CO’s policy for the individual unit, contained in Ship’s Standing Orders or CO’s Temporary Memorandum as appropriate.

c. Any MAA sanction awarded must fit the failing identified in order to restore the serviceperson’s efficiency. Guidance as to which sanction might be appropriate to given situations should be provided during such internal training in order to ensure consistency within units. Superior Officers authorised to award MAA, and Reviewing Officers, should also be instructed on the two-stage test to be applied before awarding any sanction:

1. Has a failing occurred, on the balance of probabilities (ie. is it more likely than not that the person has failed to meet the required standard, committed the misdemeanour alleged etc)?; if so;

2. **Is the Service test satisfied?** ie. ‘Have the actions or behaviour of a serviceperson adversely impacted or are they likely to impact on the efficiency or operational effectiveness of the Service?’ “Service” in this context includes the Duty Watch, Department, Ship, Unit etc. as appropriate to the situation.

d. Consideration should be given to advising those awarding sanctions, if in doubt as to whether to award a sanction or which sanction to award, to seek advice from an appropriate person of Reviewing Officer rank (see paragraph 30 below) before any action is taken. However, in the interests of empowering Leading Hands and above to take appropriate action to correct failings as swiftly as possible, with proper training and published guidance it should not usually be necessary for designated superior Officers to seek prior approval for such action. Training in the purpose and application of MAA is included in Command Courses and the Divisional Officers Course.
2020. Available Sanctions

a. The following are authorised minor administrative actions:

(1) **Report Back Muster/Parades.** Up to 3 musters/parades (45 mins maximum duration) - between 0700–2300 in whatever appropriate uniform and equipment as directed by the superior rank imposing the sanction. These may be appropriate in cases of poor timekeeping, turnout or standards of equipment. Relevant Skills Training, such as properly supervised drill and physical training, may be included if the service person’s failing warrants it. A drill lesson can only be imposed as a sanction to address failings in drill. All training is to be conducted by an appropriately qualified instructor. Presenting at a poor standard may result in an award of ‘show again’, up to a maximum of 2 ‘show again’ musters for each Muster/Parade awarded.

(2) **Extra Duties/Tasks.** Up to three extra tasks or duties may be awarded to correct a professional failing directly connected to an individual’s normal work or duty. The additional task or duty nominated must be of the same nature as the duty in which the individual failed. For example, a minor failure on gangway watch as QM could result in extra QM duties, or poor task-book progress may lead to further task-book training. Any duty or task should be of the same or lesser duration than the normal period of duty. A duty should not extend beyond 24 hours and there should be at least 48 hours between each 24-hour period of extra duty.

(3) **Extra Work.** Up to 3 periods of 4 hours (maximum) of extra work can be given. Work is to be of a type that benefits the unit but is not associated with the individual’s normal duties. Such an action would be appropriate to address a failing not directly associated with an individual’s normal tasks or duties. For example, a failure to conduct a chart outfit spot-check may result in the award of further spot-checks or similar administrative tasks.

(4) **Return to Unit (RTU).** This can be used during non-career courses or temporary loan (for example a squadded rating loaned to another unit for employment); in most circumstances the person should have been previously warned and their unit informed of the situation.

(5) **Informal Interview.** An Informal Interview may be conducted in order to brief a serviceperson on their shortcomings and to give advice on how they may be rectified. Such an interview would normally be expected to take place within the divisional system when a serviceperson needs to be made aware of minor failings, weaknesses, or mishandling of personal affairs (for example financial irresponsibility).
(6) **Formal Interview.** A Formal Interview is intended to make a serviceperson aware of his shortcomings and advise him or her on how to rectify his behaviour. It would be appropriate when an individual’s persistent personal and professional failings need to be addressed before more formal action becomes necessary. The interview should be noted on the form T-WS-MAA02 “Record of Formal Interview”, giving details of the failing and the actions required to correct it. For a Rating this will normally be conducted by the Divisional Officer or Divisional Senior Rating; for an Officer this would be conducted by the training Officer, HoD or CO as appropriate. Failure to respond to a Formal Interview may result in disciplinary or major administrative action such as formal warning or censure.

b. No sanctions other than these, and the relevant limitations on award, are permissible. All minor sanctions except for Informal and Formal Interview are to have been completed within 8 days of being issued. Awards of report back musters and associated skills training, extra tasks and extra work may not be combined, i.e. only one type may be awarded to correct a failing. All must be properly supervised, at an appropriate level, throughout.

2021. **Reviewing Officers**

a. COs should designate Reviewing Officers within their units, both within departments (it is recommended that DEPCOs be designated for MAA awarded to Junior Ratings, and that HODs be designated to review MAA awarded to Senior Ratings) and on a whole ship basis (it is recommended that EWO/BWO be designated for CPO/CSgt Ratings & below and the XO (of at least SO2 rank) for WO1s, WO2s & officers). These designations should be promulgated within the unit. Reviewing Officers will decide whether or not MAA is appropriate in the circumstances. If the Reviewing Officer considers that MAA is appropriate, he or she must offer the subject of the sanction the opportunity to request a formal review, and in all cases ensure the person in receipt of MAA is informed about the sanction and the reasons for its imposition.

b. The table below shows those ranks and rates that may be made the subject of sanctions; who can impose sanctions; who reviews the award and which sanctions may be awarded to certain ranks or rates. A CO may vary upwards the rank or rate of those who have power to award a minor sanction if this would be more appropriate to the maintenance of operational effectiveness within the unit; the precise authority of personnel will be dictated by the CO of a unit based on the needs of that unit.

Notes:

1. Except that a CO of the rank of Lt Cdr / Maj may award sanctions at this level.
2. Except that a CO or MWV XO of the rank of Lt may award sanctions at this level.
3. Except that a CO of the rank of Lt may award sanctions at this level.

2022. Conduct of MAA Review

a. Whenever MAA has been awarded it must be reviewed by a Reviewing Officer. The Reviewing Officer is to ensure that it has been appropriately investigated by the person initiating the action; that correct procedures have been followed; and that the sanction is an appropriate one in the circumstances. The Reviewing Officer may decide that MAA is inappropriate and cancel the sanction. This might be because he or she considers that either disciplinary or major administrative action should be taken instead or, equally, it may be that he or she deems that no action is necessary. If, having reviewed the matter, a Reviewing Officer decides that MAA is appropriate, he or she may then either uphold or reduce the sanction imposed.
b. Having confirmed that MAA is appropriate, the Reviewing Officer must offer the recipient of the sanction the opportunity for a formal review. If the individual does not request such a review, then the sanction is to be performed. If, however, the subject of the MAA requests a review, that person is to be offered the opportunity to say why he or she believes the finding to be unfair or why he or she should not receive the sanction awarded. The Reviewing Officer is then to consider the matter taking into account the representations made by the subject of the sanction and any other relevant factors. The Reviewing Officer may decide to uphold the sanction awarded, to reduce it or to cancel the MAA altogether.

c. In conducting a review, the Reviewing Officer must ensure that:

(1) On the balance of probabilities the alleged incident took place;

(2) The Service Test has been satisfied; and

(3) The sanction awarded is fair and proportionate.

d. The person seeking formal review should normally be given the opportunity to appear before the Reviewing Officer to state his case. In certain circumstances, for example when a ship is at sea, it may not be possible to take the individual before an Officer of appropriate rank; in such a case review may be carried out by other means (including telephone and electronic means), and the Reviewing Officer should sign the form at the first reasonable opportunity thereafter.

e. The review is normally to take place as soon as possible after award of the sanction and, in any event, within 24 hours and before any sanction is performed.

2023. Complaints and Redress

If, after review by an appropriate superior, an individual considers him or herself to have been wronged by any administrative action taken then he or she is entitled to submit a Service complaint under AFA 06 and JSP 831. The submission of a complaint must not delay the conduct of any sanction imposed.

2024. Records and Subsequent Action

a. The administrative process is quicker and simpler than the disciplinary process. However, the action must be properly recorded to ensure fairness, to discourage misuse and to facilitate audit by higher authority. A full audit trail is also required in order to ensure the MAA system is used appropriately. Continual failings on the part of an individual should lead to a formal warning (eg. DO’s warning for Discharge Shore (Inadequacy) or Reversion) or, if a particular failing is repeated several times and it amounts to an offence under the AFA 06, disciplinary action should be taken. It will rarely be appropriate for one superior Officer to repeatedly take MAA against an individual. All cases of repeated failing should be discussed with a Reviewing Officer, Head of Department or the CO as necessary.
b. Once approved, the action should be formally recorded on form T-WS-MAA01 “Record of Minor Sanction Awarded” and placed in a unit folder\(^2\), in a Departmental subsection. In addition, if a Formal Interview is conducted this must be recorded on form T-WS MAA02 “Record of Formal Interview” and placed with the individual’s service documents for the period of their current assignment or appointment. Both forms are contained in JSP 833 and are available from JPA.

c. The recording proforma is straightforward and contains the details of the individual involved, details of the personal and/or professional failing and the remedial action proposed. It must be signed by the subject and the awarding Officer, and countersigned by the Reviewing Officer. This will ensure that the action is properly endorsed and allows for formal review. Having endorsed the imposition of a sanction the Reviewing Officer is to inform a rating/other rank’s DO or an Officer’s 1RO of the decision. When a sanction is completed the tear-off slip is to be signed by the person supervising the conduct of the sanction.

d. Departments are to keep a record of MAAs awarded which is to be inspected monthly by the XO/HoD/OC and quarterly by the CO. Records of Formal Interviews are also to be retained with the individual’s Divisional Documents or personal files as appropriate for the duration of their assignment and a copy held by the individual subject to the interview. If an individual is assigned when subject to the review period of a Formal Interview, the CO must decide whether the receiving unit should be made aware of the circumstances. Records of MAAs are to be held by the unit for 2 years for audit and inspection. Flotilla Commanders and FOST will inspect records during routine visits/OST periods to monitor consistency of standards.

2025. Requirement for Returns
There is no requirement for a formal return on MAA: units should retain records for 2 years. There is no facility or requirement to record MAA on JPA.

2026. Unauthorised Absence

a. Use of Minor Administrative Action (MAA). In the first instance, where it has been established on the balance of probabilities that an individual has been absent without leave, units should consider whether or not the matter can be dealt with appropriately by means of MAA. Disciplinary action should only be taken against an absentee where a decision has been made not to use MAA. Unless the Command determines that there are exceptional reasons to merit departure from this policy, administrative action should be taken in the following circumstances:

1. For ships and submarines alongside in the UK which are not under sailing orders, unauthorised absence up to a maximum of 48 hours.

2. For ships and submarines alongside abroad which are not under sailing orders, unauthorised absence up to a maximum of 4 hours.
(3) For all UK shore establishments, unauthorised absence up to a maximum of 48 hours.

b. Exceptionally, unauthorised absence may be dealt with by disciplinary rather than administrative means when:

(1) The ship or submarine is under sailing orders.

(2) Previous use of MAA or disciplinary action has proved ineffective in addressing an individual’s misconduct or unauthorised absence. In these cases, units should consider whether the individual is fit to retain their rate or rank or to remain in the Service, instigating warning procedures where necessary.

(3) Due to their absence, the absentee was unable to perform their duty as a member of the Duty Watch or in support of a major evolution (e.g. ammunitioning ship).

(4) The absentee ignored orders to return immediately to the unit or establishment.

(5) The individual was absent deliberately in order to avoid an arduous duty or pre-deployment training.

(6) For deployed units, significant resources were expended trying to locate the individual.

(7) Individuals breach a local curfew.

(8) The Command determines that disciplinary action is necessary in the circumstances to maintain operational capability.

c. Leave Account Regularisation. For absences of between 4 and 48 hours, one day’s leave may be deducted from an individual’s leave account for each day or part of a day of unauthorised absence. Deductions to a leave account may only be awarded by the CO or an Officer designated by the CO.

d. Whether or not a decision is made to take administrative or disciplinary action against an absentee, units must still comply with Provost Marshal (Navy)’s Technical Instruction Number 8 and take the necessary action in relation to missing persons.

2027. Conclusion

MAA has a proven track record for dealing with minor personal and professional failings without resort to time consuming, resource intensive disciplinary procedures, or worse, failing to take appropriate action or resorting to unofficial ‘punishments’. Used properly it is a powerful weapon in the management arsenal. COs are to ensure it is used appropriately within their units, that consistency of approach within units is maintained, that Leading Hands and above are thus suitably empowered to enforce ethos, discipline and standards, and that the appropriate use of MAA is recognised.
2028. Guidance on Offences which may or may not be Dealt with Using MAA

</table>
SECTION 6 – MAJOR ADMINISTRATIVE ACTION

2029. Choice of Administrative Action

a. Where an event or behaviour is not suitable for MAA, COs must consider whether other Administrative Action is appropriate – either alone, or in conjunction with disciplinary investigation and action. For Officers, QRRN Chapter 38 should be read in conjunction with this Chapter.

b. Administrative Action includes censure, reversion, recommendation for re-assignment, discharge for inadequacy or recommendation for special reporting. This Chapter is limited to guidance on the applications of censures and letters for guidance. Further guidance is contained in BRd 2 Chapter 38 (Misconduct and Negligence of Officers), BRd 2 Chapter 39 (Civil Power), BRd 3(1) Chapter 54 (Discharges), BRd 3(1) Chapter 57 (Appraisal and Warnings), BRd 3(1) Chapter 60 (Removal from Assignment), and BRd 3(1) Chapter 70 (Reversion).

c. Where an issue arises over the appropriate disposal, COs should take legal advice before disclosing their intended course to the subject concerned.
SECTION 7 – CENSURES AND LETTERS FOR GUIDANCE

2030. Administrative Censure of Officers

Administrative censure constitutes Major Administrative Action and is not a punishment. It reflects the right of the Service as an employer, after due process which includes the rules of natural justice, to admonish employees for failing in their duties or for failing to maintain the required standards of performance or conduct. Officers may be censured as a result of a conviction by a civil court (see Section 19), as well as for certain acts of misconduct or negligence. A censure stands in its own right as a formal correction and as a warning about future performance or conduct, and may properly be taken into account in decisions concerning the officer’s career.

2031. Scope

Nothing in this guidance is intended to inhibit Commanding Officers from warning officers informally about their conduct should it fall, or risk falling, from the high standards expected; nor does it affect action taken in general to accord with the customs of the Service (eg. stopping the use of bar facilities). The award of an administrative censure is not a bar to subsequent trial by Court Martial on the same issue if this is considered necessary.

2032. Available Censures and their Effects

The censures which may be awarded, and their practical effects, are as follows:

a. **Admiralty Board’s Severe Displeasure or Displeasure**. Always recorded in an officer's official and appointing records.

b. **Fleet Commander’s or Second Sea Lord’s Severe Displeasure**. Invariably recorded in an officer’s official and appointing records.

c. **Fleet Commander’s, Second Sea Lord’s or other Superior Authority’s Displeasure**\(^3\). Recorded in appointing records only, if so directed by the awarding authority.

d. **Fleet Commander’s, Second Sea Lord’s or other Superior Authority’s Formal Warning**. Not recorded in an officer's records.

e. **Commanding Officer’s Logging**. Not recorded in an officer's records.

2033. Commanding Officer's Logging

If the Commanding Officer's reproof of an officer's conduct is to be reported outside the ship to show that the error or misconduct has been dealt with locally, there should normally be a logging, so that if the officer errs again during their time in the ship the record can be produced if necessary as evidence of their antecedents. Loggings are not noted in an officer's record. It is also inappropriate for any mention of loggings to be made in an officer's confidential report, although the behaviour or error which led to the logging may of course influence the content of the report. The wording to be used in a logging is at Annex 20A.

\(^3\) Other Superior Authorities authorised to award these censures are those officers listed in Para 2008 sub para d of 2\(^*\) rank or above.
2034. Recording
The “official record” referred to in Para 2032 is the record put before promotion boards. The “appointing record” is used solely by the appointing authority for the purpose of deciding an officer’s future assignments. Censures will be removed from official and appointing records no later than five years after the date of the award, except that censures for civil convictions will be treated as spent after the period appropriate to that conviction as specified in the Rehabilitation of Offenders Act 1974. When making an application for a Superior Authority’s Displeasure or Severe Displeasure, a Commanding Officer may include a recommendation that the Censure is removed from the ‘appointing’ or ‘official’ record at an earlier point where the case merits it.

2035. Procedure

a. Commanding Officer’s Report and Recommendations. If an officer commits an act of misconduct or negligence, the Commanding Officer may make a report to his or her superior authority, accompanied by legal advice, describing the circumstances of the case and recommending such of the following courses of action as are considered proper in the circumstances. The advice of a Regional Legal Adviser should be obtained whenever censure action is being considered but, in any event, must be obtained prior to making a report to the superior authority.

b. Superior Authority. In cases where the superior authority agrees that an officer has been at fault, the superior authority will present the specific allegations to the officer through his or her Commanding Officer. In cases where the censure is to be considered by the Admiralty Board, the Fleet Commander or 2SL will arrange for this to be staffed through the relevant Regional Legal Adviser (see Annex 20B). In cases where the Superior Authority is not the immediate superior in the chain of command, the Commanding Officer should ensure his or her immediate superior is informed of the application.

c. Individual’s Right to Comment on Allegations

(1) Before any censure is awarded to an officer he or she must have been acquainted with the specific allegations against them and invited to comment or put forward any relevant matters for consideration if they so wish. Such an explanation should normally be obtained in writing.

(2) There may be exceptional circumstances, however, such as those involving security, when it would be inadvisable to call for or consider explanations. Commanding Officers should accordingly offer their recommendations when reporting such cases.
(3) If the allegation arises from the report of a Service Inquiry, the officer will be supplied with a copy of the relevant part of the report of proceedings, at the President's discretion. Any correspondence concerning allegations which arose in an officer's previous ship will normally be addressed to the officer personally, and not through their present Commanding Officer. The officer is at liberty of course to bring it to the notice of his or her new Commanding Officer, and/or seek advice from any other officer he or she wishes. Evidence before a Service Inquiry or similar fact finding investigation, or an officer's 'reasons in writing' submitted before specific allegations have been made against him or her, should not properly be regarded as a rebuttal to the allegations. An explanation, however, may already exist when, for example, the recommendation for administrative censure is the result of a trial before a civil court and the officer has there made his or her defence or mitigation. Even in such cases, the officer may make representations, should the officer so wish. If the officer does, the explanation is to be forwarded with the report of the conviction.

d. **Administration (Same Assignment).** When an officer who is still serving in the ship in which the matter arose is to be censured:

1. Two copies of the letter of censure are sent to the officer's Commanding Officer under a covering letter of instruction.

2. The Commanding Officer is to hand the officer the original letter of censure for his or her retention, and obtain the officer's signature acknowledging receipt of the censure on the duplicate.

3. The signed duplicate is to be sent by the Commanding Officer to RLO (East), who maintains a record of any censure awarded so that it can be taken into consideration if that officer again comes to adverse notice during the same assignment. For censures that are to be formally recorded on appointing and/or official records, Naval Legal Services will forward copies to the appropriate authorities.

e. **Administration (new assignment).** Where an officer is no longer serving in the same ship/assignment in which the matter arose, any correspondence will normally be addressed to the officer personally at his or her new place of work and not through his or her present Commanding Officer. The officer is, however, at liberty to bring it to the notice of his or her new Commanding Officer if he or she so wishes.

f. **Censure of Ship's or Establishment's Commanding Officer.** In the event of a Superior Authority other than the Fleet Commander or Admiralty Board taking action against a ship’s or establishment's Commanding Officer, the Fleet Commander is to be informed.
2036. Letters for Guidance
The issue of ‘Letters for Guidance’ (LFG) is a well-established customary practice. A LFG is neither a warning nor a censure but is intended to provide guidance to an officer, following an incident or investigation in which the officer’s conduct or performance may have been under scrutiny. Nor should a LFG be used as a ‘back door’ route to warn or censure an officer, although a LFG may accompany or follow the award of a censure. A LFG is time sensitive, relates to a particular event and the Chain of Command’s perspective of the officer’s part in that event, with a view to offering guidance in respect of future conduct and/or performance. Only two copies are to be produced, one for the recipient and one which is to be kept by the author. The author’s copy is to be retained only until such time that either the recipient or the author is reassigned when it must be destroyed. A LFG is always addressed to the individual officer personally, and it is not to be recorded by way of being placed in an officer’s official records. If an error of judgement or shortcoming is considered significant enough to merit being recorded – e.g. by placement in an officer’s official records - then a recorded censure is to be issued, either in place of or alongside a LFG.

2037. Letters for Guidance and the Appraisal Process
Legal advice should be sought prior to writing a Letter for Guidance (LFG) in all but the most straightforward cases. Reference is not to be made to the fact of a LFG in an officer’s report (JPA Appraisal - OJAR), although there is no bar to mentioning that an officer has “responded to advice” or “required advice and guidance” in respect of a potential shortcoming. A LFG is not a substitute for ongoing assessment of an officer’s general and/or professional performance, which the appraisal process should cover.

2038. Letters for Guidance - Other Considerations
Commanding Officers and others in the chain of command enjoy a wide discretion to give LFGs; this should be exercised with due regard to: the nature of the incident, conduct or performance; the specific, related evidence which suggests that guidance is called for; consideration of which officer is the most appropriate person to give such guidance; ensuring that the language used does not appear censorious and the possibility that the LFG may have to be disclosed subsequently.4

2039. Professional Negligence by Ratings
It is the general policy that professional negligence by ratings should be dealt with by disciplinary proceedings rather than by major administrative action because the duties of a rating generally provide less risk of their being accused of professional negligence. Minor instances of professional negligence by ratings may be dealt with via Minor Administrative Action.

---

4 Following a Subject Access request under the Data Protection Act 2018, under the terms of the Freedom of Information Act 2000 or through the disclosure process attendant on civil litigation.
2040. **Warrant Officers**

Warrant Officers may be regarded as an exception to the above principle since they have wider responsibilities than other ratings. Cases which do not therefore involve gross negligence yet require warning and censure action beyond that available to a Commanding Officer, may be dealt with under the procedures at Para 2032 sub-para b, sub-para c or sub-para d. Admiralty Board censures or warnings are not considered appropriate, as cases likely to require such a high degree of censure would normally attract disciplinary action. Any censure given is to be conveyed orally to the Warrant Officer concerned by the Commanding Officer and an official record of the censure, and the circumstances that led to it, retained by the Commanding Officer.

2041. **General**

Nothing in this guidance is intended to affect the normal practice by which any rating may be formally warned by an officer (recorded as necessary in appraisal records) or the procedure for reversion.
SECTION 8 - FORMAL DISCIPLINARY PROCESS

2042. Investigation of Offences

a. The MSL Chapter 6 gives detailed guidance on the conduct of investigations. All investigations which are not conducted by the RNP are referred to as ‘Commanding Officer’s investigations’. This includes investigations by RN Cox’ns and RM CSMs. RN Cox’ns are nevertheless in a different position to others conducting CO’s investigations. Having received basic training in PACE procedures, Cox’ns should use those procedures where disciplinary action is anticipated, providing that they fulfil the requirements in accordance with the relevant Provost Marshal (Navy) Technical Instructions (PM(N) TI). Cox’ns should bear in mind that any offence for which a charge is brought for Summary Hearing may end in a Court Martial or in the SAC. The best evidence available is always to be sought. Cox’ns should always seek advice from Regional Police Commanders (RPCs) before conducting PACE interviews. It will normally be inappropriate for a Cox’n to conduct an interview where the accused has legal representation. Disciplinary action under AFA 06 cannot be taken by units until a disciplinary investigation has been completed and a report made to the CO. Where borne on the Ship’s books, either the RNP or RN Cox’n should investigate offences which require a formal disciplinary investigation. Where no RNP or Cox’n is borne, other than for minor offences, COs should seek legal advice before directing an investigation.

b. All disciplinary investigations need to be thorough yet expeditious, and will benefit from early legal advice in all but the most minor (and factually and evidentially straightforward) cases. Whatever the nature of the offence, RNP should be prepared to seek early legal advice through their RPC and, where the issues cannot be resolved at that level, the SPA in accordance with established protocols (see PM(N)’s TIs). Cox’ns should seek such advice through RPCs and RM CSMs through local RMPT or their RPC. The SPA’s role is to advise the RNP on their investigations up to the point at which a charge is recommended. Pre-charge advice is particularly important because it can assist in the identification of evidence to support the more serious charges, or conversely suggest alternative charges that may be easier to prove. In this way, hard-pressed RNP can focus their resources more effectively. CNLS Regional Legal Advisers advise the Command throughout. Service legal advice will only be available to personnel post-charge (save in relation to custody hearings) and only where a Service lawyer is available; civilian legal advice may be taken by individuals at any stage. See the MSL Chapter 6 and below for circumstances in which COs must seek legal advice before bringing a charge or deciding the appropriate disposal of a case.
c. RNP when conducting investigations are independent of the chain of command. This is essential in order that they fulfil their statutory duties. COs should be aware that when conducting higher level investigations they often act under the guidance of the DSP. The senior RNP will need to prioritise disciplinary investigations (especially those where SPA may be engaged) and balance these against unit duties or other non-policing tasking. But, commensurate with the primary role and purpose of the RNP and the exercise of their statutory duty to investigate, discipline will normally come first. Any member of the RNP who believes that they are subject to improper interference in the conduct of an investigation should report that fact without delay to the senior RNP member in their unit, RPCs, or PM(N). Reporting officers who are not members of the RNP are not to comment in OJARs/SJARs on an individual RNP member’s exercise of their investigatory functions. COs may however comment on their general qualities. For example, comments such as “PO(Police) Smith manages her busy workload well” would be appropriate but “PO(Police) Smith conducted a prolonged investigation into a serious assault entirely to my satisfaction” would not.

2043. Better Case Management in the Service Justice System: Avoidance of Delay

a. Delay has an adverse effect on the impact of the process, and undermines operational efficiency. It may:

   (1) Reduce the prospects of a proper conviction or hinder the mounting of a proper defence;

   (2) Result in a significant reduction in sentence on appeal following successful prosecution; and

   (3) Contribute to the discontinuance of proceedings by the Director Service Prosecutions (DSP) or his or her decision not to contest summary appeals.

   Ultimately, unreasonable delay may result in the effectiveness and credibility of the Service Justice System being undermined.

b. To address delay in the progress of disciplinary cases, on 1 Sep 16 the initiative 'Better Case Management in the Court Martial (BCM(CM))' was introduced. The key features of BCM(CM) are as follows:

   (1) The completion by the RNP of an expedited Initial Detail of the Prosecution Case (IDPC) which will be forwarded to the accused’s CO or DSP as applicable as soon as the Evidential Sufficiency Test (EST) is met. The IDPC will contain the following:

       (a) The Service Police Case Referral (SPCR), which will include a summary of the circumstances of the offence and any account given by the accused in interview⁵, whether contained in that summary or in another document;

---

⁵ Where the RNP consider that the EST is met prior to any interview, they may decide to refer without conducting at interview.
(b) Any available supporting statements;

(c) Details of the accused's previous convictions and disciplinary record;

(d) Any CCTV footage (as applicable) if available; and

(e) Any other documents which are then available which support the case against the accused.

Submission of the IDPC to the CO or to the DSP will not be delayed pending receipt of evidence which does not impact on the EST. COs or the DSP will not receive full transcripts of interviews if this will delay case progression; summaries will suffice.

(2) Target timelines for the referral by the RNP of a case to the CO or to the DSP. In straightforward cases, the target timeline is 21 days after a complaint or report of an offence. Judge Advocates in the CM will make some allowance for the impact on an RNP investigation of deployments or the complexity of a case.

(3) Target timelines for decisions to be made by the Service Prosecuting Authority (SPA). The SPA should direct straightforward cases within 21 days, and all but very complex cases within 28 days, of receipt of a case referral from the RNP or from the CO.

(4) A revised timetable for proceedings in the CM, as part of which the prosecution and the defence will be required to indicate to the Court the matters in issue at an early stage. The case thereafter will be carefully managed by the relevant Judge Advocate, with time permitted for further evidence to be gathered and disclosure matters to be dealt with as required.

c. The RNP will apply the BCM(CM) provisions in all cases noting that, with the universal right to elect for trial by CM, any disciplinary case may be referred for trial by CM. Accordingly, where a case is referred by the RNP to the CO of the accused, the CO will receive an IDPC which may contain less evidence than RNP reports which were produced prior to 1 Sep 16. This is a function of the expedited referral process and the IDPC will still contain information deemed sufficient by the RNP to meet the EST. The RNP will identify two main areas: 'Key evidence', which is evidence that is available and relates to an evidential point to prove; and 'Non-Key evidence', which is evidence that is available but has not been gathered because it is not key. If the CO determines that disciplinary action should be taken, the CO will then proceed in accordance with JSP 830 Chapter 6 Part 4, namely:

(1) Decide whether or not he/she has initial powers in respect of the case; then

(2) Decide the appropriate mode of trial; then
(3) If a decision is taken to deal with the matter summarily, decide whether or not to bring a charge. Generally, a CO should not charge a person with a Service offence if it is plain that either there is no basic evidence against the suspect or the evidence is clearly outweighed by evidence in the suspect’s favour. Legal advice must be sought where mandated as a matter of policy.

d. If the CO requires further evidence in order to decide any of the matters outlined at sub-paragraphs (1)-(3) above, he/she should request that the RNP gather that additional evidence accordingly. Any requests for additional evidence should be clear and focussed, with the justification for the request articulated. The Regional Legal Offices remain available to support the CO should he/she require advice on evidential sufficiency or similar matters.

e. The CO’s options in relation to a case which has been referred to him/her by the RNP are unaffected by BCM(CM) and remain as follows: request that the RNP conduct further enquiries; hear a charge which is listed in Schedule 1 of the Armed Forces Act 2006; refer the case to the DSP for trial by CM; discontinue the case and take no further action; or discontinue the case and take administrative action.

f. Other than in exceptional circumstances, on receipt of an SPCR or conclusion of a CO’s Unit Investigation, any Summary Hearing is to be held within 21 days. Exceptional circumstances may include, for example, illness of the accused or the non-availability of a key witness. Unless the CO determines that there is an exceptional need to do otherwise, leave should not be prioritised over discipline matters. Where the 21-day time limit is exceeded, detailed reasons must be recorded on the Record of Summary Hearing form.

g. Units are to comply with RNTM 367/15 in recording the progress of disciplinary cases on the JPA system.

h. COs are responsible for ensuring that there is no unreasonable delay in completion of the disciplinary process for personnel within their units, and for those that are landed for squad rotation or otherwise landed pending the outcome of proceedings. For the avoidance of doubt, this includes:

1. Timely completion of investigation;

2. Prompt analysis and decision to determine whether administrative or disciplinary action is appropriate;

3. Seeking early legal advice as to disposal of the case and, if disciplinary, any appropriate charge(s);

4. Timely appearance of accused at Summary Hearing;

5. Where the matter (either a case or a charge(s)) is referred to the DSP, timely despatch of all appropriate documentation to the SPA and Naval Courts Administration Office (NCAO) as appropriate;
(6) Timely bringing of charges at the direction of the DSP and service of papers on the accused;

(7) Ensuring availability of the accused (and witnesses if appropriate) for CM and SAC hearings;

(8) Ensuring the accused has the opportunity to receive early and appropriate legal advice; and

(9) Ensuring the accused is appropriately supported by the Divisional System, including attendance of DO or other appropriate person (as Defendant’s or Appellant’s Assisting Officer) at CM or SAC hearing.

(10) Ensuring that appropriate progress, recording and sentencing action is taken by UPO/Ship’s Office staff on JPA.

i. COs should take a personal and direct interest in the effective processing of disciplinary cases in their unit. Whilst COs cannot interfere in any investigation being undertaken by the RNP, they are nevertheless entitled to inquire into general progress with a case and should ensure RNP (and Cox’ns and CSMs) are progressing investigations and reports - including recommending charges where appropriate - in a timely manner. COs should note that the administration of summary justice should take priority over leave, such that the accused’s leave may be postponed in order to conduct interviews, bring charges and serve papers on the accused, and complete the Summary Hearing process. The use of a routine meeting to discuss the administration of pending disciplinary cases is encouraged (this is wholly viable, as the CO is not precluded from dealing with the case before hearing it summarily).

2044. Commanding Officers’ Delegations

COs have authority under AFA 06 to delegate certain statutory duties relating to investigation and bringing of charges to personnel under their command. Guidance on delegations to subordinate commanders is given in the MSL Chapter 9 Part 1 and FLAGO Chapter 16. On appointment, COs should consider the need for, and effectiveness of, delegations to other personnel in their unit.

2045. Delegation of Disciplinary Powers to a Subordinate Commander

a. COs may delegate (in writing) their disciplinary functions to one or more Subordinate Commanders (Sub Cdr), for example the XO or OC. The Sub Cdr must be of OF2 rank or higher (see also FLAGO Chapter 16).

b. When the Sub Cdr is temporarily unavailable to exercise his or her responsibilities for the administration of justice, the CO of a ship, unit or establishment may delegate another officer to assume such responsibilities. This delegation must be in writing, is to be promulgated within the ship, unit or establishment and is to specify the period during which the named officer is to fulfil these duties.
c. Only one Sub Cdr may hold the CO’s delegation for a particular charge. In effect this means that the CO may delegate disciplinary powers to the XO/OC, but if the XO's/OC's powers are insufficient to deal with a particular charge then the CO would have to revoke the delegation in respect of that charge and deal with the matter personally. Such revocation need not be in writing, but may be executed by the action of bringing the charge or hearing the charge personally. However, ideally revocation should be in writing.

2046. Recommending, Bringing and Serving Charges

a. Where an investigation is completed, the RNP will either refer the case to the CO or to the DSP. If referred to the CO, the CO must then decide whether a charge is brought, what that charge should be, or whether they should refer the matter direct to the DSP without bringing a charge. Guidance on recommendation, bringing and serving of charges is contained in FLAGO Art 1606 and below.

b. Where authority to bring charges has been delegated, care is required - powers of punishment will be capped at the level of the officer who brings the charge, which may not always be the same as the officer who hears the charge (see Mode of Trial below).

c. Whenever RNP investigate a case with a view to disciplinary, as opposed to MAA or other administrative action, they must consider, where necessary having consulted with the SPA, whether there is sufficient evidence to bring a charge. Where there is sufficient evidence to bring a charge, they must either recommend a charge to the CO, or, if the offence is not a ‘CO Offence’ ie. it is a Schedule 2 offence, one suspected of having been committed in prescribed circumstances or is unlisted, the case must be referred to the DSP. Recommended charges should normally be produced in writing. Where there is sufficient evidence to bring a charge, it is most important that the RNP recommend potential charges to the CO (see the MSL Chapter 6 paragraphs 51-53).

d. If the RNP do not recommend a charge(s), the CO has no power to bring a charge in relation to that case unless the case has been referred to the DSP and the DSP:

   (1) Directs that charge(s) be brought; or

   (2) Refers the case to the CO.

e. Where the DSP directs that a charge(s) be brought, the CO must bring the charge(s). Where the DSP refers the case to the CO, the CO should decide the most appropriate course of action, taking into consideration any advice and charge(s) recommended by the DSP, seeking further legal advice as necessary.

f. Those conducting CO’s investigations (as distinct from RNP investigations – see paragraph 8 above) should recommend charge(s) but if they do not, then the CO may nevertheless bring a charge if one is potentially capable of proof. Other than in very minor and non-criminal conduct cases, COs should seek legal advice before doing so.
g. Except where the DSP directs the CO to bring a charge, wherever the CO has power to bring a charge, which charge is brought is a matter entirely for the CO, or that of the person acting on the CO’s delegated authority. However, legal advice on the appropriate charge should be sought in all but the most simple or routine cases, and in particular if the CO wishes to bring a charge different to that recommended in an SPCR.

h. Under AFA 06 the CO or delegated Officer not below the rank of OF2 (such as the XO/OC) will be required to ‘bring’ the charges when an offence is to be heard summarily. Guidance on delegation of this function is given in FLAGO Chapter 16. Bringing a charge is a 3-stage process:

(1) Preparation of the charge sheet.
(2) Signature by CO or delegated Officer.
(3) Service of the charge sheet on the accused.

i. In RN units the RNP or the Cox'n, having investigated the offence, should normally prepare the draft charge sheet with a recommended charge. In RM units, this should be done by the G1 Discipline Adviser or the CSM. In MWVs without an LO it is recommended that the Cox'n should discuss the proposed charges with the XO before drafting the charge sheet.

j. The person preparing the charge sheet should then present the case papers, including the draft charge sheet, to the CO (or XO/OC etc., as appropriate) for consideration. It is up to the charging Officer to decide whether and how to charge based on the information given, but if they decide not to proceed with charges recommended by RNP legal advice must be sought before informing the accused of the decision. If borne, the LO or DLO should advise the person finalising the charge sheet, having sought legal advice as required. The CO (or XO/OC etc.) should sign the charge sheet only if they are content that the charge is appropriate, having ensured the evidential sufficiency and Service interest tests are met (see the MSL Chapter 6 paragraphs 93 and 94) and that they are the appropriate officer to hear the case. If in doubt as to the most appropriate charge, legal advice is to be sought. A Sub Cdr may also seek the CO’s guidance on whether they should hear a case (and therefore whether he or she should bring a charge).

k. Service of the charge is the process of giving the charge sheet and associated case papers to the accused individual. This would normally be done by the RNP or Coxswain or in the RM by the G1 Disc Adv or CSM, but it may be more appropriate for the CO to serve all charges on Officers and Warrant Officers and all charges directed to be brought by the DSP. Once a charge sheet has been signed and served the charge is said to be “brought”.

l. When appropriate the CO can delegate power to bring charges to an Officer under his or her command not below the rank of OF2. The delegation can be subject to such conditions the CO might consider appropriate and can be revoked at any time. See FLAGO Chapter 16.
2047. Preparation and Service of the Case Summary

a. After the charge is brought, the CO or a person authorised by him or her must also serve a Case Summary. Guidance on the content is in the MSL Chapter 9 Article 34. The Case Summary is a summary of the evidence which the CO considers relevant to the charge. In RN units it will normally be prepared by the Command Adviser. Best practice requires that the Case Summary is prepared and agreed by the CO (or officer hearing the case), before the charge is brought. It should provide sufficient information to put the offences in context, and to indicate any particular aggravating or mitigating features. The CO (or other officer hearing the charge) must approve the content of the Case Summary before it is served.

b. The Case Summary is not evidence – and is only to form part of the Summary Hearing where the accused admits the charge. Before approving a Case Summary, COs must satisfy themselves that there is proper, admissible evidence relating to each element of the offence charged – and, in relation to any aggravating features. Any cases of doubt should be referred for legal advice before a charge is brought. There will be no opportunity to ‘top up’ the evidence once a charge is brought. In particular, if a case is subject to summary appeal (either against finding or punishment) sufficient evidence setting out the relevant features of the offence (including any aggravating features) will be required.

c. Where evidence is not already gathered, the RNP may be asked to re-visit an issue. There are limitations on whether they may interview an accused after recommending a charge, but other evidence, including witness statements, may be taken – provided they are served on the accused in the proper way before a summary hearing. Where a fact will be important to the determination of a case, or the level of sentence likely to be imposed, COs should ensure that evidence is gathered before the charge is brought.

d. The case summary, with the other case papers, is to be served no less than 24 hours before the Summary Hearing.

2048. Seeking Legal Advice

a. COs should not hesitate to seek legal advice at any stage in the process, particularly when they do not have a Command Adviser or RNP on board. Advice will normally be sought, via the Command Adviser, from the Regional Legal Office set out in Table 20-2.

b. Legal advice must be sought in the following circumstances, by completing the form at Annex 20S:

(1) Where the offence alleged is a Schedule 2 offence, one suspected of having been committed in prescribed circumstances or is unlisted (the MSL Vol 1 Chapter 6). Note, however, that such offences should be referred directly to the DSP by the RNP; it would be unusual, therefore, for a CO to deal with an offence in one of these categories.
(2) Where the CO requires the permission of Higher Authority to hear the charge (offences listed in the MSL Vol 1 Chapter 6 Annex B).

(3) Where the CO may require extended powers of punishment were the charge to be proved.

(4) Where the CO is considering the following punishments if the charge is proved:

   (a) A period of detention;

   (b) A period of suspended detention;

   (c) A financial penalty, the combined effect of which is in excess of 14 days’ pay; or

   (d) A Service Supervision and Punishment Order.

(5) Where the offence alleged was committed while the accused was under a suspended sentence of detention.

(6) Where the CO intends to refer the case or charge to the DSP.

(7) Where the CO intends not to proceed with a charge(s) recommended by the RNP.

(8) Any offence alleged to have been committed by an officer.

(9) Where the circumstances of the case indicate a sexual element to the offending (though note these are likely to amount to Schedule 2 offences in any event).

(10) Any case in which the offence alleged had, at any stage, been suspected of having been committed in prescribed circumstances.

c. The application for advice should include all the information required for an application for extended powers of punishment and to hear a charge summarily and any guidance issued separately by legal advisers. However, with the exception of the award of the sentences in Para 2048.b sub para (4) above and personnel under suspended sentence of detention, the relevant legal adviser may in exceptional cases dispense with the requirement to forward full documentation. Where advice is sought by the command, written advice will be provided by the relevant legal adviser.

d. Where legal advice has been sought, a record that advice has been sought is to be made on the Record of Summary Hearing (T-SL-SH01 - the MSL Vol 1 Chap 9 Annex C) under ‘Miscellaneous matters’, and in the case of Activation Hearings, on the Record of Activation Hearing (T-SL-SH02 – the MSL Vol 1 Chap 9 Annex I). The name of the legal adviser providing the advice is to be recorded on these forms in the event of a requirement to contact the relevant legal adviser eg. on review of the case by the Summary Hearing Review Cell.
e. **RNP and Coxswains.** Advice to the RNP and Cox’ns on the investigation, up to the point of recommending a charge, is provided by the RPC who will seek further advice from DSP Service Police Liaison staff as appropriate. Procedural advice may be sought from the appropriate DSP legal adviser at any stage. Once a charge has been recommended, legal advice (for example on formulating the final charge) may also be sought. Where a case is to be referred to the DSP the investigator should always consult DSP Service Police Liaison staff.

f. **Legal Advice to the Accused.** An accused person is to be informed that they have the opportunity to seek legal advice on whether to elect trial by CM when the charge sheet and case papers are served before a hearing. They should also be given a copy of the guide ‘Your rights if you are accused of an offence under the Service Justice System’ (the MSL Chapter 6, Annex F). Legal advice and representation may be obtained from a Naval barrister post charge, subject to their availability. Legal Aid is also available for those considering mode of trial, facing CM or the SAC. The Accused’s Assisting Officer (AAO) (see below) should ensure that the accused is aware of the opportunity to seek advice and should assist the accused in that matter if required. Further guidance on Legal Aid, including personal contribution towards costs, is contained in JSP 838. Requests for a naval barrister to assist an accused should be made to:

   NAVY LEGAL-SCMC CPOWTR
   93832 5739

   g. The accused is not allowed legal representation at the Summary Hearing, but may be assisted by his or her AAO. A Naval barrister may only assist as an AAO if the barrister is the accused’s Divisional Officer.
SECTION 9 - MODE OF TRIAL

2049. Importance of Mode of Trial

a. The structure of the Service Justice System relies on careful selection of the Mode of Trial: which may be Summary Hearing or CM.

b. Guidance on Mode of Trial is in the MSL Vol 1 Chapter 6. Where it is intended the case should be heard summarily, the proposed hearing Officer should bring the charge(s) against the accused. Where the case is more appropriate for CM the CO should refer the case to the DSP without bringing a charge (see also Para 2052 below).

2050. Choosing the Hearing Officer

The most appropriate Hearing Officer (usually CO or XO/OC) should be determined before any Summary Hearing, usually on the advice of the unit’s command adviser (LO, DLO, EA or G1 Disc Adv), such that the case is dealt with at the correct level, and preferably by the same Officer, from the outset. It should be noted that only the CO can hear a charge summarily when the offence alleged was committed during the operational period of a suspended sentence of detention.

2051. Hearing Officer’s Decision

Before bringing any charge, hearing officers must always consider whether they have sufficient powers of punishment to deal with an offence in the event of an admission of the charge or finding the charge proven, in accordance with any delegated powers of punishment and the limitations in the MSL Vol 1 Chapter 13 Annex A. If the proposed hearing Officer considers his or her powers of punishment to be inadequate, he or she must pass the case on to the next higher authority (eg. XO/OC refers to CO; CO refers the case to the DSP for CM trial) without bringing a charge. The person who is to hear the charge (ie. who intends to see the disciplinary process through) should then, if he or she considers it appropriate to do so, bring the charge(s) against the accused. In the event a charge has already been brought, and the hearing Officer considers his or her powers of punishment to be inadequate, he or she should consult the CO. The CO may then revoke the delegation to hear the charge, and hear the charge himself or refer the charge to the DSP. In cases of doubt, advice on the correct procedure to follow should be sought from the appropriate Regional Legal Adviser.

2052. Referral for Court Martial (no option)

a. In some cases it will be either mandatory or appropriate to refer the case to the DSP for consideration for a CM trial, without bringing a charge and without giving the accused the option. In other circumstances it will be appropriate to refer a charge to the DSP, without giving the option. Once a case or charge has been so referred the CO loses his or her powers to deal with it, (although they remain responsible for completion of the JPA discipline record).
b. Situations when a CO has no discretion whether to refer a case to the RNP/DSP are as follows:

(1) **Prescribed Circumstances.** Offences suspected of having been committed in certain circumstances are considered inherently more serious and must always be reported to and investigated by the RNP. The RNP will then either refer the case to the DSP or consult with the DSP before reporting the case to the CO (see the MSL Vol 1 Chapter 6 paragraphs 59 and 60). Where the case has been referred to the DSP the CO has no power to deal with it summarily unless the DSP refers the case back to the CO. However, where the RNP have consulted the DSP, and the DSP is satisfied that there is insufficient evidence to charge an offence committed in prescribed circumstances, the RNP may refer the case to the CO. The CO will then have the power to bring a charge capable of being tried summarily. Unless the DSP directs the CO to bring a charge(s), COs dealing with any case in which the offence alleged had at any stage been suspected of having been committed in prescribed circumstances must seek legal advice before bringing any charge(s).

(2) **Serious Offences.** Serious offences which are capable of being tried only by CM are listed in Schedule 2 to AFA 06 and in the MSL Vol 1 Chapter 6 Annex C. These cases must be referred to the DSP. Certain other offences (listed at the MSL Vol 1 Chapter 6 Annex B) may only be tried summarily with permission from the relevant HA. If the CO brings such a charge, and subsequently the HA refuses permission to hear the charge, the charge must be referred to the DSP without giving the accused the option. Even where the charge is capable of being heard summarily, the CO has the choice whether to bring such a charge or refer the case to the DSP.

(3) **Unlisted Offences.** On 1 July 2019, an amendment was enacted to Part 5 AFA 06 such that offences which are not listed in either Schedule 1 or 2 of AFA 06 must now be referred directly to the DSP by the RNP.

c. Situations when a CO has discretion, but should normally refer a case are:

(1) **Sentencing Threshold.** Where a conviction, following denial of the offence(s), is likely to merit a sentence beyond the CO’s maximum powers (with or without extended powers of punishment), the CO should refer the case for CM trial. COs should be aware that when an accused elects for trial by CM, the sentencing powers of the CM will be capped at the CO’s maximum (the MSL Vol 1 Chapter 13 Annex A). If the CO has been granted extended powers of punishment before giving the accused the option, the CM’s powers are capped at the CO’s maximum with extended powers. In all other cases, regardless which hearing Officer gave the accused the option, the CM’s powers are capped at those of the CO without extended powers.
(2) **Witness Difficulties.** Where a ship, unit or establishment will have difficulty securing or co-ordinating the attendance of witnesses, for example when there are civilian witnesses involved or Service witnesses are scattered, a CM may be the most convenient method of trial. Legal Advice should be sought.

(3) **Legal Difficulties/Complexity.** Where the case is legally complex, eg. the proposed charge is technical or involves multiple witnesses, difficult 'points to prove', or the case involves expert evidence or there are issues of admissibility, the CO should consider referring the case to the DSP. The CO should seek legal advice before referring any case to the DSP.

d. In all of these circumstances where the CO refers the case for trial by CM, the DSP will have full powers to deal with the case in the manner most appropriate. This includes preferring charges he or she deems have a realistic prospect of conviction, and referring the case or part thereof back to the CO, as well as discontinuing the case. Significantly, the sentencing powers of the CM will not be limited to those of the CO, as they would be if the accused elected for trial by CM.

2053. **Accused's Option for Trial by Court Martial**

a. It is obligatory to give all personnel the option of trial by CM (the MSL Vol 1 Chapter 9), unless the case or charge is to be referred for trial by CM.

b. If an accused elects to exercise his or her right to trial by CM at a Summary Hearing, charges will already have been brought so it is the charge which will be referred to the DSP, not the case. This is very significant, because the DSP’s powers to deal with the case in terms of preferring different or additional charges will be limited where the accused has opted for trial by CM. Furthermore, where an accused elects for trial by CM the powers of punishment of the CM will be limited (see above). In addition, once a charge has been referred to the DSP the CO will no longer have powers to deal with it. If the accused wishes to withdraw his or her election for trial by CM he or she will have to make a representation to the DSP through the CO and the DSP will decide whether to refer it back to the CO.

2054. **Referral of a Case or Charge to the DSP for Trial by Court Martial**

Whether the matter is proceeding towards CM as a case or charge via direct referral by the CO, or at the Accused’s option, the procedures for referring a case or charge to the DSP are detailed in the MSL Vol 1 Chapter 6 (Investigation, Charging and Mode of Trial). COs should ensure when referring cases and charges to the DSP that any covering letter includes full particulars of any factors the CO took into account when deciding whether the case should be dealt with by CM. In addition, if the RNP have referred a case directly to the DSP, the CO of the accused is entitled to provide the DSP with any additional information relevant to the case. Any such information may assist the DSP when deciding whether it is in the Service interest to prosecute the case. COs must seek legal advice when considering referring a case or charge for consideration for trial by CM. If the DSP decides to allocate a case for CM trial, he or she will direct the CO to bring a specified charge(s); the CO should sign the charge sheet and serve it on the accused (see paragraph 34 for service of charges).
2055. Applications for Extended Powers or for Authority to Hear Certain Charges Summarily

a. COs of below 2* rank must apply to Higher Authority in advance for extended powers of punishment if the offence charged, if proved, would merit one of the following punishments:

(1) Detention of more than 28 days.

(2) Detention for Leading Hand/Lance Corporal.

(3) Forfeiture of seniority (Officers only).

(4) Disrating/reduction in rank (1 step only).

b. Applications for extended powers of punishment should be submitted to the appropriate HA by completing Annex 20T, supported by the documents listed in the MSL Vol 1 Chapter 6 paragraph 18, including a copy of the Case Summary. If the application is approved by the HA, the HA will notify the CO in writing, and the CO must provide the accused with a copy of the notification not less than 24 hours before the hearing. The notification need not be signed by the HA personally.

c. In addition, COs must apply to HA for permission to hear certain summary offences in advance of the proposed Summary Hearing. These include more serious but not uncommon ‘summary level’ offences, such as assault occasioning actual bodily harm, unlawful possession of an offensive weapon, fraud/dishonesty; such offences are listed in the MSL Vol 1 Chapter 6 Annex B. Applications for permission to hear such charges summarily should be submitted to the appropriate HA by completing Annex 20T, supported by the documents listed in the MSL Vol 1 Chapter 9 paragraph 14, including a copy of the Case Summary. If the application is approved, the HA will notify the CO in writing, and the CO must provide the accused with a copy of that notification not less than 24 hours before the hearing.

d. Applications for extended powers of punishment and for permission to hear a charge summarily should be accompanied by an application to forfeit GCB(s) if the CO considers it appropriate and if forfeiture is not an automatic consequence of the proposed punishment. In the event of a finding that the charge is proved, where relevant, the imposition of a Career Check, which is obligatory depending on the punishment awarded, and forfeiture of GCB(s) should be notified to the accused when the sentence is awarded. See below and Annex 20C on the Administrative consequences of punishments.

e. Applications should normally be prepared by the LO/DLO (where borne) assisted by the senior Logs (Pers) rating. In MWVs an application should be prepared by CORRO assisted by the Coxswain. In RM units the Adjutant should prepare the application, assisted by the G1 Disc Adv. In all cases the CO should approve and sign the application.
SECTION 10 - OFFENCES BY OFFICERS

2056. Choice of Administrative Action, Summary Discipline or Court Martial

a. Offences by officers may be divided into those of misconduct and those of negligence. The most minor professional or personal failings by officers up to the rank of Cdr/Lt Col may be dealt with by Minor Administrative Action (see JSP 833). For officers below the rank of Capt RN/Col RM, offences amounting to misconduct may be dealt with by means of a Summary Hearing, where the Hearing Officer determines that their powers of punishment are sufficient. More serious offences should be considered for trial by CM. Administrative censure action may provide a suitable alternative to disciplinary action in certain circumstances. BRd 2 Chapter 38, the MSL Chapter 12, this Section and para 2012 should be considered before a decision on the appropriate disposal is made.

b. Careful judgement is needed to weigh the factors which determine the appropriate course to adopt in any given situation, and in order to ensure consistency of treatment throughout the Service, guidance should be sought from Legal Advisers in all but the most straightforward cases.

2057. Negligence

a. An officer's wide responsibilities make him or her more susceptible than a rating/other rank to allegations of negligence, and censure action provides an effective and convenient way of dealing with less serious instances of this kind. BRd 2 Article 3802 advises that negligence of a serious or gross degree will normally lead to disciplinary proceedings against the officer concerned whereas other cases may be dealt with administratively. In cases of professional negligence, a view can be taken, based on the findings of a Service Inquiry or Immediate Ship's Investigation/RM Unit Inquiry, on whether the matter requires disciplinary action or administrative censure, dependent upon the degree of negligence involved.

b. Negligence is defined in the MSL Chapter 12. In essence, an officer is negligent if either he or she has done something which a reasonably capable and careful person of his or her seniority and experience in the Service would not have done, or has failed to or omitted to do something which a reasonably capable and careful person in his or her position in the Service would have done. The degree of negligence is not determined by the consequences of the act or omission, but is determined by the extent to which the conduct failed to reach the standard of the reasonably capable and careful person. Where something has gone wrong, it does not necessarily mean someone must have been negligent. Similarly, a person may have been negligent, but have caused no loss or injury.

c. Serious or gross negligence can be regarded as a marked or notable failure to act in the way that a reasonably capable and careful person would have done. Wilful negligence, that is to say negligence with a reckless regard to the possibility of loss, damage or injury, will almost always be serious.
d. For negligence that is not serious, administrative censure action is normally the most appropriate course of action where:

(1) Culpability is not disputed;

(2) The degree of negligence is assessed, having regard to all the circumstances, as being unlikely to attract a punishment (should the allegations be proved summarily or in CM) greater than a Severe Reprimand; and

(3) There are no overriding considerations demanding disciplinary action.

e. Where the evidence suggests that disciplinary action is appropriate, then consideration should be given to whether the matter can be heard summarily or whether referral should be made for trial by CM. Summary Hearing will not be appropriate where serious negligent failings are identified by Immediate Ship’s Investigation/RM Unit Inquiry or Service Inquiry. Nevertheless, Summary Hearing may be appropriate in some cases eg. of persistent minor neglect to carry out routine but essential tasks. Referral for trial by the CM would also be appropriate where the issues are complex. In all cases, legal advice should be sought.

2058. Officers Under Training

The option of administrative action for minor misconduct may sometimes be more appropriate for officers under training because of their lack of naval (and perhaps general) experience. Cases in which misconduct is clearly attributable to misplaced exuberance may, where the circumstances and interests of discipline allow, fall into this category. Young Officers and officers under training who have, however, previously been warned about their conduct but have nevertheless repeated such or similar misconduct are less likely to avoid disciplinary action than might otherwise be the case.

2059. Senior Officers

a. An officer of the rank of Capt RN/Col RM (or other Service equivalents) and above cannot be dealt with summarily. For officers below this rank, COs may hear a case summarily, provided there is at least a two rank separation between the Hearing Officer and the accused officer. If the two-rank separation does not exist but a CO considers that Summary Hearing is appropriate, he or she should forward the case to his or her relevant Higher Authority who will appoint a bespoke CO for the purposes of hearing the case.

b. COs themselves, and Chaplains, may similarly be dealt with summarily. The Fleet Commander is to be informed where charges are being considered against a CO. For summary discipline purposes, Naval Chaplains are to be treated as though they hold the rank of Commander.
Available Punishments

The punishments which may be awarded summarily to officers are laid down in JSP 830 Chapter 13 Annex B, and include the following:

a. Forfeiture of seniority (extended powers of punishment required).
b. Fines not exceeding 28 days’ pay.
c. Severe Reprimand.
d. Reprimand.
e. Admonition.
f. Service Compensation Order.

More Serious Cases

Any offence thought to justify punishment in excess of the CO's summary powers should be referred to the DSP for CM using normal procedures. COs must take legal advice before bringing any charge against an officer and proceeding to Summary Hearing.

The Obligatory Option of Court Martial

As is the case for ratings/other ranks, it is obligatory to give officers the option for trial by CM in every case, unless the CO refers the case to the DSP for consideration for trial by CM or the DSP has referred a case back to the CO with the written consent of the accused.

Joint Hearings with Ratings/Other Ranks

Unless the interests of justice require it, the Summary Hearing of officers and ratings/other ranks should be conducted separately. Therefore, if it appears an officer and rating/other rank are both involved in an incident likely to give rise to disciplinary proceedings, legal advice on the method of trial/hearing should be sought at the earliest opportunity.

Sentencing

The general sentencing principles set out in the MSL Chapter 14 apply equally to the summary punishment of officers as for ratings. Whilst the starting point in the detailed MSL guidance should be at least that for experienced Senior Ratings/SNCOs (bearing in mind the limitations on punishment) COs should have particular regard for the status and responsibilities of officers when deciding what punishment to award.
2065. Reporting and Recording

a. Punishments awarded summarily to officers are to be recorded on JPA but, as is the case for ratings, are subject to the Rehabilitation of Offenders Act 1974\(^7\). The following policy applies with regard to recording summary convictions and sentences for officers:

1. **Forfeiture of Seniority.** Considered to be spent immediately and not to be recorded.

2. **Fine.** Recording in the official record is at the discretion of the officer awarding the fine, but a fine of over 14 days’ pay should normally be recorded for 1 year from the date of conviction (6 months if awarded to a person under 18).

3. **Admonition.** Not recorded in official or appointing record.

4. **Reprimand.** Considered to be spent immediately and not recorded.

5. **Severe Reprimand.** Considered to be spent immediately and not recorded.

6. **Service Compensation Order.** Recording in the official record only until the date on which payment has been made in full.

b. Administrative censures are recorded in JPA and are included in the Personal File record held by Career Manager.

\(^7\) As amended by the Legal Aid, Sentencing and Punishment of Offenders Act 2012.
SECTION 11 - PREPARING FOR THE SUMMARY HEARING

2066. Preparation by the Hearing Officer
Before the Hearing, the CO (or officer conducting the SH) must familiarise him or herself with the case papers, including the evidence. He or she must understand the issues in the case, and the facts which must be proved for the offence charged to be made out.

2067. Role of the Accused’s Assisting Officer
The role of the AAO is an important one. The CO must satisfy himself that the individual acting as AAO is capable of doing so, and that they have been afforded adequate time and facilities to prepare for the Hearing. The AAO’s role begins when a charge is brought – and they should be involved with the accused from that point forward. Guidance on their role is contained in the MSL Chapter 9 Annex G and in Section 23 to this chapter which must be read. HODs should be encouraged to take an interest in the progress of cases – including the role and responsibilities of the AAO.
SECTION 12 - SUMMARY HEARING PROCEDURE, ROLES AND RESPONSIBILITIES

2068. Inquisitorial Summary Hearing

The Summary Hearing is inquisitorial rather than accusatorial; there is no 'prosecution' by XO, RNP or Coxswain, but rather the hearing officer plays the role of investigator. The CO must consider the case, examining evidence from witnesses in support of the charge, the accused and witnesses for the accused before coming to a finding. A departure from previous RN practice is that the hearing officer will have seen the case papers beforehand and will usually have brought the charge. Because it is a hearing, not a trial, the accused will not plead guilty or not guilty, but will instead admit or deny the charge(s). The finding that the hearing officer will come to is that the charge is proved or not proved. The Summary Hearing procedures under AFA 06 are essentially the same across the Services, but with slight Service-specific differences in terms of the 'ceremony' of the summary hearing. The accused will be afforded the opportunity to elect trial by Court Martial before the hearing begins. If the accused agrees to Summary Hearing, they will then be asked to admit or deny the charge. If they deny the charge the evidence of witnesses will be considered, and if necessary the witnesses questioned before the hearing officer comes to a finding. The accused will be supported and represented by an Accused’s Assisting Officer who may question witnesses on behalf of the accused and give character evidence and mitigation before sentencing. The MSL Chapter 9 describes in detail the procedure to be followed, and the form 'Record of Summary Hearing' (RSH) is to be used as a guide and completed by the hearing Officer during the proceedings. A CO should not find a charge proven unless he is sure that the accused committed the offence as charged.

2069. Requirement for Global Sentence

Where a Hearing Officer records findings that two or more charges against a person have been proved, the sentence he or she awards must be a single 'global' sentence and not separate sentences for each charge proved.

2070. Role of the Hearing Officer

a. The Hearing Officer will be the CO or his or her delegated Sub Cdr (normally the XO/OC but may be any officer of Lt RN/Capt RM rank or above who has delegated disciplinary powers). He or she will follow the procedure laid down in the RSH (Annex C to the MSL Vol 1 Chapter 9) to consider the case, come to a finding and, if the charge is found proved, award a sentence.

b. In cases where the accused admits the charge it will be the Hearing Officer who reads out the Case Summary. When the accused denies the charge the Hearing Officer will read out the witness evidence and, if necessary, question witnesses before giving the accused the opportunity to do so. If the accused says (in advance of the hearing) that he or she wishes to challenge the evidence of the witnesses, or ask further questions of them, then the CO is to require the attendance of those witnesses. The CO may also question the accused. Detailed instructions on the Summary Hearing procedure are in the MSL Vol 1 Chapter 9.
2071. **Completion of the Record of Summary Hearing**

The officer hearing the case should normally maintain the RSH themself. Where necessary he or she must make a written record of any oral evidence; since the record is likely to be a paraphrase of what was said it is important that what is recorded is the understanding of the hearing officer, not a third party, and that it is completed at the time of the Hearing and treated as a live record. There is no requirement for a fair copy to be typed after the hearing. The RSH must be retained in the unit for 2 years.

2072. **Role of RNP/Coxswain/Company Sergeant Major (CSM)**

Before the hearing the RNP or Coxswain/CSM who investigated the charge should prepare the case papers, including the draft Case Summary (which in an RN unit will be prepared by the Command Adviser) and the draft Charge Sheet with the recommended charge and present them to the Hearing Officer, normally through the Command Adviser. Once the hearing officer has signed the charge sheet it should normally be the RNP/Coxswain/G1 Discipline Adviser or CSM who serves the charge sheet and the case papers on the accused. However, the Hearing Officer may decide to do this personally in appropriate cases eg. CO bringing a charge on the direction of the DSP. The CO should conduct the Summary Hearing in person – including reading out the Case Summary should the matter be admitted, and the written evidence of any witnesses where it is not. At the direction of the CO, the RNP/Coxswain/RSM/CSM should continue to arrange and stage manage the table/hearing. They should muster and march in the accused (and witnesses) and ensure that customary Service procedures are followed. They must not act as ‘prosecutor’ or read out the case summary or other evidence. If the RNP/Coxswain/RSM/CSM is to be a major witness at the hearing another suitable rating/rank such as the EWO, CBM/senior Logs (Pers)/an alternative CSM should be required to assume this role in order to preserve the fairness of the proceedings.

2073. **Accused’s Assisting Officer (AAO)**

a. All accused Service personnel are entitled to an AAO to help them before, during and after the hearing. In the RN it is expected that the AAO would normally be the DO or DSR of the accused, and must be an officer or Senior Rating. In the RM it is expected that the AAO would normally be the Tp Cdr/HOD/Tp Sgt of the accused, and must be an officer or SNCO. The potential AAO must consent to being nominated, and there may be circumstances under which the candidate is unable to act for the accused, for example if he or she is a witness. If the accused is unable to secure the services of an AAO the CO must nominate two suitable officers or Senior Ratings/SNCOs between whom the accused can choose. The services of an AAO are not mandatory and a hearing can go ahead if the accused does not want an AAO.

b. During the hearing the AAO may question witnesses on behalf of the accused. The AAO may also give character evidence and make a plea in mitigation on behalf of the accused. The AAO may present an appraisal report or assessment of the performance of the accused for the hearing officer’s perusal if the accused so wishes, but to do so is not mandatory; negative inference should not be drawn if the appraisal or assessment is not presented, it is simply an opportunity for mitigation which has not been taken. Detailed instructions are in Annex G to the MSL Vol 1 Chapter 9 – which must be read and understood by the AAO, together with the relevant Annex to that Chapter.
2074. **Witnesses**
Witnesses may be required to attend the hearing if the Hearing Officer or the accused wish to question them. The accused will be notified of the witnesses whose evidence the Hearing Officer wishes to use when he or she is served with the case papers. The accused should also notify the Hearing Officer of the witnesses whose evidence he or she wishes to call at least 24 hours in advance where possible; this is not a legal requirement but allows for effective management of the case, and is in the interest of all concerned.

2075. **Command Adviser**
If borne, the LO or DLO will normally advise the command before and during a Summary Hearing. In RM units the Adjutant or G1 Discipline Adviser will normally advise the command. When required they will prepare the applications to HA for permission to hear certain charges summarily or for extended powers of punishment (See above). They shall also finalise the Case Summary under the direction of the Hearing Officer. In RM units the Case Summary will be prepared by the G1 Discipline Adviser or CSM. The Command Adviser shall supervise the completion of all post-hearing actions (including the RSH, JPA record and submission of materials for review). It remains the CO’s responsibility that the review process is followed (see para 20103).
SECTION 13 – SENTENCING (INCLUDING GIVING REASONS)

2076. Sentencing Guidance

Guidance on the sentencing process and summary punishments is contained in the MSL Chapter 13. The MSL Chapter 14 includes a Sentencing Guide, which sets out the features and considerations in different cases, and gives guideline sentences. Both chapters should be consulted by officers exercising powers of summary discipline, and by AAOs. Guidance on the award of specific punishments, and the processes involved are set out in this section.

2077. Requirement to Give Reasons

When sentencing, Hearing Officers must give reasons, which should include an explanation of the facts which they found proved, whether any credit has been given if the charge was admitted, and any aggravating or mitigating features. Hearing Officers should not hesitate to break proceedings after finding the case proved and hearing any mitigation, in order to consider sentence and prepare their reasons. The RSH should be used to record the reasons given. Hearing Officers should take care to set out the salient facts proved, particularly where these have been disputed by the accused, or where they form features which aggravate the offence and had an effect on the sentence. Hearing Officers must explain any discount they applied to the sentence.

2078. Announcing Sentence or Awarding Sentence in the Presence of the Ship’s Company

a. Under AFA 06 there is no equivalent to the former RN warrant punishment, and consequently no requirement to conduct a formal reading of a Warrant to announce the sentence awarded. The Hearing Officer will, in all circumstances of awarding punishment summarily, inform the accused of the sentence as part of the Summary Hearing process.

b. COs may open the sentencing phase of the Summary Hearing to the Ship’s Company. This should only be done where legal advice on the charge and sentence has been received. This procedure is only to be used in relation to ratings and other ranks below the rank of Warrant Officer.

c. It is left to the CO’s discretion when such a procedure should be followed, but in the majority of cases such a procedure will not be appropriate. The procedure is only to be used where the CO considers there will be a tangible benefit in terms of the maintenance of discipline in the ship, unit or establishment.

d. There is no formal procedure for opening the sentencing part of the Summary Hearing to members of the ship’s company. However, COs will invariably wish to consider and prepare their sentencing remarks before conducting the proceedings and a stand over prior to the sentencing part of the hearing will be necessary. The CO should then re-convene the hearing before members of the Ship’s Company. The CO should then sentence the accused and give reasons for the sentence in the usual manner. COs may then wish to call a short stand over and then re-convene in the absence of the Ship’s Company to complete the summary hearing process. This will include ensuring the accused understands his or her rights and, in the case of Detention, asking the accused whether he or she wishes to go to Detention immediately or wait until the initial appeal period has passed.
Announcement of sentences awarded can be an important reminder to the Ship’s Company of the Naval Service core values and standards. Where, in more serious cases, the CO does not consider it appropriate to announce the sentence in front of members of the Ship’s Company but does wish the sentence to be fully understood, the CO should consider conducting a Clear Lower Deck of the Ship’s Company or relevant Department and explaining the sentence and reasons for it in the absence of the accused. This method has considerable benefits: it can be timed to occur after the accused has commenced the sentence, reducing the artificiality involved in a sentence of detention being announced but not implemented; it allows the CO to explain the context and reasons for the sentence – and explain what he or she expects of the Ships Company in future; and the risk of an intemperate response from the accused or others may be reduced. The normal management practice by which the ship’s senior management (XO, EWO, HOD, DOs) may informally debrief the Ship’s Company as to the effect of a severe punishment, eg. on loss of pay, pension, eligibility for the LS and GC medal, promotion opportunity etc, continues under AFA and is to be encouraged. In all cases COs will wish to consider publishing punishments awarded on Daily Orders. Where an accused subsequently appeals, the fact of the appeal and the outcome of any appeal should also be published. Consideration should be given to explanatory notes following conviction at CM.
SECTION 14 - GUIDANCE ON PARTICULAR SENTENCES

2079. Dismissal

Dismissal is not available as a summary punishment under AFA 06. However, it remains the responsibility of the accused’s CO to take the necessary administrative actions that give effect to dismissal where it is awarded by the CM. For certain offences, for example drugs offences, COs should consider administrative discharge (see FLAGO Chapter 16 and BRd 3(1) Chapter 54). In addition, where a sentence of imprisonment is awarded by the CM, administrative discharge must be considered and is the responsibility of the accused’s CO to action. Administrative discharge may also be considered where a CM has not imposed dismissal but the CO considers discharge is appropriate. In all such circumstances, legal advice should be sought.

2080. Detention and Short Term Detention

a. **Sentencing Approach.** The correct approach is to consider first whether a proved offence justifies a sentence of Detention, second, if so, what period, and third, whether the sentence should be committed or suspended. Legal advice must be taken if a CO is considering a sentence of detention, no matter what length.

b. **Is a Sentence of Detention Justified?** There are restrictions on Award of Detention. A CO may only award detention summarily to personnel of or below Leading Rate or Lance Corporal RM. The CO may not summarily sentence a PO or Cpl RM, or above, to detention. The CO may not award a sentence of detention, of any permitted length, to a Leading Hand/Lance Corporal unless he or she has applied for and been granted Extended Powers of Punishment. When awarding a sentence of detention to a Leading Hand/Lance Corporal, the CO should consider, separately, whether or not to award a separate sentence of Disrating/Reduction in Rank; the CO may (but need not) award that accompanying punishment. Re-promotion following reduction is governed by Chapter 70 and requires a minimum 12 months Career Check free service. In any event, during the time that any Naval Service offender is in custody at MCTC he or she is for all purposes treated as being of the rank or rate of able rate or marine.

c. **Offences Justifying Detention.** Advice on this aspect is given in the MSL Chapter 14 under each specific offence.
d. **Length of Sentence.** When calculating the appropriate length of sentence, COs should take the following matters into consideration:

1. **MCTC Colchester Training Programmes.** Sentences of Detention for RN/RM personnel will normally be served at MCTC Colchester. The minimum effective course of corrective training at MCTC is 21 days. MCTC will take personnel into Service Detention for periods of less than 21 days but the corrective training value and rehabilitative effect will be severely limited. After 21 days, the next natural training step is set at 28 days. Where COs conclude that, in all the circumstances, a lengthier period of training is merited, consideration should be given to awarding a sentence in excess of 28 days. In cases where the CO believes that the offender is not likely immediately to respond to corrective training and taut discipline, consideration should be given to awarding 36 days. The next steps up in length of sentence are generally accepted as being 42 days, then 60 days, and finally the summary maximum of 90 days.

2. **Remission.** Remission is not granted for sentences up to 24 days. Beyond 24 days 1/3 sentence is automatically remitted to a minimum sentence of 24 days. Therefore, for sentences of 25 days to 36 days the sentence that will be served is 24 days, for a sentence of 42 days it will be 28 days, for 60 days it will be 40 and for 90 days awarded 60 will be served. For sentences of detention over 90 days, further remission of up to 1/6 of the portion of the sentence over 90 days may be earned for exceptional behaviour. Sentences of over 90 days can only be awarded by CM.

3. **Intermediate Periods of Detention and Time Spent in Custody.** COs retain the lawful authority to award a sentence of less than 21 days, but must in all cases consider suitable alternatives. It will be the exception to the norm that other punishments, or a combination thereof, are not far more appropriate and effective. In addition to seeking legal advice, where sentences of less than 21 days are under consideration, COs must contact the RPC to ensure suitable arrangements can be made for detention either at MCTC or, if necessary and/or desirable, regional facilities run by the Army. It should be noted that regional facilities may well require additional supervisory manpower to be provided by the discharging unit, and for operational / logistical reasons, RPCs may not be in a position to provide either transport or escorts. Time spent in pre-trial custody after charge should be credited against any sentence of detention (see the MSL Chapter 13). COs should award the full sentence of detention and MCTC will calculate the time remaining where time spent in custody is to count as time served. There is no legal requirement for time spent in custody before charge to be counted against any period of detention subsequently awarded but a CO may take such periods into account when determining the length of a sentence to be awarded. Periods spent under arrest during interview will usually be so short as to be not worthy of taking into account in calculating the 'discount'.
(4) **Travelling Time.** COs should take into consideration the impact of travelling time when determining whether the period of detention proposed is adequate, subject to the principle that the length of detention proposed must still be appropriate to the offence and to the offender. Therefore, even where a sentence of 21 days detention or more would be appropriate, an alternative punishment might be better where it would not be possible to transfer the offender to and from MCTC within the requisite timescale.

(5) **Escorting Detainees.** Historically, RNP facilitated the transportation of Detainees Under Sentence (DUS), however, this is now a unit Command responsibility. Guidance is contained within JSP 837 Part 2 ‘Service Code of Practice – Custody and Detention and Committal to Civil Prison’. It is advisable that, where possible, the I/C Escort is of superior rank or seniority to the detainee. The driver should not routinely be counted as an escort. For example, a unit sending a detainee to the MCTC by a road move would require: I/C Escort, second escort, and driver (total of three personnel) in order to safely move the detainee. RPCs are available to provide support and guidance where concerns exist that a detainee is likely to become violent and/or abscond prior to successful committal to MCTC or HM Prison.

e. Sentences of 90 days must be reserved for the most serious of cases. Command Advisers (LO, DLO, Adj/G1 Disc Adv or EA) should consider carefully, on the basis of the papers and any admissions made in interview, the likelihood of the accused opting for Summary Hearing and admitting the charge. In the majority of serious cases it will be more appropriate to refer the matter to the DSP for trial by CM (without giving the option), thereby allowing the CM full sentencing powers rather than being capped to the sentencing powers of the CO.

### 2081. Suspended Sentences

a. Once a sentence of detention has been decided upon the CO must then consider whether the sentence should be suspended or committed. The MSL Chapter 13 describes the factors that should be taken into account when making this decision.

b. A sentence of detention may be suspended for a period of a minimum of 3 months and up to 12 months (the Operational Period). The CO must consider the length of time it is likely to take the offender to reform when deciding the Operational Period. The period of Detention awarded may inform the CO as to the most appropriate period of suspension. As a rule of thumb, the longer the sentence awarded, the more serious the offence, and the more likely it is to be necessary to suspend the sentence for a longer period.
2082. Activation of Suspended Sentences

a. A CO may activate a suspended sentence of detention which has been awarded at a Summary Hearing or by the SAC if the offender is found guilty of an offence in a civilian court or when an offence which has been found proved at a Summary Hearing was committed during the operational period of the suspended sentence. The MSL Vol 1 chapter 9 gives full details of the procedure for activation during a Summary Hearing when a service offence is found proved and during an activation hearing following a civilian conviction. In all cases where a CO is considering activating a suspended sentence of detention legal advice must be sought. As stated, Disrating/Reduction in Rank is incurred automatically by activation, where this was not awarded as a separate, optional punishment with the (suspended) detention.

b. Whenever a CO intends to activate a suspended sentence and at the same time award a further sentence of Detention, the two may be ordered to run concurrently or consecutively in accordance with the MSL Chapter 13. The maximum of both these sentences must not exceed the CO’s powers of punishment, ie. 28 days, or 90 days if extended powers have been granted.

2083. Alternatives to Sentences of Detention – Fines, Stoppage of Leave, Restriction of Privileges and Service Supervision and Punishment Order

Under AFA 06 COs may award up to 28 days’ detention without reference to higher authority. Before sentencing an offender to a short period of detention the CO should consider whether an alternative punishment would be more effective, both for the offender and the unit. A combination of a fine, stoppage of leave (SoL) and restriction of privileges (RoP) will have a similar financial effect on the offender and limit the offender’s liberty whilst retaining them on board. For more serious offences where detention of 28 days or more is being considered a Service Supervision and Punishment Order (SSPO) might be an appropriate alternative. The table below lists possible alternatives to Detention, and should be read in conjunction to the MSL Vol 1 Chapter 14. The Table should be read as a whole eg. 7 days’ detention = 14 days SoL + 14 days concurrent RoP + a fine equivalent to 7 days’ pay:

Table 20-6. Alternatives to Detention

2084. Deployed Ships - Alternatives to Committed Sentences of Detention

When it is considered that a committed sentence of detention is the correct punishment, deployed ships should not suspend a sentence solely on the grounds of cost of air transport, difficulty of arranging transport to the UK or problems of providing escort. In such cases suspension is appropriate only if no transport is available or if duration of passage would be so excessive as to render time spent in MCTC too short to be effective. In such circumstances an SSPO or a combination of a fine, stoppage of leave and restriction of privileges may be considered as alternatives, in accordance with the comparable tariff in the table above.

2085. Financial and Other Consequences of Detention

It is essential that personnel under corrective training are made aware how significantly a sentence of detention will affect them financially. Consideration should be given to bringing to the attention of Ships’ Companies the consequential, and in particular the financial, effects of a sentence of detention by a note in Daily Orders after an offender has been sentenced to detention.

2086. Leave on Completion of Detention

The Commandant MCTC does not have authority to grant leave on completion of sentence. During main leave periods, the units to which an offender is to be assigned should advise MCTC of the date by which the offender is required to join. This advice must specify:

a. The authority for leave.

b. The authority for leave travel if applicable.

2087. Commencement of Sentence of Detention

a. Before sending personnel to MCTC, COs are to ensure the offender has all necessary kit and is prepared in all respects for the training regime. It is the responsibility of the committing CO to ensure that all necessary administration is complete – see JSP 837 The Code of Practice for the Management of Personnel Within Service Custody and Committal to Service Custody Premises and Civil Prisons.

b. COs should note carefully the provisions of the MSL Vol 1 Chapter 15 paragraphs 65-66, which determine the date on which a sentence of detention begins. These provisions explain when ordinarily a sentence of detention begins and when the sentence actually begins if the accused exercises his or her right to appeal to the SAC.

c. All relevant paperwork must accompany the individual sent to detention. This will be examined by MCTC on arrival and sets out the legal authority for them to take the person into custody. If paperwork is missing or incorrectly completed, MCTC may have no option but to return the individual to their parent unit.
2088. **Forfeiture of Seniority**

COs with extended powers of punishment have the ability to award the forfeiture of up to all of an officer’s seniority as a summary punishment. If a CO is considering forfeiture of seniority he or she should consider the financial and career consequences for the officer involved, consulting Career Managers as appropriate. In all cases legal advice must be sought.

2089. **Disrating/Reduction in Rank**

A CO may, with extended powers of punishment, disrate or reduce the rank of a Warrant Officer or non-commissioned officer of or above the rank of Leading Hand or Corporal. Extended powers of punishment are not needed for a CO to reduce in rank a Lance Corporal. A CO may only remove one acting or substantive rank or rate under this punishment; multi-step reductions are not allowed.

2090. **Service Supervision and Punishment Order (SSPO)**

The effect of this punishment is described in full in the MSL Vol 1 Chapter 13, and is similar to that of the former Naval punishment of Reduction to the 2nd Class for Conduct. It is designed to punish and reform a persistent offender without the need to award detention. It can be awarded summarily by the CO to an able rate or marine without reference to Higher Authority. When awarding the punishment the CO will impose whichever of the discretionary requirements of the punishment he or she considers necessary (see the MSL Chapter 13 paragraph 71b). The CO may delegate, in writing, responsibility to permit the offender to leave the ship, unit or establishment or enter specified areas to another officer not below the rank of Lt RN/Capt RM or equivalent, and it is recommended that he or she does so to appropriate duty personnel including the DCO/OOD/Duty Staff Officer (DSO) and to the XO/OC as appropriate to the unit (see FLAGO 1607). Where the requirement to undertake extra duties is imposed, the CO may detail what extra duties are to be performed (for example extra work or training), for how long and when. However, the CO is permitted to delegate, in writing, this function to a person of or above the rate/rank of CPO/CSgt. He or she may wish to prescribe the routine to be followed in SGOs/USOs (see recommended routine in Table below), but it is also recommended the function be delegated to the XO/Adjt/MAA/Cox’n/OOD/DSO/CQMS and the OC as appropriate (see FLAGO 1607) in order to cater for circumstances in which, for any reason, the normal routine cannot be followed. The DPO/DSNCO (if Sgt) will be unable to allocate the work or duties to be performed, but will have to seek the approval of the OOD.

2091. **Stoppage of Leave and Restriction of Privileges – Routines**

a. Stoppage of leave and restriction of privileges (ROP) will usually be the most commonly awarded punishments. Stoppage of leave will require the offender to be confined to his or her ship or establishment and to muster periodically during the period of the punishment. Restriction of privileges will require the offender to muster periodically and perform extra work, training or any other Service duty (up to 5½ hours per day). Both punishments may be awarded individually, or in combination.

b. As far as possible units should strive to achieve consistency in the punishment routine within the unit, and any routine worked must be clearly distinguishable from sanctions awarded under MAA. It is suggested that the relevant routines are published in SGOs/USOs. However, adjustments may have to be made, depending on the unit’s programme and the availability of staff to manage the routine, to achieve a punishment routine that is both relevant and contemporary.
c. In many cases it may be desirable for extra work to be carried out within the offender's department. Whilst it is ultimately for each ship and establishment to determine its own routine, the following table provides a model which can be adopted or adapted:

**RN Ship/Establishment Routine:**

</tbody>
</table>
Notes:

* If a night watch is kept then secure at 2000.

1. Specify place to muster.

2. Direct offender to muster in correct rig of the day, which is to be clean & in good repair.

3. Instruct offender to produce ‘excused chit’ in advance of foreseeable absence from time and place of muster.

4. Following from Note 3, if a night watch is kept the offender may be excused the first muster, but the DPO must be informed the day before.

5. If the offender is required for work within his or her own department at the time of a muster, this must be agreed beforehand between the DepCO and the XO/MAA/DCO/DSO/OOD or OC responsible for deciding which duties are to be performed. The presumption is that an offender should attend a muster and then return to his or her departmental work.

RM Unit/Establishment Routine:

Other Ranks on SoL and/or RoPs are to report to the DSNCO at the Unit/Establishment Guardroom (or as otherwise detailed) at the following times daily:

</tbody>
</table>
Notes:

1. Other Ranks placed on RoPs will be informed by the DSNCO of the period(s) of extra duties, work or training during non-working hours to be completed (no more than 5 and half hours in any one 24-hour period). The maximum number of working hours (16 in any 24-hour period is not to be exceeded). Note: Where the requirement to undertake extra duties is imposed, the CO may detail what extra duties are to be performed, for how long and when. However, the CO is permitted to delegate, in writing, this function to a person of or above the rate/rank of CPO/CSgt. Therefore a DSNCO of Sgt rank must obtain authorisation from the Duty Officer when considering extra work for ranks on RoPs outside of that which the CO or an Officer authorised by him or her has already laid down.

2. If an offender has to keep a night duty he or she is not to be paraded before the start of his or her normal working day (ie. normally excused the first muster time).

3. The offender is to report for each parade in the rig of the day or as directed in Unit Standing Orders or unless directed otherwise by the DSNCO.

4. If the offender is required for work at his or her normal place of work at the time of a muster then his or her Tp Sgt/HOD should liaise with the DSNCO/Duty Officer to de-conflict. The presumption being that the offender should attend a muster and then return to his or her place of work.

5. The offender is to parade in MTP if he or she is due to carry out work or training. At the other times he or she parades he or she can be detailed to parade in for example No 1 Blues, No 3 Lovat dress or No 4 Combat Dress with CEFO.

2092. Delegations Relating to Stoppage of Leave/SSPO

The CO may delegate, in writing, the function of granting permission to leave the ship, unit or establishment to an officer under his or her command of or above the rank of Lt RN/Capt RM or equivalent whilst an offender is under SoL (see the MSL Chapter 13 para 132). It is recommended this be delegated to duty personnel including the DCO/OOD/DSO and to the OC as appropriate to the unit (see FLAGO 1607). He or she may also delegate, in writing, the function of deciding which extra duties the offender must do to a person under his or her command of or above the rank/rate of CPO/CSgt (see the MSL Chapter 13 para 140). It is recommended the routine be set out in SGOs/USOs, but the function should also be delegated to the XO/Adjt/MAA/OOD/DSO/CQMS/Duty SNCO and the OC as appropriate (see FLAGO 1607) in order to cater for circumstances in which, for any reason, the normal routine cannot be followed.
2093. **Deferral of Stoppage of Leave and Restriction of Privileges**

Hearing Officers awarding SoL and RoP should note that the commencement of these punishments may be deferred by up to 28 days, and the punishment can be applied on specified days within a further 28 days. The purpose of this is to give Hearing Officers discretion to maximise the effect of the punishment by applying it only on days when the ship is alongside or the unit is on stand-down, ie. the punishment does not have to be conducted in one continuous block within the parameters above. Deferral is therefore rarely appropriate for shore establishments or ships alongside for a protracted period. When awarding deferred punishments on specified days, Hearing Officers should bear in mind that the punitive effect may be more severe than when the punishment runs continuously from award.

2094. **Supervision of Service Supervision And Punishment Order, Stoppage of Leave and Restriction of Privileges**

Hearing Officers are to ensure that all personnel awarded an SSPO or a combination of SoL and RoP carry out the routine under the close and careful supervision of a Senior Rating/SNCO.
SECTION 15 - THE ADMINISTRATIVE CONSEQUENCES OF PUNISHMENTS

2095. Requirement to Consider Administrative Consequences

a. The table at Annex 20C summarises the administrative consequences of punishments awarded under AFA 06. It lists the administrative actions which are to be taken automatically (obligatory), and those which may be taken (optional), when a member of the Naval Service is punished under AFA 06. This includes forfeiture of LS&GC medal or the MSM, forfeiture of GCBs and the imposition of a Career Check (obligatory only).

b. The potential imposition of administrative action following a conviction by the CM or the SAC, or a finding by a CO that a charge is proved, is triggered by the punishment awarded. Where the sentence was awarded by the CM or the SAC, the offender’s CO should consider whether any such action should be taken. All administrative actions dealt with under this article require approval, save that a Captain Royal Navy/Colonel Royal Marines may order forfeiture of one GCB and a CO may impose a Career Check without seeking such approval.

2096. Meritorious Service Medal

The award and forfeiture of the MSM is governed by Chapter 9 of JSP 761, which should be referred to where an offender holds the MSM.

2097. Forfeiture of Long Service and Good Conduct Medal

The regulations for the award and forfeiture of the LS&GCM were revised with effect from 1 Oct 16. An individual who has been awarded the LS&GCM and subsequently incurs an entry on his/her disciplinary record cannot now forfeit the medal unless they are sentenced to imprisonment for a period greater than 6 months and/or are dismissed. Further details regarding the award and removal of medals is contained in JSP 761 Chapter 5. Under AFA 06 deprivation of the LS&GC Medal is no longer a punishment in itself. All circumstances giving rise to forfeiture of the LS&GC Medal are to be reported to the Naval Secretary (Honours and Awards).

2098. Forfeiture of Good Conduct Badges

As with LS&GC Medal, under AFA 06 deprivation of Good Conduct Badges (GCBs) is not a punishment. However, GCBs may be forfeit following disciplinary action. This preserves the previous position whereby under the Naval Discipline Act 1957 the Officer or court awarding a punishment was obliged also to consider whether deprivation of GCBs was obligatory or optional as part of the overall punishment awarded.

a. Obligatory Forfeiture. Forfeiture of all GCBs is mandatory whenever any of the following punishments is awarded under AFA 06:

(1) Imprisonment.

(2) Dismissal.

(3) Detention over 14 days.

(4) Suspended detention over 14 days.
(5) Service Supervision and Punishment Order.

b. **Optional Forfeiture.** Forfeiture of one or more GCBs is to be considered whenever a rating/other rank holding GCBs is awarded any of the following punishments:

(1) Detention up to 14 days.
(2) Suspended detention up to 14 days.
(3) Reduction in rank/disrating.
(4) Fine.
(5) Severe reprimand.
(6) Reprimand.
(7) Service Compensation Order.

2099. **Effect of Activation of Suspended Sentence of Detention on GCBs**

Where an offender has been awarded a short period of suspended detention, GCBs were not forfeit as a result of that punishment, and that punishment is subsequently activated either wholly or in part, by a CO or the CM or SAC, the CO should consider whether the circumstances merit forfeiture of GCBs. This action may be taken whether the offence triggering activation of the suspended sentence was dealt with by a civilian court, a Service court, or by the CO.

20100. **Factors to Consider when Forfeiture of GCBs is Optional**

Wherever forfeiture is optional the following factors should be taken into consideration:

a. **Punishment Awarded.** The more severe the punishment eg. the longer the period of detention or the greater the financial penalty, the more appropriate it may be to forfeit one or more GCBs. Noting that in some (in particular, joint) units short periods of detention may be awarded in preference to a combination of Restriction of Privileges and Stoppage of Leave, care should be taken to ensure GCBs are not forfeit as a result of relatively minor offences.
b. **Offence Committed.** The type of offence committed may influence the decision whether a GCB should be forfeit. Offences involving poor conduct in relation to the offender’s or another person’s duty may justify forfeiture of one or more GCBs, particularly if the offence was committed deliberately or involves dishonesty. In particular, Desertion (AFA 08 s.8) repeated or long absence without leave (AFA 06 s.9), failure to cause the apprehension of deserters or absentees (AFA 06 s.10), misconduct towards a superior Officer (AFA 06 s.11), disobedience (AFA 06 s. 12), using force against a sentry (AFA 06 s.14), serious neglect of duty (including sleeping on watch) (AFA 06 s.15(2)), malingering (AFA 06 s.16), making false records (AFA 06 s.18), conduct prejudicial to good order and discipline (AFA 06 s.19), serious or repeated drunkenness (AFA 06 s.20), ill-treatment of subordinates (AFA 06 s.22), and misapplying or wasting public or service property (AFA 06 s.25) may justify forfeiture of a badge or badges. In addition, any offence involving physical violence, dishonesty, criminal damage, smuggling, contravention of censorship regulations or possession of an offensive weapon will usually justify forfeiture. Failure to report any of the offences listed in this paragraph, in contravention of standing orders, is also a serious matter which may warrant forfeiture of a badge(s). The list of types of offence in this paragraph is not exclusive.

c. **Disciplinary Record.** Repeated offences may indicate that the offender is unfit to hold one or more GCBs. Conversely, where an offence can properly be regarded as out of character the forfeiture of a badge, and the associated impact on award of LS&GC medal, may be regarded as unduly harsh.

d. **Conduct.** Forfeiture of one or more badges may be appropriate where the offender has previously been subject to MAA instead of disciplinary action for similar incidents. The offender’s general conduct should also be taken into consideration. Any MAA taken against the offender in the current unit may indicate that the offender’s general conduct has fallen below the required standard and therefore no longer fit to hold one or more badges.

### 20101. Approval of Forfeiture of GCBs

Where forfeiture of GCBs is obligatory, prior approval to forfeit is not required. COs of the rank of Captain Royal Navy/Colonel Royal Marines and above may award forfeiture of one GCB without seeking approval. In all other circumstances application to forfeit GCBs must be made to the Higher Authority.

### 20102. Applications for Approval by Higher Authority

Where forfeiture of a GCB requires approval, the application is to be made in writing to the HA, utilising the form at Annex 20T. Where forfeiture of a GCB is optional and the CO subsequently orders that a GCB is to be forfeited, the accused is to be informed of their right to state a Service Complaint in relation to the matter.
SECTION 16 - REVIEW OF SUMMARY HEARINGS

20103. Review of Summary Hearings – Purpose and Method

a. AFA 06 requires the review of Summary Hearings where a finding that the charge has been proved has been recorded. Review ensures that no mistake has been made in law and that the punishment awarded is commensurate with the offence.

b. It is Naval policy that review will be conducted on behalf of the Defence Council by the Summary Hearing Review Cell (SHRC). The Defence Council has delegated all barristers on the staff of CNLS of the rank of Cdr RN and above as Reviewing Officers. Only these personnel may apply for leave to appeal to the SAC or, where the accused has already lodged an appeal, notify the SAC of relevant matters.

20104. After Hearing Actions – Preparing the Case for Review

After a charge is found proved at a Summary Hearing, unit staff are to perform the following tasks without delay to facilitate a timely review of the case:

a. Complete the JPA record in accordance with the Business Process Guide.

b. Complete Annex A v.9/16 (Summary Hearing Review) (available from the SHRC) and attach it to the JPA record; and

c. Assign the JPA case to the SHRC, granting them instant access to the whole record. (If connectivity issues preclude the use of JPA then the Annex A v.9/16 should be emailed or faxed to the SHRC and the remaining actions completed as soon as JPA connectivity is returned.)

d. After Hearing Actions are to be completed within 48 hours of sentence, or within 24 hours of punishment where detention (including suspended detention) or SSPO has been imposed.

20105. Actions by Summary Hearing Review Cell

a. A preliminary screening will be conducted by SHRC staff, who will check that the punishment was lawful, was within the powers of the person awarding the punishment and that the severity was not manifestly excessive for the offence proved.

b. Any practical difficulties which will lead to a delay in completion or transmission of the case papers to the SHRC is to be raised with them at the earliest opportunity.
c. If any potential discrepancy is detected the SHRC will call for the case papers. If they encounter a potential legal difficulty they will refer the case to a Reviewing Officer on the staff of CNLS of not lower rank than Cdr RN/Lt Col RM (usually CNLS SO1 Discipline Law). The Reviewing Officer will, where necessary, make application to the SAC for leave to appeal or notify the SAC of relevant matters. The appeal may be against sentence or against finding and sentence. The offender may abandon any appeal which has been referred to the SAC by the Reviewing Officer if he or she does not wish to take the matter further.

20106. Expedited Review of Sentences of Detention

COs must always seek legal advice when they are considering awarding a sentence of detention summarily. For all sentences of detention, no matter what length, the policy for the Naval Service will be that a preliminary review is to take place within 24 hours. If an offender opts to commence their sentence of detention immediately on award commencement should not be delayed pending review. COs are to ensure that case papers are passed to the SHRC with appropriate expedition.

20107. Contact Details for the Summary Hearing Review Cell

Email (MODNET): NAVY LEGAL-SHRC MAILBOX
SHRC i/c (WO1) 93832 5210 (02392 62 5210)
SHRC Admin (Discipline Process Queries) (LWtr) 93832 5859 (02392 62 5859)
SECTION 17 - REPORTING SERIOUS DISCIPLINARY AND PERSONNEL INCIDENTS

20108. Service Policy and Employment

a. The Naval Service, both as an employer and a public body, must take account of pending and completed civil offences in order to regulate the workplace, protect the legitimate interests of the accused and his or her colleagues, to maintain the discipline and ethos of the Service, to assist the Court and the criminal justice system, and ensure that public confidence is maintained.

b. QRRN Chapter 39 should be consulted together with this section.

20109. Reporting

a. In order to ensure that all personnel are aware of the requirement to report interactions with the criminal justice system, COs are to issue Standing Orders requiring a report in the following circumstances: any arrest, fixed penalty notice, summons, conviction, Police Caution, Anti-Social Behaviour Order (ASBO), Football Banning Order (FBO), reprimand or warning (for persons under 18, under the Crime and Disorder Act 1998).

b. Fixed Penalty Notices for motoring offences need not be reported.

c. Where a CO becomes aware of an allegation, pending case or conviction, he or she must consider whether the fact should be reported immediately to Higher Authority, following the guidance below. Where a civil case is brought to the CO’s attention, he or she should keep the progress of the case under active review – both to ensure proper and full support to individuals involved, and to update Higher Authority as required.

20110. Informing Navy Command HQ

a. COs are to report serious disciplinary and personnel incidents through the Chain of Command (CoC) and to other NCHQ stakeholders by completing the Report Form at Annex U and sending it to their immediate superior officer and Duty Fleet Controller (DFC), who will distribute it as appropriate. ‘Serious disciplinary or personnel incident’ should be interpreted to mean as follows:

(1) Any alleged offence listed in Schedule 2 of the Armed Forces Act 2006;

(2) Any serious harm to RN/RM personnel, or

(3) Any other personnel matter which is likely to attract media and/or Ministerial interest.
b. Serious disciplinary or personnel incidents can have significant ramifications for operational effectiveness and/or the reputation of the RN. As such the CoC and appropriate stakeholders within NCHQ must be made aware of a situation at the earliest opportunity to ensure a swift, appropriate and coherent response. The speed of response is particularly critical when details of the incident are already within the public domain or are likely to be so imminently. If in doubt whether or not to report an incident, COs or their representative must seek immediate advice from the DFC.

2011. Cases to be Reported

The term ‘serious disciplinary or personnel incident’ is broad and covers criminal and non-criminal conduct committed by or against RN/RM personnel. COs are empowered to exercise discretion in determining whether or not this threshold is met; examples of such incidents are outlined below, but this list is not exhaustive. In all circumstances, COs will have to assess the situation and consider the potential administrative and reputational ramifications for the Service.

If in doubt, units should seek advice from the DFC

a. A fatality;
b. Any incident where there is actual or potential media or Ministerial interest;
c. Any incident that has or could have been filmed and/or photographed and that is at risk of entering the public domain.
d. An incident involving the authorities of a host nation;
e. Significant injuries to one or more persons;
f. Domestic abuse;
g. Harassment/stalking;
h. Alleged sexual offences [alleged victim not to be identified];
i. Offences involving Children;
j. Drugs offences, that involve large numbers of individuals or large quantities;
k. Harm or damage to civilians or their property;
l. Arson;
m. Illegal possession/use of a firearm (inc. ammunition) or offensive weapon;
n. Significant fraud, especially if involving public property;
o. ‘Hate’ crimes;
p. The loss or damage of significant amounts of Service property;
q. Mutiny or desertion;
r. Initiation ceremonies or rituals involving alleged physical or mental abuse;
s. Mistreatment of Captured Persons.

20112. Types of offence that need not be reported to NCHQ

a. The following list of examples is not exhaustive and only intended to give a broad indication of the type of Service or civil offence which, when reported to the CO, is unlikely to be noteworthy or require further management outside the unit (at least until completion of the case). In cases of doubt ships/units are to contact the DFC and NAVY SEC-2 DISCIPLINE 1A:

(1) Minor motoring offences (including speeding, parking and fixed penalty offences).

(2) Less serious drink driving offences that have not resulted in accident/injury

(3) Low level assault on adults falling short of ABH.

(4) Police Cautions (except those for sexual offences or drugs), Anti-Social Behaviour Orders for infringements such as littering or abandoning cars and Football.

(5) Banning Orders for minor matters such as taking alcohol/fireworks to football matches.

(6) Minor dishonesty, non-possession of TV licences etc.

(7) Minor damage to property.

(8) Fixed Penalty Notices.

b. Additionally, the following incidents should be reported by using the established reporting routine:

(1) Navigational/Seamanship Incidents.

(2) Aviation Incidents.

(3) Operational Incidents.

(4) Serious Security Breaches/Incidents (including terrorism and espionage).
c. However, where there has also been a death in Service an Annex U report is to be submitted alongside the established reporting process.

20113. Updates as Cases Progress
a. The CO is to ensure that updates are forwarded to DFC as cases progress. Such updates will typically be required when:

(1) The precise charges and custody position become known.

(2) Detail of any next step (date of court appearance for hearing, bail, fine, formal caution issued, charges dropped, etc.) is known.

(3) The date, time and place of trial are known.

(4) Any significant Service disciplinary issues occurring while the individual(s) are awaiting trial (eg. AWOL or other offences).

(5) Any relevant welfare issues of the individual(s) become apparent

(6) The name and contact details of the officer or senior rating (usually the individual's Divisional Officer) who will accompany the accused to court for hearings to watch the trial and report back to NAVY SEC-2 DISCIPLINE 1A once the outcome is known.

(7) The outcome of each court appearance is known and should be notified to NAVY SEC-2 DISCIPLINE 1A by the unit on the same day directly after the court appearance (so that a timely adjustment can be made to the DNB ahead of fresh press enquiries and in preparation for any adverse coverage that may appear in the next edition of newspapers/news broadcasts etc.)

(8) There is any indication of known interest/coverage by local and/or national press reporters including television and radio and especially whether they were present in the courtroom.

b. This list is not exhaustive and if there is any material change to the case DFC should be informed at the earliest opportunity and by telephone if that is quicker or more convenient.
20114. Method of Reporting

a. COs are to inform their immediate superior officer and DFC using the Form at Annex U. Existing direction regarding reports to the DFC remains extant and applies to all ships, submarines, Naval Air Squadrons, RM units and establishments of the Fleet, namely:

"The Duty Fleet Controller (DFC) is the first point of contact for any accident or incident, and any event which may attract the attention of Flag Officers, Ministers or the news media. Out of Hours, the DFC is also the first point of contact for all Fleet business except submarine operational matters, for which the Duty Submarine Controller (DSMC) is the first point of contact."

b. Reporting procedures for the following, as set out in this chapter also remain extant: alleged sexual offences; alleged Schedule 2 offences or those committed in 'prescribed circumstances' under the Armed Forces Act 2006; or for those appearing before civil courts.

20115. Allegations of Sexual Offences

Where a CO receives an allegation that suggests that a sexual offence may have been committed or that there may be a sexual element to an offence, legal advice must be sought. COs, NCHQ, Career Managers and Welfare Staffs have specific responsibilities in cases involving allegations of Sexual Offences (whether these allegations are being investigated by Service or civil police). Direction and guidance is contained in Section 22 of this Chapter.

20116. Media Attention and Defensive News Brief (DNB) produced by NCHQ

COs should not underestimate the effect that media attention can have in turning what is a minor incident into something that is perceived as serious. This is particularly the case where photographs or film of an incident exists and may have been provided to the media. Where any doubt exists as to whether an incident has been notified to the media, this reporting process should be followed.

a. A Defensive News Brief (DNB) using the information supplied by ships/units will only be produced when the NCHQ stakeholders (NAVY SEC DISCIPLINE, POL SEC, MEDIA, CNLS)) agree that these two conditions are met:

(1) Based on past experience the situation is assessed as having a strong likelihood of there being press/media interest in the case at either a local or national level;

(2) The press interest in the incident is assessed as being likely to result in adverse coverage and therefore constitute a risk to the reputation of the Naval Service that cannot be allowed to go unanswered when media ask for the MoD response to news coverage or proposed news coverage.

---

8 BRd 9467 Fleet Administrative and General Orders Article 0116.
9 BRd 3(1) Article 20013.b, Article 20123, Chapter 20 Section 22.
10 BRd 3(1) Article 20013.a.
11 BRd 3(1) Articles 20117- 20118, and 20120-20121.
b. All the types of offence listed at Para 20111 above can warrant a DNB to be prepared for issue at the most suitable stage of the proceedings, and the question of when is an important consideration and subject to agreement between the relevant NCHQ stakeholders.

c. Other than for the typical exceptions listed below a DNB will only be produced when an enquiry is received from the Press or when charges have been raised by the Police. In all these exceptions, and any others on which NCHQ discretion may be used, a DNB will be produced as soon as sufficient accurate and reliable information is notified by the ship/unit and before charges are brought:

(1) Incidents happening overseas.

(2) Fatality or serious injury.

(3) Firearm/weapon incidents.

(4) Sexual offences where there is a particularly predatory element.

(5) 'Hate' crimes.

Any case where the individual, their family or their ship/unit will require media guidance/assistance from NCHQ Media/Comms (ie. media shielding).

d. The DNB consists of two or sometimes three parts, the first being the Background which is not for release and explains the details of the alleged incident; the second part is the Line To Take (LTT) forming the response to enquiries that the MOD is able to make without compromising future proceedings, the privacy/anonymity and human rights of those involved; in some cases it will be appropriate to have a third section Q&A brief with the answers to anticipated lines of questioning ready prepared some of which will only be used if pressed.

e. Although a copy of the DNB will be sent to the ship/unit for information any enquiries received from the press should be referred to NAVY MEDIA for the appropriate handling. The DNB will be updated whenever significant developments are reported to NAVY SEC-2 DISCIPLINE 1 by the ship/unit and this should happen promptly after the new information is known.

20117. Ministerial Submission (Min Sub) Produced by NCHQ

a. A Min Sub in this context serves the purpose of alerting the relevant Minister’s Private Office to an incident involving naval personnel that could break in the Press with news that it is thought will reflect badly on the reputation of the Royal Navy as well as the wider MoD and in extremis the UK Government. With the appropriate lines in place and the relevant background to the incident the Minister will not be caught unawares if the matter is addressed to him/her either in Parliament, by the media, or by communication direct with the Private Office.
b. Determining the requirement for and timing of a Min Sub will be agreed between Navy Sec Discipline and Pol Sec on a case-by-case basis, however based on past experience the criteria that have most frequently been found to make this necessary are as follows:

1. Criminal incidents occurring overseas especially in EU countries, countries of NATO allies and countries where diplomatic relations may be sensitive and the British Government as well as the department may be caused embarrassment.

2. Serious crimes that reflect badly on the standard of conduct of naval personnel when they are off duty.

3. Serious crimes that have a particular relevance to current issues already in the news.

4. Serious crimes that can be viewed as sensitive in the current political climate.

5. Serious crimes involving the abuse of young recruits to the Naval Service.

6. Serious crimes involving equality and diversity issues.

c. One or more of these criteria may be applicable to a particular case but one can be enough to trigger the requirement for a Min Sub to be prepared. In many less-serious cases it will be sufficient for the Private Office to be alerted by a copy of the DNB being sent through to them.

d. When a case clearly requires a Min Sub a submission will be made to the Private Office as soon as sufficient detail of the case is obtained from the ship/unit and further updates provided whenever significant developments occur. NAVY SEC-2 DISCIPLINE will prepare the draft for agreement with NAVY MEDIA/COMMS and clearance by NAVY SEC-HD.

e. The Min Sub for reporting of discipline matters follows the usual format we are given to use and is to include as an annex the current DNB for the case. Particular care will be taken to ensure consistency between the Min Sub and the DNB although it is possible that on occasion it will be appropriate for the background information in the Min Sub to contain rather more information for the Minister than is made available to the NCHQ Media and the MoD Press Office in the DNB. Information provided as background is on close hold as it will likely include sensitive personal data and therefore be subject to data protection rules; it could also include information that is sub judice and will never be disclosed without the permission of the author.
SECTION 18 - DIVISIONAL ATTENDANCE AT COURTS

20118. Guidance for Attending Officers

a. This guidance should be read in conjunction with BRd 2 Art 3903.

b. If a member of the Naval Service is to appear in the Crown or Magistrate’s Court, an officer (usually the Divisional Officer/Troop Commander (DO)) should normally attend. Divisional representation from another ship or establishment better placed than the accused’s own may be arranged. For minor offences dealt with in the Magistrates Courts it may not be necessary for the divisional staff to attend. Guidance may be sought from the Legal Adviser.

c. Prior to attending court, DOs should receive a brief from the Command Adviser, Adjutant or G1 Adviser on the purpose of their attendance, the information they may give the court, and the information they must obtain from the court. They should wear smart plain clothes in court.

d. Attending Officers should be ready to assist the court in the following areas:

(1) **Character.** DOs may testify as to the person’s character. Where available they should take a copy of the rating’s appraisal reports to court to assist them, but these should not be given to the court unless the person consents or the court so directs. The Formal Disciplinary Record (including print of JPA discipline record/S3300D Conduct Record (where still held)) should not be taken to, or given to, the court.

(2) **Pay Details.** Broad details of pay should be obtained from the UPO/JPA.

(3) **Likely Penalty.** A court may be particularly interested to know whether an individual is likely to be discharged from the Service or whether the Service would be able to accommodate someone who has been awarded a Community Sentence. The decision on discharge from the Service lies with the CO and higher authority and will take into account many factors. The DO cannot give anything more than a broad answer. A useful line to take, both to the court and to any press, is as follows:

“In line with the principle that any employer is entitled to consider the effects of a conviction in a civilian court upon an employee’s position, the Royal Navy/Royal Marines reserves the right to take any administrative action against any Service personnel so convicted. The type of action will very much depend upon the nature of the offence and how it reflects on the person’s character and reputation, and in serious cases could result in termination of service.”
(4) Payment of a fine through deduction from pay is not allowed save in exceptional circumstances. The responsibility for paying the fine remains the individual’s, and the court will usually allow payment by instalment. However, in certain circumstances the Defence Council may order deductions from a person’s pay in satisfaction of the amount ordered by a civilian court. See the MSL Chapter 20 (Forfeitures and Deductions) and JSP 754 for further guidance.

(5) Bail. If the court has to decide between remanding the individual in bail or in custody, the individual should be encouraged, through his or her legal adviser, to ask for bail. Courts have a variety of possible bail conditions but may assume, incorrectly, that the Service can supervise such conditions. The Service can usually provide the individual with Single Living Accommodation in a suitable area, but no undertaking can be given to the court that the Service will supervise bail conditions. If the court appearance is abroad there is a strong Service interest in the individual being granted bail.

(6) Community Orders. The Community Order (see note below) is the sentence of the court, not of the Service, but a court may inquire whether, if the rating were retained, a Community Order would be consistent with Naval Service. As a general rule no assurance should be given to a court that an individual’s duties can be arranged to allow compliance with a Community Order. It is, therefore, important that the court is informed of the individual’s Service commitments. Where, however, a Community Order can be carried out over evenings and weekends without detriment to Service duties, the imposition of a Community Order, instead of a custodial sentence, is to the benefit of both the Service and the individual. Normally a Pre-Sentence report (written by a Probation Officer) will be requested before such a sentence is imposed. The Probation Officer (if at court) may seek assistance from the DO.

