7. **QHM WEB SITE**

8. **THE DAILY MOVEMENTS PROGRAMME**
The Movements signal is a message issued at 1100 GMT daily that gives details of known shipping movements in and out of the port for the following day. Movement messages for Saturday, Sunday and Monday are issued on Fridays. The message primarily covers Naval and Ferry shipping movements. It consequently should not be relied upon for traffic in and out of the Cattewater where commercial practices apply. The message also gives tidal information, sunrise and sunset times, and the status of PLNTM and PLYMNAVWARNS. It is primarily for Naval authorities but other mariners may find it of assistance. Organisers of sail racing events in the Sound or Hamoaze are encouraged to use this facility. Notwithstanding the programmed movements, mariners are reminded that it is but a plan; it may change, and may thus not represent what is truly happening. It should be consulted after 1200 daily for the following day's shipping movements. Leisure users are to be aware there is a sanitised copy of movements which is posted on the web at the following site:
(www.qhm.mod.uk/plymouth/movements)
