ANNEX 26I

AWARD AND RECORDING OF RELOCATION LEAVE, AUTHORISED ABSENCE (AA) AND INDIVIDUAL LEAVE ALLOWANCE (ILA) BETWEEN ASSIGNMENTS

Reference:
A. JSP 760 - Regulations for Leave & Other Types of Absence – Chapter 8

1. **Aim**
   The aim of this Annex is to clarify the process of authorising, and subsequent recording, of Relocation Leave (RL), Authorised Absence (AA) and Individual Leave Allowance (ILA) between assignments.

2. **Introduction**
   It is the individual’s responsibility to ensure that all periods of absence, including those between assignments, are recorded on JPA. The tri-service policy on the allocation of RL is at Reference A and this Annex is issued to clarify the Naval Service policy for the award and recording of RL and any additional AA and ILA taken between assignments. This policy came into effect on 1 Apr 2012.

3. **Policy**
   RL is a period of authorised absence granted to Service personnel assigned between locations on non-operational normal tours of duty necessitating a change of accommodation, to facilitate the settling in/relocation process for themselves and for their dependants. It is in addition to, and not a substitute for, Annual Leave. All additional periods of absence taken between assignments, i.e. AA and ILA, are to be recorded on JPA.

4. **Qualifying Move**
   Normal moves are those resulting from an assignment order normally necessitating a change of SFA, SLA, substitute equivalents, Residence at Work Address or Selected Place of Residence.

5. **Allocation**
   Career Managers (CM) are to authorise RL in accordance with the direction given at Reference A where possible. The award of RL, AA and ILA between assignments is subject to the requirement and exigencies of the Naval Service and can only be authorised by the CM after consultation with discharging and receiving units, taking into account personal circumstances and the type of move wherever possible.

---

1 A ‘normal tour of duty’ is defined as a permanent assignment in accordance with JSP 752 Art 01.0205. Temporary Assignments (any period of duty away from the permanent duty unit, of less than 183 days) do not qualify as a ‘normal tour of duty’ and therefore are ineligible for RL.
6. Recording

a. Any RL or AA granted by the CM is to be annotated on the Permanent Assignment Order (AO) e.g. Relocation Leave 1 Day, Authorised Absence 1 Day. Any additional periods of absence between assignments will be taken automatically from the Individual Leave Allowance in the following order of priority:

   (1) Post Operational Leave
   (2) Seagoer’s Leave
   (3) Annual leave Allowance

b. Once the AO has been issued, Unit HR Admin staff will credit the requisite RL or AA on JPA (in accordance with Reference A and the JPA Business Process Guide). As the Service Person approaches their assignment date they are to apply for RL/AA/ILA on JPA through JPA Self Service (create a separate absence request using the Absence Type ‘Relocation’, ‘Authorised Absence’ or ‘Individual Leave Allowance’). This process will enable RL/AA/ILA to be captured on JPA.

7. Clarification

All periods of absence are to be recorded on JPA and full details on RL, AA and ILA can be found in JSP 760. Further clarification in the application of RL can be sought from individual CMs. Policy enquiries should be directed to the NAVY PERS-CNPS EMPLOYMT POL desk.
ANNEX 26J

SEPARATED SERVICE PLANNING TOOL - POLICY

1. Generic Terms of Reference
   Terms of Reference for the key SSPT Users are detailed below; they are intentionally
generic, and should be locally modified to meet the needs of the individual unit.

2. EWO

Primary and Secondary Purposes:

a. To manage the Ship’s Company to meet operational requirements utilising SSPT
to monitor individual personal harmony, training and development; liaising with CMC
and Flotilla Staffs as appropriate.

b. To be a member of the SSPT User Working Group.

Principal Tasks:

a. To be the unit Administrator for SSPT and have EWO User access as described
at the “SSPT User Role vs Functional Matrix” below.

b. Approve all DEPCO raised activities on SSPT.

c. To conduct onboard SSPT training for Commanding Officers, Heads Of
Department, Divisional Officers and Divisional Senior Ratings.

d. To act as a single point of contact with NAVY PERS-CNPS EMPLOYMT POL
CPO/SO1 providing any onboard feedback on SSPT and utilising the SSPT Change
process to raise any issues found onboard with SSPT.

e. To endorse and retain hard copies of personal plans for all short term landed
personnel.

f. To oversee and manage the Separated Service Waiver process. Ensure that the
Ship’s Office and NCHQ are informed of personnel who sign a waiver and the dates
that this waiver is in force. To check that personnel who sign waivers are documented
correctly within the JPA Unit Separated Service Report and that is distributed to the
Command by the Ships Office on a monthly basis.
3. **EWO(A)**

**Primary Purpose:**
To assist the EWO in all aspects of his/her duties, in managing the Ship’s Company to meet operational requirements utilising SSPT to monitor individual personal harmony, training, and development; liaising with CMC and Flotilla Staffs as appropriate.

**Principal Tasks:**

a. To carry out the principal tasks of the EWO in their absence.

b. To be a Unit Administrator and have EWO(A) User access as described at the “SSPT User Role vs Functional Matrix” below.

c. To manage the allocation of accommodation utilising the facilities available within SSPT.

d. To act as the Ship’s Watch and Station Bill Manager, utilising SSPT in its production.

4. **DEPCO**

**Primary Purpose:**
To manage the departmental manpower to meet operational manpower requirements utilising SSPT to monitor individual personal harmony, training and development.

**Principal Tasks:**

a. To produce the departmental duty watch and leave requirements.

b. To produce the Departmental Watch and Station Bills and to quality assure the departmental Unit Establishment List.

c. To produce, endorse and retain hard copies of personal plans for short term landed personnel.

5. **DIVISIONAL OFFICER**

**Primary Purpose:**
Responsible for the personal and professional development of all members of their division.

**Principal Tasks:**

a. To utilise SSPT to meet their primary purpose, with DO level of SSPT access.

b. To endorse and retain hard copies of personal plans for all short term landed personnel.
6. CMC/GSP SUPERVISOR/USER

**Primary Purpose:**
Responsible for the personal and professional development of all members of their Career Management plot / GSP.

**Principal Tasks:**
To utilise SSPT to meet their primary purpose, with DO level of SSPT access.

7. FLOTILLA EWO/FASFLOT COXN

**Primary and Secondary Purposes:**

a. To ensure correct use of the Ship’s Company in order to ensure operational requirements are being met and individual personal harmony, training and development are being managed.

b. To be the Flotilla SSPT fault resolution lead.

c. To be a member of the SSPT User Working Group.

**Principal Tasks:**

a. To carry out audits of individual units SSPT records, iaw this chapter, within their areas of responsibility.

b. To be a Central Administrator for their Flotilla; assisting with fault resolution as described at Para 7 below.

c. To be the Flotilla SSPT POC for liaising with DBS for transfer to and from SSPT Live and Mobile.

8. CENTRAL ADMINISTRATOR

**Primary and Secondary Purposes:**

a. To run Data Protection Act Prints following Parliamentary request.

b. To set up and configure new WMO organisations if required.

c. To act as a conduit for installation data between requesting unit and the SIO

d. To be a member of the SSPT User Working Group.

**Principal Tasks:**

a. Organisation Control Configuration.

b. Co-ordinate changes to SSPT Reference Data Management, which will be implemented by the DBS Central Administrator only.
9. **Generic Hierarchical Structures**

SSPT has importance beyond the individual unit and it is therefore essential that a coherent structure exists across the Naval Service; the diagrams below provide a generic hierarchical structure for EWOs/Coxswains to follow.

**Figure 26J-1. Generic Hierarchical Structure Surface Ships**

**Figure 26J-2. Generic Hierarchical Structure Submarines**
10. **SSPT User Definition and Functionality**

Access to SSPT functionality varies according to the role of the user as detailed below:

a. **EWO/EWOA**: Senior User within the unit with full visibility across all departments.

b. **FEWO/FASFLOT COXN**: Administrator rights for WMO control and fault resolution.

c. **DEPCO/DEPT CPO**: Responsible for day to day planning of personnel with their allocated departments.

d. **CO/HOD/DO/DIVISIONAL SR**: Read only role limited to persons within his/her Division.

e. **CMC/GSP SUPERVISOR/USER**: Monitor and co-ordinate overall manning and Separated Service requirements across their associated units/GSP; but will not have day to day planning responsibility.

### Table 26J-1. SSPT User Role vs Functional Matrix

| User Role                      | Unit Administrator | Central Administrator | EWO | DepCo | GSP Supervisor | GSP User | WMO RM | Accom Department Mgr | Accom Mgr | Accom View | Assistant Adjutant RM | Company Sgt Major RM | Watch Bill Planner | Watch Bill Mgr | Watch Bill View | Divisional Officer | Unit View | Department View |

### SSPT Activity Definitions

To control the types of activities created, the planning tool uses the list of SSPT activities. In some cases, the use of the activity can appear ambiguous; the table below defines each activity.

| 10  | Are all Separated Service Waivers recorded on JPA. | | |

### 13. Unit Manpower Check.

Whilst checking Separated Service totals ensure that Ship’s Programme is up to date on SSPT. An SSPT Separated Service calculation should be run to show totals on the day of the UMC and also for the end of the deployment (for Pre MASC and Pre Deployment UMCs) or RFSD (for Pre RFSD UMCs). Check that all Separated Service waivers are recorded on JPA.
14. **SSPT Fault Resolution and Ownership**

The responsibilities and process for fault reporting are as follows:

a. By nominating a Fault Resolution Lead to any reported faults, resolution can be achieved in much shorter timelines. It is recommended that this role be assigned to an application user with a vested interest in resolving any issue. The suggested owner should be the Unit Administrator as they will have the correct roles within SSPT to resolve most minor issues users will encounter; they will also have a better understanding of the system due to deeper SSPT technical knowledge than an SSPT user.

b. Unit Administrators (EWOs) are strongly encouraged to adopt best practice by allocating the Unit Administrator Role to at least one additional user within their organisation. This will ensure that full unit management functionality exists, should the EWO be absent from the unit or in the event that the primary Unit Administrator account becomes locked.

15. **Reporting of Faults**

a. In any occurrence where the origin of any fault cannot be readily identified or resolved at Unit level, the respective EWO/COXN is to raise the fault in the manner stated below. Due to the nature of the application being used at present on two different server setups (Non-DII and DII(F)) there are two different methods of reporting faults. The following reporting methods are available:

b. For non-DII fitted units, SSPT related issues are raised and reported to either of the respective FEWOs or FASFLOT COXN who will then, on the Unit’s behalf, contact JPAC Helpdesk, providing as much evidence of the issue as possible, including screenshots and error codes where necessary to aid in fault resolution. JPAC will then issue a reference number.

c. For DII fitted units, any issues with the functional working of SSPT are to be raised to either of the respective FEWO or FASFLOT COXN who will then, on the Unit’s behalf, contact JPAC Helpdesk, providing as much evidence of the issue as possible, including screenshots and error codes where necessary to aid in fault resolution. For technical issues with SSPT, issues are to be reported to Atlas-DSMT. ATLAS will issue a CASD Number.

d. It is essential when raising fault reports that a comprehensive technical description is provided to the Helpdesk in the first instance as the resolution team does not use the SSPT programme.
16. Management of Faults

a. Once a fault has been submitted, the Fault Resolution Lead can request update reports from either support Agency. In the case of Non-DII SSPT problems, the JPAC Helpdesk is the focal point for communication stating the reference number. SPVA Technical Support may contact you for further information, but the Helpdesk must remain the point of contact for the issue and any updates. For DII SSPT issues, contact details of the particular Agent who has been assigned the fault can be obtained through the Helpdesk, to allow a more detailed discussion. Again, SPVA Technical Support may contact you for further information.

b. In the event that any fault is allowed to persist without progress towards a solution, further assistance can be obtained by liaison with the respective FEWO/FASFLG COXN, who will liaise with the JPAC Helpdesk on the Unit’s behalf to provide feedback of any progress towards a technical solution that has been made and pass on updates as required.

17. SSPT - Main Faults

a. The tables below show the main basic faults that occur within SSPT on both the mobile and live versions. It is worthy of note that faults are far easier to resolve on the live version as the respective FEWO/COXN can carry out fault rectification more often than not with their enhanced User Administrator rights. This is not the case with regard to SSPT mobile, as the SSPT database sits on the Unit’s individual server and, for this reason alone, it is imperative that mobile units maintain the correct level of security with regard to Unit Administrator password.

b. Unit Administrators (EWOs) are strongly encouraged to adopt best practice by allocating the Unit Administrator Role to at least one additional user within their organisation. This will ensure that full unit management functionality exists, should the EWO be absent from the unit or in the event that the primary Unit Administrator account becomes locked.

18. Outstanding Technical Issues

There remain a number of interface errors that currently affect SSPT and the information it presents. Currently these errors include:

a. When a course is deleted in JPA, the instance remains in SSPT and is not deleted. As a result this remains visible and requests can be made to book personnel onto a non-existent course.

b. When block bookings are made in JPA, the details are not passed from JPA into SSPT, consequently the course details may still show available places where there are actually none available.

c. There are two methods that allow course competency prerequisites to be input into JPA, only one of these methods updates SSPT. This means that when attempting to book personnel on courses who do not have the required competency, this will not set off the warning flag.
d. The leave outstanding balance as displayed in SSPT is incorrect. Any individual leave balance in JPA is a sum of a static total and not a dynamically calculated total. SSPT only displays the static total.

e. These issues are faults that are hard wired into the JPA/SSPT interface and any fix will require a change in JPA to pass the necessary data across. Any potential fix is not likely to occur in the short term. While this remains less than ideal, it has been recognised and included in the JPA interfaces error project.
OFFICIAL – SENSITIVE PERSONAL (WHEN COMPLETED)

ANNEX 26K

APPLICATION FOR CAREER INTERMISSION – RN/RM PERSONNEL

PART 1 – INDIVIDUAL’S APPLICATION

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

In accordance with JSP 760 Chapter 18, I wish to apply for a Career Intermission (CI). I have discussed the implications of such a CI with my Divisional Officer/Commanding Officer and Career Manager. I understand that:

- I remain a serving member of the Royal Navy/Royal Marines under the Armed Forces Act and may be recalled to Service at any time.
- I might not be assigned back to my current unit or post.
- For the period of the CI I am not entitled to Service pay or the majority of allowances.
- My Terms of Service will be changed during my CI.
- I understand that, if I wish to take up employment whilst on my CI, I must seek permission in accordance with QRRN.

<table>

<td>Delete as applicable YES/NO</td>
</tr>
</tbody>
</table>
Reason/s for requesting a Career Break: (attach a letter addressed to the Commanding Officer if space is insufficient or if preferred)

Personal and Professional Benefit of CI:

Is your application dependent on another person’s successful application eg. spouse/civil partner – if so who and why?

Is your application time critical?

I confirm that I meet all the requirements of JSP 760 Chapter 18 and will inform my Commanding Officer if my application for a Career Break should subsequently become invalid by my failing to continue to meet the requirements.

I understand that if I wish to take up any employment whilst on my CB, I must seek permission directly from Navy Command HQ (NAVY LEGAL-CASEWORK D2) prior to commencing employment

Applicant’s Signature: ____________________________ Date: ____________________________
## PART 2 - CONFIRMATION OF REQUIRED CRITERIA

Delete as appropriate to confirm whether or not the applicant fulfils the criteria, if not give details:

<table>

ANNEX 26L

CAREER BREAK APPROVALS PROCESS

1. Process
In order to ensure that all Career Break (CB) requests are handled consistently and efficiently within NCHQ, the following process is to be followed.

   a. All applications for a CB are to be forwarded to the NCHQ TOS Manager to NAVY PERS-CNPS TERMS OR SO3C for Ratings’ applications or NAVY PERS-CNPS TERMS OF SO3C for Officers’ applications (the address is at the bottom of the application form).

   b. CB applications will be logged and forwarded to the appropriate NPTL, CNPS PPLAN R/O SO1, RM and CM for comment and recommendation.

   c. Applications will be forwarded to NAVY LEGAL-CASEWORK D2 where requests are made to undertake any employment during the CB.

   d. Applications will be forwarded to NAVY LEGAL-EMPLOYMENT LAW SO1 where requests require employment law scrutiny.

   e. Applications will be submitted to NAVY PERS-CNPS COS for approval (either out of committee or as part of the Naval Service Flexible Employment Board (NSFEB)).

   f. TOS Manager will inform the individual’s CO of the decision (normally within 30 days of receipt of application) and include revised TACOS, where applicable. Should the application fail, full details of the decision will be given.

2. Acceptance
If the application is approved, the individual will be required to confirm acceptance of the revised TACOS before commencing the CB.

3. Assignment
Following written acceptance by the applicant, the CM will assign to MTM NELSON MA11 UNPAID LEAVE for the duration of the CB.

CHAPTER 27
PAY & ALLOWANCES, PENSIONS & TERMINAL GRANTS

SECTION 1 – PAY AND ALLOWANCES

2701. General

a. The aim of this Chapter is to provide a basic explanation of some of the key aspects of pay, allowances and pension schemes in order that each individual member of the Naval Service can take greater responsibility for their personal administration, and for Divisional Officers, in particular, to be able to counsel Ratings/Other Ranks. This applies particularly in non-self accounting ships or on those occasions when it is not convenient to seek immediate and detailed information from Unit Personnel Offices. However this is merely a guide. When checking or confirming entitlement or eligibility, for example when considering Continuity of Education Allowance (CEA), personnel must always consult the relevant and up-to-date tri-Service regulations.

b. The MOD Web contains the information on military pay and allowances, and also access to the most up-to-date rules in JSP 754 Tri-Service Regulations for Pay and Charges and JSP 752 Tri-Service Regulations for Allowances. The allowances provided for in JSP 752 apply to Regular and Reserve personnel (with the exception of non-mobilised Reserves who are only entitled to travel and subsistence allowances when required to attend training) unless otherwise indicated. Full details of the various allowance entitlements on mobilisation of Reserve personnel can be found in Chapter 5 of JSP 753 Tri-Service Regulations for the Mobilisation of Reserves. Key reference documents can be found at http://defenceintranet.diif.r.mil.uk/Personnel/Military/Remuneration/Pages/Remuneration.aspx. RNCOM, accessed via the internet, also offers assistance: www.rncom.mod.uk (follow link to Pay/Allowances/Pensions).

c. The Armed Forces Pay Review Body (AFPRB) is responsible for recommending the pay rates for Officers and Ratings/Other Ranks. Most personnel will receive 2 pay increases each year, one on 1 April to reflect the annual pay award, and the second on the anniversary of their promotion to their current Rank/Rate, known as a Yearly Incremental Progression (YIP). Pay will also rise on promotion.

2702. Maritime Reserves

Naval pay and allowances policy generally applies to Maritime Reserves but includes some additional stipulations; see the relevant articles in JSP 752 and JSP 754 and in BRd 3(2) Paras 0206 and 0207.
2703. **Key Features**
The main features of Pay are:

a. **Comparability.** (See JSP 754 Part 1 Chap 2.) The basic principle is that the package of Service pay and charges must be fair when compared to those applying to civilian occupations. In order to determine levels of pay within the military salary, the Job Evaluation (JE) mechanism is used and it is this information plus the job scores derived through the JE of civilian jobs that the AFPRB uses when it is assessing pay comparability. This ensures that when the AFPRB makes its recommendations on basic pay, it does so such that pay is maintained at levels broadly comparable with those received by civilians doing jobs of a similar size and job evaluated weight.

b. **X-Factor.** (See JSP 754 Part 1 Chap 2.) The X-Factor is intended to reflect the differences between conditions of service experienced by members of the Armed Forces and conditions in civilian life, which cannot be taken directly into account in assessing pay comparability. The balance of advantage and disadvantage is averaged across a career and across the Services and is assessed against a broad range of criteria: danger; turbulence; spouse/partner employment; separation; job security; hours of work; stress, personal relationships and impact of the job; leave; training, education, adventure training and personal development; promotion and early responsibility; autonomy, management control and flexibility; individual, Trade Union and collective rights and travel to work. The X-Factor is applied as an enhancement to Basic Pay at rates currently ranging from 3 to 14.5% dependent on the nature and conditions of service. Rates are typically reviewed by the AFPRB every 5 years; the next review will be in 2017/18.

c. **Pay Ranges.** (See JSP 754 Part 1 Chap 1.) For Ratings/Other Ranks, pay is a single pay spine with four Additional Pensionable Supplements. Trades are allocated to one of the Supplements depending on the results of the Job Evaluation process, and the formulation of a Through Career Whole Trade Score. Officers are also on a single pay spine and certain trades and cadre are on Bespoke Pay Spines.

d. **Satisfactory Performance Incremental Progression.** (See JSP 754 Part 2 Chap 2 Section 4/5.) Progression within a rank is normally on an annual basis, known within JPA as Yearly Incremental Progression (YIP). It is dependent upon satisfactory performance, experience and the attainment of qualifications. However, progression may be suspended if a satisfactory level of performance is not attained.

e. **Accelerated Incremental Progression (AIP).** (See JSP 754 Part 1 Chap 1 Section 8 Ann C.) With effect from 31 Dec 15 entitlement to AIPs has been withdrawn. Reserved Rights will exist for those eligible up to 31 Dec 18, further details are available at the reference.

f. **Pay on Promotion.** (See JSP 754 Part 2 Chap 2 Sect 6.) All personnel will receive a minimum 2% increase on their current rate of pay, rounded up to the nearest incremental level in the appropriate new pay range when promoted. A 5% increase will be awarded to personnel on promotion to PO/Sgt, those commissioned from the ranks and those promoted to OF3 from the OCFR Pay Spine.
g. Payment for Food and Accommodation. The AFPRB reviews and sets charges for food and accommodation on an annual basis. The following is an outline of how charges are set:

(1) Food Charge. (See JSP 754 Part 2 Chap 7 Sect 2.) A single Daily Food Charge (DFC)/Pay As You Dine (PAYD) Core Menu charge was introduced in Apr 08. Service Food Charges are recommended by the Armed Forces Pay Review Body (AFPRB) and promulgated annually by Hd, Rem in a Directed Letter. The Daily Food Charge (DFC) recommended by the AFPRB is also used as the basis for the cost of the ‘Core Menu’ in Catering Retail and Leisure/Pay As You Dine (CRL/PAYD) outlets and the Entitled Casual Meal Charge (ECMC). There is only one category of food charge; namely the DFC. The DFC is applied on all non CRL/PAYD units and some CRL/PAYD units; specifically Phase 1 training units. In CRL/PAYD units personnel simply pay at the point of sale for the meal they wish to consume. An explanation of the entitlement to be fed at Crown expense i.e. guard duty, on exercise etc. is provided in JSP 456 Vol 4.

(2) Single Living Accommodation/Service Family Accommodation/Abatement. With effect from Oct 15 all accommodation entitlement has been transferred to JSP 464 Volume 3 and is covered in BRd 3(1) Chapter 25.

2704. Additional Pay

Different types of additional pay are as follows:

a. Recruitment and Retention Payment (RRP). (See JSP 754 Part 2 Chap 5.) RRP is targeted at areas where there are particular difficulties in recruiting and retention and can be paid on a Continuous Career Basis (CCB), Non-Continuous Basis (NCB) or Completion of Task Basis (CTB), depending on the cadre. RRP may start, increase, decrease or cease according to prevailing recruiting and retention conditions. When personnel submit their notice to leave the Service early (PVR), RRP ceases to reflect that the retention aspect of RRP has failed. RRP rates are set annually by the AFPRB. RRP of a CCB nature attracts a Reserve Band for those who cease to be employed in a RRP or RRP-Related post. The Reserve Band is paid at 100% of the value of the RRP level for 2 years and at 50% of the value for one year before ceasing.

b. Compensatory Allowances (CA). (See JSP 752.) CA include allowances which are used to make up for any extra hardship that Service personnel may face during their duty (e.g. Unpleasant Working Allowance (UWA), Unpleasant Living Allowance (ULA) - both Operational and Sea, Longer Separation Allowance (LSA) or Northern Ireland Resident’s Supplement (NIRS)). The AFPRB set these rates annually.

c. Retention Payments. (See JSP 754 Part 2 Chap 6). These consist predominantly of Commitment Bonuses (CB) and Financial Incentives.
(1) With effect from 1 Apr 16 Commitment Bonuses were withdrawn for new joiners; Transitional Protection is available and is detailed at the reference.

(2) Financial incentive schemes for recruitment and retention take the form of, but are not limited to, Financial Retention Incentives (FRIs), Golden Hellos (GH), Rejoining Bounties, Transfer Bounties and Recruit Bounty schemes. They are introduced as a short-term measure on a tri-Service and/or single-Service basis in order to target specific current or projected manning shortfalls, particularly in essential specialisations such as Operational Pinch Point trades. FRIs may be approved by the Second Sea Lord (up to: 2 year window, £20k per person, and £3m spend per FY) or the AFPRB for more expensive or longer enduring FRIs. The approval route for an FI is to Navy Pers-PPA in the first instance for onward transmission to single Service Pay Colonels, NCHQ and MoD centre staffs. FIs are subject to tax and NI contributions and will carry a RoS commitment. Additional information on FRIs is available in JSP 754, Part 2 Chapter 6, Section 1 while a list of extant schemes are publicised in DINs and RNTMs. Staffing instructions for the creation and management of FRIs is located at Annex 27A and Annex 27B.

2705. Minimum Drawing Rate (MDR)

a. This is the rate at which no further deductions should be made from an individual’s pay subject to JSP 754 Part 2 Chapter 1 Para 02.0405. It is a mechanism that should avoid personnel receiving zero pay and claiming financial hardship.

b. The MDR is set at 50% of net pay. It is calculated from gross pay (including Recruitment and Retention Pay and X-Factor) minus Income Tax, National Insurance (this includes Statutory Adoption and Maternity Pay if being paid at the time).

c. Items to be included in the MDR calculations are known as the ‘Order of March’ and include:

(1) Child Support Agency (CSA) payments;

(2) Court Order payments;

(3) Advance of Pay;

(4) Taxable over-issues of pay and allowances;

(5) Non taxable over-issues of pay and allowances;

(6) Undercharges;
(7) Miscellaneous Debts;

(8) Long Service Advance of Pay (LSAP) or FHTB Scheme.

(9) Military Fines and Compensation Orders.

d. However, Voluntary deductions are non-MDR items and may breach the MDR.

2706. Recovery of Debt

a. There is a mechanism for recovering items from a Service individual's pay account, which all personnel need to be aware of. As a general guide, pay will be recovered in the following circumstances:

(1) An over-issue of Pay has been made;

(2) A Service individual has been under charged;

(3) A Fine, Stoppage or Penal deduction has been awarded Summarily or by Court Martial;

(4) An individual is the subject of a Judgement Debt Order;

(5) A Civil Court asks for assistance in recovering a Fine from an individual;

(6) An Order for a Maintenance Deduction is made against an individual;

(7) An individual is liable for Barrack Damages;

(8) An individual has received an Advance of Pay;

(9) An individual has received a LSAP or FHTB Scheme.

(10) An individual has received an Early Payment in Cash.

b. Recovery periods in respect of debt are set out in JSP 754 Part 2 Chapter 1 Section 6. (Different rules apply for sub paras (8) - (10) above; see JSP 754 Part 1 Chapter 1 Section 5, JSP 752 Chapter 2 Section 4 and JSP 754 Part 2 Chapter 1 Section 1 respectively.)

c. Hardship Cases. In exceptional cases individuals may have the recovery of pay period extended up to 12 months. Any applications for extensions to recovery periods must be sent to DBS(UKVETS)(G) Recoveries and Write-Offs (R&WO) using the Objection Against Recovery or Request Non-Standard Repayment form set out in JSP 754 Part 2 Chapter 1 Section 6 Appendix 1.

2707. Maintenance of Spouses/Civil Partners and Children

See Chapter 21 Section 7.
SECTION 2 - PENSIONS AND TERMINAL BENEFITS

2708. Armed Forces Pension Schemes (AFPS 75, 05, 15 and Reserve Forces Pension Schemes (FTRS 97 and RFPS 05))

a. AFPS 75, 05 and 15 for Regular Forces, and FTRS 97 and RFPS05 for Reserves are integral and vitally important aspects of the overall remuneration package. This section provides links to the suite of documents for each of the pension schemes. With the introduction of the AFPS 15 on 1 Apr 15 all Service Personnel (Regular and Reserves) will transfer into the new Scheme unless they have Transitional Protection, i.e. for those in Regular service who were 45 years old or above on 1 Apr 12; for Reserves the age was 50. Those transitioning into the AFPS 15 will have service under a legacy scheme and AFPS 15 and must ensure that they qualify for payment points under both schemes if they are to receive the full financial benefit for the service they have given.

b. Links to the relevant Pension Schemes are at:

1. AFPS 75.
   http://defenceintranet.diif.r.mil.uk/Personnel/Military/Remuneration/Pages/ArmedForcesPensionScheme1975(AFPS75).aspx

2. AFPS 05.
   http://defenceintranet.diif.r.mil.uk/Personnel/Military/Remuneration/Pages/ArmedForcesPensionScheme2005(AFPS2005).aspx

3. AFPS 15.
   http://defenceintranet.diif.r.mil.uk/Personnel/Military/Remuneration/Pages/FutureArmedForcesPensionScheme(FAFPS).aspx

4. FTRS 97.
   http://defenceintranet.diif.r.mil.uk/Personnel/Military/Remuneration/Pages/FullTimeReserveServicePensionScheme1997(FTRSPS97).aspx

5. RFPS 05.
   http://defenceintranet.diif.r.mil.uk/Personnel/Military/Remuneration/Pages/ReserveForcesPensionScheme2005.aspx

2709. Non-Reckonable Service

Ratings/ORs who are being released on completion of their service and have incurred some non-reckonable periods eg. Detention, Civil Power, Unpaid Leave, etc. must re-engage to complete their full service in order to be eligible to receive a pension. It is important to ensure that ratings/ORs’ correct terminal dates are checked within 12 months of Discharge and those affected be allowed to re-engage to complete time for pension.

2710. Applications for Pensions and Terminal Grants

Personnel will receive Pension application forms in their Service Leaver’s Pack which must be completed prior to retirement or discharge. Towards the end of terminal leave, DBS(UKVETS) (Pensions Division) will inform Service Leavers of their pension/Early Departure Payment/terminal grant entitlement.
2711. Payment of Terminal Grant

This is made by Vets UK (Pensions Division) within 30 days following the final date. Terminal grants are tax free. Payment of pensions will be made as follows:

a. **For Residents in the UK.** By payment to Bank/Building Society by MOD’s appointed Paymaster. A form for the pensioner to complete will be sent with the letter giving pension details.

b. **For Pensioners Intending to Reside Abroad.** Either:

   (1) Payable to a bank/Building Society in the UK; or
   (2) Payable to a bank abroad; or
   (3) By sterling payable order.

2712. Resettlement Grants

Both officers and ratings who leave the service without entitlement to an immediate Service pension may, subject to satisfactory service, be awarded a tax free Resettlement Grant.

a. **AFPS 75**

   (1) **Officers:** Resettlement Grant payable after 9 years reckonable service from age 21.

   (2) **Ratings/ORs:** Resettlement Grant payable after 12 years reckonable service from age 18.

b. **AFPS 05.** For both Officers and Ratings, a Resettlement Grant is payable after 12 years reckonable service.

c. **AFPS 15.** For both Officers and Ratings, a Resettlement Grant is payable after 12 years reckonable service.

2713. Voluntary Release

Divisional Officers should ensure that ratings giving 12 months' notice are aware that at least 12 years' reckonable service must be completed before a Resettlement Grant is payable. This is particularly important when release dates become marginal for the purpose of Resettlement Grants.
2714. Liability for Income Tax

a. **Pensions in Payment.** Pensions, as earned income, are liable to Income Tax and the amount should be declared on the annual Income Tax Return. Income Tax can be deducted from pay or applied direct to the pension, depending on the circumstances and as decided by HM Revenue & Customs (HMRC). If the pensioner takes up residence abroad, there may well be a 'double taxation' in force which any UK Tax Liability can be offset in whole or part against liability in the country of adoption. The pensioner must arrange this direct with the taxation authorities.

b. **Annual Allowance (AA).** The introduction (2006) and reduction (2010 and 2014) in the Annual Allowance (the year on year increase in pension entitlement for which Tax Relief is allowed) is a consideration primarily for OF4 levels and above (albeit it may affect those promoted OF3 to OF4), whose increase in pension, typically on promotion, may exceed the tax threshold. Members of UK pension schemes are permitted to increase the value of their pension pot by up to £40k per annum; the pension pot being derived from an actuarial valuation of through-life worth. Unused AA from up to 3 previous years may also be used to mitigate the tax liability on any excess above the AA threshold. The effects of the reduction in AA will first be seen following Tax Return evaluations for 2014/15. In the 2012 Autumn statement the chancellor further reduced the Annual Allowance from tax year 2014/15 to £40,000.

c. **Life Time Allowance (LTA).** Separately from AA, very senior officers are subject to the LTA which restricts the total value of personal pensions (£1.5M) before additional tax liability is incurred. This limit reduced on 6 Apr 14 to £1.25m and will reduce on 6 Apr 16 to £1m. Officers who have pension pots in excess of the value of the reduced rate of LTA on the date the change comes into force will be entitled to Individual Protection (IP). IP14 details are on the Gov.uk website and the details for the IP in 2016 are yet to be set by the Government.

2715. Pension Payment Date

Pensions are paid monthly in arrears.

2716. Pension Increases

A Service Pension/EDP is not index linked until age 55 but at that age it is restored to the purchasing power which it had on first award - by the application of previous retail price pension increases - and is then maintained at that value by increases applied in April each year. Invaliding and attributable pensions and all survivors’ pensions are index linked from the date of award.

2717. MoD Compensation Schemes

From Dec 14 advice for compensation from death or injury while serving in the Armed Forces, irrespective of the compensation scheme to be claimed under, is contained in JSP 765. Further detail can be accessed from, http://defenceintranet.diif.r.mil.uk/Reference/DINsJSPs/Pages/JSP765.aspx
ANNEX 27A

IMPLEMENTATION OF FRIs

FRI Requirement identified

AFPRB FRI or PPO FRI?

Business Case compiled by ACOS PCAP and sent to NPS-PPA2

Proposal forwarded to Hd Rem, sS PCs, NCHQ RP, PM & DBS

Proposal forwarded to 2SL for final approval

AFPRB

PPO

DIN written by ACOS PCAP & forwarded to NPS-PPA2

DIN approved and FRI promulgated by ACOS PCAP

FRI to be subject to ongoing 6-monthly assessment

Proposal forwarded to Hd Rem for AFPRB Approval

AFPRB approval forwarded to PPA via Hd Rem
ANNEX 27B

FRI RETURN TO NAVY NPS-PPA 2

1. Upon raising an FRI Paper of Evidence, Branch Managers (BM) will be sent an FRI reporting tool in the form of an Excel spreadsheet for them to initiate the six-monthly returns process. The information which they will provide at the FRI initiation will establish the baseline for measuring the success of the FRI. The completed FRI will subsequently cover the following periods:

   a. 1 Mar to 31 Aug, to be forwarded by end Sep, and
   b. 1 Sep to 28 Feb, to be forwarded by end Mar.

2. The purpose of the return is to ensure information and data, as required by the Centre, is readily available to facilitate decisions on the continuation, extension, or increase in an FRI, as well as on the assessment of future FRIs and to establish commonalities across tri-service FRIs.

3. Further details on the completion of the return are available from Navy NPS-PPA 2. While the quantitative data is essential for audit purposes and further understanding of FRIs and their intended impact, BMs are encouraged to make full use of the comments boxes to provide the full and pertinent quantitative and qualitative information.

CHAPTER 28
MEDICAL AND DENTAL CARE

2801. Introduction
The Defence Medical Services (DMS)\(^1\) will provide healthcare, medical operational capability and health advice to maximise the fighting power of the Armed Forces. The mission flows directly from the Defence Plan through to the Service Personnel Plan. The DMS Strategic Plan includes performance indicators such as the numbers of service personnel medically and dentally fit for deployment and for the provision and/or delivery of primary, intermediate and secondary healthcare appropriate to the environment where personnel are serving.

2802. Medical Force Generation
The Royal Navy Medical Services (RNMS) are directed (under Personnel Functional Standards (PFS)) to ensure that the maximum numbers of personnel are fit for task. Joint Medical Employment Standards (JM ES)\(^2\) codes are used to define the medical employment standard appropriate to an individual’s medical fitness and enable the communication of the necessary information to the employer (Career Managers, Chain of Command) without any breach of medical confidentiality. They ensure that the individual is appropriately employed without unnecessarily endangering their own health or that of others\(^3\). To allow appropriate assigning, Career Managers are provided with an individual serviceperson’s JM ES through JPA.

2803. References
a. BR 1991 (Instructions for the Royal Naval Medical Service)\(^4\) and BR 1750A (Handbook of Naval Medical Standards)\(^5\) are the primary references for Naval policy and organisation of Medical and Dental Care. They also contain the procedures and standards for the provision of medical and dental care to entitled personnel.

b. **Maritime Reserves.** See BRd 3(2)\(^6\) (Chapter 18 Full Time Reserve Service - Paras 1821-1825; Chapter 19 Additional Duties Commitments (Part-Time Reserve Service) - Paras 1924-1927; Chapter 20 Naval Careers Service\(^7\) - Para 2015-2019 for medical administration of Maritime Reserves

28-2 of 8
February 2020 Version 1
2804. **Naval Service Medical Board of Survey and Naval Service Medical Employability Board**

Whilst short term changes to medical grading and work limitations are made at Unit level, the assessment of long-term fitness for further service and long-term restrictions on work ability is conducted in a two-stage process. This involves referral either to a Regional Occupational Health Consultant (ROHC)\(^9\) or the Naval Service Medical Board of Survey (NSMBOS) who give a medical recommendation on fitness in the form of a Joint Medical Employment Standard (JMES). This recommendation is then considered by the Naval Service Medical Employability Board (NSMEB), on behalf of the Naval Service as the employer, and a decision taken as to whether the Service person can continue to be successfully employed within the JMES awarded. Details of the function and processes of the Boards are in BR 1991 Chapter 8\(^10\).

2805. **Provision of Medical Care**

In partnership with others\(^11\), the RNMS will provide high quality healthcare to support force generation and maintain the health of the Naval Service.

a. In the firm base, Primary Healthcare (General Practice, Mental Health, Occupational Health, Public Health and Defence Rehabilitation) is provided to entitled personnel, by Defence Primary Health Care (DPHC) to a standard equal to that of UK civilian best practice. The RNMS retains responsibility for provision of primary healthcare and occupational health to deployed Naval Service, RFA, Royal Naval Reserve\(^12\) and other personnel subject to eligibility\(^13\).

b. Access to timely Secondary Healthcare in the UK at least equivalent to that provided by the National Health Service (NHS).

c. All Naval personnel are directed to carry a valid European Health Insurance Card (EHIC)\(^14\) and strongly advised to hold appropriate travel insurance when travelling anywhere at their own expense or for non-Service reasons.

d. The management of some chronic conditions could be compromised by an assignment overseas. Before deploying overseas, the assigned Service Person is to make a declaration concerning the health of their dependants. All long term medical conditions are to be declared in accordance with single Service procedures in order to allow the receiving theatre to make an informed decision as to whether a chronic condition can be appropriately managed. Where a condition cannot be managed, a decision then has to be made, by the assigning authority, as to whether the assignment can go ahead (Chapter 59 Annex 59C refers\(^15\)).

2806. **Provision of Dental Care**  
Dental Care is provided by the Defence Primary Healthcare dental services to entitled personnel to a level at least equivalent to that of the NHS.

2807. **Medical Information – Disclosure to Command**

a. All health or other personal information received by Service and civilian medical personnel acting in that capacity from, or in relation to a patient, is to be treated as confidential, and medical personnel have a legal as well as an ethical duty to comply with Caldicott Policy\(^1\). The duty of confidentiality is also described in guidance from the relevant professional bodies (eg. GMC\(^\text{19}\), GDC\(^\text{20}\), NMC\(^\text{21}\), HCPC\(^\text{22}\), GPhC\(^\text{23}\)). This guidance is to be followed by Service and civilian medical personnel at all times.

b. Except in limited circumstances, disclosure of personal medical information is contrary to the law and to the public interest. Loss of confidence by personnel in the confidentiality of their healthcare may result in medical conditions being concealed, with consequent risks to Unit safety and operational effectiveness.

c. Personal medical information may only be disclosed as follows:

(1) With the individual’s valid consent;

(2) Where required under the law\(^9\);

(3) Where substantial public interest demands disclosure without consent, particularly protection of:

(a) The operational capability (OC) of the Unit;

(b) Safety of other Unit personnel.

d. Disclosures made for OC or safety reasons must only be made directly to the Commanding Officer (CO).

e. Information disclosed to the CO is to be limited to that which is required for the protection of OC or the safety of Unit personnel\(^16\).

f. The CO must respect the confidential nature of all information disclosed, and must only communicate as much detail to other personnel as required to deliver essential purposes of protecting OC or the safety of Unit personnel.

\(^6\) [http://www.hcpc-uk.co.uk/](http://www.hcpc-uk.co.uk/)

\(^7\) [https://www.pharmacyregulation.org/](https://www.pharmacyregulation.org/)

---
The individual must be informed of the content of all disclosures of their personal medical information to Command, preferably prior to disclosure but in any event at the earliest reasonable opportunity. This decision/encounter must also be documented within the medical record.

Private medical information is not to be used to instigate disciplinary proceedings other than in exceptional circumstances with the advice of Navy Command HQ Legal Services.

Specific Instances

(1) **Drug and Alcohol Misuse.** When drug or alcohol misuse is disclosed during a clinical consultation, this information must only be disclosed to Command if the nature of the misuse threatens harm to other members of the Unit or to OC. Medical personnel must report drug and alcohol misuse when they become aware of such misuse outside of their medical capacity. An example of such a threat would be a pilot who proposed to fly an aircraft while intoxicated.

(2) **Post-Coital Contraception.** Requests by personnel for post-coital contraception whilst operational must not be disclosed outside the consultation without the consent of the individual.

2808. **Adventurous Training and Sports**

Military personnel undertaking correctly staffed and officially sanctioned Adventure Training (AT) and sports are entitled to medical care at public expense. However, in some countries where such activities take place, the civil health infrastructure cannot provide a suitable level of care. Private medical facilities that can provide the required level of care might be available but proof of ability to pay is often required before treatment commences. Military teams venturing overseas are strongly advised to take out private medical insurance - refer to the most current DIN - Insurance for Adventurous Training Activities. In addition, military personnel under an Individual Recovery Plan (IRP) are to engage with their Medical Officer to discuss the AT activities in which they are planning to engage, in order that the MO may make an assessment of the appropriateness of those activities with respect to the medical condition for which they are downgraded.

2809. **Reserves**

For members of the Reserve component of the Armed Forces undertaking officially sanctioned military activity, be it sporting, adventurous training or military training, medical support is provided at public expense up to the point where the individual is fit to be discharged home to the care of their own GP. However, long term health care is not provided by MoD to manage the consequences of injury or illness sustained by members of the Reserve component unless sustained whilst mobilised for operations: that responsibility lies with the NHS. Refer to JSP 753 (Tri Service Regulations for the Mobilisation of Reserves).

---

2810. Medical Welfare

a. The patient’s chain of command is expected to be fully engaged in the needs of the Service person undergoing hospital care with regard to:

1. Welfare needs assessment;
2. Response to requests for welfare support;
3. Emotional and practical support;
4. Liaison and referral to other agencies as appropriate.

b. Arrangements are in place in the form of Unit Liaison Officers for linkage between single Service Welfare organisations (RNRMW\textsuperscript{26}, AWS\textsuperscript{27}, RAF\textsuperscript{28} and SSAFA\textsuperscript{29}) (see Chapter 24).

2811. Dangerously Ill Forwarding of Relatives (DILFOR)

DILFOR is an allowance designed to help ease the emotional and financial burden of close family members of a serviceperson who is unexpectedly admitted to hospital. DILFOR is available to provide travel and subsistence to enable family members to visit the Service person. Details of DILFOR are contained in Chapter 7 of JSP 751 (Joint Casualty and Compassionate Policy and Procedures)\textsuperscript{30}. To be entitled to DILFOR the patient must have a recommendation from the medical authority concerned that states that a visit from close family members would be in the best interest of the patient’s recovery.

2812. Long Term Sickness

Each Service has in place comprehensive long-term sickness management policies that ensure that Service personnel who are long term sick are properly tracked managed and supported. Further information relating to Long Term Sickness can be found at Chapter 33\textsuperscript{26} (Recovery Pathway (RN\textsuperscript{31}, Army\textsuperscript{32}, RAF\textsuperscript{33})).

2813. Defence Mental Health Services

a. Service personnel who develop a mental health disorder may require specialist assessment and management. In the UK, DPHC deliver the Defence Mental Health Service (DMHS) which operates through a network of Departments of Community Mental Health (DCMH). Detailed guidance on the provision and management of the DMHS is contained in JSP 950 2-7-2\textsuperscript{34}.

b. Each Base-port area has a DCMH to which Unit Medical Officers or Civilian Medical Practitioners can refer Service personnel. JSP 950 2-7-2\textsuperscript{35} Section 4 details the care pathway and referral processes.

c. In some circumstances it will be appropriate to accompany a DCMH referral with an FMed1041 Occupational Report. JSP 950 1-2-4\textsuperscript{36} details the appropriate guidance with a template of the report at Annex A for completion.

d. RN operational mental health support is embedded within the Primary Care Receiving Facility and Commando Forward Surgical Group provision.

e. Specific guidance on the RN management of deliberate self-harm is located at Chapter 24 Annex 24D\textsuperscript{37}.

b. The Equality Act 2010 does not allow discrimination against personnel on the grounds of HIV status. Personnel who are HIV positive will - at all times - be dealt with in accordance with the principles of medical confidentiality. Only Medical Branch staff and, where appropriate, the CO will be made aware of the status of such individuals.

c. Personnel becoming HIV positive in service will be medically graded by a NSMBOS. Subsequent assigning decisions will be made by a NSMEB on the basis of this medical employment standard. Such decisions will take account of the individual merits of each case, and will incorporate guidance upon the duties to which these personnel may be allocated.

ANNEX 28A

DOCUMENTATION FOR REFERRAL TO A DEPARTMENT OF COMMUNITY MENTAL HEALTH

1. Initial Referrals to DCMH:
   a. FMed 7 Medical Officer
   b. Completed FMed 1041 CO/DO
   c. Annual Appraisal Reports DO
   d. Any other documentation, including SiB or Welfare Reports, which may have a bearing of the case.

2. Basic Alcohol Tool (BAT)
   Individuals can self-refer to a BAT, or be referred by the Executive, MO or a member of the DCMH clinical team.

3. Interim Review at DCMH or Alcohol Unit
   An FMed 1041 if requested specifically by DCMH.

4. Emergencies
   In case of an emergency referral or admission, an FMed 1041 should be forwarded as soon as possible.

5. Failure to Provide
   In the absence of appropriate documentation, appointments may be delayed and reports to Unit Medical Officers or Commanding Officers may be incomplete or delayed.

6. DCMH Contact Details:

CHAPTER 29
PHYSICAL DEVELOPMENT (PDev)

POINT OF CONTACT - PART 5

SECTION 1 - GENERAL

2901 Introduction
Armed conflict, at its most extreme, is characterised by intense, extensive and sustained combat. Even routine Naval activities in peacetime can place considerable physical and mental demands on personnel. Therefore, Naval personnel must be physically fit and robust enough to withstand the rigours of Service life whether at war or in peace. PDev plays a crucial role in this process and is instrumental to developing a range of appropriate attributes for Naval personnel. It also plays an important part in the maintenance of morale which, amongst the ten principles of war, is considered the single most important critical success factor across the spectrum of conflict, including military activities in peace\(^1\). The delivery of individuals who are mentally and physically robust with a war-fighting spirit and who understand how the physical, mental and emotional components impact on military effect, contributes significantly to the development and sustainment of the Moral Component of Operational Capability. PDev is the cornerstone that provides a 'Winning Spirit' comprising self-confidence, leadership, teamwork, robustness, grit and the will to win.

2902 PDev Strategy and Policy
Captain People Support is the OF5 lead for PDev Strategy and Policy and is also the Head of the PT Specialisation. Working through the Head Naval People Strategy (NPS) to the Assistant Chief of Naval Staff (Personnel) (ACNS(Pers)), Capt People Support is responsible for the governance and delivery of SQEP PTIs, Physical Education (including the promotion of Healthy Lifestyle), Adventurous Training and access to sport. Day to day desk level activity for the development, implementation and assessment of PDev policy is delegated to three SO1s, each responsible for the pillars outlined below:

a. Physical Education (PEd) -
   SO1 PDEV (Tel: 9380 28030, email: navynps-peoplesptcotempedso1@mod.gov.uk).

b. Naval Service Adventurous Training - SO1 AT (Tel: 9380 28035, email: navynps-peoplesptatso1@mod.gov.uk).

c. Sport - SO1 NS (Tel: 9380 28034, email: navynps-peoplesptnavysportso1@mod.gov.uk).

---
\(^1\) British Defence Doctrine Annex A (JWP 0-01)
SECTION 2 – PILLARS OF PHYSICAL DEVELOPMENT

2903. Pillars of Physical Development

There are three pillars of Physical Development: Physical Education (PEd), Adventurous Training (AT) and Sport. Singularly, the pillars are valuable; taken as a whole their impact is invaluable. The collective outcome of Physical Development programmes and opportunities is to develop the ability to respond instantly and effectively to the physical and psychological demands of operations and be able to maintain that response over prolonged periods. The PDev Mission is therefore:

*To provide accessible support services that strengthen and enhance the resilience and resourcefulness of NS personnel, their families and communities.*

The BR providing detailed instructions and guidance for PDev is BR 51.

2904. Physical Education (PEd)

a. PEd includes Executive Health and RNFT, both of which address the core requirement for physical fitness by promoting a life-long exercise habit and healthy lifestyle, underlining the importance of these in a Naval context. Its purpose is to enable personnel to withstand the physical rigours of Service life and imbue them with a winning war-fighting spirit. The main reference is BR 51, the Physical Training Handbook, which although primarily a book of reference for the PT Specialisation, is also of general interest and use to all those concerned in any way with physical training, physical fitness and recreational training in the Royal Navy. RNFT policy and guidance is detailed in Chapter 29 Section 3. RNFT Policy is delivered by RNFTO (Tel: 9380 28021, email: navynps-peoplesptrnftpol@mod.gov.uk).

b. Executive Health in this instance refers to the non-clinical aspects of Health Promotion and the decision making process associated with the maintenance of a healthy lifestyle. The aim of Executive Health is to increase resilience, reduce the incidence of musculo-skeletal injury and ultimately maximise Naval Service Personnel capability. The Naval Health and Wellbeing Committee (NHWC), chaired by Capt People Support, has the policy lead for the Naval Service and links together the PDev, Executive, Medical and the PT departments. The NHWC is responsible for supporting the development and implementation of the Naval Health and Wellbeing Plan (NHWP). The NHWP includes five objectives that are based around each life-stage of Naval People, and are summarised as: Join Well, Train Well, Work Well, Live Well, and Leave Well. To ensure Naval Service targets are met, four working groups sit under the NHWC; Lifestyle, Mental Health, Injury Prevention and Preventive Health. Unit Health Committees have a vital input to the Health and Wellbeing structure of the Naval Service. It is a requirement for all units to have an active UHC that meets on a termly basis with meeting documents sent to SO2 Executive Health. Guidance for Unit Health Committees can be found in BR 51 Volume 2, Chapter 1 or on the NAVYfit Portal (www.royalnavy.mod.uk/sports/physical-education/executive-health/health-and-wellbeing/health-promotion-tools). Executive Health Policy is delivered by SO2 Executive Health (SO2 ExH) (Tel: 9380 28074, email: navynps-peoplesptexhealthso2@mod.gov.uk).
2905. **Adventurous Training (AT)**

a. AT is defined in JSP 419 as “challenging outdoor training for Service personnel in specified adventurous activities, involving controlled exposure to risk, to develop leadership, teamwork, physical fitness, moral and physical courage, among other personal attributes and skills, vital to Operational Capability”. Therefore the importance of participation in AT has been recognised by 2SL who has included it within his Personnel Functional Standards (PFS) as a Cat A mandated requirement. Personnel should be given the opportunity to conduct 5 days of AT per year as a minimum requirement. The activities listed below are recognised as Adventurous Training by the three Services and are the subject of a Joint Service programme to encourage and increase Service participation:

1. Offshore Sailing.
2. Sub Aqua Diving.
3. Canoeing.
4. Caving.
5. Mountaineering.
7. Parachuting.
8. Gliding.
9. Mountain Biking.

b. The RN also has a number of Challenging Activities (CA) which are low level outdoor activities that can be easily accessed and are conducted under similar rules (including duty status) as AT. These are as follows:

1. Low level Trail Cycling.
2. Low level walking on recognised paths.
3. Dinghy Sailing.
4. Stand Up Paddle Boarding.
5. Cycle Touring.

c. BR 51 Volume 3 provides a comprehensive guide for planners and authorisers of all AT/CA activities. AT/CA assurance and the management of the PT(ATI) cadre’s CPD is delivered by SO2 AT, (Tel: 9380 28075/50 or 02392 573075/50, email: navynps-peoplesptatso2@mod.gov.uk).
2906. Sport

Sport in the Naval Service makes a significant contribution to operational effectiveness, fighting spirit and personal development. It is recognised as a feature of the Armed Forces Covenant, and plays an important part in Service life, including recruiting and retention and in many instances provides excellent public visibility of the Services. Thus it has a wide role, but specifically within the envelope of physical development, it contributes to fitness, teamwork, leadership, self-discipline, determination, co-ordination, courage, competitive spirit, individual and collective resilience, and consequently military ethos. Inextricably linked to operational efficiency, authorised sport is a Condition of Service with duty status and is a core activity that cannot be considered discretionary. Sport supports the recovery and rehabilitation of the wounded, injured and sick (WIS). It also provides a balance in the lives of Service personnel from the pressures of military commitments and, during periods of high tempo operations, an invaluable opportunity for decompression. It is to engender all these qualities that public funding and time is made available for Service sport. This Policy applies both to Regular and Reserve Service personnel.

a. Principles. The principles underpinning the Naval Service sport policy are to:

(1) Create an environment which encourages Service personnel, both Regular and Reserve, to participate in a full range of sporting activity, whatever their level of ability.

(2) Provide personnel with time for sport and access to a clearly defined standard of sports facilities and equipment, in order to achieve and maintain fitness, health and wellbeing.

(3) Encourage sporting success at individual, unit and representational level and provide a framework for Service, Inter-Service and Armed Forces sports competitions and representational sporting opportunities.

b. Governance. 2SL provides strategic direction of Naval Sport. Responsibility for Naval Sport policy, higher-level coordination of its resources, both public and non-public, together with promotion and management is exercised by ACNS(Pers), through Chairmanship of the Naval Service Sports Board (NSSB) and subordinate Commanders (Hd NPS and Capt People Support). All RN sports are played in accordance with national governing body rules and RN Sports Associations administer their sport in accordance with Service instructions and any directives from the relevant national governing body. RN Sports Associations are MOD bodies accountable through the chain of command under Para 3. The responsibilities of Commanding Officers for sport are detailed in Queen’s Regulations, Training Directives and Second Sea Lord’s Personnel Functional Standards (see Chapter 22), all of which encourage participation in sport along with the provision of time and public funding. Commanding Officers are responsible for sport within their commands and should authorise activity through Unit Sports Boards and/or through Physical Training staff.

c. Further information. JSP 660 (Sport in the UK Armed Forces) and BR 51 Volume 4 (Sport in the Naval Service) are the books of reference for Naval Sport.
2907. Physical Development Communications

A number of channels of communication have been developed to assist culture change and inform the Naval Service on Physical Development issues and opportunities, as follows:

a. NAVYfit. In 2016 the outward face of RN Physical Development (PDev) was rebranded as NAVYfit to raise awareness of the PDev opportunities available to all NS personnel and provide renewed focus. Note that this only applies to customer-facing activities and documents and ‘Physical Development’ remains the HQ heading.

b. Fit to Fight Magazine. 'Fit to Fight' magazine is an annual publication that acts as a shop window, serving to encourage and promote participation in AT/CAs, sports and activities through the collation of articles and pictures submitted by Service personnel.

c. NAVYfit (formerly PDev) Portal. The NAVYfit Portal is a comprehensive website, accessible through the Defence Gateway, providing a one-stop-shop for contact details, sporting results, news and images for each RN Sports Association (www.royalnavy.mod.uk/sports).

d. Sports Fixtures Calendar. The Sports Fixture calendar is an interactive calendar, providing details of RN sports fixtures, including those authorised for travel at public expense (www.royalnavy.mod.uk/sports/calendar).

e. Social Media. The RN Sport Facebook page provides results, images and details of future sports events.
SECTION 3 – ROYAL NAVAL FITNESS TEST (RNFT)

2908. General
Fitness – physical and mental - is essential to Operational Effectiveness. The Royal Navy Fitness Test (RNFT) provides an indication of an individual’s aerobic fitness in relation to a scientifically derived standard based on generic tasks such as fire fighting and casualty evacuation. Physical strength is assessed using a fire fighting task based simulation; this part of the RNFT is to be taken on completion of the relevant aerobic test. It is an important element of the Physical Development (‘Fit to Fight: Fit for Life’) agenda and the Naval Health and Wellbeing Plan, both of which aim to maximise the number of personnel fit for task. It is the duty of all RN personnel who are not exempt from the test to be in date for RNFT.

2909. Validity
The underlying principle of the fitness testing regime is that personnel should be able to pass the RNFT at any time and not treat it as an annual event. An In Date RNFT is valid until the next test, which must be taken within 12 months of the previous test. The individual is considered to be ‘in date’ if they take and pass the RNFT, hold a valid exemption based on medical, age or location limitations, or take and fail the RNFT and undertake a Remedial Training package (RNFT Remedial Training to be delivered in accordance with RNTM 01 081/17). It is not acceptable to be Out Of Date (OOD) for RNFT. The only recognised official records for an ‘in date’ status are JPA and the RNFT Certificate - locally produced alternatives are not to be used. Inaccurate data will give a false impression of a unit’s overall RNFT performance and may also result in an individual not being presented for consideration for promotion. All RN personnel are personally responsible for ensuring that JPA reflects their individual RNFT competence correctly. The warning system documented in BR 51, Volume 2, Chapter 2 is applicable to all Officers, Senior Ratings and Junior Ratings.

2910. Testing to Age 55

a. The RNFT is also compulsory to all serving RN personnel aged between 50-55. Meanwhile, those in the over 55 age group are encouraged to maintain a lifestyle that includes regular physical activity and to undertake the RNFT voluntarily.

b. All personnel over the age of 40 are strongly advised to undertake the Rockport Walk as this test minimises the risk of musculoskeletal and/or cardiac injury and is configured for heart rate monitoring. Personnel over 40 who regularly undertake rigorous physical exercise and have no medical concerns, may request, as a personal decision, to undertake a maximal test (ie. 2.4km run or MSFT) but must be made fully aware that exercise at high intensities (maximal or close to maximal) particularly in older age groups increases the risk of a cardiovascular event (eg. a dysrhythmia, heart attack or sudden cardiac death) during or immediately after the exercise period. They must ignore peer or management pressure and misguided confidence in deciding to do a maximal test and must declare any doubts over their medical suitability to the PT staff conducting the tests beforehand.

c. Personnel over the age of 50 will not be required to take the strength test element of the RNFT.
2911. **Promotion**

For promotion individuals are required to remain in date for RNFT which now means that the tests should be undertaken at least annually. The key principles are as follows:

a. **Requirement.** JPA recorded RNFT status will not affect an individual’s ability to be selected for transfer or promotion. For promotion or transfer, individuals are required to remain in date for RNFT which now means that the tests should be undertaken at least annually. The results are to be recorded on JPA but a ‘fail’ will no longer restrict an individual from substantive promotion/award of ES, provided they remain engaged with remedial training; this revised RNFT policy will apply equally to the award of Acting Rank/Rate. The individual’s CO is to determine whether there has been sufficient engagement with remedial training, with the usual baseline being an average of 3 periods of training per week or as advised by PT staff. All personnel are to satisfy this RNFT requirement on the Common Promotion Date/Due Date for which selected, or the Due Date for non-selective promotion.

b. **Permanent Exemption.** Permanent exemptions can only be issued by the Naval Service Medical Board of Survey (NSMBOS) and will appear as JMES limitation 8000 or 8001. This must be shown on JPA as an exemption, with the ‘to’ date being the individual’s 55th birthday (or Termination date if later). PT staff are not permitted to input permanent exemptions for RNFT onto JPA. This information must be pulled through from the automatic update that JPA receives from the medical IS.

c. **Pregnancy and Maternity Temporary Exemption.** Servicewomen who are pregnant or on maternity leave on the required Common Reporting Date (CRD) or Streamlined Eligibility Date (SED) will be considered by Selection Boards, whilst those who are pregnant or on maternity leave on the date they are due promotion will be promoted or advanced notwithstanding non-completion of the RNFT. The temporary extension will be annotated on JPA by the unit PT, upon sighting Form 790 issued by the servicewoman’s Medical Officer, and will be calculated to expire 24 months beyond the date of the birth of their child. Any amendment to this date is the responsibility of the individual in consultation with their unit PT.

d. **Medical Temporary Extension.** Temporary RNFT extensions may only be granted by MOs (to cover injuries or medical conditions that would prevent an individual from undertaking their RNFT). These temporary extensions (JMES codes 8201 and 1100) are authorised by Medical Officers for personnel with longer term conditions. After a medical upgrade, further Medical Temporary Extensions may be determined in consultation between MO/CO and unit PT, subject to the previous medical assessment. Medical Officers are empowered to ask an individual to undertake the RNFT as a guide to an individual’s recovery. Should someone fail it under such circumstances it will not be recorded as an RNFT Fail, however, if they were to pass the RNFT as part of their medical rehabilitation assessment and subsequently be medically upgraded, the RNFT pass can be awarded against their competence.
e. **Operational Temporary Extension.** Temporary RNFT extensions may be granted by COs for operational/detachment reasons where an individual, through no fault of their own, has been unable to undertake the RNFT. Extension dates are to be specified and are not normally to exceed 3 months.

f. **Location Temporary Exemption.** A Location Temporary Exemption (LTE) may be granted to personnel who are assigned into Local Foreign Service (LFS) billets where no Tri-Service PT support is provided for RNFT/Royal Marines Basic Fitness Test (RMBFT) – see RNTM 123/15. Personnel may apply for a LTE in accordance with BR 51 Volume 2 Chapter 2 Para 0219.c(6). This is administered and approved only by HMS TEMERAIRE's Royal Navy Fitness Testing Officer (RNFTO) for RN personnel, and CTCRM's AIPTRM for RM personnel. LTEs will be approved only for those who are In-Date RNFT/RMBFT on the date they are due to take up their assignment in accordance with the Assignment Order. Once RNFTO/AIPTRM is satisfied that the person is either in date or has a relevant exemption, they will update JPA with a LTE that will expire at the end of three calendar months after their return to UK (as stated on their Assignment Order).

g. **Eligibility for Promotion.** Service Personnel granted a temporary extension will remain eligible for consideration for selective promotion unless specifically excluded under the terms of the extension.

### 2912. Defence Health Questionnaire

The Defence Health Questionnaire (DHQ) is a basic medical screening aid to identify those who may be potentially at risk, which enables them to seek medical advice on eligibility without sharing confidential medical information with PT or other staff – a copy can be found in BR 51 Volume 2, Chapter 2 - (RNFT Policy, Protocols, Instructions and Guidance). All personnel of 40 years of age or over will be required to complete and sign the DHQ before taking the RNFT. The DHQ is to be retained with the RNFT 5 and handed to the individual once the test has been completed.

### 2913. Weight Management Policy

Preventing and addressing weight management (WM) issues can positively contribute to the morale and effectiveness of the workforce, as well as providing a timely and cost efficient contribution to easing current manpower challenges and enable maximise deployability. The Armed Forces Weight Management Policy (2017DIN01-179), developed as part of the Defence Health Strategy, focuses on three main areas;

a. **Measurement** of body composition for monitoring, and for raising awareness to Service Personnel (SP) of the impact of physical inactivity and poor dietary behaviours on WM.

b. **Prevention** of unhealthy body weight; and

c. **Early Intervention, Effective Management and Support** for SP who demonstrate increased risk of ill-health due to their weight, through a standardised, multi-disciplinary, person-centred, behaviour change Defence Weight Management Service (DWMS), or alternative WM support, as appropriate.
2914. Medical Referral
If there is doubt about an individual’s ability to undertake the RNFT, a medical assessment should be sought. Personnel who fail the RNFT after 3 months of Remedial Training (RT) will automatically be referred for a medical assessment; full details of this process can be found in BR 51 Volume 2 in the flow diagrams at Paras 0228 and 0229.

2915. Documentation
BR 51 Volume 2 - RNFT Policy and Protocols, Instructions and Guidance - contains the following sections:

a. Section 1 – Policy Statement including General Instructions.

b. Section 2 – Instructor Notes including the protocols and procedures for administering the RNFT; RNFT graded performance tables; briefs; recording sheets; Form RNFT 5; Defence Health Questionnaire (DHQ); JPA data input instructions; Command Guidance including Divisional responsibilities; and guidance to MOs.

2916. Testing Staff
Any qualified Tri-Service Physical Trainer (PT) may conduct the RNFT maximal tests. To conduct the Rockport Walk or to carry out the RN Remedial Training package, suitably qualified PT staff must have completed the RNFT Polar Heart Rate Monitor Training at HMS TEMERAIRE. This training is conducted by the Royal Navy Fitness Testing Officer (RNFTO), (Tel: 9380 28021 or email: navynps-peoplespitrnftp@mod.gov.uk).

2917. Command Role

a. Whilst it is an individual responsibility to remain in date for the RNFT, it is the Command’s responsibility to ensure that there is sufficient opportunity and encouragement to do so through regular rigorous physical exercise and good RNFT administration. Regular reviews by the CO of the unit’s RNFT status using the OBIEE JPA tools, supported by strong leadership from Divisional Officers and Senior Rates, will provide the necessary focus on those personnel who fail to remain in date. Such reviews will also ensure that the unit’s programme takes into consideration future opportunity for RNFT testing and identify times such as leave periods when a large number of personnel are likely to fall out of date. Personnel who, after Command intervention, continue to exhibit a recalcitrant attitude to the RNFT should be subject to Minor Administrative Action (MAA), or disciplinary action as appropriate.

b. Commanding Officers are also to ensure that the Discharge Warning Process for RNFT failures, contained in BR 51 Volume 2, Chapter 2 and BRd 3(1) Chapter 54, are properly applied. Failure to allocate a warning at the appropriate time will prolong the discharge process and can be misconstrued as a lack of conviction on the Service’s part to enforce the fitness regime.

Annex 30F  D&I Adviser Interview Guidance
CHAPTER 30
DIVERSITY AND INCLUSION (D&I)

3001. Policy Statement

a. MoD policy is to create a workforce, uniformed and civilian, drawn from the breadth of the society we defend, that gains strength from that society’s range of knowledge, experience and talent and that welcomes, respects and values the unique contribution of every individual. For the Naval Service, including the Royal Marines and the Royal Fleet Auxiliary, to maximise its operational effectiveness it must be able to recruit and retain the best people, enable those people to reach their potential, and create a working environment which ensures that all personnel feel valued, respected and included within their units. Within the Naval Service the focus on diversity has developed from achieving legislative compliance (equality) and responding to external influences such as the Equality and Human Rights Commission to a deeper appreciation of the business and operational benefits of a diverse organisation, an essential mind-set for an inclusive employer.

b. The Naval Service values the diversity of its personnel and is committed to promoting a work culture and environment in which diversity is pursued and highly valued. It encourages people from a wide variety of backgrounds and ethnic origins, and with different perspectives and abilities, to work together to advantage. Good diversity management can help everyone reach their full potential, making them more useful members of their own team and so contribute to achieving greater Operational Effectiveness; every individual has a responsibility for treating others with respect and dignity.

c. The Naval Service is committed to respecting D&I and therefore no unlawful or unfair discrimination, bullying or harassment will be tolerated against any person on the grounds of one or more of the Protected Characteristics (PCs\(^1\)); sex, race, religion or belief, gender reassignment, sexual orientation, marriage or civil partnership, pregnancy and maternity, age and disability. Furthermore, unfair treatment on grounds of gender identity or gender expression is not to be tolerated. All personnel shall have equality of opportunity for employment, training, career management and promotion within their Service on the basis of their ability, performance and aptitude for work. The prevention or resolution of harassment or bullying should never be subordinated to tradition, custom or the apparent maintenance of morale. Examples of unacceptable behaviour which will not be tolerated include:

(1) Unwelcome sexual attention or ‘environmental’ harassment such as the open display of pornographic material.

(2) Being Transphobic such as speculating about someone’s gender (eg. “is that a man or a woman?”)

\(^1\) The Armed Forces have an exemption from complying with employment legislation only with respect to age and disability.
(3) Ridiculing someone (e.g. making fun of the way they look or speak) or insulting them (e.g. on the grounds of sex, gender reassignment, race or ethnic national origin, disability religion or belief, sexual orientation or age, gender identity or gender expression).

(4) Ostracising someone, excluding them from group activities or social events based on a protected characteristic i.e. excluding someone from sporting events because they are gay.

(5) Spreading homophobic or biphobic rumours or gossip (e.g. making unnecessary rude comments, being bi-sexual is a phase) including speculating about someone’s sexual orientation or gender identity or outing them.

d. As well as an overarching policy statement regarding the D&I culture within the MoD and the Naval Service, there are many other Joint and single Service policies designed to improve the overall welfare package and ‘work-life experience’ of personnel that are available within units through their Diversity and Inclusion Adviser (D&I(A)) or administration resources and are accessible either on the MoD Intranet or NCHQ D&I Intranet site. This wide range of policies includes, for example, provision for maternity, paternity, parental and adoption leave; provision for those wishing to embark on fertility treatment; policies to cater for minority faith groups and the establishment of employee support groups for the benefit of minority groupings, for example the Naval Service Lesbian, Gay, Bisexual and Transsexual Network, Naval Servicewomen’s Network, Naval Service Parents Network, Fijian Support Network and the Armed Forces Muslim Association.

3002. Legislation
In addition to the Armed Forces Act 2006 and other employment legislation, the Naval Service adheres to the Equality Act 2010 and the Public Sector Equality Duty. The Armed Forces have an exemption from complying with employment legislation with respect to age and disability. The Armed Forces must, however, apply the exemptions contained in the Equality Act proportionately.

3003. Policy Advice and Guidance

a. This policy is underpinned by the First Sea Lord’s Diversity and Inclusion Directive issued to all Naval Service ships, units and establishments. The Navy Command Headquarters (NCHQ) sponsored booklet “Diversity, Inclusion and You” also contains this Policy and Directive, gives guidance on diversity issues and is issued to all Service personnel, including recruits, on joining.

b. Advice on Naval Service D&I policies and procedures should be sought from the Unit D&I(A) in the first instance. Alternatively, Unit D&I(A)s, those in the Command chain and Line Managers may also seek advice and guidance either from the NCHQ D&I Intranet site or direct from the NCHQ D&I Policy Staff.
3004. Equality Analysis Policy

a. The purpose of Equality Analysis (EA) is to ensure that policy decisions which impact on people do not have intended or unintended detrimental impact on people within Navy Command. This includes all decisions that have the potential to impact on people eg. redundancy, organisational change, site closure/events etc. All decisions are to be subject to EA and are to include this requirement in their project plan or audit process. EA involves using information and engagement with all groups to understand the impact of decisions on the workforce (including contractors and members of the public). Early engagement will reduce the risk of inappropriate decisions being made which may result in re-work, time or cost over-runs.

b. Organisations should consider the principles of EA during their day-to-day business, for example when implementing a Personal Electronic Device policy. Consideration should be given during the planning process to ensure that sensible precautions are taken to avoid inadvertent impact to people under the Equality Act 2010. Guidance on the EA process is at Annex B and advice can be sought from the NCHQ D&I Policy Team. Full details of the process and the template can be found in the MOD Equality Analysis Guidance, which is available on the Navy Command Diversity & Inclusion website.

c. Once an EA has been conducted, the sponsor is required to complete the EA Tracker, through Lime Survey at https://surveys.mod.uk/index.php/558362?lang=en. Ad-hoc Reviews of EA documentation will then be carried out by the D&I Team on a 6-monthly basis.

3005. Training

a. Training to raise D&I awareness is available on line, within formal training courses carried out at establishments and at unit level in the Naval Service by trained D&I(A)s. The MoD policy on Diversity training is given within JSP 898 (Catalogue of Defence Policies with Impact on Training and Education; Part 3 Chapter 6). The four mandated levels of training are:

(1) **Level 1: Core Training.** To be delivered to all members of the Naval Service, whether Regular or Maritime Reserve:

   (a) Within Initial Naval Training (Ratings);

   (b) Within Phase 2 Training if the training pipeline is 2 years or longer.

(2) **Level 2: Advanced Training.** To be delivered to all members of the Naval Service, whether Regular or Maritime Reserve:

   (a) To Officers undergoing Initial Naval Training (Officers);

   (b) At unit level to personnel ranging in rank/rate from AB/Mne to Officers of OF5 rank and including those in Command positions. Advanced level training is to be refreshed every 2 years.
(3) **Level 3 and Level 4.** These levels of D&I training refer to briefings given to Senior Military Officers (1* and above) and MoD Senior Civil Servants, and specialist Diversity training to D&I(A)s and D&I(P)s delivered by the Defence Leadership Centre Delivery Team, Shrivenham.

b. NCHQ D&I Policy Staff have developed 2 packages to reinforce the Training Objectives for Core and Advanced Level D&I Training, which are available via the D&I Policy DefNet site. Approximately 70 minutes should be allocated for the delivery of Core Training at unit level, and 60 minutes for the Advanced Training. Training should be facilitated by qualified and in-date D&I(A)s and supported by unit D&I(P)s.

c. Recognising that units within the Naval Service differ widely in construct and role, delivery of the training packages may be adapted accordingly, and unit-level experience in promoting and managing diversity should be introduced to ensure that the training package bears the ‘unit signature’. However, the quality and content is not to be reduced or compromised and the RN corporate image is to be retained. To maintain audience participation and engagement, it is suggested that optimum numbers should not exceed 25. The subject matter lends itself to discussion, which is incompatible with groups of a larger size. In tri-Service units all Service personnel should undertake their respective single Service training unless the single Service population is too small to make this practical, and there are no other establishments nearby which can combine to create a quorum audience.

d. The completion of Core or Advanced Training is to be recorded by unit administrators on JPA under the relevant Core Military Skill competence: NCT|NCT4 Core Level D&I Training RNRM|Nav, or NCT|NCT4 Advanced Level D&I Training RNRM|Nav

### 3006. Unit Organisation

a. Each unit will have a Command D&I Lead, this is flagged position and generally the second in command of the unit (XO, 2I/C); however in three watch units both the First Lieutenant and Executive Officer positions will be flagged. The Command D&I Lead position requires the D&I(P) qualification. The Command D&I Lead is responsible for the following:

   1. Management and continuation of the regular unit D&I Action Group (DIAG).

   2. In conjunction with the unit D&I(A)s conduct the mandated Naval Service D&I training through a regular training schedule and maintain crew the D&I Naval Core Training qualifications (NCT4).

   3. Ensure the unit remains up to date for all D&I policy.

   4. Organise the unit’s biennial D&I Advisory visit from the Policy team.

   5. Maintenance of links to Defence and Naval Service Networks.
(6) The provision of a wide variety of bespoke training and opportunities for the unit.

(7) Representation of the unit at the annual D&I Policy conference.

(8) Ensure continuity of the unit organisation during handover to relief.

b. Each unit will have one flagged Senior D&I(A) position (EWO, BWO, G1, Cox’n) who is responsible for the unit confidential logs. Both unit D&I (A)s are responsible for supporting the Command D&I Lead with the unit D&I activity and managing all aspects of the unit’s D&I organisation, including the following:

(1) The provision of confidential support and signposting of people.

(2) Holding and maintaining Confidential and Training D&I Logs.

(3) Uploading both formal and informal complaints data to JPA.

(4) Assisting in the management of regular unit D&I Action Group (DIAG) meetings.

(5) Conducting the mandated Naval Service D&I training through a regular training schedule and maintenance of the crew D&I Naval Core Training qualifications (NCT4).

(6) Ensure the unit remains up-to-date for all D&I policy.

(7) Assisting in the organisation and attend the unit’s biennial D&I Advisory visit from the Policy team.

(8) Maintenance of links to Defence and Naval Service Networks.

(9) The provision of a wide variety of bespoke training and opportunities for the unit.

(10) Representing the unit at the annual D&I Policy conference.

(11) Ensuring continuity of the unit D&I logs and organisation during handover to relief.
3007. Diversity and Inclusion Advisers

Careful selection and training of D&I(A)s is key to ensuring a successful and effective D&I organisation within units and will help to maintain and promote a healthy D&I culture across the Naval Service. D&I(A)s support the Command D&I Lead with the unit D&I activity and manage all aspects of the unit's D&I organisation.

a. Role and Selection of Unit D&I(A)s

(1) A conscientious and effective D&I(A) is critical to successful management of D&I, advancing diversity and inclusion in the workplace and is crucial in advising on the harassment or bullying complaints process to both individuals and the Command. In the event of a bullying and harassment complaint being raised, the D&I(A) will act as an impartial adviser, both to the Command and to all parties to a complaint. When acting in such an advisory role, the D&I(A) cannot be utilised as the complaint investigator.

(2) The D&I(A) is also the lead source for D&I information within the unit and delivers Core and Advanced D&I training. D&I is NCT 4 and records should be maintained by the Unit to ensure all personnel are in date as required. The ‘Be The Change’ training package was launched in October 2018 and is available via the D&I Policy DefNet site. D&I(A)s should no longer be using the ‘Including You’ package, which is obsolete.

(3) The D&I(A) role is not an administrative function and is not to be automatically assigned to Logistics Officers. Many Logistics Officers perform the role of Command Legal Advisor (CLA), and there could be conflict of interest where an individual is asked to fill both the CLA and D&I(A) roles. Where a unit is primarily a Logistics Unit, then it is understood that a Logistics Officer other than the CLA might be nominated to attend the course.

(4) Whilst a keen interest from personnel in these positions is both welcomed and encouraged, it is not appropriate for COs/OiCs to undertake the D&I(A) or D&I(P) courses. Personnel seeking confidential and impartial advice will not approach the person who may become the Decision Body. Furthermore, a CO/OiC will be unable to act in a deciding role if they have already done so in an D&I(A) role. Unit commanders are encouraged to keep themselves in date for mandatory training and ensure they are familiar with D&I Policy contained in this chapter.

(5) Naval Service policy is that, with the exception of SLt who are not eligible to attend the DD&I(A) course the minimum rank of D&I(A)s should be PO/Sgt unless specific agreement has been reached for someone of lower rank to meet this duty based upon the unit establishment. In most cases, units will have a federated network (covered below) and D&I(A)s should not generally be tied to Line Numbers but should be selected by the Command to fulfil this important role based upon their particular skill sets and abilities that should include listening skills, compassion, impartiality, integrity and discretion, maturity and good judgement. It is recognised, however, that some personnel will become a D&I(A) due to their role: Executive Warrant Officers, Base Warrant Officers, SM and MCM Coxswains, Naval Reserve Unit Warrant
Officers/Whole Ship Coordinators, RM G1 Discipline Advisers, and RM Reserve Unit Sergeant Majors/G1 Advisers. The position of Lead D&I(A), and by default those charged with overall responsibility for compilation of the Unit D&I Log and input of bullying and harassment complaint management information onto JPA, will vary depending upon the nature of the unit.

(6) The position of Senior D&I(A), and by default those charged with overall responsibility for compilation of the Unit D&I Log and input of bullying and harassment complaint management information onto JPA, will vary depending upon the nature of the unit. Lead D&I(A)s will be expected to present this log, fully up to date and accurate, at Unit Advisory Visits.

(7) The Senior D&I(A), in collaboration with the Command D&I Lead, is to ensure a regular D&I Action Group (DIAG) takes place attended by the unit D&I(A)s, D&I(P)s and Associates, and in which the Action Plan is updated, and unit events planned, including a regular schedule of mandatory training. Other HoDs and command elements are encouraged to attend these meetings on occasion.

(8) D&I(A)s/D&I(P)s are expected to act in accordance with the TORs set out for their role, and perform the role for as long as they hold the 5-year competency, regardless of any change in rank, role or assignment.

b. The number of D&I(A)s should be in relation to the establishment/Ship’s Company of the unit. As a guide, all ships and submarines must have 2 D&I(A)s, of which 1 is the BWO/EWO/Coxswain or equivalent and the second is selected at the unit’s discretion following the guidance above. In larger units, a federated D&I(A) network of between 6-8 personnel is appropriate. The most effective model is a Lead D&I(A)\(^2\) with corporate responsibility for the overall D&I ‘service’ within the organisation with additional D&I(A)s providing advice, conducting unit induction/D&I training, and contributing to a single (master) Unit D&I Log held by the Lead D&I(A) as appropriate.

3008. Diversity and Inclusion Practitioners

a. Careful selection of D&I(P)s is important in ensuring a successful and effective D&I organisation within units and to help maintain and promote a healthy D&I culture across the Naval Service. Every unit should have a minimum of 4 D&I(P)s. They will support the unit Command D&I Lead and Unit D&I(A)s as required.

b. Role and Selection of Unit D&I(P)s

(1) Provision of first contact support and signposting of people. D&I(P)s provide a unit point of contact to raise or manage certain D&I issues within the constraints of their training and where individuals seek resolution at the lowest level.

---

\(^2\) Usually an SO2, depending upon unit establishment.
(2) The role of D&I(P) is set at a minimum of LH/Cpl level up to a maximum of Lt Cdr. Individuals should be selected for their leadership acumen, approachability, good judgement and common sense.

(3) D&I(P)s are to support the unit D&I organisation as required and should attend the regular unit DIAG.

(4) D&I(P)s are encouraged to support the D&I(A) in provision of the mandatory training and are qualified to take groups for a component during training sessions.

(5) Management of the unit D&I organisation communications, including noticeboards.

(6) Provision of bespoke training serials and events, including annual events such as National Inclusion Week, Black History and National Commonwealth Day.

(7) Attendance at unit D&I Advisory visits.

(8) Maintenance of links to Defence and Naval Service Networks.

(9) Representing the unit at annual D&I Policy conferences

3009. Diversity and Inclusion Associates

In order to offer personnel the opportunity to support their Unit D&I organisation without performing the role of D&I(A) or D&I(P), the D&I Associate Programme was created. This programme will allow personnel across all ranks and rates the opportunity to lend their support and voice to the D&I organisation within their unit, increasing the validity and benefit of Diversity & Inclusion in the day-to-day running of the Naval Service. There is no formal training course and the D&I Associate Programme is open to all ranks and rates. There are no formal TORs as the role is intended to utilise the interest and aptitude of each volunteer to build the unit's D&I organisation. However, the lead D&I(A) is to ensure that their activity is included into individual's reports. Units are encouraged to involve their Associates in D&I matters wherever possible, subject to the following guidelines:

a. Associates may be used to signpost other personnel to sources of guidance and information. They may not give direct D&I advice or be used to resolve issues raised by personnel.

b. Associates should be encouraged to take part in Unit D&I events, and observe D&I Mandatory Training wherever possible. Only D(I)A(s) are permitted to deliver Mandatory Training, however Associates can organise further training opportunities under the guidance of the D(I)A(s)/D&I(P)s.
3010. Diversity and Inclusion Logs

a. **D&I Training Log.** Every unit should have a D&I Training Log. This log should be accessible to all in the D&I organisation and should include an action plan, training plan, record of training etc. The action plan should be reviewed and updated on a regular basis by the D&I organisation during the routine D&I meetings. The D&I Training Log should be reviewed by the CO as a routine book either quarterly or six monthly. Further guidance is given at Annex 30A.

b. **D&I Complaints Log.** Every unit should have a Complaints Log, which is to be stored in a secure container and accessed only by D&I(A)s. The log should have a current (up to 2 years) section and an archive (2-10 years). All complaints paperwork older than 10 years should be sent to TNT archive IAW JSP441 Part 2 - Guide Records 14. Best practice is for all records pertinent to each complaint, including Executive Summary, to be held together within a plastic wallet. Further guidance including template for Complaints information is given at Annex 30A.

3011. Unit-Level D&I Advisory Visits

It is policy that every unit will benefit from a D&I Advisory Visit once every 2 years. These biennial visits are of an advisory nature and are not intended to comprise formal inspections, but rather a constructive visit to assess and help enhance the management of D&I within units. Such visits also provide unit Commanders with advice and guidance on managing the Diversity ‘climate’ in their respective units and provide an opportunity for D&I(A)s/D&I(P)s to be updated on significant policy changes. Guidance for Advisory visits is as follows:

a. **COs, Command D&I Leads and Senior D&I(A)s** are to be proactive in arranging Advisory Visits when their programme permits, rather than wait to be contacted. Deploying ships and units should arrange visits prior to operational training and deployment.

b. Ideally all members of the unit D&I organisation should be available during the visit and it is recommended that the CO meets with the Advisory visit team before and after the visit.

c. A report of each visit will be copied to the unit Commanding Officer, Command D&I Lead and Senior D&I(A) and relevant assurance point of contact. Previous reports should be held in unit documentation and COs are encouraged to read the reports when taking command.

d. A list of recommendations will be made in each report and each unit is encouraged to produce an action plan to ensure that these proposals are followed. These recommendations and the actions resulting will form the basis of the following advisory visit. Progress is expected to have been made between each visit.
3012. Management of Service Complaints Containing Allegations of Bullying and Harassment

The procedure for dealing with informal and Service Complaints which contain allegations of bullying and harassment is set out in JSP 763 (The MoD Bullying and Harassment Complaints Procedures) under the auspices of JSP 831 (Redress of Individual Grievance: Service Complaints). The processes for implementing these procedures within the Naval Service are contained in Chapter 23 - Representations and Complaints.

3013. Mediation

Mediation is recognised as an often highly effective means of assisting the resolution of disputes at the lowest level and without the necessity of recourse to more lengthy and formal procedures. Mediation is an ordered and, within the confines of Service protocol, confidential process that provides a benign, facilitated environment where parties in dispute may resolve their differences with the aim of restoring harmonious working relationships as quickly as possible. It is important to emphasise that mediation can, and should, be considered at any stage of the complaint process. Mediation will ordinarily be undertaken by the Complaints Investigation and Mediation Team (CIMT). If this team has insufficient capacity, they will engage a trained mediator from within or external to the Service. Further detailed information on Mediation in the Naval Service can be found in the Annexes to this Chapter.

3014. Diversity Mentoring

Mentoring is a powerful tool for professional and personal development. Diversity Mentoring allows people to build upon mutual understanding, common shared experiences, acceptance and trust, in order to focus more closely on what the mentee would like to develop or achieve. These outcomes can be career-focused (such as progression), developmental (learning directly from the mentor or engaging in reflective discussion) or emotional (such as increased confidence, assertiveness, authenticity as a person). Diversity Mentoring recognises that people perform better in the workplace when they can be themselves, and empowers them to be authentic. This creates an environment of trust, belonging, understanding, support and encouragement, allowing people to perform to their highest ability leading to improved operational effectiveness, by developing and retaining diverse talent. A variety of Diversity Mentoring opportunities exist, within and outwith the Naval Service, through Diversity Networks and NAVY PCAP- Mentoring SO1. Further guidance for mentors and mentees is available in the Annexes to this Chapter.
ANNEX 30A

NAVAL SERVICE UNIT DIVERSITY AND INCLUSION LOGS – STANDARDISED DOCUMENTATION

1. Introduction

This policy advises all Naval Service (NS) Units on the format for the composition of the Unit Diversity & Inclusion (D&I) Logs.

2. Requirement

a. Commanding Officers/Station Commanders/Heads of Establishment are to maintain records of bullying, harassment and discrimination incidents and complaints (both formal and informal) involving MoD Service personnel only, or involving Service and civilian personnel (but not those involving MoD civilian personnel only, even if they occur on military bases). This does not supersede the direction previously given that all D&I(A)s in Navy Command are authorised to offer advice to civilian personnel in respect of bullying and harassment issues, as they would for military personnel. In doing so, however, D&I(A)s must also request the individual concerned to inform DBS in order to ensure that that the matter is put on record. If the issue cannot be resolved informally, then the complainant, or the line manager overseeing the complaint, must refer the matter to DBS for further action.

b. A Unit’s lead D&I(A) is the custodian of the Unit D&I Logs, which will be used as a record to report all incidents as above. It should also include a record of all approaches to the D&I(As) by personnel seeking advice. There will be occasions when an individual has reported an incident and sought advice from someone other than the D&I(A) - eg. Line Manager, Divisional Officer etc. On learning of such incidents, D&I(A)s are to ensure that they are recorded in the D&I Complaints Log and in JPA (unless the advice was sought from a Chaplain/Padre while fulfilling their duties under confidentiality arrangements).

3. Recommended Content

The reference provides detail on how to maintain the logs, but does not suggest an appropriate format for their composition. Best practice in the Naval Service is to hold two logs: the first being the D&I Log, which contains all relevant material that is not Official Sensitive, and is used as a working document; the second is the D&I Complaints Log, which contains completed Official Sensitive forms; this log is to be stored in a secure location and is to include any archive complaint paperwork. The lists below outline what should be retained in each log, they are not exhaustive and any additional material that the D&I(A) considers will benefit the D&I organisation can be kept in the D&I Logs.

a. D&I Log:

(1) Contents Page.

(2) CO/XO Signature Sheet - The D&I(A) comments section should indicate if any complaints (or nil) were raised in that month.

---

1 JSP 763 Annex P.
(3) CO’s D&I Policy Statement and/or CO’s Temporary Memorandum.

(4) Training Log - To include Core and Advanced D&I training and any other type of training conducted outside the mandatory requirement and unit events eg. Induction briefs, notices and information on Daily Orders and/or noticeboards, bespoke training and events. Cancelled or postponed training should also be recorded with an explanation given. Nominal lists of attendees can be retained in this section if required by the unit.

(5) Action Plan - To assist a Unit to progress within the D&I Matrix. Use the log to plan for D&I notices, briefs and training etc.

(6) Spare/blank report forms.

b. D&I Complaints Log (to be held in a Secure Stowage).

(1) Executive Summary Sheet - To reduce paperwork, especially for ships, submarines or units deployed, the Executive Summary Sheet need only be completed if a complaint(s) was reported in that month – nil returns should be offered to Command.

(2) Completed Complaint or Incident Report Forms.

(3) Completed Complaint or Incident Follow-up Report Forms (4 weekly).

(4) Completed Complaint or Incident Monitoring Forms (not less than 3 months).

(5) Issues/Matters Arising.

(6) Archive Section – All complaint data from 2 to 10 years old is to be kept in this section. Older data is to be sent to TNT iaw JSP 441 Part 2.

c. At the Appendices are Word versions of the forms required for the D&I Logs. Copies of all templates and further examples of other documentation can be found on the Navy Command D&I website. For units retaining hard copy logs it is best practice that all paperwork for the same complaint is kept together in a plastic sleeve in the Complaints Log. This will ensure that all paperwork can readily be found for a single complaint and makes it easier to check that the correct follow-up action has been completed.
4. Digital Log

a. There is an ever increasing requirement for organisations to be ‘paperless’. If approved by the Unit Command (at CO’s discretion), the D&I Logs can be electronically stored, but the monthly checks and signatures must still take place to ensure that the correct procedures are being carried out. The XO/CO is still to put their comments as normal in the electronic signature sheet and annotate the Comments Box on ‘checking in’ the document that they have sighted the log. The log may be an XO Monthly Book (providing that the XO does not maintain the log) but must be a Quarterly or 6 monthly Book for CO.

b. If a Unit is unable to provide electronic signatures (coded signatures), all complaint digital paperwork is to be annotated with:

“Seen and agreed by ……………………… in the presence of ………… date ……………….”

c. The requirement to keep all complaint data within a unit for 10 years and beyond must be at the forefront when deciding where and how to store this data. All data that is stored electronically must be kept in accordance with the regulations set out at Appendix 1 and will form part of the Advisory Visit checklist.

d. If a digital log is to be held there is a requirement for all documents to be recorded in JPA. A record should be held in the D&I Complaints Log of all Service Complaints (formal and informal) by JPA number and when actions (initial report, 4-week follow-up, 3-month follow-up reports and relevant executive summaries) are due/completed and uploaded to JPA. To hold a fully digital log the requirement is for all documents to be scanned and uploaded to JPA. Once uploaded the original documents may be destroyed.

e. Ships/Submarines undergoing a major refit or work that includes the loss of DII are to burn 2 CDs of all complaint data and send a copy to CNLS Casework, MP4-2, NCHQ. The second copy is to be retained by the ship/submarine and training data is to be included on this disc. On completion of the refit/maintenance period, the CDs will be returned for uploading back onto the system.

f. Ships decommissioning must burn the complaints data onto 2 CDs and send one copy to CNLS Casework, MP4-2, NCHQ, Leach Building, Whale Island, Portsmouth, PO2 8BY and a second copy to TNT (JSP 441 Part 2 – Guide Records 14).

5. JPA Data

To assist with identifying serial complainants, respondents and/or any themes or trends within a unit, it is recommended that the Lead D&I(A) and a secondary D&I(A) (in case of absence) be tasked with inputting complaint data onto JPA. All paperwork is to be raised and completed by the D&I(A) involved with the complaint and is to be forwarded to the Lead D&I(A) for inclusion in the central D&I Complaint Log and JPA at the earliest opportunity.

2 JSP 763 and JSP 441.
6. **Large Units**

In large organisations such as Naval Bases, Training Establishments and Air Stations etc. where several units are located on one site, the following policy is to be applied. Where a Logistics Officers (LO) is assigned to a sub-unit and can act as the Command Legal Adviser, an autonomous D&I organisation should be established and administered through unit Logs and a JPA Resource Group. For smaller units which do not have a LO assigned, however, they should be administered by the lead D&I(A) of the parent unit (for Logs and Resource Group). It is best practice for the Base Warrant Officer to hold a master Complaints Log in order for the Base Commander to have visibility of trends across the entire base. It is also best practice for the sub-units, utilising the parent unit organisation, to have sufficient D&I(A)/D&I(P)s for their own needs, to support the wider Base D&I organisation and to contribute to a site-wide D&I network.

7. **MCM Crew Log**

Due to the nature of crew rotations between ships within MCM1 and MCM2 Squadrons, D&I Logs are to remain with the crews as they move ship and are not to remain on board. Any Informal or Formal Service Complaints that are raised must be put under the correct MCM Crew SC E&D Resource Group on JPA. This will ensure that any paperwork raised remains with the that crew if further action is required.
ANNEX 30B

NAVAL SERVICE GUIDANCE ON EQUALITY ANALYSIS PROCESS

1. Introduction

EA is the process for ensuring that policy decisions which impact on people do not have intended or unintended detrimental impact on particular population groups. It is recommended that, although not mandatory, project, policy or service leads also consider social mobility issues, parents/carers and flexible working. It involves using equality information and engagement with protected groups ¹ to understand the actual and/or potential effects of decisions on the workforce (including contractors and members of the public impacted by a decision).

2. Requirement for EA Process

a. MoD has concluded that EA remains a necessary activity on all employment or personnel-related policies and projects to ensure compliance with the Equality Act 2010 ² (EA2010). Furthermore, EA will ensure that the correct conclusions are reached first time, avoiding the risk of legal challenge and re-work which inevitably results in additional cost and time over-runs.

b. The EA should fit seamlessly into decision making and should be a thread running through projects and policy generation which have an impact on the employment of personnel such as redundancy, organisational change, basing decisions and site closures. Evidence of EA should be referred to or annexed in proposals, submissions, board papers and similar approval routes.

3. Completion of the EA Process

The relevant project, policy or service lead is responsible for ensuring that EA is embedded as an enduring element. The updated guidance empowers the project lead to identify the proportionate and appropriate level of EA, and provides annexes to record evidence, judgements and decisions through the 4-stage process ³. The EA Flowchart provides guidance to direct staff through the required elements of the process. There will be a requirement to complete a short feedback survey online ⁴ to provide assurance that EA’s are being carried out within Navy Command TLB and to trigger a request for assistance where required.

4. Summary

The EA process has been reviewed to simplify the process for project leads to identify a proportionate level of analysis. EA is required for all projects and policy decisions that impact upon people and is required for compliance to the EA 2010 and the Public-Sector Equality Duty. Further advice can be found in the MOD EA Guidance and Template or can be provided by the D&I Policy Team.

¹ The Protected Characteristics defined in the Equality Act 2010 are: age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex and sexual orientation.
² A key provision of the Act is the Public Sector Equality Duty (PSED), which obliges us to have ‘due regard’ to the impact our decisions have on our people and to proactively advance equality of opportunity ensuring that every individual has the opportunity to make the most of their talents.
³ Annex to Equality Analysis 01 Oct 18.
ANNEX 30C

TRANSGENDER SERVICE PEOPLE MANAGEMENT

1. Transgender Management
The policy for the Recruitment and Management and of Transgender Service Personnel is contained in JSP 889. The Royal Navy is absolutely committed to making diversity and inclusion integral to all our policies, functions and services. Transgender is an umbrella term for people whose identity differs from what is typically associated with the sex they were assigned at birth. People under the trans umbrella may describe themselves using one or more or a wide variety of terms\(^1\) including transgender for example: non-binary, gender-fluid, transgender man, transgender woman. The Naval Service values the unique contribution of all its people, and will treat everyone, including individuals who identify outside of the gender binary, with dignity and respect.

2. Dress Codes for Social Functions – D&I Policy
a. The culture in UK society is becoming more diverse and inclusive, so too must our social dress codes. While the incidence of such requests may be small, the consequences of intolerance could be significant. Recognising this the Naval Service has undertaken to become a diverse and inclusive employer, it therefore needs to be able to balance the maintenance of tradition with the need to accommodate changes in culture – the maintenance of tradition never trumps the requirement to act fairly and lawfully towards our people. For example, if male guests are invited to wear dinner jackets to a social function, female guests should be permitted to do likewise.

b. When setting the standard of dress at social events the maintenance of traditions and standards should be considered but choice should be permitted. Understanding that some people do not always identify with societal gender binary norms (man and woman) tailoring the choice of clothing will create a more inclusive environment. For example, female guests may prefer not to wear a dress to social functions and may prefer to wear Black Tie; refusing to allow them to attend functions in their choice of clothing could be seen as indirect discrimination. A dress code “Mess dress, Black Tie, evening dress or equivalent” would provide choice and create an inclusive environment.

\(^1\) JSP 889 contains a glossary of Gender identity terms.
ANNEX 30D

THE NAVAL SERVICE MEDIATION POLICY FOR THE RESOLUTION OF WORKPLACE BASED DISPUTES AND APPROPRIATE BULLYING AND HARASSMENT COMPLAINTS

1. Introduction

a. Mediation has been introduced across the Naval Service so that personnel can call upon an accredited, independent and impartial 3rd party (known as the Mediator) to try to resolve workplace based disputes and appropriate bullying and harassment complaints. It is a well established process for resolving complaints between 2 or more personnel, quickly and constructively and can often avoid the need to resort to more lengthy and formal methods of resolution such as submission of a Formal bullying and harassment/Service Complaint or an application to an Employment Tribunal. With the help of the Mediator, personnel in dispute (known as the Parties) are assisted in achieving a mutually acceptable resolution; they, rather than the Mediator, decide on the terms of the settlement and hence it is essential that they have a genuine desire for resolution. The process is completely voluntary and therefore personnel cannot be forced to take part in mediation and can choose to withdraw from the process at any time. Personnel who agree to mediation but are unable to reach a settlement can still seek a resolution through other informal means or the Formal Complaint management process.

b. Mediation is confidential, and the information discussed within a mediation session will not be disclosed to anyone; the fact mediation took place, nevertheless, should be recorded in the unit’s D&I Log if it relates to a bullying and harassment complaint. At the Appendices are Word versions of the forms required for the mediation process and D&I Logs. By law, however, the Service has a duty to pass on certain information relating to evidence for criminal or Service-related offences to the courts, or the Service or Civilian Police.

2. Mediators

a. The Mediator is responsible for developing effective and open communications to help the Parties find a mutually acceptable solution to the workplace based dispute or complaint. It is important that the Mediator is viewed as impartial by the Parties and will avoid taking sides, making judgements or imposing solutions.

---

1 JSP 831 (Redress of Individual Grievance: Service Complaints) and JSP 763 (The MOD Bullying and Harassment Complaints Procedures) refer.
b. Mediator Tasking. Where mediation is considered suitable, unit Lead D&I(A)s are to discuss the dispute/complaint with the Complaints Investigation and Mediation Team (CIMT) in the first instance to determine the scope and whether the dispute/complaint is suitable for resolution through mediation; this is covered under ‘initial action’ at Para 3 sub para b below and is applicable to workplace based disputes, intractable Informal Complaints and Formal bullying and harassment/Service Complaints. In the event of a unit requesting an accredited Mediator, their provision will be co-ordinated by the CIMT after agreement with the Mediator’s Line Management. The CIMT maintains a list of accredited Mediators and will be responsible for their tasking Service-wide. Mediator availability will, of course, remain subject to respective Command/Line Management approval.

c. CIMT

CIMT staff can be contacted as follows:

E-mail: NAVY LEGAL-CIMT

Mil Net: 93832 7097
Tel: 023 9262 7097

3. Process

a. Decision to Mediate. As part of the process for dealing with Parties to the workplace based dispute or complaint, and only with their mutual agreement, D&I(A)s should always be consulted to advise the Command to consider whether any dispute or complaint could be best resolved by mediation; guidance for D&I(A)s is given at Appendix 1 The Parties are to be issued with Appendix 2 (An Individual’s Guide to Mediation) and the D&I(A) is to explain how the process works.

b. Initial Actions. Initial actions are as follows:

(1) Workplace Based Disputes. Unit Commanders/Line Managers should initially consult with their unit Lead D&I(A) the suitability of mediation. The Lead D&I(A) is then to contact the CIMT to discuss the area of dispute and determine whether mediation would be appropriate to resolve the dispute.

(2) Intractable Informal Bullying and Harassment Complaints. In most cases units should use their own resources ie. the Divisional/Regimental system/Line Management intervention to resolve Informal bullying and harassment complaints at the lowest possible level. Where they could lead to a Formal bullying and harassment Complaint being raised, and where the unit considers the content to be sufficiently serious, Lead D&I(A)s are to seek advice and scope the Informal complaint with the CIMT with the view to requesting the use of accredited Mediators.
(3) **Formal Bullying and Harassment Complaints or Service Complaints that Contain Allegations of Bullying/Harassment.** As already mandated by the D&I Policy Staff, the Lead D&I(A) is to contact the CIMT to allow scoping of the Formal bullying and harassment/Service Complaint and discuss the applicability of mediation as the possible route for complaint resolution or resolution to part of the Complaint. Mediation can be considered at any stage at which the Formal bullying and harassment/Service Complaint has reached.

c. Mediation can be conducted by a single Mediator or by a co-mediation team; this is when a team of 2 qualified Mediators is allocated. After contacting the CIMT for advice it may be decided that the more simple cases can be managed by a single, experienced Mediator. In cases where a particular Mediator is inexperienced and/or a case is particularly complex (e.g. involving a wide range of issues, or more than 2 Parties), the CIMT may recommend/direct, or the unit may request, that ‘co-mediation’ takes place. In the event of co-mediation, one Mediator will act as the lead Mediator whilst the other acts as the support Mediator.

d. Through consultation with the CIMT to determine if mediation is deemed to be appropriate to resolve the workplace based dispute or Informal/Formal bullying and harassment/Service Complaint or wider Service Complaint, the Command (on D&I(A) advice) is to determine whether the accredited Mediator(s) can be resourced in-unit. If this is the case, D&I(A)s are to inform the CIMT and request the intention to use him/her. This is to ensure that accurate records of Mediator employment are retained centrally (ensuring equitable sharing of the mediation load), to enable quality assurance of the overall process and to provide support to the Mediators i.e. ensuring the Service ‘cares for the carer’.

4. **Travel Costs**

   Travel costs to facilitate mediation sessions are to be met by the unit where the dispute or complaint is being handled and which requests the Mediation Service. In most cases this will be the Complainant’s parent unit.

5. **The Mediation Process**

   The appointed Mediator(s) will meet individually with each of the Parties involved in the complaint to identify the issues, explore ways forward and ascertain each individual’s preparedness to enter into the mediation process. The Mediator(s) will then arrange a joint face-to-face meeting with the Parties to facilitate discussion with a view to seeking a mutually acceptable resolution. The Mediator(s) will inform both Parties prior to the mediation taking place that they will be required to sign a Declaration of Confidentiality at the end of the mediation. The Declaration reminds the Parties of the confidentiality of the mediation (as this is a fundamental tenet of the process) and records whether the mediation was successful or not. Copies of these Declarations of Confidentiality are at Appendix 3 (Successful Mediation) and Appendix 4 (Unsuccessful Mediation) and completed Declarations should be sent to the CIMT. In the event that mediation takes place as a result of a Formal bullying and harassment/Service Complaint being submitted, or as a result of a wider Service Complaint which contains allegations of bullying/harassment, the Mediator(s) are to inform the Deciding Officer in writing of the outcome of the mediation, copied to the CIMT, using the template at Appendix 5. This letter will only detail if the mediation was either successful resulting in the withdrawal of the Formal bullying and harassment/Service Complaint, withdrawal of part of a Formal bullying and harassment/Service Complaint, withdrawal of part of a wider Service Complaint or the mediation was unsuccessful. The
Deciding Officer is to confirm this outcome in writing to both Parties using the template at Appendix 6. The outcome is also to be recorded on JPA.

6. Care of U18s

In the event of an U18 Service person being party to mediation, Commanding Officers are to provide an accompanying chaperon(e) (eg. Assisting Officer, member of Divisional staff) to accompany the U18 person. Further guidance is given in ‘Guidance to D&I(A)s’ at Appendix 1.

7. Other Personnel

The Naval Service Mediation Policy is primarily for the assistance of Naval Service personnel and those from the other Services and Civil Service working within Navy Command. Accordingly, cases involving disputes where one of the Parties is from the other Services or Civil Service not working within Navy Command or are civilian contractors, mediation should also only be conducted with the prior approval of the CIMT and D&I Policy Staff. In this case, the CIMT and D&I Policy Staff will engage with the other respective Service D&I Policy staffs or HR staffs from the MOD Civil Service or civilian contractor to ensure the provision of an appropriately accredited Mediator or mediation team.

8. Neutrality and Form of Address

Unless the Parties object, mediation will normally be conducted in civilian attire in a quiet, neutral atmosphere away from the Parties’ work-place(s). The mediation process recognises and respects Service Chains of Command. The mediation session will normally be conducted in civilian clothes and attempts to cultivate an open and progressive environment in which both Parties feel comfortable. To that end, mediators will encourage the Parties to use first names. Mediators will address both parties by first name, subject to their agreement.

9. Data Monitoring

Once mediation has taken place as a result of Informal/Formal bullying and harassment/Service Complaints, the Unit D&I(A) will be required to annotate the Unit D&I Log and JPA stating the names of the Mediators, the date mediation was carried out and whether the mediation was successful in resolving the complaint.

10. Promulgation

Mediation is a useful tool for dealing with workplace based disputes/bullying and harassment complaints therefore units are requested to promulgate the provision and benefits of mediation to unit personnel. Moreover, D&I(A)s are requested to spread the message as widely as possible. Mediation leaflets are available from the CIMT.

11. 3 Month Review

The CIMT will conduct a follow-up with the Parties 3 months after the successful mediation to ensure that the agreements that were reached have been respected and that there is no repeat of the issue(s) that resulted in the original complaint.

---

2 All D&I complaints, both Informal and Formal, must be recorded on JPA iaw 2011DIN01-006. The Service Complaints Business Process Guides will provide the detail regarding this recording requirement.

3 All D&I complaints, both Informal and Formal, must be recorded on JPA iaw 2011DIN01-006. The Service Complaints Business Process Guides will provide the detail regarding this recording requirement.
APPENDIX 1 TO ANNEX 30D

GUIDANCE TO D&I(A)s WHEN CONSIDERING/RECOMMENDING MEDIATION

1. Introduction

a. Informal Bullying and Harassment Complaints. As a D&I(A) your role is to advise both Parties of the mediation process in order to resolve the complaint. For those intractable Informal bullying and harassment complaints where the content is considered sufficiently serious, you are to scope the nature of the complaint and mediator provision with the Complaints Investigation and Mediation Team (CIMT) prior to commencing any mediation.

b. Formal Bullying and Harassment/Service Complaints. As a D&I(A) your role is to advise the Deciding Officer on whether mediation is, or has been, a consideration when resolving a Formal bullying and harassment Complaint or a Service Complaint which has a bullying and harassment element that may be resolvable through mediation. You are to advise both Parties of the mediation process as a means of resolving the complaint/part of the complaint. The D&I(A) is to scope the complaint with the CIMT to determine whether it should be considered for resolution by accredited mediators. It is important to remember that mediation can be used at any stage of the Formal Complaints process. For effective mediation, both Parties must be willing to participate in good faith to attempt to work out an agreement and resolve the complaint.

c. Workplace Based Disputes. As a D&I(A) you may be asked to advise Line Management as to whether a specific workplace-based dispute might be resolved through mediation. If you, Line Management and the Parties consider mediation to be an option, you are to contact the CIMT to scope the suitability of mediation for resolution of the dispute. You are also required to advise the Parties of the mediation process as a means of resolving the dispute.

d. Documentation. At Appendices 3-6 are Word versions of the forms required for the mediation process and D&I Logs, as required.

2. Definition

Mediation is a process that those in a workplace-based dispute or those who are complaining of inappropriate behaviour of a bullying and harassment nature might use when communication has broken down, but the Parties are willing to meet to attempt to work out an agreement on the way forward. It is most useful when undertaken at an early stage of a dispute/complaint and is used as a first alternative to more formal procedures. The Parties in conflict play a full participative role in deciding on issues, and creating, evaluating and agreeing options; it is they who make the decisions. The third party (Mediator) has an independent and impartial role, acting as a facilitator to the process, providing a neutral, non-judgmental and confidential environment. The Mediator is not the decision-maker, although he/she does facilitate the process in a firm but informal way. Mediation usually focuses on future rather than past behaviour and aims to achieve an outcome that is agreed by, and mutually acceptable to, all Parties.
3. **Factors to Consider**

Mediation can only work as a voluntary process. Its use should be on a case-by-case basis and it cannot be ‘forced’ upon Parties. Factors to be considered include:

a. The history and dynamics leading up to the complaint. It is advised that mediation at an early stage is more likely to be effective than if utilised in the later stages of a complaint. If both Parties agree to mediation, then mediation should occur as soon as possible after the agreement has been given to ensure the best likelihood of success.

b. The possibility of physical threat or verbal aggression. Agreement on non-violence, respectful and dignified behaviour (including, where appropriate, respect for rank) and the maintenance of Service discipline throughout are essential and are a pre-requisite for mediation.

c. The nature of the relationship between the Parties. A substantial difference in rank or status may mean that mediation is not a practical option. In general, mediation should only be used if there is no more than a two rank/grade separation between the Parties (see Para 6 sub-para a below for amplification).

d. The intensity of feeling. If antipathy is extreme, mediation may not work.

e. The willingness of all Parties to participate in the process. Mediation cannot be one-sided – everyone needs to be able to contribute something constructive to achieve resolution.

f. The nature of the dispute/complaint; for example, cases of sexual harassment are criminal and cannot be resolved through mediation.

g. On receipt of a Service Complaint Advice Form (see Chapter 23), Staff Legal Advisers may recommend that mediation be offered to the parties involved in a Level 1 Service Complaint.

4. **Resolution**

There will be maximum opportunity for achieving resolution through mediation in cases where:

a. There are low levels of anger and verbal intimidation.

b. There have been no breaches of Service discipline rules.

c. No other Formal action is anticipated/underway which would conflict with the mediation process.

d. Allegation(s) made are being offset by counter-allegation(s) that would be raised within the mediation process.
e. Both Parties are willing to contribute to a resolution.

f. There is room for improvement in relationships.

g. The Parties may not have been initially prepared to have face-to-face interaction with each other but are more inclined to do so with external help.

5. Care of U18s
In the event of an U18 Service person being involved in mediation, Commanding Officers are to provide an accompanying chaperone, eg. Assisting Officer or any impartial, responsible person that the U18/Command chooses to nominate. The chaperone is present to ensure that the U18 person fully understands the process and to act in an advisory capacity to the individual. The chaperone should not be involved in any debate or offer an opinion during the mediation process, other than to act in loco parentis for the individual and monitor their emotional state. The chaperone should respect the full level of confidentiality applicable to mediation. The other Party in the mediation should also be consulted prior to commencement of the mediation process to ensure that he/she is content for the nominated individual to act as a chaperone.

6. When Not To Use Mediation
Mediation is not usually appropriate if, for example:

a. There is a difference of greater than two ranks/grades between the Parties. In instances where there is a rank difference greater than two ranks, the protocol for mediation should be discussed with the CIMT before being given final approval; in the event of a Formal bullying and harassment/Service Complaint, this is to be by the Deciding Officer.

b. The nature of the relationship between the Parties is such that, from the perspective of all Parties, it is unsafe to participate.

c. Formal procedures need to be applied eg. if potential criminal behaviour/activity is suspected and Service Police involvement may be required.

d. Internal administrative, disciplinary or restoring efficiency procedures need to be applied eg. if contravention of the Code of Social Conduct, other serious misconduct, or unsatisfactory performance may be involved.

e. Factors leading up to the dispute/complaint are long-standing and complex, and the Parties have become so embittered and entrenched, that progress is very unlikely.

f. The mediator, given his/her experience, considers that the situation is not suited to mediation.
7. **Recording of Outcomes**
The following actions are required to record mediation:

a. **Informal Bullying and Harassment Complaints.** The outcome, whether successful or unsuccessful, is to be recorded in the summary sheet for an Informal bullying and harassment complaint, retained within the Unit D&I Log and included as a comment (as to outcome) on JPA. The appropriate Declarations of Confidentiality (see App 3 and App 4) will be retained by the CIMT.

b. **Formal Bullying and Harassment/Service Complaints.** A copy of the Mediator’s letter to the Deciding Officer specifying the outcome (App 5) is to be retained in the Unit D&I Log and included as a comment (as to outcome) on JPA. The appropriate Declarations of Confidentiality will be retained by the CIMT.

---

1. All E&D Complaints, both Informal and Formal, must be recorded on JPA in accordance with 2010DIN01-006. The Service Complaints Business Process Guides will provide the detail regarding this recording requirement.
Frequently Asked Questions

Q. Who can mediate?
A. Mediation should not be confused with routine resolution of management issues and low-level Informal bullying and harassment complaints which can be supported via the Divisional/Regimental system or Line Management intervention. Mediation of disputes is achieved using fully trained, authorised and accredited Mediators. After having scoped the complaint with the CIMT, and after appropriate intervention at an informal level, if the complaint is considered to be potentially resolvable through mediation, but accessibility to accredited Mediators is impractical because a unit is deployed for a prolonged period, units may be advised by the CIMT to undertake mediation with untrained Mediators utilising the guidance at Annex 30D.

Q. Why do we recommend the use of accredited Mediators to resolve workplace-based disputes, Informal bullying and harassment Complaints and Formal bullying and harassment/Service Complaints?
A. In the case of complaints that escalate to a Formal level and then proceed to an Employment Tribunal, the MOD will be required to demonstrate that the correct process was followed. This will include showing that any mediation was conducted by a suitably accredited Mediator.

Q. What happens if mediation is not successful?
A. An Informal/Formal bullying and harassment Complaint or wider Service Complaint containing allegations of bullying and harassment may be raised or re-activated and continues through the JSP831/JSP763 complaints procedures.

Q. Where is the best location for mediation?
A. The Mediator will require a quiet, neutral environment preferably away from the workplace(s) of both Parties. Whilst proposed by the Mediator, ideally the location should be agreeable to both Parties. Mediation will also normally be conducted in civilian (plain) clothes.

Q. How do I deal with the military rank issue in the mediation process?
A. The mediation process recognises and respects Service Chains of Command. The mediation session will normally be conducted in civilian (plain) clothes and attempts to cultivate an open and progressive environment in which both Parties feel comfortable. To that end, mediators will encourage the Parties to use first names. Subject to their agreement, Mediators will address both parties by their first name.
APPENDIX 2 TO ANNEX 30D

AN INDIVIDUAL’S GUIDE TO MEDIATION AS A MEANS OF RESOLVING WORKPLACE BASED DISPUTES AND APPROPRIATE BULLYING AND HARASSMENT COMPLAINTS

1. Introduction to Mediation

   The purpose of this brief is to give you information so that you can make an informed choice about whether mediation is right for you.

2. What is the Naval Service Mediation Policy?

   a. The Naval Service Mediation Policy provides a process for resolving workplace based disputes or appropriate complaints of a bullying and harassment nature between 2 or more personnel, quickly and effectively, that could avoid more lengthy and formal methods, such as submission of a Formal bullying and harassment/Service Complaint or an application to an Employment Tribunal. In some instances a bullying and harassment complaint may have already been submitted and, in this case, mediation could be the preferred process for complaint resolution.

   b. With the help of an impartial 3rd party (known as the Mediator), you and the other person(s) with whom you are in dispute (you will jointly be referred to as the ‘Parties’) will be assisted in achieving a mutually acceptable resolution. Sometimes it may be better to conduct ‘co-mediation’, in which case a team of 2 Mediators would facilitate the mediation session.

   c. You and the other Party(ies), rather than the Mediator(s), decide on the issues to be discussed and it is therefore essential that all Parties have a genuine desire to resolve the dispute. The process is completely voluntary and therefore no-one will be ordered, or in any way forced, to take part in mediation and you, and any of those involved, can choose to withdraw from the process at any time.

   d. If you agree to mediate, but are unable to reach a resolution, and you are the Complainant then redress may still be sought through the procedures laid down in JSP 831 (Redress of Individual Grievances: Service Complaints) and JSP 763 (The MOD Bullying and Harassment Complaints Procedures). If you have already submitted a Formal bullying and harassment/Service Complaint and at some point during the formal process you and the other Party(ies) agree to mediation, the Formal bullying and harassment/Service Complaint will be put on hold pending the outcome of the mediation. If mediation is unsuccessful, the Formal bullying and harassment Service Complaint can be re-started. See Chapter 23.

   e. The Mediator(s) will avoid taking sides, making judgements or imposing solutions. They will remain absolutely impartial at all times and are simply responsible for developing effective communications and building agreement between the Parties. Their aim is to help the Parties find a mutually acceptable and lasting solution to the problem.
f. The mediation process is completely confidential, and any information discussed (e.g., events, personal conversations, issues or feelings) will not be disclosed to anyone at all. That said, by law, the Naval Service has a duty to pass on certain information relating to evidence for criminal or Service-related offences to the Courts or the Service or Civilian Police. You will be informed immediately if this is the case.

3. You have been offered mediation. What next?

a. Except in very limited circumstances, qualified Mediators will be assigned to work with you. Ideally, they will be serving members of the Naval Service (although they could, in certain circumstances, be accredited Mediators from one of the other Armed Services, MOD Civil Service or a Contractor/Partner) and will not be a member of your immediate Command chain. However, rest assured that any Mediator will be acting in his/her capacity as an impartial 3rd Party and their rank and status will be irrelevant. Consequently, any mediation will normally be conducted in civilian clothes and, wherever possible, at a location away from your place of work, in order to facilitate confidentiality and privacy, and to put the Parties at ease. If there is a rank difference between the Parties, then – unless both of you have consented for first names to be used – you will be expected to refer to each other by your normal military rank.

b. The Mediators will arrange to visit you at a convenient time and meet separately with each Party, normally on the same day. Again, wherever possible, the visit will take place at an agreed ‘neutral’ venue, away from your place of work that offers some privacy.

c. Individual meetings are confidential sessions between the Mediator(s) and each of the Parties in turn.

4. The Purpose of the Initial Meeting

The Mediator(s) will meet privately with the Parties involved in the disagreement or dispute to find out each Party’s view of the issues. The Mediator(s) will help each of you to consider what needs to happen and what you are seeking from the other individual involved. The mediation process will be explained, and you will be helped to consider how best to proceed with the mediation process.

5. After the Initial Meeting

If appropriate, the Mediator(s) will aim to set up a joint, face-to-face mediation session, and will invite both Parties to attend. Sometimes there needs to be some preparatory work prior to the joint session. In this case, the Mediator(s) will ‘shuttle’ between the people involved, aiming to exchange requests, offers and options. This might happen on the phone, in person, or by e-mail.
6. **Face-to-Face Meetings**
   Once the Parties are ready, the Mediator(s) will arrange a joint face-to-face mediation session. The joint mediation session:

   a. Will usually take place at a neutral venue, away from your workplace.

   b. Is confidential. All your Chain of Command or Line Management will know is that you have agreed to mediation and, if it is a Formal bullying and harassment/Service Complaint, the Deciding Officer will be informed as to whether the mediation was successful or not. They will be given no further information, before or afterwards, unless you expressly request it and each of the Parties agree.

   c. The aim of this joint session is for the Parties to jointly consider how they may best resolve their differences, to create a better working relationship. The Mediator(s) will use their skills to assist you both to talk openly and productively about this. It is sometimes necessary to arrange a second (or even third) face-to-face session, depending on people’s availability and/or the number of issues that need to be addressed.

7. **Resolution**
   At the end of a successful mediation both Parties will reach an agreement which enables resolution and restoration of an appropriate working relationship. If the mediation is not successful, both Parties are advised to contact their respective D&I(A)s to discuss the next step in the process of management of any bullying and harassment complaint.
Frequently Asked Questions

Q. Do I have to take part in the mediation?

A. No. Mediation is entirely voluntary. Either Party is free to leave or stop the process (either temporarily or permanently) at any time. This allows you, the Parties, to have the final say in how far you become involved in the mediation process, rather than feeling you are having an outcome or resolution imposed upon you.

Q. If I am the Complainant and I agree to take part in mediation, do I then give up my right to use Formal bullying and harassment/Service Complaint procedures?

A. No. Mediation is ‘without prejudice’ and, if you choose to try mediation, you still retain your right to use other measures as laid down in JSP 831/JSP 763 at a later date – whether or not the mediation process is successful.

Q. How confidential is mediation?

A. The process of mediation is confidential, both within the mediation itself, and with respect to further proceedings (but see Para 2 sub para f above). The Mediator(s) will not divulge any confidences that are shared unless given permission by both Parties to do so or there are issues raised that the Mediator(s) is legally bound to disclose. No notes or records of the mediation will be kept with the exception of:

a. Informal Bullying and Harassment Complaint. An entry in the Unit D&I Log and on JPA1.

b. Formal Bullying and Harassment/Service Complaint. A copy of the letter from the Deciding Officer, addressed to both Parties and recording the success or otherwise of mediation, will be retained within the Unit D&I Log and sent to the CIMT.

Q. What happens if I don’t like the mediated agreement?

A. The issues and points to enable resolution are entirely a matter for the Parties to agree upon. Together you are responsible for identifying, defining and agreeing the problem(s), setting the agenda and agreeing the solutions. No agreement can, or will, be imposed on you as part of the mediation process.

Q. How long will mediation take?

A. The total time taken for the whole mediation process, from start to finish, varies from case to case. Generally, the briefing and individual meetings are conducted within the same a day, followed by the joint session the same or the next day – so, anything from 1 to 2 days, normally.

---

1 All D&I complaints, both Informal and Formal, must be recorded on JPA IAW 2011DIN01-006. The Service Complaints Business Process Guides will provide the detail regarding this recording requirement.
DECLARATION OF CONFIDENTIALITY - POSITIVE MEDIATION

I, XXXX, have willingly participated in a formal mediation session(s) which took place on dd/mm/yyyy at XXXX.

Persons present during the mediation were:

Parties: ..............................................................
..............................................................

Mediator(s): ..............................................................
..............................................................

The mediation was positive therefore I am content that the Mediator(s) inform the Deciding Officer of the outcome.

I am also content that the Mediator(s) inform the Deciding Officer that my intention is to write to him/her in order to withdraw my Formal Bullying and Harassment/Service Complaint.

I understand that, as all information discussed remains totally confidential, any breach of that confidentiality may result in an inquiry.

Signature: ..............................................................

Date: ..............................................................

Mediator(s) Signature(s):
..............................................................
..............................................................

Date: ..............................................................

This Declaration of Confidentiality is to be retained by the CIMT
APPENDIX 4 TO ANNEX 30D

DECLARATION OF CONFIDENTIALITY – NEGATIVE MEDIATION

I, XXXX, have willingly participated in a formal mediation session(s) which took place on dd/mm/yyyy at XXXX.

Persons present during the mediation were:

Parties: .............................................................. ..............................................................

Mediator(s): .............................................................. ..............................................................

The mediation was negative, and I am content that the Mediator(s) inform(s) the Deciding Officer of the outcome.

_I understand that, as all information discussed remains totally confidential, any breach of that confidentiality may result in an inquiry._

Signature: ..............................................................

Date: ........................................................................

Mediator(s) Signature(s):

.............................................................. ..............................................................

Date: ........................................................................

This Declaration of Confidentiality is to be retained by the CIMT
APPENDIX 5 TO ANNEX 30D

OUTCOME OF MEDIATION OF A FORMAL BULLYING AND HARASSMENT/SERVICE COMPLAINT

1. The formal mediation session(s) which took place on dd/mm/yyyy at XXXX, mediated by XXXX (and XXXX), was successful and the XXXX intends to write to you to withdraw their Formal Bullying and Harassment/Service Complaint. On the withdrawal of the Formal Bullying and Harassment/Service Complaint you are requested to inform the Line Manager(s) of both Parties of this outcome and to instruct them to monitor the relationship between both Parties for a period of at least 3 months to ensure that the agreement is respected and that there is no repeat of the issue(s) that resulted in the original Formal Bullying and Harassment/Service Complaint.

or

1. The formal mediation session(s) which took place on dd/mm/yyyy at XXXX, mediated by XXXX (and XXXX), was partially successful and the XXXX intends to write to you to withdraw part of their Formal Bullying and Harassment/Service Complaint. On the withdrawal of part of the Formal Bullying and Harassment/Service Complaint you are requested to inform the Line Manager(s) of the relevant Parties of this outcome and to instruct them to monitor the relationship between both Parties for a period of at least 3 months to ensure that the agreement is respected and that there is no repeat of the issue(s) that resulted in the original part of the Formal Bullying and Harassment/Service Complaint.

or

1. The mediation session(s) which took place on dd/mm/yyyy at XXXX, mediated by XXXX (and XXXX), was unsuccessful. The Formal Bullying and Harassment/Service Complaint submitted by XXXX remains extant and should continue to be managed under JSP 831 and JSP 763 procedures.

2. A record of the outcome of the formal mediation session is to be recorded in the Unit D&I Log and on JPA\(^1\).

Signature Block
(Mediator(s))

Copy to:

Unit Lead D&I(A)

\(^1\) All bullying and harassment complaints, both Informal and Formal, must be recorded on JPA in accordance with 2011DIN01-006. The Service Complaints Business Process Guides will provide the detail regarding this recording requirement.
APPENDIX 6 TO ANNEX 30D

OUTCOME OF MEDIATION OF A FORMAL BULLYING AND HARASSMENT/SERVICE COMPLAINT

1. The formal mediation session(s) which took place on dd/mm/yyyy at XXXX, mediated by XXXX (and XXXX), was successful. I can confirm that the Formal Bullying and Harassment/Service Complaint has now been withdrawn and you both acknowledged the need to work towards the solutions agreed during the formal mediation session(s).

2. Your respective Line Manager(s), D&I(A) and CIMT have been informed of this successful outcome and will support the working relationship between you for a period of at least 3\(^1\) months to ensure that the agreement you both reached is respected and that there is no repeat of the issue(s) that resulted in the original Formal bullying and harassment/Service Complaint.

Signature Block
(Deciding Officer)

Copy to:

Unit Senior D&I(A)

ANNEX 30E

DIVERSITY MENTORING – GUIDANCE FOR MENTORS AND MENTEES

1. Introduction

Being part of a mentoring relationship, in the diversity context, is rewarding and mutually beneficial, on both personal and professional levels, and but requires work to get the full benefit. As a Diversity Mentor and Mentee, you can both develop your knowledge, skills and confidence, get valuable advice and also gain fresh perspective and outlooks from your mentor.

2. Guidance for Mentors

For a successful mentoring relationship you will need to do the following:

a. Establish a positive and a personal relationship with the person you are mentoring:

(1) Meet early on to find out about each other. Talk about work and personal life until mutual trust and respect is established. If you feel that you cannot get along, now is the time to stop;

(2) Make your meeting enjoyable and fun: go somewhere that is relaxed; somewhere you can discuss work and social life freely.

b. Help the person you are mentoring to develop skills:

(1) Figure out what strengths and weaknesses they have. You can ask them directly, look through previous reports together, and look for areas to develop;

(2) Plan out specific goals that they can achieve (look for courses, decide on actions to be taken at work, identify extracurricular goals that are life-enhancing);

(3) Share your own life-management skills (ie. how you approach making difficult decisions, how you set goals, what you do to resolve conflict).

c. Assist the person you are mentoring to obtain additional resources:

(1) Make them aware of educational resources and career-enhancing courses and support them in their application;

(2) Where possible provide them with access to people who can influence their careers and personal lives;

(3) Act as a guide and as an advocate, promoting them where possible;

(4) Whilst doing this respect the boundaries of being a mentor. Ultimately you are not responsible for their career counselling: instead you are acting as any friend would when approached for career advice.
d. Improve the ability of the person you are mentoring to work with people from varied backgrounds:

(1) First you will need to explore the social environment in which they operate. What types of people are missing from this group? What new people might enhance their own values and beliefs?

(2) Introduce the person you are mentoring to different workplaces so that they achieve a broader appreciation of the military.

3. **Guidance for Mentees**

To gain the most from being a mentee, you will need to invest energy in developing your mentoring relationship by doing the following:

a. Make time to meet your mentor and discuss your future. The benefits of having access to someone more senior, and outside of your chain of command are many: what you say will have no direct effect on your relationship with your line manager; you can think aloud and have your ideas heard without prejudice; and someone who is willing to get to know you personally is looking out for your career interests.

b. Be honest with your mentor. Discuss your work-life balance, the impact of work on your relationships and social life, talk about where you see yourself going and what you would like to achieve. This will help your mentor guide you through the challenges ahead.

c. Trust your mentor to maintain your confidence. This will allow you to discuss your work situation, your annual reports, how you think people view you and treat you, and how you get on with your chain of command. Sometimes this will be uncomfortable, but only by being honest can you expect to receive advice that is helpful to your specific situation.

d. Between you and your mentor decide what goals to set yourself, and what changes you will effect at work and home.

e. Grow your relationship by maintaining regularly contact with your mentor. Ensure they are kept abreast of your work life.
ANNEX 30F

D&I ADVISER INTERVIEW GUIDANCE

The following guidance may be used when someone comes to ask you for advice in your capacity as D&I(A).

Welcome: Welcome the person with the usual courtesies and put them at their ease.

Your Role: Explain that your role as a D&I(A) is to provide impartial advice on Equality and Diversity policy.

Note taking: Tell the complainant that you will be taking notes, and that they will be able to read them at the end of the interview and then must sign them as an accurate record.

Confidentiality: The Senior D&I(A) in the unit maintains a confidential log and uses the notes for reference. Explain to the complainant that everything said during the interview will be in confidence, with the following exceptions:

- Where there is a risk of harm to the individual or others.
- In order to prevent a serious criminal act.
- If there is a serious contravention of military law.
- If there is or is likely to be a serious breach of national security.
- If the individual is no longer able to carry out their duties.

HARDMAC: The following acronym is designed as a handrail for your assistance in conducting the interview:

H² – ‘What has Happened?’ and ‘How do you feel about that?’
A – Based on what you have said, and I have no reason to disbelieve you, this behaviour is/is not Against Service/MOD policy.
R – What Resolution are they seeking? (ie. what do they want to happen?)
D – What has already been Done to try and resolve the problem?
M – Give the interviewee the Menu of options.
A – Try to Agree a course of action, but don’t push it if they are undecided.
C – Close by asking them to come back whenever they need to, etc.

CHAPTER 31
RELIGION AND BELIEF

3101. Introduction
Religious belief is treated as a private matter, but recognising the unique and demanding circumstances of Service life, the Armed Forces aim to facilitate and support individuals’ spiritual needs. Further information regarding the Naval Chaplaincy Service can be found in the following publications:

a. BRd 2 - The Queen’s Regulations for the Royal Navy.

b. BR 439 – Royal Naval Chaplaincy.

3102. Diversity Policy for Religion and Belief

a. The Naval Service’s Diversity and Inclusion policy is at Chapter 30.

b. The policy is that religion is a private life matter lived out by individuals and communities within the public arena. In order to recognise and harness individual difference and to remove any barriers which might prevent people from joining the Armed Forces, the aim is to give those who wish to do so the opportunity to practise their religious observances wherever possible, subject to vital considerations of operational effectiveness, health and safety and business needs. It is important that in applying this policy the needs of individuals are balanced with those of their colleagues and the organisation as a whole.

3103. Equality Act 2010

a. The Equality Act protects everyone from discrimination on grounds of their religion or belief including Christians, Muslims, Jews, Hindus, Sikhs, Buddhist and members of other religions, as well as humanists and atheists.

b. The Act creates a single equality duty requiring public bodies to have due regard to the need to eliminate discrimination, harassment, and victimisation and other conduct prohibited under the Act; advance equality of opportunity; and foster good relations.

3104. Religious Observances at Work

a. Religious belief is treated as a private matter but, recognising the unique and demanding circumstances of Service life, the Armed Forces aim to facilitate and support individuals’ spiritual needs. The Armed Forces make every effort to respect and accommodate religious or belief requirements subject to vital considerations of operational effectiveness and health and safety. However, individuals may need to be flexible, particularly when this is in the interests of their own safety or that of their colleagues.
b. Commanding Officers and line managers should consider whether policies, rules or procedures indirectly discriminate against service personnel of particular religions or beliefs and, if so, whether changes might be made. Most needs will require little or no change.

c. Service personnel should not be compelled to attend religious services be that of their own belief or one different to their own.

d. Service personnel are required to attend Parades, Divisions and other ceremonial events or musters of the Ship’s Company which may, by long standing tradition, include short services of worship, prayer or reflection. They are required to follow all Parade Orders including the removal of headdress (except as detailed at Para 3825 sub para g), and to remain on Parade as ordered for the duration of the service. They are not required to follow the actual act of worship, prayer or reflection.

3105. Facilities for Prayer during the Working Day

a. The Equality Act 2010 does not say that employers must provide time off or facilities to enable personnel to meet religious observances in the workplace. However, reasonable requests must be considered objectively and met wherever practical. Indeed, blanket policies or refusals may constitute indirect discrimination unless justifiable as a proportionate means of achieving a legitimate aim (e.g. where the granting of leave for a religious holiday would substantially impact on a unit’s or department’s need).

b. Some religions require their followers to pray at specific times during the day. Although the Act does not specifically require the provision of time and facilities (such as a quiet room) for religious or belief observance in the workplace, it is MOD policy to make such provision where circumstances allow. Individuals should discuss their needs with their Commanding Officers or line managers and every effort should be made to accommodate such needs. Time off for religious observances such as a prayer session during exercises or operations may have to be delayed or deferred due to unit activities. Wherever practicable, areas for worship or contemplation should be made available in all MOD Buildings and Service establishments, including ships and submarines. Personnel will normally be expected to use break times for their religious observances.