**Note.** Courts are able to choose different elements to make up a bespoke Community Order which is relevant to the offender and the crime(s) they committed. There is a range of requirements available within a Community Order including: unpaid work, participation in specified activities, participation in programs aimed at changing offending behaviour, prohibition from certain activities, curfew, exclusion from premises or locations, residence requirements, drug treatment, alcohol treatment, supervision and (for offenders under 25) attendance at a centre. For offenders under 18, youth rehabilitation orders may also be available.
(7) **Suspended Sentences of Service Detention.** In light of a subsequent conviction for an offence, AFA 06 enables COs to commit to detention those already under a suspended sentence of detention where the sentence was awarded summarily or by the SAC. Such action is NOT a consequential penalty, but part of the summary discipline process. In addition, where the offender has committed an offence whilst under a suspended sentence of detention (or imprisonment or a detention and training order) awarded by the CM, the CM has the power to activate the sentence. COs should report such offences to the Court Administration Officer, and the DSP will decide whether to apply for CM activation proceedings. DOs should be prepared to advise the civilian court that such action is a possibility which may be considered by the CO, and should note any comments made by the court in relation to the matter. However, no undertaking should be given as to whether such action will be taken or the likely outcome of such proceedings.

e. DOs should take a blank copy of Form C57 to the court. Ships and establishments are advised to produce a DO’s Attendance at Court Proforma to ensure that the CO is provided with all the relevant information. In summary, the DO should:

1. Establish the circumstances of the offence and arrest.
2. Record the details of the court, and the date and time of the court appearance.
3. Record the wording of the charge(s), including the Act and Section.
4. Record the plea.
5. Record the sentence of the court.
6. Summarise the court’s sentencing considerations.
7. Provide an immediate update to NAVY SEC-2 DISCIPLINE 1A where the case meets the criteria mentioned in Para 20111.
f. In a few isolated cases, Court ushers have reprimanded Assisting Officers for taking written notes of court proceedings. For clarity, those Court ushers have been misguided. The Criminal Practice Directions which are issued for use in civilian courts make clear that so long as it does not interfere with the proper administration of justice, anyone attending court ‘may quietly take notes, on paper or by silent electronic means’\textsuperscript{12}. Assisting Officers, if challenged by a Court usher, should highlight this fact to ensure that they are able to take a full record to report back to the accused's CO. In exceptional cases, the Judge may prohibit note taking ‘if that is necessary and proportionate to prevent unlawful conduct’ or there is reason to believe that the individual(s) are in fact engaged in the transmission of live text-based communications\textsuperscript{13}. The default position therefore is that those attending public court hearings should be free to make notes of what occurs without seeking permission from the Judge unless the activity is likely to interfere with the course of justice.

g. Court Clerks are generally helpful and approachable; once the Judge or Magistrate has left the courtroom the DO can speak to the Clerk.

h. It is normal practice for the accused's name and address to be disclosed in court and many journalists will subsequently report these details in the media. Attending Officers should ensure that the accused is aware of this fact and encourage him/her to raise any resulting security concerns with their legal representative (or with the court directly if they are un-represented). In certain circumstances, it may be possible for the court to make an order banning publication of the accused's identity and/or address details.

\textsuperscript{12} Criminal Practice Direction 1 paragraph 6D.1.
\textsuperscript{13} Criminal Practice Direction 1 paragraph 6D.2.
SECTION 19 - ADMINISTRATIVE ACTION FOLLOWING CIVIL CONVICTION

20119. Guidance on Dealing with Civil Convictions

a. Regulations relating to the reporting of civil convictions are contained in BRd 2 Chapter 39, which should be read in conjunction with this Section.

b. The purpose of this Section is to outline the criteria to be applied by COs and Higher Authorities in determining whether or not to take administrative action against a Service person who has been convicted of an offence in a civilian court, either within the UK or abroad. This is referred to as a Service Penalty. Such action is not a further punishment but enables the Service, as an employer, to decide whether in light of a civil conviction an individual is fit to remain in the Service, retain their rank or rate or to retain an unblemished Service record. The criteria have been carefully drawn up and Service Penalties should be applied consistently. A key aim of the Service Penalty is to achieve comparable consequences to those which would have resulted from a conviction under AFA 06. The Service is also entitled to take into account character and conduct when considering whether individuals may hold superior rank or rate, or be employed in positions of particular authority. Legal advice must be sought in all cases, even where the CO considers that a Service Penalty should not be awarded. In the case of officers, Censure action (or administrative discharge as appropriate) will be considered in accordance with this Chapter. Form C57 should be used to record officers’ civil convictions and censure action taken (including no censure).

c. The approach that a CO should take is as follows:

   (1) Consider the seriousness of the offence as indicated by both the charge sheet and the court’s sentence. Would the offender have been dismissed or disrated/reduced in rank had he or she been sentenced under AFA 06? If the answer to that question is ‘yes’, then the Naval Penalties of Discharge SHORE, Discharge SNLR and reversion/reduction in rank should be considered respectively. If the answer to the question is ‘no’, go to sub-paragraph (2) below.

   (2) Would the offence, in combination with the offender’s Service record (his or her conduct record and annual appraisal) have attracted a punishment which would incur a Career Check in accordance with BRd 3(1) Annex 20C? If the answer is ‘yes’ then a Career Check should normally be imposed.

d. Table 20-7 outlines the Service’s policy in relation to Service Penalties in the light of a civil conviction for a particular offence. The penalties indicated are based on a moderately serious offence of its type committed by an offender with a satisfactory record. It is emphasised that the table is not a rigid tariff but only a guide, and that each case must be considered on its own merits. The legal advice will give consideration to the merits of each case, as well as the views of the CO, when advising on the appropriate Service Penalty.
e. If the CO proposes not to impose a Service Penalty, legal advice is still required and a C57 must still be raised to record the civil conviction and the CO’s reasons for not imposing a penalty. This is primarily because there is a requirement to keep a record of civil convictions, whether or not they lead to a Service Penalty. In addition, if a C57 is not raised and, for example, in preparation for a later Court Martial trial totally unconnected with the civil conviction, a prosecuting authority runs an antecedents check on the Police National Computer, the conviction will be shown but there will be no record of a C57 in the accused’s Conduct Record. The suspicion may then arise that the accused has committed an offence of not reporting a conviction by the civil power to Service authorities.

20120. Offences and Naval Penalties

The following Table gives the linkage between Service Penalties and offences.

**Table 20-7. Offences and Naval Penalties**

</table>
Notes:

1. The limits for alcohol in England, Wales and Northern Ireland are:
   - 35 microgrammes of alcohol in 100 millilitres of breath.
   - 80 milligrammes of alcohol in 100 millilitres of blood.
   - 107 milligrammes of alcohol in 100 millilitres of urine.

2. The limits for alcohol in Scotland are:
   - 22 microgrammes of alcohol in 100 millilitres of breath.
   - 50 milligrammes of alcohol in 100 millilitres of blood.
   - 67 milligrammes of alcohol in 100 millilitres of urine.

3. May be properly delegated Officers of no less than OF5 rank acting on the authority of the Naval Secretary.

4. The limits for alcohol in England, Wales and Northern Ireland are higher than the limits for alcohol in Scotland. As a matter of policy, and to ensure parity of treatment for Service personnel throughout the UK, the limits for England, Wales and Northern Ireland will apply for the purpose of Service Penalties.

20121. Offences Related to Unlawful Making and Storing of Images of Minors

a. The Service has seen a rise in the incidence of civil convictions for offences relating to the unlawful capture and storage of pornographic images. Such offences are typically committed contrary to s.1 The Protection of Children Act 1978 (where offences range from ‘making’ indecent images of children to the ‘distribution’ or ‘publication’ of such images) and/or s.160 Criminal Justice Act 1988 (possession of indecent photographs or pseudo photographs of children). There is a strong tri-Service presumption that sexual offending, including indecent images, will result in discharge. But each case should be considered on its own merits. COs are to note particularly the guidance at BRd 2 3906.4a over the entitlement of the Service to take action based on how the conviction reflects on the individual’s character and make appropriate recommendations in each case.
b. In making a recommendation, COs are to take into account the full facts of each case. Difficulties can sometimes arise when administering a penalty owing to the potential for inaccuracy in reporting the facts. It is important to establish the basis upon which a court sentenced an individual. The key facts to establish are the number of images ‘held’ and the seriousness of each image. Images are normally classified into three categories of seriousness ranging from Category A (most serious) to Category C (least serious). Units are to note in detail the precise charges and the total number of images involved, often represented by sample charges, as well as the level of seriousness of the images. Sentencing remarks in court will also usually give an indication of the overall seriousness of the offending behaviour and therefore care should be taken to accurately capture such remarks, word for word if possible.

c. The fact there are two variables makes it very difficult to establish a standard tariff; for example 15 images at Category B is not necessarily less serious a case than 10 images at Category A.

20122. Sexual Offences
   Conviction of a sexual offence (including one relating to indecent images of children) may involve the imposition of conditions and requirements which have a potential impact on employability and other management issues. The decision on Service Penalty in such cases is complex. Individuals are likely to be retained in the Service only in exceptional circumstances. COs must take early legal advice before dealing with such cases and be mindful of the procedures in Section 22 for the management of sex offenders.

20123. Custodial Sentences
   Where a civil conviction results in the award of a custodial sentence, including a suspended sentence, the decision as to what Service Penalty to award should be taken at no lower level than the Naval Secretary. In such circumstances it will usually be appropriate for COs to apply for the individual’s discharge from the Service, as by its sentence the court has indicated that a serious offence has been committed. In addition, it may be appropriate to forfeit pay in accordance with the MSL Chapter 20 (Forfeitures and Deductions). Legal advice must be sought in these circumstances.

20124. Committal for Contempt
   The Service Penalties authorised by QRRN 3906.4(d) are intended to follow criminal convictions and are inappropriate for individuals who are committed to prison for default in payment of court orders or for other forms of contempt. COs have the option of granting leave, from annual leave allowance, for the relevant period, if the circumstances justify it. Where it is inappropriate to grant leave or the offender’s leave balance is zero, COs should consider whether the offender’s pay should be forfeit for the period committed for contempt. See the MSL Chapter 20 (Forfeitures and Deductions) for guidance. Legal advice should be sought in these circumstances.

20125. Binding Over
   The power to bind a person over to keep the peace and/or to be of good behaviour can exist both where there has been a conviction (when it can be imposed in addition to a fine or punishment) and where there has not. In effect, the court requires the individual to promise to be of good behaviour for a specified period. Where no conviction is awarded, for instance, when the Magistrates decide not to try a complaint of a trivial nature but instead offer the option to be ‘bound over’, a Service Penalty cannot be imposed.
20126. **Absolute and Conditional Discharge**

An absolute or conditional discharge is an order of a Magistrate or Crown Court following a conviction for an offence. Service Penalty action should always be considered. An absolute discharge is imposed when the court decides that no further action is required beyond the finding of guilt. It may reflect the triviality of the offence, the circumstances in which it came to be prosecuted, or factors relating to the offender; this should be borne in mind when considering a Service Penalty.

20127. **Police Caution**

   a. If the Civil Police form the view that the offence is not serious enough to justify criminal proceedings, they have the discretion to issue a Police Caution (PC). However, increasing use of PCs is being made in cases which would be regarded, particularly when committed by Service personnel, as more serious. Typical examples are theft and unlawful possession of controlled drugs.

   b. Amendments to the Rehabilitation of Offenders Act 1974 make the determination of Service Penalties for PCs particularly complex. Since Nov 09, Simple Police Cautions become spent immediately after they are awarded, while Conditional PCs become spent on completion of the condition. Where PCs are considered spent, an employer is restricted in their ability to ask questions or take action in relation to that caution. There are a number of exceptions to the 1974 Act that apply to the Armed Forces, and in certain circumstances a PC awarded to some personnel, such as RNP, lawyers, medical personnel or those involved in youth training, may trigger appropriate administrative action. Legal advice should be sought whenever a CO becomes aware that one of their personnel has received a PC.

   c. No Service disciplinary action under the AFA 06 is to be instituted for an offence for which a PC has been given.

   d. **Scotland.** PCs are not issued in Scotland, where a Fixed Penalty Notice (FPN) may sometimes be awarded for minor offences. The Procurator Fiscal also has discretionary power to give an oral or written warning in suitable cases, rather than proceed to trial. These ‘Alternatives to Prosecution’ should be considered in the same way as a PC awarded in England and Wales. Where other Scottish penalties are awarded legal advice should be sought.

20128. **Fixed Penalty Notices/'Community Resolutions’**

FPNs, issued by Police Officers, and ‘Community Resolution’ measures do not normally require C57 action and will not normally attract a Service Penalty. But where the FPN/Community Resolution is made in relation to behaviour considered incompatible with Service life, such as for possession of illegal drugs, other administrative action may well be appropriate. Where a CO is considering administrative action following a FPN, legal advice should be obtained.

20129. **Giving Reasons**

The CO or Higher Authority deciding upon a Service Penalty must give reasons. These are to be explained to the individual when he or she is informed of the penalty.
20130. **Administrative Notes for Service Penalties**

A Service Penalty of a Career Check has no permanent effect on an individual under the age of 17 ½.

20131. **Civil Offences Committed during the Operational Period of Suspended Sentences**

Where an offender is convicted by a civilian court of an offence committed during the operational period of a suspended sentence of Service detention awarded summarily or of a suspended sentence of Service detention or imprisonment awarded by the CM, COs should consider whether the suspended sentence should be activated or whether the offence should be reported to the Court Administration Officer with a view to CM activation proceedings. In all such cases the legal adviser should be consulted.

20132. **Requirement to Allow Representations before imposing a Service Penalty**

Before imposing a Service Penalty, the individual is to be reminded of his or her right to make a representation (BRd 2 3906.8).

20133. **Right to Complain against Service Penalty**

After imposing a Service Penalty, the individual is to be reminded of his or her right to submit a Service Complaint (JSP 831 and BRd 2 Chapter 42). The effect of the penalty will not be held in abeyance pending consideration of the complaint.

20134. **Impact of Pending Appeal on Imposition of Service Penalty**

If the individual is appealing against his or her civil conviction or sentence, then reference should be made to BRd 2 3906.12.

20135. **Recording Service Penalties**

a. Service Penalties must be recorded in JPA Discipline under ‘Warnings and Sanctions’ (JPA W&S) in accordance with the relevant JPA Business Process Guide (BPG). This reporting includes the requirement for details of all civil convictions to be recorded in JPA W&S.

b. The Form C57 is to be used as a record of the CO’s action and for submission to Higher Authority when approval is required for the penalty proposed. Blank forms can be requested from the Regional Legal Office. It can also serve as a template in which to collate the details that will need to be input to JPA W&S. Instructions for the completion of Form C57 are at the section below.

c. In addition to details of Service offences/convictions, details of civil convictions (including the relevant rehabilitation period) and consequential Service penalties occurring after 31 Oct 09 can be printed automatically from JPA as the Formal Discipline Record (FDR) which is to take over from the paper Conduct Record.

20136. **Review of Service Penalties**

Service Penalties are reviewed by the Summary Hearing Review Cell (SHRC). A copy of the C57 is to be forwarded to the SHRC within 5 working days of completion.
20137.  **Form C57 Service Penalty for a Civil Conviction - Completion**
All sections must be completed as follows (those not applicable should be annotated as such):

a.  **Section A**

   (1)  Insert Date, Time and Place of Arrest.

   (2)  Insert Date and Time of which leave expired (including night leave). Insert Date and Time of return to Ship/Unit if the accused subsequently attends Court.

   (3)  Insert all Period(s) absent from ship/unit to attend court (use attached sheet if required).

   (4)  Insert date Convicted at Court or date of PC.

   (5)  Enter details of Court charged in or Police Station cautioned at.

   (6)  Insert rank/rate and name of person attending court on accused’s behalf.

   (7)  Insert Offence(s) in exact terms of Charge(s) (Attach sheet if necessary).

   (8)  Insert Order of the Court in exact terms of the order and state whether the fine/costs have been paid, if ordered.

b.  **Section B**

   (1)  Tick either ‘Yes’ or ‘No’.

   (2)  Tick either ‘Yes’ or ‘No’.

   (3)  Tick either ‘Yes’ or ‘No’. If ‘Yes’, insert rate to which Reversion is being considered.

   (4)  Tick ‘Yes’ or ‘No’. If Discharge SNLR, Discharge SHORE or Reversion is imposed, then a CC is automatically incurred.

   (5)  No longer applicable.

   (6)  Insert Rehabilitation Date: See separate instructions on Rehabilitation of Offenders. This date starts from the date of Conviction/PC at Section A4.

   (7)  In CO’s Observation box, in addition to the penalty awarded, ensure that the fact that the individual has been given the right to make a representation and right to make a complaint in accordance with paras 133 and 134 above is recorded.

   (8)  On completion of the Requestman Hearing the C57 must be signed by the Commanding Officer.
c. **Section C.** Completed by Higher Authority if required.

d. **Section D.** Forfeiture of Pay and Time is no longer awarded.

Where the CO implementing the administrative action takes a particularly severe or lenient course of action, this must be explained in the CO’s box on the reverse of the form. Any letters or accompanying documents are to be attached to the C57.
SECTION 20 - JPA DISCIPLINE REPORTING AND RECORDING PROCESS

20138. The Importance of Discipline Reporting and Recording

a. Maintenance of accurate disciplinary records is an important personnel management function which supports the disciplinary process, the Service Justice System, and provides for public accountability. The SHRC will highlight inaccuracies in JPA records to the Chain of Command. Logistics Management personnel should conduct routine checks of JPA processes and supervision in order to ensure accurate and timely completion of records.

b. Once a case has been directed for CM, a suspect has elected CM, or a case has been referred to the SAC, details of all events must be recorded onto JPA. As soon as a case is referred to the SPA (CM direction or election) or Military Court Service (MCS) (Appeal), the Command/G1 Adviser is to contact the SHRC with details of the case, the name of the suspect(s) and the relevant JPA SR Number. It remains the responsibility of the CO to keep the record up to date on JPA until the case is formally resolved/completed. On completion of the case it should be referred to the SHRC as set out in Section 16.

c. As the case progresses to trial, the HR Administrator Discipline is required to update the JPA Record as when each event happens using the appropriate tasks within the Discipline BPG. This may include the following tasks:

1. **SL Police or Unit Investigation.** Start and end date of investigation.

2. **SL CO Review or Legal Advice.** If no legal advice requested create an SL CO Review task and include explanation of why no legal advice was sought. If legal advice sought, create SL Legal Advice task and include the date Legal Advice was requested and the date that it was received.

3. **SL Summary Hearing or SL Refer to Prosecuting Authority.** Include details of Summary Hearing if held. If no Summary Hearing, include the date case was referred to the SPA and the date that direction was given.

4. **SL Legal Aid Application.** Court Martial and SAC only. Include the date that the search for legal representation commenced and the date that legal representation is in place.

5. **SL Pre Hearing.** Court Martial only. Include the date of pre-trial.

6. **SL Progress to SH or CM Review.** Forward case/record to SHRC for Review (see Section 16).

d. Details of pre-hearings and the trial will be recorded by the accused’s Unit. This will include the CO/Sub Cdr/Judge, accused’s AO/DAO, outcome, sentence awarded and any consequential penalties. On completion the record will be forwarded to SHRC for review and closure.
20139. **Conduct Record and Formal Discipline Record**

a. The arrangements for maintaining the Conduct Record for ratings are set out at Chapter 58 Annex 58K Para 10. The conduct record may be printed automatically as the ‘Formal Discipline Record (FDR)’ from data held in JPA HR and Discipline records compiled by ships/units. Where required (eg. for consideration pre-sentencing at summary hearing), the FDR can be printed using the procedure published by SPVA in the JPA Portal (Instruction to Produce Disciplinary Document {Task 46}).

b. Any conduct history paper records prior to 31 Oct 09 (ie. RN Forms S3300d and S2200e) should be forwarded to NAVY SEC-2 DISCIPLINE SPT (93832 8692/02392 628692) to ensure the completeness of the RN Legacy Discipline Database.

c. Any unit or organisation requiring assistance with pre-JPA discipline records should contact NAVY SEC-2 DISCIPLINE SPT (93832 8692/02392 628692).
20140. The Act and its Effects

a. The general purpose of the Act is to enable all but the most serious criminal offender to live down his or her criminal record after a specified period of time and, provided he or she does not acquire a fresh conviction during that period, to behave as if the conviction had not occurred. Once a conviction has been rehabilitated it is known as 'spent'. Many of the provisions of the Act were extended to Northern Ireland under the Rehabilitation of Offenders (Northern Ireland) Order 1978 and all references in these instructions to the 1974 Act should be taken to refer equally to the Northern Ireland Order 1978. These instructions apply to all members of the regular and reserve forces of the Naval Service. In March 2014 significant changes were made to the rehabilitation periods under the 1974 Act, with many punishments to be regarded as being spent immediately: the guidance below reflects these changes.

b. The main effects for Service administration (subject to the exceptions at Para 20145) are as follows:

(1) Questions asked about previous convictions, offences or conduct are deemed not to relate to spent convictions and a person may lawfully answer accordingly (s.42(2)) [s.5(2)]\(^{14}\).

(2) A spent conviction, or any of the ancillary circumstances of a spent conviction, is not proper ground for dismissing or excluding a person from any office, profession, occupation or employment or for prejudicing him or her in any way in any occupation or employment. Any person who does so is acting unlawfully. (Ancillary circumstances means the offence which was the subject of the conviction, or the conduct constituting the offence, or any proceedings preliminary to or following conviction such as an appeal, and any sentence, or anything done in pursuance of or in compliance with any sentence)(s.4(3)(b)) [s.5(3)(b)].

(3) It is an offence under the law, punishable by a fine (level 4 for the disclosure of specified information and level 5 or up to six months' imprisonment or both where specified information is obtained by means of any fraud, dishonesty or bribe) for a person to disclose information relating to a spent conviction to another person otherwise than in the course of his or her official duties (s.9(2)) [s.10(2) & (6)].

(4) Evidence relating to both spent and unspent convictions and ancillary circumstances remain admissible in any Service disciplinary proceedings or in any proceedings or appeal from any Service disciplinary proceedings (s.7(2)(b)) [s.8(2)(b)] (see para 20148.a.).

---

\(^{14}\) Where a specific section of the Act is referred to, the corresponding Article of the Northern Ireland Order is given in square brackets.
c. It is therefore not lawful to take account of spent convictions, whether incurred before a person joins the Service or after, in any function involving personnel management other than disciplinary proceedings, unless the conviction is covered by exceptions listed later in these instructions.

d. The rehabilitation periods in England and Wales are shorter than the rehabilitation periods in Scotland and Northern Ireland. As a matter of policy, and to ensure parity of treatment of Armed Forces personnel throughout the UK, the Armed Forces will apply these shorter rehabilitation periods in its own internal processes.

20141. Application of the Act

The Act applies specifically to:

a. All civil offences dealt with under civil criminal proceedings.

b. All civil offences dealt with under service disciplinary proceedings, ie. those previously dealt with under Section 42 of the Naval Discipline Act 1957 (and similar offences under the Army Act applicable to the Royal Marines), or s42 of the Armed Forces Act 2006 (s.2(5)).

c. Any service offence dealt with under the Naval Discipline Act 1957 (or other service equivalent), or the Armed Forces Act 2006. (s.2(5)).

20142. Application of Rehabilitation Principle to Administrative Sanctions

a. The Act applies only to convictions. Where administrative action is used to address misconduct, it is RN policy that the rehabilitation principle should apply – and that sanctions (such as censures) should be treated as spent after a period of 5 years from the date of award (2 ½ years where the subject is under 18 at the time of the award).

b. Administrative Action taken as a result of a civil conviction (a service penalty) is to be treated as spent in the same timescale as the offence to which it relates (noting that the rehabilitation period for an offence is set by reference to the sentence imposed).

c. Administrative decisions regarding character, conduct, badges, medals, reversions and forfeitures of pay and time which were correctly made at the time under the influence of a conviction which subsequently becomes spent are not altered retrospectively. However, the effect of the March 2014 changes to the 1974 Act mean that, even if a punishment and consequent administrative action were awarded prior to the changes, the rehabilitation periods are to be calculated by reference to the Act as it stands currently. In any event, all administrative sanctions are to have no effect after five years (unless a further conviction has occurred), and are thereafter not to be taken into account in administrative decisions.

d. Offences committed overseas which are subject to Service jurisdiction are subject to the 1974 Act.
20143. Extension of Rehabilitation Periods

The Act's provisions for extending rehabilitation periods are detailed later in this section; it should particularly be noted that a conviction for a summary offence by a civil magistrates' court does not extend earlier rehabilitation periods.

20144. Exceptions

Certain exceptions are made under the Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975 and Rehabilitation of Offenders (Northern Ireland) Order 1978 (Exceptions) Order 1979 of which the significant ones for Naval administrative purposes are:

a. Any Action Taken for the Purposes of Safeguarding National Security. In effect this means vetting procedures and any consequential administrative action, and additionally in Northern Ireland for protecting public safety or public order.

b. RNP, Medical, Legal and Dental Personnel. The effect of this exemption is that evidence of spent convictions may be used when making administrative recommendations or decisions in respect of the personnel of the exempted branches. Nevertheless, exemption does not authorise uninhibited use of evidence of spent convictions. Records of all convictions, whether spent or unspent, may be placed before those making recommendations and decisions in these branches but spent convictions must be annotated as such, and should not be taken into account unless they indicate a lasting defect of character that could by itself, or in combination with other factors, render the individual unsuitable for the actual duties being considered.

20145. Administrative Action

a. The Act does not preclude keeping official records of convictions which have become spent, and indeed such records are necessary in connection with the proper use of spent convictions in Service disciplinary proceedings or where national security is affected. The Act does not prevent an official having custody of or access to such records in the course of his or her official duties. It provides that, if an individual in the course of his or her official duties has custody or access to records containing details of spent convictions, he or she must not disclose such information otherwise than in the course of his or her official duties, and must help ensure that such information is not used to the prejudice of the person concerned.

b. Wherever practicable those making decisions on matters such as advancement, promotion, assigning, re-engagement or consideration of administrative discharge should not have access to details of spent convictions. Should they see a conviction that may be spent they must, if there is no firm evidence that it has been extended, treat it as spent and disregard it for administrative purposes.

c. Where it is necessary for medical purposes to include in medical documents reference to activity of a criminal nature (e.g. drug abuse), no mention should be made of any conviction arising out of activity or behaviour. A reference should merely be made to the particular activity, which requires a medical note to be recorded.
20146. Reports and Correspondence

a. Reports and correspondence should not normally contain evidence of spent convictions. When it proves necessary to refer to a spent conviction, it should be annotated as "spent".

b. Unspent convictions may be referred to in reports and correspondence, even when the conviction is shortly due to become spent (e.g. in the case of recent minor civil convictions). Care is required because the document concerned will require special handling both by the sender and recipients as soon as the convictions become spent. This should not inhibit reference to recent convictions when this is essential for the purpose of the report, but the date on which a conviction becomes spent should be stated.

20147. Disciplinary and Civil Court Proceedings

a. In summary hearings account may be taken of spent convictions when deciding sentence. Any spent convictions must be identified as such when they are brought to the notice of the officer hearing the case. Any questions relating to the use of such spent convictions should be referred to the Legal Adviser.

b. In the CM the Judge Advocate is responsible for advising the court on the implications of the Act.

c. In proceedings in a civil court full details of all convictions, whether spent or unspent, should be provided, but the officer providing them must not refer orally to spent convictions in open court, except with the express leave of the court.

20148. Disclosure and Complaints

a. **External Disclosure.** Information on spent convictions is not to be given in response to enquiries from outside the Service, from home or overseas, unless the enquirer is able to provide evidence of exemption under the ROA 1974 (Exceptions) Order 1975. In cases of doubt on the disclosure of records of offences, spent or otherwise, outside the Services (other than in police or security vetting fields), NAVY SEC2-DISCIPLINE 1 is to be consulted.

b. **Disclosure to a Rehabilitated Offender.** A rehabilitated person may at his or her personal request be provided with details of convictions spent under the Act; but any such requests must be referred to the sponsor, who will send the information direct to the applicant.

c. **Complaints.** Complaints about alleged breaches of the Act are to be referred through normal channels.
20149. Problems Arising
The implications of the Act are sometimes complex and any cases of doubt should be referred to the POC. Advice in specific cases is available from Legal Advisers.

20150. Rehabilitation Periods
A summary of the most common (civilian and service) sentences, and their rehabilitation periods with effect from 10 Mar 14 is set out in Table 20-8 below. Legal advice should be sought if in any doubt.

Table 20-8. Rehabilitation Periods for Service and Civilian Sentences

</table>
Notes:

1. Includes Imprisonment (including suspended sentences), Detention in a young offender’s institution, Borstal training, Youth Custody, Corrective Training, Detention, and Detention and Training orders. Does not include sentences of Service detention either in MCTC or other service custody facilities – see Service Detention.

2. Starting from the day on which the sentence (including any licence period) is completed.

3. Starting from the day on which the sentence is completed ie. the date on which the individual is actually released from Detention.

4. Includes a Community Order, Community Rehabilitation Order, Community Punishment Order, Community Punishment and Rehabilitation Order, Drug Treatment and Testing Order, Drug Abstinence Order, Probation Order, Community Service Order, Combination Order, a Youth Rehabilitation Order, a Curfew Order, Exclusion Order, Attendance Centre Order, Supervision Order, or Action Plan Order.

5. From the end of the order. This period starts from the last day of when the order given by the court has effect. When no such date is provided, the rehabilitation period for the order is 2 years starting from the date of conviction.

6. Includes fines imposed by a Service court or a CO at a Summary Hearing, and fines upon children or young persons but ordered to be paid by their parents.

7. The day provided by or under the order as the last day on which the order is to have effect. Where there is no provision for such a day, rehabilitation is 24 months beginning with the date of conviction.

8. For example, where an individual is awarded a SSPO for 60 days the sentence will be rehabilitated after 60 days even if the individual’s CO reviews the punishment and decides to conclude the punishment earlier.

9. Where the CO decides that the punishment should not begin immediately, the sentence will be rehabilitated on the last day the order has effect.
20151. Rules for Extending Rehabilitation Periods - Further Convictions

a. Where more than one sentence is imposed at the same time the longest rehabilitation period applicable to those sentences counts in determining when the conviction becomes spent.

b. A person who has been convicted of an offence and given a conditional discharge or probation (first sentence) may, if he or she is in breach of the condition of probation, be brought back before the court and given another sentence (second sentence) for the original offence. Normally this would be done within the first rehabilitation period so that Para 20141 would apply. There may, however, be cases where the breach occurs right at the end of the first rehabilitation period and it is not possible to get the person before the court until after the period expires. In these cases the second sentence will usually attract a rehabilitation period longer than the first, and, if so, the first is deemed not to have expired until the completion of the second.

c. In the event of a further conviction during the rehabilitation period the basic rule is that if a person is convicted during the rehabilitation period of another offence attracting a rehabilitation period which would end later than the first, the first period is extended to expire at the same time as the second. However, an earlier rehabilitation period will not be extended:

   (1) Where the second conviction is by a Magistrate’s Court, or its equivalent in Scotland, of an offence which can only be tried by such a court (a summary offence).

   (2) Where the second sentence is only a disqualification, disability, prohibition etc.

   (3) Where the second sentence is of a court outside Great Britain and the conduct to which it relates would not have been an offence in Great Britain.

d. Some Service offences (under NDA or AFA) act to extend the rehabilitation period of an earlier offence – where the maximum sentence allowed by law is more than 2 years imprisonment. The following Service offences will have extended the rehabilitation period of an earlier offence (AFA 96 Sch.4 and AFA 06 Sch 16 s66):

**Note.** If both a disqualification etc. and another punishment, such as a fine, are imposed for the subsequent offence then the first rehabilitation period is extended by reference not to the disqualification but to the other punishment, eg. the fine.
SECTION 22 – MANAGEMENT OF SUSPECTED AND REGISTERED SEX OFFENDERS

POINT OF CONTACT - NAVY SEC-2 DISCIPLINE 1

20152. Introduction

a. This section sets out the process for managing those Naval Service personnel who are subject to ongoing investigation by civil or Service police forces for a suspected sexual offence as well as those Naval Service personnel who have exceptionally been retained following conviction for such an offence. COs will need to ensure that adequate resources are dedicated to all aspects of such cases while also observing the appropriate discretion given the sensitivity.

b. The Roles and Responsibilities described in Annex 20D and processes described in Annex 20E to Annex 20H are designed to ensure that full and proper consideration is given to the assignment and tasking of Naval Service personnel that are either suspected or convicted of a sexual offence and placed on the Sex Offenders Register, while limiting the spread of sensitive information including details of the police investigation. Additionally, performance of the roles and processes is to ensure that the Naval Service meets its responsibility to assist the civil police to mitigate the risk of re-offending and to exercise the duty of care to the individual who is suspected or convicted of such an offence.

c. COs and Career Managers are advised to familiarise themselves with the process described in this section. The number of Service Personnel typically under investigation for relevant offending at any given time suggests that there is a high probability that such key stakeholders will have need to follow this guidance for one or more individuals under their command or within their manning plots.

d. Conversely, the number of personnel retained following conviction for a sexual offence is very low. Tri-Service policy prompts a presumption of dismissal or discharge for sexual offenders save the most exceptional circumstances. This reflects the gravity of sexual offending, its damaging effect on cohesion and the considerable additional administrative burden involved with managing an individual with registration requirements (see Para 20121 and Para 20122 on Service Penalties).

e. The guidance given here, and examples used, are very much based on experience to date where sometimes mistakes have been made and lessons learned to inform future activity. If any circumstances appear not to be covered or there is doubt about how to proceed then COs and their representatives are encouraged to contact NAVY SEC-2 DISCIPLINE 1 for assistance at the earliest opportunity.
20153. Confidentiality
As a general rule the availability of information about suspected or convicted sex offenders should be kept to the absolute minimum with only those who strictly need to know being given access to the sensitive information about the accused, the victim, the circumstances and the charge(s) / conviction(s). Failure to observe this may breach the human rights of individuals, the Sexual Offences Act or the Data Protection Act 18, and could therefore lead to a service complaint, subject the alleged offender to reprisals or increase risk of deliberate self-harm and ultimately undermine the integrity of the investigation process to the point that it cannot proceed. In certain circumstances the disclosure of sensitive information relating to the investigation of sexual offences may constitute a criminal offence in itself under the Sexual Offences (Amendment) Act 1976 & 1992. If there is any doubt what information can be disclosed advice should be sought from HQ PMN Police Operations (93832 7294). The flow of sensitive information should initially be limited to those stakeholders identified in Annex 20D. Other staff with responsibility for the individual’s movements or welfare may in certain circumstances need to be informed of the allegation or offence and should be reminded of the need for absolute discretion.

20154. Restrictions that can Apply to Registered Sex Offenders
While it is the personal responsibility of an offender to comply with registration requirements imposed on them as a result of conviction for a sexual offence, there are potentially a number of accompanying restrictions that the Service will need to consider the implication of immediately after conviction and when looking at reassignment options. Although not exhaustive this list includes some of the more common restrictions that can apply to Service personnel placed on the Sex Offenders Register.

a. Serious criminal offences may prohibit an offender from legitimately entering certain countries without an official waiver (eg. USA, Canada, Australia and New Zealand);

b. Assignment to British Overseas Territories may be problematic (eg. Gibraltar, Falkland Islands and Diego Garcia do not recognise the UK Sexual Offences Act and therefore have no powers to manage the offender during the period of their stay);

c. A Sexual Harm Prevention Order (SHPO) may prohibit the offender from: personal use of the internet and electronic communication devices; making contact with juveniles or other vulnerable groups; or accessing certain premises;

d. Barring by the Independent Safeguarding Authority (ISA) from working with children and/or vulnerable groups;

e. A convicted sex offender is unlikely to be granted clearance to engage in Regulated Activity (ie. positions requiring Criminal Record Check clearance).
20155. Assignment Restrictions for Career Managers

a. A standard Assignment Restriction that states “Not to be reassigned without first contacting NAVY SEC2-DISCIPLINE 1 93832 5314” is to be placed on the JPA HR record of both a suspected and a Registered Sex Offender (RSO) so as to ensure that future assignment plans are developed using the full information of what the restriction involves. The standard wording of the restriction is designed to avert the disclosure of sensitive information. Upon request NAVY SEC-2 DISCIPLINE 1 will endeavour to give approval or provide further guidance within 48 hours except when an Employment Suitability Risk Assessment (ESRA) meeting is deemed necessary (see Annex 20E).

b. In order to reflect the practical implications of appointing these individuals, ACOS(PCap) requires the attachment of an additional Assignment Restriction stating that a suspected or RSO is “Not to be considered for any LFS, Loan or Exchange position”.

c. Career Managers are not expected at any given time to be aware of all the limitations placed on individuals within their assignment plot as these will change over time. It is therefore essential that stakeholders ensure that JPA Assignment Restrictions are kept up to date and that Career Managers check and act on them before an assignment is approved. Failure to take account of these restrictions could result in the assignment having to be withdrawn at short notice leading to complications and inconvenience for the Service, the individual and their family.

d. The JPA Assignment Restrictions stipulated above will remain in place for the duration of an active relevant police investigation or, in the case of a RSO, for the duration of the period the individual is on the Sex Offenders Register or until they leave the Service, whichever is sooner.

20156. Consideration of Personnel Under Investigation or Charged with a Sexual Offence

a. The processes set out at Annex 20E - Annex 20H should ensure that fully informed employment decisions are made along similar lines for both suspected and RSOs, however, the particular issues that need to be considered for the two situations may necessarily be quite different. With regard to suspects and those charged with committing a sexual offence, the Service must be careful not to imply any presumption of guilt in its management of that individual pending the outcome of proceedings. A current assignment or tasking may for various reasons need to be adjusted or some safeguards introduced and, whenever possible, the rationale for any changes made should be explained to the individual concerned.
b. Listed below are examples of circumstances when it is advisable to consider making adjustments to a suspect’s assignment or tasking for the period while they are to be subject to a police investigation or court proceedings for an alleged sexual offence (the list is not exhaustive):

(1) Police investigation may require geographical separation from a complainant or advise against certain employment which could increase the risk of similar allegations being made against an individual;

(2) Police or court bail conditions may restrict the individual’s employment or movements;

(3) Assignments that restrict the individual’s access to attend meetings with legal advisers in order to prepare their defence case;

(4) Information from the Sensitive Case Advice Reaction Team (SCART) regarding any potential for deliberate self-harm and the provision of good divisional or welfare support (see BRd 3(1) Chapter 24 Section 3 Para 2416 and Para 2417);

(5) If the individual is currently engaged in, or due to take up, Regulated Activity as defined in JSP 893 (eg. a post requiring Criminal Record Check clearance – also see BRd 3(1) Chapter 60 Section 7).

20157. Naval Service Employment Suitability Risk Assessments (ESRA)

a. The regular completion of the appropriate Naval Service Employment Suitability Risk Assessment (ESRA) forms detailed at Annex 20I and Annex 20J by the CO serves two purposes. Firstly, it ensures the CO is aware that a member of their unit is either under investigation for an alleged sexual offence or has RSO status and may therefore require specific employment consideration. Secondly, it ensures that the other stakeholders responsible for the overall management of an individual are aware of any changes in the circumstances and are given the opportunity to offer advice. New information may also prompt a requirement to hold a Multi-Agency Risk Assessment Committee (MARAC) or a Multi-Agency Public Protection Assessment (MAPPA) meeting with the appropriate RN representation.

b. There are two versions of the Naval Service Employment Suitability Risk Assessment form; Annex 20I serves as the prompt for assessment of an individual who is under investigation for a sexual offence; Annex 20J serves as the prompt for consideration of those factors that are relevant to a RSO. On completion of the relevant version of the form a hard copy, signed by the CO, is to be forwarded to HQ PMN Police Operations (93832 7294). (See Annex 20E and Annex 20F.)

c. COs are required to complete a fresh ESRA on the following occasions:

(1) On notification that a Service person under their command is the subject of a police investigation for an alleged sexual offence (except consensual breaches of Service Standing Orders);
(2) On notification that a Naval Service person has been convicted of a sexual offence and/or placed on the Sexual Offenders Register;

(3) When a suspected or RSO’s personal circumstances have changed significantly (eg. charges have been raised or if suspected of being in breach of a SHPO);

(4) Prior to implementing any plan that changes the individual’s location or responsibilities for longer than 3 consecutive days (eg. external training/loan temporary duty intentions/leave);

(5) Within the first week of receiving command responsibility for a newly assigned suspected or RSO;

(6) After six months since the last ESRA was completed.

d. COs should therefore ensure that the lines of communication are in place to keep them informed of any local external training or loan temporary duty/detachment plans for such a person under their command, and that the responsibility for ongoing management is formally handed over to their successor. This is especially important in the case of ships entering refit when the command responsibility may be delegated to lower ranked officers in a much reduced crew.

e. On receipt of a completed ESRA, HQ PMN Police Operations (93832 7294) may choose to liaise with NAVY SEC-2 DISCIPLINE, the Service Police Crime Bureau (SPCB) and the Police Offender Management Centre and provide the appropriate input to the MAPPA process and/or provide relevant guidance to the Command as necessary.

f. It is important to distinguish between the Naval Service ESRA and the risk assessment produced by the Home Office Offender Manager (HOOM) in consultation with the SPCB. The HOOM/SPCB risk assessment is conducted in accordance with Home Office Police protocols and satisfies a legal requirement solely in respect of those convicted of a sexual offence, whereas the Naval Service forms are simply internal employment tools used to assist the good management of both suspected and RSOs, while they are serving.
20158. Plans for the Management of Suspected or Registered Sex Offenders

a. The most effective method of managing a suspected or RSO will usually be through making an assessment of the individual’s circumstances at a given point (for example, on initial notification or when considering alternative employment if the individual’s circumstances change) and sometimes the outcome may be that little or no modification is needed. Other more challenging situations will require an Employment Suitability Assessment or MARAC meeting, to be facilitated and chaired by NAVY SEC-2 DISCIPLINE 1 (see Annex 20E and Annex 20F). Attendance at these meetings will vary depending on the circumstances which might typically require input from RN Welfare (PFCS), representatives of the person’s current (and future) units, ACOS(PCap) Career Manager, NAVY SEC-2 DISCIPLINE 1 and the SPCB Violent and Sexual Offenders Register (ViSOR) Manager. The chairperson will ensure that any limitations agreed for current and future employment are documented and, where possible, explained to the individual.

b. Meetings may also be called by external agencies such as Home Office Public Protection Units or Children’s Protection Agencies. Naval representation at these meetings is likely to be limited to PM(N) staff and NAVY SEC-2 DISCIPLINE and the output may prompt further engagement with Naval Service internal stakeholders as deemed necessary depending on the circumstances of the case.

c. In managing cases of this nature effectively the Service is able to provide assurance to the public, Parliament and the wider Service community that, at any given time, the Naval Service can identify all such individuals in our employment and that the appropriate management plans and safeguards for them are in place.

d. The requirement of all suspected or RSO management plans is that they are:

(1) Properly considered by staff who are appropriately informed;

(2) Justifiable and proportionate to the risks perceived;

(3) Fair in taking account of the individual’s requirements and any restrictions placed upon them by a Court Order; and,

(4) Not capable of being construed as the imposition of any form of penalty.
20159. Issues Specific to Suspected or Registered Sex Offenders under RNR/RMR Command

a. In recognition of the part-time nature of reserve employment RNR/RMR COs will need to ensure that they are contactable at all times in order to serve as the officer responsible for the management of suspected and RSOs under their command. However, should stakeholders experience difficulty in contacting the respective RNR/RMR CO then assistance should be sought from the unit Support Manager or the Regional Staff Officer; if neither of these is available then CMR Policy staff are best placed to provide assistance. NAVY SEC-2 DISCIPLINE 1 and the SPCB ViSOR Manager should be consulted at the earliest stage in all cases where a deployment abroad is contemplated or if a requirement emerges for the individual to carry out any training or an assignment in a Phase 1 or Phase 2 training establishment.

b. Those involved in the management of suspected or RSOs will need to appreciate that a reservist’s JPA record cannot be relied upon as a tool with which to monitor an individual’s current or future movements. Good communication between RNR/RMR COs and other stakeholders is therefore especially important to ensure there is timely consultation over movement plans. NPT(Res) is to be notified of all movements and will apply agreed Assignment Restrictions on JPA as required.

20160. Record Keeping

a. Home Office Police maintain the national ‘Violent and Sex Offender Register’ (ViSOR), more commonly referred to as the ‘Sex Offenders Register’. Due to the transient nature of Armed Forces employment, the SPCB provides assistance in maintaining the register and managing the risk, primarily while a Service offender is deployed outside of the UK. At present the MOD carries out this function in respect of sex offenders but not for violent offenders. Information provided by a convicted Naval Service sex offender, their CO, HQ PMN Police Operations and NAVY SEC-2 DISCIPLINE 1 may be recorded on ViSOR.

b. The primary record in the local management of a suspected or RSO in the Naval Service is the entry for them in the ‘RN Sex Offender Management Database’, a DII(F) based solution which is maintained by HQ PMN Police Operations. The entry consists of both investigative detail as well as a record of deliberations over assignment of the person. Access to the database is strictly controlled to satisfy the requirements of the Data Protection Act (DPA 18) and the personal data policy set by the Association of Chief Police Officers (ACPO). It is from this database that NAVY SEC-2 DISCIPLINE 1 will also collate anonymised details for the creation of statistics for Parliamentary Questions, Freedom of Information Act 2000 requests and to produce general management information.
c. JPA is a key tool in the management of suspected and RSOs and must therefore be maintained as completely, accurately and up to date as possible. Assignment Restrictions applied should avoid any direct reference to an individual’s status as a suspected or RSO and must be amended or removed when NAVY SEC-2 DISCIPLINE 1 indicates that it is necessary following the completion of any registration period, the discontinuance of a police investigation or the completion of legal proceedings. Also, the SPCB will conduct regular checks of RSOs’ JPA ‘move and track’ records to ensure that the ViSOR accurately reflects the individual’s current and planned movements within the Service.

d. Copies of ESRA meeting records held by stakeholders should be destroyed in accordance with DPA 18 when they are no longer in force.

e. Stakeholders must be careful to observe the lasting right to anonymity of every complainant in a sex offence case as required by the Sexual Offences Act 2003 under which it is an offence to publish the identity of the complainant or to publish details that could lead to their identification whether or not a complaint subsequently leads to prosecution.

SECTION 23 - ROLE OF DIVISIONAL OFFICER IN THE DISCIPLINARY PROCESS

20162. Role of the DO and AAO

a. The Divisional Officer (DO), when acting as Accused’s Assisting Officer (AAO) at Summary Hearing or CM, has a vital and challenging role. Careful preparation, a willingness to seek advice and appropriate support from line management are essential to success.

b. HODs and Line Managers should take a direct interest in DOs who are required to act as AAOs, and should make themselves available to advise and assist, particularly where DOs are inexperienced, or cases are complex or serious. The burden on AAOs is not to be underestimated, and the Line Manager should allow time and facilities accordingly. The Command Adviser (LO, DLO, Adjutant, G1 Adviser) can provide further assistance.

c. Should AAOs require further advice or assistance they should contact CNLS CPOWtr (details below under ‘legal advice’).

20163. Preparing to act as AAO

JSP 830 Chapters 6 and 9 (see Annex F and especially Annex G) guidance must be read by all DOs called upon to perform the role of AAO. RN DOs must bear in mind that the former, adversarial, summary trial process under the Naval Discipline Act has been replaced by an inquisitorial, summary hearing under the AFA in which the CO is personally investigating the case to determine whether a charge is admitted, or if denied, proved or not proved. The following guidance must therefore be construed in that context.

a. AAOs should familiarise themselves with the booklet ‘Your rights if you are accused of an offence under the Service justice system’ (T-SL-accused – as per Reference B Chapter 6 Annex G), which will be given to the accused.

b. DOs are also to familiarise themselves with the regulations, criteria and considerations applicable to personnel held in custody before or after charge (the MSL Chapter 5 and especially the Annexes thereto).

20164. Understanding the Charge

a. Analysis, by DOs, of an offence and charge in order to establish whether the individual has a defence available in law, and/or preparation of comprehensive, relevant and helpful (to the individual) mitigation continue to be among the weakest features of the Service Justice System at the summary level.
b. Before speaking to the Accused, the AAO should read all the papers in the case (which will have been served in preparation for the summary hearing). Using JSP 830, they should consider what the necessary ‘elements’ of the offence are – including the state of mind that the accused must have had to be guilty (for example, whether they must have intended to do something, or be reckless as to whether an event will occur). The AAO should decide whether they think all the elements of the offence can be proved using the evidence available. The AAO must bear in mind that the CO may choose to call a witness to ask them questions which go beyond what is in their written statement.

20165. Establishing what the Accused says about the Charges

The AOO must establish what the accused says about each charge. It is for the accused to decide whether they will admit or deny the charge – and the AOO may advise and guide them through the process.

20166. The Decision the Accused Must Make

The accused must decide what they will say about each charge. Under no circumstances should the AAO ‘suggest’ or offer explanations for events, or tell the accused or anyone else what they should say at the hearing. The choices the accused has are as follows:

a. To accept that they did the thing charged, with the necessary ‘guilty mind’, and should therefore admit the charge.

b. To deny the charge(s). This may be because:

(1) The act/s did not occur.

(2) The individual was not involved.

(3) The individual did not have the alleged ‘guilty mind’ (e.g. where it is alleged they intended to do something, it was an accident; or where they are alleged to have acted dishonestly, they thought what they were doing was right).

(4) The evidence suggests the individual committed the offence, but it is not conclusive and/or they want to make the CO or Trying Officer determine whether or not they did. In the civilian system this is called ‘putting the case (or prosecution) to proof’. See further below.

20167. AAO’s Responsibility to the Service

a. The AAO’s responsibility is to present the individual’s case as well as it can be put, whether that involves assisting the individual’s denial of the charge or mitigation. It is not to secure a finding that a charge has not been proved by improper means. In doing so, the AAO should bear in mind the responsibility of all superior officers for the maintenance of discipline.
b. The AAO’s duty to the Service requires that they must not knowingly mislead an investigating officer or an officer conducting a Summary Hearing. This means, however, that if the individual did commit the offence and admits this to the AAO, the AAO can still take part in the summary hearing even if the individual decides to ‘deny’ the charge. For example, the AAO can highlight the failure of the investigator to adduce sufficient proper evidence to prove the charge, and/or the AAO can suggest that the evidence fails to reach the relevant standard. The AAO must only bring the case for the individual on the basis of testing the evidence supporting the charge; ie. putting the case to proof. In advance of the hearing, the AAO should tell the accused the following:

(1) That the only evidence given must be the truth (a person cannot give evidence which they or the AAO know to be untrue);

(2) That neither the individual or AAO may call any defence witnesses whose evidence suggests the individual is not guilty (because the effect of that evidence will be misleading even if honest to that witness);

(3) That all the AAO can do is to cross-examine witnesses in order to suggest that their evidence is lacking, or unreliable, and/or to speak on the individual's behalf to suggest that the evidence is insufficient to make the CO sure that the accused is guilty.

c. Thereafter, the AAO can offer mitigation if the CO finds the charge proved.

d. In sum, an AAO must not allow the individual to put forward a positive defence when they have confessed that they committed the offence. If they insist on putting forward evidence to suggest that they did not commit the offence, the AAO must withdraw and may not represent or assist the individual. Where an individual proposes to ‘put the prosecution to proof’ – they should be warned that this will be the case.

e. The AAO is not a lawyer and he or she must remind the accused of their right to seek legal advice, either from a naval barrister or a civilian solicitor (subject to AFCLAA funding, JSP 838 refers), should they feel it necessary. Even the most simple, low level charges can sometime raise difficult questions of law.

20168. Disputed Facts
Where the individual accepts the charge but not the full facts alleged, AAOs should consult JSP 830 Chapter 9 Part 5 (Disputed facts). The proper course is likely to be to admit the charge (or an alternative) but contest the facts via witness evidence.

20169. Mode of Trial
In all cases the option for trial by CM must be given. JSP 830 Chapters 6 and 9 should be read carefully. AAOs can assist in any decision to opt for Summary Hearing or CM but must bear in mind that the decision must be the personal choice of the person charged. It may assist the individual if it is first established whether they are likely to admit or deny any charge(s).
20170. Choice of Mode – Guidance

Circumstances will vary enormously, and it is stressed that AAOs must ensure the decision is taken personally by the individual, but experience has shown the following worthy of consideration:

a. Broadly, individuals may be better served by electing Summary Hearing if they wish to admit the charge.

b. Summary Hearing is best if there is no real defence (see the MSL Chapter 12 and take legal advice) and the investigation and charge are sound.

c. Some individuals choose Summary Hearing if the overriding wish is to get matters over quickly and/or ‘put it behind’, restore normality etc.

d. It may be better to elect for CM if some of the evidence may be successfully challenged or proper testing of it in court would be to the individual’s advantage.

e. A CM gives a better chance of challenging weak evidence and proper legal advice and representation will draw out any genuine defence.

f. Elect for CM if the evidence or law is complex (eg. in some cases of negligence – especially if technical, alleged fraud where dishonesty is disputed, or claims of self-defence, especially if anticipatory).

g. AAOs must advise an individual of the general effect of opting for trial by CM, which might include the impact of any delay on proceedings. AAOs should refrain from advising an individual to opt for CM on the sole basis that this will delay the proceedings so as eg. to allow the individual to take main or seasonal leave. This would be spurious justification, however superficially attractive, and undermine the overriding responsibility to uphold the timely and efficient working of the disciplinary system. Where leave is imminent, AAOs should address this in mitigation at a Summary Hearing and explain to a CO the impact of the likely range of punishments available, seeking to do the best for their individual. An individual may be required to delay or adjust their leave where under investigation, or to facilitate the service of charges or papers by COs, or for any Summary Hearing convened. AAOs must not, however, use this to deter an individual from electing trial by CM. To do so would be improper.

20171. Mitigation

a. AAOs must be familiar with the provisions of the JSP 830 Chapter 9 Annex G as regards their duties and Chapter 12 as regards Defences and Mitigation – and the differences therein. The difference between defence and mitigation must always be considered when the individual is considering whether to admit a charge and, if in doubt, legal advice should be sought.
b. Broadly, the role of an AAO is in presenting the best possible mitigation available – it is not appropriate for personal antipathy towards an individual, or personal distaste or condemnation of their actions, to form part of a statement in mitigation. Nor should AAOs misguidedly feel that in this capacity they must express their loyalty to the Service by eg. criticising the individual, or suggesting there is no mitigation, or claiming the individual or the offence has no redeeming characteristics, or spontaneously casting doubt on the individual’s future prospects in the Service. AAOs must not lie and should be slow to embellish but are fundamentally to do the best they can for the individual.

c. In addition to JSP 830 Chapter 9 Annex G, which lists points which have proved relevant and helpful when preparing a statement in mitigation, it is worth adding that where the officer hearing the case has decided the charge is proved, mitigation must not resuscitate arguments which – mistakenly or deliberately - continue to assert the individual’s innocence. Vague sentimentality is ineffective, but sincerity and facts, particularly if they indicate the offence was not so serious by type or degree, or not prolonged in time, or that the circumstances or impact of the offence are relatively trivial, or were quickly resolved, are not. Brevity and clarity are also key – preparation of points in writing usually helps. Time in custody before charge may mitigate sentence. Mitigation will be persuasive where resulting from an individual pleading guilty and showing genuine remorse, but even where a charge is found proven despite denial, an individual can still express remorse that the incident should ever have happened.

d. In addition, JSP 830 Chapter 14 lists specific mitigating factors relevant to each charge and should be consulted in all cases.

20172. Legal Advice and Legal Aid

a. Comprehensive guidance on eligibility for, application process and decisions on awards are contained in JSP 838, The Armed Forces Legal Aid Scheme.

b. All personnel are entitled to seek legal advice on the option for trial by CM and on appeal.

c. Commodore Naval Legal Services (CNLS) coordinates Naval barristers available to defend or advise accused personnel (telephone 93832 5739/02392 625739). Naval barristers do not attend police interviews under caution, but a Legal Aid duty solicitor can be arranged when one is required. Naval barristers can normally give advice or representation after an individual has been charged, and this advice can include on mode of trial and plea. Alternatively, individuals may seek civilian legal assistance subject to the normal legal aid rules. There is no right to legal representation at summary hearings, but personnel are entitled to be represented at SAC hearings and CM.

d. An individual who intends to represent him or herself at CM or in the SAC has a right to do so, but should be advised in the strongest possible terms to seek professional legal assistance.
representation and advice from a Naval barrister has the following advantages:

1. A Naval barrister’s overriding duty in advice or representation is to that individual personally, not the wider Service. Once instructed to advise or represent, they must and do act and advise fearlessly in that individual’s genuine best interests. Their ethical and professional codes of conduct make it clear that they face no conflict of interest in representing individuals within the Service Justice System. Their professional conduct in this regard is regulated internally by CNLS and externally by the Bar Standards Board.

2. Naval barristers have experience of the CM and SAC system and, as RN or RM officers, of the wider Naval Service. They are experienced, professional criminal advocates with the advantage of close personal knowledge of the Service context, including of being deployed at sea and on operations.

3. Statistics show no appreciable difference between acquittal rates achieved by Naval or civilian lawyers.

4. There is no charge for a Naval barrister (legal aid, where available, is means tested).

20173. Consequential Effects of Punishments

a. The AAO is to explain the effect of the sentence to their individual, pointing out any other penalties which may be involved in the punishment awarded – whether obligatory or optional - and drawing attention to the consequential effects of each. The obligatory and optional administrative sanctions which may follow punishment are set out in Section 15 of this chapter and the consequential effects of each punishment are set out in JSP 830 Chapter 13, expanded further in the Naval context also in Annex 20C of this chapter. Typical sanctions include forfeiture of pay, or the award of a Career Check, or loss of Good Conduct Badges, or the Long Service and Good Conduct Medal (remember even the award of a Career Check may well entail a delay in promotion or award of badges).

b. When an individual is sentenced, whether summarily or by CM, the CO or Judge Advocate is required to explain the effects, both direct and indirect, of the punishment awarded. However, when an individual is sentenced to imprisonment or detention, the AAO is to brief the individual on the effect of such sentence on pay, allotments and marriage or dependants' allowances. The individual might be advised to inform the next-of-kin of the sentence and of its effects, and stress the desirability of writing immediately to the next-of-kin or any other person who might be affected by the sentence so that they do not hear about it from any other source (for example, as a result of stoppage of allotment). If necessary, and if the individual has no objection, the AOO may write to the next-of-kin and should, if possible, inform them of the name of the prison or detention location (most likely MCTC Colchester) to which the rating is being committed. Rules and regulations on administrative discharge are set out in Chapter 54 of this BR.
c. Equally, personnel about to be tried in civil courts on serious charges which, if proved, could lead to a sentence of imprisonment or any other form of confinement, or by CM on charges which, if proved, could entail sentence of dismissal, imprisonment or detention, are to be advised to inform their next-of-kin. Imprisonment, which is not suspended, by a civil court or CM almost invariably results in discharge from the RN.

d. When personnel under the age 18 are involved, the AAO is always to inform the next-of-kin unless certain that the individual has done so.

20174. Detention

DOs must take a personal interest in any personnel sentenced to detention, whether the sentence is committed or suspended. The reformatory value of corrective training cannot be fully exploited unless effective after-care is exercised by the Divisional system on the individual’s return to the ship/unit. The DO should be involved personally in the following arrangements at least:

a. Kit muster before any CM in which Detention might be an option, and before committal to Detention following summary hearing.

b. See individual immediately after sentence of detention is imposed.

c. Discuss financial arrangements whilst in detention.

d. Make telephone call to, or visit, MCTC to talk briefly to the DO appointed in detention, prior to the individual’s release.

20175. Court Martial Cases

In all cases referred for trial by CM, the DO should be familiar with the case and, as a matter of law, must now give assistance to the individual’s legal representative as Defendant’s Assisting Officer (DAO) (see JSP 830 Chapter 28 and Annex B to Chapter 29). This is a formal, significant, statutory and additional role which represents a notable change from the previous ad hoc role of a Naval DO acting in support of the Accused’s Friend (a qualified lawyer - Service or civilian) at CM. It is akin to the former Unit Defending Officer (UDO) role familiar to the Royal Marines. In most circumstances, the DO/DAO will be expected to attend each day of a CM trial and a unit should make suitable arrangements to facilitate this. If unable to attend the CM or complete the full range of duties as DAO the CO must arrange for someone else to do so, enlisting a Transit Divisional Officer where appropriate.
SECTION 24 - COMPENSATION FOR CRIMINAL INJURIES

20176. Introduction
This section deals with compensation for the victims of crimes – in addition to any compensation which may be awarded by a Service Court or civil court in the UK.

20177. Compensation for Injuries Suffered in the UK
Victims of crimes of violence in England, Scotland and Wales, including members of the Armed Forces, may be eligible to claim compensation from the Criminal Injuries Compensation Authority (CICA). Applications are assessed under a tariff Scheme made under the Criminal Injuries Compensation Act 1995. A separate scheme administered by the Northern Ireland Office operates in Northern Ireland for criminal injuries sustained in the Province. Contact details for the CICA and the Compensation Agency (Northern Ireland) are given in Note 1 below.

20178. Compensation for Injuries Suffered Outside the UK

a. For members of the Armed Forces and their dependants, members of the Reserve Forces and their instructors, and members of the Cadet Forces who, while serving overseas, sustain injury (including death) directly attributable to a crime of violence, the MOD operates similar, discretionary, ex-gratia, tariff scheme; Criminal Injuries Compensation (Overseas), (CIC(O)). The MOD scheme is designed to give comparable levels of compensation to that which would be awarded by CICA if the incident had occurred in Great Britain.

b. Whether or not to make a payment under the provisions of the MOD CIC(O) scheme, and the level of any payment, is wholly within the discretion of the Defence Council.

c. Compensation is not payable where death or injury is the result of war operations or military activity by warring factions.

20179. Administration of the MOD CIC(O) Scheme
The Scheme is administered by the Service Personnel and Veterans Agency.

20180. Applications and Assistance

a. Further information and the application form are available on the MODWEB by searching ‘Criminal Injuries’. Details of the scheme are in DIN 2017DIN01-100.

b. Assistance and hard copy application forms can be obtained from:

Service Personnel and Veterans Agency
Criminal Injuries (Overseas) Scheme
Room 6129
Norcross
Blackpool
FY5 3W
Tel: 01253 333442.
20181. Time Limit for Applications
Applications should be made as soon as possible after the incident giving rise to the injury, and within two years. Claims outside this period can be considered in exceptional circumstances – SPVA should be consulted for advice.

20182. Sources of Advice
Advice on access to free legal advice and assistance (including from Victim Support) in submitting a claim for members of all Services can be obtained from Unit Personnel/HR or G1 staff.

20183. Types and Limits of Compensation
Compensation payable under the MOD CIC(O) arrangement will be:

a. A standard amount of compensation based on the nature of the injuries. The injury must be serious enough to qualify for an award equal to at least the minimum amount payable under the CICA Tariff, currently £1,000 (Full details of current Tariff rates, are available at www.cica.gov.uk).

b. Specific rules relate to multiple or minor injuries – the DIN should be consulted for details.

c. Where the applicant has lost earnings or earning capacity for longer than 28 weeks as a direct consequence of the injury (other than the injury leading to his/her death), an additional amount in respect of such lost earnings.

d. The maximum award that may be made in respect of the same injury (tariff and loss of earnings) will not exceed £500,000.

e. Where the applicant has lost earnings or earning capacity for longer than 28 weeks as a direct consequence of the injury (other than injury leading to his/her death), an additional amount in respect of any special expenses; for example, special care costs, which could include home mobility equipment and fittings, special wheelchairs, fees for care in a nursing home etc.

f. Where the victim has died in consequence of the injury, reasonable funeral expenses will be payable for the benefit of his/her estate if these expenses are not admissible from public funds under relevant Service regulations.

g. Where the victim has died since sustaining the injury, compensation may be payable to the deceased's spouse or the parent of a deceased child or the child of the deceased.
20184. **Eligibility to Receive Compensation**

The Claims Officer may withhold or reduce an award where it considers that:

a. The applicant failed to take reasonable steps to inform relevant Service and/or civil authorities of the circumstances giving rise to the injury, or failed to co-operate in bringing the assailant to justice, or failed to give all reasonable assistance to the Claims Officer considering the application; or

b. The conduct of the applicant before, during, or after the incident, or their character, makes it inappropriate that a full award or any award at all be made.

c. Additionally, the Service Awards Panel will make an award only where they are satisfied that there is no likelihood that an assailant would benefit if an award were made.

20185. **Contact Details for CICA**

Criminal Injuries Compensation Authority

SECTION 25 - MARITIME RESERVES DISCIPLINARY REGULATIONS

20186. Maritime Reserves Disciplinary Regulations
Reference should be made to other publications (eg. BRd 2 The Queen's Regulations for the Royal Navy, JSP 830, BRd 3(2) Naval Personnel Management - Reserves and other parts of BRd 3(1), as appropriate), especially with regard to detailed rules and procedures relating to disciplinary matters.

20187. Dealing with Misconduct of Reservists
COs may take the following action against Reservists who commit offences or misconduct themselves, subject to prior consultation with CMR Staff and the appropriate Regional Legal Adviser:

a. Disciplinary/Criminal Action Under the AFA 06 (see above);

b. Disciplinary/Criminal Action under the RFA 96 (see below); or

c. Administrative Measures (see below).

20188. Members of the Reserve Forces and Individuals Liable to Recall – Liability to Service Law (AFA 06)
For a full discussion of the application of jurisdiction as to person for members of the Reserve Forces and individuals liable to recall see the MSL Chapter 3, Part 1, Paras 10-13 and Chapter 10, Annex A. Particular areas of single service relevance are set out below:

a. **Training and Duty.** Whether a Reservist is undertaking training or duty at any given time is a question of fact. Where training and duties are officially authorised, no difficulty should arise; however, the terms of training and duty should be widely construed to include all activities engaged in by a Reservist, which are pursuant to an objective, aim or purpose of the Regular or Reserve Forces. The wearing of uniform for activities will give rise to a strong presumption that an individual will be undertaking training or duty, but the converse will not be true. The wearing of plain clothes does not prevent an activity being training or duty within the meaning of the AFA. Travel at public expense will be deemed duty for this purpose. Guidance on travel to and from a short duty, eg. drill night, is contained in the MSL, Chapter 3, Part 1, Para 12.

b. **Social Events.** Social events may also amount to training or duty. Formal and representational occasions and those which form an integral part of a training or duty activity are more likely to be duty while informal events will be less so. Commanding Officers should determine in advance and promulgate by temporary memorandum whether a social event is considered to be training/duty.
Failure to Attend for Training or Duty. Where clear orders have been given for Reservists to report to a given location for training or other duty, they are subject to the AFA 06 from the time given for them to report to the location concerned and, therefore, are liable to be charged for “failing to attend” under AFA Section 15 should they neglect to do so. Furthermore, section 97 of the Reserve Forces Act 1996 makes it an offence, in some circumstances, for a Reservist to fail to attend for duty or training. The preferring of such charges will be dependent on the facts of the case and whether the matter can be dealt with in the service or civilian jurisdiction.

Referral of Criminal Activity to the Civil Police. Within the UK, in respect of offences committed by persons subject to Service law, jurisdiction may lie with the Service authorities under the Act or with both the Service authorities and the civilian authorities under the ordinary law of the relevant part of the UK. In the latter circumstance, there are a number of established procedures and protocols that determine the exercise of jurisdiction and COs should liaise with the RNP and seek legal advice from the relevant Regional Legal Office on jurisdiction. (See the MSL Chapter 3, Part 3, Paras 50-55.)

20189. Offences under the AFA 06 – Trial and Punishment
See the MSL, Vol 1, Chap 10, Annex A, Paras 3-4, and Vol 1, Chap 3, Part 4.
Policy requirements are set out below:

a. Maritime Reserve Unit COs are to consult with the EA to CMR in all cases and Legal Advisers in mandated cases (see below), prior to commencing any disciplinary proceedings against a Reservist.

b. Procedures for trial and punishments, which may be awarded summarily by COs under AFA 06, are shown in JSP 830. COs are reminded of the requirement to seek legal advice in the circumstances as set out in Para 2048.

c. Custodial sentences and other punishments, which would prolong a Reservist's period of service and thereby prejudice their civilian employment, if held, should be avoided where possible. Substantial fines or Disrating may have to be imposed when Detention would have been applicable in the RN/RM. Detailed guidance on suitable punishments for particular offences is given in the MSL, but legal advice should be sought.

20190. Offences under the RFA 96 – Trial and Punishment
See the MSL, Vol 1, Chap 10, Annex A, Paras 5-11. A summary is set out below for ease of reference:

a. A member of a reserve force convicted by a civil court of the offences listed below is liable to imprisonment for a term not exceeding 6 months or a fine not exceeding level 5 on the standard scale (or both):

   (1) Failing to attend for service on call-out or recall (RFA 96 s.96(1);

   (2) Failing to attend for duty or training (RFA 96 s.97(1); or

   (3) An offence under service law of desertion or absence without leave.
b. A person convicted of an offence under RFA 96 s.97(2) (failure to train) is liable:

(1) If convicted by the CM, to the same punishment as for an offender under service law of absence without leave, namely up to 2 years imprisonment;

(2) If convicted by a civil court, to imprisonment for a term not exceeding 6 months or a fine, not exceeding Level 5 on the standard scale (or both).

c. Where a member of a reserve force or a person liable to recall is convicted of an offence of desertion, the time which elapsed between the time of their desertion and the time of their apprehension or voluntary surrender shall not be taken into account in reckoning their service for the purpose of release from permanent service or discharge (RFA 96 s.98(6).

d. Pursuant to s101 RFA 96, a person who, in the UK or elsewhere, by any means:

(1) Procures or persuades, or attempts to procure or persuade a member of a reserve force, or a person liable to recall, to commit an offence of desertion or absence without leave;

(2) Knowing that a member of a reserve force, or a person liable to recall, is about to commit such an offence, aids or assists them in so doing; or

(3) Knowing a member of a reserve force, or a person liable to recall, to be a deserter or an absentee without leave, procures or persuades or assists them to remain a deserter or absentee, or assists in their rescue from custody, is guilty of an offence and is liable on summary conviction in a civil court:

(a) In the case of an offence involving an offence of desertion or aiding a deserter, to imprisonment for a term not exceeding 6 months or a fine not exceeding level 5 on the standard scale (or both); and

(b) in the case of an offence of absence without leave or aiding an absentee without leave, to a fine not exceeding level 5 on the standard scale.
20193. Administrative Action

a. On receipt of advice of CMR Staff and legal advisers, administrative measures may be taken by COs against Reservists in any of the following circumstances:

(1) When behaviour which would constitute a Service disciplinary offence has been committed but jurisdiction under the AFA cannot be established and the offence does not merit referral to the civil authority – ie. not a criminal law offence.

(2) When the likely punishment under the AFA would be inappropriate or ineffective.

(3) When, despite warning, a Reservist consistently falls short of the standards of conduct, appearance or attendance expected of a member of the Armed Forces.

(4) When a Reservist’s general conduct and performance indicate to his/her CO that they do not deserve to be paid part or all of their Bounty, are unfit to retain their Rate, or are unsuitable for retention in the RNR/RMR.

(5) When convicted of, or receiving a Police Caution in respect of, a civil offence.

(6) Code of Social Conduct. In cases where a serious breach of the Armed Forces Code of Social Conduct has occurred or for a series of relatively minor offences where formal warnings have been given.

b. Administrative measures include:

(1) Forfeiture of part or all of a Reservist’s Bounty;

(2) Loss of GCB(s);

(3) Reversion as unsuitable to hold their substantive Rate;

(4) Discharge SNLR or SHORE as unfit to remain in the Reserves;

(5) Censure Action for Officers (see Chapter 20 Section 6 and Section 7).

(6) Termination/Removal of an Officer’s Commission;

c. Investigation prior to Administrative Action. The CO is to conduct a formal investigation of the alleged misconduct or other shortcoming. Before reaching a decision, the CO must give the Reservist full opportunity to state their case (including calling witnesses if desired), assisted by their DO or any other person in the Unit who may reasonably be made available. If the Reservist does not wish to state their case, they should sign a statement to that effect. Advice should always be sought from EA to CMR and the Regional Legal Office before administrative action is commenced.
d. **Forfeiture of Bounty.** As a criterion for the award of Bounty a Reservist must have carried out all training and duties satisfactorily. If after the appropriate warning, the CO is not satisfied that a Reservist has carried out all their training and duties satisfactorily, he/she may refuse to approve the award of Bounty or direct that part of it be forfeited.

e. **Discharge**

(1) Discharge SNLR and SHORE are administrative measures distinct from the punishment of Dismissal under the AFA. Powers of Discharge are pursuant to RFA 96 sections 14 and 15. Legal Advice should always be sought before such action is taken.

(2) When a rating is deemed to be unfit to remain in the Service, consideration may be given to discharge SNLR or SHORE. Authority for Discharge SNLR must be obtained from CMR. The CO has the authority to Discharge SHORE Ratings who fail to fulfil their training obligations and are persistent bad attendees. In the case of the RMR, CMR must give authority for the Discharge SHORE of an NCO or Marine OR who has proved themselves unsuitable for the Reserve or inefficient in their rank for reasons other than bad attendance. The detailed procedures for discharge SNLR/SHORE, contained in BRd 3(1) Chapter 54 are to be consulted before application is made.

f. **Termination of an RMR Officer’s Commission**

(1) An officer’s commission may be terminated at any time during his service for misconduct, inefficiency, unsuitability or physical unfitness. Officers discharged for any of these reasons are not eligible to be placed on the Retired List.

(2) Officers who continually fail to meet their training commitments may have their commissions terminated.

(3) Officers who fail to gain promotion during the prescribed ‘in zone’ period may have their commissions terminated.

(4) Application for termination of an officer’s commission should be made to CMR following legal advice. Prior to any such application the officer concerned should be subject to formal warning, and is entitled to forward a Representation, if he chooses to do so, with any such application. If the decision is made to waive this right a certificate to that effect should be signed accordingly.
g. **Termination of an RNR officer’s Commission**

(1) An officer's commission may be terminated at any time during his service for misconduct, inefficiency, unsuitability or physical unfitness. Officers discharged for any of these reasons are not eligible to be placed on the Retired List.

(2) Application for termination of an officer's commission should be made to CMR following legal advice. Prior to any such application the officer concerned should be subject to formal warning, and is entitled to forward a Representation, if he chooses to do so, with any such application. If the decision is made to waive this right a certificate to that effect should be signed accordingly.

20194. **Convictions by the Civil Power**

See BRd 2 Articles 3901-3906 and BRd 3(1) Chapter 20 Section 19 and Section 20, for guidance on actions to be taken.

a. **Ratings - Reversion or Discharge SNLR/SHORE.** Detailed guidance is given in BR 2 and this BR but broadly, if the nature of an offence or offences shows the rating to be unfit to retain their Rate/Rank, or to remain in the RNR/RMR, a recommendation should be made on Form C57 and forwarded to CMR for approval for Reversion or Discharge SNLR/SHORE.

b. **Attendance of an Officer in Court.** An officer needs to attend Court when a rating is tried, only if the alleged offences occurred during, or in connection with, Reserve service or training, or if attendance is requested by a Court and this request can be met without detriment to Service commitments. CMR staff is to be consulted if an officer is not available from the rating’s Unit.

c. **Officers.** The arrest, summons or conviction of an officer on criminal charges, other than minor motoring offences which do not require an appearance in court, is to be reported by the CO to CMR by letter. The CO is also to forward any representation the officer may wish to submit following a conviction. Conviction of an officer, or the award of a Fixed Penalty, depending on the nature of the offence(s), may result in the award of a service penalty, which may range from a formal Censure to Removal from the Active List, or termination of their commission.

20195. **Conduct Record and Formal Discipline Record**

Ratings and ORs of the Maritime Reserves used CRs until 2010, since when their arrangements are the same as for Regulars (see para 20140).
ANNEX 20A

LOGGING

1. When the Commanding Officer considers that minor misconduct by an officer, for which no further disciplinary or administrative action is to be taken, should be recorded, the following wording is to be used:

I have this day had occasion to log ...........................................................................................................
for ..........................................................................................................................................................
..........................................................................................................................................................
..........................................................................................................................................................

Signed ...........................................
Commanding Officer

Read and understood

Signed ...........................................

2. After signature the logging is to be filed in the Captain’s office and retained there until the officer leaves the ship. Loggings are not to be reported to the Naval Secretary for recording on official or reporting records.
Note. In relatively straightforward cases of censure 2SL issues censure on behalf of the Admiralty Board. Otherwise EA/2SL arranges consideration by two members of the Board. The Admiralty Board submission will be prepared by NAVY SEC who will communicate the Board’s decision.
ANNEX 20C

ADMINISTRATIVE CONSEQUENCES OF PUNISHMENT UNDER ARMED FORCES ACT 2006
– OFFICERS, RATINGS AND ROYAL MARINES OTHER RANKS

The Table below lists the administrative actions which are to be taken automatically (obligatory), or which may be taken (optional), when a member of the Naval Service is punished under the Armed Forces Act 2006. These administrative consequences apply whether the punishment is awarded at Summary Hearing, by the Summary Appeal Court or by the Court Martial. This Table is for guidance only. The relevant articles should be consulted.

Notes:

1. This Table defines the consequence of punishment under AFA 06 on eligibility to hold LS&GC Medal for members of the Naval Service. JSP 761, Chapter 5, para 5.20 states that, “An individual who has already been awarded the LS&GCM who subsequently incurs an entry on his/her disciplinary record cannot forfeit the medal but will incur an automatic delay before the clasp can be awarded…However, an individual who is sentenced to imprisonment for a period greater than 6 months and/or is dismissed with disgrace is liable to forfeit the LS&GCM or VRSM as well as Campaign, Commemorative and other Service medals in accordance with Chapter 9 of JSP 761. All medals can be restored after a further period of service on application to the Defence Council in accordance with Chapter 9 of JSP 761.” All such offences should be reported to Naval Secretary (Honours and Awards), Navy Command Headquarters, Leach Building (MP 3.1), Whale Island, Portsmouth, PO2 8BY. In addition, where any punishment gives rise to optional forfeiture of LS&GC Medal, the offence is to be reported to the Naval Secretary (Honours and Awards).

2. Where forfeiture of GCBs is obligatory, all badges are to be forfeit. Where forfeiture is optional, any number of badges may be forfeit but legal advice must be sought in order to ensure consistency across the Service. See Chapter 20 Section 15 for guidance as to whether badges should be forfeit, and JSP 761 Chapter 5 Annex B Appendix 1 for restoration). Where forfeiture of a GCB is ordered the offence is to be reported to the Naval Secretary (Honours and Awards).

3. More information about the CC can be found at BRd 3(1) Chapter 58, Annex K, para 10(k); Chapter 67, para 6718; and Chapter 68 para 6806. Where detention or imprisonment is awarded, the CC date used for calculating future eligibilities is the date of release from custody. If a sentence of imprisonment/detention is suspended, the CC date is the date of conviction. Where the punishment is an SSPO, the CC date used for calculating future eligibilities is the last day of the SSPO (may be awarded for 30, 60 or 90 days duration).

4. Whenever a CC is awarded the offence is to be reported to the Naval Secretary (Honours and Awards). A CC at any time after the MSM has been awarded will automatically result in forfeiture of the medal (JSP 761 Annex 5A article 16). If the holder of an MSM comes to adverse disciplinary notice short of the award of a CC the circumstances are nevertheless to be reported to the Naval Secretary (Honours and Awards), Navy Command HQ where suitability to retain the MSM will be considered.
ANNEX 20D

ROLES AND RESPONSIBILITIES FOR THE MANAGEMENT OF SUSPECTED AND REGISTERED SEX OFFENDERS (RSO) IN THE NAVAL SERVICE

1. **SPCB ViSOR Manager** – is responsible for:
   
   a. Maintaining Home Office ViSOR system.
   
   b. Informing Commanding Officer in writing of new conviction, implications and single Service procedural guidance.
   
   c. Briefing of a Commanding Officer prior to any deployment of a RSO.
   
   d. Informing NAVY POLICE HQ OPS SO3 and NAVY SEC-2 DISCIPLINE by email of new Visor cases and subsequent updates.
   
   e. Arranging and conducting Matrix 2000 Risk Assessments where a Naval Service RSO is outside the UK and any other appropriate occasion.
   
   f. Attending Multi-Agency Public Protection meetings.
   
   g. Providing advice on request to assist the RN/RM assignment process (see Annex 20F and Annex 20H)

2. **Commanding Officer of Suspected or Registered Sex Offender (RSO)** – is responsible for:
   
   a. Managing Suspected or RSO under their command and that these responsibilities are handed over to any successor.
   
   
   c. Ensuring that they are notified of any external training or loan temporary duty/detachment intentions and if these are to last for more than 3 consecutive days to forward details to NAVY SEC-2 DISCIPLINE (and SPCB for a RSO).

   (see Annex 20E, Annex 20F and Annex 20H)
3. NAVY POLICE-HQ OPS SO3 – is responsible for:
   a. Maintaining the RN/RM Sex Offender Management Database.
   b. Requesting completion of Employment Assessments and drawing Commanding Officer’s attention to BR3 Chapter 20 Section 22.
   c. Attending Employment Suitability Assessment / Multi-Agency Risk Assessment Committee (MARAC) / Multi-Agency Public Protection (MAPPA) meetings.
   d. Specifying limitations on what police information can be disclosed to other stakeholders.
   e. On request, providing CNPers / NAVSEC / Navy Legal with the implications of a sentence ahead of Service Penalty action.

(see Annex 20E, Annex 20F, Annex 20G and Annex 20H)

4. NAVY SEC-2 DISCIPLINE 1 – is responsible for:
   a. Providing ViSOR and D&BS briefings to new Career Managers.
   c. Assessment Committee’ (MARAC) meetings.
   d. Production and maintenance of Defensive News Briefs (BR3 Chapter 20 Section 17).
   e. Prompting NAVY PERS-CM DACOS COORD SO2C to add or delete JPA Assignment Restrictions.
   f. Conferring with NAVY POLICE-HQ OPS SO3 to consider the implications of new assignment plans notified by Career managers.
   g. Advising Career Manager on wisdom of planned assignment (where no Employment Assessment meeting was deemed necessary).
   h. Attend MAPPA meetings to cover assignment options and secretariat input.
   i. Informing NAVY POLICE-HQ OPS SO3 of Service Penalty once known.
   j. Conducting regular stock checks with NAVY PERS-PFCS HoS RNRM WELFARE to ensure SCART awareness of relevant cases.

(see Annex 20E, Annex 20F, Annex 20G and Annex 20H)
5. **NAVY PERS-CM DACOS COORD SO2C** – is responsible for:
   
a. Maintaining JPA Assignment Restrictions as prompted by NAVY SEC-2 DISCIPLINE and alerting specific Career Managers by e-mail.
   
b. If required, liaising with NPT(Reserves) for any amendments to JPA Reservists PIDs.
   
   (see Annex 20E, Annex 20G and Annex 20H)

6. **CNPers** – is responsible for:
   
a. When necessary, conferring with PMN-Police Ops to examine the implications of a sentence to assist full consideration of Service Penalty action following a civil conviction or police caution for a sexual offence.
   
b. When necessary, convening Multi-Agency employment meetings to gain the fullest possible picture of the offence and any limitations placed on the offender, in order to aid Service Penalty decision making.
   
   (see Annex 20H)

7. **CNPers Career Manager** – is responsible for:
   
a. Checking and acting on all JPA Assignment Restrictions.
   
b. Implementing agreed assignment plans following discussion with NAVY SEC-2 DISCIPLINE or attendance at Employment Suitability Risk Assessment meeting.
   
c. Informing a new Commanding Officer of the provisions in BR3 before the reassignment of a suspected or RSO to a new post.
   
   (see Annex 20E and Annex 20F)

8. **NLS Regional Legal Adviser** – is responsible for:
   
a. Informing NAVY SEC-2 DISCIPLINE of Service Penalty following civil conviction or Police Caution for a sexual offence.
   
b. Requesting sentence implications from NAVY POLICE-HQ OPS SO3.
   
   (see Annex 20H)
ANNEX 20E
INITIAL ACTIONS ON NOTIFICATION OF A CRIMINAL INVESTIGATION INTO AN ALLEGED SEXUAL OFFENCE
ANNEX 20F

ACTIONS TO ENSURE APPROPRIATE EMPLOYMENT OF SUSPECTED OR REGISTERED SEX OFFENDERS

**Note.** The Employment Assessment of those 'suspected' of committing sex offences is to be conducted on a case by case basis being careful to avoid an assumption of guilt.
ANNEX 20G

ACTIONS ON NOTIFICATION OF SEX OFFENCE INVESTIGATION DISCONTINUANCE, A COURT CASE DISCONTINUANCE/ACQUITTAL/QUASHING OR THE SUCCESSFUL COMPLETION OF AN OFFENDER’S REGISTRATION PERIOD

Start

On receipt of official notification that an investigation has been discontinued, court case discontinuance/acquittal/quashing or on successful completion of an offender’s registration period, Navy Police-HQ Ops SO3 to:

- Update the RN Sex Offender Management Database by the inclusion of a suitable ‘comment’ and an alteration to the record ‘status’. Thus prompting an automated alert for Navy Sec-2 Discipline
- Inform CO and SPCB if appropriate

Navy Sec-2 Discipline to:

- Inform Navy Pers-CM DACOS Coord SO2C that the JPA Assignment Restriction(s) must be removed;
- And to update any Defensive News Brief where appropriate.

Navy Pers-CM DACOS Coord SO2C to:

- To remove the JPA Assignment Restriction(s).

End Process
ANNEX 20H

ACTIONS ON NOTIFICATION OF SEX OFFENCE CONVICTION

Start

- On notification that a member of the RN has been convicted of a sexual offence:
  - Notify Navy-Police-HQ Ops SO3 and Navy Sec-2 Discipline by email;
  - Notify the offender’s CO by letter drawing attention to the implications of the conviction and the ongoing requirements under BR3 Chapter 20 Section 22;
  - Where appropriate arrange to visit the unit to conduct Risk Matrix 2000 assessments (usually only required when the offender is not located on UK soil);
  - Make recommendations to mitigate risks.

Offender’s CO to:

- Complete and return completed ESRA form (Annex 20J)

Navy-Police-HQ Ops SO3 to:

- Check if the investigation of the offence is being tracked on the RN Sex Offender Management Database and if not, create a new record, otherwise;
- Update the existing RN Sex Offender Management Database record, and;
- Consider any recommendations from SPCB and consult with Navy Sec-2 Discipline as appropriate.

Navy Sec-2 Discipline to:

- Notify Navy Pers-CM DACOS Coord SO2C of the conviction, possible requirement for JPA Assignment Restriction if the case was not being tracked and to look out for inbound Service Penalty action;
- Engage with CO if appropriate to discuss any concerns, and;
- Update Defensive News Brief.

Navy Pers-CM DACOS Coord SO2C to:

- If appropriate, apply JPA Assignment Restriction and inform the relevant CM.

CNPers / NAVSEC to:

- To ensure that sentence implications and employment limitations are known before making Service Penalty decision;
- if required, liaise with Navy-Police-HQ Ops SO3 or call a Multi-Agency Employment meeting to further inform decision.

Fleet-Legal to:

- Inform Navy Sec-2 Discipline of final Service Penalty action.

Navy Sec-2 Discipline to:

- Inform Navy-Police-HQ Ops SO3 of Service Penalty; and,
- Amend Defensive News Brief.

Navy-Police-HQ Ops SO3 to:

- Update the RN Sex Offender Management Database to reflect the Service Penalty
- Inform the SPCB VSOR Manager of the Service Penalty.

Was the Offender retained?

No

End Process

Yes

Continue to manage the offender as per Annex 20F
**ALLEGED OFFENDER’S EMPLOYMENT SUITABILITY RISK ASSESSMENT (ESRA)**

1. **Confidentiality Statement:** The contents of this Risk Assessment are confidential and are not to be disclosed outside the Command, NAVY SEC-2 DISCIPLINE or HQ Provost Marshal (Navy). Particular regard should be paid to the Sexual Offences (Amendment) Act 1992 and the Sexual offences Act 2003 in that the information contained within is not to be disclosed elsewhere. If further disclosure is felt to be essential permission should be sought from NAVY SEC-2 DISCIPLINE / HQ Provost Marshal (Navy).

2. The questions contained within this ESRA take into account Article 8.2 European Court of Human rights, with particular reference to:
   
a. Public Safety;
b. The prevention of crime and disorder;
c. The protection of health and morals;
d. The protection of the rights and freedom of others.

1. **Confidentiality Statement:** In working with Registered Sex Offenders all personnel have agreed boundaries of confidentiality. The information contained within this Employment Suitability Risk Assessment (ESRA) respects those boundaries of confidentiality and is shared on the understanding that:

2. The assessment is called for in circumstances where it is felt that the risk presented by the offender is so great that issues of the service community or individual safety outweighs those rights of confidentiality.

3. This ESRA is closed under the Freedom of Information Act under one or more of the following reasons:
   
   a. Investigations and proceedings by public authorities (S.30(1)(B)).
   b. Health and Safety (S.38).
   c. Personal Information (S.40).
   d. Information provided in confidence (S.41).

4. The questions in this risk assessment take into account of Article 8.2 European Court of Human rights, with particular reference to:
   
   a. Public Safety.
   b. The prevention of crime and disorder.
   c. The protection of health and morals.
   d. The protection of the rights and freedom of others.

5. This ESRA should not be photocopied or the contents shared outside of the Command, NAVY SEC-2 DISCIPLINE, HQ Provost Marshal Navy and the Armed Forces ViSOR Manager. If further disclosure is felt to be essential permission should be sought from DCS law and the Armed Forces ViSOR Manager.
6. Offence related questions:

Portsmouth  
Hampshire  
PO2 8ER
1. Introduction
In accordance with The Armed Forces Code of Practice for Victims of Crime 2015 (‘the Code’), alleged victims of crime (including victims of criminal and non-criminal conduct\(^1\) offences under the Armed Forces Act 2006) are entitled to receive certain services where the alleged offence was committed in the European Union (EU) or criminal proceedings (including Summary Hearing and Court Martial proceedings) take place in the EU. Complainants are referred to as ‘victims’ within the Code. Service Providers under the Code include the Commanding Officer (CO) of the accused, the Service Police, the Service Prosecuting Authority (SPA) and the Military Court Service. Overall, the purpose of the Code is to ensure that victims of crime receive appropriate information, support and protection and are able to participate in criminal proceedings. Key features introduced by the Code include: an assessment of the victim’s needs at the outset of an investigation; the appointment of a Victim Liaison Officer (VLO); and a victim’s right to a review of a CO’s decision not to bring any charge against an accused person or not to refer a case to the SPA. This Annex provides guidance to COs and VLOs in particular regarding their responsibilities. The RNP’s responsibilities under the Code, including details of the procedure to be applied when a victim exercises their right to a review of a RNP decision to discontinue an investigation or not to refer any charges to the CO or the SPA, are set out in Provost Marshal Technical Instruction Number 31.

2. Application of the Code
There is a duty to provide services to victims when all of the criteria set out below are satisfied. The victim is entitled to access victim support services at any time, whether they have reported a crime or not, and after the conclusion of the investigation and prosecution.

a. A victim of an alleged offence has suffered harm, including physical, mental or emotional harm or economic loss, which was caused directly by a criminal offence. This includes a close relative of a person whose death was directly caused by a criminal offence. For victims aged under 18 years, their parent or guardian may also receive services under the Code.

b. The relevant offence was committed in the EU or is the subject of criminal proceedings which take place in the EU (including Summary Hearing and trial by Court Martial). The investigation stage forms part of ‘criminal proceedings’ for the purposes of the Code.

c. A victim, or a bereaved relative, has made a complaint to the Service Police or to the CO of the accused person, or the victim has been identified in a complaint made by a third party. The Code applies even if a suspect has not been identified.

\(^1\) As defined in JSP 830 (MSL) Chapter 7.
d. The alleged offence is being dealt with by the Service Justice System (SJS). If the case is later transferred to a civilian jurisdiction, a victim will cease to be entitled to further services under the Code from the date of transfer provided they are notified of this fact. Responsibility for support will then transfer to the civilian sector. Where there is a joint civilian/military investigation, the Code applicable to the lead agency will apply.

e. The victim is present in the UK. Where a victim is not present in the UK or has left the territory of the UK, it is the victim’s country of residence that should provide victim support services to that victim. As a matter of RN policy, the Code will apply when a victim is present onboard any RN warship, RN submarine or RFA vessel, even if that vessel is located outside UK internal or territorial waters.

f. The victim has not opted out of their entitlement to receive services under the Code. A victim may opt out of some services but retain their right to receive other services under the Code.

3. **Key Features of the Code**

The Code outlines obligations applicable to the SJS which the Service Police and the chain of Command must comply with. These include:

a. On receipt of an allegation, the conduct of a ‘Needs Assessment’ in relation to the victim. The purpose of this assessment is to identify any needs or support required by the victim. This includes whether and to what extent they may benefit from Special Investigation Measures ² and Special Measures ³ to assist them in giving their best evidence in any proceedings.

b. The appointment of a VLO by the CO of the suspect. The primary role of the VLO is to keep the victim informed of key stages in the progress of the case. The VLO must be of the minimum rank of Petty Officer, not be part of the suspect’s direct chain of Command and not have had any prior involvement in the case.

c. The victim’s right to a review of a CO’s decision not to prosecute. This includes a CO’s decision not to charge any suspect with any offence in relation to a disciplinary investigation, or not to refer a case to the SPA where the matter cannot be dealt with by way of Summary Hearing. The victim is entitled to be notified of the reasons why this decision was made, how they can access further information about the decision and how they can seek a review of the decision. Victims may request a review within 3 months of them being notified of a CO’s decision not to prosecute.

² The following Special Investigation Measures may be available:

a. To have the same person, where possible, conduct all the interviews (unless to do so would prejudice the proper handling of the investigation);

b. To be offered the opportunity to have a person of the same sex conduct the interview where the individual is a victim of sexual violence, gender-based violence, or domestic violence (any request will be met where possible unless to do so would prejudice the proper handling of the investigation);

c. To have interviews carried out by or through professionals trained for that purpose;

d. To have interviews carried out in premises designed or adapted for that purpose.

³ Special Measures is the term used to describe the measures a Service court can order to assist vulnerable or intimidated witnesses to give their best evidence in court.
4. **Needs Assessment**
   In most RN cases, Needs Assessments are conducted by the Service Police. However, in accordance with RN policy, there are some allegations which may be investigated by means other than a RNP investigation (for example by a Coxswain). In these circumstances, the unit investigator must conduct the Needs Assessment by reference to the guidance (at Annex 20L) which has been issued by the MOD. If Coxswains and other non-RNP personnel require advice and guidance on this process, they should contact their area NPM.

5. **Victims Leaflet**
   Victims entitled to receive services under the Code should be provided with a copy of Annex 20M, completed with the relevant information. This should be provided to the victim by the RNP in the first instance, or by the unit investigator for non-RNP investigations.

6. **Duties of the Commanding Officer**
   a. The CO must ensure that victims are provided with a written acknowledgement of the crime that they have reported including the basic details of the alleged offence. Where the matter is investigated by the RNP, the RNP will fulfil this duty. The victim must be asked if they wish to be referred to victim support services. Where the RNP/CO considers there may be a risk of harm to the victim from sending a written acknowledgement (eg. in domestic violence cases), they may agree with the victim not to send one.

   b. Where a suspect is arrested, taken into custody or charged in respect of a criminal offence, a VLO is to be allocated to the victim’s case no later than 3 working days after the day of the event, and within 1 working day where the victim is a victim of the most serious crime, persistently targeted, or vulnerable or intimidated. A VLO must be appointed by the suspect’s CO. Upon allocation, the CO must inform the VLO of the event.

   c. In appointing a VLO, a CO must take into account the factors outlined at paragraph 14 of this Annex. This is a non-exhaustive list and COs should apply common-sense in identifying a suitable VLO. On appointment, the VLO must be handed the guidance at Annex 20N. The CO should tell the VLO how often he/she wishes the victim to be informed of the progress of the case; normally this will be monthly or whenever a significant event occurs.

   d. The CO should inform the victim that they have a right to receive information about the progress of the investigation, including the information outlined at paragraph 16 of this Annex. The CO may direct the VLO to provide this information to the victim on his/her behalf. Where a suspect is arrested, taken into custody or charged in respect of a criminal offence, the CO must inform the VLO as soon as possible of the event.

---

4 Provost Marshal (Navy) Technical Instruction 56.
5 Details are at: www.victimsupport.org.uk or on 0808 1689293 in the UK.
e. The CO must inform the victim if he/she makes a decision not to investigate the allegation and provide an explanation. The CO must also inform the victim if he/she concludes an investigation without any individual being charged. He/she must ask the victim if they wish to be informed if the investigation is re-opened (eg. in the event that further evidence comes to light).

f. Where the victim is a victim of the most serious crime, a persistently targeted victim, or a vulnerable or intimidated victim, the CO must note any Special Investigation Measures identified as appropriate in the Needs Assessment or requested by the victim. Where it is assessed that a victim will or may require special measures to assist them in giving any evidence, the CO must seek legal advice prior to determining whether or not a case may be dealt with summarily or should be referred to the SPA for trial by Court Martial.

g. At a Summary Hearing, the CO must ensure the following:

1. Where a victim is called to give evidence, he/she is given the opportunity to refresh their memory from their written statement or video-recorded interview (as applicable), shortly before the Summary Hearing.

2. Victims, and any family members with permission to accompany them, can enter and leave the unit in which the Summary Hearing is being held through a different entrance and are seated in a separate waiting area from the accused where possible.

3. Where circumstances permit, a member of the CO’s staff meets the victim and answers any questions posed about the Summary Hearing process and where possible provides an indication of how long the victim may have to wait before giving evidence.

4. Wherever possible, if there is a delay in proceedings on the day, a member of the CO’s staff provides an explanation to the victim and indicates how long they may have to wait.

5. That there is a CO’s point of contact for victims in order that they can find out what is happening in their case while it is being heard.

6. There are procedures in place for a member of their staff to take the victim’s contact details if the victim needs to leave the unit at any time, to ensure that the victim can be contacted if necessary.

7. The CO must ensure that the Summary Hearing is conducted in a fair and just manner. Part of the Summary Hearing process involves the questioning of witnesses to test their evidence. The CO will treat victims who are witnesses respectfully and, where appropriate, will intervene where questioning is considered inappropriate or too aggressive.
h. The CO must ensure that the victim is offered the opportunity to make a Victim Personal Statement (VPS) as outlined at paragraph 18 of this Annex. The CO must ensure that any VPS is forwarded to the SPA where applicable. If the case proceeds to a Summary Hearing, the CO must ensure that the VPS is included in the case summary and written evidence.

7. Appointment of Victim Liaison Officer

a. It may be that the most suitable individual to act as a VLO is not based in the accused’s unit. Liaison between COs may therefore be required should a CO propose to assign a VLO who is not under the nominating CO’s chain of Command. In nominating a VLO, the CO should take into account the following factors:

(1) The suitability of the individual to undertake the role by reference to their professional skills and personal characteristics. A VLO must have excellent interpersonal skills, with the ability to handle vulnerable or intimidated witnesses with empathy and discretion. They must also possess good written and oral communication skills and be well-organised. If the individual has not already been trained as a VLO, he/she must be directed to contact their Regional Legal Office in the first instance.

(2) **The Location of the VLO.** The VLO must be able to communicate effectively with the victim at regular and short-notice intervals as required.

(3) **The Rate or Rank of the Victim.** Where possible, it is advised that the VLO is a peer or superior in rank to the victim.

(4) The likelihood that an individual may become involved in the case as a witness or in an investigative capacity. If the individual is already involved, or if there is any prospect that they may become so, they must not be nominated as the relevant VLO.

(5) The relationship of the VLO to the victim. The VLO should be able to remain objective and it is therefore undesirable that an individual is assigned who may have an emotional attachment to the victim or the case.

(6) The likelihood that the VLO is going to be able to see the case through to its conclusion. This is particularly important when an alleged Schedule 2 offence, or an alleged offence committed in prescribed circumstances, is involved which may be referred for trial by Court Martial. Where ever possible, changing a VLO part way through a case should be avoided.

b. The CO of the accused retains responsibility for ensuring that the VLO undertakes their duties. This may require cross-Command liaison. If an accused person is assigned to a new unit, the accused’s new CO takes on this responsibility. In such circumstances, the original CO must ensure that all relevant information is passed to the new CO.
8. **Duties of Victim Liaison Officer**

a. Some of the functions required by the Code will be undertaken by the RNP in RN cases. The remaining duties must be fulfilled by the VLO, who must inform the victim verbally or in writing of the following information without delay:

1. The date and time of any arrest of a suspect.

2. The date and time of the release of the suspect from Service custody, including any release requirements that are imposed, changed or cancelled, unless the CO considers doing so would cause a risk of harm to the suspect.

3. The progress of the investigation or criminal proceedings at intervals agreed with the victim at first contact.

4. Any decision not to proceed with or to end an investigation, not to charge a suspect or not to refer the case to the SPA. The VLO must inform the victim that they have a right to request a review of a CO's decision not to prosecute and to provide the victim with sufficient information to enable them to decide whether to request a review.

5. Any decision to substitute a charge against the suspect with another charge, substantially alter a charge or to bring an additional charge against the suspect, together with a brief summary of reasons for the decision where available.

6. The date, time and place of any Court Martial trial, Summary Hearing or appeal and the nature of the charges against the suspect.

7. The final judgement of any Court Martial trial, Summary Hearing or appeal, including a brief summary of any reasons given.

b. The Victim Liaison Officer must inform the victim of their right:

1. To opt into the Armed Forces Victim Contact Scheme (AFVCS) if the offender receives a sentence of Service detention or imprisonment. The AFVCS is offered to victims of offences including bereaved close relatives where the offender receives a sentence of Service detention. To opt into this scheme the victim should notify the Deputy Commandant MCTC\(^6\). The AFVCS provides victims who are concerned for their safety with information keeping them informed of the key stages of the offender’s sentence, such as periods of unsupervised conditional release, as well as final release. The information is provided subject to the discretion of MCTC not to provide it in cases where there is an identified risk of harm to the offender which would result from the notification.
(2) To apply for compensation under the Criminal Injuries Compensation Scheme (CICS) if the victim qualifies. The VLO should explain to the victim that the recommended tariff for Service Compensation Orders is closely related to the CICS and that any sum awarded by the CO would be deducted from the compensation scheme.

(3) To make a complaint if the victim does not receive the information and services that they are entitled to, and to receive a full response from the relevant Service Provider. The procedure for dealing with these complaints is at Annex 20O.

9. Victim Personal Statement

a. The RNP or CO must ensure that the victim is offered the opportunity to make a VPS in the following situations:

(1) For any victim, at the time that they complete a witness statement about what has happened.

(2) At any time for victims of the most serious crime (including bereaved close relatives), persistently targeted victims and vulnerable or intimidated victims, irrespective of whether or not they have given a witness statement about what happened.

(3) A parent or carer of a vulnerable adult or of a victim under the age of 18 unless it is considered not to be in the best interests of the child or vulnerable adult.

(4) In any other cases where the CO deems it appropriate.

(5) In most cases, the RNP will have discussed the issue of VPS with the victim and obtained a VPS in accordance with their wishes.

b. When a VPS is being taken, the person taking the statement must ensure that the victim is asked whether or not they wish the VPS to be read aloud or played (if recorded) if the matter proceeds to a Service court. For Court Martial proceedings, the victim must be asked whether they would prefer to read the statement aloud personally or whether they would like the SPA advocate to do this on their behalf. It must be explained to the victim that the VPS does not have to be read aloud if they do not wish this or, alternatively, to change their mind in this respect. The victim must be made aware that they may be questioned about the contents of their VPS in a Court Martial or a Summary Hearing, and that its contents may be reported by the media if the case is heard in a public Service court. Ultimately, the victim should be advised that it is a matter of judicial discretion whether a VPS is read aloud (and by whom) or played (where recorded) in full or in part before a Service court.
c. In relation to Summary Hearings, the victim must be advised that they may read out the VPS if they are called to give evidence as a witness; otherwise it will be provided as written evidence to the CO. The VLO must, wherever possible, notify the victim in a timely manner of the CO’s decision about whether, and what sections of, the VPS will be read aloud (or played) and who will do this.

10. Expenses

As directed by the MOD, the unit must pay without unreasonable delay any expenses the CO has decided are due to the victim after receiving a correctly completed claim form.

11. Victims Right to a Review of CO’s Decision not to Prosecute

a. The victim’s is right to a review of a CO’s decision not to prosecute applies where the CO has decided not to charge any suspect with any offence in relation to a disciplinary investigation or not to refer a case to the SPA where the matter cannot be dealt with summarily. The victim may notify the VLO or the CO, verbally or in writing, that they wish to exercise their right to a review of this decision. Where a victim nominates a third party to act on their behalf, the CO must be satisfied that the third party has the authority to do so. On receipt of a request from a victim for such a review the CO is to seek legal advice.

b. Where a review is to be conducted, a CO will be advised to refer the case to their Higher Authority (HA) who (provided that the HA is of the rank of at least Commodore) will appoint another officer to act as the suspect’s CO for disciplinary purposes (‘the Reviewing CO’).

c. A Reviewing CO must conduct a review of the decision not to bring a charge or not to refer the case to the SPA, as applicable. He/she must consider the case afresh on the basis of the evidence presented. They may direct further investigation of the facts surrounding the alleged offence as they deem necessary. The Reviewing CO must not discuss with the original CO (or with those who advised them) the basis of the decision not to prosecute. Legal advice should be sought in line with existing RN policy.

d. In order to overturn the decision not to charge a suspect(s) or not to refer a case to the SPA, the Reviewing CO must be satisfied that the decision that the Evidential Test and/or Service Interest Test had not been met was wrong and that for the maintenance of confidence in the SJS, the decision must be reversed. He/she must confirm in writing to the victim the outcome of the review. The victim is entitled to a single review only of a CO’s decision not to prosecute.

e. If the Reviewing CO decides to overturn the original CO’s decision not to prosecute, he/she must then try the case summarily or refer the case to the SPA as applicable.

---

7 Evidential Test and Service Interest Test as defined at paras 93 and 94 of Chapter 6 of JSP 830 - Manual of Service Law
12. Complaints Procedure

A victim has a right to state a complaint under the legislation if they believe that they have not received, or are not receiving, the services under the Code to which they are entitled. Further details of this complaints procedure have been provided by the MOD, including the actions to be taken by the Command accordingly, as outlined at Annex 20O. In the event that a victim submits such a complaint, the CO must seek legal advice prior to taking any action in relation to it. This complaints procedure is separate to the Service Complaints process.

13. JPA Recording

The Needs Assessment and a record of rights offered and taken up by the victim must be recorded on JPA.
ANNEX 20L

VICTIM NEEDS ASSESSMENT

Investigation/Case Reference Number………………

Note. Completion of this form does not mean that Special Investigation Measures or Special Measures will be implemented and no assurances are to be given to the victim/witness

Name……………………………………….Age……..Date of Birth……………Gender…………

1. Identification of Victim/Witness

The Youth Justice and Criminal Evidence Act 1999 (YJ&CE 99) aims to assist certain vulnerable groups of witnesses to give evidence at court with the support of ‘Special Measures’. Similarly, the Armed Forces Code of Practice for Victims of Crime provides Enhanced Entitlements to certain groups of victims to assist in their provision of evidence during the investigation, at a Service court or Summary Hearing. Tick to show which of the group(s) below apply to the subject victim/witness.

a. Vulnerable

(1) Person under 18 years of age

(2) Person with a mental disorder

(3) Person with a learning difficulty

(4) Person with a physical disability/disorder

b. Intimidated

(1) Person in fear or distress about giving evidence

(2) Complainant in a sexual/human trafficking case

c. Victims of the Most Serious Crime

A victim of domestic violence, hate crime, terrorism, sexual offences, human trafficking, attempted murder, kidnap, false imprisonment, arson with intent to endanger life and wounding or causing grievous bodily harm with intent. This also includes a close relative bereaved by a criminal offence.

---

1 In the majority of cases a victim will also be a witness in the case.
d. **Persistently Targeted Victims**

A direct victim of crime repeatedly targeted over a period of time, particularly those who have been deliberately targeted or victims of a sustained campaign of harassment or stalking.

2. **Eligibility for Special Investigation Measures/Special Measures**

a. The YJ&CE 99 makes those victims/witnesses at paras 1.a(1) and 1.b(2) are automatically eligible for Special Measures. In addition, the Armed Forces Code of Practice for Victims of Crime **entitles** all victims of crime identified as belonging to one of the four groups within 1(a) to (d) above to Enhanced Entitlements, which includes Special Investigation Measures and Special Measures (see paras 3 and 4 below).

b. In relation to sub-paras 1.a(2), 1.a(3), 1.a(4) and 1.b(1), explain briefly below the nature of the vulnerability, fear or distress and show how it is likely to diminish the quality of the victim/witnesses evidence in terms of their evidence being complete, coherent and accurate. Coherence refers to their ability to understand the questions put to them and give appropriate answers.

3. **Special Investigation Measures - Victims**

Special Investigation Measures must be discussed with a victim entitled to Enhanced Entitlements under the Armed Forces Code of Practice for Victims of Crime. The victim is entitled to request that Special Investigation Measures are used and their request is to be considered in deciding whether any such measures are provided. Special Investigation Measures are:

a. Having the same person, where possible, conduct all interviews (unless to do so would prejudice the proper handling of the investigation).

   Requested [ ] Used [ ]

   Remarks: .................................................................

   ........................................................................

b. Be offered the opportunity to have a person of the same sex conduct the interview for victims of sexual violence, gender-based violence, or domestic violence (any request to be met unless to do so would prejudice the proper handling of the investigation).

   Requested [ ] Used [ ]

   Remarks: .................................................................

   ........................................................................

c. To have interviews carried out by or through professionals trained for that purpose.

   Requested [ ] Used [ ]

   Remarks: .................................................................

   ........................................................................

d. To have interviews carried out in premises designed or adapted for that purpose.

   Requested [ ] Used [ ]

   Remarks: .................................................................

   ........................................................................
e. If the victim is under 18 years of age, an audio-visual recorded interview.

Requested [ ] Used [ ]

Remarks: ..........................................................................................................................
.............................................................................................................................

f. If the victim is under 18 years of age, suffers from a mental disorder, has a significant impairment of intelligence and social functioning, has a physical disability or physical disorder, the use of communication aids.

Requested [ ] Used [ ]

Remarks: ..........................................................................................................................
.............................................................................................................................

4. Special Measures

a. If a victim/witness is under 18, tick to show if the case is:

(1) Sexual Offence [ ]

(2) Offence involving violence, cruelty or abduction [ ]

(3) Any other offence [ ]

b. The admission of a visually recorded interview should be considered, particularly if paras 4(a) and 4(b) above apply.

c. Which Special Measure(s) is/are likely to improve the ability of the witness to give evidence, and why? Consider: the needs of the victim/witness, age, development or disability, communication difficulties, the state of mind (distress, shock); the type and severity and/or the circumstances of the offence (e.g. offender known to the witness); the purpose and likely value of visually recorded interview on this occasion, perceived fears about intimidation and recrimination.

GUIDANCE FOR COMPLETION OF VICTIM/WITNESS NEEDS ASSESSMENT

This assessment MUST be initiated BEFORE recording a statement from the Victim/Witness

Purpose of the Victim/Witness Needs Assessment

1. The purpose of the Victim/Witness Needs Assessment is to:
   a. Identify whether the victim or witness is eligible for or entitled to any Special Investigation Measures or Special Measures.
   b. Allow for the victim or witness to request the use of any Special Investigation Measures and then document this request, as well as whether the measures are to be used.
   c. Provide information to the SPA for a Special Measures meeting if appropriate.
   d. Provide information to SPA to apply for Special Measures to the court.
   e. Record the views of the witness.
   f. Identify witnesses in need of special protection (see additional guidance notes below).