3106. Requests for Leave for Religious Festivals/Holidays

a. Many religions or beliefs have special festivals or spiritual observance days and an individual may request annual leave to celebrate festivals or attend ceremonies. Commanding Officers and line managers should make every effort to allow individuals time-off to celebrate religious festivals or holidays.¹

¹ JSP 760, Section 6 - Sacred Festivals.
b. Requests for annual leave for religious festivals or holidays need to be considered objectively and Commanding Officers and line managers should bear in mind the need to avoid indirect discrimination. Care should be taken to ensure that, where there are numerous requests for leave at the same time, decisions on who should or should not be allowed leave are made according to fair and objective criteria with a mind to the need not to indirectly discriminate. It is important not to make assumptions on the basis of an individual’s religion or perceived religion (for example that non-Christians will be prepared to work during the Christmas holiday period).

c. The practice of operating a holiday system whereby the unit closes for specific periods when all personnel must take leave may be indirectly discriminatory in preventing individuals from taking leave at times of specific religious significance. However, such indirect discrimination will not be unlawful if it can be justified as legitimate and proportionate for operational reasons.

d. Individuals should give as much notice as possible when requesting leave and bear in mind that a number of their colleagues may request leave at the same time.

3107. Dress
The Naval Service recognises the need to observe specific codes of dress and appearance in accordance with particular religious beliefs. Naval Uniform Regulations cover this at Chapter 38 of this BR, notably at Para 3817 - Para 3821 and at Section 2 (Cultural and Religious Differences).

3108. Dietary Needs
The Armed Forces make every effort to cater for all special religious dietary requirements, and vegetarian options or Halal or Kosher meals can be provided in Service Mess facilities. It should be noted that the preparation of Kosher food by Mess staff in strict observance of the Jewish faith cannot be guaranteed. This also applies to the preparation of Halal food with regard to the Muslim faith. Vegetarian, Halal and Kosher Operational Ration Packs are normally readily available for operations and exercises, however, in some circumstances or operations it may not be possible to guarantee this. Sikh Service personnel require an alternative meat selection to the Halal or Kosher option.

3109. Fasting
Some religions require their followers to undergo extended periods of fasting (e.g. Muslims fast during Ramadan). In the Armed Forces fasting should normally be allowed although there may be some operational circumstances when the physical demands on an individual are high and fasting would be hazardous and inappropriate. Care should be taken to ensure that permitting an individual to undertake a fast does not place unreasonable burdens on other personnel.
3110. Spiritual Needs of Personnel

a. Commissioned Armed Forces Chaplains, both full-time and reservist, are currently drawn from the main Christian denominations to which the majority of Service personnel belong. They have a responsibility to provide spiritual and pastoral care for all Service personnel and their families, both for those within their own denomination and faith and for those who profess no religious affiliation. Additionally there are civilian, part-time, Officiating Chaplains to the Military (OCM), who provide support on a local level.

b. The Armed Forces have appointed five full-time World Faith Chaplains from the Buddhist, Hindu, Jewish, Muslim and Sikh faiths. They advise on matters specific to those faith groups, provide internal advice to MOD and raise awareness of their faith traditions within the Armed Forces. They are administered through the Royal Army Chaplains Department but can be contacted through any military chaplain.

3111. Chaplain of the Fleet (COTF)

a. The Naval Chaplaincy Service (NCS) is led and managed by the COTF who is responsible to the First Sea Lord and Chief of Naval Staff (1SL/CNS) for the provision of a Chaplaincy Service. In this role the COTF ensures that the spiritual and pastoral needs of all Service Personnel, including those of the main World Faiths and those of none, are met. He is responsible for enhancing the Moral Component of Operational Capability through the delivery of sufficient, capable and motivated chaplains.

b. The COTF is line-managed by the Second Sea Lord (2SL) as the PPO and is a member of his Naval Service Personnel Board (NSPB). COTF is also a member of the Armed Forces Chaplaincy Policy Board (AFCPB) along with the Army and RAF Head of Chaplaincy Services (HoCs). The AFCPB provides a forum for decision making across the 3 Armed Forces’ Chaplaincy Services.

c. The COTF is based in Navy Command Headquarters (NCHQ) and is accorded 2* status. A copy of COTF’s ToRs can be found in BR 439.

3112. Naval Chaplaincy Service Organisation

a. The Deputy Chaplain of the Fleet (DCOTF) is responsible to COTF for the delivery and operational capability of the NCS.

b. The career management of chaplains is undertaken on behalf of COTF by the Executive Assistant (EA).

c. The three denominational groupings (Anglican, Roman Catholic and Church of Scotland and Free Churches) are each headed by a Principal Denominational Chaplain (PDC) appointed by their Sending Church or Group. They are responsible for ecclesiastical issues and ecclesiastical discipline only.
3113. COTF Policy Board (COTFPB)

a. The COTF is assisted in his policy making duties by his Policy Board which consists of the DCOTF, PDC, the Regional Chaplains, the RM Bde Chaplain, Reserves Chaplain and the EA/CM to COTF.

b. Policy Board members have a duty to represent the considered views of their chaplains, provide advice to COTF in the formulation of chaplaincy specific policy and also act a communication conduit between COTF and the Branch.

3114. Regional Chaplains

Regional Chaplains act as the Regional representative (Northern, Southwest and Eastern Regions) at the COTFPB representing chaplaincy within that area. As COTFPB member, act as co-ordinator for chaplaincy provision across their respective areas (utilising PORFLOT and DEVFLOT co-ordinators in the Naval Bases for chaplains in those organisations).

3115. Chaplaincy Team Leader (CTL)

The role and function of the CTL is described in the NCS Code of Practice. CTLs have delegated functional responsibility over other chaplains appointed to a task group, unit or shore establishment for the delivery of chaplaincy in accordance with NCS policy. Generic Terms of Reference (ToRs) for CTLs can be found at Annex 31A.

3116. Naval Base Chaplaincy Teams

a. Naval Base Chaplaincy Teams consist of all chaplains situated within a Naval Base, irrespective of the Command they are appointed to within that Naval Base. Each team will be characterised by a mutuality of prayer, support and communication. This will enable the chaplaincy team to meet the key outputs within that Naval Base and the Naval Service personnel located there.

b. Mutual support means that chaplains appointed to sea-going or deployable units will not have their deployed programme impinged upon by strict adherence to a Duty chaplain Rota where they are nominated to hold a duty. Cover for a deployed chaplain’s duty will be arranged using other team members who should be willing to cover the duty in order that front-line commitments are able to be met.

3117. Flotilla Chaplains

Chaplains appointed to Flotillas will serve as part of a pool of chaplains. In order to provide them with a sense of ‘ownership’ of ships, each chaplain should be allocated ‘clusters’ of Frigates and Destroyers so that a Ship’s Companies will become familiar with ‘their chaplain’, thus fostering good pastoral practice on a quasi parish model. The relevant CTL in the Base Port will provide overall management of Flotilla chaplains on behalf of Captain Surface Ships. Such management should not be seen as prejudicial to the line authority exercised over chaplains by Commanding Officers.
3118. Role and Responsibilities of the Naval Chaplain

a. Naval chaplains are called to serve as Ministers and Priests of the Christian Church and other world faiths. They are commissioned by Her Majesty the Queen, to provide for the spiritual needs of all in the Naval Service and their families, preparing them spiritually, emotionally and morally for the demands and rigours of Service life.

b. Naval chaplains also serve the Command and the wider Naval community, through effective pastoral care as the ‘friend and adviser to all on board’, working with other agencies, both at sea and ashore, in peace and war, to enhance the readiness, resilience and resourcefulness of Service people and their families.

c. Responsibilities of the chaplain include:

(1) Delivery of ‘all souls ministry’ to those of all faiths and those of none.

(2) Practical pastoral care for Service personnel and their families:

(a) Delivering as guardians of the Service’s moral compass.

(b) Behaving as the indispensable and confidential ‘friend and advisor to all’.

(c) Ensuring that their conduct and way of life reflects their sacred calling and maintaining the highest standard of professionalism, leadership and personal example.

d. Supporting the Chaplain. Chaplains in the Naval Service represent a unique resource that can assist by taking a considerable load from busy Divisional and Regimental Officers and enhance the depth of care the Service offers to personnel. In order to make best use of this resource, chaplains themselves need appropriate support. In particular, they need adequate accommodation and ready access to personnel. A chaplain who is therefore welcomed and encouraged to become fully involved in the life of a unit or establishment will be a positive asset whose benefit far outweighs any inconvenience caused by the need to accommodate another person in a crowded ship or unit.

e. While a chaplain works with and alongside the XO and the executive department, they do have a separate identity and therefore are accorded HOD status and direct access to CO.

f. There is a relationship between the accommodation available on a ship, the chaplain’s place in a ship and the length of time which a chaplain can spend in a FF/DD. Guidelines as to what is appropriate are as follows:

(1) Temporary sleeping arrangement and no dedicated working space - up to 2 weeks.

(2) Shared cabin but no dedicated working space - up to 8 weeks.
g. **Authority.** When revising a chaplain’s ToRs, or updating Management Plans, the following definitions apply:

1. **Line Authority.** Line Authority denotes executive and command lines of authority that establish chaplaincy relationships within a ship, RN or RM unit or establishment.

2. **Functional Authority.** Functional Authority denotes the means of implementing chaplaincy activities in pursuit of COTF’s policy. COTF delegates functional authority to Policy Board members and CTLs as appropriate. At all times, when dealing with this facet of management, pragmatism and good communication must be cornerstones.

3. **Ecclesiastical Authority.** Ecclesiastical Authority denotes the specific ecclesiastical responsibility vested in PDCs by the Endorsing Authorities. Such authority is purely denominational and is used to provide authoritative leadership, discipline and guidance in matters appertaining to particular denominational groupings. PDCs must ensure good liaison between themselves and Line/Functional Chains of Command.

**3119. Denominational Commitments**

a. Remaining in touch with respective Sending Church (SC) communities is clearly important and ensures strengthened links with local community. There is, however, a balance to be struck between spiritual sustainment and primary focus of caring for the men and women of the Naval Service. It is therefore reasonable to provide guidance on what constitutes a realistic level of denominational engagement.

b. In consultation with the Sending Churches, the PDCs have agreed that a chaplain should reasonably be expected to undertake the following engagement with their SC:

1. Annual retreat (5 working days, but not in addition to a personal retreat).

2. Denominational events such as Conferences, Synod, General Assembly, Lourdes (up to 5 working days annually), Quarterly attendance at Chapter/Presbytery (4 x ½ days).

3. Denominational commitments do not include the NCS Annual Conference and other single Service or tri-service denominational or branch conferences (CE, SF or RC) at Armed Forces Chaplaincy Centre.
c. Chaplains should therefore limit themselves to up to 12 days away from their place of duty on denominational business ensuring that their CTL and/or CO are informed as to whereabouts and planning ahead through team meetings as appropriate.

3120. Confidentiality

a. The Naval Service recognises that professional confidentiality is an integral component of the pastoral care that chaplains offer to naval personnel. Such confidential support sustains the wellbeing of the individual and so enhances the individual’s contribution to the Naval Service.

b. For Roman Catholic and Anglican chaplains, in accordance with canon law, confidentiality in formal sacramental confession is inviolable entailing no reporting whatsoever to a third party.

c. Pastoral encounters between chaplains and naval personnel remain strictly confidential. Guidance published by HM Government\(^2\) articulates good practice that should be adhered to on the safeguarding of children and vulnerable adults. Exceptionally, there may be occasions when a chaplain needs to share sensitive information with appropriate authorities, without the consent of the service person, “if there is reasonable concern that a child or adult at risk has been abused, or may be at risk of harm, where sharing information without the person’s consent will override the requirement to keep information confidential”\(^3\). The chaplain should first encourage the person to disclose the information themselves. If the chaplain feels obliged to refer against the person’s wishes, then the chaplain must inform the person of his intentions, and what is to be reported and to whom.

d. The law on confidentiality, and any definition of what constitutes good practice, is complex and where chaplains are unclear they are to refer to their respective Sending Church guidance\(^4\) and/or seek advice from the COTF’s office or their respective PDC.

3121. Retreats

Chaplains are to attend a one week retreat annually. While funding for retreats may be claimed from public funds, financial probity should be exercised in accordance with JSP 752 Art 04.0101. Retreats taken outside the UK should be approved both by the Commanding Officer and DCOTF\(^5\).

3122. Pastoral Workers

Pastoral Workers (PW) are civilians recruited and paid for by Aggie Weston’s to provide support to chaplaincy ashore. PWs are integral members of chaplaincy teams and are line managed by the chaplain, or by the CTL in a chaplaincy team. The PW has Senior Rate status for messing etc.

\(^3\) Church of Scotland Safeguarding Handbook, p43.
\(^5\) BR 439, Section 010318 - Retreats.
3123. **Church Officers**

a. Church Officers are an administrative, not a ministerial appointment made by Commanding Officers of HM ships and submarines. They are appointed to assist the Commanding Officer in providing church services when there is no chaplain embarked. They may be of any rank, rate or denomination, but are to have suitable demeanour and organisational skills. Chaplains should make it their special care to ensure that a suitably committed person is proposed as Church Officer in preference to an individual being pressed into the post.

b. **Tasks.** Church Officers should co-ordinate arrangements for the provision of Sunday and other church services at sea. Alongside they should publish the times of local church services. They should be aware of the regulations in QRRN and BR 439 concerning applications for marriage, baptisms etc.

3124. **World Faiths Chaplains**

a. Chaplains from the 5 main World Faiths, other than Christianity, are appointed as World Faiths Chaplains for the support of Jewish, Buddhist, Hindu, Muslim and Sikh Armed Forces personnel. Names, addresses and contact details of these chaplains may be obtained from NCS contact list.

b. Questions regarding religious practice or religious festivals for adherents of the Buddhist, Hindu, Jewish, Muslim and Sikh faith communities should be addressed initially to the appropriate World Faith Chaplain. DCOTF should be made aware of any serious issue or requirement for policy change.

c. With the consent of the individual, chaplains may forward details of Sikh, Hindu, Buddhist, Islamic and Jewish personnel in their ships/units to the appropriate World Faith Chaplain.

3125. **Shared Use of Naval Churches - Guiding Principles**

a. Where there is only one chapel or church available on an establishment, then this shall be regarded as ‘shared’ in status. In order to ratify this, a ‘shared’ use agreement is to be endorsed by the three PDCs; a generic version of this agreement is available at Annex 31C.

b. The designation of a Royal Navy chapel or church as ‘shared’ is an ecumenical task and needs to be approached with a commitment to best ecumenical practice and strong ecumenical witness. The aim must not be to provide the lowest common denominator, but to find the best and integrated way to order a chapel so that those from different Christian traditions and none will identify with the sacred space they find within, whilst avoiding that which may cause unnecessary dissonance or offence.

c. In order to achieve this aim, all involved parties will need to demonstrate respect for and understanding of the traditions, symbols and practices of those who will use the chapel. Cooperation, negotiation, concession and conciliation should be paramount in this process.
d. This will ultimately mean that individual chaplains and their teams must respect portable furnishings, vestments and items of devotion which do not necessarily support their chosen liturgical or spiritual expression. These items may be taken out of use but must be retained and stored within the chaplaincy itself for the purposes of their successors and not disposed of.

e. Those requiring any clarification regarding the process and use of a ‘shared’ area are to do so either via their PDC or through the COTFPB.

3126. **Provision of Churches and World Faith Prayer Rooms**

a. **Churches.** Commanding Officers are responsible for initiating administrative action through their Property Manager/Site Estate Representative for the provision of churches and church rooms permitted under the appropriate scale (JSP 315). When a church or church room is not available, Commanding Officers are to ensure that adequate and worthy accommodation is made available for the conduct of worship.

b. **World Faiths Prayer Rooms.** A practising member of a faith group deployed on board ship or in an establishment is to be afforded the provision of a space which may be used as a prayer room. Where adherents of the world faith groups do not have the requisite furniture and/or items of religious significance which are essential to the practising of their faith, the local budget holder should be approached for assistance in securing such items.

c. **Armed Forces Chaplaincy Centre (AFCC).** The AFCC, as part of the Defence Academy, is able to offer a wide variety of residential courses. Besides supporting the service chaplains, the Centre offers many courses for those who are interested in developing their ability to work with people in the Service community.

   (1) Courses are aimed at enhancing both personal skills and the skills required in the pastoral care of Service personnel and their families. This site – http://www.da.mod.uk/prospectus - gives details of the courses and an application form which can be downloaded and completed.

   (2) As a Chaplaincy Centre, Amport House can offer a unique atmosphere where people of any rank and background can work, dine, learn and relax together in a private and secure location.
3127. Church Services and Ceremonies

a. Sunday Services at Sea.

(1) The provision of worship on a Sunday is the responsibility of the ship’s Commanding Officer. When no chaplain is embarked, the COTF authorises a Service for use in the ship. When a chaplain is embarked the content of the service is the chaplain’s responsibility.

(2) NCS Policy is that the main Sunday Church service at sea is ecumenical, non Eucharistic and open to all, with Eucharistic provision made at a separate time.

b. Sundays when Abroad.

(1) Sunday service is not normally held when the ship is alongside, but this is at the discretion of the Chaplain and the CO. If no service is held on board, then a list of local Churches, along with addresses and service times, should be made available from the Visiting Officer in order for Ship’s Company to be aware of what is available in the port.

(2) If a port has a Naval presence and a Naval Chaplaincy, it is appropriate for the Ship’s Chaplain to call on the local chaplain. If there is no chaplaincy presence then it is appropriate to call on local ecclesiastical hierarchy.

c. Marriages.

(1) Marriages Abroad. Chaplains should give every support to couples intending to marry abroad. In the case of a civil ceremony, the High Commission or Embassy of the country concerned should be consulted well in advance in order to overcome any procedural difficulties. In the case of a church marriage, the local ecclesiastical authorities must be consulted to ensure that there is no breach of canon law or courtesy. It must be checked whether a marriage abroad should be registered locally.

(2) Marriage in HM Ships. Royal Navy vessels, including Royal Fleet Auxiliaries, are not registered places for marriages, for either civil or religious ceremonies, even abroad. Preliminaries for marriage may be carried out on board if the regulations are satisfied (QRRN Chapter 61). Banns may only be called by an Anglican Chaplain or the Commanding Officer.

---

The term Eucharist encompasses Holy Communion, Sacrament of the Lord’s Supper, Holy Mass as appropriate to a chaplain’s tradition.
(3) **Marriages – use of Anglican Churches by CSFC and RC Personnel**

(a) Certain Anglican churches and chapels may be used for the solemnisation of non-Anglican marriages. The approved churches/chapels are:

- Britannia Royal Naval College Chapel, Dartmouth.
- The Church of St Ann's, HMNB, Portsmouth.
- The Church of St Nicholas, HMNB, Devonport, Plymouth.
- The Fleet Air Arm Memorial Church, Yeovilton.
- Saint Alban’s Church, CTCRM Lympstone.

(b) Chaplains wishing to arrange a marriage in one of the above churches/chapels must apply to the Anglican Chaplain of the establishment or unit before any undertaking is made. Non Anglican Chaplains should be aware of Anglican marriage discipline regarding the marriage of divorced persons. The Archdeacon can advise.

(4) **Same Sex Marriages (SSM).** Currently none of the Sending Churches which licence RN chaplains, authorise their chaplains to conduct SSMs.

d. **Baptisms**

(1) No baptism can be arranged on board without prior consultation with the Commanding Officer, the Unit’s chaplain and the appropriate PDC; or in their absence the appropriate Naval Base chaplain.

(2) The surroundings must be as dignified as possible. If a social occasion is to follow in the same space, care is to be taken to ensure that the dignity of the occasion is not compromised.

(3) Care should be taken to ensure that the Service is conducted in as reverent a way as possible. Pipes should not be made and the Church pennant should be flown.

(4) If a civilian Minister or Priest is invited to conduct a Service of Baptism on board, approval must be obtained from the appropriate PDC.

(5) Details of the Baptism are to be recorded in the Ship’s Log.

(6) It has been custom in the past for the names of those baptised on board to be engraved on the ship’s bell. No provision is made in public funding for this purpose.

(7) In all cases, baptisms are to be recorded denominationally in the appropriate registers at the Base Port according to individual Church norms. Joint Chaplaincy baptismal registers are not to be used.
3128. **Death in Service**

Visiting/Assisting Officers who provide assistance and advice to families in cases of death in service should take account of any specific requirements relating to the religion or belief of the bereaved and of any funeral, burial or cremation arrangements which may arise as a result. Advice should be sought from casualty staff and/or COTF’s office, the appropriate World Faith Chaplain, Service Chaplains or Service Religious Advisors where appropriate. In circumstances where death occurs in combat or operations, bodies of the deceased will normally be repatriated to the UK.

3129. **Burial at Sea and Committal of Ashes at Sea**

a. During peacetime the burial of a body at sea is not normally permitted. No commitment should be entered into with next-of-kin for burial at sea without consulting DCOTF.

b. The Naval Service offers the facility for the Committal of Ashes. Chaplains should be familiar with individual Naval Base procedures so that all requests are processed correctly. Ashes may be committed from warships on certain occasions, but this will normally only be approved in the case of persons serving at time of death. “DIY” committals of ashes should be actively discouraged.

c. For practical reasons ashes must not be literally scattered at sea. The ashes should be stored in a weighted, vented and unmarked container/casket. The Naval Base chaplaincy CTL will be able to provide current regulations regarding the casket required. The casket is to be treated as a coffin and is to be covered by a small Union Flag. The White Ensign is not to be used.

3130. **Emergency Burial**

Chaplains on front line duty carry an emergency order of prayers for the five main minority faith groups (Buddhism, Hinduism, Islam, Judaism and Sikhism) as well as Christianity. This is to permit the battlefield burial of deceased Service personnel in the extremes of a combat situation where repatriation may not be feasible. Repatriation is the usual course of action.

3131. **Memorial Services**

a. In the event of the death of a member of a Ship’s Company it is appropriate for Memorial Services to be held for those on board who are unable to attend a funeral. This should be done in liaison with the ship’s chaplain, who will assist in compiling an order of service. This service can be held on board or if alongside at a local Naval Base church. If at a local Naval Base church then this should be arranged in conjunction with the establishment’s CTL.

b. It is suitable for a chaplain to be asked to conduct a wreath-laying service if it is intended for either a ship to stop over the spot where a Royal Navy ship sank, or a visit to a War Graves Cemetery ashore. QRRN details the occasions when the cost of a wreath may be borne by public funds – IAC is 1L9 6391 and these can be obtained from a local RBL branch or by calling 01622 795802. Ships should ensure that they have sufficient poppy wreaths for an entire deployment and that the appropriate fund is used.
3132. Commissioning, Re-Dedication and De-Commissioning Services

a. Chaplains should liaise with DCOTF at an early stage when a ceremony is being planned. No commissioning or re-dedication is to occur without the knowledge of COTF. While the service of commissioning or re-dedication is arranged by the Commanding Officer, the ship/unit’s chaplain should be consulted with regard to the order of service. Previous orders of service are available from DCOTF.

b. COTF normally conducts all commissioning services, regardless of the size of the ship, submarine or unit. DCOTF normally conducts re-dedication services. The chaplain with direct responsibility for the ship/submarine/unit concerned will normally be robed and participate in such services.

3133. Ecumenical Services

Traditional occasions on which ecumenical services are held are Remembrance Sunday, Seafarers’ Sunday, commissioning services and re-dedications of HM ships and dedications of colours. Guidelines of permitted ecumenical occasions can be found in BR 439.

3134. Conscientious Objection

Armed Forces personnel have a liability to deploy with their units worldwide. There are well established appeal procedures for Service personnel who, during their service, develop a genuine conscientious objection to further military service. A member of the Armed Forces who develops an objection to future military service should make that objection known to their Commanding Officer.

3135. Other Religious Movements (including Cults and Sects)

Some Other Religious Movements, including cults and sects, may be damaging to Operational Capability and to the well-being of individuals and the Command is to be kept informed of any individual that may fall into this category. Chaplains should be aware, however, of the provisions of the Religious Freedom Act (2004) and of regulations relating to an individual’s right to change their religious affiliation under JPA.
GENERIC TERMS OF REFERENCE FOR THE CHAPLAINCY TEAM LEADER (CTL)

1. Preamble
   The chaplains at xxxx form an integrated and ecumenical team. A CTL is appointed by
   the DCOTF to co-ordinate the work of the chaplaincy and to be responsible for the delivery
   of chaplaincy outputs. This appointment does not impinge in any way upon the equal status
   of the three chaplains at xxxx but is merely a tool to enable effective use of personnel and
   resources. All three chaplains retain their denominational integrity and responsibility and the
   right of direct access to the Commanding Officer in the course of their professional and
   pastoral duties.

2. Purpose
   a. Primary Purpose. To effectively co-ordinate the work of the chaplaincy team
      within HMS xxxx and its lodger units to ensure delivery of the highest possible
      standards of spiritual and pastoral care to Command.
   
   b. Secondary Purposes
      
      (1) To co-ordinate the work of the chaplaincy team within HMS xxxx to
      contribute to the well-being of HMS xxxx in delivering spiritual and pastoral care
      to its service community through achievement of the primary purpose.

      (2) To co-ordinate the training of New Entry Chaplains as required.

      (3) To represent and act as a conduit of information to the respective Naval
      Chaplaincy Service (NCS) nominated Regional Chaplain through to Chaplain of
      the Fleet Policy Board (COTFPB) and the Commanding Officer of his/her
      establishment and chaplaincy team.

3. Accountability
   a. The CTL is accountable to the Commanding Officer in all matters of naval
      discipline and for the achievement of their purposes.

   b. The CTL is functionally accountable to the COTF for the maintenance of
      professional standards and duties.

   c. The CTL is accountable to their Sending Church via their Principal
      Denominational Chaplain (PDC) in matters of ecclesiastical discipline ensuring the
      Chaplain of the Fleet or Deputy Chaplain of the Fleet are informed as appropriate.
4. Authority
   a. The CTL has delegated functional authority over the other chaplains in the chaplaincy team to achieve the Primary Purpose.
   b. The CTL has line authority over all other, non-chaplain, members of the chaplaincy team.
   c. The CTL has delegated financial authority from the Commanding Officer for xxxx.
   d. The CTL has authority to liaise with internal and external stakeholders in the execution of his/her duties.

5. Organisation
   A typical organisational relationship may look as follows but should be adapted as required by each unit:

   **Figure 31A-1. Chaplaincy Organisation**
6. **Principal Tasks**

a. Enable the process of consultation and information exchange within the chaplaincy team.

b. Initiate consensual planning and decision making concerning chaplaincy tasks.

c. Be responsible for ensuring that policy and practices agreed by the chaplaincy team are implemented.

d. Act as a conduit of communication between the chaplaincy team and the Commanding Officer and vice versa.

e. Ensure that the work and concerns of chaplaincy are represented at all appropriate executive, planning and management levels within the life of the Establishment (though not necessarily by the CTL).

f. Co-operate with the Career Manager in their responsibility for the delivery of NCS wider outputs.

g. Manage the Non-Public Funds of the chaplaincy.

h. Manage chaplaincy staff and raise reports as required for those under his/her line authority.

i. Enable the development of the unit Chapel as a place of spiritually fresh and culturally relevant worship.

j. Facilitate the growth of unit personnel within their faith tradition.

k. Co-ordinate and deliver the Royal Navy’s chaplaincy and Moral Component syllabus as required by the establishment.

l. Maintain a close liaison with the unit welfare and medical organizations, in particular through the Carers Forums.
ANNEX 31B

GUIDELINES FOR RELIGIOUS MINISTRY AND CHAPLAINS CO-OPERATION IN A MULTINATIONAL ENVIRONMENT

1. Religious Ministry in Principle

   a. Freedom of religion and to manifest its practice is a human right. Therefore the religious tradition of each person has to be respected.

   b. Personal care, including religious ministry is a national responsibility. Organisation of military chaplaincy depends on national regulations.

   c. Therefore, even in multinational force operations, military chaplaincy is executed under national responsibility.

   d. The national regulations (see b above) may influence amongst others:

      (1) The length of tour.

      (2) The relation to the respective Commanding Officers.

      (3) The status (militarily and ecclesiastically).

      (4) The field of responsibility (militarily and ecclesiastically).

      (5) The ecumenical co-operation.

      (6) The religious support (e.g. pastoral care, ministry of presence, liturgy, and ethical lectures) provided.

2. Chaplains Co-ordination and Co-operation

   a. National regulations of the participating chaplaincies will govern the co-operation between the respective elements. As a means to ease the co-operation the differences between participating nations should be identified and addressed.

   b. The position / function of a co-ordinating chaplain could be helpful.

3. Structure of Co-ordination

   a. If required a co-ordinating chaplain should be established to the coalition force as a member of the staff.

   b. The co-ordinating main tasks to provide a comprehensive ministry include:

      (1) Collecting necessary information from participating chaplains, particularly with respect to the issues laid down in 1d above.
(2) Initiating meetings of chaplains in the AOR.

(3) Collecting issues concerning chaplaincy in Operations Plans and Orders.

(4) Being a POC for information about possibilities of religious support in the AOR.

(5) To advise the commander of the coalition force and the staff concerning the religious care for all personnel.

(6) To advise on matters pertaining morals, morale and ethics as they pertain to the command.

(7) To offer religious ministry to the coalition staff meetings, where appropriate.

(8) To take part in the coalition staff meetings, where appropriate.

(9) To co-ordinate and conduct chaplains’ activities in case of bigger incidents (debriefing, memorial services, reintegrating briefings etc).

(10) To help coordinate religious service to units without a chaplain, if requested.

c. Topics of chaplains’ co-ordination meeting could be:

   (1) Sharing information (staff → units and vice versa).

   (2) Taking care of each other.

   (3) Sharing experiences.

   (4) Preparation of special services of common interests etc.

d. The instrument of a coordinating chaplain does not replace or influence the national Chain of Command of each participating chaplain.

4. Competences for Chaplains Co-operation

   a. Holding in mind that chaplains have to take in to account national requirements and structures, a co-operating attitude is encouraged.

   b. This requires in a multinational force operation:

      (1) The respect for national and denominational traditions and particularities.

      (2) The readiness to participate in a consultations process.

      (3) The willingness to reach consensus if possible.

      (4) The preparedness to offer mutual support.
ANNEX 31C

AGREEMENT FOR THE SHARED USE OF THE CHURCH OF XXXX, AT XXXX

1. The Church of xxxx at xxxx, is a designated shared naval church.

2. The policy for, and ordering of, the church is agreed by the Chaplain of the Fleet’s policy Board, which remains the final point of reference for the management of the facility.

3. The routine management of the church is delegated to the Chaplaincy Team Leader, xxxx.

4. Chaplains whose appointments involve the pastoral care of xxxx personnel have equal right of access to, and use of, the church.

5. Chaplains have the right to use the forms and ceremonies of their Sending Churches within xxxx.

6. Other chaplains requiring the use of xxxx are to liaise with the Chaplaincy Team Leader.

7. All users must return the church to its agreed order upon completion of use.

8. Detailed principles for the ordering of this shared worship space can be found in BR 439.

CHAPTER 32
SERVICE FUNDS, CHARITIES & ASSOCIATED ORGANISATIONS

SECTION 1 – PROVISION OF SUPPORT TO CHARITIES

3201. Introduction

The Third Sector Section is the Naval Command’s focal point for Third Sector (including charities, not for profit organisations, associations, heritage and museums) issues, interactions, policy and guidance. The Third Sector Section sits within the Command Secretary’s area of the Naval Command Headquarters and its role is to provide greater clarity, consistency and focus with respect to Navy Command’s interactions with the Third Sector, to define policy and provide the focal point/representation for dealings with Third Sector entities, including the RN resources that could be offered (in accordance with Departmental guidelines) to requests for Naval Service support.

3202. Further Guidance

The Navy Command’s Guide to the Provision of Support to Charities and Other Third Sector Organisations can be found on the Charities and Heritage webpage on the RN intranet. The guide is to be used when dealing with requests for support, sponsorship and assistance from Third Sector organisations (including Service charities). Following the guide will ensure that all requests for support to charities are processed properly in accordance with Treasury and Departmental guidelines, to the same set of principles and consistently across the Naval Service.
SECTION 2 – SERVICE FUNDS - GENERAL

3203. Introduction
This section gives details of non-public funds, which have Charitable status and exist to support the moral component of fighting power by providing funds for charitable purposes including the provision of facilities and amenities for education, recreation and entertainment, and otherwise financial support and benevolence for the mental and spiritual needs of serving and ex-serving personnel and, in necessitous circumstances, their dependants. Advice on any aspect of these funds may be obtained from the point of contact for this Chapter. The Chapter also lists a few of the other organisations which may provide support to Service and ex-Service personnel and their families.

3204. Service Funds - General

a. Service funds are non-public funds set up to promote military efficiency and as such come within the definitions of charitable purposes in Section 3.1(l) of the Charities Act 2011 (applicable in England and Wales) which states that "The promotion of the efficiency of the armed forces of the Crown, or the efficiency of the police, fire and rescue services or ambulance services". Although charity laws in Scotland and Northern Ireland do not have such a specific purpose, the objects of military charities are accepted under other general purposes in these jurisdictions.

b. Public Benefit. The 2011 Charities Act also specifies that, in addition to having a purpose listed in Section 3.1 of the Act, charities must benefit the public. Service Funds and charities are therefore required to prove their public benefit and an example clause for this purpose has been adopted for inclusion within the constitution of Service funds as follows:

“This fund provides public benefit by assisting Service personnel to more effectively perform their roles within the armed forces of the Crown (or Royal Navy). This assistance enables Service personnel to face the challenges and danger associated with military service by developing and maintaining teamwork; skills; confidence; spirit and attitude; and morale. As a result the fund promotes the efficiency of the armed forces of the Crown by enhancing the Royal Navy’s capability to undertake the roles demanded of it including the defence of the United Kingdom and its interests.”

c. Benevolence Funds. Benevolence funds (through block grants to other charities or on individual application) assist in alleviating distress or a proven financial need. In each case, eligibility in accordance with the objects of the fund and the beneficiary class is a determining factor.

d. Amenity Funds. Amenity funds are not provided to replace that which should be publicly funded, but rather to add that particular value that enhances facilities and recreational activities, thus improving the conditions of service for serving personnel, and where applicable the quality of life of their dependants. When making an application for Amenity Funding the Mixing of Public and Non-Public Funds on the Defence Estates needs to be taken into consideration.
e. **Accountability.** It is important that all expenditure of public funds by departments within the MOD complies with the rules and conventions of parliamentary and public accountability, and that corresponding regularity and propriety is observed by those who have been delegated financial authority.

f. **Scope.** Demonstration will be required on applications for capital spends for facilities that are not scaled items, or will not be adopted as core items, that future maintenance or replacement will be provided for from the organisation's own Non Public Funds and that these costs (the through life costs) have been fully assessed and can be met. Non Public Funds should not normally be used for scaled items that are provided for from the Service Accommodation Code. This guidance does not preclude requests to upgrade existing facilities already maintained by Public Funds where such improvements would enhance and improve the Conditions of Service for the men and women serving in the Naval Service.

### 3205. Service Funds – Composition and Regulation

a. A Service fund is a fund, comprised of money, stock and other assets, which is not the property of the Crown but which is used for the benefit of Service personnel to promote their well-being and efficiency. Non-Service personnel who contribute to the promotion of military efficiency are also entitled to benefit from such funds. The Crown has no liability whatsoever for any loss of cash, or loss or damage to stock or property, belonging to Service Funds. Such funds enjoy charitable status (so long as they are used solely for the benefit of those entitled beneficiaries listed above) and, are subject to the regulations of the Charities Act 2011.

b. Service funds are not private; they are official funds and their proper conduct is an integral part of the fabric of discipline and administration of the Royal Navy. Official support may therefore be provided for the maintenance, regulation and auditing of non-public funds. In circumstances where official support cannot be provided, the Commanding Officer may, in fulfilling the duties of Sole Managing Trustee, require the funds to be audited by a professional civilian accountant. The cost of such audits is not admissible as a charge against public funds but is an acceptable charge to the fund being audited.

c. **Non-Publicly Funded Activities.** The Department generally accepts no legal liability for activities of Service personnel assigned responsibility for activities which are wholly funded by non-public funds. A Commanding Officer is therefore to ensure that such activities have the requisite commercial insurance cover set out in single Service regulations.

d. **Managing Trustee.** Commanding Officers are the sole managing trustee of all Service funds existing for the benefit of the personnel under their command and as such they are ultimately responsible for ensuring that:

   (1) Each fund confines itself to its activities and expenditure for the purpose for which it was instituted.
(2) The finances are managed to the maximum advantage of the beneficiaries.

(3) The law as laid down in the Trustees Act 2000 is observed as far as investments are concerned. A copy of this Act is at www.legislation.gov.uk/ukpga/2000/29/contents.

e. **Regulations for the Conduct of Service Funds.** Regulations for the conduct of Service funds, together with accounting and audit advice are contained in:

   (1) **RN.** BRd 0018, *Management and Accounting Instructions for Service Funds* and further advice can be sought from NAVY SEC-3RD SECTOR SFA (93832 5234).

   (2) **RM.** AC 60450, Service Fund Regulations and further advice can be sought from NAVY OCGRM-RMSFA (93832 5235).

f. **Duties and Responsibilities.** All those involved in the administration of Service funds are to be fully conversant with their duties and responsibilities, as detailed in BRd 0018, *Management and Accounting Instructions for Service Funds* or, for Royal Marines, AC 60450, *Service Fund Regulations*.

g. **Guidance to Trustees.** A copy of the Trustees Act 2000 is available at www.legislation.gov.uk/ukpga/2000/29/contents. Advice and guidance is available from the appropriate Charity Commission (see contact details below) on the correct administration of Service funds and their view should be sought whenever a trustee needs to clarify whether a particular activity of a Service fund, or the beneficiaries of that activity, lies within the bounds of the Charities Act 2011. The contact details for the Charity Commissioners are:

   (1) **The Charity Commission for Charities in England and Wales:**

      (a) Online: http://www.charity-commission.gov.uk/

      (b) By post: Charity Commission First Contact, PO Box 1227, Liverpool, L69 3UG

      (c) Telephone: 0845 300 0218 (Mon – Fri, 0900 – 1700 hrs, except national holidays)

   (2) **The Office of the Scottish Charity Regulator:**

      (a) Online: http://www.oscr.org.uk/

      (b) Email: info@oscr.org.uk.

      (c) By post: Office of the Scottish Charity Regulator (OSCR), 2nd Floor, Quadrant House, 9 Riverside Drive, Dundee, DD1 4NY

      (d) Telephone: 01382 220446 (08:30 to 16:30 Mon – Thurs, 08:30 to 16:00 Fridays, except on Bank Holidays
(3) The Charity Commissioner for Northern Ireland:

(a) Online: https://www.charitycommissionni.org.uk/

(b) Email: admin@charitycommissionni.org.uk

(c) By post: Charity Commission for Northern Ireland, 257 Lough Road Lurgan, Craigavon, BT66 6NQ

(d) Telephone: 028 3832 0220 or TextPhone (028 3834 7639) Mon - Fri 09:00 to 17:00, except public holidays.
SECTION 3 - ROYAL NAVY & ROYAL MARINES CHARITY (RNRMC)
(Registered Charity No: 1117794 and SC041898).

3206. Overview

The Royal Navy & Royal Marines Charity (RNRMC) is the Navy Board’s single focus for naval charity, co-operating as closely as possible with the RN’s oldest charity, Greenwich Hospital, which was established as a Crown Charity by Royal Charter in 1694. The RNRMC is a fully independent charity and, following its formation, Greenwich Hospital has increasingly channelled its support to naval charity through the RNRMC. The RNRMC has three strategic objectives:

- to increase the amount of money available to all their beneficiaries;
- to increase the proportion available for benevolence; and;
- to achieve a single focus for Naval charity.

3207. Generating Funds

a. The RNRMC’s funds generate income to meet current needs from their own investments. As the RNRMC further develops its policies to meet the wider strategic environment, it needs to enhance its income in order to improve the assistance that may be provided. As such, all RN units are encouraged to place the RNRMC, as the Navy Board’s preferred fundraising charity, at the forefront of their own charitable and fund raising efforts. The Navy Board in June 2009 directed that The RNRMC be established as the prime beneficiary for all fund raising events that utilise naval assets. This was not designed to prevent ships’ companies from undertaking the enormous range of activities of charitable work, which does so much to add lustre to the reputation of the Royal Navy. The aim is to help focus attention on the Naval Service’s own charity and in dealing with requests from major charities, it will ensure that non naval charities, who may make considerable sums of money by using RN assets, follow the rules and be invited to make a donation to the RNRMC from the profits that are made from any event.

b. The RNRMC is the receiving charity for funds generated from the RN’s Charity Payroll Giving Scheme (see Section 9).

c. In practical terms of meeting the Navy Board’s remit that the RNRMC should benefit when other charities undertake fundraising activities using naval resources. The Navy Board suggested that other non-naval charities are invited to donate 15% of the clear profits to the RNRMC. Further advice is available from the point of contact for this chapter.
3208. Objectives
The objectives of the RNRMC are described as such charitable purposes as the Trustees shall from time to time think fit, including but not limited to:

a. The relief in need, hardship or distress of beneficiaries and their families and dependants;

b. The assistance with, provision of or contribution to the education, and training of children of Beneficiaries; and

c. The promotion of efficiency of the Naval Service and the Auxiliaries by way of the enhancement of morale, the improvement of recruitment and retention, and the further relief and encouragement, of men and women who are serving in the Naval Service or the Auxiliaries.

d. In summary, the RNRMC provides funds both to improve the quality of life of serving sailors and marines but is also the single biggest source of funds for charities that provide a whole range of through-life care to its beneficiaries.

3209. Beneficiaries
All personnel who are, or have served in the Royal Navy, the Royal Marines, the Women’s Royal Naval Service, the Queen Alexandra’s Royal Naval Nursing Service, Naval Reserve Forces or Auxiliaries and their dependants.

3210. Charities and Subsidiary Funds within the RNRMC

a. Naval Service Amenity Fund (see Para 3212).

b. Naval Service Prizes and Award Fund (see Para 3213).

c. Naval Service Sports Charity (see Para 3214).

d. Naval Service Dependants’ Fund (see Para 3215).

e. Fleet Air Arm Benevolent Trust (see Para 3216).

f. Sir Donald Gosling Maritime Reserve Amenity Fund (see Para 3217).

g. Naval Service Benevolence Fund (see Para 3218).

h. Queen Alexandra’s Royal Naval Nursing Service Trust Fund (see Para 3219).

i. Plymouth Royal Naval Aid Fund (see Para 3220).

j. Naval Medical Compassionate Fund (seePara 3221).

k. Royal Naval Benevolent Society for Officers (RNBSO) (see Para 3222).

SECTION 4 – RNRMC - MILITARY EFFICIENCY FUNDS

3212. Naval Service Amenity Fund (NSAF)

a. Objectives. The objective of the NSAF is to promote efficiency of the Naval Service by:

(1) The provision, support and improvement of facilities and activities for the recreation and amenity of Naval Service personnel and their dependants;

(2) The provision of financial assistance for travel and associated accommodation and subsistence expenses to:

   (a) Naval Service personnel on deployment and connected persons;

   (b) Naval Service personnel recruited from Foreign and Commonwealth counties; and

   (c) Connected persons (Naval Service Assisted Passage Scheme).

(3) The provision, maintenance and support for any church, chapel or other place of worship or any religious activity for the benefit of Naval Service personnel and their dependants;

(4) The provision and support of recreational activities, patient comforts and amenity facilities, for those Naval Service personnel under medical care.

b. Beneficiaries. Personnel who are serving in the Naval Service or Auxiliaries and their dependants.

c. Provision. The following are among those requests that can be supported by the NSAF.

(1) Audio Visual Equipment;

(2) Recreational and entertainment items and facilities;

(3) Mess Refurbishment or Enhancements;

(4) Naval Service Assisted Passage Scheme (Loans) (See Annex 32A)

(5) Ships’ Commissioning and De-commissioning Ceremonies;

(6) Personnel De-compression Events, homecomings, Families Days and Team Building Events.

Note. Mini Buses are normally provided with funding from the Nuffield Trust.
d. **Grants.** The amount of money available for grants is dependent upon the funds investments and donations provided by SABS, therefore, there is the possibility that some worthwhile projects may not be able to be supported. Further guidance and application forms are available from the RNRMC Grants Administrator (see Para 3211 for contact details)

3213. **Naval Service Prizes and Award Fund (NSPAF)**

a. **Objectives.** To promote the efficiency of the Naval Service and Auxiliaries by the provision of prizes and awards to Naval Service or Auxiliaries personnel:

   (1) Who show marked efficiency in their duties;

   (2) Who distinguish themselves in examinations or as students on courses;

   (3) For innovation, useful research, suggestions or inventions which improve the efficiency of the Naval Service or Auxiliaries;

   (4) For other purposes as agreed by the trustee from time to time.

b. **Beneficiaries.** Personnel who are serving in the Naval Service and Auxiliaries.

c. **Contact Details.** For an Application Form and further details contact the RNRMC Grants Administrator (contact details at Para 3211).

3214. **Naval Service Sports Charity (NSSC)**

a. **Objectives.** The Charity, which is a subsidiary charity of the RNRMC and a company in its own right, promotes efficiency in the Naval Service by supporting and encouraging participation in sport and adventure training.

b. **Roles.** Its main roles are to:

   (1) Champion sport within the RNRMC cluster of charities to ensure that investment income, charitable donations and individual voluntary contributions are used for the benefit of sport and, where possible, increased.

   (2) Provide the running costs of the 39 Sports Associations and support to teams, elite athletes and any individual partaking of sport either by direct grants or through the Commands.

   (3) Own and manage projects that support sport in the Naval Service, such as the Temeraire sports accommodation.

c. **Beneficiaries.** Naval Service personnel.
d. **Funding.** The charity is able to support a proportion of its objectives from the income derived from its investments, the RNRMC and the RN & RM Sports Lottery. Further information about the RN & RM Sports Lottery can be found on the RN Intranet (Community, Sports and Social, Sports Lottery).

e. **Contact Details:** For further details and grant application enquiries contact Mr Norman Jackson (RN Sports Grants Manager) via email (Nssc-cs@sky.com) or telephone 023 9259 3790.

3215. **Naval Service Dependents’ Fund (NSDF)**

The NSDF provides immediate relief by way of a grant of £12,000 to the named beneficiary or next of kin on notification of death. The grant is paid out in all circumstances and is not means tested. Approximately 32 payments are made each year. The Fund receives no direct contribution from the serving population and is funded by the RNRMC from the RNRMC payroll giving scheme and SABS. For more information on the Naval Service Dependents' Fund, please contact the RNRMC Head of Grants (see Para 3211 for contact details).

3216. **Fleet Air Arm Benevolent Trust (FAABT)**

The FAABT provides financial support to those serving members of the Naval Service killed or injured in an aircraft accident or who have need of assistance on an ongoing basis. The benefits include, financial grant made to surviving spouses, civil partners and children and, if required, assistance is given to beneficiaries on an ongoing basis. The level of grant is decided by the Trustees according to the individual circumstances. For more information on the Fleet Air Arm Benevolent Trust, please contact the RNRMC Head of Grants (see Para 3211).

3217. **Sir Donald Gosling Maritime Reserve Amenity Fund (DGMRF)**

The DGMRF is part of the group forming the Royal Navy & Royal Marines Charity, and it focuses on amenities grants for reservists serving in the Royal Naval Reserve and the Royal Marines Reserve and their dependants. Further information can be obtained from the RNRMC Grants Administrator (see Para 3211 for contact details).
SECTION 5 - RNRMC - BENEVOLENCE FUNDS

3218. Naval Service Benevolence Fund (NSBF)

a. **Objectives.** The relief of beneficiaries and their dependants who are in need by virtue of financial hardship, sickness, disability or the effects of old age though the provision of grants, loans, gifts, pensions or otherwise. The NSBF dispenses funds in two ways:

   (1) To other Naval charities who rely on grants for large elements of their income such as the Royal Naval Benevolent Trust, the Royal Navy and Royal Marines Children's Fund and the WRNS Benevolent Trust.

   (2) To individuals who need assistance.

b. **Beneficiaries.** Personnel who are, or have served in the Naval Service, the Auxiliaries or the Women's Royal Naval Service, the Queen Alexandra’s Royal Naval Nursing Service, Naval Reserve Forces (who are serving on full time engagements) or Auxiliaries and their dependants. Help is in the form of relief of hardship following assessment of need. It is the Trustees aim to increase the proportion of funding available for supporting Benevolence.

c. **Contact Details.** In the first instance, all applications for assistance should be directed to the relevant organisation e.g. the Royal Navy Royal Marines Welfare (RNRMW) for serving personnel or alternatively the RNRMCF, and both serving and veterans can apply to the RNBT, RNRMCF, RNOC, WRNS BT, QARNNS Trust Fund, RBL or SSAFA organisations. However, the RNRMC will consider direct assistance if individuals (as defined in sub para b, above) fall outside the objects of the other Service charities or their need is greater than other charities are able to fund. For further information contact: the RNRMC Head of Grants (see Para 3211 for contact details).

3219. Queen Alexandra’s Royal Naval Nursing Service (QARNNS) Trust Fund

a. The QARNNS Trust Fund operates for the benefit of serving and past members of the QARNNS, including QARNNS(R) and Voluntary Aid Detachment (VADs). The Fund does this by:

   (1) Helping to relieve the hardship of QARNNS personnel (both ex and serving). Applications are usually made via a charity such as SSAFA, however applications are sometimes made directly to the fund.

   (2) The improvement of the efficiency of the QARNNS, through various means, including the funding of the QARNNS Symposium, the Rosebowl Tennis tournament and the QARNNS Remembrance Service, amongst other events. Other grants include an annual contribution to the QARNNS Associations and various sports events involving QARNNS.

b. For further information contact: the RNRMC Grants Administrator (see Para 3211 for contact details).
3220. Plymouth Royal Naval Aid Fund (PRNAF)

a. **Background.** The PRNAF was established to support those serving in the Plymouth Naval Command, the western family services area or in ships that have Plymouth as their base port. The Fund provides relief for any of the following persons who are in conditions of need, hardship or distress.

b. **Beneficiaries.** All serving members of the Royal Navy, Women's Royal Naval Service and Queen Alexandra's Royal Naval Nursing Service and Royal Marines, their spouses, families and legally dependant relatives, or the next-of-kin of any such person so as to provide temporary assistance upon his or her death. The Fund will also support the spouses, families and legally dependant relatives or next of kin who live in the specified area irrespective of where the member is serving.

c. **Contact Details.** For further information and grant enquires contact Mr Owen Shard either by email (shreado@dii.mod.uk) or telephone: 01752 555277.

3221. Naval Medical Compassionate Fund (NMCF)

The NMCF grants financial relief to any orphan, surviving spouse or civil partner of Naval medical officers who were subscribers to the fund. Further details can be obtained from:

The Secretary
Naval Medical Compassionate Fund
Navy Command Headquarters
MP 3.2
Leach Building
Whale Island
Portsmouth
PO2 8BY

Phone: BT 023 9262 5879/ 5589238
Email: NAVYMED-COORDSO2@mod.uk

3222. Royal Naval Benevolent Society for Officers (RNBSO) (Registered Charity No: 207405)

a. **Background.** The charity is also known by its working title of the RN Officers’ Charity. The principal aim of the Society is to provide financial relief to serving and retired officers of the Naval Service (RN, RM and QARNNS) and their Reserves, their spouses, former spouses and dependants who are financial distress. Beneficiaries also include former and serving officers on the Reserve Lists, as well as former officers of the Women's Royal Naval Service.
b. **Grants.** The Charity generates income from its own investments, receives further funds from donations and legacies and can apply for a block grant from the RNRMC. All the grants awarded are based on the principle of need and trustees will consider grants for the following:

1. Six monthly grants to top up low incomes;
2. Assistance with a shortfall in care home fees;
3. Alterations to homes for the disabled;
4. Maintenance and redecoration of properties;
5. Purchase of disability aids and electrically propelled vehicles;
6. Re-training costs to gain employment;
7. Scholarships to help children remain in private education under exceptional circumstances.

c. **Beneficiaries.** All serving and retired officers of the Royal Navy and Royal Marines, Queen Alexandra’s Royal Naval Nursing Service, Woman’s Royal Naval Service, their respective Reserves, spouses, former spouses and dependants.

d. **Contact Details.** For further information contact:

SECTION 6 - NAVAL SERVICE BENEVOLENT ORGANISATIONS

3223. Introduction

Many charities and benevolent organisations offer advice, help and financial assistance to serving and former Naval Service people and their dependants who may be in need. These organisations help different sections of the Naval Service community, and have their own criteria for determining whether assistance is given. All base their decisions on the principle of relieving "need" whether that need is by virtue of financial hardship, injury, sickness or the effects of old age. The benevolent funds listed in this Section award a large number of grants annually to needy serving and former Naval Service personnel, and their dependants. They rely on legacies and donations for this support. Serving personnel can help by subscribing to the RNRMC Payroll Giving Scheme (see Section 9).

3224. Royal Naval Benevolent Trust (RNBT) Registered Charity No: 206243

a. Background. The RNBT was established in 1922 to give help, in cases of need, to those who are serving or have served as ratings in the Royal Navy or as other ranks in the Royal Marines and their dependants. The RNBT receives income from its own investments, donations and legacies, a proportion of the funding from the RNRMC Payroll Giving Scheme (see Section 9) and block grants from the RNRMC (NSBF) and Seafarers UK (see Para 3266). Assistance from the RNBT can be given in the following ways:

(1) Grants to assist with a wide range of individual needs;

(2) Regular payments to supplement the income of older people (annuities);

(3) Grants to other organisations which assist the RNBT Family;

(4) Care of older people at Pembroke House, the RNBT’s own care and nursing home at Gillingham, Kent;

(5) Advice on welfare matters.

b. Contact Details. For further information contact:

Email: rnbtrnbt.org.uk

Web address: www.rnbt.org.uk
3225. Royal Navy & Royal Marines Children’s Fund (RNRMCF) (Registered Charity No: 1075015)

a. **Background.** The RN & RM Children's Fund is the premier charity for providing charitable help to the sons and daughters (under the age of 25) of serving and ex-serving personnel of the Royal Navy, the Royal Marines, The Queen Alexandra Royal Naval Nursing Service, the former Women's Royal Naval Service, and the reserves of those forces who are in need, hardship or distress. The RNRMCF receives income from its own investments, donations and legacies and a proportion of the funding derived from the RNRMC Payroll Giving Scheme (See Section 9) in addition to a block grant from the RNRMC (NSBF, see Para 3218) to administer grants on their behalf.

b. **Objectives.** Support can be in the form of one off payments or long term support and care and includes:

   1. Special needs education;
   2. Special needs equipment;
   3. Support for the young people in their own homes;
   4. Support for the young people at times of crisis.

c. **Contact Details.** Applications for funds are kept as simple as possible and those seeking assistance can contact the office direct for an application. All enquiries and applications are completely confidential. All applications are based on the principle of “need”/“relief in need”. For further information contact:

   The RN & RM Children’s Fund
   Castaway House
   311 Twyford Avenue

   Fax: BT 023 92677574

   Email: rnchildren@btconnect.com
   Web address: www.rnrmchildrensfund.org.uk
3226. **Women’s Royal Naval Service Benevolent Trust (WRNSBT) (Registered Charity No 206529)**

a. **Background.** All officers and ratings (and their dependants), who served in the Women’s Royal Naval Service between 1 September 1939 and 1 November 1993 (including those who are still serving and transferred to the Royal Navy in November 1993). The WRNS BT receives income from its own investments, donations and legacies and a proportion of the funding derived from the RNRMC Payroll Giving Scheme (see Section 9) in addition to a block grant from the RNRMC (NSBF, see Para 3218) to administer grants on their behalf.

b. **Objectives.** The primary objectives of the Trust are to provide relief in cases of necessity or distress among members of the Trust and their dependants, to make provision in suitable cases for assistance in training, to make contributions to other suitable charities to enable them to carry out their respective objects for the benefit of the Trust’s members, and to do anything ancillary to any of the above objects. This assistance is varied and includes:

   1. Grants to help with arrears or debts, removal or travel cost, convalescence care, education, household goods and repairs, medical aids, medical fees and in some cases funerals;

   2. Annuities for members of state pensionable age living on a low income;

   3. Regular Grants to help those on low incomes.

c. **Contact Details** For further information contact:

3227. Royal Naval Reserve (V) Benevolent Fund (RNR(V)) (Registered Charity No: 266380)

a. **Objectives.** The primary objects of the RNR(V) are to provide financial assistance to serving or retired ratings of the Naval Reserves in cases of hardship. The charitable objectives are the relief of persons who are in conditions of need hardship or distress (of the classes and in order of priority as in clause 3 a-f of scheme) by making grants of money or providing or paying for items services or facilities calculated to reduce hardship or distress. In addition, the committee of management, with the approval of the board of governors, may award grants for any charitable purpose for the benefit of non-commissioned personnel of the Royal Naval Reserve.

SECTION 7 – ROYAL MARINES CHARITIES

3228. Royal Marines Charitable Trust Fund (RMCTF) (Registered Charity No 1134205)

a. In addition to the Naval Service charities listed in previous sections, the Royal Marines have access to the Royal Marines Charitable Trust Fund (RMCTF) which is the overarching Royal Marines charity. The RMCTF provides advice and support to serving, reservist and retired Royal Marines, and their dependants as well as supporting the military efficiency and esprit de corps.

b. The RMCTF funds include:

(1) The restricted funds of

(a) The Royal Marine Benevolent Fund (Registered Charity No: 1134205-1), and
(b) The Royal Marines Cadet Fund.

(2) Three designated funds supporting prizes and awards, sports and practical support to the Royal Marines Band Service (which cannot be provided from public funds e.g. the commissioning of music, non standard instruments etc).

(3) Three Restricted Subscription Funds into which serving Royal Marines pay one day’s pay per annum – the Royal Marines Officer’s Trust Fund; the Central Sergeants’ Mess Fund; the Central Unit Institute Fund. These funds focus on quality of life issues for serving Royal Marines and are, in effect, a simple form of payroll giving.

c. The RMCTF’s mission is:

(1) Recovery Pathway (helping the wounded and seriously injured);
(2) Decompression and Quality of life Pathway (helping those still serving);
(3) Through Life Pathway (support after leaving the Service).

d. The assistance provided by the RMCTF includes:

(1) Grants to individuals;
(2) Grants to organisations;
(3) Other finance, as deemed necessary.

3229. The C Group Supporting the RM (C Group) (Registered Charity No: 1134205-2)

The prime purpose of the C Group is to raise awareness and generate practical support throughout the business community for Royal Marines particularly those who are suffering the long-term effects of injuries sustained on operations. In addition, the C Group offers coaching and mentoring support for those who are moving to new careers as a result of their injuries.

3230. Royal Marine Association (RMA) (Registered Charity No: 206003)

a. The purpose of the RMA is to maintain and promote 'esprit de corps' and comradeship amongst all Royal Marines, to keep them in touch with one another, and with the activities of the serving Corps. The RMA produces the Corps journal, the "Globe & Laurel", which is published every 2 months and donates any profits to the RMCTF.

Tel BT: 023 9265 1519
SECTION 8 - NON PUBLIC AMENITIES GRANTS

3231. **Nuffield Trust for the Forces of the Crown (Registered Charity No: 210829)**

a. **Background.** The Nuffield Trust for the Forces of the Crown (NT) was inaugurated in 1939 by the late Colonel The Right Honourable the Viscount Nuffield CBE CH FRCS.

b. **Objectives.** The aim is to promote the welfare and efficiency of the Forces of the Crown either by the provision of facilities for recreation or by any other means for serving personnel. It achieves its objective by financing recreational and welfare amenities and facilities that will benefit those actually serving in the Armed Forces but which are not provided by public funds and which are beyond the resources of other non-public funds.

c. **Trustees Meetings.** The Nuffield Trust Trustees meet during March each year to consider Capital and Major Grants applications, these meeting are attended by 2SL as the RN’s PPO.

d. **Policy.** The Trust provide for all types of recreational equipment including the following:

- Audio Visual Equipment
- Mess Deck Recreational Equipment
- Mess Refurbishments
- Climbing Walls
- Gliders
- Music Equipment
- Water Recreational Equipment
- Outdoor Recreational Equipment
- Camper Vans/Mini Buses
- Recreational Furniture
- Sports Equipment

This list is not exclusive and the Trust encourages applications for any project in the recreational and welfare area that directly benefits regular Service personnel.

e. As a matter of policy the Trust does not permit grants for the following:

- Items or facilities which should be provided from Public Funds
- Crèches
- Live animals
- Fixed assets overseas
• Fixed assets on MOD land in the UK unless appropriate lease arrangements are made or an undertaking is given that proportionate restitution will be made to the Trust under the terms of the MOD’s agreement set out in DGSPPol/313.03 of 25 November 2003, should the asset be lost through early closure of a unit.

• Maintenance, repair or running costs of Trust funded assets.

f. **Grants.** These are awards at the following levels, plus a unit contribution of 25% would normally be expected:

   (1) Minor Grants £12.5k (when funding allocation is low this figure is reduced locally to £5k) and below - Can be applied for at any time via the RNRMC Head of Grants.

   (2) Major Grants to £40k (when funding allocation is low this figure is reduced locally to £25k) - These are considered once a year by the NT Trustees at their March meeting. Applications are to be submitted to the RNRMC Head of Grants by 1st December.

   (3) Capital Grants over £40k – Applications for large capital projects require careful, long term planning, and use considerable staff resources. Fully detailed applications should therefore not to be developed until the Trustees’ views have been advised to the originating Project Officer. Preliminary applications may be submitted at any time. However, applicants should be mindful that the Board of Trustees and Executive Committee meet mid–March and the Board of Trustees in November each year. All applications are to be submitted via the RNRMC Head of Grants.

   (4) Special Grants – In addition to the above grants, the NT Trustees may also, from time to time, make other special allocations in order to meet unforeseen requirements.

g. **Administration.** All projects or items should comply with JSP 462 (Financial Management Policy Manual) Chapter 18, Annex A. Recipients of grants have full responsibility for the provision of insurance cover and all necessary maintenance or repair of items or facilities. The gift should be marked with a plaque or plate stating that it was acquired through the generosity of the Nuffield Trust, and placed on a permanent record register.

h. **Personnel Contribution.** A personal contribution of 25% will be expected, unless a valid reason can be given in the justification.

i. **Use of Grant.** A grant is to be used only for the purpose specified. Any unspent part of a grant is to be returned to the RNRMC. Money granted is to be used within one year of the date of approval.
j. **Acknowledgement of Grant.** As a matter of courtesy, letters of thanks for grants received should be sent by all recipients. The Trust, their auditors, and the MOD use these letters as the official confirmation that the grants have actually benefited those for whom they are intended. Immediately the project/item has been paid for, a letter of thanks (only) is to be forwarded to the General Secretary, Nuffield Trust for the Forces of the Crown, 23 Estcourt Road, Gloucester, GL1 3LU with a copy to the RNRMC Head of Grants, along with the Purchase Receipts.

k. **Permanent Record.** All items provided by grants for the NT are to be suitably engraved or tallied by the parent unit. A permanent record of the items is to be kept and items are to be accounted for as though they were Service permanent stores. The NT Grant Number must always be quoted in any correspondence.

l. **Transfer or Disposal of Nuffield Trust Items.** Where the recipient is unable to use an item provided by the Trust, for whatever reason, including the ship paying off, or establishment changing its function, proposals for the disposal of the item are to be made to the RNRMC Head of Grants for NT prior approval. Wherever possible, the trustees prefer items to be transferred to another unit of the Armed Forces of the Crown, rather than sold, unless the item is unserviceable. Should approval be given for the sale of an item, a refund is due to the Trust for an amount that is a similar proportion of the proceeds of the sale to that represented by the original grant. A cheque for the appropriate amount is to be forwarded to the RNRMC.

m. **Trade In.** When organisations wish to replace an item, and the NT interest in the old item is to be moved forward to help fund the new project, then permission is first to be requested from the Head of Grants.

n. **Mini Buses.** These are normally funded via NT grants. The Transport Act 1985 (TA85) applies to those operators of mini buses adapted to carry 8 to 16 passengers who make a charge for the use to recoup some of the running costs. The act calls for each vehicle to be in procession of a Small Mini Bus Permit. The previous act MA77 predates the TA85, and permits issued under MA77 remain valid. However they are restricted to the original named vehicle and cease to be valid once the vehicle is disposed of. Therefore a new small mini bus permit has to be applied for when mini buses are renewed or exchanged. The TA85 does not apply when the use of the vehicle is:

1. Providing a free service;

2. Carrying the public at large;

3. Using the vehicle commercially with a view to profit.

o. **Small Mini Bus Permits.** The Fleet HQ Central Fund is the RN’s registered authority for the issue of small mini bus permits to operators of non-publicly funded mini buses, and the TA85 requires all operators of RN non-public funded mini buses in the UK (except NI) other than those listed above, to obtain a permit from the NSAIF. Unwanted discs should be returned to the RNRMC Head of Grants.
p. **Contact Details.** For an Application Form and further details contact:

Web address: www.rnrmc.org.uk

3232. **Services Sound and Vision Corporation (SSVC) (Registered Charity No: 233480)**

a. **Objectives.** The Services Sound and Vision Corporation is a registered charity set up to entertain, and inform Britain’s Armed Forces around the world. Its mission statement is “to be the preferred provider of entertainment and information to Service personnel and their families worldwide”. The Welfare support activities of SSVC include British Forces Broadcasting (BFBS) radio and television broadcasting to overseas locations where Service personnel are based.

b. **SSVC Welfare Fund.** The SSVC Welfare Fund has been established to finance welfare and recreation amenities that directly or indirectly contribute to operational effectiveness. Priority for these funds will be given to those serving, preparing, or returning from operations, plus those living in isolated or arduous conditions. Funds may also be available to support other requirements for those in the home base, which contribute to military efficiency and operational effectiveness by enhancing morale and developing personal attributes. This fund is accessed by the RNRMC Head of Grants, on behalf of units, for audio visual and entertainment and recreational amenities.

SECTION 9 – ROYAL NAVY & ROYAL MARINES CHARITY PAYROLL GIVING SCHEME

323. RNRMC Payroll Giving Scheme

a. **Background.** The RNRMC Payroll Giving Scheme is the Royal Navy’s own Charity payroll giving scheme. Money raised through deductions from pay is donated to the RNRMC to distribute to each of the component charitable elements. Each of these elements relies heavily on the income derived from payroll giving to continue their charitable activity at current levels. Donations benefit both serving and ex-serving members of the Naval Service from the day they join, throughout their service and beyond. The money donated is distributed to each of the component charitable elements along the following funding routes:

   (1) Amenities - support to RN & RM for activities, recreation and amenities not publicly funded.

   (2) Benevolence – both for serving and ex-serving members and their dependants.

   (3) Naval Service Dependants’ Fund – death in Service payment to dependants.

   (4) Sport – supporting Naval Service men and women, their clubs and associations and the payroll giving scheme now includes sports insurance in place of the Voluntary Sports Subscription Scheme (VSSS).

b. **How much is it?** Personnel can donate anything from as little as One Pound a week, or a fixed amount per month, which is deducted “before tax” from pay each month. Every pound donated therefore in reality only costs the basic rate tax payer 80 pence per week or for the higher rate tax payer only 60 pence a week.

c. **How are Donations Started?** Application forms may be obtained via the RNRMC website at www.rnrmc.org.uk, under payroll giving or from the RNRMC Payroll Giving Manager, RNRMC, Building 29, Whale Island, Portsmouth, PO2 8ER Phone BT 023 9254 8417 or 07714306178

d. **Contact Details.** For further information and payroll giving arrangements, contact:

SECTION 10 - ADVICE AND SUPPORT: OTHER ASSOCIATIONS AND BENEVOLENT ORGANISATIONS

3234. Introduction
Many Service/Ex Service Charities and Associations assist serving and former military personnel and their families, in times of need or crisis. The list of charitable organisations offering specific help to Service personnel is extensive, therefore this section can only give brief details on a few of them. Further details on the help and support available to serving and former serving personnel and their dependants can be found at:

a. www.seafarersupport.org/self-help (A guide to the Maritime Charity Sector);
b. www.cobseo.org.uk (Confederation of Service Charities (COBSEO));
c. www.ctp.org.uk/ (Career Transitional Partnership); or
d. By searching the internet for Armed Forces, military, Royal Naval, or naval charities.

3235. Annington Trust (Registered Charity No: 1068749)
This is a charitable trust to promote the efficiency of the Armed Forces of the Crown by providing for the recreation and general needs of Service personnel who live in family quarters. In addition, it promotes the welfare of the Armed Forces by providing for the general needs of those Service families in particular for the improvement of their recreational facilities. Further information can be found at www.anningtontrust.org.

3236. Association of Royal Navy Officers

a. Background. The Association is the principal association which unites the officer corps of the Naval Service, both serving and retired. For a modest annual subscription members are provided with a number of opportunities to maintain contact with each other through social activities, a website and a secure, online membership database. Additionally, the Association provides a wide range of key benefits.

b. Contact Details. Further information can be obtained from:

The Membership Manager
ARNO
70 Porchester Terrace
London

Phone: 020 7402 5231
Email: asec@arno.org.uk

Web address: http://www.arno.org.uk
3237. Blind Veterans UK (St. Dunstan’s) (Registered Charity No: 216227)

a. St Dunstan’s changed its name to Blind Veterans UK in early 2012, to make its purpose and activities clear to the general public. Blind Veterans help blind ex-Service men and women lead independent and fulfilling lives by supporting them with a lifetime’s practical and emotional support, expertise, experience and full range of services regardless of when or how they lost their sight. Blind Veterans UK aims to give veterans much-needed support to adjust to sight loss, overcome the challenges of blindness and enjoy daily life.

b. **Contact Details.** For further information contact:

Phone: 01372 587000
Helpline: 0800 138 1619

Email: contactus@combatstress.org.uk
Web address: www.combatstress.org.uk

3240. Commonwealth War Graves Commission

The Commission was established by Royal Charter in 1917. Its duties are to mark and maintain the graves of the members of the forces of the Commonwealth who were killed in the two World Wars. The Commonwealth War Graves Commission aims to ensure that 1.7 million people who died in the two world wars will never be forgotten and cares for cemeteries and memorials at 23,000 locations, in 153 countries. Further information can be found at: www.cwgc.org.

3241. Confederation of Service Charities (COBSEO)

Formerly known as the Confederation of British Service and Ex-Service organisations, the membership consists of Service and ex-Service Charities and Organisations, working to promote and further the interests of serving and ex-serving personnel and their dependants. HRH The Prince of Wales is the Patron. Over 100 Armed Forces charities and associations belong to COBSEO and further details on these can be found on the COBSEO website http://www.cobseo.org.uk (see member-organisations). The stated objectives of COBSEO are to represent, promote and further the interest of the Armed Forces Community by:

a. Exchanging and coordinating information internally.

b. Identifying issues of common concern and coordinating any necessary and appropriate action.
c. Acting as a point of contact for external agencies to the members of COBSEO.

d. Representing and supporting the needs and opinions of its member organisations, individually and collectively at central & local government levels and with other national and international agencies.

3242. Conference of Naval Associations (CONA)
CONA is a loose federation of like-minded naval associations who believe in working together for the benefit of their members. The Second Sea Lord is the ex officio President of the Conference. Further details on the activities and membership of CONA can be found by visiting their website: www.cona.org.uk.

3243. Erskine Hospital (Scottish Registered Charity No: SC006609)
Erskine Hospital is an independent charity providing a modern care facility for ex-Service men and women in Scotland. It provides an unrivalled level of residential, nursing and dementia care in purpose-built homes. Further information can be found at www.erskine.org.uk.

3244. Forces Pension Society
The Forces Pension Society is governed as a non-for-profit limited company and exists to ensure that serving and retired members of the Armed Forces, their widows, widowers, surviving partners, civil partners and dependants receive the pension to which they are entitled and which they deserve. Further information can be found at www.forcespensionsociety.org

3245. Greenwich Hospital
a. **Background.** Greenwich Hospital is an ancient Crown Charity whose beneficiaries include serving and former Naval Service personnel and their dependants. Support, help and services are provided through regular charitable payments, charitable grants both directly and via the RNRMC to Naval and other charities having Naval beneficiaries, sheltered housing and education bursaries at the Royal Hospital School at Holbrook, Ipswich and the University of Greenwich.

   Web address: www.haighomes.org.uk

3247. Help for Heroes (Registered Charity No: 1120920)

a. Help for Heroes (H4H) works with the Armed Forces, other Service charities and organisations to provide direct, practical support for those who have been wounded. The current focus is for capital grants to create a series of regional Recovery Houses, built across the UK to serve as the last stage of rehabilitation before a Service person returns to their unit or transits back into civilian life. H4H have also established quick reaction funds to be distributed via the main Service charities, to meet the urgent and most immediate needs of injured Service personnel affected by the current conflicts i.e. since 9/11.

   Web address: www.helpforheroes.org.uk/
3248. **Houses for Heroes Scotland (Registered Charity No: SC003174)**

a. The principal activity of Houses for Heroes Scotland is to construct and maintain houses for selected individuals, and their dependants, who have served in the British Armed Forces, Merchant Navy, Police or Fire Brigade and who, whilst serving or after completion of service, have been partially or totally disabled, or have been discharged through ill health. Although the houses are in Scotland, tenants are considered and welcomed from the Veteran's community across the United Kingdom. The aim of Veterans Scotland housing is to provide one simple application point, which will allow a veteran to register for all the ex-Service housing charities operating in Scotland, dependent on meeting the individual housing charities' specific criteria. Houses for Heroes Scotland operate this application process known as the Central Housing Register on behalf of Veterans Scotland.

b. **Contact Details:**

3249. **King Edward VII's Hospital Sister Agnes (Registered Charity No: 208944)**

King Edward VII's Hospital Sister Agnes is a registered charity governed by Royal Charter, a member of COBSEO and a private hospital. It is committed to ensuring that as many serving and ex-Service personnel as possible can receive swift access to an exceptional standard of healthcare with little or no cost to themselves by the provision of subsidies and grants. Financial assistance is available to all ranks. Further information can be found at www.kingedwardvii.co.uk

3250. **King William IV Naval Foundation (Registered Charity No: 210392)**

a. The Foundation provides homes (at RN Cottages, The Drove, Southwick, Hants) for the needy widows or orphan daughters of Officers of the RN or RM (or Reserve Officers who have given mobilised service).

b. **Contact Details.** For further information contact:

Rose Cottage  
Chalk Hill  
Soberton

3251. Lady Grover’s Hospital Fund for Officers’ Families

a. Lady Grover’s Fund is a Friendly Society which supports officers’ spouses, widows, widowers and children by making contributions towards hospital fees, home nursing, and domestic home help following illness or injury. The Fund gives financial assistance to dependants of officers of all three services, whether serving or retired. Widows or widowers can continue their membership at the same rates and with the same benefits. The officer members themselves cannot benefit from the Fund. Membership is open to any Officer of the UK Armed Services, who holds or has held a regular commission for a minimum of five years.

b. Contact Details. For annual subscription fees and further details contact:

3254. **National Gulf Veterans and Families Association (NGVFA)**

The NGVFA supports those who served in the 1990-91 and 2003 to date Iraqi/Gulf conflicts. The aim of the NGFA is to enhance and improve the quality of the day-to-day lives of all veterans of desert conflicts and their families, partners and carers, through support, information, advocacy and counselling. The NGVFA is open to the Armed Forces and civilians as well as their dependants. Further information can be obtained from NGVFA The national Gulf Veterans and families association.

3255. **Naval Families Federation (NFF)**

a. The Naval Families Federation (NFF) was established in 2003 to give Naval Service families an independent voice. The NFF works with the Chain of Command, service providers and the Government in order to make them fully aware of the consequences their policies and decisions have on the Naval Service family as a whole. This representation ensures that Naval Service families' differences are acknowledged and understood and is in line with the other two Services. The NFF produce a free magazine called 'Homeport', which contains useful information for Service families.

b. **Contact Details.** For further information contact:

   Web address: www.rfea.org.uk

3260. **Royal British Legion (RBL) (Registered Charity No: 219279)**

a. Caring and campaigning for the serving and ex-Service community. The RBL provides financial, social and emotional support to millions who have served and are currently serving in the Armed Forces, and their dependants. The legion was founded in 1921 as a voice for the ex-Service community. Although the needs of ex-Service people have changed over the years, they are still there to safeguard their welfare, interests and memory.
b. The RBL offers advice and support about a wide range of topics, including:

   (1) War pensions, inquest and compensation claims.

   (2) Benevolent / welfare help.

   (3) Care homes.

   (4) Poppy Breaks, Family Holiday Breaks and Adventure Breaks.

   (5) Remembrance travel (pilgrimages, school and group tours).

   (6) Tracing advice. (Note - *RBL does not hold or have access to, any official records, but can advise where to get hold of information for tracing purposes.)

c. **Contact Details.** For further information contact:

   Lines are open from 0800 – 2000 hrs 7 days a week
   Web address: www.britishlegion.org.uk (includes Live chat)

3261. **Royal Naval Association (RNA) (Registered Charity No: 266982)**

a. **Background.** The Royal Naval Association is the principal Naval Association recognised by the Admiralty Board. The RN and RNA have agreed a Memorandum of Association. Membership is open to all who served or have served in the Royal Navy, Royal Marines, QARNNS, WRNS and Reserves of all ranks. In addition, anyone who is in sympathy with the objects of the Association may join as an Associate Member.

b. With over 20,000 members across 385 branches in the UK and overseas, the RNA is a family of current and former Naval Service personnel, relatives and supporters of our country’s Royal Navy. The RNA considers that, whether its activities involve catching up with friends at its regular social events, fundraising, advising on welfare and employment matters, or just providing an arm around the shoulder, the natural willingness to help others stems from the tradition and camaraderie that only Naval Service life can instil.
c. The RNA’s core values are:

(1) **Unity.** Shared backgrounds and equality in rank. Naval personnel share the same bonds, the same mindset, and even the same language. All members are equal and are the heart and soul of the RNA.

(2) **Loyalty.** To other members and their dependants. The RNA believes in supporting and looking out for each other. The RNA is loyal to the personnel and dependants of the Naval Service, along with other charities or organisations with naval connections.

(3) **Patriotism.** The RNA is proud to serve and proud to represent our country and honoured to remember and represent (on a national and international level) those who have fallen for our country or who fight now.

(4) **Comradeship.** Friends in fun, fellowship and need. Your RNA shipmates will always be here for you and will never leave you or your dependants in despair.

Web address: www.seafarers-uk.org
a. **Background.** The Soldiers, Sailors, Airmen and Families Association (SSAFA) is a national charity providing financial, practical and emotional assistance to anyone that is currently serving or has ever served in the Army, Navy or RAF, and their families. SSAFA Forces Help's motto is "One day's service: a lifetime of support", with the offer of support no matter how your life circumstances may have changed.

b. SSAFA's Range of Services includes the provision of practical support, help with financial difficulties and emotional support with social and family issues. The list below highlights some of the assistance offered by SSAFA.

1. Financial support and advice, including state benefits and war pensions.
2. Housing facilities at, SSAFA Norton Homes, Stepping Stone Homes, St Vincent's Residential Care Home and the Royal Homes (Wimbledon).
3. The London Homeless Division (working with ex-Service rough sleepers).
4. Adoption service (available to all those in the UK Serving community).
5. Mentoring service to support wounded, injured and sick Service personnel.
6. Health and social work services on behalf of the MOD in most overseas establishments.
7. Backing, encouragement and advice for parents of children with additional needs or disabilities, serving personnel with a disability and their partners and carers.
8. Service Community volunteers work on bases, stations and garrisons around the world to improve the quality of life for Serving personnel and their families.
9. Assistance with immediate and practical needs for ex-Service personnel (and members of their immediate family) who are serving a prison sentence, or been recently released.
10. Support Groups e.g. for the Families of Injured Service Personnel (FISP), bereaved families, bereaved siblings and the Forces Additional Needs and Disability Forum.
c. **Forcesline.** Forcesline is a free and confidential helpline that is completely independent of the military chain of command. The experienced civilian staff provides a non-judgemental, supportive, listening, and signposting service for serving personnel and their families, as well as former members of the Armed Forces. You can talk about anything including personal concerns, worries and problems. Wherever possible Forcesline will provide factual information or 'signpost' possible ways forward. Forcesline is available Mon-Fri, including Bank Holidays, and can be accessed from anywhere in the world. The line is open from 10.30am - 7.30pm (UK local time) and the numbers are:

1. From the UK (Main Line): 0800 731 4880;
2. From Germany: 0800 1827 395;
3. From Cyprus: 800 91065;
4. From the Falkland Islands #: 6111;
5. From anywhere in the world (Call-back) +44 (0)1980 630854;
6. From Operational Theatres, to enable access through Paradigm's phone system, dial the appropriate access number then enter *201 at the PIN prompt.
7. AWOL Support Line: 01380 738137

**d. Branch Network.** Alternatively, if you are seeking assistance from their network of branches working with the ex-Service community, you may wish to contact your local branch directly, via the branch locator on the website or by telephoning (local numbers are in the appropriate area Telephone Directories). Note that as volunteers staff the branches, the office hours vary, and you may not receive a reply immediately.

e. **Post.** If you prefer to write to Forcesline, their address is:

Forcesline
FREEPOST
PO Box 1312
Pewsey
Wiltshire, SN9 6NN

**f. Online Form.** To email Forcesline, visit http://www.ssafa.org.uk and select “how we help”, Forcesline and access the online form.

3266. **Union Jack Club**

a. The Union Jack Club is a private members club for serving and ex-serving military personnel of HM Armed Forces close to London’s Waterloo Railway Station. All serving men and women below Commissioned Rank are automatically members of the club and do not pay any membership fees. Commissioned Ranks are Temporary Members who do not pay membership fees, but do pay a higher rate for accommodation. The club is situated close to many of London’s top attractions and offers an excellent base for the family group. It has over 260 bedrooms ranging from singles, twins, and doubles, along with bars and a restaurant, plus conference facilities.

b. **Contact Details.** For further information contact:

The Union Jack Club  
Sandell Street  
London  
SE1 8UJ

Web: www.ujclub.co.uk

3267. **Veterans Aid (Registered Charity No: 1095308)**  
Formerly known as the Ex-Service Fellowship organisation, Veterans Aid is primarily involved in supporting homeless and vulnerable veterans who have served in the British Armed Forces. Its services include the provision of accommodation, social work, alcohol counselling, and advocacy. Further information can be found at www.veterans-aid.net.

3268. **Victory Services Club**

a. The Victory Services Club is a Military Club for serving and ex-serving military personnel of HM Armed Forces in the heart of London’s West End. Serving members of the Armed Forces are automatically members of the club, and pay no subscription fees and annual charges. The club provides accommodation, event and conference facilities at competitive rates.
b. **Contact Details.** For further information contact.

### 3269. War Widows Association

This is essentially a pressure group that exists to improve the conditions of war widows and their dependants in Great Britain. Its work encompasses those who have suffered bereavement as a result of World War II and all conflicts since then including Iraq and Afghanistan. The WWA also represents those who have suffered the loss of their partner and in peacetime, when the death was attributable to their Service life. Further details can be found at www.warwidows.org.uk.

### 3270. White Ensign Association

a. The mission of the White Ensign is to inform and provide guidance to all serving and former members of the Royal Navy, Royal Marines, their Reserves and also to their families on Employment, Finance, Resettlement and Personal Administration. The White Ensign offers unbiased, confidential and free advice service. White Ensign staff visit establishments throughout the United Kingdom on a regular basis to provide support, guidance and advice in the form of Lectures and personal interviews

b. **Contact Details.** For further information contact:

ANNEX 32A

NAVAL SERVICE ASSISTED PASSAGE SCHEME (NSAPS)

1. Principles

a. Naval Service Assisted Passage Scheme (NSAPS) loans are provided from the NSAF primarily for the purpose of assisting service personnel with the cost of flights for relatives to and from ports where deployed ships are on standoff. Hotel costs may be included in the loan if they are part of a package holiday.

b. JSP 752 Chapter 6 Section 3 details the allowances and advances of pay available through Families Assistance for Visits Abroad (FAVA) to married service personnel deployed for 182 days or more. To assist those personnel who do not qualify for FAVA, RN Charities introduced SPAPS (Single Persons Assisted Passage Scheme), and the Short Deployment Fund (SDF). Following the formation of the RNRMC SPAPS and SDF have now been replaced by NSAPS administered through the NSAF. In certain circumstances FCO personnel may also be eligible.

2. Criteria

a. There is no minimum length of deployment for NSAPS as there is for FAVA, but the FAVA allowance cannot be claimed at the same time as NSAPS. Eligibility is subject to block leave being available in the foreign port and Commanding Officer’s approval being given. Personnel who qualify for FAVA are not permitted to apply for a NSAPS loan either as well as or instead of FAVA. There is no limit to the amount of the loan or to the number of persons on whose behalf an individual can apply for a loan, but they must have a significant link to the applicant such as blood or marital relationship or long term partnership.

b. FCO personnel who have not settled their family in the UK may apply for a loan to visit financially dependent family or a home maintained by them in their country of origin – see eligibility table below.

c. The NSAPS loan is made to the Ship’s Central/Welfare Fund for the use of the individual and not to the individual direct. In certain circumstances the Fund will pay the Travel Agent direct or reimburse the individual for flights purchased on-line, provided that the Ship acknowledges responsibility for the loan in advance.

d. Repayment is by way of monthly instalments to the RNRMC. The maximum period for repayment is 12 months. Normally only one loan per person is permissible in any 12 month period.
3. Procedure for submitting an application

a. Unit to identify window in programme which will allow for block leave to be taken (usually in line with a FAVA application) and obtain CO’s approval.

b. Ship’s Company to be informed of opportunity for NSAPS.

c. Obtain application form and at earliest opportunity to forward it by e-mail to RNRMC Assistant Accountant, (See para 3211)

d. Details of the proposed loans should be given to the Ship’s Welfare Committees and approval sought if appropriate.

e. RNRMC Assistant Accountant to approve application and arrange payment to the ship/travel agent/individual (in exceptional cases only) and record the debt.

f. RNRMC Assistant Accountant to send draft repayment schedule and bank mandate to unit.

g. Debt to be recorded in Ship’s Sage Accounts, repayment schedule confirmed and repayments made in accordance schedule until cleared.

CHAPTER 33

NAVAL SERVICE RECOVERY PATHWAY POLICY

3301. Introduction

a. The Defence Recovery Capability (DRC) is designed to deliver a conducive military environment within which all serving wounded, injured and sick (WIS) personnel receive the appropriate support to enable an effective return to duty or transition to a properly supported and appropriately skilled civilian life.

b. WIS personnel are those Service men and women, including Maritime Reserves and Royal Fleet Reserves, who are unable to undertake their normal duties, within defined medical categories. NS personnel are assessed as WIS when they are assigned a temporary JMES Code of M-6 or M-5.

Note. Pregnant Servicewomen given a JMES of E6 who also receive a JMES of M-5 are not to be considered WIS and will not be identified as such via the OBIEE dashboard.

c. Full details of recovery entitlements for Maritime Reserves are at Annex 33K.

d. The Naval Service Recovery Pathway (NSRP) is the generic term used to describe the process by which the NS manages the recovery of WIS personnel.

e. NS personnel who have attended NSMBOS/NSMEB and who are graded in a permanent (PERM) JMES, subject to review by either NSMBOS or a Regional Occupational Health Consultant before upgrading, remain considered WIS and in the recovery pathway.

f. WIS personnel who remain broadly employable and with less demanding recovery needs are to remain in their Parent Unit and be managed through the Divisional/Regimental system. If the unit is unable to support the individual and provide them with an appropriate recovery pathway, then they may be assigned to a specialist Recovery Unit depending on their personal circumstances. Those WIS personnel with the most complex recovery needs may be assigned to the Naval Service Recovery Centre (NSRC) Hasler, in HMS DRAKE or, in exceptional circumstances, to an Army or RAF Recovery Unit, whichever best meets the needs of the individual as determined by a Case Conference; an overview of the NSRP is at Annex 33A.

---

1 JSP 770 Chapter 5 – Tri-Service Recovery Policy.
2 Royal Navy and Royal Marine personnel; see RNTM 234/16 Para 8.
3 Unfit for any duties in the maritime environment - Long-term sick or in a MTF for >28 days or given a medical board recommendation for discharge.
4 Fit for restricted duties ashore within the limitations as stated - Not to work in ships/submarines alongside and may not be able to complete all duties required of their branch/trade ashore.
5 Unless they have an underlying medical condition which requires them to be considered WIS.
6 Recovery Cells are located within the Personnel Support Groups (PSG) located in the Portsmouth, Devonport and Clyde Naval Bases and in the Career Management Cells (CMCs) in Yeovilton and Culdrose Air Stations; Recovery Troops (RT) have been established in 30, 40, 42 and 45 Cdo units.
7 Both physical and mental.
g. Many units have personnel from the Army and RAF serving within. It should be noted that each Service has a different Recovery Pathway and ‘entry’ criteria and single Service (sS) policy should be consulted to ensure appropriate support is afforded to the WIS individual.

h. Rehabilitation and Recovery are two distinct, but complementary, processes. Rehabilitation is primarily clinical treatment for medical conditions arising from wounding, illness or injury and is the responsibility of the Surgeon General (SG). Recovery is primarily a non-clinical activity, but may involve individuals undergoing rehabilitation, and is designed to assist personnel to return to duty or prepare them for life outside the Armed Forces. Recovery is the responsibility of the Chief of Defence People.

3302. **Aim**

To explain the purpose and policy for the NSRP, which seeks to achieve the following:

a. Command, manage and provide the duty of care to NS personnel who are unable to undertake their normal duties ie. to serve in a ship at sea or alongside.

b. Support individuals to achieve their maximum recovery potential so that their continued service can be effectively assessed.

c. Inform the Executive decision making process on whether an individual should be discharged or retained.

d. Deliver equity and ensure the commonality and consistency of the NSRP process.

e. Deliver an optimised outcome through a Service Person (SP) focused approach to recovery.

3303. **Command and Control**

a. ACNS (Pers) ‘owns’ the NS Recovery Capability and is a member of the Defence Health and Wellbeing Board (DHWB).

b. Head NPS is responsible for NSRP policy, governance and assurance, which is delegated to DACOS People Support.

c. Day to day management of NSRP policy, governance and assurance is delegated to SO1 Casualty and Recovery Management (SO1 CRM) as the Chair of the NSRP WG and RN member of the Defence Recovery Steering Group (DRSG), reporting to the DHWB.

---

8 Army: AGAI Vol 3 Chap 99 'Command and Care of Wounded, Injured and Sick Service Personnel'; RAF: AP3392 Vol 5 Leaflet 125 'Management of RAF Personnel on Long-Term Sickness Absence'.
9 Naval Service Medical Employability Board (NSMEB).
d. Recovery is a command-led activity which is authorised by a CO in order to ensure that the Royal Navy fulfils its duty of care responsibility towards its WIS personnel. The Parent Unit\textsuperscript{10} retains command of all NS WIS until formally reassigned. When considering assignment to the Medical Margin (MA7A), the Career Manager and Parent Unit are to confirm any change to the ‘ownership’ and line management of the individual so that proper Divisional or Regimental oversight can be maintained\textsuperscript{11}.

e. The chain of command for Devonport and Portsmouth PSG is through the Naval Base Commander and Faslane Recovery cell through the Flotilla Commander; for the CMCs at RNAS Yeovilton and Culdrose through the COs RNAS and, for RTs, the Commanding Officer of the respective unit.

f. The command of NSRC Hasler is through OC NSRC Hasler to SO1 CRM who is subordinate to DACOS People Support. Base support is provided by Naval Base Commander Devonport (NBCD). OC NSRC Hasler provides the RM specific regimental oversight.

3304. CONOPS

a. A Concept of Operations (CONOPS) for managing WIS is to be established by NSRC Hasler and each PSG, CMC and RT. Establishments without a specialist recovery element are to ensure that Standing/Establishment Orders has specific direction to DOs, Tp Comds and Line Managers (LMs) for the management of WIS personnel eg. creation of an IRP, home visits to those sick-on-shore, effective use of the Carers’ Forum, etc. to enable optimised recovery to be achieved.

b. Generic Recovery Unit DO/Tp Comd TORs and Training Requirement are at Annex 33B.

3305. Principles

a. The Naval Service will provide a conducive military environment to enable the swiftest return to duty or properly supported transition to civilian life. For some, recovery at home may be the most appropriate option, however ALL personnel are to have a DO, Tp Comd or LM nominated who will oversee recovery and maintain contact throughout the recovery journey.

b. The management of an individual’s recovery pathway is an Executive function and a key tenet of the care and oversight that should be provided within the Divisional/Regimental system. Recovery can best be managed by the development of an Individual Recovery Plan (IRP)\textsuperscript{12} (Annex 33C), informed by an individual’s HARDFACTS assessment: Health, Accommodation and Relocation, Drugs and Alcohol, Finance and Benefits, Attitude, Thinking and Behaviour, Children and Family, Training, Education and Employment, Supporting Agencies.

\textsuperscript{10} The ‘Parent Unit’ is the Unit to which the RN/RM individual has been assigned at the start of the episode.

\textsuperscript{11} Due to the limited Divisional capacity of the CU and VL Recovery Cells, whenever possible, Parent Units should retain Divisional (and recovery) responsibility of those assigned to MA7A. The Recovery Cell POMA will be able to offer advice on recovery activity.

\textsuperscript{12} This is particularly important for those WIS personnel sent ‘sick on shore’ who will have no day to day management.
c. Initial management and duty of care for WIS individuals is provided by the Parent Unit through DOs, Tp Comds or LMs. Whilst it is expected that most WIS personnel serving in HM Ships, Submarines and Cdo Units will be landed/assigned to a PSG/RC/RT on medical downgrade, those serving ashore are most likely to remain in their establishment where the Unit Executive, through the Divisional/Regimental system, will monitor and oversee their recovery supported by the local medical services. The Unit Carers’ Forum (BRd 3(1) Chapter 24 Annex B) is the most appropriate medium through which the case can be managed and assured.

d. If the WIS individual is sick-on-shore, the DO/Tp Comd/LM is to establish contact within 10 days and maintain regular contact throughout the period of absence; a home visit should be conducted by day 21 and at least monthly thereafter. Naval Service Family and People Support (NS FPS) should be contacted if specialist welfare support is required.

e. Where the Parent Unit is unable to provide the specialist, long term support or duty of care required, the WIS individual may be re-assigned to a PSG/RC or RT or other more appropriate establishment as agreed by Parent Unit Carers’ Forum, CM and receiving unit.

f. For the most complex, significant or difficult cases, a Naval Service Casualty Cell (NSCC) Case Conference (Para 3307) is to be convened to establish the most appropriate location from which an effective recovery pathway can be managed.

g. Where NS personnel are being treated for protracted or complex injuries or illnesses through the Royal Centre for Defence Medicine (RCDM), Defence Medical Rehabilitation Centre (DMRC) or any other hospital, the Parent Unit remains responsible for the individual’s overall management and recovery unless they are formally reassigned to NSRC Hasler, PSG or Recovery Troop.

h. The Recovery Pathway combines a multi-disciplinary Executive, Medical, Welfare and Pastoral support service under the overall co-ordination of the Chain of Command drawing support from the Third Sector (Para 3320) as required.

i. Army and RAF WIS personnel will generally be supported through their own Service Recovery Capability but exceptional circumstances may exist when, subject to a Case Conference, Army or RAF WIS personnel will be assigned to NSRC Hasler or a PSG.

---

13 If WIS personnel are not immediately assigned to a PSG or RC, the parent Ship, Submarine or Cdo Unit is responsible for the management and oversight of the ‘recovery pathway’ and should draft the IRP.

14 In person, by telephone or email in order to commence the IRP. A record of all contact made, and discussions had, are to be recorded in the IRP.

15 If the WIS individual will not agree to a home visit or it is decided by the individual AND DO/Tp Comd/LM that a home visit is not required or appropriate or the periodicity should be changed, this should be recorded in the IRP. The method of regular contact eg. Skype, telephone call etc. is to be recorded.

16 A combination of two or more conditions e.g. mental health, physiotherapy, occupational therapy, welfare, etc.

17 There is a Naval Service Liaison Officer (NAVY NPS-PEOPLE SPTDMRCLO) assigned to DMRC to act as a temporary DO to admitted personnel and who will ensure the IRP is updated as required on leaving the specialist unit.

18 3rd Sector support includes DRC strategic partners Help for Heroes (H4H), The Royal British Legion (TRBL) and the RNRM Charities.

19 AGAI 99 (Army) and AP 3392 Vol 5 Leaflet 125 (RAF).
j. Management of those in the Recovery Pathway is based on, but not limited to, the following:

(1) Each person is to be managed as an individual through an IRP.

(2) The Recovery Pathway must not be regulated by set timelines. There is no pressure for unseemly haste but those on their recovery pathway should strive for positive milestones. Those managing the recovery pathway for individuals must ensure that key events identified in the IRP are being met, preventing unnecessary drift for, or by, the individual.

(3) Whether operational or non-operational, on duty or off duty, where and how an individual finds themselves on the Recovery Pathway is irrelevant. It is there to guide those that need support and includes those with psychological as well as physical injury or illness.

(4) The interests/needs of the Service drive enduring decisions on employability; weighting the wishes of the individual is part of the process.

(5) Each WIS individual must be encouraged to take control of their own recovery ‘journey’, set and record clear goals and take ‘ownership’ of their IRP. The Recovery Pathway is their ‘place of duty’ and those that do not engage and habitually ‘Do Not Attend’ appointments, meetings, recovery activities, etc should be subject to Minor Administrative Action (MAA) and the Warning process for Discharge Shore (Inadequacy) as outlined in Chapter 57, noting the particular circumstances of the case.

(6) Transparency between the executive, the medical and the individual is essential throughout the Recovery Pathway if an optimum outcome is to be achieved. In any discussions, however, care should be taken to protect personal data, and all involved should be cognisant of the Defence Medical Caldicott Policy, noting that sharing certain information can be beneficial to the WIS Service Person (SP) (Principle 7).

k. Personnel within the NSRP are to be formally assessed throughout recovery to ensure that the IRP is delivering the required outcome. If progress is not being made, the case is to be brought to the Carers’ Forum and discussed within a multi-disciplinary team of SMEs.

l. WIS personnel are not to be re-assigned during their recovery unless a Case Conference has been initiated and a move is recommended; this is to ensure continuity of care. If re-assigned, a copy of the IRP is to be forwarded to the receiving unit.
m. All personnel, including WIS, likely to be discharged from the NS on medical grounds are able to access resettlement entitlements at an earlier stage than for other Service Leavers. In these cases, a balance needs to be retained between recovery and resettlement activities to ensure that the WIS individual has sufficient time to plan ahead and is ready for transition to a properly supported and appropriately skilled civilian life.

n. All personnel, regardless of where they are and how long they have been on the ‘Recovery Pathway’, are entitled to a SJAR/OJAR. Often, WIS personnel are sick on shore or employed in restricted activities not associated with their rank or specialisation for a prolonged period; in these instances a Short Appraisal Report (SAR) may be more appropriate. The SAR should contain sufficient detail to describe the nature of the recovery duties/activities undertaken and the attitude of the WIS SP in engaging in the recovery process. In cases of doubt, the appropriate Promotions Branch Secretary should be consulted.

3306. Healthcare and Rehabilitation

a. Responsibility for all aspects of healthcare and rehabilitation remains with SG through Defence Medical Services (DMS). The clinical treatment and rehabilitation of WIS personnel is to take primacy over other recovery and duty activities whilst personnel remain in the ‘recovery pathway’.

b. Personnel attending DMRC Stanford Hall are to take their IRP with them in order for it to be reviewed and updated on completion of treatment. SP are to attend with IRP and IP and the individual is to ensure that the IRP is discussed with the DO/Tp Comd/LM on return to Parent Unit to ensure that treatment/rehabilitation plans are followed.

3307. The Case Conference

a. Naval Service (NS) Wounded, Injured and Sick (WIS) personnel are those who are assessed as Joint Medical Employment Standard (JMES) code M5 or M6.

b. The Individual Recovery Plan (IRP) was introduced in Jan 16 and is to be raised on every WIS individual. The IRP is developed using the HARDFACTS assessment tool; Health, Accommodation and Relocation, Drugs and Alcohol, Finance and Benefits, Attitude, Thinking and Behaviour, Children and Family, Training, Education and Employment, Supporting Agencies. The tool allows the individual to plan and set recovery goals; it also allows the Chain of Command to better understand, oversee and monitor the individual's recovery.

---

22 JSP 534 Section 6.
23 JSP 757 Part 2 Vol 1 Chap 1 Annex B Para 1.a (6).
c. Whilst it is expected that most WIS personnel serving in HM Ships, Submarines and Commando Units will be landed/assigned to a Personnel Support Group (PSG)/Recovery Cell (RC)/Recovery Troop (RT) on medical downgrade to M5/M6, those serving ashore are most likely to remain in their establishment where the Unit Executive, through the Divisional/Regimental system, will monitor and oversee their recovery via the IRP. When an individual's recovery is not progressing as expected, the case is to be referred to the Unit Carers' Forum or Care Committee^{24}.

d. Should the Carers' Forum consider that the Parent Unit is unable to support the individual adequately and provide an appropriate recovery 'pathway', a NSCC Case Conference is to be requested, usually by the parent unit, to discuss the needs of the individual and support required^{25}.

e. The Naval Service Casualty Cell (NSCC) is responsible for facilitating the CC and inviting a multi-disciplinary panel to review all aspects of the case with a view to determining the most appropriate recovery pathway. The aim is to ensure that the immediate and long-term care and needs of the WIS individual are being met from an holistic perspective; this includes medical and allied health requirements, welfare, career and employment management and, where necessary, support in the transition to civilian life.

f. **Notice to Case Conference.** Notwithstanding exceptional or unforeseen circumstances, the minimum notice to conduct a CC is three weeks. This time is required to allow for cases to be adequately represented and the NSCC to process all paperwork. Requests submitted later than the required period cause a significant admin backlog for the NSCC team as well as increasing the potential for inaccurate recording of information.

g. **Management of SP Expectations.** With an increasing number of cases in which SPs see the Naval Service Recovery Centre (NSRC) Hasler as their only recovery option, it is important for the divisional and medical Chains of Command to manage expectations and explain to them that the purpose of the CC is to discuss and decide upon the most appropriate care setting, for which there are several potential outcomes, as follows:

(a) Retain in current unit.
(b) Assign to another unit.
(c) Assign to a Unit Recovery Troop.
(d) Assign to a Personnel Support Group (PSG).
(e) Assign to the NSRC Hasler.
h. It is the Parent Unit’s responsibility to identify all personnel with an intimate knowledge of the individual, the case and the resources required to enable an effective recovery pathway and ensure that they are nominated on the CC request form (Appendix 1 to Annex 33D) and attend the CC. The NSCC will invite additional SMEs as necessary.

i. Using the IRP and CC request as the basis for the assessment and discussion, the CC attendees will discuss the breadth and depth of the individual’s needs to determine how and where to provide the most appropriate support when:

(1) Breadth, or complexity, refers to multiple (two or more identifiable) needs eg. mental health, physiotherapy, welfare etc. that are inter-connected and not necessarily all medically related.

(2) Depth refers to severity, intensity or duration of need.

j. Personal aspirations also have a part to play. An individual may have acceptance issues and not wish to attend a specialist RC, RT or NSRC Hasler as it could be perceived by them as a confirmation of a decline in their condition. Similarly, individuals may wish to remain in their current unit since they are content with the support they are receiving, and their current employment provides positive focus. These are all important factors in a person’s recovery pathway and will be considered along with the needs of the Service and the requirement to achieve the best outcome for the individual.

k. **Representation at Case Conference.** To ensure the SP is appropriately represented, all facets of care (eg. clinical, welfare, physio, divisional etc.) should attend the CC if possible. As a minimum, it is expected that the individual will be represented medically and divisionally by the owning unit. Requests for a standing member of the committee, eg. medical, who is not part of the owning unit, to represent the individual will not be approved as this affects the impartiality of the case conference process. Given that units have three weeks to fully prepare for the CC, there can be little justification if the SP is not given the deserved level of attendance. If adequate attendance by the owning unit is not achievable, the CC referral will be deferred.

l. WIS individuals may attend the case conference and provide a verbal or written personal statement, but this is not essential, and they will not be present for subsequent discussions.

m. If present at the CC, the individual will be informed of the decision on completion and given an opportunity to ask questions. If not present, the decision is to be relayed to the individual without delay and the reasons behind the decision fully explained. This is usually a CoC function for the owning unit, but should be agreed at the CC and noted in the summary of outcome.

---

26 The Individual’s up to date IRP should be forwarded to the Case Conference.
n. A full account and summary of the CC and decisions made is retained by the NSCC.

o. The procedure for initiating a Case Conference is at Annex 33D.

3308. Recovery Activity

a. Recovery is different for all; it can be a lengthy process with intense periods of treatment and rehabilitation interspersed with periods of inactivity, or it can be very straightforward and uncomplicated where the WIS individual can be productively employed between medical interventions in unit. Either way, appropriate support to enable an effective return to full duties or transition to a properly supported and appropriately skilled civilian life is to be provided and there are numerous approved recovery activities that can be utilised to contribute to these goals.

b. Recovery activity can take many forms and can be as simple as reduced working hours during a period of intense rehabilitation to attending Recovery or Vocational Placements\(^27\) in preparation for return to work after a prolonged period of illness/injury. Participation in a recovery activity must be coherent with the IRP and be programmed so as not to impact upon, but work in conjunction with, planned clinical and rehabilitation activities.

c. Before any recovery activity is commenced, a Medical Risk Assessment (MRA) is to be conducted to ensure that the chosen activity is conducive to rehabilitation; this is to be recorded in the IRP. Only the CoC, after having had sight of the MRA, can approve a recovery activity; individual WIS personnel are not to engage on a recovery activity unless it has been approved by the command and their approval noted on the IRP.

d. Before attending any recovery activity/course, a formal application\(^28\) is to be made by the WIS individual to the CoC to ensure that responsibilities are understood by all parties, duty status confirmed and resource (eg. T&S) made available.

e. The Army, supported by Help for Heroes and The Royal British Legion, have developed a programme\(^29\) of Defence Recovery courses at their Personnel Recovery Centres (PRCs), which may be of benefit to NS WIS. These include the Core Recovery Events (CREs) and Rolling Recovery Programme (RRP) (Annex 33E).

f. Exceptionally, medically downgraded personnel with a JMES of M3 may attend recovery activities if it is considered by the Carers Forum\(^30\) to be conducive and beneficial to the individual’s recovery.

\(^{27}\) JSP 534 Art 0713.

\(^{28}\) JSP 534 Annex DD.

\(^{29}\) http://defenceintranet.dii.f.r.mil.uk/Organisations/Orgs/Army/Organisations/Orgs/ag/Organisations/Orgs/dgpsa/Orgs/ARC/Pages/OptionalCourses.aspx.

\(^{30}\) Or other appropriate multi-disciplinary team eg. CART.
**3309. Employment**

a. A key factor in determining ‘entry’ to the NSRP is the JMES limitation and associated caveats placed on an individual i.e. they cannot undertake their *normal* duties. Within the Recovery Pathway emphasis is placed on developing an IRP that includes appropriate employment opportunities for personnel as they work towards returning to duty or transition to civilian life. All employment undertaken by WIS must be cognisant of the individual’s medical limitations and, where any doubt exists, clarification should be sought from the MO.

b. Being suitably employed and feeling a valued member of the NS is a fundamental part of recovery, but it should not come at the expense of rehabilitation. Employment during recovery should be considered alongside other recovery activities however, the primary ‘duty’ of a WIS individual is rehabilitation.

c. For the majority of NS WIS personnel, a return to duty is the expected recovery outcome. In order to achieve this, a Gradual Return to Work (GROW) programme is often required and employment should, where possible, be tailored towards the trade/skill of the WIS individual.

d. When an individual is nominated for a period of employment, it should be noted in the IRP. The employing officer should be made aware of any restrictions and limitations in place and the requirement to attend rehabilitation/medical appointments. Whilst the employer may have day to day Line Management responsibility for the WIS individual, they may not have Divisional responsibility; this is to be made clear to all parties and the IRP annotated accordingly.

e. WIS individuals are entitled to an OJAR/SJAR and temporary employers are to feedback sufficient information to the DO/Tp Comd/1RO in order for a report of value to be drafted (Para 3305. sub para l).

f. WIS personnel who are recommended for Naval Service Medical Board of Survey (NSMBOS) are able to access resettlement entitlements at an earlier stage than other Service Leavers. In these cases, any temporary employment should be considered alongside the need to commence resettlement activity and registration with the Career Transition Partnership (CTP). For those WIS with particularly challenging transitional needs, a Specialist Employment Consultant (SEC) may be required who may recommend prolonged periods on vocational or civilian work placements.

**3310. Participation in Adaptive Sport and Adventurous Training**

Participation in sport and adventurous training (AT) is fundamental to service life and Naval Service ethos and is a potential accelerator to the recovery of WIS personnel; detailed guidance on participation is at Annex 33F. A Budget Control Form should be completed with cost being borne by the parent unit.

---

31 Subject to DPA and Caldicott Policy requirements.
32 JSP 534 Section 6.
33 JSP 534 Para 0608.
3311. **Battle Back Programme**

a. **Battle Back** is a MoD initiative for WIS personnel that use Adaptive Sport and Adventurous Training (AS & AT) to complement rehabilitation, recovery and return to an active lifestyle. The use of AS & AT has a proven track record to aid successful physical, psychological and social recovery, thus providing the foundation for the development of a positive self-image and outlook on life.

b. The Battle Back Centre conducts AS & AT Multi-Activity Courses (MAC) at the National Sports' Centre, Lilleshall, Shropshire. In addition to sports and AT, coaching experts from Carnegie Great Outdoors (part of Leeds Beckett University), are available to work with individuals to increase self-confidence, motivation, awareness, problem solving, communication and decision-making skills; all aiding the development of strategies to cope with future situations.

c. The MAC is not a traditional military sport or AT course. WIS participation in each activity is carefully considered and personnel will only take part in training that is tailored specifically to their needs. The aim of the MAC is to use AS & AT as the personal development ‘vehicle’ to aid recovery as part of a WIS individual’s IRP that encourages them to discover what they can achieve rather than remind them of what they cannot.

d. The Battle Back Centre provides adapted residential accommodation for personnel whilst they are taking part in activities which include indoor climbing and caving, water sports, wheelchair basketball, archery, mountain biking, sitting volleyball and clay pigeon shooting.

e. After attending a MAC, many recovering Service personnel wish to take their activities to a higher level and a number of expeditions are run annually under the Battle Back banner to venues such as Cyprus, Germany and Spain to undertake single discipline activities such as rock climbing, skiing, sailing and canoeing which can lead to the achievement of nationally recognised awards.

f. The MAC has been shown to aid recovery and engender a positive attitude and accelerate recovery. WIS personnel can apply to attend the Battle Back MAC through their CoC at any time, with the provision that it is an appropriate juncture in the recovery pathway and conducive to their rehabilitation. Attendance on the Battle Back MAC is highly desirable (subject to MRA) for those NS WIS who have been in the recovery pathway for greater than six months.

---

3312. **Home Adaptations**

WIS personnel with complex injuries may require adaptations to domestic accommodation\(^{35}\). Adaptations can be made to SLA, SFA, private homes (including parental homes) and adaptations to a second property when WIS personnel move from an adapted parental home to their own property. The process is initiated using a Service Adaptation Initial Case Report (SAICR); this form provides the background and includes an Occupational Therapist (OT) assessment. It is important that WIS personnel requiring private home adaptations start the process as soon as possible to allow sufficient time for the application process and completion of work\(^{36}\). Funding for home adaptations for serving WIS is a DIO responsibility. Further advice may be obtained from NAVYLOGINFRA-INFRASTRAT1@mod.uk.

3313. **NSRP Management Information**

a. When an individual is downgraded and becomes WIS, they are to be interviewed by their DO/Tp Comd or LM to assess the most appropriate recovery pathway; an IRP is to be completed and a JPA IRP competence (Annex 33C) raised for that individual.

b. The Unit Executive Department, via the OBIEE Recovery Pathway Tool and JPA dashboard, is to identify and regularly monitor WIS personnel within the unit to ensure that appropriate recovery management is taking place, IRPs have been completed and an appropriate competence has been raised. Units are to routinely select IRPs at random to check for completeness, accuracy, Data Protection and Caldicott compliancy.

c. In addition to raising an IRP, NSRC Hasler and the RM RTs use the Army’s Wounded, Injured and Sick Management Information System (WISMIS) as their principal WIS management and tracking support tool\(^{37}\).

d. In addition to raising an IRP, the Fleet Employment Capability Application (FECA) has been developed and accredited by Fleet N6 ISS to support the management of landed personnel. FECA is used by the PSG and CMC recovery elements as their principal WIS management and tracking support tool.

e. Data from FECA, WISMIS and JPA is used to inform the DRB, DRWG and Third Sector of NSRP statistics and recovery outcomes.

3314. **Recovery Staff Training**

The management and oversight of NS WIS personnel can often be a difficult, time consuming and emotional task, especially when dealing with multiple cases. In order to better prepare personnel for an assignment in a Recovery Cell or Troop, a training package has been developed (Annex 33B).

---

\(^{35}\) JSP 464 Vol 1 Part 1 Chap 3 Annex C.

\(^{36}\) Completion of an OT assessment, submission of a business case and the processing of the application for complex cases can take several months to complete.

\(^{37}\) WISMIS is currently being trialled as the Defence WIS Management Information System.
3315. Caring for the Carer

Working with WIS personnel is often highly demanding and personnel who are charged with case management often face complex and intense situations that may be emotionally challenging. Whilst there is no statutory requirement for formal supervision\textsuperscript{38}, in order to ensure that those working within this demanding area are able to operate effectively in a safe and responsive environment, the Unit Executive is to ensure that appropriate processes are put in place to encourage proactive oversight, support and professional development of those dealing with WIS individuals. It is essential that the framework is applied in an environment of trust, openness and active engagement and that DOs/Tp Comds have a method for accessing support. In cases of doubt, guidance should be sought from NS FPS.

3316. Safeguarding

a. ‘Safeguarding' means protecting an adult’s right to live in safety, free from abuse and neglect. It is about people and organisations working together to prevent and stop both the risks and experience of abuse or neglect, while simultaneously ensuring that the adult’s well-being is promoted including, where appropriate, regard for their views, wishes, feelings and beliefs in deciding on any action\textsuperscript{39}.

b. Safeguarding covers a wide range of practices and responsibilities and all personnel involved in the care of WIS share a responsibility to treat those being supported with respect, and to behave towards them in a way that carers would themselves want to be treated. This implies that carers must always act in a manner that is best for the individual – not for the convenience of the carer or the organisation; Annex 33G has more detail.

3317. Assurance

a. The Parent Unit Executive Department is responsible for assurance of the NSRP’s management of the recovery of individuals assigned to it. The Carers’ Forum is the conduit through which individual cases are assessed and managed within the unit in a multi-disciplinary environment.

b. External\textsuperscript{40} assessment of the specialist recovery units ie. NSRC Hasler, PSGs, RCs and RTs will be conducted by NCHQ Casualty and Recovery Management (CRM) Staff. Staff from other Recovery Units may be requested to support assurance visits in order to conduct both peer review and share best practice.

\textsuperscript{38} Supervision must enable and support workers to build effective professional relationships, develop good practice, and exercise both professional judgement and discretion in decision-making. For supervision to be effective it needs to combine a performance management approach with a dynamic, empowering and enabling supervisory relationship. Supervision should improve the quality of practice, support the development of integrated working and ensure continuing professional development. Supervision should contribute to the development of a learning culture by promoting an approach that develops the confidence and competence of managers in their supervision skills. It is therefore at the core of individual and group continuing professional development; (Skills for Care 2007).

\textsuperscript{39} Care and support statutory guidance, DH, 2016.

\textsuperscript{40} The Level 2 assurance process is currently under review.
c. Ofsted has been contracted by the DRB to conduct assurance of the Defence Recovery Capability and to assess personnel recovery structures across Defence. Ofsted is permitted to visit any unit, not only those with a specialist Recovery Unit embedded, it is, however, required to give 10 days’ notice of such a visit; the Ofsted Assurance Handbook is at Annex 33H. Any unit nominated for an Ofsted inspection should contact SO1 CRM.

3318. Medical Discharge Policy

a. Medical Discharge policy for the NS is consistent with tri-service policy\(^{41}\) and is as follows:

“Advice to the Naval Service on the medical fitness of an individual is provided through the award of a Joint Medical Employment Standard (JMES). The JMES is then used to inform the decision by the Naval Service on whether that individual should be retained, if the functional ability associated with their medical condition permits, or whether their condition precludes future employment, in which case the Service will arrange for termination of their service. Each case is considered on its merits, so that in some circumstances a small number of those with significant disabilities may be retained, if they wish to be retained, and the Service has a suitable position for them.”

b. In order to deliver the necessary consistency of outcome, the CoC shall determine that it is the right decision for an individual to leave the NS by answering the 5 questions\(^{42}\) below:

1. What is the individual’s Permanent Medical Category?
2. What is the individual’s employability within the Service?
3. Has the individual’s treatment been optimised or reached a plateau?
4. Has resettlement, training and education been completed?
5. Is society ready to receive the individual?

\(^{41}\) JSP 770 Chapter 5 Article 1.5.9.
\(^{42}\) JSP 770 Chapter 5 Article 1.5.10.
3319. Medical Assessment Process

a. Specific detail and guidance on the role of the NSMBOS and the Naval Service Medical Employability Board (NSMEB) is at Chapter 28 and in BR 1991 Chap 18. The NSMBOS assesses the medical state and prognosis of an individual and is conducted once they have been in a reduced medical category for 12 months, or sooner if it is obvious that the WIS individual will not return to their former grading. The NSMEB decides, based on NSMBOS and Personnel Branch advice, whether an individual should be retained or medically discharged from the Service. Retention is gauged on the ability of the NS to offer meaningful and fulfilling employment to injured personnel with realistic prospects of further promotion and advancement for the remainder of their career. The decision of the Board is informed by an individual’s written personal statement and reports by their lead clinician and chain of command.

b. No one will leave the Armed Forces until they have reached a point in their recovery where leaving the Service is the right decision, however long it takes. In the context of this statement, the NS has determined that the ‘point in their recovery where leaving the Armed Forces is the right decision’ will be when an individual’s medical care can be transferred seamlessly from Defence Medical Services (DMS) to National Health Service (NHS) without harm to the individual. If personnel are undergoing specialist medical rehabilitative care, their need for DMS-specific care vice NHS care must be assessed in order that retention in Service or onward referral can be arranged.

3320. Third Sector Support

a. The charitable sector plays a pivotal role in the delivery of the DRC and Help for Heroes (H4H) and The Royal British Legion (TRBL) are the MOD strategic delivery partners. NCHQ has established additional formal links with RNRM Charities to enhance the MOD provision for recovery activities. A list of useful contacts is at Annex 33I, the Casualty and Recovery Management intranet site, the NSRP Defence Connect site and NFF Recovery website.

b. Before any Third Sector support is sought or approved, a WIS individual must undertake a MRA and obtain Executive approval to participation in order to ensure that the training, activity or support offered is conducive to rehabilitation and will not impact on other areas of recovery/resettlement.

43 Retention until fit to transfer to NHS.
44 NAVY-MEDDIV SO1 HG note ‘Release from Naval Service on Redundancy while under Specialist Medical Care’ dated 10 Feb 12.
46 https://jive.defencegateway.mod.uk/groups/naval-service-recovery-pathway.
3321. Transition Pathway

a. When an individual is unfit for continued military service due to service limiting injuries and has gone through the NSMBOS and NSMEB processes, the NS has a responsibility to ensure that the individual’s transition to civilian life is managed as smoothly as possible. The principles of clinical transition for all Service Leavers are in JSP 950 Leaflet 1-3-6. Additional advice and guidance on the transition of more complex WIS personnel who may require NHS continuing healthcare arrangements (CHC) is described in JSP 770 Chapter 5 Part 4.

b. The tri-Service Welfare Referral (TSWR) Protocol for Service Leavers has been developed by Veterans UK and aims to ensure early identification and ongoing support for Service Leavers likely to be discharged/about to transition from military service, who may have severe physical or psychological disablement or are considered as having an enduring welfare need with which they will require support post Service.

c. Making the transition from Service to civilian life can be traumatic in itself. There is a number of Third Sector organisations that offer assistance with this life changing move; and both SSAFA and Future for Heroes offer a mentoring scheme.

3322. Resettlement Policy

a. All WIS personnel likely to be discharged from the NS on medical grounds are able to access resettlement entitlements at an earlier stage than other Service Leavers. In these cases, a balance needs to be struck between recovery and resettlement activities to ensure that the WIS individual has sufficient time to plan for the future and is ready for transition to a properly supported and appropriately skilled civilian life.

b. In all cases, a Transition Assessment Form (TAF) is to be completed for the WIS individual and forwarded to the local Naval Resettlement Information Officer (NRIO).

c. For those WIS who face significant barriers to employment a Specialist Employment Consultant (SEC) may be available through the CTP (Assist) programme; the NRIO will be able to advise.

50 http://www.f4h.org.uk/
51 JSP 534 Section 6.
52 JSP 534 Section 6.
d. When discharge on medical grounds is likely, attendance on one of the Army/H4Hs delivered Core Recovery Events (CREs) 2 or 3 may be appropriate. Hosted at the PRCs in Colchester, Edinburgh, Tidworth and Catterick, CRE 2 is a ten-day course that focuses on employment and realistic vocational options whilst CRE 3 is a five-day course designed for WIS individuals who have been assessed as requiring extra support in transition to civilian life as a result of their injury or illness. These courses do not replace CTP and CTP (Assist) which should always be considered. Full details of CRE courses are at Annex 33E.

---

53 Course dates are published in DINs and on the Arc intranet site http://defenceintranet.diif.r.mil.uk/Organisations/Orgs/Army/Organisations/Orgs/ag/Organisations/Orgs/dgpers/Organisations/Orgs/dpsa/Orgs/ARC/Pages/MandatoryCourses.aspx.
ANNEX 33A

OVERVIEW OF THE NAVAL SERVICE RECOVERY PATHWAY

Individual receives MB or MB JAMES coded downgrade
Entry into Naval Service Recovery Pathway

Individual reports to DO, Tp Comd or LM with ‘downgrade crit’
Individual Recovery Plan (IRP) (HARDFACTS)* initiated in consultation with individual

Individual remains in Unit (most shore establishments and some front line units)

Individual care pathway reviewed regularly by DO/Tp Comd/LM and recovery assessed; IRP updated as required

Recovery progressing
Continue in Unit and reassessed in set timeframe

Recovery not progressing/case becomes complex
Case discussed at Carer’s Forum or equivalent
Continue in Unit with additional support and reassessed in set timeframe

JAMES reassessed and individual upgraded or attends NSMBOS and NSMEB. Placed in highest suitable permanent medical category or transitions to civilian life
Remain in Unit with additional support or assigned to PSG/NSRC Hasler

IRP CLOSED

* The IRP, ‘owned’ by the individual, is to be updated regularly and overseen by the DO, Tp Comd or LM. It is to cover HARDFACTS considers Health, Accommodation and Relocation, Drugs and Alcohol, Finance and Benefits, Attitude, Thinking and Behaviour, Children and Family, Training, Education and Employment, Supporting Agency.
ANNEX 33B

GENERIC RECOVERY UNIT DO/TP CMD TORS AND TRAINING REQUIREMENT

1. Preamble
   a. The Defence Recovery Capability (DRC) is to deliver a conducive military environment within which all serving wounded, injured and sick (WIS) personnel get the appropriate support to enable an effective return to duty or transition to a properly supported and appropriately skilled civilian life.1
   b. The Naval Service Recovery Pathway (NSRP) is the generic term used to describe the process by which the NS manages the recovery of WIS personnel.
   c. WIS personnel who remain broadly employable and with less demanding recovery needs are to remain in their Parent Unit and be managed through the Divisional/Regimental system. If the unit is unable to support the individual and provide an appropriate recovery pathway, WIS personnel may be re-assignment to a specialist Recovery Unit2 depending on the individual’s personal circumstances. Those WIS personnel with the most complex recovery needs may be assigned to the Naval Service Recovery Centre (NSRC) Hasler, in HMS DRAKE or, in exceptional circumstances, to an Army or RAF Recovery Unit, whichever best meets the needs of the individual.

2. Purpose
   To act as the Divisional Officer (DO)/Troop Commander (Tp Comd) for NS WIS assigned the Recovery Unit.

3. Superiors
   The post holder is accountable to the CO/OC.

4. Authority
   The post holder has delegated authority to:
   a. To liaise with all MoD authorities (to include the Army and RAF recovery capabilities) to achieve his/her purposes.
   b. To liaise with medical authorities insofar as it relates to personnel within their Division/Troop.

5. Principal Tasks
   The principal tasks undertaken are as follows:
   a. Oversee and manage the recovery of assigned personnel, ensuring that Individual Recovery Plans are created, updated and adhered to.

---

1 JSP 770 Chapter 5 – Tri-Service Recovery Policy.
2 Recovery Cells are located within the Personnel Support Groups (PSG) located in the Portsmouth, Devonport and Faslane Naval Bases and in the Career Management Cells (CMCs) in Yeovilton and Culdrose Air Stations; Recovery Troops (RT) have been established in 40, 42 and 45 Cdo units.
b. Attend the Unit Carers Forums as directed by the Medical Officer/CoC.

c. Organise meaningful employment for assigned personnel, ensuring that such employment is within JMES restrictions and caveats and does not interfere with rehabilitation and overall recovery.

d. Conduct home/hospital visits for assigned personnel who are 'sick on shore'.

e. Attend Case Conferences as directed and requested by the NSCC/CoC.

f. Maintain regular and robust lines of communication with other stakeholders, including charities.

g. Ensure that Mid-Period Appraisal Reports (MPAR) are conducted and that Annual Appraisal Reports/Short Appraisal Reports are completed for personnel within their Division/Troop where required (Para 3305 sub para I).

h. Ensure the personal and professional development of individuals and mentor those undertaking the NSMBOS/transition process.

i. Ensure all personnel have the opportunity to conduct sport and AT (this can be adaptive sport) in accordance with PFS and JMES restrictions. Battle Back is mandatory for all WIS personnel after 6 months in the Recovery Pathway.

j. Carry out other duties as directed by the CoC.

7. **Competences**

There are no specific competences for this post.

Line Manager’s signature: .......................... Post Holder’s signature: ..........................

Date: .......................... Date: ..........................

Review Date: ..........................
ANNEX 33C
THE INDIVIDUAL RECOVERY PLAN

1. Introduction

a. The NSRP process is designed to assist a WIS individual in their return to effective service employment, or to provide support through the transition process to civilian life, if it is deemed that they are unable to continue to serve within the Naval Service.

b. Whilst all WIS individuals are provided with a clinical pathway by the Medical Officer (MO), the Command, through the Divisional/Regimental system, has a responsibility to oversee and manage the recovery or transition of their personnel; recovery can best be managed by the development of an Individual Recovery Plan (IRP).

c. An IRP is required for all NS WIS personnel, not just those assigned to a Recovery Cell, Troop or the Naval Service Recovery Centre (NSRC) Hasler.

d. To reinforce the IRP and enable assurance, an IRP JPA competence has been created. The IRP competence is linked to the Recovery Pathway OBIEE tool and JPA dashboard functions which alert the CoC when an IRP is required/missing. The creation of an IRP JPA competence will enable the Unit Executive and NCHQ Casualty and Recovery Management (CRM) team to ensure that all NS WIS have an IRP raised.

2. The Individual Recovery Plan

a. When an individual is downgraded and meets the NSRP WIS criteria, an IRP is to be raised by the DO, Tp Cmdr or LM.

b. The IRP is informed by an individual’s HARDFACTS assessment: Health, Accommodation and Relocation, Drugs and Alcohol, Finance and Benefits, Attitude, Thinking and Behaviour, Children and Family, Training, Education and Employment, Supporting Agencies.

c. The IRP is a planning tool that synchronises and schedules activities appropriate to an individual’s recovery; it should record the progression of an individual towards their recovery goal/outcome as well as providing a diary of recovery activities.

d. The IRP is ‘owned’ by the individual and should be used by the DO/Tp Comd/LM to set and record agreed goals and monitor progress against personal targets.

e. It should also be used by the WIS individual to reflect on the success of stages of recovery.
The IRP should be reviewed at least monthly and after contact with a WIS individual sick-on-shore to ensure progress is being made along the recovery ‘pathway’ and that the WIS individual and CoC know what is required or to be expected to meet the goals agreed.

The IRP is to be based upon the following:

1. Agreed recovery objectives/aspirations and measures of success.
2. Reflection on the success of stages of the recovery pathway.
3. Individual recovery courses and activities.
4. Dates for appointments, medical, training, resettlement, visits, etc.

A worked example of the IRP is at Appendix 1. A ‘soft’ copy of the IRP can also be found on the Casualty and Recovery Management Intranet site.

When an individual leaves the recovery pathway i.e. transitions to civilian life, is medically ‘upgraded’ or is placed in a permanent MedCat, the IRP is to be finalised/closed and forwarded to the CRM Mailbox; the JPA IRP competence can then be end-dated.

3. IRP Competence

Once an IRP is created, the DO, Tp Comd or LM is to ensure that an IRP competence is raised on JPA. The competence, which should have no end date, is to remain live until the individual leaves the ‘recovery pathway’ (i.e. transitions to civilian life, is medically ‘upgraded’ or is placed in a permanent MedCat). At this point the IRP is to be finalised/closed and forwarded to the CRM Mailbox for archiving; the IRP JPA competence is then to be end-dated.

The competence can be found under the Welfare heading: Welfare|Individual Recovery Plan|Joint.

The IRP competence is linked to the JPA dashboard function and will allow the Unit Executive to provide assurance to command that all individuals in the NSRP have an IRP. A JPA dashboard alert function will give the DO, Tp Comd or LM visibility of individuals who meet the WIS criteria and require an IRP and thus an IRP competence. Details of the JPA dashboard function can be found at Appendix 2.

1 If a home visit is not wanted by a WIS individual or thought appropriate by both the CoC AND WIS individual it is to be recorded in the IRP.

2 NS personnel who have attended NSMBOS/NSMEB and who are graded in a PERM JMES subject to review by either NSMBOS or a Regional Occupational Health Consultant before upgrading are still to be considered WIS and in the recovery pathway and should thus retain their IRP.
4. Summary

a. An IRP is required for ALL NS WIS personnel, not just those assigned to a Recovery Cell, Troop or NSRC Hasler.

b. Once commenced, an IRP JPA competence is to be created.

c. The IRP will ensure that all aspects of recovery are considered by the CoC and that all NS WIS personnel are managed equally. This IRP follows a standard tri-Service format and will ensure NS WIS serving in the Joint environment are treated uniformly.
Naval Service Individual Recovery Plan

Notes for Completion

1. All Navy Service Wounded, Injured and Sick (WIS) personnel are to have an up to date Individual Recovery Plan (IRP) throughout their time in the Recovery Pathway. The IRP is a planning tool that synchronises and schedules activities appropriate to an individual's recovery; it should record the progression of an individual towards their Recovery goal/outcome, allow a reflection of the success of different stages of recovery as well as providing a diary of recovery activities. The IRP is to be based upon the following:

   - Agreed recovery objectives/aspirations and measures of success;
   - Reflection on the success of stages of the recovery pathway;
   - Individual recovery courses and activities; and
   - Dates for appointments, medical, training, resettlement, visits, etc.

2. The IRP is informed by an individual’s HARDFACTS assessment:

   - All WIS personnel must start their IRP at the earliest opportunity once they become WIS;
   - The IRP is to be jointly developed, kept up to date and shared by the individual WIS and the CoC;
   - The CoC is ultimately responsible for ensuring each WIS has an IRP which is up to date;
   - The IRP is to contain no personal medical information (Medical-in-Confidence) unless permission to do so has been given by the WIS individual; see ‘Consent Form for Disclosure’ below;
   - The IRP is to be reviewed regularly, at least monthly and after contact or home visit with a WIS individual sick-on-shore;
   - The IRP is to be used to inform the Carers’ Forum or Case Conference;

3. The IRP as a minimum should note activities for the forthcoming 4 weeks as well as the long term plan and goals in as much detail as is available;

4. IRPs are to be stored by units in WIS case files as a record of activity and kept for the duration of downgrade. They should be forwarded to the next unit if a WIS individual is re-assigned; and

5. IRPs for all WIS must be available for assurance purposes.

4. Process

The following process should be adhered to in order to support the WIS recovery and that it is accurately documented:

6. Complete the HARDFACTS matrix;

7. Develop the IRP;

8. Complete the IRP ‘contract’ with signature from the WIS individual;

9. If the WIS individual is re-assigned, the IRP is to be sent to the receiving unit; and

10. Once finalised, the IRP is to be filed using the following naming convention: YYYYMMDD-IRP_ServiceNo_Rank_Name-FINAL-OSPERSONAL.

5. When the individual is no longer in the recovery pathway, the IRP is to be finalised/closed and forwarded to the CRM Mailbox: PEOPLESPTCRMMAILBOX@mod.uk
CONSENT FORM FOR DISCLOSURE OF MEDICAL INFORMATION

I hereby consent/do not consent to the disclosure of medical information relating to my current clinical condition.

I understand that the information disclosed in this form will relate only to the functional limitations of my current condition i.e. if I have any difficulties sitting, standing or driving and if so, for how long, or what arrangements may need to be made for me to partake in recovery/resettlement activities.

My Divisional Officer/Troop Commander/Line Manager may also need to know if I am taking medication that may affect my ability to undertake such activities e.g. if it makes me very drowsy at a particular time of day. They may also require information if I have a medical issue that may mean I will require additional assistance or support to prevent me, or others, from coming to harm e.g. a history of fitting.

I understand that this information may be disclosed to my DO, Tp Comd or LM, RNRMW or the provider of a recovery/resettlement activity to enable the provision of welfare and personal support.

“I have reviewed my recovery plan and am content that it reflects my recovery goals and that the plan is achievable.”

“I have reviewed this plan and am content it is achievable and will result in the best outcome possible.”

WIS Signature: [Signature]

Date: [Date]

Unit Signature: [Signature]

Date: [Date]
HARDFACTS Matrix - Aide Memoire

The Royal Navy uses the HARDFACTS format as a tool for guiding the provision of recovery support and maintaining a case record. The acronym HARDFACTS stands for: Health; Accommodation; Relocation; Drugs, Alcohol and Stress; Finance and Benefits; Attitude, Thinking, Behaviour and Welfare; Children and Family; Training, Education and Employment; Supporting Agencies. Behind each key factor there are numerous subsidiary factors which, used together when assessing the situation of the WIS individual, will enable a holistic view of the individual to be developed.

For this reason the report is structured to follow this format in order to ease transfer of information between stakeholders providing recovery support to the individual in question. It also provides a focus for the production of an IRP.

This aide memoire is principally intended to help guide Divisional Officers (DO)/Troop Commanders or Line Managers when they conduct interviews or visits with an individual who is WIS. The DO/Tp Comd may wish to share this aide memoir with the individual in advance of meeting, if they deem it appropriate.

The DO/Tp Comd is to ensure the generic elements of the Recovery Pathway are explained (the specific Recovery Pathway will be developed as the needs of the individual become known).

The DO/Tp Comd is to ensure that the individual is aware of their responsibility for keeping the DO/Tp Comd/Unit informed of their recovery activities.

The DO/Tp Comd must be careful to not to brief incorrect information when engaging with WIS individuals in order to avoid unfairly raising false expectations in regard to potential future employment prospects or outcomes.

If the individual's recovery is not progressing as expected, the case should be raised at the Establishment Carers' Forum.

Any questions on completing this matrix should be addressed to NAVYNPS-PEOPLESPTCRMMMAILBOX@mod.uk
**Subject Area** | **Issues** | **Remarks**
--- | --- | ---
**Introduction - The IRP Aspirations** | • Introductions.  
• Explain the purpose of the interview and the role of the line manager in the recovery process.  
• Provide an overview of the Naval Service Recovery Pathway including function of Parent Unit, Recovery Cell/Troop and NSRC Hasler.  
• Explain what the IRP is and provide an overview of the underpinning medical, welfare, administrative and education/training elements.  
• Ask the SP about their aspirations for Recovery, eg. return to work, training opportunities.  
• Discuss and agree how and when future contact will occur. | Gather/confirm information to allow development/progress of IRP.  
It may be worth completing this at the end of the initial contact so that limitations and condition are fully understood. This will help manage expectations for future contact.

**Personal Details Check** | • Address (incl postcode).  
• Telephones (incl landline and mobile).  
• E-mail address.  
• Next of Kin.  
• Additional Reservist information:  
  o Civilian occupation/profession?  
  o Civilian qualifications?  
  o Contact details of civilian employer?  
  o Reservist Unit contact details? | Confirm the SP has updated their details on JPA.  
Obtain all possible addresses and contact details.
**OFFICIAL SENSITIVE-PERSONAL (WHEN COMPLETED)**

<table>
<thead>
<tr>
<th>Health (Medical)</th>
<th>Accommodation</th>
<th>Relocation – more of an issue if leaving the Service. (Applies to all WIS, but consider implications for Foreign &amp; Commonwealth Service personnel.)</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Confirm the SP understands the medical recovery process including Medical Boards.</td>
<td>• Where is the SP living?</td>
<td>• Does the SP plan to relocate outside the UK?</td>
</tr>
<tr>
<td>• Confirm if Patient consent has been given to discuss medical issues.</td>
<td>• Who are they living with?</td>
<td>• If they are a Foreign &amp; Commonwealth SP, specialist support may be required. Has this been highlighted to the UPO?</td>
</tr>
<tr>
<td>• Ensure that the SP understands his/her responsibilities with regards to Sick Leave (if appropriate).</td>
<td>• Is there a requirement to conduct adaptations (temporary or permanent) as a result of the medical condition?</td>
<td>Have implications been explained? Highlight to the UPO.</td>
</tr>
<tr>
<td>• Discuss details of medical appointments – dates/location (eg. hospital).</td>
<td>• If yes has an OT report been requested? When?</td>
<td></td>
</tr>
<tr>
<td>• What is the SP’s opinion on their recovery timeline and expected/potential outcomes?</td>
<td>• Are the living arrangements suitable? If not why?</td>
<td></td>
</tr>
</tbody>
</table>

For disclosure purposes at Case Reviews/Conferences where applicable. SP should give this to MO during routine appointment. Must keep PU informed of location during sick leave. Must take annual leave if going on holiday. Clinical information is not required. This is to assess how clinical pathway impacts on other Recovery activities.

**Do not record Medical-in-Confidence data in the IRP.**

SLA/SFA/Rented/Own Property/Family/Friends. Spouse/Partner/Family/Friend.
Adaptations will require an Occupational Therapist’s (OT) report, usually obtained from the Local Authority through the MO. Significant delays need to be highlighted.

UNCONTROLLED WHEN PRINTED
### Drugs and Alcohol

- Are there any implications/limitations resulting from any medications being used by the SP?
- Are there any other drug/alcohol issues the DO/TP Comd should be aware of?

This can help guide future contact. Certain medications may impact on ability to concentrate or level of arousal at different times of the day. May impact on ability to drive/use machinery.

### Financial Matters

**Note:** A DO/TP Comd is not qualified to, and must not, give financial advice.

- Does the SP have any financial commitments that are causing concern? Why? Includes family financial concerns.
- Does the SP need advice on the AFCS, AFPS and PAX if appropriate?
- Is the SP aware of the ‘Money Force’ web site?
- Confirm SP’s pay and allowances are up to date.
- Does the SP require assistance from charitable grants to help their recovery and ease their circumstances? What is status of any such applications already submitted?
- Note: Mobilised Reservists’ pay is complicated and will require unit HR advice.

The SP is at liberty to refuse to disclose this information.

The SP will need Unit HR advice on this subject.

https://www.moneyforce.org.uk/

SP can check pay statements on-line through the Defence Gateway.

Unit HR to advise on application process.

### Attitudes, Thinking and Behaviour (Welfare)

- How does the SP feel about their injury/illness?
- Has the SP ever thought about and/or attempted to self-harm or take their own life?
- How does the SP react in difficult situations?
- How does the SP feel about their future?

What is their mood? Positive, or Negative? This will need to be highlighted to MO.

Look for evidence of emotional instability, stress, gets upset easily, anxious.
### Children and Family

- Is the SP in a relationship?
- What is his/her name? Do they live together?
- Are they at home or working?
- What is the status of the relationship?
- How would the SP describe his current relationship?
- Does the SP have any children? How many are dependants?
- If yes, how many and what are their names and ages?
- Where do the children live?
- Does the SP have any significant previous relationships?
- Are there other wider family members? Can they offer support? Do they have their own needs?
- How does the SP describe his relationship with his family?
- Does the SP have any ongoing family issues/concerns?

### Training, Education, Employment and Resettlement

- What are the SP’s career/employment aspirations?
- Has the SP had a Career Interview?
- Are there any opportunities for the SP to undertake training as part of their Recovery?
- Has the SP discussed opportunities with unit Education/Training staff?
- Has the SP made contact with Regional Resettlement Officer, if appropriate?
- Is the SP registered with CTP?
- Has SP considered benefits of attending Battle Back?

**Dismissive/Anxious/Avoidant/Secure**

Level of support, mutual respect/affection, strength of relationship, difficulties include threats and physical abuse. This should be discussed without family member present to remove threat of intimidation.

Ex-partners and/or children for whom the SP pays maintenance.

**Types of Relationships:**

- **Dismissive** - Sees themselves as self-sufficient and in denial about the importance of close relationships.
- **Anxious** - Positive outlook of other but has low opinion of themselves.
- **Avoidant** - Has a poor opinion of themselves and their partner.
- **Secure** - In a secure relationship and has positive view of themselves and their partner.
<table>
<thead>
<tr>
<th><strong>Support</strong></th>
<th><strong>Transport (Not part of HARDFACTS, but useful additional info)</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>- Has RNRMW made contact? Is support on-going?</td>
<td>- Does the SP have a car?</td>
</tr>
<tr>
<td>- Has Chaplain/Padre/spiritual supporter made contact? Is support on-going?</td>

APPENDIX 2 TO ANNEX 33C

INDIVIDUAL RECOVERY PLAN JPA DASHBOARD FUNCTION

1. A Naval Service Recovery Pathway (NSRP) Individual Recovery Plan (IRP) competence dashboard tool has been created to support the Unit Executive in confirming that all NS WIS personnel under their command have an IRP.

2. Personnel WIS are defined as:

‘Personnel holding a JMES - Maritime limitation of M-5 or M-6’

3. Tiles have been added to relevant dashboards accessible to an individual, their DO/Tp Comd and Unit HR professionals. This information is available for use and the logic behind the tiles is:

a. The tile is Green if an individual is either not on the Recovery Pathway or is on the pathway and holds an in date IRP competence.

b. The tile will be RED for Personnel on the Recovery Pathway who do not hold an in date IRP competence.

4. Naval Service Personal Information Check Dashboard
Tile on Personal Data Summary tab:

![Naval Service Personal Information Check](image-url)
5. Divisional Officer Dashboard

a. Tile on Current Issues tab:

ANNEX 33D

PROCEDURE FOR INITIATING A CASE CONFERENCE

1. Introduction

a. Naval Service (NS) Wounded, Injured and Sick (WIS) personnel are those who are assessed as Joint Medical Employment Standard (JMES) code M5 or M6.

b. Whilst it is expected that most WIS personnel serving in HM Ships, Submarines and Commando Units will be landed/assigned to a Personnel Support Group (PSG)/Recovery Cell (RC)/Recovery Troop (RT) on medical downgrade to M5/M6, those serving ashore are most likely to remain in their establishment where the Unit Executive, through the Divisional/Regimental system, will monitor and oversee their recovery via the IRP. When an individual's recovery is not progressing as expected, the case is to be referred to the Unit Carers' Forum or Care Committee.

c. Should the Carers' Forum consider that the Parent Unit is unable to support the individual adequately and provide an appropriate recovery 'pathway', a NSCC Case Conference (CC) is to be requested, usually by the parent unit, to discuss the needs of the individual and support required.

2. Procedure for Initiating a Case Conference

a. Anyone involved in the care of the individual may initiate a CC at any time by forwarding a 'Case Conference Request Form' (Appendix 33D-1) to NAVYNPS-PEOPLESPTCRMMAILBOX@mod.gov.uk or by contacting the NSCC (02392 573083/68). Note: Case Conference Requests are not to be directed to NSRC Hasler, PSGs, RCs or RTs.

b. CCs are routinely held on the first Tuesday of the month; they may, however, be convened at short notice in exceptional/urgent circumstances. The NSCC may be contacted for further guidance.

c. The CC will, generally, be chaired by the NSCC from NCHQ via VTC; units can choose to take part in person or via video link. Telephone connection should only be used as a last resort if physical attendance (via VTC or in person) is not possible.

d. Notwithstanding exceptional or unforeseen circumstances, the minimum notice to conduct a CC is three weeks. Requests submitted later than the required period result in a significant admin burden for the NSCC team, increase the potential for inaccurate recording of information and reduce the likelihood of appropriate representation for the patient.

e. The CC request should include the contact details of those personnel required to attend; the individual's clinical lead and DO/Troop Commander as a minimum are required to drive the discussions and articulate support requirements and should come fully prepared to do so. The NSCC will invite additional experts as required.
f. The requesting unit should ensure that all relevant parties from the unit are aware that a CC has been requested and that their presence is required. The NSCC will facilitate the CC and send out meeting requests to the personnel identified on the CC request. The NSCC will not invite the WIS individual under discussion; this is a unit responsibility (if considered appropriate).

g. To ensure the patient is appropriately represented, all facets of care (eg. clinical, welfare, physio, divisional etc.) should attend the CC if possible. As a minimum it is expected that the individual will be represented medically and divisionally by the owning unit.

h. Requests for a standing member of the committee, eg. medical, who is not part of the owning unit, to represent the individual will not be approved as this affects the impartiality of the CC process.

i. If adequate attendance by the owning unit is not achievable, the CC referral will be deferred to the following month to ensure that the individual is appropriately represented, and the full recovery pathway and needs established.

j. If key personnel are unable to attend the CC, they are to ensure that a suitably empowered representative, from the parent unit, is available. In exceptional circumstances, where attendance in person is not possible, written evidence supporting the CC is to be forwarded to the NSCC in good time.

3. DCMH

If a patient is under the care of DCMH then DCMH representation at CC is strongly recommended. Failing this, clinical staff must ensure that the DCMH recommendation for the patient’s outcome and recovery needs is represented by a doctor at CC. Also, should DCMH recommend the re-assignment of a patient at CC, given the importance of such a recommendation, this must be included in the doctor’s notes on the CC referral or in an email.

4. CC Referral Form

a. The CC process, whilst owned by the NSCC, requires significant input from units to ensure a successful outcome for the patient. Responsibility for the full and accurate completion of the CC Request Form sits with the referring unit. The ‘required attendees’ section on the final page of the request form must be completed in full.

b. The NSCC does not have the capacity to chase units for missing information, therefore, given the limited availability of CC time slots, priority will be given to those referrals that have completed paperwork and a full list of attendees.

Appendix

Appendix 1: Naval Service Casualty Cell Case Conference Request.
APPENDIX 1 TO ANNEX 33D

NAVAL SERVICE CASUALTY CELL CASE CONFERENCE REQUEST

Requests for a Case Conference are to be submitted by the Parent Unit to the Naval Service Casualty Cell (NSCC) NAVYPERSPFCSCRMMAILBOX@mod.uk at least 3 weeks¹ prior to the required date and include sufficient detail to enable a decision to be made on the appropriate recovery pathway for the individual concerned.

Unit Requesting:

<table>

ANNEX 33E

CORE RECOVERY EVENTS\(^1\) AND THE ROLLING RECOVERY PROGRAMME

1. Introduction

a. Recovery is different for all; it can be a lengthy process with intense periods of treatment and rehabilitation interspersed with periods of inactivity, or it can be very straightforward and uncomplicated where the Wounded, Injured and Sick (WIS) individual can be productively employed between medical interventions in unit. Either way, appropriate support to enable an effective return to full duties or transition to a properly supported and appropriately skilled civilian life is to be provided and there are numerous approved recovery activities that can be utilised to contribute to these goals.

b. Core Recovery Events (CREs) are developmental activities that WIS Service Personnel (SP) can undertake to assist in their recovery or transition. Army/Third Sector resourced, the courses take place at the four UK Army Personnel Recovery Centres (PRCs) located in Catterick, Colchester, Edinburgh and Tidworth.

c. The Rolling Recovery Programme (RRP) is a one week multi-activity programme held at Tidworth and Catterick PRCs and is designed to help WIS who have been long term sick on shore reintegrate back into communal life, develop their self-confidence and provide a meaningful period of activity between other courses or medical treatment.

d. All NS WIS are to have an Individual Recovery Plan (IRP) which synchronises and schedules activities appropriate to an individual's recovery; it should record the progression of an individual towards their recovery goal/outcome as well as providing a diary of recovery activities.

2. Core Recovery Events (CREs)
The five CRE courses are as follows:

a. **Recovery Foundation.** This 5 day CRE enables WIS personnel to better understand the Recovery Pathway as well as access support and opportunities to aid recovery.

b. **Recovery Development.** This 3 day CRE provides additional time following the Recovery Foundation course to WIS who require further assistance in developing their IRP.

c. **Recovery Transition.** This 10 day CRE prepares WIS personnel for transition from military to civilian life and focuses on employment while examining realistic vocational options. WIS personnel must be registered for Resettlement and have completed a Resettlement Advisory Brief (RAB) prior to attendance.

\(^1\) Core Recovery Event content is currently under review and will be re-issued in Apr 17. A RNTM will be issued to advertise any changes.
d. **CTW+.** This CRE is an alternative to the regular Career Transition Workshop (CTW) available during Resettlement. This 5 day course is aimed at those WIS personnel with significant barriers to employment and who are in need of additional support.

e. **Battle Back Multi-Activity Course (MAC).** The Battle Back Centre conducts Adaptive Sport (AS) and Adaptive AT (ApAT) Multi-Activity Courses (MAC) at the National Sports’ Centre, Lilleshall, Shropshire. In addition to sports and AT, coaching experts from Carnegie Great Outdoors (part of Leeds Beckett University), are available to work with individuals to increase self-confidence, motivation, awareness, problem solving, communication and decision making skills; all aiding the development of strategies to cope with future situations. The aim of the MAC is to use AS and ApAT as the personal development ‘vehicle’ to aid recovery and encourages individuals to find out what they can achieve rather than remind them of what they cannot. All WIS personnel are encouraged to attend MAC early in their recovery pathway however, attendance on the Battle Back MAC is mandatory for those NS WIS who have been in the Recovery Pathway for greater than six months.

3. **Medical Risk Assessment**

Before any recovery activity/event is commenced, a Medical Risk Assessment (MRA) is to be conducted to ensure that the chosen activity is conducive to an individual’s rehabilitation; this is to be recorded in the IRP. Only the Chain of Command, after having had sight of the MRA, can approve a recovery activity; individual WIS personnel are not to engage on a recovery course/event unless it has been approved by the command and approval noted on the IRP.

4. **Course Applications**

a. Details of the courses and the application process can be found in the current DIN (2019DIN07-014). Applications can be accessed at the following URL: https://modgovuk.sharepoint.com/teams/1604/Lists/CREAppForm2/NewForm.aspx?Source=https%3A%2F%2Fmodgovuk%2Fsharepoint%2Fteams%2F1604%2FLists%2FCREAppForm2%FUser%5FView%2Faspx&RootFolder=

b. Applications that are incomplete or with noticeable anomalies will be returned to the sender. It is important that the PRCs receive all necessary information on the individual, to enable them to plan accommodation suitable for the individual, and to allow safeguarding measures to be implemented in advance as appropriate.

c. Once bidding for a course has closed, the Point of Contact for the applicant will be sent a copy of the nominal roll and directions to obtain Joining Instructions. Joining Instructions will contain instructions to be actioned both by the unit and the WIS individual.

d. Each application form will allow two bids to be entered. If the applicant is unable to attend both courses, then a new application for will be required.

e. Notification of personnel who fail to attend the start of a course will be sent the individual’s CofC.
5. **Cancellations**
   Course places are in high demand and cancellations must only occur in exceptional circumstances. Cancellations must be e-mailed to the host PRC for that course in advance of the start of a course, with reasoning. It is possible to attend a short medical appointment during the course, but this must be confirmed through the host PRC prior to the start of the course.

6. **Enquiries**
   Enquiries concerning course applications should be directed to the specific points of contact below:

   a. Enquiries for the CREs (excluding the MAC) should be directed to:
      
      DII E-mail: RC-Pers-ARC-0Mailbox@mod.uk  
      Civ: 01252 787603  
      Mil: 94222 7603

   b. Enquiries for the MAC should be directed to:
      
      DII E-mail: BattleBack-DASATC-Office Mnger@mod.uk  
      Civ: 01952 815670 or 01952815678

7. **Rolling Recovery Programme (RRP)**
   The programmes are residential and based on three main themes:

   a. **Community and Classroom.** Activities (including: Functional Skills, IT research, simple project planning, and life skills subjects) to broaden awareness, build confidence, promote discussion, debate and thought help WIS personnel become more responsive to training and education; develop a daily routine; and enhance personal independence.

   b. **Recreational and Adaptive Activities.** Activities designed to raise morale, and develop camaraderie through shared experience with the aim of stretching individuals so they can see what they can do, rather than dwelling on what they cannot do, develop interests and pastimes, develop life skills and initiative, enrich their lives, develop a sense of achievement and encourage active independent living.

   c. **Adventurous Training (AT) and Sport.** AT and Sport in general help personnel recover aspects of their previous life by becoming physically active again, and by rediscovering a sense of purpose and reconnecting to others. This broadens horizons through new activities, thus changing individuals’ direction in their life through a sport. In addition working with other members of a group encourages team work, social interaction, communication skills and enhances motivational outlook in life.

   d. Application forms and joining instructions for each RRP, together with details of other courses, can be found on the ARC Website in the right-hand panel.

ANNEX 33F

PARTICIPATION IN ADAPTIVE SPORT AND ADVENTUROUS TRAINING

References:
A. JSP 419 - Adventurous Training in the UK Armed Forces
B. JSP 765 - Armed Forces Compensation Scheme

1. Introduction
Participation in sport and adventurous training is fundamental to Service life and Naval Service ethos and can aid successful recovery by providing the foundation for the development of a positive self-image and outlook on life.

2. Background
a. When first faced with the reality of injury or sickness, many individuals experience a loss of confidence, depression, and believe that their active lives have ended. The sudden traumatic change in physical ability makes them vulnerable to psychological and emotional stress which can alienate them from their friends and family.

b. Participation in Adaptive Sport and Adventurous Training (AS&AT) focuses on what an individual can do rather than what they cannot do. Used in direct support of an Individual’s Recovery Plan (IRP), AS&AT has the potential to offer significant opportunities to encourage re-integration, build confidence and promote independence by overcoming challenge.

3. Eligibility
WIS personnel are not excluded from any Joint Service Adventurous Training (JSAT) and Sport activity in principle, and participation should be considered when developing an IRP. However, the level and means of participation will be determined by the nature of the injury/illness and will, in all cases, be subject to an acceptable Medical Risk Assessment (MRA) conducted by Service medical authorities. Executive approval will be required to confirm that consideration has been given to any constraints, limitations and mitigation that may be necessary in order to fulfil the MOD’s ‘Duty of Care’ and to ensure coherence with the IRP.

4. Participation Prior to Attendance at Naval Service Medical Board of Survey (NSMBOS)

a. All NS WIS personnel wishing to take part in AS&AT will require approval from the Executive within their allocated Recovery Unit, even if they remain under the clinical care of a hospital or DRMC Stanford Hall.

---

1 Type 2/3 and 4.
2 As well as the common law duty of care, the MOD has a statutory duty under the Health and Safety at Work Act 1974 (HSWA 74) Section 2 to “ensure, so far as is reasonably practicable, the health, safety and welfare at work of all employees”; this includes AS & AT.
3 BRd 3(1) Chapter 28.
4 This will be the individual’s Parent Unit if not formally assigned to a Recovery Cell, Troop or NSRC Hasler.
b. Where AS or AT is proposed for, or requested by, personnel in DMRC, a MRA is to be undertaken by the Consultant in charge of the patient’s care. The NS Liaison Officer (Navy-PersPFCSDMRCLO) is to liaise directly with the Recovery/Parent Unit to ensure that the correct Executive approval is given prior to participation in the proposed activity. A note of that decision made is to be recorded in the IRP.

5. Participation Post Attendance at NSMBOS

a. Medical Officers completing the NSMBOS ‘write-up’ for WIS personnel should include any relevant information on the desire and ability of the patient to undertake AS&AT. The patient’s Line Manager, when completing the NSMBOS Form 2, should include the Executive view of whether AS&AT is considered coherent with the patient’s IRP and any opportunities that may be available to the patient to do so; when overseas travel is envisaged, this should also be recorded. These statements will be considered by the Board when deciding on the medical grading and JMES coding of personnel attending. In cases where WIS personnel are deemed to be medically fit to travel abroad on AS&AT, this is to be reflected in the medical grading and JMES coding recommended by the NSMBOS.

b. All recommendations made by the NSMBOS are to be considered by the Naval Service Medical Employability Board (NSMEB) in accordance with current practice. It should be noted that, even if awarded a MedCat and JMES grading by the NSMEB that would allow participation in AS&AT, final approval is subject to acceptable MRA and endorsement by the Unit Executive at the time of application to participate in the activity. A note of that decision made is to be recorded in the IRP.

c. Personnel who, having previously presented at NSMBOS and not been awarded a MedCat which will allow them to undertake AS&AT at the desired level, or to travel outside the UK, may have their case re-presented to NSMBOS for review and re-grading if time is available. This will also necessitate agreement at the NSMEB. For specific AS&AT activities where there is insufficient time to be re-presented to NSMBOS, applications can be made through SO1 CRM to CNPers supported by an MRA and recommendation by the Unit Executive.

6. Duty Status

Regulations defining whether personnel are considered to be on or off duty when engaged in sport and adventurous training are contained at Reference A, Part 1 Para 15 and Reference B Chapter 1. All individuals undertaking any AS&AT are to consult with the activity organiser prior to participation in the event and to purchase additional insurance to cover activities for which MOD is not responsible or liable.
ANNEX 33G

SAFEGUARDING OF VULNERABLE ADULTS

1. Introduction
The Naval Service Recovery Capability (NSRC) is committed to creating a safe environment for all Wounded Injured and Sick (WIS) personnel. This means that everyone working with WIS personnel must fully understand their safeguarding duties. Safeguarding covers a wide range of practices and responsibilities and all personnel involved in the care of WIS share a responsibility to treat the people being supported with respect, and to behave towards them in the way we would want to be treated ourselves. This means that those involved in working with WIS personnel must always act in a way that is best for the individual – not for their convenience or the convenience of the organisation.

2. Definitions

a. A ‘Vulnerable Adult’ is someone who may be in need of community care due to a mental health problem, learning disability, physical disability, age or illness. As a result, they may be unable to take care of themselves or protect themselves from harm or being exploited.

b. ‘Safeguarding’ means protecting an adult’s right to live in safety, free from abuse and neglect. It is about people and organisations working together to prevent and stop both the risks and experience of abuse or neglect, while at the same time making sure that the adult’s wellbeing is promoted including, where appropriate, having regard to their views, wishes, feelings and beliefs in deciding on any action.

c. In contrast, ‘adult protection’ is about responding to circumstances/concerns that arise.

3. What is Abuse?
Abuse may be the result of single or repeated acts. It may be unintentional. It may be an act of neglect or a failure to act or could take the form of multiple acts. Abuse and neglect is not restricted to any socio-economic group, age, gender or culture and can take place anytime and anywhere. It can take a number of forms, including the following:

- physical abuse;
- emotional abuse;
- sexual abuse;
- psychological abuse;
- discriminatory abuse;

---

1 Defined by the Department of Health as: ‘A person aged 18 years or older who is or may be in need of community care services by reason of mental or other disability, age or illness; and who is or may be unable to take care of him or herself, or unable to protect him or herself against significant harm or exploitation.’

2 Care and support statutory guidance, DH, 2016

3 As detailed in the Care Act 2014.
neglect, acts of omission and self-neglect;

- domestic violence;

- modern slavery;

- financial (or material) abuse; and

- institutional abuse.

4. Characteristics

The following characteristics may, in some circumstances, place an individual more at risk of harm, neglect or abuse:

- not having the mental capacity to make decisions about their own safety or other day to day issues - including fluctuating mental capacity associated with mental illness and acquired brain injury;

- communication difficulties;

- physical dependency – being dependent on others for personal care and the activities of daily life;

- low self-esteem;

- experience of abuse; and

- childhood experience of abuse.

5. Risk Factors

The following factors about a situation may make someone more at risk of harm, neglect or abuse:

- being cared for in a care setting where they are more or less dependent on others;

- not getting the right amount or the kind of care they need;

- living in a family with multiple problems;

- isolation and social exclusion;

- stigma and discrimination;

- lack of access to information and support;

---

*Being unable to understand the implications of their situation and the risks to themselves, take action themselves to prevent abuse, participate to the fullest extent possible in decision making about interventions involving them, be they life-changing events or everyday matters (Mental Capacity Act 2005).*
6. Recognition and Indicators of Adult Abuse

a. It is not always easy to spot the symptoms of abuse. Someone being abused may make excuses as to why, for example, they are bruised, why they do not want to go out or talk to people, or why they are short of money. It is important to be aware of the signs of abuse and, where they are identified, share your concerns with the person being abused. If you wait, hoping the person will tell you what is been happening to them, you could delay matters and allow the abuse to continue. Behavioural signs of possible abuse can include the following:

- becoming quiet and withdrawn;
- being aggressive or angry for no obvious reason;
- looking unkempt, dirty or thinner than usual;
- sudden changes in their normal character, such as appearing helpless, depressed or tearful;
- physical signs of abuse, such as bruises, wounds (eg. bites, burns or scald marks), fractures and other untreated injuries;
- the same injuries happening more than once;
- not wanting to be left on their own or alone with particular people;
- anxiety, lack of confidence, low self-esteem and/or disturbed sleep;
- being unusually light-hearted and insisting there is nothing wrong; and
- signs of domestic violence can be any of those relating to the different types of abuse or neglect that can occur in any incident.

b. Other signs to watch out for include a sudden change in their finances, not having as much money as usual to pay for outgoings, or getting into debt. Watch out for any official or financial documents that seem unusual, and for documents relating to their finances that suddenly go missing. However, your ability to identify the signs and symptoms of abuse in any given situation is likely to depend on the nature of your relationship with the vulnerable adult.

7. Responsibilities

Commanding Officers must ensure that their personnel are familiar with safeguarding policy and procedures. Safeguarding is everyone’s business and individuals have a moral and legal responsibility to ensure the safety of vulnerable adults.
8. **What to do if you suspect abuse**

If you suspect abuse, you have a duty of care to take action. You should treat all allegations of abuse or neglect seriously. A concern may be a direct disclosure from a vulnerable adult, or a concern raised by others. It may be an observation of the behaviour of a vulnerable adult or the behaviour of another. If concerned, you should do the following:

- act immediately to protect the vulnerable adult. This is best achieved by early reporting via your line manager to the appropriate agency (this may be the police or the local authority). RNRMW can also provide advice on the appropriate actions;

- deal with immediate needs and ensure that the person is, so far as possible, central to the decision making process. Recovery Staff must be aware that it is not their role to investigate suspected abuse; this is the job of the appropriate authority. Over-involvement could complicate subsequent actions; and,

- clearly record the events, decisions made and actions taken.

9. **Recording Events**

It is vital to maintain a record of any concerns that may be raised about an individual – this includes a record of the actions taken in response. These need to be reviewed regularly as it may be possible to see patterns of behaviour emerging, which may indicate episodic or cumulative forms of abuse.

10. **Independent Reporting**

It is important that all personnel dealing with WIS individuals have an independent means to report concerns in confidence outside of their chain of command. Whilst, the initial point of contact should generally always be the line manager, personnel should not hesitate to contact RNRMW, the local authority or police if required.

11. **Cooperation**

Those providing support to vulnerable adults need to be aware that they will be required to cooperate with investigations undertaken by the local authority or police. Where process allows, regular updates should be facilitated.

12. **Disclosure Barring Service (DRB) Certification**

Staff (military and civilian) who have regular or unsupervised contact with WIS personnel during the course of their work may need Disclosure Barring Service (DBS) certificates (formerly CRB checks). Guidance on the need for these checks and the procedures to be applied can be found in JSP 893 (Policy on Safeguarding Vulnerable Groups). An accurate database of staff showing their DBS clearance and dates must be kept and should be reviewed regularly. Where charity employed staff and sub-contractors are engaged in recovery activity with WIS, confirmation of DBS checks should be requested as appropriate.

---

5 Under the Care Act 2014, the local authority has the lead role in relation to adult safeguarding.
13. **Training**  
Personnel who may be responsible for managing the welfare or recovery activity of WIS personnel should complete the e-Learning course course at [http://www.scie.org.uk/publications/elearning/adultsafeguarding/](http://www.scie.org.uk/publications/elearning/adultsafeguarding/). Further guidance is available from RNRMW, [www.skillsforcare.org.uk](http://www.skillsforcare.org.uk) or the local authority.

14. **Conclusion**  
It is a fundamental right of every person to live free from harm, neglect and abuse. Recovery staff in the NSRC, the wider Naval Service, Joint Units and civilian agencies involved in providing recovery services for vulnerable adults must act together to protect them from abuse. Suspected or actual acts of abuse must be reported without delay. Responses to any vulnerable adult at risk who may be experiencing abuse should be proportionate, timely, professional and ethical. COs and senior management within partner organisations must act to ensure that the importance of safeguarding is understood by everyone and that records of concerns and subsequent actions are maintained.

ANNEX 33I

THIRD SECTOR SUPPORT

1. Many Third Sector organisations offer support for serving WIS and Veterans, with the Royal Navy and Royal Marines Charity, Help for Heroes and The Royal British Legion being the key strategic partners.

2. There are over 2,000 charities supporting WIS personnel and Service Leavers, a useful list can be found here: http://armedforcescharities.org.uk/

3. Some of the main charities are listed below, but it is not exhaustive and new charities are forming all the time; a simple internet search may find the most appropriate source for assistance.

ANNEX 33K

NAVAL RESERVES RECOVERY PATHWAY

1. Preamble

a. As Defence moves towards the Whole Force Concept, the use of Reserves personnel\(^1\) to fill liability driving positions and work alongside their Regular counterparts will increase. To support the rehabilitation and recovery of wounded, injured and sick (WIS)\(^2\) Reserves Personnel (RP), they are to be managed and supported through the Naval Service Recovery Pathway (NSRP).

b. Defence Primary Health Care (DPHC) is responsible for the delivery of Occupational Health (OH) and Rehabilitation to all Reserves, irrespective of Terms and Conditions of Service\(^3,4\), and is to provide OH assessments to establish the Joint Medical Employment Standard (JMES) to inform the employability and deployability of RP.

c. OH assessments serve to inform the Chain of Command (CoC) of a RP’s health and deployability and protect those who are WIS by identifying what they can and cannot do. Reservists are required to inform their CoC of any condition that affects their ability to carry out their duties (though there is no requirement to disclose the details of any condition or injury) and attend a military medical assessment.

d. Where RP have been awarded a JMES below Medically Fully Deployable (MFD), there is a requirement to have that grading reviewed annually for permanent grades and at least every six months for temporary grades.

e. Reservists attending with new or changed conditions must provide relevant documentation from their GP/specialist in order to allow the assessing doctor to make an informed decision. Where the assessing doctor does not feel that they have sufficient detail to award an accurate grade, they may write to the Reservist’s civilian GP to request further information. Reservists must be aware that attending a medical without sufficient documentary evidence will result in the award of a temporary JMES that may prevent them from training or employment.

f. In order to access OH assessments, all RP are required to have a fully summarised Defence Medical Information Capability Programme (DMICP) record.

---

\(^1\) Maritime Reserves (MR) and Royal Fleet Reserves (RFR)
\(^2\) Awarded a Joint Medical Employment Standard (JMES) of M5 or M6.
\(^3\) This includes Sponsored Reserves and URNU personnel but does not extend to cadets or adult instructors in the Cadet Forces.
\(^4\) 2017DIN01-096.
2. **Recovery Support**

a. All WIS RP are to have an Individual Recovery Plan (IRP) (Annex 33C) drafted after assessment by DPHC OH. This will allow the individual and unit executive to discuss the implications of the injury or illness with regards employability and deployability and signpost any support that may be required using the HARDFACTS\(^5\) assessment.

b. Reservists who are WIS are to be managed, in the first instance, by their Parent/Employing Unit. Should recovery not be progressing, the Unit is to convene\(^6\) a Carers' Forum or other Multi-Disciplinary Team (MDT) to assess the case and future recovery and rehabilitation needs which, in most circumstances, will be provided by the NHS.

c. Should the Reservist be injured on duty, evidenced by a MOD Form 510 or equivalent, the individual is entitled Service rehabilitation support. There are two potential avenues for treatment; RP (and any Regular staff attached to Reserve Units) may receive care through the Reserve Rehabilitation Contract or at their local Primary Care Rehabilitation Facility (PCRF)\(^7\).

d. The recovery of those RP injured on duty should be managed by the Parent/Employing Unit or as directed by the Carers’ Forum or MDT. Should further support be required, a Naval Service Casualty Cell (NSCC) facilitated Case Conference is to be initiated (Annex 33D) to establish the most appropriate location and recovery pathway.

e. Whilst being managed by the Parent/Employing Unit, support, advice and guidance may be sought from NCHQ CRM and specialist recovery units ie. PSGs, Recovery Cells and Recovery Troops\(^8\). Assignment to a specialist recovery unit will only take place as directed by the Case Conference taking into account the special circumstances of the case and complexity, depth and breadth of need.

f. The use of recovery courses and activities (Annex 33E, Annex 33F and Annex 33I) may be appropriate to aid recovery and should be considered for all RP WIS.

g. In order to attend a recovery activity, a Medical Risk Assessment is required to ensure that the activity/course selected is appropriate, does not impact rehabilitation and is conducive to recovery.

h. Any costs incurred in attending recovery courses or activities fall where they lie i.e. with the Parent/Employing Unit\(^9\). All RP attending courses/activities must be on designated ‘recovery’ duty and have appropriate funding agreed eg. man training days available.

---

\(^5\) Health, Accommodation and Relocation, Drugs and Alcohol, Finance and Benefits, Attitude, Thinking and Behaviour, Children and Family, Training, Education and Employment, Supporting Agencies.

\(^6\) For FTRS personnel, the FTRS CM is to be included.

\(^7\) 2017DIN01-047.

\(^8\) Referred to as ‘Unit Assist’.

\(^9\) As for Regular WIS personnel.

CHAPTER 34

THE MANAGEMENT OF OPERATIONAL STRESS
FOR MEMBERS OF THE NAVAL SERVICE AND ROYAL FLEET AUXILIARY (RFA)

3401. Introduction
In late 2007, the Second Sea Lord approved a policy to govern the management of post-operational stress for members of the Naval Service and the Royal Fleet Auxiliary. This Article details the policy and procedures for delivering Operational Stress Management (OSM) which aims to ensure that Naval Personnel returning from operations receive appropriate and coherent operational stress management, aiming for those with symptoms of operational stress to minimise impact and encouraging early return to well-being.

3402. Background

a. The Naval Service OSM policy recognises the many and various ways of serving on operations, and the increasing role that its people play in support of operations. The Naval Service has not only a military and moral imperative, but also a legal duty to protect the health, safety and welfare of all of its employees, military and civilian, from the risks arising from Operational Stress. For the Naval Service, as with the other Services, the psychological welfare of its personnel is core business and a critically important aspect of the enduring obligation to its people which must be considered before, during and after operations.

b. Operational stress is part of the continuum of occupational stress for which further guidance is contained in the Armed Forces Mental Health Plan dated 2017 and JSP 950 Part 1 Leaflet 2-7-1. MOD’s operational stress management policy\(^1\) provides the framework for the development of single Service policies on operational stress management based on six steps beginning with recruitment and ending with discharge\(^2\). The principles and requirement underpinning the need for an OSM policy is outlined at Annex 34A.

3403. Applicability
OSM applies to all members of the Naval Service and the Royal Fleet Auxiliary (the precise mechanics of delivery to the latter are promulgated separately by DACOS RFA Personnel). The policy recognises that, in addition to RN/RM deployment patterns, Naval personnel may also deploy on operations as Individual Augmentees (IA) or as members of Joint, Army or RAF formed units (FU). In addition, they may routinely visit operational theatres in the course of their duties whilst working with other MOD organisations or Government departments; in these instances the delivery of OSM is to be consistent with the principles and procedures outlined in this policy.

---

\(^1\) The Overarching Review of Stress Management (OROSM), Phase 1 of which reported to the Service Personnel Executive Group (SPEG) (Paper 19/04 dated 29 Sep 04). Phase 2, the Training and Communication Strategy, was published 26 Apr 05 (SPEG 12/05 Overarching Review of Operational Stress Management-Phase 2).

\(^2\) The Six Steps are: 1 - Pre-service entry beliefs and attitudes (countering negative attitudes towards mental ill health in the minds of potential recruits); 2 - In service training and promotion courses for career development (stress management education and training); 3 - Pre-deployment (preparing individuals to recognise the symptoms of stress in themselves and others, how to confront the issues they will face on operational duty and the support mechanisms available); 4 - Operational deployment; 5 - Post operational recovery; and 6 - Following Discharge from the Armed Forces.
3404. Policy Framework

a. OSM policy requires the implementation, delivery and sustainment of a 6-stage support process. The specific guidance and direction for each stage is contained in the appropriate Annex to this Chapter.

b. **Stage 1: Pre-Deployment Training.** See Annex 34B. This stage consists of appropriate briefings, the training of Trauma Risk Management Teams (TRiM Teams) (see Annex 34H) and realistic resilience training. This training takes place within the ship or unit lines and can be augmented by realistic field/training exercises.

c. **Stage 2: Operational Support.** See Annex 34C. In this stage, ships or units will utilise their TRiM Teams, Field Mental Health Teams, other Defence Medical Services and other support agencies as appropriate. Their task is to support personnel in an operational theatre to ensure that they receive commensurate levels of support.

d. **Stage 3: Decompression.** See Annex 34D. Decompression (DcN) routinely involves taking units out of an operational zone to a safe but controlled, neutral environment for a short period of time. The aim is to ease the transition from a high tempo operational situation to a barracks or domestic environment. Decompression is currently recognised as a group activity. These are people who have jointly shared common operational experiences.

   (1) However, it has become recognised that a more standardised support is required for IAs. The DcN package is a very effective opportunity for personnel to take stock in a safe environment and commence dealing with the potential issues associated with returning home after a significant deployment. In short, it is an effective facilitator to normalisation.

   (2) For seagoing units, DcN will take place in line with established custom and practice during the passage home from the area of operations prior to arrival in the UK. On arrival at their home port, personnel can begin winding down and rehabilitating to a normal, routine, peace-time environment.

e. **Stage 4: Normalisation.** See Annex 34E. ‘Normalisation’ consists of the actions to be taken on return to the home base and concludes on return from Post Operational Leave (POL) or sea-goers leave (SGL). Prior to proceeding on leave, a series of operation specific activities can be planned and executed. Activities included in this period may be varied, but can include Families Day, medal parades, Unit BBQ’s and memorial services. For FUs, the responsibility for normalisation rests with the Commanding Officer and supporting chain of command. For IAs (Regular and Reservist) Career Managers, the RN Mounting Centre and Commanding Officers (donor, in-theatre and receiving) all have an important role to play.
f. **Stage 5: In-Service Support.** See Annex 34F. On return from leave, it is important that the chain of command has the opportunity to normalise and carry out any administrative/logistic tasks, including G1/N1 actions. It also permits the chain of command to carry out interviews (see Appendix 34F-2) with all unit personnel. The Regimental/Divisional Discussion (see Annex 34F Appendix 1) allows individuals to raise any issues that may have arisen during the leave period. The discussion will also touch other subjects such as returning to work, future plans and intentions etc. The ‘Discussion’ is not to be viewed as part of a ‘screening’ process but as a reasonable and sensible management action\(^3\) for personnel returning from leave following an operational deployment.

g. **Stage 6: Aftercare.** See Annex 34G. In-Service Support deals with care for the individual for the remainder of their time in the service, whereas ‘Aftercare’ begins on completion of regular or Reserve Service and is primarily delivered by the NHS.

### 3405. Personnel Issues and Groupings

The nature and variety of the differing conditions of service coupled to the diversity of military operations render a ‘one size fits all’ approach impossible. Although, in principle, the same process is to be applied to all, on occasions a bespoke response may need to be applied. A group where this may be required is with Reservists. They, unlike their regular counterparts, do not return from operations to a sustained military environment in which the discussion and airing of issues is encouraged. Once they have returned to their parent unit they may not be well placed to receive support from other colleagues who may have similar experiences. Similarly, IAs may face similar challenges and encounter feelings of isolation when returning to a non-deploying unit. The methodology of how differing groups engage with OSM is detailed below.

a. **Regular Personnel**

(1) **Formed Unit on a Full Tour/Deployment.** This group represents the bulk of deployed personnel. All the elements of OSM are delivered by the normal chain of command.

(2) **Elements of a Formed Unit on a Sustained Roulement.** Groups of personnel who undertake frequent, but often shorter operational tours eg. individual flights from Naval Air Squadrons returning from Operations. These groups may receive a bespoke package from trained in-house OSM Facilitators.

(3) **Individuals in a Formed Unit not Completing a Full Tour.** Individuals who do not complete a full deployment with their ships or units (or members of headquarters or battle staffs) due to being re-assigned, or returned to UK on rotation, for career courses or compassionate leave - should be clearly identified and, once the move is confirmed, their gaining unit engaged to ensure that the wider requirements of OSM are recognised, and in particular that the Stage 4 ‘the Regimental/Divisional Interview’ takes place. Other groups involved in this process will be the Waterfront, RM Rear Parties and in-house OSM Facilitators.

---

\(^3\) IAW Health & Safety Act 1974 & Leaflet 25 to Annex D, Vol 2, JSP375

34-4 of 8

February 2020 Version 1
(4) Individual Reinforcements/Augmentees. Personnel assigned to an operational tour away from their parent unit, subsequently returning to that unit may need additional consideration by the donor and recipient unit. This could consist of going through the DcN process and they should be engaged in a Regimental/Divisional Interview’ on their return from POL. Challenges for the gaining units are that the individual being new to the unit the chain of command is not well placed to make before and after deployment comparisons or recognise subsequent mood swings, different behaviour patterns etc. For people in this grouping, additional monitoring may be required.

b. Reservist Personnel

(1) For a variety of valid reasons, Reservist personnel have the potential to represent a greater challenge than their Regular counterparts. They can feel isolated and not feel part of the ‘team’. Their civian work-mates or family members may not be interested in their experiences or feelings, and the people, with whom they shared their lives over recent months may now feel very far away.

(2) Reservist Formed Unit. Although not strictly relevant to the RNR or RMR, a formed unit returning following a full tour/deployment is perhaps the simplest of Reservist groups to cater for. In these instances, all factors of OSM (decompression, normalisation, ‘The Regimental/Divisional Interview’) are delivered by the normal chain of command. For Reservists who return with a Commando Unit, their dismounting process will normally take place at the Reserves Training & Mounting Centre (RTMC) at Chilwell, near Nottingham.

(3) Reservist Individual Augmentees (IA). Reservist IAs may have served in a formed unit, but for a variety of reasons have not completed a full tour. This cohort may encounter a number of emotional challenges.

(4) Re-Assimilating into Civilian Life. Reservists may face an additional burden to carry as they attempt to re-assimilate into the home and civilian work environment. The experience of reintegration with their employers and co-workers can be more challenging than that which may be encountered by their Regular counterparts. These could be:

(a) Considering what to say to co-workers - what level of information they can safely impart.

(b) Finding an appropriate person to speak to – who can they trust to hold confidences and provide sound advice.

(c) Coming home to no job – being rejected in their subsequent job search can intensify the emotional challenges that they have to deal with.
(5) **Returning To Former Employment.** When Reservists are demobilised and about to return to their former regular civilian employment, consideration should be given to providing support and advice to the employer who will need to understand the potential after-effects that an operational deployment may generate within an individual. Support for employers can be supplied by the NCHQ OSM Cell who can provide booklets and/or practical advice.

c. **Other Service Personnel.** A number of other categories of returning personnel that could require special consideration are:

   (1) AEROMED.

   (2) Long-term compassionate cases.

   (3) Disciplinary cases.

   (4) Other unplanned short-notice returns to UK.

In working with the groups listed at Stage 3 – Decompression and Stage 4 – Normalisation, the protocols outlined for dealing with IAs should be followed for ‘Reservists’ and ‘Other Service Personnel’. However, these measures are not exhaustive and consideration should be given to introducing other supporting measures for returning troops.

d. **Families.** Once an individual returns from the operational environment, close contact with the unit developed on operations may diminish or cease entirely. It is the individual’s family that is likely to notice any changes and therefore vital that family members (wives, spouses, partners and parents) are engaged with the OSM process. In addition, Royal Navy forum provides a wide range of advice for families who wish to become better informed regarding potential issues that may be encountered when an individual returns from deployment.

### 3406. Tracking Personnel through the OSM Process

a. **Annex 34F Appendix 3** is a simple proforma which can be reproduced locally for all personnel deployed on operations. The form is designed to assist in the tracking and recording of the various stages of the OSM process. It is not designed to contain clinical information but as a management tool to verify the receipt of OSM and assist the Command in assessing the risk or likelihood of subsequent trauma. Given sufficient attention they should help ensure that those who may be considered to be at higher risk are proactively monitored and supported by their superiors.
b. JPA provides a means to record basic details (date, place etc.) of key Operational Stress Management (OSM) interventions for all Service Personnel deployed on operations. JPA is only to be used to record OSM interventions for Naval Service personnel deploying on operations for periods of three months or more. Procedures are to be established in formed units which facilitate the accurate capture, reporting to unit HR staffs and recording by them of OSM information. The RN-MC is responsible for initiating JPA OSM records for Individual Augmentees and is to conduct a check, during their attendance at the Dismounting Course, to ensure that OSM records (both JPA and the manuscript record at Annex 34G) have been compiled for returning IAs. JPA records OSM interventions for each deployment and does not permit a new OSM record to be initiated until the ‘The Regimental/Divisional Interview’ (see Annex 34F Appendix 1) for an ‘open’ deployment has been recorded and the record closed. Recording of OSM events on JPA does not negate the requirement at Para 3406 sub para a. to complete manuscript records of Operational Stress Management received.

3407. OSM Policy Summary

a. Commanding Officers, whether commanding on operations or the recipients of personnel recently returned from operations, have a vital role to play in implementing RN OSM policy; likewise the chain of command has a responsibility to ensure that the OSM needs of Commanding Officers are not overlooked. The policy and procedures have been made as straightforward and unambiguous as possible in order that OSM can be considered prior to deployment, rather than becoming an afterthought, and the process of dealing with Naval personnel following operations becomes second nature. The key to success lies within the Divisional and Troop systems and, for the increasing number of Individual Augmentees, requires active engagement by Career Managers, RNMC and receiving Commanding Officers. Successful OSM requires the Command at all levels to be actively watchful of their people and ensure that individuals and families receive appropriate information about reactions to stress (what is normal or natural and what is not), what to do initially (peer support) and what to do if these reactions do not settle (where to seek support and how to access it).

b. OSM fulfils a crucial part of the Royal Navy’s obligation as an employer in respect of health and safety but it is no substitute for good leadership which, if exercised before and during operations, will help to minimise the risk that post operational stress will affect its people. OSM is designed to ensure that members of the Naval Service and RFA undergo a coherent post operational stress package, commencing during the final phase of their deployment and extending throughout the remainder of their service and into retirement. It is mandatory that the process is followed but it is necessarily risk-based and made deliberately flexible to enable the chain of command to tailor the policy to the circumstances of individuals, the nature of the operation and the stressors to which they have been exposed.

---

6 More detailed information/desk instructions are contained in the JPA Business Process Guide Move and Track – Operational Stress Management.
7 Commanding Officers are encouraged to include details of the OSM process in the ‘Returning Home’ section of any ship/unit deployment guide produced ahead of an operational deployment.
3408. Support to Service Witnesses at a Coroner’s Inquest

a. HM Coroners within England, Wales and Northern Ireland investigate all unnatural deaths falling within their jurisdiction. In the case of UK citizens this requirement extends to deaths that occur abroad when the deceased has been repatriated to England, Wales or Northern Ireland. This includes members of the Armed Forces regardless of whether or not the death occurred on operations. The Coroner may decide to hold a formal inquest and, depending on the circumstances of the case, will such call such witnesses as he or she sees fit. These may be expert witnesses, who can deal with the technical aspects of the death, or they can be witnesses to fact – the people who saw what happened. This latter group can find the process of giving testimony in open court a very difficult experience as it requires the witness to relive in some detail what will inevitably have been a very traumatic experience.

b. In order to support and assist these witnesses, NCHQ will provide Coroner’s Witness Support Officers (CWSO) drawn from uniformed personnel employed in the Operational Stress Management (OSM) Cell. Their role is to provide support to all Naval Service witnesses before, during and after the inquest for the potential emotional and psychological effects of the experience of giving evidence. The CWSO is to ensure that the witness is fully briefed on the procedure for the hearing and the potential aftermath of the experience of giving evidence. They will assist the NCHQ Defence Inquest Unit (DIU) in preparation for the hearing, and then attend in person to offer direct support throughout the hearing. The CWSO is not an official representative of the Service or of the Department to the court and is not to coach a witness on the content or nature of their evidence.

c. When requested by the Visiting Officer or the DIU representative, the CWSO may give support to bereaved Service families or to other witnesses. In certain circumstances, the CWSO may be augmented by members of the Divisional and Regimental Support Team.
1. Occupational Workplace Stress

The MOD definition includes the concept that stress occurs when pressures on an individual accumulate to such an extent that he or she can no longer cope. The following has been endorsed as a definition of operational stress that recognises that any pressure, challenge or threat is a potential stressor on the individual and acknowledges that all people are subject to it:

"An individual or group reaction to stressors relating to the operational context, which, if not managed, may result in impaired performance and possible effects on health."

2. OSM Policy

A policy, incorporating a framework in which OSM is to be delivered, is necessary to ensure consistency of application (formalised procedure) and raise overall awareness of operations-related stress management which, within the MOD 6 step\(^1\) overarching stress management policy (see footnote 3), commences at the end of Stage 4 (Operational Deployment) and continues through post-operational recovery to eventual discharge from the Service. OSM policy needs to reinforce the message that:

a. Stress reactions are a natural consequence of military operations and all individuals, regardless of rank, age or gender, are susceptible; and

b. Most stress reactions are entirely normal and manageable, particularly with the correct degree of support from superiors, peers and families.

3. Command

For many Naval personnel, participation in operations does not result in significant after-effects, indeed for many it is a positive experience; however there are those for whom such experiences are detrimental due to exposure to acute traumatic pressure and resultant post-traumatic distress. Commanders at all levels must make every effort to limit the potential for those under their command suffering psychological problems as the result of operations. The onus for identifying vulnerable individuals rests with the chain of command whose familiarity with their personnel makes them best placed to identify the early signs of stress.

\(^1\) The 6 Steps are: 1 - Pre-service entry beliefs and attitudes (countering negative attitudes towards mental ill health in the minds of potential recruits); 2 - In service training and promotion courses for career development (stress management education and training); 3 - Pre-deployment (preparing individuals to recognise the symptoms of stress in themselves and others, how to confront the issues they will face on operational duty and the support mechanisms available; 4 - Operational Deployment; 5 – Post-operational Recovery; and 6 - Following discharge from the Armed Forces.
4. Successful OSM

a. The key to successful OSM lies in awareness; the individual, families, colleagues and the chain of command all need to be alert to the signs of stress and unhealthy maladaptive symptoms, so that early intervention can lessen the risk of subsequent problems (which can include clinical disorders, disciplinary and social problems and poor work performance). OSM procedures are generic for all theatres however; the Command must have the flexibility to adapt them for the needs of any particular operation. Wherever possible, the aim is to deliver the same level of support to all personnel whilst recognising their differing circumstances and allowing for certain elements to be discretionary depending on the level and intensity of operational activity and resultant exposure to stressors. Providing Commanding Officers and all those in positions of authority over Naval personnel are given a framework of action to be taken and the necessary support, adherence should deliver effective personal support to all individuals returning from operational deployments.

b. Strong and effective leadership, good communication and training are also fundamental to the prevention and management of operational stress and this is why OSM is primarily an executive and not a medical responsibility. When implementing this policy it is vital that an expectation of symptoms of stress or disability or a culture of disability is not instilled in individuals. The briefing of individuals prior to deployment and on return, either individually or as part of a group, is of fundamental importance, as is open discussion on issues arising from operational experiences and dealing with any issues arising in a timely and professional manner. Commanding Officers are to refer to or liaise with medical authorities at an early stage if there is any concern about an individual’s well-being. Medical intervention is always required when symptoms are prolonged or severe doubt exists over the mental health of an individual.

c. Families, and where applicable civilian employers, must be fully engaged throughout the OSM process. The Royal Navy’s corporate responsibility for the psychological welfare of its people in the lead up to, during and after any operational deployment is relatively easy to discharge and monitor in the close confines of a 24 hour operational environment but once an individual returns from operations close contact will inevitably diminish and it will often be family members who will be the first to notice changes. This can be particularly relevant when an individual returns from operations and is re-assigned to another unit to the one he or she deployed with or from.

---

2 Knowing exactly when and where they are going, what they are likely to be doing, the perceived threat level, the environmental and cultural conditions to be encountered and the measures in place to support them and their families’ welfare will positively affect an individual’s outlook prior to deployment.

3 And is already established policy for Medical Staffs in accordance with Surgeon General’s Policy Letter (SGPL) 03/06 issued 20 Jan 06 “The Prevention and Management of Traumatic Stress Related Disorders in Armed Forces Personnel Deployed on Operations”
ANNEX 34B

OSM STAGE 1 – PRE-DEPLOYMENT TRAINING

1. Training
   Training is implemented when a unit or an individual is preparing for an operational deployment. All Pre-Operational preparation that provides realistic training (specified to the operation, likely tasks and hazards), builds cohesion and trust in the leadership, is good for stress management and resilience.

2. TRiM
   The current stress management tool is Trauma Risk Management (TRiM), which has been developed in UK Armed Forces and has been used over many years. Level 4 (TRiM) training can provide sub-units with a pool of TRiM practitioners and team leaders. In-house continuation training must be delivered to all members of the deploying unit by its own TRiM trained personnel, supported by the NCHQ TRiM Team. TRiM training course dates and locations can be accessed by typing ‘T’ for TRiM in the Royal Navy A to Z Intranet Page or by contacting Mil: 9380 28021 or Civ: 02392 573021 or email: NAVYNPS-PeopleSPTOSSMMAILBOX@mod.gov.uk

3. OSM Briefing
   Prior to deployment, all personnel should receive a Pre-Deployment OSM Brief. The briefing should be delivered by a TRiM Manager or TRiM Team Leader.

4. Augmentees and Reservists
   Care must be taken to ensure that all Individual Augmentees (IAs) and Reservists receive Pre-Deployment training and that their families receive the same levels of support. Global (RN) Individual Pre-Deployment Training is delivered by the RN Pre-Deployment Training and Mounting Centre.

---

1 And is already established policy for Medical Staffs in accordance with JSP 950: Medical Policy - Volume 2: Clinical Policy - Chapter 7: Mental Health - Part 1 LIt 2-7-1 (v1.1 Jul 10) Mental Health and Wellbeing Briefing Before During and After Deployment.
2 TRiM Managers are normally Executive Warrant Officers (EWO) or Regimental Sergeant Majors (RSM) who have undertaken a training course covering Management of OSM & TRiM.
3 DIN 2017DIN07-074: Global (RN) Individual Pre-Deployment Training OS [Supersedes DIN 2016DIN07-129].
ANNEX 34C

OSM STAGE 2 OPERATIONAL SUPPORT DURING DEPLOYMENT

1. Operational Deployment Support

   a. Stage 2 of the framework is the management of stress on operations. This is primarily achieved through TRiM, supported by the Field Mental Health Teams (FMHT) and other trained members of the Defence Medical Services. TRiM Teams will have a better understanding of potential mental health issues and therefore be able to offer peer support and where necessary sign post individuals to the next tier of assistance as required. TRiM is not a therapy, but the practice of allowing individuals to talk through the incident followed by the application of tried & tested coping mechanisms, means that TRiM has therapeutic benefit. TRiM Teams are embedded within all deployed units or ships.

   b. Chaplains and Padres offer another route to identifying those in need of help and should also receive additional mental health training. Families may need greater support during periods of high operational tempo. This in turn can place them at greater risk from stress related issues. In these periods, the provision of additional information for GPs, schools and other welfare providers that support Service families may be required in consultation with the Naval Families Welfare Service.
ANNEX 34D

OSM STAGE 3 – PRE-EXIT PACKAGE/DECOMPRESSION

1. Introduction

All members of the Naval Service (NS)\(^1\) deploying on operations\(^2\), whether part of a formed unit or as an Individual Augmentee (IA), are required to undertake OSM training and preparation in accordance with BRd 3(1) Chapter 34. On return from operations, deployed personnel may require a period of decompression or aftercare as part of the POSM process. At all stages of OSM, the OSM JPA tool is to be utilised to record all aspects of pre and post deployment briefs, support, signposting, etc. Current decompression\(^3\) policy was based on the Op TELIC/HERRICK campaigns and, following review by PJHQ, is no longer valid. Whilst decompression remains a valid tool and a vital component of POSM, it has been assessed that there are currently no operations that expose personnel to the risk and rigour that require Third Location Decompression (TLD)\(^4,5\). For operations that expose personnel to the risk and rigour that may be associated with normal military activities, a 'Pre-Exit' package has been introduced to replace TLD to encourage a period of reflection and to set the conditions for normalisation.

2. Operational Aftercare

Operational aftercare consists of the vital components of the tri-Service OSM strategy. Whilst the implementation of POSM is a single Service responsibility, for operations that fall under Commander Joint Operations (CJO) command, PJHQ has responsibility for the immediate POSM activity.

3. The POSM Process

The POSM process was established in order to provide a staged support mechanism for personnel within the operational cycle\(^6\). Those operational deployments which are not exposed to high intensity combat engagement or significant compressing factors do not require TLD. The primary objective post deployment is to introduce a period of normalisation and to re-connect individuals with their Parent Unit and family. Delaying personnel from returning home, where there is no requirement, adversely affects morale.

4. The aim of the Pre-Exit Package

The aim of the Pre-Exit Package is to provide a level of care and enable a period of reflection for personnel on deployments which are assessed as not requiring TLD. It will be delivered in the Operational Theatre in order to assist with transition to the normalisation process provided by the Front Line Commands (FLCs).

   a. The Pre-Exit Package is a fundamental part of the POSM process that complements the existing Naval Service POSM policy and procedures within BRd 3(1) Chapter 34.

---

1 The delivery of OSM to Royal Fleet Auxiliary personnel is promulgated by DACOS RFA Personnel.
2 Operations refer to all operations for which CJO has OPCOM of the unit.
3 Decompression was delivered, primarily, to personnel returning from land operations at Camp Bloodhound in Cyprus; this is known as Third Location Decompression (TLD).
4 This will be kept under constant review by PJHQ.
5 TLD does not include ship/submarine port visits.
6 Guidelines are set out in JSP 375 P2 Vol 1 Ch 17 – Stress in the workplace.
b. Whilst the Pre-Exit package is mandated for all personnel deployed on CJO operations, it is a useful tool and should be considered by all commanders at the end of a deployment/tasking.

c. The package is designed as low level generic sign posting; it does not constitute medical or professional support. The package is to be delivered in theatre prior to any individual’s departure at the end of their deployment; it is to be delivered by the Executive/J1/RNRMW by a minimum rank of OR6.

d. Although the individual delivering the brief is to be confident with the material, there is no requirement to have undertaken any additional training such as Trauma Risk Management (TRiM). In extremis, such as for small austere operations with a limited number of personnel, the package can be self-administered with PJHQ J1 approval. The full package is designed to be delivered in a maximum of 40 minutes.

5. **Pre-Exit Package**
The Pre-Exit Package is to be delivered in theatre within the final week prior to departure; the aim is to encourage a period of reflection. The package consists of the following:

a. **Going Home DVD - 15 mins.** The Going Home DVD explores the pressures involved with returning home and explains the POSM process, signposts mental health advice, and the additional avenues of access available to Service Personnel when they return home.

b. **Driving DVD - 5 mins.** In the Driving DVD the potential hazards of driving in UK on returning home are highlighted.

c. **Pre-Exit Brief – 20 mins.** The Pre-Exit Brief is an opportunity for the Commander or J1/Welfare Staff to discuss various aspects of returning home and mental health issues.

d. **Pre-Exit Hand-out.** The Pre-Exit Brief is followed up with a signposting hand-out for personnel to review and refer back to.

e. **Individual Checklist.** The individual checklist is to be signed by the individual and unit Executive (see Appendix 1 to Annex 34D).

6. **Records**
The individual's JPA OSM record is to be updated to show receipt of the Pre-Exit Brief. Where JPA is not available, a hard copy of the checklist is to be kept until JPA can be updated. For IAs returning to their original unit, a copy of the signed checklist (Appendix 1 to Annex 34D) is to be given to the individual and presented to the unit HR Clerk/UPO on return to enable the JPA OSM record to be updated.

---

7 Each commander will be issued with a slide pack and notes by PJHQ.
8 JPA – Stage 2 – Deployment – Coming Home Brief as per the JPA Business Process Guide – Operational Stress Management (OSM).
7. **Eligibility**

To allow for routine visits to operational theatres, only personnel who have been deployed for more than 31 consecutive days will be required to undertake the Pre-Exit Package. Those who have deployed for less than 31 days, however, may request to conduct the package, especially if they have been exposed to a significant traumatic event.

8. **Conclusion**

The implementation of the Pre-Exit Package and delivery by the deployed Commander will enable effective and timely management of individuals who have been exposed to a stressful or traumatic event or who may be vulnerable to developing a stress related condition. It is critical, not only to sustain the welfare of personnel throughout deployment, but also to ensure that they receive the correct level of support and signposting through normalisation when they return home. In all circumstances, individuals who depart an operational theatre after 31 consecutive days or more will require the Pre-Exit Package. Whilst the Pre-Exit Briefing Package is mandatory for those personnel engage on PJHQ Operations as part of the OSM process, Commanders undertaking on Fleet operations/standing commitments may wish to utilise elements of the Pre-Exit Brief prior to return from deployment; an OSM JPA record will not be required in these cases. Further information regarding the Pre-Exit Package can be found on the TRiM intranet site or by contacting the team on 9380 28021/28046.

* Not mandated. It is an individual’s decision to share and record a TRiM event; doing so will enable better support from the parent unit.
ANNEX 34E

OSM STAGE 4 – NORMALISATION

1. The Normalisation stage commences on return to the home base and concludes on completion of post-operational leave (POL). POL, in whatever form it is granted (POL or Sea goer’s Leave (SGL) plus any Annual Leave (AL) accrued) is not to be reduced or modified in any form unless exceptions have been approved in advance by the chain of command.

2. This stage of OSM will need to be tailored for personnel serving in seagoing units, personnel returning as part of formed units from operations ashore, Individual Reinforcements and Augmentees and early or unexpected/unplanned departures from theatre. Experience suggests that virtually all personnel returning from operational deployments, along with their families, will encounter at least a little uneasiness whilst they readjust to their normal environment.

3. Shore-based units returning to their home bases from operations are normally to conduct a period of ‘Normalisation’ prior to POL being granted\(^1\). The precise duration of the Normalisation period is at the CO’s discretion but it must be long enough to permit non-operational activity and reintegration of all personnel. COs may extend the period following consultation with the chain of command. For personnel returning early from operations there must be a rolling normalisation programme organised by the unit rear party in order to permit individuals to undergo this stage of the OSM process.

4. Seagoing personnel are likely to have had longer to decompress and the Normalisation period will not normally require a period ‘on board’ in UK prior to leave being granted. Advance leave parties returning on board for duty on completion of advanced leave will, however, require special consideration to ensure their OSM needs have been met and to achieve a seamless reintegration with the ship and its routines.

5. Whenever possible, Commanding Officers are to ensure that facilities and support remain available within the ship/unit for the duration of post operational leave period.

6. All Naval Service Personnel (Regulars and Reservists) deploying as Individual Augmentees (IAs) are mandated to mount and dismount through the Royal Navy Mounting Centre (RNMC) at HMS NELSON\(^2\). On completion of the Dismount Course personnel proceed on POL. On returning to their Parent Unit, during their first week in work, the Regimental/Divisional Interview (Annex 34F) is to be carried out. The completed retained record Appendix 3 to Annex 34F will be returned to the RNMC for audit purposes. RNMC captures all Naval personnel returning from operational theatres to ensure that all those requiring it are tracked for both OSM JPA audit purposes and actively engage with the Dismounting process to ensure that they are not suffering from stress resulting from their deployment.

\(^1\) It is entirely acceptable, at the Commanding Officer’s discretion, for night or weekend leave to be granted on the day of return to the UK prior to the period spent ‘in barracks’. Naval Service Personnel serving as augmentees in units under Army or RAF Full Command remain under command of the CO of that unit until completion of POL and subsequent re-assignment. The CO is to determine to what extent their Naval augmentees will participate in the immediate normalisation plans for the unit.

\(^2\) DIN 2017DIN07-074: Global (RN) Individual Pre-Deployment Training OS [Supersedes DIN 2016DIN07-129].
7. RNR and RMR personnel are mandated to return to their parent unit during their last week of mobilised service. The unit is to provide aftercare support as necessary, augmenting the briefings and guidance issued at RTMC or RNMC.

8. Individuals returning early from operations in advance of the main party, AEROMED and other personnel returning unplanned from theatre, present the greatest challenge for Stage 2. Such personnel will need to be treated on a case-by-case basis. Family support is especially important in some instances and Commanding Officers (Career Managers for personnel no longer under command) are to ensure that plans address OSM needs. For personnel admitted to hospital in UK, RCDM will ensure that the mandatory requirements of Stage 4 are met and that further support is provided.

9. Whilst in the ‘Normalisation’ phase, details of support agencies are provided at Appendix 1 as an aide memoire for those who may be called upon to provide support and advice (Appendix 1 to Annex 34E Support Agencies (see also BRd 3(1) Chapter 24 (Welfare) and Chapter 32 (Service Funds, Charities and Associated Organisations).
APPENDIX 1 TO ANNEX 34E

SUPPORT AGENCIES

1. If an individual finds that he or she is having difficulty in re-adjusting post operations, help is available.

2. In the first instance, serving personnel should seek the advice of a suitable superior, a unit TRiM Practitioner, Divisional Officer, Troop Commander, Medical Officer or Chaplain who will be able to offer advice and refer individuals for further treatment or professional help if necessary. Those who have been discharged from the Service will, in the first instance, need to seek the advice of their GP who will also be able to advise or refer an individual for further treatment or help.

3. The following organisations are able to offer support or advice whatever an individual’s circumstances:

   a. Royal Navy Royal Marines Welfare. Providing community and personal support to regular RN, RM personnel, RNR and RMR and their families, details of the Welfare Information Support team and contact details are available through the Royal Navy Website (https://www.royalnavy.mod.uk/welfare/find-help) or by calling Royal Navy Royal Marines Welfare on +44 (0)2392 72 87 77 (0800-1600 Mon-Thu and 0830-1600 Fri, with the exception of recognised public holidays).

   Or if individuals prefer to use Social Media they may post on their Facebook page, Tweet @RNRMWelfare #RNRMW, or join the Royal Navy forum.

   b. SSAFA Forces Help. The Soldiers, Sailors, Airmen and Families Association (SSAFA) Forcesline is a free and confidential telephone helpline and email service that provides support for serving (regulars and reserves) and ex-service men and women from the Armed Forces and for their families. As an independent charity, SSAFA is not part of the military chain of command.

      SSAFA Forces Help, 19 Queen Elizabeth Street, London, SE1 2LP.
      Call: 0845 1300 975
      E-mail: info@ssafa.org.uk
      Website: www.ssafa.org.uk

      Forcesline can be accessed from anywhere in the world. Lines are open 0900–1730 Monday to Friday.

      UK          0800 731 4880
      Germany     0800 1827 395
      Cyprus      800 91065
      Falkland Islands  #6111
      Rest of the world +44 (0)207 463 9292
To call from Operational Theatres: use Paradigm’s phone system and dial the appropriate access number then enter *201 at the PIN prompt.

c. **Samaritans.** Samaritans provides confidential non-judgemental support, 24 hours a day for people experiencing feelings of distress or despair.

   Call: 116 123 (UK)
   116 123 (RoI)

   Email: jo@samaritans.org

   Write: Freepost RSRB-KKBY-CYJK, PO Box 9090, STIRLING, FK8 2SA

   Website: www.samaritans.org.uk

d. **Veterans UK**

   Freephone (UK only): 0808 1914 218
   Telephone (overseas): +44 1253 866 043

   Email: veterans-uk@mod.uk

   Veterans UK helpline
   Veterans UK
   Ministry of Defence
   Norcross
   Thornton Cleveleys
   FY5 3WP

   Normal Service 0800-1700 Monday to Friday

e. **Combat Stress (Ex-Servicemen’s Mental Welfare Society).** If individuals are currently serving, or have served in the UK Armed Forces, they may call the 24-Hour Helpline to talk about mental health.

   Head Office: Tyrwhitt House, Oaklawn Road, Leatherhead, Surrey, KT2 0BX

   Call: 0800 138 1619

   Text: 07537 404 719

   E-mail: helpline@combatstress.org.uk
   (Standard charges may apply for texts, check with service provider.)
f. **Veterans and Reserves’ Mental Health Programme (VRMHP).** The VRMHP (link www) provides mental health assessments for Veterans and Reservists who have concerns about their mental health as a result of Service. The criteria for joining the programme are as follows:

(1) Reservists who have operationally deployed since 1 Jan 03.

or

(2) Available to those who have deployed since 1982 and who suffer mental health challenges as a result of operational deployment, the programme offers a comprehensive mental health assessment by a Consultant Psychiatrist with accompanying guidance on care and treatment for the Veteran’s NHS GP and/or local NHS clinical team. Veterans should consult their GP in the first instance in order to be referred to the VRMHP.

In both cases treatment is offered to individuals whose mental health is assessed to have suffered primarily as a result of their operational service.

Freephone helpline: 0800 0326258

Email: dphce-dcmhcol-vrmhp@mod.uk

g. **NHS Transition, Intervention and Liaison (TIL) Veterans Mental Health Service.** NHS TIL Service is a new service for Armed Forces personnel approaching discharge as well as for veterans. The service will help to recognise some of the early signs associated with mental health difficulties and will provide access to a number of interventions, therapeutic treatments for complex problems and psychological trauma and prevent the patient reaching crisis point. It will also help tackle some of the most common mental health and substance misuse problems such as alcoholism, anxiety and depression and join up services across the board, working with local authorities and charities so that the whole of a person’s needs and their families are looked after.

For veterans: If individuals are experiencing mental health difficulties, these services can provide a range of treatment and support regardless of when they leave the Armed Forces. This includes recognising the early signs of mental health problems and providing access to early treatment and support, as well as therapeutic treatment for complex mental health difficulties and psychological trauma. Patients are also provided with help, where appropriate, with employment, reduction in alcohol consumption, housing and social support.
Access:

Individuals must be resident in England

Have served in UK Armed Forces for a full day

Be registered with a GP practice in England or be willing to register with one

Be able to provide military service number or other form of acceptable proof of eligibility

h. **NCHQ Operational Stress Team.** The NCHQ Operational Stress Team primarily provides TRiM training for the Naval Service. In addition, the team can supply pre and post Deployment briefings and a wide range of general trauma advice. It also supplies support for Naval Service families and witnesses attending HM Coroners Courts.

ANNEX 34F

OSM STAGE 5 – IN-SERVICE SUPPORT

1. The In Service Support stage of OSM underpins psychological resilience and the ability to retain individuals at combat readiness. In-Service Support refers to the period of time after the return from post-operational leave rather than the initial weeks following return from operations. The chain of command is responsible for In-Service Support that continues until the individual (whether Regular or Reserve) retires; it may therefore continue for decades. During their remaining service, there remains a military and moral imperative to protect the health of Naval Personnel. Future service is likely to include further operational deployments and In-Service Support may therefore be concurrent with subsequent post-deployment Decompression or Normalisation.

2. Following the return of individuals from post operational leave, but no later than 12 weeks after the actual return from operations, COs are to ensure that personnel are interviewed by their Divisional Officer, Troop Commander or immediate superior. Commanding Officers (for formed units) and Career Managers (for IAs) are to ensure that where personnel are re-assigned within 12 weeks of returning from operations, a hot handover is conducted with the receiving unit to ensure the interview requirement is met. Guidelines and suggested topics for the post-deployment discussion are at Annex 34F Appendix 1 (Guidelines) and Annex 34F Appendix 2 (Topics). The fact that the discussion has been conducted is to be recorded on the OSM Record (Annex 34F Appendix 3).

3. In addition to the Regimental/Divisional Discussion, there is also a mandatory requirement\(^1\) for FUs and IAs to receive a short Power Point presentation relating to Post Operational Stress Management (POSM). The POSM Brief should be given at the 8 to 12 week point after returning from deployment. The brief should be delivered by a Mental Health Professional or a Trauma Risk Management (TRiM) Manager. In extremis, the brief can be delivered by a TRiM Practitioner. The brief can be downloaded from the RM TRiM Website\(^2\) or copies of a CD containing both the POSM Brief plus Annex 34F (including Appendices) is available from the NCHQ OSM Cell\(^3\).

4. For groups which deploy regularly under a sustained roulement, careful Stage 3 management will be especially crucial to maintaining unit resilience for operations. Commanding Officers will need to determine how their unit’s procedures are developed to achieve this intent. Funding from the Fleet Re-balancing Lives\(^4\) initiative may be made available, on request, to support units with any group-centred initiatives aimed specifically at those who deploy frequently to operational theatres.

5. Individuals who have experienced a traumatic event whilst deployed are at most risk of adjustment difficulty; it follows that these personnel, and those considered to be a longer-term risk, should be kept under strict line management review, further follow-up interviews and specialist advice being sought from medical staff as necessary. On referral for treatment, the medical pathway and system of medical categorisation will track those suffering from psychological ill health.

\(^1\) The requirement to give this brief is stipulated by the Surgeon General and endorsed by NCHQ
\(^2\) The Presentation comes in a power point format and is accompanied by amplifying notes
\(^3\) Copies of the CD can be obtained by contacting Ms Kirstin Knowlson-Clarke on 9380 28021. In addition, she can supply details of relevant unit TRiM Leaders/Practitioners
\(^4\) RNTM01-029/17 Rebalancing Lives – RBL
APPENDIX 1 TO ANNEX 34F

THE CONDUCT OF THE REGIMENTAL/DIVISIONAL DISUSSION

1. Aim of the Discussion
   The purpose of the Post-Deployment Discussion is to identify and assist in the management of any issues arising from an individual’s deployment on operations that, if left unresolved, could adversely affect his or her welfare, wellbeing and functionality. Appendix 2 to Annex 34F provides a suggested format for the discussion. The discussion also serves to:

   a. Welcome the individual back and acknowledge their contribution to operations.
   b. Gain information regarding their deployment and the nature of their work. ¹
   c. Ensure that the individual is aware of the Post-Deployment support mechanisms in place for them.
   d. Ensure the individual knows of any new developments in their regular work environment to help their transition back into their core role.
   e. Review and, where no concern arises, complete the OSM Record (Appendix 3)
   f. You may wish, if appropriate to discuss their aspirations for their future in the Naval Service.

2. Your Role as the Conducting Officer
   You are there to provide an important link in the OSM Process.² Your background within the Armed Forces, your life experience and, where applicable, former knowledge of the individual will assist you to provide mentoring advice and signpost them to additional support should it be required.

3. Points to Note
   It is important that:

   a. The discussion is not to screen individuals, but is designed to encourage open and frank communication and discussion.
   b. Whilst attendance at the discussion is mandatory, the sharing of personal information is not.
   c. If on conclusion of the discussion, the individual has indicated that they are encountering some troubling episodes or if, in the course of the interview, they inform you of changes in their normal behaviour, you should encourage them to make contact with the medical services.

¹ Only relevant where the individual has been reassigned to a new unit prior to the discussion taking place or Conducting Officer did not deploy with the individual.
² Command can keep track of individuals requiring OSM stages to be completed via the Unit HR or EWO OBIEE Dashboards
4. Format for the Discussion

a. Stress the confidential nature of the discussion. The Conducting Officer should reassure the individual that anything they say will be treated with sensitivity and discretion. Should the individual disclose information that gives rise to concern for his or her safety, or that of others then the Conducting Officer may need to break the confidence; should this be necessary the Conducting Officer is to explain the reasons before doing so.

b. Explain that the discussion is not a part of the performance appraisal process.

c. Discuss the nature of their deployment and ask if anything unexpected or stressful occurred. (Conducting Officers should exercise careful judgement and caution when considering whether to include, and in what detail they wish to discuss any potentially stress inducing activities nor the degree of risk and rigour experienced by the individual while on operations.) Point out that extreme or traumatic events experienced on deployment can lead to adverse, but entirely normal reactions. If an individual is encountering difficulties, reassure them that support is available and assist them in accessing the additional assistance that may be required. Sources of aid could come from the immediate chain of command, the unit TRiM Team, the Chaplain or Regimental/Ships Medical Officer. In addition, a number of other organisations, many with Service links, are able to offer independent support and advice (see Appendix 1 to Annex 34E).

d. Conduct the discussion as detailed at Appendix 2 to Annex 34F. The discussion should be conducted in such a way as to encourage an exchange of views. The discussion is structured to examine a number of distinct areas where normal functionality can be impaired as a result of exposure during a lengthy deployment. These are topics that you may wish to discuss, but they are not exhaustive:

- **Topic A:** The Tour: How was their tour? Did they feel prepared for it? Were there any unexpected aspects? How did their family do whilst the Unit was on tour?

- **Topic B:** Homecoming: How was you homecoming? Were there any difficulties or unexpected aspects about it?

- **Topic C:** Adjustment at home/back to work: How is life at the moment? How is your wellbeing and health? How is the family? Any difficulties adjusting? Making plans for the future?

- **Topic D:** Do they recall the OSM briefings that they have received pre and post deployment and are they aware of the amount of support that is currently available to them?
5. **Discussion Records**

Appendix 2 to Annex 34F is purely a guide to the conduct of the discussion. To encourage a free and frank discussion, the individual is to be given the Appendix on completion of the interview. They should retain the form so that they can refer to it from time to time. They may also wish to discuss with a partner, spouse or trusted friend to give their views on his or her responses to the topics. This will allow personnel to better gauge whether any behavioural changes have occurred in the weeks and months following the discussion. The only form that has to be retained by the chain of command in Appendix 3 to Annex 34F. They should be held centrally within the unit as part of the OSM audit trail and reflect the 4 stage entries on the JPA OSM which require completion.
APPENDIX 2 TO ANNEX 34F

THE REGIMENTAL/DIVISIONAL TOPIC DISCUSSION SHEET

(Return to UK/Barracks/Shoreside Duties)

(To be handed to the individual when complete)

(Continued Overleaf)
**Notes:**

1. Keep the completed Form safe and review it again in 3 and 6 months time. Look at the topics discussed and see if any of your responses have changed or altered.

2. When carrying out the comparison, it may be useful to do this accompanied by your spouse, partner or a trusted close friend. It may be that they are better placed to observe changes in you that you may have missed.

3. If at some future point you start to encounter difficulties related to your Deployment, contact a Unit TRiM Practitioner, the Welfare Dept or the Sick Bay and seek assistance.

Conducting Officer’s Signature ..............................................................................

### Stage 6 – Civilian Aftercare (if applicable)

Notes (use reverse of this form)

---

1. For maritime deployments, insert date of sailing from UK.
2. For maritime deployments, insert date of returning to UK.
3. If loaned or an augmentee from another unit.
4. If being re-assigned to another unit or returning to donor unit immediately on return from ops or on return from post-operational leave.
5. Summary of the operational environment and any potentially stress inducing activity undertaken/exposure to risk and rigour.
6. Divisional Officer/Troop Commander for Ratings/Other Ranks; immediate superior for Officers.
7. If “No” reason is to be stated.
8. Pre-Exit Brief/Decompression are an activity, targeted primarily at formed units and individuals who will undertake programmed Decompression (only if available) and specifically directed to by the Chain of Command. If Decompression conducted at sea on return passage to UK insert “On passage UK”.
9. Immediate Superior or Officer/SNCO with assigned responsibility. Divisional Officer/Troop Commander for Ratings/Other Ranks; immediate superior for Officers.
10. Insert date of returning to Base Port/TAS/Home Base or period spent ‘in barracks’ if leave not granted immediately on return.
Notes:

1. Completion of this record (or the JPA OSM Account) is mandatory and is both the Chain of Command and the Individual’s responsibility. It is to be raised locally for each operational deployment, and should be completed in full before a new record can be opened.

2. Hard copies are held within the parenting units or kept by the individual augmentee until the final Stage of the process is completed. A confirmation signature is obtained after each stage. Completed records are to be forwarded to the UPO for entry onto JPA.

3. Succeeding Divisional Officers/Troop Commanders are to review this record (hard copy or JPA) as part of the joining interview process to ensure continuity of divisional care and any other support which may be on-going or considered necessary.
ANNEX 34G

OSM STAGE 6 – AFTERCARE

1. At OSM Stage 6 (Aftercare) (i.e. discharge/retirement from the Service), formal responsibility for medical care passes from MOD to the National Health Service. Defence Medical Services are responsible for overseeing the transition to civilian mental health care of Service Personnel exiting whilst still receiving clinical treatment. Mental Health Social Workers in departments of community mental health will provide follow-up contact with such individuals for 12 months post discharge to ensure a smooth transition.

2. Reservists demobilised since Jan 03 are entitled to continue receiving mental health care from MOD under the terms of the Reserves Mental Health Programme. The programme is open to all current or former members of the UK Volunteer and Regular Reserves who have been demobilized since 1 Jan 03 following deployment overseas and who believe that their deployment as a Reservist may have affected their mental health. Any Reservist who believes they are eligible should approach their GP who will refer them to the programme; in some cases Reservists can approach the programme direct. If eligible, they will be offered a mental health assessment. The assessment will be carried out by members of the Defence Medical Services. If they have a mental health condition related to their deployed Reserve service, they will be offered out-patient treatment at one of MOD’s 15 Departments of Community Mental Health around the UK. See Appendix 1 to Annex 34E.

3. The Defence Business Services - Veterans Agency (DBSV) acts as a single point of contact to provide advice for serving military personnel, ex-service personnel and their dependants. The DBSV is responsible for the War Pensions Scheme and Armed Forces Compensation Scheme. These schemes provide compensation to personnel for illness that arises as a result of service prior to 6 Apr 05 and on/after 6 Apr 05 respectively. Outside the NHS, the charity Combat Stress provides specialist advice and in-patient and out-patient mental health care for veterans. See Appendix 1 to Annex 34E.

4. NHS TIL Service is a new service for Armed Forces personnel approaching discharge as well as for veterans. The service will help to recognise some of the early signs associated with mental health difficulties and will provide access to a number of interventions, therapeutic treatments for complex problems and psychological trauma and prevent patient reaching crisis point. It will also help tackle some of the most common mental health and substance misuse problems such as alcoholism, anxiety and depression and join up services across the board, working with local authorities and charities so that the whole of a person’s needs and their families are looked after. See Appendix 1 to Annex 34E.

1 www.gov.uk/guidance/support-for-war-veterans#the-veterans-and-reserves-mental-health-programme.
5. Following publication of Dr Murrison’s report entitled ‘Fighting Fit’ in October 2010, as well as in-Service recommendations (improving mental health assessment at routine medicals, providing access to mental healthcare for 6 months after discharge, studying the efficacy of post operational screening for mental health conditions and an on-line support service), the following are under development for veterans:

Veteran’s Information Service – contact will be made to every veteran 12 months after leaving the Service to offer support.

Veteran’s 24 hour Support Line – to be run by Combat Stress.

Veteran’s Outreach Service – 30 FT equivalent mental health professionals to be resourced to meet needs specific to veterans within NHS mental health trusts.

An on-line support service for veterans.
ANNEX 34H

TRAUMA RISK MANAGEMENT (TRiM)

Note. Extract from the introduction to the project protocol for the (RN) controlled trial to determine the efficacy of TRiM:

“Exposure to traumatic events can lead to the development of psychological distress, lowered morale and organisational difficulty (Hoge et al, 2002; Greenberg et al, 2003). It is utopian to believe that traumatic stress can ever be eliminated from any military organisation. Assuming that the Armed Forces continue their primary function of war fighting, then personnel will be exposed to trauma and stress. Some of those exposed will develop psychological distress as a result. Even if this can be reduced by training and so on, no one can argue that it could ever be eliminated. On the other hand we also know that whilst this cannot be prevented, it can be better managed”.

1. Introduction

a. A certain degree of pressure and psychological stress is inseparable factor in military operations. Faced with these factors we all have the potential to respond in differing ways. In addition to what we are immediately facing, there could be other external issue that can hamper our ability to cope. It is therefore important to ensure that robust mechanisms are put in place to manage the adverse effects of excessive pressure and psychological stress. Such mechanisms can diminish the effects of stress and deter them from becoming a long-term threat to an individual’s health and, ultimately, their ability to operate effectively. The 6 Stages of the Naval Service’s Operational Stress Management (OSM) Policy (incorporating TRiM within Stage 2 ‘Operational Support – see Annex 34C) provides such a mechanism.

b. Traumatic events\(^1\) can have the potential to generate post-traumatic stress symptoms. The symptoms can include depressive episodes, anger, poor sleep patterns and risky driving. These conditions are not uncommon and, if left unchecked, can lead to poor functioning, difficulties with relationships, excessive drinking and discipline issues. In the most extreme cases, certain individuals can go on to suffer from full blown Post Traumatic Stress Disorder (PTSD). Research evidence has shown that delays in seeking help in dealing with trauma issues can often arise as a result of perceived stigma. There remains a wider stigma associated with mental health issues in both the general and service populations. This stigma can act as a barrier to individuals seeking appropriate help\(^2\). TRiM is designed to reduce the barriers and actively encourages sufferers to seek appropriate assistance.

---

\(^1\) A traumatic event is any event that can be considered to be outside of an individual’s experience and has the potential to cause physical, emotional or psychological harm.

\(^2\) The Murrison Report (dated 21 Jul 10) made recommendations based on a number of propositions, one of which was that stigma deterred servicemen from engaging with conventional mental health provisions.
2. **TRiM Delivery**

TRiM is a proactive, peer group delivered, human resource management initiative for supporting individuals following exposure to traumatic events. The wider view of the TRiM protocol is detailed in the TRiM CONOPS at Appendix 1 to Annex 34H. There are three main work strands to the TRiM protocol which are:

a. **Education.** ‘Pre-incident Awareness Training’ with the primary emphasis being placed on operations. This is where the probability of a traumatic incident is more likely.

b. **Individual/Group Risk Assessment.** Following a traumatic incident, individual or group risk assessments to determine how much stress an individual has assimilated (the Risk Assessment process is amplified at Para 3 below).

c. **Mentoring.** Practitioners are required to provide mentoring support for individuals for a period of 6 months post incident. The TRiM Practitioner is trained to recognise the signs and symptoms of stress and give mentoring advice to individuals on coping strategies and how to better manage their issues. The request for mentoring support is generally instigated by the individual and the TRiM Practitioner will respond in an empathetic and supportive manner.

3. **Risk Assessment**

One of its primary tasks is the early identification of the signs and symptoms of stress. Having peers within a unit who have some skills in risk assessment potentially allows for an initial approach without fear of the stigma of medical/psychiatric referral. This is achieved by allowing individuals to talk through the issues surrounding an incident and by doing this, allow them to process their thoughts. This end state is achieved through the medium of the ‘TRiM Risk Assessment. The two-fold aim of the Risk Assessment is as previously stated, to allow healthy processing of their thoughts and secondly; to assess how much stress the individual has assimilated as a result of the incident. Individuals are seen either as singletons or in small groups. Under the guidance of TRiM Practitioner, the individual is encouraged to tell their story in a frank and honest way and discuss any attendant issues that may emanate. It is structured along the lines of what was happening ‘Before’ the event, what was happening ‘During’ the event, what was happening ‘After’ the event. This type of intervention is known as the BDA Model. It is not a treatment or a therapy; however the ‘talking’ or ‘processing’ element of the intervention has recognised therapeutic advantages. People engaged with the process are seen on two occasions; the first occasion is three days after the incident and the second occasion is one month or 31 days after the incident. During the course of the two interviews or assessment, the Practitioner will check their progress against ten extremely well researched and evaluated trauma risk factors. If stress levels are high or if issues are not being resolved, the TRiM Practitioner may encourage the individual to engage with the Medical Services or some other appropriate agency.

---

3 The TRiM Groups are never more than 8 people. Groups are always conducted by two TRiM Practitioners.

4 The TRiM Protocol is fully compliant with the National Institute for Health & Clinical Excellence (NICE) guidelines for the delivery of post trauma support, London 2005.
TRiM Teams are embedded within all units, squadrons and platforms of the Naval Service. This policy ensures that in the aftermath of a traumatic event, the services of the Team are readily available to the chain of command. Additional support for units/platforms following a traumatic event is available from the NCHQ OSM Team. All members of the Team are highly experienced TRiM Practitioners and can provide advice, on-site direction and practical support, post event. In working hours the NCHQ OSM Team may be contacted on Mil: 9380 28021 or Civ: 02392 573021, out of hours contact TRiM Duty Mobile on 07733 155884.

4. Training Courses

There are now a number of TRiM Training Courses at varying levels available for members of the Naval Service. However, for the training to be effective and for the successful Practitioners to be credible, the protocol must be delivered by competent and well motivated personnel. The selection of potential TRiM Practitioners should be carried out using the prescribed selection criteria (see Appendix 3). Governed by CONOPS (see Appendix 1) and a strict ‘TRiM Code of Practice’ (see Appendix 4), TRiM complements existing support mechanisms and aids the identification of those experiencing of post traumatic symptoms. The TRiM Protocol is a human resource initiative, however, the Project maintains and supports close links with the Naval Community Mental Health Services.

5. Stress and Resilience Training Policy

A Defence-wide Stress and Resilience Training Management (SRMT) policy has been developed by Chief of Defence People in consultation with the three services. The policy sets out the training requirements and it is organised at four distinct levels:

a. **Level One.** Level One training includes basic stress training for all personnel newly enlisted or who have recently joined the Armed Forces (for the Naval Service this includes new entrants at HMS RALEIGH, CTCRM & BRNC Dartmouth). The training is aimed at ensuring that they recognise stress in themselves and others. The training puts emphasis on how to seek appropriate support should the need arise.

b. **Level Two.** Level Two training is required for those who manage others to ensure that they are able to recognise signs of pressure and stress in themselves and their subordinates (for the Naval Service this includes leadership courses, Divisional Officers Courses etc).

c. **Level Three.** Level Three trains those with responsibility for managing stress at an organisational level in order to maintain operational and/or business effectiveness (for the Naval Service this may include CO and/or XO Desig Courses).

d. **Level Four.** Level Four training is targeted at non-medical personnel in posts with specific stress management responsibilities. The personnel that may require this training are those that require additional stress training to enable them to carry out their duties in their key post or to address specific risks (for the Naval Service this will include TRiM training).

---

5 Positive leadership, divisional/troop and peer group support, welfare, medical and pastoral care.
7 Service Personnel Support, Health and Well-being, part of Chief of Defence People, 6th Floor, MOD Main Building. This policy has been checked and is extant as at Nov 16.
6. Documentation

All incidents involving a TRiM Intervention are to be fully documented in a Naval Service TRiM Incident Log Book. All the documentary requirements are clearly detailed in the log book and should be accurately followed. Once all TRiM activity relating to the incident has been completed, the TRiM Manager who initiated the documentation and supervised the TRiM Intervention should then return the completed paperwork to the NCHQ OSM Cell.

7. Summary

The majority of Service Personnel who are exposed to traumatic events will not go on to develop long-term problems. However, we have a responsibility to meet our duty of care obligations and our legal requirements, as well as to develop a broader awareness of the issues of stress amongst the Naval Service. TRiM has proved effective in identifying the small number of people who may go on to develop problems in the future. Operational factors such as geographical isolation, logistical constraints, the wide dispersal of personnel (a particular issue for land forces) and limited psychological support mean that initial management strategies (trauma triage) can initially be carried out by trained unit TRiM Practitioners rather than external mental health professionals from outside the unit. Simply put, TRiM is a tool which helps recognise when somebody is not behaving normally and suggests to the affected individual the need to seek professional medical help. It is prima facie leadership; the use of TRiM assists in formalising a function of command relating to the care of individuals and allows it to be applied more routinely. The embedding of TRiM teams and the use of TRiM, in conjunction with the wider stages of OSM, enhances considerably the knowledge and understanding of stress management within the Naval Service population. These factors taken together are, in turn, demonstrably improving leadership on both land and sea. The Commander of 12 Mechanised Brigade stated in his Op ’HERRICK’ Post Operations Report that:

“The heavy emphasis placed by the Commander on TRiM prior to the start of the tour has undoubtedly paid off. This simple but effective method of managing the aftermath of traumatic events has meant that 12 Mech Bde units have been able to mitigate some of the harrowing effects of close quarter combat. This has undoubtedly kept soldiers in the front line. This process must now be endorsed as best practice in Defence”.
APPENDIX 1 TO ANNEX 34H

TRiM CONOPS

1. Introduction
As an executive tool, TRIM policy resides with the Operational Stress Management Cell within NCHQ. However, once a TRIM capability has been established within a unit, platform or establishment, the responsibility for maintaining, exercising and deploying TRIM rests with the Commanding Officer (CO). This Appendix aims to provide the CO with guidance to assist them in their task.

2. A Traumatic Incident
In the aftermath of a traumatic event a variety of emotional effects can be placed upon us. Some effects are quickly recognised and by virtue of our training and personality we are capable of dealing with them. However, some or more discrete and their effects are more discrete and their effects are harder to recognise and predict. As a result they are more challenging to deal with and it may be appropriate to seek assistance from a TRiM Practitioner. For the purposes of these CONOPS A traumatic incident is defined as:

“Any event that can be considered to be outside an individual’s usual experience and has the potential to cause physical, emotional or psychological harm.”

The keyword in this definition is “potential”. Both during and after a traumatic incident everyone can react differently. When dealing with effected individuals, everyone will have differing needs & requirements. The TRiM should recognise this and plan its strategy accordingly. It is not a case of one size fits all.

3. Employment
As stated above, everyone will respond differently to a traumatic incident. Some may be severely traumatised whilst some may not be affected at all. However, a TRIM team should be employed as a precautionary measure in the aftermath of incidents similar to those listed below.

- Sudden death.
- Serious injury.
- Disablement or disfigurement.
- Multiple traumas
- Near miss (or near hit), defined as an uncontrolled event which fortunately did not physically injure the person but if it had then there was the potential for serious injury.
f. When survivors are encountering overwhelming distress (an example would be when engaged on disaster relief work or body handling duties).

g. Engagement with child enemy combatants.

4. Unit TRiM Teams

The TRiM team of trained personnel embedded within each Unit/Squadron/Platform are trained to recognise the symptoms of stress and give advice to individuals on simple coping strategies and how to manage them. The TRiM model is consistent with the aims of existing Stress Management Training (SMT) and conforms to the National Institute for Health and Clinical Excellence guidelines. TRiM also seeks to eradicate the stigma attached to stress and mental health by educating personnel to ensure that they:

a. Recognise that stress and trauma can affect even the toughest individual but that feelings and behavioural changes in the aftermath of traumatic events are neither unusual nor unexpected and all can be effectively treated.

b. Can identify the signs of stress and strain within themselves and their shipmates.

c. Can be made aware of simple coping strategies that exist to manage stress, including the dangers of alcohol, substance abuse and poor sleep hygiene.

d. Know when to seek additional help and understand which agency can assist them.

5. TRiM Principles of Employment

TRiM is employed with the following principles, which are consistent with the objectives of military mental health provisions:

a. Proximity. Support should be provided at unit level wherever possible and with engagement at all levels of command. Individuals are not compelled to attend a TRiM Risk Assessment. However, there is an expectation that they will attend in order to support others who were involved in the same incident. The TRiM Team Leader will also be required to:

(1) Continue to engage with those who initially decline to attend a TRiM Risk Assessment.

(2) Notify the Chain of Command of any individual considered to be a serious risk to themselves or others. This reporting responsibility will be with the knowledge of the individual but does not require their consent.²

² The requirement to carry out this reporting responsibility is clearly explained in the ‘Introduction’ phase of the Risk assessment.
b. **Immediacy.** TRiM assistance should be in place in the immediate aftermath of the event. Embedded Team Leaders should provide an immediate response to the incident in the form of advising the Chain of Command and the formulation of appropriate management plans. Formal individual or group risk assessments should not be initiated until at least 3 days have elapsed. Earlier intervention is likely to produce a markedly inaccurate Risk Assessment. On some occasions, external TRiM assistance may be required if the embedded Team personnel are encountering difficulties due to the intensity of the events, the scale of the numbers involved and/or personal involvement.

3

**c. Expectation.** Personnel should be made aware after the incident that they will resume their normal duties as soon as possible.

d. **Simplicity.** The programme is simple to teach and implement. It keeps ownership of the management of stress reactions at unit level, and commanders retain responsibility for the well-being of their personnel.

6. **Planning the Intervention**

TRiM affords commanders a number of bespoke options when dealing with the aftermath of a traumatic event. For minor incidents they may wish to employ a local defusing strategy amongst either individuals or groups. For major incidents, particularly if they involve death, the entire TRiM team may be required in addition to medical, pastoral and welfare services (where available). TRIM helps to assess the initial impact of traumatic stress and reassures the Command that vulnerable people are being identified promptly and signposted to receive specialist support at the earliest opportunity. Within three days of a traumatic incident, the team manager, or senior stress practitioner, should have sought permission to convene a planning meeting to determine the most appropriate stress management strategy. The following personnel should attend:

a. Senior management (XO or 2 i/c).

b. Senior Stress Practitioner (TRiM Team Leader).

c. G1/N1 representative (normally the Logs Officer at sea).

d. Someone with knowledge of the incident.

e. Someone with knowledge of the individuals involved.

f. Medical Officer or Senior Medical Rating.

g. Chaplain (if borne).
7. **On Completion of Planning**

At the conclusion of the planning phase, the following options are available to the Chain of Command and the Unit TRiM Manager:

a. **Do Nothing.** If the event is relatively minor and individuals appear to be taking the incident in their stride, a policy of ‘watchful waiting’ incorporating regular reviews may be sufficient.

b. **The Briefing Meeting.** An initial strategy to consider could be to conduct a ‘Briefing Meeting’. This can be used to give trauma related information to vulnerable people who are aware of the incident, but their involvement is more peripheral. The Briefing Meeting can involve the whole ship’s company and should be conducted within 48 hours of the incident.

c. **Individual/Group Risk Assessment.** Following an incident, assessments will be conducted at intervals of three days and one month (the one month interview takes place 28 days after the initial 3 day risk assessment. Both assessments will allow informed judgement so that early referral for treatment may be achieved.

d. **Mentoring.** The mentoring process allows individuals unrestricted access to a TRiM Practitioner. It gives them the opportunity to discuss and ventilate any issues in an empathetic and benign environment.

8. **Stigma**

There is a recognised reluctance amongst the wider male UK population to seek help in aftermath of a traumatic event. In the Armed Forces this can be exacerbated by a culture which emphasises robustness and resilience. Whilst these traits are admirable when engaged on operations, they can act as a barrier to seeking help at a later stage. TRiM Teams, by their awareness of the nature of reactions to traumatic events, are well placed to give support to these individuals. Within the Naval Service as a whole, we are seeing less resistance to seeking emotional support. The TRiM Teams, the Chain of Command and the other Carer Agencies should continue to work collectively to reduce the corrosive effects of stigma.

9. **TRiM for Injured Personnel**

There are individuals who are injured or damaged in some way and are subsequently returned to the UK. Dependent on the nature and severity of their injuries, they may spend a short period at Queen Elizabeth’s Hospital, Birmingham. After initial treatment they may be sent to their family home for a period of convalescence. These individuals, due to their rapid departure from the operational theatre, are unlikely to have engaged with the TRiM process. Due to this factor we are unable assess how much stress they have assimilated, and as such, we are hampered in giving them adequate post-incident support. Faced with these and other issues, it is important that TRiM support is provided within two weeks of the injured individual arriving in the UK. The protocol covering these circumstances is contained in Appendix 2 to Annex 34H.
10. Documentation

All incidents involving the intervention of a TRiM Practitioner are to be fully documented by the TRiM Team Leader in a TRiM Incident Log Book (OFFICIAL SENSITIVE STAFF once in use). The log book records details of the incident, those directly and indirectly involved, details of decisions made at the planning meeting and those in attendance, the names of individuals invited to be risk assessed (and those who decline assistance) and the risk assessment checklist scores and action taken. Team Leaders are to keep completed Incident Log Books for a period of 3 months from the date of the incident after which they are to be sent to NAY NPS-PEOPLE SPT OSM TRIM SO2 for inspection and archiving.

11. Reporting

There is a requirement to collate data on TRiM interventions. These are required to provide evidence to its efficacy, to meet requests for statistical information and to provide effective long term support our personnel. The area of JPA used for recording TRiM interventions is the individuals ‘exposure to hazard’ tool detailed in the JPA Operational Tracking (OPLOC) section. The inputting of TRiM Interventions into the ‘exposure to hazard’ of JPA is the sole responsibility of the NCHQ OSM Cell. The source document for inputting the information is the submitted Naval Service TRiM Incident Log book. The entry will not contain any of the details of the event or elements of the TRiM discussion. It will solely detail the specific TRiM Risk Assessment number plus the date of the assessment.

12. Benefits of Reporting

The primary beneficiary of this policy is the individual. It allows the chain of command to support them appropriately during and post service. It also gives an audit trail to demonstrate that, at some stage previously in their service life, they have actively engaged with the TRiM process. To assist the individual further, on completion of the TRiM process, they will be issued with a unique ‘JPA Hazard Number’. They should retain this number and refer to it if they ever need to deal with the Service medical services or other agencies.

13. Referral/Signposting

Depending upon the outcome of the risk assessment, a TRiM Practitioner, after consultation with his TRiM Team Manager, may consider an individual to be in need of additional professional support. Identified personnel should be encouraged to contact unit medical staff who may refer individuals for specialist mental health support. The following conditions are an indicator to the TRiM practitioner that further medical support is required:

a. Prolonged and profound psychological distress indicated by high scores in the risk assessment.

b. Acute distress.

c. When post-incident issues emanating from the event are having a marked effect on the individual's duties and/or social interaction.

---

4 JPA provides a suitable functionality known as: ‘Recording Exposure to Hazards’ (abbreviated to ‘E2H’). This was included in JPA release 8, activated in 2009. See Desk Instructions.

5 The generic introduction given prior to conducting any TRiM Risk assessment has been amended to reflect that the assessment is now recorded on JPA.

6 Personnel entered in on E2H are the individuals who, as a result of the Planning Meeting are invited to attend a risk assessment. If an individual subsequently declines to attend, this fact is also recorded on E2H.
14. Selection of the TRiM Team Leader and TRiM Practitioners

TRiM Practitioners are not aligned to specific posts within unit establishments. Any prospective TRiM Practitioner should be held in high regard by and hold the trust of their peers. They must be volunteers and have good life experience skills; ideally they should not have been involved in a traumatic incident or bereavement within the past year. The specific criteria for selection are at Appendix 2 to Annex 34H.

15. Continuation Training

Due to skill fade, Annual Continuation Training will be conducted by the unit, ship or establishment TRiM Team Manager (or TRiM Team Leader) to ensure that the TRiM Team remains current with best practice. This training will be audited through FOST, or the NCHQ TRiM Team.

16. The TRiM Code of Conduct

All TRiM personnel are subject to a code of conduct which clearly defines how they conduct their working practices. A copy of the code is detailed at Appendix 4 to Annex 34H.
APPENDIX 2 TO ANNEX 34H

SELECTION OF TRiM TEAM LEADERS AND TRiM PRACTITIONERS

1. Introduction
   Trauma Risk Management (TRiM) is a proactive, common sense strategy which aims to manage the effects on individuals of a potentially stressful incident. The management of the traumatic aspects of the incident is peer group delivered using trained TRiM Practitioners. The effectiveness of the intervention primarily rests on the shoulders of each practitioner and their approach to the task will greatly determine the success of the final outcome.

2. The TRiM Practitioners Course
   The Course will give the potential practitioner the requisite skills to carry out the prescribed task. However, careful selection is required to ensure that the personnel nominated by the ship, squadron or establishment possess the essential core skills to carry out this exacting role. The aim of this Appendix is to outline the methodology that should be followed during the selection process.

3. Selection Background
   Generally, TRiM Practitioners are not aligned to specific appointments within their units. Personnel who attend TRiM training should be volunteers and should not have been involved in a traumatic incident or a significant bereavement within the previous year. The specific rank of the individual is not relevant, but in making their selection, the unit/establishment must be convinced that individual can deal with the nature of the work.

4. Selection Criteria
   Volunteers should be capable of meeting the following criteria:
   
   a. Capable of maintaining peer confidentiality;
   b. Be mature and empathetic;
   c. Be respected and trusted by colleagues;
   d. Have good communications skills;
   e. Be capable of learning about a psychosocial process;
   f. Be capable of adhering to the TRiM Code of Conduct and working within established boundaries.
APPENDIX 3 TO ANNEX 34H

CODE OF PRACTICE RELATING TO TRiM PRACTITIONERS

1. Introduction
The Trauma Risk Management (TRiM) protocol is a Human Resource initiative. However, the Project maintains and supports close links with the medical services.

2. Code of Practice

a. TRiM interventions and risk assessments should only be carried out by practitioners who have undertaken an officially recognised TRiM Course and are in date.

b. All TRiM interventions should be conducted strictly in accordance with the protocols taught on the TRiM Course.

c. All TRiM Practitioners are to observe the following ethical statements:

   (1) Maintain confidentiality unless indicated by law not to do so.

   (2) Obtain informed consent.

   (3) Avoid any re-traumatising actions to the greatest extent possible.

   (4) Operate within personal levels of training, expertise, education and experience.

   (5) Use the TRiM protocol in an empathetic, sensitive and respectful manner.

   (6) Self monitor personal capacity to do ‘the work’.

   (7) Do no harm.

   (8) Promote human welfare.

   (9) Be fair.

   (10) Fulfil commitments to clients.

   (11) Finally, take regular and ongoing actions to insure self-care and enhance the ability to deliver quality and professional services.
ANNEX 34I

TRiM EXPOSURE TO HAZARD REPORTING

1. Introduction
   The Naval Service has an enduring requirement for a robust audit process for personnel who have engaged with the TRiM Process. In accordance with the JSP 770\(^1\), we record occasions when an individual has been ‘Risk Assessed’ by a TRiM Practitioner. This process allows the Naval Service to meet its obligations for the provision of accountability and transparency. The recording process is fully explained to all personnel taking part in a TRiM Risk Assessment (RA). It is clearly covered in the ‘Introduction’ phase of the RA, specifically in the ‘Confidentiality’ paragraph.

2. Data Recording
   The information is recorded in the ‘Exposure to Hazard’ (E2H) Section of JPA. Recording sensitive details on JPA may appear to run counter to the fact that a RA is a confidential process. Only NCHQ TRiM Team is responsible for the input of information relating to TRiM Incidents onto the JPA E2H. Under no circumstances should details of the incident or individual TRiM scores be recorded on JPA. Details of whether individuals were invited to be risk assessed and/or whether they declined assistance are to be recorded in the TRiM Incident Log Book, but only the offer of a TRiM intervention is to be recorded on JPA. This decision places heavy reliance on careful stewardship of TRiM Log Books within units and commands, and a similarly robust mechanism is required for JPA administration.

3. Log Book
   All TRiM interventions are to be fully documented in a TRiM Incident Log Book. The Log book is to record details of the incident and all personnel involved. It is to capture the details of decisions made at the planning meeting and a nominal record of those personnel who were in attendance. The names of individuals invited to be Risk Assessed, whether the offer was accepted or declined, and the subsequent risk assessment checklist scores and action(s) taken, must also be recorded. Once initiated, TRiM Log Books are not to be destroyed but must be retained and archived in accordance with standard operating procedures. When the incident is closed by the Unit\(^2\), the completed Log Book should be forwarded to the NCHQ TRiM Team.

---

\(^1\) JSP 770: Tri-Service Operational and Non-Operational Welfare Policy - Chapter policy remains extant and retained from Version 11 of JSP 770 and provided as PDFs and a revised DIN: Chapter 2 – Trauma Risk Management (TRiM) Policy (PDF) - This chapter and DIN will be integrated into the new JSP 661 Defence People Health and Wellbeing, when it comes into being.

\(^2\) This normally occurs after the execution of the 1 or 3 month follow up Risk Assessment. If there are specific reasons for keeping the Log Book open, then this should be reported to the NCHQ TRiM Team. On completion, the log book should be returned to NCHQ TRiM team by the 6-month point.
4. **Documentation**

Unit personnel who were invited to attend a Risk Assessment (including the ‘Decliners’) are entered onto the JPA E2H Database. Those entered into the system receive, in addition to a covering letter, the following items:

   a. **A TRiM Reference Card.** The card contains information\(^3\) that may assist the individual in the medium and longer term future (perhaps at a time when they have left the Naval Service).

   b. A ‘Question & Answer Sheet’ which outlines 10 questions and answers, explaining how the Reference Card can be used in the future.

   c. A Confirmation Receipt Form to ensure effective management of the TRiM Reference Cards.

5. **Outcome**

   Whilst there is a requirement for the Naval Service to retain records regarding the usage of the TRiM process, the primary beneficiary of E2H policy is the individual. Whilst in the Service or perhaps when they have returned to the civilian environment, an individual may encounter post-traumatic issues. They may require additional medical or mental health assistance. If they attempt to seek help from their GP or a mental health professional, they may have problems in clearly describing the circumstances of the events that are troubling them. The production of a ‘TRiM Reference Card’ will provide a conduit to enable GPs, mental health professionals, welfare staff or Government Agencies to clarify the Veteran’s version of events. The discussion with the TRiM Team could also highlight other pertinent aspects of the incident.

6. **Summary**

   The JPA E2H process will provide a robust audit trail to enable NCHQ to quickly validate the circumstances of a reported incident which has received a TRiM intervention. This in turn will enable our Naval Service Veterans to be assisted and receive the appropriate support during and following their tenure in the Naval Service.

CHAPTER 35
MATERNITY, PATERNITY AND ADOPTION - MANAGEMENT AND CARE OF PERSONNEL

3501. Introduction to Maternity, Paternity and Adoption

a. It is not possible to cover all aspects of pregnancy, parenting and related issues within this short chapter. The aim is to highlight some of the key areas which the Commanding Officer (CO), Divisional Officer/Troop Commander/Line Manager (DO/Tp Cdr/LM) and Career Manager (CM) need to be aware of and it must be read in conjunction with JSP 760 Tri-Service Regulations for Leave and Other Types of Absence and Chapter 58 (Management of Career). Line Managers should direct individual enquiries to the Parent Support and Information teams (PS and ITs) or UPO Maternity Desks, but are also welcome to seek further advice on policy from the RN D&I policy desk Tel 93832 5683. For specific areas this guidance must be read in conjunction with the following:

(1) Pregnancy. JSP 760 Chapter 24, DIN 2015DIN01-167 for further information on revised maternity arrangements for Service Personnel (SP) in the Reserve Forces.

(2) Adoption. JSP 760 Chapter 25, 2018DIN01-130,2017DIN01-023 and 2015DIN01-166.

(3) Paternity. JSP 760 Chapter 26.

(4) Shared Parental Leave. JSP 760 Chapter 27

(5) Parental Leave. JSP 760 Chapter 28.

(6) Assisted Conception and Fertility. 2016DIN01-052.

b. These policies are applicable to all eligible personnel, whether single, in heterosexual or non-heterosexual partnerships and regardless of sexual orientation.

c. The essential tenets of the Armed Forces' Maternity, Paternity and Adoption policies are as follows:

(1) To provide supportive arrangements to enable SP to accommodate pregnancy, maternity and paternity absence within their Service careers. This includes prenatal and pre-adoption arrangements and, for those who choose to return to duty following pregnancy and maternity leave, additional provisions under the Armed Forces Occupational Maternity Scheme (AFOMS), Armed Forces Occupational Adoption Leave Scheme (AFOALS) and Armed Forces Occupational Shared Parental Leave (AFOSPL).
(2) That no SP will be treated less favourably because they are pregnant, absent on maternity or paternity leave or for any other reason connected to a pregnancy.

(3) That the health and safety of the pregnant SP and unborn baby and, subsequently, the SP and new born baby, are paramount and will be safeguarded in accordance with the law.

(4) That unless they volunteer otherwise, a SP who returns to work after a period of maternity leave will not be deployed on operations and exercises either overseas or in the UK for a period of at least six months following the birth\(^1\), although they will be liable for the full range of remaining duties (compatible with any health and safety or medical grading restrictions).

(5) That upon pregnancy, a SP may choose to leave the Service prematurely on the grounds of pregnancy.

(6) That, from the end of week 25 of pregnancy, the SP must formally declare the pregnancy to the employer (using form Mat B1) in accordance with JSP 950 Part 1 Lft_6-7-7 - Joint Manual of Medical Fitness (5-J-3 through 5-J-15).

d. It is important that those dealing with a pregnant SP, parents embarking on Shared Parental Leave (SPL) or Service personnel undergoing the adoption process, do so in a professional yet compassionate manner. Being treated in a positive manner will reinforce the individual’s feeling of being a valued member of the Naval Service and they are more likely to return to work on completion of their leave. Fundamental is the recognition and respect of a Serviceperson’s legal right to take statutory maternity, paternity and adoption leave and some additional unpaid maternity leave, as well as their right to return to work after having a child.

e. Pregnancy and maternity are classified as Protected Characteristics under the Equality Act 2010 which means that it is unlawful to discriminate against, harass or victimise an individual or treat them unfavourably as the result of a pregnancy or a related illness, or because they are exercising, have exercised or are seeking to exercise their right to maternity leave.

f. Naval Service Information Packs, produced by the Parenting Support and Information Team (PS&IT), contain guidance and information for Service personnel and Line Managers. They are available from the PS&IT and UPO Maternity Desks. SP automatically receive the Maternity pack when they report to the Maternity Desk to submit their FMed 790.

\(^1\) This is increased to at least twelve months from the birth of the child for the Naval Service (Para 3503.d sub para (1)).
3502. Maternity. To enable the DO/LM to offer guidance and counselling, an outline of the actions a SP should take to complete the Maternity Routine is given below:

a. Confirmation of Pregnancy. The pregnancy must be confirmed by a Unit Medical Centre. A Certificate of Pregnancy (FMed 790) will be issued and the Medical Centre will raise a signal changing the SP’s Medical Category. (This will be a pregnancy specific MedCat but the Medical Centre may use an alternative non-specific MedCat if there is a need to keep the pregnancy confidential). The SP should then report to the Maternity Desk in the nearest shore-side UPO/Admin office and submit Form FMed 790.

   (1) If the SP does not wish the pregnancy to be disclosed, it is imperative that this right to privacy is respected and the pregnancy should not be discussed with anyone else without their consent.

   (2) The right to privacy from declaration will cease from the end of week 25 of the pregnancy, in line with the detail at Para 3501 sub-para c(6), whereby the SP must be medically downgraded as Medically Non-Deployable (MND) with Medical Employment Standard E6.

b. Sea Goers.

   (1) If a pregnancy is confirmed whilst at sea, the SP should be transferred ashore from the ship/submarine at the earliest operationally convenient opportunity. Pregnancy is not a medical emergency and does not require instant removal from the ship/submarine. Transferring a pregnant SP ashore is a Health and Safety precaution and aims to protect the individual and the unborn child from any possible risks caused by sea service; this action should be fully articulated to the individual by the DO/Tp Cdr. If the SP is serving in a submarine BRd 9902 Section 6 gives guidance.

   (2) If the ship/submarine is alongside the SP may opt to remain on board; this is subject to a risk assessment being conducted and the SP accepting its results. Consideration is to be given to adjusting their role in order for the SP to remain in post. The DO should read JSP 375 Part 2 Vol 1 Ch 20, the MoD Health and Safety Handbook Guide for further information on Risk Assessments. See also sub para e below. SP can remain on board up to the end of the 25th week of pregnancy or until the individual feels that it is becoming too awkward to move around the ship/submarine. They must be transferred ashore, however, if the ship/submarine proceeds to sea at any point.
(3) A pregnant SP who is transferred ashore and is part of a Geographical Squad should report to their base port Career Management Cell (CMC) where they will complete a joining routine as part of the managed move from the ship. This will include making contact with the relevant Personnel Support Group (PSG) or Recovery Cell (RC) in accordance with Para 3508. The PSG or RC, in liaison with the CMC and the Naval Personnel Team (NPT), will make arrangements for employment ashore or find suitable alternative employment. Alternatively, a pregnant SP may request a shore assignment which will be considered by the relevant desk in the same manner as any other application. If the request is approved, normal assignment action is to be completed by the ship/unit.

c. **Phase 1 Training.** Specific direction on the management of a pregnant SP during Phase 1 training is at Annex 35D.

d. **Health and Safety.** A Health and Safety Risk Assessment (RA) of a pregnant SP's work-place is a mandatory legal requirement. This RA is in addition to the generic assessment carried out for a place of work and is individual to the pregnant SP. The SP should complete Annex 35E requesting an assessment be conducted. It is the responsibility of the DO and departmental Health and Safety Officer to ensure that this is undertaken as per JSP 375 Part 2 Vol 1 Ch 20. A standard risk assessment form is to be used and the assessment must be carried out by a qualified risk assessor and be reviewed at regular intervals as the pregnancy progresses. If at sea, a risk assessment should be carried out to cover the period until the SP is transferred ashore. Once the outcome has been discussed, both the SP and the unit Health and Safety Officer should sign the form, the SP will annotate the form to acknowledge that they have understood its contents and had any risks explained. Copies of the risk assessment must be retained by the unit or building manager, the LM/Tp Cdr/DO and the SP. Irrespective of the nature of the current assignment, consideration must be given to adjusting the SP’s to enable them to remain in post, should they wish to do so.

e. **Maternity Notice Form.** It is a legal requirement for a SP to inform their employer of a pregnancy and future work intentions by the 15th week before the baby is due. The SP has the option to leave the Service on pregnancy, or to return to work after a period of paid Ordinary Maternity Leave (OML) (up to 26 weeks), Additional Maternity Leave (AML) (26 weeks from the end of OML) and/or Parental Leave. SP should be encouraged to notify their employer of their intentions by completing one of the Maternity Notice Forms (also contained in the Maternity Pack) as early as possible. Once completed, the Maternity Notice Form, together with the MAT B1 certificate if available, should be handed to the UPO Maternity Desk. (The MAT B1 form will be issued by a midwife/GP no earlier than 20 weeks before the baby is due). UPO Maternity Desk staff will then raise a Confirmation of Entitlement letter which the SP will need to take to their DO/Tp Cdr/LM with a Notice Form. The DO/Tp Cdr/LM should sign the Notice Form, making a copy of it and the letter for their records as required, and the documentation should be returned to the Maternity Desk either via the SP or directly.
f. **Maternity Uniform.** Several Uniform Clothing Stores (UCS) now keep a stock of maternity uniform in the more common sizes but if it needs to be ordered, delivery times can vary from 2 to 12 weeks. Maternity uniform is to be ordered as soon as possible in the pregnancy and worn when normal uniform becomes uncomfortable. An FMed 790 (issued by Sickbay on confirmation of pregnancy) is required to collect maternity uniform. Alterations can be arranged through the clothing store. For further information see Para 3814.

g. **Accommodation.** The tri-Service Accommodation regulations are set out in JSP 464 Part 1. If a pregnant SP is single, or has an entitlement to Single Service Accommodation (SSA), they may either continue to occupy accommodation up until leaving the Service, or, if they are remaining in the Service, apply for Service Family Accommodation (SFA) into which they can move from three months prior to the expected date of childbirth.

h. **Medical Examinations.** A pregnant SP must have a medical examination prior to proceeding on maternity leave. They must also have a Return to Work Medical as soon as practicable on returning to work.

i. **Maternity Mortality**

   (1) A miscarriage occurs when the body terminates a pregnancy on its own before the pregnancy has carried to 24 weeks. A SP who has a miscarriage will not be entitled to maternity leave or pay, but normal sick leave provisions will apply.

   (2) Stillbirth is when a pregnancy has carried to 24 weeks or more, but the baby dies before it is born. In such circumstances a SP will qualify for maternity leave and pay.

   (3) If a baby is born alive but later dies, even after a few seconds, at any time during the pregnancy, the rules for a live birth will apply.

   (4) Sudden infant death syndrome (SIDS) – sometimes known as ‘cot death’ – is the sudden, unexpected and unexplained death of an apparently healthy baby; in which case the rules for a live birth will apply.

j. **AFOMS.** The following is a Summary of the Regulations for Babies born under AFOMS.
Table 35-1. Maternity Provision

<table>
<thead>
<tr>
<th>Length of Service</th>
<th>Maternity Provision</th>
</tr>
</thead>
<tbody>
<tr>
<td>All SP, regardless of length of service</td>
<td>Up to 52 weeks of maternity leave. This is made up of 26 weeks of OML and 26 weeks of AML. The first two weeks after the birth count as compulsory maternity leave and it is a legal requirement that SP must not work during this time. Annual Leave continues to accrue throughout the entire period of maternity leave, both paid and unpaid periods.</td>
</tr>
<tr>
<td>A SP with less than 26 weeks continuous service by the Qualifying Week (Note 1) (whether or not they intend to return to service) and who is still serving in the Qualifying Week.</td>
<td>Up to 52 weeks of maternity leave. This is made up of 26 weeks OML and 26 weeks AML. The SP will not be entitled to enhanced pay under the AFOMS during OML; nor will they be entitled to SMP (Note 2). However, depending on individual circumstances they may be entitled to other State benefits.</td>
</tr>
<tr>
<td>A SP with 26 weeks or more but less than a year’s continuous service by the Qualifying Week and who is still serving into the Qualifying Week (whether or not they intend to return to Service following maternity leave).</td>
<td>Up to 52 weeks of maternity leave. This is made up of 26 weeks OML plus 26 weeks AML. During OML they will not be entitled to enhanced maternity pay under the AFOMS but may be eligible for SMP, which is payable during the 26 weeks of OML and first 13 weeks of AML.</td>
</tr>
<tr>
<td>A SP with a year’s continuous service by the qualifying week, who is still serving into the qualifying week and who states their intention to return to duty following maternity leave for a minimum period of 12 months</td>
<td>Up to 52 weeks of maternity leave. This is made up of 26 weeks OML plus 26 weeks AML. During the 26 weeks OML they will be entitled to full normal pay and the first 13 weeks of AML will be paid at the standard rate of SMP. The remaining 13 weeks will be unpaid.</td>
</tr>
<tr>
<td>A SP with a year’s continuous service by the qualifying week, who is still serving into the qualifying week and who chooses not to return to duty.</td>
<td>Up to 52 weeks of maternity leave. This is made up of 26 weeks OML plus 26 weeks AML. During the 26 weeks OML and the first 13 weeks of AML they will be entitled to receive the standard rate of SMP. The remaining 13 weeks of AML will be unpaid.</td>
</tr>
</tbody>
</table>

Notes:

1. **Qualifying Week**: 15th week before the week in which the baby is due.
2. **SMP**: Statutory Maternity Pay.

3503. **Adoption.** The Armed Forces are committed, wherever possible, to providing supportive arrangements for personnel adopting children. It is important to stress that this provision relates only to adoption placements organised through legally recognised adoption agencies and to children placed for adoption within Great Britain. It does not, for example, apply in a case where a step-parent adopts a child after marrying the biological parent or after forming a civil partnership. Adoption Leave is open to both male and female Service personnel, but only one parent is eligible for Adoption Leave/Adoption Pay. Both parents would be entitled to SPL as described at Para 3506.
a. **Adoption Notice.** It is in the interests of both the Service and the individual concerned to give as much notice as possible of the intention to take Ordinary Adoption Leave (OAL) or Additional Adoption Leave (AAL). In any event, a minimum of at least 28 days’ notice should be given by Service personnel requesting OAL or, in the event of notification of placement being at shorter notice, as soon as is reasonably practical.

b. **Accommodation.** Service personnel who are adopting are entitled to occupy SFA from the date of approval given for the need to establish a home, prior to any child being placed with the adoptive parent.

c. **Appraisal Reports.** Notwithstanding the normal rules on Appraisal Reporting (JSP 757); to avoid a long period of unreported employment, the DO/Tp Cdr/LM should consider the merit in writing an OJAR/SJAR before the individual proceeds on Adoption Leave.

### 3504. Surrogacy

Parents entering into surrogacy arrangements have the same rights as adoptive parents regarding maternity/paternity leave allowances.

### 3505. Assisted Conception

It is recognised that the processes associated with assisted conception treatment may affect the functional capacity and deployability of SP. 2016DIN01-052 Assisted Conception and Fertility provides policy and guidance to SP and line management. This includes guidance on the provision of geographical stability and leave to access treatment. SP undergoing assisted conception may require greater protection; individuals and line management should seek risk assessment and note that temporary medical employability limitations may be necessary. Further information can be found within JSP 950 Leaflet 6-7-7 Chap 5 Annex J and 2015DIN01-033 Arrangements for NHS Infertility Treatment where Armed Forces Compensation Scheme (AFCS) applies.

### 3506. Paternity Leave and Pay

a. As with Maternity Leave, there are other conditions which need to be met in order for a person to be entitled to Paternity Leave and the DO/LM must refer to JSP 760 Chapter 26. Paternity Leave is still applicable in cases of adoption and Para 3503 gives further details.

b. **Ordinary Paternity Leave.** Two weeks Ordinary Paternity Leave (OPL) is a statutory entitlement and the entitlement applies when a person is:

1. The biological non-primary carer of the child with the responsibility for the child’s upbringing.

2. Not the biological parent of the child but is married to or in a civil partnership with the other parent and has or will have (apart from any responsibility of the other parent) the main responsibility for the upbringing of the child.
(3) Not the biological parent of the child but who lives with the other parent and the child in an enduring family relationship and is not an immediate relative of the other parent and has or will have (apart from any responsibility of the other parent) the main responsibility for the upbringing of the child. An immediate relative includes a parent, grandparent, sibling, aunt or uncle and includes relationships of both full and half blood.

3507. Shared Parental Leave (SPL) and Shared Parental Pay (ShPP)

The DO/LM and CM need to be aware of the policy on for SPL and ShPP and must read JSP 760 Chap 27. The Armed Forces Occupational Shared Parental Leave Scheme (AFOSPLS) allows eligible parents to choose how to share the care of their child in the first year of the child’s life or the first year after a child’s placement for adoption. Eligible Service personnel can end their maternity or adoption leave early and, with their spouse, civil partner, partner or the other biological parent with responsibilities for the care of the child, opt to take SPL instead of Maternity Leave. SPL attracts ShPP which is payable at an enhanced rate (full daily rate of pay) or statutory rate, providing that both parents meet certain qualifying and eligibility criteria. The current statutory rate of ShPP can be obtained from the UPO Maternity Desk. The maximum SPL available is 50 weeks and the maximum ShPP available is 37 weeks. Anyone considering applying to take SPL should read the JSP 760 Chap 27 carefully and discuss their plans with their DO, their Maternity DO and their Career Manager at the earliest opportunity, noting that individuals must give at least 15 weeks’ notice before commencement of any SPL.

3508. Career Management

a. An individual is not required by law to inform their employer of their pregnancy until the 15th week before the baby is due. However, in an effort to assist both the individual and the Service in future planning, SP are strongly encouraged to inform their DO/Tp Cdr/LM and Career Manager/Adviser of pregnancy as early as possible. This will allow a realistic forecast of future assignment to be given to inform their decision making. In addition, it will ensure that the Royal Navy is able to fulfil its legal obligations under the Health and Safety at Work Act to both the SP and the unborn child.

b. It is important that the SP attend a meeting with their Career Manager (no later than 15 weeks prior to EWC). This will enable discussions over future employment which will enable them to secure housing, childcare setting and support network in the appropriate location. It is the responsibility of the DO/Tp Cdr/LM to ensure that this takes place. This interview is to include, but not be limited to, the following:

   (1) Acknowledgement of their geographical and assignment preferences.

   (2) Discussion of sea and/or operational service preferences and the impact that deferring this service may have on their career.

   (3) Acknowledgement of proposed return to work date and likely career opportunities on their return to work. This may be particularly difficult given the timeframe of maternity, adoption or shared parental leave but the Career Manager should make every effort to ensure that the SP can begin to make childcare arrangements before the child arrives.
(4) If married to or in a partnership, including a civil partnership, with another SP, they can register as a Service-couple With Dependent Children (SWDC). Advice should be given, including the arrangement of a date for an SWDC interview if requested. Unless registered, both partners (if Naval) will be liable for sea going service – see Para 5807 for more detail.

c. DO/LM must make individuals aware that all personnel are expected to continue to meet the full range of Service duties and commitments, including sea service or operational service if so liable and it is likely that, at some stage in their career, they will be required to serve away from home for a protracted period of time.

d. The SP will not ordinarily be re-assigned as a result of their pregnancy unless there are health and safety reasons which necessitate re-assignment, or the person requests re-assignment. Any SP who opt to return to work immediately after OML or OAL should return to their original post if possible and if they wish provided that, in doing so, their return does not have an adverse or disproportionate impact on normal assignment practices or operational effectiveness.

e. If a SP is returning after AML, AAL or SPL (see JSP 760 Chapters 24, 25 or 27), the Service will endeavour to meet their geographical and posting preferences in accordance with normal Service arrangements.

f. The appointment/assignment immediately following maternity and adoption leave requires careful thought and planning. Whilst the normal Service arrangements apply, and all Service personnel are expected to continue to meet the full range of Service duties and commitments, Career Managers must consider fully the impact on the new parent and their initial childcare arrangements. In cases where the new parent does not believe that their preferences for the first assignment on return from leave have been fully considered, they may request that a review of the Assignment Order be conducted by the SO1 CM for their specialisation.

g. The Naval Service has a number of initiatives which might assist in providing support to all new parents in the early months of their return to work:

(1) Unless they volunteer otherwise, an individual who returns to work on completion of maternity leave will not be deployed or drafted to sea going service within 12 months of the birth of their child. Assigning authorities will also, exceptionally, consider applications for a further deferment/break of sea service of up to 6 months where appropriate shore employment is available. Within the 12 months, and for any future non-sea going assignments, Service personnel (including those who are SWDC) will remain liable for the full range of duties including official augmentation and 24-hour base duties.
(2) Where both parents are serving in the Naval Service, it may be possible, should they request it, for Career Managers to deconflict future sea/operational assignments. The Career Manager will also seek to deconflict across the Services if possible. Information about Sea Service Liability for SWDC can be found at Para 5807.

(3) Service personnel, depending on their role, may be able to apply for Non-Standard Working Hours (Flexible Working Arrangements and Flexible Service); for further information see Chapter 36 and JSP 750.

(4) The Graduated Return to Work scheme (GRtW) uses an individual’s current entitlement of Keeping in Touch (KIT) days and ALA to create a graduated return to the working environment. Individuals who have been on a continuous block of leave for 26 weeks or more may request the option of GRtW. Information on GRtW can be found at Para 3511.

(5) A Naval Service Parent’s Network (NSPN) has been established to offer support and guidance to parents and to allow parents to share experiences and information. The NSPN will not circumvent the responsibility of the Divisional system but aims to support it. Further information can be found through PS&ITs.

h. Any SP who, on completion of their leave, is unable to arrange adequate long-term childcare to allow them to carry out a duty or deploy, should consider their future within the Naval Service.

3509. Care

It is imperative that the pregnant SP reports to the Maternity Desk in the local UPO as early as possible. Once the Maternity Desk has begun the administration process, they are to direct the SP to the relevant Maternity DO. This will be in the Personnel Support Group for those personnel assigned to MA4 DRAKE or NELSON or in the Recovery Cell for those assigned to MA4 NEPTUNE. For personnel who are assigned to RNAS Culdrose, Yeovilton or RAF Marham MA4 (either Maternity/Shared Parental or Adoption leave), wherever possible the SP should remain under the care and management of the Divisional team within their parent Squadron or Unit (irrespective of whether they will be returning to that role after their leave). Personnel who are experiencing issues or concerns should also remain with their own Squadron or Unit unless there is a specific reason why they need to be managed otherwise. Should an alternative management strategy be necessary, this should be discussed at a case conference and a suitable DO nominated to provide the care for the individual. This must be done at the earliest opportunity but no later than Week 26 of the pregnancy. The following administrative actions will ensure that the SP receives the appropriate Divisional care.

a. Divisional Care During Pregnancy.

(1) The SP is to formally declare their pregnancy by Week 26 (or may do so at any point prior to this). The FMed 790 will be completed by the Medical Centre, which will also raise an appropriate medical downgrade signal (E6). The SP must hand the FMed 790 to the UPO Maternity Desk and receive a Maternity Pack.
(2) The Career Manager will take the necessary assignment action on receipt of the medical downgrade signal: if sea going, the SP will be assigned to an appropriate shore authority or, if already on shore, will not be reassigned (unless deemed necessary due to Health and Safety issues). The Career Manager must also inform the relevant Parent Support and Information Team (PS and IT) DO.

(3) The SP must submit their Maternity Notice Form (available in the Maternity Pack) to the UPO Maternity Desk no later than Week 25. They must also submit their Mat B1 to the UPO Maternity Desk (issued by a midwife not earlier than Week 20) no later than Week 25.

(4) The UPO Maternity Desk is to forward copies of all relevant paperwork to the Career Manager. The Career Manager will take appropriate assignment action (MA4) and will send copies of the assignment order to the sending DO, Maternity DO and the UPO Maternity Desk. Assignment action should be completed no later than Week 27 of the SP’s pregnancy in order that the relevant administration desks may have early visibility and provide support at the earliest opportunity.