2. Where additional space is required, use a continuation sheet, indicating this on the assessment as appropriate.

Completing the Assessment

3. Para 1
   Para 1 identifies the type of victim/witness who might be eligible for Special Measures.
   a. A vulnerable victim/witness is eligible for special measures if the witness is:
      (1) Under 18; or
      (2) Suffering from mental disorder, or significant impairment of intelligence and social functioning, or physical disability or disorder.
   b. An intimidated victim/witness is eligible for special measures if the witness is:
      (1) In fear or distress about testifying; or
      (2) Is a complainant in a sexual case.
c. A victim of the most serious crime is defined by the Code as a victim of domestic violence, hate crime, terrorism, sexual offences, human trafficking, attempted murder, kidnap, false imprisonment, arson with intent to endanger life and wounding or causing grievous bodily harm with intent. This also includes a close relative bereaved by a criminal offence.

d. A persistently targeted victim is defined by the Code as a direct victim of crime repeatedly targeted over a period of time, particularly those who have been deliberately targeted or victims of a sustained campaign of harassment or stalking.

4. Para 2
The assessment must take into account the victim’s age, the nature and circumstances of the offence and any of the following factors that appear to be relevant:

a. Social and cultural background and ethnic origins of the victim/witness;

b. Domestic and employment circumstances of the victim/witness;

c. Any religious beliefs or political opinions of the victim/witness; and/or

d. Any behaviour toward the victim/witness by the accused, the family or associates of the accused or any other person likely to be an accused or a witness in the proceedings.

5. Para 3
Para 3 requires the assessor to inform an eligible victim of their entitlement to Special Investigation Measures and explain the range of measures that may be available to them to assist in obtaining the best possible evidence. The form allows the assessor to record any requests made by the victim for such measures, whether they were then used and the rationale should they not have been used.

6. Para 4
Para 4 requires the assessor to ensure that any victim/witness deemed to be ‘in need of special protection’ is identified. There are three categories of victim/witness who are under 18 years of age, as follows:

a. Persons under 18 years of age giving evidence in a sexual offence case;

b. Persons under 18 years of age giving evidence in a case involving an offence of violence, neglect or abduction; or

c. Persons under 18 years of age giving evidence in all other cases.
7. Those under 18 years in the first two categories in particular should be considered for the provision of audio-visually recorded interview and for this to be used as evidence in court. For any other offence, under 18 year olds may be eligible for both visually recorded statements to be admitted and other testimony by live link.

8. Para 4 continues for all other cases by requiring justification of why a measure or measures would be likely to improve the quality of evidence by the witness. For example, give details of the special measures for a complainant in a sexual offence.

9. Para 5
Para 5 requires that any evidence which can be obtained to support the application should be submitted if available.

10. Para 6
It is essential that the victim/witness be asked to give his/her views, since any proceedings which consider the granting of a measure must take into account all circumstances of the case when deciding where the interests of justice lies, and in particular the views of the victim/witness. For similar reasons it is an important consideration in determining whether Special Investigation Measures are appropriate. It is essential to canvass the views of the victim/witness before deciding how to take his/her evidence.

11. Para 7
a. Para 7 requires that the views of interested parties such as a parent or carer, etc. be recorded. It should only be completed in appropriate cases, where the views of the victim/witness can be supported or assisted by such a person. Hence, this may/will include:

(1) The views of the carer about the victim/witness going to court;

(2) How supportive is the carer of the under 18 year old and the prosecution; and/or

(3) Strengths and weaknesses of the person under 18, such as:

(a) Developmental age.

(b) Linguistic and emotional development (eg. their level of understanding or grasp of time intervals may be relevant to specimen charges); and

(c) Attention span relevant to requests for breaks when giving evidence.
(4) The person under 18 years own preference, the carer’s and Service Police or CO’s view about how the child should give evidence (ie. use of screens, TV link, and/or other special measures).

b. Inform any victim/witness aged under 18 years that, should they be called to give evidence at a Service court, the Military Court Service will send them an information leaflet designed specifically for them.

12. **Para 8**
   Para 8 requires the details of other agencies involved, eg. Social Services or a school, will assist the prosecution to ensure relevant assistance is given to the victim/witness. Include details of any work progressing with the witness, such as continuing support.

13. **Para 9**
   In the event that a written statement is taken from any witness under 18 years of age, the investigator must ensure that any decision to do so is recorded and a sufficient explanation given having regard to “Achieving Best Evidence”.

14. **Para 10**
   A Special Measures meeting is a meeting that takes place between the investigating and prosecuting agencies to discuss and agree which Special Measures may be required and applied for. Assessors are to ensure that the Service Police Case Referral or CO’s case papers indicate that a Special Measures meeting is required.
VICTIM'S LEAFLET

1. **Thank You for Reporting this Incident**
   This leaflet sets out what you can expect from the Service Justice System if you are a victim of crime. It contains information about organisations that you can contact for free advice, practical information and emotional support.

2. You can find some details below about the incident you have reported and other useful contact details. You may find it useful to keep this leaflet for future reference so that you have all the contact details and important information about the incident you have reported in one place, together with details about advice and support services that may be available to you.

3. Details of the crime you have reported:

4. **Initial Contact**
   
   Name of person recording incident: .................................................................
   
   Phone number: ..............................................

5. **Person Dealing with the Case (if different from above)**
   
   Name: ..............................................................................................................
   
   Phone number: ..............................................

6. **Crime Case Details**
   
   Date incident reported: .................. Date of incident (if different): .............
   
   Investigation Reference Number (if assigned): ...........................................
   
   Description of the Incident: ...........................................................................

   ..............................................................................................................
   
   ..............................................................................................................

---

UNCONTROLLED WHEN PRINTED
7. **Next Steps**

   a. You will be informed by the person investigating your complaint about what to expect from the Service Justice System, including information about the Victims' Code. The Victims' Code sets out the services that victims can expect from Service Justice providers. A “needs assessment” will be conducted and you will be asked questions to establish what help and support you might need. The Victims’ Code also sets out your rights to make a complaint under the Victims’ Code if you are unhappy with the service you receive. If you would like to read the Code in full please visit: https://www.gov.uk/Armed Forces Code link.

   b. If the crime against you did not take place within the European Union (EU), you will still be entitled to many of the services set out in the Victims’ Code, but only in relation to criminal proceedings that are taking place in the EU. However, if you are not present in the UK, the country in which you reside should provide any Victim Support services to you.

8. **The Victim Personal Statement (VPS)**

   The Victims’ Code entitles victims of crime to make a Victim Personal Statement (VPS). The VPS helps give victims a voice in the Service justice process. In your VPS you can inform those hearing your case how the offence has affected you or your family. If the case is tried in a Service Court you can choose to read your statement aloud in court or have it read out on your behalf if the accused is found guilty. If your case is subject to Summary Hearing, your VPS will form part of the case papers considered by the CO.

9. **Victim Support**

   If you are present in the UK or are a person subject to Service discipline, with your agreement your details will be passed on to an organisation that provides services to victims of crime. In the majority of cases, your details will be passed on to a local victim support service. You can also contact these services directly if you would like support following a crime. To find out more, visit: www.victimsupport.org.uk or phone 0808 1689293 in the UK or 05251 1809340 in Germany. Additional support, including for those in other theatres, may also be available through SSAFA, single Service welfare agencies and the Forces Helpline.

10. **Working Together to Investigate your Crime**

    To assist those who will investigate your crime, you should let them know:

    - if you remember something not already included in your current statement;
    - if your contact details change;
    - if the crime involved any type of hostility, for example if you believe you were targeted because of your actual or perceived race, sexuality, religion, disability or gender identity; and
    - if you have any specific needs, for example, mobility, communication or religious requirements.
11. Protection Against Harassment or Intimidation
   If you, or others close to you, are harassed or threatened in any way during an investigation or a trial, you should contact the Service Police immediately. If the accused is released from Service custody, requirements may be imposed that would prevent them from making any contact with a named person or persons. Protection for victims and witnesses against witness intimidation extends for up to one year after the end of a trial.

12. Criminal Charges
   If there is sufficient evidence to charge the person(s) who committed the crime against you with a criminal offence, it may be dealt with at Summary Hearing by the suspect’s CO, or the case may be referred to the Service Prosecuting Agency (SPA), who will decide whether to prosecute or not and whether to take your case to a Service court. To find out more about the SPA and for a useful overview of the Service Justice System visit: http://spa.independent.gov.uk/index.htm

13. Victim Liaison Officer
   A Victim Liaison Officer (or in some cases a Service Police Liaison Officer) will be appointed to you to inform you about the progress of your case, including the date and outcome of any hearings. The Victim Liaison Officer will agree with you how often you will be updated about the progress of your case. They can also provide information on claiming any expenses that may be incurred should you be required to attend a Summary Hearing or Service Court to provide evidence.

14. Going to a Service Court as a Witness
   The Military Court Service (MCS) is responsible for administering all Service courts (the Court Martial, the Standing Civilian Court and the Summary Appeal Court). To find out more visit: https://www.gov.uk/guidance/the-military-court-service. In advance of a trial, the MCS will provide a witness support leaflet to all witnesses who have been called through the Military Court system. The leaflet provides information on claiming expenses for attendance at court, such as travel, accommodation, meals and loss of earnings. It also contains details of what you can expect on the day and court procedures.

15. Witness Service
   The Witness Service, run by Victim Support, helps victims and witnesses attending court. They are trained staff and volunteers who you can talk to about what to expect before going to court during a pre-trial visit, and who are also present to support you at court. The Witness Service cannot discuss the case or the contents of your evidence with you. To find out more, visit: www.victimsupport.org.uk or call 0808 1689293.
16. **Compensation – UK**

If you have been a blameless victim of a violent crime, you may be eligible for compensation. If the incident took place in the UK, this will be via the Criminal Injuries Compensation Authority (CICA). You can apply online at www.gov.uk. If you need help to complete an application by telephone, contact the CICA Customer Service Centre advisors on 0300 003 3601. You can apply for compensation whether someone has been prosecuted for the offence or not but you must apply within two years of the date of the incident. You should not wait until the end of Service court proceedings before applying for criminal injuries compensation. To find out if you are eligible for payment for having suffered immediate financial hardship, contact Victim Support on 0808 1689293 or visit: www.victimsupport.org.uk as soon as possible.

17. **Compensation – Overseas**

If you are a Serviceperson and have been the blameless victim of a violent crime overseas, you may be eligible to claim compensation via the Criminal Injuries Compensation (Overseas) Scheme, for which information can be found at www.gov.uk/government/publications/guide-to-the-criminal-injuries-compensation-scheme. Similarly, for Civil Servants there is the Civil Service Injury Benefits Scheme, for which information can be found at www.civilservicepensionscheme.org.uk.

18. **Translation and Interpretation**

If you do not understand or speak English, you are entitled to ask for interpretation into a language you understand when reporting a crime, being interviewed in respect of the crime and/or when giving evidence in criminal proceedings. The Victims’ Code sets out your entitlement to request the translation of key documents as part of the case, including the written acknowledgement.

19. **Conviction, Sentence, Release and Probation Supervision**

When someone is convicted of an offence and sentenced to detention at the Military Corrective Training Centre (MCTC) or imprisonment in a civilian prison, they will pass into the care of the relevant detaining organisation. If this is the case, your Victim Liaison Officer will inform you of your entitlement to opt into the Armed Forces Victim Contact Scheme, following which you can be informed of the key stages of the offender’s sentence, such as release information.

20. **Special Measures**

The Code sets out enhanced entitlements for victims entitled to receive services in the following categories:

a. Victims of the most serious crime.

b. Persistently targeted victims.

c. Vulnerable or intimidated victims.

The content of those enhanced entitlements is explained in the Code. If the CO considers that you fall into one of these categories, he will refer your case to the RMP who will explain the measures to you and apply any that are required.
21. Further Information

a. You can use the Victims’ Information Service to find more detailed information about support and services for victims within the UK at:

   www.victimsinformationservice.org.uk

   or

   Telephone 0808 168 9293.

b. Within the UK, Citizens Advice can help with financial problems or advice, legal issues or other practical problems. To find out more, visit: www.citizensadvice.org.uk or call 0845 126 4264.

c. Members of the military community can also call Forcesline (Mon–Fri, 1030–1930 (UK local time) on Freephone:

   UK - 0800 7314880
   Germany - 0800 1827395
   Cyprus - 800 91065
   Falkland Islands - #6111
   Rest of the World - +44(0)1980 630854 (staff will call back immediately)
   Operational Theatres - Paradigm – dial access code, then enter *201 at the PIN prompt
   Email - www.forcesline.org.uk
ANNEX 20N

GUIDANCE FOR VICTIM LIAISON OFFICERS

1. Who is a Victim?
   The Victims’ Code defines a victim as a natural person\(^1\) who has suffered harm, including physical, mental or emotional harm or economic loss, which was caused directly by a criminal offence. This includes a close relative of a person whose death was directly caused by a criminal offence and who has suffered harm as a result of that person’s death. If a family is bereaved as a direct result of a criminal offence, the deceased’s close relatives are entitled to nominate a family spokesperson to act as the single point of contact to receive services under this Code. If the close relatives cannot choose a family spokesperson, the Service Police Senior Investigating Officer working on the case must choose the family spokesperson. Similarly, if the victim has a disability, or is badly injured as a result of the offence such that he/she is unable to communicate, the victim or his/her close relatives are entitled to nominate a family spokesperson to act as the single point of contact to receive services under this Code. A victim under the age of 18 and his/her parent or guardian are also entitled to receive services under the Code. Where a victim is not present in the UK, it is the victim’s country of residence that should provide support services to that victim.

2. To Which Offences does the Code Apply?
   The Code applies in respect of victims of alleged criminal or non-criminal conduct offences under the Armed Forces Act 2006. Providing the victim has suffered harm or economic loss, such offences therefore would include (but are not limited to): sexual offences (eg. rape, assault by penetration, sexual assault); violence offences (eg. battery, assault occasioning actual bodily harm, wounding, inflicting grievous bodily harm, fighting, using violence against a superior officer, ill-treatment of subordinates, disgraceful conduct of a cruel or indecent kind); theft; and criminal damage. The Code applies when such offences are committed within the European Union (EU) or when criminal proceedings take place in the EU (including Summary Hearing and trial by Court Martial).

3. From What Stage does the Code Apply?
   The investigation stage forms part of ‘criminal proceedings’ for the purposes of the Code. Therefore the Code applies as soon as a victim, or a bereaved relative, makes a complaint to the Service Police or to the CO of the accused person. It also applies when a complaint has been made by a third party which identifies the victim. The Code applies even if a suspect has not been identified. The victim is entitled to access services under the Code regardless of whether anyone has been charged or convicted of a criminal offence and regardless of whether the victim decides that he/she does not wish to cooperate with the investigation. If a case is transferred to civilian jurisdiction, the civilian authorities will then be responsible for providing support services to the victim and the Armed Forces’ obligations under the Code will cease.

---

\(^1\) Legal persons (eg. businesses) are not included in the definition of a victim.
4. **Who Assigns the Victim Liaison Officer?**

   The Victim Liaison Officer (VLO) is assigned by the CO of the suspect. For RN investigations, some of the VLO’s tasks will be undertaken by the Service Police. The VLO must be of the minimum rank of Petty Officer, must not be part of the suspect’s direct chain of Command and not have had any prior involvement in the case. The VLO may not necessarily be serving in the same unit as the victim. Where a suspect is arrested, taken into custody or charged in respect of a criminal offence, the VLO will be allocated to the victim’s case no later than 3 working days after the day of the event, and within 1 working day where the victim is a victim of the most serious crime, persistently targeted, or vulnerable or intimidated. Upon allocation, the CO will inform the VLO of their appointment as VLO.

5. **What do I have to do as the Victim Liaison Officer?**

   The following actions should be undertaken by you as VLO:

   a. Confirm with the Service Police whether or not they have provided the victim with the “Victim of Crime” leaflet. If they have not, arrange with the Service Police for this to be actioned.

   b. Confirm with the Service Police whether or not a “Needs Assessment” has been conducted in respect of the victim and that the victim has been given the opportunity to make a Victim Personal Statement. If either has not occurred, arrange with the Service Police for this to be actioned.

   c. You must keep the victim updated on the progress of the case. Therefore, as soon as you are informed of the following either verbally or in writing, you must inform the victim without delay of:

      (1) The date and time of any arrest of a suspect. You will need to liaise with the Service Police to agree whether this information will be conveyed to the victim by you or by the Service Police.

      (2) The date and time of the release of the suspect from Service custody, including any release requirements that are imposed, changed or cancelled, unless the CO considers to do so would cause a risk of harm to the suspect.

      (3) An update on the investigation or criminal proceedings at intervals agreed with the victim at first contact. During the investigation stage, you will have to obtain such details from the Service Police. On completion of the investigation, the updates must be obtained from the CO of the suspect. If the matter has been referred to the SPA, you may have to contact the prosecutor who has been assigned to the case. Where the case is referred to the SPA by the Service Police, the Service Police will be informed by the SPA by letter of the name of the prosecutor. Where the case is referred to the SPA by the CO, the CO will receive this letter.
(4) Any decision not to proceed with or to end an investigation, not to charge a suspect or not to refer the case to the SPA. If the Service Police decide to end an investigation they may inform the victim of this fact, and you will have to confirm with the Service Police that this has occurred. If the CO decides not to charge the suspect or to refer the case to the SPA, the CO may inform the victim personally. If not, they may direct you to convey this information to the victim. You should be provided with a brief summary of the reasons for the relevant decision where available. Where a CO has decided not to charge any suspect or not to refer a case to the SPA, you must inform the victim that they have a right to a review of that decision.

(5) Any decision to substitute a charge against the suspect with another charge, substantially alter a charge or to bring an additional charge against the suspect, together with a brief summary of reasons for the decision where available. It may be that the CO or the SPA cannot provide reasons for the decision because they are not permitted to discuss evidence with a victim in ongoing criminal proceedings.

(6) The date, time and place of any trial, Summary Hearing or appeal and the nature of the charges against the suspect. When a case is to be tried in the Court Martial, the SPA will write to the victim directly informing them of these facts. For RN cases, the Naval Courts Administration Office will also inform the victim of the date, time and place of the Court Martial. However, you will have to provide this information to the victim in respect of Summary Hearings. Thereafter, update letters will be sent by the SPA after the Plea and Case Management Hearing and prior to any trial or sentence hearing. However, for Summary Hearings you will have to liaise with the Command Advisor (eg. the DLO in a FF/DD) to obtain the information required and communicate these details to the victim.

(7) Wherever possible, notify the victim in a timely manner of the CO’s decision about whether, and what sections of, the Victim Personal Statement will be read aloud (or played) and who will do this.

(8) The final judgement of any trial, Summary Hearing or appeal, including a brief summary of reasons for the decision where available. Again for Court Martial proceedings, the SPA will inform the victim of the outcome of any trial or sentencing hearing. However, for Summary Hearings you will have to liaise with the Command Advisor (eg. the DLO in a FF/DD) to obtain the information required and communicate these details to the victim.
6. By What Means Must I Communicate with the Victim?

You may provide information to the victim by posting or personally delivering a letter to their last known correspondence address, or by sending an electronic message to the electronic contact details given by the victim to the Service Police, CO or to you. If written communication is not required, communication may be made by telephone call, audio-visual communication or a face to face meeting. Where there is a high number of victims involved in a case, or where otherwise appropriate in exceptional cases, information may be provided to a victim through alternative channels such as a website. In these circumstances, you should ascertain the CO’s intention. Nothing in the Code requires a VLO, CO or Service Police to provide information where disclosure of that information could have the following consequences:

a. Result in harm to a person.

b. Affect the proper handling of any criminal investigation or prosecution, or could otherwise prejudice any civil or criminal case; or

c. Would, in the service provider’s view, be contrary to the interests of national security.

Again, in these circumstances, you should consult with the CO to receive direction.

7. Can a Victim Decide to Opt Out of the Code?

A victim may decide that he/she does not want some or all of the information or services to which they are entitled under the Code. Similarly, they may want to access the services but then opt out of receiving these at a later date. If that is the case, then the victim can discuss with their VLO and/or the Service Police how the entitlements should be best tailored to his/her needs. A victim may opt back into receiving services under the Code at any time while the case is under active investigation or prosecution.

8. What Happens if a Victim Does Not Receive the Services to which they are Entitled under the Code?

If the CO, Service Police, VLO or other Service Provider fails to provide the services on behalf of the Armed Forces to which the victim is entitled and desires under the Code, then this places the UK in breach of its obligations under the relevant EU Directive. In such a situation, the victim is also entitled to make a complaint in accordance with the applicable complaints procedure.

9. Are any Victims Entitled to Enhanced Services under the Code?

Three categories of victims are entitled to enhanced services under the Code. These are as follows:

a. Victims of the most serious crime.

b. Persistently targeted victims; and

c. Vulnerable or intimidated victims.
10. The Service Police will determine whether or not a victim falls into one of these categories. On your appointment as VLO, you should check with the Service Police or CO whether or not the victim is entitled to enhanced services. Such services may include Special Investigation Measures, namely:

a. To have the same person, where possible, conduct all the interviews (unless to do so would prejudice the proper handling of the investigation).

b. To be offered the opportunity to have a person of the same sex conduct the interview where he/she is a victim of sexual violence, gender-based violence, or domestic violence (any request will be met where possible unless to do so would prejudice the proper handling of the investigation).

c. To have interviews carried out by or through professionals trained for that purpose.

d. To have interviews carried out in premises designed or adapted for that purpose.

11. The victim may also ask for Special Measures to be put in place to assist them in giving evidence during a trial. These Special Measures will be discussed with the victim by the Service Police. However, if the victim indicates to you that they would like to make use of Special Investigation Measures or Special Measures which they have not told the Service Police of previously, you should inform the Service Police of this.
1. Introduction

a. The Armed Forces Code of Practice for Victims of Crime (‘the Code’) sets out the services to be provided by Service Providers to the victims of crime committed by persons subject to Service law or civilians subject to Service discipline. Included in the list of Service Providers are Commanding Officers who exercise powers of investigation or charge, and Victim Liaison Officers. Victims are entitled to be treated by Service Providers in a respectful, sensitive and professional manner, without discrimination of any kind.

b. The Code provides that if a victim entitled to services under the Code believes that they have not received the services and support that they are entitled to by virtue of the Code, they can make a complaint. This Annex sets out the procedures for making and dealing with such a complaint.

2. What is a Complaint?

a. As set out above, this Annex applies to complaints made by a victim entitled to services under the Code who believes that they have not received the services and support that they are entitled to by virtue of the Code. It applies only to complaints made about Commanding Officers who exercise powers of investigation or charge, and Victim Liaison Officers. Complaints against other Service Providers should be made using their individual complaints procedures.

b. This procedure is distinct from the Service Complaint procedure described in JSP 831 - Redress of Individual Grievances: Service Complaints.

3. How May a Complaint be Made?

a. If the victim feels comfortable in doing so, they should first talk about their complaint with the person they have been dealing with as the representative of the Service Provider. This may help to answer or deal with the complaint. However, if this does not help answer the complaint, or the victim is not comfortable in dealing with the person directly, they may make a formal complaint in accordance with this procedure. A victim entitled to services under the Code is entitled to receive information about how to make a complaint, including contact details and the process for dealing with a complaint.

---

1 A list of service providers is set out in paragraph 7 of the Introduction to the Code.
b. When making a formal complaint, the complaint must be made in writing, and should be addressed to the Commanding Officer of the person being complained about. The word ‘complaint’ need not be used and care must be taken to ascertain whether in such correspondence the victim has a considered grievance needing to be resolved, rather than an observation to be noted or question that a victim wishes to be answered.

4. Who can Complain?
   a. The complaint may only be made by a victim entitled to services under the Code, or someone acting on their behalf. If it is being made by someone on the victim’s behalf, evidence of their authority to act should normally be sought.
   b. For crimes that occurred outside the EU, the complaints process is only available to victims in relation to criminal proceedings that take place within the EU.

5. When can a Complaint be Made?
   Complaints must be made within 3 months of any obligation to the victim as required by the Code. Should a victim wish to make a complaint outside of this timescale because they were previously unaware of their entitlements under the Code and therefore did not know that they had not been met, the person receiving the complaint has discretion to decide whether it can be allowed, taking into account the circumstances of the incident and investigation and whether to do so would be fair and just to all concerned.

6. Out of Scope Complaints
   The following complaints do not fall within the scope of this procedure:
   a. Complaints about the decision of a CO not to charge a suspect or, in cases where a CO is unable to hear a charge summarily, a decision not to refer the case to the Director of Service Prosecutions. All matters concerning these decisions must be dealt with in accordance with the COs’ Victims Right to Review Scheme.
   b. Anonymous Complaints. All complaints must be made by the victim or by a person acting on behalf of the victim, with their consent.
   c. Complaints about the manner in which an investigation was conducted (eg. a complaint regarding the quality of the evidence gathered).
   d. Complaints Older than 3 Months. Such complaints will be subject to the discretion detailed at para 9 above.
   e. Complaints which are deemed vexatious or oppressive.

---

2 This may include electronic communication, primarily email.
3 For example, a legal adviser.
4 In a case, some criminal proceedings, such as the interview with the victim, may take place outside the EU, while other criminal proceedings, such as the Summary Hearing, may take place within the EU. The Code does not apply to those criminal proceedings that take place outside the EU.
7. **The Complaints Procedure**
   The aim of this procedure is to resolve any complaints made by victims at the lowest level, expeditiously and to their reasonable satisfaction, taking appropriate action where relevant or providing information to the victim to demonstrate that any obligations required by the Code had been met.

8. **Receipt of a Complaint**
   a. Receipt of a complaint made under this procedure must be recorded at the earliest opportunity in order to ensure that an audit trail is maintained. Should a complaint be sent to the wrong Service Provider, they must use their best endeavours to redirect the complaint to the correct Service Provider, and inform the complainant that they have done this.

   b. All complaints must be acknowledged within 3 working days of receipt. This acknowledgement must state that the complaint has been received and is being dealt with. It should also contain information about how complaints are dealt with and indicate how long it may take to receive a full response to the complaint.

9. **Local Resolution**
   Local resolution is a way of understanding a complaint and resolving it directly with the person making the complaint as quickly as possible. For local resolution to be successful, the complainant must give their consent and cannot be forced or feel under any pressure to proceed in that manner. Where both appropriate and possible, local resolution at the lowest possible level is the preferred method of addressing a complaint, as this will deal with the matter expeditiously for all involved in the process. Local resolution may be in the form of a personal visit from an officer with the authority to resolve issues or to issue an apology/explanation as appropriate. Should local resolution be achieved, it must be followed up by correspondence to the complainant confirming the nature of complaint and the resolution provided.

10. **Commanding Officer Complaint Analysis**
    On receipt of the complaint, the Commanding Officer of the person being complained about is to conduct an analysis of the complaint. On conclusion of that analysis, it should be apparent whether the matter can be resolved by way of local resolution or whether the matter requires further enquiries in order to respond fully to the complainant. Broadly, the analysis should focus on assessing the following:

    a. Who is complaining?
    b. What are they complaining about?
    c. Does the complaint fall within the scope of this procedure?
    d. If relevant, do the circumstances leading to the complaint seem to be as a result of a genuine error or honest mistake?
    e. What, if any, resolution is being sought by the complainant?
f. Can the complaint be resolved locally?

g. Are there wider lessons to be learnt from the circumstances that led to the complaint?

h. Is there any suggestion of negligence or other misconduct?

i. Does the matter require administrative or disciplinary processes to be initiated?

j. Does the complaint appear to be vexatious or oppressive (see paras 19-22 below)?

11. Determining Complaints

The Commanding Officer addressing the complaint is to:

a. Consider the complaint, taking into account the obligations of the Service Provider and entitlements afforded to the victim by the Code, together with the circumstances of the incident/offence investigated.

b. Decide whether the matter can be dealt with by local resolution.

c. Decide what action is necessary and proportionate (eg. the taking of administrative/disciplinary action, additional training, the giving of an apology or the provision of a previously denied service) and initiate it.

d. Identify any organisational learning from the matter and disseminate it.

e. Communicate the findings to the victim complaining. This may be conducted in person or in writing; however, if carried out in person this must be confirmed in writing.

f. A copy of the decision and finding is to be forwarded to the single Service Discipline Branch.

g. The determination of the complaint must be completed and the victim advised of the outcome within 10 working days from receipt of the complaint, where practicable. If this is not practicable, the victim must be informed in writing of progress and an anticipated completion date in accordance with paragraph 13 above.

h. All records must be retained for a minimum of 6 years from the date of the complaint.

12. Possible Outcomes

Following analysis of the complaint (at all levels) the range of outcomes may be one or more of the following:

a. Complaint Rejected. The complaint may be rejected if the analysis and/or any fact finding identify that the complainant’s belief is incorrect. The complainant should be informed of the finding and rationale/evidence for it in person or in writing. If in person, it is highly recommended that the conversation is confirmed in writing.
b. **Local Resolution.** Local resolution could include an apology to the complainant and/or the provision of a service under the Code previously denied to the victim.

c. **Administrative Action.** In some cases, it may be appropriate for administrative action to be taken. Decisions on whether this is appropriate should be made in accordance with applicable joint and single Service guidance. This should not delay the provision of a service under the Code previously denied to the victim where this is appropriate.

d. **Disciplinary Action.** Where appropriate, disciplinary action may be commenced under the Armed Forces Act 2006. This should not delay the provision of a service under the Code previously denied to the victim where this is appropriate.

e. **No Action.** Notice that no action will be taken should the complaint be classified as vexatious or oppressive.

13. **Apologies to Persons Making a Complaint**

It is possible that in the interaction with a victim, mistakes will be made in the informing or delivery of their entitlements under the Code. If, on analysis of the complaint, there has been a mistake or error made by the person being complained about or personnel acting on his/her behalf, then it may be appropriate that an apology is offered as soon as is reasonably practicable once the facts have been established. Specialist advice should be obtained from personnel and legal staff.

14. **Vexatious or Oppressive Complaints**

a. Following analysis, it may be apparent that the complaint could be considered vexatious or oppressive. It is important to note that it is the complaint itself that must be judged vexatious or oppressive, not the complainant. The complainant's past complaint history may however be relevant to show that the current complaint is vexatious or oppressive. The complaint history may be relevant, for example to show whether there have been a series of like complaints that have been addressed, either directed at the person subject to the current complaint or another person.

b. Proportionate assessment of the complaint remains necessary to establish whether a complaint lacks foundation or amounts to an abuse. Information and explanation should be provided to support that assessment.

c. ‘Vexatious’ and ‘oppressive’ should be given their usual dictionary meanings. A vexatious complaint will be one that is without foundation which is intended, or tends, to vex, worry, annoy or embarrass. For a complaint to be vexatious, it does not have to be repetitious.
d. An oppressive complaint is without foundation and is intended, or likely, to result in wrongful treatment of the person complained against or creates a disproportionate organisational burden on the Service.

15. Disclosure

Disclosure of material is governed by the MOD disclosure policy and procedures. If requested by the person complaining, a copy of their complaint and the record of decision/finding may be provided once the CO has made a determination of the complaint. This will exclude any data protected by the Data Protection Act 1998, including, where appropriate, investigative material or security protected material. This may require the provision of a redacted copy of the relevant material, which must be sent to relevant single Service Discipline Branch for authority to release.
ANNEX 20P

GUIDANCE ON THE ADMINISTRATIVE SANCTIONS WHICH MAY BE IMPOSED FOLLOWING A MINOR, SERIOUS OR GROSS SECURITY BREACH COMMITTED BY ROYAL NAVAL OR ROYAL MARINES PERSONNEL

1. Introduction

2015DIN02-004 promulgated revised procedures for the reporting of security incidents with effect from 6 Jul 15. Further, it outlined guidance for assessing the severity of a security breach which is now to be classified as ‘minor’, ‘serious’ or ‘gross’. The aim of this Annex is to provide guidance to Commanding Officers and line managers regarding appropriate administrative sanctions following the commission of a security breach by Royal Naval (RN) or Royal Marines (RM) personnel. This guidance applies only where a decision has been made to take administrative action rather than disciplinary action against an individual.

2. Investigation of Security Incidents

In the event of a security incident, extant tri-Service and RN regulations and guidelines apply in relation to the conduct of an investigation. From a disciplinary perspective, further guidance is provided in Chapter 20 for those deciding on the method of investigation.

3. Disciplinary Action

Chapter 20 explains the distinction between disciplinary and administrative action and outlines what factors should be considered when determining how to proceed. Security breaches assessed to fall into the ‘gross’ category as defined in 2015DIN02-004 should normally be dealt with by disciplinary means. The particular circumstances of a case, however, may dictate that administrative action is a more effective means of maintaining operational capability. Alternatively, criminal and/or disciplinary action may not be necessary, appropriate or desirable for some other reason. For security breaches assessed to fall into the ‘serious’ or ‘gross’ categories, whether or not disciplinary action or administrative action is appropriate must be determined by the unit’s Commanding Officer having sought legal advice. This decision may be delegated to an officer not below the rank of Commander (or equivalent).

4. Administrative Action

a. Where a decision has been made to take administrative action against an individual, the sanction to be imposed will depend on the circumstances of the case. To that end, it is not appropriate or desirable to specify definitive sanctions for particular types of behaviour. However, this Annex provides general guidance.

b. In the first instance, legal advice must be sought before a decision is made to impose a sanction for a ‘serious’ or ‘gross’ security breach. Further guidance regarding major administrative action is contained in Chapter 20. For officers, this includes censure action for which reference should also be made to BR 2 (QRRN) Chapter 38. Army or RAF legal advisors should seek assistance from Naval Legal Services in providing advice to the Command about administrative action in respect of RN or RM personnel serving outside the RN chain of Command.
c. Where a decision has been made to take administrative action, the following range of sanctions will normally apply for security breaches as defined in 2015DIN02-004:

(1) **Minor Breaches.** Informal interview – Formal interview.

(2) **Serious Breaches.** Formal interview – Major Administrative Action.

(3) **Gross Breaches.** Major Administrative Action.

These sanction ranges may be departed from in light of any aggravating or mitigating factors. Major administrative action includes discharge for the most serious security breaches. Commanding Officers, line managers and those advising them should be cognisant of both an individual’s intent in the commission of a security breach and of the impact of that breach. Examples of behaviour likely to attract particular sanctions are outlined at Annex 20Q.

5. **Aggravating and Mitigating Factors**

It has been recognised by Navy Command Headquarters that there is a need for a robust system of sanction to counter security breaches while ensuring that rewards exist to influence behaviour. There must be a firm response to such breaches, but it would be undesirable to create a draconian security culture in which fear of sanction motivates concealment of security failings. To that end, the factors set out below must be taken into account in determining what administrative action may be appropriate. The lists are not exhaustive and other considerations may be relevant in a particular case:

a. **Aggravating Factors**

(1) Blatant disregard for security procedures.

(2) Repeated misconduct.

(3) Breach(es) over a prolonged period of time.

(4) Attempt(s) to disguise or hide conduct.

(5) Failure to heed prior warnings.

(6) Rank/seniority of individual.

(7) Abuse of trust.

(8) Breach relates to cryptographic material, ammunition or explosives.
b. **Mitigating Factors**

   (1) Youth or immaturity of individual.

   (2) First security-related transgression.

   (3) Isolated incident.

   (4) Early and voluntary admission of conduct.

   (5) Poor training or lack of appropriate supervision.

6. **Reporting Security Breaches to First Reporting Officer**

   The First Reporting Officer (1RO) of the individual concerned must be made aware of a security breach which is assessed to be ‘serious’ or ‘gross’. 1ROs must consider whether or not to comment on such a breach in the compilation of the individual’s next appraisal report.

7. **After Action**

   After action will include the reporting of security breaches, mandatory vetting and Aftercare Incident Reports in accordance with extant regulations.

8. **Reporting of Sanctions Imposed**

   Any administrative sanction imposed following a ‘serious’ or ‘gross’ security breach must be reported to the staff of Commodore Naval Legal Services (CNLS) by means of completing Annex 20R and forwarding it by e-mail to NAVY LEGAL –SHRC WO1 RM within 5 working days of the imposition of the sanction. On a monthly basis, CNLS will inform the Royal Navy Principal Security Advisor of any sanctions imposed. Disciplinary action is to be recorded on the Joint Personnel Administrative system in accordance with extant regulations.

REQUEST FOR LEGAL ADVICE

REQUEST FOR LEGAL ADVICE (FORMS)
ANNEX 20T

APPLICATION BY COMMANDING OFFICER TO HEAR A CHARGE SUMMARILY OR FOR EXTENDED POWERS OF PUNISHMENT

Details of Accused:

Name ........................................... Rank/Rate .................. Service Number...............................

1. (As applicable, where the proposed charge is listed in Schedule 1 Part 2 of the Armed Forces Act 2006) Application is made under Rule 5 of the Armed Forces (Summary Hearing and Activation of Suspended Sentence of Service Detention) Rules 2009 to hear the following charge summarily:

.................................................................................................................................................
.................................................................................................................................................
.................................................................................................................................................

2. (As applicable): Application is made under Rule 6 of the Armed Forces (Summary Hearing and Activation of Suspended Sentence of Service Detention) Rules 2009 for extended powers in relation to the following punishment. (eg. detention):

.................................................................................................................................................
.................................................................................................................................................
.................................................................................................................................................

in relation to the charge detailed in the enclosed charge sheet.

3. Case against the Accused. (Summarise the facts - use continuity sheet where necessary)

.................................................................................................................................................
.................................................................................................................................................
.................................................................................................................................................

4. Service History. (Summarise - use continuity sheet where necessary)

.................................................................................................................................................
.................................................................................................................................................
.................................................................................................................................................
5. Reasons for considering that the Charge should be heard Summarily.

.................................................................................................................................................

.................................................................................................................................................

.................................................................................................................................................

6. Reasons for considering that the CO’s Powers of Punishment might be insufficient. (as applicable - use continuity sheet where necessary)

.................................................................................................................................................

.................................................................................................................................................

.................................................................................................................................................

7. (As applicable) Reasons for seeking the Forfeiture of a GCB (including how many).

Note. Only required where forfeiture of a GCB is optional and the CO is below the rank of OF5, or the CO is above the rank of OF4 and wishes to award the forfeiture of more than one GCB.

.................................................................................................................................................

.................................................................................................................................................

.................................................................................................................................................
8. HIGHER AUTHORITY APPROVAL FOR PERMISSION TO HEAR A CHARGE
AND/OR PERMISSION FOR THE USE OF EXTENDED POWERS OF PUNISHMENT
UNDER THE ARMED FORCES ACT 2006

a. The applicant must insert 'Not Requested' or 'Required' in the 'Permission to
Hear' box and the relevant punishment boxes.

b. Where the Higher Authority approves a request, 'Required' should be amended to
'Approved'

CHAPTER 21
DIVISIONAL POLICY AND PROCESSES

SECTION 1 – GENERAL

2101. Aim

‘The primary role of all in authority (ie. Leading Hands/Corporals and above) is to offer leadership. The Divisional and Regimental System enables us to achieve that aim.’

2102. History

a. The Divisional and Regimental System can be traced back to 1755, when Vice-Admiral Thomas Smith issued orders to his Captains to organise their ships' companies into divisions, commanded by junior officers, with the aim of improving discipline, the running of the Fleet and well-being of sailors.

In 1779, Admiral Richard Kempenfelt wrote a famous letter in which he said:

"The only way to keep large bodies of men in order is by dividing and subdividing them with officers over each to inspect and regulate their conduct, to discipline and form them. Let the ship’s crew be divided into as many companies as there are Lieutenants, except the First Lieutenant, whose care should extend over the whole. The companies to be sub-divided and put under the charge of mates and midshipmen, and besides this, every 25 men to have a foreman to assist in the care of the men, as a sergeant or corporal in the Army".

b. The general introduction of the system brought immediate advantages to the Navy. Treatment of men became more humane, their efficiency improved and the level of disease fell. The Divisional/Regimental System has remained in place ever since, proving itself to be sufficiently robust to deliver the need for leadership and welfare, whilst also flexible enough to adapt to changes in warship design, the art of warfare, and technology.
SECTION 2 – RESPONSIBILITIES AND ORGANISATION

2103. Commanding Officer

The responsibilities of the Commanding Officer (and other members of the Divisional Team) are articulated in BRd 2 Queen’s Regulations for the Royal Navy as follows: the CO is to organise the ship’s company, exclusive of the Royal Marines, into Divisions, and is to appoint an officer in charge of each Division. The CO is to be the DO to the Executive Officer, Heads of Department and any other specifically named officers where appropriate. All other officers should have a nominated officer as their DO as delegated by the CO.

2104. Commanding Officers of Training Establishments

Commanding Officers of Training Establishments are to ensure that Phase 1 and 2 trainees have absolute and guaranteed confidential access through the Divisional and Regimental System to a Commissioned Officer in order to discuss issues concerning their well-being or welfare. Administrative and training issues should be represented through the normal chain of command. The existence of this route for confidential advice is to be made known to the trainees on joining the Establishment.

2105. Executive Officer/2IC

The XO is to supervise the organisation and administration of the ship/unit’s Divisional and Regimental System and to act as the focal point for the dissemination of policy matters. The XO is supported, in this role, by the Executive Warrant Officer (EWO), Coxswain, RSM or equivalent. In this respect, the XO’s responsibilities are as follows:

a. Act as the overarching Divisional or Regimental champion within the unit.

b. Produce the formal agenda for Divisional Meetings, which are to take place 3 times per year (normally termly). The termly meetings should follow publication of the Personnel Support Brief (PSB) as this falls-in with the natural Divisional Battle Rhythm of Navy Command HQ.

c. Produce feedback on completion of each round of Divisional Meetings highlighting any issues requiring Navy Command input to CWOSS and FXO. Units should use the feedback template at Annex 21F to report issues and concerns.

2106. Divisional Officer/Troop Commander

The DO’s/Tp Cdr’s primary task is to command, lead and manage their people. In doing so, they will supervise and prioritise the work of their DSR/SNCOs. Although acting as first reporting officers (1RO) for the more senior members of their Division and being 2RO for the remainder, DO/Tp Cdrs must avoid becoming embroiled in process at the lower levels. Although accountable to HODs in the first instance, Dos/Tp Cdrs are subject to the functional authority of the XO/2IC for matters of discipline (see Chapter 20) and Welfare (see Chapter 24). A comprehensive list of a DO/Tp Cdr’s tasks is contained in Section 3 of this Chapter; specific responsibilities are as follows:

a. Becoming familiar with the needs, goals and capabilities (both professional and personal) of each member of their Division/Tp as soon as possible, ensuring that they are aware of their duties and responsibilities as well as opportunities available to them.
b. Supervising and developing their DSR/SNCOs and LH/Cpls to ensure that the whole Divisional and Regimental structure is providing all necessary support at the appropriate level and at the right time.

c. The personal and professional aspects of the lives of the members of their Division/Tp, including induction, training and education, welfare, career development, advancement and maintenance of ethos, standards and core values.

d. Making members of their Division/Tp aware of the Personnel Functional Standards (PFS) and Guidelines (see Chapter 22) that apply to them and draw to the attention of their HOD any shortfalls in PFS delivery.

e. Providing impartial and non-judgmental support if the individual is involved in a disciplinary offence or when the individual suffers a grievance and needs to make a Service Complaint; the DO must ensure that the rating/marine is fully aware of all their rights and has access to appropriate publications and legal advice.

2107. Divisional Senior Rate/Senior NCO

The Divisional Senior Rate/Troop SNCO has, among others, the following specific responsibilities:

a. DSR/SNCOs play a very important part in the Divisional and Regimental System, primarily as the vital first ‘link’ in the chain that allows contact between the most junior sailor/marine and the CO. It is expected that all senior ratings, SNCOs and NCOs will be involved in Divisional and Regimental management and day-to-day running of the Division/Troop.

b. The DSR/SNCO will be responsible for running the Divisional/Troop Diary/Bring-up system, briefing the DO/Tp Cdr in good time for any forthcoming requests or interviews that require preparation or action\(^1\).

c. The DSR/SNCO will be responsible for meeting new members of the Division/Tp on joining, and guiding them through the initial joining and induction processes.

d. DSRs should be alert to Unit Memoranda (CTMs/XTMs etc.) concerning personnel matters which may require action by members of the Division/Tp.

e. It is not appropriate to provide a list, comprehensive or otherwise, of the duties that may be required of a DSR/SNCO as these will almost certainly be different for each Division. In short, the DSR/SNCO is required to keep himself/herself aware of the general state of morale within the division and is to deal initially with all requests from division members, including those where an individual wishes to see the CO on a private matter. DSR/SNCOs will personally lead the induction process for JRs and, through their detailed knowledge, will perform the role of first reporting officer for JRs. They are strongly encouraged to act as ‘gatekeeper’ and as an ‘early warning system’ for the DO/Tp Cdr.

---

\(^1\) Care must be taken to ensure that the Data Protection Act is applied ie. that personal details are not divulged inadvertently.
f. In performing this function for ABs, DSR/SNCOs must draw on the knowledge of LH/Cpl. DSR/SNCOs will perform career management and welfare support work under the supervision of the DO and HOD. Overall, DSR/SNCOs have a pivotal role in communicating information down and equally importantly, up the Command chain, and are expected to put a human face on the traditional aspects of the Divisional and Regimental System.

2108. Leading Hands/Corporals

LH/Cpl have an important leadership function as they have the closest knowledge of the ABs/Marines in their messdeck and working environment. Divisional Leading Hands/Corporals have, among others, the following specific responsibilities:

a. Div LH/Cpl must have a formal role in contributing to the reporting process

b. Div LH/Cpl are to be responsible as ‘sea parents’, or to allocate an experienced AB/Mn or Leading Hand/Cpl from within the same division/troop or mess to be a ‘sea parent’, for more junior new joiners. This is especially important if the new joiner is arriving in their first complement billet after initial training (some individuals may benefit from this support beyond the initial induction period).

c. It is vital that they play a full part in the communication chain, which is at the heart of a good Divisional and Regimental System. Equally importantly, they must keep their DSR/SNCO informed about the changing support needs of the Division. They will often be the first to identify emerging issues for their subordinates, especially impending welfare issues which may burden the individual.

2109. Professional Divisional Officers

The concept of the Professional Divisional Officer (PDO) has been developed in major shore [training] establishments. PDOs are defined as those Officers, WOs, CPOs and SNCOs who are employed primarily as DOs to larger than normal numbers of newly entered Able Ratings (ABs) while they undergo Phase 1 or Phase 2 training, or within a Personnel Support Group, Career Management Cell or Hasler Naval Service Recovery Centre. CTCRM incorporates Troop Commanders within the Phase 1 and 2 training construct. PDOs are borne on the unit’s Establishment List specifically for this task and normally spend over 90% of their time at work on such duties. In this context a PDO should be able to manage up to 60 ratings throughout the early part of their training. ABs will normally be allocated to a new Division/DO on arrival in each new training establishment, and at every stage of their training. For those undertaking split training courses, it is imperative that the correct Divisional care is provided and local arrangements must be made to ensure that all trainees know who their DO/DSR/SNCO is and how to contact them.
2110. Transit Divisional Officers

Officers and Ratings are frequently landed or assigned away from ships or shore units for leave, harmony, professional development courses or on medical or disciplinary grounds. Such personnel will be managed ashore by the Personnel Support Group (PSG - which encompasses the Geographic Squad Pool (GSP) and the Margins MA4/5/6(A)/7(A, B, C, D or E). If an Officer or Rating is landed to a PSG, they remain assigned to their parent unit and that unit retains full Divisional responsibility; the PSG TDO will administer local divisional advice and guidance. It is paramount the parent unit informs the PSG of the landed person if they require PSG involvement or assistance. If an Officer or Rating is assigned to a PSG, COs are to ensure that a full handover is conducted between the sending unit’s DO and the PSG receiving the individual. For Officers of the rank Lt Cdr and above assigned to MA5 and MA6 only, divisional responsibility will defer to that individual’s Career Manager unless otherwise agreed. All other Officers assigned to a PSG are the divisional responsibility of the OC of that PSG. Within a PSG, the recommended divisional ratio is 1:40, and 1:20 for higher dependency divisions. At no stage must an individual have any-doubt as to where their divisional care resides. It is re-emphasised that, in all cases where an individual is not formally assigned to the PSG, the ship or unit retains full Divisional responsibility and the ship’s DO and DSR should remain fully-engaged and in contact with the rating on a weekly basis.

2111. Civilians with Divisional Responsibilities

The Divisional and Regimental System depends on the principle that there should be a clear and obvious link between CO and the most junior individual. The joint responsibilities and activities of XOs, the DOs, DSR/SNCOs and LH/Cpls provide that chain. The Divisional and Regimental System should be totally integrated into the departmental structure, and so far as practicable into the operational line management. The organisational structure below is based on the system at sea and should be adapted to circumstances ashore or other fighting arm elements as appropriate. In general, all officers and most senior ratings/SNCOs should have roles within the system; exceptions should be made only for those with very heavy workloads or with broader remits to the whole unit, such as EWOs, RSMs and Departmental Co-ordinators. PO/Sgts are not to be employed as Divisional Officers - there is no exception to this. Detailed guidance is as follows:

a. The Divisional and Regimental Structure employed within each ship or unit is the responsibility of the CO.

b. Every effort should be made to prevent any member of the management chain having direct responsibility for more than 15 subordinates and the range 7-12 is optimal. To achieve this at sea, most PO/Sgts and some CPO/CSgts will need to be employed as DSR/SNCOs.

c. It is entirely proper for the Command to nominate experienced DOs (probably Lt Cdr/senior Lt) to supervise junior or inexperienced DOs. These ‘Supervising DOs’ should still have divisions in their own right but can also exercise oversight of up to 3 ‘junior’ divisions. Care should be taken that such Supervising DOs are not overburdened with 2RO reporting responsibilities in these circumstances.
d. Ratings/Other Ranks who have DOs of WOs or CPO rank must always be provided with access to a commissioned officer (eg. their Supervising DO, HOD or DHOD) should they require it. This does not call into question the ability of Senior Ratings to carry out the full duties of a DO but is a ‘safety net’ to ensure personnel allocated to Senior Rating DOs do not feel disadvantaged. This does not affect the Service custom whereby any rating may request - through their DO - to see the CO on a private matter (QRRN 4201.3.b).

e. On joining a ship/unit, each rating/OR is to be allocated to a Division. Individuals do not have the right to question this allocation, nor may they request to change Divisions.

f. On arrival in each new training establishment, ratings/ORs will be allocated a new Division/DO, and so on at each stage of their training. For those undertaking split training courses, it is imperative that Divisional care is provided and local arrangements must be made to ensure that all trainees know their DO/Tp Cdr/DSR/SNCO and how to contact them.

g. WOs, CPOs and SNCOs who are DOs are to be provided with Divisional/Troop Officers to provide for their own professional and welfare needs.

Figure 21-1. Typical Ship/Establishment/Regimental Divisional Organisation
SECTION 3 - DUTIES OF A DIVISIONAL OFFICER/TROOP COMMANDER

2112. Introduction
A DO’s duties are many and varied and, while guidance on their principal duties is covered in this Section, direction on specific policy matters may be found elsewhere in this BR. The incoming DO/Tp Cdr initially has the vital task of getting to know their Division/Tp, obtaining their trust and respect as someone who can be turned to with confidence for advice, assistance or help in times of difficulty.

2113. Duties on Taking On/Handing Over a Division/Troop
On assuming responsibility for a division there will be much information to discuss between outgoing and incoming DO. As a minimum, the following tasks are to be completed as part of the handover, before the outgoing DO/Tp Cdr departs:

a. Conduct a discussion on each member of the division, their objectives, welfare needs and the status of their appraisal report.

b. Carry out a check on the ‘bring-up’ method in use and note taken of any imminent/outstanding requests.

2114. Annual Mandatory Personal Information Check and Divisional Officer/Troop Commander’s Dashboards

a. OBIEE (Oracle Business Intelligence Enterprise Edition) is a ‘data mining’ software tool that allows users to view and interrogate JPA information. It also collates all the information held in various areas within JPA into a useful one page summary. When used correctly, it will save the DO/Tp Cdr a huge amount of time and effort in staffwork. It is each individual’s responsibility to carry out a Personal Information Check Dashboard at least annually. UPO/Unit HR staffs will carry out periodic reviews to provide assurance that data held by JPA is accurate and that Personal Information Checks are being carried out. A detailed guide of how to carry out a Personal Information Check is at Annex 21A.

b. The DO/Tp Cdr OBIEE dashboard builds upon the Personal Information Check Dashboard and enables DOs, Tp Cdrs and the Chain of Command to access data on their people in a number of different views. Importantly, it highlights when individuals have out of date/incorrect information in JPA as well as automatically displaying bring-up actions or other information on other displays. It is therefore imperative that personal information held on JPA is accurate, in order to inform vital processes such as NOK Casualty Reporting, Souls on Board accounting and career assigning. Information changes constantly and these checks apply to all members of the NS irrespective of rank/rate. The dashboard is simple and intuitive to use and is accessible through the front page of JPA. In addition, inspecting authorities will subject divisional work to scrutiny as part of the work-up process by Holding to Account (H2A) individual DOs/Tp Cdrs whose divisional work is untimely, or lacks the necessary quality or rigour. A detailed guide of how to conduct the DO/Tp Cdr’s Dashboard is at Annex 21B.
2115. **Appraisal Reporting**

a. Appraisal is one of the most important functions of **Leadership**, providing the chain of command with a dynamic mechanism for engaging fully in the development of its people, thereby enhancing morale and operational effectiveness. To this end all Service Personnel at all ranks are to receive honest feedback on their performance against agreed roles, responsibilities and objectives. Additionally, appraisal affords individuals with the opportunity to influence positively their own career path, whilst enabling Reporting Officers (ROs) to support the management of this career through commenting on potential in terms of both promotion and future employment.

b. The fair, timely, responsive and accountable career management of military personnel is a critical aspect of retaining their trust. It also ensures their careers are properly progressed - a key part of the offer. The delivery of appraisals is at the heart of this process; to ensure they deliver what is required, they must be actioned within clearly defined direction - JSP 757 is the authoritative policy and guidance for military appraisals.

c. There are generally two occasions when DOs/Tp Cdrs need to make formal appraisals of the members of their Division/Tp, the Annual Report (AR) and the Mid Period Appraisal Review. Further details on these are at Annex 21C.

2116. **Joining Letters**

Joining Letters are normally the first contact the prospective member of the Division/Tp receives from their new ship or unit, and therefore have great impact. Even in the digital age of electronic communication, the Joining Letter sets the tone to the new joiner, delivers vital information, and provides the first opportunity to welcome and absorb them into their new operational setting. Even if subsequent contact is by email, text or mobile phone, a Joining Letter should always be sent. Detailed guidance, together with a template for a Joining Letter, is at Annex 21D.

2117. **Joining Routine and Interview**

New members of the Division/Tp should be met on joining by the DSR/SNCO (at least), who should ensure that the individual is guided and supported through the initial joining and induction processes (see also Paras 2107 and 2108, DSR and LH responsibilities). The new joiner should be interviewed by the DO/Tp Cdr as soon as practicable after joining. The interview should be conducted in the DO’s cabin (or other similarly private area), be programmed for at least 30 minutes (possibly up to an hour) and be free from interruption. A check-off list and further guidance on the joining interview is at Annex 21E.
2118. Divisional/Troop Meetings and Briefings  
Divisional Meetings are to be held at least 3 times each year; the XO is responsible for producing formal agendas. The following describes the process step by step:

a. The XO, following consultation with the CO and HODs, issues an XTM containing a skeleton agenda, brief on whole ship items and dates by which meetings should be held.

b. In addition to the skeleton agenda, the Personnel Support Brief (PSB), supported by the latest 'TwoSixTV' DVD (when applicable), gives personnel ‘hot topics’ and mandates certain key points that are to be discussed at Divisional/Troop meetings. Given that the PSB is published at set times of the year (namely Jan, May and Sep) it makes sense to plan termly Divisional meetings between these periods.

c. In addition to the mandated PSB topics as above, the agenda for Divisional/Tp meetings must include updates on RN policy on alcohol/drug misuse (Para 2137-2140) and RN D&I policy (Chapter 30).

d. HODs brief departmental DOs as required, adding any departmental specific items to the agenda.

e. DOs add any Divisional/Tp specific items and ask DSR/SNCO to obtain bids and questions from divisional members (always retaining an ‘any other business’ item).

f. Agenda promulgated in good time to the Division/Tp.

g. Meeting takes place, chaired by DO/Tp Cdr, assisted by DSR/SNCO and LH/Cpl.

h. DOs debrief HODs, EWO and XO; any follow-up action being initiated. A divisional feedback form should be created by the EWO/BWO/RSM who will collate all returns and pass on to the XO once complete. A standard format for all Divisional Feedback has now been established. An example template can be found at Annex 21F, at the NCXT web page on the HELM or can be requested direct from CWOSS. Where questions cannot be answered internally, XOs should compile these items within their divisional feedback return and seek advice from NCHQ.

i. XO debriefs CO. Once CO is content, Divisional Feedback Form passed to NCHQ (to relevant CWO). CWOSS is the immediate recipient for all Divisional returns and, in consultation with FXO, will send specific queries and issues to other authorities and SMEs as required. This template should be used as the only means by which Divisional Feedback is sent to NCHQ. Deadlines for Divisional Feedback can be found via the extant PSB (on the Editor’s Notes page) or by contacting CWOSS, and are also listed on the Navy Dii intranet Home Page at the HELM.
Divisional and Troop meetings need not be confined to the termly events described above. A DO/Tp Cdr may wish to have a weekly get together over coffee, a monthly discussion, or take them to play sport at regular intervals. There is no mandated policy: it is strongly recommended, however, that DOs/Tp Cdrs gather their people at the mid-point between termly meetings to discuss issues at departmental, unit or Service level; the aim being to build esprit de corps and hence operational effectiveness.

2119. Leaving and Exit Interviews

Shortly before departure from the Division/Tp in normal course (unless an annual Appraisal Report has taken place in the recent past) the leaving member of the division is to be interviewed by the DO/Tp Cdr. Amongst other things, the leaving interview provides the follow opportunities:

a. To investigate how well the Divisional/Regimental System has met the needs of the individual during their time in the Ship/Unit.

b. To remind the individual of all they - and the unit - have achieved during their time on board/in the Unit and to thank the individual for their contribution.

c. To establish if the individual has received a Joining Letter from their forthcoming Ship/Unit and the identity of their new DO/Tp Cdr. If such information is not available, the DO is to establish the receiving DO’s name and inform the leaving individual.

d. To inform the individual of any information or matters of concern that are to be forwarded to the new DO/Tp Cdr.

e. To inform the individual that, should they have a period of leave before joining their next unit, their current division (and Ship/Unit) should be called upon for assistance if required.

f. In addition to the routine leaving interview, DOs/Tp Cdrs are to ensure that personnel leaving the service (through Voluntary Outflow) are given an appropriate ‘Exit’ interview. All COs/LMs are to conduct an Exit Interview as soon as possible following the submission of an individual’s notice to leave. Full guidance on the requirement and process of Exit Interviews can be found at 2015DIN01-027.

2120. Discipline

The DO/Tp Cdr’s role in the discipline process is explained at Chapter 20 Section 5.

---

2 Mindful that Data Protection Act regulations require any relevant paperwork to be passed to the next unit eg. Certificates or competences.
SECTION 4 – DIVISIONAL GUIDANCE AND ADVICE

2121. Counselling and Welfare Matters

The following guidance and advice is provided on matters of counselling and welfare:

a. One of the DO’s tasks is to provide help and advice on personal matters. The DO/Tp Cdr and DSR/SNCO are the first line of ‘Welfare Care’ to individuals and as such are an integral part of RNRWelfare. DO/Tp Cdrs bear primary responsibility for members of their Division/Tp; whilst the EWO, Chaplain and Medical Officer (or other equivalents) may provide support to the DO/Tp Cdr (but do not replace them).

b. Individuals must feel confident they can approach their DO/Tp Cdr for an interview whenever the need arises; it is the DO/Tp Cdr’s duty to create an atmosphere of approachability and an awareness that ‘welfare issues’ carry no stigma. Occasionally, operational circumstances may require that the interview be deferred or it may be prudent not to conduct an interview at the time (eg. if the individual is in an emotionally excited state, or has been drinking), nonetheless the interview should take place as soon as possible.

c. Inexperienced or young DO/Tp Cdrs may feel reticent about discussing problems, particularly with older ratings, in areas where they have no personal experience eg. marriage. DOs/Tp Cdrs should bear in mind, however, that often the individual's prime need is simply to discuss the matter: just by listening, (perhaps with the occasional question for clarification) the DO/Tp Cdr goes part of the way to setting the individual's mind at rest.

d. What may seem a small matter to the DO/Tp Cdr may be of great importance to the individual. It may be that all the individual requires is informed, factual information. Here, if the DO/Tp Cdr does not have the information to hand they should investigate and consult as necessary to obtain the facts or refer the individual to a subject matter expert.

e. Some of the most difficult problems are those of a moral or religious nature that require practical advice or assistance (such as relationship breakdown or bereavement matters). Sometimes the actual or imagined seriousness of a family or personal problem is causing mental or emotional stress to the detriment of the individual's professional performance, and may cause disciplinary or administrative problems. If the DO/Tp Cdr feels that their inexperience deprives them of the ability to give practical advice, there may be benefit in arranging an interview with their HOD or the XO, whilst the DO/Tp Cdr remains responsible for oversight of the problem and individual.

f. A member of the Division/Tp with a personal problem may disclose it to a Chaplain or Medical Officer whilst feeling unable to discuss it with their DO/Tp Cdr. This may be for reasons of embarrassment or fear of being perceived as a burden that tarnishes their career prospects. The Chaplain/MO can translate the situation to the DO/Tp Cdr without necessarily divulging intimate or confidential details, and trust between the DO and Chaplain/MO can develop into a strong working relationship.
g. If a Welfare investigation is required, the individual’s consent is to be sought and it is expected that they will inform their family. Full details of Welfare matters can be found at Chapter 24.

2122. Walking the Patch

The DO/Tp Cdr’s primary role is to know and lead his/her people and this cannot be done from behind a desk or computer. This can only be done by meeting people ‘face to face’ – humans naturally respond to eye contact and body language - this is where the inexperienced DO/Tp Cdr builds trust. Meeting members of the Division/Tp on their territory will make them much more willing to engage and enable DO/Tp Cdrs to learn about their people, their background, family, religion, sport etc. Sailors and marines enjoy ‘chat’ and welcome genuine interest - which cannot be conveyed by email. A walkabout does not need to cover the entire division/unit or everyone in it, or be conducted at a set time or frequency. The value of a brief chat, however, should not be underestimated - even a brief 5 minutes of a DO/Tp Cdr’s time can make a huge difference to the individuals met. This applies equally to the DSR/SNCO and improves cohesion, morale and effectiveness. Perhaps the single biggest failure of a DO/Tp Cdr is when one’s Division/Tp perceives that they do not know their DO or that they ‘never see them’. Walking the patch also gives DO/Tp Cdrs the opportunity to assess their people - their professional standards, attitude, dress, hopes and fears. For individuals, engagement is key to making them feel valued by the organisation. Advice on walking the patch, in the form of a set of ‘dos’ and ‘don’ts’, is offered at Annex 21G.

2123. Time Allocated to Divisional/Troop Work

The amount of time allocated to Divisional/Tp work will depend on operational circumstances and cannot be pre-set or measured in terms of hours per day, week or month. On the basis that leadership, including Divisional/Troop work, is the prime responsibility of everyone at LH/Cpl and above, DO/Tp Cdrs are to allocate ‘as much time as is necessary’ to Divisional/Tp duties, which are to be given at least equal status to their primary professional role. Time management is an extremely difficult art to perfect. It is routinely ‘easy’ to continuously prioritise departmental work over divisional duties, however this must be monitored and balanced accordingly. COs and HODs are to ensure that Officers and Senior Ratings afford sufficient priority to Divisional/Tp work and that they are not overwhelmed with secondary duties to the detriment of their responsibility for people. Although it is strongly encouraged for XOs to programme divisional periods into the working day when possible, DOs/Tp Cdrs are to be aware that divisional and regimental duties and responsibilities are a 24/7 responsibility.

2124. Communication

Good communication, both up and down the chain of command, is the lifeblood of the Divisional and Regimental System and it is imperative that DO/Tp Cdrs establish good and regular communications with their Division/Tp members. Communication starts when the Assignment Order is received (ie. before they arrive) and continues until either the DO/Tp Cdr or individual is assigned elsewhere. Similarly, DO/Tp Cdrs must regularly brief their HODs/line managers, the XO/Adjutant and, on occasion, the Commanding Officer, acknowledging that this may require moral courage when the message is of an unwelcome or contentious nature. Briefing upwards will build Command confidence in the DO/Tp Cdr and provide assurance that the unit Divisional/Regimental system is working.
2125. Dissemination of Information

In Fleet units, the Executive Officer/2IC, together with the Executive Warrant Officer/RSM, Coxswain or equivalent, is the focal point for the dissemination of information in support of the Divisional and Regimental System and associated issues. From Navy Command, CNPS and CNPerS will ‘push’ relevant policy and procedural information to these points of contact either directly or via NCXT. The standing ‘Battle Rhythm’ of such information comes in the form of three PSB issues (Jan, May and Sep) as well as the more informal ‘Executive Matters’ Newsletters direct from NCXT (Mar, Jul and Nov). Such information should be disseminated either by routine orders, temporary memoranda, or divisional/troop meetings as appropriate. Feedback on divisional and regimental issues should be forwarded to the relevant CWO in accordance with the template at Annex 21F.

2126. Oversight of Initial Trainees

Commissioned Officers are to be given responsibility for the welfare of initial trainees. DOs/Tp Cdrs for initial trainees are to conduct internal Quality Assurance audits of training undertaken (notwithstanding the requirements of the Defence Centre for Training Support (DCTS)) to ensure that best practice is maintained and that initial trainees are not placed at risk or subject to bullying or harassment at this early stage of their Service careers.

SECTION 5 - REQUESTS

2127. Requests

DOs/Tp Cdr’s responsibilities concerning requests can range from simple requirements, which can be authorised by the Divisional and Regimental chain, to more complex tasks which must be approved or seen by the CO. The scope of requests can be quite wide but some of the common subjects/occasions are as follows:

a. Award of GCB.
b. Imposition of Naval Penalties.
c. Confirmation of Promotion.
d. Request to Become an Upper Yardman/Senior Upper Yardman Candidate.
e. Request to see the CO.

2128. Timeliness

The requirement to ensure timely submission of requests applies in all cases. It is essential that the DO/Tp Cdr or DSR maintains a ‘BU Diary’ to ensure that necessary action is taken in a timely manner. OBIEE provides an electronic BU diary, although a local ‘paper copy’ may be the preferred method for many DOs. Extraction of key data and future dates forms part of the Joining Interview which is then updated by the Annual JPA Check using the OBIEE dashboard.
2129. Actions

If the DO/Tp Cdr can deal with a request, the Request Form/JPA Workflow should be returned to the individual with the decision recorded. If the request requires approval at a higher level, the individual should be informed what action is to be taken and when that might be expected. Whilst some Requests may be dealt with ‘Papers Only’ by appropriately authorised personnel, due regard should be paid to ensure that an appropriate level of prestige and recognition, for example in the award of a Good Conduct Badge, is given to significant stages of an individual’s career, which should merit formal or informal presentation by the CO.
SECTION 6 – TRAINING, EDUCATION AND DEVELOPMENT

2130. Training of Divisional Officers/Troop Commanders

The following regulations apply to the training of personnel involved in divisional/troop management.

a. DOs/Tp Cdrs and DSRs/SNCOs must have completed the Divisional Officers’ Course (DOC) at the Royal Naval Leadership Academy (RNLA) Divisional Training Unit (DTU), HMS COLLINGWOOD (or CTCRM Lympstone for RM) not more than 6 months prior to, and certainly not after, assuming responsibility for their first Division. DOs/Tp Cdrs and DSR/SNCOs are then to keep themselves up-to-date by reading the termly PSB, and other publications (eg. 2-6 DVD, DINs, RNTMs and Galaxy Briefs).

b. DO/Tp Cdr refresher training is to be completed every 5 years for those with Divisional responsibilities. Those who have previously completed the DOs’ Course but who have not assumed Divisional/Tp duties for between 3 and 10 years must also undertake refresher training. Refresher training is taken on-line via the Defence Learning Environment (DLE) (search for ‘Divisional Officers Refresher Course’). Those resuming Divisional/Tp duties after a break in excess of 10 years must complete the full DOC.

c. WOs, CPOs, SNCOs, and MOD Civil Servants and members of the Army or RAF who are given responsibility for a Division or Troop of RN/RM personnel must have completed the Divisional Officers Course (DOC) (RM equivalent is embedded in professional career courses) before assuming that duty. This is a Cat ‘A’ Personnel Functional Standard (PFS): failure to provide a trained Divisional/Troop Officer must be reported to Navy Command Headquarters. If a DO/Tp Cdr is non-commissioned, each member of the Division/Troop must have a formally notified means of access to a nominated commissioned officer.

d. Upon successful completion of the DOC, WOs, CPOs and SNCOs may act as full DOs. WOs may act as DOs/Tp Cdrs for CPOs/CSgts and CPOs/CSgts may act as DOs for POs/Sgts.

e. COs are to take a personal interest in the training and development of their Divisional/Troop Officers, Senior Rates/SNCOs and Leading Hands/Cpls. Heads of Department are responsible for ensuring that members of their department receive advice and guidance in performance appraisal and reporting.

f. Details of Divisional and Command, Leadership and Management (CLM) training are at Section 10.

2131. Individual Training

The subject of training, education and development of individuals is one of the main tenets of the Divisional and Regimental System and must be given appropriate priority by DOs. The ‘Teach, Coach, Mentor’ culture is already firmly embedded within the RM and is gaining growing recognition in the broader RN. Various branches and ‘groupings’ have Mentor networks established. Details of personal training and development may be found at Chapters 95 and 96.
2132. **Physical Development and Well-being**

DOs/Tp Cdrs are to actively encourage participation in sport and organised recreation among division members. Personnel Functional Standards (PFS) set out standards and guidelines for many aspects of Service personnel issues (see Chapter 22). DOs/Tp Cdrs are to ensure that their Division/Troop are aware of the PFS and of the Cat ‘A’ entitlements and Cat ‘B’ aspirations. COs, XO, HODs and DOs should all actively promote and encourage a positive environment for physical health and well-being. It is accepted that often the pace of day to day operations can lead to insufficient time being afforded to promoting a NavyFit culture. Ultimately, the ability of a unit to prioritise physical development and/or sport periods into the working day/week will only routinely occur if it is Command led. This is strongly encouraged whenever possible.

2133. **Royal Navy Fitness Test**

Every member of the RN has a responsibility to maintain their physical fitness and to be fit in all respects for operations. The RNFT is the minimum baseline of requirement. It must be completed at intervals of not more than 12 months and an individual must be in date at their Common Promotion Date to be eligible for promotion. It is the individual’s responsibility to remain in date, but DOs must pay a close interest and pay particular attention to those on remedial training or who have been temporarily medically downgraded. Refer to Chapter 29 for detailed guidance.
SECTION 7 - ETHOS, VALUES AND STANDARDS

Protecting our Nation’s Interests. 24 Hours a day, 7 days a week, at sea, on land and in the air, the Royal Navy is on duty around the globe.

2134. Ethos, Values and Standards

In the Naval Service the ‘The Team Works’: this short phrase describes how our fighting spirit, ‘can do’ attitude, and high standards of professionalism, behaviour and self-discipline have enabled us (sailors and marines) to deliver operational success consistently down the centuries. We have a duty to sustain that tradition and ethos in order to continue ‘Protecting our Nation’s Interests’. Our Core Values and other components of Ethos, Values and Standards are detailed at Annex 21H.
SECTION 8 – PERSONAL CONDUCT

2135. **Armed Forces Code of Social Conduct**

a. The Code of Social Conduct explains the Armed Forces’ policy on personal conduct, paying particular close attention to relationships involving Service personnel. It applies to all members of the Armed Forces regardless of their gender (including gender reassignment status), sexual orientation, race, religion, belief, ability, rank or status. The Armed Forces Code of Social Conduct policy and application of the Service Test is detailed in JSP 887; this article provides subordinate supplementary single Service guidance to NS COs and those involved in the management of personal relationships and social misbehaviour.

b. Unacceptable social conduct requires prompt and positive action to prevent damage to operational effectiveness, thus it is important that DO/Tp Cdrs are aware of what action should be considered. Further guidance for the management of personal relationships and social misbehaviour is contained in Annex 21I and associated Appendices.

2136. **Substance Misuse**

Alcohol and Substance Misuse and Testing policy for the Armed Forces is detailed in JSP 835. In certain areas, however, Tri-Service policy requires single Service interpretation and clarification. NS guidance on this subject is therefore given at Annex 21J (see also QRRN 3625). In addition to the testing policy, the Alcohol and Substance Misuse Education and Management programme exists as the primary preventative measure to guard against future misuse. The main safeguard against the alcohol culture and drug misuse threat in the Service is a continual programme of education, and advocating core values, ethos and standards of behaviour and personal responsibility. Full details of the NS Alcohol Education policy and management of alcohol abuse strategy are at Annex 21J Appendix 1.

2137. **Compulsory Drugs Testing** (See also QRRN 3626 and JSP 835)

detailed policy and guidance on Compulsory Drugs Testing may be found at Annex 21K.

2138. **Involuntary Drug Use (Spiking)**

The spiking of drinks is unlawful and must be reported to the Police/Service Police as soon as reasonably practicable. There have been incidents of Service personnel suspecting that their drink has been spiked whilst they were ashore. This can be very worrying, given the penalties for drug related offences. Action to be taken in the event of suspected spiking is to be discussed as part of Divisional/Troop meetings and is covered at Annex 21K Appendix 1 (see also BRd 9600 Ship’s General Orders).
2139. **Stress**

JSP 375 states the following: “Stress affects people in different ways at different times and is often the result of a combination of factors in their personal and working lives. Work related stress arises where the combination of pressure from work load, working practices, work relationships, etc. exceed the person’s capacity and capability to cope, resulting in adverse physical and/or mental reactions.” Service in a deployable fighting force brings with it inevitable pressures, such as separation from family and friends, and periods of intense, sometimes dangerous, activity. Whilst these pressures do not inevitably cause stress and many personnel cope with extraordinary demands without suffering ill effects, anyone can begin to suffer from stress at any time. DOs/Tp Cdrs need to be aware of the possibility of stress as a cause of problems in both themselves and their division and should refer to the detailed guidance that may be found at Annex 21L.

2140. **Deliberate Self Harm or Suicide**

In comparison to the UK population, Deliberate Self Harm (DSH) and Suicide are not common in the NS. Nonetheless, a basic understanding and knowledge of what to do if their suspicions are aroused is essential for all DOs/Tp Cdrs. Full information is given at Chapter 24 (Welfare) Para 2418 and Annex 24D which should be referred to for detailed guidance.

2141. **Diversity and Inclusion**

All personnel have the right to work in an environment free from harassment and bullying, and to be treated with fairness, dignity and respect. Any form of bullying, harassment or unlawful discrimination will not be tolerated in the Naval Service as it undermines team cohesion and weakens operational effectiveness. Creating a culture and working environment which recognises diversity and inclusion (D&I) is the business of everyone in the Naval Service. DOs/Tp Cdrs must be particularly aware of ensuring their people feel valued and included within the team. If issues do occur, DOs/Tp Cdrs must ensure that they are taken seriously and dealt with correctly. Complaints may well be one person’s word against another and will thereby become difficult issues to resolve. DOs/Tp Cdrs must take immediate action engaging with the unit Equality and Diversity Adviser (usually the EWO or equivalent). Guidance on what may be appropriate can be found in Chapter 23 (Service Complaints), Chapter 30 (D&I) and BR 2 (QRRN) Chapter 42 Section 2. A strong Divisional/Regimental System and application of the Naval Service Ethos (respect for others) ensures a diverse and inclusive workplace for all that will reduce the likelihood of issues or unfair treatment.

2142. **Security**

Security is the business of all Royal Navy personnel. All aspects of security are dealt with in JSP 440, the Defence Manual of Security, and specifics on Security Vetting policy can be found in Chapter 63. It is essential that security be brought to the attention of all serving personnel. This is to be done by regular security briefings, both by the Unit Security Officer (USO), and the DO/Tp Cdr. All personnel are required to attend a mandatory Annual Security Lecture as part of their Core Maritime/Military Skills (CMS) package. DOs/Tp Cdrs are to monitor their Division/Tp’s currency for this lecture as part of the Annual Mandatory Check of Personal Information held on JPA (OBIEE Dashboard).

---

3 JSP 375 Management of Health and Safety in Defence Pt 2 Vol 1 (V1.0 Dec 14) Para 17.1.5.

21-22 of 44
February 2020 Version 1
2143. **Wills**

COs have a responsibility to ensure that personnel are both encouraged and provided with the opportunity to complete a Will. This responsibility may be devolved to DOs/Tp Cdrs to manage within their Divisions/Tps. The MOD is not authorised or competent to provide advice on Wills or Will making which, if required, should be sought from a solicitor or other specialist adviser. Detailed guidance on Wills can be found at Annex 21M.

2144. **Social Media**

The use of social media/social networking sites has become profuse in the past decade. According to the Office of National Statistics, over half the population were using social media regularly in 2012 and half again were using it on a daily basis. The 16-24 age group are the most prolific users. Whilst acknowledging the benefits, social media has nevertheless brought challenges for the military in terms of security, discipline and reputation. Detailed guidance for individuals on their use of social media, and for Command teams in dealing with the consequences (intended or otherwise) of communications on social media, can be found at Annex 21N.

2145. **Fraud and Irregularity**

Fraud costs the public sector £21 billion per annum. The law against fraud and irregularity is shaped by 2 key pieces of legislation, the Fraud Act 2006 and the Bribery Act 2010. Fraud and Irregularity have no place in the NS. DOs/Tp Cdrs are to ensure that their Divisions are aware of the Service’s zero tolerance to fraudulent activity and irregularity and are to ensure that the Tri Service Hotline and online reporting website are known about. Details on Fraud and Irregularity can be found at Annex 21O.

2146. **Caldicott Principles**

The Caldicott Principles are a list of 7 principles subsumed into the NHS confidentiality code of practice. They are intended to protect the personal medical information of individuals and govern how such information can and cannot be used. This is relevant to DOs/Tp Cdrs and all others in the chain of command who may on occasion be exposed to an individual’s personal medical circumstances eg. circumstances leading to medical downgrading. DOs/Tp Cdrs are under the same obligations as the medical profession to respect the confidential nature of this information and ensure it is handled correctly. Details of the Caldicott Principles pertinent to DOs/Tp Cdrs can be found at Annex 21P.
SECTION 9 – FINANCIAL AWARENESS

2147. Financial Awareness
While the majority of training establishments deliver financial briefings within Phase 1 and 2 courses, all personnel on the trained strength need to maintain continued financial education and support through-career. Two organisations are authorised to give these briefings: the Money Advice Service (MAS) and the White Ensign Association (WEA).

a. The Financial Services Act required the Financial Services Authority to establish the MAS. The MAS’s primary remit is to enhance the public’s understanding and knowledge of financial matters and to improve their ability to manage their own financial affairs, and they have survived the dissolution of the FSA. It remains an independent body which provides and delivers financial briefings on request, as well as individual advice. In the course of surveying financial awareness education, it has become apparent that there are some Independent Financial Advisors (IFAs) offering their own financial briefings to Naval units and establishments. CDP has directed that IFAs should not have access to recruits or trainees under the banner of financial briefings, but for all other personnel it is for the CO to decide whether to grant IFAs access to unit personnel in the workplace. It is arguable that some financial education is better than none, but not all providers come without a sales pitch. MAS’s services may be enlisted through RNRM Welfare.

b. Not funded by government but of equal status with respect to financial briefings, the WEA promotes financial responsibility and awareness to members of the Naval Service (ratings and officers), making free, confidential and impartial advice available to individuals as required. The WEA also delivers financial briefings on request, and are used by MAS on occasion as a proxy to deliver their briefs to units. The WEA and MAS are both independent and work very closely with all three Services.

c. To maintain awareness and education, or when operations and deployments preclude formal external briefings, self-help training packages are available from:

   www.learndirect.co.uk, which provides courses for our people and their families;

   Defence E-learning Centres www.delc.co.uk.
2148. **Financial Counselling**
Divisional Officers may need to conduct basic financial counselling for individuals in their Division. A proforma is at Annex 21Q should this be required. DOs/Tp Cdrs are not to give financial advice as such, but can and should signpost individuals to professional bodies. Listed below are some of the professional bodies and other websites which can offer assistance:

- b. The White Ensign Association (WEA) – www.whiteensign.co.uk
- c. A number of links are available at www.rncom.mod.uk
- d. www.nff.org.uk.

2149. **Maintenance of Spouses/Civil Partners and Children**

- a. Married service personnel in a civil partnership are to be encouraged to make adequate financial provision for the maintenance of spouses/partners and children. It should be fully explained to an individual who neglects to support the family adequately that MOD (Navy) has authority under the Naval Forces (Enforcement of Maintenance Liabilities) Act 1947 to make Compulsory Maintenance Deductions from an individual's pay whether or not a Court Order for maintenance has been obtained. Once a Court Order is obtained deductions from pay will be made in compliance with that order.

- b. An individual on assignment to a seagoing ship (home or abroad) or to a shore station abroad involving family separation should be strongly encouraged and given every opportunity to split their Net pay (JSP 754 Chap 2 Sect 2), whereby they can have a proportion of their pay sent to their spouse/registered partner or guardian's bank account/building society (if they do not hold a joint account). The DO/Tp Cdr must be satisfied that adequate arrangements exist for the proper support and maintenance of the family. If adequate arrangements have not been made, the DO will inform the CO, who, if they consider the circumstances warrant further action on their part, may interview the individual to encourage them to provide the necessary minimum maintenance.

- c. DO/Tp Cdrs should warn individuals who decline to make proper arrangements to support their families that their Personal Status Category will have to be changed which, in turn, will render them liable for Food and Accommodation charges (where applicable), and may reduce or stop allowances they may have been eligible for as a married/registered person.

- d. Any order for maintenance or Child Support Agency (CSA) requests for deductions from pay on a Maintenance Assessment (MA) will be enforced (JSP 754 Art 02.0605f refers).
2150. Maintenance of Spouses/Registered Partners and Children – Service Personnel Committed to Imprisonment or Detention

It is essential that the families of individuals in Personal Status Categories C1 to C4 be properly cared for whilst the spouse/registered partner is undergoing a period of detention and who therefore is not in receipt of basic pay. The following guidance is designed to assist DOs who have responsibility for such ratings:

a. **Family Maintenance Grants (FMG).** The rules for payment of an FMG are contained in JSP 754 Chap 8 Sect 1 Annex B. Application for payment is to be made by the offender’s Commanding Officer and forwarded to JPAC Centurion. FMG is only payable for a maximum of 8 weeks.

b. **Supplementary Benefit Payments.** Where the individual is to be discharged from the Service on completion of sentence, the FMG is payable only up to the date of discharge from the Service or for a maximum period of 8 weeks beginning from the date of sentence. When entitlement to the FMG ceases, it will be necessary for the recipient to apply to the local DSS Office for Supplementary Benefit payment.

c. **Rent Payment.** In addition to the FMG there is an element to cover rent, which in the case of a family occupying Service Family Accommodation is the actual rent paid. For those in private accommodation (including owner-occupiers), the rent payment will be based on actual cost up to a maximum of the rent for a Type C Grade 1 unfurnished SFA. The Supplementary Benefit payable by the DSS also includes an element for rent.

d. **Family Accommodation Entitlement.** (see Chapter 25). If the individual is being retained in the Service on completion of sentence, the family retains their entitlement to occupy a SFA. If, however, the individual is to be dismissed on completion of sentence, the entitlement to occupy SFAs ceases on discharge from the Service. Individuals dismissed with an accompanying sentence of detention are considered discharged on the date on which they would be released from detention if they had earned maximum remission. Individuals sentenced to imprisonment are discharged immediately, prior to undergoing their sentence.

e. **Dismissal and Imprisonment.** In all cases where an individual's pay ceases as a result of imprisonment or dismissal, DOs/Tp Cdrs, in conjunction with RNRMW staff, should offer counselling to the individual and family in order to assist them in the transition from Naval to civilian life.

2151. Relationship Breakdown

a. Attention is drawn to Para 2418. A period of 93 days is allowed before estrangement is deemed to have occurred in circumstances when a marriage or civil partnership is in serious difficulties. DOs/Tp Cdrs who identify individuals with marital or partnership problems should record the date of the initial Divisional Counselling interview in the Divisional BU Diary. A structure for this interview is at Annex 21R.
b. All Service personnel with marital or civil partnership problems should be urged to seek family counselling advice from RNRMW (see Chapter 24 Section 3), a Chaplain or other spiritual adviser (see Chapter 31 and QRRN).

c. At the end of the 93 day period, or when evidence of a positive breakdown in a marriage or civil partnership is received, or when it is apparent no reconciliation is possible, whichever is the earlier, the CO should assess an effective date of Estrangement on JS Form JPA N001 (Change of Personal Status - raised by Unit HR) and certify that marriage counselling advice has been offered to both parties of the partnership (JSP 752 Ch 1 Section 4 refers). DOs/Tp Cdrs should note the stress on the word 'offered': there is no obligation upon either the individual or his/her spouse or partner to accept this marriage counselling advice.

d. **Advice.** Marital or partnership breakdowns leading to estrangement or divorce/dissolution have many Service implications. It is most important that individuals be fully briefed on the actions they should take in such circumstances. The following sub paragraphs summarise the main considerations and sources of advice.

e. **The Logistics Officer/Imprest Officer.**

   - Change in Personal Status: JSP 752 Ch 1 Sect 4
   - Long Service Advance of Pay for house purchase: JSP 752 Ch 2 Sect 4
   - Service Families Travel: JSP 752 Ch 4 Sect 11
   - Home to Duty Travel: JSP 752 Ch 4 Sect 13
   - Get You Home: JSP 752 Ch 5
   - Married rates of LOA (if accompanied abroad Child benefit): JSP 752 Ch 6
   - Relocation benefits: JSP 752 Ch 7
   - Education Allowance: JSP 752 Ch 9
   - Income Tax: JSP 754 Art 02.0105
   - Food and Accommodation charges: JSP 754 Ch 9

f. **RNRM Welfare.**

SECTION 10 – COMMAND, LEADERSHIP AND MANAGEMENT (CLM), AND DIVISIONAL TRAINING

2152. Introduction

a. The aim of this Section is to describe the training that ratings and officers should undertake as part of their Command Leadership and Management (CLM) development. As leaders and managers, all Naval Service (NS) Divisional Officers (DOs) have a responsibility to develop their subordinates; this section provides guidance and advice that will help this process. This section outlines the following: the CLM and Divisional training delivered by the Royal Naval Leadership Academy (RNLA) at BRNC Dartmouth, HMS COLLINGWOOD and OLTC Talybont.

b. A description of the Leadership Courses (LCs) delivered by the RNLA, including their content, details of physical activities undertaken, and recommendations for pre-course preparation.

c. The need for post course development, together with guidance on how to maximise the benefit of such activities.

d. Details of assistance available from RNLA.

2153. General

a. The RNLA is comprised of 3 Squadrons and an HQ which are located at 3 sites. Royal Arthur Squadron (RASqn) is based at HMS COLLINGWOOD, whilst the HQ, Royal Sovereign (RSSqn) and Royal Oak Squadron (ROSqn) are based at BRNC Dartmouth. ROSqn is also responsible for the Outdoor Leadership Training Centre (OLTC) at Talybont-On-Usk, Brecon, South Wales.

b. CLM and Divisional training is provided to RN personnel throughout their careers, principally in support of promotion, recognising that those selected will be required to exercise greater levels of leadership; Divisional training is also provided to any individual across the NS, Army and RAF with divisional reporting responsibilities. All Ratings receive an element of team building while undergoing Phase 1 and the Able Rates’ Leadership Course (ARLC) during Phase 2 training before being accepted onto the trained strength; this acts as a precursor to subsequent formal RNLA CLM LCs once selected for promotion. Officers receive a significant amount of leadership training as part of their Phase 1 Initial Officer Training (INT(O)) package, which is delivered by RSSqn. Subsequently, they also undertake Junior Officer Leadership Course 1 (JOLC1) immediately prior to commencing their first complement assignment and will, in due course, undertake a 2-week continuation Leadership package in Junior Officer Leadership Course 2 (JOLC2).
2154. Output
The RNLA currently delivers the following:

a. Royal Sovereign Squadron. RSSqn delivers leadership training as part of the overall Phase 1 (INT(O)) package at BRNC Dartmouth. The syllabus includes delivery of theory lessons and exercise coordination of:

   (1) Initial Leadership Training. Initial Leadership Training (ILT) has been designed to provide Officer Cadets (OCs) with the knowledge and experience but also to help identify development areas in order for them to successfully complete and pass the assessed leadership exercises. Providing this training prior to Basic Leadership Development (BLD) affords OCs the opportunity to consolidate their understanding of the NATO Sequence of Orders (NSOs), to observe a Practical Leadership Task (PLT) demonstration and to be coached around the PLT circuit in an less formal manner prior to the rigours of BLD and formal assessment during Assessed Basic Leadership Exercise (ABLE).

   (2) Basic Leadership Development. BLD is a coaching and training exercise and is formatively assessed. Introducing OCs to fieldcraft, on completion of which they complete PLTs within the college environment. Prior to deployment on BLD, OCs achieve all CMS1 competences in the field at Okehampton Battle Camp.

   (3) Assessed Basic Leadership Exercise. Set across Dartmoor, OCs have their CLM and team skills summatively assessed under arduous conditions. They are not given guidance or advice by the staff and must prove that they have the necessary personal drive, determination, and leadership ability to succeed. During the exercise, OCs live under field conditions, get little sleep and are put under a significant amount of pressure, both mental and physical. An OC can expect to yomp approximately 45 km during the exercise.

   (4) Maritime Leadership Development (MLD). MLD is a coached maritime CLM development exercise, is unassessed and conducted during the Marinisation phase of INT(O). It is designed to consolidate all elements of maritime training received to date and seeks to develop OCs' CLM in order to prepare them for their final assessment during Maritime Leadership Exercise (MARL). Over a period of five days, the first 2½ of which align the planning process, MTE, NSOs and the delivery of orders in a classroom environment. The final 2½ days forms part of the MARL Task Group’s pre-deployment to the Area of Operations on the River Dart. The tasks during MLD replicate that of a unit performing its own-ship training, mission integration and basic situational awareness. This phase is known as Operation Mission Readiness.
(5) **Maritime Leadership Exercise.** MARL is the summative CLM assessment for Marinisation term of OCs; effectively the culmination of their training at the College. The exercise is coordinated using the picket boats and motor whalers to simulate a task group which is undertaking tasks that resemble current Fleet operations such as: Interdiction, Disaster Relief and Evacuation Operations. The aim of MARL is to assess and further develop the OC’s CLM ability, including their professional skills of navigation, seamanship and teamwork, whilst under arduous and stressful conditions in a maritime environment. Each OC takes a turn as CO and XO of their ‘Ship’ in order to demonstrate their executive and CLM skills.

(6) **Development Packages.** RSSqn delivers development packages for those personnel who fail to meet the assessment criteria during Exercises ABLE and MARL. These packages are identified as D1, D2 & D3 and are broken down as follows:

(a) **Development 1.** The aim of the 5-day D1 Package is to focus on confidence, planning, decision making and reinforcing the leadership theory taught during the militarisation phase of training. D1 focuses on: leadership and briefing styles; attitudes and performance; motivation and goal setting; non-verbal communication; Command, Leadership, Management and Ethos (CLME); confidence through group presentations; sales pitches and power of command; decision making through PLT coaching and mentoring; and, delivery of orders. For the final phase of D1, OCs spend two nights under bivouacs within BRNC with the aim to fatigue them physically and mentally prior to their summative assessment on the final day.

(b) **Development 2.** The aim of the D2 Package is to provide ongoing development targeting an individual’s character traits and teamwork ability. This is achieved through:

i. MBTI assessment (learning about yourself and how you fit into a framework);

ii. 16 PF assessment (looks at the 16 Primary Factors that make up a person’s personality); and,

iii. development plans utilising SMART objectives.
Development 3. The aim of the five -day D3 Package is to address the planning, critical thinking and briefing shortcomings that OCS demonstrated during their respective MARL failure. It focuses on: NSOs structure delivery; briefing styles and non-verbal communication; critical thinking (table-top exercises), planning (organise and brief an even); and numerous Training Exercises Without Troops (TEWT). The final day is given over to the summative assessment which tests OCS’ ability to formulate a plan from a given scenario, after which DS actively interrogate the success, or otherwise, of that plan for up to 30 mins. On completion OCS turn their plan into a set of NSOs which are delivered to separate DS who will question them on their final plan for a further 30 mins.

(d) In addition, RSSqn delivers developmental CLM training (for BRNC students and other units) utilising BLD tasks. RSSqn conducts internal departmental team building; and, resources permitting, assists with Ship/Unit Continuation Training.

Note. The INT(O) course is accredited by ILM (Institute of Leadership and Management). On successful completion of the course, cadets are awarded an ILM Level 5 Diploma in Leadership and Management.

b. Royal Arthur Squadron. The primary purpose of RASqn is to deliver mandated CLM training for ratings, and NS Divisional training. In addition, a number of smaller courses are run or administered through RASqn, as detailed below:

(1) Senior Rates’ Leadership Course (SRLC). SRLC is aimed at developing the leadership and management skills of supervisors through receiving instruction in the theoretical and practical aspects of leadership and management. The 4-week SRLC includes training in: self and group motivation and morale; team building; decision making; problem solving; and, priority setting. All of this is assessed via a 4-day Dynamic Leadership Exercise (DLX) (see Para 2157.f(5)). The final week of the SRLC is focused on preparing students for the role of Divisional Senior Rate.

(2) Leading Rates’ Leadership Course (LRLC). The aim of LRLC is to prepare ABs for their role as a leader using John Adair’s ‘Action Centred Leadership’ model. As with the SRLC the LRLC has a 4-day DLX. The final week of the LRLC delivers the Defence Train the Trainer (Workplace), (DTTT(W)) package. All ratings joining the RN after 1 Apr 13 must have completed Able Rates’ Leadership Course (ARLC) prior to being assigned to LRLC.

(3) Divisional Officers’ Course (DOC). The DOC provides the information and theory necessary to be a Divisional Officer within the NS. The course covers: D&I; SJAR; discipline; H&S; education and resettlement; and, includes scenario role plays and visits by external speakers on divisional matters. Any individual with divisional reporting responsibilities for RN personnel, including RM, Army and RAF, must attend the DOs’ Course.
(4) **Divisional Refresher Course (DRC).** The DRC is aimed at updating Divisional Officers on current Divisional policy, issues and recent changes and is designed for both military and civilian line managers and Divisional staff (including Petty Officers) who have either previously completed DOC or require an overview of the Royal Naval Divisional system. This course is available as online training via the Defence Learning Environment.

(5) **Commanding Officer/Executive Officers’ Designate Course (CODC/XODC).** Officers selected for Command or Executive assignments attend RNLA for a briefing on current CLM activities and the potential for use of Academy resources once they have taken up their appointments. CODC/XODC also visit ROSqn in BRNC for personality profiling.

(6) **Support to Bespoke CLM Packages.** RASqn is also able to support, resources permitting, approved bespoke Ship/Unit Continuation Training packages. Facilities include:

   (a) **Low and High Ropes Training.**

   \[\text{Note. The high ropes site is restricted to Officers and SRs/JRs who have already attended SRLC.}\]

   (b) Practical Leadership Task stances.

   (c) **Assault Course.** Ten stances around the perimeter of the HMS COLLINGWOOD are available to improve team work, communication and the competitive edge of individuals.

   c. **Royal Oak Squadron.** ROSqn’s principal remit is to deliver further CLM training for officers, warrant officers and the introduction of teambuilding to Phase 2 ratings.

(1) **Junior Officer Leadership Course 1 (JOLC1).** JOLC1 is designed to build on the CLM training Junior Officers received during their time at BRNC as OCs; broadening and developing their ideas of CLM theory and how it should be applied in practice, prior to taking up their first assignments. JOLC1 is delivered primarily at OLTC and involves investigating and reflecting on CLM attributes witnessed via a combination of Adventurous Training and Challenging Activities; it also affords officers and ratings an opportunity to integrate during CLM training.

(2) **Junior Officer Leadership Course 2 (JOLC2).** JOLC2 is part of 2SL’s Maritime Through Career Development\(^4\) project to provide command, leadership, management and staff training development to officers throughout their career up to 1*.

---

\(^4\) 2010DIN07-165 Maritime Through Career Development (MTCD).
(3) **Warrant Officers’ Staff Course (WOSC).** In order to deliver further CLM development for the challenges faced at this senior level, the reinvigorated WOSC includes visits to Navy Command Headquarters and Permanent Joint Headquarters (PJHQ). WOSC challenges both substantive and selected warrant officers to develop their knowledge around the areas of Command Estimate, briefings and awareness of issues outside their source branch.

(4) **Heads of Department Leadership Course (HODLC).** The HODLC is a 4-day course designed to prepare prospective Heads of Department for the CLM challenges that they will face on taking up their Charge assignments.

(5) **Able Rates Leadership Course (ARLC).** Delivered at OLTC, the ARLC gives all Phase 2 ratings the transferable skills required to work as an effective team member in arduous and demanding conditions.

(6) **Support to Bespoke CLM Packages.** ROSqn is also able to support, resources permitting, approved bespoke Ship/Unit Continuation Training packages.

d. **HQ.** HQ coordinates and assures the pan-RNL training delivery and manages external liaisons on behalf of the Squadrons. HQ is also responsible for delivering the following training:

   (1) **Executive Warrant Officers’ Course.** On assignment to an EWO position, a warrant officer must first attend this staff and management training course, taught by EWO RNL and various subject matter experts. The student leaves with a thorough and complete knowledge in order to advise senior management on human resources, large scale manpower allocation and associated procedures and processes. External visits and official guests facilitate high level briefings and understanding to give the EWO the skills to advise the Senior Management and Heads of Department on allocation of work to others, to achieve specific results by using resources effectively, to implement policy in their defined areas of authority and to contribute to broader activities, such as Diversity and Inclusion and Trauma Risk Management (TRiM).

   (2) **Coordinators’ Management Course.** The Coordinators’ Management Course is a 3-day course that enables students to carry out the functions of a Departmental Coordinator by developing their management knowledge and informing them of their responsibility to the Head of Department for the training, administration, morale and discipline of the department.
2155. CLM Continuation Training

Booking requests for use of RNLA’s facilities or training resources should, in the first
instance, be addressed to the Academy’s Operations Officer (NAVY OP TRG-RNLA HQ
OPS, Milnet: 93825 3289 or 93749 7170, civilian: 01329 333289 or 01803 677170). The
introduction of the amalgamated Academy has also increased the scope for ships and units
to receive CLM training at their own site. Mobile teams are occasionally available to visit
units, providing standard or bespoke coaching, leadership and divisional packages to
supplement their own training programmes.

2156. Booking

Attendance at an RNLA Career course (WOSC, JOLC1, JOLC2, SRLC and LRLC)
should be booked through the individual’s Career Manager and will be notified via workflows
on JPA. Any queries about a specific course booking should be addressed in the first
instance to the Career Manager. Joining Instructions for courses are contained within the
extant RNTM.

2157. Preparation for Leadership Course and the Role of the Divisional Officer

a. The DO, DSR and DLH play pivotal roles in both the physical and mental
preparation of a prospective LC student. DOs are to pay particular attention to the
completion of pre-joining documentation, including the 3-part documentation in the
extant LC RNTM.

b. DOs are to ensure that all ratings assigned to LC training are made aware of
the consequences of failing a LC, which are detailed below in Para 2159 in the
RNTM and also Chapter 69. Standard joining instructions are issued annually by
the RNLA in the form of an RNTM. All students attending RNLA must read the
RNTM and Chapter 69 prior to their arrival at RNLA for LC training. A flow chart for
guidance of DOs in preparing members of their Division for attendance on
Leadership Courses is at Annex 21S.

c. Leadership training has a significant physical content\(^5\), including combat
conditioning circuits as well as 'Battlefield Preparation' Sports which are centred on
team building.

d. Personnel are required to be in date for the RNFT prior to, and for the duration
of, the course. This is to ensure that they are able to undertake the course safely
and to ensure that insufficient individual personal fitness does not degrade the
quality of training for the group. It is recommended that ratings take the RNFT less
than 3 months prior to joining leadership course to ensure they are at the necessary
physical standard. **DOs should enforce this if they are in any doubt as to the
rating’s physical preparedness for the course.**

e. DOs are strongly encouraged to help prospective students prepare for their
LC. This preparation should cover both physical and mental aspects ie. general
physical fitness, teamwork and communication skills including verbal, written
(Defence Writing) and presentational. Preparing students for their LC should be an
integral part of a Unit’s CLM development programme.

---

\(^5\) Outlined in the current RNTM.
f. **Physical Aspects of LC.** Both the SRLC and the LRLC contain the following physical activities:

1. **Loaded Speed March.** The Loaded Speed March is designed to develop teamwork and motivational skills whilst undertaking physical activity. Each student will be expected to carry a weighted pack for the duration of the march.

2. **Combat Conditioning Circuits.** Students will undertake a number of functional fitness and combat conditioning circuits, which are aimed at maintaining fitness levels and ensuring that they are ready to safely participate in exercises on Salisbury Plain or Longmoor Camp.

3. **‘Battlefield Preparation’ Sports.** Up to three days per week, all trainees will be active in competitive physical training exercises during the Dog Watches with the aims of developing communication, team bonding and team co-ordination.

4. **Assault Course.** The Assault Course is designed to create a physically demanding and stressful environment in which to test team planning, initiative and decision making.

5. **Dynamic Leadership Exercise (DLX).** RN LCs (LRLC and SRLC) conduct a DLX which takes place on the Salisbury Plain Training Area; RNR conducts its CLM training at Longmoor Camp Training Area. The DLX has a disaster relief (DISTEX) focus. DLX is a major evolution that tests Mission Command whilst embracing theories taught in both benign and arduous conditions.

6. **Swimming.** Swimming Circuits are conducted as part of the recovery physical activities post DLX.

g. **Presentations and Lectures in LC.** SRLC students will be given a Naval Ethos presentation title on Day 1 of LC and are expected to prepare a 15-minute presentation to be delivered in Week 3. LRLC students will conduct a 7-minute presentation during LC training. All presentation subjects are to have a military title and context. Prior preparation is essential as presentations are given early in the course. All presentation methods are acceptable and are to be in the following basic format:

1. **Introduction (including Personal).** Setting out the scope of the lecture and the aim. 5% of total time.

2. **Objectives.** What it is intended to convey in the lecture. 5% of total time.

3. **Main Body of the Lecture.** The ‘meat’ of the information to be delivered. 80% of total time.

---

6 Outlined in current RNTM
(4) **Conclusion.** A summary of the main points. 10% of total time.

LRLC personnel should prepare and bring with them any props, models, PowerPoint presentations etc. they wish to include, as there is limited time and facilities available for self-help once on course. It is recommended that DOs arrange for students to rehearse their presentations in front of a suitable audience, and have sufficient opportunity to make initial amendments prior to starting course. In addition to the 7-minute presentation, LRLC students will prepare and present theory and practical lessons during the DTTT(W) phase in week 4.

h. **Course Reports.** On successful completion of Leadership Training, each student will receive a certificate and end of course report. The certificate will be given to the individual, with a copy being sent to the CNPers Promotions Office. Students will be informed of any shortcomings and areas for development during the formal end of course interview and these will be included as an Annex to the Course completion letter which will be sent to the student’s DO. DOs are actively encouraged to discuss these areas with the individual on return to unit.

2158. **Return to Unit (RTU) from SRLC/LRLC**

a. The Training Performance Statement requires LRLC/SRLC to be physically and mentally demanding, resulting in a considerable amount of pressure being placed on the student’s character. In order to succeed on course, candidates must demonstrate the required professional and character & leadership standards (C&L). Each student’s performance is assessed continuously whilst on LC, with formal, summative assessments for key Training Objectives (TOs). A warning system is in place throughout courses whereby, if a candidate falls short of the required professional or C&L standard, they will be issued with a written warning that will detail the shortfall and guidance required to redress it.

b. The Warnings process is fully briefed to all students at the beginning of course and there is also comprehensive Coaching Support offered to all students during course to help rectify shortcomings. The RNLA will RTU any student who receives an accumulation of professional and/or C&L warning, the number of which will be stipulated.

c. C&L warnings are commonly received for, but are not limited to, the following reasons whilst on course:

   (1) Lack of commitment or poor attitude.

   (2) Lack of effort and commitment in PT evolutions.

   (3) Inadequate timing or preparation for presentations or briefs.

   (4) Inadequate standard of uniform; in particular No 1s.

   (5) Lack of military bearing during Divisions and within establishment boundaries.

---

7 Outlined in current RNTM.
(6) Poor state of accommodation during daily accommodation rounds.

(7) Attitude or conduct unbecoming of a SR or LH, ie. unreliability, poor judgement, lack of team spirit.

d. Professional warnings are imposed for failed formal assessments of key TOs such as presentations, practical leadership tasks, defence writing and exams.

e. In addition, students will be RTU’ed immediately if they:

(1) Are not in date for RNFT on the first day of course.

(2) Fail the Dynamic Leadership Exercise.

(3) Fail the initial assessment and subsequent failures meet the RNLA warnings criteria for RTU.

f. RNLA Training Orders and LC Assessment Specifications provide further detail on these orders. Students are briefed on this on the first day of their course.

2159. Implications of Failure

a. Under the RN system of ‘select – train – promote’, leadership courses are often the final stage of training prior to promotion and success can lead to this reward. However, leadership courses are not simply attendance courses and failure can have severe consequences for candidates, as detailed below:

(1) Relinquishment of the Acting Higher Rate. Failure of an LC will lead to the relinquishment of an Acting Higher Rate if held (see Para 6916 sub para h).

(2) Financial. Failure to complete the relevant LC prior to the Common Promotion Date (CPD) for non-service reasons that are within an individual’s control, which includes failing a course, will result in pay and seniority not being back-dated to the CPD. Individuals who have not completed an LC will not, under any circumstances, be substantively promoted to the higher rate (see Para 6703 sub para b(4), Para 6714 and Para 6719).

b. Individuals who fail an LC will be advised on the minimum amount of time recommended before being allowed to re-attend the LC and, depending on the level of failure, de-selection will not normally be recommended. Individuals who fail an LC as a result of their final DLX, and who do not merit de-selection, will be given the opportunity to attend a 2-week Leadership Development Package. On successful completion of this course, they will not be required to re-attend the LC. Those who are required to re-attend an LC or the Development Package should be aware that promotion and CPD time limits continue to apply.
2160. Post Course Development

a. Why Post Course Development is Important. The NS commits considerable resource, in terms of both time and money, to train and improve the CLM capabilities of its personnel. Whilst a well-designed and executed course can help improve an individual’s performance, the course alone cannot produce sustained performance improvement. It has been shown that newly acquired knowledge and skills deteriorate dramatically, within weeks of the course. In traditional training regimes, nothing happens before training, so the knowledge and performance lines stay the same. During training, individuals are exposed to new knowledge and this significantly increases. Given the opportunity to practice, the performance line will also increase. However, both will decline unless the student is given the opportunity to embed their new abilities in the work place, as the new knowledge and skills are quickly forgotten. In this situation, the course will be seen as nothing more than a ‘tick in the box’ that once completed can be forgotten about. If, however, the student is encouraged to prepare for the course and upon returning to their unit given the opportunity to develop their new capabilities then a significant and lasting improvement is seen. The benefits to the individual will extend beyond the initial improvement, as their confidence and willingness to accept additional responsibility increases. Such post course development should be framed within coaching techniques, as detailed in Annex 21U and Annex 21V.

b. Post Course Development Strategy. There are 3 simple strategies that the line managers/students can employ during the post course development phase:

   (1) Quickly seek out opportunities to apply the newly acquired skills. This could include helping to prepare other students who are about to start the LC or as part of the wider CLM development programme onboard.

   (2) Making the students accountable for the application of the new skills, by providing coaching and feedback. Individuals must take ownership of their own development and ways to achieve it.

   (3) Incorporate development goals and plans into the formal performance appraisal process.
2161. RNLA Help and Assistance

a. RNLA Web Site. The RNLA Teamsite contains background information on course structures, Defence Writing, presentations, NSOs and several practical applications. These can be used by students to help them prepare for their LC.

2162. Coaching and Mentoring

Coaching and mentoring techniques are key leadership skills; they create favourable conditions for individual and collective learning which in turn are likely to result in improved performance and consequently benefit Operational Capability. People who are coached and mentored well usually find the experience highly motivating and fulfilling; this increases the likelihood of their retention in the NS. Skilled application of coaching and mentoring is therefore beneficial to CLM, and the implementation of the Divisional System; as such coaching and mentoring are tools which Unit Commanders are expected to use throughout their units in the course of leading, developing and motivating their people. Although coaching and mentoring may require some initial investment in growing leaders’ skills and confidence, and in setting expectations for all personnel, they offer a worthwhile economy of effort: once coaching and mentoring is the norm, leaders will gain more capable and resilient teams which need less direction and supervision. Coaching and mentoring, combined with effective teaching, are key enablers of learning in the workplace, in training environments (both formal and informal) and in education.

a. Coaching and Mentoring Policy. ACOS(T) is the lead for NS coaching and mentoring policy (Desk Officer: NAVY TRG HQ-POLSTRAT SO1). However, as coaching and mentoring have relevance across the full scope of CLM and Divisional matters, CNPS and CNPers (Desk Officer: NAVY PERS-EXEC SO1) are recognised as key stakeholders in coaching and mentoring policy. Activities essential to implementing the policy are delivered by the RNLA, by CTCRM, by FOST (N) and (S), by NETS (ashore and afloat), by Establishments’ Coaching Advisory Support Teams (CASTs) and by Unit CLM Development Officers.

b. Coaching. Coaching is defined by the NS as: “Unlocking a person’s, team’s or organisation’s potential to maximise their own performance”. Proficient coaching causes learning (Annex 21T); an essential component of performance improvement. The spectrum of possible coaching activities ranges from a series of scheduled and relatively formal one-to-one meetings, with a clear agreement between a coach and a learner on the terms and objectives for the coaching (a common format if using a coach from an external team or organisation), to entirely informal, one-off, short and sometime opportunistic ‘corridor coaching’. While most uses of coaching in the NS will fall somewhere between these extremes, a common set of foundation coaching skills and behaviours is applicable to all situations (Annex 21U); it is therefore necessary for NS leaders at all levels to develop and practise these skills and behaviours.

c. The NS recognises the value of coaching in helping individuals, teams and organisations to make progress towards excellent performance regardless of their current level of performance. All Naval personnel are therefore strongly encouraged to seek regular coaching, as well as developing their ability to coach others. DOs are expected to set a positive example in this respect. Individuals who seek coaching for the purpose of improving their performance are displaying positive and commendable behaviour and attitude; leaders at all levels are expected to recognise this and give appropriate credit, including recognising such actions as positive evidence in appraisals.
d. There are two main techniques that Naval personnel are expected to adopt at every level in order to ensure the NS achieves maximum benefit from coaching: GROW (Annex 21V) and Effective Debrief/Feedback (Annex 21W). These techniques are suitable for use within MPAR (Annex 21C). Trainers in all NS training establishments are trained in, and are expected to routinely apply, a blend of Teaching, Coaching and Mentoring (TCM) approaches. Leadership students are developed by, and are taught to use, coaching techniques.

e. Where a unit has a CAST, or Learning Advisory Support Team (LAST), the focus of the team should be on supporting and developing the teaching, coaching and mentoring skills, behaviours and mind-sets of the unit’s leaders and/or trainers. In this way, CASTs/LASTs can support the development of unit cultures that value and enable performance enhancing learning at all levels.

f. Coaching Skills Development. Awareness of coaching theory and practical development of foundation techniques is delivered by the following courses:

(1) Coaching Workshop 1 (CW 1). CW 1 covers the basic understanding of principles and techniques. The minimum requirement is to cover the theory within Annex 21T (The Learning Cycle), Annex 21U (Foundation Skills and Behaviours for Coaching), Annex 21V (GROW) and Annex 21W (Effective Debrief/Feedback). As a guideline, a CW1 session would normally be expected to require 90-120 minutes (although this may vary according to the delivery environment).