(5) The sending DO for any SP who is proceeding on Maternity Leave is to contact the PS and IT DO and conduct a full hand over, including SJAR/OJAR as appropriate. The SP is to contact the PS and IT DO as soon as possible in order to build a rapport and have the opportunity to discuss any concerns and establish the necessary Keeping In Touch details applicable during their leave. For SP embarking on Maternity Leave they are to meet with the PS and IT DO initially no later than Week 27 of their pregnancy and again before proceeding on Maternity Leave. If married to, or in partnership with another SP, they should also be signposted to their relevant CM to ensure that their SWDC requirements are applied to their individual assignment restrictions on JPA.

b. **Antenatal Care.** Pregnant Service personnel and Service personnel with a child through adoption or surrogacy should discuss provision of antenatal care with their DPHC Medical Centre. They are entitled to reasonable time off to keep appointments for antenatal care made on the recommendation of a registered medical practitioner, midwife or health visitor. This can include attendance at relaxation and parent-craft classes as well as medical examinations. If necessary, they can be asked to provide written proof of their appointment. Ordinarily, a pregnant SP will be advised to register as a ‘Temporary Patient’ at a local NHS GP surgery when referred by a Service Medical Officer (MO). The local GP will refer them to their midwifery service for antenatal care. The Service MO retains responsibility for all Service medical and Occupational health needs throughout pregnancy, and the SP falls back under Service MO for all their health care after their six-week post-natal check. The pregnant SP must also ensure that they have a pre-maternity leave medical conducted at the Medical Centre prior to proceeding on maternity leave. At the six-week post-natal check, the SP should ask their NHS GP for copies of their patient notes which should then be handed onto their DPHC Medical Centre.
c. **Maternity Fitness.** Each Base Port area and Air Station has a PTI who is trained in ante and post-natal fitness. SP should ask at the gymnasium for the contact details of the trained PTI in order that they can be given appropriate support and training throughout their pregnancy and Maternity Leave, and during their return to work, as necessary. The SP must also show their FMed 790 to the unit PTI in order to ensure that any appropriate exemptions are entered onto JPA. More information on the Fitness Test exemption during pregnancy and maternity can be found at BRd 51 Physical Development Manual Ch 2 para 0219 sub-para c(3).

d. **Divisional Care during Adoption or Shared Parental Leave.** The following administrative actions will ensure that Service personnel will receive the appropriate Divisional care;

1. The sending DO for any SP who is proceeding on SPL or Adoption Leave is to contact the PS and IT DO and conduct a full hand over, including SJAR/OJAR as appropriate. The SP is to contact the PS and IT DO as soon as possible in order to build a rapport and have the opportunity to discuss any concerns and establish the necessary Keeping In Touch details applicable during their leave. If married to, or in partnership with another SP, the SP should also be signposted to their relevant CM to ensure that their SWDC requirements are applied to their individual assignment restrictions on JPA.

2. The PS and IT DO is to ensure that regular contact with the SP is maintained in order that relevant information (eg. DINs, RNTMs) is made available, and issues and concerns are raised early. The sending DO is also encouraged to maintain personal contact with the SP to ensure that they are kept abreast of changes in working practices, included in social gatherings etc. This relationship should be maintained until they return to work or until their next assignment is confirmed.

3. The PS and IT DO will contact the SP when any Assignment Order is received, ensuring that any additional leave that has been requested is correctly appended and that they are aware of their future assignment or area of employment.

4. The PS and IT DO is to contact the new employer once the Assignment Order is received to commence a handover with the new DO.

5. The new DO should contact the SP and (if possible) arrange a meeting to discuss their new role and any concerns that they may have. They may use a KIT Day (see Para 3509) for such purposes.

6. The new DO should send a formal Joining Letter to the SP confirming their discussion and any induction training and other training requirements.
e. **Parental Coaching and Mentoring.** For those in Base Port areas and Air Stations, a programme of sessions is available for both ante and post-natal SP and Service parents who are on Adoption Leave and SPL. The aim of the programme is to improve the retention of post-natal and post-adoption Service personnel, by offering support and a sense of empowerment about becoming a parent and returning to work. PS and IT Office is to provide information on local sessions to Service personnel under their care and when SP submit their FMed 790.

**3510. Keeping in Touch (KIT) Days**

Under AFOMS and AFOALS, Service personnel may use up to 10 KIT days during their maternity or adoption leave, and a further 20 days during SPL to enable them to return to duty without bringing their leave to an end. These can be used for many reasons, such as to meet with their Career Manager, participate in sport or to meet with their future line manager.

a. KIT days are optional, will not bring an individual’s leave to an end and must be agreed with their line management.

b. KIT days must be taken before the Return to Work date.

c. KIT days cannot be taken during the first two weeks of OML.

d. KIT days can only be taken during the leave period to which they apply. The 10 KIT days can be used during OML, AML, OAL and AAL but cannot be used during SPL, a further 20 KIT days are available for each parent during SPL.

e. KIT days can be used during OML, AML, OAL, AAL and SPL and will be paid at the SP’s daily rate of pay, unless they are already receiving full pay. If taken whilst on unpaid AML, AAL or SPL they will be paid at the normal daily rate of pay and will be reckonable for pension purposes. Duty travel can be claimed.

f. Should the SP wish to use KIT days for the purpose of a Graduated Return to Work (GRtW), they should engage with their Career Manager and the Maternity DO at the earliest opportunity, in order that all leave entitlement and KIT days are used appropriately.

g. KIT days should be claimed using JPA Form R003.

**3511. Return to Work Administration**

The following administrative routine should be followed to enable the Serviceperson to return to work at the time of their choosing, with all pay and allowances awarded correctly.

a. Eleven weeks before returning to work, the SP will receive a Return to Work letter from the UPO Maternity Desk which articulates their exact return to work date. They must respond to this letter within 28 days which provides ample time to overcome any issues (should their dates be incorrect) and enable them to apply for any additional leave within the current 56 days’ notice period.

b. In order to ensure that the relevant pay and allowances are correctly paid, a copy of the Birth Certificate or Adoption Certificate must be forwarded to the UPO Maternity desk as soon as possible after the birth or adoption.
c. Once an Assignment Order is received, the PS and IT DO will contact the SP keeping them informed and will also forward a copy of the Assignment Order to their contact address.

d. The SP must ensure that their PSTAT category is correct. Should this need to be changed or amended, Form JPA N001 should be submitted to the UPO Maternity Desk.

e. JPA is to be populated with details of the dependent children of Service parents. In order to ensure that this is correctly achieved, JPA N005 should be submitted by parents to the UPO Maternity Desk.

f. Pregnant SP returning from Maternity leave must have a Return to Work medical as soon as possible after returning to work.

3512. Graduated Return to Work.

The GRtW scheme uses an individual’s current entitlement of KIT days and ALA to create a graduated return to the working environment, the leave entitlement is taken between one and three days per week in order to achieve the gradual re-introduction to the work-place within 12 weeks of the return to work date. Either parent who has been on a continuous block of leave for 26 weeks or more may request the option of GRtW. An individual considering GRtW should discuss their intention with their CM before they proceed on leave or at least 15 weeks before they would wish to start their proposed GRtW. This should be tailored to suit the needs of both the individual and the Service, and a graduated return will not always be possible. Once the pattern has been agreed, any variation or cancellation must also be agreed between the individual and their CM. More information on GRtW can be found in RNTM 01-005/17, which will be incorporated into Chapter 58 in due course.

3513. Parental Leave.

The aim of Parental Leave is to allow Service personnel unpaid leave to care for a child by, for example, spending more time with the child during the early years, to settle a child into new child-care arrangements or to accompany a child during a stay in hospital. This guidance must be read in conjunction with JSP 760 Chapter 28.

a. Parental Leave allows each parent of each child, either natural or adopted, to take 18 weeks unpaid leave up to the child’s 18th birthday. Leave is to be taken in periods of no less than one week and a maximum of 4 weeks can be taken in one year.

b. Time spent on Parental Leave does not count towards seniority, pension or completion of a commission or an engagement. Parental Leave is unpaid and un-reckonable for pension purposes.

c. A request for Parental Leave must be submitted, in writing, at least 21 days before the leave is required.
3514. **Child-care**

It is the responsibility of Service parents to ensure that adequate child-care arrangements are in place before the parent returns to work. In general, throughout main Base Ports, Air Stations and in the London area there is a high demand for places in nurseries, child minders and nannies that can lead to long waiting lists. Parents should therefore be encouraged to start investigating options/making preliminary arrangements for child-care as early as possible and not wait until after the child is born. Naval Service Family and People Support (NS FPS) can offer advice but Service personnel are to be in no doubt that should child-care not be in place or prove to be insufficient, such that it adversely affects their ability to meet Service commitments, they may be required to consider their future in the Service. The DO/Tp Cdr/LM should also encourage Service personnel to consider the longer-term career plan at this stage; this can be carried out in conjunction with the CMC/Career Manager. Service personnel should be made aware of the Tax Free Child Care Scheme (information available on Government Websites). Information on local childcare provision can be sourced from NS FPS Information Officers.
ANNEX 35A

CARE OF PREGNANT SERVICE PERSONNEL AT WORK

1. Introduction.

Pregnancy is not an illness and many individuals will enjoy the experience without suffering any major problems. However, the DO/Tp Cdr/LM should be aware that some people will experience changes to their physical well-being which may affect their ability to work, even if it is only increasing tiredness. Service personnel are usually keen to ensure that they continue to work a normal daily routine and do not want to be treated differently from their colleagues. Good communication between the Service person (SP) and their DO/Tp Cdr/LM will ensure that this can be achieved. Work flexibility, individual risk assessments and the provision of suitable facilities are essential elements in protecting the health, safety and welfare of the pregnant SP and the unborn baby. Should a DO/Tp Cdr/LM have any concerns about the health and welfare of a pregnant SP, they are to seek the direction and guidance of the Medical Staff.

2. Physical Changes.

Some physical changes that a pregnant SP may experience and the effects are given in the table below:

<table>
<thead>
<tr>
<th>Physical Change</th>
<th>Possible Effects</th>
<th>Solutions</th>
</tr>
</thead>
<tbody>
<tr>
<td>'Morning Sickness' – can occur at any time of the day. Common in the early stages of pregnancy but can last throughout the pregnancy.</td>
<td>Feeling nauseous through to extreme vomiting that requires medical attention.</td>
<td>Access to fresh air. Adjustment to working hours. Ability to have a rest.</td>
</tr>
<tr>
<td>Extreme Tiredness – the body is working very hard.</td>
<td>Risk of falling asleep while working or travelling. Lack of energy.</td>
<td>Regular breaks. Access to fresh air. Adjusting working hours. If possible, find somewhere for individual to rest during lunch break.</td>
</tr>
<tr>
<td>Hormonal Changes.</td>
<td>Joints and Ligaments loosen and become easier to strain and pull. More susceptible to stress and anxiety. Mood swings.</td>
<td>Avoid lifting and stretching. Adjustment to duties to avoid stressful situations. Understanding and support from DO/LM.</td>
</tr>
<tr>
<td>Circulation system has to work harder.</td>
<td>Varicose veins, haemorrhoids, swollen ankles and cramp.</td>
<td>Ability to put feet up. Regular breaks. Exercise to feet and legs.</td>
</tr>
<tr>
<td>Increased blood flow.</td>
<td>Dizziness.</td>
<td>Plenty of fluids. Access to a seat and fresh air.</td>
</tr>
<tr>
<td>High Blood Pressure.</td>
<td>Can be very dangerous in the latter stages of the pregnancy (Pre-Eclampsia).</td>
<td>It may be necessary for the individuals to take time off work and have total bed rest for a while. Work situations that are stressful and may increase blood pressure should be avoided if possible.</td>
</tr>
<tr>
<td>Low Blood Pressure.</td>
<td>Dizziness and tiredness.</td>
<td>As above. Regular snacks to maintain blood sugar levels. Access to a rest area.</td>
</tr>
<tr>
<td>Physical Change</td>
<td>Possible Effects</td>
<td>Solutions</td>
</tr>
<tr>
<td>-----------------</td>
<td>-----------------</td>
<td>-----------</td>
</tr>
<tr>
<td>Increase in body fluids.</td>
<td>Swollen ankles and wrists. Painful wrists (Carpel Tunnel Syndrome).</td>
<td>Access to a seat. Plenty of fluids. Regular Breaks. Individual may have to wear alternative footwear.</td>
</tr>
<tr>
<td>Expanding uterus puts pressure on the bladder.</td>
<td>Discomfort. Bladder infections. Need to go to the toilet often.</td>
<td>Ensure work space has access to a toilet. Ensure working patterns allows regular breaks to go to the toilet.</td>
</tr>

ANNEX 35B

SOURCES OF SUPPORT APPLICABLE TO ADOPTION AND PATERNITY LEAVE

1. The Naval Service is fully committed to providing, wherever possible, supportive arrangements to accommodate pregnancy and maternity leave within a Service Person’s (SP) career. All the sources of support listed below will be able to offer either advice or counselling to pregnant SP or personnel returning to work on completion of maternity leave. If an individual wishes to seek further help, then the DO/Tp Cdr/LM should offer the following as possible sources of assistance.

2. Divisional System
   a. It is quite likely that a pregnant individual will seek advice from their DO/Tp Cdr/LM and it is therefore necessary for them to have an understanding of the issues involved, including the routine a SP must follow once they have announced the pregnancy. A DO/Tp Cdr/LM must also ensure that they are fully aware of the legal rights of both a pregnant SP and serving parents to ensure that they do not suffer any form of discrimination. Individuals should feel confident in approaching their DO/Tp Cdr/LM whenever the need arises; refer to Para 2120 for further guidance on counselling. If a DO/Tp Cdr/LM is approached by a SP for help and advice yet feels unable to provide adequate counselling in certain sensitive areas, advice should be sought from eg. chaplains, RNRMW or medical staff. Alternatively, contact the D&I policy desk 93832 5683.
   b. The DO/Tp Cdr/LM should provide all the necessary support and direction and guidance to ensure that the SP is appropriately signposted for relevant information. Information can be found through the Maternity Desks and also through RNRMW (which may also signpost to appropriate external authorities in cases of Adoption). The DO/Tp Cdr/LM should always reiterate to the service person that SPL, Adoption Leave and also Paternity Leave are subject to recall (although recalling a SP from SPL, Adoption Leave and Paternity Leave would only be considered in an operational pinch-point or need of the Service which would be supported through the chain of Command), as the impact on the family unit and the adverse effect on any child-care provision is fully appreciated.

3. Defence Primary Healthcare (DPHC) and Civilian Medical Services
   SP will be referred to a local civilian NHS GP, registering as a temporary patient, to receive maternity care from the practice midwife or doctor. However, the DPHC Medical Officer retains primacy over all general medical matters and the SP should contact DPHC Medical Centre for all aspects of medical care unrelated to the pregnancy. Pregnant SP who are based in Portsmouth have access to MOD Sponsored Midwives. One is based in central Portsmouth, the other in Gosport. SP are referred to the relevant MOD Sponsored Midwife depending on whether they are based in central Portsmouth, Gosport, QA Hospital. In other waterfront areas, no formal MOD Sponsored midwives exist, but there is often a local link to a Community Health Centre. If the SP is concerned at any time about the care and treatment they are receiving, they should contact the DPHC Medical Centre. It is essential that a SP maintains good communications with both their civilian and Service healthcare professionals and should be encouraged to attend all medical appointments, ensuring Maternity notes are taken. The SP should remain temporarily registered with the NHS GP until they are six weeks post-partum. This will ensure that the SP is provided with appropriate ante-natal care and also linked with a local Health Visitor. Alternatively, NHS Direct is a one stop shop for all medical matters and can give some initial medical guidance, advice and reassurance (NHS 111 or NHS Choices).
4. **Chaplaincy**
If a SP needs further help or counselling during pregnancy, they can discuss matters with a Chaplain in strict confidence.

5. **Royal Navy Royal Marines Welfare**
RNRMW provides an accessible and confidential service across the UK and overseas in these key areas: Specialist Welfare; Advice and Support to the Executive and Divisional/Regimental system; a network of Community, Information and Communications workers as well as links to Family Support Workers.

a. RNRMW Officers (formerly HIVE) are available as and when information is required, and can be useful when relocating, when looking for a specific service, or seeking the answer to any question. Information Officers will assist by providing an impartial response and, if necessary, will signpost to specialist welfare staff or refer to another agency. Online information is also available on the intranet, internet, Facebook and Twitter. These communication channels are used to provide accessible information support for those living in the UK and overseas.

b. If an individual needs specialist support due to personal issues or concerns that cannot be resolved by Primary Welfare (Divisional, Medical or Pastoral Support), RNRMW Social Workers and Naval Service Welfare are available to support and offer guidance, whilst also providing a link between the SP and their family in times of difficulty; they may be contacted via the RNRMW Portal on 02392 728777.

6. **Naval Families Federation (NFF)**
The NFF represents the views and concerns of all family members to the Naval authorities and at ministerial level and acts as an effective two-way communication between families and Service and civilian agencies. The NFF will assist in empowering families to seek help, advice and information by acting as a signpost to relevant organisations. The NFF is located within Building 25, HMS EXCELLENT, Portsmouth, PO2 8BY, Tel No. 02392 654374, website address www.nff.org.uk.

7. **Forcesline**
Forcesline offers confidential and impartial advice available from specialist civilian advisers by dialling Freephone 0800 731 4880 – 1030 to 2230, seven days a week. They will discuss any issue which may be causing concern or personal distress. Operators will endeavour to identify possible sources of support or resolution, but no direct action will be taken by the Supportline. Callers may remain anonymous and no names are taken.

8. **The White Ensign Association**
The White Ensign Association is a registered charity and was originally set up to provide a financial advisory service of the highest calibre for all serving and retired personnel of the Royal Navy, the Royal Marines, the former Queen Alexandra’s Naval Nursing Service, the Women’s Royal Naval Service and their respective Reserves. Over the years the role has developed and expanded to include the provision of assistance in resettlement, employment in civilian life and as a source of advice for personal issues. The contact details are at Chapter 32 and www.whiteensign.co.uk.

9. There are numerous non-Service related organisations and websites that can offer advice and guidance on maternity related issues.

D&I Policy Officer

UNCONTROLLED WHEN PRINTED
ANNEX 35D

MANAGEMENT AND CARE OF PREGNANT SERVICE PERSONNEL DURING INITIAL TRAINING PHASE 1

1. The management and care of pregnant Service Personnel (SP) in Phase 1 Training should closely follow the policy and guidance contained within Chapter 35 and the latest Maternity Arrangements DIN. A Phase 1 Trainee/Officer Cadet (OC) is a member of the Armed Forces and therefore is to be afforded all the rights contained within this Chapter, regardless of how long they have served. During Phase 1 Training, however, there are some additional management considerations, especially for U18s, and Line Managers/Divisional Officers should refer to local policy. If the pregnant SP does not wish their pregnancy to be disclosed to others, it is imperative that this right to privacy is respected and the pregnancy should not be discussed with anyone else without their implicit consent.

2. Ultimately, the duty of care over the pregnant SP rests with the Commanding Officer but management is to be administered by the Divisional Officer. All personnel who manage pregnant SP are to do so in a professional yet compassionate manner and no SP are to be treated less favourably because of their pregnancy or for any other reason related to pregnancy.

3. As soon as a Trainee/OC declares that they are pregnant, then they should be temporarily withdrawn from the training programme. Due to the physical and stressful nature of Phase 1 Training, this is a health and safety precaution, as the Naval Service has a responsibility to ensure that no harm comes to the pregnant individual or the unborn child. This should be clearly articulated to the individual.

4. Option to Remain in Service
   a. Should the pregnant SP decide they wish to remain in the Service then, where possible, they should be employed within the training establishment on duties that do not place them or the unborn child at risk. The SP may remain in these duties until they proceed on maternity leave.
   b. The individual should return to training at a mutually agreed and appropriate point in the training cycle, acknowledging that it may well be in excess of 12 months since leaving training with the attendant loss of knowledge. However, an individual can legally return to training after a minimum of 2 weeks after the birth of the child. Every SP returning to Phase 1 Training on completion of maternity leave must be given a post-natal medical examination and the Command must be entirely satisfied that it is safe for them to continue with Phase 1 Training.

5. Option to Leave the Service.
   Upon pregnancy, SP may exercise their right to leave the Service prematurely and they can leave at any time. Any administrative action should be carried out swiftly whilst affording the necessary duty of care to the individual.
ANNEX 35E
REQUEST FOR RISK ASSESSMENT (RA)

1. Introduction
   It is a legal requirement that an individual RA is to be carried out for every pregnant service person (SP) and those returning from maternity leave. This form should be used to request an individual RA as early as possible in the pregnancy. It should be carried out by a qualified Risk Assessor and should be in accordance with JSP 375 Management of Health and Safety in Defence: Guidance Part 2 Vol 1 Chapters 8 and 20. The RA should be kept under constant review, as the identified risks to the individual and the foetus will vary during the different stages of pregnancy as dexterity, agility, coordination, speed of movement and reach may be impaired. Work flexibility, individual RAs and the provision of suitable facilities are essential elements in protecting the health, safety and welfare of the pregnant SP and foetus.

2. Physical Risks
   Some physical changes that a pregnant SP may experience and their effects are given in Annex 35A. In carrying out the individual RA, particular attention should be paid to the actual tasks that the SP has to perform and working hours expected to ensure any risks associated with these are adequately controlled. This should be regarded as an ongoing process throughout the course of the pregnancy as the capabilities of the SP may be significantly reduced as the pregnancy progresses.

3. Administration
   The pregnant SP should be fully involved in the RA and copies should be held by the SP, DO, and building manager (if appropriate). There is no single generic risk assessment form for pregnant SP and those returning from maternity leave, as all work environments are unique. The DO must ensure that a qualified Risk Assessor carries out the individual RA in addition to the generic RA in place for all personnel. The SP is to annotate the form to acknowledge that they have understood its contents and had any risks fully explained.

   I hereby request that an Individual Risk Assessment be carried out in order to protect myself and foetus from any risks associated with my work.

CHAPTER 36

FLEXIBLE WORKING AND FLEXIBLE SERVICE

3601. Introduction to Flexible Working and Flexible Service
The NS is committed to ensuring that Service Personnel have opportunities to balance work and personal responsibilities. Full-time, Regular Service Personnel are liable for duty twenty-four hours per day, seven days per week (24/7) (within reason) but, where Flexible Working is agreed, when and how an individual works can be varied. Flexible Service is distinct from Flexible Working. Flexible Service is a new opportunity which permits Regular Service Personnel to apply to reduce their commitment level so that they effectively work part time and/or restrict their geographic separation for defined periods. It may not always be possible to accommodate requests either for Flexible Working or Flexible Service, but personnel can expect that all applications will be considered fairly. It is important to understand the difference between Flexible Working and Flexible Service, as follows:

a. Flexible Working. Flexible Working (FW) is provided for by MOD policy and permits service personnel to make (by agreement with LM/CO) changes to working patterns and/or to use paid and unpaid leave options to balance work and personal responsibilities; JSP 750 Chapter 1 and JSP 760 refer. Anyone from the Regular or Reserve (FTRS, ADC and VeRR) Forces may apply.

b. Flexible Service. Flexible Service (FS) is provided for in law and MOD policy and gives opportunities for full-time Regular Service Personnel to apply to temporarily reduce their commitment levels and so vary the way in which they serve – either by working part-time and/or by restricting their levels of geographic separation for a defined period; JSP 750 Chapter 2 refers. FS arrangements must be approved by an appropriate authority and are not available to Reserve Forces who may achieve the same effect eg. part-time working, by moving to different commitments where there is a Service requirement.

3602. Eligibility for Flexible Working
Any individual on the trained strength may apply to their CO/LM for FW. In exceptional circumstances, the CO/LM may agree to support an application for some form of FW to personnel who have been in service for less than 26 weeks.

3603. Application for Flexible Working
Ad-hoc requirements to work flexibly may be agreed with the DO/LM/CO as required. Application for enduring FW arrangements should be made on JPA1. Personnel seeking to apply are advised to discuss their proposals with their DO/LM before formally proceeding.

3604. Types of Flexible Working

a. Variable Start and Finish Times. Variable start and finish times allow an individual to work full-time, but potentially start and finish at times other than the norm. See JSP 750 Chapter 1.

---

1 Further guidance on application can be found in JPA Self Service User Guides: Absences (Flexible Working).
b. **Home Working.** Home working allows personnel to work from home, or another MOD location closer to home, for an agreed number of days per week. See JSP 750 Chapter 1.

c. **Compressed Hours.** Compressed hours allow an individual to work full time hours within a compressed period (eg. four long days Monday - Thursday and a half day Friday). See JSP 750 Chapter 1.

3605. **Types of Leave That Support Flexible Working**

Chapter 26 Para 2607 lists all types of Leave and Absence. The following types can also be used to support an individual to balance their work commitments and personal responsibilities:

a. **Unpaid Leave.** Personnel may request to take up to three months unpaid leave, without sacrificing any Conditions of Service. See JSP 760 Chapter 4.

b. **Career Intermission.** A Career Intermission may last between 3 months and 3 years away from work. This is unpaid. See JSP 760 Chapter 5.

c. **Call Forward of Leave.** Personnel can request to call forward up to 10 days’ ALA from their allocation for the forthcoming leave year for use in the present leave year. See JSP 760 Chapter 6.

d. **Enhanced Leave.** Personnel can request to forfeit 30 days ALA to take a block of 50 days paid leave upon reaching 15 years of service. See JSP 760 Chapter 7.

e. **Transfer of Leave.** Personnel may request to transfer up to 10 days leave to their serving spouse or serving civil partner irrespective of whether the spouse/civil partner is a member of the same Service. See JSP 760 Chapter 8.

3606. **Flexible Service**

FS is available for a defined period and is therefore considered to be a temporary arrangement within a Regular, full-time career. Any agreement that permits an individual to move to FS will be limited to a maximum of 3 years at a time and a maximum of 4 years in a rolling 12-year period. In determining whether an application to move to FS can be permitted, the effect upon the ability of the Service to maintain OC will be the primary consideration. The Service will retain the ability to recall personnel immediately to full service ie. terminate the FS arrangement, where it is necessary on the grounds of operational effectiveness and may terminate a FS arrangement in other circumstances. Those on FS will receive a proportionate reduction in pay, leave and associated pension entitlement. Personnel considering applying for a FS arrangement are strongly advised to read JSP 750 Chapter 2, the relevant DIN\(^2\) and discuss the request with their Chain of Command and CM before proceeding. Personnel are also advised to take appropriate financial advice on the implications of reductions in pay.

\(^2\) Further guidance on how FS impacts pension and other Conditions of Service including pay are detailed in 2019DIN01-003, 2019DIB01-005 and 2019DIN01-008.
3607. **Eligibility for Flexible Service**

In order to be eligible to apply, Service Personnel must have completed their Statutory Initial Training Period (SITP), plus the Statutory Return of Service (2½ years), by the time their FS arrangement commences.

3608. **Application for Flexible Service**

a. FS applications should be made via the drop-down option on the JPA Self Service Navigator Flexible Service application menu. See the JPA Self Service User Guide (SSUG) or Annex 36A for advice on how to make, suspend, terminate or withdraw an application and how to submit an appeal. An application should be made between a maximum of 12 months and minimum of 90 calendar days before the desired start-date, during a current assignment or for the following assignment. An application for FS will not stop or change a non-preference assignment. Personnel are not obliged to give a reason for applying, but any information provided may assist the decision process.

b. The DO/LM/CO and CM will be required to comment on and indicate whether they support/do not support the request as part of the JPA workflow. The ultimate decision will rest with the Approval Authority (AA). DACOS CM and DACOS BM are the delegated Approval Authorities for all personnel up to and including OF4\(^3\). ACOS(PCap) is the delegated AA for OF5/OF6.

c. Operational effectiveness must be maintained. Key factors which will be considered during the approvals process will include the effect of the FS arrangement upon other personnel in the Unit/branch/trade etc. the current and future manpower situation (of the relevant branch/trade and more widely) and the role of the applicant’s Unit and operational demand including in the Joint arena.

d. If a FS application cannot be approved, it may be declined or alternative arrangements (including on the same terms but commencing at a date later than requested) may be offered where available, which the applicant may choose to accept or decline.

e. The individual may appeal against the decision on their FS application. That appeal is made to the Appeal Decision Authority (ADA). The delegated ADA is ACOS(PCap) for all personnel up to and including OF4\(^4\), while NavSec is the ADA for OF5/OF6. Further guidance on how to appeal is contained in JSP 750 Chapter 2 and the JPA SSUG.

---

\(^3\) With the exception of personnel within their direct reporting chain, whose applications must be determined by the alternative authority.

\(^4\) With the exception of personnel in ACOS(PCap)’s reporting chain for whom NavSec is the ADA.
3609. Types of Flexible Service

a. **Part Time (PT).** Part-time working (PTW) means that a person’s commitment is reduced by either 20% or 40%; this equates to one or two days less work per week for those undertaking a 5-day working week, plus a proportional reduction in their liability for duty eg. during weekends and leave periods. Pay will be reduced by the same proportion (20% or 40%), which will have consequent effect on future pension. Personnel on FS (PT) cannot normally be required to attend for duty on non-duty days (NDD) or non-liable for additional duty days (NLADD), and remain subject to Service law at all times. See JSP 750 Chapter 2 for more detail.

b. **Restricted Separation (RS).** The number of days that an individual can be required to serve away from their normal place of duty is restricted to no more than 35 days per year. Personnel who move to FS (RS) will have their X-Factor reduced by 3% for the period of FS. See JSP 750 Chapter 2 for more detail.

c. It is possible to apply for a FS arrangement which includes both PTW and RS.

3610. Variation, Suspension and Termination of the FS Arrangement

a. The Service can vary or terminate the FS arrangement immediately in some circumstances, where it is considered necessary for operational or disciplinary reasons. Also, the Service or individual can vary, suspend or terminate a FS arrangement by giving notice (usually a minimum of 90 days) or where there is agreement to do so between the appropriate Service authority and the individual. A FS arrangement terminates on re-assignment providing the requisite notice has been given.

b. Service Personnel on FS arrangements are not exempt from manning trawls, but the details of their FS arrangement must be included in the Personnel Support Request (PSR) and will be taken into account in the decision process.

c. At the end of a FS arrangement, JPA will automatically return the individual to their Full Commitment TCOS (including pay, pension and leave) and they will return to full-time working and/or full liability for separation.

3611. Further information

Further advice on FW and FS policy may be obtained from NAVY NPS-STRATPOL EMPLOY POL SO1.

CHAPTER 37
UNIFORM - INTRODUCTION AND ORGANISATION

3701. Application
Part 6 (Naval Service Uniform Regulations) of BRd 3(1) is the definitive authority for providing all Naval Service Officers, Ratings and RM Other Ranks with the necessary direction for the wearing of Royal Navy, Royal Marines, QARNNS, Royal Fleet Auxiliary and Naval Retail Staff uniform clothing. It sets out policy, authorised items of clothing, method and occasions of wear and standards of personal appearance. The Naval Service Clothing Committee (NSCC) advises the Sponsor on maintenance of this Part.

3702. Standards

a. Uniform identifies all members of the Naval Service. High standards of dress, deportment and grooming are universally recognised as marks of a trained, disciplined and professional Service and Commanding Officers are to ensure that their personnel maintain the required standards at all times. Modified or idiosyncratic dress is indicative of an inefficient and undisciplined Service.

b. Members of the Naval Service shall wear uniform in accordance with the instructions contained in these regulations.

3703. Authority

a. Changes in clothing policy, dress regulations, the design of uniforms, accessories, accoutrements or insignia shall only be made with the approval of Navy Command HQ through the Naval Service Clothing Committee (NSCC).

b. Flag and Commanding Officers are responsible for all clothing matters within their commands and for ensuring compliance with BRd 3(1).

c. Local management may set standards to meet unique operational requirements and may establish local rules for the wearing of operational rigs.

d. In order to ensure that the required standard for the wearing of uniform in public is maintained, local orders shall conform to policy approved by Navy Command HQ. Flag and Commanding Officers shall not permit any diminution of this standard.

e. Commanding Officers shall ensure that personnel under their command are dressed in accordance with these instructions.

3704. Naval Service Clothing Committee (NSCC)
The Naval Service Clothing Committee (NSCC) ensures that Naval Service clothing policy is delivered through a properly governed procedure, that funding implications are addressed, and clothing supply issues considered with the Defence Clothing (DC) Team. It sets out the committee structure and provides direction and guidance to change sponsors.
3705. **NSCC Responsibilities**

The NSCC Chairman is responsible to ACNS (Pers) for the following:

a. Maintaining Naval Service Clothing policy and dress regulations in BRd 3(1).

b. Making decisions within its authority on Naval uniform and clothing matters which require resolution at Service level, or referring sensitive issues to a higher level for resolution.

c. Final arbitration on the design and appearance of uniforms, work-wear and personal protection equipment, accessories, accoutrements or insignia and occasions of wear.

d. Providing advice and recommendations to senior management on Naval clothing matters.

e. Providing a focal point for the administration and the co-ordination of design and development by Defence Clothing Team.

3706. **NSCC Membership**

The NSCC Membership comprises key stakeholders to facilitate the varied consultation necessary for policy making:

Chairman:
NAVY NPS EXEC SO1

Members:
NAVY LOG INFRA-OPS SC POL SO1 (Logs Commodities)
NAVY LOG INFRA-OPS SC CPO RN
NAVY NPS EXEC FXO SO2 (Secretary)
NAVY SSM-AW NAVSURF SO2 (Seamanship)
NAVY OCGRM-ACSEC (RM Rep)
NAVY CSAV-AHF SO2 (Fleet Air Arm Rep)
NAVY LOG INFRA-OPS DFLO RFA (RFA Rep)
NAVY MED-PERS POL SO1 (Medical Rep)
DEC DC-CSTCSORN (Operational Clothing)
NAVY OP TRG-CWD EXEC SCTO (Ceremonial)
DMC-OPS PR NAVY SO2 MARKETING (Corporate Identity/Image)
NAVY-PERS-WONS (2SL’s Office)
NAVY PERS-CNPS DandI SO2A (Diversity and Inclusion)
NAVY SSM-AW SW SO2 (SSM CDT Rep)
NAVY SSM-SS E CBRNDC SO2 (CBRNDC Rep)

Advisors – DC Team (Development and Supply Chain performance)

Proposal Sponsors - as required
3707. Royal Marine Clothing Committee (RMCC) Membership

The RMCC is a sub committee of the NSCC, established to consider matters relating to RM Dress Regulations and associated Reservists and Cadet Forces. It provides the NSCC and DC Team with co-ordinated priorities for clothing supply for the RM. RMCC membership comprises:

Chairman
Deputy Commandant General Royal Marines (NAVY LLS-ACOS)

Vice Chairman
NCHQ - SO1 Land Logs (NAVY LOG INFRA-LAND LOGS SO1)

Secretary
RM Corps Sec Coord (Corps Sec Coord)

Members
NCHQ- SO1 RM (NAVY LLS-SO1 RM) <Steve.Crouden642@mod.gov.uk>
NCHQ - SO1 Log Commodities (NAVY LOG INFRA-LOGSPT COM SO1)
Team Leidos Rep
SO2 Clothing Requirement (Def Log-OpsCap-CapJLE-CIth Req 1)
SO2 Capability Management (Cap JLE SO2 Capability Management)
NCHQ RMSTO Land Logs (NAVY LOG INFRA-LAND LOGS RMSTO)
SO2 Band (NAVY RM BAND-HQBSRM SO2 BAND)
CTCRM DLO (NAVY TRG CTCRM-SPTW LOG DLO)
Corps RSM (NAVY OCGRM-CORPS RSM)
RMR RSM (COMMARRES RMR RSM)
Corps Drum Major (NAVY RM BAND-HQBSRM CDM)
CTCRM - First Drill (NAVY TRG CTCRM-SW ISC DL WO1)
RM Corps Sec (NAVY OCGRM-CORPS SEC)
Corps Historian (NAVY POL-NS NHB RM)

Note. Additional members will be co-opted as necessary (which occurs on a regular basis).

3708. Change/New Introduction Proposal Procedures (Clothing)

a. To ensure coherent, consistent policy development that is properly considered and submitted for the necessary level of Senior Management endorsement, all proposals for change or additions to Naval Service Clothing, badges, insignia and/or occasions of wear, including proposed changes to BRd 3(1), are to be formally submitted by sponsors through the chain of command, authorised at AD/DACOS level to the NSCC (via the Secretary). Minimum detail to be included is as follows:

- Description of/reason for the proposal.
- Draft design (for new to Service/change items).
- Anticipated scale (number per person, number of personnel).
- Anticipated initial roll-out quantities and required annual maintenance.
- Estimated unit/total costs and any 'trade-offs' eg. where replacing an existing item.

b. For new to Service or change items, final endorsement will require submission of a Statement of User Requirement (SUR) to the DC Team, via the Fleet Logistics Staff. A SUR template is at Annex 37A which sponsors should use to present their initial proposal. When planning a submission, sponsors should be cognisant of supply chain lead times (simple items such as badges can take a minimum six months to introduce) so it is important to manage expectations at the early stage and defer publication of roll-out plans or 'authority to wear' notices until stock is known to be available. Funding is also an important factor; clothing consumption is a charge to the Navy Command stock budget, submissions that do not offer compensating reductions should be supported by a Resource Change Requirement (RCR) where initial roll-out costs are estimated to exceed £10k.

c. **Maritime Operational Clothing (MOC).** Proposals for new to Service or changes to MOC must be staffed in the first instance through the appropriate Navy Command desk officer (see below). The range of clothing that constitutes MOC are the components of the following:

1. Action Dress - (NAVY SSM-SS E FMEO SO1)
2. Flight Deck Wear - (NAVY CSAV-AHF SO2)
3. Immersion Suits - (NAVY SSM-AW NAVSURF SO2)
4. CS95 and the successor ensemble PECOC – (NAVY LLM-DCC SO2)

CAP AW-MAR PRESENCE retains an interest in MOC and is to be consulted on related change proposals. FCIG/DEC endorsed MOC proposals do not require NSCC approval other than when issues of uniformity and corporate image emerge; however, to maintain coherence, proposals will be reported to the NSCC for information.

d. The NSCC meets biannually, in June and November. Sponsors may submit proposals at any time but no later than six weeks prior to the next scheduled NSCC meeting in order to allow full members to pre-read submissions. At the discretion of the NSCC Chairman, minor or urgent issues may be taken outside the full committee either via ad hoc sub-committee or limited, informal consultation. Sponsors should, however, be prepared to present their proposals to the NSCC meeting if called to do so.
Definitions of Terms

a. For the purpose of Naval Uniform definitions, the term Naval Service is used to indicate the Royal Navy (RN), the Royal Marines (RM), Royal Fleet Auxiliary (RFA), Queen Alexandra’s Royal Naval Nursing Service (QARNNS), Royal Naval Reserve (RNR), Royal Marines Reserve (RMR), Royal Naval Volunteer Band Association (RNVBA), NAAFI, RFA Afloat Support (AFSUP), Combined Cadet Forces Royal Navy (CCF RN) and Sea Cadet Corps (SCC).

b. Accessories. Small articles such as cuff links, worn as additions to various orders of dress.

c. Accoutrements. Items other than garments, accessories and weapons which form part of an individual’s outfit. Examples include aiguillettes and Royal cyphers.

e. Categories of Dress. Indicate classes of uniform designed to support activities ranging from ceremonial and duty, to the action clothing system in the Fleet.

f. Climatic Clothing. Items designed to provide protection from extreme climatic conditions and provided on either personal loan or by temporary issue.

g. Combat Clothing. Disruptive pattern material (DPM) clothing worn by personnel employed in land/field operations and training.

h. Flying Clothing. Operational clothing worn by aircrew.

i. Optional Items. Those items that are authorised for wear in these regulations but which are not provided at public expense as part of outfits or kit scales.

j. Orders, Decorations and Medals. Insignia worn as stars or suspended by their ribbons and worn in accordance with Chapter 44.

k. Officers’ Outfits. Scaled items of clothing and equipment which are initially issued to officers without charge and maintained subsequently by the individual.

l. Ratings’/ORs’ Kit. Scaled items of clothing and equipment which are initially issued to ratings/RMORs without charge and maintained by one-for-one exchange.

m. Specialist Clothing. Scaled clothing and equipment which is retained for the duration of the recipient’s service or until the requirement for it ceases. Examples include Flying Clothing, Boots DMS, AWD and Foul Weather Clothing. It is issued and maintained by replacement at public expense.
n. **Undress.** Uniforms or items worn on less formal occasions. An historic term, now only used in specific instances such as Mess Undress.

3710. **Words and Phrases – Interpretation**

a. **'Shall', 'May' and 'Should'**

   (1) **'Shall'**. Shall be construed as being imperative.

   (2) **'May'**. Shall be construed as being permissive.

   (3) **'Should'**. Shall be construed as being informative only.

b. **'Practicable' and 'Practical'**

   (1) **'Practicable'**. Shall be construed as physically possible.

   (2) **'Practical'**. Shall be construed as reasonable in the circumstances.

3711. **Orders of Dress**

   Clothing is divided into the following orders, each of which may have three or more subdivisions in order to provide variations of the basic rig more suited to specific occasions or conditions.

a. **Ceremonial Uniform (No 1).** Uniform worn on formal occasions with orders, decorations, medals and other ceremonial accoutrements and accessories as appropriate for the particular occasion.

b. **Evening Uniform (No 2).** Evening dress and undress uniforms worn at naval, military and appropriate civilian functions.

c. **General Duty Rig (No 3).** Working uniform which meets the everyday standards of the Naval Service for semi-formal and informal occasions.

d. **Action Working Dress (No 4).** Functional, protective working dress worn at sea, in naval bases and in air stations. Combat clothing is the Royal Marines equivalent.

e. **Occupational Clothing (No 5).** Clothing worn by those working in specific occupations such as nursing, catering, fire-fighting who require safety equipment and unique clothing to carry out their tasks.

CHAPTER 38

POLICY AND APPEARANCE

SECTION 1 - DRESS POLICY

3801. Authorised Uniforms

a. The uniforms, accoutrements, accessories, insignia, optional items and orders of dress set out in these regulations are those authorised for wear, as appropriate, throughout the Naval Service.

b. Tables of dress and their occasions for wear are detailed and illustrated at the Annex 39A and Annex 40A. Dress for Joint Service ceremonial occasions is detailed in Chapter 43.

3802. Outfit and Kit Scales

a. All Naval personnel shall be provided, on entry, with clothing and equipment to the authorised entitlement, as laid down in the scales of issue at the Annexes to Chapter 39 and Chapter 40. Individuals are personally responsible for the care and custody of all items of clothing, including accessories and accoutrements, issued to them. They are to maintain them and have them available for use at all times.

b. Any Naval Service individual (Officer or Rating/Other Rank) who undertakes Gender Reassignment will be entitled to a gratuitous issue of a complete outfit of uniform (as in Para 3802 sub para a above) appropriate to their acquired gender, including any necessary equipment items. The exact timing of the issue is to be agreed between the individual’s Career Manager and Commanding Officer and a request form is to be raised by and signed by the individual’s DO for a complete re-issue. Further advice may be sought from Navy Command HQ D&I Policy staff.

c. Major components of uniform such as trousers and jackets shall not be interchanged or mixed and shall only be worn with the order of dress for which they are intended; eg. uniform items of No 3s and No 4s are not to be worn together. Some accessories and accoutrements such as shoes, socks, belts, raincoats, gloves and shirts, however, may be worn with several orders of dress.

3803. Optional Items

Certain clothing items and accoutrements are authorised for optional wear, provided that they are not obtained at public expense.

3804. Master Patterns and Specifications

a. To ensure uniformity and quality of dress, all Naval clothing items whether issued through the supply system or purchased from civilian tailors shall be made according to the approved master patterns which govern the official specification for each clothing item. The necessary specifications may be obtained from Defence Clothing (DC) Team.
b. Naval Service personnel shall not wear any item of dress which does not conform to approved patterns or which has not been authorised for wear on an optional basis or ordered for wear in the specific user trials.

3805. Alterations and Modifications

Items of clothing shall not be altered or modified except in order to obtain a reasonable fit. The cost of correcting or replacing any items of clothing that have been altered or modified without proper authorisation shall be borne by the individual.

3806. New and Superseded Items

Whenever an item of clothing in a new pattern is authorised and introduced, an amendment to these regulations shall be implemented by Navy Command HQ. The amendment will include the conditions under which the obsolete or superseded items may continue to be worn and the procedure for taking the new item into use.

3807. Supply and Issue

a. Supply and issue of the various items of Naval Service clothing shall be in accordance with current accounting regulations set out in JSP 886 (Defence Supply Chain Manual).

b. Specialist Clothing scales are issued by DES DC-CSTCSORN to individual units.

3808. Wearing Of Uniform

a. Unless otherwise directed, all Officers, Ratings and Other Ranks shall wear uniform:

(1) As prescribed, when on duty.

(2) As required when serving as a Naval or Defence Adviser or Attaché.

(3) As required when serving with the Armed Forces of other countries.

(4) If desired, in public using the guidelines laid down at Para 3809.

b. Members of the Reserves shall wear uniform when:

(1) On duty.

(2) Attending a function or ceremony at which the wearing of uniform is appropriate.

(3) If desired, in public using the guidelines laid down at Para 3809.

(4) Acting as RNR Liaison Officers in the WWE, NE, SNI and EE regions when undertaking a Military Support and/or Resilience Function in which uniform and rank is particular important.
c. Naval Service personnel attending civilian educational institutions such as universities shall not normally wear uniform unless participating in training exercises, parades or functions.

d. Application to wear uniform whilst on leave outside the UK shall be made through the appropriate Chain of Command.

e. Certain civilians employed by the Ministry of Defence, such as non-industrial personnel serving in RFAs and some overseas exchange appointments as well as accredited war correspondents, may wear appropriate uniform, as authorised by the relevant administrative authority.

f. Former members of the Naval Service may wear uniform on state or other occasions of ceremony, provided it is in the best interests of the Service to do so. It should be noted that it is illegal for anyone who is not a former member of the Naval Service, the proof of which lies upon the individual, to:

   (1) Wear a Naval or any other uniform that is so similar to the real uniform that it might be mistaken for it.

And

   (2) Wear a distinctive mark relating to service performed, wear a service medal, ribbon, badge, decoration/order or imitation thereof, or any other that is awarded for campaign service or any imitation thereof, that is likely to be mistaken for any such mark, medal, ribbon, badge decoration or order.

g. Royal Naval Volunteer Band. Members of Royal Naval Volunteer Bands, who are not themselves serving members of any Military Service or other non-military uniformed Service such as the Police/Fire Brigade etc, may wear a uniform as laid down in Annex 39F when on Service recognised band engagements, given they are representing the Royal Navy in the Public Eye. Furthermore:

   (1) Retired officers and ratings who are members of an RN Volunteer Band may, at the discretion of the VBO, wear uniforms according to the rank held on retirement.

   (2) Any retired officer or rating who finds themselves required to wear uniform is to uphold the values and standards expected of the Naval Service in the public eye. Uniform is to be maintained in good order, and the individual must conform, in full, to the current dress and appearance standards expected of serving members.

h. RN Personnel Employed in Joint Operations. Members of the RN/RM who are employed in Joint Organisations and who are under a non-RN/RM Command are to wear only RN/RM uniform and accoutrements. Under no circumstances should an RN/RM serving member wear uniform/headgear of another Service. Local tactical badges/flashes, however, may be worn.
3809. **Wearing of Uniform in Public**

The Navy Board strongly encourages the wearing of Uniform in Public, taking into account the security advice. In doing so it is clear that the highest standards of dress and bearing are required. It is therefore incumbent upon all those wearing uniform to be aware that it is their duty not to bring the Service into disrepute as a result of their demeanour or actions, or otherwise to impact adversely on the efficiency or reputation of the Armed Forces.

3810. **Wearing of Uniform in Foreign Countries**

a. This regulation does not apply to individuals or units serving with a British Force or mission etc where specific regulations will apply.

b. Service personnel, on or off duty, may wear uniform in foreign countries at Commanding Officers discretion. In addition, individuals must:

   (1) Obtain permission from the local British Embassy of High Commission.

   (2) Observe all relevant security instructions and requirements, including travel to and from the foreign country concerned.

3811. **Uniformity in Dress**

When taking part in a Joint Service parade or function, Naval Service personnel shall be required to wear the equivalent order of dress, in line with the other Services, as laid down in the Joint Services Ceremonial Dress Tables (JSCDT) at Chapter 43 and promulgated before the event.

3812. **Wearing of Civilian (Plain) Clothes**

a. Civilian (plain) clothes shall be worn as directed when on duty in the Ministry of Defence and on other occasions when appropriate. Naval Service personnel in plain clothes shall present a neat and well-groomed appearance in accordance with the provisions of this Section.

b. Marks of respect are to be paid when wearing plain clothes in accordance with BRd 1834, RN Ceremonial and Drill.

c. The Naval Service Identity Card, MOD Form 90, must always be carried when wearing plain clothes.

d. Visible civilian items of apparel shall not be worn with uniform except where specifically authorised in these orders. Similarly, items of uniform shall not be worn with civilian attire except for items such as gloves, which do not explicitly identify the wearer as a member of the Naval Service.

e. The kilt, (Scottish, Irish, Welsh, Cornish, Manx), with appropriate socks, shoes and accoutrements, may optionally be worn by entitled male officers, Warrant Officers and Senior Ratings when attending mess functions at which Number 2B or 2BW dress is ordered. Entitled female officers, Warrant Officers and Senior Ratings may wear equivalent long skirts. As they are not part of official uniform, in common with mess boots and boat cloaks, kilts will not be provided at public expense.
f. Civilians may wear items of uniform such as caps and berets with badges in public displays, performances and special events provided that it is not to the detriment of the Naval Service. In particular:

(1) By custom, ex-service personnel may wear caps or berets with badges on remembrance and memorial occasions.

(2) Historical re-enactment groups and staff in preserved historic ships are to be authorised to wear obsolete uniforms.

g. Chaplains in the exercise of their religious duties may wear ecclesiastical and academic clothing as appropriate over, or in lieu of, uniform.

3813. Royal and Honorary Ranks and Appointments

a. Members of the Royal Family holding royal and honorary appointments in the Naval Service shall receive an initial issue of uniform at public expense.

b. An Officer holding such an appointment or honorary rank is authorised to wear the current uniform, rank insignia, accoutrements and accessories applicable to that appointment or rank.

c. Number 1 dress is to be provided, on request, from the existing DC Team contract. Lesser orders of dress may be obtained on temporary loan, but Mess Undress must be provided by honorary appointees at their own expense.

3814. Wearing of Maternity Uniform (Fig 38-1a and Fig 38-1b)

a. The aim of maternity uniform is to provide a professional, smart and yet comfortable alternative to regular uniform that can be worn throughout pregnancy. The wearing of maternity uniform by pregnant Naval Service personnel is compulsory when they can no longer fit comfortably into their service uniform. The only exception is when written authority is given by the Medical Officer for a servicewoman to wear plain clothes for medical reasons. On occasion it may be necessary for certain conditions or occasions to be assessed by the pregnant servicewomen’s Chain of Command (CoC) in order to adopt an appropriate ‘equivalent’ state of dress. In these circumstances, common sense must prevail and further guidance beyond these regulations can be obtained from the regional Maternity Cells.

b. Pregnant Service personnel will be allowed some flexibility as to how they wear their maternity uniform. The individual garments (dress, trousers, short sleeve shirt and cardigan) may be worn in any combination. Shirts are to be worn outside trousers. The short sleeve shirt is to be worn open necked without a tie. The maternity uniform will routinely be worn with the usual service insignia of rank/rate badges (including regulating crown for RN Police), hosiery, shoes and headdress. No mixed wear of items of standard and maternity uniform other than these insignia/accessories is allowed. A white dress is available for those in clinical appointments. The following guidance is given for Line Managers:
1. Headdress. Certain pregnancy conditions may be exacerbated by the wearing of headdress. Pregnant servicewomen may request, through their CoC, to their CO (or equivalent), to be exempted from wearing headdress, or to limit the amount of time it is worn.

2. Footwear. Foot and ankle swelling can be common in pregnancy, making the wearing of standard service footwear uncomfortable. In such cases, pregnant servicewomen may request to wear non-issue shoes. Shoes must be of plain design (no details or external stitching), black, flat ‘ballet pump’ or low-heeled style.

3. Ceremonial or Formal Occasions. Pregnant servicewomen are not to be excluded from any event as a result of them wearing maternity uniform. When No1 or No2 dress or equivalent is ordered, a pregnant servicewoman may wear her blue maternity dress or request to wear smart civilian maternity attire where it is deemed more appropriate to the occasion. The wearing of civilian maternity wear on duty remains entirely at the discretion of the Unit CO or equivalent.

c. Individual Female Officers and Ratings (including Maritime Reserves) are issued with a maximum of 4 ‘tops’ in a combination of dress, short sleeve shirt and trousers, plus cardigan. Combinations available are:

(1) 4 dresses.
(2) 3 dresses, 1 shirt, 1 pr trousers.
(3) 2 dresses, 2 shirts, 1 pr trousers.
(4) 1 dress, 3 shirts, 1 pr trousers.
(5) 4 shirts, 2 prs trousers.

d. Female Nursing/Dental Staff may opt for 4 clinical white dresses or the combinations detailed in sub para c above.
Fig 38-1a. Wearing of Maternity Uniform

Fig 38-1b. Wearing of Maternity Uniform
3815. **Sea Cadet Corps**

a. Senior Ratings in the Sea Cadet Corps may, exceptionally, wear the uniform(s) of their equivalent RN Senior Rating provided that all such uniforms bear ‘Sea Cadet Corps’ flashes in a prominent position. The wearing of such uniforms does not confer on SCC senior ratings other rights and privileges that might normally be accorded to regular RN or Royal Navy Reserve personnel unless stated elsewhere. The entitlement to wear uniform is in the form of a concession from the Ministry of Defence and confers non-Crown Servant status - either military or civilian - on the wearer.

b. Senior Ratings in the Sea Cadet Corps should only wear uniform when:

1. On duty.
2. Attending a function or ceremony at which wearing of uniform is necessary.

3816 **Special Measure Uniform**

Special measure uniform is only to be authorised when there is discernable evidence that the change in physical size is attributable to either natural growth or a physical fitness change in muscle bulk. Other requests for special measure should firstly be referred to the local Medical Officer.

3817. **General**

a. The deportment, appearance and conduct of Officers and Ratings/Other Ranks, whether in uniform or in plain clothing, shall on all occasions reflect credit on the Naval Service and upon the individual. It is the responsibility and duty of all those in authority to ensure that the policies, regulations and instructions contained herein are to be adhered to. When transiting in uniform Service personnel are not to eat, smoke (including e-cigarettes which the MOD considers the same as traditional cigarettes), drink or use mobile phones; there are areas designated for these activities in all ships and/or military establishments.

b. **Smart and Presentable Appearance.** Officers and Ratings/Other Ranks in uniform shall be well groomed with smart and properly pressed uniform and clean footwear. In particular, buttons, fasteners and zips shall be kept closed; pockets shall not be bulged; personal items such as glasses, sun glasses, pens, pencils, key rings, Bluetooth Headsets, iPods or papers shall not visibly protrude from pockets nor be suspended from waist belts or pockets. Mobile telephones or bleepers, personal radios, tape or CD players and other such electronic equipment, shall not be visibly worn, or operated except when provided from Service sources for the performance of a specific duty where their ready accessibility is required. Service personnel in uniform are not to use their mobile phones when transiting in Ships and/or military establishments.
c. **Jewellery.** Apart from wristwatches and cuff links where appropriate, no jewellery, friendship bracelets or visible chains (including bracelets, necklaces and anklets) are to be worn with uniform other than those listed below. Wristwatch straps and cuff links are to be non-garish and conservative by design (see also Para 3821 sub para v):

1. Signet, engagement and wedding rings for male personnel.

2. Signet, engagement and wedding rings, and a single small plain silver or gold sleeper or stud (not more than 6mm in diameter) earring in the centre of each earlobe for female personnel. Conservative pearl studs may be worn with No.2 Mess Dress/Undress.

3. When in Ward Dress a wedding ring is the only item of jewellery permitted to be worn by QARNNS personnel.

4. A single charity wristband may be worn by personnel in working uniform but not in No 1 uniform. Due consideration must be made with regards to the health and safety of individuals working in places where the wristband could become a snagging hazard. In accordance with QRRN, it remains for the Commanding Officer to decide upon the overall suitability of any particular wristband.

d. Local Orders for Royal Guards or other occasions of major ceremony may further limit items of jewellery to be worn.

e. **Body Piercing**

1. Other than those items detailed at Para 3817 sub para c above, no form of jewellery is to be worn on the body. Even where a part of the body has been pierced or prepared, whether for any ring, stud or sleeper, no such items are to be worn when in uniform or on duty. Body piercing does not include the piercing of the earlobe for the wearing of a stud or sleeper.

2. Any scarring, such as that caused by a ‘flesh tunnel’ or other body decorations, injury, infection or illness caused as a result of body piercing, or through the wearing of any form of body jewellery (other than that permitted in these regulations), and with the exception of any minor legacy scarring acquired prior to enlistment, will be deemed to have been self-inflicted and will be dealt with as a disciplinary matter which may ultimately lead to an Administrative Discharge if any of the criteria at para g sub para (2) cannot be met.

3. For clarification, a ‘Flesh Tunnel’ is that specific form of self-inflicted scarring which occurs following the insertion of (usually) every increasing in size circular ‘stretchers’ which, over time, produce a larger and larger earlobe. When such stretchers are removed, a large and visible hold (the flesh tunnel) remains.
f. Similarly when in plain clothes, the wearing of body jewellery and trinkets whilst on board or on duty is not permitted, nor at any other time when likely to reflect adversely upon the Naval Service. Body jewellery represents a risk to individual safety in the event of an incident.

g. Body Art (Tattoos and other forms including Scarification and Flesh Tunnels)

(1) Following a recent review, the service tattoo policy has changed. In recent years there has been an increasing number of NS personnel with 'ineligible' tattoos on visible areas, especially on hands (already allowed in the RM). Easing the restrictions on tattoos for both potential recruits and serving personnel, whilst maintaining professional standards, is entirely consistent with overall Diversity and Inclusivity policies as well as reflecting the society that the Naval Service lives in and protects.

(2) Tattoos and all other forms of body art (including scarification, flesh tunnels and any other deliberate body scarring) are now deemed unacceptable if they are judged by the Commanding Officer, or at the recruiting stage by the Recruiting Officer, to meet any one of the following criteria:

(a) If they are visible on a front view passport photograph taken whilst the subject is wearing an open necked polo shirt style shirt with one button undone; that is on the face or throat area, on the front of the ear or forward of a line from the bottom of the ear to the collar bone.

(b) Irrespective of its size or position on the body, a tattoo will be obscene and unacceptable if it refers to or depicts an image of:

   (i) A sexual act.

   (ii) Extreme pornographic behaviour.

   (iii) Violence of any kind.

   (iv) Drugs.

   (v) Racism.

   (vi) Political views.

(c) Irrespective of its size or position on the body, a tattoo will be offensive and thus unacceptable if, by its nature, it has the purpose or effect of violating another person’s dignity or creating an adverse environment for others (for instance because it refers to or depicts an image relating to a protected characteristic of gender, sexual orientation, race, religion, disability or age). A tattoo should only be considered to have such an effect if, having regard to all the circumstances, it can be viewed as offensive by an objective standard.
(d) Any tattoo which does not meet one or more of the criteria above but which, in the opinion of the individual’s Commanding Officer or a Recruiting Officer, is nevertheless, by virtue of its size, position or nature, unacceptable and detrimental to the Service, for example, a message or inappropriate image on the hand which would be seen when saluting.

(e) In the specific case of tattooed eyebrows, these are permitted provided that in the opinion of the Commanding Officer or Recruiting Officer they appear as two discrete eyebrows and are deemed suitably realistic and inoffensive.

(f) A flesh scar or small flesh tunnel may be possible to be covered in order to allow the healing process to occur, however any scar or flesh tunnel which does not heal will need to be considered in accordance with the conditions above and may ultimately lead to Administrative Discharge.

(3) Serving personnel who presently have tattoos, scars or a flesh tunnel which contravene the regulations will be dealt with on a case by case basis by the chain of command who will make a judgement based on when the item was acquired and under what circumstances. Personnel acquiring tattoos, scars and flesh tattoos that contravene the Service policy set out at Para 3817.g sub para (2) will be invited to have their tattoos removed at their own expense or for a flesh tunnel to ‘close’. Acquisition of tattoos, scar or flesh tunnels in contravention of the regulations and policy will result in disciplinary action and subsequent failure to remove them is most likely to result in administrative discharge after an appropriate period on warning.

(4) Further guidance and visual reference for permitted tattoos in the Service can be found at Annex 38B.

3818. Male Personnel

a. Hair. Hair shall be neatly groomed; taper trimmed at the back, sides and above the ears to blend with the hairstyle. On the top of the head it shall be no more than 15 cm in length and sufficiently short at the front and sides that when the hair is groomed, and headdress removed, no hair shall touch the ears or fall below the top of the eyebrows. It shall be kept above the shirt collar. Cultural and religious exceptions are described at Para 3826 and Para 3827.

b. Hair shall be no greater than 4 cm in bulk at the top of the head, with the bulk decreasing gradually from the top and blending with the taper-trimmed back and sides. Bulk is defined as the distance that the mass of hair protrudes from the scalp when groomed, as distinct from the length of the hair. Styling shall not present an exaggerated or non-conformist appearance, nor shall it interfere with the proper wearing of headdress. Excessively short hair can detract from a smart and well-groomed appearance; it may be permitted, however, at the discretion of the Commanding Officer. Unnatural hair colours (ie. those colours that are not within the colour range of the individual’s natural hair colour) are not permitted.
c. **Sideburns.** Sideburns shall not extend below the ear lobe, shall be of even width, and shall be taper trimmed and squared off to conform to the overall hair style. Sideburns for RM Personnel shall not extend below halfway down the ear.

d. **Beards and Moustaches.** The Commanding Officer may permit all Naval Service (except RM) male personnel to request to wear full set beards. RM male personnel may wear moustaches at their discretion. Beards and moustaches shall be kept neatly trimmed especially, in the case of beards, at the lower neck and cheekbones. It is within the subjective judgement of the Command (and delegated representatives, namely the Executive Dept and all personnel in positions of authority (LH/LCpl and above)) to define an acceptable appearance of a beard or moustache, as much depends on the features of the individual. However, as a guide the following characteristics are not acceptable:

(1) **‘Designer Stubble’.** Designer stubble is assessed as any beard length shorter than Grade 1 (2.5mm).

(2) **Beards of Uneven Growth (eg. ‘scrappy’).** The definition of ‘scrappy’ remains within the subjective judgement of the Command (and delegated representatives, namely the Executive Dept and all personnel in positions of authority (LH/LCpl and above)).

(3) **Extended or ‘hipster’ Beards or ‘handlebar’ Moustaches.** Extended or ‘hipster’ beards or ‘handlebar’/extended moustaches are not appropriate. The maximum acceptable length of a beard is to be Grade 8 (25.5mm).

(4) **Beards Taking Excessive Time to Grow.** The definition of an ‘excessive amount of time to grow’ remains within the subjective judgement of the Command (and delegated representatives, namely the Executive Dept and all personnel in positions of authority (LH/LCpl and above)). The advised maximum time for an individual to grow a sufficiently thorough beard is 2 weeks.

(5) **Religious or Faith Reasons.** Where facial hair is grown as a tenet of a faith by a genuine adherence to that faith, it may be grown in excess of the limit described above at para (3). Such facial hair may require to be trimmed, however, or be tied up or removed if it undermines the health and safety of the wearer or others in the unit, or if it undermines the operational effectiveness of the unit. Any faith or practice must be clearly established by an individual and not simply deemed as having been undertaken in order to defy the regulations contained within this BR.

e. When the safety of an individual might be jeopardised by his beard or moustache, such as in the wearing of oxygen or gas masks, it shall be modified in such a fashion as to accommodate the type of equipment to be worn.
(1) **CBRN Threat.** The Commanding Officer retains the authority to determine the requirement for an individual to shave, based on the Operational requirement at that time. Once ARTS testing has been completed, COs **ARE** to order the shaving of beards when the CBRN threat level is MEDIUM or higher. Other occasions, such as Operational Sea Training and/or similar exercises, in which the CBRN threat is LOW will not warrant the requirement to shave. If the individual refuses to modify their facial hair (or headdress) to the extent necessary to maintain their own safety and Operational Capability, then they **may** be disciplined. Should they continue to refuse, commanders should consider not deploying that individual into theatre or removing them from theatre if already deployed. Disciplinary action and non-deployment are in extremis measures that should be adopted incrementally.

(2) **Royal Naval Air Stations.** In accordance with the instructions of the Chief Fire Officer, all Naval Aircraft Handlers employed at RNAS fire stations, or involved with fire-fighting training at the RNSFDO, are to be clean shaven.

f. Beards or moustaches shall be shaved off if the conditions of Para 3818 sub para e cannot be met.

g. In addition to the guidance at Para 3818 sub para e, the Command may order individuals to shave off beards deemed inappropriate for a Service Parade of any nature.

h. Beards should be of a length that does not extend beyond the top part of the collar front of a service shirt. More specifically, if the Naval serviceman was wearing a shirt and tie, the beard would not obscure the knot of the tie. The breadth of the beard should not exceed the maximum width of the line between the Naval serviceman’s ears.
3819. Female Personnel

a. **Hair.** Hair shall be kept neatly groomed and shall not extend below the lower edge of the shirt collar. Long hair should be worn up and properly secured in a neat and tidy fashion using grips, hairpins, nets and conservative scrunchies (in both size and colour) where appropriate. Varying styles of hair, straight or curled, are permitted within these limits but unnatural hair colours (ie. those colours that are not within the colour range of the individual’s natural hair colour) and exaggerated styles, including those with excessive fullness, shortness or extreme height, are not permitted. In no case shall the bulk or length of the hair detract from a smart and well-groomed appearance or preclude the proper wearing of naval headdress. Hair ornaments (including combs and Alice bands) shall not be worn. Every effort shall be made to ensure that grips, hairpins, scrunchies and nets used to secure the hair are as unobtrusive as possible and are to be as near as possible to the colour of the hair. Hairstyles shall be secured or styled back from the face; this includes corn braids/corn rows, which should be simple in design without beads or other adornments. Ratings with long hair may wear it in a ‘pony tail’, secured with a non-synthetic (ie. not man-made fibre) tie when forming part of an emergency party so that breathing apparatus can be donned quickly without the need to remove hairgrips. This relaxation also extends to ratings off duty in their mess decks. Cultural and religious exceptions are described at Para 3827 and Para 3828. Female personnel with hair loss may wear a wig which conforms to the hair rules described above and where not possible, for example during strenuous physical exercise or fire-fighting, may, at their discretion, wear a plain headscarf in a colour appropriate to the uniform being worn. When conducting fire-fighting duties, the headscarf should be of non-synthetic material (ie. not man-made fibre).

b. **Make-up.** When wearing uniform, or plain clothes on duty, make-up must be discrete. This shall preclude the use of false eyelashes, heavy eyeliner, brightly coloured eye shadow, and excessive facial make-up.

c. **Fingernails.** Fingernails are to be kept neatly trimmed and are not to be of an excessive length. No coloured nail polish (ie. clear French polish only, no nail art) is to be worn. False nails are prohibited.

3820. Glasses and Sunglasses

a. Both glasses and sunglasses shall be of conservative design and colour. Carrying cases shall not be visibly carried in or on uniform dress. Personnel who normally wear glasses may wear either conventionally framed prescription sunglasses or conservatively styled clip-on sunglasses when conditions and circumstances dictate. Sunglasses and reactive style glasses are not permitted on ceremonial parades.

b. Mirrored lenses or half silver mirror are not to be worn by personnel in uniform.
3821. **Wearing of Clothing Items**

a. **Peaked Cap.** The cap shall be worn square on to the head with the tip of the peak in line with the eyebrows. The seam of the woven band, on which the cap badge is sewn, shall be in line with the seam inside the back of the cap. The centre of the cap badge shall be in line with the seam at the front of the cap cover.

b. **Cap Covers.** Cap Covers shall be white plastic. Officers only are permitted to wear cotton cloth cap covers in normal daily wear but shall only wear plastic cap covers on Ceremonial Parades and Reviews.

c. **Brown Leather Gloves.** Brown leather gloves are intended for wear by Officers and Warrant officers with greatcoats only. They shall not be worn on Ceremonial occasions unless specifically ordered by the Senior Officer. However, an Officer of the Guard shall wear brown leather gloves when the occasion requires the ratings of the Guard to be wearing white gloves.

d. **White Gloves.** White cotton gloves will be worn by ratings forming a Guard and on other ceremonial occasions when ordered and issued. An Officer will only ever wear white gloves when parading as the Queen’s Colour Officer in a Guard of Honour or Street Lining detachment irrespective of time of year.

e. **Tricorn Hat.** Tricorn hats are to be worn square on the head with the brim parallel to the ground and with no hair showing.

f. **Seaman’s Cap.** The seaman’s cap is to be worn square on the head in both male and female versions. The central letter on the cap tally (including the letters HMS where present) is to be over the bridge of the nose; the bow is to be tied smartly to sit above the left ear. Chin stays when down are to fit flat to the face and pass just in front of the ears.

g. **Beret.** The beret shall be worn evenly on the head, with the sweatband 2.5 cm above the eyebrows, the badge centred over the left eye, and the crown pulled downward to the right. The break of the sweatband shall be worn centred at the back of the head, with no drawstrings visible. All Naval Service personnel entitled to wear a green beret may do so in lieu of a blue one where appropriate.

h. **Turban.** The turban and cap badge or cap tally are to be worn as detailed in Para 3826 sub para c, Para 3826 sub para e and Annex 38A.

i. **Jackets and Class II Jumpers.** Jackets and Class II Jumpers shall always be worn fully buttoned or zipped up. Elasticated drawstrings are to be pulled tight and cut to length.

j. **Ties.** Ties shall be knotted neatly and shall be kept tight at the collar. The tie shall not be tucked into the shirt where a jacket or jersey is not worn. Tie pins are not permitted other than the crown pin worn by Service Police Petty Officers and a miniature Submariner Specialisation badge worn by appropriately qualified Submariners. Knitted ties are not permitted on Ceremonial Parades.
k. **Belts and Clasps.** Belts and clasps are to be service issue only, badge or shield type clasps are not permitted (Fighting arm clasps are acceptable).

l. **Jersey.** Jerseys shall be worn with the sleeves rolled down and with flap covering any pens or pencils that might be carried in a pen pocket. When worn over a shirt with a tie the tie knot is to be plainly visible. When worn over an open necked shirt by JRs only, the shirt collar is to be worn open outside the jersey.

m. **Skirts.** The skirt is to cover the kneecap, but shall not extend further than 5cm below the bottom of the kneecap.

n. **Underwear.** White or skin coloured underwear conservative in nature is to be worn underneath white shirts, white PT shorts and at all times when wearing tropical uniform.

o. **Hosiery.** All female personnel wearing blue uniform skirts shall wear plain black tights or stockings. Tights and stockings are not to exceed 15 denier.

p. **Footwear.** Footwear shall be kept clean and polished at all times. Court shoes; height of heel is not to exceed 2 3/4" or 6.5 cm and not be stiletto. Court shoes are to be worn only with skirts.

q. **Ceremonial Greatcoats.** Ceremonial Great coats are worn when ordered between 1 Oct and 30 Apr and will be issued from HMS EXCELLENT stores when approved by SCTO. Ceremonial greatcoats are to be buttoned to the neck when worn by officers and ratings; shoulder boards are to be fully sewn to the coat.

r. **Raincoats, Greatcoats (Non-ceremonial) and Waterproof Jackets.** Only Foul Weather Jackets, Greatcoats and, when appropriate, MTP waterproof jackets should be worn. All other legacy variants of raincoats and windproof jackets are obsolete and should not be worn. Garments need not be buttoned or zipped fully to the neck, but should present a smart appearance at all times. Elasticated drawstrings are to be pulled tight and cut to length. When carried, coats are to be draped over the left arm. Hoods, if fitted, are not to be deployed unless in extreme weather conditions, at the discretion of the Command.

s. **Handbags.** Service issue handbags may be carried by female personnel but may not be carried by those fallen in as part of a formed body. Civilian handbags may be used that are of a plain black conservative design.

t. **Handkerchiefs.** Pocket handkerchiefs may be worn with No 1 uniform but must not be worn on Ceremonial Parades. Colours must be conservative and plain.

u. **Umbrellas.** Umbrellas may not be used routinely with uniform in wet weather but may be permissible in certain VIP circumstances.

v. **ID Card Holder Lanyards.** ID Card holder lanyards should be no wider than 15mm, predominantly dark blue in colour and of a non-garish nature. Lanyards from other organisations should not be worn unless serving as a member of that organisation.
w. **Cummerbunds.** Ships’ cummerbunds may be worn in Red Sea Rig or in lieu of black waistcoats when wearing 2B Mess Undress, at the discretion of the Command.

x. **Baseball Caps.** Baseball caps may be worn at Commanding Officer’s discretion (at sea only).

y. **Backpacks/Rucksacks.** Backpacks/rucksacks should be predominantly black or dark blue and free from distinctive insignia other than the RN logo.

z. **Name Badges.** The approved RN design name badge shall be worn on the bottom half of the tie in No 3A and over the left breast pocket on No 3B uniforms. Name tapes are provided over the left breast pocket on No 4 (AWD) and No 4 (RNPCS) uniforms. Name badges will not routinely be worn on No 1 uniform, however Commands may locally authorise the wearing if they aid identification (eg. at Receptions, Meet the Public days etc).

aa. **Poppies.** Poppies may be worn to commemorate the National period of Remembrance from the time they become available until the day after Remembrance (Armistice) Day. Only official Royal British Legion poppies are to be worn in uniform. Poppies are not worn by those on parade at the National Cenotaph Parade in London. Poppies are to be worn:

1. Officers and all ranks – with greatcoats on the left lapel if lapel down or pinned to the left breast if lapel is buttoned up.

2. Officers, WO and SRs – on the left lapel buttonhole of No 1 uniforms.

3. Officers and all ranks – Secured to the left breast of the blue wool jersey.

4. Officers and all ranks – secured to the left breast pocket of short sleeve shirts or the tie when wearing long sleeve shirts, when in No 3s.

5. Officers and all ranks – secured to the left breast of RNPCS shirts at the outboard end and slightly above the name tape.

6. Junior ratings – all ratings below Petty officer dressed as seamen, all Royal Marines and QARRNS to wear the poppy on the left side of the cap or hat, and with berets beneath the beret badge.

bb. **Cufflinks.**

1. No 1/2s - Plain silver, gold, ship’s own or Service related (conservative).

2. No 3s - Plain silver, gold, ship’s own or Service related (conservative).
3822. QARNNS, RNR, RMR and SCC/CCF(RN) Officers and Ratings/Other Ranks

Apart from the differences in rank/rate and distinguishing insignia detailed in Chapter 39 and Chapter 40, Reserve and Cadet personnel should wear the same uniform as regular Service personnel.

3823. Wearing of MTP in the Naval Service

a. Naval Service personnel should wear Naval Service uniform unless there are compelling environmental reasons to wear MTP. In this context, General Duty Rig (No 3s) or Personal Clothing System/Action Working Dress (No 4s) is the normal working rig for RN personnel whilst No 3A/3C 'Half Lovats' or No 3B Training Rig (MTP) is appropriate for RM personnel.

b. **RN Personnel.** The operational/working rig for RN personnel is to be No 3s or PCS (No 4s) as directed locally, supplemented as required by service overalls/coveralls. Exceptionally, MTP may be drawn/task issued for wear as follows:

   1. Operations ashore where the operational commander judges:
      1. MTP is essential.
      2. When the distinction of Naval uniform represents an increased risk to the individual.
      3. In extremely hot climatic conditions (the definition of which is a matter of judgement for the Command but, as a guide, temperatures in excess of 29 degrees C would be assessed as appropriate).

   2. Operational Training, Exercises and Adventurous training in the land environment.

c. **RM Personnel.** No 4 dress for RMs is MTP and the nature and diversity of tasks conducted in operational units and CTCRM make it difficult to define precisely when activities should be completed whilst wearing No 3A/3C 'Half Lovats'. In principle, the dress for operational, training and manual work for RM personnel is to be MTP. MTP may also be worn by members of the Joint Force Headquarters held at Extremely High Readiness. Other than in the circumstances above, the working dress for RM is to be No 3A/3C 'Half Lovats'.

d. Changes to this policy should be submitted in accordance with Para 3708 of this publication for consideration by the Naval Service Clothing Committee.

e. The policy for wearing MTP for all Royal Navy personnel is as follows; it does not cover operational theatres where local Command policy applies:

   1. Combat jackets are to be worn tucked inside the combat trousers (exceptionally, if environmental conditions make it necessary COs have discretion to allow the jacket to be worn outside the combat trousers).

---

UNCONTROLLED WHEN PRINTED
(2) Belts (blue) issued with OPTAG kit are to be worn with the trousers.

(3) Sleeves are to be rolled up to just above the elbow.

(4) Service issued brown T shirts may be worn under the combat jacket.

(5) Rank/Rate slides (Multi Terrain Pattern) are to be worn on the front of the combat jacket and windproof smock.

(6) A ‘ROYAL NAVY’ flash is to be worn on both sleeves of the combat jacket and smock; the flash is to be attached centrally with the upper edge 7mm below the shoulder seams.

(7) Tactical Recognition Flashes (TRF) may be worn as directed by Force Commanders.

(8) If scaled for and held by the individual the windproof smock may be worn in inclement weather. No belt is to be worn over the smock.

(9) When personnel are engaged on tasks that entail high levels of physical activity, particularly at higher temperatures, local Commanders have discretion to allow the jacket to be worn un-tucked; similarly, local Commanders may choose to allow the T shirt to be worn without the combat jacket.

**Notes:**

1. On all occasions of wearing MTP, WO1s RN are to wear the Service issued brown wrist strap.

2. Royal Navy Police (RNP). Dependent on theatre of operations, RNP personnel are authorised to wear the Military Police (MP) badge (see Fig 39E-15c) on the right sleeve only and it is to be worn in addition to the black on green “Royal Navy Police” shoulder flashes (see Fig 39E-15d) and Para 3923).

3. On all occasions of wearing MTP, Masters at Arms wear a badge comprising laurel leaves supporting a crown as a brassard on their right wrist with brown wrist strap (in place of the white wrist strap).

3824. **Wearing of Uniform by Former Members of Naval Service**

This article does not apply to Officers of Flag Rank, nor retired Officers and ratings subsequently employed on duties within the Maritime Reserves. Retired Officers and ratings shall not normally wear uniform once they have left the Service. Exceptionally, retired Officers and ratings may wear uniform at a Remembrance Day Service if specifically requested to do so and if there is no other Naval Service representation. Any retired Officer or rating who does find themselves required to wear uniform is to uphold the values and standards expected of the Naval Service in the public eye.
SECTION 2 - CULTURAL AND RELIGIOUS DIFFERENCES

3825. Religious Sensitivity

a. The different cultural patterns of various religious groups should be respected, especially during moments of religious expression. In assessing attitudes to accommodating such differences, the Naval Service distinguishes between the tenets of devout faith, which shall be allowed where operationally practicable, and the cultural and social customs of a particular group, which may be accommodated where disciplinary prudence permits. In cases where uncertainty remains, advice should be sought from the Diversity and Inclusion Policy Staff at Navy Command HQ.

b. Religious items or accessories (eg. a Christian Cross) which are not visible or otherwise apparent are unregulated and may be worn provided they do not interfere with the proper wear and use of uniform items, accoutrements or equipment, nor place at risk the safety and health of the individual.

3826. Wearing of Headdress

a. The wearing of headdress on different occasions reflects a combination of the cultural etiquette of British society, Naval custom and religious practices. As a guideline, the norms of formal etiquette should be followed. Further comments are given in the paragraphs that follow. These highlight the differences between those whose customs require removing the head-dress as a sign of respect, especially in religious circumstances (the European Christian norm); and those who cover the head as a sign of religious respect (Jews and others under varying circumstances).

In addition:

(1) A male member of the Jewish faith may wear a dark, plain-pattern yarmulke whenever he removes other headdress.

(2) Special details for adherents of the Sikh religion are contained in Para 3826.

b. Naval and Military Funerals. Headdress is to be removed by the bearer party (excluding those participating in a Jewish service) while the casket is being carried.

c. Summary Trial. The headdress of an accused member shall be removed prior to a summary trial. Prior to the administration of oaths, all members present shall be ordered to remove headdress. On completion of the administration of oaths, members present, other than the accused, shall be ordered to replace headdress.

d. Court Martial. Headdress shall be worn or removed in accordance with the directions of the Judge Advocate who determines the etiquette of the court.
e. **Consecrated Buildings.** All Naval Service personnel shall observe the appropriate religious customs with regard to the wearing of headdress in a consecrated building. The one exception is that headdress shall be worn when on duty as a member of a vigil during the lying in state of a deceased dignitary or as a member of a colour party when depositing or receiving Colours.

f. **Female Officers and Ratings.** Female officers and ratings are to wear their headdress at all times when in a consecrated building.

g. **Parades.** Headdress shall be removed, when so ordered, by all personnel on parade, except for females, musicians, members of colour parties and those who are adherents of the Sikh religion. A male member of the Jewish faith who wishes to wear a yarmulke when other headdress is removed (see Para 3825.a sub para (1)), may be authorised to retain normal headdress on parade when others remove theirs to avoid drill complications.

3827. **Sikhs**

a. Naval Service personnel who are adherents to the Sikh Religion (Keshadharis) shall wear standard pattern uniforms and adhere to standard Service clothing policy and instructions with the following exceptions:

(1) **Hair.** The hair and beard may remain uncut, provided that the operational mission and safety are not jeopardised when it is required that individuals wear occupational and operational equipment such as a respirator, oxygen mask, combat/vehicle/flying helmet, hardhat, diving mask etc. When a hazard clearly exists, the hair and/or beard shall be modified to the degree necessary for wearing the required equipment, in order to meet safety requirements.

(2) **Religious Symbols.** In addition to uncut hair, four other symbolic requirements of the Sikh religion are authorised for wear by Naval Service personnel with Numbers 1, 2 and 3 uniform dresses. Should conflict arise between the requirement to wear safety or operational items of clothing and equipment and these religious symbols, the manner and location of wearing these symbols shall be adjusted. Commanding Officers retain the right to order the manner of this adjustment as necessary to meet valid safety and operational requirements.

(3) **Turban.** A turban may be worn by male members with Numbers 1, 2 and 3 uniform dresses. Turbans may also be worn with Action Working Dress and occupational working dress, subject to the safety and operational considerations noted in Para 3826.a sub para (1), above. When engaged in combat operations, operational training or when serving with peacekeeping or multinational contingents, adherents of the Sikh religion shall, when deemed essential, cover their head with a patka or other customary clothing items (see Para 3821), over which they shall wear the headdress (including combat helmets) and other items of Service equipment as ordered by the Commanding Officer.
b. Except as otherwise provided by Para 3825, the turban worn by male personnel and the authorised headdress worn by female personnel shall not be removed while wearing uniform. Similarly, when on duty wearing plain clothing, a civilian turban and an appropriate civilian woman’s head covering shall not be removed.

c. The colour of turbans worn by male members shall be as follows:

(1) **Navy.** In blue uniform navy blue with white headband, and white with Navy headband in tropical uniform.

(2) **Royal Marines.** Olive Drab, Commando Green or white to conform with respective Dress.

d. Adherents to the Sikh religion may, subject to the provisions of Para 3826, observe the following five symbolic requirements:

(1) **Kesh.** Leave the hair on the head, face and body uncut.

(2) **Kanga.** Wear a comb.

(3) **Kara.** Wear an iron bracelet.

(4) **Kirpan.** Wear a symbolic dagger with an overall length (including the handle and sheath) not exceeding 23 centimetres (9 inches).

(5) **Kaccha.** Wear special design knee length underpants.

e. **Method of Wear.** The following instructions are not intended to detail the method of styling and wearing hair on the head, wearing the comb or winding the turban. Instead, they provide sufficient direction to ensure uniformity of dress amongst Sikh personnel. Accordingly, symbols and associated badges shall be worn as follows:

(1) **Turban.** The turban is to be worn in a low, Sikh conventional manner, with the final winding right over left on the forehead.

(2) **Cap Badge.** The cap badge is to be worn centred on the front of the turban. The badge shall be locally modified to provide a brooch fastener to secure it to the cloth.

(3) **Cap Tally.** The cap tally is to be worn diagonally across the front of the turban from top right to bottom left, 2 cm up from the bottom of the turban.

(4) **Patka.** A traditional Sikh cloth head-covering worn when a turban is not suitable, such as under combat, flying or diving helmets, or during sports or strenuous physical activity.
(5) **Kesh (hair).** Male personnel shall wear their uncut hair tied in a knot at the crown of the head, and shall secure the hair of the beard under the chin, presenting a close-to-face, groomed appearance. Female personnel shall wear their uncut hair styled in a bun at the rear of the head to facilitate the proper wearing of standard service headdress.

(6) **Kanga (comb).** The kanga is to be worn concealed in the hair.

(7) **Kara (bracelet).** The kara is to be worn on the right wrist.

(8) **Kirpan (dagger).** The kirpan shall remain sheathed at all times, except for religious occasions and for cleaning purposes. The sheathed kirpan worn under the outer shirt or jacket shall be supported by a black cloth sling, slung from the right shoulder to the left side. Should the kirpan interfere with the wearing of uniform accoutrements or equipment, it may be slung from the left shoulder and worn on the right side.

3828. **Rastafarians**

a. Naval Service personnel who are adherents to the Rastafarian faith shall wear standard pattern uniforms and adhere to standard Service clothing policy and instructions, with the following exceptions:

(1) **Hair.** The hair and beard may remain uncut, provided that the operational mission and safety are not jeopardised when it is required that individuals wear occupational and operational equipment such as a respirator, oxygen mask, combat/vehicle/flying helmet, hardhat, diving mask etc. When a hazard clearly exists, the hair and/or beard shall be modified to the degree necessary for wearing the required equipment, in order to meet the safety requirement. In addition:

(a) Rastafarian hair should not be of an exaggerated nature and may be worn in Cornrows or short plaits pulled away from the face and ear.

(b) Male Rastafarian hair is to follow the same general rules for other Service personnel in that it is to be neatly groomed and shall not extend below the lower edge of the shirt collar. If longer than collar length, hair should be worn up and properly secured in a neat and tidy fashion using grips, hairpins and nets where appropriate, as per Para 3819 sub para a while on duty and able to be worn with all types of military headdress in such a way that it is compatible with the image of the Royal Navy.

(c) Female Rastafarian hair is to follow the same rules for other female personnel, as per Para 3819 sub para a, while on duty and able to be worn with all types of military headdress in such a way that is compatible with the image of the Royal Navy.
(d) If long hair cannot be worn pulled back from the face and ear and in a secure bun, it is to be worn in a black, brown or blonde (commensurate with the individual’s hair colour) elasticsed net compatible with the image of the Royal Navy, allowing headdress to be worn.

(e) When transitioning to dreadlocks a notification to Command must be raised to be in contravention of BRd 3(1) Para 3827 until the hair can conform with regulations. This is for persons with hair not already in dreadlocks but transitioning to dreadlocks, and also to be used for those with different types of hair transitioning to dreadlocks.

(f) Whilst on board and when required to carry out firefighting duties, long hair can be worn in a ponytail to allow for wearing of firefighting equipment as is practised at ISSC and BSSC.

(2) **Turbans.** There are different sects of the Rastafarian faith, eg. the Nyahbinghi and the Bobo Shanti. Bobo Shanti Rastafarians wear turbans. The wearing of the turban falls in line with the tenets of the Rastafarian faith and allows all Rastafarians the ability to fully practise their beliefs. The cloth is available and there is a stores number covering the correct colours in line with the Naval colours required for uniform (see Annex 38A Uniform Diagrams).

**3829. Muslim Women**

Muslim women are allowed to wear uniform trousers, rather than a skirt and may wear a hijab except when operational or health and safety considerations dictate otherwise. Long sleeve shirts can be worn with all forms of Service dress. Tracksuit bottoms may be worn for sport. All Naval Service personnel are required to achieve a basic swimming standard as part of their training. Although every effort will be made to ensure that these tests take place in an all female environment, it should be stressed to female Muslim personnel that this may not always be possible.

**3830. Further Advice**

Requests for further advice on Cultural and Religious differences with regard to uniform and appearance are to be directed to NAVY NPS-DandI SO2A or SO2B at Navy Command HQ, Leach Building, Whale Island, Portsmouth.

ANNEX 38B

VISUAL REFERENCE GUIDES FOR TATTOOS IN THE NAVAL SERVICE

1. The series of images below provide guidance towards that which is deemed acceptable and that which is not. In each case a simple ‘APPROVED’ or ‘NOT APPROVED’ label has been attached.

2. It will become quickly apparent that providing the tattoo meets the two key criteria of not being visible above the shirt collar and not being visible forward of a vertical ‘ear to collar bone line’ (this essentially is the definition of ‘a front facing passport photo’) then it will be APPROVED in terms of the positioning of the tattoo.

3. The remaining criteria will be determined by the messaging or any political or religious implications which the image denotes. Anything offensive, or which causes prejudice against any protected characteristic, will be deemed inappropriate.

4. Although the guidance in this Annex and that at Para 3817.g (2) attempt to provide a complete set of principles, there is always the possibility that a tattoo or piece of body art will fall outside these guidelines. The immediate action drill for any command who is unsure as to how to assess a particular case should contact NCXT (NAVY NPS-EXEC SO1 or NAVY NPS-EXEC FXO) with photographic evidence for assistance.
5. Visual Reference Guides for Neck Tattoos

Question: Is a religious symbol on the hand an issue? From an objective viewpoint, a member of the NS displaying this could appear to conflict with guidance as it refers to or depicts an image relating to a protected characteristic etc.

Answer: This is a sensible enquiry but it actually displays an understandable misunderstanding. The rules are related to religious discrimination or harassment, therefore if there was text stating “destroy the” and a religious symbol, that would be inflammatory. Having a religious symbol alone is not. Figure 28A-6B illustrates a pentagram associated with Paganism which is acceptable.

CHAPTER 39
ROYAL NAVY OFFICERS AND RATINGS

SECTION 1 - INTRODUCTION

3901. Dress Tables
Details are given in the tables at Annex 39A. For the Orders of Dress to be worn at Court functions, or at Joint Services functions when members of the Royal Family are present, see the Joint Service Ceremonial Dress Table in Chapter 43.

3902. Outfit Scales
RN and QARNNS Officers Outfit Scales are at Annex 39B; RN and RNR Ratings’ Kit Scales are at Annex 39C.

3903. Royal Naval Reserve Uniform
Royal Naval Reserve personnel wear the same uniform as regular RN personnel of the same rank except as detailed in this Chapter and at Chapter 45.
SECTION 2 – DETAILS OF RANK/RATE AND OTHER DISTINGUISHING INSIGNIA

3904. Distinction Marks of Rank - Sleeve Lace

a. The distinguishing marks of rank worn on the sleeves of the ceremonial day coat, reefer jacket, blue mess jacket and, the tail coat worn by Captains and above, consist of rows of gold lace with a circle (or ‘curl’) on the top (or only) row. The lace is continuous around each sleeve. Distinguishing marks of rank are as follows:

- Admiral of the Fleet: 4 rows of 14mm lace above a band of 45mm lace.
- Admiral: 3 rows of 14mm lace above a band of 45mm lace.
- Vice-Admiral: 2 rows of 14mm lace above a band of 45mm lace.
- Rear-Admiral: 1 row of 14mm lace above a band of 45mm lace.
- Commodore: A band of 45mm lace with a circle of 13mm lace.
- Captain: 4 rows of 14mm lace.
- Commander: 3 rows of 14mm lace.
- Lieutenant-Commander: 2 rows of 14mm lace with a row of 7mm lace between.
- Lieutenant: 2 rows of 14mm lace.
- Sub-Lieutenant: 1 row of 14mm lace.

b. For Rear-Admirals and above the circle is 50mm in diameter, for other officers 45mm. For Commodores the circle is sewn immediately above the centre of the broad band, for other officers it is formed out of the upper row of lace with the upper part of the curl leading to the rear.

c. The space between the rows is to be 6mm.

d. The distance of the bottom edge of the lace from the cuff depends on the length of the sleeve and the amount of lace. The following distances are suitable for sleeves of average length:

- Admiral of the Fleet: 35mm
- Admiral: 45mm
- Vice-Admiral: 55 mm
- Rear-Admiral and Captain: 65mm
- Commodore, Commander and Lieutenant: 75mm
3905. **Distinguishing Marks on Shoulder Rank Boards and Slides**

a. Flag Officers and Commodores wear shoulder rank boards, as illustrated at Annex 39B, with silver devices superimposed on 45mm gold lace on the ceremonial day coat, greatcoat, white tunic, bush jacket and white mess jacket. On short sleeved white shirts, shoulder boards with either silver devices or rank lace may be worn as appropriate. On other garments that are fitted with shoulder flaps, such as the jersey and long sleeved shirt, officers wear shoulder rank slides with rank markings as sleeve lace.

b. RN Police Officers will wear the wording ‘RN POLICE’ embroidered on the lower edge of the rank board or slide.

c. All other Officers wear the same rank markings on shoulder rank boards and slides as for sleeve lace.

3906. **Midshipmen**

Midshipmen wear a white ‘turnback’ at each lapel on the collar of blue uniform jackets. Similar but smaller white turnbacks are worn as shoulder rank boards and slides. The buttons are to be removed from shoulder rank slides when they are worn with flying clothing.

3907. **Young Officers**

Young Officers wear various combinations of rank slides dependent on their stage of training, as follows:

a. **Militarisation Term.** During Militarisation Term no shoulder slides are worn; Young Officers may be identified as officers by their cap and beret badges.

b. **Marinisation and Initial Fleet Time.** During Marinisation and Initial Fleet Time, white rectangular shoulder slides are worn with working rig. Curved upper-sleeve flashes are worn on both sleeves of the blue No1 uniform jacket, in conjunction with rank lace or Midshipmen’s turnbacks.

c. **Senior Upper Yardmen.** SUYs wear white shoulder slides and curved upper-sleeve flashes as for Para 3907 sub para b until passing out of training at Britannia Royal Naval College.

3809. **QARNNS Officers and Ratings**

QARNNS Officers and ratings wear the same uniforms and rank insignia as RN Officers and ratings, but with the following differences related to the requirement to reflect the royal patronage of Princess Alexandra, as follows:
a. **Clinical Ward Uniform.** On the clinical ward uniform jacket/tunic fitted with shoulder flaps, Nursing Officers and Ratings wear the same rank/rate markings as would be worn on No 4 daily working dress (AWD or RN Personal Clothing System) shoulder flaps. The cloth name badge, incorporating Queen Alexandra’s monogram is to be sewn on the jacket/tunic. The badge on female jackets/tunics is to be sewn with the top of the badge in line with the press-stud and positioned mid-way across the vertical seam. For male jackets/tunics the badge is to be sewn 150mm vertically down from the shoulder seam and mid-way between the centre of the garment and the seam of the sleeve.

b. **Queen Alexandra’s Insignia**

(1) **Officers.** On blue uniform jackets, rank lace is surmounted by a separate Queen Alexandra’s monogram (NSN 8455-99-869-2910) in red and gold superimposed on a foul anchor in gold on black cloth. It is worn on both sleeves, positioned centrally 5mm above the circle in the uppermost row of rank lace. On No 4 daily working dress (AWD or RN Personal Clothing System) no Queen Alexandra’s monogram is worn. If worn with Mess Dress, the Queen Alexandra’s monogram (NSN 8455-99-416-0230) should be positioned as above (branch badges are not worn on Mess Dress).

(2) **Ratings.** On blue uniform jackets the Queen Alexandra’s monogram (NSN 8455-99-416-0230) in red and gold on black cloth is worn on the right arm, in the midline 3cm below the shoulder seam (and above the branch badge for AB, LH and PO). On No 4 daily working dress (AWD or RN Personal Clothing System) branch badges are to be worn in accordance with BRd 3(1) Para 3916 Table 39-1. The Queen Alexandra’s monogram (NSN 8455-99-869-2921) is to be worn on the right arm, in the midline 30mm below the shoulder seam (and above the branch badge for AB, LH and PO).

(3) **Warrant Officers.** In keeping with the traditions of the Service, Warrant Officers wear the Royal Arms on both cuffs of the blue uniform jacket with the bottom of the badge 127mm from the end of the sleeve. A smaller version of the same badge is worn on the mess jacket. WO NNs do not wear Queen Alexandra’s monogram, organisational insignia or branch badges on blue uniforms or No 4 daily working dress (AWD or RN Personal Clothing System – see BRd 3(1) Para 3916 Table 39-1).

3909. **RNR Officers**

As part of the RNR integration process the gold letter ‘R’ in the curl has been removed and is no longer worn by RNR Officers on Lists 1 to 3 (inclusive). RNR Honorary Officers retain the gold ‘R’ in the curl.

3910. **Combined Cadet Force (CCF) Officers and Sea Cadet Officers**

CCF and Sea Cadet Officers wear the same uniform as RN except that waved rows of 10mm gold distinction lace are worn with a waved curl on the uppermost row. The Lieutenant-Commander’s narrow stripe is 3mm wide, waved and spaced 10mm from the outside stripes.
3911. CCF Officers, Sea Cadet Officers, School Staff Instructors and Cadets
CCF Officers, Sea Cadet Officers, School Staff Instructors and Cadets of the aforementioned organisations are entitled to receive certain items of uniform clothing at public expense. The scales of uniform and the procedures for demanding and accounting for uniform are contained in the following:

a. CCF, SSI and Cadets. JSP 313 Naval Supplement to Part II (Annexes C and D Uniform Scales).

b. SCC. Appendices to the Sea Cadet Regulations (ASCR) Section 1 which can be found at www.sccheadquarters.com.

Once on the web site:

- Click on Regulations/Publications.
- Click on ASCR (Appendices to the Sea Cadet Regulations).
- Click on ASCR 3 (on the table), Section 1.

3912. Distinction Cloth and Civilian Officers
Medical and Dental officers wear a stripe of distinction cloth in the interval or intervals between the lace worn on cuff and shoulder insignia and below a single row of lace. Colours of distinction cloth are as follows:

a. Medical: Scarlet

b. Dental: Orange

When required to wear uniform, civilian officers wear the uniform prescribed for Naval officers of equivalent rank with the addition of green distinction cloth between the rows of lace.

3913. Aiguillettes

a. Aiguillettes (plain gold wire, gimp or gimp and orris as appropriate) are worn on the right shoulder with Number 1A, 1B, 1C, 2A and 2B dresses on all formal occasions by the following:

(1) Admirals of the Fleet.

(2) Officers holding the specific posts of Vice Admiral of the United Kingdom and Rear Admiral of the United Kingdom.

(3) Personal Aides-de-Camp to the Queen.

(4) Aides-de-Camp to the Queen.

(5) Naval Equerries to The Queen or to members of the Royal Family.
(6) Honorary Physicians, Chaplains, Surgeons, Dental Surgeons and Nursing Officers to the Queen.

(7) Defence Services Secretary.

(8) Officers appointed as Aides-de-Camp or Comptrollers to a Governor General.

(9) Aide-de-Camp to the Lord High Commissioner to the General Assembly to the Church of Scotland.

b. Board type aiguillettes (gold with navy blue flecks, miniature silver anchors on metal tags) are worn on the right shoulder by the following:

(1) Naval Members of the Defence Council.

(2) Naval Members of the Admiralty Board.

c. Staff type aiguillettes (gold with navy blue flecks) are worn on the right shoulder by the following:

(1) Naval Assistant to the Secretary of State for Defence.

(2) Officers appointed as Aides-de-Camp to a Governor or Lieutenant Governor.

d. Staff type aiguillettes (gold with navy blue flecks) are worn on the left shoulder by the following:

(1) Personal staffs of all members of the Defence Council, VCDS and Commander Joint Force Command.

(2) MA to DSACEUR/COFS.

(3) MA to DG Log SC.

(4) Executive Assistants, Secretaries and Naval Assistants to Naval Members of the Admiralty Board.

(5) The Flag Lieutenant to the Admiralty Board, Executive Assistants, Secretaries, Flag Lieutenants and Aides-de-Camp to:

(a) 2SL.

(b) Fleet Commander.

(c) All Maritime Battle Staff (currently COMATG, COMUKCSG, COMUKMARFOR).
(d) Flag Officer Sea Training.

(e) Flag Officer Scotland, Northern England and Northern Ireland.

(f) Secretary to CBNS US.

(g) Flag Officer Reserves.

e. Staff type aiguillettes are also worn on the left shoulder by the following:

1. Personal staff of the Chairman of the Military Committee, NATO.

2. Secretary and Flag Lieutenant to UKMILREP, NATO.

3. Secretary and Flag Lieutenant to COS to COM-MCC-NAPLES.

4. Secretary of SACLANT REP.

5. Staff of Secretary of State for Defence.

6. Head of BDS US.

7. Defence and Naval Attaches.

8. Assistant Defence and Naval Attaches.

9. Service Advisers and Assistant Advisers to HM High Commissions in Commonwealth capitals.

f. Board or staff type aiguillettes may not be worn concurrently with ADC’s or Equerry’s aiguillettes. For instance, a member of the Admiralty Board or Naval Attaché who is also an ADC to The Queen wears the aiguillette appropriate to the latter appointment.

g. Aiguillettes may only be worn by the personal staffs listed at sub para a when either accompanying, or acting in an official capacity on behalf of, the Senior Officer concerned. If on any occasion the Senior Officer does not wear aiguillettes then neither should the accompanying personal staff.

h. ‘Formal Occasions’ are defined as those when swords or decorations are worn and when particular formality is called for outside the normal day-to-day routine of work or practice.

i. Officers of Captain rank and above will receive a gratuitous issue of aiguillettes on the first assignment with requirement; they will then form part of the officer’s enduring standard uniform. They are issued on Form S105 for MJDI account action (Captains and above retire retaining the title and hence are often required to continue to wear aiguillettes for official functions as civilians for military led events).
j. All Officers below the rank of Captain will be issued aiguillettes on appointment to a post requiring them, and draw them for their period of entitlement. They will be required sign a Form C24B to acknowledge the liability to a financial charge should they fail to return the items on completion of the entitling assignment. In the event of non-return of aiguillettes, hasteners will be issued on the following dates:

(1) First hastener 1 month after agreed date for return.

(2) Second hastener 2 months after agreed date for return.

(3) Third hastener and notification of intent to commence C24B action in accordance with regulations, 3 months after agreed date of return.

k. Aiguillettes and the various accoutrements are issued on Individual Loan by the Uniform Clothing Store, HMS NELSON.

3914. Royal Cyphers

a. The Royal Cypher is available in large, small and miniature sizes. It is worn by the following:

(1) Admirals of the Fleet.

(2) Officers holding the posts of Vice or Rear Admiral of the United Kingdom.

(3) Aides-de-Camp to the Queen.

(4) Honorary Physicians, Surgeons, Dental Surgeons, Nursing Officers and Chaplains to the Queen, Naval Equerries to the Queen, Defence Services Secretary.

b. In the cases of Personal Aides-de-Camp to The Queen, First and Principal Naval and Flag Aides-de-Camp to The Queen, the Officers concerned continue to wear the Cypher after relinquishing the appointment. If he or she has held the appointment under more than one Sovereign then the Cypher of each shall be worn.

c. The large Cypher is worn on aiguillette shoulder straps, including the additional strap worn with the broad riband or collar of orders.

d. The small Cypher is worn on both shoulder boards of the greatcoat, all white or khaki uniforms and on the shoulder rank slides worn with jerseys. It is placed at the foot of the gold lace for officers of Flag rank and superimposed on the lowest row of lace for other officers, with the bottom of the Cypher even with the lower edge of lace.

e. For Chaplains the Cypher should be 5mm above the bottom edge of the shoulder strap. The Chaplain’s insignia is placed immediately above the Cypher.
f. The miniature Cypher is worn on the metal tags of aiguillettes by Personal Aides-de-Camp, Equerries and Extra Equerries to The Queen, and the Defence Services Secretary.

g. Personal Aides-de-Camp wear the small Cypher on all shoulder boards and soft rank insignia.

h. When the Cyphers of more than one Sovereign are worn, the small Cypher shall be worn in each case.

3915. Badges Worn by Officers

a. The cap badge shall be worn in the centre of the cap front, sewn to the detachable braid band. The cloth background shall follow the outline of the badge and be trimmed no closer than 5mm to the embroidery of the badge.

b. The beret badge shall be worn over the left eye in the manner illustrated in Chapter 38.

c. Badges for additional qualifications for which specialist pay is available are worn as described below. These badges may continue to be worn after specialist pay (if appropriate) ceases to be paid. Note that qualification badges awarded by other nations may not be worn on Naval Service uniforms.

(1) **Blue Uniform.** Sewn to the centre of the left sleeve of the reefer jacket and mess jacket, 6mm above the circle in the uppermost row of rank lace and in the corresponding place in the case of Midshipmen. Officers may wear a miniature flying badge on the left sleeve of the mess jacket (purchased at their own expense).

(2) **White Tunics, Bush Jackets and Khaki/Stone Coloured Uniform.** Fixed with 'pin and clutch' attachment, badges are to be worn horizontally, 38mm centrally above the left breast pocket. If medals or medal ribbons are worn, the badge is to be worn centrally above the medals or top row of ribbons. On the white mess jacket, miniature badges are worn centrally on the left lapel over miniature medals.

d. RN Police Officers will wear a Royal Navy Police chest flash when wearing a foul weather jacket.

c. **Canes.** A silver topped cane may be carried by:

(1) Establishment Executive Officers.

(2) Fleet Executive Officers.

(3) Staff Executive Officers.

(4) Establishment First Lieutenants.
3916. Badges Worn by Warrant Officers, Senior and Junior Ratings

a. Warrant Officers wear the Royal Arms on both cuffs of the No 1 blue reefer jacket with the bottom of the badge 127mm from the end of the sleeve. A smaller version of the same badge is worn on the optional mess jacket.

b. Shoulder rank slides with the Royal Arms may also be worn and are provided for Warrant Officers to wear with all appropriate uniforms.

c. An optional shoulder board with Royal Arms may be worn on the white short sleeved shirt, the optional white mess jacket and the bush jacket.

d. **CWO Badge.** On taking up the appointment the CWO is awarded the CWO badge and may wear it during the period of the appointment only. The badge is to be worn on the left breast in the same position as a NATO force emblem.

e. **Canes.** A black silver topped cane surmounted by the Royal Arms may be carried by:

   (1) The Warrant Officer Naval Service (Victory cane may be carried on ceremonial occasions).

   (2) The Command Warrant Officer to Admirals of Fighting Arms.

   (3) Base Warrant Officers.

f. Chief Petty Officers are distinguished by three buttons worn horizontally on each cuff of the No 1 blue reefer jacket and white tunic, 127mm from the bottom of the sleeve. Identical buttons shall be worn on the optional blue mess jacket. Chief Petty Officers are to wear branch or trade badges on each lapel of their No 1 blue reefer jacket.

g. Shoulder rate slides with a badge comprising laurel leaves around a foul anchor surmounted by a crown are provided for wear with all appropriate uniforms. Branch or trade badges are worn on the right arm of No 4 PCS dress.

h. Petty Officers wear a badge comprising crossed foul anchors surmounted by a crown on the left arm of blue reefer jacket and a smaller version on the optional mess jacket. Branch and trade badges are to be worn on the right arm of the blue reefer jacket. The centre of the rate and branch badges is to be mid-way between the point of the shoulder and the point of the elbow, sewn centrally onto the sleeve.

i. Shoulder rate slides with the embroidered rate insignia are worn in the same manner as Chief Petty Officer.

j. Leading Ratings wear a badge comprising a single foul anchor on the left arm of the No1 Dress Jacket. Rate and branch or trade badges are worn as for Petty Officers.
k. Shoulder rate slides consisting of a foul anchor woven in gold are worn on all appropriate uniforms.

l. Able Ratings do not wear rank on No 1 uniforms. The trade or branch badge is worn on the right arm as for Petty Officers. Able Ratings wear a shoulder slide consisting of Royal Navy woven in gold worn on all other appropriate uniforms. The shoulder slides are issued on completion of Phase 1 Training. Additionally, Probationary Leading Hands (See Chapter 68) employed and operating under the Accelerated Apprentice Scheme wear the standard Leading Hand insignia in conjunction with the following:

(1) White shoulder epaulettes (NSN 8455-99-978-8918) on all appropriate uniforms.

(2) A white curved upper-sleeve flash (NSN 8455-99-978-8917) on the left arm of No1 uniform and overalls.

m. Trainees within RN Rating Phase 1 Training are to wear orange epaulettes. Phase 2 trainees wear the Royal Navy shoulder slides with white epaulettes.

n. **Branch Badges.** Branch badges are to be worn as detailed in Table 39-1.

**Notes:**

1. Technician branch Senior Ratings (Med Tech, legacy GS and SM Artificers (who have lost Reserved Rights)) do not wear branch badges.

2. Junior Ratings wear No1 C or No2 C for formal evening dress.
3917. Royal Navy Police
All RN Police WOs, Senior Ratings and Junior Ratings will wear the following:

a. Shoulder rank slides embroidered on the lower edge with 'RN POLICE'.

b. Regulating Petty Officers and Leading Regulators wear a badge comprising a crown on the right sleeve of their white short-sleeve shirt and woollen jersey. When wearing the white long sleeve shirt, Regulating Police Petty Officers wear the same design as a tie-pin.

c. Masters at Arms wear a badge comprising laurel leaves supporting a crown as a brassard on their right wrist with a white wrist strap. On all occasions of wearing MTP, the white wrist strap is replaced with a brown wrist strap.

d. All RN Police ratings will wear a Royal Navy Police chest flash when wearing a foul weather jacket.

3918. Submarine Badge
The Submarine Badge consists of the QEII commissioning crown sited above a fouled anchor supported on each side by heraldic dolphins. The badge is of gilt and shall be worn by all RN qualified submariner personnel as follows:

a. Blue Uniforms. On the left breast of the reefer jacket between the lapel and the shoulder, horizontal, level with the point of the lapel. The badge should sit 6mm above medal ribbons or medals. On the mess jacket, a miniature badge is worn on the left lapel, 25mm below the point of the lapel, 6mm above miniature medals.

b. White Tunics, Bush Jackets and Khaki/Stone Coloured Uniform. Submarine badges are to be worn in accordance with Para 3915.c.sub para (2).

c. No 3A Uniform. A miniature submarine badge, as worn on Mess Jackets, may be worn, horizontally, in a central position on the tie. The miniature badge is paid for at own expense.

d. No 3B Uniform. Fixed with a 'pin and clutch' attachment, the submarine badge is worn horizontally, 38mm centrally above the left breast pocket.

3919. Royal Navy Deterrent Patrol Pin
The RN Deterrent Patrol Pin consists of an image of HMS Resolution, with superimposed Polaris missile and electron rings signifying the armament and nuclear powered characteristics of the ‘at sea deterrent force’. A scroll beneath the submarine is inscribed with the motto “Always Ready”. The pin is a two level award dependent upon the number of patrols completed by the individual after the initial qualifying patrol (only patrols in excess of 30 days are to be counted as eligible), as detailed below;

(1) Silver. Completed one to nineteen patrols.

(2) Gold. Completed twenty or more patrols.
b. The RN Deterrent Patrol Pin must always be worn in conjunction with the Submarine Badge, and is to be worn by eligible personnel as follows;

(1) **Officers, Warrant Officers and Senior Ratings**

(a) **No 1 Dress.** The 62mm patrol pin is to be worn in the centre and at the top of the left breast pocket, positioned so that the top of the missile is just below the top of the pocket.

(b) **No 2C/3B.** The 62mm patrol pin is to be worn at the top of the left breast pocket, positioned so that the top of the missile is just below the top of the pocket.

(c) **No 3A.** The miniature 42mm patrol pin may be worn on the tie.

(d) **No 2 Dress (Mess Dress).** The miniature 42mm patrol pin is to be worn 6mm below any miniature medals, or 6mm below and positioned on the centre line of the Submariner Badge if no medals are worn.

(2) **Junior Ratings**

(a) **No 1 Dress.** The 62mm patrol pin is to be worn 10mm below medals, with the missile element of the pin positioned on the centre line of the Submariner Badge. When wearing No 1C/1CW the pin is to be worn 10mm below the medal ribbon. If no medals have been awarded, then the pin is to be positioned 20mm below and on the centre line of the Submarine Badge.

(b) **2C/3A/3B.** The 62mm patrol pin is to be worn at the top of the left breast pocket, positioned so that the top of the missile is just below the top of the pocket.

c. The RN Deterrent Patrol Pin is not to be worn with No 3C or No 4 Dress.

3920. **Parachutist Badge**

Qualified military parachutists shall wear the Army pattern parachutist badge, a parachute with wings, to be worn on the right arm 31mm below the shoulder seam, as follows:

a. **No 1 Uniform.** The full sized badge in gold on blue.

b. **No 2 Uniform (Mess Undress).** The miniature badge (length 51mm, height 20mm) gold on blue.

c. **PCS/MTP.** The full-sized badge in white on blue (PCS) or light blue on khaki drill (MTP) worn above the trade badge and 6mm below the shoulder seam on right arm.
3921. **HUMINT Badge**

On successful completion of the Op SAMSON training pipeline, qualified officers and ratings shall wear the HUMINT specialist badge (see Chapter 40 for RM HUMINT Operators). The badge (a gold trident on a black ‘kite’ background) is to be worn on the left forearm, above officers’ or Warrant Officers’ rank insignia (approximately 165mm from the cuff). The badge is to be worn on No 1 and No 2 uniform only (ie. not PCS/MTP or other combat uniform).

3922. **Good Conduct Badges**

Good Conduct Badges are represented by V-shaped stripes, 12.5mm in width at the perpendicular and 127mm across the top of the V; they are worn on the left arm by entitled ratings below the rate of Chief Petty Officer. When worn without a rate badge, the centre of the device is to be midway between the point of the shoulder and the point of the elbow. When more than one Good Conduct Badge is worn, the distance between them at the perpendicular is to be 12.7mm.

3923. **Stars and Crowns**

Stars and Crowns are added to the basic branch and specialist qualification badges to indicate certain classes of qualification as follows:

a. Basic device: on entering a sub-branch.

b. Basic device with star above: on qualifying professionally for Able Rate.

c. Basic device with star above and star below: on qualifying professionally for Leading Rate.

d. Basic device with crown above: on qualifying professionally for Petty Officer.

e. Chief Petty Officers attain no additional professional qualification and wear the basic device with crown above.

3924. **Specialist Qualification Badges**

Badges for additional qualifications and special skills are worn on the right cuff by other ratings as follows (they are not worn by Officers/Warrant Officers):

a. Chief Petty Officers: 6mm above the centre cuff button.

b. Other ratings: 36mm from the end of the sleeve.

**Note.** Specialist qualification badges awarded by other nations may not be worn on Naval Service uniforms.
3925. **Cap Ribbons**

a. Junior Ratings shall ordinarily wear the cap ribbon of the unit to which they are assigned.

b. Junior Ratings not on the trained strength in Phase 1 or Phase 2 training shall, irrespective of branch or trade, wear the cap ribbon of the training establishment to which they are assigned.

c. Junior Ratings who are on the trained strength and assigned to a training establishment for a TEM or other short course, such as LRLC, shall continue to wear the cap ribbon of their permanent unit.

d. Junior Ratings who are on the trained strength and who are assigned to a training establishment for a Career Course shall wear the cap ribbon of that training establishment, except that submariners may continue to wear the 'HM Submarines' cap ribbon and entitled members of the FAA may continue to wear the 'Fleet Air Arm' cap ribbon.

e. Submariners and members of the FAA who are assigned to the permanent staff of a ship's company of any establishment or unit outside of their recognised fighting arm shall ordinarily wear the cap ribbon of that establishment or unit. Personnel may request permission to continue to wear their submariner's or FAA cap ribbon, the matter being at the discretion of the Commanding Officer.

f. Any Junior Rating temporarily loaned to another unit for an exercise, training or operational purposes shall continue to wear the cap ribbon of their permanent unit.

g. Any exceptional circumstances not covered above shall be a matter for the judgement of the local Commanding Officer taking note of the sentiment conveyed in this article.

h. Prior to commissioning, HM Ships should demand a first issue of cap ribbons from the following address:

   WO1 Logs SC, Defence Clothing Team  
   Customer Support Officer (Royal Navy)  
   ELM 0a, Neighbourhood 4  
   MoD Abbey Wood  
   Bristol  
   BS34 8HJ

i. All other requests for new unit cap ribbons should be forwarded to the DC Team fao CSO(RN).

   (1) It is appropriate for units containing significant numbers of junior ratings (more than 20), including Joint service establishments, to have their own cap ribbons in order to promote unit identity and esprit de corps.
(2) Units with less than 20 Junior Ratings where there is no local sponsoring RN establishment will wear an alternate cap ribbon with the text "Royal Navy"; these are available upon request from HMS NELSON Clothing Store. However, exceptions may be allowed when a strong case for individual unit identity exists, and CSO(RN) should be consulted info FXO.

(3) The use of acronyms on cap ribbons is to be avoided wherever possible.

(4) When demanding cap ribbons it is important to quote on the Demand Form the exact form of words required eg. 'HMS SAMPLE'/H.M.S. SAMPLE.

3926. Insignia and Badges Worn with No 4 RN Personal Clothing System (No 4 RNPCS)

   a. Name Tapes. Name tapes are to be sewn along the top of the left breast pocket on the PCS lightweight jacket for all ranks and rates, in line with the "Royal Navy" tape. Name tapes are to contain the surname of the individual only; initials are not permitted. Name tape lettering is to be in 'Helvetica Condensed' font, lettering is to be 15mm in height and the name within the name tape length of 130mm. Names longer than 15-17 characters are to be condensed to fit. In common with the Royal Navy tape, the colouring is to be white lettering on blue background. With names such as ‘McDonald’, a small c can be used on the name tape; the authoritative document will be the nominal list supplied by the unit.

   b. Royal Navy Tape. The 'Royal Navy' tape is pre-sewn along the top of the right breast pocket. The tape will be a standard issue with lettering of 'Helvetica Condensed' font, 15mm in height and contained within the tape length of 120mm. The tape colouring is white lettering on blue background.

   c. Royal Navy White Ensign Badge. The Royal Navy White Ensign badge is pre-sewn onto the left arm. The badge is a standard size of 100mm by 50mm. The badge should be centralised and horizontal when viewed from the left side. Exact vertical position will depend upon the sleeve length and shoulder shape of the individual, but generally the top of the badge should be 70mm below the centre of the shoulder seam at the top of the sleeve.

   d. Branch Badges. Branch badges are to be sewn on the right arm of the PCS jacket between the elbow and shoulder. The badge should be centralised and horizontal when viewed from the right side and is to remain visible if the jacket sleeves are rolled up. Exact vertical position will depend upon the sleeve length and shoulder shape of the individual, but generally the top of the badge should be 70mm below the centre of the shoulder seam at the top of the sleeve (this equates to one fifth of the distance between shoulder and elbow). All ratings currently required to wear a branch badge shall do so, up to and including CPOs. Branch badges are not to be attached on any other part of the uniform.

   e. Submarine Badges. In cloth form, for officers and ratings, Submarine badges are to be sewn directly above and centralised over, the name tape on the left breast.
f. **Aircrew ‘Wings’**. In cloth form, for officers and ratings, Aircrew ‘Wings’ are to be sewn directly above, and centralised over, the name tape on the left breast.

g. **Existing Rank Slides**. Rank Slides will be attached to the front of the PCS jacket. MTP rank slides may not be used. In order to establish uniformity and maintain standards, officers shall wear the left shoulder slide on their lightweight jackets.

h. **Shoulder Flashes**. The wearing of shoulder flashes is authorised for personnel qualified as “Royal Navy Commando” or “Bomb Disposal”. Qualified RN EOD personnel are authorised to wear the EOD operator Joint ‘Bomb’ badge (red bomb on blue background) and qualified members of the Submarine Parachute Assistance Group are authorised to wear ‘Parachute Wings’; these are to be worn centralised on the right arm, the top of the badge being 6mm below the bottom of the trade badge. Communicators who have served with 148 Bty, or other niche groups where they have been awarded ‘Parachute Wings’, are authorised to wear them.

i. **Other Insignia**. In a Joint environment where the Command has permitted RN personnel to wear RNPCS vice MTP, but where the Command also mandates a joint insignia or crest eg. HQ ARRC, such insignia or crests may be worn for the duration of that assignment. Such insignia shall be positioned in keeping with that on MTP (or as close as is reasonably practical) at the discretion of the senior Naval officer. No other specialisation badges, flashes, patches or pins, and no ship, submarine, squadron or unit insignia are to be attached to PCS.

### 3927. Insignia and Badges Worn with Multi Terrain Pattern Clothing System (MTP)

a. A black on green ‘Royal Navy’ flash is to be worn by all RN personnel on both sleeves of all MTP. The flash is to be attached centrally with its upper edge 7mm below the shoulder seams.

b. Additionally, Tactical Recognition Flashes (TRF) may be worn as directed by Force Commanders.

c. All RN Police personnel will wear a black on green ‘Royal Navy Police’ shoulder flash at the top of both sleeves (see Fig 39E-15d). Additionally, dependent on theatre of operations, RNP personnel are authorised to wear the Military Police (MP) badge (see Fig 39E-15c) on the right sleeve only (see Para 3823).

d. On all occasions of wearing MTP, Masters at Arms wear a badge comprising laurel leaves supporting a crown as a brassard on their right wrist with brown wrist strap (in place of the white wrist strap).
ANNEX 39A

RN DRESS TABLES

1. 1A Dress - Formal Dress/Undress

   a. Occasions For Wear:

      (1) When receiving The Sovereign, other Crowned Heads or Heads of State.

      (2) When receiving Royalty unless ordered to the contrary by Fleet Commander.

      (3) Inspections by Flag Officers.

      (4) Funerals, Courts Martial, Divisions and other appropriate Ceremonial Events.

      (5) Full Ceremonial State-Events as ordered.

Notes:

1. The wearing of Berets is optional only on the following occasions:
   
a. When travelling to or from units and/or whereby a cap or tricorn hat may suffer damage in one’s luggage.

b. By FOST Staff in the course of their duties.

c. At Air Stations if the wearing of caps is deemed unsafe or inappropriate.

d. At CO’s discretion when deemed appropriate.

2. The routine wearing of berets with No.3 uniform in Shore Establishments is not permitted.

3. A leather flying jacket of the standard approved pattern may be purchased at personal expense and worn by all Aircrew with No 3A Dress or No 5 Dress (Mk16A/B or Mk17A/B one-piece flying coverall only (see Para 12)) . If worn, the jacket zip slider is to be zipped up to at least 10cm from the top zip stop. In order to ensure uniformity on specific occasions, Commanding Officers should direct when leather flying jackets may not be worn. Clothing permissible for use in aircraft is governed by the aircraft’s Release to Service and is not superseded by this Order.

<tr>
<td>Black boots. (Boots DMS at sea and in port, high leg boots as armed sentry or when deployed ashore. Trouser ties to be used with high leg boots).</td>
</tr>
<tr>
<td>Beret (Peaked Cap/Seaman’s Cap for parade/ceremonial purposes only – see Note 1 and Note 2)</td>
</tr>
<tr>
<td>Optional blue micro fleece to be worn over T shirt and under light weight jacket.</td>
</tr>
<tr>
<td>Optional foul weather jacket and trousers worn over light weight jacket and trousers (hood of foul weather jacket to be rolled away – hood is only to be used in extreme conditions when authorised by Command).</td>
</tr>
</tbody>
</table>
## No 4R – Relaxed Daily Working Dress - Options below

<table>
<thead>
<tr>
<th>May be authorised by Command at sea or, exceptionally, for working parties in hot conditions (&gt;29 deg C) in harbour (not outside confines of jetty). Although the options below are permitted at Command discretion, consideration should always be made towards the potential for personnel appearing in the public domain. If there is a likelihood of public visibility and/or photographs being taken of the Ship and Ship’s Coy, PCS 4R options should not be used (eg. Ship Open to Visitors, VIP Visits with high levels of Media coverage). In these cases, personnel should limit any 4R options to between/below decks with full/correctly worn PCS being worn above decks or in the public eye.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Light Weight jacket may be relaxed to an ‘untucked’ position at the discretion of the Command when operating in areas of extreme heat (&gt;29 Deg C). Additionally, jacket may be fully relaxed with individuals wearing T shirt only or T shirt and micro fleece.</td>
</tr>
<tr>
<td>Blue fire retardant trousers with blue stable belt</td>
</tr>
<tr>
<td>Black socks</td>
</tr>
<tr>
<td>Black boots</td>
</tr>
<tr>
<td>Command may allow optional baseball cap at sea</td>
</tr>
<tr>
<td>Caveats:</td>
</tr>
<tr>
<td>COs may allow 4R where it is unlikely that immediate firefighting is required. Light weight jacket must be readily available for basic firefighting. Commands may authorise unit specific T shirts provided that they are cotton navy blue.</td>
</tr>
</tbody>
</table>

### Notes:

1. Seaman’s Cap, Peaked Cap and Tricorn Hat may be worn with No.4 PCS (or AWD) for ceremonial purposes. For guidance, the following situations are deemed as ‘ceremonial’:
   a. Parade or Guard duties/training.
   b. Colours/Sunset party.
   c. Entering/Leaving Harbour (Bridge, POS Safety personnel only. No sailor acting as a POS hand working ropes/lines/fenders should wear a Seaman’s Cap).
   d. Attendance at Church or similar religious/remembrance services.
   e. Formal Rounds Parties.
Notes: (Continued)

2. The wearing of caps for the following situations is not permitted:

   a. Gangway Welcome parties.

   b. Walking the upper deck or Jetty for routine purposes.

   c. Routine movement within a Shore Establishment unless directly involved in Guard/Parade duties.

3. Blue shorts are permitted for MCMV crews only when deployed in the Gulf Regions.

d. Decorations/Medals: None.

</tr>
</tbody>
</table>

**Notes:**

1. *White coveralls may be worn by Officers and Warrant Officers and FOST staff when working in sterile environments as required.*

2. *Flight Deck Officers x 2 White Coveralls.*

3. *QARNNS new ward clinical uniform x 5 jacket and trousers. Compulsory for QARNNS Officers, Warrant Officers, Senior Ratings and Junior Ratings. Student Nurses under training will wear this uniform when on clinical placements.*

4. *For General Duty Dress: combat jacket (or shirt) is to be worn tucked inside the trouser waistband; sleeves are to be rolled up to above the elbow; only brown issued T-shirts are to be worn. For Combat Dress: (operations or exercise in the field) combat jacket may be worn loose, sleeves may be rolled up or down.*

5. *A leather flying jacket of the standard approved pattern may be purchased at personal expense and worn by all Aircrew with No 5 Dress (Mk16A/B or Mk17A/B one-piece flying coverall only or No 3A Dress or (see Para 7)). If worn, the jacket zip slider is to be zipped up to at least 10cm from the top zip stop. In order to ensure uniformity on specific occasions, Commanding Officers should direct when leather flying jackets may not be worn. Clothing permissible for use in aircraft is governed by the aircraft’s Release to Service and is not superseded by this Order.*

c. **Decorations/Medals**: None.

3CW Dress - General Duty Rig White

Figure 39A-21a. Officers

Figure 39A-21b. Warrant Officers and Senior Ratings

Figure 39A-21c. Junior Ratings
Figure 39A-22. Uniform Fitting Guide (Officers)

Cap Badges are to be in line with the seam on the peak cap and central of the triconc Cap. Ties are to be of small knot and symmetrical.

Cuff links should be Gold, Silver, Plain or Ships Own RN Specific

Trousers creases are to be vertical and central to front and rear of the leg. Trousers should hang straight, with the hem hanging mid-way between the top of the heel and the top of the shoe.

Creases to the sleeves of the blue reefer jacket are to the front and vertical. Medals are worn on the left breast in one horizontal line, 90mm down, central from the shoulder blade.

Handkerchiefs are not to be worn on ceremonial occasions.

Distinction Mark of Rank - see below

</table>
Figure 39A-23. Uniform Fitting Guide (WOs and SRs)

- Cap Badges are to be in line with the seam on the peak cap and central of the tricorne Cap. Ties are to be of small knot and symmetrical.
- Cuff links should be Gold, Silver, Plain or Ships own/RN specific.
- Crenes to the sleeves of the blue Reefer Jacket are to be from the front and vertical. Medals are worn on the left breast in one horizontal line, 90mm down, central from the shoulder blade.
- Warrant Officers are to wear the Royal Arms on both cuffs, with the bottom of the badge 127mm from the end of the sleeve. Chief Petty Officers buttons are worn horizontal and centralised 127mm from the bottom of the sleeve and with a distance of 50mm between the buttons. Petty Officers buttons are situated at the rear of sleeve, 25mm from the bottom and 25mm between buttons.
- Trousers creases are to be vertical and central to front and rear of the leg. Trousers should hang straight, with the hem hanging mid-way between the top of the heel and the top of the shoe.
- Chief Petty Officer branch specialisation badges are to be worn on the lapels of the blue Reefer jacket, that on the right lapel being the normal branch badge, that on the left its mirror image.
- Petty Officer Rate badge is worn on the left arm and branch badges on the right. Centre of the rate and branch badges are to be sewn to the flat of the sleeve, mid-way between the shoulder and the elbow.
Figure 39A-24. Uniform Fitting Guide (Junior Rates)

Press shirt with outward crease down each arm and vertically down front centre.

Press 3 vertical creases in the collar. Centre crease downwards, outer creases upwards (see diagram).

Lanyard placed over the head, under both the collar and jumper then passed out through the right becket, looped round, passed back in through left becket. Tail passed around and tucked into left pocket. The loop of lanyard to be 7.5cm in diameter.

Place the cap ribbon so that the middle letter is aligned with the cap's centre front seam.

Fit jumper at waist so it does not bow at hem. Cuff length to finish mid way between wrist and end of thumb. Leg length to just rest on shoe.

Tie the bow directly over the left ear. Place the cap so that the centre front seam is over the nose.

Silk bow press stud webbing passed through both becket loops. Silk, folded edge nearest to the neck, passes under both the collar and jumper and over laps and fastens behind the neck at the required length.
Figure 39A-25. Tying a Cap Ribbon

1) Centre the tally with the centre letter including gaps, under the front seam of the cap. Tie an overhand knot directly under the left hand seam of the cap holding the tally firmly in position with the thumb until the bow is formed.

2) The upper tail is brought down and up again to form the first bight of the bow.

3) The lower tail is passed over the first bight and then up on the outside.

4) A bight is formed in the right hand tail and tucked behind the top end of the first bight.

5) The tally can be steamed over a boiling kettle and tails trimmed to shape.

6) The bow and knot is now carefully formed and tightened.
ANNEX 39B

RN AND QARNNS OFFICERS’ OUTFIT SCALES

1. Scale 1A - RN Male Officers on Promotion from Rating.

   a. Entitlement to Scale

      (1) The uniform outfit shown at sub para b is to be issued to all Upper Yardman Officers on promotion from Rating. For Senior Upper Yardmen see Scale 1B.

6. *Only 4 pairs required to be maintained on completion of training.*
6. Scale 4 – New Entry Female Officers Entered at BRNC Dartmouth for Pre-
University, General Naval and Academic Training or Appointed to Medical or Dental 
Cadetships or to Pre-Registration Year Commissions

a. Entitlement to Scale

(1) The uniform outfit shown at sub para b is to be issued to all new entry 
Officers.

(2) Officers who resume full RN Service, or return on FTRS, after a break of 
more than 4 years are entitled to free issue of uniform in accordance with sub 
para b.

(3) Officers who resume full RN Service, or return on FTRS, after a break of 
less than 4 years are to be reimbursed in accordance with JSP 754.

b. Basic Outfit

</tbody>
</table>
Note.

1. Optionally, black stockings may be worn.

2. Only one Jersey H/W blue to be maintained on completion of training.

3. Not to be maintained on completion of training.

4. To be issued by lead school on first occasion of need.

5. Only one to be issued to QARNNS Officers.

6. Gratuitous exchange for Officers serving onboard seagoing units only.

7. Only 4 pairs required to be maintained on completion of training.

7. Scale 5 - Officers Assigned to the United States of America

As a general rule, Officers are to wear RN uniform. Exceptionally, as summer working uniform, khaki clothing may be worn.

a. RN Male Officers assigned for Service in the USA are paid a cash grant towards the cost of:

<table>
<thead>
<tr>
<th>Item</th>
<th>Scale</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stone, collar attached shirts</td>
<td>3</td>
<td>2</td>

<td>3</td>
</tr>
<tr>
<td>Brown shoes</td>
<td></td>
<td>4</td>
</tr>
<tr>
<td>Stone tie</td>
<td></td>
<td>4</td>
</tr>
</tbody>
</table>

Cash grant paid automatically by UPO/Unit HR Cell on receipt of OAL (grants and Allowances Scale 202 refers).
b. RN Female Officers assigned for Service in the USA are paid a cash grant towards the cost of:

<table>
<thead>
<tr>
<th>Item</th>
<th>Scale</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stone, collar attached shirts</td>
<td>3</td>
<td>2</td>
</tr>
<tr>
<td>Stone, drill, washable trousers</td>

</tr>
<tr>
<td>Hat, woman officers, USN</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>Collar, rank badges</td>
<td>1 set</td>
<td>3</td>
</tr>
</tbody>
</table>

Cash grant paid automatically by Unit HR Cell on receipt of OAL (grants and Allowances Scale 200 refers).

Notes:

1. Paid on first occasion of qualifying only.
2. Stone clothing can usually be obtained in the USA from USN sources.
3. Metal collar badges representing, in miniature, the USN Officers distinction marks of rank may be worn optionally on the khaki shirt by officers assigned for duty, which necessitate their wearing of khaki uniform in the presence of US officers. The badge, available on repayment from CBNS, is to be worn on both sides of the collar with the centre approximately 2.5cm from the bottom. The badges are to be horizontal when the collar is fastened.
4. Optional item provided at officer’s own expense.

8. Scale 6 - Officers Assigned to Royal Navy Presentation Teams, AIB Board Members, Area Careers Liaison Officers, Ethnic Minority Liaison Officers, Naval Regional Commanders, Chiefs of Staff to Naval Regional Commanders

<table>
<thead>
<tr>
<th>Item</th>
<th>Scale</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Blue Barathea uniform suit c/w lacing</td>

<td>3</td>
</tr>
<tr>
<td>Brown shoes</td>
<td>3</td>
</tr>
</tbody>
</table>

   b. Female Officers

   To be notified.

   **Note.**

   1. Requirements should be notified in the first instance to NCHQ, Logistics Capability Division, who will advise on supply procedures.
   2. Available through main clothing stores.
   3. Optional item provided at Officer’s own expense.

10. Scale 8 - Officers Assigned for Service as RN Instructors at NATO Special Weapons School Oberammergau, in Naval Attaches and Assistant Naval Attaches Posts in Ankara, Athens, Bonn, Islamabad, Lisbon, Egypt, Madrid, Muscat and Rome and Naval Party 1002 Diego Garcia

<table>

**Notes:**

1. Optionally, black stockings may be worn.
2. Not to be maintained on completion of training.
3. For Officers appointed to a shore establishment the allowance for the skirt is increased to 4.
4. Chaplains are expected to wear Daily Working Rig (DWR) as directed by their ship or unit. However, where practicable, they may wear a dark suit with a clerical collar (black or grey shirt) in place of DWR, unless directed otherwise.
17. Scale 15 - RNR Officers (Including RNR Chaplains)

</tr>
</tbody>
</table>
**Notes:**

1. Engineer Officers only.

2. RNR Officers undertaking FTRS are entitled to a gratuitous issue of those items that make up the shortfall between Scales 15 and 3. Gratuitous items will be made on first appointment only.

3. Chaplains are expected to wear Daily Working Rig (DWR) as directed by their ship or unit. However, where practicable, they may wear a dark suit with a clerical collar (black or grey shirt) in place of DWR, unless directed otherwise.

4. Initial issue only as part of Accelerated Officer Programme; not maintained on completion of Phase 1 training. Issued to deploying personnel as part of operational/exercise supplement.

5. Issued on first occasion of need.

6. Scale of issue for Accelerated Officer Programme is 6 pairs; not maintained on completion of Phase 1 training.

7. Not maintained on completion of Phase 1 training.

8. Scale of 3 jackets only applicable to new joiners after Sep 16. Third jacket also applicable for deploying personnel in accordance with RNTM.

9. Additional 2 shirts issued as part of tropical supplement.

18. Scale 16 - Spare
19. **Scale 17 - RN & RNR Officers (Including Chaplains) Serving in RM & RMR Units**

As a general rule, RN and RNR Officers are to wear RN uniform. Exceptionally, officers in Commando units (including CTCRM) may wear combat dress on operations or field exercises, and military working dress on appropriate occasions when ordered locally. Officers wear shoulder badges of rank on all occasions and black-on-green ‘ROYAL NAVY’ flashes on both shoulders of the olive green heavy wool jersey. RN chaplains when in the field will be required to wear combat dress or military working dress with the chaplain’s badge on the shoulder, and the shoulder title ‘Royal Navy’ on each arm. The clerical collar and stock are to be worn with military working dress.

a. **Items Issued from Service Sources**

<td>-</td>
</tr>
</tbody>
</table>
Notes:

1. To be issued to RN and RNR Officers on Commando qualification.

2. To be issued on personal loan.

3. To be provided as required and only whilst tropical outfits include olive drab hats, shirts, shorts and trousers on personal loan from unit holdings.

4. An additional badge may be issued to Chaplains on qualification for a green beret.

5. Trousers, men’s, lightweight/barrack dress are designed for clean fatigue wear. They may be used for light training in and around barracks. All personnel should be made aware that they can be a fire hazard: they burn rapidly and decompose into a molten material that adheres to the skin. Such burns are difficult to treat and slow to heal. Heat along from weapon flash or contact with hot metal will melt the material. All personnel should be made aware of the risks involved when wearing the trousers near field cookers, other naked flames or very hot surfaces.

6. Chaplains are expected to wear Daily Working Rig (DWR) as directed by their ship or unit. However, where practicable, they may wear a dark suit with a clerical collar (black or grey shirt) in place of DWR, unless directed otherwise.
20. Scale 18 - MSF Officers on Re-Entry

a. **Entitlement to Scale.** Only MSF Officers who ceased active service more than 4 years before taking up their MSF appointment are entitled to a gratuitous issue of the items listed below. The appropriate Administrative Authority will give approval for the wearing of uniform by MSF Officers. This approval annotated with the last day of active service is the authority for the issue of all items of uniform.

b. **Basic Outfit**

</tbody>
</table>

**Notes:**

1. MSF Officers who take up their appointment after a break of less than 4 years are to be reimbursed in accordance with JSP 754.

2. Female MSF Officers may draw 2 skirts WWP instead of trousers WWP or 1 skirt WWP and 1 pair of trousers WWP.
21. **Scale 19 - Officers Uniform to be Returned on Early Discharge**

   a. Officers discharged within the first 6 months of service are to return all clothing issued in accordance with Chap 39 Annex 39B Para 5 and Para 6 Scale.

   b. Officers discharged after 6 months but with less than 4 years’ service are to return all items in sub para d.

   c. Officers discharged with more than 4 years’ service are to return all items on Personal Loan and their General Service Respirator.

</tbody>
</table>
Notes:

1. Male Officers only.

2. Female Officers only.

3. Only if issued with Tropical Clothing.

4. Officers are required to refund the cash grant that is paid for the purchase of suitable luggage, unless they can provide the appropriate receipts for luggage bought. Officers who are unable to provide a receipt may submit an application for waiver to BRNC or CTCRM as appropriate. Each case will be dealt on its merits (JSP 754 refers).

Notes:

1. Orange epaulettes are to be issued to RN and RNR ratings during Phase 1 training.

2. Additional coveralls issued on first occasion of need: Engineers 2 pr.

3. QARNNS/Medical Assistant ratings only.

4. Optional for Muslim Junior Ratings shirt white collar attached in lieu of shirt white short sleeve.

5. Optional for Muslim ratings tracksuit on lieu of T Shirt and shorts blue.

6. Optional for Muslim Ratings trousers white in lieu of shorts blue.

7. Muslim Ratings may in addition to the beret wear a Hijab. The Hijab should be a tri-angular shaped, dark blue cotton material, to fit the individual. It is to be provided locally via the establishment tailor and charged to IAC 1G1/1100.

8. Not to be maintained as part of kit after completion of Phase 2/Trade Training.

9. Only 2 prs to be maintained on Part 1 Training.

10. Ratings who routinely work in wet conditions may, at the LO's discretion, be issued with an extra pair of DMS boots on individual loan (MOD Form 3352A).

11. To be issued on Personal Loan.

12. Issued on first occasion of need at HMS RALEIGH. To be replaced at own cost when required.

13. WO1, WO2 and CPOs undertaking Officer of the Day duties in tropical conditions are to be issued an additional bush jacket.

14. This Uniform Grant is a one-time only issue applicable to individuals newly promoted to Petty Officer. Future maintenance costs are to be met at the individual’s own expense.

15. Gratuitous Issue to Stewards on completion of the Petty Officer Catering Services (POCS) Qualifying/Conversion Course.

16. Gratuitous Issue to Stewards and AB(D) in MCMV/River Role whilst employed in Galley Duties.
2. Scale 2 - RN Female Ratings

   a. **Class I.** Ratings not dressed as Seaman. Warrant Officers, Chief Petty Officers and Petty officers.

   b. **Class II.** Ratings dressed as Seaman.

   c. **Basic Kit**

Notes:

1. These items are to be issued on initial entry into the Naval Careers Service in addition to the Home Retention Scale of kit retained on discharge from active service in accordance with Scale 22.

2. The Naval Careers Service breast badges, (one with pin fastener and one with magnetic fastener), to be provided by Captain Naval Recruiting contract.

3. These items may be exchanged for new items, if necessary, at the intervals specified, or earlier if there is sufficient evidence that irreparable wear or damage is due to Service reasons beyond the owner’s control.

4. A CA3 is entitled, on advancement to CA2, to a gratuitous initial issue, if not previously received, of the full range of CPO badges in accordance with the scales laid down in Annex 39D Para 1.

5. A CA2 is entitled, on advancement to CA1, to a gratuitous initial issue, if not previously received, of the full range of WO badges in accordance with the scales laid down in Annex 39D Para 1.

4. Scale 4 - Naval Careers Service Female RN RFR Careers Adviser (CA).

Note. Replacement factors shown denote the expected wear life per Garment for guidance. Garments should not be replaced before this is justified.

Notes:

1. These items are to be issued on initial entry into the Naval Careers Service in addition to the Home Retention Scale of kit retained on discharge from active service in accordance with Scale 23.

2. The Naval Careers Service breast badges, (one with pin fastener and one with magnetic fastener), to be provided by Captain Naval Recruiting contract.

3. These items may be exchanged for new items, if necessary, at the intervals specified or earlier if there is sufficient evidence that irreparable wear or damage is due to Service reasons beyond the owner’s control.

4. A CA3 is entitled, on advancement to CA2, to a gratuitous initial issue, if not previously received, of the full range of CPO badges in accordance with the scales laid down in Annex 39D Para 1.

5. A CA2 is entitled, on advancement to CA1, to a gratuitous initial issue, if not previously received, of the full range of WO badges in accordance with the scales laid down in Annex 39D Para 1.

5. Scale 5 - RN Ratings Serving in North America

Senior Ratings serving in North America for a period of at least 9 months. (As a general rule, ratings are to wear RN uniform. Exceptionally as a working uniform, khaki clothing may be worn. See Note 1).

<table>
<thead>
<tr>
<th>Item</th>
<th>Scale</th>

<td>2 prs</td>
<td>2</td>
</tr>
</tbody>
</table>
Notes:

1. Similar arrangements apply to ratings assigned for lesser periods. CBNS Washington or SSA SWS/CSSE, as appropriate, is to review, in each case, the need to provide khaki clothing.

2. Eligible ratings are to provide themselves with these items from US Service sources. Receipted invoices are to be forwarded to Royal Navy Overseas Support Unit, HMS NELSON.

6. Scale 6 - RN Ratings Serving in Commando Units and Medical Branch Male Ratings Serving in Other RM Units

a. As a general rule, RN personnel in RM units are to wear RN uniform. Class II Ratings are to wear cap ribbons lettered ‘ROYAL MARINES UNIT’. Exceptionally, RN personnel in commando units, including CTCRM, and RN Medical Branch Ratings only, in other RM units, may wear combat dress on operations or field exercises, and military working dress on appropriate occasions when ordered locally.

b. Shoulder flashes lettered ‘ROYAL NAVY COMMANDO’ in black on green as appropriate, are worn by Commando qualified personnel. The shoulder flashes are to be worn as detailed in Chapter 40.

c. On combat dress and military working dress rank and rate badges are worn as follows:

(1) RN Warrant Officers black on green, or anodised badges, in the same manner as RM Warrant Officers.

(2) CPOs, POs and Leading Hands; black on green shoulder badges.

d. Black on green ‘ROYAL NAVY COMMANDO’ shoulder flashes are to be worn on olive green heavy wool jerseys and CS95 as detailed in para 2.

e. Parachutist badge is to be worn on the right cuff and the Commando badge is to be worn on the left cuff of No 1 Dress, 127mm from the end of the sleeve. No other badges are to be worn on No 1 Dress.

6. Naval Careers Service

The Naval Careers Service badge (see below) is worn centrally above the left breast pocket with the lower edge 3mm above the top seam or medal ribbon(s) when worn immediately above the pocket. If necessary, the badge may be displaced towards the left arm sufficient to prevent concealment by the left lapel. Not to be worn with medals.

Figure 39E-35. Careers Service Officers and Careers Advisers
ANNEX 39F

ROYAL NAVAL VOLUNTEER BAND

1. **Entitlement To Scale**

   a. Members of Royal Naval Volunteer Bands who are also serving members of any military Service, or non-military uniformed Service, are to wear their most appropriate uniform commensurate with the status of the band engagement.

   b. Members of Royal Naval Volunteer Bands not entitled to wear other military Service uniforms, or other non-military Service uniforms, are entitled to wear a uniform as in Para 2 and Para 3 below.

   c. Where at all possible, Clothing Stores are to recycle serviceable items of uniform for members of the RNVBA.

2. **Concert Dress**

Red Sea Rig, comprising White Short Sleeve Tropical Shirt with Black Trousers, or skirt for females (optional), Black Shoes, Volunteer Band Epaulettes.

3. **Parade Dress**

No 1 Suit with Band Service Lyre Badge Gold on Blue, Black Tie, Black Shoes, Peaked Cap/Tricorn Hat as appropriate with Band Service Lyre Badge Gold on Blue.

4. **Royal Naval Volunteer Band Association (RNVBA) Long Service Award**

   a. In recognition of those who voluntarily give much of their spare time to further the interests of the Naval Service, in 2014 the Second Sea Lord instituted the RNVBA Long Service Award. This award is to be worn in No. 1 Dress only (not concert rig).

   b. The design of the Long Service Award consists of a metal Lyre Badge with oak leaves:

      (1) Royal Naval Junior Ratings (and drummers as required) are to wear the Long Service Award centrally on the lower left sleeve, 150mm above the cuff (see Fig 39F-1 below).

      (2) All other Royal Naval Volunteer Band personnel are to wear the Long Service Award centrally on the left lapel of the jacket with the bottom of the badge 50mm below the step seam (see Fig 39F-2 below).

   c. The RNVBA Long Service Award is awarded to RNVBA members at the discretion of the Staff Officer (Music) of the Royal Marines Band Service, based upon recommendation by the individual’s Volunteer Band Instructor (VBI).

   d. Qualification for the award is based on time served in the RNVBA. There are awards for 5 (gold), 15 (silver) and 25 (gold and silver) years’ service.
e. Unlike the LS&GC, campaign medals etc the RNVBA Long Service Award is not from the Sovereign (tracking and eligibility criteria for the award do not allow for this). In order for the RNVBA President, in liaison with the RNVBA Secretary, to satisfy themselves that the award is warranted, VBIs are required to submit annual nominal rolls to the Assistant Secretary RNVBA of members who attend regular rehearsals and engagements (including notes of the amount of time previously served). VBIs are to use the annual return to nominate and recommend eligible members for the most appropriate Award.

f. Submissions are to be forwarded by 31 Jan annually.

CHAPTER 40
ROYAL MARINES OFFICERS AND OTHER RANKS

SECTION 1 - INTRODUCTION

Note. The contents of this Chapter should be read in conjunction with Chapter 37 and Chapter 38.

4001. History

The history of Marines in the UK commenced on 28 October 1664 when King Charles II signed an Order in Council for the formation of The Duke of York and Albany’s Maritime Regiment of Foot (or The Admiral’s Regiment), a regiment distinguished by its yellow coats with red facings. The subsequent century saw various disbandments and the raising of new regiments of Marines, some twenty-three in all, as well as four Invalid Companies. All of these had their own uniforms and distinctions. These early Marine Regiments provided men trained as soldiers for service at sea but were part of the Army. Accordingly, Marine uniforms were military rather than naval in style and followed the Army fashions of the day. The disastrous campaign at Cartagena, in Columbia, in 1741, led Admiral Lord George Anson to conclude that a principal fault had been the chaotic organisation and poor administration of the ten Marine Regiments then in the Army Order of Battle. In 1747 he carried through radical reforms which ensured that any future Marines should only be raised and administered by the Admiralty. As First Lord of the Admiralty in 1755, when war threatened once more, he was able to enact these reforms and thus an Order in Council of 5 April 1755 specified the creation of a Corps of Marines under Admiralty control. This Corps retained the tradition of military style uniforms along with military ranks and rank badges. Since 1755, the Corps has been in continuous existence as a distinct and separate part of the Naval Service. On 29 April 1802, King George III recognised the Corps’ loyal service by directing that the Corps should be styled ‘Royal’ and, in consequence, the white facings on their scarlet coats were replaced by the blue of a Royal regiment. Although Marine Artillery Companies were formed in 1804 and the Royal Marines were designated a Light Infantry corps in 1855, it was not until 1862 that the Corps was formally split into the Royal Marine Light Infantry (RMLI) and the Royal Marine Artillery (RMA). The former wore infantry style uniforms with scarlet tunics whilst the latter wore artillery style uniforms with navy blue tunics. In 1923, the two arms of the Corps were re-merged to become once again the Royal Marines. This amalgamation led to the adoption of navy blue tunics for day dress whilst scarlet was retained for evening wear on mess jackets by officers, WOs and SNCOs. Khaki uniforms were adopted for field service in World War 1 and various forms of khaki uniforms remained in service until 1964, whilst khaki drill (and later stone) uniforms were introduced for tropical wear. In 1964, a lovat green uniform replaced Khaki Service Dress and Battledress for wear as a day undress uniform or alternative parade uniform. In addition to khaki battledress, various forms of combat clothing have been worn since World War 2, often theatre specific. Latterly, these are often tri-service items. In the late 19th Century and up until the 1980s, various orders of blue working dress, such as blue battledress, have been worn, particularly by ships’ detachments. In 1992, recruiting into the RM Band Service was opened to females so female variants of appropriate Orders of RM Dress were introduced. Further detail on the history of RM uniforms can be found in RM Historical Society Special Publication 41 – ‘Personal Distinctions – 350 Years of RM Uniforms and Insignia’ by John Rawlinson, published in 2014 (ISBN 978-1-908123-09-1).
4002. **Dress Tables**

Approved orders of dress are promulgated in Dress Tables. Whilst these lay down the standard configurations, commanders should note that, in some cases, variations may be authorized by the appropriate senior officer. This is to take account of particular circumstances which may include factors such as weather, location and context, or practical considerations such as being afloat or taking passage in boats. Details for RM General Service personnel are given in the tables at Annex 40A, whilst those for RM Special Boat Service (SBS) personnel are in Annex 40F and those for RM Band Service personnel are in Annex 40G. Numbers and names are assigned to the various orders of dress for convenience when referring to them. For the Orders of Dress to be worn at Court functions, or at Joint Service functions when members of the Royal Family are present, see the Joint Services Ceremonial Dress Table in Chapter 43. Associated items of equipment worn with various orders of dress are given in the Dress Tables at Annex 40A.

4003. **Dress When Serving with RN or Other Services**

Royal Marines will conform, when possible, to the number of dress ordered for the Royal Navy. When serving with the other Services, they are to wear the nearest appropriate Dress. For certain ceremonial occasions, however, where RN personnel are wearing No. 1B Dress, the senior RM officer may order No 1A Blue Dress (negative swords) to be worn in lieu of No. 1B Lovat Dress.

4004. **Royal Marines Reserve Uniform**

Royal Marines Reserve officers, WOs, NCOs and Marines wear the same uniform as regular RM personnel of the same rank. However, Lovat uniform is not on general issue to RMR personnel.
SECTION 2 - DISTINCTIONS IN UNIFORM - SENIOR OFFICERS

4005. General Officers

Articles of uniform for General Officers are of Corps pattern with the following modifications:

a. **Greatcoat.** Corps pattern blue greatcoats are worn without gorget patches or globe and laurel collar insignia.

b. **High Collar Blue Tunic.** In No. 1A Dress on ceremonial occasions a blue tunic with stand-up collar (Army pattern No. 1) is worn. The accessories for wearing with this dress comprise:

   1. Gold shoulder cords with silver-embroidered rank badges.
   2. Crimson and gold waist sash.
   3. General Officers’ full-dress sword with metal scabbard, crimson and gold sword knot, gold sword slings.
   4. Plain white gloves.
   5. All buttons are 20mm Corps pattern.
   6. Army No. 1 Dress pattern gorget patches.

c. **Badges.** Royal Marines General Officers wear the same cap/beret badges and badges of rank as prescribed for Army General Officers (see Fig 40E-1a). The large version of the General Officer’s cap badge is worn on the peaked cap whereas the small version of the General Officer’s cap badge is worn on the beret. Letters ‘RM’ are not worn.

d. **Gorget Patches.** General Officers’ gorget patches ie. scarlet patches with gold oak leaf embroidery and small 13mm General Officers’ buttons (see Figs 40E-4a and 40E-6a) are worn with all orders of dress other than Combat Dress and Mess Dress as follows:

   1. **High Collar Blue and White Tunics.** Army No. 1 Dress pattern gorget patches, which are 101mm long to the point and 33mm wide, triangular at the points and rectangular at the base.

   2. **Lovat and Stone Tunics.** Army No. 2 Dress pattern gorget patches, which are 90mm long to the point and 33mm wide, triangular at the points and shaped to fit the collar. Those worn on lovat tunics are to have bronze 13mm buttons rather than the anodised 13mm buttons worn on gorget patches on blue or stone tunics.
(3) **Shirts.** Patches to be 50mm long to the point and 25mm wide. Worn horizontally on each side of the opening of the collar, point to the rear, the top of the patch being 10mm from the top of the collar. Those worn with Shirt-sleeve Order Lovat Dress are to be fitted with 13mm bronze buttons whereas those worn with Shirt-sleeve Order Stone Dress are to be fitted with 13mm anodised buttons.

e. **Cap.** White, plastic-topped, Corps pattern but with gold-embroidered oak leaves all round the peak. ie. two bands of oak leaves (see sub-para c above and Fig 40E-2a).

f. **Gloves.** White, cotton.

g. **Scarlet Mess Jacket.** Fitted with blue cloth shoulder straps edged with 13mm oak-leaf pattern gold lace and fastened at point with small 13mm General Officer’s button. Silver-embroidered rank badges on shoulder straps. Corps badge (see Para 4015) on each lapel.

h. **White Mess Jacket.** Fitted with white drill shoulder straps fastened at point with small 13mm General Officers’ button. Miniature anodised rank badges on shoulder straps. Corps badges fitted with Velcro as above.

i. **Blue Trousers and Overalls.** Scarlet cloth stripe 64mm wide in place of 6mm welt.

j. **13mm General Officer’s Button (Anodised and Bronze).** Raised round button 13mm in diameter with crossed sword and baton surrounded by laurel wreath. Worn by General Officers on gorget patches and the shoulder straps of mess jackets (see Fig 40E-4a).

k. **20mm RM General Officer’s Button.** A Corps pattern anodised button 20mm in diameter for wear only on high collar blue and white tunics.

l. **Items such as General Officers’ dress swords, scabbards, sword knots, sword belts and sashes can be obtained from the Ceremonial Store, details of which are as follows:**

   G4 SNCO  
   JSAU London  
   London Central Garrison  
   Wellington Barracks  
   LONDON  
   SW1E 6HQ  
   CIV: 0207 414 3351/0207 799 2924  
   MIL: 94631 3351  
   rqmsmodmain@hotmail.co.uk
4006. **Brigadiers and Colonels**

Articles of uniform for Brigadiers and Colonels are of Corps pattern with the following modifications:

a. **Greatcoat.** Blue greatcoats are worn without gorget patches or globe and laurel collar insignia.

b. **Badges.** Royal Marines Brigadiers and Colonels wear the same cap/beret badges and badges of rank are worn as prescribed for Army Brigadiers and Colonels (see Fig 40E-1b). The large version of the General Staff cap badge is worn on the peaked cap whereas the small version of the General Staff cap badge is worn on the beret. Letters ‘RM’ are not worn.

c. **Gorget Patches.** Staff gorget patches ie. scarlet patches with crimson gimp cord and small 13mm Army Staff (EIIR with garter emblem) buttons (see Figs 40E-4b and 40E-6b) are worn with all orders of dress other than Combat Dress and Mess Dress, as follows:

   (1) **High Collar White Tunics.** Army No. 1 Dress staff pattern gorget patches, which are 101mm long to the point and 33mm wide, triangular at the points and rectangular at the base.

   (2) **Blue, Lovat and Stone Tunics.** Army No. 2 Dress staff pattern gorget patches, which are 90mm long to the point and 33mm wide, triangular at the points and shaped to fit the collar. Those worn on lovat tunics are to have bronze 13mm buttons rather than the anodised 13mm buttons worn on gorget patches on blue or stone tunics.

   (3) **Shirts.** Staff clip-on gorget patches are to be 50mm long to the point and 25mm wide. Worn horizontally on each side of the opening of the collar, point to the rear, the top of the patch being 13mm from the top of the collar. Those worn with Shirt-sleeve Order Lovat Dress are to be fitted with 13mm bronze buttons whereas those worn with Shirt-sleeve Order Stone Dresses are to be fitted with 13mm anodised buttons.

d. **Cap.** White, plastic-topped, Corps pattern but with gold-embroidered oak leaves round the front of the peak (see Fig 40E-2b).

e. **Scarlet Mess Jacket.** As for General Officers, except that shoulder straps are edged with 13mm, Staff pattern gold lace and fastened at point with small Army Staff (EIIR with Garter Emblem) buttons.

f. **White Mess Jacket.** As for General Officers, but with small 13mm Army Staff (EIIR with Garter Emblem) buttons for shoulder straps.

g. **Blue Trousers and Overalls.** Scarlet cloth stripe 45mm wide in place of 6mm welt.
h. **13mm Army Staff Pattern Button (Anodised and Bronze).** Raised round button 13mm in diameter with the cypher EIIR in the garter emblem. Worn by Colonels and Brigadiers on gorget patches and the shoulder straps of mess jackets.

### 4007. Colonels Commandant and Honorary Colonels

The policy for Colonels Commandant and Honorary Colonels uniforms is as follows:

a. **Colonels Commandant.** On special occasions Colonels Commandant of the Royal Marines may wear the uniform of their rank on retirement or the approved alternative, which is General Officer’s uniform with Colonel’s badges of rank.

b. **Honorary Colonels.** On special occasions, Honorary Colonels of the RM and RMR may wear the uniform of their rank on retirement or the approved alternative, which is Corps Uniform (ie. uniform worn by Lieutenant Colonels RM and below) with Colonel’s badges of rank.

### 4008. Distinctions in Uniform - Band Officers

Articles of uniform for officers of the Royal Marines Band Service are of Corps pattern with the following modifications:

a. **No. 1 Dress - Ceremonial Blue Dress.** Blue cloth tunic with stand-up collar (pre-World War 2 Full Dress pattern); with the following accessories for wear with this Dress:

   **EITHER:**

   (1) Gold shoulder cords with silver-embroidered rank badges.

   (2) Crimson waist sash.

   (3) Dress sword with metal scabbard, gold sword knot and sword slings.

   (4) Plain white cotton gloves.

   **OR**

   (1) Blue frock coat with stand-up collar.

   (2) Crimson sash.

   (3) Gold embroidered rank badges.

b. **No. 1AW Dress - Tropical Ceremonial Dress.** White cloth tunic with stand-up collar, white trousers and white shoes. The accessories for wear with this Dress are as for Full Dress Blues above with anodised officers’ pattern collar badges.

c. **Wellington Boots.** Patent leather officers’ pattern Wellington boots may be worn for all appropriate occasions.
d. **Helmet Plate.** Officers of RM Band Portsmouth and RM Band CTCRM wear the same special insignia on the helmet plate (not cap or beret) as other ranks of these bands (see Para 4013).

e. **Blue Trousers and Overalls.** Scarlet cloth stripe 45mm wide in place of 6mm welt. Overalls may be worn on all appropriate musical occasions.

4009. **Distinctions in Uniform - Warrant Officers Class 1**

Articles of uniform for WO1s are of RM WOs, NCOs and Marines’ pattern with the following modifications:

a. **Regimental Blue Uniform.** Officers’ material and pattern, but tunics are to be fitted with a high collar worn with anodised officer pattern collar badges. Tunic sleeves are to have a subtle crease.

b. **Cap, Plastic, RM.** Officers’ pattern.

c. **Helmet WP.** Officers’ pattern helmet plate and ball ornament.

d. **Cap and Collar Badges.** Officers’ pattern.

e. **Blue Lanyard.** Officers’ pattern.

f. **Boots, Ankle.** Officers’ pattern.

g. **Tie, Light Khaki Braided.** For wear with No. 1B and No. 1C Dress.

h. **Shoes, Black.** Officers’ pattern.

4010. **Distinction in Uniform - WO1 Bandmasters and WO1 Buglers**

In addition to the articles at Para 4009, WO1 Bandmasters and WO1 Buglers are also entitled to the following articles of uniform:

a. **No. 1 Dress - Ceremonial Blue Dress.** Blue cloth tunic officers’ pattern and blue frock coat, both as Para 4008 but with appropriate rank badges and worn with blue Band trousers and WO1 parade boots.

b. **No. 1AW Dress - Tropical Ceremonial Dress.** Officers’ pattern as in Para 4008, with appropriate rank badges and worn with WO1 parade boots.

c. **No. 2C Dress - Red Sea Rig.** White short sleeved shirt, blue trousers (thick or thin stripe), red cummerbund, black shoes and white leather wrist strap for assignment or rank.
4011. Distinctions in Uniform - Drum Majors, Bugle Majors, Musicians and Buglers

Articles of uniform for ranks of the RM Band Service and Buglers are of RM WOs, NCOs and Marines pattern with the following modifications:

a. No. 1 Dress - Ceremonial Blue Dress (Drum Majors’ Pattern). Drum Majors in complement billets are issued with a special, gold-braided ceremonial tunic.

b. Wellington Boots and Overalls. Officers’ pattern Wellington boots and overalls will be worn by Drum Majors on ceremonial parades.

c. Drum Majors’ Ceremonial Accessories. All Drum Majors to wear worsted scarlet sash, dress belt, dress sword with metal scabbard, white sword knot and slings (WO1 Drum Majors to wear gold sword knot and slings), blue sword belt (worn under tunic) and Drum Majors’ pattern white gauntlets.

d. Dress Cords Royal. Dress Cords Royal, silk for Bugle Majors, worsted for other Buglers, are worn as ordered. The method of wearing is the hook at the tassel end is to be secured to a becket sewn underneath the left shoulder strap at the front, as near to the point of the shoulder as practicable. The tassels, when secured, should lie naturally at the front of the left shoulder. The running end should then be taken across the upper chest, over the right shoulder beneath the shoulder strap; the cord between the shoulders lying in a natural curve, being secured to the third button on No. 1 Dress – Ceremonial Blue Dress tunics, second button on No. 1A Dress - Regimental Blue Dress and No. 1AW Dress - Tropical Ceremonial Dress tunics and to the top button on No. 1B Dress - Lovat Dress tunics, between the two toggles provided. Securing of the cord is completed by bringing the running end round the back of the right shoulder, under the armpit, and, except for the lovat tunic, securing the eye at the end to the top button of the tunic. On the lovat tunic the eye is to be secured to a small hook sewn under the right lapel 90mm above the top button. The plait below the eye should curve naturally towards the right armpit. If a drum carriage is worn, the loop across the chest should be underneath, and that part of the cord running from the right armpit, secured over the top of the carriage.

e. No. 1 Dress - Ceremonial Blue Dress. A yellow-braided blue cloth tunic is provided for wear by Musicians and Buglers with No. 1 Dress – Ceremonial Blue Dress on appropriate occasions. For Band Sergeants, Sergeant Buglers and above the tunic is gold-braided.

f. Blue Trousers. Drum Majors and Musicians wear a broad scarlet stripe (45mm) on serge trousers. WO1 Drum Majors wear a thin stripe on serge trousers when in No. 1A, 1AS Dress and Frockcoat Order.

g. Locket Union and White Belt. All RMBS personnel (SNCO and below) are to wear a gold-plated locket union with lion and crown design surrounded by ‘Gibraltar’ above and regimental motto ‘Per Mare Per Terram’ below. Locket unions are to be attached to a solid plastic white belt in No. 1 Dress - Ceremonial Blue Dress (and other uniforms when ordered) and to be worn centrally around the waist. The plastic runners are to fit firmly against the metal bars with the ‘tongue’ behind (edge of plastic runners to point down). Metal side runners to be fitted as required, prong facing towards the front and pointing out.
h. **Cross Strap and Pouch with Device.** With the exception of SNCOs, bass players, bass drummers, tenor drummers and Buglers, all RMBS personnel in No. 1 Dress - Ceremonial Blue Dress are to wear a solid plastic cross strap and pouch. The cross strap is to be worn over the left shoulder with the brass buckle positioned immediately in front and below the left shoulder strap and is to lie diagonally across the front of the body, under the uppermost button on the tunic. The pouch is to be positioned centrally in the small of the back with the bottom of the device (lion and crown above regimental motto 'Per Mare Per Terram' scroll) fitted centrally on the pouch immediately above stitching.

i. **No. 1B/1C Dress - Lovat Dress.** Lovat suits are only to be issued and worn by Directors of Music, Bandmasters, Drum Majors, Bugle Majors (dress cords to be worn), HQBSRM SNCOs, Volunteer Band Instructors and designated RMBS personnel with authority from SO2 Band. Prince's Badge to be worn. Bandmaster, Drum Major and Bugle Major appointments to be worn (these badges are to be locally purchased as required). Musician and Bugler SQ badges are no longer worn (ranks already in possession of an SQ badge may continue to wear it).

j. **No. 1AW Dress - Tropical Ceremonial Dress.** White cloth tunic with stand-up collar, white trousers and white shoes. The accessories for wear with this dress are as for temperate No. 1 Full Dress Blues - Ceremonial Dress.

k. **No. 2C (Band) Dress - Red Sea Rig.** White short sleeved shirt, gold on red rank badges, sewn on white brassard, (WO2s white leather wrist strap for badge of rank or assignment), white epaulette slides with anodised letters 'RM', blue serge trousers, red cummerbund and black shoes. May be worn by RMBS personnel (SNCOs may wear No. 2C Dress in place of Mess Dress if performing as part of an ensemble) when performing on band engagements where guests are wearing No. 2B Mess Undress or No. 2C Red Sea Rig, with the permission of the Mess President. ‘Royal Band’ shoulder flash (on brassard) and Prince’s badges (Velcro attachment) are to be worn in this uniform.

l. **Maternity Uniform.** Pregnant RMBS personnel are to wear Maternity Uniform iaw Para 3814. Rank/appointment badges and flashes to be worn iaw directions for Half Lovats (cardigan and shirts). Letters ‘RM’ (bronze) and rank (white on khaki) only to be worn on maternity dress (no Prince’s Badge or shoulder flashes) with ‘barely black’ tights.

4012. **Cap and Beret Badge**

a. **Officers and WO1s**

(1) The Corps badge is worn by all officers below the rank of Colonel and WO1. The Army pattern badge is worn by Colonels and Brigadiers (lion and crown) and General Officers (crossed sword and baton in wreath surmounted by a crown).
(2) The Corps badge is in two parts: a globe in a laurel wreath and a lion on a crown; the globe in silver, remainder anodised (see Fig 40E-1c). The beret badge worn with Combat and Training Dress is similar but in bronze throughout. The manner of wearing on cap and beret is detailed below.

b. **WO2s.** A divided (split) badge (i.e. lion and crown separate from, and above, the globe and laurel) anodised (including the globe) or bronze, as appropriate, is worn by all WO2s (see Fig 40E-9b).

c. **NCOs, Marines, Musicians and Buglers.** The globe, laurel, lion and crown badge, anodised or bronze, as appropriate, is worn by all NCOs and Marines in one piece (composite) (see Fig 40E-9c), with the following exceptions:

1. **RM Band Portsmouth.** On the cap only (not beret) WO2 Bandmaster, Drum Major/Corps Drum Major and all Musicians (excluding Director of Music and WO1 Bandmaster) of RM Band Portsmouth wear a gilt ‘bursting grenade’ on which is mounted the royal cypher GRV and a St Edward’s crown in silver surrounded by a laurel wreath. The ‘bursting grenade is to be fitted centrally with the tips of the laurel wreath just touching the white of the cap. The royal cypher EIIR/PP with crown in silver is worn centrally 10mm above the grenade. Corps Bugle Major/Bugle Major and Buglers do not wear these cyphers.

2. **RM Band CTCRM.** On the cap only, band ranks (not beret) WO2 Bandmaster, Drum Major and all Musicians (excluding Director of Music and WO1 Bandmaster) of RM Band CTCRM wear the anodised divided cap badge with the Prince of Wales’s plumes in silver between the globe and laurel and the lion and crown. The globe and laurel is to be fitted centrally with the tips of the laurel wreath just touching the stitching at the top of the red band. The Prince of Wales’ plumes to be fitted above the globe and laurel with the bottom of the quills just touching the stitching. The lion and crown is to be worn centrally 10mm above the Prince of Wales’s plumes. Buglers do not wear this cypher.

d. **Details for Wear**

1. The composite badge is worn as follows:
   
   a. **Caps.** Centrally in front of the cap, with the top of the red band running through the crown.
   
   b. **Berets.** Immediately over the left eye: blue beret - centrally within the red patch; green beret - 5mm above the leather band. The lining is not to be removed.

2. The divided badge is worn as follows:

   a. **Caps.** With the tips of the wreath level with the top of the scarlet band but below the scarlet welt. The base of the lion and crown is to be 10mm above the scarlet band. The lining is not to be removed.
(b) **Berets.** As in Para 4012 sub para b but with the crown 10mm above the globe.

e. SBS badged personnel wear the cloth SBS badge on their berets, 5mm above the leather band centrally over the left eye.

f. SBS(R) ranks wear the cloth badge on completion of JSF Selection Course, when they reach the level of Sabre Squadron Ready.

4013 **Helmet Plate and Ball Ornament**

a. **Helmet Plate**

   (1) **Officers and WO1s.** A gilded metal eight-pointed star with dead and bright rays, and crown above (see Fig 40E-3). On the star a gilded metal laurel wreath and saw-pierced garter with regimental motto ‘Per Mare Per Terram’; above the garter a scroll ‘Gibraltar’ and below it an anchor, in the centre a silver globe. Under the saw-pierced garter, blue enamel. The plate is to be positioned centrally on the front of the helmet with the top crown and bottom central ray in line with the central seam. The points of the lower two rays (either side of the centre) are to just touch the top edge of the helmet band. Directors of Music of the RM Bands wear the appropriate cyphers as detailed in Para 4013.a sub para (3) and Para 4013.a sub para (4) below.

   (2) **WO2s, NCOs, Marines, Musicians and Buglers.** A gold-plated metal eight-pointed star with dead and bright rays, and crown above (see Fig 40E-10). On the star a laurel wreath and saw-pierced garter with regimental motto ‘Per Mare Per Terram’; above the garter a scroll ‘Gibraltar’ and below it an anchor, in the centre a globe positioned iaw Para 4013.a sub para (1) above.

   (3) **RM Band Portsmouth.** The Director of Music, WO1/WO2 Bandmaster, Corps Drum Major/Drum Major and all Musicians of RM Band Portsmouth wear two royal cyphers in silver attached to the helmet plate, the cypher GVR over the anchor and below the globe and the cypher EIIR/PP below the crown. Corps Bugle Major/Bugle Major and Buglers do not wear these cyphers. Positioned iaw Para 4013.a sub para (1) above.

   (4) **RM Band CTCRM.** The Director of Music, WO1/WO2 Bandmaster, Drum Major and all Musicians of RM Band CTCRM wear the Prince of Wales’s plumes in silver centrally upon the helmet badge above the globe and partially covering the crown. Buglers do not wear this cypher. Positioned iaw Para 4013.a sub para (1) above.

b. **Ball Ornament**

   (1) **Officers and WO1s.** A threaded gilded metal ball in a gilt leaf cup on a dome base with open vents. The ball ornament is to be worn on top of the helmet, screwed through the fitted lacquered metal ventilator with the central leaf of the cup in line with the front helmet seam and the middle vent hole of the dome in line with the rear helmet seam.
4014. Collar Badges

a. Officers (Lt Col and below) and WO1s. A silver globe in anodised laurel wreath (see Fig 40E-11a) or the same badge all in bronze (the latter is only worn on lovat tunics). Worn centrally on the step of the collar of blue, lovat and stone prestige tunics (WO1s on blue tunics with badges set 4mm above the collar seam with the centre of the badge 50mm from the end of the collar). The badge is also worn on No. 1AW Dress - Tropical Full Ceremonial Dress. Worn in a miniature on each lapel of the mess jacket, both scarlet and white, with the centre of the badge 170mm below the neck point of the shoulder seam. On mess jackets, miniature medals are worn below the badge. On greatcoats, the badge is worn on the collar.

b. WOs, NCOs, Marines, Musicians and Buglers. Metal globe and laurel badges on blue (see Fig 40E-11b) and lovat uniforms. On blue tunics the anodised badges are to be set 5mm above the collar seam with the centre of the badge 50mm from the end of the collar. On lovat tunics the bronze badges are to be worn centrally on the step of the collar, the bottom of the laurel wreath 5mm above the edge of the step. Worn in an anodised miniature version on each lapel of the mess jacket, both scarlet and white, with the centre of the badge 170mm below the neck point of the shoulder seam, by WO2s and SNCOs. On mess jackets, miniature medals are worn below the badge. Collar badges are not worn on other garments.

c. RM Band Service Personnel

(1) No. 1 Dress – Ceremonial Blue Dress. JNCOs, Musicians and Buglers wear embroidered yellow on scarlet collar badges on No. 1 Dress - Ceremonial Blue Dress. SNCOs wear braided gold on scarlet collar badges. To be set centrally within the collar band, with the centre of the badge 40mm from the end of the collar. Officers and WO1s wear solid silver globe in gold braided laurel wreath collar badges. To be set centrally within the collar band, with the centre of the badge 70mm from the outside edge of the collar.

(2) No. 1 Dress – Ceremonial Blue Dress (Frockcoat Order). Officers and WO1s wear solid silver globe in gold braided laurel wreath collar badges. To be set centrally within the collar band, with the centre of the badge 50mm from the outside edge of the collar. With the exception of officers and WO1s (Para 4014 sub para a), RM Band Service personnel do not wear collar badges on No. 1AW Dress - Tropical Ceremonial Dress.

d. SBS Badged Personnel. SBS badged personnel including SBS(R) personnel qualified Sabre Squadron Ready wear the metal SBS badge on lovat tunics. Officers and SNCOs wear a miniature SBS badge on each lapel of the mess jacket, with the centre of the badge 170mm below the neck point of the shoulder seam.

(2) WO2s, NCOs, Marines, Musicians and Buglers. A threaded gold-plated metal ball in a leaf cup on a dome base with closed vents. Worn iaw Para 4013.b sub para (1) above.
4015. Corps Badge (Mess Dress for General Officers, Brigadiers and Colonels)

The Corps badge (globe, laurel, lion and crown, battle honour ‘Gibraltar’, fouled anchor and Corps motto ‘Per Mare Per Terram’), embroidered in gold, is worn by Colonels and above on each lapel of the mess jacket, both scarlet and white, with the centre of the globe 230mm below the neck point of the shoulder seam. On white jackets the badge is to be mounted on Velcro to permit removal when the jacket is washed. Miniature medals are worn above the badge. Miniature pilot’s wings (if entitled) are worn above the miniature medals.

4016. Letters ‘RM’ and Corps Pattern Belt

a. Block Letters (Size 13mm - Anodised or Bronze)

(1) Worn in the centre of the shoulder straps below badges of rank and 10mm above the shoulder seam. Worn with all forms of No. 1 Dress, 2C, 3A, 3AW, and 3BW dresses. Not worn by Colonels and above or on raincoats or Band and Buglers’ No. 1 Dress - Ceremonial Blue Dress

(2) Badged SBS and Sabre Squadron Ready SBS(R) personnel wear the bronze letters SBS in place of RM in the centre of the shoulder straps below badges of rank and 10mm above the shoulder seam of the lovat suit.

b. Corps Pattern Belt. Worn with the leather buckle on left hip and silver buckle adjusted to fit centrally.

4017. Rank Badges

a. Officers. Rank badges are worn on the chest or shoulder straps, where fitted. On the mess jackets of officers below Colonel they are worn on both lapels, 5mm above the Corps badge.

(1) The following type of rank badges will be worn in the order of dress shown:

<table>
<thead>
<tr>
<th>Rank</th>
<th>Orders of Dress</th>
</tr>
</thead>
</table>
| Bronze | No 1B Lovat Dress.  
No 1C Lovat Undress.  
No 3A Half Lovats. |
| Black on Olive Green | No 3C Half Lovats 3B and 3D Training Rig.  
No 4 Combat Dress. |
| Sand on MTP | No 4 Combat Dress for Operations (if directed by an operational theatre commander). |
| Anodised | Remaining orders of dress. |
(2) The badges to be worn are as follows:

<table>
<thead>
<tr>
<th>Rank</th>
<th>Badge Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Second Lieutenant</td>
<td>Star</td>
</tr>
<tr>
<td>Lieutenant</td>
<td>2 Stars</td>

<td>Crown above crossed batons surrounded by a laurel wreath</td>
</tr>
</tbody>
</table>

(3) The devices, as in Para 4017 sub para a, above, are Army pattern. The sword and baton device reversed for right and left shoulders, with the point of the sword to the front in each case. Stars and crowns are to be 16mm size, except on the mess jacket of officers below Colonel, where they are to be 13mm. 13mm anodized miniature badges are also used by Colonels and above on white mess jackets. Crossed sword and baton badges worn on greatcoats, blue tunics, lovat tunics and stone tunics are to have batons which are 40mm long. White mess jackets are to have batons which are 33mm long. Army pattern crossed sword and baton of 48mm long worn on Army greatcoats are not worn by RM Generals. The distance apart of the devices is to be 5mm.

b. **WOs.** Rank badges are worn on the lower right arm only, except as follows:

   **Personal Clothing System Combat Uniform (PCS CU) Combat Jackets and Windproof Smocks.** Worn on the chest.

c. **SNCOs and Marines.** Rank badges are worn on the upper right arm only, except as follows:

   (1) **Blue Greatcoat.** Gold on red – lower right arm only.

   (2) **PCS CU Combat Jacket and Windproof Smock.** Rank slide worn on chest.

d. A table showing details is at Annex 40D.
4018. Good Conduct Badges

a. ‘V’ shaped stripes, 13mm wide, 127mm across top. Worn point upwards on the left arm with the inner angle of the lowest stripe 7mm above the point of the sleeve slash on the regimental blue and stone tunics.

b. Good Conduct Badges are only to be worn by Marines, Musicians and Buglers and then only on the regimental blue and stone tunics. They are not worn on Musician and Bugler full dress blue or white ceremonial tunics.

4019. Branch, Specialist Qualification, Skill and Special Badges

a. The category, description and wear of Branch, Specialist Qualification, Skill and Special badges is shown in Annex 40D.

b. Stars and Crowns. Stars and crowns are added to the basic specialist qualification badges to indicate the classes of qualification, as follows. When there are letters as part of the basic device, the letters are placed below the star.

   (1) Instructor. Crown above basic device and two stars below.

   (2) First Class. Crown above basic device.

   (3) Second Class. Star above and star below basic device.

   (4) Third Class. Star above basic device.

For a period of time, all classes of SQ wore the same basic device without crowns and stars. Uniforms with this basic device do not need to be altered.

c. Badges Awarded During Former Service in RN, Army or RAF. Badges from previous service are not to be worn unless they are badges currently authorised for wear by RM WOs, NCOs and Marines; provided also that the privilege of wearing the badge has not been withdrawn.

d. RM Provost Armblets. The ‘MP’ armband, as provided for the Royal Military Police, is to be worn immediately above the right elbow. When chevrons are worn on the upper arm, the armband should just cover the lower point of the bottom chevron, with the letters ‘M’ and ‘P’ on either side of the apex of the chevron.

e. Unit Police Armblets. Ranks on unit police duties are to wear the authorised armblet (‘NP’, ‘RP’ or ‘RMP’ as appropriate) on the left sleeve immediately above the cuff of the tunic of greatcoat, or in a similar position on other uniform garments. The armblet is worn on the left wrist when long-sleeved garments are not worn.
f. **Flying Badges.** RN pilot’s wings, comprising gold embroidered wings extended behind a silver foul anchor with a crown above with a laurel wreath, are to be worn by all entitled personnel, including all RM personnel who qualified after 1996 via the Defence Elementary Flying Training School. Prior to the institution of Joint Services Flying Training, trainee pilots were awarded wings by the Service whose course they attended: pilots awarded Army or RAF wings may wear these instead of RN wings. The badge is worn as follows:

1. **Blue, Lovat and Stone Tunics and Stone Shirts.** Centrally 65mm above the top row of medal ribbons, or if no medal ribbons are worn, 65mm above the left breast pocket.

2. **Mess Jackets.** For Lt Cols and below, flying badges are to be worn immediately below the globe and laurel badge on the left lapel, miniature medals being lowered accordingly. The exception is that officers of Colonel’s rank and above wear their wings above their miniature medals, which are worn above the Corps Badge.

3. **PCS CU Combat Jackets and Windproof Smock.** Worn in approximately the same position as on blue, lovat or stone tunics, although these items do not have pockets.

g. **Parachutist Badge.** The Army pattern parachutist badge, a parachute with wings, should be worn on the right arm 50mm below the shoulder seam, by personnel who are qualified parachutists, as follows:

1. **Blue and White Tunics.** The full-sized badge in gold on extra dark navy blue. On white tunics the badge is to be mounted on Velcro to permit removal for washing.

2. **Lovat Tunics.** A two-thirds size badge in gold on green.

3. **Mess Jackets.** The miniature badge (length 51mm, height 20mm) gold on scarlet. On white mess jackets the badge is to be mounted on Velcro to permit removal for washing.

4. **Stone Tunics and Shirts.** The full-sized badge in light blue/white on khaki drill.

5. **Combat Dress (PCS CU Combat Jackets and Windproof Smock).** The full-sized badge in black on green. If black on green badges are not available, the full-sized badge in light blue/white on khaki drill may be worn as an alternative. Foreign parachute wings may be worn just above the top right breast pocket on combat uniforms, but only when serving with the Armed Forces that awarded the wings in the first place.
h. **King's Badge and Prince's Badge.** The King's Badge and Prince’s Badge are to be worn on all orders of dress, including PCS CU, on the left arm, 50mm below the shoulder seam. The colours vary according to the order of dress, as follows:

1. **Blue Tunics.** The full-sized badge in gold on extra dark navy blue.

2. **Lovat Tunics.** A two-thirds size badge in gold on green.

3. **Mess Jackets.** A two-thirds size badge in gold on scarlet.

4. **Stone Tunics and Shirts.** The full-sized badge in khaki on khaki drill.

5. **PCS CU Combat Jackets and Windproof Smocks.** The full-sized badge in black on olive green.

i. **The Commandant General's Shooting Badge.** The Commandant General’s Shooting Badge, a gold on extra dark navy blue, lovat and scarlet badge, is to be worn on the lower left sleeve of the regimental blue tunic, the lovat tunic and the red mess jacket in place of the standard marksman’s badge, by personnel who form or have formed (from 1986 onwards) part of the RM Bisley Shooting Team.

j. **Royal Marines Commando Flashes**

1. All Royal Marines who have completed the Commando Course are to wear a red on extra dark navy blue ‘ROYAL MARINES COMMANDO’ flash on both sleeves of the jersey wool heavy. The flash is to be sewn centrally with its upper edge touching the shoulder seams.

2. A black on green ‘ROYAL MARINES COMMANDO’ flash is to be worn by all RM Commando trained personnel on both sleeves of all PCS CU combat jackets and windproof smocks. The flash is to be sewn centrally with its upper edge touching the shoulder seam.

k. **Royal Marines Band Service Flashes**

1. All RM Band Service personnel are to wear a red on extra dark navy blue ‘ROYAL MARINES BAND SERVICE’ flash on both sleeves of the jersey wool heavy and maternity cardigan. The flash is to be sewn centrally with its upper edge touching the shoulder seam.

2. A black on green ‘ROYAL MARINES BAND SERVICE’ flash is to be worn by all RM Band Service trained personnel on both sleeves of all PCS CU combat jackets and windproof smocks. The flash is to be sewn centrally with its upper edge touching the shoulder seam.
l. **Royal Band’ Flash.** All Musicians and Buglers (including the Director of Music Bandmaster (WO1/WO2), Corps Drum Major/Drum Major, Corps Bugle Major/Bugle Major and Buglers) of RM Band Portsmouth wear a ‘ROYAL BAND’ shoulder flash, in appropriate colours, on the upper right sleeve of all uniforms (replacing the Royal Marines Band Service Badge on the jersey wool heavy/maternity cardigan). The badge is to be sewn centrally with its upper edge 20mm below the shoulder seam.

m. **Special Boat Service Parachutist’s Badge.** The appropriate SBS pattern parachutist’s wings should be worn on the right arm 50mm below the shoulder seam, by personnel qualified as follows:

   (1) **Badged SBS.** On completion of the SF Parachute Course.

   (2) **SBS(R).** On successful completion of the JSF Selection Hills Phase and completion of the SF Parachute Course.

n. **Special Forces Communicators’ Parachutist’s Badge.** SF Communicators pattern parachutists’ wings should be worn on the right arm 50mm below the shoulder seam, by personnel qualified on successful completion of the Special Forces Communications Course and the SF Parachute Course. These wings are only awarded by the CO SBS.

o. **HUMINT Operator’s Badge.** The HUMINT badge, a gold/yellow trident on a black ‘kite’ background, is to be worn on the left forearm above warrant officer rank (approximately 165mm from the cuff). It is only to be worn on No1A Regimental Blue Dress.

p. **Background and Attachment of Badges.** The instructions in Chapter 39 regarding Naval ratings’ badges are also applicable, as far as appropriate, to Royal Marines badges.

q. **Formation Badges on Combat Dress.** Formation flashes are to be worn on the left sleeve patch of PCS CU combat jackets and windproof smocks by personnel serving in those formations, as follows:

   (1) **3 Commando Brigade RM Formation Badge.** When serving with 3 Cdo Bde RM, all personnel are to wear a black ‘Commando Fighting Knife’ badge on a green background on the left sleeve of PCS CU combat jackets and windproof smocks. It is to be worn centrally on the Velcro patch provided on the upper arm.
(2) **Amphibious Assault Badge.** A black on green formation badge comprising the old Combined Operations device (anchor, eagle and rifle (pointing forwards)) surrounded by a circle, itself surrounded by the words ‘Amphibious Assault’ is to be worn centrally on the Velcro patch provided on the upper arm of the left sleeve of PCS CU combat jackets and windproof smocks by personnel serving in the following units:

(a) Assault Squadrons RM of HM Ships.

(b) COMLSGStaff.

(d) Royal Marines serving on FOST Staff.

4020. **Buttons**

a. **Corps Button.** The Corps button is a raised round button, anodised or bronze. At the centre is a fouled anchor under a crown surrounded by a double rim enclosing the words ‘Royal Marines’, and this in turn surrounded by a laurel wreath. In two general sizes - 25mm and 18mm: the smaller button for pockets and shoulder straps. In addition, there are special 20mm buttons for use only by General Officers. All buttons are to face upwards with shoulder strap buttons orientated to face forwards on all uniforms.

b. **Lion and Crown Button.** The Lion and Crown button is a raised round gilt button with a mounted lion and crown in silver. It is worn on peaked caps, blue field service caps (an optional item), mess jackets and mess waistcoats.

4021. **Remembrance Poppies**

RBL red paper poppies should be worn behind the beret cap badge from 1 November until 2359 on 11 November. Those ranks who cannot wear a poppy behind the cap badge are to wear one on the left chest. When wearing a peaked cap, the poppy is worn on the left side behind the button. Enamel poppies are not to be worn with any RM uniform.
SECTION 3 - AIGUILLETTES, CYPHERS AND LANYARDS

4022. Aiguillettes

a. Naval type aiguillettes are to be worn by the following Royal Marines officers in the same manner as prescribed for Naval officers (see Para 3913) and with equivalent dresses:

(1) ADCs to The Sovereign, Equerries and Extra Equerries to The Sovereign, or to other members of the Royal Family, and ADCs to Governors General.

(2) ADC to CGRM; officers specifically appointed as Flag Lieutenant to officers of Flag rank or Commodores; or as ADC or Military Assistant to officers of Flag, General or Air rank where the post is allowed by establishment; or as ADC to a Governor or Lieutenant Governor.

(3) Personal staffs of all members of the Defence Council and VCDS.

b. Officers at Para 4022.a.(1) wear aiguillettes as for ADCs to The Sovereign (‘Palace’ type) and those at Para 4022.a.(2) as for Flag Lieutenants (‘Staff’ type). Aiguillettes are only worn when the wearer is on the business that carries the entitlement. For example, it is inappropriate for a captain ADC to CGRM to wear his aiguillettes when attending a regimental dinner night without his general.

c. Aiguillette shoulder straps are not to be worn by Royal Marines officers. In Mess Dress, for officers below the rank of Colonel, the aiguillette is to be supported by a scarlet cloth shoulder strap of the same material as the jacket. In other dress, the shoulder strap of the garment is to be used, modified by the addition of a button to which the aiguillette cord is affixed.

d. Aiguillettes and the various accoutrements are issued on Individual Loan from the Uniform Clothing Store, HMS NELSON.

4023. Royal Cyphers

a. Royal Marines ADCs to The Sovereign, Equerries and Extra Equerries to The Sovereign are to wear the royal cypher and crown, in one piece, below their badges or rank; letters ‘RM’ are not worn. Equerries to other members of the Royal Family wear the cypher of that member in the same manner. In Mess Dress, Equerries and Extra Equerries wear the royal cypher and crown on shoulder straps of similar material. Cyphers are not worn on black on green rank badges.

b. The full-sized badge (35 x 35mm), in either dull silver metal or gilt metal, is worn as follows:

(1) **Dull Silver.** On full dress tunic, regimental blue tunic, blue greatcoat, scarlet mess jacket and white mess jacket.

(2) **Gilt Metal.** On stone tunic, stone bush jacket and stone shirt.
(3) **Bronze Metal.** On Lovat tunic.

c. Former ADCs to The Sovereign wear the badge similarly but in miniature (22 x 24 mm). ADCs to The Sovereign who vacate the appointment on promotion to the substantive rank of Major General are, however, to cease wearing the badge.

**4024. Lanyards**

a. **Lanyard, Blue, Officers' Pattern.** Braid of viscose rayon on cotton core. One end constructed with a loop closed with a Turk’s head knot. Length of lanyard shall be no less than 800mm to be worn looped over the left shoulder. The running end is to be passed into the left side of the breast pocket and not allowed to hang loosely in a bight.

b. **Unit Lanyards.** Coloured lanyards are worn on the right shoulder in an ordinary loop with the running end passed directly into the right side of the breast pocket without forming a bight. All ranks on the posted strength of the following units are to wear a coloured lanyard with certain forms of dress as stated:

</tr>
</thead>
<tbody>
<tr>
<td>1. <em>Blue Corps pattern. Drawn from the loan pool in the RM Ceremonial Store at RMB Stonehouse. Greatcoat rank insignia photographed at Annex 40D Para 16. Blue tunics will not be worn under greatcoats, which will be worn with collars fastened up. RM Band Service follow the instructions in Annex 40G.</em></td>
</tr>
<tr>
<td>2. <em>WP helmets and/or greatcoats to be worn when ordered.</em></td>
</tr>
<tr>
<td>3. <em>Overalls, Wellington boots and silver spurs (i.e. Mounted Order) are normally worn by Lt Cols and above plus Adjutants, Equerries, Military Assistants, Aides-de-Camp and Flag Lieutenants. Other officers and WO1s wear officer pattern boots. WO2s and below wear Army pattern boots. When ordered by the relevant senior officer, officers who normally wear Mounted Order may be ordered to wear Dismounted Order i.e. blue trousers with officer pattern boots. This option may be appropriate for certain occasions of minor ceremonial, for occasions involving car travel in No. 1A Dress or if No. 1A Dress is being worn in HM Ships or afloat. Black shoes may be ordered in lieu of boots eg. for indoor receptions or where paving/flooring is unsuitable for studded parade boots.</em></td>
</tr>
<tr>
<td>4. <em>Officers only wear a tie. WO1s wear officer pattern lanyard.</em></td>
</tr>
<tr>
<td>5. <em>Officers and WO1s wear a Sam Browne belt (highly waxed or polished in dark tan), which is always worn with a frog, whether carrying swords or not. WO2s wear a WO2’s brown leather sword belt (highly waxed or polished in dark tan), and a scarlet sash. SNCOs wear a white belt with locket union and a scarlet sash. On certain occasions, eg. indoor receptions, the senior officer may order that blue cloth belts are worn (usually without medals and gloves).</em></td>
</tr>
<tr>
<td>6. <em>Swords/rifles are carried on parade or when ordered.</em></td>
</tr>
</tbody>
</table>

(Continued)
Notes (Continued):

7. WO2s, Drum and Bugle Majors on appointment and above wear brown cape gloves; the remainder wear white gloves. Gloves are normally worn on parade (all year round), when ordered and in winter. For those not on parade, gloves are not normally worn in summer (1 Apr to 30 Sep) and should normally be removed indoors.

8. For distinctions in RM Band Officers’ Ceremonial Dress Uniform, see Para 4011 and Annex 40G.

9. Uniquely, the CTCRM King’s Squad wear the peaked cap with the chin-stay down and a double white lanyard on the left shoulder. After the pass-out parade, the King’s Squad, when ordered, may wear their green beret with blue dress on the day of the pass out parade only. On any occasion when peaked caps are worn, the relevant senior officer may order chin-stays to be worn down in high wind conditions, particularly afloat.

10. For SBS No 1A Dress see Annex 40F.

11. When ordered, No 1A Dress (negative sword) may be worn without medals or gloves eg. for Buckingham Palace garden parties and medal investitures.

### c. Decorations/Medals

1. Up to 2 stars of orders.
2. 1 neck decoration.
3. Medals.

### d. Rank Insignia

- See photographs at Annex 40D Para 20.
Notes:

1. Beret with anodized cap badge for Lt Cols and below. General Officers, Brigts and Cols wear appropriate gold wire embroidered cap badges. The King’s Squad wear peaked caps with chin-stay down.

2. Blue officer pattern lanyard is worn on the left shoulder by officers and WO1s. An appropriate unit lanyard is worn on the right shoulder by all ranks serving in an entitled unit.

3. Officers and WO1s wear a Sam Browne belt (highly polished or waxed in dark tan), which is always worn with a frog, whether with sword or not. WO2s wear a WO2’s brown leather sword belt (highly polished or waxed in dark tan) and scarlet sash. SNCOs wear white belts and a scarlet sash.

4. Swords/rifles are carried on parade or when ordered if Lovat Dress is to be used as an alternative to No. 1A Blue Dress eg. for unit parades commemorating Commando actions.

5. WO2s and below wear Army pattern boots. Black shoes may be ordered in lieu of boots eg. for indoor receptions or where paving/flooring is unsuitable for studded parade boots.

6. WO2s, Drum and Bugle Majors on appointment and above wear brown cape gloves; the remainder wear white gloves. Gloves are normally worn on parade (all year round), when ordered and in winter. For those not on parade, gloves are not normally worn in summer (1 Apr to 30 Sep) and should normally be removed indoors.

7. Lovat coloured socks may be purchased, or socks combat general service worn.

8. WO1s wear light khaki tie and OP lanyard.

9. For SBS this uniform will be worn as No 1A Dress, as well as No 1B and No 1C Dress (SBS collar badges, SBS cap badge, SBS belt and SBS shoulder titles). See Annex 40F.

   c. **Decorations/Medals.** Medal ribbons (Note 6).

   **Notes:**

   1. Beret with anodised badge for Lt Cols and below. General Officers, Brigs and Cols wear appropriate gold wire embroidered cap badges. Band personnel wear caps (see Annex 40G).

   2. Blue officer pattern lanyard on left shoulder plus appropriate unit lanyard on right shoulder.

   3. Lovat coloured socks should be purchased, or socks combat general service worn.

   4. WO1s wear light khaki tie and officer pattern lanyard.

   5. WO1s wear officer pattern shoes.

   6. **Medal Order.** Medals may be worn for certain occasions eg. media events if ordered by the relevant senior officer.

c. **Decorations/Medals**

   (1) Broad riband.

   (2) Up to 4 stars of orders.

   (3) One neck decoration.

   (4) Miniature medals.

**Notes:**

1. Adjutants, Equerries, Military Assistants, Aides-de-Camp and Flag Lieutenants wear overalls, Wellington boots and silver spurs.

2. Civilian equivalent dress is White Tie or Black Tie with medals and decorations as above.

3. Stiff-fronted shirt and wing collar (Wing Collar Order) is worn instead by Royal Equerries/Aides-de-Camp if acting in a Royal Household role when so required by Buckingham Palace or the relevant Royal Household.

4. Cols and above wear medals above the embroidered RM badge. Lt Cols and below wear medals below the Globe and Laurel badge.

c. **Decorations/Medals**

(1) Up to 2 stars of orders.

(2) One neck decoration.

(3) Miniature medals.

**Notes:**

1. **Civilian equivalent is black tie with medals and decorations as above.**

2. **Peaked caps are not usually worn unless ordered to do so or by senior officer taking the salute. Blue RM field service caps (also known as side hats) are optional items that may be purchased by officers and worn in lieu of peaked caps with Mess Undress and Red Sea Rig. They are particularly recommended for wear at sea in order to protect peaked caps from damage or dirt from low deckheads.**

(Continued)
Notes (Continued):

3. A kilt with sporran, kilt pin, long stockings, dirk and highland evening shoes may be worn by personnel in place of blue mess trousers, black socks and black shoes. Alternatively, appropriate tartan trews may be worn.

4. When ordered, JNCOs may, optionally, wear a plain white long-sleeved shirt, blue trousers, scarlet cummerbund and black bow tie in lieu of Regimental Blues for mess dinners etc.

5. Cols and above wear medals above the embroidered RM badge. Lt Cols and below wear medals below the Globe and Laurel badge.

6. Lt Cols and above may wear a discontinued RM Band cloak in inclement weather.

</table>

c. **Decorations/Medals.** None.

d. **Rank Insignia for Officers.** See photographs at Annex 40D Para 22.

**Notes:**

1. **White shoulder boards (privately purchased) with anodized rank badges are optional. Alternatively, anodized rank badges should be worn on a white slide fitted over the epaulette.**

2. **Blue RM field service caps (also known as side hats) are optional items that may be purchased by officers and worn in lieu of peaked caps with Mess Undress and Red Sea Rig. They are particularly recommended for wear at sea in order to protect peaked caps from damage or dirt from low deckheads.**

3. **Not mess trousers. Blue day trousers that do not show rear points for braces above the cummerbund are to be worn. Officers may optionally purchase a pair of blue trousers in order to preserve their best trousers for wear in No 1A Dress (lightweight material is recommended in order that these trousers may also be worn in Red Sea Rig).**

---

**Notes:**

1. Beret with anodized cap badge for Lt Cols and below. General Officers, Brig and Cols wear appropriate gold wire embroidered cap badges. The King’s Squad wear peaked caps with chin-stay down.

2. Collar worn open.

3. Barrack dress trousers, not from suit.

4. Worn in shoulder strap. Officers also wear bronze rank insignia in strap or on slides.

5. When Drill Order is ordered, officer pattern/Army pattern boots are to be worn in lieu for parade training. WO1s wear officer pattern shoes (or boots for Drill Order). When worn as night clothing at sea, desert boots should be worn.

(Continued)
**Notes (Continued):**

6. Corps pattern belt to be worn with leather buckle over the left hip and silver buckle adjusted to fit centrally. When Drill Order is ordered, ceremonial belts (Sam Browne, WO2 leather belt or white belt) are to be worn in lieu for parade training.

7. All ranks wear unit lanyard (right shoulder) where appropriate. Officers and WO1s also wear an officer pattern lanyard (left shoulder).

8. Mandatory for wear as dress of the day within Navy Command HQ and Staff College (course instructors and students).
Fig 40A-7c. Cpl in No. 3A Dress

Fig 40A-7d. Rct in No. 3A Dress (Drill Order)
8. **3B Dress - General Duty Dress Summer 'Training Rig'**

a. **Occasions for Wear.** Informal day rig worn in camp as dress of the day in barracks and for day-to-day duties in summer months and hot climates when engaged on military training or working party tasks (Note 8).

b. **Description.** This rig is based on the Tri-Service Personal Clothing System Combat Uniform (PCS-CU).

c. **Decorations/Medals.** None.

d. **Wearing of Badges on PCS CU.** See guidance relating to No. 4/4C/4T Dress.

**Notes:**

1. **With bronze badge.**

2. **Worn tucked inside combat trousers with sleeves rolled up above the elbow.** Patches are always to be worn over the Velcro squares, which are never to be left uncovered. ‘Royal Marines Commando’ shoulder flashes are to be worn on both shoulders by entitled personnel. Left arm patches are always to include the Union Flag at the top. Personnel serving in entitled formations are to wear the appropriate formation flash underneath the Union Flag on the left arm patch. Company logos are not to be worn. T-shirts are not to be worn underneath the PCS-CU combat jacket.

3. **Black on green rank slides are to be worn.**

4. **Worn with elastics (not supplied) around top of boot.**

5. **One of 3 approved designs of brown combat boot is to be worn.**

(Continued)
Notes (Continued):

6. PCS-CU web belt.

7. PCS-CU windproof smocks or waterproof clothing may be worn over this rig as ordered/required. Belts are not to be worn over windproof smocks. Windproof smock cords should be drawn tight.

8. Shirts may be worn outside of trousers when in tropical climates, as ordered.

\[\text{Notes:}\]

1. Beret with anodized cap badge for Lt Cols and below. General Officers, Brigs and Cols wear appropriate gold wire embroidered cap badges. The King’s Squad wear peaked caps with chin-stay down.

2. Collar worn open.

3. Barrack dress trousers, not from suit.

4. When Drill Order is ordered, officer pattern/Army pattern boots are to be worn in lieu for parade training. WO1s wear officer pattern shoes (or boots for Drill Order).

5. Corps pattern belt to be worn through lovat trouser belt loops with leather buckle over the left hip. When Drill Order is ordered, ceremonial belts (Sam Browne, WO2 leather belt or white belt) are to be worn additionally over the jersey wool heavy for parade training.

6. Mandatory for wear as dress of the day within Navy Command HQ, Staff College (course instructors and students).

7. The jersey wool heavy may require a piece of string/cord inserted into the collar to ensure it remains tight and smart.

   c. **Decorations/Medals.** None.

   d. **Wearing of Badges on PCS-CU.** Badges are to be worn as follows:

      (1) Black on green ‘Royal Marines Commando’ or ‘Royal Marines Band Service’ shoulder flashes are to be worn by entitled personnel at the top of the shoulder on both arms. They are to be sewn directly onto the following:

      (a) Combat Jacket.

      (b) Windproof Smock.

      (c) UBAC Shirt.
(2) A black on green ‘King’s Badge’ or ‘Prince’s Badge’ is to be worn by entitled personnel immediately below the shoulder flash on the left arm of the combat jacket. It is to be sewn directly onto the combat jacket. Due to design constraints, these badges are not to be worn on windproof smocks or items of PCS CU other than the combat jacket.

(3) A black on green parachute wings qualification badge is to be worn by entitled personnel immediately below the shoulder flash on the right arm of the Combat Jacket. (Existing pattern badges may be worn until black on green parachute wings are issued.) It is to be sown directly onto the combat jacket. This may be of regular, SF or SFC design as appropriate to the individual’s qualification. Parachute wings may also be worn on windproof smocks when they are to be sown onto the top pocket of the right arm blanking patch. Foreign parachute wings may be worn just above the top right breast pocket on combat uniforms, but only when serving with the Armed Forces that awarded the wings in the first place.

(4) Pocket blanking patches are provided to be worn over the Velcro squares on both sleeves of the combat jacket and windproof smock. The blanking patch for the left arm is pre-fitted with a Union Flag, which is to be retained. One of the following formation flashes is to be worn on the centre of the left arm blanking patch by personnel serving in relevant formations or units:

   (a) 3 Cdo Bde RM units – 3 Cdo Bde RM formation flash (a black commando knife on a green background).

   (b) 1 AGRM, Ships’ Assault Squadrons, FOST and COMUKTG staffs – amphibious assault flash.

   (c) COMUKAMPHIBFOR staff – COMUKAMPHIBFOR flash.

   (d) PJHQ staff – PJHQ flash.

(5) Black on green pilot’s badges may be worn by entitled personnel on the left breast of the combat jacket and the windproof smock.

**Notes:**

1. As required/ordered. Beret worn with bronze cap badge.

2. Appropriate to environment.

3. One of 3 approved designs of brown combat boot is to be worn.

4. Waterproofs may be worn as ordered/required.

5. PCS-CU web belt.

6. Worn with elastics (not supplied) around top of boot.

(Continued)
7. Black on green rank slides are normally to be worn. However, if ordered by the theatre commander for operations, sand on MTP rank slides are to be worn in lieu.

8. Windproof smock cords should be drawn tight. Patches are always to be worn over the Velcro squares on the outermost garment, which are never to be left uncovered. ‘Royal Marines Commando’ shoulder flashes are to be worn on both shoulders by entitled personnel. Left arm patches are always to include the Union Flag at the top. Personnel serving in entitled formations are to wear the appropriate formation flash underneath the Union Flag on the left arm patch. Company logos are not to be worn.

9. Combat Dress may be worn with:
   a. Fighting Order (web belt with pouches and yoke as ordered).
   b. Patrol Order (Fighting Order plus daysack as ordered).
   c. Marching Order (Fighting Order plus large pack as ordered).
12. 5 Dress – Specialist Working Rigs

a. **Occasions for Wear.** Job specific working rigs worn at sea and ashore.

</table>
c. **Decorations/Medals**

1. Collar and/or broad riband.
2. Up to 4 stars of orders.
3. Up to 3 neck decorations.
4. Medals.

**Notes:**

1. The following personnel are entitled to Tropical White Full Dress (Half Whites): certain overseas Defence Attachés and General Officers with their Military Assistants/Aides-de-Camp, as required, in exceptional circumstances. The uniform is normally only required for those required to attend major ceremonial occasions in tropical Commonwealth countries (eg. ANZAC Day ceremonies in Canberra, Australia) and the USA. The uniform is to be routinely issued to the Commandant General Royal Marines and his personal staff and additionally to the Corps RSM.

2. All officers except General Officers wear white cloth shoulder straps and anodized badges of rank (Brigs to wear anodized badges of rank on white rank slide). General Officers wear gold embroidered shoulder boards. General Officers wear Army No. 1 Dress General Officer pattern gorget patches. Brigs and Cols wear Army No. 1 Dress staff officer pattern gorget patches. Other officers and WO1s wear anodized officer pattern collar badges. General Officers wear 20mm RM anodized buttons. All others wear 25mm RM anodized buttons. Gold on extra dark navy badges may be worn mounted on Velcro patches by appropriately entitled personnel.

3. Except for the RM Band who wear white trousers, RM General Service personnel wear No1A – Regimental Blues overalls with Wellington boots and silver spurs or trousers and black shoes (as with Army No. 3 Dress), depending on the climate and the level of ceremonial event.

4. General Officers wear a General Officers’ full-dress sword with Army No. 1 pattern General Officer’s gold and crimson cord sword knot, metal scabbard, ceremonial sword belt assembly with long and short Army No. 1 pattern gold and crimson sword slings and gold and crimson waist sash. Brigs and Cols wear a RM (infantry) pattern sword with Army No. 2 pattern long gold cord sword knot, metal scabbard, ceremonial sword belt assembly with long and short Army No. 2 pattern sword slings and crimson sash. Other officers and WO1s wear a RM (infantry) pattern sword with Army No. 3 pattern gold ribbon sword knot (worn long for Lt Cols and above plus Equerries, ADCs and Adjutants or short for all others), metal scabbard, ceremonial sword belt assembly with long and short Army No. 3 pattern sword slings and crimson sash.

(Continued)
Notes (Continued):

5. Helmet if ordered for wear on ceremonial parades.

6. White, or brown cape for officers and warrant officers (only when armed).

7. Blue officer pattern for officers and WO1s, plus unit lanyard.

8. WO1s wear Sam Browne belts. WO2s wear WO2 pattern brown leather sword belt and sword slings. WO2s and SNCOs wear scarlet sashes.

9. Stone Prestige Suits (Army No. 4 Dress) are issued to officers serving in staff appointments, as Defence Attaches or in ships’ detachments. Stone Prestige Suits are not to be worn by officers on parade with troops: when on parade with troops, officers are to wear stone bush jackets.

10. Stone bush jacket suits are tri-service items also known as Army No. 6 Dress.

   **c. Decorations/Medals**

   (1) Up to 2 stars of orders.

   (2) One neck decoration.

   (3) Miniature medals.
Note.

1. Civilian equivalent Tropical Black Tie with or without miniature medals and decorations as above.

2. Blue RM field service caps (also known as side hats) are optional items that may be purchased by officers and worn in lieu of peaked caps with Mess Undress and Red Sea Rig. They are particularly recommended for wear at sea in order to protect peaked caps from damage or dirt from low deckheads.

3. When ordered, JNCOs may, optionally, wear a plain white long-sleeved shirt, blue trousers, scarlet cummerbund and black bow tie in lieu of regimental blues for mess dinners etc.

   c. **Decorations/Medals.** None.

   ![Fig 40A-18a. Junior Officer in 2C Dress](image)

a. **Occasions for Wear.** Semi-formal day rig worn in tropical climates in headquarters, barracks and for day-to-day duties by personnel not involved in field training or manual work. Worn by all ranks as night clothing at sea in tropical climates although No.2C Red Sea Rig should be worn for appropriate formal functions when at sea. Worn by drill instructors for parade training. The recommended rig for Commanding Officer’s orderly rooms and other minor regimental occasions in units.

---

**BRd 3(1)**

**Effective**

**February 2020**
d. **Mess Dress.** RMR Officers may provide themselves at their own expense with RM Officer’s temperate mess dress. The alternative is mess undress uniform with white Marcella fronted shirt and black bow tie. Honorary Officers of the RMR may be issued with a Mess Undress Uniform at public expense on first appointment.

**Notes:**

1. Issued when qualified.

2. Green beret to be maintained in lieu when qualified.

3. C95 – comprising of:

<table>
<thead>
<tr>
<th>Item</th>
<th>Qty</th>
<th>Item</th>
<th>Qty</th>
</tr>
</thead>
<tbody>
<tr>
<td>C95 jacket</td>
<td>2</td>

</table>
**Notes:**

1. **RM Band Portsmouth ranks only** - not worn in combat dress (the wearing of this badge is optional in 2A/2B Dress).

2. **CSgts rank chevrons** to be sewn 120mm on JWH, 190mm on stone shirt (short sleeves) and 290mm on ceremonial/blue tunics when worn with ‘ROYAL BAND’ shoulder flash.

3. Optional rank or appointment badge depending on operational requirements (appointment badges not available in bronze).

5. **Drum badge** not worn by Buglers (any rank).

6. Brassards to be an additional 40mm higher when ‘ROYAL BAND’ shoulder flash worn with Bd CSgt/CSgt Bugler (Sgt Bugler with drum badge - gold on dark blue only). Bottom of ‘ROYAL BAND’ shoulder flash sewn 10mm above top of CSgt (drum) badge.

7. **SQ badge (lyre/drum)** not worn.

8. The exact location of badges may differ slightly from the measurements provided depending on the length of the arm.

9. **Maternity shirt** as for 3A Dress (Shirt Sleeve Order).

</table>

Notes:

1. Due to the present withdrawal of LAW, qty 2 AWD shirts should be issued to cover this requirement.

2. Retain your Kit Book for future use, if you require to exchange clothing on a one for one basis or if you go afloat in the future, you will need this document.
4108. RFA Personal Clothing System (RFA PCS)

a. **Background.** RFA PCS replaces the No 4 (AWD) uniform. No 4 (PCS) is a layered system for multi-climate wear.

b. **Occasions For Wear**

(1) Action working dress.

(2) Daily working rig at sea.

(3) Daily working rig alongside for JRs, and Officers/ SRs when required.

(4) Daily working rig ashore in assignments when MTP would previously have been worn.

(5) Daily working dress.

c. **Description**

<table>
<thead>
<tr>
<th>All Ranks and Rates</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Navy blue T shirt.</td>
<td></td>
</tr>
<tr>
<td>Blue fire retardant light weight jacket (tucked in).</td>
<td>Blue Ensign badge to be worn on left arm (unit specific badges are not permitted). Embroidered blue name tape worn above left breast pocket when issued. Embroidered Royal Fleet Auxiliary tape worn above right breast pocket. Rank slide to be worn on front sternum strap.</td>
</tr>
<tr>
<td>Blue fire retardant trousers with blue stable belt.</td>
<td></td>
</tr>
<tr>
<td>Black socks.</td>
<td></td>
</tr>
<tr>
<td>DMS Black boots.</td>
<td></td>
</tr>
<tr>
<td>Beret when issued.</td>
<td></td>
</tr>
<tr>
<td>Optional blue micro fleece to be worn over T shirt and under light weight jacket.</td>
<td></td>
</tr>
<tr>
<td>Optional foul weather jacket and trousers worn over light weight jacket and trousers (hood of foul weather jacket to be rolled away – hood is only to be used in extreme conditions when authorised by Command).</td>
<td></td>
</tr>
</tbody>
</table>

**No 4R – relaxed daily working dress**

May be authorised by Command at sea or, exceptionally, for working parties in hot conditions in harbour (not outside confines of jetty).

Blue fire retardant jacket may be relaxed and individuals wear T shirt only or T shirt and micro fleece.

Blue fire retardant trousers with blue stable belt.

Black socks.

Black DMS boots.

Command may allow optional baseball cap at sea.

Caveats: COs may allow 4R where it is unlikely that immediate firefighting is required.
Light weight jacket must be readily available for basic firefighting and when on Duty Watch.
Commands may authorise unit specific T shirts provided that they are cotton navy blue.
d. **Insignia and Badges Worn with No 4 RFA Personal Clothing System (No 4 RFAPCS)**

(1) **Name Tapes.** Name tapes are to be sewn along the top of the left breast pocket on the PCS lightweight jacket for all ranks and rates, in line with the “Royal Fleet Auxiliary” tape. Name tapes are to contain only the surname of the individual; initials are not permitted. Name tape lettering is to be in ‘Helvetica Condensed’ font, lettering is to be 15mm in height and the name within the name tape length of 130mm. Names longer than 15-17 characters will be condensed to fit. As with the Royal Fleet Auxiliary tape; the colouring is white lettering on blue background. With names such as ‘McDonald’, a small c can be used on the name tape and the authoritative document will be the nominal list supplied by the unit.

(2) **Royal Fleet Auxiliary Tape.** This is pre-sewn along the top of the right breast pocket. The tape will be a standard issue with lettering of ‘Helvetica Condensed’ font, 15mm in height and contained within the tape length of 120mm. The tape is white lettering on blue background.

(3) **Royal Fleet Auxiliary Blue Ensign Badge.** This is pre-sewn onto the left arm. The badge is a standard size of 100mm by 50mm. The badge should be centralised and level when viewed from the left side. Exact vertical position will depend upon the sleeve length and shoulder shape of the individual but generally the top of the badge should be 70mm below the centre of the shoulder seam at the top of the sleeve.

(4) **Existing Rank Slides.** Slides will be attached to the front of the PCS jacket. In order to establish uniformity and maintain standards, officers shall wear the left shoulder slide on their lightweight jackets.
Figure. 41-1. Blue Uniforms of the Royal Fleet Auxiliary

BLUE UNIFORMS OF THE ROYAL FLEET AUXILIARY

No 4 – DAILY WORKING DRESS
- Blue fire retardant light weight jacket (tucked in)
- Blue fire retardant trousers with belt
- Beret
- Blue T-shirt
- Black boots
- Black socks
- Centre rank slide
- Blue Ensign badges on left arm (no unit specific badges to be worn)
- Embroidered Royal Fleet Auxiliary tape above right breast pocket

No 4 – DAILY WORKING DRESS
- Optional Blue Micro Fleece

No 4 – DAILY WORKING DRESS
- Optional foulweather jacket worn over light weight jacket
- Hood is to be rolled away (only to be used in extreme conditions when authorised by Command)

No 4R – RELAXED DAILY WORKING DRESS AT COMMANDING OFFICERS DISCRETION (No 4R is not approved for fire-fighting)
- Blue fire retardant trousers
- Blue T-shirt
- Black boots
- Black socks
- Optional Blue Micro Fleece
- The blue fire retardant light weight jacket must be readily available as No 4 Daily Working Dress is the minimum dress state required for basic fire fighting
- Commanding Officer may allow 4R where it is unlikely that immediate fire-fighting is required
- Commanding Officer may allow optional baseball cap to be worn at sea
- Commanding Officer may authorise unit specific T-shirt but they must be cotton navy blue

Notes:

1. The Armed Forces Parliamentary Scheme is endorsed by the Secretary of State for Defence and Chief of Defence Staff. It is designed to facilitate visits by Members of Parliament to units in non-operational theatres, usually for 4 – 5 days at a time. The Naval Service Lead Officer is CNS-NS-SEC1.

2. Optional, for those of a Muslim faith an additional shirt collar attached can be issued in lieu of Shirt, white short sleeve.

CHAPTER 44
ORDERS AND DECORATIONS, MEDALS AND MEDAL RIBBONS

SECTION 1 - GENERAL

4401. Authority For Wear

a. The Queen’s Regulations for the Royal Navy require all personnel to wear the proper ribbons for the medals which have been awarded to them and to comply with the instructions respecting the manner of wearing orders, decorations and medals and the order in which they are to be worn, as laid down in these uniform regulations.

b. It is forbidden to wear any orders, decorations or medals without authority. Foreign orders, decorations and medals may be worn only when the Sovereign’s permission has been given. This may be sought by application to Naval Secretary’s Division. It should be noted, however, that permission is rarely granted and only in the most exceptional circumstances.

4402. Terms of Issue

a. The insignia of orders, decorations and medals and the Ribands to which they are attached are issued gratuitously on presentation; 229mm of medal ribbon for sewing on to garments is also supplied in the case of campaign medals.

b. Brooches for medals and medal ribbons are available from service stores. Officers purchase these items as required. Ratings and RM warrant officers, NCOs and men and associated reservists awarded a medal are given a gratuitous issue of one medal brooch and one medal ribbon brooch of the appropriate size.

c. Replacement brooches and ribbons are purchased as required.

d. Miniatures, ribbons and brooches for miniature medals and ribbons are not provided but may be purchased privately at the individual’s expense.

4403. Order of Precedence

Orders, decorations, medals and medal ribbons are to be worn arranged in the order of sequence (or seniority) shown in JSP 761 'Honours and Awards in the Armed Forces' The number of each type of insignia of orders, which may be worn, with various dresses is shown in the Table of Dresses (Chapter 3 Annex 3A (RN)), (Chapter 4 Annex 4A (RM)). When the insignia of more than one order are worn, the one occupying the first position should be the most senior, unless for any reason a junior or foreign order is more appropriate to the occasion.
4404. **Conditions Governing Awards**

Extracts from the various Statutes and Warrants regulating the awards of Orders, Decorations and Medals are to be found in JSP 761. A number of Statutes and Warrants are in course of amendment, to take account of revised eligibility criteria introduced in 1994. Until such time as these are published, it should be noted that all gallantry awards are available at all ranks and rates.

4405. **Maritime Reserves**

Details of Awards for Maritime Reserves are at BRd 3(2) Chapter 8.
SECTION 2 - MANNER OF WEAR

4406. Insignia of Orders

a. The insignia of the various orders are as follows:

(1) First Class. Knights of the Garter, Thistle and St Patrick and Knights and Dames Grand Cross and Grand Commander. Broad riband (with badge attached). Collar when ordered.

(2) Second Class. Knight and Dame Commander - star. Neck decoration (i.e. badge suspended on narrower riband, normally worn round neck).

(3) Third Class Companion and Commander. Neck decoration (but the badges of companions of the Distinguished Service Order and imperial service order are worn as medals only).

(4) Fourth and Fifth Classes. Officers and members - badge worn as medal.

4407. Broad Riband

a. The broad riband of Knights of the Garter and Thistle is worn over the left shoulder, the bow from which the badge is suspended resting on the right hip. The broad riband of other orders is worn over the right shoulder, with the badge on the left hip. The ribands of orders when the riband alone is worn will be of the width of the ribands of the membership of the order. If there is no membership class the riband will be of the width of the riband of the companionship of the order.

b. With ball dress the broad riband is worn under the mess jacket and over the waistcoat (or dress).

c. With full dress the broad riband is required to pass under the shoulder strap, and in dresses which do not include shoulder straps the procedure is as follows:

(1) If an aiguillette is worn on the right shoulder the broad riband, other than that of the Garter and Thistle, is worn under the aiguillette shoulder strap. For the Garter or Thistle an additional aiguillette shoulder strap is worn on the left shoulder.

(2) If an aiguillette is not worn on the right shoulder the broad riband is worn under a blue cloth shoulder strap ornamented with gold and blue cord, of the pattern worn with ‘Staff’ type aiguillettes (Chapter 39, Para 3912).
4408. Collar

a. The collar of an order is worn on certain special occasions as ordered, instead of the broad riband, with full dress only (Nos. 1 and 1W Dresses). The collar is worn under the shoulder straps or epaulettes near the outer edge, hanging at an equal distance back and front, with the badge suspended below the front centre.

b. Collar Days, in accordance with instructions of the Central Chancery of the Orders of Knighthood are Easter Sunday, Ascension Day, Whit Sunday, Trinity Sunday, 1 January, 6 January (Epiphany), 25 January (Conversion of St Paul), 2 February (Presentation of Christ in the Temple), 6 February (The Queen’s Accession), 1 March (St David), 17 March (St Patrick), 25 March (Lady Day), 21 April (The Queen’s Birthday), 23 April (St George), 29 May (Restoration of the Royal Family), 2 June (The Queen’s Coronation), 10 June (The Duke of Edinburgh’s Birthday), 24 June (St John Baptist), 4 August (Queen Elizabeth, The Queen Mother’s Birthday), 6 August (Transfiguration), 29 September (St Michael and All Angels), 1 November (All Saint), 30 November (St Andrews), 25 December (Christmas Day), 26 December (St Stephen), 28 December (Innocent’s Day), when Her Majesty opens or prorogues Parliament and by those taking part in the Ceremony of an Introduction of a Peer in the House of Lords. In dresses that do not include shoulder straps, the procedure is as follows:

(1) If an aiguillette is worn on the right shoulder an additional aiguillette shoulder strap is worn on the left shoulder.

(2) If an aiguillette is not worn on the right shoulder a pair of blue cloth shoulder straps as described in Para 4406.c sub para (2) is worn.

c. The holder of more than one First Class Order, when wearing the collar of one order also wears the broad riband of the next order in sequence. Only one collar may be worn.

4409. Stars

a. Stars of orders are worn on the left side.

b. When only one star is worn it should be in the centre line of the breast pocket with the upper point not less than 25mm below the lip of the pocket, or in the corresponding position on garments without a breast pocket.

c. When two stars are worn the second star is placed directly below the first, with its upper point not less than 25mm below the lower point of the star above.

d. When three stars are worn the second and third stars are normally worn below the first, in horizontal line, with the second towards the wearer’s right, but if in this position the stars interfere with the broad riband, the first and second stars may be worn in line, senior star to the right, with the third star beneath.
When four stars are worn the first is worn above, the second and third in line below, senior star to the right, and the fourth below again, in vertical line with the first.

When either three or four stars are worn on the undress coat it is necessary to position the first so that the second is clear of the top left-hand button of the coat, for which purpose it is permissible for the top star to the worn with its upper point up to 13mm above the lip of the breast pocket.

With women officers’ dresses which include a cape or bolero, stars are worn thereon - not on the dress.

4410. Neck Decorations

a. With the ceremonial day coat, and with RM tunics and frockcoat with stand collar, the first or only badge is worn with the riband inside the coat or tunic collar, emerging between the hook and eye and the bottom of the collar. If a second badge is worn it is suspended from a small eye stitched inside the coat or tunic, on 76mm of ribbon emerging between the first and second button on the right-hand side.

b. With a turned-down collar and day tie the first or only riband is worn inside the collar and over the tie, with the badge immediately below the knot of the tie. The second riband, if any, is worn on naval-type uniforms immediately below the first, the lower part of the badge resting on the cross of the lapel of the coat. Chaplains may wear neck decorations in a corresponding manner with the clerical collar. On military type uniforms the second riband emerges 19mm below the top button of the jacket, being suspended from a small eye stitched inside.

c. With winged collar and bow tie (only to be worn in the evening) one neck decoration only may be worn and the riband is worn the collar but under the tie, the badge hanging as close as possible below the bow.

d. With the white tunic the first or only badge is worn with the riband inside the tunic collar and the badge emerging to hang 19mm below the collar, and other badges, if any, are worn emerging between the buttons of the tunic, each 25mm below the badge above.

e. Until replaced by the new mess dress, women officers’ dresses which include a cape or bolero the riband is made up into a bow and worn with the badge attached below it on the left side of the cape or bolero, immediately below the medals, which should be moved up as necessary to provide room. When two badges are worn the senior badge is placed above and overlapping the junior. If a star is worn additionally (e.g. by a Dame Commander of an Order) it is positioned below the other decorations.
4411. Medals (Including Badges of The 4th And 5th Classes of Orders and Decorations Worn as Medals)

a. Medals, suspended from their ribands, are to be worn on the left breast in one horizontal line, with the highest in seniority at the end furthest from the shoulder. Medals awarded by a society for bravery in saving human life, if specially authorised to be worn, are to be worn on the right breast, similarly to those on the left and on the same horizontal line. All medals are worn observe outwards, i.e. with the head of the Sovereign showing.

b. The ribands are to be suspended from a bar, which they must completely cover, without gaps. The bar should be disposed centrally in the space available, without projecting outward beyond the shoulder or inward beyond the opening of the coat, or beyond the centre of a tunic or coat without opening. When the medals are too many to be suspended from the bar so as to be fully seen, they are to overlap, the most senior showing in full. In the case of ratings and ranks below officer, medals should, however, overlap whenever three or more are worn, the length of the bar to be 95mm for three medals up to a maximum of 171mm for larger numbers.

c. The bar should be of the brooch type, with the pin inserted through becket sewn to the garment. It may, if necessary, come over the lapel of the garment, except when a rifle is carried, when the bar should be under the lapel, as a protection for the medals.

d. The medal bar is worn immediately above the top row of medal ribbons sewn to the garment, or in the same position, and using the same becket, as the top row of detachable ribbons. See Para 4413 sub para e.

(1) For RMBS ranks wearing No. 1 Full Dress Blues - Ceremonial Dress the medal bar is worn centrally on the left breast using becket, the top of the medal bar being positioned horizontally, slightly above the second button down.

(2) For RMBS ranks wearing No. 1AW Dress – Tropical Full Ceremonial Dress the medal bar is worn centrally on the left breast and is pinned directly onto the fabric 6mm above the top seam of the pocket. Medal ribbons are not worn by band ranks in this uniform.

e. The length of medal riband for medals of normal size is to be 44mm. When two or more medals are worn, the length of ribands of medals of other than normal size should be adjusted so that the lowest points of the medals are all in line. A 44mm medal riband will accommodate four clasps: if more than four are worn the length of riband should be adjusted as necessary, leaving 13mm clear riband above the top clasp.

f. When medals are worn with garments on which medal ribbons are sewn, care must be taken that the ribbons are completely covered. If necessary a piece of material can be attached to the medal bar for this purpose.
g. Where more than one medal has been awarded, the ribands are to be suspended from a bar, which should be of the brooch type, with the pin inserted through becketts sewn to the garment. Medal ribands should be placed side by side up to and including a quantity of 6 medals unless the width of these 6 medals extends past the left shoulder seam of the uniform. In this instance, the 6 medals may be overlapped.

h. **Court Mounting.** Medals may also be worn court mounted. In this method the ribands are mounted on a frame of which the lower edge is in line with the centre of the medals. Commencing from the lower edge of the frame each riband runs over the upper edge and down to the ring of the medal. The medals are stitched down to the ribands. Court mounted medals may also be overlapped however, personnel with 7 or more court mounted medals should always wear them overlapped. Individuals with 6 or more medals may have them court mounted at crown expense. Personnel with 5 or less medals who wish to have them court mounted may do so at their own personal expense.

i. Badges of the 1st, 2nd and 3rd classes of orders are not worn as medals (other than miniatures - see Para 3811).

### 4412. Miniature Medals

a. These are half the size of the insignia, which they represent and on ribands 29mm long, are worn in the same manner as full-sized medals.

b. With some exceptions, as detailed in JSP 761, miniatures of all badges of orders and decorations are worn with miniature medals.

c. Except as in sub para d, miniature medals are worn with number 2A/2B Mess Dress/Undress on the lapel of the mess jacket. They may extend over the lapel towards the shoulder but not beyond the lapel on the inner side. The position on RM officers’ mess jackets is: Colonels and above, 102mm below the neck point of the shoulder seam; other officers 19mm below the Globe and laurel badge. Until replaced by the new mess dress the officers’ capes should be level with the top of the rank badge.

d. Drum Majors wear miniature medals horizontally on the Drum Major’s dress belt and centrally on the black band above the word “Gibraltar” so as not to obscure the battle honour.

### 4413. Medal Ribbons

a. When ribbons are worn apart from the orders, decorations and medals themselves a ribbon is worn for each medal, etc except the Garter, Thistle and St Patrick. The ribbon is the same for all classes of an order. The ribbon is to be worn from the date of the official notification of the award.

b. Length of ribbons to be worn: RN, and personnel - 13mm, but with more than five rows ribbons 10mm long may be worn. Royal Marines - 10mm all cases.
c. The width of the ribbon is to be that of the riband attached to the order, decoration or medal itself. For orders, the width is that of the riband of the lowest class. The normal width in each case is 32mm.

d. The ribbons are to be sewn on the garments, except on whites, tropical khaki and stone-coloured garments for which a detachable, brooch-type bar similar to the medal bar is to be used, with the pin inserted through becketts sewn in the correct positions. The ribbons are to be arranged in one or more rows as required, without either gaps or overlapping, in order of seniority as for medals, starting at the inside end of the top or only row. The rows should be 6mm apart for officers and Royal Marines and 3mm for others, but officers and Royal Marines may reduce the distance apart if necessary to accommodate a large number. The ribbons of orders, decorations and medals for which only private permission to wear has been given are not to be sewn on the garments.

e. The ribbons are to be worn on the breast, as for medals, positioned as follows:

(1) **RN Officers.** Top or only row 25mm below point of shoulder. When additional rows are sewn to the garment the number of ribbons in each row should be such that all visible, while preserving as symmetrical an arrangement as possible. The detachable bar may also have more than one row if necessary, in which case no row should be longer than the one above.

(2) **Royal Marines.** First row centrally over the breast pocket, 6mm above the top seam of the pocket. Additional rows centrally over the first, with no row shorter than the one above. Not more than five ribbons to a row, and no row to extend nearer than 19mm from the shoulder seam, but each row to be completed to maximum width before another is started.

(a) For female band ranks wearing No. 1A Regimental Dress Blues first row to be sewn centrally on the left breast being positioned horizontally, between the first and second button down so that the medal(s) sit at an appropriate height above the bust point. Additional rows as described above.

(b) For band officers and WO1s wearing No. 1 Full Dress Blues - Ceremonial Dress (Frockcoat Order) medal ribbons are to be sewn between the centre seam and left breast buttons with the first row being positioned horizontally, slightly above the second button down. Additional rows as described above. Medals are not worn in this uniform.

(3) **Ratings.** Top or only row: on jackets: level with the point of lapel; on blue jumpers: 114mm below point of shoulder; on white uniform: 51mm below point of shoulder. In each case, when there is more than one row, no row is to be shorter than the one above, and the whole display should be as symmetrical as possible about the vertical.

Ribbons must not project outward beyond the point of the shoulder, or inward beyond the centre of the garment or under the lapel, and they must all be visible.
4414. Miniature Medal Ribbons
Ribbons 10mm long and 19mm wide, are worn only with mess dresses. They are not sewn to garments but are worn on detachable, brooch-type bars, in the same positions as miniature medals. See Para 4411 sub para c. Miniature medal ribbons are not worn by Royal Marine and Naval Officers except, in the latter case, for safety reasons when acting as Duty Officer.

4415. Rosettes
Rosettes are worn on certain medal ribbons and miniature medal ribbons to denote clasps to the medals or some special distinction.

4416. Wearing of Foreign Medals

a. The rules governing the wearing of foreign medals are contained in Foreign and Commonwealth (FCO) regulations. The MOD is required to seek and follow FCO guidance if foreign medals are offered to Service or civilian personnel. The FCO advises all foreign embassies of the British rule on a regular basis.

b. HM the Queen approves the receiving and wearing of all foreign medals, orders and decorations. In all cases, requests to receive or wear should be made through the Chain of Command to Naval Secretary for onward transmission, as necessary, to Defence Services Secretary. It will then be for DS Sec to staff the request formally to both the FCO and the Ceremonial Branch of the Cabinet Office, whose agreement is required before Her Majesty's permission is sought. There will inevitably be some delay during this process and it should be noted that permission to wear is given only rarely.

c. Individual foreign awards for gallantry or meritorious service follow the same staffing route. Both may be subject to scrutiny within the FCO which must take account of the employment of Service personnel as State Servants, although it is usual that life-saving actions may be recognised by the appropriate Head of State.

d. No campaign medal for wearing, UK or foreign, may be claimed through concurrent service which gains another campaign medal.

e. Occasions may arise where foreign medals are presented to Service personnel abroad without prior warning. In such cases, individuals must exercise judgement as to whether refusal might give offence and the usual course of action is to accept the award. Thereafter, the Chain of Command is to be informed together with any request to wear and justification for it. Usually, the recipient will be allowed to keep the medal as a memento, not to be worn.

f. See JSP 761 ‘Honours and Awards in the Armed Forces’, Chapter 12, Annex B for the official order of wear for foreign orders, decorations and medals which have been approved for wear.
4417. **Wearing of Numerals or Bars Denoting Multiple Tours with UN, NATO or WEU**

Rules for the wearing of numerals are derived from the instructions issued by the Secretaries of the UN, NATO or WEU, as amended by any bilateral agreement between the UK and the relevant organisation. The UN makes official provision for numerals, NATO and the WEU do not. In addition, some nations reward multiple tours by the wearing of a medal for each tour. However, the practice or customs of other nations in receipt of the same medals is NOT to be adopted by UK Service personnel unless explicitly authorised in DINs.

4418. **Wearing of Unofficial Medals**

a. Only those Honours, Decorations, Medals and Awards that have been formally approved by the Sovereign may be worn. This applies to the wearing in uniform and civilian clothing, and by retired members of the Armed Services. Commanding Officers are responsible for ensuring that individuals do not wear medals that are not approved or to which they are not entitled, as well as being responsible for ensuring individuals are in possession of medals to which they are entitled.

b. A number of private companies market unofficial commemorative medals and although there is no reason why individuals may not purchase these items they are still formally classified as unofficial and have not been given approval by the Sovereign, and thus may not be worn. The fact that an advertisement for such medals appears in “in house” Service magazines is not to be taken as an indication that a medal has been formally approved and may be worn.

c. Any queries on the status of any medal, or of an individual’s entitlement to it, should, in the first instance, be made to single-Service medal offices.

4419. **Wearing of Family Medals**

Medals awarded to parents, grandparents, children, siblings or other family members, are not to be worn by serving personnel in uniform. Such ‘family’ medals may, however, be worn in civilian clothing on suits or blazers and female equivalent dress on the appropriate occasions, when they are customarily worn over the right breast.
SECTION 3 - WEARING OF ORDERS, DECORATIONS AND MEDALS WITH CIVILIAN DRESS

4420. General Conformity
The following instructions, which conform to those promulgated by the Lord Chamberlain’s Office in the London Gazette for the guidance of all concerned, apply to both serving and retired personnel when the civilian dress.

4421. Evening Dress

a. The occasions on which the insignia of orders and miniature medals and badges are worn with evening dress are as follows:

(1) At parties and dinners when any of the following members of the Royal Family are present:

- Her Majesty the Queen; and
- His Royal Highness the Duke of Edinburgh.

Their Royal Highnesses:

- The Prince of Wales;
- The Prince William;
- The Prince Harry;
- The Prince Andrew;
- The Prince Edward;
- The Princess Anne, Mrs Timothy Lawrence;
- Princess Alice, Duchess of Gloucester;
- The Duke and Duchess of Gloucester;
- The Duke and Duchess of Kent;
- Prince and Princess Michael of Kent; and
- Princess Alexandra, the Honourable Mrs Angus Ogilvy.

(The host should notify his guests if any of these members of the Royal Family will be present.)

(2) At parties and dinners given in houses of Ambassadors and Ministers accredited to the Court, unless otherwise notified by the Ambassador or Minister concerned. (A decoration of the country concerned should be worn in preference to a British one, and if both are worn, the former should take precedence over the latter.)

(3) All official dinners and receptions, including Naval, Military and Air Force dinners, dinners of City Livery companies and public dinners. (The word ‘Decorations’ on the invitation card to be the intimation from the host that the entertainment is an official one.)
(4) On official occasions when entertained by:

- HM Lieutenant of a county within their county;
- The High Sheriff of a county within their county;
- Cabinet Ministers;
- Ex-cabinet Ministers;
- Knights of the Garter, Thistle and St Patrick;
- Great Officers of State and of The Queen's Household;
- Lord Mayors and Mayors; and
- Lord Provosts and Provosts.

(The word ‘Decorations’ on the invitation card to be the intimation from the host that the entertainment is an official one.)

b. With Full Evening Dress the following may be worn:

- Broad riband;
- Up to 4 stars;
- Not more than 1 neck decoration; and
- Miniature medals.

c. With Dinner Jackets the following only may be worn:

- Not more than 1 star;
- Not more than 1 neck decoration; and
- Miniature medals.

d. On occasions when it is desired that decorations be worn, invitations should state either ‘Evening Dress, Decorations’ (for full evening dress) or ‘Dinner Jacket, Decorations’. When ‘Evening Dress, Decorations’ is prescribed those not in possession of full evening dress may wear dinner jacket, with decorations, etc. as in Para 3819 sub para c.

With ‘Dinner Jacket, Decorations’ it is permissible to wear either a stiff evening collar or a soft collar

4422. Day Dress

The insignia of orders, decorations and medals (full size) may be worn with formal day dress on appropriate official occasions and at public functions. When decorations are worn with formal day dress on such occasions as a British Legion rally or ex-Servicemen’s parade, it is customary to wear medals only, stars of orders and neck decorations not being worn.
4423. **General**

a. Nothing in the above shall affect in any way the practice of the Knights of the Orders of the Garter and Thistle, and Members of the Order of Merit, the Order of the Crown of India and the Order of the Companions of Honour with regard to wearing their insignia in accordance with previous custom.

b. Ladies in civilian dress may wear the orders, decorations and medals to which they are entitled under the same conditions as above, so far as appropriate.

c. The manner of wearing the insignia of orders, decorations and medals is the same as with corresponding items of uniform.
SECTION 4 - MERITORIOUS SERVICE MEDAL, LONG SERVICE AND GOOD CONDUCT MEDAL, AND GOOD CONDUCT BADGES

The following regulations replace those previously included in BR 8748: “Royal Navy Ratings and Royal Marine Other Ranks’ Terms of Service”, Chapter 7, and are complementary to JSP 761: “Honours & Awards in the Armed Forces”, Chapter 5.

4424. Introduction

a. This section outlines the procedures for the administration of the Regular Services’ Meritorious Service Medal (MSM) and Naval Long Service & Good Conduct Medal (LS&GC Medal), and naval Good Conduct Badges (GCB). Regulations for the Reserve Forces’ Volunteer Reserve Service Medal (VRSM) and the use of “VR” post-nominal letters, and the Cadet Forces Medal (CFM) are found elsewhere in BRd 3(1) and JSP 761.

b. Procedures for State awards recognising outstanding meritorious service, gallantry and bravery are in JSP 761.

4425. Meritorious Service Medal (MSM)

a. The MSM can be awarded to not more than 201 candidates from the Regular Forces in each calendar year. The award quota is RN/RM not more than 52, Army not more than 89, and RAF not more than 60 per calendar year. There are no clasps to this award.

b. The rules governing this award are set out in Annex 44A.

4426. Long Service and Good Conduct Medal (LS&GCM)

a. While each Service has its own LS&GCM, each of which has its own Royal Warrant, they have a common standard of conduct.

b. The regulations for the award of LS&GCM were revised with effect from 1 October 2016. The revised regulations apply to all officers of the Regular Forces who were serving on or after 29 July 2014 and to all Other Ranks of the Regular Forces who qualified for the award of the LS&GCM or to a clasp to the medal on or after 1 October 2016. Other Ranks who have left Regular service before 1 October 2016 will have their eligibility assessed through the previously published regulations.

c. To qualify for consideration for the LS&GCM under the revised regulations, personnel must be serving in the Regular Forces and have completed 15 years’ eligible service from the date of attestation irrespective of age. Clasps are available for this award after each further period of 10 years’ Regular Forces service. It makes no difference if an individual is commissioned at any stage during these 15 years or subsequently. Any entry on an individual’s JPA disciplinary record will automatically lead to a delay of 15 years from the date of the most recent offence or a delay of a further 10 years for the clasp. Certain minor offences and sanctions as well as training offences committed when still in training as defined in single Service regulations may be discounted.
d. The rules governing this award are set out in Annex 44B.

4427. Forfeiture and Restoration

Once forfeited, the MSM may not be restored. An individual who has already been awarded the LS&GCM who subsequently incurs an entry on his/her disciplinary record cannot forfeit the medal but will incur an automatic delay before the clasp can be awarded. If the individual also holds the MSM, it will be liable to forfeiture if the individual's conduct is no longer irreproachable. However, an individual who is sentenced to imprisonment for a period greater than 6 months and/or is dismissed with disgrace is liable to forfeit the LS&GCM or VRSM as well as Campaign, Commemorative and other Service medals in accordance with Chapter 9 of JSP 761. All medals can be restored after a further period of service on application to the Defence Council in accordance with Chapter 9 of JSP 761.

4428. Good Conduct Badges

The rules governing the award, deprivations and restoration of Good Conduct Badges are at Annex 44C.
ANNEX 44A

MERITORIOUS SERVICE MEDAL

The following regulations replace those previously included in BR 8748 'Royal Navy Ratings and Royal Marine Other Ranks’ Terms of Service’, Chapter 7, and are complementary to JSP 761 ‘Honours & Awards in the Armed Forces’, Chapter 5.

1. The Meritorious Service Medal (MSM) is awarded to recognise the good, faithful, valuable and meritorious service of non-commissioned personnel who are of irreproachable character and conduct. Non-commissioned personnel serving on Extended Service engagements are also eligible for award of the MSM. Reserve Forces personnel, including ex-Regular Service personnel serving on FTRS engagements, and Royal Fleet Auxiliary personnel, are not eligible to be considered.

2. Selections for the award of the MSM will be made Service twice yearly for announcement in Jun and Dec.

3. The award of the MSM does not give the recipient any financial benefits or entitlement to use post-nominal letters.

4. In order to be considered for the MSM, a candidate must be nominated by their Commanding Officer (CO) and fulfil the following prerequisite conditions:

   a. Achieved 20 years’ paid reckonable service from age 17½, or date of entry/enlistment/attestation if later. Previous service in any of the UK Regular Armed Forces may be aggregated.

   b. Attained the rank of substantive OR 5/6 (Petty Officer/Sergeant) at some time during their service.

   c. Be in possession of a UK Regular Armed Forces LS&GCM. Naval Service personnel must also be in possession of the full number of Good Conduct Badges appropriate to their length of service.

   d. Have provided good, faithful, valuable and meritorious service, with the highest, unbroken, standards of conduct - i.e. VG - throughout their career. (Note: On 1 Jan 00 Career Checks (CC) were introduced in the Naval Service. Naval Service candidates must have aggregated VG/CC-free service. For the purposes of consideration for the MSM, a CC will equate to a break in VG Conduct). Consideration for the MSM will normally require a conduct record completely free of any disciplinary entry.
5. Officers with previous non-commissioned service may only be considered for the MSM if they meet the above criteria and are recommended by their CO prior to being commissioned, and are selected to receive the award within 12 months of having been commissioned. Divisional and Corps Regimental Sergeant Majors (RSM), who may have been commissioned but fulfil a senior RSM appointment, may also be eligible while in post. Non-commissioned personnel who have retired or otherwise left the Service may be considered once only, in time for the Jun or Dec announcement as appropriate, immediately following their last day of paid service.

6. A break in service that is not due to Dismissal, sentence of Imprisonment, or other misconduct, will not be considered as breaking the continuity of VG and CC-free service, but time spent outside the Service will not count towards the length of service qualifying criterion. Additionally, service in the Reserve Forces during a break in service will not count towards the length of service qualifying criterion for the MSM.

7. **Nomination Procedure**

   The MSM is a prestigious award and COs are to ensure that only the most worthy and deserving candidates are nominated. Candidates’ service and conduct must have been of the highest order throughout their career, acting as an example to others and reflecting credit on themselves and the Naval Service. Attainment of positions of authority, for example RSM should not, of itself, be justification for a nomination. Only those whose service is judged truly meritorious should be nominated and written recommendations must contain evidence to justify the submission. Evidence of noteworthy achievements is particularly valuable. This might include achievement in the course of military duty or in extra-curricular activity that benefits the Service or the public (for example, voluntary or charitable work, or sporting achievement). A recommendation that amounts to no more than a bland description of a candidate’s service record is unlikely to be successful. Personnel who have simply performed long service with good conduct should not be recommended for the MSM. As far as possible, the recommendation should take account of the candidate’s whole Service record, with particular emphasis on the last 10 years’ service preceding the recommendation.

8. Recommendations are to be initiated by COs on Form JPA S004; no other Service documentation is required. Recommendations should be supported through the chain of command, with two levels of endorsement wherever possible, ie. to 2 Star level. Endorsement at higher than 2 star level is not required unless this forms part of the two levels of command chain. Orders of merit from endorsing officers should be submitted if endorsing more than one recommendation.

9. COs and endorsing officers have the discretion of whether or not to endorse a recommendation and forward it for consideration. As with all nominations for Honours & Awards, MSM nominations must be handled in strict OFFICIAL-SENSITIVE-HONOURS and candidates must not become aware that they have been recommended for an award.
10. Recommendations may be submitted at any time once a candidate has qualified by time served or will have qualified by time served by 1 Jun or 1 Dec as appropriate. Nominating officers are to take particular care to ensure that nominations for candidates with an imminent departure from the Service are received in time to be considered for announcement in the Jun or Dec immediately following their last day of paid service. Nominations for a Jun announcement must be received by the authorities below by 1 Apr; those for Dec must be received by 1 Oct. Following endorsement by chains of command, Forms JPA S004 are to be dispatched as follows:

Naval Service MSM Selection Panel  
Naval Secretary (Honours & Awards)  
Navy Command Headquarters, Leach Building (MP 3.1)  
Whale Island, Portsmouth, PO2 8BY

11. Normally, there are more recommendations received than awards available and hence only the most deserving of candidates will be selected. In order to preserve the prestige and integrity of the MSM, however, if insufficient nominations of appropriate merit are received, the selection panel may decide to forego all of the annual allocation.

12. Recipients will be notified individually of their award through the chain of command concurrently with the half-yearly State Honours Lists and the names of recipients will be promulgated through single Service channels. The award of the MSM will also be published in the London Gazette in due course. The award of the MSM will be recorded by the appropriate single Service authority on the recipient’s JPA Service record.

13. Unsuccessful nominations may be resubmitted, providing the candidates retain their CO’s confidence that they remain suitable for consideration for the award.

14. The MSM will be presented under single Service arrangements. The medal is to be presented in a manner that reflects the prestigious nature of the award.

15. NavSec (H&A) is to be notified immediately if, between the submission of a nomination and the presentation of the Medal, a candidate comes to notice in a way that casts doubt on their suitability to receive the award.

16. **Forfeiture of MSM**  
Details regarding forfeiture of the MSM are in JSP 761 Chapter 9. Once forfeited, the MSM cannot be restored. Forfeited medals are to be returned to the MOD Medal Office for disposal. Single Service authorities will arrange for the forfeiture to be gazetted and for the individual’s JPA Service record to be annotated.

---

For the RAF, candidate nominations should be forwarded to the RAF MSM Selection Panel by 28 February and 31 August respectively.
ANNEX 44B

LONG SERVICE AND GOOD CONDUCT MEDAL

The following regulations replace those previously included in BR 8748: “Royal Navy Ratings and Royal Marine Other Ranks’ Terms of Service”, Chapter 7, and are complementary to JSP 761: “Honours & Awards in the Armed Forces”, Chapter 5.

1. The regulations for the award of LS&GCM were revised with effect from 1 October 2016. The revised regulations apply to all officers of the Regular Forces who were serving on or after 29 July 2014 and to all Other Ranks of the Regular Forces who qualified for the award of the LS&GCM or to a clasp to the medal on or after 1 October 2016. Other Ranks who have left Regular service before 1 October 2016 will have their eligibility assessed through the previously published regulations.

2. To qualify for consideration for the LS&GCM under the revised regulations, personnel must be serving in the Regular Forces and have completed 15 years’ eligible service from the date of attestation irrespective of age. Clasps are available for this award after each further period of 10 years’ Regular Forces service. It makes no difference if an individual is commissioned at any stage during these 15 years or subsequently. Any entry on an individual’s JPA disciplinary record will automatically lead to a delay of 15 years from the date of the most recent offence or a delay of a further 10 years for the clasp. Certain minor offences and sanctions as well as training offences committed when still in training as defined in single Service regulations may be discounted.

3. Qualifying Conduct

The LS&GC Medal is a prestigious award. An individual or the Commanding Officer who receives the medal through the automated issue process but has doubts whether it is in all respects deserved in terms of good conduct should contact the MOD Medal Office or their single Service medal point of contact for advice. It may be an offence to knowingly accept and wear a LS&GC medal and/or clasp to which entitlement may not be appropriate. A guide to the effect of certain offences/misconduct on eligibility for the award of the LS&GCM is at Appendix 1 to Annex 44B.

4. Qualifying Service

To qualify for consideration for the medal or clasp under the revised regulations, personnel must be serving in full time service with the Regular Forces at the time of eligibility or application. Additionally:

a. Individuals must have completed 15 years’ service in the Regular Forces from the date of attestation. Clasps are awarded for every 10 years’ additional service from the date of the award of the medal or previous clasp.

b. Any entry on the disciplinary record will automatically incur a delay for a further period of 15 years from the date of the most recent entry. If an individual incurs a disciplinary entry after receiving the medal, eligibility to the clasp or additional clasps will be automatically delayed for a period of 10 years from the date of the most recent entry. A minor or training offence as listed in single Service Regulations will not incur a delay unless there are multiple offences.
c. Service on FTRS and NRPS engagements or as a Reservist is not reckonable for the medal.

d. Naval Service only: Possession of all three Good Conduct Badges (see Annex 44C).

e. Naval Service only: Career Checks (CC) were introduced on 1 January 2000 when Character Assessments ceased to be made. For awards falling between 1 January 2000 and 31 December 2014, Character Assessments and Career Checks are to be taken into consideration. To be eligible, an individual must have completed a combination of 15 years’ continuous VG Character/Career Check-free service, with no previous Character Assessment below ‘Good’. When Character has been assessed as ‘Good’ on 31 December in any one year, qualifying service is to begin on the following 1 January. The award of a Character Assessment below ‘Good’ will be disqualification from consideration for the Medal.

5. Break in Service

A break in service (note, not a break in conduct) or a Career Intermission that is not due to dismissal, sentence of imprisonment, or other misconduct, will not be considered as breaking the continuity of service but time spent outside the Service will not count towards the length of service qualifying criterion. Service in the Reserve Forces during a break in service will not count towards the length of service qualifying criterion for the medal or clasp.

6. Award Process

a. Medal. The MSM is a The JPA database will automatically identify those who have completed 15 years’ service with no entries recorded on their disciplinary records. The selected names are downloaded twice weekly onto the MOD Medal Office database. Staff checks are conducted, following which the medal is selected, engraved, and despatched to the Commanding Officer of the named recipient. The Commanding Officer is to ensure that there are no pending disciplinary proceedings and arrange for the award to be presented. If there are disciplinary proceedings pending, the Commanding Officer is to retain the medal until such time as the disciplinary proceedings are resolved. If no disciplinary action is taken, the medal can be presented to the individual. However if the date of an offence or offences resulting in an entry on the individual’s disciplinary record is before the qualifying date for the medal and therefore incurs a delay of 15 years, the Commanding Officer is to return the medal to the MOD Medal Office with a covering letter detailing the circumstances.

b. Clasps. JPA will identify those who have completed additional periods of 10 years Regular service following the award of the medal or previous clasp. The MOD Medal Office will conduct staff checks and then dispatch the clasp to the Commanding Officer of the individual. The Commanding Officer is to ensure that there are no pending disciplinary proceedings and make arrangements for the award of the clasp. If there are disciplinary proceedings pending, the CO is to retain the clasp until the disciplinary proceedings are resolved. If no disciplinary action is taken, the clasp can be presented to the individual. However if the date of an offence or offences resulting in an entry on the individual’s disciplinary record is before the qualifying date for the clasp and therefore incurs a delay of 10 years, the Commanding Officer is to return the clasp to the MOD Medal Office with a covering letter detailing the circumstances.
c. **Application for Award After Delay.** JPA cannot identify those who have completed a further 15 years after a disciplinary entry or a further 10 years for a clasp. In these cases, individuals are to apply for either the medal or clasp to the MOD Medal Office through their Commanding Officer. The Commanding Officer is to complete JPA Form S002 and submit it to the MOD Medal Office. If there are disciplinary proceedings pending, the Commanding Officer is to retain the medal or clasp until the disciplinary proceedings are resolved. If no disciplinary action is taken, the clasp can be presented to the individual. However if the date of an offence or offences resulting in an entry on the individual’s disciplinary record is before the qualifying date for the medal or clasp and therefore incurs a further delay, the Commanding Officer is to return the clasp to the MOD Medal Office with a covering letter detailing the circumstances.

d. **Appeal.** Personnel with an entry on their disciplinary records incurring an automatic delay of 15 years (or 10 years for the clasp) may apply to have the delay removed if they believe the offence to be minor. Applications are to be initiated by a plea of mitigation to their Commanding Officer. If the appeal is supported, the Commanding Officer is to complete JPA Form S002 and submit it together with the individual’s plea of mitigation and their own letter of support to the MOD Medal Office. The appeal will then be considered by the appropriate single Service Medal Board. Appeals against single Service Board decisions can be made provided there is continuing support from the Commanding Officer. In these instances, the MOD Medal Office will arrange for the appeal to be considered further by the single Service or the Defence Services Secretary as appropriate.

e. **Previous Permanent Ineligibility.** Other Ranks who had previously had the award delayed or been permanently denied qualifying for the award of the LS&GCM under the previous regulations because of a serious offence on their record may apply for the award provided they were serving in the Regular Forces on 1 October 2016 and had completed a period of 15 years in the Regular Forces from the date of the last offence. Applications from serving individuals are to be made through Commanding Officers. Applications from veterans are to be made direct to the MOD Medal Office.

7. **Presentation of Medal**

Medals and clasps are to be presented under chain of command arrangements. Arrangements are to be made for the medal or clasp to be presented in an appropriate manner that reflects the prestige of the award.

8. **Transitional Arrangements**

a. Other Ranks who have already received the LS&GCM and any clasps prior to 1 October 2016 can use any unrecognised period of Regular service towards additional clasps under the revised regulations. For example, an Other Rank who, on 1 October 2016, has 28 years’ Regular Service and who was awarded the medal at the 15 year point may claim the clasp for the 10 additional years’ Regular Service following the award of the medal and will have accrued a further 3 years’ service towards the 2nd clasp. Other Ranks who have left service before 1 October 2016 will have their eligibility assessed through the previously published regulations.
b. An officer who was serving on or after 29 July 2014 and who on 1 October 2016 has 28 years’ Regular Service will be awarded the LS&GCM and one clasp and will have accrued a further 3 years’ service towards the 2nd clasp. An officer who left the Regular Forces on or after 29 July 2014 with 26 years’ Service may claim the medal and one clasp on application to MOD Medal Office.

c. An Other Rank who, on 1 October 2016, has 36 years’ Regular Service without any entries on their disciplinary record and who has already been awarded the medal and clasp under the previous regulations, may claim a 2nd clasp from their 35 year point. While this means that they have served only 5 years for the 2nd clasp, this is to ensure parity with an officer who also has 36 years’ Regular Service and who has been awarded the medal and 2 clasps under the revised regulations. Both the officer and Other Rank will receive the 3rd clasp on completion of 45 years’ Regular service.

9. Service in Commonwealth Armed Forces

Previous time served in Commonwealth Armed Forces may be counted towards the length of service requirement for the LS&GCM as long as that time has not been previously recognised by the award of any form of long service and efficiency decoration.
## APPENDIX 1 TO ANNEX 44B

### GUIDELINES FOR THE ASSESSMENT OF ENTITLEMENT TO THE LONG SERVICE & GOOD CONDUCT MEDAL

**Note.** Any list of adverse activity and the response to such activity cannot be exhaustive. Each Contentious Case application is to be assessed on its individual merits but the following table is intended to assist COs.

1 For details on Administrative Consequences of Punishments under AFA 06 refer to JSP 830 MSL Chapter 13 Paras 34-126
ANNEX 44C

GOOD CONDUCT BADGES

The following regulations replace those in BR 8748: ‘Royal Navy Ratings and Royal Marine Other Ranks’ Terms of Service’, Chapter 7.

1. Good Conduct Badges (GCB) may be awarded at the Commanding Officer’s (CO’s) discretion to RN ratings and RM Other Ranks qualified by length of service and conduct.

2. Badges are awarded at the following service points:
   a. First badge awarded after 4 years.
   b. Second badge awarded after 8 years.
   c. Third badge after 12 years.

3. Qualifying Service
   The whole of a rating/other rank’s service counts as qualifying service, with the following exceptions:
   a. See Note 2 below.
   b. Time in the Second Class for conduct (now known as Service Supervision and Punishment Order (SSPO)).
   c. Time before desertion unless the ‘R’ is removed.
   d. Time for which pay is not allowed.
   e. Time during which an individual has been out of the Service for any other cause, including periods of unpaid leave. This includes unpaid maternity leave beyond the 14-week Service pay period.
   f. Time under training as a Reservist.

Notes:

1. Previous regulations that precluded the reckoning of service prior to a period of five years or more outside the Naval Service have been revoked and all service, other than that specified in sub-paragraphs a – f above, counts as qualifying service.

2. With effect from 1 Oct 16, the regulation which stated that service before the age of 17½ does not count as qualifying service for GCB was discontinued (announced Apr 17) in order to align GCBs with changes to LS&GC Medal reckonable service.
4. **Qualifying Conduct**

In addition to the periods of qualifying service set out above, an individual must also have a satisfactory conduct record. The minimum requirement is that during the two years of service immediately preceding eligibility by time, an individual must not have received a Career Check (see below). For the award of subsequent badges, an individual must also have been properly in continuous possession of the preceding badge for the 12 months of actual service immediately prior to eligibility by time.

**Note.** Career Checks (CC) were introduced on 1 Jan 00. Prior to this date, the service requirement was continuous VG Conduct.

5. **Commanding Officer's Discretion Regarding Award**

a. The CO is to consider the award to an individual who is qualified by length of service and conduct without regard to whether the individual makes application for a GCB. It is within the CO’s discretion to approve the award on the due date, or to defer consideration, or not to make an award. In considering these options, the CO is to bear in mind that GCBs represent the highest standard of conduct in the Service and should not be awarded, or restored, as a matter of course merely because an individual has avoided serious punishment. The award of a badge is to be recorded on the recipient’s JPA Service Record and on RN Form S3300d (Conduct Record).

b. If the CO decides not to make an award because in their opinion the candidate has failed to reach the necessary standard, the date the badge was due and the notation “Not Awarded” is to be recorded on the individual’s JPA Record and on the S3300d. The candidate may be re-considered for the badge once a further two years’ service has been completed.

c. If the CO decides to defer consideration, this must be for a period of not less than three, or more than six, months. This is to be noted on the S3300d.

d. If, at the end of the period of deferment, the CO decides that the individual’s conduct has now reached the qualifying standard, the GCB is to be awarded from the date of this final decision and the entry on the S3300d is to be underlined to indicate that the deferment was intentional. The date of the award is also to be recorded on the individual’s JPA Service Record.

e. If at the end of the period of deferment the CO decides that the candidate’s conduct is still below the required standard, the date the badge was due and the notation “Not Awarded” is to be recorded on the S3300d and on the individual’s JPA Record. The candidate may be re-considered for the award after a further two years’ service.
6. Finality of Awards by the Commanding Officer

An award or restoration (see para 8 below) of a GCB properly authorised by the CO in accordance with these regulations will normally be regarded as final and should not be altered without Admiralty Board approval. Nevertheless, errors should not be perpetuated in any further award or restoration, the effective date of which should be calculated from the correct earlier date.

7. Former Service

a. An individual’s former service, including mobilized service as a Reservist (but not time under training as a Reservist) in the RN, RM, Army or RAF, or in the Armed Forces of the British Commonwealth, may be counted as reckonable towards the award of GCBs, with the exceptions of those in paragraph 3 above.

b. Re-entrants, who have insufficient prior reckonable service or an insufficient period of CC-free service, may be awarded a GCB as soon as they complete sufficient combined CC-free and qualifying service.

c. Time served on full pay as an officer, including mobilized service as a reserve officer, in any of the forces mentioned above, which is allowed to reckon for naval pension (see JSP 754) may also be allowed to count for the award of a GCB.

8. Restoration of Good Conduct Badges following Deprivation

a. Following deprivation of GCBs (JSP 830 – Manual of Service Law), restorations are to be considered when they become due, whether or not the individual applies for the restoration of their badges, in accordance with the procedures in paras 3, para 4, para 5 and para 6 above.

b. One badge may be regained by six months’ CC-free service and additional badges by further periods of CC-free service, calculated, in each case, from the date of the preceding restoration. If, however, the individual has been sentenced to be deprived GCBs for a second time within three years, re-qualification is 12 months for the first restoration and six months each for each subsequent restoration. Time that does not count for the purposes of awards is not to be reckoned towards restoration of badges.

c. It is within the discretion of the CO to delay the restoration of a badge if the individual has failed to reach the required standard of conduct (see para 5 above). In this event, the notation ‘Not Restored’ is to be entered on the individual’s JPA Record and S3300d. The individual may be reconsidered for restoration after a further six months’ reckonable service.

CHAPTER 45

MARITIME RESERVES UNIFORM REGULATIONS

4501. Maritime Reserves Uniform Regulations

a. The wearing and maintenance of uniform in the Maritime Reserves (MR) is to be in accordance with Chapter 38 and JSP 752 Chapter 15.

b. RNR Ratings and RMR Other Ranks with former service in the RN and RM may wear Good Conduct Badges due for such service.

c. All clothing and equipment issued to ratings and other ranks remain the property of the Crown. Personnel are responsible for ensuring that all such items are used for service purposes only, and for producing them in good condition when called upon to do so. On being first issued with the uniform and equipment, ratings/other ranks are to sign an undertaking to the effect that they will return it to their parent unit when they are discharged from the RNR/RMR.

d. The advice of RNR Unit Commanding Officers and, ultimately, CMR is to be sought in all cases of doubt or where it is deemed that permission to wear uniform is required.

4502. Provision of Uniform – MR Officers

a. The cost of uniform on appointment or promotion to officer rank will be borne by the Ministry of Defence. The authorised scales of uniform for MR officers are shown in the Annexes to Chapter 39 and Chapter 40.

b. Eligibility. No officer may qualify for more than one full outfit cash grant and set of free issues on account of membership of two sections of the Reserve, eg. an officer holding a commission in the RNR who also has an appointment as an officer of the Sea Cadet Corps. However, they may be reimbursed actual costs to buy a different uniform and shoulder boards.

c. Transfer from RN/RM and Re-entry into the MR. The regulations for officers who transfer from the RN/RM or re-enter the MR are contained in JSP 752 Chapter 8.

d. Payments of Cash Grants. All cash grants will be paid through JPA without application, and no payments may be made by any other authority without specific authorisation.

e. Kit Record Book (S2910). All issues will be entered in the officer’s Kit Record Book, any deficiencies being entered on the appropriate page. When the items become available they will be issued; the entry on the deficiency page is the authority for issue.
f. **Call Out for Permanent Service.** Officers of the MR called out for permanent service are required to take with them the complete scale of uniform and kit as issued, which will be specified in their Call Out Order.

g. **Additional Uniform.** MR Officers are permitted to purchase (from Ministry of Defence stocks), articles included in the authorised list of officers' clothing for wear as uniform. All purchases are to be strictly limited to immediate personal requirements.

4503. **MR Officers’ Uniform Grant Refund on Discharge**

a. The following applies to Reserve officers who resign voluntarily or whose appointments are terminated compulsorily.

(1) **Voluntary Outflow (VO).** Applies to officers leaving the Service, and to those transferring to another branch/Service. Officers who voluntarily retire, including Midshipmen/2nd Lieutenants, will be required, at the discretion of MOD, to refund their initial uniform cash grants and the value of their initial outfit free issues as follows:

(a) Grants paid and issues made less than one year prior to date of VO (see Note) - in full.

(b) Grants paid and issues made over one year but less than 2 years from date of VO (see Note) - two-thirds.

(c) Grants paid and issues made over 2 years but less than 3 years from date of VO (see Note) - one-third.

Note. *Measured from ‘last day on Naval pay’. Each grant and free issue will be considered separately for this purpose.*

(2) The amount of refund will be re-assessed in the light of any Kit Deficiency certificates handed in and any unused items of gratuitous issue returned in an unmarked condition. The value of these items will be reduced on the same basis as Para 4503.a sub para (1) above, each free issue being considered separately. Returned items of gratuitous issue cannot be offset against the liability to refund cash grants.

b. Officers whose appointments are terminated compulsorily before they have completed 2 years’ service (from date of entry) are required to return the principal items of uniform and equipments, as directed by the MOD, charges being raised against them or, if under 18, their parent or guardian for any that they fail to return.

4504. **MR Officers’ Promotion Grants**

Promotion grants are payable under the same conditions as for RN/RM officers, in accordance with JSP 752 Chapter 15, Section 3, Paras 15.0313 and 15.0321 for the rank to which promoted.
**4505. Aiguillettes – MR Officers**

MR officers appointed as ADCs, Honorary Physicians, or Honorary Surgeons to HM The Queen or as Equerries to members of the Royal Family should apply for a loan issue of aiguillettes and aiguillette shoulder straps when required and in accordance with Para 3913 and Para 4021. Articles issued on loan are to be returned as soon as possible after the ceremony or function for which they are supplied.

**4506. Uniform Upkeep Allowance (UUA)**

a. Except as provided in Para 4502, Para 4504 and Para 4505, no cash grants or free issues of articles of uniform from Service stocks will be made at any stage in an officer’s career, except when authorised by DIN or CMR. JSP 752 Chapter 15 provides more detailed guidance on the issue and maintenance of uniform. Maintenance of uniform will be the officer’s responsibility and UUA will be paid for this purpose provided the officer is in date for training and eligible for Bounty. The amount payable varies according to training list and is restricted to normal peacetime service in the Reserve, ceasing when officers are mobilised or serving on Full Time Reserve Service (FTRS) commitments. The allowance will be reduced proportionately when less than a full year’s service has been rendered in the Reserve in any one year.

b. The allowance is payable annually in respect of each training year, ending 31 March, when Bounty has been earned. Payment will be made automatically through JPA. When an officer is, exceptionally, awarded a Bounty Waiver it does not automatically entitle him/her to the award of UUA.

c. **Membership of Two Sections of the Reserve.** A member of two sections of the Reserve, eg. an RNR officer who also holds an appointment as an officer of the Sea Cadet Corps, may receive half the lower rate of UUA in addition to the full rate of the higher allowance authorised for the other appointment.

**4507. Provision of Uniform**

a. Ratings/Other Ranks are issued with items of uniform free of charge on being enrolled into the MR in accordance with the appropriate scales prescribed in Chapter 39 and Chapter 40 respectively. Subsequent replacements will be issued on a ‘one-for-one’ basis in accordance with current regulations, subject to an assessment of ‘fair wear and tear’. Once issued, ratings/other ranks are responsible for maintaining their kit in a clean condition and in a good state of repair.

b. The initial issue is to be restricted to those items prescribed for the provisional New Entry Scheme in accordance with BRd 3(1) Chapter 39 and Chapter 40. Remaining items will be issued as required for their stage of training.

c. **RMR**

(1) RMR OR who qualify for the award of a Green Beret will be issued it by CTCRM on completion of their Commando training.
(2) On completion of Phase 2 Training, RMR ORs are to wear 'Royal Marines Commando' shoulder flashes.

(3) All members of No 2 Raiding Troop are to be issued with a Coxswain's standard scale of equipment.

4508. **Return of Uniform on Discharge**

a. On final discharge from the RNR/RMR, officers and ratings/other ranks are required to surrender all items of equipment and loan clothing issued to them. Whenever possible, action is to be taken against personnel who fail to return any of these items.

b. Ratings/Other Ranks discharged prior to completing their initial 5-year engagement will be required to return all items of kit issued or make good any deficiencies as follows:

   (1) Under one year’s service - at full Fleet Issuing Price.

   (2) Over one year’s service - at 50% Fleet Issuing Price.

c. The effects of personnel who die in service are to be disposed of in accordance with QRRN Chapter 55 Section II.

d. The kit of personnel discharged for misconduct whilst called out for permanent service is to be dealt with in accordance with the regulations for corresponding rank/rate in the RN/RM. For this purpose, the period of service is to be reckoned from the date upon which the individual concerned was called out.

4509. **Full Time Reserve Service (FTRS) or Mobilisation**

a. MR Officers and ratings/Other Ranks undertaking a period of FTRS or mobilisation will be issued with appropriate items of uniform to bring their outfit up to the scales authorised for regular personnel. For officers, additional cash grants may be payable.

b. Due to the nature of FTRS or mobilisation commitments, the issue of tailored uniforms, where necessary, should be based on the cheapest and quickest method available in the individual circumstances. The arrangements for the issue of tailored uniforms are to be through the LO HMS NELSON or, for RM/RMR, DSO CTCRM who may employ one of the following methods:

   (1) Through the existing contract arrangements for new entry and SO(LE) officers.