(a) Delivered by:
   i. RNLA to ARLC, LRLC, SRLC, RNWOSC and JOLC1.
   ii. CTCRM CW.
   iii. NETS(OPS) on request by Units and Establishments.
   iv. Establishment Coaching Advisory Support Teams (CASTs).

(b) Achieves a JPA competence mandated for all NS personnel. Competences awarded are to be recorded in JPA by the unit/team delivering the workshop.

(2) Coaching Workshop 2 (CW 2). CW 2 focuses on the effective employment of coaching techniques in the workplace. The minimum requirement is to cover CW1 and also ensure all attendees actively participate in a practical session (which may be contextualised as appropriate) applying Foundation Skills and Behaviours for Coaching (Annex 21U), GROW (Annex 21V) and Effective Debrief/Feedback (Annex 21W). As a guideline, the CW2 practical session would normally be expected to require 60-90 minutes in addition to any time required to cover, or refresh, CW1 content (although this may vary according to the delivery environment).
(a) Delivered by:

i. RNLA to SRLC and JOLC2.

ii. CTCRM CW.

iii. NETS(OPS) on request by Units and Establishments.

iv. Establishment Coaching Advisory Support Teams (CASTs).

v. FOST to Sea Training staff.

vi. Defence Train the Trainer (DTTT) course.

(b) Achieves a JPA competence. Competences awarded are to be recorded in JPA by the unit/team delivering the workshop or course.

(3) **Coaching Workshops Alignment and Assurance.** RNLA acts as the RN (excluding RM) CW1 and CW2 delivery lead with responsibility for promoting alignment and congruence between CW deliveries. The purpose of alignment activity is to ensure consistent messages about coaching are communicated which meet the requirements and uphold the intent of this policy. CW deliveries are not expected or required to be identical between organisations and tailoring the delivery of the core CW1 and/or CW2 syllabus to the context of the audience is encouraged. Each organisation delivering CW1 or CW2 shall nominate a point of contact to liaise regularly with RNLA on CW delivery alignment matters, sharing good practice and lessons identified. ACOS(T) (Desk Officer: NAVY TRG HQ-INDTRGCAP ASSURE SO2) will provide second party assurance of RNLA as in this capacity during routine second party assurance visits.

(4) **Advanced Coaching Skills: National Qualifications Framework (NQF) Level 3/Level 5 Certificates and Diplomas in Coaching.** It is appropriate for staff in some employment roles with responsibilities for personnel and professional development to hold advanced coaching skills qualifications. Most accredited courses comprise a taught module followed by a specified amount of real coaching practice, which is usually linked to a written assignment or submission. NS personnel who hold an NQF Level 3 or Level 5 accredited qualification are eligible for a JPA competence which will enable the NS to effectively employ individuals. Unit HR administrators are able to award the JPA competence on production of an individual’s original certificate of qualification. The NS provides some Level 3 and Level 5 coaching course places (ie. via NETS learning centres) and some subsidised routes to such qualifications that give credit for training completed for the professional role (eg. elective extension to Level 3 Certificate in coaching for personnel completing DTTT).
(5) **Elective Further Learning.** Individuals who develop an interest in coaching and wish to further develop their coaching knowledge and skills may utilise the Naval Service Learning Credit schemes to offset costs of tuition and assessments (Chapter 96). Courses are available from various providers, ranging from NQF Level 2 (GCSE/NVQ equivalent) to Level 8 (PhD equivalent). Occasionally, other funded elective learning opportunities may become available; these will usually be advertised by DIN or RNTM.

g. **Mentoring.** Mentoring is defined by the NS as “a situation where a person with more experience in a particular field (the mentor), supports and guides the learning of a person with less experience in that field (the mentee)”. In parallel with coaching, there is a spectrum of possible mentoring activities: at one end is the establishment of a mid to long term mutual, voluntary, mentoring relationship within defined boundaries between a mentee and a mentor who may be outside of the mentee’s management chain; at the other it is possible for very effective mentoring to occur in informal and unplanned circumstances. As mentoring can have substantial overlap with coaching, the foundation skills and behaviours for coaching (Annex 21U) are equally applicable for mentors.

h. Mentors can support and guide a mentee in various ways which assist the mentee to progress around the learning cycle (Annex 21T). Mentors might provide an objective, informed and separate perspective, helping a mentee to decide how best to approach their personal and professional development. They can provide the indirect learning benefit of describing examples or situations from their own experience, discussing what they did and the effects of their actions. They can guide and support the mentee’s reflection and thinking, and contribute lessons from their own thinking and analysis. They can assist the mentee in making plans and developing mechanisms and strategies for dealing with the upcoming challenging situations they expect to face.

i. The NS recognises the value of mentoring in helping individuals, teams and organisations to make progress towards excellent performance regardless of their current level of performance. All Naval personnel are therefore strongly encouraged to seek regular mentoring, as well as developing their ability to mentor others, an ability that necessarily requires drawing upon their experience in their field. DOs are expected to set a positive example in this respect. Individuals who seek mentoring for the purpose of improving their performance are displaying positive and commendable behaviour and attitude; leaders at all levels are expected to recognise this and give appropriate credit, including recognising such actions as positive evidence in appraisals.

j. Mentoring is already in use in a number of areas in the NS, notably CTCRM with the Royal Marines Association, RALEIGH with the Royal Naval Association, and for newly qualified Trainers in training establishments, with positive results. It is recognised, in the civilian environment, as good practice in optimising the potential of the workforce and as a key enabler for effective and empathic talent management. In recognition of the benefits to individuals, branch specific mentoring schemes have been established (Engineering, Diving, Logistics and RM). The details of these schemes vary, however at present they are limited to mentors and mentees within the same branch, and are currently focused predominantly at officers.
ANNEX 21A

NAVAL SERVICE PERSONAL INFORMATION CHECK DASHBOARD

1. The Naval Service Personal Information Check Dashboard shows an individual the status of their personal data held within JPA and is to be used by ALL members of the RN/RM to carry out the Annual Mandatory JPA Data Check. The dashboard is simple and intuitive to use and is accessible through the front page of JPA (see sequence below).

2. The JPA Data Check on the following pages is to ensure that your key personal data on JPA is correct; it should be completed annually and within two months of joining a new unit or establishment. In particular, it is your chance to check the key data held and, if anything is wrong or missing, to take action (usually via your self-service role or by Unit HR if you do not have access to the field) to get it corrected. The proforma should be printed from the Naval Service Personal Information Check OBIEE dashboard and returned in hard copy to your DO/Tp Cdr or 1RO as confirmation from you that your JPA data is accurate. The DO/Tp Cdr/1RO is to check the information is correct and then forward to the UPO/Ship’s Office/Unit HR for checking, any action necessary and retention for a period of 2 years.

3. The Dashboard is made up of three pages:
   a. A Personal Data Summary highlights areas of potential issues using a ‘traffic light’ system – GREEN if the data is present, AMBER if there is a possible issue and RED if there is a definite issue eg. Data missing.

   b. The Personal Profile brings together information held in various places in JPA into a one page summary allowing the user to quickly view pertinent information held on them.

   c. The final page is the Mandatory Annual JPA Check; this is a printable Summary page that may be accessed via a clickable link.

4. **Getting to the Personal Information Check Dashboard**

   To gain access to the Personal Information Check Dashboard, individuals should follow the sequence below:
If you need help contact the JPAC using the iSupport facility or phone on
Military: 94560 3600
Civilian: 0141 2243600
Pensions: 0800 0853600

Oracle Applications Home Page

- MI Course Administrator, Armed Forces
- MI Establishment Administrator, Armed Forces

On the JPA Home Page Select

Click on the ‘JPA Dashboard Function’ link
You arrive at a Welcome Screen:

You will arrive at the Navy Landing page, click on the Naval Service Personal Information Check link shown below:
A traffic light system will appear that highlights potential issues with key data in both the Personal and Assignment details areas:

A summary box gives details of the user logged in:

And a footer with links to the RN BIS intranet and Help pages:
The Personal Profile page displays personal data within expandable fields. Expandable fields provide information on pay, contacts, assignments, qualifications, competencies and medals etc. Clicking on the will expand the box to reveal the data held.

Annual Mandatory JPA Data Check. The Annual Mandatory JPA Data Check is accessed by clicking the link on the Personal Data Summary page, as follows:

This opens in a new window which displays a printable Personal Summary page. This allows an individual to confirm that each section of data is correct within JPA by ticking in the appropriate box.

By selecting ‘NO’, the individual is highlighting that data within that area of JPA is incorrect. It is the individual’s responsibility to either correct the data themselves or, if they do not have the authority to do so, to inform Unit HR Staff to take the necessary action.

Once all incorrect data has been rectified the document is to be printed A4, landscape, double sided.
Once printed, the individual is to sign and date the declaration and then pass the form to their DO/Tp Cdr, as follows:

I confirm that:
- I have carried out a review of my person data held in JPA;
- Items I have marked as ‘YES’ are an accurate record of my data held on JPA and the details are correct;
- I am satisfied that any alterations indicated within this list have been actioned by me or by my DO/EWO/Cosm/Ast Adj/Unit HR/Career Manager.

Signature: ____________________________
Name: ______________________________
Service Number: ______________________
Date: ________________________________

The DO/Tp Cdr is to check that the form is completed in full and that all ‘YES’ boxes have been ticked, as follows:

I confirm that:
- This form has been completed in full.
- Any alterations required to the data have been actioned and completed.

Signature: ____________________________
1 RO/DO: ____________________________
Name: ______________________________
Rank/Rate: __________________________
Service Number: ______________________
Date: ________________________________

The completed form is to be forwarded to the Unit HR Staff who will check the RWA/PHA and, if changed from the last check, will amend HTD/GYH/ULA entitlement. They will then update the ‘Date Last Verified’ flag on JPA to confirm that the check has been completed. The form is then to be held within the unit for TWO years.
ANNEX 21B

DIVISIONAL OFFICER/TROOP COMMANDER’S JPA DASHBOARD

1. The DO and Troop Cdr JPA dashboard enables DOs, Troop Commanders and the Chain of Command to quickly access data on their people in a number of different views\(^1\). Importantly, it highlights when individuals have out of date/incorrect information in JPA as well as automatically displaying bring up actions or other information in different views. The dashboard is simple and intuitive to use and is accessible through the front page of JPA.

2. To access this dashboard, DOs/Tp Cdrs should access JPA using Self Service Manager (otherwise it will not appear on the list of available dashboards on the OBIEE Naval Service Navigation page), as follows:

This leads the user to the following page:

---

\(^1\) Data Protection Act (DPA). The personal information held in JPA is required for a legitimate ‘business’ need and therefore within the jurisdiction of the DPA. Whilst DOs have a legitimate reason both to view the information and take action based upon it, they must treat that information in the strictest confidence, avoid inadvertent disclosure and, when there are legitimate reasons to print documents (eg. the ‘Bring Up’ diary), ensure that they are stored securely and properly.
Which then leads the user to the Naval service OBIEE Dashboard System introduction:
Once the DO/Tp Cdr has entered the dashboard, they will be presented with a traffic light system that will highlight current and potential issues with key data in both personal and assignment details, eg. as follows:

Clicking on the Action Required tab (second in from the left hand side) will take the user to the following screen:
Clicking on the Issue Details tab (third from left) takes the user to the following screen:

![Issue Details Screen]

Clicking on the Look Ahead tab (fourth from left) then takes the user to the following screen:

![Look Ahead Screen]
Clicking on the Personal Summary tab (fifth from left) takes the user to the following screen:

![Personal Summary Screen]

Clicking on the Divisional Chain tab (sixth from left) takes the user to the following page:

![Divisional Chain Screen]

Clicking on the Issue Details by Person tab (seventh from left) takes the user to the following page:

![Issue Details by Person Screen]
Occasions for Conducting a DO’s/TpCdr’s JPA Dashboard

The DO/Tp Cdr’s Dashboard should be completed on the following occasions:

- Annually (DO/Tp Cdrs may wish to set a date yearly for their entire Division).
- Within two months of an individual joining a new Establishment/Unit.
- No later than one month after the SJAR/OJAR has been finalised on JPA Appraisal (in readiness for the next reporting period).
ANNEX 21C

APPRAISAL REPORTING

1. The definitive guidance and authoritative document for all matters pertaining to appraisal reporting remains JSP 757, however the following paragraphs are offered as initial guidance for Divisional Officers.

2. Reporting Officers

   Except in the most exceptional circumstances (and in the RM where other arrangements may be in place), DOs/Tp Cdrs are to be either the first (1RO) or second (2RO) reporting officer for every member of their Division. DOs are to liaise closely with line managers of individuals in order to track and report on professional progress. In very exceptional circumstances where both 1 and 2 ROs are non-commissioned, a commissioned officer is to act as 3RO and sign the relevant boxes in the SJAR to certify that the 1 and 2 RO comments are accurate. This is to ensure that ratings/ORs in such situations are not disadvantaged (see Chapter 57 and JSP 757 for detailed guidance).

3. Mid Period Appraisal Review (MPAR)

   The following actions are to be carried out in respect of MPARs:

   a. MPARs for all personnel are mandatory. In normal course, following the joining procedure, the next formal interview to be carried out by the DO/Tp Cdr will be the Mid Period Appraisal Review (MPAR). The MPAR is the method by which the Naval Service informs its people how they are performing and what they must do if improvement is required and how to enhance their professional development. Every individual is entitled to an MPAR and one must precede each appraisal report.

   b. An MPAR must also be held whenever an individual’s performance noticeably deteriorates. In such a case the MPAR would be the likely precursor to a ‘Special’ report as part of the professional warnings process. This occasion should be taken as an opportunity to address matters such as unsatisfactory social behaviour eg. persistent misuse of alcohol or abuse of social media. In these regards it acts as an effective audit trail and is a far better tool than a simple verbal debriefing (which in all likelihood is quickly forgotten and in any event does not form a recordable evidence chain).

   c. It is important to understand that the MPAR is a management tool that enables the best possible performance to be derived from our people as much as keeping them informed of how they are perceived. DOs/Tp Cdrs should therefore be familiar with the coaching techniques at Annex 21V (GROW) and Annex 21W (Effective Feedback) and make every effort to use these techniques appropriately in MPARs.

   d. Whenever possible, MPARs should be held mid-way through the period between appraisal reports. With the inception of Common Reporting Dates aligned to rate/rank, DOs/Tp Cdrs need to plan an MPAR schedule to ensure each member of their division is given ample time for their MPAR. Individuals should always be given at least 24 hours’ notice of an MPAR and the opportunity to comment against it. DOs/Tp Cdrs may wish to draw up a draft report for use during an MPAR or use local templates; a copy should be given to the individual and one retained by the DO/Tp Cdr.
e. Preparation is the key to a successful MPAR. A DO/Tp Cdr must gather as much relevant information about the individual as possible. The DSR/SNCO should be consulted together with the employing officer (where they are not the DO) and the individual’s line manager. While it is appropriate to give praise when due, the MPAR must inform the individual of how they are performing in all aspects of their job including those ‘whole-ship’ tasks such as duties and communal roles. Where the DO/Tp Cdr is unable to comment objectively from their own knowledge or experience they must seek advice from appropriate sources. Telling someone that they have a weak area or other problem is never easy and DOs must ensure they are well informed and briefed before raising such matters.

f. The DO/Tp Cdr must listen during the MPAR. The individual should be put at their ease, encouraged to join in a dialogue and given the opportunity to describe whether outside factors have been adversely affecting their performance at work; this may well yield some important information. The MPAR is not a mechanism for individuals to negotiate a report that is acceptable to them but it is a two way flow where both participants have an equal investment in the individual’s career. An effective tool to guide this conversation is the GROW model (Annex 21V), which provides a means for the DO to assist the individual to develop towards realising their full potential. Applied appropriately, GROW will work regardless of the starting level of performance: those already at a satisfactory standard can be stretched and challenged toward excellence while those underperforming can be supported in reaching the required performance standard.

g. DOs/Tp Cdrs must be ready to articulate and explain their views when addressing someone’s faults; although this takes moral courage, it is their absolute duty. An effective tool for the DO to structure feedback, including honest articulation of shortcomings and credit where it is due for strengths, is the Effective Feedback model (Annex 21W).

h. Finally, the purpose of airing problems at the MPAR is to achieve an improvement in the individual’s performance. A recovery plan must be agreed and progress checks made at appropriate milestones which may require follow-up interviews. Where problems are rectified between the MPAR and the report due date they should be discarded and not included in the subsequent report. The MPAR, although in most cases produced electronically, should still be signed both by the DO/Tp Cdr and the individual. This provides assurance that both parties are content with the report and the measures proposed/implemented within. Once the final report is completed, the MPAR form can be destroyed.
ANNEX 21D

DIVISIONAL JOINING LETTERS

1. General

DO/Tp Cdrs are to make official contact with Officers/ratings/marines assigned to their division as soon as the initial Assignment Order is received. A joining letter is always to be sent, even if the majority of contact is by telephone or email. The exact content of the letter is left to the discretion of the author but DO/Tp Cdrs may find the format and possibly even the content of these letters largely decided by the Command in some units. In the case of Senior Ratings/SNCOs, it is recommended and encouraged that, in addition to the formal letter of introduction, the current incumbent writes to their relief to give greater detail about the job and also more general useful information (eg. mess social events etc.).

2. Contents

Several important subjects must be covered, some of which may only be applicable to seagoing or deployed units. These include the following:

a. Details of the individual’s intended employment, all aspects to be covered – enclose a copy of the current Job Description/TORs (NB: Where appropriate, the accuracy of all assigned Temporary Employment Modules (TEMs) is to be confirmed by the DEPCO who is to check the Establishment List. Any errors or omissions are to be set out in the joining letter and resolved immediately with CNPers).

b. Confirmation of the joining date and place (NB: Where this differs from the date on the Assignment Order it is essential that the discharging unit and CNPers are informed, in accordance with Chapter 61 Section 2).

c. Details of the ship’s/unit’s medium term programme (classified not above ‘OFFICIAL’ accompanied by the emphasised statement that the programme is for the individual and their immediate family only) – a copy of the latest ‘Midcast’ or ‘Longcast’ will suffice if it meets the classification caveat.

d. Details of tropical or other kit that will be required on joining or for deployment if applicable.

e. Names of main ship’s personalities (CO, XO, HoD, EWO/RSM, DSR/SNCO, LHOM etc.).

f. Any medical requirement (ie. vaccinations, dental check etc.) to be undertaken prior to joining.

g. Reference to Service Family Accommodation (SFA) entitlement if applicable.

h. Requirement for any specialised training or equipment and any special information such as:

   (1) OPTAG training.

   (2) Requirement for General Service Respirator.

   (3) Passport.

   (4) EHIC card.
3. **Signatories**

In some ships/units, the CO may wish to send the 'official' joining letter, especially for certain key senior rates/SNCOs. Alternatively, the DO/Tp Cdr may wish to send an overarching introductory letter and then leave the DSR/SNCO to send a follow-on letter or email with detailed instructions/content – or the latter may be delegated to a Leading Hand/Corporal if appropriate. Some DOs may prefer to retain sole custody of the initial contact.
APPENDIX 1 TO ANNEX 21D

EXAMPLE OF A DIVISIONAL OFFICER’S JOINING LETTER

HMS [Name]
BFPO [No]

Rate/Rank/Name/Service No

Address

Date

Dear [Name],

1. On behalf of the Commanding Officer, [Rank and Name], welcome to HMS [Name], which, as you probably already know, is a Type/Class [describe ship] that is based at [Base Port]. I am [Rank/Rate/Name/Title] and I will be your Divisional Officer/Troop Commander. [CPO/PO/CSgt/Sgt/Name] will be your Divisional Senior Rate/SNCO. It is anticipated that you will be employed in the [Name] part of ship/Section, and will initially be working for [CPO/PO/CSgt/Sgt/Name]. I have enclosed a copy of the current Job Description/TORs for your post to give you an insight into your job.

2. For your information, I have also enclosed a copy of the Ship/Unit’s Longcast which is Protectively Marked Official and should be discussed only with your close family/friends. As always, the programme is subject to change at short notice.

3. Your Unit Personnel Office/Ship’s Office/Unit HR has been advised of your joining instructions, which are as follows:

   a. You are to join the Ship/Unit at [Place] by [Time] on [date] and should be in possession of a full Blue uniform (plus Tropical uniform if appropriate) and a serviceable AGR.

   b. You should bring a photocopy of your current Weapon History Sheet.

   c. You are to attend your Medical/Dental Centre and request that a check of your documents is made to ensure that you are in date for all medical/dental checks (PULHEEM/Diving Medical etc.) prior to joining, and unlikely to go out of date prior to [add date]. Furthermore, you are to request the following vaccinations/prophylaxis: [details to be supplied by ship/unit’s medical staff]. Failure to do so may prejudice your ability to enjoy shore leave during our forthcoming programme.

   d. Your passport should be valid for at least the next [number] months.

   e. As a [Name of Base Port] based ship, you and your family may be entitled to Service Family Accommodation (Note 1) in the local area, for which you are advised to apply as soon as possible.

   f. On joining, [Rank/Rate/Name] will be your ‘Sea Daddy’ (Note 2) for your first two weeks onboard. He/She will acquaint you with the ship/routines and guide you as required.
4. I look forward to meeting you on joining; however, in the meantime, please do not hesitate to contact me if you require any further information.

[Signature Block]

Enclosures:

1. Job Description.
2. Longcast.

Notes:

1. Only if appropriate – ie. the person is married.
2. For Senior Ratings only, replace with: “You will shortly receive another letter from [Name] - the present incumbent of the position you are going to fill, who will send more details of the job.”
ANNEX 21E

DIVISIONAL JOINING INTERVIEWS

The following points represent best practice when a DO/Tp Cdr conducts a Divisional Joining Interview:

a. The interview should be in the DO/Tp Cdr’s cabin/office or other similarly private area and programmed for at least 30 minutes (possibly up to an hour) which must be free from interruption. The interview should be kept as informal and welcoming as possible. The DO/Tp Cdr may need to take some notes but this should be kept to a minimum. The joining interview is part of the formal ‘induction’ procedure – completion of which is mandatory. As such the interview must take place as soon as practicable but absolutely within 28 days of the new joiner’s arrival.

b. Personal style will influence the exact conduct of the interview, however in general it is probably a good idea to begin by showing an interest in the individual and by initially talking about their previous assignment, family, home and personal circumstances; this should help draw information, overcome initial shyness and gain the individual’s confidence. Establishment of the individual’s domestic status, whether they have children, and whether there are any particular problems in these areas (eg. moving to a new base port, entitlement to and availability of SFA etc). Then matters such as the following may be addressed:

1. Service Engagement – confirm Termination date and resettlement status if appropriate.
2. GCBs held/due (include LSGCM if appropriate).
3. Professional status and aspirations.
4. Educational status and aspirations (is the rating QEWO or an SUY candidate – do they aspire to this?).
5. Pre-promotion training performance (if this is their first assignment in a higher rate).
6. A full JPA check in accordance with Annex 21B.

c. Some DO/Tp Cdrs may be uncomfortable with discussion of the more personal aspects of an individual’s life, especially if this involves protected characteristics. It is the DO/Tp Cdr’s job to overcome any awkwardness and getting to know the person pays long term dividends. For example, if the DO/Tp Cdr knows that someone is Muslim, or is homosexual, then they do not have to hedge it in the future or embarrass themselves when asking inappropriate questions (eg. whether they are going to church at Easter, or the health of their girlfriend). DOs can then appreciate what is important to the individual which, in turn, will make the individual feel valued.
d. For many individuals joining from initial training there is a high likelihood that they will be involved with an accreditation route to achieve an NVQ or Apprenticeship Programme. DOs have an important role in ensuring these ratings achieve valuable civilian qualifications (see Individual Training Policy in Chapter 96).

e. For individuals who have recently been deployed on operations, their Service Documents will contain records of Post Operational Stress Management (POSM) (1 per deployment). The content of these should be reviewed by the DO/Tp Cdr and, if necessary, discussed with the individual to ensure continuity of Divisional/Troop (and any other necessary) support. (NB: If the rating joins under punishment or suspension of punishment, it is essential that the new DO explains the full implications of the punishment ie. it should not be assumed that the rating has been briefed.)

f. Once the appropriate Arrivals action has been taken on JPA and the SJAR initiated by the Appraisal Administrator, the DO and First Reporting Officer (1RO) should discuss the individual’s intended employment. The Roles & Responsibilities will have been established prior to the Subject joining their unit and, where available, TORs should also have been briefed. Personal Objectives should be agreed and Career Preferences & Aspirations discussed. The individual is, in an agreed timeframe (recommend maximum of 7 days), to enter their Personal Objectives, Career Preferences and Aspirations into JPA. Once this has been done the front page of the SJAR should be printed and handed to the rating. The DO should explain in straightforward terms what is expected of the individual, covering all aspects of employment including that for ‘duties’ and other ‘whole ship’ tasks. The DO should set objectives for the individual to achieve over the forthcoming reporting period and ensure the individual understands what is expected of him/her. Similarly, the individual’s training state should be assessed and the DO must draw up a personal training and development record for each individual.

g. A draft Personal Plan (PP) will also be drawn up at this stage for ‘squadded’ personnel and may include the individual’s plans and aspirations for leave, harmony time, educational courses and Adventurous Training. The PP should be discussed in advance with the DEPCO for de-confliction and with the EWO for endorsement; this is an ideal role for the DSR/SNCO. Full instructions on the GSP system, PPs and the DOs responsibilities are contained in the GSP CONOPS, Fleet JR Squad System Divisional Aide Memoire and the Squad System Desk Instructions held by waterfront PSGs. The EWO and DEPCO are focussed on the delivery of OC to the Command from a manpower perspective and, as a consequence, it is deemed best practice by CNPers/CNPS to formulate a PP for all members of the division, including Senior Rates and those who are not part of a squad. Remember that the details submitted to the DEPCO for ratification by the EWO are aspirational and, although every effort will be made to meet any agreed arrangement, the operational commitment of the unit has primacy; this should be made clear to individuals.

ANNEX 21G

WALKING THE PATCH – SOME DO’S AND DON’TS

DO’S

1. Do make sure that you have enough time to stop and talk – it would be counter-productive to start a conversation only to dash off to a meeting as the individual starts to confide in you.

2. Instinctively know the individual’s name and have something to say - a few ‘ice breaking’ conversation pieces. There is nothing worse than silence. Ask how the individual is, whether they were ashore last night, plans for the weekend, how the deployment is going, complimenting their part of ship or work, how is their task book training? As you grow in confidence and get to know your people you can become more adventurous – How is the family, did you get the course you were hoping for, how is morale in the mess? Then just have a normal conversation.

3. Do be aware of body language and avoid being ‘defensive’ in posture.

4. Do be prepared to answer questions on unit policy – sailors and marines will be keen to glean the latest ‘buzz’ from the Wardroom/Officers’ Mess; if necessary ask the XO for latest direction and guidance.

5. Do make sure that you acknowledge and take for action any issues raised and also feedback any salient points to the Command if the need merits.

6. Do make sure that your uniform and appearance is smart and proper – it would be awkward to pick someone up for not polishing footwear or for having a back pocket button undone if you are in the same state.

7. Do be interested in what they are doing; look, ask questions and listen conscientiously. If someone has an idea you the DO can act on, do so and tell them how it’s going; if you can’t act on it, tell them why not. More importantly, if saying that something will be done for someone, make sure that it is done.

8. Do use the opportunity to maintain standards and CMS/MATTs. Ask them if they are in date for respirator testing or alcohol lecture for example – ‘did you complete the brief you promised at our joining chat?’ – it all adds to the conversation.
DONT’S

9. Don’t be afraid to pick someone up for not maintaining standards – it is your job and your duty, so never fear from upholding standards by applying moral courage. However, this should not stop you having the conversation you intended in the first instance.

10. Don’t be afraid to speculate for example about a forthcoming event or programme, but do make it clear that you are expressing a personal opinion and don’t make a comment or speculation which would embarrass the Command later.

11. Don’t be a ‘fair weather’ DO/Tp Cdr. Your people work in the wind and rain, so get out and see them when the going is tough – they will respect you more.
ANNEX 21H

ETHOS, VALUES AND STANDARDS

1. Introduction
   The ethos, values and standards set out below have been selected as being those that experience has shown are vital for success on operations. It is only by fully accepting and living them 24/7, whether on deployed operations, peacetime tasking or off duty, that we can build that teamwork and the spirit to fight and win, which is so crucial to Operational Capability.

2. What is Ethos?
   Ethos is the distinctive character, spirit and attitudes of a community, people, culture or group; it defines and motivates the shared ideas, understandings and customs. The ethos of the British Armed Forces centres on 4 tenets:
   a. Vision – how we see ourselves and our purpose;
   b. The desire to achieve operational excellence (professionalism);
   c. Our Values (what we stand for);
   d. Our Traditions.

   “Communicating them effectively not only influences how we see ourselves, but also how others perceive us. This underpins our credibility on the global stage”.

3. What is Royal Navy Ethos?
   By necessity, we operate many miles from our home ports, bases and families in the UK and therefore must bring everything we need with us in order to achieve our missions. The Royal Navy is a ‘can-do’ organisation and will attempt any mission we are given with the means we have available to us. The ethos of the Royal Navy is defined as:

   “The enduring spirit derived from our people’s loyalty to their ship, unit or team, sustained by high professional standards and strong leadership that gives us courage in adversity and the determination to fight and win”.

   It is what we do and how we do it.

---

1 Joint Doctrine Publication 04 – Understanding, Para 403.
4. **Aim**

This Annex outlines the key components of Royal Navy ethos and the importance of understanding, encouraging, fostering and preserving it in order to ensure continued success in future operations and armed conflict. In this context, the Royal Navy comprises of the 4 Fighting Arms (the Surface Flotilla, Submarine Service, Royal Marines and Fleet Air Arm), the Royal Fleet Auxiliary and the Maritime Reserves and is broadened to include supporting Civil Servants and Families in the collective. It is recognised that the guidance provided is generic and that individual Fighting Arms continue to emphasise their own and unique characteristics. For example, although the Royal Marines are an integral part of the Royal Navy, their history, operational role and characteristics demands a variation on this and is covered separately in the Royal Marine Ethos – ‘The Commando Spirit’ – documentation.

**THE COMPONENTS OF ETHOS**

5. **Vision:** *How we see ourselves and our purpose*

The Royal Navy must be able to project maritime power to protect and promote our nation’s interests. This will require a Royal Navy that is operationally versatile and interoperable in all environments as part of a joint, multi-national and multi-agency force. There is an imperative to be forward deployed, preventative in approach and culturally aware to build trust and make sense of an increasingly complicated world. The Royal Navy must innovate to be able to adapt more quickly than its adversaries and must be supported by lean, effective equipment and manpower structures. Success rests firmly upon the quality of the Royal Navy’s people; well led, robust, committed and confident of operating in the maritime environment and expert in handling risk. The Royal Navy will continue to invest in high end technology but it is our people that will deliver the battle winning edge.

6. **Standards:** *The desire to achieve operational excellence*

Our continued success in future operations must be founded on high professional standards. We must demonstrate a sustained desire for continued improvement and innovation to ensure that we maintain the edge over our potential adversaries and remain a world class Navy. To that end, the Royal Navy must be structured and trained to fight, not for the convenience of administration in peace. Whatever area we work in, ultimately the focus for all of us should be on maintaining and improving our current and future war fighting capability. Equally important is the demonstration of high personal standards; whether it is immaculate uniform, smart civilian attire or excellent behaviour at all times, our personal standards must remain consistently high. Divisional standards including knowing the team, working hard to keep on top of divisional staff-work and writing timely reports all have a part to play. Finally, it is our duty and responsibility to uphold and enforce professional and personal standards – setting the right example and encouragement is always better than enforcement.
7. **Core Values: What we stand for**

Our core values should be displayed at all times by all of us, whether we are on duty or ashore with our friends and families. They should recognise our values and understand that we are different from society and justifiably proud of the high standards we uphold in support of our country.

a. **Commitment.** Selfless personal commitment is the foundation of Naval Service and enables us to demonstrate a sense of authority and purpose. We must be prepared to serve whenever and wherever we are required, and to do our very best at all times. This means that we accept that we will be expected to put the needs of the mission, and our team, ahead of our own interests.

b. **Courage.** Courage creates the strength on which fighting spirit, that essential element which turns a fighting force into a winning force, depends. We must have the physical courage to carry on with our task regardless of danger and discomfort, and the moral courage always to do what we know is right.

c. **Discipline.** The Naval Service must be a disciplined service if it is to be effective. We must therefore obey all lawful orders from our superiors. Self discipline is fundamental; being able to discipline ourselves will earn us the respect and trust of others, and equip us to cope with the difficult, individual decisions we will have to make during our service.

d. **Respect for Others.** Each one of us has the exceptional responsibility of bearing arms, either collectively as part of a unit or individually, and when necessary of using controlled force. In addition, we will sometimes have to live and work under extremely difficult conditions. In such circumstances, it is particularly important that we show the greatest respect, tolerance, understanding and compassion for others regardless of their personal background; leadership and teamwork depend on it, and we have the fundamental right to expect to be treated with the same degree of respect and dignity by all with whom we serve.

e. **Integrity.** Integrity is that quality of an individual's character that encompasses honesty, sincerity, reliability, and unselfishness. It is an essential requirement of both leadership and comradeship. Unless we maintain our integrity, others will not trust us and teamwork will suffer. Putting this integrity into practice sometimes requires us to show moral courage, because our decisions may not always be popular. This is not always easy; however, doing the right thing will always earn respect.

f. **Loyalty.** The Nation, the Naval Service and those with whom we serve rely on our commitment, dedication and support. We must therefore be loyal to our leaders, those that we lead, our team, and our duty. Pass this test and we will never let others down.

King Charles II

“It is upon the Navy…that the safety, honour, and welfare of this realm do chiefly depend”.

Being able to look back over a long and distinguished history is a luxury and privilege that many organisations do not have. The wide ranging history of the Royal Navy, far from being a shackle that holds us back, gives us a unique ability to understand complex situations, today and tomorrow. We can draw an immense amount of pride and satisfaction from this history and our many quirky and unique traditions. It allows us to appreciate the viewpoints of our partners, as well as our potential adversaries, to have an edge in leading in an international setting and to take the positive and negative lessons in order to gain the impetus to adapt and evolve. Our reputation is second to none; many attempt to emulate, but only a few succeed.

9. Leadership

Lieutenant General Capewell, Chief of Joint Operations (2013)

“….chemistry is as important as physics, Emotional Intelligence is as important as IQ and that ATTITUDE invariably trumps aptitude”.

Leadership inevitably pervades all aspects of ethos and is absolutely fundamental to its maintenance. Good leadership inspires and underpins everything we do and is the glue that holds all our activity together. This is never more important than during periods of conflict when we need to overcome, or at least control, fear, fatigue, discomfort and uncertainty. In doing so, the duty of all leaders, at every level, is to maintain the morale and cohesion of the team. High morale is absolutely pivotal to the fighting efficiency of any Ship, Commando, Squadron or Submarine and depends on every individual playing their part and contributing to cohesion as a whole. No matter what their task is, every individual must believe that what they do really matters.

10. Teamwork

Strong teamwork is fundamental to our success and is the component that brings all our individual efforts together. It unites us in our understanding and commitment to work with each other, whatever our function in order to provide maximum unity of effort. Shared pride in success comes from good teamwork. Good teamwork is absolutely essential if we are to face and overcome the challenges inherent in war fighting. We are so much stronger, and have a better chance of winning, when we work together.

11. Morale

The maintenance of good morale is one of the principles of war. It is based on recognition of the needs of the individuals who collectively form the team, and it manifests itself in the will to win. Morale promotes the offensive spirit and determination to achieve the aim. Good morale is based on: a shared sense of purpose; clear understanding of, and belief in, the aim; discipline and self-respect; confidence in equipment; training; and well merited mutual trust and respect between those in and under command. The Naval systems of Command and its long standing Divisional/Regimental systems provide a clear framework for effective leadership and support for the individual within the ship, or unit.
12. ‘Can Do’ Attitude

Many of the components of Naval ethos are captured neatly in the expression ‘Can Do’. The Royal Navy has a legendary reputation for sticking to a task whatever the constraints or changes in circumstance. This was summed up by Admiral Cunningham’s remarks during the evacuation of Crete in 1941:

“It takes 3 years to build a ship, 300 years to build a reputation - We'll stay.”

13. Sense of Humour

Maintaining our unique Naval sense of humour and banter is vital to our ethos and way of life. It helps us face adversity, whether it is physical hardship, fear or uncertainty. It can break tensions, allowing events to be seen in a more balanced perspective. No matter how grim the situation, ‘Jack’ and ‘Royal’ will always see the funny side of it and almost invariably someone will have been in a ‘worse’ situation before. The almost limitless ability of our people to exchange anecdotes or ‘spin dits’ about all aspects of Naval life, many of which have a serious point, is a crucial means by which our ethos is sustained and instilled into our successors. However, if taken to the extreme, there is a fine edge of common sense and good taste when banter can be offensive and thus unacceptable.

14. Humility

We should not be self-important or arrogant and we should never show condescension towards others. Instead we should treat others with respect and, while confident in our own ability, we should value others and welcome and recognise their contributions. We should appreciate our own fallibility and learn from our mistakes.

15. Covenant

The Armed Forces Covenant (see Para 0112) is the formalisation of the agreement by the citizens and Government of the UK to support the UK Armed Forces and their families. It states that we should face no disadvantage compared to other citizens in the provision of public and commercial services. Special consideration is appropriate in some cases, especially for those who have given most such as the injured and the bereaved. It is the written declaration that our nation supports us in what we do. Furthermore, there is a relationship that exists between the Royal Navy and its people and their families. This is represented as a series of mutual beliefs, perceptions, informal and formal obligations which engenders trust and mutual respect. An example of the expression of this ‘bond’ is Personnel Functional Standards (PFS) (see Chapter 22).

16. Standards of Conduct

The Royal Navy has an enviable and unrivalled reputation for operational success, both past and present. It is an enduring feature of which everyone can be justifiably proud, but we should not take this for granted. Awareness and continuity of our ethos is fundamental to maintaining this success in the future. Regardless of your rank or position, in terms of ‘RN Ethos – The Spirit to Fight and Win’, you therefore have a duty to understand it; recognise the pressures that could undermine it; and encourage, foster and preserve it. As members of the Royal Navy we are expected to conduct ourselves to a high standard at all times. A handful of simple guidelines should help:
a. We must obey:
   ● civil Law, wherever we are serving;
   ● service Law, which includes additional offences that are required to maintain discipline and thus operational effectiveness; for example, absence without leave, and insubordination; and
   ● the laws of armed conflict whenever we are on operations.

b. We must also avoid:
   ● any activity which undermines our professional ability, or puts others at risk – in particular the misuse of drugs and abuse of alcohol;
   ● any behaviour which damages the trust, confidence and respect between us and others in our team and unit. In particular, we must not:
     ● harass, bully, or discriminate against anyone, on any grounds; or
     ● behave in a manner which could undermine good order and naval discipline or tarnish the Naval Service’s long standing reputation.

c. The ‘Service Test’. Ultimately, we must always measure our conduct against the following test:

   “Have the actions or behaviour of an individual adversely impacted on the efficiency, operational effectiveness or reputation of the unit and/or Naval Service?”

If we can look ourselves in the mirror and say, honestly, “No, my action will not have an adverse impact” then we can be proud of the fact that we are living up to the values and standards expected of us. On the other hand, if we are unsure of our answer, or find ourselves saying “Yes”, then we are about to over-step the mark. This is indeed what every Commanding or Divisional Officer will need to consider when assessing any potential Code of Social Conduct issue.

17. The Special Duty of our Leaders
   Those in positions of authority, from Leading Hand upwards, have a duty of care towards our subordinates, looking after their interests and ensuring that they fully understand what is expected of them. This duty of care requires us to deal with any complaints brought to our attention in a thorough, impartial and timely manner. It is everyone’s absolute right to make a complaint, and equally the duty of those in authority to do all in their power to assist them in the resolution or progress of that grievance. Above all, those in authority must make every effort to ensure that anyone who complains is not made to feel that they are being treated any differently, or victimised, because they have complained.
18. Conduct of those in Authority

In order to be an effective professional fighting team, mutual trust, obedience, loyalty and respect between all ranks and rates is essential. The conduct and behaviour of those in positions of authority must therefore be beyond reproach. Officers, Senior Ratings and Leading Hands should not defer from making well considered and necessary but unpopular decisions or giving reasonable but firm orders for fear that they will be challenged by a complaint on the grounds of harassment or discrimination. Any inappropriate behaviour, in particular that of bullies and harassers, must be challenged. Moral courage and appropriate leadership throughout the chain of command must be exercised at all times.

a. Officers

(1) Changes in society, together with a more egalitarian approach to entertainment ashore, have increased the tendency for Officers and Ratings to visit the same bars and clubs, particularly abroad. Whilst this can sometimes be useful in the context of team building, problems can arise in such a relaxed atmosphere where alcohol is being consumed. The trick is for the Officers to be alert to the need to disengage before any difficulties arise. Dress also has a part in subtly reinforcing rank distinction. Further, a very late hour and excessive drinking before proceeding ashore have been common factors in a number of disciplinary cases involving Officers and Ratings; and previous over-familiarity on board has often been behind a breakdown of discipline. A guiding rule of thumb is that officers must be discernible as officers, by their dress, behaviour and conduct, at all times, in all places both on and off duty.

(2) Being well informed about what is happening in the work place, mess decks and accommodation is as important as ever for Divisional/Messdeck Officers in the care of their people. Even regular walking of the patch is unlikely to keep a DO/Tp Cdr sufficiently aware of issues in messes, especially those of a sensitive nature, such as bullying or any form of harassment. Two-way communication is vital in this area and frequent informal discussions with the DSR/SNCO will yield high dividends. Similarly, if DSR/SNCOs are doing their job properly and being observant, they will draw the DO/Tp Cdr’s early attention to areas of potential difficulty. With mixed-branch messdecks increasingly the norm, liaison is vital between the Messdeck Supervising Officer, the DSR and the Leading Hand of Messdecks in order to maintain an enjoyable and efficient working and living environment.
b. **Senior Ratings/Leading Hands.** There have been many occasions when incidents onboard and ashore could have been avoided if the Senior Ratings present or involved had acted with courage, conviction and in a responsible manner. With an increasing focus on the need for professional technical expertise, Senior Ratings need to be given regular reminders that first and foremost they are Warrant, Chief and Petty Officers with the responsibilities that come with those higher rates. Too often service discipline has been eroded by abrogating responsibility through condoning activities that are clearly contrary to good order. With this in mind, Senior Ratings and Leading Hands must know that they will be fully supported when they use their authority. The need for moral courage and resolute action extends to all supervisory levels, including Leading Hands, again, both on board and ashore. This is particularly so for Leading Hands of Messes who, while they have a responsibility to the Command chain, also have an important role to play in the Divisional context and must be positively encouraged to keep the DO and DSR informed, and to be confident of their support. Periodic reminders to all in positions of authority of the words on the reverse of the certificate of advancement are commended, the key parts of which are as follows:

> “QRRN 3602. Maintenance of Good Order

1. **It is the duty of every Officer, Warrant Officer, Chief Petty Officer and leading rating of each branch of the Service to ensure that order and regularity are preserved in their vicinity among those Officers and ratings/ranks, of whatever branch and whether they are on duty or not, who are junior to him/her in rank or rate;**

2. **Conduct to be observed. All Officers and ratings/ranks are to conduct themselves with the utmost respect to their superior Officers and with strict obedience to their orders. They are at all times to discharge every part of their duty with zeal and alacrity and, so far as circumstances permit, to assist all Officers in the duties they have to perform. They should on all occasions strive to promote the welfare of the Naval Service and by the good order and regularity of their conduct show an example to those who may be subject to their command.”

19. **Control of Standards**

One key area where standards can be enforced is through the control exercised on the gangway (or, where uniformed gate staff are used, at establishment gates). The Officer of the Day (OOD), Duty Senior Rating (DSR) Quartermaster and Bo’s’un’s Mate are vital to the effective maintenance of standards, in particular standards of dress and the control of libertymen both proceeding ashore and returning onboard. Duty personnel should be briefed regularly and given firm direction on requirements, including a regular reminder that we have a duty of care for our people under Health and Safety legislation. There is a particular need for the OOD and/or DSR to be present on the brow when the majority of libertymen go ashore and when they are expected to return. Many OODs have lost their nerve in demanding high standards and need to be clear on the requirements and confident of support. Both Senior and Junior Ratings need clearly to understand the authority vested in the Quartermaster (QM) and symbolised by the Naval Patrol badge, which must always be worn; the QM has both the duty and the right to forbid any unsuitably dressed rating (up to and including Warrant Officer) from going ashore.
20. ‘Walk on by’ Culture

In some quarters a ‘walk on by’ culture has been allowed to develop, where individuals fail to exercise the responsibilities they have, and where standards are allowed fall. This is caused partly by societal trends, partly by reticence to demand a standard for fear of being unpopular. More accurately, it is caused by a lack of understanding of responsibility and by a lack of moral courage to do the right thing. No-one is paid to be popular; they are paid to do their duty and shoulder their responsibilities. It is worth ‘leaders’ of all ranks and rates knowing that subordinates like being in a disciplined service and that they expect standards to be maintained, and thus they do not resent having them enforced. You cannot be wrong for maintaining standards.
ANNEX 21I

THE ARMED FORCES' CODE OF SOCIAL CONDUCT

The Armed Forces' Code Of Social Conduct

The Code of Social Conduct explains the Armed Forces' policy on matters of personal conduct. Although often focussed on personal relationships involving Service personnel, it can also apply to any behavioural issue (eg. alcohol or drug abuse, gambling, debt and other elements of financial irresponsibility) in which a reference to the Service Test is needed. It applies to all members of the Armed Forces, regardless of their sex (including gender reassignment), sexual orientation, race, whether they are married or in a civil partnership, religion, belief, ability, rank or status. The Code of Social Conduct policy and application of the Service Test in JSP 887\(^1\) take precedence over BRd 3, including the supplementary single Service guidance to Naval Service COs and all involved in the management of personal relationships and social misbehaviour contained in this Annex and its associated Appendices. If in doubt, the relevant staff legal adviser is to be consulted.

APPENDIX 1 TO ANNEX 21I

THE ARMED FORCES CODE OF SOCIAL CONDUCT - GUIDANCE NOTES FOR COMMANDING OFFICERS

1. Key Criteria

Incidents which involve the potential commission of a civil or military offence should first be considered for investigation in accordance with Service disciplinary procedures. As a general policy, the Services will only intervene in the private lives of individuals where it is necessary in the interests of preserving operational effectiveness. Following such consideration, where it is judged that a case should be dealt with by adopting administrative procedures, then the factors below should be used in applying the Service Test to assess the seriousness of the actual or potential impact of the alleged social misconduct:

a. **Rank, Status and Responsibility.** What are the ranks (or status) of the individuals involved? Was any influence, inducement, manipulation, coercion or threat exercised by virtue of rank or status (e.g. instructor/student relationship)? Or may an individual have justified reason to believe that they might be subjected to unreasonable influence?

b. **Extent of Service Involvement.** Does the social misconduct involve other Service personnel, spouses or dependants of Service personnel, or civilian employees? Has any relationship directly or indirectly impacted upon command or management chains? Does it involve working relationships and, if so, have, or might these have, been damaged or compromised to any extent?

c. **Damage to other Relationships.** Has the conduct damaged or placed in hazard the marriage, civil partnership or personal relationships of other Service personnel, or those within the wider defence community?

d. **Broken Relationships.** Experience shows that broken relationships can also provide disharmony, particularly where the breakdown was caused by the conduct of, or at the behest of, one of the parties. Again, once the friction and difficulties come to the notice of those in authority, the parties concerned should receive divisional counselling and removal may be appropriate in some cases. Unfortunately, broken relationships, particularly where third parties are involved may, on occasion, spill over. In a number of cases, assaults have been carried out on former girlfriends/boyfriends and divisional staff should maintain an ever-watchful eye. Also, further cases have come to light where an individual, affected badly by the break-up of a relationship, has attempted self-harm. The foundering of relationships is not confined to the Naval Service but Commanding Officers will be aware that the close confines of a ship may bring an unusually high intensity to relationships.
e. **Sexual Activity Onboard Ship.** Any sexual activity onboard ship, whether homosexual or heterosexual, involving two or more people, will prima facie be prejudicial to good order and naval discipline and is likely to be an offence under Section 19 of the Armed Forces Act 2006. If personnel are discovered taking part in sexual activity onboard they should be taken to separate locations and questioned by Ship’s Service Police. A medical examination is only required where there is evidence of, or an allegation that, a serious sexual offence has been committed. In such circumstances the procedures laid down in FLAGO Article 1611-12 covering rape and other serious sexual offences are to be followed.

f. **Operational Circumstances.** Did the incident occur within an operational theatre or environment? If so, the impact may be more immediate and severe.

g. **Understanding of the Service Interest.** To what extent has the individual disregarded the Service’s attitude towards social misconduct?

h. **Previous Warnings.** Has the individual been previously warned about his or her behaviour - if so, when and how and to what extent has the warning been disregarded? Has there been a formal audit trail of warnings including appropriate MPARs if necessary?

i. **Unwelcome Attention.** Has the behaviour involved unwelcome sexual attention in the form of physical or verbal conduct?

j. **Damage to Service Reputation.** Has the incident caused damage (actual or potential) to the reputation of the Service? If so, how and to what degree?

k. **Awareness of Circumstances.** Was the behaviour conducted in the knowledge of the circumstances of the status of all parties? Was a spouse or partner absent from the unit on an operational detachment, leave, temporary duty or other long-term detachment? Was there any evidence of collusion or abuse of privilege to facilitate that absence?

l. **Response to Discovery.** Did the individual volunteer the information before it came to light? Once the incident came to light, did he or she freely admit the misconduct, attempt to lie or prevaricate? Were the denials repeated? Did the relationship continue despite (repeated) denials? Did the individual show remorse?

m. **Any Other Factors.** Do any other factors, such as stress or a medical condition, have a bearing on the case? Is there a security aspect to the case?

2. **Range Of Sanctions**

A broad range of sanctions¹ is available to commanders in taking action against social misconduct. Sanctions arising from administrative action fall into three bands: informal action; formal action; and termination of service. Formal disciplinary action will be a matter for summary disposal or trial by court-martial. Administrative action might also have to be considered in the light of such disciplinary action.

---

¹ Not all the range of informal and formal sanctions will necessarily apply to the 3 Services.
a. **Informal Action.** After due consideration, a Commanding Officer could decide to take no action. If action is considered appropriate, the range of informal sanctions might include:

1. Counselling or warning about future conduct.
2. Informal rebuke (which might subsequently be reflected in the character assessment made in an annual report).
3. Posting within the Unit.
4. If, after counselling and reminding them of Service policy, the individuals involved continue in its development, consideration should be given to the removal of one of the parties. The criteria set out should be considered carefully, but the position of the senior of the parties concerned should be the subject of the closest scrutiny, if their lack of judgement and conduct has caused the greatest risk or damage to operational effectiveness.

b. **Formal Action.** Formal action could include:

1. Posting away from Unit or Theatre.
2. Formally recorded administrative censure.
3. Formally recorded warning about future conduct, including a written and signed MPAR.
4. Reduction in rank/rate.

c. **Termination of Service.** The most serious sanction is termination of Service.

3. **Application**

a. The guiding principle in deciding the extent to which action might be taken against an individual for social misconduct will be that of proportionality. Against this principle, it is necessary for the three Services to work within a common framework and to judge each case, and the response to it, against the common set of criteria outlined above.

b. It is important to accept, however, that even when cases are judged within a common (tri-Service) framework, the outcome might well vary from one case to another. Such differences will reflect the relative impact that any of the distinguishing features of the case might have. Moreover, it should be recognised that such variations might occur not only between the three Services but also within a case involving personnel from only one Service. In all cases, social misconduct involving individuals from different Services will invariably be the subject of liaison between the relevant policy staffs of the respective Services involved.
c. In constructing a common framework, therefore, it is necessary to ensure that the approach for considering the action to be taken in the case of social misconduct is consistent. The following graph provides the starting point for such analysis. Whilst it is only a guide, it recognises that where cases of social misconduct involve certain identifiable characteristics, then consideration should be given to appropriate levels of response. It is for the chain of command to judge the overall level of response on the basis of all the circumstances of the case, taking full account of both its mitigating and aggravating features. Thus any case of social misbehaviour can be dealt with proportionately, can be judged against a common set of characteristics and can be disposed of by the appropriate chain of command after taking full account of all of the facts in the case. The response graph, Figure 21l-1-1-1, illustrates the key criteria on which cases might be assessed and the range of sanctions available.

**Figure 21l/App1-1. Responsive Graph – A Guide**
APPENDIX 2 TO ANNEX 21I

GUIDANCE NOTES FOR COMMANDING OFFICERS ON THE PRACTICAL ASPECTS OF IMPLEMENTING THE CODE OF SOCIAL CONDUCT

1. Introduction
   This Appendix addresses the practical issues concerning the Armed Forces Code of Social Conduct (AFCSC). Implementation has been achieved with the minimum of fuss and disruption to unit life, and has been a process of adaptation rather than dramatic change. The changes achieved will be sustained by imaginative and firm leadership and the sensitive exercise of discretion rather than by over-regulation and confrontation. The key to success rests firmly with commanders at all levels, and specifically with Commanding Officers.

2. Principles
   Commanding Officers are to be guided by the following principles:
   a. The Armed Forces value the unique contribution which every individual makes to operational effectiveness.
   b. There is no place in the Armed Forces for harassment, bullying or discrimination.
   c. Commanders have a duty of care to all those under their command.
   d. The Armed Forces respect the right to individual privacy of every Serviceman and Servicewoman and will only intervene in the private lives of individuals where it is necessary in the interests of preserving operational effectiveness.
   e. Incidents which involve the possible commission of civil or military offences, or which come to a Commanding Officer’s attention through a formal complaint, should be investigated and dealt with in accordance with Service disciplinary or administrative procedures.
   f. The Service Test contained in the Code of Social Conduct should be applied when there is any doubt about the impact on operational effectiveness of any particular incident.

3. Practical Guidance Framework
   Commanding Officers should use the following framework for dealing with any issue which might arise in applying the Code of Social Conduct:
   a. The disciplinary system should be invoked to deal with any incident which involves a breach of discipline.
   b. The Service Test contained in the Code of Social Conduct should be applied to any incident which relates to personal relationships.
   c. The internal complaints procedures should be followed to investigate and resolve any complaints which arise from alleged activity which has been construed as discrimination, harassment or which takes the form of bullying.
The framework has been expanded into a diagram that outlines the essential decisions which Commanding Officers will have to make in handling incidents.

**Figure 21I App2-1. Commanding Officer's Guide to Handling Incidents Arising from the Code of Social Conduct**
ANNEX 21J

SUBSTANCE MISUSE

1. Background

Substance misuse is unacceptable in the Royal Navy which maintains a policy of zero tolerance. Substance misuse is increasingly accepted in wider society, however, and it would be naïve not to recognise the cyclical public debate about decriminalisation of certain substances may affect the attitudes of some Naval personnel. It is known that drugs are more widely available than ever before and, consequently, many recent joiners have experimented with drugs and have more relaxed attitudes towards them than their line management. Although substance misuse is still ‘relatively’ rare in the Services (the average CDT positive rate up to 2015 is 0.37% per annum although the 2016 figure is almost double at 0.62%, thus there is a clear worrying increase in usage), management cannot be complacent and must remain vigilant at all times. Experience, supported by statistical evidence, indicates that younger sailors (especially those in the 18-30 age bracket) are the most likely to misuse, although not exclusively so; these are the most impressionable and vulnerable of Service personnel, and also the ones least likely to have the confidence to report suspicions about their mess-mates to the Chain of Command. At the simplest level there are two abiding reasons that the Armed Forces continue to take the toughest line on drugs:

a. **Misuse of Drugs is Illegal.** Those who misuse drugs have participated in criminal activity and had contact with criminals. They have injected money into a system that sponsors violence and exploitation worldwide. They have fallen far below the standards of conduct expected of members of the Armed Forces.

b. **Drugs are Unpredictable.** Many people who experiment may do so only for a short period with no lasting harm; but illegal drugs are controlled because their physiological and psychological effects are unpredictable and can be extreme. Sailors and Marines are in charge of dangerous, expensive and sensitive equipment. They are regularly in charge of the lives of others, both their colleagues and civilians. In the misuse of drugs they betray public confidence by putting their own performance at risk.

2. Civilian Law

The Law in relation to drugs can be summarised as follows:

*It is an offence against the Misuse of Drugs Act (MDA) 1971 if the accused, without lawful authority or excuse, knowingly, is in possession or control of a controlled substance. The cultivation of cannabis is a specific offence under MDA 1971. Trafficking or supply of a controlled substance remains a serious criminal offence. Possession of a prescribed medicine without lawful authority or reasonable excuse and using any substance with the intention of obtaining an intoxicating or hallucinating effect are both offences against the Armed Forces Act (AFA) and may lead to charges under AFA Section 42.*
3. **Scope of AFA**

The provision under the AFA includes the misuse of solvents, steroids and New Psychoactive Substances (previously called ‘Legal Highs’ but now illegal following the New Psychoactive Substances Act 2016). Within the AFA, the intention to achieve the effect is an offence, regardless of the actual effect achieved. The Service policy of nil tolerance makes very little distinction between different types of drug. All alleged drugs offences will result in administrative or disciplinary action and where individuals are convicted sentences are harsh, normally involving at least dismissal, with detention or even prison a probability in more serious cases, or where there has been any attempt to supply drugs to others.

4. **Anabolic Steroids**

Anabolic steroids are a Class C drug. Their use and possession is prohibited by criminal law and specifically by Service personnel for additional policy reasons, breach of which is an offence under AFA 06 Section 13 and this order. In sum, the possession or control, without lawful authority or reasonable excuse, of any anabolic steroid is an offence by virtue of the relevant criminal law and/or standing order. Anabolic steroids are pharmaceutical products but their misuse, in the view of the British medical profession, for bodybuilding, weightlifting and other recreational use, is dangerous to physical and mental health and hence is a significant threat to all Service personnel. All major sports organisations have banned the use of such drugs. Use or possession by Service Personnel will result in administrative action, with a strong presumption of Discharge. Commanding Officers who suspect steroid misuse in their unit should consult WO CDT (NAVY PERS-CDT WO Tel Mil: 93832 7324) or FXO (NAVY PERS-EXEC FXO Tel Mil: 93832 8699). Further information on anabolic steroids is in JSP 835, articulated in Alcohol and Substance Misuse presentations and is widely available on the internet.

5. **Body/Performance Enhancing Supplements**

(See also JSP 835 Chap 3 Annex D). Evidence suggests that the use of body enhancing supplements by Service personnel is widespread and growing. Such supplements are usually consumed in the belief that they improve physique and performance. Although there is much scientific evidence that consuming whey protein (or soy/casein) and/or creatine will enhance anaerobic performance, there is little or nil evidence that the vast majority of other every day bought supplements will actually perform to their labelled claims.

a. The MoD’s concern over these supplements is that they are manufactured by an unregulated industry, there is irrefutable scientific proof of 1 in 10 such products being contaminated (deliberately or otherwise) by anabolic steroids, and some manufacturers are less than scrupulous, often using ingredients with unknown physiological and psychological consequences.

b. Supplements can be obtained from a variety of sources, and when this includes the internet even greater caution is required; even ‘over the counter’ products from reputable outlets in UK cannot be considered 100% safe to use. A supplement sold in the NAAFI is no guarantee of its safety. Contaminated supplements therefore can theoretically lead to a CDT failure.
c. MOD policy is that the internet website ‘Informed Sport’ is the only recognised database of ‘safe’ supplements and even this is without a 100% guarantee. Other sites and companies purport to give quality assurance of supplements, but it should be noted that the World Anti-Doping Agency, UK Anti-Doping and most UK based sports organisations defer only to ‘Informed Sport’ for ultimate assurance of ‘safe’ body and performance enhancing supplements.

d. The ‘zero tolerance’ policy still applies to a CDT ‘positive result’ caused by body enhancing supplements, and therefore their use is strongly discouraged.

e. Supplement Myths. Use of multiple, uncontaminated supplements DO NOT cause bio-symbiotic metabolisation as a steroid or any other illegal drug.

6. The MoD ‘Line’
The MoD’s view on body and performance enhancing supplements is as follows:

a. MoD has no requirement for any individual to use body/performance enhancing supplements.

b. The INM view is that there is no Service requirement for any individual to use body/performance enhancing supplements providing that they are eating a balanced diet and following a sensible exercise regime.

c. There are ‘risks’ associated with all body supplements and they may result in a positive CDT result. The risk is reduced (but not entirely removed) if the supplement is listed on the ‘www.informed-sport’ website.

d. The individual remains responsible for that which they ingest into their body and the MoD maintains a zero tolerance policy to substance misuse.

7. Dietary Supplements
Dietary supplements such as Vitamin C or Cod Liver Oil and similar, bought from reputable sources, are overwhelmingly unlikely to lead to a positive CDT result providing that they are used as directed.

8. Representative Sport
Any Service person who participates in representative sport will be subject to the relevant Governing Body’s regulations regarding substance misuse, as well the Service policy. Any individual who is subjected to a drug test by a sport’s Governing Body is to notify their Commanding Officer or Service Sports Association within 2 weeks of the test. An individual who provides a positive result following a drug test, in accordance with the relevant Governing Body’s regulations, is to notify their Commanding Officer and Service Sports Association immediately of the result and will be subject to administrative action by the Service, in addition to any action taken by the relevant Governing Body. Such Service administrative action will be decided by Navy Command HQ staff and will depend on the level and type of drug for which the test proved positive.
9. **Other Substances**

Other substances include, but are not limited to, Poppers, Solvents and Non-Psychoactive Substances (NPS) (see list in JSP 835). The possession, without lawful authority, of any herbal and/or chemical substance, in whatever form, which may be used to produce or cause an intoxicating, stupefying or hallucinatory effect, is an offence by virtue of this order and AFA 06 Section 13. Legal Highs are not legal, they are often produced in very dubious circumstances and are often mixed with known Class A, B and C drugs – they are dangerous to the individual. The effects of NPS will vary and are unpredictable. The long-term side-effects are unknown and unlikely to be known for years. The production, distribution and selling of NPS is now illegal following the ratification of the NPS Act 2016.

10. **Cannabidiol Oil**

Cannabidiol Oil (CBD) is a substance that has become widely available and is reputed to provide a number of health benefits. CBD itself is not a controlled substance and is not tested for during CDT, however, it is derived from a strain of Cannabis plant that may also contain THC. THC is a controlled substance and is subject to the CDT zero tolerance policy. THC is tested for during CDT and will show up in a sample as cannabis. CBD oil obtained without prescription is not a medicinal product and is not required to meet pharmaceutical manufacturing or safety standards. Home office guidance is that it is very difficult to isolate pure CBD without traces of THC, and most manufacturers do not test to ensure that they have done so. It is therefore possible that CBD oil sold on the high street or by on-line retailers may contain some THC. The onus is on Service personnel to ensure that they do not consume THC (or any other controlled substance) and therefore use of CBD oil should be avoided unless it is prescribed by a Service Medical Officer. Personnel using CBD oil will be considered to be placing themselves at risk of consuming a controlled drug and may therefore be judged to have behaved recklessly in the event of a positive CDT result.
APPENDIX 1 to ANNEX 21J

SUBSTANCE MISUSE AND ALCOHOL - EDUCATION AND MANAGEMENT

1. Introduction
   Naval Service directed Substance Misuse education is combined with Alcohol education and delivered by the Compulsory Drug Testing Team Substance Misuse and Alcohol Educator (CDT SMA). The presentation is approximately two hours long and focuses on the Command message of intolerance of substance misuse and the dangers associated with drinking alcohol. FXO also provides bespoke briefs aimed at the Command/Management level, these are detailed in Para 7. Units should also maintain their own rolling education campaign under the stewardship of the XO.

2. Responsibility
   Attendance at a Substance Misuse and Alcohol presentation remains the responsibility of the individual (as a Core Maritime Skill) but Divisional Officers, Troop Commanders, Line Managers and ultimately Commanding Officers have a responsibility to ensure that their personnel are in date. DOs/Troop Cdrs should bring any shortfalls to the attention of their Command (using OBIEE dashboards).

3. Periodicity
   a. The RN Substance Misuse and Alcohol lecture is a mandatory Core Maritime Skill; it must be completed annually for all personnel up to the age of 30 and at intervals of not more than every 3 years for those aged 30 and over.
   b. The delineation between those over and under the age of 30 underlines the continuing requirement to remind all personnel of the dangers and consequences of alcohol and illegal substances, whilst also reflecting the societal pressures and influences that are faced by those under 30. This is evident from the 3 Services’ Compulsory Drugs Testing (CDT) teams and Home Office statistics which all indicate that the likelihood of substance misuse reduces significantly over the age of 25.

4. Delivery
   The RN Substance Misuse and Alcohol lead Educator is the CDT SMA who delivers a rolling programme for Ships and Establishments. In order to make the presentation more accessible and to meet increased demand, a number of additional ‘educators’ have been authorised to deliver the presentation at the major shore establishments; this also gives CDT SMA greater flexibility to meet demand elsewhere. The list of qualified personnel is maintained centrally by the CDT SMA, the following establishments are to ensure the appropriate personnel have been authorised to deliver the brief:
   a. BRNC MAA
   b. CBF GIBRALTAR MAA
   c. CTCRM G1 Adviser
   d. HMS RALEIGH Initial Phase MAA
   e. HMS SULTAN RNP Staff
f. HMS COLLINGWOOD  BWO

g. HMS NEPTUNE  2 x SRs

h. RNAS YEOVILTON  RNP Staff

i. RNAS CULDROSE  3 x SRs

j. RNLA (COLLINGWOOD)  RNLA MAA

k. HMS DRAKE  2 x SRs

These establishments promulgate the details for their presentations locally. The CDT SMA remains the primary educator and will randomly QA local alcohol and substance misuse presentations.

5. The following establishments/units will continue to receive lectures from the CDT SMA or make use of the delegated local instructors identified in Para 4 above:

a. 43 Cdo (Faslane).

b. 3 Cdo Bde (Plymouth).

c. 29 Cdo Regt RA (Plymouth).

d. 30 Cdo IX Gp (Plymouth).

e. 42 Cdo (Bickleigh).

f. 539 Assault Sqn RM (Plymouth).

g. RM Stonehouse (Plymouth).

h. 1 ASGRM (Poole).

i. 24 Cdo Engr Regt RE (Barnstable).

j. 40 Cdo (Taunton).

k. 45 Cdo (Arbroath).

l. Cdo Log Regt (Barnstaple).
6. The following units will continue to receive their briefs from CDT SMA only:

   a. All Ships and Submarines.

   b. HMS NELSON.

   c. HMS EXCELLENT.

   d. All Reserve units.

7. **Career Courses**

   All Command, Leadership and Management Courses in the RN and RM are to include the bespoke Management of Substance Misuse and Alcohol presentation. Attendance at these bespoke presentations should be recorded as a competence on an individual’s JPA Record using the appropriate JPA Competence according to age (ie. 1 or 3 years).

   a. FXO (or Exec SO3) delivers a Command/Management level brief to:

      (1) CO/XO Desig Course.

      (2) Head of Dept Course.

      (3) JOLC 2.

      (4) RN WOSC.

      (5) EWO/RN SM Cox’ns Desig.

      (6) RM Advanced Command Course.

   b. RNLA MAA delivers a bespoke version of the standard brief to:

      (1) DOs’ Course (including Refresher courses).

      (2) SRCC.

      (3) LRCC.

   c. **Unit Education Support.** The programme above is supplemented by presentations given to ships and establishments on request, which is particularly recommended for those units due to deploy. All deploying units are to obtain an Education Briefing Pack from the Substance Misuse and Alcohol educator to assist in the delivery of the subject whilst away from the UK. Units are to include Substance Misuse and Alcohol education in all Divisional and Troop Meetings at intervals of no more than 4 months (this is assisted by the standing Substance Misuse and Alcohol brief contained within the termly PSB). The anti-drugs message should feature regularly in unit Daily/Weekly Orders. Basic information about alcohol and drugs in the Service is contained within JSP 835 which includes ‘sound bites’ for Daily Orders. Additional support is also available from Community Mental Health departments at the Naval Bases (details in current RNTM) and NCXT.
d. **CDT SMA.** CDT SMA remains available to conduct presentations for any unit unable to attend the establishments at Paras 4-5. Applications for Substance Misuse and Alcohol education presentations are to be made to the CDT SMA by email: NAVY NPS–EXEC CDT SMA ED1 or by phone: 93832 7314 or 02392 627314.

8. **Substance Misuse and Alcohol Education Competence Recording**

   a. All personnel receiving the Substance Misuse and Alcohol brief (the standard brief by personnel noted in Paras 4-6 above or Career Course brief) will draw a valid JPA competence.

   b. For all RN personnel, only the ‘CMS|SUBSTANCE MISUSE 30 YEARS AND OVER|Navy|’ or ‘CMS|SUBSTANCE MISUSE UNDER 30|Navy|’ competence should be used. Each competence will be given the normal period of validity ie. 1 year for those under 30 years of age, 3 years for those aged 30 and over. It should be noted that only briefs given to personnel over the age of 30 will be applied for 3 years ie. a person aged 29½ must still attend a brief at age 30½.

   c. The competence ‘CMS|SUBSTANCE MISUSE|JOINT’ should no longer be used for any RN/RM staff. This competence will only be relevant for Army and RAF personnel who do not delineate between ages.

   d. Executive departments are reminded of the importance of the Divisional/Regimental systems, messdeck/barrack supervision and coaching/mentoring in promoting education and combating alcohol and drug misuse.

   e. Specific guidance for Executive teams and Divisional Officers/Troop Commanders is available from Community Mental Health departments at the Naval Bases, and NCXT.

   f. Specific guidance for Unit Personnel Office staff when inputting the above relevant competences may be found in the relevant Business Process Guide (BPG) on how to enter the information on JPA, which may be found by using the following path from the JPA Portal: JPA Portal – BPG – Personnel Processes – AP & PD – Updating SP Competencies. The BPG reference is ‘Update Competencies against a Service Persons Profile IN915019’.

   g. Evidence of attendance at an Alcohol and Substance Misuse presentation and the appropriate recorded JPA competence should be checked by DOs/Tp Cdrs during the Annual JPA Check and any shortcomings addressed.
9. Alcohol Misuse

a. **Responsibilities.** From the Service point of view, excessive use or misuse of alcohol is not acceptable as it adversely affects safety, efficiency, discipline and the reputation of the Service. On a personal level, any excessive use or misuse of alcohol can lead to errors of judgement, unacceptable behaviour, and in some cases tragic accidents, while regular and long-term misuse carries with it significant risk to health and/or social problems. Excessive is a relative term and, depending upon the circumstances, it does not require much alcohol to cause serious consequences. QRRN Article 3624.6 states that:

> It is the duty of all those in authority, whatever their rank, to discourage excessive drinking and, by example and supervision, to foster a climate of opinion in which such drinking is regarded as unacceptable.

b. Furthermore, DOs are to:

> Be especially vigilant in such matters and are to ensure that alcohol education is a regular feature within their division and that counselling is readily available.

c. **Overview.** With the demanding workloads associated with lean manning, increasingly high-tech equipment and, of course, familiarity with the drink/driving regulations, Naval personnel have become more sensitive to the dangers of mixing alcohol consumption and the working environment. The vast majority adhere to the Naval code of sensible and responsible drinking and are increasingly aware of the risks, dangers and long-term physical and mental health effects associated with drinking. It is recognised that culturally, alcohol (consumed moderately) plays a role in our society, that as a Naval Service we work hard and that most of our frontline personnel are aged between 18 and 30. Nevertheless, despite the ‘work hard/play hard’ ethic persisting, it should not be allowed to excuse heavy (binge) drinking sessions ashore or when off duty. There also remains a strong correlation between alcohol consumption and disciplinary incidents, to the extent that drunkenness and drink-related offences must continue to be dealt with and punished firmly. In addition, those found guilty of a drink-related offence should ordinarily be required to attend a Brief Advice Tool (BAT) (a one-on-one ‘Brief Intervention’ delivered by DCMH staff - see sub-para i below) if the Command deems it to be appropriate.

---

1 See also JSP 835 Chap 2, BRd 9467 (FLAGOs) Art 1627 and BRd 9600 (SGOs) Chap 10.
d. **Problem Drinkers.** The Naval Service community reflects society at large and inevitably includes personnel who will drink to excess on occasion. The great majority will mature gradually and, without intervention, establish a more moderate and acceptable drinking style. There will be those, however, who are, for various reasons, disposed to consistent alcohol misuse and/or periodic bouts of uncontrollable drinking leading to alcohol dependence. These personnel must be the targets for early identification and intervention. For the DO who identifies a potential problem drinker there is no neutral position. Once identified, the DO can only intervene or collude; intervention must be early, firm and constructive. It is important to understand that the Divisional/Troop management process, including disciplinary actions, can and should run in conjunction with therapeutic and social interventions. Mess Presidents and Leading Hands of Messes also bear a responsibility and must use both judgement and moral courage to assist the Command in identifying and managing the ‘problem drinker’ for the greater good of both the Service and the individual. Continual education at all levels is by far and away the most effective weapon.

e. **Identification.** The harmful use of alcohol, and ultimately dependence does not happen overnight but, rather, by the gradual emergence of a pattern of heavy drinking within which an individual’s reliance and involvement with alcohol can take on an overriding importance. This gradual, regular and excessive consumption and the potential to become a problem drinker may manifest itself in a number of ways, for example:

(1) Poor time keeping at work.
(2) Alcohol related disciplinary offences.
(3) Inconsistency at work and a decline in professional standards.
(4) Neglect of personal standards on issues such as dress, fitness and interaction with others.
(5) Increasing health problems.
(6) Financial and/or domestic problems.
(7) Mess deck feedback.

f. DOs must also be alive to the possibility that a problem drinker may have developed an ability to dissemble and have a tolerance to alcohol consumption that will enable them to show few overt signs of excessive drinking. Thus, they may appear quite sober, despite regularly carrying abnormally high concentrations of blood alcohol.

g. **Managing the Problem Drinker.** On becoming aware of a suspected alcohol dependent or a potential problem drinker and before any consideration of formal warnings, the DO should immediately instigate ‘Recovery Action’, as follows:
(1) **Informal Action.** Informal action will include giving divisional counselling to the individual, both in order to register the DO’s concerns and to ascertain whether there is any underlying cause of the behaviour which may be solvable independently (eg. by referral to NS FPS – see Chapter 24). If an informal verbal warning of the likely consequences of excessive drinking is appropriate, this should invariably be given in the presence of a third party (eg. DSR/SNCO) and recorded on a locally produced form (an MPAR format is ideal). This form should be signed by the DO, the witness and the individual and kept with the individual's Service documents for a specified warning period (normally three months). Where a routine appraisal report falls during the designated period, no mention should be made of the informal warning. At this stage, depending on the trigger for, and outcome of, the discussion, the DO may consider recommending withdrawal of alcohol allowance and/or the privilege of living in private accommodation. Consideration should also be given to ordering the individual to attend a BAT (see sub-para i), or its equivalent. Speedy action in the early stages of a problem is more likely to be successful in the long term. The combination of divisional discussions, formal MPAR and attendance at the BAT will serve two purposes. Firstly, it is likely to ‘nip in the bud’ any situation which, if left unchecked, could escalate in severity and secondly, it provides the Command with the reassurance that appropriate duty of care has been afforded to the individual prior to any formal administrative action. It is important that no warning procedure is commenced without first conducting the above measures. This informal monitoring stage retains an indefinite timescale as every case will be different and must be assessed locally by the Divisional hierarchy and command. If it is felt that informal administrative action has been exhausted but ineffective, further formal action should be considered. Although there is no formal policy on the minimum time required to move from informal action to formal action and warnings, it is suggested that three months is an appropriate and fair guide. Advice can be sought from the relevant Regional Legal Office and/or Navy Command Executive team as necessary.

(2) **Formal Action.** If, as a result of persistently poor behaviour, attitude or alcohol-related offences, an individual is approaching the state where they are becoming an unacceptable risk or an administrative burden, and having exhausted the informal administrative measures detailed above, the DO should initiate formal warnings for administrative Discharge SHORE (Alcohol). This warning process should follow the 3-tier structure as detailed in Chapter 57 paras 5755-5765, with associated documentation being raised. Furthermore, it should be reported to the Command via the N1 Annex to the Weekly Logistics Summary Report. The warning documentation should refer to the attempt to resolve the matter informally and the delivery of an MPAR and attendance to a BAT. At the BAT, or alternative directed by the Royal Navy Mental Health Services, some individuals will be offered the opportunity to volunteer for formal treatment for their problem drinking. Should they decline this offer, and problems persist, they should be advised to consult with their Unit MO. Refusal to accept referral or actively engage with any DCMH or medically recommended treatment should be clearly recorded as a poor attitude and may be commented upon when reviewing the current warning level and the consideration to raise to the next stage. It is always incumbent upon the Unit to demonstrate that adequate measures were made to offer treatment to the individual if a subsequent request for administrative discharge is to be justified.
(3) **Discharge.** Should an individual fail to respond to the procedures listed above and still remain an administrative burden following the full 3-tiered warnings process, application should be made for administrative discharge. This process remains an Executive matter throughout. **There is no authority on medical grounds alone for discharge of an individual assessed as misusing alcohol.**

h. **Assistance Available from Other Agencies.** At any stage during this process, consideration should be given to seeking other means of assistance through RNRMW, medical services, the Chaplaincy Service, or outside agencies.

i. **Brief Advice Tool.** The Brief Advice Tool (BAT) policy is the result of collaboration between Navy Legal, Navy Pers Exec, Navy Med Div and DPHC. Although the half day Basic Alcohol Education Course (BAEC) has been the principal divisional tool for securing specialist input for service personnel misusing alcohol for over a decade, there has been no evidence base for its efficacy. Therefore, following a comprehensive round of consultation, on 31 Jul 15 the BAEC was replaced by the BAT.

1. The BAT is a short, evidence based individual intervention by a mental health nurse, after which the individual will have the option of engaging in formal treatment for alcohol misuse if they so wish. If they opt for the latter, they will be offered an assessment appointment at the DCMH within 15 working days.

2. The Executive, normally through the DO, can refer any service person to the BAT; they can be ordered to attend but cannot be ordered to undertake the treatment. Any service person whose alcohol consumption causes concern must be referred, particularly if disciplinary action is being considered. Personnel may also refer themselves for this intervention.

3. Upon notification of a request or order to attend the BAT, Departments of Community Mental Health (DCMH) in the base ports will then offer an appointment to the person concerned, within 5 working days, at one of the regional centres.

4. Personnel can book/be booked for a BAT on the following numbers:

   a. DCMH Portsmouth (all Portsmouth-based Units): 9380 26256 (mil) or 02392 726256 (civ).

   b. DCMH Plymouth (all Units in the South West): 9375 65965 (mil) or 01752 555965 (civ).

   c. DCMH Faslane (all Clyde based Units, 45 Cdo and Units at Rosyth): 93255 5421 (mil) or 01436 674321 (civ).
(5) The service person will be given a letter of attendance that serves as confirmation that they have been given the opportunity to engage with specialist treatment for alcohol misuse if they so wish, thereby satisfying the requirements of Para 9.g(2) above.

(6) Further attendance at the BAT within a twelve-month period is not generally indicated. If problems persist, or reoccur within one year, the individual should be directed to see the Unit MO.

10. Safety Critical Duties - Testing for Cause for Alcohol and Drugs

The Armed Forces Act 2011 (AFA11) introduced testing for cause for Alcohol and Drugs in relation to Safety Critical Duties. This brought with it a new offence namely ‘Section 20A AFA 06 – Exceeding alcohol limit for prescribed safety-critical duties’. This Paragraph should be read in conjunction with the References footnoted below. Whilst it is intended to provide guidance on interpretation of the regulations, it is not intended to duplicate guidance already published in JSP 830.

a. Policy Background. Whilst it is reasonable to expect that all personnel will be in a fit state to perform their duties, certain duties are by their very nature safety-critical, where performing that duty while impaired by alcohol or drugs could result in a risk of death or serious injury to a person, serious damage to property, or serious environmental harm. The testing regime seeks to promote a professional, sensible and moderated approach to alcohol consumption, particularly in relation to safety-critical duties, and to a large extent mirror existing civilian provisions, such as are contained in the Railway and Transport Safety Act 2003 (to which RFA personnel are subject). They also arise as a consequence (but NOT the result) of a number of high profile incidents which had a detrimental effect on the reputation of the Royal Navy.

b. Mechanism. The mechanism for ‘testing’ is by use of the NON-evidential Lion 500A Alcometer (breathalyser) and, thereafter, an evidential urine sample. There is scope within legislation to use an evidential blood test but, as yet, there is NO provision within the Royal Navy to take blood samples.

c. Options for Commanding Officers. Alcohol testing regulations supplement the existing provisions governing alcohol consumption in the Armed Forces. Commanding Officers (COs) will continue to have available to them a range of options to deal with incidents involving alcohol misuse. These responses range from Minor Administrative Action, divisional administrative action and education (including attendance on Alcohol Education Courses). The existing offence of ‘Unfitness or misconduct through alcohol or drugs’ contrary to Section 20 of AFA 06 remains and COs should note paragraph 11 of JSP 830 which makes clear that, while there is no power to order a person to submit to testing when the duty concerned is not safety-critical, it is still possible to pursue a charge of unfitness or misconduct through alcohol or drugs under Section 20(1)(a).

References relating to AFA11 include: Armed Forces Act 2006, Armed Forces (Alcohol Limits for Prescribed Safety-Critical Duties) Regulations 2013, JSP 835 (Alcohol and Substance Misuse Testing) Chapter 5 (as amended to 1 Nov 13), JSP 830 (Manual of Service Law) (as amended to 1 Nov 13) and 2013DIN01-212 (The introduction of new powers to test personnel undertaking safety-critical duties for drugs and alcohol).
d. **Command Judgement.** Command judgement will invariably be required as to what best serves the Service interest, and a pro-active and pre-emptive alcohol and drugs education campaign will invariably reap dividends. It is envisaged and intended that the ‘breathalyser’ offers as much an opportunity for education and raising awareness of issues and consequences associated with alcohol consumption and culture, as it does for enforcing discipline. Often the key issue which will decide which course of action the Command takes is the requirement to achieve swift justice. Due to the requirement for laboratory analysis of a urine sample following a positive breathalyser test, this (Section 20A) route will invariably lead to a longer process than that followed by the Section 20(1)a ‘subjective opinion’ route. The command will need to decide whether proceeding under the Section 20(1)a ‘misconduct through alcohol or drugs’ route is actually more effective locally and will have greater deterrence than proceeding down the Section 20A ‘over a prescribed limit for alcohol’ route. Advice on this and similar issues can be obtained from local Service Police as well as NCXT or NCHQ Police personnel.

e. **Prescribed Duties and Alcohol Limits.** A CO has the power to require a person subject to Service law to submit to testing for alcohol or drugs, providing they have **reasonable cause** for believing that the person’s ability to carry out the duty is impaired through alcohol or drugs or the person’s blood alcohol level is over the prescribed limit. This power may be delegated through a Duty Officer or Senior Rating (minimum of OR6 – Petty Officer/Sergeant) - see sub-para l below. There is no requirement for an incident to have occurred before a person can be required to submit to testing. The alcohol limits for prescribed safety-critical duties have been set at two levels, as follows:

1. **Higher Alcohol Levels.** The majority of safety-critical duties fall into the higher alcohol limit for testing of breath, blood or urine. The higher limits are as follows:
   
   (a) Breath – 35 microgrammes of alcohol in 100 millilitres.
   
   (b) Blood – 80 milligrammes of alcohol in 100 millilitres.
   
   (c) Urine – 107 milligrammes of alcohol in 100 millilitres.

2. **Lower Alcohol Levels.** Some safety-critical duties require a heightened speed of reaction in an emergency situation and therefore are subject to a lower alcohol limit. The lower limits are as follows:

   (a) Breath – 9 microgrammes of alcohol in 100 millilitres.
   
   (b) Blood – 20 milligrammes of alcohol in 100 millilitres.
   
   (c) Urine – 27 milligrammes of alcohol in 100 millilitres.
f. **Testing.** The hand-held breathalyser devices issued to units provide a preliminary, non-evidential, test and may be used to determine whether it is necessary to proceed to an evidential test (or not). Because of the difficulties in calibrating evidential quality breath test devices, within the Naval Service it is envisaged that urine tests will be the predominant means of evidential testing. Evidential urine tests are conducted by the RNP and are processed through Government laboratories (LGC Teddington) (akin to the process for CDT). The result forms the evidential basis for any subsequent disciplinary action.

g. **Command Declaration of Unfitness for Duty.** It should be noted that an individual may ‘blow’ negative in the breathalyser for alcohol but the RNP, in communication with the Command, may still wish to conduct an evidential test if they suspect that the individual may be unfit through the influence of drugs. Individuals may also test negative but (assuming no suspicion of drugs) the CO may elect subjectively to declare the individual ‘unfit for duty’ through Section 20 under AFA 06 – in such instance the result from the breathalyser must be discarded and not used in subsequent investigation.

h. **Non-Prescribed Safety Critical Duties.** As well as the categories of prescribed duties detailed in the References at Footnote 2, there may be circumstances where a CO believes an offence under Section 20(1)(a) has been committed in respect of a non-prescribed safety critical duty. In such cases, a CO may order a preliminary or evidential test, however, the test can only be used to establish the presence of alcohol or drugs: the higher or lower levels detailed above do not apply. Even where the presence of alcohol or drugs is established, the other elements of an offence described under Section 20(1)(a) must also be proven.

i. **Safety Critical Duties - Definition.** Before determining an activity to be ‘safety critical’, the CO must first satisfy themself that the duty meets the statutory definition:

> A duty which the Commanding Officer reasonably believes is such that performing the duty with ability impaired by alcohol or drugs would result in a risk of death, serious injury, serious damage to property or serious environmental harm.

Examples of when such testing would be appropriate could include: a person who appeared to be drunk when operating a vertiflow lift during a store ship; or a range safety officer who appeared to have been taking drugs when supervising a live shoot.
j. Notification of Safety Critical Duties. Although listing which duties a CO would regard as safety-critical is not required by the legislation, in order that individuals can plan ahead and either avoid consuming alcohol altogether, or moderate their alcohol consumption as appropriate, COs should use their Temporary Memoranda to detail those safety critical duties which are expected to be reasonably common place, and to make use of Daily Orders or other unit routine orders in order to ‘activate’ such duties. An infrequent or uncommon safety-critical duty can be detailed either in a short Captain’s Temporary Memorandum (CTM) or equivalent, or Daily/Unit Orders – it is recommended that COs maintain a standing CTM template for such situations. A CO should avoid placing unnecessary liability for testing on any other person who may be required to perform any related or ancillary duty merely because it is convenient to do so (eg. all members of a work party or team) but which is not genuinely safety-critical in nature. When personnel are required to complete an activity that is not within their normal daily routine, a CO should provide advance notification that their particular duty on a given day or for a given period may be regarded as safety-critical because of the heightened standards expected at the time. This may help deter excess alcohol consumption ahead of the duty and ensure all relevant personnel understand their liability for testing.

k. Alternative Measures. COs should not forget that they have a range of measures available to them in managing alcohol consumption and do not need to have to justify a position as safety critical. For example, a ship about to be involved in a Humanitarian and Disaster Relief scenario can apply a more stringent alcohol state (law BRd 9600 - SGOs) in order to prevent personnel from drinking prior to operations. In the same manner, a more restrictive ‘alcohol state’ can be applied when in Defence Watches rather than attempting to declare every position as ‘safety critical’. COs are also at liberty to impose ‘alcohol bans’ when appropriate.

l. Delegation of Authority for Ordering Test. Whilst the CO is responsible for deciding whether an individual is referred to the Service Police for a preliminary alcohol or drugs test, the legislation permits delegation of this decision to Petty Officer or Sergeant level. The intent of this is to permit (for example) a Petty Officer performing duty as Officer of the Day in a Mine Countermeasures Vessel, or a Petty Officer Diver in charge of a Diving Unit detachment, to order a test. Navy Command intent, therefore, is that authority to test should generally be delegated to the XO, Heads of Departments and Officers of the Day/Duty Officers only, but may occasionally include others eg. those in charge of a detachment for a determined period, and that these delegations should be articulated in CO’s Temporary Memorandum. COs wishing to delegate further should contact Flotilla or NCXT staff for advice.

m. Reasonable Cause. It is reiterated that ‘Reasonable Cause’ must be established prior to a test being ordered. In this respect ‘Reasonable Cause’ requires the same subjective judgement as for assessing an individual to be ‘Unfit for duty’ in accordance with Section 20(1)(a) of AFA06. It is impossible to give a definitive list of what constitutes ‘Reasonable Cause’, but factors taken into account may include:
(1) Verbal notification that an individual was seen/known to be drinking excessively prior to assuming a duty.

(2) Named in an alcohol related incident in the 'Daily Occurrence Book'.

(3) Obviously dishevelled or un-naval/military like in conduct, bearing or appearance.

(4) Smelling of alcohol.

(5) Been seen drinking to excess whilst ashore.

n. **Failure to Provide a Specimen for Analysis.** It is an offence for an individual to fail to provide a sample when required to do so in accordance with AFA 06 Section 93E(10), without reasonable excuse.

o. **Education.** The implementation of AFA 11 and associated legislation with respect to alcohol has been widely notified across the RN. All career courses are specifically briefed, and the sentiment is included in the routine ‘Alcohol and Substance Misuse Lectures' delivered as part of the CMS 6 programme. The physical presence of the Lion 500 handheld Alcometer offers a tangible, visible representation of the Regulations and it should be used to develop a culture that is circumspect of anything more than responsible and moderate alcohol consumption. Alcohol calculators have also been distributed to educate personnel in the amount of alcohol contained within drinks (Percentage Alcohol By Volume, or %ABV), ‘units’ of alcohol and the time required for the body to process it.

p. **Ethos.** The RN Ethos advocates RN Core Values and Standards, amongst them professionalism and integrity. With respect to alcohol, the intent is to highlight the responsibility placed upon members of the Naval Service and the need to maintain the highest standards of conduct and behaviour that is always expected of us by the Nation.

q. **Divisional Involvement.** The implementation of AFA 11, combined with Navy Command led campaigns on alcohol culture and Ethos, provide the CO with the tools necessary to take forward the education process. The pro-active engagement of those in involved in the Divisional/Regimental System completes the 'triad' that will shape and maintain the irreproachable personal and professional standards that underpin the RN's global standing and good reputation.

r. **Medical Personnel.** Medical officers, dental officers, nurses or MAs are all subject to the AFA 11 and a CO may determine their duties to be non-prescribed safety-critical. It should be noted that were a member of the Medical Services found to be under the influence of alcohol or drugs they may also be liable to sanction by their respective professional bodies.
s. **Civilians Subject to Service Discipline.** In certain circumstances civilians subject to service discipline may also be subject to alcohol testing. Those situations will arise when the individual is suspected of committing an offence under certain Sections of the Railways and Transport Safety Act 2003. Wherever practical, COs should seek legal advice before ordering the testing of civilians.

t. **Summary.** AFA 11 aligns the Armed Forces more closely with domestic legislation and engenders a professional but pragmatic approach to alcohol consumption and culture. It is not designed to constrain personal freedom nor erode privilege, but it does re-emphasise the need for a mature and responsible approach to alcohol.
ANNEX 21K

COMPULSORY DRUGS TESTING

1. Compulsory Drugs Testing. (See also QRRN Art 3626 and JSP 835)

a. Every person in the Naval Service is subject to Compulsory Drugs Testing (CDT), which may be carried out by RN or tri-Service teams. Failure to comply, when required by a CDT team member of any Service (ie. to produce a urine specimen) is a disciplinary offence with a punishment of dismissal and up to 6 months imprisonment or detention. Adulteration or substitution of specimens carries the same penalty. DOs are to counsel any member of their Division who refuses to supply a specimen to ensure that they understand the implications. If the individual continues to refuse to provide a sample, a refusal certificate obtained from the CDT team leader is to be completed immediately, in duplicate. One copy will be retained by the unit and the other taken by the CDT Team Leader. Disciplinary action will be initiated by the unit.

b. The Navy Command Executive Team (NCXT) has complete discretion in deploying the RN CDT team. There are reciprocal arrangements with the Army and RAF for personnel serving in Joint units or with another Service. The decision as to when to test units will, as far as possible, take into account programmes, training cycles, operational requirements, historical frequency of tests, perceived risk of drug misuse and the travel and resource constraints of the CDT Teams. However, periodicity will deliberately be varied in order to avoid predictability and maximise the deterrent effect of CDT. The Team will deploy globally to enforce the message that CDT can occur at any time and in any place.

c. The team will not normally consult Administrative Authorities before arranging a test, save where particular complexities make this desirable. The team will normally consult with the CO in order to agree dates and confirm logistic arrangements. It is very important that disclosure of the arrival of the CDT team should never take place. This is particularly pertinent to persons involved in the logistical preparations of a unit. For example, placing a notice in a hall/briefing room several days in advance highlighting that the room will be ‘out of action’ due to drugs testing is clearly harmful to the deterrent effect of the visit. The CDT team do have a mandate to arrive at a unit ‘unannounced’ and may do so. Commanding Officers may request a visit from the CDT Team if they feel it necessary (ie. following word of potentially suspicious activity reaching the Command’s ear), by contacting WO CDT (NAVY PERS-CDT WO / 07876 476937) or FXO (NAVY PERS-EXEC FXO / 93832 8699). Additionally, it is entirely appropriate and indeed encouraged if deemed necessary by the Command, to send an individual(s) to the CDT at HMS EXCELLENT for testing. This procedure is designed as an alternative solution to specifically bidding for an on board CDT (following reports of suspicious activity) and may be optimal if the CDT team is unable to reach the unit swiftly (eg. a deployed unit believes it has a suspicious case on board and wishes to fly an individual(s) back to the UK for testing; this procedure is encouraged). Finally, it is encouraged that unit COs should, where possible, conduct local spot checks of their personnel by sending a small cross-section (eg. 6-8 people) to the team at HMS EXCELLENT for random testing (although a powerful deterrent, it is appreciated this procedure is difficult for non-Portsmouth based units, however the methodology remains sound and is hereby recommended). The CDT Team will always endeavour to minimise the impact on a unit and take a pragmatic view on the
unit's programme, however ultimately they are performing a task that is directed by the Defence Council. Experience has shown that the CDT process flows much more efficiently with proactive and supportive engagement from the unit XO/2IC and EWO/Cox’n or equivalents.

d. The CDT Team needs logistic support from the unit being tested in order to conduct testing. The Team will send details of this requirement to a unit prior to its arrival. This will include a requirement for circa 6-12 SRs/SNCOs to act as Collection Assistants (manning desks) and double the number of JRs/Other Ranks to act as Monitors (escorts of individuals to/from heads). All units should have available dormant orders for CDT implementation. A template for such orders is available from WO CDT on request.

e. Upon arrival the CDT Team will need to train the assisting personnel, a procedure which takes approximately 30-45 minutes. Thereafter testing can begin. Assuming the host unit is supportive, CDT Team can test a full DD/FF ship’s company, or approximately 250 personnel in a shore establishment in approximately 4-5 hours. The CDT team and assisting Collection Assistants, Monitors and Computer Operators do not stop for lunch – as such units are required to provide packed meals for those concerned as agreed with Navy Command Logistics. The CDT Team will provide more details in advance.

f. The number of personnel tested during any visit and particularly when the visit involves an overseas unit or a major shore establishment/capital ship, will be a variable percentage of the Ship’s Company as directed by the CDT Team; this will range from a full 100% test to a relatively small ‘Dip Test’ of just 10-20 personnel. However personnel selected to provide samples will be taken from across all ranks/rates. Details will be agreed with unit Command/Executive Staff/RSMs at the time of the test.

g. Establishment and base port accommodation areas will be included within this revised practice. In which case, the CDT Team will liaise with local establishment and Royal Navy Police staff in advance to make the necessary arrangements.

h. The CDT Team is empowered by the AFA and exercise testing as part of the MoD’s ‘deterrence’ policy associated with random testing. Therefore they are not able and will not ‘target’ individuals or groups, unless this has been specifically requested as highlighted above at sub para c. They will determine the numbers or percentage of personnel to be tested; thereafter it is for unit HR staff to select the specific individuals. The only exception is those who have previously been placed on the Individual Re-Test List, and these persons will be identified by the lead member of the CDT team.
2. Reporting or Suspicions of Alleged Drugs Offences

The most important link in ensuring early initial reports is Leading Hands (LH/Cpls), particularly Leading Hands of Messes (LHOM). All LHs are briefed to be on the lookout for and to report immediately any suspicions they may have of substance misuse. It is particularly important that such suspicions are not discussed in the messdeck. To do so will alert the suspect and could lead to evidence being destroyed. While LHs and the LHOM may be the first to become aware of a possible drug problem, everyone in the RN has a duty to report suspected substance misuse. Failure to report suspected drug offenders or evidence of drug abuse is a serious Service offence.

3. Positive CDT Results

a. Army and RAF Personnel. When Army or RAF personnel serving in a RN or RM unit provide a positive result following a CDT Test, liaison between local Command and the relevant Service Policy desk Officer must occur before the individual is informed. NAVY PERS-EXEC FXO (Tel 93832 8699 or 02392 62 8699) or NAVY PERS-CDT WO1 (Tel 07876 476937) are to be contacted to facilitate this liaison.

b. Process. Those testing positive will usually be discharged from the Service. Personnel will be informed of the test result by their CO and advised of their right to make a representation against discharge. Additionally they will be given 48 hours to decide if they wish to make a statement following interview, and if they do, they should be assisted by an assigned Assisting Officer if they require it. Within their statement, it is vital that they declare whether they are accepting or contesting the case (ie. the result of the positive test) they should be informed of the option to have the B-Sample of the urine specimen tested at an independent laboratory at their own expense. It is essential that the process laid out in JSP 835 is followed correctly. Should a B-Sample return as negative, the individual is reimbursed and the case immediately collapses.

c. The individual has no right to demand a hair sample for testing. This procedure is an option for Commanding Officers only, and is an aid to assess prolonged drug usage rather than to provide evidence of a particular incident in question. Similarly, DNA testing is not conducted by the MOD. When an individual signs the CDT paperwork at the time of testing, they are declaring their acceptance of the current procedure. If, having received a positive test result and subsequently a further positive B-Sample, no further toxicology options are open to the individual (outside the CO’s decision to obtain a hair sample as highlighted above).

d. Decision. The emphasis is placed upon the Commanding Officer to determine if, on balance of probabilities, the individual knowingly, recklessly or intentionally consumed an illegal substance; in sum ‘are they at fault or not?’ Fleet XO and Navy Casework are available to be consulted at every step of the CDT process and early liaison is encouraged.

(1) ‘Knowingly’ and ‘Intentionally’ can be taken to include an individual who, under the influence of alcohol, elects to try or experiment with a drug that is offered to them, or which they chose to obtain regardless of whether they would have done so when sober.
(2) An individual will have been ‘Reckless’ when they know or should have been reasonably expected to know that there is a real risk that their conduct would lead to a positive test but did not take steps to prevent it; an example would be the use of body and performance enhancing supplements not listed on ‘Informed Sport’, or alternatively leaving drinks unattended or ‘mine sweeping’ in a pub where they knew illegal substances were in use. Additionally, cases of extreme intoxication in which the individual declares they have no memory of events during a night(s) in question will quickly draw a deciding officer to the conclusion of recklessness.

e. **Medical Prescription.** Some CDT positive results will be caused by a legitimate prescription of medical drugs. In such cases the CO should call for a statement from the medical officer (following the individual’s consent; it is appreciated that it is contrary to logic that an individual would not provide consent if they were stood accused of a positive result) detailing the drugs prescribed and the dosage dictated. In such cases, it is prudent to call for a Toxicology Report (via contact with FXO) in order to verify that the prescribed drugs would have accounted for the positive result (it is not always the case) and thereafter the paperwork can be forwarded to NAVY LEGAL-CASEWORK, with a recommendation that the case be closed with no further action required under the provisions of Para 3.e sub para (1) below (Satisfactory Explanation).

f. **Potential for Retention.** Following the removal of ‘Exceptional Retention’, there is now only one scenario in which an individual might be retained within the Service following a positive CDT result:.

(1) **Satisfactory Explanation.** Individuals have provided a statement that satisfactorily explains the presence of a drug in their system. This might be a medical report confirming a valid medical prescription, or a confession to police by a third party that they deliberately ‘spiked’ an individual, or some other form of ‘spiking’.

(2) In cases of an inadvertent or accidental ingestion such as spiking the CO will need to establish that ‘on balance of probabilities’ all of the following criteria are met:

(a) The allegation cannot be refuted on scientific grounds.

(b) It is supported by independent evidence, including circumstantial evidence (eg. if subsequent investigation reveals that drink ‘spikers’ are known to operate in a particular pub/club and/or supported by CCTV).

(c) The CO accepts the explanation as completely valid.

(d) The drug is a Class B or C only, ie. retention will not be considered for a CDT positive result involving a Class A.
(3) As already stated, a positive test result will almost invariably lead to Discharge SNLR for ratings or Misconduct for Officers. For some, especially those who claim 'spiking' and are adamant of their innocence, DOs are to ensure that appropriate pastoral support is given as necessary (DCMH, Chaplains, RNRMW etc.) and individuals should be informed of their right to make a Service Complaint.

(a) **Sub Cut-off.** An individual's sample may return as sub cut-off. This indicates that drugs have been detected in an individual’s system that are below the threshold of a positive result. A result of this kind will not be treated as a positive result unless the following applies:

(b) **Second sub Cut-off.** If an individual who has previously tested sub cut-off produces a second sub cut-off within five years of the first, then the second result is to be investigated in accordance with the procedure for a positive result and a recommendation is to be made for discharge.
APPENDIX 1 TO ANNEX 21K

IN Voluntary Drug USE (SPIKING)

1. Legal Considerations
   The spiking of drinks is unlawful and must be reported to the Service Police as soon as reasonably practicable. The Service Police will be able to investigate the establishment where the alleged incident took place and gain additional evidence which may corroborate the allegation.

2. Education. (See also BRd 9600 Art 0310-0313 Ship General Orders)
   There have been incidents of Service personnel suspecting that their drink has been spiked whilst they were ashore. This can be a very worrying situation, given the penalties for drug related offences. Action to be taken in the event of suspected spiking is to be discussed in Divisional/Regimental meetings:
   
a. The Service will generally consider that the individual has been careless and ‘reckless’ in failing to take adequate care of their own safety and allowing themselves to be placed in a situation of danger under excessive influence of alcohol. Reinforcing this message should be an essential part of the education campaign.
   
b. Never leave your drink unattended – if you need to go to the heads then get a trusted ‘oppo’ to look after it for you.
   
c. Always try and watch where your drink is being poured from.
   
d. A person who suspects being spiked whilst ashore should immediately cease their ‘run ashore’ and return onboard. Failure to report such a suspicion will greatly increase the likelihood of discharge if a subsequent positive drugs test is received.
   
e. The Duty Officer and Senior Rate/SNCO, MO and local Service Police are to be informed and the suspicion recorded in the Daily Occurrence Book or equivalent.
   
f. The individual should be given a medical examination.
   
g. The DO/Tp Cdr should be informed and start keeping a record.
   
h. At the earliest practical opportunity the individual should be interviewed by the Service Police.
   
i. If deemed appropriate, the remainder of the Ship’s Company/unit personnel should be informed to be wary for the possibility of spiking and if necessary be banned from dubious establishments.
   
j. The CO and XO should be informed at the first convenient opportunity.
3. Having tested positive and facing the likelihood of imminent Discharge SNLR, individuals frequently present stories of being spiked but without having undertaken the correct initial actions. Without credible detail of who, when, where and how, and good reason given for failure to report the suspicion immediately, these stories merit little consideration.

4. In considering a CDT positive result, and before initiating any administrative action, the CO has to determine, on the balance of probability, whether the individual has a legitimate reason for the positive test result (eg. properly prescribed drugs), or whether they have knowingly, willingly or recklessly consumed controlled drugs and are therefore culpable. The onus is on the individual to provide robust evidence that this presumption of culpability should not hold. However, when he or she has reported suspicions of spiking immediately after the event rather than only once prompted by CDT, the explanation will carry much more credibility. COs are required to conduct a reasonable investigation where an individual puts forward an explanation for a positive result. What is reasonable will depend on the circumstances and legal advice should be sought where required.

5. **Effects of Alcohol**

Some personnel who offer ‘spiking’ as the reason for a positive CDT result (but have not previously mentioned it) will often cite that they were too drunk to realise their drink was being spiked or that they frequently left their drink unattended, or that they were ‘mine sweeping’. In all these cases the CO must determine on the ‘balance of probabilities’ whether the spiking claim is true or not. A genuine case of spiking is capable of being a ‘satisfactory explanation’ for the presence of a drug. However there must be sufficient evidence to show on the ‘balance of probabilities’ that this is what occurred (see Annex 21I para 3.e sub para (1)). Clinical tests have shown that when drinks have been spiked with illegal substances there is often a variety of physical and chemical changes which are evident. Discolouration, altering taste and smell are all possibilities. Failure to notice these or any similar alterations following excessive drinking (eg. the anaesthetic effect to the tongue and throat which occurs as a result of orally ingesting cocaine) will add weight to the Command’s assessment that an individual has been reckless.
ANNEX 21L

STRESS

1. The MOD Health and Safety Handbook states the following:

   Stress affects people in different ways at different times and is often the result of a combination of factors in their personal and working lives. Work related stress arises where the combination of pressure from work load, working practices, work relationships, etc exceed the person's capacity and capability to cope, resulting in adverse physical and/or mental reactions.

2. Service in a deployable fighting force brings with it inevitable pressures, such as separation from family and friends, and periods of intense, sometimes dangerous, activity. Whilst these pressures do not inevitably cause stress and many personnel cope with extraordinary demands without suffering ill effects, anyone can begin to suffer from stress at any time. The potential catalysts range from extreme trauma to mismanagement over a long period of time. Mundane, chronic catalysts, such as domestic difficulties, excessive work demands and lack of support are the more common causes.

3. It is too easy for hardened line managers in the Service to take a dismissive attitude to stress. Although it is true that a moderate level of pressure, even stress, can be beneficial to performance and motivation, in extreme cases its effects on health are medically measurable, and its effects on behaviour and performance are an administrative concern. Symptoms may include frequent minor health problems, leave-breaking, poor time-keeping, impaired performance, lowered personal standards, and irritability.

4. DOs must be aware of the possibility of stress as a cause of problems in both themselves and their division. In particular they should be aware that many of the major causes of stress in the Royal Navy come from inter-personal relations: eg. conflicting demands from line management, or lack of support from seniors or peers. In some cases, DOs must be prepared to examine their own style and recognise that they or other line managers may be causing or exacerbating stress if not providing a clear and supportive line of command. Alternatively, individuals are frequently enabled to come through periods of stress, improve their performance and cope with very high levels of pressure without suffering stress with the support that they receive from good DOs. The ability to cope is may change and can be strengthened or undermined by how people are treated. Above all, making personnel feel valued and able to approach their line managers is essential.

5. When suffered for prolonged periods, stress can cause illness, but it is recognisable and can be treated. Sufferers may perceive succumbing to stress as a weakness, however, and may be unwilling to seek advice or attend treatment. The DO must make the time to listen to the fears and concerns of their Divisions/Troops and, where possible, help them find solutions which are appropriate to their needs. Stress relieving strategies that can be discussed are covered by the mnemonic ASPIRES, which is decoded as follows:

---

1 JSP 375 Management of Health and Safety in Defence Pt 2 Vol 1 (V1.0 Dec 14) Para 17.1.5.
Assertiveness – know when to say ‘no’ and do not take on too much;

Self-Talk – assess the situation constructively and objectively;

Prioritising – manage time and delegate effectively;

Identifying sources of stress – act on them;

Relaxation – look after yourself and keep a balance of work and leisure;

Energy renewal techniques – eg. physical activity; and

Support – communicate problems, talk to friends; seek help.

6. Where the DO seems unable to assist in resolving the problem, the individual should be made aware that professional support and help is available from a wide variety of sources, including RNRMW, the Confidential Support Line, Chaplains, Medical Officers and Medical Branch ratings. Further guidance can be found in Chapter 24 (Welfare) and Chapter 34 (Operational Stress Management).

7. The maintenance of a properly operating Divisional and Regimental System, where individuals readily seek advice and discuss their problems, should be the aim of all DOs and DSR/SNCOs. In getting to know their people, DOs should build up a reasonable picture of what to expect from each individual in terms of manner and performance. Knowledge of individual’s normal demeanour will assist DO’s in identifying differences in performance, attitude and behaviour that may be the result of stress.
ANNEX 21M

WILLS

1. Commanding Officers have a responsibility to ensure that personnel are both encouraged to make a Will and provided with the opportunity to do so. This responsibility may be devolved to the DO/Tp Cdr to manage within the Division/Tp. The MOD cannot provide advice on the content of a Will which, if required, should be sought from a solicitor or other specialist adviser.

2. The recommended methods available to Service personnel for making a Will are as follows:
   a. Drawing up a Will using expert advice.
   b. Using a MOD Will Form (MOD Form 106).
   c. Writing a simple Will on a sheet of paper.
   d. Using one of the printed forms which can be purchased.
   e. In exceptional circumstances an informal Will can be made.

   Completed Wills - either MOD Form 106s or privately created - can be stored free of charge at the Defence Handling Centre (DHC) Glasgow; further details may be found in the references below.

3. There is a Service requirement for the status and whereabouts of a Service Person’s Will to be recorded on JPA, or the fact that the Service Person (SP) has chosen not to make a Will or declare their intentions to the Service. Units are able to interrogate JPA to confirm those personnel who have a Will held at the DHC and those who have indicated to UPOs/HR Admin that they have a Will held under private arrangements. Units can also interrogate JPA to identify cases where Wills have been sent to the DHC but where receipt has not been entered onto JPA.

4. It is important that Wills are updated immediately to reflect any changes to personal circumstances (eg. marriage, civil partnership, divorce, change of partner, births, or death of a named beneficiary). It is also important to update JPA quickly to reflect this so as to ensure that the correct Will is issued to the family/Executor.

5. Units are to ensure that personnel are made aware of the importance of both making a Will and updating it promptly if circumstances change. Whilst these are both personal responsibilities, units should programme time to facilitate this activity and ensure that MOD Form 106s and other relevant stationery are readily available. Operational Mounting Instructions will reiterate this requirement which is an essential part of pre-deployment preparations.

---

1 QRRN Ch 55 J Section I Para J5501 and 2014DIN01-174.
ANNEX 21N

SOCIAL MEDIA

1. Introduction

a. Figures produced by the Office of National Statistics show that, over the last decade, over half the population were using social media regularly in 2012 and half again were using it on a daily basis, with the 16-24 age group being the most prolific users. Whilst social media undoubtedly has its benefits, it has also brought challenges for the MOD and Armed Forces in areas of security, discipline and reputation.

b. This Annex is intended to provide advice and guidance for Service personnel on their use of social media, and for Command teams in dealing with the consequences (intended or otherwise) of communications on social media. It comprises 4 strands of policy, that should be read in conjunction with the references listed below1, which address the following aspects of social media:

   (1) Ethos and Values.