   (2) Exceptionally by a cash grant for the bespoke tailoring of new uniforms. This must be submitted to DNPSSC for prior approval.

c. RNR Junior ratings mobilised or on FTRS are to be issued with the cap ribbon appropriate to the ship or establishment to which they have been drafted.
4510. **Wearing of Uniform**

a. RNR/RMR uniform is to be worn on all occasions when undergoing training or other duties, paid or unpaid, in accordance with local orders and regulations contained in BRd 3(1) (see Paras 3808-3811), unless otherwise ordered.

b. MR officers on the Active List and all serving RNR ratings/RM Other Ranks may also wear uniform on other appropriate occasions where, in doing so, the Service is not brought into disrepute or the security of the Reservist concerned is not endangered or compromised as a result. Appropriate occasions may include weddings, investitures, funerals, memorial services/parades or formal Service or civilian social occasions. Uniform should never be worn during political rallies or demonstrations, when appearing before a court of law as either witness or accused, outside the UK (without prior permission), or in a public house/night club where unwelcome attention may arise from doing so.

c. The advice of MR Unit Commanding Officers and, ultimately, CMR is to be sought in all cases of doubt or where it is deemed that permission to wear uniform is required.

4511. **Wearing of Uniform by Honorary Officers**

Honorary officers of the RNR/RMR may wear the uniform of their rank on appropriate occasions. Following initial provision of a No1 suit and working rig, the maintenance of uniform will be their own liability.

CHAPTER 46
ROYAL CORPS OF NAVAL CONSTRUCTORS

4601. RCNC Uniform

As noted in QRRN Chapter 1, the Royal Corps of Naval Constructors (RCNC) is a civilian corps and an integrated part of the Defence Engineering & Science Group with its members wearing uniform in certain posts. It is not a part of the Naval Service, but RCNC uniform is very similar to Royal Navy uniform. As this subtle distinction is not understood by many, RN regulations for uniform shall be used as the guideline for the wearing of the equivalent RCNC uniform. RCNC members do not hold a commission and cannot be compelled to wear uniform. However, an individual who has volunteered to wear uniform shall follow naval traditions, marks of respect, etiquette and customs where reasonable and appropriate. For example, saluting a senior officer is reasonable and appropriate; being ordered into combat is not. RCNC members in uniform should be treated by other uniformed services with the same marks of respect and etiquette as they would treat a commissioned RN officer of the same rank.

4602. RCNC Uniformed Posts

This section discusses a method for identifying whether a post should be uniformed and how uniform should be worn appropriately. It does not consider the case of SCS grade Constructors and policy for this should be agreed on a case by case basis by Head of the RCNC1 (HRCNC) and First Sea Lord.

a. In all cases the recent custom and practice of the RCNC shall be used to identify the RCNC rank equating to civil service grades. This aligns well with the common DE&S working equivalencies between uniformed and non uniformed personnel but is not the same as noted in JSP755. The following equivalencies shall be used:

Table 46-1. RCNC Uniform Ranks

</tr>
</tbody>
</table>

1 As of this edition HRCNC is DE&S Director Ships. However the position is generally held by the most senior RCNC member currently employed by the MOD, and as such will rotate to that individual’s post.

46-2 of 5
February 2020 Version 1
Notes:

1. Only when RCNC Graduate Member, only while training at sea.

2. Following previous RCNC precedent for “Probationary Assistant Constructors”.

b. There are some anomalies between this grade-based table and a more historic-based view in which pre-1988 RCNC grade, and experience in that grade, were used to judge, for example, whether a person of the grade of Constructor should wear Lieutenant Commander or Commander rank. However to provide some clarity and reduce the amount of interpretation, the basis for rank worn shall be only current substantive civil service grade and not experience in that grade or any temporary promotion status.

c. For C2 staff and upwards, in all cases the act of gaining permission to wear uniform shall commence with the Constructor deciding to volunteer to wear uniform. The officer proposing to wear uniform shall gain approval from the post’s line management and then the HRCNC to wear RCNC uniform.

d. For DESG Graduate Engineers undertaking training at sea, the engineer’s Mentor shall initially decide whether the trainee is sufficiently experienced to wear uniform appropriately. Sea Time undertaken within six months of initial entry to the MOD shall generally not be undertaken in uniform. The officer proposing to wear uniform shall then gain approval from the Maritime Development partner and then the HRCNC to wear RCNC uniform on Sea Time.

e. When permission is sought from HRCNC to wear uniform, the proposed rank and schedule of uniform to be followed shall be identified.

f. Once a uniformed post proposal has been approved by HRCNC for an individual, the officer proposing to wear uniform shall:

   (1) Familiarise him/herself with BRd 3(1) Part 6 and other relevant RN publications.

   (2) Liaise with BRNC to arrange familiarisation training with regard to wearing the uniform and other elements of naval etiquette. Should this not prove practical, an appointment with the Base Warrant Officer of a Naval Base or Establishment Warrant Officer of a Shore Establishment shall be made to discuss informally the correct manner to wear uniform and discuss naval etiquette.

   (3) For sea time, DESG trainees shall consult with the Fleet Constructor.
g. Any proposal to HRCNC for a post holder to adopt a uniformed posture shall consider the following to identify whether the post holder should be uniformed in one of the following categories:

1. **Fully Uniformed Posting (Schedule A).** A post holder will wear RCNC uniform for all routine MOD events and circumstances.

2. **Partially Uniformed Posting (Schedule B).** A post holder will wear RCNC uniform for specific MOD events and circumstances.

3. **Sea Time (Schedule C).** Only for Graduate Member training purposes at sea.

4. **Not Appropriate.** A post holder shall not wear uniform.

4603. Uniform Schedules and Funding

a. The uniform worn for any given event shall be that which a Marine Engineer General Service RN officer of the same rank could legitimately wear at the same event with the exception of certain distinctions noted below.

b. No 1 Uniform suit shall be obtained from HMS NELSON RN Clothing Store at public expense charged to the RN/RM Uniform Supply Fit contract. Initial issue of service stocked ancilliary items (cap, shirt, shoes, tie, socks) may be issued free of charge. To minimise the cost of uniform supply Naval Constructors will not be issued PE kit, Combat Uniform or other specialist clothing unless these are required in performance of specific duties of their post. Overalls, boots, rucksack and day sack may be issued on request where normally an RN officer would use them. Upkeep of uniform shall be at personal expense unless promoted in rank from one uniformed post to another, in which case a cost not more than the relevant promotion grant afforded to RN officers may be incurred via local purchase transaction between NELSON Clothing Store and the on-site tailor to adjust uniform sleeve lacing. Ceremonial (No 1A, 1B, 1C and tropical equivalents), and formal mess uniforms (No 2A, 2B and tropical equivalents) shall not be justifiable as a crown expense unless occupying a fully uniformed post with an expectation of attending formal events as part of the post’s remit. Where these uniforms are purchased at crown expense, the maximum cost shall be that charged in accordance with the RN/RM Uniform Supply Fit contract schedule.

c. Tropical uniforms shall not be drawn unless the post requires substantial overseas activity. RN guidance shall be followed on wearing tropical dress schedules.

d. The uniform schedule below shall be followed.

b. The following specific distinctions apply to RCNC uniform. These supersede the equivalent regulations for RN uniform:

1. Silver grey distinction cloth shall be worn on all badges of rank.

2. A silver grey cummerbund, with or without RCNC crest, may be worn with No 2B and No 2C uniforms in lieu of the black cummerbund.

3. Graduate Members on sea time shall wear a beret rather than a peaked cap.

4. Where a standard uniform includes RN/RM/Army/RAF specific symbols of identification (i.e. Tactical Recognition Flashes on CS95/PCP or the RN Logo on Windproof jacket) for which there is no RCNC equivalent, RN practice shall be used.

5. CS95 or PCP shall only be worn when on an operational training course, where this is the default rig for RN trainees or when deployed to an operational theatre (when on land, with the local command’s support). A Silver grey, blue (RN) or plain green stable belt shall be worn when appropriate.

CHAPTER 47

DRY CLEANING AND LAUNDRY

4701. Laundry
Articles of clothing may be laundered or dry cleaned as appropriate, using one of the following methods:

a. By Civilian Contract;

b. Unit Laundry Facilities;

c. Individuals’ private arrangements.

4702. Civilian Contracts
Contracts are normally arranged by the Contracts Branch and include attached schedules of clothing items that may be laundered or dry cleaned. Most laundry and dry cleaning contracts form part of a Multi Activity Contract (MAC) which has superseded the previous laundry systems. Forms used are provided by the contractor.

4703. Unit Laundry Facilities
Individuals may launder their own clothing when there are adequate unit facilities available. The cleaning of items not included in the schedules attached to the laundry and dry cleaning contracts are the responsibility of the individual. No allowance is payable and no issue of cleaning agent is to be made.

4704. Laundering and Dry Cleaning of Clothing at Public Expense for RN and RM Personnel Serving Ashore
Clothing provided in accordance with uniform outfits and kit scales is not to be laundered at Public expense, with the following exceptions:

a. RN Ratings - Chefs/Stewards. Working Dress, up to one chef’s jacket, chef’s or shirt white tropical and one pair trousers (chef)’s, per working day; and

b. RN Ratings - Prolonged Ceremonial Duties and Parade Training Staff in Training Establishments. RN Ratings employed on prolonged Ceremonial Duties and the Parade Training Staffs in Training Establishments may have No 1 Suits dry cleaned/laundered at Public expense, on an as required basis, at the Logistics Officer’s discretion.
4705. Laundering of Specialist Clothing

a. The extent to which items of specialist clothing may be laundered or cleaned at Public expense is as follows:

   (1) Clothing Issued on Personal-Loan:

      (a) **Chef Ratings.** Up to one chef’s cap and one chef’s apron per working day;

      (b) **Seagoing Personnel.** RNPCS, AWD, Overalls, Flight Deck Jerseys, Shirts KC (Dining Hall parties), Flying Clothing, and items of RM clothing similar to those listed above and sleeping bags.

      (c) **All Other Users.** On ultimate return to store, if otherwise fit for re-issue.

   (2) Clothing Issued on Individual and Temporary Loan:

      (a) For Arctic Clothing, Action Overalls, Anti-flash Clothing, Fire-Fighting Clothing and Windproof Suits: as considered necessary by the Designated Laundry Officer;

      (b) For all other items: on ultimate return to store, if otherwise fit for reissue.

b. **Clothing Issued on Permanent Loan¹ (Articles in Use).** Articles in Use (AinU) will include items held on Permanent Loan for subsequent issue on Individual or Temporary Loan within the department.

4706. Desk Instructions

Further detailed instructions for Ships Laundry Officers onboard major RN Warships are contained in the Navy Command Laundry Desk Instructions which is hosted on the Fleet Logistics Officers intranet webpage. Laundry queries should be directed to the Laundry mailbox (NAVYLOGINFRA-LAUNDRYMAILBOX@mod.uk) which is overseen by the Assistant Fleet Logistics Officer, based in Navy Command Headquarters.

¹ Items considered necessary by the Logistics Officer.

CHAPTER 48
ENTRY AND RE-ENTRY TO THE NAVAL SERVICE
SECTION 1 – DIRECT ENTRY (OFFICERS)

4801. Commissions on Entry - From 1 Apr 15

a. Following the introduction of the New Employment Model, all Naval Service officers now join on a 12 year Initial Commission Stage (ICS) with the exception of:

   (1) Direct Entry Medical, Dental and QARNNS Officers – 6 years.

   (2) Medical and Dental Cadets – 7 years.

   (3) Chaplains – 6 years. RN Chaplains hold the Sovereign’s Commission but no Naval rank; their status is defined in BR 2. For pay and pensions, refer to JSP 754 and JSP 764. Chaplains rank relatively with each other on seniority of service (ie. date of entry).

b. Career Commission Stage (CCS). For those joining on or after 1 Apr 15, or transferring from an ICS (or equivalent commission) after this date, transfer to a CCS automatically extends an officer’s career through to 20 years’ service from the date of entry or until age 40, whichever is the later, subject to retirement age.

c. Full Commission Stage (FCS). Full Commission Stage (FCS) further extends an officer’s career to a retirement age of 55.

4802. Commissions on Entry - 1 Apr 99 to 31 Mar 15

a. From 1 Apr 99, with the exception of Medical, Dental and Nursing Officers, all officers joined on the Three Tier Commission (3TC) structure, comprising:

   (1) Initial Commission (IC).

      (a) Warfare, Engineer, Logistics, Medical Services officers - 12 years

      (b) RM officers - 8 years (for RM Pilots - see Para 4916 sub para e)

      (c) Chaplains – 6 years.

   (2) Career Commission (CC). For officers selected for a commission transfer between 1 Nov 13 and 31 Mar 15, transfer to a CC automatically extends an officer’s career through to 20 years’ service from the date of entry or until age 40, whichever is the later (known as a CC20/40), subject to retirement age. Officers selected for a CC before this date may continue to serve on either:
(a) A CC of 16 years from the age of 21 (if joining between 1 Apr 99 and 5 Apr 05) or

(b) A CC of 18 years’ service or until age 40, if later, if joining between 6 Apr 05 and 31 Oct 13 or, if having joined before 6 Apr 05, transferring to AFPS05 or transferring to a longer commission during this period.

(3) **Full Term Commission (FTC).** This further extends an officer’s career to retirement age, as shown at Para 5425 and Para 5427.

Officers who were already serving prior to 1 Apr 15 remain on their existing commission until leaving the Service or transferring to a longer commission, at which point they will move to a NEM commission stage. For information about commissions pre 1 Apr 99, refer to archived copies of BR 8373, which can be obtained from the Navy Command Terms of Service Team.

b. **Medical, Dental and Nursing Officers.** From 1 Apr 03 – 31 Mar 15. Medical, Dental and QARNNS Officers were subject to the Common Terms of Service (CTOS) commission structure, entering on a Short Commission (SC), with the opportunity thereafter to transfer to a Medium Commission (MC) and a Full Commission (FC):

(1) **SC.** Medical Officers - 6 years' reckonable service from full registration with the General Medical Council (GMC); Dental Officers - 7 years' reckonable service from full registration with the General Dental Council (GDC); QARNNS officers - 6 years' reckonable service from date of entry.

(2) **MC.** Medical and Dental Officers - 18 years' reckonable service from the age of 21 or date of entry (whichever is the later), subject to NRA58; QARNNS Officers on AFPS05 - 18 years' reckonable service from the age of 21 or date of entry (whichever is the later), subject to NRA55; QARNNS Officers on AFPS75 - 16 years' reckonable service from the age of 21 or date of entry (whichever is the later), subject to NRA55.

(3) **FC.** This extended an officer’s career to retirement age - 58 for Medical and Dental Officers; 55 for QARNNS Officers.

c. **Entry on or Before 31 Mar 03.** Prior to the introduction of CTOS on 1 Apr 03, officers served on a Short Career Commission (SCC), Medium Career Commission (MCC) or Full Career Commission (FCC) (details given below).

(1) **SCC.** Medical Officers - 6 years; Dental and QARNNS Officers – 5 years.

(2) **MCC.** 16 years’ officer service from the age of 21 or date of entry as an officer, whichever is later, subject to retirement age.

d. **FCC.** To retirement age, which varied according to branch, rank and date of entering the Naval Service.
4803. **Rank and Seniority on Entry**

a. **Warfare, Engineer, Logistics and RM Officers - Entry post 1 Sep 13**

(1) Regardless of an individual’s age or educational qualifications held, all Direct Entry and Upper Yardman (UY)\(^1\) Warfare, Engineer and Logistics Officers will join BRNC Dartmouth in the rank of Midshipman. Whilst at BRNC, individuals will be addressed as an Officer Cadet until successful completion of Initial Naval Training (Officer) (INT(O)), at which point they will be referred to as Midshipmen. See Para 6632 sub para a for the rules on subsequent promotion.

(2) Regardless of an individual’s age or educational qualifications held, all Direct Entry and Corps Commission (CC)\(^1\) RM Officers will join CTCRM Lympstone in the rank of Second Lieutenant and will remain in the rank until successful completion of the RM Officer initial training course, at which point they will be promoted to the rank of Lieutenant RM with seniority backdated to 12 months from date of entry if completing the training without delay. See Para 6635 sub para a for the rules on subsequent promotion.

b. **Warfare, Engineer, Logistics and RM Officers - Entry before 1 Sep 13**

(1) Between 1 Apr 07 and 31 Aug 13, the rank and seniority of individuals joining directly as Warfare, Engineer, Logistics and RM Officers was determined by their educational qualifications held on entry, as shown in Table 48-1. New entrants to BRNC and CTCRM joined with seniority of the first day of the month of entry, ie. 1 Sep for September entrants, 1 Jan for January entrants etc. The effect on subsequent promotion is shown at Chapter 66.

---

\(^1\) Under agreed transitional arrangements, exceptionally, the starting rank and seniority of UY and CC candidates entering in September 2013 were based on pre-Sep 13 rules and as such individuals were awarded up to 3 years’ seniority on joining the Officer Corps.
(2) In addition to the baseline shown at Table 48-1, new entry Training Management (TM) Officers (including UY Officers) could be awarded additional seniority on entry to BRNC: an extra 3 years if holding a 1st or 2nd Class Honours degree (thereby entering as a Lieutenant with 1 year's seniority) or one extra year for a Third Class Honours degree or Pass degree (the minimum entry qualification) (thereby entering as a Sub Lieutenant with 2 years' seniority). Additional seniority, calculated on a 50% 'pro rata' basis up to a maximum of 2 years, could also be granted for previous relevant postgraduate civilian experience which, in the opinion of the MOD, would be beneficial to the RN. As such, the maximum starting rank and seniority for a TM Officer was as a Lieutenant with 3 years' seniority.

(3) UY and CC Officers joined with a rank that reflects their antedated seniority, eg. 3 years’ antedated seniority equated to a Sub Lieutenant with 1 year’s seniority. RM CC Officers completed their initial training in the rank of Second Lieutenant and were awarded the same antedated seniority, dependent on educational qualifications, on completion of their initial training.

c. **Medical, Dental and QARNNS Officers.** Rank and seniority on entry is based on an individual’s relevant post registration experience. As a minimum, individuals enter as a Sub Lieutenant but can qualify for additional seniority depending on their post-registration experience:

1. **Direct Entrant (DE), Unaccredited.** 75% of recognised civilian experience (expressed as time) within the speciality for which the applicant is to be employed, will count towards military seniority. 50% of recognised civilian experience that was out of the speciality, for which the applicant is applying, will also count towards military seniority. Time spent away from the practice of medicine, dentistry or nursing will not count. Part-Time Working (PTW) experience will be calculated according to the relevant percentage, when compared to the standard working schedules of equivalent full-time workers.

2. **DE, Accredited and Re-entry.** In addition to the statement above, 100% of recognised civilian and military experience from the date of Accreditation within the speciality for which the applicant is applying, will also count towards military seniority.

3. **Recognised Experience.** For the purposes of calculating seniority for both pay and rank purposes, recognised experience is defined as verifiable time spent in the practice of conventional medicine, dentistry or nursing, within the UK. Recognised training abroad will count towards determining seniority on entry, based on the UK training periodicity requirements for Core, Higher or Run Through training, or equivalent.
(4) **Maximum Seniority.** Seniority using career progression regulations and the formula above will determine rank on entry. For QARNNS officers, entry will be as a Sub Lieutenant, with additional seniority applied as follows: 4 years as a Sub Lieutenant and a maximum entry level as a Lieutenant with 2 years’ seniority. For medical and dental officers, entry will be as a Surg Lieutenant, with seniority applied as follows: 5 years as a Surg Lieutenant and a maximum entry level as a Surg Lieutenant Commander with 8 years’ seniority. Further promotion for all cadres is selective and will require a minimum of 2 years’ service with appropriate recommendations in the annual reports prior to consideration at Promotions Board.

(5) **Salary.** Initial salary on entry will be determined by the applicant’s rank, seniority and Accredited Practitioner status as outlined above and reflected in the Terms and Conditions of Service (TACOS) on entry.

d. **Medical Services Officers with an Environmental Health Practitioner (EHP) Qualification.** Direct Entry EHPs who hold either the Certificate of Registration from the Environmental Health Registration Board or Chartered Status with the Chartered Institute of Environmental Health will receive 3 years’ seniority on entry to the RN and therefore join BRNC as a Sub Lieutenant with 2 year’s seniority. On leaving BRNC, Direct Entry EHPs meeting the aforementioned requirements will be assigned to OF2 positions on the trained strength in recognition of their competences as Subject Matter Experts (SMEs). Accordingly, they will be promoted to the rank of Lieutenant on the day after leaving BRNC. This date will also be recognised as the officer’s basic seniority date as a Lieutenant and they will be placed on the IL1 pay spine for the rank. Graduate EHPs who do not hold either the Certificate of Registration from the Environmental Health Registration Board or Chartered Status with the Chartered Institute of Environmental Health will receive one years’ seniority on entry to the RN and therefore join BRNC as a Sub Lieutenant. These officers will be eligible for promotion to Lieutenant on attaining 30 months’ seniority as a Sub Lieutenant as detailed in Chapter 66.

e. **Chaplains.** Chaplains are allowed up to 6 years’ antedated seniority, for basic pay purposes only, for experience as a member of the clergy after their 25th birthday and before entry to the RN, reckonable from the date of ordination or from theological college if in full-time Ministry. This does not affect relative seniority within the Chaplains’ branch, which is reckoned according to the actual date of entry. The actual date of entry is also used in determining allowances.
SECTION 2 – DIRECT ENTRY (RATINGS AND OTHER RANKS)

4804. Engagement Structures – from 1 Apr 15

From 1 Apr 15, ratings and other ranks join the Naval Service on a 12 year Engagement Stage 1 (ES1), with the possibility thereafter of transferring to an Engagement Stage 2 (ES2) – to 20 years’ service or age 40, whichever is later – and then to an Engagement Stage 3 (ES3). Further details can be found at Para 4922 to Para 4924. Ratings and other ranks serving before the introduction of the new Engagement Stages will continue to serve on a Full Career (FC) or Open Engagement (OE) (see Para 4806), which will run in tandem with the ES structure until the final FC/OE expires.

4805. Tailored Career

a. Ratings and other ranks who have skills that are required to meet Service needs may be offered the opportunity to enter or re-enter to complete a Tailored Career (TC) of between 6 months and 11 years in length. The scope of the requirement and the applicable terms of service will be set out for each individual on a Form S3049 (Notice Form for Entry/Re-Entry into the Naval Service) which will include such details as an individual’s sea-service liability, training required, return of service commitment, right to leave within 6 months if an individual has not previously served in the Naval Service or was discharged ‘Not Finally Approved (Medical)’ and reserve liability. TCs can be used in the following circumstances:

b. Where manning levels allow, individuals wishing to re-enter the Service, who have the required skills and experience but have insufficient time to complete the balance of a ES2, may enter on a TC. In the main, such individuals will be able to serve under the same terms as their peers on a ES2, including promotion, but individual terms may be tailored in accordance with Service needs.

c. Since qualified individuals, who may or may not have previous service and who have specific skills required by the Service, are being employed to fulfil a specific Service requirement, it is unlikely that they will be considered for promotion unless it is in the best interests of the Service.

4806. Previous Engagements

a. Full Career. With the exception of those individuals entering on a TC (see Para 4805), ratings and other ranks entering the Naval Service between 1 Nov 06 and 31 Mar 15 did so on a FC for 18 years from their date of entry or service up to and including their 40th birthday, whichever is later.

b. Open Engagement. Between 1 Sep 82 (for RN)/1 Sep 88 (for RM and former WRNS) and 31 Oct 06, ratings and other ranks entered the Naval Service on an OE1 for a term ending on a date falling not later than 22 years from the age of 18 or their date of entry (if later). Individuals who joined the Service whilst under the age of 18 entered on the OE, served to age 18 and thereafter completed a period of 22 years’ service.
4807.  Reckonable Service for Career and Engagement Purposes

a.  Deferment of an individual’s termination date will be required in cases where ratings and other ranks forfeit time for reasons including periods of detention, imprisonment and service penalties since forfeited time does not reckon towards completion of a ES1, ES2, FC or OE. The earliest date on which individuals may give notice to terminate their service (see Para 5403) may be deferred by any period of time forfeited whilst they are unqualified to give notice.

b.  Individuals will be required to waive their right to give notice in consideration of a course of further career training (deferring the date on which they can submit their notice either by the length of the course or the course length plus any return of service, whichever is applicable). See Chapter 53 for more information.
SECTION 3 - ENTRY FROM ANOTHER SERVICE

4808. Definitions and Terminology

Although there are limited opportunities to ‘transfer’ from another Service, occasionally requests are made to move from other Services to the Naval Service or to join the RN from the RM and vice-versa. To be accurate, the process involves an individual’s discharge from one Service and entry to another; as such, this is not strictly a ‘transfer’ but the term will be used as short hand for the process in this Chapter. The Service in which the applicant is currently serving is referred to as the ‘present Service’ whereas the potential future Service is referred to as the ‘gaining Service’. For transfers from the Naval Service to other Services, see Chapter 52.

4809. Officer Transfers – Entry to the RN from the RM (and vice-versa)

a. Untrained Strength. A Young Officer (YO) who wishes to transfer to the RN from the RM or to the RM from the RN should thoroughly research the potential gaining Service in order to identify the branch/specialisation/regiment or corps that they wish to join. They should then follow the procedures below:

(1) Contact Captain Naval Recruiting (CNR) to ensure that the gaining Service is currently recruiting and has vacancies, or is likely to have vacancies, in the proposed branch/specialisation. CNR contact details are as follows:

Captain Naval Recruiting
Officer Entry Section
Admiralty Interview Board
HMS SULTAN
Military Road
GOSPORT
PO12 3BY
Tel: 023 9254 2186

(2) If CNR indicates that there are vacancies and that, on the information available, they appear to be a suitable candidate, the YO should submit a request for transfer through their parent authority/command chain, copied to the appropriate branch/department in the gaining Service.

(3) The YO is to be interviewed by their current Commanding Officer, who is to discuss the request with the individual before forwarding the application, together with their recommendation, via the chain of command, to CNR. At the interview, it is to be made clear that there is no automatic right to transfer between the Services and that the needs of the individual’s present Service are paramount. RN YOs who request to transfer are to be advised that, in addition to the usual manning and suitability considerations, the success of their application will be dependent on the gaining Service’s ability and willingness to agree an early joining date. It should also be made clear that the normal single Service rules governing voluntary withdrawal from training/voluntary retirement (see Chapter 54 Section 1) will apply and that the fact that the application is for a move to another Service will not attract preferential consideration.
In addition, the YO is to be advised that, by voluntarily withdrawing from training, they may incur a financial liability (see Para 4809 a sub para (6)). Once a transfer request has been received, the appropriate policy staff should arrange the prompt release of the necessary security clearance, medical and confidential reports to the potential gaining Service. Arrangements should then be made to discuss and staff the case as soon as possible.

(4) Requests to transfer into the RM from the RN or vice-versa by Officer Cadets undertaking initial training will not normally be considered and approval will be given only in the most exceptional circumstances. Where manning approval is given, exceptionally, the timescale described in Para 4809 a sub para (6) will be adhered to strictly.

(5) Officers under training who transfer from the RN to the RM or vice-versa will not retain any seniority unless their previous service leads to a reduction in training time in the new Service. The Terms of Service Team should be consulted when it is considered that training time has been saved.

(6) Any outstanding return of service (ROS) obligation to the individual’s present Service will be taken into consideration in reaching a decision and, if there is an outstanding financial liability for education costs associated with degree studies/bursary awards, the terms of the undertaking signed by the individual will transfer with the individual to the gaining Service, and will be included within their terms of service upon transfer. If the application is acceptable to both Services, (and subject to the provisions in sub-paras 2-5 above), a mutually convenient date for the transfer will be agreed so that there is no actual break in service. Transfers must normally be completed (ie. the individual must join the gaining Service) within a period of 2 months from receipt of the formal transfer request. This timescale will be strictly adhered to and will be exceeded only in exceptional circumstances. Reckonable service accrued with the present Service will be aggregated with the period of employment with the gaining Service. The gaining Service will confirm the terms and conditions of service as soon as is practicable which will be determined by the Terms of Service Team, on behalf of the Commodore Naval Personnel (CNPers), with the formal offer of transfer being made by the Admiralty Interview Board (AIB). The present Service should also, as soon as is practicable, inform the YO officially, in writing (copied to the Career Manager in the gaining Service), of the approval for their voluntary withdrawal from training (see Para 5402) and subsequently the termination date of their existing commission, which will be the day before commencement of their appointment to the gaining Service. Transfer will not take place until the individual has signed to accept the terms and conditions of service that will apply upon their transfer.

b. Trained Strength. There are limited opportunities for officers on the trained strength to transfer between the RN and RM. The policy and procedure are as follows:
(1) Officers who wish to transfer should contact the AIB in the first instance in order to make sure they are currently recruiting and have vacancies, or are likely to have vacancies, in the branches in which they are interested. Contact details are as shown at Para 4809 a sub para (1).

(2) If the gaining Service has vacancies, applicants are to submit a transfer request through their chain of command to their Career Manager, copied to CNR and the appropriate branch within the gaining Service.

(3) Officers are to be interviewed by their Commanding Officer, who is to discuss the request with the individual before forwarding the application and their recommendation, via the chain of command, to the appropriate Career Manager. At the interview, the Commanding Officer is to make it clear that there is no automatic right to transfer between the Services and that the needs of the individual's present Service are paramount.

(4) The relevant Career Manager is to consider all applications for transfer to and from the RN or RM in conjunction with the People Capability Team before consultation with CNR. If the application is acceptable to all concerned, the Career Manager will agree a mutually convenient date for transfer with CNR. Any outstanding ROS obligation to the individual's present Service will be taken into consideration in reaching a decision. If the transfer is agreed by CNPers and Commodore Naval Personal Strategy (CNPS), the normal Single Service rules governing Early Termination will apply and no preferential consideration will be given to the fact that the application is for a move between the Services.

(5) Rank, seniority and other terms and conditions of service will be confirmed by the gaining Service as soon as is practicable. Detailed terms of service will be formally notified to the transferee, with a copy being sent to the present Service. As there is no actual break in service, there will be no effect on prospective entitlement to retired pay and terminal benefits, and reckonable service accrued with the present Service will be aggregated with the period of employment with the gaining Service. Officers with military service prior to 1 Apr 99 who transfer will be subject to rank-related retirement ages (see Chapter 54).

(6) The present Service will issue an official letter to the officer (copied to CNR) explaining that the individual's existing commission will be terminated on the day before their assignment to a commission in the gaining Service, and that they will not be placed on the Retired List of the present Service, nor will they be subject to a recall liability to the present Service.

(7) The London Gazette will be annotated "Commission terminated (date) on transfer to..." (as appropriate).

(8) If the transfer request is not supported by CNR, officers will remain in their present Service, which will be responsible for providing official notification to the individual (copied to the proposed gaining Service).
4810. Officers - Entry from another Service or the Reserve

a. There are limited opportunities for individuals to transfer to the Naval Service but, where approved, the following will apply. Prior to submitting a transfer request, Army/RAF YOs wishing to join the Naval Service are advised to contact the appropriate Career Manager for an informal discussion on the branch/specialisation they wish to join. They may be required to attend a special interview at the AIB. Each case is considered on its merits, however, and the AIB will inform the individual accordingly.

b. Previous full-time commissioned service in the Army or RAF, Regular Forces of the Commonwealth or the Reserves may count where it leads to a reduction in RN/RM training required on entry to the Naval Service. It must be noted that any nationality constraints must be resolved before transfer, taking particular note of the nationality requirements of the branch of entry and advising the individual of the branches to which they would be ineligible for any subsequent transfer.

c. Officers with military service prior to 1 Apr 99 who transfer into the Naval Service will be subject to rank related retirement ages (see Chapter 54).

4811. Ratings and Other Ranks – Entry to the RN from the RM (and vice-versa)

a. Commanding Officers who consider applicants suitable in all respects for transfer from their present Service to a specific RN or RM specialisation, having successfully completed any aptitudes or acquaints as appropriate, should make written application to CNR (for attention of CNR RP). A copy of the applicant’s latest SJAR is to be included.

b. CNR will forward details of those recommended and suitable for entry into the RM to PSO CTCRM Lympstone for allocation to a Potential Royal Marines Course (PRMC) at CTCRM. CTCRM will liaise direct with the parent ship or establishment to arrange the date of the PRMC and ensure that the applicant is medically fit.

c. Ratings recommended for transfer to the RM, and all other ranks applying for transfer to the RN, will be documented and medically examined at an Armed Forces Careers Office. CNR will liaise with the Career Manager for a release date.

d. Personnel allowed release from the RN to enter the RM, or vice-versa, will cease to receive pay and allowances in the rank/rate they are leaving on the day before they enter the RN or are attested into the RM, as appropriate. Personnel will normally enter the RM in the rank of Marine 2, subject to requirement and CNPS approval.

e. Applications from individuals serving abroad will be considered but, if successful, transfer to the other Service will not take place until the individual returns to the UK in the normal course.
4812. Ratings and Other Ranks – Entry from another Service or the Reserve

a. Applications will be considered by the Branch Manager, in association with the Career Manager and CNR, from those individuals with current or recent previous service in another Service. Each case will be considered on its merits, taking into account an individual’s experience, the skills and qualifications that they have to offer, promotion prospects and their training requirements.

b. Proposed offers should be made in close consultation with the Terms of Service Team and the transfer process will be administered by CNR.
SECTION 4 – RE-ENTRY

4813. Re-entry - General Instructions

a. No individual is to be re-entered in the Naval Service after a break in service without the approval of Captain Naval Recruiting (CNR) who is authorised to approve applications for re-entry with the exceptions mentioned at Para 4814 and Para 4815. See Chapter 11 and Chapter 12 for detailed instructions for all others.

b. For those wishing to re-enter the Naval Service, all previous reckonable service will count for length of service purposes, irrespective of the duration of any break in service.

c. Candidates for re-entry currently serving on a Full Time Reserve Service (FTRS) engagement should be aware that periods of FTRS cannot be added to periods of regular service, including former regular service, for the purposes of counting time towards service on a normal commission. Neither does FTRS count towards the determination of entitlement for terminal benefits.

4814. Re-entry of Officers – Trained Strength

a. Although contact with a prospective re-entrant is the remit of CNR, the process of re-entry is administered by CNPers/CNPS. The process is thus dealt with in this section, with material specific to CNR at Chapter 11.

b. Officers re-entering the Service with former military service pre 1 Apr 99 are subject to rank-related retirement on re-entry but will not have reserved rights to promotion, i.e. former MCC or FCC Officers re-entering since 1 Apr 99 do not retain the right to automatic promotion to Lieutenant Commander/Major RM. Where a vacancy at the individual's former rank is not available, a post at a lower rank may be offered. Other terms of service for re-entrants will be considered on a case by case basis.

c. Individuals with former regular service are normally only permitted to re-enter the Service if they can complete the balance of their former commission. Exceptionally, individuals who completed their commission before they left may be allowed to return to complete an ICS (or part thereof) depending on the needs of the Service and will be subject to either normal retirement age or rank related retirement age (see Table 54-2).

d. All prospective officer re-entry candidates should contact the Admiralty Interview Board (AIB) in the first instance; the AIB will issue the candidate with a re-entry application form. Re-entry candidate applications forwarded to any other authority, for example to the previous Career Manager, should be forwarded to the AIB and the candidate informed. The following procedure will then be used:
(1) **AIB** informs appropriate Career Manager of prospective applicant. The Career Manager retrieves all previous service documents. The ACOS(PCap) Officer Strategic Workforce Planning Section determines the overall manpower structure requirements and whether approving the application is in the best interests of the Service, in particular with due regard to the strength and requirement of officers within the re-entrant candidate’s Specialisation cohort.

(2) Before processing any application to re-enter, the Career Manager must sight the candidate’s personal file in order to ascertain the reason(s) for leaving the Service. Those who were discharged on administrative, disciplinary or medical grounds will not be considered for re-entry. For others, Branch Managers and Career Managers determine whether the particular candidate, with their experience, skills and qualifications, meets branch and specialisation structure requirements and can be gainfully deployed by Career Managers - see Annex 48A for Advice for Career Managers on Re-Entrants. Career Managers may need to make direct contact with the candidate in order to determine the exact timing of any potential re-entry and the candidate’s individual preferences on assignment. Additional discussions may include the re-entrant’s need for bespoke training, probable career path and relevant promotion opportunities.

(3) If the application falls at any of the above hurdles, the AIB will be notified with a view to their sending a rejection letter. The reason for the rejection will be included.

(4) If the candidate is suitable for re-entry in all respects, the terms and conditions of re-entry will be finalised by the Officer Terms of Service Manager. These include: any reserved rights from service prior to 1 Apr 99, ROS liability for bespoke training (if deemed appropriate), rank, seniority, commission, uniform issue, terminal date and the appropriate increment level of pay (this will be actioned in conjunction with Career Manager/Branch Manager/Promotions Section). Once complete, the personal file should be passed to Branch Managers to determine any entitlement to Special Service Pay, FRI payments, uniform issue/allowances, pension information, and, in a small number of cases, gratuity repayment details. After clearance by the Headquarters, the AIB will be notified to enable forwarding of an offer, subject to medical and security clearances, to the potential re-entry candidate.

(5) If candidates are in-date for the RN Fitness Test (i.e. carried out the test within the past 12 months – see Chapter 29 Section 3), they will not have to re-take the New Entry physical tests or the Naval Swimming Test. However, the AIB must stress to candidates that they need to follow an appropriate form of fitness programme prior to entry. Otherwise, candidates out of date for the RN fitness test must undertake a fitness test within the first month of re-joining.

(6) If the re-entry candidate accepts the offer, the AIB will process the medical and security clearances for the candidate. Date of entry and the required entry establishment will be determined by the Career Manager.
(7) CMs are to make direct contact with the candidate in order to determine the exact timing of any potential re-entry and the candidate’s individual preferences on assignment. Additional discussions should cover any bespoke training package, probable career path and promotion opportunities.

(8) Once an entry date has been allocated, candidates should be advised to contact their relevant Career Manager for advice. If eligible, candidates should also be advised that they may apply for Service Family Accommodation (see Chapter 25). The Career Manager should advise individuals to submit an application to the relevant Defence Estates’ Housing Information Centre (HIC) in accordance with JSP 464.

(9) Trained re-entrants may use their own transport for joining their appointment. Those opting to use own transport may claim for duty travel on JPA using the receiving unit UIN. Alternatively they may request a rail warrant from CNPers.

(10) Trained RN re-entrants will enter at a unit as directed by CNPers.

e. **Seniority for Previous Service in the Same Branch.** When an officer re-enters the Naval Service, previous full-time commissioned service as an officer in the same branch will be taken into account. The previous seniority date will be adjusted to take account of the time that the officer has spent out of the Service, provided that the time out of the Service does not exceed five years. If the time does exceed five years, Career Managers, the Terms of Service Team and Branch Managers should be consulted.

f. **Seniority for Previous Service in a Different Branch/Specialisation of the Naval Service.** Officers under training will not retain any seniority unless their previous service leads to a reduction in training time in the new Service. The Terms of Service Team should be consulted when it is considered that training time has been saved.

g. **Medical and Dental Officers.** Previous commissioned service over the age of 21 in a different branch will count as half seniority.

4815. **Re-entry of Officers - Untrained Strength**

For untrained re-entrants, AIB and FOST will determine a candidate’s suitability and Gains to the Trained Strength (GTS) requirements prior to entering the process above at Para 4814 d sub para (1).

4816. **Re-entry of Ratings and Other Ranks**

a. The administration of the process for the re-entry of ratings and other ranks is undertaken by CNR. Ratings and other ranks wishing to re-enter the Service should contact CNR/Armed Forces Recruiting Offices (see Chapter 12 for detailed instructions). Rank, seniority and training requirements will be determined by the Branch Manager in association with CNR, taking into account whether they are deemed to be trained, partially trained or untrained and what experience, skills etc. an individual has gained.
b. **Re-Entrant Training Status.** The amount of training required on re-entry will be determined both by the following definitions and the consideration of additional training requirements by the Branch Manager:

1. **Trained Re-entrant.** A fully trained and qualified junior or senior rating who applies to return to the RN in the same branch/specialisation from which they exited. Manning approval will be sought in all cases from relevant Branch Managers and training requirements will also need to be determined. Trained re-entrants join HMS RALEIGH for administrative purposes only. Trained re-entrants have no statutory right to claim discharge within 6 months of re-entry but do have the right to leave up to the age of 18, if applicable (see Para 5403 sub para b).

2. **Partially Trained Re-Entrant.** A trainee who completes Phase 1 training before electing to leave the Service and applies to return within 18 months. The majority of partially trained re-entry candidates will have left the Service immediately prior to, or during Phase 2 training, and may re-enter into their original branch/specialisation or into a different branch of choice (BOC). This category of re-entrant will join HMS RALEIGH for administrative purposes only, and thereafter will be assigned to their appropriate Lead School for Phase 2 training. The date of joining will generally coincide with the commencement of their Phase 2 training course. Partially trained re-entrants have no statutory right to claim discharge within 6 months of re-entry, unless they were previously discharged ‘Not Finally Approved (Medical)’ in accordance with BR 1750A, but have a right to do so up until age 18 (see Para 5403 sub para b).

3. **Untrained Re-entrant.** A recruit who did not complete Phase 1 training prior to discharge. Untrained re-entrants will re-join in their original or a new BOC at HMS RALEIGH in order to undertake complete Phase 1 and Phase 2 training. Unless previously discharged ‘Not Finally Approved (Medical)’ in accordance with BR 1750A, untrained re-entrants will have no statutory right to claim discharge within 6 months of re-entry but have a right to leave up to age 18 (see Para 5403 sub para b).

c. **Career Requirements.** Post 1 Apr 15, the following terms will apply:

1. **Re-entry of ratings and Other Ranks who initially joined prior to 1 Apr 15 and left on the Untrained Strength.** Individuals who did not reach the trained strength prior to their discharge will return to the Naval Service on a new 12 year Engagement Stage 1 (ES1), irrespective of whether the previous engagement was an ES1/FC/OE1 or the time previously served.

2. **Re-entry in a new Specialisation - Ratings and Other Ranks who initially joined prior to 1 Apr 15.** Irrespective of the rate/rank held on leaving, individuals who re-enter in a new specialisation will return on a new 12 year ES1.
(3) **Re-entry in the same Specialisation - Ratings and Other Ranks who initially joined prior to 1 Apr 15 and left on the Trained Strength as an AB/Marine.**

(a) Individuals who served less than 12 years served on an FC/OE1 will re-enter on an ES1, minus the previous reckonable regular service. Progression to ES2 is dependent on substantive promotion to OR4. Continued service on an ES1 beyond 12 years to allow the individual to qualify for selection for promotion may be enabled through a revised Engagement Expiry Date (EED).

(b) Individuals who served more than 12 years served on an FC/OE1 will re-enter on an ES1 with an Extended Career to enable completion of an equivalent engagement to the one the individual originally served on. Progression to ES2 is dependent on substantive promotion to OR4.

(4) **Re-entry in the same Specialisation - Ratings and Other Ranks who initially joined prior to 1 Apr 15 and left on the Trained Strength as a Leading Hand/Corporal or higher.**

(a) Individuals who left on a FC/OE1 will re-enter on the balance of a 20 year ES2 which should allow the rating or other rank the chance to reach the AFPS15 Early Departure Payment (EDP).

(b) Individuals who left on an EC/2OE will re-enter on an Engagement Stage 3 (ES3) of 5, 10 or 15 years’ length of service.

d. **Minimum Time to Serve and Re-training.** Re-entrants are required to serve for a minimum of 12 months from the date of re-entry or completion of any re-training required, whichever is the later, with the exception of the following:

(1) Where a bespoke package of training is required on re-entry, the individual will be informed of the applicable time to serve by CNR prior to joining.

(2) Where an individual previously left the Naval Service before joining the trained strength or prior to completing the minimum time to serve period following initial training (eg. if individuals left the Service before 18 years of age), re-entrants will be liable to provide the full minimum time to serve mandated in Chapter 54 on completion of any re-training required. This time must be served in full before any application for early termination.

(3) Where an individual’s re-entry is linked to a financial payment, eg. a rejoining bounty, they will be informed of the required time to serve by CNR prior to joining.
e. **Rank and Seniority on Re-entry:**

(1) Applications for re-entry will be considered by the Branch Manager (in association with the Career Manager). Each case will be decided on its individual merits (it should be noted that there is no provision for the automatic award of previous rank and seniority). The Branch Manager will take into account the following:

(a) Type of career to be undertaken, eg. the balance of an ES1/ES2 or a Tailored Career.

(b) Relevant skills, experience and qualifications that the individual has to offer from both their previous service and any gained in civilian employment.

(c) Promotion prospects.

(d) Training requirements, ie. to ensure that an individual’s skills are current, including the retaking of any courses, examinations or qualifications that are deemed to be out of date and undertaking new courses, examinations or qualifications that have been introduced since the individual left the Service.

(2) The proposed offers to individuals should be made in close consultation with the Terms of Service Team and the re-entry process will be administered by CNR (see Chapter 12).
SECTION 5 – MISCELLANEOUS

4817. Military Aviation Degree Scheme

a. General. The Fleet Air Arm (FAA) has formed a RN FAA Military Aviation Academy (RNFAA MAA) linked to and accredited by the Open University (OU) up to BA (Hons) (Open) and the University of Plymouth for a top up dissertation for award of a BSc (Hons) (Military Aviation Studies). The boundary for the MAA is around those squadrons that conduct BFT/BFJ/BOC/OCUs. For helicopters, this equates mainly to RNAS Culdrose and RNAS Yeovilton and, for fixed wing pilots, RAF Valley followed by an OCU. The degree scheme is open to all students, but only non-graduate entry students will be fully funded.

b. The Degree Programme. The programme is in two distinct phases. The first is an OU Foundation Degree (FD)(OUVA) in Military Aviation Studies (RN), which is completed after approximately 2 years’ flying training, which equates to the end of Operational Conversion (OC) and prior to front-line employment. The final year (year 3) BA element is elective and requires students to choose OU modules of study. For the UoP, BSc students are required to gain their C of C and complete a dissertation delivered by BRNC (UoP). Students who are already graduates may claim the Higher Education points for the completed FD programme or receive the award itself by paying the OU registration fee. This may then be used towards a self-funded, elective, second degree.

c. Funding. Upon commencement of Basic Flying Training, all non-graduate RN/RM aircrew students will be automatically funded and registered with the OU. The registration and module costs for the degree are fully funded by the MOD up to Honours but with a variable ‘cap’ on honours funding. The BSc (Hons) dissertation via BRNC (UoP) does not include any special rights to leave, but may be granted at CO’s discretion. Students who are graduates on entry and have paid the nominal OU FD registration fee and received the FD may then progress to a second degree by paying subsequent Honours fees.

d. Failure in Training. Failure to complete flying training will automatically result in undergraduates being withdrawn from the Military Aviation Degree course. However, HE points accrued for completion of flying courses within the scheme may be retained for use in any self-funded degree programme outside the Service. Those who fail but are transferred to another role in the RN will be permitted to study for any elective degree under the original MOD funding arrangements.

e. Voluntary Withdrawal from Training. If a student voluntarily withdraws from training, they will automatically be withdrawn from the aviation programme and there will be no requirement to repay study costs.

f. Advice to Students. The Degree Programme Manager at RNAS Culdrose is available to provide advice and guidance to students concerning this degree scheme.
4818. Medical and Dental Officers - Professional Registration

a. All Medical and Dental Officers serving in the Naval Service are to be currently registered with the appropriate professional body.

b. The Medical Act 1983 requires all Medical practitioners to be fully registered to hold an appointment in the Armed Forces. Cadets provisionally register with the General Medical Council (GMC) of the United Kingdom having completed statutory training. All Direct Entry Medical Officer applicants, including re-entrants, must be fully registered with the GMC.

c. Dental cadets register with the General Dental Council (GDC) of the United Kingdom on completion of statutory training. All Direct Entry Dental Officer applicants, including re-entrants, must be fully registered with the GDC.

d. It is the responsibility of the single Service to verify an individual’s registration with the GMC or GDC. The date of that statutory registration and subsequent re-registration is to be maintained in the individual’s record of service. Any individual who is not registered with their professional organisation, for whatever reason, must be removed from clinical practice until registration has been reinstated.

4819. Medical Defence Organisation Membership

It is not a condition of service that Medical and Dental Officers belong to a medical defence organisation. The MOD accepts responsibility for defending or settling a claim arising from an officer’s actions when attending entitled personnel, which includes civilian secondments in the NHS (the NHS normally underwrites individuals as part of any secondment 'contract'). However, officers may wish to have defence organisation representation to help protect their professional reputation in any professional interface with the GMC or GDC. Any officer who wishes to undertake ‘private’ practice whilst not on duty in accordance with MOD policy must have membership of a defence organisation.

4820. QARNNS Officers - Registration with the Nursing and Midwifery Council (NMC)

Candidates must be registered on an appropriate part of the Register of the NMC for Nursing, Midwifery and Health Visiting and have a minimum of two years whole-time or part-time recognised post-registration experience at the time of commission. When assessing post-registration experience, proof of working will be required. See also Para 4803 sub para c.

4821. Membership of the Royal College of Nursing

All QARNNS Officers are strongly advised to belong to the Royal College of Nursing. They are responsible for paying their own subscriptions.
ANNEX 48A

ADVICE FOR CAREER MANAGERS ON RE-ENTRANTS TO THE NAVAL SERVICE

1. **Process**

   Officer, rating and other rank re-entries to the Naval Service are not uncommon and there is a well established process to administer an individual’s return to uniform (for officers, this is given primarily in Chapter 48 but with some coverage in Chapter 12; for ratings and other ranks, this is given primarily in Chapter 12 but with some coverage in Chapter 48). The purpose of this guidance is to offer Career Managers a flexible approach when considering making an offer to an individual. Flexibility is crucial and is to be encouraged since the re-entrant may well be bringing niche skills that are in short supply within the Service and which have been enhanced by their civilian experience. The objective of any negotiations should be to provide a ‘full and fair’ offer to an individual, such that the Service is able to compete within the open market for suitable talent.

2. **Considerations**

   The following points should be considered:

   a. If necessary and considered appropriate, Career Managers should maintain databases of individuals who are leaving the Service who would be suitable for further service.

   b. Identify individuals to re-join and consider making an approach. An approach could be made at any time after an individual leaves the Service. Previous subjective experience indicates that within the 2-4 year time scale is not unreasonable. It is considered that personnel who might wish to re-join sooner will in most cases make contact under their own initiative.

   c. Invite individuals to attend an interview at which the following issues need to be addressed:

      - type of career or engagement;
      - career pathway;
      - rank and seniority on re-joining, including any awards of additional seniority for civilian experience and qualifications;
      - promotion prospects and promotion board attendance;
      - pension;
      - uniform grants and kit issue;
      - training, training gap analysis and re-familiarisation; and
      - update on the wider benefits and allowances package including: Medical and Dental care; Housing; Sport and Adventurous Training; and Continuous Professional Development & Education.

   d. Close consultation should take place with the Terms of Service Team throughout the process.
ANNEX 48B

TERMS OF SERVICE ON RE-ENTRY OR TRANSFER TO THE NAVAL SERVICE

1. Purpose
   This Annex details the commissions or engagements to be awarded to individuals re-entering or transferring to the Naval Service (note: all re-entries and transfers are subject to prevailing manning requirements). For completeness, all re-entry and transfer routes are included, including those in and out of the RNR and RMR and from the Volunteer Reserve forces of the Army and the Royal Air Force.

2. Re-entry and Transfer of Untrained Personnel
   Personnel who have not been a ‘Gain to the Trained Strength’ in any Regular or Volunteer Reserve employment (ie. left the Service as Untrained personnel) will rejoin to complete a new initial engagement (ES1) or commission (ICS).

3. Re-entry and Transfer of Trained Personnel
   The flow charts listed at Para 5 detail the standard offers that may be made without specific approval to the PPLAN Strategic Workforce Planners (SWPR SO1 and SWPO SO1). In addition, variations to the standard offers may be made by Branch Managers and, in some instances, subject to approval of the relevant Strategic Workforce Planner. Where an individual’s circumstances are not addressed in the flow charts, advice is to be sought from NAVY PERS-CNPS TERMS SO1C.

4. Transfers between the RN, RM, RNR and RMR
   Transfers between the RN and RM (and vice-versa) and between the RNR and RMR (and vice-versa) are to be treated as transfers between Services.

Chart A

Former RN/RM Regular Ratings/Other Ranks
re-entering the RN/RM as Ratings/Other Ranks
having previously left the Trained Strength of the same service
where the effective date of re-entry is on or after 1 Apr 15

Key Notes
- Re-entering after a break in service of greater than 30 days.
- Transfer from the RN to the RM, or vice versa, is to be treated as a service transfer.

Start

To re-enter in equivalent trade to one held at some point in the past?

Yes

Previously left as an OR1/2/3?

Yes

Less than 12 years reckonable service?

Yes

Standard
Re-enter on an ES1 with an EC to allow completion of a broadly equivalent engagement to the one the individual originally served on, up to the AFPS15 EDP.

Variation
Subject to SWPR SO1 approval, may be offered a longer period of service (by means of an EED change).

No

No (ie and OR4 or above)

No

Left before the end of an OE1, FC or ES2?

Yes

Standard
Re-enter on an ES3 of 5, 10 or 15 years (at BM’s discretion) beyond individual’s IPP/EDP.

Variation
Subject to SWPR SO1 approval, may be offered an EoS on end of 15-year ES3 engagement to a maximum age of 60.

No

No (Left at the end of a OE1, FC or ES2 or from an 2OE, EC or ES3)

End

Approach
Treat as new entry to join to Phase 1/Phase 2 training, as appropriate.

Standard
Re-enter on a new ES1.

Variation(s)
Nil.
Chart B

Current or Former Regular Ratings/Other Ranks transferring to the RN/RM as Ratings/Other Ranks from or having previously left the Trained Strength of another service

Where the effective date of transfer on or after 1 Apr 15

Start

To re-enter equivalent trade to one held at some point in the past?

Yes

At completion of an engagement in another Service?

Yes

Leaving/left as having completed a pensionable engagement?

Yes

Standard
Enter on an ES2

Variation
Subject to SWPR SO1 approval, may be offered continued service (by means of an EED change) beyond end of the engagement to provide an appropriate period of service normally to allow 4 years’ service from date of transfer

No

No

Leaving/left as an OR1/2/3?

Yes

Seamless transfer (ie less than 30 days’ break)

Yes

Standard
Enter to complete the balance of an ES1

No

Standard
Enter to complete the balance of the nearest equivalent engagement to the one in which left the other Service

Variation 1
Subject to SWPR SO1 approval, may be offered continued service (by means of an EED change) beyond end of the engagement to provide an adequate period of service. The normal EED change is to allow 4 years’ service from date of transfer

Variation 2
If professionally qualified for OR4, BM can promise ES2 on successful completion of LRLC

Variation 3
If to be loaded straight onto LH QC, BM can promise ES2 on successful completion of QC and LRLC

End

Standard
Enter on an ES3 to complete 5 years’ service

Variation
Subject to SWPR SO1 approval, may be offered an additional 5 or 10 years’ service (ie a total of 15 years’ service on entry)

Standard
Enter on a new ES1

Variation(s)
Nil
Chart C
Former Regular RN/RM Officers
re-entering the same service
having previously left the Trained Strength
where the effective date of re-entry is on or after 1 Apr 15

Key Note
- Re-entering after a break in service of greater than 30 days

Start

To re-enter in equivalent trade to one held at some point in the past?

Yes

Left from an IC or ICS?

Yes

Standard
Re-enter on an ICS to complete balance of 12 years' reckonable service.

Variation 1
Subject to SWPO SO1 approval, may be offered continued service (by means of an EED change) beyond end of ICS to allow sufficient time for selection CCS normally to allow 4 years' service from date of re-entry. Consideration will also be given to the award of RA55.

Variation 2
Subject to SWPO SO1 approval may be offered a later commission stage to the one in which they left the Service if, due to qualifications and/or experience, they would have automatically been transferred to a later commission stage had they remained serving.

No

Variation(s)
Nil.

Left from a CC or CCS?

Yes

Left from an FTC, FTC(Air) or FCS

No

Approach
Treat as new entry to join to Phase 1/Phase 2 training, as appropriate.

Standard (Regulars)
Re-enter on an ICS to serve to AFPS15 EDP.

Standard (Reserves)
Re-enter on an ICS to serve to balance of FCS or to age 55, whichever the sooner.

Variation
Subject to SWPO SO1 approval, may be offered an EoS on end of the FCS to provide an adequate period of service. Consideration will also be given to the award of RA55.

End

Standard (Regulars)
Re-enter on an FCS to serve to the Retirement Age that applied when the individual left the Service.

Standard (Reserves)
Re-enter on an FCS to serve to balance of FCS or to age 55, whichever the sooner.

Variation
Subject to SWPO SO1 approval, may be offered an EoS on end of the FCS to provide an adequate period of service. Consideration will also be given to the award of RA55.

CHAPTER 49

COMMISSION TRANSFERS AND CONTINUANCE IN SERVICE

SECTION 1 – OFFICER COMMISSION TRANSFERS

4901. Instructions applicable to all Commission Transfers

These rules apply to all officers in the Naval Service serving on any commission other than a Full Commission Stage (or equivalent).

4902. Commission Transfers

a. As stated at Para 4801, all transfers from an Initial Commission Stage (ICS) (or equivalent pre-April 2015 commission (Initial Commission (IC) or Short Commission (SC)) will be to the Career Commission Stage (CCS). This will extend an officer's career to 20 years' length of service or to age 40, whichever is later.

b. Individuals serving on a CCS or equivalent pre-April 2015 commission (Career Commission, Medium Commission or Medium Career Commission) will, on selection, transfer to a Full Commission Stage (FCS), with service to age 55. FCS beyond age 55 will be known as Commission Extension (CE) and will be for successive periods of up to 5 years to age 60 (and beyond in exceptional cases). Additional service on a CE will be by selection and strictly to meet Service requirements.

4903. Eligibility and Qualifications

a. ICS/IC/SC to CCS. In order to be eligible for a commission transfer to a CCS, an officer must be on the trained strength and:

(1) Be able to complete a further period of service beyond an ICS/IC/SC up to retirement age (see Table 54-2).

(2) Be recommended by their Commanding Officer (CO).

(3) Not awaiting Court Martial or other disciplinary proceedings. Eligibility in each case will be decided on its merit.

(4) Be medically fit for transfer (Para 4904).

(5) Be within the appropriate zone (Para 4912). Officers who are over-zone for selective promotion may still be considered for a CCS within the normal transfer zones. If transferred, they will be eligible for promotion within the appropriate zone on the new commission.

(6) Additionally:

(a) ME, MESM, WE and WESM Officers. Be in possession of a Charge Qualification and Recommendation for Charge.
(b) **AE Officers.** Be in possession of a Certificate of Competency.

(c) **Training Management (TM) Officers.** Must have achieved 60M Credits of the Post Graduate Diploma in either Training Management and Consultancy or Human Resource Development.

(d) **Logistics Officers.** Achievement of a positive Professional Command recommendation from their SO3 sea assignment including, for those officers serving at sea since its introduction in 2011, a pass at the Logistics Professional Command Board (LPCB).

b. **CCS/CC/MCC/MC to FCS.** In order to be eligible for a commission transfer to a FCS, an officer must be on the trained strength and:

   (1) Be able to complete a further period of service beyond their CCS/CC/MC (as appropriate) up to retirement age (see Table 54-2).

   (2) Be recommended by their CO.

   (3) Not awaiting Court Martial or other disciplinary proceedings. Eligibility in each case will be decided on its merit.

   (4) Be medically fit for transfer (Para 4904).

   (5) Be within the appropriate zone (Para 4912). Officers who are over-zone for selective promotion may still be considered for a FCS within the normal transfer zones. If transferred, they will be eligible for promotion within the appropriate zone on the new commission.

   (6) Additionally:

      (a) **Engineer and TM Officers.** Have been promoted to Lieutenant Commander. However, based on the MAuN requirement, a limited number of transfers may be available for Lieutenants serving on a CC/CCS who are overzone for promotion.

      (b) **TM Officers (only).** Must be in possession of a Post Graduate Diploma in either Training Management and Consultancy or Human Resource Development.

      (c) **Logistics Officers.** Be a substantive Lieutenant Commander.

      (d) **Engineer Officers (except WE(C) and TM).** From the date of the 2029 commission transfer boards, have achieved the professional registration title of Incorporated Engineer (IEng) with the Engineering Council, through a recognised Professional engineering Institute.
 Officers who are not eligible for automatic transfer and who are not selected for transfer to a CCS or FCS may be able to continue to serve on an EOS basis if there is a Service need, and they will continue to be eligible for late selection to CCS/FCS. Selection to FCS will guarantee service to age 55, even if the officer was previously subject to a rank related retirement age of 50 or 53.

d. Officers who are chronologically eligible for transfer but who have submitted their Notice remain eligible for consideration provided that they are still serving the day after which the transfer board has sat.

4904. Medical Fitness

a. Officers and Ratings who are medically downgraded, and those who are likely to be categorized as permanently unfit for sea service or be restricted otherwise medically in the future, will normally remain eligible for further service. The following principles apply:

b. Personnel with a Permanent JMES. All individuals who have been awarded a permanently reduced JMES code by NSMBOS or by ROHC will be assessed by the NSMEB for their suitability for further service beyond the individual's current Tx date as part of their determination in retaining an individual in service. This determination will take into account age, experience, seniority, the nature and extent of the medical limitations, and types of assignment for which the individual might be required to undertake in continued service. If the NSMEB deems that further service is appropriate, then they will be categorised as ‘Eligible for Commission Transfer’ or ‘Eligible for ES’. If the NSMEB deems that further service is not appropriate, then they will be categorised as ‘Not Eligible for Commission Transfer’ or ‘Not Eligible for ES’.

c. Personnel with a Temporary JMES. Individuals in a temporary JMES should undergo medical assessment by an accredited GMP or Consultant Occupational Physician.

(1) Where there is an expectation that the individual will regain MFD status within the next 12 months, the Medical Officer should deem the individual medically fit for further service.

(2) Where an expectation that a temporary JMES would be removed and the individual will regain a previous permanent JMES within 12 months, then individuals should be assessed as per their previous NSMEB determination (see para b above).
(3) Where a Servicewoman is pregnant and has the JMES code of E6, her fitness for further service should be assessed in light of her previous JMES, providing that there is an expectation that this will be regained following the pregnancy and period of maternity leave. If previously MFD then she should be considered fit for further service. If she was previously in a permanently reduced JMES, she should be assessed as per her previous NSMEB determination (see para b above). If temporarily downgraded prior to the pregnancy then an assessment must be made as to the likelihood of being upgraded within 12 months of a return from maternity leave and if it is likely, then the individual should be deemed fit for further service. If it is not deemed likely, then the individual will need to be referred to NSMBOS for a permanent medical category to be awarded and their eligibility is to be determined by NSMEB.

(4) Where it likely that the individual will need a permanently reduced JMES, the Medical Officer should deem the individual unfit for further service subject to the subsequent NSMBOS/ROHC and NSMEB recommendations.

(5) Any doubtful case is to be referred to the NSMEB.

4905. Officers Requesting Early Termination
Officers selected, or who have applied, for a transfer to a longer commission but who subsequently submit an application for Early Termination prior to the effective date of transfer will have their transfer cancelled immediately the Early Termination request is received by the Career Manager. Officers who later withdraw their Early Termination request and wish to be reconsidered for transfer must apply formally through their CO who should raise a ‘Special’ AR (MOD Form 2020) with the appropriate recommendation, if the Common Reporting Date (CRD) prior to the next Selection Board has passed.

4906. Transfer Guidelines
For transfer to a CCS, the key criterion will be employability in the current rank and not necessarily the potential for promotion to the next rank. In addition to their CO’s recommendation, officers will be expected to have met the minimum professional standards promulgated in the annual DIN. For transfer to a FCS, officers will be expected to be showing clear potential for promotion to Lt Cdr/Maj and have demonstrated an inclination towards long term employability as well as satisfying the minimum professional standards also promulgated in the annual Defence Instruction Notice (DIN).

4907. Applications for Commission Transfer
a. All officers on an ICS (or equivalent commission) will be considered automatically for transfer to a longer commission even though they may have declared themselves a “non-volunteer” on their most recent AR (MOD Form 2020).

b. Officers wishing to be considered for transfer from a CCS (or equivalent commission) to a FCS are required to ‘opt-in’ ie. volunteer for commission transfer and should ensure that the appropriate sections of the AR (MOD Form 2020) indicate ‘Volunteer’ (see JSP 757 Chapter 7 Annex A). Precise dates for the rendering of ARs are issued annually by DIN.
c. All officers wishing to transfer from an ICS (or equivalent commission) to a CCS or from a CCS (or equivalent commission) to a FCS may apply simultaneously for extensions of service to their current commission (see also Para 4913 and Para 4926). However, while officers are selected for transfer on the strength of their ARs, applications for extensions of service are to be forwarded by letter through First Reporting Officers (1ROs) to the appropriate Career Manager.

d. Supplementary guidance for ROs writing ARs on officers wishing to transfer is contained in JSP 757 Pt 2 Vol 2 Annex A para 9 and Annex C.

4908. 'Opt-out' of Transfer to a CCS

Officers who do not wish to accept transfer to a CCS are permitted to 'opt-out' providing they declare their intention to do so in writing through the administrative chain by the published deadlines laid down in the annual transfer DIN. Selected officers who do not indicate their intention to 'opt-out' will be assumed to be volunteers and will be transferred accordingly. Officers who 'opt-out' having been selected for transfer will not be considered at the next and subsequent Boards. Should they wish to be reconsidered for transfer at a later date, they must apply in writing through the administrative chain to their CO, who should raise a 'Special' AR (MOD Form 2020) and recommend them appropriately, if the CRD prior to the next Selection Board has passed.

4909. Officers Not Recommended for Transfer to a CCS

a. Officers who are not recommended for transfer to a longer commission but who meet all other requirements listed at Para 4903, will also be considered by the Board for transfer. There may be circumstances known to the Board which negate the reasons for the non-recommendation. To aid this process, ROs are encouraged when making non-recommendations to expand on the reason(s) for doing so.

b. In isolated cases when an officer meets all criteria for an automatic transfer to a longer commission but is otherwise constrained in their employability by other factors (for example security restrictions, medical exemptions) the CM will refer their candidature to the next annual Transfer Selection Board. Transfer Selection Board members will decide if any constraint adversely affects an individual's ability to serve in gainful employment beyond their current commission, whereupon they are empowered to withhold the transfer until the required level of employability is restored.

4910. Withdrawal of Application for Transfer to a FCS

Withdrawal of application (Non-Volunteer Declaration) for transfer to a FCS is to be made by AR with the appropriate section suitably annotated (see JSP 757 Pt 2 Vol 2 Annex A para 9). Where the withdrawal is late and it is no longer practical to render a further AR, withdrawal may exceptionally be made in writing through COs direct to the DACOS Promotions (DACOS (Prom)) and must be received by 31 Oct (annually) for Lt (X, E, L) and Capt RM, and by 31 Jan for Lt (MED, DEN, MS, QA), Lt Cdr (X, E, L, MED, DEN, MS, QA), Maj RM and Cdr (MED, DEN). Withdrawal will not prejudice any subsequent re-application for transfer.
4911. Selection Boards, Membership and Transfer Dates

a. Transfer boards for the Warfare (X), Engineering (E), Logistics (L) and Royal Marines (RM) branches will sit annually in Nov for Lt/Capt and Feb for Lt Cdr/Maj. Applicants will first be considered at the Board immediately preceding their zone entry or, if already in zone, the first Board following their application. For Lt/Capt results will be promulgated at the end of Nov with transfers effective on 1 Feb. For Lt Cdr/Maj, results will be promulgated in mid Mar with transfers effective from 1 May.

b. Transfer Boards for the Medical Services and QARNNS branches will sit annually in Jan/Feb for Lt, Lt Cdr and Cdr and in Mar for Medical and Dental officers. Applicants will first be considered at the Board immediately preceding their zone entry or, if already in zone, the first Board following their application. Results will be promulgated in Jan for MS/QARNNS and in mid Mar for Med/Dent with transfers effective on 1 Feb for Lt and 1 May for Lt Cdr/Cdr.

c. Transfer Boards for Chaplains will sit annually in Mar. Applicants will first be considered at the Board immediately preceding their zone entry or, if already in zone, the first Board following their application. Results will be promulgated with the RN Lt Cdr Commission Transfers in Mar. The effective date of transfer is 1 May.

d. The principles and procedures applied by Transfer Boards are similar to those defined for promotion (see Chapter 66) including the rules for confirmation of transfer on the due date (see Para 6622). Selection Board membership is summarised in Table 49-1.

</tbody>
</table>
4912. Transfer Zones

a. Zones for transfer to longer commissions are calculated as follows (see Table 49-2 and Table 49-3):

(1) **Zone Entry.** Entry is calculated on the length of service achieved on 1 Feb for Lt/Capt and 1 May for Lt Cdr/Maj/Chaplain annually, the effective date of transfer.

(2) **Zone Exit.** Officers with less than one year (or as specified in this Para) to serve on their current commission, including extensions of service, will be ineligible for normal consideration on 1 Feb for Lt/Capt and 1 May for Lt Cdr/Maj.

b. As a consequence of the effective date of transfers being 1 Feb and 1 May under the 3TC, some officers already serving on 1 Apr 99 may find themselves ineligible for their final selection opportunity. Any officers so affected will, exceptionally, retain their existing entitlement. The following zones are based on time served at zone entry, although exit will take into account any extensions of service authorised.

4913. Applications from Officers Serving on an Extension of Service
Officers who have accepted to serve, or are serving, on an extension of service may be considered for transfer to a longer commission up to 1 year prior to the end of their extended service.

4914. Over-Zone Applications
Opportunities for over-zone transfer are very limited and will be solely dependent on the requirements of the Service. Applications are to be made in writing through COs from those officers who did not apply for transfer while in the normal transfer zone. The covering letter accompanying the application must clearly state the reasons for the late request and explain why the officer concerned was not a volunteer while in zone. Exceptionally, officers who have been considered and not selected, but for whom there may be extenuating circumstances, may also apply; their reasons must be identified in either the request or in the covering letter forwarded by COs. Requests are to be forwarded to DACOS(Prom). The supporting AR, written either at the time of the application or to meet the next deadline of the next transfer Board, must show that the officer is both in zone and a volunteer; otherwise the Promotion Section database will not list the officer correctly. Transfer Boards may also, at their discretion, award an over-zone opportunity to candidates not selected on their last in-zone board who are considered to merit special consideration; however, such awards are likely to be rare.

4915. Former Service – Effect on Transfer Zones

a. Former service will be taken into account when calculating transfer zones for the following officers:

(1) Those who re-enter the Naval Service to complete the balance of their previous commission.

(2) Those who transfer from the Army or RAF to complete the balance of a comparable commission in the Naval Service.
(3) Those who transfer between branches or specialisations without changing to a different commission.

b. If officers have been given a wholly new commission, for which former service has been denied for pension or retired pay purposes, then the former service will also be denied when calculating transfer zones. In these cases, transfer zones will be calculated from the start of their new commissions and officers should be aware that this break in their service continuity may adversely affect their transfer prospects.

4916. Automatic Commission Transfers

a. **Baseline Requirements.** Notwithstanding the individual cases below, all candidates need the eligibility criteria at Para 4903 and their CO's recommendation. Application for an automatic transfer remains the responsibility of the individual and should be made through the Chain of Command to the Career Manager who, when satisfied the application meets the criteria at Para 4903, will direct the Promotions Office to action the transfer on JPA.

b. **Declining Transfer.** An officer being offered automatic transfer has no obligation to accept. Subject to meeting all other eligibility criteria, any officer who declines an automatic CCS or FCS transfer will be transferred as soon as they volunteer again.

c. **Fast Jet Pilots.** In view of the very small number of pilots qualified to fly fast jet aircraft and the high cost and length of training, all pilots serving on an IC who are selected for fast jet training will automatically be transferred to a CCS on successful completion of Operational Flying Training. Details of the return of service (ROS) for Fast Jet pilot training are contained in Annex 53C.

d. **Rotary Wing Pilots and Observers.** On achievement of Operational Performance Statement (OPS), post Operational Conversion Unit (OCU) and successful award of Certificate of Competence (CofC), along with a recommendation from the CO on their OJAR and remaining fully medically fit, all pilots and observers will automatically transfer to a CCS.

e. **RM Pilots.** RM pilots who joined pre-1 Apr 15 will, on receipt of their wings, automatically have their commission extended to a 12-year ICS. Details of the ROS for RM pilot training are contained in Annex 53C.

f. **Warfare Officers CCS Transfers.** Automatic transfers to a CCS will be offered to officers at the following stages:

(1) On successful completion of Fleet Navigation Officer Course (FNO) (SS).
(2) On achievement of Operational Performance Statement (OPS) and receipt of a CO’s recommendation as a FNO (SM), Mine Clearance Diver (MD), Mine Warfare Officer (MWO), GS(X) Fighter Controller (FC), GS(X) (Intelligence) officer or Hydrography/Meteorology and Oceanography (HM) officer.

(3) On completion of first operational tour within the Special Reconnaissance Regiment (SRR) or Defence Humint Unit (DHU).

(4) On appointment as the First Lieutenant of a River Class OPV (including XO HMS CLYDE). Transfer will be offered once an individual has achieved a CQ1 qualification and received a recommendation from the Commander Fishery Protection Squadron and is subject to meeting all criteria at Para 4903.

g. **Warfare Officers FCS Transfers.** Automatic transfers to a FCS will be offered to officers at the following stages:

1. To PWOs and PWO (SM) watchleaders - on achieving RPS and having a CO’s recommendation.

2. To any GS(X) officer on successful completion of Specialist Navigator course (WAR 111 SPEC N).

3. To X(HM) officers - on successfully attaining H or M Charge, providing they have a CO’s recommendation entered in JPA, are a volunteer for FCS transfer and meet the criteria at Para 4903 sub para b.

4. To GS(X) officers - on successful completion of a junior SASB1 assignment (i.e. P2000 Command, RCOPV XO), subject to having a Squadron Commander’s (CO 1PBS/CFPS) recommendation and meeting the eligibility criteria at Para 4903 sub para b.

5. To Pilots – on completion of qualification as a Qualified Flying Instructor (QFI)/Qualified Helicopter Instructor (QHI) and successful re-categorisation from B2 (Provisional) to B1 (Competent), along with a recommendation from their CO.

6. To Observers – on completion of qualification as a Qualified Observer Instructor (QOI) and successful re-categorisation from B2 (Provisional) to B1 (Competent), along with a recommendation from their CO.

7. To any Aircrew officer who successfully qualifies as a PWO(AV), along with a recommendation from their CO.

8. To any Pilot who successfully completes ETPS, or any Pilot/Observer completing Aero-systems course, along with a recommendation from their CO.
h. **Air Traffic Control (ATC) Officers.** The bearing of ATC officers is very small and as such, is susceptible to short term fluctuations and early losses after the lengthy training process. It is necessary, therefore, to safeguard this cadre of personnel by awarding them an automatic transfer to a CCS on completion of their first complement position. This is to be taken as 2 years cumulative service following completion of Part B training. As a consequence, SUY ATC officers, who will already have completed Part B training as ratings, will be offered transfer to CCS immediately on completion of initial officer training at BRNC. This automatic transfer will be applicable to all officers completing ATC training on or after 1 Jun 03. Automatic transfers will be offered to individuals subject to a satisfactory recommendation from their CO on their latest OJAR/Standard Report Form. Should an officer refuse the CCS transfer (‘opt out’), they will no longer be considered for a CCS transfer until they formally request, through their CO, to be re-considered. The application will then be processed through the normal selective transfer route.

i. **Barrister Training.** Officers selected for Barrister training whilst serving on an ICS (or equivalent commission) will be committed to an automatic transfer to a CCS 1 month before completion of bar finals/upon successful completion of bar final examinations. The ROS liabilities for Barrister training (see Chapter 53) are unaffected by this automatic transfer.

### 4917. Specific Career Courses/Training

a. Following the introduction of the 3TC, it was clear that a number of courses/training either straddled commissions or involved considerable investment by the Service and effort by those involved without assurance of longer-term employment. As such an assurance would benefit both the individuals concerned and the Service, it was decided that certain courses/training, in addition to the automatic transfers detailed above, should be automatically linked with a transfer to a CCS.

b. Consequently, personnel who are selected for courses/training listed below and are not already on a CCS (or equivalent commission) are committed to transfer to the next commission prior to being assigned to the course. The actual transfer will be deferred, however, until the course is successfully completed. Officers who fail to complete the course/training and have not yet transferred to the next commission will continue to be considered by Transfer Boards until either they are selected for transfer or they successfully complete the course and are automatically transferred. This arrangement gives personnel direct access to the next commission once the course is completed, thus eliminating the need for subsequent transfer board consideration. Officers who are volunteers to transfer to the next commission, but are not selected for any of the courses/training listed in Para 4917 sub para c, will be considered for transfer under the normal arrangements described in this Chapter.

c. Successful completion of the following courses/training will result in attendees automatically transferring to a CCS:

   (1) **MM/PP Commanding Officers' Designate Course (CODC).**
(2) Principal Warfare Officers’ (PWO) Course (including pre-PWO technical course).

(3) Professional Logistics Command Course.

(4) Air Engineer (Observer) (AE(O)) and Air Engineer (Pilot) (AE(P)) training (All IC AE(O) and AE(P) Air Engineer Officers (AEOs) will be automatically transferred to the CCS on successful completion of Operational Flying Training.)

4918. Transfer to Full Commission Stage (Aviator)

a. The FCS(A) (formerly known as FTC(A)) was introduced in Apr 03 as part of a number of recruitment and retention measures for RN/RM aircrew. FCS(A) creates, for selected commissioned aircrew at or beyond their Initial Pension Point (IPP) or Early Departure Point (EDP), a commission structure with a bespoke Professional Aviator pay Spine (PAS) that decouples pay from rank and a career that continues primarily in or near to the cockpit, focussed on the delivery of aviation capability in the operational and training environment. Personnel on a FCS(A)/FTC(A) are not eligible for Recruitment and Retention Pay (Flying) (RRP(F)) as their basic rates of pay are enhanced to recognize their aircrew skills and their employment in flying and flying related appointments.

b. FCS(A)/FTC(A) officers who are temporarily medically downgraded will remain on the commission, however, individuals who are permanently medically downgraded and cannot fill both flying and flying related posts cannot remain on a FCS(A)/FTC(A). In these circumstances, personnel will be offered a transfer back to the main aviation career stream (workforce requirement permitting) and reversion to the current pay scales, or medically discharged from the Service. FCS(A)/FTC(A) personnel accumulating less than 5 years’ continuous service on their commission are not eligible for an enhanced pension and, instead, will receive a pension in accordance with their existing AFPS.

c. The pay of FCS(A)/FTC(A) personnel will not reduce on approval of an application for Early Termination/Voluntary Outflow.

d. Full details of the FCS(A) can be found at Annex 49A.

4919. Reports

a. An officer is to indicate his/her transfer volunteer status for the next commission on JPA self-service page and this status is automatically embodied in the AR. An AR is the sole indicator of transfer intentions and it must be completed thoroughly and to strict deadlines as follows:

(1) All such reports are to contain specific assessments of the officer’s suitability for transfer and his/her potential in relation to other officers on the commission to which he/she may transfer, regardless of whether or not they are a volunteer for a longer commission.
(2) Reporting Officers should describe the candidate's employability in terms of an appropriate specialist skill and identify those qualities and aspirations, which will enable him/her to do well in broader assignments.

b. A single report must cover all eventualities. In addition to transfer recommendations required by this Chapter, it must clearly cover recommendations for promotion, extensions of service etc., if appropriate.

4920. Service Beyond age 55 for OF4s and Below
With the exception of Medical, Dental and QARNNS officers who can serve up to age 60 in some cases (see Para 5426), service beyond age 55 can be achieved via the following:

a. **EOS.** Officers may apply, or be invited to apply, to extend their service to a maximum age of 60. Extensions will normally be granted to retain individuals with deep specialist knowledge or to assist in alleviating shortages. Officers serving on an EOS are not eligible for promotion, but will continue to be eligible for selection back onto their former commission stage or the next commission stage.

b. **Commission Extension.** This is a change in Engagement Expiry Date (EED) that extends the current commission stage and, as a consequence, extends the promotion and/or transfer eligibility window. CE will take the form of either:

(1) **Continuance in Service on ICS or CCS.** This method will generally apply to the SUY/SCC cadre or other late entries to the Officer Corps eg. Chaplains. If there is a Service requirement, officers serving on an ICS/IC or a CCS/CC on their 55th birthday may be selected to serve out the balance of their commission stage up to a maximum age of 60. Should an officer’s commission not extend to age 60, selection for service beyond age 55 will include an automatic transfer to the next applicable commission stage (CCS/FCS). Officers will remain eligible for promotion within extant promotion windows.

(2) **Extension of FCS.** FCS extensions will be limited according to Service requirements. The requirement by branch and specialisation will be generated annually and controlled by a Maximum Authorised Number (MAuN) - sometimes the MAuN will be zero. Those serving on extended FCS will remain eligible to be considered by the Officers’ Promotion Board for selection to the next rank. The officer must be selected, and the transfer must become effective by age 52 to allow the individual to remain in zone for promotion continuously until 3 years prior to their final date in Service.

4921. Service beyond age 55 for OF5s
With the exception of Medical, Dental and QARNNS officers who can serve up to the age of 60 in some cases (see Para 5426), continued service beyond age 55 for OF5s is subject to approval by the Naval Secretary. It will be offered on a job-by-job basis and will be limited to the envisaged duration of the post and include any post-operational tour leave that will be accrued during the post, Graduated Resettlement Time and Terminal Leave. Service will normally be awarded by means of changing the individual’s EED, which might result in additional opportunities for selection for substantive promotion to OF6.
SECTION 2 - RATINGS AND OTHER RANKS – LONGER ENGAGEMENTS

4922. Transfer to Engagement Stage 2
Ratings and other ranks join on a 12-year Engagement Stage 1 (ES1). A transfer to Engagement Stage 2 (ES2) is awarded automatically when a rating or other rank has qualified in all respects for substantive promotion or advancement to Leading Hand or Corporal RM, ie. he/she has passed all requisite professional and leadership courses, is in date for RNFT, is recommended as suitable and has reached the Common Promotion Date (CPD). An ES2 extends a rating/other rank’s career to 20 years’ length of service or age 40, whichever is later, in alignment with the AFPS 15 Early Departure Payment (EDP) point.

4923. Transfer to Extended Career at end of ES1
Ratings and other ranks who do not achieve substantive promotion to Leading Hand or Corporal will not be eligible for transfer to a ES2 but may have their career extended on ES1 past the 12-year length of service point via on the following mechanisms, though the Service requirements for such action are expected to be small:

a. An Extended Career (EC). Current regulations governing EC will continue to apply. Periods of EC are offered for a specific Service need and selection is based primarily on future employability.

b. An Extension of Service. In accordance with the rules at Para 4926.

c. A revised Engagement Expiry Date (EED). An AB/Mne who has not been able to qualify for selection for promotion to LH/Cpl eg. due to Service reasons, maternity leave, career intermissions or a previous medical downgrade, may apply to have their career extended through a delay to their EED, thereby allowing them further time on ES1 to qualify for selection. PPLAN SWPR SO1 will ultimately decide whether such applications are approved, based on the prevailing workforce requirements.

4924. Transfer to Engagement Stage 3

a. Introduction. ES3 is awarded by selection and strictly to meet the needs of the Service. Service will be on identical terms to an Extended Career or 2OE, initially for 5, 10 or 15 years and thereafter in 5-year blocks. The final block offered which would take an individual’s time in service to age 60 can be less than 5 years but must be at least 1 year in length. Individuals currently serving on an EC or 2OE (or an Extension of Active Service (EOAS) in the case of other ranks) will complete their current period but any offers of further service will be on ES3.

(1) Those serving on an ES2 who are not selected for transfer to ES3 may continue to serve past the 20 year/age 40 point on an EOS to meet a specific Service need. They will continue to be eligible for selection and late transfer to an ES3 from their EOS. Likewise, those who are selected for an ES3 but not for service past their initial 5, 10 or 15-year period on an ES3 may be selected to serve instead on an EOS to meet a specific Service need. They will continue to be eligible for selection and transfer from an EOS back to ES3.
b. **Selections for ES3.** Transfer to an ES3 will be by selection at a Board convened annually by the Ratings' Promotion Section in Mar/Apr for senior ratings and SNCOs and Sep/Oct for junior ratings and JNCOs and other ranks. Periods of ES3 are offered for a specific Service need, therefore there will be no opportunity to transfer between specialisations or branches, or between Submarine Service and General Service (or vice versa) unless it is in the interest of the Service or there are exceptional circumstances (such as medical reasons) to consider a change. Any other specific service need concerning the period of ES3 will be detailed in the ES3 signal.

c. **Eligibility.** All ratings and other ranks will be considered automatically for an ES3, or further ES3 (as required by Branch Managers), provided they:

1. Are serving in the last 4 years of an ES2/FC/OE (or an extension of such – see also Para 4933 sub para e), or are on an ES3/EC which expires after the end of the calendar year in which the Selection Board sits. This includes those ratings who have submitted Notice and who would have been serving in the last 4 years of a regular engagement which would have expired after the end of the calendar year in which the Selection Board sits had it not been for the submission of Notice. Eligible ratings who have submitted their Notice must still be serving on the day after which the transfer board sits in order to be presented.

2. Are recommended for further service on their latest SJAR.

3. Are volunteers and are recommended for an ES3, as indicated on their latest SJAR. Any change in a candidate's volunteer status or recommendation since the last SJAR was rendered is to be reported to the Ratings' Promotions Section by 31 Jan for senior ratings/SNCOs and 31 Jul for junior ratings/JNCOs and other ranks of the year in which the Board sits.

d. **Quotas.** The Strategic Workforce Planner, in conjunction with Branch Managers, will formally set the requirement for the numbers of ES3 per rank and specialisation. This quota system is used to establish numbers of ES3 vacancies for each specialisation and rank; taking into account the numbers eligible for transfer, promotion prospects and the overall Service requirements. The quotas will also include vacancies that could be offered fairly to re-entrants who, having completed a 20-year ES2, 18-year FC or 22-year OE, are serving on an extension of service (see Para 4926).

e. **Basis of Selection.** Selection is based primarily on future employability and potential candidates should be aware that failure to acquire certain specific professional qualifications might reduce significantly their chance of selection. Further details can be provided by the relevant Branch Manager.
f. **Reserve Selection.** In order to meet unexpected shortfalls arising from a lower than anticipated acceptance rate, a limited number of reserve selections may also be made at the same time as the main selections. These selections will not be announced unless subsequently called forward. Reserves who are not called forward will be considered for reselection at the subsequent Boards if still eligible for ES3; any previous reserve selection will be lost.

g. **Offer Acceptance and Refusal**

(1) Selected ratings and Other Ranks will be provisionally offered further service on an ES3 by signal. The signal will specify the new engagement expiry date, a date which is non-negotiable. Individuals have two months from the date of the selection signal in which to decide whether or not to take up the offer of an ES3, the decision is to be emailed (copy to Career Manager) to:

(a) Ratings - NAVY PCAP-PROM RN PO

(b) Other Ranks – NAVY PCAP-CM CORPS INFO MGR

in the following format:

Subject: ES3 Selection

Name  Rank  Service Number  Decision

(Decision is either AO (Accepts Offer) or NI (Not Interested ie. refuses offer)).

(2) Individuals whose decision is NI will be considered at the next ES3 board providing they are eligible in all respects in accordance with Para 4924 sub para b and are recommended by the CO on their latest SJAR.

(3) Individuals who accept an offer of ES3 are also required to complete Form S62 (see also Para 4924 sub para h).

h. **Effect on an Individual's Termination Date if a Period of ES3 is Accepted.** Having accepted an offer of ES3, an individual's original/current Termination Date is cancelled, and they lose their right to leave on that date. The new Termination Date will be that offered in the ES3 selection signal. From the date of final acceptance (submission of Form S62), they will have to submit Notice and serve out the 12-month period if they wish to leave the Service before the end of the agreed new ES3. For engagement purposes, the period of an ES3 starts on completion of the original ES2/FC/OE.

i. **Medical Fitness Requirement.** See Para 4904.
j. **Withdrawal of an ES3 Offer.** If, during the period between an offer of further service on an ES3 being made and its commencement, the CO considers that an individual’s performance has deteriorated due to misconduct or other serious reason (eg. resulting in the award of a career check, warning, disrating or reversion) to the extent that the individual is no longer recommended for further service, this should be brought to the attention of the Ratings’ Promotion Section for their consideration of the withdrawal of the ES3 offer. If the offer is withdrawn, the individual concerned will no longer be considered for an ES3 unless the CO considers that their personal and professional standards have improved to the point where they are deemed to merit a recommendation for ES3 once more.

k. **Active Service.** Ratings and other ranks serving on an ES3 will remain on active service and will retain any sea service liability (where applicable) although every effort will be made for the final 6-12 months of service to be served in a shore position - see also Para 5916.

l. **Conduct/Career Check.** If, having been selected for further service on an ES3, but prior to final acceptance (submission of Form S62), the CO considers that the rating’s performance has deteriorated due to misconduct or other serious reason (eg. a Career Check) and that they are no longer recommended for further service, the selection may be withheld. In such cases, a Form S62 is to be forwarded to the Ratings’ Promotion Section, with a covering letter outlining the circumstances, who will confirm the de-selection. The individual may be considered at future ES3 Boards if suitably recommended.

m. **Unsatisfactory Ratings and Other Ranks**

   (1) **Discharge to Pension.** Ratings or other ranks serving on an ES3 may be given 12 months’ Notice of discharge to pension when their performance in any respect of their duties, possibly for reasons outside their control, falls below the level normally expected of their rank and seniority, but not to the extent where is such that they would be a candidate for discharge SHORE (see Para 5442). Before giving Notice to a rating or other rank, a CO should preferably have 6 months’ knowledge of the individual’s performance.

   (2) **Warning and Process.** Ratings or other ranks are to be warned at the time Notice is given that their performance will be reviewed in 6 months’ time. If there is a marked and sustained improvement in performance during this period, the CO may withdraw the Notice. Where there is no such improvement, the CO is to seek the approval of the Fleet Commander or Flag Officer for confirmation of the rating’s or other rank’s discharge to pension on completion of 12 months’ Notice. The application, which is to contain the full circumstances of the case and be accompanied by the individual’s full Service Documents, is to be forwarded to Navy Command Headquarters Casework Cell (see Annex 1E) for consideration by the Fleet Commander through the appropriate Administrative Authority and copied to the Career Manager. The application must also contain confirmation that the rating or other rank has been reminded at this point of their right to present the case and, if they elect to do so, their presentation must also be forwarded with the application.
(3) **Early Release when under Warning of Discharge.** A rating or other rank given Notice under this regulation may apply to be released early. Approval will be authorised by the appropriate Career Manager, subject to the needs of the Service.

(4) **Reversion at Own Request.** If a rating or other rank, other than a Warrant Officer, has been promoted while serving on an ES3, they may apply to be considered for reversion at their own request as an alternative to discharge to pension. Any such request is to be forwarded for consideration when the application for confirmation of discharge is submitted.

### 4925. Employment on Professional Aviators’ Spine (PAS) – Non-Commissioned Aircrew

#### a. Terms of Employment.

(1) RN and RM Aircrewmen (ACMN) offered employment on the Professional Aviators’ Spine for Non-Commissioned Aircrew (PAS NCA) will generally be employed in flying or flying related assignments. A flying assignment requires an individual to undertake flying duties and maintain current flying practice. A flying related assignment includes, but is not limited to, aviation management and supervision at sea or ashore, aviation regulatory, safety and assurance roles, Operational Tours or aviation staff positions which do not necessarily require the incumbent to undertake actual flying duties.

(2) PAS NCA do not receive RRP(F) as their basic rates of pay are enhanced to recognise their aircrew skills.

(3) Due to the decoupling of pay from rank, there may be occasions when a PAS NCA ACMN will be assigned to a position normally allocated to a lower rate/rank to provide additional expertise or experience within a unit. However, as the MAuN at each rate/rank cannot be exceeded, this practice does not allow additional promotions to be made.

#### b. Eligibility.

All RN and RM ACMN are eligible for PAS NCA if they meet the following criteria:

(1) Serving on an Engagement which takes them beyond their IPP/EDP (individuals may apply for consideration up to five years before their IPP/EDP – see Para 4925 sub para d).

(2) Be recommended on their latest SJAR for selection to PAS NCA by their Chain of Command.

(3) Are in receipt of RRP(F) either at the Full or Reserve Band rates.

(4) Do not have an extant application for Early Termination in JPA.
(5) Are not permanently medically downgraded as unfit for flying duties. Personnel who are temporarily downgraded as unfit for flying duties or permanently categorised as unfit for sea service or restricted otherwise for future employment will have their suitability for entry to PAS NCA assessed by the Aviation Branch Manager on a case-by-case basis.

(6) Not be awaiting Court Martial or other disciplinary proceedings.

(7) Are substantive POACMN/Sgt (RMAC) or above.

(8) Do not have an application for an officer commission in progress.

(9) Must be able to provide a minimum 5 years’ service from their date of transfer to their engagement expiry date.

c. Application Procedure

(1) ACMN wishing to be considered for PAS NCA are to complete the RN/RM PAS NCA Application Form at Annex 49C and forward it to the Career Manager by 1 Mar annually. Individuals are eligible to apply from their IPP/EDP minus 5 years. Selection will be conditional for those not yet at their IPP/EDP with transfer to PAS NCA occurring at IPP/EDP, dependent on continuing to meet all other eligibility criteria. Only correctly completed and signed original Application Forms that reach the Career Manager within the stated timeline will be presented to the Board.

(2) Selection for PAS NCA will be determined by an individual’s flying and professional skill in their current rate/rank rather than potential for promotion. Individuals are to ensure that the appropriate sections of the SJAR indicate ‘Volunteer’ status. ROs should complete the AR ensuring that all relevant aviation attributes are fully reported on including a clear recommendation on the individual’s suitability for PAS NCA.

(3) The Selection Board will use the application form in conjunction with previous SJARs to select personnel for PAS NCA. The data set out in the application form will be weighted accordingly to requirements at each Board and an order of merit for consideration for transfer will result. Accurate and comprehensive completion of the application form is therefore essential.

(4) Personnel no longer wishing to be considered for PAS NCA should simply cease completing the annual application form and ensure that the volunteer status on their SJAR is recorded correctly.

d. Minimum Time to Serve and Early Termination. Personnel must be able to complete 5 years’ service from their date of transfer to PAS NCA to their engagement expiry date, noting that selection to PAS NCA extends engagement to Retirement Age 55 (RA55). Personnel serving on PAS NCA remain entitled to apply for Early Termination (ET). The pay of PAS NCA personnel will not reduce on approval of an ET application.
e. **Selection Board**

(1) There will be one Selection Board annually, with selections announced by signal at the end of Nov. The Board will use the latest report, in conjunction with previous annual and NFSF(RW) reports, to select personnel that best meet the requirement. Unsuccessful candidates will be required to resubmit a new application if they wish to be considered by the next Selection Board.

(2) Individuals selected for PAS NCA are required to confirm their acceptance of the transfer, along with the associated terms and conditions of service, by signal to their Career Manager and Ratings Promotion Section within 20 days of selection, as detailed in the Selection Signal. Individuals who fail to comply with this will be deselected.

(3) The selection of those not yet at their IPP or EDP will be provisional and transfer dependent on them continuing to meet all eligibility criteria. ACMN not yet transferred may withdraw their acceptance of transfer and remain on their current engagement provided they do so in writing to their Career Manager and Ratings Promotions Section at least 20 days prior to their IPP/EDP. Provided the individual remains eligible, they may apply at a later stage for transfer to PAS NCA but will have to be re-selected through the Selection Board.

f. **Transfer Point.** The effective date of transfer to PAS NCA will be the individual's IPP/EDP or, if the individual has already passed their IPP/EDP, 1 Apr of the year immediately following the Selection Board, whichever is the later.

g. **Medical Downgrading.** PAS NCA personnel who are temporarily medically downgraded will remain on the PAS. However, PAS NCA personnel who are permanently downgraded to a medical category that prevents them from being employed under the PAS NCA terms of employment will be withdrawn from PAS NCA.

j. **Promotion.** PAS NCA personnel remain eligible for promotion in competition with their non-PAS NCA counterparts. PAS NCA personnel who are promoted will not receive a pay rise as rates of pay on PAS NCA are determined by length of service rather than rank. Selection for PAS NCA will render the selectee ineligible for commissioned rank. In applying for PAS NCA, an individual is required to confirm that they are not a SUY/SCC candidate.

k. **Pay and Pensions.** Further details of pay and pensions for PAS NCA personnel can be found in JSP 754 Chapter 4 Section 7.
SECTION 3 – EXTENSIONS OF SERVICE

4926. Introduction
Personnel may apply or be invited to apply to extend their service beyond the normal length of their commission/career/engagement or compulsory retirement age for various reasons (see Para 4928). Opportunities for some extensions will depend on the shortage in applicants' branches, arms and specialisations and the individual’s suitability and medical fitness. Before making formal application for an extension of service (EOS), which is not to be confused with transfer to a longer commission (see Section 1) or selection for an Engagement Stage 3 (see Para 4924), individuals should check current requirements with their Career Manager. The following information refers primarily to Regular Service personnel. For members of the Maritime Reserve (RNR and RMR), see BRd 3(2) Para 0221.

4927. Types of Extension

a. Career Manager’s EOS. An extension of up to 6 months, a CM’s EOS is designed to allow the adjustment of an individual’s terminal expiry (TX) date to meet the precise timings of assigning a relief and similar assignment exigencies. Any EOS which results in a cumulative total of over six months (ie. rolling) will be treated as a 'Full' EOS.

b. Full EOS. Typically, an extension of between 6 months and 2½ years, a Full EOS requires staffing and, in particular, consideration of the long-term liability against the forecast strength – in exceptional circumstances, an EOS of up to 5 years may be considered. In general, RM Other Ranks will be granted up to 2 years on an EOS, with any further service being given as an ES3.

4928. Situations in which an EOS may be Appropriate

a. An EOS may be awarded in the following cases:

(1) As a short-term manpower regulator to increase the total bearing of all specialisations to match the global requirement.

(2) To assist in alleviating shortages in any particular specialisation or sub-specialisation that cannot be resolved by other means.

(3) To retain individuals with deep specialist skills or knowledge where there is a shortage.

(4) To help to meet shortages in certain ranks and branches or to meet a specific requirement.

(5) For commissions of less than 8t years' service. The extensions shown will be routinely available (subject to retirement age criteria) and not subject to formal Selection Boards (see annual DINs). Requests are to be forwarded in writing through Commanding Officers:

(a) Medical and Dental officers on a 6 or 7-year ICS (or equivalent commission) may be extended up to 14 years' service.
(b) QARNNS officers on a 6-year ICS (or equivalent commission) may apply to extend their commission up to 8 years’ service.

(c) Chaplains on a 4 or 6-year ICS (or equivalent commission) may be extended up to 10 years’ service.

(6) For Gratuity Earning Commissions (Aircrew). Prior to 1 Apr 99, aircrew officers were able to enter the Service as pilots on a 12-year gratuity earning commission in order to complete their return of service (ROS) for flying training. This particular commission ceased to be available to officers commencing a commission on or after 1 Apr 99. However, in order to ease difficulties in maintaining a sufficient strength of aircrew, a limited number of officers serving on 12-year gratuity earning ICS may be considered for an EOS. Extensions will only be for a fixed, 2-year duration, following immediately from the last day of gratuity-earning service.

(7) To complete two years’ service in a higher rank if subject to APFS75. The requirement to serve for 2 years in the higher rate is no longer a condition of promotion, however, under AFPS75, a minimum of 2 years’ service is still required in the higher rank to safeguard a final pension in the higher rank (see Para 6706).

(8) Following an Early Termination request. Individuals who have submitted 12 months’ Notice to leave the Service may apply for an EOS; if the reasons are deemed to be exceptional and the request is approved, a short EOS will be granted.

(9) To complete time for pension or gratuity for unpaid leave or unpaid service for officers, ratings and other ranks who have forfeited pensionable service, whether it be for unpaid leave or unpaid service. A delay in an individual’s exit date that is equal to the length of the unpaid leave or unpaid service may be requested.

(10) To complete time for pension or gratuity for those awarded a Career Intermission (CI). Although a CI counts for commission/career/engagement purposes, it is not reckonable for pay or pension purposes. A delay in an individual’s exit date that is equal to the length of the CI may be requested when applying for a CI (see Para 2631 b sub para (1) and JSP 760 Chapter 18).

(11) When an individual’s commission/career/engagement ends whilst serving overseas. Individuals who are entitled to claim their discharge on completion of their current commission/career/engagement before they have completed their period overseas may volunteer to remain overseas to complete their final tour.

(12) To complete Graduated Resettlement Time (GRT). An EOS may be granted to individuals who have insufficient time to complete all or part of their GRT allocation as a result of Service reasons. For further details about the GRT scheme, see JSP 534 (Tri Service Resettlement Manual).
(13) Following a Naval Service Medical Employability Board (NSMEB) decision to discharge an individual from the Service on medical employability grounds. An EOS may be sought to allow the individual to undertake or complete further medical treatment, rehabilitation, resettlement and/or similar activities.

(14) In order to fulfil a training Return of Service requirement if an individual does not have sufficient time left to serve on their existing engagement (see Para 5304 sub para f)

b. An EOS will not be granted in the following situations:

(1) To undertake an ES3. Individuals will not be given an extension in order to have sufficient time to complete an ES3 under any circumstances.

(2) To delay the release of Medically Downgraded individuals. There are no grounds for delaying an individual’s release from the Service when they are medically downgraded (see BR 1991 (Instructions for the Royal Naval Medical Service) Para 0829 e).

4929. Eligibility for an EOS

a. Officers serving on any commission and ratings/other ranks serving on any regular career or engagement may apply for an EOS.

b. Applicants must be certified as medically fit for service (normally medical category MFD A4L1M1E1). Applications from individuals in restricted medical categories may be considered in exceptional circumstances.

c. Applicants should not have submitted an application for Early Termination (but see Para 4928 a sub para (8) for exceptional cases).

d. Applicants should be able to complete their EOS by the age of 55 (but see Para 4928 sub para a for service beyond age 55 in exceptional circumstances).

e. Extensions to an ICS must not take officers beyond a maximum of 14 years’ service under any circumstances. Similarly, the normal maximum extension which may be granted to officers serving on a CCS (or equivalent commission) is 5 years.

4930. Timing of an EOS Application

The timing of an EOS application is generally from 4 years to 1 year before the individual’s current Engagement Expiry Date (EED). At this stage, it will usually be possible for a CM to predict shortages, which may generate a requirement for an EOS. However, in specific branches that are predicted to be in deficit, applications will be considered earlier than 4 years before the individual’s current commission/career/engagement expiry date. The refusal of such an early application is no bar to subsequent applications closer to the individual’s retirement age. Applications will also be considered exceptionally at less than 1 year before the individual’s current commission/career/engagement expiry date but will not be considered once an individual has commenced their terminal leave.
4931. Staffing and Approval of an EOS Application

a. Application

(1) After discussion with their CM, an individual wishing to apply for an EOS should complete a RN Form S61, which can be found under ‘Forms (Royal Navy)’ in the A-Z of the RN Web, and forward it through their Commanding Officer to the appropriate CM. In the case of Chaplains, EOS applications should be sent directly to the Chaplain of the Fleet or, where appropriate, to the Principal Chaplain.

(2) An individual's Medical Documents are to be scrutinised and a signature from a Medical Officer required on Form S61 declaring whether the individual is fully fit to continue general Naval service in any part of the world and giving details of any restricted medical category (not required for a Career Manager EOS). See flowchart at Annex 49C.

(3) Applicants should have a recommendation on their suitability for further service on their current AR (if the recommendation is not articulated or the AR is more than 6 months old, a special AR should be raised).

b. Authority to Approve an EOS

(1) Career Manager’s EOS. SO1 CMs (officers) and SO2 CMs (ratings) have delegated authority to approve CM’s EOS. Authority for granting an EOS for RM Other Ranks lies with the RM Corps Drafting Officer (CDO).

(2) Full EOS. Final approval is given by the appropriate SO1 Branch Manager after consultation with the relevant ACOS (PCap) PPLAN SO1. Where there is a disagreement between the CM and Branch Manager, DACOS CM and DACOS BM will adjudicate.

(3) Post NSMEB. Authority for granting an EOS to allow an individual to undertake or complete further medical treatment, rehabilitation, resettlement and/or similar activities rests solely with the appropriate ACOS (PCap) PPLAN SO1.

(4) Extensions which take Individuals Beyond Age 60. Extensions beyond age 60 may be granted exceptionally for certain branch/specialisations by DACOS (CM).

4932. Withdrawal of an EOS Offer

An EOS offer may be withdrawn in the period between an EOS offer being made and its commencement in the following circumstances:

a. If a Commanding Officer considers that the individual’s performance has deteriorated due to misconduct or other serious reason (eg. a career check, warning, disrating or reversion, warning) to the extent that the individual is no longer considered to be suitable for further service, he/she should raise their concern with the Career Manager and, if appropriate, ask for the Approving Authority (see Para 4931 sub para b) to consider withdrawing the EOS offer.
If the offer is withdrawn, the individual will not be considered further for an EOS unless the Commanding Officer considers that the individual has attained and maintained the required personal and professional standards to the point where the individual could be recommended for an EOS again.

b. If an individual has been granted an EOS with the sole intention of carrying out a specific specialist role but subsequently refuses an Assignment Order.

4933. Applicable Terms of Service whilst Serving on an EOS

a. **Assignment.** All medically fit personnel will be fully assignable on an EOS.

b. **Rank and Promotion.** Individuals on an EOS are not eligible for promotion or advancement but may be given paid acting higher rank on a local acting basis. See Para 9105 for RM policy.

c. **Early Termination.** Normal ET rules apply to personnel who have been accepted for, or who are serving on an EOS.

d. **Commission Transfer.** Officers on an EOS may apply, and be considered, for transfer to a CCS or FCS providing they have 1 year or more left to serve on their extension as at 1 Feb for Lieutenant RN/Captain RM or 1 May annually for Lieutenant Commander/Major RM as appropriate (see Para 4912).

e. **Consideration for an Extended Career (EC).** Ratings serving on an EOS may be considered for selection to an EC but, as detailed at Para 4924 and Para 4928 sub para a, individuals cannot be given an EOS in order to undertake an EC under any circumstances.

f. **Conduct of Ratings who have Served For More Than 20 years (on an ES2), 18 years (on an FC) or 22 years (on a OE1) Pensionable Service.** Such individuals whose conduct results in their being considered for Discharge SHORE for inadequacy should be dealt with in accordance with Para 5443 a (3) sub para (c).

g. **Special Service Pay (SSP).** SSP will only be payable where it is considered that personnel are serving in assignments directly related to that SSP.

h. **Terminal Leave.** When there is no break between completion of normal service and the commencement of an EOS, terminal leave is deferred until completion of the EOS and will not exceed the maximum of 20 working days. Where EOS follows a break in service, there is no entitlement to any further terminal leave.

i. **Terminal Benefits.** See JSP 754.
ANNEX 49A

RN/RM FULL COMMISSION STAGE (AVIATOR) (FCS(A))

1. **Introduction**
   FCS(A) and its associated Professional Aviators’ pay Spine (PAS) is a financial incentive designed to retain aircrew in flying or flying related assignments, at or beyond their IPP/EDP. FCS(A) officers are not eligible to receive Recruitment and Retention Pay (Flying) (RRP(F)) as their basic rates of pay are enhanced to recognise their aircrew skills and restricted employment specifically in flying and flying related assignments. Those aircrew not serving on FCS(A) are categorised as Career Stream¹ (CS) and continue to receive basic pay and RRP(F), where appropriate. CS aviators will be employed in flying and flying related posts, executive and command positions, broadening assignments including battle staffs, HQ, Joint and common appointments (CAPPS).

2. **Flying and Flying Related Assignments**
   A flying assignment requires an individual to undertake flying duties and maintain current flying practice. A flying related assignment includes, but is not limited to, aviation management and supervision at sea or ashore, aviation regulatory, safety and assurance roles, Operational Tours or aviation staff positions which do not necessarily require the incumbent to undertake actual flying duties.

3. **Employment**
   FCS(A) officers will generally be employed in flying or flying related aviation positions with the primary focus in the cockpit at sea and ashore. Although individuals will remain eligible to compete for selection to AASB1 assignments and promotion, subject to meeting the relevant pre-requisite qualifications, aviation executive and command assignments will generally be limited only to those occasions when it is in the Service interest. Due to the decoupling of rank from pay there may also be occasions when a FCS(A) Lt Cdr will be assigned to an aviation post normally allocated to a Lt to provide additional expertise or experience.

4. **Transfer Points**
   Transfer to FCS(A), both selective and automatic (Para 7), will take effect on 1 Apr following selection or on meeting the automatic eligibility criteria and on achieving IPP/EDP. IPP/EDP is defined as one of the following points:

   a. Officers with pension benefits under AFPS 75 only: the transfer point will be at or beyond the IPP². For officers who commission from the ranks their transfer point will be the earlier of the following dates: the date they qualify for the Officers’ IP (which must include at least 5 years served as a commissioned officer), or the ORs’ IP³.

---

¹ Career Stream is a generic term for personnel in all Services on the main pay scale.
² A member qualifies for an Officer’s AFPS 75 Immediate Pension after completing 16 years’ reckonable Service from age 21 or date of joining, whichever is the later.
³ A member qualifies for an Other Ranks’ AFPS 75 Immediate Pension after completing 22 years’ reckonable Service from age 18 or date of joining, whichever is the later.
b. Officers with pension benefits under AFPS 75 and AFPS 15: the transfer point will be at the IPP. For officers who commission from the ranks their transfer point will be the earlier of the following dates: the date they qualify for the Officers’ IP (which must include at least 5 years served as a commissioned officer); the ORs’ IPP; or the AFPS 15 EDP.

c. Officers with pension benefits under AFPS 05 only: the transfer point will be at the AFPS 05 EDP 18/40 – after completing 18 years reckonable service or age 40 whichever is the later.

d. Officers with pension benefits under AFPS 05 and AFPS 15: the transfer point will be at the AFPS 05 EDP 18/40 – after completing 18 years reckonable service or age 40 whichever is the later.

e. Officers with pension benefits under AFPS 15 only: the transfer point will be at the AFPS 15 EDP 20/40 – after completing 20 years reckonable service or age 40 whichever is the later.

5. **Eligibility**

All RN Warfare FAA Branch and RM FAA Branch OF2 and OF3 Pilots and Observers are eligible for a commission transfer to FCS(A), providing they meet the following additional qualifying criteria:

a. Be serving on a Commission which takes them beyond their IPP/EDP.

b. Be recommended on their latest OJAR for a commission transfer to FCS(A) by their Chain of Command.

c. Be in receipt of RRP(F) either at Full or Reserve Band rates with an expectation that they will continue to fulfil a career in flying or flying related assignments in the future.

d. Not have been permanently medically downgraded as unfit for flying duties. Personnel who are temporarily medically downgraded as unfit for flying duties or permanently categorised as unfit for sea service or restricted otherwise for future employment will have their suitability for entry to FCS(A) assessed by the Aviation Branch Manager on a case-by-case basis.

e. Not have an extant application for Early Termination in JPA.

f. Not be awaiting Court Martial or other disciplinary proceedings.

g. Must be able to provide a minimum 5 years' service from their date of transfer to their commission expiry date, noting that from Feb 20 all personnel selected will automatically be offered CE60.
6. Application Procedure

a. Aircrew wishing to be considered for transfer to FCS(A) are required to 'opt-in' and should ensure that the appropriate sections of the OJAR indicate 'Volunteer' status for Commission Transfer. Additionally, the FCS(A) application form at Appendix 1 is to be completed and forwarded through the Chain of Command to the relevant Career Manager and Officer Promotions Section. Volunteer status on their OJAR AND an extant application form must be rendered annually for an individual to continue to be considered. Lack of an FCS(A) application form will result in an individual not being presented to the FCS(A) transfer selection board. The FCS(A) application form is not available through the JPA Appraisal software system and must be produced locally.

b. OJARs should be raised in the normal course of annual reporting iaw JSP 757. Subject Officers should avoid applying concurrently for FCS and FCS(A). ROs should complete the AR ensuring that all relevant aviation attributes are fully reported on including a clear recommendation on the Officer's potential for FCS(A).

c. It is important to recognise that the FCS(A) career path is predominantly focused on cockpit and flying related assignments which may initially limit an individual’s ability to demonstrate sufficient merit for early promotion. However, the specialist skill sets of Aviation Supervisors and Managers, Flying Instructors, Test Pilots, Aero-Systems Qualifications and Aviation Warfare specialisation offer ample opportunity to demonstrate leadership, management and staff skills.

d. The Selection Board will use the application form in conjunction with previous OJARs to select personnel for FCS(A). The data set out in the application form will be weighted accordingly to requirements at each Board and an order of merit for consideration for transfer will result. Accurate and comprehensive completion of the application form is therefore essential.

e. Personnel no longer wishing to be considered for FCS(A) should simply cease completing the annual application form and ensure that the volunteer status on their OJAR is recorded correctly.

7. Selection

a. **Automatic FCS(A) Transfer**

   (1) Automatic transfers to FCS(A) will be offered to aircrew upon application at the following stages providing they meet the eligibility criteria at Para 5.

   (a) To Pilots on successful re-categorisation from B1 to A2 Qualified Flying Instructor (QFI)/Qualified Helicopter Instructor (QHI).

   (b) To Observers on successful re-categorisation from B1 to A2 Qualified Observer Instructor (QOI).
(2) Application for an automatic transfer, including personnel already qualified A2, remains the responsibility of the individual and should be made using the form at Appendix 1, through the Chain of Command and relevant Career Manager to the Branch Manager who, when satisfied that the application meets the criteria at Para 5 will direct the Promotions Office to action the transfer on JPA at the individual’s IPP/EDP point or 1st day of the month following approval, whichever is the later.

b. **Selective FCS(A) Transfer**

(1) Selective transfer to FCS(A) will be by an annual selection board, which will normally convene in Feb. Applicants will be considered at the Board immediately following their application. The number, skill set and rank of personnel to be selected each year will be established by the Aviation Branch Manager to achieve the desired experience profile and aircrew workforce requirement. The aim is to provide a breadth of aviation specialisms within the FCS(A) cadre.

(2) Individuals are eligible to apply for transfer from IPP/EDP minus 5 years, the reference point being 31 Mar the year preceding the board. Applications should therefore be submitted alongside the annual OJAR. Selection will be conditional for those not yet at their IPP/EDP with transfer to FCS(A) occurring at IPP/EDP dependent on continuing to meet all other eligibility criteria.

(3) As a guideline the following will help make a candidate competitive:

(a) Airborne instructor qualifications.

(b) Aero-Systems specialism.

(c) Aircraft trials, test and evaluation experience.

(d) Aviation supervision, assurance and/or safety management experience.

(e) Aviation battle staff experience.

(f) Test pilot qualification.

8. **Selection Board**

a. There will be one Selection Board annually, with selections announced at the end of Feb and effective from 1 Apr that year. The effective date will be the date on which all calculations relating to transfer to FCS(A) are based (entry point onto PAS).

b. Individuals selected for FCS(A) and CE60 are required to confirm their acceptance of the transfer and commission extension along with the associated terms and conditions of service in writing to their Career Manager and Officers Promotion Section within 20 days of selection, as detailed in the Selection Signal.
c. The selection of those not yet at their IPP or EDP will be provisional and transfer dependent on them continuing to meet all eligibility criteria. Officers not yet transferred may withdraw their acceptance of transfer and commission extension and remain on their current commission, provided that they do so in writing to their Career Manager and Officer Promotions Section at least 20 days prior to their IPP/EDP. Provided the officer remains eligible for transfer, they may apply at a later stage for transfer to FCS(A) but will have to be re-selected through the Selection Board.

9. Promotion

Officers who wish to be considered for further promotion should carefully consider the career implications of opting for FCS(A). FCS(A) employment will retain personnel, in or close to the cockpit and flying related assignments vice broader warfare or common appointments. The following arrangements govern promotion for FCS(A) Officers:

a. **Promotion from OF2 to OF3.**
   Lieutenants RN and Captains RM on FCS(A) remain eligible for promotion to Lieutenant Commander and Major respectively and compete alongside Lieutenants RN and Captains RM on a CCS/CC, FCS/FTC. If selected, they will remain on FCS(A). FCS(A) OF2 personnel who are promoted to OF3 will not receive a promotion related pay increase.

b. On selection for both promotion from OF2 to OF3 and transfer to FCS(A) in the same year, the transfer to FCS(A) will be deferred until after the substantive promotion to OF3.

c. **Promotion from OF3 to OF4.**
   Lieutenant Commanders and Majors RM on FCS(A) are eligible for promotion to Commander and Lieutenant Colonel respectively and compete alongside Lieutenant Commanders and Majors RM on a CCS/CC and FCS/FTC. If selected, they can accept promotion providing they transfer back to the relevant CCS/CC or FCS/FTC. Officers who elect to remain on FCS(A) will be deselected and will not be considered at the next annual promotion selection board following refusal. Officers will be presented to promotion boards thereafter providing that they continue to meet the eligibility criteria. Officers selected for promotion are required to notify their Career Manager in writing of their intentions within 30 days of the promotion signal.

d. **CE60 and Promotion to OF4.** FCS(A) Officers who are selected for promotion to OF4 will revert to RA55 or promotion date plus three years, whichever is the longer, allowing at least one full job at OF4. Further service would be subject to either successful application for CE60 as an OF4 or EoS if required by the Service.

9. Minimum Time to Serve and Early Termination

Personnel must be able to provide a minimum 5 years’ service from their date of transfer to FCS(A) to their commission expiry date, noting that with effect from the Feb 20 board, all personnel selected will be automatically transferred to CE60. later. Personnel serving on FCS(A) remain entitled to apply for Early Termination (ET). The pay of FCS(A) personnel will not reduce on approval of an ET application.
10. **Pay Structure**

a. On transferring to FCS(A), officers will enter the Professional Aviators’ pay Spine (PAS). Aircrew will enter at the increment level that equates to the sum of their basic pay plus RRP(F), in the paid rank on the day of transfer. If no direct equivalent exists, then an individual will be placed on the next highest increment of the PAS. The rates of pay for PAS officers are recommended annually by the AFPRB and promulgated by CDP Remuneration in a Directed Letter.

b. The PAS is a sequence of 35 increments on one range that provides scope for yearly Incremental progression. Pay on the PAS is based on length of service rather than rank although pay bars exist for the following:

- At increment level 30 for all OF2 aircrew⁴

11. **Pensions**

a. Under AFPS75, pensions for PAS personnel will be enhanced by adding a daily supplement to the standard representative rank-based pension that an individual is entitled to on leaving the Services. This will be the CS standard representative rank-based pension. The supplements will be calculated each year to reflect the pension headroom differential between the normal maximum representative pay rate for rank and the maximum pay point on the PAS that an individual can reach. The appropriate daily supplement will be earned for each day of service on the PAS, provided that a minimum of five years paid and pensionable service on PAS terms has been given before retirement. The pension supplements are promulgated annually by Directed letter.

b. Personnel who exit the Service prior to completing five years’ service on the PAS will receive the standard CS representative rank-based pension.

c. Pensions for those serving under AFPS 05 will be based on the final pensionable salary; no supplements are payable under AFPS 05. Personnel leaving the service prior to age 55 will qualify for an EDP.

d. Pensions for those serving under AFPS 15 will be based on 1/47th of their annual pensionable salary from 1 Apr 16 dictating their final pension pot value. Personnel leaving the service prior to age 60 will qualify for an EDP.

e. FCS(A) and CE60 have significant implications to pension benefits, and all personnel considering application for transfer should consult the Armed Forces Pension Calculator and seek independent financial advice to ensure they fully understand any personal financial impact.

---

⁴ OF2 aircrew who transferred to the PAS on or before 31 Mar 10 remain eligible to continue to increment level 35.

CHAPTER 50

PROMOTION TO OFFICER BY RATINGS AND OTHER RANKS

SECTION 1 - GENERAL

5001. Schemes
The Upper Yardman (UY) and RM Corps Commission (CC) schemes are designed to provide early opportunities for the promotion of ratings and other ranks on the Trained Strength to commissioned rank. Personnel seeking promotion to the Officer Corps via these schemes will be in competition with non-Service candidates. For more experienced ratings and other ranks, there are the Senior Upper Yardman (SUY), including the SUY(WO) scheme for more experienced Warrant Officers, and the Senior Corps Commission (SCC) schemes, details of which can be found at Section 3. The SUY/SCC scheme includes the Royal Navy Welfare specialisation.

5002. Selection
All officer candidates must pass selection by the Admiralty Interview Board (AIB), which acts as the primary method of determining officer potential. Those UY/CC and SUY/SCC candidates recommended by the AIB are subsequently considered for selection to enter Britannia Royal Naval College (BRNC) Dartmouth or Commando Training Centre Royal Marines (CTCRM) Lympstone, by a Final Selection Board (FSB). Selection Boards take place by branch, chaired by an appropriate Commander RN of the branch concerned or Colonel RM for SCC candidates. Selection to either scheme is subject to the requirements of the Service. The probability of selection to BRNC/CTCRM will vary depending upon branch/arm/specialisation.

5003. Branch and Specialisation
Ratings and other ranks may apply to be considered for any officer branch and, where appropriate, arm and specialisation, providing that they are able to satisfy the entry requirements. Their first choice of branch/arm/specialisation does not preclude them from being assessed for alternatives when appearing before the AIB. The offer of a commission may also be conditional on accepting service in submarines.

5004. Commissions
a. Successful candidates will be selected for an Initial Commission Stage (ICS) of 12 years, with the exception of QARNNS officers, for whom the ICS will be 6 years.

b. Those who commission through the UY/CC and SUY/SCC processes will be awarded seniority as shown below:
### Table 50-1. Seniority Awarded for Royal Navy and Royal Naval Reserve UY and SUY Candidates

a. **QARNNS Officers.** The rank and seniority of QARNNS SUY officers is based on relevant post-registration experience. As a minimum, individuals enter as a Sub Lieutenant but can qualify for additional seniority depending on their post-registration experience. The first two years of post-registration experience is counted in full, with the remaining years of relevant experience counted in half, up to a maximum of 6 years eg. an individual with 4 years’ post-registration experience would gain 3 years’ seniority on entry (the first 2 years counting in full, with the remaining 2 years counting as 1 year’s seniority). Individuals who qualify for less than 4 years’ additional seniority based on the above calculation will enter as a Sub Lieutenant, with the appropriate seniority. Entrants who are entitled to receive more than 4 years’ seniority on entry will enter as a Lieutenant, with a maximum seniority of 2 years in the rank. In line with their Direct Entrant counterparts, QARNNS SUY officers wear the rank insignia of Officer Cadet at BRNC and ship their substantive rank insignia on successful completion of Initial Naval Training (SUY).

5005. **Commission Transfers**

Time and recommendations permitting, there will be opportunities to be considered for transfer to longer commissions, eg. to a Career Commission Stage (CCS), with the further opportunity of then transferring to a Full Commission Stage (FCS). Transfer to a longer commission is by selection. SUY and SCC officers who cannot complete a commission stage will retire upon reaching their retirement age. For those on the SUY(WO) scheme, see para 5033; this will be extended up to RA60 as necessary. Specific information on commission transfers can be found at Chapter 49.

5006. **Unit Actions for Candidates**

a. **Identification of Candidates.** Commanding Officers (COs) of ships, establishments and units are to make special arrangements to bring these regulations periodically to the notice of Divisional Officers/SJAR Reporting Officers. In addition, they are to explain the details to ratings and other ranks who may wish to be considered as candidates. Potential candidates are to register their interest with both the RA of their current branch and the RA of their potential future branch. The candidate is to submit a request to transfer branch, in accordance with BRd 3(1) Para 5125, with an endorsement from the candidate’s CO. Once both the donor and receiving Branch Managers have accepted the transfer request and manning clearance is given, the candidate may be considered a UY/SUY candidate for the new branch. The candidate will be managed by the receiving branch RA from this point on. Further advice may also be sought from the relevant Branch Manager(s). It is of paramount importance that potential candidates are identified early in order for them to take full advantage of the UY and CC schemes.

b. **Encouragement.** All candidates are to be given every encouragement, help and advice to reach the required standards.

c. **Briefing.** It is the responsibility of COs and Recording Authorities (see Para 5007 and Annex 50A), who maintain a list of candidates, to ensure that individuals are fully briefed on the full range of opportunities available and that they have realistic expectations of the schemes. See also Annexes 50B to 50F for briefing on career expectations of SUY/SCC officers in each branch.
RM Initial Selection. RM candidates are initially selected by a Unit Board and their names are then forwarded to the Corps Colonel at CTCRM to be placed on the list of candidates.

5007. UY/SUY and CC/SCC Recording Authorities Organisation
Each officer branch or specialisation listed at Annex 50A has a separate staff officer (Recording Authority) who maintains a list of candidates, collates Commissioning Reports (CRs) and is authorised to communicate directly with COs, relevant Branch Managers and Training Pipeline Managers as necessary. The Recording Authority is responsible for:

a. Verifying from the initial registration to the candidate’s entry into BRNC or CTCRM that they are, and remain, eligible.

b. Monitoring a candidate's progress towards promotion to officer.

c. Ensuring that the candidate’s educational qualifications have been authenticated by the Education Officer of the unit and shown on JPA.

d. Liaison with the ship or establishment and the AIB.

e. Advising candidates and Divisional Officers on procedures and regulations, providing advice as required including probability of success, consulting the relevant Branch Manager as necessary.

f. Maintaining oversight of candidates interested in commissioning within their branch, and those potentially transferring in from other branches, and out of the branch to other branches through the CW process.

g. Actively promoting the UY/SUY/SUY(WO) schemes and promotion to the Officer Corps for certain deep specialist specialisations, such as C, AV or RN Police, to appropriate senior ratings who are eligible to be recruited and promoted to these specialisations.

h. Acting as Secretary to the relevant Selection Board for UY/SUY/SCC candidates.

5008. Reporting Procedures
See Chapter 57.

5009. The Admiralty Interview Board
(See Annex 50G for pre-requisite actions for attendance at AIB).

a. Applications. All candidates who meet the required criteria undergo the 1½ day assessment process at the AIB. Applications for recommended qualified candidates, who have been confirmed as eligible by the appropriate Recording Authority, are to be made by completing the form at Annex 50H which should be submitted to the Commanding Officer, AIB, HMS SULTAN and copied to the relevant Recording Authority (contact details are shown at Annex 50A).
b. **Timing and Documentation.** COs will normally be informed of the date of the Board at least one month in advance. It should be noted that completed AIB 3-part documentation (Annex 50I) and Form Q104a should be forwarded to the AIB. These forms must arrive no later than 2 weeks before the candidate is due to appear at the Board. Late receipt of documents may lead to a delay in a candidate’s attendance at the Board. For RM SCC candidates, PROMWORM collates the documentation. The normal waiting time for an AIB is no more than 3 months.

c. **Joining Instructions.** AIB will forward joining instructions, Form Q104a, a copy of the ‘How to succeed and become an Officer’ and Psychometric Test Battery Guide to candidates explaining the assessment procedure.

d. **Number of Attempts.** Candidates may be allowed a maximum of 3 attempts at the AIB, each appearance being separated by a minimum period of 12 months, provided they continue to remain eligible by age, educational qualifications etc. If a candidate fails the AIB for a third time, their CW candidature will automatically be cancelled.

e. **Board Results.** On completion of the assessment process, candidates will be informed whether they have been recommended for selection or not.

f. **Board Failure.** Unsuccessful candidates will be given a reason for their lack of success. A recommendation may be made for a further appearance in not less than 12 months and normally not more than two years. The AIB will also send a letter to the candidate’s CO. This letter will identify the candidate’s weak areas.

g. **UY Aircrew Only:**

(1) Aircrew candidates who are successful at the AIB will be sent to RAF Cranwell for an aircrew medical arranged by their unit-establishment PMO (2013DIN01-187 refers).

(2) Candidates who fail to meet the special requirements for an Aircrew specialisation, but who are appropriately qualified for other specialisations, arms or branches may be considered for an alternative entry.

h. If a candidate’s chances of final selection would be enhanced by improving the AIB Final Board Mark (FBM), CAIB may accept an application for a further attempt providing 1 year has elapsed from the first appearance. The recommendation for the successful candidate to board again should be made by the CO in consultation with the relevant Recording Authority. It should be noted that an inferior performance at the second Board could be detrimental to the candidate’s final chance of selection.

i. **Validity of AIB Pass.** A pass at the AIB is valid for 5 years.
5010. Failure to Complete Officer Training

a. Individuals promoted to the Officer Corps through the UY/CC and SUY/SCC schemes who fail to make satisfactory progress and are compulsorily withdrawn from training may request to revert to their former rating or other rank branch/specialisation as an alternative to leaving the Service. For UY(E) candidates who have completed the University of Portsmouth degree course, the Return of Service accrued through the degree course applies and hence if reversion is mandated, they are not permitted to leave the Service (see Para 5013 sub para e, Para 5306 and Para 5402 sub para k). Similarly, officers who have yet to reach their Premature Termination of Career Training (PTCT) point (see Para 5402) and have the opportunity to apply for voluntary withdrawal from training may ask to return to the ranks in their former branch/specialisation as an alternative to leaving the Naval Service entirely. Approval to revert is subject to the discretion of the relevant Branch Manager and cannot be guaranteed. Once an officer joins the trained strength (see Table 53B-2), they will no longer have the option of reverting to their former rate or rank.

b. Those reverting to their previous rate or rank will surrender all items of officer uniform and equipment and will be re-equipped with appropriate uniform at public expense.

c. On reversion to the ranks, personnel will continue to serve the balance of their engagement as a rating or other rank. Time spent as an officer under training will count towards a rating or other rank’s pension.

d. Every effort will be made to ensure that, as far as possible, ratings and other ranks suffer the minimum loss of seniority and pay through absence from their branch/specialisation. In cases where individuals were qualified in all respects for promotion, and had been selected, and would have expected to be promoted during the period of service as an officer, they may return to their rating or other rank service at the higher rate/rank, as determined by ACOS(PCap). In these instances, the appropriate backdated seniority (and pay level) will be applied. Where selected, but such promotion was not due during the period of officer service, selection will still be deemed to stand but enforced at a later date.

e. Those returning to the ranks in specialisations which mandate time and professional qualifications for promotion may have to qualify by passing the appropriate examination and by serving the full normal time. This may be necessary if experience in the lower rate/rank is essential for promotion. If so, no backdating of seniority can be allowed until the rate/rank of Petty Officer/Sergeant is attained, at which point seniority, but not pay, may be antedated by the amount of time spent out of the branch.

f. The Phase 1 or 2 Training Establishment is to inform the Navy Command Headquarters Terms of Service Team, as early as possible, of all requests to return to the ranks in order that revised terms and conditions of service can be prepared and agreed.
SECTION 2 – UY/CC SCHEME

5011. General Criteria
All candidates must fulfil the following criteria:

a. Be recommended by their CO (SBS(LE) candidates can only be recommended by CO SBS).

b. Have accepted, or accept, a sea-going liability where appropriate.

c. Have not been subject to a Career Check within the last 3 years. A rating or other rank with less than 3 years’ service may be registered as a candidate for promotion to officer rank provided they have not been the subject of a Career Check since their date of entry.

d. Have not exercised, or be in the process of exercising, their notice option to leave the Service.

e. Be in date for their RNFT/appropriate RM Fitness Test (to be recorded on JPA) on attendance at the AIB.

f. Have completed the AIB 3-part documentation (See Annex 50I).

g. Satisfy the required educational criteria at Para 9617 and Para 9618.

5012. Age Criteria

a. Age on Entry to the Officer Corps. Candidates for the UY/CC schemes must be aged over 17 and below the ages given below on the first day of the month that initial officer training commences.

(1) Warfare (excluding Aviation) – age 30.

(2) Engineering (including TM, excluding AE) – age 35.

(3) Air Engineering – age 39.

(4) Logistics – age 32.

b. Age Overlap. For most branches, the age limits above result in an overlap between the UY/CC and SUY/SCC schemes. Where a potential officer candidate’s age falls within the overlap period, Recording Authority advice should be sought to determine which officer training route (UY/CC or SUY/SCC) is most appropriate for the individual. Due consideration should be given to factors such as the individual’s age, qualifications, experience and personal qualities.
c. **Age Waivers.** In exceptional circumstances, consideration may be given to granting an age waiver. COs should submit any case which is considered to deserve exceptional treatment to the appropriate Branch Manager for a decision.

### 5013. UY(E) University of Portsmouth Degree Scheme

- **Eligibility.** The UY(E)UoPDS is open to Engineering Technicians and source branch CIS ratings who are studying, or have completed, Engineering BTEC HND or Foundation degrees. Candidates must pass the AIB prior to provisional selection and will then be subsequently assigned to HMS NELSON to read for an Engineering degree (third year) at the University of Portsmouth. Candidates will undertake their degree training as ratings.

- **Academic Qualifications.** The academic requirements and pre-entry studies for UY(E)UoPDS are shown at Annex 50K. The pre-entry enabling study listed will be provided by the University and is to be completed prior to commencement of degree training. Pre-entry courses will be arranged through the Base Education Officer, HMS NELSON.

- **Remuneration.** Whilst at University, UY(E)UoPDS candidates are paid at their basic salary depending on the rate held. They may be promoted until such time as they join BRNC.

- **Post Degree Training.** After graduation, UY(E)UoPDS candidates will undertake Initial Naval Training (Officer) at BRNC followed by professional training (SEMC) (see BRd 8374 Chapter 2).

- **Financial Commitment and Training Return of Service.** See Para 5303 sub para c.

### 5014. Medical Criteria

- **Medical Standard.** The Medical Entry Standard (MES) for Direct Graduate Entrants (DGE) and Naval College Entrants (NCE) is in accordance with BR 1750A and JSP 950, all UY must be medically fully deployable (MFD).

- **UY.** Entry requirements are as per below but, due to the arduous nature of the INT(O) course, in date RNFT\(^1\) and BMI/WC must be within the parameters below. Furthermore, in light of the duty of care the Service has to those undergoing such training, the Executive may, having taken medical advice, return any individual to unit whose medical condition or physical fitness is assessed as posing a significant risk, either to themselves or to the completion of training.

---

\(^1\) BRNC will accept only 2.4km or MSFT as RNFT pass for UY (not Rockport Walk).
Table 50-3. UY BMI Entry Requirements

<td>27</td>
</tr>
</tbody>
</table>

c. The additional assessments required are measurement of waist circumference and satisfactory aerobic fitness. For males, waist circumference must be less than 94 cm; for females, waist circumference must be less than 80 cm. These requirements are based upon both research into risk of and type of training injuries, and the health effects of the extremes of BMI. It is generally considered that health becomes an issue when the BMI is outside of a range of 18-30 and the health effects of being underweight or overweight are well known. However, the overall fitness and functional capacity of the individual should also be considered. For example, some individuals, such as body builders, who are lean but have a high BMI due to a high lean body mass, may be suitable for service. There is also clear evidence of a significantly increased risk of musculoskeletal injury (particularly during military training and in females) in those with a low BMI. Similarly, there is evidence that, in individuals with a high BMI, there is decreased muscle endurance and an associated increase in fatigue.