   (2) Operational and personal security.

   (3) Administrative action for inappropriate use of Social Media.

   (4) Disciplinary and legal cases including ‘cyber bullying’.

2. Ethos and Core Values

a. Naval Service Ethos and Core Values (our C2DRIL and the Cdo Fighting Spirit) establish that the success of the Service is founded upon certain qualities which include: Standards, Teamwork, Discipline, Integrity and Respect for Others. All of these are undermined by ill-considered communications; posts such as ‘Sleepy Sailor’, ‘Rate a Wren’ and ‘Royal Navy Marine Engineer’ damage the reputation of the Service and erode the dignity of the individuals involved. Additionally, when photos of individuals are posted without the subject’s permission, it certainly can place personal security at risk. PSyA has been requested to intervene with social networking providers to protect individual security, and individuals have had to submit complaints to social network sites to have pages closed down.

---

b. Naval Service Ethos and Core Values apply to us at all times, on and off duty, and are the ‘DNA’ that set us aside from the civilian community. Communications on social media should be regarded as being similar to conversing face to face. Individuals should be reminded that the Service has credible and effective mechanisms for dealing with grievances, both through the Divisional and the Service Complaints systems; also it is worth noting that civilian companies will dismiss individuals who tarnish the company’s name or reputation. Airing grievances on social media, or passing derogatory comment on an individual or group, unequivocally demonstrates a lack of respect for others, moral courage, integrity, self-discipline, commitment, trust in the team and personal standards – in short it fails the Service Test and it has no place in the Naval Service.

3. Operational and Personal Security

a. There are numerous instances on record of RN and RM personnel putting Operational Security (OPSEC), Personal Security (PERSEC) and RN/RM Reputation at risk. All units and Naval Service personnel are at continual risk from traditional enemies, terrorist organisations, subversive groups and deranged individuals, both at home and abroad. All information posted online is effectively in the public domain and can be used to build intelligence on a particular group or individual – this may be a State intelligence organisation or a private citizen indulging in ‘hacking’. Unit programmes are inherently at risk from individuals posting seemingly harmless comments. Using social media to report or comment on dates, places or circumstances can have severe consequences for a unit, including radical alteration of a unit’s programme if compromised to the detriment of unit or personnel security – invariably this will be inconvenient to the personnel involved.

b. The MOD continuously reviews its Information Security programme. This will routinely include direction to Commands to apply sanctions more robustly and consistently in the wake of (information) security breaches. Underpinning this work is a ‘Table of Sanctions’ which will give MOD-endorsed guidance on appropriate disciplinary or administrative sanctions following breaches of security in the social media domain. All Naval Service personnel are responsible for collective and individual security and RN/RM reputation. All personnel ranked Leading Hand/Corporal or above are duty bound to maintain good order and discipline at all times and thus are all duty bound to report inappropriate use of social networking sites. The First Sea Lord has declared that RN Reputation is one of his two key priorities and that ‘maintaining reputation’ is a ‘business output’ of NCHQ.

4. Administrative Action

Some communications via social media may be considered inappropriate in Service eyes but not severe enough to merit Service Police investigation or disciplinary action. Commands may, however, consider that the Service Test (below) has been breached such that administrative action is required to safeguard and restore operational effectiveness and efficiency. Such administrative action should treat communications via social media in the same way as any other social interaction when applying the Service Test.
a. **Code of Social Conduct.** The following extracts from JSP 887 are pertinent when considering abuse of social media:

(1) **Para 2.** “…the overriding operational imperative to sustain team cohesion and to maintain trust and loyalty between commanders and those they command imposes a need for standards of social behaviour that are more demanding than those required by society at large. Such demands are equally necessary during peacetime and on operations. Examples of behaviour that can undermine such trust and cohesion, and therefore damage the morale or discipline of a unit (and hence its operational effectiveness) include:

   (a) Unwelcome sexual attention in the form of physical or verbal conduct…

   (b) Misuse of rank and taking advantage of subordinates;

   (c) Probing into a person’s private life and relationships.

(2) It is important to acknowledge that, in the tightly knit military community, there is a need for mutual respect and a requirement to avoid conduct which offends or causes distress to others. Each case will be judged on an individual basis.”

(3) **Para 3.** “It is not practicable to list every type of conduct that may constitute social misbehaviour. The seriousness with which misconduct will be regarded will depend on the individual circumstances and the potential for adversely affecting operational effectiveness and team cohesion…”

(4) **Para 4.** “Unacceptable social conduct requires prompt and positive action to prevent damage. Timely advice and informal action can often prevent a situation developing to the point where it could:

   (a) Impact adversely on third parties; and/or

   (b) Impair the effectiveness of a Service individual or unit;

   (c) Result in damage to corporate image or reputation.”

(5) **Para 5 - The Service Test.** “When considering possible cases of social misconduct, and in determining whether the Service has a duty to intervene in the personal lives of its personnel, Commanding Officers at every level must consider each case against the following Service Test:

   (a) "Have the actions or behaviour of an individual adversely impacted or are they likely to impact on the efficiency or operational effectiveness of the Service?"

   (b) This Service Test lies at the heart of the Armed Forces’ Code of Social Conduct; it is equally applicable to all forms of conduct, including behaviour while not on duty.”
Para 7. “We place additional responsibilities on every one of our leaders and managers, whether uniformed or civilian, at every level to set an example through their actions, behaviour and language of respecting and valuing the diversity of others in every aspect of life.”

b. NCHQ Interpretation of the Service Test. Misuse of social media would certainly impact upon the efficiency or operational effectiveness of an individual’s unit if, as a result, he/she succumbed or inadvertently contributed to a terrorist threat (or similar). Likewise, any tarnishing of reputation on social media fails the Service Test by having impacted on the efficiency of the Service.

c. Minor Administrative Action. Minor Administrative Action (MAA) will normally be the most appropriate means for dealing with inappropriate use of social media (but see sub para d below). When considering MAA, COs should remember that the assessment is to be made ‘on the balance of probabilities’ and not the more demanding criteria of ‘beyond reasonable doubt’ required for disciplinary action. MAA investigations need not be protracted and can be conducted by unit staff. For example, a print out of a screen-shot is likely to be admissible as evidence of a communication via social media for such administrative action. MAA would be predicated upon behaviour contravening the Code of Social Conduct or undermining Service Ethos.

d. Divisional Warnings. Even where MAA may be deemed inappropriate, Commands still retain the Divisional System at their disposal and may place individuals on professional warnings for conduct which fails to uphold Service Ethos and Values, or conduct unbecoming and unacceptable of a particular rank or rate.

e. Education and Orders. Service personnel should be made aware that communications made via social media may - for administrative action or divisional warning purposes - be treated as if they had been made in person or by any other form of communication. The following policy statements (which can be tailored as required) should be published on Daily/Unit Orders or equivalent, should be repeated at regular intervals (recommended to be 6-monthly), and should form part of the Unit Security and D&I training programmes.

(1) Values and Standards. Service personnel are expected to adhere to the same high standards of conduct and behaviour online as they would in any other aspect of their professional or personal lives.

(2) Individuals are responsible for what they post on social media. When an individual posts a comment on social media, that individual is responsible for the content of that comment. If an individual passes on communications initially posted by another person then they are republishing them and become responsible for the content as well. Clicking ‘Like’ (or equivalent accepting action) to another person’s post or comment attaches an individual’s name to that post and implies that individual’s support for its content.
(3) Talking on social media is the same as speaking face-to-face. Expectations of behaviour when communicating via social media are no different from expectations of behaviour when dealing with other methods of communication, such as face-to-face or on the telephone.

(4) **Offensive Material.** Disciplinary, administrative or divisional warning action may be taken against Service personnel who post or republish offensive, indecent, obscene, false, abusive, racist or discriminatory images or literature on social media.

(5) **Respect for Others.** Service personnel should never use social media to bully, attack or abuse colleagues, or to create a hostile or intimidating environment at work. Information about third parties (for example, pictures of someone from a social event) should not be posted without first obtaining their permission.

(6) **Security – Personal.** Individuals are to be aware of the dangers to themselves and others in sharing information online. Control must always be maintained over personal information and operational security.

(7) **Security – MOD.** Individuals are required to seek authorisation before publishing any information relating to their work which: reflects on wider Defence and Armed Forces activity; attempts to speak, or which could be interpreted as speaking on behalf of the Service or the MOD; or relates to classified, operational, controversial or political matters.

(8) **Advice.** If individuals are at all unsure, they should always seek advice via the Chain of Command prior to, rather than after, taking action that may cause offence or compromise personal or unit security.

5. **Legal And Disciplinary Matters**

   a. **Criminal Offences.** Under Section 1 of the Malicious Communications Act 1988, it is a criminal offence to send an electronic communication which is indecent, grossly offensive, threatening or false with the intention of causing distress or anxiety to the recipient. It is also a criminal offence under Section 127 Communications Act 2003 to send a message via a public electronic communications network which is grossly offensive or of an indecent, obscene or menacing character. Such provisions have been used in a number of social media prosecutions. For example, a man was sentenced to 12 weeks’ imprisonment for posting offensive ‘jokes’ and sexually explicit comments about a missing girl; another was given 240 hours community service for posting a message on Facebook about the deaths of 6 British soldiers which said: ‘All soldiers should die and go to hell’.
b. **Other Offences.** There are other offences which can be committed via social media. For example, posts involving a threat of violence may constitute an assault or a public order offence; posts targeting a particular individual may constitute a course of harassment under the Protection from Harassment Act 1997; naming the victim of a sexual crime is illegal under the Sexual Offences (Amendment) Act 1992; and the deliberate publication of information in breach of a court order may amount to a contempt of court.

c. **Legal Policy.** If a Commanding Officer becomes aware of an allegation that a communication has been sent via social media which may amount to a criminal conduct offence, they should make an initial assessment of the content of the communication, consulting Legal Advisors as part of this process. If the assessment is that a communication falls into one or more of the categories described below, then it must be reported to the Service Police as soon as reasonably practicable. This is for two reasons: first, in view of the complexities in obtaining and securing evidence that is admissible to the standard required in criminal law, a Service Police investigation (or civil police investigation if the matter is passed to them) is likely to be more appropriate than a unit investigation; and, second, the Service Police are the most appropriate body to apply the CPS Guidelines and decide whether to direct trial or otherwise to the independent Director of Service Prosecutions. Activities which typically merit investigation by Service Police include the following:

1. Communications which may constitute credible threats of violence to a person or damage to property.

2. Communications which specifically target an individual or individuals and which may constitute harassment or stalking within the meaning of the Protection from Harassment Act 1997 (noting that an allegation or circumstances which indicate an offence under Section 4 of that act has been committed by a person subject to Service law will be Prescribed Circumstances). This provision is proscribed in Section 114 of the Armed Forces Act 2006 and The Armed Forces (Part 5 of the Armed Forces Act 2006) Regulations 2009, Regulation 3.

3. Communications which may amount to a breach of a Court Order. This could include offences under the Contempt of Court Act 1981 or Section 5 of the Sexual Offences (Amendment) Act 1992, breaches of a restraining order or breaches of bail.

d. Communications which do not fall into any of the above categories, but which may be considered to be grossly offensive, indecent, obscene or false (ie. more than (in legal terms): “Satirical, or iconoclastic, or rude comment, the expression of unpopular or unfashionable opinion about serious or trivial matters, banter or humour, even if distasteful to some or painful to those subjected to it”) should be discussed with appropriate Legal Advisor with a view to subsequent Service Police involvement.

e. Where the Commanding Officer’s assessment is that a communication does not fall into one of the categories in sub para c above, but nevertheless represents a Service Offence (for instance, where there is a rank difference between sender and recipient), they may continue to refer the case to the Service Police for investigation.
f. **Legal Advice.** Whenever a Commanding Officer is considering whether to invoke a Unit or Service Police investigation in a case involving communications via social media, they should seek legal advice.

g. **Summary.** The right of individuals to make use of social media is completely respected as an individual choice and freedom. However, abuse of social media which threatens the Naval Service Ethos and Core Values, personal and/or operational security or the good name and reputation of the Naval Service is completely unacceptable and will not be tolerated.
ANNEX 21O

FRAUD AND IRREGULARITY

1. The law against fraud and irregularity is shaped by 2 key pieces of legislation, the Fraud Act 2006 and the Bribery Act 2010.

   a. The Fraud Act 2006. The Fraud Act 2006 created an offence of possession and making or supplying articles for the use of or connection with fraud and provides a statutory definition of the criminal offence of fraud, which is committed in three ways:

      (1) Section 2 - Fraud by False Representation.

      (2) Section 3 - Fraud by failing to disclose information.

      (3) Section 4 - Fraud by abuse of a position of trust.

      (4) It is no longer necessary to prove that the victim was deceived, but simply that the fraudster was dishonest by the standards of ordinary honest people and intended to cause loss to another or gain for themselves.

   b. The Bribery Act 2010. The Bribery Act 2010 consolidates previous anti-corruption legislation and consists of four main offences:

      (1) Offering, promising or giving a bribe in order to gain an advantage.

      (2) Requesting, agreeing to receive or accepting a bribe.

      (3) Bribing a foreign public official.

      (4) Failure of a commercial organisation to prevent a bribe being paid or obtain or retain business or a business advantage.

   c. Fraud and Irregularity have no place in the Naval Service. DOs/Tp Cdrs are to ensure that their Divisions/Troops are aware of the Service’s zero tolerance to fraudulent activity and irregularity. They are also to ensure that the Tri Service Hotline and online reporting website are known about, as follows:

      (1) Fraud Incident and Irregularity Reporting Unit (FIIRU) Hotline – 0800 161 3665.

      (2) Online Reporting – https://knowledge.chris.r.mil.uk/contact/fraud/index.php.

      (3) Email – HOCSFD-FIIRUMailbox@mod.uk.

      (4) Postal Service – Fraud Incident and Irregularity Reporting Unit, Room 209, Building 1071, MDP HQ Wethersfield, Braintree, Essex, CM7 4AZ.
2. Wrongdoing in the workplace is also taken seriously by the MOD. Individuals who witness wasteful or inefficient practices are encouraged to report them to line managers, or through the chain of command, or to make use of the MoD's suggestion scheme - GEMS\(^1\). If individuals are unable or unwilling to use these channels, they can report concerns to the MOD's Waste Hotline – contact details for which are as for the FIIRU as above.

\(^1\) GEMS is the Defence-wide staff suggestion scheme that recognises and rewards implemented ideas which benefit the MOD, not just for savings but improvements across the Department.
ANNEX 21P

THE CALDICOTT PRINCIPLES

1. The Caldicott Principles comprise 7 principles subsumed into the NHS confidentiality code of practice. They are intended to protect the personal medical information of individuals and govern how such information can and cannot be used. This is relevant to DOs and all others in the chain of command who may on occasion be exposed to an individual’s personal medical situation eg. circumstances causing a medical downgrading or declaration of pregnancy. DOs are under the same obligations as the medical profession to respect the confidential nature of this information and ensure it is handled correctly.

2. A basic description of the principles is as follows:

   a. **Justify the Purpose(s).** Every single proposed use or transfer of patient identifiable information within or from an organisation should be clearly defined and scrutinised, with continuing uses regularly reviewed, by an appropriate guardian.

   b. **Don't Use Patient Identifiable Information Unless it is Necessary.** Patient identifiable information items should not be included unless it is essential for the specified purpose(s) of that flow. The need for patients to be identified should be considered at each stage of satisfying the purpose(s).

   c. **Use the Minimum Necessary Patient Identifiable Information.** Where use of patient identifiable information is considered to be essential, the inclusion of each individual item of information should be considered and justified so that the minimum amount of identifiable information is transferred or accessible as is necessary for a given function to be carried out.

   d. **Access to Patient Identifiable Information should be on a Strict Need-to-Know Basis.** Only those individuals who need access to patient identifiable information should have access to it, and they should only have access to the information items that they need to see. This may mean introducing access controls or splitting information flows where one information flow is used for several purposes.

   e. **Everyone with Access to Patient Identifiable Information should be Aware of Their Responsibilities.** Action should be taken to ensure that those handling patient identifiable information - both clinical and non-clinical staff - are made fully aware of their responsibilities and obligations to respect patient confidentiality.

   f. **Understand and Comply with the Law.** Every use of patient identifiable information must be lawful. Someone in each organisation handling patient information should be responsible for ensuring that the organisation complies with legal requirements (ie. unit MO or senior Medical Rating).

   g. **The Duty to Share Information can be as Important as the Duty to Protect Patient Confidentiality.** Professionals should, in the patient's interest, share information within this framework. Official policies should support them doing so (hence the need and right on occasion for Chain of Command/DO to be informed).
ANNEX 21Q

DIVISIONAL FINANCIAL COUNSELLING

1. It is of extreme importance that all Naval Service personnel develop a responsible attitude to financial matters from early in their careers. (DOs/Tp Cdrs are not expected to have the financial knowledge acquired by professional training and experience (DOs/Tp Cdrs cannot, by law, provide financial or debt advice), but they should be able to discuss the options and signpost sources available to get that advice, a number of which are listed below. If more detailed guidance is required, it can be obtained via RNRMW (see Chapter 24) or the Logistics/Imprest Officer.

2. Financial counselling is complicated by a number of factors:
   a. DOs/Tp Cdrs have little or no financial training.
   b. Financial problems are invariably unique to the individual concerned.
   c. People with financial problems are usually reluctant to talk about them, or even admit to them.
   d. The DO/Tp Cdr may feel that an individual’s privacy is being invaded.
   e. Agencies outside the Naval Service are invariably involved.

3. **Aim of Financial Counselling**
   It should be remembered that the vast majority of Naval Service personnel handle their financial affairs efficiently. The aims of financial counselling should be:
   a. To maintain the high success rate of personnel managing their financial affairs effectively.
   b. To prevent those facing financial difficulties becoming a debt crisis.
   c. Signposting personnel to professional regulated debt counselling organisations, whilst ensuring that they are fully aware of the Service implications.

4. The Divisional Officer should be able to give basic guidance on the following:
   a. Basic budgeting.
   b. Pay and Allowances.

5. The DO will also be involved whenever someone in their division ‘bounces’ a cheque, is unable to pay their debts or has a maintenance order made against them.
6. A strong indication that a service person is in debt crisis if:
   a. They are struggling to pay all basic outgoings, eg. mortgage, rent, energy bills and credit card minimum payments, and/or
   b. Their debts (excluding their mortgage) exceeds a year’s income after tax.

7. To help the DO there are various charities which are able to provide financial assistance to members of the Naval Service on an individual merit basis (see Chapter 32). Further advice and information is available from the following:
   a. **The Logistics/Imprest Officer.** In any case of debt/financial irresponsibility the Logistics/Imprest Officer should be informed; they will invariably be able to advise the DO/Tp Cdr and the individual on how best to proceed.
   b. **RNRMW.** Debt is not purely a financial issue. It can be a cause or consequence of many external factors such as health, employment, family or housing problems etc. Money worries can break up families, adversely affect confidence, damage morale, cause mental health issues and even lead to suicide. The RNRMW Portal (Tel: 9380 28777) is able to advise confidentially on how best to cope with a debt crisis and also hold information on professional debt counselling organisations and Naval Charities which are able to assist (RNRMW staff are not authorised to provide debt counselling/advice).
   c. **StepChange Debt Charity.** StepChange is the UK’s leading debt charity. Every year, StepChange helps thousands of people overcome their debt problems. Through a telephone debt helpline, and online Debt Remedy tool, StepChange provides free and effective debt advice, and practical solutions, to help those struggling with the stress and worry of problem debt. StepChange can be accessed on Tel: 0800 1381111 or www.stepchange.org.
   d. **National Debtline.** National Debtline is an independent charity, dedicated to providing free debt advice by phone and online to people across the UK. They provide expert debt advisers who are supportive and trained to a high standard. They can be accessed on Tel: 0808 808 4000 or www.nationaldebtline.org.
   e. **SAIL.** SAIL is the only CAB service for seafarers (including the Naval Service) and their families. They provide specialist telephone advice to seafarers, their families and dependants on a wide range of issues including:
      (1) Benefits.
      (2) Charity grants.
      (3) Debt.
      (4) Employment.
(5) Housing.

(6) Pensions.

SAIL can be accessed on Tel: 0800 160 1842 or http://sailine.org.uk/.

f. **The Consumer Financial Education Body (CFEB).** The CFEB was established as a result of The Financial Services Act 1997. The CFEB is an independent body which provides and delivers financial briefings on request, its primary remit being to enhance the public’s understanding and knowledge of financial matters and to improve individual’s ability to manage their financial affairs. For personal advice, the CFEB’s services may be enlisted via its website www.cfebuk.org.uk

g. **The White Ensign Association.** The White Ensign Association is a charitable organisation, officially recognised by the Admiralty Board, which provides an impartial advisory service on financial matters to serving and retired officers and ratings. It offers one-to-one guidance and referrals in all matters of personal finance, second careers, business start-up, personal administration and any general welfare issue. Requests for advice should be made either in writing to the Secretary of the Association, The White Ensign Association, HMS BELFAST, Tooley St, LONDON SE1 2JH Tel: 0207 407 8658/Main Building 81945 or email office@whiteensign.co.uk. Full information is available at www.whiteensign.co.uk.

h. **Divisional Meetings.** DOs/Tp Cdrs should consider introducing financial affairs as a topic for discussion at Divisional Meetings. Warnings about the dangers of payday loans, ‘loan sharks’, door-to-door insurance sales, easy credit and HP agreements and the safe use of Credit Cards and Cash Point machines should be emphasised.

8. **Financial Irresponsibility**

a. Although an individual’s financial affairs are their own responsibility (BR 2 (QRRN) Article 3616), BR 2 allows a concerned interest to be shown by Divisional Officers. At the initial joining interview, DOs/Tp Cdrs should attempt to establish whether an individual is in debt crisis (see para 6) or struggling to service their debts and, if so, the total debt sum involved and monthly repayment rate. When, on this or any other occasion, an individual's debts give cause for concern, the DO/Tp Cdr will find it useful to encourage them to prepare a list of commitments, using the proforma at Appendix 1 as a guide. When total debts, plus mortgage, etc. approach or exceed 50% of the individual’s income, they should strongly be advised not to incur further loans or hire purchase commitments. DOs/Tp Cdrs should report serious financial problems to Navy PSyA before they get out of control or raise security issues. If an individual has recurring financial difficulties or demonstrates financial irresponsibility then these facts should be recorded on the Appraisal Report, together with recording their attitude to the debt and response to support offered.
b. Experience has shown that, through fear, shame, denial or ignorance, the worst debt offenders do not disclose the full extent of their borrowing. The genuinely financially irresponsible individual is a rare phenomenon; the more usual case is that they have only considered the sum of the monthly payments, not the total outstanding or the amount they are paying in interest. The first indication of a problem arising is often the arrival of a letter from a creditor stating an individual is in arrears with loan repayments. This method of chasing debtors is prescribed by the Consumer Credit Act 1974 and a letter should be sent to the creditor as set out in Appendix 2 (BRd 2 Article 3615 refers). Other indicators include the following:

(1) **Bounced Cheques.** The Ships Office will inform DOs when one of their Division bounces a cheque on the Public Account.

(2) Withdrawal of banking facilities.

(3) Major purchases, e.g. new car, by someone with suspected financial problems.

(4) Requests for Emergency Payments/Advances of Pay without good cause.

(5) Regular borrowing of cash from peers.

c. Should an individual demonstrate an irresponsible or dishonest attitude to personal debts, a warning should be given by the Executive Officer or Commanding Officer that, in accordance with Chapter 55, should the individual fail to put their finances in order, application will be made for their Discharge SHORE. In accordance with BR 2 (QRRN) Article 3615, any such warning must be recorded on their SJAR to provide evidence to support discharge should this course subsequently become necessary. At this stage, the individual should be urged to seek help from a Professional Debt Adviser.

d. In cases of persistent cheque bouncing or where dishonest intent can be proved, disciplinary action should be taken and early warning for Discharge SHORE given in order that the individual is fully aware of the Service implications if their attitude towards the financial situation fails to improve.

e. The DO/Tp Cdr’s aim must be to educate their people not to overstretch their resources, be able to recognise the warning signs and report any individual who is suspected of financial irresponsibility. A word of caution and advice at the early stage of a problem may bring an individual back on the path of financial responsibility but, if warning signs are ignored an individual can, by extent of their debts, become a major burden to the DO/Tp Cdr and the Unit’s administrative resource, and will risk discharge as a consequence.
f. Individuals who have been financially irresponsible must be briefed on the Service implications of their circumstances. There is ultimately the possibility of Discharge SHORE either because the individual is a Security risk or they have become an intolerable administrative burden. Failure to resolve financial problems will also affect eligibility for particular assignments (LFS, Small Ships and Retinues) and may result in the individual not being recommended for advancement or promotion. The overriding consideration in such cases is not the debt as such but the individual’s attitude towards clearing it.
### APPENDIX 1 TO ANNEX 21Q

**BREAKDOWN OF MONTHLY FINANCES**

1. **Income**

   - Basic pay for 30 days (inc. Split Pay and SFA rent) £
   - Child Benefit (calendar month) £
   - Partner's earnings £
   - Other (Maintenance, DSS Benefits, etc.) £

   Total monthly income £ (A)

2. **Essential Outgoings**

   - Mortgage or Rent £
   - Endowment assurance on Mortgage (if applicable) £
   - Home Contents Insurance £
   - Council Tax £
   - Gas, Coal, Electricity, Water, etc £
   - Life Insurance £
   - Food and Household requirements £
   - Telephone £
   - Car expenses OR Fares to work £
   - Clothing allowance £
   - School dinners and/or Nursery/Child Minder Fees £
   - TV Licence and Rental £
   - Any Maintenance or Court Orders £
   - Miscellaneous: emergencies, cigarettes, etc. £

   Total essential outgoings £ (B)

3. **Balance remaining for Creditors (A-B)** £ (C)

Credit or Debit Balance (C-E) £ __________ (F)

2. Declaration

I certify that this is a true and accurate statement of my finances as they stand to date.

Signed ............................................................

Rank/Rate .....................................................

Name ..................................................................

Date ..................................................................

Cigarettes and entertainment should be allowed for, or the family may spend the money allocated for something else.

If there is a Debit Balance (F) the services of an Independent Financial Adviser, or one of the agencies listed at Annex 21Q Para 7, should be sought without delay.
APPENDIX 2 TO ANNEX 21Q

RESPONSE TO CREDITORS WHO REQUEST ASSISTANCE FROM COMMANDING OFFICERS IN THE COLLECTION OF DEBTS

Dear Sirs

It is policy that an individual's personal debts remain their own responsibility and I am therefore unable to offer you assistance in recovering the alleged debt owing to you. I am content to forward a letter to [name] on your behalf. The letter should be sealed, marked with the addressee's name, rank/rate and service number and forwarded to this office quoting this letter. Otherwise I am only able to provide the Service address of [name] to a Solicitor acting on your behalf for service of process upon receipt of that Solicitor's written undertaking that the address will be used solely for this purpose and will not be revealed to any third party, including their client.

Yours faithfully

Note. With the individual's agreement, a copy of this letter and the request form from the creditor should be sent to the local Consumer Protection Officer. Information about this type of harassment is regularly passed to the Office of Fair Trading, which monitors the activities of all licensed credit companies.
### ANNEX 21R

**STRUCTURED INTERVIEW FOR CHANGING PERSONAL STATUS CATEGORY FROM 1**

**References:** BRd 3(1) Chapter 21 Section 9 and Para 2419.

You are seeking a change of Personal Status Category. In order for the CO to consider your request, there are a number of questions or points of clarification, which we need to go through. Your responses may indicate that further help or support from other agencies may be appropriate and this will be discussed with you. If you do not wish to consider these questions that is your right but many find this to be a helpful aid.

### Question | Response
--- | ---
**Q8.** If YES: Have you considered the impact of your total separation on them? If YES: What steps have you considered for them?  
**Q9.** Services exist to help parents that intend to separate, with issues relating to the children (eg. Mediation). Are you aware of them or would you like details? (Available via RNRMW/SAFAB/CAB)  
**Q10.** What legal and financial advice have you taken?  
What do you believe are your continuing financial responsibilities for your family?  
What is your knowledge of the CSA, who might take action if necessary?  
**Q11.** Is your spouse/civil partner in SFA or your own accommodation?  
**Q12.** If SFA: The UPO will advise DE of your change of circumstances. Are you aware of the timeframes (93 days) for being an Irregular Occupant and is your spouse/civil partner aware of the implications?  
What plans does he/she have?  
**Q13.** Would you (or your spouse/civil partner) like an appointment to see or talk to RNRMW prior to this final change of your marital category?  
Any other issues not covered above:
ANNEX 21S

ATTENDANCE ON LEADERSHIP COURSE - FLOW CHART FOR DIVISIONAL OFFICERS

Rating acknowledges assignment. DO interviews Rating to determine suitability and preparation for attendance of Leadership Course ensuring Rating is aware of the references contained within the order.

Is the Rating able to attend?

No

Rating reads RNTM, BR3 Ch21 Sect 10 and watched the ‘Ready in all Respects’ video available on YouTube.

DO makes Rating aware of the impact of failing LC.

Yes

Rating to complete Part 1 of their 3-Part documentation.

DO to withdraw Rating from LC via signal to NCHQ (SIC W70), relevant CMC, info RNLA HMS COLLINGWOOD.

Rating referred to MO for LC1 assessment. Fit for LC?

No

Yes

Certificate of Medical Fitness (Part 2), Is Rating a Medical Category of MFD?

DO to withdraw Rating from LC via email to NAVY OP TRG-RNLA HQ, COORDINATOR and relevant CM, NLT 21 days prior to course start date.

60 to 21 days prior to start of LC DO makes the final decision whether Rating is ready in all respects for LC?

No

Yes

Certificate of Readiness (Part 3) – DO confirms Part 1 & 2 are signed by Rating and that they are ‘ready in all respects’. DO signs Part 3 ‘Certificate of Readiness’. CO signs Part 3 giving Rating approval to attend.

Parent Unit prepares travel documentation. Rating’s kit and LRLC lectures prepared, practise lectures conducted and witnessed by DO.

Rating joins RNLA for LC.
ANNEX 21T

THE KOLB LEARNING CYCLE

1. Professor David Kolb’s model of experiential learning\(^1\) describes the stages of an individual’s learning as a cycle. In Kolb’s model, learning happens within the learner, and:
   
   a. is an unending process, not a result.
   
   b. involves re-learning, again and again.
   
   c. requires resolving conflicts of ideas.
   
   d. is adaptation to the world.
   
   e. results from interactions between the person and the environment.
   
   f. is the process of creating knowledge.

2. The learning cycle is outlined in the diagram below:

   ![Kolb Learning Cycle Diagram]

   **Figure 21T-1. KOLB Learning Cycle**

   - Key Skill: Initiating
   - Experience:
   - Key Skill: Imagining
   - ‘Do it’
   - Acting
   - Reflecting
   - ‘Review it’
   - Thinking
   - Key Skill: Analysing

3. To learn, a person must progress around the cycle. To learn deeply, to develop expertise, and to become a proficient and consistent performer, many cycles are necessary.

---

4. **Preferred Learning Styles**
   Individuals tend to prefer one, or sometimes two, of the stages of the cycle and this tends to determine how they approach learning (and often any teaching they do too) – some people like to dive straight in, others prefer to consider and plan first. However, for learning to occur, all stages of the cycle are important; it is therefore worthwhile for individuals to develop and practice all the key skills to improve their capacity to learn.

5. **Helping Others to Learn**
   As learning happens within the learner, the most common pitfall for a well-intentioned person helping someone else to learn is to do too much for them: let the learner learn. It can be difficult and sometimes very frustrating for an expert to watch a novice struggle with something they know how to do with ease. However, the struggle is part of the learning: mistakes can be valuable learning events.

6. **Impatience with a Learner**
   Impatience with a learner makes their learning more difficult as they must deal with both their own difficulties with the knowledge or skill as they progress around the learning cycle, and also the helper's well-meant interference. A learner will usually be concentrating hard so giving a series of instructions will tend to distract or confuse them. Taking over or getting involved in what they are doing can be highly de-motivating so should be avoided unless they are unsafe or are likely to cause intolerable damage. As a guiding principle, do the minimum possible to help the learner notice and figure out where they are going wrong, and change what they are doing to be more effective. It will take patience in the short term but the total time for the learner to become proficient will be less.

7. To really give valuable help, aim to guide, support and, if necessary, challenge the learner so that they progress around the learning cycle: create conditions that support learning and let the learner put in the necessary efforts.

8. When someone is struggling to learn, it is very easy to assume they are not trying hard enough; often (although not always) trying too hard can be the cause of the problem for a learner. There will be a reason behind any prolonged difficulty but appropriate help can only be given if that reason is accurately established: find out. The simplest approach is to ask the learner about what they are doing, and how they are approaching it.

9. **Learning in Naval Service Training**
   Naval Service personnel must be prepared to operate in very challenging, time pressured, often dangerous circumstances. The practical aspects (‘Do it’) of learning within training are therefore often deliberately made very challenging to prepare personnel accordingly. Some ‘reflection-in-action’ (thinking ‘on one’s feet’) is possible in such circumstances. However there is also the need to design in sufficient periods of deliberate ‘reflection-on-action’ so learners can adequately fulfil the ‘Review it’ aspects of the learning cycle necessary for learning to result from the training activities.
ANNEX 21U

FOUNDATION SKILLS AND BEHAVIOURS FOR COACHING

1. Coaching is defined by the Naval Service as:

   “Unlocking a person’s, team’s or organisation’s potential to maximise their own performance”.

Effective coaching causes learning; an essential component of performance improvement.

2. Naval Service personnel are strongly encouraged to seek regular coaching, as well as developing their ability to coach others; receiving coaching allows a broader perspective on coaching to develop, including having direct experience of the subtle yet important factors that determine how well coaching supports learning.

3. Fundamental Principles of Performance Coaching¹

   Performance coaching should always aim to enable learning. In doing so, it must:

   a. Increase learners’ level of awareness about their situation.

   b. Maintain, or increase, learners’ sense of responsibility for their own learning and performance.

4. Foundation Coaching Skills

   a. Four critical foundational skills are necessary for coaching:

       (1) Listening.

       (2) Observing.

       (3) Asking Effective Questions.

       (4) Providing Feedback.

   b. These skills must be consistently put in to practise, as behaviours, for coaching to have beneficial effects. When used frequently they will become deeply integrated into the service person’s character and the leadership approach.

5. Listening

   a. A skilled coach will listen far more than they speak.

   b. Superficial listening, where a listener hears what is being said but has other thoughts and questions in their mind at the same time, is not sufficient for effective coaching.

---

c. Active listening, when the listener is engaged in the conversation and giving non-verbal cues to the speaker that they are paying attention. This is better; however if the coach’s mind is forming questions, suggestions or recalling their own similar experiences then this will detract from the experience for the other person.

d. Deep listening, with the listener fully engaged while putting aside other thoughts, judgements and suggestions. This allows the other person the best environment to think and find solutions for themselves. The listener will have enough time to think about their next turn to speak when the other person has finished speaking; they will usually find that the details in what the other person has said (and what they have not said) which they have noticed as a result of listening deeply will make their own responses relatively easy and natural. Deep listening is a powerful way to quickly build rapport between people.

6. Observing
Observing may be split into two types:

a. Observing others’ performance in action (‘Do it’ phase of the learning cycle):
   (1) Make notes/records as appropriate.
   (2) Focus on facts and details (what happened, when, how).
   (3) Acknowledge that ‘I am not able to observe everything’.

b. Observing others as they reflect, analyse, think and decide after action (‘Review it’ phase of the learning cycle).
   (1) Give enough time and space for the learner to think.
   (2) Watch the learner carefully for any physiological changes or reactions.
   (3) Notice the words and types of language used when the learner speaks.

7. Asking Effective Questions

“A question works because, unlike a statement which requires you to obey, a question requires you to think. The mind seems to prefer to think, not to obey. In true emergencies like fires, shipwrecks and haemorrhages, the human mind obeys happily enough. But in ordinary life the mind wants to think for itself. It resists commands. It responds to questions.” (Nancy Kline²)

a. Structuring Questions

   (1) Ask only one question at a time.
   (2) Begin with the ‘question word’ (ie. What/How/Why/Where/Who…).

21U-2 of 6
February 2020 Version 1
(3) Keep the question as simple and clear as possible.

(4) Give time for the other person to think before they respond.

b. **Sequencing Questions.** The order and sequence of questions matters; using an appropriate order of question words helps to build rapport between coach and learner. The order of questioning can be aligned with the stages of the learning cycle, as shown in the table below.

c. Sample questions use ‘X’ or ‘Y’ for topic information; where the learner has spoken about the topic it is usually most effective to use the same form of words as the learner did.

d. Do not ask a question unless you are willing to give a learner sufficient time to think and to then listen to their answer.

<tr>
<td></td>
<td>How committed to this plan are you? ...what would increase that commitment?</td>
<td>Assessment of their own commitment level. Explanation of how to increase it (if needed).</td>
<td>Opportunity to remove or reduce learner’s own barriers. Increases learner’s responsibility to carry out their plan.</td>
</tr>
<tr>
<td></td>
<td>How will you ensure you carry out your plan?</td>
<td>Explanation of what the learner will do to ensure the plan is carried out.</td>
<td>Clarifies any necessary steps the learner may need to take. Increases learner’s responsibility to carry out their plan.</td>
</tr>
</tbody>
</table>
8. **Providing Feedback**

Feedback may be split into two types:

a. Feedback on others’ performance in action (‘Do it’ phase of the learning cycle):
   
   (1) Make feedback short and precise.
   
   (2) Draw the learner’s attention to the one most important detail of the situation they are in.
   
   (3) Give the learner the chance to react to the feedback before giving any more.

b. Feedback to others as they reflect, analyse, think and decide after action (‘Review it’ phase of the learning cycle).

   Use the Effective Debrief/Feedback model.
ANNEX 21V

COACHING USING THE GROW MODEL

1. Background

GROW is a well known coaching model that has been adopted by the Naval Service in order to empower personnel to achieve their potential. It works by providing a structure to help a coach guide a coachee around the learning cycle and can be used just as effectively with individuals and teams alike; as with any coaching intervention, it relies on the coach asking effective questions and listening, with the coachee doing the majority of the talking. It is a useful tool in any situation where there is a need for development of the coachee, including during training, formal opportunities such as MPAR, and informal opportunities, such as a quick chat as the opportunity arises. GROW is an acronym for Goal, Reality, Options, Will. The example of preparing a rating for Leading Rates Leadership Course is used in the following guide.

2. Grow Model

a. Goal. The aim of this part is to establish what the requirement is. This may be a goal that has been set by the coach or by the coachee(s). It is essential that the goal is SMART:

   (1) Specific. Both parties know exactly what needs to be achieved;

   (2) Measurable. It is clear when it has been achieved;

   (3) Achievable. It has to be achievable or the individual/team can become demoralised¹;

   (4) Relevant. Both to the organisation and for the individual’s development;

   (5) Time-bound. Both parties are clear as to when the goal should be achieved by.

b. Setting the goal may take time; however, it is a worthwhile investment as it clarifies and focuses the intent. Without a clear goal, progress will be very difficult for the coachee. Setting a goal can be done through a series of questions, such as those shown below:

   (1) What do you want to achieve? I want to fully prepare for my forthcoming LRLC, which is in 3 months’ time.

   (2) What do you think you need to do? I need to prepare physically as I will need to pass my RNFT on Day One.

¹ This may require a goal being split into smaller goals to make it achievable. Initially preparing a 7 min presentation is less daunting than preparing both the 7min and 15 min presentations.
(3) How will you go about that? I could start lunch time circuits and I could approach the LPT to ask about a training programme.

c. Ensure there is sufficient reason and motivation by asking questions that will affirm the importance of the goal to the individual:

(1) What will this do for you? I keep to the programme that is provided as I need to pass LRLC for promotion.

(2) What will happen when you have achieved your goal? I will be ready in all respects for promotion.

3. Reality

Reality establishes the current situation, and is necessary because the options will be dependent on where the coachee starts from. Having established the reality, it might be necessary to revisit and modify the goal. The reality is stated mostly by the individual, the coach may also need to point out some facts using questions such as the following:

a. What are you doing that’s helping you at the moment? I have begun to work on my presentations. I have two subjects and I am now preparing the Power Point slides.

b. What are you doing that’s not helping you at the moment? Answering this question takes a lot of trust because it’s difficult for people to admit their faults and failings, but for progress to be made, the truth needs to come out, whatever it is. For LRLC there are possible issues such as fitness, uniform, a lack of confidence in speaking in public and lacking confidence in taking charge of a small team.

4. Options

This part explores all the options to move from the current situation (Reality) to achieve the Goal. The options should come from the individual, however, the coach may have more experience in the area, and therefore may also be able to offer further options. Questions used may include the following:

a. What could you do?

b. What else?

c. Have you thought of X as an option?
5. **Will**

This is where the coachee decides what they will do. It is very important, especially if they decide to take an option suggested by the coach, that they are empowered to choose the option that is the best for them. The following questions can be used to elicit the information:

a. **What are you going to do?**

b. **What will happen if you do this?**

c. **How are you going to stick to this plan?**

d. **What help will you need to achieve it?**

At this point, if it will help, a contract can be signed, or a note made, either formally or informally, as a record of what has been agreed.

6. **Summary**

Coaching with GROW may take longer than employing the traditional ‘tell’ style, however, the marked increase in ownership of the goal by the individual increases motivation and ensures that it is far more likely to result in success, and for such success to be achieved more efficiently than when the ‘tell’ style is employed. This is not, of course, to say that we should not tell people what to do; on the contrary, and especially in a disciplined force such as the Naval Service, obeying orders is a primary requirement. It is, however, the case that telling is not always the most effective way to get the job done.
ANNEX 21W

EFFECTIVE DEBRIEF/FEEDBACK

1. The most effective way to learn is by progressing through the learning cycle. The Naval Service gives personnel experience in real workplaces and also routinely carries out practical exercises which give personnel relevant experience and opportunities to practise skills (‘Do it’). To ensure lessons are learned, an effective debrief should take place at every learning opportunity (‘Review it’). This includes activities in training, and other levels of activity where there is room for improvement eg. conducting an MPAR, organising an event, leading a working party, or producing a piece of project work. This is just as effective for individuals as it is for teams.

2. For the debrief to be effective, the person giving it must always adopt a coaching role, which means allowing the individual (or the team, focussed through a chosen individual), to do the vast majority of the talking. This process may initially take longer than a directive or 'tell' style of debrief, however, once the coach and the coachee are used to it, it can happen very quickly. Even if it does take longer than a 'tell' debrief, the far superior effectiveness makes it is much more efficient overall as people are being given the opportunity to learn.

3. Effective Debrief is achieved by asking the following questions.

   a. **What went well?** Allow sufficient time to reflect, think and analyse and encourage the coachee(s) to take credit for what they did well.

      (1) Acknowledge their successes if you agree with them.

      (2) If you believe they've missed something, prompt with a question such as: **How do you think X went?**

      (3) If you disagree with their judgment of what went well, prompt them to reconsider, with a question such as: **You say X went well, what about when Y happened?**

      (4) **As a last resort**, tell them, however, this is by far the least effective way to learn so should be avoided if it is possible to draw out the answer with effective questions.

   b. **What didn’t go as well as you’d have liked**? Again, allow time to reflect, think and analyse. Allow and encourage the coachee(s) to answer you honestly, as the most valuable lessons can be learned with this question.

      (1) Acknowledge if you agree.

      (2) If you believe they've missed something, prompt with a question such as: **How do you think X went?** This will:

---

1 Do not limit this to the top 3 mistakes! The brain is very powerful and can deal with all the mistakes if given the chance.
(3) Either remind them of another area that didn’t go well, in which case, let them discuss it.

(4) Or be met with a blank look! If this happens, it is likely that they really didn’t know this part of the activity hadn’t gone well, in which case the coach needs to explain what didn’t go well.

c. If you were to do X again, or, better still, Next time you do X, what will you do differently to ensure it goes better? This allows for mental rehearsal to ensure that mistakes are rectified and for decisions to be made about how to act in the future; it is the most important part of the debrief. Ensure the coachee(s) state exactly how they are going to ensure success for every part of the task that was mentioned in the second question.
CHAPTER 22
PERSONNEL FUNCTIONAL STANDARDS

Para
2201. Introduction
2202. Further Information

ANNEX

Annex 22A Personnel Functional Standards
CHAPTER 22
PERSONNEL FUNCTIONAL STANDARDS

2201. Introduction

a. Personnel Functional Standards (PFS) applies to all regular Naval Service personnel and to Reserve Forces according to the level of Service commitment that a Reservist is undertaking.

b. PFS supports 2SL's intent for Naval Service personnel and is a mechanism that contributes to the delivery of sufficient, capable and motivated personnel. This, in turn, underpins the Navy's Strategic Plan and the MOD's Service Personnel Plan.

c. PFS has been developed, not as a contract, but defined essential Terms and Conditions of Service (TaCoS) which the Naval Service is committed to deliver for its personnel within available resources. In such challenging economic and demanding operational times, there may be times when PFS cannot be achieved. However, it is imperative that all units, budget holders and the Chain of Command endeavour to meet the standards set within PFS for our Naval Service personnel who are at the heart of our military capability.

d. In order to assess how the Naval Service is meeting its commitment to its people, honest evidence based feedback is required from units; this will be a 'termly' requirement to align with Divisional Meetings and the timing for Navy Board Holding to Account and MCofOC reporting requirements. This is necessary to establish objective evidence of issues affecting achievement of PFS and assist 2SL in monitoring prevailing Service Conditions and, where unacceptable trends are identified to facilitate management action or influence policy change.

e. PFS and details of the reporting requirement are at Annex 22A.

2202. Further Information

The NCHQ lead for PFS is NAVY NPS EMPLOYMT POL SO1 (93832 5514) assisted by NAVY NPS EMPLOYMT POL CPO (93832 5516). Personnel should consult with PFS Chapter Sponsors (see Annex 22A Contents at Page 22A-6) directly for any specific queries.
1. Introduction

a. PFS supports 2SL’s intent for Naval Service personnel and is a mechanism that contributes to the delivery of sufficient, capable and motivated personnel. Many of the standards contained in this document are well established, embraced by current practice and legislation, and in many cases, incorporated in rules and regulations - where appropriate the regulations are identified and are the authority for individual entitlement or eligibility.

b. 2SL, on behalf of the Navy Board, is the sponsor of PFS and is responsible for monitoring the achievement and maintenance of the standards set therein. Reporting of the status of PFS by units is required on a ‘termly’ basis (Spring, Summer and Autumn) to align with Divisional Meetings and the timing for Holding to Account and Moral Component of Operational Capability (MCoOC) reporting requirements. Reserve Forces are required to report in Spring and Autumn only. This PFS ‘battle rhythm’ provides a sustainable staffing and feedback timeline that will enable units to assess the measures taken and advice given before compilation of the next PFS report, and will help establish objective evidence of issues affecting achievement of PFS, thereby assisting 2SL in monitoring prevailing Service Conditions and, where unacceptable trends are identified, to facilitate management action.

2. Why do we have PFS?

PFS has been developed, not as a contract, but defined essential Terms and Conditions of Service (T&COS) which the Naval Service is committed to deliver for its personnel within available resources. PFS applies to all regular Naval Service personnel and to Reserve Forces according to the level of Service commitment that a reservist is undertaking. Applicability of PFS for Reserve Forces has been highlighted in each PFS Chapter. Reserve Forces comprise of the Maritime Reserves (Royal Naval Reserve (RNR) and the Royal Marines Reserve (RMR) and Regular Reserves (Royal Fleet Reserve (RFR).

- It is used to set standards which should be provided to all members of the Naval Service; and

- It provides procedures for identifying and reporting deficiencies (“Breaches”) through the Chain of Command to 2SL area for subsequent action.

3. What are the benefits of PFS?

By maintaining PFS we will ensure better motivation, retention, satisfaction and care of our people by creating a sense of belonging and improving the understanding of the TACOS under which we serve. This in turn will lead to the inculcation of ethos, respect, discipline and good leadership and management.
4. **How does PFS work?**

a. PFS deals with important T&COS and, as such, requires to be constantly monitored so that management action can be initiated to prevent breaches or rectify them when they occur. In the first instance action should be taken at unit level, with progressive referral if necessary, up the Chain of Command. There may be occasions when PFS is intentionally or unavoidably breached but generally these will only be for exceptional operational or resource reasons; such breaches need to be reported so that early management action can be taken and, when necessary, the reasons for non-compliance communicated to those personnel affected.

(1) **Terms of Service** are the rules and regulations which govern our careers, detailing commissions, engagements and matters such as promotion and assignments. They are predominantly the responsibility of the Head Naval People Strategy.

(2) **Conditions of Service** are the financial conditions, such as pay, pensions and allowances, and non-financial conditions, such as leave, accommodation standards, quality of catering and levels of harmony, that Service Personnel receive or experience during their service. These are predominantly but not exclusively the responsibility of the Head Naval People Strategy.

b. 2SL has engaged with his counterparts in the Army and RAF, DE&S, Joint Commands and other MoD Departments to ensure that all Naval Service personnel may expect compliance with PFS irrespective of where they are serving. Additionally, where Naval Service personnel are working on partnership contracts, PFS is to be referenced in such contracts. Where RN personnel find themselves subject to lesser conditions of service set by the other Services, or PFS achievement is deliberately constrained by contractual conditions, individuals are to be made explicitly aware of the reasons for deviations from PFS.

c. The Naval Senior Officer Network (NSON) will help ensure that PFS is disseminated through the diverse employment areas for Naval Service personnel.

5. **How can I use PFS?**

a. PFS should be used as a ready reference but, for more detailed information, the relevant source document and lead authorities have been identified where appropriate.

b. PFS is available to all Naval Service Personnel. Commanding Officers, Divisional Officers, Troop Commanders, and Budget Holders are to ensure that in the exercise of their delegated authority they endeavour not to vary TACOS to the extent that PFS is breached. Individuals have a responsibility to ensure that enabling systems such as JPA are maintained with accurate and up to date information. This is essential if accurate assessment of areas of PFS by the Chain of Command is to be achieved. The Chain of Command must ensure that robust measures are in place within units to ensure that PFS is being met. Where PFS is being breached, despite all efforts by the Chain of Command to address them, then this is to be reported to the NPS Employment Policy area following the reporting guidance below.
6. **What are the Categories?**

PFS is divided into two separate categories which are defined as:

a. **Category A (CAT A).** Mandatory requirement, the cost of which must be included in the Planning Round and cannot be amended by Budget Holders. The target for all CAT A Standards, as mandatory costed items or statutory requirements, is to be 100%.

b. **Category B (CAT B).** Desirable objectives which Budget Holders are strongly encouraged to achieve in order to maintain balanced terms and conditions throughout the Naval Service, but over which they have discretion as to the extent of application.

7. **Measure Of Effectiveness**

a. Accurate and timely reporting of PFS breaches is essential as the information provided to Navy Command Headquarters (NCHQ) forms an integral part of the measurement of effectiveness of the Naval Service’s Moral Component of Operational Capability (MCoOC). Additionally, by receiving accurate assessments of the status of PFS standards within units, NCHQ is able to maintain evidence to support future changes to policy or processes where required. NCHQ will report Very Serious breaches of PFS through the Navy Board Standing Objectives Holding to Account Report and through 2SL’s Personnel Executive Group (PEG) which specifically address risk reports.

b. In order to establish credible and objective evidence of PFS status, units are to report on the status of PFS on a termly basis (Reserve Units have dispensation to report in Spring and Autumn only). **Assessments of CAT A PFS for Accommodation, Career Management, Harmony, Leave and Fitness, Sport & Adventurous Training are mandatory.** An Excel based PFS Reporting Tool has been developed which will be sent to COs of Units, with supporting guidance notes, to complete PFS reports. This has been designed to simplify the reporting requirement for units. Completed reports with contextual comments are to be returned to NAVY NPS-STRATPOL EMPLOY POL SO1: 31 Mar (Spring), 31 Jul (Summer), and 30 Nov (Autumn) annually.

c. Reports should follow the Qualitative Assessment criteria (detailed below). Feedback from PFS reports will be collated in a PFS Database, managed by NAVY NPS-STRATPOL EMPLOY POL staff, from which evidential reports will be used to inform NCHQ senior management and affect subsequent management action as necessary.

8. **Qualitative Assessments And Feedback**

a. The following table provides guidance on the definitions of the status of PFS and guidance to the qualitative assessments to be used. When reporting units should indicate their assessment of PFS status against respective Chapter headings.
<table>
<thead>
<tr>
<th>Definition</th>
<th>Qualitative Assessment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Satisfactory</td>
<td>No shortfall identified</td>
</tr>
<tr>
<td>Minor Weakness</td>
<td>For assessments classified as ‘Minor Weakness’ the shortfall may require a change in priorities at Unit level to rectify the problem.</td>
</tr>
<tr>
<td>Serious Weakness</td>
<td>For assessments classified as ‘Serious Weakness’ the shortfall may require a change in priorities at Command level to rectify the problem.</td>
</tr>
<tr>
<td>Very Serious Weakness</td>
<td>Assessments classified as very serious indicate that the shortfall is critical to the achievement of core T&amp;COS. Very Serious Weakness issues will be directed to Fleet TLB/NAVB for consideration.</td>
</tr>
</tbody>
</table>

b. When reporting the following amplifying information should be included:
   
   (1) The reason(s) for, and scale of, the variance.
   
   (2) The effect(s) of the variance upon personnel.
   
   (3) The proposed action to remedy the shortfall.

c. NCHQ Chapter sponsors will provide written feedback on Very Serious and Serious weaknesses through a consolidated feedback return to be released 31 May (Spring term feedback), 30 Sep (Summer term feedback) and 31 Jan (Autumn term feedback).

d. NAVY NPS-STRATPOL EMPLOY POL SO1 is the desk level sponsor for PFS. **Specific queries should be directed to the relevant Chapter sponsor identified within PFS in the first instance.**

e. Contact details for the PFS sponsor desk are:

   DII(F) E-Mail: NAVY NPS-STRATPOL EMPLOY POL SO1  
   Mil Tel: 93832 5514  
   BT: 02392 625514

f. PFS has been subjected to Equality Analysis. Specific policies referenced in PFS will be subject to Equality Analysis by policy sponsors.

1 PFS Standards in bold have a mandatory reporting requirement.
SECTION 1. ACCOMMODATION

Single Living Accommodation (SLA)²
(Sponsor: NAVY NPS-PEOPLE SPT ACCOM SO1)

CAT A

a. To provide suitable accommodation, in accordance with JSP 464 – Tri-Service Accommodation Regulations, for entitled personnel who choose or are obliged to live in SLA. Where, in Navy Command Establishments and Units, SLA is not available to meet the long-term programmed requirement, the need for increased provision is to be reported to NCHQ³. The short-term alternatives are:

   (1) **Financial Recompense.** In the form of reduced accommodation charges on a sliding scale, when accommodation in the best condition cannot be provided.

   (2) **Substitute Service Single Accommodation.** The provision, through an authorised agency contractor, of Substitute Service Single Accommodation (SSSA). SSSA is provided, to meet requirements lasting 6 months or more, where there is no SLA available or the condition/type available is such that the Commanding Officer deems it unsuitable for allocation to the individual concerned.

   (3) **Lodging Allowance.** When SLA is unavailable and SSSA is unavailable or inappropriate, Lodging Allowance is provided to enable Service personnel in the UK to rent accommodation and meet associated necessary costs.

b. To ensure that all plans for SLA new build and major refurbishment in Navy Command Establishments and Units will, providing it is achievable within the constraints of available space within the footprint of the Establishment/Unit and existing building limitations (e.g. where SLA is located within listed buildings), provide all trained personnel with single-occupancy cabins to the JSP 315 scales in force at the time of build/major refurbishment.

² Note that accommodation at sea is not classified as SLA.
³ SLA Risk is to be reported via the Navy Command TLB Active Risk Manager (ARM) process. SLA requirements are to be raised via the Infrastructure Statement of Need (SoN) process and included in the site’s Integrated Estate Management Plan (IEMP).

22A-6 of 57
February 2020 Version 1
c. To ensure that in Navy Command Establishments and Units, TV rooms and other communal spaces are not misappropriated for use as SLA.

d. To ensure that, except when undergoing training, Officers and Senior Ratings/SNCOs are always accommodated in single-occupancy cabins.

e. To provide accommodation services for permanent and “duty” SLA (not transit) as follows:

1. **All Ranks/Rates.** To clean all cabins/rooms, including en-suite facilities, on change of occupancy.

2. **Officers.** To provide twice-weekly cleaning of cabin accommodation including en-suite facilities. Daily cleaning (Mon-Sun) of all communal areas and ablutions. Where cleaning is undertaken through an output-based contract, the appropriate Key Performance Indicators (KPIs) are to be met. Where necessary, clean Service linen to be provided and made up weekly (Service issue linen is cleaned at public expense).

3. **Senior Ratings/SNCOs.** To provide twice-weekly cleaning of cabin accommodation including en-suite facilities. Daily cleaning (Mon-Sun) of communal areas and ablutions. Where cleaning is undertaken through an output-based contract, the appropriate Key Performance Indicators (KPIs) are to be met. Where necessary, clean Service linen to be provided weekly.

4. **Junior Ratings/RMORs.** To provide twice-weekly cleaning of en-suite facilities. To provide daily cleaning (Mon-Sun) of communal areas and ablutions. Where cleaning is undertaken through an output-based contract, the appropriate Key Performance Indicators (KPIs) are to be met. Where necessary, clean Service linen to be provided weekly.

**CAT B**

a. SLA is always to be allocated by rank in accordance with the SLA eligibility table in JSP 464, Part 3, Chapter 3, Paragraph 0302 and the provisions of Chapter 5 of JSP 464, Part 3.

b. In Navy Command Establishments and Units, SLA at or below Standard 4 for Condition is not to be allocated.

c. Other than in the most exceptional circumstances (requiring prior approval from NCHQ), SLA rooms in Navy Command Establishments and Units are not to be furnished with more bed-spaces than they were originally scaled for.

---

4 The NCHQ lead for Accommodation Services is NAVY LOG INFRA-INFRA SFM.

5 The granting of approval is not to prevent such action being reported as a Cat B breach for as long as the accommodation remains compromised.
d. In Navy Command Establishments and Units, separation is to be maintained between SLA for Officers, Senior Ratings/SNCOs and Junior Ratings/RMORs (i.e. not provided in the same accommodation block). Where this not achievable, prior approval must be sought from NCHQ to temporarily (normally no longer than 12 months) mix ranks/rates in the same building/accommodation block providing floor/wing separation is able to be maintained and, ideally, separate building/block entrances used.

Service Family Accommodation (SFA)
(Sponsor: NAVY NPS-PEOPLESPT ACCOM SO1)

CAT A
To provide suitable family accommodation to entitled personnel, including Mobilised Mar Res and personnel on FTRS(FC), detailed in JSP 464.

Accommodation in HM Ships and Submarines
(Sponsor: NAVY NPS-EXEC SO1)

CAT A

a. The Officers and Ship’s Company of submarines operating outside of Base Ports are to be accommodated ashore in suitable Service Accommodation or hotels when not required for duties on board.

b. Embarked staffs and visitors to ships and submarines who are required to sleep in austere accommodation on board at sea (e.g. camp beds in fan chambers), are to be accommodated ashore, if necessary in hotels, when the unit is alongside.

c. All bunks are to be fitted with an appropriately sized curtain in order to provide privacy to the occupant.

d. All messdecks and recreational areas are to be fitted with appropriate soft furnishings including seat covers and curtains which are to meet extant DEFSTAN. Soft furnishings are to be clean, well fitting and in good order, and are to be cleaned at Crown expense.

CAT B

a. Visitors to units, both Service and civilian of any of rank, rate or grade, are to be accommodated in a bunk appropriate to their rank, rate or grade. Where this is not possible, they are to be accommodated in the next best grade of accommodation. A CO’s responsibility for Safety, Health and the Environment (SHE) is to have primacy over rank entitlements. Irrespective of ‘bunking’ arrangements, individuals are to dine and make use of recreational facilities in the mess appropriate to their rank, rate or grade. Austere accommodation is to be a measure of last resort.

b. Complement Ship’s Company should not be displaced from their bunks in order to accommodate visitors or contractors. Exceptionally and where no alternative exists, a CO may authorise a short, temporary displacement of a Ship’s Officer in order to accommodate a Senior Officer or VIP.
c. Carpets, in messes, messdecks and recreational spaces are to be contract cleaned at intervals not exceeding 6 months.

**Relocation Allowances**  
(Sponsor: NAVY NPS-PPA SO1)

**CAT A**

a. To pay Disturbance Expenses to entitled personnel as a contribution towards the necessary additional expenses that arise when the Services require personnel to make a qualifying move to or from a Residence at Work Address on permanent assignment (JSP 752 Chapter 7 Section 1).

b. To pay removal expenses to entitled personnel moving personal effects within authorised entitlement to a residence at a new place of duty (JSP 752 Chapter 7 Section 3).

c. To pay charges, within certain limits and subject to specified conditions, for unaccompanied baggage of Service personnel and, where appropriate, their dependants, when moving at public expense within the UK and between the UK and worldwide destinations on change of permanent place of duty (JSP 752 Chapter 7 Section 3).

d. To pay charges, within certain limits, incurred by entitled personnel assigned overseas for the storage of personal effects in the UK (JSP 752 Chapter 7 Section 3).

e. To apply to Reserve Forces in particular circumstances (JSP 752 Chapter 7 Sections 1 and 3).

**Homeowner’s Package**  
(Sponsor: NAVY NPS-PPA SO1)

**CAT A**

a. To provide financial assistance to entitled personnel to enable them to purchase their own property in accordance with Naval Housing Policy by:

1. Long Service Advance of Pay (JSP 752 Chapter 2 Section 4).
2. Forces Help to Buy (JSP 464 Part 1 Chapters 12 and 13).

b. The refund of legal expenses (within prescribed limits), and associated expenses for house purchase and sale (JSP 752 Chapter 7 Section 4 Part 1).
c. To refund legal expenses and solicitor’s fees incurred solely in regaining possession of the property which had been let for Service reasons, subject to specific qualifying conditions. Expenses incurred in relation to rent arrears, damage to property, checking payments, tracing the tenant, and any costs incurred as a result of not using a solicitor to draw up the tenancy agreement, or any other matter not directly related to repossession are not included (JSP 752 Chapter 7 Section 5 Part 2).

d. Reserve Forces are not eligible for LSAP but may be eligible for other elements of the Homeowner’s Package (JSP 752 Chapter 7).
SECTION 2. CAREER MANAGEMENT

Definition of Career Management

“The assignment of individuals in accordance with endorsed current and future Service Requirements, exploiting skills, career development needs and, whenever possible, personnel preferences, whilst providing advice on future career paths.”

Officers’ Career Management
(Sponsor: NAVY PCAP-CM DACOS COS)

CAT A

a. To assign officers to meet the requirements of the Service, to develop their careers to make the best use of their abilities ensuring that their suitability for promotion is developed and to give due weight to the preferences of individual officers concerning the type, location and timing of assignments, taking into account their family circumstances (see Chapter 59 Section 1).

b. All eligible officers are to be considered for selection to attend national or overseas staff courses.

c. All officers will have the opportunity to be considered for transfer to a longer career until they reach a Full Term Commission (FTC).

d. After the first 10 years of service all officers will have the opportunity to have a personal interview with their Career Manager to update him/her on their career aspirations and personal circumstances at least once every 3 years, but generally once per assignment (see Annex 58B).

e. To provide as much notice of assignments as practical (see Chapter 59 Section 11) and at least 3 months’ notice for a home base assignment and a minimum of 5 months’ notice for non-home base or LFS assignments.

Notes:

1. ACOS(PCap) staff plan to give at least the minimum notice for all assignments as described unless operational reasons dictate that the required notice is unachievable. In such cases authorisation must be given by DACOS Career Management and an auditable trail will be created to show the decision making process.

2. It is often impractical for individuals assigned to and from courses to receive the minimum notice period (see Para 5942), therefore any such instances will be treated as a CAT B PFS breach and therefore do not require authorisation by DACOS Career Management.

A home base assignment is defined as one where the new assignment is to a location where the distance from their current residence at place of work address is no more than 50 miles (or 90 minutes by public transport) iaw JSP 752 article 04.1314.
f. All officers will be allowed to submit 12 months’ notice to leave the Service, subject to a minimum Return of Service (RoS) after specified courses, or RoS associated in respect of promotion, training received or associated with the award of a Financial Retention Initiative (FRI).

CAT B

a. To achieve shore assignment lengths of 2½ years with 6 months’ flexibility above or below (see Annex 59G).

b. Within the first 10 years of service officers have the opportunity for a personal interview with their career manager to update him/her on their career aspirations and personal circumstances generally once per assignment.

WO, Senior and Junior Ratings and RMORs’ Career Management
(Sponsor: NAVY PCAP-CM DACOS COS)

CAT A

a. For all WO, Senior and Junior Ratings to be assigned to meet the needs of the Service, where at all possible taking personal preferences and family circumstances into account (see Chapter 59 Section 1).

b. To enable personnel to realise their potential through advancement and promotion within their specialisation and in line with the needs of the Service by:

(1) The provision of appropriate training courses and associated facilities throughout a career to ensure people are properly trained to carry out the tasks expected of them when put to the test in a hostile environment; this should take the form of career training, TEM, PJT and PWT.

(2) The provision of professional qualifying courses.

(3) The provision of command courses (see Chapter 69 Section 3).

c. To provide the opportunity for eligible applicants to be considered for selection for promotion to commissioned rank (see Chapter 50).

d. To provide the opportunity for selected applicants in the RN, RM and QARNNS to serve beyond the completion of a 22-year engagement, as circumstances allow (see Para 4946).

e. ACOS(PCap) staff are to provide Promotion Prospect Assessments (PPAs) for CPOs of at least 5 years seniority who are eligible in all respects for promotion to WO1 RN.

f. CNPers RM RCM staffs are to provide Promotion Prospect Assessments (PPAs) for all RMORs up to the rank of CSgt where positions exist at WO2 RM within Specialisation.
g. To provide access for individuals to receive assignments and career advice and guidance through face to face interviews with the CNPers Career Managers in West Battery (Whale Island) and the Waterfront Career Management Cells (CMC) in Portsmouth, Devonport and Faslane Naval Bases, and at Royal Naval Air Stations at Culdrose and Yeovilton. Advice is to be provided through interview giving guidance on direction, courses available and career planning.

h. To provide as much notice of assignments as practical (see Chapter 59 Section 11) and at least 3 months’ notice for a home base assignment and a minimum of 5 months’ notice for non-home base or LFS assignments.

Notes:

1. ACOS(PCap) staff plan to give at least the minimum notice for all assignments as described unless operational reasons dictate that the required notice is unachievable. In such cases authorisation must be given by DACOS Career Management and an auditable trail will be created to show the decision making process.

2. It is often impractical for individuals assigned to and from courses to receive the minimum notice period (see Para 5943), therefore any such instances will be treated as a CAT B PFS breach and therefore do not require authorisation by DACOS Career Management.

3. Ratings in Shore Service not on LFS may be subject to Emergency Relief Pool (ERP) rules.

i. All ratings will be allowed to submit 12 months’ notice to leave the Service, subject to a minimum Return of Service (RoS) after specified courses, or RoS associated in respect of promotion, training received or associated with the award of a Financial Retention Initiative (FRI). Ratings must complete 2½ years’ service after completing their Standard Initial Training Period (SITP) before being released.

CAT B

a. Senior Ratings remaining on Sea Service will have a nominal Future Availability Date (FAD) of 36 months, after which they can expect a minimum of 18 months’ Shore service.

b. If over-riding operational requirements dictate an extended Sea Service assignment of up to 6 years for a Senior Rate, this will be followed by a 2-year Shore Service assignment in First Preference Area, on condition that the declared First Preference Area is not changed within 12 months of Future Availability Date (FAD). Back-to-back sea assignments will be authorised personally by DACOS Career Management. An assignment to a non-preference Shore Service Assignment will be given a FAD of 2 years from joining and will be reviewed prior to the 24 month point from joining.

---

7 A home base assignment is defined as one where the new assignment is to a location where the distance from their current residence at place of work address is no more than 50 miles (or 90 minutes by public transport) iaw JSP 752 article 04.1314.
c. To assign Ratings/RMORs, where possible, to billets in their stated First Preference Area (see Para 5803).

d. Units are to endeavour to provide a minimum notice period of 30 days to an individual moving ashore from the seagoing unit where that individual would normally be exempt food and accommodation charges.

Squadded Ratings

To enable individuals in a Squad to plan their immediate programme, they will be provided with a rolling 6-month Personal Plan by the EWO/SM COXN, in consultation with the Divisional Officer and the Rating.

Note. FADs for Squad assignments will normally be set at 48 months after joining. Reasons for being assigned from the Squad include:

a. Transfer to another ship, to a preference area or within the same base port.

b. Transfer to Squad requiring second AB tour (e.g. MWV).

c. Drafted to Shore Service or Local Foreign Service.

d. Branch or Arm transfer.

e. On promotion following command and qualifying courses, unless circumstances permit the return of the individual back to the original unit.

f. Assigned to a non-Squad Sea Service billet.

Personal Turbulence

a. Standfast volunteers, personnel should only be moved temporarily to fill (Note 1) another JPA assignment at short notice a total of three times in any 12-month rolling period, and for a cumulative total duration of no more than 57 days. Such movements (number and duration) are to be recorded in JPA (see Annex 59I) and reported in the professional section of any subsequent Pain and Grief proforma raised on an individual in response to a further request for temporary cover.

b. A Service person moved to provide a temporary fill should be given a minimum of 2 working days’ notice to move (Note 2).
Notes:

1. A temporary fill is defined as a period of 8 – 30 days inclusive. Periods greater than 30 days require the Career Manager to take assignment action (in accordance with BRd 3, Para 5948) and as such come under the Career Management PFS. Inter-unit loans of personnel lasting 7 days or less should be regarded as routine business and are not affected by this PFS. Personnel movement to undertake training or training courses is exempt from this PFS, as are short notice assignments under existing ERP rules.

2. The notice to move is to allow personnel time to organise their personal lives. As such, when given notice to move the individual should immediately be stood down from their current place of work. They should not to be required to present themselves for duty at the receiving unit, mounting centre, or point of departure (airport, railway station, etc.) for a minimum of two working days from this point. Longer notice may be considered appropriate particularly for Personnel e-OPDEFs at Category B or less, commensurate with the operational imperative.

Annual Appraisal Reports (see Chapter 57)
(Sponsor – NAVY PCAP-CAM DACOS COS)

CAT A

a. Annual appraisal reports are mandatory for all personnel – officers, ratings and other ranks (including those over-zone for promotion and pre-retirement). Reporting informs the Subject how well they have performed identifies their potential and advises how they may improve their performance and potential. It is also used for Career Management in selection for promotion and extended commission/career, assessing suitability for specific assignments and command selection.

b. All individuals are entitled to and should have identifiable and nominated 1st and 2nd Reporting Officers8 (1RO and 2RO) to commence the reporting process at the beginning of the reporting period which varies according to length of tour, any changes of 1RO and Common Promotion Date (CPD) for individual rank/rates. Thereafter, the process is continuous with 3 distinct stages:

   (1) Start of Reporting period – setting Roles and Responsibilities and Personal Objectives.

   (2) Mid Period Appraisal Review (MPAR).

   (3) Final Appraisal - e.g. End of Tour, Supersession or Annual at Common Promotion Date.

8 Exceptionally, in certain cases such as personal staff officers and officers employed in small and/or remote organisations where the 1RO is a 1* or Flag officer, a single RO only is acceptable.
b. As a general rule, a full Appraisal Report is required for periods of 6 months or more with Short Stand-alone Tour (SST) reports for periods of 2-6 months; alternatively, for detachments of 2-6 months when the Subject is returning to his/her parent unit, an Insert Slip should be raised for attachment to the main appraisal report (JSP 757).

c. All personnel are to receive a Mid-Period Appraisal (MPA), which is to be a formal indication of their performance in an assignment, between the fourth to eighth months of the annual reporting cycle (JSP 757 articles 3.03b & 7.03b).

d. All personnel will have access, through JPA, to the finalised Consolidated Appraisal Report written on them (JSP 757 articles 3.18 & 7.18)

Reserve Forces
(Sponsor: NPT(Res))

NPT (Res) will act as the focal point for the Career Management of the RNR and RFR and NPT(RM) for the RMR. They will utilise the categories of Reserve Service articulated in the Reserve Forces Act 1996 (RFA 96) to facilitate extraction of a Reservist from the Reserve Force into either FTRS, Part Time Reserve Service (ADC), or Mobilised Service depending on the needs of the Regular Service. Where applicable, PFS that apply to Regular Service personnel will apply to the Maritime Reservist. In addition to this the following standards will be applied:

Annual Appraisal Reports - Reserve Forces

CAT A

a. Volunteer Maritime Reserves (Royal Naval Reserve (RNR)/Royal Marine Reserve (RMR) Personnel). RNR/RMR personnel are to be reported on as follows:

   (1) RNR/Queen Alexandra’s Royal Naval Nursing Service Reserve (QARNNS(R)). Reports on OJAR/SJAR are to be completed on JPA on the same dates and occasions as for regular RN personnel (JSP 757 Chapters 2 and 6, Annex C), restricted to:

      (a) Officers

         i. In zone Officers, holding substantive rank of Lt with more than 5 years’ seniority.

         ii. Over zone Officers, when specifically requested by the individual.

      (b) Ratings, when eligible for promotion.
(2) **RMR - List 1.** Reports on OJAR/SJAR are to be compiled on JPA on the same dates and occasions as for regular RM personnel. The parent RMR Unit is responsible for ensuring that a request for a Detachment Insert Slip is made on JPA for RMR officers attached to RM units for periods of continuous training in excess of two weeks (*JSP 757 Article 9.05*).

(3) **Volunteer Reserves (RNR/RMR/QARNNS(R)) Personnel on Full Time Reserve Service (FTRS).** Volunteer Reserve (RNR/RMRQARNNS(R)) personnel on FTRS are to be reported on as follows:

Reports for RNR and RMR officers and ratings/other ranks serving on FTRS are to be completed on JPA on the same occasions as for RN/RM personnel. The parent RNR/RMR Unit is responsible for initiating reports, including setting the appropriate Reporting Chain, and liaising with the reporting officer in the FTRS employing Unit (*JSP 757 Articles 2C.08 and 6C.06 – 6C.08*).

b. **Mobilised Maritime Reserves (RNR/RMR/QARNNS(R)) Personnel.** Mobilised Reserve (RNR/RMR/QARNNS(R)) personnel are to be reported on as follows:

Personnel of the Volunteer Reserves who are called out for active service or recalled for full-time service in peacetime are to be reported upon on JPA in the same manner and on the same occasions as regular service officers and ratings. Where a period of mobilisation is for 6 months or less, a Short Appraisal Report is to be raised (*JSP 757 Articles 5.07 and 9.07*). Responsibility for administration lies with the parent employing unit.

c. **Royal Fleet Reserve (RFR) Personnel on Mobilised or Full Time Reserve Service.** RFR personnel on Mobilised Service and FTRS Service are to be reported on as follows:

Reports on RFR personnel are to be completed on JPA by the employing Unit on the same occasions as for RN/RM personnel. Where a period of mobilisation is for 6 months or less, a Short Appraisal Report is to be raised (*JSP 757 Articles 5.07 and 9.07*). In all cases, the final reporting officer is to include a statement regarding the suitability of the individual for further FTRS and, where appropriate, service in the acting higher rank/rate.

**Career Management - Reserves Forces**

**CAT A**

a. For all personnel to be assigned to meet the needs of the Service, where at all possible taking personal preferences and family circumstances into account
b. To provide as much notice as possible of FTRS new commitments, commitment renewals and at least:

(1) 3 months' notice for FC assignments.

(2) 4 weeks' notice of LC and HC assignments.

c. To provide 6 months’ notice to terminate a FTRS FC and 4 weeks' notice to terminate a FTRS LC, HC and ADC in accordance with the notice periods articulated in BR64 (BR3).

d. Where possible to not exceed the limits of call-out in a specified period in accordance with JSP 753.

CAT B

a. To provide as much notice as possible to a Maritime Reservist that is called-out to permanent service and to issue call-out papers at least 60 days before the date of call-out.

b. To provide at least 3 months' notice if a commitment is not to be renewed.

Stability for Service Personnel who are, or have Spouses/Partners who are Undergoing Courses of Assisted Conception Treatment
(Sponsor: NAVY PCAP-CM DACOS COS)

CAT B

a. To provide, wherever possible, stability for regular Service personnel who are seeking to access NHS Assisted Conception Services for themselves or their spouse, civil partner or partner on condition that the chain of command and/or Career Manager is consulted early in the process in order to set the conditions to allow for planned stability.
b. Ensure, where possible, that any assignment generated by the need for stability does not adversely affect the Service person’s career profile. However, personnel requesting stability for this purpose should understand the potential career implications of such a request and must accept that there may be occasions when this is not possible because of the overriding needs of the Service. No concession can be expected if a professional development course is missed in order to achieve stability for the purposes of accessing NHS assisted conception services, therefore, a period of stability may not be in the best interests of their military career.

(1) The length of the period of stability needed will vary with each case and according to the treatment being given, but will normally be up to 6 months. All pre-assisted conception investigations (in and outpatient) will not be subject to stability, rather this element would be as any other in or out patient treatment is conducted. The period of stability will cover the time needed for one attempt at assisted conception to be completed, of around 3 months, and if the pregnancy is successfully achieved then the stability period may be extended to enable the couple to be together for at least 3 months in order to reduce the likelihood of stress induced miscarriage. Any longer period of stability to allow for further attempts to conceive if the first try is unsuccessful will be at the discretion of the Career Manager.

(2) These provisions do not allow personnel the right to demand an assignment in a particular location in order to seek treatment from a particular provider. Nor does access to NHS Assisted Conception Services entitle personnel to avoid an assignment for which the order has already been issued.
SECTION 3. CATERING
(Sponsor: NAVY LOG INFRA-OPS AFLO SO3)

CAT A

a. To maintain compliance with the MOD’s military feeding and catering strategy and the quality of life for Service personnel by:

(1) The provision of a varied, nutritious and healthy diet in keeping with the MOD’s Nutrition Policy Statement (JSP 456 Vol 1 Chapter 4).

(2) The provision of 3 (4 at CTCRM for all personnel undertaking the initial training phase) properly prepared meals per day to entitled personnel (subject to a contribution towards the cost of feeding through the appropriate daily food charge for those not entitled to be fed at Crown expense).

(3) The provision of separate messing facilities for Officers, Warrant Officers/Senior Ratings/SNCOs and Ratings/RMORs to scale standards (JSP 315).

(4) Compliance with all relevant national and European Food Safety legislation.

(5) The provision of staff and facilities for Official Mess Functions for mess members in established Service messes ashore as follows:

(a) Officers’ Mess – 12 Official Functions per annum. Generally, these are 2 seasonal balls and 10 other functions (eg. Mess Dinners) as agreed by Mess Committees. For all such functions labour costs (up to midnight or as otherwise authorised by the TLB) are funded at public expense.

(b) Warrant Officers/Senior Ratings/SNCOs Mess – 6 Official Functions per annum. Generally, these are 2 seasonal balls and 4 other functions (eg. Mess Dinners) as agreed by Mess Committees. For all such functions labour costs (up to midnight or as otherwise authorised by the TLB) are funded at public expense.

Note. Maritime Reserves are not entitled to the crown funded functions (labour costs) for Officers and Senior rates messes as is the norm for other full time naval personnel. However, if they are serving in a unit which is attached or within a Naval Establishment, and are Mess Members, they are entitled to attend those functions hosted in the respective Mess.

(6) For Catering, Retail and Leisure (CRL)/Pay as You Dine (PAYD) units in established Service messes ashore the appropriate level of service for Officers, Warrant Officers/Senior Ratings/SNCOs and Ratings/RMORs will be provided in accordance with individual unit contract specification.
b. Individuals will be fed at crown expense when qualifying criteria are met as laid down in JSP 754 and JSP 456 Vols 2 and 4.

c. Reclamation of the Daily Food Charge/Core Meal, and payment of Special Messing Allowance, Food and Incidentals Allowance, LOSLOA, when the qualifying criteria as laid down in JSP 752 are met.

d. Provision of a duty meal or meals when entitled under the criteria laid down in JSP 456 and JSP 754.

e. Catering for the dietary needs of individuals on religious, ethnic, medical or lifestyle choice (eg. vegetarian) grounds, where logistic and operational circumstances permit.

f. **Maritime Reserves.** Where Mar Res personnel serve in RN/RM units then they will benefit from the same catering services as for regular Naval Service personnel. Where RNR/RMR units are not co-located with RN/RM units they do not benefit from MoD funded catering services. There is a clear requirement for COs of Reserve Units to comply with MoD Policy rules and regulations with regarding safety, including food safety (Reference BR 9147 – Navy Command Safety and Environmental Management System).
SECTION 4. REPRESENTATIONS AND SERVICE COMPLAINTS
(see Chapter 23)
(Sponsor: NAVY LEGAL-CASEWORK TEAM LDR SO1)

a. Handled properly, Representations and Service Complaints have the potential to highlight areas for management improvement and administrative efficiency, bringing a broader benefit to morale. This is particularly so where those exercising Service duty of care overtly promote and ensure a positive culture to support those involved in the Service Complaints process (including Complainants, Respondents and witnesses) and capture and implement lessons identified. In any leadership position, the receipt of a Representation or Service Complaint “on your watch” should not be regarded as a sign of failure. Taking a positive and confident approach to ensure that Representations and Complaints are handled properly will be recognised as a sign of a successful, mature and capable manager, and individual performance appraisal assessments should reflect capability and behaviour in this regard.

b. The general principle is that all Representations and Complaints are to be dealt with at the lowest level of the command chain commensurate with the provision of an authoritative reply.

c. Representations and Service Complaints apply to all members of the Naval Service and to members of the Reserve Forces, subject to policy and statutory limitations. The procedures to be followed can be found in BRd 3 Chapter 23, JSP 831 (Redress of Individual Grievance: Service Complaints) and JSP 763 (The MOD Bullying and Harassment Complaints Procedures).

Representations

CAT A

a. Any member of the Naval Service wishing to make a Representation about any Service matter, whether personal or general, including matters affecting their or another’s welfare and any suggestion connected with the Service, will be allowed to submit it to their Commanding Officer, through the divisional/regimental and command chain as appropriate.

b. Where the Commanding Officer rejects such a representation, a member of the Naval Service who is personally affected by the issue will be allowed to submit a Service Complaint.

Service Complaints

a. Any member or former member of the Naval Service who believes they have been wronged in relation to their service will be allowed to submit a Service Complaint.

b. Valid Service Complaints will be dealt with in accordance with BRd 3 Chapter 23, JSP 831 (Redress of Individual Grievance: Service Complaints) and JSP 763 (The MOD Bullying and Harassment Complaints Procedures) and any other tri-Service guidance as appropriate.
c. Any person entitled to submit a Service Complaint and any person implicated in a Service Complaint (a ‘Respondent’) is entitled to the support and advice of an Assisting Officer. An Assisting Officer should assist the Complainant with the drafting of the formal complaint in order to assist to focus the issues and make the complaint easier to investigate. Wherever possible the Assisting Officer will be an appropriately qualified person requested by the Complainant or Respondent (see also JSP 831 Annex I).

d. Every effort will be made to ensure personal differences are resolved as quickly, fairly and amicably, and at the lowest level possible. Any person concerned that they have been subjected to bullying, harassment or discrimination, and any person implicated, is entitled to receive advice and support from the unit Equality and Diversity Adviser (EDA).

e. Complaints of bullying, harassment or discrimination that require formal investigation will be investigated thoroughly, expeditiously and impartially by Harassment Investigating Officers.

f. Commanding Officers will consider appropriate administrative or disciplinary action, including appropriate comment in annual appraisals, as regards any person under their command found to have bullied or harassed anyone, in accordance with CDS’s guidance (CDS/1/1/6 dated 17 Sep 10) now incorporated into BRd 3 Chapter 23 Annex 23I.

CAT B

a. Timelines for resolution of Service Complaints are governed by JSP 831, JSP 763 and 2013DIN01-002 implementing a 24-week total timeline. In order to meet the overall 24-week timeline for handling all three levels of the Service Complaint Process, handling at Level 1 of the process should be complete within 8 or 12 weeks, depending on the complexity of the case. BRd 3 Chapter 23 refers. DACOS Casework in CNLS is responsible for monitoring performance against the overall 24-week target set by the MOD and periodically will report unit complaint handling and JPA performance to 1*/2* higher formations.

b. Complainants and Respondents must be updated on the progress of the complaint at least every 30 working days.

The Service Complaints Commissioner for the Armed Forces

The role of the independent Service Complaints Commissioner (SCC) was established in 2008 and provides:

a. A rigorous and independent oversight of how the Services Complaints System is working which reports annually to Ministers and Parliament; and,

b. An alternative point of contact for Service personnel (or their family members, friends or other representatives) who do not feel they can raise a complaint or a concern within the chain of command without the independent oversight of the SCC.
SCC Contact Details

The Service Complaints Commissioner
PO Box 61755
London
SW1A 2WA
Telephone: 0203 178 7634
Email: SCC@armedforcescomplaints.independent.gov.uk or Contact@oscc.gsi.gov.uk

CAT A

a. Commanding Officers will, on receipt of an allegation from the SCC, inform the individual concerned that an allegation has been received and provide them with information and assistance (i.e. including an Assisting Officer) to submit a Service Complaint should they wish to do so.

b. Any Service Complaint arising from an SCC referral will be dealt with in accordance with JSP 831, JSP 763 and BRd 3 Chapter 23.
SECTION 5. DATA PROTECTION ACT

(see Annex 1C)
(Sponsor: NAVY SEC-2 DPA CDPO)

CAT A

a. All personnel, including all members of the Reserve Forces, have rights under the Data Protection Act 1998 (DPA98), in respect of personal data held by the Service about them. Anyone processing personal data must comply with the 8 enforceable principles of DPA 98, which state that personal data must be:

(1) Fairly and lawfully processed.
(2) Obtained only for one or more specified and lawful purposes and shall not be processed in any manner incompatible with those purposes.
(3) Adequate, relevant and not excessive.
(4) Accurate and where necessary, kept up to date.
(5) Not kept for longer than is necessary.
(6) Processed in accordance with the data subject’s rights under this Act.
(7) Secure against unauthorised or unlawful processing of personal data and against accidental loss, destruction or damage.
(8) Not transferred to countries outside the European Economic Area unless that country ensures an adequate level of protection for the rights and freedoms of the data subject.

b. A summary of what personnel can expect from Navy Command TLB in respect of how their personal data is stored and processed, and the responsibilities of the individuals themselves can be found in RNTM 14/10 the ‘Navy Command Personal Information Charter’.

c. Personnel may request copies of personal data held on them, whether in paper or electronic form by applying in writing or by submitting a Subject Access Request (SAR) application form available from your Data Protection Officer. (See Note 1)

d. Following receipt of a SAR, it must be answered within a period of 40 calendar days from the date on which the individual has given sufficient information in order to locate the information sought. This right of access to personal data is subject to exemptions under DPA 98, which include data relating to third parties, data processed for the purpose of the prevention and detection of crime, management forecasts/planning, and legal professional privileges.

e. Personnel may also require inaccurate data relating to them to be rectified, blocked, erased or destroyed.
f. Further guidance on the DPA98 for all Naval Service personnel is available on the Data Protection Act Support site located on the RN Web, accessed via the Defence Intranet homepage.

**Note.**

*Completed SARs are to be sent to:*

Navy Disclosure Cell  
Commodore Naval Personnel Strategy  
Room 48  
Mail Point G-2  
West Battery  
Whale Island  
PORTSMOUTH  
Hampshire  
PO2 8DY
SECTION 6. DISCIPLINE AND SERVICE LAW

(see Chapter 20)
(Sponsor: NAVY LEGAL-DISCIPLINE LAW SO1)

CAT A

a. The right to legal advice, in accordance with the Police and Criminal Evidence Act (1984) and the Service Police Codes of Practice, when under investigation in connection with an offence.

b. The right to be assisted by an Officer or Senior Rating (for example his or her Divisional Officer) as an Assisting Officer when facing a summary hearing under The Armed Forces Act 2006.

c. The right to elect for Court Martial trial in the circumstances prescribed under the Armed Forces Act 2006, having had the opportunity to consult legal advice.

d. The right to appeal to the Summary Appeal Court (SAC) against finding and punishment at Summary Hearing and the right to seek leave to appeal to the Court Martial Appeal Court (CMAC) if convicted before the Court Martial, having had the opportunity to consult legal advice.

e. The right to support and assistance from a Divisional Officer when tried at the Court Martial.

f. The right to legal representation before the SAC, the Court Martial or the CMAC, and when considering exercising the right to elect Court Martial trial or appeal to the SAC. Legal representation will be free of charge if provided by a service lawyer and will be subject to the rules of the Armed Forces Legal Aid Scheme if provided by a civilian lawyer.

CAT B

Investigations by the RN Special Investigation Branch (SIB) should be completed within 4 calendar months, from initial tasking to despatch of final SIB report.

Note. Members of the Reserve Forces become subject to Service law in circumstances detailed in the Manual of Service Law (JSP 830 Chapter 3 Part 1 (Jurisdiction as to Personnel) but any decision on the application, or not, of Service law to them does not constitute an actionable breach of PFS.
SECTION 7. DIVERSITY AND INCLUSION

(see Chapter 30)
(Sponsor: NAVY NPS-DANDI SO1)

CAT A

a. The Naval Service recognises that its people are the most important factor in delivering operational effectiveness and values the diversity and range of individual skills and talents of its personnel. It is resolutely committed to ensuring that all Naval Personnel have equality of opportunity for employment, training and advancement based solely on their merits and abilities and can work in an inclusive environment free from any form of intimidation, humiliation, harassment, bullying or other abuse or unfair treatment.

b. Diversity and Inclusion applies to all members of the Naval Service and Reserve Forces.

c. All necessary steps are to be taken to prevent discrimination on grounds of an individual's gender, sexual orientation, gender reassignment, race and ethnicity, religion or belief (or non-belief), marriage or civil partnership, pregnancy or maternity. The Naval Service is exempt from employment legislation on the grounds of age and disability.

Access to an Equality and Diversity Advisor (EDA)

CAT A

All personnel are to have access to an EDA within their unit who is trained to advise on all aspects of Diversity and Inclusion policy and the MOD complaints process. Whilst individuals are encouraged to approach an EDA within their own unit in the first instance, individuals have the right to approach any EDA should they choose. Individuals should be confident of sensitive treatment by all those responsible for their care.

Informal Resolution

CAT A

All personnel wishing to make a complaint of Bullying, Harassment or Discrimination are to be supported by their chain of command in their attempts to achieve informal resolution. A trained mediator is to be provided where all parties to a complaint are willing to attempt mediation.
SECTION 8. FITNESS, SPORT AND ADVENTUROUS TRAINING

(See Chapter 29)
(Sponsor: NAVY NPS-PEOPLE SPT COTEM PEDSO1)

Physical Development (the trilogy of Sport, Adventurous Training (AT), and Physical Education (PED)) makes an important contribution to the development and sustainment of the Moral Component of Operational Capability by delivering individuals who are mentally and physically robust with a high degree of war-fighting spirit; it also makes a critical contribution in the recruitment and retention of individuals, and the maintenance of high morale.

CAT A

a. **Facilities.** To maintain and improve existing Sport/Physical Training facilities through the provision of new ‘Standardised Approach to Sports Halls’ (SASH) buildings, artificial turf pitches and other sports facilities to scale in accordance with JSP 315 (Scale 48), with special emphasis on the provision of sport and fitness facilities in close proximity to ships, air stations and deployable RM units to enable personnel to maintain a level of fitness at least comparable with the RN Fitness Test (RNFT) and the RM Basic, Combat and Advanced Fitness Tests. Reserve Forces personnel working in a military establishment under FTRS will have access to all sport and physical training facilities. In addition, Maritime Reserve personnel in RNR/RMR units located in military establishments will have access. Remote RNR/RMR will have access through nearest military establishments.

b. **Duty Travel.** To allow all personnel who are members of a Combined Service, Single Service, Command or Unit team in a synopsis or recognised sport, to travel at public expense (JSP 752 Chapter 4 Section 8).

c. **Time.** To promote fitness for operations, fighting spirit and individual well-being, personnel are to be provided with:

1. **Phase 1 and 2 Training.** Five periods (Note 1) of vigorous physical activity (Note 2) per week. For Phase 2 flying training establishments, this should be 5 periods per week during ground training phase, reducing to 2 periods per week during the flying training phase (in accordance with JSP 898 Part 1 Chapter 2.8 Para 3b).

2. **Trained Strength.** Minimum of 3 hours of vigorous physical activity per week programmed as part of the working day (either split over a number of days or as one session) (Note 3).

3. **Reserve Forces.** Reserve Force personnel under training will have physical activity programmed into their course dependant on the length of the course.
d. **Adventurous Training (AT) and Challenging Activities (CA).** At least 20% of unit personnel are to participate in 5 working days of AT/CA each year. Such activity can range from an organised expedition lasting 5 days to a series of 5 individual daily activities and is to be counted as part of standard working hours. The definition, aim and guidelines for AT are contained in **BR 51 Vol 3 and JSP 419.** CA are those activities authorised by **BR 51 Vol 3.** In sum, personnel and managers are urged to take advantage of the increasingly varied facilities and options offered by the Joint Services AT organisations and in particular our own Naval Outdoor Centre (Germany), the Joint Services Adventure Sail Training Centre (Gosport) and the Joint Services Sub Aqua Diving Centre (Devonport) as well as the equipment provided to all units. Your regional ATI is available for advice and guidance. This applies to FTRS FC Mar Res, and 2.5 days AT for Volunteer Reserves.

e. FTRS (except ADC) are entitled to 5 days of AT/CA each year.

### CAT B

a. **Time.** To promote fitness for operations, fighting spirit and individual well-being, personnel are to be provided with:

b. **Phase 3 Training.** 3 periods of vigorous physical activity per week for courses in excess of 4 weeks duration. However, training organisations are to ensure that courses achieve maximum compliancy within resources available.

c. **MARRES AT.** The amount of AT conducted by Maritime Reserves is at the discretion of the RNR/RMR Unit’s CO who will decide whether such training should be paid or unpaid. A maximum of 2.5 days (RNR) / 5 days (RMR) per Training Year may be allowed to accrue for Bounty qualification purposes. Paid AT in excess of 5 days per Training Year is subject to the prior approval of Commander Maritime Reserves.
Notes:

1. A 'period' is defined as being a minimum of 45 minutes duration, programmed as part of the normal training/working day, and is to contain a minimum of 40 minutes of effective activity. Periods can be used for either physical training or sport or a combination and may be delivered through a mix of single and double period allocations providing the minimum requirement for effective activity is achieved (i.e. 40 minutes for each period).

2. Vigorous physical activity is defined as organised, structured and supervised physical fitness programmes including sports (e.g. circuit training; personal fitness programme; team run; Synopsis, Recognised or Approved sports as determined by the Combined Services Sports Control Board; an Olympiad or other activity such as bucket ball that promotes teamwork and fitness). This may be as simple as a personal fitness regime organised by the individual, structured to ensure continual ability to demonstrate at least the fitness required to pass the relevant Service fitness test, and supervised by the Command chain through the reporting system.

3. Time in working hours for physical training is the Command contribution to fitness preparation and maintenance as a constituent element of personal Operational Capability; there is also a personal responsibility to train out of working hours if required to reach/maintain appropriate levels of personal fitness.
SECTION 9. HARMONY

(Sponsor: NAVY NPS-STRATPOL EMPLOY POL SO1)

Naval Service personnel have their Harmony measured by recording Separated Service (SS), which is defined as ‘Absence from normal place of duty or lack of freedom to enjoy leisure at place of duty/residence at work address or leave. Full details of SS reporting and recording requirements are contained within Chapter 26 Section 5 & Section 6. These include when SS will accrue as a result of watch-keeping/shift workers, duties, excessive/late working, on call periods, voluntary waiver scheme and other exceptions which may occur at normal place of duty leading to lack of freedom.

CAT A

a. Except in times of significant war fighting, RN and RM personnel on the trained strength, except badged SF personnel, 3 watch manned personnel (see Annex 22A, Section 9, Cat A, para b) and RN/RM junior officers during their first 10 years on the Trained Strength (see Annex 22A, Section 9 Cat B, para a), will have their individual harmony managed so as not to exceed the threshold of 660 days SS over a rolling 3 year period (expressed as 660/3).

   (1) Geographical Squadded Personnel (GSP) Separated Service will be managed within the GSP System by the unit’s EWO/Cox’n/RSM in conjunction with the DO/Troop Commander, Departmental coordinators/Company Sergeants and/or Career Management Cell on behalf of the Commanding Officer

   (2) For non-Squadded personnel, Career Management (through assignment) and unit/platform programming will be the main processes for managing Separated Service.

   (3) RN and RM personnel returning from a sea going deployment period of 228 days or more (including any mid-deployment leave of up to 2 weeks) will have a 16-month deployment restriction placed on their JPA record by their Career Manager. Personnel will not conduct a major deployment (in excess of 4 months) during the 16-month period following their return, but could be assigned to units at high readiness or sea going units providing there is no plan or expectation of the unit deploying for over 4 months during the 16-month period.

b. For personnel serving in 3 watch manned vessels (3WM) a protected entitlement of 270 days ‘off watch’ over a rolling 3-year period; equivalent to a maximum SS threshold of 825/3.

c. Unless a voluntary waiver has been submitted and approved, an application to breach an individual’s harmony measure must be made, in advance, by the individual’s CO to ACOS(PCap) through DACOS Career Management. This would normally be on the grounds of preserving Unit Operational Capability. If not approved the individual will be assigned to employment (when practicable) so as to reduce their SS total below the appropriate threshold or (if possible) to provide a period of 16 months employment without a major deployment. If the breach is approved, SS continues to accrue and is to be addressed at the earliest opportunity (see Chapter 26 Section 6).
d. Maritime Reserves – under the call out powers of RFA 96, the “Time Out” Policy will apply to Mobilised service personnel such that they cannot be mobilised more than once in the period governed by JSP 753, unless they chose to volunteer.

CAT B

a. All officers of the rank of Lieutenant RN/Captain RM and below, during the first 10 years of service, are to have their SS managed to achieve the maximum amount of Harmony time consistent with their necessary career development and operational necessity; 660/3 remains a desirable standard to achieve. This also applies to badged SF personnel.

b. Overnight duties should be undertaken no more frequently than 1 in 4 for non-watch-keepers when alongside in Base Port and/or parent Air Station or in the Barracks of RM deploying units.

c. Personnel should not work more than an average of 48 hours a week over a rolling 17-week period in accordance with the Guidance on the Working Time Regulations (WTR) for Service Personnel (extant DIN refers). The principles enshrined in the EC Working Time Directive apply, with due regard to the overriding need to maintain operational effectiveness.

d. Whilst individual harmony thresholds are the overriding PFS, Navy Commitments will endeavour to achieve, in priority order, the following desirable objectives when planning and programming non-3WM units, recognising that these objectives do not fit all platform types. Some or even all of sub-paras a-h below are not concurrently possible, especially for Submarines and MCMVs given their numbers, availability, distinct operating patterns and different manning regimes:

1. At least 12 months should exist between major (4 months or more) deployments or operational tours.

2. Deployments/tours away from Base Port, parent Air Station, or parent RM barracks should not be longer than 7.5 calendar months, accepting that a transition to hostility or a specific operational requirement may necessitate longer deployments or tour lengths.

3. Over a 3-year period Ships, Naval Air Squadrons and Ship’s Flights, and RM units should spend at least 40% of their time in their Base Port, Parent Air Station or Parent Barracks respectively⁹. Extraneous tasking of personnel away from place of duty should be minimised to preserve individual harmony time.

4. Look to programme at least 14 days of Operational Stand Down (OSD)¹⁰ for deployments of between 4 and 7.5 months, for deployments of 7.5 to 11 months this will increase to 28 days with one period of OSD of sufficient length and specifically allocated to give families the opportunity to fly out and visit.

⁹ This time is defined as days, or parts thereof, in which the Ship, NAS, RM unit is in their Base Port/Air Station/Barracks and is able to give night leave.

¹⁰ Port visits of 4 days or more duration are included as OSD.
(5) Ships, RM Units, Naval Air Squadrons and Flights should not be deployed for consecutive summer leave periods or for consecutive Christmas leave periods. Deployments during both summer and Christmas leave periods in any 12 months should be avoided whenever possible.

(6) Non-deployed units should have the majority of their summer leave period coincide with Base-Port school holidays so that personnel with families can take leave during that period.

(7) For Ships, leave and maintenance may be coincident, but wherever possible should be separated. For Submarines, leave will usually be coincident, but at least one period within the leave year should be separated from maintenance.

(8) Except when deployed or when the Defence Industry Base dictates, Fleet Time Support Periods should take place at Base Ports. Ships RAMP/DPs are likely to be conducted at Base Port although they will be subject to commercial competition.

(9) Detailed programmes for operational periods should be published 6 months in advance mindful that short notice commitments can occur at any time.
SECTION 10. HEALTH PROMOTION
(Sponsor: NAVY NPS-PEOPLE SPT COTEM PEDSO1)

a. Health Promotion is integral to the Physical Education pillar of Physical Development and aims to reduce injury and illness and promote a healthy lifestyle in order to maximise the number of personnel who are physically fit for their military task and mentally ready for deployment as well as enabling those who leave the Service to be fitter for longer.

b. Health promotion applies to all members of the Reserve Forces in Full Time Service and those on mobilised service and they should have access to information on Health promotion detailed in this chapter.

Smoking Cessation
(Sponsor: NAVY NPS-PEOPLE SPT TEM 1LT)

CAT A

a. All personnel in the Naval Service are to have access to ‘Stop Smoking’ advisors either within the Naval Service or by referral to NHS provided services.

b. All personnel who want to stop smoking are eligible for provision of medicines such as nicotine replacement therapy (NRT) to support cessation.

CAT B
All personnel should have access to carbon monoxide monitoring.

Responsible Attitude to Alcohol
(Sponsor: NAVY NPS-PEOPLE SPT TEM 1LT)

CAT A

a. All personnel are to have access, through a variety of media to education, advice and guidance on the effects of excessive consumption of alcohol. In particular the provision of a formal presentation through the Substance Misuse Lecture that articulates the Naval Service’s policy on excessive alcohol consumption, the dangers associated with such consumption and the avenues available for those in need of help to combat alcoholism.

b. All personnel who commit offences as a result of excessive alcohol consumption will have access to an Alcohol Awareness Course.

c. All personnel will undertake alcohol consumption screening as part of their Periodic Dental check and a Brief Intervention will be offered if appropriate.
Healthy Weight Management  
(Sponsor: NAVY NPS-PEOPLE SPT TEM 1LT)

CAT A

a. All personnel will be able to monitor their body size and health risk level through Body Composition Measurements (BCM) taken by Physical Training staff.

b. All personnel will have access through a variety of media to education, advice and guidance on maintaining a healthy weight.

Sexual Health  
(Sponsor: NAVY NPS-PEOPLE SPT TEM 1LT)

CAT A

a. Access to information on contraception and contraceptive services will be made available to all personnel.

b. Access to information about the prevention of sexually transmitted diseases (including HIV) will be made available to all personnel.

c. All female personnel aged 25 and over will be invited for cervical screening in accordance with the National Cervical Screening Programme.

d. All personnel under the age of 25 will routinely be offered an annual Chlamydia test.
SECTION 11. HEALTH AND SAFETY

(Sponsor: NAVY SSM-CESO HS POL SO1C)

CAT A

a. To ensure, so far as is reasonably practicable the health, safety and welfare at work of all personnel by:

(1) Compliance with the Health and Safety at Work Act 1974 and associated legislation, MOD policy (JSP 815 and JSP 375) and the Navy Command Health and Safety Management System (BR 9147). There may be occasions when activities in the Navy Command are not covered by Health and Safety legislation, in which case the health and safety of Service personnel will be ensured by adherence with MOD policy and BR 9147 which optimise the balance between risks and benefits.

(2) The provision of a healthy and safe working environment.

(3) Arrangements for ensuring safety and minimisation of risks to health in connection with the use, handling, storage and transport of potentially dangerous articles and substances including the provision of all personal protective clothing and equipment as necessary.

(4) The provision of information, instruction, training and supervision to ensure personnel are aware of the need for health and safety at work and thereby enable them to comply with statutory legislation, MOD policy and BR 9147.

b. Health and Safety applies to all members of the Reserve Forces when serving in a MoD environment.
SECTION 12. LEAVE (ABSENCE)

(see Chapter 26)
(Sponsor: NAVY NPS-STRATPOL EMPLOY POL SO1)

CAT A

a. To ensure personnel take the minimum 28 days of annual paid leave, in accordance with the Working Time Directive, each year with timing subject to operational requirements.

b. To provide for personnel to take their Individual Leave Allowance (ILA), as defined in JSP 760, within the leave year that the allowance accrues. Or, where exceptionally for Service reasons this is not possible, to provide for outstanding leave to be carried forward to the new leave year.

c. To provide personnel with a full explanation of the reasons, when, for Service reasons, it is necessary to postpone or stop leave or to recall personnel already on leave.

CAT A – Reserve Forces.

a. Unless otherwise stated Reserve Forces personnel are eligible for the same allocation and types of absence as Regular personnel subject to the type of Reserve service being undertaken.

b. Mar Res (ADC) personnel are entitled to leave on a pro-rata basis in accordance with JSP 760 Chapter 1.

c. Mobilised Mar Res personnel who are deployed on qualifying Operations will be entitled to Post Operational Leave (POL) on a pro rata basis in accordance with JSP 760 Chapter 11.

d. Mar Res personnel are to take leave within the period of their commitment.

CAT B

a. There should be two main periods in the year for taking annual leave, in the Summer and at Christmas. Other long leave is to be granted as convenient.

b. On Shore Service, a day’s Authorised Absence (AA) may be awarded subsequent to a weekend duty. Any non-watch-keeper who is required to keep duty on a Saturday or Sunday or both days may receive one day’s AA in lieu to be taken in the week following the duty. This is subject to CO’s discretion and does not include duty on call when not called in.
c. On joining a dedicated watch-keeping post (including 3 Watch Manned (3WM) vessels or being nominated for shift duties), individuals should be clear of outstanding leave as the opportunity to reduce any balance is restricted due to the stand-down periods determined by local management. Any outstanding balance should be preserved until the end of such an assignment ensuring it is taken prior to the individual's next assignment.

d. Every effort is to be made to ensure personnel take leave prior to and after operational deployments to ensure high leave balances do not accrue.
SECTION 13. LIFELONG LEARNING

Individuals
(Sponsor: NAVY TRG HQ-EL3 SO2)

This Chapter applies to all regular members of the Naval Service, all Reserve Forces serving on FTRS (Full, Limited and Home) and RNR/RMR mobilised personnel - depending on their length of service and their particular eligibility criteria. Certain sections apply to non-full-time Reserve personnel, i.e. FTRS (ADC), RNR and RMR personnel and are highlighted where applicable below.

CAT A

a. To provide Naval Service personnel with the opportunity to access a Naval Service Education Centre (Education Centre, Waterfront Training Centre and e-Learning Centre) and facilitate the use of its full range of activities.

b. To provide all Naval Service personnel with access to a trained Education and Resettlement Officer who can provide impartial information, guidance and advice, on learning and resettlement opportunities.

c. To provide opportunities, including all Reserve Forces, to access on-line learning in all Naval Service Education Centres, including qualifications such as ITQ.

d. To provide a refund of 80% of the fees normally approved for small scale learning activities up to the maximum level specified, via the Standard Learning Credit (SLC). The detailed eligibility criteria can be found in JSP 898, Part 4, Chapter 4.

e. To provide access for eligible Naval Service personnel to enhanced sums of money for approved personal development courses sitting at Level 3 (or higher) on the Qualifications Credit Framework, via the Enhanced Learning Credit (ELC) Scheme. The detailed eligibility criteria can be found in JSP 898, Part 4, Chapter 3.

f. To provide support to personnel deemed to have Specific Learning Difficulties (SpLDs) in accordance with JSP 898, Part 4, Chapter 6 and BR 3, Chapter 96 in order to maximise their learning, training and productive service.

g. To provide all Naval Service personnel, including all Reserve Forces, with a Personal Development Record (PDR) and access to a trained Personal Development Advisor, to enable them to record, review and plan their development.

h. To provide all Naval Service personnel, including Reserve Forces, serving at sea with the opportunity to discuss their personal development with a Naval Education and Training Service (Operations) Officer at least once in a two-year appointment or draft.
i. To partially/fully accredit training to the highest level of recognition in accordance with Defence Policy for Accreditation. To allow Service personnel to gain through-career qualifications for:

   (1) Legislated training (e.g. Health & Safety related qualifications).
   (2) Trade and Branch skills.
   (3) Generic Leadership and Management skills.

j. To provide all new entrants (Ratings/Other Ranks) to the Naval Service with the opportunity to gain an Apprenticeship to the level appropriate to their branch/specialisation or trade within Phase 1 and Phase 2 training.

k. To provide all eligible Naval College Entry and non-graduate Direct Entry Royal Marines with the opportunity to gain a fully funded Foundation Degree and subsequently to provide a funded route to an Honours degree.

l. To provide a recreational and reference library, ashore and afloat.

m. To provide access to language learning aids in support of individual language training, including Reserve Forces.

CAT B

a. To provide the opportunity for Naval Service personnel to attend education classes (e.g. GCSE, Functional Skills, Vocational Qualifications) in Naval Service Education Centres (detailed in BR 3, Part 9 Chapter 96). FTRS (ADC) and RNR/RMR Volunteer personnel may access classes only; personal study is to be within their own time.

b. To provide the opportunity for Naval Service personnel to receive support for Education For Promotion (EFP) requirements, Mathematics and English GCSE in front line units.

c. To provide the opportunity for Naval Service personnel to attend elective civilian courses. The provision of this study time will be subject to the effect on OC of the officer's unit as determined by his/her Commanding Officer.

d. To provide the opportunity to register for study with a Higher Education institution. This includes the eligibility to attend 5 working days on residential study time as Service duty, if a student is registered for 2 courses they may attend a further 5 days, but this will be taken from the student’s leave entitlement.

11 JSP 898, Part 4, Chapter 5.
e. To provide any non-graduate Officer, undertaking study on the In Service Degree scheme, the opportunity to take up to 6 weeks study time in any one academic year. This time will cover: private study, research, summer school attendance, examinations and civilian attachment and should be demonstrably related to some such specific activity. The provision of this study time will be subject to the effect on OC of the officer’s unit as determined by his Commanding Officer.

Family Education
(Sponsor: NAVY TRG HQ-EL3 SO2 & NAVY PERS-PPA SO1)

CAT A

a. To provide the children of Naval Service personnel when serving overseas on an accompanied posting, with an education of a type and standard comparable with that available in England and Wales, through provision of a Service Children’s School or access to apply for an education grant. Continuity of Education Allowances (CEA) may also be available for those entitled (JSP 752 Chapter 9).

b. The payment of Continuity of Education Allowance (Board) (CEA (Board)) or CEA (Day) to entitled personnel to assist Service parents to achieve continuity of education for their children. Members of the Reserve Forces are not eligible for CEA.

c. To provide access to Special Educational Needs Addition (SENA) to entitled Naval Service parents of children with Special Educational Needs (SEN). SENA assists with the costs of additional tuition that those children might require, based upon their certification of SEN as issued by the Children’s Education Advisory Service (CEAS) or a Statement of SEN issued by a Local Authority.

d. To provide advice on all aspects of Service children’s education via the CEAS, based in Upavon (Tel: 01980 618244; Mil: 94344 8244 or by e-mail enquiries@ceas.detsa.co.uk).

CAT B

a. Access to Education and Lifelong Learning advice and Education Resources, including but not limited to Ships’ Library, e-LC and internet, including families of Reserve Forces.

b. Access to Functional Skills and GCSE education through spare capacity in Naval Service Education Centres iaw BRd 3, Chapter 96, including families of Reserve Forces.
SECTION 14. PASTORAL AND SPIRITUAL CARE

(See Chapter 31)
(Sponsor: NCHQ Deputy Chaplain of the Fleet)

CAT A

a. To ensure that all personnel are free to practise their faith and worship within any reasonable constraints imposed by the demands of the Service.

b. To ensure access to a Naval Chaplain, whenever practicable, to provide both faith-specific support and general pastoral support to all service personnel, their dependants, and the Divisional/Regimental System.

c. To provide access to a Civilian Chaplain to the Military (CCM) for appropriate ‘faith-specific’ support for personnel from World Faiths.

d. To guarantee confidentiality for all personnel who approach a Chaplain for counselling or advice in accordance with tri Service policy.

e. To maintain, through the 3 Naval Base Chaplaincies, the availability of a Naval Chaplain at 1 hour’s notice to respond in person or by phone, 24 hours a day, 365 days a year. This applies to Reserve Forces personnel but the availability of a Naval Chaplain at 1 hours’ notice will initially be by phone.
SECTION 15. PAY AND ALLOWANCES

(See Chapter 27)
(Sponsor: NAVY NPS-PPA SO1)

CAT A
NAVY PERS PPA undertakes to:

a. Provide advice to the Centre on Naval Pay and Allowances (including additional pay and allowances, Commitment Bonuses and annual Reserve Bounties) in a timely and accurate manner.

b. To provide advice and guidance to the Service on Pay and Allowance policy and its interpretation in a timely and accurate manner.

c. To update and communicate significant changes in Pay and Allowance policy affecting the Service.
SECTION 16. PENSIONS

(See Chapter 27)
(Sponsor: NAVY NPS-PPA SO1)

Whether a person is eligible to be a member of the Armed Forces Pension Scheme 75 (AFPS75) or 05 (AFPS05) is set out in the Naval and Marine Pensions (Armed Forces Pension Scheme 1975 Act and Attributable Benefits Scheme) (Amendment) Order 2010 or the Armed Forces Pension Scheme Order 2005. Reserve Forces should consult the Reserve Forces Pension Scheme Regulations 2005.

CAT A

NAVY PERS PPA undertakes to provide:

a. Advice to the Centre on pension policy affecting the Service within a timely and accurate manner.

b. To provide advice to the Service on the interpretation and application of regulations governing AFPS 75, AFPS 05 and AFPS 15.

c. To update and communicate significant changes in Pension policy affecting the Service.
SECTION 17. PERSONAL HEALTH

(See Chapter 28)

Service Health Care
(Sponsor: NAVY MED-DACOS HEALTH HNNS)

CAT A
To ensure and regulate provision, at no cost to individual Service Personnel, a balanced and cost-effective medical service which provides for:

a. Primary Healthcare (General Practice, Occupational Health, Rehabilitation, and Mental Health) delivered on all Shore Establishments by Defence Primary Health Care (DPHC), and by Fleet on all Afloat Platforms to a standard at least as good as relevant UK civilian best practice.

b. Access to timely Secondary Healthcare in the UK at least equivalent to that provided by the National Health Service, to standards as laid down by current Surgeon General Policy and Standards documents for the Defence Medical Services (DMS).

Service Dental Care
(Sponsor: NAVY PERS-CM OF MED DENTSO1)

CAT A
To ensure and regulate provision by Dental Services under the command of DPHC, at no cost to individual Service Personnel, dental treatment in accordance with the Surgeon General’s Policy and Standards document, and to a level at least equivalent to the National Health Service. This will include:

a. An initial and subsequent periodic dental inspections and treatment in accordance with policy.

b. Appropriate emergency dental care, dependent on facilities and location.

c. A referral service for appropriate advanced and specialist treatment.

CAT B
To ensure the waiting time for routine appointments will not be greater than 5 weeks.

Health Care – Reserve Forces
(Sponsor: FLEET-ME NAVY MED-DACOS MED OP CAP)

CAT A
To provide medical and dental treatment for the Maritime Reserves in accordance with BR 1991 Annex 17A - Matrix of entitlement to medical and dental treatment.
Family Healthcare  
(Sponsor: NAVY MED-DACOS HEALTH HNNS)

**CAT A**

To ensure and regulate provision by DPHC access to healthcare, at MOD expense, for families, when serving overseas on an accompanied posting, of a type and standard broadly comparable with that provided by the NHS in the UK. Dental care is charged at NHS banded rates. The MOD will ensure repatriation of dependants in need of specialist or emergency care that cannot be provided abroad.
SECTION 18. RESETTLEMENT

(Sponsor: NAVY TRG HQ-EL3 SO2)

The Transition to Civilian Life

JSP 534 – The Tri-Service Resettlement Manual sets out the resettlement entitlement for all Service personnel including Reserve Forces\textsuperscript{12}.

CAT A

a. To assist all Naval Service personnel in making a successful transition to civilian life by:

(1) Providing the opportunity for all personnel to obtain resettlement advice and information at any stage of their career.

(2) Providing personnel with access to resettlement provision through 1st, 2nd and 3rd Line resettlement advisers.

(3) Providing resettlement assistance on a graduated basis, both in terms of provision and time available, according to length of service.

(4) Providing the opportunity for entitled personnel, exceptionally, to apply to defer discharge, commensurate with any unused period of Graduated Resettlement Time (GRT), for resettlement purposes and where this is not appropriate to exceptionally apply for post discharge resettlement.

(5) Refunding a portion of the fees incurred on approved courses up to the maximum level specified.

(6) All entitled personnel leaving the Service to take terminal leave on the basis of 1 day for each completed month of service subject to a minimum of 5 working days and a maximum of 20 working days.

b. Providing the opportunity for eligible personnel to take time from normal place of duty to attend resettlement activities (consultancy sessions, finance and housing briefings, Career Transition Workshops, modular workshops, seminars, internal and external training courses, work attachments, and individual resettlement preparation) subject to certain criteria being met, on a can-be-spared basis.

c. Service Leavers with 4 or more years’ service and who have membership of the Armed Forces Enhanced Learning Credit Scheme will have the opportunity to achieve their first full Level 3 qualification (A level or vocational equivalent) or a first foundation or first undergraduate degree free from tuition fees iaw JSP 898, Part 4.

\textsuperscript{12} JSP 575 covers Early Service Leavers
a. All RN and RNR personnel who complete a minimum of 12 years by their final day in service receive the following valediction upon retirement:

(1) Commanders and below. A Certificate of Valediction signed by 2SL.

(2) Ratings. A Certificate of Valediction signed by 2SL (Valediction will not be produced for personnel required to leave the Service for disciplinary reasons).

b. Additionally, any Rating, regardless of the time served, who has made an outstanding and significant contribution to the Naval Service during their tenure in the Service, can receive a CO's Valedictory Letter.

c. RMORs may receive a Valedictory Certificate and Testimonial.
SECTION 19. SPECIALIST WELFARE

(See Chapter 24)
(Sponsor: NAVY NPS-PEOPLESPT RNRMW ASW O1)

**CAT A**

To provide comprehensive information, advice and support services to Royal Navy and Royal Marines personnel and their families, and mobilised reservists including FTRS, by:

a. The provision of the Royal Navy & Royal Marines Welfare (RNRMW) employing serving and civilian staff who are qualified and trained.

b. RNRMW provides confidential advice, assessment, support and/or practical help within the following timescale:

(1) Priority requests for investigation or assistance will be responded to within 24 hours.

(2) Routine requests will be responded to within 3 working days.

c. The provision of the RNRMW Information Support Service.

d. The promotion of community development amongst Naval personnel, their immediate families and extended families, wherever they live, so as to reinforce their ability to withstand the stresses of Service life, particularly arising from operations.

e. The RNRMW Portal can be used for all enquiries relating to personal or family issues, community development and welfare/information service, however, staff at the RNRMW Hub/Satellite offices are available for face-to-face discussions where necessary.

(1) The contact details for the RNRMW Portal are:

Tel: (Mil): 9380 28777 (Civ): +44 (0)23 9272 8777
E-mail: navypers-welfare@mod.uk

(2) The RNRMW Portal will operate during office hours 0800-1630 Mon–Thurs, 0830–1600 Fri. Outside of these hours, contact may be made with the Officer of the Watch, details below, who may direct callers to the Out-of-Hours service for emergency provision.

(3) Scotland Area – 01436 674321 Ext 4005

Eastern Area – 02392 726159
Western Area – 01752 555220
RM Stonehouse – 01752 836395
Central Area – 01935 455444

f. The provision of Forces Line which is available Mon-Fri 0900-1730. Tel: 0800 731 4880
SECTION 20. THE ROYAL NAVY DIVISIONAL AND ROYAL MARINES REGIMENTAL SYSTEMS

(See Chapter 21)

Royal Navy Divisional System

(Sponsor: NAVY NPS-EXEC SO1)

**CAT A**

a. To promote career development, high motivation and morale by maintaining the Divisional System and providing for every Rating and Officer (see Note 1):

(1) Regular access to a nominated and formally trained Divisional Officer (DO) for advice on Service, career and private matters (see Note 2).

(2) Allocation to a Division consisting of no more than 15 including Divisional Senior Rate(s) if in the same reporting chain. Leading Hands should be included in the Divisional management chain (see Note 3 for exceptions).

(3) Divisional meetings to be held at least three times a year. Minutes from Divisional Meetings are to be forwarded to parent Flotilla Staff and a summary sent to Fleet FXO; Para 2124 Refers.

(4) On changing DOs, within units or when reassigned, a ‘Hot Handover’ must be conducted between respective DOs; Para 2151 refers.

b. All personnel involved in the management of the Divisional System are to be properly trained and fully conversant with BR3 Chapter 20. DOs must have completed the Divisional Officers’ Course (DOC) no longer than 6 months before, and not after, assuming responsibility for their first Division.

c. Contact is to be maintained by DOs or nominated SM 5th Officers or SRs with personnel detached, for whatever reason, from their unit, (recommended at least once every 14 days), until the individual either returns to the unit or is re-assigned. If Ships Staff or Landed Officers / SRs are not available (Leave / Courses etc) then this responsibility vests with the parent Flotilla Staff.
Notes:

1. Whilst the RN Divisional System is mandated for the management and care of ratings, it is implicit in the term ‘Command’ that the same standards are expected and are applied to all subordinates (irrespective of their rank).

2. Increasingly, RN personnel are deployed as Individual Augmentees (IAs) to Land Theatres and in an operational environment they also require access to single Service information and admin support. A theatre RN Divisional structure with a Senior Divisional Officer and Divisional Leaders is to be established for all IAs to supplement, but not supersede existing J1 organisations and personnel support.

3. The number of ratings in a Division may exceed this figure in those billets where Divisional Officer duties are the prime task, such as in New Entry Training Establishments and Recovery Cells. In all cases, the correct level of divisional care is to be afforded at all times.

4. Spouses, Partners or personnel in long term relationships or former relationships should not act as Divisional Officers, Divisional Senior Rates or Reporting Officers for each other.

CAT B

As a guiding principle, Divisional Senior Ratings (First Reporting Officers) should have divisional responsibility for no more than 14 ratings. Subject to unit composition, the Unit Divisional System should be designed around this principle. Exceptions to this principle should be reported to the unit’s parent Flotilla Staff.

Royal Marines Regimental System
(Sponsor: NAVY NPS-EXEC SO1)

CAT A
To promote career development, high motivation and morale by maintaining the Regimental System and providing for every individual on joining his/her unit:

a. To be allocated to a Troop, Company or Department.

b. To have regular access to his/her Troop/Company Commander or Head of Department for advice on Service, career and private matters.

Reserve Forces
(Sponsor: NAVY NPS-EXEC SO1)

CAT A
Reserve Forces. The RN Divisional and RM Regimental systems apply to all members of the Reserve Forces.
SECTION 21. TRAVEL

Duty Travel
(Sponsor: NAVY NPS-PPA SO1)

CAT A

a. All personnel required, and authorised, to travel on duty may do so at public expense by the most economical means available (JSP 752 Chapter 4).

b. Class of Travel. For all personnel authorised to travel on duty by rail or ferry, the class to which they are entitled by rank or rate is detailed in JSP 752 Chapter 4. All personnel authorised to travel on duty by air should travel at the class to which they are eligible by rank or rate, except where the length of the journey is also a factor in determining class of travel. However, travel by MOD Charter or on NATO duty will be at economy class (JSP 752 Chapter 4).

c. Given current financial constraints, the Naval Service is unable to fund routine duty travel to the standard laid down in JSP 752. Further direction on travel is provided in NAVY/CS/747/10 dated 27 Jul 10, D/PUS/11/1 (150) dated 2 Apr 12 and 2012DIN01-250. This mandates Standard or Economy Class travel in most circumstances. If these financial constraints prevent an individual travelling by the method/class determined in JSP 754 & JSP 800, personnel may elect to travel by the cheaper means. If they are unwilling to do so they are authorised to decline to attend the duty event.

d. The payment of Subsistence Expenses, and where appropriate, the provision of accommodation via the Defence Hotel Reservation Service (DHRS) to reimburse actual allowable accommodation and food costs necessarily purchased when travelling on duty or detached duty, within MOD limits (JSP 752 Chapter 3 Sections 1 and 2).

e. Travel allowances apply to Reserve Forces personnel provided they meet the criteria detailed in JSP 752.

Leave Travel
(Sponsor: NAVY NPS-PPA SO1)

a. For all eligible personnel serving in the United Kingdom or in HM Ships based in the United Kingdom to be granted appropriate ‘Get You Home’ (GYH) leave travel assistance in accordance with the current regulations (JSP 752 Chapter 5 Sections 1, 3 and 5).

b. For entitled personnel to transfer a specified number of their GYH (Seagoers) and GYH (Early Years) warrant entitlement to their family (JSP 752 Chapter 5 Sections 1 to 3).
Additional Entitlements
(Sponsor: NAVY NPS-PPA SO1)

a. For entitled personnel in Personal Status Categories 1 or 2 to receive a specified entitlement to School Children’s Visits to enable eligible children of SP in receipt of CEA to visit them at their place of duty, subject to a personal contribution (JSP 752 Chapter 4 Section 10).

b. For personnel serving in a ship displaced from the Base Port for refit etc, to receive one extra GYH (Seagoers) warrant to return to the Base Port for each period of 30 consecutive days spent at the Refit Port within a prescribed limit where no Base Port change has taken place (JSP 752 Chapter 5 Section 3).

c. For entitled personnel granted specified leave and serving on the permanent strength of a resident unit in Northern Ireland to be granted a specified number of Northern Ireland Journey travel entitlements (JSP 752 Chapter 6 Section 3).
SECTION 22. UNIFORM AND SPECIALIST CLOTHING

(See BRd 3 Part 6)
(Sponsor: NAVY LOG INFRA-OPS SC POL SO1)

CAT A

a. To provide uniform, specialist and protective clothing through a Joint Business Agreement with the Defence Clothing IPT (DC IPT), to enable personnel to comply with standards of dress and scales of entitlement set in BRd 3 Part 6 (Naval Service Uniform Regulations) and to provide them with clothing appropriate to the environment in which they are serving by:

(1) A gratuitous issue of:

   (a) Initial uniform outfits and accessories.

   (b) Ratings/RMORs badges on advancement/promotion.

   (c) Tropical clothing to personnel on their first qualifying overseas draft/appointment.

   (d) Cap ribbons to personnel in Class 2 Uniform on joining a new unit.

   (e) Maternity uniform on the first occasion of need.

   (f) Specialist clothing on personal or individual loan.

(2) For Ratings/RMORs, free replacement of compulsory items on a fair wear and tear basis.

(3) The sale of Uniform Clothing to officers (JSP 886 Vol 6 Part 5 Section 3 Annex A Para 37).

b. To sponsor, through the DC IPT, or as appropriate, by authorised local unit arrangements, contracts to provide at public expense:

(1) **Tailored uniform to:**

   (a) Personnel promoted into the Senior Rating Structure (No 1 Suit only).

   (b) RN and RM officers on entry.

   (c) All Senior Rates/NCOs and Junior Rates/ RMORs when replacement is required.

   (d) New Entrants to HMS RALEIGH and CTCRM Lympstone (including RM Musicians/Buglers).
(2) **For Ratings/RMORs:**

(a) The repair of parade boots and Service court shoes. *(JSP 886 Vol 6 Part 5 Section 3 Annex A).*

(b) The necessary alteration of uniforms.

(c) The sewing on of badges and medal ribbons.

(3) For embarked personnel and personnel serving in certain posts ashore the laundering, at the required frequency, of all specified clothing for officers and ratings *(within the terms set out in JSP 886 Vol 6 Part 5 Section 5 Annex C).*

(4) The provision of clothing to personnel outside of the standard size range.

c. The provision of Officers’ Uniform Income Tax Relief to assist officers in the maintenance of uniform clothing.

d. The provision of a cash grant to RN and RM Officers/WO1s to enable:

   (1) The purchase of some items of initial uniform outfit by RM officers in accordance with **BRd 3 Part 6**.

   (2) The lacing of uniform suits on promotion or reversion from an acting higher rank.

   (3) The tailoring and fitting of Aiguillettes and Royal Cyphers for entitled personnel.

   (4) The purchase of certain items of temperate and tropical clothing as scaled in **BRd 3 Part 6**.

   (5) The replacement of clerical vestments necessarily used in the conduct of Divine Service and for which an initial cash grant was not made.

   (6) RM personnel promoted to WO1 to purchase uniform clothing not available from service sources *(see Annex 40C).*

e. Payment of an allowance when civilian clothes are required to be worn on duty by ratings and RMORs *(JSP 752 Chapter 8 Sections 2 and 3)* and a one-off grant to contribute towards the costs incurred by female ratings who are required to purchase items of clothing that are not issued to them at public expense *(JSP 752 Chapter 8 Section 2).*

f. The development and maintenance of ranges and stocks of uniform and specialist clothing and equipment.

g. To identify additional items required to meet a new capability or major enhancement, for introduction through the Acquisition Cycle.
h. Maritime Reserves – Uniform and Specialist Clothing standards apply to all Maritime Reserves subject to BRd 3 Part 6 regulations.

C. BR 1991 Chapter 10 (Medical Complaints)
D. JSP 754 Chapter 1 Section 3 Annex C (Pay Complaints)

SECTION 1 - GENERAL MATTERS

2301. Representation or Complaint - Definitions

  a. **Representation.** A Representation is a question or suggestion, orally or in writing, about any Naval Service matter, whether personal or general, that an individual may wish to be considered by a higher authority. A Representation may not seek personal redress whereas a Service Complaint will seek personal redress.

  b. **Service Complaint.** The Armed Forces Act 2006 (AFA 06) gives a person who is subject to Service law and who thinks they have been wronged in any matter relating to their Service a right to make a formal statement of complaint which, subject to satisfying admissibility criteria, is referred to as a ‘Service Complaint’. This is a statutory complaint in respect of which redress may be sought and granted. It is made under AFA 06 and in accordance with the policy laid down in JSP 831 and, in the case of formal complaints which make allegations of bullying and harassment, JSP 763. A person who is no longer subject to AFA 06 who thinks that they were wronged in a matter relating to their Service while they were subject to Service law has the same right to make a Service Complaint. A complainant who wishes to make a Service Complaint is to submit a statement of complaint to a “Specified Officer”. The Specified Officer is usually the complainant’s CO or, for ex-Service personnel the CO of their last unit, but see below for further guidance. The statement of complaint is to be made in writing preferably in the format set out at Annex F to JSP 831/763, signed and dated. The Specified Officer will decide whether or not the statement of complaint is admissible as a Service Complaint (see below) – i.e. the ‘Gateway decision’ - and will inform the complainant accordingly.

  c. **Informal Complaint.** The term ‘Informal Complaint’ is used to cover all complaints which are non-statutory (i.e. not a Service Complaint). They may be made orally (except where a relevant special-to-type procedure requires a written complaint to be made). They include the custom by which a complaint of an immediate nature, other than about food, may be taken before the Officer of the Watch or the Officer of the Day. Similarly, they include the customary procedure by which complaints of an immediate nature about food in HM ships and establishments under the General mess system may be made. They also embrace informal complaints of bullying and harassment in accordance with JSP 763 or complaints made under special to type procedures eg, in relation to pay. An informal complaint may become a Service Complaint if it is submitted in writing to the “Specified Officer” in accordance with JSP 831 and/or JSP 763 and is deemed admissible by the Specified Officer.
d. **Combinations.** Every Naval Service person has the individual right to make known to the relevant person in the chain of command any Representation, proper cause of Service Complaint or Informal Complaint relating to their Service. Individuals are not to act together in bringing a Representation, Service Complaint or Informal Complaint, either by the appointment of committees or in any other manner; nor are they to collectively sign petitions (including via social media) or applications, nor obtain signatures to such documents. Each individual must make their own Representation, Service Complaint or informal complaint. Joint Representations or informal complaints by two or more persons are prohibited as being contrary to the traditions and practice of the Service and injurious to its welfare and discipline. As far as Service Complaints are concerned, legislation made under AFA06 prohibits the submission of a joint Service Complaint.

e. This chapter provides information on the handling within the Naval Service of Representations, Informal Complaints and Service Complaints (SCs) under the Armed Forces Act 2006 (AFA 06). It complements but does not supersede the tri-Service policy set out at References A and B and should be considered alongside other single Service guidance contained in BRd 3(1) Chapter 22 (PFS).

f. Personnel who submit a Representation, an Informal Complaint or a Service Complaint, or who are required to assist a Complainant (eg. as an Assisting Officer) or otherwise investigate, staff or decide on a Representation, Informal Complaint or Service Complaint are to make themselves aware of both the relevant References above and the relevant contents of this chapter and are to follow the detailed direction and guidance contained within them.
SECTION TWO – SERVICE COMPLAINTS

2302. Statutory Right to make a Service Complaint and its relationship to Employment Tribunals

For all Service personnel, including reservists, the statutory right to make a complaint is provided in law under s.334 of AFA 06. An SC must have been submitted before an Employment Tribunal (ET) has jurisdiction to hear an application from a Service person, guidance on the related area of handling ET casework is also provided at Section 4 of this Chapter.

2303. Sources of Information

Reference A is the authoritative source of tri-Service policy for the management of Formal/Service Complaints. Reference B prescribes the quad-Service procedures to be followed when handling complaints that allege bullying and harassment. References C and D set out the special to type procedures for complaints related to medical and pay matters.

2304. Introduction to the Service Complaints Procedure

a. The Armed Forces (Service Complaints and Financial Assistance) Act 2015 provided for the creation of the role of an Ombudsman and for greater power to be devolved to the Chain of Command which in turn, aims to make the Service Complaints process quicker and improve open communication as well as delivering a system that is fairer, more efficient and more effective. The process strikes a balance between maintaining the authority of the Chain of Command, which must be responsible for looking after its people, and a strong, independent oversight through the Ombudsman. The Ombudsman has a more powerful, independent voice on the Armed Forces’ complaints system, holding the Services to account and in turn giving confidence to personnel that their concerns are being looked after properly.

b. A ‘complaint’ or a ‘statement of complaint’ will not become a ‘Service Complaint’ until it has been ruled admissible by a Specified Officer (usually the complainant’s Commanding Officer). Once a complaint has been accepted as a Service Complaint it will need to be forwarded to the Navy Service Complaints Secretariat, using e-mail address NAVY LEGAL-SC ALLOCN MAILBOX (MULTIUSER), who will appoint a Decision Body (DB) to investigate and decide upon the complaint. A DB will, in most cases, consist of a single Service officer but may, where necessary, be a panel of two or more Decision individuals. The DB may or may not be the complainant’s CO as, crucially, the appointed DB must have the authority to grant appropriate redress in the event that the SC is partially or fully upheld. In the event that a complainant is not content with the decision of the DB, they may (but not in all circumstances) be able to refer their SC to an Appeal Body (AB) which may consist of a single Service officer but may, where necessary be a panel of two or more individuals, one of whom may be an independent member. Tri-Service policy on the management of Service Complaints is set out in Reference A and also in Reference B in so far as it relates to the procedures for handling formal complaints which contain allegations of bullying and harassment. Tri-Service policy is to be followed in all cases, including the recording of Service Complaints on JPA (see also Paras 2326-2326 below).

1 Formal Complaints of bullying and harassment are a class of Service Complaint.
2305. **Service Complaints Ombudsman for the Armed Forces (SCOAF)**

The Service Complaints Ombudsman for the Armed Forces (SCOAF) is a Crown Appointment that has significant powers, including being able to investigate whether an individual’s complaint was handled correctly or whether there was undue delay in the process. The Ombudsman may also be able to investigate the substance of a complaint in some circumstances, however, in this instance the internal complaints process must be completed first. Full details of when the SCOAF can be asked to review a decision or investigate a SC and how to contact the SCOAF’s office are in JSP 831 and at www.scoaf.org.uk.

2306. **Definitions**

In this chapter and its annexes, the following definitions apply:

a. **Statement of Complaint.** In order to become a Service Complaint, a formal complaint must be submitted in writing, signed and dated – preferably using Annex F to JSP 831 or JSP 763. It is to be submitted to the Specified Officer. The statement of complaint will become a ‘Service Complaint’ only once it has been clarified and deemed admissible (in part or in full) by the Specified Officer (SO).

b. **Specified Officer (SO).** The officer, usually the Commanding Officer, of a complainant to whom a statement of complaint should be submitted initially for a decision on admissibility as a ‘Service Complaint’. For ease of reference ‘CO’ will be used below to mean the Specified Officer but it is important to note that there will be occasions when the Specified Officer is an officer other than the complainant’s CO (see para 2310).

c. **Single Service Secretariat.** For Navy Command, the Single Service Secretariat is the Navy Service Complaints Secretariat, to whom all admissible SCs are to be sent via NAVY LEGAL-SC ALLOCN MAILBOX (MULTIUSER). From here the SC will be allocated to a DB. The same e-mail address is to be used for requesting referral to an AB. In the absence of the Navy Service Complaints Secretariat, CNLS SO1 Service Complaint Law has appropriate delegations and is authorised to undertake the actions where the Navy Service Complaints Secretariat is named.

d. **Decision Body (DB).** The DB is one or more individuals who have been assigned by the Navy Service Complaints Secretariat to investigate and make a decision on a SC.

e. **Appeal Body (AB).** The AB is one or more individuals who have been assigned by the Navy Service Complaints Secretariat to consider and make a determination on an appeal against a decision taken by a Decision Body.

f. **Service Complaints Ombudsman for the Armed Forces (SCOAF).** Independent to the MOD, the SCOAF can investigate certain matters on application by the complainant. Full details are in JSP 831.

g. **Defence Council.** In the context of this paragraph, the term Defence Council means either the Defence Council itself or the Admiralty Board of the Defence Council acting with the full delegated powers of the Defence Council.
h. **Navy Service Complaints Secretariat.** The Navy Service Complaints Secretariat section is the organisation which is part of Commodore Naval Legal Services (CNLS) that manages Service Complaints for the Naval Service. CNLS is the lead for Naval Service Complaint policy and procedure and the focal point for the case management of Employment law and Administrative law litigation.

i. **Hd NPS Personnel Policy (PPOL) Diversity and Inclusion (D&I).** Hd NPS PPOL D&I is a sub-section of the Head Naval Personnel Strategy’s Division that advises on all aspects of D&I policy and also D&I complaints procedures.

j. **Harassment Investigating Officer (HIO).** Harassment Investigating Officers (HIOs) are those appointed to investigate formal complaints of bullying and harassment – in Navy Command this will usually be a member of the Complaints Investigation and Mediation Team (CIMT), but alternatively may be a civilian Fee-Earning Harassment Investigating Officer.

k. **Special to Type (STT).** Special to Type procedures exist to resolve certain types of complaint. These include complaints about Service Medical Care, Service Housing and Pay and Allowances complaints.

2307. **Flow Diagram**

Annex 23A provides a flow diagram of the reformed SC management process for Navy Command. The flow diagram is designed to be used as a supplement to, and not as a substitute for, the SC handling policy set out in JSP 831 and JSP 763. Its purpose is to act as an aide memoire in showing those complaint management actions required by personnel outside the Navy Service Complaints Secretariat which are additional to those set out in the tri-Service guidance at JSP 831 and JSP 763.

2308. **Time Limits for Dealing with Service Complaints**

a. The MoD and the SCOAF require 90% of all Service Complaints to be completed within 24 weeks, irrespective of whether they have been finally resolved at the Decision Body stage or the Appeal Body stage. It is therefore essential that SCs are progressed with the utmost efficiency at all times to achieve a final outcome within 24 weeks. Time commences from the point at which a Specified Officer informs the complainant of their decision on whether the formal complaint (or parts of it) are admissible and therefore has become a Service Complaint. There are a number of steps that must be taken prior to the decision on admissibility (see Para 2312 to Para 2316) and they must be conducted expeditiously to avoid criticism or a finding of maladministration if the delay is referred to the SCOAF for investigation. To this end, the following time limits are to be applied:

(1) Commanding Officer (or other Specified Officer) – to write to the complainant and formally acknowledge receipt of the statement of complaint/Annex F. The letter must include the JPA reference number which is generated when the complaint is logged onto JPA.
(2) Commanding Officer (or other Specified Officer) – to write to the complainant with a decision on admissibility within 2 weeks of the date of the statement of complaint/Annex F, having met with the complainant and undertaken necessary preliminary actions/enquiries and sought legal advice (see Para 2312 to Para 2315).

(3) Decision Body for SC’s not requiring investigation by an HIO – to write to the complainant with a decision within 12 weeks of the date of the SC.

(4) Decision Body for SC’s requiring investigation by an HIO – to write to the complainant with a decision within 14 weeks of the date of the SC.

(5) Following a valid appeal by the complainant, the Appeal Body is to decide the appeal within 10 weeks of the date of the Decision Body decision, or within 24 weeks of the admissibility date of the complaint, whichever is sooner.

b. These targets are maximal and Officers handling SCs should make every effort to ensure that their actions are completed at the earliest opportunity. This is most important for COs making admissibility decisions and DBs deciding on the SC given that, if either of those decisions are referred to the SCOAF or appealed against, any further investigation, provision of legal advice, disclosure, decision-making, and communication also has to be completed within the overall 24 week timeline.

2309. Submission of Service Complaint

a. A statement of complaint should be submitted in the prescribed format (Annex F to JSPs 831 and 763) within 3 months of the alleged wrong occurring. The statement must be written, dated and signed by the complainant. Although a statement of complaint can initially be submitted in any written format (provided it is dated), the Annex F provides a ‘check list’ which ensures that all necessary information is recorded and provided to the CO. Where a statement of complaint is submitted in an alternative format, the complainant should be encouraged to complete an Annex F at the earliest opportunity, but this should not delay processing or consideration of the complaint. It is essential that the complaint sets out clearly the specific matters complained about as well as the other information listed in JSP 831.

b. It is the CO’s responsibility to ensure that the complainant is offered the help of an Assisting Officer (AO) to draft their statement of complaint/Annex F. This should be done as soon as the Command becomes aware that an individual may wish to submit a formal / Service Complaint eg. on receipt of a referral by the SCOAF. The AO may be a commissioned officer, Warrant Officer, senior rating/SNCO, or civil servant of equivalent grade and must not be involved in processing or deciding the complaint, they should not be someone who is (or may be) asked to be a witness and they should not have a personal interest in the outcome.
c. JSP 831 and BRd 3(1) Annex 23I provides advice on the role of the AO. Normal Naval Service practice would be for the DO/DSR or Tp Cdr/Tp Sgt to provide such assistance. The appointment or not of an Assisting Officer must be recorded on JPA to allow statistical analysis. This should be entered into the 'Other Related Objects' free text section and, where an AO has been appointed, the date of appointment should also be recorded. This will allow the unit to demonstrate adherence to correct procedure.

d. Former Naval Service personnel, who wish to make a complaint after they have left the Service, should, in the first instance, request an Annex F\(^2\) from their last CO (or the officer succeeding them in post if they have moved on) and return the completed form to that CO with any supporting documentation for consideration. Ex-Service personnel should be assigned an Assisting Officer as required.

e. The procedure at BRd 3(1) Para 5448 should be followed where an individual wishes to make a Service Complaint against Discharge SHORE/SNLR.

f. Disciplinary or administrative action may be taken against a person who makes a Service Complaint or informal complaint which is knowingly false, disrespectful or insubordinate or subversive of discipline, but no one is to be victimised for simply submitting a Service Complaint or expressing a wish to do so.

2310. Service Complaint Made Against a Commanding Officer

Where a Service Complaint concerns the CO personally eg. a complaint about a decision made by the CO, an action the CO has taken or conduct by the CO which amounts to bullying or harassment, the complaint should be submitted to the next immediate superior in the chain of command. For example, a complaint which implicates the CO of a FF/DD/SSN/SSBN would be submitted to COMPORFLOT, COMDEVFLOT or CAPFASFLOT (as appropriate). Where there is any doubt, advice must be sought from the appropriate Navy Service Complaints Secretariat as to whether the CO is precluded from handling a complaint. Where the CO and immediate superior are precluded from dealing with a complaint, the Navy Service Complaints Secretariat should be requested to organise the nomination of an appropriate ‘bespoke’ Specified Officer.

2311. Time Limits for submitting a Service Complaint

A complaint must normally be submitted within 3 months of the incident complained of, or, if the matter is on-going, within 3 months of the last occurrence of the incident. A complaint submitted outside of the applicable time limits will only be accepted if it is ‘just and equitable’ to do so (see JSP 831), therefore it is essential that any reasons for late submission of a complaint are clearly set out in the Annex F. Failure to set reasons out in the Annex F will cause delay as COs must obtain reasons for delay/late submission from complainants before ruling a SC inadmissible for being out of time. Where a Special to Type (STT) process must be exhausted first, the 3 months commences from the date the final outcome of the STT process was notified to the complainant. Occasionally, a complaint may be capable of being pursued under the Equality Act 2010, in which case longer times for submission apply; legal advice should be sought in good time to verify this.

\(^2\) JSP 831 is also available on the Internet.
2312. Preliminary Steps upon Receipt of a Statement of Complaint

a. Upon receipt of a statement of complaint/Annex F, the complainant’s CO must take some important preliminary steps, as follows:

(1) The complaint must be logged onto JPA – see Para 2325 to Para 2326 below.

(2) The complainant must be offered a nominated AO if they do not already have one – see JSP 831 and Annex 23I.

(3) The statement of complaint must be acknowledged within 48 hours of receipt using the template at Annex 23B (note that this template is specific for Navy Command and should be used in preference to the template provided in JSP 831). The letter of acknowledgement must inform the complainant of the JPA number of the complaint, that the CO will assess the complaint against the admissibility criteria (see JSP 831) and that it will not be accepted as a ‘Service Complaint’ unless it meets those criteria.

(4) The CO (or an appropriately nominated deputy) must meet with the complainant (and their AO if required) at the earliest opportunity and prior to making a decision on admissibility. The aims of the meeting will usually be four-fold, namely: to reassure the complainant that their complaint has been received and is being taken seriously; to clarify the complaint so that the issues being complained about (and therefore the areas of investigation – including, specifically, the identity of any respondents) are crystal clear from the outset; to ensure that the complainant is sufficiently supported by their AO and/or their line management/other agencies as required; and to assess whether informal resolution - including mediation - has truly been exhausted or may still be appropriate. While all elements of the meeting are important, clarifying the complaint is a vital preliminary step; experience shows that complaints are often submitted which are confused and do not make clear precisely how the complainant feels wronged. A clear and distilled summary of the complaint must be included in the SCAF so that it is instantly recognisable what the heads of complaint and redress sought are. It is entirely appropriate for a CO to ask the complainant to re-submit an amended/clarified Annex F following their meeting with them, but this should be done quickly and the original date of complaint is to remain.

b. Upon receipt of a formal complaint of Bullying and Harassment (B&H), if the complainant and respondent(s) work in the same department or unit, the CO will need to make an assessment of the potential requirement to separate or manage move one or more of the individuals concerned. In this instance, as well as meeting with the complainant, the CO will need to conduct an initial interview with the respondent(s) in order to assess necessary management action. Where a decision is taken to separate the parties, it should be made clear that doing so is a neutral act, ie. no pre-judgment of the merits of the complaint has been made at that stage. The respondent(s) will need to be made aware of the complaint made against them and should meet (accompanied by their AO if desired) with the CO to provide an outline (but no more) of their response.
c. Because the formal B&H complaint has not been ruled admissible as a ‘Service Complaint’ at this time, the CO must take care not to stray into investigating the complaint or of forming a preliminary view on the merits of the complaint – the CO will be required to do this only in the event that the complaint is admissible as a SC and the same CO is appointed as the DB by Navy Service Complaints Secretariat for the SC (see below).

d. It is essential that, upon receipt of a statement of complaint/Annex F about bullying and Harassment, ALL options of informal resolution are explored. One option is formal mediation. While informal ‘mediation’ may be attempted by others such as Divisional Officers or EDAs, formal mediation may ONLY be conducted by trained mediators – in the Naval Service formal mediation is provided by the Complaints Mediation and Investigation Team (CIMT). Formal mediation should always be explored but cannot be imposed; both the complainant and the respondent(s) must consent to formal mediation. Experience shows that many personnel are unaware of how mediation is conducted or that it can be immensely successful when conducted by trained mediators. Complainants and respondents who are asked to consider formal mediation should be advised by the CO, prior to making an admissibility decision, to contact CIMT at the earliest opportunity to discuss how it works and whether mediation would potentially work for them. Formal mediation can occur at any time, however, it is preferable if it conducted prior to an admissibility decision being made and reasonable time should be allowed for this option to be explored and, if applicable, conducted. If an admissibility decision is delayed pending formal mediation this MUST be recorded on JPA.

2313. Admissibility – the Gateway Decision

a. Having undertaken all the above preliminary steps, the CO must consider whether the statement of complaint/Annex F meets all the criteria to be admissible as a formal Service Complaint. This is known as the ‘Gateway Decision’ and is a matter of law which is of utmost importance - COs are therefore required to seek legal advice on their provisional decision on this matter. When considering admissibility, COs are to complete Part A of the SCAF (Version 3) at Annex 23C and draw a provisional conclusion on admissibility. They must then pass (preferably by e-mail) the statement of complaint/Annex F, any supporting documentation provided by the complainant, and the SCAF to the Navy Service Complaints Secretariat who will advise them on admissibility and/or the need to refer the matter to the Service Police or advise the complainant to use a ‘Special to Type’ complaints procedure first for complaints involving eg. medical, pay and allowances or housing issues. The final decision on admissibility rests with the CO. The CO is to seek legal advice on admissibility within 5 working days of receipt of the statement of complaint – any delays (such as where the complainant requires time to amend or clarify their statement of complaint or where mediation is considered or undertaken) MUST be recorded on JPA. Legal advice will be provided within 3 working days of receipt of the SCAF or the CO will be informed if more time is required.
b. A complaint (or parts of the complaint) may be inadmissible for a number of reasons – see JSP 831. If the CO is considering ruling a complaint (or any part of it) as inadmissible for being out of time, they must seek clear explanation from the complainant as to the reasons for the late submission and then go on to consider those reasons against the ‘just and equitable’ test (see JSP 831) to determine whether the complaint should be accepted notwithstanding its late submission. If the CO intends to reject the reasons ie. rule the complaint ‘out of time’ and assesses that it is not ‘just and equitable’ to accept it out of time, or intends to reject the complaint for any other reason, a draft response to the complainant, in which the full reasons for rejection are clearly explained should be drafted and included with the SCAF Part A for legal advice from the Navy Service Complaints Secretariat. A complainant who is not satisfied with the decision to disallow a SC on grounds of admissibility (including timeliness) can refer the matter to the SCOAF for a review of the decision so it is vital that fully considered and articulated reasons are clear for future reference.

c. If, following legal advice, a CO decides to rule a complaint as inadmissible, then this must be stated in writing to the complainant. The complainant is to be further advised in that letter that if they wish to appeal against the decision, they must refer the matter to the SCOAF within 4 weeks. This is an improvement to the former SC system where a complainant who was not content with a decision to rule their complaint out of time/inadmissible, had to submit a second SC providing that they were still subject to AFA 06 at the time of the decision. Guidance on referring the matter to the SCOAF is at JSP 831.

d. If the CO rules a complaint (or parts of it) as admissible, the Annex F and the completed SCAF must be referred (by e-mail) to Navy Service Complaints Secretariat, who is the Head of the Single Service Secretariat for Naval Service SCs. At the point at which a complaint (or parts of it) is ruled admissible by a CO and referred to the Navy Service Complaints Secretariat via the multiuser e-mail address: NAVY LEGAL-SC ALLOCN MAILBOX (MULTIUSER) it formally becomes a ‘Service Complaint’. The decision to rule a complaint admissible as a SC by the CO can be reversed by a DB, but this may give rise to false expectation on the part of the complainant, in addition to causing a significant number of personnel to nugatory work, it is therefore is not a back-stop upon which COs should rely.

e. COs are to refer to the Navy Service Complaints Secretariat for legal advice on admissibility of a statement of complaint as a Service Complaint. Contact details are NAVY LEGAL-CASEWORK MAILBOX (MULTIUSER) Mil: 93832 5232.

The e-mail title (in the subject box) should be in the following format, in accordance with the MOD naming convention:

DATE-NAME-SCAF-SHIP/UNIT (abbreviated title)

For example

20190801-AB SMITH-SCAF-RCMD
20190802-MNE JONES-SCAF-40CDO
The SCAF has been amended – see Annex 23C. Its purpose is now, initially (via Part A), to identify and comply with all the procedural requirements which must be considered when a statement of complaint is submitted in order for a decision on admissibility as a Service Complaint to be made. Many of these relate to legal obligations set out in AFA 06 and its subordinate legislation. The SCAF should therefore serve as a helpful aide-memoire to unit staff with responsibility for advising on Service Complaints within units. Secondly, where a CO is proposing to rule a complaint inadmissible, it makes provision for the CO’s reasons to be drafted for legal scrutiny prior to being sent to the complainant. COs are not initially required to complete Part B of the SCAF – this may be used by the DB (including COs appointed as DB) to seek legal advice on specific aspects of handling and deciding the Service Complaint. In a subtle change to current procedures, the Navy Service Complaints Secretariat will not provide pre-emptive and all-encompassing legal advice on the handling of a SC, the DB is expected to refer to JSP 831 and JSP 763 for tri-Service guidance, this chapter of BRd 3(1) for single service guidance, and to seek specific legal advice from their nominated legal adviser (as advised in their appointment letter from the Navy Service Complaints Secretariat) only as required. Specific advice on the completion of Part A of the SCAF at Annex A is set out in sub-paragraphs (a) – (t) below.

a. CO for the Purposes of the Service Complaint. The name of the CO should be inserted in this box. It will normally be the person who undertakes the role of CO for Service discipline purposes.

b. Is the CO the subject of the Complaint or implicated in the matter complained of? If the CO is the subject of the Complaint, or is implicated in the matter complained of, then the admissibility decision cannot be taken by the CO. In these circumstances, in accordance with AFA 06 legislation, it should be submitted to the CO’s immediate superior in the chain of command or, if that person is also the subject of the Service Complaint or otherwise implicated, to NAVY LEGAL-SC ALLOCN MAILBOX (MULTIUSER) from where an alternative officer will be appointed as a bespoke Specified Officer (SO) to deal with the complaint.

c. Is the complainant subject to Service law? For a complaint to be a Service Complaint it must be made by a person who is subject to Service law (eg. regular forces, reserve forces whilst on duty) or by a person who is no longer subject to Service law but who was so subject when the matter complained of occurred.

d. Does the Complaint relate to the person’s service? If the matter does not relate to the complainant’s service, it cannot be admitted as a Service Complaint.

e. Does the complainant consider him/herself wronged? If the complainant does not consider him/herself to be wronged it cannot be admitted as a Service Complaint.

f. Does the complaint involve discrimination, harassment, bullying, dishonest or biased behaviour or failure of MOD medical or dental care? Definitions of discrimination, bullying and harassment are in JSP 831.

g. Is the Complaint in writing and signed and dated? If it does not meet these criteria it cannot be admitted as a Service Complaint.
h. **Has the Complaint originated from an allegation made by a third party?** Allegations may be submitted by a third party, such as a family member, about the treatment of a Service person or former member of the Armed Forces. An allegation by a third party cannot be admitted as a Service Complaint. However, the CO is required to report the outcome and progress in relation to the third party’s allegation in accordance with JSP 831.

i. **Has the SCOAF referred the matter?** A Service person or a third party can make an allegation to the SCOAF that the Service person has been wronged in some way. The SCOAF has a statutory responsibility to refer certain types of allegations (e.g. bullying or harassment, discrimination) through the chain of command. Only when the allegation is adopted by the Service person and a written, signed and dated complaint is submitted does it become eligible for consideration of admissibility as a Service Complaint. Where an allegation has been referred by the SCOAF there is a requirement for the CO to make reports to the SCOAF at certain specified points as set out in JSP 831.

j. **Date of Complaint.** The date of complaint should be the date on the Annex F/statement of complaint. If the date of receipt is later this date should be noted also.

k. **Date of last incident complained of.** If the Complaint covers a series of consecutive incidents, all of which may be considered to be a continuing act, then the latest incident is the one that counts for the purposes of deciding whether or not the Complaint has been submitted in time. This is important for calculating whether the Complaint is being made in or out of time – see below.

l. **Is the Service Complaint within the time limit?** To be admissible as a Service Complaint, a complaint must normally be made within 3 months of the matter complained of, but consideration will need to be given to whether the Complaint falls within one of the exceptions. It is vital that when a statement of complaint is submitted beyond the normal time limit that the CO does and says nothing which may give the complainant a false or premature impression that the CO has ruled the matter in time as a Service Complaint.

m. **If a Service Complaint is submitted ‘out of time’, have reasons been provided?** Reasons for the late submission of a complaint must be obtained from the complainant, preferably in writing.

n. **If the complaint is submitted out of time, is it intended to rule it ‘in time’ on the grounds that it is ‘just and equitable’ to do so?** If a Complaint is submitted beyond the normal time limits it may still be ruled ‘in time’ if it is ‘just and equitable’ to do so. If it is intended to admit the Complaint on this basis then reasons should be provided in the SCAF. If it is intended to rule the complaint inadmissible on the grounds that it is out of time and not just and equitable to rule it in time, a draft response to the complainant, which it makes it clear what weight has been given to each of their reasons for late submission and explanation of the decision, is to be provided for legal scrutiny.
o. **Does the Service Complaint relate to a matter for which there is a ‘Special To Type’ procedure?** Various types of complaint are covered by ‘Special To Type’ procedures. If the Complaint is related to one of these special to type procedures, the complaint should be logged onto JPA (as a ‘complaint informal’) but a decision on admissibility should not be considered until the final result of the Special To Type procedure has been received.

p. **Is the Service Complaint of an excluded nature?** Certain specified matters are excluded by AFA 06 legislation from being the subject of a Service Complaint (eg. pensions, discipline, security vetting, and certain types of compensation, including Personal and Criminal Injuries Compensation).

q. **Is it intended to accept some of all of the complaint as a Service Complaint?** The CO should make clear which parts (if any) of the complaint it is intended to accept, and which are intended to be ruled out – with full reasons.

r. **Would the CO have the authority to grant appropriate redress in the event that the Service Complaint was to be upheld?** If the answer to this question is in the negative, the Service Complaint will be referred by the Navy Service Complaints Secretariat to a DB who will be empowered with the requisite authority.

s. **Name of nominated Unit Investigating Officer.** The nominated Unit IO may be used by the DB to conduct the investigation into non-B&H complaints or elements of complaints. This is the case whether the DB that is appointed is the complainant’s CO or another officer/Panel.

t. **Has an Assisting Officer been appointed?** Name and details of an Assisting Officer (if appointed) are to be provided and recorded on JPA.

u. **The RN N1 Command Adviser/RM G1 Adviser (Command Adviser) to the complainant’s CO (or SO where applicable) will be responsible for completing the SCAF Part A, consulting JSP 831 and JSP 763 as appropriate. Where a Complaint contains allegations of bullying and harassment, it will be necessary for the Command Adviser and the EDA to liaise prior to the completion of the SCAF. The Command Adviser, and EDA where appropriate, must state whether the option of informal resolution has been discussed with the complainant and/or exhausted. In units where there is no Command Adviser (eg. MM/PP) the CO will be responsible for the completion of the SCAF, but may wish to nominate an appropriate officer (eg. the D&IA) to assist in its compilation.
2315. **Single Service Secretariat – DACOS Casework**

Once a Service Complaint is submitted to the Navy Service Complaints Secretariat, it will be allocated to an appropriate Decision Body (DB). The DB may be the complainant’s CO (i.e., the SO who made the admissibility decision) or it may be another individual or body of individuals – crucially, the DB appointed will be given the authority to grant appropriate redress if the SC is partially or fully upheld. This marks another significant change from the previous SC system where a CO investigated a SC at Level 1 and referred it to Level 2 if it was considered to have merit, but the redress was outwith the Level 1 Deciding Officer’s authority. The letter of appointment provided to the DB by the Navy Service Complaints Secretariat will specify that the DB is to investigate and decide the complaint. Where necessary the appointment letter will allocate an Investigating Officer as nominated by the complainant’s CO or a CNLS Caseworker. The letter will also state the authority under which the DB acts and delegate to them authority to grant appropriate redress for the particular SC. The Navy Service Complaints Secretariat will also request that a copy of the DB’s appointment letter is provided to the complainant and respondent(s). Care will be exercised in determining who should be appointed to DBs; a balance needs to be struck between rank and experience versus the potential delay of having a small cadre of persons who could be appointed to DB.

2316. **Referrals made by the Service Complaints Ombudsman for the Armed Forces and Allegations made by Third Parties**

a. Where an allegation of a wrong has been received directly by the Service Complaints Ombudsman for the Armed Forces (SCOAF), the SCOAF may refer the matter to the Navy Service Complaints Secretariat who will forward the referral to the complainant’s CO (or last CO or other appropriate Specified Officer as applicable). The CO is to establish whether the complainant wishes to make a formal complaint and, in the event that they do, is to take the above preliminary actions and make a decision on admissibility only at this stage (see above). If the CO rules some or all of the complaint admissible as a Service Complaint, the admissible parts (or whole complaint as applicable) are to be forwarded to the Navy Service Complaints Secretariat as above for allocation to an appointed DB. Where the SCOAF refers an allegation, the SCOAF’s office is to be notified within 3 weeks of any of the specified occurrences set out in JSP 831.

b. There is an enduring requirement to provide the SCOAF with outcomes and updates on referrals until the SC is concluded as set out in JSP 831 and 2013DIN01-002 (note that other parts of this DIN have been superseded).
2317. Handling of a SC by a Decision Body

a. DBs appointed by the Navy Service Complaints Secretariat can consist of a single person or body of persons. The default position will be single person DBs, unless the circumstances of the SC require a panel of persons. Once appointed, a DB is to act quickly to ascertain a clear understanding of the SC. This should be ascertainable from the Annex F and/or SCAF but if further detail is required from the complainant, they (and/or their AO and/or their CO) should be contacted directly. The DB must then cause an investigation into the issues raised by the SC. The investigation may be conducted by the DB themselves or the DB may appoint an appropriate investigating officer (IO), noting that the complainant’s CO will have nominated an IO (in the SCAF) who may be used (most appropriate when the DB and the complainant are not collocated so as to minimise travel requirements), or the DB may choose a different individual. Guidance on the responsibilities of the IO is in JSP 831. In the case of bullying and harassment SCs handled in the Naval Service, the presumption is that an Harassment Investigating Officer (HIO) will be used to investigate the SC. Legal advice must be sought if a DB is considering not using an HIO to investigate a complaint which alleges (however briefly) bullying, harassment or improper behaviour. Where there is a requirement for an HIO, the Navy Service Complaints Secretariat will usually allocate one of the two members of the CNLS Complaints Investigation and Mediation Team (CIMT) but may source alternative HIOs including DBS Fee Earning Harassment Investigating Officers (FEHIOs) when necessary. Further guidance is provided at Annex 23G. Whoever investigates the SC must be thorough and address all the points of complaint raised by the complainant. A report of the investigation is to be provided to the DB within a time agreed between the DB and the IO/HIO. The report may contain witness statements and copies of relevant policy or reports and should offer analysis of the evidence but should not offer an opinion on the outcome of the SC – this is a matter for the DB alone.

b. Upon receipt of the completed investigation from the IO/HIO, the DB is to ensure that all necessary lines of enquiry have been investigated and the investigation provides sufficient evidence for a decision to be made. If more evidence is required, the DB is to ensure that it is obtained in good time. Once the DB is satisfied that the investigation is complete, but before considering a decision on the matter, all the evidence that has been gathered in the course of the investigation is to be disclosed to the complainant (see Para 2319), any respondents and any potentially affected persons.

c. Once the investigation and disclosure process is complete, the DB will proceed to make a decision on the SC. The DB must decide whether, on the balance of probabilities, the SC (or individual elements of it) is upheld or, alternatively, rejected. In some instances the DB may conclude that elements of the SC cannot be ruled upon, however, an overall decision to either fully or partially uphold or reject the SC must be made.
d. A fully drafted decision letter (including proposed redress) is to be passed to the legal adviser nominated by the Navy Service Complaints Secretariat for checking. The decision letter must give clear explanation of the weight given to the various pieces of evidence and the reasons for the decision. Experience shows that full and carefully considered decision letters have the effect of a) more successfully reassuring complainants whose complaints are not upheld that the decision was properly considered, rational and fair and b) minimising the need for the SCOAF’s office to seek information and paperwork from Navy Command in the event that a complainant refers their SC to the SCOAF’s office for any reason. Once the decision letter has been staffed by the legal adviser and amended as appropriate, it is to be sent to the complainant promptly. DBs should not be afraid to say clearly “I'm sorry” in the decision letter where it is evident to them that the complainant has been wronged; this is good management practice and is very much endorsed by the SCOAF.

2318. Investigation

a. The importance of a thorough investigation by or on behalf of the DB cannot be over-emphasised. A fair and reasoned decision is difficult to achieve if relevant information is missing or not explained fully. Further, it is difficult for ABs to remedy investigative or procedural deficiencies, particularly as evidence may become tainted or diminished with the passage of time.

b. Unnecessary delay will always have a detrimental effect on the investigation of any Service Complaint. DBs should aim to investigate complaints at the earliest possible opportunity and try to resolve factual issues on a basis that is accepted in writing by the disputing parties as being fair and accurate.

c. The aim of every investigation should be to 'add value' in terms of factual content and supporting evidence, rather than mere assertion. For non-bullying and harassment SCs, IOs should conduct interviews following the guidance in JSP 831. JSP 763 Chapter 6 sets out the investigative procedures to be followed for complaints alleging bullying and harassment.

d. With more difficult cases (not concerning bullying and harassment) the DB may consider ordering a Ship’s Investigation, following the procedures stated in FPN 172 (The Yellow Guide), which provides a useful framework for the investigative process.

e. Where a SC alleges any form of discrimination (ie. direct or indirect), or the CO or the Navy Service Complaints Secretariat sense that discrimination may be being alleged, the IO is to refer to JSP 763 for a definition of discrimination. Further, the IO must take specific advice from the nominated legal adviser on the conduct of their investigation. The investigation is to be scrutinised by the nominated legal adviser prior to it being provided to the DB to ensure that it addresses the issues surrounding discrimination specifically in order that the DB can make an informed and legally-compliant decision.
f. Further guidance on the management and investigation of Service Complaints alleging B&H is provided at Annex 23H. Informal complaints of bullying and harassment are not Service Complaints. Consequently they are not covered by the procedures described in this BR, but are covered in JSP 763 and Navy Command's 'Equality, Diversity and 'You’ booklet. Such complaints should be managed as advised by the unit EDA, who may seek advice from the NCHQ Hd NPS D&I policy staff, and utilise mediation facilities (primarily through the CNLS Complaints Investigation and Mediation Team) as appropriate. Where resolution of an informal complaint on the advice of the EDA fails, COs are encouraged to seek further advice from the Navy Command Complaints Secretariat.

g. Where, at any stage, it is judged necessary to access medical-in-confidence information to deal with a Service Complaint, the individual's signed consent must always be obtained first before any request is made to medical authorities. The appropriate medical consent form is at Annex 23F.

2319. Disclosure

a. Once an investigation is complete but prior to the DB making any decision on the merits of the SC, all documentation and information that will be relied upon to make a decision must be disclosed to the complainant and others who may be affected by the outcome of the SC. They must be informed that they may comment on the disclosure and all comments made will be put before the DB for consideration. Parties should be encouraged to respond within 10 working days in order to avoid unnecessary delay, however, a longer period may be appropriate for more complex complaints or where significant documentation is provided to the parties for the first time. In exceptional cases, a maximum period of 30 working days may be offered where it would be in the interests of fairness and completeness to do so. The disclosure period, plus any reasons for extensions beyond 10 days must be noted on JPA.

b. Disclosure is subject to exclusions where appropriate and consistent with Information Rights legislation, ie. the Data Protection Act 2018, the Freedom of Information Act 2000 and the Environmental Information Regulations 2004. Privileged and protected information and advice is not to be disclosed or paraphrased, except when advised to do so by the relevant legal adviser.

2320. Decision by Decision Body

Upon completion of investigation and disclosure, the DB must make a decision on the SC in accordance with JSP 831. The draft decision letter is to be passed to the nominated legal adviser for scrutiny. The quality of the decision letter is crucial. A fully reasoned and clearly explained decision goes a long way to reassure a complainant whose complaint is not upheld that it was considered in a fair, thorough and balanced way. Further, the decision letter will form the primary evidence upon which the SCOAF’s office will decide whether not there is a requirement for further information from the DB in order to understand a decision or the outcome of the complaint. The letter should address each element of the complaint and explain the weight given to the evidence in the investigation as well as any comments provided by the complainant (and respondents as applicable) in response to disclosure. A DB should not be afraid to say “sorry” to a complainant who has been wronged; this goes a long way to reassure a complainant and is fully endorsed by the SCOAF as good practice.
2321. **Appeal Body**

a. In some instances the DB will consist of members of the Admiralty Board/Defence Council. In this instance, the decision of the DB is final and there is no route for appeal within the internal Service Complaint system. A complainant who is not content with a decision of the Defence Council may, within 6 weeks, refer the matter to the SCOAF.

b. In all other cases, the decision of the DB may be referred for appeal by the complainant if they are not content with the decision. A complainant who wishes to appeal the DB decision is to write to the Navy Service Complaints Secretariat using e-mail address: NAVY LEGAL-SC ALLOCN MAILBOX (MULTIUSER) within 6 weeks of the DB’s decision. The request for appeal must be signed and dated by the complainant and must set out what aspects of the DB’s decision they wish to appeal and the reasons for this. The complainant’s referral will be acknowledged by the Navy Service Complaints Secretariat who will then consider whether the appeal is brought in time or, if not, whether it is just and equitable to rule it in time. If the appeal is not permitted, the complainant may refer to the SCOAF for a review of the decision.

c. If the appeal is permitted, the Navy Service Complaints Secretariat will appoint an Appeal Body (AB) to consider the SC. An AB is independent of the DB and is not bound by any decision made by the DB. ABs can consist of a single person or body of persons. If the circumstances of the Service Complaint require an Independent Member (IM) to be appointed, the AB will consist of a minimum of 2 service members and 1 Independent Member. Additional members can be added if required. Consistent with the DB, the AB will make its decision on the ‘balance of probabilities’. Where the AB consists of 3 or more individuals they will make a decision based upon a simple majority.

2322. **The Defence Council**

When the Admiralty Board is acting on behalf of the Defence Council as a DB the panel will normally consist of two or more members. The Admiralty Board may reserve certain cases for itself, eg. a SC about a decision made by the Admiralty Board or a member of the Admiralty Board acting in that capacity. The Navy Service Complaints Secretariat will staff SCs which have been referred to the Defence Council and will follow the process set out in JSP 831. Legal advice will be provided by CNLS lawyers.

2323. **Further Advice on Management of SC for Appointed Decision Bodies and Appeal Bodies – SCAF Part B**

a. It is mandatory for COs to seek legal advice on the admissibility of a complaint (including draft written responses rejecting a complaint on the grounds of admissibility) before it is accepted as a Service Complaint (see Para 2313 above). This decision is a matter of law and errors will lead to both criticism of the Service and significant nugatory work, hence the requirement for legal advice on the admissibility decision.
b. When a SC is allocated to a DB by the Navy Service Complaints Secretariat, a legal adviser will be allocated to the DB for that SC. If the DB requires legal advice at any stage in the investigation or deciding of the SC, they may refer to that legal adviser. DBs will be expected to exercise discretion, on a case-by-case basis, as to whether further advice is necessary. For example, the DB may require advice at the point of pre-decision disclosure or prior to the DB making a decision. Similarly, enquiries may need to be made on the suitability of mediation, on what may constitute discrimination, or what weight to attach to hearsay evidence in a Final Investigation Report for a SC which contains allegations of bullying and harassment. Part B of the SCAF should be used for this purpose. A copy of any legal advice sought and received is to be retained within the case file but is not to be disclosed without the permission of the lawyer providing it.

c. It is mandatory for DBs to submit decision letters to their legal adviser (or their CNLS Caseworker as appropriate) for scrutiny prior to finalising and sending to complainants. Only the draft decision letter should be forwarded – the relevant caseworker/legal adviser will call for any further documentation they consider to be necessary in order to enable them to advise.

2324. Advice on Administrative Action

There will be cases when, following the determination of a SC by a DB or AB, it is necessary for the DB or AB to consider administrative action. The most common example will be where a SC alleging bullying or harassment has been upheld and there is a need to consider taking administrative action against the Respondent(s). Such administrative action can only be taken or initiated by the unit which exercises command over the potential subject of administrative action. That unit should seek advice before determining what, if any, administrative action to take. Similarly, advice should also be sought on how to recommend administrative action where the DB or AB upholding the complaint does not exercise command over the potential subject of administrative action. Further guidance on appropriate administrative action is at Annex 23H.
2325. Service Complaints and JPA

Except where stated, the unit receiving a complaint or allegation is responsible for creating and updating JPA records as follows:

<table>
<thead>
<tr>
<th>Type of Complaint</th>
<th>JPA Record Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>Informal D&amp;I Complaint</td>
<td>‘Complaint Informal’</td>
</tr>
<tr>
<td>Non D&amp;I Statement of Complaint / ‘Annex F’, where Special To Type exists</td>
<td></td>
</tr>
<tr>
<td>Statement of Complaint / ‘Annex F’ (All Subject Matters)</td>
<td>‘Complaint Formal’</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Non D&amp;I</th>
<th>D&amp;I</th>
</tr>
</thead>
<tbody>
<tr>
<td>Regular Units</td>
<td>EDA, i.e. those in the JPA D&amp;I resource group. (See Annex 23H)</td>
</tr>
<tr>
<td>RN N1/RM G1 Adviser. (May be delegated to SR WTR for STT Informal)</td>
<td></td>
</tr>
<tr>
<td>RNR/RMR Units</td>
<td>In RNR and RMR units only, the Support Manager and AO respectively are permitted to record Informal D&amp;I Complaints where the EDA is unavailable.</td>
</tr>
<tr>
<td>For Service Complaints arising in RNR units, the Support Manager will be responsible for JPA recording. In RMR units this function will be performed by the AO with the relevant Joint Support Unit providing assistance as necessary.</td>
<td></td>
</tr>
<tr>
<td>Complaints Submitted by ex-Service personnel.</td>
<td>Units are unable to create records for ex-Service Personnel. SCMC performs this function for the Navy Command. Once created the responsibility for further updating of the JPA record reverts to the unit.</td>
</tr>
</tbody>
</table>
Notes:

1. The Unit Establishment Administrator (UEA) is responsible for allocating individuals to the relevant resource groups and this action is to be completed in accordance with the extant UEA guide, which contains detailed guidance on the single Service policy as to who should have membership of a D&I resource group.

2. Recording of complaints on JPA enables the chain of command to monitor the progress of individual cases to determine whether the timelines and targets for their handling, (laid down in Reference A) are being met. The data placed on JPA is also used by the Service Complaints Ombudsman for the Armed Forces (SCOAF) to assess the Naval Service's complaint handling performance and to inform the SCOAF's periodic reports. The SCOAF Annual Report is presented to the Secretary of State for Defence and laid before Parliament. It is therefore essential that Service Complaints, and their associated documentation, are properly recorded on/uploaded to JPA.

3. In addition, JPA recording provides a robust audit trail of events and decisions which may be used to inform further investigations, SCOAF appeals, or to provide evidence at Employment Tribunals. The Management Information held on JPA also permits the analysis of trends in numbers and types of complaints to assist with Naval Service life management and employment policy.

4. JPA recording of Service Complaints (at all levels) is supported by a relevant Business Process Guide (BPG) which provides guidance on how to record data correctly on JPA. The BPGs can be accessed via the JPA Portal. Further guidance on the recording of complaints on JPA can also be obtained from the Service Complaint Management Cell (SCMC).

5. **SCOAF Referrals.** Where an allegation of complaint has been referred to the CO by the Office of the SCOAF, a Complaint Informal record must be created to generate a SR reference number to be used for further communication with the SCOAF.

6. **Special to Type Complaints.** If a Statement of Complaint (Annex F to JSP 831) is received and the matter is subject to Special To Type (STT) resolution (most commonly pay, housing and medical complaints), the STT process, including STT appeals, must be exhausted before the 'Annex F' is accepted as a Formal Service Complaint. However a JPA record of 'Complaint Informal' must be raised and set to 'Suspended STT'. As a Non-D&I matter, the responsibility is with the RN N1 Command Adviser/RM G1 Adviser, though this may be delegated to the Senior Rate Writer/SNCO Clerk where they have JPA Discipline permissions.

Continued
Notes: (Continued)
7. If the complainant is permanently assigned away from the unit while the STT is on-going, the SCMC should be contacted to discuss transfer of the ‘Complaint Informal’ to the new unit.

8. Once the STT process has been completed, if the complainant is not satisfied, it is their right to raise a Formal Service Complaint against the outcome of the STT. The complainant should review and revise the Statement of Complaint, including any new information or circumstances discovered during the STT process.

9. Proxy Recording of Service Complaints on JPA SC. Submarines are expected to record their own SCs on JPA. It is appreciated that, whilst on deployment, a submarine’s JPA connectivity may be interrupted for lengthy periods. Accordingly, where a submarine is deployed and does not have access to JPA, the N1 Command Adviser should, wherever possible, liaise with parent Flotilla N1 staff and request that Service Complaint data be recorded by proxy on JPA. This process is equally applicable to informal D&I complaints.

10. Decision Body Review. If a SC is allocated by the Navy Service Complaints Secretariat to a DB outwith the complainant’s unit, the SCMC will manage the transfer of the record. If the DB is the Unit’s Higher Authority/Chain of Command for Non-D&I complaints, the N1/G1 Adviser in the Higher Authority will become responsible for updating the JPA record.

2326. Management of Complaints on JPA

a. Service Complaints Management Cell (SCMC). The SCMC is responsible for the management and oversight of complaints on JPA. The contact details are set out below and in the first instance the SCMC e-mail mailbox should be used for non-telephone contact:

   SCMC Manager: CPO WTR    Tel: 93-832-5739.
   SCMC Assistant: LWTR      Tel: 93-832-5749.
   SCMC Mailbox: NAVY LEGAL-SCMC MAILBOX
   Fax: 93-832-5755

b. Terms of Reference for the SCMC. The Terms of Reference for the SCMC are set out at Annex 23F. As well as managing the JPA recording performance within the Navy Command, the other primary purpose of the SCMC is to provide an advisory service to units to assist them in complying with JPA recording requirements.
c. **Compliance Monitoring.** As a further check that complaint data is being recorded on JPA in accordance with policy, relevant supersession checks have been introduced for Logistics Officers and RM G1 Advisers and these will also be conducted during Fleet Logistics Inspections. For Informal D&I Complaints compliance monitoring will be included in D&I assurance visits.

**2327. Transitional Arrangements**

a. The procedures outlined above will apply to all formal Complaints received on or after 1 Jan 16. It is the date that the complaint is submitted rather than the date of the matter complained of that determines whether the new arrangements apply.

b. Where individuals are acting as Level 1 Deciding Officers (DOs) for SCs which were submitted prior 1 Jan 16 but a decision has not been made on admissibility, the CO will become the SO for that complaint and must proceed to make a decision on admissibility in accordance with the guidance above and in JSP 831. The SC must then be referred to the Navy Service Complaints Secretariat for allocation to a DB (which may or may not be the CO) as above. If a decision has already been made on a SC at (former) Level 1 and advised to the complainant by 1 Jan 16, any request by the complainant to refer the SC to (former) Level 2 will be treated as a request to refer to an Appeal Body – the CO is to refer the matter to the Navy Service Complaints Secretariat. For SCs which were already referred to (former) Level 2 but had not been decided by 1 Jan 16, an Appeal Body will be allocated by the Navy Service Complaints Secretariat and the complainant informed accordingly. If an (former) Level 2 decision has been made and notified to the complainant by 1 Jan 16, the complainant retains the right to ask for the complaint to be referred to (former) Level 3 – the Navy Service Complaints Secretariat will allocate it to a Service Complaint Panel (SCP) or the Admiralty Board as appropriate (former Level 3). The complainant retains the right to refer their complaint to the SCOAF on completion of the SCP/Board decision. For SCs that were already at (former) level 3 but had not been decided by 1 Jan 16, they will continue to be considered by an SCP/Board (former Level 3) and the complainant retains the right to refer their complaint to the SCOAF on completion. If a SC has been decided at (former) Level 3 prior to 1 Jan 16, then the matter is deemed closed and there is no right to refer to the SCOAF.

**2328. Financial Redress in Service Complaints**

a. HM Treasury Guidelines and Government Accounting Regulations restrict the circumstances in which awards of financial compensation may be made as well as the authorities empowered to approve such awards. Novel and contentious financial awards or those that appear to raise issues of financial propriety will always require referral to HM Treasury via the TLB Senior Finance Officer (SFO ie. the Finance Director (Navy)) and always where the financial issues are complex or significant (eg. a change to accrued pension). This will be processed through MOD DG Fin.

b. In cases involving subjective assessments eg. compensation for injury to hurt feelings, nominal ‘goodwill’ payments in lieu of a wrong, the MOD position is that it has no basis upon which to value such claims authoritatively, which should be left to the courts to decide.
c. Under the reformed SC system, DBs and ABs will be empowered by the Navy Service Complaints Secretariat to award appropriate redress including quantifiable financial redress where a SC is upheld. Each DB and AB will be provided with a specific delegation by the Navy Service Complaints Secretariat in this respect at the time they are appointed to decide a SC.

d. If, during the process of staffing or deciding a Service Complaint, a DB or AB considers that it may be appropriate to award an unquantifiable financial award (see sub-para b above) the DB/AB must ‘pause’ in order to consult the TLB SFO via the Navy Service Complaints Secretariat without delay in order to obtain advice about the ‘regularity’ of such a payment in terms of Government Accounting Regulations. It is essential that the DB/AB ‘pauses’ to take SFO advice before communicating any aspect of the complaint decision to the complainant.

e. The need for SFO advice is crucial in cases where the proposed financial redress involves some form of *ex-gratia* payment, and it is the responsibility of the DB/AB to establish clearly whether the sort of payment they are inclined to recommend can properly be awarded. Where the DB/AB proposes a form of redress within their empowered authority (such as promotion) that has clear financial consequences, but where the payment would then follow as a matter of course, SFO involvement should not be necessary. Certain allowance casework, however, is potentially sensitive and/or subjective and may be of SFO interest. In all cases, it is the DB/AB’s responsibility to establish whether there is an SFO interest or not, after taking advice from the Navy Service Complaints Secretariat.

f. Should the DB/AB disagree with the SFO’s advice, the matter may be referred by the SFO to DG Fin or to HM Treasury to resolve. In such circumstances, the ‘pause’, including the restriction not to communicate any aspect of the complaint decision to the complainant, must be maintained until a definitive ruling on financial redress is provided.

2329. **Non-Financial Redress in Service Complaint**

Under the reformed SC system, DBs and ABs will be empowered by the Navy Service Complaints Secretariat to award appropriate non-financial redress where a SC is upheld. Every DB and AB will be provided with a specific delegation by the Navy Service Complaints Secretariat in this respect at the time they are appointed to decide a SC.

2330. **Civilian Grievances**

Grievances by civilian personnel, including where they are against Service personnel, are not governed by AFA 06 and therefore the procedures set out in this chapter and JSP 831 do not extend to them. JSP 763, however, applies equally to Service personnel and civilian personnel. Grievances by civilian personnel must be submitted to DBS in accordance with civilian grievance policy and units will receive handling and legal advice via DBS; Naval lawyers are not permitted to advise on civilian grievances.
2331. **Service Complaint Governance in the Navy Command**

a. Commodore Naval Legal Services (CNLS) is the NCHQ lead for Service Complaints and process. CNLS is supported in this role by the Navy Service Complaints Secretary and Navy Service Complaints Secretariat.

b. The Naval Service Complaint Governance Board (NSCGB) meets termly to provide regular strategic oversight of the operation of the Service Complaints system in the Navy Command. It meets under the chairmanship of CNLS and all relevant policy stakeholders in the Service Complaint process are represented. NLS prepares an annual report on Service Complaints for submission to the Navy Board via 2SL.

2332. **Service Complaint Training**

a. CNLS is the Naval Service requirements authority for Service Complaints training. Accordingly NLS owns the training content for all single Service courses which provide Service Complaint training. This training is delivered on behalf of CNLS by relevant training agents. The Instructional Specifications provided by CNLS to its training agents will be periodically reviewed by CNLS, at least annually, to ensure that they remain up to date, including being compliant with relevant law and tri-Service policy.

b. Queries about Service Complaint training should be directed to NAVY LEGAL-SCMC CPOWTR in the first instance.

2333. **Organisational Learning/Lessons Identified**

a. An important measure of a mature Service Complaints system is the ability to capture any lessons identified by the decision of the DB or AB and to record them formally. It is important that, where Service policy is the subject of complaint and is having an adverse impact on Operational Capability, this be formally recorded.

b. Within Navy Command where a Service Complaint raises such a policy issue, it should be recorded using the Defence Lessons Management Information System (DLMS). Given that most Service Complaints relate to Terms and Conditions of Service, consideration will be given to whether the Service policy that has been the subject of complaint has had an adverse effect upon the Moral Component of Operational Capability (MCOC).

c. Any level in the chain of handling a Service Complaint may identify a lesson and input it into DLMS in the same manner as other Lessons Identified, however, it will normally only be possible to identify a lesson after the DB or AB has reached a determination on the facts and merits of a complaint. Personal data which may identify the complainant or any respondent should not be inputted into DLMS. The Naval Service Complaint Governance Board will consider the progress of pan-Service, tri-Service, strategic and other key Lessons Identified at its termly meetings.
SECTION 3 – REPRESENTATIONS

2334. Exceptions to Procedure for Representations
The instructions in this section do not alter:

a. The procedure by which Service Personnel may bring requests before Inspecting Officers at inspections in accordance with the custom of the Service.

b. The custom by which any rating is allowed to request, through the Divisional Officer, to see the Commanding Officer with regard to matters of a private nature.

c. The procedure by which local questions of welfare and amenities may be dealt with by the Welfare Committee.

2335. To Whom a Representation is to be Made
Any officer or rating who wishes to make any Representation connected with the Naval Service should bring the subject to the notice of the relevant superior in the following manner:

a. If the person making a Representation is an officer, the Representation should be made initially to the Commanding Officer (through the Head of Department and the Executive Officer as appropriate) or, in the case of Commanding Officers and above, to the next immediate superior in the chain of command.

b. If the person making a Representation is a rating, the Representation should be made initially to the Divisional Officer (through the divisional senior rating when appropriate) or, in the case of ratings on detachment, to the officer under whose immediate command he/she is.

2336. How the Representation is to be Dealt With

a. Representations should be handled with despatch and should in all cases be answered at the lowest level commensurate with an authoritative reply. A flow diagram showing the process is at Annex 23D. On receipt of any Representation the Commanding Officer or other officer receiving the same is to satisfy themselves that it is made in accordance with the appropriate regulations in this section. The officer is then to deal with it as may seem to be right. If the officer is unable to grant the remedy but supports the case it is to be forwarded to the Navy Service Complaints Secretariat for consideration by higher authority. However, if an officer receiving a Representation considers that it is not worthy of serious consideration, they should inform the person making the Representation by rejecting the case and stating that they do not intend to take the matter any further. If the person making the Representation is dissatisfied with this decision, he/she may submit a Service Complaint in accordance with their statutory rights under AFA 06 and the policy set out in JSP 831.

b. Any officer in the chain of command who is personally involved in the substance of a Representation is to forward it, with their comments, to their next immediate superior in the chain of command.
c. In framing Representations the following rules apply:

(1) Any oral Representation should subsequently be confirmed in writing if it is to be referred to an authority higher than the officer first addressed.

(2) Representations on matters directly affecting an individual are to be confined to a statement of facts and the alleged consequences for the individual themselves. This does not apply to those Representations which are suggestions which have a wider application.

d. Disciplinary or administrative action may be taken against a person who makes a Representation (or a Service Complaint or informal complaint) either orally or written which includes a statement of fact which is untrue to the knowledge of the originator.

e. Similarly, disciplinary or administrative action may be taken against a person who makes a Representation in language or comment that is disrespectful or insubordinate or subversive of discipline, except insofar as such language or comments are necessary for an adequate statement of facts.

f. No officer or rating shall be penalized for having made a Representation in accordance with these rules.
SECTION 4 - EMPLOYMENT TRIBUNALS

2337. Claims to Employment Tribunals

a. This Section is intended for general guidance only and individuals who wish to present an Employment Tribunal claim should consider obtaining their own advice before doing so (see Para 2339 below).

b. Naval Service personnel have the statutory right to submit claims to Employment Tribunals (ETs) where allegations are made of discrimination because of the protected characteristics of gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation. The Armed Forces are exempt from the legislation which prohibits discrimination in relation to age and disability and therefore Service personnel do not have the right of access to an ET for such matters. Discrimination may be either direct or indirect. Claims may also be made of harassment because of a protected characteristic, and victimisation. Naval Service personnel also have the right of access to an ET in respect of claims alleging pay inequality because of sex and also claims under the Working Time Regulations 1998.

c. ETs do not have jurisdiction to hear other types of claims, including claims of unlawful deduction from wages, unfair dismissal (e.g. constructive dismissal) or wrongful dismissal (an action for breach of contract) from Naval Service personnel. This is essentially because the Employment Rights Act 1996 does not apply to members of the Armed Forces and Service personnel are not employees governed by a contract of employment.

d. Legislation provides that an ET does not have jurisdiction to hear a claim made to it by a Service person unless it has first been submitted in the form of a Service Complaint (SC) under the appropriate internal redress procedures (see Armed Forces Act 2006 (AFA 06) and JSPs 831 and 763) and has not been withdrawn. Where an Application has been made to an ET, Navy Legal-Litigation is to be kept informed of the progress of the SC.

2338. Time Limits

a. In recognition of the requirement for ET claims to be first submitted as a SC under the AFA 06 internal redress procedures, the statutory time limit for a Service person to refer their claim to an ET on eligible matters is six months from the date of the incident complained about or the latest date in a series of incidents giving rise to the claim, which is three months longer than for civilians. There is one exception to these time limits. Generally, where a claim is made alleging pay inequality on the grounds of sex, an application may be made to an ET at any time during the person’s service or within nine months of leaving the Service, which is again, for the same reason, three months longer than the period permitted for an equivalent claim to be lodged by a civilian.

b. ET Claimants should note that ETs will normally refuse to accept a claim if it is submitted outside the appropriate time limit. Responsibility for complying with the time limit lies entirely with the Claimant.
Complainants who are awaiting the outcome of the internal redress procedures before applying to an ET must note the need to submit their ET claim before the six month statutory deadline irrespective of whether the SC has been concluded. If a final decision on the SC has not been reached by then, the MOD will nevertheless continue its investigation with a view to reaching a decision before an ET hearing date has been set. The ET process may be put on hold pending the outcome of the SC procedure. If a decision on the SC is reached before the ET hearing and the complainant is satisfied with its outcome, they may withdraw the application to the ET.

d. Please see Para 2340 concerning Early Conciliation and its impact upon time limits.

2339. **Legal Advice**

The decision as to whether to refer a claim to an ET is solely for the individual to make. Complainants may seek advice from an independent source at any time on any matter relating to a complaint. Complainants may also take legal advice from a solicitor at their own expense at any time.

2340. **ACAS Mandatory Early Conciliation**

Before a person may bring an ET claim they must first notify the Advisory, Conciliation and Arbitration Service (ACAS), either over the phone or by completing an online form. The prospective Claimant will be required to provide prescribed information and it is important that they provide accurate contact details concerning the organisation and any person they are complaining about (if that person is to be named as a Respondent) as ACAS will need to get in touch with them. If in doubt use the contact details at Para 2341 sub para d below. ACAS will send the information to one of its conciliation officers who will seek to promote a settlement within a one month ‘prescribed period’. If a settlement is not achieved, either because it is not possible in the conciliation officer’s view or the prescribed period expires, the conciliation officer must issue a certificate to this effect. A Claimant may not submit an ET claim without this certificate as it will contain a unique reference number which must be quoted on the subsequent ET form. The conciliation period may impact on the time limit for presenting claims to the ET but the Claimant will have at least one month following the unsuccessful conciliation to submit an ET claim. For further information visit: www.acas.org.uk.

2341. **Application**

a. An application to the ET should be made on a Form ET1. Information on how to acquire a form in England, Wales and Scotland can be obtained from the Ministry of Justice website (see www.justice.gov.uk/tribunals/employment) or the Citizens’ Advice Bureau. Advice on ET procedures can be obtained from the Public Enquiry Line (Telephone: 0300 123 1024 (England and Wales) or 0141 354 8574 (Scotland) or the Advisory, Conciliation and Arbitration Service (ACAS) on 0845 747 4747.
b. If the claim is for an ET in England or Wales then it can be sent online. Alternatively, claims may be sent by post to:

Employment Tribunal Customer Contact Centre (England and Wales)
PO Box 10218
Leicester LE1 8EG

c. If the claim is for an ET in Scotland then it can be sent online. Alternatively, claims may be posted to:

Employment Tribunals Customer Contact Centre (Scotland)
PO Box 27105
Glasgow G2 9JR

d. If the claim is for an ET in Northern Ireland then it can be sent online. Alternatively, claims may be sent by post to:

The Secretary
Office of the Industrial Tribunals and the Fair Employment Tribunal
Killymeal House
2 Cromac Quay
Belfast BT7 2JD

e. A copy of the ET1 should also be provided to the Commanding Officer (CO). Any ET1 received by COs should be sent to Navy Legal-Litigation as quickly as possible, as MOD’s response is subject to tight deadlines.

f. The Form ET1 asks for the name and address of the employer. To ensure that MOD is able to comply with the ET deadline for the employer’s initial response, it is most important that the Claimant gives the correct MOD address on Form ET1. This is as follows:

Royal Navy
The Ministry of Defence
Navy Legal-Litigation
Navy Command Headquarters
Leach Building
Mail Point 4-2
Whale Island
Portsmouth PO2 8BY

GTN: 93832 5865
Civ Tel: 02392 62 5865
Fax: 02392 62 5755

g. If a SC is still being considered under the internal redress procedures when the Form ET1 is received, the MOD response will confirm this, indicating the likely duration of the procedures, and will normally request an adjournment. It is general practice for ETs to refrain from listing a case for hearing if a final decision on a SC has not been made.
ANNEX 23A

SERVICE COMPLAINT MANAGEMENT IN NAVY COMMAND

Key:

C - Complainant
NSCS - Naval Service Complaint Secretariat

Preliminary actions (including informal resolution) and Gateway Decision by SO/CO Target = 2 weeks to decision.

Complaint becomes a Service Complaint and 24 week timeline commences

Target for DB = 12 weeks to decision (where IO investigation) / 14 weeks to decision (where HIO investigation)

24 weeks includes any time required for AB to conclude.

Protocol Flowchart:

1. **Formal Statement of Complainant (incl. formal BAF complaint)**
2. **SO Referral of Allegation to SOCS**
3. **3rd Party Referral directly to SO or via SOCAF**

- **Specified Officer (SO) - usually complainant’s CO (last CO for service personnel)**
  - Normally submitted on JSP 831

SO takes preliminary actions and makes assessment of admissibility (Gateway Decision) as a SC (incl. legal advice)

- SO informs C of complaint is not admissible as a SC
- SO informs C complaint is admissible as a SC
- SO informs C complainant is not admissible as a SC

SO sends SC and SOCAF to NSCS

NSCS appoints a DB via letter with delegations and support detailed.

- **DB = C’s CO**
  - Support: HIO (Naval SC) &/or Unit IO + RLA
- **DB = Other Fleet Officer(s)**
  - Support: HIO (BSH SC) &/or Unit IO + RLA
- **DB = HQ Officer(s)**
  - Support: CNSL Caseworker, HIO &/or Unit IO, CWA, SOCAF Legals
- **DB = DCAB Panel**
  - Support: CNSL Caseworker, HIO &/or Unit IO, CWA, SOCAF Legals

Investigation and Disclosure
- Normally on JSP 831
- Written decision letter to caseworker/legals for scrutiny

Decision letter to Complainant (incl. redress advice). Letter to Respondent/affected person re outcome.

- **C content**
  - End of process. DB take legal advice on Admin actions if
- **C not contest with DB's decision where DB is NOT a DCAB panel.**
- **C not contest with DCAB decision.**
  - No internal appeal. May refer to SOCAF.

- **C may write to NSCS within 6 weeks seeking appeal. If in time, Appeal Body (AB) will be allocated, supported by CNSL/CWA/SOCAF Info. If appeal not permitted (for being out of time). C may refer to SOCAF.**

Note. 3rd party allegations, SCRF referrals and informal complaints are not Service Complaints and the fact that they have been made does not automatically mean a Service Complaint will result.
ANNEX 23B

TEMPLATE FOR ACKNOWLEDGING RECEIPT OF STATEMENT OF COMPLAINT/FORMAL COMPLAINT/‘ANNEX F’

HMS NONSUCH
BFPO XXX

[Name, rank/rate, Service Number of Complainant]     [Date]

1. I am writing to acknowledge receipt of your statement of complaint/formal complaint/Annex F [delete as applicable] dated xxxx which was received on xxxx [insert date]. It has been logged onto JPA and the reference number is xxxx [insert].

2. I now need to consider your complaint in detail and will arrange for us to discuss it within the next 5 working days. That discussion will enable me to more fully understand the nature of your complaint and the redress that you are looking for. You may be accompanied by your Assisting Officer, who I understand is xxxxx [insert rank, name and telephone number] – you should contact them and my office [insert details a/r] to agree a suitable time for the meeting. If needs be you will then be able to send me a revised complaint form.

3. Following the discussion I will need to decide whether your complaint is valid and admissible as a Service Complaint in accordance with JSP 831. In the meantime, you can find more information on the Service Complaint process in JSP 831 and BRd 3(1) Chapter 23, both of which can be found on the Defence intranet and the internet. If your complaint alleges Bullying or Harassment you are advised to consult JSP 763 also.

4. You should be aware that, at this stage, I will not consider the merits of your complaint; if I deem your complaint (or any part of it) to be admissible I shall forward it to the Navy Command Complaints Secretariat who will nominate a Decision Body to decide the merits of your Service Complaint and award appropriate redress if your complaint is upheld. The DB may be me or another person or a panel of persons. You will be kept informed throughout the process.

5. I encourage you to make good use of your Assisting Officer - as we take matters forward - as a useful source of guidance and support.

[Signature Block]
## ANNEX 23C

SERVICE COMPLAINT ADVICE FORM (SCAF) – VERSION 3

### Actions and Timings

A formal statement of complaint must be submitted to the Specified Officer (SO). This is usually the complainant’s CO (or last CO for ex-Service personnel). The CO is to acknowledge the statement of complaint in writing within 24 hours and record it on JPA. The CO is to meet with the complainant at the earliest opportunity and clarify the complaint prior to seeking advice on admissibility via this SCAF. This SCAF is to be completed and submitted, along with the statement of complaint (and any clarification statement required), to the Navy Service Complaints Secretariat (NSCS) within 3 working days of receipt of the formal complaint. ALL boxes in Part A must be completed initially. The CO/Unit should receive a response from the NSCS within 3 working days. Part B may be completed by the Decision Body (DB) appointed to investigate and decide the Service Complaint (this may or may not be the complainant’s CO).

### PART A: GATEWAY DECISION

<table>
<thead>
<tr>
<th>SHIP/UNIT</th>
<th>To include contact (e-mail/phone) details of N1/G1 adviser or SC administrator.</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPLAINANT’S DETAILS</td>
<td>To include rank, initials and Service Number.</td>
</tr>
<tr>
<td>DETAILS OF COMPLAINANT’S CO</td>
<td>To include full name, rank and appointment. This should normally be the CO for discipline - if not give explanation. If a Specified Officer other than the complainant’s CO has been allocated, their details are also to be provided.</td>
</tr>
<tr>
<td>IS THE COMPLAINANT’S CO THE SUBJECT OF THE COMPLAINT OR IMPLICATED IN THE MATTER COMPLAINED OF?</td>
<td>YES/NO If the CO is the subject of the complaint or is implicated in any way in the matter complained of, alternative arrangements need to be made for another officer to deal with the complaint – see JSP 831.</td>
</tr>
<tr>
<td>IS THE COMPLAINANT SUBJECT TO SERVICE LAW (OR WERE THEY AT THE TIME THE WRONG IS ALLEGED TO HAVE OCCURRED)?</td>
<td>YES/NO For a complaint to be accepted as a Service Complaint it must be made by a person who is subject to service law (eg. regular forces, reserve forces whilst on duty) or relate to a matter that occurred when the person was subject to service law (ex-regular Service personnel). – see JSP 831.</td>
</tr>
<tr>
<td>DOES THE COMPLAINT CONCERN A MATTER WHICH RELATES TO THE COMPLAINANT’S SERVICE?</td>
<td>YES/NO For a complaint to be accepted as a Service Complaint it must relate to that person’s Service. – see JSP 831.</td>
</tr>
<tr>
<td>DOES THE COMPLAINANT CONSIDER HIM/HERSELF TO BE WRONGED?</td>
<td>YES/NO For a complaint to be accepted as a Service Complaint it must explain why the complainant considers him/herself to be wronged – see JSP 831.</td>
</tr>
</tbody>
</table>

**CLARIFICATION OF COMPLAINT AND REDRESS SOUGHT.** THE CO/SO IS TO PROVIDE A SUCCINCT LIST OF THE POINTS COMPLAINED ABOUT AND REDRESS SOUGHT HERE. The purpose of this is to ensure that the precise areas of complaint are established (and agreed with the complainant) from the outset. Where they are not clear from the submitted complaint, the CO/SO must refer to the complainant and obtain clarity. Respondent(s) must be identified. This may take the form of a list of bullet points. The NSCS will not advise on admissibility until the complaint has been clarified (where necessary) by the CO who is to meet with the complainant to achieve clarification.
<table>
<thead>
<tr>
<th><strong>Question</strong></th>
<th><strong>Response</strong></th>
<th><strong>Details</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>DOES THE COMPLAINT INVOLVE DISCRIMINATION, HARASSMENT, BULLYING, DISHONEST OR BIASED BEHAVIOUR OR FAILURE OF MOD MEDICAL OR DENTAL CARE?</strong></td>
<td>YES/NO</td>
<td>A provisional assessment of whether the complaint engages any of these areas should be identified and details provided. In this context, ‘discrimination’ means discrimination or victimisation on the grounds of colour, race, ethnic or national origin, nationality, sex, gender reassignment, status as a married person or civil partner, religion, belief or sexual orientation, and less favourable treatment of the complainant as a part-time employee.</td>
</tr>
<tr>
<td><strong>IS THE COMPLAINT IN WRITING, SIGNED AND DATED?</strong></td>
<td>YES/NO</td>
<td>For a complaint to be accepted as a Service Complaint it must be in writing, signed and dated – see JSP 831. A formal complaint should normally be submitted on a JSP 831/JSP 763 Annex F form.</td>
</tr>
<tr>
<td><strong>HAS THE COMPLAINT ORIGINATED FROM AN ALLEGATION MADE BY A THIRD PARTY?</strong></td>
<td>YES/NO</td>
<td>Allegations received from third parties cannot be accepted as Service Complaints. They should be dealt with by the CO taking advice from the Navy Service Complaints Secretary as appropriate. See JSP 831.</td>
</tr>
<tr>
<td><strong>HAS THE COMPLAINT ORIGINATED FROM AN ALLEGATION REFERRED BY THE SCOAF?</strong></td>
<td>YES/NO</td>
<td>If YES, then there is a requirement for the CO to keep the SCOAF informed of the progress of the Service Complaint - see JSP 831 and JSP 763.</td>
</tr>
<tr>
<td><strong>DATE OF COMPLAINT</strong></td>
<td></td>
<td>If the date on the complaint letter/Annex F is different to the date of receipt, then state both dates.</td>
</tr>
<tr>
<td><strong>DATE OF LAST INCIDENT COMPLAINED OF</strong></td>
<td></td>
<td>If the complaint covers a series of consecutive incidents all of which may be considered to be a continuing act, then the latest incident is the one that counts for the purposes of deciding whether or not the complaint can be accepted as a Service Complaint - see JSP 831 and JSP 763.</td>
</tr>
<tr>
<td><strong>IS THE COMPLAINT WITHIN THE TIME LIMIT?</strong></td>
<td>YES/NO</td>
<td>A complaint must normally be made within 3 months of the matter complained of for it to be accepted as a Service Complaint. If it is made more than 3 months of the matter complained of, consideration will need to be given to whether the complaint falls within one of the exceptions - see JSP 831 and JSP 763. NB: Special rules apply for complaints capable of being pursued as claims under the Equality Act 2010 – legal advice is to be sought.</td>
</tr>
<tr>
<td><strong>IF THE COMPLAINT HAS BEEN SUBMITTED OUT OF TIME HAVE REASONS BEEN PROVIDED?</strong></td>
<td>YES/NO</td>
<td>Reasons for late submission MUST be obtained in writing from the complainant. The reasons provided will form the basis of the decision on whether it is ‘just and equitable’ to rule the decision in time. If reasons are not provided in the original complaint, they must be sought before a decision on admissibility is made.</td>
</tr>
<tr>
<td><strong>IF THE COMPLAINT IS SUBMITTED OUT OF TIME IS IT INTENDED TO RULE IT IN TIME?</strong></td>
<td>YES/NO</td>
<td>If it is intended to allow the complaint to be admitted as a Service Complaint on the basis that it is ‘just and equitable’ to do so then provide reasons why this action is proposed - see JSP 831 and JSP 763.</td>
</tr>
<tr>
<td><strong>DOES THE COMPLAINT RELATE TO A MATTER FOR WHICH THERE IS A ‘SPECIAL TO TYPE’ (STT) PROCEDURE?</strong></td>
<td>YES/NO</td>
<td>Some types of complaint are covered by ‘Special to Type’ procedures. If the formal complaint is covered by a STT procedure the admissibility as a Service Complaint should not be considered until the final result of the STT process has been received.</td>
</tr>
<tr>
<td><strong>IS THE COMPLAINT OF AN EXCLUDED NATURE?</strong></td>
<td>YES/NO</td>
<td>Certain specified matters are excluded from being the subject of a Service Complaint (e.g., pensions, discipline, compensation or Criminal Injuries Compensation) – see JSP 831.</td>
</tr>
<tr>
<td><strong>IS IT INTENDED TO ACCEPT SOME OR ALL OF THE COMPLAINT AS A SERVICE COMPLAINT?</strong></td>
<td>YES/NO</td>
<td>If the answer to any of the questions above is ‘No’ or is uncertain, further advice must be sought from the NCSC via this SCAF. In the event that part of the complaint is deemed inadmissible this is to be made clear to the NCSC.</td>
</tr>
<tr>
<td><strong>IF IT IS INTENDED TO RULE SOME OR ALL OF THE COMPLAINT INADMISSIBLE AS A SERVICE COMPLAINT, PROVIDE A DRAFT RESPONSE TO THE COMPLAINANT HERE FOR LEGAL SCRUTINY.</strong></td>
<td></td>
<td>Where some or all of the complaint is to be ruled inadmissible, the CO must provide full and clear explanation for the decision. The explanation must include the weight that was given to any reasons provided by the complainant for submitting a complaint out of time.</td>
</tr>
<tr>
<td><strong>WOULD THE CO (OR OTHER SPECIFIED OFFICER WHERE APPLICABLE) HAVE AUTHORITY TO GRANT APPROPRIATE REDRESS IF THE COMPLAINT WERE TO BE ACCEPTED AS A SERVICE COMPLAINT AND THEN BE UPHOLDED?</strong></td>
<td>YES/NO</td>
<td>If no, either the CO will need to be delegated necessary authority or the Service Complaint will need to be allocated to an alternative DB. This decision will be made by the Navy Service Complaints Secretary - see JSP 831.</td>
</tr>
<tr>
<td><strong>NAME OF NOMINATED UNIT INVESTIGATING OFFICER</strong></td>
<td></td>
<td>To include rank, name, service number, post title and contact details of an individual, usually selected from the complainant’s Unit. If the SC is allocated to the CO (as a DB) to handle, the nominated IO may be tasked by the CO (except in B&amp;H complaints which will be investigated by an HIO). If the SC is passed to an alternative DB, the nominated IO will be required to support the CNLS Casework Cell in the conduct of an investigation into the SC. The nominated IO may be the Unit EDA but should not normally be the Command N1/G1 adviser.</td>
</tr>
<tr>
<td><strong>HAS AN ASSISTING OFFICER BEEN APPOINTED?</strong></td>
<td>YES/NO</td>
<td>The complainant must be offered the services of an Assisting Officer. If an AO is declined this must be recorded on JPA – see JSP 831 and JSP 763.</td>
</tr>
<tr>
<td><strong>ARE YOU AWARE OF ANY OTHER RELATED SERVICE COMPLAINTS OR APPLICATIONS FOR EMPLOYMENT TRIBUNAL, OR ANY OTHER LEGAL ACTION?</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>ANY OTHER FACTORS WHICH MAY BE RELEVANT</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>ADVICE ON ADMISSIBILITY BY NSCS</strong></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Once the CO (or other Specified Officer (SO)) has made a decision on admissibility of the complaint (following legal advice), this decision is to be advised in writing to the Complainant. If the complaint (or any part of the complaint) is not accepted as a SC, the complainant may ask the SCOAF to review the decision. The SCOAF's decision is final. If the complaint is accepted by the CO/SO as a SC, a copy of the SC (Annex F) and a copy of this SCAF are to be forwarded to the Navy Service Complaints Secretary (via email NAVY LEGAL-SC ALLOCN MAILBOX (MULTIUSER)) who will allocate the SC to a Deciding Body (DB) for investigation and decision. The DB may be the original CO/SO, or it may be a different officer or panel of officers where appropriate redress is outwith that which the CO/SO is authorised to provide. The DB will be informed of the identity of their NLS Caseworker/legal adviser, or IO/HIO. The DB may then use Part B of this SCAF to ask for specific legal advice on the handling/investigation/decision etc. of the SC. For SCs being handled by NSCS on behalf of a DB, the nominated caseworker is to complete Part B and submit it, along with the SC, to the allocated LEGAD for comment.

### PART B: HANDLING OF SERVICE COMPLAINT BY DECIDING BODY

<table>
<thead>
<tr>
<th>DECIDING BODY</th>
<th>SPECIFIC COMMENTS/QUESTIONS ON THE HANDLING/INVESTIGATION/DECISION ON THE SERVICE COMPLAINT</th>
</tr>
</thead>
<tbody>
<tr>
<td>(Rank(s), name(s), Service number(s) and contact details)</td>
<td>This space should be used to clearly identify the issues and the redress sought. It should also be used to list the intended areas of investigation including all those persons who will be interviewed/asked for evidence and the evidence which will be sought.</td>
</tr>
</tbody>
</table>

### LEGAL ADVICE

(To include name of Legad and date)

Once the investigation and disclosure is complete, the DB must make a decision on the SC. The DB must pass the draft decision letter to their nominated Legad/Caseworker for approval before it is finalised. The decision letter may be forwarded alone; the Legad/Caseworker will call for further documentation as required. Once the decision letter has been finalised it must be sent to the complainant forthwith.
ANNEX 23D

SUBMISSION OF A REPRESENTATION

Individual submits Representation

Case investigated by CO

CO

Case upheld by CO and remedied

Individual satisfied - no further action

CO supports case but beyond authority to remedy

Case rejected by CO

Individual satisfied - no further action

Investigated by NCHQ Casework Cell

NCHQ

Case upheld by NCHQ and remedied

Individual satisfied - no further action

Case rejected by NCHQ

Individual not satisfied. Requests referral to Higher Authority

Refer to JSP 831
ANNEX 23E

SERVICE COMPLAINT MANAGEMENT CELL: TERMS OF REFERENCE

1. Statement of Requirement

The JPA Service Complaints (JPA SC) business process has been identified as the means by which the Services, MOD Centre and the SCC will monitor progress of Service Complaints (SC) within the Armed Forces. There is therefore a need for the Naval Service to have its own organic capability to monitor Naval Service Complaints from ‘cradle to grave’. That capability will be provided by a Service Complaint Management Cell (SCMC).

2. Terms of Reference for SCMC

   a. To act as the Naval Service JPA SC business process policy lead, including:

      (1) Naval Service lead for input to JPA SC Business Process Guides.

      (2) Lead for single Service guidance on JPA SC business process.

   b. To provide Naval Service JPA SC statistical compilation.

   c. To provide ‘through life’ management of Naval Service SCs on JPA, including:

      (1) Quality assurance of SC data inputted on JPA SC, feedback to units and promotion of best practice.

      (2) Review on JPA SC of compliance with agreed SC timelines and requesting, on behalf of NCHQ, explanations from Units, Decision Bodies and Appeal Bodies for breach of agreed handling timelines.

   d. To provide Subject Matter Expert (SME) advice for units in relation to the business process of inputting JPA SC data.

   e. To serve as the Naval Service point of contact for D SP Pol SCW on JPA SC business process issues and Naval Service JPA SC statistical compilation.

   f. To provide JPA SC business process training expertise to DMLS.

DATA PROTECTION ACT 1998

The MOD is committed to ensuring that all your personal data including that of a sensitive nature is used with your consent, respect for your privacy and only for the limited, clearly stated purposes within the form. This accords with our legal obligations under the Data Protection Act 1998.

Once completed, this certificate is to be returned to: [originator insert details]
ANNEX 23G

PROCEDURE FOR THE MANAGEMENT OF BULLYING AND HARASSMENT SERVICE COMPLAINTS IN THE NAVY COMMAND

References:
A. JSP 831 - Jan 16 version.
B. JSP 763.

1. Introduction
This Annex sets out the procedure for units in the Navy Command to follow when processing complaints which allege bullying and harassment (B&H). It also sets out the procedure to be followed in order to make application for investigation of B&H Service Complaint by the Complaints Investigation and Mediation Team (CIMT) or a fee-earning Harassment Investigation Officer (FEHIO).

2. Initial Action on Receipt of Formal Complaint of Bullying and Harassment
   a. It is often the case that a CO becomes aware of a potential bullying and/or harassment complaint prior to it being submitted as a formal complaint. As such, it is incumbent upon COs to ensure that as much informal resolution is pursued as early as possible – this may include Divisional discussions or informal mediation. It may also include formal mediation, which can only be provided by trained mediators – in Navy Command this is provided by the Complaints Investigation and Mediation Team (CIMT). The CIMT should be contacted early to establish whether mediation may be appropriate and to explain the process and potential benefits to the complainant (and respondents as applicable). It is important, however, that a CO remains as impartial as possible (ie. by not getting too involved in trying to understand or resolve the parties’ issues) because if a bullying or harassment complaint is deemed admissible (by the CO or other SO), it is usually the CO (or other SO) who is appointed as the Decision Body (DB) – a role they should undertake with no pre-conceived ideas as to the outcome. If a CO becomes too involved in a complaint before formally deliberating on a properly investigated and disclosed case file they risk being criticised for lack of impartiality and either party to the complaint may appeal against the decision. Furthermore, an alternative DB may have to be allocated from the outset – undermining an essential tenet of the SC process which is to keep COs at the heart of complaint resolution whenever possible.

   b. COs must obtain legal advice on the admissibility of bullying and/or harassment complaints. In order to do this they should ensure that what the complainant is complaining about, and the redress sought, is crystal clear (dates, times, how the alleged incident(s) made them feel, witnesses etc.) – an Assisting Officer is often invaluable in achieving this. Once a complaint has been admitted (either partially or in full), it is to be sent to the Navy Service Complaints Secretariat who will allocated it to a Decision Body (DB). The DB appointment letter will allocate an appropriate legal adviser and will indicate whether an HIO is required to conduct the investigation.
c. In the Navy Command it is to be presumed that bullying and/or harassment complaints will be investigated by an HIO. The nominated legal adviser will act as the definitive single point of contact and source of legal and procedural advice. Units should not seek advice on the handling of formal complaints directly from elsewhere.

d. As part of the enquiry into the admissibility of a formal complaint, the CO (or other appointed SO) is required to meet with the complainant (and their Assisting Officer as required) in order to clarify the complaint. During this meeting, the CO (or other SO) will, amongst other things, examine whether mediation has been considered/offered and if the case is amenable to being mediated. Formal mediation can often be an effective means of achieving swift resolution and thereby restoring working relationships and OC, without the need for further formal investigation and determination of such complaints.

e. In addition to meeting with the complainant, the CO (or other SO) may need to hold a meeting with the respondent(s) to make them aware of the complaint against them and to ascertain their agreement (or otherwise) to any informal resolution/formal mediation agreed to by the complainant. At this stage the CO is not to engage in any assessment of the merits of the complaint; it has yet to be deemed admissible as a Service Complaint. The CO (or other SO) needs to consider management action ie. whether one or more parties need to be separated, whether the allegations warrant referral to MDP or Service Police and whether all parties are able to access the support they require. Making an admissibility decision may be delayed if informal resolution or formal mediation is being actively pursued. Notwithstanding this, a CO (or other SO) should aim to make a ‘Gateway Decision’ on admissibility no later than 28 days from the date of submission of the complaint.

f. Part A of the Service Complaint Advice Form (SCAF) Version 2 at Annex 23C is to be completed by the CO (or other SO) and, following legal advice from the Regional Legal Office, a Gateway Decision is to be made on admissibility. Any part or parts of the complaint which are deemed admissible are to be forwarded, along with the completed (Part A) SCAF to the Navy Service Complaints Secretariat using the email address NAVY LEGAL-SC ALLOCN MAILBOX (MULTIUSER).

g. The Navy Service Complaints Secretariat will allocate the Service Complaint to a DB. In the case of most SCs about B&H the DB is likely to be the complainant’s CO, because they are likely to have the authority to grant the redress sought and are likely to be most appropriately placed to ensure the matter complained of does not affect operational capability. If the CO is implicated in the complaint or does not have the authority to act as the DB, the SC will be allocated to an alternative DB in accordance with Para 2315. The alternative DB may be another ‘fleet officer’ such as Capt SS or COMPORFLOT/COMDEVFLOT/CAPTFASFLOT etc.

h. Within the allocation letter, the Navy Service Complaints Secretariat will nominate an HIO. This will usually be a member of the CIMT but, if necessary a FEHIO will be allocated.
3. Formal Investigation by Harassment Investigation Officer

a. Investigation by CIMT. In the case of investigation by CIMT, the DB will liaise directly with the team. The DB will formally appoint the CIMT as the Harassment Investigation Officer (HIO), defining the scope of the investigation, which is then to be investigated in accordance with Reference B.

b. Investigation by FEHIO. In the case of investigation by a FEHIO, the DB will need to define the scope of the FEHIO’s investigation and then contact CNLS Service Complaint Management Cell (SCMC) in order for it to obtain prior budgetary approval from NCHQ finance staff to allow for the appointment of a FEHIO. The SCMC will send the DB the relevant application form for engagement of a FEHIO. It is the DB’s responsibility to ensure that it is completed in full, however, the nominated legal adviser should be prepared to lend assistance as the information required will include an assessment of the length of time the investigation will take, the requirement for witnesses, and anticipated expenses etc.

c. Once budgetary approval has been granted, the SCMC will notify the DB, Defence Business Services (DBS) and the nominated legal adviser. DBS will then inform the SCMC of the name of the FEHIO nominated, which will then be passed to the DB. Once the DB has agreed to the nomination and authorized DBS, via the SCMC, to engage the FEHIO, the DB will be in a position to commission the FEHIO to conduct the investigation (the scope of which will have been defined by the DB beforehand) in accordance with Reference B. DBs should be aware that financial approval is capped. Where there is a foreseeable increase in cost, eg. additional lines of inquiry requiring an extended investigation, the SCMC should be contacted and given sufficient information to arrange further financial approval. On completion of the investigation, the FEHIO will submit an expense claim to the DB. This should be scrutinised to ensure that expenses claimed are reasonable before being forwarded to the SCMC.

d. Once the HIO has reported and the DB has decided the complaint, the DB will be required to complete a DBS feedback questionnaire. The DB is to provide feedback on the quality of the HIO investigation and report to enable DBS and CNLS SO1 Service Complaint Law to conduct quality assurance and facilitate organisational learning.

4. Informal Complaints of Bullying and Harassment

As set out at Para 2301, informal B&H complaints (like any other informal complaint) are not Service Complaints. Consequently they are not covered by the procedures set out in this Annex. Should D&IAs wish to seek advice on the management of such complaints they should contact NCHQ Hd NPS D&I policy staff.
1. Introduction

a. Discrimination, bullying and harassment are unacceptable in the Armed Forces. This means that where a complaint has been upheld and unless circumstance may prevent it, e.g. where no respondent has been identified or the respondent is no longer serving, the CO of the respondent is required to consider initiating administrative action. In order to ensure that COs are informed of such cases, and where the Decision Body (DB) and CO of a respondent are not the same person, the DB will notify the CO of an individual against whom a complaint of bullying, harassment or discrimination has been upheld in accordance with JSP 763. The process of complaint management is detailed in JSP 831, JSP 763 and BRd 3(1) Chapter 23 and is not repeated here. Additionally, this Guidance does not cover Service disciplinary procedures in any way nor is it intended for use before a CO decides a case.

b. Where a DB upholds a formal complaint of discrimination, harassment or bullying, COs are reminded of the importance of taking adequate, appropriate and prompt action in order to correct the behaviour of the respondent. In respect of Service respondents, there is a range of administrative sanctions for the CO to consider. Any action ultimately taken against the respondent should reflect the nature, seriousness and frequency of their behaviour, taking into account any other factors which may lessen or increase the severity of a sanction, and should be applied as consistently as possible. Appropriate comment should be included in an individual’s SJAR/OJAR in accordance with JSP 757.

c. COs should refer to this Guidance in order to provisionally determine what action should be taken. Advice must then be taken from the relevant Regional Legal Office as to the appropriateness of the proposed sanction. This Guidance does not entirely limit CO’s rights to apply sanctions as they see fit, which include the possibility of taking no administrative action (in exceptional cases), however the CO must appreciate that it has been designed to protect both them and the Service from criticism and possible legal action and to ensure consistency and appropriateness of sanction across the Service. Where a CO proposes to depart from this Guidance, he or she must first seek the advice of the appropriate Regional Legal Office. In addition to recording the reasons for the imposition of a particular sanction (which is mandatory in all cases), if he or she chooses to depart from this Guidance, the CO must fully record his or her reasons for doing so.
2. **Range of Actions**

Following an upheld formal complaint of discrimination, harassment or bullying, the list of administrative sanctions that may be taken to deal with a Service Person is at Appendix 1 to this Annex. Tri-Service guidelines (used in this Note hereafter) are shown aligned to the approximate equivalent single Service sanction\(^1\). Sanctions are shown in broad order of severity, from least to most severe. Minor Administrative Action sanctions are not listed in detail.