5015. Aircrew – Additional Criteria

a. In addition to the general selection qualifications starting at Para 5011, Aircrew candidates are required to attend the Officer and Aircrew Selection Centre (OASC) at RAF Cranwell to undergo Flying Aptitude Tests (FAT) prior to attending the AIB. Before submitting an application to undertake the Flying Aptitude Tests, an application must have been made to the AIB and eligibility confirmed by the Recording Authority. Those who reach the standards required by FAT will then proceed to the AIB to be assessed for the Aircrew entry.

b. Candidates who do not meet the FAT standard will receive counselling from the Senior Naval Officer RAF Cranwell regarding their potential future career paths. If the candidate is still considered suitable for entry into other alternative officer arms or specialisations, their parent unit may, if appropriate, request that the candidate is permitted to continue with their promotion opportunity and proceed to the AIB.

c. Candidates recommended by the AIB undergo the Aircrew Medical Examination the day following the Board. All successful aircrew candidates are subsequently considered for BRNC entry in either the Pilot or Observer specialisations by the FSB.

d. Aircrew candidates will undergo flying grading during their initial officer training. Pilot grading is conducted at RNAS Yeovilton, whilst Observer grading is conducted at RNAS Culdrose. Failure during flying grading will render the candidate unsuitable for flying duties and will result in the case being dealt with by BRNC.
5016. **Air Traffic Control – Additional Criteria**

a. In addition to the general selection qualifications starting at Para 5011, ATC candidates are required to undergo ATC aptitude tests at the OASC, RAF Cranwell prior to attending the AIB. Aircraft Controller (AC) ratings who have completed ATC aptitude testing as an integral part of their AC training are exempt from the selection processes detailed in this Para. Before submitting an application to undertake the ATC grading, an AIB application must have been made and eligibility confirmed by the Recording Authority.

b. Candidates who do not meet the ATC selection standard will receive counselling from the Senior Naval Officer, RAF Cranwell regarding their potential future career paths. If the candidate is still considered suitable for entry into other alternative officer arms or specialisations, their parent unit may, if appropriate, request that the candidate is permitted to continue with their promotion opportunity and proceed to the AIB.

c. ATC grading of prospective candidates is undertaken during initial officer training. Failure during the ATC grading will render the candidate unsuitable for ATC duties and will result in the case being dealt with by BRNC.

5017. **Royal Marines – Additional Criteria**

a. In addition to the general selection qualifications starting at Para 5011, RM candidates are required to attend and pass a 3-day Potential Officers’ Course (POC) at CTCRM Lympstone prior to attending the AIB. During the POC, candidates will be briefed on the AIB procedures.

b. SBS (SCC) officers are incorporated in the RM (SF) Arm and as such are effectively a closed group for the purposes of the annual commissioning requirement; promotions and all assignments are tied to the UKSF Group or other dedicated SF posts.

5018. **Training Management – Additional Criteria**

a. In addition to the general selection qualifications above, starting at Para 5011, TM candidates must have an honours degree or be in the process of gaining an honours degree, that is recognised in the UK.

b. Candidates will not normally be able to attend the AIB until they have received their degree results in writing. Only in exceptional circumstances, and with the approval of the relevant Branch Manager, will candidates be permitted to attend the AIB without written evidence of their degree results. It should be noted that entry into the Officer Corps will be on production of either the degree certificate or a document containing the candidate’s final results.
5019. **Period between AIB and Final Selection**

Final allocation to each entry takes place 6-8 weeks before entry to BRNC. Selection for the UY(E) scheme takes place annually and the RA can advise on when the annual board for each sub-specialisation takes place. The closing date for applications to the AIB being 1 Sep. RN candidates who are qualified in all respects for entry will be allocated to the next entry at BRNC appropriate to their specialisation. RM candidates join CTCRM in Sep.

5020. **Final Selection**

a. The names of all candidates considered suitable for officer training are submitted to the FSB, chaired by Commander AIB or a nominated Branch OF4. Candidates must be qualified in all respects for promotion to the Officer Corps before final selection can be made. Those selected for entry into BRNC or CTCRM will be informed by the UY/SUY Recording Authority through their COs.

b. Selection of candidates is subject to the requirements of the Service and, consequently, some candidates may not be offered their preferred choice of branch, arm or specialisation.

c. Candidates considered suitable for the UY(E)UoPDS will be provisionally selected to attend the university as a rating. Initial officer training will take place upon successful graduation.
SECTION 3 - SUY/SCC SCHEMES

5021. Eligibility criteria for the SUY Scheme/SUY(WO) Scheme
Candidates for the SUY scheme must fulfil all the minimum criteria below:

a. Aged over 26 on entry to the Officer Corps - but see Para 5029 for branch variations.

b. Have completed a minimum of 12 months as a substantive Petty Officer, except for the Engineering Branch (see Para 5028 sub para g to sub para k), Logistics Branch (see Para 5028 sub para l), Communications Technicians (see Para 5028 b sub para (4), QARNNS (Para 5028 sub para n) and Medical Services (Para 5028 sub para o).

c. From the first day of the month that officer training is expected to commence, have a minimum of 4 years to serve as an officer until their retirement date in the Officer Corps. For SUY(WO), the minimum requirement is 5 years, as selection on this route automatically secures service to complete ICS or retirement age 60, whichever is earlier.

d. Be medically fit (see Para 5026).

e. In date for the RNFT, both on attendance at the AIB and arrival at BRNC.

f. Meet the educational criteria (Para 5023 and Para 9617 and Para 9618).

g. Have at least 3 years’ service since last Career Check (if any) preceding the date of application (see Para 5025).

h. Have passed the Senior Rates Leadership Course (SRLC).

i. Meet the Branch specific additional criteria (Para 5028).

j. Be recommended by their CO.

k. Accept a sea-going liability, where appropriate.

l. Not have exercised, or be in the process of exercising, their notice option to leave the Service.

m. Have passed the AIB (which necessitates completion of the AIB 3-part documentation (see Annex 50I)).

n. Have been selected by the appropriate SUY FSB prior to entry to BRNC.
For the SUY(WO) scheme only:

(1) To have achieved 3 years seniority as a WO1 from CPD prior to starting Phase 1 Officer training.

(2) To have successfully completed WO Staff Course (WOSC).

5022. Eligibility criteria for the SCC Scheme
Candidates for the SCC scheme must fulfil all the minimum criteria given below:

b. Have completed a minimum of 12 months as a substantive Corporal (see Para 5028 sub para n).

c. Have a minimum of four years to serve as an officer until their final retirement date in the Officer Corps from the first day of the month that officer training is expected to commence.

d. Be medically fit (see Para 5026).

e. In date for the RM Fitness Test (RMFT) both on attendance at the AIB and on arrival at CTCRM.

f. In date for the appropriate Junior Command Course (JCC), on attendance at the AIB and on arrival at CTCRM.

g. Meet the educational criteria (Para 5023 and Para 9618).

h. Not having been subject to Career Check in the 3 years preceding the date of application (see Para 5025).

i. Meet the Branch specific additional criteria (Para 5028).

j. Be recommended by their CO.

k. Accept a sea-going liability, where appropriate.

l. Not have exercised, or be in the process of exercising, their notice option to leave the Service.

m. Have passed the AIB (which necessitates completion of the AIB 3-part documentation (see Annex 50I)

n. Have been selected by the appropriate SCC FSB prior to entry to CTCRM.

5023. SUY and SCC officers – Required Educational Criteria
Refer to Para 9617 and Para 9618 for further information.
5024. **Assignment of SUY Candidates**

Candidates for promotion to officer should be encouraged by their Divisional Officers/SJAR Reporting Officers to complete their qualifications within as short a time as possible. As far as it is practicable to do so, this requirement should be borne in mind when the assignment of candidates who have obtained only a proportion of the required qualifications is considered. Preference forms should be annotated accordingly.

5025. **Career Check**

To be recommended for promotion to the Officer Corps, SUY and SCC candidates must have at least 3 years’ service since their last Career Check (if any) preceding the date of application. A rating or other rank who is unable to satisfy this requirement may, however, be considered if deemed to be exceptionally deserving, or having distinguished themself by special or meritorious service. Such cases are to be submitted to ACOS(PCap) through Administrative Authorities with a full report of the circumstances.

5026. **Medical Criteria**

a. Personnel who wish to apply for promotion to the Officer Corps via the SUY and SCC schemes must have the medical category Medically Fully Deployable (MFD). The relevant section of the AIB 3-part documentation is to be completed and signed by a Medical Officer.

b. Warfare Branch SUY candidates (excluding those for whom a Bridge Experience Certificate is not required under Para 5029 sub para b) are to have their eyesight examined and confirmed by the parent establishment for suitability for promotion as mainstream Warfare officers before applying to the AIB for the first time and on presentation at AIB.

Note. WESM SUY entrants who will undertake periscope and bridge watch-keeping duties will require the same visual standard as mainstream Warfare officers.

c. **RNFT.** In conjunction with BR 1750A, SUYs must be in date for RNFT on presentation at AIB and BRNC. Due to the nature of the SUY course and the duty of care which the Service has to those undergoing such training, the Executive may, having taken medical advice, return any individual to unit whose medical condition or physical fitness is assessed as posing a significant risk, either to themselves or to the completion of training.

d. **Waiver of MFD Requirement.**

(1) Personnel permanently medically downgraded at a Naval Service Medical Board of Survey (NSMBOS), whose retention in the Service has been approved by a Naval Service Medical Employability Board (NSMEB) and who remain Medically Limited Deployable (MLD) with a limited set of Joint Medical Employability Standards as laid down in Para 6908, may now seek a waiver of the above requirement. Existing SUY and SCC candidates who are permanently medically downgraded may also continue to be considered for promotion provided they remain no lower than MLD with caveats appropriate to their branch. Prior to consideration by the FSB, candidates must be fully qualified in all other respects.
(2) Applications for SUY or SCC candidature, or continuation of candidature for candidates who are MLD should be made to PCap for the attention of the appropriate Branch Manager. Each application will be considered by the Branch Manager on its merits and account will be taken of the potential effect that a medical restriction may have on the ability of a candidate to perform their duties as an officer. On receipt of applications, the Branch Manager will consult the appropriate medical authorities, the Strategic Workforce Planner (Officers) and, as necessary, the relevant Career Manager and SUY/SCC Recording Authority, before approving the eligibility criteria waiver. If a medical waiver is granted, the relevant section of the AIB 3-part documentation (Annex 50I) must be completed and signed by the Branch Manager before the candidate attends the AIB. Where a candidate, for whom the waiver of the MFD requirement has been approved, is subsequently medically downgraded for a medical condition that is unrelated to that considered earlier, this is to be reported to the Branch Manager who will review the situation further.

5027. Promotion to an Alternative Branch/Arm or Specialisation

a. SUY candidates of any specialisation who demonstrate the necessary academic, leadership and officer-like qualities required for commissioned rank may apply for promotion to the Officer Corps to another branch provided that they possess the following:

(1) Meet the general criteria detailed at Para 5021.

(2) Meet the requirements of the branch, arm or specialisation they are applying to join.

(3) Are considered suitable by the relevant Branch Manager of the branch, arm or specialisation they are applying to join.

b. These criteria may be waived by the appropriate Branch Manager, if that is considered to be in the best interests of the Service.

c. COs of ratings and other ranks who wish to change branch on promotion to the Officer Corps should apply to the appropriate Branch Manager who, in turn, will then arrange for such individuals to be interviewed to ascertain their suitability for branch transfer and ensure that they fully understand the ramifications of this change in their career route.

d. SUY candidates applying to change branch to Warfare will be required to meet the appropriate eyesight standard for Warfare officer before applying to the AIB and subsequently gain a BEC prior to being considered at the FSB. Any candidate applying to change branch to deep specialist Warfare will be required to meet the appropriate criteria and to have had a career in that Deep Specialist area. A brief explanation of Warfare branch GS Arm SUY careers is at Para 5028 sub para b and Annex 50B.
e. A candidate’s selection of first choice branch when initially applying to be considered as a candidate for officer rank is, as a general rule, to be regarded as final. See Annexes to this Chapter for a brief view of career expectations of specialisations/branches. Transferring candidature to another branch may, however, be allowed at the discretion of the appropriate Branch Manager, subject to the requirements of the Service. Applications for transfer should be forwarded through the Administrative Authority to the appropriate Branch Manager, copy to the relevant original Recording Authority (RA). On receipt of approval, documents held by the former RA are to be transferred to the new authority. When a rating chooses more than one specialisation, a copy of the document sent to the RA of first choice should also be sent to the RA of the second choice to enable them to monitor the candidate; note that this is only permissible for certain specialisations, RAs can advise.

5028. Branch-Specific Additional Criteria
Additional qualifications required for entry into specific arms/specialisations (see Annex 96J), are as follows but note that, when appropriate, the FSB may waive or reduce the front-line service requirements and the requirement for 1 year’s service in the actual performance of a senior rating’s duties.

a. RN Candidates.

(1) Have 2 years’ sea or front-line service, although the relevant Branch Manager may waive or reduce this where it is in the best interests of the Service or where a candidate has been prevented from achieving the requirement due to the exigencies of the Service.

(2) Have passed the Professional Qualifying Course for Petty Officer, hold the minimum rate of Petty Officer (see Para 5028 sub para m for Logistics branch candidates) and normally have completed 1 year performing senior rate duties. However, the relevant Branch Manager may waive or reduce this requirement where it is in the best interests of the Service.

b. Warfare Branch - General Service. The normal career path for Warfare (GS) mainstream officers recruited via the SUY route will be watch-keeping at sea (OOW) through to PWO. Whilst there is a very slight opportunity for certain Warfare (GS) Mainstream SUY officers to specialise FC, MCD, MW or HM, those recruited via the SUY route will normally be considered for PWO training at the earliest opportunity. More detail on the career path of both mainstream and deep specialist Warfare officers is at Annex 50B. In addition to the criteria earlier in this Chapter, prior to selection by the FSB, candidates must have achieved the following:
A valid Bridge Experience Certificate (BEC). The award or renewal of this Certificate should be communicated to the SUY Recording Authority. The tasks to be performed and the Certificate itself are contained in the Bridge Experience Task Book which is issued to relevant candidates by the Warfare (GS) mainstream SUY Recording Authority at the Maritime Warfare School (MWS). The Certificate will remain valid for 3 years from the date of award or renewal (the BEC requirement is not required for those candidates seeking promotion to the RN Police, O, ATC and AV specialisations). Once the BEC has been obtained, potential SUY candidates are to ensure that they maintain Rule of the Road currency.

Four years' sea service since the age of 17½ (or date of entry if later).

Passed the appropriate Professional Qualifying Course for Petty Officer and have had 1 year's sea service in the actual performance of senior rate duties. These criteria may be waived by NAVY PERS-BM WAR OF SO2 only when in the best interests of the Service eg. when considering Front Line Service specialisations unable to complete sea service.

Intelligence Specialisation. Successful completion of the Naval Intelligence Aptitude Board (NIAB) at the Joint Intelligence Training Group (Naval Intelligence Division), JFC Chicksands, prior to attending the AIB (candidates who have successfully completed the Joint Maritime Intelligence Course (JMIC) are not required to undertake NIAB). Candidates will normally be from the Warfare or RM Combat Intelligence/Communications Technician branches, but those from other branches able to demonstrate the necessary aptitude at NIAB may go forward to AIB and FSB as Intelligence candidates.

X(HM) Sub-Specialisation. If a potential candidate has completed the 'H2' course as part of the POSR/HM career course, this foundation degree will satisfy the educational requirements to join the Officer Corps in the X(HM) specialisation prior to attendance at BRNC and IWOC. The individual will then have to complete HM(M) course to achieve TPS as a X(HM) Officer. If the candidate has completed the forecaster’s course as a rating, this foundation degree will satisfy the educational requirements to join the Officer Corps in the X(HM) specialisation prior to attendance at BRNC and IWOC. The individual will then have to complete HM(H) course to achieve TPS as a X(HM) Officer. All candidates will follow the core Warfare training pipeline and will undertake further specialist training on successful completion of IWOC.

RN Police Specialisation. (For RM Police Troop, see Para 5028 m sub para (4).) Divisional Officers and the Branch/Career Manager should consult with the SUYRA (RN Police) and RNP Spec Advisor (WO T&R HQ PM(N)) on potential RN Police and RM Police Troop Officer candidates’ career development. If potential candidates cannot be employed in any of the qualifying employment areas below, Provost Marshal (Navy) (PM(N)) is to be consulted for a waiver which will only be granted in exceptional circumstances and in the best interests of the Service. In addition to the other criteria in this Chapter, prior to selection by the FSB, candidates must have:
(a) Successfully completed the Serious Crime Investigations Course (SCIC).

(b) On promotion to RPO, been employed in the RNP SIB for a minimum of 12 months and at sea for a minimum of 12 months.

(7) Where a candidate demonstrates outstanding potential for commission to RN Police Officer, they may be subject to the RNP SUY fast track route to RPO as detailed below:

(a) A RNP SUY candidate who has served on a sea going ship as a LH(Police) and who is recommended for promotion may be assigned to a complement RPO position (RNP SIB or sea). Candidates who are provisionally selected under this arrangement are to be assigned to an appropriate position and rated Acting RPO.

(b) A LH(Police) advanced under this arrangement is to be confirmed as an RPO at the end of 2 years' service. If not recommended, or the candidate fails to successfully complete the AIB and SCIC, or if found unsuitable before the end of 2 years, they will revert to their substantive rate, unless selected for standard promotion being eligible for subsequent promotion to RPO in the normal course.
1. Identified as potential RNP Suy candidate by 2 I/C Tng Wng and 2 I/C ATS at DSPG.

1. Assigned to RNPHQ for a minimum of 18 months in order to complete LReg Task Book, LRLC, Driver Training, Unit Custody Staff Course, First Aid Course and Apprenticeship Scheme.
   2. To be employed in Enquiry Team, Discipline Office and where possible RNP SIB.
   3. At 9 months issue VCIC study material (minimum of 3 months study required).
   4. NPM to be mentor.

1. Successfully complete VCIC (12 months o/c of RNPHQ).
   2. Complete LReg Sea PJT's.
   3. Successfully complete SRLC.

1. Assigned to sea as an LReg for a period of 12 months.
   2. NPM to be mentor.
   3. Option to attend AIB.

1. Assigned to RNP SIB for 12 months as ARPO.
   2. Successfully complete AIB and SCIC. If unsuccessful revert to substantive rate and be removed from fast track process (unless selected for standard promotion being eligible for subsequent promotion to RPO in the normal course).
   3. Complete sea PJT's.
   4. DOIC RNP SIB to be mentor.

1. Assigned to sea for a period of 12 months.
   2. On completion of sea service assigned to RNP SIB/NPM.
   3. NPM/DOIC to be mentor.

1. When fully qualified, candidates are eligible for selection by the FSB.
c. **Warfare Branch – Submarine Service**

(1) The rules for those wishing to be Warfare officers (SM) are as in Para 5028 sub para a. and sub para b. Candidates are taken from Warfare Branch specialisations, including Submarine Coxswains. Task Books will be issued to all new candidates by the Warfare (SM) SUY Recording Authority at the RNSMS.

(2) Prior to selection by the FSB, candidates must have a valid Submarine OOW Experience Certificate in any class of submarine, which is to be communicated to the SUY Recording Authority. Once this certificate has been obtained, potential SUY candidates are to ensure that they maintain Rule of the Road currency.

d. **Warfare Branch - Fleet Air Arm: Observer, Aviation (AV) and Air Traffic Control (ATC) Specialisations.** Prior to selection by the FSB and before attendance at the AIB, ratings/other ranks wishing to be considered for Observer duties must have successfully completed Flying Aptitude Testing and Observer grading. Results of aptitude tests and grading are to be forwarded to the FAA SUY Recording Authority (FSRA), copied to NAVY CSAV (for the attention of Pipeline Manager SO2). SUY Observer, ATC and AV candidates must also meet the following criteria:

(1) For Observer – have achieved Certificate of Competence in either ASW or CDO Aircrewman (ACMN) roles.

(2) For ATC – have passed the Joint Air Traffic Controllers’ Course in all disciplines and have subsequently achieved ATC validations in ADC/PAR/RA and RD. Candidates who are not professionally qualified through a lack of currency in the ATC disciplines may be considered by NAVY PERS-BM AV SO1 in consultation with FLEET AV SO1 ATC for selection to ATC. However, such cases will be considered on their merits and the overriding factor will be the requirements of the branch.

(3) For AV - have experience of working in an aviation related field that enables them to carry out a role normally undertaken by an SUY AV officer. Ratings/other ranks not from a FAA Warfare or AE branch should seek clarification of their eligibility from the FAA SUY Recording Authority at the first instance.

e. **SUY Observer Age Limits.** Notwithstanding Para 5021, the upper age limit for the SUY Observer specialisation is 34 years at the commencement of training at BRNC.

f. **RM Candidates for SUY Observer/AV Duties.** RM candidates selected for SUY Observer/AV duties will enter BRNC and if successful will pass out as an RN officer.

g. **Engineering Branch - General.** With the exception of the TM specialisation, the only avenues for promotion to Engineer officer is via the routes at Annex 50J.
h. **Marine Engineering (ME) or (MESM).** The minimum requirements to apply to the AIB are as follows:

1. Educationally qualified (see Para 9618).
2. Recommended by their CO.
3. Prior to selection by the FSB, in addition to the general criteria in this Chapter and Annex 50J, candidates must also have as a minimum, 3 years’ service since being rated POET(ME), 2 years associated with maintenance tasks.

i. **Fleet Air Arm (AE) (M) or (AV).** Candidates must have served for not less than 3 years since being rated POAET of which 2 years must be in positions associated with aircraft maintenance, in a sea position, front line squadron or a second line squadron which includes front line tasking. POAETs will only be selected for SUY in exceptional circumstances.

j. **Weapon Engineering (WE) or (WESM).** Candidates must have served for at least 3 years since being rated Petty Officer of which 2 years must be sea going service or service in authorised complement positions.

k. **CIS Source Branch.** Source Branch CIS Senior Ratings, who have not cross trained to ET(WE)CIS/CISSM will follow a route to SUY WE C or SUY WESM C extraction.

l. **Training Management (TM) Candidates.**

1. TM candidates must have an honours degree, or be in the process of gaining an honours degree, that is recognised in the UK.
2. Candidates will not normally be able to attend the AIB until they have received their degree results in writing. Only in exceptional circumstances, and with the approval of the relevant Branch Manager, will candidates be permitted to attend the AIB without written evidence of their degree results. It should be noted that entry into the Officer Corps will be on production of either the degree certificate or a document containing the candidate’s final results.

m. **Logistics Branch.** Prior to selection by the FSB:

1. **Logistic Source Branch Candidates.**
   a. Must be at least a confirmed Petty Officer.
   b. Must have served for at least one assignment in a ship or establishment or on a staff where they are to be reported on by an officer of the Logistics Branch. Where a candidate is educationally qualified but has not served as above, the fact is to be reported in writing by the rating’s CO to NAVY PCAP-CM OR LOGS SO2 who will arrange an appropriate assignment.
(2) **Royal Navy Welfare (RNW) SUY Candidates.**

(a) Must have served for not less than 3 years in a specialist welfare casework position within NS FPS since passing the Defence Specialist Welfare Workers Course (DSWWC).

(b) Must have passed the NS FPS Professional Board.

Prior to attending BRNC:

(c) Candidates must hold a Degree in Social Work (Annex 50E Para 6) and be registered as a Social Worker with Social Work England.

(3) **Transferees from other Branches.**

(a) Must be at least a confirmed Petty Officer or Sergeant RM.

(b) Must apply to the Logistics Branch Manager, who will then arrange for an interview to be conducted to ascertain motivation towards, and suitability for, SUY candidature in the Logistics Branch.

(c) Must conduct a series of acquaints with Logistics departments, both at sea and ashore, in order to widen their knowledge of the branch and demonstrate to the FSB their ongoing commitment to the Logistics Branch. Further guidance on the requirement for acquaints and reporting will be provided by the Logistics Branch SUY RA.

(4) **Age Waivers.** As always, no one route will suit all circumstances and age waivers for younger SRs to be considered SUY candidates, or older JRs to be considered as UY candidates, can be made on a case by case basis. Age waiver applications are to be applied for by the DO of the potential candidate to the Logistics Branch Manager, via the Logistics UY/SUY RA.

n. **Royal Marines and Royal Marines Band Service.**

(1) In order to be considered for SCC extraction, RM and RMBS candidates must have served not less than 1 year as a substantive Corporal and meet all the criteria at Para 5022. For consideration as a candidate for the SUY scheme, individuals must have served not less than 1 year as a substantive Sergeant and meet the criteria at Para 5021.

(2) **Royal Marines Band Service.** SCC(B) candidates must also have obtained a LRSM/LRAM Conducting (Military Band) Diploma prior to attendance at the AIB and have qualified in all parts of the Bandmaster’s examination. Recognised music diplomas are an acceptable alternative to two GCSE passes for SCC (B) candidates only.
SBS(SCC). Only Swimmer Canoeist ranks will be considered for SBS (SCC) commissions and are required to be recommended by CO SBS. Generally, candidates will be selected for commissions from WO2 or CSgt rank to meet the pre-requisite SF experience requirement (although exceptions can be made to meet the needs of UKSF).

RM Police Troop. The rules at Para 5028 b sub para (6) apply equally to RM Police Troop candidates wishing to be considered for RN Police SUY. However, the sea service requirement (Para 5028 b (6) sub para (b)) is to be substituted with 12 months’ service as a Detachment Commander. This period may be accumulated.

QARNNS. In-Service candidates must hold a Sub part 1 or 2 registration with the Nursing and Midwifery Council (NMC) and have at least 2 years’ appropriate clinical experience since becoming a confirmed Leading Hand. At the discretion of the QARNNS Recording Authority, candidates may be deferred when there are already too many nominations or when, in the Recording Authority’s judgement and with the agreement of the CO, a candidate is not yet ready to attend the AIB.

Medical Services (MS).

MS officer candidates may be selected from any specialisation of the Medical and Dental branches or QARNNS or, exceptionally, as a sideways entry but all must be at least a confirmed Leading Hand or Corporal RM.

Sideways Entry Candidates must apply in writing to the Medical Branch Manager who will then arrange for an interview to be conducted to ascertain motivation towards and suitability for service as an MS officer. Candidates will undertake a series of acquaints with Medical departments and organisations, in order to widen their knowledge of the branch and demonstrate to the FSB their ongoing commitment to MS. Further guidance on the requirement for acquaints and reporting will be provided by the MS branch SUYRA.

Exceptionally, MS officers may be recruited as direct entry officers from civilian applicants for specific posts identified by the Branch Manager, such as an Environmental Health Practitioner.

AIB

The process for attendance at AIB is described at Section 1. Candidates may appear before the Board in advance of achieving all the pre-selection qualifications provided they expect to be fully qualified within 12 months of attending the AIB. Candidates for TM officer will not normally be able to attend the AIB until they have received their degree results in writing. Only in exceptional circumstances, and with the approval of NAVY PERS-CM ENG TMSO1, will such candidates be permitted to attend the AIB without written evidence of their degree results.
5030. **Final Selection Board (FSB)**

a. The names of all the candidates considered suitable for officer entry by the AIB are passed to SUY/UY Recording Authorities who will arrange FSBs for the next appropriate BRNC or CTCRM entry. Recording Authorities are essential members of the FSBs as they oversee the progress of each SUY/UY candidate and can advise on their preparation and achievement. Most FSBs include the appropriate Branch Manager and, in some cases, a Career Manager. These officers together with branch, arm and specialisation specific personnel are important members of the relevant Board.

b. In making their selections, the Board takes into account the candidate’s Service record, performance at the AIB, professional aptitude testing (where appropriate), appraisal reports and previous trade experience in relation to the employment needs of the officer specialisation. The following should be noted:

(1) Selection Boards are required to select suitable ratings for promotion to officer, based primarily on their merit to meet the numerical branch and, if appropriate, specialist requirements. The requirement for this selection is also derived from the Service need which may, on occasion, limit the extraction from a donating branch in order to maintain sustainability of that branch. Merit is defined as suitability and capacity and having sufficient experience to be employed in at least the next higher rank. Therefore, promotion to officer is not awarded for current and previous good performance. Factors such as consistency of success in delivery (especially in the face of particular challenges), leadership and management acumen, accomplishment with people, ability to make things happen, ability to think at a level above the peer group, potential flair for command and future employability in both specialist and broader assignments all constitute merit.

(2) Selection is primarily based on merit which includes factors such as seniority, experience and time to serve. Although the RN is exempt from the Age Discrimination legislation, it would not be proper to take account of age alone as a factor in selection. Although legitimate factors such as seniority, experience and time to serve are, in many cases, linked to age, it is important to note that they are separate considerations in selecting candidates. For example, if there is a Service requirement that SUY candidates need to serve for a particular period in order to be capable of qualifying and serving up to a certain level, then age is a legitimate factor. Although it is likely to result in the exclusion of older candidates, this will be on the grounds they have insufficient time left to serve to meet an important Service requirement, and not their age alone. Similarly if, for demonstrable branch structural reasons, it is important to maintain a through flow of personnel, it may be appropriate to take into account length of remaining service (which may be determined by age) as a factor in candidate selection provided that other factors such as quality and experience are also taken into account. In other words, selection should not be made based on age, but rather merit together with the justifiable requirements and best interests of the Service.
(3) FSBs are to conduct their business in accordance with Defence Diversity and Inclusion requirements (see Chapter 30).

c. Provided that they have passed the AIB, all fully qualified SUY/UY and SCC candidates will be considered on every occasion until they are promoted, cease to be eligible, or after five years when an AIB pass is no longer valid or advised by the FSB that their prospects in relation to other candidates suggests their candidature be terminated. As the nature of the various SUY/UY FSBs varies depending on the specialisation in question, the SUY/UY and SCC FSB feedback process is to be standardised in a similar way to officer Promotion Boards and the same descriptors are to be used, as follows:

(1) **A.** Candidates who, in comparison with others of their branch and rank, are ready for selection and broad employment at this time;

(2) **B+.** Candidates who, in comparison with others of their branch and rank do not justify selection this time but who stand every possibility, on current reporting, of being assessed **A** at the next board.

(3) **B.** Candidates who, in comparison with others of their branch and rank, do not justify promotion this time but who are judged to have the potential to become serious contenders for promotion in the next 2 years.

(4) **C.** Candidates who are not currently showing the potential for promotion in the next 2 years.

(5) **C+.** Candidates who are nearing retirement for whom, for the period of their remaining service, no opportunities for employment in the higher rank currently exist, but who would otherwise have been graded A–B.

d. Amplifying detail should be added as appropriate. Recording Authorities should then record FSB results in order to inform FSBs of the candidate’s recent FSB results. This process should make it possible to provide appropriate advice to qualified SUY/UY and SCC candidates in order to manage their expectations and enable better informed career decisions such as whether to persevere as an SUY/UY; consider an alternative specialisation or suspend their candidature.

e. **SUY/SCC Selection Process Timetable.** In order to provide sufficient time to relieve nominees within normal assignment notice, the timetable for the SUY/SCC selection process to fit in with the BRNC and CTCRM entries is at Table 50-4 (dates are latest for completion of action).
Table 50-4. SUY/UY/SCC Selection Process Timetable

</tbody>
</table>

f. FSBs, including additional FSBs, are to be convened at least six months before the relevant BRNC entry; the CTCRM FSB is held in March of the previous year (13 months’ lead-time). If appropriate, FSBs may need to consider more than one entry (eg. May and Jul). Additional FSBs will be required if there is a need to review the candidates selected at an earlier FSB or if circumstances change, for example, new candidates for available spaces. Supplements to the BRNC entry signals will be issued as necessary by CNPS/PPLAN SWPO SO1.

g. Following FSBs, Recording Authorities e-mail (or signal) the list of candidates selected for the relevant entries to BRNC to CNPS/PPLAN SWPO SO1, copy to relevant Branch Manager. A co-ordinated nomination signal will be sent by CNPS/PPLAN SWPO SO1 informing BRNC, relevant Branch and Career Managers and all nominated candidates six months before the relevant BRNC entry point.

h. SCC Recording Authorities e-mail (or signal) the list of candidates selected for the CTCRM Apr entry to CTCRM, copy to relevant Branch and Career Managers.

5031. Delays in attending BRNC and CTCRM

Occasionally, Service requirements may result in SUY and SCC candidates starting BRNC or CTCRM later than the entry date that is shown provisionally on the FSB signal. In such cases, individuals will not be entitled to any further backdated seniority on becoming an officer.
5032. Retirement Ages – SUY/SCC Candidates
For details on officer retirement, see Para 5427.

a. Retirement age regulations for SUY/SCC officers promoted before 1 Jan 01 are contained in Chapter 54.

b. SUY and SCC who were promoted to the Officer Corps from 1 Jan 01 to 31 Mar 15, and cannot complete a full IC, will retire on their officer rank related retirement date or on the day that their former rating/rank career or engagement was due to end, whichever is later.

c. SUY/SCC officers promoted from the ranks on or after 1 Apr 15, with the exception of those on the SUY(WO) scheme, see sub-para d, are no longer subject to rank related retirement age policy and will retire at the end of their commission or at age 55, whichever is earlier.

d. Warrant Officer SUYs promoted from the ranks as SUY(WO) will retire at the end of their commission or at age 60, whichever is earlier.

ANNEX 50B
WARFARE SUY OFFICERS - CAREER EXPECTATIONS

1. Mainstream Warfare SUY Officers' Career Path

a. The mainstream X SUY officer will complete an 11 week course at BRNC Dartmouth. The first week will be an induction week and include Physical Training, English Language and Essay Structure Lessons, River Training (Single Screw), Leadership Seminars and other Academic Lessons. Following that, SUYs will spend the next 10 weeks fully integrated with their Direct Entry counterparts undertaking the INT(O) Marinisation Phase. This includes Maritime Operations, Academics, Twin Screw Picket Boats, Navigation, Maritime Leadership Development (MLD), the Maritime Assessed Leadership Exercise (MARL) and a passing out parade. They will then remain at BRNC for 15 weeks of professional training, Initial Warfare Officers (Foundation) Course (IWO(F)), before proceeding to the Maritime Warfare School to attend a 4 week navigation course (including WECDIS Course and Initial Warfare Officers Navigation (IWO NAV)). This will be followed by Specialist Fleet Training (SFT), which will last about 9 months (to include 900 hours of bridge watch-keeping). This period at sea when coupled with the training prior to the award of the Bridge Watch-keeping Certificate (BWC) will meet the needs of Standards of Training Certification and Watch-keeping (STCW). Mainstream X SUY officers will then be assigned to the 15 week Initial Warfare Officers' Course (IWOC) at the Maritime Warfare School during which they will be examined prior to the award of the Navigational Watch Certificate (NWC). The certificate will permit an individual to keep an unsupervised navigational watch of a vessel in a benign warfare environment once Platform Endorsed (PE’d). Failure to achieve the NWC will result in withdrawal from training.

b. During the IWOC, the mainstream X SUY officer may be selected to specialise SM, especially if from a submarine background, and in a very few cases HM or FC. The vast majority, however, will proceed to their first ship for watch-keeping duties, with the aim of being selected for PWO training at the earliest appropriate opportunity. Early on in their First Complement Assignment (FCA), mainstream SUY officers will be required to gain a PE for the class of warship in which they are serving and then within their first year gain their Bridge Warfare Qualification (BWQ). The latter will permit an individual to keep an unsupervised navigational watch in a busy warfare environment and to subsequently take Ops Control as a Warfare Officer in the Operations Room.

c. Unlike direct entry officers, there is not the option to specialise as a Pilot or Observer, and only in exceptional circumstances train as an MCDO, (in particular if they have an MCD or MW background as a Rating), after the FCA. This is because there is insufficient time to specialise and subsequently be employed in specialist assignments before proceeding on the PWO course. Therefore, after one, two or occasionally three complement assignments, the majority at sea, X mainstream SUY officers will follow the PWO route. This usually comprises the Initial Command and Staff Course (Maritime) (ICSC(M)) and the PWO course and this package lasts about 12 months.
d. During the PWO course, all PWOs are trained generically and are no longer streamed, although they will be assigned to their first ships in order to achieve Role Performance Standard (RPS). Limited options may be available to subsequently train as a PWO(N). Following at least one seagoing warfare assignment and achieving OPS, most PWOs have the opportunity to serve ashore. This is likely to be the first shore assignment since promotion to the Officer Corps apart from periods of shore-based training. Mainstream X SUY officers will be competing for promotion on merit with other warfare officers on merit but they have a much greater opportunity to achieve higher rank and a more diverse career than that available to their deep specialist peers. This includes sea command. Competition is strong, however, so only the most able are likely to emerge successfully from the selection process.

e. MCD ratings selected to enter the officer MCD Officer cadre will be expected to remain in that branch, although PWO training will remain an option in consultation with the career manager. The MCDO cadre has opportunities to promote to OF3, but officers require the PWO qualification to promote to OF4 and beyond.

2. Deep Specialist Warfare SUY Officers Career

a. There remains a limited deep specialist requirement for officers recruited via the SUY route for Intelligence, AV and RN Police specialisations. The requirement for officers in these specialisations is relatively small and assignments and promotion prospects more limited, so ratings who are considering this path may wish to discuss these issues with the appropriate Recording Authority (listed at Annex 50A) prior to requesting to become an SUY. There is no requirement for Deep Specialist SUY candidates to obtain a BWC or eyesight waiver.

b. Deep Specialist X SUY officer will join BRNC for one term phase a very limited academics package before taking up their first complement assignment. Although they have a liability for sea service and Operational Tours, the majority of their employment will be ashore within their specialist area with very occasional opportunities for broadening. Officers of the AV and RN Police specialisations will not receive any training in watch-keeping and will not be employed as an OOW. There is a requirement for only 2 RN Police Commanders (currently) and no OF5s or above. With promotion to requirement the main driver after merit, the prospects for promotion beyond Lieutenant Commander are extremely small for deep specialist warfare officers.

c. The General Service Warfare Intelligence (GSX INT) sub-specialisation, which subsumed the Electronic Warfare Deep Specialisation, was established in 2009. The GSX INT sub-specialisation has a strength of approximately 160 officers and continues to evolve at the heart of the Information Warfare epoch. SUYs will compete for promotion alongside their direct and sideways entry counterparts who have specialised after joining the Trained Strength. Deployable, sea and shore liability is increasing as intelligence is mainstreamed in RN and Joint operations and broad career profiles, including Common Appointments, are possible. GSX INT officers (including SUYs) have the opportunity to reach OF5 rank based upon merit.
3. **Warfare SUY (Warrant Officer) Officers Career**

   a. There is a limited requirement for deep specialist officers to be promoted via the SUY(Warrant Officer) route. As the requirement for officers in these specialisations is relatively small, however, and assignments and promotion prospects more limited, ratings who are considering this path may wish to discuss these issues with the appropriate Recording Authority (listed at Annex 50A) requesting to become SUY(WO). There is no requirement for SUY(WO) candidates to obtain a BWC or eyesight waiver.

   b. SUY(WO) officers will join BRNC for one term phase with a limited academics package before taking up their first complement assignment. They will then be assigned to the Initial Command and Staff Course (Maritime) (ICSC(M)) and the Joint Operational Planning Course before taking up their first complement assignment. A typical career is at Figure 50B-1.

   ![Figure 50B-1. Typical SUY(WO) Career Path](image)

   c. Although they have a liability for operational deployments, the majority of their employment will be ashore within their specialist area with very occasional opportunities for broadening. With promotion to requirement the main driver after merit, the prospects for promotion beyond Lieutenant Commander are extremely small for deep specialist Warfare officers.

4. **Acknowledgement**

   Extracts from paragraphs 1 and 2 above, at Appendix 1, Appendix 2 and Appendix 3 to this Annex respectively, are to be signed by all potential X SUY officers.
APPENDIX 1 TO ANNEX 50B

ACKNOWLEDGEMENT OF MAINSTREAM SUY WARFARE OFFICERS’ CAREER IMPLICATIONS

1. The Mainstream X SUY officer will complete an 11 week course at BRNC Dartmouth. The first week will be an induction week and include Physical Training, English Language and Essay Structure Lessons, River Training (Single Screw), Leadership Seminars and other Academic Lessons. Following that, SUYs will spend the next 10 weeks fully integrated with their Direct Entry counterparts undertaking the INT(O) Marinisation Phase. This includes Maritime Operations, Academics, Twin Screw Picket Boats, Navigation, Maritime Leadership Development (MLD), the Maritime Assessed Leadership Exercise (MARL) and a passing out parade. They will then remain at BRNC for 15 weeks of professional training, Initial Warfare Officers (Foundation) Course (IWO(F)), before proceeding to the Maritime Warfare School to attend a 4 week navigation course (including WECDIS Course and Initial Warfare Officers Navigation (IWO NAV)). This will be followed by Specialist Fleet Training (SFT), which will last about 9 months (to include 900 hours of bridge watch-keeping). This period at sea, when coupled with the training prior to the award of the Bridge Watch-keeping Certificate (BWC), will meet the needs of Standards of Training Certification and Watch-keeping (STCW). Mainstream X SUY officers will then be assigned to the 15 week Initial Warfare Officers’ Course (IWOC) at the Maritime Warfare School during which they will be examined prior to the award of the Navigational Watch Certificate (NWC). The certificate will permit an individual to keep an unsupervised navigational watch of a vessel in a benign warfare environment once Platform Endorsed (PE’d). Failure to achieve the NWC will result in withdrawal from training.

2. During the IWOC, the Mainstream X SUY officer may be selected to specialise SM, especially if from a submarine background, and in a very few cases HM or FC. The vast majority, however, will proceed to their first ship for watch-keeping duties, with the aim of being selected for further training, in the main PWO training, at the earliest appropriate opportunity. Early on in their First Complement Assignment (FCA), mainstream SUY officers will be required to gain a PE for the class of warship in which they are serving and then within their first year gain their Bridge Warfare Qualification (BWQ). The latter will permit an individual to keep an unsupervised navigational watch in a busy warfare environment and to subsequently take Ops Control as a Warfare Officer in the Operations Room.

3. Unlike direct entry officers, there is not the option to specialise as a Pilot or Observer, and only in exceptional circumstances train as an MCDO, (in particular if they have an MCD or MW background as a Rating), after the FCA. This is because there is insufficient time to specialise and subsequently be employed in specialist assignments before proceeding on the PWO course. MCD ratings selected to enter the officer MCD cadre will be expected to remain in that branch, although PWO training will remain an option in consultation with the Career Manager. Therefore, after one, two or occasionally three complement assignments, the majority at sea, X Mainstream SUY officers will follow the PWO route. This usually comprises the Initial Command and Staff Course (Maritime) (ICSC(M)) and the PWO course, a package lasting about 12 months.
4. During the PWO course, all PWOs are trained generically and are no longer streamed, although they will be assigned to their first ships in order to achieve Role Performance Standard (RPS). Limited options may be available to subsequently train as a PWO(N). Following at least one sea going warfare assignment and achieving OPS, most PWOs have the opportunity to serve ashore. This is likely to be the first shore assignment since promotion to the officer corps apart from periods of shore-based training. Mainstream X SUY officers will be competing for promotion with other warfare officers on merit but they have a much greater opportunity to achieve higher rank and a more diverse career than that available to their deep specialist peers. This includes sea command. Competition is strong, however, so only the most able are likely to emerge successfully from the selection process.

5. I hereby sign that I have read the above and acknowledge that a career as a mainstream Warfare Officer involves successive sea assignments (usually until reaching mid seniority Lt Cdr) and that the GS Arm career path will be OOW followed by PWO, even if selected for another specialisation during the early stages of a career as an officer.

Signed ........................................................... Name ..........................................................

Rank/Rate ..................................................... Date ..........................................................

This form is to be forwarded to BRNC for inclusion in the SUY officer’s E190.
1. There is a limited requirement for deep specialist officers promoted via the SUY (Warrant Officer) route. As the requirement for officers in these specialisations is relatively small, however, and assignments and promotion prospects more limited, ratings who are considering this path may wish to discuss these issues with the appropriate Recording Authority (listed at Annex 50A) before requesting to become an SUY(WO). There is no requirement for SUY(WO) candidates to obtain a BWC or eyesight waiver.

2. SUY(WO) officers will complete an 11 week course at BRNC Dartmouth. The first week will be an induction week and include Physical Training, English Language and Essay Structure Lessons, River Training (Single Screw), Leadership Seminars and other Academic Lessons. Following that, SUY officers will spend the next 10 weeks fully integrated with their Direct Entry counterparts undertaking the INT(O) Marinisation Phase. This includes Maritime Operations, Academics, Twin Screw Picket Boats, Navigation, Maritime Leadership Development (MLD), the Maritime Assessed Leadership Exercise (MARL) and a passing out parade. They will then be assigned to the Initial Command and Staff Course (Maritime) (ICSC(M)) and the Joint Operational Planning Course before taking up their first complement assignment. A typical career path is at Figure 1.

![Figure 50B App2-1. Typical SUY(WO) Career Path](image)

3. Although SUY(WO) scheme officers have a liability for operational deployments, the majority of their employment will be ashore within their specialist area with very occasional opportunities for broadening. With promotion to requirement being the main driver after merit, the prospects for promotion beyond Lieutenant Commander are extremely small for deep specialist Warfare officers.

4. I hereby sign that I have read the above and acknowledge that a career as a deep specialist Warfare officer may involve sea assignments or Loan Foreign Service (LFS).

This form is to be forwarded to BRNC for inclusion in the SUY officer’s E190.
ANNEX 50C

GENERAL SERVICE AND SUBMARINE ARM ENGINEER SUY OFFICERS – CAREER EXPECTATIONS

1. General
   a. Marine and Weapon Engineer SUY officers’ career expectations and reach are affected primarily by the age of the officer on commissioning.

   b. Broadly speaking, those aged 35 and under on commissioning should have expectations similar to their Graduate Entrant contemporaries, although the number of SUY promotions to the rank of Commander and above will clearly be proportionally fewer. Those aged 36 or over on commissioning will probably have slightly more restricted opportunities, especially in terms of undertaking a Charge Assignment. Their chances of promotion to Commander will be reduced.

2. Engineer SUY Officers’ Career Expectations – 35 and Under on Commissioning
   a. On completion of Initial Officer Training at BRNC and the Lead Schools, these officers will be career managed in the same way as graduate entrants. They are required to obtain a “recommendation for Charge” in their first complement assignment, before undertaking the recognised foundation stage career through a range (2 to 4 in number) of core branch and broadening assignments. Once selected for promotion to Lieutenant Commander they should reasonably expect to complete a Charge Assignment. Progress thereafter is merit based.

   b. Late promotion to Lieutenant Commander may preclude selection for a Charge Assignment. The Career Manager makes this discretionary decision, based primarily on the availability of Charge Assignments whilst balancing the Service requirement, career development needs and personal preference.

3. Engineer SUY Officers’ Career Expectations – 36 and Over on Commissioning
   a. Those officers commissioning over the age of 36 will invariably be slightly more limited in their long-reach career opportunities. Whenever possible, they will be employed in the same way as their younger counterparts.

   b. Where it is unlikely that the individual, on account of their age on commissioning and/or their age of promotion to Lt Cdr will have time to state a credible case for promotion to Commander, there may still be sufficient opportunity to conduct an SO2 Charge appointment subject to the Career Manager’s discretion iaw Para 2b.

   c. Where it is unlikely that an individual, on account of their age on commissioning will have an opportunity to promote to Lt Cdr and complete a Charge Assignment, special career progression arrangements may be considered, depending on the Service need and in particular the availability of First Complement Assignments.
d. Anyone advising a potential CW candidate likely to be selected for promotion and commissioning aged 36 or over should consult with the relevant Branch or Career Manager before raising CW papers. This will ensure that the individual concerned is given accurate advice on their career opportunities if selected for promotion.
ANNEX 50D

AIR ENGINEER SUY OFFICERS - CAREER EXPECTATIONS

1. General

   a. Air Engineer SUY officers’ career expectations and reach are affected primarily by the age of the officer on commissioning.

   b. Broadly speaking, those aged 35 and under on commissioning should have expectations similar to their Graduate Entrant contemporaries, although the number of SUY promotions to the rank of Commander and above will clearly be proportionally fewer. Those aged 36 or over on commissioning should probably have slightly more restricted expectations, especially in terms of opportunity for a Charge Assignment.

2. Age 35 and Under on Commissioning

   a. On completion of Initial Officer Training at BRNC and DCAE, these officers will be career managed in the same way as graduate entrants. They are required to obtain a ‘recommendation for Charge’ in their first complement assignment, before undertaking the recognised Foundation Stage Career through a range (2-4 in number) of core Branch and broadening assignments. Once selected for promotion to Lieutenant Commander they can reasonably be expected to complete a Charge Assignment.

   b. Late promotion to Lieutenant Commander may preclude selection for a Charge Assignment. The Career Manager makes this discretionary decision, based primarily on the availability of Charge Assignments whilst balancing the Service requirement, career development needs and personal preferences.

3. Aged 36 and over on Commissioning

   a. Those officers commissioning over the age of 36 will invariably be slightly more limited in their career opportunities. Whenever possible, they will be employed in the same way as their younger counterparts.

   b. Where it is unlikely that the individual, on account of their age on commissioning and/or their age of promotion to Lt Cdr, will have time to state a credible case for promotion to Commander, there may be limitations in their ability to complete Charge Assignments, particularly in specialisations where these assignments are few.

   c. Where it is unlikely that an individual, on account of their age on commissioning, will have an opportunity to be promoted to Lt Cdr and complete a Charge Assignment, special career progression arrangements may be considered, depending on the Service need and in particular the availability of AAEO/DAEO First Complement Assignments.
d. The Line Manager or anyone advising any potential CW candidate likely to be selected for promotion and commissioning aged 36 or over should consult with the AE Branch or Career Manager before raising CW papers. This will ensure that the individual concerned is given accurate advice on their career opportunities if selected for promotion.
ANNEX 50E

LOGISTICS SUY OFFICERS

1. **General**
   
a. Logistics SUY officers’ career expectations and reach are affected primarily by the age of the officer on commissioning.

b. Broadly speaking, those aged 35 and under on commissioning should have expectations broadly similar to their Graduate Entrant contemporaries, although the number of SUY promotions to the rank of Commander and above will clearly be proportionally fewer. Those aged 36 or over on commissioning should probably have slightly more restricted expectations, especially in terms of the opportunity for a Charge Assignment, and prospects of promotion to Commander will be slight.

c. Logistics SUY officers will complete an 11 week course at BRNC Dartmouth. The first week will be an induction week and include Physical Training, English Language and Essay Structure Lessons, River Training (Single Screw), Leadership Seminars and other Academic Lessons. Following this week, Logs SUY officers will spend the next 10 weeks fully integrated with their Direct Entry counterparts undertaking the INT(O) Marinisation Phase. This includes Maritime Operations, Academics, Twin Screw Picket Boats, Navigation, Maritime Leadership Development (MLD), the Maritime Assessed Leadership Exercise (MARL) and a passing out parade.

2. **Age 35 and Under on Commissioning**
   
a. On completion of Initial Officer Training at BRNC and the Defence Maritime Logistics School (DMLS), these officers will be career managed in the same way as graduate entrants, with early assignments providing professional broadening. If selected for promotion to Lieutenant Commander, they should reasonable expect to complete a Charge Assignment, provided they have obtained a positive ‘recommendation for Charge’ during their previous sea assignment(s), and dependent on selection by the Logistics Charge Selection Board (LCSB).

b. Late promotion to Lieutenant Commander (ie. after nine years’ seniority or aged 43 or over), may preclude selection for a Charge Assignment. The LCSB makes this discretionary decision, based primarily on the ability of the individual and availability of Charge Assignments – whilst balancing the Service requirement, career development needs and personal preferences.
3. **Aged 36-41 on Commissioning**

Those officers aged 36–41 on commissioning will invariably need to be slightly more limited in their career expectations. They will be employed in the same way as their younger counterparts, with the caveat that they will have limited opportunities for a Charge Assignment. Normal career progression should see them promoted to Lieutenant Commander over the age of 43, which will leave them with insufficient time to state a credible case for promotion for Commander. The performance of certain officers may warrant an exception being made to this general approach.

**Note.** SUY officers who hold the substantive rate of WO1 prior to commissioning receive one year’s seniority as a Lieutenant on commissioning. For these officers the maximum age applicable is 42.

4. **Age 42 and Above on Commissioning**

Officers commissioned over the age 41 cannot proceed beyond the rank of substantive Lieutenant. Depending on the Service need, special career progression arrangements may be considered for these individuals.

**Note.** SUY officers who hold the substantive rate of WO1 prior to commissioning receive one year’s seniority as a Lieutenant on commissioning. For these officers the maximum age applicable is 43.

5. **Advice to CW Candidates**

It is crucial that prospective SUY candidates receive accurate advice on their career opportunities as Logistics Officer. Anyone advising a potential or recorded SUY candidate should ensure that the candidate understands the above information. If further information is required, advice should be sought from either the Logistics Branch or Career Manager.

6. **Royal Navy Welfare (RNW) SUY Social Work Degree Scheme (SWDS)**

a. **Eligibility.** The SWDS is open to confirmed RNW ranks who have completed a minimum of 3 years following passing DSWWC in positions associated with NS FPS specialist welfare casework. Candidates must pass the AIB and the NS FPS Professional Board prior to the FSB. If extracted, they will undertake a Social Work Degree (second and third years) at a specified university. Candidates will undertake their degree training as Senior Ratings or SNCOs.

b. **Academic Qualifications.** The minimum academic requirements for the SWDS are a Level 7 Certificate in Specialist Welfare and GCSEs at Grades A*-C (4–9) in English and mathematics or certified equivalents.

c. **Remuneration.** Whilst studying, SWDS candidates are paid at their basic salary depending on the rank/rate held. On joining BRNC, candidates will enter the officer stream and will be awarded the appropriate rank and pay.

d. **Return of Service.** See Chapter 53.
ANNEX 50F

ROYAL MARINES SCC OFFICERS - CAREER EXPECTATIONS

1. Senior Corps Commission Entry

a. All SCC candidates must have reached the minimum rank of Corporal, be aged over 26, but have a minimum of four years to serve as an officer until their retirement date from the first day of the month that their officer training is expected to commence. The minimum general educational qualifications required of a SCC candidate are four GCSEs at Grade C, or better, including English Language and Mathematics. The selection procedure for promotion to the Officer Corps follows the RN SUY boarding system; candidates attend the AIB and, if successful, are then considered by the Final Selection Board (FSB) for officer entry.

b. SCC officers are awarded an Initial Commission of twelve years (IC 12). Prior to appointment, all SCC officers must attend and pass the SCCO course, which is currently held annually between Jan and Apr each year at CTCRM. The number of commissions in the General Service (GS), the RM Band Service (RMBS) and the SBS is dictated by the requirement.

c. Candidates who fail to successfully complete the SCCO course during their selected training year and are compulsorily withdrawn from training will be managed by the policy at Para 5010.

2. SCC Employment

a. GS SCC officers are commissioned specifically to undertake roles in G1 and G4, thereon providing the bedrock of desk-level expertise at unit and headquarters’ level. SCC Officers in the RMBS and SBS will fulfil wider specialist employment within their SQ, although some positions may be within the G1/G4 field.

b. As a general rule, the Career Managers will seek to provide each SCC officer with two or three G1/G4 assignments prior to entering the OF3 promotion zone. Upon completion of initial training all SCC officers will undertake a mainstream G1 or G4 role in their first full assignment. In their second full assignment, subject to position availability and the Service’s requirements, SCC officers may compete for some broadening positions. Thereafter, a SCC officer will undertake further, more demanding, G1 and G4 assignments to build competency and experience to allow for an accurate assessment of suitability for promotion to Maj, and potential for subsequent employment in G1 and G4 positions as an SO2.

---

1 There is a preponderance of G4 positions, vice G1, and this is where officers are likely to be employed for the most-part, hence G1 being second in terms of likelihood only, not importance.
2 After 6 years as a substantive Capt.
3 MTO, QM(T), UIRO, Sqn AO are examples.
4 SO3 G4 Ops (HQ 3X), SO3 N4 Ops (CAF), AO (RMR), SO3 RCMRM (NPT(RM)) are examples.
3. **SCC Age and Promotion**

   a. Applicants for a SCC must have the recommendations from their chain of command. The younger a SCC officer is commissioned, the more time and opportunity they have to reach higher rank. As a general guide, if a rank seeks promotion to OF3, they must be commissioned by 40 years of age to avoid being Out of Zone (OOZ) for promotion (aged 47). Similarly, ranks aspiring to OF4 realistically must be commissioned by age 38 to avoid being OOZ.

   b. Promotion is based on merit and SCC officers not only compete against each other, but also against their Direct Entry peers to fill a range of positions at the next higher rank, including the mainstream G1/G4 positions.

4. **SCC Officer Attendance at ICSC(L)**
   Attendance at ICSC(L) is not assured and Career Managers will use their discretion dependent on a SCC officer’s age on promotion to OF3, balanced against the Service’s interest. The cut-off is generally 45 years of age due to there being a very slim chance of promotion to OF4 for any SCC officers of that age or older.
ANNEX 50G

UY/CC AND SUY/SCC PREREQUISITE ACTIONS FOR ATTENDANCE AT THE ADMIRALTY INTERVIEW BOARD

References:
A. BR1750A Handbook of Naval Medical Standards – Chapter 3, Article 0312
B. AIB Booklet “How to succeed and become an officer”.

1. Introduction
   This Annex details the medical and physical requirements for in-service candidates attending the AIB. This information is contained at Reference A. However, to reduce the risks of candidates attending the AIB not meeting the medical or physical fitness standards stated, all candidates are required to complete the 3-part documentation.

2. Candidate Preparation
   In preparation for attendance at the AIB, candidates should ensure that they have read Chapter 50 and Reference B. In accordance with the guidance detailed in Reference A, all candidates (specialisation applicable) are to have their eyesight examined before having their CW papers raised.

3. Medical Standard
   All candidates must have a medical category of Medically Fully Deployable (P2) when they appear before the AIB; the candidate’s medical category should be entered in Part 2 of the documentation. In addition, all candidates need to meet the medical standards mandated for their particular branch or specialisation. Part 2 of the documentation should be signed by a Medical Officer confirming that the candidate meets the medical requirements for his/her chosen branch.

4. SUY/SCC candidates who have been permanently medically downgraded at a Naval Service Medical Board of Survey, and whose retention has been approved by a Naval Service Medical Employability Board in a medical category no less than Medically Limited Deployable (P3P) (physical restriction indicated), may seek a waiver. Applications should be made to the appropriate Branch Manager, via the SUY/SCC Recording Authority and Part 2 of the documentation should be completed by the candidate’s Principal Medical Officer, and the Branch Manager, if approved. Medical waivers are not granted to RM candidates who are required to undertake full Commando training as part of their officer training.

5. If a candidate is injured, ill or medically downgraded after dispatching the 3-part documentation to the AIB they must obtain a Medical Officer’s approval that they are fit enough to complete all aspects of the Board. On arrival at the AIB, all candidates are required to complete a declaration confirming that they are either in the same medical category as stated in the 3-Part documentation or have obtained a Medical Officer’s approval if applicable.
6. **Physical Fitness**
   Before attending the AIB, all candidates must be in date for the RNFT and Part 3 of the documentation must be completed by a Physical Training Instructor. If a candidate completed the RNFT at their previous ship or establishment, the PTI at their new establishment or ship must seek verification from their previous unit before completing Part 3.

7. **Preparation and Documentation**
   The Divisional Officer should forward the 3-part documentation to the AIB, 14 days before the candidate’s interview date.
ANNEX 50H

UY/CC AND SUY/SCC AIB NOMINATION FORM

All RN and RM candidates are to be nominated by completion of this form which should be submitted to: The Commanding Officer, AIB, HMS SULTAN, and copied to the relevant Recording Authority. (RA contact details are listed at Annex 50A)

UY/CC AND SUY/SCC AIB 3-PART DOCUMENTATION

References:
A. AIB Booklet “How to succeed and become an officer”.
B. BR1750A Handbook of Naval Medical Standards (Application of the PULHHEEMS System) – Chapter 3, Article 0312.

The 3-part documentation must be completed and sent 14 days prior to attending the AIB. Failure to forward correctly completed 3-part documentation will result in the individual being unable to attend the AIB.

PART 1 - AIB Preparation Routine
(To be completed by candidate)

Name: ........................................... Rate: ......................... Service No: ..................................

Branch/Sub-Specialisation applying for: ..........................................................................................

Date of AIB: ...... /....... / ...............

I have read Reference A and understand it is my duty to prepare for my AIB. I acknowledge the requirement to obtain a Medical Officer and PT Instructor’s signature on Parts 2A & 2B respectively of this form and understand I will not be accepted for attendance at the AIB if the documentation is incorrect.

Candidate’s Signature: .......................................................... Date: ...........................................

PART 2A - Certificate of Medical Fitness
(To be completed by a Medical Officer (MO))

Medical Category: ..................................................

I confirm that the candidate meets the requirements specified in BR 1750A Article 0312 and meets the medical requirements of the branch or specialisation being applied for.

MO’s Signature: ..........................................................

Name: .......................................................... Rank/Rate: ......................... Date: .........................
Senior Upper Yardman/Senior Corps Commission candidates who are permanently medically downgraded to a category no less than MLD (P3P): (if applicable)

Waiver Approved/Declined (delete as applicable)

Branch Manager’s Signature: ..................................................

Name: ..........................................................  Rank/Rate: ......................  Date: ..........................

PART 2B - Certificate of Physical Fitness
(To be completed by a member of the Physical Training Branch)

The above named rating is in date for their RNFT.

Date RNFT conducted: ....... / ...... / ...............

Signature: ..........................................................

Name: ..........................................................  Rank/Rate: ......................  Date: ..........................

PART 3 - Certificate of Readiness
(To be completed by the Divisional Officer (DO))

I am satisfied that this 3-part documentation is complete. The above named rating is ready in all respects for the AIB.

DO’s Signature: ..........................................................

Name: ..........................................................  Rank/Rate: ......................  Date: ..........................
1. **Failure Criteria**

   a. A candidate who fails to pass Qualifying Courses or who, for whatever reason, is deemed unsuitable for continued training towards becoming an officer will be returned to their specialisation in the last substantive rate held and employment commensurate with their QC achievement. Those candidates who have been selected for promotion to the next higher rate will be promoted at the Common Promotion Date once all the pre-promotion requirements are met.

   b. Personnel failing on academic grounds, following the Training Establishments’ (TE) normal warning processes, will have the opportunity to reapply at a later date. They may apply to re-enter from the beginning of the same or via an alternative route.

2. **Rank and Pay**

   Ratings selected for any route will retain their current rate and pay throughout the training process until joining BRNC. They will not be eligible for selection to the next higher rate but will receive incremental pay awards in accordance with the regulations for their specialisation. Where the necessary qualifications cannot be achieved due to the training programme, waivers may be sought from the relevant Requirements Manager who will assess each application on its merits. On joining BRNC, candidates will enter the officer stream and will be awarded the appropriate rank and pay.

3. **Return of Service**

   All stages of training may attract a ROS and these run concurrently through each of the routes.

4. **UoP BEng** may be achieved through a Degree Apprenticeship.

CHAPTER 51
BRANCHES, ARMS AND SPECIALISATIONS

SECTION 1 – INTRODUCTION

5101. Branch, Arm and Specialisation Structures
The hierarchy of Naval Branches, Arms and Specialisations is at Annex 1A and its Appendix.

5102. Branch Management
Management of these Branches, Arms and Specialisations is conducted by a wide range of authorities. The structure of individual branches, their sustainability and their population by Naval personnel is part of the Branch Management process, coordinated by Branch Managers. A description of this process and the policies that apply to it is at Chapter 62.

5103. Branch Selection
Personnel join the Naval Service in an agreed Branch and Arm as described in Part 4 of this BR. The Branches and their respective entry standards are listed at Chapter 5.
SECTION 2 - BRANCH AND SPECIALISATION TRANSFERS - UNTRAINED STRENGTH

5104. Young Officer Transfers - General

a. Young Officers (YOs) are allocated to branches on entry to meet the Service requirement and it should not be assumed therefore that officers who fail in training or do not wish to continue in their original branch or specialisation will automatically be accepted into other branches or specialisation, even if they are strongly recommended for transfer by their Commanding Officer (CO) and/or administrative authority.

b. Opportunities for transfer are limited and all cases are considered on their merits. In reaching a decision, the Officer Training Pipeline Manager (NAVY TRG HQ-PM OFFICERS), the approving authority for branch/specialisation transfers of officers under initial training, will consider the manning position and the recruiting and entry targets, together with the training time in the branches and/or specialisations concerned. This includes P, O and ATC YOs who fail grading or request to transfer during Phase 1 Initial Officer Training at BRNC Dartmouth. Additionally, the quality and suitability of the officer for transfer and subsequent re-training will be assessed from their training record (Form E190 for RN officers) and, where required, from an interview with the Naval Advisory Board (NAB) - see Para 5739 - and/or the Career Manager.

c. During counselling, or when forwarding requests to the Officer Terms of Service Manager, authorities should avoid giving a YO the impression that they will automatically be accepted for transfer. A YO who is not being recommended should be told so. It is to be made clear to the YO that there is no automatic right to transfer intra or inter-Service, and that the needs of their present branch are paramount. Officers should be advised that their case is being referred to the Officer Terms of Service Manager for staffing to the Officer Training Pipeline Manager.

d. A major factor when considering transfer requests is the number of officers likely to commence Phase 2 professional training in both of the specialisations affected. During the early stages of Initial Naval Training, there is significant risk of being withdrawn from training or back-termed, which introduces a degree of uncertainty into the decision making process. However, once an Officer Cadet has successfully completed MARL at BRNC, there is reasonable certainty that they will complete Phase 1 training. So that a decision can be based on the best available information, transfer requests may only be submitted by Officer Cadets who have passed MARL - requests submitted prior to this point will not be considered.

e. A YO is not to be transferred to a new training pipeline ahead of receipt of formal Headquarters approval and receipt of their signed acceptance of the terms of the transfer determined by the Officer Terms of Service Manager. Only, in exceptional cases, will the Officer Training Pipeline Manager consider authorising the move of an individual ahead of completion of the formal staffing process.
f. Requests for transfer from YOs under warning will be considered on their merits.

g. Officers in a reduced medical category will not be considered for a branch transfer on the untrained strength.

h. It should be noted that transfers from the Submarine Service to General Service are unlikely to be accepted except in extremely exceptional circumstances.

5105. Young Officer Transfers during Phases 1 or 2 (Aircrew Officers up to Grading) Training – Applications

a. The YO is to complete the branch transfer application form at Annex 51D and submit this to the Officer Commanding Officer Training (OCOT), along with a supporting letter detailing the following:

(1) The reason why they wish to transfer to the branch specified.

(2) Why they feel that they are suited to the prospective branch.

(3) Details of the relevant skills and experience that they would bring to the prospective branch.

(4) The research that they have undertaken with regard to the prospective branch.

b. OCOT is to forward the YO’s application form and letter, via a covering email, to the Officer Training Pipeline Manager (NAVY TRG HQ-PM OFFICERS), advising whether or not the application is supported.

c. This process also applies to P, O and ATC YOs who fail grading or request to transfer during Phase 1 Initial Naval Training (Officer) at BRNC Dartmouth.

5106. Young Officer Transfers during Phases 1 or 2 (Aircrew Officers up to Grading) Training – Approval Process

a. On receipt of the application, the Officer Training Pipeline Manager will check that the individual is eligible to be considered for transfer and make a determination based on the Service need and available training opportunities. He/she will contact the Officer Terms of Service Manager for advice on any terms of service implications, noting that a seniority adjustment will not be necessary.

b. The Officer Training Pipeline Manager will inform OCOT of his/her decision by email. If approved, the email is the authority for the applicant to be re-streamed.
5107. Young Officer Transfers during Phase 2 Training – Applications

a. With the exception of Aircrew Officers who have yet to reach the end of their Aircrew Grading (see Para 5105), the YO is to complete the branch transfer application form at Annex 51E and submit this to their CO, along with a supporting letter detailing as follows:

(1) The reason why they wish to transfer to the branch specified.

(2) Why they feel that they are suited to the prospective branch.

(3) Details of the relevant skills and experience that they would bring to the prospective branch.

(4) The research that they have undertaken with regard to the prospective branch.

b. The CO is then to write a letter advising whether or not the request is supported and ensure that the following are forwarded to the Terms of Service Team:

(1) YO’s application form and letter.

(2) An up-to-date standard report form (covering the branch transfer request (occasion ‘Special’)) signed and dated by the YO, 1RO and 2RO.

(3) Copy of the full E190.

(4) Copies of any other documentation deemed to be relevant to, or supporting, the application: eg. a CO’s letter from a holdover period.

c. The documents above may be scanned and emailed initially (using the relevant security classification) or faxed (in accordance with extant security policy). Hard copies must be forwarded subsequently for the records (see Part 2 of Annex 51E for contact details).

d. In forwarding recommendations to the Officer Terms of Service Manager, authorities should consider the performance of the YO and their value to the Service and should take into account the reasons behind any request for transfer. They should satisfy themselves that the YO has had sufficient opportunity to comprehend the work of the preferred branch or specialisation and, wherever possible, has received appropriate counselling, from officers of both the present and preferred branch or specialisation, to put them in a position to exercise reasonable judgement. As far as possible, they should set the YO against the average standards of their contemporaries in the branch or specialisation to which transfer is sought.

e. YOs should be advised that their case is being referred to the Officer Terms of Service Manager for staffing to the Officer Training Pipeline Manager.
5108. Young Officer Transfers during Phase 2 Training – Approval Process

a. Seniority Adjustments (see Para 5111). When applications are received by the Officer Terms of Service Manager, the Promotions section will be advised to suspend the YO’s seniority pending the outcome of the application. If the individual is unsuccessful in their application, their seniority will be re-instated in full. If the application is successful, a YO may have their seniority adjusted, following which accrual of seniority will resume.

b. Eligibility. The Officer Terms of Service Manager will liaise with the Untrained Strength Career Manager (UTS CM) to ascertain whether an individual is eligible to be considered for a transfer (MedCat, RNFT, required qualifications etc). If the individual is ineligible, the CO will be advised and the individual’s seniority will be re-instated.

c. Consideration of Applications

(1) General Applications. The UTS CM will engage with the Officer Training Pipeline Manager, the approving authority for branch/specialisation transfers of officers on the untrained strength, and other stakeholders regarding consideration of the application. Opportunities for transfer are limited and all cases are considered on their merits. In reaching a decision, the Officer Training Pipeline Manager will consider the manning position and the recruiting and entry targets, together with the training time in the branches and/or specialisations concerned. Additionally, the quality and suitability of the officer for transfer and subsequent re-training will be assessed from their training record (Form E190 for RN officers) and, where required, from a suitability interview with the Career Manager or a delegated representative if the YO is unable to attend Navy Command Headquarters. Advice can be sought from the UTS CM.

(2) FAA Transfer Applications (P to O/ATC, O to ATC)

(a) During Phase 1 Training and Phase 2 Grading, the Officer Training Pipeline Manager has the overall authority to approve branch and specialisation transfer requests but, in making a decision, will consult closely with Navy Command Flying Training staff and the President of the Naval Aircrew Advisory Board (PNAAB)(see Para 5742) regarding a YO’s suitability for transfer.

(b) During Phase 2 Professional Training, the authority to approve any transfer application (P to O; P/O to ATC) rests with Navy Command ACOS(CSAV) and will be administered by the President of the NAAB. Information about decisions taken, and the terms and conditions that will apply in the new branch and/or specialisation if a transfer request is approved, will be formally conveyed to YOs by the Officer Terms of Service Manager.
(c) Transfer from O to P or ATC to P or O is not normally permitted but will be considered where a specific Service need is identified. The Service reserves the right in exceptional circumstances to offer such transfers to student Observers and ATC YOs who have particularly high aptitude scores for both Pilot and Observer and show potential to succeed as Aircrew. In such cases, the YOs will be expected to successfully complete both Pilot and Observer grading (or in the case of ATC YOs whichever specialisation they are considered for) and will then progress along the relevant Flying Training Pipeline. If, at any time up to the successful completion of the required training, they fail to demonstrate the required potential, they will be returned to their core specialisation training pipeline at no penalty. Once they have successfully completed flying training to the required standard, they will be formally transferred to the respective specialisation; any subsequent failure will be treated in the normal manner for their new specialisation. Information about decisions taken, and the terms and conditions of service that will apply in the new branch and/or specialisation if a transfer request is approved, will be formally conveyed to YOs by letter from the Officer Terms of Service Manager.

5109. Young Officer Transfers during Phase 2 Training – Notification of Decision

The Officer Terms of Service Manager will advise the YO, by formal letter via their CO, whether or not the application has been successful.

a. Unsuccessful Applications. If the application has not been successful, the Officer Terms of Service Manager will advise the Promotions section that the YO’s seniority should be re-instated in full. YOs who are unable to continue in their original branch, specialisation or training pattern due to failure during training, and are not selected for transfer will be compulsorily withdrawn from training and their commission terminated (see Para 5436).

b. Successful Applications. If the application has been successful, a transfer offer letter will detail the revised terms and conditions that will apply on transfer and will include an acceptance pro forma. The YO should complete and return the proforma to the Officer Terms of Service Manager advising whether or not they wish to accept the offer. If the YO accepts the offer, their seniority will be adjusted on transfer to the new branch in accordance with Para 5111. If the YO decides not to accept the offer, the Promotions Office will re-instate their seniority in full and the individual will remain in their current branch.

5110. Young Officer Transfers – Timing of Transfers

A YO is not to be transferred to a new training pipeline ahead of receipt of formal Headquarters approval and receipt of their signed acceptance of the terms of the transfer as advised by the Officer Terms of Service Manager in the transfer offer letter. However, in exceptional cases, the Officer Training Pipeline Manager will consider authorising the move of an individual ahead of completion of the formal staffing process. The effective date of transfer will be advised in the transfer offer letter.
5111. Young Officers - Seniority Adjustments on Transfer
The implications for a Young Officer’s rank and seniority are as follows:

a. Officers who are given approval to transfer branch during Phase 1 Training will not lose any seniority as, for the majority, promotion from Midshipman to Sub Lieutenant is based on time served rather than seniority accrued.

b. If an officer applies for a transfer to a new branch and/or specialisation whilst undertaking Phase 2 Training on the Untrained Strength, their seniority will be suspended until the transfer request has been considered. As such, an officer’s imminent promotion to the rank of Lieutenant RN or Captain RM may be deferred. If the transfer request is declined, an officer’s seniority will be reinstated in full and they will continue in their current branch. However, if the request is upheld, an officer may have their seniority adjusted (see sub para c), following which accrual of seniority will resume.

c. Wherever possible, individuals should not be able to gain an advantage over their peers in the branch and/or specialisation into which they are transferring. As a result, officers who are selected for a transfer will have their seniority in their current rank adjusted to reflect the total time spent undertaking Phase 2 training that is not deemed to be relevant to the new branch and/or specialisation. However, officers will be able to keep seniority attained during periods of training inactivity eg. as a result of Service reasons (including holdovers) or non-Service reasons outwith their control (including medical or compassionate reasons). Advice on the relevance of training (and hence any seniority adjustment) will be provided by ACOS(PCap) Untrained Strength Career Manager as part of the overall consideration of the branch transfer request within the Navy Command Headquarters and will be shown in the offer letter sent to officers for their agreement. If the proposed seniority adjustment is greater than an officer’s current seniority as a Sub Lieutenant or Lieutenant, their seniority in the rank will be reset to zero on the date of transfer. It should be noted that, whilst an officer can lose seniority in their current rank as a result of a successful transfer request, they cannot be reduced in rank.

d. The seniority of an officer transferring from or to a branch where seniority is granted for a degree or relevant civilian experience (or both) may be adjusted by more than one year.

5112. Rating Transfers - General

a. The Untrained Strength (UTS) branch transfer process is controlled by the Officer Training Pipeline Manager (see Points of Contact) and applies only to ratings who have not previously joined the Trained Strength. All requests will be considered on their merits but will only be approved when it is in the interest of both the rating and the RN. Responsibility for approval or refusal of requests lies with the Officer Training Pipeline Manager, as delegated to the UTS Ratings Training Pipeline Manager.
b. Ratings have no right to transfer branch or specialisation whilst on the UTS and, on joining, they sign MOD Form S3049 to this effect. A rating who is not content with their current branch or is failing academically may request a branch transfer through their Divisional Officer. Any request for transfer should be made by email to the UTS Ratings Training Pipeline Manager (NAVY TRG HQ-PM RATINGS); each case will be considered on its merits and transfers will only be offered if they are in the best interests of the RN. Should any UTS rating be offered a transfer and subsequently fail in the new branch, there is no right of transfer back to the original branch or specialisation. If a branch transfer is offered but refused, or if none is available, then the rating should be considered for DUDT (Contributory) – see Para 5443 a (2) (d) sub para (iii). The failure from course would be categorised as follows:

(1) **Aptitude.** A failure to perform to the required standards as laid down by the Branch Managers, ARFSD OPS or TPS. Not necessarily an academic failure, but the incorrect approach or an attempt to circumvent training as mandated.

(2) **Commitment.** This will include the attitudinal TPS, ie. the rating must display the correct attitude to training, both physically and mentally, which includes their acceptance of the need to maintain the physical fitness required for training.

c. **Ratings who are:**

(1) Downgraded Permanently Medically Unfit (PMU) for training in their specific branch; or

(2) Downgraded Temporarily Medical Unfit (TMU) for a period of three months, with an expectation of a further downgrade for a 3-month period; or

(3) Downgraded TMU for a period totalling more than six months, may request or be offered the option of transfer where possible to a suitable branch. If the trainee declines the offered branch transfer, then they should be DUDT (Contributory). Where a rating is unable to complete their Branch training or their Task Book because of restrictions imposed by a medical condition, they can be recommended for MBOS without the necessary 12 months delay. This reference should be used for medical downgrades. BR1991 Para 0804a sub para (5) refers.

5113. **Rating Transfers – Submarines to General Service**

Transfer requests from those recruited directly into the SM arm are normally only granted for medical reasons since SM recruits do not have the right to transfer to GS and any transfer is made in accordance with the needs of the Service. Ratings who are declared medically unfit for SM are to be dealt with as follows:

a. **PMU.** Wherever possible, all ratings are to be offered a transfer to their requested branch. If the rating refuses the option to transfer, they are to be discharged or may exercise discharge as of right (in accordance with Para 5403) if within their first six months’ service.
b. **TMU for more than Three Months.** Ratings are to be offered the option of transfer to the GS affiliated branch. If an individual accepts this option and is subsequently declared fit for SM, they are to be transferred back to SM. When a rating reaches six months cumulative TMU, or is forecast to be TMU for at least six months, they should be given the option to either request a branch transfer or be discharged. Approval to remain in the SM pipeline after being TMU for six months (including cumulative) may be given exceptionally, by the specialisation Branch Manager.

5114. **Rating Transfers – Divers**

The procedures at Para 5109 sub para a and sub para b also apply to the Diver specialisation and SM officers.

5115. **Rating Transfers – General Service to Submarines**

Applications from ratings who wish to transfer to SM service during their initial training are always to be given favourable consideration. The following guidance should be adopted:

a. All applications should be discussed with the UTS Ratings Pipeline Manager (NAVY TRG HQ-PM RATINGS) who can advise on the availability of SM branches and entry criteria.

b. Prior to any transfer being approved, it is strongly advised that the rating concerned is sent to the RNSMS for briefings.

5116. **Rating Transfer Requests**

All branch and/or specialisation transfer requests from ratings on the UTS should be addressed to the UTS Ratings Pipeline Manager (NAVY TRG HQ-PM RATINGS) by Divisional Officers (DOs). Telephone enquiries are acceptable but all formal transfer requests must be made by e-mail (NAVY TRG HQ-PM RATINGS) and should include the following:

a. Rating’s name, Service Number, branch and Recruit Test (RT) score.

b. The branch to which the individual wishes to transfer.

c. Reason for the transfer request.

d. DO’s recommendation.

e. Any disciplinary or medical issues.

Careful consideration will be given to the manning situation in the exporting and importing branch specialisations and to the rating’s suitability for transfer (eg. RT score, eyesight, hearing, colour perception and nationality). During Phase 1 training, a PSO interview will be arranged to assess the suitability of the applicant for the new branch and/or specialisation.
5117. **Ratings - Failure in Training**
Where a transfer request is submitted because a rating has failed to demonstrate the ability to complete training in their current branch, branches and/or specialisations which require a lower RT qualifying score will normally only be offered.

5118. **Ratings - Agreement to Transfer**
Ratings may only be transferred from one branch and/or specialisation to another if they agree to the transfer. In the case of ratings under the age of 18, parents/guardians should be consulted (subject to permission being given by the rating concerned).

5119. **RM Other Rank Transfers**
RM Other Ranks do not specialise until they join the Trained Strength; as such, there is no provision for them to transfer while they are under initial training.
SECTION 3 – BRANCH AND SPECIALISATION TRANSFERS - TRAINED STRENGTH

5120. Officer Transfers - General

a. Branch transfers are not encouraged but are permissible provided they are in the best interests of both the Service and the individual; the priority will be to best meet the Service requirement. Officers may also have to satisfy the nationality requirement of the receiving branch/specialisation, which may differ from their source branch/specialisation, and be required to successfully undertake a disclosure check prior to transfer.

b. Transfers of specialisation or between arms within a branch may also be allowed, subject to the best interests of the Service.

c. Consideration may be given to assigning an applicant to one job in the new branch or specialisation prior to the transfer being approved and the necessary cross-training package implemented.

d. Transfers may result in a loss of seniority and an additional Return of Service (ROS) being incurred, dependent upon the training undertaken.

e. Each case is considered on its merits and, if the transfer is approved, officers are subject to the assignment, training and promotion rules of the new branch or specialisation. The following principles are adhered to in the consideration of requests:

   (1) The transferee must not gain advantage over a comparable officer of the new branch.

   (2) Transfer must not be seen as a means of gaining additional seniority and, consequently, earlier promotion when compared with those officers in the new branch who entered the Navy at the same time as the transferee.

   (3) The transferee should not be at a disadvantage in comparison with an officer who retires and then immediately re-enters in a different branch.

f. Commission. If an insufficient ROS remains after training then consideration will be given to either waiving a break point option or transferring the officer to a Career Commission stage (CCS). Those Direct Graduate Entry (DGE) officers on a CCS or Full Commission Stage (or equivalent) should maintain their current commission and start date. It is not envisaged that former Special Duties (SD) or Senior Upper Yardman (SUY) officers would be accepted for transfer to the Engineering Branch; however, should a former SD/SUY officer possess an acceptable degree, consideration will be given to entering them as a DGE based on their original commissioning date.
g. **Seniority.** Seniority credits will be assessed by adding the credits calculated under the following three headings:

1. **Time.** The time between entry and transfer should normally count as a seniority credit, except for the time spent as a result of back classing or repeating professional course as a result of a failure.

2. **Credits.** Any seniority credits the officer may have received from Naval General or Fleet training.

3. **Engineer Officers - Pre-Joining Training.** The officer’s seniority is assessed as though they were entering the RN on the date of transfer, based on the current entry regulation for Engineer Officers. This method of calculation will therefore take into account credits appropriate to an Engineer Officer for their degree, and any professional experience obtained after the degree prior to entry into RN.

5121. **Officer Transfers - Applications**

a. Individuals are to complete the branch transfer request form at Annex 51F and submit this to their Commanding Officer, along with a supporting letter detailing:

1. The reason why they wish to transfer to the branch specified.

2. Why they feel that they are suited to the prospective branch.

3. The relevant skills and experience that they would bring to the prospective branch.

4. The research that they have undertaken with regard to the prospective branch.

b. The CO is then to write a letter advising whether or not the request is supported and ensure that the following are forwarded to the Officer Terms of Service Manager:

1. The officer’s application form and letter.

2. An up-to-date Appraisal Report (covering the branch transfer request (occasion ‘Special’)) signed and dated by the officer, 1RO and 2RO (the 2RO must state they support the request as a minimum).

3. Copies of any other documentation deemed to be relevant to, or supporting, the application. The documents above may be scanned and emailed initially (using the relevant security classification) or faxed (in accordance with extant security policy). Hard copies must be forwarded subsequently for the records (see Part 2 of Annex 51F for contact details).
5122. Officer Transfers – Headquarters Staffing

On receiving the branch transfer application, the Officer Terms of Service Manager will engage with the appropriate Career Manager who, in turn, will consult relevant stakeholders in the Navy Command Headquarters about the merits of the request, determining the individual’s eligibility (eg. Med Cat, nationality, RNFT status) and considering the new terms and conditions of service that will apply if a transfer is agreed (eg. training requirement, return of service, seniority etc). A final decision will be sent by letter to the individual’s Commanding Officer at the earliest opportunity and, if the request is approved, will include a revised set of terms and conditions for the officer’s agreement.

5123. Officers - GS Warfare Officers

The mainstream route for General Service (GS) Warfare officers is to qualify as Principal Warfare Officers (PWO). Some of these will subsequently specialise in Above Water Warfare (PWO(A)), Communications and Information Systems (PWO (CIS)), Underwater Warfare (PWO(U)) and Navigation (PWO(N)). A significant proportion of GS Warfare Branch officers are required to sub specialise outside or before the PWO route; this sub specialisation occurs either on joining the Trained Strength on completion of Initial Warfare Officers Course (IWOC) or following First Complement Assignment (FCA). Each year, the numbers joining the trained strength and completing FCA together with the requirement, strengths and training pipeline capacity of each Warfare Branch sub specialisations determine the numbers required for each. The 'Allocation to Specialisation' numbers required in each specialisation are determined by ACOS(PCap) staff. Career Management authorities are responsible for allocating individual officers to each sub specialisation to meet the numerical target.

a. Sub-specialisations. The GS Warfare Branch sub-specialisations are as follows:

   (1) **PWO.** Progress towards qualification in this specialisation is the mainstream route followed by all GS Warfare officers from joining the Service unless they subsequently transfer to one of the following specialisations or Arms.

   (2) **Hydrography and Meteorology (HM).** Officers are either directly recruited or can be selected post-IWOC or post-FCA.

   (3) **Fighter Controller (FC).** Officers are selected either post-IWOC or post-FCA. Officers need to pass an Aptitude Test.

   (4) **Mine Clearance Diving and Mine Warfare Officer (MCD/MW).** Officers are selected post-FCA and once Bridge Watchkeeper Qualified. MCD officers will need to have passed both an Aptitude Test and a Diving Medical.

   (5) **Fleet Air Arm (FAA) - Aviation.** Officers are only selected post-FCA and once Bridge Watchkeeper Qualified. For details, see Para 5124.
(6) **Submarine (SM) Arm.** Officers are only selected post-IWOC. It should be noted that direct entry SM Arm Warfare Branch officers, together with selection of officers of the SM Arm during Initial Training, will reduce the number of GS Officers (who are not already SM(X)) required to specialise SM(X) following IWOC.

(7) **Intelligence (Int).** Officers are selected either post IWOC or FCA.

(8) **Navigation (Nav).** Officers are selected either post IWOC or FCA.

(9) **RN Police (RNP).** Officers will be recruited through the SUY process.

(10) **Communications (C).** Officers will be recruited through the SUY process.

b. **Criteria for Selection of Sub-specialisation.** Individuals are nominated for each specialisation by a Board consisting of at least two Career Managers. Individual officers will be allocated to specialisations according to the following criteria:

1. **The Service Requirement.** The number required by each Warfare Branch specialisation and the best interests of the Service.

2. **Aptitude.** Where appropriate, individuals have to pass an aptitude test to become eligible for particular specialisations.

3. **Age and Medical.** There may be age constraints where it is necessary for the Service to gain an adequate return on training investment. Similarly, some specialisations require more stringent medical standards than GS.

4. **Recommendations.** Recommendations from Reporting Officers.

5. **Spread of Talent.** In the best interests of the Service, a spread of talent should be achieved to ensure that particular specialisations do not receive a high proportion of either strong or weak individuals.

6. **Preference of the Individual.** Individuals should clearly advise of their specialisation preferences either through their CO and the reporting process or direct to their Career Manager.

c. **Specialisation within FAA.** See Para 5124.
d. **Transfer to SM Arm.** All UK nationals, RN officers are liable for service in submarines. Volunteers will fill vacancies but, where necessary, any shortfalls will be filled by suitably qualified officers selected during the third term at BRNC/IWOC. The minimum period of an officer’s submarine service will be the completion of their first career assignment post Submarine Officers Training Course and successful completion of ‘n’ Course. Any officer who does not wish for further service in submarines should apply in writing to NAVY PERS-CM OF WAR SMSO2 to transfer back to GS. Each application will be assessed against the needs of the Service and successful applicants will be transferred to NAVY PERS-CM OF WAR JOSO2.

5124. **Officers - Warfare, Air Engineer and RM - Transfer to Flying Duties**

There are opportunities for Warfare, Air Engineer and RM officers to undergo flying training. Selection for flying training involves a transfer of specialisation under the general rules in Para 5120. Applications will be considered in the light of service requirements and the numbers of transfers will be strictly limited.

a. **Warfare Officers.** Opportunities exist for a very small number of GS arm Warfare Branch officers, other than direct entry Fleet Air Arm (FAA), to undergo flying training and specialise as Pilot, Observer or ATC officer. The rationale for this is that, whilst the vast majority of the FAA officer requirement is met by direct recruitment, the FAA does benefit from a few GS arm officers with a Bridge Watchkeeping Qualification (BWQ) specialising into aviation following their FCA (the GSX/FAA/PWO Stream). The cross-pollination that GSX bring to FAA is of considerable benefit as it enlightens those who are less familiar with GS practices; GSX/FAA/PWO Stream officers then return to GS with FAA expertise. Applications will be considered in the light of Service requirements and the numbers of such transfers will be strictly limited. Such officers 'specialise FAA' rather than 'transfer' and will be expected to specialise as PWOs later in their careers and to conduct at least two PWO tours.

1) **Implications.** The drawback of the above is that these officers take up valuable training positions to gain their Navigation Watchkeeping Certificate (NWC) and BWQ but do not subsequently fill watch-keeping positions. They are also required to fill PWO assignments so there is little time for them to get the most out of their FAA training before commencing PWO training. As it takes four years to be fully trained as a GS Arm officer and then tested in a complement assignment; a future return on this four-year investment is required. Post-FCA, any officer selected for FAA specialisation will then have to complete up to two years flying/ATC training prior to FAA employment and returning to the GS Arm for PWO training. To ensure that the FAA has a return on this substantial flying training investment, the GSX/FAA/PWO stream should conduct a minimum of two flying tours post flying training. This ensures adequate aviation experience and credibility when competing for senior FAA Executive assignments post-PWO tours.
(2) **Eligibility.** Officers may apply for flying duty specialisation at any time after completion of the IWOC, provided that – in order to avoid undue career compression - they are able to commence flying training before their 27th birthday (exceptionally, an age waiver may be granted as agreed by the XAV Branch Manager). Officers will not be allowed to start flying training until they have obtained their NWC and BWQ; they must be volunteers, and recommended for transfer to a CCS. Exceptional cases may be forwarded to Navy Command/ACOS(CSAV) SO1 Flying Training for consideration, however, it is stressed that such applications must be particularly merit-worthy and that particular circumstances are deemed to apply. Career Managers will ensure that all GSX officers specialising within the FAA are given explicit briefing on career patterns and Service expectations, including PWO.

(3) **Application and Selection.** The procedure for application and selection is as follows:

(a) RN officers who meet the conditions laid down in Para 5124a sub para (2) should submit their applications in writing to their CO.

(b) COs recommending candidates for transfer will arrange for them to attend RAF Cranwell for Aircrew Aptitude Tests and, for those who are successful, examination by the Aviation Medicine Division (AvMed), Institute of Naval Medicine (INM), to determine their fitness for flying duties. ATC candidates are to conduct ATC grading under the auspices of Navy Command AV (SO2 ATC). Arrangements for these tests should be made as follows, quoting availability and whether or not accommodation is required:

   i. Aircrew Aptitude Tests - CAIB
   ii. Aircrew Medical – Av Med
   iii. ATC aptitude – NC AV SO2 ATC

(c) On successful completion of these tests, COs should forward applications to the Assistant Chief of Naval Staff (Personnel)/Naval Secretary, together with their recommendations and a special Appraisal Report.

(d) Those applicants who pass both Aptitude Test and Initial Flying Medical at the Aviation Medicine Division, INM will be considered by the AIB and may be provisionally selected for either Observer or Pilot training, dependent upon their aptitude and the requirements of the Service. Once provisionally selected, officers will be required to take and pass the appropriate Pilot or Observer grading course before becoming eligible for transfer to flying training. Officers are to arrange grading through Navy Command ACOS(CSAV) SO1 Flying Training. It should be noted that officers selected for Observer duties may not subsequently transfer to Pilot duties and those selected for ATC may not subsequently transfer to Observer or Pilot Duties.
(4) **Commission.** Officers who specialise in flying duties will remain on their existing commission unless selected for a longer commission in the normal course. It should be clearly understood that, on successful completion of Operational Conversion Phase (OCP), those officers who are unable to complete the designated ROS within their current commission will have that commission automatically extended to fulfil the required period of service. Officers transferring to the Aircrew specialisation who are unable to complete either flying training, including OCP, within their Initial Commission Stage or the appropriate ROS, will be required to apply and be selected for transfer to a Career Commission Stage (CCS). The rules on commissions for Warfare officers who undertake Fast Jet pilot training or who transfer to ATC are at Para 4916 sub para c and Para 4916 sub para g respectively.

(5) **ROS.** Details of the ROS required of Warfare officers, including details of flying/ATC training, are shown in Annex 53C. Officers who transfer to flying duties are liable for the Initial Flying Training ROS.

(6) **Failure.** Officers who fail or voluntarily withdraw from flying/ATC training having transferred from X(GS) will normally be required to revert to mainstream GS Warfare Officer duties on their IC or CC and complete any outstanding ROS liability from their Warfare training in the X branch. Time spent in flying training will not count towards this ROS.

b. **RM Officers.** RM officers may apply for transfer to Pilot flying training following successful completion of initial training provided they are under the age of 26 when the application is submitted and they will not be more than 27 years of age at the start of flying training. RM officers who wish to specialise as a pilot should apply through OCM RM. RM officers are not eligible to be considered for Observer duties.

(1) **Training.** RM officers will follow the same initial procedure as their RN counterparts, as detailed in Para 5124a(3) sub para (a), sub para b and sub para (c). On successful completion of their medical and aptitude tests, they will attend three weeks’ Flying Grading whilst being held by their parent unit, before being selected (subject to requirement and suitability) for flying training. OCM RM is to be kept informed of their passage through the initial training pipeline. RM will continue to support Fast Jet pilot requirement when suitable candidates are identified.

(2) **Commission.** The rules on commissions for RM officers who undertake pilot training are at Para 4916 sub para e.

(3) **Failure.** RM officers who fail or voluntarily withdraw from flying training will normally be required to revert to GS duties and complete any outstanding ROS liability from any previous training. The ROS for RM flying training is detailed in Annex 53C.
c. **Air Engineer (AE) Officers.** AE officers normally apply to be considered for Pilot flying training for ultimate employment in the Test Pilot cadre during their SEMC and will need to be less than 27 years of age at the start of flying training. They must be volunteers and recommended for transfer to a CCS. They will not normally be allowed to start flying training until they have obtained their Certificate of Competence. A very small number of AE officers may be selected for training as Observers to fulfil Maintenance Test Observer billets.

5125. **Ratings – Branch Transfer and Sideways Entry – General**

POC: NAVY CAP-PPLAN SWPR SO1

a. **Definitions.** Transfer to a specialisation where there is normally no direct entry from basic training is known as Sideways Entry to that specialisation whereas transfer to a specialisation or branch where there is a direct entry from basic training is known as a branch transfer. However, there are also specialisations that are open to both direct and sideways entry. These exceptions are as follows: Naval Nurses (NN) and Medical Technicians (MT). A summary of Sideways Entry specialisations is at Annex 51A.

b. **Requests.** Applications to transfer from one branch and/or specialisation to another by ratings who have completed their initial training (see Para 5302) and joined the trained strength should be made as follows:

1. **Ratings**
   
   (a) Application is to be made to the CO. If the rating is eligible and recommended, the application should be forwarded by signal, letter or e-mail to the ACOS(PCap) Ratings Strategic Workforce Planners by the CO.
   
   (b) The signal address is: NCHQ. SICs are WHV and WHF. First line of text should be: NCHQ fao ACOS(PCap)-PPLAN SWPR WO1.
   
   (c) The postal address is: Ratings Strategic Planning, Room 116, MP 1-2, West Battery, HMS EXCELLENT, Portsmouth. PO2 8DX.
   
   (d) DII(F) email address is: NAVY PCAP-PPLAN SWPR WO1.

**Notes:**

1. Applications by Other Ranks to transfer to the Aircrewman specialisations are to be made in accordance with Para 5125.b sub para (1).

2. Applications by those of the former RM K Specialisation, currently managed by RN Logistics Branch, to transfer to the RN Chef Specialisation, are to be made in accordance with Para 5125.b sub para (1).
c. **Conditions.** Transfer applications should be considered only if the following conditions have been fulfilled:

1. The applicant is recommended, possesses the necessary aptitude (including RT Score - Para 0806 sub para g) and is eligible (including nationality criteria) to join the new branch and/or specialisation. Requests for transfers to sideways entry specialisations should not be accepted until it has been established that the applicant is eligible to do so in accordance with the requirements listed in the individual branch chapters of Part 8 (Promotions).

2. Ratings must be medically fit and deployable for the branch into which they wish to transfer (normally MFD A4/L1/M1/E1) and be in date for the Royal Naval Fitness Test (RNFT). RM Other Ranks must meet the physical standards applicable to their chosen specialisation. Servicewomen who are pregnant (E6) should be considered on their JMES medical category immediately before confirmation of pregnancy and any potential transfer carry the caveat that RNFT should be passed within three months of returning to work.

3. Ratings without a sea service liability must become volunteers for sea service.

d. **Decision.** Branch transfers are not a right, as acknowledged by ratings and other ranks on Form S3049 when they enlist in the Service. On receipt of a transfer request, Branch Managers will take into consideration the current and future status of the donor and receiving branches. In cases where there may be competing requirements (eg. both branches are in significant shortage), the final decision will rest with ACOS(PCap) Ratings Strategic Workforce Planners. From receipt of application, ACOS(PCap) aims to respond within one calendar month.

1. Decisions on manning clearance are released by Email, usually each Friday, one for Sideways Entry applications, the other for Branch Transfer applications.

2. The Email will include course dates for those who have been approved to branch transfer, assignment action for these courses being taken by HMS RALEIGH (usually 6-8 weeks prior to commencement of course); ratings are advised to check that an Assignment Order has been received. Those who have been approved to transfer to a sideways entry specialisation will be assigned to aptitude assessment/courses by Lead Schools.

3. Manning clearance, if approved, is valid for two years. This period allows time for the applicant to attend any aptitude tests or acquaints, and also gives appropriate time for assignment notice.

4. If manning clearance is refused, a reason and any recommendation will be stated in the signal.
e. **Refusal.** Common reasons for refusal of manning clearance include the following:

1. The donor specialisation is in or forecast to be in, deficit; any further outflow of personnel will only exacerbate the situation.

2. The receiving specialisation is in or forecast to be in, balance/overborne or there are no spaces available on Phase 2 courses for the foreseeable future.

3. The applicant does not qualify in accordance with Para 5125 sub para c.

f. **Consultation.** For ratings under the age of 18, parents/guardians should be consulted after approval has been given, but before the transfer is completed (subject to permission being given by the rating concerned).

g. **Disclosure Check Vetting.** Under the provisions of the Criminal Justice and Court Services Act 2001 Working with Children and Vulnerable Adults, individuals seeking transfer to Medical, Dental, Nursing, Service Police and Physical Training specialisations will be subject to Disclosure Check vetting undertaken by the Disclosure Barring Service.

h. The procedure for transfer to the Medical Assistant Branch can be found at Annex 51C.

5126. **Rating Transfers – General Service to Submarines**

(POC: XSM Branch Manager SO1)

a. **Liability for Service in Submarines.** All Service Personnel who are recruited as GS ratings are liable for service in submarines (SM service) and acknowledge such on Form S3049, which they sign when they enlist in the Service. Vacancies will be filled by volunteers, if available, subject to the conditions in Para 5126 sub para b and provided there is a requirement for a rating of equivalent rate and category in the SM service. Ratings will generally join whilst in the lowest rate of each category.

b. **Eligibility.** To be eligible for SM service, ratings must satisfy the following criteria:

   1. **Engagement.** Ratings will normally be assigned to submarines only if they have at least three years to serve.

   2. **Medical.** Ratings must be declared medically fit for service in submarines.

   3. **Nationality.** Ratings must be UK nationals (but can hold dual nationality where the other nationality does not appear on the US State Department Policies Embargoes List). Personnel serving in the Strategic Weapons Systems and Marine Engineering Submarines specialisations must be sole UK nationals.
Effective
February 2020

BRd 3(1)

Volunteers. Eligible ratings may volunteer at any point of their career (subject to Para 5126 sub para b). This is for a minimum period of five years from the award of the submarine basic qualification (SMQ/BSQ/Dolphins).

(1) A rating who wishes to volunteer for SM service must submit a branch transfer request in accordance with Para 5116 and Para 5125 sub para b and sub para c.

(2) Any changes in the medical fitness of a rating who has already received Manning clearance for SM service, which may render them ineligible for such service, are to be reported immediately to ACOS(PCap) Ratings Strategic Workforce Planners.

(3) As a volunteer for SM service, a rating will remain in such service until any one of the following factors applies:

(a) Their ES2/FC/OE ends and is not extended.
(b) They are no longer medically fit for SM service.
(c) They are no longer suitable for SM service.
(d) They are advanced to a rate in their specialisation for which there is no requirement in the SM service.
(e) They cease to be a volunteer, in which case they may request to return to GS. See Para 5126 c sub para (5).
(f) They volunteer to undertake a loan to the SM Service within the terms of service of a temporary transfer to alleviate a specific shortage.

(4) Non-volunteers. The minimum period of SM service for a non-volunteer rating will be five years; individuals may, however, volunteer for further service in submarines at any time.

(5) Ceasing to be a Volunteer. If a rating does not wish to volunteer for further service beyond five years, in order to give the Career Manager sufficient notice, they must request to be transferred to GS at least six months before completion of the five year term. Application should be made in accordance with the branch transfer rules at Para 5125 stating that the request is to return to GS and is submitted in accordance with this paragraph (Para 5126 sub para e). If the individual has completed five years' service in submarines, they are to be transferred to GS on the next occasion a Permanent Assignment Order is issued for them and in any event within three years of the date of their request (Note: orders that are issued to assign a rating ashore to attend a course [PJ/T/TEM/LRLC/SRLC etc] or sent ashore temporarily due to a medical or welfare downgrading are not classed as a Permanent Assignment Order). Except under war or emergency conditions, individuals will not be re-assigned to submarines unless they volunteer again.
Submariners who are awarded an ES3 whilst in the SM Service are selected for such an engagement specifically to meet the needs of the SM Service. Individuals who leave for the reasons in Para 5126c sub para (3) do not automatically transfer their ES3 in conjunction with a transfer to GS. They will normally revert to their original Termination Date, or be offered an alternative ES3 that meets the needs of the receiving specialisation as determined by the appropriate Branch Manager.

5127. Rating Transfers – Submarines to General Service
(POC: XSM Branch Manager SO1).

Submariners who were recruited directly into the SM Service (as opposed to joining the GS initially and subsequently transferring to submarines) have no right to transfer to GS. However, exceptionally, they may submit a branch transfer request to do so in accordance with Para 5125. The request will be considered by the relevant Branch Manager. Submariners who are awarded an ES3 whilst in the SM Service are selected for such to specifically meet the needs of the SM Service. Individuals who leave for the reasons in Para 5126c sub para (3) do not automatically transfer their ES3 in conjunction with a transfer to GS. They will normally revert to their original Termination Date or be offered an alternative ES3 that meets the needs of the receiving specialisation as determined by the appropriate Branch Manager.

5128. Rating Transfers between Specialisations

a. Counting of Time. Normally, when ratings transfer from one specialisation to another, time in their previous specialisation is not counted for promotion or advancement purposes in the specialisation to which they transfer. For the purpose of applying the instructions of this paragraph, any change in branch, specialisation or sub specialisation is regarded as a transfer in specialisation. Precise rules for the calculation of seniority in the new specialisation for ratings who transfer at their own request are as follows:

(1) AB2. Transfer will be at AB2 level with existing seniority. AB2s who become due and are qualified for advancement to AB1 in their former specialisation whilst undergoing conversion training are to be stood over and, subject to successful completion of training, are to be advanced as follows:

(a) Ratings transferring to specialisations where successful completion of Part II/III training is the only professional qualification for award of AB1 - to be rated AB1 on completion of course, with pay from that date and with seniority antedated to the date they became due by service.

(b) Ratings transferring to specialisations where qualifications, additional to completion of Part II/III training, are required for advancement to AB1 - to be rated AB1, on an acting basis, on completion of course, with pay from that date and seniority ante-dated to the date they became due by service. They are then to be confirmed as an AB1 on attaining the necessary professional qualifications for the rate.
(2) **AB1 and Above.** Transfer to be at a rate and seniority that is determined by the Branch Manager of the receiving specialisation. Usually, this should be in line with those non-transferees on the same course; however, where there is a clear Service reason for this to be different then, on a case by case basis, consideration of which should include but not be limited to demand for personnel in that specialisation, the training required to provide the transferee with the appropriate qualifications or experience and the consequential effect on other ratings’ promotion prospects, the rate on transfer may be higher. The rate in new specialisation should be no higher, and the seniority no earlier, than that held immediately prior to transfer, and the rate should be held on an acting basis from the date of transfer (see Para 5128 sub para b below). Confirmation in the rate will be attained on successful completion of any necessary transfer training, successful completion of Task Book (if applicable) and completion of sea-time qualifications in the new specialisation (if applicable). The new rate and seniority is to be confirmed with ACOS(PCap) in each case and Branch Managers are to set out the agreed terms and conditions associated with each transfer in a letter to the Service person\(^1\). In order to reduce the incidence of subsequent misunderstanding, and to simplify the course of any retrospective investigation, Career Managers are also to retain comprehensive records which accurately document these terms and conditions.

b. **Taking Effect.** Except for ‘sideways entry’ specialisations and the other exceptions in Para 5128 sub para c, transfers are to be effected immediately the rating commences training for the new specialisation and should not be delayed pending successful completion of course. See Para 5128c sub para (4) for action necessary following failure on course.

c. **Special Cases.** For ratings who transfer for one of the following reasons, special rules apply, as follows:

1. **On Call for Volunteers Issued by the MOD.** The DIN promulgating the requirement will contain the details of special conditions offered.

2. **For Medical Reasons** (eg. voluntary transfer as an alternative to medically invaliding at Naval Service Medical Employability Board (NSMEB) or discharge SHORE). Applications from LHs and above will be considered by the Terms of Service Team and any special conditions will be clearly stated in the letter of approval. In the majority of cases, transfer will involve reversion to AB1 in the new specialisation.

3. **Transfer to Specialisations or Sub-Specialisations Recruited or Partially Recruited from Serving Personnel.** Sideways Entry specialisations are listed at Annex 51A.

---

\(^1\) In all cases JSP 754 Ch 3 Sect 11 has primacy, including the future treatment of pay when discretion has been applied on transfer.
(4) **Compulsory Re-Transfer to Source Specialisation and Re-Transfer to Source Specialisation at Own Request.** Ratings who fail their re-training course examination or are subsequently found to be unsatisfactory in their new specialisation within 12 months of transfer will be compulsorily transferred back to their original specialisation (but see Chapter 83 for the procedure applicable to SM Coxswain specialisation and Para 5128 sub para e for the Aircrewman specialisation). Approval may also be given to ratings who voluntarily request to re-transfer to their original specialisation within 12 months of beginning training for their new specialisation. Ratings will be re-instated in the rate held before undergoing retraining course as follows:

(a) Ratings who transferred in existing rates will re-transfer in the same rate with original seniority post-dated by the time spent in the new specialisation.

(b) Ratings transferring in a rate below that held in their original specialisation will re-transfer in the lower rate for one day and be reinstated in their old rate on the following day with original seniority post dated by the time spent in the new specialisation plus the one day spent in the lower rate on re-transfer.

(c) Ratings who have been promoted or advanced since transfer will be retransferred to the rate held prior to original transfer with original seniority post dated by time spent in the new specialisation.

(d) In the case of ratings in specialisations at Para 5128c sub para (3), re-transfer will be in the rate held in their source specialisation prior to commencing sideways entry specialisation training. Such ratings will retain their original seniority but any basic date for advancement to the next higher rate will be post dated by the time spent in the new specialisation. Following satisfactory completion of the probationary period, Ratings may not be compulsorily re-transferred.

(e) In the case of the Aircrewman specialisation, for ratings who are suspended from flying duties for reasons beyond their control, the following procedure will apply. Leading Aircrewmen will normally be returned to their source specialisation in the rate held at the time of transfer and with their original seniority. Petty Officer Aircrewmen and above, who are permanently grounded for reasons beyond their control, may be retained in the Aircrewman specialisation and be employed on non-flying duties until the end of their current engagement provided that they remain medically fit for General Service. They will cease to be eligible for Specialist Pay (Flying) (SP(F)) from the date of grounding. They will not be eligible for further promotion and will therefore be given the option of Discharge SHORE with normal terminal benefits (including eligibility for pre-release voluntary training).

(f) For Warfare Branch ratings in the SM service who are returned to GS, the procedure in Chapter 79 will apply.
(5) **Naval Swimming Test.** Where a transfer involves promotion or advancement to Leading Hand, all ratings must have passed a Naval Swimming Test before commencing training for the new specialisation.

(6) **Requirement for Career Check-Free Service.** Where a transfer involves promotion or advancement in rate (eg. to Leading Regulator or Leading Physical Trainer) the requirement for Career Check-free service, as applicable to promotion or advancement in the new specialisation, must be satisfied before the transfer may take place.

5129. **RM Other Ranks – Transfer between Specialisations**

a. **General Instructions.** All applications for transfer between specialisations of the Corps are to be forwarded to NAVY PCAP-CM RM RMCA1 which will then be considered at the RM Transfer Board, which is chaired by the RM Branch Manager. All matters relating to pay in this context are contained in JSP 754.

b. **Conditions of Transfer**

(1) Any transfer between specialisations may result in one or all of the following: reduction in rank, reduction in pay (if specialist pay is received in old SQ); or adjustment of seniority. Such reductions will depend upon whether the transfer is at the individual’s request, at the direction of the Service (eg. NSMBOS or DSS), and as the result of a comparison of promotion factors within the specialisations concerned.

(2) The effective seniority dates of individuals transferring in specialisations are to be decided by the RM Promotion WO. Ordinarily, for Cpls and above, all seniority is lost on transferring between SQs.

(3) The effective date of transfer is to be the date on which the individual passes a 3rd Class qualification. Any former SQ/TQ Spec qualification will be relinquished on that date.

(4) NCOs who transfer will not normally be required to revert to Mne. They will have their seniority adjusted on gaining a 2nd Class qualification.

(5) NCOs who are reverted to a lower rank will be given the seniority of the date of their transfer to the new specialisation.

(6) A JNCO who retains their rank on transfer must obtain the appropriate 2nd Class qualification within two years of transfer or they may be required to revert to Mne.

(7) A SNCO who retains their rank on transfer must obtain the appropriate 1st Class qualification within 2½ years of transfer or they may be required to revert to Cpl, or even to Mne if they fail to achieve a 2nd Class qualification.
(8) A Me holding civilian qualifications or qualifications from other Services may apply to PCAP(RM) (through the Specialisation Adviser) to have these accepted as RM qualifications.

c. **Failure to Comply with Conditions of Transfer.** When an NCO is accepted for transfer and subsequently fails to comply with the conditions under which the transfer was approved, the RM Branch Manager/CDO are to decide whether:

   (1) The NCO must return to the specialisation from whence they came, in which case they will be granted their original seniority in that specialisation, adjusted for the period of time spent out of it; or

   (2) The NCO is to be offered the opportunity to relinquish the rank for which they failed to qualify and assume the highest rank for which they are qualified in the new specialisation.

d. **Loss of Seniority.** This paragraph should be considered in conjunction with Para 5129 sub para b. Ranks who have successfully completed JCC may opt to transfer to an SQ2 level entry specialisation (PT, DL, and RMIS). Substantive Cpls will retain their rank; however, their new seniority will be activated from their SQ2 qualification, which will normally be the course end date.

e. **Ranks Selected for Promotion.** Normally a rank transferring from one specialisation to another will have to be selected for promotion in the gaining specialisation. This also applies to ranks who are not substantive on transfer. Under exceptional circumstances, for example where critical shortages exist, the CDO may grant approval for ranks to retain their selection in their previous Specialisation, subject to passing command training, for a predetermined period until qualified by SQ in the gaining specialisation. On such occasions CPD will be re-determined accordingly.

f. **RMBS to RM**

   (1) **Bugler/Musician** *(Bug/Musn)*

      (a) Bugs/Musns who have served a minimum of four years from completion of training, and who are not in a shortage instrumental category, may be considered for transfer.

      (b) Bugs/Musns who prove to be musically unsuitable may be considered for transfer at any time.

   (2) **Selection.** Applicants for transfer between RMBS and RM are required to attend a Potential Royal Marines Course (PRMC) at CTCRM to assess their suitability for transfer before selection. Successful candidates cannot be guaranteed selection as this is dependent on vacancies. Those candidates successful at PRMC will be required to complete normal recruit training.

   (3) **Failures.** Applicants who fail the PRMC will continue in their normal employment.
g. **RMBS - Applications for Transfer.** Applications from Bug/Musns to transfer to the RM specialisations are to be forwarded to the RM Branch Manager and are to include a medical certificate confirming that the applicant conforms to the physical requirements, together with a recommendation from the Commanding Officer regarding the applicant’s suitability for transfer. On approval, they are to be assigned to CTCRM for PRMC and, if successful, recruit training.

5130. **Pay, Recruitment and Retention Pay and Retention Payments**

Personnel who transfer between branches (for the Naval Service this includes moves between the RN/RM/RMBS/QARNNS) and specialisations are to be made aware that such changes may have an effect on their entitlement to a particular rate of pay. Changes include moving between pay Supplements, a cessation of entitlement to any form of Recruitment and Retention Pay, and an altered entitlement to Commitment Bonuses and/or any Financial Retention Initiatives (eg. Golden Hello) in force at the time of transfer. All manpower decisions will be based on the principle that individuals are fully aware of these potential changes. Full details are contained in JSP 754 (Tri-Service Regulations for Pay and Charges) Chapter 3 – Basic Pay and Chapter 5 – Recruitment and Retention Pay.

5131. **Female Non-Sea Volunteers**

a. Non-Sea Volunteers (NSVs) who transfer branch and/or specialisation must satisfy any sea service requirement conditions of their new specialisation prior to application.

b. NSV ratings may volunteer for sea service at any time. Successful applicants will be given a six month transition period from the date of joining their first seagoing ship during which they may apply to withdraw their application to serve at sea and be reverted to NSV status. Any NSV who wishes to apply for sea service should do so, in writing to their Career Manager through the chain of command.

c. NSV ratings who apply for promotion to the Officer Corps can only do so as sea service volunteers. CW candidate ratings who revoke their NSV status but then subsequently withdraw, or are withdrawn from, CW candidature at any time, will be permitted to revert to their previous NSV status. Officers under training who were former NSV ratings and who revert to rating status during their initial officer training will also be permitted to revert to their previous NSV status.

d. Personnel should be aware that, if reverting to NSV status, there can be no guarantee that they will be able to return to their previous unit or geographical location. There is also no guarantee that personnel will be relieved in their seagoing job at less than normal assignment notice (five months). Personnel are reminded of the need to keep their Career Manager informed of their assignment preferences on JPA.

e. Ratings who are accepted for sea service must successfully complete a Basic Sea Safety Course (BSSC).
f. In order to be eligible for promotion as a VOLSHIP, ratings must hold one of the following qualifications: a NAMET score of 5:5, the equivalent Literacy and Numeracy Testing and Education in the Royal Navy (LANTERN) requirement (Grade D in Mathematics and English Language or Level 1 Certificates in Adult Literacy and Numeracy) or other equivalent educational qualifications.

g. **Carrying and Use of Weapons.** Some NSV personnel have continued to exercise their preserved right not to carry or use weapons, however, such ratings have the option to revoke their decision not to carry or use weapons at any time. It should be noted that, once this right is revoked, personnel will be unable to revert to the ‘no gun’ restriction.
## ANNEX 51A

### SUMMARY OF SIDEWAYS ENTRY SPECIALISATIONS

FLEET HQ Signal DTG FRI xx1200Z/xx1300z
ANNEX 51C

1. Transfer To The Medical Branch As A Medical Assistant

   a. All personnel requesting a transfer to the Medical Branch must obtain manning clearance in the first instance in accordance with Para 5125. If clearance is granted, Disclosure and Barring Service (DBS) checks are to be initiated by the source branch Career Manager.

   b. A two week Medical Centre acquaint is required to assess an individual’s suitability to transfer. This can be arranged by the rating’s Divisional Officer by contacting the Practice Manager of a Base Port Medical Centre HMNB Portsmouth, HMNB Devonport, or HMNB Clyde as appropriate. An interview with the WO1 RNMS will also be required post this acquaint.

   c. If successful post acquaint and interview and the DBS number has been issued, the Ratings Planner at Navy Command Headquarters (West Battery Tel: 93832 8753/DII: NAVY PERS-PPLAN SWPR WO1) is to be advised of the earliest date the individual is available for training by either signal or e-mail. Once this date has been determined, the SP will be assigned to a course and informed of the start date by signal.

   d. Ratings must be medically fit and deployable (normally MFD A4/L1/M1/E1) and be in date for the Royal Naval Fitness Test or hold the appropriate waiver.

2. Acquaint And Interview Requirements For Royal Marine Personnel Requesting Transfer To Royal Marine Medical Assistant

   a. The entry level from RM to RMMA will be at OR2 only. There will be opportunity for a maximum of 8 RM per annum to transfer to the MA Spec. Career management, including selection for promotion, will remain with NPT (Logistics & Medical).

   b. All RM personnel requesting transfer to RM Medical Assistant must obtain manning clearance in the first instance. If clearance is granted, DBS checks are to be initiated by the source branch career manager.

   c. Once manning clearance has been granted, Commanding Officers of personnel requesting transfer are to contact the Medical Branch Specialist Advisor to the RM, WO1(MA)(Cdo) 3 Cdo Bde (RMB Stonehouse Tel: 9375 36411/e-mail 3CDOX-WOMED) to request the arrangement for a two week acquaint at a Unit Medical Centre. The purpose of the acquaint is to allow the individual to be assessed with regard to suitability to transfer and also give them insight into the range of clinical and administrative work undertaken by the Medical Assistant. A programme will be set by the Medical Branch Specialist Advisor to the RM. An Acquaint Pack will be issued to the SP to maximise their short exposure to the role of the Unit/Coy MA.
d. Personnel are to forward a copy of their last SJAR and a letter recommending them for transfer from their Divisional Officer to the Medical Branch Specialist Advisor to the RM, WO1(MA) Cdo, 3 Cdo Bde.

e. On completion of the acquaint, the Medical Centre Practice Manager/Medical Officer are to interview the SP and write a report on the individual’s performance and give opinion as to the suitability/non suitability of the SP to transfer. This is to be forwarded to the Medical Branch Specialist Advisor to the RM, WO1(MA)(Cdo) 3 Cdo Bde by letter.

f. On receipt of the Medical Centre report, the individuals last RORRS/SJAR and the letter of recommendation from Divisional Officer the Medical Branch Specialist Advisor to the RM will make a recommendation by letter to the Medical Ratings Branch Manager, on suitability to transfer to the medical branch. Final decision on transfer will rest with the Branch Manager who will inform the SP’s Commanding Officer by letter.

g. Once the DBS number has been issued, the Ratings Planner at Navy Command Headquarters (West Battery Tel: 93832 8753/DII: NAVY PERS-PPLAN SWPR WO1) is to be advised of the earliest date the individual is available for training by either signal or e-mail. Once this date has been determined the SP will be assigned to a course and informed of the start date by signal.

h. The applicant must be medically fit and deployable (normally MFD A4/L1/M1/E1) and be in date RM BFT or hold the appropriate waiver.

i. All further actions required to progress the transfer following a successful acquaint will be initiated by the Medical Ratings Branch Manager. POC; BM Med WO1, NPT(LM), Navy Command HQ, MP 1-1, Room 123 West Battery, Whale Island, Portsmouth, Hampshire, PO2 8DX
ANNEX 51D

BRANCH TRANSFER REQUEST FORM – YOUNG OFFICERS UNDERTAKING PHASE 1 OR PHASE 2 TRAINING (AIRCREW OFFICERS UP TO GRADING)

In accordance with BRd 3(1); Chapter 51, I wish to apply for a branch transfer as detailed below.

Part 1 - Individual’s Application

Full Name: ........................................................................................................................................

Service Number: ............................................ Unit: ................................................................

Rank: ............................................................. MEDCAT: ......................................................

Nationality: ..................................................... RNFT Pass Date: ...........................................

Current Branch and Specialisation:
................................................................................................................................................

Prospective Branch and Specialisation:
................................................................................................................................................

I have attached a letter of application in which I have provided:

a. Reasons why I wish to transfer to the branch specified.

b. Reasons why I feel that I am suited to the prospective branch.

c. Details of the relevant skills and experience that I believe I would bring to the branch.

d. Details of the research that I have undertaken with regard to the branch.

Please tick box to confirm the above: □

Applicant’s Signature: ................................................................. Date: ............................

ON COMPLETION OF PART 1, FORWARD APPLICATION AND LETTER TO OFFICER COMMANDING OFFICER TRAINING (OCOT)
Part 2 - Officer Commanding Officer Training Declaration

I support the transfer request: ☐ (tick if applicable)

I do not support the transfer request: ☐ (tick if applicable)

The reasons behind whether or not the application is supported are provided in my email. Please find attached/scanned copies of the following (See note):

a. The applicant’s letter.

b. This application form.

Name (Caps): ..........................................................................................   Rank:  ......................

Signature: ..............................................................................................   Date:  ......................

Note. If the forms cannot be scanned and emailed, please email NAVY TRG HQ-PM OFFICERS for alternative arrangements.

ON COMPLETION OF PART 2, OCOT IS TO SEND EMAIL TO THE OFFICER TRAINING PIPELINE MANAGER (NAVY TRG HQ-PM OFFICERS)
ANNEX 51E

BRANCH TRANSFER REQUEST FORM – YOUNG OFFICERS UNDERTAKING PHASE 2 TRAINING

In accordance with Chapter 51, I wish to apply for a branch transfer as detailed below.

Part 1 - Individual's Application

Full Name: ..........................................................................................................................................................

Service Number: ............................................ Unit: ........................................................................................

Rank: ............................................................. MEDCAT: .................................................................

Nationality: ..................................................... RNFT Pass Date: ........................................................

Current Branch and Specialisation:
.................................................................................................................................................................

Prospective Branch and Specialisation:
.................................................................................................................................................................

I have attached a letter of application in which I have provided:

a. Reasons why I wish to transfer to the branch specified.

b. Reasons why I feel that I am suited to the prospective branch.

c. Details of the relevant skills and experience that I believe I would bring to the branch.

d. Details of the research that I have undertaken with regard to the branch.

Please tick box to confirm the above: ☐

Applicant’s Signature: ......................................................... Date: .........................................................

ON COMPLETION OF PART 1, FORWARD APPLICATION AND LETTER TO
COMMANDING OFFICER

Aircrew Officers who have yet to reach the end of Grading should complete Annex 51D.
Part 2 - Commanding Officer's Declaration

I support the transfer request: □ (tick if applicable)

I do not support the transfer request: □ (tick if applicable)

The reasons behind whether or not the application is supported are provided in my letter. Please find attached copies of the following:

a. The applicant's letter to the Commanding Officer.

b. The Commanding Officer's letter of recommendation.

c. A Standard Report Form (covering the branch transfer request) signed and dated by the applicant.

d. A copy of the full E190.

e. Copies of other documentation deemed relevant to the application.

Name (Caps): ......................................................................................   Rank:  ........................

Signature: ...........................................................................................   Date:  .........................

ON COMPLETION, EMAIL/SEND TO THE OFFICER TERMS OF SERVICE MANAGER,
NAVY COMMAND HEADQUARTERS, ROOM 48, WEST BATTERY, MP G-2, WHALE
ISLAND, PORTSMOUTH PO2 8DX

ANNEX

Annex 52A Application for Release from the Naval Service to Enter the Army or RAF – Ratings and Other Ranks on Trained Strength
CHAPTER 52

‘TRANSFER’ FROM THE NAVAL SERVICE TO ANOTHER SERVICE

5201. Definitions and Terminology
Personnel occasionally request to move from the Naval Service to one of the other Services, a process which involves their discharge from the RN or RM and subsequent entry into the new Service. As such, this is not strictly a ‘transfer’ but the term will be used as short hand for the process in this chapter. The Service in which the applicant is currently serving is referred to as the ‘present Service’; the potential future Service is referred to as the ‘gaining Service’. For the rules regarding transfers between the RN and RM or vice-versa, see Chapter 48.

5202. Officer Transfers to the Army or RAF – Untrained Strength
Officers undertaking initial training (hereafter referred to as Young Officers (YOs)) may request permission to withdraw from training up until their Premature Termination of Career Training (PTCT) point (and may make their own arrangements to join the Army or RAF thereafter if they so wish). On passing their PTCT point, officers are required to complete their initial training and serve the specified return of service (ROS) for the training received, details of which are shown in Table 53B-1 and, as such, are unable to seek release to join another Service. However, if a decision has been taken to discharge an individual under the provisions of Para 5437 and the reasons are such that the individual would not be debarred from applying for the Army or RAF, Commanding Officers have the option of forwarding a letter of Recommendation and a copy of the YO's E190/Training Record direct to the Personnel Management Authority of the Service concerned. Contact details for the Army and the RAF are as follows:

**Army**

SO1 MS8  
Army Personnel Centre  
Kentigern House  
65 Brown Street  
Glasgow  
G2 8EX

**RAF**

OASC4e(RAF) MOD  
PO Box 1000  
Cranwell  
Sleaford  
Lincolnshire  
NG34 8GZ
5203. **Officer Transfers to the Army or RAF – Trained Strength**

There are limited opportunities for officers on the trained strength to transfer to the Army or RAF. The policy and procedure is as follows:

a. Officers who wish to transfer to the Army or RAF should first contact the Service they wish to join in order to make sure it is currently recruiting and has vacancies, or is likely to have vacancies, in the branches in which they are interested. Contact details are at Para 5202 sub para a.

b. If the gaining Service has vacancies, applicants are to submit a request for transfer through their Command chain to their Career Manager, copied to the agency specified at Para 5202 sub para a and the appropriate branch within the gaining Service:

   - Military Secretary for Army
   - Air Secretary (attn: PM(AR)1a(RAF)) for RAF

c. Officers are to be interviewed by their Commanding Officer who is to discuss the request with the individual before forwarding the application and recommendation, via the Command chain, to the appropriate Career Manager. At the interview, the Commanding Officer is to make it clear that there is no automatic right to transfer between the Services and that the needs of the individual’s present Service are paramount.

d. The relevant Career Manager is to consider all applications for transfer from the RN or RM in conjunction with CNPers DACOS Career Management before consultation with the personnel authorities of the potential gaining Service. If the application is acceptable to all concerned, the Career Manager will agree a mutually convenient date for transfer with the gaining Service. Any outstanding ROS obligation to the individual’s present Service will be taken into consideration in reaching a decision (see Para 5202 sub para e). If the transfer is agreed by CNPers and Commodore Naval Personal Strategy (CNPS), the normal Single Service rules governing Early Termination (see Chapter 54 for RN/RM; AGAI for Army; and GAI 6028 for RAF) will apply and no preferential consideration will be given to the fact that the application is for a move between the Services.

e. Rank, seniority and other terms and conditions of service will be confirmed by the gaining Service as soon as is practicable. For transferees to the Army, the terms of service rules are contained in Army Commissioning Regulations and, for the RAF, in AP3393. Detailed terms of service will be formally notified to the transferee, with a copy being sent to the present Service. As there is no actual break in service, there will be no effect on prospective entitlement to retired pay and terminal benefits, and reckonable service accrued with the present Service will be aggregated with the period of employment with the gaining Service.
f. The present Service will issue an official letter to the officer (copied to the gaining Service) explaining that the individual's existing commission will be terminated on the day before their assignment to a commission in the gaining Service and that they will not be placed on the Retired List of the present Service, nor will they be subject to a recall liability to the present Service.

g. The London Gazette will be annotated "Commission terminated (date) on transfer to... (as appropriate)".

h. If the transfer request is not supported by the gaining Service, officers will remain in their present Service, which will be responsible for providing official notification to the individual (copied to the proposed gaining Service).

5204. Ratings and Other Ranks - Eligibility to Seek Release to Join the Army or RAF – Untrained Strength

Whilst ratings and other ranks have a statutory right to leave within their first 6 months’ service or until their 18th birthday (if later) (and may make their own arrangements to join the Army or RAF thereafter if they so wish), beyond this point individuals are ineligible to submit their notice until completing a minimum of 2½ years on the trained strength (see Para 5403) and, as such, are unable to seek release to join another Service. However, if a decision has been taken to discharge an individual under the provisions of Para 5442 and the reasons are such that the individual would not be debarred from applying for the Army or RAF, Commanding Officers of establishments have the option of forwarding a letter of recommendation (the form at Annex 52A should not be used in such cases) and a copy of the individual’s full Service Documents direct to the Personnel Management Authority of the Service concerned.

5205. Ratings and Other Ranks – Early Release to Join the Army or RAF – Trained Strength

a. Individuals who wish to apply for early release to join the Army or the RAF before the end of their career or engagement may do so once they have reached the point at which they are eligible to submit 12 months’ notice to leave the Naval Service (see Para 5302 sub para b) and only if they are not subject to either a further training or financial ROS (see Para 5303). There are two normal methods for applying:

   (1) If an individual chooses to seek a transfer through Service channels, and manning clearance is given to do so, successful applicants will be able to leave the Naval Service on the day before entering the other Service. In this way the individual retains continuity of service which may have beneficial implications on pay and pensions. It may also be possible, if both Services agree, to allow the transfer in less than the normal 12 months’ notice period, but the actual timing will depend on a variety of factors.
(2) The alternative is for the rating or other rank to submit 12 months’ notice and apply independently to enter the gaining Service, without involving their present Service. Under these circumstances it will not be possible to arrange the same continuity of service. Individuals who have already submitted notice, and who are serving out the 12 months’ notice period, or who have already been offered a place in the Army of RAF through their own efforts, are not eligible to be considered for release iaw Para 5205 a sub para (1), but may be eligible to apply for release at less than 12 months’ notice (see Para 5413).

b. Before applying for release from the Naval Service to join another Service through Service channels iaw Para 5205.a sub para (1), ratings and other ranks who are considering a career in another Service should make appropriate enquiries at a Careers Office, namely to confirm that they meet the entry requirements and that the gaining Service is currently recruiting for that specialisation. Commanding Officers are required to confirm that the individual has made these enquiries before forwarding a request.

c. **Forwarding of Requests.** An application form for release from the Naval Service, iaw Para 5205.a sub para (1), to join the Army or RAF can be found at Annex 52A. Forms must be completed fully, including the recommendation and signature of the Commanding Officer, and returned with a copy of the full Service Documents to Navy Command Ratings Terms of Service Manager. Individuals should not apply for Early Termination on JPA in such cases.

d. Approval for early release to join the Army or RAF is subject, in all cases, to Naval manning requirements and approval will only be given in exceptional circumstances, such as where an individual’s talents could be better utilised in the other Service. Requests based on personal reasons for wanting to join another Service, such as a notion that an individual will encounter less family separation, will not be considered and therefore must not be forwarded.

e. **Unsuccessful Applications.** Should an individual not gain manning clearance to join the Army or RAF or be unsuccessful in their application to join another Service, they will remain in the Naval Service until such time that they reach the end of their career/engagement or submit 12 months’ notice to leave via JPA, if sooner.

f. **Failure to Enter the Army/RAF after Successful Application.** In the unlikely event that an individual does not enter the gaining Service, after having gained manning clearance for release from the Naval Service and having successfully applied for their chosen Service, a decision will be taken in respect of their future, based on the individual merits of the case. Whilst individuals who have reached this stage of the application process are deemed to have submitted their notice option, due consideration will be given to their wishes, either to continue in the Naval Service or to complete the 12 month notice period (starting from the date that the application form is signed) and thereby leave. Commanding Officers should forward details of the circumstances, their recommendation and the wishes of the applicant to the Ratings Terms of Service Manager.

## SECTION 2 - DECLARATION OF APPLICANT

To: The Commanding Officer

I wish to apply for premature discharge from the Naval Service to enter the Army/RAF* in accordance with BRd 3(1) Para 5205 and I can confirm that, in accordance with BRd 3(1) Chapter 53 and Chapter 54, I am on the trained strength and became eligible to submit 12 months’ notice on:

(calculated by adding the requisite minimum time to serve to the Standard Initial Training Period)

I can confirm that I have no outstanding Return of Service for any training received since completing my initial training.

I can confirm that I have not submitted or am currently serving out 12 months’ notice of discharge.

I have made appropriate enquiries of the other Service at the Armed Forces Careers Office at:

[Blank space for additional information]
regarding the specialisation of: 

I can confirm that: I meet the qualifications required and that the specialisation is open to recruitment: 

I am/am not* willing to undertake a regular engagement in the Army/RAF*. 

If manning approval is given, I give/do not give* authority for a copy of my Service Documents to be forwarded to the Recruiting Authority of the Service I am applying to enter. 

* Delete accordingly

Signature: Date: 

N.B. In the unlikely event that an individual, who has gained manning clearance and been successful in their application, does not then enter that Service, a decision will made regarding his/her future on its individual merits. Whilst an individual is deemed to have submitted his/her notice, due consideration will be given to an applicant’s wish to continue in the Naval Service or to complete the 12 month notice period (counting from the date that this form is signed) and leave. Individuals whose application is unsuccessful at any stage will automatically remain in the Naval Service.

SECTION 3 - APPLICANT’S QUALIFICATIONS
Details of Qualifications (showing grade achieved) (enclose additional sheet if necessary).

SECTION 4 - COMMANDING OFFICER’S STATEMENT
I can confirm that the applicant has a medical category of: 

and became eligible to submit his/her notice option on (please confirm date shown at Section 1 of the Applicant’s Declaration)

My recommendation is as follows:
Name and Rank (in Capitals):  

<table>
<thead>
<tr>
<th>Signature:</th>
<th>Date:</th>
</tr>
</thead>
</table>

On completion, this form and a COPY of the relevant documentation should be forwarded to: Ratings Terms of Service Manager, Navy Command Headquarters, MP G-1.1, Room 133, West Battery, Whale Island, PORTSMOUTH, Hants PO2 8DX

In the event that it is subsequently discovered that an individual was ineligible to submit his/her notice, the application will be rendered void and no further action will be taken.

In accordance with the General Data Protection Regulations (2018), the MOD will collect and process the information supplied on this form in connection with matters concerning personnel administration and policies. In order to comply with statutory obligations, the data will be retained and reviewed as necessary and may be transferred to electronic media. The MOD is committed to ensuring that your personal data is kept securely and that it will not be disclosed unlawfully.