3. **Guidance on Taking Action**

a. Every complaint of discrimination, harassment or bullying is different and must be considered on its merits. Action taken to deal with a respondent will depend on all the circumstances of the case, including the nature, extent and seriousness of the behaviour involved and any other factor which might increase or reduce the severity of sanction imposed (see para 10 and para 11).

b. Although the definitions of bullying and harassment at Annex A to JSP 763 and of discrimination within JSP 831, Chapter 2 for all levels of behaviour detailed below, COs must always seek legal advice from their Regional Legal Office as to the appropriateness of the proposed sanction. Examples of some of the more commonly observed behaviours which may properly be the basis of a complaint are given below. The examples are listed in lower and higher levels of severity, but COs must take into account the pertinent factors which may lessen or increase the severity of a sanction when considering where to place individual cases.

   (1) **Lower Level.** Behaviours that might be considered to be at the lower end of the spectrum include:

   (a) ‘Environmental’ (as opposed to ‘targeted’) harassment, such as sexual/racial/religious banter, jokes and innuendoes.

   (b) Displaying, downloading, circulating, reading or watching offensive material or images in an environment shared by other personnel.

   Sanction Entry Point\(^2\): formal written warning through to formal censure (see Appendix 1, Sers 5-7).

   (2) **Higher Level.** At the higher end of the spectrum are more deliberate, usually targeted behaviours. Examples include:

   (a) Sexist/racist/homophobic and anti-religious language/action directed at an individual.

   (b) Pesterling someone for a relationship after being asked to stop.

---

\(^1\) The process by which sanctions are applied is through existing single Service administrative procedures. COs are to refer to specific single Service regulations for comprehensive lists, including caveats. These are BRd 3(1) Chapter 20 (RN), AGAI 67 (Army) and RAF QRs (RAF).

\(^2\) Where no other factors affecting severity of sanction have been taken into account.
(c) Inappropriate comments about someone’s appearance/anatomy or sex life.

(d) Needless and invasive questions about someone’s private life.

(e) Name-calling/taunts or jibes (especially about someone’s gender, sexual orientation, colour, race, ethnic or national origin, religion or belief).

(f) Ridiculing someone because of the way they look, speak or dress.

(g) Obscene gestures or derogatory remarks; victimisation; unwarranted physical contact.

(h) Undermining or trivialisation of someone’s job performance by a superior (in rank or grade) causing deliberate or unwarranted humiliation of a subordinate.

Sanction Entry Point$^3$: formal censure, through to reduction in rank (see Appendix 1, Sers 7-11).

(3) **Misconduct That May Constitute a Criminal or Service Disciplinary Offence.** In the event of a complaint being submitted or referred to the Service Police, any decision on administrative action must await the conclusion of criminal/disciplinary proceedings. Any consequent administrative action taken should be proportionate to the conduct and remain in line with published Service guidelines. Behaviours at this level include, but are not limited to:

(a) Sexual assault or other assaults, nuisance-obscene phone calls.

(b) Threatening behaviour; obscene acts; etc.

Such behaviours may be dealt with either through administrative procedures, Service disciplinary procedures or both. If dealt with through administrative procedures, then the **Sanction Entry Point$^4$** is: reduction in rank through to administrative discharge (see Appendix 1, Sers 11-12).

4. **Separating the Parties**

During an investigation into a complaint it may be necessary to take management action to avoid the risk of prejudicing the outcome, e.g. where possible and appropriate, separating the respondent(s) from the complainant to safeguard the parties and minimise any impact on operational effectiveness. In advance of a decision on the complaint by the DB, all such action is non-blameworthy and without prejudice. Further guidance is at JSP 763, Para 5.15 and JSP 831.

---

$^3$ Where no other factors affecting severity of sanction have been taken into account.

$^4$ Where no other factors affecting severity of sanction have been taken into account.
5. **Factors Reducing Severity of Sanction Imposed**

Factors that may be taken into account which might reduce the severity of a sanction include:

a. The individual’s previous conduct and warnings.

b. Isolated incident/behaviour unlikely to recur.

c. Youth/immaturity/inexperience.

d. Genuine remorse/regret.

e. The individual’s response to the discovery of the incident.

f. Any circumstances relevant to the degree of culpability (e.g. one-off mistake).

g. Unpremeditated/unintentional.

h. Informal resolution.

i. No harm done to/perceived by complainant.

j. Any relevant personal circumstances.

6. **Factors Increasing Severity of Sanction Imposed**

Factors that may be taken into account which might increase the severity of a sanction include:

a. Rank/position of responsibility/failure to set a good example.

b. Vulnerability of complainant.

c. Behaviour committed in presence of subordinates.

d. Breach of trust/abuse of rank or authority/exploitation of subordinates.

e. Repeated or persistent behaviour, despite requests to stop.

f. Behaviour motivated by gender, race, ethnic or national origins, sexual orientation, religion or belief of complainant.

g. Administrative and/or disciplinary action taken for prior misbehaviour.

h. Refusal to accept responsibility/acknowledge wrongdoing.

i. Lack of remorse/regret.

j. Acting as part of a group and/or inciting others.
k. Context in which the incident(s) occurred and any adverse effect on operational efficiency/unit morale.

l. Premeditated/intentional.

m. Complainant threatened/fearful of victimisation.

7. **Communication of Decision**
   DBs should communicate their decision in respect of the Service Complaint in accordance with the guidance in JSP 763 and JSP 831; this may include the fact that a recommendation has been made to the CO of the person against whom a complaint has been upheld that the CO considers taking appropriate administrative action. COs should report their decision in respect of administrative action to the chain of command in accordance with BRd 3(1) Chapter 20.

8. **Record Keeping**
   Records of the action taken should be kept in accordance with the guidance in JSP 763, Chapter 8 and JSP 831 and as prescribed through JPA reporting of upheld complaints. For audit purposes, the CO should also record the reasoning behind a sanction. This information will be monitored by single-Service D&I Policy staffs and the D SP Pol SCW Diversity Team.

**Notes:**

1. *Action may be taken against a service person who has behaved inappropriately, regardless of whether a formal complaint has been made and/or whether the matter has been resolved informally. This may be as a result of a CO-initiated formal procedure or taken from the findings of fact by another body (eg. summary hearing or Court Martial).*

2. *Sanctions are not always mutually exclusive and a combination of actions may be appropriate. The CO may also wish to take into account the views of the complainant, including those on the nature of sanction imposed; though this will not necessarily determine the outcome.*

3. *If a complainant were to claim in an Employment Tribunal (ET) that they had been unlawfully harassed or victimised, and the ET upheld the claim, the ET could decide to give the complainant ‘aggravated damages’ if it considered that the action taken against the respondent(s) by the CO (or the lack of any such action) suggested that the complaint was perceived to be trivial.*

4. *Given the desire for consistency across the Services, commanders at Joint Service establishments who are required to decide on sanctions against a respondent from a different Service should seek advice from specific single Service career managers and relevant legal staff.*

<sup>5</sup> For administrative sanctions, this can only be one rank and can only be imposed upon NCOs, not officers.
ANNEX 23I

GUIDANCE TO NAVAL SERVICE ASSISTING OFFICERS FOR BULLYING AND HARASSMENT COMPLAINTS

References:
A. JSP 763 – MOD Bullying and Harassment Complaints Procedures
B. JSP 831 – Redress of Individual Grievances: Service Complaints
C. BRd 3(1) Chapter 20 – Discipline Policy and Processes
D. BRd 3(1) Chapter 23 – Representations and Complaints
E. BRd 3(1) Chapter 30 – Diversity and Inclusion
F. Equality Act 2010

1. Purpose of this Guide
   a. The role of the Assisting Officer (AO) is to provide advice and guidance to either the complainant or the respondent(s); it is not to provide legal advice or other expertise. It is the responsibility of AOs to become familiar with their duties which are defined in Reference A and Reference B, and with the bullying and harassment complaints procedures.
   b. The aim of this guide is to assist AOs in understanding their duties and responsibilities, to draw together disparate instructions relating to their role, and to provide the AO with visibility of key milestones to help them ensure that the processes in Reference A have been followed correctly. Key milestones are indicated with a question and a tick box to allow the AOs to record whether the milestone activities have been completed.

2. Assigning of the AO
   a. It is the responsibility of the complainant’s CO (or the Specified Officer when this is not the CO) to ensure that an AO is assigned to each party, to ensure that they are in no way connected with the complaint and that there is no possibility of them being called as a witness. Whilst it is highly advantageous for the AO to be EDA-trained this is not a pre-requisite and, in some cases, would be unachievable. The key requirements are that the potential AO has a thorough understanding of the complaints system and is trusted by the complainant/respondent. The AO can be an Officer, Warrant Officer, SNCO or MOD civil servant of equivalent grade (or Trade Union Official) and must be at least the same rank as the complainant/respondent they are assisting. However, they must not have even the slightest involvement in the complaint or have a personal interest in the outcome. The following should not be an AO: CO; an EDA (where they are also the nominated EDA); unit Chaplain; Civilian Chaplain to the Military; a Medical Officer/Service Lawyer when in medical/legal roles within the unit; or any other individual where there is any likelihood that they may be involved in any subsequent or related investigation. In addition, it is preferable that DLOs and EAs, given their responsibilities for the management of Level 1 complaints and the provision of immediate advice to the Command, do not act as AOs. Where a DLO or EA is assigned, they cannot administer a subsequent Service Complaint in any way and an appropriate substitute must be found.
b. It is preferable for the AO to be assigned to the complainant before the Annex F (to Reference A) is submitted in order that they can assist with the drafting of the formal complaint. It is also preferable for an AO to be assigned to the respondent before they are given a copy of the complaint so that assistance can be given in drafting a response. The Lead EDA is to record on JPA the name of the AO and the date by which the AOs had been assigned in order that the unit’s adherence to correct procedure can be demonstrated.

| Milestone 1 | Confirm that the date by which the AO had been appointed and their name has been recorded in JPA by the Lead EDA. This should be entered into the ‘Other Related Objects’ free text section. |

3. Submission of the Complaint

a. A formal Service Complaint may be submitted at any time within 3 months of the alleged incident, or the latest alleged incident when the complaint refers to a series of events. An attempt at informal resolution should, however, be made in the first instance. A Service Complaint must be in writing, dated and signed by the complainant. Although it may be in any format, the complainant will be expected to complete and submit a complaint form using Annex F to Reference A. The AO for the complainant should assist them and ensure that the complaint meets the following criteria:

(1) Contains sufficient detail, including dates, to allow separate incidents, respondents and witnesses to be identified.

(2) Is crystal clear in what the complainant is alleging and against whom.

(3) Is accompanied by relevant documentary evidence.

(4) Specifies what redress is requested, noting that it is not for the complainant to specify particular sanctions (no one can be ordered to make an apology, and some forms of redress (such as Service disciplinary action) may not be within the powers of the DB to impose).

b. Upon receipt of a formal complaint/Annex F, the CO is to acknowledge receipt of the complaint, making use of the template at Annex 23B. The CO is then to meet with the complainant (and their AO) to fully understand the basis of the complaint – in cases of alleged bullying and harassment this meeting does not form part of the formal investigation.
c. The CO is also to provide the respondent(s) with a full copy of the complaint and, once they have had time to consider their response, invite them to attend a meeting (with their AO) to discuss the matter.

d. Should the DB decide that it is necessary to separate the parties, the action should be neutral and fair (see Reference A paragraph 5.15).

<table>
<thead>
<tr>
<th>Milestone 2</th>
<th>Complainant received confirmation of receipt of complaint, and interviewed by CO.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Respondent received full copy of complaint and supporting documentation and interviewed by CO.</td>
</tr>
</tbody>
</table>

4. **Admissibility of the Complaint as a Service Complaint**
   Once the CO has met with both the complainant and the respondent(s), a ‘Gateway Decision’ will be made on whether any or all of the complaint is admissible as a Service Complaint. In the event that none of the complaint is admissible, the complainant will be informed in writing. In the event that some or all of the complaint is deemed admissible the complaint will be forwarded to the Navy Service Complaints Secretariat who will assign a Decision Body to investigate and decide the Service Complaint. The Decision Body may or may not be the complainant’s CO.

5. **Investigation of the Complaint**
   a. Alleged cases of Bullying and Harassment should be investigated by a person who is trained in interviewing and harassment investigation. This will normally be a member of the CIMT or a HIO allocated by the CIMT.

   b. The AO should accompany the Complainant/Respondent when they are interviewed by either the DB or the HIO. In order to comply with the Data Protection Act 1998, the AOs, complainant and respondent(s) are not to discuss the evidence, their involvement, or any other aspect of the investigation, with anyone else.

   c. The Complainant, Respondent, and their respective AOs, are entitled to see the Initial Investigation Report before the final version is submitted to the DB.

| Milestone 3 | Initial Investigation Report disclosed to complainant and respondent(s) within 30 days of HIO’s appointment. |

6. **Resolution of the Complaint**
   The target for resolving all complaints is 24 weeks, starting from the date that the complaint was admitted by the Specified Officer as a Service Complaint. In the majority of cases it should be possible to resolve the complaint well within this time scale – early resolution benefits both parties and restores the cohesion and capability of the unit.

7. **Management of Assignment Action**
   In the event that a complainant, respondent or one of the AOs is re-assigned from the unit part way through the complaint process, in order to provide continuity it is preferable that the AOs remain assigned to the complainant/respondent.

SECTION 1 - PRIMARY LEVEL WELFARE

2401. Introduction

a. Tri Service Operational and Non-Operational Welfare Policy, JSP 770, summarises that:

‘The nature of military activity and way of Service life set Armed Forces communities apart from many areas of civilian society. The critical connection between welfare and operational effectiveness affirms that the support provided for Service personnel and their family is “core” Armed Forces business.’

b. There exists clear guidance to all Services regarding the management, development and provision of welfare. JSP 770 recognises the necessity for single service guidance to reflect the uniqueness of each service, the needs of its personnel and their families, the differing demands placed upon staff and the diversity of working environments that Serving personnel operate within.

c. Responsibility for developing welfare policy for the RN rests with CNP&T/2SL who is a member of the Service Personnel Board (SPB). Whilst CNP&T/2SL has responsibility for policy, implementation rests with the chain of command. Captain People Support (formerly Personal, Family & Community Support and Physical Development (PFCS&PD)) is responsible for the collation of welfare policy in BRd 3(1), although other desks within NCHQ (such as Pers Ops and CNPS staff officers) are sometimes responsible for its actual development.

2402. Welfare Provision

a. Welfare is provided by a number of organisations, both within the Command structure, and externally through partner organisations and Local Authority agencies (see Section 8 of this Chapter, and Chapter 32) where appropriate. Provision can be defined as either one of two distinct levels of support.

(1) Primary. Primary welfare support is defined as the provision of support generally available from within unit resources. Primary welfare level support can be given by Commanding Officers, the Chain of Command, Divisional Officers and the unit pastoral and medical personnel.

(2) Secondary. Secondary, specialist, welfare support is defined as that which cannot or should not be dealt with at the primary or unit level since it requires specialist trained staff. Within the Naval Service such support is provided by RN RM Welfare (NS FPS).
b. **Reserve Forces Personnel.** Welfare support, including secondary (specialist) level welfare, for Reserve Forces and their in-scope families, when mobilised, should be aligned as closely as possible with that offered to Regular Service personnel to ensure that the specific needs of the Reservist are met. This is to include the support required by Reserve Forces and their entitled families before, during and after mobilisation. Refer to JSP 753 (Tri-Service Regulations for the Mobilisation of Reservists).

2403. **Command Responsibility**

Welfare is a function of command. The Commanders in Chief and theatre Commanders overseas are responsible for implementing policies within their own commands. There are, in addition, a number of agencies with specified roles to play that must be recognised and supported by the chain of command. The effectiveness of welfare support is dependent upon the direction and co-ordination of the work of the various specialist agencies, charities and volunteer groups (see Section 8 and Chapter 32) at the appropriate (normally local) level. This is to be achieved through a formal structure of welfare management committees, and reinforced where practical by the co-location of specialists, services and activities. Unit budget managers should be consulted to ensure that public funds are only committed to MOD funded welfare elements and that value for money and affordability issues have been fully considered.

2404. **Commanding Officers’ Responsibility for Personnel under their Command**

a. Welfare support to all unit Service personnel and the Service community is the responsibility of the CO. This responsibility is exercised through the chain of command, utilising specialist advisers and welfare workers, and by providing community support assets.

b. Commanders at all levels are to undertake the following:

1. Provide and maintain as a minimum the standard of welfare and community support assets as detailed in JSP 770 Chapter 1, Annex D.

2. Establish a stigma-free welfare culture that encourages personnel to seek advice at the earliest opportunity through the chain of command or directly through specialist welfare personnel.

3. Provide or ensure access to welfare resources where normal civil society does not meet the need.

4. Ensure that all appropriate personnel undergo training suitable to meet their welfare responsibilities.
(5) Ensure that all vital information, including full details of welfare and community support services, is communicated effectively to the Service community in a way that is suitable to meet their individual needs. This is to include details of the MOD Equality and Diversity Policy, Naval Diversity and Inclusion policy (see Chapter 30) and MOD Harassment Complaints Procedures (see JSP 763), ensuring that the welfare needs of the parties to a complaint (complainant and respondent) are properly considered and that they are protected from the stresses of their situation, see JSP 770 Chapter 1 Annex D.

(6) Seek specialist advice where necessary. Timely advice and guidance should be sought from higher authority where required. Potentially high profile and contentious issues should be referred to higher authority for consideration before unit action is taken.

(7) Maintain a close working relationship with specialist welfare organisations (eg. NS FPS) granting suitable access where required. The CO is to regularly hold formal welfare conferences run by specialist welfare staff to address current welfare issues and ensure that a seamless and coherent welfare service is available.

(8) Institute a Carers’ Forum, making use of the guidelines in Annex 24B.

(9) Include welfare requirements within preparations for all exercise and operational deployments; this should apply equally to mobilised reservists attached to the unit.

(10) Publish a Welfare Charter that sets out the unit welfare strategy. As a minimum, the document should cover: delivery, responsibility and funding framework. An example is at JSP 770 Chapter 1, Annex D.

(11) Disseminate, as part of the induction process for personnel newly arrived at a unit the following information as a minimum:

(a) Details of the welfare chain of command. Personnel should be made fully aware of whom they or their families can contact.

(b) Assurances that the unit is a stigma-free welfare environment.

(c) MOD’s Equality and Diversity policy and Naval Diversity and Inclusion policy (see Chapter 30) and the MOD Harassment Complaints Procedures (see Chapter 23).

(d) Details of welfare facilities both on and off base. These should include the Welfare Information Support Office (formerly HIVE) (see Para 2435,) and community centre; education and sports facilities; social and retail facilities; and youth and childcare facilities and activities.

(e) Details of the Unit Welfare Charter in accordance with JSP 770 Chapter 1 Annex D.
2405. Welfare within Ship, Boat, Unit or Establishment

a. Personnel

(1) Chain of Command. Welfare is a function of command and, as such, COs have full responsibility for the welfare of the personnel and the Service community under their command.

(2) The Divisional Officer (DO). The primary duties of DO include knowing their ratings and being responsible for their pastoral care and morale (For Divisional matters, see Chapter 21 and BR 2 Chapter 18).

(3) Unit Medical Staff. Medical staff are present on all major military establishments and provide primary healthcare to all serving personnel and where applicable their families. For Medical matters, see Chapter 28.

(4) Chaplaincy (including Civilian Chaplains to the Military (CCMs)). All Chaplains are to be actively involved in primary welfare support, principally in the context of pastoral care. Whilst they cannot offer specific religious care to members of a faith group different from their own or to those with no religion or belief, they are to offer independent advice and support to all personnel, including details of local faith group communities and centres of worship. They are to offer confidentiality according to their own Church discipline, advice and emotional support to all members of the Armed Forces and their dependants regardless of faith. The Armed Forces have appointed religious leaders (Civilian Chaplains to the Military (CCMs) from the Buddhist, Hindu, Jewish, Muslim and Sikh faiths) to act as advisers on matters specific to those faiths. (For information on Religion and Belief, see Chapter 31.)

(5) Specialist Welfare Workers (employed within NS FPS). See Para 2412.

(6) Community Development Workers (CDW). CDWs are professionally trained civil servants whose role is to act on behalf of the Services to ensure that the Service Community has access to all the support to which it is entitled at Local Authority level. See Para 2433.

(7) Equality, Diversity and Inclusion Advisers (EDIAs). All Service units and establishments are required to have least 2 EDIAs (an increasing number have a network of EDIAs and Assistant EDIAs), who are available to provide impartial advice on all aspects of Diversity and Inclusion and, in particular, procedures for making complaints of discrimination, harassment or bullying. See Chapter 30.

(8) Naval Service Welfare Information Officers (Formerly HIVE). See Para 2435.
b. **Welfare Committee**

(1) The institution of a Welfare Committee is in no way to interfere with or prejudice the right of an individual to put forward suggestions through the DO, nor to affect the responsibility of the DO for looking after the interests of those in the division.

(2) The items which Welfare Committees may discuss include living conditions in the ship, boat or establishment, messing arrangements, recreational activities and any suggestions for the welfare of the ship’s company. Responsibility for the administration of the ship’s funds will also be undertaken by the Committees (see Annex 24A).

(3) General conditions of Naval Service, such as discipline, working hours, pay, allowances and leave scales and such matters as cooking and serving food from galleys, are outside the scope of the Welfare Committee.

c. **Personnel under 18 and Recruits.** The policy regarding the management and welfare of recruits and Service personnel under 18 years of age is contained in JSP 834 and Chapter 21. This Policy provides additional advice to COs regarding the legal requirements associated with Service personnel aged Under 18 and, whilst maturity and experience vary considerably between individuals, it is clear that under 18s may be more vulnerable than those who are older, and their care may require particular attention.

d. **Care Leavers.** There will also be individuals joining the Armed Forces who are care leavers and therefore subject to the provisions of the Children (Leaving Care) Act 2000. This seeks to ensure that young people aged 16-21 years, or older, if in an agreed training or education programme, who have had a significant period of being looked after by a Local Authority (LA), continue to receive advice, support and befriending for a period of time after they cease to be formally the full-time responsibility of the LA. Under 18s who are care leavers may not have the benefit of family support that others enjoy; this may make them more vulnerable. COs are to follow the advice contained in JSP 834.

**2406. Preventative Welfare - Definition**

The term ‘Preventative Welfare’ is used to describe the work of promoting the wellbeing of individuals and families before problems become evident, of limiting the intensity and duration of problems that arise, and of treating existing problems in order to reduce future distress and limit further damage. Through communication with members of their Division, Divisional Officers can play a key part in preventing or reducing difficulties from arising.
2407. Welfare Provision to Service Personnel and their Entitled Families

Service personnel and their entitled families who reside close to their units have access to the welfare support infrastructure that COs are required to provide. Those who have chosen to live ‘off base’ in private accommodation did so in the knowledge that they were distancing themselves from the traditional welfare envelope. Notwithstanding such decisions, it is to be recognised that there may be circumstances in which those individuals and dependants will require welfare support. Although it is impractical consistently to provide the same welfare support to those who choose to reside away from their unit in private accommodation, COs are to ensure that, at the very least, such personnel are presented with a comprehensive welfare information package. The package should include, as a minimum, contact details of the relevant welfare specialists, advice on what to do in given circumstances and the on-line options available.

2408. Deployed Welfare Support (DWS)

a. DWS is delivered by the Deployment Welfare Package (Overseas) (DWP(O) or the Deployment Welfare Package (United Kingdom (DWP(UK). Full details are contained within JSP 770; however, the fundamental principles of Operational Welfare are as follows:

(1) Welfare support is intended to enhance and sustain operational effectiveness.

(2) Operational need has priority over individual welfare.

(3) The aim of welfare spending is not to cosset the individual but to make sufficient provision for his or her welfare such that he or she can concentrate on the operational task in hand.

(4) The welfare of Service personnel is a Command function and key to sustaining the moral component. It is also important to ensure that individuals feel that their needs have been looked after from the perspective of job satisfaction and, ultimately, retention.

(5) There must be a level playing field wherever possible such that all Service personnel know and understand what support is available to them and that no group feels disadvantaged in comparison to another.

(6) In general terms, the provision of DWS means that individuals should not be disadvantaged financially or by lack of access to welfare facilities when deployed.

(7) Harmonised, common and agreed tri-Service procedures should be applied rather than ad hoc single Service solutions. Disparity in terms and conditions between personnel from different Services on operations have previously been identified as a significant irritant and must be eliminated wherever possible.
b. DWS seeks to achieve the following effects.

(1) **Communicate.** To enable deployed Service personnel to retain contact with family and friends.

(2) **Entertain.** To provide for the leisure and relaxation needs of deployed Service personnel.

(3) **Support.** To provide for the physiological needs of deployed Service personnel.

(4) **Connect.** To provide support for the families of deployed Service personnel and facilitate the Service person’s reintegration into the family unit.

c. The components of the DWP(O) are:

(1) **Communication**
   
   (a) Provision of telecommunications.

   (b) E-mail and SMS Texting.

   (c) Forces mail (including e-bluey).

(2) **Entertainment**
   
   (a) Audio visual.

   (b) Internet.

   (c) Printed matter and games.

   (d) Combined Services Entertainment (CSE).

   (e) Operational Fitness Equipment.

(3) **Support**

   (a) Shops (EFI and NCS).

   (b) Laundry and Shower Facilities.

(4) **Connect**

   (a) Families Welfare Grant.

   (b) Families Concessionary Travel Allowance.

   (c) Rest & Recuperation.

   (d) Post Operational Leave.
2409. Welfare Provision for Operational Deployments Within the UK

a. Full details are contained within JSP 770 Part 1 Chapter 6.

b. UK-based operations are primarily focused on Military Aid to the Civil Authority (MACA) which includes:

(1) **Military Aid to the Civil Power (MACP)**. This is defined as Support to the Civil Power in the maintenance of law, order and public safety (e.g. support to counter terrorism operations).

(2) **Military Aid to Other Government Departments (MAGD)**. This is defined as Assistance on urgent work of national importance or in maintaining supplies/essential services e.g. Op FRESCO (provision of fire service support).

(3) **Military Aid to the Civil Community (MACC)**. This is defined as Provision of unarmed military assistance in the event of a localised natural disaster or major incident e.g. severe flooding.

c. Op HERRICK identified a need to provide DWS for those Service personnel deployed in the UK in support of overseas operations.

d. **Eligibility Criteria.** The policy is designed for those Service personnel (Regular and Reserves) who are deployed away from their base location in Formed and Non-Formed Units (including augmentees who will, by and large, ‘bulge’ an existing establishment infrastructure) in support of:

(1) A MACA operation which has:
   
   (a) An operational name;

   (b) Is supported by a CDS directive and/or MOD Ministerial authorisation;

   (c) Is expected to last for 7 days or more from the date of deployment or pre-training.

(2) Those Service personnel deployed away from their base unit in support of an overseas operation (for which DWP(O) is authorised and is supported by a CDS directive) but remain in the UK.

e. **DWP(UK) Provision.** DWP(UK) policy mirrors the principle adopted in the DWP(O) for overseas operations in that welfare support should be publicly funded. Unlike the DWP(O), which by and large requires an infrastructure to be put in place eg. telephones, internet, post, recreational facilities etc. DWP(UK) aims to utilise the existing infrastructure in the UK.
2410. Other Welfare Funding

a. **Commanding Officer’s Fund.** The Commanding Officer’s Fund has traditionally been used to promote the smooth running and efficiency of a unit by purchasing items not normally available through the supply chain. BR 18 should be referred to for further details of the operation of the CO’s Fund.

b. **Gainshare Policy.** With the introduction of PAYD (Catering Retail and Leisure (CRL)), an element of profit made by the Commercial partner will be returned to the MOD as ‘gainshare’. Gainshare monies can be used by Commanding Officers to enhance welfare provision at unit/station level. The gainshare return will be split between the non-public and public funds on ratio 2:1 basis (⅔ non-public funds and ⅓ public). Commanders have a great deal of flexibility, within the single Service rules and regulations relevant to non-public funds, in the way that they utilise the non-public element of gainshare.

2411. Welfare of Parties to Bullying and Harassment Complaints

Refer to Chapter 23, JSP 770 Chapter 1 Annex D, JSP 763 (MOD Harassment and Complaints Procedures).
SECTION 2 – SECONDARY (SPECIALIST) LEVEL WELFARE

2412. Naval Service Family and People Support (NS FPS) (formerly Royal Navy Royal Marines Welfare)

a. **Introduction.** Unless specifically stated the following provision applies to all Naval personnel, including mobilised Reservists, and their families. The nature of military activity and way of Service life set Armed Forces communities apart from many areas of civilian society. The critical connection between specialist welfare and operational effectiveness affirms that the support provided for Service personnel and their families is ‘core’ Naval Service business.

b. Accordingly, the NS FPS Mission Statement is:

‘To provide accessible support services that strengthen and enhance the resilience and resourcefulness of Naval Service personnel, their families and communities in order to contribute to the Moral Component and optimise Operational Capability.’

c. NS FPS provides personal support, information and community-based support services to all Naval Service personnel, reservists, and their families. NS FPS works in partnership with the Executive, Divisional and Regimental System to provide professional advice, guidance and recommendations to COs, including outcomes of investigations relating to compassionate action. NS FPS seek to develop and deploy resources to anticipate and prevent personal or family circumstances from reaching crisis point and which promote improved morale, motivation and wellbeing.

d. **NS FPS Portal, Hubs and Satellites Structure.** NS FPS is a multi-disciplinary and mutually supportive organisation which provides services for all RN and RM personnel and their families to ensure equal access to all.

(1) NS FPS has a single point of entry Portal team that is the primary point of entry for specialist welfare investigations, assistance and assessments, and undertakes interventions that do not require face-to-face contact (Tel: 0800 145 6088/02392 728777/9380 28777, email: NAVY NPS-PEOPLE SPT, NS FPS PTL or website: navynps-peoplesptnsfpspt@mod.gov.uk

(2) Para 2414 sub para a. provides the information required by the Portal team to initiate an assessment or compassionate investigation. Hubs and Satellites may undertake assessments on behalf of the Portal team, retain walk-in facilities and generally take on long-term casework.
(3) NS FPS Hubs and Satellites are embedded into the local unit command structure. Hub and Satellite Management and professional lead is provided by civilian C1 Social Work Managers (Service Managers).

(a) **Eastern and Overseas Hub** has satellites in Northwood HQ, Gibraltar, HMS SULTAN/COLLINGWOOD and RM Poole. Contact details are NS FPS, Swiftsure Building, HMS NELSON, Queen Street, PORTSMOUTH PO1 3HH. Tel: 02392 722712, email: NAVY NPS-PEOPLE SPT NS FPS EAST, website: navynps-peoplesptsfseast@mod.gov.uk.

(b) **Scotland Hub** has satellites in 43 Cdo RM and 45 Cdo RM. Contact details are NS FPS, Triton House, 1-5 Churchill Square, HELENSBURGH G84 9HL. Tel: 01436 672798, email: NAVY NPS-PEOPLE SPT NS FPS SCOT, website: navynps-peoplesptsfsscot@mod.gov.uk.

(c) **Western Hub** has satellites in RNAS Culdrose, HMS RALEIGH, BRNC Dartmouth, 42 Cdo RM, 1 Assault Group RM, RMB Stonehouse/30 Cdo RM and the Naval Service Recovery Pathway Hasler. Contact details are NS FPS, Fenner Building, HMS DRAKE, HMNB Devonport, PLYMOUTH, PL2 2BG. Tel: 01752 555041, email: NAVY NPS-PEOPLE SPT NS FPS WEST, website: navynps-peoplesptsfswest@mod.gov.uk.

(d) **Central Hub** has satellites in Liverpool, Birmingham, CLR, CTCRM, and 40 Cdo RM. Contact details are NS FPS, Somerset Court, RNAS Yeovilton, ILCHESTER, BA22 8HT. Tel: 01935 455277, email: NAVY NPS-PEOPLE SPT NS FPS CENT, website: navynps-peoplesptsfpscent@mod.gov.uk.

e. Overall responsibility for the NS FPS specialist welfare provision, delivery and professional standards lies with the B2 Head of Service (NAVY NPS-PEOPLESPT NS FPS HOS), who is accountable to DACOS People Support.

f. When working with their service users, Royal Navy Welfare (RNW) military personnel are authorised to work without the use of rank or rate; however, they are to adhere to Service protocols and appropriate marks of respect are to be applied at all times when dealing with the Chain of Command, and those within the Divisional/Regimental system. When working face to face with service users, RNW personnel are authorised to wear smart and appropriate civilian clothing in accordance with JSP 752.

g. **NS FPS Services**

(1) A comprehensive, confidential, occupational welfare service to serving personnel and their families.

(2) A professional service to the Executive, Regimental and Divisional System.
(3) Compassionate assessments, investigations and recommendations.

(4) A link between the Service person and their family in times of crisis.

(5) Provision of Visiting Officers (VOs) for seriously ill, injured or deceased Service personnel and their families in accordance with JSP 751.

(6) Delivery of a timely, high quality, and effective service without discrimination.

(7) A professional link to external agencies.

(8) A high-quality information service, both face-to-face and across several digital platforms – see Para 2435.

(9) A network of community activities, organised and bespoke, including the critical area of Deployment Support.

h. For the vast majority of cases, NS FPS is able to work alongside the Service person/NoK to achieve solutions without the need to recommend compassionate action.

2413. Confidentiality

The NS FPS code of confidentiality means that disclosure of confidential information should only take place if the prior permission of the individual has been obtained. However, if prior permission from the individual is not given, and there might be serious consequences of not disclosing confidential information, the matter should be referred to higher authority for advice. For example, such circumstances might include the following:

a. Where there is a risk of harm to the individual or others. When assessing risk, it is essential to consider fitness for armed duties (ie. access to or being in charge of a firearm(s)), when deciding on disclosure of information to the Chain of Command. Any concerns relating to an individual’s fitness for armed duties must be disclosed to the Chain of Command and line managers, and be recorded in the NS FPS case notes.

b. In order to prevent a serious criminal act.

c. If there is a serious contravention of military law.

d. If there is, or is likely to be, a serious breach of national security.

e. If an individual is unable to carry out their duties.

f. If there are concerns relating to adult or child safeguarding issues, domestic abuse or gender based violence (including female genital mutilation (FGM)).

Any such disclosure must be in line with relevant Privacy Notices and the MOD’s Personal Information Charter.
2414. Access to NS FPS

a. Initial access to NS FPS should, where possible, be via the Portal (Tel: 0800 145 6088/02392 728777/9380 28777, navynps-peoplesptnsfpsptl@mod.gov.uk), each of which can be used to initiate/request a compassionate investigation/assessment. CoC requests for compassionate investigations should include the following information:

(1) Serving Person’s: Full name, Rank/Rate, Service Number and unit;

(2) Address to be visited/contacted - including key contact and telephone numbers;

(3) Summary of situation – any previous compassionate action (eg. compassionate leave); relevant contact details of NOK, extended family, professionals and organisations;

(4) Impact on the unit if the serving person is granted compassionate action;

(5) Point of contact within Divisional/Regimental System.

b. The NS FPS emergency out of hours service can be accessed through OOW HMS NELSON (Tel: 02392 723875), OOW HMS DRAKE (Tel: 01752 555220), Duty Naval Base Officer Faslane (Tel: 01436 674321 Ext 4005) and Officer of the Watch RNAS Yeovilton (Tel: 01935 455444/5446).

c. Tri-Service Arrangements. The provision of Specialist Welfare Support is a responsibility of the parent Service Command (in accordance with JSP 770) but there will be occasions when another Service Welfare provider (eg. the Army Welfare Service) is able to meet the needs of a Service User more effectively. The Tri-Service Specialist Welfare Agreement on mutual working and areas of responsibility (Annex 24F) applies. Compassionate action, assignments, discharge or services provided at Public expense must involve the parent Service Chain of Command.

d. A referral for NS FPS casework services will result in a casefile being created and personal data being stored on a computer application (Joint Army Navy Information System – JANIS), which is DPA compliant and registered on the Navy Command Information Asset Register.
SECTION 3 – SPECIFIC WELFARE POLICY AND GUIDANCE

2415. Specific Welfare Policy and Guidance

A number of areas of welfare are covered by specific policy. This is covered in the following paragraphs.

2416. Events with Potential Media Interest

a. The appetite for news and the prevalence of social media means that the Chain of Command (CoC) should consider the implications of initial (incident) and subsequent related events (reports, court cases, appeals, inquests etc.) on personnel and their families. This primary welfare responsibility extends beyond the personnel directly involved to those peripherally associated with the event and their families. There have been examples of media trawling housing estates and schools in an attempt to identify individuals connected, even indirectly, with an incident or unit. The role of the CoC is to consider the potential impact of the event on the people affected and put in place proportionate communications and support strategies.

b. The scale and characteristics of these events and the commensurate response will vary considerably, and each will require a bespoke approach. A multi-disciplinary perspective is recommended and the CoC should consider engaging with People Support - NS FPS, OSM, media, service police, legal and secretariat advisors as appropriate. A mapping exercise to identify potential areas of focus may also be considered (see also Chapter 20 Section 17 – Civil Offences and Section 22 – Management of Convicted and Suspected Sex Offenders).

2417. Sensitive Case Advice Reaction Team (SCART)

The procedures for the management of Service personnel who may be ‘At Risk’ are contained in Annex 24C.

2418. Deliberate Self-Harm (DSH) or Suicide

a. The management of DSH is contained in Annex 24D with associated Appendices, which cover the following: Sources of Advice and Support; an Algorithm for Executive Management of DSH; Case Conferences – Guidance for Medical Officers.

b. Action to be taken on discovery of a death or serious injury in an establishment is at Annex 24E.

2419. Relationship Breakdown

a. Relationship breakdown includes marriage and civil partnerships as defined for Service personnel in JSP 752 Part 2 Chapter 1. Under the terms of the Civil Partnership Act 2004 a civil partnership is a legal relationship that can only be formed by two people of the same sex. Couples who form a civil partnership and register the partnership under the terms of the Act have the legal status of “civil partner”.

24-17 of 36
February 2020 Version 1
b. Before starting divorce proceedings when a couple realise there are serious difficulties in their marriage/civil partnership they should try consulting with a suitably qualified person, third party or organisation such as NS FPS (see Para 2412), Relate (see Para 2463 and Chapter 32), or a Chaplain (see Chapter 31 and QRRN) to take advice on their concerns and consider appropriate intervention.

c. Serving personnel in PStat Cat 1C/S, whose marriage or civil partnership has broken down or estrangement is imminent, may take advantage of a ‘cooling off’ period. A period of up to 3 months may be allowed to permit counselling and a possible reconciliation before a change in PStat Cat is required. If no reconciliation has been achieved by then (or at an earlier stage if it becomes clear that no reconciliation is possible) the PStat Cat should be changed from that date. Details regarding responsibility for change of PStat Cat are contained in JSP 752 Part 2 Chapter 1 Section 3.

d. Further details and information relating to SFA and SLA accommodation charges and entitlements are contained in JSP 464 Volume 1 Chapter 3 (Paras 0349 and 0350 relate to Estrangement) and JSP 464 Volume 2 Part 1 respectively. Details relating to accommodation charges are contained in JSP 464 Volume 3 Chapters 2 and 3. See also Chapter 25.

e. Where a relationship is considered to have irretrievably broken down but there are still difficulties to resolve the use of conciliation services may prove beneficial. Conciliation services provide a means of resolving actual or incipient issues, clarifying confused situations, and reducing conflicts by mediating between partners; usually before formal proceedings begin and before contact through legal representatives has hardened attitudes. Conciliators will aim to foster good future parent/child relationships.

f. Information for Divisional Officers, including with regard to financial implications, is at Chapter 21 Section 7; and Annex 21R provides a proforma for a structured interview before change of PStat Cat.

2420. Domestic Abuse (including Domestic Violence)

a. JSP 913 is the Tri-Service Policy on Domestic Abuse and Sexual Violence. Annex 24H provides a guide on Good Practice Responses to Domestic Violence.

b. The Information Sharing Agreement between the Royal Navy Police and NS FPS covering the sharing of information surrounding referral of Victims of Domestic Abuse, Honour Based and Sexual Violence and the safeguarding of adults and children is available on request from either organisation.
2421. Child Care

a. Although childcare is primarily a parental responsibility, it is MOD policy to encourage the development of affordable, quality childcare provision for MOD employees. TLBs have delegated authority to provide childcare support schemes if they have a business case to do so. The management of childcare settings operating from MOD property is the responsibility of the chain of command. At base or unit level, Commanding Officers are to ensure that childcare settings within their area of responsibility are registered with the appropriate National Registration and Inspection regime and have sound management structures as either a charitable trust, company limited by guarantee or, where appropriate, a legal contract. Ofsted inspects and regulates care for children and young people, and education and training for learners of all ages. The majority of Ofsted's reports and publications can be downloaded free from its website. Email: enquiries@ofsted.gov.uk Tel: 0300 123 1231 for local authority children’s services, Website: www.gov.uk/government/organisations/ofsted.

b. The MOD Childcare Vouchers Salary Sacrifice Scheme has been replaced by the Tax-Free Childcare (TFC) Scheme, which is part of the government initiative designed to help working parents pay for childcare. Details are in 2018DIN01-011.

c. JSP 770 Chapter 3 provides MOD Policy applicable to all officially recognised youth and play activities provided through the medium of MOD Youth Centres, Youth Clubs, Projects, Play Centres, community services, Activity Centres, and gymnasiuums. See 2017DIN08-008 Insurance Arrangements for Charging Activities (Income Generation Payments).

d. Youth and Play Activities may be provided for RN/RM dependants in each of the base port areas as well as in certain other bases/units. For each location, there is a NS FPS Hub or Satellite Service Manager who acts as professional advisor to the base/unit CO and who maintains standards under the policy direction of NS FPS Head of Service. Wherever possible, activities are carried out in conjunction with the relevant Local Authority.

2422. Safeguarding Children

a. JSP 834 - Safeguarding Children and Young People contains the Tri-Service Policy and should be followed at all times. The Ministry of Defence (MOD) and Department for Education (DfE) are committed to working together to ensure the safeguarding of Service children and young people. Further guidance in all areas of safeguarding can be found in the DfE's Working Together to Safeguard Children 2018: https://www.gov.uk/government/publications/working-together-to-safeguard-children--2

b. In England and Wales, statutory responsibility for safeguarding and promoting the welfare and wellbeing of children rests with Local Authorities (LAs). In Scotland, this falls to the Social Work Department and in Northern Ireland to the Health and Social Care Trusts. When Service families are based overseas, the lead for safeguarding and promoting the welfare of children lies with the MOD, which assumes a role similar to that of LAs in England.
c. Under the Armed Forces Act 2006 (AFA06), MOD has a responsibility to replicate, as far as is practical, the relevant sections of the Children Act 1989 (CA89) and CA04 to Service Communities overseas. Commanding Officers can therefore order the assessment and protection of children of Service families overseas under these provisions and should make such orders if the need arises.

d. For Service children living in the UK, the designated LA will take the lead and apply the safeguarding children practice/policy as set out in regulations but will where appropriate involve appropriately trained/qualified MOD/Service personnel in the LSCB arrangements. For Service children overseas, the published guidance/regulations will provide the starting point for best practice but conditions/circumstances/resources within the local context will be taken into account when determining the most appropriate mechanisms for applying safeguarding children arrangements.

e. **Child Protection.** In UK, all child protection concerns and referrals must be referred to and dealt with by the statutory authorities. NS FPS can offer advice and assistance in this process however, the needs of the child are paramount and immediate and serious concerns should be reported to the Civil Police and/or social services to ensure that the child is protected without delay. All child protection matters within the Naval Service should be notified to the NS FPS Portal or the local NS FPS Hub or Satellite Service Manager.

f. The Information Sharing Agreement between the Royal Navy Police and NS FPS covering the sharing of information surrounding referral of Victims of Domestic Abuse, Honour Based and Sexual Violence and the safeguarding of adults and children is available on request from either organisation.

### 2423. Disability and Additional Needs

a. JSP 820 - Tri-Service Disability and Additional Needs Policy provides guidance on the range and types of assistance available.

b. Naval policy on assignments for welfare reasons is at JSP 820 Part 1 Section 2 - Assignment, Promotion and Career Management.

c. NS FPS are available to assess, advise and assist on individual circumstances.

d. The Children’s Education Advisory Service (CEAS) is a service located within the MOD’s Children and Young People’s Directorate (www.gov.uk/government/groups/directorate-children-and-young-people) which is established to provide information, advice and support to Service parents about any issue relating to the education of their children, both in the UK and overseas. Much of the demand for the services offered by CEAS comes from Service parents who have children with special educational needs (SEN) and, in Scotland, additional support needs (ASN). In order to gain access to ongoing information, advice and support about such children, Service parents must ensure that they register their children with CEAS.
2424. **Sex Offenders**
   The Management of Convicted or Suspected Sex Offenders in the Service is detailed in Chapter 20, Section 22.

2425. **Adoption and Fostering**
   JSP 760 directs Service personnel to the correct policies and guidelines governing adoption and fostering. It should be read in conjunction with relevant Service and Command instructions (including JSP 760 and JSP 464).
SECTION 4 – COMPASSIONATE ACTION

2426. Compassionate Action
There are six types of compassionate action:

a. Compassionate Leave.

b. Compassionate Area Restriction

c. Compassionate Assignment.

d. Prolonged Shore Assignment.

e. Permanent Shore Assignments.

f. Compassionate Discharge.

With the exception of Compassionate Leave, all other compassionate actions must be investigated and recommended by NS FPS.

2427. Compassionate Criteria

a. Before NS FPS makes a recommendation to the chain of command for compassionate action, they need to be certain that the Service Person’s presence (ie. at home) is essential and that all other courses of action, feasible options and the opinions of other professionals (as appropriate) have been taken into account and assessed.

b. Although no precise guidance can be laid down each case requires objective and holistic assessment. In the following circumstances a recommendation for compassionate action may be deemed appropriate:

(1) When the spouse/civil partner, child or in-scope relative (See JSP 751) of a Serving person is seriously ill or has died;

(2) When a Serving person’s presence is the only means of preventing the break-up of his/her immediate family;

(3) Where the care of dependant/in-scope child(ren) can only be appropriately provided by the Serving person’s presence;

(4) At other times when circumstances are assessed to be exceptional and more than usually distressing.
2428. Compassionate Leave

a. Compassionate leave is defined as an authorised period of absence granted by the CO to enable Service personnel to attend a personal/domestic crisis. A period of compassionate leave should not usually count against an individual’s annual leave entitlement and must be recorded on JPA.

b. The authorisation for and duration of compassionate leave rests with the individual’s CO. NS FPS can assist COs in reaching decisions on compassionate leave by undertaking investigations and making appropriate recommendations; to include duration and a date by which a formal review will be undertaken, which will be a minimum of 3 days before the date of the original recommendation is due to expire. Details of requests for NS FPS investigation/assessment can be found at Para 2414 sub para a or, for out-of-hours, the details at Para 2414 sub para b.

c. In considering requests for compassionate leave, COs should treat each case on its merit by examining a serving person’s need to be present to deal with a domestic crisis; however, up to 2 full weeks will normally be sufficient in the first instance. Only in very exceptional circumstances and with a NS FPS recommendation should compassionate leave exceed 4 full weeks.

d. Repeated periods of compassionate leave for the same/recurring situation should rarely be authorised; Service personnel are expected to resolve their personal affairs within a reasonable timescale using the welfare support available to them.

2429. Compassionate Travel

a. The criteria for categorisation of compassionate travel at public expense are defined in JSP 751.

b. **Within UK Territorial Waters.** Authority for compassionate leave travel within the UK rests with the Service Person’s CO and should only be granted when the circumstances are particularly distressing and a genuine need for travel at public expense (rather than personal) is identified.

c. **Outside of UK Territorial Waters and Units Overseas.** Compassionate travel from outside of the UK territorial waters will normally only be considered if the case concerns ‘in-scope’ relatives. JSP 751 contains a list of ‘in-scope’ relatives. The authorisation for compassionate travel at public expense from outside of UK territorial waters lie with the Joint Casualty and Compassionate Centre (JCCC) (www.gov.uk/joint-casualty-and-compassionate-centre-jccc). JCCC Tel: 0044+(0)1452 519951; Service: 95471 7325.

d. **Compassionate Leave Travel to Countries other than the UK.** Domiciled Collective Leave & Commonwealth Enlisted Compassionate Travel (DOMCOL & COMECT) arrangements are detailed in JSP 760.
2430. Compassionate Area Restriction

a. Compassionate Area Restriction enables an individual to be present when a serving person’s situation falls within the compassionate criteria at Para 2427 but can be gainfully employed during the working day, negating the need for compassionate leave.

b. Recommendations for Compassionate Area Restrictions should be considered only when an holistic assessment has deemed that the serving persons presence is essential to provide support outside of working hours. Recommendations made should detail working hours achievable by the serving person for the duration of the area restriction.

c. Compassionate Area Restriction must only be utilised as a short-term measure to provide essential care/support in times of domestic crisis. Recommendations should be considered initially for up to 2 full weeks and should not exceed full weeks. If exceptional circumstances are present which warrant further area restriction, then the situation should be assessed for compassionate assignment.

d. The authorisation for and duration of Compassionate Area Restriction rests with the individuals CO. NS FPS are to conduct a full investigation and verification and present the CO with a formal recommendation and review date to assist the CO in reaching their decision.

Repeated periods of Compassionate Area Restriction for the same/recurring situation should rarely be authorised; service personnel are expected to resolve their personal affairs within a reasonable timescale using the welfare support available to them.

2431. Compassionate Assignments

a. Where Compassionate Leave/Area Restriction is insufficient to resolve a problem, a Compassionate Assignment can be considered. The authority for Compassionate Assignment recommendations rests with NS FPS; they will usually be for up to 3 months and not more than 6 months’ duration.

b. Commanding Officers or Assignment Authorities who consider that a Compassionate Assignment may be necessary should request an investigation by NS FPS (see Para 2414). During the course of the investigation NS FPS should, if not already involved, consult with the appropriate Assignment Authority regarding to the implications of any reassignment (eg. impact on OC of resulting gap). It should be borne in mind that compassionate assignment action to resolve one person’s difficulties can frequently disadvantage and significantly disrupt others, especially when a relief is sought at short notice and out of turn.
During the course of the compassionate investigation and any resulting action, the Service Person is expected to fully engage with NS FPS, the Divisional/Regimental System and, where appropriate, their allocated Personnel Support Group (PSG). On completion of the investigation NS FPS will make one of the following recommendations:

1. Compassionate Assignment is not recommended.

2. Compassionate Assignment is highly desirable, even though this may seriously interfere with the requirements of the Service.

3. Compassionate Assignment is essential. This could be for the Safeguarding of children or vulnerable adults within the Service person’s immediate family.

d. The decision to approve the compassionate assignment recommendation rests with the CO, taking into account the Service requirement. In all cases NS FPS and the Assignment Authority are to be informed of the decision.

e. All Compassionate Assignments are subject to formal written review carried out by NS FPS, which will provide the following:

1. An assessment of the current situation;

2. An evaluation of progress to date;

3. Necessity for the Service Person’s continued presence;

4. Range of options and specific recommendations.

f. The overriding principle is to keep the CO and Career Manager updated with progress and supplied with sufficient information in order to make considered decisions in a timely manner; benefitting the Service Person and the Service. Reviews are to be carried out a minimum of one month before the compassionate assignment is due to expire. Reviews should also be undertaken where there is a significant change to circumstances and the outcome of these reviews should be shared with the Command and, as appropriate, the Career Manager.

g. NS FPS recommendations should state only the general geographical area to which a person is to be assigned. The Assignment Authority should, wherever possible, seek to place the Service Person in a complement billet where the individual will work within their specialisation.

h. NS FPS should in all cases discuss with the Assignment Authority and, wherever appropriate and possible, with the receiving Command, any circumstances that may affect or impair the individual’s employability whilst in the Compassionate Assignment.
i. Service personnel should be advised that, on completion of a Compassionate Assignment, they are subject to the requirements of the Service. They may return to their former place of duty or, where an assignment has been deferred for compassionate reasons, take up a planned or alternative assignment elsewhere that is within established assigning principles and protocols.

j. The case for an extension to a Compassionate Assignment should be supported by a NS FPS Social Inquiry Report (SIR) and appropriate recommendation by a NS FPS Service Manager. The completed SIR will be despatched to the Commanding Officer holding responsibility for the SP who in turn, will forward a recommendation to the Career Manager – who will have a copy of the full report - for a decision.

k. Assisted Conception Services. Guidance for those seeking stability in order to access assisted conception services (including IVF), and those in chain of command and assigning authorities, is at Chapter 60, Para 6015 and latest DINs: 2013DIN01-158 - Arrangements for NHS infertility treatment where Armed Forces Compensation Scheme (AFCS) award applies; 2016DIN01-052 - Assisted Conception and Fertility Policy.

2432. Prolonged or Permanent Shore Assignments

a. When a very serious or complex situation cannot be resolved within the limited period of a compassionate assignment, consideration can be given to an application for a prolonged or permanent shore assignment, or Compassionate Discharge.

b. When a Compassionate Discharge is not requested or is deemed inappropriate (eg. within 1 or 2 years of completing relevant pensionable engagement), a case should be made to the CO for a prolonged or permanent shore assignment.

c. Prolonged Shore Assignments are usually of 6-12 months duration; permanent shore assignments normally cover the last 12–24 months of Service.

d. The case for a prolonged or permanent shore assignment must be supported by a Social Inquiry Report (SIR) and appropriate recommendation by NS FPS. The completed SIR will be sent to the CO who, if content, will forward a recommendation to the Assignment Authority for a decision.

e. In all cases NS FPS are to be informed of the decision.

f. Where the CO and the Assignment Authority are not in agreement, completed reports and recommendations are to be submitted to ACOS(PCap) for a decision.

g. Prolonged and Permanent Shore Assignments are subject to a formal written review by NS FPS.

(1) Prolonged Shore Assignments are to be reviewed at least every 3 months, with a final review a minimum of 3 months before the assignment is due to expire.
(2) Permanent Shore Assignments are subject to formal written review at least every 6 months, with a final review a minimum of 3 months before termination date to enable consideration for continuing welfare needs in accordance with DBS Transitional Protocols.

h. When a significant change of circumstances is reported, or the CO or Assignment Authority requests that a formal review be undertaken, a written report should be completed by NS FPS within a maximum of 10 working days of the report/request.

2433. Compassionate Discharge

a. The full terms and conditions for Compassionate Discharge are detailed in Chapter 54. In circumstances where a serving person’s presence at home is deemed essential and their home circumstances have become wholly incompatible with a continued Service career as a consequence, an application may be made by the Service Person, through JPA, to the CO, for Compassionate Discharge. Compassionate Discharge must be supported by a Social Inquiry Report (SIR) with a clear recommendation from NS FPS to the CO. In turn, the CO will forward a recommendation to the Assignment Authority for a decision.

b. In situations where Compassionate Discharge is not recommended, the CO is to forward the case to NCHQ Casework Cell. A final decision will be made, and the outcome passed to the Assignment Authority.
SECTION 5 - COMMUNITY SUPPORT

2434. Community Development

a. NS FPS recognise the value of proactive and preventative work within the Service community in order to counteract potential difficulties, anticipate and prevent social and domestic problems that arise as a result of Service life, and enable individuals and families to develop robust support networks.

b. The strength of community development is that it encourages voluntary participation; working as part of a wider integrated team, in order to develop networks of formal support (with military and civilian agencies) and informal support (families and friends) for Service families to nurture their own networks of support and coping mechanisms for the future.

c. Community services are provided on a tri-Service basis, with accessibility that is irrespective of rank, Service or accommodation status.

d. NS FPS Community Development work is based on a three-tier model of service delivery of universal, targeted and open, and targeted and closed provision. This is delivered primarily through NS FPS Community Development Workers (CDW) working from Community Centres located within Service Family Accommodation (SFA) estates. Whilst community provision in the facilities varies geographically, it is focused upon the key areas from the Community Policy (as outlined in JSP 770 Chapter 3). Commonly found initiatives may include pre-school children’s provision, Families and Friends of Deployed Units (FAFDU), parent and child groups, youth and play activities, and family-orientated social events. In addition, facilities are widely used by other community service providers such as Health Visitor clinics, and Scout & Guide Groups. This service is accessible through the NS FPS Hub and Satellite offices (see Para 2412), and www.royalnavy.mod.uk/welfare/welfare-teams

2435. Royal Navy Website - Community and Support

The Royal Navy Website (www.royalnavy.mod.uk) seeks to meet the needs of the wider Service Community online by providing information and advice, and a Members Area which includes Unit content.

a. Information Advice Communication. Information on a wide variety of subjects including Deployment, Relocation, Resources and Community Support. www.royalnavy.mod.uk also hosts an open forum where Serving personnel and their families can seek specific guidance on a range of issues, as well as providing community events updates, an information notice-board, specifically designed to meet the needs of the Service Community and breaking news.

b. Members Area. The Members Area provides a Serving person and their friends/relatives membership to a password protected area where they can access ship/Unit specific discussion forums. The site is moderated by trained personnel, who monitor content to ensure breaches of security are prevented, respond to queries or concerns within the online Service Community, and ensure the service is utilised appropriately.
c. **Units.** Units, especially when deploying, are expected to establish and maintain a unit on-line community in partnership with www.royalnavy.mod.uk to communicate effectively with families and the wider Naval community. Annex 24G details guidance on establishing and maintaining an on-line community.

2436. **NS FPS Information Support**

NS FPS Information Officers and Digital Moderators offer a confidential and accessible information and advice service that will answer questions or signpost customers to appropriate sources of information and guidance. It is a service for families seeking information on most subjects including local communities, relocation, education, housing, employment/training courses, health and bus timetables. The Information Officers also lead on deployment support, ensuring Units are provided with briefings as well as up-to-date information relevant to deployment. The Digital Moderators manage the official digital platforms on behalf of operational units and local NS FPS areas – RN Forum and Facebook. This service is accessible through the NS FPS Hub and Satellite offices (see Para 2412), and www.royalnavy.mod.uk/community-and-support, rnrm-wio@royalnavymail.mod.uk.

2437. **Short Term Family Accommodation (STFA)**

a. In the three Base Port areas and at some units a limited number of Service Family Accommodation properties are set aside for use as temporary self-catering accommodation primarily for welfare reasons. The scheme is aimed at enabling Service personnel to utilise their facilities for both themselves and visiting friends or family members with priority always given to welfare/compassionate cases. Whilst use of the facilities will incur a cost to the Service person which is in excess of standard SFA rates, it will be less than that of privately rented accommodation. Users are liable for damages incurred and other local occupancy rules may apply, such as non-access for pets. For further information, personnel are advised to contact their local NS Welfare Information Support or NS FPS Office (www.royalnavy.mod.uk/welfare/find-help/welfare-information-support).

b. The provision and support of STFA is a responsibility of Local Service Commanders as determined by JSP 464 Volume 1, Part 1, Chapter 3, Para 0351. Specialist Welfare staff may seek the utilisation of STFA for welfare/compassionate cases if no suitable surplus SFA is available in line with JSP 464 Volume 1, Part 2, Chapter 3, Annex B Serial 6 and Annex C Serial 5. Where Specialist Welfare staff apply for the use of STFA for welfare/compassionate cases those responsible for the administration of STFA should allocate suitable accommodation where it is available ie. it is vacant or being used for lower priority or non-welfare reasons. In all cases the principles set out below will apply:

1. Any information associated with the application to use STFA will be in accordance with the NS FPS code of confidentiality (see Para 2413).

2. Welfare/compassionate case applications will be confirmed in writing following any initial approach.
(3) Those responsible for the administration of STFA will provide written reasons in cases where no STFA is deemed to be available confirming that there are no vacancies and/or accommodation is not being used for lower priority or non-welfare reasons.

(4) Where there are local criteria for the welfare use of STFA these will apply where they adhere to these principles, however all applications will be dealt with on a case by case basis.

(5) The use of STFA will generally be in accordance with the SFA eligibility criteria set out by JSP 464, however in the case of welfare/compassionate cases a more flexible approach will apply based on the circumstances of each case.

2438. Welfare Funding and Support to the Community
Welfare is provided through a combination of public (core) and non-public (non-core) sources as well as (in the UK) Local Authority provision. Welfare support is separately delivered by a mixture of Service and civilian personnel and organisations. Information on supporting organisations may be found at Section 8 of this Chapter. Other details are contained within JSP 770 Chapter 2, which should be read in conjunction with JSPs 462 and 315 as well as single-Service regulations pertaining to Service Non-public Funds (BR 18).

2439. Use of the Defence Estate

a. Encroachment. A number of welfare activities that are non-publicly funded operate from public buildings and, therefore, constitute an encroachment. Further guidance on encroachments can be found in JSP 362.

b. Mixing of Public and Non-Public Funding on the Defence Estate. Both government accounting regulations and JSP 462 make it clear that the MOD has no delegated powers to incur expenditure of a novel or contentious nature without the prior approval of HM Treasury.

2440. Secondary Duties - ‘Stand Behind’ Policy
Any Service individual engaged, as part of their duties, in Service non-public funds activities in support of unit welfare obligations, will be acting in the course of their employment with MOD or the Armed Forces. As such the MOD would be vicariously liable for an individual’s actions in the pursuance of his/her duty. It is essential that personnel read and fully understand the latest DINs (currently 2007DIN02-193, 2017DIN01-042 and 2016DIN01-092) that outline this policy.
SECTION 6 - CASUALTY SUPPORT

2441. Casualty Policy
Casualty policy, reporting and procedures are fully documented in JSP 751 Volume 1 (Management of the Casualty). The Naval Service NOTICAS Directive is contained in Annex 24I.

2442. Visiting Officers
The role and responsibilities of the Visiting Officer (VO) are detailed in JSP 751 Volume 2 Chapter 5 Section 5. In the Naval Service VO role is usually fulfilled by trained NS FPS staff.

2443. Casualty Visiting Officers
At times of high operational tempo or in a mass casualty scenario a cadre of Casualty Visiting Officers (CVO) will be trained and supported to undertake the VO role and will usually deal with cases that present as less serious or complex. CVOs are primarily drawn from shore establishments, reserve units and rear parties.

2444. Visits by Relatives and Friends to Sick and Injured Personnel in Hospital
Arrangements for visits by relatives and friends, including Dangerously Ill Forwarding of Relatives (DILFOR), are detailed in JSP 751 Volume 1 Part 1 Chapter 6. 2009DIN01-095 outlines the accommodation available for family members of Service patients at the Royal Centre for Defence Medicine (RCDM) in Birmingham.

2445. Casualty and Hospital Welfare Support
Primary Welfare support of patients remains the responsibility of the Unit. Where there are complex welfare needs, specialist welfare may be engaged. Serious and complex cases may have a Visiting Officer assigned and guidance of the management of the patient group can be found in JSP751.

2446. Welfare Assessment
A Welfare Assessment may be undertaken at any time following admission and automatically after being admitted for 7 days if an in-patient is considered to have additional needs beyond those of basic primary welfare. Welfare Assessments are to be undertaken by specialist welfare services and a Welfare Co-ordinator will be appointed.

2447. Welfare Co-ordinator
The Welfare Co-ordinator will be appointed to manage the assessed welfare needs of the patient group and is usually part of the chain of command, eg. Recovery Cell staff. If the welfare needs are complex or require specialist input, a worker from NS FPS can be appointed.
SECTION 7 - DECEASED PERSONNEL

2448. Management of the Deceased
JSP 751 Volume 2 (Management of the Deceased) covers the additional procedures to be adopted when death occurs in-service.

2449. Deaths in Ships, Units and Establishments
Initial action to be taken by non-police personnel on discovering an incident involving a death or where death is likely is contained in Annex 24E.

2450. Funeral Officers

a. If a Service Person dies, it is MOD policy to arrange a funeral at public expense or provide funding towards the cost of a private funeral; dependent upon the wishes of the Next of Kin (NoK).

b. Within the Naval Service, Funeral Officers (FO) are appointed to work closely alongside the NoK, via the VO, to make arrangements for the funeral. FOs are appointed by the Naval Service Casualty Cell (NSCC) and are drawn from a pool of trained and available personnel from the Naval Bases, larger shore establishments and RM units. FOs should be of CPO/Colour Sergeant rank or higher.

c. The FO role requires application of sensitivity as it can be an emotionally charged process. To assist with selection and appointment of FOs, and to avoid potential for being overwhelmed, the following should be taken into account:

   (1) Has the FO experienced a recent bereavement?
   (2) Does the FO have a close family member or friend with a terminal or life-threatening illness?
   (3) Has the FO been involved in a significant traumatic event eg. serious road traffic incident, an incident involving death or near death, disaster relief?
   (4) Does the FO have close family/significant other who is involved in hazardous duties?

d. FO training is co-ordinated and provided by the NSCC.
SECTION 8 – ADVICE AND SUPPORT

2451. Welfare and Charitable Organisations
There are many organisations that may assist Naval personnel and their families – these fall into three broad categories:

a. MOD Agencies and organisations funded by MOD (see Section 9);
b. Organisations not funded by MOD (see Section 10);
c. Charitable organisations (see Chapter 32).

2452. Defence Housing Assessments

a. In the first instance, housing applications and requests to transfer should be referred and supported, where necessary, by Primary Welfare providers ie. Divisional Officers/Regimental system.

b. If there is a clear requirement for Specialist Welfare input and support (eg. the case is complex), NS FPS can be requested to undertake an assessment of need. If NS FPS’s assessment concludes that there is a need they will produce a supporting letter countersigned by a Service Manager. This letter will have a clear explanation as to why the application is/isn’t supported by NS FPS, the anticipated effects on the family and the Service, and the associated risks if the application is not approved by Defence Infrastructure Organisation (DIO).

c. If an applicant(s) states a welfare need and requests specialist welfare intervention, they should be advised that before their request can be supported a NS FPS case file needs to be opened.
SECTION 9 – ADVICE AND SUPPORT: MOD AGENCIES AND ORGANISATIONS FUNDED BY MOD

2453. Defence Business Services (DBS) Veterans Welfare Service (VWS)
The DBS VWS provides help and advice to veterans and is able to direct them to a range of government and charitable services. It also provides an integrated web-site and free helpline. The DBS VWS can be contacted via the website on www.gov.uk/government/organisations/veterans-uk.

2454. Hospital Welfare Service
The Hospital Welfare Service (HWS) is currently provided under contract to the Defence Medical Welfare Service (DMWS). The HWS assists commanders with the delivery of Primary Welfare to Service personnel in hospital and their families.

2455. Medical Social Workers
The Defence Medical Rehabilitation Centre (DMRC) at Headley Court maintains a team of qualified social workers in order to assist injured Service personnel and their families in coping with injuries and, where appropriate, in preparation for discharge for medical reasons.

2456. HIVE
In addition to the Naval Service Welfare Information Support Team network, personnel and their families have full access to HIVE in Army and RAF locations.

2457. Children’s Education Advisory Service
The Children’s Education Advisory Service (CEAS) exists to provide information and support to Service families and eligible MOD civilians on all aspects of the education of their children in the UK and overseas. Contact details are as follows:

- Children’s Education Advisory Service
- Trenchard Lines
- Upavon
- PEWSEY
- SN9 6BE

Tel: 01980 618244
Mil: 94 344 8244

Email: enquiries@ceas.uk.com
www.gov.uk/guidance/childrens-education-advisory-service

2458. Joint Service Housing Advice Office
The Joint Service Housing Advice Office (JSHAO) (www.gov.uk/government/collections/joint-service-housing-advice-office-jshao) provides Service personnel and their families with information and advice on the increasingly complex range of civilian housing options. The JSHAO provides a focal point for housing information and advice to all Service personnel and their families, in particular for those about to return to civilian life, and to ex-Service personnel who remain in Service Families’ Accommodation.
SECTION 10 - ADVICE AND SUPPORT: ORGANISATIONS NOT FUNDED BY MOD

2459. MoneyForce
MoneyForce is a programme designed to improve the financial capabilities of members of the Armed Forces. The MoneyForce website (www.moneyforce.org.uk) provides easy to digest Armed Forces specific information to help personnel and their families plan their finances.

2460. The Money Charity
The Money Charity is a national money education charity which was known previously as Credit Action and rebranded in 2013. It offers a range of resources, tools and training to help individuals and families manage their money well, and assists personnel to help others. The Money Charity operates at a national level through advocacy, collaboration and partnerships with various groups and companies as well as at a local level through a variety of targeted projects, with a particular emphasis on those most vulnerable to financial difficulties. Tel: 0207 062 8933. Email - hello@themoneycharity.org.uk. Website at themoneycharity.org.uk.

2461. Seafarers’ Advice and Information Line (SAIL)
SAIL is an advice service dedicated to all seafarers and their families across the UK. It is run by Greenwich Citizens Advice Bureau on behalf of the Seafarers Hospital Society and is funded in partnership with Seafarers UK and Greenwich Hospital. The website is sailine.org.uk

2462. Citizen’s Advice Bureau (CAB)
The CAB service helps people resolve their legal, monetary and other problems by providing free information and advice from nearly 3,400 locations across the UK. The website is www.citizensadvice.org.uk.

2463. Relate
Relate offers a wide range of relationship counselling for couples, families and individuals and it supports people through all stages of their relationships and people can access the support individually or with others, face to face, on the phone or on the internet. The website is www.relate.org.uk.

2464. Samaritans
The Samaritans is a national charity with a network of autonomous local branches available 24 hours per day to provide confidential emotional support. The website is www.samaritans.org.

2465. Refuge
Refuge provides help and support to women and children escaping domestic violence. Refuge’s network of safe houses provides emergency accommodation for women and children when they are most in need. The website is www.refuge.org.uk.
2466. **Royal Navy and Royal Marines Widows' Association (RNRMWA)**

The RNRMWA is a group of volunteers which offers friendship, support and comfort to those bereaved when their spouse/recognised partner was serving in the RN/RM at the time of their death. The website is www.rnrmwidows.org.

2467. **Stonewall**

Stonewall works with a range of agencies which promote equality and justice for lesbian, gay, bisexual and transgender people in the wider community. The website is www.stonewall.org.uk

2468. **Royal Volunteer Service**

The RVS is a large national welfare support organisation operating mainly on a volunteer basis, but with a dedicated full-time Service branch. This branch has a long-standing agreement and commitment to provide trained field officers to major Army units, particularly those with a training role or that are stationed overseas (including Northern Ireland resident units). The field officers, who are selected for their maturity and practical experience, are concerned mainly with single and unaccompanied soldiers. They seek to provide advice, guidance, sympathy and practical support in a variety of ways. Although their approach is essentially non-military, they are part of a unit’s establishment and are able to undertake a variety of tasks on behalf of the CO, which may extend to the provision of small scale clubs or leisure facilities. The RVS provides the service to the MOD under grant in aid terms. Nevertheless, RVS workers are not MOD employees and therefore have no authority to commit public funds. The Website is www.royalvoluntaryservice.org.uk.
ANNEX 24A

WELFARE COMMITTEE AND SHIP’S WELFARE FUND

1. **Introduction**
   This Annex applies to Royal Navy units; the word ‘ratings’ should be taken to apply also to Royal Marines Other Ranks borne in such units.

2. **Object of the Welfare Committee**
   The object of the Welfare Committee in Royal Navy units is to provide a means for free discussion between officers and ratings of items of general welfare and general amenities within the ship or establishment that lie within the power of decision held by the Commanding Officer of his/her immediate administrative authority. Further details are as follows:

   a. Subjects which the Welfare Committee may discuss include conditions in the ship, boat or establishment, messing arrangements, composition of meals, recreational activities, and any suggestions for the general welfare of the ship’s company.

   b. Subjects outside the scope of the Welfare Committee are general conditions of Naval Service (for example, discipline, working hours, pay and allowances, leave scales, etc.) cooking and serving food from the galleys, and questions of primary welfare and amenities not directly connected with the particular ship, boat or establishment.

   c. The Welfare Committee is responsible for the administration of the Welfare Fund.

   d. The Welfare Committee is to administer the affairs of the canteen if this is operated on the Service system, and it is to investigate any questions and complaints that may arise about process and quality of canteen foods, weights and measures, and the general working of the canteen when it is operated by an outside contractor.

   e. Nothing in this article is to interfere with or prejudice the right of an individual rating to put forward suggestions through their Divisional Officer or to affect the responsibility of the Divisional Officer for looking after the interests of those in the Division. See BRd 2 *The Queen’s Regulations for the Royal Navy* Chapter 18.

3. **Formation of the Welfare Committee**

   a. A Welfare Committee is to be formed in each ship, boat or establishment with a complement of 50 or more. A Squadron Welfare Committee is to be formed for ships with complements of less than 50.

   b. Suitable arrangements are to be made by administrative authorities for other detached ships and small establishments with complements of less than 50.
4. **Composition of the Welfare Committee**

   a. The committee is to consist of officers and ratings as laid down in BR 9600 (Ships General Orders) Ch 7 Art 0702.

   b. Matters concerning the ship’s canteen may be delegated to a small sub-committee appointed by the Welfare Committee from its members, but when this is done the sub-committee is to include the Logistics Officer, or his representative, and another officer.

   c. The detailed composition of the Welfare Committee is left to the discretion of the Commanding Officer, subject to the following general principles:

      (1) Representation should normally be by messes. Where this is not practicable, it should be by branches and or messes, or in shore establishments by any groups into which the establishment can most effectively be divided for the purpose of representation.

      (2) Every rating borne must be able to vote for a representative, but no rating can vote for the representative of a division, mess branch or group other than his own.

5. **Secretary of the Welfare Committee**

   A suitable rating is to be selected by the Welfare Committee to act as the secretary of the Welfare Committee. The secretary may be paid for their services from the Welfare Fund. The secretary is to be responsible to the Chair of the Welfare Committee for all aspects of his/her duties which include:

   a. Collection of agenda items for Welfare Committee meetings.

   b. Preparation of the agenda for approval by the Chair.

   c. Circulation of the approved agenda to all representatives well before each meeting.

   d. Recording the minutes of each meeting and exhibiting copies on the notice boards.

   e. Maintaining records of any decision taken out of Committee. These should normally be kept for at least 2 years.

   f. Maintaining records of all Welfare Committee meetings.

   g. Taking actions as directed by the Chair of the Welfare Committee to implement decision of the Committee.
6. Election of representatives

a. When the composition of the Welfare Committee has been decided, a notice is to be exhibited showing the divisions, branches, messes or groups for each of which a representative is to be elected. Any rating in the ship’s company or unit may then offer to stand for election to represent their division, branch mess or group, and should submit their name to the nominated Returning Officer within 4 days of the notice appearing. It will also be open to each division, etc., to nominate a representative or representatives for election, subject to acceptance of nomination by the people concerned. The names of all candidates put forward are to be published on notice boards for a period of 10 days before the date of the election, with any instruction that any candidate who has offered themselves or has been nominated for election but whose name is not on the list should immediately report to the nominated Returning Officer.

b. At close of nominations, if there is more than one candidate for a representative group then ballot papers are to be prepared for each of those voting groups showing the names of candidates for election. The ballot is to be run on the “first past the post” principle, with the person receiving the most votes being elected. The paper must not be marked in such a way that the voter can afterwards be identified. For representative groups with only one nominated candidate, the nominated Returning Officer is to declare an uncontested election.

c. The ballot is to take place as required. The arrangements for recording the votes are to provide that the ballot is secret and takes place immediately after issue of the ballot paper and that no person can return more than one voting paper. Voting by proxy on behalf of personnel sick or on leave cannot be permitted.

d. The subsequent sorting out and counting of the votes is to be carried out in the presence of an officer and representative ratings. The results, including the names of any uncontested election should be published on notice boards as soon as possible thereafter.

e. Vacancies in the Committee are to be filled as they occur by means of by-elections. The tenure of a Welfare Committee representative should be no more than 24 months before being required to seek re-election. In seeking re-election, nominations are to be opened as detailed at 6a above. Commanding Officers may call for the re-election of the whole Committee if the conditions under which the ship is serving has or is planned to change i.e. entering or leaving refit. In newly commissioned ships, however, a fresh ballot should be held after the ship has been 3 – 6 months in commission. A by-election will be necessary when any elected member of the Committee leaves the ship for any reason for more than 28 days (except on leave). Ratings sentenced to imprisonment or detention are to be removed from the Committee and their places filled by elections; those disrated for misconduct or reverted for unsuitability should be removed but not barred from re-election at the consequent by-elections; those awarded a Service Supervision Order should be removed from the Committee and be ineligible for election until expiry of the Service Supervision Order.
f. In training establishments, to avoid the need for frequent by-elections, each class of trainees is to be represented by its class leader, provided that the courses are of sufficient duration; if not, the representation should be by suitable instructors.

g. A special organisation will be necessary for carrying out elections in ships with complements of less than 50, but it should as far as possible follow the principles laid down above and should be approved by the administrative authority.

7. Special Arrangements for Large Establishments

At large establishments, including training establishments, where conditions differ considerably from those in other establishments and in ships, such arrangements for the composition of the Welfare Committee and the election of representatives are to be made as best suit the particular conditions. The arrangements should follow those for ships as far as possible and should not conflict with the general principles in these regulations without prior Navy Command HQ approval.

8. Meetings of the Welfare Committee

a. Meetings of the Welfare Committee are to be held as required, but not less frequently than once every 2 months. Notice of subjects which it is proposed to raise at the next meeting should be given to the secretary, and an agenda should be circulated to committee members beforehand. Before circulation, the agenda must be approved by the Chair to ensure that the subjects for discussion are within the terms of reference of the Committee. Committee members will be expected to ascertain the views of the ratings they represent.

b. The Chair may arrange for the co-option of Divisional or other officers and ratings, when specific questions, in the discussion of which their experience would be of use, arise. The Canteen Manager may be invited when the agenda includes items concerning the canteen.

c. No officers on the Committee are eligible to vote at the meetings.

d. Minutes of the meetings are to be kept for record, and copies are to be exhibited on notice boards.
9. Welfare Fund

a. **Administration.** Administrative arrangements for the management of the Ship's Welfare Fund are contained in BR2 The Queen's Regulations for the Royal Navy Chapter 80 and BR18 Accounting Instructions for Service Funds.

b. **Trusteeship**

(1) Trusteeship of the Welfare Fund of the ship, boat or establishment rests with the Commanding Officer, who has a duty to veto any proposed expenditure which seem to him/her subversive of discipline, contrary to the law relating to charities, or otherwise improper. The circumstances in which such a veto is exercised are to be reported by the Commanding Officer to his/her administrative authority.

(2) The Commanding Officer is to pay due regard to the proportion of the ship’s company who are able to take part in any particular form of recreation that may be the subject of assistance from the fund. In all other respects, subject only to the responsibilities of the Commanding Officer as trustee, the Welfare Committee is to have full discretion as regards expenditure.

(3) In judging whether disbursements are a proper charge to the fund it should be noted that, although the word ‘efficiency’ has in the context of Service administration acquired a limited meaning, in the charitable context it should be interpreted in the widest sense and taken to mean efficiency of the Service as an entity. It thus embraces measures to maintain or improve morale of members of the Royal Navy.

c. **Audit.** The accounts of the ship’s Welfare Fund are to be kept and audited in accordance with the instructions in BRd 2 The Queen’s Regulations for the Royal Navy Chapter 80.

d. **Disposal of the Fund on the Loss of Ship/Boat.** On the total loss of a ship/boat, any balance in the ship’s Welfare Fund is to be transferred to the Royal Navy Royal Marines Charity.
ANNEX 24B

CARERS' FORUM\(^1\) IN UNITS AND ESTABLISHMENTS

References:
A. BR 439 Chaplain's Handbook
B. BR 1991 Instructions for the Royal Naval Medical Service
C. NS FPS Confidentiality Code (see Para 2413)

1. Introduction

a. This Annex contains guidance for the Executive on the conduct of the Carers' Forum. The Carers' Forum provides a formal setting within which all the different agencies who provide support and care to our personnel, chiefly the Executive, Divisional Officers, Troop Commanders and Medical, Chaplaincy and NS FPS practitioners, can develop professional contacts and relationships. This enables professional trust to be developed between individuals providing care to personnel so that appropriate information may be shared in confidence, enabling the various agencies within units to provide support to vulnerable individuals in a coherent fashion. The aim is to ensure fulfilment of the Service's duty of care by ensuring consistency in the care of vulnerable individuals and by identifying behavioural trends that should inform establishment (and Service) policies.

b. Carers' Forums already exist in many units and establishments, but these have developed on an ad hoc basis over time in response to local needs. Their existence has never hitherto been mandated formally, and neither has any guidance been provided concerning their operation or composition. Consequently Carers' Forums operate inconsistently since different practices have developed in different units. This Annex is based on a review of existing practice in different units, and it aims to provide guidance and establish best practice.

c. All establishments are required to institute a Carers' Forum or Care Committee with reference to the guidelines in this Annex. These guidelines are not prescriptive; XOs should consider how best to meet the aims of the Forum in relation to the particular needs of their establishment or unit.

2. Background

a. Rising trends in the UK population at large of depression, deliberate self-harm (DSH), substance misuse, excessive and underage alcohol consumption, sexually transmitted diseases and unwanted pregnancies are mirrored in the RN, albeit at lower overall rates. Particularly vulnerable in all these areas are young people, generally 16-24, the age group that comprises over 30 per cent overall of the Service population - considerably more in training establishments.

\(^1\) Although "Fora" is the grammatically correct plural of "Forum", the more readable and widely understood "Forums" is accepted throughout this Annex.
b. Scruples that it is not the employer’s place to intervene in the private life of employees must to some extent be put aside in the Services, where unit operational effectiveness depends on the cohesion of individuals and where vulnerable people are uprooted from the usual support systems of family and friends. There are clearly limits to what can be achieved without the compliance of the individual, but education, guidance and support must be offered where appropriate to fulfil the Service’s duty of care.

c. The majority of Naval Service (NS) Wounded, Injured and Sick (WIS) personnel who meet the Recovery Pathway2 (See Chapter 33) entry criteria remain within their parent unit and are not assigned to a Recovery Cell or Troop. The care and management of these personnel along an appropriate ‘recovery pathway’ remains a Chain of Command responsibility but is often overlooked in large and busy establishments especially when the Divisional or Regimental system in place is insufficiently clear.

d. All personnel subject to Medical Discharge (MD), both those who are WIS and those who are likely to be discharged from the Services on medical grounds, are able to access resettlement entitlements at an earlier stage than for other SLs3. The point at which an individual ought to register for their resettlement entitlement is when:

1. They are likely to be MD and,

2. They are ready to engage in resettlement.

This is best assessed in a multi-disciplinary environment.

3. Aim

Carers’ Forums have one over-riding aim: to assist fulfilment of the Service’s duty of care towards our personnel. A review of the Care Forums currently established suggests this will be achieved by information-sharing between Executive, Divisional and Practitioner representatives at 2 key levels:

a. Policy. Objective: to ensure that establishment provision of education, monitoring and support is geared to actual need by identifying deficiencies and overall behavioural trends.

b. Casework. Objective: to ensure continuity of care for vulnerable individuals and those within the Recovery Pathway.

4. Confidentiality

Guidance on the levels of confidentiality practitioners must observe is provided at References A-C. Executive and Divisional/Regimental representatives may at times be frustrated by the limits on their knowledge of a case, but must recognise that confidentiality is essential in maintaining trust between practitioners and their clients. The References also give guidance to practitioners in the support of the Executive and line managers.

2 Personnel assessed as Joint Medical Employment Standard (JMES) code of M5 or M6
3 JSP 534 Section 6.
5. Format

a. **Carers’ Forum.** The XO or his/her representative is to convene a Carers’ Forum at least 2 monthly attended by key management personnel and practitioners (eg. medical, pastoral, NS FPS, Service Police, Divisional Officers/Troop Commanders) to identify behavioural trends and discuss implementation of NS policy. The objectives are to enable line management and practitioners to exchange information in order to identify current issues of concern among unit personnel, to initiate appropriate management action and to share lessons learned. This meeting should be minuted and issues arising that might have a bearing on Service policy are to be communicated to People Support PACT SO1 (formerly PFCS SO1C).

b. **Individual Case Conferences.** It will not generally be appropriate to discuss the detail of individual cases in the wider Carers’ Forum, but the meeting provides an opportunity for the Executive and relevant practitioners to discuss individual cases, whether that be welfare, discipline or recovery. The individual should be informed that the case conference will be held, and consideration should be given to inviting him or her, although this will not always be appropriate, and he or she may not be willing to attend.

6. Agenda

The Agenda for the Carers’ Forum will vary, but the XO should ensure that the following potential areas of concern are kept under review:

a. Deliberate Self Harm
b. Sexual Health
c. Substance Misuse
d. Alcohol
e. Equality and Diversity
f. Social Conduct
g. Stress
h. Financial Irresponsibility
i. Recovery Pathway
j. Early access to Resettlement on MD
7. **Conclusion**

The various levels of information exchange facilitated by Carers’ Forums will be invaluable in maintaining morale, discipline and welfare in our establishments and ensure the appropriate support and management of our people. By the nature of the issues under scrutiny and the requirements of practitioner confidentiality, no one approach can be prescribed. The achievement of the aim is dependent on the understanding of all participants of the roles, responsibilities and requirements of all those others involved in the care and management of Service personnel; the sole pre-requisite is the willingness of all participants to make the forum work.
ANNEX 24C

MANAGEMENT OF CARE ARRANGEMENTS FOR SERVICE PERSONNEL ‘AT RISK’ AND SENSITIVE CASE ADVICE REACTION TEAM (SCART)

SECTION 1 – SERVICE PERSONNEL ‘AT RISK’

1. Introduction

a. Concern has been expressed over the management of Service personnel who may be ‘At Risk’ of suicide or serious self-harm. This has recently been brought into sharp focus with incidents of suicide following periods of heavy strain and stress in professional or personal life, brought about by, for example, investigations related to serious offences and incidents leading to intense media scrutiny. In particular convictions for commission of sexual offences, whether it be for rape or indecent assault or, perhaps slightly more commonly, the downloading of pornographic images of children, generally meet with a degree of opprobrium within society unmatched by the commission of almost any other category of offence. It follows that those under suspicion for such offences, or having been charged and due to attend for trial, meet with considerable and immediate unpopularity, resistance or even outright hostility.

Notwithstanding that everyone deserves the right to be treated as an innocent person until conviction and punishment, the same is probably as true within the Service as general society. Indeed, experience shows that allegations of a sexual nature upon Naval Service personnel evoke very strong feelings and hostile behaviours and such situations are invariably challenging for those in command.

b. The guidance in this Annex is confined to the management of Service Personnel, addressing issues such as retention, employment, deployability, welfare, medical and legal support. Whilst this Annex deals with the actual or alleged sex offender, it should not be inferred that victims of sex offences are not extremely important and in need of care and support. When apprized of the fact that a Service person is suspected of having committed a sexual offence, or been charged or convicted, it is essential that a clear-headed approach is taken to the management of the issue so that each of the facets of the case is addressed appropriately. The purpose of this section is to alert those in the Command chain to the relevant actions required and to provide for a continuum of care and responsibility for the conduct of all downstream activity. At an appropriate stage the Service will rightly wish to take a view on administrative action and the employability aspects of the case. However, at the earlier stages, it is the care of the suspect – particularly his or her mental wellbeing - and the notification of relevant authorities that will be uppermost in the catalogue of actions. There is plenty of good, sound advice available although it must be stated that the actual incidence of sexual offences is not proportionate to the numbers perceived by some people and the numbers of cases with which we, as a Service, have to deal is small. It follows that the relevant experience and expertise is vested in a small number of people and it is vital they are engaged at an early stage. The advice that follows is designed to explain the steps to be followed before drawing on the well of experience.
c. Good advice to COs on dealing with Deliberate Self Harm (DSH) (whether committed or anticipated) is contained in Annex 24D including details of sources of advice and support with full contact numbers. Advice on the management of those suspected, charged or convicted of having committed sexual offences is contained in Chapter 20.

d. A protocol (Home Office Circular) exists to inform NPM (Eastern) of Servicemen who are arrested by the civil police for a recordable offence. Civil, MoD and Service police have guidelines on when the chain of command should be informed of serious cases and what level of information will be disclosed. The CO will normally be informed prior to and post any formal investigation or charging of an individual; this will usually be through the local NPM. Regrettably this does not happen in every case and COs must therefore be prepared to react quickly and call in expert advice as soon as they become aware of a building serious case.

2. Initial Considerations
   COs must look carefully at the complexity of the case and the ability of their team to deal with it or whether a compassionate appointment/draft or formal managed move ashore to be near to professional support is more appropriate. In instances where allegations relating to the safeguarding of children have been made risk the individual may pose to other children/young people needs to be taken into account. The CO may well not be best placed geographically to undertake the task of providing care; for example, the ship may be deployed, or the individuals concerned may be disembarked and displaced from the onboard team, especially the DO and Chaplains. Equally the CO (especially in a minor war vessel) may well not be the right person by virtue of their training and experience to convene the case conference. In all cases, however, the CO must ensure that an appropriate level of care is provided and there is a formal handover of responsibility between authorities to ensure an individual is not ‘lost’.

3. Case Conference

   a. Having determined that an individual is seriously ‘at risk’ and that the case is within the capability of his team to deal with, the CO should convene a case conference to set in train a system of support for the individual. If the case is beyond local capability, s/he should commence the appropriate actions through the Chain of Command to land the individual under the care and support of the team of professionals and experts ashore under the local NBC/Captain of the Base. The case conference should consist of the unit XO, Medical Officer, individual’s Divisional Officer, NS FPS and Chaplaincy, the appropriate Carer Case Conference team ashore or the Sensitive Case Advice and Reaction Team. This group will form a quick reaction team to provide support and assistance to the individual. In the case of an individual ‘at risk’ because of serious charges, the case conference team should not hesitate to seek legal and welfare advice as a contribution to the management decisions they propose to make. The initial action for the case conference will be to assess the level of supervision required for the individual to minimise the risk of DSH/suicide. The agenda for the case conference should include discussion on the level of information given to the unit’s personnel and, if necessary and strictly in consultation with HQ Corporate Communications staff, the media. It is absolutely essential that confidentiality be maintained both to minimise the triggers that may cause the individual to self-harm or attempt suicide and to prevent any prejudice to the investigation.
Experience has shown that those at risk are reassured by being included in case conferences because this gives them a degree of control over their lives, so their inclusion is strongly encouraged.

b. The case conference should nominate one of its members (taking into account experience and training) to provide advice and reassurance to the individual and to provide assistance with the welfare needs of the individual and their family. Contact must initially be maintained on a very regular basis, preferably daily and face to face. This should take place where the subject is most comfortable and must consider the importance of maintaining confidentiality. It is very important to maintain this confidentiality particularly within the individual’s unit to prevent any adverse reaction from other members of the Ship’s Company. Consideration may be given to using a ‘buddy’ (messmate or other contemporary) but thought will then also be required for their care and counsel, particularly if the individual at risk does then go on to carry out any form of DSH or suicide.

c. The case conference should also consider whether specialised medical assessment or intervention is required to initiate a referral (particularly psychiatric) for a change in MEDCAT and if protective supervision is required. It should also take a view on the individual’s suitability to continue working, particularly if employed in a critical safety area, have access to firearms or undertake duties involving children.

d. Where allegations relating to the safeguarding of children have been made consideration must be given at the initial planning meeting to referral to the Local Authority (if not already done) and the subsequent need to take account of any child protection plans when making provision for the individual. NS FPS will take the lead in coordinating and advising on this link to the local Safeguarding children procedures.

4. Involvement with the family of the individual ‘At Risk’

a. Consideration must also be given to the involvement of NS FPS on occasions where the facts surrounding the case may impact on the family of the individual. If for some reason NS FPS are not available in the first instance, then consideration should be given in the most urgent of cases to the seeking of initial advice from other welfare agencies such as Army Welfare Service, RAF Community Support, Confidential Support Line\(^1\), Community Mental Health Teams and Social Services. When involving other agencies, due consideration is to be given to the level of disclosure; it will generally not be appropriate or necessary to reveal full details of the investigation. The decision on how much to reveal should normally be made in consultation with the individual.

b. Where the trigger is a serious offence, the involvement of an individual’s family in the case will vary according to the type of offence, but may range from involvement as a co-suspect, a victim, a witness or just as a family member. No matter what level of involvement it should be remembered that the cohesion of the family unit and their continued support for the accused cannot be taken for granted.

\(^1\) Confidential Support line may be contacted on 9380 26282 or 0800 7314880, The Army Welfare Services on 94331 2461 or 01722 4362461 and RAF Community Support on 95221 6584 or 01494 496584.
c. Before any approach to the family, confirmation must be obtained from the individual with respect to how much information is divulged and that they have been informed of the circumstances of the investigation. Again, confidentiality issues must be carefully protected.

5. Diary of Events
The Chair of the case conference is to ensure that a detailed diary of events including details of interviews, actions taken and full justification for any disclosure of the facts of the case to third parties such as welfare agencies is maintained. The diary of events is to be kept secure in accordance with the Data Protection Act and only disclosed to those with an absolute need to be made aware of the facts. In the longer term, there will be a requirement for care to continue after the case has been resolved (one way or other) as there will undoubtedly be lasting effects from the process – especially on someone found to be innocent.

6. Administration Algorithm
An algorithm to support this advice is at Appendix 1 to this Annex.
SECTION 2 - SENSITIVE CASE ADVICE AND REACTION TEAM (SCART) CONCEPT OF OPERATIONS

7. Introduction
There are an increasing number of criminal investigations and situations of a personal nature that have the potential to leave the individual and, on occasions, their family, in difficult, exposed and potentially life threatening situations. Acts of Deliberate Self Harm (DSH) up to and including suicide cannot be ruled out in these cases. It is impossible to define the exact situations which might result in these more drastic actions, but they tend to be those where the fear of spreading knowledge, reaction and the impact upon the individuals worth, credibility and standing in the community become too much to contemplate. Examples of this are (but not limited to) are the Operation ORE and SIRDAR cases, sexual abuse, security issues and situations where death is already involved.

8. Responsibility of Command
This Annex and other Chapters of BRd 3(1) provide those in command and line managers at all levels with the necessary guidance to ensure that welfare support and care responsibilities can be identified and applied to those who are the subject of investigations of a sensitive nature or are experiencing a delicate personal situation where they may find it difficult to cope with the additional stresses and strains this may bring. In these circumstances, the requirement to implement an enhanced, robust and, (in cases where assistance is neither sought nor welcome) pro-active range of care and support might not be immediately obvious to those charged with this responsibility and external advice and (where exceptionally necessary) assistance might be required.

9. Assistance
Whilst personnel serving under naval command and line management should benefit from the established guidance and procedures, those outside naval line management might not receive a similar degree of enhanced care and support and may therefore be at greater risk should they become the subject of a sensitive investigation or suffer personal difficulty of a sensitive nature. To address such situations and to provide the necessary advice and assistance, a Sensitive Case Advice and Reaction Team (SCART) has been established within the Naval Command Headquarters. The SCART is a very lean and tightly controlled organisation, comprising of those few who get to know, need to know and who can provide the necessary professional guidance. The SCART can access a wider pool of expertise as and when necessary but on a strictly controlled basis. The primary purpose of the SCART is to reinforce the ability of the command and line management to manage these situations correctly using the services of professional local resources (such as NS FPS, Chaplaincy, medical teams) wherever possible. Whenever necessary the SCART will exercise full command of naval personnel.

10. Procedure
When one of its members becomes aware of a relevant sensitive situation or investigation or is made aware by a command or line management of a situation where advice and/or support is required, the SCART may be convened and a Case Conference called for to review all known factors and actions in place and to decide on any actions that might remain to be taken.

---

2 Investigations related to Internet Child Pornography and protected by the use of a Home Office codeword.
Originally it was the intention that this provision would be for situations concerning OF4 and above and OF3 and below (officers and ratings/other ranks) if their employment, location and personal circumstances so dictate. However, experience is indicating that it is impossible to restrict this provision to any one group and that all military personnel serving under naval command have to be considered when their situations so dictate.

11. Responsibility of the Individual

As required by QRRN Chapter 39 Article 3902, it is the responsibility of serving personnel to bring cases of a criminal nature in which they are being investigated to the attention of their command/line management when they occur. It is also the responsibility of the command to ensure that relevant details are forwarded to the individual’s next command should appointing/drafting take effect. The divisional system (where it is in place) should also be reactive to sensitive issues impacting upon members of that division. Therefore, there is a process already in place to capture, at an early stage, situations with the potential to meet the criteria of this CONOPS. However, there are situations, which originate outside of Service control, particularly those relating to Internet child pornography or (as more frequently defined) ‘computer misuse’. On these occasions the Service may only be informed about an investigation at the very last minute and in the strictest confidence. Support to an individual is critical, particularly so from the outset when all the concerns outlined at paragraph 1 become apparent. The SCART has an active role in these cases and will provide the necessary support and advice.

12. Confidentiality

The Services are no different to the rest of society and gossip spreads quickly. Knowledge is power, and people want to know even if they have no need to. Restricting the spread of knowledge is vital to maintaining an individual’s safety and well-being in these situations. Information should be strictly controlled and only provided on a need to know basis. Unless the activity occurred in a public place and is already public knowledge, then the control of information must be exercised from the very outset with covering instructions about sensitivity and handling provided. Information received by the SCART will be on a controlled and recorded basis as will information passed out from the SCART. However, external information leaks, speculation and rumour will inevitably occur, especially if the sensitive nature of a situation is not fully appreciated in the first instance. On these occasions the SCART will reinforce the requirement for confidentiality and provide any necessary advice to ameliorate the situation.

13. Control

a. Access to information connected with sensitive personnel investigations is controlled through the use of a formal arrangement which allows for 3 levels of access prefixed by the descriptor ‘SCART’. The fact that some personnel information is controlled by the SCART process is not in itself controlled information as those in the chain of command will need to be aware that such a process exists and may need to implement Level 3 control in their ships or establishments for incidents/situations involving personnel under their command. The levels of access permitted are:

(1) SCART Level 1. For members of the SCART who will be exposed to a wide range of sensitive personnel information and/or investigations on a regular basis.
(2) **SCART Level 2.** For senior personnel within the command chain who from time to time might need to be briefed on specific cases that could have a significant impact on the reputation of the Service.

(3) **SCART Level 3.** For all others within the command chain, line management, or others who have become aware or may need to know, and therefore need to be informed, of a case involving sensitive information concerning an individual.

b. Should it be necessary to involve in discussions an individual who had hitherto been unsighted on the facts of the case, then the discussions are to be prefixed with the statement that “this is SCART information” and the individual is to be made aware that they are being provided with controlled information. It is the responsibility of every individual involved in the management of such cases to ensure that information pertinent to the case is only divulged to people who have been briefed as to its controlled nature, and the need to ensure that it is not passed to anyone who does not share a specific ‘need to know’.

c. Those given access to SCART information at Level 1 and Level 2 will be required to sign a statement of confidentiality a copy of which is at Appendix 2. In some circumstances it will also be appropriate and necessary for those given one-off access to SCART information at Level 3 to sign a document recording the fact that they have been made aware of its controlled nature.

14. **Accountability**

The SCART is accountable to NavSec and ACOS(PCap) will draw NavSec’s attention to all new cases as they arise. No other senior officers will be briefed as a matter of routine; NavSec will determine when and if such briefing is appropriate.

15. **Membership**

a. The SCART comprises:

- ACOS(PCap)
- NC PSYA - Principal Security Adviser
- NPS-PEOPLE SPT NS FPS HOS

b. To enable full functionality and provide coherent advice across a wide spectrum of customer bases and situations, additional staff officers are aware of the role of the SCART and will be co-opted into the SCART as necessary. Those aware of SCART functionality are:

- NA (for OF5 and above)
- DGNCS PP&O
- DNLS Law 3
- DCGRM

Additionally, the services of the Consultant Adviser in Psychiatry at Sunny Walk, HM Naval Base Portsmouth may be utilised.
16. Meeting
In addition to the ad hoc occasions detailed at paragraph 17, the SCART will meet monthly to review extant cases.

17. Execution
The SCART has been established to:

a. Ensure that individuals in potential stressful situations through sensitive investigation or delicate personal circumstances are known about and monitored by the appropriate divisional/care agencies.

b. Ensure that all relevant information in sensitive personnel situations is managed, controlled and appropriately shared.

c. Monitor sensitive personnel investigations and situations within the Naval Command and provide assistance to Commanding Officers or line management as appropriate.

d. Ensure that single Service specialist welfare support is provided, and an appropriate level of care is discharged in the case of naval personnel outside naval line management who are the subject of sensitive investigations and personal situations.

e. Ensure that wherever possible all appropriate care responsibilities are taken/implemented.

18. Limitations
Despite the best intentions of this CONOPS, the SCART cannot assume responsibility for situations it is not aware of nor it established to replace the command/line management’s responsibilities in these matters. It is inevitable that there will be cases, for a variety of reasons, that fall through the net entirely and it should also be clear that DSH and suicide will occur if the individual is determined to follow that path. Similarly, whilst every effort will be taken to apply, observe and impose confidentiality, the reality is that leaks will occur, no matter how diligent the SCART and others may be.

19. Contact
Any member of the SCART may be contacted as necessary, NPS-PEOPLE SPT NS FPS HOS is the SCART secretary and a registered social worker, can be contacted on (Mil) 9380 28022 or (Civ) 02392 573022.
APPENDIX 1 TO ANNEX 24C

PERSONNEL ‘AT RISK’ ADMINISTRATION ALGORITHM

Pre-Trial
Post Arrest/Bail
Post Incident
Family/Personal Problems

Individual identified
“AT RISK”

Immediate Case Conference by XO, DO, MO,
NPFS/RMW, Chaplain (+Legal advice?)
Or NBC Carer Team (Quick Reaction Team)

(RE-) ASSESS LEVEL OF SUPERVISION REQUIRED TO
MINIMISE RISK OF DSH/SUICIDE

HIGH RISK

Advice to “At Risk” Person from most experienced/appropriate member of
team (or external agency)

Consider specialised medical assessment:
Change of MEDCAT?

NO

Increased Divisional/
Chaplaincy Support

YES

Consider Protective Supervision

Remove from Unit

Regular Case Conference
Review
Still ‘AT RISK’?

NO

No longer ‘At Risk’

LOW RISK

Regular Contact
(Preferably daily & face to face)

Possible use of Messmate/Friend/
Div SR/LH
APPENDIX 2 TO ANNEX 24C

SCART INDOCTRINATION FORM

1. I ............................................................., understand that the information I have been exposed to in respect of events or situations regarding¹ .......................................................... is of a sensitive, personal nature that is governed by the SCART CONOPS and is not to be revealed to anyone else (irrespective of rank or appointment) without the express permission of one of the core SCART members (ACOS(PCap), NAVY PSYA, NPS-PEOPLESPT RNRMW HoS and (exceptionally) NPS-PEOPLESPT PACT SO1.

2. If such revelation is approved I will ensure that the recipient of the information is similarly briefed and will facilitate his/her signing of a SCART indoctrination form.

Signed: ...........................................................

Date: ..............................................................

Completed forms are to be posted to:

     (Civ) 02392 573022

¹ Insert subject person’s name.
ANNEX 24D

DELIBERATE SELF HARM (DSH) AND SUICIDE

1. Background

   a. Deliberate Self Harm is a non-fatal act of intentional self harm irrespective of the apparent purpose. The Service has a direct duty of care to correctly manage personnel who present with actual or threatened DSH, and the considerable stigma associated with these actions must be overcome, although this can be challenging in areas with a low tolerance for such actions. This Annex contains guidance for those to whom these cases present which include the Executive, Medical Service, Chaplaincy and NS FPS. The aims of this guidance are as follows:

   (1) To ensure that individuals presenting with DSH receive the appropriate management of their physical and mental health, in line with best practice and National Institute of Clinical Excellence guidelines.

   (2) To maintain the good order, morale and operational effectiveness of the Unit and, ultimately, the Service.

   (3) To ensure that DSH and suicide cases are appropriately investigated, recorded and acted upon, and lessons learned for the future.

2. Introduction

   a. Both actual and threatened self harm are typically a communication of distress and need. Individuals can, however, have serious suicidal intent. The identification and management of individuals who commit acts of DSH is therefore critical, and these individuals are significantly more likely to commit suicide within the following year than the general population. Acts of DSH generally fall within one the following categories:

   (1) To communicate a State of Distress to Others. Adult life can at times cause heightened psychological distress and common causes include difficulties with relationships, family or employment. It is normal to want to communicate this with others, however the mechanism through which some do this is either actual or threatened DSH.

   (2) To Influence People or Events to Avert Undesired Outcomes. At times DSH, and particularly threats of future DSH, can be used to influence events and alter an outcome for the individual. This functions by raising the concern and anxiety in someone who has power and influence within a situation. This can be commonly seen with relationship and family discord. In the RN, threats of DSH may be used to avert unwanted Service obligations which the individual feels unable to tolerate emotionally, and these presentations can be particularly challenging to manage.
(3) **Physical Release for Emotional Distress or Tension.** This pattern of DSH is a mechanism of release from distress for an individual. This can be a learned behaviour and is usually associated with a degree of personality dysfunction. Some of these acts of DSH will be concealed and not come to light through routine interactions, for example through superficial cutting on skin usually concealed by uniform. This pattern of DSH is less common in the RN.

(4) **To Complete Suicide.** Acts presenting as DSH may have been serious attempts to commit suicide, which may have either been unsuccessful or the attempt was thwarted.

b. Common mechanisms of DSH include skin laceration and poisoning by overdosing on medication. More violent methods such as hanging and jumping from a height are more significant in determining suicidal intent, but are less frequent presentations.

c. It is important to note that DSH can occur in the presence or absence of a distinct mental illness.

d. Individuals who present with DSH should be treated with the same care, respect and privacy as any patient. Those involved in the management should take full account of the likely distress associated with such presentations. It is acknowledged that presentations of DSH can be challenging to manage, particularly in the operational environment, and a patient and compassionate attitude may be required to overcome this.

3. **Initial Management Following DSH Event**

a. When an act of DSH occurs, medical assistance should be sought immediately. The need may be readily apparent, but in cases of self poisoning the individual may seem completely well but have ingested a potentially life-threatening substance. Depending on circumstance this may be through the Medical Officer / Medical Branch Rating, or Duty First Aider as appropriate. Civil emergency services may be required, and this should not be delayed if it is apparent that an individual’s life is in danger.

b. After any immediate physical health needs have been met, the Medical Officer / Medical Branch Rating will need to complete a full mental health risk assessment, to inform the ongoing management. Appendix 1 to this Annex details the requirements for Medical Professionals and provides a comprehensive guide to the risk assessment process.
c. Prior to, and during, this mental health assessment it will be necessary to manage the individual in a safe environment. The nature of a safe environment can range from the supervision of an appropriately responsible person, through to containment under constant supervision. Typically, this will be in the Medical Centre or accommodation area, however the context may further dictate this. Detention in custody may ultimately be deemed necessary but should be fully justified in the best interests of the individual, and only on the authority of the Commanding Officer / Duty Commanding Officer. The necessity to contain an individual in these circumstances would be in the interests of the individual’s own health or safety, or that of others, when the following risks may be present:

(1) A risk of harm to themselves.

(2) A risk of harm to others.

(3) When there is a risk of deterioration in mental health.

d. Any level of supervision should be maintained for the minimum amount of time necessary to permit the mental health assessment, and should be conducted in an environment and atmosphere of due care and compassion.

e. If it is deemed that a level of ongoing level of protection is necessary in the interest of the individual’s health or safety, or that of others, then the appropriate mechanism will be determined by location. Appendix 1 details guidance to Medical Professionals on how to access specialist advice and services.

f. In all cases of DSH the Notification of a Casualty (NOTICAS) should be reported in accordance with JSP 751. The preferred method is via JPA and arrangements exist when this is unavailable. This is important not only for the correct notification of casualties, but also to enable accurate statistics to be collated informing future policy and practice.

g. In the event that a death or serious injury is discovered, immediate action must be taken at the scene, to minimise and prevent further injury, and to maximise the opportunity to secure evidence. Annex 24E refers in detail.

h. A Service Inquiry is likely to be necessary following any incident where death or serious injury occurs, QRRN Chapters 53 and 57 refer. JSP 832 sets out the circumstances where a Service Inquiry is required and provides the definitive guide.

i. If a Service Inquiry is not required but a DSH episode was significant then an RN Ship’s Investigation, or RM Unit Inquiry, can be ordered to establish what has happened and determine recommendations to prevent recurrence. BR 172 (The Yellow Guide) provides guidance.
4. **Subsequent Management of DSH Episode**

a. The management of the initial phase of a DSH case will be determined by the mental health risk assessment. The risk presented, location and time will all be factors in the appropriate course of action. It is essential that there is close liaison between the assessing Medical Officer/Medical Branch Rating, who has access to specialist mental health support, and the Executive.

b. A referral to Defence Mental Health Services via the appropriate Department of Community Mental Health is considered best practice, Appendix 1 provides necessary details. Consideration should be given to medically downgrading such cases as Medically Non-Deployable, and JSP 950 provides in depth guidance to Medical Officers.

c. In the deployed environment consideration should be given to aeromedical evacuation to the UK. In this situation it is imperative that the RAF Aeromedical Evacuation System is used, which provides appropriate in-flight supervision based on the risk assessment. AP3394 describes the process in detail. Should an individual need to be landed in a foreign port pending aeromedical evacuation, then specialist guidance is essential. Close liaison will be necessary between the appropriate Embassy, compassionately ensuring the safety and well-being of the individual.

5. **Executive Management**

a. In cases of DSH the Executive will need to liaise closely with the Medical Service to ensure appropriate case management, while maintaining the necessary duty of care. The objectives are:

   (1) Maintenance of a safe environment permitting medical assessment.

   (2) Investigate as necessary through either a Service Inquiry or Ship’s Investigation.

   (3) Ongoing liaison engagement with Case Conferences to facilitate appropriate multidisciplinary care.

   (5) Application for Discharge (SHORE) or Services No Longer Required if appropriate.

   (6) Disciplinary Action as required.

b. **Security Implications.** If an episode of DSH raises concerns relating to security, then the Unit Security Officer should be involved and act in accordance with JSP 440 the Defence Manual of Security.

---

2. [http://defenceintranet.diif.r.mil.uk/Policy/Continuity/Pages/BusinessContinuityHome.aspx](http://defenceintranet.diif.r.mil.uk/Policy/Continuity/Pages/BusinessContinuityHome.aspx)
c. Appendix 2 contains a flow diagram illustrating the process and possible outcomes.

6. Multidisciplinary Care

a. As described, most cases of DSH are communications of distress and need. In addition to appropriate medical management, wider avenues of support may be utilised to provide the correct care.

b. The Divisional System. An individual’s DO should be involved in all cases of DSH. The bond created by the Divisional System can be a strong resource for the individual in distress, and may facilitate simple adjustments that provide immediate relief. Furthermore, the DO is in a strong position to inform the Medical Service on aspects of the case that are not immediately apparent, and also provide liaison with the unit Command.

c. Naval Service Family and People Support. Many cases of DSH are caused by psychological distress, and the source of this is often located in relationship, family and financial matters. NS FPS can be contacted by either a unit Chain of Command or the individual themselves via a single point of contact in HMNB Portsmouth, from where suitable support and intervention can be co-ordinated. Chapter 24 refers. Contact:

NS FPS Entry Portal: 0800 145 6088/02392 728777 / 9380 28777.

d. Chaplaincy. Unit Chaplains are able to offer pastoral care and support, regardless of religious beliefs. Chapter 31 refers in detail.

e. Chapter 24 Section 9 and Section 10 contain details of organisations that are able to offer additional advice and support.

7. Case Conference

Once the initial management of the DSH episode described above has been completed, a case conference should be convened. This shall consist of representatives from the Medical Service and Divisional System, as well as other agencies involved in the individual’s care such as NS FPS. The aim is to align assessment of the situation, contain and control any risk, and plan the future management. Appendix 3 gives those involved further guidance.

8. Confidentiality

a. The correct maintenance of confidentiality is essential for successful ongoing management. The agencies typically involved in the management of DSH cases will have specific policies on managing confidentiality, which can be enshrined by professional regulatory bodies. The General Medical Council, for example, state that a Medical Officer could disclose personal information if:

(1) It is required by law.

(2) The patient gives consent.
(3) It is justified in the public interest.

b. Issues surrounding confidentiality can be challenging. Written consent should be obtained where possible, and even then, relevant information should only be shared with those who need direct knowledge of the situation.

9. Long Term Outcomes Following DSH

a. The RN has a duty of care to correctly manage individuals who present with or threaten DSH. The appropriate course of management will depend on numerous factors and will initially be guided by the presentation and risk assessment. In the longer term, both the needs of the individual and the Service will influence the outcome.

b. Where possible the goal of any long-term management will be to harmoniously return the individual to a state of psychological resilience and Service employability. In some circumstances and situations, the correct pathway may ultimately lead to discharge from the RN through Medical, Welfare or Executive routes. This will be driven in part by the initial motivation of the DSH, and ultimately the overall Service prognosis which will be informed by the Case Conference.

10. Medical Outcomes

As DSH is a communication of distress and need it is not a diagnosis as such. An individual cannot therefore be medically discharged from the Service for DSH alone. Recurrent DSH is however typically associated with significant psychiatric illness or personality dysfunction and the correct management is that for the underlying disorder. If, after appropriate treatment, such a presentation persists then consideration for medical discharge may become appropriate. JSP 950 provides in depth guidance to Medical Officers.

11. Welfare Outcomes

An episode of DSH may be the first indication that the individual is experiencing an overwhelming amount of distress. The source of this is often in their personal life, for example a relationship breakdown, family discord or financial pressure. NS FPS is able to provide management and support with these issues which could ultimately lead to a Compassionate Discharge.

12. Executive Outcomes

a. Warnings. In cases where an Executive management is necessary, an individual will typically be placed under Warnings as described in Chapter 57.
b. **Discharge SHORE.** Discharge SHORE is not a punishment. It is the normal method of dispensing with the services of ratings and other ranks whose retention is undesirable because of unsuitability or possibly for reasons largely beyond their control. Chapter 54 details the circumstances in which Discharge SHORE may be appropriate. In cases of DSH these can particularly include:

1. **Temperamental Unsuitability.** TU describes an individual’s persistent and obvious failure to adapt to the basic but unique demands of Service life. These demands include tolerance of separation from family, Naval Discipline and military hierarchy, the need for self discipline and close quarter living. The distress caused by such a failure to adapt can manifest itself through acts of DSH, usually early in a Naval career. The Executive have the option of applying for Discharge SHORE on the grounds of TU. For this to happen an individual must be assessed by a Service Psychiatrist and a recommendation for a TU discharge be provided in writing to the Commanding Officer. Prior to this assessment an FMed1041 will be required signed by the Commanding or Executive Officer ensuring that other appropriate avenues of support or discharge have been considered. Annex 54D describes the assessment of TU in detail.

2. **Alcohol.** Alcohol abuse and dependency can exist in the absence of a distinct mental disorder which necessitates medical management and potential medical discharge. These situations are complex and require close co-ordination through the Case Conference. Pure alcohol problems may be ultimately managed through Discharge SHORE.

3. **Inadequacy.** Ratings and other ranks may be unable to perform the duties of the lowest rate to which they can be reverted. Difficulty managing the distress this causes can present through DSH and Discharge SHORE may be the most appropriate management.

4. This is not an exhaustive overview of Discharge SHORE and other circumstances exist, as described in Chapter 54.

c. **Naval Discipline.** It can be the case that an episode of DSH is consciously motivated to influence people and alter events, without any suicidal intent or underlying mental illness. An example of this would be a wilful injury sustained purely to achieve a medical downgrade thus preventing a deployment. The Armed Forces Act 2006 provides the Executive with recourse to manage such cases under Section 16 Malingering or Section 19 Conduct to the Prejudice of Good Order and Service Discipline.

d. **Discharge Services No Longer Required.** Discharge SNLR is not a punishment but neither is it an honourable release and can impair a rating or other rank’s prospects of employment on return to civil life.

1. **Unruly.** Usually there will be evidence that an individual is on Warnings for Discharge SNLR (Unruly) and has received previous punishment that has not had the desired reformatory effect. Cases of DSH with the desire to influence individuals or outcomes may be particularly challenging to manage.
(2) **Drug Misuse or CDT.** Some cases of DSH may present with drug misuse, which is incompatible with the unique position of Service life.

e. **Officers.** Officers may equally present with DSH and ultimately require Executive management. Appropriate mechanisms of discharge exist as described in Chapter 54.

f. This description of avenues of Executive management is not meant to be exclusive or comprehensive, but serves to describe the more common routes seen in these cases.

g. Such Executive actions will require clear co-ordinated input which is harnessed through the Case Conference.
APPENDIX 1 TO ANNEX 24D

GUIDANCE TO MEDICAL PROFESSIONALS

1. Introduction
   This Appendix provides detailed guidance to Medical Officers/Medical Branch Ratings on the management of cases of DSH in the immediate and longer term. All healthcare professionals should be accountable for their actions, and act within the limits of their professional competence. Those operating under supervision (for example General Duties Medical Officers) should discuss all such cases with their seniors.

2. Responsibilities
   a. The initial management of any immediate physical injury or illness.
   b. Full mental health risk assessment, documented on the Defence Medical Information Capability Programme patient record.
   c. Initial liaison and referral to specialist mental health care.
   d. Providing informed advice to the Executive regarding the ongoing management.
   e. Participation in Case Conferences as detailed in Appendix 2.

3. Risk Assessment Following DSH
   a. Following an act of DSH, a mental health evaluation and risk assessment will need to be conducted by the Medical Officer/Medical Branch Rating. The requirements of a psychiatric history and mental state examination are described, which in turn inform the ongoing risk assessment.
   b. Mental Health History:
      (1) History of Presenting Complaint. In these cases, this will include the patient’s own account of events leading up to the DSH episode, and provide much of the information needed for the risk assessment.
      (2) Past Psychiatric History. Including past diagnoses, treatment and severity. Previous episodes of DSH are also highly important.
      (3) Past Medical History. Particularly noting the presence of chronic, disabling, or terminal disease.
      (4) Medication History. Medication taken for whatever reason should be noted. Consideration of substances potentially toxic in overdose is particularly important.
      (5) Social Circumstances. DSH can often occur in the context of social disharmony including relationship breakdown, family or financial distress.
(6) **Service History.** Occupational role and functioning, particularly access to weapons and safety critical tasks, are important considerations.

(7) **Forensic History.** In the Service context this includes interaction with Civil Police, and the Executive.

(8) **Substance Use.** Alcohol use, misuse and dependence should be assessed, as well as the use of illicit drugs or other psychoactive substances.

(9) **Personal History.** This includes early life, upbringing, and enduring patterns of interaction with the world.

c. **Mental State Examination**

(1) **Appearance and Behaviour.** Noting self care, dress, rapport and appropriateness of interaction.

(2) **Speech.** Presence or absence of formal thought disorder, and pressure or poverty of spontaneous conversation.

(3) **Mood.** Subjective and objective assessment of mood, and appropriateness to current circumstance.

(4) **Thought Content.** Including presence or absence of delusions or overvalued ideas.

(5) **Perceptions.** Hallucinations or illusions in any sensory modality.

(6) **Cognition.** Cognitive state including orientation, concentration and memory.

(7) **Insight.** Individual's own view of their presentation and willingness to receive offered interventions.

d. **Risk Assessment – Suicidal Intent of the Act**

(1) **Were precautions taken against discovery?** When an individual act of DSH is undertaken and the individual knows it will be discovered before any significant health effect could occur, it presents a lower risk, for example cutting an arm in the messdeck. When DSH occurs in isolation and is not expected to be discovered, it presents a higher risk.

(2) **Was the act pre-meditated?** Prior planning, such as the stockpiling of medication, represents intent and presents a higher risk.

(3) **Were final acts completed?** Putting affairs in good order represents a higher risk of suicide, overlapping with planning in advance. Preparing a will or life insurance indicates an intent; however handwritten notes can be made quickly and easily.
(4) **Was the act likely to cause death?** A violent act, such as hanging or jumping from a height, indicates a much higher risk of future suicide. It is important, however, to assess the understanding of intent as it is the believed likelihood of causing death that is important. Thus, an overdose of 4 paracetamol tablets might genuinely be understood to be potentially fatal.

(5) **Was the act impulsive?** An impulsive act such as an overdose directly following an argument with their spouse represents a lower risk of suicide.

(6) **Did the individual summon help themselves?** Calling for assistance following DSH is a protective factor, for example contacting family via mobile telephone to tell them what has happened.

(7) **Was the individual under the influence of alcohol or drugs?** Individuals who experience distressing life events often use alcohol or other psychoactive substances to manage their emotions. This use can lead to impulsive, spontaneous and irrational actions. When distressed and under this influence, unplanned and impetuous acts of DSH can be performed, sometimes following an interpersonal argument which, unintentionally, can be serious.

e. **Risk Assessment – Significant Risk Factors**

(1) **Previous History of DSH.** As identified, the risk of a completed suicidal act is much higher in those with a history of DSH, with or without clear suicidal intent at that time.

(2) **History of Significant and Current Alcohol or Drug Misuse.** The behavioural alterations relating to recklessness and impulsivity when influenced by psychoactive substances place those who use them at a significantly higher risk of future DSH and suicide.

(3) **Presence of Significant Mental Illness.** DSH and suicide are linked to a myriad of psychiatric disorders. The full history and mental state examination will permit the identification of mental illness.

f. **Risk Assessment – Ongoing DSH Risk**

(1) **Does the individual regret the attempt?** Regret and remorse following an act of DSH indicates a lower risk of a recurrence.

(2) **Assurance given of future safety.** If an individual can assure those assessing their ongoing risk that they are confident in keeping themselves safe, this indicates lower risk.

(3) **Ongoing suicidal ideation, plans or intent?** If, on assessment, the individual retains thoughts or desires to harm themselves then the future risk is elevated. An absolute future intent to complete suicide presents a much higher risk.
g. **Risk Assessment – Protective Factors Which Reduce the Future Risk**

1. Presence of family and friends, rather than social isolation.

2. Having children or dependants.

3. Ability to see a positive future, instead of hopelessness, is protective.

4. Stating reasons to live, other than those above, can also be reassuring.

5. Moral objections to DSH and suicide.

4. **Documentation of Assessment**

   Mental health professionals should carefully document their full risk assessment on DMICP. This should be done using the Mental Health Menu template, and the embedded Decision Support Tool, which provides guidance on risk stratification using the described criteria.

5. **Specialist Support to Medical Professionals**

   a. Medical Officers/Medical Branch Ratings can access specialist support to manage these complex cases in the initial phases. All DCMHs provide a duty nurse who is available for advice and guidance. In hours contact should go through the appropriate Base Port DCMH contact number below. Outside working hours, the duty nurse is available via Base-port duty medic mobile telephone number also below:

   - HMNB Portsmouth: 02392 726256/9380 26256 (07773 154608).
   - HMNB Plymouth: 01752 555965/9375 65965 (07990 551693).
   - HMNB Clyde: 01436 655757/93255 5421 (07967 340172).

   b. The duty nurse for each DCMH is supported by a consultant psychiatrist who can provide expert support if needed.

   c. In addition, there is a national tri-Service contact telephone number for out-of-hours advice: 07990 551693.

   d. It is now widespread best practice that all cases of DSH are referred for specialist assessment and management to the appropriate DCMH through DMICP. The risk assessment will inform the urgency of this, and a telephone call should accompany cases where necessary.

APPENDIX 3 TO ANNEX 24D

CASE CONFERENCE

1. **Membership**
   The Case Conference is a key step in correctly managing cases where DSH has occurred. This will typically take place after the initial episode and when ongoing avenues of care have been explored. Key members of the Case Conference are as follows:

   a. **Executive Representation:**
      1. To chair the Case Conference.
      2. To provide perspective on individual case and needs of the Service.
      3. The exact position of this member will vary with situation but, in a ship for example, should be the Executive Officer.

   b. **Divisional Officer** - to promote the needs of the individual.

   c. **Unit Medical Officer** - to represent the medical situation.

   d. **DCMH representation** - to provide specialist mental health opinion.

   e. **NS FPS** - if involved.

   f. **Chaplaincy** - if involved.

   g. **Any other relevant agency.**

2. **Individual Engagement**
   The individual concerned must be made aware that the Case Conference is to be held, and they should be given the option to participate for some or all of the proceedings. Engagement with the individual concerned is a key factor to delivering an effective care management plan.

3. **Structure**
   The following structure to the Case Conference is intended as a guide:

   a. **Introduction.** All participants should introduce themselves by name, role and nature of input.

   b. **Presenting Situation.** The events that led up to the DSH episode, and what has occurred since, should be discussed in order to allow participants to share the same information and understanding. This will be led by the professional who has best grasp of the situation, which may be the Divisional Officer or Medical Officer.
c. **Medical Assessment.** Prior to the Case Conference, informed consent must be sought from the individual to disclose medically confidential information in accordance with GMC guidance. Key aspects of the medical contribution will include the nature of any underlying mental health disorder and the ongoing risk assessment. Medical downgrading needs to be explicitly discussed, considering Service prognosis.

d. **Executive Assessment.** Both the Divisional Officer and Executive representative will inform this aspect of the case conference. Previous Service record should be considered, along with any discipline actions in process such as Warnings.

e. **Additional Information.** This will include input from other agencies such as NS FPS and Chaplaincy. Here any child or vulnerable adult safeguarding concerns should be highlighted.

f. **Individual’s Perspective.** If present, the person concerned can express their own views. If they do not wish to participate with the full conference, they could be invited to join at this stage.

g. **Management Plan.** The overall management plan is to be discussed and agreed upon. This will incorporate the needs of the individual and future Service employability. The plan will be multidisciplinary and involve co-ordination for delivery.

h. **Documentation.** All members involved with need to make their own notes for documentation upon completion. The Medical Officer must make an electronic record on DMICP, noting particularly the ongoing risk management plan, as this constitutes an agreed care plan.
ANNEX 24E

DEATHS AND SERIOUS INJURIES IN UNITS AND ESTABLISHMENTS

POINT OF CONTACT – PART 5

References:
A. 2010DIN02-023.
B. QRRN
C. JSP 751

1. Introduction

There may be occasions when personnel will discover a serious incident; involving death or where death is likely. In these cases a local Home Office Police Force inquiry will normally follow. Depending on the proximity of the police to the incident it may be some time before the police attend the scene and take control. In order that procedures are carried out to minimise and/or prevent further injury and maximise the opportunity for the police to secure evidence the following guidance and aide memoir, which should be disseminated widely to all ranks and form the basis of more comprehensive unit SOPs, is provided for non-police personnel.

2. Initial Action to be taken by Non-Police Personnel

On discovering an incident involving death or where death is likely, the following action is to be taken:

a. Prevent Further Loss of Life (including your own) or Injury. The main priority on discovering an incident is to prevent further loss of life or injury. The senior person unconnected with the incident is to assess the situation, take charge and take appropriate and safe action to:

   (1) Ensure area is safe to enter. Identify and eliminate any danger, where safe/minimal risk to do so, e.g. extinguish a small fire, isolate electrical currents etc.

   (2) Remove the injured person away from imminent danger. E.g. assist people from a smoke filled room. However, under no circumstances must a seriously injured person be removed if there is no imminent danger as this could cause long-term medical problems or fatality if not handled correctly.

   (3) Tend the Injured.

   (4) Seek Medical or other assistance at the first available opportunity.

   (5) Once further loss of life or injury has been prevented, any injured personnel at the scene should be tended in accordance with current training.

   (6) Where practical, those suffering from shock, trauma or distress should not be left alone or in circumstances where they could further injure themselves or others.
(7) Only a Medical Officer can certify death at the scene and therefore every effort should be made to revive or treat personnel until tended by trained medical staff. Where it is obvious that a person is dead and cannot be revived the deceased should remain exactly as discovered and not touched or moved.

b. **Uninjured Personnel at the Scene.** They should be segregated and should normally be asked to remain at the scene until the arrival of the police; the person discovering the injured or deceased person is a key witness, who police will wish to interview at the earliest opportunity. The details of those personnel who are possible witnesses or suspects should be noted. Those person(s) involved, or suspected to be involved, in an incident or found at or near a scene should be asked or ordered, where the necessary authority exists, not to wash themselves or their clothes until seen by the police.

c. **Take Appropriate Measures to Protect the Scene.** It is vital that, when the police arrive, the scene (and everything within it) is exactly as it was discovered. In particular:

   (1) **Offices, Accommodation etc**

   (a) Where the scene of an incident is under cover it may be able to be secured by locking the entrance/exit doors. Windows are not to be closed, unless under exceptional circumstances, i.e. weather etc. They may be a point of entry - exit for a suspect and therefore may provide forensic evidence. If the incident involved a jump or a fall, windows should not be touched and should be left exactly as they have been found.

   (b) If possible or practicable, a sentry should be placed on windows to ensure no interference with such possible evidence. Any other methods of entry or exit should be secured and the room/area cleared of all other occupants. Thereafter, the key must be retained by a person in authority until the arrival of the police. It is also important that the room/building remains undisturbed and those occupants (or other unauthorised visitors) are not allowed access to the room/area either deliberately or accidentally, for any reason.

   (c) Should it be suspected that other keys to the area exist or you have any doubts over your ability to fully secure the scene you should position a guard(s) at the points of access/exit.

   (2) **Outside Areas.** Where it is not possible to secure the area by utilising existing physical barriers, access to the area by unauthorised personnel should be physically prevented. At the first opportunity a cordon using personnel or ‘mine tape’ should be placed at a suitable distance around the scene (see Appendix 1 para 4b). The type of incident and area will determine the size of cordon.
(3) **Visitors.** It is important that only personnel required to attend the scene are allowed within the cordon. Those personnel not connected to the incident or who have no legitimate purpose at the scene must not be allowed into the scene and should be instructed to leave the area. A record of all persons attending the scene within the cordon is to be recorded with their reason why, and handed to police on arrival. If a person does need to enter scene they must be escorted to ensure they do not tamper with evidence. There are few reasons why access should be required to the scene, and unless there are Health and Safety reasons there should not be any need for anyone to enter the scene once initial actions have been taken.

(4) **Pets.** If applicable, remove any pets from the scene.

d. **Preserving the Scene.** It is essential that anything at the scene is found by the police. Under no circumstances should the area be cleaned and any items at the scene should be left in the same condition and position as they were discarded. In particular:

1. **IEDs/Suspect Packages etc.** These should remain in situ and under no circumstances should these be examined, removed or tampered with. The use of mobile phones, other communications or bright lights (flashlights etc) is to be avoided.

2. **Firearms.** These should not be touched, handled or moved, made safe, unloaded, cleaned or tampered with in any way. It will be important that the police find any firearm in the same condition as it was left. Care must be taken not to touch bloodstained items as blood distribution and ballistics may be a factor. If you have handled the weapon or know that any other person has, you should notify the police immediately on their arrival. The weapon should only be touched and made safe by a Police Firearms Officer.

3. **Spent Cases.** These should not be touched, handled, moved or collected. A large cordon should be established in order to encompass any such evidence. The searching of the cordoned area should be left to the specialist Police search teams. A search conducted by any other persons may damage evidence or introduce foreign items into the cordoned area which may contaminate the scene.

4. **Knives or Other Weapons.** Knives (or other weapons if appropriate) should not be touched, handled or moved.

5. **Documents.** Any notes, whether sealed or otherwise, and any other correspondence or documents found at the scene should not be handled and must remain undisturbed. Be mindful that the note could have been written by someone other than the deceased and may require detailed forensic analysis. If the note has been handled, establish when, where and by whom and report this to the police on arrival.

6. **Electrical Equipment** (including computers/mobile phones/radios/flashlights). Any electrical equipment found should not be tampered with, switched on/off, used or removed.
(7) **Clothing / Garments.** Are not to be removed from the scene or injured personnel (unless for medical reasons by trained medical staff).

(8) **Blood/ Bodily Fluids etc.** Blood and other bodily fluids stains and marks should be left in situ. Unless taken to a medical facility with the patient for emergency treatment, all body parts should be left at the scene until the arrival of the police. Nothing should be cleaned until the arrival of the police.

(9) **Hanging.** The important areas from a forensic point of view are the knot itself, the position on the neck and the point of suspension. If the ligature has to be cut, other than in an emergency, it should be cut on a central point and well away from these areas.

(10) **Overdose.** The container and any remaining drugs should be noted but left in situ.

(11) **Carbon Monoxide Poisoning.** If a car window has to be smashed to gain entry to a vehicle select one other than the drivers or the window through which the hose is running. Note the position of the body, its condition and any smell coming from the car. If the engine is running, turn it off and leave the keys in the ignition, no further action should be taken.

3. **Reporting**

   a. It is important that personnel discovering an incident report it and obtain assistance at the earliest practical opportunity. Once in a position to do so personnel should report the incident to a person in authority, i.e. duty staff/ police etc, by the quickest and safest means possible, e.g. mobile telephone, in person etc. Where two people, unconnected with the incident, are present one should remain to protect the scene whilst the other reports the incident and/or seeks assistance.

   b. Duty military personnel notified of an incident should ensure that the action above has been completed and immediately report or arrange for the details to be reported to:

   (1) In the UK, local Home Office Police, Service Police and/or MDP. Overseas the Service Police.

   (2) The Chain of Command (in accordance with local SOPs).
APPENDIX 1 TO ANNEX 24E

INITIAL ACTION TO BE TAKEN AT THE SCENE OF A SERIOUS INCIDENT
(See algorithm)

1. Prevent Loss of Life (including your own) or Injury
   a. Protect and/or remove injured from imminent danger. If there is no danger, do not under any circumstances remove an injured person.
   b. Where safe/minimal risk, eliminate danger.
   c. Senior person present unconnected with the incident – take charge.

2. Assess and Tend the Injured
   a. Provide first aid in accordance with training.
   b. Those in shock, trauma or distress should not be allowed to further harm themselves or others, and where possible do not leave alone and/or out of sight.
   c. Segregate uninjured personnel involved in the incident pending arrival of police.
   d. Record names and addresses of evacuated casualties, and where they have been evacuated to.
   e. Only a Medical Officer can certify death.
   f. Where it is obvious that the person is dead the body is not to be touched or moved.

3. Summon Assistance
   By the quickest means and at the first available, safe opportunity.

4. Protect the Scene
   a. Do not touch, remove or tamper with anything (or allow anyone else to do so). Do not remove blood or other bodily materials.
   b. Lock down main gate and refuse entry/exit to all but Emergency Services. Detain persons & vehicles attempting to leave and inform Police upon their arrival. Cordon off the scene. Do not allow unauthorised personnel inside the cordon. The size of cordon should be determined by the type of incident and terrain; a rule of thumb should be to set out cordons to extremes as they can always be reduced at a later stage.
   c. If the incident has occurred in a building or indoors, rooms should be vacated, secured/ locked and keys retained. If incident involves a jump or fall, leave windows as they are.
d. Occupants or visitors should not be allowed re-entry

e. Record details of any person permitted inside the cordon.

f. Segregate potential witnesses/offenders pending the arrival of police. Record names, addresses and contact numbers of any personnel unwilling to remain at the scene – do not allow anyone to leave. They could be potential suspect(s) who will then have ample opportunity to destroy any evidence, inform others, assist offenders etc.

5. **Articles at the Scene. Leave in Situ**

   DO NOT touch, remove, permit to be removed any article from the scene. In particular:

   a. IEDs/Suspect Packages – DO NOT touch (avoid use of mobile phones, radios or flashlights).

   b. Firearms – DO NOT touch, handle, move, make-safe, or clean.

   c. Spent cases – DO NOT touch, handle or move.

   d. Knives or other weapons – DO NOT touch, close, handle or clean.

   e. Written Notes – DO NOT touch, handle, open or read.

   f. Electrical Equipment – DO NOT touch, use or switch on/off.

   g. Clothing/Garments – DO NOT remove (unless for medical reasons and by medical trained staff).

6. **Reporting and Recording**

   a. **In the UK**

      (1) Civil Police/ Service Police/MDP.

      (2) Chain of Command.

   b. **Overseas**

      (1) Service Police.

      (2) Chain of Command.
7. Algorithm for Procedures to Be Taken for Unexplained Death in a Military Establishment

Body Discovered - Are there signs of Life?

- Yes
  - Ensure safe to enter and provide immediate First Aid

- No
  - DO NOT TOUCH / DISTURB THE BODY OR SCENE

Call Civilian Police and Ambulance via the MOD Exchange 2222 or 999 (if dialling from mobile)

- RN Service Police informed?
  - No
  - Evacuate the room/immediate vicinity, directing personnel to clear area

  - Take details of person(s) finding deceased – ensure they await Civilian Police

  - Any equipment in use at time of death to remain in situ

  - In the event of suspected suicide leave all items thought to have been used in situ

- Yes
  - Call

  - DO NOT TOUCH OR DISTURB THE BODY OR SCENE

  - AWAIT THE ARRIVAL OF CIVILIAN POLICE AND/OR AMBULANCE
ANNEX 24F

TRI-SERVICE SPECIALIST WELFARE AGREEMENT ON MUTUAL WORKING AND AREAS OF RESPONSIBILITY

1. Preamble

The provision of Specialist Welfare Support is a responsibility of the parent Service Command (i.a.w. JSP 770) but there will be occasions when another Welfare provider is able to meet the needs of the Service user most effectively. Compassionate action, assignments, discharge or services provided at Public expense must involve the parent Service Chain of Command.

2. Parties

This agreement is between Naval Service Family and People Support (NS FPS), the Army Welfare Service (AWS), and Royal Air Force Community Support. In this document these specialist organisations are referred to as agencies, ‘Service’ refers to the single Services (Naval Service, Army, RAF) and ‘services’ to the various outputs that the agencies provide.

3. Scope

a. This agreement covers services to Serving personnel (officers and Ratings/ORs, married and single) and their families in the following situations:

   (1) Specialist welfare services for personnel serving with a unit of another Service and their families, where appropriate, will be provided by the local service welfare agency.

   (2) Where services would be more appropriately provided by another agency because of geographic or other reasons.

b. This agreement does not cover:

   (1) Work that is, or is likely to be, particularly sensitive or of high profile or particularly complex, with single Service implications. Receiving agencies should be aware of such sensitivities and discuss them with the appropriate Service Agency at the earliest opportunity.

   (2) Counselling or other services purchased for specified individuals at public expense. Funding approval and associated costs lie with the parent Service.

   (3) Social inquiry reports and pre-sentence reports (SIRs/PSRs) that must reflect the Service of the convening authority although elements of such reports may be conducted by a co-operating agency.

   (4) Out-of-Hours services that may not be provided by other specialist welfare agencies.

---

1 Specialist RAF Community personal and emotional support services are provided by SSAFA-FH( RAF) under contract arrangements.
4. **Case Conduct**

a. Each agency will allocate work, carry out the assessment and make recommendations in accordance with that agency's processes and criteria, consulting as necessary. The case will be conducted as any other of the agency's cases including coverage within supervision and Confidentiality policies.

b. Where a recommendation needs funding, compassionate or Executive action by the individual's Service, the individual's consent will be sought before information is passed to his/her own Service welfare agency who will refer to the appropriate Service authorities for action, (modifying it to conform with own Service criteria if necessary). The decision on the recommendation in such cases remains with the individual's Service. If the individual withholds consent for information to be passed on it will not be possible to recommend compassionate or executive action.
ANNEX 24G

ESTABLISHING AND MAINTAINING AN ON-LINE COMMUNITY

1. **At Least Three Months Prior to Deployment**

   a. Units are to establish contact with the appropriate Digital Moderators (DM) based within the local NS FPS organisation. A DM, in conjunction with other NS FPS staff, will brief the command on Digital/Social Media Platforms and other associated services available from NS FPS.

   b. The Unit is to provide a single point of contact to act as the Families Liaison Officer (FAMLO). The FAMLO role should be allocated to an individual who has the experience to identify what is of concern and interest to families and who appreciates how valued the FAMLO role is likely to become amongst the on-line community. They should be accountable to the Executive Officer/Adjutant. Briefings for the FAMLO will be provided by the local NS FPS Team.

   c. Local NS FPS will attend Families’ Days and provide pre-deployment briefs to the Ship/Unit’s company on this topic.

2. **One Month Prior to Deployment**

   Commanding Officers should release a Ship/Unit Newsletter (see Para 2408.b sub para 3) to families one month prior to a deployment, informing them of www.royalnavy.mod.uk/community-and-support and encouraging them to join the “Community” members’ area of the website.

3. **While Deployed**

   a. The Local NS FPS worker will, if appropriate, provide support for events for the Ship/Unit’s on-line community during the deployment. These can be virtual events (such as on-line gatherings at a specified date/time), or actual events. Interaction on-line often leads to increased face-to-face activity.

   b. www.royalnavy.mod.uk will be the resource that families will look to for accurate and regularly refreshed information regarding ‘their’ Ship/Unit. Such material promotes involvement and a sense of identity with the Ship/Unit and its people, but successful engagement depends on the flow of material via the FAMLO. There is, for instance, limited interest for families in a missile launch, whereas being able to spot loved ones in a picture of a team at work generates a much more positive reaction. The appetite of the on-line community to feel part of the personal experience of loved ones on deployment cannot be overestimated. To replicate material which intended for public consumption on the Royal Navy website does not achieve that purpose.

   c. The Navy NPS People Support Digital Media team maintains a duty system that allows information to be updated speedily thus ensuring that rumours, speculation and consequent anxiety is kept to a minimum and that families are kept as fully involved and as accurately informed as possible.
d. The Navy NPS People Support Digital Media work alongside RNMCE, which means that it is in a good position to publish information to families in the event of any incident involving the Ship/Unit as soon as it is released by MOD and, hopefully, before publication in the press.

e. In the event of open communications from the Ship/Unit being suspended, the DM worker will become the conduit for continued communication with the families on the website. The DM will communicate with the Ship/Unit when permitted, representing the Ship/Unit until normal communications are reinstated.
ANNEX 24H

GOOD PRACTICE RESPONSES TO DOMESTIC VIOLENCE

1. Introduction

   a. The following good practice guide is adapted from guidance issued by Hammersmith and Fulham Council and the Domestic Violence Forum (Hammersmith and Fulham), which was based on work carried out by Norwich Consultants on Sexual Violence and Jean Osborne LSE.

   b. Listed below is a series of Dos and Don’ts and questions that may be asked when Domestic Violence is suspected.

2. DOs and DON'Ts

   DO  give priority to ensuring the victim’s immediate safety.
   DO  recognise their need for a response and your support.
   DO  be sensitive and discuss their fears.
   DO  take the victim seriously, believe them.
   DO  reassure them that violence is not their fault.
   DO  let them know that they are not alone in being abused.
   DO  remember that their problems may be compounded by racist reactions, language and cultural barriers; or other reactions to their age, sexuality or disability.
   DO  remember that their options may be limited by lack of, or access to, resources.
   DO  consult with specialist agencies and individuals.
   DO  check if it is all right to send the victim letters or phone them at home (confidentiality is crucial).
   DO  respect their wishes if they do not want you to make contact at all.
   DO  find out what they want and if you can help them achieve it.
   DO  let them know that they do not have to leave home to talk to a person at a local refuge.
   DO  discuss the situation and any options open to them.
   DO  help them explore ways of maximising their safety, whether they leave their ome or not,
   DO  find out what other agencies have to offer and let the victim know.
   DO  take personal responsibility when referring the victim elsewhere.
   DO  keep in contact, if at all possible.

   DON'T  ignore your intuition if you suspect an individual is being abused.
   DON'T  insist on joint sessions with the victim and the abuser.
   DON'T  fob off a victim if they come to you for help.
   DON'T  be flippant, cynical or sceptical.
   DON'T  ask a victim what they did to provoke the violence, just the facts.
   DON'T  just focus on what the victim alone can do in the situation.
   DON'T  make choices for them.
   DON'T  give up on them just because things are taking longer than you think they should.
   DON'T  give the abuser the address and phone number of where the victim is staying.
   DON'T  promise to give a letter or pass on a message from the abuser to the victim or to facilitate contact in any way.
3. **HOW TO ASK**

a. **Initial Questions**
   
   (1) Is everything alright at home?
   
   (2) How are you feeling?
   
   (3) Are you getting the support you need at home?

b. **Follow up – Direct Questions**

   (1) I noticed a number of bruises/cuts/scratches/burn marks: how did they happen?
   
   (2) Do you ever feel frightened of your partner?
   
   (3) Have you ever been afraid of your partner?
   
   (4) Does your partner ever treat you badly such as shout at you, constantly call you names, push you around or threaten you?
   
   (5) Have you ever been in a relationship where you have been hit, punched, or hurt in any way? Is that happening now?
   
   (6) Many people tell me that their partners are cruel, sometimes emotionally and sometimes by physically hurting them – is that happening to you?
   
   (7) We all have rows at home occasionally. What happens when you and your partner fight or disagree?
   
   (8) Has your partner ever:
   - destroyed things you care about;
   - threatened or abused your children;
   - forced sex on you/or made you have sex in a way that you are unhappy with;
   - withheld sex/rejected you sexually in a punishing way;
   - used your personal fears to ‘torture’ you;
   - stalked you.
(9) Does your partner get jealous and, if so, how do they then act?

(10) You mentioned that your partner uses alcohol/drugs, how do they act when drinking or on drugs?

(11) I notice that your partner seems very concerned and anxious. That can mean they feel guilty. Were they responsible for your injuries?
ANNEX 24I

NAVAL SERVICE NOTIFICATION OF CASUALTY DIRECTIVE

1. Introduction
   a. This Directive should be used in conjunction with the overarching Joint Policy and Procedures\(^1\).
   b. The MOD places the utmost importance on the way the Services deal with their casualties. Casualty reporting must be undertaken as quickly and sensitively as possible, and it takes precedence over all but the most urgent operational and security matters.
   c. The casualty reporting and notification process is coordinated by the Joint Casualty and Compassionate Centre (JCCC) and all information must be routed through them.
   d. As the sole Notifying Authority (NA), the Naval Service Casualty Cell (NSCC) takes the lead in the management of the process for all Naval Service (NS) casualties\(^2\).

2. Casualty Reporting
   a. **Raising a NOTICAS.** A full list of occasions when a NOTICAS is mandated is at Appendix 1. An example of a NOTICAS is at Appendix 2 and a NOTICAS template at Appendix 3.
   b. **Raising the NOTICAS** is the responsibility of the casualty’s parent unit and is an Executive function. It is for the unit to establish who is to raise the signal eg. OOD in consultation with Duty Medic out of hours and Medical team during office hours. A step by step guide to the NS notification process is at Appendix 4.
   c. The primary method for reporting casualties to JCCC is the Casualty Notification (NOTICAS) signal on JPA. If JPA is unavailable, the unit must send a NOTICAS to JCCC INNSWORTH by immediate signal or fax.
   d. **Accuracy must not be sacrificed for speed, it is therefore essential that no unverified information is included in the NOTICAS.** If doubt exists, the relevant section must be left blank and the information, once verified, reported via subsequent updates.
   e. **Maritime Reservists.** Casualties involving mobilised Maritime Reservists (MR) will be managed in the same way as their regular counterparts. Incidents/casualties involving non-mobilised MR are a civil police matter, however their parent MR Unit should immediately report any casualties to their respective MR HQ (RMR/RNR SO2/SO1) who will then inform the NSCC, JCCC (SO2 Post Death Admin for release of any Service Wills) and Commander Maritime Reserves.

---

\(^1\) JSP 751 – Joint Casualty & Compassionate Policy & Procedures, Management of the Casualty, Volume 1
\(^2\) With the exception of Special Forces personnel who are managed under a separate policy.
3. Casualty Notification

a. KINFORMING is the process of notifying the EC/NOK of NS casualties. Kinforming via the NS NA will only take place under specific direction from the NSCC once in receipt of a NOTICAS from JCCC tasking NSCC to begin the process.

b. Casualty Notification Officers (CNOs). In cases where the casualty is dead, missing, VSI or SI (see Appendix 1 for definitions), notification is to be carried out by a CNO and an accompanying Officer. When tasked to do so by JCCC, the NSCC is responsible for nominating and CNOs. Where a casualty is III or UL it may be appropriate for the Unit to kinform, but they are to seek advice from JCCC/NSCC before doing so.

c. Self KINFORMING. Self KINFORMING is the process whereby a casualty notifies their own EC/NOK giving details of their injuries or illness. Self KINFORMING should NOT be the default approach. This procedure may only be permitted in extremis if all of the following criteria are met. If any of these criteria cannot be achieved, KINFORMING is to take place through the NSCC:

(1) The casualty is categorised as UL only.

(2) The casualty is supported by medical staff at their side who are confident the casualty has sufficient knowledge of all the relevant aspects of their injury/illness.

(3) The casualty has been briefed on the potential impact of self KINFORMING on their EC, and is content to proceed.

(4) The Unit is not currently under Op MINIMISE (if on Operations), ‘RIVER CITY’ restrictions (for RN) or there are multiple casualties. In these circumstances the unit at home can better coordinate notifying duties and prevent the broadcast of misinformation amongst NOKs.

d. The result of Self KINFORMING should be debriefed by the casualty’s immediate CoC to the JCCC.

e. Mass Casualty Incident. JCCC will liaise with the NSCC and potentially activate the Naval Service Casualty Activation Centre (CAC). In the event of a multi-Service incident, the JCCC may activate the Major Incident Centre (MIC); each incident will be managed on an individual basis.

4. Emergency Contact/Next of Kin Information

The effectiveness of the notification process is dependent on the accuracy of the information available to CNOs. Recent incidents have disclosed serious inaccuracies in EC/NOK information recorded on JPA. This has the potential to cause great distress to the families of casualties and significant embarrassment to the RN and MoD.
5. Media 'Lines to Take'
   Navy Media is the lead agency for generating Media Lines to Take (MLTT) for any NS casualties. The NSCC will liaise with Navy Media regarding all NS casualties.

6. Summary
   a. It is imperative that all Ships, Units and Establishments have a robust system in place to ensure that the NS Notification Process is understood and followed.

      The importance of the accuracy of EC/NOK information held on JPA cannot be over emphasised and it is a fundamental DO/LM responsibility to ensure they carry out regular checks that information is current.

   b. The lead on all casualty related actions within a Ship, Unit or Establishment lies with the Executive. Duty Officers should familiarise themselves with the process and all Duty Officer packs should contain a copy of this Directive. The NSCC Duty Casualty Officer is available at any time to provide advice and guidance.
NS NOTICAS – MANDATORY REQUIREMENTS

1. NS NOTICAS Signals are required for any of the occasions listed below:

   a. Deaths. For a death to be notified there must be no doubt whatsoever as to the fact. Whenever there is the slightest question whether death has occurred e.g. where a Service Person (SP) is believed to have drowned but the body has not been recovered and identified, the casualty must be notified as either ‘Missing – believed Killed (MBK)’ or ‘Missing Not Known (MNK)’.

   b. Missing and Returned from Missing (RFM). Missing includes kidnapping and detention by a foreign power but not illegal absence e.g. AWOL.

   c. Casualties Medically Categorised as:

      (1) VSI. A patient is listed ‘very seriously ill’ when his/her illness or injury is of such severity that life is imminently endangered.

      (2) SI. A patient is listed ‘seriously ill’ when his/her illness or injury is of such severity that there is cause for immediate concern but there is no imminent danger to life.

      (3) III. A patient is listed with an ‘Incapacitating Injury/Illness’ if illness or injury does not warrant classification as VSI or SI, but renders them physically and/or mentally incapacitated.

      Any casualties categorised as VSI, SI or III are not permitted to SELF KINFORM (see para 20).

   d. Unlisted Casualties (UL). A SP whose illness or injury requires hospitalisation but whose condition does not warrant classification as VSI, SI or III.

   e. Casualties Who Have Been Unexpectedly Admitted to Hospital. Casualties who are medically categorised as UL, but unexpectedly admitted to hospital in the following circumstances must be reported to JCCC:

      (1) On duty away from their home base; on operations, overseas deployments and exercises.

      (2) On board HM ships at sea or away from home ports.

      (3) The casualty has been admitted to hospital for less than 72 hours, but their injuries were caused by circumstances that would be of public interest eg. personnel Wounded in Action (WIA).

      (4) When admissions exceed 72 hours they must be reported by NOTICAS with effect from the date and time of admission.
(5) Other occasions where the reporting unit or individual is unable to notify the EC directly and requires the assistance of the JCCC.

f. Casualties whose injuries are believed to have been caused as a result of deliberate self-harm/attempted suicide and who have not been otherwise listed should be reported as UL.

g. Previously reported casualties whose casualty state or location has changed.

h. Previously reported casualties once declared FIT and discharged from hospital.

i. Whenever injuries or illness cause a SP under the age of 18 years to be admitted to hospital, his/her NOK are to be notified unless the patient asks for them not to be. If their injuries or illness are not in themselves notifiable, their wishes may be disregarded if the hospital authorities consider that it is essential or in the patient’s best interest to inform the NoK, provided that the agreement of the Commanding Officer of their unit has first been obtained.

j. There is no requirement to report persons away from their home base temporarily attending, or admitted to, hospital for a period of less than 72 hrs for minor medical conditions that do not require AEROMED evacuation if, in the opinion of a medical officer, they would have been treated at Role 1 and followed by a period of sick leave if the individual were home-based.

2. **Casualty Reporting Categories**

   Casualty Details (Category/Status). Serial CHARLIE of the NOTICAS must show one of the following categories for each casualty:

   **DEAD**

<table>
<thead>
<tr>
<th>Category</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>KIA</td>
<td>Killed in Action (A battle casualty who is killed outright or who dies as a result of wounds or other injuries before reaching a medical treatment facility)</td>
</tr>
<tr>
<td>DOW</td>
<td>Died of Wounds (A battle casualty who dies of wounds or other injuries received in action, after having reached a medical treatment facility)</td>
</tr>
<tr>
<td>DNK</td>
<td>Dead Cause Not Known</td>
</tr>
<tr>
<td>DOP</td>
<td>Died on Operations (Died, when deployed on Operations, or as a result of Operations, but not KIA or DOW)</td>
</tr>
<tr>
<td>NOD</td>
<td>Non-Operational Death (Died when NOT deployed on Operations)</td>
</tr>
</tbody>
</table>

   **MISSING**

<table>
<thead>
<tr>
<th>Category</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MBK</td>
<td>Missing Believed Killed</td>
</tr>
<tr>
<td>MBW</td>
<td>Missing Believed Wounded</td>
</tr>
<tr>
<td>MBPW</td>
<td>Missing Believed Prisoner of War</td>
</tr>
<tr>
<td>MBDAW</td>
<td>Missing Believed Detained Against Will</td>
</tr>
<tr>
<td>MNK</td>
<td>Missing Circumstances Not Known/Not Accounted for NOM Non-Operational Missing</td>
</tr>
<tr>
<td>CPW</td>
<td>Confirmed Prisoner of War</td>
</tr>
<tr>
<td>DAW</td>
<td>Detained Against Will</td>
</tr>
<tr>
<td>RFM</td>
<td>Returned From Missing/Detained</td>
</tr>
</tbody>
</table>

---

1 In the context of casualty reporting, personnel who are categorised as ‘on operations’ are deemed to be engaged in combat, including movement, supply, attack, defence and manoeuvres needed to gain the objectives of any battle or campaign. Normally this would be characterised by the presence of belligerents, designation of an operational area, and the generation of CDS’s Directive.
### MEDICAL LISTING

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>VSI</td>
<td>Very Seriously Ill/Injured/Wounded</td>
</tr>
<tr>
<td>SI</td>
<td>Seriously Ill/Injured/Wounded</td>
</tr>
<tr>
<td>III</td>
<td>Incapacitating Illness/Injury</td>
</tr>
<tr>
<td>UL</td>
<td>Unlisted Condition</td>
</tr>
<tr>
<td>MI</td>
<td>Minor Injury (Does not warrant hospitalisation. Only for use in the event of high profile multiple casualty incidents when details of all personnel involved are required)</td>
</tr>
<tr>
<td>DFH</td>
<td>Discharged From Hospital</td>
</tr>
<tr>
<td>OK</td>
<td>OK (For use in the event of high profile multiple casualty incident when details of all personnel involved are required)</td>
</tr>
<tr>
<td>FIT</td>
<td>Fit</td>
</tr>
</tbody>
</table>

### 3. Supplementary Information

Serial ECHO of the NOTICAS should include as much of the following as is known:

#### Cause

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>E</td>
<td>Enemy Action/Fire</td>
</tr>
<tr>
<td>F</td>
<td>Friendly Action/Fire</td>
</tr>
<tr>
<td>OA</td>
<td>Operational Accident (An accident occurring when deployed on Operations)</td>
</tr>
<tr>
<td>NOA</td>
<td>Non-Operational Accident (An accident occurring when NOT deployed on Operations)</td>
</tr>
<tr>
<td>RTA</td>
<td>Road Traffic Accident</td>
</tr>
<tr>
<td>NC</td>
<td>Natural Causes</td>
</tr>
<tr>
<td>VUC</td>
<td>Violent or Unnatural Causes</td>
</tr>
</tbody>
</table>

#### Plus (only if applicable) NBC Category

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>N</td>
<td>Nuclear</td>
</tr>
<tr>
<td>B</td>
<td>Biological</td>
</tr>
<tr>
<td>C</td>
<td>Chemical</td>
</tr>
</tbody>
</table>

### 4. Supplementary Medical and Management Information

Serial ECHO of the NOTICAS is to also include one of the following:

#### Management Information

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>WIA</td>
<td>Wounded In Action (On Operations)</td>
</tr>
<tr>
<td>NBI</td>
<td>Non Battle injury (On Operations)</td>
</tr>
<tr>
<td>NOI</td>
<td>Non-Operational Injury/Illness (NOT, deployed on Operations)</td>
</tr>
<tr>
<td>IDC</td>
<td>Identity Confirmed</td>
</tr>
<tr>
<td>IDP</td>
<td>Identification Provisional</td>
</tr>
<tr>
<td>Duty</td>
<td>Duty</td>
</tr>
<tr>
<td>Off Duty</td>
<td>Off Duty</td>
</tr>
<tr>
<td>Res</td>
<td>Reservist</td>
</tr>
</tbody>
</table>

# NOTICAS TEMPLATE

1. **NOTICAS Format.** The text of a NOTICAS message is to begin with the word 'NOTICAS'. If more than one casualty separate NOTICAS messages are required. Thereafter the following format is to be used:

   Precedence – Action – IMMEDIATE

   DTG Month Year
   From: Unit
   To: JCCC INNSWORTH

   SIC: ABA/WAL

   NOTICAS

<table>
<thead>
<tr>
<th><strong>ALPHA</strong> (Essential)</th>
<th>State “Initial” Report or “Update” with Update number.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>BRAVO</strong> (Essential)</td>
<td>Rank, Initials (and known forename), Surname, Service (RN, RM, Army, RAF, etc.), Service Number, Unit, (and attached Unit if applicable) NB: For a dependant give the name of the casualty then the relationship and details of the service person (e.g. wife of ...)</td>
</tr>
<tr>
<td><strong>CHARLIE</strong> (Essential)</td>
<td>Casually Category Details (Category/Status) (e.g. Dead, Missing or Medical Listing. See categories at Annex A), also Previous Category if an “Update” (e.g. VSI previously SI).</td>
</tr>
<tr>
<td><strong>DELTA</strong></td>
<td>Date and Time of the incident and Place (if known and not classified).</td>
</tr>
<tr>
<td><strong>ECHO</strong></td>
<td>Supplementary Information. Include Cause, On Duty or Off Duty, Regular or Reservist and any of the supplementary management information categories in Annex A that apply.</td>
</tr>
<tr>
<td><strong>FOXTROT</strong></td>
<td>Cause Categorisation. Free text showing additional details about the incident. Include rank, name and number of any other military personnel involved. For categories see Annex A.</td>
</tr>
<tr>
<td><strong>GOLF</strong></td>
<td>Supplementary Medical Information. Details of injury or illness if they can be released, otherwise a medical contact who can provide information for the Emergency Contact (EC) or Casualty Notification Officer (CNO).</td>
</tr>
<tr>
<td><strong>HOTEL</strong></td>
<td>Casually Location at Date and Time (use DTG).</td>
</tr>
<tr>
<td><strong>INDIA</strong> (Essential)</td>
<td>State whether the Emergency Contact (EC): Has been informed – use Codeword KINFORMED The unit will inform – use Codeword KINFORMING JCCC to inform – use Codeword KINNOTFORMED Where KINFORMED, state who has been informed. In all cases include Name, address and relationship of EC if known. Also any other information regarding the EC that will be useful for the CNO.</td>
</tr>
<tr>
<td><strong>JULIET</strong> (Essential)</td>
<td>Additional Remarks. Any additional known facts that will be useful for the CNO/VO, RCDM and Parent Unit (e.g. Requirement for DILFOR, specific Welfare requirements, Date and Time of Death if different from Date and Time of incident). This must include the name and telephone number, both working and out of hours of a Unit Point of Contact (POC).</td>
</tr>
</tbody>
</table>
2. **Everything in the NOTICAS must be factually correct.** If the reporting unit is not certain this must be identified in the text (e.g. Witness reports casualty has been taken to “x” hospital). Reporting units must aim to provide all the required information. However when speed is essential or when to find out all the information would incur delay reporting units must send an Initial NOTICAS with at least the essential information indicated above.

a. If an Initial NOTICAS is sent without some of the required information an update must be sent as soon as possible, so that the family members can be fully briefed.

b. All times are to be in ZULU.
APPENDIX 4 TO ANNEX 24I

NS NOTIFICATION – STEP BY STEP GUIDE

UNIT ACTION
- Incident occurs resulting in a casualty. Unit phones JCCC to pre-warn of incoming NOTICAS.
- If required contact NSCC for guidance.

UNIT ACTION
- Raise NOTICAS on JPA and submit to JCCC immediately. If no access to JPA then via HGM, fax, phone or e-mail.
- Accuracy of information is paramount.
- Consider Op MINIMISE or similar until KINFORMING has been completed.

JCCC ACTION
- JCCC confirm NOTICAS details and forward to the NA (NSCC).

NSCC ACTION
- If KINFORMING is required identify and activate CNO Team.
- Liaise with RNRM Welfare to nominate a VO and Duty Padre.
- Inform wider Naval community via SOP.

CNO Team
- Conduct KINFORMING and once complete report to JCCC and NSCC.

NSCC ACTION
- Inform the parent Unit and the chain of command of task complete as per the NSCC Reporting Guidelines.

JCCC: 95471 7325/01452 519951
NSCC Duty Casualty Officer: 07770 863079

A NOTICAS is to be raised in the following circumstances:

1. If casualty is listed as III or above,
2. If the casualty is on duty away from their home base; on operations or involved in overseas deployments and exercises,
3. On board HM Ships at sea or away from home port,
4. If hospitalised for 72 hours or more,
5. If there is public interest or likely to be,
6. If the casualty requires Aeromed,
7. If it involves self-harm or attempted suicide,
8. If the casualty is under 18 years of age.

The NSCC will inform the chain of command of ongoing situation as per NSCC Reporting Guidelines.

A VO will be allocated to all casualties listed as SI or above (except in a MCI).

---

1 This is an overview of the process, JCCC/NSCC actions may vary depending on casualty listing.

CHAPTER 25
SERVICE ACCOMMODATION

SECTION 1 - SERVICE FAMILY ACCOMMODATION

2501. Overview
It is a condition of service, in recognition of their inherently mobile lifestyles, frequently remote bases and terms of service, that Regular Service Personnel (including FTRS(FC)) are provided with a satisfactory accommodation solution which can take the form, subject to PStatCat and individual circumstances, of either publically provided family or single accommodation (or an appropriate substitute) either at, or within an appropriate distance from, their duty unit, or an appropriate allowances package. Chief Defence People (CDP) is responsible for the formulation of tri-Service Defence living accommodation policy through the MOD central focus for Defence Accommodation (Hd People SP Support). The 3 Services each have a ‘Housing Colonel’ responsible for accommodation matters with Capt PFCS & PD fulfilling this role for the Naval Service.

2502. References
JSP 464 Volumes 1-3 (Tri-Service Accommodation Regulations (TSARs)) are the overarching and definitive policy source documents for the provision of Defence living accommodation and take primacy on all accommodation matters. Available on the MOD Intranet, it is arranged as follows:

Volume 1 – SFA and Substitute Service Family Accommodation (UK and Overseas).

Volume 2 – SLA and Substitute Service Single Accommodation.

Volume 3 – Combined Accommodation Assessment and 4-Tier Grading.

2503. Responsibility
Defence Infrastructure Organisation Service Delivery Accommodation (DIO SDA) is the Housing Business Unit in Defence Infrastructure Organisation (DIO). DIO SD is responsible for the management of the SFA housing stock and for meeting the demands of the Services in accordance with the Strategic Housing Plan. All maintenance and allocation provision is carried out on behalf of DIO SDA by CarillionAmey (CA) via the National Housing Prime Help Desk (NHPHD).

2504. Entitlement and Eligibility
SFA occupancy is governed by type of service and personal status category on an entitlement or eligibility basis. Full details of personnel entitled, or eligible, to occupy SFA can be found at JSP 464 Volume 1 Part 1 Chapter 3. It is worthy of note that on marriage/entry into a civil partnership, whilst there is no entitlement to occupy SFA prior to the date of the marriage/civil partnership, CA will, if circumstances and availability permit, allow access to the SFA 14 days early to enable the applicant to move in furniture and possessions. The property is not to be occupied during this time. Co-habitation by the Service Person (SP) and a partner who is not their legal spouse/civil partner is not permitted under any circumstances.
2505. Application and Allocation

Full details relating to the application and allocation process can be found in JSP 464 Volume 1 Chapter 4 (SFA) and Chapter 5 (SSFA). The applicant must complete the electronic e-1132 Form (type e1132 into the search box on the Defence Intranet) with manual applications only being accepted in exceptional circumstances after discussion with CA. The application will be processed and an offer made within 15 working days of receipt if within 4 months of required date, but there is no obligation to provide an address more than 4 months before the required date. The self-preference section of the e-1132 allows the SP to view details of SFA to entitlement within a 10 mile radius of the Duty Station for which they can express a preference (subject to availability).

2506. Move In (SFA)

On acceptance of the offer the SP can book a move in appointment via the e-1132. JSP 464 Volume 1 Part 1 Chapter 4 Section VII provides further details including the rules for the use of a Proxy to cover the move in. Rules and Conditions of occupation can be found in JSP 464 Volume 1 Part 1 Chapter 64 and, following move in, the SP has 14 days to notify CA of any defects or deficiencies in the property. The new Combined Accommodation Assessment System (CAAS) provides the methodology for determining the accommodation charge for SFA, but BFG will remain under 4-Tier Grading (4TG) until draw down. The SP has 28 working days from date of occupation (rather than 3 months under 4TG) to challenge the CAAS Band in accordance with JSP 464 Volume 3 Part 1 Chapter 6 Paragraphs 0604-0608 (for 4TG see Chapter 8). Similar move in arrangements apply to SSFA.

2507. Insurance

SP are strongly advised to arrange insurance cover for potential liability to MOD, personal possessions, and third party liabilities in respect of injury and damage to property (see JSP 464 Volume 1 Part 1 Chapter 6 Paragraph 0605).

2508. Charging

The Armed Forces Pay Review Body is responsible for recommending accommodation charges to be paid by entitled occupants of SFA and substitute equivalents, which are published by MOD under a Directed Letter. The overall CAAS (or 4TG) assessment determines the accommodation charge for individual properties. The furniture charge (Part Furnished or Furnished), Contribution in lieu of Council Tax (CILOCT), garage/carport charges are recorded and charged separately. For details see JSP 464 Volume 3 Parts 1 and 2.

2509. Change of Circumstance

a. If the SP’s circumstances change they must notify CA, in writing, within 14 days or as soon as possible if deployed. If the changes mean a loss of entitlement the standard Notice to Vacate for entitled personnel is 93 days. Full details regarding loss of entitlement can be found in JSP 464 Volume 1 Part 1 Chapter 7 and there is a separate policy for bereavement at Annex B to Chapter 3. Those occupying surplus SFA on an ‘eligible’ basis are subject to a 28 day Notice to Vacate.
b. Whilst entitlement to SFA/SSFA normally ceases at the previous duty station on the date of assignment, it is admissible in certain circumstances and for a specified period of time, for personnel to apply to CA to retain their SFA/SSFA at the previous duty station. The completion of an e1132 application form is required and the request must meet one of the criteria contained in JSP 464 Volume 1 Part 1 Chapter 7 Paragraph 0725. The Base Port Area Agreement, under which entitled Naval Service personnel occupying SFA in Portsmouth, Plymouth and Clyde may retain their entitlement in these areas, is included at Paragraph 0725a. After the initial agreement, continued Base Port retention is subject to an e1132 application on receipt of a new assignment.

2510. **Move Out (SFA)**

It is the SP’s responsibility to notify CA of their intention to vacate SFA and to subsequently book a mandatory Pre-Move out Advisory Visit (PMOAV). During the PMOAV the SP will be advised about the standard of cleaning required and notified of any specific areas which require attention to avoid costs being incurred on move out. CA should be provided with a minimum of 21 days notice for a move out and Proxy rules as at Para 2506 apply. Similar move out arrangements apply to SSFA.

2511. **Short Term Family Accommodation**

Short Term Family Accommodation (STFA) is available to all Service personnel and is primarily provided to alleviate separation from families, especially for enabling visitation rights for single parents (see Chapter 24 Para 2436 for full details). STFA is available within the three base port areas and in smaller numbers at other locations.

2512. **Home Ownership**

a. The Forces Help To Buy (FHTB) scheme aims to encourage and support home ownership for eligible SP. FHTB is intended to assist towards the balance of the purchase price (taking into account, for example, deposit, legal, surveyor’s, land registration and estate agent’s fees) when buying a property for which a mortgage lender (authorised by the FCA) is willing to advance a mortgage (see JSP 464 Volume 1 Part 1 Chapter 12).

b. The Joint Service Housing Advice Office (JSHAO), located in Aldershot, is able to provide current housing advice, information and, where possible, placement to Service personnel and their families. JSHAO details are available from the Defence Intranet and local Welfare Information Offices. JSHAO also publishes the monthly magazine 'Housing Matters'.
SECTION 2 - SINGLE LIVING ACCOMMODATION AND SUBSTITUTE EQUIVALENTS

2513. Scope

JSP 464 Volume 2 provides policy guidelines for the provision of Single Living Accommodation (SLA) and the substitute equivalents to trained personnel on a worldwide basis, except for accommodation in operational theatres and temporary accommodation at training areas where separate single Service arrangements apply.

2514. References

The following chapters of JSP 464 Volume 2 should be consulted for all issues relating to SLA and Substitute SLA (SSSA):

LEAVE, ABSENCE AND SEPARATED SERVICE

SECTION 1 - GENERAL

 POINT OF CONTACT – PART 5

2601. Introduction

a. The Tri-Service policy guidelines and regulations for leave and other types of absence can be found in JSP 760. This JSP has a broad remit and encompasses the majority of reasons for the absence of a Service person from their designated place of work. These include the various types of leave available and those occasions when Service personnel are absent for other reasons, such as jury service or when in civil custody. Absences may be either pre-planned or in reaction to particular circumstances. Either way, all absences must be recorded on the Joint Personnel Administration (JPA) System to allow for the appropriate pay, allowances or career management action to be taken, and for the provision of accurate management information. Service personnel will not be able to input Leave retrospectively onto the JPA system, therefore Annual Leave requests should be submitted at least 48 hours prior to the proposed period of absence.

b. JSP 760 is intended as general regulations to those responsible for absence management and provides a basis upon which reasonable decisions can be made.

c. All those responsible for the management and administration of leave and absence must make themselves conversant with the instructions contained in JSP 760.

2602. Management of Leave and Stand Downs

a. The management of leave is the responsibility of the Chain of Command.

b. Commanding Officers are responsible for ensuring that, wherever possible, individuals take their leave allowance in the leave year it was allocated.

c. Whilst Stand Downs are not to be used to replace or defer ALA (JSP 760 Chapter 2), COs should assess the appropriateness of awarding a stand down independently of, and without reference to, an individual's outstanding ALA balance.

2603. Granting and Timing of Absences

The granting and timing of all forms of absence (with the exception of the Statutory Maternity and Adoption Leave, or when absence is unavoidable e.g. Civil Custody or absence on medical grounds) is to be at the discretion of the Service and is subject to operational requirements and the general exigencies of the Service.
### 2604. Complaints about Refusal of Leave

Complaints about refusal of leave are covered under the internal redress of complaint procedures and must be submitted in writing within 3 months from the day on which the matter complained of occurred (JSP 831 – Redress of Individual Grievance: Service Complaints).

### 2605. Individual Leave Allowance

**a.** Individual Leave Allowance (ILA) consists of a combined total of 4 leave types: Authorised Absence; Post Operational Leave; Seagoers’ Leave; and Annual Leave. An application for ILA will reduce the individual balances in the following order of priority:

- Authorised Absence (AA)
- Post Operational Leave (POL)
- Seagoers’ Leave (SGL)
- Annual Leave Allowance (ALA)

Any ILA period which is subsequently cancelled, regardless of the reason, will be credited to the 4 absence types in the reverse order.

**b.** From 1 Apr 09 Service personnel have 38 days Annual Leave Allowance which includes Public Holidays. Service personnel are entitled to a minimum of 28 days annual leave per year under the Working Time Regulations (WTR). (JSP 760 Chapter 1 para 1.004.)

**c.** Personnel unable to take at least 28 days annual leave is a CAT A PFS breach and should be reported as such (see Annex 22A).

### 2606. Recording of Absences

**a.** The introduction of absence recording on JPA has reduced, but not totally eliminated, the need for paper-based absence requests. Additionally, unless deemed to be inappropriate, JPA has granted responsibility to those who hold the rank of Petty Officer or above to self-administer their own individual leave requests. Pivotal to the success of the Absence Process is prior planning with the Service Person’s Line Manager and this is to be encouraged at all times.

**b.** The recording of absence details on the JPA system by Service personnel, their CO or the Unit HR Administration staff, directly affects the efficient management of absences within a unit. Inaccurate recording and forecasting might have detrimental consequences both for the individuals within a unit and on the performance of that unit as an operational entity. All Service personnel must be made aware that they have a duty to record accurate and up-to-date absence information on JPA including that between assignments (Annex 26I). This is not only a policy requirement but is necessary for informed decisions to be made affecting pay, allowances and personnel management. The principal reasons driving the requirement for accurate leave recording are:
(1) The Armed Forces Pay Review Body (AFPRB) uses leave data in calculating its annual pay award recommendations to the Prime Minister. The ability to take leave is also one of the key components of the rationale behind the X-factor calculation. The accurate recording of leave is therefore important to the ongoing credibility of the pay award process.

(2) On the basis of legal advice, it was decided that MOD should commence making payments in lieu of untaken leave for Service personnel who die in service. However, the MOD can only make such payments on the basis of accurate and up-to-date leave records to provide the necessary audit trail.

(3) NCHQ is required to report annually to the Service Personnel Board (SPB) the number of personnel who have been able to take the minimum of 28 days ALA each year and the reasons why personnel are unable to achieve this. Lack of accurate recording masks the true extent of personnel unable to take leave for genuine operational reasons.

c. It is, therefore vital that all personnel keep their JPA leave records up-to-date and that the Chain of Command ensures this policy is enforced.
SECTION 2 – TYPES OF LEAVE AND ABSENCE

2607. JSP 760 References

The following references in JSP 760 give details on all types of Leave and Absence:

- Annual Leave - Chapter 1
- Authorised Absence including Stand-Downs – Chapter 2
- Post Operational Leave – Chapter 3
- Seagoers Leave – Chapter 4
- Rest & Recuperation – Chapter 5
- Domiciled Collective Leave (DOMCOL) - Chapter 6
- Re-Engagement Leave – Chapter 7
- Re-location Leave – Chapter 8
- Graduated Resettlement Leave – Chapter 9
- Invaliding Leave – Chapter 10
- Absence without Authority – Chapter 11
- Custodial Absence – Chapter 12
- Suspension from Duty – Chapter 13
- Jury Service – Chapter 14
- Absence on Medical Grounds – Chapter 15
- Compassionate Leave – Chapter 16
- Unpaid Leave – Chapter 17
- Career Intermissions – Chapter 18
- Terminal Leave – Chapter 19

- Shared Parental Leave – Chapter 25
- Call Forward Of Leave – Chapter 26
- Transfer Of Leave – Chapter 27
- Enhanced Leave – Chapter 28

2608. Relocation Leave

Relocation Leave (RL) is a period of authorised absence granted to Service personnel assigned between locations on non-operational tours of duty necessitating a change of accommodation, to facilitate the settling in/relocation process. It is in addition to, and not a substitute for, Annual Leave. All additional periods of absence taken between assignments i.e. AA and ILA, are to be recorded on JPA.

a. Allocation. Career Managers (CM) are to authorise RL in accordance with the direction given in JSP 760 Chapter 8 where possible. The award of RL, AA and ILA between assignments is subject to the requirement and exigencies of the Naval Service and can only be authorised by the CM after consultation with discharging and receiving units, taking into account personal circumstances wherever possible.
b. In the context of RL eligibility, Naval Service policy guidance is that a ‘normal tour of duty’ is defined as a permanent assignment iaw JSP 752 and therefore temporary assignments (any period of duty away from the permanent duty unit, of less than 183 days) do not qualify for RL. This does not preclude Commanding Officers from exercising their judgement to award Stand-down, iaw JSP 760, prior to, and on return from, temporary assignment, if the situation warrants it; say for an overseas detachment/temporary assignment period.

c. Any RL or AA granted by the CM is to be annotated on the Permanent Assignment Order (AO) e.g. Relocation Leave 1 Day, Authorised Absence 1 Day. Any additional periods of absence between assignments will be taken automatically from the Individual Leave Allowance in the following order of priority:

- post Operational Leave;
- seagoer’s Leave; and,
- annual Leave Allowance.

d. Once the AO has been issued, Unit HR Admin staff will credit the requisite RL or AA on JPA (in accordance with the JPA Business Process Guide). As the Service Person approaches their assignment date they are to apply for RL/AA/ILA on JPA through JPA Self Service (create a separate absence request using the Absence Type ‘Relocation’, ‘Authorised Absence’ or ‘Individual Leave Allowance’). This process will enable RL/AA/ILA to be captured on JPA.

2609. Leave Abroad

a. Personnel should be aware that special security regulations can apply when travelling to certain countries. Details of these countries and the procedures to follow can be found in JSP 440. Certain restrictions also apply to Service Personnel wishing to visit Northern Ireland (NI).

b. Anyone intending to travel to NI or the Republic of Ireland (ROI) is to contact their USO, in the first instance, to ensure the appropriate briefing is given.

2610. Further Information

Further policy is contained within BRd 9467 (FLAGO), Chapter 12. Additionally, advice on all leave matters can be provided by NAVY PERS-CNPS EMPLOYMT POL SO1 or NAVY PERS-CNPS EMPLOYMT POL CPO.
SECTION 3 - MARITIME RESERVES LEAVE

2611. Introduction
Unless otherwise stated, Reserve personnel are eligible for the same allocation and types of absence as Regular personnel, although these may vary depending on the type of Reserve service being undertaken e.g. FTRS, ADC etc. However, Sponsored Reserves are not entitled to leave. Part Time Volunteer Reserve (PTVR) personnel attending on MTDs under RFA 96 Sections 22 and 27 are now entitled to attendance based paid leave proportionate to their Service. Detailed policy is contained within JSP 760 and 2013DIN01-225.

2612. Maritime Reserves Leave of Absence
Commanding Officers may grant up to six months leave of absence to any Reserve personnel who request it for civilian employment or other reasons. Such leave will not affect seniority or reckonable service in the Reserve. All applications for leave of absence exceeding 6 months’ are to be submitted to NPT (Reserves). Such submissions are to contain an assessment of the likelihood that the Reservist will resume training on completion of the stipulated period of absence.

2613. Maritime Reserves Extended Leave of Absence
The detailed regulations for extended leave of absence (more than 1 year) for Royal Naval Reserves are below. However, extended leave of absence may be granted by CMR in exceptional circumstances:

a. Junior Officers under Training will normally be required to be removed from the Active List and apply for re-entry on their return.

b. Officers with under 15 years’ service will be placed on List 6 for up to three years, thereafter they will be removed from the Active List. Whilst on this List they will neither accrue seniority in their rank nor reckonable service in the Reserve. Only one such period of absence will be permitted.

c. Officers with over 15 years’ service may revert to List 6 for up to 3 years. Thereafter they may be placed on the Retired List.

d. Ratings. Ratings may be placed on List 6 for periods of up to 3 years. For periods in excess of 3 years they are to be discharged. Should they wish to re-join at some future point, they may be permitted to re-enter in their previous rate, subject to the prevailing manpower situation, and in accordance with current re-entry regulations. Re-entry is not a right and cannot be guaranteed.

2614. Commanding Officers
Commanding Officers who for any reason intend taking a period of leave of absence in excess of one month are to report details to CMR.
SECTION 4 – LEAVE FOR 3 WATCH MANNED VESSELS

2615. Introduction

The 3WM methodology was developed in 1992 as the enabler for new operating patterns for the next generation of survey vessels designed to achieve high levels of availability through innovative solutions in both engineering and personal terms. The result of extensive studies within the RN was a lean complement working a watch rotation routine finely tuned to the role of each ship. Survey vessels in particular benefit from a highly predictable and stable programme albeit with long deployment periods; often this is not available to other Fleet surface units.

2616. Watch-keeping Cycle

a. The watch-keeping cycle will be determined by local management for each of the vessels subject to programming/operational commitments.

For an individual over a 3 year (1,095 days) rolling period intended to deliver 270/3 days of protected harmony:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Total days on watch</td>
<td>804</td>
</tr>
<tr>
<td>Total days off watch</td>
<td>291</td>
</tr>
</tbody>
</table>

Of this off watch time:\n
- ALA (inc PH) (3 x 38 days pa) - 114 Protected entitlement
- SGL (3 x 12 days pa) - 36 Protected entitlement
- Respite (Authorised Absence) - 120 Protected entitlement
- TOIL (to be decided by Command) - 21 Unprotected Discretionary

b. Toil may be granted at the CO’s discretion up to a maximum of 21 days over a 3 year period (i.e. 3 x 7 days each year) to build the total of off watch time to 291 days. However, this element will not be protected and may be lost as programming constraints and necessary duties permit. The above figures apply to a constant on/off watch cycle and do not take into account potential programme commitments such as OST, etc. where the watch rotation may be suspended.

2617. Respite (Authorised Absence)

For every off-watch period, the CO may grant Respite as Authorised Absence (AA) which may be taken by individuals at their home, which can be privately owned or rented accommodation; SLA or SFA. This will be in lieu of harmony time at their normal place of duty (Base Port). However, it may be necessary for individuals to undertake Service commitments during periods of Respite, such as TEMs, medical appointments, etc.

---

1 For details of amount of ALA and qualifying criteria for SGL see JSP 760 – Tri Service Regulations for Leave and Other Types of Absences.
2618. Methods of Travel for Respite (AA)

a. When returning to the UK for an off-watch period, individuals are entitled to a publicly funded return flight. For budgetary reasons, Military Air Trooping (MILAT) should be used whenever possible. Should the individual be proceeding to their home or NOK address for leave or respite then a leave warrant should be used for this section of the journey. This is intended to allow the individual to go direct to the home/NOK address rather than return to the Base Port prior to being released to go on leave. It is recognized that there will be occasions when MILAT will not be available due to operational reasons e.g. late notice operational tasking, R&R flights, etc. and any delays in Ship’s Company movement may result in a lack of platform availability and consequently the loss of value from the ship support contract. If the individual is delayed during the journey, this will count as lost stand down but not ALA/SGL as this will remain protected.

b. If Civil Air (CIVAIR)\(^2\) is utilized, the arrival point in the UK does not necessarily have to be either of the two main London airports. For example - for an individual traveling from the Gulf area to a final destination of Manchester, by combining the public expense and leave warrants, it may prove as economical and beneficial to the individual to travel from theatre to Manchester via Paris rather than via LHR/LGW. However, in accordance with MOD Guidelines, the most economical method and route must be used.

c. The table below summarises the reasons for travel, methods of travel together with the applicable method of funding:

<table>
<thead>
<tr>
<th>Reason for Travel</th>
<th>Theatre to Arrival point</th>
<th>Arrival point to final destination</th>
</tr>
</thead>
<tbody>
<tr>
<td>Duty (Attend course, TEMs, meetings etc.)</td>
<td>Public expense</td>
<td>Public expense (claim via JPA)</td>
</tr>
<tr>
<td>Leave (ALA/SGL)</td>
<td>Public expense</td>
<td>Leave travel SGW (claim via JPA)</td>
</tr>
<tr>
<td>Respite/Off-Watch (AA)</td>
<td>Public expense</td>
<td>Leave travel SGW (claim via JPA)</td>
</tr>
</tbody>
</table>

2619. Guidance on Recording Respite (AA) on JPA

a. Unlike ALA/SGL, Respite is not transferable between leave years, and is to be recorded on JPA under AA by UPO staff. Respite time is only to be recorded/added as AA for the current leave year and not amassed for the period of the assignment. This will ensure excessive leave balances are not automatically carried over to the next leave year. JPA does not record leave taken over weekends, therefore Respite/Off-Watch absence which includes a weekend must be deducted from the individual’s AA balance.

\(^2\) CIVAIR should only be used when MILAT is not available.
b. To overcome the issues above, 3WM vessels may wish to consider the following option to ensure Watch Rotation Leave (WRL) is recorded accurately:

(1) Upon joining a 3WM vessel, an individual has their JPA leave balance confirmed, printed and stored in their P-File (enabling HR staff to correctly apportion any outstanding leave if SP is landed to a non-3WM vessel/unit).

(2) The new joiner’s balance is zeroed and their next instalment of WRL is added as AA (annotated as WRL).

(3) When proceeding on WRL, the Ship’s Office record leave via Mass Update of leave for all watch personnel.

(4) Upon return from WRL, the next set of WRL is added to JPA as AA. This process is repeated for each rotation.

(5) If/When an individual leaves the ship and the 3WM system, the Ship’s Office can calculate an individual’s leave entitlement prior to joining their new unit and update JPA accordingly.
SECTION 5 – SEPARATED SERVICE RECORDING

2620. Introduction

a. The recording of Separate Service (SS) was introduced as a means of measuring Harmony on an individual rather than unit basis. Within the Naval Service, the Separated Service Planning Tool (SSPT) is used for planning (policy guidance for SSPT users can be found at Para 2631) and JPA used for recording an individual’s accrued SS.

b. Since 1 Apr 04, all personnel within the Naval Service have their Harmony measured by recording SS against a threshold of 660 days over a rolling three year period (written as 660/3). This is a Category ‘A’ (mandatory) Personnel Functional Standard (PFS) for all RN and RM personnel on the trained strength (except badged SF personnel, 3WM personnel and RN/RM junior officers during their first 10 years on the trained strength for whom 660/3 is a Cat ‘B’ (desirable) standard). Any breach or anticipated breach of the 660/3 threshold, regardless of whether a waiver has been submitted, must be reported to NCHQ using the latest PFS Reporting Tool issued by NCHQ.

c. It is recognised that individuals assigned to 3WM Survey Vessels are likely to exceed the 660/3 SS threshold due to their long deployment periods. As a result, 3WM vessels are to report any anticipated breach of the protected figure of 270 harmony days (see Para 2615) as a Category ‘A’ PFS. This is equivalent to a SS threshold of 825/3. Any breach or anticipated breach of the 660/3 SS threshold is to be reported as a Category ‘B’ PFS. NAVY PERS-CNPS EMPLOYMT POL CPO is to be informed of all Waivers and breaches.

d. Irrespective of whether personnel fall under Cat A or Cat B, the accurate and timely recording of SS is essential to ensure that Individual Harmony is fully understood and personnel do not exceed the maximum threshold of 660 days SS over a rolling 3 year period.

e. In times of significant war fighting it may be necessary to breach the SS threshold of 660/3 for all or part of the Naval Service. It is envisaged that this provision will only be used where there is a general (as opposed to limited) call out of Reservists.

f. SS recording is applicable to all Naval Service personnel including those on Exchange, Loan Service and Secondment, but excludes personnel undergoing initial training.

g. Under the call out powers of the RFA 96, the ‘Time Out’ Policy applies to Mobilised Reserve personnel such that they cannot be mobilized more than once in the period governed by JSP 753 (Tri Service Policy for Mobilised Reserves), unless they choose to volunteer.

---

3 1095 (3x365 days) – 270 days protected harmony = 825 days
2621. Definitions

Standard tri-Service definitions are:

a. **Separated Service (SS).** Absence from normal place of duty or lack of freedom to enjoy leisure at place of duty/residence at work address (RWA) or leave.

b. **Separated Service Day.** One SS day will be awarded for each period of 24 hours absence from an individual’s normal place of duty / RWA.

c. **Normal Place of Duty.** This is defined as the base, station, unit, establishment, or Base Port in the case of HM Ships.

d. **Residence at Work Address (RWA).** This can be privately owned or rented property or Service Family and Single Living Accommodation (SFA/SLA) and applies irrespective of Personal Status Category.

e. **Duty Personnel.** Those who are members of a unit or organisation’s Duty Staff for a period of at least twenty-four hours and as a result are required to sleep in accommodation specifically allocated for this task. Such personnel are deemed to have a ‘night out of bed’ at their RWA. Those whose duty is on call and not absent overnight from their RWA are not eligible for the award of duty SS. Personnel who are watchkeepers and are granted watchkeepers leave are not to be awarded SS. However, when watchkeepers leave is not given SS should be awarded.

2622. SS Reason Categories and Recording Codes

a. The SS Reason Categories and Recording Codes are defined in JSP 756 Chapter 3. SS recording has no immediate effect on pay and allowances, but is used to measure the separation from normal place of duty or RWA because of Service commitments. This provides the evidence to influence and inform personnel related management decisions. It records when an individual is away from their normal place of duty for 24 hours or more and also when their free time is limited because they are on duty at their normal place of duty. It must be stressed that SS is absence from normal place of duty/RWA and not absence from family.

b. Harmony time will be delivered at the normal place of duty. Non-qualifying Service, such as periods on Leave, undertaking Sport and Adventurous Training, together with exemptions are detailed at JSP 756 Chapter 3, Para 4. Personnel landed for harmony purposes, when not on leave, will be expected to work as normal; however, if they are subsequently required to undertake 24 hour duties or be absent from their base port, this will be recorded as SS.

---

4 Different rules apply to personnel serving on 3WM Survey Vessels during off-watch periods (Para 2615 – Para 2619 refer).
2623. Recording Separated Service

a. SS will be recorded on JPA by the following processes:

(1) Move and Track Arrival.

(2) Move and Track Change of Location for Temporary Medical Reasons.

(3) Move and Track Recording Separated Service for Duty Staff.

(4) Move and Track Move Reasons.

b. Individuals are personally responsible for reporting to the HR Administrative Clerk to perform the ‘Arrivals’ procedure at the earliest opportunity upon arrival at their new unit, or on returning to their parent unit, when SS will be captured. Individuals without immediate access to HR Admin staff or units without access to JPA should report all changes to location and SS immediately to their parent administrative unit for input into JPA by the fastest means possible, such as e-mail. The form at Annex 26A should be used to report all absences to the individual’s parent unit.

c. On arrival at a new unit, the EWO or equivalent is to verify the individual’s Move and Track record for the last 3 years. Where excessive SS is evident through inaccurate recording, corrective action is to be taken by Unit HR staff and the previous unit notified. Individuals leaving a unit on assignment are to have their SS record verified prior to joining their next unit and any recording errors are to be rectified. Where Unit HR staff are unable to amend incorrect SS levels that are over 9 months old, they are to forward the incorrect SS record to the nominated Senior Arrivals Clerk within that Parent/Unit Admin Authority or to the RN/RM Pay and Delivery Focal Point Team via e-mail - NAVY LOG INFRA-P&A DEL FP (MULTIUSER) for entries which are over 2 years old - supported by comprehensive documentation, for correction. A list of the units with nominated Senior Arrival Clerks is at Annex 26B.

2624. Separated Service Voluntary Waivers

A voluntary waiver is an individual’s agreement that they are prepared to breach the 660/3 threshold in order to remain at sea or away from base port. However, this must not mask the individual’s true SS balance and SS must continue to accrue during the period of the waiver. It is vital that Unit HR record all waivers on JPA and that the appropriate Reason Code is used. This will ensure that despite a waiver being submitted, individuals true SS is recorded in JPA. See Section 6 of this Chapter.

---

5 SPVA has approved the extension of rollback function from 9 months to 2 years for 9 RN Unit HRs in major shore UPOs.
2625. **3WM Vessels including OPV and Survey Vessels**

a. Personnel serving in 3WM vessels will continue to have bespoke leave and travel arrangements which are detailed in Section 4 of this Chapter. The careful management of such 3WM arrangements will help maintain accurate SS recording and management of personnel serving in 3WM vessels. Additionally, 3WM personnel may request to submit a voluntary waiver of SS, in accordance with Section 6 of this Chapter, to accept that they will breach the ‘Protected Harmony’ figure in order to continue their sea service, but this should be carefully considered by the CO, accepted in extremis and for a limited time only. 3WM vessels must liaise closely with Career Managers when individuals with high SS balances are assigned back to General Service seagoing units.

b. It is recognised that individuals assigned to 3WM Survey Vessels are likely to exceed the 660/3 SS threshold due to their long deployment periods. Where it is considered necessary to breach the ‘Protected Harmony’ limit (SS greater than 825/3) for 3WM personnel and a solution has not been found, including individuals not electing to submit a voluntary waiver, then an application to breach an individual’s Protected Harmony threshold must be made, in advance, by the CO (having consulted the relevant OF5 Flotilla Commander, or equivalent) to DACOS Career Management; to be raised with CNPers as required. This would normally be on exceptional grounds to preserve unit operational capability. If the application is supported, SS continues to accrue and is to be addressed at the earliest opportunity. NAVY PERS-CNPS EMPLOYMT POL SO1/CPO is to be informed and an involuntary waiver is to be recorded on JPA.

c. Where 660/3 has, or is expected to be breached, the unit must report this as a Cat ‘B’ PFS breach.

2626. **Clarification of Accrual of Separated Service**

a. **Watchkeepers/Dutymen/Shiftworkers.** ‘Lack of freedom to enjoy leisure at place of duty/residence at work address, including leave’ applies only to those personnel who are required by their duty to remain on board their unit for periods of 24 hours or more. Personnel who are shift workers, watch keepers, or duty personnel, who are on duty for less than 24 hours, are not covered by the SS regulations (See Annex 26C). The X Factor and additional leave arrangements compensate for this kind of working.

b. **Late Working.** SS may be awarded where an individual works late on a frequent basis as this is the kind of overstretch that SS is trying to capture. Frequent basis should be taken as 3 consecutive days working where a minimum of 4 additional hours have been worked beyond normal secure on each day. In most cases this should mean working beyond 2000 on weekdays. One day’s SS should be awarded for each day this happens, backdated to the first day and triggered on passing the ‘frequent’ criteria; recording will cease as soon as the consecutive run is broken.
c. A manual SS entry, using the form at Annex 26D, will be required and must be authorised by the CO or Head of Department (HOD), Reason Code 16 is to be used in these circumstances. The form at Annex 26D can be customised to fit local conditions but must always be signed by the CO or HOD who will wish to monitor working practices closely. The forms should be retained for 12 months after the end of the period of Frequent Late Working.

d. On Call. Where personnel are on call or at reduced notice to move, a SS day will only be awarded when called in for 4 hours or more\(^6\). Personnel on leave who are recalled should be awarded a SS day and be granted leave for the period recalled.

e. **Compassionate Assignments and Locally Managed Compassionate Relocation.** Compassionate assignments will be granted in the normal manner once approval has been received from CNPers following a Royal Navy Royal Marines Welfare (RNRMW) recommendation. If assigned or locally managed to another location for compassionate reasons, the new location will become the normal place of duty and SS will only be accrued for qualifying absences from the new location.

f. **Compassionate Leave.** Compassionate Leave will be granted/approved in accordance with the guidance contained in JSP 760 Chapter 16. The amount of leave will be entered into the individual’s JPA absence record by Unit HR. The individual is then to create an Absence Request under JPA Self Service Employee in the normal way applying for the number of days under Individual Leave Allowance. SS will not accrue for periods of compassionate leave providing the above guidance is followed and the SS Reason Code box is left blank when the Move & Track process is completed.

g. **Hospitalisation/Medical.** Periods of hospitalisation as a result of an injury or illness that is not attributable to the Service will not be recorded as SS and the SS Reason Code must be left ‘Blank’. However, SS is to be recorded where an individual is hospitalised as a result of an injury or illness directly attributable to their duty in a professional or representative capacity, or when employed on a named operation. In these circumstances Reason Code 08 should be used. When an individual leaves hospital or, if abroad, returns to the Base Port or RWA, SS will cease. If the individual returns to duty (or, if medically downgraded, is employed on duties other than the ones they were on before the injury) they will be entitled to SS under the normal rules. If an individual is assigned to a Recovery Cell (including Hasler Company), this new location will become the normal place of duty and SS will only be awarded for relevant absences from or duties at that location. When an individual goes on sick leave this will be entered onto the JPA Absence Record, but will not count towards the SS limit of 660/3.

---

\(^6\) This 4 hour period does not include travelling time.
h. **Training Courses**

(1) If a course lasts for 6 continuous months or more (182 days), whether assigned or not, the location of the course will become the new normal place of duty and SS will not be awarded. LSA will cease at the start of such a period, but personnel may be eligible for Disturbance Allowances and/or GYH packages as appropriate under existing rules.

(2) If the course lasts less than 6 months and the individual is Permanently Assigned to the course, the Training Establishment becomes the new normal place of duty and SS will not be awarded.

(3) If the course lasts less than 6 months and the individual will be returning to their unit, SS will be awarded provided the course takes place outside of the Base area.

(4) For courses which are wholly residential (i.e. must live onboard throughout), personnel attending will be awarded SS for the entire course even if it is held in their Base Port/Parent Air Station/Base Unit area. If the course is partly residential, personnel attending will get SS for the days which are residential even if the course is held in their Base Port/Parent Air Station/Base Unit area.

(5) For all other occasions not described in sub-paragraphs (1) – (4) above, such as if the Individual is Managed Moved to the course that takes place out of their normal place of duty/base port, they will be awarded SS for the length of the course.

i. **Displaced Upkeep Periods**

(1) For ships and submarines undergoing displaced upkeep periods where a formal base port change has occurred, SS is to be recorded only whilst personnel qualify for LSA payment or accrued through duties (paragraph a. refers).

(2) For ships and submarines undergoing displaced upkeep periods where no formal base port change has occurred, SS will be recorded whilst LSA remains in payment. SS recording will continue for those personnel who remain with the ship at the displaced upkeep location. It will cease for those in the Base Port Rear Link Organisation. However, SS is to be recorded for those personnel undertaking planned visits to the displaced upkeep location.

j. **Personnel Under Punishment**

(1) When an individual is awarded a custodial sentence, their SS will cease.

(2) When an individual ashore/alongside is punished with stoppage of leave, they will not be entitled to SS on grounds of lack of freedom to enjoy leisure time. If, during the period of stoppage of leave, the individual undertakes a normal, rostered duty they will be entitled to SS for that duty.
(3) If an individual is under punishment when deployed, they will continue to accrue SS for any days outside of their Base Port/place of duty.

2627. Ships at Anchor or at Buoy

a. Where a ship is at anchor or buoy within its Base Port, the following rules apply (for the purposes of this paragraph only, Base Port is the area controlled by the local QHM):

(1) Duty Watch personnel are entitled to a day’s SS under the normal rules.

(2) If overnight leave is not granted, or if liberty boats are not available or precluded due to bad weather, all personnel will be entitled to SS days as Reason Code 5.

(3) Where overnight leave is granted and transport is provided to take people ashore, a SS day is not to be awarded, except to those covered by sub para (1) above. Personnel granted leave but who choose not to go ashore are not to be awarded a SS day.

b. Annex 26E is a guide and provides scenarios that involve a change of SS.
SECTION 6 – SEPARATED SERVICE WAIVERS

2628. Background

a. Whilst it is a PFS Cat A requirement to maintain the 660/3 harmony threshold for personnel (see Chapter 22 Annex 22A), there may be occasions when personnel are prepared to breach that Harmony threshold in order to continue to serve at sea or away from their Base Port/Unit. Special arrangements are in place for 3WM personnel; where any policy states 660/3, replace with 825/3 (see Para 2624).

b. Individual harmony is delivered through a number of management processes that are used to prevent a breach of the 660/3 threshold. It is important to identify early when an individual approaches the SS threshold and take positive action to prevent and manage anticipated breaches. The management processes include squad or watch rotation, career management, assignment, voluntary waivers, unit programming, duty rosters and specific exemptions.

2629. Separated Service Voluntary Waivers

a. In order to provide personnel a greater say in the management of their own lives, it is recognised that there may be circumstances where individuals wish to continue to serve with their operational unit for personal or professional reasons, but in doing so would increase their SS days and breach their 660/3 threshold thereby reducing their availability for deployment.

b. The SS Voluntary Waiver Scheme is designed to allow individuals to declare that they are prepared to breach their Harmony threshold of 660/3 and continue to serve at sea or away from their base port/unit rather than be landed to drive down their SS balance. A voluntary waiver of SS is, therefore, an individual’s acceptance that they are willing to breach the 660/3 threshold in order to remain at sea or be away from base port and will have the assurance that their actual SS record accurately reflects their time served away from base port/unit. To achieve this when a voluntary waiver is submitted and approved normal SS recording must take place in accordance with the guidelines in Section 5, above, for the period of the voluntary waiver.

c. For the purposes of managing the individual the voluntary waiver request form needs to be retained by the EWO to provide an audit trail and evidence that the individual has agreed to breach 660/3.

d. All personnel involved in considering applications for voluntary waivers must be confident the applicant is a ‘volunteer’ and that no perception develops that agreeing to a waiver will help an individual’s career whilst not agreeing to one will have a negative impact on their prospects.

---

7 Harmony is defined as “The freedom to enjoy leisure at the normal place of duty or residence at place of work, which includes leave.”
On submitting a voluntary waiver application, the following conditions must be met. Only an individual can request a voluntary waiver, which must be for a specific purpose and for a limited time. EWOs should discuss the options of managing an individual’s SS when it is apparent that the 660/3 threshold will be breached e.g. during a forthcoming deployment.

The waiver is voluntary, and no individual is to be placed under pressure to request a waiver.

The individual must formally request a voluntary waiver by submitting Annex 26F through the DEPCO, DO, Unit HR, EWO and, to ensure management visibility, this should be approved by the following as a minimum, the XO/HOD (for FF/DD), CO (for MM/PP), SPLOT/SOBS (for FAA Squadrons) or Company Commander (for RM).

When considering whether to approve a voluntary waiver of SS, Line Managers should consider the following factors:

1. Is a waiver required or can operational imperatives be met within 660/3?
2. Quality and appropriateness of work in the ‘separated’ location.
3. Effect on peer group within the unit (duty rosters and career development etc.).
4. Travel & Subsistence implications and affordability within the unit travel budget.
5. The local CMC perspective with respect to employment of ‘pinch point’ cadres.
6. The procedure for Squadded personnel requesting to work in an AFCO (see Para 2629 sub para b).

Routines to be followed for Recording Voluntary Waivers

The outcome of the request for a voluntary waiver is to be formally recorded on JPA, by Unit HR in accordance with JPA Business Process Guides, and a hard copy of the completed waiver request form (Annex 26F) is to be retained by the EWO or DEPCO for a period of 4 years and an e-mail sent to NAVY PERS-CNPS EMPLOYMT POL CPO with the Name, Rank, Service Number, Waiver Dates (start/stop) of the individual and estimated SS total at waiver end date. To ensure there is an adequate audit trail, a checklist and the routines to be followed when applying for and recording a voluntary waiver are at Annex 26G and Annex 26H respectively.
b. Should Squad personnel request employment in an AFCO, the EWO/SMC/COXN is to liaise with the CMC who will seek approval. The EWO/SMC/COXN should not liaise directly with CNR or AFCOs to arrange JR employment. There is no requirement to request a SS waiver as SS will not accrue providing the individual has volunteered for this employment and the SS Reason field is left ‘blank’.

c. It is important that Unit HR have a reliable Bring Up (BU) system in place to ensure that appropriate JPA action is taken to stop the waiver on the end date noted on the Request Form for a Voluntary Waiver.

d. In normal circumstances, the 660/3 threshold will not be breached, however, it is accepted that there may be occasions when it could be necessary to deliberately breach the 660/3 limit, generally for exceptional operational and resource reasons:

(1) In times of significant war fighting.

(2) To preserve unit Operational Capability.

In such circumstances, when all management processes have been exhausted (i.e. consultation with CMs, rotation or risk of taking a gap) and a solution has not been found, including individuals not electing to submit a voluntary waiver, then an application to breach an individual’s SS threshold must be made by the CO (having consulted the relevant OF5 Flotilla Commander, or equivalent) to DACOS Career Management; to be raised with CNPers as required. If the application is supported, NAVY PERS-CNPS EMPLOYMT POL SO1/CPO is to be informed.
SECTION 7 – SEPARATED SERVICE PLANNING TOOL

2631. Introduction

a. These instructions give the policy guidance for the use of the Separated Service Planning Tool (SSPT); including fault reporting, training, assurance and the change process.

b. SSPT, in addition to providing units with a powerful manpower planning tool to manage Separated Service, also has functionality with which to manage Leave, Accommodation, Watch & Station Bills and Course Booking.

2632. Ownership

CNPers has overall responsibility for the use of SSPT across the Naval Service; however, policy guidance lies with CNPS EMPLOYMT POL SO1. Figure 1 provides a graphical representation of the additional areas of responsibility.

Figure 26-1 – SSPT Responsibility Owners

2633. Overview

To enable the full functionality of SSPT to be captured, the following areas of policy are included at Annex 26J:

- Generic Terms of Reference.
- Generic Hierarchical Structures.
- User Definition and Functionality.
- SSPT Course Booking Request Process.
- SSPT Activity Definitions.
- SSPT Assurance Check-List.
- SSPT Fault Resolution and Ownership.
2634. Direction & Guidance to Users

a. **Individual Plans.** Personnel assigned to the unit should reflect the Ship’s plan and where the individual’s plan varies from that of the Ship this must be annotated on the Individual’s Gant Chart.

b. **“WMO for Employment” Tick-box.** When populating personnel activity, unit planners (DepCos and EWOs) are to tick the ‘WMO for Employment’ box when the individual is to be employed by the WMO (Temporary Employment Cell (TEC)). Ticking this box automatically populates the “Shore/WMO Employment” Report.

c. **SSPT Live / Mobile.** Units alongside for periods of time greater than 8 weeks can request, via their respective FEWO/COXN to have their SSPT data transferred to the Live system in order to utilise SSPT Live. Before returning to Sea, units are to return to SSPT Mobile by contacting their respective FEWO/COXN before physically starting the process on the server to allow DBS Technical Support time to check and setup the transfer at DBS. Users are reminded they are not to contact DBS direct with SSPT problems.

2635. User Guide

The SSPT User Guide has the answer to most questions raised by users and can be accessed from the help menu located on the main SSPT interface. It provides comprehensive, step by step instructions and is illustrated with full colour screen shots. The guidance available includes:

- Characteristics, set-up and use of the planning tool.
- Course booking function.
- Accommodation management function.
- WMO(TEC) employment function.
- Watchbill function.
- Generation of reports using the report wizard.

2636. Training

a. **DEPCOs, EWOs, EWO(A)s and MM/PP Cox’ns** will receive training at the RNLA as part of their attendance on the relevant Coordinators Management Course. Unit EWOs are to provide training for Commanding Officers, Heads of Departments, Divisional Officers and Divisional Senior Ratings using the onboard facility.

b. The SSPT suite at the RNLA is available for use by EWOs and other users to conduct SSPT training. The RNLA EWO has limited spare capacity to deliver additional user training but, when not in use, the SSPT Classroom will be made available as a resource for EWOs to deliver their own SSPT training. The RNLA EWO is the training lead for SSPT and is the point of contact for SSPT classroom bookings.
2637. **Assurance**

a. CNPers retains the overall responsibility for SSPT assurance. To assist the assurance process, the following audits are to be conducted:

- Flotilla EWO - annually.
- FOST - during OST.
- CNPers ManOps - during Unit Manpower Checks (UMCs).

b. Audits are to ensure that relevant ToRs are in place for the key users of SSPT, that SSPT use is in accordance with BR3 and that data recorded in SSPT is relevant and correct. Guidance on conduct of SSPT audits is included in Annex 26J and feedback is to be provided to NAVY PERS-CNPS EMPLOYMT POL CPO.

2638. **Development Process**

The BIS Req Team manages the overall development process with inputs from the user community to be provided via the SSPT Users Working Group; to be chaired by NAVY PERS-CNPS EMPLOYMT POL SO1 on a bi-annual basis.

2639. **Fault Reporting**

SSPT Users should initially refer any fault to the EWO/COXN for resolution. Faults that cannot be resolved at Unit level are to be raised in accordance with Annex 26J.

2640. **Requests for Installation Media**

SSPT software should be requested from NAVY PERS-PPLAN BIS REQ SPTOR7.
SECTION 8 – CAREER INTERMISSIONS

2641. Introduction

a. These instructions give guidance to Naval Service personnel with regard to Career Intermissions (CI). They detail the single Service process for delivering the CI policy set out in JSP 760 Chapter 18 which should be read in conjunction with these instructions.

b. A period of unpaid absence exceeding three months in length is defined as a ‘Career Intermission’; ‘unpaid leave’ of 93 days or less may be awarded by Commanding Officers provided that they can be accommodated within an individual’s current assignment and without relief.

c. CIs are not a right and can only be approved where manning margins allow and where they do not compromise operational effectiveness.

d. It is essential for personnel at junior levels to undertake a number of jobs, primarily at sea, in order to consolidate their training and develop their general skills so as to be effective members of the Naval Service (NS). To this end, officers and ratings/other ranks must, except in exceptional circumstances at the discretion of the Service, have completed a minimum period of service following completion of initial training (i.e. the end of professional training for officers; the end of initial training for ratings/other ranks) in order to be considered for a CI. Likewise, to avoid a reduction in the employability and deployability of personnel, individuals are normally restricted to a maximum of 3 CIs during their career and subject to an aggregated total length of 3 years.

2642. Eligibility

a. In order to be eligible for a CI, applicants must satisfy all of the following conditions:

   (1) Must have completed at least 3 years’ service after completion of initial training (i.e. at least 3 years after joining the trained strength).

   (2) Must have sufficient time left to serve on return from a CI that is equal to or greater than the length of the CI itself (but see Para b sub para (1) below).

   (3) Must not be serving a Return of Service (RoS) for a FRI or training undertaken since joining the trained strength.

   (4) Must not have submitted their notice to leave the Service.

   (5) Must not be subject to disciplinary investigation or action.

---

8 JSP 760 Para 17.001.
(6) Must not be subject to formal warning or administrative investigation that might lead to administrative action or discharge.

(7) If attendance at the Naval Service Medical Board of Survey (NSMBOS) and Naval Service Medical Employability Board (NSMEB) is imminent, a CI application should be deferred until after such a referral has been made.

(8) Must not be intending to undertake civilian employment that falls outside the regulations in BR2 (QRRN), such as a retained fireman or a member of any constabulary.

b. Individuals must be wholly aware of the effects that a period of absence from paid service will have on their career and should consult widely, including with their Career Manager (CM), to fully understand the effects of taking a CI, prior to applying, as their original Terms and Conditions of Service (TCOS) will change as a result of being on a CI. Full details of the likely impact on individuals’ TCOS (including pay and allowances, leave, accommodation, medical/dental care and travel) are contained in Annexes A and B to JSP 760 Chapter 18 and include the following:

(1) **Reckonable Service.** Although an unpaid CB counts towards a fixed-term commission/engagement/career it is not reckonable for pay or pension purposes. As a result, individuals may request a delay in their exit date that enables them to complete the same period of reckonable service towards their pension entitlement that their pre-CI Terms of Service (ToS) provided, if they so wish. It should be noted, however, that there may be exceptional reasons why this request may not be possible and individuals should engage early with CMs to establish their individual situation.

(2) **Return of Service (ROS).** If, exceptionally, individuals are awarded a CI despite having an outstanding ROS, time spent on a CI will not count towards the ROS period. Individuals will be required to complete the outstanding ROS liability, which will be ‘frozen’ for the duration of a CI, on returning to paid service.

c. **Career Compression.** The loss of career development opportunities that might be caused by a CI and the suspension of seniority may set individuals behind their peers with whom they joined the Service.

d. **Career Progression.** Time spent on a CI does not count towards seniority. Promotion is therefore likely to be delayed by a period of time equivalent to the length of the CI. However, individuals who are eligible to be considered for promotion will continue to be considered at promotion boards held during the period of the CI. In the Officer Corps, if selected for promotion whilst on a CI, the date of promotion will become effective either from the published date of promotion or the date on which individuals return to paid service, whichever date is later. Similar action will be taken for individuals eligible for consideration for transfer to longer commissions. For Ratings’ promotions, refer to Chapter 67 and Chapter 68.
e. **Redundancy.** Personnel on CIs will be eligible for selection for redundancy in the same manner as others of their rank and branch. Those selected for redundancy will have the same exit date as others, irrespective of the date they were due to return to service.

2643. **Applications**

All individuals who wish to apply for a CI should submit an application Annex C to Chap 18 JSP 760 to their Commanding Officer at least 5 months\(^9\) before the requested start date of the CI, thereby allowing adequate time for the application to be processed and for appropriate assignment action to be taken on behalf of the individual and their relief.

2644. **Processing the Career Intermission Application**

a. On receipt of a CI application, the Commanding Officer is to complete Part 3 of the application form, giving his/her recommendation, notification of any compassionate or other leave already taken, the date by which a relief will be required and confirmation that the application is not made for the purpose of removing the individual as a result of misconduct. The completed form should be forwarded to NCHQ (for attention of the Terms of Service (TOS) Manager).

b. Once received in NCHQ, the TOS Manager will take ownership of the process and ensure that the application is logged and distributed as required for consideration by the Naval Service Flexible Employment Board\(^{10}\) (NSFEB) in accordance with the process at Annex 26L.

2645. **Naval Service Flexible Employment Board (NSFEB)**

a. The NSFEB will usually review CI requests ‘Out of Committee’; however it will convene for more complicated cases or during times of increased volumes of applications. A decision will normally be made within 30 working days of receipt of a CI request and a letter will be sent to the applicant’s CO informing them of the Board’s decision:

1. If the application is approved, the letter will include details of the changes to individuals’ TCOS that will apply as a result of the CI. Individuals will be required to confirm their acceptance of these changes in writing before commencing the CI. Following written acceptance by the applicant, the CM will assign the individual to MTM NELSON MA11 UNPAID LEAVE for the duration of the CI.

   **Note.** All approved CBs must be assigned to NELSON in order that correct action is taken to suspend pay and allowances).

\(^9\) Assignment notice required to provide a SR relief Shore to Sea is 5 months. Exceptionally, applications submitted at shorter notice will be considered on a case-by-case basis.

\(^{10}\) The NSFEB comprises, when necessary, the SO2 ToS, DACOS Pers Cwk, DNLS EMPL LAW SO1, the relevant Career Manager/Requirements Manager and CNPS PPOL DACOS.
(2) If the application is not approved, the letter will explain why it was unsuccessful. In the event that an individual wishes to complain about the rejection of their application, they should submit a Service Complaint. 

b. The award of a CI is not guaranteed. The current and future needs of the Naval Service will always be taken into account and applications will be approved/refused on a case-by-case basis taking into account manning margins, operational capability and the principles detailed above.

2646. Early Termination of a Career Intermission
In the normal course of events, a CI will terminate at the end of the agreed period, but the CM or individual may wish to end the arrangement earlier. Procedures for the premature termination of a CI are:

a. **At the Instigation of the Career Manager.** If CNPers needs to terminate a CI, individuals will, where possible, be given 5 months’ notice. Exceptionally, where overwhelming Service reasons dictate, the notice period may be reduced to meet the needs of the Service. This reflects the fact that individuals on a CI remain members of the Armed Forces and thus are liable to meet operational contingencies.

b. **At the Instigation of Individual.** Individuals who wish to terminate a CI may apply to do so at any time but will need to give a minimum notice period of 5 months to allow for administrative and assignment action. If an earlier return to paid service is requested, the CM will endeavour to accommodate the request but no guarantees can be given.

2647. Assignment following a Career Intermission
In order to allow sufficient time for normal career management procedures and principles to apply, individuals on a CI should notify their CM of their assignment preferences and, if necessary, attend a career interview at least 9 months prior to returning to duty. If the CI is for a period of less than 9 months, this action should take place prior to the start of the CI.

2648. Notification of Pregnancy during a Career Intermission
Servicewomen who become pregnant during a CI should follow the procedures set out in current Service Maternity Policy; rules for maternity leave prevail over those for a CI. Individuals should inform their CM of their pregnancy by the 15th week before the Expected Week of Childbirth (EWC) and state the date of the EWC and the intended start date of Maternity Leave (ML). If eligible under the current maternity regulations, Servicewomen will be transferred to Paid Maternity Leave on the date they wish Ordinary Maternity Leave to commence. Since ML and CI are deemed to run concurrently, the return to work date (for those who take this option) will not be extended beyond the last day of a CI unless there is a period of ML left to run. In that case, the return to work date will be the last day of ML (unless individuals opt to return to work sooner). Servicewomen who give birth whilst on a CI may postpone the RoS required by the Armed Forces Occupational Maternity Scheme until their return to work at the end of the CI.

---

11 In accordance with JSP 831 (Redress of Individual Grievances: Service Complaints).
12 DIN 2011DIN01-115: Revised Maternity Policy for Servicewomen in the Regular Armed Forces.
2649. **Submission of Notice Option during a Career Intermission**

Assuming no outstanding ROS commitment, individuals may give notice to leave the Service whilst serving on a CI. In such cases, they will be subject to the normal 12 month notice rule. The length of a CI will not necessarily be shortened because individuals give notice since the notice period can be served concurrently with time spent on a CI. However, depending on the needs of the Service, those who give notice with less than 12 months of their CI remaining could be required to return to service for part of the notice period. Conversely, if there was no requirement for an individual to return, early release may be approved if requested. Each case will be judged on its merits. Guidance on eligibility to Resettlement Training and Terminal Leave can be found in JSP 534 and JSP 760.
## ANNEX 26A

**SEPARATED SERVICE – REPORT OF ABSENCE FROM PLACE OF DUTY**

<table>
<thead>
<tr>
<th>Rank/Rate</th>
<th>Surname &amp; Initials</th>

ANNEX 26F

REQUEST FORM FOR VOLUNTARY WAIVER OF SEPARATED SERVICE

All Sections MUST be completed

SECTION 1 (to be completed by the individual)

Name  ..............................................................................................................
Rate/Rank  ..........................Service No  ..............................................

Unit Name........................................................................................................

Reason for Voluntary Waiver (VW): (Tick appropriate box)

A.  □ To remain with parent unit for service away from base port/area, e.g. deployment
   (BRd 3 Chapter 26 2638 refers).

B.  □ Other (explain)..............................................................................................

Specify the start and end dates intended for the waiver:

Start Date  .................. End Date.......................................................

Applicant’s Signature  .............................. Date  ..............................

SECTION 2  (to be completed by the DEPCO/Manpower Controller (MM/PP/FAA)/Troop
Sgt (RM)

The following are the SS figures for this individual:

Actual SS at start of VW period .......... Forecast SS at end of VW Period ..........

Tick the box below to confirm that where applicable, the local CMC/temporary line manager
during the VW period has been contacted and agreed to provide gainful employment.

□ POC Name  .............................. Tel No  ..............................

Note. DEPCOs are to ensure that all programmed ALA is taken during the annual cycle and not carried over to the following year.
SECTION 3 (to be completed by the Divisional Officer/Troop Commander)

I recommend that the above named rating’s/RMORs request for a VW of SS be approved.

Signed ……………………Name……………………….. Rate/Rank ……………………..

SECTION 4 (to be completed by Unit HR)

In liaison with the DEPCO it is confirmed that the above named rating/RMOR has all periods of leave taken or programmed to be taken in the course of the annual cycle.

I confirm that Travel & Subsistence implications have been considered including whether there is a Service requirement.

Specify Service Requirement (if applicable)………………………………………………...

Signed…………………Name…..…………………..Rate/Rank…………Date……………………

SECTION 5 (for endorsement by EWO/Manpower Controllers (MM/PP/FAA)/CSM (RM)

I confirm that I have checked the validity of this request and therefore endorse it.

Signed ……………………Name………………………..Rate/Rank…………Date…………………

SECTION 6 (to be completed by CO/XO/Sqn CO (for MM/PP/FAA)

Having taken into account the guidance in BRd 3 Chapter 26 the above named rating’s/RMORs request for a voluntary waiver is (tick as applicable)

☐ APPROVED

☐ REJECTED

Signed ……………………Name………………………..Rank……………………Date…………………

SECTION 7 (ACTION FOR UNIT (to be carried out by Unit HR))

1. Record of Individual, Service Number, and duration of waiver to be recorded and maintained in UPO within the Unit HR Supervisor’s Log.

2. Unit HR to ensure that the VW is stopped on JPA at the end of the VW period.

3. Original to be retained by the EWO for a minimum of 4 years.

4. EWO to E-mail NAVY PERS-CNPS EMPLOYMT POL CPO with: Name, Rank, Service Number and Waiver Dates (start/stop).
### ANNEX 26G

**CHECKLIST FOR APPROVAL OF VOLUNTARY WAIVER**

<table>
<thead>
<tr>
<th></th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Individual has completed Section One of Request Form in sufficient detail</td>
</tr>
<tr>
<td>2</td>
<td>Individual has taken all leave or is programmed to take all leave in the course of the leave year</td>
</tr>
<tr>
<td>3</td>
<td>Quality of work elsewhere has been assessed as satisfactory</td>
</tr>
<tr>
<td>4</td>
<td>TDT&amp;S implications have been considered. Is there a Service requirement and entitlement to TDT&amp;S?</td>
</tr>
<tr>
<td>5</td>
<td>CMC/WOMC (for MM/PPs)/NPT(RM) for RM have been contacted to ensure individual's request is viable and/or practical.</td>
</tr>
<tr>
<td>6</td>
<td>Effect on other members of Ship’s Company/Squadron/Cdo has been considered</td>
</tr>
<tr>
<td>7</td>
<td>Completed original Request Form retained by EWO (to be retained for a minimum of 4 years).</td>
</tr>
<tr>