CHAPTER 53
RETURN OF SERVICE

5301. General

a. When RN and RM personnel undertake specific courses of training, studies or receive financial bonuses, the Naval Service requires a return on its investment. The normal requirement is that individuals complete an effective period of service called a return of service (ROS) which is defined as a period of time that an individual who has undertaken a course of funded training, taken up a secondment or placement within industry or been assigned into a designated command appointment shall be required to serve in order to give a reasonable return on the investment made by the MOD. Training falls into two areas: initial training, that undertaken by officers, ratings and other ranks prior to joining the trained strength; and further training, that undertaken by officers, ratings and other ranks who have joined the trained strength.

b. The Service not only invests in its people by means of training but also by appointing individuals into key roles, including command, where they acquire a breadth of experience and depth of knowledge which can be reinvested in subsequent positions, invaluable for the conduct of current operations, the administration of the Naval Service and the future planning of Defence. It would be illogical for the Service to appoint individuals into such key roles without seeking an assurance that it will be able to reap the benefits of the experience and knowledge which they have gained during the relevant appointment. In order to ensure that the Service is investing in those from whom it can gain such a return, certain command appointments will carry a ROS (see Para 5308).

c. It is the responsibility of individuals to acquaint themselves with the ROS requirements and regulations prior to applying for courses/training, selection for SASB2/AASB2) appointments or before receiving bonuses. It will be necessary to complete the appropriate ROS undertaking form in order to undertake further training, take up command appointments or receive Financial Retention Initiative (FRI) bonuses (see Para 5303 sub para c or Para 5308 sub para b).

5302. ROS for Initial Training

a. Officers

(1) Officers can voluntarily withdraw from initial training up to a defined point in their training pipeline known as the Premature Termination of Career Training (PTCT) point. Details of the PTCT and the voluntary withdrawal from training process can be found at Para 5402.
(2) Beyond the PTCT point, RN and RM officers are required to give a ROS in recognition of the cost of their initial training which for all (except those promoted under the Senior Upper Yardman (SUY)/Senior Corps Commission (SCC) schemes) is defined as the training completed prior to joining the trained strength (eg. Phase 1 training at BRNC Dartmouth and CTCRM Lympstone; Phase 2 professional training such as IWOC, ILOC(M) and SEMC). For SUY/SCC officers promoted from the ranks, initial officer training is considered to be complete once individuals commence their first effective assignment.

(3) Details of the applicable initial training ROS are at Table 53B-1, whilst Table 53B-2 shows the point at which initial training is completed in all officer specialisations. Para 5305 contains information concerning ROS waivers.

b. Ratings and Other Ranks

(1) All new recruits enlisting in the Naval Service, who have not previously so enlisted, have a statutory right to claim discharge within their first six months of service, provided that they have completed a minimum four weeks' service (excluding leave periods and any forfeited service) from their date of entry, or until the day before their 18th birthday, if this comes after the end of the six month period. Full details can be found at Para 5403.

(2) For ratings and other ranks, a ROS is required to consolidate an individual's training and give a reasonable return on the investment made by the Service. Having completed six months' service, or reached the age of 18 (if this comes after the end of the six month period), and subject to the exceptions that follow, ratings and other ranks become eligible to submit an application for Early Termination as follows: for those who joined prior to 4 Sep 16, on completion of 2½ years' service (commonly known as the minimum time to serve (MTS)) from the end of their Standard Initial Training Period (SITP), and for those who joined on or after 4 Sep 16 the 2½ year ROS will commence from the point they join the Trained Strength; this is on completion of Phase 1 and Phase 2 Training. The exceptions to the 2½ year rule are Student Naval Nurses and Medical Technicians who must complete a minimum of 3 and 3½ years respectively from the end of the SITP before they are eligible to apply for Early Termination. Details of the SITP are shown at Table 53B-3.

(3) The SITP varies across specialisations and is the theoretical aggregate of the time that a rating or other rank spends undergoing the various components of initial training, assuming a smooth flow through the system and including an element for leave. Dates of actual completion of training should not be used. It should be noted that, if the length of an SITP is reduced, ratings and other ranks within the respective specialisation(s) will also be able to use the reduced period in the calculation of the earliest date on which they can submit their notice. If a SITP is lengthened, ratings and other ranks will retain their shorter SITP period.
(4) Unlike the ROS for further career training, the MTS period cannot run concurrently with the notice period. An individual must complete the MTS period before they become eligible to apply for Early Termination.

(5) When a rating or other rank voluntarily transfers from one specialisation to another and therefore undergoes two periods of initial training, the first SITP, if completed, is to be used in determining their earliest release date. If the training is not completed, the time spent undergoing such training can count towards the SITP for the new specialisation. For example, if an individual spends four months undertaking training to become a Diver (with a nine month SITP) and is then allowed to transfer to the Air Engineering Technician specialisation, the four months will count towards the new 14 month SITP.

5303. ROS for Further Training and Financial Remuneration

a. Training ROS

(1) A zero ROS is the normal standard for Service personnel attending further training courses ie. that which follows the completion of initial training. However, some tri-Service and single-Service further training courses and qualifications exceptionally attract a training ROS (ie. as a result of being demonstrably expensive; lead to highly marketable skills or qualifications; normally of at least six months’ duration, including modules of a course that add up to six months or more; in areas where there is a significant current or forecast operational or manning pinch points and failure to retain the individual would have a direct impact on the immediate output or operational capability of the organisation; where manning organisations require a long lead time to trawl, nominate and assign an individual to a training course). These courses are published regularly by DIN and are shown at Table 53C-1, Table 53C-2 and Table 53C-3.

(2) A training ROS will normally only be applied where an individual attends a discrete course of training away from normal duty. It is accepted that some training is delivered in the course of normal duties, but such training would not normally attract a training ROS unless it resulted in a recognised qualification in a transferable skill.

b. Financial ROS

(1) **Bonus Payments or Financial Retention Incentives.** From time to time, bonuses may be offered to personnel in shortage categories as a retention measure, with a financial ROS required in return - see JSP 754 (Tri Service Regulations for Pay and Charges) for more details. In general terms, the ROS will run concurrently with any other ROS required by courses or training. Individuals wishing to submit an Application for Early Termination whilst still bound by this type of ROS will be required to pay back some or all of the money they received.
c. **The ‘ROS Declaration’ for Further Training Courses and FRIs**

(1) Individuals who are eligible to apply for Early Termination will be required to waive that right for a period equal to the length of the training course (if there is no ROS attached to the course) or the length of the course plus any ROS required for volunteering to attend a further training course.

(2) It is a condition of undertaking any course or accepting any FRI which attracts a ROS that all personnel must sign a written undertaking to state that they understand and accept the ROS requirement. A ROS Declaration (for officers, see Annex 53A; for ratings and other ranks, use Form S2658), will be issued to the individual by either the Training Establishment or the Career Manager with instructions for its completion in the Remarks of the Assignment Order which assigns them to the course. The completed and signed undertaking must be returned as required (once an individual has applied for and been accepted for an FRI or bonus, the Unit HR informs DBS JPAC to take the appropriate payment action and forwards the original completed and signed application form to the Career Manager) and the individual’s Earliest Exit date in JPA will be amended by the Career Manager. Mistakes found subsequently on the form itself or the loss of a signed form will not necessarily exempt the individual from being obliged to complete the ROS in force at the time; each case will be considered on its merits. Career Managers should store the signed form by scanning the document into JPA and attaching it as a public document to the Scribble Pad area and, vitally, forward the form to the DBS JPAC Records Office, since it will be required in the event that the SP challenges the ROS liability. Refusal to sign the form, when presented, will debar the individual from starting the course and the individual will reassigned.

(3) Once an individual has applied for and been accepted for an FRI or bonus, the Unit HR informs DGS JPAC to take the appropriate payment action and forwards the original completed and signed application form to the Career Manager. On receipt of the form, the Career Manager is to update the individual’s JPA record with the ROS name, ROS date and Earliest Exit Date.

(4) All individuals may serve out their notice period concurrently with the final 12 months of any outstanding ROS.

5304. **ROS General Points**

a. **ROS Starting Point.** Whilst a training ROS will normally commence on the completion of the course, the ROS obligation is incurred from the start date of the course and may be applied, subject to Service needs, at any time, irrespective of the final course outcome.

b. **Concurrence.** All periods of training ROS, whether for initial or further training, together with any time an individual is committed to serve as part of their Service engagement, will run concurrently unless otherwise specified. Employers and Career Managers are to ensure that an individual has sufficient service remaining in order to complete the relevant training ROS prior to formally committing the individual to a training course.
c. **Withdrawal from Training – Impact on ROS**

(1) Individuals who embark on a course of further training are not permitted to apply for Early Termination during the training.

(2) Individuals who are withdrawn from further training (for whatever reason), or who effectively withdraw themselves from training, will need to ‘work off’ a period of ROS. As a rule, this period will be determined by the Navy Command Headquarters Terms of Service Team (in conjunction with the appropriate Career Manager and Branch Manager), taking into consideration a number of factors. These include the amount of the course that has been completed, the perceived value of the training to potential external employers, the course length, course frequency and number of places per course, the attractiveness of the course to Naval Service personnel, the loss to the Service if the individual does not complete the training, the ability of the Service to select, assign and train replacement personnel and, finally, the reason for not completing the course eg. compassionate or career change.

(3) As a general rule, personnel who leave or fail to complete those courses which are highly sought after and embrace easily transferred skills, such as management accountancy and barrister training, are likely to be required to complete the majority, if not all, of their ROS commitment.

(4) However, individuals will, if they are otherwise qualified, be permitted to apply for Early Termination with effect from the date of failure or withdrawal from training. Individuals who have requested an extension of service in order to qualify under Para 5304 sub para f will not have their extension cancelled if they fail or withdraw from the course but will become eligible to apply for Early Termination.

d. **Transferability of ROS.** As a rule, a training ROS liability is transferable between Services. Where an individual who is subject to a ROS transfers to another Service, they are required to complete a new undertaking for the balance of the ROS liability as part of the transfer arrangements.

e. Personnel who apply to exit prematurely from their Service while undertaking a training course that attracts a training ROS will be removed from the course immediately, unless it is in the Service interest to do otherwise.

f. **Extension of Service to Complete Course or ROS.** Personnel assigned to training courses who do not have sufficient time to serve in order to fulfil the ROS requirement must agree to request an extension of service (see Para 4926) to cover the length of course and its associated ROS. In these circumstances, Form S61 should be completed and forwarded to the appropriate Career Manager prior to the commencement of training. The S61 should be completed to the effect that the individual understands that any new career/engagement and/or extension will remain valid in the event of course failure.
g. **Selection Procedure for Individuals Formerly Ineligible for Courses.** Individuals who are ineligible for courses as a result of submitting their notice, or are nearing completion of a commission or engagement stage, and subsequently withdraw their notice or re-enlist, will not necessarily be selected for the next available course for which they become eligible. Such individuals may be assigned to sea service, if due, with courses being arranged during their next period of shore service.

h. **Individuals subject to Administrative or Medical Discharge whilst completing ROS.** Individuals who are administratively discharged whilst under an FRI ROS obligation will be referred to the JPA termination debt recovery cell to make arrangements for recovery of the bonus. Arrangements for recovery of any payment following medical discharge will be on a case by case basis, in accordance with JSP 754.

i. **Time Spent in Acting Higher Rank.** Time spent in the acting higher rank by officers, ratings and other ranks does not generate a ROS.

j. **Transfer to a Longer Commission.** Transfer to a longer commission by officers does not attract a ROS.

k. **Non-reckonable Service.** Periods of non-reckonable service do not count against a ROS and, if approved, will extend the ROS end date accordingly.

---

5305. **ROS Waivers**

a. Requests for a ROS waiver will be considered on a case by case basis. Early release from a ROS commitment is not a right and should therefore not be relied upon if applying for civilian employment. Individuals must not accept an offer of employment which would commence earlier than the end date of the ROS period until their application for a ROS waiver is approved officially. Every effort must be made to ensure that there are no delays in forwarding any request for a waiver of ROS (especially those submitted for compassionate reasons) for staffing. If granted, a ROS waiver will enable individuals to apply for Early Termination, however release within 12 months will be subject to the agreement of the appropriate Competent Authority (see Annex 54A). A ROS waiver does not negate the requirement to repay any financial liability for a bursary or cadetship. See Para 5412 to Para 5415 for further information regarding Non-Standard Early Termination (including ROS waivers), early release criteria and the application process.

b. If a ROS waiver is sought on medical grounds (further training only), the request must be accompanied by a medical certificate signed by a Service Medical Officer.
5306. ROS for UY(E) University of Portsmouth (UoP) Degree Course

a. UY(E) officers who complete the UoP degree course as a precursor to joining the Officer Corps, but do not subsequently become a Gain to the Trained Strength in the Officer Corps (whether through voluntary or compulsory withdrawal from training), will have to return to the Ratings Corps (preferably in their source branch) to complete the balance of any ROS accrued whilst they were a rating on the trained strength. Completion of the ROS in full as a rating will cancel the financial liability that individuals would otherwise have (if leaving as officers) in lieu of their Service funded degree; failure to complete the ROS (for whatever reason) will mean that individuals potentially remain liable to refund education costs in full.

b. The balance of the ROS (deemed to start upon posting of final results) to be served by a UY(E) officer on returning to the Ratings Corps will be determined by the ROS that was outstanding when he/she joined BRNC, less any time served as an officer.

c. In an exceptional case (medical, compassionate or welfare; not professional or educational failure) and for reasons outwith their control, should a UY(E) fail to complete the UoP course or is unable to complete the ROS as a rating, then the liability to repay education costs in lieu may be reviewed. Each case will be considered on its individual merits.

5307. ROS for Transfers and Re-entry Requiring Bespoke Training

Personnel re-entering or transferring into the Naval Service, or transferring between branches and/or specialisations, who are required to undertake a period of bespoke training may be required to accept a ROS liability for such training. The bespoke training ROS will be determined on a case by case basis by the Terms of Service Team, in consultation with key Headquarters personnel, who will provide written notification to the individual of the ROS liability.

5308. ROS for Undertaking Command Appointments

a. General. Command is a privilege and the essence of service as an officer in the Naval Service. It is an opportunity given only to the very best and it carries certain obligations and responsibilities. These are most evident whilst in an appointment, but the experience gained in command is unique. Additionally, there are some appointments at OF4 level and above that, by necessity, draw on previous Sea Appointment Selection Board (SASB2)/Air Appointment Selection Board (AASB2) command experience. Therefore, it is in the best interests of the Service that it should seek a return on its investment in appointing individuals to command. Command appointments are therefore reserved for those officers who are prepared to show exceptional commitment by providing an assurance of continued service which will allow both them and the Service to capitalise upon their command experience to the overall benefit of Defence and in the interests of national security. An officer who is not prepared to accept command under these terms will not have their appointment confirmed and may be removed from any future command considerations.
b. **ROS Starting Point.** Officers undertaking their first appointments after selection by the annual Jun/Jul SASB2/AASB2 will be required to provide a 24 month ROS. Whilst the obligation to complete the ROS is incurred from the date that command is assumed i.e. the start date of the SASB2/AASB2 command assignment, the ROS period will commence on completion of their command tour (or the date of earlier re-assignment if applicable). Such a ROS may also be applied to other command assignments (eg. RM, Shore Command, Charge, SASB1 etc.) if deemed appropriate and/or necessary. In such cases, the ROS starting point and liability will be calculated in the same manner. Officers will be notified of the ROS attached to a future command assignment on the Assignment Order and must complete a ROS Declaration Form (Annex 53E). The officer will be given the opportunity to decline the appointment offer.

c. **Impact of Applications for Early Termination.** Applications for Non-Standard Early Termination are to be made in accordance with Para 5412, however, it should be understood that Non-Standard Early Termination is not a right and officers should not seek or accept future employment in the expectation that an application will be approved.
ANNEX 53A

RETURN OF SERVICE UNDERTAKING FOR FURTHER TRAINING - OFFICERS

To: [Career Managers Title and Address]
Room ........
West Battery
Whale Island
PORTSMOUTH
Hants
PO2 8DX

1. I understand and accept that:
   
a. My future assignment to undertake .................................................................
      course/training has a return of service (ROS) of ..... months.

   b. I recognise that, in return for furthering my Naval career by undertaking the
      above course and the investment the Service is making in me, I will be subject to the
      ROS liability from its start. I also understand that the period of ROS to be "worked off"
      will commence from the date I cease training, whether upon successful completion of
      the course, failing or upon being withdrawn from training for any reason. If the
      training/course is not completed, the precise ROS to be completed will be calculated
      by the Navy Command Headquarters Terms of Service Manager, who will take into
      account factors such as the value of the training to an external employer, the reason(s)
      for not completing the course, the amount of training completed and the ability of the
      Service to select, assign and train a replacement.

   c. I understand that if I apply either to exercise my notice option or resign prior to
      commencing or whilst undertaking further training, I may be withdrawn from training
      and re-assigned. I recognise that my withdrawal from the course due to an application
      to exercise my notice option will not negate my ROS liability for undertaking this
      training.

2. I have read and understood the regulations pertaining to ROS, Early Termination
   and/or Resignation described in BRd 3(1).

Signed: ............................................................

Name (in Block Capitals) ............................................................

Service Number: ............................................ Date: ............................................................

Once completed, this form will be placed on the individual's
Personal File and kept for 116 years from date of birth

(The ROS for Special Forces training courses have been excluded from this Table – for information on which SF training courses attract a ROS, contact the NCHQ Terms of Service Team.)
Notes:

1. The ROS is to be applied only when the full cost of training is funded by the MOD.

2. Training completed by a TP during their TP tour will only incur a ROS if: the training is a full military OCU on a new aircraft type or the training results in a civilian type rating, in which case an 18 month ROS will apply.

3. Includes the Army Language Scholarship scheme and any language training exceeding 12 months’ duration.

4. A Professional award is any NATO SLP profile aggregating between 9 and 12 points, with not less than 6 SLP points for either speaking and listening together or listening and reading together. An Expert award requires a minimum of 13 SLP points, with no skill lower than SLP2. The ROS is to run from the first qualifying award.

5. Including Flying Instructor courses.

6. When personnel attend modules of RCDS but not the whole course, a Trg ROS is to be calculated on a pro-rata basis, based on the length of the module(s) completed.

7. Aircrew returning to a previously trained on aircraft type will not be required to complete a ROS on refresher training.

</table>

**Notes:**

1. **After a minimum of 36 months functional service as a DMS Consultant, the single Services are at liberty to review ROS for those consultants that have completed a minimum of 3 years’ GDMO service prior to HPT. Completion of ROS is to be balanced between the exigencies of Defence and DMS specialty manning requirement and DMS cadre management (not applicable to second career consultant training). Where it is considered that a case can be made for rescinding any or all of the final 24 months ROS, Career Managers are to forward individual case details and justification to HQSG Pers Pol for consideration and ratification by CDP.**

2. **Those who receive training through the military to achieve a registerable qualification and subsequent GDC registration. The Trg ROS is to commence from completion of the training that will lead to GDC registration, rather than waiting for the registration to be completed.**

## Notes:

1. The differences in legal training ROS recognise that some individuals will be part-qualified on starting courses and will therefore require less training. For officers who successfully complete barrister training, the ROS liability will start to be ‘worked off’ from completion of pupillage. If, however, pupillage has to be split into 2 periods before and after another assignment, the ROS will be measured from date of completion of the first period.

2. Individuals who are withdrawn from officer training (voluntarily or compulsorily) before becoming a gain to the trained strength (GTS) will be required to return to the ranks to complete the balance of the 3 year ROS period.

3. For officers who successfully complete the HM course, the ROS liability will start to be ‘worked off’ from completion of the second module. Where the two modules are separated by a complement assignment to meet the Service need, ROS will begin at the start of that assignment.

4. The ROS will start to be ‘worked off’ from the end of the training shown.

5. The ROS for MEGS is to be applied as follows:
   
   a. ME151A & C and ME152 A & C will be on completion of the respective Craft Training packages.

   b. ME151B and ME152B will be on completion of the streamed qualifying course.

   c. ME153 (All streams) will be on completion of the respective streamed qualifying course.

6. The RoS linked the ME151 to the series of training, noting a MTS in accordance with Para 5302 b(2) and (4), is also applicable the AA scheme.

7. In accordance with Para 5302 b(2) and (4), the MTS for DET is 30 months from completion of Phase 1 and Phase 2 Training. They also come under the TRoS associated with the respective Phase 2 course training.
ANNEX 53D

UY(E) OFFICER CANDIDATES - UNDERTAKING TO WAIVE RIGHT TO GIVE NOTICE AND, IF APPLICABLE, TO REPAY THE COSTS OF SPONSORSHIP IN RETURN FOR UNDERTAKING FURTHER CAREER TRAINING/EDUCATION AND DEVELOPMENT

In consideration of the Secretary of State for Defence supporting me (under the terms set out in the attached document) while I am undergoing training at the University of Portsmouth (UoP) with a view to obtaining a Service funded degree required to become a UY(E) officer.

I, ..............................................................................................................................................
of .............................................................................................................................................
................................................................................................................................................

HEREBY AGREE AND UNDERTAKE that:

1. I will use my best endeavours to complete the studies.

2. In accordance with Para 5306 and upon completion of my final examinations on the UoP degree course, if, other than by reason of redundancy, I should subsequently:

   a. Be withdrawn from officer training voluntarily before my Gain to the Trained Strength (GTS) point (having joined BRNC as a UY(E) officer), I will return to the rating corps (preferably in my source branch) to complete the balance of a 3 year ROS1 – the length to be determined by the ROS outstanding on joining BRNC less any time served as an officer - in recognition of the fact that I will obtain a full time funded degree from the RN as a rating.

   b. Be removed from officer training compulsorily before my GTS point (having joined BRNC as a UY(E) officer), I will return to the rating corps (preferably in my source branch) to complete the balance of a 3 year ROS - determined by the ROS outstanding on joining BRNC less any time served as an officer - in recognition of the fact that I will have obtained a full time funded degree from the RN as a rating.

   c. Withdraw voluntarily or be withdrawn from the UY(E) scheme before entry to BRNC, I will be liable to complete a 3 year ROS as a rating (preferably in my source branch).

3. If I fail to complete the UoP course, I will be liable to repay costs incurred.

4. I understand that if I return to the rating corps and serve out of the required ROS in full, it will negate any financial commitment for the degree training received.

---

1 This will start upon posting of final results.
2 In an exceptional case (Medical, compassionate or welfare, but not professional or educational failure), and for reasons out with my control, should a UY(E) fail to complete the UoP course or is unable to complete the ROS as a rating, then the liability to repay education costs in lieu may be reviewed by the Naval Personnel Team (E). Each case will be considered on its individual merits.
5. If, for any other reason, a ROS cannot be served in full, I shall be liable to repay costs. I will, if required to do so, pay to the Secretary of State an amount equal to the total of the costs incurred on my behalf by the Secretary of State in respect of, or in connection with, my studies and subsequent service. I understand that these costs include the tuition fees for the UoP degree course, an amount equivalent to the education grant received by University Cadet Entrants for the period of sponsored studies and the value of cash grants issued.

6. I agree that, if I cease to be a member of the RN, any costs that may be repayable to the Secretary of State pursuant to this understanding may be set off against any pay, allowances, pension benefits or other payments due to me. If this is not possible then recovery will pass to PACCC Recoveries & Write Offs.

The reasons for the Secretary of State requiring this undertaking have been explained to me.

Dated the ……………….. day of …………………… 20………………

(Signed): ........................................................

Witnessed by:

ANNEX 53E

RETURN OF SERVICE UNDERTAKING FOR SASB2/AASB2 COMMAND APPOINTMENTS

To: [CM OF WAR SO1X/CM OF WAR AIRSO1]
Room ……..
West Battery
Whale Island
PORTSMOUTH
Hants
PO2 8DX

1. I understand and accept that:
   a. My future appointment in Command of ……………………………………………………. has a return of service (ROS) of 24 months from completion of my tenure.
   b. I recognise that, due to the unique experience gained in Command, it is in the best interests of the Service to seek a return on that investment and that I will be subject to the ROS liability from the date my Command is relinquished. I also understand that the precise ROS to be completed will be calculated by the Navy Command Headquarters Terms of Service Manager, who will take into account factors such as the ability of the Service to select, assign and train a replacement.

2. I have read and understood the regulations pertaining to ROS, Early Termination and/or Resignation described in BRd 3(1).

Signed: ................................................................................................

Name (in Block Capitals) ...........................................................................

Service Number: ...................................................................................

Date: ...................................................................................................

Once completed, this form will be placed on the individual's Personal File and kept for 116 years from date of birth

**Appendix 1** Application to Leave the Service at an Optional Exit Point
CHAPTER 54
LEAVING THE SERVICE

SECTION 1 – EARLY TERMINATION

5401. Introduction
Individuals who are not due for compulsory retirement but who wish to leave the Service, for whatever reason, before reaching the end of their commission or engagement may apply for Early Termination provided the conditions outlined in the Paras below are met.

5402. Earliest Date to Apply for Early Termination – Officers

a. Officers undertaking initial training (hereafter referred to as Young Officers (YOs)) may request permission to withdraw from training up until their Premature Termination of Career Training (PTCT) point. Requests for officers attending BRNC will be considered provided that they have completed a minimum of 4 weeks of INT(O) training (not including leave periods). The requirement to have served a minimum of 4 weeks may be reduced or waived only in exceptional circumstances; this will be at the discretion of CO BRNC. Requests will normally be granted provided the YO has not passed beyond the stage of training specified in Table 54-1, although student Aircrew/Air Traffic Control Officers will still be required to be interviewed at the Naval Aircrew Advisory Board (NAAB) in accordance with Para 5742 to investigate the circumstances surrounding their request to leave. On passing their PTCT point, officers are required to complete their initial training and serve the specified return of service (ROS) for the training received, details of which are shown in Table 53B-1. Only in exceptional circumstances will the Navy Command Headquarters Terms of Service Team, on behalf of the Assistant Chief of Naval Staff (Personnel)/Naval Secretary, consider voluntary withdrawal from training (VWFT) requests submitted by individuals who have passed their PTCT point – see Para 5412 and Para 5415.

b. Medical and Dental officers selected for specialisation courses lasting two or more years are required to waive their right to voluntary retirement.

c. The CO BRNC has delegated authority for the management of VWFT requests submitted by YOs during the period up to passing out of INT(O) at BRNC.

d. The Commandant CTCRM has delegated authority for the management of VWFT requests submitted by RM officers during Phase 1 training at CTCRM.

e. The CO BRNC/Commandant CTCRM is responsible for informing the YO in writing of the outcome of their VWFT request and, if appropriate, provide details of any resultant financial liability.

f. The CO BRNC/Commandant CTCRM and his/her staff must ensure that all officers are fully counselled before accepting and approving the request. If, after counselling, it is established that an individual wishes to transfer branch/specialisation (or in the case of a RM YO, wishes to join the RN), the CO BRNC/Commandant CTCRM is to submit the request, together with their recommendation, to the Officer Terms of Service Manager who, in turn, will consult the Officer Training Pipeline Manager (NAVY TRG HQ-PM OFFICERS), the approving authority for YO branch/specialisation transfers (see Para 5104).

g. Throughout the process, it is important that the CO BRNC/Commandant CTCRM continues to liaise closely with the Officer Training Pipeline Manager so as to ensure that both current and future manning requirements against Fleet Gains to the Trained Strength (GTS) targets remain as balanced as possible.

h. Aircrew and ATC Officers. A YO who wishes to apply for VWFT should submit a request in writing through the chain of command to their CO who, in turn, should interview the YO to satisfy himself/herself as to the reasons for the request and remind the YO of the requirement to acknowledge his/her uniform/equipment and education costs. If the YO still wishes to proceed, his/her letter together with all of the appropriate documentation should be forwarded to the NAAB (see Para 5742).

i. The NAAB will arrange to interview the YO as soon as possible, however a holdover assignment may be arranged if the individual cannot be seen by the NAAB within a reasonable timescale. The NAAB will submit a written report to Navy Command ACOS(CSAV), together with all of the appropriate documentation and recommendations, as to the disposal of the case. After consideration, ACOS(CSAV) will forward the case and all of the appropriate documentation, including the YO’s full training record, the NAAB report and ACOS(CSAV)’s own recommendations, to the Officer Terms of Service Manager for approval, who will inform the YO in writing of the final decision (copied to ACOS(CSAV) and the NAAB).

j. Where an inter-FAA transfer is approved by Navy Command ACOS(CSAV), P/NAAB will forward the approval to the Officer Terms of Service Manager for agreement of the terms and conditions of the transfer.
k. **Upper Yardman (Engineering) UY(E) Scheme.** UY(E) officers who, having completed the University of Portsmouth (UoP) degree course as a precursor to joining the Officer Corps, do not subsequently become an officer on the trained strength, whether through voluntary or compulsory withdrawal from training, will return to the Ratings Corps (preferably in their source specialisation) to complete the balance of any ROS accrued (for completing the UoP degree course) as a rating on the trained strength. See Para 5014 and Para 5306 for more details.

5403. **Earliest Date to Apply for Early Termination – Ratings and Other Ranks**

a. **Statutory Discharge Within First Six Months of Service**

(1) All new recruits enlisting in the Naval Service, who have not previously so enlisted, have a statutory right to claim discharge within their first 6 months of service provided that they have completed a minimum of 4 weeks' service (excluding leave periods and any forfeited service) from the date of their entry. From this point, recruits exercising their right to leave the Service will be entitled to release no later than 14 days after giving notice in writing to their CO and recording their request to leave on JPA. Procedures for ‘Applying for Early Termination’ can be found in the JPA Employee Self Service Assistance Guide. The 14 days’ notice period will commence from the date on which the recruit records the request on JPA unless they are in detention (see Para 5403 a sub para (5)). COs have the discretion to reduce the 14 days’ notice period when special circumstances warrant such action.

(2) **Re-entry.** Discharge under the provisions of this paragraph cannot be exercised by individuals who re-enlist in the same Service, i.e. it is only allowed when a former rating rejoins as an RM recruit and vice versa, with the RN and RM being considered as separate Services for the purposes of this paragraph. However, recruits who are discharged ‘Not Finally Approved (Medical)’ (NFA(Med)) (in accordance with BR1750A) retain their right to statutory discharge on re-enlisting in the same Service.

(3) **Ratings and Other Ranks Recruited Abroad.** Any recruit who was domiciled outside the UK and was accepted in that country for regular service in the RN, RM or QARNNS is entitled, on discharge, to conveyance at public expense to a selected place of residence in the UK (or Irish Republic if recruited from or normally domiciled there) or in the country from which they were recruited for service in the regular Naval Service. Travel at public expense to any other destination outside the UK or Irish Republic is not permitted.

(4) **Absence from Duty.** Recruits are to be instructed that, should they wish to claim their discharge during a period of absence on leave or for any other reason, they are to inform their CO by Recorded Delivery letter. Where appropriate, the 14-day notice period for recruits will count from the date of receipt of the letter by the CO. Applicants for discharge will, however, be required to return to duty before their discharge can be completed.
(5) **Effect of a Sentence of Detention.** A sentence of detention or imprisonment will run its normal course irrespective of whether a recruit exercises their option before or during it.

(6) **Outstanding Disciplinary Action.** See Para 5440 sub para I.

b. **Statutory Discharge Until Age 18**

(1) Further to Para 5403 sub para a, ratings and other ranks who have served for 6 months retain a statutory right to end their service up until their 18th birthday by giving notice in writing to their CO. Ratings and other ranks wishing to leave the Service under this regulation will be required to complete a notice period of 3 months. This will act as a cooling-off period, providing the safeguard of a period for reflection in which the Under 18 may rescind a hasty and subsequently regretted decision and, as such, if an individual revokes their written notice to the CO, their entitlement to be discharged as of right will cease. There will be no limit to the number of occasions on which someone can apply to leave before their 18th birthday. Someone who gives notice at the final opportunity, namely the day before their 18th birthday, may serve until the day before they reach the age of 18 years 3 months.

(2) Where a person under the age of 18 submits notice under this regulation, the 3 month notice period may be reduced to a lesser period if agreed between the individual and their CO. As with those leaving within their first 6 months’ service, individuals who exercise their right to leave before reaching age 18 will not have any reserve or recall liability. The provisions described in this paragraph should be used instead of the former Discharge SHORE Unhappy Under 18 category which is now obsolete. COs retain the power to discharge an individual regardless of age for other reasons, but they should generally not consider individuals unsuitable because they have previously exercised the right both to apply for discharge and to remove that notice.

(3) On reaching the age of 18, ratings and other ranks who are still within their 6-month statutory discharge period as a new recruit will have the balance of this period to decide whether or not to leave.

(4) **Parental Consent.** The right of recruits aged under 18 to exercise their discharge option is without regard to parental consent but COs are to notify parents or guardians in advance of the date and reason for the recruit’s discharge and also inform them that the recruit will be issued with a railway warrant to their home unless the parents or guardians indicate otherwise.

c. Beyond the 6-month service point and age 18, ratings and other ranks must complete their initial training (if applicable) and become eligible to apply for Early Termination on completion of a Minimum Time to Serve (MTS) period following their Standard Initial Training Period (SITP) – see Para 5302 for more information. An individual’s earliest date of discharge will have been recorded on the S3049 which individuals sign on enlisting in the Service (a copy of which is given to individuals). This date is then entered in JPA.
5404. Application for Early Termination

a. **Process.** With the exception of officers on the untrained strength, applications for Early Termination from members of the Naval Service are to be made via the JPA workflow system. Procedures for submitting an application can be found under ‘Application for Early Termination’ in the JPA User Guide which also gives procedures and guidance on the handling of applications for Line Managers, COs and Career Managers. If personnel are unable to access JPA they should follow the procedure for Proxy Application through the JPAC Enquiry Centre. An application from an officer to exercise their notice option or to resign should initially be submitted through the CO and be accompanied by a certificate of an officer’s conduct.

(1) **Exit Interviews.** Exit interviews are an important stage in the leaving process; guidance can be found in RNTM 01-078/18 ‘Redesign Of Current Exit Procedure Across All Naval Services’. This RNTM provides important instructions for all Divisional Officers (DOs), Troop Commanders, Line Managers (LMs), Career Managers (CMs) and Commanding Officers (COs) of Naval Service Personnel who have voluntarily submitted their notice to leave (known as Voluntary Outflow or VO). Interviews should be conducted by the Divisional Officer or CO with meaningful comments regarding context for reasons for leaving inserted into the JPA free-text box. If it becomes clear during the exit interview that the reasons for leaving could be mitigated by discretionary action from the Career Manager, then the DO/CO should encourage the Leaver to contact their Career Manager, with the caveat of there being no guarantee of problem resolution.

(2) **Leavers’ Intention Survey (LIS).** In addition to an exit interview, all individuals are encouraged to complete the Leaver’s Intention Survey (LIS). It is not a mandatory part of the leaving process. An email invitation to complete the LIS will be automatically issued once the VO request shows as approved on JPA. Responses are held and analysed by NPS Research. Further details can be found in RNTM 01-078/18.

b. Before applying for Early Termination, personnel should be aware of the possible implications of this type of release on matters such as pay and allowances (including specialist pay), advances of pay (LSAP/FHTB), resettlement grants, annual and terminal leave, Graduated Resettlement Time, Medical Discharge and immigration status (Para 5465). Queries on these issues should, in the first instance, be forwarded to the Unit Personnel Office. Individuals must also be aware that withdrawal of an application for Early Termination is not a right (see Para 5409).

c. **Waiting Period**

(1) Subject to the special provisions at sub para (2) being in force, an individual’s date of discharge will be 12 calendar months from the date of their application, subject to confirmation by the relevant Career Manager. Personnel may apply to leave at less than the normal waiting period and such applications will be considered in accordance with Para 5413.
(2) When circumstances dictate, under accelerated notice provisions, the Naval Service is legally empowered to impose shorter notice periods, subject to a minimum of 6 months. In such cases, Navy Command Headquarters will issue an RNTM giving advance notice of any specialisation where the normal 12-month notice period will be reduced and specify the revised notice period that will apply. Under no circumstances will a notice period be reduced retrospectively. In cases where the notice period is reduced, individuals will receive confirmation of their revised Terminal Expiry (TERMINATION) date from an appropriate Competent Authority (see Annex 54A) within one month of submitting their notice to the CO via the JPA workflow system.

d. **ROS.** Personnel who have waived their right or opportunity to leave in return for training, financial remuneration or any other reason may not apply for Early Termination until they are within a year of completing any outstanding ROS accrued. The ROS requirement should be reflected by the Earliest Exit Date recorded in JPA however, if this date is not recorded correctly it does not override the requirement to complete the ROS term. Personnel may serve out their waiting period concurrently with the final 12 months of any outstanding ROS (see Chapter 53 for more information).

e. **Application for Early Termination having Accepted the Offer of a Commission Transfer or Engagement Stage 3 (ES3).** Individuals who accept an offer of a commission transfer or ES3 will not be able to leave on their original Termination Date but will be required to submit an application for Early Termination if they wish to leave before the end of the longer commission/engagement stage that they have accepted (see Chapter 49 Section 1 (Officer Commission Transfers) and Para 4924 (ES3)).

f. **Applications for Early Termination from Officers under Quarterly Report.** Officers will not be permitted to exercise the notice option in order to avoid compulsory retirement for unsuitability or inefficiency, except in exceptional circumstances eg. in accordance with Para 5412. Applications from officers under Quarterly Report will be placed in abeyance until they have been removed from Quarterly Report. The basic date for calculation of release date is, however, the date of the workflow application for Early Termination even if the officer applied whilst on quarterly report.

**5405. Impact of an Application for Early Termination**

a. **On Promotion**

(1) Individuals who apply for Early Termination will not be considered for promotion by Selection Boards. If, therefore, such individuals are recommended for promotion, the recommendation will be conditional on them withdrawing their application, albeit provided manning levels permit. Personnel who apply for Early Termination following selection but before the effective date of promotion, will be automatically de-selected.
(2) When individuals have their application to withdraw their request for Early Termination approved, hence becoming eligible for consideration for promotion, the Promotions Section is to be advised immediately by signal or e-mail to enable their presentation to the Board.

b. **On Financial Liability for Degree Studies (Officers)**

(1) Officers in receipt of sponsorship from the RN or RM in respect of a bursary or a university cadetship/nomination, including Medical and Dental Cadets, are liable to refund the costs of the sponsorship, namely tuition fees, bursary awards and/or education grants, in full if they withdraw, or are withdrawn (compulsorily or voluntarily), from training or apply for Early Termination. Officers whose appointments are terminated for whatever reason will be required to return their principal items of uniform and luggage. A charge will be made for any item(s) not returned. Officers who entered prior to 1 Apr 06 will be required to refund the cash grant paid for the purchase of suitable luggage unless they can provide a receipt for the luggage bought (see JSP 752 for detailed regulations).

(2) It should be noted that this financial liability is quite separate from the ROS liability and expiry of the liability to repay degree sponsorship costs in no way affects an officer’s ROS liability.

c. **On LSAP.** Personnel in receipt of a LSAP will not normally be allowed to apply for, or be granted Early Termination unless the LSAP has been repaid in full or they have made acceptable arrangements to repay the LSAP in full. Applications for Early Termination must include details of any LSAP balance outstanding, plus the applicant’s proposals for its repayment. For full details, see JSP 752 Chapter 5 Para 05.0722.

d. **On FHTB.** Personnel in receipt of a FHTB advance will not normally be allowed to apply for, or be granted, Early Termination unless the FHTB advance has been repaid in full or they have made acceptable arrangements to repay FHTB in full. Applications for Early Termination must include details of any FHTB balance outstanding, plus the applicant’s proposals for its repayment. For full details see JSP 464 Part 1 Chapter 12 Para 1234.

5406. **Consideration of Applications for Early Termination**

a. On receipt of a workflow Application for Early Termination, Career Managers are to check that the application has been submitted correctly, including Line Manager and CO’s comments, and that there are no outstanding ROS commitments. The application will be processed in JPA in accordance with the JPA User Guide. Individuals will be notified as to whether their application has been approved and given an indication of when they can expect to be released ie. their Last Day of Duty (LDD) or last day of paid service.
b. Individuals whose applications are rejected because they have not given sufficient effective service in return for their training or for any other reason, will be told the date on which they may re-submit their application if they so wish. Once an LDD has been approved by the Career Manager, personnel should not be released before or after this date without prior agreement from the individual.

c. Individuals who apply for Early Termination whilst undertaking further training will be immediately removed from training and re-assigned, unless it is in the Service interest to do otherwise. Rules for ROS in this instance can be found at Para 5304.

5407. Release Abroad

a. Individuals serving abroad, who would otherwise be sent home to the UK to be released from the service, either under notice or at the end of their commission/career/engagement may apply to be released from the station in which they are serving, by forwarding an application to the appropriate Career Management Authority. The application is to be accompanied by relevant details about the position of any dependants, in order that it can be confirmed that the applicant is making reasonable provision for the maintenance of any dependants in the United Kingdom. Career Managers will assign individuals who apply for release abroad to HMS NELSON for administration of the release process. Where individuals applying for discharge abroad, signify their intention to remain in the country of discharge for a considerable period after discharge, they should be instructed to check with the local authorities and, where necessary, through the British High Commission/British Embassy/Consulate that they can legally remain in the country of discharge. The CO is to check that all necessary immigration formalities have been completed before release.

b. Individuals serving abroad being discharged from the Service for other reasons may also apply to be discharged from the station in which they are serving using the same process outlined above.

5408. Application for Early Termination on Grounds of Conscientious Objection

a. Any officer, rating or other rank who claims to have developed a genuine conscientious objection to further service may apply for Early Termination without regard to length of service or the personnel situation in the branch. Whenever possible, the application should be accompanied by the individual's own written statement of the grounds on which they are applying.

b. It may be appropriate in certain cases to suggest that an applicant should defer a request for a week or two and give the matter further thought. Such a delay must however be of only short duration. For example, deferments of six months are not acceptable. If, after a short period of reflection, the officer/rating/other rank reaffirms the claim to conscientious objection, the application should be processed as soon as possible, and the claimant should be informed of the financial and other consequences.
c. This discharge concession requires all cases to be examined with particular care to avoid abuse by those who simply wish to circumvent the normal discharge procedures. It is, therefore, most important that the individual’s CO and the Chaplain should do all they can to establish the genuine nature or otherwise of the person’s convictions. COs should then submit the application, together with a report and their personal recommendations to the appropriate Administrative Authority. The report should be as full as possible and should cover the following points:

1. The nature of the conscientious objection and how and when it began and an assessment of the veracity of the claim.

2. Information about the individual’s service and conduct including details of operational experience, relevant unspent offences and punishments awarded.

3. The individual’s general bearing and behaviour and whatever is known about their influence on shipmates.

4. Whether the individual is due for a new assignment and at what date.

5. Details of any counselling sought by individuals, and that given, regarding conflicts between their personal beliefs and their military tasks.

d. Applications

1. Officers who have Completed Phase 1 Training. Officers who claim to develop a conscientious objection may apply to resign their commission. Application is to be made in writing and is to include a detailed statement of the grounds on which the officer is applying. The CO should then submit this application (see Annex 54F), together with a report and personal recommendation through the appropriate chain of command and the officer’s Career Manager to the Navy Command Headquarters Casework Cell (see Annex 1E). The report should be as full as possible but only need cover Para 5408.c sub para (1), sub para (3) and sub para (5). The information required by Para 5408.c sub para (2) and sub para (4) will be provided by the Career Manager. Where it is accepted that resignation, with immediate effect, is appropriate, the Naval Secretary will approve the application. While any outstanding return of service may be waived in these circumstances, it will be a condition of release that the officer must agree to repay any uniform or educational costs for which he is liable. If, however, there is considered to be no case for allowing the officer to resign on the grounds of conscience, the officer will be advised accordingly and will be free to apply to leave in accordance with the terms of Chapter 54.
(2) **Officers Undertaking Phase 1 Training.** Resignation is only applicable to officers who have completed Phase 1 Training. Young Officers may request to withdraw voluntarily from training, through their chain of command, for any reason before their Premature Termination of Career Training (PTCT) point and this will normally be accepted. It will not be necessary for the Naval Secretary’s approval to be sought where it is accepted that a voluntary withdrawal from training request is appropriate. This will result in automatic termination of an officer’s commission.

(3) **Ratings and Other Ranks.** Application is to be made in writing to the CO. Applications made in accordance with this Article should be forwarded to the Navy Command Headquarters Casework Cell in accordance with the general procedure and format for administrative applications detailed at Annex 1E and Annex 54F. The application will be decided on its merits by the Assistant Chief of Naval Staff (Personnel)/Naval Secretary. If approved, the discharge will be categorised as compassionate on JPA and release is to take place as soon as possible. There is no entitlement to terminal leave. Conscientious Objectors are invariably to be assessed as “Not recommended for further Naval service in accordance with Para 5447” on Appraisal Reports raised by final employing units prior to joining their nominated Release Centres.

e. **The Advisory Committee on Conscientious Objectors.** An Advisory Committee, appointed by the Lord Chancellor, is available to hear appeals by Service personnel who claim a conscientious objection to further service and whose applications have been turned down by the Services. This Advisory Committee conducts its hearings in public and tenders its advice to the Secretary of State for Defence’s representative (in practice to the Central Legal Services division). The Advisory Committee is also available to consider applications that might arise from Reservists in the event of recall.

f. A successful appeal to the Advisory Committee will be accepted as decisive on the question of conscience and any person whose objection to further service is found by the Committee to be genuine will be granted a release under the terms of Para 5408.d sub para (1) and sub para (3). Any person whose case is rejected by the Committee will be required to continue their service, although they may of course apply for Early Termination in the normal way.

g. The procedure for an appeal to the Advisory Committee, which is separate from any statutory complaint submitted by Service Personnel in accordance with JSP 831, is as follows:

(1) Individuals are to complete and sign the application in the format shown at Annex 54B and may include in it a written statement of the case that they wish to make.
(2) The CO is to complete the statement at Annex 54C in duplicate to provide the necessary information and summary of the case for the Committee. Both forms should be forwarded to the Casework Cell through the appropriate chain of command which will add any other relevant information to the initial application.

(3) The Casework Cell will forward the application, together with any supporting papers, to CLS-LegC, the secretariat branch for the Committee, who will convene a hearing and advise all participants accordingly.

(4) As the Committee prefers an officer with personal knowledge of the appellant to attend the hearing, the CO should state in a covering letter whether such an officer can be made available and if so, state their name.

(5) Arrangements for the hearing of the case, the attendance of the witnesses etc, will be notified to the CO. It is the responsibility of the appellant to notify any representatives and/or witnesses of the arrangements for their attendance.

(6) The finding of the Advisory Committee will be promptly notified to the CO by CLS-LegC; the CO is to inform the individual without delay. If the appeal is successful, the discharge of ratings/ranks will be authorised by the authorities listed in Para 5442 sub para b. Discharge of officers will be endorsed by the Admiralty Board or Naval Secretary as appropriate and notified by letter in due course.

h. General Notes

(1) The procedure is unconnected with the commission of disciplinary offences. Should offences be committed, whether or not they are alleged to have been committed on grounds of conscience, they must be dealt with in the usual way. If appropriate, this point should be explained to any person professing conscientious objection, but if the applicant commits an offence which may be relevant to the case while a decision by the Administrative Authority or the Advisory Committee is pending, this should be reported without delay.

(2) While submission of an application will not in itself be regarded as justifying interference with normal assignment, the CO should draw special attention when submitting reports to any overseas assignments that may be imminent. The procedure will extend to any persons serving overseas under normal peacetime conditions at the time of their application or appeal and they will, if necessary, be brought home (costs to be borne locally) to appear before the Advisory Committee as soon as practicable.
5409. Withdrawal of an Application for Early Termination

a. Withdrawal of an Application for Early Termination, once approved, is not a right and, before such a request is granted, consideration will be given to the global personnel situation. Clearance will not normally be forthcoming in branches which are either currently or forecast to go into surplus. Applications from individuals within four months of their termination date are unlikely to be successful; nevertheless the application process outlined below should still be followed.

b. Individuals wishing to withdraw their Application for Early Termination should do so via JPA workflow by following the procedures under ‘Application for Early Termination’ in the JPA User Guide (this also covers the process for withdrawal of an application). However, if the request is made within two months of the Termination date, or units are not able to access JPA, a signal or e-mail should be sent to the NAVY PCAP-PPLAN SWPR WO1 (for RN) or NAVY PCAP-BM RM MAN REC WO1 (for RM) to ensure a timely decision.

c. The authority to withdraw an application for Early Termination rests with the Branch Manager.

d. The following are pre-requisites for a withdrawal application to be considered:

   (1) The individual is in a fully deployable medical category.

   (2) The individual is in date for RNFT on JPA on the date of the application to withdraw their request for Early Termination.

   (3) Ratings are to be Educationally Qualified for Leading Hand (QELH).

e. Other Ranks. The general procedures and criteria for the Naval Service outlined above apply to all Royal Marines who should also apply to withdraw their Early Termination using JPA workflow or, in extenuating circumstances, by e-mail or signal.

f. Each application will be considered on its own merits, and will be judged in the context of the manning situation and forecasts at the time. The manning situation is subject to change; individuals should refrain from making assumptions/future plans ahead of formal acknowledgement of approval to withdraw their application.

5410. Assignment Notice after Withdrawal of Notice for Early Termination

In cases where individuals successfully withdraw their notice for Early Termination, the portion of assignment notice that has expired prior to the date of original application will continue to count towards notice of the next assignment. For example, a rating who submits their notice two months after being assigned to sea service and who then applies to withdraw their application, will only receive 3 months’ notice of any subsequent sea assignment.
5411. Re-application for Early Termination

Applications from individuals reapplying for Early Termination will be considered taking into account the requirements of the Service at that time. Each will be considered as if it was a new application and individuals will not necessarily be allowed to be released at the time originally approved.

5412. Optional Exit Points

Officers or ratings in receipt of RRP(SM) and serving on FTC/FCS engagements (but not serving on a subsequent EoS) may be eligible to submit an Optional Exit Point application which will enable them to leave the service at an earlier point than their current Termination Date without any loss of RRP; full details can be found in Annex 54K.
SECTION 2 – NON-STANDARD EARLY TERMINATION

5413. Non-standard Early Termination – General

Early release at less than the normal notice period or before the end of a ROS period (training or financial) is not a right and should not be relied upon if applying for civilian employment. Individuals must not accept an offer of employment which would commence earlier than the end date of the 12-month waiting period or ROS period until their application for early release is approved officially. Requests for non-standard Early Termination are considered on their individual merits however approval may only be given in exceptional circumstances if one or more of the following conditions are met:

a. The individual wishes to stand for Parliament.

b. The individual is a candidate for holy orders (documentary evidence of acceptance by a theological college is required).

c. A rating or other rank wishes to join the Army or RAF (see Para 5414 sub para c).

d. Compassionate reasons are presented, which are supported by the Naval Service Family and People Support (NS FPS) organisation in a Social Inquiry Report, eg. when the personal circumstances of the applicant make their permanent presence at home essential, which is incompatible with Naval Service. In instances where the financial health of a family business is a factor, applications should be supported by documentary evidence relating to that business.

e. Single ratings and other ranks under the age of 21, whose parents have emigrated to any Foreign or Commonwealth country since their son/daughter joined the Service, or are about to do so, may be allowed immediate compassionate discharge if there is evidence to suggest that they will be left with no close relatives, or home, in the UK and they do not wish to apply for release to join the RAN or RNZN in accordance with Para 5206 (or they apply and are not successful).

f. The release of the individual to take up civilian employment is deemed to be in the National Interest (supported by a comprehensive statement from a prospective employer which will allow a proper assessment of the case to be made).

g. The CO deems the individual's release to be in the best interests of the Service based on knowledge of the individual and their performance/character to date.

h. The individual's specialisation is overmanned.
5414. Early Release within Standard 12 month Waiting Period

a. Applications. Requests for release at less than 12 months should be made to the relevant Career Manager and must contain the recommendations of the individual’s CO. It should indicate whether the unit would be capable of bearing the gap until the individual’s original date of Terminal Leave if the application for early release were approved. Evidence must be provided to show why an individual should be allowed, exceptionally, to be released early. Applications will be considered when:

(1) One or more of the conditions at Para 5412 are met.

(2) No ROS commitment will be breached by early release.

(3) The applicant’s CO has confirmed that any resulting gap is acceptable, or a relief will be in place by the time of the applicant’s new (early) release date.

(4) The long-term manning situation permits.

(5) For squadded personnel, even if the CO recommends the request, the Career Management Cell may reject the application as they may be able to employ the junior rate in another gapped unit.

b. Impact on Terminal Leave. All successful applicants are entitled to receive full terminal benefits according to the length of their service, including Terminal Leave (see JSP 760). However, if an application is submitted at short notice, such that there is insufficient time for all Terminal Leave to be taken prior to the new (early) release date, the individual concerned is to be granted as much leave as possible but must accept any shortfall. Career Managers are to ensure that acceptance of a shortfall in Terminal Leave is clearly stated in the application response, be it by signal, letter or e-mail.

5415. Ratings and Other Ranks – Requests for Non-standard Early Termination

a. Ratings and other ranks who have completed six months’ service from enlistment and are over 18 (see Para 5403) have the chance to apply for non-standard Early Termination before the end of their MTS period. Similarly, ratings and other ranks, who have completed their MTS period but are ineligible to submit notice as a result of an outstanding need to provide a return of service (ROS) for undertaking further training or receipt of financial remuneration, have the opportunity to ask for non-standard Early Termination application through the award of a ROS waiver. Early release from a ROS commitment is not a right and is not guaranteed – see Para 5414 sub para b. As such, ratings and other ranks should not rely on receiving a positive decision if they are considering applying for civilian employment.

b. Early Release Criteria. Approval of a non-standard Early Termination request will only be granted in exceptional circumstances – see Para 5412 for more information.
c. **Applications.** Ratings and other ranks who are restricted in their right to give notice but wish to seek exceptional early release are to apply in writing to their CO, in the first instance, providing reasons in support of their request for non-standard Early Termination. In turn, COs are asked to provide a covering submission, offering their view on whether the application is supported or not and providing any background information about the individual which is considered relevant (e.g. are there any compassionate grounds, have other authorities been consulted (NS FPS, pastoral), is the individual motivated or are there any disciplinary issues?) Ratings and other ranks who wish to leave early with a view to joining another Service should make this clear in their submission and provide a completed application form, contained at Annex 52A. See also (see Para 5414 d sub para (2)). Further details regarding the ‘Service transfer’ process can be found at Para 5205. There is no need for COs to submit a special SJAR as part of their submission and, likewise, individuals do not need to be given the opportunity to make a representation given that they are already required to make an application in writing to their CO to leave early. On completion, the CO is to send the paperwork to the appropriate address:

1. If a rating is still under training – to FOST-TA UTS Pipeline Manager, HMS RALEIGH, TORPOINT, Cornwall, PL11 2PD.
2. If an RM other rank is still under training – to CO Commando Training Wing, CTCRM Lympstone, EXMOUTH, Devon, EX8 5AR.
3. If a rating or other rank is on the trained strength – to the Ratings and Other Ranks Terms of Service Manager, Room 48, West Battery, Whale Island, Portsmouth, PO2 8DX.

d. **Processing.** On receipt, the appropriate Competent Authority, shown at Annex 54A and acting with the delegated authority of the Naval Secretary, will consider the individual merits of the request, with particular emphasis given to the criteria set out at Para 5412. Ratings and other ranks will be informed of the decision via their CO, with a copy going to their Career Manager for information:

1. If approval is granted, service transfer requests apart, a formal Early Termination application can then be made on JPA, effective from the date on which the permission was given (this will be communicated in the letter). As a result, an individual will be able to leave 12 months later unless an earlier release date is agreed by a Competent Authority (see Annex 54A) in consultation with the unit. As at Para 5412, ratings and other ranks wishing to take up civilian employment on leaving the Service should not rely on being released early within the standard 12 month notice period. It should be noted that a ROS waiver (release before the end of a ROS period) will, if granted, not negate an individual’s obligation to repay any financial liability if appropriate, eg. for a FRI.
(2) If approval is given for a request from a rating or other rank who wishes to leave the Naval Service before the end of their MTS period or a ROS period with a view to joining the Army or RAF, the Terms of Service team will initiate action to process the ‘transfer’ application form submitted with the paperwork. Branch and Career Managers will be consulted to establish the individual’s earliest possible discharge date prior to the appropriate paperwork being sent to the appropriate Personnel Management Authority in the Army or RAF.

(3) If the request is rejected, advice will be given on alternative options that might be pursued by the chain of command.

5416. Officers – Requests for Non-standard Early Termination

a. Officers who have passed their PTCT point (see Para 5402) but remain on the Untrained Strength have the opportunity to apply to Navy Command Headquarters for exceptional voluntary withdrawal from training (VWFT). Similarly, officers who are on the trained strength but are ineligible to submit notice as a result of an outstanding need to provide a return of service (ROS) for their initial training, further training or receipt of financial remuneration, have the opportunity to apply for a ROS waiver which, if approved, will allow officers to submit an Early Termination application in turn. Early release from a ROS commitment is not a right and is not guaranteed – see Para 5412. As such, officers should not rely on receiving a positive decision if they are considering an application for civilian employment.

b. Early Release Criteria. Approval of a non-standard Early Termination request (whether it is an exceptional VWFT or ROS waiver) will only be granted in exceptional circumstances – see Para 5412 for more information.

c. Applications. Officers who are ineligible to apply for Early Termination but wish to leave are to apply in writing to their CO, in the first instance, providing reasons in support of the request to leave early. In turn, COs are asked to provide a covering submission, offering their view on whether the application is supported or not and providing any background information about the individual which is considered relevant (eg. are there any compassionate grounds, have other authorities been consulted (NS FPS, pastoral), is the individual motivated or are there any disciplinary issues?) There is no need for COs to submit a ‘Special’ SJAR as part of their submission and, likewise, individuals do not need to be given the opportunity to make a representation given that they are already required to make an application in writing to their CO to leave early. On completion, the CO is to send the paperwork to the appropriate address:

(1) If an officer is still under training – to the Officer Terms of Service Manager, Room 48, West Battery, Whale Island, PORTSMOUTH PO2 8DX.

(2) If an officer is on the trained strength – to the appropriate Career Manager.
d. **Processing.** On receipt, the appropriate Competent Authority, shown at Annex 54A and acting with the delegated authority of the Naval Secretary, will consider the individual merits of the request, with particular emphasis given to the criteria set out at Para 5412. Officers will be informed of the decision via their CO.

1. If approval is granted for exceptional VWFT, arrangements will be made for the officer’s release at the earliest mutually convenient date.

2. If approval is granted for a ROS waiver, a formal Early Termination application can then be made on JPA, effective from the date on which the permission was given (this will be communicated in the letter). As a result, an individual will be able to leave 12 months later unless an earlier release date is agreed by a Competent Authority (see Annex 54A) in consultation with the unit. As at Para 5412, officers wishing to take up civilian employment on leaving the Service should not rely on being released early within the standard 12-month notice period. It should be noted that a ROS waiver will, if granted, not negate an individual’s obligation to repay any financial liability if appropriate, eg. for a FRI.

3. If the request is rejected, advice will be given on alternative options that might be pursued by the chain of command.
SECTION 3 – MEDICAL DISCHARGE

5417. Officers, Ratings and Other Ranks – Medical Discharge

In common with the detailed instruction in BR 1991, personnel found to be permanently unfit for full naval service will be brought before a Naval Service Medical Board of Survey (NSMBOS) to determine their correct medical category in accordance with BR 1750A, JSP 950 Part 6 Chapter 7 and JSP 346 Chapter 5. The Board’s remit is to set the highest safe JMES and it may recommend downgrading and either medical discharge from the Service or retention in a permanently reduced medical category. Special guidelines are laid down where medical discharge is proposed in an individual’s last year of service (see BR 1991 Para 0809).

5418. Naval Service Medical Employability Board

The Naval Service Medical Employability Board (NSMEB) considers, on paper, every case where a NSMBOS has recommended consideration of retention in a reduced medical category. Its task is to ensure that personnel whose medical category falls below the standard normally expected (i.e. Medically Fully Deployable (MFD) without caveats) but who may be able to give limited service should be given the opportunity, wherever possible, of completing their chosen career. The Board is composed of the Deputy Command Secretary as President, the NSMBOS President to provide medical advice as required, representatives of ACOS(PCap) (Personnel Planning Officers) and a legal adviser.

5419. NSMEB Considerations

No individual will be retained in the Service against their wishes if being in a restricted medical category is a major bar to future employment or promotion for which the individual was fit and eligible in all respects before the medical downgrading. If less than a full career, within the reasonable expectations due to rank and skills was envisaged, the Board may offer the individual the choice between retention with limitations (e.g. no prospect of promotion), retention to complete present assignment or retention for a specified time (e.g. until the end of current engagement) or invaliding. Before reaching a decision on whether an individual should be retained, invalided or, exceptionally, recommended for discharge by other means (see Para 5437), the NSMEB will include in its consideration the following factors:

a. Time left to serve.

b. Whether medical limitations preclude continued employment in own branch.

c. Whether a full career can be offered (notably promotion prospects and sea service where appropriate).

d. The effect of retention on other members of the branch.

e. Whether a branch change is possible.

f. The written personal statement of the individual, showing preference.

g. A CO’s report when called for.
5420. Refunds and Return of Service

Liability for refunds in accordance with Para 5405 sub para b and fulfilment of ROS (Chapter 53) will be waived.

5421. Invaliding Benefits

a. Service Invaliding Retired Pay (SIRP) and a tax-free terminal grant of three times the annual rate of SIRP may be awarded to officers who have given two years’ service over age 18. SIRP at enhanced rates is payable to officers with at least five years’ service over age 18, of which two years have been served over the age of 21. If the cause of invaliding is found by Veterans UK to be directly attributable to service, the individual may be entitled to additional benefits from the DOH, Veterans UK and MOD, the amount being related to rank and degree of disability. The MOD award is known as Service Attributable Retired Pay (SARP) and both SIRP and SARP are index-linked.

b. SCC and IC officers on gratuity-earning commissions are not eligible for non-attributable invaliding benefits but can qualify for attributable benefits.

5422. Discretionary Awards Panel

Service invaliding benefits are at the discretion of the Secretary of State. Although they are normally awarded in full, cases occur when, though invaliding may be the appropriate form of discharge, it would be wrong to award full invaliding benefits or, exceptionally, any invaliding benefits at all. Responsibility for considering cases where full invaliding benefits may not be appropriate is vested in the Discretionary Awards Panel (DAP), which is normally composed of representatives of the Second Sea Lord (2SL) and 2nd PUS. Referral to the DAP is rare. Each case is considered on its merits but, in practice, any reduction in invaliding benefits is restricted to those cases where the individual has contributed to their medical condition eg. through excessive drinking or refusing treatment. The DAP award will not affect any decision on Service attributable benefits, which are determined by the DSS.
SECTION 4 – COMPLETION OF COMMISSIONS (OFFICERS)

5423. Introduction
Officers completing the period of service required by their respective commissions will retire in accordance with the following regulations. The Defence Council or Admiralty Board also have discretion to retire officers found medically unfit for further service at any age (see Para 5416 to Para 5421) and to remove officers from the Active List if they are found unfit for further service due to incapacity, unsuitability or misconduct (See Para 5437).

5424. Extensions of Service
Extensions of service beyond retirement age may be granted to meet Service requirements (see Chapter 49).

5425. Commission Transfers
Regulations for transfer of commission are contained in Chapter 49.

5426. End of Commissions for non-Medical, Dental and QARNNS Officers

a. Initial Commission Stage (ICS) (and Equivalent Commissions). The retirement date for officers serving on an ICS or equivalent is determined by the length of that commission, subject to the regulations on Normal Retirement Age (NRA) or rank related retirement - the latter is appropriate to officers with military service prior to 1 Apr 99 and who had not opted for transfer to RA55 when offered in 2018 (see Table 54-2).

b. Career Commission Stage (CCS) (and Equivalent Commissions)

(1) Officers who entered before 6 Apr 05 and are serving on a CC will retire on completion of 16 years’ reckonable service from age of 21 or the date of entry, whichever is later, subject to NRA55 or rank related retirement.

(2) Officers who entered post 6 Apr 05 (or entered before and subsequently elected to transfer to AFPS05) and were selected for a CC before 1 Nov 13 will retire on completion of 18 years’ service from the date of entry or at age 40, whichever is later, subject to NRA55 and rank related retirement.

(3) Officers who entered post 6 Apr 05 and have been selected for a CC with an effective date of transfer between 1 Nov 13 and 31 Mar 15 will retire on completion of 20 years’ service from the date of entry or at age 40, whichever is later, subject to NRA55 and rank related retirement.

(4) Officers who enter after 1 Apr 15, or are selected for a CCS after the same date, will retire on completion of 20 years’ service from their date of entry or at age 40, whichever is later, subject to NRA55. Rank related retirement age policy will not apply to this group.
c. **Full Commission Stage (FCS) (and Equivalent Commissions)**

(1) For officers on a FCS or equivalent, termination of commission is on retirement. The retirement date for officers serving prior to 1 Apr 99 and transferring to the longest commission pre-1 Apr 15 is determined by the substantive rank held by the officer as shown at Table 54-2, unless the officer opted in for transfer to RA55 in 2018 in which case their retirement age is 55.

(2) The alignment of RM OF4/5 and 6 retirement ages (RA) with their RN counterparts and the transitional arrangements are detailed at Table 54-3.

(3) The NRA for officers joining after 1 Apr 99 and reaching a Full Term Commission before 31 Mar 15 is age 55.

(4) Officers who enter after 1 Apr 15, or have been selected for a FCS after the same date, will retire at age 55. Rank related retirement age policy will not apply to this group.

d. **Full Commission Stage (Aviator).** Officers serving on the FCS(A) scheme will retire at age 55, regardless of whether they have military service prior to 1 Apr 99.

**5427. End of Commissions for Medical, Dental and QARNNS Officers**

a. **Officers in-Service Prior to 1 Apr 03**

(1) **Medium Career Commission (MCC).** Medical, Dental and QARNNS officers serving prior to 1 Apr 03 who did not elect to transfer to the new Common Terms of Service (CTOS) commission structure and have not been selected for transfer to a Full Commission (FC) remain on their existing MCC until its completion or until their appropriate rank related retirement (see Table 54-2).

(2) **Full Career Commission (FCC).** Medical, Dental and QARNNS officers serving prior to 1 Apr 03, who did not elect to transfer to the new CTOS commission, remain on their existing FCC until their appropriate rank related retirement age as shown in Table 54-2.

b. **Officers Entering On, or Transferring To, CTOS from 1 Apr 03 to 31 Mar 15**

(1) **Short Commission (SC).** The SC for Medical Officers is six years reckonable service from full registration with the General Medical Council; for Dental Officers, the SC is seven years from full registration with the General Dental Council; for QARNNS Officers, the SC is six years from date of entry.
(2) **Medium Commission (MC).** The length of the MC is 18 years’ reckonable service from date of commissioning or age 21 - whichever is the later - subject to NRA58. For QARNNS officers, completion of the MC is upon attaining 16 years’ reckonable service from date of initial entry or age of 21 - whichever is the later - subject to NRA55.

(3) **Full Commission (FC).** For Medical and Dental officers, the FC ends upon reaching 58. For QARNNS officers, the FC ends upon reaching 55.

c. **Officers Entering from 1 Apr 15, or Existing Officers Transferring to a Longer Commission from 1 Apr 15**

(1) The retirement date for officers serving on an ICS or equivalent is determined by the length of that commission, subject to the regulations on NRA or rank related retirement - the latter is appropriate to officers with military service prior to 1 Apr 99 (see Table 54-2 and Table 54-3).

(2) Officers who enter after 1 Apr 15 or have been selected for a CCS after the same date will retire on completion of 20 years’ service from date of entry or at age 40, whichever is later, subject to NRA60.

(3) Officers who enter after 1 Apr 15, or have been selected for a FCS after the same date, will retire at age 60.

**Notes:**

1. Except where otherwise indicated, officers will retire on the date that they reach their retirement age eg. Lt Cdrs (FTC50) will retire on the day before their 50th birthday.

2. In Jul 01, NRA55 was introduced for all Flag and General officers in the Naval Service with the exception of the Medical and Dental officers.

**Note.** All RM OF4/5 and 6 will have their Retirement Ages (RA) extended by 1-4 years depending on their Termination date/RA [column (a)] and rank [columns (b), (d) and (f)], unless they choose to retain their reserved rights. This applies to officers in their substantive rank (GL, SO(LE) and Band Service).

### 5430. Retirement Ages for SUY/SCC Officers with Military Service prior to 1 Apr 99

a. **SUY/SCC Officers Promoted Prior to 1 Apr 99.** To maintain an equitable career opportunity for all officers serving before the introduction of the 3TC, SUY/SCC candidates promoted to the Officers Corps prior to 1 Apr 99 will serve to their existing officer rank related retirement age (RRRA) unless it is specifically extended for a particular rank. In this event, individuals so affected will retain the right to leave at the existing rank related retirement age if they so wish. Officers will also have had the opportunity to opt in for RA55 in 2018: if they did so their NRA is 55.
b. **SUY/SCC Officers Promoted from 1 Apr 99 to 31 Mar 15.** SUY and SCC officers who have insufficient time to complete an IC before their RRRA will retire on their officer rank related retirement date or on the day that their former rating engagement was due to end, whichever is the later. RM OF4 SO(LE) officers RA will align with their FTC(50)/(53) equivalent at Table 54-3. SUY/SCC officers who are able to complete an IC in full before their rank related retirement age will leave at the end of the IC unless they are selected for a longer commission. SUY/SCC officers will retire at their RRRA if they are serving on a CC or FTC at this point. Officers will also have had the opportunity to opt in for RA55 in 2018, if they did so their NRA is 55.

c. **SUY/SCC Officers Promoted Since 1 Apr 15.** Officers promoted from the ranks after 1 Apr 15 are no longer subject to RRRA policy if they have military service pre-1 Apr 99 and will retire at the end of their commission stage, subject to the normal retirement age.
SECTION 5 – RESIGNATION BY OFFICERS

5431. Applications to Resign Commission by Officers

a. Early Termination option is the normal way of leaving the Service prematurely. In civilian life, the term ‘resignation’ is often used but resignation has a special meaning within the Naval Service. Officers have no absolute right to resign their commission; however, they may be permitted to do so, in exceptional circumstances. Up to and including the rank of OF5, authority to accept resignation is delegated to NAVSEC. For officers of OF6 rank and above, acceptance of resignation is at the Admiralty Board’s discretion. Resignation is appropriate when an officer wishes to sever all connection with the Service. Circumstances that would warrant resignation rather than the other types of discharge are where an individual holds actions or beliefs/attitudes that fundamentally conflict with the concept of military service. The primary consideration in acceptance of resignation is the best interests of the Service.

b. Resignation is only applicable to officers on the trained strength.

c. An application from an individual to resign their commission should be submitted through their CO to the Regional Legal Office (see Annex 1E).

5432. Waiting Period

Officers will not be allowed to resign until the appropriate authority has approved their application. If the application is approved, release is normally with immediate effect, ie. as soon as the administrative process allows. Whilst any outstanding ROS may be waived in these circumstances, it will be a condition of release that the officer must agree to repay any costs for which they may be liable (see Chapter 53).

5433. Consideration of Applications

a. Resignation applications, which should include a detailed statement of the grounds on which the officer is applying, are to be passed through the individual’s chain of command to the appropriate Career Manager and thence to the Regional Legal Office. Each case will be examined prior to submission to the decision maker to ensure the applicant is not confusing resignation with Early Termination or that there is no avoidance, inadvertent or otherwise, of administrative discharge procedures. Applications are then considered and decided upon by the appropriate authority. If the resignation is approved, release is with immediate effect. If, however, there is considered to be no case for allowing the officer to resign on the grounds submitted, the officer will be free to apply for Early Termination in accordance with Section 1.

b. Where officers make a prima facie case for resignation, they may be removed from their current assignment/course and re-assigned. If they are in or near the zone for promotion, they may not be considered further for promotion and they may not be eligible for redundancy.
5434. Withdrawal of Resignation Application
Officers have no right to withdraw an application to resign once it has been approved, however, they may be permitted to do so if the Naval Secretary determines that this will be in the best interests of the Service.

5435. Applications from Officers Subject to Disciplinary/Administrative Process
Officers are not normally allowed to resign when subject to disciplinary or administrative considerations, including Quarterly Reporting or discharge. However, exceptionally, resignation may be accepted in these circumstances if it is considered that the interests of the Service will best be met by the early release of an officer.

5436. Consequences of Resignation
As with Early Termination, before requesting to resign, officers should make themselves aware of the possible implications of this type of release on matters such as: retired pay, LSAP, resettlement grant (JSP 752 and JSP 754); annual and terminal leave (JSP 760) and graduated resettlement time (JSP 534).

5437. Optional Exit Points
Officers in receipt of RRP(SM) and serving on FTC/FCS engagements (but not serving on a subsequent EoS) may be eligible to submit an Optional Exit Point application which will enable them to leave the service at an earlier point than their current Termination Date without any loss of RRP; full details can be found in Annex 54K.

5438. Reserve Liability
Officers who are permitted to resign will be removed from the Active List and will not be placed on the Retired or Emergency Lists. They totally sever their connection with the Service and will no longer hold any form of Naval Service commission and will have no further entitlement to the use of their naval rank or to wear naval uniform. This does not, however, exempt them from any statutory liability that they may have under the National Service Acts and related legislation.
SECTION 6 – OTHER DISCHARGES – OFFICERS

5439. Compulsory Withdrawal from Training – Officers on the Untrained Strength

a. **RN Officers - Phase 1 Training.** The CO BRNC has delegated authority for the management of compulsory withdrawal from training (CWFT) applications for all Young Officers (YOs) during the period up to passing out of BRNC on completion of Phase 1 Training (Initial Naval Training (Officer)).

b. When an officer’s performance (professional or character and leadership) falls below the standard required and the appropriate warnings have been applied (see Chapter 57 Section 5) but he/she has still failed to achieve the standard required, Director of Training BRNC and COs during IFT may submit an application to the CO BRNC for their CWFT.

c. Where transfer is being recommended as an alternative to CWFT, the CO is to submit the transfer request to the Officer Terms of Service Manager for consideration under the YO transfer regulations (see Para 5104).

d. All YOs being considered for CWFT are to be interviewed by the establishment’s Diversity and Inclusion Officer, Personnel Selection Officer or a Head of Department to ensure that they have been fairly treated and informed of the following:

   (1) Naval policy on Diversity and Inclusion (see Chapter 30).

   (2) Definition of discrimination, harassment and bullying (JSP 763).

   (3) Complaints procedure (see Chapter 23).

On completion of this interview, YOs are required to sign a ‘Statement of D&I Advice’ to confirm that they have received such advice.

e. Whilst a CWFT request is being considered, the CO BRNC must decide whether the officer should be sent home on leave or retained in the ship/establishment (if he/she is not considered to be a disruptive element to other YOs) until the outcome of the CWFT decision is known.

f. The CO BRNC is responsible for informing the YO in writing of the outcome of the CWFT decision. The letter must include details of any financial liability (see Para 5405 sub para b).
g. **RN Officers - Phase 2 Training (except Aircrew and ATC officers during Professional Training).** Where an officer’s performance falls below the required standard on professional, character and leadership or temperament grounds (see Para 5731 to Para 5733 and Annex 54D) and the appropriate warnings have been applied, COs in the Fleet and Commodores and COs of Shore Establishments may submit a request for the officer’s CWFT to the Head of Terms of Service, the approving authority (on behalf of the Naval Secretary) for the CWFT of all officers during Phase 2 training. In these cases, the request must be submitted with a recently completed SRF together with the YO’s E190/Training Record and the contemporaneous record. In considering the request, the Officer Training Pipeline Manager (NAVY TRG HQ-PM OFFICERS) and appropriate Career Manager will be consulted and, in some cases, the YO may be called forward for interview by a Naval Advisory Board before a decision is made (see Para 5743).

h. Where transfer is being recommended as an alternative to CWFT, approval is subject to the YO transfer regulations (see Para 5107).

i. Before a CWFT request and accompanying paperwork is forwarded, the CO should decide in conjunction with the Career Manager whether the officer should be sent home on leave or retained in the ship/establishment (if he/she is not considered to be a disruptive element to other YOs) until the outcome of the CWFT decision.

j. The Terms of Service Team will inform the YO in writing of the Service’s decision through their CO (notifying as appropriate the YO directly if at home). All officers withdrawn from training will have their final day on Naval pay calculated by their release office and entitlement to terminal leave calculated in accordance with JSP 760.

k. **RN Officers - Aircrew and ATC Officers During Professional Training.** Following suspension from flying duties, similar procedures to those shown in Para 5402 sub para h, sub para i and sub para j apply to Aircrew and ATC officers who are recommended for withdrawal from training and termination of commission. If an inter-FAA transfer is approved by ACOS(CSAV) as an alternative to CWFT, P/NAAB will ask the Terms of Service Team to determine the terms and conditions of the transfer. In the case of a branch/specialisation transfer outside the FAA, Navy Command/ACOS(CSAV) will recommend transfer to the Officer Terms of Service Manager.

l. **RM Officers.** The Commandant CTCRM has delegated authority for the management of CWFT applications for all YOs during the period up to the end of Phase 1 Training (Week 36).

m. All YOs, undertaking Phase 1 Training, who are being considered for CWFT, are to be interviewed by the establishment’s Diversity and Inclusion Officer, Personnel Selection Officer or a Head of Department to ensure that they have been fairly treated, and informed of the following:

(1) Naval policy on Diversity and Inclusion (see Chapter 30).
(2) Definition of discrimination, harassment and bullying (JSP 763).

(3) Complaints procedure (see Chapter 23).

On completion of this interview, YOs are required to sign a ‘Statement of D&I Advice’ to confirm that they have received such advice.

n. For those in Phase 2 Training, the Commandant CTCRM may submit a recommendation to the Head of Terms of Service for the CWFT of a RM officer whose performance has not met the required professional, character and leadership or temperament standards required of a RM officer following the issue of appropriate warnings (see Chapter 57 and Annex 54D). Where a Service transfer is being sought as an alternative to CWFT, approval is subject to the YO transfer regulations (see Para 5107).

o. Before a CWFT request and accompanying paperwork is forwarded, CTCRM should decide in conjunction with the Career Manager whether the officer should be sent home on leave or retained in the unit (if he/she is not considered to be a disruptive element to other YOs) until the outcome of the CWFT decision.

p. The Terms of Service Team will inform RM YOs in writing of the Services’ decision through their CO (notifying as appropriate the YO directly if at home). RM officers withdrawn from training will have their final day on pay calculated by their release office and entitlement to terminal leave calculated in accordance with JSP 760.

q. Officer Candidates Promoted from the Lower Deck - Failure to Complete Initial Training. See Para 5010.

r. Representation. Individuals who are being considered for CWFT must be given full disclosure of ALL paperwork related to their application. Subjects should be given a hard copy of the draft application and all supporting evidence. There may be exceptional circumstances where this is not possible however, these circumstances must be discussed with and approved by the Navy Command Headquarters Terms of Service Team. This forms the case against them and allows them to properly represent their position. They should be given 24 hours to decide whether to make a representation against the application or such longer period as is considered appropriate and necessary by the CO. Should the individual decide to make a representation, they should be given a further 48 hours to prepare that representation or such longer time as considered reasonable in the circumstances. In addition, the CO must ensure that the individual is afforded the services of an Assisting Officer. Those officers who choose not to submit a representation are to sign a waiver to this effect (an example is at Annex 54J). If the person decides to submit a representation, the CO should take this into account before finalising the application to the Terms of Service Team, acknowledging this formally in the application letter. In all cases COs must ensure that the points above are fully detailed and recorded. For Phase 2 training cases, the application and all supporting evidence, including the finalised SPEC report, should be forwarded to the Terms of Service Team.
s. **Automatic Termination of Commission.** Any officer who leaves the RN or RM, whether voluntarily or involuntarily, whilst they are on the untrained strength will have their commission terminated automatically and will not be liable for reserve service or be entitled to wear Naval uniform after leaving.

5440. **Administrative Discharge – Officers on the Trained Strength**

a. **Introduction.** An officer whose performance or conduct falls short of the standards required may be discharged from the Active List. All applications for discharge of any officer of OF6 and below will be considered by the Naval Secretary. It is of paramount importance that correct procedures are followed. COs and Career Managers are therefore to seek the advice of the Navy Command Headquarters Casework Cell at an early stage in all cases where the outcome is likely to be administrative discharge.

b. **Types of Discharge.** An application for discharge may be made under the following categories:

   (1) **Incapacity Due to Causes beyond an Officer’s Control.** Incapacity due to causes beyond an officer’s control may include, but are not be limited to, an officer’s inability to reach the required professional standards, temperamental unsuitability, and medical reasons not leading to MBOS.

   (2) **Unsuitability Due to Causes within an Officer’s Control.** Unsuitability due to causes within an officer’s control may include inefficiency, unsatisfactory performance of duties including financial irresponsibility, failure to uphold Naval Service core values and standards including a poor attitude towards the required standards of physical fitness, and other poor performance not warranting discharge for misconduct.

   (3) **Misconduct.** Misconduct includes, but is not limited to, the commission of an offence, drugs misuse including CDT failure, continued inappropriate, malicious or vexatious correspondence with senior officers, or a succession of actions that demonstrate a failure to uphold the high standards expected of an officer and the traditions of the Service, rendering the officer unfit or unworthy of further employment.

   For specific information relating to the administrative discharge of officers on the grounds of Temperamental Unsuitability, see Annex 54D.

  c. **Procedure for Discharge.** An officer who is recommended for discharge due to incapacity or unsuitability will normally have been placed under quarterly reporting to provide for fair warning and monitoring with a view to recovering their professional or personal standing. A recommendation for discharge for misconduct may be without recourse to quarterly report procedures, eg. after a single act of serious misconduct.
The application should be addressed to the Casework Cell and should follow the general procedure and format for administrative applications detailed at Annex 1E and Annex 54F.

In addition, other than in exceptional circumstances determined by the Casework Cell after liaison with them, an application for administrative discharge must demonstrate the following:

(a) **Incapacity or Unsuitability.** For Incapacity or Unsuitability to be demonstrated, an individual must have had their failures clearly identified to them, have been afforded a reasonable time period to rectify their shortcomings and, having been afforded that opportunity, have failed to improve sufficiently to render their position in the Service tenable. It must be clearly explained why other measures such as Removal from Assignment or seeking a branch transfer are not appropriate in the circumstances.

(b) **Misconduct.** For Misconduct to be demonstrated, an individual’s conduct must have fallen so far short of the standard expected of an officer as to have rendered their position in the Service to be untenable.

Assessment must be made on whether the individual should retain their commission (Para 5438) and a recommendation made accordingly.

d. **Staffing Process.** The staffing process is both comprehensive and rigorous and is necessary to ensure the application is well founded, complies with the rules of disclosure and meets with the requirements of Administrative Law:

(1) **Individual’s Unit.** The individual’s CO is responsible for the submission of the application for discharge, fully detailing the reasons for applying and ensuring all the relevant paperwork is disclosed to the individual.

(2) **Casework Cell.** The Casework Cell staff the application, ensure it is procedurally correct and prepare a brief for the Deciding Authority (The Naval Secretary or the Admiralty Board). Legal advice is also provided by a Naval Barrister.

(3) **ACOS(PCap).** ACOS(PCap), in conjunction with the Career Manager, is to provide a brief to the Deciding Authority stating they have considered the application and outline whether or not they support it. In the brief, they must consider whether the individual is suitable for a branch transfer or an internal trade transfer eg. a move to General Service from Submarine Service.

(4) **Naval Secretary’s Office.** Where the subject of the application holds a substantive rank not exceeding OF6, the Naval Secretary will be the Deciding Authority. Discharges of officers of Flag rank will be forwarded to the Admiralty Board for consideration, the Naval Secretary will provide a brief stating that he or she has considered the application and whether or not they support it.
e. **Informing the Individual.** Once a decision has been made on the application, the individual’s Commanding Officer will be notified in writing by the Naval Secretary and guidance will be provided on how to progress the outcome of the decision letter.

### 5441. Entitlements following Administrative Discharge – Officers

a. **Termination of Commission on Administrative Discharge**

(1) When officers are administratively discharged, consideration may be given to terminating their commission. If they retain the latter, they will be entitled to use their rank and wear uniform on state and certain ceremonial occasions (see Part 6).

(2) Officers administratively discharged who retain their commission may be placed on the Retired List or the Emergency List (the regulations are contained within BR 61). The letter notifying them of discharge will inform them of whether they will be placed on such a List. If placed on a List, they will be liable for recall in an emergency.

(3) Where an officer is administratively discharged for misconduct or for reasons within their control, it would usually be inappropriate for officers to continue to be associated with the Service. As such, their commission will normally be terminated unless there are exceptional circumstances justifying retention. In cases where officers are discharged for reasons outside their control, their commission will usually be retained, unless there are compelling reasons why it should not be. These might include un-officer like conduct or disregard for Naval core values and standards.

(4) Officers whose commission has been terminated are not entitled to wear uniform or to use their rank. They will not be listed in the Retired or Emergency Lists and will not be liable to recall in an emergency. This does not, however, provide exemption from any statutory liability under the National Service Acts and related legislation.

(5) Termination of commission of itself does not entail financial or other penalties besides the loss of those privileges accorded to an officer retained on the Retired or Emergency Lists, although other such penalties may flow from the reasons for discharge.

(6) An officer’s liability for refunds of sponsorship or education costs (see Para 5405 sub para b) will normally be waived only in the event of discharge for incapacity (see Para 5437 a sub para (1)) whereas a ROS will be waived when an officer is administratively discharged under any of the categories in Para 5439 sub para a.
b. **Benefits.** Officers discharged due to causes beyond their control will be awarded the benefits appropriate to compulsory retirement. If discharged for causes within their control, any benefits admissible will be those which would have been awarded on voluntary retirement. Where discharge is for misconduct, the maximum award will be that admissible on voluntary retirement, but a lower award may be made where the Deciding Authority (the Admiralty Board or Naval Secretary) judges the offence to be particularly serious.

c. **Terminal Leave.** Where officers are discharged for incapacity or unsuitability, a recommendation will be made as to whether they should receive terminal leave. Officers discharged for misconduct or any other reason not amounting to misconduct, but of such a nature as may be deemed to render the grant of leave unjustified, will not be eligible for terminal leave.

### 5442. Dismissal

a. Officers charged with an offence under Military Discipline Legislation can be dealt with either by Summary Hearing or trial by Court Martial. In some cases, trial by court martial could result in dismissal or, exceptionally, dismissal with disgrace.

b. Officers dismissed by sentence of court martial are not eligible for terminal leave. Where appropriate, refunds will normally be required.
SECTION 7 – DISCHARGES - RATINGS AND OTHER RANKS

5443. Discharges - General

a. RN Ratings. Discharges (except Invaliding) of ratings serving in the UK or in ships in home waters eg. compassionate discharge, Discharge SHORE or SNLR, may be carried out as follows:

(1) For those serving in shore establishments (including RN Air Stations) or in self-accounting ships - direct from such establishment or ship.

(2) For those serving in non-self-accounting ships - through the parent ship or establishment bearing their accounts or, in urgent cases, through the nearest self-accounting ship or establishment.

(3) However, where it is at all practical, it is to the advantage of both the Service and the rating for the discharge procedure to be carried out at a Release Centre so that the rating receives the maximum benefit of discharge and resettlement information.

b. Ratings’ Documentation. Ships and establishments are to ensure that ratings assigned to Release Centres for discharge are in possession of all necessary documentation (see Para 5442 sub para c). For appraisal reporting requirements see Para 5449, Para 5723 and Para 5724. Care is to be taken that all request action due, eg. award of Good Conduct Badges, has been completed. Service documents of ratings sentenced to dismissal and detention/imprisonment are to be forwarded to HMS NELSON Release Office. Medical documents, including completed Form F Med, 1 and 2, are to be forwarded in sufficient time to reach the Release Centre before the arrival of the rating.

c. Ratings’ Discharge Procedures. Release Centres (or units carrying out the discharge of ratings in accordance with Para 5440 sub para a) are to ensure that discharge procedures are correctly followed, namely:

(1) Enrolment of eligible men and women into the Regular Reserve (see Section 9).

(2) Recording of cause of discharge and other notations.

(3) Rendering of pay-related documentation (JSP 754).

(4) Disposal of Service Documents.

(5) Issue of Form S1300 where appropriate.

(6) Issue of Discharge Certificate (Form S1560 or R111).

d. Service Family Accommodation (SFA) and Hirings. All discharges of ratings paying for SFA or hiring charges are to be reported by the unit via signal to DBS JPAC and the appropriate Defence Housing Executive Officer.
e. RM Other Ranks Serving Under the Armed Forces Act. Individuals whose discharge is approved or becomes due while they are serving under the Armed Forces Act (except those invalided from the Service while inpatients in Services Hospitals) will be discharged as follows:

(1) If serving in the Plymouth area - by Commando Logistic Regiment RM.

(2) If serving elsewhere - by RM Poole.

(3) At any other RM home unit with the approval of the Career Manager.

f. Ratings and Other Ranks Serving Abroad. Ratings and other ranks are to be sent home from abroad in time for discharge on completion of their career or engagement unless their service is being extended or prolonged (see Para 5811) or they have applied for discharge abroad (see Para 5407).

g. Service in the Regular Reserves. The liability and eligibility of individuals for service in the Royal Fleet Reserve (RFR) is to be assessed as part of the procedure to complete their release from the Active Service. Assessment and, where applicable, enrolment in the RFR is to be completed before individuals are dispersed to terminal leave in accordance with Para 5466.

h. Parliamentary Correspondence. When the question of an individual’s discharge becomes the subject of Parliamentary Enquiry or correspondence, the case should be forwarded, with the full Service Documents and other relevant papers, to the Head of Terms of Service before any decision is taken (see Para 5444 sub para b and Para 5446 sub para g).

i. Postponement of Discharge and Transfer to the Reserve. (See JSP 830 (Manual of Service Law) Vol 1 Chap 18 para 20). Members of the regular forces may be retained beyond their discharge date or transfer to the reserve date. The maximum extension period that can be authorised for an individual who would have transferred to the reserve is the same as that they could have been required to serve if called out as part of their regular reserve liability (under RFA 96 s.53(6), national danger etc. – 3 years; s.55(6), warlike operations – 12 months; s.57(6), certain operations – 9 months). For those who would have been discharged, the period for retention is a maximum of 12 months. This period accords with the time that a member of the reserve forces could be retained beyond the end of his/her current term if call out was authorised under RFA 96, section 52\(^1\). Individuals retained may be transferred to the reserve or discharged by the competent authority when services are no longer required. A person entitled to be transferred to the reserve or discharged may, by declaration to his CO\(^2\), (see JSP 830 Chapter 18 Annexes C and D), remain in the Service if warlike operations exist and a call-out order is in force under RFA 96, section 54. He/she is entitled to give three months’ notice of this extension to his/her CO.

\(^1\) In accordance with the powers under RFA 96, section 17(2).
\(^2\) The Armed Forces (Discharge and Transfer to the Reserve Forces) (No.2) Regulations 2009/1091, regulation 8.
Periods of extended service count towards reserve service. Individuals on extended service outside the UK are entitled to be discharged or transferred to the reserve in the UK, according with the provisions for individuals serving overseas under normal conditions of engagement.

j. JSP 830 (Manual of Service Law) Vol 1 Chapter 18 Annex A lists the competent authorities who may authorise a transfer to the Reserve.

k. **Discharge of Fraudulent Entrants.** When individuals are found to have made false statements, whether as to fitness (physical or mental) or as to previous service in the Forces or Reserves, in the documents signed on entry, the authorities in Para 5444 sub para b are authorised to approve their discharge, subject to any action required by Para 5442 k sub para (2) and having regard to their response to training and their future usefulness to the Service.

(1) If personnel are found to have enlisted while belonging to the Army, Army Reserve, RAF or RAF Reserve, reference should first be made to the Officer Commanding of the unit to which the individual belonged to ascertain whether it is desired to claim them under their original engagement. If they are not claimed, the question of retention or discharge will then be decided.

(2) In cases where discharge is authorised locally, the details of the discharge are to be recorded on JPA.

(3) **Royal Marines.** When an RM other rank is discovered either to have enlisted without having been discharged from a previous enlistment or to have made a false statement on enlisting in the RM, a report of the circumstances is to be forwarded to the RM Career Manager for instructions.

l. **Outstanding Disciplinary Action.** When an individual faces charges under the Armed Forces Act, the release procedure for the various types of Discharge SHORE categories should not normally be delayed. If in doubt, units should seek legal advice. If application is being made for an individual to be discharged SNLR (Unruly) or SNLR (CDT), legal advice should be sought if there are outstanding disciplinary matters.

m. **Right of Warrant Officers to Discharge after Reduction in Rank.** A Warrant Officer who has been reduced to the lowest rank or rate as a result of a sentence in Service proceedings has a right to claim discharge unless warlike operations exist, or a call-out order is in force under RFA 96 sections 52, 54 or 56. A claim for discharge should be made within one month of the reduction in rank and discharge must take place as soon as reasonably practicable. This allows former Warrant Officers to leave the Service promptly following conviction or administrative reduction in rank or rate if they do not wish to remain in the Service. Further details are at JSP 830 Chapter 18 Annex B.

n. **Types of Discharge.** Annex 54E outlines the minimum required documentation for each type of discharge. It can be used in conjunction with Annex 54F which sets out a step by step CO’s guide to the discharge process.
5444. Medical Discharge – Not Finally Approved (Medical)

a. **Eligibility.** Ratings and other ranks who, during their initial Phase 1 training, are found to be unfit under the terms of BR 1750A are to be discharged from the Service on medical grounds under the Not Finally Approved (Medical) (NFA (Med)) category. This will normally be within the first 9 weeks of training for ratings and the first 15 weeks for other ranks, however, the time may be extended due to medical assessment, back-classing, rehabilitation and leave. Discharge under this category must be undertaken within the first year of joining, otherwise a Naval Service Medical Board of Survey (NSMBOS) (see Para 2804 and Para 5809 sub para c) will be required. It should not be delayed pending final diagnosis of the condition. Full details of each case that is dealt with under this instruction is to be reported to the Navy Command Headquarters Medical Division. See BR1750A Para 0308 for further information about the circumstances in which NFA (Med) should be used and the medical categories to be applied.

b. **Other Discharge Categories.** Recruits who are considered to be unfit for service but who do not meet the NFA (Med) criteria should be subject to a full investigation and if necessary brought forward for surveying and invaliding (Para 5416). In other circumstances, it may be more appropriate to consider discharge SHORE routes such as ‘Unsuitable’ or ‘Fraudulent Entry’ (Para 5443).

5445. Discharge SHORE – General Instructions

a. Discharge SHORE is not a punishment. It is the normal method of dispensing with the services of ratings and other ranks whose retention is undesirable because of unsuitability or possibly for reasons largely beyond their control, but whose discharge cannot appropriately be affected by any of the methods prescribed elsewhere in the regulations. It may be recommended in the circumstances set out in Para 5443 or where discharge is in the best interests of the Service.

b. **Authority Required.** Annex 54A details those personnel who are delegated authority to approve Discharge SHORE. Administrative action should be taken in accordance with Annex 54F and Annex 1E, advice should be sought from the Casework Cell and regional legal advisors as required. Where the case is subject to Parliamentary correspondence or enquiry, the Navy Command Policy Secretariat should be informed at the earliest opportunity and the Casework Cell should be notified on receiving the application. If the CO has the authority to approve the discharge, the individual must still be given full disclosure of all documents and the opportunity to make representation in accordance with Annex 1E; in such cases copies of disclosure paperwork, any representation and the letter informing the individual of the CO’s decision are to be forwarded to the Casework Cell for archive.

c. **Warnings.** Full detail and explanation of the Warnings process is covered in Chapter 57 and should be read in full before any application for Discharge SHORE is made.

d. **Documentation Required.** If applicable, a Specialist’s report should be obtained to inform the decision to apply for discharge, eg. Psychologists/INM; see Annex 54E for further details of relevant documentation.
e. **Reporting Approval of Discharge SHORE.** When Discharge SHORE is approved, the Career Manager must be advised (by the Casework Cell) and JPA is to be annotated accordingly (see JSP 760).

f. **Date of Discharge.** The operative date of Discharge SHORE should be the earliest date on which discharge formalities can be completed after the decision to discharge has been taken. Those discharged on grounds of inadequacy who have over 20 (ES2), 18 (FC) or 22 (OE) years' service will be given two months' notice, not including terminal leave. For such individuals serving abroad, the two months’ notice should date from time of arrival in the UK (see JSP 760 for full details).

g. **Discharge of Personnel Serving Beyond their Initial Pensionable Engagement.** The Administrative Authority ordering discharge of any individual with 20 (ES2), 18 (FC), 22 (OE) or more years reckonable service is to send a copy to DBS JPAC. Individuals are to be told to seek advice from the JPAC regarding the calculation of their pension.

h. **Procedure.** Applications which cannot be approved locally should be addressed to the appropriate deciding officer or Casework Cell as identified in Annex 54A, and be in accordance with the general procedure and format for administrative applications detailed at Annex 1E.

i. Where a rating or other rank has been informed of the grounds for application for their discharge but the reason for discharge is subsequently amended, the subject must be advised of the change and given the opportunity to state further representation before any action is taken by the approving authority.

j. Individuals discharged should be reminded of their right to make a Service complaint in accordance with JSP 831.

k. Advice on pensions, terminal grants, terminal leave and resettlement entitlement can be sought by the individual from the relevant SMEs including JPAC, Resettlement Team, UPO, Career Manager and the individual’s own JPA account.

I. Where discharge SHORE is deemed appropriate any outstanding ROS will be waived, but financial liabilities will only be waived at the discretion of the deciding officer following consultation with the Terms of Service Team/Casework Cell.

5446. **Circumstances in which Discharge SHORE may be Appropriate**

a. The following are the different circumstances where Discharge SHORE may be appropriate. When placed on warnings, an individual is to be specifically informed which circumstance they are being warned for. An individual may be on more than one warning concurrently, eg. Inadequacy and Alcohol or Inadequacy and Discharge SNLR (Unruly):
(1) **Discharge SHORE (Fraudulent Entry)**

(a) When individuals are found to have made false statements on any information elicited, for example, whether as to fitness (physical or mental) or as to previous service in the Forces or Reserves, in the documents signed on entry, the authorities in Annex 54A are authorised to approve their discharge, subject to any action required by Para 5445.a (1) sub para (c) and having regard to their response to training and their future usefulness to the Service.

(b) If personnel are found to have enlisted while belonging to the Army, Army Reserve, RAF or RAF Reserve, reference should first be made to the Officer Commanding of the unit to which the individual belonged to ascertain whether it is desired to claim them under their original engagement. If they are not claimed, the question of retention or discharge will then be decided.

(c) In cases where discharge is authorised locally, the details of the discharge are to be recorded on JPA.

(d) **Royal Marines.** When an RM other rank is discovered either to have enlisted without having been discharged from a previous enlistment or to have made a false statement on enlisting in the RM, a report of the circumstances is to be forwarded to the RM Career Manager for instructions.

(2) **Discharge SHORE (Deemed Unsuitable During Training) (DUDT)**

(a) In establishments carrying out initial (Phase 1, 2 or 3) training, a rating or other rank who is reported to be unsuitable for retention for causes other than medical unfitness (but including enuresis) maybe discharged SHORE. Ratings in the Initial Training Pipeline (ITP) are effectively under probation and, should they fail to meet the required standard in accordance with Annex 54A, the Naval Secretary has delegated authority to certain officers within training establishments authorising them to end a rating’s service on the grounds of Discharge SHORE ‘Deemed Unsuitable During Training’ (DUDT). Before doing so, the CO may consider whether the individual might prove suitable for another branch and/or specialisation dependent on the Service requirement.

(b) Discharge may be authorized only by those officers detailed in Annex 54A carrying out initial (Phase 1, 2 or 3) training in the case of Able Rates Branch Designator 2 (BD2) of the following branches: Warfare, Medical, Weapons Engineering, Marine Engineering, Air Engineering, Logistics and RM other ranks during their initial training. This authority cannot be sub delegated within the unit.
(c) The exception is in Phase 1 where the Deputy Stream Leader (normally CO HMS RALEIGH) Naval Core Training Stream has devolved authority from the Commodore Core Stream to approve Discharge SHORE DUDT. While COs of Training Establishments (of Capt RN rank or above in command) may approve such discharges without application to higher authority, it is important to maintain a clear audit trail of events leading to this decision.

(d) Chapter 57 articulates the warning procedures that are to be followed for all Naval ratings on the untrained strength (UTS). Training establishments should therefore refer to this Chapter in full. There are 4 distinct DUDT categories which can be applied:

i. **DUDT Academic.** Encompasses all trainees who are unable to complete the academic requirements of their UTS training.

ii. **DUDT NGT.** For trainees who are unable to complete the requirement in the ARFSA OPS (All Ratings First Sea Assignment Operational Performance Statement) and Training Performance Statement (TPS).

iii. **DUDT Contributory.** This will be applicable to any trainee who has failed to achieve the required standard on their professional course or is deemed by the Training School to be unsuitable for further training or unable to conduct their branch training and refuses any branch transfer which is offered by the Pipeline Manager.

iv. **DUDT Administrative.** Suitable for any trainee who leaves the Service due to an administrative issue.

(e) It is important that COs give unequivocal guidance on whether individuals who have been dismissed on the grounds of DUDT should be allowed to re-enter and, if so, the period of time that should be allowed to elapse between discharge and re-entry. Each of the four categories has a recommended guideline for re-applying to join the RN of:

i. DUDT Academic – 12-60 months.

ii. DUDT NGT – 18-60 months.

iii. DUDT Contributory – 18-36 months.

iv. DUDT Administrative – 3-60 months.
(f) All trainees being considered for Discharge SHORE DUDT are to be interviewed by the establishment's Diversity and Inclusion Officer, Personnel Selection Officer or a Head of Department to ensure that they have been fairly treated, and informed of the following:

i. Naval policy on Diversity and Inclusion (see Chapter 30).

ii. Definition of discrimination, harassment and bullying (JSP 763).

iii. Complaints procedure (see Chapter 23).

On completion of this interview, trainees are required to sign a ‘Statement of D&I Advice’ to confirm that they have received such advice.

(3) Discharge SHORE (Inadequacy)

(a) It should be noted that ratings and other ranks that hold the rate of Leading Hand (or equivalent) and above and who are unable to perform their duties due to inadequacy must first be warned for reversion following the normal warning process and reverted in accordance with the relative rates table at Annex 65A. If ratings and other ranks are still unable to perform the duties of the lowest rank/rate to which they can be reverted because of physical or mental incapacity (not of a nature to warrant invaliding) or incompetence or they may be discharged SHORE. Proof of inadequacy should normally be given by individuals' SJAR, warning reports and Annex 57D (formal warning proforma). These documents catalogue their failing and show that they have been ineffective for a period long enough to rule out any possibility of improvement. In appropriate cases, individuals may volunteer for transfer to another branch (dependent upon the Service requirement) or be recommended for reversion to their original branch and/or specialisation, as an alternative to Discharge SHORE.

(b) Invariably if an individual is unable to perform their duties satisfactorily, this would be manifested in an inability to perform in their professional branch specialisation. However, an individual who is not currently employed in their core professional specialisation but is nonetheless failing to meet their Terms of Reference at any given time may be warned for inadequacy. An example being when an individual assigned to the Recovery Cell/Waterfront organisation is given specific tasks to perform which are outside their core specialisation, and fail to perform these to the required standard. In this instance they may be warned for inadequacy. Another example would be repeated incidents which demonstrate an individual's inability to comply with Naval Core Values and Standards.
A possible example may be where despite repeated remedial instruction an individual is unable to comply with the most basic requirements of Service life such as cleanliness, presentation, punctuality etc. These examples are not exhaustive, and units should engage with the Casework Cell if they consider they have a situation of this nature.

(c) **Discharge SHORE (Inadequacy – Attitude to Fitness).** The warning procedure for a poor attitude to the required levels of fitness is detailed in BR 51 Volume 2, Chapter 2 - (RNFT Policy, Protocols, Instructions and Guidance). Persistent poor attitude to fitness may result in Discharge SHORE on the grounds of inadequacy (see Para 5443.a(3) sub para (a)). Applications forwarded to the Casework Cell for this reason should be accompanied by the relevant completed warning certificates, and relevant reports by INM, as appropriate and as detailed in BR 51 Volume 2.

(d) **Inadequacy of Individuals who have Completed more than 20 years (on an ES2), 18 years (on an FC) or 22 years (on an OE1) Pensionable Service.** The provisions of Para 5445 a (3) sub para (a) are not considered appropriate for individuals whose effectiveness deteriorates unduly after they have completed time for pension. The following procedure is to be followed therefore when ratings and other ranks who have completed more than 20 (ES2)/18 (FC)/22 (OE) years’ pensionable service become so ineffective in the discharge of their duties that, if they had less service, the question of reversion would have to be considered:

i. Individuals are first to be interviewed by their Head of Department and informed of their shortcomings. They are also to be warned in accordance with Chapter 57 (Level 2 warning) that, if no improvement takes place, their case will be reported to the CO with a view to early discharge from their engagement.

ii. If still dissatisfied, the Head of Department will report the case to the CO who will investigate it personally. Individuals are to be allowed to state their case with the assistance, if they wish, of an officer who need not be a Divisional Officer.

iii. If not satisfied, the CO is to warn such individuals in accordance with Chapter 57 (Level 3 warning) that an application will be made to the higher authority with a view to their discharge if a satisfactory improvement has not taken place at the end of one month.

iv. If, at the end of one month, the CO is still not satisfied, an application on the case, including the CO’s opinion whether or not such person’s ineffectiveness is within their own control, should be forwarded with the supporting evidence for decision to the administrative authority in accordance with Para 5442 sub para b above.
(4) **Discharge SHORE (Failure of Naval Annual Personnel Weapons Test) (NAPWT).** After an appropriate warning period, persistent failure of a mandatory NAPWT may result in Discharge SHORE under this Para if the rating or other rank is on the trained strength or, in the case of New Entry ratings and other ranks, Discharge SHORE under Para 5447 a sub para (2) (DUDT). The NAPWT failure policy is detailed in BR 8988 Chapter 12.

(5) **Discharge SHORE (Financial Irresponsibility).** Ratings and other ranks may be discharged SHORE for financial irresponsibility in accordance with QRRN Chapter 36.

(6) **Discharge SHORE (Obesity).** Ratings and other ranks who are unable to perform their duties satisfactorily due to obesity may be discharged SHORE - see BR 1750A (Handbook of Naval Medical Standards).

(7) **Discharge SHORE (Alcohol).** Addiction to alcohol is not compatible with service in the Armed Forces. Under circumstances where an individual’s efficiency, physical condition or value to the Service becomes materially impaired, Discharge SHORE may be recommended. See Para 5769 for more information. JSP 835 contains guidance for those with alcohol issues. Any application should normally demonstrate that the full range of treatments available to the individual within the RN has been utilised prior to submission.

(8) **Discharge SHORE (Medical Reasons)**

(a) Discharge SHORE of ratings and other ranks may be recommended on medical grounds, even where they may still be capable of performing satisfactorily the duties of the lowest rate/rank to which they can be reverted. These grounds include:

i. Sea sickness.

ii. Enuresis, provided that it is not a symptom of a more serious illness.

iii. RM other ranks who have appeared before the Naval Service Medical Board of Survey (NSMBOS) and are assessed as being Physically Unsuitable for Commando Service or training.

iv. Discharge SHORE is not to be recommended for those who can more properly be dealt with by invaliding - see BR 1991 (Instructions for the RN Medical Service). Applications for discharge on medical grounds must be accompanied by appropriate supporting medical evidence.
(b) Recommendations for Discharge in relation to Para 5445 a (8) (a) sub para (iii) and sub para (iv) above are to be referred to the NSMBOS and NSMEB. A medical recommendation for Discharge SHORE for seasickness or enuresis is to be brought to the immediate attention of the CO of the ship or establishment to which individuals are sent after medical examination (see BR 1991). Unless, exceptionally, the Commodore, Captain RN or CO considers that the medical recommendation cannot be supported, discharge may be authorised in accordance with Para 5444 and Para 5445. The individual should remain with the establishment until a decision is communicated.

(9) **Discharge SHORE (Temperamental Unsuitability).** Discharge SHORE of ratings and other ranks may be recommended for unsuitability of temperament, even where they may still be capable of satisfactorily performing the duties of the lowest rate/rank to which they can be reverted. Discharge SHORE on these grounds is an Executive responsibility but does require an assessment of the individual by a Service Consultant Psychiatrist in order to exclude any medical problem and to assess the severity of any degree of temperamental unsuitability. When a discharge is considered due to temperamental unsuitability, the application must be accompanied by supporting psychiatric evidence. See Annex 54D for specific instructions.

(a) **Discharge of Ratings Approaching Pension.** Consideration of whether to discharge a rating approaching pension must take full account of the great financial consequences in loss of terminal grant and immediate pension. If an individual is within three years of pension, the case must be forwarded to the Casework Cell for a decision. When a warning is appropriate under Chapter 57 Section 8, a record of the warning must be recorded on a Special SJAR and included in any submission for discharge.

(b) **Authority.** Discharge SHORE may be authorised as set out in Annex 54A.

(10) **Discharge SHORE (Best Interests of the Service).** Although the above types of Discharge SHORE are the normal method of dispensing with the services of ratings and other ranks whose retention is undesirable because of their unsuitability, it is not possible for the regulations to cover every eventuality. Where Command is unable to determine an appropriate method as detailed above, then an application may be considered on the basis of the Best Interests of the Service. This method of discharge will only be available in wholly exceptional circumstances. For example, a rating who won the National Lottery but who was behaving inappropriately, such as paying colleagues to cover his duties. This method is not to be used to capture a number of minor transgressions which are covered by other methods of discharge or to amalgamate them into sufficient reason to discharge an individual. Each instance must be considered on a case by case basis and advice should be sought in the first instance from the Casework Cell or regional legal adviser.
5447. **Discharge Services No Longer Required (SNLR) – General Instructions**

a. Discharge Services No Longer Required (SNLR) is not a punishment but neither is it an honourable release and it can impair a rating or other rank’s prospects of employment on return to civil life. It will also normally prevent re-enlistment (see Para 1208).

b. Discharge SNLR is the appropriate method of dispensing with the services of personnel who have tested positive for prohibited/non-prescribed drugs, personnel who have involved themselves in the misuse of drugs (including the possession of drugs paraphernalia) or unruly or undisciplined individuals whose retention would be to the detriment of the Service but who have not committed an offence which, either in itself or in association with their past record, would justify a sentence of dismissal.

c. Discharge SNLR is not only appropriate to ratings and other ranks whose service conduct merits discharge but also when a conviction by the civil power makes their retention undesirable (see QRRN 3906.4). In the case of the latter, application for Discharge SNLR would be in the form of a Service Penalty (C57). Discharge SHORE may be considered as an alternative to Discharge SNLR in accordance with QRRN 3906.4.3.

d. It should not normally follow immediately after a sentence of detention but may do so exceptionally when it is obvious that the sentence has had no reformatory effect. In such a case, if it is considered that a rating should not return to the Fleet on completion of their sentence, even for a short time, a recommendation for a rating’s discharge should be submitted. The exception to this is those individuals who have been sentenced to a period of detention following their conviction for a drugs related offence where application for their discharge would be the normal course of action. In all such cases, the advice of the Casework Cell or regional legal advisor must be sought prior to any action being taken.

e. **Procedure.** A Discharge SNLR should be in accordance with the general procedure and format for administrative applications detailed at Annex 1E. Additional documents relevant to the circumstances, such as CDT paperwork, police report or toxicology reports should be sourced and relied upon as required.

f. Where a rating or other rank has been informed of the grounds for consideration of their discharge, but the reason for discharge is subsequently amended, the subject must be advised of the change and given the opportunity to state further representation before any action is taken by the approving authority.

g. **Authority Required.** Annex 54A details those personnel who are delegated authority to approve Discharge SNLR. Action should be taken in accordance with the general instructions at Annex 1E. If the case is subject to Parliamentary correspondence or enquiry, it should be brought to the attention of the Navy Command Policy Secretariat at the earliest opportunity and the Casework Cell on initial consideration of discharge.
h. **Warnings.** Full detail and explanation of the Warnings process is covered in Chapter 57 and should be read in full before any application for Discharge SNLR is made. In all cases (with the exceptions of CDT and drug abuse), it is expected that individuals will normally have been formally warned by the CO/Executive Officer of their shortcomings and given a period in which to reform as in Para 5444 sub para c (also see Chapter 57 Section 7) before an application is made for discharge. Para 5445 is to apply to warnings if the individual is approaching pension. This warning may be dispensed with in cases in which it would not be appropriate, for example after a serious civil conviction.

i. **Documentation Required.** As a minimum, prior to discharge the CO must prepare a letter either to higher authority or to the individual concerned (where the CO has authority to approve discharge) outlining the reasons for the proposed discharge and the relevant policy references. If applicable, any other documents relied on should be attached to this letter eg. CDT report, warnings, discipline history (see Annex 54E). The individual should then provide either a signed Representation against discharge or a waiver of the right to submit a Representation (an example is at Annex 54J). This, together with the ‘Special’ SJAR, should be provided to the officer delegated to approve the potential discharge. He or she should then decide whether or not to approve discharge and write either to the applying CO or, where the CO is making the decision, to the individual, explaining what their decision is and the reasons why they have come to it.

j. **Reporting Approval of Discharge SNLR.** When Discharge SNLR is approved, the Career Manager must be advised and JPA is to be annotated accordingly (see JSP 760).

k. **Date of Discharge.** The operative date of Discharge SNLR should be the earliest date on which discharge formalities can be completed after the decision to discharge has been taken and notified. When a rating or other rank is approaching pension, the provisions of Para 5445 are to be applied. All individuals serving abroad will be returned to the UK for discharge formalities except those who are to be discharged on the station at own request (Para 5407) and those to be discharged as a Naval penalty who will complete their career or engagement whilst undergoing a sentence of imprisonment. Individuals who cannot carry out the normal discharge routine - ie. those at home who have not returned to duty following civil conviction by the time approval is received to discharge them as a Naval penalty, and those abroad who are to be discharged as a Naval penalty and are not to return to the UK for discharge formalities - will be discharged while serving their civil sentence.

l. Individuals discharged should be reminded of their right of complaint against discharge in accordance with JSP 831.

m. **Advice on pensions, terminal grants, terminal leave and resettlement entitlement** can be sought by the individual from the relevant SMEs including JPAC, Resettlement Team, UPO, Career Manager and the individual’s own JPA account.
n. **Forfeiture of Long Service and Good Conduct Medal.** Forfeiture of the LS & GC Medal is a consequential effect of Discharge SNLR (see QRRN Para 3906.5 and JSP 830 (Manual of Service Law)).

o. Where discharge SNLR is deemed appropriate any outstanding ROS will be waived, but financial liabilities will only be waived in exceptional circumstances at the discretion of the deciding officer following consultation with the Terms of Service Team/Casework Cell.

5448. **Circumstances in which Discharge Services No Longer Required (SNLR) may be Appropriate**

The following are the different circumstances where Discharge SNLR may be appropriate. When placed on warnings, an individual is to be specifically informed which circumstance they are being warned for. An individual may be on more than one warning concurrently eg. Discharge SNLR (Unruly) and Discharge SHORE (Inadequacy).

a. **Discharge SNLR (Unruly).** When considering a decision to apply for Discharge SNLR in cases of unruliness, COs should be mindful that there should usually be evidence that the individual is on warnings for Discharge SNLR (Unruly) and has received one of the following punishments in the past but has re-offended, thus demonstrating that the punishment has not had the desired reformatory effect: Dismissal, Detention, Disrating, Service Supervision Punishment Order (SSPO) (Second Class for Conduct (Under the NDA)) (these were collectively known as ‘warrant punishments’ under the Naval Discipline Act). Individuals who have not previously received one of the above punishments will only be considered for Discharge SNLR (Unruly) in exceptional circumstances.

b. **Discharge SNLR (Compulsory Drugs Test) (CDT) or (Drugs Misuse).** The unique position of the Armed Forces is such that misuse of drugs is incompatible with the Service. Positive results from CDT will result in Discharge SNLR in all but the most exceptional cases. COs are advised to consult tri-Service policy on a positive CDT result or drug misuse in JSP 835 and at Chapter 21 Section 4 (ethos, values, standards and personal matters).

5449. **Complaints Against Discharge SHORE/SNLR**

a. Ratings and other ranks who complain against a decision to discharge them authorised under the provisions of this Chapter will not be retained in the Service pending a decision on their complaint.

b. Service personnel due to be discharged are to be reminded of their right to submit a Service Complaint in accordance with JSP 831 and informed that, if they wish, they may have a period of up to 24 hours in which to decide whether to state a complaint. Those who so decide are allowed a period of up to 48 hours to prepare their complaint. Discharge will be effective immediately on completion of the statement of complaint and the discharge routine. Failure to make a Service Complaint within this period does not affect an individual’s right to make a Service Complaint after they have been discharged.
Guidelines on handling complaints are as follows:

(1) The Career Manager is to be advised without delay, by signal, where discharge is associated with a complaint under action.

(2) The MOD has no jurisdiction to restrict the movements of a discharged rating or other rank pending resolution of the individual's complaint. At the time they state their complaint, it should be explained to them that their absence from their permanent address - to which notification of the decision on their complaint will be sent - may lead to delay in their return to service if the complaint is upheld since they may be required officially for reasons connected with their complaint. It is the complainant's responsibility to keep their former CO informed of any changes of address and/or circumstances.

(3) At the time an individual states a complaint, they should be informed that there may be some delay in finalising their pay and any monetary adjustments pending resolution of the complaint. Whilst immediate pension payments will be made at the appropriate date and recovered if the complaint is upheld, any lump sums due will be withheld pending resolution of the complaint.

(4) If the complainant is reinstated, individuals are to be paid as if they had not been discharged. The period between discharge and reinstatement, if attracting full salary, will count as reckonable service. Any Special Pay or other forms of additional pay, as specified in JSP 754, to which the individual was entitled during the period missed will be paid retrospectively. If the complainant is reinstated but disrated/reduced in rank, unless specified otherwise (eg. in a decision on a Service Complaint), they are to receive back pay and special pay or additional pay to which they were entitled for the period between discharge and reinstatement at the lower rate/rank. For the purpose of re-advancement or re-promotion, time is to be counted from the day they re-enlist in the Service.

(5) The Career Manager will advise the Defence Housing Executive of any cases where the complainant is the occupant of Service Families Accommodation (SFA). Provided that the complaint is resolved within the 93-day notice to quit period, there should be no difficulty for entitled persons occupying married quarters whose complaint is subsequently upheld.

(6) Release Centres will hold documentation until the complaint has been resolved. The Service records need not be closed, and no record of discharge need appear if subsequently the complaint is upheld. At the time they state their complaints, individuals should be informed that their final documentation will be delayed pending the resolution of the complaint.

(7) Release Centres are to retain the complainant's kit until their discharge has been confirmed.
(8) Where a complaint is upheld, and the complainant does not wish to return to the Service, their release should be annotated as discharge as of right on notice with the notice period being waived, unless stipulated otherwise in the final decision.

(9) All complaints against Discharge SHORE/SNLR are to be treated expeditiously.

5450. Assessment and Recommendations for Further Naval Service

a. All Naval officers, ratings and other ranks about to be discharged are to receive an appraisal report (Occasion: Prior to Retirement) from the final employing unit prior to joining the nominated Release Centre.

b. Those who leave the Service before normal retirement age, except for those for whom the reason for discharge precludes consideration for further service (officers administratively discharged; or ratings/other ranks discharged 'Deserted', 'Dismissed', 'SNLR', or 'SHORE'), are to be assessed and a recommendation made as to their suitability for further Naval Service. The statement 'Recommended for further Naval Service' or 'Not recommended for further Naval Service' is to be included in the 2RO potential narrative.

c. Further detail may be found in Chapter 57 (Appraisal and Warnings) and Para 1211.
SECTION 8 - RELEASE PROCEDURES AND PAYMENTS ON RETIREMENT

5451. Retirement Advice
A retirement package containing advice on future employment, civil and Service benefits, transition into civilian life and Naval Associations is provided to every officer leaving the Service by Veterans UK.

5452. Release Procedure

a. Officers placed on the Retired List, Emergency list or who are otherwise discharged from the Service will normally be assigned to HMS DRAKE, HMS NELSON or CTCRM for release procedures. Attendance at these Release Centres by the individual officer is not usually necessary.

b. **Ratings and Other Ranks Serving in the UK.** The discharge of individuals on completion of a Career or Engagement or on 12 months’ notice is to be undertaken by Unit Release Centres. Ratings will be assigned to appropriate Unit Release Centres by their Career Manager, with a copy of the Assignment Order being sent to the Release Centre concerned.

5453. Release Actions
The following actions need to be completed:

a. **Medical Examination.** All personnel are to be given a final release medical examination before leaving the Service in accordance with BR 1991 Para 2005.

b. **Personal Loan Items.** Personal loan items (e.g. respirators) are to be returned on release to the nearest Naval ship or establishment or to the Base Logistics Commander.

c. **Documentation.** Under current arrangements, all Service Leavers will receive a Service Leaver’s Pack from the Termination Cell, Veterans UK(G), about 9 months prior to their termination date.

d. On release, personnel are to surrender MOD Form 90 (Service Identity Card), all Service rail and coach cards and other forms of security pass to their ship or establishment’s administration office or Base Supply Officer.

e. Two copies of MOD Form 135 (Official Secrets Act) are included in the current termination packs and must be signed by all officers on release from the Service. Release Centres are to verify this or ensure that a copy of MOD Form 135 is signed in their presence and one copy forwarded to DBS JPAC (the other copy is to be retained by the officer).

5454. Promulgation of Release
The details of officers completing active service are promulgated in the Officers’ Assignment List, which is the authority for release and gives the final date for pay. An entry in the London Gazette is made for officers leaving the Service on completion of commission, at a break point, on voluntary retirement, on invaliding, or on redundancy.
5455. Terminal Leave
Terminal leave is granted so that, entitled personnel may use their last weeks in the Service to seek employment and make appropriate domestic arrangements. Regulations concerning an individual’s entitlement are contained in JSP 760.

5456. Payments on Retirement
The detailed regulations for retired pay, gratuities and terminal grants are incorporated in JSP 754. Individual enquiries from personnel concerning entitlement should be addressed to Veterans UK, Kentigern House, 65, Brown Street, GLASGOW, G2 8EX.

5457. Retired Pay
a. An officer must have completed at least 16 years’ reckonable service over the age of 21 to be awarded immediate retired pay. Awards are governed by rank and length of service with specific adjustments dependent upon the period of time substantive, higher and acting rank may have been held.

b. Retired pay is not normally index-linked until age 55 when interim and subsequent pension increases are applied.

5458. Terminal Grants
When immediate retired pay is awarded, a tax-free terminal grant is paid equal to three times the annual rate of basic retired pay.

5459. Commutation
Commutation is a method of raising a lump sum in addition to the terminal grant by agreeing to receive a lower rate of retired pay. Commutation is subject to medical fitness and MOD approval. Specific regulations are applied to the amount of resettlement and life commutation that may be paid.

5460. Preserved Pension
A preserved pension and, in certain circumstances, a preserved terminal grant, is awarded to those on pensionable terms who do not qualify for an immediate pension but have completed two years’ service. A preserved terminal grant of three times the annual value of the pension may be payable in certain circumstances. The preserved pension and preserved terminal grant are payable at age 60, increased in value to restore the purchasing power which they had on first award and maintained at that level through annual pension increases. The preserved pension and preserved terminal grant are not awarded to officers on gratuity earning short career commissions.

5461. Resettlement Grant
Officers who leave the Service with the award of a preserved pension may be awarded a resettlement grant provided they have completed at least nine years’ reckonable service.

5462. Death Benefits
On the death of a Service person, payment of their pay or pension, or proportions thereof, to the widow/widower and entitled children is dependent upon specific factors. Details are included in JSP 754.
5463. Premature Discharge Within 3 Months of Completing Service and Pension Entitlement

a. Eligibility (Armed Forces Pension Scheme 1975 (AFPS 75))

(1) Ratings and other ranks who are serving on an Open Engagement (OE1) and are members of AFPS 75 are eligible to apply for premature discharge under this rule. Such individuals may apply to their CO for permission to take premature discharge not more than 91 days before the discharge date for the purpose of taking up an offer of civilian employment or educational study if the offer cannot be held open until after the OE1 discharge date. Individuals who are serving on OE1 (and have not accepted Second Open Engagement (2OE) or Extended Career (EC)) must have completed at least 21 years 274 days’ reckonable service before leaving in order to qualify for an immediate pension. Pension benefits will be calculated on the basis of reckonable service earned up until the actual date of leaving.

(2) Individuals who are serving on a 2OE/EC and are members of the AFPS 75 may also apply for premature discharge not more than 91 days before the discharge date for the purpose of taking up an offer of civilian employment or educational study if the offer cannot be held open until after the 2OE/EC discharge date. Individuals in this circumstance should have already fulfilled the reckonable service requirement for an immediate pension by having completed OE1\(^3\).

b. Eligibility (Armed Forces Pension Scheme 2005 (AFPS 05))

(1) Ordinarily under this pension scheme, any individual who applies for premature discharge before their Normal Retirement Age (NRA) of 55 will qualify for a tax-free Early Departure Payment (EDP) lump sum, equivalent to three times their annual preserved pension, and a monthly taxable EDP income worth not less than 50% of their annual preserved pension. This will increase to 75% of their preserved pension at age 55. Once they reach age 65, the monthly EDP income ceases and at this point the individual will receive their preserved pension and pension lump sum.

(2) However, since 6 Apr 10, all officers, ratings and other ranks who are members of the AFPS 05 are also eligible to apply for premature discharge under ‘the 91-day rule’ as long as they are serving on a commission, career or engagement that will give them a NRA of 55. These individuals may apply to their CO for permission to take premature discharge not more than 91 days before their 55th birthday for the purpose of taking up an offer of civilian employment or educational study if the offer cannot be held open until after the discharge date. The period between their actual date of leaving and age 55 will be recognised as qualifying service but not reckonable service for pension purposes.

---

\(^3\) The Naval and Marines Pensions (Armed Forces Pension Scheme 1975 and Attributable Benefits Scheme) Order 2010 effective 6 Apr 10 refers.
That means that the calculation of their pension and pension lump sum will be based on reckonable service earned up until their actual date of leaving and paid when an individual reaches age 55 (JSP 764 Para 0301 refers).

c. **Ineligibility.** The following personnel cannot apply for premature discharge under this rule:

1. Officers who are members of AFPS 75.
2. Ratings and other ranks who are members of AFPS 75, are serving on an OE1 and have already accepted and signed up to a period of 2OE/EC, since their discharge date will already have been amended to reflect the end date of the 2OE/EC.
3. Individuals who are members of AFPS 05 whose NRA is before age 55 or who applies for premature discharge to leave before age 55 (except where permitted under the 91-day rule).

d. **Authority for Premature Release.** COs may authorise premature discharge, subject to verification of the reasons why the offer could not be held open until the normal date of discharge and clarification of the individual’s pension position. The appropriate Career/Branch Manager should be advised of the change in date of discharge, whereupon the necessary JPA action will be taken.

e. **Effects on Conditions of Service**

1. Individuals are strongly recommended to seek clarification of the effects that any early release may have on their pension entitlement from the Veterans UK (Pension Division), noting that generic printed advice and in particular the online Pensions Calculator are not sophisticated enough to incorporate the 91-day dispensation by design.

2. The length of service requirement for 91-day rule applicability dictates that eligible individuals will necessarily qualify for maximum Graduated Resettlement Time (GRT) and Terminal Leave (TL). GRT is designed to be taken in the period 2 years prior to discharge whereas TL is granted on completion of service. It follows that circumstances will arise when all, some or no GRT has been taken at the time early discharge under the 91-day rule is approved. In turn, the ability to take GRT during foreshortened service will depend on time remaining, the opportunity and permission to undertake specific GRT activity. It may be possible to take GRT in lieu of TL (JSP 534 Article 0356 applies), with the effect that the service leaver is ‘on duty’ and entitled to duty travel and subsistence. GRT cannot be used to defer an individual’s discharge date (exceptionally allowed elsewhere where GRT entitlement cannot be utilised). Eligible personnel on Terminal Leave may undertake concurrent paid civilian employment in accordance with JSP 534 Article 0357.
In all cases, individual circumstances should be discussed and agreed with Line Managers, COs and Branch/Career Managers at the earliest opportunity.

5464. Other Pension Arrangements

Detailed advice concerning the transfer of pension rights and the purchase of added years and other Additional Voluntary Contributions may be obtained from Veterans UK.

5465. Discharge - Additional Procedures to be adopted for Foreign & Commonwealth Members of the Naval Service

Non-British recruits who do not hold British citizenship and are granted ‘Exempt from UK Immigration Control’ status on joining the Naval Service lose this status at the point they are discharged from the RN or RM. In order to fulfil the MOD’s duties as a responsible employer, the Home Office’s UK Visa and Immigration Team must be notified of non-British personnel who are discharged, or about to be discharged, from the Naval Service so that appropriate arrangements can be made to regularise their immigration status in the UK, post-discharge. Commanding Officers, Career Managers, Release Centres and any other units that have responsibility for the release of non-British Naval Service personnel must be aware of the legal and important need to ensure that the actions outlined below are being carried out.

a. Actions to be taken:

(1) Inform Home Office in advance of Discharge. Where the date of an individual’s discharge is known in advance, the proforma at Annex 54H is to be completed by the unit and faxed to the Home Office to enable them to prepare any paperwork necessary. In order to assist the individual with a smooth transition to civilian life, this action should be taken, wherever possible, up to 10 weeks before the actual discharge date. The names of any spouse/civil partner or dependent children should be included. The name and address, email, telephone and fax numbers of the discharging unit must also be added. The discharging unit is to retain the original proforma within the individual’s discharge file.

(2) Provide Advice to non-British members of the Naval Service in Advance of their Discharge Date. At least 3 months prior to discharge Commanding Officers, Career Managers and Release Centres are to ensure that officers, ratings or other ranks are informed of the following:

---

4 At the point that a F&C citizen enlists into the Armed Forces, he or she automatically becomes exempt from UK immigration control under Section 8(4)(a) of the Immigration Act 1971; any existing UK visa restrictions are suspended whilst serving.

5 This is not required in the case of Irish or Malta/Cyprus (EU) nationals, all of whom have freedom of access to the UK and do not need a vignette.

6 Where Naval personnel are discharged from MCTC, the MCTC is to liaise with the individual’s former unit to ensure that their responsibility for briefing the individual and notifying the Home Office has been carried out. If it has not, then MCTC is to assume this responsibility.
(a) That if they have not sought British citizenship and wish to apply for settlement, their applications for Indefinite Leave to Remain (ILR) may be submitted on Form SET(AF) or for Limited Leave to Remain on Form FLR AF to the Home Office up to 10 weeks prior to the date of discharge (see Para 5465 sub para b). If they apply at this point their transition to civilian life will be eased as the Home Office will provide them with an ‘indicative’ letter to assist them in making appropriate arrangements for employment after discharge and for liaising with the relevant authorities for housing, healthcare and benefits during transition to civilian life, and be able to grant them ILR the day after their discharge providing they meet the requirements of the Immigration Rules (immigration law does not permit Service personnel to be granted ILR whilst still serving and exempt from control).

(b) It is the service person’s responsibility to regularise their immigration status and that of their dependents if they wish to remain in the UK and seek work after their discharge. Units must provide officers, ratings or other ranks seeking discharge with the Home Office contact details at Para 5465 sub para i and assist them in obtaining the appropriate application forms and any further information they require.

(c) Those who have served for a period of 4 years or more in the RN/RM will have this time taken into account by the Home Office if they, their spouse/civil partner and their dependants apply for ILR/settlement in the UK (ie. permission to reside and work in the UK for an indefinite period). Where an individual is being medically discharged with less than 4 years’ Naval Service directly due to injuries sustained on operations, special arrangements are in place for either Limited leave to Remain or Indefinite Leave to Remain applications; additional detail is provided at Para 5465 sub para g.

(3) **At the Time of Discharge.** Commanding Officers of Release Centres are to ensure that the following actions area taken:

(a) On the final day of service, or immediately if an officer, rating or other rank refuses to release their passport, and preferably on the same page as the “Exempt from immigration control” stamp or vignette (introduced in February 2010), the individual’s passport should be endorsed with the cessation stamp (see below) plus the date of discharge stamp which should appear immediately below the cessation stamp. Neutral date stamps must be used: unit stamps that identify the individual as a current or former member of the Naval Service must not be used and the ‘Exempt from immigration control’ stamp must not be struck through. The format and wording to be used for the cessation stamp is as follows:

---

7 Individuals who have not already sought UK citizenship and who have completed 4 years’ service with HM Forces may apply for settlement (also known as Indefinite Leave to Remain) up to 10 weeks prior to discharge – see sub-para b.
(b) Prior to the individual’s last day of discharge or on the actual last day, the Home Office will send a letter to the unit for the officer, rating or other rank (and separately for any spouse/civil partner and dependants). The letters will normally grant the individual and any dependants 28 days ‘Leave to Remain’ in the UK. During these 28 days, the spouse/civil partner or dependants may continue to work but all are required to apply for **Indefinite or Limited Leave to Remain** (as appropriate) or to leave the country before this period of leave expires. Once the individual and his/her dependants have lodged applications for Indefinite or Limited Leave to Remain, they are able to remain in the UK legally whilst their applications are processed. Where units are aware of individuals seeking employment immediately after discharge, who need advice about working legally and their immigration status, they should refer them to the Home Office for advice. **Note:** Discharged Foreign and Commonwealth (F&C) individuals are not permitted to seek or engage in employment after the 28 days have expired whilst the application is pending. They do not have a continuation of leave pursuant to Section 3 (C) of the 1971 Immigration Act. It is for this reason that it is prudent to submit an application **10 weeks prior to discharge**.

(c) If the unit does not receive the letter(s) from Home Office on the day of discharge, they should contact the Home Office Armed Forces Team; contact details are at Para 5465 sub para i. One copy of the letter(s) should be handed directly to the officer, rating or other rank who should be asked to confirm receipt by signing the letter. If the individual is not present, or if he/she refuses to provide a signature of receipt, the discharging officer should sign and endorse the letter accordingly. The unit is to email a copy of the signed letter(s), together with a copy of the completed Annex 54H proforma (after updating column B), to the Home Office.
b. **Further Advice to be Given on Discharge.** When the officer, rating or other rank is in receipt of the letter(s) from Home Office, they should again be reminded by the Discharging Officer that a person discharged from the Armed Forces after 4 years' service or more may apply for settlement under the HM Forces rule. The individual must be made to understand that they are personally responsible for contacting the Home Office and for applying for **Indefinite Leave to Remain** or, otherwise, to leave the country before any leave to remain they may have been granted expires. Applications for ILR should be made on form **SET(AF)** and sent, with the appropriate fee, to the address given on the form. Individuals should make it clear on the **SET(AF)** application form, which is unique to those serving in HM Forces and their family members, that they are applying on discharge and tick the category within the AF Forms ‘**A Former Member of HM Forces on Discharge under Appendix Armed Forces**’ and provide documentary evidence of time spent in the Armed Forces. Discharging units should assist by providing individuals with a unit letter confirming the period of service.

c. **Cases Where it is not Possible to Give the Home Office Advance Notification.** Discharging units should make every effort to give the Home Office advance warning of the date of discharge from the Naval Service, even if this is only possible on the day of discharge itself. However, there may be occasions where this does not prove possible. In such cases, discharging units should at the very least attempt to endorse the individual’s passport with the cessation stamp and ensure that a copy of Annex 54H proforma giving the individual’s details (and those of any dependants), including their post-discharge UK address and column B details, is sent to the Home Office. The individual should also be given the advice detailed in Para 5465 sub para a and sub para b, plus the Home Office contact details.
